Personal information is used for the administration of the submission process and will be made public. All information collected will be held by Wellington City Council, with submitters having the right to access and correct personal information.
The grounds of my objection are

1. that it is inappropriate to have a small island of land zoned “Business Area” in between an area already zoned for commercial and business purposes namely Karori, Marsden village, Staden St and Northland shopping area. In addition it is a relatively short distance to the Crofton Downs complex currently under re-development.

2. The area in question is predominantly residential and the proposed plan change would make the area considerably less attractive for existing property owners and off putting for potential home seekers. Any development is likely to be visually unattractive unless strict conditions were applied to any Resource/building consents.

3. The proposed use does not sit well with Child Care Centre currently under construction.

4. There are a number of safety issues. In particular traffic concerns. Curtis Street is very narrow and winding and already carries a reasonably busy traffic flow. Many residents do not have off street parking. Accordingly additional traffic is liable to create congestion and dangerous situations for both vehicles and pedestrians. The junction of Curtis and Whitehead Road would become more congested. The junction of Curtis and Chaytor St is already difficult and extra traffic would exacerbate the problem. The area in question is not sufficiently close to bus routes to make it attractive to users of public transport.

5. Other safety issues are the proximity of Dog Exercise Area, BMX Track and Skateboard facility. All these facilities involve people and animals whose behaviour and actions can be unpredictable A cause for concern with increased traffic activity in the area. In addition nearby Ian Galloway Park is heavily used for sporting and recreational activity

6. Environmental concerns. It is an established fact that the area is on the corridor from Karori Sanctuary through to Wilton bush/Otari. Extensive efforts have been made by volunteers in Otara Albemarle and the Sanctuary to clean up and replant the Kakiwharawhara Stream and surrounding areas. Commercial development is liable to re-introduce pollution and negate the good work completed. It is acknowledged that there is a strong glowworm colony adjacent to the site which is also likely to be put at risk by any commercial development. What do we know about the leeching from the former tip area and its longterm effects
