ROAD WORKS PROGRAMME FOR VICTORIA STREET

A two-week, two-stage programme for paving Victoria Street between Abel Smith and Dixon Streets begins on Tuesday. The road is now wider and will include a cycle lane as part of the Victoria Street Transformation project.

Stage 1 is milling and will mostly be completed during the daytime next week from Tuesday 2 June to Saturday 6 June. Milling is the noisier of the two stages, involving a machine that scrapes the road surface so asphalt will attach firmly to it. Intersection corners and bus stops will be milled in the early evening during the second week. Sensors for traffic signals will also be installed during the day following milling.

Stage 2 is asphalting and will be night work in the second week from Sunday 7 June to Thursday 11 June.

During each of the two weeks, work will usually start in the south block from Abel Smith Street and progress through to Dixon Street.

Traffic will be reduced to one lane while the work is underway but two lanes will be restored during peak afternoon hours in the south and central blocks.

Please refer to the map overleaf for more dates.

Thank you for your patience while this work is underway. You will soon have a Victoria Street more welcoming to pedestrians and residents and more efficient for all modes of traffic.
**ROAD PAVING PROGRAMME**

**TUES 2 JUNE - THURS 11 JUNE**

ONE LANE OPEN AT ALL TIMES, TWO LANES AT PEAK AFTERNOON HOURS

**WEEK 1 - MILLING**

Days 7.00am – 5.00pm
South block: Tues 2 June
Central block: Wed 3 June
North block: Thurs 4 June
Final trimming: Fri 5 June, Sat 6 June

**WEEK 2 - ASPHALTING, MILLING CORNERS**

Nights 7.00pm – 5.00am
South block: Sun 7 June
Central block: Mon 8 June
Vivian St intersection (SH1): Tues 9 June
North block: Wed 10 June
Final trimming: Thurs 11 June

**NIGHT SCHEDULE**

7.00pm - 8.30pm
Set up traffic management
8.30pm - 11.00pm
Mill intersection corners
11.00pm – 4.00am
Lay asphalt with paving machine
4.00am – 5.00am
Spray new lane lines

**VIVIAN ST INTERSECTION (SH1)**

Milling and asphalting both done at night. Live traffic at all times in one lane. One side of road milled, asphalted and new lanes lines installed, then the other side done.

PLEASE NOTE THAT ASPHALTING IS WEATHER DEPENDENT.

Delays due to weather or other unforeseen circumstances will result in the programme being extended into the week of June 15.

Thank you for your patience while this work is underway.
