PROPOSED DISTRICT PLAN CHANGE 32 – *Renewable Energy*

PROPOSED DISTRICT PLAN CHANGE 33 – *Ridgelines and Hilltops (Visual Amenity) & Rural Area*

WELLINGTON CITY DISTRICT PLAN

Clause 7 of First Schedule, Resource Management Act 1991

Wellington City Council has prepared a summary of the submissions received on Proposed District Plan Change 32 and Proposed District Plan Change 33. These documents are now available for public inspection.

Plan Change 32 responds to the issue of energy efficiency and the use of energy from renewable sources. The Resource Management Act has been amended to require Councils to now have particular regard to the benefits to be derived from the use and development of renewable energy when exercising functions and powers under the Act. Wellington City Council has decided that one way to give effect to this obligation is to provide specific objectives and policies that encourage the use and development of renewable energy. In recognition of the fact that wind farm development is a form of renewable energy development for which resource consent might be sought in the Wellington area, Plan Change 32 includes specific rules for assessing wind farm proposals.

Plan Change 33 incorporates provisions relating to Wellington's ridgelines and hilltops across the whole city. The Council has identified which ridgelines and hilltops should be subject to particular provisions for the control of visual effects from subdivision and land use activities. Plan Change 33 also introduces provisions relating to the management of subdivision and land use activities in the Rural Area, including residential buildings, accessory buildings, factory farming, site access and esplanade provisions.
