How the following chapters are organised

In this section, you’ll find detailed information about our plans for the next 10 years.

Our work is divided into seven activity areas: governance; environment; economic development; cultural wellbeing; social and recreation; urban development; and transport.

In each chapter, you’ll find information about: what we do; why we do it; the challenges we face, how much we expect it to cost; how we expect to pay; and how we’ll measure whether we’re doing it well enough.
