➔ The works

In February we'll start upgrading the two pedestrian crossings on Main Rd between Surrey St and Cambridge St.

The crossings will be widened and raised to improve safety and make it easier for pedestrians to get around.

We expect the work will take around three weeks to complete.

➔ Safety and access

Traffic will be managed by allowing north bound vehicles to use Main Rd and for south bound traffic to be diverted at Surrey St and along Oxford St. There will be signs letting pedestrians and drivers know about the diversions and there will be a large electronic sign set up one week before the works start to let people know what is happening.

This will mean work can be done on both crossings at the same time to reduce the amount of construction time.
