
WELLINGTON CITY COUNCIL GENERAL GRANTS

1. Purpose of Report

To provide recommendations for the distribution of the Council's General Grants pools.

2. Recommendations

It is recommended that the Grants Subcommittee:

- 1. Receive the information.*
- 2. Consider Officers' recommendations (appendix two) for the General Grants and decide whether or not it is appropriate to fund the applicants and at what level.*

3. Background

The Council provides grants to assist community groups to undertake projects that meet community needs. Grants are also a mechanism for achieving the Council's objectives and strategic priorities, especially those priorities that rely on community organisations carrying out specific activities. The general grants scheme provides funding for projects from community organisations that meet general and specific criteria (Appendix one).

4. Discussion

This is the third and final grant round for the 2008-2009 financial year. The total pool available for allocation through the general grant rounds is \$948,474 which is allocated within four pools. The annual amount in each pool is: \$327,000 for Cultural, \$165,000 for Economic, \$80,000 for Environmental and \$376,474 for Social. The amount available for allocation in this final round is indicated by the table below (Table One).

Table One

Pool	Total available for allocation for 2008-09	Available for allocation March round
Cultural	\$327,000	\$90,624
Economic	\$165,000	\$98,200
Environmental	\$80,000	\$15,795
Social	\$376,474	\$79,905

Both the number of applications received and amount requested in each round has been increasing over the last two years. This round indicates an increased pressure on the social pool, with 51 applications received requesting \$600,000 for project funding. This is a marked increase from March 2007 when there were 21 applicants requesting \$154,789 and in March 2008, 32 applications requested \$369,651 in project funding from the social pool.

The current recommended allocations within the four pools (defined by focus areas) are expressed as a percentage of the total application (Table Two).

Table Two

Pool	Focus Area	Recommended Target	Allocations recommended March 2009
Cultural	Maori art	12%	12%
	Grassroots organisations (particularly those with a focus on youth)	30%	1%
	For specific projects, exhibitions or other groups	13%	51%
	Significant community festivals and events	45%	36%
Economic	Initiatives that may benefit Wellington economically including feasibility studies and/or preliminary research around a concept. Contribute to sense of place	100%	100%
Environmental	participation	20%	16%
	Improved stream protection	10%	0%
	Waste Minimization	40%	84%
	Biodiversity	5%	0%

Social	Capacity and capability building by community organisations	60%	61%
	Programmes that support youth	13%	5%
	Promoting participation in sports and recreation	13%	16%
	Safety programmes	13%	18%

Table Two shows some discrepancies between recommended target and current allocations. For example in the Environmental Pool there are no applications relating to the stream protection focus area. The percentages are intended as a guide and do allow for flexibility to respond to emerging issues however the discrepancies reflect the profile of applications and are driven by demand. Accordingly it is planned to review the focus areas.

4.1 Application Assessment

Officer's recommendations (Appendix two) are based on evidence of need, alignment with the Council's strategic goals, the grants criteria (Appendix one) and effectiveness of funding these projects. Officers also take into account, management of previous funding (through reports) and information from City Communities, City Arts, Strategy and other business units.

The assessment process can include consultation with all or some of the following; the applicant, persons or organisations referred to in the application, Council Officers, and persons operating or knowledgeable about similar services to that of the applicant. Applicants are given ten working days where possible to respond to a request for more information, so some recommendations may be subject to change depending on responses received after this report has been written.

The original information provided by applicants has been forwarded to Subcommittee members in a separate book. In general, applicants have been grouped into the pool they have chosen on their application form. Some applications show a strategic fit to more than one pool. Flexibility will be required in deciding which pool to fund from as a number of applications clearly fit the strategic aims of more than one pool.

The recommendation sheet (Appendix two) gives each applicant's organisation name, which funding pool they have applied to, a brief project description, the total project cost, amount requested and general comments from the Grants Team.

Tags to ensure funds are used appropriately may be suggested in certain circumstances should funding be approved. This is usually in cases where applicants need to use funds for a specific aspect of their budget or they are awaiting confirmation of sufficient funds from other sources to proceed.

The level of funding recommended takes into account:

- the amount needed for the activity to proceed
- an amount in line with past precedents
- an amount in line with suggested funding alternatives
- an amount that reflects the level of fit with general and strategic criteria

If members of the Subcommittee require more information on applications prior to the grants meeting, they can contact the Grants Team, who will do their best to get this ready in time for the meeting.

The Grants Team collects statistical information to provide an overview of spending after the allocations have been made, to help give an indication of the type of projects most funded and the age groups that receive most benefit.

5. Conclusion

The Subcommittee is asked to consider the applications received for the General Grants Pool and decide whether or not it is appropriate to fund the applicants and at what level.
