Town Centre Improvements: Our contractor has finished all the underground work for all 3 zones.

Zone A is will be completed by the end of November with new lamp posts, gardens and colourful new furniture installed.

Our contractor will focus on Zone B until 19 December when the site will close down for Christmas. Right now they are building the foundations for the lighting poles and street furniture. The garden beds are also being prepared for the new paving and asphalt. We intend to hold a community planting day once the garden beds are prepared.

The finishing touches - planting and decorative surfaces - will be installed in December or early in the New Year. The project is expected to be completed by early February 2019.

We will update you again before the end of this year.
