

# PROPOSED TRAFFIC RESOLUTION

File Ref: 8/30/240

**Reference Number:** TR 25 – 14

**Location:** Moana Road - Kelburn

**Proposal:** No stopping, at all times

**Information:** We have received a petition from the residents of Moana Road to address a roading problem in a section of their street. The section, between numbers 73 and 82, is narrow, is part of the bus route, and has parking available on both sides.

The surrounding properties have limited ability, and some no ability, to park off road. There is also off street parking on this section of Moana Road that belongs to properties in Norna Crescent.

Over the years, residents have managed to park in a zigzag manner on either side of this section of road to let the buses get through. However, other members of the public who are not familiar with this road such as visitors, trades people, or new tenants sometimes park in a way that obstructs buses from getting through or make it difficult for residents to access their driveways.

The bus company mentioned that they do on occasion encounter problems with awkwardly parked vehicles impeding bus progress and they are forced to divert or terminate services because of a blockage. They estimate this happens 4 or 5 times a year.

The Go Wellington bus company and Greater Wellington Regional Council support better access for the bus service in Moana Road

This proposal seeks to alter the parking arrangements to make this more satisfactory.
