- 26 CGR Merchant & Co
- 27 Lulu Bar & Restaurant

Public toilets

- Public toilet

What to bring...

- **A charged phone** (but if it dies, remember Take10 has free chargers)
- **A full belly** (make sure to eat before drinking, or visit one of our amazing late-night vendors)
- **Patience** (our bars and clubs can get busy, please be patient when waiting)
- **A transport plan** (whether it's uber, a taxi, the last train, or a late night bus – have a plan for getting home safely)
- **Plans** (drinking can be fun, but why not make the main event seeing a show or an exhibition, having dinner, or even exploring TimeZone for a game of airhockey!)
- **Everyone along the journey!** (look after your drunk mates – their wellbeing is always more important than the next drink)

What *not* to bring...

- **An attitude** (everyone deserves a good night out, be mindful of sharing space with others respectfully)
- **Over-intoxication** (If you're too intoxicated you won't be let in, and/or served – drink responsibly to look after yourself and the others around you)
- **Your creepy friend** (whether it's you or a mate, make sure everyone is keeping their hands and eyes to themselves, everyone deserves to feel safe)

Absolutely Positively
