

# PROPOSED TRAFFIC RESOLUTION

**Reference Number:** TR 41 - 14

**Location:** Cleveland Street and Jefferson Street - Brooklyn

**Proposal:** Class restricted parking and Time limited parking

**Information:** Pedestrian safety issues have been identified by members of the public, local schools and Wellington City Council regarding the operation of the bus stop and pedestrian crossing at the intersection of Cleveland and Jefferson Streets, Brooklyn.

The bus stop kerb length is too short and the backs of most buses hang close to the pedestrian crossing while the buses are using the stop. From time to time buses also roll back on take-off. This causes a safety issue for pedestrian crossing users.

Therefore Council officers propose to relocate the bus stop 12 metres prior the pedestrian crossing so buses are able to pull alongside the kerb, keep clear of traffic lane and improve the inter-visibility of both motorists and pedestrians crossing the road.

As a result, there will be a number of changes to kerbside parking as follows:

Parking loss:

- 4 x P30 (Except for Authorised Residents) parking spaces on the northern side of Cleveland Street
- 1 x P30 parking space on the eastern side of Jefferson Street

Parking gain:

- 2 x P10 parking spaces outside the shop
- 2 x unrestricted parking spaces on the eastern side of Jefferson Street

The existing Taxi Stand will be relocated to Cleveland Street Lay-by.

This proposal has been developed in consultation with Brooklyn Residents Association.
