General District wide Matters / Temporary Activities / New TEMP	Fire and Emergency New Zealand	273.165	Amend	<p>Considers that to ensure an efficient and effective emergency response, firefighter training is an essential activity undertaken by FENZ. Firefighter training may include live fire training and equipment training both on and off site. The FENZ's Statement of Performance Expectations (SPE) 2021/22 confirms a commitment to the Government that all firefighters achieve a certain level of training. In order to ensure an efficient and effective emergency response, firefighter training is an essential activity undertaken by FENZ. Firefighter training may include live fire training and equipment training both on and off site. It is noted that 'emergency service activities' are provided for in the various zones of the district, however, does not explicitly provide for temporary emergency services training activities. FENZ therefore seeks that the DP clearly provides FENZ the ability to undertake firefighting training activities throughout the city. This will assure that any adverse effects of temporary activities are managed in accordance with community expectations.</p>	<p>Add new TEMP policy:</p> <p><u>TEMP-PX :</u> <b><u>Temporary Emergency Services Training Activities</u></b> <u>Enable temporary emergency services training activities in all zones provided any adverse effects are managed in accordance with community expectations.</u></p>

General District wide Matters / Temporary Activities / TEMP-R3	New Zealand Defence Force	423.24	Amend	Rule TEMP-R3.1 provides for TMTA (Temporary Military Training Activities) as a permitted activity in the following zones: - Open Space Zones; - Rural Zones; - Port Zone; and - General Industrial Zone.  TMTA in all other zones is a restricted discretionary activity in accordance with Rule TEMP-R3.3.  NZDF opposes Rule TEMP-R3.1 on that basis that it is appropriate to provide for TMTA as a permitted activity in all zones subject to compliance with the relevant permitted activity standards. As outlined in the introduction to this submission, NZDF must undertake training in a range of activities and locations in order to fulfil its statutory obligations under the Defence Act 1990. TMTA can involve a broad range of activities including classroom activities, search and rescue, driver training, dog training, small construction tasks, and many others that have effects similar to other day-to-day activities. Due to the nature of TMTA and the need for NZDF to train in unfamiliar realworld situations, TMTA may be undertaken in any zone within a city / district. TMTA are entirely appropriate within all zones where the noise standards are met, and the permitted activity standards are complied with.  Including a permitted activity rule that provides for TMTA in all zones in Wellington City would also ensure a consistent approach to TMTA is adopted nationwide. Many district plans around the country are being or have been reviewed and NZDF is engaging in those review processes to ensure that where training activities might be subject to controls through a district plan, those controls are consistent and that compliance is simply achieved and assessed.	Seeks amendment to TEMP-R3.1 (Temporary military training activities ) to explicitly provide for temporary military training activities as a permitted activity in all zones subject to compliance with permitted activity standards.
General District wide Matters / Temporary Activities / TEMP-R3	New Zealand Defence Force	423.25	Amend	NZDF notes that the reference to "Port Zone" should be updated to refer to "Special Purpose Port Zone". General District wide Matters / Temporary Activities / TEMP-R3	New Zealand Defence Force	423.27	Amend	Considers that From time to time, and at the landowner’s request, buildings or structures constructed as part of a TMTA may be permanent and not removed at the conclusion of the training exercise, provided it is a permitted activity, or a resource consent obtained. Buildings or structures constructed as part of TMTA should not be required to be removed when they are intended to be permanent and meet relevant permitted activity rules in the Plan (or otherwise a resource consent is obtained).	Amend TEMP-R3.1.b (Temporary military training activities) as follows: ... b. No permanent structures are constructed <u>unless provided for elsewhere in this plan as a permitted activity (or resource consent is obtained for the structure)</u> ; and

General District wide Matters / Temporary Activities / TEMP-R3	New Zealand Defence Force	423.29	Amend	Opposes Rule TEMP-R3.2 on the basis that any TMTA that cannot comply with the requirements of TEMP-R3.1 should be a controlled activity for the reasons outlined above with respect to Rule TEMP-R3.1 (submission point 21).	Seeks that TEMP-R3.2 (Temporary military training activities) is amended to provide for temporary military training activities that does not comply with the requirements of TEMP-R3.1 to be a controlled activity (noting that temporary military training activities should be provided for as a permitted activity across all zones).
General District wide Matters / Temporary Activities / TEMP-R3	New Zealand Defence Force	423.30	Support	NZDF supports any resource consent applications made in respect of Rule TEMP-R3.2 being precluded from public notification as per the activity status note.	Retain TEMP-R3.2 (Temporary military training activities) as notified with respect to the notification clause that precludes public notification.
General District wide Matters / Temporary Activities / TEMP-R3	New Zealand Defence Force	423.31	Oppose	Opposes TEMP-R3.3 on the basis of the proposed changes to Rules TEMP-R3.1. and R3.2.  Opposes TEMP-R3.3 on the basis that it is appropriate to provide for TMTA as a permitted activity in all District Plan zones subject to compliance with the permitted activity requirements. In addition, the submitter considers that where TMTA do not achieve compliance with the requirements of TEMP-R3.1, they should be a controlled activity. As outlined in the introduction to their submission, NZDF must undertake training in a range of activities and locations, as outlined in the introduction to this submission, in order to fulfil its statutory obligations under the Defence Act 1990. Training activities are carried out “off-base” for a variety of reasons including diversity and realism. Skills that are learned and practiced “on-base” must be tested or extended in unfamiliar contexts “off base”. Due to the broad nature of TMTA and the need for NZDF to train in unfamiliar real-world situations, they may be undertaken in any zone within a district. Therefore, it is important to NZDF that TMTA are provided for in all zones in a district plan. In many respects, TMTA are identical to, and not discernible from, day-to-day and training activities carried out by other emergency services and civilian organisations, such as the Police Force, search and rescue organisations and Fire and Emergency NZ, which are provided for as a permitted activity in the majority of District Plan zones, subject to compliance with the relevant standards.	Delete Rule TEMP-R3.3 (Temporary military training activities) in its entirety.

General District wide Matters / Temporary Activities / TEMP-R3	New Zealand Defence Force	423.32	Oppose	<p>Opposes the notification direction set out in Rule TEMP-R3.3, which requires that an application for resource consent made in respect of Rule TEMP-R3.3 must be publicly notified, for the reasons outlined above in submission.</p> <p>Temporary Military Training Activities (TMTA) are identical to, and not discernible from, day-to-day and training activities carried out by other emergency services and civilian organisations, such as the Police Force, search and rescue organisations and Fire and Emergency NZ, which are provided for as a permitted activity in the majority of District Plan zones, subject to compliance with the relevant standards. Applications for TMTA made with respect to Rule TEMP-R3.3 should not be subject to a blanket requirement for public notification.</p> <p>A notification determination should be made based on an assessment of individual TMTA proposals, noting TMTA can vary in nature, scale and duration. Assessment should involve consideration of the proposal with respect to the subject site, surrounding environment, proposed effects, along with measures to avoid, remedy or mitigate adverse effects, in order to reach a conclusion on the overall level of effects in terms of Section 95 of the Resource Management Act 1991. A presumption of blanket public notification for all resource consent applications for TMTA made in respect or Rule TEMP-R3.3 is not appropriate, nor does it reflect an 'effects-based' approach as anticipated by the RMA.</p>	Seeks that the requirement for public notification of a resource consent application made in respect of TEMP-R3.3 (Temporary military training activities) is deleted in its entirety.

General District wide Matters / Temporary Activities / TEMP-S1	Paihikara Ki Pōneke Cycle Wellington	302.32	Amend	Considers that cycleways are generally not considered when setting conditions to manage temporary activities leading to poor safety outcomes. Only requiring the efficiency of the transport network to be considered as a part of assessment criteria does not address the increased risk to cyclist safety.	<p>Amend the Assessment Criteria in TEMP-S1 (Maximum duration of a temporary activity excluding short-term filming activities and temporary military training activities) as follows:</p> <ol style="list-style-type: none"> <li>1. General District wide Matters / Temporary Activities / TEMP-S1	New Zealand Defence Force	423.35	Support	NZDF supports that the title of activity standard TEMP-S1, which clarifies that this standard does not apply to TMTA.	Retain title of TEMP-S1 (Maximum duration of a temporary activity excluding short-term filming activities and temporary military training activities) as notified.
General District wide Matters / Temporary Activities / TEMP-S3	Paul Yates	26.2	Oppose	Considers that TEMP-S3 places restrictions on the hours of operation that short-term filming activities can take place. To finish at 10pm/11pm would be too restrictive for a lot of film and TV productions that often need to film night scenes and maximise night time by starting later and shooting entire 'days' through the night.	Seeks that the noise restrictions at TEMP-S3 (House of operation) are not applied to short film activities.
General District wide Matters / Temporary Activities / TEMP-S3	Massey University	253.19	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEMP-S3 (Hours of operation) as notified.

General District wide Matters / Temporary Activities / TEMP-S4	New Zealand Defence Force	423.36	Support	NZDF supports that the title of activity standard TEMP-S4, which clarifies that this standard does not apply to TMTA.	Retain title of TEMP-S4 (Maximum noise levels – activity specific, excluding temporary military training activities) as notified.
General District wide Matters / Temporary Activities / TEMP-S6	New Zealand Defence Force	423.37	Amend	Considers that TEMP-S6 should apply to all zones within the Proposed District Plan as opposed to the four listed zones (as per NZDF’s submission on rule TEMP R3.1).	Seeks that TEMP-S6 (Temporary military training activities) applies to all District Plan zones, not just the four expressly listed zones.
General District wide Matters / Temporary Activities / TEMP-S6	New Zealand Defence Force	423.38	Amend	<p>Temporary Military Training Activities are by their very nature temporary, ranging from a period of days through to several weeks on an intermittent or continuous basis depending on the nature of the activity. NZDF does not consider it necessary or appropriate to impose a time limit on TMTA as per TEMP-S6.1.</p> <p>However, NZDF would support an amendment to this standard to allow TMTA to be undertaken so as not exceed a period of 31 consecutive days (excluding set up and pack down activities).
