Attention: Alistair Aburn

Dear Alistair

**North Kumutoto Precinct Project
Response to Section 92 Request of 10 March**

Item 2) of Council's S92 Request of 10 March relates to carparking and seeks the following:

2) Please confirm the total number of carparks to be provided within the 'site'.

A total of 62 carparks is proposed in the basement level of the new building.

In addition, a total of 3 parking spaces is proposed kerbside within the new Kumutoto Lane along the eastern side of the new Site 10 building.

The arrangements are shown by attached Drawing Number 1.047 prepared by Isthmus, illustrating the two-way and one-way lane designs.

In total then, inclusive of internal and external spaces, the proposal provides for 65 carparks.

Yours sincerely
Traffic Design Group Ltd
