

14 January 2020

Dear Resident

City Housing site - 30 Harrison Street

I am writing to you as your property bounds our Harrison Street site and I would like to discuss the next stage in the development of this site with you.

The next stage of the project

With the demolition of the earthquake prone flats completed the next stage in this project is to improve the existing retaining walls of the site boundary. As an immediate neighbour to this site these works may impact you directly. So I would like to discuss this work with you in order to include your input at the planning stage.

Please contact me

We intend to commence this next stage of work within the next few months so I would appreciate your response to arrange a suitable time to meet or discuss at your earliest convenience.

My contact is 027 803 0789 or email ben.keegan@wcc.govt.nz

Yours sincerely

Ben Keegan
Project Manager, Build Wellington
Wellington City Council
