Subject: Erratum to Hearing Stream 3 Viewshaft Right of Reply and Hearing Stream 5 Noise s42A Report Appendix B

1. I have been made aware from the authors of the Viewshafts Right of Reply (Hearing Stream 3) and Noise s42A Report (Hearing Stream 5) that there are errors in these reports as published that require correcting. These errors are summarised as:
 - a. Errors in two figures relating to 'VIEW-P2' and 'Viewshaft' definition in the Viewshafts Right of Reply;
 - b. Errors in Appendix A attached to the Viewshafts Right of Reply; and
 - c. Omissions in Appendix B attached to the Noise s42A report.
2. It is important that these errors are corrected for the benefit of parties involved in the hearings process. Correct versions of the above documents have therefore been published on Council's website today and will be sent to you by the Hearings Administrator.
3. This memo serves as a notice of erratum for the above.

Yours Sincerely

Stewart McKenzie
