

Strongly agree Agree Neither agree nor disagree Disagree Strongly disagree No opinion

- 5. It is important to build a strategic link road between SH1/Grenada and SH2/Hutt Valley. Strongly agree Agree Neither agree nor disagree Disagree Strongly disagree No opinion
- 6. Creating a strong, high-quality business park for local jobs and regional economic development is important and appropriate for the site. Strongly agree Agree Neither agree nor disagree Disagree Strongly disagree No opinion
- 7. Additional housing, including a wider range of housing choice, is important and appropriate for the site. Strongly agree Agree Neither agree nor disagree Disagree Strongly disagree No opinion
- 8. The land uses proposed for each area are generally about right
 - Areas of protection Strongly agree Agree Neither agree nor disagree Disagree Strongly disagree No opinion
 - Employment areas Strongly agree Agree Neither agree nor disagree Disagree Strongly disagree No opinion
 - Neighbourhood centre Strongly agree Agree Neither agree nor disagree Disagree Strongly disagree No opinion
 - Residential areas Strongly agree Agree Neither agree nor disagree Disagree Strongly disagree No opinion
 - Rural residential areas. Strongly agree Agree Neither agree nor disagree Disagree Strongly disagree No opinion

9. How could the structure plan be altered? (For example, to make new road links, change land uses - including the extent of these to protect or develop more land.)

We strongly believe that the infrastructures should be approved prior to development. Roading and transport should be in place to support access to the Hutt, Tauira, Grenada Valley and Christon Park.

Other concerns are :- Storm water and water run off from the cleared land will potential flooding for the Porirua Stream.

Similarly the additional Sewerage reticulation could add 'stress' to the system (? To Porirua)
