➔ The works

We have engaged a contractor to undertake the plaza improvements. These will include new lights, planting, street furniture and a vibrant paving design.

We have organised a specialist landscape team to carefully lift the plants in the temporary garden bed and take them to a nursery where they will be looked after. These plants will be replanted in the new garden beds that will be created. All existing trees in the plaza will remain.

The duration of works will be approximately 4 months. Depending on the weather, our Contractors should finish the upgrade by the end of January 2019.

Our Contractors will stop works for the Spring into Tawa Festival and again for Christmas and New Years.

We will work closely with businesses during this time and we thank you for your continued support and patience during the construction periods for the Tawa Town Centre Upgrade Project.
