### Reference:
TR 92 – 15

### Location:
Hay Street - Oriental Bay

### Proposal:
No stopping, at all times.

### Information:
Council Officers have received a request from a resident in Hay Street expressing concerns regarding vehicle accessibility along Hay Street, and in particular, outside property number 13 Hay Street where the road is at its narrowest point.

This section of Hay Street is particularly narrow and steep. Coupon parking spaces are currently in place on one side of road and operate 8am to 6pm Mondays to Fridays. The narrowest point is only 4.5 metres wide, which makes it difficult for large vehicles to get through when vehicles are parked, and in particular, outside number 13.

Consultation has been undertaken with the Fire Services and there are concerns that emergency vehicles of this type would not be able to access the street when vehicles are parked on one side of road and after an on-site trial with their fire appliances, the New Zealand Fire Service recommends the removal of one car parking space.

Council Officers therefore propose to install an additional 7 metres of No Stopping Restrictions outside property number 13 Hay Street, in order to improve the safety and accessibility in this area and to service the residential properties.

Net parking loss: 1 Coupon Parking space.
