2.0 INTRODUCTION & PURPOSE OF THIS REPORT

Pursuant to Section 73(2) and Part II of the First Schedule to the Resource Management Act 1991, Jarden Properties Limited requests a change to the Wellington City District Plan for the purpose of

a) Establishing an appropriate zone that will enable the final Stage (8) of Bellevue Residential Estate, to be developed for residential purposes, namely outer residential.

b) Rectifying zoning anomalies that result following the actual development of the wider Bellevue Residential Area to reflect the true and intended use of the land.
The requested Plan Change would not affect the overall zoning policy framework of the District Plan and can be achieved through a rezoning exercise, with only one change to a Policy presently set out in Volume 1 of the District Plan.

The purpose of this document is to explain and support the Plan Change being sought, in particular –

- The purpose of the Plan Change being sought,
- The reasons why the Plan Change is needed,
- Details of the development that would occur following the Plan Change being made operative,
- An assessment of environmental effects that may arise from the change and development potential that will be created,
- An evaluation of the purpose of the Plan Change in accordance with Section 32 of the Act.

If the Plan Change request is successful this will be followed by a resource consent application being submitted for the subdivision and development of Stage 8 for residential purposes as shown on the indicative subdivision layout shown in Appendix Seven. It is at the subdivision consent stage that the local authority will make a final decision on the layout of allotments and the roading.

3.0 PROPOSED PLAN CHANGE

3.1 Explanation

The purpose of this Plan Change is to amend the zoning of land mapped within Planning Map 24 to reflect the actual use of land and to enable the residential development of land currently zoned for rural purposes.

The Plan Change would rezone the Stage 8 area from Rural to Outer Residential, bringing the land under the control of the relevant Objectives, Policies and Rules for the Outer Residential Area.

The Plan Change would also amend Policy 4.2.9.2 to include a reference to a connector road between Glarmire Road and Durnett Street for the purposes of promoting accessibility and efficiently within the road network as was signalled within the Transitional District Plan Maps (refer Appendix Six).

The Plan Change, once operative will enable the development of
the land, after the obtaining of resource consents for subdivision and earthworks for residential purposes.

3.2 Amendments to the District Plan

Amend Planning Map 24 of the District Plan as shown on TCB plan 99325-16 & CZ-01 showing areas to be re-zoned and TCB plan 99325-17A showing the new zoning map. Both plans are attached in Appendix Three.

Amend Policy 4.2.9.2 by adding the following wording to the policy:

Provisions for... in some circumstances, require extensions to the existing road network. In particular the actual development or potential for future development of the following connector routes will be sought....

- From Domett Street to Clamnire Road.
