

Eva and Leeds streets – a celebration of Wellington

UPDATE 5
29th October 2015

We have largely completed the resurfacing and are now moving into the second stage of construction. We have appointed Hawkins Construction to undertake this stage of works. You will start seeing them out and about on site in the next week.

➔ The works

We are completing the final resurfacing on Friday 30th of October depending on the weather. This is the area between 3 Eva Street and Six Barrel Soda.

Starting next week we will have painters on site commencing the white and yellow chevron patterns on the building, the black and white pattern by the corner planter and the base for the soda bottle graphics.

While this work is happening we will be busy getting final measurements for the screens, planters and other elements so they can be made ready for installation towards the end of November.

➔ Access

We don't expect there to be any access issue for the next week.
