

PROPOSED TRAFFIC RESOLUTION

Reference Number: TR 136-18

Location: Adelaide Road at Duppa Street

Proposal: To relocate the bus stop (Stop #7126) on Adelaide Road by Duppa Street to eliminate a power pole obstruction.

Background: With the introduction of the new Wellington bus network, a number of stops require their layouts to be improved to ensure buses can use the bus stop effectively and safely. The introduction of Double Decker buses as part of the new service network has highlighted the need to change the location of the bus stop on Adelaide Road by Duppa Street (Stop 7126) because some buses are coming into contact with the power pole adjacent to the stop, particularly when exiting.

The stop currently poses a health and safety issue as well as damaging the new bus fleet.

Proposed changes

It is proposed to reconfigure the layout of the bus stop by moving the stop South as per the plans in *Attachments 1 and 2*. To do this parking in the area would need to be removed. However some parking would be gained at the front on the existing stop when it is moved to the back. The bus stop would also be supported with no stopping restrictions to allow the bus to safely and effectively enter and exit bus stop. Overall the changes would result in a net loss of two parking spaces in the area.

The proposed changes would eliminate the power pole as a hazard. Moving the stop would also move the stop closer to the existing bus shelter improving the comfort of passengers in inclement weather.
