Location: Frank Johnson Street - Johnsonville

Proposal: Time Restricted Parking P 12 hr

Information: Ward Councillors and in the past the Johnsonville Community Association (JCA) have brought to Officers attention that there is an ongoing problem of advertisers using three parking spaces closest to the roundabout, typically for several weeks, and up to several months at a time. Officers confirm this is an issue. Advertising vehicles range from vans to trailers with signage up to 2.5m high and 5m long, often with markings indicating they are owned by professional advertisers. Such large signage in very close proximity to a very busy roundabout can be a distraction to drivers. The carparks they take up also denies the use by private passenger vehicle users in an area where parking is limited.

There are about 30 non time-limited carparks on Frank Johnston Street which are occupied most working days by commuters and workers from adjacent businesses and it is rare to find a "free' carpark in this area. Short-term parking is very limited on the nearby streets for about 150 metres in any direction

Net parking loss: nil, a P12hr time restriction is proposed for 3 spaces

Key Dates:
