IP Address:

- Q1. Your name\* Patrick Foster
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
A mix of retail spaces, council services, media (digital & non-digital) as well as conference venue.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Cost to ratepayers  
3. Climate change  
4. Sustainability  
5. Making the building resilient
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Never
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

IP Address:

- Q1. Your name\* Bridie Morell
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I would like the building to include lots of adjustable meeting spaces for community groups I would like the library to include a co-working space available to community groups/NGOs who can't afford their own office/working space
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- We really need a brand new build on a site that is not reclaimed land. We need to unattach from the current civic precinct - it won't survive a big earthquake. Let's find another heart of Wellington City that will not be so affected by an earthquake or Tsunami.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Future-proofing the library service
  2. Sustainability
  3. Cost to ratepayers
  4. Timeframe
  5. Making the building resilient
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- I am really concerned that Te Ngakau is on reclaimed land and it won't survive an earthquake or significant erosion. Please can we have a conversation about finding a more durable heart of the city.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I don't find the interim libraries appealing.

Q16. Where do you currently live?

Mouni Cook

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Male

- Q1. Your name\* Brendan Jelley
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
it could be like a nice new modern library like Turanga in Christchurch
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Cost to ratepayers  
3. Future-proofing the library service  
4. Making the building resilient  
5. Accessibility  
6. Te Ngākau Civic Square connections  
7. Timeframe
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing  
More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Less than once a year
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Tawa

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

Respondent No: 4

IP Address:

Q1. Your name\* Dylan

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Take inspiration from Turanga in Christchurch. That is a world-class library facility and is built for modern and future times.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current library building is unfit for purpose and not future-proofed. Its layout is confusing and it has major issues with accessibility, particularly from Civic square. There is a lack of collaborative spaces and individual study spaces were always in high demand.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Sustainability
3. Making the building resilient
4. Accessibility
5. Climate change
6. Cost to ratepayers
7. Te Ngākau Civic Square connections
8. Timeframe
9. Opportunities for partnership
10. Heritage
11. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Make it somewhere that is always full of life and available for use

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Having not been to any, I can't comment on the improvements, but I would question the need for three in such a close proximity.

Q16. Where do you currently live? Outside Wellington City

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Male

Respondent No: 5

- Q1. Your name\* Kristine
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Partner with other parts of the Council to provide a more integrated service that benefits all of the community. Eg partner with PSR to provide more activations. The library is a central part of Wellington that could benefit everybody - it shouldn't just be books. Think outside the square. Involve the community and other parts of Council - not just librarians or community services. They should be places that inspire creation. Innovative technologies should be employed. It is critical to think outside the square - consult and engage widely. Be bold and brave....
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- Yes - please engage with the youth, engage with all parts of community. Research all possibilities thoroughly. Do not just recreate the wheel. This is an opportunity to be visionary - take it!
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building resilient
  2. Cost to ratepayers
  3. Timeframe
  4. Accessibility
  5. Sustainability
  6. Making the building safe
  7. Climate change
  8. Future-proofing the library service
  9. Opportunities for partnership
  10. Te Ngakau Civic Square connections
  11. Heritage
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Male

Respondent No: 6

- Q1. Your name\* Jonathan Coppard
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
I'd like to see the library be more open to the civic square side
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option B - Mid-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Climate change  
2. Te Ngākau Civic Square connections  
3. Making the building resilient  
4. Sustainability  
5. Making the building safe
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
It needs to be bigger! Demonstrations can't fit into the space.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Never
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It needs more green space. It is the connection to the waterfront space and really important meeting space. Keep it clear and green - do not build more hard structures in the open space. Make it enforced non-smoking and non-vaping space

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Accessibility - mobility parks

Q16. Where do you currently live?

Brooklyn

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Rita

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Given the cost to life ratios of the options, I am afraid the best is a wholly new build on the same site. Finding another site provides the possibility of further resilience as sea levels inevitably rise. If the same building remediation is the decided upon plan, then I cannot agree to anything more than the mid-level remediation.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please keep sea level rise and climate change in the resilience plan for the next 50 years. I miss the central library as it was one of my favourite places in the CBD, but taking a few more years to do it right is better than spending too much on a building that is already toast.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Sustainability
3. Cost to ratepayers
4. Making the building resilient
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Think about sea level rise, the whole thing may need to move inland

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Wadestown

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Female

Respondent No: 9

IP Address:

- Q1. Your name\* Erica Mangin
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I think of it as a space where people can relax, learn, develop, and gather. So I think its form should follow that function. Meeting spaces to hire, more seating areas for people to read their book, more desks for people to learn and tutor, perhaps some quiet spaces where people who need silence can go to focus. And because it is supposed to be the heart of the city it should have a better connection to civic square.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- I have chosen option c because I think it makes the most of the location. Current building has it's back to Civic Square, it's dark and dingy, not enough spaces to meet, and most importantly not enough space to sit down with the book you've just discovered on the shelves.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Other (please specify)
  2. Te Ngakau Civic Square connections
  3. Making the building resilient
  4. Accessibility
  5. Future-proofing the library service
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- It's a gathering space and I think better links between the library and the square is a no-brainer
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Newlands

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

Respondent No: 10

IP Address:

- Q1. Your name\* Hamish Gordon
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Do it in the most cost effective way possible and does it need to be 100% of building code? The other question that needs asking is there really the need now for a large physical library and how wider range of people actually use it? Every time I have been in there which is twice in 3 years it has a lot of homeless people in there.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers  
2. Timeframe
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing  
More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Just the refreshed decor. The only library with its blue and grey interior felt so cold and unwelcoming.

Q16. Where do you currently live? Berhampore

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

Respondent No: 11

Q1. Your name\* Tom Pettit

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I equally like options C and D except for the potential embodied carbon impact of knocking down the existing building. However the financial likelihood of a cost blowout for option C makes me think option D has a lower financial risk profile as a ratepayer - my view is let's build a fit for purpose library with potentially more dual use space extending above the current four floors to maximise the value of the space for the city. If not, I am happy with C just knowing it will likely cost a fortune more than indicated.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Sustainability
3. Making the building resilient
4. Making the building safe
5. Cost to ratepayers
6. Te Ngākau Civic Square connections
7. Opportunities for partnership
8. Future-proofing the library service
9. Accessibility
10. Timeframe
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

With the loss of the Town Hall and MOB for civic purposes, it would be good to see CAB and the Library redeveloped with civic purpose in mind - including Council rooms, office space, etc, as well as expanded library stacks.

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

That too was full of homeless people staying warm. It hardly made the library a place I wanted to go to, in fact I was out of there as fast as possible

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Central Library + cafe + meeting rooms. I don't believe it should incorporate more than that, its CORE purpose being a central city library. So not so multipurpose it detracts from its core purpose.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E – New build on another Te Ngākau Civic Precinct site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Lets' get it right so there's no rebuild in 10 + years
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Why do we need a "Central" Library? I was a fan of the now abandoned central library. It was much better than the Sydney Central Library (for example), but times have changed and will continue to change. The library resources that are not already available online - should be subject of a project to digitise them. If we can do without the central library for 6 years - we can do without it forever. Yes I do support the continuation of physical library services in the suburbs, but we don't need an expensive central library on expensive central city real estate. The site should be sold for development as a hotel or apartments.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?

- Q1. **Your name\*** Bree Graczyk
- Q2. **Your email or postal address**
- Q3. **You are making this submission:** as an individual
- Q4. **Would you like to make an oral submission to the Councilors?(Oral submissions will be held on Wednesday 22 September)** No
- Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**
- Integrated community services for our vulnerable populations, learning hub that would include opportunities to upskill and learn creative hobbies--sewing machines, screenprinting, 3D printers, software tools like CAD, photoshop, and music production software, etc (you would take introductory classes in order to register, learn how to use and get access to the equipment. Similar to what other countries have, where this area is set apart from the book section and you need a separate library card/access to use the area. You could have open use times, as well as free/low cost workshops). We need to focus more on future use, supporting creativing, proving free places for people to upskill and learn new things. A library isn't just about storing books anymore. It needs to be a knowledge hub for learners and teachers beyond what books alone can offer.
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one** None of the above, I prefer an alternative
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** Relocate the Central Library to a non Te Ngākau Civic Precinct site
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**
- 1) We know the sea level is rising--at least a 30cm rise is built in over the next 40 years. 2) We know the Te Ngakau Civic Precinct (and much of the CBD) is built on reclaimed land, highly susceptible to earthquake and sea level rise risk. 3) We know that the Te Ngakau Civic Precinct is already experiencing issues w water inundation, and any future use of the site will require extensive risk mitigation to survive the next 50+ years. Knowing all of this, we must think about 'building back better' on a more suitable site. As part of re-imagining the entire Precinct, the relocation should be given considerable thought. We talk about the building being used for the next 50 years, but we know that in Wellington many buildings are made 'heritage listed' which means they essentially have an 'indefinite' lifespan. We cannot continue to have short term vision for our buildings. The amount of money being spent on this deserves to be spent in a wise and measured way. Strengthening or rebuilding on the same site or even nearby could open us up to cost blowouts (re Town Hall), or future adaptation problems.
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**
1. Making the building resilient
  2. Making the building safe
  3. Climate change
  4. Future-proofing the library service
  5. Sustainability
  6. Accessibility
  7. Cost to ratepayers
- Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered
- Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Te Ngākau Civic Precinct has traditionally played an important role to the people who work in the vicinity (especially council employees). The City to Sea link is especially important to connect the central city to the waterfront. The council continues to neglect to provide similar links to the waterfront in the region of the railway station and in the region of Waitangi Park and Courtenay Place.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I haven't accessed library services since the Central Library closed.

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Kate Kan-Shaw

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Please restore our central library building. The central library is the heart of our city and when it closed so many people I know were devastated and felt we had lost something so important to us. I have been going to the central library for over 25 years and have always valued its important place in our community. The building itself is a Wellington icon and needs to be retained. We need to take the opportunity now to future-proof the building and make it as safe as possible. This is why, as a Wellington rate-payer, I fully support the more expensive option of high-level remediation. I hope that Councillors think of the long-term benefit to our city when making this decision. In terms of the future of our library, I want it to continue being a place where all are welcome, where the most vulnerable members of our community can be supported and where access is equitable. Our library should remain fully publicly owned and funded.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C -- High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Heritage
4. Future-proofing the library service
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Just that I agree it plays an important role in terms of a public and democratic space and should continue to do so. Providing larger spaces for the community to meet could be good.

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

The Civic Precinct does not necessarily need to be tied to this specific location—if the idea of a precinct is to collate public services, we should be having the discussion about making the precinct more resilient, which could realistically mean a relocation. We are so tied to 'place history' that we sometimes don't see the forest for the trees. The amount of money it will cost to make this building and the entire precinct resilient to future climate change and natural hazards—not to mention protecting the horizontal infrastructure surrounding the area (water pipes, water sumps to keep the streets from flooding) doesn't justify keeping it in the same location simply out of tradition. We are making decisions that will impact young people who aren't able to weigh in on those decisions. It's our responsibility to think long term, sustainably, and maybe out of the box.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?**

Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply**

Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

The spread of the locations means potential greater ease of access for patrons—this is the great benefit of a decentralised library service. However, a central library has the ability to provide upskilling and craft services that the smaller/micro branches can't. Giving ppl access to an e-reader for digital content, closing the micro CBD branches and putting more money into suburban branches, and having a smaller central library that is mainly devoted to hands on learning could be the future of library services, which might even cost less than an 'old school' library. These interim micro branches were great for solving a problem that is relatively short term—I'd like to see more out of the box thinking around the central library.

**Q16. Where do you currently live?**

Brooklyn

**Q17. Which of the following ages groups do you belong to?**

30 to 34

This could include anything from physical spaces, services, programmes or partnerships with other organisations.**
- 21st century libraries are much more than a book depository. Central library especially so. It will be a community space, with resources, activities, information, active spaces, businesses. The Johnsonville library is a great model, everything in there is well used. On a bigger scale, the Levin library is an awesome resource for its community with all the usual things, plus AA office, piano, artworks, huge play spaces, meeting rooms for hire, etc. The new Christchurch library ditto, plus inspiring architecture. No need to reinvent wheel.
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option D – New build on same site
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**
- I think people underestimated the importance of the library as a community resource, until it suddenly wasn't there. I'm studying at Whiteria and have really missed it. Please move on it ASAP, it's a city essential.
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**
1. Other (please specify)
  2. Making the building resilient
  3. Sustainability
  4. Te Ngakau Civic Square connections
  5. Accessibility
- Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered
- Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**
- The whole area with library is like the old village square. A meeting place inside and out and a place where ideas can be exchanged, art can be exhibited, etc. Vibrant!
- Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like that can reserve books without any charges. Spaces are pleasant but just wish they could be bigger.

Q16. Where do you currently live? Ngaio

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Female

- Q1. **Your name\*** Casey James
- Q2. **Your email or postal address**
- Q3. **You are making this submission:** as an individual
- Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No
- Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**  
I think it is important to look ahead to the next few decades when thinking about the library. There is likely to be more digital/internet stuff and less paper right? So a design that takes that into account would make sense
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option D – New build on same site
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**  
Knock it down and start again.
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**  
1. Making the building safe  
2. Making the building resilient  
3. Future-proofing the library service  
4. Cost to ratepayers  
5. Timeframe
- Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered
- Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**  
It would be great to get all those building usable again, as I think most of them are empty. Knock the old ones down and start again, renovating/remediating old buildings is just going to be time-consuming and costly
- Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They look like offices, unappealing.

Q16. Where do you currently live?

Newlands

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Female

- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
More space for people to bring their own devices to work.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Spend less time talking about earthquake proofing the library and turn the conversation to the opportunity to make the library modern and a nice place to be - for that reason I support the high level remediation. We are a city built on a fault line, nothing is 100% safe.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Timeframe  
3. Cost to ratepayers  
4. Heritage  
5. Climate change  
6. Sustainability  
7. Te Ngākau Civic Square connections  
8. Opportunities for partnership  
9. Making the building resilient  
10. Accessibility  
11. Making the building safe
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They're fine - a little small and busy though

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Male

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
reasonably similar to how it was functioning in the past is fine
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option A - Low-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
I feel that structures are changed too often in Wellington. It seems to me to be sometimes just for the sake of change. The sense of continuity in the city is lost
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers

- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- The people of Whanganui-a-Tara dearly miss a space to learn, meet, and escape the cold. This is our last chance for a long time to improve on what we had. Wellingtonians would benefit for more space for small local community groups to assemble, create, and educate. This was sorely lacking from the old space. Emphasis should be placed on timeliness – the longer Wellington goes without a central library space, the longer we miss out and fall backwards culturally. If the cost is similar either way, we should prioritise a new build on separate site, especially as these timelines are notoriously pushed out. It is unacceptable for Wellingtonians to go without a library for 5+ years (probably longer). The existing site could be converted to a central-city outdoors space – something we are sorely lacking.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q1. Your name\* Jenny Clark

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I am so cross we have this stupid situation. How do we know that even the highest level of remediation or of any new building will stand up in a severe earthquake. Engineers have been proven wrong in so many new buildings while our older builders just wobble, crack a bit, and then shake themselves back into shape.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It's a lovely building and it has become part of the Wellington streetscape. We need it soon, and we need an absolute guarantee that it won't cost more than your estimates. There's no need for costs to go up in the next five years.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Heritage 3. Making the building resilient 4. Future-proofing the library service 5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's fabulous - but the pathways in and out are irritating, not all being direct.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

It is appalling, crowded, noisy, lack of books in store

Q16. Where do you currently live?

Oriental Bay

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Prefer not to say

- Q1. Your name\* Madeleine Wall
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Te Ngakau Civic Square connections
  3. Making the building resilient
  4. Future-proofing the library service
  5. Timeframe
  6. Climate change
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Needs to stay the heart
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Highbury

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Colin Keating

Q2. Your email or postal address

-

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library was already proving to be a flexible space not only for books, but also other media, space for the elderly, for the vulnerable, for the lonely, for children, for students for digital learning and much more. Don't over analyse the possibilities. Just bring the Library back and give it sufficient funding and discretion and it will unleash its potential

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Option C might be the best option in a perfect world. But after Covid 19 we are definitely not in a perfect world in terms of ratepayers capacity to absorb rates increases. And we are in a world where stress on the ordinary people is going to be much higher, perhaps for a decade. People need the space open as quickly as possible. So the issue is not only choosing the lowest cost, but also the quickest reopening. Don't let the perfect be the enemy of the good.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Timeframe
3. Heritage
4. Making the building safe
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Impossible to comment intelligently in the absence of more information about options for the other buildings facing onto the precinct.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Tawa

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Female

- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Dont matter it's about the library
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre
He Matapihi Molesworth Library
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are well done in the light of the constraints, but unsatisfactory substitutes for the closed library

Q16. Where do you currently live? Wellington Central

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

- Q1. **Your name\*** Robin Anderson
- Q2. **Your email or postal address**
- Q3. **You are making this submission:** as an individual
- Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No
- Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**  
Yes, it should include community support and be a hub for access to WCC services
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option D – New build on same site
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**  
Aside from keeping the palm trees, which I like, I think the building should be rebuilt. I don't mind if the site were moved but I do like its current location
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**  
1. Future-proofing the library service  
2. Cost to ratepayers  
3. Making the building resilient  
4. Heritage  
5. Accessibility
- Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered

- Q1. Your name\* Briony Dyson
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Up to date technology that is easily updatable in future. Maybe space for community groups/classes during the day. Cafe.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
I would be happy with option D, E or B in that order. I think the Councils current preferred option (C) is ridiculously expensive. I am very opposed to that option. There are so many more important things to spend our rates money on, particularly water and waste infrastructure etc.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers  
2. Future-proofing the library service  
3. Making the building safe  
4. Making the building resilient  
5. Opportunities for partnership
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
You need to ensure the library and council buildings are both earthquake strengthened At a reasonable cost - not the highest cost.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Less than once a year

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Alapaki- relationship with the street, lots of light, friendly staff

Q16. Where do you currently live?

Khandallah

Q1. Your name\* Jordan Gribble

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

When comparing options, it is clear a new build on the same site offers the best option. Noted as disadvantages in this proposal is the extended timeframe however, the difference is just six months. The cost is lower than high-level remediation. A new build offers the opportunity to use sustainable resources and implement new technology that reduces the impact on the environment in its day to day operation.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Future-proofing the library service
3. Making the building safe
4. Accessibility
5. Cost to ratepayers
6. Making the building resilient
7. Opportunities for partnership
8. Timeframe
9. Climate change
10. Heritage
11. Te Ngakau Civic Square connections
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Accessibility
  3. Future-proofing the library service
  4. Making the building resilient
  5. Climate change
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live?  
Te Aro

Q17. Which of the following ages groups do you belong to?  
19 to 24

Q18. Please choose the gender that best identifies you  
Male

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
A non-commercial work, study, reading and meeting space
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
We just need a central library ASAP.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Timeframe
  2. Sustainability
  3. Accessibility
  4. Making the building safe
  5. Making the building resilient
  6. Te Ngākau Civic Square connections
  7. Climate change
  8. Cost to ratepayers
  9. Future-proofing the library service
  10. Opportunities for partnership
  11. Heritage
  12. Other (please specify)
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
It is one of the only non-commercial indoor spaces in the city. It acts as the cities living room and it should be an oasis of calm.

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

There aren't a lot of places to sit and read, and the working spaces are quite small

Q16. Where do you currently live?

Ngaio

Q17. Which of the following ages groups do you belong to?

Under 18

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Victoria Leachman

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library community already has a wide range of clients. I understand that the library provides digital services and has partnerships with other organisations. My responses below are addressed to the physical spaces / requirements of a modern library today. I strongly believe that all of the redesign team should physically shadow a librarian for a day to challenge their own perceptions of a typical library day. They also should user test spaces in the pop up libraries and make observations before implementing what works in the rebuilt central library.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I believe the new build is the most sensible option. Although the current building is iconic I don't believe the space is adequately arranged for a library for the 22nd Century. There are additional issues with parking, public transport routes (there should be a bus drop off option directly outside) and general redesign issues that only a new build could sort out.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Te Ngakau Civic Square connections  
2. Cost to ratepayers  
3. Future-proofing the library service  
4. Accessibility  
5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The access to the library from the precinct has always been difficult and clumsily implemented. A redesign / new build of the space will ensure better indoor / outdoor flow from the harbour overbridge / precinct into the library. Better utilization of space could also include ensuring that indoor performance spaces as alternative to outdoor spaces when wet.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Manners Street: The interior design is horrible and abrasive. The furniture is uncomfortable. It feels very cramped and exposed (to the street). It is not a space you would want to spend time in.

Q16. Where do you currently live?

Aro Valley

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

Male

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Don't think the council chambers should be tied to have to stay with library
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Ultra fast broadband is a must. The old wifi at the central library was slow as a wet week and very frustrating. I like He Matapihi because it plugs into the National Library wifi which is fast and supports multiple users without blinking. This pop up library is also an ideal space to host my wikipedia / wikidata / wikimedia commons meetup. see: <https://en.wikipedia.org/wiki/Wikipedia:Meetup/Wellington> This meet up happens fortnightly on a Saturday between 10am and midday. We use the library space as it is close to a public transport hub, provides computers so makes the meeting inclusive for those without computers, and has excellent wifi (mostly - there's been one occasion where the wifi failed). The downside is not enough spaces for a growing community group. The one table that seats 8 available in the library doesn't have enough plugs for all the laptops - I regularly bring in an extension power board. The group is also growing and we are squeezing in 12 at the moment and the group is continuing to grow. The group can also get noisy with its discussions - so some kind of free, easily booked meeting room would be extremely useful so as not to impact other patrons. Equipment-wise it would be beyond awesome to have a projector or large screen we could attach our laptops to so we could demo to each other the work we are doing. That library does have a large screen we can connect with but the table it is next to is smaller and seats only 6 so the group becomes extremely cramped. As a personal user of the library - after visiting the Manners library I never went back. The fact that the City Council was also using the space to provide user support meant the space was too noisy. The space was too small and uncomfortable for laptop work. It wasn't conducive for study / reference hunting. Having separate quiet spaces would be useful. Plenty of desk space with power and chargers would be best. Collaboration spaces. Research Librarians providing support etc.

Q16. Where do you currently live? Island Bay

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
It's totally under-utilised it needs better design surrounding it to invite more use. It's a beautiful heart to the city which we should emphasise
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Arapaki is very crowded, needs more seating. Te Awe is spacious and has lots of seating which is good. It would be good to have access to rooms to use for meetings as in the central library on a rental basis. I see there are some meeting rooms at Te Awe, but they are very exposed with too much windows.

IP Address:

Q1. Your name\* Jonathan Fletcher

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Wellington really benefits from having a central library in the city. One of the things about Wellington is that unlike many cities its central city is reasonably easily accessible from everywhere in the city. It is therefore practical to provide facilities in the central city that serve the whole Wellington community. A really top notch state of the art library built with the flexibility to meet anticipated future needs will be a valuable and cost effective asset for the city.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I am disappointed that a new build on the same site is considered to be a much longer project than a new build on a new site. When the council chooses this option it should look carefully at ways of lessening the lapsed time required to get the new library built and open. It seems to me to be totally illogical to spend more money strengthening and remodelling the existing building than it would cost to demolish and build a new state of the art central library a la Christchurch. The loss of the building is disappointing, but it is not worth preserving it only to spend much more than a replacement would cost to turn it into an 'OK' library.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Making the building safe  
3. Cost to ratepayers  
4. Sustainability  
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It would be great if it could become a well used and popular gathering spot - the public square of Wellington. To achieve this it needs, amongst other things, to have public building that provide services that attract lots of pedestrians, libraries are a good example of these, and the new library should be designed to attract people into the Te Ngākau Civic Precinct.

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

not answered

Q17. Which of the following ages groups do you belong to?

not answered

- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I was happy with the previous library as a space and what it provided to the community. So getting that, and the unique building back was great.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C -- High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- Not specifically
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Making the building resilient
  3. Heritage
  4. Climate change
  5. Future-proofing the library service
  6. Accessibility
  7. Te Ngākau Civic Square connections
  8. Sustainability
  9. Cost to ratepayers
  10. Timeframe
  11. Other (please specify)
  12. Opportunities for partnership
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral
- More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- I like the civic square space - but would be good if all the council services were back there and the it connects to the waterfront better.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They keep the idea of a central library alive and remind us how much we lose when we do not have a good purpose built central library

Q16. Where do you currently live? Khandallah

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Male

Respondent No: 44

IP Address:

Q1. Your name\* Mary Ellen Gordon

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think a distributed library service is more suited to the future. There is no real reason to have most library services in a central location. Doing so is less environmentally friendly than having services closer to where most people live, it's less resilient from an earthquake standpoint, and it's more expensive for ratepayers. Why not enhance existing suburban libraries (longer hours, more resources, etc.) and open a few more small libraries that could also act as Council community service centres and continue to distribute any content to any library and offer programmes, etc. at many branches?

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If you do go with one central building, I can't understand why the preferred option is to repair the existing building when building a new one could be done far less expensively and also faster. That's especially true in uncertain economic times and when rates are in demand for many other things such as fixing the water infrastructure.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Sustainability
3. Cost to ratepayers
4. Future-proofing the library service
5. Timeframe
6. Making the building safe
7. Making the building resilient
8. Accessibility
9. Heritage
10. Te Ngakau Civic Square connections
11. Opportunities for partnership
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not specifically - I understand you're doing your best to offer the best service under the circumstances

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Male

Respondent No: 45

This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I believe that offer a special opportunity to Foster learning and connection. I'd like to see a new building design to allow groups to learn, organise and design together. Rooms for presentations and public events, rooms for meetings and break out sessions, rooms that allow for creative play using new technology would all be on my list but also a design that takes into account the natural landscape and ecology and creates several spaces for people to find nooks and crannies that allow them a private, immersive moment in their literary adventures or studies.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. - More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city? not answered

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I'm concerned that plans for this are not adequately taking into account the impact of sea level rise and that a lot of money may be being spent on things that will be threatened by sea level rise within the life span of those buildings. To the extent that area can be protected from sea level rise, I think reopening the Town Hall is more important than what happens to the library.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

You only have to visit the new Christchurch Library to see that it makes no sense to spend millions of dollars on remediation of an outdated library when you have the opportunity build a new state of the art library for Wellingtonians. Libraries are no longer what they traditionally once were, they are now also community spaces, tech spaces, music spaces, working spaces, making spaces. The new library should be progressive, forward facing, no backwards. The library could benefit from more windows and light streaming through, a beautiful central staircase that connects the building together. Seating opportunities such as stadium seating, cushion corners, high top tables - specific seating for different modes of working. There are opportunities for meeting rooms, moveable zones for different uses. The old library lacked a soul, lacked character, lacked delineation of areas and zones - we have an opportunity to rethink the entire layout if we build new. If we are going to spend this much money on the library, why would we not build new to the highest earthquake standard, for the longest lasting outcome.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Te Ngakau Civic Square connections
3. Making the building resilient
4. Future-proofing the library service
5. Climate change
6. Timeframe
7. Accessibility
8. Sustainability
9. Cost to ratepayers
10. Heritage
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Discard the current large monolithic building and develop library services that expand on the current model adopted during the closure of that building and during the Covid-19 pandemic of smaller hubs dispersed around the city. Expand the online systems allowing easy and free reservation of titles. It's madness to build a large expensive public building to store many titles that really could be stored in a warehouse style archive with decent climate controls. Think of how Amazon etc manage their warehouses and deliver to collection points - there's no need to deliver to the home.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. See above

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Demolish it and build affordable housing

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Cost to ratepayers
3. Climate change
4. Timeframe
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Don't know

More windows to help connect the library visually to the square and surrounding streets Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think you're trying to invent a role for this space

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

This precinct is one of the nicer precincts in Wellington, it is wide, sunny, close to both the city and waterfront. There are ample opportunities to regenerate this space again, back to the heart that it once was.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Manners Library would benefit from an external returns slot of after hours.

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Female

not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Making the building resilient
  3. Cost to ratepayers
  4. Future-proofing the library service
  5. Te Ngakau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply
- Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Miramar

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* paul jones

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The council must start to reduce costs for ratepayers in the post COVID recession. It has shown a woeful lack of understanding of the new economic landscape and seem to have their head in the sand thinking she'll be right and everything will be back to normal soon.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Timeframe 3. Making the building safe 4. Heritage 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

How can you add more windows to what is essentially an all glass exterior. Stupidest idea yet

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Never

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Outside Wellington City

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

More public spaces is always a good start!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C -- High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The reason that option C is my preferred option comes down to the fact that Option C is a known quantity, whereas a new build, whilst providing a blank template, is an unknown quantity. And as the Pro's & Cons point out, will mean that the process will take longer. I think that we should go ahead and repair the building to the highest possible resiliency so that in a few years we aren't in the same position again. The phrase "do it once, and do it right" comes to mind. I dislike option E because I think that the existing site is perfect for the central library, and I have a certain amount of nostalgia associated with it. And honestly I can't think of anywhere else in the city that would be as good a location as where it is now. Option C gives us the best of both worlds really, higher resiliency and a refresh, whilst saving us from having to figure out a demolition and new build Re: Question 8, to expand on my "other" selection - The chance for a refresh and update

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Sustainability
5. Climate change
6. Other (please specify)
7. Te Ngakau Civic Square connections
8. Timeframe
9. Accessibility
10. Heritage
11. Cost to ratepayers
12. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Kingston

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Male

This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Invest in more comprehensive, user friendly services and deliver all kinds of content on a single, searchable service. Libraries have to deliver instant results from credible sources. Vagueness, long waits and unresolved requests are not acceptable when so much is online. Libraries should lead the building of intelligent discovery systems and create an engaging digital experience. Individual tailored selection for previous searches and interesting new suggestions. Linked media. ie if you were looking for whales you get art, biology,music, scientific papers, moving image - documentaries and films etc. Study areas that are more private and plentiful, separate noise proof young children's area.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. - Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- More shaded seating
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

I have always had a tremendous amount of nostalgia for Civic Square, as it was somewhere I spent a great deal of time before I moved to Wellington. I think it is a huge shame that currently it is not used as much due to the library and town hall closures. Ditto for the fern ball not being there currently due to repairs! And as you have already pointed out, the square is both an important and nice public space, as well as a well known staging point for protests! The only thing about it that I think could be improved would be to "open it up" so that it is more easily accessible to the city (for example to Cuba St). The current entrance from Victoria St is rather narrow, as are the other smaller access points (like the one from Cuba). I also wonder if potentially changing the steps to the bridge into a more modern... slope or ramp perhaps, could also help to open up the square. Apologies if this is off topic or out of scope!

Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Once or twice a year

Q14. **There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q1. Your name\* Siobhan Leachman

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I believe that this process should concentrate on the main issue - providing a fit for purpose, earthquake safe central library for Wellingtonians. As a result of failures in the design of the 1991 building, Wellington City Council has the opportunity to create a state of the art library space that could satisfy Wellington people's library needs and be the envy capital cities internationally. The council could build and improve upon process used to design the Christchurch library Tūranga, and take inspiration from well designed library buildings around the world. In these times when the divide is growing between the haves and the have nots, including the growing "digital divide", the central library can help to mitigate these issues and be a true place of community. The Central Library has always been so much more than books and it will continue to be so. The Athfield central library building was built in 1991 prior to the internet becoming a daily fixture in most people's lives. I see the failure of the current central library as an opportunity to build a new library at the existing site that is not just fit for purpose in that it stands up during earthquakes, but is also designed to cater for the way our lives and libraries have changed as a result of the internet and the digital connections that are now so prevalent.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I recognise there will be a debate when it comes to the merits of keeping the Athfield designed library. However given the Wellington rate payers are going to be fitting the bill, and as a rate payer myself, I am of the opinion that I would rather buy new than pay significantly more to keep a building whose design, although aesthetically pleasing has failed to ensure the safety of its inhabitants, and did not envision the all pervasiveness of "digital" in our lives. A newly designed building on the site will not only be a cheaper alternative, it will be fit for purpose with an opportunity to ensure Wellingtonians get the Central Library they deserve.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Future-proofing the library service
3. Making the building safe
4. Making the building resilient
5. Timeframe
6. Accessibility
7. Te Ngakau Civic Square connections
8. Opportunities for partnership
9. Climate change
10. Sustainability
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

5. Heritage
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Wellington needs more safe, smart, monitored bicycle parking to make people ride more, specially to places like library, council, galleries
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Te Awe Library Brandon and Panama Streets  
He Matapihi Molesworth Library  
Arapaki Manners Library and Service Centre

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

If a newly designed building is chosen there will be an opportunity to remove the imposing steps currently used to gain access to the central library from the Civic square. It would also allow entrance to the library without having to enter through the Clarkes cafe, always an obstacle at lunchtime. I have always regarded this entrance way as badly designed and a hinderance to the flow in and out of the library.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I enjoy their modern feel and also their smaller spaces. Finding and discussing issues and needs with librarians is easier in these more intimate spaces. There are significantly more computer terminals, digital devices, and the ability to charge your own devices is improved from the previous central library set up. The speed of the internet wifi connection can still be an issue. How I wish libraries provided the best, speediest internet connection available. However, as there are now three different branches, you don't get the breadth of content/books you did at the central library, there are restrictions on bringing food into some of the libraries unlike the central library, and there aren't as many "cubbies" in order to be able to isolate yourself for in depth study or research.

Q16. Where do you currently live?      Brooklyn

Q17. Which of the following ages groups do you belong to?      45 to 49

Q18. Please choose the gender that best identifies you      Female

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? It's not really needed. We have suburban libraries, and Wellington is home to the National Library. Go digital - it's cheaper, content lasts longer and can be 'borrowed' by more people. It'll be a lot faster too.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Sustainability 3. Accessibility 4. Future-proofing the library service 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following? Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city? It's not really that important any more. It's rarely used - only pigeons are there most of the time. Apart from a few hours for a few days a year it's just a big wet and windy dull space that's no more than a pedestrian shortcut. There are plenty of other and better open area options close by.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Just good that they came online to plug the gap

Q16. Where do you currently live?

Vogeltown

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Male

Respondent No: 60

IP Address:

Q1. Your name\*

Andre Milkop

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

When a remediation is over 20-30% of the new-build cost, it is time to reject the remediation, because there are inevitable unforeseen costs with remediation - a prime example is the old Wellington Town Hall where the costs of the remediation have just gone up and up - remediation is just a can of worms. And the library is already 29 years old, and has to go the way of several other buildings - Statistics and BNZ on the waterfront, and the Defence building - all comparatively new buildings. Option E is also able to be completed in Nov 23, just the same as the cheapest remediation - with almost twice the life-span, and not much more cost to the ratepayers/year. As for Option C, it is too late, and far too expensive. Option D is too late - it takes 2 years longer than Option E. Option A is insufficient, and not worth the risks of being out of action again. Option B is a 2nd best solution - not much later than Option E, and not much higher in cost, but Option E is clearly better.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Cost to ratepayers
3. Making the building safe
4. Future-proofing the library service
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Haven't used them but assume they're cheaper to run so that's a benefit.

Q16. Where do you currently live?

Wadestown

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Beth McCraw

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

To Continue: - A cafe - Computers & monitors (but updated hardware & software) for use by the community What did the old one lack which needs consideration: - more lavatories and more stalls within the women's lavs - comfortable seating for casual readers (not hard benches against windows or one off chairs randomly located) - seating areas with an array of seating styles (sofa style, chaise longue, armchair) that also have occasional tables for putting drinks/handbags/other materials on close to the reader - 'working spaces' with tables & chairs that meet the height needs for those bringing laptops AND PLENTY of power points so people can keep their devices charged - sound-proof meeting rooms that the public can book for community group meetings (such as MeetUp groups etc.) - Soundproof rooms (at least a dozen) for 2 or less individuals for those doing research/studying in the library - which are bookable, with a maximum time limit - Dedicated library WiFi as the "cbd" wifi the old library relied upon was completely inadequate for the amount of users and there are people across the community that cannot necessarily afford high-speed internet (nor even have the infrastructure yet thanks to Chorus). - soundproof areas to host children's programmes such as reading to children etc., toddler sing-alongs etc. so that other library users aren't disturbed - LIGHT and WINDOWS - that old library site is a pit! No direct sunlight ever gets in and most of it is as dark and dank as the worst parts of Aro Valley! The incandescent lighting is abominable as well. - Materials: consider whether the library of the future needs much shelving or any at all - most physical books are manufactured in the northern hemisphere making them expensive and slow to arrive in NZ. Whereas the library is already trialling ebooks and Kindles and other ereaders that aren't device dependent are becoming common. So is shelving even a requirement for GenX (the next wave of 'mature' users) and younger future users? Most of the suggestions that I have for the new library are not met well in the Wellington library network, but ARE met well in Christchurch's library network. Fly down there and check out their new central library and the Halswell library. Even their older Beckenham/Southside library is much better than most of the neighbourhood libraries in Wellington. Same with Auckland: better central library and the Berkenhead branch on the north shore is again better than any of our Wellington libraries. Johnsonville is good in many respects but still lacks work areas and much comfortable seating.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Yes, go assess the central libraries in both Auckland and Christchurch to see what they have to offer that was never catered for by the old Wellington Central library. Don't make the mistake of thinking parking is a need: supposedly we are encouraging people to use 'green' methods within the CBD. Consult with the libraries team AND the assets management team (I'm guessing they were the sponsors of the new central library) within Christchurch City Council to gauge whether 2 years on the 'new' central library is meeting their expectations, what has their public feedback been since its opening and from their project team: what were the learnings? What would they improve if they were to do it again?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Making the building safe
3. Accessibility
4. Making the building resilient
5. Sustainability
6. Climate change
7. Future-proofing the library service

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live? Tawa

Q17. Which of the following ages groups do you belong to? 75 to 79

Q18. Please choose the gender that best identifies you Male

- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The site of the Central Library there was always POOR because ALL natural light is blocked by the Museum, making the library a dark, dank hole that nobody actually enjoys spending time in, they are there simply because that is all that is on offer. Demolishing the old central library and utilising the site for some other purpose would be a better solution. People don't care about how close the library is to the police station, museum or council chambers, people care about a library that is a pleasing space to be in and meets their needs. In the 'ranking' exercise next to "other" you provided no free text field for users to inform you of what they were ranking, so here is my explanation: THE NEEDS OF RESIDENTS - that is my NUMBER 1 Requirement. As a taxpayer I will be paying for the library, therefore the first thing it needs to do is meet my and the other taxpayers needs for a pleasant, well lit, warm, relaxing environment to research, read, listen, watch, interact with materials and people.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I don't like them, I have utilised them only when they were the only site I could obtain what I needed.

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? Prefer not to say

Q18. Please choose the gender that best identifies you. Female

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Knowledge services should always be a main focus & being an collection and research facility
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
The library is not just about its services but also its built heritage. That needs to be treated sympathetically when remediated
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Heritage  
2. Making the building resilient  
3. Future-proofing the library service  
4. Sustainability  
5. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Less than once a year
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

There is limited study space. I gave up and studied elsewhere

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Annie Collins

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I have always loved the Athfield design and particularly the nikau palms - they're just the best - and the openness of the interior, having the cafe there. It was a real hub to the city, so please retain that feeling, and the ability to use the building for meetings etc.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
 Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
 not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
 not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- 1. Making the building resilient
- 2. Accessibility
- 3. Sustainability
- 4. Future-proofing the library service
- 5. Te Ngākau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?  
 not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Make it as friendly as possible for groups wanting to perform there, families wanting to picnic there, people wanting to lunch there. The pools have been empty for years and some undulating ground and a few small native trees would be pretty nice.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Island Bay

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think the building is fabulous. I know it needs more technology options for the future and more quiet spaces, but having written whole post grad law papers in the former library, met my ESOL students etc I was super impressed with the multi user who inhabited the building

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Cost to ratepayers
3. Sustainability
4. Making the building safe
5. Future-proofing the library service
6. Te Ngakau Civic Square connections
7. Climate change
8. Timeframe
9. Accessibility
10. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Wadestown

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Female

Respondent No: 68

Q1. Your name\* Sarah

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should retain all of the books and be accessible to young people

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C -- High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It's an incredibly special building which many young Wellingtonians have grown up using and remember fondly. Don't build something new for the sake of it - it's architectural masterpieces like this that make Wellington the amazing city that it is

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Heritage
4. Timeframe
5. Cost to ratepayers
6. Accessibility
7. Opportunities for partnership
8. Te Ngākau Civic Square connections
9. Future-proofing the library service
10. Sustainability
11. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think it's a fantastic space that is well loved and well used, and a great gateway to the waterfront. The City Gallery is a fantastic resource. Civic Square is the true heart of Wellington and should be used more for community events.

Q14. There are interim CBD libraries in Manners St, He Matapihi Molesworth Library National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 65 to 69

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think it is a wasted opportunity in our lifetime to not take advantage of the space from the CAB and Central Library to create something amazing. We will never get the opportunity of having a land this size being available at the same time again for a very very long time. It is time to think long term and create something amazing that the council and Wellington can be proud for years to come.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Sustainability

7. Te Ngakau Civic Square connections
8. Making the building resilient
9. Timeframe
10. Making the building safe
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They're small by necessity and don't have the same vibrancy of the main library, but they do make the library more accessible to more people

Q16. Where do you currently live?

Kelburn

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Q1. Your name\* Kate

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library is an important community space that supports learning, engagement and social cohesion. It is a place for students to study, the homeless to wash and stay warm, writers to write, readers to read; a place where music, film, literature, history, geography, crafts and much more sit side by side. It is a place where people without access to modern technology can access it. It needs to be all these things to be of value to the largest number of people.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The future is difficult to predict, so whatever core functions the building has now, it needs to be versatile so it can adapt to the changing needs of the community.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Cost to ratepayers
3. Timeframe
4. Accessibility
5. Making the building safe
6. Making the building resilient
7. Sustainability
8. Climate change
9. Heritage
10. Opportunities for partnership
11. Te Ngākau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is a fantastic location as it sits about halfway between the Lambton Quay/ Parliament section of Wellington and the entertainment precinct in Courtenay Place. The central location is one of the reasons it is so important to keep it there.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Nothing - it does not feel like central library. Its definitely feel temporary and a space to just pop in and to get out asap.  
There's no heart to it.

Q16. Where do you currently live?

Hataitai

Q17. Which of the following ages groups do you belong to?

30 to 34

Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Hurry up and bring back life to Civic Square- return it to the civic centre it was- the town hall, the council administration buildings, the library (and art gallery). Work out what you're doing with CAB- Mr Lavery/ Mayor Lester have left now so theres no chance of the precinct being bowled and sold to developers. Perhaps in this post covid new equilibrium (wfn, flexible/agile working) all WCC staffers could be housed in MOB-CAB...save the rent on th Terrace, bring life back to the square. The Music School will bring people but not life back to Civic Sq like the admin buildings would.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The Central Library needs to anticipate community needs for the next fifty years - Option C provides the best platform to do this, while still making use of the prime location in the centre city. The increased cost compared with other options is, spread over a number of years, justifiable - particularly considering that Options A and B also do not provide adequate strengthening to preserve the library in the (extremely likely) event of further earthquakes in Wellington

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Future-proofing the library service
4. Te Ngākau Civic Square connections
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6 He Matapihi Molesworth Library  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The service centre /library combo is a bit of a hang out for deros. Can we at least provide showers and laundry facilities for them as well as somewhere warm and with wifi.....

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Female

**Respondent No:** 74  
**Login:**

Q1. **Your name\*** Cedric Hunt

Q2. **Your email or postal address**

Q3. **You are making this submission:** as an individual

Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No

Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**

It should principally be a library. The selection of books at the current time is very poor for a capital city library. Anyone wanting to read previous books of an author will often find that these are no longer in the catalog. A library's key purpose is to have an adequate range of books so a much enlarged shelf space is required. The other fancy bits and pieces are "nice to haves" but should not impinge on a library's key purpose. Having lots of reading and study space is also vital.

Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option D -- New build on same site

Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered

Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**

Now with a rebuild is the opportunity to add further floors to display and house a greater selection of books, allow for growth of both book numbers and Wellington's population as well as creating a building which better suits its uses through innovative design. The rebuilding option I understand will be better value for money than remedying the existing building and getting the best value for each ratepayer dollar should be a key Council aim. The new design can ensure available space is optimised and the space wastage in some parts of the existing building reduced. Even if the cost of rebuilding a new, larger and more usefully longer design proved to be more expensive than Option C, the long term public benefit should repay the extra expenditure many times over because future addition of further library space in the central city would be pushed out to a much later date. There is nothing unique or special about the existing building that needs preserving and high level remediation which I would rank as the second best option may impinge on the internal space available in the current building and detract from its internal appearance. Let us put any sentimental affection for the existing building to one side and make a rational and financially efficient decision to create a building that will serve Wellington immeasurably better for the medium and longer term future. Let us have a result that will be an enduring celebration of the vision of decision-makers today rather than preserving the existing library a modified, aging and increasingly ugly monument to past thinking.

Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**

1. Making the building safe
2. Future-proofing the library service
3. Accessibility
4. Cost to ratepayers
5. Te Ngakau Civic Square connections

Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered

Q11. **Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?**

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
I hope we can keep the parking underneath.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Future-proofing the library service  
4. Sustainability  
5. Accessibility
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
He Matapihi Molesworth Library

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are short term stop-gap options which are unsatisfactory and the sooner a decision is made on the future of the main library the better. Best to avoid spending any more ratepayer money on them.

Q16. Where do you currently live?

Churton Park

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Male

- Q1. Your name\* Carolyn Fredrickson
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
I would like to see the palm trees moved to create a 'forest' together somewhere public, civic square? And a new building built on the same sight with good connectivity to all side including City Art Gallery.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Accessibility  
2. Future-proofing the library service  
3. Te Ngakau Civic Square connections  
4. Making the building safe  
5. Sustainability
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I love the fact the Molesworth library is NZ Authors, such a lovely space.

Q16. Where do you currently live? Thorndon

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Jane

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A space for people to be with books, audio, latest technology, work, workshops etc. A place for people to meet, learn, in a warm open spaces and nooks for those that need them. Something more along the lines of the Christchurch City Library.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Build for the future - long term. The current building is not worth keeping. Spend the money on other projects rather than trying to improve the current building.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Other (please specify)
3. Sustainability
4. Timeframe
5. Opportunities for partnership
6. Cost to ratepayers
7. Te Ngākau Civic Square connections
8. Accessibility
9. Future-proofing the library service
10. Making the building resilient
11. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

Q1. Your name\* Celia

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Climate change is coming and the waterfront will probably be under water in a few decades- we need to think ahead a bit more and consider another site. For example instead of building a convention centre, we could make that the site for a new library (or even repurpose the resource put aside for that, instead use it for a new library).

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Making the building resilient
3. Making the building safe
4. Accessibility
5. Future-proofing the library service
6. Timeframe
7. Sustainability
8. Opportunities for partnership
9. Te Ngākau Civic Square connections
10. Cost to ratepayers
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's so important for our homeless community as a warm safe place you can go hang out and not have to pay for.

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Staff are wonderful but missing that main library sparkle. Space issue?

Q16. Where do you currently live?

Island Bay

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Female

- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Like Brandon st for its size, arapaki is too small-- not enough seating or nooks to hang out. Very exposed to the road too.

Q16. Where do you currently live?

Brooklyn

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

- Q1. Your name\* Chris Dutton
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
I think the library should have spaces for community groups and presentation/meeting rooms for non-profit or professional development organisations, so they don't have to pay \$800 each time a room is needed at the National Archives building.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D -- New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Please don't remediate the existing building it is simply not fit for purpose.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Making the building safe  
3. Cost to ratepayers  
4. Accessibility  
5. Te Ngākau Civic Square connections  
6. Making the building resilient  
7. Sustainability  
8. Timeframe  
9. Opportunities for partnership  
10. Heritage  
11. Climate change
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing

This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Option a - get it open again asap. Once it is open we can start planning to build new when it reaches the end of five. PS How fixed are your prices? I remember the estimates for the Town Hall and how accurate they were (not) and how quickly it could double etc.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1.

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I have been to the pop up in the National Library building, I assume it is the one referred to Molesworth above.

Q17. Which of the following ages groups do you belong to? not answered

Q18. Please choose the gender that best identifies you not answered

Q1. Your name\* Huia Welton

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library could and should be a hub for the broader community. a free accessible space - so much more than simply a place to borrow books from!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The central library is the heart of the city - please treasure it as much as me and my family.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Opportunities for partnership
5. Future-proofing the library service
6. Climate change
7. Sustainability
8. Timeframe
9. Te Ngākau Civic Square connections
10. Heritage
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Just how incredibly important those things are.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Weekly

Q16. Where do you currently live?

Woodridge

Q17. Which of the following ages groups do you belong to?

Prefer not to say

Q18. Please choose the gender that best identifies you

Prefer not to say

Q1. Your name\* Ben

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library would provide a comfortable public space for all of the cities residents. It would have facilities to meet everyone's needs and a range of spaces both inside and out.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The space around the library and including the library is cold, dark and prevents the connection from the city to the bay. Future plans should address this and provide improved public spaces.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Accessibility
2. Future-proofing the library service
3. Te Ngakau Civic Square connections
4. Climate change
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The space is in a prime position in the centre of the city but is designed in a way that prevents natural connection and flow to the ocean and Wellington's natural beauty. It's cold, uninviting and underutilised. Changing the design of the library and the adjoining area can bring life back into the space.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Brandon street is well-designed, modern and has a cafe

Q16. Where do you currently live?

Oriental Bay

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Male

- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Please please please make it modest. A modest new building would surely be the cheapest option. Nothing fancy. Do not try to remideate It will enviably cost much much more.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers  
2. Climate change  
3. Te Ngakau Civic Square connections  
4. Sustainability  
5. Timeframe
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Southgate

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Dylan

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

There is a great opportunity to transform the library into a far superior community space. With new technology integrated to not only book loans but the access to technology the library provides. As well as build the space with the future in mind, especially by consulting with young people who will be using this space for the 50 years you envision. I don't know how you will combat a sea level rise, but none of our new construction really thinks about that.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C -- High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please make it lighter inside and provide more usable spaces for people to connect and collaborate. As the essence of a library is to collect and share knowledge, no matter if its in paper or idea based form this is what the library of the future should be doing.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Sustainability
3. Making the building resilient
4. Climate change
5. Accessibility
6. Heritage
7. Opportunities for partnership
8. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Northland

Q17. Which of the following ages groups do you belong to?

35 to 39

- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Yes but we need to be able to afford it and everything else. What about the 100 year old sewer pipes that keep breaking
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Don't have yet another stuff up for ratepayers to fix
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers  
2. Other (please specify)
- Q10. If you selected 'other' above, what other factor was important in your decision?  
The council has a really poor track record of not delivering things on time and in budget. I fear this will happen with a library redevelopment. Also what ever happened with let's get Wellington moving - it should be called let's get Wellington talking.
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Don't know  
More windows to help connect the library visually to the square and surrounding streets Don't know
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
All this design stuff is nice to have but what about the sewerage that flows from broken pipes that need replacing. Get your priorities right. Maybe bigger windows in the library will offer a better view of sewerage in Victoria street when the pipe breaks again
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Churton Park

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

free meeting space for community activities and to support local businesses, dining area, larger sitting and table space around cafe/dinning area, better handicap access, keep the space for free council support with ESL classes and immigrant/visitor support services available

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

When selecting the new location, consider where you want to draw people, parking situations, proximity to the train station, and sun location/direction for peak efficiency.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Opportunities for partnership
2. Accessibility
3. Making the building safe
4. Sustainability
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are ok

Q16. Where do you currently live? Ngaio

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Male

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Waitohi the Johnsonville library and the new ChCh library show how new library spaces do more than hold books. Places to convene meetings, sharing of knowledge in making spaces, exhibition spaces, community programmes etc....

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think the city needs a library with cost and timeliness the priority as well as earthquake resilience. Post covid the option for either rebuilding onsite or Elsewhere must be attractive especially how projects always go beyond budget. A project completed quicker has to be ideal. Old treasured architectural bits ( the iconic Nikon's) surely can be reused. Waitohi is a beautiful example of a new build library which is a stunning, resilient, efficient, accomodating, inclusive library and community space and should be held up as an 3xample of what is possible.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Cost to ratepayers  
4. Timeframe  
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?  
The current location of library isn't terribly accessible for many due to parking issues. Having it relocated could provide huge opportunities for a refreshed and civic square space especially if frank kits is remodelled to allow bigger mass gathering

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

With remodelling at frank kits ( and the Chinese gardens - unsure if they are still going ahead which I think is a terrible use of that space) events like matariki, light festival etc we need bigger gathering open space. Removing the library allows for more space for an open, safe vibrant and creative space in the square.

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Good location for major bus stop and bringing people toward Manners Street businesses. It's too small for a capitol city library but better than nothing.

Q16. Where do you currently live? Wilton

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Tony Sutcliffe

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Presently, the books are in store and readily available at suburban Libraries and CBD Service Centres. The Building is essentially ugly except for the Civic Square Facade and the front entrance It serves no immediate function. It could be made safe and put aside whilst more urgent priorities are attended to. Sewers spring to mind!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Make present facades safe. Could be used as Convention Centre, if and when the Convention Industry re-starts. Put Library (if a Central Library is deemed necessary in future) in proposed Convention Centre. This would form a 'Cultural Centre' with Te Papa across the road/

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

IT IS NOT A PRIORITY!!!!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Heritage
3. Te Ngakau Civic Square connections
4. Opportunities for partnership
5. Cost to ratepayers
6. Timeframe
7. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Don't know

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Needs tidying up PROMPTLY

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I have not used.

Q16. Where do you currently live?

Tawa

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Edith Marion Crawshaw

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I agree that the library needs to be fit for purpose in the future especially as regards digital access. But care needs to be taken that the library does not become a huge expensive wish list A definition of what the future library is and is not would be useful.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Some people want to keep the present building even if proper remediation is the most expensive option, possibly because it is familiar, attractive and change is difficult. It may be that retaining some of the features that these people value, including perhaps the nikaus, might be a way to keep people on board with the more sensible option of building a new building for the future. Also, Wellington is full of Council vanity projects while the infrastructure is crumbling. The Convention Centre was unnecessary but we are stuck with it. Wellington needs a much clearer long term prioritised pipeline of projects that balances iconic cultural buildings that help to define our city with the basic infrastructure to keep the city operational.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Cost to ratepayers
4. Future-proofing the library service
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is an ugly mess, unsafe and with no architectural connections between its elements. There needs to be a (very) long term plan to turn it into an attractive welcoming place. A new library on the same site could be the first move.

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Richard Reddaway

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Our current central library appeared to function exceptionally well. Certainly, I enjoyed using it over the last 20 or so years and observed many, many others using the library. As parents of a young child, it was a wonderful place to visit with our son. That the library is a repository of books meant that it always felt like a place that any one could use, and for a variety of purposes: reading and borrowing books, obviously, but also kids after school students studying, people doing business, spending part of the day, and so on. It was an incredibly inclusive place (unlike the art gallery next door... and I don't mean that as a criticism of the gallery) in which it felt like everybody was welcome. And the building is, has become, part of our architectural heritage. I love Athfield's design and that is worth preserving in and of its own right.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please get on and sort this out.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Accessibility
2. Heritage
3. Making the building safe
4. Sustainability
5. Climate change
6. Te Ngakau Civic Square connections
7. Making the building resilient
8. Future-proofing the library service
9. Opportunities for partnership
10. Timeframe
11. Cost to ratepayers
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are accessible although I'm close to the Central Library too. While I haven't used the library much recently I do think a central library is an important part a city. The Arapaki library is OK for an interim solution but it's not a long term one.

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Integrated better with Civic Square to create a space that feels like an anchoring project to the city, not just a library. Create an iconic, landmark building for people to orient themselves to.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

11. Timeframe
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I really dislike the plastic grass, even though I understand why it's there. Why, though, has this not been resolved?

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Similar atmosphere to that which the current closed Central Library had when open - a warm community hub providing a range of concurrent services; including traditional library services as well as being modular and flexible to allow for future reconfiguration as learning options, technology and community needs change. A Central Library provides a unique focal point, and should have a large warm enclosed open space feel. The Hub at Vic uni Kelburn campus is the only other place in Wellington that provides this. It is a place to go to as well as a place to pass through.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- Need to get on with setting a clear strategy for all of Civic Square and then get on with it. Community value is being delayed and destroyed by what appears to be disunity and lack of strategic focus within Council.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Other (please specify)
  2. Te Ngakau Civic Square connections
  3. Making the building resilient
  4. Sustainability
  5. Cost to ratepayers
  6. Timeframe
  7. Accessibility
  8. Future-proofing the library service
  9. Opportunities for partnership
  10. Climate change
  11. Making the building safe
  12. Heritage
- Q10. If you selected 'other' above, what other factor was important in your decision? Providing a facility that can host the services of value to the community.
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

not answered

Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

Te Ngākau Civic Precinct has fantastic potential as a community hub. The current piecemeal approach and apparent inaction on addressing the future of the spaces currently occupied by Municipal Office Building, Civic Administration Building, CAB, Central Library, Capital E, the underground space and the connection to the waterfront is disappointing. We need a bold and clear blueprint for an integrated approach, which can then be developed progressively. It would be good to see some strategic joined up thinking and shared vision for a change... Make the ground level spaces a place people want to come to to do things and meet others, add in mid sized performance venues that the city is so short of, put the civic functions (and commercial offices) in the higher levels, keep the central open space, drop the road traffic underground and have easy walking access to the waterfront, and then we'll have Civic Precinct worthy of the name...

Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?**

Monthly

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library is our community hub, and should be a space where community groups & individuals can utilise for their mutual benefit. This means having dedicated spaces to hold gatherings or meetings. The central library is also a place where people must feel connected to their beautiful city, and therefore it should incorporate elements that identifies and reflects our heritage, and who we are today and how our city may look like in the future. The central library cannot just be about books and computers, it must be vibrant and exciting.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We need to explore our options for the central library building based on my personal preference for a new build. We cannot simply say the existing building should be demolished as the building has served the people of Wellington well, and there may be some significant historical factors supporting the retention of the existing building. I just believe a new central library to be built within the civic square would be the best option as it will connect the library to the harbour.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Te Ngakau Civic Square connections 2. Making the building resilient 3. Making the building safe 4. Future-proofing the library service 5. Cost to ratepayers

Q10.If you selected 'other' above, what other factor was important in your decision? not answered

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

The precinct is critical to the city as it serves as the beating heart of the city, but I believe the precinct is best served as a public space if it were opened up to our glorious & world renowned harbour. Whilst costs & engineering would obviously be a challenge, I believe part or all of Jervis Quay should be transformed into a cut & cover tunnel that rises into Cable Street similar to what has been achieved at the Pukeahu National War Memorial. Civic Square & the precinct can then be extended by way of a public space over the tunnel towards the lagoon and harbour thus removing the existing bridge and traffic that would be travelling through the tunnel. In building a new central library in the Civic Square will create a tangible connection between existing buildings within the square, but it will showcase the library as an iconic structure sitting at the heart of city with her love, warmth and peaceful tranquillity radiating out through the harbour to welcome the people of Wellington and visitors alike.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?**

Weekly

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Look at the new Christchurch library. That's what we need! Beautiful design outside and inside User friendly spaces for all different age groups and needs Cutting edge technology View of city from the top floor Excellent toilet facilities Cafe with great food Public transport at the door.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Have never been a fan of the current building. It's dark, overly industrial in internal design which makes it uninviting. I'm a passionate Wellingtonian with belief in saving our heritage but do not think the current building deserves heritage status, nor does it have it.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Timeframe 2. Te Ngakau Civic Square connections 3. Making the building resilient 4. Future-proofing the library service 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Everything about Civic Square is just sad and a total embarrassment to our city, Fix the library, finish the Town Hall and reopen the municipal offices ASAP. Then replace the worn out fake grass and do some landscaping. Then it will become a natural attraction and focus for events, meeting up etc etc .

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Miramar

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

IP Address:

Q1. Your name\* Chris Buxton

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It could provide a lot for the community by not costing Millions of dollars more than it needs to. Spending less to provide a more up to date library built to reflect the needs of modern society makes far more sense than trying to work within the constraints of the old building. Those millions of dollars can then be used for other worthwhile initiatives for our city.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I am astounded by the proposal to spend so much re money to make safe the current building. surely you can save the key features such as the trees and reuse them in the new design. Have you no thought for the ratepayers.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Te Ngakau Civic Square connections 2. Accessibility 3. Climate change 4. Opportunities for partnership 5. Making the building resilient 6. Heritage 7. Making the building safe 8. Cost to ratepayers 9. Timeframe 10. Future-proofing the library service 11. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Manners Street is an apology for a library. Hardly any books. It's a service centre. Have only recently found out about the  
one in Panama Street, will try it. Not very accessible as city has hardly any car parks now. Can't carry books far due to  
disability.

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

The precinct does have a role to play as a place for interests to come together. But its relationship to the library is tenuous. I would suggest the public attending the library don't want an integrated experience to the outside activities. They want to focus on their activities in the library. To say otherwise to me suggests the researchers here manipulating this survey to gain the evidence they require to build a different case for change.

Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

Q14. **There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** I have not visited an interim library

Q15. **What do you like about the interim CBD branches? Is there anything you would improve or change?**  
not answered

Q16. **Where do you currently live?** Churton Park

Q17. **Which of the following ages groups do you belong to?** 55 to 59

Q18. **Please choose the gender that best identifies you** Male

Q1. Your name\* Dean

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Ensure it keeps to budget. The council have a terrible record (Town Hall, Omāroro Reservoir) at significantly blowing budgets out. We're informed the costings are "high level", however, completion date could be five years away. Are they so high level they've allowed for inevitable building cost increase and a substantial (\$40mil+) contingency? \$199 million is the biggest single investment Council have ever made - they must get it right, and they must stick to budget.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Cost to ratepayers
3. Making the building safe
4. Timeframe
5. Heritage
6. Accessibility
7. Future-proofing the library service
8. Opportunities for partnership
9. Sustainability
10. Climate change
11. Te Ngākau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Having visited Te Awe yesterday, I appreciate how there's finally an after-hours return slot in the CBD, and the improved non-fiction selection over the smaller Arapaki.

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Male

Respondent No: 113

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Big infrastructure projects always go way over budget so selecting the most expensive option is naive. We have also had some big earthquakes in recent times and the library was un-affected. Option B gives much greater strengthening at a currently reasonable cost while still allowing good improvements to the building and site.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Timeframe
4. Heritage
5. Future-proofing the library service
6. Sustainability
7. Accessibility
8. Te Ngākau Civic Square connections
9. Opportunities for partnership
10. Climate change
11. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q1. Your name\* Eric Hanley

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should be welcoming and provide easy access to a range of facilities and services. These should be based on, but not confined to, published material, sound and visual recordings, particularly electronic ones. It should provide comfortable spaces that encourage learning and discovery experiences, and should welcome in organisations that support such activities.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current building is not an architectural icon. The Nikau palms are wonderful and should be retained - the rest is a Post Modern mish-mash. Even Te Papa is a better modern building. It is a confusing building to navigate - the Civic Square entrance leads to a cafe and not much else. The non-traditional uses, whilst trumpeted, seem to have developed by accident - better to aim for such uses and do a better job of designing a building for such purposes.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Climate change
5. Sustainability
6. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Civic Precinct is pivotal to the centre of the city - an open space with links to both the waterfront and the CBD. It provides a wonderful location for public events, happenings and gatherings that draw on the city's energy and interests. It is the epicentre of civic pride in Wellington and needs to give off a warm and dynamic vibe.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Brighter, more open.

Q16. Where do you currently live?

Oriental Bay

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Male

Once every few months

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I have deliberately stayed away in order to give space to people who may need access and their services more than I do. I live near the National Library and that offers much of what I need.

Q16. Where do you currently live?

Thorndon

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I have surprisingly found the "little library" model quite good. I didn't expect to, but it actually makes the library (which is a big part of my life) even more accessible, and by offering less choice, I find it easier (mostly) to choose.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I am not too concerned about the heritage status of the building, as I am old enough to still think of it as the "new library building" and I always thought the nikau palms were a bit non-Wellington. And the space never seemed ideal as a library - too much wasted space. So ideal would be a cheap, safe new build somewhere else and the library building gets reused for something and whoever wants to use it pays for it to be repurposed.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Cost to ratepayers
3. Timeframe
4. Climate change
5. Sustainability
6. Making the building safe
7. Making the building resilient
8. Accessibility
9. Heritage
10. Te Ngākau Civic Square connections
11. Opportunities for partnership
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

19 to 24

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The assumption that anyone knows what a library should be like in 50 years is deluded. The present Library didn't anticipate the future either. Build something practical for the foreseeable future.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The council have bought into the argument that the current library is historical significant and should be kept. This has some merit, but I think that the rate payers of Wellington have come to the conclusion that our infrastructure has been wilfully ignored by council for too long and that pet projects need to be put on the back burner in the current situation.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers  
2. Timeframe  
3. Making the building safe  
4. Accessibility  
5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?  
Don't even try to make it relevant for what might happen in 50 years. It's not possible, and even if it was the elected officials and the paid officials don't have the skills to judge this.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's an epic fail for current and past councils that the place is now deserted. Get something built asap before the cost doubles again.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

I really like the artificial turf - that was a brilliant move. I like to go to civic square and sit in the sun. So Yes, more windows in the library (letting more sun in) would increase my use of the area if I could sit in the sun indoors as well. But I always assumed it was designed to minimise sun in the library building to protect the books.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

I actually like the relatively small choice - it makes choosing a book faster, because there are lots of new books, so I just grab something that looks likely and bring it back if I don't like it, instead of spending ages trying to find something amongst a lot of choice. On the other hand, when I want something particular (like classic books like Dostoevsky), I fear that the little libraries won't have it and it is probably still locked up in Victoria St. So ideal might be lots of little libraries, but you can order in something from the back catalogue.

**Q16. Where do you currently live?** Karori

**Q17. Which of the following age groups do you belong to?** 50 to 54

**Q18. Please choose the gender that best identifies you** Female

- Q1. **Your name\*** Marilyn Head
- Q2. **Your email or postal address**
- Q3. **You are making this submission:** as an individual
- Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No
- Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**  
Primarily and above all else function efficiently as the central city library catering for all - multi media, multi lingual or at least bilingual, and all access should be disability friendly. AotearoaNZ texts should be prioritised. Withdrawal rooms and spaces for community group meetings, training etc would be useful. Cafe, creche, toilets impt. On bus route.
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one** Option D – New build on same site
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**  
Keep the nikau, and ensure the building is beautiful to use and to work in.
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.** 1.
- Q10. **If you selected 'other' above, what other factor was important in your decision?** It should be iconic and beautiful and welcoming, where learning and shared knowledge is valued.
- Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**  
I love it and it has given Wellington the heart it so badly needed. The only thing lacking is the puny half built bridge - the other half needs to be built especially considering projected population increases
- Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

When the library closed I availed myself of the online services of the library. They are the future of library services, not buildings that you think will be useful in 50 years time. Who is advising the council on this matter?

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Male

- Q1. Your name\* Natalie Nesbitt
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Including interactive programmes for kids like Capital E is a good idea. Also needs quiet spaces. Places to have a coffee. A theatre for public talks. Could there be a resource room/s for projects? Look at what libraries around the world are providing. It definitely needs to be open longer hours on the weekends than it was, to be truly accessible to the public.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D -- New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
A new build is needed, but features like the nikau palms could be reused in the design.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Future-proofing the library service  
3. Sustainability  
4. Cost to ratepayers  
5. Timeframe
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
I think it could be more than it is. More places to sit, to eat, better flow with the library. The City Gallery doesn't feel like a city gallery - it only caters for those interested in avant garde contemporary art, which excludes a lot of people. I would love to see a broader range of works from other art periods, and international touring exhibitions.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

My friends like them, but I mainly use internet instead.

Q16. Where do you currently live? Newtown

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

Respondent No: 120

Q1. Your name\*

Ed

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

When I think about how I have used the library over the years, actually checking out and reading books, although important, is almost the least of it. It's a place to work, study, write, and catch up with friends at the cafe. I think a future library needs to take that into account - there need to be a range of spaces where people can be quiet and get on with things or be louder and spend time with people without disturbing the people who are looking for quiet. There should be spaces for performances and events - wouldn't it be great if the library actually became a hub for the writers festival, Verb, and all the other literary events that happen around Wellington? And given that we keep having spaces taken out for years at a time for strengthening, wouldn't it be a good idea to have a bit of redundancy in the spaces that are available so it's not so much of a crisis when it happens? If the library had spaces to accommodate some of the events that people in Wellington love (maybe a place to screen films, considering how many screens we've lost over the last few years), that would be an excellent move towards making Wellington's arts and culture scene more resilient.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Sure, I get it - the greenest brick is the one that's already in the wall and all, but the remediation options just aren't appealing. How many cost and timeframe overruns have there been for the town hall now, and what makes the options for the library any different. We need a functioning central library as soon as possible, and waiting five more years for refurbishment before we even start talking about extra costs and extra time is insane. The current building has a lot of good memories for a lot of people, and I'm one of them, but I think having a working library we can actually go about using is more important than some perceived heritage value of the existing building.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service  
2. Timeframe  
3. Making the building safe  
4. Making the building resilient  
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Miramar

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Helen Anderson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library could continue to provide spaces for a range of purposes - reading/studying, playing, resting/sleeping, working/meeting with others - in different zones (eg quiet zones and group/communal areas). As now, I think it is important for the Library to provide access to an extensive collection of physical books and other physical resources (including CDs) as well as plenty of computers (bookable for both shorter and longer blocks of time, eg for internet use or word processing) and places to access digital resources. I would also like the Library to continue to offer space for community groups, lectures/seminars, films, etc. Ideally it would also support people to access community services such as CAB, Community Law, Work and Income etc.; for example, through co-location of services (like CAB used to be in the Central Library building), provision of information, and/or on-site navigators at certain times each week. The process of developing the Library building and deciding what services it will provide needs to be a partnership with Maori. Consultation with other Wellington communities including Pasifika, disabled people, and homeless and vulnerably housed people will also be important in the library's redevelopment.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. I favour an option that will provide safe, resilient and appropriate access to library services and community spaces for many years to come. Based on the information provided, I find it difficult to tell which option will best achieve these goals. For example: -Option C achieves a very high level of earthquake resilience for the Central Library building, which is great, but has an expected life of only 8 more years than Option B and appears to have the highest cost per year of life (excluding base isolation costs) of any option. -Unless alternative plans have already been developed, it seems unlikely that the cost or time to opening of Options D or E can be estimated with any level of confidence, making it hard to compare these options with others. -Given that we are looking ahead 50 or more years, I would like to see consideration given to use of other central Wellington sites with lower earthquake risk, and possible alternative sites identified and presented for consultation. While I love the current Te Ngakau/Civic Square site, its combined earthquake risk is high-severity, and I am concerned that making significant investments in this area is not a good long-term option. On this basis, my preference is for further information to be gathered and presented for public consultation before proceeding with an option.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Making the building safe
4. Sustainability
5. Climate change
6. Heritage
7. Other (please specify)

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I haven't been to the new one, but I'm told it's less stark and depressing than the Manners St branch. That's a good thing, if true. It's great to have the Manners St branch, but it is super depressing and not a good place to spend any time

Q16. Where do you currently live?

Kingston

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I would love to see programs around learning skills, or allowing people to use the space after hours for hand crafting activities, like sewing nor stitching
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- The library is a great place to study, read, or quiet place to relax. It's a nice break when the city feels so busy, you can just calm yourself.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Making the building resilient
  3. Accessibility
  4. Sustainability
  5. Climate change
  6. Future-proofing the library service
  7. Te Ngakau Civic Square connections
  8. Other (please specify)
  9. Opportunities for partnership
  10. Timeframe
  11. Cost to ratepayers
  12. Heritage
- Q10. If you selected 'other' above, what other factor was important in your decision? Physical Design, a beautiful city leads to a healthy mind.
- Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- Having covered access from the library to Te Ngakau, having public offices more accessible to public, for information or the likes.

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Churton Park

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I would like to see a modern library, architecturally designed with additional functions (play area, tech rooms, acoustic rooms, 3D printing facilities etc) similar to the Johnsonville library but in a large scale size appropriate to be called Central Wellington Library. I believe these cannot be achieved under the preferred option C. That option will miss the opportunity to fully optimise the design to meet future library service requirements as mentioned above. Option C would also not deliver a library to high sustainability standards for our future generation. I support a new built.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D -- New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. IP Address:

Q1. Your name\* Julia Gatley

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Through this project, I believe it is important that the original design remains legible/recognisable inside and out. This is not to deny that change is needed, but to place importance on respecting the distinct and playful character of the building rather than removing and replacing the characterful elements.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I would be happy to see Option B or Option C. This was an important building for Athfield Architects, and it is terrific that Council is continuing to use this firm for the re-design. Thank you for this. Adam Thornton's input was invaluable at the 'Save it or Scrap it' public meeting. I hope he can be involved in the actual project.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Climate change
3. Sustainability
4. Making the building safe
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The precinct is of fundamental importance to Wellington, both as part of its image and the life of the place, for public gatherings. I think people who don't remember that the square used to be a street and carpark would find that hard to imagine now. Having all the civic amenities connected to each other, around the square, gives Wellington a strong civic identity.

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Was a good initiative. Helped to especially keep kids connected with Library and their access to books. Thanks.

Q16. Where do you currently live?

Woodridge

Q17. Which of the following ages groups do you belong to?

40 to 44

Q1. Your name\* Adam

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The opportunity to sustainably reuse an existing building and avoid the carbon emissions associated with constructing a new library. It would also be great to be able to occupy the roof top space where sun and views over the city are most abundant and available.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Using the existing library building is critical to the success of the Library upgrade project. The building embodies great memories and is symbolic of Wellington's rich cultural identity. It is also an outstanding piece of architecture that is widely celebrated within the heart of our city.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Heritage
4. Te Ngakau Civic Square connections
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

More activation through diverse and interesting uses which draw more people into and around the square would be hugely beneficial.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Cant comment, haven't visited

Q16. Where do you currently live? Houghton Bay

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Male

Respondent No: 129

Q1. Your name\*

Melissa

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think what was there before provided good public service including the facilities available for hire.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe  
2. Making the building resilient  
3. Cost to ratepayers  
4. Future-proofing the library service  
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The books I want to look at are not there on the shelves, obscure titles.

Q16. Where do you currently live? Northland

Q1. Your name\* Deborah Cutfield

Q2. Your email or postal address

If the building is no longer fit for purpose it should be replaced with an acknowledgement to the previous design and reusing existing materials where possible. In my view this should be done as soon as possible.

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should be a very important centre for our city.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Future-proofing the library service 3. Cost to ratepayers 4. Climate change 5. Sustainability 6. Te Ngākau Civic Square connections 7. Timeframe 8. Heritage 9. Making the building resilient 10. Accessibility 11. Opportunities for partnership

Q10.If you selected 'other' above, what other factor was important in your decision? That was a difficult preferential process.

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12.Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is a dead area at the moment.... it needs activity, a library, cafes ... happily we have the art gallery. The art centre in Melbourne might be a good model.

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Outside Wellington City

Q1. Your name\* Rachel Griffiths

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

the central library should return to being a central meeting point for all members of the community, a place for reflections, meetings friends or making new friends; a place for research and discovery through hardcopies of books and access to the internet, and a place to seek knowledgeable direction from librarians and "guest speakers"; a place to move between public and private spaces, between work and social spaces; a place for all ages to meet and engage.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The building is an important part of Wellington's built heritage and should be retained and revitalised. Any new build will be a poor facsimile to the original building as many of the design principles are still valid and in use in many of the new buildings.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Heritage 3. Future-proofing the library service 4. Te Ngākau Civic Square connections 5. Making the building resilient

Q10.If you selected 'other' above, what other factor was important in your decision? not answered

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12.Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The wider precinct has an important role to play as a focus to the local government and community events. The Square has the ability to bring people together, as a final destination, a transit place or as a meeting place before moving onto to other destinations. Having the library as an anchor building to the Square allows for re-engagement with the Square and provides a balance to the nighttime activities of the Michael Fowler and Town Hall buildings.

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They're fine but I only use them to pick up books I've reserved - not places I want to linger

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Evan

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Consider more digital options. Challenge today's and yesterday's thinking - the old library had CD's, DVD's and Newspapers. The landscape for those things has changed massively in the last 5 years, so why spend so much money for a building that will last 50-100 years to hold this stuff when we already have a museum!!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I really can't understand the heritage status of the current library. Blow it, re-imagine the space as a collaboration zone, digital first. We used to do all our research in libraries, then encyclopedias, now Google. We need to re-think the value of a historic library to Wellingtonians. Modern learning is digital and collaborative. What if we spent \$100M on a perpetual subscription to Coursera for all Wellingtonians? I bet it would have 10x ROI on any option here.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Te Ngākau Civic Square connections  
2. Future-proofing the library service  
3. Cost to ratepayers  
4. Opportunities for partnership  
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

More social gathering "events" e.g. local food trucks, bars in summer serving local beverages, mini concerts from local bands and buskers. 90% of the time the place is pretty dead.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Hataitai

Q17. Which of the following ages groups do you belong to?

35 to 39

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Keep up to date with how people obtain knowledge. Provide variety of community spaces as well as quiet spaces.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Make sure the remediation is done well and the library building is restored so that the public can fall in love with it again and become a proud, NZ postmodern building. Make good efforts to tell people the story of NZ design history. Learn from good examples of cities doing excellent job at building beautiful city with thoughtful design while taking their citizens along with the journey, hence good buy-ins and high support.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Heritage
3. Te Ngakau Civic Square connections
4. Future-proofing the library service
5. Climate change
6. Sustainability
7. Accessibility
8. Making the building safe
9. Opportunities for partnership
10. Timeframe
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

Q1. Your name\* Linda

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think there are a number of potential services/programmes that could link with the library. These would be limited by the size of the site. For me, the library could be part of a real community hub with easy access to cafes, parking, gym, pool, cinema, community centre with activities. A place that would be cool to 'hang out' read a book, meet people, see a movie etc.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

My views on the library are based on getting a functioning library up as soon as possible, that is the safest it can be and the most economic.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers  
2. Timeframe  
3. Sustainability  
4. Accessibility  
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6 Te Awe Library Brandon and Panama Streets  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Arapaki is a complete waste of space as a library as it is too small and lack of book options. Molesworth Library is too far away from the Central City and Te Awe is a basic acceptable interim option.

Q16. Where do you currently live? Wellington Central

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Male

Respondent No: 142

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I wonder if the library space could be used to provide spaces for community groups to hire (preferably free of charge) to meet and discuss projects, etc. - perhaps spaces that double as education spaces? It would be lovely to have dedicated spaces that are in a central location that are funded by the government (community groups might still have to go through an application process to use the spaces) that allows community groups to meet without a charge.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- I think it really needs to be future-proofed in terms of use. I know that libraries are still heavily used, but trends change and I would really like to see the central library building remain a community hub by providing other spaces also.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Climate change

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library is a unique building and an excellent design. If feasible then I think the Central Library should be earthquake strengthened. However, if this isn't feasible then the building should be demolished and a brand new, modern building should be built (similar to new buildings which have constructed after earthquakes. The new building can have meeting rooms, a conference room users can book, public computers and lots of windows to let in the sunlight. The Library is more than a place which stores books people can borrow. It is a place people can meet, learn, study and in the future it can be a place where one can hold conferences and organisations can hold events etc.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The Central Library shouldn't use it's purpose. Even if a new build is constructed it should still have books and places for people to sit and read, study, attend professional events, seminars etc. Perhaps inspiration can be taken from overseas libraries which are newly built.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Accessibility
5. Opportunities for partnership
6. Timeframe
7. Climate change
8. Cost to ratepayers
9. Sustainability
10. Te Ngakau Civic Square connections
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Nothing. I found there was really good customer service and the staff were really quick to explain how the services worked  
(since they were obviously different to the central library).

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 19 to 24

Q18. Please choose the gender that best identifies you Female

Q1. **Your name\*** Toby

Q2. **Your email or postal address**

Q3. **You are making this submission:** as an individual

Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No

Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**

not answered

Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option D – New build on same site

Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered

Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**

I prefer the new build option. Expensive, but less than the option C, with most of the same advantages. I feel the heritage aspect is overstated, the most distinctive aspect of the design is the steel nikau, which could be easily incorporated into a new build. The other strong design element, the overhead link to next door building, has already been demolished.

Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**

1. Future-proofing the library service
2. Making the building resilient
3. Accessibility
4. Cost to ratepayers
5. Making the building safe

Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered

Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

Should continue to be an open public space, as described above

Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Civic Square is separate from Wellington Central Library. WCC has run events there and it's a public space that is used by all. I think Civic Square looked better without any external artwork.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I think they can have a better selection of books. The local library seems to have a broad selection compared to the Manners Street library.

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Allan Frazer

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I regard this building as one of a few that are the very core of the city cultural and community spaces. The new build needs to be as flexible as possible to allow for easy redesign of floor space to provide for future change in the role of libraries. I liked the presence of a cafe, playroom and presence of CAB. Maybe there could be a limited number of other community organisations housed as well eg a space for refugees to meet to help in their settling in process. Build on the learnings from the Johnsonville library.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

To me the key element of the existing building is its irregular external wall shape and the palm trees and I would like to see both these elements retained.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Cost to ratepayers  
3. Timeframe  
4. Te Ngakau Civic Square connections  
5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Stage more events in open space, have a cafe with indoor and outdoor tables. Electronic signboard showing upcoming events, maybe like that on stock exchange.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are dotted through the city, which makes them more accessible

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Male

not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
While the old building had some value, a new building in the central city for such an important piece of infrastructure is a huge opportunity. A new building allows this modernization opportunity to be fully realized, rather than trying to preserve an old building.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

Q1. Your name\* patrica laurenson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Use the well-regarded new Christchurch library as a model. Ensure there is room for old-fashioned library services such as books and magazines, as well as new ways of providing services to the library. Consider expanding services available to homeless people - for instance safe places to shower could make a huge difference to them. .... Many of my friends have said, "Where am I going to to at night?" - the library is a safe place to be, even if you don't want any books, information or entertainment right then. Make the environment welcoming. Wheel chair access. Quiet. Dementia-friendly

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Relocate the Central Library to a non Te Ngākau Civic Precinct site

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Thank you for the opportunity to have a say, and thank you for the rapid response to the Central Library closure. The Arapiki and Te Awe libraries are a great little stand-in for a 'real' library..... I am concerned that..... 1) the consultation document favours rebuilding the existing library. I did love that library but it's a hugely complex, unusual and non-resilient building. Rebuilding it is very likely to involve far more cost than has been anticipated. ....2) I see the indicative costing are based on high level concepts. Anyone who has ever had anything to do with building and re-building will tell you that even in a straight-forward house rebuild, many many problems can arise, and thus costs can balloon..... The complexity of the existing building is surely going to make this risk much more serious. The size of the project makes the financial risk even worse, as a say 25% increase in costs is going to be measured in millions of dollars.. .... To make an informed decision about which option is best, I think we need more information, but in general i think it's irresponsible for the council to recommend the most expensive and risky option.....3) Climate change is acknowledged in your consultation document and that Te Ngakau is in a problematic area, so it beggars belief that in the last year you haven't been able to at least scope some other site options. ....4) Another option is to move the library permanently into another existing building eg,the National Archives Building when Archives moves out, or the City Art Gallery, which has the word LIBRARY carved in stone above it. I would like to know whether this option is actually feasible. .... Couldn't we have a temporary solution like this for say the next decade, and put off the financial cost to ratepayers until the Town Hall has been rebuilt, and the COVID-19 depression has passed?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Climate change 3. Accessibility 4. Future-proofing the library service 5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q1. Your name\* Cameron McCulloch

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

As our city grows and becomes more densely populated we will need a library that will suit our needs for the future. We also need to be aware that we are currently going into a time of recession with Covid and fiscal responsibility is also important. With the fantastic 'pop up' libraries we have a present, the decision is not one that needs to be rushed.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I love the Nikau palms in the design and it would be good to retain these in any redesign.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe
3. Making the building resilient
4. Future-proofing the library service
5. Sustainability
6. Other (please specify)
7. Accessibility
8. Te Ngakau Civic Square connections
9. Climate change
10. Heritage
11. Timeframe
12. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? Retaining elements of the building is important and also creating a safe environment that everyone can enjoy. That is not just a hang out for homeless people.

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Creation of venue space for performances and meetings. Especially aimed at NFPs.

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Island Bay

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library could become the default venue to maintain Wellington's sense of community. To achieve that, it needs to cater for needs of everyone, including vulnerable members of society. The Library could partner with NZ Post to provide an in-person bill payment service/low cost mail collection. The Library could also serve as a hub for advisors from organisations such as Community Law, CAB etc. The Library should also be a hub of intellectual curiosity, especially for children. It should provide regular educational programmes, audio-visual displays, talks, and events. It needs to be designed with this in mind. Any commercial partnerships should be chosen carefully with a primary emphasis on social responsibility and ethical behaviour.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service  
2. Making the building resilient  
3. Accessibility  
4. Te Ngākau Civic Square connections  
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are great and serve the community well until a permanent solution is decided on, even if this takes several years.  
There is no need to rush.

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Baubre Murray

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I don't think we should rebuild a single main library. I have really enjoyed having the more accessible, smaller libraries across town. The single library took a long time to navigate, was not very easy to get to on public transport, and was in a wind tunnel. The new space in Panama St is very inviting, accessible, modern and with lovely spaces for sitting as well as a warm and cafe, more easily accessible for those who are elderly, not very physically able, and those with young children. Plus it's easy to get to while working in the city. Since COVID 19 there are less people in the central city so having a single large library is no longer fit for purpose.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think this could be developed into a great green space with trees to protect from the wind. Currently the area between the art gallery and old Council Offices is a sun trap and provides a lovely connection to the waterfront. A good cafe with outdoor seating would be lovely there.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Cost to ratepayers
3. Timeframe
4. Sustainability
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

We could expand this area for more open air concerts etc, add a cafe and planting and generally expand and enhance that area by demolishing the unsafe old library and replace it with the three existing library spaces throughout the city.

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Lyall Bay

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Female

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Books are becoming antiques, everything is moving digital. The library is more useful as a community space.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
The council is very good at expensive solutions and constantly increasing rates. How about some fiscal caution particularly during a recession.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers  
2. Making the building safe  
3. Making the building resilient  
4. Future-proofing the library service  
5. Accessibility

not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
New libraries are not old libraries. Thinking about things as replications of what was there is a waste of time and money. The space will be close to a LGWM stop, is in the centre of town joining the aro and Wellington central. This is the perfect spot for a true landmark building that incorporates so much more than a library. Shops, living, offices, Government services, schools... You can fit them all in one building, but at the least make sure the building isn't just a library. This would be a perfect way to subsidise the cost by getting MoE, or other parts of Govt, or a private developer to partner to create something special.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers  
2. Other (please specify)  
3. Te Ngakau Civic Square connections  
4. Making the building resilient  
5. Opportunities for partnership
- Q10. If you selected 'other' above, what other factor was important in your decision?  
Safety and resilience will come with the solution, that's a given. And the timeframe shouldn't determine the outcome, you've created good solutions to not having a library. Key to this option is the ability to do something new and transformational.
- Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Johnsonville

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

**IP Address:**

Q1. **Your name\*** Daniel

Q2. **Your email or postal address**

Q3. **You are making this submission:** as an individual

Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No

Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**

1. Retain & grow the DVD/Blu-ray collection. Since dedicated video rental businesses have shut down, the only other options are Netflix (or similar streaming services) and buying the DVD outright - both which prove wasteful if one wishes to watch a movie on a one-off basis and less regular than would justify a streaming service subscription. 2. Provide bookable private (soundproofed) meeting rooms for meetings where it would not be appropriate or practical to host them at either person's private residence or workplace

Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option C -- High-level remediation

Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered

Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**

If it would be cheaper for a new build, then do that and get it right (knowing the seismic risk we've known all our lives about here in Wellington). Also rescue the collections of books & digital media from being lost in any demolition - especially ones that aren't present in the collections at Waitohi, Te Awe nor Arapaki.

Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**

1. Making the building safe
2. Making the building resilient
3. Cost to ratepayers
4. Timeframe
5. Accessibility

Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered

Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

It would be nice to restore the multiple public accessways to Civic Square as soon as possible. It has become a rather dead space given the blocked access points that make it a less viable thoroughfare, and makes it challenging for accessibility (prams & wheelchairs)

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Island Bay

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Male

- Q2. Your email or postal address  
..
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
I think it should include a coworking space since a lot of people are choosing to work in their office less.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Sustainability  
2. Timeframe  
3. Cost to ratepayers  
4. Climate change  
5. Making the building safe  
6. Accessibility  
7. Opportunities for partnership  
8. Future-proofing the library service  
9. Te Ngākau Civic Square connections  
10. Making the building resilient  
11. Heritage
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Put after hours return slots at both the Panama St and Brandon St entrances, to save the hassle of walking another block further than necessary. On the plus side, the collection at Te Awe is comparable to that at Waitohi, though neither is as large as the Central library. Arapaki is a bit of a joke.

Q16. Where do you currently live?

Johnsonville

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Julie Ward

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

As the population of the CBD increases a decentralised model could be the way forward. A smaller building on the present site so the Civic Square does not feel so closed in plus two or three other sites similar but not necessarily exactly the same as the present temporary libraries. Books still available but more emphasis on electronic resources, maker spaces and places for citizens to meet for learning and sharing skills.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I believe the cost benefit of remediating the current building cannot be justified. I also feel that generally the risk of an earthquake is overrated compared to other risks and life challenges our citizens face and that money spent on earthquake strengthening would be far better spent elsewhere.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Cost to ratepayers  
3. Accessibility  
4. Te Ngakau Civic Square connections  
5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I don't think we should cling on to tradition in making the best decision for the future. I see the Te Ngakau a connector between the retail areas and the Waterfront and what I see as the cultural and entertainment part of the city. Currently the connection is broken and in some ways the imposing size and windowless nature of the current library as well as the need to use stairs twice when accessing the library from the waterfront side hampers the connection I would like to see.

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Thorndon

Q17. Which of the following ages groups do you belong to?

25 to 29

Arapaki Manners Library and Service Centre

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Covid has meant I have been to the city less often than previously. In the past I have visited the Central Library at least once a month. I really like the concept of the interim branches. I like the idea of Oggy backing our local library with the National Library, the Te Awe location is excellent for lunchtime workers from Lambton Quay and the Terrace.

Q16. Where do you currently live? Khandallah

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I'm quite excited about the potential for a maker space. But I also acknowledge that the library is probably a higher value to other parts of society. As an IT person without kids, I wouldn't visit it as much as others. Love the idea of a "city living room" though. I've been in places like this as a tourist in Europe and it was great. The Movie Museum in Amsterdam comes to mind.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I'm choosing Option C mainly for sustainability reasons, improving both the expected building lifetime and reducing non-recyclable waste. Was leaning towards a rebuild first because I'm not really attached to the current architecture (even if it has the Athfield name attached to it). The clearly worded and structure consultation docs convinced me to change my mind - well done on producing those!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Future-proofing the library service
3. Making the building resilient
4. Making the building safe
5. Te Ngakau Civic Square connections
6. Opportunities for partnership
7. Climate change
8. Cost to ratepayers
9. Timeframe
10. Accessibility
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I see Option D and E as ranking the same and would have given this rank if it was possible. The best feature of the current building are its nikau sculptures, elements that could easily be retained in a new build. I am suspicious of the redevelopment option put forward as 'preferred' because this council has a track record of seeing redevelopment costs blow out. 'sustainability' as an excuse for not demolishing is a smokescreen in my view. Demolition can be done in a way that sees materials re-used. Starting from fresh is cheaper and offers the best flexibility to create a truly sustainable building, and a great space that can function as Wellington's living room, be the 'central' library (although do like the idea of some 'mini' libraries continuing in other places) and integrate well with Te Ngākau Civic precinct. If there is a heritage issue with doing this, then something is seriously wrong with how we determine 'heritage' as the current building has very little of merit in this way.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Making the building resilient
3. Future-proofing the library service
4. Te Ngakau Civic Square connections
5. Accessibility
6. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I want the library to be integrated into a vision for civic sq which takes climate change into account. There was talk about condemning the pedestrian overbridge. There's so much underground facilities around there that that whole thing just might sink into the sea. Raise the library building while putting in base isolators. And ensure that we won't have a great resilient library standing at the edge of a civic sq wasteland after the next quake

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Great microcosms to experiment with approaches to a future proof library

Q16. Where do you currently live? Kingston

Q17. Which of the following ages groups do you belong to? 35 to 39

Q1. Your name\* Mick Hillman

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A 21st century library has to be a multi-purpose accessible building on a central site to maximise the use of public transport to and from the library and the widest possible range of users. The current site is ideal for this purpose so remediation is my preferred option to the highest standard feasible

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

See answer 5.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Future-proofing the library service  
4. Climate change  
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The connections and traditional multi-purpose use of civic space on this site should be maintained for both accessibility and convenience and 'critical mass' to keep the city centre vibrant and safe particularly in view of LGWM proposals

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Monthly

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

The reason I prefer a new build, and the possibility of using a different site, is that this provides the best option to completely rethink how civic square works; deal with the real issues of climate change and risks of water ingress and design something that creates a warm, welcoming, attractive space with easy access to the city gallery, town hall, library and council services in one place. The 'preferred option' severely limits this possibility, which is why I don't support it. Civic square as it is now, is not an attractive place and it is not well integrated with its surrounding buildings, with the exception, perhaps, of the art gallery. The bridge also needs a re-think and re-build - do it together and do it right.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Once every few months

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

I like that there are places to sit and read or work that don't require paying for a coffee. I also like being able to access the catalogue and electronic database resources.

**Q16. Where do you currently live?** Ngāio

**Q17. Which of the following ages groups do you belong to?** 50 to 54

**Q18. Please choose the gender that best identifies you** Female

Respondent No: 169

Responded At: Aug 07, 2020 13:29:03 pm

Q1. Your name\* William

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Physical spaces, printed material (i.e., books), more efficient online services (i.e., a coherent website). Very wary of partnerships -- sometimes they can be a success, e.g., in a school holiday programme with the ballet say, other times they can be a scam to extort money (i.e., Overdrive, Kanopy). Not to say those aren't useful services, or that they have been depicted as 'partnerships' but there is a need to be careful to ensure that it doesn't become a euphemism for outsourcing or contracting. Physical spaces need to follow the lead of front-line staff and users (and not managers) as they understand their uses and needs far better.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Monkeys should be allowed to roam the building and Civic Square more generally, elaborate tunnel systems between City Gallery and the library should be made publicly available, and the library should demand (and receive) the top two floors.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
2. Accessibility
3. Making the building resilient
4. Climate change
5. Sustainability
6. Future-proofing the library service
7. Heritage
8. Opportunities for partnership
9. Te Ngakau Civic Square connections
10. Timeframe
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? Did not select other but that section is really annoying to do

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of Arapaki Manners Library and Service Centre the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are well organised and making a significant contribution in the absence of one central library. I guess for some they might be more accessible and user-friendly as with branch libraries in Karori, Johnsonville etc

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Male

Respondent No: 170

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think it only plays that role cos the Gallery and the Library are (were) there. But it would be good to maintain it as a spot free of shops / private businesses. The field is really good in summer.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Freaks me out when the librarians follow you around / loiter around the shelves. It's annoying not to have the desks.

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Male

This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
I choose Option E because it will enable a much better designed sustainable building and connections with the Civic Square. I do understand many prefer Option D for its unique proposition being designed by Ian Athfield as a place for people for many years and believe as long changes are made to the ground floor to open up to the Civic Square would be fine too. Option E allows the space to be completely new reimagined which would be very interesting too. Either way please retain the Nikau palms columns :-)
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- Q2. **Your email or postal address**
- Q3. **You are making this submission:** as an individual
- Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No
- Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**  
Flexible spaces, less space provided for book collections
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option D – New build on same site
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**  
Resilience is important in Wellington and where the opportunity to improve the resilience of the built environment and the costs are reasonable then we should take the opportunity. The costs associated with options a and b are too high to deliver what is in effect a poor outcome and option c is frankly the worst option. If a new build was right sized to either deliver a smaller efficient building or a larger building with ancillary lease opportunities then it should be even better value. All options will take time and therefore that shouldn't be the primary driver. The decision should be based on resilience, cost and utility. This suggests the new build is the best option. Fear of demolishing the existing building should not result in a poorer and vastly more expensive solution.
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**  
1. Making the building resilient  
2. Cost to ratepayers  
3. Te Ngakau Civic Square connections  
4. Making the building safe  
5. Sustainability
- Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D -- New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current building is ugly, dated and wasteful with space. And my understating is that the council is tied into some ridiculous contract with the original designer so it can't be changed. For all of these reasons, a new build is the only option. Without silly restricting contracts this time.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Accessibility  
3. Te Ngakau Civic Square connections  
4. Making the building safe  
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Please get rid of the creepy hand

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

Civic square should be a hub of activity, diversity and a vibrant welcoming place. Sadly it is no longer anything like this. The inaction of Council to address issues with the pink building, the old capital E, the original office building and the library is shameful. Council has an opportunity to rethink the square with a new library, commercial buildings to replace the abandoned offices and something special on capital E. The built environment should open out and interact with the square. Apart from the gallery and the town hall there are no buildings of heritage value and Council shouldn't be timid and fearful of change. Get some people together who can get things done and let them get it revitalised.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Less than once a year

Q1. Your name\* Reid Wicks

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Books, free internet access. Just to be a third space where people can exist without having to spend money.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We must build it ourselves, and no handing over the rights to the land to private companies. It should be by Wellington, for Wellington. Businesses don't live in cities—people do.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Climate change
6. Sustainability
7. Te Ngākau Civic Square connections
8. Timeframe
9. Heritage
10. Other (please specify)
11. Cost to ratepayers
12. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?

making room to put 'cost' last. build it once, build it right. penny pinching will bite us in the ass

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I visit my local library instead but when a new central library is built, I will go there

Q16. Where do you currently live?

Brooklyn

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Eddie

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Combining a complete rebuild of the library with a new WCC community service centre and office space makes the most sense.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Much of the debate around whether or not the existing building should be retained centres on the supposed "iconic" status of the existing building architecture. In fact there is nothing especially iconic about this building. It was poorly designed by an overrated architect who created some of the ugliest and most dysfunctional buildings around the city. It is time to move on. Civic Square is badly in need of an injection of new life and a reconstruction project will also create more employment opportunities. Wellington based and New Zealand owned firms must be given priority to contract this project.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Future-proofing the library service  
4. Te Ngakau Civic Square connections  
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
I think we should keep them around. Will make the city more accessible, give us more third spaces.

Q16. Where do you currently live?  
Kelburn

Q17. Which of the following ages groups do you belong to?  
19 to 24

- Q1. Your name\* Glynn Foster
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
A library that has been modernized with support for digital era, meeting spaces, and space to run courses. Needs to be bright, light and engaging for new generation
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Biggest issue with current building is that it's dark and warehouse like
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Sustainability  
3. Accessibility  
4. Opportunities for partnership  
5. Climate change
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Outside Wellington City

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Male

Respondent No: 178

Q1. Your name\* Neil Anderson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The idea of the 'cultural living room' for the city is a good one. To be effective, the new place needs to have a lot of good reasons to visit. Otherwise people will continue to choose many other leisure options available - over using this new facility. Wellington can easily make the mistakes of cities like Auckland and Christchurch and Dunedin. These cities have all invested in large stand alone city cultural buildings with essentially quite narrow functions - the 'art gallery', 'the museum', 'the library', 'the aquarium', 'the I site', etc. etc. Hence most of these institutions attract only a limited portion of the public - and continually struggle with relevance, operating costs, and capital maintenance. If the city is going to invest in the huge capital funds required for this project I would expect to see a really broad menu of spaces, functions, amenities and services - located within one complex. And I would expect that this would span the public functions of libraries, archives, museums, galleries, and others. And - offers the car, cycle, and public transport access required to encourage access. The new place will be successful if it has millions of visits per annum - nothing less.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. I don't have expertise or strong views on this - but essentially if the city can buy an existing commercial building or warehouse - this can be refit.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If the council does proceed with using the current Civic Square site - I'd suggest that the public function of the square is reconsidered along south east asian or continental european models. i.e. designed for collective, low cost, eating and drinking - for the whole community.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? 1. Above all - the Master Plan, Operational and Business Model has to show how the new complex will be extraordinarily appealing across residents and visitors.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Brooklyn

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Jessica

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

We do need a large central location for people to gather and it also needs to be staffed by trained professionals and be full of books people want to read or need to meet their information needs. This is key to the life and heart of a city.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

invest in the educational and pleasure reading needs of your community. Without a flourishing central library we don't have a flourishing city.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building resilient 2. Making the building safe 3. Heritage 4. Future-proofing the library service 5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

we need it. We need a functioning civic and democratic space within the central city. the library acts as the front door and living room to the city and it's government. We need a place where all are welcome, where people can read, study, gather, use computers, and rest, but also somewhere where there are trained people who can connect them with the rest of the city, region, and national government, and the wider arts and culture that help us understand who we are and how we belong. A library if well functioning can do all of that. But it needs to be funded, both with proper space and people resources

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

It feels like a dead space most of the time - as Wellington residents, instead, flock to the area on Lambton Harbour, between Te Papa and Queens Wharf. Like most of New Zealand 'street life' seems reserved for a few, expensive streets. The Civic precinct could be like any German city, or Thai city, or Spanish city - a place where people go to eat and drink - of all ages - and not as a 'cool' fashionable space - think Bergmannkiez in Berlin as an example. This would mean a radical rethinking about liquor licensing, and regulation - but if this is done - it could make Wellington a really nice place to live.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Monthly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** I have not visited an interim library

Q1. Your name\* Michael Mckean

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library as it was must be reinstated, a place where books, magazines and other items can be browsed and borrowed in workable surroundings. The examples of Johnsonville and Christchurch libraries, where these things are minimised and not important, are not wanted by me, and many others.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Minimal level repairs followed by a future upgrade

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I do not want time and money wasted on the schemes to convert the library to other uses that are not important to its core function as a place to browse and borrow reading materials. "Connections" to Civic Square, maker spaces and the like are distractions and will delay us having a functioning library for a decade.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Timeframe
3. Making the building safe
4. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? I want a proper central library reopened as quickly as possible with no distractions. Under no circumstances do I want a "future proofed library service". This is code for no books

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Irrelevant. Just want basic repairs to get the library open again as quickly as safe and reasonable, then add base isolation while it is in use. Please do not tie the library future up with dreams about the now failed Civic Square.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

that I can get books, I wish there were a lot more books, selection has be necessity been narrowed down tremendously

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Female

Respondent No: 181

Q1. Your name\* Elizabeth Goodwin

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library gives an opportunity for people to connect to knowledge, our city and each other. It provides a place where people can stop and rest, read, have quiet conversations and feel the security of our community. Knowledge has to remain at the heart of the library - either through books, creative activities, online tools or connection with people. For many years the library has been seen as books only and the budget has not matched the importance of its role in our community. Since it has been closed there has been a realisation of its role as a place that underpins the wellbeing of the people of Wellington.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I like that consideration is being given to the heritage of the building and the opportunity for new open and lights spaces. I don't know what opportunities for partnership means? With our creative communities, iwi or sponsors and corporates? I hope partnership means we are able to comment and have input into the design (in a constructive way that values expert input) and that it reflects who we are as a vibrant community. I don't want to see corporate partnerships where the council gets cash for a corporate to build their brand.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Heritage
4. Accessibility
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? Prior to the library closing it was moving closer to the community and experimenting more. I hope that creativity continues.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I visited the Manners Street "library" for about two minutes. It and the National Library site (walked past and looked in) serve no purpose that has anything to do with what the Central Library did. The average dairy has more reading material on hand. My weekly use relates to the period up till the Central Library closed. I have use a library three times in the 15 months since. Branch libraries all have the same restricted and limited selection of books.

Q16. Where do you currently live? Wadestown

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Denise Stephens

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library offered a really good service already, and I would like that continued. There could be additional seating space, including small breakout rooms for study/discussion. A useful new service would be offering workshops on finding information on the internet, covering how to assess the quality of a website, how to spot scams, fake news etc. A suite of internet connected PCs would be useful for this, and it could also be available to residents who don't have internet access at home.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Option C is appealing in that it has the Central Library up and running sooner, but I worry about whether the building can be remediated to a sufficiently high standard. Options A and B look like money down the drain. I am appalled that such a modern building needs major work already.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- 1. Making the building resilient
- 2. Cost to ratepayers
- 3. Future-proofing the library service
- 4. Sustainability
- 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

no

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The Manners Library is very small - I have chosen to go to my suburban library

Q16. Where do you currently live?

Lyal Bay

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* James Sullivan

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The general points raised in the consultation document are important. Spaces for meetings, maker spaces, books, quiet workspaces, etc. The modern library is more than just a place to hold books. For a proper community space it must take into account more current practices. Having good through connection to the rest of Civic Square is also very important. The current flow is poor at best and only effectively accommodates those without distraction and healthy body. In the cases of options D and E we should still acknowledge the history of the site. Efforts could be made to reuse the plinths and nikau among other elements.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Option C does not make sense as the option to maintain the heritage aspect of the building. It involves totally gutting the interior and making massive changes to the exterior paneling. Arguably demolishing almost all of the original architectural design. How can this be considered acknowledging heritage when if it was suggested for any other heritage building the consent would be denied in a heartbeat.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building resilient
2. Accessibility
3. Making the building safe
4. Future-proofing the library service
5. Te Ngakau Civic Square connections
6. Sustainability
7. Cost to ratepayers
8. Climate change
9. Timeframe
10. Heritage
11. Opportunities for partnership

Q10.If you selected 'other' above, what other factor was important in your decision? not answered

Q11.Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I don't like Arapaki. It is small, crowded and unpleasant to browse. There is a very limited selection of books. I will probably visit Te Awe at some point, although I only go down that end of town once a week. I'm hoping for a better selection of material. He Matapihi is not convenient for me.

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Female

not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Regardless of which option will be chosen, I would like to see the Central Library prioritised above other 'pet projects'. The Library is a community hub and the heart of the city, and we are all worse off since its closure. It is unique in the sense that it provides a space to hang out, to find information, to learn and socialise, away from home, without having to consume anything like in a cafe or restaurant. It is also warm in winter and so a refuge for people who cannot afford to heat their home all day.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They keep the library alive and in sight for people during this time.

Q16. Where do you currently live?

Johnsonville

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Male

Respondent No: 185

Responded At: Aug 09, 2020 22:29:17 pm

- Q1. Your name\* Callum Taylor
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
whatever is done it needs to be future proof.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Demo and rebuild offers the least risk, most quantifiable cost and most future proof option
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Cost to ratepayers  
3. Making the building safe  
4. Te Ngakau Civic Square connections  
5. Accessibility
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
It needs a complete overhaul. Personally I'd be in favour of demolishing all eq prone buildings in the square and doing a comprehensive, cohesive redevelopment
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are too small, and so only have a small selection. I like though that I can reserve books without a charge now.

Q16. Where do you currently live? Aro Valley

Q17. Which of the following ages groups do you 45 to 49  
belong to?

Q18. Please choose the gender that best identifies Female  
you

Q1. Your name\* Andrew Bowman

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should be seen as a community hub. Provide physical spaces for community groups to use at low cost (free use encourages over-consumption)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I really don't see a lot of difference between Option C and Option D. It IS possible to demolish the building and then rebuild it (Option D) to achieve the same look, feel and use as Option C - but at lower cost. There are some very specific design elements from the current building - the nikau palms for example - that could be reused in the new building.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Cost to ratepayers
4. Te Ngakau Civic Square connections
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Have more green space. The green walls are fantastic - put in more of those!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Sophia

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I believe that the library will need to have attractions that cater for all ages and interest. There should be a new modern cafe enabling visitors to enjoy their visitor through relaxing at a cafe. This will also bring in additional revenue. In addition, the library could look at adding a younger children's interactive area that allows younger children to play and learn. The library should also look at adding a loud and quiet zone (this could be through dedicated levels). The library could also look at adding programmes again for all ages in partnership with organisations. This will attract people into the city for a new experience. The library could also have art and history pieces to make it a unique attraction, not just a normal library.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I believe Wellington needs something new and exciting that needs to take place in the city. It will allow for a new and modern space for all ages while promoting learning.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Timeframe
3. Opportunities for partnership
4. Sustainability
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? Bringing people into the city and promoting change. I feel as though, compared to other New Zealand cities, that Wellington's infrastructure has not progressed as far hence Wellington seems old with no new modern developments.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Needs to be more modern and state of the art in order to attract new people into the city instead of seeing the same old buildings.

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Mount Victoria

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

Respondent No: 188

Q1. Your name\* Helen Muxlow

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A space with lots and lots of books, digital resources and information. A space that has people that will help you! A space that celebrates and promotes the importance of reading for pleasure. Physical spaces that are welcoming and comfortable for the young to the old. Space that has flexibility of purpose that can be hired or used to host events. Space designed to read in, some quiet spaces, some noisier for all members of the community. A safe space for those who need it. Space for community organisations to be represented or showcase opportunities. Small breakout rooms that can be used to host meetings.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

What the library provides (it's function) is higher priority and more important than the actual building or it's heritage, it's design or it's architecture. Because we have to make change I think we should get the best library we can with the most innovative eco friendly technology available.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Accessibility 3. Making the building resilient 4. Cost to ratepayers 5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are very small and lack character, this makes them look very temporary and unappealing.

Q16. Where do you currently live?

Hataitai

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Clara Breitenmoser

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I believe that the Central Library was already a community hub. The city has lost a valued social, communal and architectural space. The Civic Square site was the centre of Wellington after several years away, I really notice and miss the Central Library. I often visit Te Arapaki but it does not provide the same services and community space. Visiting the Johnsonville and Christchurch libraries show what can be done in partnership - 3D printing opportunities, museum/gallery spaces, council services. I'd love to see Te Ao Maori partnerships, spaces for the arts and services for disadvantaged communities. I believe this can be done within the current building, bringing life back to the Civic centre, supporting all the people and communities who live within Wellington.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Sustainability is also a huge concern. The idea of pulling down a beloved and functional space of architecture and heritage value to keep filling the landfill is an awful prospect.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Making the building resilient
3. Future-proofing the library service
4. Accessibility
5. Making the building safe
6. Heritage
7. Timeframe
8. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply He Matapihi Molesworth Library

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I don't want another Central Library. I live in Mt Victoria and work near Parliament. I love the new libraries that are though out the city. They are easily accessible to a greater number of people especially during the lunch hour. I stopped using the Central Library as it was impersonal. I love the new Te Awe library and have used it several times already. Smaller city libraries can respond much better to the local area - the people that live and work inner city. Similar to the suburban libraries. If an area changes then the library can be moved. We need new thinking not just repeat the past.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Timeframe 3. Accessibility 4. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

No Library. Or a small library. Cafes and event spaces. Office space to lease to make money for the city.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Te Awe Library Brandon and Panama Streets

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

These are useful for borrowing books. However, not having after hours return spaces is inconvenient and off-putting.

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Much like Christchurch's new library, Tūranga, this is an opportunity to build a thriving community hub used by all sectors of society. Some of the things that Tūranga has include: space for free hire for seminars, presentations and workshops free Wi-Fi internet access and computers 3D printers and laser cutters Creative spaces music and video editing studios rooms for activities such as craft sessions Meeting spaces boardroom and meeting rooms Entertainment spaces space for performances, author talks and public debates children's play zone Relaxing spaces quiet reading room café and espresso bar book shop

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We're really missing that civic centre heart. It's so important to have a good central library.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Sustainability 3. Future-proofing the library service 4. Timeframe 5. Accessibility

Q10.If you selected 'other' above, what other factor was important in your decision? not answered

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12.Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13.On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Female

Respondent No: 194

Q1. Your name\* Conrad Bullock

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The current library is not fit for current purpose, and would be better replaced with a new more modern building better suited for the way that people access information and services. The recent Te Awe library is a step towards the right direction, but the new Christchurch Central library is a great example of what can be done. The existing central library building is dark and dirty and the layout is very inefficient - much more space could be made available to the public. I do not feel that it is worth spending so much extra money for a compromised solution.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We know that a remediation project will inevitably run over time and over budget. The fact that the proposed option is already more expensive than any other option already sets alarm bells ringing.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Cost to ratepayers
3. Timeframe
4. Making the building resilient
5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Civic Square was a windswept concrete jungle even before all the buildings were shut down. It's important to improve it, but not at the cost of another 10 years of talking and doing nothing.

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Add more books to the collections. Make App more dependable.

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you 40 to 44  
belong to?

Q18. Please choose the gender that best identifies Female  
you

- Q1. Your name\* At this time of hardship its poor judgement to spend MILLIONS on this. Demolish. Use local libraries. Build something that brings in money, not adds to ratepayers worries with the economy going down. If not, then option D or E, RELUCTANTLY
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Demolish it and put something there that brings in money. Use local libraries. More intimate, more locally focussed.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
Demolish and put something there that brings in money. This is not the right economic time to be spending MILLIONS of dollars on a central library. Where is the judgement of counsellors?
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Its not necessary. There are so many more pressing things to spend millions of dollars on at this time. People in Wgton are hurting financially. This will take a long time, if ever, to recover. Please don't add to the financial stress of Wgtn ratepayers.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers  
2. Other (please specify)
- Q10. If you selected 'other' above, what other factor was important in your decision?  
I'm angry that WCC stuffed up the original build by signing it off in the first place. Rate payers mental health re financial stress should be an obvious factor. Why is it not listed here? WCC has no understanding of financial climate
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Te Awe has some good space to be able to work/research, I enjoy using it. Arapaki has almost no space at all and is almost completely useless.

Q16. Where do you currently live?

Brooklyn

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\*

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Apart from the purpose intended rooms: children's section, adult fiction/non-fiction etc, I would like to recommend the following: 1.include specific areas for teens - this could include more "private-like" alcoves, more computer terminals, etc. 2.the top floors should house the CAB, and meeting spaces available for rental for community groups. They should NOT house business offices that are not focused on library - community focused issued. 3. if possible roof top- patio, garden and / or an internal atrium on some level for out door fresh air reading. There are several libraries (public and university) in Europe that have these roof-top terrace garden areas - they are extremely popular, and importantly if they filled with the right type of plants could actually help the local air quality. Not to mention, it would likely have a lovely view of the harbor and if the space was big enough, it could be rented out for evening functions

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If you can retain the existing structure that is preferable as it is likely most eco-friendly . However, if that is not possible then the second choice would be D. The Central Library should most definitely remain in the same spot - it is the heart and soul of the city!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Future-proofing the library service 3. Accessibility 4. Te Ngakau Civic Square connections 5. Making the building resilient 6. Sustainability 7. Climate change 8. Cost to ratepayers 9. Timeframe 10. Opportunities for partnership 11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are very nice and very usable. Hence - we don't need a fancy central library to be a priority in these uncertain financial times.

Q16. Where do you currently live? Lyall Bay

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Thangavel

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Central library was the place of go to for many people, such as students, working pro's, parents with young kids (like me) we mis it so much. It is a place to engage kids and I liked the foreign language section in it. It could be used for other cultural events as well.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It is mandatory to have one, looking at the cost and time line new building at a different site looks better than other options. I am not sure if I will still live in city in 2023 but I am sure it will be good for the city residents.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
2. Timeframe
3. Accessibility
4. Cost to ratepayers
5. Sustainability
6. Heritage
7. Climate change
8. Future-proofing the library service
9. Making the building resilient
10. Te Ngākau Civic Square connections
11. Opportunities for partnership

Q10.If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

tth I dont use other spaces much , except the library space. but walking on that turf space is relaxing. We dont have many such big public spaces in the city.

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Keep the Main Library in the same location - it is the heart of the city!!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Q1. Your name\* James

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should serve as a hub for the Wellington community, facilitating groups and meetings from a wide range of communities. It should serve as a place for people to study, hang out and relax. Most importantly it should be designed in a way that maximised the use of the money spent on it.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The design /heritage status of the current building shouldn't be relevant. Its a somewhat ugly building with alot of wasted space, and using this argument of heritage status is a waste of money

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Te Ngakau Civic Square connections  
2. Future-proofing the library service  
3. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I think the council has done a fantastic job in setting up those pop up libraries. I like the flash facility at Brandon street - Te Awe library. I think the council has done what it could with limited space available on those centers. Awesome work. The staffs are very helpful as always. One missing facility was after hours book drop which is covered now at Te Awe.

Q16. Where do you currently live? Te Aro

This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**  
A new build on the same site is the best option in my view. The current layout of the library is not the best, especially the entry from Civic square. A new build means a much better entrance and internal layout could be designed, while still paying respect to the character of the area and the external appearance of the current building. The cost estimates listed are only likely to increase, this would be especially true for the preferred option ( retrofit base isolation) as can be seen from the cost increases on the Town Hall restoration. I have visited the new build Tūranga library in Christchurch and it is easily one of the best libraries I have seen.
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**

IP Address:

Q1. Your name\* Kathy Fielding

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A public place where all citizens experience belonging and access to reading and other resources and activities (music making, activities, socialising, playing, listening, looking etc)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Design and build a new one informed by what has been learned from the new Christchurch Library (a great example of a building that serves multiple purposes and draws people including children, the poor, families and visitors to the City in.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Accessibility 2. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? Opportunity to build for the future

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Its very internally focused. Tends to be used by few people. Maybe more when there are events

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Chairs are good to look at but aren't comfortable to sit in - need to think about visitor comfort as well as design look

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Josh Bruderer

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Seamless connection between Willis street and civic square, running through a new pedestrian priority space on Mercer St. The library could create an indoor-outdoor public space at ground level that encourages pedestrian access into civic square and the waterfront. This space could house facilities like a cafe, public cafeteria for BYO lunches... less 'library' and more public living space. This idea takes the area around the library into account. I think this is important for the space to properly integrate into the city. You can build a great library but without pedestrian connections drawing people in the building won't realise it's potential. This is one way that the current building fails. You need to really consider the role that civic square will play. Everything should be redesigned as a precinct, not as discreet elements. Everything must be in harmony together. The rest of the library could house other community spaces, meeting points, Etc. See other international libraries to figure this out, just make sure the connections and square are better than they currently are!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Design the library and square in conjunction with their connections to surrounding streets. Pedestrian connections from major pedestrian thoroughfares are nonexistent with the current layout. Civic square is surrounded by high foot traffic areas; Willis street, Cuba street and the waterfront. But people don't use it because it's a (now) desolate island surrounded by car heavy roads! The Quays cut the waterfront off, and the access across the city to sea bridge is difficult enough as an able bodied person. Wakefield cuts Cuba street off. Wakefield is an impersonal stretch of road, and the corridor between the MFC and town hall is an awkward space that doesn't draw people towards the square. Victoria and Mercer cut Willis street off. The intersection is confusing for pedestrians and Mercer street is full of taxis and car parks. None of these streets prioritise pedestrian access and because of that civic square isn't enjoyed fully! Improving these connections will also add value to the surrounding streets with more human-scale shops, facilities, cafes etc along otherwise boring streets.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Te Ngakau Civic Square connections
2. Making the building resilient
3. Future-proofing the library service
4. Accessibility
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

not answered

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Karen

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Remediate the earthquake risks and open our library asap

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Civic Square works well alongside the library. No fancy changes seem needed. The future of the library is in it being a library. It has worked well, nothing is perfect. keep it working, please.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Heritage  
3. Accessibility  
4. Cost to ratepayers  
5. Timeframe  
6. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?  
Timetable - get the job done, please, stop "consulting" - most people who bother to respond just want their library back.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It has worked brilliantly for all sorts of events - concerts, food stalls, sport (formal and informal), meeting places. Keep it simple, keep it functional. Take away all those metal barriers asap.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

See my other comments. Civic square doesn't live up to its potential, and without improving the whole area, the library won't either.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I'd love to see something in the library for the community at any age, a school holiday programme, kids areas, and especially spaces for students to study and find resources, up to date physical books are also important for students. It would also be really cool to see technology tutorials available for the community like how to use different computer programmes and Lynda

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. Q1. Your name\* Warner

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The building should be fit for purpose. Technologically innovative and highly accessible. The current building has none of these aspects.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
 Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
 not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Building a new building on the same site seems like the clear option. The building should: 1) be safe and of a high standard. Safety should be a priority, but this process is wasteful if the building needs to be fixed again after another Earthquake. 2) Be central, the current site is in a perfect location, but could be enhanced by having a more modern building. 3) be value for money. Spending more on high-level remediation than building a new building seems irresponsible. There is potential here to build a fantastic fit for purpose library that suits Wellington and is cheaper than remediation? - That should clearly be the preferred option. 4) be innovative and sustainable. Building a central library, done well, is a one in 100 year opportunity and this generation gets to build it. There is potential here to make something fantastic and innovative There is value in respecting and acknowledging heritage buildings, but at we should also be building for the future and taking the opportunities that come with that.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- 1. Making the building safe
- 2. Future-proofing the library service
- 3. Making the building resilient
- 4. Cost to ratepayers
- 5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?  
 not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Very small and in noisy locations

Q16. Where do you currently live? Te Aro

6. Cost to ratepayers
7. Timeframe
8. Future-proofing the library service
9. Opportunities for partnership
10. Te Ngākau Civic Square connections
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

If I'm allowed in the council chambers etc I didn't know that. Maybe its just a matter of explaining what areas of our democratic process people can access easily (eg without appointment or occasion).

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I enjoy the availability of books again and like the spaces. I note that the Brandon St Library is in a Earthquake prone building which seems a bit odd considering the central library was closed due to that risk.

Q16. Where do you currently live? Aro Valley

Q17. Which of the following ages groups do you belong to? 19 to 24

Q18. Please choose the gender that best identifies you Male

Respondent No: 211

Q1. Your name\* Jane O'Shea

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library we had worked very well for Wellington. Two changes 1. More comfortable chairs - small thing but important. 2. Not using library space for WCC staff. Library space should be for the library, not for WCC in general.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Keep it simple. Restore what we had - it worked.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Timeframe
3. Climate change
4. Making the building resilient
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Civic Precinct must remain accessible and democratic

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Brenna

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library needs to be an open, light, physical space that connects the CBD to Civic square. It could be a community filled building, that incentivises people to entry. Currently, the library (although closed) is a large, unwelcoming building that looks dark and dreary.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Take the time to get it right - the current building is not safe, nor is it for the needs of community.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Te Ngakau Civic Square connections
2. Accessibility
3. Future-proofing the library service
4. Climate change
5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The interim library services do not work for me at all. They are too small, too loud and with very little room to hang out, read, do work etc

Q16. Where do you currently live? Highbury

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Libraries are a form of 'Social Infrastructure' that allow us to interact with the people around us helping us be connected to the broader public. Communities with very strong social infrastructure are more resilient and safer places to be irrespective of a community's affluence (Klinenberg, 1995). While libraries still a key place where early literacy development happens, great libraries are much more than that - they help people find new jobs, support immigrants to integrate into their new communities, they provide a safe and warm place for the idle teenager and marginalised adult alike. With this rare chance to reimagine our central library, let's think services first, building second. So which option provides the greatest opportunity to uplift the service the library provides? Let's build new, with an indigenous designer at the helm, and spend the equivalent money to the stated preferred option on a new place with expanded services.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Let's provide an opportunity for one of Wellington's landmark buildings to be designed by our Maori talent.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Accessibility
3. Sustainability
4. Making the building resilient
5. Making the building safe
6. Opportunities for partnership
7. Climate change
8. Te Ngakau Civic Square connections
9. Cost to ratepayers
10. Timeframe
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

- Q1. Your name\* Matthew Plummer
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I prefer the model currently being used, with lots of smaller libraries around the CBD. These are easier to get to and offer a better service. Why do we need a 'Central Library'? That is thinking from the 19th Century. I'm also incredibly concerned about the affordability of my rates, which have just gone up 6%.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Relocate the Central Library to a non Te Ngākau Civic Precinct site
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- The strengthening costs and methodology Aurecon has given WCC are wrong. We (Beca) think it could be done for around \$80m, bringing the building up to a resilient 100% NBS rating.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Cost to ratepayers
  2. Making the building safe
  3. Opportunities for partnership
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- It's a shit hole of a space. Poorly connected with the waterfront and city – Wellington's civic space is the waterfront and 'Civic Square' has always played second fiddle to that. WCC should move out of it, take the library with it, and move to more resilient ground up at the top end of Te Aro.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q1. Your name\* Ross

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Ideally the Library would retain its function as a place to enjoy, share knowledge and information, and build on its important role as a community space. To fulfill this, it would be great if there could be bigger rooms and spaces for community groups. Also, as a non-stigmatising space could also house some social services beyond the CAB. Te Aka Mauri in Rotorua could be an inspiration for this, where the council worked with Iwi to develop a space for tamariki and their families to learn, be inspired, and access health supports as part of the library complex.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Wellington Library is always welcoming, and has an iconic feel that is uniquely Wellington that I would be very sad to lose. This does present an opportunity to create an accessible space, for disabled people and other groups who may experience barriers to access, and I hope that this process will value their views and perspectives in creating an inclusive space for all.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
2. Accessibility
3. Future-proofing the library service
4. Opportunities for partnership
5. Making the building resilient
6. Climate change
7. Sustainability
8. Te Ngākau Civic Square connections
9. Timeframe
10. Cost to ratepayers
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

This could include anything from physical spaces, services, programmes or partnerships with other organisations.**

I would like you to consider the design of Christchurch's Central library Turanga. Turanga is one of the most engaging new library builds in the country, particularly with how they have made the teens space and the children's space more fit for purpose (gallery options for teens to display their artwork in teen space, gaming area, alongside a comprehensive collection of YA material). <https://my.christchurchcitylibraries.com/turanga/turanga-about-the-building/> I also think it's important the Central Library includes a Makerspace similar to Turanga, and even what Johnsonville library has. Successful libraries have good policies on digital inclusion and Makerspaces aid that. Some examples of international innovation in libraries comes from the Finnish library system. Digital inclusion is part of their legislation and so libraries are at the forefront of providing digital literacy and ICT workshops for their communities. (p. 95, without libraries what have we?) In 2018 Finnish libraries were offering events which were targeted at multiple different age groups. These events include, "Digital Guidance for Seniors, IT workshop cafe, Robot Workshop ... AI Monday" (p. 96, without libraries what have we) "Within the European Union, Finns are the most active library users ... Last year the Library Iso Omena was the most popular library in Finland, attracting approx. 1350000 visitors. According to staff, the makerspace has thousands of visitors every month, and the feedback is mostly positive." (p. 95 - 96 without libraries what have we)

Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option C – High-level remediation

Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered

Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**

On the topic of the library potentially being privatised - this absolutely cannot happen! Libraries should always be government funded and run, because libraries provide a space and service for the people's right to equitable and free access to information. Libraries are about equity of access, and the human right to intellectual freedom, and private companies may not maintain international policies that reflect this. We cannot risk this. Libraries were never intended to have a cost to them, or to make a profit. It is crucial importance UNESCO (<https://en.unesco.org/>) and IFLA (<https://www.ifla.org/>) policies are adhered to by libraries: something only a government run library system would feel obligated to ensure. In UNESCO's strategic objectives UNESCO (2014) states, "Issues including ... transforming digital divides into digital inclusions remain unresolved." (p. 27, para. 2) UNESCO (2014) goes on to say that it will support various stakeholders so it can find common ground on these issues. (p. 27, para. 2) UNESCO is concerned with the creation of information societies, and plan to assist member states in achieving information access for all through ICT (information communication technology). Something in UNESCO's (2014) Strategic Objectives that promotes the importance of information literacy, and acknowledges the obstacle that is the digital divide, is its statement that the potential of ICT can only be seen if citizens have the skills to use the technology in their daily lives. (p. 27, para. 4) The International Federation of Library Associations and Institutions (IFLA) have a vested interest in policies that develop information literacy and anyone who is working within the information profession will have policies influenced by the work that IFLA does. At IFLA's core values they believe in equitable and universal access to information for "social, educational, cultural, democratic and economic well-being" ("More about IFLA," <https://www.ifla.org/about/more>) Further reading/references: UNESCO. (2013). Media and information literacy: policy and strategy guidelines. France. Access and opportunity for all: how libraries contribute to the United Nations 2030 agenda. The Netherlands. From <http://www.ifla.org/files/assets/hq/topics/libraries-development/documents/access-and-opportunity-for-all.pdf> (p.5) Without libraries what have we? Public libraries as nodes for tech empowerment in the era of smart cities, AI and big data: [https://www.researchgate.net/publication/334132150\\_Without\\_libraries\\_what\\_have\\_we\\_Public\\_libraries\\_as\\_nodes\\_for\\_technological\\_empowerment\\_in\\_the\\_era\\_of\\_smart\\_cities\\_AI\\_and\\_big\\_data](https://www.researchgate.net/publication/334132150_Without_libraries_what_have_we_Public_libraries_as_nodes_for_technological_empowerment_in_the_era_of_smart_cities_AI_and_big_data)

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's a great space, but the access way can be difficult for large scale protests and parades. It does feel slightly under-utilised. Maybe we need more good vendors and open air concerts, lectures and theatre.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They're warm and well utilised.

Q16. Where do you currently live?

Ngaio

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Matthew Garton

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The previous city library had excellent spaces, along with a Citizens Advice Bureau. I would love to see this return. Perhaps a function centre could also enhance it's capabilities as a community site.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Making the building safe
4. Te Ngakau Civic Square connections
5. Accessibility
6. Sustainability
7. Climate change
8. Other (please specify)
9. Heritage
10. Opportunities for partnership
11. Timeframe
12. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Square itself is already excellent. The issue seems to be the quality and resilience of the buildings surrounding it.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Climate change
6. Sustainability
7. Opportunities for partnership
8. Timeframe
9. Cost to ratepayers
10. Te Ngakau Civic Square connections
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are not very noticable places. I wouldn't have even known the locations if it wasn't for the fact I work close to the National Library one, and I have friends who work in the Manners St one.

Q16. Where do you currently live? Aro Valley

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Female

Respondent No: 221

Q1. Your name\* Stuart Baker

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central library is one of the few '3rd spaces' (ie not work or home) that is free and accessible to all Wellingtonians. In a city with sometimes harsh weather and many things being central (eg you might have two appointments in central town hours apart, but not the time to go home) it is an important space for many. We should not be trying to block certain people from access (eg the homeless), but find spaces for them within the precinct or library space that are welcoming and useful to them without making other people uncomfortable or unable to access things they require. With rents through the roof and unemployment climbing, there are going to be more people in the next decade or two that find the library a safe haven, and possibly the only place they can work, learn, or relax in a warm, weatherproofed place. There are many places to look for positive ideas. Look to Christchurch's Central library Turanga, which is one of the most engaging new library builds in the country, particularly with how they have made the teens space and the children's space more fit for purpose (gallery options for teens to display their artwork in teen space, gaming area, alongside a comprehensive collection of YA material). I also think it's important they create a Makerspace similar to Turanga, and even what Johnsonville library has. <https://my.christchurchcitylibraries.com/turanga/turanga-about-the-building/> Some examples of international innovation in libraries comes from the Finnish library system. Digital inclusion is part of their legislation and so libraries are at the forefront of providing digital literacy and ICT workshops for their communities. (p. 95, without libraries what have we?) In 2018 Finnish libraries were offering events which were targeted at multiple different age groups. These events include, "Digital Guidance for Seniors, IT workshop cafe, Robot Workshop ... AI Monday" (p. 96, without libraries what have we) "Within the European Union, Finns are the most active library users ... Last year the Library Iso Omena was the most popular library in Finland, attracting approx. 1350000 visitors. According to staff, the makerspace has thousands of visitors every month, and the feedback is mostly positive." (p. 95 - 96 without libraries what have we) Page references from "Without libraries what have we? Public libraries as nodes for tech empowerment in the era of smart cities, AI and big data"

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

There have been news articles about privatisation, or PPPs. I realise times are tough, but they will be tougher without our library and central/local government funding and supporting our most basic needs like library services and education. PPPs are not more flexible, and personally I would rather pay the extra rates to keep it publicly owned (if there even are any extra in the long term - often PPPs seem to be under-estimated, or not calculate all externalities).

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Climate change
3. Future-proofing the library service
4. Sustainability
5. Accessibility
6. Making the building resilient
7. Te Ngakau Civic Square connections
8. Heritage
9. Opportunities for partnership
10. Cost to ratepayers
11. Timeframe

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Mount Cook

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Male

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Shared public space with multiple uses, with the library collection being just one of those.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
A modern approach to library collections should be applied. Does the entire collection need to be on the site? Can people order books online and kept in a separate storage facility, further reducing the space and cost of a new building. Can the collection be more digitised? The requirements of a library in 20-30 years time could be very different to today and the new library needs to think to the future. A new building can respond to these needs much more effectively than spending a huge amount of money on a dated building. A new building can also be designed to be a leader in terms of energy use and sustainability, this can't be achieved with an old building.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think the redevelopment of the site is a waste of time and rate payers money. The area will likely be under water or impacted heavily by sea level rise so i think spending such a vast sum of money on a vanity project during a pandemic and a likely recession is poor form. The current model of "pop up" libraries scattered around the CBD is a fantastic idea and this should be the new normal. People can pop in and get a book out while waiting for the bus and it's convenient to be able to drop of books along the way home rather than having to travel to the central library to do so

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please don't waste our money on this banal vanity project. I understand that you all seem to have some emotional childhood attachment to the library but it's a waste of money. It was cold dark damp and awful and the new pop up libraries are far and away the best thing since instant coffee. By all means utilise the Nikau palms outside our smaller cbd libraries but don't go and waste your time and our money on this project!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Opportunities for partnership
3. Future-proofing the library service
4. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's a wasted space, bulldoze the library, fix up the civic buildings and town hall and carry on, no need for a library to be there in my point of view

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Khandallah

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* SJ

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Core library services maintained - making books available physically and digitally

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Spend less on the building and more on the collection!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Sustainability 3. Timeframe 4. Making the building safe 5. Accessibility

Q10.If you selected 'other' above, what other factor was important in your decision? not answered

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12.Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

More trees please!

Q13.On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14.There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Te Awe Library Brandon and Panama Streets

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are modern, warm, some of them have cafes, they're close to shops, work and public transport. There's plenty in short distance so if they're crowded you just keep dawdling down to the next one. They're close to where our people live and work and shop and not tucked away in a dark aging corner of our city

Q16. Where do you currently live? Aro Valley

Q17. Which of the following ages groups do you belong to? Prefer not to say

Q18. Please choose the gender that best identifies you Prefer not to say

Q2. Your email or postal address

freddie@freddie.com

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councilors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I would love for it to be a great place to do work. A place where students can study and professionals can get work done, as well as having access to books and food. I think that the rebuild option seemed to be the best, as the cheaper option rather than the high level-remediation. That would also allow improving the library too, no matter the time frame.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Making the building safe
4. Accessibility
5. Te Ngakau Civic Square connections
6. Opportunities for partnership
7. Climate change
8. Sustainability
9. Timeframe
10. Cost to ratepayers
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

So clean and welcoming

Q16. Where do you currently live?

Berhampore

Q17. Which of the following ages groups do you belong to?

45 to 49

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library should partner with other appropriate organisations and share information. There should be some quiet spaces for reading or studying. There needs to be adequate parking available (free for first 2 hours). Money should be spent on infrastructure before frills.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Climate change
4. Te Ngākau Civic Square connections
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Only Arapaki is convenient access for me, so not listed others. Arapaki is small and cramped, with no reason to attract me there.

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? 70 to 74

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Do enough to get it functioning and stop spending unnecessary money at present. Wellington City is going to be poor for a long time!
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1.
- Q10. If you selected 'other' above, what other factor was important in your decision? Making the building safe, Accessibility including transport, opportunities for partnership, cost to ratepayers ( all selected not ranked) Comment: Just get on with it - because current Covid 19 economy is stretched
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing  
More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Great to name a public square. How about making the library cafe one part of the square
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I don't like them at all though they are better than nothing. The central Library and the branch libraries provided an outstanding service. The interim branches cannot compare

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

A place for city information e.g. transport, tourist sights; a place for central theater bookings and a booth for last minute discount tickets (like London UK) a place for performance and better seating etc for

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Poor choice as the branches are small i reserve all my books. Its much better to have all the services in 1 place, the central library was brilliant - top class, i loved it and was proud of it

Q16. Where do you currently live? Te Aro

- Q1. **Your name\*** Peter Rodgers
- Q2. **Your email or postal address**
- Q3. **You are making this submission:** as an individual
- Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No
- Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**  
For me the key function of a library is as a source of material for recreational reading, learning, personal development etc. It needs to include access to collections, space for reading and study, ways to engage different age groups in a way that is relevant for them.
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option C -- High-level remediation
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**  
Let's take this opportunity to develop a modern library while keeping the heritage of the current building.
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**  
1. Making the building resilient  
2. Heritage  
3. Future-proofing the library service  
4. Making the building safe  
5. Te Ngakau Civic Square connections
- Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered
- Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**  
It needs to become the town square again, with frequent events and reasons for people to go there. It should be where the city council's and mayor's offices are - the civic centre of Wellington. The artificial grass area should not be there permanently
- Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Good Position for transport/accessibility Te Awe - good size - functional Arapake - way too small - needs bigger premises  
Idea of several smaller centres in the city rather than one grandiose structure is much more practical for users / access & i  
dare say cost

Q16. Where do you currently live? Wadestown

Q17. Which of the following ages groups do you belong to? 75 to 79

Q18. Please choose the gender that best identifies you not answered

- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I think the central Library should contain small conference rooms that can be booked out for meetings along with quiet areas to allow for working remotely. There should be spaces for community based groups, playgroups, childrens programming etc to use. After school activities for kids would be great too.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Sustainability
  3. Future-proofing the library service
  4. Timeframe
  5. Te Ngakau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city? not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6 Te Awe Library Brandon and Panama Streets  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Like: That they are there, they're accessible and easy to use, they're bright and open Improve: I had hoped they'd be bigger with more stock available

Q16. Where do you currently live? Broadmeadows

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Male

Respondent No: 245

Q1. Your name\* Dr Simon Atkinson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I would like to suggest a rebuild on the same spot as the most sensible approach, both for cost effectiveness and for ensuring the design is as functional as possible given the evolutionary nature of multiple literacies. I would like to see more effective use of space which is most likely to reduce the footprint of the book collection (no reduction in volumes) and more flexible internal spaces dedicated the thematic hubs. These are likely to be: - vocational education (in partnership with NZIST) - cultural and language networks - creative and arts networks - voluntary networks These hubs, social and educational could be run as sub-units of the library. Clarks was also very much loved as a cafe and social meeting place. Given the nature of social and educational literacies it is essential that equivalent opportunities should be afforded. I imagine as many as three different catering spots spread across multiple floors could easily accommodate Wellingtonians. Having these reflecting the nature of the clientele also makes sense. Think about the different patronage of the ground floor cafe in Te Papa versus those that go to the Fourth Floor. I believe the Library should play a major role in civic education. There are significant lessons to be learnt from Finland as I'm sure you are aware.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

As well-loved as the building (myself included) I don't think the building is of sufficient heritage value to warrant retaining it. An intelligent architectural practice would adopt facets of the original design to ensure a degree of continuity.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Opportunities for partnership
3. Cost to ratepayers
4. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? I believe what is currently missing from the current rationales are the very complex emerging literacies that impact on civic society. Paying lips service to climate change for example serves little purpose without a populace who are educated.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Easily accessible by public transport. Warm and friendly atmosphere & helpful staff

Q16. Where do you currently live?

Miramar

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Q1. Your name\* Dr Anthony Grigg

Q2. Your email or postal address  
 6011

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Primary purposes of the Library are to lend books (both hard and electronic) and assist research. It needs to provide considerable quiet reading and research space and facilities as well as separate areas for more collaborative activity, all with easy access to online resources as well as the hard copy collections. As it is also a socially interactive environment, the provision of more relaxed 'lounges' space and cafe/refreshment areas is highly desirable. In addition, if space allows, our youngest users should be catered for with a toy library and playing areas. From a design perspective providing as much natural light as possible with views of green outdoor surrounds would add to the attractiveness of the overall development.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
 Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
 not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

No building can ever be fully earthquake proof and no person fully safe in any such environment. There therefore needs to be balance in the decision-making between achieving a reasonable degree of safety and providing a building which is up to date and likely to survive a strong but not severe earthquake. To this end option E is both seemingly cheaper than the preferred Option C and more likely to be fit-for-purpose when complete. It also could be achieved earlier than Option C and the city and its citizens benefit more quickly. The problems seem to be where to actually site it and what to do with the existing building. If these two issues cannot be resolved quickly, then proceeding with Option C would make better decision-making sense and end the seemingly long delays that have already occurred.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Accessibility
3. Timeframe
4. Te Ngakau Civic Square connections
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?  
 not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

As climate changes and we can expect there to be possibly more opportunities to eat and drink outside, I would suggest that a new build would accommodate alfresco dining (or at least coffees!) in the Civic Square. This would require a redesign and improved Civic Square access. This should be combined with the design of civic education in mind, so informative displays visible to all those transiting through the civic square.

Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Monthly

Q14. **There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** Te Awe Library Brandon and Panama Streets

Q15. **What do you like about the interim CBD branches? Is there anything you would improve or change?**

Might be generational (!) but I like the use of space for book display. Always felt that the central library made very inefficient use for books. Other than the children's collection which warrants a degree of openness, adult collections could be more traditionally shelved.

Q16. **Where do you currently live?** Wellington Central

Q17. **Which of the following ages groups do you belong to?** 50 to 54

Q18. **Please choose the gender that best identifies you** Male

Arapaki Manners Library and Service Centre

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

This space needs to be retained, and maybe landscaped a bit better with more seating and trees. Once the Old Town Hall is re-opened and the NZSO and NZ School of Music are in residence and potentially providing concerts through the week, this area will become highly desirable and well used in association with the Library and Art Gallery. Keep the space and develop it further.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Te Awe has a reasonable feel about it and a reasonable range of books for browsing in a number of categories, along with an attached cafe. Arapaki is sadly lacking in most of what a Library should be.

Q16. Where do you currently live?

Oriental Bay

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Male

This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Enhance building external and internal design with the aim of optimising the range and quality of services provided. Plus must be a welcoming, comfortable and safe place for all users.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
More detailed consideration of parking, biking, public and private transport accessibility to the library must be considered.  
E.g. Parking meter rates are a barrier for less well off individuals and families.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Future-proofing the library service  
3. Accessibility  
4. Te Ngakau Civic Square connections  
5. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

40 to 44

IP Address:

- Q1. **Your name\*** Wendy Weber
- Q2. **Your email or postal address**
- Q3. **You are making this submission:** as an individual
- Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No
- Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**
- Physical space with desks and computers and access to internet. Physical space with comfortable chairs for reading. Still have access to magazines and books - on paper and on large hand-held devices (Large size E-readers with colour - which could be borrowed on site). But still have paper books and magazines with pictures. Reading books with just text will be more and more replaced by E-readers. Subsidised learning programmes for adults - related to reading/writing, the English language, and using technology. Lots of programmes for children. Small movie theatre to watch 'good' movies, old movies and documentaries. Space that can be rented for speaking events and workshops.
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option B - Mid-level remediation
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**
- The high-level remediation sounds ideal but seems too expensive. The new build on same site would be another good option but would take longer than the mid-level remediation. I always liked the current building - which to me also makes it less necessary to build a new building. The low-level remediation at 40% NBS sounds unsafe to me, but 80% feels okay. Hence my choice of option B.
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**
1. Making the building safe
  2. Timeframe
  3. Cost to ratepayers
  4. Making the building resilient
  5. Sustainability
  6. Future-proofing the library service
  7. Accessibility
  8. Te Ngakau Civic Square connections
  9. Heritage
  10. Opportunities for partnership
  11. Climate change
- Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered
- Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The approachability and helpfulness of library staff. Too small, not enough seating and co-location of other council services  
decreases the functionality of the space for library services. Good standard toilet facilities.

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you belong to? 60 to 64

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I came there a lot when the library was still open. It's a great space for events and just sitting at the side. Since the library closed, I have hardly been there. As part of the revamping of the library, maybe some attention could be given to this space to bring some life back into it - both in terms of physical enhancements (e.g. more sitting space at the sides) and organising events.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like the ambiance of the Arapaki Manners Library and the limited but high quality choice. I'm disappointed that it is now closed in the weekend and what is on offer is now even more limited (very few DVDs for example). It forces me to go to the other library on Brandon street which is a lot further away from where I live (Vivian street). But I like the fact that there is now another branch (Brandon street) - with a wider choice - so I shouldn't be complaining.

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 55 to 59

Q1. Your name\*

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

With a new larger build there is an opportunity to make the building more multipurpose for community and business eg meeting/conference/exhibition space. Possible to include City Gallery and then repurpose the City Gallery building.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Invest in the future don't rehash the past. Do it well and build new.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Opportunities for partnership
3. Making the building resilient
4. Making the building safe
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

With a new larger build there is an opportunity to make the building more multipurpose for community and business eg recreational/meeting/conference/exhibition spaces. Possible to include City Gallery and then re-purpose the City Gallery building.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Melrose

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

- Q1. Your name\* Elizabeth Rothman
- Q2. Your email or postal address
- Q3. You are making this submission: Wellington Jewish Care of Aged
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
1. Good Lighting 2. ease of circulation - finding books! 3.Meeting Rooms 4. Flexibility of spaces/usages for future
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Allow Better access for old disabled. Older group seniors are dependent over central closure. Speed of rebuild is important for this group not all can access JVille library easily. As soon as can be rebuilt is of utmost importance.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Timeframe  
2. Cost to ratepayers  
3. Accessibility  
4. Future-proofing the library service  
5. Sustainability
- Q10.If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
I represent a cohort of educated, smart older people who really need a library - like yesterday! After talking to (??) they say a rebuild would be cheaper - faster - easier - so yes please in same spot - keep it simple.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

He Matapihi Molesworth Library: waste of time and money. Nothing in it! The very good service by the librarians at both  
branches.

Q16. Where do you currently live? Thorndon

Q17. Which of the following ages groups do you 65 to 69  
belong to?

Q18. Please choose the gender that best identifies Male  
you

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Forget 'heritage' move on. No need for 'big' space. people use library to access internet, charge their laptop and cell phone. Only space enough for 25 people where they can use to charge their cellphone & laptop. Space for toddlers and parents.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Relocate the Central Library to the Convention and Exhibition Centre
- Q8. Is there anything else you would like to tell us about the future of the Central Library building? No need to build a central library building
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following? Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city? Leave it as is
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I dont much like the interim libraries though they are much better than none. Roll on the repaired central city library

Q16. Where do you currently live? Oriental Bay

Q17. Which of the following ages groups do you belong to? 80+

Q18. Please choose the gender that best identifies you Female

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Is having a central library an absolute need? There are many libraries around the town and books can be borrowed online and delivered to libraries around the city easily. Also, it's not like the building is hundreds of years old so that we'd be encouraged to maintain it as heritage!
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Demolish it if you have to and use the land for some other purposes: a proper playground with good exercise gear etc.
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Best place to go is central CBD
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Get on with it urgently
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1.
- Q10. If you selected 'other' above, what other factor was important in your decision? Selected but not ranked: Making the building safe, making the building resilient, Climate change, Sustainability, Cost to rate payers, Timeframee
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets
- Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
The staff and books

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Sitting space, internet, books

Q16. Where do you currently live?

Miramar

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* JB Wolland

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Carry on with Central Library building as it was, where it is. It would be great to have all the books in one building and accessible on the shelf instantly.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one not answered

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

New toilets and make them higher. Far too low

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1.

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q16. Where do you currently live? Island Bay

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Male

Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Well it's an area unable to be used at the moment, i think getting it open and usable again asap would be great
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Manners Library: Small, consequently no area for displaying more books. I prefer the 'other' style computers. The new screens are a bit low. No place/ desk to put pen to paper as you get information off the screen. Brandon Panama library: Quite a mission getting through the heavy doors to the toilets as well as the distance. Lift is so slow. Staff in both libraries pleasant and helpful

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 75 to 79

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Rosalind

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I support low level remediation as I think it is unrealistic to expect the building to be fit for purpose for the next 50 years. I would point out that the last library building was not considered to be fit for purpose around 40 years or so after it was built. In making changes to the current building I would request that the acoustics be improved as the floors were very noisy, especially the ground floor. In addition, the collection will need to increase so the idea to include Capital E in the building is not at all supported. I also consider that the upper floors which were occupied by Council staff will need to be used to house the collections. I am requesting that the piano room, housed on the first floor, be removed. There was heavy demand for computers and more should be available on the ground floor. Computers should not be grouped together in pods but spaced out so that users' privacy is protected. I was disappointed that the role of public libraries did not include enabling citizens to participate in a democracy. In my view the need to inform citizens should be the top priority in the selection of library books. Public libraries attract people who are maladjusted, which means for many patrons they are not safe places to be. Council management needs to work with the community police to develop a management plan to deal with these people.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

There needs to be a strategic review of the branch libraries. The branches were established in a vastly different era when public transport was not available, travel to the city centre was arduous and more people remained in the outer areas during the day. In addition, the e-library collection has experienced considerable growth, bringing into question the need for so many branch libraries. I recommend that the Wadestown, Ngaio, Khandallah, Brooklyn and Island Bay branches be closed. Library services could be provided in conjunction with school libraries if needed. In addition, there needs to be a restructuring of staff. There are far too many staff, twice that of American public libraries. Staff should reflect the communities they serve. In addition, staff should be selected who have very good interpersonal skills and enjoy dealing with people.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Cost to ratepayers
4. Climate change
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Kilbirnie

Q17. Which of the following ages groups do you belong to?

40 to 44

Q1. Your name\* Rachael Findlay

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Central Library should be the beating heart of our city providing a welcoming environment for everyone in wgmt to find information, recreational reading (watching and listening) and just hang out

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Minimal level repairs followed by a future upgrade

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Councillors need to rein in their grandiose ideas & face reality post Covid 19 lockdown - No convention centre, no expensive new library, no irresponsible excessive spending/wasting ratepayers money.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Timeframe
3. Climate change
4. Sustainability
5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Better options as an outdoor picnic / picnic space - more grass / trees / shrubs / tables / chairs - less concrete & hard surfaces- also more wind shelter

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Arapaki is ghastly; it is far too cramped and the selection is very poor. It is impossible to use the area as a working space. Sharing space with the service centre does not work. In addition, there are some very unpleasant staff there. Molesworth is also not useful, with very little space available, a poor selection and one very unpleasant staffer. Te Awe is the best of the interim libraries, with more space to use as a work space and a better selection. However, there is one unpleasant staffer there.

Q16. Where do you currently live? Kelburn

Q17. Which of the following ages groups do you belong to? not answered

Q18. Please choose the gender that best identifies you not answered

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I see the library's primary function is as a physical space for the community. A place where people can meet and gather, or spend time quietly exploring the stacks or using other facilities. I've greatly missed the Central Library since its closure.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- I think option C is the most ideal because of the reduced risk of future costs while being strengthened for eqs
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Future-proofing the library service

Q1. Your name\* Steven Thompson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

More than anything, a good library serves as a "third place" for the community; a space outside of work and home that doesn't require money to occupy or use. When the Central Library was still functioning and I would go to do some work, there was always a diverse mix of people—reading, studying, browsing, wandering through—but the main thing they shared in common was a sense of the space being open to them, no matter their purpose (or lack of). I recognise this isn't a particularly concrete description, so to narrow that down I think any version of the library should maintain that sense of openness, in both form and function. Space for meetups and small events. Space for community organizers or leisurely game nights. Space for classes and talks. Resources both physical and digital on-hand for this variety of needs, from media to printing, consulting, and more. Plenty of space to just...exist. What I loved about the Central Library was its many different corners, where you could walk in, grab a coffee and something to flip through, and set up for whatever length of time you wanted. Honestly, I thought the Central Library was more-or-less perfect in its previous setup, so my support goes to whichever plans preserve and protect what was good about the library and bring it back safely as soon as possible. In general, I don't see the need for the major interior refreshes proposed by any of the options from B up, as I'm not really aware of major public criticism of the library's previous form and facilities. I understand that the opportunity presents itself while strengthening the building, but don't necessarily agree that the added cost & time is worth bundling into that work. A last note: any new build is not only wasteful in an economic and cultural sense, but in an environmental sense as well. I would strongly oppose options D or E, or any option that involves demolition and new construction.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

While I appreciate considerations that factor in serious earthquakes and sea level rises, I'm not sold on their necessity in being attached onto discussions about reopening the library itself. Any such events would very obviously impact more than just the library, and I think having to hang those considerations onto decisions around the library's renewal is somewhat unfair in terms of public discourse.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Timeframe
3. Heritage
4. Making the building resilient
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

It's been a good stop gap but it's frustrating Arapaki isn't open at the weekend and the significantly reduced collection is also a shame. Less space for quiet sitting in Arapaki.

| Arapaki Manners Library and Service Centre |
| He Matapihi Molesworth Library             |
| Te Awe Library Brandon and Panama Streets  |

**Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

I've enjoyed seeing the space used for community events, gatherings, and pop-ups! Would love to see the construction completed soon to allow more through traffic to better connect the city and the sea. Whenever those facilities reopen, allowing for more entrance and ground-level engagement should be a priority.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

While the rapid formation and centrality of Arapaki was appreciated, it's severely lacking in space, meaning it's also lacking in overall accessibility and engagement. I of course realise this is due to space restrictions because of its location, but think perhaps more space could be given to seating and work/study spaces. Te Awe was greatly impressive to me, in that it brought back some of that sorely needed space. I haven't had too much chance to utilise it since opening but see myself making the extra walk to it over Arapaki even though it's around 15 minutes farther.

**Q16. Where do you currently live?** Te Aro

**Q17. Which of the following ages groups do you belong to?** 30 to 34

**Q18. Please choose the gender that best identifies you** Male

IP Address:

Q1. Your name\* Judith Graykowski

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

the Central Library needs to return to service in 2021. It is criminal that the collection is either unavailable or dispersed in pop-up branches which suffer from limited space and lack the social public space the city had in the past. Especially important and keenly felt is the loss of the Mezzanine Room for meetings.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

the planners should listen to the collective experts' advice made public at the NZIA-sponsored meeting in 2019

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Timeframe
3. Making the building safe
4. Making the building resilient
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Decay of the Civic Square with the de-commissioning of the Capital E, the vacating of the Council administration and councillor offices, and the struggle to keep the Art museum patronised is a blow to the life of the city.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Regarding question 13, "There are interim CBD libraries in Manners St, National Archives and on Brandon St." It is the National Library, not the National Archives.

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Female

- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- |  |           |
|--|-----------|
| Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. | Appealing |
| More windows to help connect the library visually to the square and surrounding streets                                      | Appealing |
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6 Te Awe Library Brandon and Panama Streets  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The temperature and fresh air exchange in every one of the 3 branches is terrible: very stagnant, and not conducive to reading and browsing: I want to grab a book and leave as soon as I can, gasping for breath.

Q16. Where do you currently live? Mount Victoria

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Too bad about the Athfield Centre Library. Unfit after less than 30 years. I dont support any expensive rebuild or remediation. The current situation is fine. Will hard copy books be published in 50Years time?
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one  
None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
Just keep the present extensive network. No big central Library.  
Maybe a central book depository & free deliveries of reserves
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
A) Hard copy books are on the way out B) we have the National Library C) on past performance, any estimate of costs is bound to be exceeded.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1.
- Q10. If you selected 'other' above, what other factor was important in your decision? Don't rebuild or remediate

Q1. Your name\* Margaret Collinge

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Future proofing the library is essential. Libraries are usually places where informal activities are allowed to occur. The previous central library (Te Matapihi o te Ao Nui) evolved as a place for young people to hang out after school. It was also a space where homeless and other disadvantaged people were accepted and could get warmth and shelter.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C -- High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Make it a place where everyone can feel accepted and welcome. make it flexible and adaptable Follow models which are proving successful such as the Christchurch Library.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Heritage
3. Making the building safe
4. Making the building resilient
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Would like a versatile space where a range of activities can be held with no new permanent shops, food lets etc

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Arapaki Library is too cramped and noisy with the associated services centre, but provided a very good service during lockdown 2. Te Awe Library is really good, a smaller edition of the original library, but feels much happier and the service is excellent.

Q16. Where do you currently live? Option 42

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

- Q1. Your name\* David Panckhurst
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
It was perfect as it was.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Te Ngakau Civic Square connections  
4. Timeframe  
5. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Te Awe Library is an attractive library. One small problem I have encountered is that it is hard to use the ground floor fiction area because the shelves are too close. It is difficult for more than one person to look for books, or browse at a time. there are not many study spaces and no place for homeless people to find shelter and rest - an important informal function which libraries in many parts of the world including NZ have embraced with compassion.

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? not answered

Q18. Please choose the gender that best identifies you not answered

IP Address:

Q1. Your name\* Athol McCredie

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I'm happy for it to mainly be about housing books. But sure, it could recognise the function the Central Library served as a place to sit out in comfortable surroundings for many people, especially youth. Though I would like to see better separation of study & conversation spaces. The 'Living room in the city' concept could certainly be developed much further than it was at the library - more in line with other new libraries where there are couches and so on.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I'm puzzled as to why the consultation document is silent on the fate of the current building if a new one were to be built elsewhere. It notes that this would have the heritage & sustainability advantages of retaining the existing building. But surely the building would not simply sit there empty? So there would be a double cost of a new building elsewhere and strengthening the existing one so it could be used for something. Would the idea be to sell it? (Would anyone buy it if they couldn't knock it down?)

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Heritage
3. Future-proofing the library service
4. Sustainability
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Shelter around the perimeter - Wellington is a windy place & we should build for this, not just wait for windless days. be good to get the council offices by the library occupied again. That temporary walkway around the outside has become almost a permanent eyesore. What is this waiting on?

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Arapaki is too small - you step back to look at lower shelves and inevitably bump into someone

Q16. Where do you currently live?

Johnsonville

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Male

not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

1) Love the design of Brandon/Panama St spaces 2) Plenty of staff around Arapaki & Te Awe branches 3) Opening hours of Arapaki (ie Business hours +) more convenient than previous central Library 4) Quick in and out. fewer books etc makes choosing quicker & you dont have to spend a lot of time getting to upper floors.

Q16. Where do you currently live? Aro Valley

Q17. Which of the following ages groups do you belong to? 65 to 69

- Q1. **Your name\*** Keefe Vincent van Musscher
- Q2. **Your email or postal address**
- Q3. **You are making this submission:** as an individual
- Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No
- Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**  
1) The Homeless. It is common knowledge that people slept in the central library during opening hours many of them were homeless. I'm all for this practice continuing when it reopens. If this is not practical include a dedicated homeless shelter onsite. 2) Community events in general should resume being hosted in the revamped building
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option A - Low-level remediation
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**  
The primary value of the building itself was that it was a large public space that was free to enter, and no expectation for one to buy anything. Libraries in general function as community spaces a role that's fallen on them more as public space is commercialized. Their original function has become secondary to hosting the community. Reopen soon and don't dismiss libraries as mere holders of books.
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**  
1. Making the building safe  
2. Timeframe  
3. Te Ngakau Civic Square connections  
4. Future-proofing the library service  
5. Cost to ratepayers
- Q10. **If you selected 'other' above, what other factor was important in your decision?** Statements from professional architects that the council figures are over priced.
- Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**  
1) The 'Quasi' statue is an eyesore. Remove it as soon as possible. 2) The Art gallery building could serve as an interim library 3) The other closed buildings in addition to the library building bring the square down. Expedite repair work.

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Good to have more toilets in CBD

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

75 to 79

Q18. Please choose the gender that best identifies you

Female

- Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**  
 I like the existing library, but would be nice to have more meeting rooms/other spaces available for hire than in the current library. If starting from scratch, engage the same designers who did the new Johnsonville library - they did a superb job.
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option C – High-level remediation
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**  
 Please prioritise this over the town hall, a convention centre (who exactly is going to use that in the age of Covid-19?) or a movie museum (exhibitions at Te Papa, sure. A council funded museum? No thanks).
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**  
 1. Future-proofing the library service  
 2. Timeframe  
 3. Making the building safe  
 4. Cost to ratepayers  
 5. Te Ngakau Civic Square connections
- Q10. **If you selected 'other' above, what other factor was important in your decision?** N/A
- Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**  
 Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
 More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**  
 Playground. Open air cafe on the square (Nikau & Clarks are both good, but don't have people sitting in the square).
- Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Its always nice to have more libraries. They'd be more useful if their collections were larger. they could host more community events. Also, they could do more outreach to the homeless community. The recent trend for computer issuing by customers has exacerbated a decline in user-librarian interaction. Librarians conversing with and helping users builds community engagement in libraries.

Q16. Where do you currently live? Khandallah

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Nick Churchouse

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should be the physical and functional manifestation of an inclusive and future thinking city. It should house the most open minded learning culture and technology we can bring to bear, it must represent the coming together of two cultures in a way that strongly builds a physical coowned and codesigned piece of the nations capital, as a beacon of what a powerful and proud bicultural population looks likes and feels like. A library is truly a parliament for the people, where knowledge, learning, openmindedness and connection are the political discourse.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It should be forward thinking, brave and world renowned. These opportunities dont come along very often. The current buildings heritage status is a non event compared to the potential of what it could be. Make it a library in the most powerful sense of the word, reimagine the potential of the library concept, copy the best ideas from round the world to create something that is decades ahead of its time.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Making the building resilient  
3. Accessibility  
4. Opportunities for partnership  
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It should be the centre of democracy in our national capital. Make it feel that way. As important a presence as Parliament.

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapahi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Having libraries in the CBD...

Q16. Where do you currently live?

Tawa

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\*

Nic

Q2. Your email or postal address

.

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Be a library, a meeting space, hire rooms for clubs/meetings.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I dont feel that the building itself was the heritage... rather the utility and location around the civic centre, and the bridge was a but of a flop.. I think a new build would give me confidence in the structural integrity without constraints of retaining the same fascia - and I believe a new design could be made in a sympathetic way to fit in with the rest of the area.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Te Ngakau Civic Square connections
4. Sustainability
5. Future-proofing the library service
6. Accessibility
7. Cost to ratepayers
8. Timeframe
9. Climate change
10. Heritage
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I associate the square with large group activities, like big celebrations, protests, marches. I think the library is well situated to inform and showcase such events, and would like to see that continue.

- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library
- Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
They are accessible and staffed by great people .
- Q16. Where do you currently live? Wadestown
- Q17. Which of the following ages groups do you belong to? 40 to 44

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A place that is more conducive to study/work in the 21st century. In other words spaces, facilities and equipment that is more user friendly (i.e. desks, charge ports etc.) much like what's been provided at the pop up library Te Awe. Secondly the Central Library has to be fostering community and ideas; the best way to promote that is events, info sessions, panels and forums. There's many 'up late' events that cultural institutions like Te Papa and City Gallery do and do well. There's no reason our Central Library can't do the same. Lastly, I think it would be awesome if the Central Library had a dedicated Maker Space; The Queensland State Library (in Australia) opened one as part of the library's revamp (called The Edge, <https://www.slq.qld.gov.au/plan-my-visit/spaces-visit/edge>) which has been an invaluable community asset to Brisbane.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C -- High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? Better connection to Civic square and the surrounding institutions: not just physically but culturally as well.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Sustainability
4. Making the building resilient
5. Opportunities for partnership
6. Climate change
7. Te Ngakau Civic Square connections
8. Accessibility
9. Timeframe
10. Cost to ratepayers
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? Fostering culture, community, creativity and ideas in Wellington

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

None of them are as close to where i work as the central one.

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

This could become the heart of Wellington City. Indoor and outdoor public reading spaces, sound proofed areas for children, quiet study rooms for students and large rooms for community events. Comfortable seating for community movie nights/fundraisers. A wonderful cafe that doesn't just appeal to book lovers but the wider public.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C -- High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It should be the safest option for people in an earthquake. We should re-use what we have to mitigate waste during the climate emergency we are in. The cost should not outweigh peoples safety. People and the environment are more important than money.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Climate change  
2. Sustainability  
3. Making the building resilient  
4. Making the building safe  
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

More connection from the library into civic square would be good.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

A place to foster community, creativity and ideas.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like the amenities to study and work (desks, power points and usb chargers etc.) as as it feeling like a welcome and open space.

Q16. Where do you currently live?

Mount Victoria

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Male

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I like the idea of the Central Library broadening to include other services such as Capital E. Great to see the Library really connected to the community and multiple spaces available for Wellingtonians to use. It will be great to see Te Ngākau return to life. The foot traffic generated by people visiting the library will really help create a buzz back in the square.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I want decision makers to do it once, do it right. Know the costs before anything starts and stick to timelines.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Opportunities for partnership
5. Te Ngākau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Te Ngākau used to be the heart of the city. I want to see this restored and alive with people. Currently the space feels desolate. It is a great place for people to gather before and after marches, a place to hold special events and memorial services. Bring back the buzz!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like that there are places to charge laptops everywhere you sit. This is really important. The cafe in Te Awe is great.  
Ideally these spaces could be bigger and have more study rooms. Manners St library doesn't have enough spaces to  
study.

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Dash

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think the library should continue to be a place of dedicated spaces. It should have its cafe, its dedicated reading areas; but I think it would benefit greatly from having seaparared group collaboration and quiet study areas as done in the library at Victoria University. Having strictly quiet spaces due to it being a library made it a bit tough for some to get group collaboration work done when they had nowhere else to really go, and this could be improved on. What made the library such a cherished space to be in was its versatility. You could study, eat, read, etc. It would totally be able to fit in areas for support groups, perhaps dedicated kids reading and tutorial sessions for kids, the options to include more activities and creating the ability to fit these within the library should be kept in mind during remediation.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please keep it where it was; it's a very central building and an important place for many kiwis. In terms of accessibility and moving around the city by foot. The only thing I'd change is that I would introduce group collaboration areas in the library (not specific rooms) where "louder" chat is acceptable; as previously mentioned it would be very similar to what's currently being done at Victoria University libraries with the blue and green study spaces.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Te Ngakau Civic Square connections
3. Accessibility
4. Future-proofing the library service
5. Timeframe

Q10.If you selected 'other' above, what other factor was important in your decision? not answered

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12.Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Making sure the accessibility is kept as an important factor; it should remain the same where people could walk onto the civic square from the library and its ground floors.

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I particularly like Te Awe, the space recognises that people use libraries in different ways.

Q16. Where do you currently live? Ngaio

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Primarily a place to borrow books and find information. Community areas for study/ discussion and some community information services. A welcoming but calm place with dedicated quiet spaces and opportunities to display the work of local artists, craft workers including young people.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Repurpose the Convention Centre being built into a library. Covid has changed the world and Traveling long distances for mass gatherings for conferences is a long way off.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Alternatively Option C above.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Cost to ratepayers
3. Making the building safe
4. Making the building resilient
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is becoming the local dive for drinkers and small-time vandals - I live nearby. It will be hard to change that view / usage even with smart new buildings because they will still empty out at nights.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live?  
Island Bay

Q17. Which of the following ages groups do you belong to?  
19 to 24

Q18. Please choose the gender that best identifies you

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think it's important to have an open and welcoming public space. It should be warm, it should be a place people can spend half their day if they want to. It should have varying sizes of spaces to book for community groups, ideally affordable or free.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. Q1. Your name\* Ned Treacher

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should be similar in content to the new Te Awe library but much greater in scope, with the large non-fiction and archival sections of the old library restored to their former glory. There should be a cafe, a large children's area, a teenage area dedicated to high school readers, a quiet zone for students, a section dedicated to whakapapa/genealogy work, prayer rooms for religious groups, dedicated sections for Pacific and world literature and a section focused on multimedia collections (film, graphic novels, magazines). The layout should be open with lots of comfy space for reading (beanbags etc). Genre and literary fiction should be given equal priority in the adult fiction section.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I have many fond memories of the old Central Library and would like to see features of it retained (mezzanine cafe, couch spaces, the general layout)

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Timeframe
5. Sustainability
6. Te Ngakau Civic Square connections
7. Heritage
8. Climate change
9. Opportunities for partnership
10. Accessibility
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They don't have the space to properly sit down and settle for a few hours.

Q16. Where do you currently live? Kelburn

Q17. Which of the following ages groups do you belong to? 19 to 24

Q18. Please choose the gender that best identifies you Male

- Q1. Your name\* Emma Watson
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I really enjoyed the services that the original Central Library provided to Wellington, and as a current university student in the city I would appreciate to have this service back as soon as possible.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- Having more private study spaces that can be booked out individually or as a group would be nice if possible.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Making the building resilient
  3. Timeframe
  4. Cost to ratepayers
  5. Accessibility
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Could contain a meeting hall or public forum space for politicians and activists - ideas around direct democracy could factor into this?

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
He Matapihi Molesworth Library  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I really like the new branches, especially Te Awe. However the Manners library is a bit small and limited, with few public facilities. And all feel a bit cramped and small compared to the old Central Library.

Q16. Where do you currently live?

Brooklyn

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

Male

Kia Ora, This has been published on Wellington Scoop. It is my formal submission to you. Do let me know what you think of it! Nga mihi Helene PUBLIC SUBMISSION WELLINGTON LIBRARY August 26 2020 From Helene Ritchie To Wellington City Council INTRODUCTION I am a former deputy mayor of Wellington, and was chair of the Civic centre Project in the late 1980's which gave Wellington its heart, and led to the design and construction of the new civic centre as an integrated whole. The project included the new library building, a new civic administration building, the development of civic square, retention and repurposing the old library building into the City Art Gallery, the unique City to sea Bridge and its sculptures, and the strengthening and refurbishing the Town Hall. We appointed (Sir) Ian Athfield, one of New Zealand's pre-eminent architects as lead architect of a three-architect team and he led the design of the new Wellington Public library. Now only 30 years old, this library building is part of the fabric of the heritage architecture of the Capital and civic centre. The Civic centre buildings are a fine cluster, of different architectural styles, and periods not to be found together anywhere else in the City and going back to 1901-04 when the Town Hall was built. Holmes report February 2013 commissioned by the Chief Executive. In May of this year 2020, while researching my submission to the Council requesting re-opening of Wellington Public Library, I unearthed a 2013 report commissioned by the officers, written by the reputable firm of Holmes consulting engineers who had been asked to "evaluate the likely seismic performance of the existing Wellington City Library Building." I was a councillor then but at no time was I informed of the existence of that report, nor of the public dangers expressed. I doubt that any elected councillor, or possibly even the mayor was informed of its existence. Clearly the Chief Executive, and some officers must have known of it and its recommendations but even today, it remains hidden. However, I would be surprised if the current mayor and councillors were not aware of it. Holmes Recommendations The Report stated that the library was not deserving of an earthquake prone building notice, (and it has never needed one since), but rather that there were "localised structural vulnerabilities". These relate(d) in particular, to the depth (unseating) of the precast hollowcore floors, the stairs and precast facade panel connections. They emphasised "potential collapse" of the floors, and went further to say, "We do not believe liquefaction induced settlements would pose a significant risk to the library structure..."with bored piles throughout..and proximity to bedrock..". Holmes' unequivocal recommendation in 2013 was, "That Council consider a programme to implement securing works identified", and that they "anticipated that these improvement measures would be undertaken at the earliest practicable opportunity." That was seven years ago. But instead of acting on the Holmes warning of potential floor collapse Council has called for more reports, peer reviews, more workshops, but over and over again, being told the same recommendations by professional engineers. Since February 2013 until March 2019 when Council suddenly closed, then barricaded and emptied the library, over one million people have each year passed through its doors. Rather than taking the recommended action, the mayor and councillors have continued to seek officer reports, hold multiple council meetings and public consultations. Had the Holmes recommendations been acted on, the library would be safely open now, and would instead of being a symbol of Council procrastination, with ugly barricades would be a magnet drawing people into it and the City Centre. Ironically, it would have been one of the few safe large indoor havens, open during Level two of our Covid 19 requirements, just as Christchurch library has been. Demolition When, six years after the Holmes recommendations, the Council suddenly closed the library in March 2019, the then mayor subsequently said, "there was a likelihood it would be demolished and rebuilt," and a developer said it should be. For some inexplicable reason, periodically there are attempts to demolish buildings in our civic centre. (I was instrumental twice in preventing the demolition of two of those buildings, the Town hall and the previous City library now the City Art Gallery in the early and late 80's and more recently I participated in the repeated fight to save the Town Hall from demolition. Civic Centre used to be a highly utilised public place of great beauty, civic government, a place for the people, until the Council neglected to maintain it and then put up barricades around the library, the most utilised civic building in Wellington. The library and civic centre until recently held pride of place in the City and the country. With Council commitment to urgent action to fix the library, Wellington's heart, Te Ngakau, could again be beating. As a former councillor, and a ratepayer, I dislike waste. I dislike civic vandalism. I dislike procrastination by Council and I dislike my rates being diverted into unnecessary and expensive projects instead of into the multiple and fundamental infrastructure priorities which currently face the City. In sum The library is neither earthquake prone nor damaged. (One of the architects of Civic Centre, Gordon Moller, told a public meeting in 2019, that the library is and was not damaged despite two major earthquakes since 2013. The "localised structural vulnerabilities", identified by engineers as far back as seven years ago and since, need to be remediated and fixed. The Holmes report said seven years ago, "We anticipate that improvement measures ...would be undertaken at the earliest practical opportunity to improve the performance of the overall building and eliminate localised risk." My request to the Council All I ask is that Council follow the science and the experts, adopt the recommendations in the Holmes report, and accordingly fix the library forthwith, in the most cost effective way, refurbish as necessary, and re-open our library, as the Holmes engineers said, "at the earliest practical opportunity." Helene Ritchie 0274488669 helene.ritchie@icloud.com

Q1. Your name\* Neil Mcleod

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

We need a functional space that provides for all ages and types of people and is future-proofed. Maintaining the current building seems pointless.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Climate change  
3. Sustainability  
4. Making the building safe  
5. Making the building resilient  
6. Accessibility  
7. Te Ngākau Civic Square connections  
8. Timeframe  
9. Cost to ratepayers  
10. Opportunities for partnership  
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6 He Matapihi Molesworth Library  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Te Awe is quite nice, it has a good catalogue and resources and feels cosy in a while the central library does not.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Chris Paice

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

This is the time to refocus and build a fit for purpose/modern building that will house not only the library but a raft of associated/complimentary Council/community operations for the next 50 plus years. A typical library would include a young persons space (attract the younger age group), cafe (attracts a wider age group), community services hub (on stop shop place for NGO's like CAB & Budget Advisory and similar orgs etc). A council service centre linkage would be great for certain council led community services like say housing & dog licences etc.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

As per my comments in Q 5, this must be a multi user building that links better than the existing Central Library with some room for (non-NGO) community service providers to do tutoring, eg driver licencing, educational tutoring (Kip McGrath for example) etc etc. Common user areas are important to get cross org collaboration and getting the central library really humming as a community hive of activity.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Timeframe
6. Cost to ratepayers
7. Opportunities for partnership
8. Te Ngakau Civic Square connections
9. Other (please specify)
10. Climate change
11. Sustainability
12. Heritage

Q10.If you selected 'other' above, what other factor was important in your decision? Taking the opportunity to get the facility built from scratch - right at time of design that will be modern & interface with the surrounding building and provide the best most cost effective & timely outcome possible for lowest overall cost

Q11.Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Get the area even more heavily used and act as the centre of focus towards the precinct - need to bring the National Music Centre into the mix and be able to share the attraction of the area between a broad range of age groups making all facilities relevant and user friendly, just diverse in their user focus/ability to deliver what is expected to be a period of development over the next 50 + years

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Fresh & very user friendly with great staff ready & willing to look after users. great facilities that are a credit to the WCC and the designers to get them up & running so fast - carry the concept on and include these features in the new central library

Q16. Where do you currently live?

Wellington Central

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Male

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Lots of books rather than moving too far from the core purpose with new tech or other ideas. And do not privatise library services!! What does "opportunity for partnership" mean? As far as I can see this is not explained in the info provided. (It's also unclear what some of the priorities below mean - what does 'sustainability' mean in this context? Is it about eco-friendliness? How is resilience different from future-proofing? What are the implications of the different builds on what services the library might offer? If a higher-cost option is chosen, what are the implications of this - will the difference be met by higher borrowing fees or privatisation of some services? Etc. It is difficult to provide accurate feedback given this.)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Preference for old school library architecture, or a new Māori or Pasifika style design, rather than something too open-plan and spacy/echo-y. It's cosier and quieter and more welcoming. Disability access is also important. I do not put a high value on heritage so would just pick the most safe, welcoming, and cost-effective option.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe  
2. Accessibility  
3. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The space needs to be multidimensional and cater to ALL tiers of the Wellington population. It needs to have functional spaces which house all of the facilities/functions that our community needs. Students - Functional desk spaces. Areas where they can snack and do their work at the same time. Quiet spaces. Fast internet. Bookable rooms where they can come together/brainstorm/use the whiteboards etc. Kids - Interactive learning with colour/puzzles/toys/books and community reading sessions (where young mums can come tread together with the children) Elderly - Loneliness is prolific among our elderly community members. How do we create spaces where they can meaningfully engage? A HUB of community services - I'm talking EVERYTHING. There should be no reason that someone gets turned away from a service because they've come to the wrong place or they have the wrong form. People should be able to access EVERYTHING they need. I.e. printed forms available. Copying services. Everything.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

You can incorporate/reuse pieces of the OLD library in the new build/design. There are ways of getting the best of both worlds.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Climate change
3. Accessibility
4. Future-proofing the library service
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Consult on the design - and TALK TO THE MARGINALISED IDENTITIES for whom the library creates a place of home and shelter - what do they want/need in a public space?

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

- Beyond the services provided, I like that the central library has been a welcoming public space where you don't have to spend money to be there. I hope this aspect can be preserved or even extended. I think it would be great if the library could continue to provide shared spaces such as meeting rooms and so on where groups of Wellingtonians could get together to share their interests of whatever kind. I recall attending some meetings of a professional association at the current library and from memory a book launch. I'd welcome more of that kind of thing.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I adored the old central library, but if it was not a safe build for earthquakes, and further more built on a location prone to collapse and possible coastal flooding, then a new safer build in a safer location simply makes sense

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I hope a new central library is prioritised, the heart of the city is failing without a place people can visit, relax, read and learn.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Climate change
6. Sustainability
7. Timeframe
8. Cost to ratepayers
9. Te Ngākau Civic Square connections
10. Other (please specify)
11. Opportunities for partnership
12. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? None, I just was confused by the ranking system

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
The existing library is nearly 30 years old and needs modernisation. I like the layout of the new Johnsonville Library.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
I do not consider Council has enough design information to have any accuracy in the estimate for the preferred option C of \$174M to \$200 Million. Some Councillors may remember the original estimate for strengthening the Town Hall was about \$25 Million and is now well over \$100 Million. My preference is for the heritage features of the existing Athfield designed building to be removed and reinstated in a new Base Isolated Library. I believe this will be considerably cheaper than Option C and also allows greater flexibility in the new design. The main features I consider worth reinstating are the main entrance and the promenade of palm trees on Harris Street. The cladding and windows of the building are insignificant in my view and do not merit saving. If Council is adamant that they want to strengthen the existing Library (Option C) I request that a detailed design and estimate be completed before Council proceeds with construction.
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
The Central Library is a critical part of the centre of Wellington city and needs to be reopened as soon as practicable.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Future-proofing the library service  
3. Heritage  
4. Cost to ratepayers  
5. Te Ngakau Civic Square connections  
6. Making the building resilient  
7. Accessibility  
8. Timeframe  
9. Other (please specify)  
10. Sustainability  
11. Climate change  
12. Opportunities for partnership
- Q10. If you selected 'other' above, what other factor was important in your decision?  
Building a new library reusing the key Athfield elements from the original building
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The precinct should continue to be used as it is now for a variety of events.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The choice of books is too limited. I look forward to the new Central Library opening.

Q16. Where do you currently live?

Brooklyn

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Male

Respondent No: 317

IP Address:

Q1. Your name\* Hilary Phillips

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Please strengthen, then reopen our Central Library as quickly as possible. Don't try to get too fancy - it's meant to be a library, not an events centre.. Please consult librarians and readers, ie. people who actually use libraries, not just hip and trendy fashionistas, when you make your decisions. Don't try to make the limited space fill too many functions. Above all, please don't leave out the books in an attempt to make it look 'modern' and 'trendy'.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The library building needs to serve the needs of people who use libraries. It must not become just another events and entertainment centre.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Making the building resilient 3. Future-proofing the library service 4. Timeframe 5. Other (please specify)

Q10.If you selected 'other' above, what other factor was important in your decision? Making sure the building keeps being used for its original purpose. The space needs to be used for books and other information sources - not for fancy displays while the books are shunted off to inaccessible storage, or the landfill!

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12.Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Some seating, umbrella-type shelters and little food stalls would help it be used more. A facility for musical performances would be nice too. I realise our weather can be a drawback, which is a shame, but it would be nice to see the square come alive instead of just being on the way to somewhere else.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I find them a bit sad and limited - they hint at a long delay before we get our Central Library back. So I tend to use my local branch library, and order books off the catalogue. Please just restore the Central Library - I really miss it - it has been the true centre of Wellington for me for most of my life!

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I loved the Central Library as it was. Great spaces for small groups to meet, lots of spaces for individuals to work, read, and study, a great children's area, Clark's Cafe, and nice views of the surrounding areas. It was also really handy having the CAB located there. Handy public toilets, as well, meaning that it was a great base for family activities in the city. We really miss it. Maybe it would be nice if the water feature area outside the northeast side of the ground floor could be revamped so that it's a bit more attractive, or more usable. It always seemed like lost space. But the library as a whole is such a critical space for Wellington (and any great city), that it's important to many of us that it be returned to the public as soon as possible.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Everyone that I talk to about it agrees that it was such a wonderful, well designed, well used space. I'm sure that there would be things that could be improved, but I'm hard pressed to think of them.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Accessibility
4. Timeframe
5. Sustainability
6. Climate change
7. Te Ngakau Civic Square connections
8. Opportunities for partnership
9. Cost to ratepayers
10. Making the building resilient
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's a great focal point of the city. Important to have a large square for gatherings, demonstrations, events, etc. And it's also just nice to have a large open space to walk through when passing through that part of town.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They're a fine interim measure, but they don't come close to replacing the central library.

Q16. Where do you currently live? Karaka Bays

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Johanna

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

bookable rooms for meetings and tutoring, audiovisual equipped rooms, presentation room, adult education classes, hobbies and cultural clubs, relaxation rooms, counseling services, job search board.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The building should be very comfortable, warm, with comfortable seats, and noise controlled. There should be a bus stop right outside, secure bike parking should also be available. The cafe should be noise isolated.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Future-proofing the library service
3. Making the building resilient
4. Accessibility
5. Sustainability
6. Making the building safe
7. Opportunities for partnership
8. Te Ngakau Civic Square connections
9. Climate change
10. Timeframe
11. Cost to ratepayers
12. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? We need more good looking buildings in New Zealand. Engage talented architects and give them the budget to design more than a rectangular box of concrete. I want tourists to take home nice photos of New Zealand buildings.

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Q1. Your name\*

Q2. Your email or postal address

Q3. You are making this submission: Verb Wellington

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Verb Wellington is a literary organisation that supports writers, readers, and publishers of all kinds. We have a strong relationship with our beautiful libraries as we run events in collaboration with them, work in them, and treasure them as repositories of our stories. We are also an independent arts organisation, which means we're working in Wellington to create events and projects that are not centrally funded in an ongoing way. This means that like many other artists and indie producers we use spaces in the City that are free and welcoming, all the time. We have very fond memories of holding meetings in Central Library, working in Clarke's Cafe, and creating bespoke events especially for the space (e.g. LitCrawl and KidsCrawl, and the events for the NZ Book Awards for Children & Young Adults.) So the context for our submission is within this literary ecosystem and in access to the arts for both the public and the indie arts community. Looking forward we would love to see the future Central library encompass the following: 1) Event space. A flexible event space that is equipped for conversational events (e.g. writers talks, ideas talks). To seat a minimum of 200 people. Tūranga is a good example of a library that now incorporates flexible event space. 2) A Writers Centre: this is a larger kaupapa that would be very exciting to explore for Pōneke. Writers Centres across the world deliver different things depending on their community. For Wellington this could mean a place for writers to work, a space for workshops, and a space to house a writers residency (a quiet space with natural light for a writer to concentrate on their work in private). There is a collective of Wellington writers currently exploring this kaupapa who are excited about the idea that a future library could be a home for the development of literature in Wellington. Verb Wellington would be very happy to work to develop this concept as a partner with Wellington City Libraries.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The future is an uncertain thing, particularly in these times, therefore a building that was able to be flexible and grow as our City changes would be ideal. Perhaps that means the ability to shift the external and internal artworks over time (and offer Wellington artists ongoing commissioning opportunities). Civic Square is a site of great potential -- it would be interesting to consider how the library might expand out onto the square itself for certain time periods = e.g. a temp outdoor library space for summer with a purpose-built structure that could be packed up and down depending on needs.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Opportunities for partnership
4. Sustainability
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

We love the democratic nature of Civic Square and the connections possible between City Gallery, Central Library, The Town Hall and other initiatives in that location. Making use of the square itself in high-quality, pragmatic and highly creative ways would exciting and utilise the space.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The interim branches have been so well done. Obviously they are small but they have been very important to offer some of the services and spaces left by the loss of Central Library.

Q16. Where do you currently live?      Southgate

Q17. Which of the following ages groups do you belong to?      35 to 39

Q18. Please choose the gender that best identifies you      Female

- Q1. Your name\* Emilie Hope
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councilors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
 Meeting rooms which one is able to book out.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
 Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
 not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
 not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Sustainability
  3. Climate change
  4. Making the building resilient
  5. Accessibility
  6. Heritage
  7. Future-proofing the library service
  8. Te Ngākau Civic Square connections
  9. Opportunities for partnership
  10. Timeframe
  11. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision?  
 not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
 It's one of the only places in a city where one can exist and not have to pay money to do so.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Female

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- It can be a central place for meetings (e.g. rooms available particularly for those who are usually home based), study, reading, cafe, warm space etc. It should be like the library in Christchurch which is fabulous.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- I don't mind if it's a new build on the same or another site. It could even be a revamp of an existing building but the current Central Library building is no longer the best option in terms of library design. There is too much wasted space, and it's hard to access all the collections. When you compare it with Christchurch, the difference is remarkable. It would be such a waste of money to restore the existing building. You could keep the Nikau Palms though!
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Future-proofing the library service
  2. Making the building resilient
  3. Accessibility
  4. Te Ngakau Civic Square connections
  5. Timeframe
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Neutral
- Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Ngaio

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Firstly it needs to have the remedial work done to keep it safe during an earthquake. It should have a blend of 'traditional' spaces (ie physical books, DVDs, etc), quiet spaces, group spaces so the community groups & students can work together, and it should be flexible enough to evolve as new technology evolves. A cafe would be a 'nice to have'!
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. - Q1. Your name\* Barry Hellberg
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I believe that the Council should ask its officers to carry out a feasibility study and costing for locating a new library in the old DIC building on Lambton Quay. The building is centrally located and the new branch is popular with both Wellingtonians and visitors to the city. If the Council could buy out existing tenants the building may potentially be suitable both for the new library and Council staff.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD
- Q8. Is there anything else you would like to tell us about the future of the Central Library building? No
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Future-proofing the library service
  2. Making the building safe
  3. Heritage
  4. Cost to ratepayers
  5. Timeframe
- Q10. If you selected 'other' above, what other factor was important in your decision? A central location
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Don't know
- More windows to help connect the library visually to the square and surrounding streets Don't know
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- No comment
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

No

Q16. Where do you currently live? Outside Wellington City

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* M Read

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Cost to ratepayers 3. Opportunities for partnership 4. Te Ngākau Civic Square connections 5. Making the building resilient 6. Sustainability 7. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It needs enough space for mass gatherings of people as it has in the past, and preferably a public transport hub

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

There aren't enough books in them!

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Male

Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No

Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**

A few thoughts - logical and roomy collection spaces including ability to display collections in variety of ways; encourage user interaction; quiet/reading, community and meeting rooms and spaces; well planned and inclusive for all ages including child and youth reading/activity/story/events but remember the oldest users too; art display integral to design especially for Wellington and NZ artists of all ages - art installations, 2d and 3d; research and study, assistance; questions; staff and user interaction - some staff areas/tasks more visible and/or seamless; consider staff areas as important as the users - make it a happy place as well as efficient to work in; clear and easy returns and check out; logical movement flow including entering and exiting of library; easy and welcoming entries - entry a transition from the noise of the city; mobility compromised inclusive; variety of seating throughout collections including mobile stools (for a quick sit while browsing); sight and hearing impaired inclusive; good sight lines through to green growth (remember linking to aspects of our city such as the green belt) and civic centre; community display space including our histories and stories - visual and auditory; accessible community and library notice boards; toilets; parents room; peaceful eating and reflection spaces in sunny spots linking with sight lines - separate from/as well as cafe; small to medium performing and event space, really clear signage including what the library offers. Celebrate the broad scope of modern and future library services. Explore the thought that using the library is a positive, beneficial and ultimately life enhancing experience that is integral to living in Wellington.

Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option C – High-level remediation

Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Much as it is now but with as much future-proofing for new technologies as possible. I really like the music and movie collections and want to see them continue.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- If you remediate the current building the only sensible option is the high level remediation at \$200M (let's face it, these things ALWAYS go way over budget - (e.g. the old town hall!!!) so \$200M is likely on the low side), which is a crazy waste of ratepayer money when a new building on a nearby new site is costed at \$160M. It's much easier to make a new building more earthquake resilient and to future proof it technologically because you're starting from scratch and have access to newer technology and materials. Also, the stated indicative opening date for this 'new building on a nearby new site' option is November 2023 - exactly the same as for the low level remediation, so it comes in sooner than the other three less desirable options with a much better outcome. Although I like the current library I don't regard it as a heritage building and worth spending extra money to save. Ratepayers are already spending a fortune to remediate the old town hall, which I can live with because that is a heritage building with character and its acoustics leave the crappy M Fowler Centre for dead. Since we're paying way over the odds for the old town hall I really don't think we should do the same for the library because we simply can't afford it. Our rates are high enough now as it is without frivolously wasting even more of our hard earned money on a pointless and unjustifiable exercise!
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Cost to ratepayers
  2. Making the building resilient
  3. Timeframe
  4. Accessibility
  5. Te Ngakau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Re qn 12 following - prior to the earthquake I visited the library on avg once a month but since the earthquake haven't visited at all because it's closed. As soon as a new library is reopened I'll be back.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
From what I read their music and movie selections are very small so I haven't visited.

Q16. Where do you currently live?  
Thorndon

Q17. Which of the following ages groups do you belong to?  
60 to 64

Q18. Please choose the gender that best identifies you  
Male

Q1. Your name\* Cheryl de Joya-Alcazar

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

With new property developments in the city, mostly high rise (small spaces), there will be more people wanting to have a space to work/study/ meet people or attend community events. Personally, I enjoy being able to book a room at the new pop up libraries to do focus work/ study that is challenging to do at home (busy apartment).

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Space filled with natural light, choice of outdoor/ indoor setting, a place for community events - movies, exhibits, hobbies, welcoming atmosphere, indoor plants, sustainable, cafe, meeting rooms or study area (quiet space), lounge to meet friends/ socialise. Advance in technology, tourist spot destination because of its great modern/ functional architecture design

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Sustainability
3. Making the building resilient
4. Future-proofing the library service
5. Timeframe
6. Accessibility
7. Climate change
8. Other (please specify)
9. Te Ngakau Civic Square connections
10. Opportunities for partnership
11. Heritage
12. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? People, service

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

location (near bus stops); i enjoy having these small libraries when i want to have a quiet space - i hope we still have this in the future. It would be lovely to have a big main library however it is sometimes overwhelming and difficult to concentrate when there are lots of people, events happening.

Q16. Where do you currently live?

Mount Cook

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Female

- Q1. Your name\* Bruce Lynch
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Stay as open plan as possible to retain maximum flexibility for the future
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
Minimal level repairs followed by a future upgrade
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
I would like it to be back in use for its current range of activities as soon as possible. Further strengthening and adding base isolators should be added later when this can be afforded
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Timeframe  
2. Making the building safe  
3. Making the building resilient  
4. Cost to ratepayers  
5. Sustainability
- Q10. If you selected 'other' above, what other factor was important in your decision?  
My priority is to reopen the building as soon as possible. The options appear to have not well identified that may not be needed and increases costs project creep
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing  
More windows to help connect the library visually to the square and surrounding streets Unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
The critical need is to be able to reopen the buildings that surround the Precinct so that it regains its previous use
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, He Matapihi Molesworth Library  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are an expensive interim replacement for the Central Library

Q16. Where do you currently live? Thorndon

Q17. Which of the following ages groups do you Prefer not to say  
belong to?

Q18. Please choose the gender that best identifies Male  
you

Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**  
 Some library events could happen there (under shade). Also an affordable cafe with indoor and outdoor areas and children's play area - like Clark's without the gloominess.
- Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Te Awe is great and is an attractive environment, although it still doesn't have enough books and magazines.

Q16. Where do you currently live? Aro Valley

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Female

Respondent No: 341

Q1. Your name\* Karl Menzies

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Redeveloping the Central library provides an opportunity to rethink the use of the physical space - interactive spaces, 'Living Rooms' and innovation spaces as well as providing access to all - consideration as a public use space (as it has been) is very important with no cost barrier to access, future proof (40 years at least) the services provided.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The heritage value and beautiful architecture of the current library should be preserved - its one of Wellington icons and is a good location - no need to try and relocate to a new space. I support Mid-level remediation to enable the 80% NBS to future proofing the building The biggest challenges (and not visible in the consultation documentation) are 1 The likely increase of cost of any remediation work which is high likely to be double in actual costs by the time it is completed - current costs are only based on design so time frames, signification variations from the assumed design, build and retrofit are all likely to increase (evidenced by other recent building projects) 2. The wider consideration of the significant council costs to upgrade the three waters (drinking, waste and storm) infrastructure across all of Wellington which is one the fundamental services of the WCC / GRWC but has long been ignored. We now have serious issues to resolve on these areas which will be significant costs to ratepayers. 3. There is questions on the earthquake resilience of any building - even base isolated ones - on Wellington - as the assessment is based on the significant earthquake ( what level is significant?) and what is the likelihood that even if the building is safe that access to it / other buildings / roading and infrastructure is so damaged that the whole city becomes inaccessible if a very significant earthquake happens near Wellington (as we are on fault line) - so it may be a very long time after a serious earthquake to access the building for is citizens

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Cost to ratepayers 3. Heritage 4. Future-proofing the library service 5. Climate change 6. Sustainability 7. Timeframe 8. Making the building resilient 9. Accessibility

Q10.If you selected 'other' above, what other factor was important in your decision? not answered

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The Te Ngākau Civic Precinct is a significant historical and wonderful space for public and democratic meetings - large enough to be an important and accessible for many. It is very important we preserve this space for future cultural, social and democratic events in Wellington.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Owhiro Bay

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Male

**Respondent No:** 342

Q1. **Your name\*** Arran Whiteford

Q2. **Your email or postal address**

Q3. **You are making this submission:** as an individual

Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No

Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**

I want to see more emphasis on the non-book aspects of the library. Community space for things like bike workshops, tools library, advice bureau etc.

Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option E – New build on another Te Ngākau Civic Precinct site

Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered

Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**

The heritage of the library has some value, but the opportunity to build a space more adapted and resilient for the future of Wellington is much much more valuable. Please build it in laminated wood, concrete does not represent the future.

Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**

1. Climate change
2. Sustainability
3. Making the building resilient
4. Te Ngākau Civic Square connections
5. Making the building safe
6. Future-proofing the library service
7. Opportunities for partnership
8. Accessibility
9. Heritage
10. Cost to ratepayers
11. Timeframe
12. Other (please specify)

Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered

Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?  
Melrose

Q17. Which of the following ages groups do you belong to?  
30 to 34

Q18. Please choose the gender that best identifies you  
Male

Q1. Your name\*

Vanessa

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library should be a quiet space where readers can concentrate.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C -- High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It would be great if the cafe could be contained within the footprint of the library.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Heritage
3. Accessibility
4. Making the building resilient
5. Sustainability
6. Climate change
7. Timeframe
8. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Active, vibrant civic spaces are valuable assets to the city but risk being significant visual distractions for library users. Such distractions should be minimised.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

That they are open beyond the standard COB. I would like more quiet and comfortable reading spaces and the staff to be more considerate of users (lower their voices).

Q16. Where do you currently live? Highbury

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Arie Moore

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It is important to future proof the space, ensuring it reflects changes to library use and to modernise the space.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Either Option B, or Option D make sense, both result in a building that is safe and resilient. The additional cost simply to base isolate the existing building does not make sense compared to the cost of Option D.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Future-proofing the library service
4. Making the building resilient
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is essential this space is able to take that role again, the Council buildings being unable to be used is a real shame for the city.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

N/A. Have visited Johnsonville Library which is fantastic.

Q16. Where do you currently live? Houghton Bay

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Male

Q1. **Your name\*** Sonia Ginders

Q2. **Your email or postal address**

Q3. **You are making this submission:** as an individual

Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No

Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**

I would like the Central Library to be a community hub, offering a safe learning space for all people. As well as physical books, it should offer wiii, electronic and audio books, magazines, quiet study spaces, knowledgeable staff, a café, and public toilets. In addition, I the library should offer programmes and reading groups for all people, including children, elderly, students etc.

Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one** Option D – New build on same site

Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered

Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**  
not answered

Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Sustainability
6. Cost to ratepayers
7. Timeframe
8. Climate change
9. Opportunities for partnership
10. Te Ngākau Civic Square connections
11. Heritage

Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered

Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

The Te Ngākau Civic Precinct is an important community space. The library should be designed to support (not inhibit) community events and the utility of the space, and instil pride amongst residents.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Repository for local publications Areas for study Electronic accessibility
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option B - Mid-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Savings from the lower cost of option B should be used to plan for a long term solution at a site not vulnerable to flooding.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Climate change  
3. Making the building safe  
4. Cost to ratepayers  
5. Making the building resilient
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Tawa

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Elsie McKenzie

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Space for study - needs to be quiet spaces like Karori and Johnsonville have spaces to study but noise travels and spaces get loud. Spaces for Uni Students, High school students and workers to work. Also social space for groups and children (but separated). Spaces to read, spaces for food and space not for food.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I don't want this to go on forever, I want a system within the next few years. remember Covid 10 will be an on going thing so 'future proof' by making it an easy space to social distance in.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Accessibility 2. Timeframe 3. Sustainability 4. Future-proofing the library service 5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are very crowded and noisy and loud not good spaces for range of people. Not a lot or good selection of books. hard  
to get to things because they were so crowded. Security Guards were nice.

Q16. Where do you currently live? Wilton

Q17. Which of the following ages groups do you belong to? 19 to 24

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Kate Linzey

Q2. Your email or postal address

Q3. You are making this submission: Architectural Centre

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

What could it be like? Well it could last more than 50 years for a start! This question is far too complex to expect a valid response and undermines the credibility of the Council's consultation process. The question seeks a plan for 'the next 50 years' by people who are willing to throw away a development that is only 30 years old. How long should a building last? The town hall building has already been standing for 120. According to Emile Temple (lithub.com) of "the 12 most popular libraries in the world" only 3 occupy buildings newer than Wellington's Central Library. A simple project reinstating the existing facilities as quickly as possible is the only reasonable action at this time. Once the facility is operational again, then a well resourced and expansive consultation and planning process can be initiated and a viable long term vision for the library, Civic square and wider network of the city formed.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current building is an award winning cultural artefact. It's design and completion in the 1980s was not a knee jerk reaction but the result of a considered design process. It was highly innovative and responded to the latest ideas about community library usage. These are ideas that are still relevant today, even if some technology has changed. Any process that seeks to add, modify or replace the existing needs to be at least as good as the current building. Finding out what this should be must be given time. It must also have the existing library as the space within which consultation and development can occur.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Other (please specify)  
2. Making the building resilient  
3. Making the building safe  
4. Climate change  
5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?  
What will provide the best longterm outcome

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is very important that the central library open as soon as possible and, in time, return City Council offices to Te Ngakau Civic Square. Any importance the square had as public and democratic place is because these functions were part of the space. These functions return mana to Te Ngakau. If instead the square is made into a hub for performing arts, in the manner of New York's Lincoln Centre, Te Ngakau would become a desiccated centre of privileged culture. If turning into a hub for nightlife it would become another Courtenay Place. Do we really want to take drunken brawls to Wellington's heart?

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are very busy They look a lot like banks, especially their branding Make them much bigger Unify them so a community can access them as a community

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? not answered

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I especially like the Te Awe Library because there is plenty of space, the books are well displayed, staff are helpful, the opening hours include all day Saturday and Sunday and there is a cafe! I doubt if the cafe will turn out to be large enough once the library becomes well known. I'm glad books can be returned to any branch. Is there space to hold book groups and children's activities? and talks by writers?

4. Making the building resilient  
5. Timeframe
- Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered
- Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**  
Make it a restaurant, café precinct with most of the services above. Think St. Mark's square in Venice.
- Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Monthly
- Q14. **There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Not having visited I can't comment.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

IP Address:

Q1. Your name\* David RAuscher

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Supplementing question 6, I prefer a new build on the same or a different site (Option E). I don't think remediation of the existing building is worth the cost - it's really just not that nice a layout, and it's confusing to get around to the different floors and levels, and not particularly a beautiful building. It would be a shame to lose the iconic palm pillars, however - hopefully they can be saved and re-used somewhere else.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? I just want a nice library. "Future-proofing" is pretty vague, but assume will still be considered. Cost is important, but not the most important. Heritage is an important concept, just not much heritage-worthy about current building - pretty bland inside

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The Civic Square seems like a pretty dead space to me. The aesthetics (or feng shue?) of the square are off - it's not really a nice place to spend time, and it's only very rarely used. It seems like ages since I've been there for anything. I think it's just too much artificial grass and too many hard bricks, and there's nothing that actually connects the buildings to the square. (NB: a café or something that had big openings onto the square with good in-door/out-door flow would help.) When I walk through there it's like walking through a gorge - not particularly pleasant.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Miramar

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Ash McCrone

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Lib could be (not an exhaustive list) - A good modern library needs to be a social space for interaction and knowledge exchange; be adaptable for growth and changing needs (e.g. ergonomic library shelving that can be mobile to easily meet the library's changing needs); have good access; have have places for quiet space for contemplation, concentration and study; spaces for meetings, and other diverse activities (run a Justice of the Peace service, adult literacy classes, community group meetings); have access to IT; have places to enable people to develop new skills and learn how to use the modern technology and also to share their experience with others, work on projects and network; have access to digital items — including books, audio, magazines and academic journals in their collections; be a neutral and trusted space for public use. The Lib staff will have most of the professional advice of what a Lib provides - I hope that advice has been sort in order to help shape the architectural design of a new build or a refit. Public libraries will continue to be the place where the community can come together to learn, socialize, meet, do business, and educate their children.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I support a new build - with the magnificent design elements of the current one. Surely the original architectural designs could be used to develop a new green high sustainability standards building fit for purpose, EQ coded, adaptable building that fits into the Civic Square that has the nikau palms and other lovely elements of the current building. Using building design elements from the current building would help resolve the issues of the current heritage status of precinct and the hopefully secure the future heritage scheduling with Heritage New Zealand. Although working this though with Heritage New Zealand may impact on timeframe, it may not add too much. I did not see any estimate of the time it might take to resolve the heritage issues. The negative impacts on sustainability objectives due to demolition would surely be offset by the build of a high spec green building built to last a very long time (why are bldgs life's only designed for 50-64ys??) Although the new build option had the longest timeframes to the library re-opening - timeframes for refit/strengthening could easily blow out as many examples demonstrate (e.g. the neighbouring town hall!). As above new builds can more easily be kept to budget as at least there is some control on known costs, and less likely to be blow outs and unexpected issues turn up in a refit/strengthening. This option is less costly then the preferred option and so the budget 'blow-out's' will start from a lower rate payers budget.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Te Ngakau Civic Square connections
3. Climate change
4. Making the building resilient
5. Future-proofing the library service
6. Making the building safe
7. Accessibility
8. Heritage
9. Cost to ratepayers
10. Timeframe
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I totally agree with the important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library Te Ngākau Civic Precinct is.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply. Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Mount Cook

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you. Gender diverse/gender non-binary

Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**  
It is an outdoor space for people to use and socialise. It also connects to the waterfront.
- Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Once every few months
- Q14. **There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply**  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

An inadequate quantity of books doesn't make it worthwhile to visit. Very frustrating not having the full library service. Not happy with question 12 because we haven't been able to visit the full library. You should also have asked how often we visited in the year before the central library closed.

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

a reimagining will allow for the opportunity to create different connections to the Civic Precinct and surrounding areas and restore the vibrancy of the heart of our city.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

demolition and rebuilding will allow us to build up to the highest sustainability and resiliency standards possible, to standards the best remediation works wouldnt achieve.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Making the building resilient 3. Te Ngākau Civic Square connections 4. Climate change 5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

a unique opportunity exists to re imagine the civic precinct. lets make use of it.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

- Q1. Your name\* Grenville Gaskell
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Other essential infrastructure requirements such as water improvements and minimising rates increases, given COVID-19 impacts, mean Wellington ratepayers can not afford a new library at present.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Maintain existing distributed library infrastructure or relocate to convention centre if the building can be reconfigured at a low cost.
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- Cost impacts for ratepayers need to be given a higher priority given the full economic implications of COVID-19 are not yet known. If rates increases are going to be above the rate of inflation this should only be because of necessary investment in essential infrastructure. A central library is a desirable but not essential.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Cost to ratepayers  
2. Other (please specify)
- Q10. If you selected 'other' above, what other factor was important in your decision? Cost to ratepayers, this is the missing consideration Wellingtonians can't afford the cost
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing
- More windows to help connect the library visually to the square and surrounding streets Unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- Don't spend any more ratepayer money on the precinct under essential Utilities and like infrastructure has been fixed and rates increases can be limited to no more than the rate of inflation.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Hopefully they are a lower cost option that a rebuild and meet essential community needs in an affordable way,

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Male

- Q1. Your name\* Brendan
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Focus on young kids activities
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 
  1. Cost to ratepayers
  2. Future-proofing the library service
  3. Making the building safe
  4. Making the building resilient
  5. Sustainability
  6. Timeframe
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city? not answered

- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
The cost of Option C (the preferred option) is excessive, and is not justified in the current economic climate. Many of the design elements from the existing structure could be included in a new build, minimising the loss of the iconic building.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Cost to ratepayers
  2. Making the building safe
  3. Making the building resilient
  4. Future-proofing the library service
  5. Climate change
  6. Sustainability
  7. Accessibility
  8. Te Ngākau Civic Square connections
  9. Heritage
  10. Timeframe
  11. Opportunities for partnership
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Mount Victoria

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Kathrin Strati

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think a library needs to have spaces for books, quiet spaces to study and places for small groups to meet for day community classes etc.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I respect heritage and architecturally important builds but fail to see what is integral in the current building apart from the palms?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Future-proofing the library service
3. Sustainability
4. Making the building safe
5. Making the building resilient
6. Accessibility
7. Te Ngākau Civic Square connections
8. Climate change
9. Opportunities for partnership
10. Heritage
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It has become cold and lifeless when it used to be such a wonderful connected space between the town hall, library, Frank Kitts Park etc. It is completely under-utilised.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? I think it's a poor workaround but needed nevertheless

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Central library should be an inviting and attractive space for citizens, while maintaining its core services

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current library building is dated, and we certainly can build a better and cheaper option, while also achieving the highest earthquake tolerance rating

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Future-proofing the library service 3. Cost to ratepayers 4. Timeframe 5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Q1. Your name\* R Morgan

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A real modern community hub (and library). Rooms to book or hire. Hot desk work spaces, study spaces, quiet/chill out areas. 2 or more cafes, a juice bar. small events room with a music stage for evening gigs. An exhibition space. USB ports, good wifi all over. Acoustically treated with sound baffling. Living garden areas indoors and outdoors. Make it as eco-friendly as possible and have turbines/solar added to generate its own electricity.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I love the old library and have fond memories of studying and taking my children there - but it doesn't make sense for expensive remediation. New build on the site or another decent site and start again to create a modern, functioning space that will truly serve Wellingtonians and impress visitors.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Making the building safe
3. Future-proofing the library service
4. Cost to ratepayers
5. Climate change
6. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? One-off chance: a new build offers a unique chance to create a beautiful and modern building - fit for purpose and as eco-friendly as possible.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's either windy and rainy or you get sunburnt there. Some shelter would be good.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Hataitai

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

- Q1. **Your name\*** David Stephen
- Q2. **Your email or postal address**
- Q3. **You are making this submission:** as an individual
- Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No
- Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**
- Of the options, low-level remediation should be chosen if less expensive options cannot be found from existing buildings located around the city (e.g. existing pop-up libraries) and/or utilising space within the planning convention centre.
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one** None of the above, I prefer an alternative
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** Replace with a localised model of smaller branches in the CBD
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**
- Prior to COVID-19, the borrowing position you are putting me and my children is was moving to \$1.16 billion or \$5,100 per person in Wellington. Your survey talks about resilience, but what it fails to recognise is that the most important thing that will contribute to resilience in the event of a major natural disaster is adequate underground infrastructure and low levels of debt to assist with rebuilding. Both of these things will be compromised by the millions being proposed for this white elephant.
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**
1. Cost to ratepayers
  2. Timeframe
  3. Opportunities for partnership
  4. Future-proofing the library service
  5. Other (please specify)
- Q10. **If you selected 'other' above, what other factor was important in your decision?** Cost to future ratepayers
- Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing
- More windows to help connect the library visually to the square and surrounding streets Unappealing
- Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**
- I would love nothing more than for Council to spend millions upgrading this space if we (a) didn't have billions in forecast debt (b) had adequate underground infrastructure and (c) weren't in a middle of an unprecedented public health emergency that will lead to the largest economic recession in living memory.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live?  
Khandallah

Q17. Which of the following ages groups do you belong to?  
35 to 39

Q18. Please choose the gender that best identifies you  
Male

Respondent No: 373

Last Seen: Sep 01, 2020 09:51:16 am

Q1. Your name\* Jim Barr

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A place people can meet in and hang out in that has a wide range of information available in the form of books, online and visual material

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current library is completely unsuited to a modern library function. A new building needs to be designed that can take us through the next twenty to forty years

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Sustainability 3. Timeframe 4. Accessibility 5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The library staff and their ideas are fine, they just need a new building to make a modern library offering possible. The staff need to be in on the consultation process in a meaningful way

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are doing a great job in incredibly difficult environments

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you 70 to 74  
belong to?

Q18. Please choose the gender that best identifies Male  
you

Respondent No: 374

Q1. Your name\* Olivia Burn

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library space should provide a warm, quiet area for people to access books and basic internet functions. We have a significant number of people who do not have access to internet and books at their houses and libraries can provide this. Spaces for quiet working and researching should be available and larger break out rooms for community events such as readings or classes on performing library searches or using computers or community meetings can be performed.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The library is loved by all Wellingtonians. I have used it as a student to issue out novels and as a warm, quiet space to study for exams during the weekend when the university libraries are closed. It is a central safe location for many Wellingtonians and fosters learning in many different ways. We have deeply missed the library since it has been closed but we do not miss the old building and do not want our safety to be put in jeopardy when we enter the building. It should also be built to be extremely accessible for all abilities and not in a tacky way but in a beautifully designed modern space.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Timeframe
5. Cost to ratepayers
6. Opportunities for partnership
7. Future-proofing the library service
8. Te Ngakau Civic Square connections
9. Sustainability
10. Climate change
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

This is one of my favourite sites of Wellington to walk through. But I always enjoy it once I walk past the library and can no longer see it. This is because the current library always gives a feel of cold, dark, dampness on the outside. It doesn't build to the scene like the city art gallery does and it doesn't feel like nicely open up with accessible access to entry from the middle of civic square

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

It was good they were set up but they are not a long term solution

Q16. Where do you currently live?

Kelburn

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Female

Respondent No: 375

Q1. Your name\* Kristina

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Most importantly books/reading material and promoting and inspiring a passion for learning and community. Also physical spaces for community groups, youth club/meeting space, study space, support for research, preschool programmes, cafe, partnership with: MSD, citizens advice, community law, age concern, and volunteer Wgtn, a hub for businesses to share innovative ideas, writing groups (online and/or in person), host some in person and online cultural experiences/promote diversity with speakers/debates/events/exhibitions/posters

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D -- New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Civic Square is a fantastic hub connecting city CBD and waterfront - keep it in that location.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Future-proofing the library service
2. Cost to ratepayers
3. Making the building resilient
4. Te Ngakau Civic Square connections
5. Accessibility
6. Making the building safe
7. Opportunities for partnership
8. Sustainability
9. Climate change
10. Timeframe
11. Heritage
12. Other (please specify)

Q10.If you selected 'other' above, what other factor was important in your decision? not answered

Q11.Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is an important hub for everyone and a connector for CBD and waterfront. It represents everyone - it reflects a place you can celebrate and have a voice (University graduations, sports, dance, art, demonstrations, speeches)

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I love the Te Awe library and have visited about six times since it opened. It is modern and spacious. The returns box inside needs to be more visible. It is a great interim location.

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Female

- Q1. Your name\* Tim Stokes
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I always loved the Central Library design and I was essentially happy with how the interior space worked, except for the poor linkage to Civic Square area, via the cafe. This is where the design could be improved, but ultimately I would like the building retained.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- No, just the above comment
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Timeframe
  3. Heritage
  4. Cost to ratepayers
  5. Accessibility
- Q10. If you selected 'other' above, what other factor was important in your decision? NA
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- As above comments, the Civic Square area has always appeared somewhat underutilised, probably due to the poor linkages to the library. A better connection will no doubt lead to higher use. The Square would also benefit from more planned events of an artistic (non-commercial) nature. e.g showcasing Wellington history, artists, public consultation, physical exercise.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I currently live overseas but am planning on returning in 2021. I applaud the decision to open the interim branches as closure of the library was a major loss for the city.

Q16. Where do you currently live? Outside Wellington City

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I would enjoy a modern and landmark redevelopment of the inner city civic library that is unique amongst NZ and captures Wellingtons essence

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Needs to be world class, leading in its field something all city residents can be proud of

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Te Ngakau Civic Square connections
3. Sustainability
4. Cost to ratepayers
5. Making the building safe
6. Making the building resilient
7. Accessibility
8. Heritage
9. Opportunities for partnership
10. Climate change
11. Timeframe
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? Flexible spaces for future proofing

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Open it up, bring more interesting and interactive features for all residents and visitors. A key focal and destination to see and get involved with.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q1. Your name\* Grant Price

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Speaking as a citizen who likes to read I believe the existing library filled all of my needs in that regard. I see no need to include conference facilities, a cafe or other add-ons. Wellington, and indeed the whole country, is currently over-supplied with such amenities and they are not required to be part of our library. What we need is a place to relax, read and borrow books, and to do reading research. In short, what we need is simply a library. Money spent on peripheral services and amenities is wasted public money.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We need the best possible library service that the council can provide. Stop trying to add other facilities and amenities to this project that are already well catered to in other buildings around the city. In doing so you are simply adding unnecessary costs to this project. People of the future need not be impressed by its amazing cafe or conference facilities or architectural grandeur. They need only ever remark on how wonderful the LIBRARY SERVICES is. Give us an ordinary building with a great library inside it.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Other (please specify)  
2. Making the building resilient  
3. Accessibility  
4. Cost to ratepayers  
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? providing the best possible library service to the citizens of Wellington

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Obviously the last engineers and architects did what was needed for the time, but now maybe it's time for another team to set their magic on Wellington. I've never seen the central library to be as amazing as some. More focus on what the majority of Wellington use such as water pipes, roads and public transport. I feel we don't need more unnecessary debt for flash!
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

Q1. Your name\* Maire Perrott

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library should be an open, inviting space for all. It should be easily accessible for all levels of mobility and it should be open 7 days. It should have good bathroom facilities, a cafe, meeting spaces, study spaces and a large area for children that can hold large groups such as schools to visit. I believe strongly that the library should open out into Civic Square having an indoor outdoor feel - maybe even exploring having a sensory garden included or a large conservatory area for reading and relaxing - this would be especially important for people with high sensory needs or those who live in the inner city without gardens or large spaces. The library should be able to play a part in bringing back a vibe to Civic Square which has become a dead area. Thought could be given to having a bridge into the City Art Gallery or having a shared space of some sort for art and books.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It should be the heart of a city - both a place of significance for Wellingtonians and visitors. It needs to be welcoming but also a significant Wellington icon. The most beautiful thing about our current library is the Nikau Palms - they could form a more important part of the design. We also now have a chance for local iwi to make suggestions about how to design and capture important elements in the build as well as Māori concepts and values.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Climate change
3. Sustainability
4. Cost to ratepayers
5. Te Ngakau Civic Square connections
6. Opportunities for partnership
7. Accessibility
8. Heritage
9. Making the building resilient
10. Making the building safe
11. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It needs to be a place for all Wellingtonians and to be vibrant and safe. It should be the hub of the city where people meet and it is a multi use spot.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Although small they are providing a hugely valuable service for all of our community. They are warm and safe.

Q16. Where do you currently live? Wilton

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Sam Schuurman

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Don't do this. It's such a waste to centralise all of this in CBD that is being used less post COVID. De-centralise and distribute the library services more broadly across the city so that more people have access to better facilities.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The cost of this in the middle of the pandemic is eye watering. The decentralised model would allow you to do this in bite-sized projects and reach more people. If you charge ahead with such a huge spend younger families in Wellington who are doing it tough right now will continue to feel disconnected from local politics.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Accessibility
2. Cost to ratepayers
3. Other (please specify)
4. Timeframe
5. Opportunities for partnership
6. Climate change
7. Sustainability
8. Future-proofing the library service
9. Te Ngākau Civic Square connections
10. Making the building resilient
11. Making the building safe
12. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? Actually delivering services to more Wellingtonians- the city is more than the CBD!

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Your focussed on the building and the architecture. You need to be focussed on the people of Wellington.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They're more accessible. Less daunting and feel like they could be cloned and spread out across the city, not just the CBD without such a huge rates increase.

Q16. Where do you currently live? Khandallah

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Emily B

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

We have many public spaces and buildings and are all ready committed to building two more (Convention Centre and Town Hall). These will be under-utilised in the post-COVID world. Instead of further committing more money that we don't have I think WCC should continue with the pop-up libraries. These give a wider geographic spread, meaning more accessible to more. They activate under utilised streets. Space could also be partnered with in the Convention Centre and use that area. With each of these projects (Convention Centre, Town Hall, Library) costing \$200M + (Then with the inevitable budget overruns) they will cost us close to \$1b. The money for the library will be much better spent in services and failing infrastructure. The city does not need three expensive, grandiose buildings all being built at the same time. We do need improved water, sewerage, housing...

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We should either replace with a localised model of smaller branches or use the space in the Convention and Exhibition Centre. This is a much better use of money, resources, space in the city.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Sustainability
3. Timeframe
4. Future-proofing the library service
5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Don't know

More windows to help connect the library visually to the square and surrounding streets Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like that they are close by workplaces, easy to access. They are also activating under utilised areas and buildings in the city.

Q16. Where do you currently live?

Churton Park

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Female

Respondent No: 383

- Q1. Your name\* John Crawford
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Wellington needs a first-rate library, but we need to be sensible about the amount of money we spend on repairing or building a new central library.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- If we are going to spend a large some of money we need to get the best possible facility for our money. A new building would do this.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Making the building resilient
  3. Cost to ratepayers
  4. Heritage
  5. Accessibility
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing
- More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- not answered

- Q1. **Your name\*** Adele Chapman
- Q2. **Your email or postal address**
- Q3. **You are making this submission:** as an individual
- Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No
- Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**
- I was completely won over by the new Christchurch library as it worked for the people not just for the books. The library is a social hub for people of all socio-economic backgrounds. It is a place for people to sit and read, work on their computers, explore, create and borrow books and DVDs. The physical spaces should incorporate all of this, not just lines of books.
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one**
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** Relocate the Central Library to the Convention and Exhibition Centre
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**
- It needs to be central but on safe soil and earthquake strengthened. It needs to be part of the city not an adjunct to it, which is why I think it would work on a safer site regarding earthquakes and rising water levels.
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**
1. Making the building safe
  2. Making the building resilient
  3. Accessibility
  4. Sustainability
  5. Cost to ratepayers
- Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered

- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**
- I think Civic Square needs new innovative buildings not just a library. It is a space for people not just civil servants. The green space is excellent, it would come alive with more cafes, meeting places, small art cinema, outside chess games etc
- Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre

Q1. Your name\* Detelef

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

With more new media styles in our lives than ever and with even more to come in the future, a new library needs to fulfil more than just "hosting" books or other physical artefacts. A modern library requires to adapt and adopt peoples needs and ways of gaining/ sharing information all the times. A modern library is more than a place to go to to get some literature, it is a place to come together.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A new development that is flexible and can respond to Wellingtonians needs is an investment in the future and the youth of the region. Remediation of the existing building will always remain a compromise. The redevelopment of the library should be part of an entirely new concept for civic square and the link to the waterfront. And it must be sustainable, carbon-neutral operating and in all construction aspects future-oriented. And of cause earthquake save, above building standards, so it can be used as an emergency hub in case of a major event.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Climate change 3. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Civic Square is a central place for Wellington, and it needs to be revitalised. This can only be achieved if people feel welcome, especially the younger community. An open space library can be a centre point but the other services around are equally important. With City Hall becoming a central music and art centre, the other buildings either require redevelopment as well. Ideally, I like city council located there again.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
get a central library back and close them asap.

Q16. Where do you currently live?  
Karori

Q17. Which of the following ages groups do you belong to?  
50 to 54

Q18. Please choose the gender that best identifies you  
Male

This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Option D retains the current location of the library and would provide a purpose built library that we could be proud of. Further, this is a cheaper option and provides more flexibility in terms of new design and bespoke functionality. I don't agree the current building is iconic - apart from its location and the folk who worked there, there is nothing about it that could not easily be incorporated into the design of a new build. To refer to the option of a new build as "cultural vandalism" demonstrates a narrow minded allegiance a building that was never that flash in the first place. Suggest we get architectural expertise to work with librarians to plan something that will take Wellington readers into the future in a functional, cost effective manner.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

Q1. Your name\* Fred

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Like people buildings grow old and this one has reached it's used by date! Will failing infrastructure and rate raising to support beatification and misguided cycle tracks and pedestrian only areas at great expense Just when are the council going to do their job "look after the city" repair failing infrastructure and stop play social experiments with Ratepayers money. Either knock the library down and rebuild OR build a new one elsewhere and get on with it. The council and it elected members and staff are questionably NOT fit for purpose

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

stop wasting Ratepayers money and build a new fit for purpose building

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Accessibility
2. Future-proofing the library service
3. Cost to ratepayers
4. Timeframe
5. Other (please specify)
6. Sustainability
7. Climate change
8. Te Ngākau Civic Square connections
9. Opportunities for partnership
10. Heritage
11. Making the building resilient
12. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? simply get on with it and stop the self serving rubbish and serve the ratepayers

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

it lacks real importance simply get on with the task at hand BUILD a library

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
N/A

Q16. Where do you currently live?  
Miramar

Q17. Which of the following ages groups do you belong to?  
65 to 69

Q18. Please choose the gender that best identifies you

Q1. Your name\* Emma O'Neill

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

While the current Wellington Central Library is a well used spaced this is an opportunity to future proof it, allowing for increased spaces for collaboration (i.e. additional meeting/collaboration rooms), improved, possibly specialised, spaces for services currently operating out of the library (including music rooms and childrens programmes) and offering the opportunity to introduce additional services (e.g. hosting other events/display of library information).

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D -- New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A new build will allow for community consultation regarding what they want out of the space and ensure that the space is optimised. We are in a similar situation to Christchurch who have ended up with a library adapted to community needs and accessible to all. Remediation may take a significant time and does not provide guaranteed results, do we want to be in this position again in another X number of years?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Accessibility 2. Future-proofing the library service 3. Cost to ratepayers 4. Timeframe 5. Making the building safe

Q10.If you selected 'other' above, what other factor was important in your decision? N/A

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12.Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13.On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like the accessibility of having multiple locations in the inner city, while in comparison to the central library they are small they are well designed and fit for purpose

Q16. Where do you currently live? Wellington Central

Q17. Which of the following ages groups do you belong to? 19 to 24

Q18. Please choose the gender that best identifies you Female

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
provide a hub for the community
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
The present building while nice is not great... there are many things that can be done better.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Accessibility  
3. Future-proofing the library service  
4. Sustainability  
5. Other (please specify)
- Q10. If you selected 'other' above, what other factor was important in your decision? making it a centre for the community to focus and grow
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
the point about it being a democratic space is important and it represents one end of a spine - there's a reason marches start at the square and then move to parliament.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

they are interim so not the issue... I would get on with the replacement building. And in the above question about how many times I visit the library you didn't ask about visits pre closure which was fortnightly or more.

Q16. Where do you currently live? Strathmore Park

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

Q1. Your name\*

Nick Potter

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

While I understand the case for remediating/improving the current building, we shouldn't let arguments to protect the 'heritage' of the current building stand in the way of creating a "much better" building in its place. If we have learned anything from remediation work for earthquake strengthening over the last decade, rebuild costs invariably increase after the work begins. Creating a new purpose-built library will give funding certainty - at a lower cost than the high-level remediation option - and the building can be designed to meet the needs and aspirations of Wellingtons. If we go for a new build, we could potentially integrate some features of the old building into its design (e.g. the Nikau palms). The current building is actually not very attractive from many sides on Victoria St, so this is also an opportunity to develop an even better and more attractive building, loved by Wellingtonians.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Te Ngākau Civic Square connections
3. Making the building resilient
4. Accessibility
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Male

Respondent No: 392

Responded At: Sep 02, 2020 09:53:30 am

Q1. Your name\*

Paul Ruffell

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I can't believe how WCC is proposing to strengthen the existing library when a new library that meets current building code conditions and is much safer can be built for considerably less money. It's all very well for councillors to vote for restrengthening at the ratepayers' expense. \$200 million is a lot of money. A new build is the safest and cheapest way to proceed for future library users and members of the community. Also, in my opinion, people get carried away with the current library building. "Oh, it was designed by Ian Athfield"; "it's a heritage building" etc. So what. The fact is that it is not that great, and is certainly not one of Athfield's best designs. A sprawling building, inefficient to heat, not very comfortable to be in or use; and at the end of the day not well laid out to suit either library users or community members.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe
3. Future-proofing the library service
4. Making the building resilient
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The current layout is too compact to meet the requirements of the Wellington community. It is on the small side for large public meetings and it doesn't have a "flow" to it between its various areas.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Paparangi

Q17. Which of the following ages groups do you belong to? not answered

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

As a former foundation engineer with worldwide experience of creating design solutions for major projects including in highly seismic areas such as Taiwan, Philippines and New Zealand (including Wellington), I know it is foolish to commit hundreds of million's of dollars to a project, without having all the information, that could be obtained. In the case of the Central Library a new structural assessment was undertaken to the current earthquake design codes, which indicated there is a risk of failure under the design earthquake conditions. However, as in all designs, there are two aspects to a problem; there is the design loading and there is the design capacity. What has been carried out so far is a revised structural capacity check, based on a theoretical design loading defined in the current earthquake code. Whilst in most locations this would be adequate, in Wellington, with its steeply hilly terrain and proximity to fault and sub-fault zones, this approach is approximate at best. It should be recognised that the subterranean profile of hard rock is equally steep and it is the softer overlying layers, particularly sands, that can enhance or reduce the shaking effect of an earthquake. Coupled with that, the multiple reflective surfaces from hard rock create a ripple-like effect on any shake, which can locally amplify or damp the effects of an earthquake. Given these many factors international best practice would be to create a site-specific model for a high-risk/high-cost project and use this model to create the input design loading. The cost of producing a site-specific model using both geophysics and intrusive investigation is trivial in comparison to the potential cost saving that can accrue from not adopting highly conservative design. With my knowledge of the subsurface conditions in central Wellington, it is my opinion that should a site-specific investigation be carried out, it will find that the design loading would be significantly less onerous than adopting the current simplified design -code loading and inputting this into the revised structural model may reduce or even eliminate the need for remediation. It should be noted that the use of a site-specific design model is advocated in the current earthquake design code. Surely we should be leading the world rather than following blindly prescriptive rules, particularly when it could save us hundred of millions of dollars?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Q1. Your name\* Terry O'Donnell

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think the intention to attempt to design a building/space for 50 years into the future is naïve and one of the flaws of spending vast amounts of tax money with such a long pay off period intended. Consider how the original design of the building is so poorly reflective of the modern needs today and that planning was only 30 years ago. This project appears to me as a vanity project that lacks attachment to the real desires of the city. I am a 30 year who has lived here for over 10 years, completed several higher level degrees and work in the CBD. However, in that time my only visit to the library has been a single visit to use the bathrooms. This lack of need for a huge building at the expense of other city facilities will only increase as the population gets younger. I appreciate that not everyone in the population has access to internet and devices at home. I see this as the real value of the library facility but firmly believe this could be achieved through smaller local centres as is currently occurring. The expected spend on this project could furnish a vast proportion of the low decile school population with computers and internet access.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Were a more comprehensive solution the only option on the table (as I suspect is the case), I would vote for a complete new build (at either site) over Option C. Spending an extra ~\$40m to get an inferior product all for the sake of appeasing a style preference is reckless and suggests a disconnect between the council and ratepayer interests.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Sustainability
3. Climate change
4. Timeframe
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think you are overvaluing the space and the value placed on it. I regularly sit and have my lunch in civic square and further expensive enhancements are not required.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

30 to 34

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

When the Central Library building is being earthquake strengthened and modernised, I think shower facilities should be added. Before it shut, the library was a safe, warm haven for the homeless during the day when homeless shelters are shut. The library is an excellent place for homeless and unemployed people to access social support like the Citizens Advice Bureau, adult education materials, and free internet services. I also think the library would be better if more study spaces were added. A lot of teenagers would come to the library in the afternoons and evenings to study and this should be encouraged. Some of them are avoiding going home to an empty house or a complicated living situation, and they benefit from having a safe, quiet environment to study and do their homework in. The new library complex in Johnsonville also has a makers space with 3D printers. Making these sort of resources easily available is a great way to encourage girls and Maori and Pasifika kids to engage in STEM activities.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I know it would be cheaper to demolish the library and rebuild - particularly if it was rebuilt on less expensive real-estate - but I worry that a cheaper option wouldn't provide the important benefits that the current library building has. The location is important because it is very accessible to the members of the community that need the library the most.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Heritage
3. Making the building resilient
4. Accessibility
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- The Library is a meeting place as well as a central public facility. It is currently the hub of the city, and the location provides an opportunity to not only provide a great facility, but to create a memorable architectural building akin to some iconic buildings around the world. Whilst our budgets may not reflect those of other countries, it forces us to be creative and daring rather than middle of the road mundane.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- Refer section 6. Perhaps get ideas from Richard Meier Architects, or Norman Foster, or Hadid architects, Please do not replicate Te Papa which was a compromise on ideas that delivered a building that could have been really memorable, But is NOT.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Future-proofing the library service
  2. Te Ngākau Civic Square connections
  3. Cost to ratepayers
  4. Making the building resilient

- Q1. Your name\* Alycia Edmonds
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- The library needs to think way outside the square of being somewhere to store books. As technology advances this needs to be a really valuable place for community. This could include cafes, events, children's spaces, hot desks. This should be a place people want to spend time.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.
- Most of these options involve spending a huge amount of money. We are a small city (on a global scale), And we already pay high rates. why does anything need to cost close to \$150-200m? Christchurch is a great example of a wonderful library delivered on a much smaller budget. This should closely be looked at. Our city has much more pressing issues right now than an overpriced book storage facility. Eg. Covid, traffic, water pipes.
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Cost to ratepayers
  2. Making the building safe
  3. Future-proofing the library service
  4. Opportunities for partnership
  5. Sustainability
- Q10. If you selected 'other' above, what other factor was important in your decision?
- not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral
- More windows to help connect the library visually to the square and surrounding streets. Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- I haven't set foot in it since the 90's. Maybe something you should let go of as an important space. Or actually make it interesting and useful.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?
- Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Probably much more accessible for people.

Q16. Where do you currently live?

Khandallah

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Female

IP Address:

Q1. Your name\* Michael & Janice Chilton

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

We thought the views in the article by Anne Golding on page 20 of the DomPost covered all the points we would wish to make, and wholeheartedly support the planning of a library based on Turanga, the Library in Christchurch.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We have visited the new library in Christchurch and found it to be a marvellous model for what Wellington needs. Most obviously, it has also been built to withstand a major earthquake, a key factor in both cities. We were impressed by the immense support for the project among those residents of the city who we know, especially as there were many competing demands for construction funds. The existing building in Wellington has served its purpose well, but its time has now passed and we must move on with a new library to reflect our current needs. The burden of the various options on ratepayers needs to be taken more fully into account. There are many other costs to be met and we should seek the lowest cost consistent with the benefits the community needs. We agree with property expert Peter Dow's point reported on page 6 of the DomPost that a new library like that of Christchurch would produce the best outcome for the outlay required. We understand there is a precedent for this approach. The Wellington Town Hall was based on the design, engineering and other work completed for the Christchurch Town Hall. Obviously there would need to be modifications to the Christchurch library plans, such as scaling, site adjustments and retention of icons such as the nikau palms, but developing the new library on the basis of the work completed in Christchurch would be by far the most sensible option.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers  
2. Making the building safe  
3. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

No particular factor as we use the Khandallah and Johnsonville libraries more in the absence of the full city library.

Q16. Where do you currently live?

Khandallah

Q17. Which of the following ages groups do you belong to?

Prefer not to say

Q18. Please choose the gender that best identifies you

Prefer not to say

Q1. Your name\* Tania Devereux

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A solution needs to be found that is more affordable than option C and that can be delivered within a quicker timeframe. We are living in unusual times and applying further financial stress to ratepayers cannot be the go-to option of the council. In trying to capture everything under the one roof with this solution, the Council seems to have missed the fact that we are living with a pandemic that is unlikely to go away any time soon. Instead of trying to accommodate for large numbers and applying a 'one size fits all' approach, the Council needs to cater for smaller numbers and health safety.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The proposed timeframe of Option C is 5 years which is simply too long. One can assume that the May 2025 date, like all building projects, will not be met and delivery will occur well past this. In the absence of the library over such a long period, along with COVID-19, means that the Council is building for a past need. New trends will have long replaced the activities that once were housed within a library. Large buildings accommodating large numbers of people are a thing of the past. I support the repair of the library but a more moderate, affordable approach is required.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers  
2. Timeframe  
3. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? COVID-19 considerations need to be made. When will we have a vaccine? How often will we have to go into lockdown. The timing is wrong for the council to be investing so much ratepayer money over such a long project with such a large variable. Delay!

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

We should build what is affordable not to a wish list. A building shouldn't and won't change the important role Te Ngākau Civic Precinct plays.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I was a regular visitor to the library, particularly with young children. COVID has had a big impact on my visits as I'm sure is the case with others.

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? Prefer not to say

Q18. Please choose the gender that best identifies you Prefer not to say

Respondent No: 402

IP Address:

Q1. Your name\* Isabel

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Even though I understand the consideration that needs to be given to a solution that works for the next 50 years, I think the process should not be delayed by trying to find a picture perfect solution as at the moment we don't really have a Central Library. In my opinion the first role of a library is to provide access to written information and provide a place to study this information, all other functions are nice to have.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Consideration should be given to choose the solution that has the best guarantee to be completed quickly unless the plan includes a more extensive temporary solution (though the opening of the Te Awe branch has been great :-)

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Making the building safe
3. Future-proofing the library service
4. Making the building resilient
5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? Timeframe was the key factor but with A en E having the same timeframe I would go for the safer option. Including that when a new location or building structure will be designed the fact that it is in a tsunami zone can be taken into account.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of Arapaki Manners Library and Service Centre the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The Te Awe library is a decent size, has a good collection and has study space and it feels like a library. The Arapaki library feels more like a service space with some books (though really appreciate that they have the foreign language books) and I would almost consider making this a dedicated service and study space.

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Harry Chapman

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A big focus should be on digital inclusion - too many people don't have internet access or the skills to use it. The library is an important part of solving this issue with free access to the internet and staff who can help (to at least some extent!)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It seems very expensive to do a high-level remediation of the existing building. I would rather the council spent those extra tens of millions of dollars on housing and water infrastructure.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Timeframe 2. Future-proofing the library service 3. Making the building resilient 4. Making the building safe 5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

It would be nice to have more spaces to sit and read

Q16. Where do you currently live? Island Bay

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Male

- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- First and foremost the library should be recognised as the library and community hub for the inner-city residents who now make up the largest residential "suburb" in Wellington and which will bear the biggest increase of population growth. Wellington central = 153.8% and Te Aro = 91.1%
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C -- High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- I note from a Library meeting held 1st Sept that the costings of \$200 million can be reduced by 25% and that the new build has not been costed for base isolation which means that the public are not comparing "apples with apples">
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building resilient
  2. Other (please specify)
  3. Heritage
  4. Sustainability
  5. Te Ngakau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision? Reinstating the inner-city residents library and community hub
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing
- More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- no
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I do not like anything about them - they do not generate any form of community connection

Q16. Where do you currently live? Wellington Central

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

- Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No
- Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**  
not answered
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** None of the above, I prefer an alternative
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** Keeping in mind the future of reading and research, any replacement should take these trends into account. Specifically online options, already large and comprehensive. Plus continue central storage with free reserves and ship to designated library. These libraries can be smaller like Arapaki. For a fraction of the cost of a vanity building devices could be supplied and education and support provided.
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**  
CBD roving librarians work well. Maybe could be better identified though.
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**  
1. Future-proofing the library service  
2. Cost to ratepayers  
3. Other (please specify)
- Q10. **If you selected 'other' above, what other factor was important in your decision?** It has been said there is 30% waste in every process. Every ratepayer funded activity should be considered in that light, preferably with at least some external input providing rigour and input into cost benefit analysis..
- Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Don't know  
More windows to help connect the library visually to the square and surrounding streets Don't know
- Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**  
not answered
- Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6

- Q1. **Your name\*** Jayne Beggs
- Q2. **Your email or postal address**
- Q3. **You are making this submission:** as an individual
- Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No
- Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**  
 We could really make the library fit for purpose and for Wellington's future - this is an opportunity to re-imagine what a library can be. Strengthening the existing library is unlikely to do that.
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option D – New build on same site
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**  
 not answered
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**
1. Cost to ratepayers
  2. Future-proofing the library service
  3. Making the building resilient
  4. Accessibility
  5. Timeframe
  6. Making the building safe
  7. Climate change
  8. Te Ngākau Civic Square connections
  9. Sustainability
  10. Opportunities for partnership
  11. Heritage
- Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered
- Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**  
 Yes it plays an important role, but has not done for some time thanks to inaction in fixing half of the buildings!
- Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I mostly use the online services but value the role of libraries in the community so if these are being used that is great. It is nice to have modern spaces but they are very limited and somewhat lack the library feel. The speed at which these were developed was promising - something to be repeated with the main library.

Q16. Where do you currently live? Thorndon

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Female

IP Address:

Q1. Your name\* Matthew

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think that the network of pop up libraries is fine for the time being. I would leave it at that for the time being while Council invests in other higher priorities over the coming years.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I don't think that the heritage argument for remediating the current building are good enough to justify the expense. I think the current building is just a large unattractive building that I have no attachment to as a resident. It blocks access to civic square with little to no connection to the square or the streets around. Very happy for it to come down, and give the city the space to think about what a better use of civic square might be. Knock it down and grass the space until we have the funding available to do something with civic square (which I imagine is 5 or more years away)

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Te Ngakau Civic Square connections 3. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? Ability to invest in other higher priorities for the city

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

There are all sorts of nice things to do here- like connect it better to the waterfront, but we probably don't have the money. Just put in a park for now- may be nice to have a nice green part of civic square rather than the big ugly library building.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are fine. It was lacking some posters of the Dewey Decimal system to help me find a book though.

Q16. Where do you currently live? Miramar

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A modern library space similar but better than the new Christchurch library, Tūranga, is an essential requirement for our city.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I appreciate the architectural significance of the existing building, but given the proposed cost of remediation, demolition and development of a state of the art new library with the same level of architectural integrity is the way to proceed.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Opportunities for partnership
4. Heritage
5. Te Ngākau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Currently with the City Art Gallery the only active building in Civic Square, Wellington is missing out on what was previously a centre for cultural and civic engagement. Parliament and its environs are the heart of Wellington as The nation's Capital. However Civic Square is the heart of Wellington for Wellingtonians and needs to be restored to its citizens.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre

not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Given the climate emergency I wonder whether or not a new library is really a priority. If it is then we should spend the absolute minimum and we certainly should not be building it at sea level. Larger decentralised services may be better and more sustainable...
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Climate change  
2. Making the building safe  
3. Cost to ratepayers

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
It's at sea level. Climate change is progressing faster than predicted so "traditionally important" or not, the precinct is not a viable long term location for any building.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Easier to get to than the central library when at work...

- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
There can be no argument about having a Central City library. A new build is \$40M cheaper, provides the best earthquake resilience factor and maintains same site presence. The current building is not that old and retention cannot be justified as is the case with the old town hall facade. Councillors can't make comments about increasing parking charges, restricting rate rises, impact of Covid on businesses etc and then support any other options which are more expensive and add an even higher rating increase. It's time for common sense to prevail and lock in a \$40m saving while still achieving your objective of having a safe, resilient and modern central city library. There's been so much work/closures going on in the Central city for sewage and water repairs, building demolition, construction etc. that environmental and time constraints cannot be seen as impediments to a new build. (And temporary facilities are already in place.)
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

Q1. Your name\* Benjamin Palmer

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The new library could include two new libraries side by side. These twin libraries will have their own independent programs that focus on different methods of conveying knowledge. The first library will be focused on printed texts, and other tangible media such as books, art, and archival documents. This library has a focus on knowledge that is engaged through reading and writing. This library will also have a focus on study and research with facilities such as lecture theatres, research rooms, archival and reference facilities, and study spaces. This library is closely related to a typical 20th century library typology where printed material is emphasised and protected. The second library will focus on learning through intangible means. This library will have a focus on knowledge that is engaged through performative processes. This includes activities such as story telling, social learning groups, performance, and public talks. In Maori culture, history is scarcely written down, but it is told verbally and passed down through stories. This was the inspiration for this library. Listening, watching, and taking part in the exchange of information are important aspects of learning which are often left out. This is why this library has an equal emphasis on performative engagement as the other library has on literacy. This library will also facilitate relevant production methods such as audio and video production as well as classes in storytelling. This library will also have dedicated performance spaces in which larger groups can engage in these events. Although the idea for the second library came from Maori culture, this library isn't a library for Tangata Whenua, and the other for Tangata Teriti. Rather, both libraries contain information about both, and are made for both people groups to dwell and learn together. The only separating aspect of these libraries are their methods of engagement, not the cultures contained within, which are spread across both facilities.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think the old Athfield building has been an awesome building in our city for years gone by and has served its purpose well. I think that now would be an awesome opportunity to move forward and progress into a new era where we can make deeper and more meaningful connections between Tangata Whenua and Tangata Teriti. This would be an opportune time to start a new building project that caters to our community in a number of different ways than the old building. The Athfield library was radical at the time that it opened and catered to society in advanced ways when it was built. Now, the way we consume and divulge information has radically shifted. On top of that, conversations are taking place that have made us look at ourselves and our cultural legacy a bit closer. We now have an opportunity to create a new radical space for Wellington that is attuned to our contemporary methods of engagement with information and is also attuned to the diverse needs of our people.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Opportunities for partnership  
2. Future-proofing the library service  
3. Te Ngakau Civic Square connections  
4. Making the building safe  
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

If this truly is a democratic space, it would be great to see more engagement with Maori. I think this building is an awesome opportunity to honour the treaty relationship and to set a precedent for what that could look like. Since there is no Marae in the central Wellington area, it would be great to see this precinct and library accommodate activities that a Marae would facilitate, e.g. a place to stay overnight, a place where only Te Reo was spoken, a place to eat together. The other challenging thought is to demolish the library altogether and give the land back to local iwi. This would set an amazing precedent for New Zealand in terms of reinstating mana to her people. The iwi may have a better sensibility for what that space could be used for?

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply      I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I wasn't aware these interim libraries were open

Q16. Where do you currently live?      Miramar

Q17. Which of the following ages groups do you belong to?      25 to 29

Q18. Please choose the gender that best identifies you      Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Creative spaces. Engaging kids spaces that involve tech and low fi creative play. Amazing cafe that looks out over Civic square or uses part of it so you can sit outside.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Accessibility
4. Te Ngākau Civic Square connections
5. Sustainability
6. Timeframe
7. Heritage
8. Cost to ratepayers
9. Climate change
10. Making the building resilient
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Love the new decor and bright engaging wall graphics. The staff seem happier and you can tell they are excited to work in the new space and that flows on to the customers!

Q16. Where do you currently live? Newlands

Q17. Which of the following ages groups do you belong to? 40 to 44

Q1. Your name\* Ellen Blake

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central library already provided a great service to Wellingtonians. Keep the books, lots of books. Keep the people meeting and hanging out spaces around the books. Keep step free access, lifts and elevators. Keep the online lending facilities.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Minimal level repairs followed by a future upgrade

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Get the library open as soon as possible and defer a full upgrade to a time (WCC should be able to specify when this is) when not so many public buildings are closed, so it can be sensibly programmed into the Civic Square work - we need a civic space back, so funding can be better organised, keep the Athfield look it works, .

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Timeframe
3. Other (please specify)
4. Sustainability
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? Getting it open again soon so Wellingtonians can use their library

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Civic Square should be returned to the people of Wellington as soon as possible - more seats and shade, kids play opportunities in the middle of it would help a lot as its is limited currently and needs to be available for older people and little kids. It is and should remain a vehicle free area so its safe for oldies and littlies.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
He Matapihi Molesworth Library  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Panama St is the only one I like as it feels more like the library and a welcoming place but it is less convenient.

Q16. Where do you currently live?

Mount Victoria

Q17. Which of the following ages groups do you belong to?

Prefer not to say

Q18. Please choose the gender that best identifies you

Prefer not to say

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- I love the idea of the Library as a learning space - so a hub for Social services & lots of access to information in a range of spaces & Cafe for our diverse needs
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- The design process would be a really inclusive one involving our many diverse communities
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1.
- Q10. If you selected 'other' above, what other factor was important in your decision? Selected not Ranked: All except Heritage, Accessibility and opportunities for partnership
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- Yes it could truly be the heart with more use for festivals, events, public - all free & accessible than currently. Keep some green in there though please
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like the smaller spaces The open design & contents design is refreshing - of all the branch libraries now seem a bit old school

Q16. Where do you currently live? Newtown

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

- Q1. Your name\* Becca Rice
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
- |                             |
|-----------------------------|
| 1. Making the building safe |
| 2. Climate change           |
| 3. Sustainability           |
| 4. Cost to ratepayers       |
| 5. Timeframe                |
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- |  |           |
|--|-----------|
| Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. | Appealing |
| More windows to help connect the library visually to the square and surrounding streets                                      | Neutral   |
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Boardman Family

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Have spaces to hold exhibitions such as art, music & talks for e.g. the common law series & film evenings for all. retain Brandon Street one so redeveloping could be on a lesser scale

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If retaining the Brandon street outlet, then the Central Library could be retained only in a smaller way to what it was originally and not necessarily on same site.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Te Ngākau Civic Square connections
3. Future-proofing the library service
4. Opportunities for partnership
5. Sustainability
6. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Not to have it built up extensively, but keep the green space in the square with more trees or a garden view. Is a real sun trap & should be preserved with its outdoor spaces.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Important to have these as options to what end of town one is at e.g. Manners st is very much a self service one & lacks in the traditional attributes that a full service & staff have to offer. I have been disappointed with it, but glad to use the service centre when necessary. The Brandon St one felt a bit like a short cut convenience through from one St to another but i'm yet to explore upstairs. Similar to Johnsonville's new one although smaller in design.

Q16. Where do you currently live? Kingston

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Tallulah Farrar

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A centrally-located hub for all- dynamic, multi-purpose, welcoming, accessible, inclusive. The new Christchurch library has succeeded in creating a vibrant community hub, and Wellington's library can do the same (and also learn from that space to make ours even better!!)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one  
Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

As a student/young person in Wellington, the thought of having to wait 4 years to have that space back sucks. But really, taking the time & spending the necessary money is well worth it if the result is a great, resilient space for youth, families and communities of the future.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Accessibility  
2. Making the building resilient  
3. Future-proofing the library service  
4. Climate change  
5. Other (please specify)

Q10.If you selected 'other' above, what other factor was important in your decision?  
Community-friendly

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12.Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13.On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Great to still have those community spaces, but the lack of a central hub, seating areas and opportunity to self-discover  
literature (from the large catalogue) has been missed

Q16. Where do you currently live? Mount Cook

Q17. Which of the following ages groups do you belong to? 19 to 24

Q18. Please choose the gender that best identifies you Female

This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- More casual and open spaces for young people to hang out - there are really no neutral places for rangitahi to hang out that aren't outside or private (reading cinema used to have a space with beanbags but it closed down because it was earthquake prone)
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

  6. Heritage
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city? not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Manners street is a good location - wish there was more open space

Q16. Where do you currently live? Berhampore

Q17. Which of the following ages groups do you belong to? Under 18

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Guntur Raju

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

When building from base please ensure it is built to the highest environmental standards with following concepts in mind : passive heating, recycled Materials, waste heat recovery, solar gain etc.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Climate change 2. Sustainability 3. Future-proofing the library service 4. Making the building resilient 5. Making the building safe 6. Te Ngākau Civic Square connections 7. Cost to ratepayers 8. Opportunities for partnership 9. Timeframe 10. Accessibility 11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Showcase our stewardship of nature/climate, a resolve towards resilience and sustainability and educate people on the possibilities

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Johnsonville

Q17. Which of the following ages groups do you belong to?

30 to 34

Q1. Your name\* Raewyn Hailes

Q2. Your email or postal address

Q3. You are making this submission: CCS Disability Action

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) 0276003828

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library could be viewed as a central part in all the developments currently in planning stages for Wellington city. It provides an opportunity for Council to work with Transport Planners, Housing providers and Community to ensure that it is accessible from the homes of all citizens via transport options, and to be fully accessible meeting Universal Design Standards. It should not be designed in isolation from the other major projects. The aging population growth, climate change and the effects of ongoing pandemics will change the needs of the community, so flexibility in the space is needed so it can move with future community needs and the developments in technology. The time line to getting a functioning library is distant and will be impacted by other projects like light rail, causing high levels of disruption. All physical spaces must be accessible with steps and stairs being a last resort option. The future of the Central Library document provides a great overview of what a modern library should look like.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D -- New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Once the decision is made and an option selected, all efforts should be made to ensure the build moves quickly. Timelines for all options appear to be drawn out.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Sustainability  
2. Accessibility  
3. Cost to ratepayers  
4. Climate change  
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Lack the character of the Central library. Not so welcoming.

Q16. Where do you currently live?

Johnsonville

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Make it a place where people want to congregate, with more seating, some shade, maybe some eating/coffee carts. Think of Midland Park and aim for something like that.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Dont use them. I have the lovely Johnsonville library nearby. But i do miss the central library, which i used to visit weekly.

Q16. Where do you currently live? Johnsonville

Q17. Which of the following ages groups do you belong to? 65 to 69

Q1. Your name\* Michael de Stacpoole

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I see the library as an important community hub but I do not see the need for the inclusion of a cafe which is as an unnecessary facility and unnecessary expense (in terms of floor space) when the library is located in the Central Business District and thus is surrounded by other existing cafe businesses.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think Option C (your preferred option) is a pre-Covid option when the economy and city were doing well and it does not reflect the current and looming deteriorating economic situation. In particular, talk of "100%+ NBS" is extravagance and cannot be justified in terms of the additional capital cost (potentially \$39m) and the ongoing additional annual servicing cost to the ratepayer (potentially 63% higher) when compared to the new build option (Option D). With regard to Option D's perceived disadvantages, I think that design choices can be made to minimise heritage concerns (for example, mirroring the existing external design) and the later delivery time is an unfortunate but necessary consequence of managing the financial impact of the project. Importantly, the new build resilience is "high level" so safety is not being compromised.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Making the building safe 3. Timeframe

Q10.If you selected 'other' above, what other factor was important in your decision? not answered

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12.Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think that the library and the precinct complement each other. The question about having more windows seems a bit redundant because that is one of the strengths of the existing library.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

If you are going to use lots of stools such as at the Te Awe Library and Johnsonville, I think they should be stools with back support for greater ergonomics and comfort. Thank you for the work that has gone into providing the interim CBD branches and for the friendliness of the staff.

Q16. Where do you currently live?

Hataitai

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Male

This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**  
My preference is to spend the least amount possible to get the central library reopened. The amount of money suggested for different options is huge and at this time ratepayers really can't afford to be spending this money, unless council spending is cut back elsewhere, which should be investigated. If the library must be repaired, then it should be the cheapest option. I have no confidence that the high-cost options will adequately future-proof the library, be it options C, D or E. Who is to say that future building standards won't lead to a downgrading of the NBS? No doubt when the library was built 30 years ago it met the highest standards of the day, and ratepayers were promised it would be fit for purpose for 50 years or more. That's not the case, and no matter how much money is spent, we may not end up getting the life from a new library or high level remediation due to future revisions to building codes or earthquakes. Both of these are unpredictable so we risk spending a lot of ratepayers for no gain. Better to repair the library at the least cost and minimise the cost to ratepayers, rather than spend more but still risk a structure that may not withstand a powerful earthquake and need replacing, or because technology in the future means some experts say it should be remediated again because the standard it was remediated to is no longer deemed good enough - the situation we find ourselves in today.
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**  
1. Cost to ratepayers

Q1. Your name\* Eddy Davis-Rae

Q2. Your email or postal address

Q3. You are making this submission: Te Ahi o Ngā Rangatahi and Wellington Boys' and Girls' Institute

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Te Ahi envisions a modern, flexible and open space that is welcoming for and reflects the diversity of the people of Te Whanganui a Tara. This looks like including aspects from different cultures in the design (especially Māori), ensuring that there are spaces that make different people feel comfortable such as places where noise and eating is acceptable and quieter spaces for study/reading etc. The library should be well resourced with equipment and technology that bridges gaps between richer people those who can't access these things in their own home. The library space should be flexible so it can adapt to changing times and can host events and functions such as gigs and art exhibitions. Specifically we believe that the library space should cater to youth. This includes having a separate, designated space for young people to hang out. This request is based on evidence from a youth led research project on the wellbeing of young Wellingtonians. We asked 1243 young people in Wellington what they would do to improve the wellbeing of young Wellingtonians and "more spaces to hang out" was a significant theme that came through as well as involving young people in decisions that affect them.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D -- New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Whatever decision is made, Te Ahi would like to see the inclusion of a youth specific space that is designed with and by young people themselves. Te Ahi are happy to be consulted on this matter and have a track record of gathering authentic youth perspectives on issues that impact them.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Accessibility 2. Future-proofing the library service 3. Opportunities for partnership 4. Timeframe 5. Making the building safe

Q10.If you selected 'other' above, what other factor was important in your decision? Safe meaning not just physically but also inclusive

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's important and cool!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Modern Accessible Trying to provide options while the library is out of action (we are a group of young people between the ages of 16-27 and this submission is from all of us so the below questions are not very helpful)

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

No comment.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current building was functional inside but nothing special on the outside apart from the nikau fronds which tie it in with the surrounding civic area. These could be kept. The building itself is better consigned to history.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Climate change  
3. Cost to ratepayers  
4. Making the building safe  
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think the library and Council chambers need to both be bulldozed and a replacement building that includes the council offices and library should be built on that space for the budget outlined. This is cheaper and provides for a potentially much better solution than trying to save what is there. Our knowledge of building performance and technology has improved considerably since this building was built. The value of this improvement alone must surely be far more than the heritage value could possibly be worth to your average ratepayer and library user. The existing building has a very poor record in terms of energy efficiency. Any new build should be done to a 5 or 6 star NABERSNZ energy rating. This would include ensuring energy experts are included as part of the design team to ensure the ratepayer does not have to continue to fork out for excessive energy expenditure in future years, as they currently do with many Council buildings, including this one when it was in operation.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? More information about where they are and what is in each of them.

Q16. Where do you currently live? Khandallah

Q17. Which of the following ages groups do you belong to? 50 to 54

- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

not answered

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Harriet

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councilors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Many of our most vulnerable communities find shelter in the library. LGBTQI youth often share stories where they have spent their weekends at the library reading, because it was warm, peaceful and they had been kicked out of home. Also under privileged children or teens who are studying but don't have an adequate home life to support their homework or study, or the right resources - they all find a shelter and opportunity when they have access to the free resources and space to try to better their position. I think a community can only judge its own value by how they shelter their most vulnerable, and the library is a cornerstone of one of those shelters - if we don't value this service, then we don't value our people. Any services or offerings that we can provide to help these groups, no matter how simple, will be an asset to Wellington moving forward.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Many of our most vulnerable communities find shelter in the library. LGBTQI youth often share stories where they have spent their weekends at the library reading, because it was warm, peaceful and they had been kicked out of home. Also under privileged children or teens who are studying but don't have an adequate home life to support their homework or study, or the right resources - they all find a shelter and opportunity when they have access to the free resources and space to try to better their position. I think a community can only judge its own value by how they shelter their most vulnerable, and the library is a cornerstone of one of those shelters - if we don't value this service, then we don't value our people.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Making the building safe
3. Future-proofing the library service
4. Making the building resilient
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

would be nice to have multi-use seating for lunch timers. Often people just sit along the ledges and bricks. doesn't have to be permanent seating, but even temporary and changing 'pop up' fixtures in summer could be great.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Outside Wellington City

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Female

This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
A cafe on site at the Central Library is important. I liked that Clarke's cafe at the mezzanine level had insulation on the ceiling to lower the sound - it was a quiet space, in fitting with the library.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Timeframe  
2. Making the building safe  
3. Cost to ratepayers  
4. Sustainability  
5. Making the building resilient

- Q1. Your name\* Euan Galloway
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Be like the new Christchurch city library - open, bright, exciting and future-facing.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
I don't see anything pleasurable in the external or internal design of the old central library. It was functional, but bleak. It has no historical architectural significance. The artificial nikau palms could be transplanted to the new library, if you wanted to retain some connections with the old.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Making the building resilient  
3. Cost to ratepayers  
4. Timeframe  
5. Te Ngakau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
It should be the hub of the city
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre
He Matapihi Molesworth Library
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Still a lot of reference material off site and staff not enthusiastic about retrieving it

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Peter Nichols

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Incorporate the latest ideas from community needs, eg Christchurch Library. Re the next question, there is insufficient information upon which to make a rational decision, besides, it's like comparing lemons with ducks eg each option has different amounts pa over different timelines, why can't you be consistent, eg optionA has \$40pa x 35 years, B \$60 x 42 years and D \$50 x 64 years? Draw up a box with standard measuring criteria for starters.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one not answered

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Cost to ratepayers
5. Climate change
6. Sustainability
7. Te Ngakau Civic Square connections
8. Timeframe
9. Heritage
10. Opportunities for partnership
11. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Nice to see kids using it eg football etc

- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library
- Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
They have actual books
- Q16. Where do you currently live?  
Oriental Bay
- Q17. Which of the following ages groups do you belong to?  
65 to 69
- Q18. Please choose the gender that best identifies you  
Male

Q1. Your name\* Noel Read

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think it could incorporate some of the elements of the national archives building, with space for collaboration and meetings, with screens to project on to, and good wifi. The café should also stay. Community services, such as citizens advice should also remain.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We need it in some form. It is an integral part of Wellington. Having that communal, community space is really important.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Making the building resilient
4. Accessibility
5. Te Ngakau Civic Square connections
6. Climate change
7. Sustainability
8. Cost to ratepayers
9. Timeframe
10. Other (please specify)
11. Heritage
12. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Nothing specific, but it should continue.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? N/a

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Male

Respondent No: 451

Q1. Your name\* Steve

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Having a big open space would be fantastic with areas for people to come in and study and read. Possibly have networks come in for learning. What ever you do, don't build on the same site. Learn from previous mistakes. We need to move further away from the water. Also, the location needs to be closer to public transport.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Relocate the Central Library to a non Te Ngākau Civic Precinct site

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Why not at the same time, look at building on top of the library. There is a lot of space above and there is a shortage of homes. WCC could look to do apartments and lease them to the Victoria University. Or you could rent apartments to others.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Cost to ratepayers
6. Timeframe
7. Opportunities for partnership
8. Heritage
9. Sustainability
10. Climate change
11. Te Ngākau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Outside Wellington City

Q17. Which of the following ages groups do you belong to?

Prefer not to say

Q18. Please choose the gender that best identifies you

Prefer not to say

Respondent No: 452

- Q1. Your name\* Martin Bonne
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E – New build on another Te Ngākau Civic Precinct site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
The most cost-effective option, with high score against criteria should be chosen. Option E has expected similar time-frame to other realistic options, and provides for a safe, accessible, resilient, future proof library. The design can mitigate climate impact.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Cost to ratepayers  
4. Future-proofing the library service  
5. Accessibility
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Very poorly stocked. Have visited Molesworth Street branch, but was more than six months ago.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Gen walker

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library should form a large community space for the city, with spaces for community groups, teaching/ learning groups, spaces targeted at every age bracket (kids, teens, young professionals, adults, the elderly). There should be spaces which make all of these people from different walks of life feel welcomed.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I do not think low to medium remediation is a good option, as this is only delaying the inevitable full upgrade or demolition on the site, and I believe would cost more in the long run. Wellington central has been without a library for so long that it is important to get this project up and running in the shortest time possible, with the best option for longevity for the library in place.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Sustainability
3. Making the building safe
4. Climate change
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I have not used the interminable libraries, instead have used the library in Upper Hutt where I work.

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Female

- Q1. Your name\* Daphne Wardle
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Very much as it was but maybe brought up to date with new methods. Of support to all the community, ease and comfort to study and read. Programmes for children. And return of the cafe.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- To keep its special architectural character and its space in the city square.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Te Ngakau Civic Square connections
  2. Heritage
  3. Making the building safe
  4. Future-proofing the library service
  5. Timeframe
- Q10. If you selected 'other' above, what other factor was important in your decision? I wanted to change my numbering as they are all important. Keep the unique atmosphere please.
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- Very important to keep this connection. Even open air spaces to connect might work.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I used the library frequently while working and living in Wellington and especially when studying at Victoria. I used to enjoy the library with friends one of whom made it the subject of spacial activity for an assignment.

Q16. Where do you currently live? Outside Wellington City

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

- Q1. Your name\* Katherine Slaney
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
much the same, but updated for the current environment
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Just that it is missed a lot by the Wellington community, so we need to get on to it ASAP
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Accessibility  
2. Making the building safe  
3. Cost to ratepayers  
4. Timeframe  
5. Future-proofing the library service
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Brooklyn

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Female

4. Future-proofing the library service  
5. Te Ngākau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
It is essential that this precinct begins to function again as the heart of this city. Decisions need to be made swiftly and work needs to begin fast. We have been without this heart for too long.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I now reserve and pick up books from my local library which I am delighted has remained open and continues this essential service.

Q16. Where do you currently live? Highbury

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Leigh Halstead

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) 0272150330

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E -- New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

There is a high probability of cost escalation and schedule slippage on option C. A new build using low damage design has a high probability of producing a more resilient building that optimises costs and outcome.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Future-proofing the library service
3. Timeframe
4. Sustainability
5. Making the building resilient
6. Making the building safe
7. Heritage
8. Te Ngākau Civic Square connections
9. Opportunities for partnership
10. Accessibility
11. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

With removal of the existing building Te Ngākau Civic Precinct will have a better opportunity to connect with the city

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q1. Your name\* Brett Coram

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Why can we not have smaller localised libraries (community centers) where we can browse, connect, and communicate. If required to locate a specified book or resource this could be sent via courier directly from a centralised "library warehouse" (Amazon modelling) off-site anywhere in the Wellington Region taking away expensive inner-city real-estate.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Cost to ratepayers
3. Making the building resilient
4. Making the building safe
5. Opportunities for partnership
6. Timeframe
7. Te Ngakau Civic Square connections
8. Accessibility
9. Sustainability
10. Climate change
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Small and personal. Cafe a nice touch.

Q16. Where do you currently live?

Northland

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Male

IP Address:

Q1. Your name\* Jane Julian, Area Manager, WelCAB

Q2. Your email or postal address

Q3. You are making this submission: Citizens Advice Wellington (WelCAB)

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

WelCAB has read the proposal and noted the Council preference.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

WelCAB is not a ratepayer and therefore feels it is inappropriate to express a preference for any option, however we are a partner with WCC in delivering services and our natural home is in the Central Library. Therefore we have an interest in the outcome of the consultation.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

WelCAB is pleased that the Principles guiding how the library looks include co-location with front face customer services and partners whose mission, purpose and values are aligned and complementary to WCC. The PWC report identified that WelCAB aligns with the social and community outcomes of WCC and that our partnership in delivering to the community is strengthening. The Central Library is a natural hub or living room for the community and therefore a natural location for WelCAB. WelCAB looks forward to building on our partnership with WCC in a shared space at the Central Library.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Opportunities for partnership
3. Cost to ratepayers
4. Accessibility
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Te Ngakau is an important play space in the City; it could also have passive digital capability to keep people informed of what's on and local issues. We value the way people have used Te Ngakau in the past for eating lunch, meeting friends, watching events etc.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The interim Libraries at least give some access to the collection; the staff are very visible and helpful.

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

Prefer not to say

Q18. Please choose the gender that best identifies you

Prefer not to say

Respondent No: 469

Q1. Your name\* Adam Crisp

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A continuation of what it was plus more. It was and should become again the heart of Wellington - a place where people could meet, mingle, read books and get out of the Wellington weather, even if financially disadvantaged. The role of the library is far more than a place to get books or other media, it is a place for people to feel equal. To this point a greater emphasis on maori protocols is needed, a recognised area where people can eat inside for free as well as the paid cafe area, and a recognised separate talk zone so people and kids can catch up and have fun without disrupting others.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Yes. The price comparison that has been publicly provided does not include the carbon costs of creating the concrete and building materials for a new build and disposing of the old concrete and materials versus those for remediation. This is disappointing and giving a false account of the decision. It now needs to be standard practice that for major building projects like this WCC includes climate change considerations fully in its decision-making.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe  
2. Climate change  
3. Making the building resilient  
4. Accessibility  
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Te Ngākau Civic Precinct including the bridge is one of the few open expressions of our māori heritage and the remediation of the library needs to incorporate this in its design. We need to embrace our unique pacific heritage and make sure everyone knows that the library and the precinct is for everyone, including the gallery too.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
The reason my response is low is because the library building is closed. When the old main library building was open I was a frequent visitor

Q16. Where do you currently live?  
Outside Wellington City

Q17. Which of the following ages groups do you belong to?  
45 to 49

Q18. Please choose the gender that best identifies you  
Male

Respondent No: 470

Q1. **Your name\*** Ruby

Q2. **Your email or postal address**

Q3. **You are making this submission:** as an individual

Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No

Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**

It's invaluable that, while the Kinrara provides access to many books and informative resources, it also prioritises providing access to the Internet for those who are unable to access it at home. The Internet is practically an essential part of life and work, and the library provides an ability for those less fortunate to not be gated out of things such as job hunting or keeping up with current events, just because they couldn't get online. It is also important that, while technology should progress with the times, there needs to be in person librarians available to assist and lend their thoughts. There should not be a fully automated library system. That's not what people go to a library for. The human element of visiting the library is incredibly essential.

Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one** Option C – High-level remediation

Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered

Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**

If the layout is to be remodelled, there should be a great consideration of integrating accessibility in the design, rather than as an after thought. There should also be non-binary bathrooms available.

Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**

1. Sustainability
2. Future-proofing the library service
3. Accessibility
4. Climate change
5. Making the building resilient

Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered

Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

I think it's important that the space stay publicly available, and that minimal incroachment on the existing space would be ideal.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I don't like the sterility of the design. It makes the process feel more transactional, which I don't like.

Q16. Where do you currently live?

Kelburn

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Adrienne

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The new library needs to have a better balance between spaces for events, meeting, and connecting, and spaces for the collection. The former library was mostly focused on being a building with books, and a new library could be so much more for the city. Research shows that, in financial terms, a library contributes more to the economy of a city than what it spent on it. The investment that WCC puts into this library will pay out in magnitudes more in terms of economic growth, wellbeing and personal growth, reducing poverty and digital divide, and participation in democratic processes. The Athfield building is iconic and much loved, and is part of Wellington's heritage. The challenge it to build a modern library within the Athfield structure, while keeping true to his design. Please think about creating spaces for the following activities- meeting and connecting -business, entrepreneurship, and prototyping -education. research and learning, from children to seniors - learning through play and experimentation -arts, culture, heritage -performance and events -quiet alone time -tourism information and support -food has an important place in NZ's culture, so an integrated cafe too -micro-qualifications, upskilling, community learning

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please keep the big Nikau! Create better access points and flow through the building, without building wind tunnels. Fix the leaks! Lol. Integrate the cafe into the library, rather than having it as a separate space in the building, and have a coffee kiosk on the top floor. Allow the library to occupy the top two floor as originally intended Keep management functions off-site so the whole floor space can be for customer benefit

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Future-proofing the library service 3. Timeframe 4. Te Ngakau Civic Square connections 5. Heritage 6. Opportunities for partnership 7. Accessibility 8. Sustainability 9. Climate change

Q10.If you selected 'other' above, what other factor was important in your decision? not answered

Q11.Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It used to be so impressive and vibrant. Please give people a reason to return. As well as facilities and activity, we need people living and working within close proximity so it becomes their 'living room'.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like how they each have a 'flavour'. It would be a shame to lose these smaller sites once the central library has reopened, particularly the one at National Library as that end of the city was poorly serviced by the central library previously. The Heritage and NZ aspect of He Matapihi really highlights parts of the collection and library service that weren't very visible before. Te Awe could also have an ongoing role as a 'shoppers library' in the heart of Lambton where people can go to pick up a latest popular item, retreat from the busy street, have a coffee, and recharge. Te Awe could also take on more of a focus for supporting tourism with the cruise ship bus stops nearby. I think Arapaki is the least important, however if the service centre remains at that site it could still be a 'click and collect' site for the library.

Q16. Where do you currently live? Paparangi

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

Respondent No: 473

Q1. Your name\* Marian de Jesus

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A library to me is a one-stop shop for learning, community, small gatherings and social needs. Apart from the usual books and multimedia resources we can borrow, I would like the justice of the peace, citizens advice/community law assistance, small art gallery/event venue to showcase local artworks volunteered by local artists to help promote them, portion of proceeds from the sale of the artwork to be donated back to library? (with MCH, Nga Taonga), small movie room for special cultural screenings (with National Library and Nga Taonga), public spaces, etc. I would also like this opportunity to be used to incorporate Te Ao Māori/Pacific/Pākehā/multicultural/disability worldviews into the architectural design and flow and function of the spaces so it becomes a safe space for all families and a reflection of people of the city.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D -- New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If Option D/E - I would like for the council to make sure that the people working on the new design and build of the library are multicultural and has disability reps to ensure that they reflect the needs and cultures of people, not just in design but also on the functions/features of the building.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building safe
3. Making the building resilient
4. Accessibility
5. Opportunities for partnership
6. Sustainability
7. Climate change
8. Cost to ratepayers
9. Te Ngākau Civic Square connections
10. Heritage
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It certainly should aim to be a center piece of Wellington - Christchurch's new library is a brilliant example of a successful modern

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If option C allows for some changes it should be thought about changing some of the facade along Victoria street - it doesn't have anything of the lightness of the Harris street side and feels very uninviting.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Making the building safe 3. Climate change 4. Timeframe 5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. - Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**
- |  |           |
|--|-----------|
| Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. | Appealing |
| More windows to help connect the library visually to the square and surrounding streets                                      | Appealing |
- Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**  
not answered
- Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Monthly
- Q14. **There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Crofton Downs

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

not answered

IP Address:

- Q1. Your name\* Gloriana Quiros-Venegas
- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) goquiros@gmail.com, 021 434 015
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- WCC is facing many challenges at once and a new library will represent an opportunity to develop a resilient building, with a larger capacity for books, larger social spaces (for cafes, much needed meeting areas, better study places and more) and it is key to plan it well. The Central Library needs to be a hub for learning, sharing, teaching and gathering and it must be resilient.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- The Town Hall and many other remediation projects have highlighted the increasing costs of those repairs across the time. The heritage process is definitely of concern time-wise, but the opportunity to build a world class, resilient and sustainable building is unique. The council should be thinking about a building for the next 50 to 100 years and not consider repairing one that is ageing and EQ prone.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Accessibility
  2. Future-proofing the library service
  3. Making the building resilient
  4. Making the building safe
  5. Opportunities for partnership
  6. Te Ngakau Civic Square connections
  7. Sustainability
  8. Climate change
  9. Cost to ratepayers
  10. Timeframe
  11. Other (please specify)
  12. Heritage
- Q10. If you selected 'other' above, what other factor was important in your decision? Increase capacity of books at the central library and consider more car parking options in a new design. There is a need to be sustainable but even if people owns less cars per household, the population will grow in the next 20 years.
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It should be an opportunity to also showcase art pieces as it happens outside Te Papa

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like to be able to get books but I miss the space to sit and the wider variety of books, as well as the cafe (which used to be way too small for the size of the central library).

Q16. Where do you currently live?

Kelburn

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Female

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
A place where people can borrow books, publications, music and other resources and enjoy them in quiet. A place with no food and beverages or food odours in direct access with the books.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Relocate the Central Library to the Convention and Exhibition Centre
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
I do not know why the library was moved out of the former library building in the first instance. It has stood for decades, it stands still and is perfect for a library. Please consider not wasting public money further and reutilise this already good space. I don't think books and food/beverages or books and food odours mix well.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service

Q1. Your name\* Chris

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Libraries are the only free areas for congregating indoors that exist in the city. They need to reflect that, and have spaces for individuals to rest, pass the time, access services, and make people of all backgrounds feel welcome and part of the community.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
 Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
 not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
 Make the building green and sustainable - that includes throughout the construction process as well as lifetime.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
 1. Making the building resilient  
 2. Sustainability  
 3. Heritage  
 4. Accessibility  
 5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?  
 not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

More connectivity would be appreciated

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
 Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

25 to 29

Q1. Your name\* Desmond Collins

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Anyone who thinks they know what a good library for a city like Wellington should be like in 20 years time let alone 50 years is sadly mistaken.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current building after minor remediation is very likely to still be there in 20 years. The issue of whether the city needs a grand library or not can be revisited then

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers  
2. Timeframe  
3. Making the building safe  
4. Te Ngakau Civic Square connections  
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Get the buildingsw being used as soon as possible

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Thorndon

Q17. Which of the following ages groups do you belong to?

70 to 74

I would still like it to be a repository of books and magazines
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
The site is perfect. It could include additional community space - and a cafe
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Accessibility  
3. Making the building resilient  
4. Te Ngākau Civic Square connections  
5. Cost to ratepayers  
6. Making the building safe
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing  
More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
It would work well if all buildings around it were actually occupied, rather than as now, mostly empty or unuseable
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They have books that can be borrowed

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Male

- Q1. **Your name\*** Mark
- Q2. **Your email or postal address**
- Q3. **You are making this submission:** as an individual
- Q4. **Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)** No
- Q5. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**  
 I don't think we should invest the Central Library building for the next 50 years, giving the world is super fast changing, 'Library' will be no longer valid in the near future. why should we invest something that don't have a future? instead, i think WCC should invest something online, and make a better use of the building for something else.
- Q6. **There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one** Option E – New build on another Te Ngākau Civic Precinct site
- Q7. **You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.** not answered
- Q8. **Is there anything else you would like to tell us about the future of the Central Library building?**  
 not answered
- Q9. **Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**

- Q10. **If you selected 'other' above, what other factor was important in your decision?** not answered
- Q11. **Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**
- |  |           |
|--|-----------|
| Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. | Appealing |
| More windows to help connect the library visually to the square and surrounding streets                                      | Appealing |
- Q12. **Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**  
 If this is the big lunge of Wellington city in the past, why don't we keep it that way and make it safer and more adaptable.
- Q13. **On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

We can find most (if not everything) of the stuff online now for what we needed. we went to the library very often when our children were young. the things are changing rapidly and do young children still need to go to libraries?

Q16. Where do you currently live?

Miramar

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Male

Responded At: Sep 04, 2020 10:09:11 am

Last Seen: Sep 03, 2020 21:41:09 pm

Q1. Your name\* Ben Lovell

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Focus on retaining books, especially classics and New Zealand literature. Integrate with the internet more, including use of apps to encourage young people to engage with the library. Expand the music section to include a community recording studio where local musicians can get quality recording done at an affordable price, giving discounts to under 18's and community services card holders. Partner with the likes of the Sustainability Trust, multi-cultural organizations, corrections department to provide free education programmes around social issues.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We need to focus on education and knowledge in this age of misinformation - people need to be given the tools to do their own research effectively to combat the growing ignorance of science and spirituality which breeds harmful conspiracy theories and divisive rhetoric. The library is the natural hub for this action and needs to be supported at any cost. Also, Aotearoa really needs to up it's space programme game, we should be mining asteroids not national parks - this could be a cool feature of part of the new building maybe. We could also consider a partnership with Japan, who are leading the way in space research right now, to do a science exchange of some sort?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Heritage
2. Making the building resilient
3. Making the building safe
4. Accessibility
5. Future-proofing the library service
6. Opportunities for partnership
7. Sustainability
8. Climate change
9. Other (please specify)
10. Te Ngakau Civic Square connections
11. Timeframe
12. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? Futurism

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Needs a permanent stage for concerts and public speaking events, other than that it's pretty good as is. Maybe more creepy hand statues?

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Outside Wellington City

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Erica McLean

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I have been reading The Library Book by Susan Orlean, which chronicles the Los Angeles Central Library fire in 1986 and subsequent renovations and changes. That library, sitting in downtown LA, serves a very diverse population including one of the largest homeless populations in the States. While Wellington does not have anywhere near the same level of problems it does have the same problems. A library welcoming to all, providing attractive spaces for education and health and community outreach, would be wonderful.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I love the idea of more integration of the library with both Civic Square and the surrounding streets as, despite its modern design, it has always appeared somewhat of a fortress to me. I would like the new design to incorporate the palms, but other than that design feature, I believe the opportunity to design a new space more suitable to what a library should be today (and perhaps a modern building that visually works better with the true gems of Civic Square - Town Hall and City Gallery) outweighs the heritage aspect of the current building.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Te Ngakau Civic Square connections 2. Making the building resilient 3. Future-proofing the library service 4. Sustainability 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I find the Square one of the most congenial spaces in Wellington and would love to see its use increased - for example by having cafes that could be ground floor in winter and outdoors in summer, to draw more people to the Square. The cafe in the current library felt dark and cramped, and Nikau is too tucked away. Additional spaces for art, in conjunction with City Gallery, would be wonderful.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I have not visited them, but friends who use them regularly appreciate the ease of requesting and obtaining books.

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Female

Respondent No: 492

Last Seen: Sep 03, 2020 22:08:19 pm

- Q1. Your name\* Caro
- Q2. Your email or postal address
- Q3. You are making this submission: Spacecraft Architects
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
I really like the new library in Christchurch and its narrative engagement with the city and role as well as the sewing rooms and other excellent civic living room extensions.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Other (please specify)
  2. Te Ngakau Civic Square connections
  3. Climate change
  4. Making the building resilient
  5. Future-proofing the library service
- Q10. If you selected 'other' above, what other factor was important in your decision? The design excellence/cost effectiveness of the solution. Its best to brief the project based on factors known to promote and sustain community, and then design to that brief, meeting the citizens needs for a civic space rather than heritage protection
- Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
An historical education component about pre treaty/post treaty relationships with tangata whenua and whenua itself.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Miramar

- Q2. Your email or postal address
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
It's important to keep any library close to the CBD, and not locate the new build in land over the City to Sea bridge, for ease of access for pedestrians in strong weather conditions that prevail in Wellington.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Making the building resilient
  3. Accessibility
  4. Timeframe
  5. Cost to ratepayers
  6. Future-proofing the library service
  7. Te Ngakau Civic Square connections
  8. Climate change
  9. Sustainability
  10. Heritage
  11. Opportunities for partnership
  12. Other (please specify)
- Q10. If you selected 'other' above, what other factor was important in your decision?  
I feel a safe, resilient building would automatically include climate change, sustainability etc, so these should have been grouped together as it affects rankings.
- Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

For all users, a space set aside in the square where community artists can set up and exhibit art for sale, as in cities overseas; cafes exiting onto the square that extend outside, with tables etc, some business allowed to add colour and life (ie florists etc); would all make it more appealing for the public, workers and tourists. Shelter from the weather is also important. It could be a better creative hub. Some democratic space would be good to bring in people daily, but public servants could also be situated elsewhere in offices in the city.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I only visit the Te Awe library as the others are too small or too far away when I am working in town. The Central Library was a good situation to access working in several areas of town.

Q16. Where do you currently live? Outside Wellington City

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Tajana Kane

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Libraries are dying out as community physical spaces, with the new generation going online. I'm an avid book reader who is 50 years old, and even for me half of my books are now online and I'm keen to go 100% online when it comes to reading. I'm using library less and less. The focus of the Central library should be it's online presence, increasing the number of books online, creating collaborative workspaces for people to come and use internet to read, communicate, learn. A cafe to have a tea, coffe and a muffin, would be nice, to encourage people to come over. Libraries should be getting smaller and smaller in it's physicals space, not getting bigger.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

50 years from now, library will only exist as an online presence, and there will be no need for anything physical. Any physical books or material will be put off-site, and accessed rarely. New generations, even now you can see that by observing teenagers, and they are your audience in 10-40 years, love online content. My teenage daughter, for example, has only ever read online books and never expressed an interest in physical books. Her friends are the same.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Future-proofing the library service
2. Making the building resilient
3. Making the building safe
4. Cost to ratepayers
5. Accessibility
6. Opportunities for partnership
7. Sustainability
8. Timeframe
9. Climate change
10. Te Ngakau Civic Square connections
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's not really connected with library. Library can be moved anywhere else.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I visit local suburban Khandallah branch

Q16. Where do you currently live? Khandallah

Q17. Which of the following ages groups do you belong to? 50 to 54

Q1. Your name\* JennyM

Q2. Your email or postal address

Q3. You are making this submission; as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

As the nature of society changes, Councils can provide places for people to connect and create community - the library is an obvious choice for that.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

WCC has done a great job with pop up libraries - this may also be worth considering for the future. Thanks for all the work you have done.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Cost to ratepayers
4. Timeframe
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I like it the way it is

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply He Matapihi Molesworth Library Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like the friendly and approachable sense of each of the libraries I have visited. I also like that I can return books to any library and I can reserve at any of the libraries.

Q16. Where do you currently live? Thorndon

Q1. Your name\* Kate

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A place to find books, information, a safe place to take children to help them find books and learn. Comfortable and welcoming.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Keep it! I love the Central Library and have spent many a lunch time in their, such a wonderful space to relax. A piece of quiet in the bustling city. And an essential service for the community.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Making the building resilient 3. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It really is a great space, the heart of the city, I love that it connects to the lagoon and waterfront and we should all work hard to keep it this way for our wonderful city. Its such a core space for city events, provides the perfect "hub" and the buildings offer great opportunity.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Quiet place to go and rest/wait when in town. Browse the books. I would improve options for children and parents room.

Q16. Where do you currently live? Outside Wellington City

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Peter Barker

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I am a heavy user of libraries in the old style of physical books. I much prefer to read my books that way. But The new library should Be future proofed. The reality is that most material will be resourced online. Therefore it will/should be a very different type of building than it is now. The current building is an architectural masterpiece. It is a building that has a material impact on the character of Wellington. I love it. But it's function is for an old style library. It should not be preserved if it cannot perform the future of a future library and the cost should not be excessive to preserve a building with great architectural value. Libraries do and should provide wider community activities and act as a hub. But this is a subsidiary function and the tail should not wag the dog. Money should not be spent to preserve this function. The community hub aspect should be out in the branch Libraries. The options provided do not fully reflect my position. I would prefer a new library but cost is an issue as well as time. Therefore I am inclined to the low remediation. I am totally opposed to high level remediation. It doesn't provide for a future proofed library. It is high cost with no control over cost.-see the town hall example. It will take time.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? See 5 above

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Making the building safe 3. Timeframe 4. Cost to ratepayers 5. Heritage

Q10.If you selected 'other' above, what other factor was important in your decision? not answered

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12.Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I agree it is a great area and we should enact policies which retains those functions

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I think they are a good idea. Before the central library was closed I used it weekly. I don't use the cbd's. They are not a substitute. A functioning central library is essential so the decision needs to be made now.

Q16. Where do you currently live? Outside Wellington City

Q17. Which of the following age groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Luke Bonjers

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

In terms of aesthetics, I would ideally like the central library to remain as close as possible to the old one. In terms of architecture, I would ideally like an expansion of space in order to accommodate for more books.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It is my belief that privatizing the restoration would jeopardize the future of the central library, as there is a stronger incentive to prioritize profit over quality in private enterprises.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Making the building resilient 3. Heritage 4. Other (please specify) 5. Climate change

Q10.If you selected 'other' above, what other factor was important in your decision? Storage space for more physical media

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12.Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Keep it well maintained

This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Fix it up, do not mess with it.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option B - Mid-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
We need to maintain a central library as a centre of learning. It should not be a place following the whims of 21st Century Philistines.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Timeframe  
3. Cost to ratepayers  
4. Other (please specify)  
5. Heritage
- Q10. If you selected 'other' above, what other factor was important in your decision?  
Need to retain full collections and reference materials.
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing  
More windows to help connect the library visually to the square and surrounding streets. Somewhat unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Yes, fix it.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

A poor apology for a Central Library

Q16. Where do you currently live?

Wellington Central

Q17. Which of the following ages groups do you belong to?

80+

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* L\_DWill

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I would like a new fit-for-purpose central library. I would be happy with a modern library like the new Christchurch or the new Johnsonville one, but would like good access to print books. What I have particularly missed since the Central Library closed is the range of religious, philosophical and historical books that it held.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further.
