

Reference: TR 12 – 16

Location: Weld Street - Wadestown

Proposal: Time limited parking (P2), No parking except for Drop Off / Pick Up

Information: Wadestown side School is located on Weld Street and provides education for young children (age 5-6) only. The parking on this narrow and inclined section of road is limited.

There are existing 7 angle parking spaces (P15) in front of the school, however, the 15 minute time restriction is not creating a turnover during the peak morning and afternoon periods. Due to the occupied spaces and limited turnover, parents park on the broken yellow lines and in the middle of this narrow road holding up traffic and putting children at risk.

The Principal and the Board of Trustee have agreed to the Council's proposal to reduce the P15 to P2 and to install one space for drop off/pick up only in front of the school gate to improve road and school pedestrian safety in this area.

The school and Council officers will work to re-educate the parents with regard to these parking changes.

Net parking loss: None
