Reference: TR 05 – 17

Location: Victoria Street - Wellington

Proposal: Class Restricted – Car Share At All Times

Information: The Car Share Policy was approved by Council in August 2016 allowing operators of existing and new car share schemes to apply for on-street car parks where car share vehicles can be parked when they are not in use.

Councillors agreed that having a high-quality diverse transport system is key to Wellington's economic, environmental and social success; and meeting the city's climate change targets; and car sharing is an important part of today's transport choices. The policy supports the Council's goals in the city's Urban Growth Plan and the new Low Carbon Capital Plan was approved in June 2016.

Many privately-owned cars sit idle about 95 percent of the time and evidence from overseas suggests that each car share vehicle takes between 10 and 20 cars off the road.

Currently there are two central city parking spaces in Wakefield Street and Victoria Street that have been used exclusively for car sharing, as part of a 12-month trial. The parking spaces were temporarily discontinued as a parking space for this purpose under Clause 10.2 Part 7 of the Wellington Consolidated Bylaw 2008. It is now proposed to make the car spaces available for car sharing on a permanent basis through the traffic resolution. Car Share spaces are free of charge.

It is also noted that a third space on Inglewood Place was trialled, but has been recently discontinued.

Car sharing will be monitored and evaluated as part of the Car Share Policy. The initial allocation of a parking space for the exclusive use of a car share vehicle will be for a period of two years, after which it will be reviewed. If usage continues to trend upwards and the demand is there, the car spaces will be continued to be allocated for car share vehicles for a further period of time.

Net parking loss: 1 space
Car Share parking gain: 1 space
