Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please keep first and foremost in your minds that this is a library and it is about books. The interim libraries and the new johnsonville library have been incredibly disappointing, while they are beautiful spaces, any one who actually uses the libraries have been very disappointed in how few books there are available. The johnsonville library in particular is very disappointing, such a big space but so few books to browse. I know architects like to make their mark, but the users of the library want books. The interim libraries have been utter disappointments, the council money would have been better spent just finding empty buildings and filling them with basic shelves with lots of books instead of wasting so much on fancy fitouts with limited access to books. Additionally, i have concerns over the sharing of the space with capital e, this will only work if there is some form of separation. Part of the magic of the libraries is in the silence, the reverence, if you remove this aspect you risk ruining magic. Captial e is a noisy place, and while they could be joined, are they really compatible?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Timeframe
3. Accessibility
4. Future-proofing the library service
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? The thing that is most important to me is that the central library is built to house as many books as possible. We need to make books accessible to everyone on a large scale, so there is something for everyone.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

More books. I would prefer the council spent less money on fancy fitout and branding, and spent more on finding large spaces with lots of books on display. The current quantity of books is absolutely woeful, and while i order books online, it is absolutely nothing like browsing. I used to go weekly or fortnightly to the library, now i barely go. These libraries are absolute disappointments. Please just find a big hall and fill it with books.

Q16. Where do you currently live?      Ngaio

Q17. Which of the following ages groups do you belong to?      35 to 39

Q18. Please choose the gender that best identifies you      Female

Q1. Your name\*

Louise

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Love the range of spaces and opportunities for community use in the new Christchurch library. Sewing machine rooms, use of 3D printers etc. central library was very much used by people who either have no home or need to be out of home all day, so need to retain that sense of 'haven' as well as a Repository of resources. Need collections together too, so families can visit and all get needs met at same time.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I don't mind which option, but think a rebuild is the way to go. Would love to see the Nikau palms incorporated into any new design 😊

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Future-proofing the library service
3. Making the building safe
4. Sustainability
5. Climate change
6. Accessibility
7. Opportunities for partnership
8. Cost to ratepayers
9. Timeframe
10. Te Ngākau Civic Square connections
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

A central location is important, but if an alternative to Civic Square could get started earlier, don't think it's as important now the Council has moved.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Was great to have parking under the central library.

Q16. Where do you currently live?

not answered

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Female

James

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Make the convention centre a library.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Relocate the Central Library to the Convention and Exhibition Centre

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Remove the building entirely and create garden landscaping and learning spaces for families, and small events.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Accessibility
4. Future-proofing the library service
5. Climate change
6. Te Ngakau Civic Square connections
7. Cost to ratepayers
8. Sustainability
9. Opportunities for partnership
10. Timeframe
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

I think we need to think smarter as a city and look at what value it brings to rate payers.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Don't know

More windows to help connect the library visually to the square and surrounding streets

Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Increase the size of the Precinct and move the library to the convention centre

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Less than once a year

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Very good modern environments, softer surfaces to improve acoustic performance.

Q16. Where do you currently live? Newlands

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Male

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Better access for disabled users- visual connections through to waterfront and Te Ngakau through building- encourage passing through as well as stopping in to use.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It is crucial that we retain this vital piece of wellington architectural history- additions and alterations should be an extension of the principles Ath first applied when he shook up how we think of what a public library can deliver. He talked extensively of European piazzas, and how public space created around the building was as important as the building and it's contents. This is not just a functioning library, it is a civic space, and for many the passageway to our connection through the city to the harbour beyond. It's a focal point for visitors, and we should be looking at kicking council chambers somewhere new, and keeping this place for library , art , performance and learning. Bring the exciting partnerships not only to the library, but to multiple, smaller varied use spaces in the old civic chambers. Let's populate Te Ngakau with vibrancy once more. .

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building resilient 2. Te Ngakau Civic Square connections 3. Accessibility 4. Sustainability 5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Get rid of the council chambers and put vibrant business and learning spaces in place of them. The council chambers are in a faceless horrific building with no scale that relates to pedestrians or users of the square. Break down the facade and provide access through to the square. Move council chambers to another site(s) Lambton Quay, the Terrace, or Tory street

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A welcoming community space, integrated with the CAB and with spaces for other organisations to have pop-up counters or permanent space. Wellington City Libraries were an absolute LIFESAVER when I had small children; having capacity for existing programmes is key. I'd love to see "life skills" classes taught at the library. "The role of modern libraries" section of the consultation statement was excellent - we need all these things!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q1. Your name? Tam Webster

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Challenges for future Libraries must be around function as they transition from print to digital, especially online delivery. However, as well as providing dedicated processes for archiving and retrieving information, their function as physical meeting points around information and knowledge are understated. As a free service this goes further to democratize knowledge. I think this philosophy could be extended so as to adapt to future challenges. There is potential to consider increasing inclusiveness for homeless people and facilitating existing support services to be even more effective. Other possibilities could include curated gallery space in addition to bookable spaces so as to provide additional community peer reviewed exhibition space.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

While Option C is an expensive option, it's impossible to evaluate Options D without more consultation and there is heritage value in the existing building. I don't consider Option E as ideal because the current site is seems ideal.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Accessibility
4. Heritage
5. Making the building resilient
6. Te Ngakau Civic Square connections
7. Opportunities for partnership
8. Cost to ratepayers
9. Climate change
10. Sustainability
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Don't know

More windows to help connect the library visually to the square and surrounding streets Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I agree with the above.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Male

2. Accessibility
3. Future-proofing the library service
4. Opportunities for partnership
5. Climate change
6. Sustainability
7. Timeframe
8. Cost to ratepayers
9. Te Ngakau Civic Square connections
10. Heritage
11. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Miramar

Q17. Which of the following ages groups do you belong to?

Under 18

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Jule Einhorn

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library was already functioning as community hub for Wellingtonians, visitors and for people of all ages and from all walks of life. The city needs this as an essential community feature. A resilient library structure will re-establish the premises as part of a vibrant city heart and 'plaza' that was a part of the city's cultural centre. Libraries environments should reflect ever changing uses of library lending, technology, networking, meetings, for all the arts for children and adults, for all the diverse cultures that make up our New Zealand society. The current design forms part of a vibrant whole that makes up the precinct designed and realised with old and new buildings to form the Civic Centre - an architectural masterpiece in landscape and townscape design by Ian Athfield. We must maintain this in our architectural heritage.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Heritage 2. Making the building resilient 3. Making the building safe 4. Future-proofing the library service 5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Continue to enhance the precinct to provide connections to the buildings and to allow for open air visual and performing arts, networking, resting, food and coffee sales etc

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? the service is very good, the selection is however limited at Manners St. - because of the size of the premises which I understand.

Q16. Where do you currently live? Khandallah

Q17. Which of the following ages groups do you belong to? 75 to 79

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* MaryAnne Liddington

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Must have all existing library sections, with children's library, also cafe. Be really good to have a little (12-20 seat) theatre for art films, documentaries. Craft rooms for the community to use with tutors (partner with Wellington College night classes).

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

New building should include at least reference to existing building, integrated into design - should have a similar feel. Athfield wasn't precious about re-purposing and evolving his own work, we should respect his ethos by evolving the library too instead of trying to preserve it.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Timeframe
3. Cost to ratepayers
4. Making the building resilient
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Good availability of staff to help find books (smaller floor area = more librarians to the square metre). Council info desk in Arapaki is misleadingly situated - looks like part of the library. Better if it was moved to the east wall.

Q16. Where do you currently live? Miramar

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

[redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- It was the living room of Wellington, and can be that again -- but improved. More spaces for public use, various purposes. Keep the open plan and look to some spaces in Europe for beautiful, light, human designs. All books should be very readily accessible as they are the backbone of civilisation.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- The aesthetic design has always been beautiful and distinctive, and we should keep the Athfield sensibility by using this option. The building should be robust so that we don't have to keep doing this over and over.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building resilient
  2. Future-proofing the library service
  3. Making the building safe
  4. Heritage
  5. Accessibility
  6. Te Ngakau Civic Square connections
  7. Climate change
  8. Cost to ratepayers
  9. Opportunities for partnership
  10. Sustainability
  11. Timeframe
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- It is the heart of Wellington. It feels very sad and broken right now. We can't have a vibrant and forward looking city with nowhere to "be". We need this space desperately.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like nothing about this branch. It is small and depressing and has hardly anything of interest. I realise it may be the best space available currently but it's terrible. If there is a bigger and nicer space ANYWHERE in the central city please use it!!

Q16. Where do you currently live? Southgate

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Kiwis from Refugee Backgrounds, have every right in the world to flourish here in Wellington, Aotearoa, in every context. With a population that will continue to become increasingly diverse over the next 10 - 50 years the reimagining of the Central Library is an opportunity for bold leadership with vision and intention. Our refugee background communities talk about: • The importance of belonging in the Central Library – feeling welcome and included and connected • Resourcing being the key – our community members want the Central Library to be a place where they feel they have every right to be – they can see themselves in it - members of their own communities work there; the languages represented reflect the mother tongues of their communities; the resources that are available reflect the many identities of our different cultures • Working in partnership with communities to increase accessibility and availability • participating and contributing and learning Newtown Library provides a great model for our communities – it is welcoming, is about connection and is an excuse to go and meet people from many different communities What are the key components of a reimagined Wellington Central Library? • It creates opportunities for Equitable Access to Life - Long Learning • a trusted hub • it's a place that nurtures new thinking and new relationships • it's about People, Place and Platforms coming together as a Knowledge Institution • A library inspires learning and grows social capital as well as strengthening the human capital of community However, the first step for the community members of ChangeMakers is feeling welcome, valued and respected. It is vital that the kaupapa of the Central Library is a welcoming place for everyone from the time they walk in the door.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Future-proofing the library service
3. Opportunities for partnership
4. Making the building resilient
5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

A welcoming kaupapa for everyone in the city

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.     Appealing

More windows to help connect the library visually to the square and surrounding streets     Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Miramar

Q17. Which of the following ages groups do you belong to?

65 to 69

Q1. Your name\* Ronel

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Modern, forward looking building meeting the needs of the future peoples. Physical spaces for cultural events, open and protected outdoor spaces. With the weather we have it would be good if the open outdoor spaces can become protected as part of the facilities setup (retracting roof option) Accessible to any person (disable and abled).

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It would be worth waiting longer for something that is better fitting the city's need. Rather than rush it. If we are making extensive changes to this building, build one that is worth of becoming a heritage site in the future.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building safe
3. Making the building resilient
4. Accessibility
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

This is a safe place to work and study in a public space, this is also a space to allow those who don't have sufficient spaces at home (or work) to get things done.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Tawa

Q17. Which of the following ages groups do you belong to?

45 to 49

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I would like a central modern fit for purpose facility.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Te Ngakau Civic Square connections
3. Making the building resilient
4. Timeframe
5. Cost to ratepayers
6. Opportunities for partnership
7. Other (please specify)
8. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

1) Too much weight is given to the availability of Library services after a 'Significant' earthquake. 2) Option 3 project risk of a 'significant' quake damaging existing building in remedial works even further..with \$\$ blowout.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

more community activities n focus.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I would like to have more light.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 65 to 69

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A great community space with different zones for different uses. Libraries aren't (and shouldn't be) quiet places anymore, but there should be quiet areas for study and reading etc. Really important to have spaces for community to enjoy and host a variety of events. Partnerships also very important - allow other community organisations some visibility they might not have otherwise had.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Spaces for collaboration, meetings, book launches, research, kids story times and poetry readings.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A new build of some kind would deliver a cost-effective solution, purpose designed for the future.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Climate change
4. Cost to ratepayers
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

A library is more about what the building can do for the community than the building itself. A safe, accessible, future-focused space is far more important to me than any perceived heritage value. A new build would meet those needs better.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
Kids spaces, computers and printers to use, and having the cafe at Te Awe library is excellent.

Q16. Where do you currently live? Paparangi

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Te Ngākau needs to be an inviting fully accessible place. This means taking into account Wellington's weather and ensuring adequate rain shelter and mitigating against wind tunnels
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Mount Victoria

Q17. Which of the following ages groups do you belong to?

35 to 39

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Timeframe
3. Future-proofing the library service
4. Te Ngākau Civic Square connections
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

The Arapaki library is not particularly child-friendly, and the location of Te Awe (in the business district) is just not appealing with kids - it's too far away from any other appealing public spaces.

**Q16. Where do you currently live?** Berhampore

**Q17. Which of the following ages groups do you belong to?** 35 to 39

**Q18. Please choose the gender that best identifies you** Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Current building does not make good use of internal space, high ceilings etc.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Timeframe
4. Other (please specify)
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? Make it modern, like the Johnsonville one

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Make it modern, more places for meeting, coffee, food

Q16. Where do you currently live?

Crofton Downs

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Male

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Multi-use educational centre - need to think about future functions of libraries

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Incorporate the Athfield Palm features into the design

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Timeframe
3. Future-proofing the library service
4. Sustainability
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?

n/a It goes without saying that a new build would be state of the art, resilient and safe. Hence not included in my rating of reasons to choose new build!

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Wellington was a leading destination city in NZ 30 years ago. However other cities are overtaking us quickly. Wellington needs to progress with the modern times. As an architect that has worked around the world, and in cities around NZ, and recently visited the CHCH library and other library/community centres around the world, I see a massive opportunity in retaining the site for the library but designing and building a modern day library that connects the city centre with civic square and through to the waterfront. This should be a place for all community members to go to, essentially a modern day community hub. This will attract people to the city centre and bring tourists to the city. We have missed our opportunities in the past such as Te Papa, and the lack of progressive development in the city in the last 20 years. Once you have visited the CHCH library and others around the world, there is no question about what to do. As an architect, and long time Wellingtonian, the existing building was ok in its time, however I don't believe this is worth saving for the sake of saving. I think save the iconic trees and integrate them as a sculptural item within the new building. The civic square has the potential to be the heart of Wellington again, however it needs a heartbeat and a reason for the public to come to. This will benefit both the civic square but also the surrounding local business and particularly if the surrounding streets are going to be pedestrianized. If done right this new library can also be used as a community center, place for business meetings and a multi functional space for events that open out to the civic square, for graduations, light shows etc

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D - New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

As an architect, and long time Wellingtonian, the existing building was ok in its time, however I don't believe this is worth saving for the sake of saving. I think save the iconic trees and integrate them as a sculptural item within the new building.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Te Ngakau Civic Square connections
2. Opportunities for partnership
3. Making the building resilient
4. Timeframe
5. Making the building safe
6. Climate change
7. Future-proofing the library service
8. Accessibility
9. Heritage
10. Sustainability
11. Other (please specify)
12. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? I think what's missing here is the intangible items that a new building will bring such as a feeling of progression, the opportunities a modern new build will bring.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The was a thriving space 20 years ago, but now it has been left behind through the lack of transparency and connection to the square through the library - many examples on how this is done better around the world. If done right in a new and open way this will create the civic square as a thriving place once again. Having recently lived in Auckland, much feedback around wellington is that it no longer is the place it was 15 years ago due to lack of progression and moving with the times. This is our opportunity with a new build to not only effect the opportunity with the library but the central city, civic square etc as a whole.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply      I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?      Thorndon

Q17. Which of the following ages groups do you belong to?      35 to 39

Q18. Please choose the gender that best identifies you      Male

Q1. Your name\*

Areti

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Supportive, cultural heart of the city, accessible to all. The quality of our central library - the physical space, location, accessibility, the library service, and the range and availability of books and other library products - was one of the great things about our city. When we had a central library I visited weekly to fortnightly - whether it was to use the space or the library services. The library provided a democratic central space, available to all - the generous size of the library, the types of spaces/seating/desks available, the absence of fees to access, and availability of basics such as power, wifi, bathrooms, water were all key to this. The library should serve the greatest range of people possible - the children's area was excellent, reference/general/fiction/non-fiction/poetry/central stack, the inclusion of cafe space/ space where people can gather and be a bit noisier. The library had a feeling of truly belonging to Wellingtonians and existing to support them.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

As a Wellingtonian I have used the central library since I was a child. While I am very attached to its current form, I trust that Wellington's architects are capable of doing justice to the legacy of our central library, while capitalising on the opportunity to provide a truly resilient building and spaces for all the services valued by the city, for the same or less cost compared to strengthening the current.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Te Ngakau Civic Square connections
3. Making the building resilient
4. Cost to ratepayers
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Interim pop up branches are fine, but are not a replacement for a central library.

Q16. Where do you currently live?

Northland

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Female

This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Heritage preservation should not be a barrier to building a resilient and functional library which can be used and enjoyed by current and future Wellingtonians

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Cost to ratepayers
5. Accessibility
6. Te Ngakau Civic Square connections
7. Opportunities for partnership
8. Heritage
9. Sustainability
10. Climate change
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Sustainability
3. Timeframe
4. Opportunities for partnership
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

No

Q16. Where do you currently live? Woodridge

Q17. Which of the following ages groups do you belong to? 19 to 24

Q18. Please choose the gender that best identifies you Female

[Redacted]

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It's impossible to know what our city will be like in 50 years time, or what libraries will look like -- technological change will likely see us moving away from physical books in some capacity. I think it the library space to be a place that people can come to sit, read, congregate, learn, grow. The design needs to be adaptable, as it's likely the needs of the community will change significantly in the next 50 years -- programmes and partnerships and community needs will not be the same now as they are in 10, 20, 50 years. Any design should be accessible and for everyone -- we all benefit when spaces are designed for accessibility.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building resilient 2. Accessibility 3. Other (please specify) 4. Future-proofing the library service 5. Heritage 6. Making the building safe 7. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? Climate change and sustainability (together)

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Bigger spaces for people to be able to study, relax, read, perhaps even enjoy more sunshine. I would love to see the library more connected to Civic Square, with plenty of room for people to hang out.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

There's no places to really relax publically. The library was such a great place to read and hang out in the quiet.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Sustainability
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Nobody wants to see the Central Library demolished but the costs specified (preferred Option \$200M) simply can't be justified. So: Do we still need a Central Library? People increasingly obtain information on line? My kids have only ever used it as a convenient place to study. Indeed, many of the arguments in support talk of retaining a community hub. There are much cheaper ways to achieve this. People wanting books still have access to community libraries.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Relocating to the Convention and Exhibition Centre seems sensible - and should cost <10% of the Library repair. Like I said, do we really need a Central Library? Its significant that you don't include this in your list of options. Will future generations thank us for the debt we have incurred on their behalf? What is the opportunity cost of the \$200M WCC is keen to spend?

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision?

Cost - its just way too expensive

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

As stated, a multi-story apartment block with the Library on the first 2 levels.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Crofton Downs

Q17. Which of the following ages groups do you belong to?

Prefer not to say

Q18. Please choose the gender that best identifies you

Prefer not to say

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Existing services but some better community meeting rooms Lavatories on ground floor Cafe which opens to sunny outside area Civic square should become a place for meeting, having lunch etc. Current space configuration not ideal.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe
3. Making the building resilient
4. Future-proofing the library service
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

The Library is the heart of the community so need to get going quickly. She be the heart of civic facilities and a place to meet, in cafe, sit in sun and chat etc

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Civic precinct should be the heart of the civic community. Offices, Council Chambers, Library etc should all be there and public loos on ground floor

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Oriental Bay

Q17. Which of the following ages groups do you belong to?

70 to 74

Q2. Your email or postal address

Q3. You are making this submission: Information Studies Programme Team, Victoria University of Wellington

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

We support option D – a new build on the same site. While the preferred option (C – high level remediation) proposes a substantial remodelling and refurbishment of the interior and exterior of the existing library, and is our second preferred option, there is a possibility that this will not meet the future needs of users and the city. We have a concern that the Council is not planning for the predicted future growth of Wellington city. None of the options make provision for room for growth; all (except for option E which is our least preferred option) are on the same footprint as the existing central library and it is not clear how this will accommodate the predicted increase in Wellington's population. Keeping the existing shell especially limits the degree of creativity for the use of space and its flexibility to meet future and changing needs. The original central library building was opened in 1991 and ideas about the role a library can play in the life of the city and community have moved on substantially, as has the use people make of libraries. Libraries need to be increasingly flexible to incorporate opportunities for collaboration, small group work and quiet space with substantial access to supporting technology. Importantly, libraries have shifted from a transactional to programmatic, experiential model of provision. There is now less focus on the physical book collection (although this remains a significant draw for many) and more on the programmes, facilities and assistance offered. Technology has been a major disruptor of library services, as for most industries and sectors, and libraries have evolved to make spaces for the whole community and the different uses people make of their services now. It is also essential to develop digital services further, and let the digital services be clearly reflected in the physical library, creating intelligent library spaces. This would be more straightforward in a new central library than in the redesigned and refurbished existing library space. Public libraries are community spaces where people come together to share and discuss ideas. They are one of the few public spaces available to all, and support social connections, leisure activities, problem solving, and education. This means that the physical library space is assuming a more important role as people turn to the library to continue their learning, develop their skills and make social contact in an increasingly fragmented society, highlighting the dialogic potential and nature of the modern public library. This must be accommodated and prioritised in any new library space as should access and inclusion. Central libraries play an essential role in this respect as they are often easier to reach on public transport than suburban or community libraries and provide inclusive and accessible services in one location, reducing barriers for both community members and library staff. A new central library has the potential to play a significant role in Wellington's urban identity. Cultural institutions have always been part of the construction of an attractive and vibrant city and successful central public libraries are iconic buildings that act as placemakers, supporting civic and community innovation and creativity. Studies have demonstrated that exciting central library spaces support cultural tourism as well as drawing local people into the city centre and, for Wellington, a new central library will be an essential part of a revitalized civic square. Research into Return on Investment (ROI) of new library buildings invariably report a positive return, usually somewhere between 400 – 600 per cent, from both direct and indirect stimulation of economic activity in the local area. A new central library building (option D) is not the most expensive option and while it does have the longest time scale, it is not significantly longer than preferred option C while having several advantages in terms of future-proofing. The existing building is collection-oriented rather than dialogue-based and responsive to people's needs. The development of blended space where people can move seamlessly between the physical and digital would be far easier to achieve in a new rather than refurbished space which has issues (e.g. with the roof) that may continue to impact on its usability and flexibility. In addition, a new building is likely to be more heat and light efficient, saving funds in the long term. The city has the opportunity to take a lead in constructing a cutting-edge "green building" including more efficient use of energy, water and other resources as well incorporating renewable energy, such as solar power, green roofs etc. Retrofitted buildings are often not as strong as new buildings in the event of a disaster and new builds also have the advantage of being able to incorporate the latest knowledge, conditions and technology for the preservation of valuable collections, making the building, its collections and services sustainable. The central library should support Wellington city's identity, functionality, flexibility, sustainability, diversity, public space and serendipity. We suggest that this would be easier to achieve in a new building, rather than through remediation of the current building. While we appreciate the desire to protect a recognised and much-loved building within Wellington, the extent of the proposed remediations in the Council's preferred option would remove much of the architect's original vision for the building as a whole. A new build presents the city with the opportunity to design a very special building that is green, inclusive, flexible to changing needs and one that captures the essence of Wellington as the capital city of Aotearoa New Zealand.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. Q1. Your name\* harold courts

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It needs to have physical spaces where people can spend time, services for the community to enjoy, and a similar warm atmosphere that the last central library had before it unfortunately had to close

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It is SO important to have a central library, especially in a city of this size. I could not tell you the countless hours I spent at the last central library before it was unfortunately closed. It is a space that is sorely missed. Wellington needs its library back

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Sustainability
5. Future-proofing the library service
6. Climate change
7. Cost to ratepayers
8. Heritage
9. Opportunities for partnership
10. Te Ngākau Civic Square connections
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like that they're there and they provide the service I need

Q16. Where do you currently live?

Mount Cook

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Gender diverse/gender non-binary

Q1. Your name\*

A Ballance

Q2. Your email or postal address

[redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Open warm welcoming place, with a variety of quiet spaces for people to sit / read / work, as well as meeting spaces of different sizes. Flexible so it can change and adapt. A building that flows well out to Civic Square and also towards Victoria Street and town. The ramp that flows down the north side is a well-used thoroughfare. Keep/add iconic features such as the nikau palms. Green sustainable low-energy use build.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I don't actually mind option C or D, but I'm not really sure from the discussion document why - apart from timeframe - the most expensive option is the preferred one. I was a frequent user of the existing space and think it has a great feel, so perhaps keeping it is the most sensible option. But I think option D also has merit and there is no reason why a new build couldn't be made to blend with and enhance the Civic precinct, and it would enable a very seismically strong, very sustainable / low energy building to be built., hopefully reusing components such as the nikau palms.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Accessibility
4. Sustainability
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The precinct has to balance 2 roles: a thoroughfare that people can move through easily between city and waterfront, also a gathering and meeting place. I think more seats would help with casual meetings.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you belong to? 55 to 59

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Favour the concept of a 'partnership space' - a place for WCC to engage with the citizens of Wellington. An idea many years back of converting the room on the mezzanine floor to an 'engagement space' was lost when WCC took over the space for internals meetings. A

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We need to get it up and running asap at the lowest cost option

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Opportunities for partnership  
3. Making the building resilient  
4. Te Ngakau Civic Square connections  
5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? Revitalisation of Civic Square and surrounding area critical to the city

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Should be seen as Wellington Town Square for events, celebrations, protests etc

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Still prefer the central model

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you 70 to 74  
belong to?

Q18. Please choose the gender that best identifies Male  
you

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Wellington Central Library needs a new building and definitely needs to be strengthened to the maximum earthquake amount. The present Central Library is not fit for purpose. Keep the Nikau sculptures but give Wellington a new sustainable building with green walls, roof, solar power, water capture and so much more.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
2. Accessibility
3. Making the building resilient
4. Future-proofing the library service
5. Sustainability
6. Climate change
7. Opportunities for partnership
8. Te Ngakau Civic Square connections
9. Timeframe
10. Cost to ratepayers
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

At the moment the present building design cuts off Te Ngakau Civic Precinct. A new building is required that makes an open connection. Te Ngakau Civic Precinct should have a main entrance to the library. Victoria Street should have shops and cafe's with many entrances including one into the library.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are small and have a rapid turn over of books. But they don't allow browsing of a large number of books. Many books are missing from the old collection.

Q16. Where do you currently live? Lyall Bay

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Male

Q1. Your name\*

Brent Anderson

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Multi purpose, fit for purpose functional attractive amenity

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It primary function would be to add value to increased literacy programmes across the broader Wellington community.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Timeframe
3. Cost to ratepayers
4. Opportunities for partnership
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?

Of course it will be resilient and safe - dumb options

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Utterly imaginary and fanciful. The Town hall has been closed for years and the whole square is derelict. The state of Civic Square is a WCC disgrace.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Yes improve the attitude of the officious people who staff the locations.

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you 50 to 54  
belong to?

Q18. Please choose the gender that best identifies Male  
you

Respondent No: 1055

Q1. Your name\* Charlotte Page

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library needs to provide the same services it did before - obviously. I would like to see more of a focus on providing computer and internet access to the community. I would like to see more support on offer for vulnerable people such as those who are homeless, migrants, refugees, those living in poverty, and the disabled.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Accessibility 2. Making the building safe 3. Making the building resilient 4. Future-proofing the library service 5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Retaining the site and central location is necessary to make the services available and accessible to all. The surrounding facilities and services (ISITE, WCC, NZ Police etc) are integral to the library.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The buildings they are located in means there is not much room for changes to be made.

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you 25 to 29  
belong to?

Q18. Please choose the gender that best identifies Female  
you

Q1. Your name\* Daniel Clendon

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should be updated to be a modern library with flexible spaces, cafe's, areas to study and relax, areas to access books and technology, workshops for kids learning. Social areas are important.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It is a wonderful iconic building, and a huge asset to Wellington. I think by far the best option is to retain and improve the existing building.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Te Ngakau Civic Square connections
3. Cost to ratepayers
4. Making the building resilient
5. Making the building safe
6. Heritage
7. Opportunities for partnership
8. Climate change
9. Sustainability
10. Future-proofing the library service
11. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The civic square is one of the best public spaces in Wellington, and should be retained and enhanced with more cafes etc around the perimeter.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I have been using the Brooklyn library, which is good, but would be great if it could be increased in size.

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Jeff Flavell

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A way to access published documents in the collection. A series of collaboration/meeting spaces for the City and residents to connect, or for community groups to meet, research and study or reading space for people. Place to do Council business (pay/lodge papers etc)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I love the palm trees and liked the way they had views to the harbour, a cafe and some meeting facilities. Also loved the legal/civic advice volunteer office when it was located there

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Sustainability
3. Future-proofing the library service
4. Accessibility
5. Opportunities for partnership
6. Cost to ratepayers
7. Making the building safe
8. Timeframe
9. Heritage
10. Making the building resilient
11. Te Ngakau Civic Square connections
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? Te Ngakau Civic Square is going to be vulnerable to rising sea level, and I do not support long-term investment at that site for a new build, and consider it is a chance to relocate Council to a more resilient location - to create a new Civic Square.

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

I do not see it having a 50 yr future - I support Council reorientation to a new site with greater resilience from c-level rise/flooding. I love what it has been, and the connection to the waterfront, but totally consider it time to move. Council Services, staff, library, Open space/square.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Once or twice a year

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

The service centre and library combo at Manners. The friendly security personnel and library/service centre staff - very helpful and welcoming. Multiple locations - there is one close to my bus stop and one close to work.

**Q16. Where do you currently live?** Ngaio

**Q17. Which of the following ages groups do you belong to?** 55 to 59

**Q18. Please choose the gender that best identifies you** Male

Q1. Your name\* Patrick Geddes

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I agree that a Central Library is an essential public service for the city and the wider community. I think the issues have been suitably framed and evaluated in the consultation document.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I really like the concept designs done by Athfield Architects. I think this would be a huge improvement on the current library arrangement and together with the redeveloped Town Hall/NZSM and CityGallery has the capacity to really engage with the Civic Square and make it a much more vibrant space that all Wellingtonians could be proud of.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Climate change
3. Future-proofing the library service
4. Cost to ratepayers
5. Accessibility
6. Te Ngakau Civic Square connections
7. Opportunities for partnership
8. Making the building resilient
9. Timeframe
10. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

With the redeveloped Town Hall/NZSM, City Gallery and library, and potential return of Council administration, Te Ngakau has the potential to once again become 'the' place where people and civic ideas meet. It has taken a hit recently with the earthquakes and various delayed construction projects making it a less than effective congregation point (I've also felt that it was sad that CapitalE had to vacate Civic Square - I still feel that having a youth voice at Civic Square is important)

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I think they have been a really effective and necessary interim measure, but I don't think they are in any way a suitable replacement for the Central Library

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Male

- Q1. Your name\* Ben Hewitt
- Q2. Your email or postal address  
[redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Hurry up.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Timeframe
  2. Cost to ratepayers
  3. Making the building safe
  4. Making the building resilient
  5. Future-proofing the library service
  6. Sustainability
  7. Accessibility
  8. Other (please specify)
  9. Climate change
  10. Te Ngakau Civic Square connections
  11. Opportunities for partnership
  12. Heritage
- Q10. If you selected 'other' above, what other factor was important in your decision?  
Timeframe. Stop wasting time.
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
More windows to help connect the library visually to the square and surrounding streets  
Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Wadestown

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Male

This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building resilient 2. Accessibility 3. Opportunities for partnership 4. Climate change 5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The central civic precinct can be very windy and needs more sheltered spots for small and large gatherings. The connection to the harbour is good as are the connections to main transport arteries but the connection to Council chambers is not so important. However a citizens connection to a well planned, modern library offering a wide range of activities and services both commercial and civic including space for democratic demonstrations is vital.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Clare Bush

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The existing library has proved itself to be a well functioning building which should be left largely as is. There is plenty of flexibility within the existing layout to accommodate changing uses. A more important issue for the future is acknowledging that resources are scarce and we should not be considering rebuilding an existing, well loved, architecturally significant building.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I understand that structurally it would be very easy to fix the library quickly and cost effectively. Wellington rate payers do not want to be burdened with the unnecessary additional costs of strengthening or developing the building beyond what is needed. And Wellington needs its library ASAP. The city is already struggling with the loss of the Town hall and the St. James, it shouldn't have to wait until 2025 to get its library back.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Timeframe
3. Heritage
4. Sustainability
5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

not answered

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I don't. They are a poor substitute for the Civic Centre.

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you Prefer not to say  
belong to?

Q18. Please choose the gender that best identifies Female  
you

Q1. Your name\* Nick Cottrell

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Areas for Community group gatherings. Areas to rent for meetings. Also quiet areas for study - pods are good.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I was somewhat concerned that option E suggests leasing the building. Surely if it is unfit for public use then passing the risk onto a tenant looks irresponsible. I'm also not in favour of an option that creates excessive demolition waste. This is counter to Wellington's waste minimisation priorities which must be an important consideration. While initially I favoured option A to get this done, I feel it's worth doing properly to protect against any future risk. If only this had been considered when it was built not too long ago. C'est la vie. I have spent many a time enjoying the library - I'm glad to see consideration given to flow and connection with the square which are not ideal presently.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Climate change 3. Sustainability 4. Making the building safe 5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Nice open space. Would be nice to see the water features that are never on actually working. Glowing water brings a lovely calming ambience. Maybe learn from Japanese gardens. I'm a fan of the city to sea bridge. Consider the 'journey' from Victoria St to Frank Kitts and how that can be shaped/influenced.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

For me it's not just about borrowing books. It used to be about enjoying a calming and positive ambience to help break away from work during the day. This is not achieved through interim measures.

Q16. Where do you currently live?  
Outside Wellington City

Q17. Which of the following ages groups do you belong to?  
40 to 44

Q18. Please choose the gender that best identifies you  
Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

In conjunction with a 'new' building on the current site, I believe the foot print could be less, and access to a more 'virtual' library with pick up points throughout the city or a mail out/in option. This would reduce vehicles on the road and give better access to the elderly, sick and disabled.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

In conjunction with a 'new' building on the current site, I believe the foot print could be less, and access to a more 'virtual' library with pick up points throughout the city or a mail out/in option. This would reduce vehicles on the road and give better access to the elderly, sick and disabled.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building resilient 2. Cost to ratepayers 3. Future-proofing the library service 4. Making the building safe 5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The precinct is a valuable asset, but the current library and adjacent offices obscure the view of and access to the waterfront.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like these a lot and in some ways these work better than the central library as they are easily accessible

Q16. Where do you currently live? Kelburn

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

An example of how to shift public investment into building a sustainable, democratic, and exemplary urban place to host knowledge discovery and exchange (beyond the concept of a library). Don't think just about a building, the opportunity is bigger than that. Think a place of Identity for Wellingtonians, think climate change, think local economy, think financial sustainability, think urban streetscape, think human interactions.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I need to be thought of as an opportunity to help reshape how we discover and exchange knowledge, a place that looks out to the city, to the water, to the streets, to each other as Wellingtonians, a place for identity and outlook.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Sustainability
3. Cost to ratepayers
4. Te Ngakau Civic Square connections
5. Future-proofing the library service
6. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The new building should be built around the idea of connecting the square to the surrounding streets and making it a liveable place, with commerce, public offices, and places for contemplation.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

spacious

Q16. Where do you currently live?

Karori

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Library should principally house - in a way the public can view - books - other texts. Any other functions are ancillary to this primary objective.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

There are innumerable spaces accessible to the public to meet/ drink coffee / arrange a kids playdate. The Library should be a library first and foremost, meaning The holdings are available to view & borrow

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Timeframe 2. Cost to ratepayers 3. Heritage 4. Making the building safe 5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Be repaired and open to use - it is a dead heart of our city. Apart from the gallery all is shuttered or in doubt. This is unacceptable, as is further delay for remediation.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They're fine as small off-shoots - but have tiny collections so are not remotely a substitute for the Central Library. Annoying noise from lego playtime more texts should be available.

Q16. Where do you currently live? Kelburn

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Female

IP Address:

Q1. Your name\* Kearin

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Multi-use learning spaces, access to digital learning, services to support remote use and the ways changing technology is changing access

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The new library needs to be future-proofed in a multitude of ways with a clear vision of a more densely populated CBD and the changing impacts of climate and technology. Being able to realise this (and other forward looking measures currently considered in council) is restricted by an obsession with heritage (in this case for a building barely older than me) over the needs of the community. Homage could be paid to the original structure in the new design - for example the striking and recognisable palms could be reflected in design choices.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Making the building safe 3. Accessibility 4. Sustainability 5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
They're doing the best they can in small spaces to meet the needs of the community

Q16. Where do you currently live? Kelburn

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

Respondent No: 1077

Q1. Your name\* John McCash

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The new Johnsonville Library, not to mention the new Christchurch Central Library, show what can be done when starting with a clean slate. I am at a loss to understand why a new building is not the preferred option.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The Library is not a Library, not a multi purpose swiss knife. Trying to do too much is likely to lead to nothing being done successfully!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe
3. Making the building resilient
4. Accessibility
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Stock very limited. I seldom go, preferring the Branch Libraries because of proximity.

Q16. Where do you currently live? Tawa

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Male

Respondent No: 1078

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I hope the building will be as innovative as Christchurch's new one

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

This is a good centrally located space

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Not good. Too small

Q16. Where do you currently live?

Khandallah

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Johnsonville storage facility should be kept as a backup in case of Civic square flooding. Should be built in a flexible way to allow for changes in use due to unforeseen future societal developments.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Would really prefer more time was taken to plan for the longer term, else your new building work in Civic Square could be under water by 2100.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Future-proofing the library service
3. Making the building safe
4. Cost to ratepayers
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Should still have a big open space for gatherings, etc. Perhaps could have a roof covering the open space.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Would like access to the main holdings.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 70 to 74

[Redacted email or postal address]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should maintain and build upon its existing function as Wellington's living room. The diversity of visitors and their reasons for coming are one of the building's most valuable assets. So building on what's there already, while allowing space for innovation. The current building should also should be recognised for its immense architectural value and contribution to the city's culture and identity.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I'm not sure if there's a space for this later the survey, but I need to declare that I am an employee of Heritage New Zealand Pouhere Taonga and the author of a proposal report to add Wellington Central Library to the New Zealand Heritage List/Rārangi Kōrero. I am making this submission on a personal basis and it should in no way be taken to represent my workplace. Kia ora.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building resilient
2. Heritage
3. Making the building safe
4. Accessibility
5. Future-proofing the library service
6. Sustainability
7. Climate change
8. Te Ngakau Civic Square connections
9. Timeframe
10. Cost to ratepayers
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It was designed to be and should be the city's leading public space. The impact that seismic concerns have had on the space has been immense and detrimental to this function, though they may be justified.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

That they exist! Arapaki Manners feels very small and is sometimes uncomfortably full, but I have appreciated its presence.

Q16. Where do you currently live?

Berhampore

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Q1. Your name\* Eamonn Marra

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

non commercial meeting space, lots of desk space mixed of quiet study space and communal space, event space (like the events at Verb Festival, but more often), fast reliable internet

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It should be a priority to do this quickly. The city has already been too long without a central library, the alternatives are okay but they are not available to sit and work from which means there is no place in the cbd where you can stay for hours without the pressure to spend money.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Making the building safe
3. Accessibility
4. Future-proofing the library service
5. Climate change
6. Sustainability
7. Making the building resilient
8. Opportunities for partnership
9. Heritage
10. Te Ngakau Civic Square connections
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It does not fulfil these functions at all any more as it is not accessible from many options and most of the surrounding buildings are closed. It could be more vibrant with more events, maybe a rotating food truck or something. Evening concerts, similar to the botanic gardens, and more space for actual community engagement with our counsellors

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

More desk space to work from

Q16. Where do you currently live? Berhampore

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Male

Respondent No: 1086

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Sustainability
3. Making the building safe
4. Making the building resilient
5. Accessibility
6. Future-proofing the library service
7. Opportunities for partnership
8. Te Ngākau Civic Square connections
9. Heritage
10. Timeframe
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Arapaki Manners is closest to my home while Te Awe is closest to my work. I like the Te Awe as there is more space and book collections. Also love that there is a cafe within Te Awe.

Q16. Where do you currently live? Wellington Central

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Male

Q2. Your email or postal address

[Redacted email address]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Agree with "The role of modern libraries in cities" as outlined in the Consultation paper.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. I think WCC may be missing an opportunity to reimagine Te Ngākau Civic Precinct. The closure of Mercer Street and, previous to that, Cuba Street left the Civic Precinct looking inward and with weakened connections to the surrounding urban context. Making an investment of this scale is an opportunity to reconsider those decisions, address the vulnerability of the site and recreate a building that is more responsive to the city's future needs.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Regarding predicted population growth, what is the anticipated service life of a building of the same size as the existing Central Library? All options presented in the Statement of Proposal are based on a building of the same size as the current Central Library but it isn't clear that the building size is adequate for the city's growth. Nevertheless, the localised / devolved model is partially being discounted because it would not support the city's population growth.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Making the building resilient 3. Making the building safe 4. Future-proofing the library service 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Connections of the precinct to the surrounds and the massing of the buildings at the perimeter should be reviewed (Library, CAB, MOB) to improve on what is a series of interventions that are disjointed and out of harmony with one another and the urban context. Examples include the side entrances of Town Hall, MOB and the closure of Mercer Street. Improvements can be made to restore or introduce these connections to the centre of the precinct, reinforcing the values of accessibility, democracy and more tangibly increasing its vibrancy.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Accessible as in there is a sense that you are always near one or one is never too far away. They are also well designed and nice places to be in.

Q16. Where do you currently live? Kelburn

Q17. Which of the following ages groups do you belong to? 35 to 39

Q1. Your name\*

Beth

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Although I predominantly used the library for reading books, a library that has accessibility for all people as a space to simply exist in is ideal. Community services are good - I'd like to see the Citizens Advice Bureau moved back in when it reopens, and I like the idea of a closer link to civic square, which seems to have been thoroughly abandoned.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I'd rather have something that lasts longer for future generations, even if it means I have to wait a long time to have a useable library back.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Accessibility
4. Future-proofing the library service
5. Sustainability
6. Timeframe
7. Heritage
8. Opportunities for partnership
9. Te Ngākau Civic Square connections
10. Climate change
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It feels like Te Ngākau Civic Precinct has been shelved and abandoned with all the closed buildings and lack of accessibility in the last few years. I just want the space to be opened up and useable again.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
I wish they had more books, but there really is no replacing the central library so they're as good as they probably can be.

Q16. Where do you currently live?  
Kelburn

Q17. Which of the following ages groups do you belong to?  
19 to 24

Q18. Please choose the gender that best identifies you  
Female

Q1. Your name\* Jacqueline Kean

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should be like Tūranga, which is a beautiful, functional, modern and welcoming space.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It does not matter to me that a new build will take longer than remediation. I think it is important to take a long view, not settle for a short-term fix. This is a legacy issue for this council.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Heritage
3. Making the building safe
4. Making the building resilient
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I don't pretend to have the skills to have input on the design. But please consult with those who do, especially the Tūranga designers! It's hard to feel wedded to the Te Ngākau Civic Precinct as a site at the moment (other than the Town Hall). I don't know if there is a vision for that space. So it's not of vital importance to me that a new library is built there. The important thing to me is that we start from scratch, not try to remediate.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The reason I haven't visited an interim library is that I don't perceive there to be enough there to draw my family away from our local library. That would change if there was a Tūranga-type library in the CBD.

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The best option for Wellington City is to have a new build Central City Library. Whether this is on the existing site or a new Te Ngākau site only matters in relation to concern about the heritage status of the current building. This building could be retained and repurposed for other public/council use that doesn't have as specific requirement as a new and sustainable library does. Unfortunately the current building, though suitable at the time, was built just prior to the development of modern library service. The existing building cannot be redeveloped to be as suitable for future library use as a new building could be. Attempts to retain the current building will always fall short as it is not purpose-built for a modern, sustainable library. Historically the best way to provide an accessible library service was largely focused on providing a collection of books. In 2020 library services encompass far more than that. A library offers opportunities for learning, growing, exploring, developing, enabling people to step outside of limits placed on them and being the best they can be. The WCC should be making a decision that opens up these opportunities to as many people as possible in as many different ways as possible. Re-purposing a building that is from a different era would mean there are compromises made and some parts of our community will not benefit as easily or as fully as they could if a purpose-built library is invested in for the future of Wellington and its people. The communities that miss out the most will be the ones that have missed out historically. This is a chance to build a facility that will make Wellington's library service as vibrant, appealing, accessible and sustainable as possible - it would be a shame if the WCC chose anything less.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Accessibility
3. Future-proofing the library service
4. Te Ngakau Civic Square connections
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Although they are good temporary measures each of them cannot fully provide the essentials that a library is composed of. These things need to be available under one roof to provide maximum benefit and discoverability for people who don't know what they not able to access otherwise.

Q16. Where do you currently live?

Outside Wellington City

Q17. Which of the following ages groups do you belong to?

45 to 49

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Cost to ratepayers
6. Sustainability
7. Te Ngakau Civic Square connections
8. Climate change
9. Timeframe
10. Heritage
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The Michael Fowler Centre (MFC) design was based on the understanding that the former Town Hall would be demolished. Unjustified claims that the old Town Hall has architectural merit and outstanding acoustics derailed the MFC concept and undermined the value of the spaces around it. The Te Ngakau Civic Precinct is the most valuable civic space in Wellington.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
I'm not qualified to comment

Q16. Where do you currently live?  
Outside Wellington City

Q17. Which of the following ages groups do you belong to?  
75 to 79

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

1. I support Option C, with qualifications. Much of the Victoria St frontage of the building and the dramatic pathway along Harris St with the nikau sculptures and the rising pedestrian promenade must be retained. The sculptures and the rising pedestrian promenade form a unique architectural feature, especially so when the distant vista captures Mount Victoria western slopes and Saint Gerard's Monastery. 2. I am in complete agreement with the necessity of having the building raised on base isolators (preferably triple pendulum, as adopted for the Children's Hospital). I also accept the necessity of raising the ground floor to above projected increases in sea-level rises. Improving Modifications 3. Rather than entirely replicating the existing structure, I favour the main entrance being completely changed to face the Civic Square. 4. Another modification to animate the Civic Square would be to have a ground floor café stepped down to the floor of the Square and enclosed in sheltering glass. Rooftop Garden and Sheltered Viewing Spaces 5. The Christchurch library in Cathedral Square could be used as a model for creating rooftop sheltered viewing spaces. This would highlight the vistas looking east, capturing Saint Gerard's Monastery, the slopes of Mount Victoria, and the Rimutaka Range silhouetting the far-eastern horizon. Intergenerational Priorities 6. Books should be the core feature of the library. , encouraging chance discoveries and permanent access to classical works of philosophy and literature. Cyber facilities could be given secondary prominence, along with meeting rooms and children's playing areas. Over time, some of these secondary amenities could be located in other building throughout the inner city.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building resilient 2. Heritage 3. Accessibility 4. Making the building safe 5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

No comment

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

No comment

Q16. Where do you currently live?

Mount Victoria

Q17. Which of the following ages groups do you belong to?

75 to 79

Q18. Please choose the gender that best identifies you

Male

Respondent No: 1093

Q1. Your name\* Amelia East

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. I support demolition and rebuild as we are then creating exactly what we need at likely a lesser cost than refurb. However, I do not have enough information to comment on where the new library should be relocated. My views on this depend on 1) The broader plan for civic square 2) Whether the pop up localised model is to be continued and thus what the need for the central library should be (which may dictate preferred location) 3). Assessment of future services 4). Cost

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The pop up libraries have proved extremely popular and want to ensure we think about how library use may change over the next 30 years before we spend such a large amount of money recreating what we have. The existing building and heritage issues, for me, is not the driver. Items such as the trees can be saved. We need to prioritise cost and future needs, not maintaining the status quo.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Timeframe 3. Future-proofing the library service 4. Opportunities for partnership 5. Te Ngakau Civic Square connections 6. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are easier to pop into during the commute. Feels easier having something more informal that forms part of my day to day journey, as opposed to a large destination library that I have to make a conscious effort to visit. I also use my local library weekly for my daughter as we make it an event. 10 min bus journey is far more likely than travelling into town at over 30 mins each way. I think libraries are community hubs and my view on the CBD is that is also needs to serve that purpose

Q16. Where do you currently live? Miramar

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
The current building has no aesthetic or cultural value. I would like a new library built to the highest earthquake standards.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Timeframe  
3. Cost to ratepayers  
4. Making the building resilient  
5. Climate change
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Have a look at Spanish or South American plazas. They know how to build a public space. Our (including the Civic Square) are pointless empty spaces which don't encourage people to stay in them or use them.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Good that they are there to continue service. Their content is too small for my purposes.

Q16. Where do you currently live?

Johnsonville

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Q1. Your name\* Sally Wilkinson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We should rebuild the best library we can however does it need to be as big as the current library or should we have two CBD libraries to meet future demands.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Cost to ratepayers
3. Timeframe
4. Accessibility
5. Making the building resilient
6. Making the building safe
7. Opportunities for partnership
8. Climate change
9. Te Ngākau Civic Square connections
10. Heritage
11. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Brandon street nice layout good cafe

Q16. Where do you currently live?

Oriental Bay

Q17. Which of the following ages groups do you belong to?

45 to 49

Q18. Please choose the gender that best identifies you

Q1. Your name\* Owen Watson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It would be just great to have the library back in its present form, with perhaps more space for non-book activities

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Keep the Athfield design. Any spending should be minimal because existing water/sewerage projects should be prioritised, and rising sea levels may put the library under water in the next 30 years. And we should be skeptical of earthquake ratings as well: how do we know requirements may change in the next few decades?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Climate change 3. Sustainability 4. Timeframe 5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The lack of natural light in Te Awe is a turn-off. Otherwise they are a bit poky

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Addition of bookable workspaces, tool library, bike workshop space

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Accessibility 3. Opportunities for partnership 4. Making the building resilient 5. Future-proofing the library service 6. Sustainability 7. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Upgrading/building more recreational space in civic square - the astroturf was a great move, perhaps include features for skateboarders/scooters. The area with the rugby statue/leading to it from the main square is a little odd and could be made more conducive to recreation perhaps. Could consider building/planting to shelter from traffic noise/pollution on the quay.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Note that for question 12 I would typically use central library over once a week in person if it were open. I can appreciate the location of Arapaki, but long for open space, plenty of natural light away from traffic.

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 25 to 29

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It needs to provide traditional and expanding library services but also act as a welcoming central city space

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The library site is ideal as it is central. an imaginative building can add immensely to the nature of the city and its use by citizens. On recent visits to Stockholm and Christchurch in each place the new library was something locals were keen for us to visit. In each case the library remains one of the key features that I remember of the city. The current Wellington City library even if remediated and improved will never have the impact of these buildings and will not be loved by the citizens in the same way. Let's have a building we can be proud of!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Other (please specify)
3. Future-proofing the library service
4. Te Ngakau Civic Square connections
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision?

A building that is modern well-designed and welcoming

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

A raised space in front of the library could provide a platform for civic activities

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Thorndon

Q17. Which of the following ages groups do you belong to?

Prefer not to say

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Charlotte Frater

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library should be a space for community connections, for family playtime (eg story time, rock n time), a love of learning (books and new media, free wifi, English lessons for migrants). It should be a space where people can be safe and warm, can work and study (esp as office space lost after covid) and engage with others (needs quiet and talkative zones). Important to have public toilets, parking and accessibility for all, including families and disabled. And a reasonably priced cafe We use our local library every week and have active reserve lists. My children attend activities, and love playing with the rockets and blocks, and we find out what is going on in our community. If the central library was open we'd use it too, and my son's creche used to visit all the time

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It is important to have a strong community discs in Civic square. I'd like to keep Nikau palms but could love a new building too. I have fond memories of old library (rainbow Room etc) and still loved the new library when it was built

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Te Ngakau Civic Square connections
4. Timeframe
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The closure of the library has made it difficult to get from one side of civic square to the other with a pram or wheelchair. If build new, should be iconic brave architecture. Please bring back the fern ball sculpture!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Having free transfers has been wonderful. This service minimises browsing and touching books so has been great during covid. I loved the brightness of new spaces.

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I have really loved the hub libraries throughout the city, the Brandon Street library in particular offers a much needed space in the heart of Lambton Quay. It has highlighted the importance of the library offering a space of shelter and community in the CBD that feels accessible to everyone.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

This seems to be an important opportunity to advance a long term and bold vision for the library that accords with the needs of the Wellington community and environment.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Sustainability 3. Accessibility 4. Climate change 5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The Civic Precinct can currently feel relatively insular due to the narrow entry points - it would be fantastic to have the library feel more like an open space that connects and facilitates engagement between the precinct and it's surrounding streets.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They make the library and it's services feel infinitely more accessible. The Brandon St interim library in particular feels like a very valuable space in the CBD especially if working in that part of the city and I know many people who are really enjoying it.

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Female

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient  
2. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Manners St collection is so small that after one visit we would not bother going back. (We have used Kilbirnie Library instead.)

**Q16. Where do you currently live?**

Wellington Central

**Q17. Which of the following ages groups do you belong to?**

70 to 74

**Q18. Please choose the gender that best identifies you**

Male

Q1. Your name\* Alana Hudson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library should have the access to reading material as it's primary function (NB this is not exclusively paper based material). Other services should be ancillary (e.g. meeting rooms) as these are not core business. If the Council wants to provide community facilities these do not necessarily have to be at the Library building.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I am aware that many argue that the building has heritage value - while I admit that the pillars are unique I personally have always found them ugly and the building very difficult to navigate and strangely laid out - for example why was there a pillar in the middle of the escalators). It is an inappropriate use of ratepayers money to remediate the building on the grounds of its heritage status. Has any research been done into what specific features were seen as valued by the public? For example, if it is the pillars, then they could easily be recycled in the context of an entirely new building that could be built to code at LOWER COST. I have actually really liked the accessibility of the 'pop up' libraries in the community - for example I now have a small branch right across the road from my office, rather than a 10-15 minute walk to the central library which I often didn't have time to do. Thought should therefore be given about whether a large central library is the best option, or whether better resourcing to community libraries is better for society - we use the Johnsonville one a lot but never got to the Ngaio branch as it is so tiny to be largely pointless for our needs.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Making the building safe 3. Future-proofing the library service 4. Timeframe 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Community space is important but it doesn't have to be in the LIBRARY - perhaps more purpose built community facilities are what is required

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

nothing - I believe that these are more accessible.

Q16. Where do you currently live?

Ngaio

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* William2

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A library should primarily continue to be an information source and research facility. Other uses listed above are more suited to be provided in a community centre. Those could share the the building but should be separated to avoid conflict with the primary use.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Accessibility 3. Making the building safe 4. Cost to ratepayers 5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The description above " Civic Precinct has traditionally played an important role in Wellington" uses a short term definition of tradition. I think back to before the Civic building was built, when Mercer Street continued through to lower Cuba Street, and there were garden areas, and the old library had lawn in front. That area attracted far more use from residents than the present Civic Square, which is walled off from the nearby streets by Council buildings. Open the area again and include real grass & planting. With that section of Mercer Street now closed it could be even better than before.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Arapaki has so little library content I consider it really only a service centre.

Q16. Where do you currently live? Island Bay

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Male

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It is important for it to be a library - that is the provision of reading material. While technology is important, so is the books, newspapers etc still necessary because not everyone is computer savvy. \* Care must be taken if any partnerships are contemplated, council must keep control.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It is important to make a decision and get on and do it. There has already been considerable delay and the library is one of the most important functions the council has to provide for the citizens of Wellington.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Timeframe
4. Future-proofing the library service
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Unappealing

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Keep it as it is Concentrate on the main project - that is reinstating the library - dont try to do a lot of fringe projects at the same time - all that will do is take more time and increase costs.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Because they are small they don't have the quantity and thus the variety of books to borrow - e.g. only two or three books  
by a popular author - usually only the more recent issues. The reference collection is not available to browse through

Q16. Where do you currently live? Wilton

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

My opinion is based on a frequent visitor to the city of wellington. As a child, my grandparents lived in Island bay and our holidays each year were spent with them. The Library was always a destination for us, I have so many happy memories of eating in the cafe with my grandmother, and later on of taking my own children to the library when we visited wellington. The location is superb - you can park in the library carpark and access both the library itself as well as Frank Kitts park and the art gallery. As a parent this is wonderful. The central city is incredibly difficult to navigate as a visitor, and having this "hub", with the library at it's heart, is both helpful and gives us a sense of place and a much appreciated familiarity. The comfortable seating, the ease (which most libraries possess) of stopping, resting, taking a break from the elements, and the selection of books to peruse while doing so, are things that matter to me about this building. The cafe, being "friendly" to all ages, from the elderly to the very young, has always been a highlight of my visits to the city. I do believe keeping the nostalgia alive for those of us who have so many fond memories there is important when considering whether to save the current building or not. Buildings are more than just structures, they embody a lifetime's worth of happy memories for so many of us who love Wellington.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

- Option A - Full rebuild
- Option B - Partial rebuild
- Option C - High-level remediation
- Option D - Low-level remediation
- Option E - Other

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Making the building safe
3. Making the building resilient
4. Future-proofing the library service
5. Accessibility
6. Sustainability
7. Timeframe
8. Cost to ratepayers
9. Climate change
10. Te Ngakau Civic Square connections
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Outside Wellington City

This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Please refer to the Christchurch Public Library which has now reinstated its place as an integral part of the Christchurch landscape. Partnering with selected local and international organizations such as Google, IBM, Oracle etc.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

You must consider the role of the modern library in cities. What people want; the way they learn; their role as social equalizer; and provide spaces for a wide range of people.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building resilient 2. Making the building safe 3. Future-proofing the library service 4. Opportunities for partnership 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The Central library has forever been valued for its role in our city's social, physical and civic heart - as shown in the fact that over 3,000 people visit it daily, either as a destination or to work through. More people are coming to live in the city each year as the apartment demand increases. A fresh, modern and future proofed library which meets citizens' current and future needs contributes towards the vibrancy of the city .

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
They are ok - they are just not a City library.

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Ian Athfield's vision transformed a bland sterile street and created the heart of Wellington City with a wonderful Civic Square reminiscent of Europe. The Public buildings on three sides are dominated by the iconic Central library and the curved, colonnaded Council building, surely these are the most attractive and imaginative in the city. As part of Civic Square the library is a social space where we access books, valuable reference material and advice as well as meet friends and colleagues over coffee and cake - how I miss it all!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I want to see Civic Square come back to life and the Central Library is the key to this. Wellington has known about earthquake risk since the 1850's - it is a joke that base isolators are not compulsory in Wellington.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Te Ngakau Civic Square connections
3. Timeframe
4. Heritage
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

People will come to Civic Square again when the buildings are fixed so they can be used!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I think they are all small and not places to linger. Although the books are new, they are few and here is no access to reference books from the Central library. Note that we have no suburban library and the mobile library was taken away from us.

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

Respondent No: 1110

Q1. Your name\*

Andrew

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A reorientation away from traditional library services (books) and toward broader community services, particularly those that target more vulnerable members of the community. This should include a focus on supporting and sustaining civic life, such as creating spaces for community groups and clubs to utilize.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I fail to see what heritage there is that is worthwhile protecting. The building is neither particularly old, and to be honest it is quite ugly. I cannot see how it would be worthwhile spending an extra \$25m to conduct a high level remediation rather than knocking it down and starting again. Judging by the progress of the earthquake strengthening of the town hall, I would have assumed that the council would have learned that remedial projects are considerably more complex, and therefore risky, and therefore prone to cost escalations. I cannot see how the councilors would believe the high-level remediation to be the best option. Any of the remedial options are likely to result in large cost escalations, so knocking it down and starting over would likely be far more cost effective than even a low level remediation, given the earthquake resilience and reset lifespan one would expect from a new build. This is likely to hold true even when taking into account the likely desire of Councillors to use the opportunity to erect a monument to themselves and their "foresight" at considerable cost to the ratepayer and at the neglect of essential services, such as the homeless shelter, three waters, and transport.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Accessibility
2. Sustainability
3. Other (please specify)
4. Making the building resilient
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

An emphasis on cost efficiency, not simply the nominal cost. A higher cost is fine, if this delivers a proportionally greater benefit to the city.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think the emphasis on Civic square is overdone. It's not a bad patch by any means, but it can hardly be considered the heart of the city. As long as there are no cafe's within the precinct, particularly one's able to take advantage of sunny outdoor seating, the square will never really be more than a city backwater and a starting point for protests.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

No Comment

Q16. Where do you currently live?

Mount Cook

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
The role of Te Ngākau as a unifying public space and link to the waterfront is vital to our shared sense of being Wellingtonians and needs to be restored and developed to improve its ability to function in this role.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

There's a certain charm about an accessible small collection - makes selection easier! But they withhold from users the experience of strength, significance and shared values conveyed by a beautiful, purpose-designed building with interesting spaces that contain the full range of the collection and opportunities for varied interactions.

Q1. Your name\* V Dunn

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think the days of a centralised library service are gone, and are not sustainable in the future. Therefore, I utterly oppose the financial investment of ratepayer funds into a Central Library building. Considering the decrepit state of ESSENTIAL water infrastructure in Wellington, and the WCC (non-existent?) contingency funds for potential earthquake damage to Wellington City in the future, there are more critical places to spend millions of ratepayer funds. I question whether the Council members would choose one of these proposed options if the money was coming from their personal pocket.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I would like to see a reconsideration of the presumption that one Central Library building is the best option for Wellington's future - it is utterly fiscally irresponsible, and I will be making a complaint to the Auditor-General if it is pursued by the Council. Adopting what the WCC calls the devolved model of library services has a number of advantages. It prevents the spend of an obscene amount of ratepayer money in a time when Councils should be taking a fiscally modest approach, especially considering the unknown financial risk factors of: aging critical infrastructure, Covid-19, climate change (for example, potential sea level rise), and the implications of earthquakes in Wellington. It spreads the risk of making one particular building safe, and also better future-proofs the services by making them accessible across a range of sites. This could be good for commercial tenancies - giving some certainty to revenue streams into the Council from commercial landlords.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Cost to ratepayers
2. Future-proofing the library service
3. Accessibility
4. Climate change
5. Opportunities for partnership
6. Heritage
7. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? I didn't rate "making the building safe" more highly because this option inherently supposes a "one building" approach.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I don't think the future library needs to have a connection to the precinct.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I think it's an advantage to have services spread throughout the CBD.

Q16. Where do you currently live?

Ngaio

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Female

Respondent No: 1117

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Future-proofing the library service
3. Making the building safe
4. Making the building resilient
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Wellington Central

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

[redacted]

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Corners/spaces for study quiet reading.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Keep it on the present central site v accessible to all.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- 1. Future-proofing the library service
- 2. Cost to ratepayers
- 3. Making the building safe
- 4. Making the building resilient
- 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I'd love to see photo exhibit s showing the history of that part of our city, the previous library our gorgeous Town Hall and the Michael Fowler Center plus the events that have happened there.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

- Arapaki Manners Library and Service Centre
- He Matapihi Molesworth Library
- Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

I LOVE these interim libraries. Congratulations . I like how they are part of the city and how I can return books easily as there seems to be one nearby. Dare I suggest that some might remain even when the main library is reinstated!! I would like to think that the Council is mindful to keep rates at a reasonable level.

**Q16. Where do you currently live?** Thorndon

**Q17. Which of the following ages groups do you belong to?** 65 to 69

**Q18. Please choose the gender that best identifies you** Female

Christina Mackay

Q2. Your email or postal address

Q3. You are making this submission:

Historic Places Wellington (around 130 members)

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Historic Places Wellington is a non-for-profit organization whose principal aims are to • promote the identification, protection and conservation of historic places in the Wellington region, for the benefit of communities and the general public; and • inform, advise and educate the public on the significance of historic heritage. A partnership with Wellington Central Library is important in providing public access to historical and technical information relevant to local heritage. This includes a shelf of key reference books for browsing as well as on-line resources. HPW and WCL could collaborate in programmes to support investigation and learning by children and young adults.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Option C – This selection acknowledges the high level of cultural heritage value of the existing library. In 1992, the building design was • innovative in transforming the concept of a public library from a formal, serious, quiet, environment into a welcoming, informal, 'living room' for Wellington citizens. • a signature building of renowned Wellington architect Ian Athfield and the Athfield Architects' team • recognised as a significant post-modern building in New Zealand architectural history (NZIA National Award 1992). • creative in reflecting the vibrant spirit of 1990's Wellington. The interiors include work of prominent New Zealand designers and artists. Ideally, 30 years later, the building should be restored and adapted to suit 21st Century library needs and be structurally resilient. However, building alterations to create resilience against earthquakes, reclaimed land, predicted storm surges and sea level rise are complex and expensive. Also, in 2020, urban densification and changing living/ work/ retail patterns in the age of the internet question how the city will be used in the future and the role and location(s) of the public library services. WCC budget priorities are also a critical factor. At the public meeting (Public Trust Hall – 1 Sep 2020) speakers suggested that further testing of options, scenarios and costings is needed. In this time of uncertainty, maybe pop-up libraries (and remotely accessible library collections services) will suffice until decisions can be confidently made.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Making the building resilient
3. Sustainability
4. Te Ngakau Civic Square connections
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

During the past 30 years, this civic square has been successful attracting the public and visitors to the Library, City Art Gallery, Capital E, tourist INFO centre, WCC service centre, public gatherings and university graduations. The suspended 'Ferns' sphere by Neil Dawson introduced a sense of wonder and delight. The space is now vacant surrounded by empty buildings and a construction site. In consideration of WCC's commitment to City Art Gallery, MFC, Town Hall restoration and proposed VUW Music School, it makes sense to revive the square as the Arts and Cultural precinct of Wellington. It is presently a Heritage Precinct including the listed buildings of Town Hall and City Art Gallery. Historical and new buildings are an eclectic mix and tell the story of the city. The post-modern Library design fits in and adds a significant chapter. A redevelopment of the vacant buildings and the former Capital E and Circa sites is needed. Active edges (especially the north-facing) would enliven the square. The introduction of public scale shelter (from wind, rain and summer sun) would invite the public to enjoy the quiet public realm.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Given the Council's professed concern with climate change and sea-level rise it beggars belief that the Council would even consider an investment so close to the sea! That said, on the basis of the costings provided, a new build is likely to be the most dynamically efficient investment as it provides an appropriate level of safety and resilience at the least cost. Options A and B are arguably inadequate, whilst Option C is surprisingly estimated to be significantly more expensive than a new build. I have confidence in the new build estimates as this is a relatively straightforward exercise based on known construction costs. I am not confident about the costings for Option C and have a concern that the budget may blow out with unforeseen problems that are highly likely with such an extensive and invasive remediation. In my view, proceeding with Option C would be an irresponsible use of ratepayers funds, given its estimated cost compared to a new build and the complete freedom that a new build provides. Heritage issues are frequently used to advance (or halt) a particular project. I am much less concerned with heritage but do want a new build to be sympathetic to its surroundings. If the Council proceeds with a new build on the existing site and wishes to preserve the heritage character of the existing building, then why not duplicate the current exterior design? As a final point, Wellington ratepayers are facing substantial costs from much needed infrastructure expenditure that has been deferred for far too long. It behooves the Council to trim its expenditures elsewhere to that which is strictly necessary. Now is not the time to spend ratepayers funds on nice-to-haves and Option C looks like an imprudent expenditure.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Making the building resilient 3. Making the building safe 4. Future-proofing the library service 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Never

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Miramar

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Male

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

While it may be an opportunity to re think the way the building operates as a library the idea that it should be pulled down and start over implies the building is uneconomic to strengthen , which i do not believe .

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

i am a wellington structural engineer and have designed numerous high profile public buildings around the city , in that time . The costings quoted for the options outlined above are unbelievably high . I believe option B is probably all that is required to provide the right mix between realistic upgrade and cost. I believe it could be achieved for a fraction of the cost quoted .

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Heritage
4. Making the building resilient
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

i do not see anything wrong with the current spaces and links.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I haven't visited them

Q16. Where do you currently live? Miramar

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Male

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Library should be a public space for learning, researching, and discovery. Libraries can be more of a community centre or hub (Although books are massively important).

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building resilient 2. Future-proofing the library service 3. Making the building safe 4. Te Ngakau Civic Square connections 5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Te Ngākau needs to be more connected to the city with the ability to more easily pass through the surrounding buildings to connect the city to the water.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
They are not really conducive to sitting around and enjoying a good book. They feel like the take-away version.

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Male

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Te Ngakau Civic Square connections
4. Heritage
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

That the library, an accessible site of information, education, and community, is vital to the concept of a democratic space and upholding a public sphere

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

The tight quarters means you are constantly reminded of others there. It is harder to carve out a personal space for yourself or your group, without feeling like you are bothering other people, unlike in the original Central Library, where the large building allowed for you to be respectful of other people's personal space.

**Q16. Where do you currently live?** Mount Cook

**Q17. Which of the following ages groups do you belong to?** 19 to 24

**Q18. Please choose the gender that best identifies you** Female

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A safer internal space is needed, where parents don't have to worry about children climbing over unsafe rails on the 1st and 2nd floors. More room for computers and meeting spaces as well as the collection.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current building was designed for a library service of the 90's. This is a good chance to rebuild with a more modern focus.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Future-proofing the library service
4. Climate change
5. Sustainability
6. Making the building resilient
7. Te Ngakau Civic Square connections
8. Timeframe
9. Heritage
10. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's really nice to have a space in the central city that is free for everyone to enjoy.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

1.
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year
- Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Mount Victoria

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you.

Prefer not to say

IP Address:

Q1. Your name\*

G Barrington

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Books, music, visual media, work spaces apart from the library but within the walls. Cafes, meeting areas, public information areas.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Getting the central library up and running as soon as possible is of prime concern. Until then, the civic area is wasted.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Timeframe
4. Sustainability
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Civic chambers do not need to be a part of the library.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Improving the surrounding parking would be useful but that's not an option I'm sure.

Q16. Where do you currently live?

Wilton

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Sam Donald

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The existing central library was great, we need to get on and open it back up soon.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

WCC can't make a declaration of climate and ecological emergency and then demolish a (much loved and architecturally significant) building that can be readily saved, when there is such a huge carbon cost in doing so. The embodied energy in the existing building is enormous and can't possibly be sent to landfill if there are ways to retain it in-situ.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Making the building resilient
3. Heritage
4. Making the building safe
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

While WCC offices are on The Terrace, publicly accessible council meetings should be held in or around Te Ngākau Civic Precinct and the Central Library would be ideal for this temporarily and on an ongoing basis as well. This would make them more inclusive and accessible than having public meetings at council offices. GWRC's publicly accessible meetings could be held at the Central Library too.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

N/A

Q16. Where do you currently live?

Brooklyn

not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Other (please specify)  
2. Timeframe  
3. Cost to ratepayers  
4. Making the building safe  
5. Te Ngakau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision?  
Get it back up and running asap. There's no guarantee any building is safe in an earthquake.
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Somewhat unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
I definitely want to retain that public space, and the range of uses it is put to. It has a great advantage in being largely sheltered from prevailing winds.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Monthly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

I like having physical access to libraries without having to drive to the suburbs. The Arapaki branch, my nearest branch, is not a very appealing space. It's like being in an overstuffed shop. It's very hard to work out where things are, and even harder to find someone to help, though when a staff member is located they are generally very helpful. I was blown away by the sense of space when I went to the Brandon St one, and the change of atmosphere by having a cafe there too. I'm not a big cafe user, but it changed the feeling of welcome and ability to linger in the space which is completely missing at Arapaki. There the security guard is the most prominent feature - though he tries hard to minimise any perception of a negative aspect to his role. Second feature is the vast amount of empty and unused space by the payment desks while the library side is so packed.

**Q16. Where do you currently live?** Te Aro

**Q17. Which of the following ages groups do you belong to?** 65 to 69

**Q18. Please choose the gender that best identifies you** Male

Q1. Your name\*

Maddy Bush

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library needs to be a free, community space that provides education and accessibility for our entire community, both present and future.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I cannot understand why a decision has not already been made on this. It is so clear that any of these options are going to take significant time, and it has also been publicly made clear that the majority of the city is in favour of renovating the existing building, so why are we still doing consultation? I do not understand why this process is taking so long. The council are our voted representatives. They should represent us.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Heritage
3. Accessibility
4. Making the building resilient
5. Sustainability
6. Climate change
7. Future-proofing the library service
8. Timeframe
9. Te Ngākau Civic Square connections
10. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. **Appealing**

More windows to help connect the library visually to the square and surrounding streets **Somewhat appealing**

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

More of them! More space! More facilities! I also think the small, interim branch model needs to be embraced and there should be thought into how that could work - could the spaces be split by genre? Have a kids library, and a fiction library and a poetry library?

Q16. Where do you currently live?

Northland

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

Female

Dont know what 'Te Ngakau" is

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Spacious welcoming helpful librarian Signage is absurd with Maori terms in bold print at top of signs with English below in smaller print. One assumes from this that the collection must be in Maori. The city council needs to stop patronising Maoris. I wanted to borrow piano music but the only scores available were popular music and jazz

**Q16. Where do you currently live?**

Wadestown

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Obviously a great collection, but also study nooks, bookable rooms, workshops, places for Tamariki, internet access and a cafe would be great.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Freshening up the exterior would be great - and any sustainable upgrades would be good! Plenty of accessible features so it can be used safely by the whole community.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building resilient 2. Making the building safe 3. Future-proofing the library service 4. Accessibility 5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's a place for public participation and protest!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 19 to 24

Q18. Please choose the gender that best identifies you Female

Respondent No.: 1135

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Option C, but with a softer, friendlier Victoria St frontage.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Accessibility
2. Sustainability
3. Te Ngakau Civic Square connections
4. Making the building resilient
5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I would like to see the use as less formal and civil. More of a community gathering place like how the Europeans use their plaza's. I would like to see the cafe have indoor/outdoor link, flat access to the plaza. Plaza use to include more vendors, chairs, tables, children, buskers, so that there is a hive of activity. Chess, boules, toddler space, installations and small events.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I visit Johnsonville more often since Central is closed. The children like the variety of different places to choose from to sit and lie to read...the bean bags are good. The creative hub at Johnsonville is great. We like how Brandon St has a cafe that is very connected to the library space so you get the hum and energy. I like that books can be ordered and returned to any branch without fees.

Q16. Where do you currently live? Kelburn

Q1. Your name\* James Sergeant

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I use libraries for reference and for borrowing books (frequently) and DVDs (less often). I have also been to the occasional event at the Central Library. In thinking about future use, the Council should not just assume that all events that happen at the library need to continue at the library. Meeting rooms and other events could take place at a range of locations.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

My main concern is getting the central library functioning again in the best value way. The materials provided for consultation made it hard to make an informed choice. My first preference would be just 'getting it strengthened.' If more needs to be done (for regulatory /safety reasons, not just because the Council wants a prestige project) I am relaxed whether it is a remediation of the current building or a complete new build on same or different site. The choice should be made on cost and predictability of the project. The only 'iconic' feature of the existing building that needs saving are the palm trees.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Cost to ratepayers 3. Timeframe 4. Making the building resilient 5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The sooner all routes through the square are reopened, the more lively it will be. There should be more active facades at ground level (cafes, shops, drop in council kiosks, ground level entrance to library).

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? Good location. Friendly staff. Reasonable book collection. Could develop more browsable catalogues (by category etc) so it was easier to access the collection that is not on display.

Q16. Where do you currently live? Oriental Bay

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I really like the J'ville space, it's modern, welcoming and fun. When I moved to Wellington I was in awe of the library, the scale of it is nothing like the small town where I'm from. However it did look of it's time and wasn't very welcoming. I think we could use this opportunity to have a fresh start and to be mindful of technology changes.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think it's really important and worth a small increase in rates.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Climate change 2. Sustainability 3. Timeframe 4. Accessibility 5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I have enjoyed some of the many events held here. Yoga was a highlight!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I have been to Manners and it was great.

Q16. Where do you currently live?

Khandallah

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Male

Respondent No: 1140

Responded At: Sep 07, 2020 13:57:48 pm

Last Seen: Sep 07, 2020 01:43:10 am

IP Address: [redacted]

Q1. Your name\* Tim Jones

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

This is a tough decision. In my view Options C-E are those worth considering further. Each has benefits. Without the risks of climate change and sea level rise, I would prefer Option C, but I'm not convinced Option C adequately assesses this. Therefore, I'd like the Council to carefully consider how not just median but high-end estimates of sea level rise over the new or refurbished library's lifetime would affect the viability of the project before making a decision.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. As noted above, my preferred option is C \*but only if it is possible to protect the project against high-end sea level rise estimates over the project lifetime\*. If that is not possible, my preferred option is E - since the whole of Civic Square may be rendered unviable by sea level rise.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I've been impressed by the new, smaller libraries - but both as libraries and as community facilities, they don't serve the same role for the community as a large central library does. So I'm keen to see a central library developed in a location that meets resilience requirements, not just in the next few years but throughout the project lifetime.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Sustainability
3. Making the building resilient
4. Accessibility
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

A precinct such as Te Ngākau Civic Precinct is very important to the future of the city - as a democratic space, as a statement of WCC's partnership with mana whenua, and as a non-commercial space people can spend time in a pleasant environment (more shelter from the wind would be welcome!) But the library location isn't the only part of Te Ngākau Civic Precinct that's vulnerable to climate change and possibly also liquefaction in the event of an earthquake. So I think the library debate also provides an opportunity to evaluate the Precinct's long-term future and what sea level rise & flooding mitigation options are available & affordable.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Male

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Libraries are a pillar of the community and help us from feeling isolated and uninformed. Our library must be welcoming, reflect Wellington's communities and be a stimulating and happy space to be in.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It's such a vital asset to the city, please don't procrastinate!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Climate change
4. Sustainability
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Should be further developed and enhanced as a welcoming, safe and sheltered public space. Would be great to add more connectedness with the waterfront

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre
He Matapihi Molesworth Library
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Great effort by the WCC to get these places up and running. Te Awe is particularly useful as a public space. The branch libraries also get a big tick including Johnsonville Library.

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It has to be a safe and accessible, free civic space for everyone, for all the diversity of Wellingtonians.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If the building is demolished, please keep and reuse the ni hau palms.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Accessibility
2. Future-proofing the library service
3. Climate change
4. Making the building resilient
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Would be good if all buildings faced or more obviously opened towards Te Ngākau as the Art Gallery (the old library building) does, so it becomes a real public space. Entrances on ground level and more accessibility from all square facing buildings is important. The whole area and buildings are currently quite hard to navigate spaces and buildings if use wheelchair or have mobility issues.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

- Arapaki Manners Library and Service Centre
- He Matapihi Molesworth Library
- Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like that they are reasonably central. But locations, eg in National Library make shorter opening hours which are inconvenient.

Q16. Where do you currently live?

Wadestown

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Female

Respondent No: 1143

Q1. Your name\*

Caitlin

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Having free to use community space is essential

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Opportunities for partnership
6. Climate change
7. Sustainability
8. Heritage
9. Te Ngākau Civic Square connections
10. Timeframe
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Johnsonville

Q17. Which of the following ages groups do you belong to?

25 to 29

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library hubs that have opened up in Central City are fantastic, given the limited size. Te Awe in particular is great. My preference for any version of the new/ remediated library is that it is functional and accessible, I'm not too worried about partnerships etc. I think council should go for option D, New build on the same site. The current library and council space have been plagued with issues due to design faults etc. Option D offers ratepayers and users a specific purpose built facility rather than just taking the existing flawed facility and giving it a revamp. Costs are projected to be less, and delivery date will be faster.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Cost to ratepayers
3. Timeframe
4. Sustainability
5. Future-proofing the library service
6. Accessibility
7. Making the building safe
8. Climate change
9. Te Ngākau Civic Square connections
10. Heritage
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

No.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Both are really good useful spaces.

Q16. Where do you currently live?

Tawa

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Male

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The current design of the library is ideal for moving on to the future. I moved back to Wellington after 30 years in the UK, watching libraries there suffer from lack of funding and use. I was so thrilled to see Wellington library thriving and being used by the full demographic range of Wellingtonians. I have been proud to show my favourite Wellington building to many visitors from overseas, who have all been enormously impressed by the design and popularity of the library. The open, welcoming spaces being enjoyed by toddlers, children, students, older people, accessing all the facilities easily and enthusiastically. The design is also classic and should be preserved as an architectural gem. The building is loved as it is and the Athfield design's integrity should not be compromised. We need to have this space back in use as soon as possible.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Heritage
3. Timeframe
4. Accessibility
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

This is a space that has been enjoyed by Wellingtonians and tourists alike and should be treasured.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? Nothing - I think they are absolutely no substitute for the Central Library

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I have used many libraries in my 70-plus years. There's not one which I have enjoyed as much as the Wellington Central library. Of course there will be possibilities for improvement - particularly perhaps in programmes and partnerships with other organisations. But the Athfield building is welcoming and friendly, like the staff within. Other architect might do almost as well to recreate its atmosphere but I doubt they could better. One of my reasons for moving from the suburbs to the inner-city was to be close to that library and I miss it enormously, much as I appreciate the smaller pop-up buildings.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Te Ngakau Civic Square connections 2. Making the building safe 3. Making the building resilient 4. Heritage 5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I love Te Ngakau Civic Precinct and I'm sometimes surprised that it is used less than I thought it would be - perhaps the wind factor is involved. I enjoy seeing children playing there - perhaps more equipment for them would be good, perhaps small areas adjacent to building where people could sit more comfortably in groups rather than on benches all facing into the square?

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

In my view Arapaki Manners Library does very well. I pick up reserves there - the staff is friendly and helpful but there is simply not room enough to display many books. Since the Brandon and Panama St branch opened I've been very happy wandering between the stacks and enjoying being in a proper library. The service is excellent, it's great to have the cafe. I'm both grateful and sad as it makes me nostalgic for Wellington Public.

Q16. Where do you currently live? Te Aro

IP Address:

Q1. Your name\* Pauline

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

This is the opportunity to build something innovative and creative, drawing on experiences of some of the best modern libraries in the world. Something that works for all people of the community, whether a safe place for children to hang out and study away from home, to something to support the arts and small groups

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current building was not particularly impressive and was quite dark. A new library could be so much more. It needs to be practical and user friendly though, that has to be the focus, not looking for architectural awards

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Making the building resilient 3. Future-proofing the library service 4. Sustainability 5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? The opportunity to build a 21st century building, to build something amazing and user friendly, full of light and spaces. And to build to the highest specifications of safety

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think connecting the library with the Precinct is a good idea

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

can't say

Q16. Where do you currently live?

Lyall Bay

Q17. Which of the following ages groups do you belong to?

40 to 44

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library needs to come back on the same site as as quickly as possible. It was a haven for those less well off in living conditions, parents, people who had to fill in a long wait in the cbd that required no additional cost. This has been lost with the pop ups not being able to resemble anything close to what the Central library provided. I think we should use the opportunity to make it the best we can while not holding it up work in constant consultation, costing and fact finding exercises. I would ideally like to see something similar to Christchurch new library.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The existing building should be kept if only to prevent a long legal battle about the heritage issue. We can't sit around and wait for these legal bun fights to play out.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Accessibility
3. Future-proofing the library service
4. Te Ngakau Civic Square connections
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Neutral

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

As long as there is at least one entrance/exit to civic Square like there currently is but with easier access for mobility users. I can't see how access or connectivity could be improved much more.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I have avoid them as they always seem over crowded. I really use the library as somewhere quite to fill in time at the moment I feel like I am taking away space from someone who needs it more.

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Male

Q1. Your name\*

Graydon Armstrong

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think the Citizens Advice Bureau definitely belongs in the library. I'd also be interested in whether a space for small exhibitions could be allocated; community stuff like the Mittens exhibition in the Wellington Museum seems like it would suit the library. Though in thinking of a library in a broader sense than just books and media, I might be going too broad and conflating the roles of libraries and museums. Food for thought, though, I guess.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I'd like base isolation, but I'm concerned that the difference between Option B and Option C is more than just base isolation, and that that would push the reopening date out further, which is a significant factor in my choice. Is it possible to do Option B with base isolation, and reopen sooner than Option C? I think I heard it suggested at one of the public meetings last year that the parking garage level made it feasible to add base isolation separately from the other remediation work, and while the library could be partly or fully open. If that's true, do Option B, get the library open, and add base isolation after it's open.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Making the building resilient
3. Heritage
4. Cost to ratepayers
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

Before I moved to Wellington, just visiting, it was one of the spots in the city I most remembered. I'd just like to see it revived; the biggest issue is with how much is closed, not that the stuff that's closed wasn't decent back when it was open. We can see this as an opportunity to make some adjustments and improvements, but let's not get bogged down by letting the scope expand too much. The library was already a good thing, we don't need to mess with it much, we need to get it open again.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Once every few months

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Good locations. I'd keep Arapaki open weekends, though; feels like there are more people around Arapaki than Te Awe on weekends. Haven't been to Te Awe yet, though; if it's bigger, I can understand why it'd be the one to keep open, if you can only justify keeping one open.

**Q16. Where do you currently live?** Wellington Central

**Q17. Which of the following ages groups do you belong to?** 35 to 39

**Q18. Please choose the gender that best identifies you** Male

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

1. a place of discourse and debate 2. a place that promotes the city's shift to public and active transport with an uber bike park/workshop in the basement and direct connection to the Jervois Quay rapid transport station; 3. open long hours every day; 4. activate and connect to all its surrounds - Harris Street, Civic Gateway @ Mercer Street, Te Ngakau, and the City Gallery; 5. have a variety of cafe offerings; 6. plan for expansion now... can it extend up and out to the existing roof?

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Noting that the costings and timelines for the options in the SOP are too high level to accurately inform a decision yet... we should be aiming to get both the existing building retained and the Library offering re-imagined to be a 21st C library. The existing building can hold onto its architectural values and accommodate significant changes/improvements. These should be achievable quicker and at a lower cost vs a new build option.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Heritage
3. Timeframe
4. Te Ngakau Civic Square connections
5. Sustainability
6. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? That the Library reflects Wellington and its people, ie working with the existing building but not being afraid of making changes to it so the Central Library evolves with the built and social fabric people city.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The library should be a place of discourse and debate, and thus needs to have spaces to support that and where Wellingtonians feel empowered and valued.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like the cozyness of Te Awe

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Library should be a community hub and provide services for all ages and cultures, the building should support a variety of activities and add to the culture, functionality and flow of the city. Public/noisy spaces should be on the bottom (i.e. the cafe and preschool/children's areas) and flow out into the street. The building should encourage pedestrian movement through the city (i.e. don't cut off the walkway from city to sea). There should be plenty of break-out spaces/meeting rooms available for public use and group hireage and listening/viewing of audio/visual material. Spaces for exhibitions/displays would also be great for supporting the arts and culture of the city.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Wellington needs a large library and community resource space to support the many activities and uses provided by Wellington Central Library in the past. \* Borrowing and accessing books, magazines, DVDs, CDs and more. \* Space with Wifi, desks, seating, \* spaces for students and mentors engaging, \* spaces for families and individuals learning language and literacy, \* spaces for independent contractors and gig workers to check emails and apply for work, \* place for those in limited housing like older and disabled people and students to meet others and to get support from librarians and community navigators, \* resources for community and school research

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If not C then repurpose the wasteful Convention Centre as a library with some housing. Whichever is quicker to rebuild the heart of the city. The library is a magnet and if WCC wants to restore economic vibrancy to our central getting the build done as soon as possible is important. To save Lambton Quay and Willis street businesses, Option C should be started and finished as soon as possible

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Future-proofing the library service
2. Te Ngakau Civic Square connections
3. Making the building safe
4. Making the building resilient
5. Accessibility
6. Climate change
7. Sustainability
8. Timeframe
9. Opportunities for partnership
10. Heritage
11. Cost to ratepayers
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? Economic future of library adjacent businesses e.g. Wills Street shops like supermarket. A trip to the library would usually include a visit to local businesses too.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

Important to have a large sheltered space. Loved the pop up library stall and casual seating for summer. Would like to see more pop up food options like food trucks, coffee carts and ice cream stalls in summer. The square is great for music and gatherings. Enabling it to be another regular marketplace would be great too especially with the loss of the Underground market. Some work to create covered or partially covered space would be good too

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?**

Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply**

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

They have books and librarians - top of the list. Te Awe makes me feel claustrophobic so more natural type lighting and less congestion would help. If not real windows then a flatscreen display mimicking real world would help. Arapaki is noisy which is poor for my tinnitus - wooshing front entry door is annoying. Very limited space and competition for seated areas. Best spot - triangle corner to right of fiction - has been taken by display. Really annoying. He Mataphi is goodish, if a bit stuffy cos of humidity control for National Library. Very limited hours.

**Q16. Where do you currently live?**

Mount Victoria

**Q17. Which of the following ages groups do you belong to?**

60 to 64

**Q18. Please choose the gender that best identifies you**

Gender diverse/gender non-binary

BP

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

CAB on hand, quiet spaces as well as collaboration spaces. Space for children. Community rooms with kitchen.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Timeframe
6. Te Ngakau Civic Square connections
7. Cost to ratepayers
8. Opportunities for partnership
9. Sustainability
10. Climate change
11. Heritage
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

Inclusive spaces

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
It is too small for the amount of people who visit there. Hopefully this is only temporary

Q16. Where do you currently live? Miramar

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Prefer not to say

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Purely from an aesthetic view, I favour demolishing the current building and rebuilding with a library that connects in a better way with Te Ngakau Civic Square. Currently, the building sits there like a monolith that doesn't belong. It shadows the entrance from Mercer Street and creates an uninviting and narrow space between it and the City Gallery. I would love to see a ground level entrance to the square which goes directly into the library space (rather than having to negotiate the likes of Clark's Cafe).

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Te Ngakau Civic Square connections 2. Making the building safe 3. Making the building resilient 4. Climate change 5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Capital E should not be sitting there as dead space. Council should get on with fixing that up or demolishing it. The CAB building has also been empty for far too long and the fate of that should be sorted soon.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Outside Wellington City

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Physical space to be totally and easily accessible to all. Easy connectivity to the outdoors. Services within library to cater for the multi cultural community that makes up Wellington. Design with cultural awareness. Offer services which are welcoming to the many cultures of Wellington. Offer spaces which cater to different groups at different times. Activities based spaces. Broad use other than just access to books, magazines, etc. Provide opportunities for learning and belonging. Must be a WELCOMING space and reflect who we are. All of us. Inclusive. Once the building has been decided on, and at the beginning of the design process, talk to people of various cultures to find out what welcoming would look like to them. This current type of consultation will not draw input from many in our community who do not partake in surveys.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. **Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

Te Ngakau Civic Precinct is an important public space and important that the central library retain its place within it. Democratic accessibility to the library is paramount and continuing to have the library within the Te Ngakau Civic Precinct allows for this accessibility to continue. Designing the new library to have greater access to the Civic Precinct space will allow both the library and the Precinct to both be used more and in different ways.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Monthly

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I see the library as a vital place for the holding, sharing and development of knowledge, as well one of meeting and community between people regardless of age, ethnicity, position or any other identity marker. Another aspect that I had not considered before but was made clear in the consultation document was that the library was an important refuge for people living on the street. With these factors in mind, I think that is an excellent opportunity to enhance what made the library such an important place. Keeping the large children's area as well as the cafe helps make sure that the library is a central meeting point for many kinds of people, and not just for reading or studying but for family time and other socialisation. I also enjoyed the community projects that were displayed by the cafe, such as schoolchildren's thoughts and art relating to climate change. I see that as an important way to promote community cohesion, as well as to help kids become a part of the wider world. I think some improvements that could be possible include integrating more dedicated study rooms like the ones at Arapaki, as an alternative yet quiet place for group and individual study other than in universities or schools. This is more of a personal preference since I used to enjoy the atmosphere and proximity to the city from the library rather than having to be cooped in at university or at home. I think that it is possible to develop a dedicated shelter for people living on the street, and a place to provide a refuge during the day so that they do not have to spend their time on the streets, and instead somewhere with compassion and socialisation, so that they do not have to feel ostracised from the rest of the city. If it is projected to cost the same and take slightly more time than restrengthening the current building, I think it is wiser to remake the entire building to ensure it will be enhanced and capable for serving the 30-40% increase in population over the next few decades, and serve as a model of what a major piece of public infrastructure can and should be - bold, resilient and inspiring. The library served as a great place of knowledge, meeting and shelter, but that does not mean that we should spend \$200m and five years making it what it was. We have a chance to start afresh, to be forward-thinking and to set the bar for the next generation of public infrastructure.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Making the building resilient 3. Sustainability 4. Cost to ratepayers 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Civic Square has long acted as a great starting or ending point for marches to and from Parliament, with its proximity and size. The City Gallery is also a space for bold and thought provoking projects, challenging our status quo assumptions. The Library had been a meeting and knowledge space for a wide array of people, as well as place to help educate children. The combination of the three therefore present a vital place for the development of individuals, communities, the city and sometimes the country as a whole. Perhaps it could be further emboldened with more events both celebrating and challenging our times. Things like free performances or debates might help further enliven the Square.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like their proximity to other major areas, as well as the comfortable spaces for studying. It would be beneficial if there was more room, especially at Arapaki, since it's often full, but that's likely the reality of fitting a temporary library in a central city space.

Q16. Where do you currently live?      Kelburn

Q17. Which of the following ages groups do you belong to?      19 to 24

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library should be a massive community hub for the entire city. We should use the library as a meeting place for all, including community and social groups. It should provide wraparound services for our more vulnerable citizens, who we know are some of the biggest users of libraries. The library should be a centre for sharing information and learning. I would like to see lots of versatile spaces that can be hired out to different groups. It should be light, modern, welcoming. It should be designed using sustainable building practices and should be an example of a green building that we can all be proud of. Libraries are great levellers of social hierarchy. They bring people from all walks of life together. The physical library is just a building. But it should be designed in a way that facilitates so much more. It should be the soul of our city. It should symbolise what Wellington is - open, egalitarian, friendly, supportive, green.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

This is a once in a lifetime opportunity to reimagine a building that defines our city. Make it great, make it who we are, don't waste this opportunity.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Sustainability
3. Heritage
4. Making the building safe
5. Making the building resilient
6. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Male

IP Address:

Q1. Your name\*

Owen Hughes

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central library should be accessible to all. It should embody best practice accessibility. This should be consistent with the "Framework to accelerate progress towards accessibility in Aotearoa New Zealand" as signed off by Cabinet on 22 July 2020. [See <https://www.msd.govt.nz/about-msd-and-our-work/publications-resources/information-releases/accelerate-accessibility/index.html> ] The accessibility concepts and specifications should be co-developed with the Access Alliance [See [accessalliance.org.nz](http://accessalliance.org.nz)].

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Climate change
3. Accessibility
4. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

That they exist at all. The staff are consistently friendly and helpful.

Q16. Where do you currently live? Newlands

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Nicky Boughtwood

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

an inspiring and inclusive space that all people of wellington feel welcome and comfortable using - to access books and other information, attend events and be educated, to relax, to feel connected to others. Spaces for different ages and needs - eg a safe but cool place for teenagers to hang out, a nourishing space for new parents and young families, relaxing places for unemployed or homeless....but also that there is the ability to mix generations and cultures - eg old people to see young people,etc A place that meets our needs as we evolve - eg grow up, become independent and hang out in the city without our parents, have children, age, lose our jobs, make friends/lose friends and need somewhere to hangout during the day...be stimulated...whatever.... A place that values and supports us as citizens :) Staff (who are awesome!) should represent all cultures so that people that might not normally feel comfortable going to the library see people like them working there.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I'd love to see the current building repurposed, modernised and made future-proof. To be an example of how a building can evolve - that we don't have to knock it down and build something new and sparkly. Build on the cool and recent heritage of it. I think it's in a great location - a link between the CBD and the waterfront. Our decision about what to do should factor in the TRUE cost of knocking the current building down, transporting it all to the landfill (including the emissions of that), the cost of fighting any legal battles, the extra time it will take to hold the project up if that has to happen, etc.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Te Ngakau Civic Square connections 2. Climate change 3. Sustainability 4. Heritage 5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

I value the role that Te Ngākau serves in our city and would love to see it reinvigorated once the library and town hall are sorted out. I love that it's a gathering place for marches, a place of celebration and for holding awesome events, I like the football pitch, the fact it's a great thoroughfare, place to eat lunch....etc etc

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

They have been great to have but I don't actively seek to hang out there like I would do at the old Central Library.

**Q16. Where do you currently live?** Brooklyn

**Q17. Which of the following ages groups do you belong to?** 50 to 54

**Q18. Please choose the gender that best identifies you** Female

Q1. Your name\* Tom King

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? Some risk management should be undertaken viz Option B. Cost to taxpayers should be reasonable and rational

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe
3. Timeframe
4. Future-proofing the library service
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Tawa

Q17. Which of the following ages groups do you belong to?

75 to 79

Q18. Please choose the gender that best identifies you

Male

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library is a centre of learning and an important community asset. The functionality needs to be restored as soon as practicable.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The Central Library building is historic heritage and is an important contribution to the living space of Civic Square. Preserving the building "at all costs" needs to be balanced against the reasonableness of the cost and the timeliness of resuming operations. I am prepared to wait until 2024 for a robust solution. Not necessarily future-proofed, as none of us can predict the future requirements for libraries or the future threats to buildings.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Timeframe
3. Heritage
4. Cost to ratepayers
5. Making the building resilient
6. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It would be great to see more use of this space, for community activities

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Access to full range of holdings is important, via reserves. The temporary spaces are not big enough to fulfil the community  
role of providing a safe, user-friendly space for library users - too open to the street

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? Prefer not to say

Q18. Please choose the gender that best identifies you Prefer not to say

Respondent No: 1171

Q1. Your name\* Hazel

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Would be good to retain books, make the space echo less so people can study. Would be good to see makerspaces like Waitohi

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Relocate the Central Library to a non Te Ngākau Civic Precinct site

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I'd like to see either high level remediation or a rebuild as this would set us up for the future. Very important to maintain accessibility. Would be sensible to take the opportunity to move the library to higher ground - sea level rises would impact that area

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Accessibility
3. Climate change
4. Making the building safe
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is a low lying area that is vulnerable to sea level rises. Investments in the area could be lost to a changing coastline

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The staff are great. Would be good if Arapaki books could be reserved

Q16. Where do you currently live? Tawa

Q17. Which of the following ages groups do you 25 to 29  
belong to?

Q18. Please choose the gender that best identifies Female  
you

[redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Having a central library that has the capacity to house many different books and be a distribution hub for the library's in the suburbs is really important. I think it is essential that it has spaces for people to meet and relax and for students to study away from cramped apartments. I see the library as more of a safe haven rather than just a place that houses books. I used both the central library and my suburb library extensively when I had young children and it was a safe space to take them and let them experience books and reading.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
I love the look of the nikau palms but understand the a functioning library is more important
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
  2. Future-proofing the library service
  3. Heritage
  4. Accessibility
  5. Making the building resilient
  6. Climate change
  7. Sustainability
  8. Cost to ratepayers
  9. Timeframe
  10. Opportunities for partnership
  11. Te Ngakau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral
- More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I had to get someone else to get a book out from the Brandon St one as I didn't want to catch the bus in and parking is a nightmare.

Q16. Where do you currently live?  
Melrose

Q17. Which of the following ages groups do you belong to?  
45 to 49

Q18. Please choose the gender that best identifies you

IP Address:

Q1. Your name\*

Andy

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Demolish the building and make a park. Expand current new pop up premises with integrated tech.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Demolish it and the Town hall. No longer for for purpose. Develop the pop up library premises to have more and local. Integrate with council and axillary serices., Such as wellington water etc. Have integrated technology and seating. Need to be thinking of our children's future no our own biased old school future. Ask youth what they want, as they will have to live with our bad decisions.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It's primary purpose was not books or literature, but a place for quiet and rest. Create a park that is literature based and get rid of the horrid astro turf and wasted money on the town hall.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Accessibility
3. Climate change
4. Cost to ratepayers
5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

This library will probably be under water in 50 years. Most scientists agree on this. Has that been considered. No. Think ahead not in the past.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It could be a park, water link and a place of rest. At the moment it is a terrible design. Fake and tacky. Move forward.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

At least they are flexible and modern. Suitable for our new climate and pandemic world. Easily moved if needed. Usage of tech to source books is great. Need more chill spaces. Link with all local govt services, not just a library. Much better than the old town hall.

Q16. Where do you currently live? Wellington Central

Q17. Which of the following ages groups do you belong to? Prefer not to say

Q18. Please choose the gender that best identifies you Gender diverse/gender non-binary

Respondent No: 1175

Q1. Your name\*

Suzane Chua

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Do we really need a central library? Council must give priority to providing basic services to the community and do it well. Unnecessary "nice to have" projects must stop now. Ratepayers are subsidising projects that are costly and unaffordable to most of us. Not everyone uses the library and Council must spend ratepayers' money wisely.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Library in the suburbs and smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers  
2. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Don't know

More windows to help connect the library visually to the square and surrounding streets

Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Churton Park

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Female

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Restore what Te Ngākau means to the city. Over the past 10 years it has degraded due to earthquakes and lack of public use. It is a well designed space and needs to be integrated back into the community, and respond to the needs of Wellingtonians.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

It's been a great idea to keep the libraries going. But they should not be interim

Q16. Where do you currently live?

Outside Wellington City

Q17. Which of the following ages groups do you belong to?

30 to 34

Q18. Please choose the gender that best identifies you

Male

Q1. Your name\* Judith Harris

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The present range of services is excellent. Starting again with a new building will give an opportunity to maximise library services and future proofing, plus avoiding some of the downsides of the present building. And the building will be available to be used immediately after an earthquake. As well as traditional (& new) library services, it should provide: A community hub focus, including the Citizens Advice Bureau, and access to other major wide-ranging non-profit social "help" services. (Many of us would not know about these because they are not centrally located and/or able to afford advertise their services.) Physical elements, to encourage and enable the widest possible use, like the bench seating and individual tables besides the windows and seating elsewhere, as in the old library -- always in use from students to seniors, and invaluable for visitors. A good café, and availability of meeting rooms, to encourage community use.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D -- New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The services within the building are what make the library a community focus. I am a regular and frequent user of the old library and its pop-up replacements. These services are valued. I accept that the timeframe for a new building will take the longest to complete, but it will be worth the wait. The new library can provide new heritage values. The present building is not so valuable as to preclude its replacement with a new building. Architects may value the old library as an example of a particular building style, but as a Wellington resident and library user, the only particularly appealing external features are the colonnades and the nikau palms. These or a similar design may surely be echoed in any new design, if desired. A library, of all buildings, consists essentially of the services it encourages, enables, and provides, not its physical format. Internally, either a remediation or a re-build will obviously offer an opportunity for re-design. I have the following comments on a couple of lesser, but easily overlooked, elements of the present library, which don't help with its role in encouraging use as a community focus. • The entrance foyer is gloomy and uninviting, with a few isolated and disconnected "public service" units sprinkled through an empty area which somehow manages to feel both poky and a wasted space. (Yes, space is necessary in an entrance foyer, but does its design need to feel like a deserted barn?) • Access to the mezzanine floor public meeting room is confusing unless you are already familiar with the building. Any re-design should avoid at all costs the "Te Papa Labyrinth" complexity of access to its various public areas over all floors. (The small pool/water feature outside the ground floor has been dry for years, and is clearly unsuccessful and an eyesore.)

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?      Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Light, airy, inviting to enter. Ready access to staff who are placed in different areas, making it easy to offer and request help. Enough seating to allow use as "drop-in" spaces while temporarily in the CBD. Ability to return books borrowed from other branches without financial penalty – makes the library a real city-wide service. No suggestions for improvements -- they are great!

Q16. Where do you currently live?      Option 42

Q17. Which of the following ages groups do you belong to?      75 to 79

Q18. Please choose the gender that best identifies you      Female

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

More accessible and full of spaces for all members of Wellington's community.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I also am supportive of Option D but think it might take more time to this, hence Option C is my preferred option.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Accessibility
3. Climate change
4. Making the building safe
5. Making the building resilient
6. Opportunities for partnership
7. Te Ngākau Civic Square connections
8. Sustainability
9. Heritage
10. Cost to ratepayers
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I agree it is an important public space in Wellington

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like Arapaki but it doesn't have the same calmness and space of the big library

Q16. Where do you currently live? Newtown

Q17. Which of the following ages groups do you belong to? 30 to 34

- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building resilient
  2. Making the building safe
  3. Cost to ratepayers
  4. Sustainability
  5. Future-proofing the library service
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Churton Park

Q17. Which of the following ages groups do you belong to?

19 to 24

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Sadie Coe

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think you've covered most of my ideas in your proposal. I was pleased to see recording facilities included as this is something I've suggested a few times over the years -- a recording studio and portable recording equipment for hire. I'd love a job running a programme gathering oral histories and community stories please! ;-) I really liked the central library as it was, and would love to see a similar library but with extra spaces for lectures and other community uses such as recording booths. Speaking of booths -- quiet booths where dyslexic people can use speech to text and text to speech without disturbing others would be great. Another community facility the library could provide in its capacity as a community hub would be shower and laundry facilities -- these could be used both by the homeless, and by travellers.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please provide secure bike parking, and plenty of it, to encourage active transport. Please hurry! My children are teenagers and they need a central library! Oh, and I'd like to see the value placed in libraries reflected in better wages for librarians. I'm happy for my rates to go towards this. Libraries are crucial to an informed and inclusive society, and librarians are crucial to libraries. I find it shocking that most of our library staff are only receiving the living wage.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Te Ngakau Civic Square connections
4. Accessibility
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

I didn't realise this consultation was about the whole civic centre. Probably my suggestion of showers and laundry facilities would be more suitable here. Communal eating areas and kitchens available for use by the public would also be good. A soapbox corner type area in civic square could be good. And some trees and more seating and chess tables. Just stream of consciousness as I'm in a hurry, sorry, and wasn't expecting this question. :-) I can't wait for the Town Hall to open up again too. Civic Square could do with a better flow to Cuba St as currently this all feels a bit back entrance-y.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

It needs more desks (like most/all of the branch libraries) and it needs an after hours returns slot, and bike parking.

**Q16. Where do you currently live?** Melrose

**Q17. Which of the following ages groups do you belong to?** 45 to 49

**Q18. Please choose the gender that best identifies you** Female

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The existing Central library was superb, and its loss of service and site damaging to the community. Please restore.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Future-proofing the library service
4. Sustainability
5. Making the building resilient
6. Climate change
7. Opportunities for partnership
8. Te Ngakau Civic Square connections
9. Cost to ratepayers
10. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Ideally more public space, but without evicting neighbouring services I can't see how this would be achieved.

Q16. Where do you currently live? Melrose

Q17. Which of the following ages groups do you 45 to 49  
belong to?

Q18. Please choose the gender that best identifies Male  
you

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Having some more spaces that could serve as meeting rooms which the community can book for small businesses would be idea. It would also be fantastic to have some differing study spaces and also some nooks which would be ideal for optimal study. Having an updated cafe would be ideal.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The Central Library building's external appearance should be preserved as much as possible for the next generation.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Heritage
4. Accessibility
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Continue to have these as great community spaces and the way they are laid out is quite advantageous.

Q16. Where do you currently live?

Johnsonville

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

People were very happy with the way it was. As a minimum, we should be aiming to restore that. People have had enough of grandiose projects that become a financial millstone for ratepayers, especially consider the impacts that the pandemic will have.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The consultation process should have started immediately after the building was closed. Exact costings were not required then, and we certainly don't have them now, so why the big delay? Why do the council officers get to decide what the preferred option is? Shouldn't the ratepayers be deciding that?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Other (please specify) 3. Cost to ratepayers 4. Timeframe 5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? Restoring the service as it already existed.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre He Matapihi Molesworth Library Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Not much. Please restore our central library.

Q16. Where do you currently live?

not answered

Q17. Which of the following ages groups do you belong to?

not answered

Q18. Please choose the gender that best identifies you

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I have little difference in preference between the high level remediation and the new build but I do want high level remediation to mean that this is a much safer, much improved space - while safety should be a top concern, if we could spend the same amount and have a much more functional, future proofed library space then that would be preferable although I would like to maintain the heritage character if at all possible.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building safe
3. Heritage
4. Cost to ratepayers
5. Making the building resilient
6. Climate change
7. Sustainability
8. Accessibility
9. Te Ngākau Civic Square connections
10. Timeframe
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like that they are more available just because there are more locations. There are often large numbers of people in the library on Manners Street (which is closest to me) which puts me off - I like quite spaces.

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It is often an amenity hub for all sorts of people, from the homeless, students, to travelers, to people after a book. Using this diverse group of people to bring their own story and culture to an inclusive space that not only provides warmth, information and internet and charging facilities, but can build each other up.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

This space is for all parts of the community, so not encouraging design to exclude groups that are seen as undesirable, but using design changes to encourage opportunity to serve and help and build up those who enter the space

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Opportunities for partnership 2. Heritage 3. Making the building resilient 4. Future-proofing the library service 5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. [Redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option B - Mid-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Te Ngakau Civic Square connections  
3. Making the building resilient  
4. Accessibility  
5. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing  
More windows to help connect the library visually to the square and surrounding streets. Somewhat unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Great space for entertainment
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Physical location and local assistance

Q16. Where do you currently live?

Kelburn

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\*

Tracy Farr

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

In the first of your recent consultation webinars, Claire Mabey said (of libraries, but of the Central Library in particular), 'It's rare for a building to fulfil so many functions.' Faced with a timeframe of 50 years, there are likely to be functions that a new/renewed Central Library could provide that we can't even imagine. So we have to seize the opportunity to create the "best" space for now and for the imagined future (i.e. we can't just (re)build it for the technology and population and needs of today/2020/2025). Primarily, the Central Library must be flexible, and it must be accessible; it must be open to all, and that access must be (largely) free. Another of your webinar panelists made the point that spaces can be temporal as well as physical – so when we talk about different spaces in the new Central Library, this might mean 'after hours' space vs the 'working day' space, or weekday vs weekend, for the same physical space. The Central Library is, for very many of its users, a workspace (not just for library staff, but for visitors who use it in many and varied ways). The Library needs great facilities for its staff, and to recognise and value their expertise. For its visitors and users, it needs quiet spaces (where you might legitimately expect to be 'shushed'), but it also needs spaces where people can meet and discuss, or work together, whether in twos or threes or larger groups. The Library needs spaces that work for the different ways that different people sit (or stand) and work – and I note that Tūranga in Christchurch seems to do this very well – e.g. not all the same one or two models of chair throughout the building, but different seating options so that users have choice; perhaps blinds that can be lowered or raised (against afternoon sun, or for optimal screen viewing), and lighting that can be adjusted; small tables that can be used singly or pulled together for more communal work. As well as books and magazines on shelves and online, the Library should have clear and straightforward paths to access any parts of the collection that are not on-site or front-of-house (i.e. on-site or off-site stacks are fine, as long as paths to access are really clear). The Library needs to have spaces for ideas that are not (or not yet) in books and other publications – spaces for events (author talks; panel discussions; book clubs; festival events; seminars and workshops), spaces that showcase ideas and creativity and politics and art. The Library needs to make space for people to just be, without a particular task or topic or intention. The Library needs to continue to be a refuge, as it is for so many. The Library needs to cater for diversity, without judgement: It needs to make space and have space for children to read and to be read to (and it needs staff qualified in this area), where kids can simply be around books. I love the new sorts of spaces that libraries have – maker spaces, digital labs – and I hope our new/rebuilt library will incorporate these. Our Library should have the capacity to borrow (whether in-library or for home use) more than just books. I want our new/renewed Library to be a destination, as our dear old Library was. I want it to be the reason I travel in to the city (I live in the Eastern suburbs). I want it to be a place for discovering something I didn't know I was looking for (a book, an idea, an image, a hobby, an old friend, a movie, a book review, a really good cup of tea – there really needs to be a cafe!). The Library needs to be connected. I love the increased connectivity in your plans for Option C – connectivity to the different streetfronts, to natural light, to City Gallery/Civic Square; and it looks more open internally, too. Speaking of connectivity, the Library needs to be wired, and I am sure your refit or new build will achieve this. Like Tūranga in Christchurch, our new/rebuilt Library needs plenty of power points and USB outlets and charging stations – lots of them, in lots of places. It needs fast, free WiFi. Connecting outwards: the Library should be supported to foster partnerships with the creative sector, community organisations, and in education and literacy.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

**Q8. Is there anything else you would like to tell us about the future of the Central Library building?**

The sense that our Library is at the heart of what it means to live – and live well – in Wellington has only been strengthened by its recent closure. It is sorely missed. Having read the Statement of Proposal, perused the information on the WCC website, and watched most of the three recent consultation webinars, I reject Options A and B (low-level and mid-level remediation respectively). Your own SoP clearly lays out why neither of these options is the right solution to the library problem. Before reading your SoP and other documentation, I had been strongly inclined towards a new build as the solution to the problem, so would have favoured Options D and E (new build on same site or another site). This was at least partly in response to my experience of Tūranga, Christchurch's beautiful new central library. On a three-day visit to Christchurch last year, I worked for several hours on each of three days in Tūranga – I wrote one talk, finished writing another; I read, browsed the shelves, checked emails, printed paperwork – and found it the most wonderful place to work. The building, with its many and diverse spaces, is welcoming, filled with light, connected with and visible in its surroundings. It is both relaxing and invigorating. And it is beautiful. But, having read all your documentation, I'm swayed towards Option C, High-level remediation (your preferred option). I hope that the extensive refit included in this option will deliver many of the features of Tūranga (light and bright, connectivity internal and with surroundings, diversity of spaces) that I so admire. I'd also be very happy with Option D or E, if either of those was adopted.

**Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**

1. Making the building safe
2. Making the building resilient
3. Sustainability
4. Future-proofing the library service
5. Te Ngākau Civic Square connections

**Q10. If you selected 'other' above, what other factor was important in your decision?** not answered

**Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

not answered

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** I have not visited an interim library

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

I don't love them. Arapaki is tiny and (when I last visited) very overcrowded. I need to get back to them and explore more.

**Q16. Where do you currently live?** Strathmore Park

**Q17. Which of the following ages groups do you belong to?** 55 to 59

**Q18. Please choose the gender that best identifies you** Female

Q1. Your name\* Jackie Foster

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should be a place for learning and a gathering place for the wider community. It should also be a place for providing access to technology (computers, e-readers) to those who cannot afford such luxuries.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The design should be flexible enough to accommodate technological (and other) changes down the line but not to the point of paralyzing the decision making process or overburdening the tax payer with costs. Planning for the future is good, but planning for the next 50 years seems fraught with peril. We could have flying cars, brain implants and holo-decks by then or Wellington could be under water. So you need to find the right balance between meeting the needs of the 10 years and allowing for the flexibility to adapt over the next 25.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Timeframe
4. Sustainability
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I see the role of Te ngākau Civic Square as a place that welcomes "gathering". Its design should reflect this by being open, inviting, light and accessible for all.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I think the council has done an excellent job under a difficult situation. The Manners St branch is always hopping with activity when I've been there.

Q16. Where do you currently live? Southgate

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

Respondent No: 1198

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The new Central Library should seamlessly integrate physical and digital resources and incorporate areas which allow individuals and groups to explore all that a modern library can offer.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Making the building resilient
4. Accessibility
5. Opportunities for partnership
6. Sustainability
7. Timeframe
8. Cost to ratepayers
9. Climate change
10. Te Ngakau Civic Square connections
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre
He Matapihi Molesworth Library
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Outside Wellington City

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Female

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think that having closed rooms / spaces that community groups could book for meetings etc would be helpful. I also think that the library provides a 'third space' (i.e. separate from home/work) for people to spend time in that is free and accessible to all and I believe this should continue

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think the Nikau palms outside could be repurposed in the design for continuity, but I don't have an emotional connection to the existing building itself.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Making the building resilient 3. Cost to ratepayers 4. Accessibility 5. Future-proofing the library service 6. Te Ngakau Civic Square connections 7. Climate change 8. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

If the library also served as a space for more open/public council discussions or debates / speeches

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I think that the smaller branches make collecting books more accessible as people can incorporate picking up a reserve (or a book in that collection) in their day to day easily. I also like access to other Council support at Arapaki Manners. I think that if there were an option to have smaller hubs available alongside the central library this could be considered as it increases access to facilities

Q16. Where do you currently live? Kelburn

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Female

Q1. Your name\*

Leila Martley

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Option C is fine, but to wholeheartedly support would like better explanation of why not Option D.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I am undecided between option C and option D. In order to wholeheartedly support option C I would like to see some effort to quantify option D environmental costs (e.g. landfill, CO2 estimate). The point that "D" would not protect heritage is vague, and discounts the utility/value that people could get from the pleasure of something new, and that may in time have a greater heritage value. The library was wonderful at its creation, but something new could provide something equally wonderful or even more exceptional. In order to support Option C some mention or description of interdependency with the Civic Administration Building would also be helpful. If this is also to come down, then surely there is an opportunity/misssed opportunity to jointly manage the two sites.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Future-proofing the library service
4. Te Ngākau Civic Square connections
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The space is excellent as it was. The return of Capital E is also a good initiative.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Strathmore Park

Q1. Your name\* Amanda Walker

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September). No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think that a new build on the existing site allows the best option to provide the best library & affiliates service for the city, in the way more likely to deliver to the timeline & budget outlined. Refurbishment is more likely to result in extended timeframe & costs due to unforeseen costs typically associated with refurbishing an existing building

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Cost to ratepayers
3. Future-proofing the library service
4. Timeframe
5. Sustainability
6. Making the building resilient
7. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Completing refurbishment & building of all the other building around the precinct, ie old town hall & civic offices, would help restore its place in the fabric of the public life of the city.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Q1. Your name\* Josh Blackmore

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I support a modern view of the value a library can provide as place for communities to connect. I encourage a focus on younger people when considering library design. As a young person and young adult, I believe a key reason why I developed a love of reading was because of access to library facilities. Designers need to ensure that a library is attractive to younger people to ensure they are able to kindle their desire to read and explore knowledge and learning. This is particularly true for children who may not have these opportunities at home. The Chch and Johnsonville libraries are good examples of facilities which I think will be attractive to younger people. In addition, the Central Library and other like facilities are critical for young families with children who need access to communal facilities regularly. The Central Library has always been a place for us and our young children to connect with our whanau (whether in the library or in Clarks cafe).

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I urge WCC to disregard the views of people who are focussed on the building as a building, rather than as a space to facilitate connection and learning. I have absolutely no interest in the library building as a heritage or architectural icon or similar. I believe your utmost focus should be on facilitating the most rapid option to deliver a functional library to Wellington. Any time and money spent focussed on the building for its own sake is an absolute waste and is merely preventing Wellingtonians from accessing services.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Timeframe
4. Accessibility
5. Cost to ratepayers
6. Opportunities for partnership
7. Te Ngakau Civic Square connections
8. Sustainability
9. Future-proofing the library service
10. Climate change
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I am not as wedded to the Civic Precinct as a public space in the same way as others appear to be. I don't find it as appealing as seems to be the prevailing opinion. I think WCC should focus on expediting a safe and reasonably costed library facility even if that requires a move from Civic Square, although I accept that if it is possible to develop the library in that area that could be preferred. At the end of the day though, Civic square is irrelevant without the services that people need.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 35 to 39

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
The library should be inclusive, but it should not stray from its central purpose, which is to house a collection of books for loan.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
The building is a key piece of Wellington's architectural history and should be preserved if at all possible.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Heritage  
3. Making the building resilient  
4. Accessibility  
5. Future-proofing the library service
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
I would love to see more people in the square. Rip up the astro turf - it's old and ugly now. It would be lovely to have a coffee cart or something similar in the square so we could use it more.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
He Matapihi Molesworth Library  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

They're a fantastic way of allowing us to keep using the library. Would be great to have more shelf space because browsing online isn't the same as browsing the shelves.

**Q16. Where do you currently live?** Hataitai

**Q17. Which of the following ages groups do you belong to?** 30 to 34

**Q18. Please choose the gender that best identifies you** Male

Q1. Your name\* Stephen Franks

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

First decide what services are going to be needed, then how much to spend on them, then whether they can be best provided from some of the many buildings about to become vacant because of Covid collapses, then decide if the current Library building is the best suited. It is not worth spending more just to save it because of its appearance or history.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Strengthen the current building to enough to re-occupy as office space, if that is cheaper than your alternatives for office space. Spread library functions in other places to spread the buzz.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I like its appearance and feel. But it was always a non-participant in Civic Square, which itself is a sterile and mostly useless space, too far from the water to be interesting, and without enough commerce around it to be vibrant.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision?

Empty jargon means that none of those possibilities properly reflects the proper priorities. you can't "Future-proof" library services. They are rapidly evolving, and will for the foreseeable. And they are what matter - not a building.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It does not play an important part. It is not nearly as important now as the waterfront. And it is sterile, and will likely remain so, because you can't surround it with cafes and bars and it is drafty

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, He Matapihi Molesworth Library National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Proximity

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? Prefer not to say

Q18. Please choose the gender that best identifies you Prefer not to say

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

More shared spaces, including more private rooms for meetings, teaching, study, music etc. Greater collaboration with outside organisations/other council services. One benefit of the Arapaki Manners pop up is the co-location of the library with council helpdesk. Could have a space in the new library for organisations to come on a rostered basis and have a place to be visible/help the public. e.g. JP services.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I support the preferred high-level remediation option. In my opinion the only two real options are option C and D. But regarding option D, I really love the building as it is now, and I think it would be a huge loss to the city if it was demolished. I think a lot of the benefits of a new build e.g. the ability to configure spaces in a more modern, fit-for-purpose way can for the most part be achieved without having to demolish the building.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Future-proofing the library service
3. Heritage
4. Timeframe
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6 Te Awe Library Brandon and Panama Streets  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like that they all have a point of difference and are not just three versions of the same thing, e.g. Molesworth's NZ collection. I think it's great that most of the books in the pop up libraries are newer titles, but at the same time I miss being able to browse a wider collection of older material as well. I'm not sure if the materials are rotated, sometimes it seems like it's mostly the same stuff there all the time, and it would be good to have different books. I think the 'roving' model of librarians floating around, and not having a central helpdesk isn't that great. Can be a bit confusing to try to figure out who to ask a question. In the new Central Library I'd like there to be a more clearly defined place to get help, like there used to be at Central with the information desk.

Q16. Where do you currently live? Outside Wellington City

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Helen Rickerby

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I look forward to a library that is welcoming to everyone - a kind of living room and study of the city. Providing books, magazines and other kinds of information is fundamental to the library, but also it should be a space where people can come - for study, reading, writing or even just to relax - there are very few 'common' spaces that people can just go to in the inner city without having to pay money, especially for people with children. There also should be spaces for various kinds of events, and places where people can access technology. I am in favour of a proposal made by the Verb Festival that there should be a writers' centre.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Heritage
4. Other (please specify)
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? The ability to completely redesign the interior of the building, so it can work better and be more vibrant than the old design.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's a space I really like, though at the moment with so many surrounding buildings closed it is a bit dead. It would be more vibrant with some cafes around the edge with outside tables (a very similar space in the Museums Quartier in Vienna is like that). It could also do with more shade in the summer - perhaps a few more trees?

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live? Aro Valley

Q17. Which of the following ages groups do you 45 to 49  
belong to?

Q18. Please choose the gender that best identifies Female  
you

[REDACTED]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
  
There is an opportunity to also provide spaces for community groups to cohabit - similar to the CAB
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
  
Retain and re-use some aspects of the current building, such as the nikau palms, but better to start again, rather than try to re-make the current building. Build it for the 2020's onwards, not re-use the idea from 20 years ago.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Opportunities for partnership  
3. Making the building resilient  
4. Te Ngakau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
  
Need to have a bigger view of library builds so that integrates with the other buildings and functions around the civic square so that this space is better utilised.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q1. Your name\*

Neil Fraser

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Incorporation of current services and activities (information repository and provision, book lending, newspaper and magazine availability, reference access etc) but updated for various technical and technological developments since construction. PLUS enhanced emphasis on the building's role as a cultural hub, meeting place, performance space, meeting and convening possibilities. This could include a small to medium-sized auditorium (for lectures, debates, films, small concerts, poetry reading, literary events, ....). Also, several meeting spaces, of various sizes, for community groups, NGOs, etc -- Audio/video studio -- Gallery space(s) -- Bookbinding studio Note that it also presents an opportunity to influence the impact on ratepayers for several decades to come (see below).

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one

Option D -- New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

p31 of the Consultation document suggests that "some people believe the (current) building has historical value in its design ....". I also know that for 'some people' (or even more) the building does not have much aesthetic appeal, particularly looking from the western side of Victoria Street, and certainly insufficient to accord it heritage value. Let's see what Heritage New Zealand comes up with. The single redeeming feature is the several Nikau palm sculptures dotted about. These Nikau could be incorporated into (or even be made a defining feature of) any new building. Let the Nikau be Athfield's legacy from this building. I was very impressed by the Christchurch library when I visited it, and believe that a new Wellington Central Library could be informed by it. I note that it is reputed to have cost about \$97 million, hence we could have two of them in Wellington instead of Option C. Because we do not need two central libraries perhaps we could have a slightly enhanced ChCh Library and still have \$\$ left out of \$199.8million. This would provide some relief to future generations who will have to pay off whatever construction is used in Wellington. (I am a retiree and will not have to bear the full servicing costs of the new library, but do feel for current youth who will be paying for a new library, Covid-19 debt, and climate change. I would like to see us make some effort to limit their future burden, incurred by a demographic who will not be here to pay for it.) P7 of the Consultation document notes that the 'Building services' are "close to the end of their operating life". Perhaps a new building could be built such that 'Building services' last longer than 30 years. And then maintained/replaced such that future generations do not inherit a 'Wellington waters decades of neglect and deferred decisions'-type situation. Because this is Wellington, I assume it goes without saying that a suitable cafe is expected .....

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Future-proofing the library service
3. Cost to ratepayers
4. Sustainability
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing
- More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Newspaper and magazine availability. Access to the Financial Times Weekend edition would be improved if it were made available for more than the week (or less) that it currently is; two weeks at least? (Or three or four weeks kept available for perusal on request.)

Q16. Where do you currently live? Wadestown

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

Respondent No: 1213

Q1. Your name\* Mary-Claire Lindsay

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Having visited the new Christchurch library, I understand how our 'old' library could be renewed and taken into the future. But I think it should be done on site, perhaps taking over spaces within the building which are not presently used by library

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Minimal level repairs followed by a future upgrade

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building resilient 2. Cost to ratepayers 3. Timeframe 4. Heritage 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

We need light and energy back in Civic Square, it is an easy link to the wharf area and knits our city spaces which is essential.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Manners St is awful. So many people, including staff just 'hanging' with no where to go?! Very small - Brandon St has a  
much better vibe, but of course nowhere near The Original!!

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A new hub for the city. Renovation buildings - there are so many unknowns and the budget youve noted will blow out based on experience.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

International competiitiion could be a good way to get a great nw building. Dont miss a chance to get a real focus (like Chch did)

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Other (please specify)
2. Future-proofing the library service
3. Cost to ratepayers
4. Sustainability
5. Te Ngakau Civic Square connections
6. Opportunities for partnership
7. Accessibility
8. Making the building resilient
9. Climate change
10. Making the building safe
11. Timeframe
12. Heritage

Q10.If you selected 'other' above, what other factor was important in your decision? A beautiful building

Q11.Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12.Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Miramar

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Male

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A very fine example of a library that is more than just books: <https://libraries.dlrco.co.ie/using-your-library/find-your-library/dlr-lexicon>

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

My suggestion would be to preserve the existing building digitally, with high resolution images etc., and to create a virtual walkthrough that could be part of a permanent exhibition in a new build, to address heritage considerations.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Sustainability
4. Climate change
5. Future-proofing the library service
6. Accessibility
7. Cost to ratepayers
8. Timeframe
9. Opportunities for partnership
10. Te Ngakau Civic Square connections
11. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live?  
Oriental Bay

Q17. Which of the following ages groups do you belong to?  
40 to 44

Q18. Please choose the gender that best identifies you  
Male

Q1. Your name\* Deborah Panckhurst

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Information and cultural background required by the community \_ in various forms.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current Central Library Building is at the heart of the city. It makes a statement about the connection of the people of Wellington, and about the information that makes that connection. It should remain at the heart of Civic Square, Te Ngakau.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Te Ngakau Civic Square connections  
2. Future-proofing the library service  
3. Accessibility  
4. Opportunities for partnership  
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Vital that all Wellingtonians should feel welcome. The Library does that - no discrimination.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

They are useful placeholders, but not a substitute for a Central Library in the capital.

**Q16. Where do you currently live?**

Woodridge

**Q17. Which of the following ages groups do you belong to?**

60 to 64

**Q18. Please choose the gender that best identifies you**

Female

Q1. Your name\*

Allan Bracegirdle

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Continuing with existing library as it was, and availability of books

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

First of all, more information is required on the [extremely hasty] decision to close the library over one year ago, including legal necessity, contesting of engineering advice, and acceptance of risks in Wellington of an unsurvivable earthquake

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

See earlier comments

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

Getting the library back in operation in the shortest possible time

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

See earlier answers

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Very limited, scarcely a start

Q16. Where do you currently live?

Crofton Downs

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe
3. Accessibility
4. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Personally I find it underutilised, its a useful shortcut from Courtney Place to Lambton Quay and generally WCC exaggerate its importance to the city-I think the harbourside is of more value to the city

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Hataitai

Q17. Which of the following ages groups do you belong to?

60 to 64

[redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- It should be a community centre as well as a library. Facilities such as cafe, meeting/study rooms, comfy reading areas, spaces to study for students, a meeting place for the community, a safe space for kids to play. The facilities at Johnsonville library are great, if they could be included as well that would be awesome, i.e. makerspace, recording studio, printers etc.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Other (please specify)
  2. Future-proofing the library service
  3. Accessibility
  4. Sustainability
  5. Te Ngakau Civic Square connections
  6. Making the building safe
  7. Timeframe

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

This is an opportunity to build a modern community building for library and other uses.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I believe it would have been helpful if the insurance and other relevant running costs directly linked to each option was estimated.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Cost to ratepayers
4. Te Ngakau Civic Square connections
5. Climate change
6. Opportunities for partnership
7. Accessibility
8. Sustainability
9. Future-proofing the library service
10. Heritage
11. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I believe the Library plays a vital part in the success of this space.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Brooklyn

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Male

Pip Kennedy

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Having a City Library is an importance facility for Wellington citizens.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Preserving some of the existing Nikau features into a new structure would be nice, but the existing building is not so special that spending potentially an additional 40M is justified or prudent.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Cost to ratepayers
4. Future-proofing the library service
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Neutral

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think it is used a lot less now than it used to be a few years ago due to the issues with the council buildings, Town Hall & Library, reduced access through & less reason to be there.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They do not have the range to browse that was available in the Central Library.

Q16. Where do you currently live? Thorndon

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

Respondent No: 1223

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Small meeting rooms could be provided, or even enclosed spaces for student groups, who would be able to converse without disturbing others. A small theatre space for author talks, or the previous Thur night movies

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The building CANNOT be demolished. It is the most ICONIC building in Wellington (comparing with Behive) and was designed by NZ's most prominent architect. The brilliance of the full height glazed and curved east wall giving the interior natural light (but free of sun) with all the study spaces and tables up against this wall. This effect would be ruined by introducing more entry points on this east face.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Making the building safe
3. Making the building resilient
4. Timeframe
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Neutral

More windows to help connect the library visually to the square and surrounding streets

Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

- maybe some picnic type tables and mobile food and drink caravans at perimeter - a permanent stage area

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

1. Magazine range not as widespread as old library, especially in social comment, music and movies 2. Te Awe library DVD collection now approaching original range

Q16. Where do you currently live? Johnsonville

Q17. Which of the following ages groups do you belong to? 70 to 74

Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Khandallah

Q17. Which of the following ages groups do you belong to?

25 to 29

Q18. Please choose the gender that best identifies you

Female

Q1. Your name? Sharon Inch

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Ultimately it is a library. Good spaces for people of all ages to sit and read or study. Don't over think it. It doesn't have to be gold plated. Ensure all the space is used well (no large open floor to ceiling areas). It would be nice to rebuild the library now, but we have stormwater/wastewater infrastructure issues that need urgent attention and should take priority. Devolved hubs can suffice now, and a new library be built in 10 years. Don't overload ratepayers at this time. There should be no special projects being considered either.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Your reasons for rejecting a devolved model are not compelling and can be accommodated at a lower cost than one central library. Multiple hubs allow easy access from different areas of the CBD, as well as reducing parking problems. The hubs are cosy and accessible. Civic square has not been a central hub for Wellington prior to the earthquake.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I don't think it has traditionally played an important role for the CBD. Build on the library site in 10 + years time when we have fixes for the stormwater / wastewater under way. Devolved hubs for libraries will do fine in the meantime.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like them - they are close by and easy to find. They are cosy and inviting. The cafe in Te Awe is a good feature and I love the wood fit out. Don't waste the money already spent on these hubs. More hubs like this can be added as the opportunity arises (at a cost that ratepayers can handle in the current conditions). I don't like the big open air libraries with a lot of empty / wasted internal floor to ceiling spaces.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Esther Tetlow

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I would like it to be light, airy, beautiful. I would like it to be warm and inviting - somewhere students can study, parents with young children can have a moments peace, and those sleeping rough can come in from outside and sit a while. Libraries are sacred public spaces.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
2. Te Ngakau Civic Square connections
3. Accessibility
4. Climate change
5. Future-proofing the library service
6. Sustainability
7. Making the building resilient
8. Timeframe
9. Cost to ratepayers
10. Opportunities for partnership
11. Heritage
12. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? The 90's are not long enough ago to preserve a building's heritage. We have the opportunity to make something beautiful - we should take it.

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is one of the few free, indoor public spaces. It can be beautiful, and needs to be accessible and welcoming to all.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? No sense of space and light. They feel temporary.

Q16. Where do you currently live? Wellington Central

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

There should continue to be quiet spaces for people to sit and read. I was distressed visiting the library one evening to have to put up with a TV blaring opposite the issues desk on the ground floor that could be heard on higher floors as well.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A welcoming space. Access to resources for all ages in print, digital or audio formats. Meeting rooms. Provision for a cafe, Citizens Advice Bureau.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The building must be completely safe but I question why the strengthening process is estimated to cost considerably more than demolition and rebuild. At a public meeting in July 2019, an architect and structural engineer stated the central library could be strengthened at an estimated cost of less than \$100 million. Structural engineer Adam Thornton estimated the total strengthening cost including base isolators would be \$68 million.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Cost to ratepayers
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Important for the Civic Precinct to continue as a venue for formal or informal gatherings, large or small.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I have been to Arapaki Manners Centre only and was hugely disappointed. It's small, uninviting and inadequate; an apology for a library. I use the Kilbirnie (Ruth Gottlieb) branch library several times a week and order books online.

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you belong to? 75 to 79

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A new design would enable us to provide Wellington with a new, modern library design that is able to function as a focal point for both the community and for Civic Square in ways the current building simply can not. The existing building fails to actively connect to Civic Square, instead essentially having it's back to the Square, with the main entrance on Victoria Street, a busy traffic lane with minimal foot traffic. A cafe could be added at ground level to help engage with the square, the constant flow of foot traffic to both the library and the cafe would serve to create a far greater level of both transitory and static human interaction with the square. Christchurch's new and incredibly successful library is a shining example of what a new, modern design could offer, and would also offer far greater value for money than millions spent on unseen remedial works. Light levels, accessibility, programme, aesthetics, community engagement, Civic Square activation could all be improved with a new design.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We have a very rare opportunity to add a new civic building to Wellington City, one that could be world renowned. Frankly the existing building, much like Te Papa, is an aged and dated design that struggles to meet the requirements of a modern and cosmopolitan city such as Wellington. We shouldn't be scared to demolish a building purely because of its association with a particular architect - unfortunately, much like clothing, some designs simply do not stand the test of time.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Te Ngakau Civic Square connections
3. Making the building resilient
4. Cost to ratepayers
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? By replacing the existing building with a completely new design rather than working with an existing building, we have an opportunity to provide an outstanding design that meets all of the above - both in terms of value for money and outcome.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

The one thing that Civic square lacks above all else is - people. Unless there is a specific event happening, there is just nothing in the square to encourage people to linger (aside from the lunch crowd on a sunny week day). Having a library that better connects with the precinct will encourage a diverse sampling of people to not only pass through the precinct, but also to occupy (addition of a precinct level library cafe would greatly help here).

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?**

Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply**

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

not answered

**Q16. Where do you currently live?**

Brooklyn

**Q17. Which of the following ages groups do you belong to?**

50 to 54

**Q18. Please choose the gender that best identifies you**

Male

Q1. Your name\* Makahu

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Cosy work spaces, quiet rooms (sound-proof boxes, meeting rooms), small theatre for documentaries and presentations, lectures. Sunny spaces, cafe, multi-media and digital zones.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It's not cost effective to renovate, refurbish and strengthen the existing space. Plus it will take too long. Knock it down and rebuild on the same site from scratch, make sure its earthquake future proofed. I'm a rates payer and I work in the CBD. You should look at borrowing to fund the project as interest rates as so low, rather than passing this on to ratepayers.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Cost to ratepayers
4. Future-proofing the library service
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Just make sure we continue to have the square/public space in future and not redeveloped into a building. The open space in the sunshine is lovely.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I love the Te Awe inner city library. Please keep this space in future even if a new replacement library opens at Civic Square. So much thought has gone into the new Te Awe, its very cosy with the new cafe, quiet work spaces, couches, working tables, window tables and meeting rooms. Its very well though out and we go every week. We would love for it to stay!

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Male

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library presents a remarkable opportunity to extend library facilities. However the basic need for Wellingtonians to enrich their lives through books remains an important one. Wellington need to provide library facilities to promote a cultural heart. A reading public is the basis of a library. Increasing the opportunities for personal growth by providing the space for that to occur is an indicator of a responsible city, a responsible capital and the heart of a city.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The Wellington Central Library is a building of outstanding architectural importance. It adds life to the central city just by being there. It is fun; it has the language of architectural history in new ways. It has been called wellington's living room because it feels like the hearth and home of the city. It has a future for this experience which draws me as a Wellingtonian and draws visitors that tell me about their experiences there. Very few city buildings can engender this feeling. it is often only found in national buildings. Here is a building that can remain the heart of the city in the future.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Heritage
3. Te Ngakau Civic Square connections
4. Timeframe
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is most important that a civic space where people can gather is safe, large enough and with activity edges that are accessible. Currently the Civic Centre has too little pedestrian activity edges - even before the closures. The opportunities for people to go in and out of all buildings will bring greater activity to the centre.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are there. And that is positive. Arapaki is too small, however Te Awe provides more. Even so, a library needs the degree of entrance, and space. The interim libraries are just ok but do not allow all the activities that need to happen. When I go to a library, I am often taking young children. It is not just me. I need the spaces that not only satisfy my age group and abilities but those of my family. Books for young children are incredibly important and the need for libraries where people are cannot be overstated.

Q16. Where do you currently live? Wellington Central

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Event spaces are greatly needed and the current Library does not offer this. A separate youth library within the new build to help promote and support our young people encouraging to use library facilities is very important as this group is often missed out. A complete new build will allow for a building that will take us forward into the future. More space for storage of books so less books have to be got rid of

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Wellington Central Library (and City Libraries in general) are perhaps the most important of our contemporary public building. While their prime function is to access (in a variety of ways) a great collection of books (either online or in hard copy) across all library categories - they also represent a quiet, reflective place to read or study and the location for a wide range of more active social and community activities that can comfortably co-exist with a Library's primary function. Consequently, a contemporary public library has to have the ability to spatially adapt over time as Library functions grow and new, related programmes are developed. The existing building is widely recognised as an important architectural contribution both to the city and to the wider composition of the Square and its other surrounding buildings. While the building itself has been designed as - for want of a better word - a large "tent" space capable of spatial rearrangement within its walls its architectural presence in the city, its built iconography and its architect are all acknowledged nationally to the extent that the building has been (and is) closely associated with the city's identity - recognised in the architectural awards given the building.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Any discussion of the building's future has to be considered in its wider setting of the City Square precinct and the building's intended relationship to that precinct. It would be a serious mistake to confine discussion of the building's future to the building in isolation from these crucial surroundings.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Making the building safe
3. Te Ngakau Civic Square connections
4. Future-proofing the library service
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

I was closely involved in the thinking behind the collective development of the Square and the development of its public life and its surroundings as - initially - part of Athfield Architects - and as the Council's first formally designated urban designer throughout the 1990s. It has always concerned me that a very carefully composed design attached to the development of an active life at the heart of the city has often been misunderstood and treated badly in the sense of public custodianship. The failure to revive the surface pools, the failure to develop a successful strategy for active edges around the Square, the removal of the portal without considering the drama this gave to arrival in the Square; the vacancy of the Capital E space and the occasional ad hoc treatment of the original Square itself have all reduced the presence of the Square over time. Of all the buildings that surround (and make up) the Square, the Central Library building has always made the strongest contribution to the wider Square precinct of which it is a key part. In particular, the public route through the building from Victoria Street into the Square and the giant curved glass bay of its eastern frontage to the Square are the most successful parts of this contribution. This is, in part, why the design of the existing building should be treated with great respect.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply**

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Of the interim branches, Te Awe - the most recent addition - is the only one that has anywhere near the feel of a Central City Library - but it is still a poor substitute for the strengthened, refurbished and recovered Central Library building.

**Q16. Where do you currently live?** Mount Victoria

**Q17. Which of the following ages groups do you belong to?** 70 to 74

**Q18. Please choose the gender that best identifies you** Male

None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
Based on other projects of a similar size and nature, we consider most value to ratepayers to strengthen the existing library such that it is safe but will require demolition after a significant seismic event. The basis of the design involves leaving as much as possible of the library in its existing state/use. To save costs, whilst having a sensible seismic solution we would like the following explored further: -steel frames retro-fit to the interior, with minimal disruption to existing interiors and layouts -foundation beams rather than piles -Floor strengthening works to prevent collapse of floors. Steel frames to be placed and spaced in a manner to minimize existing floor diaphragm loads The objective of the design is to have high ductility and enough stiffness to prevent any failure causing loss of life. the design will be focused around minimal disruption to the existing interiors/structure of the library. Limiting make good aesthetic work. We also note from past seismic events new learnings eventuate. This also applies to base isolation. Steel frames have proven to be a cost effective and robust way of strengthening buildings and removing torsion. Foundation beams are also proven effective where alternative pile schemes create excessive make good works.
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library is a place for all Wellingtonians and visitors to our city, it needs to be open, accessible, attractive, welcoming and deliver on the services we expect of a modern public city library. The current building is none of those things. Do not waste our taxpayer dollars on remedial works to a library building that has never been fit for purpose. The old building is dark, difficult to navigate, old fashioned and is not what we expect in 2020 from a library. I would like to see a new, purpose built, modern building replace the old one. I would like to see light brought in, good use of stairways and wall and window space for incidental seating. I would like to see a really exciting and thoughtful children and family area where a place for reading and learning is also fun, colourful, engaging and maybe even ok for kids to laugh and make a little noise. It would be great to have different zones for different purposes, perhaps getting quieter as you go up levels, with more singular spaces for study and quiet reading, with the lower levels more open, flowing with shared seating and tables for collaborative working and reading and great lounging spaces for children and a teens area where the older kids can be near to the music section to make it all feel a bit more relevant and cool for young people. of course is must include a very Wellington-inspired cafe perhaps on the civic square side to draw people in. Please engage one of the many outstanding, creative and clever architecture firms in this city to build us a magnificent city library that connects to the civic square and is a place where people are excited to visit - on their own, with kids, to work on their laptop, read books, browse music, lounge about and enjoy the atmosphere even. I want a library to hang out in. DO NOT WASTE MONEY EARTHQUAKE STRENGTHENING THE OLD BUILDING THAT IS AN APPALLING WASTE OF RATES.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The whole civic square is currently at risk of becoming irreverent and a wasted space - this would be a crime given it's prime location connecting the corporate side of the city to the waterfront and to the Cuba Street and Courtenay Place ends of town. Treat the new build as a chance to revitalise the whole area!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Te Ngakau Civic Square connections 2. Future-proofing the library service 3. Accessibility 4. Making the building safe 5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's so important we value this area and improve it. The location is perfect but the current library acts as a block to the square. A new library must connect with the square and invite people in. Use the opportunity to improve the square itself and the connection to the waterfront.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

they have served a purpose but I have preferred my local while I await a NEW build of a city library

Q16. Where do you currently live?

Brooklyn

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think first and foremost a library should be a place that encourages reading - yes it should be a public space that people can spend time in - but a library should be designed to foster reading in people. The Old Central library was great at doing that and I hope that any new redevelopments have the same focus as what they are replacing.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Timeframe 2. Accessibility 3. Future-proofing the library service 4. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

In my personal opinion, the importance of the Civic Precinct comes from the buildings that are nearby. If one wants to improve the space one should first focus on making sure that the buildings like the central library are open and capable of making it the important center of our city.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I think they are a good stop-gap measure, but Wellington City needs a library. A proper library. In the meantime, I think that ensuring that the interim libraries have space for people to study and read in is very important. I like how the Brandon street library offers this.

Q16. Where do you currently live? Kelburn

Q17. Which of the following ages groups do you belong to? Under 18

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Spaces to gather, spaces to read, spaces to work and space to think

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I love the library. But it has served its purpose and the city can not afford to strengthen the old building and the expense of other projects (water pipes as one example). Striking elements of the existing building (the Nikau pillars) could be salvaged and incorporated into the new building. But we should not send the city further into debt to retain a building when we have the opportunity to rebuild.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Cost to ratepayers
3. Timeframe
4. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

No space to work, very small. But at least there is an option

Q16. Where do you currently live? Kelburn

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Female

Q1. Your name\*

Ivan Eiroa Santamarina

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Resilience, functionality and cultural awareness at the centre of the earthquake-damaged city's Civic Precinct.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option E – New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I have not seen a wider context analysis in the options presented. The civic precinct does not work at the moment. It would have been nice to see a wider context analysis to identify how people were using the spaces and why it has never been a successful space.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Accessibility
2. Climate change
3. Making the building resilient
4. Other (please specify)
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?

Include narrative urbanism opportunities in telling Poneke story.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is not a legible clear accessible space, level changes and the effort to connect to the Waterfront over Jervois Quay makes it really hard to read as a user.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are good.

Q16. Where do you currently live? Newtown

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Male

Q1. Your name\*

Jill Hulmston

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

look at Palmerston North Library as an example of a library that is functional for everyone.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It needs to be practical and laid out in a manner which is easy for everyone to find what they're wanting.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Sustainability
3. Making the building safe
4. Making the building resilient
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Khandallah

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Abby Patterson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

My submission is that Wellington desperately needs a major library. That is, "a building or room containing collections of books, periodicals, and sometimes films and recorded music for use or borrowing by the public or the members of an institution." I strongly oppose the vision of the future Central Library in the artists' impressions available on the Council website of huge empty spaces like an airport lounge, with mostly space, a handful of seats and no books! So, if it needs to be said, what the Central Library could provide to support the community in Wellington is collections of books and other items such as magazines, which are available for people to borrow. This should be the absolute priority.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Other (please specify) 3. Accessibility 4. Cost to ratepayers 5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? library collection available to browse

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are fine as tiny branches but they are no comparison or replacement for the Central Library.

Q16. Where do you currently live? Miramar

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Comprehensive collection of books structured in a logical manner. Safe, warm, comfortable environment. Example: Palmerston North Library

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Keep it simple. No over the top expensive architecture. Its about the library inside and not what it looks like outside.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Making the building resilient 3. Accessibility 4. Cost to ratepayers 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Currently fails to deliver. Needs a re-think.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Nothing. I use Palmerston North library.

Q16. Where do you currently live? Khandallah

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Male

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A place for people to work together and learn at all ages. A place outside of the economic profit model - you put money and expertise in, and library comes out the other end. A place where noise doesn't travel where it isn't wanted.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please keep the palms somehow.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Opportunities for partnership
6. Heritage
7. Timeframe
8. Te Ngākau Civic Square connections
9. Sustainability
10. Climate change
11. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6 He Matapihi Molesworth Library  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Brandon Street is excellent, central, has all the elements like study space, varied collections. No event space which would be good. Would be an excellent opportunity to continue to have this as well as a library on civic square.

Q16. Where do you currently live? Mount Cook

Q17. Which of the following ages groups do you belong to? 40 to 44

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The existing Athfield designed building is an outstanding building. It is an extremely important work of NZ Art. Demolishing it would be like Bilbao demolishing its Guggenheim Museum because the cladding was getting rusty, or like trashing the most important Colin McCahon painting because the colours had begun to fade. Great Art "does" cost money to maintain, but it is money a culturally mature society simply must cover. The Gallery is also a highly functional building, and must be preserved as an ample of such, and, ofcourse, for its very important functions.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Heritage 2. Climate change 3. Sustainability 4. Making the building resilient 5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
not answered
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
Replace with a localised model of smaller branches in the CBD
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
If a disaggregated localised model of a network of smaller branches is not adopted (and also allowing for the separate establishment of a great many more free and open public spaces for common city, meetings, performance etc), then the option of a lowest cost and fastest build should be adopted.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service

4. Climate change  
5. Accessibility
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. . Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
The cafe model responsibly executed by Clarks and Nikau should be retained, but no other commercialisation of this public precinct. If the remediation of the buildings allows the underground carpark to be eliminated and the civic precinct strengthened from below, this should be done,
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply**

Arapaki Manners Library and Service Centre
He Matapihi Molesworth Library
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Good location spread, and aesthetic (J-ville also great) but we need more of these. Suggest Allen/Blair streets or Kent/Cambridge Terrace for starters; and a better central city option: Arapaki will never be more than a showcase for new books. The reserve/pickup/dropoff facility is a service that should be refined further and actively promoted city-wide. A solution also has to be found for affordable and accessible public meeting rooms and performance spaces in the city. The Te Awe cafe is overpriced and not suited for families.

**Q16. Where do you currently live?** Mount Victoria

**Q17. Which of the following ages groups do you belong to?** 60 to 64

**Q18. Please choose the gender that best identifies you** Male

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Options C, D and E are the only realistic possibilities for future-proofing. (E) is the cheapest and quickest of the 3. Reasons to prioritise over (C) seem mostly bureaucratic/ political rather than centred on the needs of the community. That said, what exactly are our sustainability objectives? IMO, the existing building has little heritage value (it's not exactly ancient). If flattened and sold, it'd quickly be rebuilt upon. Maybe an opportunity for housing?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Te Ngakau Civic Square connections
3. Opportunities for partnership
4. Sustainability
5. Climate change
6. Cost to ratepayers
7. Timeframe
8. Heritage
9. Future-proofing the library service
10. Accessibility
11. Making the building resilient
12. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Utterly neutral. It needs to be accessible, available quickly, safe and a long term investment. The specific location is only important in that it enables those requirements.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

We would primarily use them as a social gathering place for our family to become more family with the culture and learning presented within the library. Small scale replacements are less appealing to us. That said, we haven't tried.

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 45 to 49

Q18. Please choose the gender that best identifies you Male

Q1. Your name\*

Sara Clarke

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Books/magazines/newspapers in hard copy, study areas, and physical spaces that other organisations can use

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I acknowledge a new build destroys heritage - but I believe some aspects can be re-used or incorporated - for example the palms which probably are what most people love. We are spending millions on retaining heritage in the town hall and adjacent annex, and I acknowledge that more recent heritage is important. But the construction/look of a new build can reference and mirror aspects of the old - its not THAT old.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Timeframe
3. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It needs to be more open - removal of the office "bridge" was great but it could be better - recommend NOT rebuilding the red/site building as it was. Either leave this bit open/have a smaller building or other urban feature.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Female

IP Address:

Q1. Your name\*

I want Option 4 - its unbelievable that a new build is cheaper than the repairs to the old one. Are we being taken for another ride? Would a new build be built to the latest code? if new hope to retain features from existing building.

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Just a functioning library with all that encapsulates , would be good

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please whichever way you are going just get on with it and stop the deliberations - its been far too long

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Making the building safe
3. Timeframe
4. Cost to ratepayers
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

Making sure it is brought up to the highest standard we dont want a repeat of what has happened throughout Wellington re the codes.... not giving the engineers a right to change the codes down the track!!

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Neutral

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

too many windows visually not a earthquake risk???

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Strathmore Park

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think it should be a place where everybody can access books (physical and digital) and information. The most important service should be to offer books to read for children who don't have books home. It should be accessible and welcoming and made for different age groups, with cosy and safe spaces to read. I also think it should be aligned with what is happening in the rest of the city (partnerships with organisations that can attract new visitor groups). As for the building, I really enjoy the new City Library at Panama Street. It might be unnecessary to restore the old library building when it's probably cheaper to have several small library around the city. Perhaps open 1 or 2 more similar to the one on Panama-street, in different styles to attract different visitors.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and excluded (listed below) or another different option. Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Accessibility 3. Heritage 4. Sustainability 5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The library on Brandon/Panama street is perfect. Perfect size, convenient furniture, fresh books, good cafe and welcoming staff. The branch on Manners street is a little bit too small and feels unwelcoming.

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 30 to 34

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I want the library focused on being a provider of information and entertainment to all of Wellington's diverse population. It needs to be accessible and welcoming.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Relocate the Central Library to a non Te Ngākau Civic Precinct site

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think it would be short sighted to spend that kind of money on a building so close to the water at such a low level, given the realities of sea level rise.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Cost to ratepayers
3. Future-proofing the library service
4. Sustainability
5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Wellington Central Library is a crucial & essential part of Wellington's culture and life already, with the services it already offers - information & entertainment with professional help to access it - via books, periodicals, documents, websites, digital information, music, reference material, newspapers, etc. - all the physical and digital resources the library offers. It also offers a community space for study, leisure, relaxation, business support, community organisations, etc, in the building that has many spaces, relaxed feeling, flexible use, good acoustics for people to be doing various different things without impacting on each other. The library is a democratic available treasure to all people, from babies to old people and all in between. I'm keen for WCC to realise the value of the library as it is/was without added whizz-bang extras. Anything added in needs to not detract from any of the inherent value of the library as it stands. For example, I am interested in the technology maker space that's been added to Johnsonville Library - it's a great resource also, but it's not more important than the books etc and meeting/study space that a library offers. I would love to see the Central Library strengthened and restored to use quickly and effectively as possible. We don't need to add a lot of new features at the same time, which may slow the process or add undue cost. We need to allow room for new things to happen in the future, but don't need to decide all that stuff right now.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

[Redacted]

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

[https://www.bbc.com/news/business-53642581?](https://www.bbc.com/news/business-53642581?fbclid=IwAR2fzMqbG9D1uYxts3HeT1dpeNHYSrT3KESpZAZo2VM8SPN8IYiXAaCZwwA)

fbclid=IwAR2fzMqbG9D1uYxts3HeT1dpeNHYSrT3KESpZAZo2VM8SPN8IYiXAaCZwwA This article points out the amazingly high environmental cost of demolition and rebuilding. We must also put environmental concerns at the centre of our decisions. It is not a wise decision for our children's futures to act in ways that damage the environment more than is necessary. Please read this article! I was working in the old library building from 1985 until the shift to this new building in 1991, and then in this one until 1999. I was always so impressed that this building is well designed and functional for both library staff and library users. It seems the only problem it has is the need to strengthen the links between floors and pillars to make it safe against EQs from new engineering information. The services are mostly visible within the structure of the building, and the required strengthening additions would be in character with the existing style of the building. Exposed beams are reassuring and people can see the strength that's been added. I'm also in favour of adding the base isolators, and I'm a bit surprised that they weren't added at the start of the build. I had assumed that since they are best practice for protecting large public buildings, that base isolators would be required by the consent process!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- 1. Future-proofing the library service
- 2. Making the building safe
- 3. Climate change
- 4. Cost to ratepayers
- 5. Accessibility
- 6. Heritage
- 7. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's a great space! I like the "grass" that was added during the World Cricket event, and not removed - it makes it more friendly and useful than all concrete tiles.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like the accessibility (although having only one entrance from Panama St, and not Brandon St for Te Awe is annoying - even though it's for Level 2). I like the after hours return slot in Te Awe. I like that they are all close to bus routes, as I don't take a car to the city, and use buses.

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Female

This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Maintain the architectural integrity of the original building
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Heritage  
3. Te Ngakau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
not answered
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Karaka Bays

Q17. Which of the following ages groups do you belong to?

75 to 79

Q18. Please choose the gender that best identifies you

Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Proceeding with my preferred option D gives the best possible chance of reconfiguring a flexible space to cater for the next 64 years of use. The existing building was launched either prior or close to the date of the internet in 1991. It was seen to be very modern when some years later it began stocking and issuing video cassettes and DVDs. Much of the space designed for looking for and reading books and magazines is no longer required. Better to invest in staff that can facilitate and help people using technology to collaborate and access information than to store all of the collection in such a valuable 'people location'. It certainly should take the opportunity to be a space where people can engage with the collections and each other with a broad range of learning, research and creative endeavours. I am unclear what that the proposal document states (P13) that "all options presented... are based on a building of the same size as the current Central Library Building with the same amount of space allocated to library service functions/activity" It does not need two floors of Council office space or commercial office space to be included in its cost estimates. The plan should not simply accept that the current floor space is a given.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D - New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I chose the new build option because it provided the best possible option for a lower price and less risk than Option C. But further work from the council is urgently needed, and should have been included with the consultation document to make the consultation process at this stage worthwhile. Essentially Option D is stated to cost \$40 million dollars or 20% less than Option C. Option D also should be able to provide a superior building, with greater sustainability (modern eco design), and more flexibility to design for future usability, rather than inherit outdated design concepts. It also gives more freedom to design for future climate change risks. There is also significantly less risk of unforeseen budget blowouts that can emerge when remediation of an existing structure is undertaken. (Consider the example of the current Town Hall project which is likely to end up with 10 years loss of use of the building accompanied by a 300% increase in the original budget). The WCC cannot afford to have out of control projects on two sides of the Te Ngākau Precinct. The \$40 million is to be weighed against these stated disadvantages. 1. Need to resolve Heritage Status. 2. Negative impact on sustainability options due to demolition 3. Longest time frame There is no attempt in the document to cost these, or even to comment on the council's current plans to do so. My comments. 1. Heritage status. I love the Nikaus and possibly they could be incorporated in a new build. But the Heritage value of a 30 year old failed building is hard to comprehend, when compared to its contribution to such a high additional cost. Councillor Pannet has said that Heritage New Zealand has no legal authority to stop or to ask for a building to be protected. Neither should Wellington wait passively for Heritage NZ to schedule an assessment 'later in the year'. WCC should take a position based on the best interests of Wellington citizens and defend any interference with vigour. 2. Sustainability options. Again absolutely no attempt to quantify this. It is clearly unfortunate to throw away a 30 year old building, but there will be sustainability benefits in a new build. Not the least of which is an expected 64 year life vs 50 for the remediation. 3. Longest time frame. We have lost 18 months already so the difference between May and November 2025 is not much. And Option D has inherently less risk. The Town Hall example should be a reminder of the 'unforeseen' The document includes building cost estimates with misleading false precision, but the benefit of \$40 million or more of additional cost is completely unclear at this stage. This needs urgent attention. There are also commentators observing that the remediation costs are much higher than they would estimate, so neither they, nor the cost of a new build should be accepted without question at this stage.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Making the building safe
3. Cost to ratepayers
4. Sustainability
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? Exceptional design that has clearly defined objectives will provide a superb environment to use, inhabit and work in. This need not be expensive, but it requires clear thinking now.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The existing library played an important role and the best role going forward should be that it meets its core reasons for being (Answer to Q5), rather than expanding the function to be more of a 'venue to host local events and performances for festivals etc.' We have a yet unbuilt Convention Centre and Te Papa within easy reach.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply. I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change? not answered

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you. Male

Q1. Your name\* Mark williams

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Your plans for redevelopment are very expensive in a time where the community is going to be paying for a lot of Govt spending plans and debt servicing to keep people employed. You need to understand wider community concerns about continuing to raise rates when financial concerns are building everywhere. Our rates are high and we have infrastructure to deal with as well. A gold plated library used by a shrinking non-digital pool of ratepayers is not a priority right now.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It is not an historic building that needs saving. Build something new and future proofed for a diminished future need!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Future-proofing the library service 3. Making the building safe 4. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Think long term with younger residents how important this building will be in 10-20 years when everyone is digital

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Wadestown

Q17. Which of the following ages groups do you belong to?

50 to 54

Q18. Please choose the gender that best identifies you

Male

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

We should repair the existing Central Library building, making it reasonably safe given Wellington's earthquake profile.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We need to have the Central Library in operation as soon as is reasonably possible, and one that is reasonably safe. The importance of having a big, central depository of easily accessible books is vital to the well being and prosperity of our community.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- 1. Making the building safe
- 2. Making the building resilient
- 3. Timeframe
- 4. Cost to ratepayers
- 5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

The library should be a big as possible, holding the largest possible collection of books and other resources (with very good sections on knowledge and skill acquisition subjects, like science, mathematics, and the arts.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Unappealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The space should be community oriented, where ideas can be shared and discussed.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Central location (plus a reasonable collection).

Q16. Where do you currently live?

Kelburn

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Prefer not to say

- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option B - Mid-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Option B, with the proviso that it opens closer to the opening date for Option A of November 2023. We need to get the heart of the city beating again. Another concern is the longer we wait the more costs will escalate. Another aspect is that the closing of the building due to earthquake resilience issues has given us the opportunity to upgrade the library services at the same time. These two aspects combined have increased costs beyond shoring up the building. However, I don't believe for a second that any of the new build indicative costs are anywhere near what the actual costs may be.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Te Ngakau Civic Square connections  
2. Cost to ratepayers  
3. Timeframe  
4. Future-proofing the library service  
5. Heritage
- Q10. If you selected 'other' above, what other factor was important in your decision?

- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
I would like the Wellington City Council to share their plans for Te Ngakau Civic Precinct. Currently it is run down and the least inviting it has ever been. I think the Library needs to be there, the WCC offices need to be part of the precinct as does the Information Centre and the Art Gallery.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are interim, I do not want them to become permanent replacements for the Central Library.

Q16. Where do you currently live?

Thorndon

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It should continue to be a public building as a portal to information, knowledge, dreams and possibilities, but also a community space, the "City's Living Room" and as an urban activator to support and enhance the Civic Square. The existing building already offers that, and it must be retained and upgraded

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Minimal level repairs followed by a future upgrade

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I support a combination of both Options A and C, with the cost effective seismic "quick fix" upgrade of the building in the short term as proposed in Option A and a later full "base isolation" seismic upgrade and wider interior and exterior modifications of Option C, in the mid/long term in 10 years. The building before it was closed was a highly functioning public Library and community facility and nothing operationally has changed. The Option A "quick fix" allows for a rapid return to business as usual and then allow for planning for a longer term upgrade to the building at a time that the city can afford this higher level of investment in Option C. The building must be retained as it is a very important example of the work of one of NZ's most significant architects (Sir Ian Athfield), is a hugely popular (3000 people/day) facility, successfully serving a wide range of people, is robust and highly flexible and as a result could be readily upgraded, suitable for the 21st Century. Further the building and its distinctive Nikau Palms, integral to its design, have developed into an icon for Wellington and has become popularly known as "Wellington's Living Room". It is also important to re-state and remind Wellington City Council, of the significant environmental cost associated with destroying the building, especially given its demolition would be inconsistent with Wellington City Council's own sustainability policy "Te Atakura-First to Zero", its blueprint for "a zero-carbon capital city". In addition any demolition would incur an inevitable environmental cost, given the loss of embodied energy and carbon. Construction produces nearly 40 per cent of energy-related carbon dioxide emissions and it takes decades for a new building to compensate for the negative climate change effects resulting from its construction. This should be of concern to the council and finding a way to save the Central Library Building would be a good start for the council on its urgent journey to a carbon-free future.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Heritage
3. Cost to ratepayers
4. Timeframe
5. Sustainability
6. Making the building resilient
7. Accessibility
8. Te Ngakau Civic Square connections
9. Climate change
10. Opportunities for partnership
11. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

**Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

The design of the Library building, its scale and form, and its positioning on the site, was integral to the original success of the of the Civic Square, a space designed for public gathering, celebration, and protest. The Civic Square's initial vitality was in part due to the full occupation of the other adjacent buildings that formed the Square, each with their own entries. However the full potential to activate the edges of those buildings and optimize the Square's vitality and human activity was never fully realized, as over time the Square struggled to be regularly and positively activated. This has been further exacerbated by the closure of the Library, CAB, MOB, Old Town Hall and Capital E While there is some criticism that the Library building lacks permeability, active edges and connection with the Civic Square, the real issue with the lack of active edges to the balance of the Squares buildings However the Library building is a important part of the composition of the Civic Square and its transparent glazed "wavy" east wall offered a high level of visual activation and adequate physical connectedness and activation at its Civic Square entry. And while some further activation from the Library to the Square could help, the most significant benefit would be to maximize the active edges of the other buildings surrounding the Square In addition the Jack Illott Green should be developed fully to help contribute the the activation of the Square and complete the original composition of the Civic Square

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Once or twice a year

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?** street frontage visibility and access

**Q16. Where do you currently live?** Outside Wellington City

**Q17. Which of the following ages groups do you belong to?** 60 to 64

**Q18. Please choose the gender that best identifies you** Male

Q1. Your name\* Luke Kibblewhite

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library needs to be a community space that is available for research and as a place for people to be during the day.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Heritage
3. Opportunities for partnership
4. Cost to ratepayers
5. Future-proofing the library service
6. Making the building resilient
7. Sustainability
8. Te Ngākau Civic Square connections
9. Climate change
10. Timeframe
11. Accessibility
12. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 19 to 24

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It is important that the central library focuses on future-proofing the current use and potential uses of communal spaces for services to the community. There are plenty of ideas already contained within the consultation document. The current layout is not the best use of space and is very limiting for the potential services of a library. I view the architectural design as a particular asset that should be preserved - there are styles that are timeless but this architectural style has already dated and is not particularly historic.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Use carbon fiber to strengthen and get it opened.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option A - Low-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
People are in more danger walking on the footpaths in Wellington city than they are in the library. Suggest the to were block is demolished ad this appears to be where the engineering / earthquake structural problem is. Open the library ,car parking and Clark's again in 2020
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Cost to ratepayers  
2. Other (please specify)
- Q10. If you selected 'other' above, what other factor was important in your decision?  
The library is only 2 stories high. Get this much used and needed facility operational at the best possible cost to benefit Welltonan rate payers and everyone.
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
The whole construction is not important. Offices etc can be anywhere. It is just the library associated amenities that ate important.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Absolutely nothing. They are inconvenient for me as a senior citizen with mobility challenges.

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 75 to 79

Q18. Please choose the gender that best identifies you Prefer not to say

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A multi-use asset for the city, supporting Wellington's diverse community in many different ways. A one of the few non-commercial indoor spaces to be in in the city (especially on our windier and wetter days!), a great library is vital.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The early conceptual renderings look fantastic in that the architectural changes would go a long way to finally truly liven up Civic Square with more activity (along the Harris St edge, and also out into the square with seating showing outside the Municipal Office Building. This is a great opportunity for the precinct. Sustainability aspects must be paramount, and as the saying goes 'the most sustainable building is the one you keep' (extending the lifespan of what already exists and saving demolition waste). The building has great heritage value as a jewel in the Athfield-led development of Civic Square and later the wider waterfront. This 1990's chapter of Wellington's story and character is one to celebrate. The opportunity must be taken to rectify some of the building's less successful 'corners' – e.g. let's resolve the edges either side of the walkway through to Civic Square from Mercer Street – this area hasn't worked or made sense since the overhead bridge was demolished.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Sustainability
3. Te Ngakau Civic Square connections
4. Heritage
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Oriental Bay

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Central library is essential and needs to be replaced as soon as possible. It needs all of the above.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current library is now 20 years old and from the design theory behind it even older. New ideas and practices should be incorporated into a new building. Given the huge cost of refurbishing the existing up to an acceptable level of safety it is appropriate to look at a new building. However both options should be evaluated in terms of their lifetime carbon emissions. Demolition is extremely wasteful and bad for the environment. refurbish to 100% NBS should be evaluated against a detailed new build in terms of lifetime environmental cost.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Sustainability 3. Timeframe 4. Cost to ratepayers 5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Aro Valley

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Hugh McGuire

Q2. Your email or postal address\*

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It would look nice according to the proposed pictures and I reckon if the Central Library had an interior upgrade due to how parts of the buildings aging including the men's toilets on Level 2, this would be part of the example of how this library should be modernised as a fresh look. Renovation is my consideration for this library because if it's part of how the Central Library would be earthquake strengthened, there will be extra costs but it would be part of the usual cost to redevelop this library. What the library's got has plenty of facilities and it includes a music room I enjoyed going over and rehearse for my sister's wedding last year. I've just completed rehearsing playing the piano when the library closed weeks after Christchurch mosque shooting and before the wedding. Anything from categories above is possible because new facilities would be an opportunity and existing ones I'd like to see retained would be the music room but change can always be good.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Option C is my hardest decision to choose but when I compared the options, option A and B are my lowest priority whereas option D is second and option E is third behind option C. I'm not opposed in reopening the Central Library in 2023, I'm not opposed in retaining heritage statuses and collection and I'm not opposed in modernising this building whether it's based on my highest ranking options for this library. But what I'm opposed is the cost, especially to ratepayers, and another precinct site on the Civic Square. It's understood that both the Town Hall and the Civic Administration Building are occupied by New Zealand Symphony Orchestra and School of Music on the behalf of Victoria University, for particular earthquake strengthening, and still no word if Wellington City Council would return to where it was when they moved into the former PWC building on The Terrace from Civic Administration Building that some are still occupied. The gallery building has no plans to move. Capital E was at where they were until they moved to an available space at the TSB arena building while there are calls for Capital E to return to the Civic Square whether it's at the reopened library or where they were which is yet to determine its future of when this part of the Civic Square is safe to use. The tourist information centre left the building next door to Central Library probably after Kaikoura earthquake while the connection bridge between those buildings was pulled down after the Seddon earthquake. We don't know what the story with this building since. The Central Library performed strongly in an earthquake in late 2018 despite that the National Building Code sits at 15-20% which is condemning for this building. I was inside on the third floor and was trying to find cover but the earthquake didn't seem serious as this was held 25km south-west of Tauranui where a 6.2 magnitude occurred and felt across the country. Option C will cost \$200 million and it's every ratepayers' money goes to projects, services and facilities we have to have in daily life. I reckon with a grant from taxpayers, this could bring the differences of decision-making and I would see Central Library strengthened by the valued construction contractors who would deliver tender build based on heritage, safety, resourceful and resilient. So Option C would be my prudent option because it's simple to see that the project would be used on the same site and since this library's been opened in 1991, it still looks modern but an upgrade to this building would be great. The cost is just the usual challenge on how will this be funded and we may have Central Library back in a long time to come. But the progress to see the positivity of this library is when the time will tell when the options preferred, when will this project get off the ground, and when we will have the library back. I look forward to see what the outcome will bring into my and everyone's perspective.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Cost to ratepayers
4. Timeframe
5. Heritage
6. Accessibility
7. Te Ngakau Civic Square connections
8. Future-proofing the library service
9. Sustainability
10. Climate change
11. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

So the Civic Square revamp is looking tired while we helped to make this space thriving every day. As long as we're bringing the buildings back around the square, this will be great again for the Civic Square as we still need that space for future purposes whether its markets and events as a possibility for people of Wellington and New Zealand to welcome, visit and live for generations to come and be competitive with other cities around the country - to keep the capital thriving.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Depending on how long they're at interim branches, I haven't been to others apart from Arapaki I've been to. I did know that there were more interim libraries coming in the CBD. I'll experience those libraries when I visit the other interim libraries soon. It's there where they are while we bring Central Library back as much as reviving the Civic Block including the square and the buildings that are undertaking earthquake strengthening. It would be great to have buildings back including the Central Library by 2023 depending on how progress goes while we have the interim CBD libraries.

Q16. Where do you currently live? Mount Cook

Q17. Which of the following ages groups do you belong to? 25 to 29

None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
Slower rebuild that is lower cost. I don't want my rates to increase.  
The Council should manage the rebuild within its existing budget.  
The Council should look at some of the low value activities it performs and look to reprioritise that towards the Library project. It is a shame that there's a massive building that isn't usable in the middle of the city, but increasing the rates burden can't be the answer to that problem.
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The Central Library is an essential community space that provides much more than books and access to the internet. It's a meeting place, somewhere to spend time that doesn't cost any money, and an essential hub in the centre of the city. It's location is very important as it is very central and open (just about) onto the square. The central library should provide space to work or study, hangout, read and meet people; space for teaching, films, children's activities. There should be a range of formal and informal spaces. Some work areas could be smaller with lower ceilings compared to hangout and more generic reading areas that could be more open. Somewhere to get food and drink is essential. It should have much better access from the library than the current cafe on the mezzanine—it's dark and cutoff. The central library must continue to provide to provide traditional collection services—books, magazines, physical music—but could also have a 'library of things'. For example, tools, toys, sports equipment—things that people may want to use occasionally, or try out, but can't afford to buy. Given that all the options are a building the same size as existing, there won't be as much space for physical collections. I think that as much of the physical collection should remain as possible. Searching online is never the same as being able to browse (or am I just getting old fashioned?). It should retain reference and research areas and staff, not everyone wants to do research online. I think that better space for displaying historic collections would be great too. There should be services such as 3D printing and audiovisual recording studios. The Central Library needs much better connection to the outside and the square. The space in front of the glass facade is really only used by people smoking and the odd person riding or scooting up to the ramp onto the bridge. Could there be a rooftop balcony of some sort coming off a reading area and cafe? The views out over the square and harbour would be great. There needs to be much better accessibility for disabled people too.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The consultation document discusses the possibility of the building sector contributing to "enhancing outcomes and/or reducing costs of the five options". I hope this will not include public-private partnerships. As demonstrated by the Transmission Gully cost blowout and transfer of risk to NZTA, these rarely give good outcomes for the public purse. I'm assuming that option C will allow a radically different internal layout with the possibility of new floors and mezzanines, openings and better use of the internal volume. It is on his basis that I prefer option C. I really like parts of the existing building, especially the glass facade and Nikau palms, and feel that it should be retained as one of few good post-modern public buildings in New Zealand. It is over a year since the Central Library closed and we will not get a replacement (if option C is selected) for another 5 years. This consultation process is due to finish with a decision on the final choice in July. I note that there will be a further round of consultation for the Long Term Plan process next year, and that this will consider the "priority of the Central Library". Does this mean that it is possible for the library not to go ahead? That would be a travesty. I would rather not see the underground reinstated other than for disabled access and deliveries. The Council really needs to start enacting its climate change policies seriously.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Future-proofing the library service 3. Making the building resilient 4. Te Ngakau Civic Square connections 5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

There should be more opportunities for eating and drinking. The square would be a great place for al fresco dining. Ilott Green feels cutoff from the rest of the space. A bridge of some sort over the Quays should be retained. Perhaps not a large and the existing to allow the views to open up, but I can't see a time in the medium-term that traffic on the quays will reduce enough to allow pleasant access from the square to the water front. With the Quays being such a barrier, this is important. The open air library last summer was great. More of this kind of thing please. At the moment the square is an underused empty space with few reasons for people to remain.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like that they exist for starters! Losing the Central Library has had a big impact on me, I used to use it a lot. I like the spaces to work at Te Awe Library. The others are not so good for this. I'm a freelance editor. I generally work at home but there are times that like or need to work in places with other people around. I would like to see better bike and scooter parking, especially at Te Awe and He Matapihi. Te Awe is especially bad for finding somewhere secure to lock a bike.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you. Male

Respondent No: 1287

Q1. Your name\* Pauline Hannah

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The concept of 'library' has changed over time. I think it must be the social and cultural hub of the city, a place for relaxation and stimulation, for the development of ideas and the meeting with friends and like-minded explorers, and be a safe haven for lonely souls. It must have significant spaces for the collections, ie, they must still be central, not tucked away but it should also have good breakout spaces for meetings and various activities. It should have exhibition spaces, and creativity spaces.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

50 years is a very long time in the life of a building, particularly a building not yet completed. It is hard to imagine how our lives may have changed over the next 50 years. The building must be very adaptable. The highest level remediation is unnecessarily high.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Making the building resilient
3. Future-proofing the library service
4. Accessibility
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Te Ngakau Civic Precinct is the beating heart of the city, it is failing and needs resuscitation very fast.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I go to Karori usually, it is cramped and the smell of the cafe is unpleasant sometimes (which it does not need to be) but the increased number of brilliant staff is a real plus.

Q16. Where do you currently live? Wilton

Q17. Which of the following ages groups do you belong to? 75 to 79

IP Address:

Q1. Your name\*

Mia

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

An inclusive, accessible space for all.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Heritage
3. Making the building resilient
4. Accessibility
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

- Arapaki Manners Library and Service Centre
- He Matapihi Molesworth Library
- Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Te Awe is a great space - comfortable, inviting, accessible.

**Q16. Where do you currently live?**

not answered

**Q17. Which of the following ages groups do you belong to?**

35 to 39

**Q18. Please choose the gender that best identifies you**

Female

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

This is a hugely important building in Wellington, for various social and aesthetic reasons, and it must be kept and recycled.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Heritage  
3. Making the building resilient  
4. Sustainability  
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

- Q1. Your name\* Dave Guerin
- Q2. Your email or postal address  
[redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.
- Avoid wasting money on architects creating grand but inefficient spaces, like the current library. Create internal spaces that work, while also engaging with the street The current library looks nice, but creates a sterile edge where nothing happens (that's a feature of the whole civic precinct, even before it was closed off due to quake concerns).
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?
- Chch showed how a cheaper but engaging library could be built. Let's build a new library at an effective price, and make a nice sculpture out of the lovely nikau palms.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Other (please specify)
  2. Te Ngakau Civic Square connections
  3. Cost to ratepayers
  4. Making the building resilient
  5. Making the building safe
  6. Accessibility
  7. Future-proofing the library service
  8. Timeframe
  9. Sustainability
  10. Climate change
  11. Opportunities for partnership
  12. Heritage
- Q10. If you selected 'other' above, what other factor was important in your decision? Useful for users, which would seem to be the most important thing, but is not listed.
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- More windows to help connect the library visually to the square and surrounding streets Neutral

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

It is a rubbish space that is dead most of the time because people don't like being there. When I was growing up it had pleasant lawns and was a popular space. Now it is mostly hard spaces with nothing happening. The current library has plenty of glass but what it needs is lively activities, like retail or other social spaces.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Monthly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Arapaki is an afterthought that has little value. Te Awe is great and is a good template for what you could do at the central library at a much lower cost.

**Q16. Where do you currently live?** Wadestown

**Q17. Which of the following ages groups do you belong to?** 45 to 49

**Q18. Please choose the gender that best identifies you** Male

Q1. Your name\* Ann Balcombe

Q2. Your email or postal address

[Redacted email address]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The material presented so far does not prescribe what is a 'significant' earthquake ie what would be more significant than the shake delivered by both Seddon and Kaikoura quakes. As the international conference market is not unlikely to develop in the way forecast pre Covid, perhaps the council should consider repurposing that building since the funding for the development is already committed. With some creativity maybe the new conference centre could give the city and its ratepayers some breathing space. The library is a priority for the city, the water and sewage system is a priority for the city, a new conference centre which may or may not find customers in the next decade would be nice to have but is not a necessity.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Opportunities for partnership
2. Te Ngakau Civic Square connections
3. Climate change
4. Sustainability
5. Future-proofing the library service
6. Making the building resilient
7. Heritage
8. Timeframe
9. Accessibility
10. Cost to ratepayers
11. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Highbury

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Female

IP Address:

Q1. Your name\* rahul watson govindan

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The supporting documentation is wonderfully clear on this and I have nothing further to add - other than to encourage the Council to be bold and visionary. Understand that the library is a space for interconnection in community and great for families, young persons and older, to get curated educational/knowledge/creative/thinking/informative interactions they do not get elsewhere.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

You don't get the chance to rebuild twice (touch wood, no more earthquakes). Get it right the first time. Rebuilding what we had is not going to address the opportunity before us to do something special. I put it to you that the designers and decision makers of the original building had that mindset - do you?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Other (please specify) 2. Future-proofing the library service 3. Making the building resilient 4. Making the building safe 5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? What a list. Where is the 'make the library fit for purpose for the 21st century' Where is 'inspire younger and older generations to explore/think/learn/grow' ? Not all options do that to an equal degree let alone good degree

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Have more indoor/outdoor flow - rather than a bunch of buildings with a square in the middle. Make it really easy to get there and out - make it a genuine 'hub'. Ask yourself how different types of citizens can get there and use the space well

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Not really - other than continue to invest in e-books and e-platforms.

Q16. Where do you currently live? Brooklyn

Q17. Which of the following ages groups do you belong to? 40 to 44

Q18. Please choose the gender that best identifies you Male

Respondent No: 1299

IP Address:

Q1. Your name\*

Jacque

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library should be a centre where people can meet and access a variety of resources, be it via technology, community groups, literature etc. I see it as a meeting place with resources to enable communication, community, as well as quiet spaces for those that wish it.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Option D is cheaper than the councils preferred option, which I like but it also provides the opportunity to make something that meets the needs of the future rather than retrofitting something that has been designed to meet the needs of a previous era. The extra time to build it will be worth the wait.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Accessibility
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Khandallah

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Female

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Please keep a large central library, full of the historical items as well as a everchanging new additions, of books, music, film for everyone free of charge. Stock it with helpful librarians, who encourage people to read and expand their ideas about the world. Let kids make some noise and run delightedly from one shelf to another, make the library work for all cultures.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please have as many books as possible on shelves, available for the public to choose from, sometimes both adults and children will find a treasure that they had no idea had been written. This can lead to a life of reading and finding out about the world. Keep all books and periodicals safe from climate change, sea level rise, earthquakes. Make access easy.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building safe
3. Making the building resilient
4. Te Ngakau Civic Square connections
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision?

Keep the library fully funded by rates, \$2 a week is not much for most, don't knock down what we already have.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Have plenty of room for people to hold meetings, small and big and for all ages. If people have a connection with the building, they will encourage future generations about the value of common ground and spaces for all the different activities that library can help foster. Also access to free computer/photocopying services or maybe just a place to sit and think or play.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

1) Pleased they opened full of new books, always great to choose from packed shelves, and teach the children how a great cover can give you an idea of the reading delights to follow. 2) To have access to the NZ Collection at He Matapihi was fantastic, after years of not being able to take the NZ books home. 3) Free reserves, meant you could access books from the stack and other libraries.

Q16. Where do you currently live? Wellington Central

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Chris Viggers

Q2. Your email or postal address

[Redacted email address]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think that 'libraries' are more important than ever. Thinking about how the 'library' can evolve. At its heart it's a source of knowledge and support for most people. A place to learn, better ourselves and others. Get support when we need it and be part of a wider, mixed, community. I've seen the currently library being used by a truly diverse set of NZ'ers of all ages, cultural backgrounds and economic backgrounds. This is not only inspiring, but I would struggle to think of another civil space that has this diversity.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think some of the forward looking features of the 'current' library were really innovative and could be enhanced in either the high level remediation or new build options. Things I particularly observed: - access to IT for everyone, especially people who don't have the ability or income to get internet support for what is now considered a basic right - the CAB located here seemed well planned (see comment about diversity above) - obviously the variety of 'media' from CD's, magazines, books and of course archived material. - the social side - meetings, presentations, learning, cinema - it was warm - somewhere during the day where people who have no access to any other places to go, to hang out and sleep. -

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Timeframe
6. Heritage
7. Te Ngakau Civic Square connections
8. Opportunities for partnership
9. Sustainability
10. Cost to ratepayers
11. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

I see the library as vital to Wellington and tended to visit most days of the week (whether for books, coffee, meetings, toilet (!), chill out, printing, vinyl). It's easy to see this as an economic exercise, but really this is about a key cultural heart of Wellington, which is ultimately all about why people should want to live here. This is a huge community centre that, unlike local community centres, cater for a much more diverse range of Wellingtonians across the region. In itself that is remarkable. A centre to cities is critical from an economic and social perspective. People interacting with each other, knowing a safe space, being inspired visually and meeting others is part of what makes a great city. We have this and should double down on it. Culturally this is also important, and probably worth investigating the tourist attraction side of the library. From a commercial point of view, we'll never have another Einstein, Sir Ed or Roy Patrick Kerr without libraries. Some of my previous thoughts: Things I particularly observed: - Student access, places to work, learning and support of course. - access to IT for everyone, especially people who don't have the ability or income to get internet support for what is now considered a basic right - the CAB located here seemed well planned (see comment about diversity above) - obviously the variety of 'media' from CD's, magazines, books and of course archived material. - the social side - meetings, presentations, learning, cinema - it was warm - somewhere during the day where people who have no access to any other places to go, to hang out and sleep. - Family events and connections

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?**

Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply**

Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

I think just the size means that the diversity of services they can offer is drastically reduced.

**Q16. Where do you currently live?**

Brooklyn

**Q17. Which of the following ages groups do you belong to?**

40 to 44

**Q18. Please choose the gender that best identifies you**

Male

Q1. Your name\* Kevin Francis

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Incorporating creative spaces in the design to be inclusive of creative and physical activities such as skateboarding

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. A mixture of a complete rebuild while maintain aspects of the original design and structure. A re-think of what a library is in today's digital age. Incorporating Wellington's history into the design as well as having a seemingly flawless open flow into the civic centre and the art gallery next door. Again, becoming more of an active social hub that caters to cultures such as skateboarding, and musical performance

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Again, re-think what a library means in today's day and age. It should be much more than a building to hold text books. It should be a creative social hub that provides access to other sources of visual, written, and audible knowledge and history in creative ways. Almost as an evolving piece of art in itself

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Sustainability
2. Climate change
3. Making the building safe
4. Heritage
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Yes again, an open flow into the Civic centre and Art gallery next door. The outdoors should invite creative activities such as skateboarding through urban design and act as a centre hub for the whole of Wellington.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Less than once a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

More inviting outdoor areas that are fun and exciting

Q16. Where do you currently live?

Tawa

Q17. Which of the following ages groups do you belong to?

40 to 44

Q18. Please choose the gender that best identifies you

Male

Respondent No: 1305

Q1. Your name\* Romilla Carlson

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

- Meeting, study and community spaces. - Comfortable internet & computer access. - Access to books for research purposes, but physical collections of large numbers of books are surely going to become obsolete.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. not answered

This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The whole civic precinct is some of the best located but most poorly used in the city. why not partner with developers, & build civic spaces with many floors of office & residential space above. The residents will bring life to civic square. Also need more commercial premises facing the square.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Te Ngakau Civic Square connections 3. Future-proofing the library service 4. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? The nikau sculptures are iconic but the building itself is not. The connection to the square is terrible. The square itself is a hugely wasted space in prime position.

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Te Ngakau & the civic precinct is wonderfully positioned but underused land. Why not invite submissions with radical redesigns of the whole space? We'll never have a chance to develop so much space for the city again will we? I would love to see ground floor commercial spaces facing civic square (cafes ++ ) & residential space up above the public areas.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I very rarely visit the CBD & never to go to the library. (I have young children, there's no parking, the bus service is terrible and our strollers doesn't fit on.) For book borrowing services small suburban branches with the ability to order from offsite/ get materials in from elsewhere make much more sense to me.

Q16. Where do you currently live?

Island Bay

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Thomas McGrath

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library should continue to do what it's done best to date (providing reading space, loaning books to residents (magazines also) on a wide range of subjects).

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It's important that it's restored to a safe and resilient standard. Lower Hutt, Upper Hutt and Porirua have better libraries than Wellington central library currently. No space should be allowed within the library for eating, dining or noisy activity.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Future-proofing the library service
3. Making the building resilient
4. Making the building safe
5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? Insuring that Wellington residents can gain access to information (books, magazines, computer data) without compromising their personal privacy.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Civic Square is too windy I don't much like it.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Nothing, They are a stopgap. I can't wait for the restoration of the central library.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Male

Respondent No: 1307

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Relocate library back to original building, civic square (Art gallery - Lots of room but not much art), move art gallery to Te Papa (plenty of space there)

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Stop wasting taxpayers money on grandiose schemes (e.g. the convention centre - how many conventions / year?)

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Heritage 2. Accessibility 3. Te Ngakau Civic Square connections 4. Cost to ratepayers 5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? Utilising existing building (It must be earthquake proof as it is presently being used)

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The name Te Ngakau means nothing to me as I am not Maori. Civic square are words I can understand and it needs revitalising but buerocratic wheels turn verry slowly

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Too small, not enough magazines but okay for now

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

Respondent No: 1308

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

- Let's stick with what we've got. - The existing building/locations is excellent - It is an important/vital public space used by students, pre-schoolers, researchers, readers, some of the more disadvantaged residents etc. - Its ridiculous that the WCC is still "consulting" nearly 18 months since closure!!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Timeframe 2. Cost to ratepayers 3. Accessibility 4. Making the building safe 5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

- Nothing much - The selection of books is pathetic - They are useful for placing reserves - The staff are outstanding

Q16. Where do you currently live? Oriental Bay

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

There are activities held at Te Papa that seem more suited to the Library eg Writers on Monday programme. Space could be adapted for movies & small audiences. An easier to access café as in Brandon pop up would be good. Solar on roof & recycled water would be a public good

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Cost to ratepayers
3. Making the building safe
4. Making the building resilient
5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply**

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Some magazines seem to have got lost in transit eg. World of Interiors architectural digest. I don't have time to go to all branches and central libraries to see who has them. Magazines have become an entry point to the internet many pointing to online addresses for more information. Going forward I think they need to be available free for 2 weeks or on the same terms as books/in a green climate change world condensed information in less print and paper is to be encouraged.

**Q16. Where do you currently live?** not answered

**Q17. Which of the following ages groups do you belong to?** not answered

**Q18. Please choose the gender that best identifies you** not answered

Paul Franken

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

a. Books for recreational reading and information eg 'how to' books b. Books and other materials for historical research (especially NZ) but also for knowledge of world history with a range of viewpoints c. Trained staff to provide help and guidance with access to the above d. Children's literature including classics e. Quiet spaces for reading - NOT for eating/drinking or noisy activities

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

All great cities of the world have a great/notable central library. Without a central library Wellington has no heart. This is the Capital City. If we want people to come into the city centre we need to provide a proper central library. We don't want scattered library services. And we want quietness

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Heritage
4. Making the building safe
5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

Providing a great book collection for the capital city of NZ

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Unappealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The Civic Square is not sufficiently people-friendly and lacks adequate sign-posting

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Mostly I use the Karori Library which is excellent but cannot provide the range of books and other printed matter available -  
when it was functioning - at the Central Library.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Brigid Sharp

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Have lots of space for people to use computers, meeting rooms like Waitohi (Johnsonville). As we do have homeless in the CBD have a public toilet with a shower available or have orange sky mobile visit their regularly. Have a room for a maker space like waitohi. Have more programmes for adults - movie sessions during daylight hours, book groups plus all the normal sessions we run. Having different things to borrow like sewing machines - they are used at waitohi as not everyone can afford them. Make sure there is a good cafe.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It would be good to have a big makerspace and studio which can bring out the creativity in Wellingtonians. That would help to futureproof it.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Future-proofing the library service  
4. Accessibility  
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply**

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Had a nice hot drink at Te Awe. Arapaki is pretty.

**Q16. Where do you currently live?**

Tawa

**Q17. Which of the following ages groups do you belong to?**

50 to 54

**Q18. Please choose the gender that best identifies you**

Female

IP Address:

Q1. Your name\* Wesley Hollis

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

- makerspace like Waitohi - a decent amount of computers for public access to the internet (make them all full access) - possibly a dedicated kids/game computers so kids don't take up space playing games when adults need the computers - creative writing programme - book club - more open space (like Waitohi, old building felt closed in) - dedicated quiet and talking spaces - lots of study space - fish tank (like Porirua library)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think spending a little more and waiting a little longer is worth having a long term library that people love, rather than a quick fix or being too hung up on heritage concerns.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Making the building safe
4. Te Ngakau Civic Square connections
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? Great location but we want a fresh future focused building which lasts long term and is safe.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I don't understand the question

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre
He Matapihi Molesworth Library
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Fresh, modern feel is great, but more space (especially for study) would be great. More creative spaces, like a makerspace, or arts and crafts sector for kids. More open space (Te Awe feels like being shut in a box, sorry Te Awe). Fish tank would be cool (especially for the kids)

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 25 to 29

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Catherine Haines

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A large, open and inviting modern area, with space to visit, work and explore. A safe space for teens, children and the homeless.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D - New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We should look at the success of both Waitohi and Turanga in Christchurch as to what a modern library can do and be, both as a building and the heart of a community.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Future-proofing the library service 3. Climate change 4. Sustainability 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The toilets in Te Awe are small to the point of awkward. Struggled to turn around in them!

Q16. Where do you currently live? Churton Park

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Alison Munro

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

No problem with the current layout and services. Any revamp of the Library needs plenty of seating space, including carrels for students. Also a café is important.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If (or when) there really is a major earthquake then this building, whatever its design or level of strengthening, will probably not survive, because of its location near the waterfront. As long as it is strengthened to minimum standards then people will survive. We have waited for long enough with no action, and the longer it takes to decide what to do the higher the costs will become.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1.

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing

More windows to help connect the library visually to the square and surrounding streets. Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

As long as there is space to sit and eat lunch, or congregate for events, then it fulfils people's needs.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Far too small, too few books, DVDs, CDs, magazines, seating, services. But I have not yet visited the other branches, only Manners Street.

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

Vivienne de Wattignar

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Hurry up - this is absurd, a capital city grieving due to WCC wavering. You have let us all down - no respect for you at all.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Cost to ratepayers
5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

Urgency for civic duty as providing citizens with a vital place of resources, learning, social space. A sense of belonging, connected is essential as a citizen here. <end of sentence missing from scanned copy>

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of He Matapihi Molesworth Library  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

More DVDs, faster service with central library collection requests (non-fiction). He Matapihi - too far to travel to though.

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? 65 to 69

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Encourage new members and children to use the premises

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Do not encourage eating in the Library

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Te Ngakau Civic Square connections
3. Making the building resilient
4. Heritage
5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

An associated cafe would be fine, but eating and drinking in the library itself should not be allowed. Some personal help & advise should be available without complete reliance on cellphones and electronic media

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They seem to be well organised, as is the Johnsonville library. If the look of the new building is too prohibitive and storage can be accommodated we can work with the present system, especially if return of books to the same location is not necessary

Q16. Where do you currently live? Strathmore Park

Q17. Which of the following ages groups do you belong to? 80+

Q18. Please choose the gender that best identifies you Male

Respondent No: 1323

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

As described in the consultation document, page 10 - 11. The central library is also an icon for wellington city. Though we respect the past, we need the library to represent progress and growth for the tangata whenua

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Something i learnt in technology. You dont apply plaster/bandaaid to something that is broken. If there is an opportunity, build new to avoid future problems for future generations. people in the future will thank us for the decision.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Making the building resilient 3. Future-proofing the library service 4. Te Ngakau Civic Square connections 5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

It's modern and very inviting. The Te Awe Library is the most impressive combining social refreshment and new layout.  
Though not all the books are there but an inquiry with library staff usually resolve the need. Its best there is without central  
library

Q16. Where do you currently live? Thorndon

Q17. Which of the following ages groups do you belong to? 50 to 54

Q18. Please choose the gender that best identifies you Male

Respondent No: 1324

IP Address:

Q1. Your name\*

Judy Radford

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library should be a place that offers various experiences for a variety of people. A quiet haven for reading & study for some, ability to use online services, social interaction for some, a place of learning and research which can expand peoples horizons. It should offer positive experiences.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Future-proofing the library service
4. Cost to ratepayers
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I find it too small and limited. It doesn't offer a large reference section, for example

Q16. Where do you currently live? Khandallah

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

Respondent No: 1325

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Have more than books Services Programmes Partnerships as above activities space for creativity

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1.

Q10. If you selected 'other' above, what other factor was important in your decision?  
Selected not ranked: Making building safe, Making building resilient, accessibility, future proofing, climate change, sustainability, cost to ratepayers, timeframe

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Johnsonville

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

Q1. Your name\*

Wendy Lorraine Donald

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Currently libraries have kept up to date with services for computer users - photocopying, printing, scanning - so keeping developing to stay useful for other than just books. space, seating, sun where people can rest, read, play quiet games etc, a place you want to be.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

One main library with adequate storage, and two other libraries, spaced around city, so accessible to all future residents of apartment buildings.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Accessibility
2. Climate change
3. Sustainability
4. Making the building safe
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awa Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Easy to access, train and walk. Smaller comfortable, easy to find what you want. Te Awa cafe right there is nice to have

Q16. Where do you currently live? Tawa

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

Q1. Your name\*

Amanda Morrison

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Follow Christchurch example. It is amazing, use the same architects - this would save money as they already have plans for a great library. No need to reinvent the wheel.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It is not a heritage listed building. There should be no need to consider the possibility of Heritage NZ looking at listing it. It is after all a condemned building as it stands. retain and reuse the Nikau Palms. Those would be the only things most people think of when thinking about the library building

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Other (please specify)
2. Future-proofing the library service
3. Cost to ratepayers
4. Te Ngakau Civic Square connections
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision?

Golden opportunity to build a fantastic future thinking library (Like Christchurch) instead of trying to refurbish an out dated building. Cheaper too!

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Neutral

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

This submission is about the Library Building. Surely this question is not relevant and should be the subject of a different submission.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

More like the Christchurch Library. Have doubts about the 'partnerships with other organisations' - the library needs to focus on its own services and programmes

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current building should not be 'remediated' Heritage elements do not outweigh the fact that the original design failed to keep the building safe for its users. given its relatively recent design, this is a major failing.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Accessibility
3. Making the building resilient
4. Making the building safe
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Have a regular 'speakers corner' every Sunday and encourage its use

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Rather too many people use the two central city libraries as wifi access locations rather than as reading and borrowing spaces

Q16. Where do you currently live?

Thorndon

Q17. Which of the following ages groups do you belong to?

75 to 79

Q18. Please choose the gender that best identifies you

Male

not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Heritage  
4. Climate change  
5. Future-proofing the library service
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing  
  
More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
  
The library is both a public space, and a space for private contemplation. Too many entrances/exits risks turning the library into a thoroughfare. The library's current design discourages foot traffic through reading areas, and limits noise as a result. This is particularly true on the ground floor - even though the ground floor is also noisiest. For a library, there is such a thing as being too connected.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They provide some areas to books & services, however the limited collection is painfully evident.

Q16. Where do you currently live? Khandallah

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Male

Q1. Your name\*

Libby (Elizabeth) Clark

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September).

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

- Primarily a central location for books, printed materials & visual resources - Space for community & cultural events - Comfortable place to relax

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I don't love it, but I don't hate it. What I do love is the Nikau - they must be preserved. Improved access to Te Ngakau would be good (ie, not via Clarks)

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision?

Following options have been ticked and not ranked to the previous question: making the building safe, making the building resilient, future-proofing the library service, Te Ngakau Civic Square connections, Timeframe

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

This linkage could be enhanced & should.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Neville Wellbourn

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Use Christchurch as an example of what is possible

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Hoe can the council justify a \$200 million pack and sack remedial option, when for \$40 million cheaper we can have a modern, practical fully functioning library. Visit the Christchurch library and comparable sized overseas libraries to see how things are done and what is possible. Stop conning rate-payers-

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building resilient
3. Future-proofing the library service
4. Accessibility
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre
He Matapihi Molesworth Library
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Manners Street and Molesworth Street should be closed but critical material relocated into the recently established Brandon/Panama Street library. The Brandon street library is far more accessible for ease of public transport and has more room for library resources.

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

[Redacted email/postal address]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A small exhibition space for temporary exhibits on, for example - the life and times of well-known authors - virtual-reality experiences - film/video presentations to mark the anniversary of significant events - book launches, or other functions

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Retain the existing landscaping features, such as the nikau palms and water features.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Sustainability 3. Heritage 4. Making the building resilient 5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. - Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Programmes, presentations, lectures, cafe, partnerships Most importantly books to enable browsing
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
As a resident of Te Aro for 20+ years & no longer have a local library. As a capital city we no longer have a library. We need a library which is viable into the long term future. This option provides the best long term option.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1.
- Q10. If you selected 'other' above, what other factor was important in your decision?  
Following options were ticked but not ranked to previous question: making the building safe, making the building resilient, accessibility including transport, future-proofing the library service
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
It is currently an isolated unattractive space. Needs more activity and active edges.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Do not provide an acceptable library service. Need bigger and more diverse collections to enable "browsing". Too limited  
<is> concept.

Q16. Where do you currently live? Te Aro

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Space, books, help, assistance
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
Replace with modified City Gallery. The Gallery could be relocated. I also think that the 3rd option above should.
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Accessibility  
2. Cost to ratepayers  
3. Making the building resilient  
4. Making the building safe  
5. Sustainability
- Q10. If you selected 'other' above, what other factor was important in your decision?  
Close to public transport
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral  
More windows to help connect the library visually to the square and surrounding streets Neutral
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Q1. Your name\* Rosemary Collins

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

For me great libraries have books (hard copy) and librarians. I don't want the library to turn into a computer space. Knowledge is transmitted in person from person to person. We need to retain and build on that human connection.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one not answered

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

In my view, the Central Library is the host of the city, bringing all Wellingtonians together in a shared environment. Personally I have missed a place to gather information, to study, relax and socialise. Wellington does not have many interior public spaces. this particularly applies to those on low incomes.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Timeframe
3. Making the building safe
4. Sustainability
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Let's not forget that its primary role is as a library.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre
He Matapihi Molesworth Library
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are a good interim measure but they cannot make up for the loss of our central library.

Q16. Where do you currently live? Northland

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It means the people of Wellington get the highest resilience and the optimised design at a lower cost. It can still respect the valuable aspects of the existing building e.g the palms colonnade can be reused and potentially reimagined in a forward looking the concept for the overall precinct. We believe a new building should be combined with effective community centre facilities to provide a broader-purpose 'hub' for the growing inner-city population. The existing building has little connection with the outside in that it does not connect with the streets or the central courtyard. The cafe is located in the dark rear of the library where it should near the outside offering outdoor seating in the central courtyard. This would also assist in bringing the courtyard alive as it is presently a sterile place. The water feature should go as it is not very imaginative and blocks the library's connection with the central square. We also think an area like a conservatory would be great with bean bags so people could be reading books or socialising with some sort of connection to the outside. Here is an example of a great Mixed-purpose community library and community hub, which utilises its roof area for a garden and small-group seating area, surrounded by bookable events rooms for community use. <https://archello.com/project/north-fitzroy-library-and-community-hub>

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1.

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Mount Victoria

Q17. Which of the following ages groups do you belong to? not answered

Q18. Please choose the gender that best identifies you not answered

IP Address: [redacted]

Q1. Your name\* John Willett

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Quickly get a fully functioning public library with all its resources available. Stop wasting time trying to predict the future.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The main library is a good well-situated library. It is an essential service like water, roads and parks. It should not be discarded/allowed to crumble away. The council should whole heartedly commit to the Public Library. The cursory dismissal of much cheaper solutions by non-council engineers, promotion of very expensive solutions, attempting to gag councillors from voicing opinions on the library, slowness to replace the library, talk of "partnership" all suggest a council leadership that dislike the public library but haven't the guts to say so.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Timeframe
3. Cost to ratepayers
4. Making the building resilient
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are better than nothing . Full access to the library resources, stacks and all.

Q16. Where do you currently live? Kelburn

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current building is unsafe and dated. A new building needs to be erected in its place and must be built on base isolators. Although expensive at first, base isolators will save on insurance and long term maintenance costs. Please do not lose sight of the important factor that in addition to being the Central Library for Wellington, this is also the Library for all CBD residents. Retain the Nikau Palms !!!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1.

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? not answered

Q1. Your name\* Andrew McKenzie

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Moving forward the library is a community space for all ages - there is groups preschool kids - Chinese - Groups not represented are groups who want to meet - people who work from home or want to study online - Having a room that people can book to meet, who have a common interest. Christchurch library have small booths just off cafe so can have a coffee and a meeting

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D - New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

have a look at Christchurch Library - visit library - look at their meeting rooms. Happy to pay a small fee if can book room to have small meeting for common interest. Johnsonville - new library provides quiet space for adults to work/study - missed opportunity. Central Library has lots of desks to browse/read books at.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Accessibility
3. Future-proofing the library service
4. Timeframe
5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, He Matapihi Molesworth Library National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Need more rooms or spaces for youth. Teenagers like "hanging out" chatting doing homework. university students like quiet spaces and tables to study at. University - some is online

Q16. Where do you currently live? Wilton

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Male

- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Get it back! so it's available to all the citizens who miss it, want it, need it. The library is not just a repository, it's a destination, a meeting place, a pleasure, an aspiration
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
He Matapihi Molesworth Library  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

All branches are good, including the interim ones, but don't replace the central library (for access, for width of collection, for size of collection; for possibilities of research, for inspiration, for storytimes etc)

Q16. Where do you currently live?

Oriental Bay

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Female

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Background I have visited the Central Library on numerous occasions over the years. Among the reasons for my visits are:

- To deliver copies of Wellington Botanical Society's thrice-yearly newsletter to the Serials Librarian;
- To deliver to Reception envelopes each containing 10 copies of Wellington Botanical Society's programme of evening meetings and field trips, addressed to the Head Librarian, and to the librarians at each of the eleven branch libraries, plus the Citizens' Advice Bureau;
- To attend meetings of Wellington Natural Heritage Trust of which I am a member and minutes secretary. We held our meetings in Clark's Café;
- To look through recent issues of aviation-related magazines. Submission in support of WCC implementing Option C I recommend that the existing landmark building be: 1. retained in its entirety and opened to Te Ngākau from the ground floor; 2. structurally strengthened to 100% earthquake-resistant standard; 3. fitted with base-isolators of the most advanced design available. A speaker at the meeting arranged by Wellington Civic Trust on 1 September in the Public Trust Building said that these have been designed in California. The speaker said that these isolators permit much greater movement of a building during an earthquake than the base-isolator system designed in New Zealand. Reasons for my recommendations of retention, strengthening and base-isolation: A. Demolition would be grossly disrupting to people who work or live in the vicinity; B. Demolition would produce thousands of tonnes of concrete and reinforcing steel, To consign these materials to the Southern Landfill would be, in my opinion, a waste of those resources and hasten the filling of the landfill; C. Demolition, followed by transport of the concrete and steel to the landfill would add large volumes of greenhouse gases to the world's atmosphere.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision?

- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Books are my first essentials - for adults and for children but I recognise the love of digital materials in young people. Also, a cafe and small rooms for hire by organisations.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option B - Mid-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Please put books to the fore. Digital etc will rise and fall in popularity. The present building is an architectural icon - especially the cabbage tree pillars.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Future-proofing the library service  
3. Heritage  
4. Cost to ratepayers  
5. Te Ngakau Civic Square connections
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
I LOVE Te Ngakau - used to spend lots of time there - and want to see it brought back to life by keeping Central Library there.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are better than nothing I suppose. Mostly I go to Kilbernie Library by car (more cars on the roads!)

Q16. Where do you currently live?

Oriental Bay

Q17. Which of the following ages groups do you belong to?

80+

Q18. Please choose the gender that best identifies you

Valerie Hagan-Pratt

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I would prefer either of the rebuild options because they offer the greatest opportunities to future proof library services and develop partnership options for other services planned to operate in conjunction with the library services and any which may develop in the future. Since this involves at least 5 years before re-opening there would need to be further effort made to re-integrate the collection at one reasonably central site. Why not utilise the facade for the new building and build behind it. As a genealogist I am a user of both written and electronic services of the library or would be if I could get access to the parts of the book collection I would like to use. I looked at most of the seminar information that you provided and was interested in the various views expressed. I particularly agreed with those for whom the library collection was important. We need to be sure that some of the items on the wish list of some could not be equally easily provided on another nearby site or by closer collaboration with other council functions such as the Town Hall complex and museums and art galleries. I believe that We need to maintain the current concept of the library being our sitting room. It is important that everyone has access to a free space to meet. That is totally compatible with the functions of a library. There needs to be spaces for casual interaction with or without reading as well as study space suitable for students and a quiet space like the 2nd floor used to be which could as before also house the NZ collection.. A new building would also enhance the opportunities for collaboration with the CAB and other citizen help services, Space could be made available for new facilities and citizen education in such things as technology. Some casual meeting room space available to small groups and individuals would also be useful. Despite my interest in history and my appreciation of some of our older buildings we cannot keep them all. We need space to create history for the future. To me a library is about the staff, the collection and the services provided rather than the building. What matters is that the space is warm functional and accessible to all ages not as maintaining a building as an end in itself

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

not answered

Q17. Which of the following ages groups do you belong to?

not answered

Q18. Please choose the gender that best identifies you

not answered

Q1. Your name\*

Viv Chapple

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

several individuals as listed below - Madeleine Taylor, Janet Robertson, Nicola Binns, - Clare Glesson

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

[Redacted]

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Remembering that a library isn't a community centre (but forms its own community) but a repository and dispenser of knowledge, build a new one in the same place, keeping/recycling the two best features. These are the palm trees and a spacious entrance foyer. Sell the airspace above and allow apartments to be build on top. Keep the underground parking (for whatever vehicle the future brings) because that aids accessibility. Now is the time to borrow for infrastructure spending as money is cheap.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D - New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The defunct library worked really well for me when caring for aged parents, carparking, lift, cafe and entertainment, all without leaving the building. How wonderful is that? I worry about rising sea levels and flooding though. Perhaps there needs to be two levels of vehicle parking, with the books (yes, books) on the first floor.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Accessibility
3. Making the building safe
4. Making the building resilient
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

Renovations are always more expensive than you budget for!

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Neutral

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

Question 6 is a question out of context. Who is to judge how many windows/doors are appropriate without seeing a plan. Natural light is important, but if sunshine is pouring in you are going to fade the books and make the computer screens illegible. Why ask about doors and windows? You could just as easily ask about sound baffling and security measures. Also in NZ it seems very common to 'over window' and thus allow for improper positioning of the furniture. 7) Because the "heart" is surrounded by buildings it is effectively a plaza. It is a much more pleasant one than the wind blown space outside Te Papa. A big open gathering space, which is green, is good for democracy.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** I have not visited an interim library

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

These libraries compete for on-street parking with everything else. Great for people living in the city who don't need parking but tough on the rest of us. That's why the branch libraries work so well. To test this hypothesis you could see how often people on one side of the city use library facilities on the other. The Central Library though, is a gem for everyone!

**Q16. Where do you currently live?** Ngaio

**Q17. Which of the following ages groups do you belong to?** 55 to 59

**Q18. Please choose the gender that best identifies you** Female

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Books remain the central treasure of a great library, and having them on open shelves is vital to the sort of unstructured browsing that yields surprises and discoveries. Online material and catalogues are NOT a substitute for direct access. Big areas of shelf books could be elsewhere if space is tight eg Johnsonville? or vacant warehouse space downtown?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Making the building resilient 3. Timeframe 4. Making the building safe 5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The New Zealand collection on the top floor is (or was until closure) the best accessible set of this material in Wellington since the National Library eliminated its old ground floor reading room and Victoria University sent much of its collection offsite. I would strongly urge re-establishing that collection in open-access space and working to fill gaps, especially in the statistical material. I would be happy to provide stuff from my own collection.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

As well as space for books, physical & digital collections, there needs to be quiet spaces, childrens areas, meeting rooms, areas for teaching, learning new skills, use of internet, talks for adults by experts in various fields e.g. law. To future proof the library service more space would probably be needed that was previously used for library purposes. Capital E would need space, is the currently closed pinkish building going to be used for council offices, or will they be in the new library.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It should remain in Local government ownership is one way to see the city council in action so many things are being contracted out with less satisfactory results

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building resilient 2. Future-proofing the library service 3. Accessibility 4. Cost to ratepayers 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It should continue as a public space for meetings and gatherings

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

There is always many staff available for enquiries. Well lit and easy to get around

Q16. Where do you currently live? Wilton

Q17. Which of the following ages groups do you belong to? 80+

Q1. Your name\* Helen Tobin 154

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Q1. Yes, redeveloping the Central Library building presents many opportunities - but I believe that it is also important to ensure whatever is decided, flexibility is retained. I believe it is not clear at the moment as to the overall future requirement a Library will need to meet. What will be the relative importance in the future for people of access to books, per se, as compared to space for online activity, meetings, seminars, social gathering etc. Additional note of Question 2- is probably essential

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Additional comment to Question 8 - I note 'climate change' as my final point. Consideration of this will be relevant to whatever decisions are made, but I do not see it becoming something that can be considered and ticked off, as it were...I believe it is already, and it will become more so, an ongoing matter that we (sic) have to be considered in all decisions of this nature.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Making the building safe
3. Making the building resilient
4. Sustainability
5. Climate change
6. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

Question 5 (on form): A couple of points not specifically covered are: 1. Any development of the Library and associated area must, in my opinion, also make allowance for enhanced future access to the waterfront area. This must be referenced at the Debate and I believe will become increasingly important. Care will be needed to ensure that this good access is provided but is not allowed to dominate the design. 2. As mentioned above I also believe it will be important to provide flexibility in the enhanced library building itself. I have no particular background in this area but there are a number of references at the Debate to possible changes in the activities that may need to be covered. Question 6 (on form - online question 10) . Yes, both multiple entrances and more windows would help enhance the Library building connect and become a more dominant part of the precinct but must be planned to accord with proposals to increase flexibility or make changes to the use of the building. Question 7 (on form Question 11 online) Am not sure if totally understand this question, but insofar "Te Ngākau" refers to the total area around the Library and Civic buildings, yes I agree it is probably the most important civic space in the city. It should retain the function in terms of providing an area available and suitable for a range of gatherings, but not forgetting other factors such as the importance of providing access to the waterfront, noted above. Questions 8 and 9 on form (visited libraries) Note, that these days, as compared to previous years and for a number of reasons, I do not spend very much time in the central city area.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Once or twice a year

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply.** I have not visited an interim library.

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**  
not answered

**Q16. Where do you currently live?** Kelburn

**Q17. Which of the following ages groups do you belong to?** not answered

**Q18. Please choose the gender that best identifies you** Female

This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Present Library (repaired) without overdue concern with regard to full earthquake repairs.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option A - Low-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Submitter also selected "Minimal repairs followed by a future upgrade" in Question 3 on the printed submission form.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building resilient  
2. Timeframe  
3. Heritage  
4. Future-proofing the library service  
5. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision?  
The Central Library performed an important and wonderful function for Wellington City and Wellington Region. This should be restored and enhanced.
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Civic Square should be retained (with improved access to waterfront)
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
He Matapihi Molesworth Library

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

I use the Central Library as an important backdrop to the Tawa Library.

**Q16. Where do you currently live?** Tawa

**Q17. Which of the following ages groups do you belong to?** 80+

**Q18. Please choose the gender that best identifies you** Male

Q1. Your name\*

Paul Nuttal

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I'd like a space that feels like Te Awe- open, comfortable, welcoming and fresh- but presents the full collection, including the stack. Space for public forums would be good. I'd also like a reasonably priced café. Welcoming for children and accessible for old people and the disabled.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Relocate the Central Library to the Convention and Exhibition Centre

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Remediation of the existing library would be good if done in a timely and cost effective manner. This is looking unlikely, which means a new construction may be preferable.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Accessibility
3. Cost to ratepayers
4. Timeframe
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Te Awe is particularly nice. It's a welcoming and comfortable space and well laid out, with lots of seating. I'd like more of the old collection to be available. It seems it is largely new acquisitions. Splitting collections across sites presents some difficulties for visitors interested in a broad range. Arapaki is a bit small and doesn't have enough seating.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 65 to 69

Q18. Please choose the gender that best identifies you Male

Respondent No: 1366

This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The current building is an iconic building on the outside but nothing special inside. It's potential heritage value does not justify the cost of remediation to Option C. I support a design and function similar to the new Christchurch Library, Turanga. As an earthquake prone country, we often end up agonising over whether or not to restore our heritage buildings and will continue to face this dilemma in the future. My solution is, as the British Royal Family might put it - "An heir and a spare". We did this with the MF Centre, essentially copying the Chch Town Hall and it worked. The design is still standing. Let's copy Turanga or do a lookalike. If one goes in the future, NZ will have the other. To some extent, we can keep our memories of destroyed or demolished buildings by constructing replicas in miniature accompanied by video tours of the interior. I come from Christchurch and now believe this is what Christchurch should have done with its two cathedrals. From now on, an HEIR and a SPARE is the way to go.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Cost to ratepayers 2. Te Ngakau Civic Square connections 3. Future-proofing the library service 4. Heritage 5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision? Opportunity for a modern, right-sized building with optimal layout and connections to Civic Square

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once every few months

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I haven't visited the interim libraries but i have visited new Waitoki Library in Johnsonville

Q16. Where do you currently live?

Glenside

Q17. Which of the following ages groups do you belong to?

70 to 74

Q1. Your name\*

Marjory Brown

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

It is evident that a community hub is central to its redevelopment. There are so few places for so many diverse members of our Wgtn residents to share an interest/ physical space. Citizens Advice; History/ Genealogical Groups; Teaching of Research Skills- students; quiet places for reading; a good food service

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Selected two options: C- High-level remediation and D- New build on same site

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

As a focal point of our city it is essential we provide access for our whole community. The work needs to be completed as soon as is practical to preserve our library/ reading Wgtn culture.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Te Ngakau Civic Square connections
4. Timeframe
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It is one of the few spaces dedicated to pedestrians. When thinking of Italian piazzas- we need these areas and this one is precious as it is our only real one in Wellington.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Having only visited one- the carefully curated range of books and current magazines is appealing. I see a place for the retention of at least one- giving city workers a place where they can, in a lunch hour, find good reading material. Suggestion- Te Awe or He Matapihi

Q16. Where do you currently live?

Ngaio

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\*

Roy Shuker

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I like the combination of physical space and ease of access. Support for other community organisations should primarily be in terms of providing publicity for them. Digital services needs to be included (internet access), The scope of the collection as at present if fine.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The submitter selected Option D and "I prefer and alternative." with following notes: I think Option D is a fall back position if 3 smaller branches is not possible. Question 3: Ticked "Replace with a localised model of smaller CBD branches" - I note on Page 17 of the proposal that this is discarded. I don't find the reasons convincing. I think that in post Covid era, there are plenty of available spaces, to develop a number of smaller branches in the CBD, using Brandon Street as a model. I realise I have answered both question 3 and 4 - I think the same considerations apply to either one central library or a number of smaller branches in the CBD. For Question 5 - The assumes a commitment to the one Central Library I have answered the following questions anyway.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Making the building safe
3. Accessibility
4. Making the building resilient
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

For the Cost to Ratepayers option submitter wrote, "especially given the post- Covid economic situation and other priorities

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think these should be separated out. I see no reason for the Council offices to be placed with the library. If the present building was demolished, perhaps there could be purpose built Council offices, plus a public space and some parking provision.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Te Awe Library Brandon and Panama Streets  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I would go 2-3 times a week (for question 8/13) I particularly like the Te Awe Library with its space and easy central city access. Also it is open 7 days a week. (The Arapaki Library is quite cramped and open less).

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Daniel Harward Jones

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Partnerships with other organisations are vital: with the current localised model of smaller CBD branches maintaining the library core services, what is most lacking and therefore most imperative in the Central Library's redevelopment is a space for accessible cultural and civic pursuits, something a public facility is best placed to provide. The final building should of course be versatile, but connecting with stakeholders such as previous users of its spaces should be part of the design process.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building? not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Opportunities for partnership 2. Future-proofing the library service 3. Accessibility 4. Making the building resilient 5. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

A new Central Library must have better connections to our democratic facilities, both programmed with better democratic engagement and presence in such public spaces, but also physically with better and more visible links between the two to exploit the high patronage of a Central Library.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I like their proximity to different parts of the city with their own existing concentrations of commercial, professional cultural activity. It is useful both for accessibility of traditional library services as well as meeting spaces and a general community reference point. More awareness of their presence could be stimulated however by more proactively integrating and seeking partnerships with other community stakeholders and their activities, to the extent each space allows.

Q16. Where do you currently live?

Khandallah

Q17. Which of the following ages groups do you belong to?

Under 18

Q18. Please choose the gender that best identifies you

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

50 years!!? Iso would be better

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Build it primarily for books. Vast open spaces like at Waitohi are not what a library is for.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Making the building resilient
3. Sustainability
4. Future-proofing the library service
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Arapaki doesn't have enough books to make a visit worthwhile. Have only been to Te Awe once(for magazine). Preferred libraries: Waitohi, cummings Park and Karori. Waitohi is too much flash open space and a bit short on fiction.

**Q16. Where do you currently live?** Newlands

**Q17. Which of the following ages groups do you belong to?** 65 to 69

**Q18. Please choose the gender that best identifies you** Female

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think books should be central in the design of the new building and the direction of those running it. But equally important, the library should continue to be a safe space for everyone and to support the community and community groups. That said, I think it would also be worthwhile for the library to be a repository of knowledge and culture beyond just books, ie tv, movies, music, podcasts and games. I think the library could also assist the community by having makerspaces like recording studios or maybe workshops for more practical crafts so people can learn new skills even if they don't have the money or space to do it all themselves. Perhaps a tool library for another example.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I loved the old library dearly, mostly because of the sheer volume of books. I hope that even if a new building is built it will have design aspects such that it still feels like the old building (like the iconic nikau palms). I think also that the building should aim to be comfortable, warm and safe on a bad weather day, rather than trying to take advantage of good weather (if it can do both, great!). I just worry that too much glass would bring the grey of a dreary day inside.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Heritage 2. Te Ngakau Civic Square connections 3. Accessibility 4. Making the building resilient 5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

When we are allowed public gatherings again that square might be a good place for performances to support the arts. But otherwise no opinions, and if this already happens disregard.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I thought the Te Awe library is a really nice mix of different spaces with the noisier areas (café, children's area) separated from the quiet areas by books. I found Arapaki really small, but I did appreciate the greeter/ security guard who sent me in the right direction to find what I was looking for. I think after a new central library is built/remediated that CBD centres could be re-made easily into community spaces e.g. a digital makerspace (like recording studio, fabrication space, 3D printing facilities etc) or spaces for homelessness services, or even just free rooms community groups can book. I think there should be another consultation should be held when they close as libraries because other people will have other ideas about what these spaces can be used for.

Q16. Where do you currently live? Wadestown

This could include anything from physical spaces, services, programmes or partnerships with other organisations.

This situation represents a wonderful opportunity to give the capital an international- standard facility drawing on the best and latest ideas and examples in library design and use. It is not a time to fall back on safe, familiar or timid options. Better need not mean more expensive. Please note-I am a professional historian and writer. I have been a frequent and heavy user of the city library, both for work and pleasure, since I returned to live in Wellington 20 years ago. Your other library branches hold copies of my books on their shelves. I used the central library's holdings to research them. I am a huge fan of the Athfield design. BUT I do not accept that it still represents cutting-edge library architecture (if it ever did.) I strongly urge the council to listen to your own librarians and to international authorities as well as to local users like me. A major central public library ten years from now will certainly operate very differently from one when Athfield's design was drawn up. Please make the form follow the function - don't be confined to the reverse.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like for you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A major city without a major public library is like a house without cutlery - its a wholesale dereliction of civilization. I miss the original library every day BUT I don't want to see it replaced by a replica purely out of misplaced nostalgia. O love books - I read them, write them, review them, and encourage others to do so. A well-stocked and well-equipped central library is a vital requirement for wherever I choose to live. But that means a building, an institution and a facility which is truly fit for purpose, now and into the foreseeable future. Athfield's design did not pay tribute to the old library that preceded it, as far as I can tell. Instead it aimed to house the most exciting, usable, and user friendly library in the country. And it probably did for quite a while. But I doubt that a replica structure would continue to do so. Reading has changed drastically in the past 20 years - I'm a writer, I can tell. I don't know just what that means in terms of a future-focused library building but I have no doubt that there are very knowledgeable people who have addressed this very question and you have to treat their ideas seriously and respectfully. Certainly the nikau-pillared structure is iconic but if you simply patch it up you are making an icon to obsolescence. The very best way to do it justice to Ian Athfield's original vision is not to perpetuate an evidently flawed design, but rather to re-envison a marvellous library that can serve and represent our city in decades to come.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Opportunities for partnership 3. Making the building resilient 4. Sustainability 5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Lyllall Bay

Q17. Which of the following ages groups do you belong to?

60 to 64

Q18. Please choose the gender that best identifies you

Male

Respondent No: 1376

Q1. Your name\* Natasha Mulholland

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Having separate areas - for example - children's spaces - but 'zones' within those spaces for quiet spots. Individual study areas so those needing no distractions have that available. Meetings rooms of small sizes available through a booking system. Cafes within the building but not run by one company, give multiple companies the opportunity to provide the public. Community notice boards. Technology hubs, arts and crafts hubs, music room hubs, toys to borrow 'in house'.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option E - New build on another Te Ngākau Civic Precinct site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Future-proofing the library service  
3. Sustainability  
4. Making the building resilient  
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Stop putting so much emphasis on 'Te Ngakau' being a great space. It's not, it's a waste of space! It's not special or important. It's just an area of ground, not used for much.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Te Awe Library Brandon and Panama Streets National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

I love the little cafe. I like the little 'nooks' in the children's area

Q16. Where do you currently live? Island Bay

Q17. Which of the following ages groups do you belong to? 35 to 39

Q18. Please choose the gender that best identifies you Female

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I actually liked the Central Library, whatever you decide on. ( I doubt filling out forms like this achieve anything, the ratepayers are not listened to).

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Get on with it City Council. You are so slack with any decision and stop the infighting, please. As a pensioner, I object to funding your inadequacies, and bickering. Build anew library and do not waste time and money (our money)

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Accessibility 2. Making the building safe 3. Cost to ratepayers 4. Timeframe 5. Sustainability

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

He Matapihi Molesworth Library  
Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Karori

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Kate McGuinness

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

From a parent's perspective (to under five kids) I'd like to see a more interactive design for little ones. Large moveable blocks are always popular! The circular shapes in Te Awe are cool. Can the architects come up with a fun (and relaxing) space for our children? Physically- can we have some suspended ceilings?

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It would be neat to see more private spaces and pods for group study. Noise is always an issue and there could be an easy solution of enclosed soundproof glass spaces. Could the public book these for one-on-one tutoring etc?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Sustainability 3. Making the building resilient 4. Heritage 5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Would be neat to see the open lawn space used more productively. Most often it sits empty. Surely the designers can come up with something more interactive? Why can't we have a play area- that's actually cool? Why did Capital E have to move into that tiny spot on Q's Wharf? It seems sad that Civic Square seems to be devoid of any fun space for children. Why can't we welcome more children into the city on weekdays? That old Capital E from the 90s was THE BEST! As a child, I remember when Civic Square was a destination.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Arapaki is VERY small. Would be great to see more of these pop-ups around town. It's not a child-friendly space- but clearly the space is restricted by size. Te Awe is awesome! Kid friendly- great selection of books too. Just a thought...  
Would the library consider school outreach programmes? My child attends an ECE. they used to visit the library but due to COVID restrictions, outings are limited. Would be neat to see librarians doing the visits.

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

35 to 39

Q18. Please choose the gender that best identifies you

Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Cool space

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Climate change
2. Sustainability
3. Timeframe
4. Accessibility
5. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

Have better wheelchair access for my sister

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

For question 8 on how often they visited a library - they commented they went to the library most days to study They like that "it's safe"

**Q16. Where do you currently live?** Miramar

**Q17. Which of the following ages groups do you belong to?** 19 to 24

**Q18. Please choose the gender that best identifies you** Gender diverse/gender non-binary

[Redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
A library as a community hub needs to partner with a wide range of organisations to service the widest range of community eg Citizen's Advice, ESOL, community meeting rooms, cafe etc
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
None of the above, I prefer an alternative
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
The Holmes solution costing \$10 million is preferred. Future upgrades can then be planned and funded in a more measured way.
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Wellington City has to make the budget work for all services but basic infrastructure needs the most attention right now, the \$10 million fix to the library will allow ratepayer funds to be focussed on water, sewerage and waste minimisation.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Cost to ratepayers  
3. Accessibility  
4. Opportunities for partnership  
5. Timeframe
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing  
More windows to help connect the library visually to the square and surrounding streets Unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Restore the library and open up all the entrances to Civic Square and people will return. More sculptures, more circus, minimal costs to citizens
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Once every few months

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They're not a proper library and the service centre was less than helpful. They feel like a shop, not a hub for community activities that take place in libraries.

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you Prefer not to say  
belong to?

Q18. Please choose the gender that best identifies Female  
you

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

We want a community hub with social service agencies and CAB. Cafes and meeting rooms and a small theatre for lectures and a functioning LIBRARY.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Build AROUND and ABOVE it. Connect it to the city and the shore. Flexible foundations like Te Papa!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Opportunities for partnership
2. Future-proofing the library service
3. Accessibility
4. Sustainability
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?

Liase with the university

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Give the city a culturally sensitive place for people to meet and interact.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

TOO SMALL and not good for research. Space is important and height is important.

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? 75 to 79

Q18. Please choose the gender that best identifies you Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

1) It could be integrated into the new Convention Centre 2) Do we really need one? What about smaller hub, like what you already have around the CBD. Maybe a similar concept to Waitohi. Smaller and integrated into the community. Not big and flash.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Replace with a localised model of smaller branches in the CBD

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Why not replace with localised model of smaller branches in CBD? Who has a spare \$163M. We don't! WCC needs to cut it's cloth to suit. The smaller libraries are more integrated and accessible (especially like the Johnson St one in the CBD). This should be the way forward as well as updating the other existing libraries, like Miramar, Tawa, Newtown which now, compared to Waitohi appear quite poor. Let's aim for equity.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Note: the official name is "Te Ngākau Civic Square"

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Love their accessibility- i.e. close to work, community feel, not big corporate. Like it being understated. They feel part of and integral to the city. It doesn't need to be big and brash, especially when WCC doesn't have the money to do it.

**Q16. Where do you currently live?**

Churton Park

**Q17. Which of the following ages groups do you belong to?**

45 to 49

**Q18. Please choose the gender that best identifies you**

Male

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Take the Library building down to ground floor and put on a new roof. Use as a reference book library. More people use the internet, old people still like to check books. Use Art Gallery in Civic Square as new library. It was the library in 1950. Children ground floor, adults upstairs. Extend 2 single storey building on either side for cafe and reading room.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I'm a member of U3A that meets at Picture theatre Kent Tce. We had a speaker about 12-16 months ago. He spoke about the land a Civic Square including the library. It was not a good report. Even the Police Building had trouble in an earthquake and the building turned round at its base, it can be seen from the footpath. The library was built after the 1990 Building Act change causing sub-standard building, also caused leaking homes. It is like the two buildings at Waterloo Quay - BNZ and Government department. BNZ had the wrong roof even though it was repaired. Both buildings have been taken down because floors pancaked they never should have been built there on the site. The black State Insurance building had same trouble but it was corrected before it was finished. The person that cuts my grass was a builder on the site. The art could be put in government or Council buildings. rest to Wanganui (old Wanganui Complete Centre. I worked for the government when it was built.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Good access for disabled

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

No

Q16. Where do you currently live?

Kilbirnie

Q17. Which of the following ages groups do you belong to?

70 to 74

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

All options A,B,C were ticked for Q6. "All of these as possible & when possible" Minimal level repairs followed by a future upgrade for Q7.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Many of the examples in the supporting documentation feature stairs. None have handrail, lifts for those who can not manage stairs are not inclusive. Forget all the proposed changes they are rubbish.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Te Ngakau Civic Square connections
2. Making the building safe
3. Making the building resilient
4. Heritage
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets Unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Te Ngākau as it was is wonderful. It has been destroyed by council moving out, closing off access, closing the library. Bring it back and the bridge too.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Yes, bring back the proper library

Q16. Where do you currently live?

Te Aro

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The central library could be part of a community precinct, but could be a stand-alone library. This needs careful thought and planning.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

If the building is an earthquake risk it must be replaced. There may also be a seal-level flooding issue depending on the progress of climate change.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- 1. Cost to ratepayers
- 2. Sustainability
- 3. Future-proofing the library service
- 4. Climate change
- 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Unappealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

This is a Te Ngakau question not a library question. No thought seems to have been given to the development of this area

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Arapaki and Te Awe are basically reading rooms rather than libraries; they do not hold significant collections of important non-fiction works.

Q16. Where do you currently live? Karori

Q17. Which of the following ages groups do you belong to? 75 to 79

Q18. Please choose the gender that best identifies you Male

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

We would like to appear in person to support our submission Contact person: Ella Flavell, Chair Wellington City Youth Council Introduction 1. The Wellington City Youth Council (Youth Council) welcomes the opportunity to submit on Wellington City Council's Future of the Central Library consultation. 2. Having considered the five proposed options, Youth Council wishes to support Option D - a new build on the same site. 3. Youth Council believes that Option D is the best proposal for the following reasons: a. A rebuild allows greater opportunities, whereas Option C is limited to the existing infrastructure of the building. b. Ability to create a 21st century, youth-focused space. c. A new building is able to be purpose built, rather than retrofitted d. Long-term resilience of the building as it can be built to meet the current earthquake-proof regulations, instead of attempting to strengthen a building designed for out-dated regulations. e. A new, creative space will improve civic engagement in the area, drawing people back into Civic Square. 4. A new build provides strong civic impact, is economically viable, and creates better opportunities for a youth focused space in the central city. 5. For these reasons, Youth Council believes that Option D provides the most desirable outcome for young Wellingtonians and future generations to come. Civic Impact 6. A new Central Library offers an unparalleled opportunity for our community to invest in a truly architecturally and socially significant building which reflects modern innovation and projects a self-confident aspiration for Wellington's future. 7. A new building gives us a new chance to meaningfully incorporate the narratives of the diverse communities and mana whenua of Te Opoko o te Ika Maui. 8. Unlike the trio of remediation options, Option D offers a high level of seismic safety and would be purpose-built and designed to incorporate best-practice sustainability standards and respond to long term climate change concerns. 9. With Option D, Wellington would respond to the immediate need to reconstruct the central node of our library system and invest in a valuable civic asset for the future. Rather than just repairing the current building, Wellington can build back better and be aspirational in designing a fit-for-purpose building to serve the community. 10. Christchurch City's experience in rebuilding its Central Library - Tiiranga - is insightful and instructive. Situated in Cathedral Square - Otautahi's equivalent of Te Ngakau - the new Central library provided a high quality fit for-purpose building for three reasons: a. The design process was meaningfully participatory and involved serious, sustained engagement with librarians and the community as clients and local iwi designers as key stakeholders. b. A partnership of designers who skilfully and responsively led and executed the design and; c. A public that values libraries and has quickly embraced the new building. 11. Christchurch's new library offers a broad range of amenities, including public meeting spaces, a giant Lego collection and slide, 3D printers, an interactive wall, sewing machines and more. These 'new' additions are consistent with international trends in library design and Tii.ranga embraces these without ever losing sight of its role as a collector and provider of books and archives. 12. Similarly, Option D gives Wellington an opportunity to innovate an exciting future for our community. At a similar, if not cheaper level of investment, Option D would reinvigorate Te Ngakau by fostering a sense of destination that creates an array of different kinds of experiences: quiet seating, meetings with friends, reading books, accessing public services online, playing games, doing homework, senior citizens get-to-togethers and youth centred engagements. 13. Our new Central library would not only inject stimulus into the heart of the city, but also a great civic building, a new work of culturally responsive, place-based architecture that represents the challenges we have been through and what we have lost, but manifests a bold, innovative and community-centred future. Economic Impact 14. Based on the information provided publicly by Council, Youth Council believes that a brand-new Central Library makes the best economic sense. Of the two options Youth Council is focused on (Options C and D), Option D gives Wellingtonians everything we gain from Option C and the ability to build a modern

building with amenities for a 21st Century capital city for between \$20m and \$40m less (Statement of Proposal, pp. 28-29). Option Dis cheaper to build and open, more resilient to future seismic activity, and undoubtedly more sustainable as it will (presumably) be designed from the ground-up as a green building. 15. The timeframes surrounding the proposals for Options C and Dare within six months of each other, indicating that Option Dis cheaper to build and only marginally longer to complete. 16. The Statement of Proposal does not go into significant technical detail regarding the relative seismic resilience of an Option C library versus an Option D library. It is expected that a new build will provide a more comprehensive approach to resilience than a strengthened existing build. New builds like Option Dare designed from the ground-up to meet and exceed not just today's building codes, but tomorrow's. 17. No matter how much you strengthen an existing building, you either keep the failing internal structure, or you lose the heritage by replacing it. The former couldn't, and shouldn't, be justifiable under Council's own standards, and the latter is essentially Option D bar the benefits. Youth Council believes that the city has a duty to current and future Wellingtonians to build the strongest Central Library we can - this means Option D. 18. Sustainability is also better supported by a new build than a retrofitted option. Youth Council believes that Option D achieves the best sustainability outcomes for Wellington. Instead of just tacking-on sustainable enhancements to an the original building, Wellingtonians would get a library that not just leaches but embodies sustainability and its latest architectural implementations. 19. In terms of resource efficiency, the increased efficiency of a library built to the absolute highest modern standards would greatly outweigh the waste caused by demolition, especially if Council takes the opportunity to become a leader in the field of building material recycling. 20. Although Youth Council acknowledges the potential for litigation as a result of Option D being chosen, we believe that the significant cost savings and improved amenity gained from an Option D library outweigh the potential litigation expenses, particularly when the lower building cost is considered. Our Vision for the Central Library 21. The Wellington City Youth Council strongly advocates for the City Council to be bold in its design for the proposed Central Library. This building will be used over decades to come, so ensuring that it is flexible and sustainable is essential. 22. We would like to see an inclusive space that is open for any and all people to use to truly reflect the diversity of people in Te Whanganui-a-Tara. This could look like books in a diverse range of languages, catering to potential accessibility barriers in the building e.g. wheelchairs - and having spaces that reflect different cultures. 23. We also believe that there should be a dedicated floor or area for youth. Having a specific area for young people would not only draw them to the library, but would also encourage them to meet other young people. Having this space would make for an accessible place for young people to study, and also a place where youth could simply come to hang out. It would allow for the creation of a wellbeing hub for young people in the city, as community services and youth workers could be located within the youth space, to support and provide guidance for young people. 24. Youth Council believes that this would replace the old Reading Cinema area where young people often used to gather, for both studying and recreational purposes. We recognize that this dedicated youth space would need to be plentiful in charging stations and with access to free Wi-Fi - perhaps with resources available for students to study and access related resources. 25. Youth Council would also like to see a dedicated 'Quiet Zone' incorporated into the youth area. This zone would be a place in which youth could study individually if they so desire. 26. Having facilities and resources that reflect changing times is important to allowing access to opportunities for all. These facilities and resources could include having AV and recording equipment, 3D printers (like Waitohi and Tii.ranga), computers, power chargers, Wi-Fi, and access to software that may be difficult for people to access usually due to cost factors. 27. Examples of libraries which integrate youth and community spaces include the Tii.ranga library in Christchurch, and the Waitohi library in Johnsonville. The Waitohi makerspace, and Tii.ranga innovation space are examples of the integration of spaces within the library which go beyond just containing books. 28. Overseas examples such as the Finnish Civic Library in Helsinki which also integrates community services and spaces is another example of the type of mixed use spaces within a library building, that expands its functionality beyond the traditional silent spaces for reading and studying and allows it to adapt to a 21st century vision of libraries as community hubs rather than just book repository. 29. It is much more practical to integrate these spaces when a new building is built from scratch which is the primary reason the Youth Council advocates for Option D (the demolition of the current damaged building and rebuilding of the central library). 30. A rebuild from the ground up isn't limited to the same constraints as the previous space, including the layout, amenities, and expectations of the old library. Option D provides the best opportunity for the future. 31. Youth Council recognises that Option Dis not Council's preferred option. However, we believe that Council should be bold and choose Option D. In our view, the opportunity for a new, modern, purpose-built new library is worth taking the risk of litigation and procedural issues regarding the heritage status of the building in order to achieve the goals of this proposal. 32. Whilst maintaining heritage within our central city is an important consideration, this heritage needs to be mitigated when it is preventing the possibility of progress and innovation. Where possible, heritage needs to be considered, however this is an opportunity to look to the future, with the possible benefits of a new space being seen to outweigh the importance of maintaining heritage aspects. 33. Moreover, the current building is damaged, and will cost more to repair than to build anew. It seems impudent to prioritise the heritage aspect of the current library building when both price and greater purpose-built amenity are prioritised by a new build. 34. We acknowledge that a rebuild would likely mean a later opening date for the new library. However, this is a disadvantage that Youth Council is willing to accept where it allows a stronger and more desirable space into the future, particularly given the timeframes for Option C and D are similar (May 2025 vs November 2025). 35. Option D provides the best opportunity to expand this space from simply being a library to also become a multi-purpose community space. Option Dis a chance to re-imagine the way that a library space operates and is used, with the possibility to incorporate aspects of a community centre in the middle of our central city. 36. Whilst high level remediation is restricted to the building as it currently exists, a new building will allow increased accessibility for all members of the Wellington community, with the opportunity for widespread consultation to ensure that the concerns of equity groups are included in the new design. 37. The re-imagining of the Central City Library is a once-in-a-generation opportunity. Due to the high level of cost associated with any proposal, Youth Council believes that this opportunity should be taken to redesign the space to the highest level possible to ensure it will continue to be a safe, appealing space for future generations to come. Conclusion 38. Youth Council supports Option D - a new build on the same site - for the Future of the Central Library proposal. 39. We believe that this option is the most viable economically, and allows the opportunity for innovative design and thinking in this new space. 40. Due to earthquake damage in many other central-city public buildings, youth have lost areas where they are safe and welcome to gather within the central city. This proposal grants the opportunity to remedy this, allowing Council to have a direct connection to young people in our city spaces. 41. Option Dis an opportunity to build a space for future generations of young Wellingtonians, drawing them into the central city to a welcoming environment where they are able to learn and thrive. 42. Regardless of which option is selected, we wish to implore that a youth focused

Q1. Your name\*

Elizabeth Whyte

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Options C and D

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I think the present site is excellent and if a new site is preferred it needs to be central eg where the RNZB are temporarily housed at present Christchurch has a good example of a library recently built which cost under 100 million

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

not answered

space as described above is included. This engagement is an exciting opportunity for young people to highlight to Council to show what is most important to them. Youth Council looks forward to collaborating with Council to create such a space. 43. By investing in the future of Wellington's central city in a bold way, Wellington has the opportunity to set a precedent for the way that Council's prioritise and engage with Youth in a meaningful way, creating a purpose built space for them in the heart of our city.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Also support option E. Given the extent of the cost of high level remediation of a rebuild under Option C, we do not believe the 'heritage' value of the existing building warrants either the additional costs or the inevitable constraints on service design. The stated remediation goals are likely to be an underestimate (as demonstrated with the Town Hall remediation) – at the time limiting the full scope of the existing building to produce the best possible library design to meet future needs. We believe some heritage aspects of the existing building (eg the nikau palms) could easily be incorporated in a new building. In our view the exact siting of a new library building in Civic Square should be done in the context of an overall plan for the Square that makes the precinct the heart and soul of Wellington. We want the Council to develop the Te Ngākau civic precinct plan urgently, with a new library as part of that. At the moment the area is a depressing disaster zone, not helped by placing the ugly prefab dance school on the edge of the Square. We need an overall vision for the centre that we can all see and understand how the bits fit together to produce a vibrant community hub. At the moment we just know about separate, apparently unconnected projects. Give us the overall picture, timetable and costs. If we don't quickly develop this new centre we will cease to have a city with a heart.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The things I have most used from the present library, and strongly wish to see retained include: The reference facility for books, papers, print material in general Daily newspapers A place for quiet study using library resources A family friendly facility, with books, mats, couches, toilet facilities for children and adolescents Retain helpful staff Open 7 days a week Repository for magazines, music for borrowing. I have spent time in the Christchurch new library, and think it is far too pretentious, noisy and overwhelming; with unsupervised children treating it as an indoor playground.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I have read your consultation booklet 'Future of the Central Library', in which you recommend Option C - High-level remediation. You give no reasons for this preference other than that the building was designed by Atfield Architects, won local and national awards (presumably 30 years ago when it was built), and is 'an iconic building'. And this option is going to cost us ratepayers and extra \$18 to \$43 million over demolition. The NZIA, presumably, is all for remediation - though I haven't been able to find a report of the 'Save it or Scrap it' meeting in 2019. I believe they were/are also all for preserving the monstrosity that is the Dixon St flats. It would be far more believable if they were also prepared to come up with the money to support their stance. It seems to me that the only viable option is to demolish and instead erect a brand-new, purpose built building which would not only meet all relevant standards but could well be award-winning as well. The only caveat I would put on the demolition is that the Nikau Palms be saved and re-used. I have (briefly) visited the new library in Christchurch; ours could be even better.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Submission re Wellington Public Library: I wish to support Option C, High-level remediation as the building is noteworthy and worthy of preservation. I think that "accessibility" would be improved and would be quite adequate if not quite perhaps to "best practice standards". And "Base isolation" would protect against large earthquakes at any time (though I would not regard an earthquake as related to Climate Change, as the Options table does. Most of the options are affected by Sea level rise). My preferences in order are: C, E, D, B, A.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I support option D, a new build on the same site. • This is the only way to ensure the building is built to the highest standards without leaving elements of unknown risk for a future seismic event and its also significantly cheaper than option c. • The effects of a future seismic event will be much better understood on a new build then on a refurbished building, ideally preventing the same expensive conversation having to be made again. • A new build allows the city to consider all options when designing for the next 50-100 years. • I also believe the existing building does have external design elements that should and could be maintained in the building's replacement. • Heritage aspects might be salvageable and safely reusable, but they don't have to be original build items to satisfy the point of heritage. Replication of features with modern and safer design and materials should be fully explored. • Much of the current building is simply an office building with little design character than others of similar age. • A clean site to rebuild on rather than trying to work with the existing fabric should be faster once design complete.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

1) Preferred Option - My preferred option for the Wellington Central Library is either a new build Option D on same land or alternative site Option E or other. - Other - Retrofit an existing building to be fit for purpose 2) Options Against - I am 100% against the High Level remediation - I struggle to see any benefit in most expensive option that has a 28% less design life(years) - This costs more to the ratepayers in the short term with higher rates now and in longer term when they have to replace or remediate the building in the future. - I have concerns over cost increases for strengthening, like what happened with The Old Town Hall since it was closed in 2013. 3) Respect of heritage - The current central library holds no "heritage value" in my view - When talking about historic buildings or spending ratepayers money on keeping buildings around Wellington, the current central library is not one that comes up in conversations that i have had. - Demolition of the existing building to allow better use of the land would be more beneficial to Wellington in the long term 4) Central Library Location - Current location for the central library is good. - It is central, it was next to the Council Hub which is useful but not sure of long term plans for Council officers - Critical to have good parking nearby - I have never thought that the current central library links well with the Civil Precinct or the surrounding streets. 5) Alternative Library location - Do not see that is a problem as long as library is central and has car parking 6) Preferred Option for Library - Accessibility including both public transport and car parking ability - If new build, consider how to also create value i.e. office space, apartments at higher floor levels if new build - If retro-fit an existing building, can the construction build, library set up and on-going costs be completed in a cost effective way maintaining the role of the library and allowing for future needs of a modern library - It would be good to have the Capital E close to the central library but it would be important to keep the library and Capital E separate.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe  
2. Making the building resilient  
3. Future-proofing the library service  
4. Cost to ratepayers  
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

More windows to help connect the library visually to the square and surrounding streets  Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
 Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Needed but such a low standard of accommodation. Its like being in a shoebox. Low ceiling. Not much natural light. Not welcoming ambiance. Let Library have MOST space. I'm cynical about how other deals are done to make money.

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

7) Te Ngakau Civil Precinct - It would be good to keep the library in this area as i think the library works well with Precinct open space and link to waterfront.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** not answered

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply**

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

8) Interim Library - I have visited two of the interim libraries but was disappointed and would make little effort to return again. - I have been using libraries in the suburbs but miss the range of books that use to be available in central library In Summary, i look forward to either a new library being constructed or an existing building being retro-fitted to be fit for purpose as soon as possible as i believe that a very good central library is very important asset that help fosters the health and vibrancy of the community and city.

**Q16. Where do you currently live?** not answered

**Q17. Which of the following ages groups do you belong to?** not answered

**Q18. Please choose the gender that best identifies you** not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Also Option E Having closely followed the Council's deliberations as to what to do with the current library I wish to express my views as follows. The current structure designed by the late Ian Athfield and his team is in my view certainly not architecturally pleasing apart from the exterior palms. The structure blocks the use of natural light with large solid concrete walls. Options A and B are not feasible as NBS is inadequate, Option C is a waist of money on the existing unattractive building. Examples of what could be done one should look at the new library in Christchurch and the library at Otago University. Having looked at the Options A-E , I submit my preference to a New Build on the existing site or a new site within the precinct, a saving of up to some \$40m.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1.

**Q8. Is there anything else you would like to tell us about the future of the Central Library building?**

Dear Council Thank you for the opportunity to submit on the plans for the Wellington City Public Library. Please accept this as my submission on the proposal to re-open the Wellington City public library. I am sending this in via email as I have no wish to have another password to remember to make a submission on a civic issue. I am making this submission as an individual.

1: The Options summary is bias, suggestive and leading. There should have been no mention of the councils preferred proposal. This proposal has way more info and photos than the other options. All proposals should have been presented in the same way without council bias.

2: I support option B – mid level remediation. This option opens the library sooner than the other more expensive options and more safely than option A. It retains the building and will get people to the area sooner than options c and d and e. In these times, it is important to get people back into the city and opening the library is the best way to do this. It will support other businesses in the area.

3: The council has a history of cost blowout. The estimated cost for this option is \$131.2 to \$151.8m. I expect that the cost blow out will be more than the preferred option C. So to be fair to ratepayers, keep the cost down and open the library.

4: I am not sure what the point of the 'early concept image' is on page 21 of the PDF with the glazed North Façade. Is this concept design back on the table? I like the way it was done with the ramp as it is more wheel chair and mobility friendly. So why is this picture here without an explanation of why. Are we supposed to think it is part of the plan or is it just a pretty picture? Why aren't the sunlight pictures included with this option and only the councils preferred option (One that I think the councillors said they didn't want put forward as an option).

5: There is a lot of talk in the document about the 'no climate change mitigation' in the disadvantages of options A, B. But no mention of what exactly is being done to mitigate climate change in option C, D, E. This needs to be explained better. Is mitigation building on a site further from the sea? Is mitigation not having a basement? Does it mean building higher so people can head to level 15 in a high tide? What exactly is meant by this.

6: There are many buildings in Wellington that have a 40%NBS that have less damage than some modern buildings i.e. statistics, BNZ, Defence, and a few others. I don't see the need to spend a whole lot of money to make the building 80%NBS or higher.

7: There is talk in the document of how option A has limited improvement to accessibility and connection to civic square. Yet, Option B has the possibility of improved accessibility and connections to Civic Square. Why is this difference. It is part of a makeover not strengthening which is the major issue here. There is nothing wrong with the accessibility – there are windows, there are steps and there is a ramp. Bringing in accessibility and connection with Civic Square is just promoting some vanity project wanted by some councillor. Bringing people back to the city and opening the library will bring people back to the square. The best thing to make the square a place to be is not building on Jack Ilott Green and open the council buildings between the Town Hall and the Library.

8: I am interested in 'some risk of closure due to more strengthening requirements from future changes in building regulations'. This needs to be explained to the public in more detail as what is planned and what some risk means. Wasn't the building built to quite recent code? Seems to me that it is a compliance/design issue rather than a future strengthening issue. The council doesn't exactly have a good record in this area i.e. yellow stickered an art deco building because they didn't understand the 'numbers' in the engineers report and didn't go back to the owners/engineers to get an explanation – just yellow stickered it. And the lack of a code of compliance for the 'sustainability house' in regent street, Newtown some years after it was built. More modern buildings than this have had to be demolished after earthquakes – see point 6.

9: Concerned about the loss of some basement space with option C. The council seems hell bent on removing car parks as a solution to their problems. I hardly drive (I cycle everywhere) but do not agree with the councils dislike of the private car as a means of legitimate transport for some people. Does this mean storage space will be lost or does it mean car parks. I think you need to explain what it means and be transparent.

10: Isn't it fantastic that the 'people' fought the closure of suburban libraries. Imagine if the council had got its way a few years ago and closed many of the libraries in an effort to 'save money'. The same libraries that are now providing an excellent back up service for the central library. Go the people.

11: I may wish to speak to this proposal so please put me on the list.

12: Please acknowledge my submission, that it will be included and counted.

This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please accept this email as a ratepayer request to adopt Option D ( New build on the same site ). I do not support the Council proposal to adopt Option C for the following reasons : Option D is less costly for ratepayers and can be delivered in a similar timescale to Option C. Option D would allow a more resilient, modern, future proof and exiting design than Option C, which may be constrained by the footprint and structural design of the current library building. Option D would allow the demolition of the existing building which is boring to look at and uninviting. It would allow the architect a blank canvas on which to design a building ratepayers would be proud of and wish to make great use of. Option C places great merit on a lower carbon footprint than a completely new build. However, this argument was never seen when the council supported the demolition of the NZ Defence Building, the Statistics office, a 12 story block of appartments, the Shell building and the latest BNZ office block etc. Whilst important to take into consideration, I do not believe that this is a compelling reason for the Council to adopt a significantly more expensive - retain and remediate solution. Discussion with friends shows that most ratepayers do not consider that the current library has any heritage worth. They want a new modern and less costly solution than Option C and one that demonstrates that the Council has flare, listens to its ratepayers and can build a new facility that meets the needs of all potential users in both its content and facilities and just as importantly, its look. Please take these arguments into consideration and reverse the Council decision to adopt Option C. Thank you,

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

This is our submission on the consultation on the future of the Wellington central library. We are Wellington City ratepayers. Our preferred option is Option D – new build on the same site. Our reasons for favouring this option are safety and the cost to ratepayers. Building again from scratch should ensure that all safety objectives are achieved, because the most up-to-date building practices will be able to be applied. Refurbishing an existing structure that has substantial structural deficiencies is bound to be less likely to achieve this goal. If some decorative features of the existing building are valued, such as the metal palm trees, these can be retained. We strongly oppose Option C – high-level remediation, not just because the final product is likely to be less safe than a new build, but also because, even at the initial estimate stage, the cost to ratepayers is substantially higher than rebuilding from scratch, and we know from past experience with council building refurbishment projects (e.g. the Town Hall) that actual costs invariably overrun the initial estimate by a wide margin. Hence, if the initial estimate of the high-level remediation cost is \$174.4m to \$199.8m, past experience would indicate that the actual outcome would be at least \$90m more than this. New build estimates are typically much more accurate and, in any case, the new build estimate is c.\$20m less to start with – a saving of about \$250 per ratepayer for a better product.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

- The Central Library, most importantly, is the receptacle for books/magazines/papers/maps. - Multiple "Grand" entrances occupying most of the ground floor are NOT required. - Build in wood (laminated beams)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please do NOT allow any engineers or designers, who gave us weather tightness issues or the unsafe flooring issues of the present library and WCC office block, ANYWHERE NEAR the renewal/upgrade

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Future-proofing the library service
2. Making the building resilient
3. Climate change
4. Cost to ratepayers
5. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Unappealing

More windows to help connect the library visually to the square and surrounding streets

Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

IP Address: [redacted]

- Q1. Your name\* Jan Galloway
- Q2. Your email or postal address  
[redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
I'd love to see a library like the new library in Christchurch. The outside look is not important but it would be good to retain/reuse the nikau palms. Love all the activities available in Christchurch. It has a real family feel.
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
It needs to be demolished - as sustainably as possible.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building resilient  
2. Cost to ratepayers  
3. Accessibility  
4. Te Ngakau Civic Square connections  
5. Future-proofing the library service
- Q10. If you selected 'other' above, what other factor was important in your decision?  
not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing  
More windows to help connect the library visually to the square and surrounding streets. Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Important to have spaces different groups can access for meetings. Good to have a café.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Monthly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Te Awe seems a bit dark - the ceiling feels low. Reasonably good use of limited temporary spaces.

**Q16. Where do you currently live?**

Karori

**Q17. Which of the following ages groups do you belong to?**

70 to 74

**Q18. Please choose the gender that best identifies you**

Female

not answered
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Future-proofing the library service
  2. Accessibility
  3. Cost to ratepayers
  4. Making the building resilient
  5. Opportunities for partnership
  6. Timeframe
- Q10. If you selected 'other' above, what other factor was important in your decision? not answered
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?
- Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Unappealing
- More windows to help connect the library visually to the square and surrounding streets Unappealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?
- In the consultation book I could not find any information on what the 'heritage and sustainability' concerns (ref page 27) actually mean. From all the information I have read in the consultation book, it looks very clear to me that a new building with all the opportunities it presents, being built to the most up to date earthquake building code is the answer. A huge advantage is that from the costing outlined, it would be substantially less expensive than option 'C'. Our country and the citizen of this city have a massive debt to repay due to the events of this year and no one of us know for how long into the future. PTO.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Very little, very limited <> of publications and research opportunities and access to interim library and very limited room in library. I was a regular user of the central library before it was closed. I have no hesitation in expressing my thoughts as a ratepayer and citizen that the new build option is far and away the best way to proceed. Thank you for reading my submission. Yours faithfully, E.J Skelton

Q16. Where do you currently live? Newlands

Q17. Which of the following ages groups do you belong to? Prefer not to say

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Adam Moore

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

To be honest I think the library was perfect at it was, so I am going to choose Option A, though if there were an option to maintain the iconic aesthetics of the old library while providing the earthquake strengthening of Option C I would be in favour of that. I am just concerned about losing what was a great design and has a special place in my heart having grown up with it. While the new Johnsonville + Te Awe Libraries are really nice, they are just a little bit soulless and sterile, they don't have the character of the Central Library, and it would be sad to lose that for a superficial face lift. Option B seems like a waste of money - be cheap or go all out, don't go in between. Neither option D or E are desirable. The old building is a Wellington icon.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The one thing I didn't love about the Central Library was the toilets. This was more to do with some of the people that used them and the state they left them in to be honest. But I quite like the more private layout of Te Awe Library, although they're a bit tight, don't want to be demanding but a bit more space would be nice, if you choose a similar layout.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Heritage
2. Making the building resilient
3. Making the building safe
4. Sustainability
5. Timeframe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

As I mentioned they are nice and like them. I just find the design a bit soulless compared with the old Central Library. If you do update the design, please consider incorporating a bit more character to stay true to the original design, which was a bit quirky, like Wellington itself. Maybe draw inspiration from the Cuba Street and the Havana Coffee owned cafes such as Midnight Espresso and Fidels. Just really want to drive home the point that it should be Wellingtonian and have a design that reflects that! Quirky is key! Cheers for listening and keep up the great work!

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you belong to? 30 to 34

Q18. Please choose the gender that best identifies you Male

Respondent No: 1410

- Q1. Your name\* Felicity Rashbrooke #40
- Q2. Your email or postal address  
[Redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
- Provide good access to all forms: books, paper, ebooks, CDs, DVDs etc - Good spaces for study and reading - meeting rooms for organisations to use - spaces for specialist services such as CAB, Community Law etc
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option C – High-level remediation
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Person selected C or D "depending on which was cheaper".
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Making the building safe  
2. Making the building resilient  
3. Future-proofing the library service  
4. Heritage  
5. Te Ngakau Civic Square connections  
6. Accessibility
- Q10. If you selected 'other' above, what other factor was important in your decision?  
Note: submitter selected both "Making the building safe" and "Making the building resilient" 1 equally, so did it in order up to 6.
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing  
More windows to help connect the library visually to the square and surrounding streets. Somewhat appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Hold more events/exhibitions in this space.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
Monthly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

More collection available Less "surveillance" and more real help More relaxed atmosphere. Note: Question 15 - Submitter lives outside the Wellington region but is a Wellington ratepayer.

**Q16. Where do you currently live?**

Outside Wellington City

**Q17. Which of the following ages groups do you belong to?**

70 to 74

**Q18. Please choose the gender that best identifies you**

Female

Q1. Your name\*

Faye Bishop

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Please demolish and rebuild at pace. The Palm Tree features would be worth saving or new ones incorporated in new build. I have enjoyed existing building with glass facade to square and miss access to reference & other books.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Accessibility
3. Future-proofing the library service
4. Timeframe
5. Making the building resilient
6. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Unappealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Retain this open space.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Nothing re Manners Street, cramped and hardly enough space to breathe.

Q16. Where do you currently live?

Mount Victoria

Q17. Which of the following ages groups do you belong to?

Prefer not to say

Q18. Please choose the gender that best identifies you

Female

Teresa Underhill

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I would prefer Option B for our library. I believe this option is a much better choice than the most expensive repair or rebuild option. I also would like the council to demonstrate that they have respected and heeded the advice given them from Thornton structural engineering. Adam Thornton has spoken publicly about this.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

My vote is for Option D 'New Build on Same site'. It is the cheaper option for a truly resilient building and discounts architectural heritage considerations of the existing building which have been grossly exaggerated.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

- Q1. Your name\* Alana Bowman
- Q2. Your email or postal address  
[redacted]
- Q3. You are making this submission: as an individual
- Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No
- Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.  
Community meeting space Study space Accessible book shelves Modern world wide research capabilities
- Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one  
Option D – New build on same site
- Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.  
not answered
- Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
Please retain the Nikau trees. Create better interaction with the civic centre.
- Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.  
1. Future-proofing the library service  
2. Timeframe  
3. Climate change  
4. Sustainability  
5. Cost to ratepayers
- Q10. If you selected 'other' above, what other factor was important in your decision?  
Please build a new building as soon as possible
- Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?  
Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing  
More windows to help connect the library visually to the square and surrounding streets. Appealing
- Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?  
Please reconsider the convention centre- renovate with <willis bond> to use for another purpose like a second library for other historical and world wide research.
- Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly
- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply  
Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

LIKE- accessible to the street DISLIKE - small, crowded, noisy, no study space for kids

**Q16. Where do you currently live?**

Mount Cook

**Q17. Which of the following ages groups do you belong to?**

65 to 69

**Q18. Please choose the gender that best identifies you**

Female

Q1. Your name\* Heritage New Zealand - Dean Raymond

Q2. Your email or postal address

Q3. You are making this submission: Heritage New Zealand

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

1. Heritage New Zealand Pouhere Taonga (HNZPT) is an autonomous Crown Entity with statutory responsibility under the Heritage New Zealand Pouhere Taonga Act 2014 (HNZPTA) for the identification, protection, preservation and conservation of New Zealand's historical and cultural heritage. 2. Thank you for the opportunity to make a submission on the options for the Central Wellington Library. 3. Our main interest in the options presented is the preservation and protection of historic and cultural heritage. 4. The Central Library is within the District Plan Civic Centre Heritage Area and any changes to the exterior of the building would need to be sympathetic to the Heritage Values of the Civic Centre. 5. The Wellington Central Library Library possesses outstanding architectural significance as a highly esteemed postmodern building, employing classical architectural forms, historical references and varied shapes and materials to arresting effect. It has exceptional historical significance as a major work of Ian Athfield, one of New Zealand's most renowned architects of recent times, and represents the entry of his firm into the field of public architecture. Commonly referred to as Wellington's living room, the Wellington Central Library has outstanding social significance as a much-loved and visited institution. 6. The building has been nominated to be included in the New Zealand Heritage List/Rārangi Kōrero as a category 1 building. 7. We support options B or C as both these options will make the building safe and resilient and will preserve the heritage values of the building and allow its continued use as a library and community space. (64 4) 494 8320 Central Regional Office, Level 1, 71 Boulcott Street PO Box 2629, Wellington 6140 heritage.org.nz 8. We would like to make an oral submission to the Council. Please contact us at this office if you would like any further discussion or clarification of this submission.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Submission showed they supported option B or C. "We support options B or C as both these options will make the building safe and resilient and will preserve the heritage values of the building and allow its continued use as a library and community space."

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- 1. Heritage
- 2. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

4. The Central Library is within the District Plan Civic Centre Heritage Area and any changes to the exterior of the building would need to be sympathetic to the Heritage Values of the Civic Centre. 5. The Wellington Central Library Library possesses outstanding architectural significance as a highly esteemed postmodern building, employing classical architectural forms, historical references and varied shapes and materials to arresting effect. It has exceptional historical significance as a major work of Ian Athfield, one of New Zealand's most renowned architects of recent times, and represents the entry of his firm into the field of public architecture. Commonly referred to as Wellington's living room, the Wellington Central Library has outstanding social significance as a much-loved and visited institution. 6. The building has been nominated to be included in the New Zealand Heritage List/Rārangi Kōrero as a category 1 building. 7. We support options B or C as both these options will make the building safe and resilient and will preserve the heritage values of the building and allow its continued use as a library and community space.

- Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

They are fine as branch libraries, but cannot replace a proper central library. As I cannot visit during normal work hours, (or normally at all during the week). It would be handy if all three could be open at weekends to the original times for the previous building. At the moment, times make it very difficult to get to Arapaki and He Matapihi.

**Q16. Where do you currently live?** Tawa

Q1. Your name\* Bernard O'Shaughnessy

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

CBD Library must have focus on BOOKS! (and people). Will supply separate submission - memo. this is below: Future of the Central Library - Consultation (Bernard O'Shaughnessy) Councillors: the following comments are made in addition to my submission form. 1) Consideration of options: I support Option D: New build on the same site. There is only option D and C realistically to be considered. To consider Option A to have low level Remediation and achieve just 40% NBS, even thou costing \$76m - \$90m is just a foolish suggestion and its disappointing to see Council Officers even give air time to this. Yes, we the voting and paying ratepayers want options be put to us, but lets make them real options and not writing in options that are just a strategic display of providing an unpalatable option so as to draw us to their desired conclusion. In similar vain Option B to have Mid Level Remediation providing 80% NBS at a cost of \$131m - \$151m and only have a life span of 42 years should also not be on the table. Option E to have another new build in the Te Ngakau Uncivil Precinct is not a starter either. Councillors know that the majority of ratepayers want a CBD Library on the present site, whether that to be a rebuild/upgrade or a new build. This option is really linked to the call by some ratepayers, including me, in venting anger of the absolute folly of Council pushing ahead with its looming white elephant Events and Conference Centre. Our call was in knowing that the E & C Centre was a folly project from the start, will absolutely escalate in the final cost, then will be propped up with new barrow loads of ratepayer money to justify and sustain its existence. The call was as the E & C Centre has to go ahead because of contractual reality, then it could be reconfigured to become an CBD Library. Well, of course it could be done, of course it would cost some millions more, but if that meant getting a library asap then that's what the call was. But yes we ratepayers are practicable people as well so accept that its not viable to suggest the E & C Centre be a CBD Library, but neither is then any acceptance of a new library being anywhere else in the Uncivil Precinct. The City Art Gallery (being the previous City Library) could be an option, most interesting to observe that that building constructed in 1940, still proudly stands 80 years later and is functional, yet the 1991 CBD Library lasts a mere 29 years. So option E is a folly also, but its reasonable to include reference to it for consideration, to pacify the angst as referred to above So there is really only two viable options: C or D I wish Council Officers would have only addressed and highlighted these two options, rather than the poor average reader having to wade through consultation documentation overload written by university spumed urban planners and strategic policy developers feeding at 116 The Terrace effectively writing 101 varsity papers for each other. However I will address the issue of 'the process' in another forum when opportunity prevails. So I'm happy with either option. But Councillors will have heard from me, as I do so again wave the flag, yes rebuild/upgrade (High Level Remediation) or New Build on present site. BUT do it asap within 2 to 4 years. But I do favour option D. Look, the closed CBD library is awe sum, funny, cool, light-filled, quirkie and well loved, but to spent top dollar of \$200m, and then only have a life span of 50 years, compared to the opportunity of a new build on the same site costing less, but lasting for a projected life of 64 years to me is the best option. I am not supporting option D on the basis its cheaper than option C. We the long suffering ratepayers, know full well that even as one of your own high ranking Council Officers has said, "planners in these public project ventures are inclined to over estimate the benefits, yet under estimate the cost." So we all know, and you do as well, that what ever is the "Cost" it will escalate and blow out by at least 30% to 40%, if not more, and the build time will move towards later sunsets. I favour option D because: a) its a time for ratepayers and library users to have the opportunity to hopefully have true input in the design and facilities of the library, as the lucky Christchurch people were given the opportunity b) its the opportunity for us Wellingtonians, and visitors, to restore, polish up, enhance the Capital City's Crown Jewel, and give us hope for a better future, post our earthquakes, and Covid19. c) I don't buy into the suggestion that the Heritage of the closed CBD library is worth hanging one's hat on. If Heritage NZ or the Wellington Architectural Centre want to get excited over dull looking buildings then jolly well get them to pay for them to be restored. Why on earth the council Officers have let Athfield Architects Ltd any where near new design concepts I don't know. Maybe if Athfield had of done better design plans for the closed CBD building we wouldn't have the building now ready to fall down. I note the folly of Athfield Architects 'Early Concept Image' on page 23 of your consultation document: so not even a book in sight! 2) Time Frame The CBD Library closed in March 2019. So already as I write this 17 months has passed me without being able to have a beautiful place of destination in the sad concrete run down booze affected CBD without cycle lanes. I have said from the out set, as soon as the CBD Library closed I wanted to see either a rebuild/upgrade or new build within 3 to 5 years. That is within the period 2022 to 2024. But your option Option C suggests opening May 2025, or Option D opening November 2025. Just like the funding issue, we the paying ratepayers do not believe any time frames that are stated, as it just becomes a false expected deadline date, that is eroded away by lack of compliance to what shouldn't be open ended money making ventures for unsavoury developers. But if there was the political willingness by Councillors then a CBD Library could rise from the ashes within 2 to 4 years (one year already gone on paper shuffling). Look at how the new Children's Hospital is being erected. 3) Funding So whatever option, be it D or C, there is a great cost of between \$160m to \$200m. Big deal? Not really. There will be the typical cost blow out caused by unpredicted circumstances: I thought modern knowledged planners added in contingency costs (like the folly of declaring publicly the \$20m contingency costs

already woven into the budgets of the Uneventful and Conference Centre). Surely every 'sign off project' deal takes in account 'force majeure' be it earthquake, act of God (he's done enough damage already), raising sea levels (please leave your cars at home Eastern and Northern suburbs), or Covid19. So here's two ideas in regards funding. All Councillors will know that there is a huge following by ratepayers to have this issue resolved, the CBD Library is the heart of our city. a) Our new CEO is very good at managing the financial accounts of the city so she will easily absorbed the cost across various budgets and across many years. I recall for example those break down features officers put into annual accounts, to highlight how little the cost of something is, compared to the great service provided. The recent previous CEO was at pains to point out for example the high costs of running our swimming pools, relative to the cost of off road bike trails. b) Idea 1: Consider a targeted rate. I believe that ratepayers are super keen to have a CBD Library more so than any other venture undertaken by Council in decades passed, and for decades to come. Of course the naysayers would argue - "but we already pay high rates" why an extra. Certainly I'm sympathetic to that point having just seen Council stamp a 5.1% rate increase as well as even bigger % rate increases to come, but to have an identified separate dollar amount as being for this library development would have some merit. Like the cost of \$250m blown out to \$300m for the build over 30 years payable by 200,000 ratepayers (and expected to grow by 80,000) must only be something like an extra \$50pa per person. Like even less than a coffee Latte! c) Idea 2: Yes, I certainly don't have any belief that the ratepayers are receptive to a PPP. Like Transmission Gully project shows the folly of that as well as the rank games of the previous NAT Govt. But: Consider a partnership with the State. One way could be to join in a joint venture with the National Library. Remind yourselves that the city has a done deal with HNZ at our Arlington Social Housing rebuild. We have 'partnered' with other organisations to enhance the city's assets. Think Zealandia, or the pending Music Centre (City Council and that university on the hill — name escapes me). The National Library has to reinvent itself, along with National Archives. I sometimes think it would be better for the Govt to store and display the "Treaty of Waitangi" at the CBD Library. What a tourist attraction that would be: its really not in a good foot traffic flow up Molesworth St. So how about the National Library (that is advanced in digitalisation of libraries in terms of best practice) and it's parent Department of Internal Affairs, plus Archives do some sort of funding split to repair or replace our CBD Library. They could have some space on additional floors proposed in the build. Councillors would have heard from me recently, but I restate it, that I think our city, and our region, gets overlooked, and underfunded, because of us housing the Beehive (and the hanging on wasps.). Some other cities have done pretty well out of so called 'projects of national importance' yet wellington hasn't. Think Christchurch Sport/Rugby Centre, Christchurch Cathedral (so those 2 projects get \$500 find counting from Govt). How much money being splashed about for the America's cup. How many projects from Shane's 'Regional Development Growth Fund' are happening in our city (Peanuts). Then our regional gained \$189million from the \$3billion in the Budget Infrastructure fund. Allocation included: Upgrade the Wellington District Court for \$ 14m (where I use to work), Upgrade the Hood Aerodrome in Masterton, and even a whopping \$1.3million on revamp of the Masterton skate park! 4) Also consider Hours of opening of the CBDLibrary Councillors will know that I tabled a petition that the CBI library open all day Sunday (9am to 5pm) and that received support and attention, but events surpassed the reality. But I do state again, that in the new CBD Library I wish the Council to have all day Sunday opening. You know the statistics tabled, Wellington was one of the few libraries NOT to have all day Sunday opening which is really poor as after all we are the capital and hundreds of people stood outside the doors waiting for the library to open. I conclude in saying that I prefer Option D, but will also support Option C, but my greatest desire is to see it happen now within 2 to 4 years. Also that funding options should be considered. Bernard O'Shaughnessy Library Card Holder & Ratepayer

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Submitter ticked Options C & D

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Timeframe
2. Cost to ratepayers
3. Making the building safe
4. Making the building resilient
5. Climate change
6. Sustainability
7. Te Ngakau Civic Square connections

Q10. If you selected 'other' above, what other factor was important in your decision?

Note: submitter rated "Making the building safe" and "Making the building resilient" as 3 equal.; "Climate change" and "Sustainability" as 4 equal. "Partnership opportunities" wrote No, Maybe?

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Visits libraries daily. Hasn't visited He Matapihi as buses dont connect which is Council's fault. A) ok for for interim B) Yes heaps, but get on with the major issue - A CBD Library within 2-4 years.

Q16. Where do you currently live?

Miramar

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Prefer not to say

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I imagine the library to be a meeting place for cultural activities. Perhaps with <> to the university.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option B - Mid-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It needs to be adaptable to technology changes.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Te Ngakau Civic Square connections 3. Accessibility 4. Sustainability 5. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngakau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngakau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngakau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It's an important part of the CBD.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Once or twice a year

Q14. There are Interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

More intimate

Q16. Where do you currently live?

Berhampore

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Male

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I am a rate payer for two central properties, and committed library user. My submission is that the library is demonstrably fit for purpose once remediated as recommended in the Holmes consulting engineers report of 2013. There is no mandate nor necessarily to demolish and rebuild this valued space. In these Covid-19 times it would be particularly financially irresponsible and environmentally destructive to do so. Please acknowledge receipt and recordal of this submission.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Yes, cheers Sent from my iPhone Ro Gravit bharold@xtra.co.nz 021 058 9345 On 28/08/2020, at 2:14 PM, BUS: Central Library Submission <centrallibrarysubmission@wcc.govt.nz> wrote: Kia ora Ro, Thank you for your email. The remediated level which aligns with most closely the Holmes engineering report 2018 is Option A in the Statement of Proposal on the future of the Central library consultation. Are you comfortable with your submission going under Option A. if you need more details on the different options, please let me know. Ngā mihi, Debbie

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

not answered

Q17. Which of the following ages groups do you belong to?

not answered

Q18. Please choose the gender that best identifies you

not answered

Q1. Your name\* Michael Scott

Q2. Your email or postal address

[redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Sell the building but not the land, or else try to lease the building for a safe and appropriate purpose

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Relocate the Central Library to a non Te Ngakau Civic Precinct site, seek a long-term lease on an appropriate central city building being repurposed from retail

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The building certainly has architectural and heritage value, but not to the city council necessarily. The design and structure value is limited and it is only one and a half metre above sea level- a considerable risk factor.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Climate change 3. Timeframe 4. Cost to ratepayers 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

- We have to prioritise the needs of Wgtn's people above bricks and mortar. - We need a plan for the next century incorporating all the challenges and also responses which will benefit the community - Retain Te Ngakau as a public space if possible

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

The interim branches are dispersed and small. I really miss the old Central Library, the cafe and the ready access to the City Council offices.

**Q16. Where do you currently live?** Newtown

**Q17. Which of the following ages groups do you belong to?** 75 to 79

**Q18. Please choose the gender that best identifies you** Male

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

**Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**

Generation Zero supports Option C - High Level Remediation to restore Wellington Central Library as Wellington City's most important third place. Environment and Carbon Emissions Option C is likely to have the lowest associated carbon emissions as; 1. Strengthening the existing building will mean the embodied emissions of the original building materials are not wasted, and the substantial embodied carbon of the materials required to build a new library can be avoided. 2. This high level of structural remediation improves the library's resilience to future seismic events substantially, which will increase the lifespan of the building and have a positive effect on the overall lifetime emissions of the building. Evidence is emerging in Aotearoa that earthquakes play a big role in the overall life expectancy of buildings which makes a strong impact on total carbon emissions under life cycle assessment as strong buildings last longer and require less maintenance over time. 3. This level of remediation also allows for significant upgrades to the building services, which is an opportunity to significantly improve the energy efficiency of the building and reduce its operational emissions. This will also enable cost savings in operating the building in future. Reducing emissions associated with buildings across the city is an important part of the council's implementation plan for Te Atakura: First to Zero. If the council intends to encourage and incentivise private building owners to carry out significant work to earthquake strengthen and reduce the operational emissions of their buildings, they must also walk the talk by abiding by these same standards on their own buildings. Wellington Central Library will be an important flagship project for the city, regardless of whether it is retrofitted or rebuilt, and the council must lead by example and set a high standard. We would like to see the detailed designs for this project take up the opportunity for urban greening and water sensitive design surrounding the building to improve urban ecology, add to the wellbeing of the users, and reduce the urban heat island effect. Safety and resilience Option C enables the council to achieve a high level of resilience and make the building safe again, while reducing the carbon emissions of the project. Making a high upfront investment means that the library will be functional for years to come without future closures and remediation work, and the council will be setting a good example for other building owners in the city. As well as making the building resilient to future seismic events through strengthening and base isolation, this option will build resilience against climate change by raising the ground floor and reducing the potential impact of flooding and sea level rise. Under the current draft spatial plan, the council has identified Te Ngākau civic precinct as an "anchor of resilience", designated as a recovery hub following large scale hazard events. As such, ensuring its resilience is vital. Role in the community Central Library has always been a really important space for the community in Wellington; a third place where people can comfortably spend time together outside of home or work/school without having to spend any money. It was a place where all sections of society could connect and was important for the strength of Wellington's community. Its closure has been a heavy burden on the city. An advantage of retaining the existing building means the library can be opened sooner and restored as 'Wellington's Living Room'. Option C has the most opportunity to re-configure the library and enhance its relevance and importance to Wellington Residents. We are very supportive of the plans to "activate the edges" of the library by creating more entrances and opening the building to the surrounding area, both physically and visually. This will make it a more welcoming space and integrate it in the precinct, adding vitality to the area. Re-configuring the library is an opportunity to add new community spaces and services, and modernise its offerings, following the examples set by Waitohi in Johnsonville, and Tūrangā in Ōtautahi Christchurch. However, we understand that due to the nature of the existing building, this could be difficult as the collection is large which limits available space for new services without losing anything. We would like to therefore see the continuation of split spaces through the city to ease the burden and increase accessibility. This could be through ongoing use of central pop-ups or maintaining Te Pātaka to manage the full size of the collection. There is also a significant opportunity to improve the accessibility of the building, through; 1. updating the design by considering the journey through the building for people of all abilities. 2. Engaging with disabled people to ensure the design will suit their accessibility needs 3. integrating with the proposed mass rapid transit route to make the building easily accessed via public transport. Furthermore, we are pleased to note that the council has further plans to consider how they can work with mana whenua to develop a 'Māori sense of place' in the library, and the Te Ngākau civic precinct more widely, through the application of Te Aranga design principles. This is a site of significance to mana whenua and it is important those stories of place are celebrated. Feedback on the consultation Thank you for the opportunity to participate in the Future of the Central Library consultation. We would like to take this opportunity to compliment the council officers on the thoroughness of their consideration and the consultation material provided. We have been impressed by the availability of the Council to engage and answer questions throughout this process. We would note that while it was excellent to see clear considerations being given to the sustainability of the different options, we think that considerations for expected sea level rise in this area and the possibilities for managed retreat could have been more developed and explicit. We understand there has been a lot of work done on this in the background to this consultation and it would have been good to see more details included in the main document. In addition, while we appreciate it is difficult to do with such high level concepts, we think there should have been some scientific analysis of the carbon costs of each option. We agree with the assumptions made by the officers, but this analysis would have been useful to justify the cost of Option C under the Te Atakura. We understand that this work is going on in parallel to many other work streams and we would have liked for this consultation to have been extended to the entire civic precinct as a whole, even if the focus remained on the library. We know the council is in the process of planning and implementing a development plan for this whole area, and it would have been good if the consultation documents for the library embedded the options within that framework, as well as the work going on with Planning for Growth, and Let's Get Wellington Moving. We look forward to seeing this project progress and would like to make an oral submission to the councillors. Ngā mihi nui, Generation Zero Wellington

**Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one**

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Ray Chung

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Sell the site to a private developer with the proviso that the lower floors are reserved for the new library and leased to WCC. Note the submitter selected "Option D and "None of the Above, I prefer and alternative."

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Future-proofing the library service
3. Opportunities for partnership
4. Making the building safe
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision?

It doesn't make any economical sense to strengthen this existing building as the cost is prohibitive and still offers low utilisation to the site. By selling to a developer the WCC can have better utilisation by building to the maximum height, collect rate

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Convenient when I'm in town but I go to Tawa, Johnsonville and Khandallah Libraries more often as I work in Tawa.

Q16. Where do you currently live? Broadmeadows

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Male

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The building was not damaged in the Kaikoura earthquake. It was surprising how long it took to figure out the building is not safe. The library upgrading costs should already be in the WCC budget?!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Timeframe
3. Cost to ratepayers
4. Te Ngakau Civic Square connections
5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

Council's finances are already stretched. Rates are out of control.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Once or twice a year

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Lyall Bay

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Male

Respondent No: 1430

Q1. Your name\*

Kat Hall

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

- A lending library for tools in a community hub. - A mending workshop to fix objects as part of the community hub. - Interactive services that include sustainability at its core. (core is underlined)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Sustainability
4. Cost to ratepayers
5. Other (please specify)

Q10. If you selected 'other' above, what other factor was important in your decision?

An opportunity to create an energy efficient building. Note: the options above were not ranked, just ticked, so ranked them in order on the list

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Appealing

More windows to help connect the library visually to the square and surrounding streets      Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Central Library needs to integrate into the natural environment with planting and areas showcasing NZ natives - educational gardening.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

I have not visited an interim library

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Good for people who work in the CBD.

Q16. Where do you currently live?

Newtown

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Female

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

My attached comments enlarge on these areas. Basically confine the work to strengthening only. Other changes, developments can be done later piecemeal, with as little disruption as possible. (attached notes are below) About the Wellington Central Library My feelings about the future of the Central Library don't fit easily with the shape of your submission. Here are my feelings about the way our responses are guided: Why burden the job with connections with Civic Square and streets, with enhancements, new spaces for social purposes and functions, etc. My first response to the various alternatives is to ask why the cost needs to be, at this stage, inflated by the proposed enhancement of the building. The alternatives seems to exclude the possibility of high, or near-high, level of "remediation", on their own, without any of the enhancements. The important thing is to get the library repaired in its present form as quickly as possible. I don't care about 'multiple' entrances and I don't care about more windows that 'connect' the library with its surroundings. It's a Library and not a circus or shopping mall. All such refinements can be considered and carried out later, piecemeal, and without disturbing the functioning of the library itself in other then (sic) minor, temporary, ways. Speaking with your representative at Tawa in the weekend, she told me that such modifications later would entail closure of the library again; I think that would be totally unnecessary way of making changes, for they could be carried out carefully, one at a time, aiming to disturb the library the least. The only significant change that I would think might improve the building would be to place the cafe on the mezzanine floor somewhere where more light and views could be enjoyed. But I would not want that or any other changes to the building itself to delay the basic strengthening of the building and its re-opening as quickly as possible. I miss the Library hugely. I want to regain access as soon as possible to books, CDs and DVDs and books on classical music: the library or art and architecture. And non-fiction, especially European history and current politics. Levels of 'remediation' I am puzzled by the evident failure of 'Mid-level remediation' to include base isolation, which I would have thought was the most fundamental measure to implement. However, perhaps the building is considered strong enough to withstand the kind of earthquake that made base isolation necessary for Parliament Buildings and the Old Supreme Court on Stout Street. Heritage value I admire Athfield's architecture, and the library is undoubtedly one of his major achievements. Nevertheless, given the very high cost of preserving the library I find myself wondering whether it has much "heritage" value as the MFC or Town Hall, or the Hunter Building at Victoria University, or the old Government Building (now the university Law School): or the many precincts throughout the city that the City Council allowed to be demolished in the 1980s. Both options 3 and the NEw Building are estimated to be five years away. That's too long for me! (I'm in my eighties!) Expediency Neither of the two basic options has overwhelming appeal for me. I'm not sure that we're in an era of unperishable architecture form local New Zealand architects. Nor do I think the city would be prepared to hire a Gehry, a Piano, a Jean Nouvel, a Foster, a Calatrava to design a new library. but there would be the option of again (like Warren and Mahoney's MFC) borrowing from Christchurch which has recently opened a replacement central library which looks striking and definitely 'fit-for-purpose'. It was designed by Danish architects Schmidt Hammer Lassen, and looks like one of the city's most distinguished new buildings. (Though Christchurch has still failed seriously in neglecting to insist on the restoration of the beautiful Cathedral of the Blessed Sacrament). If the city showed any determination to engage a notable international architect, collaborating with a New Zealand architect, I would happily vote for replacement. My priorities So I am resigned to a choice between a new building that may not be particularly distinguished and 5 years away, and a restoration that might be thorough but will be needlessly delayed by fiddling with internal spaces and connections with its environment. In the light of that I am inclined to say: Make the temporary annexes as fully functional as possible. Get all the books and other material, including what is now held in the stacks, out of the building and make them accessible in one of annexes in the central city. In particular, I have an interest in getting access to classical music in the form of scores, CDs and DVDs. For the capital city, to be without a central library for another five years is intolerable and would be seen as a clear sign that Wellington no longer even goes through the motions of boasting that it's the "Cultural Capital". And settle for three or more temporary annexes around the city, preferably with each devoted to certain broad categories of its book collections and other more socially-designed activities. R L H Taylor, 1 Ngaitoa Street, Tawa, Wellington (lindistaylor@xtra.co.nz)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

None of the above, I prefer an alternative

**Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.**

A medium Level, but with base isolation and no other work.  
 Submitter also selected "Relocate the Central Library to the Convention and Exhibition Centre "Because I oppose a Convention Centre, it could have been redesigned as a library.

**Q8. Is there anything else you would like to tell us about the future of the Central Library building?**

not answered

**Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**

1. Making the building safe
2. Future-proofing the library service
3. Timeframe
4. Cost to ratepayers
5. Other (please specify)

**Q10. If you selected 'other' above, what other factor was important in your decision?**

Priority to reasonable strengthening, including base isolation; then making the books and other material entirely accessible.

**Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

I don't actually think Civic Square has a very important role. its the individual buildings that have value; Town Hall, MFC, City Gallery, Library. Don't divert main attention away from strengthening to getting access to books, CDs, etc restored.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?**

Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply**

He Matapihi Molesworth Library

Arapaki Manners Library and Service Centre

Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Te Awe Seems most like a library, but very limited, seems to include very little from existing collections that are presumably still in the old building. Get it all out and accessible asap.

**Q16. Where do you currently live?**

Tawa

**Q17. Which of the following ages groups do you belong to?**

80+

**Q18. Please choose the gender that best identifies you**

Male

Q1. Your name\* Sandra Brookes

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I would like to see a new library, purpose built for better usability, that incorporates the modern facilities and spaces suggested on pages 10 and 11 of the proposal. This would be preferable to trying to fix an existing broken building and trying to shoehorn those modern facilities and spaces into old building.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Submitter choose both Option D and E with explanation " I have ticked both D and Other in Question 2., as whilst my choice is for a new build on the same site, I would like to see the new library incorporated into a larger unified Te Ngakau precinct, where all parts work cohesively together, rather than the library being redeveloped in isolation to the whole, with just improved connections to it from the rest of the precinct. See also my response to question 7.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Option

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Te Ngakau Civic Square connections
2. Future-proofing the library service
3. Making the building resilient
4. Cost to ratepayers
5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision? I think the current location in the middle of the city, is ideal. If included a part of a wider, integrated Te Ngakau redevelopment, its use will probably also increase.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

**Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

Ideally Te Ngakau would be an integrated community hub, incorporating a number of facilities, many of which are already on site. To achieve the best result, the redevelopment would be done as a whole, fully planned out before construction work begins, rather than randomly building a new library and then fitting other things around it. This would enable the links between areas to be planned out in a considered manner, instead of trying to retrofit them. The current central 'park' area could be closed in, as has been done at the British Museum in London providing an all-weather meeting/relaxation area. This could then provide links to the library, City Art Gallery, Town Hall, Council offices, pre-school, Capital E, the Information Centre, and the proposed National Music Centre, etc. It would also be good to include a cafe and/or restaurant in the area. For outdoor space, the existing areas where Circa Theatre used to be and where the Jack Illot Green is could be retained, with additional seating installed. A carpark should also definitely be retained and expanded. Where possible, the existing murals, sculptures and Nikau "trees", etc could be retained or relocated as a link to the past. I did not include 'heritage' in my list of important factors in question 4, as this question refers to the library, and I believe that the existing library should be demolished. However, I do think the heritage considerations must be given to the other buildings in the precinct. A smaller scale model for the precinct already exists at Pataka, in Porirua. This works effectively as an integrated community hub, with library, community gallery, standard exhibition spaces, meeting rooms, education facilities, a cafe and a central meeting area. Please don't miss a fantastic opportunity to plan and build a fully integrated central area, rather than considering each of the individual elements separately and piecing them together.

**Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?** Weekly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply** I have not visited an interim library

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**  
not answered

**Q16. Where do you currently live?** Ngaio

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I'd like to express my strong support for demolishing the current library and rebuilding. I think that the Christchurch library is a great example of how a modern library design can be more accessible and attractive to all sorts of users. I'd also suggest that serious consideration go to a smaller total floor plan to bring the costs down towards those in Christchurch.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

1. Our overriding preference is to retain & remediate the existing building, i.e. one of the remediation Options A, B, or C. This is because we greatly appreciate this building as a recent part of the Wellington's Built Environment, its historic significance, and its established contribution to the Te Ngakau Civic Precinct. 2. Option C is our preference of these three remediation options. This is because we want to provide the greatest resilience for the library, a core aspect of life in Wellington City; in the face of any future earthquake in New Zealand, which could affect Wellington.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

Q3. You are making this submission: Inner City Wellington

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

[Redacted]

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Inner City Wellington (ICW) appreciates the opportunity to submit our perspective on the future of our Central City Library. Our preference is for High Level Remediation (Option C) because, having weighed each option against the factors we consider most important, we believe that for the money invested it provides the City and our Community with the best value for money in both the short and long term. ICW does not accept the cost estimates having heard expert advice at a recent public meeting on the library that revised costings of Option C could reduce the cost by 25%. ICW contends the process of consultation thus far has been substantially flawed. As ratepayers, we wanted to know much more precisely which option provides the best value for money over the lifetime of the building, which is the way we believe the options should have been presented – i.e. 'apples with apples'! We note that the written consultation document does not contain the information that the 'new build' options do not include base isolation, and this was only registered on the website after ICW raised the issue. Most folk we have spoken to assume that the 'new builds' do include base isolation. THE INNER CITY 'SUBURB' This submission also has a most important message: The Central City Library is our 'INNER CITY SUBURBAN LIBRARY'. While we know it also serves the wider Wellington population and acknowledge that perspective is important, we ask that our views are given the strength they would have if we were simply a suburb and not also the Central Library for the city as a whole. Wellington Central and Te Aro – our area – has the least land but the largest and fastest growing population and very different demographics from other suburbs in Wellington. The Library is our main community amenity and Te Ngākau/Civic Square (including Jack Iloft Green) is our most significant public community space – and a key evacuation site. In addition to wider city needs, the Central Library needs to offer the level of service a community library would have – particularly from the perspectives of our current three dominant demographics: Students, Young Professionals and the Over 60's. The first two groups make up a majority of the inner-city residents, with 69% of constituents aged between 15-35. It is also noteworthy that Inner City Wellington has a higher proportion of residents on low incomes with 35% earning less than \$20,000 annually in comparison to the national average of 27%. We can't know now how our people makeup might change with the doubling in growth predicted from 13,355 to 27,453 in 2043. However, it seems likely that the student population may remain more stable so proportionally less over time. Efforts to house lower income folk may lead to a new sizeable demographic and families may increase. Current statistical projections suggest a significant increase in under 5's (we cannot ascertain on what basis) which, if correct, will require consideration: already we know those numbers are increasing particularly in the Te Aro area. Maybe one of the existing pop-up Libraries could be adapted for this purpose. We note some recognition of the implications of our growth in the Consultation document where it states under 'What could Wellington's future Central Library service look like?' "By 2043 the inner-city population is expected to double and an increasing number of central city residents will be under the age of 34. With this growing CBD population our library may need a greater emphasis on communal spaces, a more curated, heavily used collection, creative and makerspaces, plus a focus on lending non-traditional items and on seamless digital infrastructure and content." ICW submits that more explicit recognition and even more emphasis on Inner City Community need is required, particularly as a meeting place and social hub for our community events. We don't want to be in the position of constantly competing with the wider city users for access to services such as internet and multimedia, meeting space, notice boards etc when others have such access in their own community libraries, but we do not! PARTNERS We see the Central Library as our major community resource for information and support. ICW contends that any Partners should be assessed against their contribution to this 'one-stop shop' for citizen services. Having the Citizen's Advice Bureau back in the Library would be a significant benefit for our community and the city at large. WCC Services as currently sited in Manners Street Temporary Library would also be a sensible and useful service for the City Library to offer. DECENTRALISED SERVICES While we have appreciated the provision of the three 'pop-up' libraries as a temporary measure, they cannot provide the 'one-stop' place for all services. Nor do they welcome, inspire and nurture in the way the Central Library did and can, despite best efforts of staff. NEW ENTRANCES AND WINDOWS The Submission Form asks about how appealing or unappealing you would find (a) having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level and (b) More windows to help connect the library visually to the square and surrounding streets. ICW does not accept additional entrances and windows are necessary IF they will add significantly to the cost. We also question whether adding multiple entrances could limit the way space can be used efficiently and effectively. We see the current two options as adequate – one from Victoria street (or Harris Street if that is a better option design and cost wise) and one from Te Ngākau/Civic Square which could be on the ground floor or to a mezzanine as now. RISK Seismic A significant factor in any consideration of the future of the Library is that of risk. We know that the current site is on Landfill which poses seismic issues and that it is within the zone where sea level rise due to climate change will bring it under water in the long term. Therefore, we understand that Council (and certainly ratepayers) will want to think very seriously about investing large amounts of money in Te Ngākau/Civic Square. The information given us provides assurance that life safety in a significant earthquake can be assured. We are convinced that any option without base isolation will NOT provide the level of

resilience/damage avoidance that base isolation gives, and we are not happy that only one option has this. This is a significant factor in our determining which option to support. ICW contends it would be irresponsible of Council to approve such a high use public building without base isolation as it significantly reduces the potential for future remediation and significant cost following the inevitable earthquakes we will have. Climate Change Our position on climate change causing sea level rise is that Council is already investing in significant expenditure in this high-risk area with the Town Hall. We note that the Convention Centre is also within the sea level rise area. We accept that sea level rise will occur. However, it is not an imminent risk and the probable life of a remediated Library is 50 years and a New Build 64. At some stage prior to 2070 presumably there will be a plan to raise buildings or relocate out of the waterfront area entirely if sea level predictions are borne out. ICW believes that, for the existing Library, sea level rise as a risk should not be a consideration. In our view it is outweighed by the need to get the Central Library back as soon as possible so that we can enjoy what the building can offer over its new, always limited, lifespan. This is particularly vital in these stressful times when, to help deal with uncertainty, our community needs every amenity it can have. TE NGĀKAU/CIVIC SQUARE Note: Council has already had expert advice (Mahoney/Miskell report 2020) that shows there is currently a deficit of green space in Te Aro and Wellington Central – and that is before their stated requirements for a further TEN TE ARO PARKS in these two areas to meet WHO guidelines for green space for the projected doubling of the population. Therefore, the space available now in Te Ngākau/Civic Square, including Jack Iott Green, must NOT be diminished any further and if there is a need for demolition of Council Offices, that space should be conserved for an even better public gathering place/green space/evacuation area than we have currently. However, if there is to be a building on the site of the existing council offices, then it should sit on a low-level green podium which would also help provide a better view shaft to the waterfront and provide a welcoming entrance to the civic square (see right) ICW urgently requests that Council draw a line NOW on allowing any additional new building in Te Ngākau/Civic Square. HERITAGE Another factor is heritage value. We are not wedded to the retention of the building exactly as it is, as we recognise that remediation will bring change ICW strongly advocates for retention of the existing building's shape/form, the curved window outlook to the harbour and the iconic nikau palms. Photo: Athfield Architects THE OPTIONS The Submission Form provides a list of factors which submitters are asked to rank. These are Making the building safe; Making the building resilient; Heritage; Accessibility including transport; Future-proofing the Library service; Opportunities for Partnership; Te Ngākau Civic Square connections; Climate Change; Sustainability; Cost to ratepayers; Timeframe; Other. Our ranking 1. Making the building safe 2. Making the building resilient 3. Timeframe 4. Community amenity/social resilience 5. Value for money invested to ratepayers (not simply cost) 6. Heritage Based on the inaccurate, limited and at times seemingly contradictory or unclear information provided, our view of the various options is as follows: OPTION A: Low level remediation – While providing the earliest opening date, it does not provide sufficient safety or resilience relative to cost/investment value. Up to \$90m would be spent for no gain. OPTION B: Mid-level remediation - At only 80% NBS and moderate resilience (no base isolation), and 'nominal' (not specified) increase in the building's life expectancy, while the cost of \$151.8m quoted for this option is clearly inflated, the minimal improvements in level of safety, resilience and sustainability achieved do not justify the investment. OPTION C: High level remediation – This option meets all of our priority factors: safety, resilience, timeframe, community amenity/social resilience, value for money invested and heritage. We believe this option should be pursued but with clear direction that further development of concepts has to find ways to achieve the remediation with significant reduction in cost. OPTION D: New build on the site Our reasons for rejecting this option include our assessment that this would provide less value for money as an investment for ratepayers, the historic value of the Library building, cost and impact of demolition or of maintaining the existing building for other purposes, longer timeframe for getting a Library back, and the not insignificant issue of returning something familiar and accessible to the community in a time of significant stress. OPTION E: New build on another site in Civic Square - We reject this option because we cannot accept it is a wise investment. In any case, we want the Library building retained in Te Ngākau/Civic Square to provide a major community centre for our growing population but we do not want any further reduction in green space available in this area. Also, the timeframe to achieve an outcome is unacceptable. CONCLUSION We recognise that Council has a difficult decision ahead and that decision is only a step along the way as another consultation will occur when the Library has to compete for funds within the Long-Term-Plan. We hope that our Library will be considered as a significant critical infrastructure requirement for Wellington's most populous suburb as well as for the city as a whole. The manner in which it is presented in the LTP must ensure that it is given fair weighting alongside other investments. It must not become a Vanity Project that can be rejected in the face of bursting sewer pipes. APPENDIX 1: Letter from City Council in response to ICW Questions 11 August 2020 Mr Stephen King Chair Inner City Wellington By email innercitywellington@gmail.com Dear Mr King Re: Response to your request for clarification on the Central Library Consultation Thank you for your list of questions sent to all Councillors, the Mayor and the Chief Executive last week. The Chief Executive has asked me to provide you with responses to your questions which are set out below. We appreciate the time your organisation has taken to prepare these questions and look forward to your continued interest in this important project. I would like to include the questions and our responses on our consultation website to allow others to benefit from your questions. Please advise if this is acceptable as we would want to attribute the questions as coming from your organisation. In addition, I note that Wellington Scoop have also published your letter so I would like to supply them with a copy of the responses we have prepared. Again, please advise if this is acceptable. I have included your questions as they give context for the responses. Our responses are in purple. 'LIKE for LIKE' We note that "In the case of the two new building options there is no concept design. Accordingly, the costs provided are based on industry square metre rates for a reasonable quality building". 1. QUESTION: Does a "reasonable quality building" equate with the specific design requirements for a library building? Put another way, are the remediation options costed to the same 'reasonable quality building' estimates, or are the remediation designs costed to a higher quality? The new build costings were provided for the purposes of context and comparison and are not based on any specific design. The estimates are based on industry square metre (sqm) rates for a building of a reasonable quality that would be suitable for a library. The new building cost estimates are for a building of a comparable size. 2. QUESTION: If Option D or E is accepted, can we be assured that Council will ensure that the upper estimate of \$160 million is retained as the upper limit for a new build? We are seeking assurance that when we are choosing between options, the costs for the new build won't be significantly escalated post-consultation. If Option D or E is chosen Council will use \$160m as the budget for the Long-Term Plan (LTP). However as noted above this estimate is based on sqm rates and not a detailed design. These estimates provide for cost escalation. FOCUSING SPECIFICALLY ON THE FACTORS FOR COMPARISON Resilience The website now states "The new build estimates do not include base isolation as the desired level of building resilience can be achieved in a new build without it. However, if the decision was made to base isolate a new building the additional cost would not be significant" and "The

cost estimates for the new build option do include estimated demolition and removal costs." As noted, neither of the foregoing statements are included in the Consultation booklet. ISSUE: ICW has been advised by an engineer that without base isolation "The required level of life safety can be achieved but not an equivalent level of resilience/damage avoidance i.e. a conventional building is significantly more likely to require costly and lengthy repairs after a moderate or major earthquake" and "The additional cost of Base Isolation is typically estimated to be in the range of 5-10%". We note that this could take the new build up to \$176m. Bearing in mind that a number of industry commentators have suggested that the base-isolation retrofit option has an inflated cost estimate, does this not mean that equivalent new and retrofitted, high resilience options are comparable in price? 3. QUESTION: Why in Option C is WCC pushing for the existing building to be base isolated, if less than this is acceptable for a new build? Council's preferred option is a highly resilient strengthening of the Central Library building. Base isolation, in conjunction with other strengthening components, would achieve the most resilient remediation solution for the existing building. A new building design (Option D or E) could achieve the desired level of building resilience without base isolation. However, if the decision was made to base isolate a new building, the impact on the cost estimate range is unlikely to be significant. 4. QUESTION: Do the new build costs in fact include obtaining the same level of resilience/damage avoidance as has been costed in the remediation options? No design has been developed for a new building however these costs are based on standard industry sqm rates for a reasonable quality building designed to a high level of resilience. Options C, D, and E all seek to achieve a high level of building resilience. 5. QUESTION: What is the justification for the difference in wording between Option C "High level of building resilience with minimal risk of future building closures after a significant earthquake" and Options D and E "Design to high level of seismic resilience with minimal risk of further building closures after a significant earthquake"? Is there in fact no difference in outcomes between Options C, D and E in this regard? Although there are no new build designs (for Options D and E) at this stage, Options C, D, and E all seek to achieve a high level of building resilience. Accessible ISSUE: We note that Option B has potential for improvement, Option C significant improvement, while Options D and E have 'Opportunity to align with best practice standards. 6. QUESTION: What information supports the judgement that only a new build can be aligned with best practice standards? Under the remediation options accessible design elements would be incorporated wherever possible. These opportunities are constrained by an existing building and accordingly cannot be assured of best practice. A new building provides a blank canvas and therefore opportunities to design it in a way that achieves best practice outcomes for accessibility and sustainability. Improved sustainability ISSUE: On page 15 it is stated that the performance of a new build would be superior to the existing building in relation to energy efficiency. This clearly conflicts with the next statement on page 16 which states that "Replacing building services will be included as part of any option. The new services will be equivalent in their performance as to what a new building would include. This means a remediated building will deliver similar energy efficiencies as a new building". 7. QUESTION: What exactly does the foregoing mean? It seems to suggest that the new build is a better option even though the existing building's services will be completely upgraded to a similar standard. Although building services are a significant contributor to a sustainable building, they are not the only elements that contribute to a building's sustainability. A new build would provide greater opportunities to introduce sustainability elements as these can be incorporated into the building's design and materials. Under the remediation options energy efficiency and sustainable practices would be incorporated wherever possible including replacing building services. 8. QUESTION: Given council must have had provision in their Long Term Maintenance Plan budget for replacing the stated services in the existing Library that are now at "end of life", why has this provision not been shown as a plus against the cost of the remediation options? A key purpose of the SOP is to demonstrate the cost estimates for each of the options. The specific funding requirements for the chosen option, and the impact this will have on existing LTP budgets, will be considered and consulted on as part of the upcoming 2022-32 LTP. 9. QUESTION: In terms of sustainability would it not be appropriate to note the considerable environmental plus of not demolishing the existing structure, not only in reduction of landfill but also in the energy consumption in constructing a new building. Under Option D on page 25 of the Statement of Proposal we reflect this as one of the disadvantages – "Negative impact on sustainability objectives due to demolition." ISSUE: Under option E (pages 28/29) the costs associated with the impact of the considerable delays of retaining the existing library and paying for its maintenance until it is sold or leased have not been identified. 10. QUESTION 1: What financial loss or costs could the ratepayers expect to bear under this option, where the existing building is to be sold or leased (possibly at less than market value)? The costs or revenue associated with resolving the future of the existing building are unknown. The objective would be to minimise the impact to the ratepayer. There could be revenue available from the sale or lease of the building that could offset the costs. 11. QUESTION 2: What are the costs to maintain the existing Library building while all these decisions are being made? While the operating costs for the building have significantly reduced since its closure, there are some costs that must be maintained for a building when it is closed. These include rates, insurance, security and some utilities costs. 12. QUESTION 3: Why are these issues not identified as a possible negative impact in relation to this option in the same way that the possible negative impact of demolition is cited in relation to Option D? These issues have been clearly identified in the SOP description of Option E. The future of the building needing to be resolved is listed as a disadvantage. Te Ngākau – Civic Square ISSUE: Option E – New Build on another Te Ngākau Civic Precinct site has a stage to 'identify and confirm a site which may take up to 18 months to resolve, and which would only be explored after public consultation. Therefore, should this option be accepted it would add another 18 months to the already long timeframe.' 13. QUESTION: Why are the possible sites in Civic Square not identified so the public can make a properly informed decision, especially when the one identifiable site is clearly Jack Illot Green? Are there in fact any others? If Option E is chosen, the timeframe includes identification of potential sites and associated public consultation. Yours sincerely Karen Wallace Project Director Central Library Email: karenwallaceneu@gmail.com

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

Q8. Is there anything else you would like to tell us about the future of the Central Library building?  
not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

	1. Making the building safe
	2. Making the building resilient
	3. Timeframe
	4. Other (please specify)
	5. Cost to ratepayers
	6. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?  
Community amenity/social resilience

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.      Somewhat unappealing

More windows to help connect the library visually to the square and surrounding streets      Somewhat unappealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

TE NGĀKAU/CIVIC SQUARE Note: Council has already had expert advice (Mahoney/Miskell report 2020) that shows there is currently a deficit of green space in Te Aro and Wellington Central – and that is before their stated requirements for a further TEN TE ARO PARKS in these two areas to meet WHO guidelines for green space for the projected doubling of the population. Therefore, the space available now in Te Ngākau/Civic Square, including Jack Iloft Green, must NOT be diminished any further and if there is a need for demolition of Council Offices, that space should be conserved for an even better public gathering place/green space/evacuation area than we have currently. However, if there is to be a building on the site of the existing council offices, then it should sit on a low-level green podium which would also help provide a better view shaft to the waterfront and provide a welcoming entrance to the civic square (see right) ICW urgently requests that Council draw a line NOW on allowing any additional new building in Te Ngākau/Civic Square.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?  
not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?  
not answered

Q16. Where do you currently live?  
not answered

Q17. Which of the following ages groups do you belong to?  
not answered

Q18. Please choose the gender that best identifies you  
not answered

Respondent No: 1437

Q1. Your name\*

Alison Craig

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library was a good home for the CAB. It could be like the new Christchurch library. It could be a good place for adult literacy classes.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I loved the old building and used it often to study in and I worked at the CAB. It would be great to have it back but the new library in Chch and Waitohi are better. The cost of remediation is not justified in my opinion.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Cost to ratepayers
2. Sustainability
3. Climate change
4. Future-proofing the library service
5. Making the building resilient

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live?

Churton Park

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Female

Respondent No: 143R

John Craig

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I would like to see a new building with similar characteristics as the new library in Christchurch. The new Johnsonville Library is a big step in the right direction.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Whatever is decided should be progressed as soon as possible. I don't think we want to do anything with partnerships as they all seem to run into trouble i.e Transmission Gully is a good example.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

- 1. Cost to ratepayers
- 2. Timeframe
- 3. Future-proofing the library service
- 4. Making the building safe
- 5. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets. Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I think you should keep as much office space as possible in the area. It is a wonderful place to be mixing and meeting many other people.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are well used and look good and fresh. They are very nice to be in.

Q16. Where do you currently live? Churton Park

Q17. Which of the following ages groups do you belong to? 75 to 79

Q18. Please choose the gender that best identifies you Male

Q1. Your name\* Margaret Hurst

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Reveal secret 2103 report as mentioned on Scoop very recently. Take notice of what has been said in earlier consultations. There is no need to survey again. Get the library open as quickly as possible.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

I want the building to be opened as soon as possible. It is the heart of the city. I want to something to happen to the building quickly. The central city lacks a focal point without it.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Timeframe 2. Heritage 3. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

It had an important but now with closed buildings except for the City Gallery it is a ghost of a Square now. The Town Hall closed since 2013, Capital E gone, more buildings to come down. The Town Hall will have been closed for about 10 years before we get it open. Can we get anything going or done to improve on this lack of progress? The city seems almost unable to proceed much of any of this area except at a glacial pace.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Note for question 8/12: I use it far more than weekly. This question needs another option or else use "Other". They are there! They must only be a very sort term option as they do not provide many of the services of the Central Library. Improve: 1. should be more newspapers from other parts of NZ, in one of them. 2. Should be more reference books 3. books held in them are virtually all recent books, mostly chosen for looking "nice" on the shelves/there. There are no oldish looking titles and a necessarily, limited choice cannot satisfy everyone. 4. Arapaki should be open at weekend. Likes: 1. the reserve system is excellent 2. Te Awe has more spaces for people using the own laptops.

Q16. Where do you currently live?

Wilton

Q17. Which of the following ages groups do you belong to?

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Not only should it provide a place to get information (form books and internet access) it should be a focal point for the Civic Square and be a natural meeting point for citizens for planned and informal interaction.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Heritage
3. Accessibility

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Somewhat appealing

More windows to help connect the library visually to the square and surrounding streets Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Maybe a ground level access to Civic Square

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

- Arapaki Manners Library and Service Centre
- He Matapihi Molesworth Library
- Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Note for Question 8/12 - visit more than once a week Arapaki had trouble coping when it was the only interim CBD library, its better now. Te Awe seems rather gloomy, and the cafe needs improvement

**Q16. Where do you currently live?** Wilton

**Q17. Which of the following ages groups do you belong to?** 70 to 74

**Q18. Please choose the gender that best identifies you** Male

Q1. Your name\* Josephine Brien

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The library as it is (or as it was) presents many opportunities and that it is why it is so important and why we need it to be restored ASAP.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

Who will be responsible if the "new library" suddenly (accordingly to engineers) no longer meets standards? Do Athfield Architects shoulder any of the responsibility if this disaster?

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Timeframe
3. Te Ngakau Civic Square connections
4. Cost to ratepayers
5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision? Note: question above for the future proofing option "(Why?) is it in dangers?"

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I HATE the plastic grass!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are so much better than none at all. And show how important library services are to EVERYONE.

Q16. Where do you currently live?

Aro Valley

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Prefer not to say

Respondent No: 1442

Q1. Your name\* Tim Bollinger

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A palace for books. Books are for people, so a palace for people. We liked it the way it was before. Why improve? (or make it worse as has actually happened)

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It seems incredible that we take the architects and engineers opinion seriously, when they gave us this "world class" building in the first place. All the best buildings in Wellington have stood for 100 years - I would have expected more from Athfield Architects - how much are they being penalised for this fundamental failure of their design as its a social disaster for the people of Wellington. (I look forward to their substantial financial contribution). BTW: NO Convention centre please!

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Other (please specify) 2. Te Ngakau Civic Square connections 3. Heritage 4. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision? I dont know what "future proofing the library service" means. Isn't it already guaranteed? If not, why not? Do you know what it was like before? It was good. We want that. That's enough.

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

I don't like the plastic grass. Either real grass or a paved courtyard please. This is a very important central public space for Wellington. here's a crazy idea. Replace the City Gallery building with the library again (where it used to be). I love the art gallery - but a pubic library is more important. (But both is better - obviously).

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Monthly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
He Matapihi Molesworth Library  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

They are almost as good as the old - well not really - its much better to have the full resource in one place. Surely this is the point of a central library! (You shouldn't have to walk half the city to get a book from a different category or information.) \* \* I think this might be what the library is for - one place for all knowledge. I would have visited the Central Library much more than the interim ones. We can't just keep pulling things down and replacing them. We should just fix and look after what we've got.

Q16. Where do you currently live?

Te Aro

Q17. Which of the following ages groups do you belong to?

55 to 59

Q18. Please choose the gender that best identifies you

Prefer not to say

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.
1. Making the building safe
2. Making the building resilient
3. Accessibility
4. Future-proofing the library service
5. Te Ngakau Civic Square connections
6. Climate change
7. Sustainability
8. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision? I dont beleive the current building has any heritage value. That it would cost more to refurbish the existing building than build a new building means it isn't a sensible option

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The new Te Awe is great. Big and spacious. The other 2 were small and cramped. Didn't go to those 2 much.

Q16. Where do you currently live? Thorndon

Q17. Which of the following ages groups do you belong to? 55 to 59

Q18. Please choose the gender that best identifies you Male

- Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply
- Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Arapaki Manners Library is too small. Brandon Street is better but I still see it as an interim solution. Central Wellington needs a major collection not lots of smaller collections.

**Q16. Where do you currently live?**

Hataitai

**Q17. Which of the following ages groups do you belong to?**

65 to 69

**Q18. Please choose the gender that best identifies you**

Male

Q1. Your name\* Rowena Hopkins

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

I think the physical space is adequate as it is, perhaps taking the floor above that was used as office space, to expand the library into.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It is a lovely building by a prominent now deceased architect. Decades on from its constructions, it still looks different and quirky.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe
2. Making the building resilient
3. Timeframe
4. Cost to ratepayers
5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets. Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The new Te Awe Library Brandon/Panama is an excellent space with a very good selection of material. It is my library of choice, apart from Kilbirnie, my local branch library. Arapaki Manners is cramped and not well thought out. There is a vast space, mostly unused, for reserves, while magazines are squashed in a small space with tables and seats in front, making them hard to access.

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you belong to? 60 to 64

Q18. Please choose the gender that best identifies you Female

Respondent No: 1446

Q1. Your name\* Bronwyn Millar

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Areas to try crafts and creative ideas - sewing, painting, weaving etc. The library could provide equipment like at Johnsonville, but also facilitate people to take classes or just join others who enjoy the same crafts for creative learning. Artists could also participate.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

It should be a focal point for Civic Square, with cafes and bars around it so people want to go there. A cultural destination with the art gallery as well.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Future-proofing the library service 2. Te Ngakau Civic Square connections 3. Timeframe 4. Making the building safe 5. Opportunities for partnership

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

A place that signifies Wellington. A creative space with sculpture and wonderful buildings and public spaces. Where you can sit and have a coffee outside or inside.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

The new Te Awe library its lovely. Great mix of reading spaces, cafe and of courses books. The Childrens area is wonderful. Well done!

Q16. Where do you currently live? Hataitai

Q17. Which of the following ages groups do you 45 to 49  
belong to?

Q18. Please choose the gender that best identifies Female  
you

Q1. Your name\*

Mrs Kathy Apostolakis

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Restrengthen the present building

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option A - Low-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

My preference is to keep the present building and strengthen it to meet seismic requirements

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe

Q10. If you selected 'other' above, what other factor was important in your decision?

Note for question 3 the submitter ticked the option "Minimal level repairs followed by a future upgrade"

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Neutral

More windows to help connect the library visually to the square and surrounding streets

Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Arapaki Manners Library and Service Centre  
Te Awe Library Brandon and Panama Streets

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Provide more computers

Q16. Where do you currently live?

Wellington Central

Q17. Which of the following ages groups do you belong to?

65 to 69

Q18. Please choose the gender that best identifies you

Female

Q1. Your name\* Helen Carmody

Q2. Your email or postal address

[Redacted]

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September) No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A free public library is an essential service for the public good, for the education, entertainment, information and inspiration of the citizens of all ages.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. Adam Thornton's \$10million quick fix seismic upgrade, as outlined in Capital magazine Issue 73 Winter 2020

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

The free short time car parks outside are very important for the elderly, and for people who cannot walk for

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building safe 2. Accessibility 3. Cost to ratepayers 4. Timeframe 5. Future-proofing the library service

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Please see responses to 1 and 10

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Weekly

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply Arapaki Manners Library and Service Centre He Matapihi Molesworth Library Te Awe Library Brandon and Panama Streets

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

The space work well for borrowers. The staff are friendly and helpful. Carparks directly outside provide important access for the elderly and those who cant walk far, and so the Council office desks would (could) be better sited and Brandon/Panama Street currently.

Q16. Where do you currently live? Option 42

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Anand Ranchord

Q2. Your email or postal address

Q3. You are making this submission: as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Hi, I realise submissions have now closed but would still like to provide the following feedback and seek responses to my questions. Of course if it is possible to still include my feedback in submission process that would be great and happy to provide a oral submission also. Feedback - Great to see the longer term vision of the library outlined and shaping the decision on the building. - I think the vision is directionally correct and appropriate, though I would think understanding the degree to which physical collections need to be incorporated into the central library specifically should be examined in more detail with potential implications for the size of building required to deliver services including new service into the future. - note: with regard to physical collections the potential of the new distribution/warehousing service has potential to increase quality of service (ie accessibility and speed to get a book/item across the library network + better protection of the collections (eg vs climate risk etc) rather than having these need to be held at central library. I would not limit this service to simply low use items. - in regards to preferred options - my absolute preference is option D- new build on the current site. Key reasons for this include: providing the greatest alignment and enablement of the long term vision for the library and plans for the civic square (integration and activation etc); the financial cost being materially less than than option C with materially similar timeframes, I also note the high risk of cost blow outs as per the town hall remediation, the heritage risk appears to be overstated or unknown, noting a new build could also be designed to be similar in architecture to the present building but still enable the new services required. Questions 1. What insurance coverage was in place for the current central library building and why does this not cover the cost of remediation/replacement? 2. To what degree has cost of insurance of the building for any of the options been factored into the cost analysis 3. What space planning / scenarios have been made (eg as noted above - if library space could be reduced eg though greater use of the distribution/warehousing service) then could a smaller building be suitable, and what implications would this have on cost of options eg a new build may be even less than coatings provide for option D/E. 4. What consideration has been to relocating non library services (eg office space etc) to alternate locations - and what impact would this have on size of building required and impact on cost assumptions for options D/E. 5. Has any analysis of "cost of ownership" over life of building been made and taken into consideration (eg accounting for cost of insurance, energy). If work has been done on this can a summary of the funding be provided. 6. What consideration has been made on library services (including programming, education, classes etc) being made available during extended hours to better utilise the library asset, improve accessibility and reflect changing behaviours of users/community and also support night time activation of the civic square and surrounding areas. How might this impact the building design? 7. With regards to partnerships and in particular Capital E- agree there is similarities and potential cross overs in services of a future library and useful to seek alignment/coordinated approach, but also caution that given different commercial drivers - need to ensure not diluting the future library service to prop up the commercial interest of Other provider eg capital E. 8. What are the key measures of success for the library strategy eg- visitors per day, level of knowledge transfer, breadth of community using the library etc and how does this impact what are considered core functions of the future central library (and what implications does this have on building requirements) 9. What learnings from the town hall remediation have been taken into the library project and how has this shaped the proposal and selection of preferred option?

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1.

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Don't know

More windows to help connect the library visually to the square and surrounding streets. Don't know

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? not answered

Q17. Which of the following ages groups do you belong to? not answered

Q18. Please choose the gender that best identifies you not answered

Janet Thompson

Q2. Your email or postal address

Q3. You are making this submission:

as an individual

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

not answered

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one

Option C – High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A question which statistics might need to support (or not) is "are people still reading books?" The catalogue might need to become more specialised as Netfic appears to replace reading fiction

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building resilient
2. Heritage
3. Cost to ratepayers

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Neutral

More windows to help connect the library visually to the square and surrounding streets Neutral

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

Perhaps they could help with the cost!

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

not answered

Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

Johnsonville Library provides most services...except newspapers

Q16. Where do you currently live? Newlands

Q17. Which of the following ages groups do you belong to? 70 to 74

Q18. Please choose the gender that best identifies you Female

Q1. Your name\* Gal Duncan on behalf of Wellington Branch PHA

Q2. Your email or postal address

Q3. You are making this submission: Wellington Branch of the Public Health Association

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

A safe haven to read, meet people, sit and reflect, to study, to be introduced to new ideas, to hold meetings, to vote, to be introduced to the vibrant city of Wellington at a central location, to hear other community groups, to participate in activities with all age groups and cultures.

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option C - High-level remediation

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

A multimedia approach needs to be incorporated. The building needs to have many portals of access and freedom of movement, a welcoming place for wheelchairs, walking sticks, the blind, the deaf, the illiterate, those who speak foreign languages. A sensory environment not just a quiet space, zone of silence for academics.

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important. 1. Making the building resilient 2. Making the building safe 3. Sustainability 4. Future-proofing the library service 5. Heritage 6. Climate change

Q10. If you selected 'other' above, what other factor was important in your decision? not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level. Appealing

More windows to help connect the library visually to the square and surrounding streets. Appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

The external area outside the library needs to be like Hyde Park corner. A place where people can have their say, congregate, have lunch on a bench. The city Council needs to be more outwardly engaging and accessible as well. Having said this the Council needs to be located separately from the library itself.

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Monthly

**Q14. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply**

**Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?**

Wellington Wellington Public Health Association has used the library services and spaces regularly. They were very helpful during the local body elections. They have advantages in being dotted around the city in terms of ease of collecting and dropping off books. However the large company and social space provided by the main library and hours of opening could not be replaced by these small centres. The members of the Wellington Public Health Association are based across Wellington and wider districts.

**Q16. Where do you currently live?** not answered

**Q17. Which of the following ages groups do you belong to?** not answered

Q4. Would you like to make an oral submission to the Councillors?(Oral submissions will be held on Wednesday 22 September)

No

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

Whether you are going to rebuild or repair the cost will never been what you have been quoted - either way the ratepayers will be burdened with xtra costs. So you are in a no-win situation eitherway Look at Transmission Gully cost wise!

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?Please tick one

None of the above, I prefer an alternative

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option.

As above

Q8. Is there anything else you would like to tell us about the future of the Central Library building?

not answered

Q9. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.

1. Making the building safe  
2. Future-proofing the library service  
3. Making the building resilient  
4. Accessibility  
5. Heritage

Q10. If you selected 'other' above, what other factor was important in your decision?

not answered

Q11. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?

Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level.

Appealing

More windows to help connect the library visually to the square and surrounding streets

Somewhat appealing

Q12. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?

not answered

Q13. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

Weekly

Q14. There are interim CBD libraries in Manners St, Arapaki Manners Library and Service Centre  
National Archives and on Brandon St. Which of Te Awe Library Brandon and Panama Streets  
the following have you visited in the past 6  
months? Please tick all that apply

Q15. What do you like about the interim CBD branches? Is there anything you would improve or change?

not answered

Q16. Where do you currently live? Johnsonville

Q17. Which of the following ages groups do you 75 to 79  
belong to?

Q5. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

The former central library was perfect in size, in location, in services being offered and other collaborations (i.e. location of citizens advice bureau and their services are well suited in library) Cafe very important too (Missing Clarks Cafe!) I would love to have something similar in the future plus new features like a meeting room for hire, classroom for hire and a mini theatre

Q6. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? Please tick one Option D – New build on same site

Q7. You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (listed below) or another different option. not answered

Q17. Which of the following ages groups do you belong to?

70 to 74

Q18. Please choose the gender that best identifies you

Female

07 September 2020

**Submission to the Wellington City Council  
Future of the Central Library  
Based on feedback from the public consultation session  
“What Wellington Womxn Want 2020” on Thursday 03 Sept 2020**

**1. Introduction**

- 1.1. The National Council of Women of New Zealand (NCWNZ) is an umbrella organisation operating at either national level or to our members. Collectively, the organisations represent and research shows we are working towards gender equality. Through research, discussion and consultation, we seek to realise its vision of gender equality.
- 1.2. This submission has been prepared by the Wellington Branch after consultation with women in Wellington at a public session titled “Wellington Womxn Want - Sept 2020”. The session had 15 women in attendance including two Wellington City Councillors and one staff member.
- 1.3. Attendees to the session split into small Zoom breakout room groups on Zoom and discussed the concepts and key areas of consultation questions. The summary of the discussions has been prepared in bullet-point format to indicate individual submissions/main ideas that arose.
- 1.4. **This submission is not a reflection of or aligned with NCWNZ policy. Views expressed here are based on feedback from attendees at the “What Wellington Womxn Want Sept 2020” Zoom session.**

*To go at Back*

## QUESTIONS SUBMITTED ONLINE BASED ON THE “WHAT WELLINGTON WOMXN WANT SEPT 2020” SESSION

2. **We don't have a functioning Central Library building - what do we do?**
  - 2.1. **Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.**

Participants at our session provided feedback under the following themes:

**Creative & learning culture** - they described a place that enables people to become professionals and explore their creativity, with spaces that resource their editing, writing, filming and meetings with others. Some see the specific need that libraries are places to provide training when thinking about What Wellington Kids Want. The Johnsonville Library was recently redone and was described as more of cultural and community space which is captivating and what people like.

**Internal space design** - they wanted to see a place that not only focuses on upskilling people how to read, but also enabling audio-visual reading through earphones or in reading groups. Many talked about the various people that come to the library and the variety of needs to be catered for. It was suggested to create specialist zones that cater for different needs, e.g. computers for students, child-friendly environments while parents can work; soundproof meeting spaces for one or two person meetings (especially now we're all on Zoom). An example mentioned was the 'BizDojo' co-working space for collaborative working - with whiteboards, working spaces. It recognised alternative competing interests and separate spaces would require panels etc, with different configurations. Having facilities available to book, like projectors should be considered, and will require 'space-booking' capability to help organise and offer these options. A daily time offered to take people through how to use the facilities could help facility use alongside offering other skills classes (digital literacy e.g., how to use zoom). If skill session options are on offer, it can bring people together, by learning together and from one another.

**Connecting communities and community groups** - it was mentioned that the pandemic has taught us the issues of loneliness, isolation, and the value of social connections. There is a need for a central hub in which groups of faith, advocacy and culture are fostered. The Central Library should find ways to connect with a wide range of community and cultural groups, pathways to connect with like-minded, faith groups, hobbies etc. It was described that we think about the library as a community centre, as we don't have one in the city, like other cities do. Groups in the NGO space can't book rooms easily, some may not be aware of what they could use, because they don't have access to the possibilities. Many agreed and appreciated the Citizens Advice Bureau (CAB) to be relocated back with the library - describing it as a nexus as a place of learning and connections. A

multifunctional space which includes the CAB, Community Law Centre, crisis support facilities and a cafe is missing today in the capital.

Wellington needs more 'positive spaces to go', offering different options by showcasing and hosting different groups. It was noted that libraries double as a place for work for nannies (bringing kids they look after) and tutors, people need quiet space in the city. Access to bus stops and longer opening hours were both mentioned as important access needs for this public facility.

**2.2. There are several different options to deliver a functional Central Library building. Which of these is your preferred option?**

The vast majority of those that attended the session were in favour of Option C. Most were concerned with costs to ratepayers, noting if we want a safe future-proofed library that retains the heritage value which does not take too long then option C would fit that preference. The importance of heritage due to the existing surrounding architecture was discussed as paramount. Some noted that option C has the opportunity to do some re-design/remodelling internally.

The two people that were in favour of option D were keen to see the building stronger for longer and wanted to ensure the style was in keeping with architecture. They shared concern with the strengthening work that would happen in option C, but more may need to be done. One cited it as an opportunity to re-design what libraries do and mean for future generations of our residents, with sustainable building design being the forefront to ensuring our city remains a cultural capital.

**2.3. What don't you like about other options? Why?**

Those in favour of option C were concerned about the sacrifice of having no Central Library for 10-15 years, waiting for the ultimate 'nirvana library' to be built. They agreed strengthening the library building so that it can get back up and running is more important.

Investing in a "wow new child-centred design" was discussed, and agreed that it was vital that a process of evaluation approach towards the interim libraries should be in place, and keeping good feedback loops about who is using which library site, and for what purpose, so improvements over time meet the needs of specific users - while everyone waits for the 'nirvana library'.

An interesting idea cited was for innovation to be built in to take books to people - books on buses and book swaps. The library could be the hub where mobility of library resources is organised. Wellington could be more proactive in this space.

**2.4. Thinking about your preferred option for the central library building, what factors were most important in your decision? Please rank your top 5 in order of importance, with '1' being most important through to '5' for the fifth most important.**

The highest scoring factors appeared to be in this order:

- Scoring 5
  - Cost to ratepayers
  - Accessibility including transport - no point having a beautiful library if not accessible for all. There must be easy access via public transport, not necessarily by cars.
  - Climate change - was very important to some participants
- Scoring 4 or 5
  - Making the building safe - discussed in the context of all aspects of the space (building, no areas where people can do illicit activity, sexual harassment, safe for employees)
  - Heritage (as the library should be an advocate for heritage and its studies, and showcase Aotearoa history, culture and art)
  - Opportunities for partnership
  - Te Ngākau Civic Square connections
- Scoring either 3 or 4
  - Making the building resilient
  - Future proofing the library service.

**2.5. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following?**

Having multiple entrances to the building from the Civic Square, the Precinct, and/or surrounding streets at ground level -

- Scoring 1, unappealing - 1 person
- Scoring 5, appealing - 4 people
- Scoring 4, somewhat appealing - 3 people
- Scoring 6, don't know - 2 people.

More windows to connect the library visually to the square and surrounding streets

- Scoring 1, unappealing - 1 person
- Scoring 3, neutral - 1 person
- Scoring 5, appealing - 9 people
- Scoring 6, don't know - 1 person.

**2.6. Te Ngākau Civic Precinct has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council Chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau Civic Precinct has or could have in terms of a public and democratic space in the central city?**

Participants reflects of the role of the precinct under three key themes:

**A space for play and creativity** - Consider keeping it play-based, art-based to cultivate a culture of learning for play and art. It was noted and agreed to see more cultural activities in the area, bringing more cultural awareness, as close to the library. Its vibrancy should be utilised and used for it's potential. Many liked the more recent addition of the green space as a place for sports and recreation, fitness and movement.

**Communal space for key events** - it's a good communal space for a lot of different events, and a place people gravitate toward. It's a space often used to start or end marches, rallies, and celebrations. It's a go-to space for moments of advocacy, for moments of coming together to celebrate or commemorate.

One participant shared that the space is used with peers for language groups - they meet in the library to practice language. As we move to be a country (and city) becoming serious about learning Te Reo, that use should be encouraged.

**Iconic and memorable to the city** - it's highly photographed, and well-known. The space holds a lot of memories for people and is used for important iconic space for events like graduations, and was described as an, "important integral space of the city".

### 3. About us

#### 3.1. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)?

The participants use of the library services was:

- Weekly - none
- Monthly - 6 people
- One every few months - 5 people
- Once or twice a year - 1 person
- Less that once a year - 1 person
- Never - none.

#### 3.2. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months?

The participants use of the interim library services was:

- Arapaki Manners Library and Service Centre - 8 people
- He Matapihi Molesworth Library - 7 people
- Te Awe Library Brandon and Panama Streets - 4 people
- I have not visited an interim library - 2 people; 1 who used her local suburb library most often, the other who had rarely left her home due to COVID-19 Alert Levels.

#### 3.3. What do you like about the interim CBD branches? Is there anything you would improve or change?

Most agreed the interim libraries were not creating a 'cultural centre', and they do not substitute for a larger library.

Some participants liked the concept of multiple locations and noted that offering multiple options and variety is positive from an accessibility point of view. Those that were supportive of the interim libraries approach thought the locations were good.

There was strong feedback on the lack of resources available for researchers, with books spread across locations. Each smaller library lacks a variety (good range) in books because resources are spread out. Someone mentioned it was difficult to get access to devices easily due to fewer options, including the lack of printers available one day in Manners Street.

There was mixed feedback on the Manner Street library, with one person citing staff as problematic as they don't seem to take into account that there are people in there using the facility and the staff are quite loud; with another person who shared they thought the customer service has been outstanding on Manners Street.

There was a positive mention for the cafe in the library on Brandon Street.

#### **3.4. Location, age and gender**

These questions were not asked in the session; however, we confirm all participants at the session were women.

Kia Ora,

This has been published on Wellington Scoop.

It is my formal submission to you.

Do let me know what you think of it!

Nga mihi

Helene

PUBLIC SUBMISSION WELLINGTON LIBRARY

August 26 2020

From Helene Ritchie

To Wellington City Council

#### INTRODUCTION

I am a former deputy mayor of Wellington, and was chair of the Civic centre Project in the late 1980's which gave Wellington its heart, and led to the design and construction of the new civic centre as an integrated whole. The project included the new library building, a new civic administration building, the development of civic square, retention and repurposing the old library building into the City Art Gallery, the unique City to sea Bridge and its sculptures, and the strengthening and refurbishing the Town Hall.

We appointed (Sir) Ian Athfield, one of New Zealand's pre-eminent architects as lead architect of a three-architect team and he led the design of the new Wellington Public library.

Now only 30 years old, this library building is part of the fabric of the heritage architecture of the Capital and civic centre. The Civic centre buildings are a fine cluster, of different architectural styles, and periods not to be found together anywhere else in the City and

going back to 1901-04 when the Town Hall was built.

Holmes report February 2013 commissioned by the Chief Executive.

In May of this year 2020, while researching my submission to the Council requesting re-opening of Wellington Public Library, I unearthed a 2013 report commissioned by the officers, written by the reputable firm of Holmes consulting engineers who had been asked to "evaluate the likely seismic performance of the existing Wellington City Library Building."

I was a councillor then but at no time was I informed of the existence of that report, nor of the public dangers expressed. I doubt that any elected councillor, or possibly even the mayor was informed of its existence. Clearly the Chief Executive, and some officers must have known of it and

its recommendations but even today, it remains hidden. However, I would be surprised if the current mayor and councillors were not aware of it.

### Holmes Recommendations

The Report stated that the library was not deserving of an earthquake prone building notice, (and it has never needed one since), but rather that there were "localised structural vulnerabilities". These relate(d) in particular, to the depth (unseating) of the precast hollowcore floors, the stairs and precast façade panel connections. They emphasised "potential collapse" of the floors, and went further to say, "We do not believe liquefaction induced settlements would pose a significant risk to the library structure."..with bored piles throughout..and proximity to bedrock..".

Holmes' unequivocal recommendation in 2013 was, "That Council consider a programme to implement securing works identified", and that they "anticipated that these improvement measures would be undertaken at the earliest practicable opportunity."

That was seven years ago. But instead of acting on the Holmes warning of potential floor collapse Council has called for more reports, peer reviews, more workshops, but over and over again, being told the same recommendations by professional engineers.

Since February 2013 until March 2019 when Council suddenly closed, then barricaded and emptied the library, over one million people have each year passed through its doors.

Rather than taking the recommended action, the mayor and councillors have continued to seek officer reports, hold multiple council meetings and public consultations.

Had the Holmes recommendations been acted on, the library would be safely open now, and would instead of being a symbol of Council procrastination, with ugly barricades would be a magnet drawing people into it and the City Centre. Ironically, it would have been one of the few safe large indoor havens, open during Level two of our Covid 19 requirements, just as Christchurch library has been.

### Demolition

When, six years after the Holmes recommendations, the Council suddenly closed the library in March 2019, the then mayor subsequently said, "there was a likelihood it would be demolished and rebuilt," and a developer said it should be.

For some inexplicable reason, periodically there are attempts to demolish buildings in our civic centre.( I was instrumental twice in preventing the demolition of two of those buildings, the Town hall and the previous City library now the City Art Gallery in the early and late 80's and more recently I participated in the repeated fight to save the Town Hall from demolition.

Civic Centre used to be a highly utilised public place of great beauty, civic government, a

a place for the people, until the Council neglected to maintain it and then put up barricades around the library, the most utilised civic building in Wellington. The library and civic centre until recently held pride of place in the City and the country. With Council commitment to urgent action to fix the library, Wellington's heart, Te Ngakau, could again be beating.

As a former councillor, and a ratepayer, I dislike waste. I dislike civic vandalism. I dislike procrastination by Council and I dislike my rates being diverted into unnecessary and expensive projects instead of into the multiple and fundamental infrastructure priorities which currently face the City.

In sum

The library is neither earthquake prone nor damaged. (One of the architects of Civic Centre, Gordon Moller, told a public meeting in 2019, that the library is and was not damaged despite two major earthquakes since 2013.

The "localised structural vulnerabilities", identified by engineers as far back as seven years ago and since, need to be remediated and fixed.

The Holmes report said seven years ago, "We anticipate that improvement measures ...would be undertaken at the earliest practical opportunity to improve the performance of the overall building and eliminate localised risk."

My request to the Council

All I ask is that Council follow the science and the experts, adopt the recommendations in the Holmes report, and accordingly fix the library forthwith, in the most cost effective way, refurbish as necessary, and re-open our library, as the Holmes engineers said, "at the earliest practical opportunity."

**Re: Future Central Library: Writers Centre Proposition**

31 August 2020

Tēnā koutou,

We are writing with excitement and optimism about the future of Wellington Central Library. As writers, editors, publishers, producers and readers we are all invested in the future shape and function of this taonga for Pōneke.

Wellington is a tremendously vibrant literary city: we are fortunate to be the home for many of Aotearoa's greatest writers both past and present; and we see year after year a flourishing publishing community with independent publishers delivering work for readers across Aotearoa and the world, and librarians, booksellers and readers supporting them every step of the way.

An opportunity now exists for Wellington City to embrace our literary culture and create space within a future Central Library for a Writers Centre. The central kaupapa for such a centre is to support the craft of writing, which may take several forms. At its heart this is a space to write, learn about and be supported in one's writing, and discover writers and their work. A future centre within the Central Library for Kaituhi Pōneke could mean:

- a place where writers residencies happen;
- a place to take part in writing workshops;
- an accessible space to hold events for writers and readers;
- a central point of information for anyone both within and outside of the city to discover the astonishing vibrancy of our literary community; and
- a space for literary organisations to work and collaborate as they create opportunities for Wellington to stage literary events and movements all year round.

We look forward to future conversations that explore this exciting concept and how it could be developed for our city and our community of writers and readers.

# **Future of the Central Library Submission**

## **To Wellington City Council**

*September 2020*

We would like to appear in person to support our submission

*Contact person:*

Ella Flavell, Chair  
Wellington City Youth Council

c/o Wellington City Council  
PO Box 2199, Wellington 6140

**Wellington City Youth Council**  
Te Rūnanga Taiohi o te Kaunihera o Pōneke

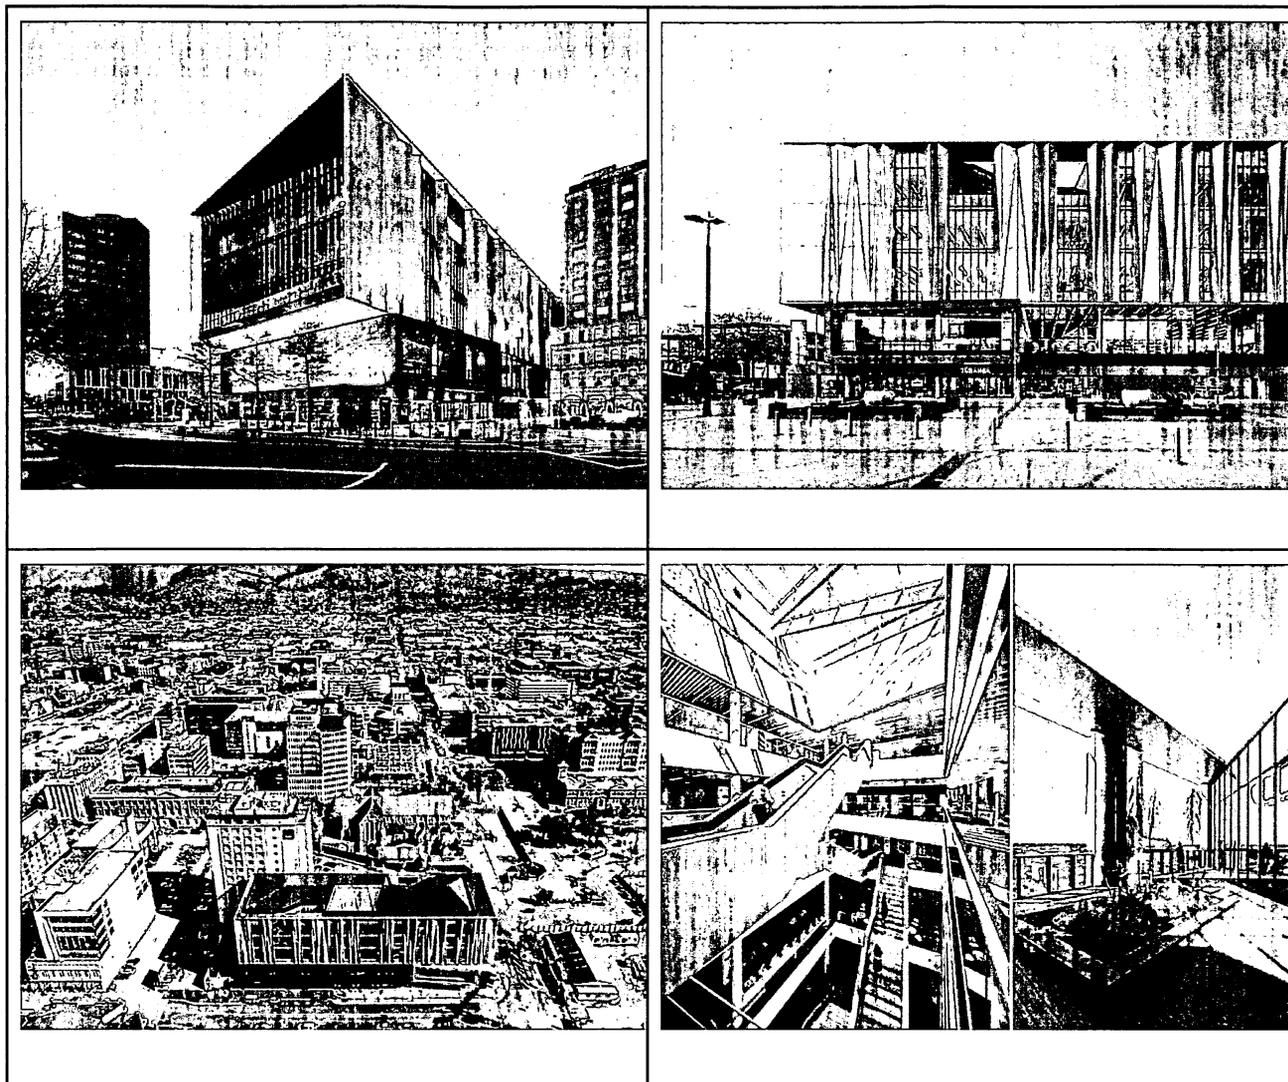

## Introduction

1. The Wellington City Youth Council (Youth Council) welcomes the opportunity to submit on Wellington City Council's Future of the Central Library consultation.
2. Having considered the five proposed options, Youth Council wishes to support Option D - a new build on the same site.
3. Youth Council believes that Option D is the best proposal for the following reasons:
  - a. A rebuild allows greater opportunities, whereas Option C is limited to the existing infrastructure of the building.
  - b. Ability to create a 21<sup>st</sup> century, youth-focused space.
  - c. A new building is able to be purpose built, rather than retrofitted
  - d. Long-term resilience of the building as it can be built to meet the current earthquake-proof regulations, instead of attempting to strengthen a building designed for out-dated regulations.
  - e. A new, creative space will improve civic engagement in the area, drawing people back into Civic Square.
4. A new build provides strong civic impact, is economically viable, and creates better opportunities for a youth focused space in the central city.
5. For these reasons, Youth Council believes that Option D provides the most desirable outcome for young Wellingtonians and future generations to come.

## Civic Impact

6. A new Central Library offers an unparalleled opportunity for our community to invest in a truly architecturally and socially significant building which reflects modern innovation and projects a self-confident aspiration for Wellington's future.

7. A new building gives us a new chance to meaningfully incorporate the narratives of the diverse communities and mana whenua of Te Ūpoko o te Ika Maui.
8. Unlike the trio of remediation options, Option D offers a high level of seismic safety and would be purpose-built and designed to incorporate best-practice sustainability standards and respond to long term climate change concerns.
9. With Option D, Wellington would respond to the immediate need to reconstruct the central node of our library system and invest in a valuable civic asset for the future. Rather than just repairing the current building, Wellington can build back better and be aspirational in designing a fit-for-purpose building to serve the community.
10. Christchurch City's experience in rebuilding its Central Library - *Tūranga* - is insightful and instructive. Situated in Cathedral Square - *Ōtautahi's equivalent of Te Ngakau* - the new Central library provided a high quality fit-for-purpose building for three reasons:
  - a. The design process was meaningfully participatory and involved serious, sustained engagement with librarians and the community as clients and local iwi designers as key stakeholders.
  - b. A partnership of designers who skilfully and responsively led and executed the design and;
  - c. A public that values libraries and has quickly embraced the new building.
11. Christchurch's new library offers a broad range of amenities, including public meeting spaces, a giant Lego collection and slide, 3D printers, an interactive wall, sewing machines and more. These 'new' additions are consistent with international trends in library design and *Tūranga* embraces these without ever losing sight of its role as a collector and provider of books and archives.

12. Similarly, Option D gives Wellington an opportunity to innovate an exciting future for our community. At a similar, if not cheaper level of investment, Option D would reinvigorate Te Ngakau by fostering a sense of destination that creates an array of different kinds of experiences: quiet seating, meetings with friends, reading books, accessing public services online, playing games, doing homework, senior citizens get-to-togethers and youth-centred engagements.
  
13. Our new Central library would not only inject stimulus into the heart of the city, but also a great civic building, a new work of culturally responsive, place-based architecture that represents the challenges we have been through and what we have lost, but manifests a bold, innovative and community-centred future.

## Economic Impact

14. Based on the information provided publicly by Council, Youth Council believes that a brand-new Central Library makes the best economic sense. Of the two options Youth Council is focused on (Options C and D), Option D gives Wellingtonians everything we gain from Option C and the ability to build a modern building with amenities for a 21st Century capital city for between \$20m and \$40m less (Statement of Proposal, pp. 28-29). Option D is cheaper to build and open, more resilient to future seismic activity, and undoubtedly more sustainable as it will (presumably) be designed from the ground-up as a green building.
15. The timeframes surrounding the proposals for Options C and D are within six months of each other, indicating that Option D is cheaper to build and only marginally longer to complete.
16. The Statement of Proposal does not go into significant technical detail regarding the relative seismic resilience of an Option C library versus an Option D library. It is expected that a new build will provide a more comprehensive approach to resilience than a strengthened existing build. New builds like Option D are designed from the ground-up to meet and exceed not just today's building codes, but tomorrow's.
17. No matter how much you strengthen an existing building, you either keep the failing internal structure, or you lose the heritage by replacing it. The former couldn't, and shouldn't, be justifiable under Council's own standards, and the latter is essentially Option D bar the benefits. Youth Council believes that the city has a duty to current and future Wellingtonians to build the strongest Central Library we can - this means Option D.
18. Sustainability is also better supported by a new build than a retrofitted option. Youth Council believes that Option D achieves the best sustainability outcomes for Wellington. Instead of just tacking-on sustainable enhancements to an the original building, Wellingtonians would get a library that not just teaches but embodies sustainability and its latest architectural implementations.

19. In terms of resource efficiency, the increased efficiency of a library built to the absolute highest modern standards would greatly outweigh the waste caused by demolition, especially if Council takes the opportunity to become a leader in the field of building material recycling.
20. Although Youth Council acknowledges the potential for litigation as a result of Option D being chosen, we believe that the significant cost savings and improved amenity gained from an Option D library outweigh the potential litigation expenses, particularly when the lower building cost is considered.

## **Our Vision for the Central Library**

21. The Wellington City Youth Council strongly advocates for the City Council to be bold in its design for the proposed Central Library. This building will be used over decades to come, so ensuring that it is flexible and sustainable is essential.
22. We would like to see an inclusive space that is open for any and all people to use to truly reflect the diversity of people in Te Whanganui-a-Tara. This could look like books in a diverse range of languages, catering to potential accessibility barriers in the building e.g. wheelchairs - and having spaces that reflect different cultures.
23. We also believe that there should be a dedicated floor or area for youth. Having a specific area for young people would not only draw them to the library, but would also encourage them to meet other young people. Having this space would make for an accessible place for young people to study, and also a place where youth could simply come to hang out. It would allow for the creation of a wellbeing hub for young people in the city, as community services and youth workers could be located within the youth space, to support and provide guidance for young people.
24. Youth Council believes that this would replace the old Reading Cinema area where young people often used to gather, for both studying and recreational purposes. We recognize that this dedicated youth space would need to be plentiful in charging stations and with access to free Wi-Fi - perhaps with resources available for students to study and access related resources.

25. Youth Council would also like to see a dedicated 'Quiet Zone' incorporated into the youth area. This zone would be a place in which youth could study individually if they so desire.
26. Having facilities and resources that reflect changing times is important to allowing access to opportunities for all. These facilities and resources could include having AV and recording equipment, 3D printers (like Waitohi and Tūranga), computers, power chargers, Wi-Fi, and access to software that may be difficult for people to access usually due to cost factors.
27. Examples of libraries which integrate youth and community spaces include the Tūranga library in Christchurch, and the Waitohi library in Johnsonville. The Waitohi makerspace, and Tūranga innovation space are examples of the integration of spaces within the library which go beyond just containing books.
28. Overseas examples such as the Finnish Civic Library in Helsinki which also integrates community services and spaces is another example of the type of mixed use spaces within a library building, that expands its functionality beyond the traditional silent spaces for reading and studying and allows it to adapt to a 21st century vision of libraries as community hubs rather than just book repository.
29. It is much more practical to integrate these spaces when a new building is built from scratch which is the primary reason the Youth Council advocates for Option D (the demolition of the current damaged building and rebuilding of the central library).
30. A rebuild from the ground up isn't limited to the same constraints as the previous space, including the layout, amenities, and expectations of the old library.

## **Option D provides the best opportunity for the future**

31. Youth Council recognises that Option D is not Council's preferred option. However, we believe that Council should be bold and choose Option D. In our view, the opportunity for a new, modern, purpose-built new library is worth

taking the risk of litigation and procedural issues regarding the heritage status of the building in order to achieve the goals of this proposal.

32. Whilst maintaining heritage within our central city is an important consideration, this heritage needs to be mitigated when it is preventing the possibility of progress and innovation. Where possible, heritage needs to be considered, however this is an opportunity to look to the future, with the possible benefits of a new space being seen to outweigh the importance of maintaining heritage aspects.
33. Moreover, the current building is damaged, and will cost more to repair than to build anew. It seems impudent to prioritise the heritage aspect of the current library building when both price and greater purpose-build amenity are prioritised by a new build.
34. We acknowledge that a rebuild would likely mean a later opening date for the new library. However, this is a disadvantage that Youth Council is willing to accept where it allows a stronger and more desirable space into the future, particularly given the timeframes for Option C and D are similar (May 2025 vs November 2025).
35. Option D provides the best opportunity to expand this space from simply being a library to also become a multi-purpose community space. Option D is a chance to re-imagine the way that a library space operates and is used, with the possibility to incorporate aspects of a community centre in the middle of our central city.
36. Whilst high level remediation is restricted to the building as it currently exists, a new building will allow increased accessibility for all members of the Wellington community, with the opportunity for widespread consultation to ensure that the concerns of equity groups are included in the new design.
37. The re-imagining of the Central City Library is a once-in-a-generation opportunity. Due to the high level of cost associated with any proposal, Youth Council believes that this opportunity should be taken to redesign the space to the highest level possible to ensure it will continue to be a safe, appealing space for future generations to come.

## **Conclusion**

38. Youth Council supports Option D - a new build on the same site - for the Future of the Central Library proposal.
39. We believe that this option is the most viable economically, and allows the opportunity for innovative design and thinking in this new space.
40. Due to earthquake damage in many other central-city public buildings, youth have lost areas where they are safe and welcome to gather within the central city. This proposal grants the opportunity to remedy this, allowing Council to have a direct connection to young people in our city spaces.
41. Option D is an opportunity to build a space for future generations of young Wellingtonians, drawing them into the central city to a welcoming environment where they are able to learn and thrive.
42. Regardless of which option is selected, we wish to implore that a youth-focused space as described above is included. This engagement is an exciting opportunity for young people to highlight to Council to show what is most important to them. Youth Council looks forward to collaborating with Council to create such a space.
43. By investing in the future of Wellington's central city in a bold way, Wellington has the opportunity to set a precedent for the way that Council's prioritise and engage with Youth in a meaningful way, creating a purpose-built space for them in the heart of our city.

**Central Wellington Library Options Consultation**

**To:** Wellington City Council

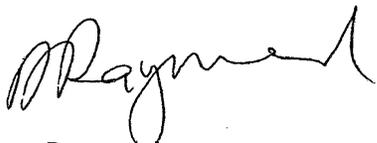

**Name of Submitter:** Heritage New Zealand Pouhere Taonga

1. Heritage New Zealand Pouhere Taonga (HNZPT) is an autonomous Crown Entity with statutory responsibility under the Heritage New Zealand Pouhere Taonga Act 2014 (HNZPTA) for the identification, protection, preservation and conservation of New Zealand’s historical and cultural heritage.
2. Thank you for the opportunity to make a submission on the options for the Central Wellington Library.
3. Our main interest in the options presented is the preservation and protection of historic and cultural heritage.
4. The Central Library is within the District Plan Civic Centre Heritage Area and any changes to the exterior of the building would need to be sympathetic to the Heritage Values of the Civic Centre.
5. The Wellington Central Library Library possesses outstanding architectural significance as a highly esteemed postmodern building, employing classical architectural forms, historical references and varied shapes and materials to arresting effect. It has exceptional historical significance as a major work of Ian Athfield, one of New Zealand’s most renowned architects of recent times, and represents the entry of his firm into the field of public architecture. Commonly referred to as Wellington’s living room, the Wellington Central Library has outstanding social significance as a much-loved and visited institution.
6. The building has been nominated to be included in the New Zealand Heritage List/Rārangi Kōrero as a category 1 building.
7. ***We support options B or C as both these options will make the building safe and resilient and will preserve the heritage values of the building and allow its continued use as a library and community space.***

8. We would like to make an oral submission to the Council.

Please contact us at this office if you would like any further discussion or clarification of this submission.

Yours sincerely

# Submission Form

## Have your say

We want to hear your views on the future of Central Library building.

## Why we're collecting this information

At the moment, we don't have a functioning Central Library building. We need your help to work out what to do.

Tell us what you think by 5pm Monday 7 September 2020.

## Privacy statement - what we do with your personal information

All submissions (including names and contact details) are provided in their entirety to Council officers for the purpose of analysing feedback. No contact details will be made public or linked to your submission.

Your personal information will also be used for the administration of the engagement process, including informing of the outcome of the consultation. All information collected will be held by Wellington City Council, 113 The Terrace, Wellington, with submitters having the right to access and correct their personal information.

You can read our full privacy statement at [wellington.govt.nz/your-council/dealing-with-the-council/privacy-statement](http://wellington.govt.nz/your-council/dealing-with-the-council/privacy-statement)

## Your details

Your name*:	BEANAN O'SHAUGHNESSY
Your email or postal address	[REDACTED]
You are making this submission*	<input checked="" type="checkbox"/> as an individual <input type="checkbox"/> on behalf of an organisation. (Your organisation's name: _____)
Would you like to make an oral submission to the Councillors? (Oral submissions will be held on <u>Wednesday 22 September</u> )	<input checked="" type="checkbox"/> Yes (Please give an email address <del>or phone number</del> so that an oral hearing time can be arranged: _____) <input type="checkbox"/> No

\*mandatory field

**We don't have a functioning Central Library building - what do we do?**

1. Redeveloping the Central Library building for the next 50 years presents many opportunities. What could the Central Library be like, and what could it provide to support the community? This could include anything from physical spaces, services, programmes or partnerships with other organisations.

*Will supply separate submission - memo.  
 CBD Library must have focus on BOOKS!  
 (And people).*

2. There are several different options to deliver a functional Central Library building. Which of these is your preferred option? *Please tick one*

- Option A - Low-level remediation
- Option B - Mid-level remediation
- Option C - High-level remediation
- Option D - New build on same site
- Option E - New build on another Te Ngākau Civic Precinct site
- None of the above, I prefer an alternative

3. *If you have selected a preferred option above, please move on to the next question.*

You have indicated you do not prefer any of the five options we have put forward for consultation. We would like to hear from you what option you would like explored further. This could include one of the options that were not deemed practicable and were excluded (*listed below*) or another different option.

- Minimal level repairs followed by a future upgrade
- Replace with a localised model of smaller branches in the CBD
- Relocate the Central Library to the Convention and Exhibition Centre
- Relocate the Central Library to a non Te Ngākau Civic Precinct site
- Other (*please specify*)

*Silly ?*

---

---

4. Thinking about your preferred option for the central library building, what factors were most important in your decision? *Please rank your top 5 in order of importance, by writing '1' next to the most important through to '5' for the 5th most important*

## About you

8. On average, how often have you accessed library services in Wellington in the past 12 months (in person or online)? Please tick one

- ~~Weekly~~ → Daily  
 Monthly  
 Once every few months  
 Once or twice a year  
 Less than once a year  
 Never

9. There are interim CBD libraries in Manners St, National Archives and on Brandon St. Which of the following have you visited in the past 6 months? Please tick all that apply

- Arapaki Manners Library and Service Centre  
 He Matapihi Molesworth Library - buses don't connect! Your fault  
 Te Awe Library Brandon and Panama Streets  
 I have not visited an interim library

10. What do you like about the interim CBD branches? Is there anything you would improve or change?

- a) b)  
a) OK for interim.  
b) Yes heaps, but get on with the major issue - A CBD Library within ~~3-5~~ 2-4 years

5. Is there anything else you would like to tell us about the future of the Central Library building?

Yes - heaps  
 as per my rights to lobby  
 - do song + dance (I have busking  
 scene!)

6. Thinking about how the Central Library building connects with the Te Ngākau Civic Precinct how appealing or unappealing would you find the following? Please circle one

<p>A. Having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level</p>	<p>1 Unappealing</p>	<p>2 Somewhat unappealing</p>	<p>3 Neutral</p>	<p>4 Somewhat appealing</p>	<p>5 Appealing</p>	<p>6 Don't know</p>
<p>B. More windows to help connect the library visually to the square and surrounding streets</p>	<p>1 Unappealing</p>	<p>2 Somewhat unappealing</p>	<p>3 Neutral</p>	<p>4 Somewhat appealing</p>	<p>5 Appealing</p>	<p>6 Don't know</p>

Handwritten notes on the table:

- Row A: "By LAW you should DO THIS ANYWAY" (with arrows pointing to columns 1-5)
- Row B: "little ~~good~~ rubbish" (with a slash through 'good') and "↳ what modern rubbish" (with an arrow pointing to column 4)

7. Te Ngākau has traditionally played an important role in Wellington, both as a public space in the central city and as the home of the City Council chambers and the Library. Is there anything you would like to share with us about the role Te Ngākau has or could have in terms of a public and democratic space in the central city?

Yes - as per 5 above.

12. Which of the following ages groups do you belong to?

- |                                   |  |
|-----------------------------------|--|
| <input type="checkbox"/> Under 18 | <input type="checkbox"/> 55 to 59              |
| <input type="checkbox"/> 19 to 24 | <input type="checkbox"/> 60 to 64              |
| <input type="checkbox"/> 25 to 29 | <input checked="" type="checkbox"/> 65 to 69 ✓ |
| <input type="checkbox"/> 30 to 34 | <input type="checkbox"/> 70 to 74              |
| <input type="checkbox"/> 35 to 39 | <input type="checkbox"/> 75 to 79              |
| <input type="checkbox"/> 40 to 44 | <input type="checkbox"/> 80+                   |
| <input type="checkbox"/> 45 to 49 | <input type="checkbox"/> Prefer not to say     |
| <input type="checkbox"/> 50 to 54 |  |

13. Please choose the gender that best identifies you

## **Future of the Central Library - Consultation**

**(Bernard O'Shaughnessy)**

Councillors: the following comments are made in addition to my submission form.

### **1) Consideration of options:**

I support Option D: New build on the same site.

There is only option D and C realistically to be considered.

To consider Option A to have low level Remediation and achieve just 40% NBS, even thou costing \$76m - \$90m is just a foolish suggestion and its disappointing to see Council Officers even give air time to this. Yes, we the voting and paying ratepayers want options be put to us, but lets make them real options and not writing in options that are just a strategic display of providing an unpalatable option so as to draw us to their desired conclusion.

In similar vain Option B to have Mid Level Remediation providing 80% NBS at a cost of \$131m - \$151m and only have a life span of 42 years should also not be on the table.

Option E to have another new build in the Te Ngakau Uncivil Precinct is not a starter either. Councillors know that the majority of ratepayers want a CBD Library on the present site, whether that to be a rebuild/upgrade or a new build. This option is really linked to the call by some ratepayers, including me, in venting anger of the absolute folly of Council pushing ahead with its looming white elephant Events and Conference Centre. Our call was in knowing that the E & C Centre was a folly project from the start, will absolutely escalate in the final cost, then will be propped up with new barrow loads of ratepayer money to justify and sustain its existence. The call was as the E & C Centre has to go ahead because of contractual reality, then it could be reconfigured to become an CBD Library. Well, of course it could be done, of course it would cost some millions more, but if that meant getting a library asap then that's what the call was. But yes we ratepayers are practicable people as well so accept that its not viable to suggest the E & C Centre be a CBD Library, but neither is then any acceptance of a new library being anywhere else in the Uncivil Precinct.

The City Art Gallery (being the previous City Library) could be an option, most interesting to observe that that building constructed in 1940, still proudly stands 80 years later and is functional, yet the 1991 CBD Library lasts a mare 29 years. So option E is a folly also, but its reasonable to include reference to it for consideration, to pacify the angst as referred to above

**So there is really only two viable options: C or D**

I wish Council Officers would have only addressed and highlighted these two options, rather than the poor average reader having to wade through consultation documentation overload written by university spurned urban planners and strategic policy developers feeding at 116 The Terrace effectively writing 101 varsity papers for each other. However I will address the issue of 'the process' in another forum when opportunity prevails.

**So I'm happy with either option.**

**But Councillors will have heard from me, as I do so again wave the flag, yes rebuild/upgrade (High Level Remediation) or New Build on present site.**

**BUT do it asap within 2 to 4 years.**

**But I do favour option D.**

Look, the closed CBD library is awe sum, funny, cool, light-filled, quirkie and well loved, but to spent top dollar of \$200m, and then only have a life span of 50 years, compared to the opportunity of a new build on the same site costing less, but lasting for a projected life of 64 years to me is the best option.

I am not supporting option D on the basis its cheaper than option C. We the long suffering ratepayers, know full well that even as one of your own high ranking Council Officers has said, "planners in these public project ventures are inclined to over estimate the benefits, yet under estimate the cost."

So we all know, and you do as well, that what ever is the "Cost" it will escalate and blow out by at least 30% to 40%, if not more, and the build time will move towards later sunsets.

**I favour option D because:**

- a) its a time for ratepayers and library users to have the opportunity to hopefully have true input in the design and facilities of the library, as the lucky Christchurch people were given the opportunity
- b) its the opportunity for us Wellingtonians, and visitors, to restore, polish up, enhance the Capital City's Crown Jewel, and give us hope for a better future, post our earthquakes, and Covid19.

c) I don't buy into the suggestion that the Heritage of the closed CBD library is worth hanging one's hat on. If Heritage NZ or the Wellington Architectural Centre want to get excited over dull looking buildings then jolly well get them to pay for them to be restored. Why on earth the council Officers have let Athfield Architects Ltd any where near new design concepts I don't know. Maybe if Athfield had of done better design plans for the closed CBD building we wouldn't have the building now ready to fall down. I note the folly of Athfield Architects 'Early Concept Image' on page 23 of your consultation document: so not even a book in sight!

## **2) Time Frame**

The CBD Library closed in March 2019. So already as I write this 17 months has passed me without being able to have a beautiful place of destination in the sad concrete run down booze affected CBD without cycle lanes. I have said from the outset, as soon as the CBD Library closed I wanted to see either a rebuild/upgrade or new build within 3 to 5 years. That is within the period 2022 to 2024. But your option Option C suggests opening May 2025, or Option D opening November 2025. Just like the funding issue, we the paying ratepayers do not believe any time frames that are stated, as it just becomes a false expected deadline date, that is eroded away by lack of compliance to what shouldn't be open ended money making ventures for unsavoury developers. But if there was the political willingness by Councillors then a CBD Library could rise from the ashes within 2 to 4 years (one year already gone on paper shuffling). Look at how the new Children's Hospital is being erected.

## **3) Funding**

So whatever option, be it D or C, there is a great cost of between \$160m to \$200m. Big deal? Not really. There will be the typical cost blow out caused by unpredicted circumstances: I thought modern knowledgeable planners added in contingency costs (like the folly of declaring publicly the \$20m contingency costs already woven into the budgets of the Uneventful and Conference Centre). Surely every 'sign off project' deal takes in account '*force majeure*' be it earthquake, act of God (he's done enough damage already), raising sea levels (please leave your cars at home Eastern and Northern suburbs), or Covid19.

So here's two ideas in regards funding. All Councillors will know that there is a huge following by ratepayers to have this issue resolved, the CBD Library is the heart of our city.

a) Our new CEO is very good at managing the financial accounts of the city so she will easily absorbed the cost across various budgets and across many years. I recall for example those break down features officers put into annual accounts, to highlight how little the cost of something is, compared to the great service provided. The recent previous CEO was at pains to point out for example the high costs of running our swimming pools, relative to the cost of off road bike trails.

**b) Idea 1:**

Consider a targeted rate. I believe that ratepayers are super keen to have a CBD Library more so than any other venture undertaken by Council in decades passed, and for decades to come. Of course the naysayers would argue - "but we already pay high rates" why an extra. Certainly I'm sympathetic to that point having just seen Council stamp a 5.1% rate increase as well as even bigger % rate increases to come, but to have an identified separate dollar amount as being for this library development would have some merit. Like the cost of \$250m blown out to \$300m for the build over 30 years payable by 200,000 ratepayers (and expected to grow by 80,000) must only be something like an extra \$50pa per person. Like even less than a coffee Latte!

**c) Idea 2:**

Yes, I certainly don't have any belief that the ratepayers are receptive to a PPP. Like Transmission Gully project shows the folly of that as well as the rank games of the previous NAT Govt.

But: Consider a partnership with the State. One way could be to join in a joint venture with the National Library. Remind yourselves that the city has a done deal with HNZ at our Arlington Social Housing rebuild. We have 'partnered' with other organisations to enhance the city's assets. Think Zealandia, or the pending Music Centre (City Council and that university on the hill – name escapes me).

The National Library has to reinvent itself, along with National Archives. I sometimes think it would be better for the Govt to store and display the "Treaty of Waitangi" at the CBD Library. What a tourist attraction that would be: its really not in a good foot traffic flow up Molesworth St. So how about the National Library (that is advanced in digitalisation of libraries in terms of best practice) and its parent Department of Internal Affairs, plus Archives do some sort of funding split to repair or replace our CBD Library. They could have some space on additional floors proposed in the build.

Councillors would have heard from me recently, but I restate it, that I think our city, and our region, gets overlooked, and underfunded, because of us housing the Beehive (and the hanging on wasps.). Some other cities have done pretty well out of so called 'projects of national importance' yet wellington hasn't. Think Christchurch Sport/Rugby Centre, Christchurch Cathedral (so those 2 projects get \$500<sup>m</sup> and counting from Govt). How much money being splashed about for the America's cup. How many projects from Shane's 'Regional Development Growth Fund' are happening in our city (Peanuts). Then our regional gained \$189million from the \$3billion in the Budget Infrastructure fund. Allocation included: Upgrade the Wellington District Court for \$14m (where I use to work), Upgrade the Hood Aerodrome in Masterton, and even a whopping \$1.3million on revamp of the Masterton skate park!

**4) Also consider Hours of opening of the CBD Library**

Councillors will know that I tabled a petition that the CBD library open all day Sunday (9am to 5pm) and that received support and attention, but events surpassed the reality. But I do state again, that in the new CBD Library I wish the Council to have all day Sunday opening. You know the statistics tabled, Wellington was one of the few libraries NOT to have all day Sunday opening which is really poor as after all we are the capital and hundreds of people stood outside the doors waiting for the library to open.

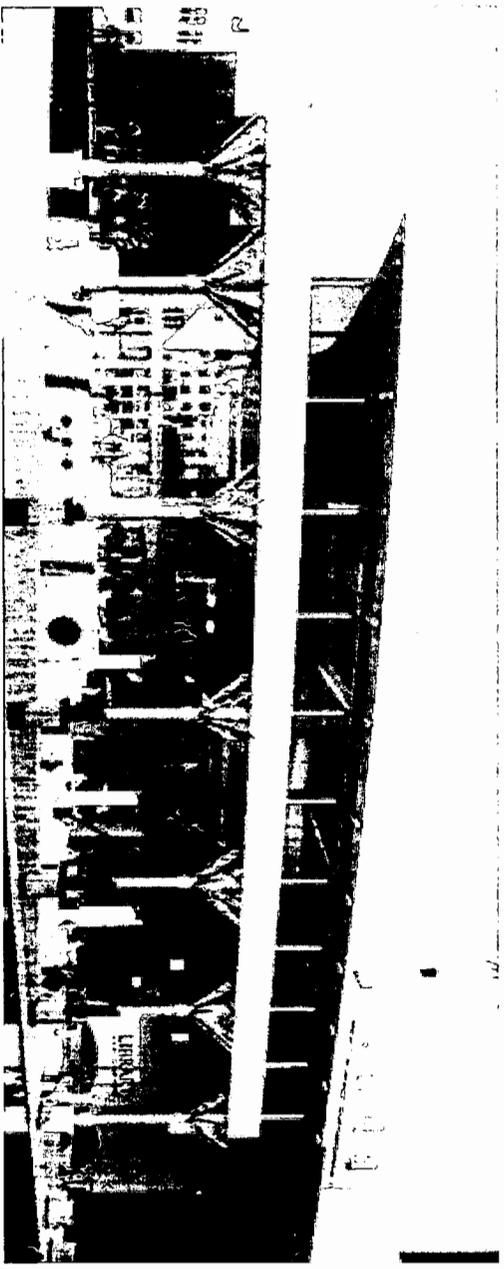

**I conclude in saying that I prefer Option D, but will also support Option C, but my greatest desire is to see it happen now within 2 to 4 years. Also that funding options should be considered.**

*Bernard O'*

Library Card Holder & Ratepayer**

# Generation Zero

Generation Zero's Submission to:

Future of the Central Library

**Generation Zero supports Option C - High Level Remediation** to restore Wellington Central Library as Wellington City's most important third place.

### ***Environment and Carbon Emissions***

Option C is likely to have the lowest associated carbon emissions as;

1. Strengthening the existing building will mean the embodied emissions of the original building materials are not wasted, and the substantial embodied carbon of the materials required to build a new library can be avoided.
2. This high level of structural remediation improves the library's resilience to future seismic events substantially, which will increase the lifespan of the building and have a positive effect on the overall lifetime emissions of the building. Evidence is emerging in Aotearoa that earthquakes play a big role in the overall life expectancy of buildings which makes a strong impact on total carbon emissions under life cycle assessment as strong buildings last longer and require less maintenance over time.
3. This level of remediation also allows for significant upgrades to the building services, which is an opportunity to significantly improve the energy efficiency of the building and reduce its operational emissions. This will also enable cost savings in operating the building in future.

Reducing emissions associated with buildings across the city is an important part of the council's implementation plan for Te Atakura: First to Zero. If the council intends to encourage and incentivise private building owners to carry out significant work to earthquake strengthen and reduce the operational emissions of their buildings, they must also walk the talk by abiding by these same standards on their own buildings. Wellington Central Library will be an important flagship project for the city, regardless of whether it is retrofitted or rebuilt, and the council must lead by example and set a high standard.

We would like to see the detailed designs for this project take up the opportunity for urban greening and water sensitive design surrounding the building to improve urban ecology, add to the wellbeing of the users, and reduce the urban heat island effect.

### ***Safety and resilience***

Option C enables the council to achieve a high level of resilience and make the building safe again, while reducing the carbon emissions of the project. Making a high upfront investment means that the library will be functional for years to come without future closures and remediation work, and the council will be setting a good example for other building owners in the city.

As well as making the building resilient to future seismic events through strengthening and base isolation, this option will build resilience against climate change by raising the ground floor and reducing the potential impact of flooding and sea level rise. Under the current draft spatial plan, the council has identified Te Ngākau civic precinct as an “anchor of resilience”, designated as a recovery hub following large scale hazard events. As such, ensuring its resilience is vital.

### ***Role in the community***

Central Library has always been a really important space for the community in Wellington; a third place where people can comfortably spend time together outside of home or work/school without having to spend any money. It was a place where all sections of society could connect and was important for the strength of Wellington’s community. Its closure has been a heavy burden on the city. An advantage of retaining the existing building means the library can be opened sooner and restored as ‘Wellington’s Living Room’.

Option C has the most opportunity to re-configure the library and enhance its relevance and importance to Wellington Residents. We are very supportive of the plans to “activate the edges” of the library by creating more entrances and opening the building to the surrounding area, both physically and visually. This will make it a more welcoming space and integrate it in the precinct, adding vitality to the area.

Re-configuring the library is an opportunity to add new community spaces and services, and modernise its offerings, following the examples set by Waitohi in Johnsonville, and Tūranga in Ōtautahi Christchurch. However, we understand that due to the nature of the existing building, this could be difficult as the collection is large which limits available space for new services without losing anything. We would like to therefore see the continuation of split spaces through the city to ease the burden and increase accessibility. This could be through ongoing use of central pop-ups or maintaining Te Pātaka to manage the full size of the collection.

There is also a significant opportunity to improve the accessibility of the building, through;

1. updating the design by considering the journey through the building for people of all abilities.
2. Engaging with disabled people to ensure the design will suit their accessibility needs
3. integrating with the proposed mass rapid transit route to make the building easily accessed via public transport.

Furthermore, we are pleased to note that the council has further plans to consider how they can work with mana whenua to develop a ‘Māori sense of place’ in the library, and the Te Ngākau civic precinct more widely, through the application of Te Aranga design principles. This is a site of significance to mana whenua and it is important those stories of place are celebrated.

### ***Feedback on the consultation***

Thank you for the opportunity to participate in the Future of the Central Library consultation. We would like to take this opportunity to compliment the council officers on the thoroughness of their consideration and the consultation material provided. We have been impressed by the availability of the Council to engage and answer questions throughout this process.

We would note that while it was excellent to see clear considerations being given to the sustainability of the different options, we think that considerations for expected sea level rise in this area and the possibilities for managed retreat could have been more developed and explicit. We understand there has been a lot of work done on this in the background to this consultation and it would have been good to see more details included in the main document.

In addition, while we appreciate it is difficult to do with such high level concepts, we think there should have been some scientific analysis of the carbon costs of each option. We agree with the assumptions made by the officers, but this analysis would have been useful to justify the cost of Option C under the Te Atakura.

We understand that this work is going on in parallel to many other work streams and we would have liked for this consultation to have been extended to the entire civic precinct as a whole, even if the focus remained on the library. We know the council is in the process of planning and implementing a development plan for this whole area, and it would have been good if the consultation documents for the library embedded the options within that framework, as well as the work going on with Planning for Growth, and Let's Get Wellington Moving.

We look forward to seeing this project progress and would like to make an oral submission to the councillors.

Ngā mihi nui,

Generation Zero Wellington

**Generation Zero**

## **INTRODUCTION**

Inner City Wellington (ICW) appreciates the opportunity to submit our perspective on the future of our Central City Library. Our preference is for High Level Remediation (Option C) because, having weighed each option against the factors we consider most important, we believe that for the money invested it provides the City and our Community with the best value for money in both the short and long term.

- ✘ **ICW does not accept the cost estimates** having heard expert advice at a recent public meeting on the library that revised costings of Option C could reduce the cost by 25%.
- ✘ **ICW contends the process of consultation thus far has been substantially flawed.**

As ratepayers, we wanted to know much more precisely which option provides the best value for money over the lifetime of the building, which is the way we believe the options should have been presented – i.e. ‘apples with apples’! We note that the written consultation document does not contain the information that the ‘new build’ options do not include base isolation, and this was only registered on the website after ICW raised the issue. Most folk we have spoken to assume that the ‘new builds’ do include base isolation.

## **THE INNER CITY ‘SUBURB’**

*This submission also has a most important message:*

**The Central City Library is our ‘INNER CITY SUBURBAN LIBRARY’.**

While we know it also serves the wider Wellington population and acknowledge that perspective is important, we ask that our views are given the strength they would have if we were simply a suburb and not also the Central Library for the city as a whole.

Wellington Central and Te Aro – our area – has the least land but the largest and fastest growing population and very different demographics from other suburbs in Wellington. The Library is our main community amenity and Te Ngākau/Civic Square (including Jack Ilott Green) is our most significant public community space – and a key evacuation site.

In addition to wider city needs, the Central Library needs to offer the level of service a community library would have - particularly from the perspectives of our current three dominant demographics: Students, Young Professionals and the Over 60’s. The first two groups make up a majority of the inner-city residents, with 69% of constituents aged between 15-35. It is also noteworthy that Inner City Wellington has a higher proportion of residents on low incomes with 35% earning less than \$20,000 annually in comparison to the national average of 27%.

We can't know now how our people makeup might change with the doubling in growth predicted from 13,355 to 27,453 in 2043. However, it seems likely that the student population may remain more stable so proportionally less over time. Efforts to house lower income folk may lead to a new sizeable demographic and families may increase.

Current statistical projections suggest a significant increase in under 5's (we cannot ascertain on what basis) which, if correct, will require consideration: already we know those numbers are increasing particularly in the Te Aro area. Maybe one of the existing pop-up Libraries could be adapted for this purpose.

We note some recognition of the implications of our growth in the Consultation document where it states under What could Wellington's future Central Library service look like?

*"By 2043 the inner-city population is expected to double and an increasing number of central city residents will be under the age of 34. With this growing CBD population our library may need a greater emphasis on communal spaces, a more curated, heavily used collection, creative and makerspaces, plus a focus on lending non-traditional items and on seamless digital infrastructure and content."*

- ✘ **ICW submits** that more explicit recognition and even more emphasis on Inner City Community need is required, particularly as a meeting place and social hub for our community events. We don't want to be in the position of constantly competing with the wider city users for access to services such as internet and multimedia, meeting space, notice boards etc when others have such access in their own community libraries, but we do not!

## **PARTNERS**

We see the Central Library as our major community resource for information and support.

- ✘ **ICW contends** that any Partners should be assessed against their contribution to this 'one-stop shop' for citizen services.

Having the Citizen's Advice Bureau back in the Library would be a significant benefit for our community and the city at large. WCC Services as currently sited in Manners Street Temporary Library would also be a sensible and useful service for the City Library to offer.

## **DECENTRALISED SERVICES**

While we have appreciated the provision of the three 'pop-up' libraries as a temporary measure, they cannot provide the 'one-stop' place for all services. Nor do they welcome, inspire and nurture in the way the Central Library did and can, despite best efforts of staff.

## **NEW ENTRANCES AND WINDOWS**

The Submission Form asks about *how appealing or unappealing you would find (a) having multiple entrances to the building from Civic Square, the Precinct, and/or surrounding streets at ground floor level and (b) More windows to help connect the library visually to the square and surrounding streets.*

- ✘ **ICW does not accept** additional entrances and windows are necessary **IF** they will add significantly to the cost.
- ✘ **We also question** whether adding multiple entrances could limit the way space can be used efficiently and effectively.
- ✘ **We see the current two options as adequate** – one from Victoria street (or Harris Street if that is a better option design and cost wise) and one from Te Ngākau/Civic Square which could be on the ground floor or to a mezzanine as now.

## RISK

---

### **Seismic**

A significant factor in any consideration of the future of the Library is that of risk. We know that the current site is on Landfill which poses seismic issues and that it is within the zone where sea level rise due to climate change will bring it under water in the long term. Therefore, we understand that Council (and certainly ratepayers) will want to think very seriously about investing large amounts of money in Te Ngākau/Civic Square.

The information given us provides assurance that life safety in a significant earthquake can be assured.

We are convinced that any option without base isolation will NOT provide the level of resilience/damage avoidance that base isolation gives, and we are not happy that only one option has this. This is a significant factor in our determining which option to support.

- ✘ **ICW contends** it would be irresponsible of Council to approve such a high use public building without base isolation as it significantly reduces the potential for future remediation and significant cost following the inevitable earthquakes we will have.

### **Climate Change**

Our position on climate change causing sea level rise is that Council is already investing in significant expenditure in this high-risk area with the Town Hall. We note that the Convention Centre is also within the sea level rise area.

We accept that sea level rise will occur. However, it is not an imminent risk and the probable life of a remediated Library is 50 years and a New Build 64. At some stage prior to 2070 presumably there will be a plan to raise buildings or relocate out of the waterfront area entirely if sea level predictions are borne out.

- ✘ **ICW believes that**, for the existing Library, sea level rise as a risk should not be a consideration. In our view it is outweighed by the need to get the Central Library back as soon as possible so that we can enjoy what the building can offer over its new, always limited, lifespan. This is particularly vital in these stressful times when, to help deal with uncertainty, our community needs every amenity it can have.

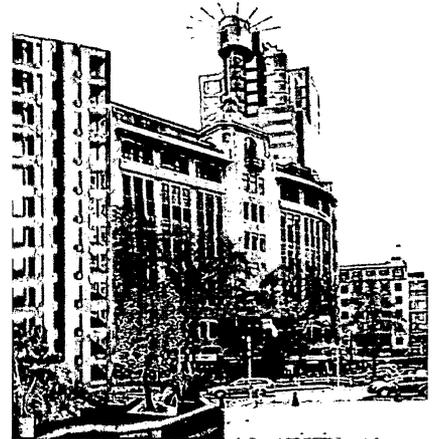

## TE NGĀKAU/CIVIC SQUARE

**Note:** Council has already had expert advice (Mahoney/Miskell report 2020) that shows there is currently a deficit of green space in Te Aro and Wellington Central – and that is before their stated requirements for a further TEN TE ARO PARKS in these two areas to meet WHO guidelines for green space for the projected doubling of the population.

Therefore, the space available now in Te Ngākau/Civic Square, including Jack Illott Green, must NOT be diminished any further and if there is a need for demolition of Council Offices, that space should be conserved for an even better public gathering place/green space/evacuation area than we have currently.

However, if there is to be a building on the site of the existing council offices, then it should sit on a low-level green podium which would also help provide a better view shaft to the waterfront and provide a welcoming entrance to the civic square (*see right*)

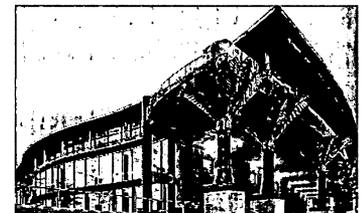

- ✘ **ICW urgently requests** that Council draw a line NOW on allowing any additional new building in Te Ngākau/Civic Square.

## HERITAGE

Another factor is heritage value. We are not wedded to the retention of the building exactly as it is, as we recognise that remediation will bring change

- ✘ **ICW strongly advocates** for retention of the existing building's shape/form, the curved window outlook to the harbour and the iconic nikau palms.

*Photo: Athfield Architects*

## THE OPTIONS

The Submission Form provides a list of factors which submitters are asked to rank. These are Making the building safe; Making the building resilient; Heritage; Accessibility including transport; Future-proofing the Library service; Opportunities for Partnership; Te Ngākau Civic Square connections; Climate Change; Sustainability; Cost to ratepayers; Timeframe; Other.

### Our ranking

1. Making the building safe
2. Making the building resilient
3. Timeframe
4. **Community amenity/social resilience**
5. **Value for money invested** to ratepayers (not simply cost)
6. Heritage

Based on the inaccurate, limited and at times seemingly contradictory or unclear information provided, our view of the various options is as follows:

**OPTION A: Low level remediation** – While providing the earliest opening date, it does not provide sufficient safety or resilience relative to cost/investment value. Up to \$90m would be spent for no gain.

**OPTION B: Mid-level remediation** - At only 80% NBS and moderate resilience (no base isolation), and 'nominal' (not specified) increase in the building's life expectancy, while the cost of \$151.8m quoted for this option is clearly inflated, the minimal improvements in level of safety, resilience and sustainability achieved do not justify the investment.

**OPTION C: High level remediation** – This option meets all of our priority factors: safety, resilience, timeframe, community amenity/social resilience, value for money invested and heritage. We believe this option should be pursued but with clear direction that further development of concepts has to find ways to achieve the remediation with significant reduction in cost.

**OPTION D: New build on the site** Our reasons for rejecting this option include our assessment that this would provide less value for money as an investment for ratepayers, the historic value of the Library building, cost and impact of demolition or of maintaining the existing building for other purposes, longer timeframe for getting a Library back, and the not insignificant issue of returning something familiar and accessible to the community in a time of significant stress.

**OPTION E: New build on another site in Civic Square** - We reject this option because we cannot accept it is a wise investment. In any case, we want the Library building retained in Te Ngākau/Civic Square to provide a major community centre for our growing population but we do not want any further reduction in green space available in this area. Also, the timeframe to achieve an outcome is unacceptable.

## CONCLUSION

We recognise that Council has a difficult decision ahead and that decision is only a step along the way as another consultation will occur when the Library has to compete for funds within the Long-Term-Plan.

We hope that our Library will be considered as a significant critical infrastructure requirement for Wellington's most populous suburb as well as for the city as a whole.

The manner in which it is presented in the LTP must ensure that it is given fair weighting alongside other investments. It must not become a Vanity Project that can be rejected in the face of bursting sewer pipes.

**Rev Stephen King**  
**CHAIR**

- 
- ☒ **ORAL SUBMISSION:** ICW advise we wish to make an oral submission to all Councillors at the Committee Meeting and ask to be notified when the paper is being submitted to the Committee.
  - ☒ **APPENDIX 1:** Letter from City Council in response to ICW Questions

## **APPENDIX 1: Letter from City Council in response to ICW Questions**

11 August 2020

Mr Stephen King  
Chair  
Inner City Wellington

Dear Mr King

### **Re: Response to your request for clarification on the Central Library Consultation**

Thank you for your list of questions sent to all Councillors, the Mayor and the Chief Executive last week. The Chief Executive has asked me to provide you with responses to your questions which are set out below. We appreciate the time your organisation has taken to prepare these questions and look forward to your continued interest in this important project.

I would like to include the questions and our responses on our consultation website to allow others to benefit from your questions. Please advise if this is acceptable as we would want to attribute the questions as coming from your organisation. In addition, I note that Wellington Scoop have also published your letter so I would like to supply them with a copy of the responses we have prepared. Again, please advise if this is acceptable.

I have included your questions as they give context for the responses. Our responses are in purple.

#### **'LIKE for LIKE'**

We note that "In the case of the two new building options there is no concept design. Accordingly, the costs provided are based on industry square metre rates for a reasonable quality building".

**1. QUESTION:** Does a "reasonable quality building" equate with the specific design requirements for a library building? Put another way, are the remediation options costed to the same 'reasonable quality building' estimates, or are the remediation designs costed to a higher quality?

The new build costings were provided for the purposes of context and comparison and are not based on any specific design. The estimates are based on industry square metre (sqm) rates for a building of a reasonable quality that would be suitable for a library. The new building cost estimates are for a building of a comparable size.

**2. QUESTION:** If Option D or E is accepted, can we be assured that Council will ensure that the upper estimate of \$160 million is retained as the upper limit for a new build? We are seeking assurance that when we are choosing between options, the costs for the new build won't be significantly escalated post-consultation.

If Option D or E is chosen Council will use \$160m as the budget for the Long-Term Plan (LTP). However as noted above this estimate is based on sqm rates and not a detailed design. These estimates provide for cost escalation.

## FOCUSSING SPECIFICALLY ON THE FACTORS FOR COMPARISON

### Resilience

The website now states "The new build estimates do not include base isolation as the desired level of building resilience can be achieved in a new build without it. However, if the decision was made to base isolate a new building the additional cost would not be significant" and "The cost estimates for the new build option do include estimated demolition and removal costs." As noted, neither of the foregoing statements are included in the Consultation booklet.

**ISSUE:** ICW has been advised by an engineer that without base isolation "The required level of life safety can be achieved but not an equivalent level of resilience/damage avoidance i.e. a conventional building is significantly more likely to require costly and lengthy repairs after a moderate or major earthquake" and "The additional cost of Base Isolation is typically estimated to be in the range of 5-10%". We note that this could take the new build up to \$176m. Bearing in mind that a number of industry commentators have suggested that the base-isolation retrofit option has an inflated cost estimate, does this not mean that equivalent new and retrofitted, high resilience options are comparable in price?

### **3. QUESTION: Why in Option C is WCC pushing for the existing building to be base isolated, if less than this is acceptable for a new build?**

*Council's preferred option is a highly resilient strengthening of the Central Library building. Base isolation, in conjunction with other strengthening components, would achieve the most resilient remediation solution for the existing building. A new building design (Option D or E) could achieve the desired level of building resilience without base isolation. However, if the decision was made to base isolate a new building, the impact on the cost estimate range is unlikely to be significant.*

### **4. QUESTION: Do the new build costs in fact include obtaining the same level of resilience/damage avoidance as has been costed in the remediation options?**

*No design has been developed for a new building however these costs are based on standard industry sqm rates for a reasonable quality building designed to a high level of resilience. Options C, D, and E all seek to achieve a high level of building resilience.*

### **5. QUESTION: What is the justification for the difference in wording between Option C "High level of building resilience with minimal risk of future building closures after a significant earthquake" and Options D and E "Design to high level of seismic resilience with minimal risk of further building closures after a significant earthquake"? Is there in fact no difference in outcomes between Options C, D and E in this regard?**

*Although there are no new build designs (for Options D and E) at this stage, Options C, D, and E all seek to achieve a high level of building resilience.*

### Accessible

**ISSUE:** We note that Option B has potential for improvement, Option C significant improvement, while Options D and E have 'Opportunity to align with best practice standards.

### **6. QUESTION: What information supports the judgement that only a new build can be aligned with best practice standards?**

*Under the remediation options accessible design elements would be incorporated wherever possible. These opportunities are constrained by an existing building and accordingly cannot be assured of best practice. A new building provides a blank canvas and therefore opportunities to design it in a way that achieves best practice outcomes for accessibility and sustainability.*

### **Improved sustainability**

**ISSUE:** On page 15 it is stated that the performance of a new build would be superior to the existing building in relation to energy efficiency. This clearly conflicts with the next statement on page 16 which states that “Replacing building services will be included as part of any option. The new services will be equivalent in their performance as to what a new building would include. This means a remediated building will deliver similar energy efficiencies as a new building”.

**7. QUESTION: What exactly does the foregoing mean? It seems to suggest that the new build is a better option even though the existing building’s services will be completely upgraded to a similar standard.**

*Although building services are a significant contributor to a sustainable building, they are not the only elements that contribute to a building’s sustainability. A new build would provide greater opportunities to introduce sustainability elements as these can be incorporated into the building’s design and materials. Under the remediation options energy efficiency and sustainable practices would be incorporated wherever possible including replacing building services.*

**8. QUESTION: Given council must have had provision in their Long Term Maintenance Plan budget for replacing the stated services in the existing Library that are now at “end of life”, why has this provision not been shown as a plus against the cost of the remediation options?**

*A key purpose of the SOP is to demonstrate the cost estimates for each of the options. The specific funding requirements for the chosen option, and the impact this will have on existing LTP budgets, will be considered and consulted on as part of the upcoming 2022-32 LTP.*

**9. QUESTION: In terms of sustainability would it not be appropriate to note the considerable environmental plus of not demolishing the existing structure, not only in reduction of landfill but also in the energy consumption in constructing a new building.**

*Under Option D on page 25 of the Statement of Proposal we reflect this as one of the disadvantages – “Negative impact on sustainability objectives due to demolition.”*

**ISSUE:** Under option E (pages 28/29) the costs associated with the impact of the considerable delays of retaining the existing library and paying for its maintenance until it is sold or leased have not been identified.

**10. QUESTION 1: What financial loss or costs could the ratepayers expect to bear under this option, where the existing building is to be sold or leased (possibly at less than market value)?**

*The costs or revenue associated with resolving the future of the existing building are unknown. The objective would be to minimise the impact to the ratepayer. There could be revenue available from the sale or lease of the building that could offset the costs.*

**11. QUESTION 2: What are the costs to maintain the existing Library building while all these decisions are being made?**

*While the operating costs for the building have significantly reduced since its closure, there are some costs that must be maintained for a building when it is closed. These include rates, insurance, security and some utilities costs.*

**12. QUESTION 3: Why are these issues not identified as a possible negative impact in relation to this option in the same way that the possible negative impact of demolition is cited in relation to Option D?**

*These issues have been clearly identified in the SOP description of Option E. The future of the building needing to be resolved is listed as a disadvantage.*

**Te Ngākau – Civic Square**

**ISSUE:** Option E – New Build on another Te Ngākau Civic Precinct site has a stage to ‘identify and confirm a site which may take up to 18 months to resolve, and which would only be explored after public consultation. Therefore, should this option be accepted it would add another 18 months to the already long timeframe.’

**13. QUESTION: Why are the possible sites in Civic Square not identified so the public can make a properly informed decision, especially when the one identifiable site is clearly Jack Illot Green? Are there in fact any others?**

*If Option E is chosen, the timeframe includes identification of potential sites and associated public consultation.*

Yours sincerely

**Karen Wallace Project Director Central Library**

**Submission to:** Wellington City Council  
**Subject:** Future of the Central Library Consultation  
**From:** Creative New Zealand

1. Creative New Zealand welcomes the opportunity to make a submission on this kaupapa. Arts, culture and creativity are at the heart of modern libraries. We're encouraged to see Wellington City Council's commitment to promoting the cultural wellbeing of its residents through the re-development of a Central Library complex.
2. We'd be happy to discuss this submission with you further. The key contact person for matters relating to this submission is:  
**Name:** David Pannett  
**Position:** Senior Manager, Strategy & Engagement  
**Email:**  
**Phone (DDI):**

#### Submission

3. Creative New Zealand strongly supports Wellington City Council's commitment to reinstating a Central Library in the Wellington CBD. We'd like to see Wellington City Council deliver a facility and range of services that are ambitious, exciting and progressive.
4. A modern, fit-for-purpose and future-proof library that is centrally located is an essential part of a vibrant, prosperous and inclusive city. Libraries provide multiple benefits for communities beyond the core service of providing access to books and collections. They are a key means through which councils can support the social, cultural, economic and environmental wellbeing of their diverse communities. They must be accessible to and offer something for a wide range of members of a community.
5. Reading fosters knowledge, inquiry and creativity, all of which are essential to the arts. There is a real opportunity for the Council to reflect the strong connection between libraries and the arts in both the services offered at and final designs of the new Central Library. There is also an opportunity for the Council to celebrate and showcase Wellington's vibrant literary community,

which already has a strong reputation nationally and internationally, as an integral part of Wellington's arts community.

6. This submission identifies a number of opportunities for Wellington City Council to ensure that its redeveloped Central Library complex is a centre for the arts that champions, promotes and reflects Wellington's identity as a centre of creativity and culture.

#### Consideration of options

7. We support the Council's preferred option of undertaking high-level remediation work on the existing building, given its cultural and heritage value (Option C).
8. Notwithstanding our support of Option C, we would be supportive of the Council's proposed Option D (constructing a brand new library building at the existing Te Ngākau Civic Precinct site) if it was deemed that this provided greater scope for the development of a modern, fit-for-purpose library and provision of new and enhanced services.
9. We strongly support the Central Library remaining in Te Ngākau Civic Precinct. The redevelopment of a vibrant, modern library complex will help to attract residents and visitors back to Wellington's civic heart (and surrounding areas). It will help to enliven and kick-start greater use of Te Ngākau by Wellington's arts community and the wider community. It will help to continue to grow audiences for other nearby arts and culture institutions such as City Gallery Wellington.
10. The Council should give thought to whether there is scope to re-develop the Central Library complex in such a way that outdoor spaces in Te Ngākau can be utilised by library users. This might help to attract a greater number of users to the library complex and may further enhance the vibrancy and scope for greater use of Te Ngākau.
11. We strongly support the Council's commitment to redeveloping an accessible Central Library. It is vital that all residents and visitors are able to access and use the facility.

#### Provision of new and enhanced services

12. Creative New Zealand agrees that the re-development of a Central Library complex provides a real opportunity to develop a modern, ambitious and vibrant library that offers a diverse and exciting range of new and enhanced services.
13. There is a real opportunity for the Council to reflect its commitment to growing Wellington's reputation as a Creative Capital and promoting the cultural wellbeing of all Wellington residents through the services it provides in the Central Library. We encourage the Council to deliver a range of services that both support the local arts community to make and present their work, and that enable the broader public to engage with and participate in diverse arts experiences (including those members of the public who cannot afford to pay for opportunities to engage with and participate in the arts). This will help to ensure that the Central Library becomes a key component of Wellington's arts and culture offering.
14. We encourage the Council to look closely at Christchurch's central library, Tūranga, as a strong local example of the range of services that could be provided. We suggest that the Council should:
  - Ensure that the new complex contains a range of spaces in which artists and community-based arts groups can make and show their work and audiences can gather. These spaces should enable and support the programming of arts and culture-focused events and initiatives, including residencies, workshops, concerts and performances, etc. The redevelopment of the Central Library presents the Council with a real opportunity to address existing gaps in availability of affordable, quality venues in Wellington.
  - Ensure that artists and community arts groups are able to access such spaces for showing and presenting their work at affordable rates, or if possible for free.

- Work closely with Wellington’s strong and vibrant literary community to find ways to both support that community, and to elevate and champion the work that it does. We support Verb Wellington’s proposal for the establishment of a Writers’ Centre within the Central Library.
  - Work directly with the broader Wellington arts community to identify particular spaces, resources, services or tools that could be included in the new Central Library complex that would support them to make and present their work, and build their capability.
  - Make tools and resources available to the broader community that foster participation in creative pursuits and expression.
  - Work with mana whenua to identify services that could be provided to grow the broader public’s understanding of and engagement with local stories and histories, mātauranga Māori and Te Reo Māori.
15. We support the Council’s proposed approach of working with the community to identify opportunities for partnerships. We strongly encourage the Council to work directly with members of Wellington’s arts community, and in particular the literary community, to identify potential partnerships. There may, for example, be opportunities to work with members of the arts community on programming of arts events and projects, or the establishment of the proposed Writers’ Centre, in the Central Library complex.
16. While we acknowledge that the introduction of a significant number of new and enhanced services will have implications for ratepayers, we see the redevelopment of the Central Library as a strategic opportunity for the Council to deliver a wide suite of community wellbeing outcomes through its provision of an enhanced offering of services.
17. Noting the timeframes within which the re-development of a Central Library complex is likely to be completed (regardless of which option is adopted), it is critical that the Council continues to offer a programme of community access and engagement that maintains access to books, resources and education opportunities. We strongly encourage the Council to ensure that such a programme includes opportunities for Wellington’s diverse communities to help inform and develop the Central Library’s design and the programmes and services that will eventually be offered in it.

#### Distributed libraries model

18. We understand that the Council’s current position is that the temporary libraries on Manners and Brandon Streets will be disestablished once the Central Library complex redevelopment is completed.
19. While we strongly support the redevelopment of the Central Library as the flagship of Wellington’s library network, we’d encourage the Council to give further thought to whether there is still a need for some library services to be dispersed throughout the central city, in order to ensure ease of access for, and good engagement by, a wide range of members of the community. This would also help to ensure the network is resilient and able to adapt in the event of unforeseen circumstances (such as earthquakes or climate-change induced events). To this end, retaining and growing a strong and robust digital service to support the library network’s physical infrastructure is critical. We encourage the Council to continue working on this in conjunction with the re-development of a physical Central Library complex.

#### Community involvement in the design of the new Central Library

20. As noted above, we encourage the Council to continue to engage with and involve the community as it progresses work on the Central Library redevelopment. In particular, we encourage the Council to provide members of Wellington’s arts community with ongoing opportunities to provide input into the final designs of the complex and decisions around service provision. Strong levels of community involvement in design, development and identification of services to provide will help

to ensure that the community feels a strong sense of ownership of the Central Library, and is excited and motivated to utilise it once it re-opens.

21. We also note that there are opportunities for the Council to commission artists and arts groups from New Zealand's diverse communities to enliven the new space with art and design elements.
22. Where artists are involved in consultation processes or commissioned to produce work for the new Central Library complex we strongly encourage the Council to pay artists for their time and work in accordance with Creative New Zealand's remuneration guidelines.
23. The Council should also ensure that mana whenua and Pasifika communities are closely involved in the final designs of the building so that cultural values, aspirations and narratives are woven throughout the conceptual development, architecture and spatial experience of the complex.
24. Thank you again for the opportunity to comment. Please feel free to contact me if you have any questions or wish to discuss any matter raised in further detail (my contact details are at the start of the submission).

Ngā mihi nui, nā

### SUBMISSION ON WELLINGTON CENTRAL LIBRARY

The following are key in considering the rebuild or replacement of the Wellington Central Library.

- The current location is central with good connections to transport and short walking distance to the Gallery, Civic Square, the harbour, Te Papa and other attractions
- Our library needs to fulfil its role for the future not just be a replacement of what we had
- The new Library should be an essential resource of information specifically catering for the electronic age we are now in
- It should be recognized as a center for the community providing facilities for small study groups and meetings such as the "Seniors Room" previously provided on the mezzanine floor before Council closed that
- Quiet areas should be provided for study and research
- The Johnsonville and particularly Christchurch libraries should be looked at to see innovations included there
- The library should include a resource room with practical facilities such as printers, Laser cutting, 3D printing etc.
- Albeit the existing library is an iconic part of Wellington there is no reason whereby a new building might not be as good if not better
- The library should provide a center for tourists as well given that this is an essential earner for Wellington's economy
- Café adjoining would be desirable if not essential

Should building the Library of the Future for Wellington not be possible or affordable by upgrading the existing building then a new build on the existing site should be seriously considered.

## **CENTRAL LIBRARY SUBMISSION**

I attended the Civic Trust seminar last evening. It was very informative and I would like to record my response to the matters raised.

### THE ROLE OF A CENTRAL LIBRARY

No longer just a receptacle of books, a public library is a meeting place for creativity, the sharing of ideas and a host of meetings both large and small. Welcomes and accommodates our citizenry, inclusive of all ages, social standings and disabilities.

### TURANGA LIBRARY: CHRISTCHURCH

No doubt the presentation of this shiny new 'state of the art' library impressed. The architectural references of the folded facades reflecting the shapes of the port hills backdrop together with its siting at the northern edge of Cathedral Square were noted.

Our Central Library is of similar height and bulk and co-incidentally is located at the northern edge of our City Square. The architect similarly referenced its location by curving the façade facing the City Square in reference to the historic coastline.

Both buildings make successful architectural gestures toward their context.

### OUR LIBRARY

Our library was said to be 'out of touch with contemporary library design'. What will be the fate of Turanga in 40 years time when it too does not reflect 'contemporary library design' ?

Athfield's original design did address its longevity of purpose. With its generously spanning column and beam open plan construction, it is enormously flexible. With a little imagination with its beautiful backdrop it could once again lead the way in contemporary library design.

Connection to the Civic Square over the existing pond would be so simple and easy.

Athfield architects have in fact been engaged by the Council on behalf of we ratepayers for this very purpose.

### DEMOLITION MENTALITY

We have just lost the George Porter Tower at Arlington and VUW wants to demolish the heritage Gordon Wilson flats, on the Terrace. To say we have a preservation bias is nonsense.

We are a young country not yet as aware as we should be of our built heritage. A 40 year old building being described as obsolete, would be regarded as absurd by most developed countries. Religious worship has changed so why aren't the Indian Government demolishing the 'obsolete' Taj Mahal?

'Let's start again' people are generally functionalists who don't value the beauty of a building and don't understand the emotional connection people make with wonderful architecture.

The Bundestag Building in Berlin, with its modern glass dome surmounting the heritage centre of German Government , prior to Covid, had more visitors annually than entire New Zealand.

The environmental effect of taking thousands of tons of concrete and steel to the tip has to be considered.

### STRENGTHENING OPTIONS

My personal view is that people are more likely to die on their way to the library, by car or on foot ,than within the library. The Supreme Court determined after a case in Christchurch that 'all buildings must be able to survive a moderate earthquake' The Seddon/Kaikoura event of 2017 was officially described as a moderate earthquake. Not only was our library unaffected, but several 100% NBS modern buildings were.

It is clear though that Council doesn't share this view and given that strengthening is deemed to be required, I support Adam Thornton's embrace of base isolation. He made the point that in Japan, new commercial or civic buildings are uninsurable without it.

The ground floor height would be raised to address the issue of rising sea levels.

We cannot be in denial about 'Futureproofing'. By way of example, If a pre 1980's houses comes up for sale, purchasers ask 'why isn't it double glazed' ? The answer of course is that it wasn't a requirement at the time. Now that double glazing is mandatory we just have to suck up the cost.

The demolish and rebuild option estimates do not provide for base isolation, yet Te Papa, the Town Hall, Parliament, and Hospital buildings are. How a new build could be built without base isolation is baseless (pardon)

Adam has said that base isolating the library would solve all of its seismic issues.

### SUMMARY

It is clear that the adaptive re-use of our library is less costly, quicker than a rebuilt ,more environmentally responsible and not a regrettable act of cultural vandalism.

## **Vogelmorn Community Group: Wellington Libraries**

Dear Laurie and Fleur,

Thinking about libraries and 'the library':

### **1. Arterial network**

The Vogelmorn Community Group conceive of libraries as community knowledge and collaboration sites and believe Wellington needs a rich distributed arterial network of these sites. Knowledge and collaboration come in many forms - carved, sung, drawn, written, crafted, spoken and the Central City library can be the heart of the arterial network that can gradually grow over the next while.

We predict for the next few years Wellingtonians will be working more flexibly - including in the suburbs and it's best for them to have local options. As well as reducing time, money and energy on transport, this also helps those who are less mobile or have less free time (elderly, families with little ones in tow, students).

### **2. More than buildings - libraries as civic spaces**

We encourage the Council to approach the rebuild of the Central Library less from a standpoint of "what do the engineers say our options are with the current central library?" and step back to a wider view of "what civic spaces and activities do people need and how will they use them?"

Observing what sort of people use libraries and how they use them shows that they serve as welcoming all-weather places to congregate that are non-commercial, unlike shopping malls or food courts which are premised around spending money.

Wellington needs to invest in robust civic infrastructure that is resilient. It also needs to be reoccupied following a significant seismic event. A relaunched Central Library would be a great opportunity for increasing civic engagement combined with community-wealth generating spaces such as musical and theatre rehearsals, with community radio and civic good organisations. Publicly accessible council meetings and submissions should ideally be held visible in or around Te Ngākau Civic Precinct. The Central Library would be ideal for this and we feel that it would make them more inclusive and accessible than having public meetings being held at council offices. GWRC's publicly accessible meetings could be held at the

relaunched Central Library too, making it the civic heart of not only the city but the region as well.

### **3. Carbon and seismic impacts of buildings**

Front and foremost of any decisions around what to do with the physical infrastructure of the existing Central Library needs to be the carbon / climate impact of decisions beyond just how people transport themselves to and from libraries and other civic spaces.

The biggest carbon / climate impact of the library is the embodied energy of the existing building. WCC can't make a declaration of climate and ecological emergency and then demolish a (much loved and architecturally significant) building that can be readily saved, when there is such a huge carbon cost in doing so. The embodied energy in the existing building is enormous and can't possibly be sent to the Southern landfills (using a lot of diesel to demolish it and transport it there) if there are ways to retain it in-situ.

The next biggest carbon / climate impact of the library is its energy-in-use and a modern upgrade of services to make the building more energy efficient is also in line with the council's declaration of a climate and ecological emergency.

Finally the Central Library, whether the existing building upgraded or a new building, should seriously consider base isolation to enable it to continue to be usable following a significant seismic event.

### **4. Timing**

Civic spaces are not things that can wait for men in hard hats. Let's take a temporary building in the CBD (there are plenty) and start practising this now as we build the glossier vision around Te Ngākau Civic Square.

The Pop up libraries involving spaces for public submission have been tremendous - and we imagine these civic functions extended with spaces that are clearly multi-use.

Making the spaces much more transparent - ie literally with glass walls - so they can be seen by those going to the library as changing- for regular council submissions, community meetings (bookable rooms), choir and theatre rehearsals, plus Access Radio etc would generate an exciting feeling of activity.

Thanks for reading our submission!
