APPENDIX 3

1. Introduction

The Wellington City Council, as a territorial authority, is required to manage and enforce provisions pursuant to the Dog Control Act 1996 (**the Act**) and subsequent amendments in 2003, 2004 and 2006.

Section 10A of the Act requires the Council to report annually to the Secretary of Local Government on its Dog Control Policy and practices.

This report fulfils this statutory requirement for the dog registration year: 1 July 2007 to 30 June 2008.

2. The Council's Dog Control Policy and Practices

2.1 Policy objectives

The Council adopted a Dog Control Policy in September 2004 making provisions relating to the control of dogs in public places, which are enforceable under the Wellington Consolidated Bylaw 2008 - Part 2: Animals.

The objectives of the policy are:

- To ensure that the owners of dogs comply with their obligations under the Act
- To prevent the danger caused by dogs to the public and to wildlife and natural habitats
- To minimise the distress and nuisance caused by dogs to the public and to wildlife and natural habitats
- To actively promote the responsible ownership of dogs
- To provide for the reasonable exercise and recreational needs of dogs and their owners.

2.2 Dog Exercise Areas

The Council provides 48 designated off-leash exercise areas across the city. Several beach exercise areas are also provided. The criteria used to determine these areas include an assessment of:

- other predominant uses
- assessment of size and access to the area
- the presence of wildlife
- consideration of lines of sight
- potential risk to other groups
- adjoining uses.

The Council initiated a review of its Dog Control Policy in April 2008. Included in this review will be an examination of the Dog Exercise Areas. The Wellington Consolidated Bylaw 2008 - Part 2: Animals will be reviewed in conjunction with the review of the Dog Control Policy.

2.3 Dog prohibited areas

Dogs are prohibited from certain specified areas. In determining the levels of access for dogs, consideration is given to the intensity of public use and the associated risk posed to other groups and the public who use the area. The following criteria are used in assessing prohibited areas:

- is it a children's play area?
- is it a sports field?
- is it ecologically sensitive?

Patrols were carried out in areas where dogs are prohibited. Publicity on beach restrictions took place during October to December in 2007 to alert dog owners and the general public about variations in dog exercise areas in the summer months. Dog Control signage is also installed and maintained at sensitive prohibited areas.

The City's parks and recreation areas were patrolled by Animal Control Officers during the 2007/08 year. Particular attention was paid to the Central Business District and the City's beaches during the summer holiday season. The majority of dog owners spoken to were aware of the rules and of their obligations.

2.4 Fees

Dog registration fees, fines and impound fees contribute 75% of the cost of dog control in the city. The Council also operates a Responsible Dog Owner scheme which provides a discounted rate for dog owners who meet the relevant criteria. Dog registration fees are set by Council resolution.
