Special Purpose Zones / Corrections Zone / General CORZ	Ara Poutama Aotearoa the Department of Corrections	240.66	Oppose	Considers that the definition of “residential activity” entirely captures supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama, and therefore a separate definition of “supported residential care activities” is unnecessary.	Remove the references to “supported residential care activity” from the Large Lot Residential zone.
Special Purpose Zones / Corrections Zone / General CORZ	Ara Poutama Aotearoa the Department of Corrections	240.67	Support in part	Considers that the Corrections Zone, in conjunction with the Arohata Prison designation, provides an appropriate planning framework to enable the continued operation and development of Arohata Prison (including both custodial and non-custodial activities). Ara Poutama’s position is that the definition of “residential activity” entirely captures supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama, and therefore a separate definition of “supported residential care activities” is unnecessary. However, if Council are to retain the definition of “supported residential care activity” then there is a minor drafting error within Policy CORZ-P2 and Rule CORZ-R4, whereby “supported residential care accommodation” is referenced; this needs to be amended to reflect the terminology otherwise proposed in the PDP definition (i.e. “supported residential care activities”).	Retain the Corrections Zone, with amendment.
Special Purpose Zones / Corrections Zone / CORZ-P2	Ara Poutama Aotearoa the Department of Corrections	240.68	Support	Considers that community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification. The permitted activity status (enabled by the associated policies) is appropriate in the context of the current and potential future establishment and operation of a community corrections facility or facilities within these areas in Wellington City.	Retain CORZ-P2.3 (Compatible activities) as notified.
Special Purpose Zones / Corrections Zone / CORZ-P2	Ara Poutama Aotearoa the Department of Corrections	240.69	Oppose in part	Considers that should Council see it as being absolutely necessary to implement the separate definition of “supported residential care activity”, then Ara Poutama requests that the enabled activities policies and permitted land use activity rules applying to supported residential care activities in the Medium Density Residential, High Density Residential, Large Lot Residential and Corrections zones are retained as notified. The permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities. Such activities are an important component of the rehabilitation and reintegration process for people under Ara Poutama’s supervision. They enable people and communities to provide for their social and cultural well-being and for their health and safety.	Retain CORZ-P2.4 (Compatible activities) as notified if “supported residential care activity” definition and references to term are retained.
