

# Wider improvements

In addition to the public space improvements, we're exploring best options to develop the St John's site. We're also supporting the formation of a Karori Business Improvement District (BID) and exploring ways to improve the pedestrian experience of Karori Road.

## Karori Town Centre: Public Space Improvement Project

- \$1m public improvement delivered in 2019.

### What's happening?

- We'll be delivering a \$1m public space improvement project that aims to support a vibrant, inviting town centre that is well connected and reflects the character of Karori.
- We've worked with a working group made up of passionate community members to develop options which will be tested with the wider community.

## Redevelopment of St John's site

- Urban Design brief approved by Council.
- Scoping of development potential.

### What's happening?

- We're exploring best options for the development of the St John's site so that we can achieve a high quality mixed-use development for this significant corner site in the town centre.

## Karori Business Improvement District

- Scoping + Feasibility.
- Retail study underway to support commercial success of the Karori Town Centre.

### What's happening?

- We're supporting the formation of a Business Improvement District (BID) for Karori Town Centre to strengthen Karori as a place to do business.
- We've commissioned a retail study to support the work of the BID and identify opportunities to enhance the town centre's retail offering so that it meets the needs of the community.

## Karori Road Improvements

- Future improvements for Karori Road for walking, cycling and public transport.

### What's happening?

- We're currently exploring ways to improve the pedestrian experience of Karori Road - in the short term this might include trialling changes to the physical layout of the road and a speed limit change. Longer term improvements could integrate cycleways and bus lanes for Karori Road.

# Project timeline
