The specific provisions of proposed District Plan Change 83 that my submission relates to are as follows (give details below)

I support the proposal to rezone the land to the south of Kiwi Point Quarry for quarrying and cleanfilling

My submission is that ... (You should include whether you support or oppose the specific provisions or wish to have them amended. You should also state the reasons for your views)

I support.

Wellington, the region needs access to quarries as shown in prior Plan Change 25 which I supported given without quarries Wellington city, its rate payers and the greater region will pay more for their infrastructural costs.

I seek the following decision from Council (please give precise details)

To approve the Plan Change in full as detailed.

Note: As part of Plan Change 25, WCC was the first Council in NZ to recognise aggregates are strategic to the city, regions growth and this needs to be further supported with planning to look beyond this to where will the aggregates of the future come from as you cant just pick a hill to source such a critical need from.
