

Application for disposal of asbestos

Please complete this form in full 48 hours prior to delivery, supplying appropriate details so that there is no delay in processing this application. A permit number must be issued before special waste can be accepted at the Southern Landfill. Approved applications will be notified by fax or email to confirm acceptance.

Send your completed form to

Email to: landfillin@wcc.govt.nz Attn: Peter Gordon

Hours: Special waste, once issued with a permit number, will only be accepted:
Monday to Friday, 8am–4pm at the Southern Landfill.

Please note: Some hazardous waste may take longer than 48 hours to be approved.
Acceptance of asbestos contaminated soil or asbestos containing material (ACM) must comply with the following:

- Domestic (unlicensed) parcels will be double wrapped/bagged with no less than 200 µm polythene wrap/bag. Parcel sizes will not exceed 1200mm x 900mm in size and weigh no more than 25kg. Combined weight of all parcels must not exceed 160kg to qualify as domestic amounts.
- Commercial (licensed) parcels will be double wrapped/bagged with no less than 200 µm polythene wrap/bag. Parcel size will not exceed 2500mm x 2000mm x 0.500mm in size and not exceed 1000kg (1 tonne).
- All asbestos containing material (ACM) needs to be secured and presented in such a manner that it can be manually and or mechanically unloaded off the transporting vehicle and placed into the required area. Tipping of loads is not permitted.
- Transporter will be required to assist with the unloading of ACM at the disposal area. Appropriate PPE must be worn by this person(s). Please visit: worksafe.govt.nz/topic-and-industry/asbestos/ppe-when-working-with-asbestos/ for further advice.
- Asbestos contaminated soil will need to be double wrapped, with seams in wrapping offset from each other. The entire load will need to be on a sacrificial slip sheet, therefore should reduce the possibility of rupture during tipping.
- All asbestos waste needs to be moist prior to closure or sealing of parcels.
- Approved permit to accompany all asbestos volumes to site for disposal.
- All vehicles must go through the wheel wash facility upon completion of disposal.

Landfill management retain the right to refuse entry to any vehicle should they believe that safe practices are not being complied with.
