

Form 33
Notice of person's wish to be party to proceedings

Section 274, Resource Management Act 1991

To the Registrar
Environment Court
Wellington

- I, Guardians of the Bays Inc, wish to be a party to the following proceedings of the:
- Appeal by Kāinga Ora- Homes and Communities on the Wellington District Plan Decisions for Hearing Streams 1 – 5

We are an organisation who made a submission about the subject matter of the appeal proceedings in relationship to Part 2-District Wide Matters – General District Wide Matters - Noise.

We are not a trade competitor for the purposes of [section 308C](#) or [308CA](#) of the Resource Management Act 1991.

We are directly affected by an effect of the subject of the appeal that—

- (a) adversely affects the environment; and
- (b) does not relate to trade competition or the effects of trade competition.

We are interested in part of the proceedings in relationship to only Part 2-District Wide Matters – General District Wide Matters - Noise.

We are interested in the following particular issues:

- Airport Noise including air noise overlays, subdivision and development within the air noise overlay, reverse sensitivity effects on Wellington International Airport, high and moderate noise areas, noise acoustic treatments within airport noise overlays of high/moderate noise areas, management of noise sensitive areas around Wellington Airport and the quieter homes programme.
- Any other matters which Kiang a Ora have listed as part of their appeal.

We seek any amendments that clarify:

- Noise provisions of the Wellington District Plan relating to Wellington Airport

The relief sought is to ensure that:

- Ensure that mitigation in residential areas from noise exposure from Airport operations are appropriate.
- The measures being undertaken in the District Plan are not onerous on the continued development including intensification of the local communities residential areas within the air noise overlays.
- The Wellington Airport insulation requirements of the District Plan in respect to acoustic insulation and ventilation are easily understood by the residential community and not onerous to the landowners.. This is especially in relationship to existing buildings undergoing alterations.

- Existing buildings in air noise overlays (both inner and outer air noise overlay) are considered in the Quieter Homes Programme of Wellington Airport.

Guardians of the Bays Inc members live throughout the Wellington eastern suburbs and are directly affected by the provisions within the District Plan.

Note: We are wishing to be party to the proceedings of the Appeal by Wellington International Airport Ltd on the Wellington District Plan Decisions for Hearing Streams 1 – 5. This appeal also includes issues of Airport Noise in Part 2-District Wide Matters – General District Wide Matters - Noise.

We agree to participate in mediation or other alternative dispute resolution of the proceedings.
