Proposed traffic lights for

Moxham/Waitoa/Hataitai intersection

In response to Officer and public safety concerns, we engaged with Hataitai residents and businesses in September 2018 to gauge the public's view on a proposal to install traffic lights at the Moxham Avenue, Hataitai Road and Waitoa Road intersection.

The highlights from the responses received are as follows:

- A total of 784 responses of which 82% were residents (collected via the survey and emails)
- The intersection is used daily or a few times a week:
 - 663 by car
 - 145 on cycle, motorcycle, or scooter
 - 542 on foot
 - 250 by bus
- 57% said YES to the question: 'Have you ever experienced, witnessed or are aware of crashes or near misses at the intersection'.
- The only respondents who feel really safe are those on buses. Individuals across all other modes of transport feel almost equally safe or unsafe.
- 32% supported traffic lights, 59% were opposed and 9% were unsure.
- The feedback received from those not in support of traffic lights provided the following indicative results of possible alternative safety improvements:
 - 23% favoured a roundabout
 - 40% suggested improved signs and road markings including a change to STOP signs from the current Give Ways or additional Give Way signs
 - 14% recommended removing or moving the current pedestrian zebra crossings
 - 6% suggested "Other" including new speed humps, cycleway
 - 13% indicated no change was necessary
 - 4% did not give an alternative suggestion
 - 41% were concerned about parking changes with 2% asking to reduce the loss of parking

Conclusion:

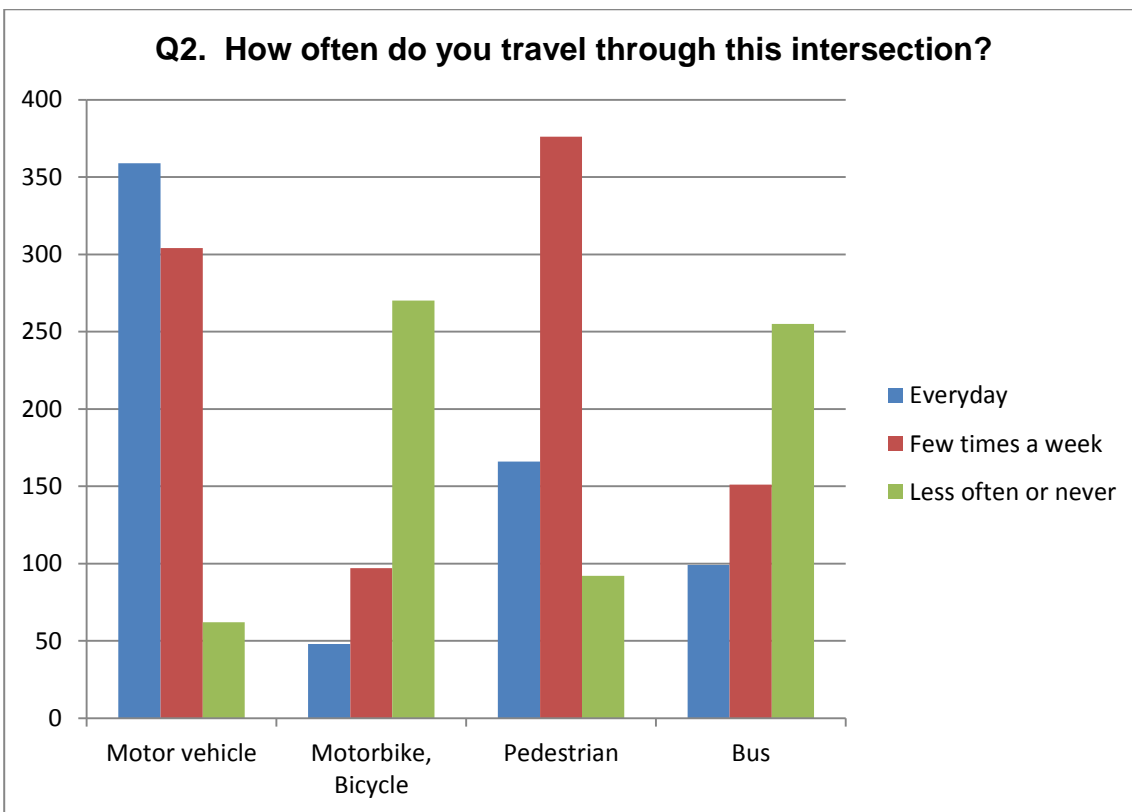

Based on a high percentage of concerns received regarding the safety at the intersection there is a definite mandate to make safety improvement changes but not for Traffic Lights.

Next steps:

Officers are now considering other options based on the submissions received, and it is expected in March next year to re-engage with the community on the preferred option(s).

Please see overleaf for a more detailed breakdown of the survey responses.

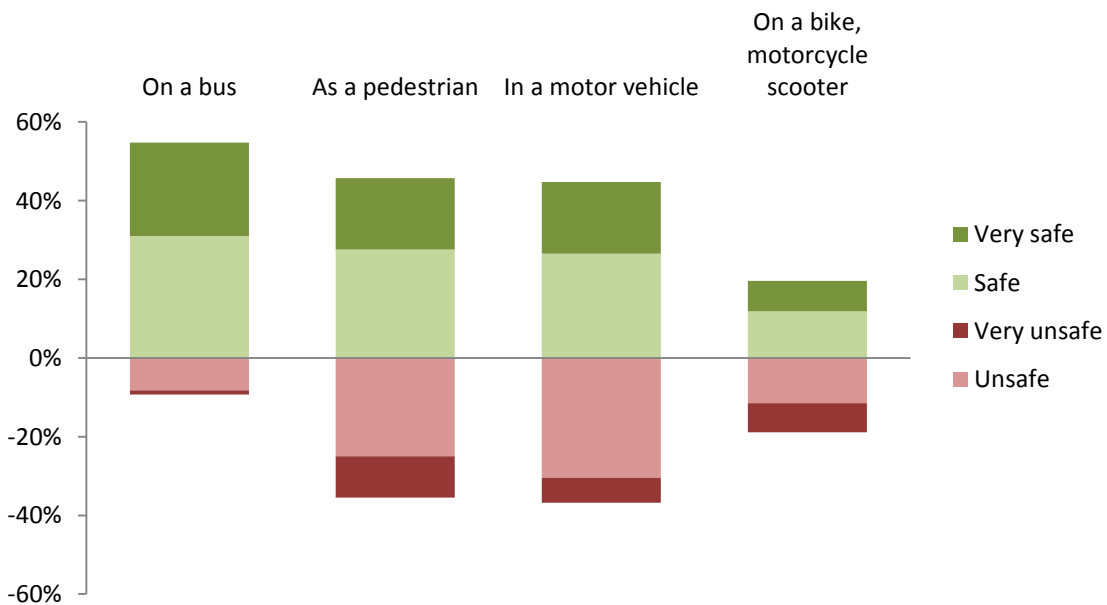

Results of survey

Q3. Have you ever experienced, witnessed or are aware of crashes or near misses?

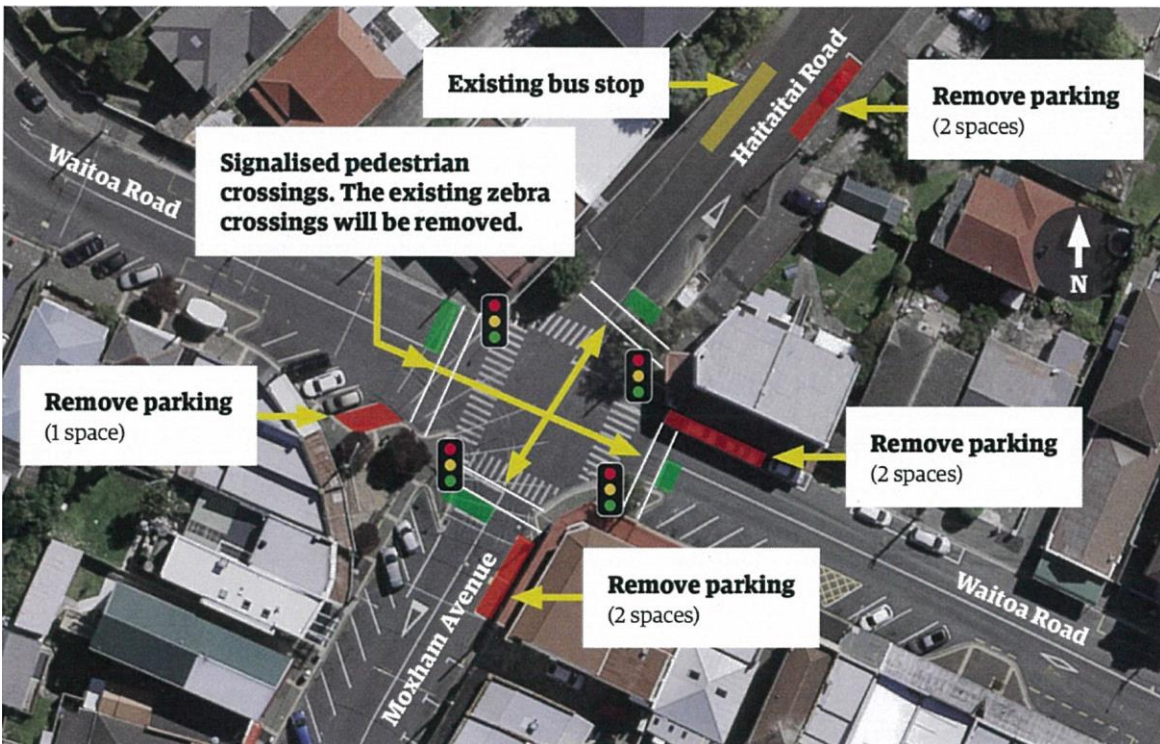

Q4. How safe do you feel travelling through this intersection?

Q5. Do you think traffic lights with pedestrian signals will improve safety?

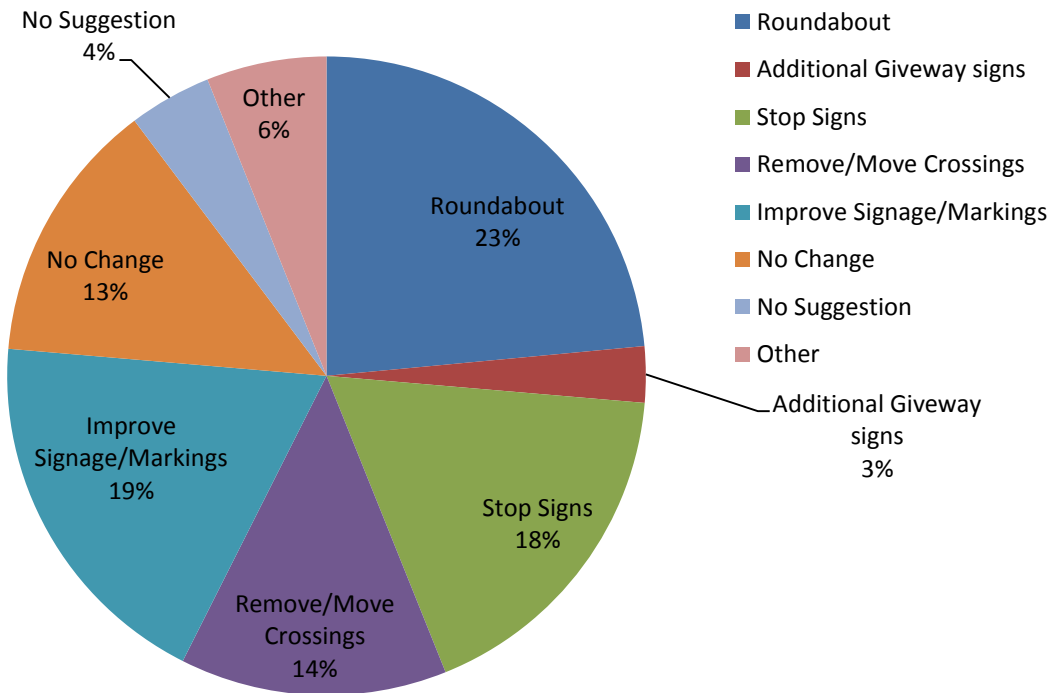

The Council engaged the Community to comment on the changes proposed at Moxham/Waitoa/Hataitai intersection as below:

Q6. Do you support the proposed changes?

Indication of people not supporting traffic signals and the options they have suggested

Indication of people not supporting traffic lights with concerns about parking
