My submission is that ... (You should include whether you support or oppose the specific provisions or wish to have them amended. You should also state the reasons for your views)

Comments

I support the extension of the quarry. As a contractor we see the Wellington area expanding however we are limited to only 3 quarry's that have shrinking resource available. It is vital that quarry material is available to the contractors in wellington from all three locations to keep the competitive pricing up and keep the transport cost down.

I seek the following decision from Council (please give precise details)

Comments

We are in favor of the extension to the quarry operation.
