
Project title: Review of Arts Centre Opportunities
Strategy area: Cultural Wellbeing

Arts Centre

This is being undertaken as a piece of policy work, within existing resources, during 2006. Officers will report back to Councillors on the findings of the review, which will concentrate on ensuring that the Arts Centre resources, facilities and programmes are in line with the Councillor priorities of engagement with grass roots arts, and engaging more effectively with the community on the benefits and relevance of a diverse city.
