- Q1. Your name\* Tony Doogue
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Heritage  
2. Making the building resilient  
3. Future-proofing the library service  
4. Other (please specify)  
5. Accessibility
- Q10. If you selected 'other' above, what other factor was important in your decision?  
The Athfield Library was the most user friendly in every respect that I have ever used in over 60 years of regular library use in NZ, far better, for example, than the new Christchurch central library.  
than
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

For me they are useless as they cannot replicate the stock of the main library.

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? not answered

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Kennie Tsui

Q2. Your email or postal address

--

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Yes, I agreed with the statement above. I would also like to point out that accessibility to the central library is also very important for our community. Therefore, I am seeking more mobility choices for users to access this space. The current underground car park and the limited car park spaces around the site are not the best option to accommodate this in the future.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C -- High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The purpose of having a multi-levels building.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
2. Accessibility
3. Cost to ratepayers
4. Opportunities for partnership
5. Future-proofing the library service
6. Sustainability
7. Te Ngākau Civic Square connections
8. Climate change
9. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

In the future, I see the City Council chamber has a lesser role to play in the Precinct. The Precinct could be used for cultural or educational purposes rather than as an office space or meeting place.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The interim branch brings many Wellingtonian back to the CBD and having a quiet place to relax or reading is fantastic. Going forward, I would encourage the Council to use these interim branches for purposes such as exhibition, educational services, on-line forum, or family activities.

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Female

Respondent No: 512

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A hub for community groups and other council funded organisations. Office space, meeting rooms, for groups but also for individuals to hire. A social service hub. Where CAB, Iwi, Police, Health Workers, JP's, City Mission, Women's refuge, City Council officers and councillors, MP's etc can 'host' a coffee and biscuit sessions with everyone in the room so anyone needing help on any city issue can talk, consult and find the right person in one space. A place for social get togethers. Group meals, Rugby on TV, Retiree Meet and greet, business networking. There are opportunities for corporate sponsorship to fund these events. Recital space. For amateur musicians and performers. Make the library and place where people come to gather.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Sustainability
3. Timeframe
4. Accessibility
5. Cost to ratepayers
6. Climate change
7. Making the building safe
8. Opportunities for partnership
9. Making the building resilient
10. Heritage
11. Te Ngākau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Access to services is good to have there. As for councilors, mayor, CEO, admin and other not easily accessed services these can be moved out to allow for more public interface services.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They seem to be more efficient.

Q16. Where do you currently live? Mount Cook

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The "Library" of the future is a connection point for access to a range of information with less focus on being a repository for physical material. It's historic role as a place where people can go to get affordable access to information will remain but there will be more requirement for technology and lectures/conversations than physical books etc. However books remain important (particularly for young readers ). It provides a connection point for social interaction and interaction with other civic services and facilities.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q1. Your name\* Stephan Rupp

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library at Civic Square is the heart of Wellington. It is so much more than just a place to borrow books. It is where people come to relax, broaden their horizons, enjoy an inspiring environment. The architecture ought to be of the highest standard - aspiring, with high levels of sustainability (put some photovoltaic panels of the ideally oriented roof please). It should sum-up why we are the coolest little capital in the world - and at the moment it is Absolutely Positively not. Similar to the new Johnsonville library it should be a place for the community to gather. A greater number of small meeting rooms (it had two I believe?) but also some multimedia rooms. We need the cafe back of course, and I would love to have the Citizens Advice Bureau back in there, simply because that is the place where it ought to be. Maybe it makes sense to have a small transport/Metlink desk? The idea of opening up the library more towards the square is great. Please keep the ferntrees!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Wellingtonians have been very unhappy with the lack of progress around the city - not just the Civic Square but in many areas. I can't think of any major European city where the main street (Lambton Quay in our case) is not an exclusive pedestrian zone.... we still have cars and noisy Diesel buses taking most of the space. It is absolutely vital to move quickly on the Civic Square and establish something we can be proud of again. The admin building next door needs to be considered as well of course.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Making the building resilient 3. Timeframe 4. Te Ngakau Civic Square connections 5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The Civic Square together with the Library, the Art Gallery, Town Hall and MFC are the heart of Wellington. It is a non-commercial space, so important to our well-being. It is a place where we identify with our city. I think the Admin buildings need to be looked at as well and the Wellington City Council needs to return to the square as soon as possible. The Civic Square is its home

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

It is good to have them in the interim - however they can not replace the Central Library and are a constant reminder that we have to act swift.

Q16. Where do you currently live? Khandallah

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Louise

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

the heart of the library should always be a celebration of the literary and visual arts it is the libraries job to hold and enable access to. Letting people read and share and listen and learn can be done with shared spaces, community spaces, private spaces. Supporting the community by building spaces for tenants such as cafés or citizens advice is also important so long as recouping max rent from just anyone isn't the goal.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C -- High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

the internal design of the library was never great. The Cafe is dark and unattractive and was noisy until that was fixed, the pillars in the escalators stairwell are bizarre, the metallic feel doesn't sit well. I hope high level remediation includes rethinking the floor plan. The only thing that really matters is keeping the palms on the outside. Fixing the water feature is an opportunity to rethink the connection of the library to the civic square.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Making the building resilient
3. Heritage
4. Te Ngākau Civic Square connections
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? Aesthetics. The building should be a wonder to inspire the heart and the minds of all who look at it and use it. It should uplift. Our built environment affects our wellbeing and we should leave behind works for our children they can look at and be proud

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

All great cities have great squares. But they are for the people, and need to be designed to be used and be full of people. The square needs some work on that front.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

not answered

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Female

**Respondent No:** 516  
**Login:** [redacted]  
**Email:** [redacted]

**Responded At:** Sep 04, 2020 10:47:36 am

**IP Address:** [redacted]

Q1. **Your name\*** Ash Miles, Library Supply Coordinator

Q2. **Your email or postal address**

Q3. **You are making this submission:** Unity Books

Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No

Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**

The Central Library is a vital building in Wellington as a public space in which people can physically exist without spending money. Further, it can provide a wealth of information, resources, and entertainment to people in a way that is accessible to all. In Te Ngākau / The Civic Square it ties together and adds to a central community hub, and thus supports the local businesses by bringing people into the area as well.

Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option C – High-level remediation

Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered

Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**

For the Central Library rebuild, our main priority is repairing the library as a large-scale repository and community site, to restore public engagement, and in a way that is future-proofed—we therefore support Option C. Unity Books supports WCL as citizens and also as booksellers. Wearing the bookseller hat we particularly support the librarian community within WCL, especially the acquisition librarians. Unity Books Wellington supplies NZ materials to WCL. Despite Covid-19, NZ publishing hasn't reduced in volume or capability, and continues to represent a wide variety of civic voices and provide local cultural sustenance. Despite the pop-ups' necessarily smaller scale compared to the Central Library, WCL has responded in kind. The closure in March 2019 had many negative roll-on effects for the public. But on top of that, Covid-19 has had a greater negative effect. UBW has seen a significant drop in acquisitions of books affecting us as a preferred supplier and local independent business. April – July 2020 WCL acquisitions with Unity were -57.29% (all streams combined) compared with the same months of 2019. Adjusted for May 2019 (WCL replacement of NZ materials they couldn't retrieve after the closure), the acquisitions deficit was -46.72%. We attribute most of this to Covid-19, as 7 of the 18 weeks of this report were during lockdown (fully closed) and level 3 (web/digital only). Further, as indicated in the following data provided to us from WCL, lockdown prompted some movement away from physical books and towards Audio and ebooks: Mar 20 Apr 20 May 20 Jun 20 Jul 20 Aug 20 Downloadable Audio Books 18253 20928 20909 18392 18936 18916 % increase over March 2020 15% 15% 1% 4% 4% Downloadable ebooks 34966 48675 45882 38469 37682 38082 % increase over March 2020 39% 31% 10% 8% 9% Given all of these factors it is important to think long term—which means following a remediation plan that takes into account further disruptions from factors such as Covid-19 and the climate crisis. Unity supports Option C – High-level Remediation as the strongest option moving forward, as a supplier and as part of the local community.

Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**

1. Future-proofing the library service
2. Climate change
3. Opportunities for partnership
4. Accessibility
5. Making the building safe

Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Kilbirnie

Q17. Which of the following ages groups do you belong to? 19 to 24

Q18. Please choose the gender that best identifies you. Female

Q1. Your name\* Ella Borrie

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

- A free public space. - digital and physical collections (books, music, newspapers, magazines etc) - internet access - ability to get help from librarians in person - a place to sit in the quiet and dry. A place to study. A place to just be. Really feel the lack of desk and chair space in central city now. So many people used the library every day! - activities for kids (story time? i don't have kids so don't know what activities are best, but it is important)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

This is one of the most important services the council provides. I would like to see it back up and running as quickly as possible.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Climate change
3. Accessibility
4. Timeframe
5. Future-proofing the library service
6. Sustainability
7. Making the building resilient
8. Heritage
9. Te Ngākau Civic Square connections
10. Cost to ratepayers
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I really like the astroturf - seeing people play soccer, picnic, enjoy the space. More beanbags/seats/games to play (eg big chess)

- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply He Matapihi Molesworth Library Arapaki Manners Library and Service Centre
- Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? They've done a great job with what they had available. More space for being to sit/read/work/study.
- Q16. Where do you currently live? Newtown
- Q17. Which of the following ages groups do you belong to? 25 to 29
- Q18. Please choose the gender that best identifies you Female

- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
The Central Library is an essential hub for the city. Its resources are precious and unavailable anywhere else. It caters for all ages and all types of Wellington citizens and provides books for those who can't afford to buy print or digital books.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Accessibility
  2. Making the building resilient
  3. Heritage
  4. Future-proofing the library service
  5. Te Ngākau Civic Square connections
  6. Sustainability
  7. Cost to ratepayers
  8. Climate change
  9. Timeframe
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing
- More windows to help connect the library visually to the square and surrounding streets Unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
The Civic Square was often a vibrant meeting place for everyone from those enjoying lunch in the sunshine to events and public meetings.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
Haven't had a chance to see the new Brandon set up yet but hear it's much better than the other pop up libraries.

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? 65 to 69

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A significant opportunity to create a sustainable, low-emissions and resilient community hub. Ensuring the library is able to adapt to climate change will be key. Keeping the existing building means we don't need to demolish and send existing materials to landfill. Also the Athfield design is a core part of Wellington's architectural history - important to maintain the exterior - especially the Nikau Palms. Where possible materials should be recycled and repurposed, and construction waste minimised. Consideration should be given to the embodied emissions of materials used to design the building - wood/timber could be prioritised. Priority should be given to increasing the operational efficiency of the building to reduce energy and water consumption - make the library as warm and dry as possible, without using greenhouse gases. Aim for a high greenstar rating! The interior could be redesigned to better service public needs and include more natural light, and better use of space. The library should look for innovative ways to include sustainability and increase efficiency, such as - a green roof, solar panels, rain collecting water tanks, the ability for trees and gardens to be included in its design. This will have many benefits, including - lowering emissions, and increasing biodiversity purposes, and well-being for users. Accessibility and the ability to safely and securely park bikes will be key to supporting low-emissions transport options. The library should provide a common space for Wellingtonians to gather, read, learn, study, listen, play, gather and socialise. It should be primarily dedicated to its original purpose of being a library (books, desk spaces for quiet reading/study, media, etc.), but could also offer: a place for community events/talks; a quality and modern cafe that connects with civic square; children's learning areas; outdoor areas to soak up civic square; community services; quiet study rooms or areas for group projects; computer and digital suites; classrooms for adult learning; a space dedicated to nature (perhaps a garden or green roof), etc.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C -- High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

This is likely one of the most used buildings in Wellington - it will be worth investing wisely in a building that will last for at least another 100 years. It should be a space that all feel comfortable to use. It should also value nature, by maximising natural light and materials. This space will be an escape for many people - recognise the wellbeing benefits the design of the building can deliver for Wellingtonians. Bring nature, fresh air and the wider city into the design. A modern, light-filled cafe that extends into civic square will attract visitors and make the library a destination. The current cafe is too dark and dingy.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Climate change
3. Making the building resilient
4. Sustainability
5. Te Ngakau Civic Square connections
6. Accessibility
7. Future-proofing the library service
8. Heritage
9. Timeframe
10. Opportunities for partnership
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The current relationship between the square and the library could be vastly improved. The library is dark and does not optimise the space or flow the square could offer. The cafe in particular is like a dark tunnel that does not invite one into the library from the square. Better flow and intuitive design is needed, while maintaining the building's ability to adapt to climate change and natural hazards. If the library were to open up onto the square this would likely increase natural light, ventilation, and create space for people to sit outside and enjoy the square more.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply He Matapihi Molesworth Library

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library could be a new build modelled on the Central Library (Turanga) in Christchurch, a modern, bright building incorporating the views of iwi, incorporate Maori design features and act as a meeting hub for the community. The current library although Atherton designed is dated and lacks open collaboration spaces and was in dire need of an upgrade before it closed. This is an opportunity to redesign the library to make it more user friendly and accessible in the 21st century.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The library should be a warm, welcoming community space where people can socialise as well as having access to a great library collection. The closure of the Central Library building has been a huge loss for Wellington as a whole.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Opportunities for partnership
3. Making the building safe
4. Making the building resilient
5. Accessibility
6. Other (please specify)
7. Sustainability
8. Heritage
9. Te Ngakau Civic Square connections
10. Climate change
11. Cost to ratepayers
12. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The Civic Precinct is a good location for the library and will look a lot better when they've finished the Town Hall earthquake strengthening.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The Te Awe Library is a much needed fantastic library and is everything the central library should be (modern, bright, good facilities) It also has the best selection of books. The Arapaki Manners Street Library doesn't have a great selection of books, is too small and isn't in a great location. He Matapihi is a really lovely space with a great selection of Maori books but again is quite limited in the variety of books available.

Q16. Where do you currently live?

Mount Victoria

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Female

- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
The space is great but Wellington is windy, more sheltered spots for windy days

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

Respondent No: 526

- Q1. Your name\* William Bisley
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
A vibrant hub for people to learn and connect with their community.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Supposed heritage of the building is a unnecessary construct. What is more important is building the best most resilient space for the future in the most efficient manner possible.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Timeframe  
3. Cost to ratepayers  
4. Making the building resilient  
5. Accessibility
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Is important to have open public spaces
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Island Bay

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Andrew

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think the vision going forward for libraries in Wellington is sound. I'd like to see some emphasis on a makerspace situation - equipment that's available for people to work on projects that aren't necessarily sustainable for personal ownership. I think it would also be valuable to look at some exhibition or show space as well, galleries are an absolutely fantastic way to showcase what's being done by people in the city.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Sustainability
6. Cost to ratepayers
7. Timeframe
8. Opportunities for partnership
9. Heritage
10. Te Ngākau Civic Square connections
11. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. - Q1. Your name\* Haley Hoenke
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I would like the new central library to include a significant amount of space and resources for young people. I would especially love to see dedicated spaces for teenagers. As my children get older, I would love to have the library as a safe space for them to meet their friends and use the library's resources and materials.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- I would like for the new building to be an investment that lasts. Please use materials that will hold up well, and create a space that we as a community can be proud of for generations.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Making the building resilient
  3. Future-proofing the library service
  4. Accessibility
  5. Sustainability
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6 He Matapihi Molesworth Library  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The design of these spaces does not feel very welcoming or homey. I prefer the overall design feel of waitohi which has a more open and inviting feel, while still being modern.

Q16. Where do you currently live? Ngaio

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Anna Demchy

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Quiet spaces are needed for study, and (recreational) reading that will ban noisy children/other visitors from this area. I am more than happy for the library to cater for children to foster their learning and love of reading and using other library services but NOT at the expense of those to prefer a more quiet environment. Not providing such spaces runs the risk of the library and Council alienating and driving away a large number of regular library users (I believe this is already happening) Another suggestion is to sign up to the SMART Libraries initiative: I used to work at Petone Libraries and had access to a few other libraries (and their collections) this way, and now have to pay in order to access a fair number of books that WCL either won't buy or haven't even ordered yet. I am not particularly happy with the collections purchasing department, as I have followed their instructions to the letter in terms of suggesting books (i.e. emailing for books that are part of a series and/or are written by authors whose other books WCL currently hold) and am then told not to do this again (it gives this instruction on the website). They are also definitely not up to the play when it comes to preordering new books compared to Hutt City Libraries, and I've often had to suggest purchasing books that should have come to the attention of this department much earlier as popular choices for the growing collection and for library users. A solution to both save money, and time would be to join up with the SMART Libraries collaborative group, so that the purchasing suggestions can be shared around each library to avoid double ups in multiple collections and will be a great cost-saving initiative for already underfunded library budgets.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? Please DON'T go for the cheapest option, but the BEST option, which in the long run is definitely Option C.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service  
2. Making the building resilient  
3. Making the building safe  
4. Accessibility  
5. Heritage

Q10.If you selected 'other' above, what other factor was important in your decision? not answered

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Make Arapaki Manners Library open in the weekends (at least on a Saturday)

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Female

- Q1. Your name\* Diana Warring
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
A community space that is relaxing, informative, useful, warm - a home away from home. Great facilities - especially bathroom facilities - maybe even showers that can be chargeable... Would suit travellers and visitors to the city...
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
An architectural statement - please reuse the Nikau palms - they are iconic and beautiful
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Accessibility  
3. Making the building resilient  
4. Making the building safe  
5. Sustainability
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
It is a beautiful space with different levels - a great meeting spot... maybe more flow in out from the library - the cafe in the library could be sited so people could sit outside on a beautiful day - even a reading room outside would be nice
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Don't like much - the Brandon St is a step up from the Manners but they are too small

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

- Q1. Your name\* Margaret Lloyd
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
It should operate as a community centre for all the Wellington community as it was doing prior to closure.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option A - Low-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
The library is the city's heart. The current temporary substitutes are only able to provide a limited lending service. Wellington cannot wait many years for a high-level remediation. In the interim, patronage of the central city shops and cafes will die.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Accessibility  
3. Timeframe  
4. Heritage  
5. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
It is already an attractive and useable space - or will be once all of it is operational once more.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The librarians are very helpful, but the size of the libraries inevitably limits the number of materials they can hold. While the Brandon St branch is a definite improvement on the cramped quarters of Arapaki, it is rather dark and claustrophobic and it is difficult to find different sections, though that may improve with familiarity. The interim libraries could never become the focal point of a visit to town, as the central library used to be.

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Lisa Maule

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
 bookable meeting rooms of different sizes with whiteboards free wiii bus stop outside bicycle parks welcoming to teenagers

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one  
 Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
 not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
 - a meeting place for teenagers was sorely missed by my daughter when it had to close (plus the mall closed too) - a quite workspace for me as a freelancer in between town meetings was missed too, plus access to the NZ room

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
 1. Future-proofing the library service  
 2. Climate change  
 3. Sustainability  
 4. Making the building resilient  
 5. Making the building safe  
 6. Accessibility  
 7. Te Ngakau Civic Square connections  
 8. Opportunities for partnership  
 9. Heritage  
 10. Cost to ratepayers  
 11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?  
 not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?  
 Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
 More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
 Music demonstrations public gathering in the space good

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Arapaki sadly so small - the service counter close to the workspace so harder to concentrate and think while reading / researching / working Haven't been to the new temp library yet - wrong end of town - most of my business is Cuba Street area (Also want to say I really trust Alfield Architects to create wonderful usefull spaces for Wellingtonian's and visitors)

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Female

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- The new library at Johnsonville - and particularly Turanga the library in Christchurch are good models that would seem to meet what experts such as Prof Anne Golding (DomPost 1 Sept) recommend for a modern resilient central library.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- Perhaps the existing library building can be remediated for WCC office use cheaper than for a new library. But otherwise the present suggested costs seem far too high and we'd be better off building a new library.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Cost to ratepayers
  2. Making the building safe
  3. Making the building resilient
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- I think a lot of Wellingtonians use their local libraries more than the Central library. I accept that we probably need a strong Central library to "feed" the local libraries but given the hassles especially for those of us living in the suburbs of venturing into the Central city I don't think we should "overbuild" the Central library. The Christchurch model would seem a good one to follow.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Khandallah

Q17. Which of the following ages groups do you belong to?

Prefer not to say

Q18. Please choose the gender that best identifies you

Male

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- We could create something similar to the new Christchurch library, with its welcoming beautiful interior and spaces for different activities that also connect people to the physical book collection.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- The one feature I would like to retain is the nikau around the exterior. I consider the street view of the library (and much of the indoors) unappealing and not well suited to current and future needs.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Future-proofing the library service
  2. Sustainability
  3. Cost to ratepayers
  4. Making the building resilient
  5. Accessibility
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The wood in Te Awe, and the separated but connected spaces - very well done with what was available. The light and big window space in Arapaki - good for certain library functions and for entry and exit points.

Q16. Where do you currently live? Wadestown

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

- Q1. Your name\* Lynda Young
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. I'd like to see the library rebuilt, sympathetic to the current style but more open to Civic Square. The nikau palms should be retained. Please don't overload the ratepayers with unnecessary expense, the funding matters.
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Sustainability  
3. Cost to ratepayers  
4. Climate change  
5. Te Ngakau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

A small centre city library is totally unsatisfying and doesn't meet my criteria for a central library, several small libraries are no substitute for one decent one

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

- Q1. Your name\* Option C looks excellent. I applaud the commitment to maintaining the highest possible level of service from the Library, which is a beloved Wellington institution.
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Shower facilities would be good, anything that can help out the more vulnerable members of the community who might not have access to these resources elsewhere.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Timeframe  
3. Sustainability  
4. Making the building resilient  
5. Accessibility
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets Don't know
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Please bring back the fern ball sculpture, I miss it.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Prefer not to say

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- A community hub - not only books but perhaps a cafe and other organisations like Community Law and the Citizens Advice Bureau
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- I have heard amazing things about the new Chch library - a source of inspiration perhaps?
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Accessibility
  2. Timeframe
  3. Opportunities for partnership
  4. Future-proofing the library service
  5. Making the building safe
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing
- More windows to help connect the library visually to the square and surrounding streets Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- Its a nice space
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply
- Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are lovely temporary spaces, but are small for the capital city. They need more seating and books.

Q16. Where do you currently live?

Mount Victoria

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Q1. Your name\* David Pearson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

In order to answer these questions, you need to have a perspective that looks at the Wellington social and physical environment in general so it is important not to just think about the building in isolation from its immediate locale and its city surroundings. I am unimpressed with comparisons with the admittedly attractive new library building in Christchurch because that city's needs arose out of a far worse earthquake and a different history of urban development. This means its library has to serve far more functions in a devastated CBD and the patterns of attachment, association and networks relating, for example, to Civic Square and the Waterfront are very different in our city. Key questions for me are a) how is Civic Square as a distinct entity envisaged in the future, and b) what other buildings and parts of the city could provide some of the functions viewed as 'library' ones? Both questions have major bearings on costs since, for example, if we spend a great deal on the library how would this affect our ability to plan for other Civic Square and/or other central Wellington projects? On this basis, I have opted for Option B below

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

See comments above. In general, I favour refurbishing the current library at a cost and speed of reopening that will not preclude wider planning for Civic Square and the broader city environment. How I wish we could have got out of contractual obligations for the Convention Centre, which looks very much like a now post-COVID outdated vanity project and that commercial property development considerations could be lessened in future Waterfront and Shelley Bay plans.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Te Ngākau Civic Square connections
4. Cost to ratepayers
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Perhaps as much by luck than judgement, the Civic Square became a vital part of the city when the Town Hall was open, the bridge formed an important and distinctive link to the waterfront (I am very concerned there has been talk of demolition) and the central space was used for graduations, family meetings and cultural occasions etc. The Waterfront, including Midland Park, is equally important but Civic Square was a joy to be in then.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I have liked them and would consider keeping some of them in some form when the central library is refurbished.

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

75 to 79

Q18. Please choose the gender that best identifies you

Male

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Have some places with sound baffling, where groups can converse, share ideas and use the library space for active study. Have quiet zones too so people can read in peace.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- Option D is my preferred with base isolation. But Option C is a close second.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Making the building resilient
  3. Future-proofing the library service
  4. Accessibility
  5. Opportunities for partnership
  6. Heritage
  7. Climate change
  8. Sustainability
  9. Cost to ratepayers
  10. Timeframe
  11. Te Ngakau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing
- More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- the space needs to be there in to the future. It is centre of the city. It's heart.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

If there is some of the collection that is still in storage, could there be a rotation programme.

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

45 to 49

IP Address: ..

Q1. Your name\* librarytalk

Q2. Your email or postal address

Q3. You are making this submission: Radioheritage foundation As well as individua/s

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Yes sounds good. Especially partnerships with other organisations. Rates should not fund the upgrade but other organisations should get involved. As we are an Archive, it would also be great to have Radio Heritage Foundation Archive documents housed at the the fully remediated Option C, in the future. thanks, if possible.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. We favour minimal level repairs followed by future upgrade to the option C which would finalise the high level of remediation, but not immediately, due to the Covid situation and immediate costs involved. Also the cost would impact heavily on low income rate payers as well as disabled rate payers. We

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Yes the design of Option C is the best (nicest).. Please keep it white thanks :).. but cost is also too high, if it could be kept at the mid range level of option A and B or delay cost... and do necessary remedial action in the current situation and rest later due again to Covid ordeal. Not way bulldoze it or relocate it. this is a nice area for it. Having seen the Christchurch library with their incredible stairs to get up the second level... (mind you there are some lifts also). Important to keep it easy especially for wheelchair situations. Current library is a bit dark and not so welcoming. Make it more welcoming please.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Accessibility
4. Making the building resilient
5. Sustainability
6. Opportunities for partnership
7. Te Ngakau Civic Square connections
8. Timeframe
9. Heritage
10. Future-proofing the library service
11. Other (please specify)
12. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? Repurposed, recycling materials, lovely bright (not dark) art work celebrating Wellington, not modern abstracts please, just views of our beautiful Wellington and Island bay suburbs...etc...

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Yes keep connections going.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I became disabled a few years back due to a bad fall which left me very physically disabled. I appreciate the Library and its great books. I have not been able to visit due to physical disability. However I used to get there weekly in past.

Q16. Where do you currently live? Southgate

Q17. Which of the following ages groups do you belong to? Prefer not to say

Q18. Please choose the gender that best identifies you Prefer not to say

- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Important to have areas for public display of books, and study space.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building resilient
  2. Future-proofing the library service
  3. Te Ngākau Civic Square connections
  4. Cost to ratepayers
  5. Sustainability
  6. Climate change
  7. Accessibility
  8. Making the building safe
  9. Timeframe
  10. Heritage
  11. Opportunities for partnership
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are small, but that is understandable

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Stephen Brennan

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

If we are to refurbish it would be good to - cater for today's digital requirements. QR codes have become relatively common due to recent Covid-19 app sign in requirements. - Private / Isolated Spaces possibly for working remotely - Good links with road edges - Cafe with opportunity for external link with civic square - Focused space for children - Primary Routes through building for better links with civic square

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C -- High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It should reflect the best of Wellington in terms of both modern building techniques & the digital age. The building approach with regards to being conscious of both embodied carbon of materials but more importantly the quality of how this building is put together. We should challenge the NZ industry to meet NZEB targets

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Making the building resilient
3. Timeframe
4. Sustainability
5. Te Ngākau Civic Square connections
6. Accessibility
7. Climate change
8. Future-proofing the library service
9. Opportunities for partnership
10. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Outside Wellington City

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Male

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Some of those things are fine, but it's a library and needs to serve the functions a library does first and foremost.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- Keep the building, with everything in the same location, but strengthen it sufficiently. Return it to use as soon as possible.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Future-proofing the library service
  2. Timeframe
  3. Making the building safe
  4. Making the building resilient
  5. Heritage

Q1. Your name\* Adriana Milne

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The new Central Library should foster strong relationships with, and ideally provide some physical space for CAB, a free community law firm, the Women's Refuge, DCM, and an organisation that supports people's mental health - free counselling? Now I'm definitely dreaming... Visitors of the Central Library should be welcomed with a warm embrace to a non-judgemental space where they can simply exist as they are. If they wish to sit, reading quietly, without checking books out - that's fine. If they wish to relax with a free cup of tea (yes, this should be provided) - that's fine, too. It should be no problem to doze off on a couch, padded bench, or pile of cushions - whether they have secure housing, or not. Visitors to the Central Library should remain tolerant of people from all walks of life; this is the perfect environment for people of varying socio-economic backgrounds to exist together - without an agenda. There should be accessible public transport available to make people's trips from main centres (Wellington Railway Station, Wellington Hospital) easy. Disabled access in/around/out of the Central Library should also be prioritised. Any iwi that fall within the Wellington City Council jurisdiction should also have their needs prioritised. Please refrain from any tokenistic gestures to Māori that lack integrity, cultural awareness, or understanding. Ideally, the design is neutral/minimalistic with artworks that can be featured for a few months at a time then switched out, thus keeping the space modern as time moves on. The Central Library should be an empowering, loving, community space for all. I want to feel loved, and accepted as soon as I walk in.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E -- New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I love it. It feels warm, and safe when I walk in. Whether that's the heating or it's spirit. I like to think it's the spirit/vibe of the place - I don't want that to change. It's special, and should be cherished. Regrettably, I do not believe the building/site is good enough, and we have to bite the bullet to build something that will not run in to problems (a major natural disaster like a tsunami doesn't count as the whole CBD will be wrecked anyway - I am open to a new build in a non-tsunami zone that has accessible transport!)

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Te Ngākau Civic Square connections
3. Cost to ratepayers
4. Future-proofing the library service
5. Climate change
6. Timeframe
7. Opportunities for partnership
8. Accessibility
9. Sustainability
10. Making the building safe
11. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Sort it out. It's absence doesn't feel like home.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply      Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I went to Manners Street when it first opened and hated it - it was tiny, cramped, with not a lot of choice. Having multiple little libraries is not ideal but adding more to the mix while we do not have one main Central Library is a good idea.

Q16. Where do you currently live?      Tawa

Q17. Which of the following ages groups do you belong to?      25 to 29

Q18. Please choose the gender that best identifies you      Gender diverse/gender non-binary

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
I think you should be thinking further ahead than 50 years. If the library is rebuilt rather than patched up, it could be future-proofed and last far longer for future generations.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
I treasure the public library service. I do not treasure the Central Library building. I'd prefer something more practical, without the flourishy shape and without the huge sheets of glass. For more context: I treasure the town hall building, especially its concert room.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing  
More windows to help connect the library visually to the square and surrounding streets Unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
With the increasing number of central city apartment dwellers, the city precinct is growing in importance as a local amenity for them. They deserve a local library branch, like what we suburbanites have.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- It is paramount a new Central Library can cater for new future uses and unforeseen functions, especially given the recent challenges of covid-19. It needs to be adaptable for technological developments, changing public lifestyles / needs and uncertain climate conditions. I believe the full spectrum of civic 'duties' need to be considered and integrated into the fabric of the library. These include some capacity to partner with civil defense and local health support networks, to provide a sense of civic identity (respecting place and heritage, as such Option C is preferred), and to be representative to the ethos of the Wellington public; democratic and accessible (in the broader-sense), proud and playful, safe and sustainable - remembering that retaining/recycling existing buildings is the most elegant expression of environmentalism.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- Please retain the Nikau palms, they express Wellington' mana.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building resilient
  2. Future-proofing the library service
  3. Heritage
  4. Making the building safe
  5. Climate change
  6. Sustainability
  7. Accessibility
  8. Te Ngakau Civic Square connections
  9. Cost to ratepayers
  10. Opportunities for partnership
  11. Timeframe
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The Library could better integrate with the civic precinct network- the ability to read, study, observe, perform, and rest in a safe, sheltered external environment lacked in the previous facility

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply He Matapahi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
yes it was closed in march 2019 and why is it taking so long to make a decision
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Accessibility  
4. Cost to ratepayers  
5. Future-proofing the library service  
6. Sustainability  
7. Climate change  
8. Timeframe  
9. Te Ngākau Civic Square connections  
10. Heritage
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
firstly it isn't a square more like a rectangle and needs more covered seating for wet days
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets  
National Archives and on Brandon St. Which of Arapaki Manners Library and Service Centre  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

yes people being honest surely i would have thought i could buy wellington city council rubbish bags at the library and service centers

Q16. Where do you currently live? Tawa

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Male

Respondent No: 560

Q1. Your name\* Mark Lerwill

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library is right at the heart of the city, and the redevelopment is a prime opportunity to build something of lasting cultural value. The whole civic square area and the surrounding buildings and bridge are a fantastic space and a gateway from the city to the waterfront. Ideally I would like to see openings from the library into Te Ngakau Civic square to better connect the library with the City Art Gallery, town hall, civic square and the Michael Fowler centre. It would also be good to have a performance area for talks, performances, events and childrens reading etc.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think that the heritage value of the existing building is being over stated. I see the Nikau Palms as being the most important feature of the building, and these could be re-used in an entirely new building. I agree that the central library, given the site's location needs to be something of architectural significance, and I see that the redevelopment is a once in a lifetime opportunity to create something really special that adds long term value and beauty to the city.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Te Ngakau Civic Square connections
4. Future-proofing the library service
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Aro Valley

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Male

Respondent No: 561

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Although I love books, the Central Library is about more than media; it is a social hub, and so in addition to the mezzanine meeting rooms and café could have a performance venue in the building. The old Library building (current City Art Gallery) had a lecture theatre with ranked seating, which was much used.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Aside from all the wonderful things the existing library was already doing, support for digital/ remote workers, meeting spaces, discounted spaces for community orgs, exhibition spaces, digital search support, support for schools, an enhanced and expanded NZ section

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think this is an opportunity to design something special that represents our place, Te Whanganui a Tara. With a design representing our iwi and our geography, that complements and enhances the other civic square buildings.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Future-proofing the library service
3. Te Ngakau Civic Square connections
4. Accessibility
5. Making the building safe
6. Making the building resilient
7. Opportunities for partnership
8. Climate change
9. Sustainability
10. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?  
I only added other because i think a lot of the rankings could be combined - ie future proofing to me means sustainability and climate change as well as tech.

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Only that I agree and this is an opportunity to make it better. It's our space at the heart of the city. The library should be there

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? They are good given their size but the limited availability of books means I visit Kilbirnie library more these days

Q16. Where do you currently live? Kingston

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

- Q1. Your name\* Morris Rees
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- My wish is that the central library opens ASAP in the current building ASAP. The city is lacking very day it is closed. The main purpose of the library is to provide accessible books for leisure and reference. As both an avid reader and a ratepayer, I am against a redesign that will take an additional 2-3 years at twice the cost.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one
- Option A - Low-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.
- not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- Nothing more than I have stated above
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Timeframe
  2. Cost to ratepayers
  3. Making the building safe
  4. Future-proofing the library service
  5. Climate change
- Q10. If you selected 'other' above, what other factor was important in your decision?
- not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- I have selected "somewhat appealing" for the choices above - while they are "nice-to-haves", I would not support them if they resulted in additional time delays and/or additional cost to the low-level remediation of the current building
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I would hate the thought of having to make do with the poor selection of books and lack of space for more than 2-3 years.

Q16. Where do you currently live? Oriental Bay

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you not answered

Q1. Your name\* Teri

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The impact of the new Waitohi Library on the Jville community has been immense. It has created a community connection multi purpose space where people of all ages can gather, connect, study, read, access creative resources, learn, discuss, be present, access resources they would not otherwise be able to. It has reinvigorated this area of Johnsonville. It is a wonderful example of a purpose driven design and build. I think the old library was built in a very different era and is not fit for purpose any longer. A new building on this site offers the opportunity to create something cutting edge, multipurpose, community building and designed for our current day culture and communities. It would strengthen and nurture our wonderful Wellington City community in a way that a (more expensive) high level remediation would not.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please don't shortchange Wellington by doing an unsafe low level remediation or an expensive high level remediation of a building which is no longer fit for purpose. I understand there are some heritage factors around the building but to be honest it is really ugly (and unsafe) and a new build offers the opportunity to create something that will be a cutting edge, sustainable beautiful Wellington landmark for many years to come.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Making the building safe 3. Sustainability 4. Cost to ratepayers 5. Accessibility 6. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

More child friendly facilities - a playground? More gathering spaces - cafes? benches? Shade for hot summer days / more green spaces.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Johnsonville

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Melanie Vivian

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library as it was and is provides/provided the opportunity for programmes, services and the community - as in its current physical form.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I used to work daily in the Central Library and saw how it provided an amazing space and facilities for the Wellington community. So many individuals and groups were able to use the space in an extraordinary variety of ways. The physical space does not need to be changed, with the exception of whatever the minimum work is that needs to be done to make it safe - Although the building has gone through a number of earthquakes in the last 10 years with no damage. Do not spend unwarranted money and do not force Wellingtonians to go without this amazing space longer than is needed.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Timeframe
3. Cost to ratepayers
4. Making the building resilient
5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Keep the Central Library building as it is. It is amazing. Just get it back open. - This will bring life back to the precinct.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Brooklyn

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Female

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It was always great and the natural centre of the city. Sunny, sheltered, where everybody naturally congregates in lunchtimes, protests, fun. But underused because there has never ever been a damn thing to do there except sit in the sunshine. You could design the library to bring the vibrancy BACK. Then cafes might come. The only sheltered sunny space in Wgn !!!!!!!!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The staff are friendly. They help with the machines. Dismayed by the intro of machines into Central. (Human contact was one of the reasons I used to visit, every few days while pregnant, machines cut off my human connection lifeline.) No other positives, it is ghastly, obviously. No books. (even the vaunted NZ collection in Molesworth st is hopeless.) Nowhere to park. Traffic fines, overdue books, nothing there, horrible. Can you at least order the "library" to cancel fines ?????? Especially during COVID?

Q16. Where do you currently live? Thorndon

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Neil Pharazyn

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Noted

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

How long do you expect the building to be used as the essential method for hiring books, etc. Be realistic. 20 years. OK, think 20 years ahead. What will life be like? We have a clue in life under the Covid4 lockdown. People shifted to doing as much as possible on line, with courier delivery. And they liked it. Another clue: private information distributors like Amazon deliver all their "products" online or by courier. Surely, you cannot argue that libraries must become part of this future method. Otherwise, you will be building an expensive white elephant that will eventually become obsolete. What is the point of having to go into town to pick up a book when I could have it couriered? Tedious. A new multipurpose building is the answer. When walk-in libraries become a fringe activity it can be used for something else. Then, what about the library service. Let's imagine it was run like Amazon. Instead of an expensive new central library building it would be in a cheaper industrial park warehouse. You would go online, as at Amazon, scan books, make your choices and get them couriered to you. I defy you to say that something like that won't be the way of things in 20 years time. So why the hell are you building a costly new single-purpose library right now?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service  
2. Opportunities for partnership  
3. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Don't know

More windows to help connect the library visually to the square and surrounding streets Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
Close them

Q16. Where do you currently live?  
Northland

Q17. Which of the following ages groups do you belong to?  
30 to 34

Q18. Please choose the gender that best identifies you  
Male

Q1. Your name\* Bryce Pender

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I fully support the concept of doing the preferred option as well as bringing the Library up to current requirements> I also fully support the demolition of the CAB (Pink Building) and converting it back to a park/open space in the city. I also ask for the plans to take into account the possibility of the Library becoming a stop on an underground rail connection between the Railway Stn and Courtenay Place. I have long been promoting this idea and believe it would help reduce traffic in the city as well as improve PT connections in the city.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think the library needs to be more than just a place where people go and get books, magazines and other related literature. It needs to become more like a centralized community center and definitely needs to have more facilities like the HIVE that is in the Johnsonville Library, in fact you guys need to advertise the hell out of the HIVE as not a lot of people know it exists and it has some fantastic tools. Some of the other things you could consider adding to the HIVE is an Online Gaming Arena with the ability to support lots of players (say 100 seats), Very high speed network access, an auditorium / space for things like TED talks and presentations, meeting rooms with video conferencing facilities so people can meet and discuss things (e.g. College / MBA students working on a project can meet and bring in outside help). Having a Cafe nearby is also useful, but a more fully featured HIVE would be better IMHO as there are so many cafes nearby that could accommodate the coffee need.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
 Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
 not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
 We're in the digital age, think digital, think about how we are starting to live and work and accommodate that.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
 1. Cost to ratepayers  
 2. Future-proofing the library service  
 3. Making the building safe  
 4. Making the building resilient  
 5. Te Ngakau Civic Square connections  
 6. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?  
 A much bigger and better HIVE service

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing  
 More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live?  
Newlands

Q17. Which of the following ages groups do you belong to?  
45 to 49

Q1. Your name\* Carol Foxe

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Well libraries are all about reading so hopefully, it will actually have some books still.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I would like to give equal ranking to Option D and Option E

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? I love books and reading and that's about it. Legally you have to make the building safe etc. I have no interest in partnership, connections, climate change. What does futureproofing even mean?

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Don't know

More windows to help connect the library visually to the square and surrounding streets Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

If you build the library somewhere you could have street access which could be fun. Spaces don't have political systems so can't be democratic.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I only visited the Molesworth branch once and was very disappointed that it only had reading material relating to New Zealand so left without borrowing anything.

Q16. Where do you currently live? Outside Wellington City

Q17. Which of the following ages groups do you Prefer not to say  
belong to?

Q18. Please choose the gender that best identifies Prefer not to say  
you

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- The community are generally transient workers. Why have a library centrally at all. Why not make sure our suburban libraries are world class and make the central library a drop of and collection kiosk only. We could then redevelop the land as recreational space and pay off debt.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one
- None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.
- Replace with a localised model of smaller branches in the CBD
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- No.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Future-proofing the library service
  2. Cost to ratepayers
  3. Sustainability
  4. Te Ngākau Civic Square connections
  5. Heritage
  6. Making the building safe
  7. Making the building resilient
  8. Accessibility
  9. Opportunities for partnership
  10. Timeframe
  11. Climate change
- Q10. If you selected 'other' above, what other factor was important in your decision?

- More windows to help connect the library visually to the square and surrounding streets Don't know
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- Lets make it more public and open space.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CED branches? Is there anything you would improve or change?  
Just have one.

Q16. Where do you currently live?  
Ngaio

Q17. Which of the following ages groups do you belong to?  
45 to 49

Q18. Please choose the gender that best identifies you  
Male

- Q1. Your name\* Linda Barwick
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I have used the library for many years. I loved the childrens space when mine were young, there was easy access, toilets close by and good selection. Lovely to lie on the bean bag or on the carpet sometimes in the sun reading. As an adult I usually go in and out, at this stage of my life I don't use the other facilities much though did use the cafe from time to time and can see myself using it again as the years go on. My husband is not your conventional reader and goes mostly upstairs. I know he sometimes became frustrated at not being able to understand the system and sometimes there were not many people to help, but on the whole your staff are amazing. He loved the choice you had and could always find something to read. I would like to see more space for sitting and reading a book away from those who need tables and study desks - when you are older you need a chair with a back and the long seats are uncomfortable. I miss the library very much, every family member that has come from overseas has expressed amazement at our wonderful library system - we are very privileged!
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Hurry back :)
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Making the building resilient
  3. Cost to ratepayers
  4. Accessibility
  5. Future-proofing the library service
  6. Heritage
  7. Sustainability
  8. Te Ngākau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

My husband has been in the Manners St library but finds the selection too limited for his taste of reading

Q16. Where do you currently live? Miramar

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Stephanie Pegg

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The original building was really important as a central point in Wellington where anyone could go. Yes, we got books there, but it was also a place to meet friends before heading somewhere else, a place to stop and refresh small kids on a shopping day, a nice place to be.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A new build seems a no brainer. It would be cheaper than the high level remediation the council is proposing, it wouldn't take much longer, the new design could accommodate accumulated knowledge from librarians and users about good patterns (for instance, in the existing building, it's a pain trying to navigate with a pram and, presumably, a wheelchair) because you have to keep switching lifts to get from the library central to the Mezzanine and upper floors. The original building looks nice enough, but it's not so old that it should be triggering heritage protections; and a new building would be able to incorporate green building techniques and better earthquake protections much more easily.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building safe
3. Te Ngakau Civic Square connections
4. Accessibility
5. Making the building resilient
6. Sustainability
7. Timeframe
8. Cost to ratepayers
9. Climate change
10. Heritage
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? What on earth does 'opportunities for partnership' mean? It's the vaguest term ever. Be more concrete in your language if you want better answers.

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Very useful space. Really came into its own in my life when I had small children - good rest stop for everyone, good facilities, and toddlers could have a wander safely when it was raining outside. Had a better range of books than the branch libraries do.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Wilton

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Female

Respondent No: 579

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Build a new 10 storey building. Keep the outside elements and add later if desired. Floors 1-4 for the library (like CCH) 5 for NGO's 6-10 For 1 & 2 bed accom Do not waste our money on refurbishments.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Build it like CCH with outside rooms at different levels and childrens spaces
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Timeframe  
2. Making the building resilient  
3. Accessibility  
4. Future-proofing the library service  
5. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing  
More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Civic square could have a roof on it like old victorian railways stations. so it can be used in all weathers.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
A community hub with a range of free facilities and services that support the community. Free access to computers and wifi, CAB, community group meeting spaces, study spaces, etc
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Would be great if there was a not for profit cafe for those who have low disposable income to afford coffee/food while working/studying in the library, particularly those who can only work/study in the library because they don't have access to devices/internet at home
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Other (please specify)  
3. Making the building resilient  
4. Sustainability  
5. Climate change
- Q10. If you selected 'other' above, what other factor was important in your decision?  
Being able to design a space around a communal tikanga Māori environment
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- lighter areas - very full of metal previously and often dark - often noisy - not calming for many and difficult for elderly or those with special needs to manage - and the floors shook and I stopped going as I hated the movement - EQ feel all the time
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- Love the nikau and outside water areas - would love a solid building that looks safe - ie no metal staircase and half hung floors. A Focus on Books and written material - as a teacher, I know we need to appeal to kids and the constant screen saturation is not what the library might focus on - some balance - at the moment most school libraries are run down because \$\$\$ sucked up by IT.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Climate change
  2. Sustainability
  3. Opportunities for partnership
  4. Timeframe
  5. Te Ngakau Civic Square connections
  6. Cost to ratepayers
  7. Heritage
  8. Accessibility
  9. Future-proofing the library service
  10. Making the building resilient
  11. Making the building safe
- Q10. If you selected 'other' above, what other factor was important in your decision? focus on reading - on books or variations thereof - not screens
- Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

\* More room for books! I always felt like the existing library had a lot of space that wasn't used for books ... I've been impressed by how many books you've managed to squeeze into the new 'pop up' library on Brandon St. People don't need other services to be loaded into libraries ... in the future they need somewhere to still access real books properly.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The building we have is fabulous from the outside - not so easy to use on the inside. I would support retaining the facade of the building, while essentially reconstructing it on the inside. And please put the toilets on the ground floor! And leave all the space for meetings, advisory services, internet access and making coffees to other businesses/spaces - leave the library for books and the occasional magazine.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Accessibility 3. Future-proofing the library service 4. Other (please specify) 5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? Prioritize the importance of books!

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

more seating needed

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
Lots of books squeezed in, good work.

Q16. Where do you currently live? Wellington Central

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Female

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
  
Build a new Central Library away from the Waterfront well above current sea level, eg. on The Terrace, based on the design and functionality of the new Christchurch Library. DO NOT ENTER INTO A PUBLIC/PRIVATE PARTNERSHIP.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
Build a new library with a 200-year projected lifespan on The Terrace or upper Willis Street.
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Knock it down.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Climate change  
2. Making the building safe  
3. Timeframe  
4. Accessibility  
5. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing  
More windows to help connect the library visually to the square and surrounding streets Unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
It needs an outdoor performance space/shelter/stage. Use the site of the Library.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They need English names as well as Maori names, so we can find them.

Q16. Where do you currently live? Vogeltown

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Going to the Waitohi hub recently was fantastic. It's big, open, it allows for spaces to be configured differently. Better though is Christchurch's new central library building. I would love to see a NEW building in Civic square that has the same level of optimism and specific planning from the start. Having Capital E in the building regardless of whether it's a new or refurbished space is an excellent idea.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Reopen it ASAP. Don't let the perfect become the enemy of the good. If this city is supposed to be "the capital of culture" it needs a proper library. It is disappointing to know that it has been closed for years and council still hasn't even decided what to do with it

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Timeframe  
2. Making the building safe  
3. Making the building resilient  
4. Sustainability  
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like that they're open, but there aren't enough books there. All the books are trapped in the central library

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you not answered

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A library being redeveloped to meet the needs of the community in the next five decades needs to be forward thinking. There will be a need for archival material but also as a community space that is safe and inclusive. With growth of inner city living predicted there needs to be room for people to be able to work and study in an appropriate atmosphere but also to be able to attend performances, have music practices, attend courses, lectures etc as well as offering the expected range of resource and reading materials, internet provision and the like. The space needs to be flexible in order to adapt to change in future rather than very fixed.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

While there are iconic aspects to the current building there were also limitations to it as well. This is an opportunity to provide a resource more forward thinking

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Accessibility
4. Te Ngākau Civic Square connections
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The precinct needs more connectiveness - it is an ideal pedestrian space for a range of city activities

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Accessibility particularly Brandon St location

Q16. Where do you currently live? Owhiro Bay

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Female

Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- It certainly doesn't have the same aliveness in the civic precinct with the library and townhall closed. It's been an important place for town performance, marches starting etc

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

13 - well COVID has meant I've been in the city less but it's great to have a city library with more to choose than my local branch. The city feels more complete with a library!

Q16. Where do you currently live? Brooklyn

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- It is a Library and should stick to its core functions of delivering the full scope of Library Services, which includes book lending, reading areas, research capabilities, children and young people areas
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- I cannot see why we would opt for any other option than a complete rebuild with some commercial or residential use of the airspace above. I am astounded when I hear this council saying they must protect it for its architectural features which are few and far between when at the same time they are saying
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building resilient
  2. Cost to ratepayers
  3. Timeframe
  4. Opportunities for partnership
  5. Future-proofing the library service
  6. Making the building safe
  7. Sustainability
  8. Accessibility
  9. Te Ngākau Civic Square connections
  10. Climate change
  11. Other (please specify)
  12. Heritage
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- It should retain that focus

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
They offer limited facilities

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Ellard Clout

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If a new build is cheaper, and just as safe - you could rebuild it to look exactly the same if the Heritage aspect is that important. Personally, I couldn't describe the outside to you as it is unimportant - the inside is what counted.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Making the building safe
4. Accessibility
5. Cost to ratepayers
6. Climate change
7. Sustainability
8. Te Ngākau Civic Square connections
9. Opportunities for partnership
10. Timeframe
11. Other (please specify)
12. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? The books are there, and I could get my dog registration there as well.

Q16. Where do you currently live? Strathmore Park

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think we could decrease the size of the Central library and make the suburb library's bigger and better. The Island Bay library is very very small

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one not answered

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think we should think really carefully about this. Do we really need such a big central library. The future with a lot of people working from home means the city worker numbers will decrease. We don't know the impact of Covid on the use of the library. Perhaps there will be more of a click and collect scenario.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building safe
3. Cost to ratepayers
4. Te Ngākau Civic Square connections
5. Sustainability
6. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Island Bay

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Kevin

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library as a repository for large numbers of paper books is rapidly becoming obsolete. More and more people are reading and discovering information digitally. The library performs lots of other useful functions, and many of these need to be supported. But it does not need to provide many hundreds of metres of shelf space, and the building load associated with these shelves. It's not clear to me what a library needs to look like, but I'm fairly sure that rebuilding it in its previous shape is wasteful. The tools and preferences for information access are changing rapidly. But building a new building on the basis that it will hold 50,000 (or whatever the number is) of books for 50 years is clearly wrong to me.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I favour a low level remediation fro ten years or so. Hopefully by then we will have a clearer idea on what our future needs are.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Future-proofing the library service 3. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think the most of the buildings around the square are munted, and the council should metaphorically bulldoze the lot and start with a clean sheet. I consider many of the existing buildings to be pretty ugly and not well suited to their purpose. restoration of barely reinforced masonry building is OK when they are great significance. But the old town hall is an eyesore and I would not miss it. Put up some modern, well insulated, elegant, people friendly buildings instead of putting vastly expensive lipstick on some pigs.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
I used to visit the central library frequently. I've never been able to find an interim library

Q16. Where do you currently live?  
Mount Cook

Q17. Which of the following ages groups do you belong to?  
55 to 59

Q18. Please choose the gender that best identifies you  
Male

- Q1. Your name\* Brent
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Renovate the existing building or build a new library, whichever is the most cost effective and one that gives Wellington city a modern multi-functional space where people of all ages can: read, study, watch, learn, talk, play, meet, eat, and be still. Victoria University's Kelburn Hub is a space that achieves many of these things.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- The library is an important part of the civic centre and should stay on that site and connect with all the other assets around it
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Other (please specify)
- Q10. If you selected 'other' above, what other factor was important in your decision? Making the space multifunctional to meet the needs of the Wellington community and visitors
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- It is a wonderful space. Sheltered and sunny and a place for multiple activities and events and to just sit in the sun out of the wind.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Strathmore Park

Q1. Your name\* Jason Pollock

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think we should not link ourselves to the past as strongly as the High-level remediation does. This is an opportunity and we should not give in to the sunk cost fallacy.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The costs between the preferred option are higher than the new build. A New Build will allow more improvements for the future, extending the building's use.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Making the building resilient
4. Climate change
5. Te Ngakau Civic Square connections
6. Sustainability
7. Future-proofing the library service
8. Cost to ratepayers
9. Timeframe
10. Opportunities for partnership
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The existing library was too loud and prone to echoes, the large windows were the cause of this. It was an uninviting space.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Outside Wellington City

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Male

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Timeframe
3. Sustainability
4. Making the building resilient
5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Neutral

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

Under 18

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Michael Warwick

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Rebuild

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think there should be a substantial demolition of the existing building with key aspects like the palms and the overall site footprint retained

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Heritage
3. Making the building resilient
4. Making the building safe
5. Accessibility
6. Cost to ratepayers
7. Timeframe
8. Te Ngakau Civic Square connections
9. Climate change
10. Sustainability
11. Opportunities for partnership
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? Risk of cost blow-out

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is lacking a bit currently in terms of active edges and has not as much use during events like LUX due to this.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
He Matapihi Molesworth Library  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

When our kids were little we had access to the mobile library in Newlands and this was great, the interim branches have some of that intimacy and accessibility (Molesworth is close to where I work)

Q16. Where do you currently live? Newlands

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Needs to be a community place, central and have reason for people to come there

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A new Central Library, on the same site, will make Wellington better

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Opportunities for partnership
3. Sustainability
4. Timeframe
5. Climate change
6. Other (please specify)
7. Future-proofing the library service
8. Cost to ratepayers
9. Te Ngākau Civic Square connections
10. Accessibility
11. Making the building resilient
12. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision?

Aesthetically pleasing and modern

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It makes Wellington, Wellington. Central. Open. A new building will just enhance the experience

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre
He Matapihi Molesworth Library
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are good but small. I think that they are the best use of the space that is there

Q16. Where do you currently live? Tawa

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A Central Library fulfills more than the storage of books and media. It represents the community values and goals for the storage, curation and sharing of knowledge. Sharing and transferring knowledge happens through many mediums, and the physical space can aspire to enable that, through spaces to converse and share stories, through to perform music & song, recite poetry, dance, cooking recipes, fashion, art etc. Aspiring to be a hub of communication and knowledge transfer would be an admirable goal for a central library. This suggests involving community groups with oral tradition and history, performance groups and others that have knowledge sharing as a key purpose for their medium. Equally there still needs to be consideration for the importance of reading and those activities that require tranquil spaces. Knowledge sharing and knowledge communication is fundamental to a consistently run democracy. Perhaps we could hope to connect it in some way with libraries in other parts of the world.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I'm looking forward to the next chapter for the Wellington Central Library.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Opportunities for partnership
5. Te Ngākau Civic Square connections
6. Accessibility
7. Heritage
8. Sustainability
9. Cost to ratepayers
10. Climate change
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

This space and ones like it are important features of the civic architecture of cities that enable citizens to freely assemble. Given the climatic nature of Wellington, something with more cover, yet opaque such as the glass pyramid at the Louvre art museum; inhabitable, with potential to attract foot traffic by accommodating small business / a marketplace.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Newlands

Q17. Which of the following ages groups do you belong to?

40 to 44

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

bulldoze the Central Library and put the library back in the Civic Gallery.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

None other

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Don't know

More windows to help connect the library visually to the square and surrounding streets

Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think that the current site of the library on Victoria Street should be used as a rail station for any future extension of rail to Wellington Airport. I support the idea of the right to the city concept coined by the philosopher Henri Lefebvre.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Paul Wilson

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

WCL was a jewel in Wellington's crown. A world class library. More of the same please.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It should remain 'where is'. And not be re-located to a less accessible location. Referring to Q12 - for comparison, under the current modus operandi, I'd visit the libraries (town and suburbs) perhaps once per month. Whereas before WCL closure, I'd visit 3 to 5 times per week. I've used the libraries ('new' and the 'old') since I've been living in Wellington for 30+ years. Why? It's because of its location, great range of books/magazines/newspapers/sheet music/CD/DVD and professional staff, incl Pro-search for 'hard to find' books and sheet music.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Timeframe
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

A better connection, integration of WCL to the Art Gallery (the old library). This could possibly make it a far more attractive place to visit.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Easily accessible (walk, drive, bus).

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

Q4. Would you like to make an oral submission to the Councilors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Orient and design the library as a public space that is geared to making information and knowledge accessible to all in the community. It should have spaces that encourage a range of activities and can simultaneously accommodate everything from quiet study to social/intellectual engagements.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The preferred option is still oriented to a busy street. The architectural drawings should be accurate and include the parked cars on Harris St and the noisy police cars honing out of the station with their sirens blaring. Whichever option is progressed, the main entrance and orientation of the library should be off of Civic Square. This would reinforce/strengthen the role of civic square as a gathering place, align with the art gallery and other buildings in the square, be more accessible for people walking and cycling, move away from promotion of car-oriented design/development, and future-proof the entrance for additional development opportunities should light rail proceed.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Te Ngakau Civic Square connections
2. Making the building resilient
3. Timeframe
4. Future-proofing the library service
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It should be the focal point of all the surrounding buildings - this would encourage its use as a gathering spot for civic and social engagement

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I would hope for a large and safe kids area with a program of kids activities/shows. Lots of private nooks to use for study, ones with views over city or sea. A big, reasonably priced, kid friendly, comfortable cafe.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This does not include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Heritage
6. Timeframe
7. Cost to ratepayers
8. Sustainability
9. Opportunities for partnership
10. Te Ngākau Civic Square connections
11. Climate change
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Given the rapidly changing digital landscape it would be foolish to try and design a future library today. The existing facility should be repaired to the past level of functionality and then be funded over time to react flexibly to whatever the future may bring.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Under the current circumstances it's important to revitalise the city centre as soon as possible. We need to give locals an immediate reason to visit the city centre to make up for the lost tourists and lost businesses.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Timeframe
3. Cost to ratepayers
4. Future-proofing the library service
5. Accessibility
6. Sustainability
7. Making the building resilient
8. Te Ngākau Civic Square connections
9. Opportunities for partnership
10. Climate change
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

not answered

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We found that when the central library closed, there were a number of entrenched rough sleepers who no longer had a safe, warm, comfortable space to spend their afternoons and evenings. The knock on effect of having this space taken away from them meant that their routines were changed, and they became unsettled. One man who was rough sleeping for over 2 decades and used the library as that safe, warm, comfortable space for that length of time was unsettled, his experience of sleeping rough was a little less easy and this was part of the journey into him now being in a permanent house. We would encourage the team to think about how a public building, such as the library, might be part of enabling people to remain comfortable in their homelessness. The smaller library/service centre on Manners Street has very few spaces where people can spend all day, can sleep quietly in a dark, private corner and therefore, less of the rough sleepers are using that space to spend their evenings which is a good thing. We want people to want to get into accommodation that is theirs, rather than living between the streets at night and the library during the day.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Don't know

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Fine for it to have add-ons, meeting spaces, etc., but above all it needs to make resources, above all, the comprehensive range of books it has stocked hitherto, available to readers of all ages.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Since we have to spend the money, let's go for a completely modern building designed by experts, and designed to meet the highest seismic standards.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Future-proofing the library service
3. Cost to ratepayers
4. Sustainability
5. Te Ngakau Civic Square connections
6. Opportunities for partnership
7. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

Attractive modern design avoiding the faults and failings of the existing building.

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is at the heart of the city.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Prefer not to say.

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A future-proofed community facility that encourages and enables peaceful enjoyment of books and audio media in a single central location.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The new library needs to be new. New design, new knowledge, looking into the future. The idea of clinging on to so-called 'heritage' means celebrating faulty design and faulty implementation which is a waste of time, resources, and rate-payer funds. Keep the nikau palm pillars on Harris St using diagonal bracing, demolish the rest, and start again with base isolation in the carpark. Build with triangles for strength and resilience. Go taller. Much taller. Maximise the potential additional upper floor space for more organisations or parts of the council to be in this location. When the Wellington fault ruptures, this building will need to be a hub for civic recovery.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Cost to ratepayers
4. Future-proofing the library service
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Enhancing connectivity to this space should be included in the design.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The Manners St site feels a bit crowded, but it will have to suffice for now.

Q16. Where do you currently live? Newlands

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Around the world and in NZ there are examples of new and innovative 'best practice' library designs. Wellington, the capital of NZ!!! needs to have the best innovative library that an appropriate budget allows. What is most important is the internal design for current and future users, young and old.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Don't waste money on trying to protect the current architecture! Focus on future innovative use! The outside look of a new building can be adequately designed to fit in with surrounding buildings. Don't design for lots of offices - design for the library - as post Covid there will be a much changed workforce and remote working.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Making the building resilient  
3. Accessibility  
4. Cost to ratepayers  
5. Te Ngakau Civic Square connections  
6. Other (please specify)  
7. Making the building safe  
8. Climate change  
9. Sustainability  
10. Heritage  
11. Timeframe  
12. Opportunities for partnership
- Q10. If you selected 'other' above, what other factor was important in your decision?  
As an aside, a new building will provide more work for a greater diversity of workers - providing greater benefit all round!
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

[Redacted]

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Physical spaces around town, video conferencing studios and facilities, books, magazines, media etc

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

New library buildings (plural) should be carbon neutral in their construction and operation 3-6 branches should be in close walking distance to people in the Cuba Precinct, CBD, Mt Cook, Mt Vic, Aro Valley, Thorndon, Kelburn, Oriental Bay. The lake Nikau were a novelty thirty year ago, but they passed their "use by" date. If they are valuable, then they can be auctioned to fund new libraries. Please demolish the dangerous building asap. We should accept that sea level will inundate the civic square within a building's life time and revert the area to nature. Swamp, flax, raupo etc would attract bird life and it can be connected to the lagoon.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Making the building resilient
3. Other (please specify)
4. Climate change
5. Cost to ratepayers
6. Accessibility
7. Making the building safe
8. Opportunities for partnership
9. Timeframe
10. Future-proofing the library service
11. Te Ngakau Civic Square connections
12. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

Library facilities should be much closer to people throughout the CBD and Mt Vic, Mt Cook, Aro Valley, Thorndon,

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

WCC overrates civic square. It is dull - partly because it is all designed by the council - like a company town. It is in the wrong part of town to naturally attract people there. A successful square would be on the "golden mile". The area was conceived as a car park roof. It is a poor connection to the waterfront - barriers being Victoria Street corridor, Jervois Quay or the Bridge steps, the ramps and then the lagoon

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Many ergonomic chairs with tables in quiet areas - NOT bar stools and definitely NOT the "torture rack" chairs from the old library.

Q16. Where do you currently live?

Aro Valley

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Male

Respondent No: 621

Q1. Your name\*

Bridget

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should be a welcoming and engaging public space both inside and out. It should provide active facades and connections to the spaces around it. It should be accessible to everyone.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Sustainability
3. Climate change
4. Making the building safe
5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Its an essential heart to the city.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Circulation of books is important so there are always new books, flexibility in being able to return books to different libraries  
is very helpful.

Q16. Where do you currently live? Miramar

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Female

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Library is a hub for community activity in central Wellington -both residential and business

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It will change over time as books become obsolete. The need for a community space will increase

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Opportunities for partnership
3. Te Ngakau Civic Square connections
4. Accessibility
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

More covered areas Create an overflow into it from surrounding buildings Add retail / coffee shops

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Whilst I have chosen option D, from a long-term point of view, option E is the best. The Council is going to have to start planning a managed retreat from the foreshore soon. The latest climate change report is out – and sea level rises are trending to the worst case scenario - <https://phys.org/news/2020-08-sea-ice-sheets-track-worst-case.html> It is clear, from the options paper, that there is no political will for option E. At least option D will enable better defences for sea level rise than options A to C.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Making the building resilient
3. Cost to ratepayers
4. Future-proofing the library service
5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The Central Library is an important part of any community and particularly so for the central library in a capital city. An option that rebuilds something that was fit for purpose 50 years ago is not the best option for the future. We need a building that suits the needs of the community for the next 50 to 100 years. The palm pillars are a distinctive and (in my opinion) attractive architectural feature and should be re-used if possible but not at the expense of a creating building that meets the needs of the community for the next 100 years. Remediation options A - C seem like the most short-sighted options. With these options the city gets what it had with a few improvements but it doesn't get what it could have by starting afresh. Option D keeps our central library in a central location (a vital factor), it focuses on the future needs of the city, it is a more cost effective option and the difference in indicative opening date is negligible. Waiting for 4 years or 4 1/2 years is not a big difference when we can potentially save half a million dollars. The sustainability objective that is identified as a disadvantage for Option D is, in my view, a red-herring. Regardless of what option is chosen there will be significant demolition, yet this option is the only one that mentions this factor. The closed library was well used and highly valued but this is not a reason to go backwards. The next central library can be too.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Accessibility
4. Cost to ratepayers
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Te Awe Library has a good location for me. I didn't find the lighting or location of Arapaki Manners Library worked for me. I found only having New Zealand books in the He Matapihi Molesworth Library too limiting for me current needs.

Q16. Where do you currently live?

Northland

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Louise Currie

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The existing library needs to be demolished and new one built. We unfortunately do not have money to burn and if the cost of restoring the existing building is going to cost more than to rebuild - we need to rebuild.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The city needs to have a library in the city centre - so we need to rebuild on the existing site and not squander money on committee and think tank groups reinventing the wheel to find another site - which will not doubt include additional costs in the purchase thereof - not to mention more opportunity for people to try and benefit themselves in this process with and they costs/payments incurred which do not need to be incurred.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Cost to ratepayers
4. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Churton Park

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The City needs a library with the functions of the present library - lending hard copy and soft copy material and providing a reference resource. The library also provides a place for meetings and shelter but there are more options for this and it is a less important function. It is important that the library provides for an increasing transition to online services - as these are likely to be provided nearer to people's homes and less in the central city in future, with less need for a physical resource than in the past. It would be unwise to develop a facility like the old Overseas Terminal for passenger shipping that declined in usage almost from the moment it was built. These things suggest a smaller, still substantial but more flexible Library building for the future.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D - New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

New build on the same site or on a different site are both good options. What would be unwise is to build exactly the same building again given the costs and changes in the way information is handled in the twenty first century. If Wellington needs more monuments, why not consider specific new monuments rather than just one that looks like the old library building? Also, given the pressures on households and businesses, the Council must give more weight to reducing the costs imposed on both house owners and tenants through rates.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Cost to ratepayers 3. Making the building resilient 4. Making the building safe 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
These are a good flexible option.

Q16. Where do you currently live?  
Karori

Q17. Which of the following ages groups do you belong to?  
60 to 64

Q18. Please choose the gender that best identifies you  
Male

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library needs to have both a central location and a strong physical outreach programme to connect with those who are not engaged with the information they need to enrich their lives

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Environmental sustainability needs to be a key factor.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Making the building safe
3. Climate change
4. Accessibility
5. Cost to ratepayers
6. Making the building resilient
7. Heritage
8. Future-proofing the library service
9. Opportunities for partnership
10. Te Ngākau Civic Square connections
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Kurt Lenfesty

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The thing I most value about the Central Library is that it is a meeting place, a social place, a community centre. I think that building a new library in a different location with emphasis on how it is a community connector is the best option. As such, the choice of location needs to take into account how it operates as a defacto community centre, with good access via walking, cycling and public transport. If it's not built on a new site, then the 50-year investment says a new build on the same site.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The existing Central Library was one of my go-to place and I spent many enjoyable hours there. Its absence is quite missed.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Making the building resilient
3. Opportunities for partnership
4. Accessibility
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

That is operates as a community centre, as a place for people to meet and share and spend time together, which is how libraries naturally operate.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

There needs to be more community-oriented structures there. It needs to be more of a gathering place.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are Interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?  
I'm glad they exist.

Q16. Where do you currently live? Thorndon

Q17. Which of the following ages groups do you belong to? 50 to 54

Q1. Your name\* Frank Gradwell

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I am suspicious of the costs involved in remediation. I suspect they will turn it be far more expensive than estimated. The present building is nothing special. Other than the lovely sculptured palms it could all be replaced to something which meets the future needs.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Accessibility
3. Making the building resilient
4. Cost to ratepayers
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I regret to say that most my reading is online now but I really value libraries and I think it is excellent that you have opened the interim branches as they are important for children's learning

Q16. Where do you currently live? Thorndon

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

Respondent No: 636

Q1. Your name\*

Jevon Wright

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Shared office space, more access to meeting rooms would be nice. If base isolation removes basement space, more space added on top.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Libraries are WAY more important than convention centers.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Sustainability
3. Accessibility
4. Timeframe
5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Neutral

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It should remain open for long hours, every day. It should be accessible by everyone, a safe and warm space for people to meet.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

They're not big enough - they don't have enough books.

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Gender diverse/gender non-binary

Respondent No: 637

not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
I feel like the location of the current library is a great location where it is, however I feel the best option in the long run is the build a new building in the same location as there is not certainty that no other issues with the current building won't come up 15 years from now after it is fixed. I think a brighter more open building reflecting on Wellington beauty and location will be a staple for the city and the direction Wellington is heading with the population growth.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Central Library is an education and information centre. It is vital to the city's well being.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Act quickly and decisively. Our need is urgent.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Future-proofing the library service
4. Cost to ratepayers
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I would like to see it used for outdoor theatre performances in the summer.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

It is a vital information and education centre and must be up-to-date

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 75 to 79

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Guy Marriage

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

For me, a public Library needs to be a place for people - a place for the interchange of information, not just as a store for books, but more as a Mediateque, a source for people - for the public. This means it needs to provide access to Books, Music, Internet, Legal Advice, Coffee, Cafe, Playthings, Work Venues, Hireable Spaces, History, Activity - for the public, by the public.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? Its got to be future-proofed and it has got to be safe. Base Isolation is the only logical way to ensure that for the future.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building resilient 2. Making the building safe 3. Future-proofing the library service 4. Accessibility 5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

That's a whole separate question - not necessarily interlinked - but certainly, the Square needs to be opened up. Currently it is dead - and has been dead for many years, except for the doors to the Gallery and to the Library. There's the option to open up events and activities on the Ground floor level on all 4 sides - with the rebuild of the former Council buildings - they should be raised to the same level as the central level of the Square. We have this ONE opportunity to rebuild the Square to make it into a public plaza for people.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I've only been to Manners St - its pretty crap. No comparison at all.

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Male

Pauline Ching

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

When I was a parent with younger children the library was our second home. We were all there at least once a week. It was an essential part of my children's life and education about life, and architecture in particular. I would hate to see this facility denied to future generations. This library embraces everybody in the community - it is a truly democratic space. Great architecture for everyone - not just an elite few. It would be criminal to literally throw something so successful away at a time when we must re-use existing resources. The bottom line is not the monetary cost of comparing a new building with a re-furbished one as has been set out in these options. We must put a real value on the reuse of existing resources and this is a chance to explain that to a public who still do not understand this. It is a change in mindset we MUST get to grips with. And it is a fabulous building!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Making the building safe
3. Making the building resilient
4. Climate change
5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The city is missing its heart.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live?  
Mount Victoria

Q17. Which of the following ages groups do you belong to?  
50 to 54

Q18. Please choose the gender that best identifies you  
Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A modern central hub for the community.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

This is a once in a lifetime opportunity to have a fresh look at what the central library should be for the community now and in to the future. We should not muck it up with some emotional attachment to the old library. The only thing truly good about the old library design is the nikau columns and these could easily be incorporated in a new design.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Accessibility
4. Te Ngakau Civic Square connections
5. Opportunities for partnership

Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Future-proofing the library service
4. Heritage
5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Thorndon

Q17. Which of the following ages groups do you belong to?

Prefer not to say

Q18. Please choose the gender that best identifies you

Prefer not to say

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
We must have a central library. The opportunity for a modern library outweighs any heritage value of the existing building, along with a cost advantage of the new build.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Accessibility  
3. Making the building resilient  
4. Cost to ratepayers

Q1. Your name\* Darren

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library could be a great hub and spoke system around the area, with the Central library the cornerstone of it.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Sure. The building itself is not exceptional or a beauty. I think people are used to it being there, and have a view of what it currently is, and some don't want to change. Let's re-imagine it, with the added bonus of it costing even less money ! Wow.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Timeframe  
2. Cost to ratepayers  
3. Making the building safe  
4. Making the building resilient  
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets. Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think it should have a portrait of me there. That would be an exceptional idea. I think it would also help scare away unwanted intruders.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Opening hours. Molesworth is tied to the cafe hour

Q16. Where do you currently live?

Thorndon

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Prefer not to say

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Books.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers  
2. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

I've lived here 9 years. The town hall has been shut due to earthquake strengthening the entire time. The cost has ballooned. I have zero faith in the city council to strengthen the building in 4 years and in budget.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Neutral

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

There is zero importance about this space. Zero. No one goes "oh yes, Civic Square is a totally important place in Wellington.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
Not enough books.

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

To enhance the community connections make use of the upper floor office accommodation for community and not-for-profit organisations, bringing these group and their many users directly into the central library hub. This could operate in part like a biz-dojō for community groups. Also provide a wide variety of publicly usable meeting rooms/spaces - for hire to provide income.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The building is an important part of Wellington's recent heritage and is worth upgrading to the highest level currently feasible. Although a new build elsewhere may be a cheaper and more flexible solution the existing building still needs to be made good. Demolishing this would be a poor choice for a city with a focus on sustainability and the environment.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Heritage
3. Sustainability
4. Te Ngākau Civic Square connections
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

See earlier comments about use of upper floor office space for community and not-for-profit groups. This would bring often marginalized groups into the civic precinct.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Kilbirnie

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Daniel Davis

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Increase of public service spaces to match with library trends - maker-spaces, increased study areas, public hangouts, free booking rooms, music and game centres.... Maintain the collection level that we have, especially with the current historical depth in the Slack. Increase the connection that the library has with the city by having it as multi-use and a place where people of all creeds feel comfortable with. Have a building that is more disabled-friendly with easier accessibility. Good views and connection to the outdoors. Potentially have it including basic facility use like the I-Site and council service desk. Opportunity to bring it back to the city and increase the amount of information easily found about the city itself - almost a museum type. Another possibility is to double up and help the city mission with areas for homeless to spend their days allocated for them - the library is for everyone, but sometimes they can dissuade other members of public from finding items in the library.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D - New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It needs to be fully safe so that it will be able to withstand any future that both the normal geological hazards and climate change will cause. I believe that this would be a big refit of the basement story of the library to handle the current flooding and the expected (to the maximum CC possibilities - not the minimum) local sea-level rise and the tidal and storm flux associated. The building should be energy efficient, with low energy use interior through good natural lighting, natural airflow and well-insulated. It should be able to handle a full earthquake and have the facilities to help be a support centre should a big one occur.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Climate change
3. Future-proofing the library service
4. Timeframe
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library

Te Awe Library Brandon and Panama Streets

Arapaki Manners Library and Service Centre

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

Knowledge of location. More signage and more people knowing about them. Te Awe and Arapaki are both modern collections which are good because they go about but it loses the depth that luckily comes from Te Pataka. I think all 3 have lost out on the community space of central where it was everyone's free space to go and hang out at when lost in town. They are lacking on the seating and open feel of central.

Q16. Where do you currently live?

not answered

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Natalie Thornton

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

We must not outsource our library service to any outside/ private parties. The library needs to remain a council organisation.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please retain the library as a multi floored building not one of these new huge open planned areas. The existing library had a mezzanine floor so it wasn't too bad but I like libraries to be quiet places so enclosed floors are best to reduce noise. Focus on books and library services not open space filled with few books, wide curved isles and fewer floors.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Cost to ratepayers
3. Future-proofing the library service
4. Te Ngakau Civic Square connections
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

At the moment the precinct and town hall are not centralised in civic square. It needs to get back there so Wellington Retains it's heart. This is a common theme of complaint I hear from people when we talk about Wellington now.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They're too small but better than nothing

Q16. Where do you currently live? Newlands

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Philippa Werry

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The new city library in Christchurch and the new Wellington City Council branch library in Johnsonville both showcase the possibilities and show what an amazing community resource a library can be. Wellington Central Library was already a focal point for the city and we miss it so much. The new pop-up libraries are adequate-to-good as a temporary measure but they are no long term replacement. We really need a new Central Library that will be open and accessible and welcoming to everyone in the city

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building safe
3. Accessibility
4. Sustainability
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6 Te Awe Library Brandon and Panama Streets  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like Te Awe best. The staff are approachable and helpful and it feels spacious and open, and the children's section is really appealing with its big windows and quirky seating areas and space for pushchairs. Arapaki feels squashed and office-like in comparison (but again the staff are great). He Matapihi has a nice but small children's area but I hardly ever see anyone else with small children there and the children's books don't seem to change much. It's a good central venue for small meetings.

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Simon Chamberlain

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Mix of physical spaces from quiet study to noisy run-around for kids. ChCh central library as a model for new services (but consult with them over what is 'actually' being used, not what sounds cool - e.g. the few times I've been there, it didn't seem as though their recording studio was getting much use. Please keep plenty of books on shelves - I know people can access them through the catalogue and have them delivered, but people like shelf-browsing, and having fewer books on shelves reduces the possibilities of serendipitous discovery, and makes it harder for people who aren't looking for a specific item. [I mean, I'm a librarian and I hardly use the catalogue to find something new, I rely on browsing]. Make sure you work with community groups (esp Maori, Pasifika and new immigrants) to make sure the library gives them what they need.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? Narrowly prefer Option D; Option E also worth considering and would also be happy with Option C.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Climate change
4. Opportunities for partnership
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Te Awe is great, has a really good feel to it. Good selection of books for the size, and good presentation of resources. Arapaki feels cramped and not welcoming - I don't quite know why. (But given that it had to be thrown together under pressure, no criticism of the people involved).

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Male

[redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I'd like the library to provide a public (non-commercial) space for reading, studying, relaxing, and for the community to meet, share knowledge, and perform (continue) to provide a fantastic range of physical books for early and older readers alike
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Sustainability
  3. Climate change
  4. Te Ngakau Civic Square connections
  5. Making the building resilient
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Don't know
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- I feel the central library and civic square are at the heart of Wellington. I see them as places that people come to to learn, share, participate and engage as citizens of our city.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

That I can continue to access the awesome selection of books. That the fee for returning to a different library has been waived (as I sometimes get material from another library - but I don't have to make a special trip all the way back out to the suburbs to return the material).

Q16. Where do you currently live? Halaitai

Q17. Which of the following ages groups do you belong to? 40 to 44

Q1. Your name\* Greg Campbell

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I like the idea of it being the living room of the city. I feel the the previous library provided approximately the right mix of services and activities as well as providing the flexibility to evolve and adapt as times changed.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I prefer option D because as well as providing best value for money, it would provide the opportunity to preserve and incorporate heritage aspects of the current building such as the nikau palm ornaments/ sculptures. It would also prove the opportunity to upgrade the design of the library space to incorporate current best practice. By the same token, using the existing site would presumably minimise land acquisition and consenting issues associated with option E.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Cost to ratepayers
3. Making the building safe
4. Heritage
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I value the function of the precinct in the city.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I am glad they are there but they are a poor substitute for a proper library.

Q16. Where do you currently live? Aro Valley

Q17. Which of the following ages groups do you belong to? 65 to 69

Jason

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Demolish. And build a brand new modern building.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Library. Are you out of your mind. It's bad enough blowing hundreds of millions on refurbishing the town hall but to spend \$180mn rebuilding a building with no historical value, is ugly to look at and completely impractical to use, when you can build a brand new one for a lower price you guys have quite possibly lost your mind. Stop wasting our fricking money you idiot council. You make me so angry, even more so I have just noticed my rates bill has gone up 5% and you have delivered nothing but useless cycleways no one wants, public transport that no one uses, slowing down the roads when you should be speeding them up, and more and more wasteful spending. Why not spend some cash on things that actually make people want to live here (roads that aren't congested, a runway extension, Peter Jackson museum so as the city that actually created LOTR can benefit, an indoor stadium so we can have concerts so our young people actually don't want to leave). Sort it out and stop wasting my money.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe
3. Future-proofing the library service
4. Making the building resilient
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Why. It's a windswept hell hole.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Nothing

Q16. Where do you currently live?  
Wadestown

Q17. Which of the following ages groups do you belong to?  
45 to 49

Q18. Please choose the gender that best identifies you  
Male

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I'm 74. When I go to the library I see young folk, mostly students, sitting at tables and chairs (like me) AND on more casual seating, such as cushioned window-sills. Within the next 50 years use of tablets and laptops will become even more prevalent so please ensure we have plenty of nooks and space to which we can allocate more of this casual seating.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The present front foyer is dowdy and uninviting. The entrance outside from Te Ngākau is better (but disappoints after entering the café area). I am sure more inviting and striking entrances must be in your architect's mind. Feature-finished exterior concrete (eg exposed aggregate / flayed / chipped flutes etc) looks great for an architect's award but doesn't weather well. This is to look good for 50 years; so be on guard!!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building resilient  
2. Heritage  
3. Te Ngakau Civic Square connections  
4. Future-proofing the library service  
5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The Council Building needs to have its entrance from Te Ngakau, rather than the alleyway beside the Michael Fowler Building.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I wasn't sure it WAS a library.

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I absolutely agree that Wellington should have a Central Library, but I love the little pop up libraries around town. I'd very much like these to continue.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Climate change
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

	Te Awe Library Brandon and Panama Streets
	Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I love the interim branches and hope they will continue.

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender, that best identifies you Male

Respondent No: 665

Q1. Your name\* Peter Galvin

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I'm comfortable with the various functions described for a library. I think it should particularly cater to low income people and households through the amenities it offers

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think the existing configuration of public space is great. I certainly wouldn't trust the current mayor or certain councillors to have any kind of vision for anything better

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Accessibility 3. Te Ngakau Civic Square connections 4. Sustainability 5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like the feeling of warmth and comfort though the spaces feel quite reduced

Q16. Where do you currently live?

Island Bay

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It seems outrageous to be spending such a large amount of money with any of the options, and not to spend the extra % for a long-term resilient build. Surely the other options will cost more in the long run.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Making the building resilient
4. Sustainability
5. Future-proofing the library service
6. Heritage
7. Climate change
8. Timeframe
9. Cost to ratepayers
10. Opportunities for partnership
11. Te Ngākau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Couldn't find a bookdrop at Arapaki on the weekend.

Q16. Where do you currently live? Aro Valley

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Male

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

While we are waiting for another two to three years to get the library up and running again, can the Convention Centre whose use is now compromised by Covid be used as a temporary library building?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Accessibility
4. Future-proofing the library service
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Needs to be the centre of civic life again

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I don't want them to be permanent

Q16. Where do you currently live?

Mount Victoria

Q17. Which of the following age groups do you belong to?

75 to 79

Q18. Please choose the gender that best identifies you

Q1. Your name\* Geraldine Moore

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A place to explore and borrow books, read newspapers, photocopy things, and a safe and quiet and inviting space to retreat to at lunchtime or the weekend. A cheap meeting room community groups could borrow would be nice.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

1 Question 6 annoys me, I want to choose C and D please. 2 The final decision should be holistic if possible e.g. not solving one problem and creating another big problem, and not promoting e.g. sustainability of a new building when its creation came at a great cost sustainability-wise. 3 I value a safe building and one that is future proofed against climate change. 4 The building also needs to retain the ability for users to "escape and find a quiet corner" to study or read or explore knowledge. Care may be needed if more entrances than present are planned.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Climate change
4. Cost to ratepayers
5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? Would a new problem be created, like if the current site isn't used, what will happen to it? There seem to be many unknowns. Who would want to buy a heritage listed unsafe building?

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is a great lunch spot and I like the lack of retail, I feel this needs to be retained. It would be nice to have some quiet lunch spots and public seating in Wellington that are outside and able to be used when it's raining. But I don't know how best to achieve this.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Brandon Street seems to have a good collection and is a place one can retreat to. Arapaki is too small to have the books I want and is usually crowded so I don't use it. It may be impractical, but I would like to see all the library's holdings on the catalog and the ability to borrow all books.

Q16. Where do you currently live?

Ngaio

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A central library is an essential building for the city's well being and community. We should have a new one as a matter of priority.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Cost to ratepayers
4. Timeframe
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Te Awe library is a nice well thought out space - I like that has a new fit out.

Q16. Where do you currently live? Wadestown

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

Respondent No: 672

Q1. Your name\*

Andrew Wharton

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Add a green roof on top of a new building connected to existing public spaces for community use and a cafe. Design the building to account for sea level rise, liquefaction risk and to improve stormwater drainage at the site, with future flexibility as sea level rises. Enable multiple research and creative uses as well as book storage. Include space for community services like consumer advice, council in person services like paying fines and duty rma planning advice. Better indoor outdoor flow to civic square.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Jack lott green would be a great location for a new building, with the existing green space elevated to the roof. Views of the lagoon, can help strengthen the city to sea bridge, and facilitate response to flooding and sea level rise. This will also allow a taller multiuse building on the existing library site.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Te Ngakau Civic Square connections
3. Cost to ratepayers
4. Accessibility
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The civic precinct needs more active recreation, seating, food and play options for all age groups. Spaces to do stuff, and spaces to watch people do stuff. This may include cheap leases for businesses to set up in the square if they draw people in and provide interest and fun. People should be able to say "there's always something to see and do at Te Ngakau".

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
No, they are great temporary spaces. Well done.

Q16. Where do you currently live? Khandallah

Q17. Which of the following ages groups do you belong to? 35 to 39

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

\* Better popup spaces for utilisation by groups/displays. \* A better cafe space, with an outside view ideally. \* Improve the children's area, and have areas for study (just don't put them next to each other). \* Keep a separate large space for sci-fi/fantasy books, don't mix them into general fiction like at Johnsonville. \* I think it was good having Citizens Advice in the old building so more of that kind of thing in terms of community service. \* Sufficient good quality toilet facilities, also family friendly ones (eg nice change tables)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D - New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Which would you buy? A brand new car, or a 30 year old one rebuilt after an accident. If they cost about the same it's a not a hard choice. 30 years is not historic, and I feel the council's preferred option gambles with peoples lives and wallets. Given this chance, why not redesign from ground up using everything we've learnt from the quakes to make this key building of ours as resilient as possible? 100% NBS sounds impressive, but a new build could easily be designed to exceed these standards by a large amount. This approach would really future proof the building and wouldn't be hamstrung by the existing limitations. It should be possible to keep some of the iconic design elements (eg palms) from the old building and incorporate them into the new design as a nod to the past. If we want the building to still be with us in another 60 years it's worth spending a little extra time to really get it right.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Making the building resilient 3. Future-proofing the library service 4. Cost to ratepayers 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It needs the library back, and the space need to be multipurpose so events can be held there.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? No, they are nice little spaces

Q16. Where do you currently live? Johnsonville

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Travis Cottreau

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Having visited the new central library in Christchurch, I love the additions to it that I wouldn't have considered before. Lots of public spaces, including outdoor spaces and lounging spaces that are beautiful and welcoming. In addition, they have lots of private rooms for small groups to gather cheaply, and a performance space that can be used by local or travelling performers, poetry, comedy, dance, theatre can all use the space for events. In addition, there are study spaces for students, recording spaces for podcasters or recording artists, as well as boardrooms and other, bookable spaces. Also, if there is anything is should be to improve over the previous library is more quiet. So, cafes and other public presentations should be more isolated from the main library so it's always quiet in the main library.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Climate change
4. Sustainability
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

While I love the space, it's less important that it be connected to that and more important to have a central library that we can use. Sooner is better.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I love that they are there, offering the library service that is so needed. There is space to sit and relax and enjoy your lunch hour or afternoon break. I think the interim libraries are good and I like them as they are, as long as they are interim and we get a central library back as soon as we can.

Q16. Where do you currently live? Tawa

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

Respondent No: 675

Q1. Your name\*

Ella

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

No one is arguing about the need for a library - it is a fundamental part of the city that is important to many different people. It needs multiple spaces for different uses, quiet/and group places, places to eat, drink and meet, and places to learn and study. But this is really about the building.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If you are going to only upgrade the existing building then it should be done to the highest standard with base isolators. However, it is hard to justify this when it would be cheaper to rebuild from scratch to create a more modern building. Why is there not an option to rebuild from scratch with base isolators?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Making the building safe
4. Cost to ratepayers
5. Sustainability
6. Climate change
7. Opportunities for partnership
8. Accessibility
9. Te Ngakau Civic Square connections
10. Heritage
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I was intrigued by the comments someone made that the library was never actually designed as part of the Civic Precinct / it didn't actually open up into the square. I think the Civic Precinct project is important, but it should not be prioritised over other fundamental development for the city - such as affordable, warm housing and meeting the needs of low income communities.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

I haven't been to them

Q16. Where do you currently live?

Pipitea

Q17. Which of the following ages groups do you belong to?

19 to 24

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Background :- 1. The effects of the Covid 19 pandemic need to be taken into account. They will be felt for many years. Businesses will close/operate on a reduced basis. There will be a big increase in unemployment which will include many rate-paying home-owners. Household budgets will be under strain meeting rates at current levels , so any increase to pay for the library should be kept to an absolute minimum. 2. Earthquake deaths in NZ are extremely rare. Going back to the 1855 Wairarapa earthquake , to date there have been three earthquakes where the death toll has exceeded ten , and not all of those were due to building collapse. Every life lost is a tragedy , but there is a need to be realistic when assessing risk. We all have to accept a level of risk in our daily lives ; otherwise how would we function as human beings ? 3. There is an urgent need to re-establish the city's central library as soon as possible. Too much time has already been lost. It is unacceptable to be without this essential facility for any longer than is absolutely necessary. So applying these three background factors to the five options suggested by Council , Option C (the so-called preferred option) is the worst and must be ruled out. Options B and D are the next worst - both are too expensive and will take too long. This leaves A and E. Of these two I prefer A.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Cost to ratepayers
3. Timeframe
4. Accessibility
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We have demolished the other buildings in Wellington that have the higher risk preset concrete flooring issues. The private owners have decided repairs were not economic. Until work starts and the covers are lifted the true cost of remedy will not be known.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe
3. Making the building resilient
4. Accessibility
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

As a user of the library, I thought it worked extremely well as it was. Therefore my preference would be to strengthen the building without changing the services or layout unnecessarily.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Heritage  
4. Cost to ratepayers  
5. Timeframe
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing  
More windows to help connect the library visually to the square and surrounding streets Unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Works well as it is
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

no

Q16. Where do you currently live?

Aro Valley

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Male

Respondent No: 682

IP Address:

Q1. Your name\* Jo Orange

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Accessible access and accessible spaces for all - disabled, elderly, Maori, Pasifika, other community groups. Provide safe places for women and children. A technology centre for study and reading. Top range digital technology, including small movie theatre, and also low tech quiet spaces for book readers, people with anxiety and other mental health issues. Please consult with all community groups on spaces required.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Better aesthetics than the current ugly building. Reduce noise - that was one of the noisiest libraries I've ever been in and it was my home away from home. Aircon noise, high high ceilings = noise. Reduce the noise.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Accessibility
2. Future-proofing the library service
3. Opportunities for partnership
4. Making the building safe
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Place for communities to meet.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Too small. They're like branch libraries without the homely feel. Arapaki is cold, stark and uninviting. It has a temporary, get in and get out feel. Te Awe is better but heaps of room for improvement. I like it's reduced lighting. Books by genre please - I don't like my fiction mixed up!

Q16. Where do you currently live? Kingston

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Female

Q1. Your name\*

Peter

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Library services are certainly important, however without full knowledge as to what more creative answers have truly been considered it is difficult to understand what would be doable. Has a "library prescient" where there is a cluster of libraries within the same small geographic area (an extension of the temporary Te Aue library concept possibly adjoining buildings / ideally with contiguous access) been considered?

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Per comment in (5). Although "a devolved model" has been discounted, it is unclear as to the level of detailed thought that was put into this. For example, if long term tenancy was available along a significant 1st / 2nd floor footprint of Lambton Quay (retail on ground) it may encourage both foot traffic, as well as support landlords (rate payers/source of council revenue). Having a street of library's and cafe's mixed with retail actually sounds quite appealing to me.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If utilizing existing building spaces within Wellington (eg adjoining floors along Lambton Quay or somewhere similarly central) is not practicable, then a new build on a cost-effective site within the CBD seems sensible. Should the council persist with the so-called preferred option to spend significantly more of the rate payers money by fully upgrading the existing building I am sure I would not be the only person writing to the Auditor General asking him to consider investigating councilors in relation to the waste of public monies and assessing their personal liability for such cost.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Opportunities for partnership
3. Accessibility
4. Making the building safe
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Less than once a year

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

not answered

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Male

Respondent No: 684

IP Address:

Q1. Your name\*

Graeme Ancell

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A large physical space is not required. A virtual space makes more sense. Partnerships with e-libraries make more sense.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Sell the land to retire council debt. Use recently vacated CBD office spaces to provide small temporary hubs.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

A large central library is a waste of ratepayer money. Rebuilding the central library will just be a bottomless pit to throw rate payer money in. Sell the land to retire debt. Move with the times and go virtual.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Unappealing

More windows to help connect the library visually to the square and surrounding streets

Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Sell the land to retire debt. Council workers can work from home or temporary offices in recently vacated CBD properties.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Male

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

You should take this opportunity to rebuild a world-class future-looking library and multi-purpose building; including facilities for community based functions (e.g. public meeting rooms; "seminar" space; etc.) Other modern-looking cities have "drop in" spaces for sitting and charging phones, for example - consider these sort of features in any new design. The city needs some place to go and "just sit" if you have a half-hour to fill/wait - especially given our weather!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

In my opinion, we should be looking forward and not backwards; which is why I prefer Option D rather than Option C; as I don't have any particular attachment to the current building and/or its potential "heritage" status. Wellington spends too much time trying to preserve the past, in my opinion, and not enough working/planning/leading for the future. Be brave and embrace the opportunity to move forwards.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Future-proofing the library service 3. Opportunities for partnership 4. Cost to ratepayers 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
They're ok for what they are. More chairs would be good.

Q16. Where do you currently live? Outside Wellington City

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I agree that the Central Library should be 'the city's living room' with strong connectivity to Civic Square, Victoria and Harris Streets and also connect with, or embrace Capital E. Careful research of great NZ and overseas precedents for library design should be undertaken, creating spaces that balance access to books, modern technologies and public/social spaces.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The existing building is an iconic Wellington landmark that was incredibly forward thinking for it's day, based around great spatial flow and social connectivity. It's design is equally notable being very well composed and incorporating unique and special details such as the nikau palm columns. In the wrong hands it would have been very easy for this building to be average, instead it is a superb and notable building. Based on this, as well as preventing the excessive carbon emissions from new construction, I believe it is important for the existing building to be the remodelled container for the future Central Library.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Heritage
4. Future-proofing the library service
5. Te Ngakau Civic Square connections
6. Climate change
7. Accessibility
8. Sustainability
9. Cost to ratepayers
10. Opportunities for partnership
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think it would be better utilised and play a greater role if there was more to attract people to the space - having an improved library that is better connected to the precinct should be a great start. Perhaps some changing/temporary food providers in the precinct would help - e.g. different food trucks each week...

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are Interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q1. Your name\* Jenny Jebson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The best option is to Start again. Any remediation will not solve the problem as we will still have a Patched broken building.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Should be a space for everyone.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Accessibility 3. Making the building resilient 4. Future-proofing the library service 5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Grenada Village

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Female

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Open the Central Library as soon as possible with some enhancements for future use.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Having most of the buildings around civic square shut down for so long is shameful

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Timeframe
3. Future-proofing the library service
4. Making the building safe
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I never had a concern about connections of the Library to the civic precinct. The view of the square from the top of the stairs by Clarke's was lovely to me.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live? Berhampore

Q1. Your name\* Mel Wallwork

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The new library needs to be light, modern and future proof, offering at least all of the facilities of the current library. The new building needs to stand out architecturally and be welcoming to readers young and old. It needs to have car parking to allow users to pick up and return books and make use of the cafe.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Most ratepayers do not consider the current building to have any architectural merit. It is dull and boring to look at and I suspect that only architects consider it a heritage building. Remediation of the library would be constrained by the current footprint and building design whereas demolishing it and developing a new building would provide greater opportunities to present ratepayers with a stylish and future proof facility which meets a wider range of needs. The palm tree posts are the only attractive element of the current building and I'm sure that they could be incorporated into any new design and provide a link back to the original structure.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Cost to ratepayers
3. Future-proofing the library service
4. Timeframe
5. Accessibility
6. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? If the Council doesn't wish to be considered boring, with no style or flare, as well as profligate with ratepayer money then I suggest it should reconsider its decision to adopt Option C and agree to move forward with Option D.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The new library needs to continue to contribute to and facilitate the use of the Civic Precinct.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? They are too small and cannot provide a full service.

Q16. Where do you currently live? Strathmore Park

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library can serve a lot of different community purposes but it is different from a community centre. It must not lose its focus on being a place of knowledge, information and learning (as well as high quality fiction). It should continue to provide these kinds of services as its primary business, including making them as accessible as possible for everyone. This includes both in person and online services. Physically, the new library needs to be a warm and inviting space for everyone in the community. The old library was sterile, ugly and just not a comfortable place to be.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I strongly oppose option A and option C. Option A would not be satisfactory in terms of safety and sustainability. Option C is more expensive than a new building that would be better and more fit-for-purpose. It makes no sense to spend that amount of money on a building that will still be awful at the end of it. Option B is the only viable 'keep' option, that needs to be weighed against the 'new building' options. I dislike option B because it would leave us with a poor building that would not be particularly resilient or fit-for-purpose. Its only virtue is the lower cost in the short term. Choosing between options D and E, I have indicated a preference for option D only because the site is already known and is a good location. An alternative site would be acceptable if the library remains central and accessible. I could even favour that option if it means the library were more resilient to the effects of climate change or natural disasters.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Climate change
5. Sustainability
6. Future-proofing the library service
7. Cost to ratepayers
8. Timelrame
9. Te Ngakau Civic Square connections
10. Heritage
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The Library needs to be in a central and accessible location, but there is no reason for it to be co-located with the Council Chambers or in any other kind of 'civic precinct'. People access the services in those buildings for different reasons at different times. It should not be a relevant factor. In comparison, a community centre co-located with the library would make more sense.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

It is nice having a library service nearer to where I work...but not nice enough to want that instead of a central library.

Q16. Where do you currently live?

Ngaio

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A new library needs firstly to be earthquake proof which is why I select option D. It does not have to win architectural awards but it needs to be fit for purpose and supply quiet areas for sitting and reading. There needs to be a physical separation between a noisier children's section and adult areas and cafe space must also be completely separate to avoid noise transference. Different categories must be clearly separated and signposted. A range of ways to access reading material is helpful and I support the inter-library transference and on-line booking and renewing and downloading of material. It needs to be central in order to draw people into the centre of the city. It's present position should be preserved.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Making the building resilient 3. Accessibility 4. Future-proofing the library service 5. Te Ngakau Civic Square connections 6. Cost to ratepayers 7. Climate change 8. Timeframe 9. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should cater for all i.e. while not sacrificing books and stacks developing digital and other contemporary resources typical of developing twenty-first-century libraries.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The library has and always will have a brilliant future. Wellington is a thinking and active city and its people will always value the library as a resource.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Other (please specify)
5. Te Ngakau Civic Square connections
6. Sustainability
7. Heritage
8. Accessibility
9. Climate change
10. Opportunities for partnership
11. Timeframe
12. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

I believe that the costs quoted at present for remediation to make the building safe and resilient can be reduced and the preferred option for remediation at a high level can be secured at sensible cost to ratepayers and the city.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's a great space. It works well. The combination of art gallery, library, civic buildings and a gathering space for university parades, lunchtime meetings, impromptu ball games is a feature of a grown up city. Wellington is a grown up city.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Q2. Your email or postal address  
[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library has a key role as a learning commons especially for sections of the community that are not digitally connected and those who are but need help with critical evaluation of resources. This needs to be provided by trained and available librarians and a good reference section. Remote ordering of material only works for those who know what they are looking for and they are only one demographic. The former central library did this and offered a variety of face to face presentations and community interaction.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

There is a high level of mistrust of the information provided here owing to the poor handling of historical engineering reports and the variety of costings provided. It is important that council help undo this by keeping ratepayers informed during the building process and not hit us with delay and cost blow-out.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Making the building safe
3. Making the building resilient
4. Future-proofing the library service
5. Accessibility
6. Heritage
7. Sustainability
8. Climate change
9. Cost to ratepayers
10. Timeframe
11. Opportunities for partnership
12. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? This ranking question is too simplistic and it tries to reduce holistic issues to 'preferences.' During the time the library is being built there will be a re-ordering of priorities and a high expectation that elected officials will not re-visit decisions

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Considering the lack of action on issues like the old Capital E and the town hall I think the council is likely to delay things further by talking 'big picture' issues. Civic square LOST life when the library closed. Priority is the library . Get small stuff done.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The best thing is to be able to return books anywhere: as each library has different collections they offer different browsing options and I visit whatever is nearest including 4 branch libraries as well in the last 6 months but this is more desperation for a good library rather than enticements of the popups. They all lack the dynamism of a central library but have been a stopgap measure.

Q16. Where do you currently live?

Melrose

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Male

- Q2. Your email or postal address  
[redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Co-working space, more meeting rooms, quiet study spaces with latest technology i.e. TV screens with HDMI, chrome, etc.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
It needs to continue to provide the services it already provides for families i.e. play space for kids and weekly activities, a 'cafe', baby-friendly changing areas and breastfeeding spaces, great access, etc.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Making the building resilient
  3. Accessibility
  4. Future-proofing the library service
  5. Timeframe

Q1. Your name\* Gabrielle O'Brien

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It needs to be a space that can be used flexibly and adapt as needs change. It should still have books and reading at its heart and be welcoming to all Wellington citizens - families (with good facilities for young parents e.g. changing and feeding rooms etc), young adults (safe place to gather or study), those for whom it is a warm, dry safe space to go in winter. It should be a tolerant, friendly space. Having low cost meeting rooms for community hire and performance space as well as opportunities for different groups having a place to gather. Libraries should be equalisers - regardless of economic circumstances, they should be a space where children and adults can relax and have opportunities to learn - also providing facilities that some people may not have at home e.g. internet access, guidance with how to find information.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The options are obviously based on predicted costs and timeframes - inevitably past experience tells us that these may not be accurate - my preferred option is based on wanting to see preservation of some aspects of what we have but taking the opportunity to future proof it as much as possible.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Cost to ratepayers
4. Accessibility
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Although it was great to have Arapaki up and running some quickly, it is too small and restricted in terms of books to be more than a "better than nothing" solution Te Awe is a great interim space - nice to have a bigger collection available to browse and also a return to some comfortable seating space - welcoming and attractive space with good opening hours

Q16. Where do you currently live? Mount Cook

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* J Ford

Q2. Your email or postal address

[REDACTED]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Important to provide welcoming spaces that encourage and facilitate learning - in anticipation of future technology. Whilst staying true to the core values of the library.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We will always need paper books.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Timeframe
3. Heritage
4. Cost to ratepayers
5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Needs to be easier for visitors to find

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Good checkout and checkin systems. Good lighting. More books would be preferable, but understandable with space and covid restrictions.

Q16. Where do you currently live? Outside Wellington City

Q17. Which of the following age groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Male

Respondent No: 702

Q1. Your name\* Nick

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should be welcoming, flexible, modern, connected.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I consider that the full base isolated structural option is too expensive at \$200M. In addition it is more expensive than a full rebuild. On this basis I believe the budget for any refurbishment should be capped at no more than what a new build would cost. The city council and rate payers are not rolling in cash at present - we need to be pragmatic in our approach.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers  
2. Making the building safe  
3. Sustainability  
4. Future-proofing the library service  
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is a great asset - but presents its "back" to Victoria street. It needs reinvigorating - the civic music hub would be great for this.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, He Matapihi Molesworth Library National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Male

Q1. Your name\*

Bill

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The primary purpose of the library is as a central location that people can attend to read books. This can be a little more generalised as a public space where people are safe (warm, dry, well lit) with public information resources available (books, media, internet).

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

While I like the existing building, I don't think that its "historic" value is significant. Especially not significant enough to want to waste millions of dollars of public money to preserve and end up delivering a poorer experience than a brand new build. The current location is ideal. The current layout is attractive to use. I think a new build could pay homage to some aspects of the current building (keep the Nikau!)

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Future-proofing the library service
4. Timeframe
5. Sustainability
6. Climate change
7. Accessibility
8. Other (please specify)
9. Making the building resilient
10. Te Ngakau Civic Square connections
11. Opportunities for partnership
12. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

The layout should focus on the core role of the library as a book repository and place to read, rather than providing lots of meeting rooms and other spaces.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I really like the better view of the sky since the "bridge" was taken down. Te Ngākau should not feel like it is surrounded by walls. Don't build too high.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Each collection is quite small so often it doesn't have the books I want. I do like how easy it is to order between branch libraries now.

Q16. Where do you currently live?

Kelburn

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Male

Respondent No: 704

Q1. Your name\* RodH

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I love the current central library. While some updating is necessary, it's an important building to conserve and the feel of the space shouldn't be altered for the sake of it.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

While other aspects such as accessible, versatile and up-to-date electronic facilities are important, books should remain at the core of the library's function.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Heritage
4. Future-proofing the library service
5. Te Ngakau Civic Square connections
6. Sustainability
7. Climate change
8. Timeframe
9. Accessibility
10. Cost to ratepayers
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I don't like them; the book collections available for browsing are very inadequate

Q16. Where do you currently live? Takapu Valley

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Male

Respondent No: 705

Q1. Your name\* Shayna Curle

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library project should be an anchoring project for re-imagining our city for the next 500 years, not 50. Our Treaty relationship should be recognised in the process of deciding the future of the building and in the process of designing it. It should include from the outset, the support and inclusion of mana whenua in decision-making. The civic centre has been gifted the name Te Ngākau, which translates to "the heart". The revitalization of our community hubs should stem from this project, in the same manner that blood is pumped through the body by the heart. In terms of spaces and programmes that I would like to see: \*safe spaces at night for women and other vulnerable groups that find themselves staying late in the city for whatever reasons- currently these would be places such as McDonalds or a bright streetlight with pedestrian activity etc. People should not have to spend money to have a safe and warm refuge within the city at night while they wait for transport etc \*An iconic building that draws tourism to the city e.g the Seattle library \*In a Covid world there is need for connecting digitally to people in a safe work environment. The new building could include private meeting rooms with excellent internet service that can be rented for a fee, like what is on offer at private businesses such as Bizdojo. \*Showers \*Coffee, tea and food-heating facilities such as microwaves.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. A new building is the best option, as remediating a building is similar to doing a difficult surgery, and there are always risks with undertaking this kind of work. There is no guarantee that even 100% NBS would prevent the building from sustaining damage in a future earthquake. Demolition is the better option. This should include demolition of CAB and MOB to create more space for a new, large building. Te Ngākau as a whole should be considered in the redesign, not just the building.

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Other (please specify)
2. Opportunities for partnership
3. Te Ngakau Civic Square connections
4. Sustainability
5. Climate change
6. Future-proofing the library service
7. Accessibility
8. Making the building resilient
9. Making the building safe
10. Cost to ratepayers
11. Timeframe
12. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? mana whenua engagement, which would inherently include sustainability, climate change, accessibility and future proofing, as these are intrinsic values of Te Ao Maori.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Don't know

More windows to help connect the library visually to the square and surrounding streets Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Te Ngākau is often where large protest groups, the voices of our nation, gather before marching to parliament. So it is not just the heart of our city but in a sense, the heart of our nation. For this reason it should be given the time, money and respect of our city when considering its future.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? They are easily accessible

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

Respondent No: 706

Q1. Your name\* Harriet Elworthy

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I loved the central library as it was and used to use it at least weekly when I lived in Aro Valley. I'd like to see the same services and use of spaces provided, though taking up the potential for greater designation of quiet and communal spaces in the new library. I'd like to see the solution include clearer walkways between library, civic square and the sea. Although the current way finding is lovely, it's VERY convoluted and indirect for people using wheelchairs, pushchairs and bikes.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I'd love to see the same space used to rebuild, but the lack of library is a gaping hole in the city at the moment. The smaller library spaces just aren't the same and don't provide the same civic space that people can be in without having to spend money. For that reason I favour option E over option D - opening the building sooner should be a priority and option E might allow the current library space to be developed for other public use. I think option C is short-sighted and a foolish use of rates. I can't understand why it is the preferred option. As loved as the current building is, surely elements from it (such as the beautiful nikau pillars) can be re-used or referenced meaningfully in a new build?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Sustainability
3. Climate change
4. Timeframe
5. Cost to ratepayers
6. Te Ngakau Civic Square connections
7. Making the building safe
8. Making the building resilient
9. Accessibility
10. Heritage
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I'd love to see some weather proof spaces available for public use, such as a covered/wind proofed park area. This is especially important in the interim while we wait for the library to be rebuilt.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Newlands

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Female

Respondent No: 707

Q1. Your name\* Hamish Findlay

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A place that anticipates the way Libraries will be used in 2060. For example more residents in the city, more people working in the suburbs and more content delivered on line This will mean a need for more, geographically spread locations. Very similar to the pop ups.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The building is not practical when you imagine a library in the future. My preference is to knock the existing building over. You could keep the nikau palms.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Timeframe
4. Cost to ratepayers
5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is like a ghost town. You are spending too much on the buildings that have limited appeal to the bulk of Wellington people eg the town hall and the civic building. Perhaps thinking about how the city's people are changing would help guide your decisions.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I really like the fact that they are easily accessible to more people. It is quite a hike to the central Lu Bart from anywhere in the city unless you work for the council (when your buildings are functional)

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Male

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Libraries are the only public space that offer a quiet inside environment. As a public space they serve a broad community far beyond holding information. This space should be necessarily large and resilient to reflect the importance of maintaining central public spaces in the city, particularly in the event of an earthquake.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Accessibility
2. Te Ngakau Civic Square connections
3. Making the building safe
4. Making the building resilient
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

smaller targeted locations bringing access to library services closer to people. Central library is an obsolete model that is inconvenient to access due to the time taken to travel to it. smaller locations allows more regular access

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Centralisation of other civic services such as public event centre, support centres etc.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Accessibility
2. Future-proofing the library service
3. Cost to ratepayers
4. Timeframe
5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

What you've done with Waitohi is great. So a bigger version of this to service a larger population within the Wellington CBD and surrounding inner suburbs.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Ideally the building should last for longer than 50 years so I hope this is taken into account.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Te Ngakau Civic Square connections
4. Cost to ratepayers
5. Accessibility
6. Climate change
7. Future-proofing the library service
8. Timeframe
9. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I'd like to see Capital E come back to the area. The outdoor space is good, but more or less feels like it connects to the back of each of the buildings and services surrounding it rather than the front. Although somewhat large, when there are popular events on, there isn't enough space to contain all the people who attend.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Personally I haven't visited, but I would say that having a branch (Manners) a little closer to the Courtenay end of the city where I work is slightly more accessible for me.

Q16. Where do you currently live? Johnsonville

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I like the term coined by the sociologist Eric Klinenberg, who termed libraries as "Palaces of the People". As your public messaging about the survey said, libraries are "spaces and services which support life-long learning, connection and community". I believe the Central Library can be built and run to fulfil these functions.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? It is vital that we have a library (or libraries) in the CBD.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Accessibility
4. Sustainability
5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

While I support the role Te Ngākau Civic Precinct plays, I think that for people who live (and work) in the outer suburbs of Wellington, this vision and its outcomes is harder to connect to. There needs to be ways for people who are not able to physically access the precinct to still feel they can participate in democratic spaces (such as online surveys, like this one!)

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of

Q1. Your name\*

John Gill

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Do as little as possible and minimal cost to restore access. Don't change scope. Don't think too far ahead. The building is probably stuffed, but replacing it on the existing site is foolish because it will probably be flooded by rising seawater anyway.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We may find that c19 impacts permanently on the benefits of a central library. And we may find that over time the community moves to e-books. Do as little as possible to get it open. Be frugal. Be fast.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Timeframe
3. Cost to ratepayers
4. Climate change
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Unappealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I don't agree. The only essential thing is the carpark.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6 Te Awe Library Brandon and Panama Streets  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Brandon street has a cafe which is good. Manners street is horrid with the service centre there. .

Q16. Where do you currently live? Hataitai

Q1. Your name\*

France

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Meeting rooms, fully accessible building (including accessible showers), quiet room for people who have sensory issues/overload, community room/space

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It would be great to include the Disability community in the process so the space is disability friendly

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Heritage
4. Making the building resilient
5. Opportunities for partnership
6. Te Ngakau Civic Square connections
7. Timeframe
8. Sustainability
9. Future-proofing the library service
10. Cost to ratepayers
11. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It would be great to still have the same cafe in the library!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Wadestown

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The old library was never somewhere I wanted to spend a lot of time, it was always very dark and gloomy. I would go there to get books and then leave - there was nothing to keep me there, or to encourage me to mix with other people. With the exception of the decorative columns it isn't an attractive building either. Having been to the Christchurch library Tūranga, I feel that now is the perfect time for Wellington to have a new library that works to bring people together for a multitude of reasons other than just getting a book out. Tūranga is a vibrant space that has been designed to bring the community together. Every time I am in Christchurch I make a beeline for it as there is always something new to see. It has now become a must see building for people visiting Christchurch. You can go in on your own but never feel lonely while you're in there as it is set up with activities that you can join in on, such as jigsaw puzzles and board games. The partnership with Ngāi Tahu in building it has also been a strength, and I would like to see local iwi involved in the design of the Wellington library.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I have ticked Option D, but equally would be happy with Option E

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Accessibility  
3. Cost to ratepayers  
4. Climate change  
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I've always found this space underwhelming and felt more could be done with it to make it more vibrant

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Newlands

Q17. Which of the following ages groups do you belong to? 45 to 49

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Rebuild, create a variety of civic spaces in new building

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A serious remediation will inevitably blow out in cost. The current building is unappealing internally and externally and not a welcoming environment. We can do better.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service  
2. Making the building safe  
3. Making the building resilient  
4. Climate change  
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Bright, warm

Q16. Where do you currently live?

Houghton Bay

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Male

Briony

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library we have has been a much loved icon of Wellington since it was built. It was the core of Te Ngākau the Covoc Square which in turn has been the heart of Wellington since the precinct was built. WCC being resident in the precinct and the City Gallery and Town Hall/MFC all provided the vitality that gave life to the remarkable architecture and planning of the spaces - inside and out. The City to Sea Bridge capped off a triumph and gave Wellington a real heart that spoke of who we are and what we value about living in our City - aside from the lack of manawhenua 'dna' in the content, spaces and structures.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It's critical we look after Sir Ian Athfield's iconic vision for the civic square and the Library building that he designed when the rules were different. It would be good to consult with the NZ Institute of Architects to arrive at the best solution to how - and who - makes that happen. I don't think that is necessarily Athfield Architects as they now are.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Making the building safe
3. Cost to ratepayers
4. Accessibility
5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

Being proud of our city architecture and the work of one of the few knighted architects in NZ. Like the Chch Town Hall has been rebuilt to even more beautiful than originally and honoured Sir Miles Warren.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Would be good to see more spaces and structures that reflect the region's Māori heritage, tikanga and stories. And also really important to restore City to Sea bridge - another iconic piece of Wellington.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
They're better than nothing - and it's good having mini library spaces in other parts of CBD.

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? 50 to 54

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre
He Matapihi Molesworth Library
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

He Matapihi and Te Awe are both closer to work and home than the old Central Library, which I like. He Matapihi has great daylight. I like the cafe at te Awe. I think Te Awe is a bit empty, and I would like it to have more books - there seems to be plenty of space.

Q16. Where do you currently live? Pipitea

Q1. Your name\* Linda Meade

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A space in the centre of the city for people to spend time peacefully, including options to spend time with others without having to pay to sit in a cafe. A space to encourage a love of reading, research, investigation and creativity. A space that provides time out from our busy lives.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I am absolutely confident that the critical heritage aspects of the existing building could be incorporated into a new build while bringing the best of modern design and technology.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers  
2. Making the building safe  
3. Future-proofing the library service  
4. Timeframe  
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The Civic precinct should be part of a larger precinct urban design concept. It would be such a missed opportunity to simply strengthen the existing building, no matter its "heritage" credentials.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Khandallah

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Female

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It could be in a safer building, in the same location.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think it should be knocked down.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It has been a disaster zone for the last few years. Start getting it repaired.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply He Matapihi Molesworth Library

O15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are OK, but they are small.

Q16. Where do you currently live?

Wadestown

Q17. Which of the following ages groups do you belong to?

55 to 59

O18. Please choose the gender that best identifies you

Male

Q1. Your name\* Clare O'Leary

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Online hubs with real people to assist those who don't have digital tools or knowledge. Kinkos is a model like that - as well as MediaLab for kids...in NZ. The library is a community hub and not having it open has been really hard for lots of people.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Yes, it needs to honour and respect Te Tiriti o Waitangi as a treaty partner in the region and have more engagement on the Council as well as within the culture of the council offices. The recent councillor who turned his back on the karakia was a disgrace. The library could become a shining light for honouring the treaty, respecting and designing indigenous spaces and the use of te reo Maori on a daily basis.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- 1. Making the building safe
- 2. Accessibility
- 3. Making the building resilient
- 4. Future-proofing the library service
- 5. Heritage
- 6. Opportunities for partnership
- 7. Timeframe
- 8. Climate change
- 9. Te Ngakau Civic Square connections
- 10. Sustainability
- 11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Yes, it needs to have more indigenous design as a key component as well as local history drawn into, designed into and made more obvious to visitors and locals about the true heritage of our city, Maori & Pakeha.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

well, i dont like them much but it was good to still be able to access library services...i miss the old library and want it back, safer and secure.

Q16. Where do you currently live? Breaker Bay

Q17. Which of the following ages groups do you belong to? 60 to 64

Q1. Your name\* Siobhan

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It needs to be well laid out with a good use of space. It should not be like the new Johnsonville Library where it is difficult to find books and not well laid out. It should have space to relax and read as well as study. It should have lots of plugs for laptop chargers as well as USB chargers.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It is important to have a copy of each book in the Central library or a good system to make sure they circulate on a regular basis.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Heritage
4. Timeframe
5. Cost to ratepayers
6. Future-proofing the library service
7. Accessibility
8. Te Ngākau Civic Square connections
9. Sustainability
10. Climate change
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It needs to be well used and laid out to access each service easily. It needs the Ferns sculpture back.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (In person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I have only visited Arapaki and it needed to be bigger with more space for books.

Q16. Where do you currently live? Tawa

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

- Q1. Your name? Jenny Austin
- Q2. Your email or postal address  
[redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Libraries will look quite different in the future. The Te Awe Library space feels more like a library space for the future. It is practical yet accessible. The option of developing many diverse library spaces around the city feels like a good move for inner city Wellington.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option B - Mid-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
It is a landmark for Wellington, but is it practical? We could reinstate the nikau sculptures around the city as a icon for the smaller spaces.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
- |  |
|--|
| 1. Future-proofing the library service |
| 2. Te Ngakau Civic Square connections  |

Ruth Bishop

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Provide fun services and spaces for young children for enriching and engaging indoor fun. Provide similar things for teenagers and youth too.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Accessibility
4. Climate change
5. Sustainability
6. Timeframe
7. Future-proofing the library service
8. Heritage
9. Cost to ratepayers
10. Te Ngākau Civic Square connections
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Tawa

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

Athena

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The existing library was a great facility. I think it had a very user friendly floor plan and great access for people with disabilities. It would be an asset to have a space for community meetings or functions. Not having a library has been a real void.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It is very sad that a relatively new building has failed yet again. A library is such a central community component. I used to use the library as a child and my children used it and it has been a loss my daughter used to study there with her friends. The cost to Wellington's rate payers has been phenomenal. I grew up in Wellington and putting the onus on the rate payers to upgrade these buildings constantly will make Wellington unaffordable to reside in in the future. My elderly family that are mortgage free in their 80s are finding rates a huge burden. They are like a mortgage. There should be more government funding for community facilities. Wellington will be unaffordable for future generations. CPI keeps going up and wages do not. Today the library tomorrow something else. The cost of strengthening is unaffordable and an ongoing burden for Wellington. The hospital is a new building and structurally its an embarrassment with constant leaks and structural problems.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe
3. Future-proofing the library service
4. Accessibility
5. Opportunities for partnership
6. Making the building resilient
7. Te Ngakau Civic Square connections
8. Climate change
9. Timeframe
10. Other (please specify)
11. Heritage
12. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?

The onus should not be on the rate payer there should be allocated government funding. Its embarrassing so much funding goes to Auckland and Christchurch and Wellington is always left behind. Not much has happened in improving Wellington since Mark Blumsky

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. **Appealing**

More windows to help connect the library visually to the square and surrounding streets **Somewhat appealing**

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It gives the area a cosmopolitan feeling of being in a Piazza. Its a fab meeting place and has a lovely aura.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? **Less than once a year**

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply **I have not visited an interim library**

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

Its too small I don't like the ambiance.

Q16. Where do you currently live? **Kelburn**

Q17. Which of the following ages groups do you belong to? **55 to 59**

Q18. Please choose the gender that best identifies you **Female**

Q1. Your name\* Stuart Frazer

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A new build provides the greatest opportunity to design the space as a library and community facility for the long term. Any attempt to remediate the existing building will lead to compromised long term outcomes. Remediation work also carries higher risk of project delays and cost blow outs. Now is the opportunity to develop facilities appropriate for future demand while providing best value to already financially stretched rate payers.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Site is less critical than new build. Options D or E acceptable.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Cost to ratepayers 3. Accessibility 4. Timeframe 5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Current library architecture is a visual and physical block between CBD and Civic Square. Current concrete and glass structure is unappealing with impractical / unsightly water feature at rear. There is a clear opportunity to create an appealing and future proof space.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

NA

Q16. Where do you currently live? Pipitea

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Male

Matt

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councilors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library should have a number of open mixed spaces that are able to be adapted as required for the next 50 years

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current economic environment must be taken into account and all steps possible should be taken to provide the most cost effective solution. The core role of the library and what it should offer should be the factors to decide the required solution and less weighting on the secondary i.e sustainability. I also disagree this building has heritage status therefore this should have limited weighting on the outcome. The council also does not have a good track record with keeping in initial budgets with strengthening work, additional cost to accommodate the risk should be applied making the strengthening option not the preferred.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Cost to ratepayers
3. Accessibility
4. Making the building resilient
5. Making the building safe
6. Opportunities for partnership
7. Te Ngākau Civic Square connections
8. Sustainability
9. Climate change
10. Heritage
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Accept the fact that the civic precinct no longer has the status it used to as society and entertainment interests have changed, and therefore should be redeveloped as part of the upgrade. It is becoming a dead space. The library should have a strong link to the space and use it for outdoor activities

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Tawa

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Q1. Your name\* David Montgomerie

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Removal of the current building presents a great opportunity for Te Ngakau/Civic Square, not only in terms of the cost of facilities that could be provided within a new building but also the improved connections to the square.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngakau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I struggle to believe how option C could be the preferred option given both cost and timing. I understand that there may be heritage issues involved with demolition (although I disagree that the building has any particular heritage value or special architectural merit, aside from the ferns). Spending up to \$40m more than the cost of a new building, designed for current and future uses and building to current standards on a building which will have a shorter useful life is an egregious waste of ratepayers money. However, I have no opposition to the council spending \$200m. I would rather than a lower cost option was preferred for the library, leaving the remainder available for the council to spend on other assets like wastewater infrastructure. The present library building presents from Victoria and Hunter Streets as an imposing and unwelcoming edifice, overshadowing the heritage listed former library building and blocking views to civic square. It is important that a future building provides better links to this area. When considering the heritage values of Te Ngakau/Civic Square the important buildings are the Town Hall, the City Gallery and the Michael Fowler Centre. Attempts to bestow upon the burnt library building any further heritage protection should be vigorously opposed by the Council given the costs that would have to be borne by ratepayers. Both options D and E present the best opportunity to achieve an outcome which has the most usefully designed building. They will also have the longest possible useful life and be designed with seismic requirements and sustainability in mind. In relation to option E I would support building on Jack Illot green provided that the rugby sculpture is melted down and sold to recoup costs. I also think that the Council has missed an opportunity to reconsider the future library demand and whether this could have been accommodated, at least in part, in the Convention Centre with other smaller facilities spread around the city.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Timeframe 3. Making the building safe 4. Te Ngakau Civic Square connections 5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Removing the current building and replacing it with something that does not visually block the square in such an obnoxious way will enhance the values of Te Ngākau/ Civic Square

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are ok as interim, but no substitute for the real thing in terms of providing a proper library community hub going forward

Q16. Where do you currently live?  
Island Bay

Q17. Which of the following ages groups do you belong to?  
55 to 59

Q18. Please choose the gender that best identifies you  
Male

Respondent No: 740

Q1. Your name\* Ann

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

This is a great opportunity, lets create a well designed building that is the right size for the services that it offers, not big for the sake of being big. If we are the coolest little capital, lets have the coolest little library.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Other (please specify)
3. Opportunities for partnership
4. Sustainability
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? Making it a desirable place to go

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's a valuable public space that feels dead at the moment. With good planning and design it could be the heart of wellington as its name suggests.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Lyllall Bay

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

There is an opportunity for a new build to be a shining example of sustainable building design. One would hope that over the course of 50 years a highly energy efficient (or energy neutral) building would save more emissions than the ones caused by demolition and rebuild.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Sustainability
4. Climate change
5. Cost to ratepayers
6. Future-proofing the library service
7. Accessibility
8. Te Ngakau Civic Square connections
9. Opportunities for partnership
10. Heritage
11. Timelapse

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q1. Your name\* Nathan Hotter

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Looking at the suggested options it makes little sense to refurbish the current building as per option c if that will cost more than rebuilding the library. In particular the current building is not very attractive and does not really highlight any specific part of Wellington city. The current building has no architectural flare, or exciting features that make it stand out. In particular the palm supports are rather ugly and not pleasing to the eye. Having visited a number of libraries around the world there are many ways in which we could create a new and exciting design. As a place of knowledge, holding all those books it is important that libraries are welcoming to those who may not have that access elsewhere, while also displaying a certain regality. Rebuilding on the site also allows for an expansion in the size of the building which will be necessary to facilitate the estimated growth that Wellington city will see in the near future. Redesigning and integrating the new library with the waterfront will heighten its appeal and add to the experience, making it another attraction in the central city. A ventral rotunda of some description would be lovely as well to unite all the various entrances to the building. Inside the library I would like to see a reading room in particular, as there is something striking about such a design. Matching the older Art Deco building style would be great as well, helping reinforce our city as the heart of the country with parliament and governance all occurring here. Expanding the water features around the library would also be nice, as our city sits on the ocean that is very much a part of our life. Using the features to make the new building flow seamlessly with the waterfront, despite not being on it, while reinforcing some of our natural beauty, such as the sights of the Taputeranga Marine Reserve. To do this the water features can not simply look like swimming pools. Such features are not attractive, they must be seamlessly integrated into the landscape. Furthermore, by building an entirely new building it will allow us to set a sustainable earthquake safe example for development in the city. There are many risks that the structure will have to face in future. To be resilient and effective it must be something people enjoy so that it is not disused at a later date and its upkeep is maintained. It must also be built to withstand shakes, hence, base isolation would be strongly recommended regardless of the option chosen. By redesigning the building there is even the possibility to integrate a green roof and other natural features that help break up the city scape, rather than the current soviet looking structure. Integration of nature into design is what truly helps citizens feel at home. Many of our older buildings fail to achieve this feat.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Sustainability 2. Future-proofing the library service 3. Making the building resilient 4. Accessibility 5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? Design - Do not like the look or design of the current building

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The civic square could be a great place, however, in it's current format it is not very people friendly. The whole area needs a redesign to feel more welcoming and inviting. The lack of colour, the browns and lack of excitement all make a place that feels very isolated from nature and the rest of the city that needs serious work to become a go to place. The stark walls of the surrounding buildings also make it feel somewhat claustrophobic. Redesigning the library is a step towards making the space more user friendly and inviting with proper water features, natural connection and utility.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Once or twice a year

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply      I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?      Kelburn

Q17. Which of the following ages groups do you belong to?      19 to 24

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It's important that library continues to offer a wide range of books, magazines and quiet reading spaces. It can also be a community hub, with spaces for families and groups to hold different events. It should be meet the highest accessibility, safety and environmental standards, and be designed to accommodate future growth and changes.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

This is an exciting opportunity to design and build a much more engaging, accessible and sustainable library.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Accessibility
3. Sustainability
4. Cost to ratepayers
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The earthquake vulnerability issues with the buildings and structures around the precinct need to be resolved within the next 5 years, the asphalt removed, and the sightlines and connections to the city improved to ensure Te Ngākau once more becomes a welcoming and useful centre precinct for the city.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Since the central library closed I have not accessed library services in Wellington - the time taken to set them up, the limited selection on offer in any one space, and the COVID-19 pandemic have left me feeling disengaged from the service. I am unlikely to use the library services again until the central library is either remediated or replaced.

Q16. Where do you currently live? Halaitai

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Male

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Plenty of spaces for people to meet for work, study, play - without the main central library for months it's been obvious how much this has been missed. A great book collection! Inclusion of technology - I love the idea of having space for 3D printing, music, sewing, art etc, and plenty of online resources. This could include partnerships with artistic endeavours; having the Lockdown Laundry exhibition at the library recently was fantastic. A focus on kids - the childrens area at Johnsonville library is fun and kids clearly enjoy the different reading/seating spaces it incorporates. Kids are the future and making libraries enjoyable for young people helps society in multiple ways - including gains in knowledge and literacy, reducing inequality, and better mental health.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6 Te Awe Library Brandon and Panama Streets  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I have been so grateful for the interim branches. During the time there was no central city library I really missed it. They've all filled valuable roles. - Te Awe has been great for providing space for people to both sit and work/read, or to meet others. It's been so nice to have a larger collection available again. - The staff, notably at Manners St, are always super enthusiastic and diverse in their backgrounds. I've liked their playfulness with book displays over the last months which have often focused on world issues. It's cool that there have been council helpdesks on site. - I don't think it's necessary to have libraries that have a sole focus on a NZ collection, and I'd prefer them all to have a mix of collections. - Opening hours into the evening are excellent.

Q16. Where do you currently live? Kelburn

Mirelle

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library should be a pinnacle of the city and is a great place for education and leisure The Johnsonville library is a great example of this

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Option D would be great but i dont think as a city we can afford it

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Sustainability
4. Climate change
5. Future-proofing the library service
6. Accessibility
7. Heritage
8. Cost to ratepayers
9. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

6. Climate change
7. Making the building resilient
8. Timeframe
9. Opportunities for partnership
10. Te Ngakau Civic Square connections
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Additional access points to and from civic square to the wider city would better serve the precinct as a hub for activism and democratic participation in Wellington, as the current restricted access can cause a bottleneck in large protest marches to parliament from the square.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I have found that my usage of the library has dropped dramatically since the closure of the central library post quake, mainly due to the far more restricted collections at the smaller drop-in centres

Q16. Where do you currently live?  
Te Aro

Q17. Which of the following ages groups do you belong to?  
19 to 24

Q18. Please choose the gender that best identifies you  
Female

Q1. Your name\* Ben Shea

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

More access from Civic square to ground floor. Better study spaces for students, i.e separate bookable rooms.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The existing central library building provided a hub for the Wellington community for everyone from students to pensioners. Whatever course of action we decide to take it must be understood that for every moment we don't have such a hub there are real people losing the opportunities it provides, namely a safe place to socialize, to read and without wishing to sound sardonic, one of the few places we are not expected to spend money. While the redevelopment of central library can and perhaps should take an opportunity to include new spaces, council must avoid depriving a generation of a vital community asset. We cannot have a generation of kids going through school without a library to access, the Covid-19 pandemic has already caused enough chaos in learning without WCC removing free access to knowledge from those who want to learn. Whichever option is chosen, a vital consideration must be that we need a library and we cannot wait for an extended period of time to get it back.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Future-proofing the library service
3. Making the building safe
4. Accessibility
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Civic square forms a multipurpose space to be freely accessed by all members of the Wellington community and for that reason it is both a rarity and a treasure, it has been the grounds for protest marches and lunchtime football, for sunbathing and outdoor concerts. If this area is to be redeveloped then the versatility of the space must be paramount in its design.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live? Mount Cook

Q17. Which of the following ages groups do you belong to? 19 to 24

Q18. Please choose the gender that best identifies you Male

Q1. Your name\*

Tu Sciascia

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Partnership with Mana whenua for the entirety of the build. A cultural narrative to the physical space, with Maori artists involved and commissioned works. This will differentiate the library from any other in the world. Diversity of thought, by Maori inclusion. Kia kaha - be bold.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Bringing our youth in, with technology. Alignment with Te Papa and Universities/schools/kohanga reo.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Opportunities for partnership
2. Heritage
3. Making the building safe
4. Making the building resilient
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

For the library to support this "ngakau". What is the point of Te Ngakau? I don't know, honestly. That purpose made more common, so new ideas can support and grow. Ora te whenua, ora te tangata - when the land is well, the people are well.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

NA

Q16. Where do you currently live?

Outside Wellington City

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\*

VStanbridge

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I endorse the Mayor's statement: "The Central Library has been our city's living room and a central part of our vibrant inner city for decades. A safe and reliable place to go, filled with ideas and possibilities to explore and learn, for more than 3000 people who visited each day" - whatever comes next needs to ensure this continues.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C -- High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Making the building resilient
4. Te Ngakau Civic Square connections
5. Future-proofing the library service

Q10. If you selected "other" above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

This is a fantastic space for the city and the library remediation must retain the existing location and connection to Te Ngakau Civic Precinct

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

It's great they exist but I haven't used them because I've accessed library services only online since the Central Library has been shut (the online services are fantastic)

Q16. Where do you currently live? Aro Valley

Q17. Which of the following age groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Female

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Meeting rooms. Internet access. No charge if returning books to other local library (e.g. borrow from Newtown but return to Wadestown).

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Would like Nikau palm structures saved and re-used either in a new library building or somewhere else in the city.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- 1. Cost to ratepayers
- 2. Making the building safe
- 3. Making the building resilient
- 4. Sustainability
- 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

n/a

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Good to use a park and event space.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Staff friendly. Good selection including international newspapers. Convenient to bus stops. Good toilet facilities. Several computers available.

Q16. Where do you currently live? Aro Valley

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Female

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A space for children to learn and spend valuable time in a supportive and immersive space. A central place for students to study.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It's closure was a big loss to the Wellington community - I am certain it will be significant for many people to have it back and running again.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Accessibility
5. Timeframe
6. Sustainability
7. Climate change
8. Cost to ratepayers
9. Te Ngakau Civic Square connections
10. Opportunities for partnership
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They're fairly accessible, however since their scope is much smaller there is less room for people to spend time in

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

Female

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
I think the library provides a vital community hub for our people. I want to see a building and service in this space that is sustainable and future focussed
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Future-proofing the library service
  2. Cost to ratepayers
  3. Making the building safe
  4. Accessibility
  5. Making the building resilient
  6. Sustainability
  7. Climate change
  8. Heritage
  9. Te Ngakau Civic Square connections
  10. Timeframe
  11. Opportunities for partnership
  12. Other (please specify)
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Vogeltown

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Ethan Tucker

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The CBD is sorely lacking appropriately-sized public space for quiet study and intellectual pursuits. Christchurch's new central library offers a great example of how modern design can create innovative library spaces that draw people to the city and enhance the urban geography with creative and inspiring architecture. A new library for Wellington should focus strongly on being a library, rather than filling the gaps in many other services that people may wish to add to the mix. It should not deviate from its core mission to store and shelve as many books as is humanly possible, because a full library is a thing of beauty. But it can do this in creative ways, with flexible spaces. It should be designed to the highest environmental standards, and be better integrated into Civic Square than the current building.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

While I know projected completion dates are highly speculative, there is little difference between Options C & D, and Option D will produce a modern building that is fit for purpose at a cost tens of millions less than Option C. The current library building was much-loved not for its architecture but because of the service and amenity it provided. People are fond of it, but it contains little of lasting architectural heritage. The palm motif is popular but is a curious choice to represent the fauna of the Wellington region. The undulating glass-front is a nice touch but is poorly integrated with the surrounding architecture. And the sweeping pathway around the building's north side looks nice but is seldom used and is therefore a waste of valuable space. A new building can start the design process anew and avoid the mistakes made in so many public buildings of the 80s and 90s - see also Te Papa.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Making the building resilient
4. Future-proofing the library service
5. Te Ngakau Civic Square connections
6. Climate change
7. Sustainability
8. Timeframe
9. Accessibility
10. Heritage
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I know this is a council document so you have to use the official terminology, but realistically no-one refers to the Civic Precinct. In practical day-to-day terms it doesn't exist. Even when all its surrounding buildings were in working order, the name was an artificial designation that was unlikely to catch on. Even if the Town Hall, the library and the council buildings are fixed, it's still unlikely to become a coherent, living concept because the main focus should always be on public spaces like Civic Square. Council buildings will never be part of that cultural context because they're not public amenities - they're workspaces.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

While they're small and can only hold a tiny proportion of the collection, it's great to have these spaces to tide us over and breathe intellectual life into the CBD.

Q16. Where do you currently live?      Karori

Q17. Which of the following ages groups do you belong to?      45 to 49

Q18. Please choose the gender that best identifies you      Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Open spaces for children and families to play and read (keep some small, quiet, private areas). Use the walkway at the back of the library differently; it's cut off and people don't use it. Use the Harris Street space differently; there's a big area at the corner with Victoria Street that no one uses. The picture of the Helsinki library in the Statement of Proposal is a nice example of an open, integrative public area of a library. This would be an idea for an expansion of the back of the ground floor.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. Q1. Your name\* Amanda Shaw

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Libraries need to be a welcoming and comfortable place to "be" - a place to browse and explore ( this is different from using online tools to find something specific) and for individuals and families to spend time in a positive learning environment that everyone in the community has equal access to. Research should be done into what barriers there are for lower socio-economic groups to access recreational reading and research materials and see how the library can help fill that gap.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I really enjoyed visiting the new Christchurch library. We visited twice in a three day visit! The building had a great feeling of openness and light and was enjoyable to explore. I also really like the new Waitohi library and the way it is connected to other facilities like the community centre and the pool. My only criticism of Waitohi is that there doesn't seem to be a lot of physical "stock" of books. I like that it is connected with other community facilities but is first and foremost a library without trying to do too many other things.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Climate change
4. Accessibility
5. Sustainability
6. Te Ngakau Civic Square connections
7. Timeframe
8. Cost to ratepayers
9. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The square is nice but due to climate it's often not that nice a place to spend time - more of a connecting corridor. I would only go to the council buildings for a specific service. So it's just not a place that i would think of to go and spend some time (other than in the library).

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like the convenience of being able to drop off/pick up materials ordered from other libraries.

Q16. Where do you currently live?

Ngaio

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Kia ora. I prefer the new build options. I am someone who, although I plan to be in Wellington for the next 10 or 20 years of my life, is still relatively new to Wellington and so I don't have any sentimental attachment to the old building. I went to the Johnsonville library recently and thought it was absolutely amazing, and that the new Wellington library should be modelled in its image. I also really like the library in Christchurch. It is important that we take this opportunity to design a library for the future, while also keeping books at the heart of the community space. By 2025, there will be so many new young people who have moved to Wellington who have never been to the old library. Because of that, I don't think it is worth spending almost twice as much to retain the heritage of the old library. I prefer option E because it is a new model, has so much potential for innovation and connection with community, and it is indicative due date is November 2023. I think Wellington needs its library back as soon as possible. 2019-2025 with no central library is just too long.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E -- New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Future-proofing the library service
3. Making the building safe
4. Cost to ratepayers
5. Climate change
6. Sustainability
7. Opportunities for partnership
8. Accessibility
9. Making the building resilient
10. Te Ngākau Civic Square connections
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The selection is YA books isn't great. Maybe there could be a rotation of books across the branches?

Q16. Where do you currently live?

Wellington Central

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

Female

Q1. Your name' Oliver Sangster

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Would be nice to somehow incorporate the nikau palm pillars (or keep as a separate sculpture)

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Sustainability
4. Cost to ratepayers
5. Accessibility
6. Timeframe
7. Future-proofing the library service
8. Climate change
9. Te Ngakau Civic Square connections
10. Opportunities for partnership
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Make sure there is the CAB/JP service there. Don't need a cafe as there are literally dozens of options within walking distance

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live? Glenside

Q17. Which of the following ages groups do you 30 to 34  
belong to?

Q18. Please choose the gender that best identifies Male  
you

Q1. Your name\* Naomi O'Connor

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Our library's recovery is crucial. It provides a chance for the city to hold on to community, history and knowledge all in one. The value of a restored, high value, imaginative and courageous facility is tremendous and enduring, and I would submit much higher return on investment across a range of values, than most other city facilities. Why - because libraries serve the community by enriching, informing, enabling and deepening our connections to each other and to decision-making. They build the people, not just the structures of a city. To quote Caitlin Moran, who watched public libraries be undermined in the UK "A library in the middle of a community is a cross between an emergency exit, a life raft and a festival. They are cathedrals of the mind; hospitals of the soul; theme parks of the imagination. On a cold, rainy island, they are the only sheltered public spaces where you are not a consumer, but a citizen, instead." This decision provides a crossroads - lots of choices about the direction to take a new facility. The central library can modernise yes but it must hold physical books and newspapers and magazines and reference material at its heart - this is where people can find and share things in the ways humans are best set up to - in person. Look at how adults and children share picture books, compared to the way they watch a screen together. We must hold the weakest as our line, to make sure we bring everyone with us - regardless of their income, background, culture, health, age, digital skills and access. And in a library, we as a city can choose to share, and to uplift.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Reckon I said enough above ☺

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building safe
3. Te Ngakau Civic Square connections
4. Heritage
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's a special spot, one I always take visitors to - it has beauty and smarts as a built environment, links the concrete canyons to the waterfront with grace. The sheltered square is a wonderful gathering point for small and large groups, and accessible to people from all parts of society. It could be better set up for people with disabilities - the lift system nicer and more obvious for instance. All that said, it's at sea level right, and vulnerable to ocean level rises and tsunami - can we build to future proof?

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Light, friendly, curated - but so small. Like visiting a dairy instead of a supermarket - can't really feed my mind or my children's minds on the limited range.

Q16. Where do you currently live?

Ngaio

Q17. Which of the following ages groups do you belong to?

50 to 54

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. In these days of recycling, an existing appropriately strengthened building could be tastefully repurposed with the city fitting it out but being essentially a tenant. This would save enormous cost to ratepayer and utilise existing stock and be better all around for the environment and the city treasury. I feel a new library building would be a vanity project and a slap in the face to our many ingenious designers who can do wonderful things with existing structures.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Opportunities for partnership 3. Future-proofing the library service 4. Cost to ratepayers 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It looks disgraceful at the moment and a blight on our city. The people responsible for the inaction should be disciplined.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They no longer have the NZ daily newspapers which used to be what attracted me to the city library weekly.

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Male

IP Address:

Q1. Your name\*

John Saunders

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

[Redacted]

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A library is a library. It is not an amusement arcade. On-line facilities, cafe facilities and child-friendly, yes! But spare me the touchy-feely 'experience' we've witnessed with the Te Papa redevelopment.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Sir Ian Athfield is obviously deceased. So blame for this planning disaster cannot be attributed. Costs cannot be recovered. Presumably the council is not insured, so the ratepayer will be covering these monumental professional errors. So questions must be asked as to who signed off on the final (earthquake vulnerable) design. Why was no independent advice taken? What lessons were subsequently learnt? Does the same flawed planning process that enabled this disaster still exist? If changes have been made, where is the transparency, what reassurances have been offered to the public that such errors will not be repeated?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Cost to ratepayers
5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

The existing building has no heritage value. The fact that it is still standing is an insult to every ratepayer who contributed to its construction.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

You built a bridge to link the square with the harbour. The bridge rotted after 20 years. The designer's mana was also questioned. More errors in the council's decision-making process that must not be repeated. And Civic Square could be better utilised. I'm not a planner, but you employ enough, let them make some suggestions. The wind is a problem, but a solution is difficult. Breaking up the open space raises security issues, and would limit space available for New Years Eve concerts, for example. Good flow with the new library building, and the existing heritage buildings, is important.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Nothing. They are not libraries. The collection (including my two books) is not available to the public. This status quo is not acceptable. An embarrassment for our capital city, with our parliamentary and learning facilities. What happened to that plan to put the collection in a warehouse, for on-line access through these 'interim' CBD branches? Why is there no mention of that in this survey? And when the public finally does have access to the collection, what condition will these books be in? Books must be handled. This argument that 'it's all climate controlled' doesn't stack up.

Q16. Where do you currently live?

Hataitai

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Male

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

[redacted]

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I want the council to rethink the rebuild size as the current proposal all assume that it has to be the same size when in fact the building is much larger than what's actually needed for a library for our size. I have visited the new ChCh library and it's wonderful. It is also around 9,000 square metres in size, while the Central Library building is around 17,000 square metres. This is despite ChCh having a much larger population - 377,200 residents, and the territorial authority has 385,500 people, Wellington population is 210,400 - more than 30% smaller than Christchurch. It turns out that a lot of the building is in fact office space NOT library. So the next question is WHY is WCC proposing to build office space at rate payers expense, when 1. It's not WCC core business, 2. There is plenty of office space in Wgtn, 3. People want WCC to provide a library not more office space. 4. We have huge expenses with the 3 Waters, other earthquaking issues, so why is the council not considering a smaller building that is JUST library. Yet this suggestion is nowhere on the consultation.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

It turns out that a lot of the 'proposed' buildings are in fact office space NOT library. So the next question is WHY is WCC proposing to build office space at rate payers expense, when 1. It's not WCC core business, 2. There is plenty of office space in Wgtn, 3. People want WCC to provide a library not more office space. 4. We have huge expenses with the 3 Waters, other earthquaking issues, so why is the council not considering a smaller building that is JUST library. Yet this suggestion is nowhere on the consultation.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We haven't asked the question - what do people want from the library, does it need to be just one large building, do we need to store heaps of reference books in the building maybe we have an archive, with digital research overtaking hard copies of books, maybe much more space is given to digital technology, then as more people work from home - meeting spaces in CBD and suburbs, quiet rooms etc.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Opportunities for partnership
2. Cost to ratepayers
3. Timeframe
4. Climate change
5. Making the building safe
6. Accessibility
7. Other (please specify)
8. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?

Size of building - need to seriously consider whether it has to be built the same size as previously or even just one main building

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

small meeting rooms like there used to be in main library.

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

Prefer not to say

Q18. Please choose the gender that best identifies you

Female

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

New build on the same site, does not mean you need to throw away the original design. I think you could still use it with major improvements in strength and possibly some design improvements to make it much better. It can even be the same look and feel (if we are so concerned about heritage). On the other hand if there is a better design, then much better.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Opportunities for partnership
4. Te Ngakau Civic Square connections
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Strengthening the existing library building. Not building a whole new one and spending more than necessary. That seems like a waste of resources and you could be using the money on something else to help people in need.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I appreciate that there are these library branches in the city. Not thrilled that it's hard to access music books (books on composition/harmony/sheet music etc., not music biography of pop musicians) which used to be fantastic at the Central Library, and almost all the fictions on display are more of "popular fiction" rather than literature. I know I can reserve them online, but it's nice to be able to see and pick from the display. I would like more books in foreign languages in the branches.

Q16. Where do you currently live? Oriental Bay

Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
This survey is inadequate compared with the 8 page postal survey. In essence I strongly prefer options D or E because a 'new build' has far more cost certainty than remediation (think Town Hall), provides the best 'future proofing' opportunity and provides a greater opportunity to continue developing Te Ngakau Civic Precinct. While the existing building has some architectural features worthy of preservation, it is a relatively new 'build' and there would therefore be little difficulty incorporating such features into a new building. A secondary issue - the escalators in the 'old' building were quite noisy (OK for a retail environment but not for a quiet library environment). Either the escalators should be replaced by a few more lifts or a quieter type of escalator installed.

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Wellington Central Library is an important part of our city. It should have spaces for students studying, an area for children, a cafe, spaces for community meetings.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The Central Library as it stands is in a great location. The Civic Square has great potential but the building is not fit for purpose and does not fit with the aesthetic of the area. It should be a modern building, with earthquake resilience. The building as it stands is not worth saving, other than the beautiful Nikau tree sculptures outside.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Te Ngakau Civic Square connections
6. Opportunities for partnership
7. Sustainability
8. Climate change
9. Cost to ratepayers
10. Timeframe
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The space is very important and the library should be connected to this. Accessible entrances on multiple sides, connections/windows looking out to the civic square, a building that matches the others in the space

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
Overall they are great but still feel very "interim"

Q16. Where do you currently live?  
Te Aro

Q17. Which of the following ages groups do you belong to?  
25 to 29

Q18. Please choose the gender that best identifies you  
Female

Respondent No: 781

- Q1. Your name\* David Stevens
- Q2. Your email or postal address  
[Redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Needs to include space for organisations like Citizens Advice Bureau as well a range of library services, meeting spaces, cafe etc.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Get on with it.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Future-proofing the library service  
4. Te Ngakau Civic Square connections  
5. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Make access to the Library easier from Civic Square.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

They make the library available to other parts of the CBD. He Matapihi and Te Awe libraries should be retained even after the Central Library is re-opened. Arapaki can then be closed as it is close to the Central Library.

**Q16. Where do you currently live?** Khandallah

**Q17. Which of the following ages groups do you belong to?** 70 to 74

**Q18. Please choose the gender that best identifies you** Male

Q1. Your name\* Stacey Hamilton

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Love what the Johnsonville library has done with its mix of reading spaces and makerspaces. The central library should be the large literally ngakau of the city - with the books, places for children to tuck away and be imaginative, a cafe attached, space for events like speakers/writers, language sessions esp te reo Maaori, places to study quietly, with nooks around to read quietly.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Really torn between C & D - I really don't think heritage is a reason to keep a broken down site, and for such a small difference in delivery date, seems like rebuilding entirely could really achieve more than laid out and still gain all the benefits, plus more for future proofing. I like the existing building but am certain something even more amazing can be designed. I don't know why it's less expensive to build new though, please only use top builders etc. so we don't end up having to sort out shoddy workmanship & defects like in so many recent big buids!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Accessibility
2. Making the building resilient
3. Future-proofing the library service
4. Climate change
5. Making the building safe
6. Te Ngakau Civic Square connections
7. Sustainability
8. Timeframe
9. Cost to ratepayers
10. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Agree it's a beautiful space & connecting to where we start or end so many hiko for climate change, pride, BLM, feels very right. A hub of education and community participation.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like that they exist - much easier to take/return books out while in town for work.

Q16. Where do you currently live?

Tawa

Q17. Which of the following age groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\*

Paul

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

The A-E options aren't suitable because the current building has design fault/laws (has spaces which are too open & prone to earthquakes & structural failures including roof-fall) & the current location (especially the entrance) isn't the best (because of Victoria St's high traffic & menacing couriers). The Council could abandon the Music/Opera development of the old Council building (saving \$M's on that project with Victoria University) & turn the current central library building into an Art/Music facility (with less earthquake risk for the public). My idea for the future Wgtn Central Library is to build a new rectangular basic 2storey wooden building on the old deconstructed Ministry Of Defence's Mulgrave/Aitkin St site, above a basement (or adjacent building) carpark.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Accessibility
4. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

Feasibility-I think my submission has favourable aspects if the Ministry Of Defence site can be transferred using the Public Works Act & it's Sec40 provisions

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think the pools outside the current central library site (in the Civic Precinct general area) are an extreme hazard for very young children-especially if rainwater or water of any depth gets in them. The general area is also reasonably prone to an earthquake & liquefaction future event because of it's height above mean-sea-level, & location so close to the Wgtn harbour.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Wellington Central

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Male

This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
agree this is an investment for the future
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
do it soon it is a much needed hub
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Future-proofing the library service  
4. Timeframe  
5. Opportunities for partnership
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
its a lovely space for all ages
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
He Matapihi Molesworth Library  
Arapaki Manners Library and Service Centre
- Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
more room and more DVD

Q16. Where do you currently live? Wilton

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Need to consider future use of libraries-online, quiet space in town, CBD use - all suggest more smaller libraries. also urgent needs for Wellington including water infrastructure and transport mean ratepayers expenditure has to be carefully scrutinised
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
Replace with a localised model of smaller branches in the CBD
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
cost to remediate and rebuild too high. Demolish it and take advantage of space likely to come available as working in offices changes post-Covid.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Accessibility  
2. Cost to ratepayers  
3. Future-proofing the library service  
4. Making the building safe  
5. Sustainability
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
so many buildings vacant - wasted at present. Knock them down and start again.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
Love it - quiet space in centre of town. More accessible to workers at Terrace / Lambton Quay area of town

Q16. Where do you currently live? Newtown

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Jenalyn Orrido

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Make some space for private phone call or online meetings. An alternative space where people can work away from the office or home.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I love the library so are my children. If we all have a good space for a family where mums can work and kids can play that would be great.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Accessibility
4. Making the building resilient
5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? Family friendly

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
Reources

Q16. Where do you currently live? Newtown

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Female

Q1. Your name\*

Iris Wilhelms

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Overall, I was quite happy with WCL before it closed. ... Some librarians were a bit unfriendly and unwelcoming though. ... Provide Community Notice Board where individuals can hang their posters. Librarians were quite fussy with that. It should be there for groups and individuals from community. Concern for elderly, lonely and homeless people. WCL was the "home" for many people. Library doesn't have to be fancy. I prefer cosy, friendly, communal place.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe  
2. Cost to ratepayers  
3. Timeframe  
4. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Haven't thought about it long enough. Other council buildings etc. are not that important for me and my husband.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6 Te Awe Library Brandon and Panama Streets  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I only like the one on Brandon St. It comes close to a proper library. It is relatively cosy and has some choice of material.  
Furthermore, there is a (small, alas!) Cafe attached. However: not quite like our Central Library which we all miss very  
much. Could you get more space in the building on Brandon St.?? Is that safe?

Q16. Where do you currently live? Johnsonville

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Kath Read

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I would really like to see a space that is a "third place" for Wellington residents and visitors. A place that people could be that isn't home or school/work, without having to spend money. The new library should hold the traditional role of library, of course, but also have space for people to meet, socialise and connect together. I think the new library should have meeting rooms of various sizes and a large space for library events (rooms that can be combined with operable walls are fantastic for this purpose) so that you can attract popular presenters and speakers. A theatre is also a great space for a library to have. Don't see bookstores as your competitors for author talks - collaborate with them to have the books on sale as well as for loan. Lots of seating of various types, some that can be easily moved around by customers to suit, some that is fixed and some modular type seating that can be set up by library staff for multiple purposes. Lots of comfy reading spots. Chairs with and without arms. Booths for study or work are always popular. Large collaborative tables that can be used for either groups to meet or individuals to sit at. LOTS of powerpoints for customer devices to be charged, free wifi and public access computers. A cafe is vital, facing inwards to the library as an active part of the library, not a separate floor or shop. And a library must be welcoming and functional to the full diversity of the community. Most of all I want to see colour and light in the library. Neutrals may seem safe, but they're dull and soporific. No more beige, grey, navy and burgundy. They're not welcoming colours - they're the colours of bureaucracy, of government departments - a library shouldn't feel like that. Aotearoa New Zealand is a nation of vibrancy, it's libraries should reflect.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D - New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A few wishlist items - podcasting space with recording equipment, computers for training things like coding, animation etc, good secure display space for art/artefacts, craft space for everyone (not just children).

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Accessibility
2. Making the building safe
3. Climate change
4. Future-proofing the library service
5. Making the building resilient
6. Opportunities for partnership
7. Te Ngakau Civic Square connections
8. Timeframe
9. Cost to ratepayers
10. Sustainability
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It belongs to the community, and therefore it's where the library belongs.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Weekly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

Arapaki Manners feels temporary and has little connection between library staff and customers. It serves its purpose (and the location is excellent) but feels impersonal. Te Awe is a wonderful physical design, great location and has lots of awesome services - but the colour scheme is so very, very dull and "government department" like.

Q16. Where do you currently live?      Hataitai

Q17. Which of the following age groups do you belong to?      45 to 49

Q18. Please choose the gender that best identifies you      Female

Q1. Your name\* Ross Adamson

Q2. Your email or postal address

[Redacted email or postal address]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library first and foremost needs to be a place where the public can access books as easily as possible. These can be paper or electronic copies. It can also be a community centre, facilitating meetups, computer access, community meetings, and a place for the public to read or study. The building can be inspiring, novel or historic, but it shouldn't be these at a detriment to the original goal.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

To consider High-level remediation in preference to a new build represents a mismanagement of city funds. To prefer spending an extra \$40 million dollars for a building the report admits will not be as useful as a cheaper option is astounding - especially during an economic crisis.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Cost to ratepayers 3. Making the building resilient 4. Future-proofing the library service 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
  
Easy access to civic square, good range of books on display and curated to tempt people to read, community spaces, revamped children->teen areas to hook children on reading
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
  
We need to have a library that will sustain inevitable earthquakes or sea level rises and not require continual reinvestment to up it's level of compliance, and therefore reduce its overall impact on the environment. The building should aim to be 100% carbon neutral in operation as technology evolves and the building makes it easy to take up those improvements. The new build is also worth considering, especially if it can radically improve the usability of the library - but has a downside of demolition and waste of the existing, and would need to be a very interesting and highly engaging design at least as good as the current one, as well as very functional.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Future-proofing the library service  
4. Climate change  
5. Te Ngakau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing  
  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
  
This area is a fantastic asset for the city and the library should actively enhance its feel and usability.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They make books available while the central library isn't available, but are a poor comparison. There should be more standing desks that allow catalog searching - at Te Awe there were just internet or staff access while standing, and the iPads are much slower and more cumbersome to do a quick search.

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 50 to 54

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Would love to see a great interactive space for young children and families where events and activities can be held and attract to the central city. Chch library is fantastic for this.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current building is not fit for purpose. Just because it was built by a well known architect does not mean it should be retained. Wellington is too often held hostage by a wealthy, vocal few and it is not in the interests of the majority and needs to stop. Need to better respect and engage with wider wellington residents who do not make submissions on council websites but have firm opinions that do not reflect what what is represented on council. We need a modern, fantastic library that is light and bright and encourages people into the central city, including great parking options. Its so tricky for families to take public transport so we need to think about their needs with parking too.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Timeframe 2. Cost to ratepayers 3. Future-proofing the library service 4. Making the building resilient 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The civic space itself is of no importance to me. If it could be made an amazing space that would definitely be an additional draw card. If it links to the waterfront even better. Atbthe moment its just dated and decrepid

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (In person or online)? Monthly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Creating a central, fully accessible space that is inclusive for all people in our community is the key. Ensuring the building is safe, sustainable (a green building) and enduring, and that it is a welcoming, multipurpose space is essential. A space that fosters a love for reading amongst our tamariki and rangatahi, a space to learn, a space where everyone feels safe, a space that flexes to incorporate digital and other technologies, a space for creativity and a space for events and community activities (e.g. art hub, Te Reo ako hub, sewing hub) is what I would like to see, back in the every heart of our central city. A space that connects people, to each other, to services, to others in the community, to the arts and literature, to creativity. A place that's democratic, proudly public, always free, and open more than it's closed! A place that's busy and bustling, but also a calm oasis in the city. In short, a space where the people of Te Whanganui a Tara want to be, love to be, and are welcome to be. Let's make it world class, a place that's uplifting and inspiring to be in, just like the amazing libraries of Amsterdam, London, Helsinki, Melbourne, Tokyo, Copenhagen Olautahi and great other cities around the world.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe  
2. Sustainability  
3. Future-proofing the library service  
4. Accessibility  
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Let's keep Te Ngakau and make it more vibrant, inclusive and welcoming.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
Love the modern and colourful feel of Te Awe and the cafe. Friendly staff at branches always, and wonderful collections. Free cost of reserves, let's keep this, using and accessing libraries should be free for all always.

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Robyn anderson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I strongly believe in the importance of retaining and protecting this much loved wellington building and facility. Too much of our built heritage has been lost already.. heritage is not just the 19th century but will include the late 20th century for future generations. As a library user I appreciate the openness of the library, its internal connection between the floors, to the cafe and to the outside. I cannot emphasize too strongly the importance of being able to browse the shelves.. otherwise you have to use the library already knowing what you want. In fact margaret atwood commented on this very thing with regard to her years when she could not (as a female) use the Harvard library... she could only order books not browse. For the same reason I would hate to see the library collection dispersed or largely hidden away. PLEASE save our library and ensure its future!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Heritage
4. Future-proofing the library service
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* tricia

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

small meeting rooms/spaces good workroom for staff - but maybe many will WFH Good areas for leisure / to hang out in teaching / classroom spaces spaces for study / work on devices showers for the public and staff

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think the current site is too near the sea. I don't think the current building is fit for purpose going forward. I would like to see a brand new, better design on a site that's not compromised.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Cost to ratepayers
3. Making the building resilient
4. Accessibility
5. Making the building safe
6. Timeframe
7. Sustainability
8. Te Ngakau Civic Square connections
9. Climate change
10. Opportunities for partnership
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live?  
Outside Wellington City

Q17. Which of the following ages groups do you belong to?  
55 to 59

Q18. Please choose the gender that best identifies you  
Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I am also inclined to favour a new build on the same site provided that some features of the existing library, such as the nikau palms are saved and reused.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Heritage
4. Future-proofing the library service
5. Accessibility
6. Opportunities for partnership
7. Climate change
8. Te Ngākau Civic Square connections
9. Timeframe
10. Sustainability
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Make it look/feel less like the great squares in totalitarian states

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6 Te Awe Library Brandon and Panama Streets  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Nothing. I now am a regular patron of Amazon Kindle books since the closure of the central library which I formerly visited on a weekly basis and used to meet friends.

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 75 to 79

Q1. Your name\* Sonia Johnson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library should offer a welcoming and inclusive space. There are currently few safe, free, indoor spaces in Central Wellington and this fragments the sense of community such spaces can create. Libraries also have an important role to play in mitigating digital exclusion. I'd expect the new library to have wi-fi, devices and charging ports as well as staff available to support people in using them. Libraries are also useful to facilitating discovery (of books, resources, etc) - this is something I think that library staff do really well. I'd encourage seeking direction from the library staff about how a new space could support this. I think Te Awe is a great facility and models some of the changes possible for the central library project.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D - New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

This is an exciting opportunity to modern this important facility and worth investing the time and money to get long-term value from it. My second preferred option is C - high-level remediation.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building safe
3. Making the building resilient
4. Accessibility
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

With its central location, high level of foot traffic and cohesive sense of space (bounded by buildings), it works well as a space for pop up events, informal gatherings, etc. It also serves as a staging ground for marches and parades, being a large gathering space off the road but within a suitable walking distance of Parliament.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
He Matapihi Molesworth Library  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They're great, within the constraints of the space they have available.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It's a central community space for reflection, learning, knowledge sharing and meeting. It can be many things to many people. To do this well: it needs to be accessible with modern learning spaces and inclusive in how it brings people together.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The way we live and work in 2020 - and in Wellington in 2020 - is very different to when decisions were being made about the previously existing library in the 1980s. Let's take the opportunity for this one to last over a hundred years.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Making the building resilient
3. Future-proofing the library service
4. Climate change
5. Timeframe
6. Making the building safe
7. Heritage
8. Accessibility
9. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Yes. This space is key in bringing the community together. This originally was built with purpose, and has felt barren in the years that it's been emptied out due to works. Let's bring it back as a uniting place connecting the various directions of the city with the waterfront.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They're tiny. Clever in how they use the space to make it a library facility. But I miss the central library as a place to meet and spend time, including accessible to those with young families (playgrounds, kids books etc).

Q16. Where do you currently live?

Northland

Q17. Which of the following ages groups do you belong to?

30 to 34

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The program as it was in the old central library was already a very good base to work with and develop further. The aspect of lifelong learning and facilitating that is again an important task to fulfill. The updates in services as found in the Johnsonville library (3dprinter etc) are the right direction, and it will need to be updated according to our progression with technology. I would like to see communal workshops where a generational exchange of knowledge could be a concept to keep everyone connected. Older generations could provide knowledge about traditional skills in exchange of getting a helping hand when it comes to new technologies. I would love if there also was the possibility for face to face courses in te reo, Māori and pacifica whakapapa and this countries heritage. Maybe there could be collaborations with local iwi to take an active step towards an equal, respectful and therefore fruitful acknowledgement and celebration of the indigenous cultures that are such a vital part of Aotearoa.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It will need parking..

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Timeframe
3. Climate change
4. Te Ngakau Civic Square connections
5. Heritage
6. Accessibility
7. Making the building safe
8. Future-proofing the library service
9. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Just thinking of that outside seating area - wondering if it would not be nicer to have like a deck on the first floor rather than groundlevel. How I see it, if I'd like to read a book outside, I would just use the options available on civic Square to do so and get the book out. Whilst a higher level could provide different views of the square and wooden bridge. It could be part of a cafe and therefore be a shared area of responsibility.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

The modernisation of services is good but none of the spaces provide the opportunity to hide away in your own world whilst visiting. That has a lot to do with the lighting which I find too bright and obviously the space sizes. I find it very important that, although I understand the wish for a through and through designed and modernised look, there needs to be more comfort in seating options. I need to want to spend time there and none of the seating although poppy and modern can keep up with the comfort of the roundly shaped wooden-backsupport polstered seats for example.

Q16. Where do you currently live?

Q1. Your name\* Max

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library was great at providing a safe, quiet, free, warm, and dry space for vulnerable to spend time, and was a place where everyone was welcome. Quiet, private spaces (like the seating against the north glazed facade) should be retained, as well as more public spaces. I think there is a risk that in modernising the library it could become too open plan and too public (with all the proposed entrances and large open areas), with nowhere comfortable/a bit private to spend time. Also the original carpet and flooring is amazing and should definitely be kept :)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The Central Library Building is architecturally significant and I am happy that the demolition of the building is not the preferred option. But I think more than anything the Central Library is important because of its social function and what it represents to residents of Wellington - a visible place in the central city which provides room for everyone and cares for those most in need in our society. I think that any solution needs to balance the timeframe for completion of work with the value given to the architectural significance and resilience of the building. The most important thing really is that the Library is open and operating, without the risk of killing people in an event. If the 100% NBS option is really going to take 5 years to complete (in reality it will always be longer and more expensive) that is a long time for the library to stay shut just to potentially open sooner after a significant earthquake. In my opinion a lower level strengthening option gets the library open sooner and still doesn't risk peoples' lives. The future library should include Te Reo Māori in all signage and have tikanga/kaupapa Māori integrated into the fabric of library systems, spaces, and layout as per obligations to te Tiriti.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Timeframe
3. Accessibility
4. Sustainability
5. Heritage
6. Making the building resilient
7. Climate change
8. Future-proofing the library service
9. Opportunities for partnership
10. Te Ngakau Civic Square connections
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The Council chambers and Services Centre was always very cut off/felt like it backed on to Te Ngākau Civic Square - it would be good if this was more open, and the Council chambers had more of a relationship to the Square - more than a back door.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The interim libraries are no replacement to the Central Library - but are making the best of the situation and operate very well.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you. Male

Q1. Your name\* manjit

Q2. Your email or postal address

Q3. You are making this submission: Ekta NZ Inc

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

1. Place for connecting communities 2. Space for community activities including those that are faith based 3. Lot more collection of works of/by/for multi cultural/ethnic 4. Cafe/restaurant to be included 5. Space for screening of documentaries/short movies and performances 6. International tie-ups

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The preferred option given by WCC (option C) is not only more expensive it will not allow the planned for another at least 20-30 years. In option D and E the scope will be widened allowing for more activity at a lesser cost. Allowing for more community activity would cut down expenditure on redeveloping Community Centres which are needing to be done up again. It would also allow more activity into the city after the downturn. Ways can be found to preserve the current outer facade of the library. If D is not doable, the second option should be E.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Opportunities for partnership
3. Heritage
4. Cost to ratepayers
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

good to have but not a determining factor

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
need for meeting space

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? Prefer not to say

Q18. Please choose the gender that best identifies you Gender diverse/gender non-binary

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The rebuild must be the cheapest option to the taxpayer with the quickest rebuild time. The partial remedial options are not viable as they don't make the site fully safe, and the full strengthening option is too expensive and will take too long. Any notion of "preserving heritage" is total nonsense - the building and larger site have no historical significance.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The fact that the Council seem to think that the most expensive option is the best shows their complete disconnect with the people they are supposed to represent.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers  
2. Timeframe  
3. Future-proofing the library service  
4. Accessibility  
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Knock down the Town Hall and spend the money on the library.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
They are there - it is great that an interim option was put together.

Q16. Where do you currently live? Strathmore Park

Q17. Which of the following ages groups do you 45 to 49  
belong to?

Q18. Please choose the gender that best identifies Male  
you

Q1. Your name\* Paul Prendergast

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I was a great fan of the existing Central Library and believe it was modern and had all the necessary services, good access to Civic Centre and city. I favour an option making the building reasonably safe and returning to operation as quickly in time as is reasonable.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I consider option B to provide a reasonable level of safety and resilience, is medium cost and time frame. The wording in description of option C about earthquake surviveability is over optimistic and misleading in regard to resilience. Buildings are designed to resist a certain level of earthquake and structurally survive a greater quake but with some damage. There can always be an earthquake stronger than the design but with less likelihood.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Cost to ratepayers 3. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is an important center for Wellington for information, recreation and services. It needs to be back in operation as soon as it can be safely done so.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They fill a temporary service but don't compare to the types of uses and facilities available at the Central library

Q16. Where do you currently live? Thorndon

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Male

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Making the building resilient
4. Opportunities for partnership
5. Timeframe
6. Cost to ratepayers
7. Climate change
8. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are Interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live? Island Bay

Q17. Which of the following ages groups do you 50 to 54  
belong to?

Q18. Please choose the gender that best identifies Prefer not to say  
you

Q1. Your name\* Richard Shea

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Firstly if "partnerships with other organisations" means Wellington City Council entering into commercial arrangements to provide any part of library services ... that is not what the Central Library should involve. No one asked for the current interruption of usage but it shouldn't be used as an excuse to hive off parts of the previous activities of the library service to private suppliers. The provision of a library service is a core responsibility of the Council and it should remain so. Having said that the library should serve equally as a repository of knowledge and an indoor open space, by which I mean a place where meetings, both formal and informal, might take place. It should continue to be a place where people of all types and backgrounds can mingle and enjoy the possibilities that lending libraries have provided for hundreds of years. The existing structure has served those needs admirably for several decades and in addition is a fine space in and of itself, as far as practicable it should be retained as even without its function it is a credit to the city.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It concerns me deeply that some people in positions of power within the council who have commented on the future of the library are not people who actually use the library. They have busy lives and plentiful resources with which to provide themselves with those things that others might only be able to obtain via a library. It's not just another building project it's an important part of the city's life for many people, not least the old and the young who may not be those who are making the decisions.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Other (please specify) 2. Making the building safe 3. Making the building resilient 4. Heritage 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? Restoration of the library service that was in place up until 2019 in an attractive, accessible and friendly environment. By "restoration" I mean an emphasis on the physical resources and spaces that existed up until then.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Not really

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

I've appreciated their existence during the interruption of service at the Central Library. I've appreciated the friendliness of the staff greeting people who might not be familiar with the environment on their arrival. I would like the stock of the Central Library (in particular the non-fiction books) to be available through them but I appreciate that's hardly practicable given their collective size. I have not appreciated various comment by the Mayor and others in positions of power that the interim CBD libraries are anything other than rather light weight stop gap measure, taken altogether they don't come close to the utility of the Central Library which has been lost since March 2019

Q16. Where do you currently live?

Miramar

Q17. Which of the following ages groups do you belong to?

Prefer not to say

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Chris Wilkinson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The new Christchurch library is a good example of success. No need to re-write the book - let's replicate their model - specific to Wellington. The old library was 'inward facing' and never really activated the precincts surrounding it. Let's ensure the new one is a catalyst for wider regeneration and activation.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? Important we give priority to this and the social and economic value of a library to the CBD is considered.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Opportunities for partnership
2. Future-proofing the library service
3. Te Ngākau Civic Square connections
4. Timeframe
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The area works well - at least it did when the surrounding buildings were full - including Capital E

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
They are very well done. Made me feel proud in what the city has achieved with these.

Q16. Where do you currently live? Oriental Bay

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library has so much potential to act as a community hub as well as the central book lending branch. Programmes, bookable spaces, a robust collection, and a welcoming and accessible space would be wonderful to see

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please please just keep funding it and don't skimp on the remediation. Wellington needs its central library to last, it's an important cultural and central and hub

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
2. Making the building resilient
3. Sustainability
4. Heritage
5. Future-proofing the library service
6. Accessibility
7. Te Ngakau Civic Square connections
8. Climate change
9. Timeframe
10. Opportunities for partnership
11. Cost to ratepayers
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's always been so neat having it all clustered together. The proximity of the library and the art gallery in particular encourages visiting the square

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
They're still easy to access, especially for request pickups and the spaces are lovely considering how quickly they were set up

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 19 to 24

Q1. Your name\* Dawn Ferguson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library should be a place of inclusiveness and learning with community groups able to meet there. It should provide loans of all digital and physical communication material and reference material. There should be qualified librarians to offer advice to those seeking materials.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If the existing library building can be remediated for WCC office use cheaper than for a new library, that is fine but otherwise the present suggested costs seem far too high and we'd be better off building a new library.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers  
2. Making the building safe  
3. Making the building resilient  
4. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think it is important to continue to have this public space open for events and open space for people to enjoy. It should be attractive but does not need to be ostentatious in its architecture. It should cater to both Wellington city residents and those living in the suburbs who want to participate in Wellington events and enjoy the space for meeting people, leisure and public gatherings.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Khandallah

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Meeting spaces - the new pop up library at Panama St offers well-equipped meeting rooms for free for the first 2 hours and I think that's a fantastic facility for a library to be able to offer. Financially-accessible education/upskilling - I loved that the library offered free Lynda.com courses - I wonder if more awareness on that option can be further raised to some of the lower-income users of the library space.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think a high level remediation, although costly, would create less environmental impact and thus could be a flagship project for demonstrating a regenerative-centric building philosophy (by working with existing fabric instead of creating anew). I also think it's important to remember the library had been used by mostly students, beneficiaries, and homeless population - and it is more important for the people to have a central location that offers a warm space with free facilities than it is to preserve a building simply for its nod to the civic heritage of an urban environment.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building safe
3. Climate change
4. Making the building resilient
5. Sustainability
6. Accessibility
7. Timeframe
8. Opportunities for partnership
9. Te Ngakau Civic Square connections
10. Cost to ratepayers
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like that the 'eggs are not all in one basket', so to speak. They become free, accessible stations of spaces to visit around the city - I think this creates a safer city with a positive impact on social welfare. I also really like having meeting rooms for hire in the Panama St pop-up.

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

25 to 29

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

This is a wonderful opportunity to maintain an important post modern building designed by Ian Athfield which is, as Kate Linzey of the Architecture Centre has described it 'essentially a decorated shed' which has 'plenty of scope to adapt to future needs'. The building can be repurposed to include the following services to the community which include learning opportunities, collaborative opportunities, rest and relaxation opportunities and access to community information. This would include: -access to a wide range of print and electronic resources, -Wifi access and space to use personal laptops - Some public access to computers to close the digital divide with staff on hand for assistance -access to librarian expertise and assistance for personal or institutional research, -breakout rooms to prepare and practise presentations -Bookable breakout rooms for group tutoring or hosting special interest groups some of which can be opened up to provide a small performance space. -small exhibitions - larger ones will be better hosted in the Convention and Conference Centre. - Spaces for quiet reading and reflection with comfortable furniture -Extended opening hours In the plan I note that all plans have 'the same amount of space allocated to library service functions 11,500 sq metres. (P13 of the Proposed Future of the Central Library Consultation document.) With the larger number of functions and to ensure that the library has space to grow and develop services which it currently does not, I suggest that the entire building area of 17,000 square metres be given over to the new Central Library. If there is a plan to commercialise the remaining 5,500 sq metres, that needs to be put on the table as part of the consultation.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Option B, with the proviso that it opens closer to the opening date for Option A of November 2023. We need to get the heart of the city beating again. Another concern is the longer we wait the more costs will escalate. Another aspect is that the closing of the building due to earthquake resilience issues has given us the opportunity to upgrade the library services at the same time. These two aspects combined have increased costs beyond shoring up the building. However, I don't believe for a second that any of the new build indicative costs are anywhere near what the actual costs may be.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Future-proofing the library service
3. Accessibility
4. Timeframe
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I would like the Wellington City Council to share their plans for Te Ngakau Civic Precinct. Currently it is run down and the least inviting it has ever been. I think the Library needs to be there, the WCC offices need to be part of the precinct as does the Information Centre and the Art Gallery.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are interim, I do not want them to become permanent replacements for the Central Library.

Q16. Where do you currently live? Thorndon

Q17. Which of the following ages groups do you belong to? Prefer not to say

Q18. Please choose the gender that best identifies you Prefer not to say

Respondent No: 822

Q1. Your name\*

Kim

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Free parking for library customers. Make spaces.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Climate change
4. Future-proofing the library service
5. Accessibility
6. Te Ngakau Civic Square connections
7. Sustainability
8. Timeframe
9. Cost to ratepayers
10. Opportunities for partnership
11. Heritage
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Newlands

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The present library was a welcoming community space and I would like that feeling retained

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Ian Athfield was a visionary and the present library reflects his forward thinking way of creating not just a repository for books but a space that was attractive to people from all walks of life. It was like a second home to some people.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Heritage
4. Future-proofing the library service
5. Timeframe
6. Sustainability
7. Accessibility
8. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The library was an essential part of this precinct. Without the library it is not an attractive or enticing area.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The staff are the best thing about our libraries. Everyone is making do with very inferior venues.

Q16. Where do you currently live? Mount Cook

Q17. Which of the following ages groups do you Prefer not to say  
belong to?

Q18. Please choose the gender that best identifies Female  
you

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It will be important to have effective consultation with community groups and individuals during the detailed planning phase about the opportunities for shared facilities/physical spaces in the library. It will also need to take into account that behaviours will have changed in the period when the library hasn't been available and what the city needs in the future.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

This is an opportunity to design a building which combines architectural vision and take into account modern usage of a library. The Christchurch library provides a really good benchmark for this.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Cost to ratepayers
4. Timeframe
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The Te Awe Library is a really good example of a small library and has many of the features I would expect to see in the new library. It does show that a library can be built in an existing building. This isn't one of the options given for the new library, but perhaps should have been considered.

Q16. Where do you currently live? Mount Victoria

This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
It should have considerable spaces for books. I was surprised when I visited the new Christchurch library how few books there were. Also there needs to be more places to sit than there were in the library before. Meeting rooms for community groups would be great.

This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
I propose that we stay with a temporary library for several years while we weather the deep recession we are now in. Demolish the existing library and sell the land to bring in some revenue. When the economy picks up again then the council can look at building a new library on a new site (possibly still within Civic Square). Trying to remediate the existing library or develop a new library at this time is fiscally irresponsible. Doing so strengthens people's perception of the council as out-of-touch with the economic realities now faced by rate-payers.

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Wellington Central library was a truly special place for us. It's unique structure made it a special part of our city, and what was awesome about the interior was that it was a welcoming and friendly place which encouraged users to engage with the services the library offered. A library is often the last bastion of community infrastructure in a world which is quickly becoming gentrified in a post-capitalist era; a move which is driving communities further apart and worsening income inequality. It is vital that we don't just restore the library, but that we retain it's original atmosphere of welcoming and non judgemental atmosphere. Many renovated and new structures in the late 2010s have embraced a modern and minimalistic style. I would urge city counselors to veer away from aligning too closely with it's aesthetic, as it makes buildings sterile and unfriendly. As someone who has grown up in the city and been shaped by the central library, I would ask that you consider our roots when renovating it in option C. It would be great to keep the exterior of the library as is, while also considering how we can make the library a better version of what it used to be using things like sustainable technologies as we move forward into a climate prone future. It would be great to see the old colour schemes nodded to in the renovations, and engagement from local artists to make it a unique and welcoming place like it used to be. Places like the Vancouver public library do this well; as clean and functional structures which also use things like local artwork and children's programmes to break up the sterility of any modern space. A particularly exciting feature of the Vancouver central public library is it's newly opened rooftop garden. Is this an opportunity we could introduce here? One thing which was less than ideal in the old library, and holds true for buildings in New Zealand in general, was that it was not designed to withstand our local climate. It would be incredible to have a place to work, study, learn and seek refuge in which is warm in the winter and cool in the summer; traits that buildings in the rest of the world have taken for granted, but which we have been slow to adopt down here in Aotearoa. The library as it is, while unsafe, is currently an incredible and thoughtful work of architecture. We should try and retain this special aesthetic as we move forward into the future; remembering to nod at the past.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

see #5

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Climate change
3. Accessibility
4. Future-proofing the library service
5. Making the building safe
6. Making the building resilient
7. Sustainability
8. Te Ngakau Civic Square connections
9. Opportunities for partnership
10. Timeframe
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awa Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The Te Awa Brandon and Panama library is amazing! It's a super inviting and functional space with a great selection and helpful staff. It's also in a great location! We should consider keeping it when the central library returns.

Q16. Where do you currently live?      Brooklyn

Q17. Which of the following age groups do you belong to?      19 to 24

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

We have no idea what possibilities there are for the next 10 years let alone the next 50. The current building dates from 1989 but has continued to function extremely well as digital revolution has changed so many aspects of people's lives. The openness of its architecture and its central location mean it can continue to evolve its services. Anything tightly designed to what we guess now will prove to be wrong.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Minimal level repairs followed by a future upgrade

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The Library is a great and very functional building. There are not so many inspiring examples of modern architecture in Wellington that we can afford to destroy it when it has been such a popular and well used facility.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Heritage
4. Cost to ratepayers
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Nothing. Poor selection of books.

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

While I think the central library should still have physical books, sound recordings and video recordings as a core service it should also be able to provide online services and be able to adapt to different technology and formats as they appear. The physical spaces and infrastructure, and the organisational structures need to be flexible enough to adapt to changes in how information services are provided to Wellington citizens.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

There should be some buildings in Wellington that should be preserved, strengthened and restored, as I think it's important to preserve some of Wellington's architectural heritage. But we cannot preserve all of them, choices have to be made about what buildings are too expensive to justify preserving. While I love the central library building I think the extra money to strengthen and keep the same building is not justified. I do think that there could be some aspects of the central library that could be added to a new building to provide historic continuity, such as keeping the nikau palms and the archway on the second floor for example.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Cost to ratepayers
5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I have loved the way the square has developed as a space for the public to use, both in its attractiveness and function. I hope the spirit of that intention is preserved with any future changes.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I love the new Te Awe library, it's much bigger than Arapaki was and a much more pleasant, comfortable place to spend time.

Q16. Where do you currently live? Ngaio

Q17. Which of the following age groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Bill Guest

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) william.guest.nz@gmail.com

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I support the concept of Central Library, with a network of outlying suburban branch libraries. However, in my opinion, the building is secondary to the LIBRARY itself.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. The emphasis must be on the functionality of the Library as an institution, and not a grand building/vanity project. I am confident that the professional librarians will understand this remark. When the closed central library was opened, the internet was in its infancy, laptops were not yet made, there were no smartphones, etc etc. I want the library functionality to be freshly defined by our librarians before any decision is made about the building.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Given the state of much city infrastructure (drains, water, roads, public transport) the Council cannot afford to spend more than absolutely necessary on a building. Get the library defined well, then consider the options for the building - and select the cheapest that will do the job well.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Cost to ratepayers
3. Making the building safe
4. Making the building resilient
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Throw the alleged traditions out the window. Focus on the library itself, then find a good site to place it at a cost affordable to ratepayers. I agree that a central location is desirable, but the civic precinct has no special significance to me.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, He Matapihi Molesworth Library  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They were an excellent response to the closure of the central library. But further money should not be spent on them  
because the aim should be the reinstatement of the central library

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you 70 to 74  
belong to?

Q18. Please choose the gender that best identifies Male  
you

Q1. Your name\* Kerry-Lynn Sorrell

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central library served multiple purposes from: meeting place, a quiet place to work or study, access materials (books, DVDs etc) which people would otherwise not be able to access; access to research services; public meeting/workshop spaces. The new library should continue to serve these purposes.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

No

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Timeframe
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It should continue to be used as it currently is, this serves an important purpose as a public gathering place for many different reasons.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They serve a purpose - I would not say that I like anything about them.

Q16. Where do you currently live? Miramar

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Female

Respondent No: 832

Q1. Your name\* Lynne Dowling

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I would like to see the focus on books. The new Johnsonville library seems to be a great activity hub, but there don't seem to be nearly as many books as there were in the old one.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Tho the new build options are much cheaper and closer to NBS, it is the layout and space for books that makes Option C my preferred option.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Making the building safe
3. Making the building resilient
4. Future-proofing the library service
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets. Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think there it is logical to have the library in the arts precinct, near the art gallery, concert venues and not far from Te Papa. The link to the waterfront is a huge asset too.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6 Te Awe Library Brandon and Panama Streets  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The Te Awe one is good, I had got to the stage where I had read most of the things I wanted to at Arapaki. I like the fact that you can return books out of hours and it has a quieter more relaxed vibe than Manners St. Due to Covid and the Central library being closed, and Johnsonville now being open on Sundays, I have not come into the city libraries as much in the past 12 months as I would usually have done. I probably visited the city library a couple of times a month before it closed.

Q16. Where do you currently live? Johnsonville

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library needs to offer dynamic and varied spaces that are accessible. A dedicated events space is essential (Central's previous event space required most of the YA area to be moved aside). I think retaining the browsability of the existing collection is also an essential part of what a future Central Library should offer - people who visit the new CBD libraries seem to miss this the most. I'd hope that whatever our 'new' library looks like, it offers a similar level of collection space. Lastly, I'd like to see modern and user-friendly research areas to hold the special collections, supported by specialist library staff and including a team of Māori specialists.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Sustainability
3. Climate change
4. Timeframe
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6 Te Awe Library Brandon and Panama Streets  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Te Awe is an excellent design for a small, modern library. Both Te Awe and He Matapihi have great mixes of seating and multi-use areas that appeal to patrons. I do have two main issues with the set-up of the two CBD libraries - 1, that the staff are told to 'roam' amongst the shelves instead of having a centralised staffed information desk that patrons can approach. This model is not user-friendly as patrons often cannot find or identify library staff members, and feedback shows library users do not want to be approached while they are looking through the shelves as if they are in a retail store. Both of the smaller pop-ups have 'pods' or small standing desks where staff can assist patrons but these also have their drawbacks (limited desk space, patrons cannot sit, patrons get too close to staff members and the pc's). My second issue with the new libraries is that they do not seem as community-driven as other libraries. Information is hard to find without any paper hand-outs or event posters, and lack of community notices, wall art etc make these libraries lack character. They largely appear to be pristine corporate areas rather than a community space that encourages learning, interaction and creativity.

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

In descending order of importance: - A designated study and reading hall, - A large collection of books spanning topics relevant to the modern world, - Small, sound-proofed, and bookable pods in a range of sizes (one to two people for studying, larger spaces for teaching and meetings). - Lecture theatres and seminar spaces (with lots of public lectures, workshops, book readings, debates, films, listenings, and courses some of which could be run by the library). - Spaces to interact with modern technology (such as editing studios, VR studios, video conferencing facilities with useful interactive technology such as a Microsoft Surface Hub) - Performance and exhibition spaces, - Rooftop cafe, - Covered and secure bike parking (perhaps only accessible with a library card. - A planetarium or arborium - Laboratories available for public use for experiments - Workshops for woodwork, crafting, etc. - Lockers and temporary personal storage spaces, possibly long-term rental lockers. Notes: - All spaces to have high quality wifi and USB / 3-Pin power points readily available. - Spaces should be able to be easily converted as the needs of the library change over the next 50 years, small spaces may need to be combined or large spaces separated as uses change. - I'm not well versed in the best options for children's spaces but they would also be important to consider.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Perhaps too little space here to really get into detail, but the feeling in structural engineering circles is that the current options presented to the council are not adequate for the council to make an informed decision on the future of the library. There are two underlying factors to this statement. First, there are a number of techniques for improving the performance of the structure that do not require base-isolation (as is currently suggested in strengthening schemes) such as dampers which have not yet been properly costed. The potential for cost-savings from these options mean they should be considered fairly against alternatives for strengthening. Secondly, strong arguments have been made for a more thoughtful costing of a new structure taking in to account factors such as whether a smaller building could be viable (as has been done with Tūranga), or whether this building should include modern engineering methods of improving resilience against earthquakes, namely dampers or base-isolation.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Timeframe
4. Cost to ratepayers
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. **Appealing**

More windows to help connect the library visually to the square and surrounding streets **Neutral**

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The future of the precinct is a larger discussion for this and future councils. However, in the context of the library, planning now to create a stronger connection between the library and the square will give future developments the best chance of success.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (In person or online)? **Once every few months**

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply **Arapaki Manners Library and Service Centre**

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The spaces are insufficiently large and poorly set-up to provide adequate spaces for people to study in a private area. As could be expected given their size, they do not have an adequate range of books or other material to be of use. However, they have been crucial in the absence of the library for providing basic public services.

Q16. Where do you currently live? **Rongotai**

Q17. Which of the following ages groups do you belong to? **19 to 24**

Q18. Please choose the gender that best identifies you **Male**

Q1. Your name\* Alexandra MacGibbon

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I like the sound of outdoor sheltered reading room. Also to enjoy art music buskers nearby. How about tech gadgets to hire for internal use - VR, 3d printing, tablets. A sewing library with patterns available to borrow, or machines to book and use at the library for a couple of hours. Spaces for kids play (making and lego and toys and older kids maker space) that doesnt impact others enjoyment of quiet reading. Spaces designed for teen/youth needs and welcoming to teens for just hanging out or resting. Social zone with board games or art, and separate study reading area. Also support those all ages accessing online MOOCS as well.. so headphones for hire and quiet space and internet to study online. Meeting rooms small and large for use by community or exercise groups (such as yoga). Library staff available for business research or admin support at a fee. Could partner with Timebank or Newtown tool library too.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I love the current Athfield design and noticed the option has new entrances and redesigned areas that I agree will open up and connect better with civic sq and footpaths to be more inviting to people. I want to see it completed asap so my primary age kids can access it and feel welcomed when they are teens (5years away) to use and enjoy the city library as their meeting place and study place and respite /oasis from busy lives. There has been a big gap in Wellington - we need our library as a third space, to meet and be with people while alone or with friends and whānau - in addition to accessing the collection and services.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
2. Timeframe
3. Making the building resilient
4. Sustainability
5. Future-proofing the library service
6. Accessibility
7. Cost to ratepayers
8. Heritage
9. Te Ngakau Civic Square connections
10. Climate change
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Maintain this role of as an accessible third space and improve the entrance and exit points for better pedestrian flow and street appeal of accessing and using the space. It could also do with better shade options for sitting in summer.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply      Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?      Island Bay

Q17. Which of the following ages groups do you belong to?      40 to 44

Q18. Please choose the gender that best identifies you      Female

Respondent No: 839

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

An open and inclusive space that welcomes visitors and users

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The facility should be current with technology as at the opening date and have adequate open spaces available for the community to use and enjoy

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- 1. Making the building safe
- 2. Future-proofing the library service
- 3. Accessibility
- 4. Cost to ratepayers
- 5. Making the building resilient
- 6. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The ability to be more readily used by the community will help connect better with the space

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like the layout and format of these buildings, it has sufficient space and does not feel cluttered

Q16. Where do you currently live?

Owhiro Bay

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Male

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Physical spaces, services and programmes yes. Also agree to partnerships with other organisations. I would not like the library to be turned into another large coffee shop where it becomes too noisy to read. I like having cafe facilities - just take care with the planning of them please.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I have gone with your chosen option because I have loved the library since it opened and miss it very much. However, it does depend on cost, time to complete the work and alternative site options. I would still be open to another location as long as it was on a bus route and had sufficient space for everything the Central Library had. If not central there would need to be a name change.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Timeframe
3. Cost to ratepayers
4. Accessibility
5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Khandallah

Q17. Which of the following ages groups do you belong to?

60 to 64

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Demolish and rebuild essentially exactly the same but (i) with direct access to the square (ii) cafe moved to ground floor and integrated as with the ChCh library and the Brandon St temporary one and (ii) on base isolators etc so >100% of NBS. So far as I can tell from the 5 options this would be cheaper than option C (high level remediation) while preserving the essence of the original building.
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
If my new option above is not feasible or is no cheaper than option C (high level remediation), then I vote for option B (mid-level remediation to 80% of NBS. Reason is that we cannot be sure what we will need in 100 years' time, so 80% of code seems sensible.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Accessibility  
2. Making the building safe  
3. Making the building resilient  
4. Te Ngakau Civic Square connections  
5. Heritage  
6. Timeframe  
7. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think the future Central Library should recognise the changing role of libraries in our modern world. They remain important spaces for all walks of life to share a collective knowledge. They are also an important community space and should be configured to allow as many community groups to make use of the space as possible. While physical collections are still important, it is important that the library is a lively space that has a wide range of functions and activities on any given day. I think the Tūranga library in Christchurch is a great example of the role a modern library can play and is immensely popular with the community there.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Remediating the existing library building comes at a significant cost to current and future ratepayers - with no benefit above the new build options. The new build options offer an opportunity to create a modern library space that better meets the needs of the community, at a reduced cost to ratepayers. A new building would enable the opportunity to create a cutting edge public space that utilises new building technologies such as making the building as carbon neutral as possible. The current design of the building is cold and imposing from the street. The design is not worth preserving at a significant cost and with outcomes that are likely to be less positive than a new build. The character of the Civic Precinct comes from the Town Hall buildings and the positive ambiance of the lawn area. This is a great space and the new library building should be integrated with this space. The current building is an imposing design when viewed from Victoria Street, it makes the space feel unwelcoming to pedestrians and reinforces the idea that the street is overly car centric. The area could be significantly activated through a new building design that connected with the pedestrian space on the street, as well as more legible pedestrian priority across Victoria Street - to be connect people with the Civic Precinct and Willis Street. A new build enables a design that is at the cutting edge of library design and provides a 21st century public space, preserving the existing for its character will leave us with a less adaptable space in the future.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Making the building resilient 3. Te Ngakau Civic Square connections 4. Sustainability 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Te Ngākau Civic Precinct is a great public space - the municipal lawn is an excellent multi-purpose public space and an asset to the city. While the space and place making on site is generally good (the seating options at the area could be improved) it suffers from being disconnected from the rest of the city. The current state of the civic buildings undergoing earthquake remediation in the precinct mean that the space is not as vibrant as it could be and is surrounded by empty buildings. It means the multi-use nature of the space is not as it could be as the activity in the precinct is very limited, particularly timewise. The precinct is also disconnected from the surrounding streets and this makes it hard to get to. Victoria St is very car dominated and the crossing spaces are not ideal and often there are long waits between traffic light pedestrian phases. The barriers and construction work are another impediment to connecting the street space of the precinct to the Lower Cuba / Wakefield Street. As a low traffic area already, Wakefield St presents a great opportunity for a pedestrian focused space that links the Precinct with the Cuba Street area.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like the localised nature of the interim branches, they are conveniently located close to where people live. They serve as good locations to pickup and drop off loan material and exist in places that are easy to access.

Q16. Where do you currently live?

Pipitea

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

Male

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I loved using the music room, even sometimes bringing in musical scores to practice. I hope that is part of the plan for the new version of this space.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Thank you for creating a couple of small spaces for the CBD in the interim. These help a bunch.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Climate change 2. Sustainability 3. Cost to ratepayers 4. Making the building safe 5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I have experienced some wonderful events in Town Hall. I am glad this space is being fixed to be safe and resilient.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre He Matapihi Molesworth Library Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

I love being able to use the piano at Molesworth Street. The new collections at Te Awe and Arapaki are very inspiring, also.  
(I have loved using Libby to listen and/or read on my mobile phone much more in the past six months, too.)

**Q16. Where do you currently live?** Kilbirnie

**Q17. Which of the following ages groups do you belong to?** 45 to 49

**Q18. Please choose the gender that best identifies you** Female

Q1. Your name\* Adam Wright

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Sustainability
4. Cost to ratepayers
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Island Bay

Q17. Which of the following ages groups do you belong to?

35 to 39

Q1. Your name\* Jill Robinsom

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library has given Wellington a local community facility that has been used and loved by all parts of the community. Having it on one side of Te Ngakau gives the Redevelopment an opportunity to engage more with Civic Square. If the national music centre goes ahead there are so many exciting opportunities for partnerships For the Library to deepen engagement with the NZSM and the NZSQ benefiting all Wellingtonians. The diversity of NZSM's offering including Toanga Puoro Suite could offer so much to locals and people visiting Wellington.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Te Ngakau Civic Square connections
3. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think it holds a lot of exciting opportunities for further partnerships as in the vision for the national music centre. For example, the music centre will bring NZ's first sound scoring stage To Civic Square Hall and will deepen partnerships with Wellington's creative industries while also attracting further business in this area to Wellington. To have a vibrant library, music centre and City Gallery around the Square would really reclaim Wellington as the nation's cultural capital, a reputation that the city has been loosing since the closure of the Wellington Town Hall. Having a musical centre in Te Ngakau Civic Square with the Wellington Town Hall at its heart , the City Art Gallery and a strengthened library that encompasses Civic Square more will be a magnet for the public on a daily basis as well as for the vast and diverse array of events that the confluence of these three partnerships could bring. Like Te Papa it would be a drawcard for tourists. This is beyond exciting and an opportunity for WCC to embrace for future generations, to once again make Te Ngakau Civic Square the true heart of the capital of our country.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? Te Awe is accessible for me and I think it has a very pleasant atmosphere

Q16. Where do you currently live? Kelburn

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Peter Clayworth

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Renovate the current central library up to the highest standard. Make it as earthquake safe as possible and re-open it. We need a large central library, both for the public to borrow books, music, films etc from and as a social, educational and recreational space. Every civilised large town should have a central library. A complete rebuild will no doubt involve cost blow-outs and time over-runs. The current building is a great piece of architecture, instantly recognisable as a symbol of Wellington.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The library should remain owned by the people of Wellington- I am opposed to any private/public ownership arrangements for the library or the land it stands on.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. Important.

1. Future-proofing the library service
2. Heritage
3. Making the building safe
4. Making the building resilient
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It has been a great public space, but is looking a bit sad at present. Re-open the library and the Town Hall- that will liven it up. Good spot for lunch or a protest gathering. Need to get another version of the Fern Ball.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are libraries- so help fill the sad gap left by closing central library. What would I improve- a) re-open the Central library; b) have all the interim CBD branches open until at least 6.30pm and open on weekends.

Q16. Where do you currently live? Vogeltown

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Male

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

[redacted]

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The primary role of the Central Library is to enrich the community through the provision of resources and to grow people's knowledge using face-to-face, group, and digital means. It is far more than a building providing physical spaces, services, programmes or partnerships. It must not place offering these ahead of its primary role. Wellingtonians want to access resources and knowledge provided by librarians using traditional, innovative and inspirational approaches. We want to be surrounded by collections in all areas of the library, we do not want primary spaces used for other purposes.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

When finalising a new layout and service delivery model, I am assuming that the changed model of warehousing the collection in Johnsonville is fully assessed. It may be that the stack area of the "old" Central Library will not be needed and also that some specialist services could be distributed across the branches. Cost/benefit assessment needs to be made available by the Council.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Making the building resilient 3. Future-proofing the library service 4. Timeframe 5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

A central library delivering excellent library services will attract Wellingtonians to the Precinct.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They have demonstrated an excellent library service in very difficult times. I would like to see He Matapiki and Te Awe retained.

Q16. Where do you currently live?

Thorndon

Q17. Which of the following ages groups do you belong to?

75 to 79

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Genevieve Orr

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Continue a successful track record of supporting the needs and interests the Wellington central community, which is not the same as for example, Johnsonville. Provide quiet spaces for people to engage with the resources- to browse, read and study, as well as dedicated spaces for children, meetings etc. Fashions do change however and they should not predominate. For example, fully open plan spaces are very uncomfortable (aurally and physically) for people who wish to read and reflect (in whatever medium). This is not a minority point of view. The diversity of interests and educational background of current users would not be served at all by, 'a more curated ..collection'. Fewer books and more e-resources, for example, don't necessarily make better collections or satisfied customers. Since the closure of Central we have had to make do with very limited resources. The breadth and depth of the library's existing holdings are one of its great strengths.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Ian Athfield's genius should be respected. The building has worked very successfully and adapted for 30 years. This is not incidental. Why on earth would a city consider destroying or undermining that? I am opposed to changes that would 'open up' the building such as extra large windows and multiple entrances. If this building becomes a glass tent it will lose a lot of its character and its essentially inner focus. I support any option that retains and respects the existing design.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Other (please specify)
3. Accessibility
4. Te Ngakau Civic Square connections
5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? Returning a high class library service that meets the needs of this particular community.

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets. Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Living in this city just isn't the same. The library plays such a key role in the community it serves and in Te Ngākau. Also on a practical level a great cafe and convenient parking are sorely missed. When all these are functioning again life will come into the precinct - physically and spiritually.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Te Awe is a lovely space, well set out and quiet. The staff are very helpful. People unwind and can think in this atmosphere. It's great to access a few more books and magazines. Arapake -the co-location of service desks with a library doesn't work. I have been an avid library user all my life but could not return to Arapaki after my initial visit. He Matapihi has quite specific collections. On the weekend I visited a very vocal group was meeting in the same space as the collections. It was hard to concentrate on reading. When I raised this with the librarian I was told I could go to another floor to read. As the books were on the ground floor I had no choice but to leave. This was badly organised. If the library is providing meeting venues they should be separate and/or soundproofed (as at Te Awa).

Q16. Where do you currently live?

Wadestown

Q17. Which of the following ages groups do you belong to?

Prefer not to say

Q18. Please choose the gender that best identifies you

Q1. Your name\* James Nimmo

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library should provide a space for people to learn and innovate. It should include quiet spaces to work and spaces which can be used by community groups.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A new build incorporating modern building techniques and with climate change considered should be chosen over remediation. This will cost less than remediation, which is prone to going over budget and over schedule; but more importantly, provide the lowest risk in future seismic events and climate change. It would be unacceptable for the council to remediate the building only to have it significantly damaged in a future earthquake, a new build will provide better protection for this.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Timeframe
3. Future-proofing the library service
4. Climate change
5. Making the building safe
6. Accessibility
7. Te Ngakau Civic Square connections
8. Cost to ratepayers
9. Sustainability
10. Opportunities for partnership
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Well designed public facilities are essential to a vibrant city, however these can be anywhere in the city, there is no requirement to be on one precinct.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I haven't been able to access them due to not being open on the weekends.

Q16. Where do you currently live?

Mount Victoria

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Male

IP Address:

Q1. Your name\* louise long

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Library does not need to be as big as the previous one, and it should be more multi-purpose and multi-functional, able to host a myriad of community events, art events, corporate events, workshops, have social meeting places including a cafe. The council should in particular, consult with VUW and Massey as to how to best combine the library facilities across all three organisations to meet the needs of all constituents. WCC should consider how it might most affordably deliver this facility with the least risk (see comments below)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Ideally, the Council should not own. WCC is not expert at owning, managing or constructing buildings, and exposes ratepayers to a myriad of risks in doing so. WCC should endeavour to find an entity that would build the library building (it could, for example, be just two stories of public space with apartments or offices on top and a supermarket below ground) and then just lease the required space long term. This would give the council the ability to reconsider its needs periodically (eg: with a 10y lease with a right of renewal) and make adjustments, without incurring high costs. The council is then not tied up with the risks involved with owning a large physical asset which exposes ratepayers to a myriad of risks eg: climate risk, insurance risk, earthquake risk, building quality or suitability risk etc.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Opportunities for partnership 3. Future-proofing the library service 4. Making the building safe 5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Could it become an all weather venue with a clear rooftop? There are some amazing membrane options available now.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live?  
Khandallah

Q17. Which of the following ages groups do you belong to?  
50 to 54

Q18. Please choose the gender that best identifies you  
Female

	Respondent No: 854	Responded At: Sep 06, 2020 17:59:53 pm
	Login: [redacted]	Last Seen: Sep 06, 2020 05:45:15 am
	Email: [redacted]	IP Address: [redacted]

Q1. Your name\* Carolyn English

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library was a space that appeared to meet the needs of many different groups of people. With continuing slight rearranging, changing of open hours or services the library as it is will continue to meet our needs

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The costs for each option do not appear to take into account the social costs of not having a central library or the real costs of the pop ups

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- 1. Timeframe
- 2. Te Ngakau Civic Square connections
- 3. Making the building safe
- 4. Heritage
- 5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The square is about our civic buildings - we need them all back. At the moment our library is the most accessible and has the most windows of any of the buildings. Don't spoil a good thing.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I don't - they are very sad places with not enough room for all the people or all the books! We don't want to wait another 5 years for a very very expensive library when the current one can be updated and future proofed in a couple of years. Use the old capital E for some of the other uses - this is so under utilised.

Q16. Where do you currently live? Aro Valley

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Female

Respondent No: 855

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It was already lovely. Make it safe and leave it like it was.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We are entering the biggest economic crisis in decades. It's not a time to be spending huge amounts of money for discretionary purposes.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Cost to ratepayers  
3. Timeframe  
4. Te Ngakau Civic Square connections  
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Making the building resilient
4. Te Ngakau Civic Square connections
5. Cost to ratepayers
6. Accessibility
7. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Precinct needs to be integrated with the library visually at least

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Wellington is the capital city and needs a Central Library. There isn't enough at the interim branches but they are a presence during this time.

Q16. Where do you currently live? Kelburn

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Clear that libraries are more than physical spaces and looking at use of libraries during lockdown we can see that people living in Aotearoa/NZ are using libraries more than ever before, because even when library buildings are physically closed they've been using libraries online, they've borrowed e-books and audiobooks, and used online databases etc. Libraries are important civic institutions that make information available to everyone they are safe spaces where all community members are welcome. Places to help with digital literacy as well.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. Q8. Is there anything else you would like to tell us about the future of the Central Library building?

More parking if possible

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Access to coffee bar as before, but outdoor seating added

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

More access to international artmagazines

Q16. Where do you currently live?

not answered

Q17. Which of the following ages groups do you belong to?

80+

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Andrew Nicolson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library needs to be a hub for the community to share ideas and knowledge. It needs to be accessible and functional.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A new build is going to have a longer life expectancy, has a lower capital cost and a lower cost per year across the lifetime. A new build also allows the design to leverage current best practices without being constrained to operating within the current building envelope.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Making the building safe
4. Te Ngakau Civic Square connections
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It needs to be a space for the whole community. A place where people want to come and work/play.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Miramar

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I don't especially value the heritage of the existing building. It would be worth keeping the nikau palms, but I don't find the rest of the building of particular architectural significance.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Big spaces for children with interactive learning. Make it a real fun & inviting space for children to read & learn in. Maybe some iPads for children to work on also. Comfy large spaces for adults. Bean bags/other comfy seating. Upgraded computer facilities. Large dvd section with foreign film festival movies as well as mainstream movies. Foreign language learning section. Parents space for feeding/changing children. Cafe facilities with area for children/families.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. Q1. Your name\*

Lesley Moyes. Option three would be my choice for the future of the central library. The existing library is the most interesting piece of architecture in Wellington and has to be saved. To me it is the heart of the city.

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Some of the options listed could enhance the use of the library building. I am not sure what is meant by partnerships with other organisations because this is a library and its main function of providing books must not be overwhelmed or forgotten or replaced by technology.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7: You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Take this opportunity to return the cultural heart to our city. And do it well.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Heritage
3. Future-proofing the library service
4. Timeframe
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Island Bay

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Just somewhere to sit and read, would like to see more technical books, stem, seems to be a shortage at the moment

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A new build would give a new team of architects and engineers an opportunity to show their skills.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Accessibility
4. Future-proofing the library service
5. Cost to ratepayers
6. Timeframe
7. Te Ngakau Civic Square connections
8. Climate change
9. Sustainability
10. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q1. Your name\* Dharma Bratley

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It could utilise the environment better than the old building. It would be nice if it was more eco friendly but also took better advantage of the light and outdoor environment. The old building felt too dark and industrial. Having more space to sit would also be nice.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

1. Sustainability
2. Climate change
3. Future-proofing the library service
4. Making the building resilient
5. Making the building safe
6. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Often the space would be used as a warm and safe space for those between homes or those who couldn't afford to live in a warm dry place or much electricity. Having a space in the library for people to rest or get water, charge devices etc. that was away from the louder parts of the library or where people needed the seats/books to study or work with, and also giving them a bit more privacy would be nice to see

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 19 to 24

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Nick Johnston

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

[redacted]

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

For many libraries are a place to go to for social interaction and fill in time. The closed central library did not cater for this well. The library should be a space that is open in the evening and be near a mix of eating options and transport. The closed central library did not cater for this. The library should be compatible with commercial interests but not compete with these (the DVD section in my view came close to competing). The library should partner with them (for example the Aro Video store). A range of cafes would be good. The Council should consider if it is desirable to support certain retail/commercial activities. For example, could the library building have hotel accommodation above it (leased out) which rental supports the library. Also, should it offer cinema space to a commercial cinema entity. The current options are for one central library - why not consider more than one site with defined interests. For example the Food and Architecture resources could be in a food precinct and Environment resources could be on the Oriental Parade (old rotunda building). My main issue with the options that stay at the original building is that they are traditional approaches which ignore the opportunity to offer a service which has changed and is not likely to fit with what youth need. It seems to think a library is largely about books. I think this is no longer the starting point.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The suburban libraries are variable and don't have any identifiable difference - many functions could be shifted to them. Why do we need a central library? We need libraries in the city which meet users needs - these might be stimulation away from home, help learning a general skill (IT, health information, resources kids can engage with).

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

I don't think a central library model to be the best solution. The options ignore commercial partnerships.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is shady space. It has bad transport links. It does not offer a range of reasonably price dining options. The city no longer sees it as a civic precinct. I see it as space no longer offering stimulation/originality. The top of Cuba street has more life than the Civic Precinct!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are trying, they are experimenting with what a user may want.

Q16. Where do you currently live?

Wadestown

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The christchurch library is a good example.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Sustainability
3. Heritage
4. Making the building resilient
5. Timeframe
6. Cost to ratepayers
7. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Southgate

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Gender diverse/gender non-binary

Q1. Your name\* Ron Goudswaard

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I loved the current library (before it closed) ie the on site car parks, on site cafe, and all the existing library services, and its central location.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It already survived numerous earthquakes that "did for" several other buildings eg Redding Centre and Queensgate. The WCC built an earthquake proof works depot (to help with the clean up after a major earthquake) and promptly moved out because the rates/rental was too high. The country is in financial strife at the moment (covid -19) and likely to stay that way for at least another year. Architects always want to make a fabulous statement (panoramic full length windows with spectacular views) and all we need is a library that works.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Timeframe
3. Accessibility
4. Making the building safe
5. Making the building resilient
6. Other (please specify)
7. Future-proofing the library service
8. Te Ngākau Civic Square connections
9. Sustainability
10. Opportunities for partnership
11. Climate change
12. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? affordable parking

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I have lived in the city for the last 40 years and have used the library for most of that time but I have used the civic park entrance only half a dozen times. The car park entrance (lift) I have used hundreds of times.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Aro Valley

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Male

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Physical spaces for studying, individually or in groups with separate bookable rooms. Physical spaces for more creative work similar to the Toi Pōneke Arts Centre, e.g. rooms for music and dance. Programmes available to the public for basic computer skills, financial literacy and kids activities. Plenty of outlets for charging devices. Also, healthy vending machines for those wanting to stay in the library late after the cafe has closed.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. Q1. Your name\*

Ox Lennon

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Turanga library in Christchurch is a great example of a new, fit for purpose library. The library should have lots of space for working, space for families and children, services for young people. It should have support and services for homeless and other vulnerable people. It should have modern amenities and space for community events. It should be a community hub.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The central library is not actually a heritage building. It is not worth sacrificing functionality, tens of millions of dollars, and a decade plus of use for the heritage aspect of the building. Use, functionality and safety are the most important things.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Accessibility
5. Climate change
6. Sustainability
7. Timeframe
8. Cost to ratepayers
9. Opportunities for partnership
10. Te Ngakau Civic Square connections
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like the central location. I wish there was space to stay for hours and work. I wish there were more books to access.

Q16. Where do you currently live? Berhampore

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Gender diverse/gender non-binary

Q1. Your name\* Ruth Laugesen

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A library should be centred around books

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

This is an architectural treasure with a special place in the city's heart. Knocking it down should not be an option. I'm not sure why partnerships are mentioned repeatedly in this survey. The term isn't defined - do you mean private part ownership?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Heritage  
2. Cost to ratepayers  
3. Timeframe  
4. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets. Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The heritage values of the precinct are very important. It functions well as a space and the library as currently configured relates well to the precinct. No change is needed to that

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
They are a temporary measure and the sooner the main library opens the better.

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Female

Q1. Your name? Lucie

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Space for young people to study and all people to meet. Resources for people to learn, expand their skills and minds.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Te Ngākau Civic Square connections
2. Future-proofing the library service
3. Making the building safe
4. Making the building resilient
5. Heritage
6. Accessibility
7. Opportunities for partnership
8. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

With Midland Park, Civic Square is one of very few sheltered public spaces in the central city and is well located to act as a focal point for people in the central city. However, it needs more people and activities surrounding it, including commercial activities (eg cafes) to bring life to it.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Crofton Downs

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Female

Respondent No: 881

Q1. Your name\*

John Fleming

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I believe a central library as a focus and meeting place is important. A library is more than just a depository of information it provides a strong focus for community and can provide a multitude of other functions eg seminars and community based events. Given the current location it should be more connected with the outside eg Civic Square

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I am totally against any remediation of the current building except to retain certain concepts from the current building in any new building eg the open plan design inside between sections and floors. As a Wellington rate payer I am finding rates an extreme burden although I am prepared for the cost of a new build but just cannot accept the very high cost of remediation work. We should build a new Library that copies the best of the current library but makes it better ie perhaps better connected to the outside area in civic square, having a garden area and easily maintained water feature. It could be more eco friendly and take more account of the digital age.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe
3. Te Ngakau Civic Square connections
4. Climate change
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. **Appealing**

More windows to help connect the library visually to the square and surrounding streets **Appealing**

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The new library could inject an important new dynamic into Civic Square which does not happen with the current library. The square needs to attract people although I do like the current openness. It would be good to have it more connected with the small corner park to the north and have the structure under the bridge restored for use say as a pop up market, exhibition or performance space.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?  
The Brandon and Panama streets library is very well designed and user friendly however for me it is preferable to have one large library to create a community focus and provide all services.

Q16. Where do you currently live? Melrose

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Male

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Build a new one that best meets today's and our guess of the futures requirements

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Timeframe
3. Te Ngakau Civic Square connections
4. Future-proofing the library service
5. Making the building resilient
6. Accessibility
7. Making the building safe
8. Sustainability
9. Climate change
10. Heritage
11. Opportunities for partnership
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The whole Civic Square is a fantastic under-utilised space. Having the opportunity to reimagine the library and how it connects to this space, the city and the harbour beyond is a once in a generation opportunity. Do it once, do it right.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I literal love the existing building. It is pretter than many clubs. Love the flying windows, the six custom clocks, the detailing around the expresso machine and more. I come in a lot and I enjoy observing the tutors and their pupils and the students in groups, a long snake of study bathed in space and light. Very relaxing.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I trust you.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? there was a fault in the numeral system. Safety and Heritage are the most important to me.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I want to feel safe. I have been homeless myself but I don't want crazy in a pretty shell e.g. Yelling, arguing, loud music, utube. Anti social behaviour in a shared space.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Brandon Street is very open-plan, down stairs, the open cafe and the democratic work stations for the staff to walk around.

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 60 to 64

Q1. Your name\*

Michael Mellor

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It needs to provide at least the same level of library services as were available before the central library closed, both as a library and as a community facility. The library was a place to browse (both hard copy and digital items), borrow, read, have a coffee, spend time between meetings, go to the loo, etc etc, all in a welcoming, non-commercial (except for the coffee) environment.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It is an important part of the Civic Square environment, and needs to function as such.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Sustainability
3. Accessibility
4. Making the building safe
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

Providing a proper library service - absolutely astonishing that this has not been included as an option!

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The library is an essential part.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

More space for books and magazines.

Q16. Where do you currently live?

Option 42

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Andrew Cutler

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I would like to see the central library reinstated as the primary function of the remediated building. The central library should focus on provision of the collection, reading and study spaces, research and advice, with specialist areas for children. Increased online access, audio visual (including the recorded music / video collection) would be valuable. Some community space / cafe space should be available, but not the focus. A mixed use facility would diminish the role and value of the central library - which should be an exemplar of what an excellent modern library is like.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Retaining as much of the Athfield building as possible is essential. It is easy to lose buildings and the genius behind them. The library is a keystone for the civic square and the overall design concept should be retained.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Heritage  
3. Making the building safe  
4. Te Ngākau Civic Square connections  
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

A reinvigorated library building - that draws thousands of people to civic square every day - is essential to the success of civic square. Some additional linkages to the square would be valuable, but not to excess. The building must work as a library first and foremost.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Te Awe Library Brandon and Panama Streets

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

I like Te Awe library - easily accessible and with a useful collection. I found the Arapaki facility small, too busy to spend time in, and generally unappealing.

Q16. Where do you currently live? Wadestown

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Male

Respondent No: 890

Q1. Your name\* Chris Quirke

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library was the best public service Wellington had. It does not need to be redeveloped as it provided a perfect space for reading and learning. Most people will not use it to access technology services as those services will be provided in their homes.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If we are without the Central Library for a long period of time we risk losing the connection it had to people's lives, and a generation of people could miss out on the benefits it provided. The pop-up libraries were too small and had a very small selection of books. The pop-up library idea was not a good one and was not well executed. Finally, rate payers have been asked to pay more and more and we have received less and less service; The Central Library was one of the most valuable services provided by the WCC, but you have not given it the priority or urgency that the restoration of that service deserves. The Central Library also brought people into the city and the loss of it - I assume - has meant that many less people have come in to go to the library and also visit neighbouring retail areas. We need the Wellington Central Library back as quickly as possible.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Timeframe 2. Climate change 3. Cost to ratepayers 4. Making the building safe 5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? WCC has not executed past projects at all well (ref. the Town Hall strengthening), and if the scope of this project is limited (Option A) there is less risk there will be a massive failure.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

We need to retain the existing bridge to the waterfront, and there needs to be focus on completing the strengthening of the Town Hall! This space is a very nice adjunct to the library, but because of the building work on the town hall and the library it has become very isolated.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are terrible. The selection of books is awful, the space is tiny, there are very few desks, and they are very poorly laid out. I loved the Wellington Central Library, but the interim CBD branches are an absolute disgrace.

Q16. Where do you currently live?

Strathmore Park

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

Phillip

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September).

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Mainly, it should be a library, with books and other items that can be borrowed. The services that were on offer previously were sufficient. The ebook (Overdrive) facility is essential.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current building has no historic or architectural value. If it's more economical to do a complete rebuild, then choose that option.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Cost to ratepayers
3. Timeframe
4. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

The new building should be attractive, full of light, and functional, unlike the current building. Have a look at the new Christchurch library as a model.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Neutral

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

No comment, except that the area should be revived as soon as possible with more attractive and useful buildings that are now there. Ideally, the new library should fit in with the City Gallery and the Town Hall.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Nothing to like. The service is limited and the setup is obviously makeshift.

Q16. Where do you currently live? Newtown

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Male

Respondent No: 892

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Advice from library professionals as to what literary, visual, electronic, audio and educational services and resources are state-of-the-art and in demand. Flexibility in conduits and physical spaces to allow for adaption and growth.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It is absolutely possible to strengthen and refit the Athfield building without wasting huge amounts of ratepayers' money with grandiose schemes and empire building.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- 1. Accessibility
- 2. Making the building resilient
- 3. Cost to ratepayers
- 4. Future-proofing the library service
- 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

A focus on a workable usable central public library and the avoidance of grandiosity and a vanity project.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The present library building was built with access and a pathway through the library to Civic Square. Just get on with re-opening it for public use.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I just want my library back, as it was, a place where our community can borrow items, for pleasure or study, a place where people can meet and discuss, where our children can enjoy a massive array of books, far more than can fit in anyone's house. I want my library to be a place that people enjoy going to on windy, rainy days to hide from the weather, where they can wander the shelving looking for a book on 16th Century Tapestry and come out with a book on fixing the clutch on a 1972 Ford Capri, and a DVD of a 1970's TV series, long since cancelled and a Calvin and Hobbes Collection, such is the power of seeing the library collection in front of you. I want my library to be at least what it was in March 2019. I am not terribly sure what "partnerships with other organisations" means, and this should be made clearer. I do not want my library partially or fully privatised. I want my library returned to working order as quickly as possible, we have already been without a decent facility for 18 months. If the payoff between speed and cost is building a new library on a new site in the Civic Square, that would be my preferred option.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The Central Library is a very important resource for Wellington. It concerns me greatly that our elected members and our Council appear to have been strangely silent on this matter. In a 100 years we may choose not to have a physical building to store our collected books and other things, but until then, please just get on and give us back our Central Library.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Cost to ratepayers
3. Making the building safe
4. Making the building resilient
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is nice to have the Civic Square on summer days to sit on. "Democratic space", sounds a bit pompous, presumably you mean a place where people can gather and listen to others talk about something, or watch a performance of some kind? If so, yes, it's a handy venue which is mostly sheltered from the Wellington wind.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The staff are their usual friendly selves. These interim libraries are fine, but offer nothing like the centralised collection we are used to and miss so much.

Q16. Where do you currently live?

Mount Cook

Q17. Which of the following ages groups do you belong to?

55 to 59

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I central library shouldn't be about an architects legacy, it should be about providing the best place for the community and the sharing of knowledge.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Cost to ratepayers
3. Opportunities for partnership
4. Te Ngakau Civic Square connections
5. Sustainability
6. Making the building resilient
7. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

With all the issues associated with the town hall and council building and the possibility of a super city, it may be worth considering the bigger picture and reconsidering the whole square precinct for redesign. Wellington could have a stellar precinct that would be the envy of others.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Sorry, they feel temporary and sterile (lack community soul). It might be because they are not bespoke library buildings.

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Katie Shaw

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Heritage 2. Sustainability 3. Making the building safe 4. Making the building resilient 5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

not answered

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It is not acceptable that WCC closed the library in the way they did. It didn't collapse in the way that the port buildings did. It was an over reaction and it is also not acceptable to take so long to get to this stage. The library was fine and fit for purpose before being closed. If it had remained open it would still be operating as it had when first built with thousands and thousands of Wellingtonians still using and enjoying the facilities. The library should be back operating in the shortest possible timeframe with minimal change.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Timeframe 2. Cost to ratepayers 3. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Just get the closed library open as soon as possible. Libraries are all about books and all the books are still in the closed library. Not good enough.

Q16. Where do you currently live? Khandallah

Q17. Which of the following ages groups do you belong to? 75 to 79

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Jo Johnstone

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It could be a capital city hub for community groups, literary events, school kids to do their homework & projects, and a safe space for those needing somewhere free, warm and full of useful information.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think it's more important to have a great library for the long term than get hung up on retaining a current building that will cost more to get up to structural integrity. The Christchurch library is outstanding and something like that would be a real attraction in downtown Wellington.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building safe
3. Making the building resilient
4. Cost to ratepayers
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It could be more of an ongoing well-used community space for things like markets, promotions by community groups, art projects, and pop up cafes/food cards

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6 Te Awe Library Brandon and Panama Streets  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like that they are available in the CBD rather than no library at all, however the range of books is limited due to the constricted space/choice of stock. It is very useful as a location for picking up reserves. I particularly like Te Awe as it has far more books than Arapaki, is open longer hours, and has a much better kids section.

Q16. Where do you currently live? Strathmore Park

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Female

Kim Crawford

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The current Central Library was very functional as proven by 3000 people per day using it. It needs to be used now, not in 5 years or 10 years, right now. It needs space for people to hang out after school, to study, to chat quietly, for kids and teens to stop in as needed, for parents and kids to come in, for story telling, for everyone to sit and read, for homeless to hang out and for anyone in the community to stop and feel safe. 3000 people per day won't fit into the pop ups we have now, a whole generation is missing out and is forgetting or not knowing the benefits. This whole process is too slow and it is incredibly upsetting.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Cost to ratepayers
3. Heritage
4. Te Ngakau Civic Square connections
5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision?

Please do something quickly to save the culture of our central library. A generation is at risk of losing this amazing resource. As proven by the Town Hall - people have no idea how we use this as it has taken too long and has taken too much money.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Neutral

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The current library has light from so many windows and is amazing architecture. You would be incredibly irresponsible to knock down this amazing building.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
We need our central library back asap. I haven't accessed the pop up libraries very much as they are too small and have a poor selection. It is difficult to get a seat to have a comfortable read.

Q16. Where do you currently live?  
Strathmore Park

Q17. Which of the following ages groups do you belong to?  
40 to 44

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Central library facilities along with multi purpose spaces

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Multiple use, green but functional and still affordable

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Cost to ratepayers
3. Timeframe
4. Future-proofing the library service
5. Making the building resilient
6. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Focus on multi use.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Mainlain service centre with the central library

Q16. Where do you currently live?

Northland

Q17. Which of the following ages groups do you belong to?

Prefer not to say

Q18. Please choose the gender that best identifies you

Gender diverse/gender non-binary

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think our library need to be less a "place for books" and more a communal place for learning outside of formal schooling. This could mean a lot more classes, workshops, social and individual places to study, read, listen to music, be artistic, scientific, or in general explore the world through play. A physical library layout should support such varied interests and passions.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one  
Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I chose option E because the time to open is fastest, costs to taxpayers lowest, and it enables a full redesign of the building. These all seem very strong points in its favour-option D is also appealing for similar reasons although it would take longer to open. I am concerned option C is described as the preferred option when it costs more, takes longer to open, and leaves us with a current building that is already known to have faults, which will be remediated at great expense. This doesn't seem logical and seems to be for sentimental reasons to hold onto the existing property-I do not think that is a wise move to future proof the library for the next 50 to 60 years, and I also think that if the Council selects that option it could be strongly critiqued by the public for good reason-it costs more and provides less benefit.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Cost to ratepayers
3. Making the building safe
4. Timeframe
5. Making the building resilient
6. Te Ngākau Civic Square connections
7. Climate change
8. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Its a nice public space but that doesn't mean the library needs to sit on that square. If we had an excellent library in a different location (quicker and at lower cost than other options presented) and reimagined what could be in that location instead, that could give the city new options to reinvigorate the precinct as well as give us a good library relatively quickly

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The one on Manners is nice, good layout-obviously a small space so not much more that could be done with a small space.

Q16. Where do you currently live? Mount Cook

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Male

Respondent No: 904

This could include anything from physical spaces, services, programmes or partnerships with other organisations.

open spaces for people to meet, quiet places for people to work, a safe haven for all types of people

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

This is such an important part of Wellington. Please get it right. And ensure that this isn't a case of cost blow out so that the price goes up, this is the most expensive, don't let it become even more so.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Accessibility
3. Future-proofing the library service
4. Making the building safe
5. Cost to ratepayers
6. Timeframe
7. Sustainability
8. Te Ngakau Civic Square connections
9. Opportunities for partnership
10. Heritage
11. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live? Johnsonville

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Harrison Woolf

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

it should form as a place for public education. New adult education would be a great addition

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Opportunities for partnership
5. Accessibility
6. Climate change
7. Sustainability
8. Timeframe
9. Cost to ratepayers
10. Te Ngākau Civic Square connections
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

A citizens advice bureau on site would be great

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The fresh modern look

Q16. Where do you currently live? Berhampore

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Male

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A family friendly and accessible space for people living with disabilities that is welcoming for diverse people of all cultures, identities and socio economic backgrounds. A safe space for our taumai, vulnerable whanau to be in and feel comfortable in. A place where library staff are valued, respected, have good working conditions and the WCC works in partnership with unions to achieve this. A space that reflects and tells the stories of mana whenua and tangata whenua. There should be a cafe, not a chain one - something like Clarks, and colocation with community services that would like to be in the space, like CAB, or volunteer wellington or whatever.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Sustainability
2. Making the building resilient
3. Accessibility
4. Climate change
5. Cost to ratepayers
6. Timeframe
7. Heritage
8. Future-proofing the library service
9. Te Ngākau Civic Square connections
10. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

This space is historically important as a location for protest, standing witness, performance, having fun, and bringing people together (eg: Out In the Park). The sooner it's revitalised, the better. Wahoo!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The staff are amazing. The ability of library staff to pull together and deliver the pop up libraries in such short time frames was really impressive. However, Arapaki is completely soulless - there are no plants, it's too bright, it's claustrophobic and not good for taking kids to, the collection is not great, and it's cramped. Also the staff don't seem to have anywhere to sit down (unlike the other WCC staff around the corner, who have desks). He Matapihi is really cool - but it seems to be underutilised, as not many people I know have visited it. Te Awe has a good kids space, but the layout is weird, because the kid space is right beside the doors, and this is a bit nerve wracking with small kids. I've noticed that the staff at Te Awe also come up and ask if they can help, which is well-intentioned (and maybe something they've been instructed to do), but it's a bit invasive, as I like tuning out and looking for books I want. Others have shared they feel this way with me too. When I've asked for help though, the staff have been fantastic. I know it's a new space, but it feels quite cold as there isn't much bright art on the walls, or fibre art, or indigenous art on display. Or plants. There should be after hour return slots at both Arapaki and He Matapihi. The collections are pretty average, on the whole - lots of CJ Box, Nora Roberts, Karin Slaughter, not so much diverse authors, black, indigenous, people of colour or queer writers. This seems to be the case across most library branches though, as we also visit Brooklyn, Island Bay, Miramar and Kilbirnie. It's hard to find music to borrow (on CD).

Q16. Where do you currently live?

Vogeltown

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Female

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

With more people predicted to live in the CBD I think you need to consider how the library connects to or provides green spaces for the community and how it can provide a safe safe for Tamariki to move, explore and connect with nature.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Consider replacing the central library space with green civic space. Invest in library services within local communities. You could consider spending 10million on redeveloping 10 libraries across the city rather than putting all your eggs in one basket. Libraries within communities create connections to and with the people who live there. The Johnsonville library has been a huge improvement to Johnsonville and has created a location for the community to connect. Why not offer that service and experience to lots of communities across Wellington for the same cost as building one huge library? Who knows what the post-covid world will look like. Imagine if you design a huge library that can often only ever have 100 people in it? With more people working from home, what does the cbd become? Do more people need access to services where they live rather than where they work?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Future-proofing the library service
2. Cost to ratepayers
3. Sustainability
4. Making the building safe
5. Accessibility
6. Making the building resilient
7. Opportunities for partnership
8. Te Ngakau Civic Square connections
9. Climate change
10. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

A safe green space for children to run and move. Especially for children growing up in the cbd.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Access to library service in the cbd.

Q16. Where do you currently live?

Johnsonville

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

We need a traditional library space with borrowing facilities but also community spaces within the building. All with Internet connectivity and access available to all to use study areas.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It needs to have a cafe open to the public. Clarke's performed a great function as a meeting place.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Making the building resilient
4. Accessibility
5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is a windswept space between 2 access points to the library for me and my family. Always feels like a thoroughfare and never a destination in its own right. I think the space needs softening, currently feels very cold and unappealing.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I was happy with the range of services provided in the existing central library building before it closed.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Cost is paramount. The cost of a new build should be more easily assessed than remediating the existing building

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe
3. Making the building resilient
4. Future-proofing the library service
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The Te Awe branch is very nice. Arapaki was an acceptable compromise to quickly reopen a city library branch, however, it is very small

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Male

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

As the nature of information changes from purely books to other digital media, our libraries, if they are to continue to exist, need to look forward, and be purpose built. What should the library of 2070 look like? The library has the opportunity to be about much more than just renting printed books, and can be a place people go to meet, exchange ideas, to learn, etc.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Either of the new build options seem to have the best cost-benefit ratio in my opinion, in terms of creating something that is safe, fit for purpose, inclusive and accessible, and forward looking. I understand the concern around loss of heritage (and the paperwork involved with that) but think it is worth it in order to get something truly amazing, and not just shoe-horned into an out-of-date space with terrible access and light. Given that a new build is theoretically cheaper than the high-level remediation, with potentially far superior benefits in terms of utility, design, safety, and climate resilience, it seems like a no-brainer.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building safe
3. Making the building resilient
4. Accessibility
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

As designed, the square is walled with 'old' buildings acting as hard barriers to the edge of the space. The opportunity with a new build is to open up one side of the square by creating free-flowing space between the library building and the square itself, making the library inviting to those in the square, and allowing the civic area to be physically and philosophically more open and inclusive. The council chambers and the city gallery are both imposing walls that shut away the goings-on inside those buildings, rather than welcoming people in to take part.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I haven't needed to visit them as I do lots either online or via the Karori branch. The inclusion of the child-friendly cafe and convenient parking underground were both key drawcards for me that meant the library was a great utility regardless of whether I needed new books that day (though often would end up getting them anyway). So I guess, the convenience of folding library use into other parts of life was key here.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 35 to 39

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

library needs to be a space for gathering, small informal meetings, community learning, needs to be open, and connected to the city. it is also wrong to just think about one big central library. we should have a local network of libraries around the city, meaning people can stay local. this is better for transport and local communities. the central library then doesn't need to be so large.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

the current building is actually not a very nice building. it's bulk and design means it does not connect well to the street, and is not what we expect in a modern building. a lighter, smaller and better connected building is needed.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Sustainability
3. Climate change
4. Te Ngakau Civic Square connections
5. Future-proofing the library service
6. Accessibility
7. Opportunities for partnership
8. Making the building safe
9. Making the building resilient
10. Heritage
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

better pedestrian access, make the whole area more open, better wayfinding to get there, including from public transport.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

johnsonville library is a brilliant building. at the right scale for local communities. replicate these around the city rather than one huge expensive central library. need to get the balance right. save money centrally and invest in suburbs, where communities are. this is a more sustainable model. don't try and save that ugly monstrosity if a building.

Q16. Where do you currently live? Newlands

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Male

IP Address:

Q1. Your name\*

MK Wong

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library should be a welcoming, safe space with a combination of practical conveniences and comforts for research, reading, exploring, and educating. It must have quiet areas for studying as well as spaces where youngsters are free to interact without disturbing others. Good natural light and an integrated cafe are important features.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I don't consider the current library building to be a "heritage" building in any way. I would like to see the most cost effective method employed to get a new library in operation as soon as possible. A capital city without an excellent central library is a city truly in deficit. The only things that I would like to see preserved are the Nikau palms.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe
3. Timeframe
4. Future-proofing the library service
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Neutral

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The fern orb sculpture is an elegant piece of art that captured the attention of all on entering the Square. Please bring it back (installed safely) and remove the astroturf eyesore which certainly doesn't belong in the context of Civic Square.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

There is nothing I like about Arapaki, thanks.

Q16. Where do you currently live? Newtown

Q17. Which of the following ages groups do you Prefer not to say  
belong to?

Q18. Please choose the gender that best identifies Female  
you

Respondent No: 913

IP Address:

Q1. Your name\* Jane Brooker

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Collaborative, inclusive spaces to meet the needs of our diverse communities. Showcasing digital and physical collections, meeting rooms, event spaces, maker spaces, cafe, zones for quiet study/research, children's zones where emphasis on play and informal learning ...

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I support a new build because the old building remediation costs more and has a shorter lifespan. Reference iconic design elements (e.g. curved frontage, nikau palms) into a new building that is future-focused and flexible

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Te Ngakau Civic Square connections
4. Cost to ratepayers
5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I would like to see the precinct revitalised as the heart of the city (socially, culturally, democratically)

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre
He Matapihi Molesworth Library
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I think they are really good interim options

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

Respondent No: 914

Q1. Your name\* Shamila

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

\* an open, inviting, inclusive space that partners with other relevant organisations to create a community hub - the old central library provided this well \* informed and welcoming staff who know about the collection, the services and the technological tools, and who also know their community

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Relocate the Central Library to a non Te Ngākau Civic Precinct site

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

\* I have read proposals A, C and E closely. \* Option C: 50 years of building life and A+ safety are not, in my opinion worth \$199mill to ratepayers especially in the post-Covid environment. It seems likely in 80 years time or so, the shore-level parts of Wellington City, including Te Ngākau, will have to deal with the reality of sea level rising. It's unwise to spend so much money on achieving the highest quality building in a zone we will have to retreat from. I think this is an opportunity to create another centre, somewhere else, with a new library at its heart. Also, I'm skeptical about the 100%+ safety assessment: I am pretty sure that some of the buildings that came down in the 2016 earthquake were built for utmost security and safety in their time (eg. Freyburg House on Mulgrave St, demolished after the 2016 earthquake, had base isolators). And some buildings that were unaffected by the earthquakes were built decades ago, with old technology. Finally - May 2025!! We can't be without a central library for so long (and what are the odds of that construction deadline being pushed out further? Extremely high, or just very high?) I work in the library of another city council, and I meet Wellingtonians every week, who come in and ask if they can join because they have no library. (And I tell them - yes you do, you have many small and wonderful little libraries - but they just don't feel this is the same). A central library is only slightly about the beauty and magnificence of its building. Much more important - the true value of a library - is that it is open and it is everyone's. Now more than ever, when people are scared, are losing jobs, can't see a future, we need this place that freely offers education, distraction, comfort and unity. 2025 is way too late. \* Option A: If you have to go with one of the options, this is the one. Don't spend alot now. The old library worked fine, was safe, and had lovely programmes and stock. No-one was hurt in it, in either of the major quakes we've had since its creation. We miss it and love it. Give it back to us as soon as possible (sooner than May 2023 please - surely this is a top priority). Yes, plan a better, stronger one for the future when that location will not be viable. \* Option E: No to a rebuild elsewhere in Te Ngākau; if we're staying in the civic precinct lets go with the lovely building we already have. \* Relocate the Central Library to a non Te Ngākau Civic Precinct site: Yes please (but if it is going to take ages, please fix the existing one to a useable level while we wait). How about somewhere near Pukeahau? I don't know about availability of land or possible adverse conditions, but the area seems like a potential city heart.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Climate change 2. Timeframe 3. Cost to ratepayers 4. Accessibility 5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I like the idea of a civic square but I often found Te Ngākau a bit barren. I kept waiting for it to blossom but it never did. I love the services in it - library, gallery, MFC, Capital E - but somehow the wonderful parts didn't add up to a great whole. I think that creating a genuine heart to a city is deeply worthwhile, expensive and resource intensive. Please choose the right spot. Climate change is real. It's a bit like the sewerage pipe issue: the deterioration happens gradually, it's largely invisible, and spot issues can be patched over. But as some point there will be nothing we can do but get out of the way - and what we'll want at that point, is to have our city treasure (libraries, museums, galleries) already somewhere safe.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply      I have not visited an interim library

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

I work almost full time in another library network since June 2019. Before then I was a daily user of Wellington City Libraries - mostly the Central library, and after that closed, my local one in Wadestown.

Q16. Where do you currently live?      Thorndon

Q17. Which of the following ages groups do you belong to?      45 to 49

Q18. Please choose the gender that best identifies you      Female

Respondent No: 920

IP Address:

Q1. Your name\*

Tyler Green

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A room dedicated for 3D printing and CNC machine with a room for digital skills like coding and 3D modeling. Along with classes for people of all ages. I have experience and interest in all of these and am more than happy to be a part of it!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Opportunities for partnership
3. Climate change
4. Sustainability
5. Accessibility
6. Making the building safe
7. Making the building resilient
8. Heritage
9. Te Ngākau Civic Square connections
10. Cost to ratepayers
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I love the accessibility, the friendliness and the overall air of warmth, knowledge and ability to study.

Q16. Where do you currently live? Outside Wellington City

Q17. Which of the following ages groups do you belong to? 19 to 24

Q18. Please choose the gender that best identifies you Male

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think at a minimum it needs to provide all of the space, facilities, and amenities to the public that it previously did. I am hopeful that a new build would not be a box but aesthetically pleasing and interesting. As a bonus, offices and meeting rooms, bookable by community groups would be nice.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Just move faster to make it useable again. If you have to tear down buildings and start over due to earthquake issues that's fine. If you want to save buildings and go for strengthening that is also fine. What you shouldn't do and annoys people is choose one path realise how expensive it is and then stall for years. Whatever the strengthening cost estimate is double it and if you can't swallow that cost go the other way. Strengthening is always going to be more expensive than estimated since people quoting the work have to keep the value low to get the work and end up tagging out anything unforeseen. That leads to "new information" and "additional costs" that really could be presumed in the planning.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? not answered

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

'A palace for the people'. A place people feel they can be, recreate and enjoy without feeling they need to buy something, a true community centre. Books of course, but increasingly important will be other forms of information. In the past 10 years alone the internet has become the primary source for music, news, audio-visual media, and increasingly written works as well. It seems unlikely this trend will reverse over the coming 50 years, and the attitudes and expectations of the people using the library 20 years from now will not be the same as the primary users before the library closed. I think the redeveloped central library should place significant emphasis on space for people; quiet spaces for reading and study, and social spaces for conversation, groups, and gatherings. Books needn't be the primary occupier of space. Librarians will continue to be extremely important, especially in teaching people how to access information. For example, teaching people how to use e-readers or how to access library licences for various online media databases (Netflix, Pressreader, things of that nature). Spaces for all ages should of course be made available. I also like the idea of a public lecture/presentation theatre, for interesting (ideally free) public talks and discussions. A place where everyone feels comfortable coming to enjoy themselves for 5 minutes or 5 hours.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

With costs be approximately equal, it seems the goals of a more resilient and otherwise future-proofed building can be best achieved by a new build, potentially on a less precarious piece of land. In 50 years time the unstable subterranean level of the current library could well be submarine.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Making the building resilient 3. Sustainability 4. Timeframe 5. Te Ngakau Civic Square connections 6. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

More desk-based seating would be nice, but they are friendly, accessible, and convenient.

Q16. Where do you currently live?

Northland

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think the priority is to open the library as soon as possible. It was a highly valued, functioning and well used library. After it is open all the possible new services and future options can be thought about in a considered time period. They may not need to even happen in a central library.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I want the library open. I do not care if there are visible ugly brackets. If we Wellingtonians want our buildings open and our rates reasonable we may just learn to live with the 'Wellington look' in our buildings. I am hopeful that every year we will learn more about the particular structural problem affecting the library. I was working in the library on the afternoon of the 2013 Lake Grassmere earthquake - a 6.6 magnitude quake at 2.31 p.m. on Friday 16 August. The building survived this without damage, I felt safe, and it was a significant earthquake for Wellington. So I think the low level remediation is a good option.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Timeframe  
2. Cost to ratepayers  
3. Making the building safe  
4. Heritage  
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

05. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Many programmes and opportunities could and will be offered. But the current library services and what was offered in the current building until its closure, will continue to offer all these programmes, opportunities, partnerships and more. I do not accept the insinuations of poor services and pretentious babble in the consultation document about the role of modern libraries in cities. When I think about how much the services provided by the current library building have evolved and diversified in the nearly 30 years since it was opened, and saw the pleasure of all generations of users of the central library up till its closure, I am quite confident in knowing that these services etc will continue to evolve for the next 30-50 years if we just get a functioning building back again. Beyond this I can't predict because the likely effects of sea level rise and climate change will probably make so much of the central city uninhabitable that we will have to plan quite differently.

06. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

07. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

08. Is there anything else you would like to tell us about the future of the Central Library building?

I choose the quickest and cheapest option because it is the least poor one. I think the most important need BY FAR is to get the library safe to reuse AS SOON AS POSSIBLE. This will also help to revitalise Te Ngakau Civic Square. It is not an ideal long-term option but I don't think any of the other rebuild options are any better or more sustainable but are just more expensive, will take longer and have more potential for costs to expand. The implications of climate change on the central city make all development close to the waterfront post about 2050 very problematic. I totally reject Options D and E because of the unsustainability and carbon costs of demolition of a basically sound building. It would be totally irresponsible for the Council to do this. The costs for Option A seem very high when there were credible estimates of around \$40-50m for fixing the structural issues and doing a basic base isolation or foundation strengthening within the current basement level. I would hope that the detailed costing stage will identify cost savings rather than cost blowouts to deliver least cost solutions to the problems that we know exist rather than inventing problems that seem more to address the ideology of information services. I accept that there were some issues with accessibility. I would hope that these can be addressed reasonably well within the least cost option. I am prepared to accept lower standards of fitout design to get a basic, accessible library reinstated as soon as possible.

09. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Climate change
3. Te Ngakau Civic Square connections
4. Cost to ratepayers
5. Heritage

10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It was the most important civic space in the whole city up until the earthquakes and the progressive closure of buildings. It should continue to be the most important civic space in the medium term, through the rapid rebuild of the library, Town Hall and hopefully at least one of the civic administration buildings. Also making the wonderful City to Sea walkway resilient for the next 30-50 years, that is essential to preserve the connection to the waterfront. But in the longer term is probably not tenable given likely sea level change. But because of all the other planning and infrastructure issues for the city, planning for beyond 30-50 years has to be longer term.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library  
 Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are well done but they don't seem like real libraries to me.

Q16. Where do you currently live? Vogeltown

Q1. Your name\* Tasha

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library could be restful, light, and quiet(?), with a cafe, a broad range of reading material, and a purpose-built colourful, cosy, and tactile area for kids--with no screens! - young kids 'shouldn't' come to the library to engage with a screen as their primary focus; book exploration could be encouraged via a programme of visiting authors and book-or-writing related activities. Access to outside; with courtyards, bigger windows - more than previously, would be good. \*\*A covered walkway to the city art gallery, and some shared enterprises with the art gallery - e.g. mixed genre/ mixed media exhibitions... that tell stories of Wellington and Wellingtonians (NZers) past and present, across visual and written or mixed formats. I have lots of ideas around this! There could be study areas which are acoustically quiet, light, and laptop-ready, with power-points. An increase on the previous range of academic books would be good; many people study from home, either remotely with overseas universities, or self-induced academic study, so, access to a (more) vast pool of academic / theory books would be great. Also specialist magazines and periodicals. The library could have various different kinds of smaller spaces around or amidst larger shared spaces (that is, sub-spaces that illicit different atmospheres and acoustics perhaps-for various more intimate purposes, for example, social and private book-or-idea-related activities, groups, classes, talks, presentations, exhibitions.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please hurry! So many of us miss the library

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Making the building resilient 3. Te Ngakau Civic Square connections 4. Sustainability 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

perhaps some work on weather proofing it a bit?

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

I don't like them. They feel like pop-up shops, and the locations are unattractive and in accessible re parking and other factors

Q16. Where do you currently live?

Hataitai

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Chris Bucklar

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Library services, and the way the public use the library buildings themselves, have already changed significantly in the lifetime of the current Central Library building. I would like to see the opportunity taken to create a physical library space which is adaptable enough to accommodate services and programmes we cannot necessarily envisage at present. A design which addresses and mitigates future climate change impacts, and aligns with best practice accessibility standards should be the bare minimum, not an optional extra. I do not believe that any option which does not take future climate change impacts or accessibility into account should be considered an option at all.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I am somewhat bemused by the stated disadvantage that a rebuild '[d]oes not retain the existing building and would need to resolve the heritage status of precinct in the future building and the potential future heritage scheduling by Heritage New Zealand (may also impact on timeframe)'. The consultation document acknowledges that the current Central Library building is not as yet a Heritage site, and honestly the use of the phrase "heritage status", in relation to a 30-something-year-old building is laughable.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Making the building resilient
3. Cost to ratepayers
4. Accessibility
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Johnsonville

Q1. Your name\* Jon Harris

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The fit-out design of the central library was fine - most of the space for lots of books to browse with enough space to find a spot to read. The fit-out design of the last two council libraries is appalling, PLEASE DON'T MAKE THE SAME MISTAKE. The Johnsonville library and the latest interim library in Brandon street hardly have any books. Most of the space is wasted (the council might call these living rooms and refresh spaces?), the signage is poor and the few bookshelves there are only half-height, as well as further reducing the number of books, they make it difficult to find books when they are all below eye level. This design failure is bad enough in normal times, but when we are missing our Main central library it is unforgivable. Libraries are primarily for books!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Of the listed options: Option E is the best as it is maximum resilience, less cost than the high level fix (option C) even without income from the existing site, and about the same time to construct. Option D is 2nd best for similar reasons. I cannot understand the mention of the heritage value of the Central Library building. I love historic buildings but this is not one, it was less than 30 years old! A new building could even be built in a similar style so there is no heritage issue. However, the best option is not listed. The council should not be risking such significant taxpayers funds on building construction projects. The council should lease building space from professional building owners who know what they are doing. The council has comprehensively proved that it does not have the capability for projects like this and it is an unacceptable risk of public funds to speculate in this space. Evidence of the council's lack of capability include: - The council's building portfolio have proved to be the least structurally sound in the Wellington region. The Council Administration building, Capital E and the Central Library buildings all lasting less than 30 years before being closed due to be structurally unsafe. The council should be so embarrassed about this appalling waste of ratepayer funds through these failures that they should not be even considering constructing more buildings. The risk to ratepayers funds is just too high, even when excluding the council's track record with budget blowouts during construction. - The council's track record in designing library fit-outs is appalling with complete failures in the last two libraries to be opened. They are cafes and leisure areas with a few books in the corner. - The council's choice of preferred option shows further incompetence. The most expensive option with no advantages over the new building options. The only responsible thing to do is to rent library building space from a professional commercial landlord so the council is not carrying the risk of further failures or the cost blowouts from construction.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Timeframe
3. Making the building safe
4. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? 4 = Financial risk to ratepayers by the council owning the library building (continuing the abysmal track record of council owned buildings and council construction projects)

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets  
He Matapihi Molesworth Library

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

As above, the fit-out designs are a massive failure. When a shortage of books is our largest problem, the design has achieved as few books as possible. Who thought that a cafe is more important than books in a CBD interim library? There are masses of cafes in the CBD so it's more important to have books than a cafe in the Brandon St cafe (& library). Such a small amount of floor space is allocated to books and the shelves are only half height. Signage is also poor - it is difficult to find books, even though there are so few of them. And the books are all below eye level so it makes it hard to find books. The fit-out design of the central library was good - it would have made sense to just re-use that format, and re-use the shelving to fit in as many books as possible rather than spending money on new shelving that is not functional. In summary, the new libraries are all style and no function and a massive waste of ratepayers funds when the problem they were supposed to fix was space for books from the central library.

Q16. Where do you currently live? Northland

Q1. Your name\* Murray Carpenter

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

How libraries are used have changed significantly since the existing closed library was completed 29 years ago. On line services and electronic systems means there isn't the same need for people to even visit the library regularly like they may have done in the past. Previous Council surveys have also determined a number of issues with the current Library layout in meeting current use. In addition a significant temporary library has been developed in the Harbour City Centre which could possibly be extended into a more permanent library facility to complement any upgrade or replacement Central Library. Taking these issues into account do we need the new library to cover the same floor area as the existing one? Any repaired or replacement Library needs to have a better layout to match modern use and have better links to the Civic Square.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The original architect of the Central Library wishes to retain his design which is understandable. I note that other architects wish to retain the ex-Gordon Wilson flats, while I expect the majority of Wellingtonians would favour its demolition. The desire of the architect community to treat these buildings as if they were their own and need protection seems to ignore the fact that a replacement building for the Library is a cheaper option than a repaired building and provides a better and safer building than a compromised repaired one. The new Library needs to be constructed to the full design standard and with base isolators to provide a safe environment for this community facility and so the building can be reoccupied straight after any future major earthquake, otherwise we would be back to where we are today with another expensive repair or replacement job. With the state of the WCC finances and suggestions that rates may increase by 15% next year(excluding any Library repair costs), which could well lead to a ratepayers revolt, costs should be a key issue in any decision on the Library repair/replacement. It is staggering that the majority of Councillors recently favoured the most expensive repair option instead of a cheaper new replacement. I wonder if some even studied the report included in the WCC agenda for the meeting of the 27th May. The decision seems to be based on the Councillors own emotional attachment to the existing building and ignored the facts!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Making the building safe 3. Te Ngakau Civic Square connections 4. Accessibility 5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Needs a better connection between the Precinct and the Library.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (In person or online)? Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Can the temporary Library in the Harbour City Building be turned into a more permanent function to complement the Central Library?

Q16. Where do you currently live? Wilton

Q17. Which of the following ages groups do you belong to? 75 to 79

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Li Ling Ho.

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It would need to be able to support the entire range of users from older persons, children young & old, families, high school and tertiary students, people with nowhere to go during the day. It should firstly be a heaven of books and media, and have quiet / study / reading spaces, social spaces, cafe / food outlet, spaces for hire by the community or businesses, soundproofed spaces so that you could Eg have a musical event in the space, but it wouldn't carry across to the whole area as such), spaces that are linked into other partnering organisations (JP, citizens advice, pop ups, art displays, book launches or book clubs), physical spaces that could feel outdoors but still be used in all weather (Eg enclosed green spaces) - a reading greenhouse. The central library is a place of rest/peace, solitude as well as somewhere to build and maintain social connections, while surrounded by an awesome collection of books, etc. It should be a go-to inter-generational hub!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I do not want options a, b or c to be considered. Please think long term for the community, library users and city, and rebuild new from scratch and a clean drawing board, rather than trying to do a "work around" with an existing premise, that will end up costing more. Using the existing site / "land asset" also seems to make more sense than trying to find another vacant large space in the city that is central, accessible, and well connected to the CBD, harbour, galleries, MFC, etc etc.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Making the building resilient 3. Te Ngakau Civic Square connections 4. Cost to ratepayers 5. Timeframe 6. Accessibility 7. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's a great area and central location. Thinking of how to make it more resilient is important.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

N/A. Haven't visited any as they don't offer what the central library did. Interim libraries are not as large so it's not a destination stop. Children want to go to the big one as spaces are different and it was special. If wanting a small library with limited items and limited space, we would just go to the local suburb library.

Q16. Where do you currently live?

Brooklyn

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\*

Stephen Bell

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Get the Library back into operation as soon as possible, and plan for more extensive remediation over the next few years.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Sadly I suspect some committee we know nothing about will change the regulations again in a few years and tell us we don't "comply". This will be a continually moving target until we get what the men with the big money want - which will probably be a "Conference Centre" that generates profit for them and helps few Wellington residents. But we may as well try.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Making the building safe
3. Making the building resilient
4. Accessibility
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I find both confusing and selective. Only a small fraction of the collection is at each site and you don't know what's going to be there and what's not.

Q16. Where do you currently live? Wellington Central

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

Respondent No: 935

Meg Cordes

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Diverse spaces, expanded range of council service/legal help under one roof if not necessarily staffed by the same team, quiet (reading only) spaces.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think that preserving architecture for its own sake is not as important as having a really good library building. The current building was too open and noisy, and configuration constructions made by Althield Architecture made it hard to modernise or to respond to changing trends

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Sustainability
3. Timeframe
4. Making the building resilient
5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's pretty dead, not many reasons for people to hang out there

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Modern collection

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
  
The new CHCH library is an amazing multipurpose hub designed your be so much more than a library. Wellington has the same opportunity here to create a space Wellingtonians can engage with everyday.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E – New build on another Te Ngākau Civic Precinct site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
  
Building on a new location is cheapest and will be completed soonest and creates an opportunity to build a multipurpose hub like the new CHCH library.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
  
1. Cost to ratepayers  
2. Timeframe

Q1. Your name\* Michael Harrison

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Just fix the library. You should separate out structural issues from redesign issues - the priority should have been to get this thing fixed or rebuilt as soon as possible, its taken too long to get to this point.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. 3. Cost to ratepayers
4. Making the building resilient
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Te Ngakau Civi Precinct doesnt play an important role if all the buildings are shut due to earthquake risk. Fix the building.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Good for what they are, but ultimately small. And for Te Awe Library, ironically earthquake prone.

Q16. Where do you currently live? Churton Park

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Male

Respondent No: 944

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I am very disappointed that new build options were a last minute addition, considering that they were comparable or better than the preferred option in terms of cost.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Climate change
3. Sustainability
4. Cost to ratepayers
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
I'd prefer to have a large central library again.

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Jane Nicholson

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It needs a central area, reasonably flat for accessibility, preferably with outdoor space nearby. It should be a building with interesting architecture.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I don't want to lose the current building; nor do I want to see it out of commission for a long time in order to bring it up to a safety standard that all other CBD buildings are not bring required to meet.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Accessibility
3. Making the building safe
4. Making the building resilient
5. Te Ngakau Civic Square connections
6. Future-proofing the library service
7. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I miss the space for children under the bridge. That was a convenient spot.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Outside Wellington City

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

More sustainability, accessibility and access is a must. It was very annoying that you could only access the library from one direction under the old design - and the book drop shutles should be open during library hours so you can drop your books off without being tempted to get more. More places to study and to quietly read would also be great. The old library was often crowded.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Don't build a convention center. Repair the library and our waterworks. They might not be as exciting as a shiny new convention center on a city councilor's CV, but dammit they are important.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Accessibility
4. Te Ngakau Civic Square connections
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Just fix the damn buildings already and give us our Civic Precinct back!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (In person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I haven't used as interim CBD branches as I'm an easy walk to my local branch library, but I've heard good things about them!

Q16. Where do you currently live? Wadestown

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Mark

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councilors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library is an incredibly important space for the whole community and a redesigned new building could revitalise and reestablish the heart of our city alongside the town hall and gallery

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Having visited some incredible library spaces in other cities including Christchurch I think the council needs to be visionary. The costs and timelines for a building over 80% nbs are all long and high (\$) - so doing it well and having a strong connection to the town hall would be optimal - ie knock down Mob and Or Cab and sell the existing library site.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Te Ngakau Civic Square connections
2. Making the building safe
3. Timeframe
4. Future-proofing the library service
5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I personally feel that this is a very important consideration- the decision about the library should be part of a wider plan to revitalise the civic heart of the city

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

By nature they are small and mainly occupy commercial spaces With low stud height - not really offering the type of amenity that a public space ( like our old library) offered ( big public meeting space, quiet spots where you might find a range of people hanging out , charging their phone if having a warm nap).. as such I think they should be viewed as temporary locations . I think it is important that community meeting spaces are provided as well as good access to relevant community and council services ( eg basing the WCC contact centre in central library is a good idea)

Q16. Where do you currently live? Island Bay

Q17. Which of the following ages groups do you belong to? 50 to 54

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Having the library in this location and having it be a place where people can get information on how to access their rights (such as being pointed toward the Citizens Advice Bureau or the tenancy tribunal or their local labour union) would have the effect of giving Wellington a stronger democracy.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

It is too small and the service desk hours are quite limited, but that isn't too much of a problem. I really like the windows that face the street - seeing a uni student studying next to someone I usually see sitting on the street reading a book is a great representation of central Wellington. I like the bright yellow colour scheme. All of the staff are incredibly friendly and always point me in the right direction.

Q16. Where do you currently live?  
Te Aro

Q17. Which of the following ages groups do you belong to?  
25 to 29

Q18. Please choose the gender that best identifies you  
Female

Q1. Your name' Guy Shaw

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Te Ngākau Civic Square connections
3. Sustainability
4. Climate change
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

40 to 44

- Q1. Your name? Anna Mills
- Q2. Your email or postal address  
[redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
Replace with a localised model of smaller branches in the CBD
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
I dont like the style. It is not visually appealing and is it welcoming either inside or out. I dont think we should save the building. It doesnt have any visual references as a library and has cramped feel inside.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1.
- Q10. If you selected 'other' above, what other factor was important in your decision?  
Wellington city is in two halves. Lambton and courtenay. Tou would get more use with two sites. Also I dont like the style or cost of the existing building. Think outside the square for once!
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Variety. Cost and location

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? Prefer not to say

Q18. Please choose the gender that best identifies you not answered

Respondent No.: 955

Q1. Your name\* BJ Chippindale

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Our library needs to integrate with the society over the long haul and libraries are far more important to our society than we tend to realize. We have civilization because we agree on facts and to the extent we agree on facts, we do so by sharing knowledge. We have over the past half century, removed and not replaced the hubs in which we used to interact as communities. We have removed and not replaced, the organizations and centers that our children could use when the schools are not open. We have eschewed the churches and the scouts and the community as we embraced individualism and competition - and those choices from the 1980's onwards were mostly mistakes. We need for each community, central areas which support the development of the community and its population with meeting rooms for small groups and clubs as well as student after-hours study and access. We need libraries better integrated with the schools and we need them to serve both as centers of knowledge and as centers of community support and social services. We also need them as places where people can check facts and access the internet even when they have not got the means to do so otherwise. We need them to provide virtual meeting booths for those meetings we have to attend when we are "away" from our normal access. The large central-library model has some serious issues accomplishing all these things, and much as I love libraries (I was locked into one when I was young being so engrossed in the books I never noticed it closing around me) I think we need something "more" than just one big building on the waterfront. A network of libraries and schools that provides access until the last bus of the night and as soon in the morning, as people can reasonably reach the buildings to open them. It isn't about the money. It is about the community. The library system is much more than just the books now. The books are central to our purpose in terms of transmitting and preserving knowledge, but a great deal of human knowledge is now digital. The library provides access to that as well.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Minimal repairs plus new builds, 2 larger to provide additional services and large public meeting rooms and 3 smaller with medium rooms available. Further to this, a book "warehouse" located less centrally and more securely, might be used to source books that are available by post or other delivery via an internet catalog. Reopening is accomplished most quickly (the retention of the existing building is OPTIONAL if some new builds do not require extensive demolition and can be built quickly - I am not aware of sites available) Resilience is obtained by 1. Having more than 1 location 2. Choosing locations more than 8 meters above mean high water 3. New build Accessibility is enhanced COVID and other viral transmission risk is mitigated

Q8. Is there anything else you would like to tell us about the future of the Central Library building? The civic square site might be retained, but the risks of viral transmission and sea level argue against it. The fate of the BNZ building tells us that our standards are not sufficient guarantee for a large building in a moderate quake. The energy of a large one is not going to leave a lot of Wellington unscathed. As an engineer and someone who has experienced big quakes I cannot help but think that our city is full of optimists.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Future-proofing the library service 3. Making the building resilient 4. Timeframe 5. Climate change 6. Other (please specify) 7. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? There will be more disease, COVID is not the last challenge to the immune system of civilization and controlling infectious disease means smaller gatherings.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Don't know

More windows to help connect the library visually to the square and surrounding streets. Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is important to keep this central space for us to gather, but the library is for the whole city, not just the "Civic Precinct".

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply. I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Outside Wellington City

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you. Male

Q1. Your name\* Jenny Barclay

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library as a community hub for information services. The previous cafe is sadly missed as a meeting point. Availability of meeting and seminar rooms if possible (potentially in partnership). Home to CAB.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I have chosen option D but I would like us to be able to recognise the building from key (not structurally questionable) design elements from the Athfield building. And the Nikau absolutely must be retained - they are iconic & a source of pride for Wellingtonians.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Cost to ratepayers
5. Future-proofing the library service
6. Opportunities for partnership
7. Heritage
8. Climate change
9. Sustainability
10. Te Ngakau Civic Square connections
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The precinct as a vibrant, accessible place for all people.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
Haven't visited the new one yet. The Manners St one small and doing its best. Staff extremely helpful.

Q16. Where do you currently live?  
Aro Valley

Q17. Which of the following ages groups do you belong to?  
65 to 69

Q18. Please choose the gender that best identifies you  
Female

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I would largely like to see a low-level remediation with greater strengthening. I'm not sure why the building can't be properly strengthened while maintaining the interior design and aesthetic that has existed for so long. As someone who loves to read, and more importantly write, the classic architectural appearance is conducive to and parallels the rich history of literature. Some post-modern faux urban artistic disaster is neither related nor relevant to writing and literature.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building resilient 2. Timeframe 3. Heritage 4. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q1. Your name\*

Dan Eves

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

We need to re think whether we need a traditional library, and perhaps invest in a building that provides a broader service for community.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

A new build that accommodates a branch type library, and the rest of the building houses other community services

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

To invest 200m in a Building to house just books in 2020 seems ill conceived and doesn't reflect that most people now gather information / read via Internet. Any work on this site needs to address a broader need and be appropriate for 2020 and a city moving forward.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Opportunities for partnership
3. Making the building safe
4. Making the building resilient
5. Te Ngakau Civic Square connections
6. Climate change
7. Future-proofing the library service
8. Accessibility
9. Cost to ratepayers
10. Timeframe
11. Heritage
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

Redefining what city 'library' looks like in 2020

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Community center type spaces, mixed use spaces, sustainability/environmental education spaces

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
More suitable scale for a traditional library

Q16. Where do you currently live?  
Lyal Bay

Q17. Which of the following ages groups do you belong to?  
40 to 44

Q18. Please choose the gender that best identifies you  
Male

Q1. Your name\* Jean Millar

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

User friendly spaces for families and elderly persons to come and read and enjoy

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

By strengthening the building is a waste of money, you could build a new state of the art facility for a fraction of the price.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe
3. Making the building resilient
4. Future-proofing the library service
5. Opportunities for partnership
6. Accessibility
7. Te Ngakau Civic Square connections
8. Timeframe
9. Other (please specify)
10. Sustainability
11. Climate change
12. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? Parking - there is not enough parking to make good use of the library

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live? Khandallah

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Female

Q1. Your name\*

Jarden Crafar

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Hot salt water pools on the ground floor of the library open till midnight. (Hot salt water pools work for Mt Maunganui).

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Something that new and flimsy doesn't deserve heritage status in my opinion. It's cheaper to build something new and modern in its place. And a better use of space?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Other (please specify)
3. Accessibility
4. Making the building safe
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

Opportunity for better and modern.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Leave artificial grass there for casual sport.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Small, limited books etc on display.

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Male

- Q1. Your name\* Melissa Spicer
- Q2. Your email or postal address [redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
The central library is such a pivotal asset for Wellingtonians. I have missed it not being open, and am very much looking forward to it being back.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Heritage  
3. Timeframe  
4. Cost to ratepayers  
5. Sustainability
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets. Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

I appreciate the effort to retain a library service while the main branch is closed, however they just can't meet the majority of the services the main branch was used for. The unisex toilet is unusable.

**Q16. Where do you currently live?** Karori

**Q17. Which of the following ages groups do you belong to?** 45 to 49

**Q18. Please choose the gender that best identifies you** Female

This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1.
- Q10. If you selected 'other' above, what other factor was important in your decision?  
A new build incorporates many of the features encompassed by the other option; safety, resilience, accessibility & future proofing. Partnerships can also be introduced. The remediation options are all fraught with massive cost overruns due to the unknown. A
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct, how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Less than once a year

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Khandallah

Q17. Which of the following ages groups do you belong to?

Q1. Your name\*

Ralph

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library should look to rebuild itself as a community hub. A library is one of the last places you can exist without the expectation of needing to spend money. Community rooms should be offered out to clubs, musicians, sports clubs, learning centres, artists among others.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

As a highly experienced construction professional, the most realistic cost effective and low risk option is to rebuild.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Accessibility
3. Opportunities for partnership
4. Heritage
5. Climate change
6. Sustainability
7. Timeframe
8. Cost to ratepayers
9. Te Ngākau Civic Square connections
10. Making the building safe
11. Future-proofing the library service
12. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The centre square has traditionally been the heart of any city and it is important that whatever decision is made allows the square to become the true heart of the city

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live?  
Oriental Bay

Q17. Which of the following ages groups do you belong to?  
25 to 29

Q18. Please choose the gender that best identifies you  
Male

Respondent No: 966

Q1. Your name\* Joanna Laurenson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The primary function of the library should be to provide a space for community activities (mainly the library service but could also enable other community uses).

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I prefer option C, D or E. Option D is most preferred as a lower cost building with high seismic resilience; but with the exception that the nikau sculptures on the facade of the building should be retained/reincorporated if possible. Option E is preferable if this part of the central city is to be abandoned to climate change in the future. The future of this area is not clear (will the cbd will be protected from future climate change or will the cbd will need to retreat?).

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Future-proofing the library service
4. Making the building resilient
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Great that some library services can still be provided in the city

Q16. Where do you currently live? Miramar

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
New build anywhere in civic square or somewhere similarly central but not the Convention centre
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
I'd like you to keep the fern structures which are on the outside
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Cost to ratepayers  
3. Timeframe  
4. Heritage

- Q1. Your name\* Marshall Clark
- Q2. Your email or postal address  
[redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- In general, the range of services offered previously should continue, with a few more opportunities for "general" uses of the building for community meetings and activities.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- The existing building is worth preserving and enhancing. The marginal costs over the other alternatives appear relatively small and are worthwhile given the benefits of retaining and enhancing the building.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building resilient
  2. Heritage
  3. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral
- More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are Interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q1. Your name\* Lisa

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Hirable versatile hall space, appropriate for physical classes, crafts, debates, meetings, weddings etc.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

While I appreciate option C, it is spending much more money to fix something rather than building a purpose building. I think if you could retain and reuse some of the materials and fit out to reuse in option D, you could find a real balance.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Accessibility
2. Making the building safe
3. Timeframe
4. Making the building resilient
5. Future-proofing the library service
6. Cost to ratepayers
7. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Great space, real opportunity to have more flow with the surrounding areas

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Outside Wellington City

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Lynn

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Accessibility
4. Te Ngākau Civic Square connections
5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? remediation can be like opening a can of worms and costs will skyrocket

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

this space needs to be retained and enhanced with a new library

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Female

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It would be great to see room given to community services like the CAB, to have a JP there full time that kind of stuff in addition to being a library. It should also have a nice cafe or spot where people can meet and socialise. Library's should be community hubs.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think it's an important resource and there needs to be a large library in Wellington Central. But the money being talked about for repair is ridiculous and will be such a burden on the ratepayers you are meant to serve. Repair could blow out completely, and will it ever be up to the same standard as you'd get with a new build? You should take the option that will be cheapest for the best safety outcomes and one that is more guaranteed than what you're going to get trying to retro-fit the site.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Cost to ratepayers
4. Future-proofing the library service
5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I don't think the library has to be on this site - it could be anywhere in the central city. It will still be a lovely public space even if the library isn't here - in fact if the library was moved to another site and the current building demolished you'd have the opportunity to create an even larger outdoor green space in a great location for people to enjoy.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change? ...  
not answered

Q16. Where do you currently live?  
Outside Wellington City

Q17. Which of the following ages groups do you belong to?  
35 to 39

Q18. Please choose the gender that best identifies you  
Female

Q1. Your name? Lana Doyle

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Spaces for quiet contemplation and reading, place to rest, to meet for study

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I really love the new little library on Brandon St, Te Awa. I like its shape, the cafe, the height of the roof: it feels like a peaceful and reflective space and I love its style.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Other (please specify)  
3. Making the building resilient  
4. Accessibility  
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? The feeling of the library as a contemplative community space

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The buildings around civic square don't really face onto it, and I think it's only the city gallery that really connects with civic square. Although an important location, it lacks warmth to be a truly public space. I think you'd need some trees/green space, more spots to sit in groups, and maybe some cafes facing onto the square to really enliven it. I don't think it's essential for the library to be there.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

It's so fantastic. I love it's location, style and long narrow shape with two entrances. It feels peaceful, tucked away yet accessible. It feels like a library should (in my mind) and I love the cafe with its long wooden bench.

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The Johnstonville library is an excellent example for how a modern library can function. It is ridiculous to keep a building that does not function as a 'heritage' issue. This building simply does not fit that criteria. It is not of historical importance, particularly old, a one of a kind, culturally significant or attractive. We have the opportunity to build an inviting, multi purpose, longer lasting building at less cost. I'm actually not sure why this is even a question. Bulldoze it. Recreate an excellent space for less cost.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Making the building resilient 3. Cost to ratepayers 4. Future-proofing the library service 5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
I live in Christchurch, and I was born in Wellington. Please retain the wonderful site that the library is on. Please knock it down and start again. I have been part of several large building refurbishment projects as part of my job for the University of Canterbury. Refurbishing takes longer, is more expensive and you're stuck with an outdated build. Please accept that your existing building is damaged and it will be quicker, less expensive and much better if you knock it down and start again. Visit Turanga! (I'm sure you have). Turanga is an extraordinary community resource. The central city library was like Turanga when it opened. But it's tired now. Start again!!!
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Te Ngakau Civic Square connections  
2. Future-proofing the library service  
3. Making the building safe  
4. Sustainability  
5. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision?

- Q1. Your name\* Jeanelle McCracken
- Q2. Your email or postal address  
[redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
An interactive hub with other community organizations. Integrating place for diversity.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Our city, all our people need our library for community, connection, development.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Opportunities for partnership  
4. Timeframe  
5. Sustainability
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Monthly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They lack soul, energy, identity - interim means temporary but they are much better than nothing.

Q16. Where do you currently live?

Wellington Central

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Maureen Tong

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) 0274201420

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
It should stick to the knitting, the core role of a library which no other organisation has responsibility for.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
The priorities for the Library building have to be: (1) safety cannot be compromised (2) cost must be considered (3) there is a real value in the current central location (4) learnings from Covid levels must be built into the design to ensure it can meet the needs of the Wellington population during a pandemic. (4) heritage is a significantly lesser concern. The current library building, while I have enjoyed it has only been around a few decades, in my view the heritage library building is the original building (now art gallery). I cannot see the justification for up to \$40m or 25% additional cost to ratepayers (as well as a lesser building life) to keep the current building as compared to a new build which would more easily accommodate all that is now known about earthquake safety and sustainability and meeting the changing requirements arising from a pandemic

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Accessibility  
3. Cost to ratepayers  
4. Other (please specify)  
5. Timeframe  
6. Climate change  
7. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?  
Meeting needs for pandemic levels.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Kelburn

Q17. Which of the following ages groups do you belong to? 55 to 59

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Physical spaces for free use (or minimal hire rate) for community activities or services. Reading / study spaces. Children reading programme spaces. Access to internet. Educational programmes on internet use - e.g. safety, searching for trusted news/info sites, research. Talks on books, history, (like the University of the 3rd Age) in both daytime and after standard working hours. Citizens Advice.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I appreciate Option C has a high cost to the city and its ratepayers but it would be good to develop a long term option - rather than iterative short term options.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Timeframe 2. Cost to ratepayers 3. Sustainability 4. Making the building resilient 5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
Only to increase their size and the amount of stock on shelves.

Q16. Where do you currently live? Strathmore Park

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Really love this library as it is. Want to retain all written docs media and books without any 'censorship'. I think it's important it is seismically upgrade to SLS but I think ULS is a bit extreme and cost prohibitive. I worked as a baker twenty seven years ago in this library. I had a swipe card for entry at seventeen and loved being the only person in their during wee hours of the morning. This space was a place of sanctuary and comfort. With a world already over digitalised. I think it unnecessary to overdo the technical upgrades. Fitout should be nz made and sustainable. Such as nz wool carpets insulation and acoustics. Athfield architecture are a wonderful firm that I have collaborated with over the years with a highly skilled team Of multidisciplinary players. It's important that the intention and character of this excellent building is preserved along with memory of Sir Ian A

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
So important for community to get civic hub open ASAP

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Heritage
3. Cost to ratepayers
4. Timeframe
5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? Using same architectural practice and using nz wool products for internal fitout. No polyester

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Civic square is amazing and just need to fix the buildings surrounding it and complete town hall. French man originally painted serpents etc inside canals surrounding square these were beautiful and I watched him paint them thirty years ago. Perhaps we could have a similar art project with community involvement

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Outside Wellington City

Q17. Which of the following ages groups do you belong to?

45 to 49

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Keep the physical book collections, also expand the Libby e-lending collections and try to add more copies of popular books as they are always on hold for a long, long time. Some collections cannot be used properly on Libby or on electronic devices - in particular I'm talking about sheet music. Sheet music really needs to stay available as physical paper copies, because digital versions are hard to render and often too small to read from the distance imposed by holding your instrument while reading the sheet. Currently all sheet music seems to be unavailable/in storage. Can we have a sheet music pop-up library anywhere while we wait for the grand library to be built?

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Just that libraries are essential. Don't listen to anybody who tries to tell you otherwise - just cause they don't read books doesn't mean the rest of us shouldn't have the option!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Accessibility
3. Timelrame
4. Future-proofing the library service
5. Climate change
6. Sustainability
7. Making the building resilient
8. Making the building safe
9. Te Ngakau Civic Square connections
10. Opportunities for partnership
11. Heritage
12. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? Retaining and expanding existing services

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

More casual-skating-friendly areas. Examples could include wide, smooth, walkways; large open areas with smooth concrete; wider bevels with more gradual gradients (i.e. the bits where the sidewalk flattens out to meet the level of the road). These designs also benefit buggy, wheelchair and mobility-scooter users.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The sheet music collection would be good.

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Gender diverse/gender non-binary

Respondent No: 987

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A more honest dis-aggregation of the purposes/benefit for which the library has been used (eg homeless shelter, loneliness/cold housing relief, alongside core roles of knowledge/cultural access.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A new building can pay tribute to the key attributes of the Athfield design, while having a clean slate to better position for the future and its role.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Future-proofing the library service
3. Making the building resilient
4. Te Ngakau Civic Square connections
5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? We can pay tribute to Ath with a new building! Don't tie us up in knots and uncertainty we don't need when money is so tight.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\*

Mike Revell

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I am reasonably happy with what the existing library provided

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Timeframe
3. Heritage
4. Future-proofing the library service
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Te Awe has an adjoining cafe

Q16. Where do you currently live?

Wellington Central

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Male

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library should be modelled from Tūranga in Christchurch. Have multi purpose spaces and a large space for kids to get creative and have fun on rainy days - eg like the lego pits for various ages, slides, kids books, games and dancing. We would love to see a prayer space in there again as this was utilized by many muslims working in the city and was a great service for us. Also the space in the previous library kids area was quite dark and cold, some use of natural lighting to brighten the place up would be great as well as some rooms for large workshops (50 people) that could be used as a multipurpose space.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A new build on the same site would be great, and preferably with an added floor

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Timeframe
4. Sustainability
5. Opportunities for partnership
6. Future-proofing the library service
7. Making the building resilient
8. Cost to ratepayers
9. Climate change
10. Heritage
11. Te Ngākau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Make it a fun and vibrant space for children like Tūranga library in Christchurch

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like the various spaces and how it has a good cafe inside

Q16. Where do you currently live? Miramar

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Magnus Hjert

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The most valuable aspect of a library is its original purpose - providing equal and equitable access to books. Yes - by all means surround it with reasons to make the trip - cafes, social areas, etc but any City, not just a Capital city, would be sending a terrible message if it didn't have a central library. The local libraries are great for accessibility but they're a reflection of the area they're in and can in no way replace a comprehensive central library.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? Parking must be considered.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Making the building safe
4. Accessibility
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is a terribly cold, windy and uninviting area. It needs serious softening-up so it doesn't feel like a 1980s skate park.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Melrose

Q17. Which of the following ages groups do you belong to?

50 to 54

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The first priority of the Central Library should remain as a repository of knowledge, primarily through books (physical books, e-books, DVDs, audiobooks etc, as well as magazines and other reading material. The Central Library has long been a place where people find respite from the pressures of their lives, and this aspect must be preserved. While there should also be spaces for community activities, the sense of the Library being a peaceful haven for people needing to read, do research, homework, etc, must remain a priority. While the library has the potential to be a great resource for community groups and programmes, services etc, these should not interrupt or interfere with the role of a library as a place where people can find quiet spaces to read/watch/listen/study/think.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

What I, and many other people want, is to have the Central Library open again. Many people have felt lost and bereft without the Library over the last year, because of losing access to its books and audio-visual resources, losing access to its facilities, and losing a vital centre for connecting with other people. The value that the Central Library has long held in the lives of many Wellington people has been emphasised by its closure. We didn't really know what a wonderful place we had until it was no longer there for us. While the remediated Central Library may have improved facilities, it is crucial that its role as a place to engage in peaceful activities - reading, studying, using computers, listening to music or watching films, should be preserved. Shelf-space should also not be reduced or compromised.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Heritage
4. Te Ngakau Civic Square connections
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? This scale was very difficult to rank, because accessibility should really be a given - there shouldn't really need to be a question about this, because accessibility must be a priority.

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

This space has suffered a lot in the last couple of years, and now seems like a very barren and windswept wasteland. The closed civic administration building is not in keeping with the other structures in Te Ngaakau, and looks very disreputable. Its ramshackle, abandoned appearance really lowers the mood of the whole space. I hope that once the Town Hall is again functional and the Library's remediation is complete, the area will regain its former liveliness.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the Interim CBD branches? Is there anything you would improve or change?

I really appreciate the efforts that WCC and the library staff have made to ensure that the interim CBD branches can operate during Level 2. My only criticism of Arapaki and Te Awe is that both branches are extremely warm and quite airless. I appreciate that ventilation and heating in these spaces must have some challenges, but turning down the heating a couple of notches would be appreciated.

Q16. Where do you currently live?

Kilbirnie

Q17. Which of the following age groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Female

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Less books, more community based spaces. Facilities to support low socio-economical demographics and under privileged populations.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Timeframe
3. Sustainability
4. Heritage
5. Future-proofing the library service
6. Opportunities for partnership
7. Making the building safe
8. Te Ngakau Civic Square connections
9. Accessibility
10. Making the building resilient
11. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

More windows to help connect the library visually to the square and surrounding streets    Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Te Aro

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The building is a national icon and the cost for the repairs should be partly subsidised by central Government. Wellington rate-payers should not have to foot the full cost of the up-grade.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Heritage
3. Future-proofing the library service
4. Cost to ratepayers
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The precinct currently has little greenery, it would be nice if some large tubs of greenery could be placed in the precinct.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (In person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
I don't like the interim arrangements

Q16. Where do you currently live? Aro Valley

Q17. Which of the following ages groups do you 45 to 49  
belong to?

Q18. Please choose the gender that best identifies Female  
you

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Create a dining precinct hub in civic square to create life and atmosphere in our inner city.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Civic square has huge potential for hospitality in Wellington. Move the library to create space for this.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Accessibility
3. Sustainability
4. Te Ngākau Civic Square connections
5. Timeframe
6. Cost to ratepayers
7. Making the building safe
8. Heritage
9. Making the building resilient
10. Future-proofing the library service
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? It is a wasted space currently. Create a new library hub from scratch and transform the potential of civic square

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

No one utilises the space - Civic Square has the potential to be a thriving European square

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Wellington Central

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Female

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

what we had was fine plus more rooms where can convene great quality zoom community meetings

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

get us a library back asap choose the cheapest quickest option that delivers a beautiful space. The CHCh library is a great example

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Other (please specify)
4. Timeframe
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision?

a space that feels good to be in

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Its awful we went from visiting the library at least once a fortnight to never. The one we went to smelt and was transactional not a place to be and browse

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? not answered

Q18. Please choose the gender that best identifies you not answered

Q1. Your name\* Nicholas Parker

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

There are very few indoor spaces in the city that someone can visit without being expected to spend money. I personally used the library as a quiet place to do work for a couple hours while also being around other people, along with accessing reference books on amateur radio.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Among the provided options and the estimated costs and timelines, C feels like the best tradeoff. D and E risk an extended process for designing a new building and/or finding a new site. I'm not especially attached to the current building and in particular do not think its design would merit heritage status, but I do think there is a lot of uncertainty in starting over with a new building or new location. Meanwhile A and B introduce significant risk of additional extended closures and repairs being needed following future earthquakes, while simultaneously not being significantly faster or cheaper than just going with C. If I were driving the budget for this, I would rather just pay for the repair once up-front rather than pay for it multiple times, and likely end up spending more overall in the process. I also would not feel safe in a building that I knew was at 40% NBS (option A) and would personally avoid spending significant time there. In my opinion an unsafe building is worse than no building at all.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Accessibility
5. Cost to ratepayers
6. Sustainability
7. Te Ngakau Civic Square connections
8. Timeframe
9. Climate change
10. Opportunities for partnership
11. Other (please specify)
12. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? I think all other considerations should come before any potential heritage status of the building, because I do not believe the building as a whole warrants heritage status. However certain design elements could warrant this status.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I'm surprised that the open civic square space isn't used for events and demonstrations. I normally just see a few people sitting on the benches or strolling through on the way to somewhere else. It feels like the square could be more of a destination, but maybe that will happen once it's no longer surrounded by buildings in various stages of being closed and rebuilt. I hope that option C reduces the risk of future extended closures being necessary.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I have visited the Manners St service centre for city business (dog licences, rates payments, etc). However I have not visited the library portion. This is primarily because covid 19 has put a damper on visiting enclosed public spaces in general, and secondly because I'm normally looking for specific reference books that they don't generally shelve. If it weren't for covid 19 I would likely be visiting them to browse and check out DVD movies.

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 35 to 39

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Relocate the Central Library to a non Te Ngākau Civic Precinct site

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

With climate change, it would be better in the long-term to have this essential service on land that is not reclaimed. As has been demonstrated with the Town Hall remediation, reclaimed land brings forth additional issues. Keeping the library in Civic Square is shortsighted.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Climate change 3. Making the building resilient 4. Accessibility 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

With the number of buildings requiring extensive strengthening in the square, it is obvious that this piece of land is insufficient for the buildings the council's approach wants there. It is a sea level site on reclaimed land. Between earthquakes and sea level rise, this would be a stupid place to put essential services like the library and council. With landlords failing to remediate buildings around the city as the quake strengthening deadline approaching, there are plenty of sites in town where a library could be that are less risky

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They're good spaces but not a replacement for central. I like that Te Awe is open in the evening. The He Matapihi opening hours serve very few people

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? 30 to 34

Q1. Your name\*

Bex French

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library should be a welcoming hub of activity for the central city. I believe it should have a similar style to the Johnsonville or Christchurch libraries with cutting edge technology, function spaces, reading spaces and computer hubs. The central library should be a landmark people want to use.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

You could easily keep aspects of the heritage facade when rebuilding but repurpose the space to become more modern and user friendly.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Future-proofing the library service
4. Accessibility
5. Climate change
6. Sustainability
7. Opportunities for partnership
8. Te Ngākau Civic Square connections
9. Timeframe
10. Cost to ratepayers
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live?  
Newlands

Q17. Which of the following ages groups do you belong to?  
25 to 29

Q18. Please choose the gender that best identifies you  
Female

Q1. Your name\* Chris

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I support the ideas outlined in the consultation statement about the evolving role of libraries in 'The role of modern libraries in cities' section. The role of libraries will become less about physical books and more about community connection, critical thinking and civic engagement. However, I would caution against the over-investment in technology like 3d printers. Evidence would seem to point towards these investments becoming quickly obsolete and under-utilised. Instead a partnership with an educational institution or tech company would be a better approach.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

In an age where we have significant issues with inequality and poverty, it is unconscionable to spend tens of millions of dollars on retaining a building just because it has the potential to have heritage status.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Accessibility
2. Future-proofing the library service
3. Making the building safe
4. Making the building resilient
5. Sustainability
6. Climate change
7. Cost to ratepayers
8. Opportunities for partnership
9. Te Ngakau Civic Square connections
10. Timeframe
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Vogeltown

Q17. Which of the following ages groups do you belong to? 35 to 39

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

We love the library! We really want a library reinstated on the same location. I grew up in Wellington and have visited the library as a child, a student, a young professional, and now as a mother of small children. For me, the library is a community place, a place where people from across the city representing all its cultures and demographics can share a space and community. I would love to see the library continue to extend its offerings of speakers, art and culture exhibits, and programmes for children.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

As a family with young children (including twins), the library was one of the only places we could go that held all our needs in one place - we could find an area for the kids to run about, and then an area to read quietly, grab new books for our insatiable small readers, grab a coffee for a tired Mum and Dad. We would see other families and enjoy a feeling of being part of our Wellington community. We are grateful for the small library hubs and have been using them since the main central library closed and hope they continue in some form - but we definitely want our central library back. Thank you.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Accessibility 3. Making the building resilient 4. Future-proofing the library service 5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Love Civic Square - more shade to provide even more comfortable seating/lounging areas would be great.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are great little hubs - good range of books available and conveniently located.

Q16. Where do you currently live? Kingston

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Julie Estrada

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

1) Offer greater support/resources to the homeschooling community (WHEN or others): -Private multipurpose space for booking (for educational workshops, demo, classes) -Curriculum support like a "Homeschooling Corner" where subject driven non-fiction books and resources are featured by grade levels. -Offer community events "DURING school hours" (Not just "afterschool") as homeschoolers have the time to attend functions during THEIR school hours (D&D Club, Legos, Author storytime, sewing class...but before 3pm!) 2) Cafe with more meal options (like Johnsonville) to encourage staying longer with more revenue to support library operations. 3) Aquatic or sports/skate facilities (Like Johnsonville) 4) MakerSpace with sewing, 3D printers, and such (Like Johnsonville) 5) Outdoor play space/structure and garden for younger patrons to get some air as well as host garden/outdoor education workshops when appropriate. (Like Johnsonville being next to a park) 6) Small performance venue/stage/gallery for local artists or community educators. 7) PLEASE offer dedicated "Free Library Parking" either in an underground parking level or designated spaces (like Johnsonville but with MORE spaces). It deters access to pay \$5-15 parking each time we visit the CBD libraries. At time, we choose the smaller local branches just to save on parking but would rather go to a larger facility with more resources depending on the subject needed. THANK YOU for considering public comments and working towards a long term plan for an invaluable community learning resource! We appreciate your hard work!!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We prefer "Option E" as it costs similarly to Option B Mid-Level remediation while delivering the following: 1) COSTS LESS than the preferred Option C. 2) FASTEST completion time with new build (Nov 2023 given no additional issues) 3) SAFEST approach as all guidelines are met in the process of new constructions. 4) MOST flexibility in creating a forward thinking community space (from scratch!) - including dedicated free parking, more community educational spaces, Cafe etc. 5) NO Conflict with "Heritage Status" on a new site (adding to completion time) 6) Scouting for a new site can consider traffic patterns so we are not in congested CBD streets with old existing site. EASY ACCESS with FREE PARKING please. If a new site is not possible - we would still prefer a new building "Option D" to any extra work on the old building. Easier to control outcome when doing a new build, time, money, and benefit of creative new planning.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Timeframe 2. Making the building safe 3. Accessibility 4. Cost to ratepayers 5. Making the building resilient 6. Future-proofing the library service 7. Sustainability 8. Climate change 9. Opportunities for partnership 10. Heritage 11. Te Ngākau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

We would actually prefer to have the City Library to be developed as "Community Building" facility such as the Johnsonville Library where it offers a pool/sport, cafe, and art gallery, and close to an outdoor park INSTEAD of attached to government city works. We see the library as a place where kids/students/educator gather and enjoy the city space together - separate from the "business" aspects of the Civic Precinct and not competing with parking and access to the site.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Love the Cafe in the new Te Awa branch. Love how the books/records/dvd's are all so fresh and new, not worn out. Love the clean new children's areas. Just need easier parking (preferred free) to have better access to all CBD libraries.

Q16. Where do you currently live?      Karaka Bays

Q17. Which of the following ages groups do you belong to?      40 to 44

Q18. Please choose the gender that best identifies you      Female

Q1. Your name\*

James Hardy

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Add other community spaces, eg tai chi for elderly

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

More natural light. The old cafe was like a cavern.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Te Ngakau Civic Square connections
2. Cost to ratepayers
3. Timeframe
4. Sustainability
5. Climate change
6. Future-proofing the library service
7. Making the building safe
8. Making the building resilient
9. Accessibility
10. Heritage
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I haven't used them but have accessed my local community library more.

Q16. Where do you currently live?

Miramar

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I'd love to see a central library with spaces for author and writer's events and artist workshops. Working closely with artists and writers, and organisations that work with them will help connect visitors with culture and support the creative people in our city. Improved accessibility: Including spaces that serve visitors with different and/or additional needs. Accessibility to technology and assistance with accessing the collection in digital and physical forms. I'd like to see the central library building kept, as an important piece of our architectural history. Updating spaces and facilities to serve the public for the coming years - but keeping the internal and external feel of the building.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The Athfield designed building is an important piece of our architectural history. We are at real risk of losing a huge part of our history if we demolish this building. I hope that the council will choose to keep the feeling of the building, both the internal and external features that are so iconic.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Heritage 2. Making the building safe 3. Future-proofing the library service 4. Sustainability 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Wellington needs to retain this as a Central Hub.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

I need them to be open for longer hours, to have a slot for out of hours returns and to have more books available.

**Q16. Where do you currently live?**

Kelburn

**Q17. Which of the following ages groups do you belong to?**

70 to 74

**Q18. Please choose the gender that best identifies you**

Female

Q1. Your name\* E. D. Lawrence

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

No private partnerships

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Option D equally preferable.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Climate change
2. Making the building safe
3. Accessibility
4. Sustainability
5. Making the building resilient
6. Future-proofing the library service
7. Te Ngākau Civic Square connections
8. Cost to ratepayers
9. Timeframe
10. Heritage
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

All buildings should be accessible to residents and visitors. Learning and recreation opportunities free of charge. Living room, easy access to all WCC Services. Staff to be well trained and well recompensed.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

At Arapaki a library Enquiries desk would be very useful for visitors, especially when filling out the form to join the library.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think that the central library should include both community spaces, and spaces for individuals to spend time at the library. But I think that it is important the central library should also continue to have lots of material such as books, and other resources such as magazines, cds, and dvds on wide range of subjects. One of the significant benefits of the central library is that it has always been an amazing source of information and you can get this information at one library. It has many books and resources on every topic so it is very useful for research purposes, and for finding out information on any topic you may be interested in. For example, you can find lots of books on all sorts of different topics on mathematics, history etc. The suburban libraries have traditionally not have had the breath and depth of information that central has had and we have really missed being able to access these resources.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I am concerned that if we move to build a new library that it will take a really long time for us to get a central library.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Timeframe
4. Cost to ratepayers
5. Accessibility
6. Heritage
7. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Neutral

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

It is great to have libraries in the central city area again. My family and I have enjoyed taking out books and other resources, and also having an indoor space where we can spend time in the middle of the city. My teenagers have really missed having an indoor city space that they go to after school and use for homework, study or looking for books and graphic novels to read. We really like that Te Awe has lots of seating and great opening hours. While we really like Te Awe, its library collection is fairly limited and does not compare with what the central library used to have.

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A space which houses the largest collection of books in the region, if not the country. A large space, filled with as many books as possible to allow people the space to spend time browsing in her shelves, rummaging and fossicking to find whatever books they need for this moment. Libraries are magical places, and no library has been as magical as our central library. The lack of a library with such a vast collection and such accomodating open hours has left a huge hole in our city and community. Any future libraries will continue to need breakout spaces, where people can find the quiet to study or attend to their business uninterrupted, rooms for community groups to host their events at low cost (venue hire is a challenge for most community groups in wellington), going forward into the future it would be good to have a large computer/internet area, possibly with 3d printing. maybe some special book collection display areas - remembering this is a library and we already have art galleries and museums for other exhibitions. Ultimately, this is a central library, and first and foremost the most important thing should be carrying large quantities of books.
