

Summary of CEMARS certification

Wellington City Council

Year 1 of 3 year certificate period

Wellington City Council meets the requirements of CEMARS® certification having measured its greenhouse gas emissions in accordance with ISO 14064-1:2006 and committed to managing and reducing its emissions in respect of the operational emissions of its organisation including Council Controlled Organisations that report financially into the council and JVs, and excluding Wellington International Airport.

**Absolutely Positively
Wellington City Council**

Me Heke Ki Pōneke

Introduction¹ – Wellington City Council (Council) is the local authority of the residents and ratepayers of Wellington, the capital city of New Zealand. The activities undertaken by the Council include: water supply; waste water collection and treatment; storm water management; solid waste management; provision of transportation infrastructure and street lighting; arts and cultural facilities including libraries, museums, convention centres and a public art gallery; parks, recreation and aquatic facilities; and the provision of regulatory, community and economic development services.

Further information about the Council's activities, including Annual and Long Term Plans is located at www.wellington.govt.nz.

Boundary – Figure 1 below shows the organisational structure used for describing the organisation's greenhouse gas (GHG) emissions inventory, and what business units were included in the inventory in the context of the entire organisational profile. The parts of the structure (business units) in green have been identified as being within this emissions inventory. Business units excluded from the inventory are shown in blue.

Figure 1: Organisational structure showing business units included and excluded.

¹**Disclaimer:** This Disclosure Statement is a summary of the verified information considered for certification and the certification decision. It should not be taken to represent the full submission for certification. Whilst every effort has been made to ensure that the information in this Disclosure Statement is accurate and complete, Enviro-Mark Solutions Limited does not, to the maximum extent permitted by law, give any warranty or guarantee relating to the accuracy or reliability of the information.

Summary of CEMARS certification

Wellington City Council

Year 1 of 3 year certificate period

Consolidation approach – The organisational boundaries of the emissions inventory were consolidated based on Financial Control and joint ventures were included based on equity share.

Base year – 1/07/2014 to 30/06/2015

Measurement period – 1/07/2014 to 30/06/2015

Emissions source inclusions – The operational GHG emissions for the organisation by emissions source are shown in Figure 2a and b below. Note that the highest emission source, ‘Waste to Landfill – Municipal solid waste – CO₂’ represents emissions from all landfilled waste (i.e. all waste received via the weighbridge).

Figure 2a and b: GHG emissions by emissions source.

Summary of CEMARS certification

Wellington City Council

Year 1 of 3 year certificate period

Emissions as tonnes of carbon dioxide equivalents (tCO₂e) for this period were:

Emissions summary by scopes		Units
Scope 1 total	82,426.97	tCO₂e
Scope 2 total	5,011.48	tCO₂e
Scope 3 total	4,825.60	tCO₂e
<i>Mandatory scope 3</i>	<i>1,096.57</i>	<i>tCO₂e</i>
<i>Additional scope 3</i>	<i>3,729.03</i>	<i>tCO₂e</i>
<i>One-time scope 3</i>	-	<i>tCO₂e</i>
Total inventory:	92,264.05	tCO₂e

Emissions source exclusions – The following emissions sources were excluded from the inventory for this measurement period:

- Freight and couriers – *de minimis*

Emissions reduction commitments – A GHG emissions management plan and reduction targets have been developed. WCC is currently updating their Climate Change Action Plan which will identify and confirm emission reduction projects and completion dates. The Climate Change Action Plan is due for completion in June 2016.

Verified by – Enviro-Mark Solutions Limited

Data quality score – Good

Threshold of materiality – Excluded emissions do not exceed 5% of the total footprint within the organisation boundary stated.

Level of assurance – Reasonable

Certification status – CEMARS certified organisation

Certificate number – 2015128J, Year 1 of 3 year certificate period

Valid until – 26 November 2018
