

PROPOSED TRAFFIC RESOLUTION

Reference: TR 37 - 19

Location: Nevay Road - Karaka Bays

Proposal: No stopping at all times

Information: Wellington City Council has received concerns from Greater Wellington Regional Council (GWRC) regarding interrupted bus services due to vehicles parking on both sides of the carriageway. If vehicles are parked across from each other, the total width of the roadway is so narrow that buses can't get past. The photos below demonstrate the insufficient road width in such a given scenario.

A recent and long lasting example of the type of disruption that can be caused was on Thursday 18 October 2018 – when a legally, but inconsiderately parked car, blocked the Route 24 bus service access to the area (in both directions) for half a day. This necessitated a long diversion that closed several bus stops and caused inconvenience to the public and locals.

The number, size and frequency of buses using Nevay Road has increased since July 2018 when the new bus network was introduced. It is therefore getting more and more difficult for the local bus services to operate because of the problem that introducing no stopping restrictions will alleviate.

Council officers therefore propose to install no stopping restrictions for 24.2 metres on Nevay Road where bus operations are regularly hampered by parked vehicles.

Parking loss : 4 spaces

PROPOSED TRAFFIC RESOLUTION

Key Dates:

- 1) Advertisement in the Dominion Post Newspaper 26 February 2019
- 2) Feedback period closes. 15 March 2019
- 3) If no objections received report sent to City Strategy Committee for approval. 18 April 2019
- 4) If objections are received, further consultation, amendment/s, or proceed with explanation as appropriate.

Legal Description:

Add to Schedule D (No Stopping Restrictions) of the Traffic Restrictions Schedule

Column One

Nevay Road

Column Two

No stopping at all times

Column Three

West side, commencing 102.6m north of its intersection with Taipakupaku Road (X= 1,753, 155.4m, Y= 5,425,636.3m), and extending in a northerly direction following the western kerbline for 24.2 metres.
