

New Zealand Institute of Architects Incorporated

Tabled Information - Reference 140/13(I) - Luke Allen

We offer expertise and experience across a diverse range of areas – seismic issues, design competitions, temporary installations, leading edge technologies, links to education, etc.

The key projects we wish to partner with you on are:

- Central City Framework – Parliamentary Precinct (p.59)
- Earthquake Strengthening Council Buildings (p.15, 61), and Earthquake Interventions (p.61)
- Greening Taranaki – Concept Designs (p.21)
- Civic Square Precinct – Concept Designs (p.21)
- Waterfront Development Plan and Frank Kitts Park Playground (p.21, 59, 110)

Design competitions

Experience and proven performance partnering with city councils

Some recent examples:

- Christchurch Pavilion competition
- New Urban Village Project in Christchurch
- Waterfront bridge crossing, Auckland

Earthquake Resilience and Earthquake Prone Buildings

Architectural input critical at all stages of strengthening projects

Specialist expertise in heritage, all architectural aspects of a project, broad picture view of buildings long term use

Earthquake interventions – city focus, urban design, expertise in these areas.

Methods of engagement

Liaison with NZIA for consultation and advice on the built environment, to supplement in-house capacity and tap into wide pool of expertise.

Partnering with NZIA on design competitions and scoping of projects

Engagement of professional expertise in early stages of projects, scoping, and development of design briefs

Winner:

Built Environment
