

REGULATORY PROCESSES COMMITTEE – EXTRAORDINARY MEETING 4 JUNE 2013

REPORT 1
(1215/53/IM)

PROPOSED ROAD CLOSURES - JUNE 2013

1. Purpose of report

To seek approval of the Regulatory Processes Committee for the temporary closure of roads in the Wellington District.

2. Executive summary

The Wellington City Council has received an application from an event organiser for approval to hold an event involving a temporary road closure. Details of the event and the expected impact on traffic are attached to this report as appendix 1 - VERZION TV Commercial.

3. Recommendations

Officers recommend that the Regulatory Processes Committee:

1. *Receive the information.*
2. *Agree to close the following roads for the events as shown, to vehicles only, subject to the conditions listed in the Proposed Temporary Road Closure Impact Report:*
 - (a) *For the Filming of a TV Commercial Saturday 8 June or Sunday 9 June 2013. Road Closures:*
 - *Abel Smith Street – 3pm to Midnight*
 - *Buller Street and Watson Street – 3pm to Midnight*
 - *Lambton Quay – Midnight to 5am*
 - *Maginnity Street and Ballance Street – 5.30pm to 5am*
 - *Featherston Street – 9.30pm to 5am*
 - *Willis Street – 8pm to 5am*

Stop Go Traffic Management Locations

- *Look out road, Mt Victoria*
- *Hobson Street*
- *Pirie Street*
- *Tutchen Avenue*
- *Ghuznee Street*
- *Aurora Terrace and Bolton Street*
- *Stout Street*
- *Wakefield Street*
- *Victoria Street*

Weather cover dates are Monday 10 June or Tuesday 11 June or Saturday 15 June or Sunday 16 June. All time adjustments will be outside business hours.

3. *Note: That the recommendations in this report should not be amended without first carrying out further consultation with affected parties and verification from the Council's Traffic Engineer that the amendment is not likely to cause unreasonable impact on traffic.*

4. Background

The Council has received a request for a number of public roads to be closed for an event (as detailed in the impact report attached). This request has been processed, and this report to the Regulatory Processes Committee has been prepared, in accordance with the procedures that were approved by the Committee on 15 December 2010.

5. Discussion

5.1 Consultation and Engagement

Affected stakeholders were notified that the Council was going to consider the proposed temporary road closures through an advertisement in the Dominion Post. The New Zealand Police and the Ministry of Transport have also been consulted with. Any correspondence received in response to the proposed closures has been included in the attached reports. The traffic management plans for each event will show how any objections raised are to be managed.

5.2 Financial considerations

There are no significant financial considerations to be addressed in regards to the proposed closures.

5.3 Traffic Impact Assessment

The Chief Transport Planner, acting as the Council's Traffic Engineer, has assessed the proposed closure with regards to expected impact on traffic. The Traffic Engineer has provided a professional opinion as to whether the resulting impact on traffic is likely to be reasonable or unreasonable. The proposed closure, if implemented according to the proposed traffic management plan and in accordance with any specific conditions set by the Traffic Engineer, should not result in unreasonable impact on traffic. If, in the opinion of the Council, the closure may or does impede traffic unreasonably, any approval granted by the Council may be revoked and the event organiser may be required to open the road at the direction of the Council's Traffic Engineer.

5.4 Long-term plan considerations

The City Events Team has assessed the proposed event with regard to their contribution towards the Council's strategies and policies. The proposed event supports the Council's strategy to be the "events capital" of the country and will contribute to the economic success of the city.

6. Conclusion

Approval is required from the Regulatory Processes Committee to allow for the temporary closure of roads in the Wellington District for events supported by the Wellington City Council. This will ensure that the Wellington City Council is complying with the requirements of the Local Government Act 1974 for the temporary closure of roads within its jurisdiction.

Contact Officer: Maria Taumaa – Street Activities Co-ordinator

SUPPORTING INFORMATION

1) Strategic fit / Strategic outcome

Temporary road closures for events contribute to the council's desire to be the events capital of New Zealand. Specific council strategies that are supported by this include:

- More liveable – through prudent management of the road network.
- More eventful – some events may not be possible without temporary road closures.
- More actively engaged – affected stakeholders will have the opportunity to provide feedback on proposed closures.
- Better connected – through better management of traffic flows. Conversely road closures could sever key transport routes.
- More prosperous – the film industry relies on road closures, and other types of events increase commercial activity.

2) LTP/Annual Plan reference and long term financial impact

Administration of the proposed closures is budgeted for under Annual Plan Project C481 Network Activity Coordination. There will be no long term financial impact to the Council resulting from these closures.

3) Treaty of Waitangi considerations

No significant Treaty implications.

4) Decision-making

This is not considered to be a significant decision.

5) Consultation

a) General consultation

Key event organisers and other stakeholders (such as public transport and emergency services) have been consulted with to determine whether they would be impacted by the proposed closures, and where appropriate any traffic management plans have been modified accordingly.

b) Consultation with Maori

No specific consultation with Maori was carried out.

6) Legal implications

The process used to consider the proposed closures for approval is in accordance with the advice provided by the council's lawyers.

7) Consistency with existing policy

The plans for the proposed closures and this report have been prepared in accordance with the Code of Practice for Temporary Traffic Management and the process approved by the Regulatory Processes Committee.

PROPOSED TEMPORARY ROAD CLOSURE – IMPACT REPORT

- Willis Street – (Vivian Street to Ghuznee Street) – 15 or 16 June 2013

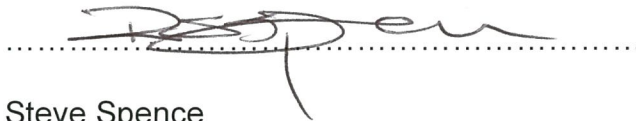

Also planned is a helicopter shoot on 8 June or 9th June 2013, but this does not involve road closures. The final road closures will be dependant on the director of the commercial - but will be within the parameters requested.

any approval granted by the Regulatory Processes Committee may be revoked and the event organiser may be required to open the road at the direction of a suitably qualified Council officer in charge of traffic.

Conditions:

- The event organiser is to publicly notify the road closures via letter drop, local newspaper advertisement and advanced signage.
- The event organiser is to ensure that the road closures are approved by the emergency services (Police, Fire and Ambulance Services) and subject to their conditions of approval.
- The event organiser is to ensure that the affected property owners and businesses along the road closures are consulted with.
- The event organiser is to provide marshals at all road closure ends to ensure that public safety (interaction of traffic and pedestrians) is not compromised.
- Detour routes are to be clearly signed during the road closures period.
- The event organiser is to work with public transport operators and accommodate any of their requirements.
- The event organiser is to provide further details of the Traffic Management Plan to Council for approval prior to the road closures.

Signed

Steve Spence
Chief Transport Planner

Stop / Go Traffic Management Locations

All these sites will be done outside of standard business hours.

- Look out Road, Mt Victoria
- Hobson Street
- Pirie Street
- Tutchen Avenue
- Aurora Terrace /Bolton Street
- Stout Street
- Wakefield Street
- Victoria Street

The proposed road closures will enable filming of a commercial for Verizon based in the United States. The filming will employ approximately 1200 - 1400 extras and crew and will contribute to the Wellington economy by providing jobs for Wellington residents and income for a variety of Wellington businesses.

Pedestrian and emergency access will be maintained although there may be some brief periods when pedestrians may be asked to wait while an activity is filmed. Traffic management plans will be in place and managed by a professional traffic management company with experience of filming events. These plans will address traffic management issues (and these may be different depending on the time of day or contingency date), local access, parking issues, directional signage, detour signage and pedestrian control.

Film Wellington has completed a preliminary notification letter drop to residents and businesses affected by the closures - indicating the proposal and requesting feedback. If permission is received to close the roads, a second letter drop will be undertaken, notification signs will be erected on the streets affected and notification will be advertised on 25 June and 27 June 2013 in the Dominion

2. City Events

This City Events Business Unit have no objection to this event given it supports the Council's 'film friendly' policy.

No other major events supported by the City Events Team will be impacted by the proposed closures.

3. Proposal Notice and Consultation

The public notice that the Council is proposing to consider this closure was published in the following newspaper:

- Dominion Post Saturday 25 May 2013.
- Dominion Post Monday 27 May 2013.

The New Zealand Police and the Ministry of Transport have also been consulted with.

4. Objections

There has been three objection to this closure request.

George Papp

Mob 027 3440 200

I am objecting to the closure of Willis Street on the published dates as it will be isolating the residents of Kingston and Brooklyn who rely on public transport.

Email has been sent to George Papp advising that Film Wellington and the Traffic Management company are working with GoWellington to minimise any public transport concerns.

Go Wellington NZ Bus

Graeme Atkinson On Road Service Delivery

New Zealand Bus has concerns regarding proposed timings for closures and potential impact on the operation of the bus service.

The Traffic Management Company who are working for Film Wellington are in discussions and are working together to resolve any issues concerned.

Nicci Lock Film Wellington manager has confirmed that they will be meeting with NZ Bus and other stakeholders to cover off the objections initially made.

Restaurant Manager/Lambton Quay McDonalds

Josephine Kempson

Concerns around road closures due to deliveries in the early hours of the mornings to the site in Lambton Quay.

The Traffic Management Company will work with the restaurant manager so there is no disruption to the business.

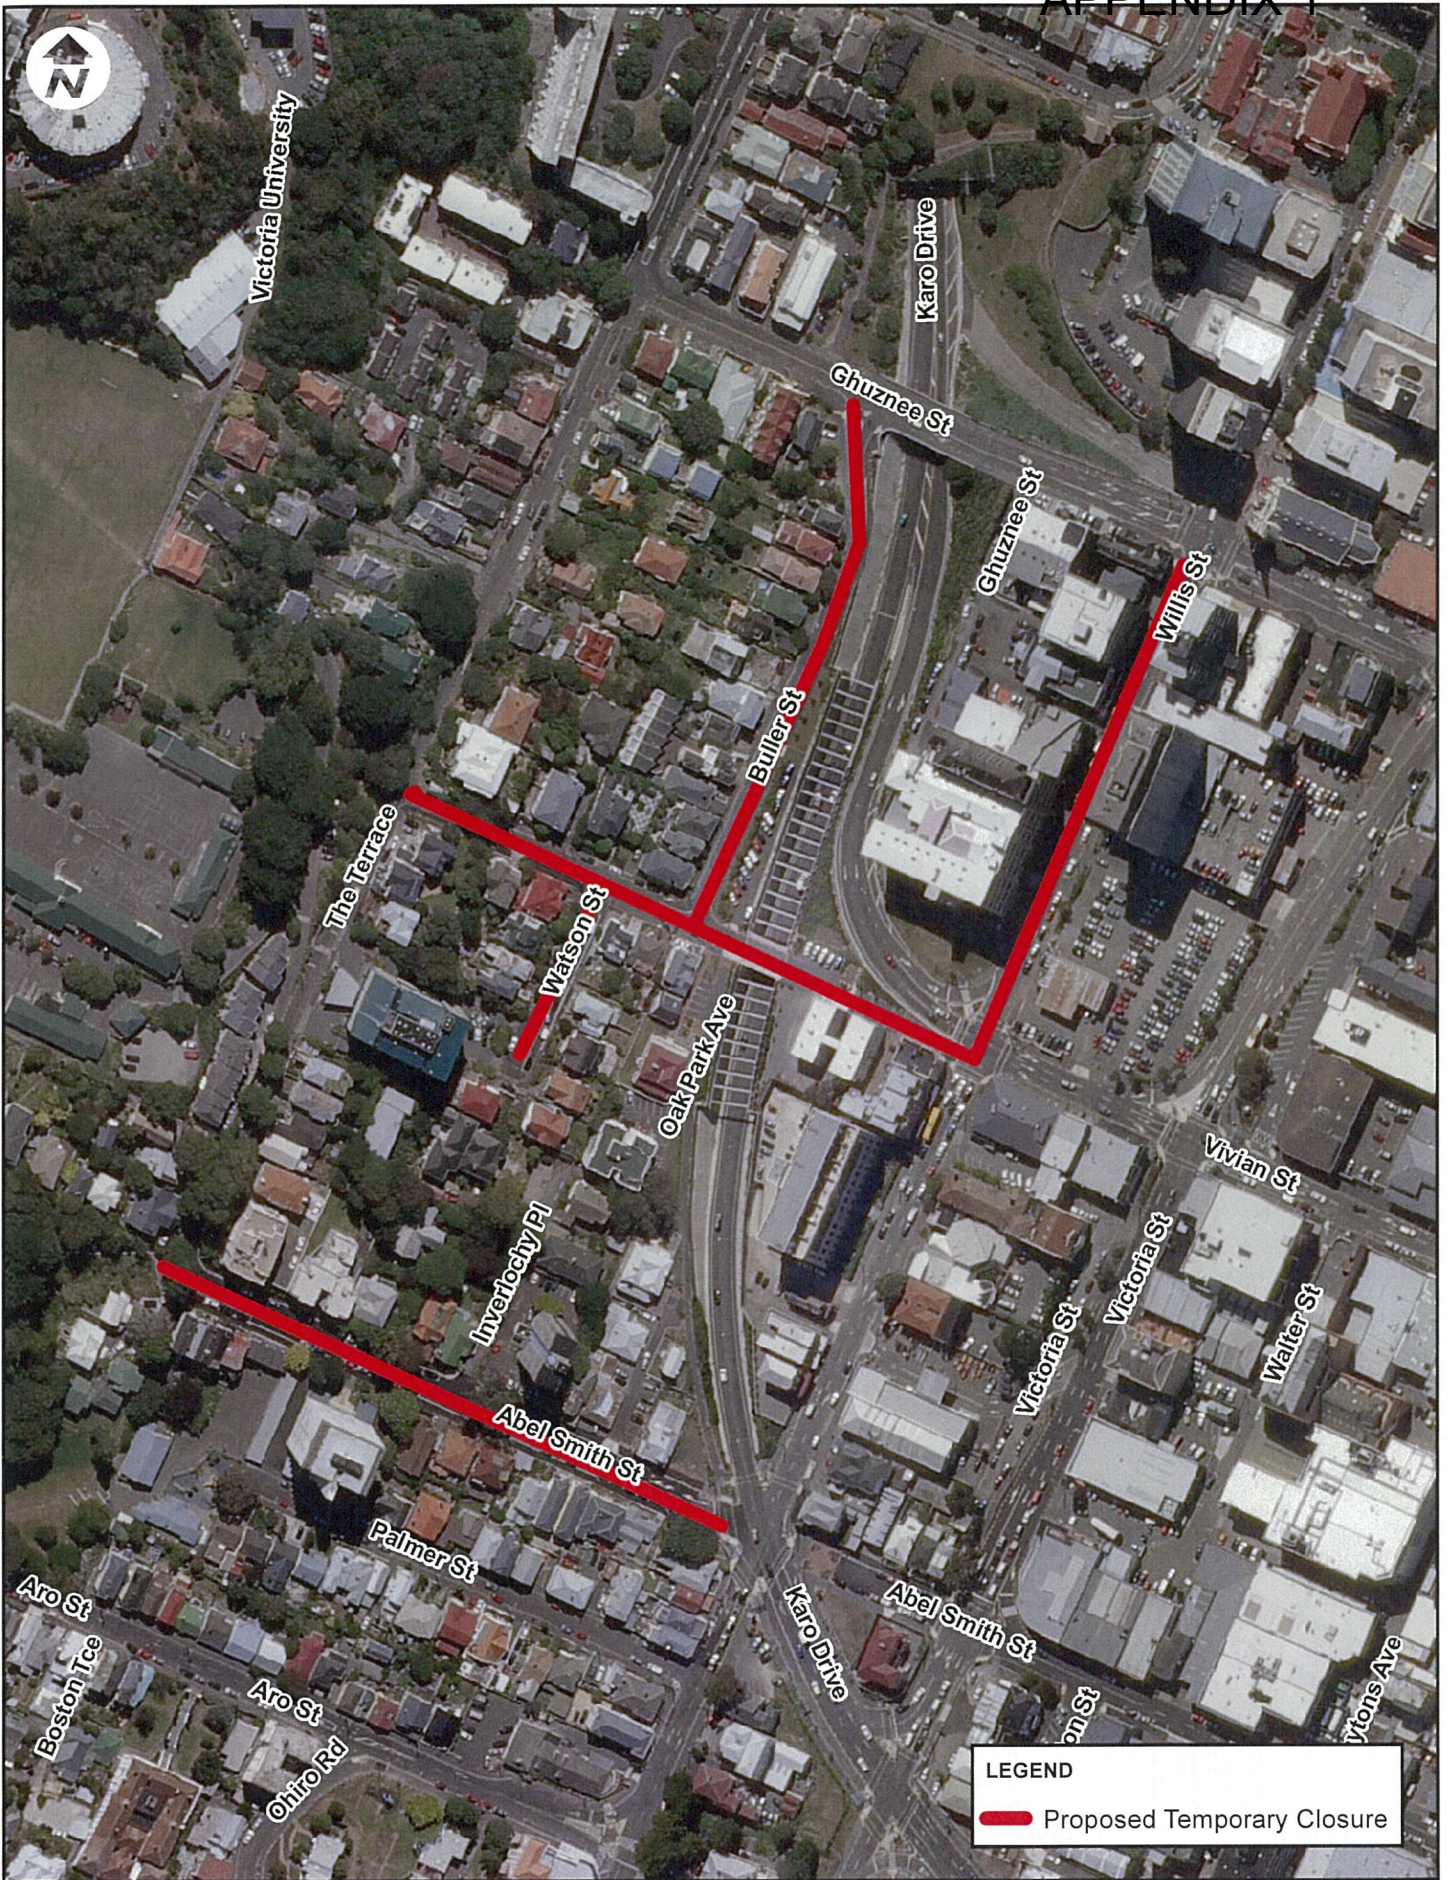

5. Traffic Impact Assessment

Prior Closures

None of the proposed closures for this event will result in a road being closed for an aggregate of more than 31 days in any year.

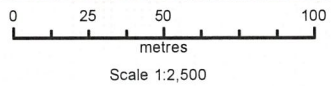

Traffic Impact

In the opinion of Steve Spence, Chief Transport Planner, acting as the Council's Traffic Engineer, the proposed closures, if implemented according to the plans provided, is not likely to impede traffic unreasonably subject to the conditions listed below. However, the Council reserves the right to modify this opinion at any time. If, in the opinion of the Council, the closure may or does impede traffic unreasonably,

Filming & Traffic Management Notice – Aurora Terrace and Bolton Street, Thorndon, on either Saturday 8th, Sunday 9th, Monday 10th, Tuesday 11th, or Wednesday 12th June between 4:00pm and 7:00am.

As you may be aware, the Wellington region has a film friendly policy. Each year, film and television companies filming in the region contribute millions of dollars to the economy and provide hundreds of jobs to residents. This is why the Wellington region encourages filming and is enthusiastic about keeping our region 'film friendly'.

This letter is to let you know that **Exit Films NZ Limited** will be filming scenes for an international television commercial at various locations around Wellington City.

Traffic and parking access due to filming would be affected **between 4:00pm and 7:00am** on one of the following nights:

- Saturday 8th June or
- Sunday 9th June or
- Monday 10th June or
- Tuesday 11th June or
- Wednesday 12th June.

You may notice large vehicles in the area, technical trucks, equipment and extra people and movements associated with the film crew but at all times you will still be able to access your business/residence.

Exit Films NZ Limited is working closely with landowners and stakeholders, including Wellington City Council, to reduce disruption to residents and businesses in your area, however if you have any concerns regarding this filming, please contact **Peter Tonks 021 842 409** or myself on **021 520 061**.

Film Wellington and **Exit Films NZ Limited** thank you for your support and appreciate your co-operation in helping to make Wellington the 'film friendly' capital of New Zealand.

Regards,

Nicci Lock
Manager, Film Wellington

Application for road closures June 2013

Thank you for notification of the application for a series of closures between 8 and 17 June for the purposes of filming a television commercial.

New Zealand Bus has concerns regarding the proposed timings for closures and the potential impact on the operation of bus services and also the security of the overhead trolley bus network. We have identified the proposed timings that will impact on bus services as follows:

- Lambton Quay (June 9, 10, 11, 16, 17) – the last trolley bus is scheduled to depart for Courtenay Place from the Supreme Court at 12:02am on weeknights but can run up to 10 minutes late depending on conditions to and from Karori. We therefore would request that the closure of Lambton Quay not be implemented until this service has run.
- Willis Street (June 8, 9, 10, 11, 15, 16) – services from Kingston operate along this section of Willis Street until 11:45pm on Saturday and weeknights and until 10:45pm on Sunday nights. There is no alternative diversion route for trolley buses.

In addition to our concerns regarding bus access we also note that a number of the proposed locations are on streets which are part of the trolley overhead network and on which it is necessary for any mobile plant or equipment to comply with the minimum safe working distances or, if unable to comply, to arrange for the network to be deenergised prior to undertaking any activity. The following information has been supplied by Wellington Cable Car Limited:

- “The Trolleybus overhead wires are uninsulated with a potential of 550 volts DC and in addition can deliver several hundred amps with the potential to kill and/or cause damage to plant.

Safe Distances for the Operation of Mobile Plant near Conductors

5.2 Minimum Approach Distance

5.2.1 The distance between any live overhead electric line and any mobile plant or load carried shall be **AT LEAST 4.0 METRES** unless the operator has received written consent from the overhead electric line owner allowing a reduced distance.

5.2.2 When an approval has been obtained pursuant to clause 5.2.1, the minimum approach distance between a conductor and any mobile plant or load shall not be less than **1.0 METRE**.

This complies with New Zealand Electricity Regulations 1997 (as amended), ESR 2010 and ECP34. The same minimum safe distances specified in ECP34 2001 for less than 1kv has been adopted for the 550volt DC system used by the Wellington trolley bus overhead traction network”

The streets in the application that have trolley wires above them are Lambton Quay, Ballance Street, Featherston Street and Willis Street. Unless alternative arrangements are made with WCCL all these sections of the overhead network remain energised continuously even on days when trolley buses are currently not operating. If any section is deenergised it is essential that this does not occur until after the last bus has cleared the area and that reenergisation (on weekdays) occurs no later than 5:15am. This is to ensure that the overhead contractor can confirm to GO Wellington that trolley buses can operate prior to the first bus entering service each morning.

New Zealand Bus appreciates the importance of the film industry to Wellington and endeavours to work with all parties to facilitate their activities. However as a service provider we are mindful of our responsibilities to patrons to endeavour to maintain a reliable and consistent service, particularly those who rely on late evening and early morning buses.

Similarly we are concerned to ensure that all parties working in the vicinity of the overhead network are not put at any personal risk nor be likely to cause disruption to the overhead network.

Please don't hesitate to contact the writer should you require further information.

Yours faithfully

Hi Graham

As per your phone chat just now with Pete Tonks, if you can let us know whether you could meet us today to discuss filming requirements and any concerns you have – happy to come to you. Ideally we need to get Maria Taumaa from WCC something in writing by 3pm today from you saying you are happy with the proposed activity and solutions for her committee documents.

Are you able to do this regardless?

Hope to see you between 11 and 2 today if at all possible

Thanks for your help on this one

Subject: Lambton Quay Proposed Road Closures

Good Afternoon Nicci

I received a letter this afternoon regarding the proposal of Lambton Quay from Willis Street to Panama Street for closure between the hours of 12.01am and 5am on Sunday 9th June or Monday 10th of June 2013 due to filming. Although I am all for Wellington being 'film friendly', it does strike a problem for us at

30/05/2013

Lambton Quay McDonald's.

Because of our location as a CBD store, we receive our deliveries every Monday and Thursday morning at 4am. This is crucial to our operations. We must receive 2 deliveries per week due to the shelf life of some chilled products, so for us to cancel a delivery would severely detrimental to the restaurant. We are unable to get the delivery at any other time of the day due to the fact that we use the bus stop for our truck to park, which is generally parked there until approximately 6am. Unfortunately it is not as simple as asking requesting that our delivery come on another day either as the delivery trucks run on a schedule, which I might add is extremely tight, and if we were to request another day, then that would impede somehow on the operations of another restaurant in the Wellington region.

Our delivery truck is also large, so it would not be feasible to request it come from Lambton Quay north and turn around outside the restaurant. If we were to complete the delivery with the truck on the opposite side of the road, then there would need to be several risk assessments completed in order for this to be cleared for Workplace Safety purposes and with the footpaths/gutters would impact the efficiency of the delivery. If we were to bring over the delivery from the other side of the road, I would have to look at putting an extra 1 – 2 extra staff on which would equate to approximately 2 – 4 hours extra labour.

I hope you understand where I am coming from, that these road closures could severely impact our sales, and I am willing to work together with you in finding a way for everyone to be satisfied with the outcome. Feel free to contact me on 027 759 6007 or at Lambton Quay McDonald's in person or on 04 472 1808.

Hi Josephine, i'm sure i can work your delivery truck arrival into our schedule so it doesn't disrupt your business.

I will call by your store tomorrow & work out a plan, it could be as simple as telling our Traffic team just to let your delivery truck thought as it arrives to our work site.

I look forward to meeting you & i'm sure we can come up with a solution that works for everyone.
