

PROPOSED TRAFFIC RESOLUTION

Absolutely Positively
Wellington City Council

Me Heke Ki Pōneke

Reference: TR 25 – 15

Location: Abbott Street - Ngaio

Proposal: No stopping, at all times

Information: The resident at #30 has had a new garage built on their property, this has reduced the space available between the new driveway and next door vehicle access. The space currently is too short to fit a standard car without obstructing one of the vehicle accesses, besides, the next door driveway #28 is located on an angle which means vehicles need more clearance to access this type of driveway.

Abbott Street is short and narrow. Ngaio school is located on this road and this has increased the pressure for on-street parking. Parents generally park on every available free on the road to drop off/pick up their children every day during school's terms. This causes constant problems for these two properties.

Due to the above reasons, officers propose to install no stopping restriction between the two driveways to eliminate the issue.
