

Wellington 2040 - Smart Capital		4 Pillars	7 Strategic Areas	LTP	Policy Work Programme Key Priorities	Key Pieces of Work
Connected City	Transport	Dynamic City	Economic Development	A Well Managed City A Resilient City	<p><b>Transport</b></p> <p>We will contribute and/or lead <b>key regional transport projects</b> including long haul flights that enhance the city's connection regionally, nationally and internationally and drives economic growth. We will encourage diversity (cycling and walking) in the way our people get to, from and around the City.</p>	<p>Basin Reserve to Airport</p> <p>Walking and Cycling (mode share, point of difference)</p> <p>Improved transport and economic outcomes from Port Access from State Highway 1</p> <p>Public Transport Spine study</p> <p>Options for the trolley bus network</p>
					<p><b>Economy and Jobs</b></p> <p>We will create a resilient economy through the development of Destination Wellington to attract smart talent to the city. Identification and development of innovative, smart customer focused "<b>open for business</b>" services that make it easier to do business in Wellington. Our resilient economy will balance the impact of and leverage opportunities arising from state sector reform.</p>	<p>Long Haul Aircraft landing in Wellington</p> <p>Destination Wellington</p> <p>Open for Business (understanding business drivers and working to enhance them)</p>
Dynamic City	Urban Development	Eco-city	Environment	A Well Managed City A Resilient City	<p><b>Capital City Status</b></p> <p><b>Enhancing our status as a Capital City through investment, partnerships with government and strong international relationships.</b></p>	<p>Memorial Park &amp; physical enhancements</p> <p>Civics Programme</p> <p>Strong Government Partnerships.</p> <p>Strong Links with Education</p> <p>Strong International Relations leveraging our capital city status</p>
					<p><b>Earthquake Resilience</b></p> <p>We will take active <b>leadership in resilience planning</b> for natural hazard risks with robust policy settings that support better services and information that enables property owners to strengthen buildings. This will be aligned with the Central City Framework including addressing precincts, strategic routes and heritage.</p>	<p>Earthquake Prone Buildings Policy and Strengthening</p> <p>Options to manage Heritage and Earthquake Resilience</p> <p>Sea level Rise (informed debate and engagement on the issues)</p>
Eco-city	Social and Recreation	People Centred City	Cultural/Wellbeing	A Well Managed City A Resilient City	<p><b>Eco-City (to be rebranded)</b></p> <p>We will enhance and develop <b>Wellington as a nationally and internationally renowned ECO City (to be rebranded)</b>. We will do this by developing partnerships with business educational institutions and government to lead thinking and direct investment in the in the City . People and businesses will be attracted to and invest in Wellington because of our credentials and quality of life.</p>	<p>An Open Spaces Framework that protects and enhances our City</p> <p>Waste Management Minimisation / Water Conservation</p> <p>Partnerships with Victoria University, business and govt to enhance and develop our credentials</p>
					<p><b>Community Participation and celebrating diversity</b></p> <p>We will harness the value and recognise the contribution of our volunteer community. Development of a volunteering strategy that engages the community in delivering city events, open space, and wider 2040 strategies and which drives a strong sense of identity and place. We will review the recreation strategy to ensure that we provide effective and efficient options to contribute towards a healthy and safe city community.</p> <p>We want to <b>engage early on the key issues and harness the good ideas</b> affecting our City and people. We will use technology to plug into the pulse of the City where the conversations are happening. We need it to be real time, convenient and focus on the important issues. We will also ensure that the expectations from our engagement are clear and that the process for engagement is fit for purpose.</p>	<p>Volunteering Strategy</p> <p>Review Recreation Strategy</p> <p>Regional Affordable Housing Strategy</p> <p>Engagement Framework</p>
People Centred City	Governance	People Centred City	Governance	A Well Managed City A Resilient City	<p><b>Reform and Governance</b></p> <p>We will take a <b>leadership role in engaging with central government, other councils and the community on local government reform</b>. We will provide credible advice and input and understand how this fits with the wider central government context. We will understand and act to address the financial issues facing the Council.</p>	<p>Productivity commission</p> <p>Local Government Reform</p> <p>Financial Sustainability policy implications / asset management planning assumptions</p> <p>District Plan review</p> <p>Review currency of Council strategies</p>
