### Submission No. 1
**Horokiwi Community Association**  
C/- Dr. Sydney J. Shep  
PO Box 6386  
WELLINGTON  

**Submission**
- The submitter supports the proposed DPC 36 in principal.
- General concerns about DPC36 being an ‘interim’ measure towards the full implementation of the Northern Growth Management Framework and the likely effectiveness of the proposed Plan Change in achieving the NGMF’s objectives.
- Concern that Policy 4.2.1.1(a) fails to define the eastern boundary of the Northern Growth Management Framework area.
- Concern that the western boundary of Horokiwi is not clearly defined and that the identification of rural land for northern growth in the NGMF might conflict with the Horokiwi specific Rural Subdivision Rules.
- Concern about lack of guidance on rural residential development on the edge of Horokiwi to provide a buffer for the rural community.

**Decision Sought**
- WCC to revisit the status of DPC 36 as an ‘interim’ measure and consider full adoption of the Northern Growth Management Framework instead.
- WCC to develop the proposed ‘Capital Spaces’ plan and clarify the eastern edge of Wellington’s urban development.
- Clarification of Horokiwi’s actual and historic boundaries to avoid ambiguities in interpretation of the NGFM, District Plan provisions and Horokiwi Rural Community Plan.
- Formation of a Rural Residential Design Guide to account for proposed development in the NGMF area.

### Submission No. 3
**Director General of Conservation**  
c/- Conservator  
Department of Conservation  
PO Box 5086  
WELLINGTON  

**Submission**
- The submitter conditionally supports the proposed DPC 36.
- Concern that the explanatory text for policies 4.2.4.2 and 14.2.4.1 insufficiently regards the ecological values and principles expressed in the Northern Growth Management Framework.

**Decision Sought**
- Amendment to the explanatory text of policies 4.2.4.2 and 14.2.4.1 to recognise ecological values.
## SUPPORT AND OPPOSE / SEEK AMENDMENTS

<table>
<thead>
<tr>
<th>Submission No. 4</th>
<th>Glenside Progressive Association</th>
<th>Barry Blackett 1 Westchester Drive East Glenside WELLINGTON</th>
<th>Do not wish to speak at the hearing</th>
</tr>
</thead>
</table>

### Submission
- The submitter generally supports the Northern Growth Management Framework and the proposed Plan Change.
- The submitter specifically supports the inclusion of the Rural Area Design Guide as a method under 14.2.1.1(a) and the inclusion of Rural Area and Subdivision Design Guides under 14.2.4.1.
- The submitter opposes some proposed roading links, as well as earthworks and residential subdivision that do not follow best practice as defined by the Subdivision Design Guide.
- The submitter is concerned that resource consents for residential subdivision on rural land may be granted while affecting ridgelines, remnant bush or streams, or are not in full accord with the principles of the Northern Growth Management Framework.
- The submitter suggests that all subdivision consent applications should be appraised by local Community Association prior to approval by the Council.
- The submitter suggests that areas identified for future development should be added as an appendix map.
- The submitter seeks clarification of policies 4.2.4.2 and 14.2.4.1.
- The submitter seeks to include a definition of ‘intended infrastructure’ (as used in policies and explanation of 4.2.1.1, 4.2.4.2, 14.2.1.1 and 14.2.4.2).

### Decision Sought
- Revision of the wording of policies 4.2.4.2 and 14.2.4.1.
- WCC to provide a map outlining areas subject to the Northern Growth Management Framework that are considered suitable for rezoning and subsequent residential development.
- Rigorous application of the design guides to all new developments.
- Community involvement in concept planning.
- Notification of all consent applications of more than 5 lots.
- Adoption of local knowledge from communities on possible adverse effects.
- Independent assessment of possible adverse effects of any resource consent application.
- Cooperation with GWRC when granting consents involving streams.
- Ensure that ridgelines, bush remnants and streams are properly protected.
