

Sub-part / Chapter / Provision	Submitter Name	Sub No / Point No	Position	Summary of Submission	Decisions requested
Appendices Subpart / Appendices / APP6 Permitted Noise Standards for Temporary Activities	Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.40	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 6 Permitted Noise Standards for Temporary Activities as notified.
Appendices Subpart / Appendices / APP6 Permitted Noise Standards for Temporary Activities	New Zealand Defence Force	423.45	Oppose in part	<p>Considers that NZDF has developed bespoke noise standards with respect to TMTA (refer to Attachment 3) that NZDF is seeking to be included in every district plan throughout the country, and requests these standards be included in the District Plan.</p> <p>The standards have been specifically developed by NZDF to manage the particular noise characteristics of TMTA (as outlined in Attachment 4).</p> <p>The standards provide appropriate controls to manage noise effects from TMTA (which include minimum separation distances and peak sound levels for both daytime and nighttime periods), as well as having a standard practice of informing affected landowners and occupiers of properties. Based on these control methods, adverse noise effects in any zone can be appropriately mitigated.</p>	Opposes the noise standards in Table 26 – APP6: Noise standards for temporary military training activities as notified.
Appendices Subpart / Appendices / APP6 Permitted Noise Standards for Temporary Activities	New Zealand Defence Force	423.46	Amend	<p>Considers that NZDF has developed bespoke noise standards with respect to TMTA that NZDF is seeking to be included in every district plan throughout the country, and requests these standards be included in the District Plan.</p> <p>The standards have been specifically developed by NZDF to manage the particular noise characteristics of TMTA (as outlined in Attachment 4).</p> <p>The standards provide appropriate controls to manage noise effects from TMTA (which include minimum separation distances and peak sound levels for both daytime and nighttime periods), as well as having a standard practice of informing affected landowners and occupiers of properties. Based on these control methods, adverse noise effects in any zone can be appropriately mitigated.</p>	Seeks that Table 26 – APP6: Noise standards for temporary military training activities is amended to be replaced with the standard in Attachment 3 of the original submission.
