

Name: Tom

Suburb: Broadmeadows

Agree: No

Following the meeting dated Sunday 19th February 2023, 4:30pm with John Sims drive residents and Councillor Ray Chung I am opposed to the changes of bus stop #3834.

My wife and I live in the proposed area on John Sims drive, we have a 1 year old and another baby due. If the changes proposed come to action, then it will impact the safety of my young family accessing our home on a day to day basis. We do not have any off-street car parking at our home so not having access right outside will mean that we will have to walk up and down the street with our small children and or their gear. There is no footpath on our side of the road which means we cannot safely place a child outside of our cars away from traffic. We may have to leave children unattended in either the car or home while we organise either their belongings or the other child.

After living here for 2 years I am already concerned about the speeds that many cars go along our street as we are at the bottom of the hill and it worries me deeply that our children might be at even more risk if our cars are to be parked further up or down the road.

I look forward to hearing how this issue progresses as it directly affects the safety and wellbeing of my family.
