Ara Poutama Aotearoa the Department of Corrections	240.39	Commercial and mixed use Zones / Commercial Zone / COMZ-P1	Amend	<p>Considers that the zone frameworks (Commercial and General Industrial) do not enable community corrections activities, and provides discretionary activity status for these activities in the zones, in accordance with the respective default "all other activities" rules (COMZ-R4 and GIZR6). Community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification.</p> <p>Industrial and commercial areas provide suitable sites for community corrections activities; in particular community work components often require large sites for yard-based activities and large equipment and/or vehicle storage.</p> <p>Community corrections activities are a compatible and appropriate activity in commercial and industrial zones. They are consistent with the character and amenity of such zones. Furthermore, as community corrections facilities are not sensitive to the effects of commercial and industrial environments (e.g. noise, high traffic movements, etc), they are not prone to reverse sensitivity.</p>	<p>Amend COMZ-P1 (Enabled activities) as follows:</p> <p>Enabled activities</p> <p>Enable a ranges of activities in the Commercial Zone that contribute positively to the purpose of the zone including:</p> <ol style="list-style-type: none"> 1. Commercial activities; 2. Retail activities, except for large-scale integrated retail activities; 3. Carparking activities; and 4. Residential activities, except for large-scale integrated retail activities; <u>and</u> 5. <u>Community corrections activities</u>
Ara Poutama Aotearoa the Department of Corrections	240.40	Commercial and mixed use Zones / Commercial Zone / COMZ-P1	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain COMZ-P1.4 (Enabled activities) as notified.
Restaurant Brands Limited	349.110	Commercial and mixed use Zones / Commercial Zone / COMZ-P1	Support	Support	Retain COMZ-P1 (Enabled activities) as notified.
Ministry of Education	400.132	Commercial and mixed use Zones / Commercial Zone / COMZ-P1	Support in part	Supports COMZ-P1 in part wherein it provides a range of activities.	Retain COMZ-P1 (Enabled activities) with amendment.
Ministry of Education	400.133	Commercial and mixed use Zones / Commercial Zone / COMZ-P1	Amend	Seeks COMZ-P1 be amended as the submitter seeks clarification that educational activities are provided for in the COMZ.	<p>Amend COMZ-P1 (Enabled activities) as follows:</p> <p>Enabled activities</p> <p>...</p> <ol style="list-style-type: none"> 3. Carparking activities; and 4. Residential activities, except for large-scale integrated retail activities; <u>and</u> 5. <u>Educational facilities</u>
Restaurant Brands Limited	349.111	Commercial and mixed use Zones / Commercial Zone / COMZ-P2	Support	Support	Retain COMZ-P2 (Managed activities) as notified.
Prime Property Group	256.6	Commercial and mixed use Zones / Commercial Zone / COMZ-P3	Oppose	Opposes restriction on residential activity at ground floor level in the Commercial Zone.	Seeks amendment to be more enabling of residential activity.
Prime Property Group	256.7	Commercial and mixed use Zones / Commercial Zone / COMZ-P3	Amend	<p>Considers it appropriate to allow residential use on the ground floor in the Commercial Zones.</p> <p>[Refer to original submission for full reason]</p>	Amend COMZ-P3 (residential activities) so that residential activity is permitted at ground floor level outside of 12m from the centreline of transmission lines on the site.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi NZ Transport Agency	FS103.37	Part 3 / Commercial and mixed use Zones / Commercial Zone / COMZ-P3	Oppose	Oppose residential activities on the ground floor to support vibrant streets and retain walkable centres.	Disallow

Ara Poutama Aotearoa the Department of Corrections	240.41	Commercial and mixed use Zones / Commercial Zone / COMZ-R2	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain COMZ-R2 (Residential Activities) as notified.
Restaurant Brands Limited	349.118	Commercial and mixed use Zones / Commercial Zone / COMZ-R7	Support	Support	Retain COMZ-R7 (Maintenance and repair of buildings and structures) as notified.
Restaurant Brands Limited	349.119	Commercial and mixed use Zones / Commercial Zone / COMZ-R8	Support	Support	Retain COMZ-R8 (Demolition or removal of buildings and structures) as notified.
Greater Wellington Regional Council	351.272	Commercial and mixed use Zones / Commercial Zone / COMZ-R8	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain COMZ-R8 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.273	Commercial and mixed use Zones / Commercial Zone / COMZ-R8	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend COMZ-R8 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Restaurant Brands Limited	349.120	Commercial and mixed use Zones / Commercial Zone / COMZ-R9	Support	Support	Retain COMZ-R9 (Construction of, or additions or alterations to, buildings and structures) as notified.
Retirement Villages Association of New Zealand Incorporated	350.256	Commercial and mixed use Zones / Commercial Zone / COMZ-R9	Amend	Supports the construction of, or additions and alterations to, buildings and structures being a permitted or restricted discretionary activity under COMZ-R9. Does not oppose the inclusion of the matters of discretion in Clause 2 relating to the extent and effect on non-compliance with the requirements of COMZ-S1 - COMZ-S8. Considers that the matters of discretion in Clause 1, are not appropriate. The listed policies are broad and not specific to the effects of retirement villages that require management. Considers that the matters of discretion in Clause 1, are not appropriate. The listed policies are broad and not specific to the effects of retirement villages that require management. Considers that due to an absence of any reference to retirement villages in the Centres and Mixed Use and Residential Design Guides, their inclusion as matters of discretion in Clauses 3 and 4 are not of relevance / applicable to retirement villages and should be deleted. Considers that a set of retirement village specific matters of discretion should be included that are based on the MDRS provisions; consider / acknowledge the positive effects offered by retirement villages; the functional and operational needs of retirement villages; and the need to provide for efficient use of larger sites. Considers that for resource consent applications for the construction of or additions /alterations to retirement villages under COMZ-R9 should be precluded from being publicly notified; and that for a resource consent application for the construction of or additions / alterations to retirement villages under COMZ-R9 that complies with COMZ-S1 and COMZ-S2 should be precluded from being limited notified.	Retain COMZ-R9 (Construction of, or additions and alterations to, buildings and structures) and seeks amendment as follows: 1. Activity status: Restricted Discretionary Matters of discretion are: 1. The matters in COMZ-P5, COMZ-P6 and COMZ-P7(<u>this clause is not applicable to retirement villages</u>); 2. The extent and effect of non-compliance with COMZ-S1, COMZ-S2, COMZ-S3, COMZ-S4, COMZ-S5, COMZ-S6, COMZ-S7 and COMZ-S8; 3. The Centres and Mixed-Use Design Guide (<u>this clause is not applicable to retirement villages</u>); and 4. The Residential Design Guide for any part of a building used for residential activities (<u>this clause is not applicable to retirement villages</u>); 5. For retirement villages: i. <u>The effects of the retirement village on the safety of adjacent streets or public open spaces;</u> ii. <u>The extent to which articulation, modulation and materiality addresses adverse visual dominance effects associated with building length;</u> iii. <u>The effects arising from the quality of the interface between the retirement village and adjacent streets or public open spaces;</u> iv. <u>When assessing the matters in 1(a)(2), and 1(a)(5)(i) – (iii), consider:</u> a. <u>The need to provide for efficient use of larger sites; and</u> b. <u>The functional and operational needs of the retirement village.</u> v. <u>The positive effects of the construction, development and use of the retirement village.</u> <u>For clarity, no other rules or matters of discretion relating to the effects of density apply to buildings for a retirement village.</u> <u>Notification status:</u>

Prime Property Group	256.8	Commercial and mixed use Zones / Commercial Zone / COMZ-S1	Oppose	Opposes the 8m height limit in the Commercial Zone at 55-85 Curtis street.	Seeks amendment to the height limit in COMZ-S1 (Maximum Height)
Prime Property Group	256.9	Commercial and mixed use Zones / Commercial Zone / COMZ-S1	Amend	Considers the Height Control Area over 55-85 Curtis St to be inconsistent with the NPS-UD and more restrictive than the residential area around. [Refer to original submission for full reason]	Seeks that COMZ-S1 (Maximum height) be amended as follows: Maximum height 1. A maximum height limit of 8 12m above ground level must be complied with.
Waka Kotahi NZ Transport Agency	FS103.38	Part 3 / Commercial and mixed use Zones / Commercial Zone / COMZ-S1	Support	Support as it allows for greater intensification and greater density in proximity to goods and services, allowing for walkable neighbourhoods.	Allow
Restaurant Brands Limited	349.121	Commercial and mixed use Zones / Commercial Zone / COMZ-S1	Support	Support	Retain COMZ-S1 (Maximum height) as notified.
Retirement Villages Association of New Zealand Incorporated	350.257	Commercial and mixed use Zones / Commercial Zone / COMZ-S1	Oppose	Considers the 8m height standard is inconsistent with the objectives of the zone.	Opposes COMZ-S1 (Maximum height) and seeks amendment to provide for greater height in the Commercial Zone.
Restaurant Brands Limited	349.122	Commercial and mixed use Zones / Commercial Zone / COMZ-S2	Support	Support	Retain COMZ-S2 (Height in relation to boundary) as notified.
McDonald's	274.38	Commercial and mixed use Zones / Commercial Zone / COMZ-S3	Oppose	Considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete COMZ-S3 (Minimum ground floor height) in its entirety.
Restaurant Brands Limited	349.123	Commercial and mixed use Zones / Commercial Zone / COMZ-S3	Oppose	Oppose Opposed to the minimum floor-to-floor ceiling heights for new development. The standard is overly prescriptive, does not provide for the specific requirements of drive-through facilities, and is unworkable from an operational perspective, and will only serve to increase the cost and/or regulatory processes of the development.	Delete COMZ-S3 (Minimum ground floor height) in its entirety.
Foodstuffs North Island	FS23.48	Part 3 / Commercial and mixed use Zones / Commercial Zone / COMZ-S3	Oppose	Submission point 349.123 seeks to delete COMZ-S3 in its entirety. FSNi submission point 476.35 is supported by that.	Allow
Foodstuffs North Island	476.35	Commercial and mixed use Zones / Commercial Zone / COMZ-S3	Oppose	Whilst supportive of certain bulk and location standards in the Commercial and Mixed Use zones, considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete COMZ-S3 (Minimum ground floor height) in its entirety.

Commercial and Mixed use - Mixed Use Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Restaurant Brands Limited	349.124	Commercial and mixed use Zones / Commercial Zone / COMZ-S4	Support	Support	Retain COMZ-S4 (Verandah control) as notified.
Retirement Villages Association of New Zealand Incorporated	350.258	Commercial and mixed use Zones / Commercial Zone / COMZ-S6	Oppose in part	Considers retirement villages should be excluded from this standard as in the MRZ and HRZ zones.	Opposes COMZ-S6 (Outdoor living space for residential units) and seeks amendment to exclude retirement villages.
Simon Ross	37.7	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Amend	Considers that Mixed Use Zones are much too sparse and too small.	Seeks that mixed use be enabled wherever development over three storeys is allowed.
Simon Ross	37.8	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Amend	Considers that Mixed Use Zones are much too sparse and too small.	Seeks that all corner sites in residential areas allow mixed use.
Simon Ross	37.9	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that mixed use is enabled around the Johnsonville Line stations.
Michael O'Rourke	194.16	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Not specified	[No specific reason given beyond decision requested - refer to original submission.]	Seeks that some areas of Newtown, primarily those already zoned as Mixed Use, are also zoned High Density Residential Zone.
Wellington City Youth Council	201.31	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Support	Supports the idea of providing business activities spaces for mixed used areas of city centre.	Supports retention of Mixed Use Zone as notified
Ara Poutama Aotearoa the Department of Corrections	240.42	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Support	Considers that that the definition of "residential activity" entirely captures supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain the provisions applicable to "residential activities" in the Mixed Use Zone as notified.
Tawa Community Board	294.17	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Oppose	Opposes 10 Surrey Street (Tawa Junction) being Mixed Use Zone. Considers that land at 10 Surrey Street is one of the largest parcels of single-ownership land on the valley floor, very near the town centre and Tawa Station, and one of the most suitable sites for the highest height limit to encourage future development of centre-like mixed housing and business use.	Opposes the zoning of 10 Surrey Street, Tawa as Mixed Use Zone and seeks that this site is zoned Local Centre Zone, to match the Tawa Town Centre.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.259	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Amend	Considers policy support for retirement villages in the Local Centre Zone is required.	<p>Add the following new policies in the Mixed Use Zone chapter and amend current objectives and policies for consistency:</p> <p><u>Provision of housing for an ageing population</u> <u>1. Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u> <u>2. Recognise the functional and operational needs of retirement villages, including that they:</u> <u>a. May require greater density than the planned urban built character to enable efficient provision of services.</u> <u>b. Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u></p> <p><u>Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the [add] zone will change over time to enable a variety of housing types with a mix of densities.</u></p> <p><u>Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within the [add] zone by providing for more efficient use of those sites.</u></p>
Z Energy Limited	361.47	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Support	Supports Mixed Use Zone in Tawa, Miramar and Kaiwharawhara. The purpose of the MUZ is to provide for a compatible mixture of residential, commercial, light industrial, recreational and/or community activities. It continues the long-standing approach of enabling a wide range of compatible activities in Wellington's suburban employment areas.	Retain the Mixed Use Zone chapter as notified.
Wellington Tenth's Trust	363.4	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Amend	Considers appropriate amendment to introduction. The submitter has aspirations for future development at this site and the use of mixed zone opportunities applies. Appropriate considerations include mixed use development.	Seeks to amend the Mixed Use Zone to provide for potential future developments opportunities in relation to the submitter's site.
Waka Kotahi	370.403	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Support	Supports provision for active and public transport, consideration of function of the transport network, the discouragement of carparking visible at street edge along an active frontage and the quality design outcomes.	Retain the Mixed Use Zone chapter as notified.
Taranaki Whānui ki te Upoko o te Ika	389.96	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Amend	<p>Considers that the height control area being amended to 27m appropriate, as it is the maximum height of development consented under the Shelly Bay Masterplan resource consent.</p> <p>Submitter seeks that that the planning framework as set out in the consented Shelly Bay Masterplan and Design Guide is adopted as the default planning settings for the landholdings within the scope of the granted consents. Notes that the granted resource consent is currently being implemented on site.</p>	Seeks that in addition to amending the extent of the zoning of Shelly Bay Taikuru, that the height control area is amended to 27m.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Laurence Harger & Ingrid Kölle	FS2.11	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Oppose	<p>Taranaki Whānui has sold the land it owned at Shelly Bay to The Wellington Company for a large development which was consented via the Special Housing Accords Act, thus denying the community any say on the consenting process. Community involvement should be ensured for the future though and the current DP height limit of 11 metres in some areas and the zero height limit in Open Space B land should remain. A recent poll has shown that the wider Wellington public want Shelly Bay included in a National Heritage Park centred on the 76 hectares of Watts Peninsula already designated for a reserve by the Government.</p> <p>Taranaki Whānui have treated Shelly Bay solely as a commercial proposition despite disagreement by a large group of its members (Mau Whenua) who occupied the site and opposed its sale, wanting to uphold their cultural and spiritual connection to the land. Mau Whenua continue to oppose the sale of the land at Shelly Bay and should be included by the council in all decisions taken about its future.</p>	Disallow / Seeks that the provisions relating to Shelly Bay in submission 389 are disallowed.
Mary Varnham and Paul O'Regan	FS40.11	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Oppose	<p>Taranaki Whānui has sold its holdings at Shelly Bay and are no longer, as claimed, 'significant landowners'. Their possible ownership interest in the peninsula as a whole through Right of First Refusal is confined to the Mt Crawford site as the adjacent 76 hectares of Watts Peninsula has been designated reserve by the government (the current landowner) and WCC since 2011.</p> <p>The local community, despite its active interest in and use of the bay, was shut out of all consultation during the resource consent process. It is critical that it be involved in all future decision making.</p> <p>The current DP height limit of 11 metres in some areas and the zero height limit in Open Space B land is supported not only by the local community but by the wider Wellington public, as evidenced in the independent poll conducted for the group Buy Back the Bay by Research NZ, which showed that 78% of Wellingtonians want Shelly Bay included in a National Heritage Park, which would also include the 76 hectares of Watts Peninsula set aside by the government as a reserve in 2011.</p> <p>Taranaki Whānui have viewed Shelly Bay as a strictly commercial proposition and disavowed any cultural, historical and spiritual connection to the site. A substantial proportion of the iwi (mau whenua) have opposed and continue to oppose the sale of the site, and should be included by the council in all democratic decision making about the future of Shelly Bay.</p>	Disallow
Buy Back the Bay	FS79.53	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Oppose	<p>Refers to submission 389 states: Taranaki Whānui opposes the extent of the proposed zoning of Shelly Bay Taikuru and the proposed height control limits." Buy Back the Bays opposes the submission on both points.</p> <p>Specifically, the Submission 389 for Taranaki Whānui seeks that:</p> <p>"1. The Mixed Use Zone is extended across the allotments illustrated in Figure Two below or amended to follow the extent of consented development area outlined in the approved masterplan and engineering drawings.</p> <p>2. The Height Control Area is amended to 27m being the maximum height of development consented under the Shelly Bay Masterplan resource consent."</p> <p>Buy Back the Bays opposes both parts. Buy Back the Bays note that neither part affects Taranaki Whānui's commercial or other interests. Considers that both parts only affect the tall apartment buildings planned by and for the exclusive commercial benefit of The Wellington Company, not the leasing of lower existing buildings that The Wellington Company has offered to Taranaki Whānui as its stake in the project.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.611	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Support in part	Supports the introduction and application of a Mixed Use Zone in the proposed District Plan. Some amendments are suggested to acknowledge that the context and activities in the vicinity of Mixed Use Zones may change in the future due to the proposed Plan provision and to acknowledge NPS-UD P6.	Retain introduction of the Mixed Use Zone chapter and seeks amendment.
Kāinga Ora Homes and Communities	391.612	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Amend	Supports the introduction and application of a Mixed Use Zone in the proposed District Plan. Some amendments are suggested to acknowledge that the context and activities in the vicinity of Mixed Use Zones may change in the future due to the proposed Plan provision and to acknowledge NPS-UD P6.	Amend the second paragraph of the introduction of the Mixed Use Zone chapter as follows: The Mixed Use Zone is distributed across the city. A broad range of activities are enabled to occur alongside one another in the Mixed Use Zone. It needs to be noted that due to the wide range of non-residential activities provided for, and the potential for industrial activities to establish in this Zone, there may be moderate to high levels of noise, vehicle trip generation or other environmental effects. While such effects may be tolerable within the Mixed Use Zone, they could undermine the amenity of zones nearby if not appropriately managed. Effects from new activities and development within the Mixed Use Zone need to be compatible with the local context. Activities that generate adverse effects of a nature or scale that is potentially incompatible with the existing <u>and anticipated future</u> context will typically not be enabled in the Mixed Use Zone unless such activities can demonstrate they are able to co-exist with existing <u>and anticipated future</u> sensitive activities in the vicinity.
Willis Bond and Company Limited	416.96	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Amend	Submitter notes the effect that the more permissive medium density residential standards will have on other zones. The zones supporting higher density development have more restrictive standards than in the MRZ, creating a risk that new development is concentrated in the more permissive MRZ at the exclusion of denser zones where Council wishes to encourage greater development. The PDP should ensure that the restrictions within denser zones are not substantially more restrictive than within the MRZ. [Refer to original submission for full reason].	Seeks that Council consider the relationship between the Medium Density Residential Zone and denser zones (i.e. the High Density Residential Zone, Large Lot Residential Zone, Neighbourhood Centre Zone, Local Centre one, Commercial Zone, Mixed Use Zone, Metropolitan Centre Zone and City Centre Zone) to ensure development is not unduly restricted in denser zones by greater restrictions and Council discretion.
Miriam Moore	433.16	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Not specified	Considers that the MUZ land in Tawa is the best place for targeted intensification of residential development, it would be great to see this incentivised for that purpose.	Not specified.
Michelle Rush	436.17	Commercial and mixed use Zones / Mixed Use Zone / General MUZ	Amend	Considers that the extent of mixed zones should be widened in neighbourhood and local centre zones, taking in part of the medium density and high density residential zones. This would ensure the ability for people to work, live, and seek services within a walkable, or micro-transport catchment while achieving carbon reduction, increasing liveability and amenity, contributing to public health and wellbeing, and community vibrancy. Increasing provision for mixed uses is part of this.	Seeks to extend Mixed Use Zones in and around Neighbourhood Centre Zones, Local Centre Zones, Medium Density Residential Zones and High Density Residential Zones.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Ara Poutama Aotearoa the Department of Corrections	240.43	Commercial and mixed use Zones / Mixed Use Zone / New MUZ	Amend	<p>Considers that should Council see it as being absolutely necessary to implement the separate definition of "supported residential care activity", then Ara Poutama requests that the enabled activities policies and land use activity rules applying to supported and transitional accommodation activities in the Mixed Use, City Centre and Waterfront zones are amended. The zone frameworks would not otherwise enable supported residential care activities, and provides discretionary activity status for these activities in the zones, in accordance with the respective default "all other activities" rules (MUZ-R13, CCZ-R16 and WFZ-R11).</p> <p>Supported and transitional accommodation activities, such as those provided for by Ara Poutama, are an important component of the rehabilitation and reintegration process for people under Ara Poutama's supervision. They enable people and communities to provide for their social and cultural well-being and for their health and safety. The subject zones include suitable locations for supported and transitional accommodation activities; as they are close to civic amenities and services. This is apparent in that the zones provide for residential activities as permitted, including aligned activities such as visitor accommodation. Supported and transitional accommodation activities are a compatible and appropriate activity in the Mixed Use, City Centre and Waterfront zones. They are consistent with the character and amenity of such zones, and the effects of such can be managed through the imposition of a restriction on the maximum number of residents (10), as is the case in the residential zones.</p>	<p>Amend the land use activity rule framework for the Mixed Use Zone to include a new permitted activity rule applying to "supported residential care activities" as follows, if the definition of "supported residential care activity" is retained:</p> <p><u>MUZ-RX Supported residential care activities</u></p> <p><u>1. Activity status: Permitted</u></p> <p><u>Where:</u></p> <p><u>a. The activity is located above ground floor level; and</u> <u>b. The maximum occupancy does not exceed 10 residents.</u></p> <p><u>2. Activity status: Restricted Discretionary</u></p> <p><u>Where:</u></p> <p><u>a. Compliance with the requirements of MUZ-RX.1.a cannot be achieved.</u></p> <p><u>Matters of discretion are: 1. The matters in MUZ-P1, MUZ-P2 and MUZ-P5;</u> <u>2. The extent to which the activity is the most appropriate to meet Wellington's future growth needs;</u> <u>3. The compatibility with existing activities nearby and other activities provided for in the Mixed Use Zone;</u> <u>4. The effect on the visual quality of the streetscape and the extent to which the development contributes to or detracts from the pedestrian environment; and</u> <u>5. The extent to which the activity enables or limits adaptability for future non-residential activity at ground floor level.</u></p> <p><u>Notification status: An application for resource consent made in respect of rule MUZ-RX.2.a is precluded from being publicly notified.</u></p> <p><u>3. Activity Status: Restricted Discretionary</u></p> <p><u>Where:</u></p> <p><u>a. Compliance with the requirements of MUZ - RX.1 . b cannot be achieved.</u></p> <p><u>Matters of discretion are:</u></p> <p><u>1. The extent to which the intensity and scale of the activity may adversely impact on the amenity values of nearby residential properties and the surrounding neighbourhood.</u></p> <p><u>Notification status: An application for resource consent made in respect of rule MUZ - RX. 3.a is precluded from being publicly notified .</u></p>
Fire and Emergency New Zealand	273.279	Commercial and mixed use Zones / Mixed Use Zone / New MUZ	Amend	<p>Seeks a new policy which focuses on Quality Design Outcomes within this Zone specifically, as per the other Commercial Zones within the PDP. In accordance with the relief sought for these policies in other commercial zones, a quality design outcome should include accessibility for emergency service vehicles.</p>	<p>Add new MUZ policy;</p> <p><u>MUZ-PX: Quality Design Outcomes</u></p> <p><u>Require new development, and alterations and additions to existing development at a site scale, to positively contribute to the sense of place, quality and amenity of Mixed Use Zone by ensuring that it, where relevant:</u></p> <p><u>...</u></p> <p><u>x. it is accessible for emergency service vehicles.</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.260	Commercial and mixed use Zones / Mixed Use Zone / New MUZ	Amend	Considers policy support for retirement villages in the Local Centre Zone is required.	<p>Add the following new policies in the Mixed Use Zone chapter and amend current objectives and policies for consistency:</p> <p><u>Provision of housing for an ageing population</u> <u>1. Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u> <u>2. Recognise the functional and operational needs of retirement villages, including that they:</u> <u>a. May require greater density than the planned urban built character to enable efficient provision of services.</u> <u>b. Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u></p> <p><u>Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the [add] zone will change over time to enable a variety of housing types with a mix of densities.</u></p> <p><u>Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within the [add] zone by providing for more efficient use of those sites.</u></p>
Retirement Villages Association of New Zealand Incorporated	350.261	Commercial and mixed use Zones / Mixed Use Zone / New MUZ	Amend	As currently drafted retirement villages would be a permitted or discretionary activity under the 'residential activities' rule of the Mixed Use Zone (MUZ-R10). Considers that the Local Centre Zone should have a retirement village specific rule that provides for retirement villages as a permitted activity (with the construction of the retirement villages being a restricted discretionary activity under MUZ-R16). Permitted activity status recognises retirement villages are residential activities and provide substantial benefit by way of enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	<p>Add new 'Retirement villages' in the Mixed Use Zone chapter rule as follows: <u>MUZ-RX Retirement villages</u> <u>1. Activity status: Permitted</u></p>
Kāinga Ora Homes and Communities	391.613	Commercial and mixed use Zones / Mixed Use Zone / New MUZ	Amend	Considers that a new rule should be added permitting industrial activities except heavy industrial activities which should require resource consent as a Non-Complying Activity to give effect to MUZ-P2 & MUZ-P4. Considers that as currently notified, industrial activities would always trip to Discretionary under MUZ-R13 which is inconsistent with MUZ-P2. A consequential amendment to the rule numbering will be required to accommodate this new rule.	<p>Seeks the addition of a new "industrial activities" rule in the Mixed Use Zone as follows:</p> <p><u>Industrial Activities</u> <u>1. Activity status: Permitted</u> <u>where:</u> <u>a. The activity is not a heavy industrial activity.</u></p> <p><u>2. Activity Status: Non-complying</u> <u>where:</u> <u>a. Compliance with the requirements of MUZ- RX.1 cannot be achieved.</u></p> <p><u>Notification status: An application for resource consent made in respect of rule MUZ-RX.2.a must be publicly notified.</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	408.127	Commercial and mixed use Zones / Mixed Use Zone / New MUZ	Amend	<p>Considers that building setbacks are essential to address significant safety hazards associated with the operational rail corridor.</p> <p>Parts of the KiwiRail network adjoin commercial and mixed use zones that do not currently include provision for boundary setbacks for buildings and structures.</p> <p>KiwiRail seek a boundary setback of 5m from the rail corridor for all buildings and structures, and that the rail corridor be recognised as a qualifying matter in relevant non-residential zones in accordance with section 77(1)(o) of the RMA.</p> <p>Consistent with the amendment requested for the assessment criteria in the residential zones, KiwiRail considers that a matter of discretion directing consideration of impacts on the safety and efficiency of the rail corridor is appropriate in situations where the 5m setback standard is not complied with in all zones adjacent to the railway corridor.</p>	<p>Add new standard as follows:</p> <p><u>MUZ-SX:</u> <u>Boundary setbacks.</u> <u>Buildings or structures must not be located within a 5m setback from a rail corridor boundary.</u></p> <p>AND seeks that as applicable, the following matter of discretion be inserted:</p> <p><u>Matters of discretion:</u> <u>(X) The location and design of the building as it relates to the ability to safely use, access and maintain buildings without requiring access on, above or over the rail corridor.</u></p>
Kāinga Ora – Homes and Communities	FS89.38	Part 3 / Commercial and Mixed Use Zones / Mixed Use Zone / New MUZ	Oppose	Kāinga Ora opposes the relief sought; a considerably reduced set back would provide adequate space for maintenance activities within sites adjacent to the rail network. In doing so, it will continue to protect the safe, efficient, and effective operation of the rail infrastructure while balancing the cost on landowners.	Disallow
Restaurant Brands Limited	349.125	Commercial and mixed use Zones / Mixed Use Zone / MUZ-01	Support	Support	Retain MUZ-01 (Purpose) as notified.

Willis Bond and Company Limited	416.102	Commercial and mixed use Zones / Mixed Use Zone / MUZ-P1	Support	Supports the need to provide for a choice of building, type, size, affordability and distribution, including forms of medium density housing.	Retain MUZ-P1 (Accommodating growth) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.44	Commercial and mixed use Zones / Mixed Use Zone / MUZ-P2	Support in part	Considers that community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification. The permitted activity status (enabled by the associated policies) is appropriate in the context of the current and potential future establishment and operation of a community corrections facility or facilities within these areas in Wellington City.	Supports MUZ-P2 (Enabled activities), with amendment.
Ara Poutama Aotearoa the Department of Corrections	240.45	Commercial and mixed use Zones / Mixed Use Zone / MUZ-P2	Amend	Considers that there is a minor drafting error within the Mixed Use Zone Policy MUZ-P2.7 and Rule MUZ-R6, whereby "community corrections facilities" are referenced; this needs to be amended to reflect correct terminology in the PDP definition (i.e. "community corrections activities").	Amend MUZ-P2 (Enabled activities) as follows: 7. Community corrections facilities <u>activities</u> ;
Ara Poutama Aotearoa the Department of Corrections	240.46	Commercial and mixed use Zones / Mixed Use Zone / MUZ-P2	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain MUZ-P2.10 (Enabled activities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.47	Commercial and mixed use Zones / Mixed Use Zone / MUZ-P2	Amend	Considers that should Council see it as being absolutely necessary to implement the separate definition of "supported residential care activity", then Ara Poutama requests that the enabled activities policies and land use activity rules applying to supported and transitional accommodation activities in the Mixed Use, City Centre and Waterfront zones are amended. The zone frameworks would not otherwise enable supported residential care activities, and provides discretionary activity status for these activities in the zones, in accordance with the respective default "all other activities" rules (MUZ-R13, CCZ-R16 and WFZ-R11). Supported and transitional accommodation activities, such as those provided for by Ara Poutama, are an important component of the rehabilitation and reintegration process for people under Ara Poutama's supervision. They enable people and communities to provide for their social and cultural well-being and for their health and safety. The subject zones include suitable locations for supported and transitional accommodation activities; as they are close to civic amenities and services. This is apparent in that the zones provide for residential activities as permitted, including aligned activities such as visitor accommodation. Supported and transitional accommodation activities are a compatible and appropriate activity in the Mixed Use, City Centre and Waterfront zones. They are consistent with the character and amenity of such zones, and the effects of such can be managed through the imposition of a restriction on the maximum number of residents (10), as is the case in the residential zones.	Amend MUZ-P2 (Enabled activities) as follows, if the definition of "supported residential care activity" is retained: MUZ-P2 Enabled Activities Enable a wide range of compatible activities in the Mixed Use Zone where they are of an appropriate nature, scale and intensity for the zone and the hierarchy of centres, including: 10. Residential activities <u>and supported residential care activities</u> above ground floor level; ...
Fire and Emergency New Zealand	273.281	Commercial and mixed use Zones / Mixed Use Zone / MUZ-P2	Support	Supports the policy as it makes provision for the provision of emergency service facilities within the zone. Due to urban growth, population changes and commitments to response times, FENZ may need to locate stations anywhere within the urban and rural environment.	Retain MUZ-P2 (Enabled activities) as notified.

Woolworths New Zealand	359.70	Commercial and mixed use Zones / Mixed Use Zone / MUZ-P3	Amend	Considers that supermarkets that infringe MUZ-R12 should be able to be accommodated in the zone in MUZ-P3 if there is a functional and operational need and effects on the Centre are managed and this should be reflected in the zone policies. The proposed amendment offers a more appropriate wording relative to the restricted discretionary activity status for 'large' supermarkets within the Mixed-Use zone.	Amend MUZ-P3 (Managing larger-scale retail activities) as follows: Only Allow the establishment of integrated retail activities and large supermarkets in the Mixed Use Zone if it can be demonstrated that they will: <ol style="list-style-type: none"> 1. Not result in significant adverse impacts on the viability, vitality, role and function of the City Centre or any Metropolitan, Local or Neighbourhood Centres; 2. Not result in significant adverse impacts on the sustainability, safety or efficiency of the transport network and the hierarchy of roads from trip patterns, travel demand or vehicle use; and 3. Be compatible with adjoining land uses; 4. <u>Have an operational or functional need to locate in the zone.</u>
Foodstuffs North Island	FS23.14	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZ-P3	Support	Submission point 359.70 supports FSNI submission point 476.37.	Allow

The Retirement Villages Association of New Zealand Incorporated	FS126.158	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZ-R10	Not specified	The RVA supports the intent of the relief sought, however, The RVA seeks for new rules to be included specifically for retirement villages in line with its primary submission.	Amend / Allow the submission point, subject to the relief sought within The RVA's primary submission regarding the changes sought for retirement villages under MUZ-R16.
Ryman Healthcare Limited	FS128.158	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZ-R10	Not specified	Ryman supports the intent of the relief sought, however, Ryman seeks for new rules to be included specifically for retirement villages in line with its primary submission.	Amend / Allow the submission point, subject to the relief sought within Ryman's primary submission regarding the changes sought for retirement villages under MUZ-R16.
Woolworths New Zealand	359.71	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R12	Support in part	The provisions of the Mixed-Use Zone enable the establishment of a supermarket up to 1500m2 GFA under standard MUZ-R12 are supported (noting that the building proper would require consent for being greater than 500m2). To infringe this standard requires restricted discretionary activity consent with consideration required to be had to matters listed in MUZ-P3. This activity status to infringe the GFA standard is supported. However, the inclusion of a note underneath standard MUZ-R12 in the Mixed-Use Zone is opposed by Woolworths as it specifies that Council will not apply a permitted baseline assessment when considering the effects of supermarkets that cannot comply with the GFA standard. Woolworths considers that this is an unnecessary inclusion relative to the restricted discretionary activity status which otherwise conveys that larger supermarkets could be generally considered appropriate in the zone (noting the aforementioned issue that large supermarkets are not expressly provided for in any of the Centre Zones).	Retain MUZ-R12 (Supermarkets) with amendments.
Woolworths New Zealand	359.72	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R12	Amend	Considers that the purpose of the Mixed-Use Zone is to accommodate a variety of activities, and this is reflected in the zone objectives and policies. The exclusion of the permitted baseline is unnecessary relative to the restricted discretionary activity status which otherwise conveys that larger supermarkets could be generally considered appropriate in the zone.	Amend MUZ-R12.2 (Supermarkets) as follows: 2. Activity status: Restricted Discretionary Where: a. Compliance with the requirements of MUZ-R12.1 cannot be achieved. Matters of discretion are: 1. The matters in MUZ-P3. The Council will not apply a permitted baseline assessment when considering the effects of supermarkets that cannot comply with MUZ-R12.1.
Foodstuffs North Island	FS23.15	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZ-R12	Support	FSNI supports submission point 359.72 as the exclusion of the permitted baseline is unnecessary relative to the restricted discretionary activity status and could make it more difficult to consent supermarket activities. [Inferred reference to submission 359.72]	Allow
Z Energy Limited	361.62	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R13	Support in part	MUZ-R13 is supported on the principle of the 'catch-all' other activity rule. However, clarification is needed on yard-based retail activity.	Retain MUZ-R13 (All other activities) with amendment.
Z Energy Limited	361.63	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R13	Amend	Clarification of MUZ-R13 is sought on whether a yard-based retail activity (i.e. service station) would sit within this rule framework.	Seeks to clarify MUZ-R13 (All other activities) and whether yard-based retail activities would be subject to this rule or rule MUZ-R1 (Commercial activities).
Fire and Emergency New Zealand	273.283	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R14	Support	Supports the rule as the demolition or removal of buildings and structures within the MUZ are a permitted activity.	Retain MUZ-R14 (Maintenance and repair of buildings and structures) as notified.
Restaurant Brands Limited	349.138	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R14	Support	Support	Retain MUZ-R14 (Maintenance and repair of buildings and structures) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.284	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R15	Support	Supports the rule as the demolition or removal of buildings and structures within the MUZ are a permitted activity.	Retain MUZ-R15 (Demolition or removal of buildings and structures) as notified.
Restaurant Brands Limited	349.139	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R15	Support	Support	Retain MUZ-R15 (Demolition or removal of buildings and structures) as notified.
Greater Wellington Regional Council	351.274	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R15	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain MUZ-R15 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.275	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R15	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend MUZ-R15 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Fire and Emergency New Zealand	273.285	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R16	Support	Supports the rule as the construction or, or additions and alterations to, buildings and structures within the MUZ are a permitted activity	Retain MUZ-R16 (Construction of or additions and alterations to buildings and structures) as notified.
Restaurant Brands Limited	349.140	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R16	Oppose	Oppose Opposed to the cross reference to the Centres and Mixed-Use Design Guide within the matters of discretion. The cross reference to the policies of the MUZ is sufficient to ensure that development achieves a “good quality, well-functioning environment” as required by MUZ-O3.	Amend MUZ-16 (Construction of, or additions and alterations to, buildings and structures) as follows: Matters of discretion are: ... 4. The extent of compliance with MUZ-S8, MUZ-S9 and MUZ-S10 for any part of the building used for residential activities; <u>and</u> 5. The Centres and Mixed-Use Design Guide; and 6.5. The Residential Design Guides for any part of a building used for residential activities.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.267	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R16	Amend	Supports the construction of, or additions and alterations to, buildings and structures being a permitted or restricted discretionary activity under MUZ-R16. Does not oppose the inclusion of the matters of discretion in Clauses 2, 3 and 4 relating to the extent and effect on non-compliance with the requirements of MUZ-S1-S11. Considers that the matters of discretion in Clause 1, are not appropriate. The listed policies are broad and not specific to the effects of retirement villages that require management. considers that due to an absence of any reference to retirement villages in the Centres and Mixed Use and Residential Design Guides, their inclusion as matters of discretion in Clauses 5 and 6 are not of relevance / applicable to retirement villages and should be deleted. Considers that a set of retirement village specific matters of discretion should be included that are based on the MDRS provisions; consider / acknowledge the positive effects offered by retirement villages; the functional and operational needs of retirement villages; and the need to provide for efficient use of larger sites. Considers that for resource consent applications for the construction of or additions / alterations to retirement villages under MUZ-R16 should be precluded from being publicly notified; and that for a resource consent application for the construction of or additions / alterations to retirement villages under MUZ-R16 that complies with MUZ-S1, MUZ-S2, MUZ-S3 and LCZ-S5 should be precluded from being limited notified.	<p>Retain MUZ-R16.2 (Construction of, or additions and alterations to, buildings and structures) and seeks amendment as follows:</p> <p>2. Activity status: Restricted Discretionary</p> <p>Where:</p> <p>a. Compliance with any of the requirements of MUZ-R16.1 cannot be achieved.</p> <p>Matters of discretion are:</p> <p>1. The matters in MUZ-P2, MUZ-P5, MUZ-P6 and MUZ-P7 (<u>this clause is not applicable to retirement villages</u>);</p> <p>2. The Centres and Mixed-Use Design Guide (<u>this clause is not applicable to retirement villages</u>);</p> <p>6. The Residential Design Guide (<u>this clause is not applicable to retirement villages</u>);</p> <p>7. For retirement villages:</p> <p>i. <u>The effects of the retirement village on the safety of adjacent streets or public open spaces;</u></p> <p>ii. <u>The extent to which articulation, modulation and materiality addresses adverse visual dominance effects associated with building length;</u></p> <p>iii. <u>The effects arising from the quality of the interface between the retirement village and adjacent streets or public open spaces;</u></p> <p>iv. <u>When assessing the matters in 2(a)(2), and 2(a)(4)(i) – (iii), consider:</u></p> <p>a. <u>The need to provide for efficient use of larger sites; and</u></p> <p>b. <u>The functional and operational needs of the retirement village.</u></p> <p>v. <u>The positive effects of the construction, development and use of the retirement village.</u></p> <p>For clarity, no other rules or matters of discretion relating to the effects of density apply to buildings for a retirement village.</p> <p>Notification status:</p> <p>An application for resource consent made in respect of rule MUZ-R16.2.a that results from non-compliance with MUZ-S4 or MUZ-S6 is precluded from being publicly or limited notified.</p> <p>An application for resource consent made in respect of rule MUZ-R16.2.a that results from non-compliance with MUZ-S1 but that complies with both MUZ-S2 and MUZ-S3 is precluded from being publicly or limited notified.</p> <p><u>An application for resource consent for a retirement village made in respect of rule MUZ-R16.2.a is precluded from being publicly notified.</u></p> <p><u>An application for resource consent for a retirement village made in respect of rule MUZ-R16.2.b where compliance is achieved with MUZ-S1, MUZ-S2, MUZ-S3 and NCZ-S5 is precluded from being limited notified.</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.73	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R16	Amend	Considers that MUZ-R16.2 should be amended to establish matters of discretion specific to supermarket buildings that infringe MUZ-R16.1 standards. There are also concerns around the inclusion of the Centres and Mixed Use Design Guide within these matters of discretion on account of the unnecessary scope this introduces in a restricted discretionary consenting framework. As such, it is specifically sought that that this is excluded from the matters of discretion for new supermarket buildings. The proposed amendment directly correlates to the amendments proposed under standard MUZ-S6.	Amend MUZ-R16.2 (Construction of, or additions and alterations to, buildings and structures) as follows: 2. Activity status: Restricted Discretionary Where: a. Compliance with the requirements of MUZ-R16.1 cannot be achieved. Matters of discretion are: 1. The matters in MUZ-P2, MUZ-P5, MUZ-P6 and MUZ-P7 <u>excluding for supermarkets exceeding MUZ-S6;</u> 2. <u>For supermarkets exceeding MUZ-S6 the matters in MUZ-PU2, MUZ-P3, MUZ-P6, and MUZ-P7;</u> 3. The extent and effect of non-compliance with MUZ-S1, MUZ-S3, MUZ-S4, MUZ-S5, MUZ-S6, MUZ-S7 and MUZ-S11 as specified in the associated assessment criteria for the infringed standards; 4. The extent of compliance with MUZ-S2; 5. The extent of compliance with MUZ-S8, MUZ-S9 and MUZ-S10 for any part of the building used for residential activities; 6. The Centres and Mixed-Use Design Guide (<u>excluding supermarkets</u>); and 7. The Residential Design Guides for any part of a building used for residential activities.
Foodstuffs North Island	FS23.16	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZ-R16	Support	Submission point 359.73 supports FSNI submission points 476.1 and 476.102.	Allow / Allow submission in part.
Kāinga Ora Homes and Communities	391.631	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R16	Support in part	Supports MUZ-R16 in part, particularly the preclusion public and limited notification. Seek amendments to this rule to remove direct reference to the design guide as design guides should be removed from the Plan and treated as a non-statutory tool outside of the District Plan. Amendments have been sought to articulate the urban design outcomes that are sought and to recognise changing amenity in accordance with the NPSUD. If this is not accepted, seeks that the design guidelines are amended, simplified and written in a manner that is easy to follow. The outcomes sought in the guidelines should read as desired requirements with sufficient flexibility to provide for a design that fits and works on site, rather than rules that a consent holder must follow and adhere to.	Retain MUZ-R16 (Construction of, or additions and alterations to, buildings and structures) and seeks amendment.

Ryman Healthcare Limited	FS128.96	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZ-R16	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Miriam Moore	433.17	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R16	Support in part	Considers that the 12 to 15m height limit should apply to Rule 16.1 if the development is for residential use.	Clarify with MUZ-R16 (Construction of, or additions and alterations to, buildings and structures) that all new residential development is subject to the heights specified in MUZ-S2.
Fire and Emergency New Zealand	273.286	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R17	Support in part	Supports this rule insofar as the matters of discretion for these restricted discretionary activities include consideration of the availability and connection to existing or planned three waters infrastructure, particularly where this may involve the conversion of non-habitable rooms to residential use. A minor amendment is however sought to include the necessity to connect to three waters infrastructure, including for the purposes of firefighting.	Supports MUZ-R17 (Conversion of buildings or parts of buildings for residential activities), with amendment.
Fire and Emergency New Zealand	273.287	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R17	Amend	Supports this rule insofar as the matters of discretion for these restricted discretionary activities include consideration of the availability and connection to existing or planned three waters infrastructure, particularly where this may involve the conversion of non-habitable rooms to residential use. A minor amendment is however sought to include the necessity to connect to three waters infrastructure, including for the purposes of firefighting.	Amend MUZ-R17 (Conversion of buildings or parts of buildings for residential activities) as follows: Matters of discretion are: ... 3. The Residential Design Guide; and 4. The extent to which the conversion enables the ground floor level to be used or adapted for future non-residential activities; <u>and</u> <u>5. The availability and connection to existing or planned three waters infrastructure, including for firefighting purposes.</u>
The Retirement Villages Association of New Zealand Incorporated	FS126.40	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZ-R17	Oppose	The RVA opposes the relief sought in this submission as matters relating to fire-fighting servicing are already provided for under the Building Act and it is inappropriate to duplicate controls under the Proposed Plan.	Disallow
Ryman Healthcare Limited	FS128.40	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZ-R17	Oppose	Ryman opposes the relief sought in this submission as matters relating to fire-fighting servicing are already provided for under the Building Act and it is inappropriate to duplicate controls under the Proposed Plan.	Disallow
Kāinga Ora Homes and Communities	391.633	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R17	Support in part	Supports this rule in part, and particularly supports the preclusion of public and limited notification. Considers amendments are required to remove direct reference to the design guide and to instead articulate the urban design outcomes that are sought.	Retain MUZ-R17 (Conversion of buildings or parts of buildings for residential activities) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.634	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R17	Amend	Considers amendments are required to remove direct reference to the design guide and to instead articulate the urban design outcomes that are sought.	Retain MUZ-R17 (Conversion of buildings or parts of buildings for residential activities) and seeks amendment as follows: 1. Activity status: Restricted Discretionary Matters of discretion are: 1. The matters in MUZ-P2 and MUZ-P5; 2. The extent of compliance with standards MUZ-S8, and MUZ-S9 and MUZ-S10; 3. The Residential Design Guide extent to which the following residential urban design outcomes are achieved; <u>a. Provides an effective public private interface;</u> <u>b. The scale, form, and appearance of the development is compatible with the planned urban built form of the neighbourhood;</u> <u>c. Provides high quality buildings;</u> <u>d. Responds to the natural environment; and</u> 4. The extent to which the conversion enables the ground floor level to be used or adapted for future non-residential activities.
Investore Property Limited	405.82	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R17	Support in part	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Retain MUZ-R17.1 (Conversion of buildings or parts of buildings for residential activities) and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.97	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZ-R17	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.97	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZ-R17	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Investore Property Limited	405.83	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R17	Amend	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Amend MUZ-R17.1 (Conversion of buildings or parts of buildings for residential activities) to remove the Design Guide as a matter of discretion and replace with specific design outcomes that are sought.
The Retirement Villages Association of New Zealand Incorporated	FS126.98	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZ-R17	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.98	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZ-R17	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Miriam Moore	433.18	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R17	Support in part	Considers that the 12 to 15m height limit should apply to Rule 17 if the development is for residential use.	Clarify with MUZ-R17 (Conversion of buildings or parts of buildings for residential activities) that all new residential development is subject to the heights specified in MUZ-S2.
Fire and Emergency New Zealand	273.288	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R18	Support in part	Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Supports MUZ-R18 (Outdoor storage areas), with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.289	Commercial and mixed use Zones / Mixed Use Zone / MUZ-R18	Amend	Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Amend MUZ-R18 (Outdoor storage areas) as follows: Activity status: Permitted Where: a. The storage area is screened by either a fence or landscaping of 1.8m in height from any adjoining road or site. b. Screening does not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves, or other emergency response facilities.
Tawa Residential Ventures Ltd	71.2	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S1	Amend	Amend the height control at 4 William Earp Place in Tawa to 21m instead of 12m. This is to allow for multi-storey apartment development.	Amend the height control at MUZ-S1 (Maximum height for the purposes of MUZ-R16.1) for 4 William Earp Place from 12m to 21m.
Tawa Business Group	107.19	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S1	Amend	Considers that the Tawa Junction site (10 Surrey Street) is unique to other MUZ areas in Wellington as it adjoins a HRZ which has a permitted building height of 21m. The Tawa Junction is also well separated from nearby residential properties and is within a walkable 'rapid transport' catchment.	Amend MUZ-S1 (Maximum height purposes of MUZ-R16.1) to increase the maximum permitted height within the Mixed Use Zone in relation to the Tawa Junction site to 22m (creating a new 'Height control area 5').
Wakefield Property Holdings Ltd	108.1	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S1	Amend	Considers that the Tawa Junction site (10 Surrey Street) is unique to other MUZ areas in Wellington as it adjoins a HRZ which has a permitted building height of 21m. The Tawa Junction immediate area is within a walkable 'rapid transport' catchment and is also well separated from surrounding residential properties. Considers that given the separation distance from residential properties, a building of 22m in height will not result in any adverse streetscape, visual amenity, dominance, privacy or shading effects, and would enable the level of additional residential accommodation within the site to be increased. Considers that as the proposed and discretionary building height control of 18m for the Miramar (Ropa Lane, Maupuia Road) MUZ is interfacing a 14m residential heights MRZ this appropriately graduates from a denser 'mixed commercial and residential' form with greater heights, down to lower 'residential zone' heights. The scenario at Tawa Junction however suggests the opposite with the MUZ permitted height standard being 6m lesser than the adjoining residential properties. [Refer to original submission for full reasons].	Amend MUZ-S1 (Maximum height purposes of MUZ-R16.1) to increase the maximum permitted height within the Mixed Use Zone in relation to the Tawa Junction site to 22m (creating a new 'Height control area 5').
Halfway House Heritage Gardeners	203.4	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S1	Amend	Opposes the height controls for 236 and 238 Middleton as considers this does not meet the National Policy Standard for housing as this is not a city centre or on a railway line and there are no neighbourhood shops. Considers that garden centre at 238 Middleton Road would no longer be able to exist if the 15m height control was implemented. The properties bound onto the adjacent public reserve which is a gazetted Historic Reserve, with a scheduled heritage building, (the Halfway House) and a heritage garden. Considers that the heights will impact on this reserve and garden, and does not meet documents such as Heritage Design Guide and Conservation Plan [Refer to original submission for full reason].	Amend MUZ-S1 (Maximum height for the purposes of MUZ-R16.1) so that Glenside has a maximum height limit of 15m. [Inferred decision requested]
Rongotai Investments Limited	269.1	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S1	Amend	Considers the Rongotai South Mixed Use Zone Height Control limits to be inconsistent with the surrounding area [Refer to original submission for full reason].	Seeks to increase Rongotai South Mixed Use Zone Height Control A,B,C and D to 20m

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.290	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S1	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Supports MUZ-S1 (Maximum height for the purposes of MUZ-R16.1), with amendment.
Fire and Emergency New Zealand	273.291	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S1	Amend	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Amend MUZ-S1 (Maximum height for the purposes of MUZ-R16.1) as follows: This standard does not apply to: ... 3. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height by more than 1m; and 4. Lift overruns provided these do not exceed the height by more than 4m; and 5. <u>Emergency service facilities up to 9m in height and hose drying towers up to 15m in height.</u>
Restaurant Brands Limited	349.141	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S1	Support	Support	Retain MUZ-S1 (Maximum height for the purposes of MUZ-R16.1) as notified.
Kāinga Ora Homes and Communities	391.635	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S1	Support in part	Considers that amendments are required to MUZ-S1 to provide for building heights of at least 22 m in all Mixed Use Zone Areas to provide for appropriate levels of density. Considers that the fence height should be enabled up to 2 m.	Retain MUZ-S1 (Maximum height for the purposes of MUZ-R16.1) and seeks amendment.
Greater Wellington Regional Council	FS84.44	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZS1	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Kāinga Ora Homes and Communities	391.636	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S1	Amend	Considers that amendments are required to MUZ-S1 to provide for building heights of at least 22 m in all Mixed Use Zone Areas to provide for appropriate levels of density. Considers that the fence height should be enabled up to 2 m.	Amend MUZ-S1 (Maximum height for the purposes of MUZ-R16.1) as follows: 1. The following maximum height limits above ground level must be complied with:- <u>Buildings and structures must not exceed a maximum height of 22m above ground level.</u> Location Limit Height control area 1 Newtown South Greta Point Tawa South Takapu Island Tauhinu Road 12 metres Rongotai South Mixed Use Zone Height Control A- Rongotai South Mixed Use Zone Height Control B- Shelly Bay- Tawa: Tawa Street

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
					<p>Height control area 2 Tawa Junction Kaiwharawhara 15 metres Kilbirnie North Miramar – Park Road and Weka Street</p> <p>Height control area 3 Rongotai South Mixed Use Zone Height Control B 16 metres Rongotai South Mixed Use Zone Height Control C</p> <p>Height control area 4 Miramar – Ropa Lane, Maupuia Road 18 metres Ngauranga</p> <p>2. Fences and standalone walls must not exceed a maximum height of 1.8 <u>2</u> metres (measured above ground level).</p>
Greater Wellington Regional Council	FS84.45	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZS1	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Polish Association in New Zealand Incorporated	FS88.1	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZ-S1	Support	Support MUZ-S1 that Mixed Use Zones are classified with a maximum building height limit of 22m. Specifically, the Newtown south MUZ centered on Arney St, Newtown, is surrounded by local centre (22m) and high density residential (21m) zones, therefore it is blatantly unfair to current and future property owners within this MUZ to have a restriction of 12m when surrounded by 21m and 22m zones.	Allow / Seeks that the part of the submission to allow a maximum building height of 22m in mixed use zones be allowed (and specifically for the Newtown south MUZ centred on Arney St, Newtown).
Rongotai Investments Ltd	FS92.1	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZS1	Support	Considers that the amendments proposed by Kāinga Ora are similar to the submission proposed by Rongotai Investments.	Allow / Seeks that standard is deleted and replaced with the following: "Buildings and structures must not exceed a maximum height of 22m above ground Level" [Inferred decision requested]
Investore Property Limited	405.84	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S1	Oppose in part	Considers that the height limit for the Tawa Site at 5 William Earp Place and surrounding Mixed Use zone should be increased to 18m. This height is appropriate having regard to the location of the site, and its boundaries with State highway 1, Main Road and the railway line.	Opposes MUZ-S1.1 (Maximum height for the purposes of MUZ-R16.1) and seeks amendment .
Investore Property Limited	405.85	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S1	Amend	Considers that the height limit for the Tawa Site at 5 William Earp Place and surrounding Mixed Use zone should be increased to 18m. This height is appropriate having regard to the location of the site, and its boundaries with State highway 1, Main Road and the railway line.	Amend MUZ-S1.1 (Maximum height for the purposes of MUZ-R16.1) to provide for the Mixed Use zone applying to 5 William Earp Place to have a permitted height of 18m (height control area 4).
Tawa Business Group	107.20	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S2	Support	Considers that the Tawa Junction site (10 Surrey Street) is unique to other MUZ areas in Wellington as it adjoins a HRZ which has a permitted building height of 21m. The Tawa Junction is also well separated from nearby residential properties and is within a walkable 'rapid transport' catchment.	Retain MUZ-S2 (Maximum height for the purposes of MUZ-R16.2) as notified (so that the Tawa Junction Height control remains 22m).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wakefield Property Holdings Ltd	108.2	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S2	Support	<p>Considers that the Tawa Junction site (10 Surrey Street) is unique to other MUZ areas in Wellington as it adjoins a HRZ which has a permitted building height of 21m.</p> <p>The Tawa Junction immediate area is within a walkable 'rapid transport' catchment and is also well separated from surrounding residential properties.</p> <p>Considers that given the separation distance from residential properties, a building of 22m in height will not result in any adverse streetscape, visual amenity, dominance, privacy or shading effects, and would enable the level of additional residential accommodation within the site to be increased.</p> <p>Considers that as the proposed and discretionary building height control of 18m for the Miramar (Ropa Lane, Maupuia Road) MUZ is interfacing a 14m residential heights MRZ this appropriately graduates from a denser 'mixed commercial and residential' form with greater heights, down to lower 'residential zone' heights. Rongotai Investments Limited	269.2	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S2	Amend	Considers the Rongotai South Mixed Use Zone Height Control limits to be inconsistent with the surrounding area [Refer to original submission for full reason].	Seeks to increase Rongotai South Mixed Use Zone Height Control A,B,C and D to 20m

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Restaurant Brands Limited	349.142	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S2	Support	Support	Retain MUZ-S2 (Maximum height for the purposes of MUZ-R16.2) as notified.
Kāinga Ora Homes and Communities	391.637	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S2	Oppose	Opposes MUZ-S2 and for single maximum height standard to apply to the zone.	Delete MUZ-S2 (Maximum height for the purposes of MUZ-R16.2) in its entirety as notified.
Investore Property Limited	405.86	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S2	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain MUZ-S2 (Maximum height for the purposes of MUZ-R16.2) as notified.
Miriam Moore	433.19	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S2	Amend	Seeks clarification as to whether an existing building was converted to residential, with additions made to it, would fall under this rule. Proposes that MUZ-R16.1 and/or MUZR17 allow the height limits outlined in MUZ-S2 if the additions in height are for residential use. Notes that some buildings may have an appropriate base to add residential on.	Clarify that all new residential height is the heights specified in MUZ-S2 (Maximum height for the purposes of MUZ-R16.2).
Halfway House Heritage Gardeners	203.8	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S3	Amend	Considers that the application of a recession plane standard to sites adjoining scheduled heritage will to some extent avoid the adverse effects of visual dominance which can arise when new buildings are out of scale with the existing environment. [Refer to original submission for full reason]. Considers council meeting sought to include recession planes for sites adjacent to Open Space B however these properties have been overlooked in Proposed District Plan.	Amend MUZ-S3 (Height in relation to boundary) to 3 metres and 45 degrees for 236 Middleton Road and 238 Middleton Road.
Fire and Emergency New Zealand	273.292	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S3	Support in part	Seeks the inclusion of an exemption for emergency facilities and associated hose drying towers for the reasons set out in the previous feedback point on MUZ-S1.	Supports MUZ-S3 (Height in relation to boundary), with amendment.
Fire and Emergency New Zealand	273.293	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S3	Amend	Seeks the inclusion of an exemption for emergency facilities and associated hose drying towers for the reasons set out in the previous feedback point on MUZ-S1.	Amend MUZ-S3 (Height in relation to boundary) as follows: This standard does not apply to: ... d. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height in relation to boundary by more than 3m measured vertically; and e. Lift overruns, provided these do not exceed the height in relation to boundary by more than 1m measured vertically; <u>and</u> f. <u>Emergency facilities up to 9m in height and associated hose drying towers up to 15m in height.</u>
Restaurant Brands Limited	349.143	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S3	Support	Support	Retain MUZ-S3 (Height in relation to boundary) as notified.
Kāinga Ora Homes and Communities	391.638	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S3	Support	Considers that amendments to MUZ-S3 are required to achieve consistency with any changes sought to MUZ-S1 and MUZ-S2.	Retain MUZ-S2 (Height in relation to boundary) and seeks amendment.
Kāinga Ora Homes and Communities	391.639	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S3	Amend	Considers that amendments to MUZ-S3 are required to achieve consistency with any changes sought to MUZ-S1 and MUZ-S2.	Seeks to amend MUZ-S2 (Height in relation to boundary) to align with changes sought to MUZ-S1 and MUZ-S2.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
McDonald's	274.42	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S4	Oppose	Considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete MUZ-S4 (Minimum ground floor height in its entirety).
Restaurant Brands Limited	349.144	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S4	Oppose	Opposed to the minimum floor-to-floor ceiling heights for new development. The standard is overly prescriptive, does not provide for the specific requirements of drive-through facilities, and is unworkable from an operational perspective, and will only serve to increase the cost and/or regulatory processes of the development.	Delete MUZ-S4 (Minimum ground floor height) in its entirety.
Foodstuffs North Island	FS23.50	Part 3 / Commercial and mixed/ Mixed Use Zone / MUZ-S4 use Zones	Support	Submission point 349.144 supports FSNI submission point 476.38.	Allow
Foodstuffs North Island	476.38	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S4	Oppose	Whilst supportive of certain bulk and location standards in the Commercial and Mixed Use zones, considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete MUZ-S4 (Minimum ground floor height) in its entirety.
Restaurant Brands Limited	349.145	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S5	Support	Support	Retain MUZ-S5 (Windows adjacent to residential zones) as notified.
Kāinga Ora Homes and Communities	391.640	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S5	Support in part	Generally supports MUZ-S5, however, considers that as the intent is to maintain privacy for residential units' amendments are sought to exclude the provisions from applying to windows in residential units in the MUZ as the effects are comparable to those experienced between residential units in residential zones.	Retain MUZ-S5 (Windows adjacent to Residential Zones) and seeks amendment.
Kāinga Ora Homes and Communities	391.641	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S5	Amend	Generally supports MUZ-S5, however, considers that as the intent is to maintain privacy for residential units' amendments are sought to exclude the provisions from applying to windows in residential units in the MUZ as the effects are comparable to those experienced between residential units in residential zones.	Amend MUZ-S5 (Windows adjacent to Residential Zones) and seeks amendment as follows: 1. <u>Except for windows in a residential unit</u> opaque privacy glazing must be installed in windows where:
Restaurant Brands Limited	349.146	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S6	Support	Support	Retain MUZ-S6 (Maximum gross floor area of buildings) as notified.
Woolworths New Zealand	359.74	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S6	Amend	Considers that MUZ-S6 should be amended to establish a baseline for the development of supermarket buildings in the MUZ which is in line with the scale established under MUZ-R12. This is considered a commensurate response given the typical scale of supermarket buildings in this zone.	Amend MUZ-S6 (Maximum gross floor area of buildings) as follows: 1. Any building (<u>except for supermarkets</u>) must not exceed a maximum gross floor area of 500m2. 2. <u>Any supermarket building must not exceed a maximum gross floor area of 1500m2</u>
Foodstuffs North Island	FS23.17	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZ-S6	Support	Submitter agrees with amendment in submission point 359.74.	Allow
Kāinga Ora Homes and Communities	391.642	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S6	Oppose	Opposes MUZ-S6 as it constrains development and design flexibility, and it is not clear what positive outcome it achieves. Considers that MUZ-R11 & MUZ-R12 provide limits for integrated retail activity and supermarket floor areas and so it is unclear what the purpose of this rule is as it would unnecessarily constrain those developments.	Delete MUZ-S6 (Maximum gross floor area of buildings) in its entirety as notified.
VicLabour	414.38	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S6	Amend	Considers the maximum permitted building gross floor area standard (MUZ-S6) of 500m2 may not be reasonable and should be extended or removed in order to support greater density and further development in these zones. Considers that cost efficiencies that may occur at larger scale developments and the ability this provides for a range of housing types to be catered for as well as more shared spaces and facilities.	Seeks that the permitted building activity standard of 500m2 in MUZ-S6 (Maximum gross floor area of buildings) be removed.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
VicLabour	414.39	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S6	Oppose in part	Considers the maximum permitted building gross floor area standard (MUZ-S6) of 500m2 may not be reasonable and should be extended or removed in order to support greater density and further development in these zones. Considers that cost efficiencies that may occur at larger scale developments and the ability this provides for a range of housing types to be catered for as well as more shared spaces and facilities.	Seeks that the permitted building activity standard of 500m2 in MUZ-S6 (Maximum gross floor area of buildings) be removed.
VicLabour	414.40	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S6	Amend	Considers the maximum permitted building gross floor area standard (MUZ-S6) of 500m2 may not be reasonable and should be extended or removed in order to support greater density and further development in these zones. Considers that cost efficiencies that may occur at larger scale developments and the ability this provides for a range of housing types to be catered for as well as more shared spaces and facilities.	Seeks that the permitted building activity standard of 500m2 in MUZ-S6 (Maximum gross floor area of buildings) be increased.
Willis Bond and Company Limited	416.104	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S6	Oppose	Considers the gross floor area cap is overly restrictive and we do not consider there is good evidence for such a cap. 500m2 is a very low gross floor area and will hinder development.	Delete MUZ-S6 (Maximum gross floor area of buildings) in its entirety.
Willis Bond and Company Limited	416.105	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S6	Oppose	Considers the gross floor area cap is overly restrictive and we do not consider there is good evidence for such a cap. 500m2 is a very low gross floor area and will hinder development.	Amend MUZ-S6 (Maximum gross floor area of buildings) to significantly increase the cap.
Restaurant Brands Limited	349.147	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S7	Support	Support	Retain MUZ-S7 (Verandah control) as notified.
Z Energy Limited	361.64	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S7	Support in part	MUZ-S7 is partially supported for its intent as it relates to specific sites identified on the Planning Maps with a 'verandah control'.	Retain MUZ-S7 (Verandah control) with amendment.
Z Energy Limited	361.65	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S7	Amend	Considers that MUZ-S7 should be amended to provide an exception to MUZ-S7 where there is a functional requirement for a building not to contain a verandah. the performance standard would apply if Z Energy was seeking consent for a building or structure and requires a verandah to extend the full width of the building elevation. This is not practical in the context of a service station, where the buildings on the site are usually a canopy over the refuelling area and the ancillary retail building to one side or to the rear. (Option A)	Amend MUZ-S7 (Verandah control) as follows: 1. <u>Except where there is a functional requirement for a building to not contain a verandah</u> , any verandah constructed on any building frontage facing a public space, including roads, must:
Z Energy Limited	361.66	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S7	Amend	Considers that MUZ-S7 should be amended to provide an exception to MUZ-S7 where there is a functional requirement for a building not to contain a verandah. the performance standard would apply if Z Energy was seeking consent for a building or structure and requires a verandah to extend the full width of the building elevation. This is not practical in the context of a service station, where the buildings on the site are usually a canopy over the refuelling area and the ancillary retail building to one side or to the rear. This exception could also be specific to service stations. (Option B)	Amend MUZ-S7 (Verandah control) as follows: ... <u>This standard does not apply to:</u> a. <u>Service stations.</u>
Kāinga Ora Homes and Communities	391.643	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S8	Support in part	Supports MUZ-S8 in part but seeks amendments to remove the minimum standard for 2+ bedroom units to enable greater design flexibility and a smaller studio unit.	Retain MUZ-S8 (Minimum residential unit size) and seeks amendment.
Kāinga Ora Homes and Communities	391.644	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S8	Amend	Supports MUZ-S8 in part but seeks amendments to remove the minimum standard for 2+ bedroom units to enable greater design flexibility and a smaller studio unit.	Amend MUZ-S8 (Minimum residential unit size) as follows: 1. Residential units, including dual key units, must meet the following minimum sizes: Residential unit type Minimum net floor area Studio unit 30m ² 1 or more bedroom unit 40m ² 2+ bedroom unit 55m ²

Commercial and Mixed use - Metropolitan Centre Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.106	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S8	Oppose	Opposes MUZ-S8 as the submitter considers: - Minimum residential unit sizes restrict the ability of developers to provide affordable housing choices and a diverse range of housing that meets market demands. - Occupiers are well-equipped to make their own decisions as to the type and size of dwelling. - Health, fire egress and overcrowding issues that arise from small sized dwellings are best dealt with by other legislation (e.g. Building Act 2004, Housing Improvement Regulations 1947, Residential Tenancies Act 1986). - Minimum unit sizes do not reflect the policy in MUZ-P1 to offer a range of housing price, type, size and tenure.	Delete MUZ-S8 (Minimum residential unit size) in its entirety.
Willis Bond and Company Limited	416.107	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S8	Amend	Opposes MUZ-S8 as the submitter considers: - Minimum residential unit sizes restrict the ability of developers to provide affordable housing choices and a diverse range of housing that meets market demands. - Occupiers are well-equipped to make their own decisions as to the type and size of dwelling. - Health, fire egress and overcrowding issues that arise from small sized dwellings are best dealt with by other legislation (e.g. Building Act 2004, Housing Improvement Regulations 1947, Residential Tenancies Act 1986). - Minimum unit sizes do not reflect the policy in MUZ-P1 to offer a range of housing price, type, size and tenure.	Seeks that if Council does decide to retain minimum residential unit sizes, it should be clearly defined that hotel accommodation, student accommodation and other similar accommodation types are distinct from residential unit sizes. The definition of residential units does not clearly exclude student accommodation and may render it subject to these minimum sizes.
Retirement Villages Association of New Zealand Incorporated	350.268	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S9	Oppose in part	Considers retirement villages should be excluded from this standard as in the MRZ and HRZ zones.	Opposes MUZ-S9 (Outdoor living space for residential units) and seeks amendment to exclude retirement villages.
Kāinga Ora Homes and Communities	391.645	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S9	Support in part	Generally supports MUZ-S9.	Retain MUZ-S9 (Outdoor living space for residential units) as notified.
Willis Bond and Company Limited	416.108	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S9	Oppose	Opposes MUZ-S9 as the submitter considers: - Minimum outdoor living space sizes restrict the ability of developers to provide affordable housing choices and a diverse range of housing that meets market demands. - Occupiers are well-equipped to make their own decisions as to the type and size of dwelling. - Health, fire egress and overcrowding issues that arise from lack of outdoor living space are best dealt with by other legislation (e.g. Building Act 2004, Housing Improvement Regulations 1947, Residential Tenancies Act 1986). - Minimum outdoor living space sizes do not reflect the policy in MUZ-P1 to offer a range of housing price, type, size and tenure.	Delete MUZ-S9 (Outdoor living space for residential units) in its entirety.
Willis Bond and Company Limited	416.109	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S10	Oppose	[No specific reason given beyond decision requested - refer to original submission]	Delete MUZ-S10 (Minimum Outlook space for multi-unit housing). [Inferred decision requested].
Yvonne Weeber	340.105	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S11	Support	MUZ-S11 is supported. It is noted that over 50% of the frontage is now a blank façade under a verandah level.	Retain MUZ-S11 (Lyll Bay Parade frontage control) as notified.
Willis Bond and Company Limited	416.110	Commercial and mixed use Zones / Mixed Use Zone / MUZ-S11	Amend	Considers there should be more flexibility to breach the standard where the overall design has a positive effect on the streetscape.	Amend MUZ-S11 (Lyll Bay Parade frontage control) as follows: 1.New buildings built on a site adjoining the Open Space Zone and Recreation Zoned land fronting Lyall Parade must be built in alignment with the existing Lyall Parade street frontage <u>or otherwise enhances the streetscape</u> ; and ...
Oliver Sangster	112.12	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Support	Considers that Johnsonville Centre has huge development potential as flat sunny land right next to the Johnsonville railway, numerous open space parks and Waitohi library.	Retain upzoning and intensification of the Johnsonville Mall area as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Bus Barn Limited	320.1	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Support	MCZ provisions are generally supported with respect to the height increase, but some amendments are sought regarding height standards.	Retain the Metropolitan Centre Zone chapter, with amendment.
Retirement Villages Association of New Zealand Incorporated	350.269	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Amend	Considers policy support for retirement villages in the Metropolitan Centre Zone is required.	<p>Add the following new policies in the Metropolitan Centre Zone chapter and amend current objectives and policies for consistency:</p> <p><u>Provision of housing for an ageing population</u> <u>1. Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u> <u>2. Recognise the functional and operational needs of retirement villages, including that they:</u> <u>a. May require greater density than the planned urban built character to enable efficient provision of services.</u> <u>b. Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u></p> <p><u>Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the [add] zone will change over time to enable a variety of housing types with a mix of densities.</u></p> <p><u>Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within the [add] zone by providing for more efficient use of those sites.</u></p>
Z Energy Limited	361.67	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Support	Supports MCZ zoning in Kilbirnie and Johnsonville. The purpose of the Metropolitan Centre Zone (MCZ) is to provide predominantly for a broad range of commercial, community, recreational and residential activities. The zone is a focal point for sub-regional urban catchments and provides significant support to the City Centre Zone by offering key services to the outer suburbs of Wellington City and the wider region. It seeks pleasant and interesting pedestrian environment.	Retain the Metropolitan Centre Zone chapter as notified.
Waka Kotahi	370.404	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Support	Supports provision for active and public transport, consideration of function of the transport network, the discouragement of carparking visible at street edge along an active frontage and the quality design outcomes.	Retain the Metropolitan Centre Zone chapter as notified.
Kāinga Ora Homes and Communities	391.646	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Support in part	The use of standards to manage potential adverse effects across the PDP is generally supported, but changes are sought.	Retain the Metropolitan Centre Zone chapter with amendment.
Kāinga Ora Homes and Communities	391.647	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Amend	<p>Considers that MCZ height controls should be amended to ensure the NPSUD and the Housing Supply Act are effectively and efficiently implemented, that intensification is enabled in areas of high accessibility to commercial amenity, community services and public transport, and that height controls enable a transition of height and density within the urban built form from higher heights and densities in centres.</p> <p>There may be a number of other consequential changes needed to standards to give effect to these height adjustments, such as increasing height in associated wind and daylight standards. These changes should be proportionate to the changes in building height sought to address any transition issues between zones and provide for increased levels of intensification.</p>	Amend the Metropolitan Centre Zone chapter to add a height control of 29m within 400m walkable catchment of a Metropolitan Centre Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	FS82.107	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Oppose	Considers the proposed increases in height controls within walkable catchments of the MCZ goes well beyond requirements of NPS-UD and are inappropriate in light of amenity values of the neighbouring suburbs.	Disallow
Greater Wellington Regional Council	FS84.46	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Kāinga Ora Homes and Communities	391.648	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Support in part	Supports the introduction and application of a Metropolitan Centre Zone in the Draft District Plan, but considers that amendments are required to better reflect density and design outcomes anticipated in the NPS-UD.	Retain the introduction text in the Metropolitan Centre Zone and seeks amendment.
Kāinga Ora Homes and Communities	391.649	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Amend	Supports the introduction and application of a Metropolitan Centre Zone in the Draft District Plan, but considers that amendments are required to better reflect density and design outcomes anticipated in the NPS-UD.	Amend the introduction text in the Metropolitan Centre Zone as follows: ... The Johnsonville and Kilbirnie metropolitan centres will play a critical role in accommodating forecast population growth and have significant development/redevelopment potential. To support and encourage intensification, the Metropolitan Centre Zone provides substantial height limits <u>significant opportunity for building height</u> . Given the significant development potential in the Metropolitan Centre Zones, comprehensive development and the integrated and coordinated development of larger sites is required to act as a catalyst for positive change and demonstrate density done well. High quality building design <u>Achieving well designed buildings</u> is a focus for these centres and <u>criteria are included to deliver this outcome</u> . <u>The building typology and design is encouraged to be significantly different to the existing built form</u> transition to more intensive use in metropolitan centres will result in significant changes to existing amenity values and design in the centres and their surrounds . Redevelopment will be supported by a range of measures to promote good design and environmental outcomes and address amenity issues. Accordingly, most building activities will require a resource consent and an assessment against the Centres and Mixed Use Design Guide. There is an identified need for significant residential intensification within and around the Metropolitan Centres. These centres are subject to the intensification policies 3 (b) and (c) of the National Policy Statement on Urban Development 2020 (NPS-UD) . Accordingly, residential activity is permitted above ground floor within the centres and the High Density Residential Zone has been applied within a walkable catchment of the edge of these centres. The cumulative risk from natural hazards in Kilbirnie is that the intensification of this area has been tempered as a qualifying matter under Subpart 6, clause 3.32 of the NPS-UD has been addressed by applying a natural hazards overlay.
Investore Property Limited	405.87	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Support	Supports the recognition of Johnsonville as a Metropolitan Centre of sub-regional importance.	Not specified.
Investore Property Limited	405.88	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Support in part	Supports the introduction statement except for the statement that most building activities will require resource consent and an assessment against the Centres and Mixed Use design guide.	Retain the introductory text of the Metropolitan Centre Zone chapter and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Investore Property Limited	405.89	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Amend	Supports the introduction statement except for the statement that most building activities will require resource consent and an assessment against the Centres and Mixed Use design guide.	Seeks to amend the fourth paragraph of the introductory text of the Metropolitan Centre Zone chapter to: ... High quality building design is a focus for these centres. The transition to more intensive use in metropolitan centres will result in significant changes to existing amenity values and design in the centres and their surrounds. Redevelopment will be supported by a range of measures to promote good design and environmental outcomes and address amenity issues. Accordingly, most building activities will require a resource consent and an assessment against the Centres and Mixed Use Design Guide. ...
Investore Property Limited	405.90	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Support	Supports the objectives and policies for the Metropolitan Centre zone generally, and specifically supports the recognition of the sub-regional role of these centres, the recognition of high-density development, and the enablement of a wide range of activities. Specific changes are sought to particular provisions.	Retain Metropolitan Centre Zone's objectives and policies with amendments.
Willis Bond and Company Limited	416.111	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Amend	Submitter notes the effect that the more permissive medium density residential standards will have on other zones. The zones supporting higher density development have more restrictive standards than in the MRZ, creating a risk that new development is concentrated in the more permissive MRZ at the exclusion of denser zones where Council wishes to encourage greater development. The PDP should ensure that the restrictions within denser zones are not substantially more restrictive than within the MRZ. [Refer to original submission for full reason].	Seeks that Council consider the relationship between the Medium Density Residential Zone and denser zones (i.e. the High Density Residential Zone, Large Lot Residential Zone, Neighbourhood Centre Zone, Local Centre one, Commercial Zone, Mixed Use Zone, Metropolitan Centre Zone and City Centre Zone) to ensure development is not unduly restricted in denser zones by greater restrictions and Council discretion.
Willis Bond and Company Limited	416.112	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Amend	Considers the medium density residential standards should apply across the Metropolitan Centre Zone in a similar way to the High Density Residential Zone. This would help encourage more development within Metropolitan Centre Zones. The active frontage controls in MCZ-S6 should still apply, as well as the rule in MCZ-R12 preventing residential at ground level.	Amend Metropolitan Centre Zone chapter to include the equivalent of HRZ-P4 (Medium density residential standards).
Willis Bond and Company Limited	416.113	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Amend	Considers the medium density residential standards should apply across the Metropolitan Centre Zone in a similar way to the High Density Residential Zone. This would help encourage more development within Metropolitan Centre Zones. The active frontage controls in MCZ-S6 should still apply, as well as the rule in MCZ-R12 preventing residential at ground level.	Amend Metropolitan Centre Zone chapter to incorporate the medium density residential standards (as incorporated in the High Density Residential Zone).
Johnsonville Community Association	429.40	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Amend	Considers that the key purpose of the Johnsonville Shopping Centre is to provide the range or retail and services required to support surrounding residential areas. Submitter is concerned the WCC emphasis on building residential development within the Johnsonville Shopping Centre will compromise the focus of the centre and possibly further delay redevelopment of the Johnsonville Mall.	Seeks that the statement that residential development is to be a key focus of Metropolitan Centre is amended to be reduced to Residential Developments can also be supported as long as they do not compromise the core purpose of the centre as outlined by the current District Plan.
Stride Investment Management Limited	FS107.2	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Oppose	Stride supports residential development in the Metropolitan Centre Zone as it is part of a well-functioning urban environment, and is opposed to the introduction of additional limitations to residential activity in this zone.	Disallow
Investore Property Limited	FS108.2	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Oppose	Investore supports residential development in the Metropolitan Centre Zone as it is part of a well-functioning urban environment, and is opposed to the introduction of additional limitations to residential activity in this zone.	Disallow
John Wilson	453.12	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Not specified	[No specific reason given beyond decision requested - refer to original submission]	Seeks clarification in relation to zoning around Metropolitan Centre Zones - why High Density Residential rules also apply to the Johnsonville centre compared to the Kilbirnie residential centre. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
John Wilson	453.13	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Oppose	Opposes the provisions in the Plan applying to the "Johnsonville Metropolitan Centre Zone". [Refer to original submission for full reason]	Delete all provisions related to "Johnsonville Metropolitan Centre Zone". [Inferred decision requested]
Stride Investment Management Limited	470.23	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Support	Supports the Metropolitan Centre Zoning of the Johnsonville Centre.	Retain as notified.
Stride Investment Management Limited	470.24	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Support in part	Supports in part the introduction.	Retain the introduction as notified, with amendments.
Stride Investment Management Limited	470.25	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Amend	Seeks to amend part of the introduction. Specifically the statement that most building activities will require resource consent and an assessment against the Centres and Mixed Use design guide. [Refer to original submission for full reason].	Amend the introduction as follows: "...Redevelopment will be supported by a range of measures to promote good design and environmental outcomes and address amenity issues. Accordingly, most building activities will require a resource consent and an assessment against the Centres and Mixed Use Design Guide. "
Stride Investment Management Limited	470.26	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Support in part	Supports the objectives and policies of the Metropolitan Centre Zone. Supports the sub-regional role of these centres, the recognition of high-density development, and the enablement of a wide range of activities.	Retain Metropolitan Centre Zone objectives and policies as notified, with amendments.
Foodstuffs North Island	476.39	Commercial and mixed use Zones / Metropolitan Centre Zone / General MCZ	Support in part	Generally supports the objectives and policies for the Metropolitan Centre Zone, and specifically supports the recognition of medium and high-density development and the enablement of a wide range of activities.	Retain the Metropolitan Centre Zone objectives and policies, with amendments. [Inferred decision requested].
Retirement Villages Association of New Zealand Incorporated	350.270	Commercial and mixed use Zones / Metropolitan Centre Zone / New MCZ	Amend	Considers policy support for retirement villages in the Metropolitan Centre Zone is required.	Add the following new policies in the Metropolitan Centre Zone chapter and amend current objectives and policies for consistency: <u>Provision of housing for an ageing population</u> <u>1. Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u> <u>2. Recognise the functional and operational needs of retirement villages, including that they:</u> <u>a. May require greater density than the planned urban built character to enable efficient provision of services.</u> <u>b. Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u> <u>Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the [add] zone will change over time to enable a variety of housing types with a mix of densities.</u> <u>Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within the [add] zone by providing for more efficient use of those sites.</u>
Retirement Villages Association of New Zealand Incorporated	350.271	Commercial and mixed use Zones / Metropolitan Centre Zone / New MCZ	Amend	As currently drafted retirement villages would be a permitted or discretionary activity under the 'residential activities' rule of the Local Centre Zone (LCZ-R10). Considers that the Local Centre Zone should have a retirement village specific rule that provides for retirement villages as a permitted activity (with the construction of the retirement villages being a restricted discretionary activity under LCZ-R18). Permitted activity status recognises retirement villages are residential activities and provide substantial benefit by way of enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	Add new 'Retirement villages' in the Local Centres Zone chapter rule as follows: <u>LCZ-RX Retirement villages</u> <u>1. Activity status: Permitted</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	408.128	Commercial and mixed use Zones / Metropolitan Centre Zone / New MCZ	Amend	<p>Considers that building setbacks are essential to address significant safety hazards associated with the operational rail corridor.</p> <p>Parts of the KiwiRail network adjoin commercial and mixed use zones that do not currently include provision for boundary setbacks for buildings and structures.</p> <p>KiwiRail seek a boundary setback of 5m from the rail corridor for all buildings and structures, and that the rail corridor be recognised as a qualifying matter in relevant non-residential zones in accordance with section 77(1)(o) of the RMA.</p> <p>Consistent with the amendment requested for the assessment criteria in the residential zones, KiwiRail considers that a matter of discretion directing consideration of impacts on the safety and efficiency of the rail corridor is appropriate in situations where the 5m setback standard is not complied with in all zones adjacent to the railway corridor.</p>	<p>Add new standard as follows:</p> <p><u>MCZ-SX:</u> <u>Boundary setbacks.</u> <u>Buildings or structures must not be located within a 5m setback from a rail corridor boundary.</u></p> <p>AND seeks that as applicable, the following matter of discretion be inserted:</p> <p><u>Matters of discretion:</u> <u>(X) The location and design of the building as it relates to the ability to safely use, access and maintain buildings without requiring access on, above or over the rail corridor.</u></p>
Kāinga Ora – Homes and Communities	FS89.39	Part 3 / Commercial and Mixed Use Zones / Metropolitan Zone / New MCZ	Oppose	Kāinga Ora opposes the relief sought; a considerably reduced set back would provide adequate space for maintenance activities within sites adjacent to the rail network. In doing so, it will continue to protect the safe, efficient, and effective operation of the rail infrastructure while balancing the cost on landowners.	Disallow
Stride Investment Management Limited	FS107.24	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / New MCZ	Oppose	Stride is opposed to identifying a setback area within 5m of the rail corridor as a qualifying matter. This is not necessary for the safe or efficient operation of the railway line, which is already provided for through KiwiRail's designation. Imposing an additional setback as proposed would inappropriately constrain development outside of the rail designation, and inappropriately externalises the costs of the infrastructure on to private landowners. We note that KiwiRail is a Requiring Authority so has the ability to designate private land in order to acquire the interests required for their operations if the existing designation is insufficient.	Disallow
Investore Property Limited	FS108.24	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / New MCZ	Oppose	Investore is opposed to identifying a setback area within 5m of the rail corridor as a qualifying matter. This is not necessary for the safe or efficient operation of the railway line, which is already provided for through KiwiRail's designation. Imposing an additional setback as proposed would inappropriately constrain development outside of the rail designation, and inappropriately externalises the costs of the infrastructure on to private landowners. We note that KiwiRail is a Requiring Authority so has the ability to designate private land in order to acquire the interests required for their operations if the existing designation is insufficient.	Disallow
Restaurant Brands Limited	349.148	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-01	Support	Support	Retain MCZ-01 (Purpose) as notified.
Z Energy Limited	361.68	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-01	Support	Supports the objectives of the MCZ which seek to meet the sub-regional needs of communities, businesses and residents in a manner that supports the City's compact urban growth objectives.	Retain MCZ-01 (Purpose) as notified.
Kāinga Ora Homes and Communities	391.650	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-01	Support	Generally supports MCZ-01.	Retain MCZ-01 (Purpose) as notified.
Investore Property Limited	405.91	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-01	Support	Supports the objectives and policies for the Metropolitan Centre zone generally, and specifically supports the recognition of the sub-regional role of these centres, the recognition of high-density development, and the enablement of a wide range of activities. Specific changes are sought to particular provisions.	Retain MCZ-01 (Purpose) with amendments.
Willis Bond and Company Limited	416.114	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-01	Support	Generally supports the intent of the Metropolitan Centre Zone.	Retain MCZ-01 (Purpose) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.294	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O2	Support	Supports the objective as it seeks to ensure that residential and commercial growth needs are met through land specifically zoned for this purpose with the provision of adequate infrastructure for housing and business use.	Retain MCZ-O2 (Accommodating growth) as notified.
Restaurant Brands Limited	349.149	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O2	Support	Support	Retain MCZ-O2 (Accommodating growth) as notified.
Z Energy Limited	361.69	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O2	Support	Supports the objectives of the MCZ which seek to meet the sub-regional needs of communities, businesses and residents in a manner that supports the City's compact urban growth objectives.	Retain MCZ-O2 (Accommodating growth) as notified.
Kāinga Ora Homes and Communities	391.651	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O2	Support	Generally supports MCZ-O2.	Retain MCZ-O2 (Accommodating growth) as notified.
Ministry of Education	400.138	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O2	Support in part	Supports MCZ-O2 in part.	Retain MCZ-O2 (Accommodating growth) with amendment.
Ministry of Education	400.139	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O2	Amend	Seeks MCZ-O2 is amended to explicitly recognise and provide for educational facilities in the MCZ.	Amend MCZ-O2 (Accommodating growth) as follows: Accommodating growth The Metropolitan Centre Zone plays a significant role in accommodating growth and has sufficient serviced, resilient development capacity <u>and additional infrastructure</u> to meet commercial and residential growth needs.
Investore Property Limited	405.92	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O2	Support	Supports the objectives and policies for the Metropolitan Centre zone generally, and specifically supports the recognition of the sub-regional role of these centres, the recognition of high-density development, and the enablement of a wide range of activities. Specific changes are sought to particular provisions.	Retain MCZ-O2 (Accommodating Growth) with amendments.
Willis Bond and Company Limited	416.115	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O2	Support	Generally supports the intent of the Metropolitan Centre Zone.	Retain MCZ-O2 (Accommodating growth) as notified.
Restaurant Brands Limited	349.150	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O3	Support	Support	Retain MCZ-O3 (Amenity and design) as notified.
Retirement Villages Association of New Zealand Incorporated	350.264	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O3	Amend	Considers that the current drafting of MUZ-O4 is inconsistent with Objectives 1 and 2 of the MDRS. Objectives 1 and 2 of the Act should be included in the Proposed Plan verbatim to their drafting in the MDRS. Questions what the context is in relation to contributing 'positively' to a changing and well-functioning urban environment. Considers that it is unclear what this would entail, particularly when considering that the definition of 'well functioning urban environment' consists of a list of positive / beneficial matters. Considers that it is not clear if this phrasing is stipulating that additional benefit is required in order to contribute 'positively'.	Retain MCZ-O3 (Amenity and design) and seeks amendment as follows: Medium and high density mixed-use development is achieved that positively contributes to a good quality, well-functioning urban environment that reflects the changing urban form and amenity values of the Metropolitan Centres Zone.
Retirement Villages Association of New Zealand Incorporated	350.272	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O3	Oppose in part	Considers that the current drafting of MCZ-O3 is inconsistent with Objectives 1 and 2 of the MDRS. Objectives 1 and 2 of the Act should be included in the Proposed Plan verbatim to their drafting in the MDRS. Questions what the context is in relation to contributing 'positively' to a changing and well-functioning urban environment. Considers that it is unclear what this would entail, particularly when considering that the definition of 'well functioning urban environment' consists of a list of positive / beneficial matters. Considers that it is not clear if this phrasing is stipulating that additional benefit is required in order to contribute 'positively'.	Opposes MCZ-O3 (Amenity and design) and seeks amendment as follows: Medium and high density mixed-use development is achieved that positively contributes to a good quality, well-functioning urban environment that reflects the changing urban form and amenity values of the Metropolitan Centres Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Z Energy Limited	361.70	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O3	Support	Supports the objectives of the MCZ which seek to meet the sub-regional needs of communities, businesses and residents in a manner that supports the City's compact urban growth objectives.	Retain MCZ-O3 (Amenity ad design) as notified.
Kāinga Ora Homes and Communities	391.652	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O3	Support	Generally supports MCZ-O3 but considers that amendments are required to better reflect the density and design outcomes necessary to reflect the centre's location in the Centres hierarchy and the NPS-UD outcomes.	Retain MCZ-O3 (Amenity and design) and seeks amendment as follows: Medium and high density mixed-use development is achieved that positively contributes to a good quality, well-functioning urban environment <u>with a changing compact that reflects the changing urban form supporting high and</u> amenity values of <u>streets and public places</u> the Metropolitan Centres Zone.
Investore Property Limited	405.93	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O3	Support	Supports the objectives and policies for the Metropolitan Centre zone generally, and specifically supports the recognition of the sub-regional role of these centres, the recognition of high-density development, and the enablement of a wide range of activities. Specific changes are sought to particular provisions.	Retain MCZ-O3 (Amenity and design) with amendments.
Willis Bond and Company Limited	416.116	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O3	Support	Generally supports the intent of the Metropolitan Centre Zone.	Retain MCZ-O3 (Amenity and design) as notified.
Restaurant Brands Limited	349.151	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O4	Support	Support	Retain MCZ-O4 (Activities) as notified.
Z Energy Limited	361.71	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O4	Support	Supports the objectives of the MCZ which seek to meet the sub-regional needs of communities, businesses and residents in a manner that supports the City's compact urban growth objectives.	Retain MCZ-O4 (Activities) as notified.
Kāinga Ora Homes and Communities	391.653	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O4	Support	Generally supports MCZ-O4 but considers that amendments are required to better reflect the centre's location in the Centres hierarchy and the NPS ^{UD} outcomes.	Retain MCZ-O4 (Activities) and seeks amendment as follows: Activities will be of an appropriate scale and type to enhance the vibrancy and viability of <u>the sub-regional</u> Metropolitan Centres, and reflect their sub regional purpose.
Investore Property Limited	405.94	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O4	Support	Supports the objectives and policies for the Metropolitan Centre zone generally, and specifically supports the recognition of the sub-regional role of these centres, the recognition of high-density development, and the enablement of a wide range of activities. Specific changes are sought to particular provisions.	Retain MCZ-O4 (Activities) with amendments.
Willis Bond and Company Limited	416.117	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-O4	Support	Generally supports the intent of the Metropolitan Centre Zone.	Retain MCZ-O4 (Activities) as notified.
McDonald's	274.43	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P1	Support in part	Supports the objectives and policies for the Neighbourhood, Local and Metropolitan Centre zones, and specifically supports the recognition of medium and high-density development and the enablement of a wide range of activities.	Retain MCZ-P1 (Accommodating growth), subject to amendments, as outlined other submission points.
McDonald's	274.44	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P1	Amend	Submitter is opposed to the references on undermining the ongoing viability, vibrancy and primacy of the other Centre zones	Seek that MCZ-P1.1 (Accommodating growth) is amended as follows: 1. A variety of building types, sizes, tenures, affordability and distribution of a scale and intensity that does not undermine the ongoing viability and vibrancy of the Local Centre Zone and Metropolitan Centre Zone and primacy of the City Centre Zone <u>supports the purpose of the zone;</u>
Kāinga Ora – Homes and Communities	FS89.84	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P1	Oppose	Kāinga Ora considers that the scale and primacy of Centres is critical in achieving a well-functioning urban environment and intensification outcomes.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Restaurant Brands Limited	349.152	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P1	Support	Support	Retain MCZ-P1 (Accommodating growth) as notified.
Foodstuffs North Island	FS23.51	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P1	Oppose	Submission point 349.152 seeks to retain MCZ-P1 as notified. FSNI submission point 476.40 seeks that this policy is amended.	Disallow / Reject submission in part.
Retirement Villages Association of New Zealand Incorporated	350.273	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P1	Support	Supports MCZ-P1 and its accommodation for growth and a variety of building types, sizes, tenures, affordability, density, and efficient use of available development sites.	Retain MCZ-P1 (Accommodating growth) as notified.
Z Energy Limited	361.72	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P1	Support in part	MCZ-P1 is supported as it provides for the use and development of the Metropolitan Centre Zone to meet the City's needs.	Retain MCZ-P1 (Accommodating growth) with amendment.
Z Energy Limited	361.73	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P1	Amend	Considers that MCZ-P1 should include additional emphasis to the provision of, or convenient access to, a range of commercial activities which is recognised in the MCZ objectives (MCZ-O2).	Amend MCZ-P2 (Accommodating growth) as follows: Provide for the use and development of the Metropolitan Centre Zone to meet the City's needs for housing, business activities and community facilities, including: 1. A variety of building types, sizes, tenures, affordability and distribution of a scale and intensity that does not undermine the ongoing viability, vibrancy and primacy of the City Centre Zone; 2. A mix of medium and high-density housing; 3. Convenient access to active transport, public transport and rapid transit options; 4. Efficient, well integrated and strategic use of available development sites; and 5. Convenient access to a range of commercial services and open spaces.
Kāinga Ora Homes and Communities	391.654	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P1	Support in part	Generally supports MCZ-P1 but considers that an amendment is required to: (a) recognise the range of housing densities potentially enabled in the zone, and to recognise that tenures and affordability cannot and should not be managed through the District Plan. Considers that the focus should be on providing for the level of the activity and building form that is appropriate for a Metropolitan Centre. And; (b) Clarify that intent of the metropolitan zone is to enable significant intensification and height, and therefore high-density housing is the appropriate scale of development to encourage within the Metropolitan Centre.	Retain MCZ-P1 (Accommodating growth) and seeks amendment as follows: Provide for the use and development of the Metropolitan Centre Zone to meet the City's needs for housing, business activities and community facilities, including: 1. A variety of building types, sizes, tenures, affordability and distribution of a scale and intensity that does not undermine the ongoing viability, vibrancy and primacy of the City Centre Zone; 2. A mix of medium and high-density housing;
Investore Property Limited	405.95	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P1	Oppose	Opposed to the reference to “undermining” the “ongoing viability, vibrancy and primacy” of the City Centre Zone in Policy MCZ-P1. Considers that the Metropolitan Centres fulfil a different purpose, and are of an entirely different scale to the City Centre. The City Centre has a scale and centrality which means that activities in Johnsonville and Kilbirnie offer little threat to its long-term sustainability. As such any development in the Metropolitan Centres should be considered in its own right without the additional administrative burden of potentially requiring assessments of effects on the City Centre. The Metropolitan Centre zones are relatively confined, and it is also important to encourage efficient use of this land. It is considered that requiring a mix of medium and high density housing will not achieve this.	Opposes MCZ-P1 (Accommodating growth) and the reference to “undermining” the “ongoing viability, vibrancy and primacy”. Seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested

Stride Investment Management Limited	470.30	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P3	Oppose	<p>Considers the matters in MCZ-P3 (Managed Activities) are for the market rather than District Plan regulation.</p> <p>Opposes the requirement to manage the location and scale of commercial activities that could result in cumulative adverse effects on the viability and vibrancy of centres, the retention and establishment of a mix of activities, and the function of the transport network.</p> <p>[Refer to original submission for full reason]</p>	Delete MCZ-P3 (Managed Activities) in its entirety.
Stride Investment Management Limited	470.31	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P3	Oppose in part	<p>Opposes the reference to undermining the ‘viability and vibrancy of centres’.</p> <p>[Refer to original submission for full reason]</p>	Opposes MCZ-P3 (Managed Activities) as notified, seeks amendments.
Stride Investment Management Limited	470.32	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P3	Amend	<p>Seeks amendments to MCZ-P3 (Managed Activities). Considers that requiring a max of medium and high density housing in the Metropolitan Centre Zones will not achieve efficient use of land.</p> <p>[Refer to original submission for full reason]</p>	<p>Amend MCZ-P3 (Managed Activities) as follows:</p> <p>Manage the location and scale of commercial activities that could result in cumulative adverse effects on the viability and vibrancy of centres, the retention and establishment of a mix of activities within the Metropolitan Centre Zone, and the function of the transport network.</p>
Restaurant Brands Limited	349.155	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P4	Support	Support	Retain MCZ-P4 (Potentially incompatible activities) as notified.
Woolworths New Zealand	359.75	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P4	Amend	<p>Considers that MCZ-P4 as drafted differs to Policy P4 in the LCZ and NCZ and provides some clarity as to why matters 1-4 have been included within the policy (being that they are considered ‘potentially incompatible activities’). It is considered unnecessary to incorporate these clauses into Policy MCZ-P4. Potentially incompatible activities (being activities not contemplated by the zone, or ones that infringe the zone standards) should be able to be accommodated in the zone if there is a functional and operational need and effects on the Centre are managed.</p>	<p>Amend MCZ-P4 (Potentially incompatible activities) as follows:</p> <p>Only Allow activities that are potentially incompatible with the role and function of the Metropolitan Centre Zone, where they <u>demonstrate an operational or functional need to locate within the zone</u>; or will not have an <u>unacceptable</u> adverse effect on the vibrancy and amenity values of the centre. ±</p> <p>Potentially incompatible activities include:-</p> <ol style="list-style-type: none"> 1. Carparking visible at street edge along an active frontage or non residential activity frontage; 2. Demolition of buildings that results in the creation of vacant land; 3. Ground floor residential activities on street edges identified as having an active frontage or non-residential activity frontage; and 4. Yard based retail activities.
Z Energy Limited	361.75	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P4	Support in part	<p>MCZ-P4 is supported for its intent in relation to new activities. Policy MCZ-P4 identifies potentially incompatible activities with the purpose of the MCZ, including yard-based retail, ground level carparking and residential activities, and vacant sites and seeks to only allow these activities where they will not have an adverse effect on its vitality, vibrancy and amenity.</p>	Retain MCZ-P4 (Potentially incompatible activities) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Z Energy Limited	361.76	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P4	Amend	Considers that MCZ-P4 is too specific and should be amended. MCZ-P4 is too specific and it will impact on the continued operation, maintenance and upgrade of a range of existing activities. It is considered that some yard-based activities, like service stations, play a key role in providing essential services to enable a well-functioning urban environment.	Amend MCZ-P4 (Potentially incompatible activities) as follows: Only allow <u>new</u> activities that are potentially incompatible with the purpose of the Metropolitan Centre zone, where they will not have an adverse effect on its vibrancy and amenity. Potentially incompatible activities include: a. Carparking visible at street edge along an active frontage or non-residential activity frontage; b. Demolition of buildings that results in the creation of vacant land; c. Ground floor residential activities on street edges identified as having an active frontage or non-residential activity frontage; and d. <u>Some</u> yard-based retail activities.
Investore Property Limited	405.100	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P4	Support	Supports the objectives and policies for the Metropolitan Centre zone generally, and specifically supports the recognition of the sub-regional role of these centres, the recognition of high-density development, and the enablement of a wide range of activities. Specific changes are sought to particular provisions.	Retain MCZ-P4 (Potentially incompatible activities) with amendments.
Willis Bond and Company Limited	416.119	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P4	Amend	Carparking at ground level should only be a "potentially incompatible activity" where it occurs along building frontages.	Amend MCZ-P4 (Potentially incompatible activities) as follows: Potentially incompatible activities Only allow activities that are potentially incompatible with the purpose of the City Centre Zone, where they will not have an adverse effect on its vitality, vibrancy and amenity. Potentially incompatible activities include: 1. Industrial activities; 2. Yard-based retail activities; 3. Carparking at ground level <u>where it occurs along building frontages</u> ;
Restaurant Brands Limited	349.156	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P5	Support	Support	Retain MCZ-P5 (Heavy industrial activities) as notified.
Z Energy Limited	361.77	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P5	Support	MCZ-P5 is supported as it seeks to avoid heavy industrial activities in the MCZ as well as provide for a range of medium and high-density residential development.	Retain MCZ-P5 (Heavy industrial activity) as notified.
Kāinga Ora Homes and Communities	391.656	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P5	Support	Generally supports MCZ-P5.	Retain MCZ-P5 (Heavy industrial activities) as notified.
Investore Property Limited	405.101	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P5	Support	Supports the objectives and policies for the Metropolitan Centre zone generally, and specifically supports the recognition of the sub-regional role of these centres, the recognition of high-density development, and the enablement of a wide range of activities. Specific changes are sought to particular provisions.	Retain MCZ-P5 (Heavy industrial activities)with amendments.
Restaurant Brands Limited	349.157	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P6	Support	Support	Retain MCZ-P6 (Housing choice) as notified.
Retirement Villages Association of New Zealand Incorporated	350.275	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P6	Amend	Generally supports MCZ-P6 and its enablement of medium density residential development that offers a range of housing price, type, size and tenure that caters to various ages, lifestyles, cultures and abilities. However, it is necessary to acknowledge that each individual development will not offer a range in those matters.	Retain MCZ-M6 (Housing choice) and seeks to amend to read "Offers Contributes to a range of housing price, type, size and tenure" ..

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.276	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P6	Support	Generally supports MCZ-P6 and its enablement of medium density residential development that offers a range of housing price, type, size and tenure that caters to various ages, lifestyles, cultures and abilities. However, it is necessary to acknowledge that each individual development will not offer a range in those matters.	Retain MCZ-M6 (Housing choice) and seeks to amend to read "Offers Contributes to a range of housing price, type, size and tenure" ..
Z Energy Limited	361.78	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P6	Support	MCZ-P6 is supported as it seeks to avoid heavy industrial activities in the MCZ as well as provide for a range of medium and high-density residential development.	Retain MCZ-P6 (Housing choice) as notified.
Kāinga Ora Homes and Communities	391.657	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P6	Support in part	Generally supports MCZ-P6 but considers that an amendment is required.	Retain MCZ-P6 (Housing choice) and seeks amendment.
Kāinga Ora Homes and Communities	391.658	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P6	Amend	Generally supports MCZ-P6 but considers that an amendment is required to: (a) recognise the range of housing densities potentially enabled in the zone, and to recognise that tenures and affordability cannot and should not be managed through the District Plan. Considers that the focus should be on providing for the level of the activity and building form that is appropriate for a Metropolitan Centre. And; (b) Clarify that intent of the metropolitan zone is to enable significant intensification and height, and therefore high-density housing is the appropriate scale of development to encourage within the Metropolitan Centre and high-density residential development can provide for a range of housing choices in itself. Considers that this position is consistent with MCZ-P7 and the intent of the MCZ.	Amend MCZ-P6 (Housing choice) as follows: Enable medium and high-density residential development that: 1. Contributes towards accommodating anticipated growth in the City; and 2. Offers a range of housing price, type, and size and tenure that is accessible to people of all ages, lifestyles, cultures and abilities.
Investore Property Limited	405.102	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P6	Support	Supports the objectives and policies for the Metropolitan Centre zone generally, and specifically supports the recognition of the sub-regional role of these centres, the recognition of high-density development, and the enablement of a wide range of activities. Specific changes are sought to particular provisions.	Retain MCZ-P6 (Housing choice) with amendments.
Willis Bond and Company Limited	416.120	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P6	Support	Support providing a range of housing choices.	Retain MCZ-P6 (Housing Choice) as notified.
Stride Investment Management Limited	470.33	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P6	Oppose in part	Opposes reference to medium density residential development within the MCZ-P6 (Housing Choice).	Opposes MCZ-P6 (Housing Choice) as notified, seeks amendment.
Stride Investment Management Limited	470.34	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P6	Amend	Considers that it is important that the plan recognises the role of Metropolitan Centres to enable high density housing, however medium density housing would not be an efficient use of this land. Considers that it is not appropriate for a policy to be directive on the price, type, size and tenure for development.	Amend MCZ-P6 (Housing Choice) as follows (or words to similar effect): Housing choice- Enable medium and high-density residential development that- 1. Contributes towards accommodating anticipated growth in the City; and 2. Offers a range of housing price, type, size and tenure that is accessible to people of all ages, lifestyles, cultures and abilities.
Fire and Emergency New Zealand	273.296	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Support in part	Supports the policy as it seeks to achieve quality design outcomes for new development in the zone. In order to achieve good quality design outcomes, which includes the provision of a safe environment and resilient urban environment, FENZ considers it critical that access for emergency service vehicles is a consideration of the design and layout of new developments. FENZ therefore seeks the inclusion of a further matter under this policy.	Supports MCZ-P7 (Quality design outcomes - neighbourhood and townscape outcomes), with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.297	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Amend	Supports the policy as it seeks to achieve quality design outcomes for new development in the zone. In order to achieve good quality design outcomes, which includes the provision of a safe environment and resilient urban environment, FENZ considers it critical that access for emergency service vehicles is a consideration of the design and layout of new developments. FENZ therefore seeks the inclusion of a further matter under this policy.	Amend MCZ-P7 (Quality design outcomes - neighbourhood and townscape outcomes) as follows: Require new development, and alterations and additions to existing development at a site scale, to positively contribute to the sense of place, quality and amenity of Metropolitan Centre Zone by: 1. Recognising the benefits of well-designed, comprehensive, development, including the extent to which the development: ... c. Provides for the increased levels of residential accommodation enabled in this zone; and d. Provides for a range of supporting business, open space and community facilities; <u>and</u> e. <u>Is accessible for emergency service vehicles;</u>
McDonald's	274.45	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Support in part	Whilst functional and operational needs are referred to within some assessment criteria, there is no correlation to any policies.	Retain MCZ-P7 (Quality design -neighbourhood and townscape outcomes), subject to amendments as outlined other submission points.
McDonald's	274.46	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Amend	Whilst functional and operational needs are referred to within some assessment criteria, there is no correlation to any policies.	Seeks addition of the following to MCZ-P7 (Quality design -neighbourhood and townscape outcomes) as follows: <u>Recognise the functional and operational requirements of activities and development.</u>
Restaurant Brands Limited	349.158	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Support	Support	Retain MCZ-P7 (Quality design outcomes – neighbourhood and townscape outcomes) as notified.
Foodstuffs North Island	FS23.52	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Oppose	Submission point 349.158 seeks to retain MCZ-P7 as notified. FSNI submission point 476.41 & 476.42 seeks that this policy is amended.	Disallow / Reject submission in part.
Retirement Villages Association of New Zealand Incorporated	350.277	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Support in part	Supports the recognition in (1)(b) of optimising the development capacity of land and in (2)(e) of flexibility for ground floor space to be used for residential purposes	Retain MCZ-R7 (Quality design outcomes – neighbourhood and townscape outcomes) as notified.
Z Energy Limited	361.79	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Support in part	MCZ-P7 is generally supported, but an amendment is sought.	Retain MCZ-P7 (Quality design outcomes – neighbourhood and townscape outcomes) with amendment.
Z Energy Limited	361.80	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Amend	Considers that MCZ-P7 requires new development and additions and alterations, to positively contribute to the sense of space, quality and amenity of the MCZ. This includes, where relevant, providing continuous pedestrian shelter along streets requiring verandah coverage, requiring active frontages and ground floor glazing along identified street edges. The policy should also recognise that alternative design responses are necessary for functional and operational requirements of a range of activities, including existing service stations.	Amend MCZ-P7 (Quality design outcomes – neighbourhood and townscape outcomes) as follows: Require new development, and alterations and additions to existing development at a site scale, to positively contribute to the sense of place, quality and amenity of the Metropolitan Centre Zone by: ... 2. Ensuring that the development, where relevant: ... <u>f. Recognises that alternative design responses are necessary for functional requirements of a range of activities, including existing service stations.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.659	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Support in part	Generally supports MCZ-P7, but considers that amendment is required.	Retain MCZ-P7 (Quality design outcomes – neighbourhood and townscape outcomes) and seeks amendment.
Kāinga Ora Homes and Communities	391.660	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Amend	Considers that amendment is required to: <ul style="list-style-type: none"> • The policy name to better reflect the intent of the policy and the subsequent wording, which seeks to manage new developments contribution to the centre and streetscape; and • The policy wording to better recognise the MCZ rule setting and the intent of the NPS-UD (particularly Policy 6) that recognises the planned urban built form and that change to existing amenity is not in itself an adverse effect; and to simplify and clarify the neighbourhood and townscape outcomes that plan is seeking to manage. 	Amend MCZ-P7 (Quality design outcomes – neighbourhood and townscape outcomes) as follows: <p>Quality design outcomes – neighbourhood and townscape Centres outcomes</p> <p>Require new development, and alterations and additions to existing development at a site scale, to positively contribute to the sense of place, quality and planned urban built form <u>amenity and function</u> of the Metropolitan Centre Zone by:</p> <p>1. Recognising the benefits of well-designed, comprehensive, development, including the extent to which the development:</p> <p>a. Acts as a positive catalyst for future change by reflecting <u>Reflects</u> the nature and scale of the development <u>proposed enabled</u> within the zone and in the vicinity, and responds to the evolving, more intensive identity of the centre;</p> <p>b. Optimises the development capacity of land, <u>particularly sites that are:</u></p> <p>i. Large; or</p> <p>ii. Narrow; or</p> <p>iii. Vacant; or</p> <p>iv. Ground level parking areas;</p> <p>...</p>
LIVE WELLington	FS96.37	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Oppose	Retain existing wording around quality outcomes and amenity. Removing words like amenity will result in poor liveability outcomes for residents and communities	Disallow
Waka Kotahi NZ Transport Agency	FS103.22	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Support	The amendment is considered an improvement enabling greater intensification while retaining good urban design.	Allow
Roland Sapsford	FS117.36	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Oppose	Retain existing wording around quality outcomes and amenity. Removing words like amenity will result in poor liveability outcomes for residents and communities.	Disallow
Investore Property Limited	405.103	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Support	Supports the objectives and policies for the Metropolitan Centre zone generally, and specifically supports the recognition of the sub-regional role of these centres, the recognition of high-density development, and the enablement of a wide range of activities. Specific changes are sought to particular provisions.	Retain MCZ-P7 (Quality design outcomes – neighbourhood and townscape outcomes) with amendments.
Wellington Heritage Professionals	412.79	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Support	Supports this policy to ensure that development responds to site context, where it is located adjacent to a site of significance to Māori, heritage place or character precinct.	Retain MCZ-P7 (Quality design – neighbourhood and townscape outcomes) as notified.
Willis Bond and Company Limited	416.121	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Amend	Considers that this is a long (and confusing) provision and should be reviewed against the earlier policies to ensure it is succinct, focused and does not cover the same ground as other policies.	Seeks that MCZ-P7 (Quality design outcomes – neighbourhood and townscape outcomes) be amended to ensure it is succinct, focused and does not cover the same ground as other policies.
Foodstuffs North Island	FS23.90	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Support	Submission point 416.121 partly supports FSNi submission point 476.41.	Allow / Allow submission in part.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.122	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Amend	Considers that this is a long (and confusing) provision and should be reviewed against the earlier policies to ensure it is succinct, focused and does not cover the same ground as other policies. If the Design Guides are retained (which the submitter opposes), the submitter considers that this policy should be reviewed for overlap with the Design Guides.	Seeks that if the Design Guides are retained that MCZ-P7 (Quality design outcomes – neighbourhood and townscape outcomes) be reviewed for overlap with the Design Guides.
Stride Investment Management Limited	470.35	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Support in part	Supports MCZ-P7 in general. [Refer to original submission]	Retain MCZ-P7 (Quality design outcomes – neighbourhood and townscape outcomes) as notified, seeks amendments.
Stride Investment Management Limited	470.36	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Amend	Supports MCZ-P7 in general, with the exception of 2(e) which requires flexibility for ground floor space to be converted for a range of activities “including residential”. Considers MCZ-P7.2.e. to be onerous to have to design commercial or retail buildings to be flexible for a change in use to residential.	Amend MCZ-P7.2.e. (Quality design outcomes...) as follows; “... c. Enhances the quality of the streetscape and public / private interface; d. Integrates with existing and planned active and public transport movement networks; and e. Allows sufficient flexibility for ground floor space to be converted for a range of activities, including residential.” ”
Foodstuffs North Island	476.41	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Support in part	Considers that whilst functional and operational needs are referred to within some assessment criteria, there is no correlation to any policies.	Retain MCZ-P7 (Quality design – neighbourhood and townscape outcomes) with amendment.
Foodstuffs North Island	476.42	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P7	Amend	Considers that whilst functional and operational needs are referred to within some assessment criteria, there is no correlation to any policies.	Amend MCZ-P7 (Quality design – neighbourhood and townscape outcomes) to include the following: Recognise the functional and operational requirements of activities and development.
Restaurant Brands Limited	349.159	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P8	Support	Support	Retain MCZ-P8 (On-site residential amenity) as notified.
Z Energy Limited	361.81	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P8	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain MCZ-P8 (On-site residential amenity) as notified.
Kāinga Ora Homes and Communities	391.661	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P8	Support in part	Supports MCZ-P8 in part subject to amendments to relevant rules being made to clarify the extent of on-site amenity requirements. Considers that amendments are required to remove communal outdoor space requirements are also sought as this is already covered by reference to outdoor space generally and this could be private outdoor space.	Retain MCZ-P8 (On-site residential amenity) and seeks amendment.
Kāinga Ora Homes and Communities	391.662	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P8	Amend	Supports MCZ-P8 in part subject to amendments to relevant rules being made to clarify the extent of on-site amenity requirements. Considers that amendments are required to remove communal outdoor space requirements are also sought as this is already covered by reference to outdoor space generally and this could be private outdoor space.	Amend MCZ-P8 (On-site residential amenity) as follows: Achieve a good standard of amenity for residential activities in the Metropolitan Centre Zone by: 1. Providing residents with access to adequate outlook; and 2. Ensuring access to convenient outdoor space, including private or shared communal areas.
Investore Property Limited	405.104	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P8	Support	Supports the objectives and policies for the Metropolitan Centre zone generally, and specifically supports the recognition of the sub-regional role of these centres, the recognition of high-density development, and the enablement of a wide range of activities. Specific changes are sought to particular provisions.	Retain MCZ-P8 (On-site residential amenity) with amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.123	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P8	Amend	<p>Considers that on-site residential amenity can be provided in a number of ways and should not be prescriptive, acknowledging that mandated types of amenity (such as outdoor space) can increase housing cost and prevent lower income residents living within the city centre. The submitter considers that the policy should acknowledge affordability constraints.</p> <p>The National Policy Statement on Urban Development 2020 (NPS-UD) requires district plans to “enable, in city centre zones, building heights and density of urban form to realise as much development capacity as possible” (Policy 3). The submitter considers that this should not be restricted by prescriptive amenity requirements.</p>	<p>Amend MCZ-P8 (On-site residential amenity) as follows:</p> <p>Achieve a good standard of amenity for residential activities in the Metropolitan Centre Zone, by:</p> <ol style="list-style-type: none"> 1. Providing residents with access to an adequate outlook; and 2. Ensuring access to convenient outdoor space, including private or shared communal areas.
Restaurant Brands Limited	349.160	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P9	Support	Support	Retain MCZ-P9 (Managing adverse effects) as notified.
Retirement Villages Association of New Zealand Incorporated	350.278	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P9	Support in part	Agrees that shading, privacy, bulk and dominance effects on adjacent sites require management. However, the level of management needs to be informed by the development expectations for the zone.	<p>Retain MCZ-P9 (Managing adverse effects) and seeks addition of new "role of density standards" policy in the Local Centre Zone chapter as follows:</p> <p>MCZ-PX Role of density standards</p> <p>Enable the density standards to be utilised as a baseline for the assessment of the effects of developments.</p>
Z Energy Limited	361.82	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P9	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain MCZ-P9 (Managing adverse effects) as notified.
Kāinga Ora Homes and Communities	391.663	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P9	Support in part	Considers that amendment is required to MCZ-P9 to specify “adjoining properties” for the minimisation of adverse effects and clarifying that effects are those beyond those anticipated in the plan in accordance with Policy 6 NPSUD.	Retain MCZ-P9 (Managing adverse effects) and seeks amendment.
Kāinga Ora Homes and Communities	391.664	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P9	Amend	Considers that amendment is required to MCZ-P9 to specify “adjoining properties” for the minimisation of adverse effects and clarifying that effects are those beyond those anticipated in the plan in accordance with Policy 6 NPSUD.	<p>Amend MCZ-P9 (Managing adverse effects) as follows:</p> <p>Recognise the evolving, higher density development context anticipated in the Metropolitan Centre Zone, while managing any associated adverse effects <u>beyond those anticipated within the zone</u>, including:</p> <p>...</p>
Investore Property Limited	405.105	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P9	Support	Supports the objectives and policies for the Metropolitan Centre zone generally, and specifically supports the recognition of the sub-regional role of these centres, the recognition of high-density development, and the enablement of a wide range of activities. Specific changes are sought to particular provisions.	Retain MCZ-P9 (Managing adverse effects) with amendments.
Willis Bond and Company Limited	416.124	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P9	Amend	Submitter considers that the impacts of construction activity on the transport network should not be relevant in the resource consenting process. The submitter considers that the densification proposed by the District Plan will inevitably result in impacts.	<p>Amend MCZ-P9 (Managing adverse effects) as follows:</p> <p>Recognise the evolving, higher density development context anticipated in the Metropolitan Centre Zone, while managing any associated adverse effects including:</p> <ol style="list-style-type: none"> 1. Shading, privacy, bulk and dominance effects on adjacent sites, and 2. The impact of construction on the transport network.
Stride Investment Management Limited	470.37	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P9	Oppose in part	Opposes that part of MCZ-P9 (Managing Adverse Effects) which relates to managing the impact of construction activities on the transport network.	Opposes MCZ-P9 (Managing Adverse Effects) as notified, seeks amendments.
Stride Investment Management Limited	470.38	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P9	Amend	Considers that this is a matter that is better addressed in the transport chapter, while a focus of transport effects may constrain and lengthen construction periods.	<p>Amend MCZ-P9 (Managing Adverse Effects) to as follows;</p> <p>"1. Shading, privacy, bulk and dominance effects on adjacent sites; and</p> <p>2. The impact of construction on the transport network."</p>
McDonald's	274.47	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Oppose	McDonald's is opposed to the 'City Outcomes Contributions' provisions and considers that developments that breach height standards should instead be considered on their merits and effects. The merits of a proposal should not be confined to a specified and required list.	Seeks that MCZ-P10 (City Outcomes Contributions) is deleted.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Property Council New Zealand	338.16	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Amend	Considers that incentives for large developments that can demonstrate a City Outcomes Contribution (such as priority consenting) would establish a quid pro quo system and enable growth rather than placing additional obstacles for large-scale development to occur.	Seeks that incentives be provided to encourage but not require large developments to deliver City Outcomes Contributions.
The Retirement Villages Association of New Zealand Incorporated	FS126.207	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.207	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Restaurant Brands Limited	349.161	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Oppose	Oppose The Centres and Mixed-Use Design Guide (and the associated policy and matters of discretion linkages), do not recognise or provide for the functional or operational requirements of activities. The Design Guide reads as a set of rules to be complied with, rather than guidelines to inform the assessment of applications for resource consent and will result in an unnecessarily onerous and unreasonable resource consent process. The Design Guide places unreasonable requirements on applicants on matters that are more appropriately dealt with at a national level (for example, reducing travel/shipping costs of materials to reduce carbon emissions, and installing insulation above minimum requirements). The imposition of "thresholds" for certain types of development result in a "pass/fail" assessment being applied and will result in an unnecessarily onerous and unreasonable resource consent process.	Amend MCZ-P10 (City outcomes contribution) as follows: Require over height, large-scale residential, non-residential and comprehensive development in the Metropolitan Centre Zone to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107, including through either: ... 2. Incorporating a level of building performance that leads to reduced carbon emissions and increased climate change resilience; and/or 3.2. Incorporating 4-3. Incorporating 5-4. Enabling
Foodstuffs North Island	FS23.53	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Oppose	Submission point 349.161 seeks to amend MCZ-P10. FSNI submission point 476.43 seeks to delete this policy in its entirety, FSNI submission seeks that functional or operational requirements of activities and development are recognised in MCZ-P7 in submission point 476.42.	Disallow / Reject submission in part.
Retirement Villages Association of New Zealand Incorporated	350.279	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Oppose	Opposes the inclusion of the City Outcomes Contribution requirements of MCZ-P10 and considers that any requirements associated with developments that are under or over height should directly relate to mitigation of potential or actual effects. Considers that the policy would create barriers that strongly conflict with the need to resolve the housing crisis and address the needs of the rapidly growing aging population.	Delete MCZ-P10 (City outcomes contribution) in its entirety as notified.
Woolworths New Zealand	359.76	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Amend	Considers that MCZ-P10 is unclear and should be amended. The policy contains an incorrect reference to the Centres and Mixed Use Design Guide document (should be G97 as opposed to G107). A review of the guideline indicates that G97 City Outcomes Contribution is only triggered for City Centre zone developments (under or over height development comprising 50 or more units or any comprehensive development) and for over height development comprising 25 or more units or any comprehensive development in the Metropolitan Centre zone (MCZ), Neighbourhood Centre zone (NCZ), Local Centre zone (LCZ) and High Density Residential zone (HRZ). As such, the Policy as currently drafted implies that any non-residential development in the LCZ is subject to this policy which is incorrect. The above amendment seeks to align this Policy with the Guide document.	Amend MCZ-P10 (City outcomes contribution) as follows: Require over height , large-scale residential, non-residential and comprehensive development <u>that are over height</u> in the Metropolitan Centre Zone to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G97G107 , including through either: ...
Foodstuffs North Island	FS23.18	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Oppose	Submission point 359.76 seeks to amend MCZ-P10. FSNI submission point 476.43 seeks to delete MCZ-P10 in it's entirety.	Disallow / Disallow this submission in part.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Z Energy Limited	361.83	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Support in part	MCZ-P10 is supported, as it seeks to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107.	Retain MCZ-P10 (City Outcomes Contribution) with amendment.
Z Energy Limited	361.84	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Amend	MCZ-P10 should also recognise the existing environment and the functional requirements of a range of activities.	Amend MCZ-P10 (City Outcomes Contribution) as follows: Require over height, large-scale residential, non-residential and comprehensive development in the Metropolitan Centre Zone to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107, <u>while recognising the existing environment</u> including through either: 1. Positively contributing to public space provision and the amenity of the site and surrounding area; and/or 2. Incorporating a level of building performance that leads to reduced carbon emissions and increased climate change resilience; and/or 3. Incorporating construction materials that increase the lifespan and resilience of the development and reduce ongoing maintenance costs; and/or 4. Incorporating assisted housing into the development; where this is provided, legal instruments are required to ensure that it remains assisted housing for at least 25 years; and/or 5. Enabling ease of access for people of all ages and mobility. <u>6. Recognises that alternative design responses are necessary for functional requirements of a range of activities, including existing service stations.</u>
Kāinga Ora Homes and Communities	391.665	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Support in part	Opposes requiring 'City Outcomes Contribution' in MCZ-P10 for development for the following reasons: <ul style="list-style-type: none"> • it is inconsistent with the current legislative framework; • Over height development should be assessed based on the potential or actual effects or the proposed infringement, as provided for by the rule framework; and • all of these activities are anticipated by the zone, and this policy has the potential to disincentivise intensified development. 	Retain MCZ-P10 (City outcomes contribution) and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.160	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Not specified	The RVA supports in part the relief sought in this submission where it aligns with The RVA's primary submission to have these references removed.	Amend / Allow the submission point, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.160	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Not specified	Ryman supports in part the relief sought in this submission where it aligns with Ryman's primary submission to have these references removed.	Amend / Allow the submission point, subject to the relief sought within Ryman's primary submission.
Kāinga Ora Homes and Communities	391.666	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Amend	Opposes requiring 'City Outcomes Contribution' in MCZ-P10 for development for the following reasons: <ul style="list-style-type: none"> • it is inconsistent with the current legislative framework; • Over height development should be assessed based on the potential or actual effects or the proposed infringement, as provided for by the rule framework; and • all of these activities are anticipated by the zone, and this policy has the potential to disincentivise intensified development. 	Amend MCZ-P10 (City outcomes contribution) as follows: Require over height, large-scale residential, non-residential and comprehensive <u>Encourage</u> development in the Metropolitan Centre Zone to <u>contribute to positive outcomes</u> deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107, including through either: 1. Positively contributing to public space provision and the amenity of the site and surrounding area; and/or 2. Incorporating a level of building performance that leads to reduced carbon emissions and increased climate change resilience; and/or 3. Incorporating construction materials that increase the lifespan and resilience of the development and reduce ongoing maintenance costs; and/or 4. Incorporating assisted housing into the development; where this is provided, legal instruments are required to ensure that it remains assisted housing for at least 25 years; and/or 5. Enabling ease of access for people of all ages and mobility.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Investore Property Limited	405.106	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Oppose	Considers that the 'City Outcomes Contributions' provisions are inappropriate. Specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development which he submitter considers is inappropriate. Developments that breach height standards should instead be considered on their own merits and effects. [Refer to original submission for full reason, including attachment]	Seeks deletion of MCZ-P10 (City Outcomes Contribution) in its entirety as notified.
Investore Property Limited	405.107	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Oppose	Opposes MCZ-P10. Considers that the 'City Outcomes Contributions' provisions are inappropriate. Specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development which he submitter considers is inappropriate. Developments that breach height standards should instead be considered on their own merits and effects. [Refer to original submission for full reason, including attachment]	Delete MCZ-P10 (City Outcomes Contribution) in it's entirety.
VicLabour	414.41	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Support in part	Supportive of the inclusion of a points based system to allow developments outside of some of the rules in the PDP if they provide other benefits (the city outcomes contribution mechanism) but considers it an example of how arbitrary and excessive many of these regulations are, particularly around height and character protections.	Seeks to retain points based system to allow developments outside of some of the rules in the PDP if they provide other benefits. [Inferred decision requested]
Willis Bond and Company Limited	416.125	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Amend	The submitter has requested removing the height limit in the CCZ, in which case the City Outcomes Contribution would not be relevant. The submitter considers that if that occurs, Council should consider whether it is still worth retaining the City Outcomes Contribution in other zones – it may be preferable removing the concept altogether.	Seeks that MCZ-P10 (City outcomes contribution) be amended in accordance with any changes to CCZ-P11 (City outcomes contribution). Should height limits in the CCZ (City Centre Zone) be removed seeks that Council considers whether it is still worth retaining the City Outcomes Contribution in other zones (including MCZ (Metropolitcan Centre Zone)).
Foodstuffs North Island	FS23.91	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Support	Submission point 416.125 seeks a similar outcome to FSNI submission point 476.43 but FSNI submission point 476.43 seeks to delete MCZ-P10 in it's entirety.	Allow / Allow submission in part.
Fabric Property Limited	425.54	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Oppose	Opposed to the 'City Outcomes Contributions' provisions, and specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development. While Fabric recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list. The 'City Outcomes Contributions' have the potential to act as a disincentive for development, which conflicts with the Proposed Plan strategic objectives and NPS-UD requirements of providing development capacity and providing for urban intensification. This would not achieve the aim of "density done well" as stated in the Design Guide. Seeks that all references to the City Outcomes Contributions be removed from the Proposed Plan and design guides.	Delete MCZ-P10 (City Outcomes Contribution) in it's entirety.
Stride Investment Management Limited	470.39	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Oppose	Opposes due to the points raised in relation to the 'City Outcomes Contributions' [refer to original submission]	Delete MCZ-P10 (City Outcomes Contribution) in its entirety.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Foodstuffs North Island	476.43	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-P10	Oppose	<p>Opposes MCZ-P10.</p> <p>While FSNI recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list.</p> <p>The 'City Outcomes Contributions' have the potential to act as a disincentive for development, which conflicts with the PDP strategic objectives and NPS-UD requirements of providing for development capacity and urban intensification.</p>	Delete MCZ-P10 (City outcomes contribution) and consequential references in their entirety.
Restaurant Brands Limited	349.162	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R1	Support	Support	Retain MCZ-R1 (Commercial activities) as notified.
Foodstuffs North Island	FS23.75	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R1	Support	Submission point 349.162 supports FSNI submission point 476.94.	Allow
Stride Investment Management Limited	470.40	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R1	Support	Supports commercial activities being permitted. Considers that these activities are clearly anticipated by the zone.	Retain MCZ-R1 (Commercial activities) as notified.
Foodstuffs North Island	476.94	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R1	Support	Supports supermarkets as a permitted activity in the MCZ.	Retain MCZ-R1 (Commercial activities) as notified. [Inferred decision requested].
Ministry of Education	400.141	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R3	Support	Supports MCZ-R3 as it provides for educational facilities as a permitted activity.	Retain MCZ-R3 (Educational facilities) as notified.
Fire and Emergency New Zealand	273.298	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R6	Support	Supports the rule as it permits the development of emergency service facilities within the zone as a permitted activity. Due to urban growth, population changes and commitments to response times, FENZ may need to locate stations anywhere within the urban and rural environment.	Retain MCZ-R6 (Emergency service facilities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.53	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R7	Support	<p>Considers that community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification.</p> <p>The permitted activity status (enabled by the associated policies) is appropriate in the context of the current and potential future establishment and operation of a community corrections facility or facilities within these areas in Wellington City.</p>	Retain MCZ-R7 (Community corrections activities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.54	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R12	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain MCZ-R12 (Residential activities) as notified.
Kāinga Ora Homes and Communities	391.667	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R12	Support in part	Supports MCZ-R12 but consider amendment is required to delete reference to verandah control and natural hazards as these matters are not relevant to the location of residential activities or addressed in other rules such as the natural hazards rules.	Retain MCZ-R12 (Residential activities) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.668	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R12	Amend	Supports MCZ-R12 but consider amendment is required to delete reference to verandah control and natural hazards as these matters are not relevant to the location of residential activities or addressed in other rules such as the natural hazards rules.	Amend MCZ-R12.1 (Residential activities) as follows: 1. Activity status: Permitted Where: a. The activity is located: i. Above ground floor level; ii. At ground floor level along any street edge not identified as an active frontage; iii. At ground floor level along any street edge not identified as a non-residential activity frontage; iv. At ground level along any street not identified as requiring verandah coverage; or v. At ground level on any site contained within a Natural Hazard Overlay.
Investore Property Limited	405.108	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R13	Oppose in part	Opposes the total gross floor area limit of 20,000m ² of MCZ-R13. Submitter seeks amendments to this rule in order to provide a 30,000m ² gross floor area threshold for triggering a Restricted Discretionary activity status in the land zoned Metropolitan Centre in Johnsonville. Submitter considers that a 30,000m ² threshold for this rule would be more appropriate given the scale of existing and consented development, large lot sizes, land in common ownership, and the anticipated level of development in the Johnsonville Metropolitan Centre. [Refer to original submission for full reason].	Opposes MCZ-R13.1 (Integrated retail activity) and seeks amendment.
Investore Property Limited	405.109	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R13	Amend	Opposes the total gross floor area limit of 20,000m ² of MCZ-R13. Submitter seeks amendments to this rule in order to provide a 30,000m ² gross floor area threshold for triggering a Restricted Discretionary activity status in the land zoned Metropolitan Centre in Johnsonville. Submitter considers that a 30,000m ² threshold for this rule would be more appropriate given the scale of existing and consented development, large lot sizes, land in common ownership, and the anticipated level of development in the Johnsonville Metropolitan Centre. [Refer to original submission for full reason].	Amend MCZ-R13.1 (Integrated retail activity) as follows: 1. Activity status: Permitted Where: a. The total gross floor area does not exceed 20,000m² <u>30,000m²</u> .
Investore Property Limited	405.110	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R13	Oppose in part	Considers that the restricted discretionary rule should provide a preclusion clause for public and limited notification. Retail activities are clearly anticipated by the zone, and the matters of discretion provided under MCZ-R13 enable appropriate consideration of effects for larger developments. Public and limited notification for these activities is therefore unnecessary and inappropriate. Also considers that the note stating the permitted baseline will not be applied is inappropriate and should be deleted. This should be a matter of discretion to be determined by the Council on the merits of the application. [Refer to original submission for full reason].	Opposes MCZ-R13.2 (Integrated retail activity) and seeks amendment

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Investore Property Limited	405.111	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R13	Amend	<p>Considers that the restricted discretionary rule should provide a preclusion clause for public and limited notification. McDonald's	274.48	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R15	Oppose in part	Opposed to the Discretionary Activity status for car parking activities that do not comply with the permitted activity requirements.	Retain MCZ-R15.2 (Carparking activities), subject to amendment outlined other submission points.
McDonald's	274.49	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R15	Amend	Opposed to the Discretionary Activity status for car parking activities that do not comply with the permitted activity requirements.	Amend MCZ-R15.2 (Carparking activities) as follows: ... 2. Activity status: Discretionary Restricted Discretionary Where: a. Compliance with the requirements of MCZ-R15.1.a cannot be achieved.
Woolworths New Zealand	359.77	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R15	Amend	Considers that MCZ-R15.2 should be amended so that the activity status of this standard infringement is changed to restricted discretionary. It is considered that this status, plus the suggested matters of discretion, will ensure an appropriate assessment of effects is undertaken, whilst providing a level of certainty to applicants that where activities are anticipated, such assessments will be rational and streamlined. Supermarkets often require car parking to be visible, both from commercial viability perspective but also given the requirements to separate loading and servicing activities from public interfaces. This site layout requires that loading is located to the rear of a store, with the building in front and the entrance accessible and legible from the car park and street frontage. The application of blanket urban design ideals in these standards is challenged such that the proposed amendment seeks to explicitly exclude supermarkets from complying with this standard.	Amend MCZ-R15.2 (Carparking activities) as follows: 2. Activity status: <u>Restricted</u> Discretionary Where: a. Compliance with the requirements of MCZ-R15.1.a is not achieved. <u>Matters of discretion are:</u> <u>1. The matters in MCZ-P2, MCZ-P3, MCZ-P4, MCZ-P7, MCZ-P9 and MCZ-P10;</u> <u>2. The cumulative effect of the development on:</u> <u>a. The ongoing viability and vibrancy of the Zone ;</u> <u>b. The safety and efficiency of the transport network, including providing for a range of transport modes;</u> <u>c. The hierarchy of roads, travel demand or vehicle use; and</u> <u>3. The compatibility with other activities provided for in the zone.</u> <u>Note: Rule MCZ-R15 does not apply to new supermarkets or additions to existing supermarkets.</u>
Foodstuffs North Island	FS23.19	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R15	Support	Submission point 359.77 partly supports submission points 476.44 and 476.45.	Allow / Allow submission in part.
Greater Wellington Regional Council	FS84.108	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R15	Oppose	Greater Wellington oppose this submission point. A "discretionary" activity status provides necessary controls for carparking activities which align with the direction of Proposed RPS Change 1, including objectives CC.1 and CC.3, and policies CC.1, CC.3 and CC.9.	Disallow / Seeks that the provisions be retained as notified and support provisions that support active transport nodes.
Investore Property Limited	405.112	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R15	Support in part	Supports the intent of MCZ-R15 but considers it would be appropriate to amend MCZ-R15 to enable any carparking at the ground level as a restricted discretionary activity, as this would provide appropriate discretion.	Retain MCZ-R15 (Carparking activities) with amendment.
Investore Property Limited	405.113	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R15	Amend	Supports the intent of MCZ-R15 but considers it would be appropriate to amend MCZ-R15 to enable any carparking at the ground level as a restricted discretionary activity, as this would provide appropriate discretion.	Amend MCZ-R15 (Carparking activities) as follows: ... 2. Activity status: <u>Restricted</u> Discretionary
Stride Investment Management Limited	470.46	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R15	Support in part	Supports the intent of rule MCZ-R15 (Carparking activities).	Retain MCZ-R15 (Carparking activities) as notified, with amendments.

Z Energy Limited	361.85	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R16	Support in part	MCZ-R16 is supported in so much as it provides for yard-based retail activities (the definition of which includes service stations) as a discretionary activity. However, it is sought that changes to the notification status be made to exclude activities relating to the operation, maintenance and upgrading of existing activities and new activities adjoining specific zones and roads.	Retain MCZ-R16 (Yard-based retailing activities) with amendment.
Z Energy Limited	361.86	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R16	Amend	Considers that MCZ-R16 should be amended to make changes to the notification status to exclude activities relating to the operation, maintenance and upgrading of existing activities and new activities adjoining specific zones and roads.	Amend MCZ-R16 (Yard-based retailing activities) as follows: Activity status: Discretionary Notification status: An application for resource consent made in respect of rule MCZ-R16.1 must be publicly notified <u>except:</u> <u>a. The activity relates to the maintenance, operation and upgrading of an existing activity;</u> <u>b. The new or existing activity adjoins another commercial zone, a residential zone or an arterial or collector Road.</u>
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.151	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R16	Support in part	MCZ-R16 is supported in so much as the rule provides for yard-based retail activities as a discretionary activity. It is understood that an application for resource consent made in respect of this rule, however, must be publicly notified in accordance with the Notification Status.	Retain MCZ-R16 (Yard-based retailing activities) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.152	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R16	Amend	<p>Considers that MCZ-R16 should be amended as the notification requirement is not supported as it may have a range of unintended outcomes. For instance, without clarification, it may require public notification for any operational change, upgrading or maintenance to an existing yard-based activity where public notification would be more appropriately determined through standard notification tests. It may therefore also discourage existing activities from undertaking important maintenance and upgrades, for instance, to meet requirements of HSNO / HSWA legislation, better accord with good practise, introduce new technologies, or necessary changes to meet demand.</p> <p>Ongoing operation, maintenance, and upgrades of existing service stations / yard-based retail activities should not be subject to this notification requirement, which is not appropriate for existing lawful activities.</p> <p>It is considered that an additional exclusion to the notification status is appropriate only where the existing or new activity is located on the edge of the zone or adjacent to an arterial or collector road. These locations and/or interfaces do not have, nor should they expect, the same urban design outcomes and levels of visual amenity compared to a centrally located site in the CCZ for example. A service station, for example, would not impact the function and vitality of a centre zone if it were located on the edge of the zone where it can appropriately transition to the adjoining zone.</p>	<p>Amend MCZ-R16 (Yard-based retailing activities) as follows:</p> <p>Notification Status: An application for resource consent made in respect of rule MCZ-R16 must be publicly notified <u>except</u>:</p> <p><u>a. The activity relates to the maintenance, operation and upgrading of an existing activity;</u> <u>b. The new or existing activity adjoins another commercial zone, a residential zone or an arterial or collector Road.</u></p>
Fire and Emergency New Zealand	273.299	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R18	Support	Supports the rule as the demolition or removal of buildings and structures within the MCZ is a permitted activity.	Retain MCZ-R18 (Maintenance and repair of buildings and structures) as notified.
Restaurant Brands Limited	349.163	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R18	Support	Support	Retain MCZ-R18 (Maintenance and repair of buildings and structures) as notified.
Kāinga Ora Homes and Communities	391.669	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R18	Support	Supports MCZ-R18.	Retain MCZ-R18 (Maintenance and repair of buildings and structures) as notified.
Fire and Emergency New Zealand	273.300	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R19	Support	Supports the rule as the demolition or removal of buildings and structures within the MCZ is a permitted activity.	Retain MCZ-R19 (Demolition or removal of buildings and structures) as notified.
Restaurant Brands Limited	349.164	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R19	Support	Support	Retain MCZ-R19 (Demolition or removal of buildings and structures) as notified.
Greater Wellington Regional Council	351.276	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R19	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain MCZ-R19 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.277	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R19	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend MCZ-R19 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Stride Investment Management Limited	FS107.15	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R19	Oppose	Stride is opposed to this amendment as it is unnecessary to manage the effects of demolition and has the potential to add additional direct and administrative costs on to demolition and development.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested

Wellington City Council	266.156	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R20	Amend	Considers a notification status statement is missing in relation to developments where all standards are met.	Amend MCZ-R20.2 (Construction of, or additions and alterations to, buildings and structures) as follows: Notification status: <u>An application for resource consent made in respect of rule MCZ-R20.2.a which complies with all standards is precluded from being either publicly or limited notified. (...)</u>
The Retirement Villages Association of New Zealand Incorporated	FS126.244	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R20	Not specified	The RVA supports the relief sought in this submission in so far as it is consistent with The RVA's primary submission.	Amend / Allow the submission point subject to the relief sought in The RVA's primary submission.
Ryman Healthcare Limited	FS128.244	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R20	Not specified	Ryman supports the relief sought in this submission in so far as it is consistent with Ryman's primary submission.	Amend / Allow the submission point subject to the relief sought in Ryman's primary submission.
Fire and Emergency New Zealand	273.301	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R20	Support	Supports the rule as the construction or, or additions and alterations to, buildings and structures within the MCZ is a permitted activity.	Retain MCZ-R20 (Construction of or additions and alterations to buildings and structures) as notified.
McDonald's	274.50	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R20	Oppose in part	Oppose the requirement for restricted discretionary consent where additions and alterations change the exterior to the building above veranda level and are visible from public spaces.	Retain MCZ-R20 (Alterations and additions to buildings and structures), subject to amendments, as outlined other submission points.
McDonald's	274.51	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R20	Amend	Considers where compliance can be achieved with the relevant standards, this should be a permitted activity otherwise McDonald's considered there to be a risk that this will result in the perverse outcome of parts of exterior facades not being updated.	Seeks the following amendment to MCZ-R20 (Alterations and additions to buildings and structures) as follows: 1. a. Any alterations or additions to a building or structure that: i. Do not alter the external appearance of the building or structure; or ii. Relate to a building frontage below veranda level, including entranceways and glazing and compliance with MCZ-S5 is achieved; or iii. Do not result in the creation of new residential units; and iv. Are not visible from public spaces; and v. i. Comply with standards MCZ-S1, MCZ-S2, MCZ-S3, MCZS4, MCZ-S5 and MCZ-S6; and

Restaurant Brands Limited	349.165	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R20	Oppose	Oppose Opposed to the cross reference to the Centres and Mixed-Use Design Guide within the matters of discretion. The cross reference to the policies of the MCZ is sufficient to ensure that development achieves a "good quality, well-functioning environment" as required by MCZ-O3.	Amend MCZ-R20 (Construction of, or additions and alterations to, buildings and structures) as follows: ... Matters of discretion are: ... 3. The Centres and Mixed-Use Design Guide, including guideline G107 – City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 25 or more residential units or is a non-residential building; 4-3. 5-4. 6-5. 7-6. ...
Retirement Villages Association of New Zealand Incorporated	350.280	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R20	Amend	Supports the construction of, or additions and alterations to, buildings and structures being a permitted or restricted discretionary activity under MCZ-R20. Does not oppose the inclusion of the matters of discretion in Clause 2 relating to the extent and effect on non-compliance with the requirements of MCZ-S1 - MCZ-S10. However, considers that standard should not be applicable to retirement villages. Considers that the matters of discretion in Clause 1 are not appropriate. The listed policies are broad and not specific to the effects of retirement villages that require management. Opposes clause 3 matter of discretion relating to City Outcomes Contributions. Considers that due to an absence of any reference to retirement villages in the Centres and Mixed Use and Residential Design Guides, their inclusion as matters of discretion in Clauses 3 and 4 are not of relevance / applicable to retirement villages and should be deleted. Considers that a set of retirement village specific matters of discretion should be included that are based on the MDRS provisions; consider / acknowledge the positive effects offered by retirement villages; the functional and operational needs of retirement villages; and the need to provide for efficient use of larger sites. Considers that for resource consent applications for the construction of or additions / alterations to retirement villages under MCZ-R20 should be precluded from being publicly notified; and that for a resource consent application for the construction of or additions / alterations to retirement villages under MCZ-R20 that complies with MCZ-S1 and MCZ-S4 should be precluded from being limited notified.	Retain MCZ-R20.2 (Construction of, or additions and alterations to, buildings and structures) and seeks amend as follows: 2. Activity status: Restricted Discretionary Where: a. Compliance with any of the requirements of MCZ-R4920_1 cannot be achieved. Matters of discretion are: 1. The matters in MCZ-P6, MCZ-P7, MCZ-P8 and MCZ-P9 (<u>this clause is not applicable to retirement villages</u>); 2. The extent and effect of non-compliance with MCZ-S1, MCZ-S2, MCZ-S3, MCZ-S4, MCZ-S5, MCZ-S6, MCZ-S7, MCZ-S8, MCZ-S9, MCZ-S10 and MCZ-S11; 3. The Centres and Mixed-Use Design Guide, including guideline G107 – City Outcomes Contribution for any building that exceeds the maximum height limit requirement at Ngaio, Berhampore and Aro Valley centres and either comprises 25 or more residential units or is a non-residential building (this clause is not applicable to retirement villages) ; 4. The Residential Design Guide (<u>this clause is not applicable to retirement villages</u>); 5. The extent and effect of any identifiable site constraints; 6. Construction impacts on the transport network; and 7. The availability and connection to existing or planned three waters infrastructure; <u>8. For retirement villages:</u> <u>i. The effects of the retirement village on the safety of adjacent streets or public open spaces;</u> <u>ii. The extent to which articulation, modulation and materiality addresses adverse visual dominance effects associated with building length;</u> <u>iii. The effects arising from the quality of the interface between the retirement village and adjacent streets or public open spaces;</u> <u>iv. When assessing the matters in 2(a)(2), and 2(a)(8)(i) – (iii), consider:</u> <u>a. The need to provide for efficient use of larger sites; and</u> <u>b. The functional and operational needs of the retirement village.</u> <u>v. The positive effects of the construction, development and use of the retirement village.</u>

					<p><u>For clarity, no other rules or matters of discretion relating to the effects of density apply to buildings for a retirement village.</u></p> <p>Notification status:</p> <p>Notification status: An application for resource consent made in respect of rule MCZ-R20.2 which complies with MCZ-S3, MCZ-S7, MCZ-S8, MCZ-S9, MCZ-S10 and MCZ-S11 is precluded from being either publicly or limited notified.</p> <p>Notification status: An application for resource consent made in respect of rule MCZ-R20.2 which results from non-compliance with MCZ-S1, MCZ-S2, MCZ-S4, MCZ-S5 and MCZ-S6 is precluded from being publicly notified.</p> <p><u>An application for resource consent for a retirement village made in respect of rule MCZ-R20.2 is precluded from being publicly notified.</u></p> <p><u>An application for resource consent for a retirement village made in respect of rule MCZ-R20.2 where compliance is achieved with MCZ-S1 and MCZ-S4 is precluded from being limited notified.</u></p>
Woolworths New Zealand	359.78	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R20	Amend	Considers that MCZ-R20.1 should be amended to establish a baseline for supermarket operations within the LCZ that is greater than the current threshold of 100m ² for new buildings on account of the general operational requirements of the stores. This proposed baseline of 2000m ² aligns with the Auckland Unitary Plan provisions in the Local Centre zone and is considered a commensurate response given the typical scale of supermarket buildings in this zone.	<p>Amend CZ-R20.1 (Construction of, or additions and alterations to, buildings and structures) as follows:</p> <p>...</p> <p>b. The construction of any building or structure:</p> <p>i. Is not located on a site with an active frontage or non-residential activity frontage; or</p> <p>ii. Is not visible from a public space; and</p> <p>iii. Will have a gross floor area of less than 100m² <u>except where specified in iv below;</u></p> <p><u>iv. Will have a gross floor area of less than 2000m² where it accommodates a supermarket;</u> and</p> <p>iv. Will result in a total coverage (together with other buildings) of no more than 20 percent of the site; and</p> <p>v. Comply with effects standards MCZ-S1, MCZ-S2, MCZ-S3, MCZ-S4, MCZ-S5 and MCZ-S6 and</p> <p>vii. Does not involve the construction of a new building for residential activities</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.79	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R20	Amend	Considers that MCZ-R20.2 restricted discretionary activities should exclude new supermarket buildings. There are concerns around the inclusion of the Centres and Mixed Use Design Guide within these matters of discretion on account of the unnecessary scope this introduces in a restricted discretionary consenting framework. As such, it is specifically sought that that this is excluded from the matters of discretion for new supermarket buildings.	Amend CZ-R20.2 (Construction of, or additions and alterations to, buildings and structures) as follows: 1. Activity status: Restricted Discretionary Where: 1. Compliance with any of the requirements of MCZ-R19.1 <u>MCZR20.1</u> cannot be achieved. Matters of discretion are: 1. The matters in MCZ-P6, MCZ-P7, MCZ-P8 and MCZ-P9 <u>excluding for supermarkets exceeding MCZ-R20(b)(iv);</u> <u>2. For supermarkets exceeding MCZ-R20(b)(iv), the matters in MCZ-P2, MCZ-P3, MCZ-P4, MCZ-P7, MCZ-P9;</u> 3. <u>3.</u> The extent and effect of non-compliance with MCZ-S1, MCZ-S2, MCZ-S3, MCZ-S4, MCZ-S5, MCZ-S6, MCZ-S7, MCZ-S8, MCZ-S9, MCZ-S10 and MCZ-S11; 4. <u>4.</u> The Centres and Mixed-Use Design Guide, including guideline G10797 - City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 25 or more residential units or is a non-residential building (<u>excluding supermarkets</u>); 5. <u>5.</u> The Residential Design Guide; 6. <u>6.</u> The extent and effect of any identifiable site constraints; 7. <u>7.</u> Construction impacts on the transport network; and 8. <u>8.</u> The availability and connection to existing or planned three waters infrastructure.
Kāinga Ora Homes and Communities	391.672	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R20	Support in part	Supports this rule in part, and particularly the preclusion of public and limited notification. Considers that amendments are required to remove direct reference to the design guide and to instead articulate the urban design outcomes that are sought, and to remove reference to the "City Outcomes Contribution". Considers that reference to residential units should also be removed as this rule is focussed on the built form rather than activities and this would be a double up.	Retain MCZ-R20 (Construction of, or additions and alterations to, buildings and structures) and seeks amendment.

Amend / Allow the submission points regarding deletions and notification preclusions, subject to the relief sought by Ryman.
Fabric Property Limited	425.55	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R20	Amend	Opposed to the 'City Outcomes Contributions' provisions, and specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development. While Fabric recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list. The 'City Outcomes Contributions' have the potential to act as a disincentive for development, which conflicts with the Proposed Plan strategic objectives and NPS-UD requirements of providing development capacity and providing for urban intensification. This would not achieve the aim of “density done well” as stated in the Design Guide. Seeks that all references to the City Outcomes Contributions be removed from the Proposed Plan and design guides.	Amend MCZ-R20.2.3 (City Outcomes Contribution) as follows: ... 3. The Centres and Mixed Use Design Guide, including guideline G107— City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 25 or more residential units or is a non-residential building. ...
Stride Investment Management Limited	470.50	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R20	Support	Supports the preclusion of public and limited notification and seeks that this is applied to all standards.	Retain MCZ-R20 (Construction of, or additions and alterations to, buildings and structures) as notified, with amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Stride Investment Management Limited	470.51	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R20	Amend	Considers appropriate that preclusion of public and limited notification seen in MCZ-R20 be applied to all standards. [Refer to original submission for full reason]	Amend MCZ-R20 (construction of, or additions and alterations to, buildings and structures) as follows: Notification status: An application for resource consent made in respect of rule MCZ-R20.2 which results from non-compliance with MCZ-S1, MCZ-S2, <u>MCZ-S3</u> , MCZ-S4, MCZ-S5 and MCZ-S6, <u>MCZ-S7</u> , <u>MCZ-S8</u> , <u>MCZ-S9</u> , <u>MCZ-S10</u> , <u>MCZ-S11</u> is precluded from being publicly notified. [Inferred decision requested]
Fire and Emergency New Zealand	273.302	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R21	Support in part	Supports the rule as the matters of discretion for these restricted discretionary activities include consideration of the availability and connection to existing or planned three waters infrastructure, particularly where this may involve the conversion of non-habitable rooms to residential use. A minor amendment is however included to include the necessity to connect to three waters infrastructure including for the purposes of firefighting.	Supports MCZ-R21 (Conversion of buildings or parts of buildings to residential activities), with amendment.
Fire and Emergency New Zealand	273.303	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R21	Amend	Supports the rule as the matters of discretion for these restricted discretionary activities include consideration of the availability and connection to existing or planned three waters infrastructure, particularly where this may involve the conversion of non-habitable rooms to residential use. A minor amendment is however included to include the necessity to connect to three waters infrastructure including for the purposes of firefighting.	Amend MCZ-R21 (Conversion of buildings or parts of buildings to residential activities) as follows: Matters of discretion are: ... 3. The Residential Design Guide; and 4. The availability and connection to existing or planned three waters infrastructure; and <u>5. The availability and connection to existing or planned three waters infrastructure, including for firefighting purposes.</u>
The Retirement Villages Association of New Zealand Incorporated	FS126.41	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R21	Oppose	The RVA opposes the relief sought in this submission as matters relating to fire-fighting servicing are already provided for under the Building Act and it is inappropriate to duplicate controls under the Proposed Plan.	Disallow
Ryman Healthcare Limited	FS128.41	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R21	Oppose	Ryman opposes the relief sought in this submission as matters relating to fire-fighting servicing are already provided for under the Building Act and it is inappropriate to duplicate controls under the Proposed Plan. Investore Property Limited	405.120	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R21	Support in part	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Retain MCZ-R21.1 (Conversion of buildings, or parts of buildings, to residential activities) and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.101	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R21	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.101	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R21	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Investore Property Limited	405.121	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R21	Amend	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Amend MCZ-R21.1 (Conversion of buildings, or parts of buildings, to residential activities) to remove the Design Guide as a matter of discretion and replace with specific design outcomes that are sought.
The Retirement Villages Association of New Zealand Incorporated	FS126.102	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R21	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.102	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R21	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Fire and Emergency New Zealand	273.304	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R22	Support in part	Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Supports MCZ-R22 (Outdoor storage areas), with amendment.
Fire and Emergency New Zealand	273.305	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-R22	Amend	Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Amend MCZ-R22 (Outdoor storage areas) as follows: Activity status: Permitted Where: a. The storage area is screened by either a fence or landscaping of 1.8m in height from any adjoining road or site. b. Screening does not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves, or other emergency response facilities.
Fire and Emergency New Zealand	273.306	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Support	Supports the standard as it provides a maximum height of between 15m and 25m for any building	Retain MCZ-S1 (Maximum height) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Bus Barn Limited	320.2	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Amend	Considers that specific height control (MCZ-S1 - Height control 2) should be increased to 40m, rather than 27m. The demand for housing and business in Lyall Bay (and Wellington) is high. Policy 3b states 'in metropolitan centre zones, building heights and density of urban form to reflect demand for housing and business use in those locations, and in all cases building heights of at least 6 storeys'. To truly reflect the policy of the NPS-UD the height limit on this windfall site, the district plan should allow an increase to allow for more development to cater for high demand of housing in Lyall Bay, which in turn would support the local area.	Amend MCZ-S1 (Maximum height) as follows: ... Height control area 2 Kilbirnie (except as below) 27m <u>40m</u> ...
Restaurant Brands Limited	349.166	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Support	Support	Retain MCZ-S1 (Maximum height) as notified.
Kāinga Ora Homes and Communities	391.676	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Oppose	Considers that amendments are required to provide for building heights of 15 storeys (55 metres). Notes that no clarification is provided in the plan for why height limits are required. Considers that amendments are required to the Metropolitan Centre building height controls (MCZ-S1) to enable building heights of up to 15 storeys or 55 metres. This change will enable greater development capacity and is appropriate given the identification of the Metropolitan Centres as significant sub-regional centres second only to the City Centre in the city hierarchy. Considers that amendment is required to enable fence heights of up to 2 metres.	Retain MCZ-S1 (Maximum height) and seeks amendment.
Greater Wellington Regional Council	FS84.47	Part 3 / Commercial and mixed use Zones / Mixed Use Zone / MUZS1	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Kāinga Ora Homes and Communities	391.677	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Amend	Considers that amendments are required to provide for building heights of 15 storeys (55 metres). Notes that no clarification is provided in the plan for why height limits are required. Considers that amendments are required to the Metropolitan Centre building height controls (MCZ-S1) to enable building heights of up to 15 storeys or 55 metres. This change will enable greater development capacity and is appropriate given the identification of the Metropolitan Centres as significant sub-regional centres second only to the City Centre in the city hierarchy. Considers that amendment is required to enable fence heights of up to 2 metres.	Amend MCZ-S1 (Maximum height) as follows: 1. The following maximum height limits above ground level must be complied with: <u>Buildings and structures must not exceed a maximum height of 55m above ground level.</u> Location Limit Height control area 1 Johnsonville 25m Height control 2 Kilbirnie (except as below) 27m Height control area 3 Kilbirnie, north of Rongotai Road 15m 2. Fences and standalone walls must not exceed a maximum height of 1-82 metres (measured above ground level).
Greater Wellington Regional Council	FS84.48	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Stride Investment Management Limited	FS107.42	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Support	Stride supports the proposed 55m height limit within the Metropolitan Centre zone, for the reasons provided by the primary submitter and in Stride's primary submission.	Allow
Investore Property Limited	FS108.42	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Support	Investore supports the proposed 55m height limit within the Metropolitan Centre zone, for the reasons provided by the primary submitter and in Investore's primary submission.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Investore Property Limited	405.122	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Support in part	<p>Considers that the 35 m maximum height limit and extent is generally appropriate and supports it to the extent that it is more enabling than the height in the Operative District Plan; but seeks that it is amended to 50m for the central parts of the centre.</p> <p>It is important that the Metropolitan Centre zone provides appropriate building heights to enable sufficient development capacity to accommodate the population growth anticipated and the activities provided for. This will enable sufficient development needed in Johnsonville and is consistent with the NPS-UD.</p> <p>The area identified for this 50 m maximum height is shown in Appendix D of the submission.</p> <p>[Refer to original submission for full reason, including attachment].</p>	Retain MCZ-S1 (maximum height) and seeks amendment.
Investore Property Limited	405.123	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Amend	<p>Considers that the 35 m maximum height limit and extent is generally appropriate and supports it to the extent that it is more enabling than the height in the Operative District Plan; but seeks that it is amended to 50m for the central parts of the centre.</p> <p>It is important that the Metropolitan Centre zone provides appropriate building heights to enable sufficient development capacity to accommodate the population growth anticipated and the activities provided for. This will enable sufficient development needed in Johnsonville and is consistent with the NPS-UD.</p> <p>The area identified for this 50 m maximum height is shown in Appendix D of the submission.</p> <p>[Refer to original submission for full reason, including attachment].</p>	Amend MCZ-S1 (maximum height) to provide for a 50m building height within an area identified between Moorfield Road and Johnsonville - Porirua Motorway. [Refer to original submission for map].
Investore Property Limited	405.124	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Support	Support the Height Control 2 (Kilbirnie) of 27 m within the standard.	Seek to retain Height Control 2 (Kilbirnie) of MCZ-S1 (Maximum Height) as notified.
Willis Bond and Company Limited	416.128	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Amend	<p>Acknowledges that some form of bulk or height limitation is appropriate in the Metropolitan Centre Zone, but consider replacing with floor area ratios.</p> <p>As an alternative to maximum heights, floor area ratios relative to lot sizes could be used as a method to control bulk and calculated based on the heights currently allowed. This would enable more holistic design outcomes that prioritise performance outcomes as opposed to arguably arbitrary height limits.</p>	Seeks that Council consider replacing MCZ-S1 (Maximum Height) maximum height limits with floor area ratios.
Willis Bond and Company Limited	416.129	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Amend	<p>If height limits are retained, 35m should apply across both Metropolitan Centres. This is in line with the purpose of Metropolitan Centres and the National Policy Statement on Urban Development 2020 (NPS-UD), Policy (3)(b).</p> <p>[Refer to original submission for full reason].</p>	Seeks that if height limits are retained, amend Kilbirnie to 35m.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.130	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Amend	<p>Submitter considers that if height limits are retained, there should be further scope for development above the façade height, e.g. plant rooms, sloping roofs, etc.</p> <p>The submitter considers that it is the view from the street which is the greatest concern (i.e. the height of the parapet).</p> <p>The submitter considers that the way the current height limits are drafted encourages a 'flat haircut' style of building and limits potential roof designs.</p>	<p>Seeks that MCZ-S1 (Maximum height) be amended as follows:</p> <p>This standard does not apply to:</p> <p>...</p> <p>d. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height by more than 1m; and</p> <p>e. Lift overruns provided these do not exceed the height by more than 4m;</p> <p>f. <u>Circumstances where up to 50% of a building's roof in elevation exceeds the maximum height where the entire roof slopes 15° or more; or</u></p> <p>g. <u>Circumstances where, in respect of flat roofs or roofs sloping less than 15°, non-habitable rooms (such as plant rooms) and other roof-top structures may exceed the height, provided those structures are set back from the leading edge of the parapet by at least 2 metres and do not exceed 50% of the overall roof area.</u></p> <p>...</p> <p>[Inferred decision requested].</p>
Rachel Underwood	458.11	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Oppose	Opposes the provision to allow six-storey buildings considering that it will result in cold, sunless, wind canyons.	Amend MCZ-S1 (Maximum Height) to retain existing low-rise or one-level buildings adjacent to the roadside with three-storey (or six-storey) buildings set back.
Stride Investment Management Limited	470.52	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Support in part	<p>Supports in general the 35m height limit</p> <p>[Refer to original submission for full reason].</p>	Retain MCZ-S1 (Maximum height) as notified, with amendments.
Stride Investment Management Limited	470.53	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S1	Amend	<p>Considers appropriate that an amendment to MCZ-S1 (Maximum height) to increase the height limit to 50m in the central parts of the centre.</p> <p>Considers that maximum height limit of 35 metres will not be sufficient to enable the development that is needed in Johnsonville, and the level that is appropriate for a Metropolitan Centre zoning in accordance with the strategic direction of the Proposed District Plan or the NPS-UD.</p> <p>Considers that a two-tiered approach to building height would be appropriate, and have seen this applied in the Kilbirnie Metropolitan Centre.</p> <p>[Refer to original submission for full reason].</p>	<p>Amend MCZ-S1 (Maximum height) to provide for a 50m building height within the area shown on the map in Appendix C.</p> <p>[Refer to original submission for attachment labelled Appendix C]</p>
McDonald's	274.52	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S2	Oppose	Considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete MCZ-S2 (Minimum building height) in its entirety.
Restaurant Brands Limited	349.167	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S2	Oppose	<p>Oppose</p> <p>There are many buildings with a height less than the required minimum that will contribute positively to a well-functioning urban environment. The proposed standard will result in too many buildings requiring resource consent and is not an efficient or effective method to implement the policies of the Proposed District Plan.</p>	Delete MCZ-S2 (Minimum building height) in its entirety.
Foodstuffs North Island	FS23.54	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S2	Support	Submission point 349.167 supports FSNI submission point 476.46.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.80	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S2	Oppose	MCZ-S2 is opposed in its entirety and should be deleted. The standard is overly onerous, when the PDP should be promoting development in the Centres. If this is to be retained in some degree ,it should be refined to be a building frontage height standard and limited to specified streets as identified on the planning maps to achieve centre vibrancy and amenity.	Delete MCZ-S2 (Minimum building height) in its entirety.
Foodstuffs North Island	FS23.20	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S2	Support	Submission point 359.80 supports submission point 476.46.	Allow
Z Energy Limited	361.87	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S2	Support in part	MCZ-S2 is supported in so much as it seeks to enable a higher density of activities in the CC by enabling buildings of greater heights than other zones. This standard applies to every new 'building' or 'structure', which are both defined in the PDP and essentially includes any physical object that is fixed to the ground with no qualifying dimensions. [Submitter identified MCZ-S4 (Height in relation to boundary) instead of MCZ-S2 (Minimum building height); submission points have been changed to refer to MCZ-S2]	Retain MCZ-S2 (Minimum building height) with amendment. [Inferred decision requested]
Z Energy Limited	361.88	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S2	Amend	Considers that MCZ-S2 should be amended to consider include exclusions for any building or structure that cannot be occupied by a person. [Submitter identified MCZ-S4 (Height in relation to boundary) instead of MCZ-S2 (Minimum building height); submission points have been changed to refer to MCZ-S2]	Amend MCZ-S2 (Minimum building height) as follows: 1. A minimum height of 7m is required for: a. New buildings or structures; and b. Additions to the frontages of existing buildings and structures. <u>This standard does not apply to:</u> <u>1. Any building or structure that is unable to be occupied by people.</u>
Investore Property Limited	405.125	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S2	Support in part	Considers that the standard should only apply to identified active frontages. This is to recognise that smaller building types may be needed for practical reasons on larger development sites such as the Johnsonville centre alongside taller buildings. Restricting this standard to active frontages ensures that good urban design outcomes are still achieved.	Retain MCZ-S2 (Minimum building height) with amendment.
Investore Property Limited	405.126	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S2	Amend	Considers that the standard should only apply to identified active frontages. This is to recognise that smaller building types may be needed for practical reasons on larger development sites such as the Johnsonville centre alongside taller buildings. Restricting this standard to active frontages ensures that good urban design outcomes are still achieved.	Amend MCZ-S2 (Minimum building height) as follows: 1. A minimum height of 7m is required for: a. New buildings or structures <u>on sites with active frontages</u> ; and b. Additions to the frontages of existing buildings and structures <u>on sites with active frontages</u> .
Willis Bond and Company Limited	416.131	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S2	Support in part	Supports MCZ-S2 in part. The submitter considers that the minimum building height (7m) is generally appropriate in the Metropolitan Centre Zones, however, the submitter suggests more flexibility to breach the standards where the new building will result in a quality urban design outcome.	Retain MCZ-S2 (Minimum building height) with amendments.
Foodstuffs North Island	FS23.92	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S2	Oppose	Submission point 416.131 seeks to amend MCZ-S2. FSNI submission point 476.46 seeks to delete MCZ-S2 in it's entirety.	Disallow
Willis Bond and Company Limited	416.132	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S2	Amend	Submitter considers that the minimum building height (7m) is generally appropriate in the Metropolitan Centre Zones, however, the submitter suggests more flexibility to breach the standards where the new building will result in a quality urban design outcome.	Seeks that MCZ-S2 (Minimum building height) be amended, with the assessment criteria where the standard is infringed to include urban design outcomes.
Stride Investment Management Limited	470.54	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S2	Support in part	Supports in part MCZ-S2 (Minimum Building Height) .	Retain MCZ-S2 (Minimum Building Height) as notified, with amendments. [Inferred decision requested]

Kāinga Ora Homes and Communities	391.679	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S4	Amend	<p>Considers amendments to MCZ-S4 are required to achieve consistency with any recommended changes to the height in relation to boundary rules and height for the residential zones.</p>	Amend MCZ-S4 (Height in relation to boundary) to align with changes sought to MCZ-S1 (Maximum height) and MCZ-S2 (Minimum building height).
Restaurant Brands Limited	349.170	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S5	Support	Support	Retain MCZ-S5 (Verandah control) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Z Energy Limited	361.89	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S5	Support in part	MCZ-S5 is partially supported as relates to specific sites identified on the Planning Maps with a 'verandah control'. However, the performance standard would apply if Z Energy was seeking consent for a building or structure and requires a verandah to extend the full width of the building elevation. This is not practical in the context of a service station, where the buildings on the site are usually a canopy over the refuelling area and the ancillary retail building to one side or to the rear.	Retain MCZ-S5 (Minimum building height) with amendment.
Z Energy Limited	361.90	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S5	Amend	Considers that MCZ-S5 should be amended to have greater recognition of these existing activities and their operational and functional requirements that prevent compliance is needed, noting the investment associated with the existing commercial activities, the benefits they provide to the community and the need for them to be maintained and upgraded from time to time. It is sought that this standard not apply to buildings where there is functional requirement to not include a verandah. (Option A)	Amend MCZ-S5 (Minimum building height) as follows: 1. Verandahs must be provided on building elevations on identified street frontages <u>except where there is a functional requirement for a building to not contain a verandah.</u> ...
Z Energy Limited	361.91	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S5	Amend	Considers that MCZ-S5 should be amended to have greater recognition of these existing activities and their operational and functional requirements that prevent compliance is needed, noting the investment associated with the existing commercial activities, the benefits they provide to the community and the need for them to be maintained and upgraded from time to time. It is sought that this standard not apply to service stations. (Option B)	Amend MCZ-S5 (Minimum building height) as follows: ... This standard does not apply to: a. Any scheduled building identified in SCHED1-Heritage buildings. However, if for any reason these buildings received Council approval (resource consent or other approval) to be demolished, then a verandah would be required for any replacement buildings on these sites; and b. Any building where compliance with the standard results in an encroachment into the dripline of an existing street tree. <u>c. Service stations</u>
Z Energy Limited	361.92	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S5	Amend	Considers that MCZ-S5 should be amended to have greater recognition of these existing activities and their operational and functional requirements that prevent compliance is needed, noting the investment associated with the existing commercial activities, the benefits they provide to the community and the need for them to be maintained and upgraded from time to time. It is sought that this standard recognise functional requirement in the assessment criteria. (Option C)	Amend MCZ-S5 (Minimum building height) as follows: ... Assessment criteria where the standard is infringed: 1. The extent to which any non-compliance: a. Will adversely affect the comfort and convenience of pedestrians; b. Will result in further street trees being added to public space as part the development; and <u>c. Is required for on-site functional or operational needs</u> 2. The continuity of verandah coverage along the identified street, informal access route or public space
McDonald's	274.54	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Oppose in part	Considers that the standards on active frontage and non-residential activity frontage controls in Centres and Mixed Use Zones are overly prescriptive.	Retain MCZ-S6 (Active frontage and non-residential activity frontage controls), subject to amendment outlined other submission points.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
McDonald's	274.55	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Amend	Considers that centres and commercial areas have a mixture of street typologies. Most have at least one main shopping street and while it is appropriate that these streets have high levels of activation, there are secondary frontages or streets are less important retail streets and have lower levels of pedestrian activity. It would be more appropriate to streamline the standards with portions instead included within the Design Guidance and/or as matters of discretion.	Amend MCZ-S6 (Active frontage and non-residential activity frontage controls) as follows: 1. Dwellings must not locate on the ground floor of Any new building or addition to an existing building on an identified street with an active frontage or a non-residential activity frontage control for any new building, or ground level addition or alteration to an existing building, must: a. Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary; b. Provide a minimum of 60% of continuous display windows or transparent glazing along the width of the ground floor building frontage; and c. Locate the principal public entrance on the front boundary; 2. Any new building or ground level addition to, or alteration of, a building or structure facing a public space must not result in a featureless façade that: a. Is more than 4 3 metres wide; and b. Extends from a height of 1m above ground level to a maximum height of 2.5m; and c. Any roller shutter doors, security grilles, screens or similar structures fitted to the facade of any building must be at least 50% visually transparent. 3. Any roller shutter doors, security grilles, screens or similar structures fitted to the facade of any building must be at least 50% visually transparent; and 4. Any new building or addition to an existing building on a site with a non-residential activity frontage control must: a. Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary; and b. Locate the principal public entrance on the front boundary.
The Retirement Villages Association of New Zealand Incorporated	FS126.180	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission. The RVA considers that residential activities, including retirement villages, should be permitted at ground floor.	Disallow
Ryman Healthcare Limited	FS128.180	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission. Ryman considers that residential activities, including retirement villages, should be permitted at ground floor.	Disallow
Restaurant Brands Limited	349.171	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Support	Support	Retain MCZ-S6 (Active frontage and non-residential activity frontage controls) as notified.
Foodstuffs North Island	FS23.56	Part 3 / Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Oppose	Submission point 349.171 seeks to retain MCZ-S6 as notified. FSNI submission point 476.48 seeks that the provision is amended.	Disallow / Reject submission in part.
Woolworths New Zealand	359.81	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Support in part	The restricted discretionary activity status to infringe the active frontage standards of MCZ-S6, NCZ-S6, and LCZ-S6 is supported. Notwithstanding, it is noted that supermarkets are unlikely to comply with these standards in any circumstance (being built up to the street edge on all street boundaries; a minimum of 60% of continuous display windows or transparent glazing along the width of the ground floor building frontage; 50% visually transparent shutter doors), owing to genuine operational reasons. Whilst Woolworths acknowledges that the assessment criteria associated with the standard enable the consideration of those operational and functional needs, the standard represents another circumstance whereby consents would always be required for supermarkets, despite supposedly being encouraged with the relevant CMUZ.	Retain MCZ-S6 (Active frontage and non-residential activity frontage controls) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.82	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Amend	<p>Considers that supermarkets are unlikely to comply with the restricted discretionary standards of MCZ-S6 in any circumstance, owing to genuine operational reasons.</p> <p>While the assessment criteria associated with the standard enable the consideration of those operational and functional needs, the standard represents another circumstance whereby consents would always be required for supermarkets, despite supposedly being encouraged with the relevant CMUZ. This standard should be amended to not apply to new or extended supermarkets. The restricted discretionary activity status to infringe this standard is supported.</p>	<p>Amend MCZ-S6 (Active frontage and non-residential activity frontage controls) as follows:</p> <ol style="list-style-type: none"> Any new building or addition to an existing building (<u>excluding new supermarkets or additions to an existing supermarket</u>) on an identified street with an active frontage must: <ol style="list-style-type: none"> Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary; Provide a minimum of 60% of continuous display windows or transparent glazing along the width of the ground floor building frontage; and Locate the principal public entrance on the front boundary; Any ground level addition to, or alteration of, a building or structure facing a public space must not result in a featureless façade that: <ol style="list-style-type: none"> Is more than 3 metres wide; and Extends from a height of 1m above ground level to a maximum height of 2.5m; Any roller shutter doors, security grilles, screens or similar structures fitted to the facade of any building <u>on a site located on an identified street with an active frontage</u> must be at least 50% visually transparent; and Any new building or addition to an existing building (<u>excluding new supermarkets or additions to an existing supermarket</u>) on a site with a non-residential activity frontage control must: <ol style="list-style-type: none"> Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary; and Locate the principal public entrance on the front boundary.
Foodstuffs North Island	FS23.21	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Support	Submission point 359.82 partly supports FSNI submission point 376.48.	Allow / Allow submission in part.
Z Energy Limited	361.93	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Support in part	MCZ-S6 is partially supported as it requires that buildings are built up to the street edge along the full width of the site, that glazing is provided and that the principal entrance is located on the front road boundary.	Retain MCZ-S6 (Active frontage and non-residential activity frontage controls) with amendment.
Z Energy Limited	361.94	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Amend	Considers that MCZ-S6 should be amended to recognise the operational and functional requirements of existing service stations and should be amended.	<p>Amend MCZ-S6 (Active frontage and non-residential activity frontage controls) as follows:</p> <ol style="list-style-type: none"> Any new building or addition to an existing building adjoining an identified street with an active frontage control must: <ol style="list-style-type: none"> Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary <u>except where there is a functional requirement for that building to be set back from the street edge. In this case, 1b would not apply;</u> Provide a minimum of 60% of continuous display windows or transparent glazing along the width of the ground floor building frontage Locate the principal public entrance on the front boundary <u>except where there is a functional requirement for the principal entrance to not front the street.</u> ... Any new building or addition to an existing building on a site with a non-residential activity frontage control must: <ol style="list-style-type: none"> Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary <u>except where there is a functional requirement for that building to be set back from the street edge.</u> Locate the principal public entrance on the front boundary <u>except where there is a functional requirement for the principal entrance to not front the street.</u>

Kāinga Ora Homes and Communities	391.680	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Amend	Considers that MCZ-S6 should be amended so that active frontage controls only apply where necessary, such as along principal roads/arterials not necessary along connecting streets. Only buildings that are located along any street edge should be controlled, rather than buildings on the whole site where an active frontage applies. Active frontage controls on streets and buildings where these matters do not apply should be deleted. These amendments recognise that active frontage controls are useful to achieve well-functioning urban environments where they are specifically applied on key roads where character and amenity values anticipated by underlying zoning are present.	Amend MCZ-S6 (Active frontage and non-residential activity frontage controls) to only apply for buildings that are located along principal roads/arterials and along any street edge.
Investore Property Limited	405.127	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Support in part	Supports this control and associated provisions in part, and agrees with the intent around urban design, but considers that it provides insufficient exceptions for functional requirements such as vehicle entrances. Considers the requirement should be amended so that so that only 70% of an active frontage must be built up to the street edge, in order to allow for functional requirements on the remaining 30% of the street frontage.	Retain MCZ-S6.1.a (Active frontage and non-residential activity frontage controls) with amendments.
Investore Property Limited	405.128	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Amend	Supports this control and associated provisions in part, and agrees with the intent around urban design, but considers that it provides insufficient exceptions for functional requirements such as vehicle entrances. Considers the requirement should be amended so that so that only 70% of an active frontage must be built up to the street edge, in order to allow for functional requirements on the remaining 30% of the street frontage.	Amend MCZ-S6.1.a (Active frontage and non-residential activity frontage controls) as follows: 1. Any new building or addition to an existing building adjoining an identified street with an active frontage must: a. Be built up to the street edge on all street boundaries and along the full 70% of the width of the site <u>boundary</u> bordering any street boundary, <u>subject to functional requirements.</u>
Willis Bond and Company Limited	416.133	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Amend	Submitter considers that there should be more flexibility to breach the standard where the overall design has a positive effect on the streetscape.	Amend MCZ-S6 (Active frontage and non-residential activity frontage controls) as follows: Assessment criteria where the standard is infringed: The extent to which: ... b. The building frontage is designed and located to create a strong visual alignment with adjoining buildings <u>or otherwise enhances the streetscape;</u> and ...
Foodstuffs North Island	FS23.93	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Support	Submission point 416.133 seeks to amend MCZ-S6. FSNI submission point 476.48 also seeks to amend MCZ-S6.	Allow / Allow submission in part.
Stride Investment Management Limited	470.56	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Support in part	Supports MCZ-S6 (Active frontage and non-residential activity frontage controls) and associated provisions in part, and agrees with the intent around urban design.	Retain MCZ-S6 (Active frontage and non-residential activity frontage controls) as notified, with amendments.
Stride Investment Management Limited	470.57	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S6	Amend	Considers that the active frontage controls provide insufficient exceptions for functional requirements such as vehicle entrances. Seeks amendments to the active frontage controls and all associated provisions so that only 70% of an active frontage must be built up to the street edge, in order to allow for functional requirements on the remaining 30% of the street frontage.	Amend MCZ-S6.1.a. (Active frontage and non-residential activity frontage controls) as follows: 1. ... a. Be built up to the street edge on all street boundaries and along the full 70% of the width of the site <u>boundary</u> bordering any street boundary, <u>subject to functional requirements.</u> ...

Commercial and Mixed use - City Centre Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.284	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S11	Amend	Opposes the applicability of a maximum building depth standard for retirement villages. Considers that the proposed matters of discretion for LCZ-R18 are sufficient for assessing any effects relating to building lengths.	Amend MCZ-S10 (Minimum building separation distance) as follows: 1..... [figure] <u>This standard does not apply to retirement villages.</u>
Woolworths New Zealand	359.83	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S11	Amend	Considers that MCZ-S11 should be amended to introduce operational and functional requirements to infringements to maximum building depth since continuous external wall depth greater than 25m may be difficult to avoid in some larger scale proposals. Development of that scale may warrant consent and assessment, so long as that assessment is commensurate to the scale of the proposal, its context and those operational and functional requirements.	Amend MCZ-S11 (Maximum building height) as follows: 1. The extent to which the design mitigates the effect of a long featureless building elevation; and 2. Dominance, privacy and shading effects on adjoining sites. 3. <u>The extent to which any non-compliance is necessary to provide for the functional needs or operational needs of a proposed activity</u>
Kāinga Ora Homes and Communities	391.687	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S11	Oppose	Opposes MCZ-S11 as it constrains design flexibility, and it is not clear what positive outcome it achieves.	Delete MCZ-S11 (Maximum building depth) in its entirety as notified.
Investore Property Limited	405.130	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S11	Oppose	Considers that this standard will act as a constraint on appropriate development and design, and it is not clear what positive outcome it achieves.	Delete MCZ-11 (Maximum building depth) in its entirety.
Willis Bond and Company Limited	416.137	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S11	Oppose	Submitter considers that the maximum building depth is too restrictive and the submitter does not consider that it meets the section 32 Resource Management Act 1991 tests for appropriateness.	Delete MCZ-S11 (Maximum building depth) in its entirety.
Stride Investment Management Limited	470.62	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S11	Oppose	Considers MCZ-S11 (Maximum building depth) will act as a constraint on appropriate development and design.	Delete MCZ-S11 (Maximum building depth) in its entirety.
Foodstuffs North Island	476.95	Commercial and mixed use Zones / Metropolitan Centre Zone / MCZ-S11	Oppose	Opposes the Centre standards which sets a maximum 25m continuous depth of any external side wall. The word “continuous” is defined as forming an unbroken whole, without being interrupted. It is unclear whether the standard would still apply if the side wall was modulated. It would appear that the intent of these standards relates to privacy and dominance effects on neighbours and preventing a long featureless building façade. Privacy and dominance effects are more appropriately dealt with via the height, height in relation to boundary and outlook space standards. Furthermore, any new building in a Centre zone that is visible from the public realm requires consent and consideration of objectives and policies that also address amenity and design. Considers that the standards on maximum building depth are unnecessary and will act as a constraint on appropriate development and design.	Delete MCZ-S11 (Maximum building depth) in its entirety.
Andrew Haddleton	23.2	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that allowing buildings up to 28.5m will remove some of the character of the city and there are other areas where high-rise buildings could go. Instead buildings up to 18m (like the existing Embassy Theatre) will maintain the balanced aesthetic appearance of the street.	Seeks that the allowable building height in the CCZ (City Centre Zone) is sympathetic to the surrounding heritage buildings and character of the city. [Inferred decision requested]
Mark Tanner	24.4	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	The CCZ (City Centre Zone) is supported because densification of CBD, Te Aro, and Adelaide Road will accommodate projected population increases.	Retain CCZ (City Centre Zone) as notified.

Tim Bright	75.10	Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Opposes the edge of the Mount Victoria suburb being zoned CCZ.	[Not specified]
Judith Graykowski	80.12	Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Oppose the Western edge of Mount Victoria being zoned City Centre.	Seeks that the Western edge of Mount Victoria is rezoned
Joanna Newman	85.4	Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Opposes the western edge of the legal suburb of Mt Victoria being included in the CCZ (City Centre Zone). Considers that Cambridge Terrace forms the logical eastern boundary of the CCZ. CCZ is incompatible with the current, historical, Wellington City Council and Geographic Board definition of Mount Victoria as a suburb. Mount Victoria distinctive and strong identity to its residents and the city, dating back to its origins in 1840. Its main streets were laid out according to the 1840 plan by William Mein-Smith, surveyor for the New Zealand Company. The current low-rise but historically dense residential area extends well into the area currently designated City Centre Zone and intended for building at least 10 storeys high. Boundaries of the suburb of Mount Victoria are defined, and the suburb named, by The New Zealand Geographic Board and gazetted by Land Information New Zealand. Wellington City Council documents also show the western boundary of Mount Victoria along Cambridge Terrace, putting the islands between the two Terraces in Mount Victoria. Throughout WCC planning documents, including the Draft Spatial Plan, Mount Victoria is references are to the "suburb" of Mount Victoria, which must be understood to mean both the New Zealand Geographic Board and the Wellington City Council defined suburb. When WCC issues resource consents, it classifies consents applied for or granted in the part of Mount Victoria proposed to be zoned City Centre as Mount Victoria. Supports evidence submitted by Mt Victoria Historical Society.	Seeks that the CCZ (City Centre Zone) east of Cambridge Terrace in Mount Victoria be rezoned to MRZ (Medium Density Residential Zone). [Inferred decision requested]
Aro Valley Community Council	87.43	Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Considers that it would be inappropriate and dangerous to classify 290 Willis Street as a City Centre Zone. The site is adjacent to the dangerous Karo Drive and Willis Street intersection.	Seeks that 290 Willis Street is rezoned from City Centre Zone to Medium Density Residential Zone.

Generation Zero	FS54.47	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	<p>For character areas, the central test is “other” qualifying matter under clause 3.33(3) of the NPS-UD, alongside the objectives and purpose of the NPS-UD. There is an extremely high bar to creating a character area. The reduction in development capacity must be justified against the national significance of urban development and the objectives of the NPS-UD. Cities are dynamic and changeable. Indeed Wellington underwent many built changes before the currently form was locked in place by modern zoning documents. New housing and residents are a positive to encourage, rather a negative to push out further or crowd into the remaining housing stock. It is significantly more climate friendly to allow denser housing in inner-suburbs, rather than displacing development into greenfields, even accounting for embodied carbon. Character areas are in inner-city suburbs which are highly connected to amenities and already have high-mode share of low emissions transport. This land is often the most resilient. More residents can be easily absorbed in these suburbs and will create a positive impact on that suburb. The counterfactual – the status quo – is that the best quality land in the city is locked away by wealthy residents who seek to preserve an unsustainable way of life and/or their property values. This causes reduced supply and higher prices, higher rents, lower quality, displacement of low-income residents, and pushes residents to worse locations with higher lifetime emissions. The development capacity lost through character areas is extremely weighty; only very ‘character’ of very high quality can be justified. It must also be a site-specific analysis; the current broadbrush suburb-by-suburb analysis in the current District Plan is not allowed. The approaches advocated by the submitters is erroneous under the NPS-UD and should be rejected. Submitters cannot point to individual streets or houses they subjectively find as ‘character’ as this does not meet the stringent evidential requirement of clause 3.33(3). Submitters cannot request to go back to the current District Plan character areas, as these are untenable under the new NPS-UD test. Submitters cannot point to the Boffa Miskel report and adopt its recommendation. The report was written before the enactment of the NPS-UD. And, crucially, this approach begs the question of how the report fits into the NPS-UD test in clause 3.33(3). The approach in the PDP, where only contiguous and coherent pockets of high-quality character are proposed, is legal under the NPS-UD.</p>	<p>Disallow / Disallow the submission in full to the extent that this relates to character areas or reducing the amount of enabled housing.</p> <p>Reject increasing character areas in the PDP.</p>
Aro Valley Community Council	87.44	Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	<p>Considers that the sites at 290, 292 , 294, 296, 298, 300, 302, 304 and 306 Willis Street were never built to be part of the Central City - and have never operated as part of the Central City. A historical mapping error that gives this impression has been repeatedly acknowledged by the WCC but left unaddressed.</p>	<p>Seeks that 290, 292 , 294, 296, 298, 300, 302, 304 and 306 Willis Street are rezoned from City Centre Zone to Medium Density Residential Zone.</p>

[Refer to original submission for full reasons].	Not specified.
Jonathan and Tricia Briscoe	190.19	Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Considers that the western edge of Mt Victoria should not be CCZ (City Centre Zone). Considers that CCZ is incompatible with various definitions of Mt Victoria as a suburb. The current low-rise but historically dense residential area extends well into the area currently designated City Centre Zone and intended for building at least 10 storeys high. [refer to original submission for full reasons].	Seeks that the area of Mount Victoria that is CCZ (City Centre Zone) is rezoned to Medium Density Residential Area. [Inferred Decision Requested].

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Michael O'Rourke	194.17	Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Opposes the strip south of the Basin Reserve up Adelaide Road to John Street being zoned as CCZ. Notes that by various measures, including the Wellington Regional Council City Zone for public transport ending at the Basin, this area is not the CBD. [Refer to original submission for full detail].	Seeks that the Adelaide Road spine is made High Density Residential Zone.
Angus Hodgson	200.10	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	Support a dense urban centre for Wellington, drawing together our homes, work places, entertainment and leisure spaces, and green spaces.	Seeks that the densification within the CCZ (City Centre Zone) is retained as notified. [Inferred decision requested]
Angus Hodgson	200.11	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	Supports the introduction of minimum height requirements, which will assist in creating more attractive streetscapes generating a coherent rhythm, and more importantly allow for greater density by precluding underdevelopment of City Centre Zone sites.	Retain CCZ-S4 (Minimum building height) as notified.
Angus Hodgson	200.12	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Opposes the effective removal of setback requirements in the CCZ (City Centre Zone). Considers that sense of human scale is important within the urban centre. Considers that setback requirements assist in mitigating negative wind effects, allow for greater natural light on street sides, connections to natural landscape, and reduce the risk of knocking effect in seismic and high wind events.	Seeks the addition of setback requirements that take into account width of the streets and height of a proposed building into the CCZ (City Centre Zone).
Wellington City Youth Council	201.32	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	Supports the PDP's emphasis on promoting productive use of City Centre spaces, including requiring accommodation sites to have non-residential use of the ground floor such as cafes, restaurants, dairies, etc.	Retain the City Centre Zone chapter as notified.
Wellington City Youth Council	201.33	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that the City Centre should be a people-centric place to live, work, and enjoy.	Seeks that the PDP facilitates pedestrianisation of areas such as Cuba street to stimulate business activity and make better use of limited space.
Avryl Bramley	202.44	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that Rules currently allow multi story buildings in the Central city to have multiple car parks. Typically these are then used for non-residential dedicated single user park where the vehicle is not used at all during the day. In short the company car loafing in the company car park after a peak hour journey to transport an individual from home to work and return. These cars are expensive in terms of green and require expensive peak hour traffic schemes paid for by the community but benefit only a few. [Refer to original submission for full reason]	Seeks addition of rules to limit number of non residential on site in building car parks permitted to those necessary for the service and maintenance of the building plus a small margin over and above.
Avryl Bramley	202.45	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that Rules currently allow multi story buildings in the Central city to have multiple car parks. Typically these are then used for non-residential dedicated single user park where the vehicle is not used at all during the day. In short the company car loafing in the company car park after a peak hour journey to transport an individual from home to work and return. These cars are expensive in terms of green and require expensive peak hour traffic schemes paid for by the community but benefit only a few. [Refer to original submission for full reason]	Seeks addition of rules to create a sinking lid policy on existing car parks used for those same purposes and to reregister their use into the same categories and newly created parks.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Dougal and Libby List	207.4	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support in part	Supports the intent of the PDP to enable good quality intensification of the CCZ but this should be undertaken in a way that also maintains the character, amenity, and heritage of the City. Considers that density done well should be the bottom line, not density at all costs.	Seeks that good quality intensification of the City Centre Zone should be undertaken in a way that also maintains the character, amenity, and heritage of the City.
Dougal and Libby List	207.5	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that the current provisions of the PDP, in particular standards CCZ-S1 (Maximum height), CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height), and CCZ-S11 (Minimum building separation distance) will result in significant adverse effects on Moir Street properties which cannot be mitigated through design. Moir Street is recognised as one of the key coherent character and heritage areas of Mt Victoria. Considers that as a designated heritage area, it should have even more importance placed on mitigating the impacts of development from adjoining sites. It is unique in the PDP as being the only location in all of Wellington that is MRZ, a character precinct, heritage area, and adjacent to the CCZ. Therefore the specific changes requested in relation to avoiding significant adverse impacts on Moir Street do not have wider ramifications for the Council's intensification plans. [Refer to original submission for full reasons].	Not specified.
Craig Forrester	210.5	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support in part	Supports the intent of the PDP to enable good quality intensification of the CCZ but this should be undertaken in a way that also maintains the character, amenity, and heritage of the City. Considers that density done well should be the bottom line, not density at all costs.	Seeks that good quality intensification of the City Centre Zone should be undertaken in a way that also maintains the character, amenity, and heritage of the City.
Craig Forrester	210.6	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Moir Street is recognised as one of the key coherent character and heritage areas of Mt Victoria. Considers that as a designated heritage area, it should have even more importance placed on mitigating the impacts of development from adjoining sites. It is unique in the PDP as being the only location in all of Wellington that is MRZ, a character precinct, heritage area, and adjacent to the CCZ. Therefore the specific changes requested in relation to avoiding significant adverse impacts on Moir Street do not have wider ramifications for the Council's intensification plans. Mount Victoria Historical Society	214.10	Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Opposes the western edge of the legal suburb of Mt Victoria being included in the CCZ (City Centre Zone). Considers that Cambridge Terrace forms the logical eastern boundary of the CCZ. Considers that CCZ is incompatible with the current, historical, Wellington City Council and Geographic Board definition of Mount Victoria as a suburb. [Refer to original submission for full reason].	Seeks that the CCZ (City Centre Zone) east of Cambridge Terrace in Mount Victoria be rezoned to MRZ (Medium Density Residential Zone). [Inferred decision requested]
Historic Places Wellington Inc	FS111.73	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	No specific reason provided.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	233.24	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	<p>Considers that the operative District Plan strikes an appropriate balance with CCZ encroachment on residential zones by containing central area activities within the central area and a range of non-residential activities in residential zones, provided character and amenity standards are maintained and adverse effects are appropriately avoided, remedied or mitigated.</p> <p>The purpose of those provisions in the ODP have been diluted in the PDP.</p> <p>[Refer to original submission for full reason]</p>	Seeks that policies are added that address encroachment of city centre activities into adjoining residential zones.
Thorndon Residents' Association Inc	FS69.95	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	<p>Appropriate protection of pre-1930s buildings</p> <p>10min walkable catchment</p> <p>Specific heritage identification and assessment</p> <p>Views contributing to sense of place and identity</p> <p>Extend Character Precincts per Boffa Miskell</p> <p>Boffa Miskell streetscapes</p> <p>Appropriate protection of pre-1930s buildings</p> <p>CCZ encroachment on residential zones</p> <p>Old St Pauls height controls</p> <p>Preserve viewshalfs</p>	Allow
Ara Poutama Aotearoa the Department of Corrections	240.55	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	Considers that that the definition of "residential activity" entirely captures supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain the provisions applicable to "residential activities" in the City Centre Zone as notified.
Generation Zero Inc	254.16	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that the introduction of the chapter should be amended for consistency.	<p>Amend introduction of the City Centre Zone as follows;</p> <p>In locations where rapid transit investment has been signalled measures have been included to enable opportunities for more intensive, comprehensive development to occur, particularly in areas within a walkable distance <u>catchment</u> of planned rapid transit stops.</p>
Wheeler Grace Trust	261.2	Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	<p>Considers that the opportunity for residential intensification would be better reflected with HRZ (High Density Residential Zone).</p> <p>Changing from Inner Residential to City Centre Zone would drastically change Selwyn Terrace.</p> <p>Opposes the element of the NPS-UD application regarding commercial activities.</p> <p>Selwyn Terrace does not have a mix of land uses - it is all residential except the British High Commission, which has it's frontage on Hill Street.</p> <p>For Selwyn Terrace to be CCZ it would need better road access.</p> <p>Selwyn Terrace is unique and has character, making CCZ inappropriate.</p> <p>[Refer to original submission for full reason]</p>	Seeks that Selwyn Terrace, Thorndon is rezoned as High Density Residential Zone.
Steve Dunn	288.12	Commercial and mixed use Zones / City Centre Zone / General CCZ	Not specified	<p>Considers that intensification in Newtown should be focussed along Adelaide Road</p> <p>[Refer to original submission for full reason].</p>	<p>Seeks that intensification in Newtown should be focussed along Adelaide Road.</p> <p>[Inferred decision requested]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Branch NZIA	301.7	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	<p>Considers the need for a Design Review Panels for all inner city developments where developments are over 3 levels. The wholesale adoption of the MDRS standards could well result in a drastic lowering of design standards of housing, given that there are no quality control standards applied at the same time.</p> <p>A solution would be a mandatory Design Panel Review, as it would encourage high quality design outcomes in the city.</p> <p>[Refer to original submission for full reason]</p>	Seeks that a mandatory Design Panel Review be adopted for all inner city developments.
Wellington Civic Trust	FS83.16	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	Wellington Civic Trust supports the need for Design Review Panels.	Allow
The Retirement Villages Association of New Zealand Incorporated	FS126.224	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission and with the intent of the Enabling Housing Act and the NPSUD, in that it will slow, not speed up intensification.	Disallow
Ryman Healthcare Limited	FS128.224	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission and with the intent of the Enabling Housing Act and the NPSUD, in that it will slow, not speed up intensification.	Disallow
Wellington Branch NZIA	301.8	Commercial and mixed use Zones / City Centre Zone / General CCZ	Not specified	Considers that the Council needs to work harder to create good quality meaningful living conditions for residents in Te Aro to ensure that this area will flourish and not become a slum.	Not specified.
Wellington Branch NZIA	301.9	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that Adelaide Road should not be classified as CCZ. The street is likely unsuitable for the creation of further high-rise areas due to it being the former boggy route of a wetland stream. Medium-rise development to the level of 5-6 storeys and the occasional nine storey tower should be continued.	Remove Adelaide Road from City Centre Zone. [Inferred decision requested]
Moir Street Collective - Dougal List, Libby List, Karen Young, Jeremy Young, James Fairhall, Karen Fairhall, Craig Forrester, Sharlene Gray	312.4	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support in part	<p>Supports the intent of the PDP to enable good quality intensification of the CCZ but this should be undertaken in a way that also maintains the character, amenity, and heritage of the City.</p> <p>Considers that density done well should be the bottom line, not density at all costs.</p>	Seeks that good quality intensification of the City Centre Zone is undertaken in a way that also maintains the character, amenity, and heritage of the City.
Moir Street Collective - Dougal List, Libby List, Karen Young, Jeremy Young, James Fairhall, Karen Fairhall, Craig Forrester, Sharlene Gray	312.5	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	<p>Considers that the current provisions of the PDP, in particular standards CCZ-S1 (Maximum height), CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height), and CCZ-S11 (Minimum building separation distance) will result in significant adverse effects on Moir Street properties which cannot be mitigated through design.</p> <p>Moir Street is recognised as one of the key coherent character and heritage areas of Mt Victoria. Considers that as a designated heritage area, it should have even more importance placed on mitigating the impacts of development from adjoining sites. It is unique in the PDP as being the only location in all of Wellington that is MRZ, a character precinct, heritage area, and adjacent to the CCZ. Therefore the specific changes requested in relation to avoiding significant adverse impacts on Moir Street do not have wider ramifications for the Council's intensification plans.</p> <p>[Refer to original submission for full reason]</p>	Not specified.

Richard Murcott	322.26	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that the Selwyn Terrace residential enclave should be rezoned from City Centre Zone to Medium Density Residential Zone.	Seeks that the Selwyn Terrace residential enclave not be classified as City Centre Zone.
Thorndon Residents' Association Inc	FS69.58	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Richard Murcott	322.27	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that the residential area of Portland Crescent should be rezoned from City Centre Zone to Medium Density Residential Zone.	Seeks that the residential area of Portland Crescent not be classified as City Centre Zone.
Thorndon Residents' Association Inc	FS69.59	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Richard Murcott	322.28	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that the residential area of Hawkestone Street should be rezoned from City Centre Zone to Medium Density Residential Zone.	Seeks that the residential area of Hawkestone Street not be classified as City Centre Zone.
Thorndon Residents' Association Inc	FS69.60	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Richard Murcott	322.29	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that high density City Centre areas should have incentives to build and densify, potentially through rates. This would take the focus away from densifying Wellington's inner city residential areas that are full of character, green spaces and oftentimes significant heritage. [Refer to original submission for full reason]	Seeks that incentives be placed to encourage densification in City Centre Zones.
Thorndon Residents' Association Inc	FS69.61	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Thorndon Residents' Association	333.15	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that the Selwyn Terrace / Hill Street enclave should be rezoned from City Centre Zone to Medium Density Residential Zone. The enclave provides a visual linkage between this residential area and its residential neighbours across the motorway. It is part of the story of the Thorndon community demonstrating the impact the motorway construction had on Thorndon.	Seeks that the Selwyn Terrace / Hill Street enclave and the Portland Crescent/Hawkestone St cluster not be classified as City Centre Zone , and be re-zoned back to Inner Residential Area, with a qualifying matter as a Character Precinct Area, in a manner consistent with the maps and information appended to the submission. [Refer to original submission]
Thorndon Residents' Association	333.16	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that the Selwyn Terrace / Hill Street enclave should be rezoned from City Centre Zone to Medium Density Residential Zone. The enclave provides a visual linkage between this residential area and its residential neighbours across the motorway. It is part of the story of the Thorndon community demonstrating the impact the motorway construction had on Thorndon.	Seeks that the Selwyn Terrace / Hill Street enclave and the Portland Crescent/Hawkestone St cluster not be classified as City Centre Zone , and be re-zoned back to Inner Residential Area, with a qualifying matter as a Character Precinct Area, in a manner consistent with the maps and information appended to the submission. [Refer to original submission]
Property Council New Zealand	338.17	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	Supports the Proposed District Plan's proposal to encourage more inner city living, greater density of urban form, and more efficient use of sites within the City Centre.	Retain the 'City Centre Zone' chapter as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Carolyn Stephens	344.11	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that the plan should be amended to more comprehensively provide for enhanced sunlight access to outdoor and indoor living areas. [Refer to original submission for full reason]	Seeks that enhanced sunlight access be provided to outdoor and indoor living areas.
Wellington Civic Trust	FS83.17	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	This submission recognises the importance of sunlight for people in central Wellington. Wellington Civic Trust supports this submission, which is also in accordance with its submission seeking more open space and sunlight protection for open space.	Allow
Retirement Villages Association of New Zealand Incorporated	350.285	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers policy support for retirement villages in the Metropolitan Centre Zone is required.	Add the following new policies in the City Centre Zone chapter and amend current objectives and policies for consistency: <u>Provision of housing for an ageing population</u> 1. <u>Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u> 2. <u>Recognise the functional and operational needs of retirement villages, including that they:</u> a. <u>May require greater density than the planned urban built character to enable efficient provision of services.</u> b. <u>Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u> <u>Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the [add] zone will change over time to enable a variety of housing types with a mix of densities.</u> <u>Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within the [add] zone by providing for more efficient use of those sites.</u>
Z Energy Limited	361.95	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	The CCZ is generally supported, as it enables and reinforces the continued primacy of the Wellington central city area as the principal commercial and employment centre servicing the city and metropolitan region. It is also a major employment hub for the region and contains a mix of inner city living, entertainment, educational, government and commercial activity.	Retain the City Centre Zone chapter as notified.
Elizabeth Nagel	368.16	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that the plan should be amended to more comprehensively provide for enhanced sunlight access to outdoor and indoor living areas. [Refer to original submission for full reason]	Seeks that enhanced sunlight access be provided to outdoor and indoor living areas.
Waka Kotahi	370.405	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	Supports providing for access to active and public transport activity options, discouraging carparking at ground level and the quality design outcomes.	Retain the City Centre Zone chapter as notified.
Parliamentary Service	375.11	Commercial and mixed use Zones / City Centre Zone / General CCZ	Not specified	Submitter notes that in the City Centre Zone, the provisions of the Proposed Plan need to recognise the unique role that the Parliamentary Precinct plays in NZ and that the planning framework provides for the safe, effective and efficient functioning of parliament.	Not specified.
Parliamentary Service	375.12	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support in part	As it is currently drafted, the permitted activities in the City Centre Zone do not provide for Parliamentary activities, and therefore resource consent would be required for such activities under CCZ-R16. The Parliamentary Service does not anticipate this to be the intended outcome of this chapter, and suggests that CCZP1 includes a specific reference to Parliamentary activities, and a permitted activity rule is introduced for Parliamentary activities.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Jane Szentivanyi	376.5	Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose in part	Considers that, as currently drafted, the current provisions of the District Plan will result in significant adverse effects on Moir Street properties which cannot be mitigated through design. Negative effects would include public and private amenity, reverse sensitivity effects, including along the boundary with adjoining residentially zoned areas, and impacts on character and heritage.	Not specified.
Wellington Civic Trust	388.19	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support in part	The Introduction to the CCZ chapter is partially supported and an amendment is sought.	Retain the Introduction of the City Centre Zone chapter, with amendment.
Wellington Civic Trust	388.20	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that the Introduction to the CCZ chapter should be amended to clarify the scarcity of available public open space in the City Centre Zone, and how this shortfall is going to be corrected through the Plan and other methods available to the Council. It is noted that provisions that would provide additional public spaces are lacking. A statement recognising the need for additional public spaces in areas that currently fall short of existing needs should be added in the Introduction. The wording should also explain how the shortfall is going to be made up before further residential development is provided for.	Amend the Introduction of the City Centre Zone chapter to state the need for more available public open space in the City Centre Zone and how this shortfall is going to be corrected through the Plan and other methods available to the Council.
Taranaki Whānui ki te Upoko o te Ika	389.97	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that Taranaki Whānui should be engaged as partners in any development as a matter of first priority, as Taranaki Whānui are the hold ahi kā in regard to the city centre zone and development at Te Ngakau Civic Centre. [see original submission]	Seek to amend in chapter, to include <u>Taranaki Whānui hold ahi kā and primary mana whenua status in the City Centre Zone.</u>
Te Rūnanga o Toa Rangatira	FS138.55	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.	Disallow
Kāinga Ora Homes and Communities	391.688	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support in part	The use of standards to manage potential adverse effects across the PDP is generally supported, but changes are sought.	Retain the City Centre Zone chapter with amendment.
Kāinga Ora Homes and Communities	391.689	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that CCZ height controls should be amended to ensure the NPSUD and the Housing Supply Act are effectively and efficiently implemented, that intensification is enabled in areas of high accessibility to commercial amenity, community services and public transport, and that height controls enable a transition of height and density within the urban built form from higher heights and densities in centres. There may be a number of other consequential changes needed to standards to give effect to these height adjustments as noted in this submission such as increasing height in associated wind and daylight standards. These changes should be proportionate to the changes in building height sought to address any transition issues between zones and provide for increased levels of intensification.	Amend the City Centre Zone chapter to add a height control of: i. 43m within a 400m walkable catchment of a City Centre Zone ii. 36m within a 400-1500m walkable catchment of a City Centre Zone.
Ann Mallinson	FS3.33	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Proposed increases in height controls within walkable catchments of the city centre zone (43m within a 400m walkable catchment of the CCZ and 36m within a 400-1500m walkable catchment of the CCZ) go well beyond the requirements of NPS-UD and are inappropriate in light of amenity values of the surrounding inner city suburbs.	Disallow
Oriental Bay Residents Association	FS13.8	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Proposed increases in height controls within walkable catchments of the city centre zone goes well beyond the requirements of NPS-UD and are inappropriate in light of amenity and other values of the surrounding inner city suburbs.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Ruapapa Limited	FS18.10	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Proposed increases in height controls within walkable catchments of the city centre zone go well beyond the requirements of NPS-UD and are inappropriate in light of amenity and other values of the surrounding inner city suburbs.	Disallow
Scott Galloway and Carolyn McLean	FS19.8	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Proposed increases in height controls within walkable catchments of the city centre zone (43m within a 400m walkable catchment of the CCZ and 36m within a 400–1500m walkable catchment of the CCZ) go well beyond the requirements of NPS-UD and are inappropriate in light of amenity values of the surrounding inner city suburbs.	Disallow
Jenny Gyles	FS53.8	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Considers that the proposed increases in height controls within walkable catchments of the city centre zone goes well beyond the requirements of NPS-UD and are inappropriate in light of amenity and other values of the surrounding inner city suburbs.	Disallow
Helen Foot	FS62.35	Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Proposed increases in height controls within walkable catchments of the city centre zone goes well beyond the requirements of NPS-UD and are inappropriate in light of exposed weather conditions in Oriental Bay.	Disallow
Wellington's Character Charitable Trust	FS82.108	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Considers the increases in height controls within walkable catchments of the city centre zone goes well beyond requirements of NPS-UD and are inappropriate in light of amenity values of the surrounding inner city suburbs.	Disallow
Greater Wellington Regional Council	FS84.49	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
LIVE WELLington	FS96.38	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	We oppose the submission to introduce new height limits around the CCZ. These are not required and will have significant impact on residential areas.	Disallow
Roland Sapsford	FS117.37	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Roland Sapsford opposes the submission to introduce new height limits around the CCZ. These are not required and will have significant impact on residential areas.	Disallow
Kāinga Ora Homes and Communities	391.690	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support in part	Generally supports the introduction and application of a City Centre Zone in the Proposed District Plan. Considers that an amendment is needed to delete Comprehensive development from the Introduction as there are no rules to implement this approach.	Retain introduction of the City Centre Zone as notified and seeks amendment.
Kāinga Ora Homes and Communities	391.691	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Generally supports the introduction and application of a City Centre Zone in the Proposed District Plan. Considers that an amendment is needed to delete Comprehensive development from the Introduction as there are no rules to implement this approach.	Amend the eighth paragraph of the introduction of the City Centre Zone as follows: In locations where rapid transit investment has been signalled measures have been included to enable opportunities for more intensive, comprehensive development to occur, particularly in areas within a walkable distance of planned rapid transit stops.
Oyster Management Limited	404.43	Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose in part	Opposes the Proposed Plan in part.	Seeks amendment to the City Centre Zone to enable well-functioning urban environments in the City Centre zone.
Oyster Management Limited	404.44	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	Supports the recognition of the City Centre as the primary centre serving the wider Wellington region. Supports the creation of well-functioning urban environments, which is consistent with the NPS-UD.	Retain CCZ (City Centre Zone) - Introduction as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Foodstuffs North Island	FS23.77	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	Submission point 404.44 supports FSNI submission points 476.96 - 476.99	Allow
Oyster Management Limited	404.45	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that the 90m Height Control Overlay should extend over 141 The Terrace, 294 and 298 Lambton Quay so it is contiguous with the height control applying to 312 Lambton Quay and other sites to the south.	Amend 90m Height Control Overlay to extend over 141 The Terrace, 294 and 298 Lambton Quay. [Refer to original submission for maps of the submitter's properties under the Proposed District Plan].
Guy Marriage	407.4	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that if Te Aro is to flourish, and not to become a slum, then the WCC need to work far harder to create good quality meaningful living conditions for Te Aro residents. One of the key aspects of this will be the adoption of equally good measures for access to sunlight and daylight to the residents of the far more dense streets of Te Aro and the rest of Central. [See original submission for full reason]	Seeks the addition of the set-back provisions from the Draft District Plan (required developments on narrow streets to have step back as the yrose higher, so as to stop the obliteration of daylight and sunlight to the residents on lower levels).
Wellington's Character Charitable Trust	FS82.160	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	Considers that set backs in narrow streets will enhance liveability and wellbeing for residents in high density residential areas and is a longstanding technique for achieving good quality density.	Allow
Guy Marriage	407.5	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that the increases in height limits in the CCZ leaves all existing home owners in buildings 6-9 storeys tall now facing the prospect of being surrounded by towers 14-20 storeys tall, casting long deep shadows for entire blocks southwards. The effect on the existing buildings will be massive, severe, and will have a catastrophic effect on property values. The strategy of creating Te Aro as an area suitable for the continued clustering of tall towers is badly flawed. Geologically the Te Aro Basin is crisscrossed with the remains of several small creeks, leading down to what was formerly a swamp filled with eels, and a channel from Newtown, through the Basin Reserve, down to the sea near the present Waitangi Park. [See original submission for full reason]	Seeks that building heights in Te Aro are restricted to 5 - 6 storeys, with the occasional 9 storey towers. [Inferred decision requested]
Wellington's Character Charitable Trust	FS82.162	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	[No specific reason given beyond decision requested - refer to further submission]	Allow
Guy Marriage	407.6	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers that the extension of the CCZ down Adelaide Road is flawed, as this is the lowers point on the path from Newtown to the Basis and is also the former boggy route of a wetland stream, so will be unsuitable for the creation of high rises.	Seeks that the City Centre Zone chapter is not extended along Adelaide Road.
Guy Marriage	407.7	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	Considers the addition of a setbackstandard important to ensure daylight into living spaces. Considers that the Sydney Design is a appropriate method. [See original submission for full reason]	Seeks the addition of a setback standard to narrow streets in the City Centre Zone. [Inferred decision requested]
Wellington's Character Charitable Trust	FS82.161	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	Considers that set backs in narrow streets will enhance liveability and wellbeing for residents in high density residential areas and is a longstanding technique for achieving good quality density.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.138	Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	<p>Submitter is seeking fewer prescriptive standards.</p> <p>Submitter considers that Wellington needs to ensure that we are not unnecessarily preventing innovation by prescribing housing standards, such as minimum unit sizes and outdoor living space requirements (in particular, within the City Centre Zone). While the standards currently drafted will be appropriate for many uses, they may not suit everyone and they do not respond to emerging trends in apartment design.</p> <p>The standards also risk stifling affordable housing within the City Centre Zone by preventing more affordable building typologies.</p>	<p>Seeks to remove the extent of prescriptive standards, such as minimum unit sizes and outdoor living spaces (in particular, within the City Centre Zone).</p> <p>[inferred decision requested].</p>
Willis Bond and Company Limited	416.139	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	<p>Submitter notes the effect that the more permissive medium density residential standards will have on other zones. The zones supporting higher density development have more restrictive standards than in the MRZ, creating a risk that new development is concentrated in the more permissive MRZ at the exclusion of denser zones where Council wishes to encourage greater development. The PDP should ensure that the restrictions within denser zones are not substantially more restrictive than within the MRZ.</p> <p>[Refer to original submission for full reason].</p>	<p>Seeks that Council consider the relationship between the Medium Density Residential Zone and denser zones (i.e. the High Density Residential Zone, Large Lot Residential Zone, Neighbourhood Centre Zone, Local Centre one, Commercial Zone, Mixed Use Zone, Metropolitan Centre Zone and City Centre Zone) to ensure development is not unduly restricted in denser zones by greater restrictions and Council discretion.</p>
Fabric Property Limited	425.56	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support in part	<p>Supports the objectives and policies for the City Centre zone generally, and specifically supports the recognition of the City Centre as the primary commercial and employment centre for the wider region (CCZ-O1), the recognition of the role of the City Centre in accommodating growth (CCZ-O2), the enablement of the most intensive form of development concentrated in the zone (CCZ-O3), and the recognition of the benefits of intensification (CCZ-P5).</p>	<p>Seeks that the City Centre Zone chapter is retained as notified, with amendments.</p>
Chrissie Potter	446.3	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support in part	<p>Supports the intent of the PDP to enable good quality intensification of the CCZ but this should be undertaken in a way that also maintains the character, amenity, and heritage of the City.</p> <p>Considers that density done well should be the bottom line, not density at all costs.</p>	<p>Seeks that good quality intensification of the City Centre Zone should be undertaken in a way that also maintains the character, amenity, and heritage of the City.</p>
Chrissie Potter	446.4	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	<p>Considers that the current provisions of the PDP, in particular standards CCZ-S1 (Maximum height), CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height), and CCZ-S11 (Minimum building separation distance) will result in significant adverse effects on Moir Street properties which cannot be mitigated through design.</p> <p>Considers that Moir Street is recognised as one of the key coherent character and heritage areas of Mt Victoria.</p> <p>Considers that as a designated heritage area, it should have even more importance placed on mitigating the impacts of development from adjoining sites. It is unique in the PDP as being the only location in all of Wellington that is MRZ, a character precinct, heritage area, and adjacent to the CCZ. Therefore the specific changes requested in relation to avoiding significant adverse impacts on Moir Street do not have wider ramifications for the Council's intensification plans.</p> <p>[Refer to original submission for full reasons].</p>	<p>Not specified.</p>
Dorothy Thompson	449.3	Commercial and mixed use Zones / City Centre Zone / General CCZ	Support in part	<p>Supports the intent of the PDP to enable good quality intensification of the CCZ but this should be undertaken in a way that also maintains the character, amenity, and heritage of the City.</p> <p>Considers that density done well should be the bottom line, not density at all costs.</p>	<p>Seeks that good quality intensification of the City Centre Zone should be undertaken in a way that also maintains the character, amenity, and heritage of the City.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Dorothy Thompson	449.4	Commercial and mixed use Zones / City Centre Zone / General CCZ	Amend	<p>Considers that the current provisions of the PDP, in particular standards CCZ-S1 (Maximum height), CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height), and CCZ-S11 (Minimum building separation distance) will result in significant adverse effects on Moir Street properties which cannot be mitigated through design.</p> <p>Considers that Moir Street is recognised as one of the key coherent character and heritage areas of Mt Victoria.</p> <p>Considers that as a designated heritage area, it should have even more importance placed on mitigating the impacts of development from adjoining sites. It is unique in the PDP as being the only location in all of Wellington that is MRZ, a character precinct, heritage area, and adjacent to the CCZ. Therefore the specific changes requested in relation to avoiding significant adverse impacts on Moir Street do not have wider ramifications for the Council's intensification plans.</p> <p>[Refer to original submission for full reasons].</p>	Not specified.
David Lee	454.6	Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Opposes City Centre Zoning for the Western edge of Mt Victoria.	Seeks to rezone Western edge of Mt Victoria from being City Centre Zone.
Catherine Penetito	474.4	Commercial and mixed use Zones / City Centre Zone / General CCZ	Not specified	<p>Considers that Pukeahu National War Memorial Park should have sunlight protection for the whole area if it is to be maintained and enhanced.</p> <p>The Hall of Memories, the Carillon and the old museum building are too important to be overshadowed by residential or other buildings.</p>	Seeks that the building height zones adjacent to Item 40 (National War Memorial and Carillon) in SCHED1 - Heritage Buildings is reconsidered to ensure it is not overshadowed.
Wellington Civic Trust	FS83.18	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	Wellington Civic Trust supports these submissions, which are in accordance with its submission seeking more open space and sunlight protection for open space in Central Wellington.	Allow
Catherine Penetito	474.5	Commercial and mixed use Zones / City Centre Zone / General CCZ	Not specified	<p>Considers that Pukeahu National War Memorial Park should have sunlight protection for the whole area if it is to be maintained and enhanced.</p> <p>The Hall of Memories, the Carillon and the old museum building are too important to be overshadowed by residential or other buildings.</p>	Seeks that the building height zones adjacent to Item 41 (National/Dominion Museum and National Art Gallery (former)) in SCHED1 - Heritage Buildings is reconsidered to ensure it is not overshadowed.
Wellington Civic Trust	FS83.19	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	Wellington Civic Trust supports these submissions, which are in accordance with its submission seeking more open space and sunlight protection for open space in Central Wellington.	Allow
Catherine Penetito	474.6	Commercial and mixed use Zones / City Centre Zone / General CCZ	Not specified	Considers that Pukeahu National War Memorial Park should have sunlight protection for the whole area if it is to be maintained and enhanced.	Seeks that the building height zones adjacent to Item 42 (Home of Compassion Crèche (former)) in SCHED1 - Heritage Buildings is reconsidered to ensure it is not overshadowed.
Wellington Civic Trust	FS83.20	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Support	Wellington Civic Trust supports these submissions, which are in accordance with its submission seeking more open space and sunlight protection for open space in Central Wellington.	Allow
Catherine Penetito	474.7	Commercial and mixed use Zones / City Centre Zone / General CCZ	Not specified	Considers that Pukeahu National War Memorial Park should have sunlight protection for the whole area if it is to be maintained and enhanced.	Seeks that the building height zones adjacent to Item 424 (Army Headquarters (former)) in SCHED1 - Heritage Buildings is reconsidered to ensure it is not overshadowed.

Wellington Civic Trust	388.21	Commercial and mixed use Zones / City Centre Zone / General CCZ- PREC01	Support in part	The recognition of Te Ngākau Civic Square Precinct within the Central City Zone (CCZ-PREC01), and the specific introductory statement and aims that apply to the Precinct are supported. However, an amendment to the wording is sought.	Retain CCZ-PREC01 (Te Ngākau Civic Square Precinct) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Civic Trust	388.22	Commercial and mixed use Zones / City Centre Zone / General CCZ-PREC01	Amend	Considers that wording in CCZ-PREC01 should be clarified. Wording in the introductory sentence portrays the precinct as redevelopment area. The findings of a seminar run by the Civic Trust in 2021 were that people seek to retain as much as possible of the existing buildings, structures and spaces for reuse, rather than demolition and replacement buildings. It is sought that this is reflected in the introductory statement.	Amend wording in CCZ-PREC01 (Te Ngākau Civic Square Precinct) as follows: The purpose of the Te Ngākau Civic Square Precinct is to provide for civic activities, functions, <u>public use and</u> areas of open space and redevelopment . <u>Any future change in the precinct must ensure that development of change while ensuring that any future development</u> respects the special qualities of the area, including the concentration of listed heritage buildings.
Willis Bond and Company Limited	FS12.1	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ-PREC01	Oppose	Willis Bond and Company Limited consider references to new development and redevelopment within Te Ngākau in CCZ-PREC01 should be retained as they are relevant to certain parts of Te Ngākau such as the Michael Fowler carpark site and they reflect Te Ngākau Civic Precinct Framework adopted by Council.	Disallow
Wellington's Character Charitable Trust	FS82.165	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ-PREC01	Support	[No specific reason given beyond decision requested - refer to further submission]	Allow
Willis Bond and Company Limited	416.140	Commercial and mixed use Zones / City Centre Zone / General CCZ-PREC01	Amend	Submitter agrees that the Te Ngakau Civic Square Precinct (TNCSP) needs to be a vibrant and welcoming space. It also needs to be able to adapt in years to come to Wellington's changing needs. Given the intention to demolish CAB (and possibly MOB) is it appropriate to refer to them in this Policy?	Amend CCZ-PREC01 (Te Ngākau Civic Square Precinct) as follows: CCZ-PREC01Te Ngākau Civic Square Precinct ... The Precinct is Wellington's unique civic place. It is located in the heart of the City Centre and is a destination in itself. It is also an anchor point and gateway that connects the city centre's entertainment area, the waterfront and the Central Business District. Wellington's major civic and entertainment venues are located within the precinct, including the Wellington Town Hall, City Gallery Wellington (Te Whare Toi), Wellington City Library (Te Matapihi), Michael Fowler Centre, Civic Administration Building, Municipal Office Building, and Capital E. ...
Wellington Civic Trust	FS83.22	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ-PREC01	Oppose	The two buildings that are sought to be removed from mention in the introduction to the Te Ngākau Precinct are part of the existing precinct. The Wellington Civic Trust opposes their removal from the description. It is inappropriate to presume that they do not form part of the existing character and quality of the Precinct.	Disallow
Paul Burnaby	44.4	Commercial and mixed use Zones / City Centre Zone / New CCZ	Amend	Considers that the Draft provision CCZ-R21 (Comprehensive development of land 2000sqm in area or greater) should be 'reinstated' in the now notified City Centre Zone provisions.	Seeks that Draft District Plan CCZ-R21 is reinstated.
Jill Wilson	218.3	Commercial and mixed use Zones / City Centre Zone / New CCZ	Amend	Considers that the minimum requirements for apartments in new apartment buildings may not suffice for emergency supplies storage. [Refer to original submission for full reason]	Seeks amendment to require new apartment buildings to incorporate adequate storage of emergency supplies for residents.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Ara Poutama Aotearoa the Department of Corrections	240.56	Commercial and mixed use Zones / City Centre Zone / New CCZ	Amend	<p>Considers that should Council see it as being absolutely necessary to implement the separate definition of "supported residential care activity", then Ara Poutama requests that the enabled activities policies and land use activity rules applying to supported and transitional accommodation activities in the Mixed Use, City Centre and Waterfront zones are amended. The zone frameworks would not otherwise enable supported residential care activities, and provides discretionary activity status for these activities in the zones, in accordance with the respective default "all other activities" rules (MUZ-R13, CCZ-R16 and WFZ-R11).</p> <p>Supported and transitional accommodation activities, such as those provided for by Ara Poutama, are an important component of the rehabilitation and reintegration process for people under Ara Poutama's supervision. They enable people and communities to provide for their social and cultural well-being and for their health and safety. The subject zones include suitable locations for supported and transitional accommodation activities; as they are close to civic amenities and services. This is apparent in that the zones provide for residential activities as permitted, including aligned activities such as visitor accommodation. Supported and transitional accommodation activities are a compatible and appropriate activity in the Mixed Use, City Centre and Waterfront zones. They are consistent with the character and amenity of such zones, and the effects of such can be managed through the imposition of a restriction on the maximum number of residents (10), as is the case in the residential zones.</p>	<p>Amend the land use activity rule framework for the City Centre Zone to include a new permitted activity rule applying to "supported residential care activities" as follows, if the definition of "supported residential care activity" is retained:</p> <p><u>CCZ-RX Supported residential care activities</u></p> <p><u>1. Activity status: Permitted</u></p> <p><u>Where:</u></p> <p><u>a. The maximum occupancy does not exceed 10 residents : and</u> <u>b. The activity is located:</u> <u>i. Above ground floor level; or</u> <u>ii. At ground floor level along any street edge not identified as an active frontage; or</u> <u>iii. At ground level along any street not identified as requiring veranda coverage; or</u> <u>iv. At ground level on any site contained within a Natural Hazard Overlay.</u></p> <p><u>2. Activity status: Restricted Discretionary</u></p> <p><u>Where:</u></p> <p><u>a. Compliance with the requirements of CCZ-RX.1.a cannot be achieved.</u></p> <p><u>Matters of discretion are:</u> <u>1. The extent to which the intensity and scale of the activity may adversely impact on the amenity values of nearby residential properties and the surrounding neighbourhood.</u></p> <p><u>Notification status: An application for resource consent made in respect of rule CCZ-RX.2.a is precluded from being publicly notified.</u></p> <p><u>3. Activity status: Discretionary</u></p> <p><u>Where:</u></p> <p><u>a. Compliance with any of the requirements of CCZ-RX.1.b cannot be achieved.</u></p> <p><u>Notification status: An application for resource consent made in respect of rule CCZ-RX.3.a is precluded from being publicly notified.</u></p>
Wellington Branch NZIA	301.10	Commercial and mixed use Zones / City Centre Zone / New CCZ	Amend	<p>Considers that there should be a set-back standard for narrow streets and lanes to ensure daylight to living spaces in the CCZ. The Sydney Design Standard is considered an appropriate method to use.</p>	<p>Seeks a setback standard is added in the City Centre Zone.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.286	Commercial and mixed use Zones / City Centre Zone / New CCZ	Amend	Considers policy support for retirement villages in the Metropolitan Centre Zone is required.	<p>Add the following new policies in the City Centre Zone chapter and amend current objectives and policies for consistency:</p> <p><u>Provision of housing for an ageing population</u> <u>1. Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u> <u>2. Recognise the functional and operational needs of retirement villages, including that they:</u> <u>a. May require greater density than the planned urban built character to enable efficient provision of services.</u> <u>b. Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u></p> <p><u>Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the [add] zone will change over time to enable a variety of housing types with a mix of densities.</u></p> <p><u>Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within the [add] zone by providing for more efficient use of those sites.</u></p>
Retirement Villages Association of New Zealand Incorporated	350.287	Commercial and mixed use Zones / City Centre Zone / New CCZ	Amend	Considers that as currently drafted retirement villages would be a permitted or discretionary activity under the 'residential activities' rule of the City Centre Zone (CCZ—R12). Considers that the City Centre Zone should have a retirement village specific rule that provides for retirement villages as a permitted activity (with the construction of the retirement villages being a restricted discretionary activity under CCZ-R20), recognising that retirement villages provide substantial benefit by way of enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	<p>Add the following "retirement villages" rule into the City Centre Zone chapter:</p> <p><u>CCZ-RX Retirement villages</u> <u>1. Activity status: Permitted</u></p>
Parliamentary Service	375.13	Commercial and mixed use Zones / City Centre Zone / New CCZ	Amend	<p>Considers that a new Precinct should be recognised in the CCZ chapter. The Parliamentary Precinct and the activities that occur on that Precinct should be recognised in at least as enabling a way as the Te Ngākau Civic Square Precinct has been in the City Centre Zone. The Parliamentary Precinct is distinct from any other area in the Wellington district, and the district plan provisions should ensure that the uniqueness is acknowledged, as well as ensuring that the Precinct can continue to be used for its Parliamentary purpose.</p> <p>It is submitted that the Parliamentary Precinct is of at least as much significance as the Te Ngākau Civic Square Precinct, and should therefore be recognised in the planning provisions in a similar way. It is essential that the Parliamentary Precinct can continue to be fit for its Parliamentary purpose. The planning framework should therefore enable the use of the land to continue to be able to respond to the changing needs of Parliament.</p> <p>These Parliamentary Precinct provisions could be analogous to:</p> <ul style="list-style-type: none"> - Objectives: CCZ-PREC-01, CCZ-PREC-02, CCZ-PREC-03 - Policies: CCZ-PREC01-P1, CCZ-PREC01-P2, CCZPREC01- P3, CCZ-PREC01-P4 - Rules: CCZ-PREC01-R1, CCZ-PREC01-R2, CCZ-PREC01- R3, CCZ-PREC01-R4, CCZ-PREC01-R5, CCZ-PREC01-R6, CCZ-PREC01-R7, and CCZ-PREC01-R7 - Standard: CCZ-PREC01-S1. 	<p>Seeks that the Parliamentary Precinct be recognised in planning provisions in a similar way to the Te Ngākau Civic Square Precinct.</p> <p>These Parliamentary Precinct provisions could be analogous to:</p> <ul style="list-style-type: none"> - Objectives: CCZ-PREC-01, CCZ-PREC-02, CCZ-PREC-03 - Policies: CCZ-PREC01-P1, CCZ-PREC01-P2, CCZPREC01- P3, CCZ-PREC01-P4 - Rules: CCZ-PREC01-R1, CCZ-PREC01-R2, CCZ-PREC01- R3, CCZ-PREC01-R4, CCZ-PREC01-R5,
Parliamentary Service	375.14	Commercial and mixed use Zones / City Centre Zone / New CCZ	Amend	Considers that CCZ rules need to be clarified to make clear that Parliamentary activities are permitted in the City Centre Zone – because such activities do not clearly fall within any of the activities listed at CCZ-P1. It is submitted that a new permitted activity rule is therefore required to ensure that parliamentary activities are provided for in this zone.	<p>Add new Rule in the City Centre Zone chapter as follows:</p> <p><u>CCC-R13 Parliamentary activities</u> <u>1. Permitted</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Civic Trust	388.23	Commercial and mixed use Zones / City Centre Zone / New CCZ	Amend	<p>Considers that the City Centre Zone chapter should have an additional Rule immediately before or after CCZ-PREC01-R7. Demolition of buildings should be made a separate category of activity within the Te Ngākau Civic Square Precinct, separate from the City Centre applicable rule. All demolitions relating to the Precinct should be carefully considered and publicly notified.</p> <p>At present it appears that there is no ability for the acceptability of demolition of an existing building or structure to be considered as a separate matter from the development of a consented new building or creation of public space. It is noted that the current rule for demolition of buildings does not refer to the rule by which a new building in the Precinct may seek consent, CCZR18, which may be a lacuna in the plan or a deliberate omission.</p>	<p>Add new Rule in the City Centre Zone chapter as follows:</p> <p><u>CCZPRE-RXX: Demolition or removal of buildings and structures in the Te Ngākau Civic Square Precinct</u></p> <p><u>1. Activity status: Permitted</u> <u>Where:</u> <u>a. The demolition or removal of a building is required to avoid an imminent threat to life and/or property.</u></p> <p><u>2. Activity status: Discretionary</u> <u>Where the demolition or removal of a building or structure:</u> <u>i. Enables the creation of public space; or</u> <u>ii. Is required for the purposes of constructing a new building or adding to or altering an existing building.</u></p> <p><u>3. Activity status: Non-complying</u> <u>Where:</u> <u>a. Compliance with any of the requirements of CCZPRE-RXX1 or 2 cannot be achieved.</u></p> <p><u>Notification status: An application for resource consent made in respect of rule CCZ-PRE-RXX 2. or 3. must be publicly notified.</u></p>
Wellington's Character Charitable Trust	FS82.166	Part 3 / Commercial and mixed use Zones / City Centre Zone / New CCZ	Support	[No specific reason given beyond decision requested - refer to further submission]	Allow
Wellington Civic Trust	388.24	Commercial and mixed use Zones / City Centre Zone / New CCZ	Amend	Considers that the City Centre Zone chapter should have an additional Rule for the Precinct that relates to the modification of existing open space or the development of new open space. An additional rule similar to that in the Waterfront Zone is sought.	<p>Add new Rule in the City Centre Zone chapter as follows:</p> <p><u>CCZPRE-RXXX: Development of new public space, or modification of existing public open space in the Te Ngākau Civic Square Precinct</u></p> <p><u>1. Activity status: Discretionary</u> <u>The assessment of the activity must have regard to the Principles and Outcomes in the Wellington City Council Design Guides Introduction [2022].</u></p> <p><u>Notification status: An application for resource consent made in respect of rule CCZ-PRE-RXXX must be publicly notified.</u></p>
Wellington's Character Charitable Trust	FS82.167	Part 3 / Commercial and mixed use Zones / City Centre Zone / New CCZ	Support	[No specific reason given beyond decision requested - refer to further submission]	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	408.129	Commercial and mixed use Zones / City Centre Zone / New CCZ	Amend	<p>Considers that building setbacks are essential to address significant safety hazards associated with the operational rail corridor.</p> <p>Parts of the KiwiRail network adjoin commercial and mixed use zones that do not currently include provision for boundary setbacks for buildings and structures.</p> <p>KiwiRail seek a boundary setback of 5m from the rail corridor for all buildings and structures, and that the rail corridor be recognised as a qualifying matter in relevant non-residential zones in accordance with section 77(1)(o) of the RMA.</p> <p>Consistent with the amendment requested for the assessment criteria in the residential zones, KiwiRail considers that a matter of discretion directing consideration of impacts on the safety and efficiency of the rail corridor is appropriate in situations where the 5m setback standard is not complied with in all zones adjacent to the railway corridor.</p>	<p>Add new standard as follows:</p> <p><u>CCZ-SX:</u> <u>Boundary setbacks.</u> <u>Buildings or structures must not be located within a 5m setback from a rail corridor boundary.</u></p> <p>AND seeks that as applicable, the following matter of discretion be inserted:</p> <p><u>Matters of discretion:</u> <u>(X) The location and design of the building as it relates to the ability to safely use, access and maintain buildings without requiring access on, above or over the rail corridor.</u></p>
Kāinga Ora – Homes and Communities	FS89.40	Part 3 / Commercial and Mixed Use Zones / City Centre Zone / New CCZ	Oppose	Kāinga Ora opposes the relief sought; a considerably reduced set back would provide adequate space for maintenance activities within sites adjacent to the rail network. In doing so, it will continue to protect the safe, efficient, and effective operation of the rail infrastructure while balancing the cost on landowners.	Disallow
Willis Bond and Company Limited	416.141	Commercial and mixed use Zones / City Centre Zone / New CCZ	Amend	<p>Submitter considers that the activities that are permitted overlook Educational Facilities.</p> <p>Submitter considers that generally, the activities considered in this section are very narrow – for example, childcare activities are not permitted, which is a current activity within Te Ngakau Civic Square Precinct.</p>	Seeks that at minimum, add a new rule as CCZ-PREC01-R7 for Educational Facilities as a Permitted activity status and re-number CCZ-PREC01-R7 (all other land use activities) (currently CCZ-PREC01-R7) to CCZ-PREC01-R8.
Catharine Underwood	481.32	Commercial and mixed use Zones / City Centre Zone / New CCZ	Amend	Considers that all new buildings in the inner city should have a minimum set back of at least 1.5 (2m is better) to give room for a green corridor. Side yards are a good place for rubbish bins, compost bins or sheds to store bikes and other toys. A good example of why larger set backs are needed in The Paddington on Taranaki Street, which was meant to have several street trees lining the pavement and softening the development, as part of the consent but ended up with no trees due to underground services like pipes, telecommunications, electricity and sewerage. If there had been a setback, a green front would have been possible. The residents of The Paddington and Wellington are the poorer because of this.	<p>Add a new Standard in the City Centre Zone chapter setting boundary setbacks of at least 1.5m for all new buildings.</p> <p>[Inferred decision requested]</p>
Precinct Properties New Zealand Limited	139.26	Commercial and mixed use Zones / City Centre Zone / CCZ-O1	Support	No specific reason provided.	Retain CCZ-O1 (Purpose) as notified.

Restaurant Brands Limited	349.176	Commercial and mixed use Zones / City Centre Zone / CCZ-04	Support	Support	Retain CCZ-04 (Ahi Kā) as notified.
Z Energy Limited	361.99	Commercial and mixed use Zones / City Centre Zone / CCZ-04	Support	CCZ-04 is supported as it recognises that the City Centre (CC) is the primary commercial and employment centre serving Wellington and the wider region and seeks to provide a well-functioning urban environment through the provision of range and access to,	Retain Objective CCZ-04 (Ahi Kā) as notified.
Argosy Property No. 1 Limited	383.95	Commercial and mixed use Zones / City Centre Zone / CCZ-04	Support	Supports the objectives of the City Centre zone to the extent that they give effect to the NPS-UD and reflect the importance of the city centre	Retain CCZ-04 (Ahi Kā) as notified.
Taranaki Whānui ki te Upoko o te Ika	389.98	Commercial and mixed use Zones / City Centre Zone / CCZ-04	Support in part	Supports CCZ-04 (Ahi Kā) in principle.	Retain CCZ-04 (Ahi Kā) as notified. [Inferred decision requested]
Kāinga Ora Homes and Communities	391.696	Commercial and mixed use Zones / City Centre Zone / CCZ-04	Support	Supports CCZ-04.	Retain CCZ-04 (Ahi Kā) as notified.
Oyster Management Limited	404.49	Commercial and mixed use Zones / City Centre Zone / CCZ-04	Support	Supports the City Centre Zone objectives to the extent that they give effect to the NPS-UD and reflect the importance of the city centre.	Retain CCZ-04 (Ahi Kā) as notified.
VicLabour	414.42	Commercial and mixed use Zones / City Centre Zone / CCZ-04	Support	Supportive of ahi ka provisions	Retain CCZ-04 (Ahi Kā) as notified. [Inferred decision requested]
Te Rūnanga o Toa Rangatira	488.81	Commercial and mixed use Zones / City Centre Zone / CCZ-04	Amend	Considers that the objective should require partnership with mana whenua rather than engagement.	Seeks that CCZ-04 (Ahi Kā) be amended to provide for partnership with mana whenua in terms of development.
Paul Burnaby	44.7	Commercial and mixed use Zones / City Centre Zone / CCZ-05	Support	With the confirmation of the provisions supports and the requested changes, the District Plan provisions will more closely align with and implement the directive policies under the NNPS-UD, in particular Policy 3(a) which requires that district plans enable "in city centre zones, building heights and density of urban form to realise as much development capacity as possible, to maximise benefits of intensification"	Retain CCZ-05 (Amenity and design) as notified.
Fire and Emergency New Zealand	273.309	Commercial and mixed use Zones / City Centre Zone / CCZ-05	Support	Supports the objective as it seeks to produce a resilient urban environment that effectively adapts and responds to natural hazard risks, such as fire.	Retain CCZ-05 (Amenity and design) as notified.
Restaurant Brands Limited	349.177	Commercial and mixed use Zones / City Centre Zone / CCZ-05	Support	Support	Retain CCZ-05 (Amenity and design) as notified.
Z Energy Limited	361.100	Commercial and mixed use Zones / City Centre Zone / CCZ-05	Support	CCZ-05 is supported as it recognises that the City Centre (CC) is the primary commercial and employment centre serving Wellington and the wider region and seeks to provide a well-functioning urban environment through the provision of range and access to,	Retain Objective CCZ-05 (Amenity and Design) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.476	Commercial and mixed use Zones / City Centre Zone / CCZ-05	Support	The submitter strongly support this objective due to its emphasis on the need for climate change resilience and green space within the CBD. It does this alongside successfully balancing the maintenance and improvement of Wellington's important modern and heritage cultural sites demonstrating that ensuring Wellington's long term resilience and sustainability need not involve any loss of what makes Wellington, Wellington.	Retain CCZ-05 (Amenity and design) as notified.
Wellington Civic Trust	FS83.29	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-05	Support	This submission is in line with the general submission of Wellington Civic Trust (388.20) which seeks recognition of the need for more open space for a growing central city population.	Allow
Argosy Property No. 1 Limited	383.96	Commercial and mixed use Zones / City Centre Zone / CCZ-05	Support	Supports the objectives of the City Centre zone to the extent that they give effect to the NPS-UD and reflect the importance of the city centre	Retain CCZ-05 (Amenity and design) as notified.
Taranaki Whānui ki te Upoko o te Ika	389.99	Commercial and mixed use Zones / City Centre Zone / CCZ-05	Support in part	Supports CCZ-05 (Amenity and design) in principle.	Retain CCZ-05 (Amenity and design) as notified. [Inferred decision requested]
Kāinga Ora Homes and Communities	391.697	Commercial and mixed use Zones / City Centre Zone / CCZ-05	Support in part	Supports CCZ-05, but considers that an amendment is required to balances the need to contribute to the amenity of neighbouring residential areas while achieving anticipated built form in accordance with the NPS-UD.	Retain CCZ-05 (Amenity and design) and seeks amendment.
Kāinga Ora Homes and Communities	391.698	Commercial and mixed use Zones / City Centre Zone / CCZ-05	Amend	Supports CCZ-05, but considers that an amendment is required to balances the need to contribute to the amenity of neighbouring residential areas while achieving anticipated built form in accordance with the NPS-UD.	Amend CCZ-05 (Amenity and design) as follows: Development in the City Centre Zone positively contributes to creating a high quality, well-functioning urban environment, including: ... 4. Contributing to the general amenity of neighbouring residential areas <u>while achieving the anticipated urban form of each zone</u> ;
Waka Kotahi NZ Transport Agency	FS103.23	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-05	Support	It is appropriate that the policy direction acknowledge the anticipated built form each zone and not unintentionally prevent that from being realised.	Allow
Oyster Management Limited	404.50	Commercial and mixed use Zones / City Centre Zone / CCZ-05	Support	Supports the City Centre Zone objectives to the extent that they give effect to the NPS-UD and reflect the importance of the city centre. In particular, supports CCZ-05's direction regarding producing a resilient urban environment that effectively adapts and responds to natural hazard risks and the effects of climate change.	Retain CCZ-05 (Amenity and design) as notified.
Wellington Heritage Professionals	412.80	Commercial and mixed use Zones / City Centre Zone / CCZ-05	Support	Supports this objective including 'Acknowledging and sensitively responding to adjoining heritage buildings, heritage areas and areas and sites of significance to Māori.'	Retain CCZ-05 (Amenity and Design) as notified.
Willis Bond and Company Limited	416.144	Commercial and mixed use Zones / City Centre Zone / CCZ-05	Amend	Submitter considers that the requirement to acknowledge and respond to heritage buildings and areas should only apply where those heritage areas immediately adjoin the relevant development.	Amend CCZ-05 (Amenity and design) as follows: Development in the City Centre Zone positively contributes to creating a high quality, well-functioning urban environment, including: ... 7. Acknowledging and sensitively responding to <u>immediately</u> adjoining heritage buildings, heritage areas and areas and sites of significance to Māori.

Kāinga Ora Homes and Communities	391.700	Commercial and mixed use Zones / City Centre Zone / CCZ-07	Support in part	Supports CCZ-07, but considers that an amendment is required to recognise that adverse effects do not include significant changes to an area anticipated by the planned urban built form in accordance with the NPS-UD.	Retain CCZ-07 (Managing adverse effects) and seeks amendment.
Kāinga Ora Homes and Communities	391.701	Commercial and mixed use Zones / City Centre Zone / CCZ-07	Amend	Supports CCZ-07, but considers that an amendment is required to recognise that adverse effects do not include significant changes to an area anticipated by the planned urban built form in accordance with the NPS-UD.	Amend CCZ-07 (Managing adverse effects) as follows: Adverse effects of activities and development <u>beyond the planned urban built form anticipated</u> in the City Centre Zone are managed effectively both:
Oyster Management Limited	404.52	Commercial and mixed use Zones / City Centre Zone / CCZ-07	Support	Supports the City Centre Zone objectives to the extent that they give effect to the NPS-UD and reflect the importance of the city centre.	Retain CCZ-07 (Managing adverse effects) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.145	Commercial and mixed use Zones / City Centre Zone / CCZ-07	Amend	Submitter considers that the reference to “interfaces” is too broad and could refer to an indeterminate area. Interface areas need to be properly identifiable.	Amend CCZ-07 (Managing adverse effects) as follows: Adverse effects of activities and development in the City Centre Zone are managed effectively both: 1. Within the City Centre Zone; and 2. At interfaces with <u>Where such activities or development immediately adjoin:</u>
Wellington Civic Trust	388.25	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-01	Support	CCZ-PREC01-01 is generally supported.	Retain CCZ-PREC01-01 (Purpose) as notified.
Willis Bond and Company Limited	416.146	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-01	Amend	Submitter considers that reference to Te Ngakau Civic Square Precinct as being supported by a range of activities that “complement its primary civic function” may unintentionally and unnecessarily narrow the scope of activities in Te Ngakau. CCZ-PREC01 refers to the long-term vision for Te Ngakau as the “beating heart” of Wellington. The submitter considers that appropriate activities should be those that support this aspiration.	Amend CCZ-PREC01-01 (Purpose) as follows: Te Ngākau Civic Square Precinct is a vibrant, safe, resilient, connected and inclusive environment supported by a range of activities that complement its primary <u>do not detract from its</u> civic function. Or as follows: Te Ngākau Civic Square Precinct is a vibrant, safe, resilient, connected and inclusive environment supported by a range of activities that complement its primary civic function <u>help to create a vibrant and welcoming space.</u>
Wellington’s Character Charitable Trust	FS82.150	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-01	Oppose	Considers the primary civic function of this precinct is important and ought to be recognised.	Disallow
Wellington Civic Trust	FS83.23	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-01	Oppose	The civic function of the Te Ngākau Square Precinct is absolutely fundamental to its future. Otherwise it just becomes another part of the central city – the “beating heart” would not exist without these public functions and components.	Disallow
LIVE WELLington	FS96.46	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-01	Oppose	The primary civic function of this precinct is important and ought to be recognised.	Disallow
WCC Environmental Reference Group	377.477	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-02	Amend	The submitter generally supports the built form Objective for Te Ngākau Civic Square Precinct. However, considers that the objective does not provide for a ‘green environment’ as described in the preamble introduction to the City Centre Zone chapter. The submitter suggests an additional requirement is added to provide for green space and encourage indigenous biodiversity where possible. The submitter believes Civic square could set the standard for how built form can be designed and managed to encourage and increase indigenous biodiversity for the rest of the city.	Amend CCZ-PREC01-02 (Built form) to add an additional Point 7, as follows: The scale, form and positioning of development within the Te Ngākau Civic Square Precinct: 7. <u>Provides for green spaces and encourages indigenous biodiversity where possible.</u>
Wellington Civic Trust	FS83.30	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-02	Support	Wellington Civic Trust considers that the current Civic Square – a multi-purpose paved space – is essential to the area’s future, just as it was until effectively under-maintained by the Council. The Civic Trust does however recognise that there may be a place for more planting and ecosystem reinstatement within the Precinct without losing what is already there.	Allow
Wellington Civic Trust	388.26	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-02	Support	CCZ-PREC01-02 is generally supported.	Retain CCZ-PREC01-02 (Built form) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.147	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-02	Amend	Submitter considers that item 3 of CCZ-PREC-02: "Frames the square" implies that all development in the precinct is adjacent to the square.	Amend CCZ-PREC-02 (Use and development of the Te Ngākau Civic Square Precinct) as follows: Built form The scale, form and positioning of development within the Te Ngākau Civic Square Precinct: ... 3. Frames the square <u>where situated adjacent to the square</u> ;
Wellington Civic Trust	FS83.24	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZPREC01-02	Oppose	The Civic Trust does not agree with this submission. Buildings can still "frame the square" even when they are set back or behind another building (if they are taller).	Disallow
Willis Bond and Company Limited	416.148	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-02	Amend	Submitter considers that item 4 of CCZ-PREC-02: "sunlight access within the precinct" should be focused on public spaces, rather than buildings.	Amend CCZ-PREC-02 (Use and development of the Te Ngākau Civic Square Precinct) as follows: Built form The scale, form and positioning of development within the Te Ngākau Civic Square Precinct: ... 4. <u>Ensures a high degree of sunlight access is achieved within the precinct Ensures a high degree of sunlight access is achieved within public spaces in the precinct</u> ;
Wellington Civic Trust	FS83.25	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZPREC01-02	Oppose	The Civic Trust does not agree with this submission. Buildings can be part of the public realm – and in this situation the civic function would imply that they are likely to be. In such circumstances sunlight access within a building may be a desirable consideration.	Disallow
WCC Environmental Reference Group	377.478	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-03	Support	Considers that Wellington has long prided itself on its walkability, however as of current much of casual navigation around the city centre relies on a harmful culture of jaywalking. It is important that the council is recognising the importance of maintaining current pedestrian linkages whilst acknowledging the need for enhancement.	Retain CCZ-PREC01-03 (Integration with the City Centre, Waterfront and wider transport network) as notified.
Wellington Civic Trust	388.27	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-03	Support	CCZ-PREC01-03 is generally supported.	Retain CCZ-PREC01-03 (Integration with the City Centre, Waterfront and wider transport network) as notified.
Willis Bond and Company Limited	416.149	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-03	Support	Agrees that Te Ngakau Civic Square Precinct is an important pedestrian thoroughfare and pedestrian linkages from surrounding streets and spaces should be retained and improved if possible.	Retain CCZ-PREC-03 (Integration with the City Centre, Waterfront and wider transport network) as notified.
Precinct Properties New Zealand Limited	139.29	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Support	Supports the wide range of activities provided for under this policy.	Retain CCZ-P1 (Enabled activities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.57	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Support	Considers that community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification. The permitted activity status (enabled by the associated policies) is appropriate in the context of the current and potential future establishment and operation of a community corrections facility or facilities within these areas in Wellington City.	Retain CCZ-P1.8 (Enabled activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ara Poutama Aotearoa the Department of Corrections	240.58	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain CCZ-P1.2 (Enabled activities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.59	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Amend	<p>Considers that should Council see it as being absolutely necessary to implement the separate definition of "supported residential care activity", then Ara Poutama requests that the enabled activities policies and land use activity rules applying to supported and transitional accommodation activities in the Mixed Use, City Centre and Waterfront zones are amended. The zone frameworks would not otherwise enable supported residential care activities, and provides discretionary activity status for these activities in the zones, in accordance with the respective default "all other activities" rules (MUZ-R13, CCZ-R16 and WFZ-R11).</p> <p>Supported and transitional accommodation activities, such as those provided for by Ara Poutama, are an important component of the rehabilitation and reintegration process for people under Ara Poutama's supervision. They enable people and communities to provide for their social and cultural well-being and for their health and safety. The subject zones include suitable locations for supported and transitional accommodation activities; as they are close to civic amenities and services. This is apparent in that the zones provide for residential activities as permitted, including aligned activities such as visitor accommodation. Supported and transitional accommodation activities are a compatible and appropriate activity in the Mixed Use, City Centre and Waterfront zones. They are consistent with the character and amenity of such zones, and the effects of such can be managed through the imposition of a restriction on the maximum number of residents (10), as is the case in the residential zones.</p>	<p>Amend CCZ-P1 (Enabled activities) as follows, if the definition of "supported residential care activity" is retained:</p> <p>CCZ-P1 Enabled Activities</p> <p>Enable a range and diversity of activities that support the purpose and ongoing viability of the City Centre Zone and enhances its vibrancy and amenity, including:</p> <ol style="list-style-type: none"> 1. Commercial activities; 2. Residential activities <u>and supported residential care activities</u>, except; <ol style="list-style-type: none"> a. Along any street subject to active frontage and/or veranda coverage requirements; b. On any site subject to an identified natural hazard risk; ...
Stratum Management Limited	249.22	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Amend	Considers that this policy should include residential at ground level to match subsequent provisions, including for example CCZ-P6 (Adaptive use) and CCZ-R12 (Residential activities).	<p>Amend CCZ-P1 (Enabled activities) as follows:</p> <ol style="list-style-type: none"> 2. Residential activities, except: <ol style="list-style-type: none"> a. <u>At ground level</u> along any street... b. <u>At ground level</u> on any site...
Fire and Emergency New Zealand	273.310	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Support	Supports the policy as it promotes the provision of emergency service facilities within the zone. Due to urban growth, population changes and commitments to response times, FENZ may need to locate stations anywhere within the urban and rural environment.	Retain CCZ-P1 (Enabled activities) as notified.
McDonald's	274.56	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Support in part	Generally supports the objectives and policies of the City Centre Zone and the enablement of commercial activities	Retain CCZ-P1 (Enabled activities), subject to amendments, as outlined other submission points.
Restaurant Brands Limited	349.180	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Support	Support	Retain CCZ-P1 (Enabled activities) as notified.
Z Energy Limited	361.103	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Support	CCZ-P1 is supported as it enables a wide-range of activities including commercial activities (as defined).	Retain CCZ-P1 (Enabled activities) as notified.
Parliamentary Service	375.15	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Support in part	[No specific reason given beyond decision requested - refer to original submission]	Retain CCZ-P1 (Enabled activities) with amendment

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Parliamentary Service	375.16	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Amend	Considers that CCZ-P1 does not provide for the use of the Parliamentary Precinct for parliamentary purpose, as it is not clear which (if any) of the listed activities “parliamentary activities” would fall within. It is therefore submitted that this policy needs to specifically provide for parliamentary activities to occur within the City Centre Zone. It is submitted that a corresponding permitted activity land use rule will also be required, otherwise such activities will be considered Discretionary under CCZ-R16, which is unlikely to have been the intention.	Amend CCZ-P1 (Enabled activities) as follows: Enable a range and diversity of activities that support the purpose and ongoing viability of the City Centre Zone and enhances its vibrancy and amenity, including: 1. Commercial activities; ... 11. Repair and maintenance service activities; and 12. Recreation activities; <u>and</u> 13. Parliamentary activities.
Argosy Property No. 1 Limited	383.99	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Support	Generally supports the policies of the CCZ.	Retain CCZ-P1 (Enabled activities) as notified.
Taranaki Whānui ki te Upoko o te Ika	389.101	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Support in part	Supports CCZ-P1 (Enabled activities) in principle.	Retain CCZ-P1 (Enabled activities) as notified. [Inferred decision requested]
Kāinga Ora Homes and Communities	391.702	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Support in part	Supports CCZ-P1 but considers an amendment is required to recognise that residential activities are generally enabled. Considers that Policy CCZ-P2 provides the specifics about activities that should be restricted, noting that this is residential activities at ground floor in areas of identified natural hazard risk. Furthermore, Natural Hazard Area provisions control the location of hazard sensitive activities, such as residential units, within these areas (e.g. NH-R11).	Retain CCZ-P1 (Enabled activities) and seeks amendment.
Kāinga Ora Homes and Communities	391.703	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Amend	Supports CCZ-P1 but considers an amendment is required to recognise that residential activities are generally enabled. Considers that Policy CCZ-P2 provides the specifics about activities that should be restricted, noting that this is residential activities at ground floor in areas of identified natural hazard risk. Furthermore, Natural Hazard Area provisions control the location of hazard sensitive activities, such as residential units, within these areas (e.g. NH-R11).	Amend CCZ-P1 (Enabled activities) as follows: Enable a range and diversity of activities that support the purpose and ongoing viability of the City Centre Zone and enhances its vibrancy and amenity, including: 1. Commercial activities; 2. Residential activities; except: a. Along any street subject to active frontage and/or verandah coverage requirements; b. On any site subject to an identified natural hazard risk; ...
Oyster Management Limited	404.53	Commercial and mixed use Zones / City Centre Zone / CCZ-P1	Support	Supports the City Centre Zone policies.	Retain CCZ-P1 (Enabled activities) as notified.
Victoria University of Wellington Students' Association	123.58	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Support	Supports the discouragement of ground-level car parks in the city centre.	Retain CCZ-P2 (Potentially incompatible activities) as notified. [Inferred decision requested]
McDonald's	274.57	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Amend	Opposed to all ground level car parking being considered as a potentially incompatible activity in the City Centre zone. The policy seeks to protect adverse effects on amenity therefore if the car parking is not visible then this policy should not apply. This would be consistent with the other centre zones which do provide such an exclusion.	Seeks that CCZ-P2.3 (Potentially incompatible activities) is amended as follows: ... 3. Carparking at ground level <u>visible at the street edge or public space</u> ;
Restaurant Brands Limited	349.181	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Support	Support	Retain CCZ-P2 (Potentially incompatible activities) as notified.
Foodstuffs North Island	FS23.57	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Oppose	Submission point 349.181 seeks to retain CCZ-P2 as notified. FSNI submission point 476.49 seeks to amend CCZ-P2.	Disallow / Reject submission in part.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.288	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Oppose in part	Opposes restrictions on retirement villages being established at ground floor level.	Opposes CCZ-P2 (Potentially incompatible activities) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.289	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Amend	Opposes restrictions on retirement villages being established at ground floor level.	Seeks to delete clause (5) of CCZ-P2 (Potentially incompatible activities) as notified.
Woolworths New Zealand	359.84	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Amend	Considers that CCZ-P2 should be amended. The provision as drafted differs to Policy P4 of the LCZ and NCZ and provides some clarity as to why matters 1-5 have been included within the policy (being that they are considered 'potentially incompatible activities'). It is considered unnecessary to incorporate these clauses into Policy CCZ-2. Potentially incompatible activities (being activities not contemplated by the zone, or ones that infringe the zone standards) should be able to be accommodated in the zone if there is a functional and operational need and effects on the Centre are managed.	Amend CCZ-P2 (Potentially incompatible activities) as follows: Only allow activities that are potentially incompatible with the role and function of the City Centre Zone, where they demonstrate an operational or functional need to locate within the zone; or will not have an unacceptable adverse effect on its vitality, vibrancy and amenity. Potentially incompatible activities include: 1. Industrial activities; 2. Yard-based retail activities; 3. Carparking visible at street edge along an active frontage or non-residential activity frontage; 4. Demolition of buildings that results in the creation of vacant land; 5. Ground floor residential activities on street edges identified as having an active frontage or non-residential activity frontage; and 6. Yard-based retail activities.
Z Energy Limited	361.104	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Support in part	Supports CCZ-P1 for its intent in relation to new activities but considers it is too specific and it will impact on the continued operation, maintenance and upgrade of a range of existing activities. Some yard-based activities, like service stations, play a key role in providing essential services to enable a well-functioning urban environment.	Retain CZ-P2 (Potentially incompatible activities) with amendment.
Z Energy Limited	361.105	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Amend	Considers that CCZ-P2 is too specific and should be amended. CCZ-P2 will impact on the continued operation, maintenance and upgrade of a range of existing activities. Some yard-based activities, like service stations, play a key role in providing essential services to enable a well-functioning urban environment.	Amend CCZ-P2 (Potentially incompatible activities) as follows: Only allow <u>new</u> activities that are potentially incompatible with the purpose of the City Centre Zone, where they will not have an adverse effect on its vitality, vibrancy and amenity. Potentially incompatible activities include: 1. Industrial activities; 2. <u>Some</u> yard-based retail activities; 3. Carparking at ground level; 4. Demolition of buildings that result in the creation of vacant land; and 5. Ground floor residential activities on streets identified as having either an active frontage or verandah coverage and in any identified hazard risk areas.
WCC Environmental Reference Group	377.479	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Amend	The submitter considers that the policy as it currently stands seeks to ensure that abnormal activities performed within the City Centre Zone would not have adverse effect on " Vitality, Vibrancy and amenity". However, the submitter considers that this does not place emphasis on the need to consistently maintain the Wellington City Centres walkability and sustainability in accordance with objectives 3 and 5. The submitter also considers that the policy leaves itself open for activities that could hinder the City Centres public transport network or climate change and Earthquake resilience	Amend CCZ-P2 (Potentially incompatible activities) as follows: Only allow activities that are potentially incompatible with the purpose of the City Centre Zone, where they will not have an adverse effect on its vitality, vibrancy, and amenity, <u>walkability, climate change and earthquake resilience or ease of public transport access and use.</u> Potentially incompatible activities include: 1. Industrial activities; 2. Yard-based retail activities; 3. Carparking at ground level; 4. Demolition of buildings that result in the creation of vacant land; and 5. Ground floor residential activities on streets identified as requiring either an active frontage or verandah coverage and sites subject to an identified hazard risk.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi NZ Transport Agency	FS103.24	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Support	The listed values are all considered important for the vitality and resilience of the city centre. It is therefore considered appropriate to assess the adverse effects of potentially incompatible activities on these important values.	Allow
Argosy Property No. 1 Limited	383.100	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Support	Generally supports the policies of the CCZ.	Retain CCZ-P2 (Potentially incompatible activities) as notified.
Foodstuffs North Island	FS23.59	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Oppose	Submission point 383.100 seeks to retain CCZ-P2 as notified. FSNI submission point 476.49 seeks to amend CCZ-P2.	Disallow / Reject submission in part.
Kāinga Ora Homes and Communities	391.704	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Support in part	Supports this policy but considers that amendments are required to provide for ground floor residential activities that are not visible from streets and notes that identified hazard risk is addressed in the natural hazards chapter so does not need to be referenced here.	Retain CCZ-P2 (Potentially incompatible activities) and seeks amendment.
Kāinga Ora Homes and Communities	391.705	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Amend	Supports this policy but considers that amendments are required to provide for ground floor residential activities that are not visible from streets and notes that identified hazard risk is addressed in the natural hazards chapter so does not need to be referenced here.	Amend CCZ-P2 (Potentially incompatible activities) as follows: Only allow activities that are potentially incompatible with the purpose of the City Centre Zone, where they will not have an adverse effect on its vitality, vibrancy and amenity. Potentially incompatible activities include: ... 5. Ground floor residential activities <u>that are visible</u> on streets identified as requiring either an active frontage or verandah coverage and sites subject to an identified hazard risk.
Ministry of Education	400.144	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Support	Supports CCZ-P2 as it is important to recognise and provide for educational facilities which will service the surrounding residential catchments and other community/commercial activities.	Retain CCZ-P2 (Potentially incompatible activities) as notified.
Oyster Management Limited	404.54	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Support	Supports the City Centre Zone policies.	Retain CCZ-P2 (Potentially incompatible activities) as notified.
Foodstuffs North Island	FS23.58	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Oppose	Submission point 404.54 seeks to retain CCZ-P2 as notified. Submission point 476.49 seeks to amend CCZ-P2.	Disallow / Reject submission in part.
Willis Bond and Company Limited	416.150	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Amend	Submitter considers that carparking at ground level should only be a “potentially incompatible activity” where it occurs along building frontages.	Amend CCZ-P2 (Potentially incompatible activities) as follows: Only allow activities that are potentially incompatible with the purpose of the City Centre Zone, where they will not have an adverse effect on its vitality, vibrancy and amenity. Potentially incompatible activities include: 1. Industrial activities; 2. Yard-based retail activities; 3. Carparking at ground level <u>where it occurs along building frontages</u> ;
Foodstuffs North Island	FS23.94	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Support	Submission point 416.150 seeks a similar outcome to FSNI submission point 476.49.	Allow / Allow submission in part.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Foodstuffs North Island	476.49	Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Oppose in part	Opposes all ground level car parking being considered as a potentially incompatible activity in the City Centre zone. The policy seeks to protect adverse effects on amenity therefore if the car parking is not visible then this policy should not apply. This would be consistent with the other centre zones which do provide such an exclusion. Retail activities such as supermarkets generally seek to provide on-site customer car parking. This policy, together with the public notification requirement under CCZ-R14.2.a, will act as a significant deterrent to development in City Centre zone.	Amend CCZ-P2.3 (Potentially incompatible activities) as follows: 3. Carparking at ground level <u>visible at the street edge or public space</u> ;
Greater Wellington Regional Council	FS84.101	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P2	Oppose	Greater Wellington oppose this submission point. A "discretionary" activity status provides necessary controls for carparking activities which align with the direction of Proposed RPS Change 1, including objectives CC.1 and CC.3, and policies CC.1, CC.3 and CC.9	Disallow / Seeks that the provisions be retained as notified and support provisions that support active transport nodes.
Restaurant Brands Limited	349.182	Commercial and mixed use Zones / City Centre Zone / CCZ-P3	Support	Support	Retain CCZ-P3 (Heavy industrial activities) as notified.
Z Energy Limited	361.106	Commercial and mixed use Zones / City Centre Zone / CCZ-P3	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain CCZ-P3 (Heavy industrial activities) as notified.
Argosy Property No. 1 Limited	383.101	Commercial and mixed use Zones / City Centre Zone / CCZ-P3	Support	Generally supports the policies of the CCZ.	Retain CCZ-P3 (Heavy industrial activities) as notified.
Kāinga Ora Homes and Communities	391.706	Commercial and mixed use Zones / City Centre Zone / CCZ-P3	Support	Supports CCZ-P3.	Retain CCZ-P3 (Heavy industrial activities) as notified.
Oyster Management Limited	404.55	Commercial and mixed use Zones / City Centre Zone / CCZ-P3	Support	Supports the City Centre Zone policies.	Retain CCZ-P3 (Heavy industrial activities) as notified.
Paul Burnaby	44.9	Commercial and mixed use Zones / City Centre Zone / CCZ-P4	Support	With the confirmation of the provisions supports and the requested changes, the District Plan provisions will more closely align with and implement the directive policies under the NNPS-UD, in particular Policy 3(a) which requires that district plans enable "in city centre zones, building heights and density of urban form to realise as much development capacity as possible, to maximise benefits of intensification"	Retain CCZ-P4 (Housing choice) as notified.
Stratum Management Limited	249.23	Commercial and mixed use Zones / City Centre Zone / CCZ-P4	Support	Considers that the policy appropriately seeks to enable high density residential development in the zone.	Retain CCZ-P4 (Housing choice) as notified.
Disabled Persons Assembly New Zealand Incorporated	343.11	Commercial and mixed use Zones / City Centre Zone / CCZ-P4	Amend	Considers that replacing the term 'abilities' with 'impairments' in CCZ-P4 is more appropriate. Notes that using the term 'abilities' to refer to disabled people is regarded as euphemistic by many within the disabled community.	Amend CCZ-P4 (Housing choice) as follows: Enable high density, good quality residential development that: 1. Contributes towards accommodating anticipated growth in the city; and 2. Offers a range of housing price, type, size and tenure that is accessible to people of all ages, lifestyles, cultures and abilities <u>impairments</u> . [Inferred decision requested]
Restaurant Brands Limited	349.183	Commercial and mixed use Zones / City Centre Zone / CCZ-P4	Support	Support	Retain CCZ-P4 (Housing choice) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.290	Commercial and mixed use Zones / City Centre Zone / CCZ-P4	Support	Generally supports CCZ-P4 and its enabling of high density, good quality residential development. However, it is necessary to acknowledge that each individual development will not offer a range in those matters listed in (2).	Retain CCZ-P4 (Housing choice) with amendment to read "Offers Contributes to a range of housing price, type, size and tenure..."
Retirement Villages Association of New Zealand Incorporated	350.291	Commercial and mixed use Zones / City Centre Zone / CCZ-P4	Amend	Generally supports CCZ-P4 and its enabling of high density, good quality residential development. However, it is necessary to acknowledge that each individual development will not offer a range in those matters listed in (2).	Retain CCZ-P4 (Housing choice) with amendment to read "Offers Contributes to a range of housing price, type, size and tenure..."
Z Energy Limited	361.107	Commercial and mixed use Zones / City Centre Zone / CCZ-P4	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain CCZ-P4 (Housing choice) as notified.
Argosy Property No. 1 Limited	383.102	Commercial and mixed use Zones / City Centre Zone / CCZ-P4	Support	Generally supports the policies of the CCZ.	Retain CCZ-P4 (Housing choice) as notified.
Kāinga Ora Homes and Communities	391.707	Commercial and mixed use Zones / City Centre Zone / CCZ-P4	Support in part	Support this policy but seeks amendment to recognise that tenures should not be managed through the District Plan. Considers the focus should be on providing for the level of the activity and building form that is appropriate for a City Centre.	Retain CCZ-P4 (Housing Choice) and seeks amendment.
Kāinga Ora Homes and Communities	391.708	Commercial and mixed use Zones / City Centre Zone / CCZ-P4	Amend	Support this policy but seeks amendment to recognise that tenures should not be managed through the District Plan. Considers the focus should be on providing for the level of the activity and building form that is appropriate for a City Centre.	Amend CCZ-P4 (Housing Choice) as follows: Housing choice Enable high density, good quality residential development that: 1. Contributes towards accommodating anticipated growth in the city; and 2. Offers a range of housing price, type, and size and tenure that is accessible to people of all ages, lifestyles, cultures and abilities
Oyster Management Limited	404.56	Commercial and mixed use Zones / City Centre Zone / CCZ-P4	Support	Supports the City Centre Zone policies.	Retain CCZ-P4 (Housing choice) as notified.
Willis Bond and Company Limited	416.151	Commercial and mixed use Zones / City Centre Zone / CCZ-P4	Support	Supports offering a range of housing price, type, size and tenure.	Retain CCZ-P4 (Housing choice) as notified.
Paul Burnaby	44.10	Commercial and mixed use Zones / City Centre Zone / CCZ-P5	Support	With the confirmation of the provisions supports and the requested changes, the District Plan provisions will more closely align with and implement the directive policies under the NNPS-UD, in particular Policy 3(a) which requires that district plans enable "in city centre zones, building heights and density of urban form to realise as much development capacity as possible, to maximise benefits of intensification"	Retain CCZ-P5 (Urban form and scale) as notified.
Precinct Properties New Zealand Limited	139.30	Commercial and mixed use Zones / City Centre Zone / CCZ-P5	Support	Supports CCZ-P5 as it recognises the benefits of intensification, enables greater heights, and recognises the need for land to be efficiently optimised.	Retain CCZ-P5 (Urban form and scale) as notified.
Stratum Management Limited	249.24	Commercial and mixed use Zones / City Centre Zone / CCZ-P5	Support	Considers that the policy appropriately recognises the benefits of intensification in the City Centre zone.	Retain CCZ-P5 (Urban form and scale) as notified.
Restaurant Brands Limited	349.184	Commercial and mixed use Zones / City Centre Zone / CCZ-P5	Support	Support	Retain CCZ-P5 (Urban form and scale) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.292	Commercial and mixed use Zones / City Centre Zone / CCZ-P5	Support	Supports CCZ-P5 and its recognition of the benefits of intensification by enabling greater height and scale of development, and the efficient optimisation of the development capacity of land.	Retain CCZ-P5 (Urban form and scale) as notified.
Z Energy Limited	361.108	Commercial and mixed use Zones / City Centre Zone / CCZ-P5	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain CCZ-P5 (Urban form and scale) as notified.

Waka Kotahi NZ Transport Agency	FS103.25	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P9	Support	The recommended amendment is considered to provide clearer guidance regarding expectations around built form of larger projects.	Allow
Roland Sapsford	FS117.38	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P9	Oppose	Roland Sapsford opposes the amendment to CCZ-P9 to remove references in (1)(b) to large, narrow, vacant or ground level parking sites. The intended policy direction by listing sites with development capacity is helpful and appropriate.	Disallow
Oyster Management Limited	404.61	Commercial and mixed use Zones / City Centre Zone / CCZ-P9	Support	Supports the City Centre Zone policies.	Retain CCZ-P9 (Quality design outcomes) as notified.
Foodstuffs North Island	FS23.61	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P9	Oppose	Submission point 404.61 seeks to retain CCZ-P9 as notified. FSNI submission points 476.50 & 476.51 seek to amend CCZ-P9.	Disallow / Reject submission in part.
Wellington Heritage Professionals	412.81	Commercial and mixed use Zones / City Centre Zone / CCZ-P9	Support	Supports this policy to ensure that development responds to site context, where it is located adjacent to a site of significance to Māori, heritage place or character precinct.	Retain CCZ-P9 (Quality design outcomes) as notified.
Willis Bond and Company Limited	416.155	Commercial and mixed use Zones / City Centre Zone / CCZ-P9	Support in part	Supports CCZ-P9 (Quality design outcomes) in part.	Not specified.
Willis Bond and Company Limited	416.156	Commercial and mixed use Zones / City Centre Zone / CCZ-P9	Amend	The submitter considers that this is a long (and confusing) provision and should be reviewed against the earlier policies to ensure it is succinct, focused and does not cover the same ground as other policies. If the Design Guides are retained (which the submitter opposes), the submitter considers that this policy should be reviewed for overlap with the Design Guides.	Seeks that CCZ-P9 (Quality design outcomes) be amended to ensure it is succinct, focused and does not cover the same ground as other policies.
Foodstuffs North Island	FS23.95	Commercial and mixed use Zones / City Centre Zone / CCZ-P9	Support	Submission point 416.156 seeks a similar outcome to FSNI submission points 476.50 & 476.51.	Allow / Allow submission in part.
Willis Bond and Company Limited	416.157	Commercial and mixed use Zones / City Centre Zone / CCZ-P9	Amend	The submitter considers that this is a long (and confusing) provision and should be reviewed against the earlier policies to ensure it is succinct, focused and does not cover the same ground as other policies. If the Design Guides are retained (which the submitter opposes), the submitter considers that this policy should be reviewed for overlap with the Design Guides.	Seeks that if the Design Guides are retained that CCZ-P9 (Quality design outcomes) be reviewed for overlap with the Design Guides.
Foodstuffs North Island	FS23.96	Commercial and mixed use Zones / City Centre Zone / CCZ-P9	Support	Submission point 416.157 seeks a similar outcome to FSNI submission points 476.50 & 476.51.	Allow / Allow submission in part.
Foodstuffs North Island	476.50	Commercial and mixed use Zones / City Centre Zone / CCZ-P9	Support in part	Considers that whilst functional and operational needs are referred to within some assessment criteria, there is no correlation to any policies.	Retain CCZ-P9 (Quality design outcomes) with amendment.
Foodstuffs North Island	476.51	Commercial and mixed use Zones / City Centre Zone / CCZ-P9	Amend	Considers that whilst functional and operational needs are referred to within some assessment criteria, there is no correlation to any policies.	Amend CCZ-P9 (Quality design outcomes) to include the following: Recognise the functional and operational requirements of activities and development.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Paul Burnaby	44.13	Commercial and mixed use Zones / City Centre Zone / CCZ-P10	Support	With the confirmation of the provisions supports and the requested changes, the District Plan provisions will more closely align with and implement the directive policies under the NNPS-UD, in particular Policy 3(a) which requires that district plans enable "in city centre zones, building heights and density of urban form to realise as much development capacity as possible, to maximise benefits of intensification"	Retain CCZ-P10 (On-site residential amenity) as notified.
Stratum Management Limited	249.25	Commercial and mixed use Zones / City Centre Zone / CCZ-P10	Amend	Opposes CCZ-S10 (Residential - outdoor living space) relating to outdoor living spaces. As a result, Stratum seeks and amendment to CCZ-P10 (On-site residential amenity) by deleting point (2) of CCZ-P10.	Amend CCZ-P10 (On-site residential amenity) as follows: Achieve a high standard of amenity for residential activities that reflects and responds to the evolving, higher density scale of development anticipated in the City Centre Zone, including: 1. Providing residents with access to an adequate outlook, and 2. Ensuring access to convenient outdoor space, including private or shared communal areas.
Restaurant Brands Limited	349.189	Commercial and mixed use Zones / City Centre Zone / CCZ-P10	Support	Support	Retain CCZ-P10 (On-site residential amenity) as notified.
Z Energy Limited	361.114	Commercial and mixed use Zones / City Centre Zone / CCZ-P10	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain CCZ-P10 (On-site residential amenity) as notified.
Argosy Property No. 1 Limited	383.108	Commercial and mixed use Zones / City Centre Zone / CCZ-P10	Support	Generally supports the policies of the CCZ.	Retain CCZ-P10 (On-site residential amenity) as notified.
Kāinga Ora Homes and Communities	391.716	Commercial and mixed use Zones / City Centre Zone / CCZ-P10	Support in part	Supports this policy in part subject to amendments to relevant rules being made to clarify the extent of on-site amenity requirements. Amendments to remove communal outdoor space requirements are also sought as it is considered this is already covered by reference to outdoor space generally and this could be private outdoor space.	Retain CCZ-P10 (On-site residential amenity) and seeks amendment.
Kāinga Ora Homes and Communities	391.717	Commercial and mixed use Zones / City Centre Zone / CCZ-P10	Amend	Supports this policy in part subject to amendments to relevant rules being made to clarify the extent of on-site amenity requirements. Amendments to remove communal outdoor space requirements are also sought as it is considered this is already covered by reference to outdoor space generally and this could be private outdoor space.	Amend CCZ-P10 (On-site residential amenity) as follows: Ensuring access to convenient outdoor space, including private or shared communal areas.
Oyster Management Limited	404.62	Commercial and mixed use Zones / City Centre Zone / CCZ-P10	Support	Supports the City Centre Zone policies.	Retain CCZ-P10 (On-site residential amenity) as notified.
Wellington's Character Charitable Trust	FS82.168	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P10	Support	Considers reference in CCZ-P10 (On-site residential amenity) to "adequate outlook" and "convenient outdoor space" is necessary and important for residential wellbeing in high density environments.	Allow
Willis Bond and Company Limited	416.158	Commercial and mixed use Zones / City Centre Zone / CCZ-P10	Amend	Submitter considers that on-site residential amenity can be provided in a number of ways and should not be prescriptive, acknowledging that mandated types of amenity (such as outdoor space) can increase housing cost and prevent lower income residents living within the city centre. Submitter considers that the policy should acknowledge affordability constraints. The National Policy Statement on Urban Development 2020 (NPS-UD) requires district plans to "enable, in city centre zones, building heights and density of urban form to realise as much development capacity as possible" (Policy 3). Submitter considers that this should not be restricted by prescriptive amenity requirements.	Amend CCZ-P10 (On-site residential amenity) as follows: Achieve a high standard of amenity for residential activities that reflects and responds to the evolving, higher density scale of development anticipated in the City Centre Zone <u>and the need to provide for a choice of building type, size, affordability and distribution</u> , including: 1. Providing residents with access to an adequate outlook; and 2. Ensuring access to convenient outdoor space, including private or shared communal areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Paul Burnaby	44.14	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Support	With the confirmation of the provisions supports and the requested changes, the District Plan provisions will more closely align with and implement the directive policies under the NNPS-UD, in particular Policy 3(a) which requires that district plans enable "in city centre zones, building heights and density of urban form to realise as much development capacity as possible, to maximise benefits of intensification"	Retain CCZ-P11 (City outcomes contribution) as notified.
Precinct Properties New Zealand Limited	139.31	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Oppose	Opposes CCZ-P11 as this refers to the City Outcomes Contribution.	Delete CCZ-P11 (City outcomes contributions)
Wellington City Youth Council	201.34	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Support	Supports the introduction of the 'City Outcomes Contribution' mechanism, ensuring larger commercial, residential and mixed use developments will become more publicly beneficial for everyone.	Retain CCZ-P11 (City outcomes contribution) as notified.
Stratum Management Limited	249.26	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Amend	Considers that the introductory text to this policy requires clarification that it applies to over height and under height buildings and either comprises 50 or more residential units or is a non-residential building. As currently worded, the policy application is unclear. Equivalent changes may be required elsewhere within the chapter or in other chapters to ensure consistency of wording.	Seeks to amend CCZ-P11 (City Outcomes Contribution) to clarify its intent in accordance with the third matter of discretion under Rule CCZ-R20.2 (Construction of buildings and structures)
McDonald's	274.60	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Oppose	McDonald's is opposed to the 'City Outcomes Contributions' provisions and considers that developments that breach height standards should instead be considered on their merits and effects. The merits of a proposal should not be confined to a specified and required list.	Seeks that CCZ-P11 (City Outcomes Contributions) is deleted.
Property Council New Zealand	338.18	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Amend	Considers that incentives for large developments that can demonstrate a City Outcomes Contribution (such as priority consenting) would establish a quid pro quo system and enable growth rather than placing additional obstacles for large-scale development to occur.	Seeks that incentives be provided to encourage but not require large developments to deliver City Outcomes Contributions.
The Retirement Villages Association of New Zealand Incorporated	FS126.208	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.208	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Disabled Persons Assembly New Zealand Incorporated	343.13	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Amend	Considers that CCZ-P11 should also make reference to disabled people by adding the term 'disability'.	Amend CCZ-P11(5) (City outcomes contribution) as follows: Require over and under height, large-scale residential, non-residential and comprehensive development in the City Centre Zone to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107, including through either: ... 5. Enabling ease of access for people of all ages and mobility/ <u>disability</u> . [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Restaurant Brands Limited	349.190	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Oppose	<p>Oppose</p> <p>The Centres and Mixed-Use Design Guide (and the associated policy and matters of discretion linkages), do not recognise or provide for the functional or operational requirements of activities.</p> <p>The Design Guide reads as a set of rules to be complied with, rather than guidelines to inform the assessment of applications for resource consent and will result in an unnecessarily onerous and unreasonable resource consent process.</p> <p>The Design Guide places unreasonable requirements on applicants on matters that are more appropriately dealt with at a national level (for example, reducing travel/shipping costs of materials to reduce carbon emissions, and installing insulation above minimum requirements). The imposition of “thresholds” for certain types of development result in a “pass/fail” assessment being applied and will result in an unnecessarily onerous and unreasonable resource consent process.</p>	<p>Amend CCZ-P11 (City outcomes contribution) as follows:</p> <p>Require over height, large-scale residential, non-residential and comprehensive development in the City Centre Zone to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107, including through either:</p> <ol style="list-style-type: none"> 1. Positively contributing to public space provision and the amenity of the site and surrounding area; and/or 2. Incorporating a level of building performance that leads to reduced carbon emissions and increased climate change resilience; and/or 3.2. Incorporating construction materials that increase the lifespan and resilience of the development and reduce ongoing maintenance costs; and/or 4.3. Incorporating assisted housing into the development; where this is provided, legal instruments are required to ensure that it remains assisted housing for at least 25 years; and/or 5.4. Enabling ease of access for people of all ages and mobility.
Foodstuffs North Island	FS23.63	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Oppose	Submission point 349.190 seeks to amend CCZ-P11. FSNI submission point 476.52 seeks to delete CCZ-P11 in its entirety.	Disallow / Reject submission in part.
Retirement Villages Association of New Zealand Incorporated	350.294	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Oppose	Opposes the inclusion of the City Outcomes Contribution requirements of CCZ-P11 and considers that any requirements associated with developments that are under or over height should directly relate to mitigation of potential or actual effects. The policy would create barriers that strongly conflict with the need to resolve the housing crisis and address the needs of the rapidly growing aging population.	Delete CCZ-P11 (City outcomes contribution) in its entirety as notified.
Woolworths New Zealand	359.85	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Amend	Considers that CCZ-P11 is unclear and should be amended. The provision contains an incorrect reference to the Centres and Mixed Use Design Guide document (should be G97 as opposed to G107). A review of the guideline indicates that G97 City Outcomes Contribution is only triggered for City Centre zone developments where they are under or over height development comprising 50 or more units or any comprehensive development). As such, the Policy as currently drafted implies that any non-residential development in the CCZ is subject to this policy which is incorrect. The above amendment seeks to align this Policy with the Guide document.	<p>Amend CCZ-P11 (City outcomes contribution) as follows:</p> <p>Require over and under height, large-scale residential, non-residential and comprehensive development under or over height development comprising 50 or more units or any under or over height comprehensive development in the City Centre Zone to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G97G107, including through either:</p>
Foodstuffs North Island	FS23.22	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Oppose	Submission point 359.85 seeks to amend CCZ-P11. FSNI submission point 476.52 seeks to delete CCZ-P11 in it's entirety.	Disallow / Disallow this submission in part.
Z Energy Limited	361.115	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Support in part	Supports CCZ-P11 (City Outcomes Contribution) which seeks to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107.	Retain CCZ-P11 (City outcomes contribution) with amendment.
Z Energy Limited	361.116	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Amend	Considers that CCZ-P11 should also recognise the existing environment and the functional requirements of a range of existing activities.	<p>Amend CCZ-P11 (City outcomes contribution) as follows:</p> <p>Require over and under height, large-scale residential, non-residential and comprehensive development in the City Centre Zone to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107, <u>while recognising the existing environment</u>, including through either:</p> <p>...</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Argosy Property No. 1 Limited	383.109	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Oppose	Opposes this policy which requires some developments to deliver City Outcomes Contributions in accordance with the Centres and Mixed Use Design Guide. This is because: - This provision elevates what is normally a design guide into a rule. A design guide should be separate to a plan. The Design Guide should be an external document to the District Plan and be referenced as a guide only. - Further, this provision, provides a mechanism for the Council to require these aspects as part of a development. This is inappropriate. A development should be assessed on its merits.	Delete Policy CCZ-P11 (City outcomes contribution).
Foodstuffs North Island	FS23.65	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Support	Submission point 404.63 supports FSNI submission point 476.52.	Allow
McDonald's Restaurants New Zealand Limited	FS45.6	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Support	McDonald's Restaurants New Zealand Limited supports these submissions seeking deletion of the City Outcomes Contributions. While MRNZL recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list.	Allow
Kāinga Ora Homes and Communities	391.718	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Oppose in part	Opposes requiring 'City Outcomes Contribution' for development for the following reasons: a. Considers it is inconsistent with the current legislative framework; b. Considers over height development should be assessed based on the potential or actual effects or the proposed infringement, as provided for by the rule framework; and c. Considers all of these activities are anticipated by the zone, and this policy has the potential to disincentivise intensified development. Seeks amendments to the policy to instead encourage positive outcomes for development in the HRZ	Retain CCZ-P11 (City outcomes contribution) and seeks amendment
The Retirement Villages Association of New Zealand Incorporated	FS126.162	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Not specified	The RVA supports in part the relief sought in this submission where it aligns with The RVA's primary submission to have these references removed, however, The RVA seeks for this provision to be deleted in full.	Amend / Allow the submission point, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.162	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Not specified	Ryman supports in part the relief sought in this submission where it aligns with Ryman's primary submission to have these references removed, however, Ryman seeks for this provision to be deleted in full.	Amend / Allow the submission point, subject to the relief sought within Ryman's primary submission.

Fabric Property Limited	425.57	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Oppose	<p>Opposed to the 'City Outcomes Contributions' provisions, and specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development. While Fabric recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list.</p> <p>The 'City Outcomes Contributions' have the potential to act as a disincentive for development, which conflicts with the Proposed Plan strategic objectives and NPS-UD requirements of providing development capacity and providing for urban intensification. This would not achieve the aim of "density done well" as stated in the Design Guide.</p> <p>Seeks that all references to the City Outcomes Contributions be removed from the Proposed Plan and design guides.</p>	Delete CCZ-P11 (City Outcomes Contribution) in its entirety.
Fabric Property Limited	425.58	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Oppose	[See original submission for further detail, outlined in previous submission point]	Delete CCZ-P11 (City Outcomes Contribution) in its entirety.
Reading Wellington Properties Limited	441.3	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Support	Considers that CCZ-P11 provides appropriate guidance on what buildings heights that are outside of the permitted parameters need to achieve.	Retain CCZ-P11 (City outcomes contribution) as notified.
Foodstuffs North Island	476.52	Commercial and mixed use Zones / City Centre Zone / CCZ-P11	Oppose	<p>Opposes CCZ-P11</p> <p>Specifically opposes requiring contributions for development in the City Centre zone that is below the minimum height limit.</p> <p>While FSNI recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list.</p> <p>The 'City Outcomes Contributions' have the potential to act as a disincentive for development, which conflicts with the PDP strategic objectives and NPS-UD requirements of providing for development capacity and urban intensification.</p>	Delete CCZ-P11 (City outcomes contribution) and consequential references in their entirety.
Stratum Management Limited	249.27	Commercial and mixed use Zones / City Centre Zone / CCZ-P12	Amend	<p>Considers that the policy seeks to recognise the "evolving, higher density development context anticipated in the City Centre Zone..." which is supported.</p> <p>It then seeks to manage any associated adverse effects including the following:</p> <ul style="list-style-type: none"> • The impacts of building dominance and the height and scale relationship; • Building mass effects, including the amount of light and outlook around buildings. <p>Considers that the policy can be read as being potentially inconsistent with Policy CCZ-P5 (Urban form and scale).</p>	<p>Amend CCZ-P12 (Managing adverse effects) as follows:</p> <p>Recognise the evolving, higher density development context anticipated in the City Centre Zone, while managing any associated adverse effects including:</p> <ol style="list-style-type: none"> 1. The impacts of building dominance and the height and scale relationship <u>where a building does not meet relevant standards; and</u> 2. Building mass effects, including the amount of light and outlook around buildings <u>where a building does not meet relevant standards; and</u> 3. The impacts on sunlight access to identified public space; and 4. The impacts of related construction activity on the transport network.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.313	Commercial and mixed use Zones / City Centre Zone / CCZ-P12	Support in part	Supports the policy as it seeks to manage any adverse effects associated with higher density development anticipated in this zone. In order to manage the full range of adverse effects, which includes consideration of fire safety in high density urban environments, FENZ considers it critical that access for emergency service vehicles is a consideration of the design and layout of new high density developments. FENZ therefore seeks the inclusion of a further matter under this policy	Supports CCZ-P12 (Managing adverse effects), with amendment.
Fire and Emergency New Zealand	273.314	Commercial and mixed use Zones / City Centre Zone / CCZ-P12	Amend	Supports the policy as it seeks to manage any adverse effects associated with higher density development anticipated in this zone. In order to manage the full range of adverse effects, which includes consideration of fire safety in high density urban environments, FENZ considers it critical that access for emergency service vehicles is a consideration of the design and layout of new high density developments. FENZ therefore seeks the inclusion of a further matter under this policy Note: Submitter refers to CCZ-P13, which is an error.	Amend CCZ-P12 (Managing adverse effects) as follows: Recognise the evolving, higher density development context anticipated in the City Centre Zone, while managing any associated adverse effects including: 1. The impacts of building dominance and the height and scale relationship; 2. Building mass effects, including the amount of light and outlook around buildings; and 3. The impacts on sunlight access to identified public space; and 4. The impacts of related construction activity on the transport network; and <u>5. Accessibility for emergency service vehicles.</u>
Restaurant Brands Limited	349.191	Commercial and mixed use Zones / City Centre Zone / CCZ-P12	Support	Support	Retain CCZ-P12 (Managing adverse effects) as notified.
Z Energy Limited	361.117	Commercial and mixed use Zones / City Centre Zone / CCZ-P12	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain CCZ-P12 (Managing adverse effects) as notified.
WCC Environmental Reference Group	377.480	Commercial and mixed use Zones / City Centre Zone / CCZ-P12	Amend	The submitter considers that the policy fails to mention the impact of the development process on any of the Wellington Central City Zones sustainability goals. Whilst the submitter notes that the protection of the public transport network is important, The submitter suggests the addition of 1 new and amendment of 1 point in order to ensure the policy correctly upholds the ideals and vision held within the preamble and Objectives 3 and 5.	Amend CCZ-P12 (Managing adverse effects) as follows: Recognise the evolving, higher density development context anticipated in the City Centre Zone, while managing any associated adverse effects including: 1. The impacts of building dominance and the height and scale relationship <u>2. The emission of greenhouse gases and waste water runoff from construction.</u> 3. Building mass effects, including the amount of light and outlook around buildings; and 4. The impacts on sunlight access to identified public space; and 5. The impacts of related construction activity on the transport network <u>and pedestrian linkages.</u>
Argosy Property No. 1 Limited	383.110	Commercial and mixed use Zones / City Centre Zone / CCZ-P12	Support	Generally supports the policies of the CCZ.	Retain CCZ-P12 (Managing adverse effects) as notified.
Kāinga Ora Homes and Communities	391.720	Commercial and mixed use Zones / City Centre Zone / CCZ-P12	Support in part	Supports policy subject to amendments that reflect NPSUD Policy 6.	Retain CCZ-P12 (Managing adverse effects) and seeks amendment.
Kāinga Ora Homes and Communities	391.721	Commercial and mixed use Zones / City Centre Zone / CCZ-P12	Amend	Supports policy subject to amendments that reflect NPSUD Policy 6.	Amend CCZ-P12 (Managing adverse effects) as follows: Recognise the evolving, higher density development context anticipated in the City Centre Zone, while managing any associated adverse effects <u>beyond those anticipated within the zone</u> including: ...

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Oyster Management Limited	404.64	Commercial and mixed use Zones / City Centre Zone / CCZ-P12	Support	Supports the City Centre Zone policies.	Retain CCZ-P12 (Managing adverse effects) as notified.
Willis Bond and Company Limited	416.163	Commercial and mixed use Zones / City Centre Zone / CCZ-P12	Amend	Submitter considers that the impacts of construction activity on the transport network should not be relevant in the resource consenting process. Submitter considers densification proposed by the District Plan will inevitably result in impacts.	Amend CCZ-P12 (Managing adverse effects) as follows: Recognise the evolving, higher density development context anticipated in the City Centre Zone, while managing any associated adverse effects including: ... 4. The impacts of related construction activity on the transport network.
Waka Kotahi NZ Transport Agency	FS103.26	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-P12	Oppose	As proposed, the impact on the transport network is an effect to be managed. Given the role and function of the zone, high traffic volumes are expected but works within the road corridor can cause serious delays on a network where there are high traffic volumes. The policy as drafted (appropriately) allows for the careful consideration of how construction could be provided for in a manner than reduces the impact on road users in the zone. Retain as drafted.	Disallow
Wellington Civic Trust	388.28	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-P1	Support	CCZ-PREC01-P1 is generally supported.	Retain CCZ-PREC01-P1 (Activities) as notified.
Willis Bond and Company Limited	416.164	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-P1	Support	Submitter agrees a range of activities should be supported within Te Ngakau Civic Square Precinct.	Retain CCZ-PREC01-P1 (Activities) as notified.
Wellington Civic Trust	388.29	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-P2	Support in part	CCZ-PREC01-P2 is generally supported, but an amendment is sought.	Retain CCZ-PREC01-P2 (Use and development of the Te Ngākau Civic Square Precinct) with amendment.
Wellington Civic Trust	388.30	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-P2	Amend	Considers that CCZ-PREC01-P2 should be amended to clarify wording. Wording in portrays the precinct as redevelopment area. The findings of a seminar run by the Civic Trust in 2021 were that people seek to retain as much as possible of the existing buildings, structures and spaces for reuse, rather than demolition and replacement buildings. It is sought that this is reflected in the provision.	Amend CCZ-PREC01-P2 (Use and development of the Te Ngākau Civic Square Precinct) as follows: Provide for the staged redevelopment of managed change in the Te Ngākau Civic Square Precinct, and its connections with the transport network, wider City Centre Zone and Waterfront Zone, including: 1. Enhancing the public function, pedestrian network and public spaces within the precinct; 2. Maintaining its special character by managing the form, scale and intensity of development; 3. Ensuring land use activities and <u>any new</u> development are planned and designed in a co-ordinated, site-responsive, comprehensive and integrated manner; and 4. Enabling new development and a range of activities that are integrated and compatible with existing buildings and land uses in the precinct.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.165	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-P2	Amend	Submitter considers that item 3 may result in a perverse situation where development is delayed while other potential development areas of Te Ngakau Civic Square Precinct are being considered.	Amend CCZ-PREC01-P2 (Use and development of the Te Ngākau Civic Square Precinct) as follows: Provide for the staged redevelopment of the Te Ngākau Civic Square Precinct, and its connections with the transport network, wider City Centre Zone and Waterfront Zone, including: 1. Enhancing the public function, pedestrian network and public spaces within the precinct; 2. Maintaining its special character by managing the form, scale and intensity of development; 3. Ensuring land use activities and development are planned and designed in a co-ordinated, site-responsive, comprehensive and integrated manner <u>to the extent reasonable while allowing for development to progress in a natural manner</u> ; and 4. Enabling new development and a range of activities that are integrated and compatible with existing buildings and land uses in the precinct.
Wellington Civic Trust	FS83.26	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-P2	Oppose	This submission cuts across a submission of the Civic Trust. The Trust does not see the Te Ngākau Civic Square Precinct as a giant redevelopment site. Our request is for policy recognition of the need for careful management of any change in the precinct. There is nothing "natural" in redevelopment although that is how the submission suggests it should be portrayed. The Civic Trust seek that its submission is allowed, and this one disallowed.	Disallow
Wellington Civic Trust	388.31	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-P3	Support in part	CCZ-PREC01-P3 is generally supported, but an amendment is sought.	Retain CCZ-PREC01-P3 (Access, connections and open space) with amendment.
Wellington Civic Trust	388.32	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-P3	Amend	Considers that CCZ-PREC01-P3 should be amended to clearly state that the Precinct must be kept free of vehicular traffic.	Amend CCZ-PREC01-P3 (Access, connections and open space) as follows: Require that the use and development of the Te Ngākau Civic Square Precinct: ... 3. Provides well-designed, safe and accessible public and green open space, within the precinct. 4. <u>Avoids vehicle access at surface level with the precinct.</u>
Willis Bond and Company Limited	416.166	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-P3	Support	Te Ngakau Civic Square Precinct provides an important central connection hub.	Retain CCZ-PREC01-P3 (Access, connections and open space) as notified.
Wellington Civic Trust	388.33	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-P4	Support	CCZ-PREC01-P4 is generally supported.	Retain CCZ-PREC01-P4 (Amenity and design) as notified.
Taranaki Whānui ki te Upoko o te Ika	389.105	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-P4	Support in part	Supports CCZ-PREC01-P4 (Amenity and design) in principle.	Retain CCZ-PREC01-P4 (Amenity and design) as notified. [Inferred decision requested]
Willis Bond and Company Limited	416.167	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-P4	Support	The requirements stated reflect the importance of quality development within Te Ngakau Civic Square Precinct.	Retain CCZ-PREC01-P4 (Amenity and design) as notified.
Precinct Properties New Zealand Limited	139.32	Commercial and mixed use Zones / City Centre Zone / CCZ-R1	Support	Supports the range of permitted activities provided for in the City Centre Zone (CCZ-R1 to CCZ-R12).	Retain rule CCZ-R1 (Commercial activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Century Group Limited	238.5	Commercial and mixed use Zones / City Centre Zone / CCZ-R1	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R1 (Commercial activities) as notified.
Restaurant Brands Limited	349.192	Commercial and mixed use Zones / City Centre Zone / CCZ-R1	Support	Support	Retain CCZ-R1 (Commercial activities) as notified.
Foodstuffs North Island	FS23.78	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R1	Support	Submission point 349.192 supports FSNI submission point 476.100.	Allow
Z Energy Limited	361.118	Commercial and mixed use Zones / City Centre Zone / CCZ-R1	Support	Supports Rule CCZ-R1 (Commercial Activities) which provides for commercial activities (as defined) as a permitted activity with no limitation as to the land use activity. It is understood that any new building or structure to be erected on would still need to comply with the applicable permitted activity performance standards under Standards CCZ-S1 - S13, or require consent as a restricted discretionary activity where those standards cannot be met.	Retain CCZ-R1 (Commercial activities) as notified.
Argosy Property No. 1 Limited	383.111	Commercial and mixed use Zones / City Centre Zone / CCZ-R1	Support	Supports commercial activities, including offices and retail activities, being permitted in the City Centre zone. This is appropriate to enable the continued vibrancy of the city centre.	Retain CCZ-R1 (Commercial activities) as notified.
Foodstuffs North Island	FS23.80	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R1	Support	Submission point 383.111 supports FSNI submission point 476.100.	Allow
Oyster Management Limited	404.65	Commercial and mixed use Zones / City Centre Zone / CCZ-R1	Support	Supports commercial activities being Permitted in the City Centre Zone to ensure continued vibrancy of the city.	Retain CCZ-R1 (Commercial activities) as notified.
Foodstuffs North Island	FS23.79	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R1	Support	Submission point 404.65 supports FSNI submission point 476.100.	Allow
Fabric Property Limited	425.59	Commercial and mixed use Zones / City Centre Zone / CCZ-R1	Support	Supports the commercial activities being permitted in the CCZ.	Retain CCZ-R1 (Commercial Activities) as notified.
Foodstuffs North Island	476.100	Commercial and mixed use Zones / City Centre Zone / CCZ-R1	Support	Supports supermarkets as a permitted activity in the CCZ.	Retain CCZ-R1 (Commercial activities) as notified. [Inferred decision requested].
Precinct Properties New Zealand Limited	139.33	Commercial and mixed use Zones / City Centre Zone / CCZ-R2	Support	Supports the range of permitted activities provided for in the City Centre Zone (CCZ-R1 to CCZ-R12).	Retain rule CCZ-R2 (Community facilities) as notified.
Century Group Limited	238.6	Commercial and mixed use Zones / City Centre Zone / CCZ-R2	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R2 (Community facilities) as notified.
Precinct Properties New Zealand Limited	139.34	Commercial and mixed use Zones / City Centre Zone / CCZ-R3	Support	Supports the range of permitted activities provided for in the City Centre Zone (CCZ-R1 to CCZ-R12).	Retain rule CCZ-R3 (Educational facilities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Century Group Limited	238.7	Commercial and mixed use Zones / City Centre Zone / CCZ-R3	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R3 (Educational facilities) as notified.
Ministry of Education	400.145	Commercial and mixed use Zones / City Centre Zone / CCZ-R3	Support	Supports CCZ-R3 as it provides for educational facilities as a permitted activity.	Retain CCZ-R3 (Educational facilities) as notified.
Precinct Properties New Zealand Limited	139.35	Commercial and mixed use Zones / City Centre Zone / CCZ-R4	Support	Supports the range of permitted activities provided for in the City Centre Zone (CCZ-R1 to CCZ-R12).	Retain rule CCZ-R4 (Recreation activities) as notified.
Century Group Limited	238.8	Commercial and mixed use Zones / City Centre Zone / CCZ-R4	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R4 (Recreation activities) as notified.
Precinct Properties New Zealand Limited	139.36	Commercial and mixed use Zones / City Centre Zone / CCZ-R5	Support	Supports the range of permitted activities provided for in the City Centre Zone (CCZ-R1 to CCZ-R12).	Retain rule CCZ-R5 (Arts, culture, and entertainment activities) as notified.
Century Group Limited	238.9	Commercial and mixed use Zones / City Centre Zone / CCZ-R5	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R5 (Arts, culture and entertainment activities) as notified.
Precinct Properties New Zealand Limited	139.37	Commercial and mixed use Zones / City Centre Zone / CCZ-R6	Support	Supports the range of permitted activities provided for in the City Centre Zone (CCZ-R1 to CCZ-R12).	Retain rule CCZ-R6 (Emergency service facilities) as notified.
Century Group Limited	238.10	Commercial and mixed use Zones / City Centre Zone / CCZ-R6	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R6 (Emergency service facilities) as notified.
Fire and Emergency New Zealand	273.315	Commercial and mixed use Zones / City Centre Zone / CCZ-R6	Support	Supports the rule as it makes provision for new emergency service facilities within the zone. Due to urban growth, population changes and commitments to response times, FENZ may need to locate stations anywhere within the urban and rural environment.	Retain CCZ-R6 (Emergency service facilities) as notified.
Precinct Properties New Zealand Limited	139.38	Commercial and mixed use Zones / City Centre Zone / CCZ-R7	Support	Supports the range of permitted activities provided for in the City Centre Zone (CCZ-R1 to CCZ-R12).	Retain rule CCZ-R7 (Marae activities) as notified.
Century Group Limited	238.11	Commercial and mixed use Zones / City Centre Zone / CCZ-R7	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R7 (Marae activities) as notified.
Precinct Properties New Zealand Limited	139.39	Commercial and mixed use Zones / City Centre Zone / CCZ-R8	Support	Supports the range of permitted activities provided for in the City Centre Zone (CCZ-R1 to CCZ-R12).	Retain rule CCZ-R8 (Community corrections activities) as notified.
Century Group Limited	238.12	Commercial and mixed use Zones / City Centre Zone / CCZ-R8	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R8 (Community corrections activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ara Poutama Aotearoa the Department of Corrections	240.60	Commercial and mixed use Zones / City Centre Zone / CCZ-R8	Support	Considers that community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification. The permitted activity status (enabled by the associated policies) is appropriate in the context of the current and potential future establishment and operation of a community corrections facility or facilities within these areas in Wellington City.	Retain CCZ-R8 (Community corrections activities) as notified.
Precinct Properties New Zealand Limited	139.40	Commercial and mixed use Zones / City Centre Zone / CCZ-R9	Support	Supports the range of permitted activities provided for in the City Centre Zone (CCZ-R1 to CCZ-R12).	Retain rule CCZ-R9 (Public transport activities) as notified.
Century Group Limited	238.13	Commercial and mixed use Zones / City Centre Zone / CCZ-R9	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R9 (Public transport activities) as notified.
Precinct Properties New Zealand Limited	139.41	Commercial and mixed use Zones / City Centre Zone / CCZ-R10	Support	Supports the range of permitted activities provided for in the City Centre Zone (CCZ-R1 to CCZ-R12).	Retain rule CCZ-R10 (Visitor accommodation activities) as notified.
Century Group Limited	238.14	Commercial and mixed use Zones / City Centre Zone / CCZ-R10	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R10 (Visitor accommodation activities) as notified.
Precinct Properties New Zealand Limited	139.42	Commercial and mixed use Zones / City Centre Zone / CCZ-R11	Support	Supports the range of permitted activities provided for in the City Centre Zone (CCZ-R1 to CCZ-R12).	Retain rule CCZ-R11 (Repair and maintenance service activities) as notified.
Century Group Limited	238.15	Commercial and mixed use Zones / City Centre Zone / CCZ-R11	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R11 (Repair and maintenance service activities) as notified.
Precinct Properties New Zealand Limited	139.43	Commercial and mixed use Zones / City Centre Zone / CCZ-R12	Support	Supports the range of permitted activities provided for in the City Centre Zone (CCZ-R1 to CCZ-R12).	Retain rule CCZ-R12 (Residential activities) as notified.
Century Group Limited	238.16	Commercial and mixed use Zones / City Centre Zone / CCZ-R12	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R12 (Residential activities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.61	Commercial and mixed use Zones / City Centre Zone / CCZ-R12	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain CCZ-R12 (Residential activities) as notified.
Stratum Management Limited	249.28	Commercial and mixed use Zones / City Centre Zone / CCZ-R12	Amend	Amend point (iv) of the rule to ensure consistency.	Amend CCZ-R12 (Residential activities) as follows: iv. At ground level on any site <u>not</u> contained within a Natural Hazard Overlay.
Stratum Management Limited	249.29	Commercial and mixed use Zones / City Centre Zone / CCZ-R12	Amend	Considers that the establishment of a residential activity is provided for as a permitted activity with four conditions. None of those conditions would lead to a requirement for limited notification.	Seeks that the notification status under CCZ-R12 (Residential activities) is amended to preclude both limited notification and public notification.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Argosy Property No. 1 Limited	383.112	Commercial and mixed use Zones / City Centre Zone / CCZ-R12	Support	Supports residential activities being permitted in the City Centre zone.	Retain CCZ-R12 (Residential activities) as notified.
Kāinga Ora Homes and Communities	391.722	Commercial and mixed use Zones / City Centre Zone / CCZ-R12	Support in part	Supports this rule in part as residential activities should be enabled in the City Centres, but seeks that: <ul style="list-style-type: none"> Active frontages are only applied to key roads Considers it is unclear why verandah coverage is an issue for residential development particularly when ground floor development is controlled on active frontages and non-residential activity frontages in accordance with LCZ-P4 Reference to natural hazards is removed as it is considered these matters are controlled by Natural Hazard rules and the proposed wording is inconsistent with this approach as this encourages residential development in hazard overlay areas. Considers this is unnecessary duplication 	Retain CCZ-R12 (Residential activities) and seeks amendment.
Kāinga Ora Homes and Communities	391.723	Commercial and mixed use Zones / City Centre Zone / CCZ-R12	Amend	Supports this rule in part as residential activities should be enabled in the City Centres, but seeks that: <ul style="list-style-type: none"> Active frontages are only applied to key roads Considers it is unclear why verandah coverage is an issue for residential development particularly when ground floor development is controlled on active frontages and non-residential activity frontages in accordance with LCZ-P4 Reference to natural hazards is removed as it is considered these matters are controlled by Natural Hazard rules and the proposed wording is inconsistent with this approach as this encourages residential development in hazard overlay areas. Considers this is unnecessary duplication 	Amend CCZ-R12 (Residential activities) to only apply active frontages where necessary such as along principal roads/arterials not necessary along connecting streets as follows: <ol style="list-style-type: none"> Activity status: Permitted where: <ol style="list-style-type: none"> The activity is located: <ol style="list-style-type: none"> Above ground floor level; or At ground floor level along any street edge not identified as an active frontage; or <ol style="list-style-type: none"> At ground level along any street not identified as requiring verandah coverage; or At ground level on any site contained within a Natural Hazard Overlay.
Kāinga Ora Homes and Communities	391.724	Commercial and mixed use Zones / City Centre Zone / CCZ-R12	Amend	Supports this rule in part as residential activities should be enabled in the City Centres, but seeks that: <ul style="list-style-type: none"> the activity status for non-compliance is amended to Restricted Discretionary and appropriate matters of discretion are restricted to Policy 7 and 8 matters. 	Amend CCZ-R12 (Residential activities) as follows: <ol style="list-style-type: none"> Activity status: Discretionary Discretionary <u>Restricted Discretionary</u> where: <ol style="list-style-type: none"> Compliance with the requirements of CCZ-R12.1.a cannot be achieved. Notification status: An application for resource consent made in respect of rule CCZ-R12.2.a is precluded from being publicly notified.
Kāinga Ora Homes and Communities	391.725	Commercial and mixed use Zones / City Centre Zone / CCZ-R12	Amend	Supports this rule in part as residential activities should be enabled in the City Centres, but seeks that: <ul style="list-style-type: none"> the activity status for non-compliance is amended to Restricted Discretionary and appropriate matters of discretion are restricted to Policy 7 and 8 matters 	Seeks to add matters of discretion to CCZ-R12 (Residential activities) that are limited to simple design limitations.
Oyster Management Limited	404.66	Commercial and mixed use Zones / City Centre Zone / CCZ-R12	Support	Supports residential activities being permitted in the City Centre Zone.	Retain CCZ-R12 (Residential activities) as notified.
Century Group Limited	238.17	Commercial and mixed use Zones / City Centre Zone / CCZ-R13	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R13 (Industrial activities, excluding repair and maintenance service activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Victoria University of Wellington Students' Association	123.59	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Support	Supports the discouragement of ground-level car parks in the city centre.	Retain CCZ-R14 (Car-parking activities) as notified. [Inferred decision requested]
Precinct Properties New Zealand Limited	139.44	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Oppose in part	Considers there may be circumstances where there are functional needs to provide car parking at ground level. It is more appropriate for notification to be determined on a case-by-case basis in these circumstances and for the effects of this activity to be considered as a Restricted Discretionary activity.	Amend CCZ-R14 (Carparking activities) to remove mandatory notification for at grade car parks.
Precinct Properties New Zealand Limited	139.45	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Oppose in part	Considers there may be circumstances where there are functional needs to provide car parking at ground level. It is more appropriate for notification to be determined on a case-by-case basis in these circumstances and for the effects of this activity to be considered as a Restricted Discretionary activity.	Amend CCZ-R14 (Carparking activities) activity status from Discretionary to Restricted Discretionary for non-compliance with the permitted activity conditions.
Century Group Limited	238.18	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R14 (Carparking activities) as notified.
McDonald's	274.61	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Oppose	Opposed to the Discretionary Activity status for car parking activities that do not comply with the permitted activity requirements. Furthermore, if the car parking is not visible then this should be a should be a permitted activity as per the other centre zones.	Retain CCZ-R14 (Carparking activities), subject to amendments outlined other submission points.
McDonald's	274.62	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Amend	Opposed to the Discretionary Activity status for car parking activities that do not comply with the permitted activity requirements. Furthermore, if the car parking is not visible then this should be a should be a permitted activity as per the other centre zones.	Amend CCZ-R14.1 (Carparking activities) as follows: 1. Activity status: Permitted Where: a. The activity involves: i. <u>i.</u> Provision of carparks not visible at the street edge or public space; or ii. <u>ii.</u> Provision of carparks above ground floor level; or iii. <u>iii.</u> Provision of carparks below ground floor level; or iv. <u>iv.</u> Provision of parking spaces for people with disabilities; or v. <u>v.</u> Provision of ground floor level carparks that form part of a building specifically constructed and used for carparking purposes.
Waka Kotahi NZ Transport Agency	FS103.27	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Oppose	Space in the centres is valuable, but the use of that space can have a wide range of effects (negative and positive), including on the character, perceptions of safety, road user behaviour, walkability and choice of transport mode. It is considered appropriate that non-compliant car parking provision consider a wide range of effects.	Disallow
McDonald's	274.63	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Amend	Opposed to the Discretionary Activity status for car parking activities that do not comply with the permitted activity requirements. Furthermore, if the car parking is not visible then this should be a should be a permitted activity as per the other centre zones.	Amend CCZ-R14.2 (Carparking activities) as follows: ... 2. Activity status: Discretionary <u>Restricted Discretionary</u> Where: a. Compliance with the requirements of CCZ-R14.1.a cannot be achieved.
McDonald's	274.64	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Oppose	Opposes the requirement for public notification of any carparks at ground level in the City Centre Zone	Delete the notification clause under CCZ-R14.2 (Carparking activities) as follows: ... Notification status: An application for resource consent made in respect of rule CCZ-R14.2.a must be publicly notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.86	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Amend	Considers that CCZ-R14.2 should be amended so that the activity status of this standard infringement is changed to restricted discretionary. It is considered that this status, plus the suggested matters of discretion, will ensure an appropriate assessment of effects is undertaken, whilst providing a level of certainty to applicants that where activities are anticipated, such assessments will be rational and streamlined. The mandatory public notification status for infringing is proposed to be deleted as this is unnecessarily onerous in the context of the infringement.	Amend CCZ-R14.2 (Carparking activities) as follows: 2. Activity status: <u>Restricted</u> Discretionary Where: a. Compliance with the requirements of CCZ-R14.1.a is not achieved. <u>Matters of discretion are:</u> 1. <u>The matters in CCZ-P2, CCZ-P3, CCZ-P4, CCZ-P7, CCZ-P9 and CCZ-P10;</u> 2. <u>The cumulative effect of the development on:</u> <u>a. The ongoing viability and vibrancy of the Zone ;</u> <u>b. The safety and efficiency of the transport network, including providing for a range of transport modes;</u> <u>c. The hierarchy of roads, travel demand or vehicle use; and</u> 3. <u>The compatibility with other activities provided for in the zone.</u> Notification status: An application for resource consent made in respect of rule CCZ-R14.2.a must be publicly notified.
Foodstuffs North Island	FS23.23	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Support	Submission point 359.86 supports FSNI submission 476.53 and 476.54.	Allow / Allow submission in part.
Reading Wellington Properties Limited	441.4	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Oppose	Opposes the requirement for full public notification of any resource consents sought under Rule CCZ-R14.2. Reading Wellington Properties Limited hold resource consents for ground level car parking on two of our sites (200 Wakefield Street and 24 Tory Street). Both were granted on a non-notified basis, on the fact that adverse effects were appropriately mitigated. The mitigation meant neither full or limited notification was necessary. The notification clause is opposed and should be removed, as it prevents applications for such an activity from being assessed on their merits. Decisions on notification should be made on the basis of effect, not on the basis of a rule.	Amend CCZ-R14.2. (Carparking activities) by removing the notification clause.
Reading Wellington Properties Limited	441.5	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Amend	Opposes the requirement for full public notification of any resource consents sought under Rule CCZ-R14.2. Reading Wellington Properties Limited hold resource consents for ground level car parking on two of our sites (200 Wakefield Street and 24 Tory Street). Both were granted on a non-notified basis, on the fact that adverse effects were appropriately mitigated. The mitigation meant neither full or limited notification was necessary. The notification clause is opposed and should be removed, as it prevents applications for such an activity from being assessed on their merits. Decisions on notification should be made on the basis of effect, not on the basis of a rule.	Amend CCZ-R14.2. (Carparking activities) by removing the notification clause.
Foodstuffs North Island	476.53	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Oppose	Opposes the Discretionary Activity status in CCZ-R14 for car parking activities that do not comply with the Permitted Activity requirements.	Amend CCZ-R14 (Carparking activities) as follows: ... 2. Activity status: Discretionary <u>Restricted Discretionary</u> ...

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	F584.102	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Oppose	Greater Wellington oppose this submission point. A “discretionary” activity status provides necessary controls for carparking activities which align with the direction of Proposed RPS Change 1, including objectives CC.1 and CC.3, and policies CC.1, CC.3 and CC.9	Disallow / Seeks that the provisions be retained as notified and support provisions that support active transport nodes.
Foodstuffs North Island	476.54	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Amend	Opposes the Discretionary Activity status in CCZ-R14 for car parking activities that do not comply with the Permitted Activity requirements.	Amend CCZ-R14 (Carparking activities) as follows: ... 2. Activity status: Discretionary <u>Restricted Discretionary</u> ...
Foodstuffs North Island	476.55	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Amend	Considers that if the carparking is not visible then this should be a permitted activity in CCZ-R14 as per the other centre zones.	Amend CCZ-R14 (Carparking activities) as follows: 1. Activity status: Permitted Where: a. The activity involves: i. <u>Provision of carparks not visible at the street edge or public space; or</u> ii. Provision of carparks above ground floor level; or ...
Foodstuffs North Island	476.56	Commercial and mixed use Zones / City Centre Zone / CCZ-R14	Oppose	Opposes the requirement in CCZ-R14 for public notification of any carparks at ground level in the City Centre Zone.	Amend CCZ-R14 (Carparking activities) as follows: ... Notification status: An application for resource consent made in respect of rule CCZ-R14.2.a. must be publicly notified.
Century Group Limited	238.19	Commercial and mixed use Zones / City Centre Zone / CCZ-R15	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R15 (Yard-based retailing activities) as notified.
Z Energy Limited	361.119	Commercial and mixed use Zones / City Centre Zone / CCZ-R15	Support in part	CCZ-R15 (yard-based retail activities) is supported in so much as it provides for yard-based retail activities (the definition of which includes service stations) as a discretionary activity.	Retain CCZ-R15 (Yard-based retailing activities) with amendment.
Z Energy Limited	361.120	Commercial and mixed use Zones / City Centre Zone / CCZ-R15	Amend	<p>Considers that CCZ-R15 should be amended to not require public notification, as it may have a range of unintended outcomes. For instance, the requirement for public notification for any operational change, upgrading or maintenance to an existing yard-based activity where public notification would be more appropriately determined through standard notification tests. It may also discourage existing activities from undertaking important maintenance and upgrades, for instance, to better accord with good practise, introduce new technologies, or change to meet demand.</p> <p>CCZ-R15 should be clarified to address operation, maintenance, and upgrade of existing service station / yard-based retail activity are not subject to this requirement, which is not considered appropriate for existing activities.</p> <p>An additional exclusion to the notification status is appropriate only where the existing or new activity is located on the edge of the zone or adjacent to an arterial or collector road. These locations and/or interfaces do not have nor should they expect the same urban design outcomes and levels of visual amenity compared to a centrally located site in the CCZ for example.</p> <p>A service station, for example, would not impact the function and vitality of a centre zone if it were located on the edge of the zone where it can appropriately transition to an adjoining zone.</p>	<p>Amend CCZ-R15 (Yard-based retailing activities) as follows:</p> <p>1. Activity status: Discretionary</p> <p>Notification Status: An application for resource consent made in respect of rule CCZ-R15 must be publicly notified <u>except:</u></p> <p><u>a. The activity relates to the maintenance, operation and upgrading of an existing activity;</u> <u>b. The new or existing activity adjoins another commercial zone, a residential zone or an arterial or collector Road.</u></p>
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.153	Commercial and mixed use Zones / City Centre Zone / CCZ-R15	Support in part	CCZ-R15 is supported in so much as the rule provides for yard-based retail activities as a discretionary activity. It is understood that an application for resource consent made in respect of this rule, however, must be publicly notified in accordance with the Notification Status.	Retain CCZ-R15 (Yard-based retailing activities) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.154	Commercial and mixed use Zones / City Centre Zone / CCZ-R15	Amend	<p>Considers that CCZ-R15 should be amended as the notification requirement is not supported as it may have a range of unintended outcomes. For instance, without clarification, it may require public notification for any operational change, upgrading or maintenance to an existing yard-based activity where public notification would be more appropriately determined through standard notification tests. It may therefore also discourage existing activities from undertaking important maintenance and upgrades, for instance, to meet requirements of HSNO / HSWA legislation, better accord with good practise, introduce new technologies, or necessary changes to meet demand.</p> <p>Ongoing operation, maintenance, and upgrades of existing service stations / yard-based retail activities should not be subject to this notification requirement, which is not appropriate for existing lawful activities.</p> <p>It is considered that an additional exclusion to the notification status is appropriate only where the existing or new activity is located on the edge of the zone or adjacent to an arterial or collector road. These locations and/or interfaces do not have, nor should they expect, the same urban design outcomes and levels of visual amenity compared to a centrally located site in the CCZ for example. A service station, for example, would not impact the function and vitality of a centre zone if it were located on the edge of the zone where it can appropriately transition to the adjoining zone.</p>	<p>Amend CCZ-R15 (Yard-based retailing activities) as follows:</p> <p>Notification Status: An application for resource consent made in respect of rule CCZ-R15 must be publicly notified <u>except</u>:</p> <p><u>a. The activity relates to the maintenance, operation and upgrading of an existing activity;</u> <u>b. The new or existing activity adjoins another commercial zone, a residential zone or an arterial or collector Road.</u></p>
Century Group Limited	238.20	Commercial and mixed use Zones / City Centre Zone / CCZ-R16	Support	Supports the range of activities with a permitted activity status in the City Centre Zone, as being reflective of the outcomes that are anticipated for a Central Business District.	Retain CCZ-R16 (All other land use activities) as notified.
Precinct Properties New Zealand Limited	139.46	Commercial and mixed use Zones / City Centre Zone / CCZ-R17	Support	Supports the permitted status for maintenance and repair of buildings under CCZ-R17 (Maintenance and repair of buildings and structures)	Retain CCZ-R17 (Maintenance and repair of buildings and structures) as notified.
Fire and Emergency New Zealand	273.316	Commercial and mixed use Zones / City Centre Zone / CCZ-R17	Support	Supports the rule as the demolition or removal of buildings and structures within the CCZ is a permitted activity	Retain CCZ-R17 (Maintenance and repair of buildings and structures) as notified.
Restaurant Brands Limited	349.193	Commercial and mixed use Zones / City Centre Zone / CCZ-R17	Support	Support	Retain CCZ-R17 (Maintenance and repair of buildings and structures) as notified.
Argosy Property No. 1 Limited	383.113	Commercial and mixed use Zones / City Centre Zone / CCZ-R17	Support	Supports maintenance and repair of existing buildings and structures being permitted.	Retain CCZ-R17 (Maintenance and repair of buildings and structures_ as notified.
Oyster Management Limited	404.67	Commercial and mixed use Zones / City Centre Zone / CCZ-R17	Support	Supports repair and maintenance of existing buildings being a Permitted activity.	Retain CCZ-R17 (Maintenance and repair of buildings and structures) as notified.
Fire and Emergency New Zealand	273.317	Commercial and mixed use Zones / City Centre Zone / CCZ-R18	Support	Supports the rule as the demolition or removal of buildings and structures within the CCZ is a permitted activity.	Retain CCZ-R18 (Demolition or removal of buildings and structures) as notified.
Restaurant Brands Limited	349.194	Commercial and mixed use Zones / City Centre Zone / CCZ-R18	Support	Support	Retain CCZ-R18 (Demolition or removal of buildings and structures) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.278	Commercial and mixed use Zones / City Centre Zone / CCZ-R18	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain CCZ-R18 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.279	Commercial and mixed use Zones / City Centre Zone / CCZ-R18	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend CCZ-R18 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Argosy Property No. 1 Limited	383.114	Commercial and mixed use Zones / City Centre Zone / CCZ-R18	Amend	Supports demolition or removal of a building being permitted where it is required for the purposes of constructing a new building or adding to or altering an existing building. However, Argosy opposes that demolition or removal of a building that cannot comply with CCZ-R18.1.a or b would require resource consent as a non-complying activity. There may be practical reasons why a building might need to be demolished or removed before a resource consent is sought for a new building, for example if a staged development is being undertaken. It would be more appropriate for this rule to be a restricted discretionary activity. The notification status for rule CCZ-R18.2.a is supported.	Amend CCZ-R18.2 (Demolition or removal of buildings and structures): 2. Activity status: Non-complying <u>Restricted discretionary</u>
Kāinga Ora Homes and Communities	391.726	Commercial and mixed use Zones / City Centre Zone / CCZ-R18	Support in part	Supports this rule in part but seeks clarification, and any necessary amendments, to ensure that this rule will not have an unintended consequence of constraining staged developments.	Seeks to amend CCZ-R18 (Demolition or removal of buildings and structures) as necessary to avoid potential unintended consequence of constraining staged development.
Oyster Management Limited	404.68	Commercial and mixed use Zones / City Centre Zone / CCZ-R18	Support in part	Supports demolition or removal of a building being permitted where it is required for the purposes of constructing a new building or adding to or altering an existing building.	Retain CCZ-R18 (Demolition or removal of buildings and structures) with amendments.
Oyster Management Limited	404.69	Commercial and mixed use Zones / City Centre Zone / CCZ-R18	Amend	Opposes demolition that cannot comply with CCZ-R18.1.a or CCZ-R18.1.b being a non-complying activity. Considers there are practical reasons for demolition being required before consent is granted for a new building, e.g. in the case of staged developments. Considers an RD activity status would be appropriate.	Amend CCZ-R18 (Demolition or removal of buildings and structures) as follows: ... 2. Activity status: Non-complying <u>Restricted discretionary</u> ...
Oyster Management Limited	404.70	Commercial and mixed use Zones / City Centre Zone / CCZ-R18	Support	Supports notification status for rule CCZ-R18.2.a.	Retain notification status of CCZ-R18.2.a (Demolition or removal of buildings and structures) as notified.
Fabric Property Limited	425.60	Commercial and mixed use Zones / City Centre Zone / CCZ-R18	Oppose in part	Seeks amendments to CCZ-R18 to provide for demolition as a restricted discretionary activity where it does not comply with CCZ-R18.1. Supports the intention of the rule to enable demolition of this rule to provide for a new building, and supports the preclusion of public and limited notification, we have concerns that as notified it may constrain staged developments that require demolition and clearing of a larger site to enable development. A restricted discretionary activity status with preclusion of notification would provide greater certainty for development while ensuring that Council still retains appropriate discretion to ensure quality design outcomes.	Opposes the Non-complying activity status at CCZ-R18.2 (Demolition or removal of buildings and structures).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fabric Property Limited	425.61	Commercial and mixed use Zones / City Centre Zone / CCZ-R18	Amend	<p>Seeks amendments to CCZ-R18 to provide for demolition as a restricted discretionary activity where it does not comply with CCZ-R18.1.</p> <p>Supports the intention of the rule to enable demolition of this rule to provide for a new building, and supports the preclusion of public and limited notification, we have concerns that as notified it may constrain staged developments that require demolition and clearing of a larger site to enable development.</p> <p>A restricted discretionary activity status with preclusion of notification would provide greater certainty for development while ensuring that Council still retains appropriate discretion to ensure quality design outcomes.</p>	<p>Option 1: Amend CCZ-R18.2 (Demolition or removal of buildings and structures) to have a Restricted Discretionary activity status as follows:</p> <p>...</p> <p>2. Activity Status: Non-complying <u>Restricted Discretionary</u></p> <p>...</p>
Fabric Property Limited	425.62	Commercial and mixed use Zones / City Centre Zone / CCZ-R18	Amend	Alternatively, seeks for a discretionary activity status, which would be consistent with MCZ-R19 in the Metropolitan Centre Zone.	<p>Option 2: Amend CCZ-R18.2 (Demolition or removal of buildings and structures) to have a Discretionary activity status as follows:</p> <p>...</p> <p>2. Activity Status: Non-complying <u>Discretionary</u></p> <p>...</p>
Paul Burnaby	44.15	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Support in part	CCZ-R19.2 (Alterations and additions to buildings and structures) is partially supported because of the preclusion of public notification.	Retain the preclusion for public notification under CCZ-R19 (Alterations and additions to buildings and structures) as notified.
Paul Burnaby	44.16	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Oppose in part	CCZ-R19.2 (Alterations and additions to buildings and structures) is partially opposed because of the preclusion for limited notification.	<p>Amend CCZ-R19 (Alterations and additions to buildings and structures) as follows:</p> <p>...</p> <p>Notification status:</p> <p>An application for resource consent made in respect of rule CCZ-R19.2.a which results in non-compliance with CCZ-S5, CCZ-S9, CCZ-S10, CCZ-S11, CCZ-S12 and CCZ-S13 is precluded from being either publicly or limited notified.</p> <p>[Inferred decision requested]</p>
Precinct Properties New Zealand Limited	139.47	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Support in part	Supports the permitted activity status for activities that comply with the specified conditions.	Retain CCZ-R19.1 (Alterations and additions to buildings and structures) as notified.
Precinct Properties New Zealand Limited	139.48	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Support in part	Supports the preclusion of limited and public notification under CCZ-R19.2.	Retain notification clauses under CCZ-R19.2 (Alterations and additions to buildings and structures) as notified.
Precinct Properties New Zealand Limited	139.49	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Support in part	Seeks that the references to the design guides in the matters of discretion of CCZ-R19 are removed and replaced with references to the specific design outcomes that are sought. It is not appropriate to provide the Council discretion to consider all matters in the Design Guide. This does not give any clear direction or certainty for applicants, and would be onerous for the preparation and assessment of resource consent applications.	Amend CCZ-R19.2 (Alterations and additions to buildings and structures) so that the references to the design guides in the matters of discretion are removed and replaced with references to the specific design outcomes that are sought.
Wellington City Council	266.157	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Amend	Considers a notification status statement is missing in relation to developments where all standards are met.	<p>Amend CCZ-R19.2 (Alterations and additions to buildings and structures) as follows:</p> <p>Notification status:</p> <p><u>An application for resource consent made in respect of rule CCZ-R19.2.a which complies with all standards is precluded from being either publicly or limited notified. Amend CCZ-R19 (Alterations and additions to buildings and structures) as follows: ... Notification status: An application for resource consent made in respect of rule CCZ-R19.2 which complies with CCZ-S5, CCZ-S9, CCZ-S10, CCZ-S11, CCZ-S12 and CCZ-S13 is precluded from being either publicly or limited notified. An application for resource consent made in respect of rule CCZ-R19.2 which results from non-compliance with CCZ-S1, CCZ-S2, CCZ-S3, CCZ-S4, CCZ-S6, CCZ-S7 and CCZ-S8 is precluded from being publicly notified. <u>An application for resource consent for a retirement village made in respect of rule CCZ-R19.2 is precluded from being publicly notified.</u> <u>An application for resource consent for a retirement village made in respect of rule CCZ-R19.2 where compliance is achieved with CCZ-S1 - CCZ-S3 is precluded from being limited notified.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Argosy Property No. 1 Limited	383.115	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Amend	Supports that alterations and additions to buildings or structures are permitted, however the requirement that they do not alter the external appearance of a building or structure would likely make all alterations and additions non-compliant with the permitted activity rule. It is considered that the other standards are sufficient to control alterations and additions that can occur as a permitted activity. Argosy also supports alterations and additions to buildings or structures that do not comply with CCZ-R19.1 being a restricted discretionary activity. However, Argosy opposes Policy CCZ-P11 and the Centres and Mixed-Use Design Guide guideline G107 – City Outcomes Contribution being included in matters of discretion, as stated above. Supports applications for resource consent made in respect of CCZ-R19.2.a being precluded from limited or public notification because this is appropriate for alterations or additions to existing buildings within a city centre to achieve the intended development capacity.	Amend CCZ-R19 (Additions and alterations to buildings and structures): 1. Activity status: Permitted Where: a. Any alterations or additions to a building or structure that: i. Do not alter the external appearance of the building or structure; or 2. Activity status: Restricted Discretionary Where: a. Compliance with any of the requirements of CCZ-R19.1 cannot be achieved. Matters of discretion are: 1. The matters in CCZ-P4, CCZ-P5, CCZ-P6, CCZ-P7, CCZ-P8, CCZ-P9, CCZ-P10, CCZ-P11 and CCZ-P12; 2. The extent and effect of non-compliance with CCZ-S1, CCZ-S2, CCZ-S3, CCZ-S4, CCZ-S5, CCZ-S6, CCZ-S7, CCZ-S8, CCZ-S9, CCZ-S10, CCZ-S11, CCZ-S12 and CCZ-S13; 3. Construction impacts on the transport network; 4. The Centres and Mixed-Use Design Guide , including guideline G107 - City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 50 or more residential units or is a non-residential building; and 5. The Residential Design Guide.
The Retirement Villages Association of New Zealand Incorporated	FS126.11	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Support	The relief sought will enable intensification, consistent with the intent of the Enabling Housing Act.	Allow
Ryman Healthcare Limited	FS128.11	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Support	The relief sought will enable intensification, consistent with the intent of the Enabling Housing Act.	Allow
Kāinga Ora Homes and Communities	391.727	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Support in part	Supports this rule in part, and particularly the preclusion of public and limited notification. Seeks amendments to remove direct reference to the design guide and to instead articulate the urban design outcomes that are sought, and to remove reference to the “City Outcomes Contribution”. Considers it is unclear why the creation of new residential units needs control as residential activities are encouraged in the City Centre and other rules control the location of residential activities.	Retain CCZ-R19 (Alterations and additions to buildings and structures) and seeks amendments.

Kāinga Ora Homes and Communities	391.728	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Amend	Supports this rule in part, and particularly the preclusion of public and limited notification. Seeks amendments to remove direct reference to the design guide and to instead articulate the urban design outcomes that are sought, and to remove reference to the "City Outcomes Contribution". Considers it is unclear why the creation of new residential units needs control as residential activities are encouraged in the City Centre and other rules control the location of residential activities.	Amend CCZ-R19 (Alterations and additions to buildings and structures) as follows: Activity status: Permitted where: ... iii. Do not result in the creation of new residential units; and ... 2. Activity status: Restricted Discretionary ... Matters of discretion are: 1. The matters in CCZ-P4, CCZ-P5, CCZ-P6, CCZ-P7 , CCZ-P8 CCZ-P9, CCZ-P10, CCZ-P11 and CCZ-P12; 2. The extent and effect of non-compliance with CCZ-S1 , CCZ-S2, CCZ-S3, CCZ-S4, CCZ-S5, CCZ-S6, CCZ-S7, CCZ-S8, CCZ-S9, CCZ-S10, CCZ-S11, CCZ-S12 and CCZ-S13; 3. Construction impacts on the transport network; <u>4. The following urban design outcomes:</u> <u>a. Provides an effective public private interface;</u> <u>b. The scale, form, and appearance of the development is compatible with the planned urban built form of the neighbourhood;</u> <u>c. Provides high quality buildings;</u> 5. The Centres and Mixed-Use Design Guide, including guideline G107 – City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 50 or more residential units or is a non-residential building; and 6. The Residential Design Guide. ...
The Retirement Villages Association of New Zealand Incorporated	FS126.163	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Not specified	The RVA supports the intent of the relief sought, however, The RVA seeks for new rules to be included specifically for retirement villages in line with The RVA's primary submission.	Amend / Allow the submission point, subject to the relief sought within The RVA's primary submission regarding the changes sought for retirement villages under CCZ-R19 and CCZ-R20.
Ryman Healthcare Limited	FS128.163	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Not specified	Ryman supports the intent of the relief sought, however, Ryman seeks for new rules to be included specifically for retirement villages in line with Ryman's primary submission.	Amend / Allow the submission point, subject to the relief sought within Ryman's primary submission regarding the changes sought for retirement villages under CCZ-R19 and CCZ-R20.
Oyster Management Limited	404.71	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Support in part	Supports that additions and alterations are Permitted.	Retain CCZ-R19 (Alterations and additions to buildings and structures) with amendments.
Oyster Management Limited	404.72	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Amend	Supports that additions and alterations are Permitted. Does not support that the Permitted activity status requires there to be no alterations to external appearance of the building. The submitter considers that this requirement would likely make all alterations and additions non-compliant with the permitted activity rule. Considers that other standards are sufficient to control alterations as a Permitted activity.	Amend CCZ-R19.1.a (Alterations and additions to buildings and structures) to: 1. Activity status: Permitted Where: a. Any alterations or additions to a building or structure that: i. Do not alter the external appearance of the building or structure; or ii. Relate to a building frontage below verandah level, including entranceways and glazing and compliance with CCZ-S8 is achieved; or iii. Do not result in the creation of new residential units; and iv. Are not visible from public spaces; and v. Comply with standards CCZ-S1, CCZ-S2, CCZ-S3, CCZ-S4, CCZ-S5, CCZ-S6, CCZ-S7 and CCZ-S8.
Oyster Management Limited	404.73	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Amend	Supports that additions and alterations that are unable to comply with CCZ-R19.1 being a RD activity.	Retain CCZ-R19.2 (Alterations and additions to buildings and structures) as notified.

Willis Bond and Company Limited	416.168	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Amend	Submitter generally supports the intent of the Design Guides, but opposes their inclusion in the District Plan for the following reasons: - In many areas, the Design Guides overlap with the objectives and policies in Part 3. This will cause confusion for both planners and developers in attempting to interpret the Design Guides alongside Part 3. In particular, the submitter queries how the 'Outcomes' in the Design Guides are to be read alongside other provisions in the plan. - It will be simpler to update the Design Guides to reflect best practice if they remain non-statutory. - The way the Design Guides are included as relevant criteria for restricted discretionary activities significantly expands the Council's discretion beyond what could normally be expected, for example, the Residential Design Guide contains various provisions dealing with internal areas such as G114-116 (internal living spaces) and G130-131 (internal storage).	Amend CCZ-R19.2 (Alterations and additions to buildings and structures) as follows: ... Matters of discretion are: ... 4. The Centres and Mixed Use Design Guide, including guideline G107 – City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 50 or more residential units or is a non-residential building, and ...
Foodstuffs North Island	FS23.101	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Support	Submission point 416.168 supports FSNI submission point 476.1 & 476.102.	Allow

Fabric Property Limited	425.63	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Amend	<p>Opposed to the 'City Outcomes Contributions' provisions, and specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development. While Fabric recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list.</p> <p>The 'City Outcomes Contributions' have the potential to act as a disincentive for development, which conflicts with the Proposed Plan strategic objectives and NPS-UD requirements of providing development capacity and providing for urban intensification. This would not achieve the aim of "density done well" as stated in the Design Guide.</p> <p>Seeks that all references to the City Outcomes Contributions be removed from the Proposed Plan and design guides.</p>	<p>Amend CCZ-R19.2.4 (City Outcomes Contribution) as follows:</p> <p>...</p> <p>3. Construction impacts on the transport network; and</p> <p>4. The Centres and Mixed Use Design Guide, including guideline G107 – City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 50 or more residential units or is a non-residential building; and</p> <p>...</p>
Fabric Property Limited	425.64	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Support in part	Supports CCZ-R19 in part, and in particular supports the preclusion of limited and public notification, and the permitted activity status for activities that comply with the specified conditions.	Retain CCZ-R19.2 (Alterations and additions to buildings and structures), with amendments.
Fabric Property Limited	425.65	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Support in part	Supports CCZ-R19 in part, and in particular supports the preclusion of limited and public notification, and the permitted activity status for activities that comply with the specified conditions.	Retain CCZ-R19.1 (Alterations and additions to buildings and structures) as notified, with respect to the permitted activity status for activities that comply with the specified conditions.
Fabric Property Limited	425.66	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Oppose in part	The requirement that additions and alterations do not alter the external appearance of a building or structure would likely make all alterations and additions non-compliant with the permitted activity rule. It is considered that the other standards are sufficient to control alterations and additions that can occur as a permitted activity, and Fabric opposes rule CCZ-R19.1. a.i.	Opposes CCZ-19.1.a.i (Alterations and additions to buildings and structures) insofar as this would make all alterations and additions that alter the external appearance of the building non-compliant with the permitted activity rule.
Fabric Property Limited	425.67	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Oppose in part	Seeks that the references to the design guides and Policy CCZ-P11 in the matters of discretion of CCZ-R19 are removed and replaced with references to the specific design outcomes that are sought. It is not appropriate to provide that the Council's discretion to consider all matters in the design guides. This does not give any clear direction or certainty for applicants, and would be onerous for the preparation and assessment of resource consent applications.	Opposes CCZ-19.2.1 (Alterations and additions to buildings and structures) with respect to the CCZ-P11 (City outcomes contribution) as a matter of discretion, and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.25	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Not specified	The RVA supports the relief sought in this submission where it seeks to remove the design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, as they have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.25	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Not specified	Ryman supports the relief sought in this submission where it seeks to remove the design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, as they have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Fabric Property Limited	425.68	Commercial and mixed use Zones / City Centre Zone / CCZ-R19	Oppose in part	Seeks that the references to the design guides and Policy CCZ-P11 in the matters of discretion of CCZ-R19 are removed and replaced with references to the specific design outcomes that are sought. It is not appropriate to provide that the Council's discretion to consider all matters in the design guides. This does not give any clear direction or certainty for applicants, and would be onerous for the preparation and assessment of resource consent applications.	Opposes CCZ-19.2.4 (Alterations and additions to buildings and structures) with respect to the references to the design guides as a matter of discretion, and seeks amendment.

Wellington City Council	266.158	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Amend	Considers a notification status statement is missing in relation to developments where all standards are met.	Amend CCZ-R20.2 (Construction of buildings and structures) as follows: Notification status: <u>An application for resource consent made in respect of rule CCZ-R20.2.a which complies with all standards is precluded from being either publicly or limited notified. (...)</u>
The Retirement Villages Association of New Zealand Incorporated	FS126.246	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Not specified	The RVA supports the relief sought in this submission in so far as it is consistent with The RVA's primary submission.	Amend / Allow the submission point subject to the relief sought in The RVA's primary submission.
Ryman Healthcare Limited	FS128.246	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Not specified	Ryman supports the relief sought in this submission in so far as it is consistent with Ryman's primary submission.	Amend / Allow the submission point subject to the relief sought in Ryman's primary submission.
Fire and Emergency New Zealand	273.319	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Support	Supports the rule as the construction or, or additions and alterations to, buildings and structures within the CCZ is a permitted activity.	Retain CCZ-R20 (Construction of buildings and structures) as notified.
Restaurant Brands Limited	349.196	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Oppose	Opposed to the cross reference to the Centres and Mixed-Use Design Guide within the matters of discretion. The cross reference to the policies of the CCZ is sufficient to ensure that development achieves a "good quality, well-functioning environment" as required by CCZ-O3.	Amend CCZ-R20 (Construction of buildings and structures) as follows: ... Matters of discretion are: ... 4. The Centres and Mixed-Use Design Guide, including guideline G107 – City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 50 or more residential units or is a non-residential building; and 5-4. 6-5. 7-6. ...
Retirement Villages Association of New Zealand Incorporated	350.298	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Support in part	Supports CCZ-R20 and the permitting of the construction of buildings and structures when complying with the relevant built form standards; and the triggering of more restrictive activity statuses based on non-compliance with relevant built form standards. Considers that the construction of a retirement village should be a restricted discretionary activity, and that in addition to the matters of discretion of any infringed standard, the construction of retirement villages should have their own set of focused matters of discretion (so to provide for and acknowledge the differences that retirement villages have from other residential activities). Considers the matters of discretion applicable to retirement villages need to appropriately provide for / support the efficient use of larger sites for retirement villages, and the functional and operational needs of the retirement village.	Retain CCZ-R20 (Construction of buildings and structures) and seeks amendment.

Retirement Villages Association of New Zealand Incorporated	350.299	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Amend	Supports CCZ-R20 and the permitting of the construction of buildings and structures when complying with the relevant built form standards; and the triggering of more restrictive activity statuses based on non-compliance with relevant built form standards. Considers that the construction of a retirement village should be a restricted discretionary activity, and that in addition to the matters of discretion of any infringed standard, the construction of retirement villages should have their own set of focused matters of discretion (so to provide for and acknowledge the differences that retirement villages have from other residential activities). Considers the matters of discretion applicable to retirement villages need to appropriately provide for / support the efficient use of larger sites for retirement villages, and the functional and operational needs of the retirement village.	Amend CCZ-R20 (Construction of buildings and structures) as follows: 1. Activity status: Permitted ... 2. Activity status: Restricted discretionary ... 3. <u>Activity status: Restricted Discretionary</u> <u>Where:</u> a. <u>The application is for a retirement village.</u> <u>Matters of discretion are:</u> <u>1. The matters in CCZ-P1, CCZ-P2, CCZ-P3, CCZ-P5, CCZ-P6, CCZ-P7, CCZ-P8 CCZ-P9, CCZ-P10 and CCZ-P13;</u> <u>2. The extent and effect of any identifiable site constraints;</u> <u>3. The impacts of related construction activities on the transport network;</u> <u>4. The availability and connection to existing or planned three waters infrastructure;</u> <u>5. The effects of the retirement village on the safety of adjacent streets or public open spaces;</u> <u>6. The effects arising from the quality of the interface between the retirement village and adjacent streets or public open spaces;</u> <u>7. When assessing the matters in 1 -4, consider:</u> a. <u>The need to provide for efficient use of larger sites; and</u> b. <u>The functional and operational needs of the retirement village;</u> 8. <u>The positive effects of the construction, development and use of the retirement village.</u> <u>For clarity, no other rules or matters of discretion relating to the effects of density apply to buildings for a retirement village.</u>
Retirement Villages Association of New Zealand Incorporated	350.300	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Amend	Supports CCZ-R20 and the permitting of the construction of buildings and structures when complying with the relevant built form standards; and the triggering of more restrictive activity statuses based on non-compliance with relevant built form standards. Considers that the construction of a retirement village should be a restricted discretionary activity, and that in addition to the matters of discretion of any infringed standard, the construction of retirement villages should have their own set of focused matters of discretion (so to provide for and acknowledge the differences that retirement villages have from other residential activities). Considers the matters of discretion applicable to retirement villages need to appropriately provide for / support the efficient use of larger sites for retirement villages, and the functional and operational needs of the retirement village.	Amend CCZ-R20 (Construction of buildings and structures) as follows: ... <u>Notification:</u> <u>- An application for resource consent for a retirement village made in respect of rule CCZ-R20.3 is precluded from being publicly notified.</u> <u>- An application for resource consent for a retirement village made in respect of rule CCZ-R20.3 where compliance is achieved with CCZ-S1, CCZ-S2, CCZ-S3 is precluded from being limited notified.</u>
Woolworths New Zealand	359.87	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Amend	Considers that CCZ-R20.1 should be amended to establish a baseline for supermarket operations within the LCZ that is greater than the current threshold of 100m ² for new buildings on account of the general operational requirements of the stores. This proposed baseline of 450m ² is considered a commensurate response given the typical scale of supermarket buildings in this zone.	Amend CCZ-R20.1 (Construction of buildings and structures) as follows: Activity status: Permitted Where: a. It involves the construction of any new building or structure that: i. Will have a gross floor area of 100m ² or less; and ii. <u>Will have a gross floor area of less than 450m² where it accommodates a supermarket; and</u> iii. Will result in a building coverage of no more than 20 percent; b. Compliance with CCZ-S1, CCZ-S2, CCZ-S3, CCZ-S4, CCZ-S5, CCZ-S6, CCZ-S7, CCZ-S8, CCZ-S9, CCZ-S10, CCZ-S11, CCZ-S12 and CCZ-S13 is achieved.

Foodstuffs North Island	FS23.24	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Support	Submission point 359.89 CCZ-R20 has similar outcome to FSNI submission point 476.57.	Allow / Allow submission if submission point 476.57 is rejected.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Argosy Property No. 1 Limited	383.116	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Amend	Supports construction of buildings being a permitted activity where it complies with Rule CCZ-R20.1 or a restricted discretionary activity where it complies with Rule CCZ-R20.2 except as stated below. Argosy opposes Policy CCZ-P11 and the Centres and Mixed-Use Design Guide guideline G107 – City Outcomes Contribution being included in matters of discretion, as stated above. Argosy also opposes “the extent and effect of any identifiable site constraints” being included as a matter of discretion. This is unclear and could have the effect of giving the consent authority unrestricted discretion, and should be deleted. Alternatively, it should be amended to identify the types of constraints which may be relevant. For example, similar language could be used to the assessment criteria for some restricted discretionary activities in the City Centre zone of the Auckland Unitary Plan which include “whether there are particular site development characteristics in terms of unusual site size, shape or orientation, or the location and nature of existing buildings which have constrained the form of the development proposed” (H8.8.2). Argosy also opposes buildings below the minimum building height of 22m being a discretionary activity, and seeks for this to be a restricted discretionary activity. This would enable flexibility where there are practical constraints on buildings being constructed which are below 22m, while enabling the Council to retain its discretion in relation to matters which relate to maximising the benefits of intensification.	Amend CCZ-R20 (Construction of buildings and structures): 2. Activity status: Restricted Discretionary Where: a. Compliance with any of the requirements of CCZ-R20.1, excluding CCZ-S4, cannot be achieved. Matters of discretion are: 1. The matters in CCZ-P4, CCZ-P5, CCZ-P6, CCZ-P7, CCZ-P8, CCZ-P9, CCZ-P10, CCZ-P11 and CCZ-P12; 2. The extent and effect of non-compliance with CCZ-S1, CCZ-S2, CCZ-S3, CCZ-S5, CCZ-S6, CCZ-S7, CCZ-S8, CCZ-S9, CCZ-S10, CCZ-S11, CCZ-S12 and CCZ-S13; 3. The Centres and Mixed-Use Design Guide, including guideline G107 - City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 50 or more residential units or is a non-residential building;
The Retirement Villages Association of New Zealand Incorporated	FS126.12	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Support	The relief sought will enable intensification, consistent with the intent of the Enabling Housing Act.	Allow
Ryman Healthcare Limited	FS128.12	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Support	The relief sought will enable intensification, consistent with the intent of the Enabling Housing Act.	Allow
Kāinga Ora Homes and Communities	391.729	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Support in part	Supports this rule in part, and particularly the preclusion of public and limited notification. Seeks amendments to remove direct reference to the design guide and to instead articulate the urban design outcomes that are sought, and to remove reference to the “City Outcomes Contribution”	Retain CCZ-R20 (Construction of buildings and structures) and seeks amendments.
Kāinga Ora Homes and Communities	391.730	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Amend	Supports this rule in part, and particularly the preclusion of public and limited notification. Seeks amendments to remove direct reference to the design guide and to instead articulate the urban design outcomes that are sought, and to remove reference to the “City Outcomes Contribution”	Amend CCZ-R20 (Construction of buildings and structures) as follows: 1. Fabric Property Limited	425.72	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Amend	<p>Opposed to the ‘City Outcomes Contributions’ provisions, and specifically is opposed to requiring ‘City Outcomes Contributions’ for ‘over height’ development. While Fabric recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list.</p> <p>The ‘City Outcomes Contributions’ have the potential to act as a disincentive for development, which conflicts with the Proposed Plan strategic objectives and NPS-UD requirements of providing development capacity and providing for urban intensification. This would not achieve the aim of “density done well” as stated in the Design Guide.</p> <p>Seeks that all references to the City Outcomes Contributions be removed from the Proposed Plan and design guides.</p>	<p>Amend CCZ-R20.2.3 (City Outcomes Contribution) as follows:</p> <p>...</p> <p>3. The Centres and Mixed Use Design Guide, including guideline G107 – City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 50 or more residential units or is a non-residential building.</p> <p>...</p>
Fabric Property Limited	425.73	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Support in part	Supports CCZ-R20 in part, and in particular supports the preclusion of limited and public notification, and the permitted activity status for activities that comply with the specified conditions.	Retain CCZ-R20 (Construction of buildings and structures), with amendments.
Fabric Property Limited	425.74	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Oppose in part	Seeks that the references to the design guides and Policy CCZ-P11 in the matters of discretion of CCZ-R20 are removed and replaced with references to the specific design outcomes that are sought. It is not appropriate to provide that the Council’s discretion to consider all matters in the design guides. This does not give any clear direction or certainty for applicants, and would be onerous for the preparation and assessment of resource consent applications.	Opposes CCZ-20.2.1 (Construction of buildings and structures) with respect to the CCZ-P11 (City outcomes contribution) as a matter of discretion, and seeks amendment.
Fabric Property Limited	425.75	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Oppose in part	Seeks that the references to the design guides and Policy CCZ-P11 in the matters of discretion of CCZ-R20 are removed and replaced with references to the specific design outcomes that are sought. It is not appropriate to provide that the Council’s discretion to consider all matters in the design guides. This does not give any clear direction or certainty for applicants, and would be onerous for the preparation and assessment of resource consent applications.	Opposes CCZ-20.2.3 (Construction of buildings and structures) with respect to the references to the design guides as a matter of discretion, and seeks amendment.
Fabric Property Limited	425.76	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Oppose in part	Seeks that the references to the design guides and Policy CCZ-P11 in the matters of discretion of CCZ-R20 are removed and replaced with references to the specific design outcomes that are sought. It is not appropriate to provide that the Council’s discretion to consider all matters in the design guides. This does not give any clear direction or certainty for applicants, and would be onerous for the preparation and assessment of resource consent applications.	Opposes CCZ-20.2.4 (Construction of buildings and structures) with respect to the references to the design guides as a matter of discretion, and seeks amendment.
Fabric Property Limited	425.77	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Oppose in part	Seeks clarification on “the extent and effect of any identifiable site constraints” in the matters of discretion. This is unclear and could have the effect of giving the consent authority unrestricted discretion, and should be deleted. Alternatively, it should be amended to identify the types of constraints which may be relevant.	Opposes CCZ-R20.2.5 (Construction of buildings and structures) with respect to ‘the extent and effect of any site constraints’.
Fabric Property Limited	425.78	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Amend	Seeks clarification on “the extent and effect of any identifiable site constraints” in the matters of discretion. This is unclear and could have the effect of giving the consent authority unrestricted discretion, and should be deleted. Alternatively, it should be amended to identify the types of constraints which may be relevant.	<p>Clarify CCZ-R20.2.5 (Construction of buildings and structures) is amended to identify the types of constraints which may be relevant.</p> <p>[As an alternative to deleting this matter of discretion]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fabric Property Limited	425.79	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Amend	Seeks that the references to the design guides and Policy CCZ-P11 in the matters of discretion of CCZ-R20 are removed and replaced with references to the specific design outcomes that are sought. It is not appropriate to provide that the Council's discretion to consider all matters in the design guides. This does not give any clear direction or certainty for applicants, and would be onerous for the preparation and assessment of resource consent applications.	Amend CCZ-20.2 (Construction of buildings and structures) as follows: ... Matters of discretion are: 1. The matters in CCZ-P4, CCZ-P5, CCZ-P6, CCZ-P7, CCZ-P8, CCZ-P9, CCZ-P10, CCZ-P11 and CCZ-P12; 2. The extent and effect of non-compliance with CCZ-S1, CCZ-S2, CCZ-S3, CCZ-S5, CCZ-S6, CCZ-S7, CCZ-S8, CCZ-S9, CCZ-S10, CCZ-S11, CCZ-S12 and CCZ-S13; 3. The Centres and Mixed-Use Design Guide, including guideline G107 – City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 50 or more residential units or is a non-residential building; 4. The Residential Design Guide; 5. The extent and effect of any identifiable site constraints; 3.6. The impacts of related construction activities on the transport network; and 4.7. The availability and connection to existing or planned three waters infrastructure.
Fabric Property Limited	425.80	Commercial and mixed use Zones / City Centre Zone / CCZ-R20	Support in part	Supports CCZ-R20 in part, and in particular supports the preclusion of limited and public notification, and the permitted activity status for activities that comply with the specified conditions.	Retain notification clauses under CCZ-R20.2 (Construction of buildings and structures) as notified.
Fire and Emergency New Zealand	273.320	Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Support in part	Supports the rule as the matters of discretion for these restricted discretionary activities include consideration of the availability and connection to existing or planned three waters infrastructure, particularly where this may involve the conversion of non-habitable rooms to residential use. A minor amendment is however sought to include the necessity to connect to three waters infrastructure including for the purposes of firefighting.	Supports CCZ-R21 (Conversion of buildings or parts of buildings for residential activities), with amendment.
Fire and Emergency New Zealand	273.321	Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Amend	Supports the rule as the matters of discretion for these restricted discretionary activities include consideration of the availability and connection to existing or planned three waters infrastructure, particularly where this may involve the conversion of non-habitable rooms to residential use. A minor amendment is however sought to include the necessity to connect to three waters infrastructure including for the purposes of firefighting.	Amend CCZ-R21 (Conversion of buildings or parts of buildings for residential activities) as follows: Matters of discretion are: ... 3. The relevant guidance contained within the Residential Design Guide; and 4. The availability and connection to existing or planned three waters infrastructure; and <u>5. The availability and connection to existing or planned three waters infrastructure, including for firefighting purposes.</u>
The Retirement Villages Association of New Zealand Incorporated	FS126.280	Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Oppose	The RVA opposes the relief sought in this submission as matters relating to fire-fighting servicing are already provided for under the Building Act and it is inappropriate to duplicate controls under the Proposed Plan.	Disallow
Ryman Healthcare Limited	FS128.280	Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Not specified	Ryman opposes the relief sought in this submission as matters relating to fire-fighting servicing are already provided for under the Building Act and it is inappropriate to duplicate controls under the Proposed Plan.	Disallow
Argosy Property No. 1 Limited	383.117	Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Support	Supports the conversion of buildings, or parts of buildings, for residential activities being a restricted discretionary activity as this may be appropriate as part of a well-functioning urban environment.	Retain CCZ-R21 (Conversion of buildings or parts of buildings for residential activities) as notified.
Kāinga Ora Homes and Communities	391.731	Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Support in part	Supports this rule in part, and particularly supports the preclusion public and limited notification. Seeks amendments to remove direct reference to the design guide and to instead articulate the urban design outcomes that are sought.	Retain CCZ-R21 (Conversion of buildings, or parts of buildings, for residential activities) and seeks amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.732	Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Amend	Supports this rule in part, and particularly supports the preclusion public and limited notification. Seeks amendments to remove direct reference to the design guide and to instead articulate the urban design outcomes that are sought.	Amend CCZ-R21 (Conversion of buildings, or parts of buildings, for residential activities) as follows: 1. Activity status: Restricted Discretionary Matters of discretion are: 1. The matters in CCZ-P1, CCZ-P4 and CCZ-P10; 2. The extent of compliance with standards CCZ-S9, CCZ-S10 and CCZ-S13 and satisfaction of associated assessment criteria; 3. The relevant guidance contained within the Residential Design Guide; <u>The following centres urban design outcomes:</u> <u>a. Provides an effective public private interface;</u> <u>b. The scale, form, and appearance of the development is compatible with the planned urban built form of the neighbourhood;</u> <u>c. Provides high quality buildings; and</u> 4. The availability and connection to existing or planned three waters infrastructure....
Oyster Management Limited	404.77	Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Amend	Considers that the RD activity status of converting buildings or parts of buildings is likely to prevent conversions occurring. Considers there should be a tiered activity status approach subject to standards, appropriate matters of control, or discretion.	Amend Rule CCZ-R21 (Conversion of buildings, or parts of buildings, for residential activities) to provide for conversion of office to residential as either a permitted, controlled or restricted discretionary activity subject to compliance with appropriate standards (permitted), or appropriate matters of control and discretion (controlled and restricted discretionary).
Oyster Management Limited	404.78	Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Support	Supports that building conversions will not be limited or publicly notified.	Retain notification status of CCZ-R21 (Conversion of buildings, or parts of buildings, for residential activities) for all activity statuses.
Investore Property Limited	405.136	Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Support in part	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Retain CCZ-R21.1 (Conversion of buildings, or parts of buildings, for residential activities) and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.107	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.107	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Investore Property Limited	405.137	Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Amend	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Amend CCZ-R21.1 (Conversion of buildings, or parts of buildings, for residential activities) to remove the Design Guide as a matter of discretion and replace with specific design outcomes that are sought.
The Retirement Villages Association of New Zealand Incorporated	FS126.108	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.

Ryman Healthcare Limited	FS128.279	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-R21	Not specified	Ryman supports the deletion of Design Guides along with removal of the reference to “City Outcome Contributions” and preclusions for public and limited notification which is consistent with Ryman's primary submission.	Amend / Allow the submission points regarding deletions and notification preclusions, subject to the relief sought by Ryman.
Fire and Emergency New Zealand	273.322	Commercial and mixed use Zones / City Centre Zone / CCZ-R22	Support in part	Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Supports CCZ-R22 (Outdoor storage areas), with amendment.
Fire and Emergency New Zealand	273.323	Commercial and mixed use Zones / City Centre Zone / CCZ-R22	Amend	Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Amend CCZ-R22 (Outdoor storage areas) as follows: Activity status: Permitted Where: a. The storage area is screened by either a fence or landscaping of 1.8m in height from any adjoining road or site. b. Screening does not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves, or other emergency response facilities.
Willis Bond and Company Limited	416.172	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-R1	Amend	Submitter considers that the activities that are permitted overlook Educational Facilities. Submitter considers that generally, the activities considered in this section are very narrow – for example, childcare activities are not permitted, which is a current activity within Te Ngakau Civic Square Precinct.	Seeks that CCZ-PREC01 Permitted Activity rules are expanded to consider more activities. [Inferred decision requested].
Willis Bond and Company Limited	416.173	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-R2	Amend	Submitter considers that the activities that are permitted overlook Educational Facilities. Submitter considers that generally, the activities considered in this section are very narrow – for example, childcare activities are not permitted, which is a current activity within Te Ngakau Civic Square Precinct.	Seeks that CCZ-PREC01 Permitted Activity rules are expanded to consider more activities. [Inferred decision requested].
Willis Bond and Company Limited	416.174	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-R3	Amend	Submitter considers that the activities that are permitted overlook Educational Facilities. Submitter considers that generally, the activities considered in this section are very narrow – for example, childcare activities are not permitted, which is a current activity within Te Ngakau Civic Square Precinct.	Seeks that CCZ-PREC01 Permitted Activity rules are expanded to consider more activities. [Inferred decision requested].

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.175	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-R4	Amend	Submitter considers that the activities that are permitted overlook Educational Facilities. Submitter considers that generally, the activities considered in this section are very narrow – for example, childcare activities are not permitted, which is a current activity within Te Ngakau Civic Square Precinct.	Seeks that CCZ-PREC01 Permitted Activity rules are expanded to consider more activities. [Inferred decision requested].
Willis Bond and Company Limited	416.176	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-R5	Amend	Submitter considers that the activities that are permitted overlook Educational Facilities. Submitter considers that generally, the activities considered in this section are very narrow – for example, childcare activities are not permitted, which is a current activity within Te Ngakau Civic Square Precinct.	Seeks that CCZ-PREC01 Permitted Activity rules are expanded to consider more activities. [Inferred decision requested].
Willis Bond and Company Limited	416.177	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-R6	Amend	Submitter considers that the activities that are permitted overlook Educational Facilities. Submitter considers that generally, the activities considered in this section are very narrow – for example, childcare activities are not permitted, which is a current activity within Te Ngakau Civic Square Precinct.	Seeks that CCZ-PREC01 Permitted Activity rules are expanded to consider more activities. [Inferred decision requested].
Parliamentary Service	375.17	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-R7	Amend	There are two separate CCZ-PREC01-R7 in the CCZ chapter.	Amend the City Centre Zone chapter to remove the double CCZ-PREC01-R7 provision. [Inferred decision requested]
Argosy Property No. 1 Limited	383.118	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-R7	Amend	This is because: - This provision elevates what is normally a design guide into a rule. A design guide should be separate to a plan. The Design Guide should be an external document to the District Plan and be referenced as a guide only. - Further, this provision, provides a mechanism for the Council to require these aspects as part of a development. This is inappropriate. A development should be assessed on its merits.	Amend CCZ-PREC01-R7 (Construction of buildings and structures, additions and alterations to buildings and structures): Matters of discretion are: ... 2. The Centres and Mixed Use Design Guide;
Wellington Civic Trust	FS83.32	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZPREC01-R7	Oppose	The design guides include important matters. It is entirely appropriate to reference them in a rule for a restricted discretionary activity.	Disallow
Willis Bond and Company Limited	416.178	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-R7	Amend	Submitter considers that the activities that are permitted overlook Educational Facilities. Submitter considers that generally, the activities considered in this section are very narrow – for example, childcare activities are not permitted, which is a current activity within Te Ngakau Civic Square Precinct.	Seeks that at minimum, amend CCZ-PREC01-R7 (All other land use activities) by re-numbering the CCZ-PREC01-R7 as CCZ-PREC01-R8.
Willis Bond and Company Limited	416.179	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-R7	Amend	Submitter notes this rule number is incorrect. Based on current drafting it should be number CCZ-PREC01-R8.	Amend CCZ-PREC01-R7 (Construction of buildings and structures, additions and alterations to buildings and structures) rule numbering to CCZ-PREC01-R8.
Wellington Civic Trust	FS83.27	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZPREC01-R7	Support	The submission identifies a minor error in the Plan's numbering and seeks that it is corrected to avoid confusion.	Allow
Willis Bond and Company Limited	416.180	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-R7	Amend	Submitter notes that the notification status for CCZ-PREC01-R7 requires any application for resource consent to be publicly notified. Submitter considers that this will unnecessarily fetter development in the Te Ngakau Civic Square Precinct and also add cost and delay to even minor alterations or additions to structures within the precinct. Submitter considers that Council has not provided sufficient justification for mandatory notification.	Amend CCZ-PREC01-R7 (Construction of buildings and structures, additions and alterations to buildings and structures) as follows: Notification status: An application for resource consent made in respect of rule CCZ-PREC01-R7.1 must be publicly notified. An application for resource consent made in respect of rule CCZ-PREC01-R7.1 which complies with CCZ-S1, CCZ-S3 and CCZ-S5 to CCZ-S13 is precluded from being either limited or publicly notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington Civic Trust	FS83.28	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZPREC01-R7	Support	This area is one of Wellington's most important public spaces (the other being the nearby Waterfront). The public have a very high level of interest in this area. New buildings and additions and alterations (as defined in the Plan) all have the potential to affect the character and quality of the public space they help create. They should thus all be subject to mandatory public notification.	Disallow
Andrew Haddleton	23.3	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	Opposes the height of 28.5m along Kent Terrace as this will block views and sunlight.	Reject the increased building height provided for at CCZ-S1.
Andrew Haddleton	23.4	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Considers that the allowable height of buildings along Kent Terrace specifically those up to 28.5m will block views and sunlight.	Seeks that the allowable building height on the Courtenay Place end of Kent Terrace be 18m.
Paul Burnaby	44.17	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Considers that 110 Wakefield St (West Plaza Hotel) should have a maximum height of 73m to match the maximum height of the immediately adjoining building at 103 Wakefield St.	Amend height control at 110 Wakefield St (West Plaza Hotel) to 73m.
Wellington's Character Charitable Trust	FS82.153	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	Considers the amendment requested significantly exceeds the notified height control in the proposed district plan (42m) and is not justified on the basis that the site "adjoins" a different site that is across the road. Considers a 73m building at 101 Wakefield Street would create unreasonable shading effects near Civic Square including in the parklet in Lombard Street.	Disallow
Juliet Cooke	68.3	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	<p>Considers that CCZ standards will lead to inappropriate, out of scale development with a direct impact on residential properties that have recognised heritage and character values and are therefore contrary to the objectives and policies of the plan.</p> <p>Heritage and character are qualifying matters under MRZ Pt1 Sch 1.</p> <p>Considers that height limits in Height Control Area 9 would allow inappropriate scale of development adjacent to land which is zoned for residential purposes or has character or heritage overlay.</p> <p>Considers that Moir Street will have adverse effects due to the potential for development in neighbouring CCZ zoning.</p> <p>Moir street is a key and coherent character and heritage area.</p> <p>Moir street is unique with the amount of overlapping relevant overlays.</p> <p>[See submission for further detail]</p>	<p>Amend CCZ-S1.1 (Maximum Height) to add k as follows:</p> <p>1. The following maximum...</p> <p><u>k. Height Control Area 11 - Eastern side of Hania St 15m</u></p> <p>[Refer to original submission for map of area]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Tracey Paterson	74.3	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	<p>Opposes CCZ-S1 as currently drafted.</p> <p>CCZ-S1 will result in significant adverse effects on Moir Street properties which cannot be mitigated through design.</p> <p>Moir Street is unique due to its classification as MRZ, Character Precinct, Heritage Area and adjacency to CCZ. As currently drafted, the standards of the proposed plan will allow buildings of up to 28.5m high to tower over 1-2 story heritage cottages on Moir St. The proposed 60 degree recession plane from 8m will provide negligible mitigation.</p> <p>The Standards of the CCZ proposed Plan will lead to significant adverse effects by allowing inappropriate, out of scale development with a direct impact on residential properties that have recognised heritage and character values on Moir Street.</p> <p>The standards will result in outcomes that are contrary to the objectives and policies of the PDP (CCZ)</p>	<p>Reject CCZ-S1 (Maximum height) -</p> <p>i. Height Area 9 - South-East, South-West Zone Edge</p>
Tracey Paterson	74.4	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	<p>Amend CCZ-S1 to add a Height Control Area of 15m for Hania Street.</p> <p>The current provision would allow inappropriate scale of development adjacent to land which is zoned for residential purposes or has a character or heritage overlay.</p>	<p>Amend CCZ-S1 (Maximum height) as follows:</p> <p>...</p> <p><u>k. Height Control Area 11 - Hania Street - 15m</u></p>
Conor Hill	76.24	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	<p>Opposes height limits in the CCZ as these set limits on achieving as much development as possible.</p> <p>Considers that developers and geotechnical experts should determine what these are.</p>	Delete CCZ-S1 (Maximum Height) in its entirety.
Nico Maiden	77.4	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	<p>Height limits are arbitrary and unnecessary because new builds require resource consents.</p> <p>Removal of height limits will enable more compact housing in the city centre.</p> <p>Removal of height limits will help comply with NPS-UD.</p>	Delete CCZ-S1 (Maximum height) in its entirety.
Te Herenga Waka Victoria University of Wellington	106.10	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Support in part	<p>The University seeks an exception to the Height Control Area 1 limit to reflect the existing scale of buildings on the Rutherford House site (23 Lambton Quay).</p>	<p>Amend standard CCZ-S1 (Maximum height) as follows:</p> <p>Location</p> <p>a. Height Control Area 1 – Thorndon Quay (<u>except Rutherford House site (23 Lambton Quay)</u>)</p> <p>Limit</p> <p><u>35.4m (Rutherford House site (23 Lambton Quay) - 56m)</u></p>
Darko Petrovic	124.1	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	<p>Considers that height limits in all sections of the Central CBD area that do not interfere with viewshafts should be removed.</p> <p>Imposing height limits on central area building developments will reduce the intensification potential of the plan and limit the development potential at a time when diverse housing supply in the central area is needed. If removing height limits is not a possibility, a compromise solution would be to have the height limits increased substantially.</p>	Seeks that height limits in all sections of the Central CBD area that do not interfere with viewshafts be removed.
Darko Petrovic	124.2	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	<p>Height Control Area 5 (CBD East) is too restrictive and should be removed.</p> <p>Imposing height limits on central area building developments will reduce the intensification potential of the plan and limit the development potential at a time when diverse housing supply in the central area is needed. If removing height limits is not a possibility, a compromise solution would be to have the height limits increased substantially.</p>	Amend CCZ-S1 (Maximum Height) to remove Height Control Area 5 (CBD East).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Darko Petrovic	124.3	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Height Control Area 6 (CBD West) is too restrictive and should be removed. Imposing height limits on central area building developments will reduce the intensification potential of the plan and limit the development potential at a time when diverse housing supply in the central area is needed. If removing height limits is not a possibility, a compromise solution would be to have the height limits increased substantially.	Amend CCZ-S1 (Maximum Height) to remove Height Control Area 6 (CBD West).
Precinct Properties New Zealand Limited	139.52	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Precinct seeks amendments to CCZ-S1 to provide unlimited building heights in the City Centre zone. Policy 3 of the NPS-UD requires district plans of Tier 1 urban environments such as Wellington to enable “building heights and density of urban form to realise as much development capacity as possible, to maximise benefits of intensification” in city centre zones. For the City Centre zone this should mean unlimited building heights. Unlimited building heights in the City Centre area are appropriate given the emphasis in the Wellington Spatial Plan and Proposed District Plan on the City Centre for accommodating future growth, recognising the height of existing buildings in these areas, and taking into account the absence of any directly adjoining residential areas that could potentially be adversely affected. This would also be consistent with CCZ-P5 which recognises the benefits of enabling greater height and scale of development in the City Centre. According to CCZ-O1 the Wellington City Centre is intended to be the primary commercial centre for the wider Wellington region. Yet the intensification planning instruments notified in Hutt City and Upper Hutt City provide for a greater scale of development than Wellington City with unlimited heights in their centres. Unlimited building heights in the Wellington City Centre would be consistent with its role as the primary commercial centre for the region. The heights provided under CCZ-S1 are particularly constraining for Precinct’s sites in Thorndon including 20 Aitken Street and the Bowen Campus where a Maximum height of 27m applies. This is despite the fact that some of the existing buildings in this area are over 60m high. If the request to provide unlimited heights is not granted for these areas, Precinct requests that CCZ-S1 is amended to provide for building heights at least as great as that of the existing buildings.	Seeks amendments to CCZ-S1 (Maximum height) to provide unlimited building heights in the City Centre zone.
Wellington’s Character Charitable Trust	FS82.131	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	Considers the submission is more enabling than justified. Considers the calibration of heights in accordance with the notified height control areas is more appropriate for a medium-sized coastal/harbour city that is susceptible to earthquakes and other natural hazards	Disallow
Precinct Properties New Zealand Limited	139.53	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	If the request for unlimited building heights is not granted, Precinct requests that CCZ-S1 is amended to provide for building heights at least as great as that of the existing buildings.	Seeks that if CCZ-S1 (Maximum height) is not amended to provide for unlimited building heights, this standard be amended to provide for building heights at least as great as that of the existing buildings.
James and Karen Fairhall	160.6	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Considers that Height Control Area 9, in particular the interface between the Eastern side of Hania Street and the Western side of Moir Street, conflicts with the qualifying matters relating to CCZ-S1. Moir Street has quaint one to two storey little cottages built in the late 1980s which are all part of a Heritage and Special Character Area. Relating to the first qualifying matter: 28.5m buildings will absolutely destroy the streetscape of Moir Street which has been enjoyed and celebrated for years. Relating to the second qualifying matter: 28.5m buildings will completely remove any sense of privacy and dominate the little cottages of Moir Street (not to mention the affect on loss of sunlight and the corresponding affect on the health of the homes and residents). Relating to the third qualifying matter: Accept new houses need to be developed, however the scale needs to be done right. [Refer to original submission for full reasons].	Seeks that a new height control area be added to CCZ-S1 (Maximum height) as follows: <u>k. Height Control Area 11 - Eastern side of Hania Street 15m.</u> [refer to submission for illustration of area covered by proposed height control area 11]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Century Group Limited	238.21	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	<p>Considers that the lack of an unlimited height control, or at the least an increase in the height limits throughout the City Centre Zone, is inconsistent with Policy 3(a) of the National Policy Statement on Urban Development 2020 which requires the district plans of Tier 1 territorial authorities to enable specified outcomes, including “in city centre zones, building heights and density of urban form to realise as much development capacity as possible, to maximise benefits of intensification” (Policy 3(a)). The Council’s s32 Assessment does not adequately recognise this or respond to this requirement, and fails to recognise that economic conditions which constrain or enable high density/scale development will fluctuate within the lifespan of a district plan. Considers the section 32 analysis has not considered an option of unlimited building heights together with the application of other design controls and criteria.</p> <p>Considers that the Property (83-87 Waterloo Quay) is not subject to any protected views, or any other specific constraints that would otherwise justify the use of a 50m height limit (noting the Airport Designation WIAL1 is some 100m above the level of the Property), particularly in the absence of an identified ‘qualifying matter’. The 50m Maximum Height standard, as it applies to the Property (83-87 Waterloo Quay) and the adjoining land, is inadequate with regards to the requirements of the National Policy Statement on Urban Development 2020. Considers that other standards and designations are proposed to manage other outcomes that relate to the height of development.</p>	<p>Amend CC-S1 (Maximum height) as follows:</p> <p>Location</p> <p>1.b. Height Control Area 2 - Waterloo Quay Section</p> <p>Limit</p> <p>50m <u>Unlimited</u></p>
Stratum Management Limited	249.33	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	<p>Imposition of height limits does not give effect to Policy 3(a) of the National Policy Statement on Urban Development. The policy requires, in city centre zones, district plans to enable “building heights and urban form to realise as much development capacity as possible, to maximise benefits of intensification.” The imposition of maximum building heights does not achieve this intent.</p>	Remove standard CCZ-S1 (Maximum height).
Generation Zero Inc	254.17	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	<p>Considers that a maximum height control in the City Centre Zone is inappropriate for the following reasons:</p> <ul style="list-style-type: none"> - inconsistent with the policy direction of the NPS-UD - out of step with other local authorities. - focusses on preserving existing amenity -insufficient analysis and justification undertaken. <p>[Refer to original submission for full reason]</p>	Delete provision CCZ-S1 (Maximum height) so that there are no maximum height limits in the City Centre Zone.
Wheeler Grace Trust	261.3	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	<p>Considers that the proposed Height Controls in Selwyn Terrace are inappropriate.</p> <p>6 Storey buildings would significantly detract from the residential amenity of Selwyn Terrace.</p> <p>[Refer to original submission for full reason]</p>	Amend CCZ-S1 (Maximum height) so that Selwyn terrace, Thorndon does not have a 27m maximum building height.
170 Wakefield Limited	267.1	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	<p>Considers it appropriate to increase the Height Control Area over 170 Wakefield St in order for the District Plan to be consistent with the NPS-UD, with respecting the WIAL1 designation. [Refer to original submission for full reason].</p>	Seeks to amend CCZ-S1 (Maximum height), Height Control Area 7 from 43.8m to 60m.
Wellington’s Character Charitable Trust	FS82.154	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	<p>Considers the amendment requested significantly exceeds the notified height control in the proposed district plan (42m) and is not justified.</p>	Disallow
Fire and Emergency New Zealand	273.324	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Support	<p>Supports the standard as the maximum height for any building is between 25m-93m</p>	Retain CCZ-S1 (Maximum height) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Eldin Family Trust	287.7	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	<p>Considers that regardless of the zoning applied to Selwyn Terrace a minimum building height of 22m or a maximum if either 21m or 27m would be inappropriate.</p> <p>Considers that these building heights are inconsistent with the Viewshafts VS1 (The Beehive) and VS4 (The Beehive and The Cenotaph – Whitmore Street) which would clash with the viewshaft.</p> <p>Considers that tall buildings in Selwyn Terrace would detract from the residential amenity, special character and heritage of Selwyn Terrace and increase pressure on access, parking and turning.</p> <p>Considers that developers would face difficulty in complying with the minimum height requirements due to covenants on titles.</p> <p>[Refer to original submission for full reason]</p>	Opposes CCZ-S1 (Maximum height) with respect to Selwyn Terrace (and the nearby areas of Hill Street and Guildford Terrace) being subject to the 27m maximum height control (Height control area 3).
Wellington Branch NZIA	301.11	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose in part	<p>Height Control Area 8 in the CCZ (City Centre Zone) is opposed due to the new CCZ limit of 42m everywhere as a minimum height is expandable by up to 50% extra in height. This leaves all existing home owners in buildings 6-9 storeys tall now facing the prospect of being surrounded by towers 14-20 storeys tall. These developments will also have negative effects on property values and cast shadows for entire blocks southward.</p> <p>Te Aro's soils are also not good ground to build tall buildings on.</p> <p>[Refer to original submission for full reason]</p>	Opposes CCZ-S1 (Maximum heights) Heigh Control Area 8 - Te Aro. [Inferred decision requested]
Wellington's Character Charitable Trust	FS82.163	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Support	[No specific reason given beyond decision requested - refer to further submission]	Allow
Wellington Branch NZIA	301.12	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose in part	<p>Considers that the new CCZ (City Centre Zone) limits of 42m everywhere as a minimum height in CCZ, and expandable by up to 50% extra in height, leaves all existing home owners in buildings 6-9 storeys tall now facing the prospect of being surrounded by towers 14-20 storeys tall. These developments will also have negative effects on property values and cast shadows for entire blocks southward.</p> <p>[Refer to original submission for full reason]</p>	Not specified.
Paihikara Ki Pōneke Cycle Wellington	302.48	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	Supports the PDP subject to amendments to ensure that the intensification outcomes required by the Resource Management Act 1991, as amended by the RM (Enabling Housing Supply and Other Matters) Act 2021 and the NPS-UD 2020 are enabled.	Seeks that all height limits at CCZ-S1 (Maximum heights) are removed.
James Coyle	307.23	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain CCZ-S1 (Maximum height) as notified.
Moir Street Collective - Dougal List, Libby List, Karen Young, Jeremy Young, James Fairhall, Karen Fairhall, Craig Forrester, Sharlene Gray	312.6	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose in part	<p>Considers that CCZ-S1, in particular Height Control Area 9 would allow an inappropriate scale of development adjacent to which is zoned for residential purposes and has a character or heritage overlay.</p> <p>[Refer to original submission for full reason].</p>	Opposes CCZ-S1 (Maximum height) - Height Control Area 9, South-east, South-west zone edge height limit of 28.5m.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Historic Places Wellington Inc	FS111.88	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Support	Considers that it is necessary to protect heritage values of Mt Victoria heritage area (curtilage). [Interred reference to submission 312.6]	Allow
Moir Street Collective - Dougal List, Libby List, Karen Young, Jeremy Young, James Fairhall, Karen Fairhall, Craig Forrester, Sharlene Gray	312.7	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Considers that CCZ-S1, in particular Height Control Area 9 would allow an inappropriate scale of development adjacent to which is zoned for residential purposes and has a character or heritage overlay. [Refer to original submission for full reason].	Seeks that a new height control area be added to CCZ-S1 (Maximum height) as follows: <u>k. Height Control Area 11 - Eastern side of Hanja Street - 15m.</u> [refer to submission for illustration of area covered by proposed height control area 11].
Wellington's Character Charitable Trust	FS82.204	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.89	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Support	Considers that it is necessary to protect heritage values of Mt Victoria heritage area (curtilage). [Interred reference to submission 312.7]	Allow
Moir Street Collective - Dougal List, Libby List, Karen Young, Jeremy Young, James Fairhall, Karen Fairhall, Craig Forrester, Sharlene Gray	312.8	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Considers that CCZ-S1, CCZ-S3, and CCZ-S11 as proposed are contrary to the proposed objectives and policies of the PDP relating to amenity, design adverse effects and heritage.	Amend CCZ-S1 (Maximum height) as proposed by this submission. [Inferred decision requested].
Restaurant Brands Limited	349.197	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Support	Support	Retain CCZ-S1 (Maximum height) as notified.
Peter Kennedy	353.1	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Support in part	Supports CCZ-S1 in part in that the properties at 25 and 25A Taranaki Street are subject to the height control of 42.5m above ground level. The submitter notes that the owners of 25 and 25A Taranaki Street generally support the increase in height from the 27m provided in the Operative District Plan to 42.5m in the Proposed District Plan.	Retain CCZ-S1 (Maximum height), with amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested								
Peter Kennedy	353.2	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	<p>Considers that given the sites are located in the City Centre Zone, and for the district plan to adopt the NPS-UD Policy 3.a, the height restriction of 42.5m should be removed [Refer to original submission for NPS-UD Policy 3 reference].</p> <p>The submitter considers that to fully 'maximise benefits of intensification' the height of any structure should be determined by the buildability and constraints of the site such as ground conditions. Economic viability and design will naturally constrain the building heights as well, however the district plan should not limit height in the central zone so it can properly align with the NPS-UD.</p> <p>The submitter notes that nearly all of Wellington falls subject to the WIAL 1 designation, which restrict new buildings or structures from being above the RL of 56.98m unless shielded by an existing immovable object. The submitter considers that the Mount Victoria ridgeline extends well above this RL and shields the centre city from the airport. The submitter considers as such the maximum RL should be restricted by the height of the Mount Victoria.</p>	<p>Amend CCZ-S1 (Maximum height) to truly align the Proposed District Plan with the National Policy Statement on Urban Development while respecting WIAL 1 designation, as follows:</p> <p>1. The following maximum height limits must be complied with (measured above ground level unless otherwise specified):</p> <table border="1"> <thead> <tr> <th>Location</th> <th>Limit</th> </tr> </thead> <tbody> <tr> <td>...</td> <td></td> </tr> <tr> <td>h. Height Control Area 8 –Te Aro</td> <td>42.5 <u>60m</u></td> </tr> <tr> <td>...</td> <td></td> </tr> </tbody> </table>	Location	Limit	...		h. Height Control Area 8 –Te Aro	42.5 <u>60m</u>	...	
Location	Limit												
...													
h. Height Control Area 8 –Te Aro	42.5 <u>60m</u>												
...													
U.S. Embassy Wellington	366.3	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	Concerned about any structure adjacent to the United States Embassy being built to a height of 27 metres, particularly without any requirement for the Embassy to be notified of and consent to the proposed building project for security reasons	<p>Amend CCZ-S1 (Maximum height) so that properties identified on a map surrounding the United States Embassy have a maximum height of 10m.</p> <p>[See original submission for map]</p>								
Jane Szentivanyi	376.6	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose in part	CCZ-S1 is opposed as the proposed controls will fail to manage significant adverse effects on adjoining sites. As currently drafted, CCZ-S11 will result in significant adverse effects on Moir Street properties, as well as recognised heritage and character values which cannot be mitigated through design. As such, the provision is contrary to the objectives and policies of the plan.	Opposes CCZ-S1 (Maximum height) and seeks amendment.								
Jane Szentivanyi	376.7	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Considers that CCZ-S1 should be amended to have a new height control for the area along the eastern side of Hania Street.	<p>Amend CCZ-S1 (Maximum height) as follows:</p> <p>...</p> <p>h. Height Control Area 10 - Adelaide Road</p> <p>i. Height Control Area 11 - eastern side of Hania St 15m</p> <p>[Refer to map in submission]</p>								
WCC Environmental Reference Group	377.481	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Whilst the submitter recognises the importance of safety in regards to Maximum build height of structures, the Wellington Central City Zone currently fails to adequately utilize the large amount of accessible open space provided by building tops. As such the submitter considers the standard should allow for the development of urban farming infrastructure, as these would likely extend beyond the 1m in diameter restriction placed upon decorative features, however these would need to be immobile and enclosed in order to prevent safety issues through structural compromise via weather events.	<p>Amend CCZ-S1 (Maximum height) as follows:</p> <p>This standard does not apply to...</p> <p><u>B) Enclosed immobile garden beds providing these do not extend beyond 2m in diameter or 1m in height.</u></p>								
Argosy Property No. 1 Limited	383.119	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Seeks an amendment to the assessment criteria where the standard is infringed to include the extent to which a taller building would contribute to business capacity in the city. The NPS-UD requires tier 1 territorial authorities to provide sufficient development capacity for both housing and business, and Policy 3 recognises that building heights and density of urban form to realise as much development capacity as possible, to maximise benefits of intensification. The Proposed Plan must give effect to the NPS-UD, and this could be achieved in part by amending the assessment criteria as submitted.	<p>Amend CCZ-S1 (Maximum height):</p> <p>Matters of discretion:</p> <p>...</p> <p><u>4. The extent to which taller buildings would contribute to maximising the benefits of intensification in the city</u></p>								
Kāinga Ora Homes and Communities	391.733	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose in part	Opposes the City Centre building height controls as notified and seeks that the building heights are simplified. Considers the Central Wellington City and the City Centre Zone should provide for unlimited building heights to encourage intensification and development. There are rules and standards in the District Plan that will control bulk, location and height of buildings in the city centre. Considers height should not be limited in the City Centre. Seeks simplification of the height controls.	Retain CCZ-S1 (Maximum height) and seeks amendments.								

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	FS84.50	Part 3 / Commercial and mixed use Zones / City Centre Zone / General CCZ	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Kāinga Ora Homes and Communities	391.734	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Opposes the City Centre building height controls as notified and seeks that the building heights are simplified. Considers the Central Wellington City and the City Centre Zone should provide for unlimited building heights to encourage intensification and development. There are rules and standards in the District Plan that will control bulk, location and height of buildings in the city centre. Considers height should not be limited in the City Centre. Seeks simplification of the height controls.	Amend CCZ-S1 (Maximum height) as follows: <u>There is no maximum height for buildings and structures in the City Centre Zone</u> <u>Location Limit</u> a. Height Control Area 1 – Thorndon Quay 25.4m b. Height Control Area 2 – Waterloo Quay section 50m c. Height Control Area 3 – Bulk of Thorndon 27m d. Height Control Area 4 – Mid and Upper Molesworth Street 43.8m e. Height Control Area 5 – CBD East 48.5m – 95m f. Height Control Area 6 – CBD West 75m – 95m g. Height Control Area 7 – Eastern Edge of the CBD 42.5m h. Height Control Area 8 – Te Aro 42.5m i. Height Control Area 9 – South East, South West Zone Edge Adelaide Road 28.5m j. Height Control Area 10 – Adelaide Road 42.5m
Wellington's Character Charitable Trust	FS82.130	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	Considers the submission is more enabling than justified. Considers the calibration of heights in accordance with the notified height control areas is more appropriate for a medium-sized coastal/harbour city that is susceptible to earthquakes and other natural hazards	Disallow
Greater Wellington Regional Council	FS84.128	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
LIVE WELLington	FS96.40	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	This amendment is more enabling than justified. Calibration of heights in accordance with the notified height control areas is more appropriate for a medium-sized coastal/harbour city that is susceptible to earthquakes and other natural hazards	Disallow
Roland Sapsford	FS117.39	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	This amendment is more enabling than justified. Calibration of heights in accordance with the notified height control areas is more appropriate for a medium-sized coastal/harbour city that is susceptible to earthquakes and other natural hazards	Disallow
Oyster Management Limited	404.79	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Considers the assessment criteria for non-compliance with CCZ-S1 should also include assessment of the extra business capacity added by infringing on height. Notes that the NPS-UD requires tier 1 territorial authorities to provide sufficient development capacity for both housing and business, and Policy 3 recognises that building heights and density of urban form to realise as much development capacity as possible, to maximise benefits of intensification.	Amend CCZ-S1 (Maximum height) to: Assessment criteria where the standard is infringed: 1. Streetscape and visual amenity effects; 2. Dominance and privacy effects on adjoining sites; and 3. The extent to which taller buildings would substantially contribute to increasing residential accommodation in the city; <u>and</u> 4. <u>The extent to which taller buildings would contribute to maximising the benefits of intensification in the city" (or words to similar effect).</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	FS82.169	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Support	[No specific reason given beyond decision requested - refer to further submission]	Allow
Oyster Management Limited	404.80	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Support	Supports the 75m Height Control Area applying to Lambton Quay.	Retain CCZ-S1.f (Maximum Height) Height Control Area 6 - CBD West's 75m Height Control Area extent as notified. [Refer to original submission for maps of the submitter's properties under the Proposed District Plan].
VicLabour	414.45	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	Opposes maximum height limits in the city centre zone. Identifies that Council staff recommended unlimited heights, backed by evidence. Considers there are a range of of checks on building quality and safety that would regulate new builds. Considers that facilitating the development of more residential and office space will support greater affordability. Considers there is a lack of support for new forms of density in the CBD. Considers that maximum height restrictions pose an unnecessary restriction on development and contributes to sprawl.	Seeks that maximum height limits in the City Centre Zone as notified are removed and unlimited height limits are introduced.
VicLabour	414.46	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Opposes maximum height limits in the city centre zone. Identifies that Council staff recommended unlimited heights, backed by evidence. Considers there are a range of of checks on building quality and safety that would regulate new builds. Considers that facilitating the development of more residential and office space will support greater affordability. Considers there is a lack of support for new forms of density in the CBD. Considers that maximum height restrictions pose an unnecessary restriction on development and contributes to sprawl.	Seeks that maximum height limits in the City Centre Zone as notified are removed and unlimited height limits are introduced.
Willis Bond and Company Limited	416.181	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	Considers that maintaining the height limits within the City Centre Zone is not justified. The City Centre Zone is intended to be the 'beating heart' of Wellington City and to permit the highest level of density. The height limits restrict options for developers and make it harder to deliver quality developments which appropriately respond to the site. All significant development within the City Centre Zone is a restricted discretionary activity, allowing Council significant input and the means to ensure only quality developments are granted consent. That discretion provides a sufficient level of protection. Height limits also risk creating a 'flat haircut' type city, rather than one that contains a diversity of buildings.	Delete CCZ-S1 (Maximum height) in its entirety. [inferred decision requested].

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.182	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	<p>Submitter opposes CCZ-S1 for the following reasons:</p> <ul style="list-style-type: none"> - Specifying height limits is an unnecessary constraint on development and is inconsistent with the National Policy Statement on Urban Development 2020 (NPS-UD) which requires district plans to “enable, in city centre zones, building heights and density of urban form to realise as much development capacity as possible” (Policy 3). - The building height limits artificially inflate height over other design considerations when assessing the merits of a proposal such as effects on wind and sunlight, potentially to the detriment of overall design excellence. - The requirement to comply with other objective performance criteria such as overshadowing, daylight access, protected view shafts and wind sufficiently contain the environmental impact of subject developments without the further imposition of height constraints. - The building height limits do not allow for a diversity of height within the CCZ, which we consider contributes to a more engaging urban form and allows for better design and urban outcomes. - In any case, the heights currently specified provide a false sense of future development within the city centre as they do not affect activity status (restricted discretionary) and can be extended through, for example, application of the City Outcomes Contributions. 	Delete CCZ-S1 (Maximum height) in its entirety.
Willis Bond and Company Limited	416.183	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	<p>Submitter opposes CCZ-S1 for the following reasons:</p> <ul style="list-style-type: none"> - Specifying height limits is an unnecessary constraint on development and is inconsistent with the National Policy Statement on Urban Development 2020 (NPS-UD) which requires district plans to “enable, in city centre zones, building heights and density of urban form to realise as much development capacity as possible” (Policy 3). - The building height limits artificially inflate height over other design considerations when assessing the merits of a proposal such as effects on wind and sunlight, potentially to the detriment of overall design excellence. - The requirement to comply with other objective performance criteria such as overshadowing, daylight access, protected view shafts and wind sufficiently contain the environmental impact of subject developments without the further imposition of height constraints. - The building height limits do not allow for a diversity of height within the CCZ, which we consider contributes to a more engaging urban form and allows for better design and urban outcomes. - In any case, the heights currently specified provide a false sense of future development within the city centre as they do not affect activity status (restricted discretionary) and can be extended through, for example, application of the City Outcomes Contributions. 	Seeks that as an alternative to CCZ-S1 (Maximum height) maximum heights, floor area ratios relative to lot sizes could be used as a method to control bulk and calculated based on the heights currently allowed. Submitter considers that this would enable more holistic design outcomes that prioritise performance outcomes as opposed to arguably arbitrary height limits.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.184	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Submitter considers that if height limits are retained, there should be further scope for development above the façade height, e.g. plant rooms, sloping roofs, etc. It is the view from the street which is the greatest concern (i.e. the height of the parapet). The way the current height limits are drafted encourages a 'flat haircut' style of building and limits potential roof designs [Refer to original submission for full reason].	Submitter seeks that if CCZ-S1 (Maximum height) height limits are retained, that CCZ-S1 be amended as follows: ... This standard does not apply to: ... b. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height by more than 1m; and c. Lift overruns provided these do not exceed the height by more than 4m. <u>d. Circumstances where up to 50% of a building's roof in elevation exceeds the maximum height where the entire roof slopes 15° or more; or</u> <u>e. Circumstances where, in respect of flat roofs or roofs sloping less than 15°, non-habitable rooms (such as plant rooms) and other roof-top structures may exceed the height, provided those structures are set back from the leading edge of the parapet by at least 2 metres and do not exceed 50% of the overall roof area.</u> ... [Inferred decision requested].
Willis Bond and Company Limited	416.185	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Considers for the Wellington Train Station Precinct that intensification should be most prevalent where major existing public infrastructure is available, particularly public transport. Submitter considers to that end, building height limits (not withstanding earlier comments regarding height limits in general) around the Train Station should be maximised. Submitter notes the 50m height limit above the rail corridor enabling a potential over-station development – the submitter strongly supports this initiative and believe even further height is warranted here. This height should be extended to nearby sites including the station itself, and around Thorndon Quay, Waterloo Quay and Lambton Quay – the majority of which is currently constrained to between 27m and 40m. The submitter believes there are sufficient other controls in place to manage responsible use of height.	Seeks that for the Wellington Train Station precinct CCZ-S1 (Maximum height) be amended, notwithstanding the submitters other comments regarding height controls, to increase the height limit above the rail corridor to the extent possible and ensure the height limit of nearby areas is at a similar scale.
Willis Bond and Company Limited	416.186	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Considers that for the Tasman Street block, that the block bounded by Buckle Street, Tasman Street, Rugby Street and Sussex Street appears as an anomaly (28.5m) to the height limits of the similarly-zoned blocks immediately to the north (42.5m) and to the south (42.5m). Submitter considers that it is clear that 28.5m is utilised as a transitional height from the 42.5m zone to the lower 21m and 11m height limits, however it is unclear what justification there is for the anomaly on this block given the intensification of the entire Adelaide Road precinct immediately south, and the Te Aro precinct immediately north.	Seeks that the Tasman Street block CCZ-S1 (Maximum height) be amended, notwithstanding the submitters other comments regarding height controls, to increase the height limit of the Tasman Street block to be consistent with the surrounding blocks, and consistent with the intent of the NPS-UD.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fabric Property Limited	425.81	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	<p>Seeks amendments to CCZ-S1 to provide unlimited building heights in the City Centre zone as it applies to the “High City” area that was identified in the Wellington Spatial Plan (centred on Lower Willis Street/Boulcott Street/The Terrace/Featherston Street/Lambton Quay/Customhouse Quay), and as it applies to properties at 22 The Terrace, 1 Grey Street, 20 Customhouse Quay, and 215 Lambton Quay.</p> <p>Policy 3 of the NPS-UD requires district plans of Tier 1 urban environments such as Wellington to enable “building heights and density of urban form to realise as much development capacity as possible, to maximise benefits of intensification” in city centre zones. We interpret this to mean that the City Centre, or at minimum parts of the City Centre, should have no maximum building heights.</p> <p>Unlimited building heights in the central City Centre area are appropriate given the emphasis in the Wellington Spatial Plan and Proposed Plan on the City Centre for accommodating future growth, recognising the height of existing buildings in these areas, and taking into account the absence of any directly adjoining residential areas that could potentially be adversely affected. This would also be consistent with CCZ-P5 which recognises the benefits of enabling greater height and scale of development in the City Centre.</p> <p>According to CCZ-O1 the Wellington City Centre is intended to be the primary commercial centre for the wider Wellington region. Yet the intensification planning instruments notified in Hutt City and Upper Hutt City provide for a greater scale of development than Wellington City with unlimited heights in their centres. Unlimited building heights in the Wellington City Centre would be consistent with its role as the primary commercial centre for the region.</p>	Opposes CCZ-S1 (Maximum height) with respect to the imposition of height limits in the City Centre Zone.
Wellington Civic Trust	FS83.1	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	The submission seeks unlimited building heights in part of the City Centre Zone. It is not clear to what extent this would capture precincts and other valued areas including viewshafts and protected sunlight areas. Wellington Civic Trust does not support this notion.	Disallow
Fabric Property Limited	425.82	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	<p>Seeks amendments to CCZ-S1 to provide unlimited building heights in the City Centre zone as it applies to the “High City” area that was identified in the Wellington Spatial Plan (centred on Lower Willis Street/Boulcott Street/The Terrace/Featherston Street/Lambton Quay/Customhouse Quay), and as it applies to properties at 22 The Terrace, 1 Grey Street, 20 Customhouse Quay, and 215 Lambton Quay.</p> <p>Policy 3 of the NPS-UD requires district plans of Tier 1 urban environments such as Wellington to enable “building heights and density of urban form to realise as much development capacity as possible, to maximise benefits of intensification” in city centre zones. This would also be consistent with CCZ-P5 which recognises the benefits of enabling greater height and scale of development in the City Centre.</p> <p>According to CCZ-O1 the Wellington City Centre is intended to be the primary commercial centre for the wider Wellington region. Yet the intensification planning instruments notified in Hutt City and Upper Hutt City provide for a greater scale of development than Wellington City with unlimited heights in their centres. Unlimited building heights in the Wellington City Centre would be consistent with its role as the primary commercial centre for the region.</p>	Amend CCZ-S1 (Maximum height) to remove all height limits and provide unlimited building heights in the High City areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington Civic Trust	F583.2	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	The submission seeks unlimited building heights in part of the City Centre Zone. It is not clear to what extent this would capture precincts and other valued areas including viewshafts and protected sunlight areas. Wellington Civic Trust does not support this notion.	Disallow
Reading Wellington Properties Limited	441.6	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose	Opposes CCZ-S1 as Reading Wellington Properties Limited is in the process of developing a masterplan for all of its properties in Wellington, with high design thresholds. Given the sites prominence, the design should not be constrained by a permitted height limit.	Delete CCZ-S1 (Maximum height) in its entirety.
Chrissie Potter	446.5	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose in part	Considers that CCZ-S1, in particular Height Control Area 9 would allow an inappropriate scale of development adjacent to which is zoned for residential purposes and has a character or heritage overlay. Considers that standard is contrary to the proposed objectives and policies of the District Plan relating to amenity, design adverse effects and heritage. [Refer to original submission for full reason].	Opposes CCZ-S1 (Maximum height) - Height Control Area 9, South-east, South-west zone edge height limit of 28.5m.
Chrissie Potter	446.6	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Considers that CCZ-S1, in particular Height Control Area 9 would allow an inappropriate scale of development adjacent to which is zoned for residential purposes and has a character or heritage overlay. Considers that standard is contrary to the proposed objectives and policies of the District Plan relating to amenity, design adverse effects and heritage. [Refer to original submission for full reason].	Seeks that a new height control area be added to CCZ-S1 (Maximum height) as follows: <u>k. Height Control Area 11 - Eastern side of Hania Street 15m.</u> [refer to submission for illustration of area covered by proposed height control area 11]
Dorothy Thompson	449.5	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Oppose in part	Considers that CCZ-S1, in particular Height Control Area 9 would allow an inappropriate scale of development adjacent to which is zoned for residential purposes and has a character or heritage overlay. Considers that standard is contrary to the proposed objectives and policies of the District Plan relating to amenity, design adverse effects and heritage. [Refer to original submission for full reason].	Opposes CCZ-S1 (Maximum height) - Height Control Area 9, South-east, South-west zone edge height limit of 28.5m.
Dorothy Thompson	449.6	Commercial and mixed use Zones / City Centre Zone / CCZ-S1	Amend	Considers that CCZ-S1, in particular Height Control Area 9 would allow an inappropriate scale of development adjacent to which is zoned for residential purposes and has a character or heritage overlay. Considers that standard is contrary to the proposed objectives and policies of the District Plan relating to amenity, design adverse effects and heritage. [Refer to original submission for full reason].	Seeks that a new height control area be added to CCZ-S1 (Maximum height) as follows: ... <u>k. Height Control Area 11 - Eastern side of Hania Street 15m.</u> [refer to submission for illustration of area covered by proposed height control area 11]
Wellington's Character Charitable Trust	233.25	Commercial and mixed use Zones / City Centre Zone / CCZ-S2	Support	Supports CCZ-S2 (Height Controls) around Old St Pauls Church.	Retain Height Controls around Old St Paul's Church, Mulgrave Street as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Thorndon Residents' Association Inc	F569.96	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S2	Support	Appropriate protection of pre-1930s buildings 10min walkable catchment Specific heritage identification and assessment Views contributing to sense of place and identity Extend Character Precincts per Boffa Miskell Boffa Miskell streetscapes Appropriate protection of pre-1930s buildings CCZ encroachment on residential zones Old St Pauls height controls Preserve viewshalfs	Allow
Century Group Limited	238.22	Commercial and mixed use Zones / City Centre Zone / CCZ-S2	Support	Generally supports the balance of the standards that are proposed to apply to the City Centre Zone, subject to the specific relief sought in respect of the application of the Veranda and Active Frontages controls to the Property. The range of standards will effectively manage the design of development within the City Centre.	Retain CCZ-S2 (Old St Paul's Church - Adjoining site specific building height)
Stratum Management Limited	249.34	Commercial and mixed use Zones / City Centre Zone / CCZ-S2	Support	Supports the imposition of a minimum height standard.	Retain standard CCZ-S2 (Minimum height) as notified.
Juliet Cooke	68.4	Commercial and mixed use Zones / City Centre Zone / CCZ-S3	Amend	Considers that CCZ standards will lead to inappropriate, out of scale development with a direct impact on residential properties that have recognised heritage and character values and are therefore contrary to the objectives and policies of the plan. Heritage and character are qualifying matters under MRZ Pt1 Sch 1. Considers that proposed controls will fail to manage significant adverse effects by allowing inappropriate, out of scale development. Moir Street will be impacted. Moir street is a key and coherent character and heritage area. Moir street is unique with the amount of overlapping relevant overlays. [See submission for further detail]	Amend CCZ-S3.1 (Character precincts and Residentially Zoned Areas...) as follows: 1. Identified character... a. For any site adjoining a site identified within a Character Precinct or a Residentially Zoned Heritage Area: no part of any building, accessory building or structure may project beyond a line of 60° measured from a height of 8m <u>5m</u> above ground level from all side and rear boundaries that adjoin that precinct, <u>and</u> b. For any site adjoining a site identified within the MRZ within a Character Precinct or a Residentially Zoned Heritage Area: no part of any building, accessory building or structure may be higher than <u>15m</u> .
Tracey Paterson	74.5	Commercial and mixed use Zones / City Centre Zone / CCZ-S3	Oppose	Opposes CCZ-S3 as currently drafted. CCZ-S1 will result in significant adverse effects on Moir Street properties which cannot be mitigated through design. Moir Street is unique due to its classification as MRZ, Character Precinct, Heritage Area and adjacency to CCZ. As currently drafted, the standards of the proposed plan will allow buildings of up to 28.5m high to tower over 1-2 story heritage cottages on Moir St. The proposed 60 degree recession plane from 8m will provide negligible mitigation. The Standards of the CCZ proposed Plan will lead to significant adverse effects by allowing inappropriate, out of scale development with a direct impact on residential properties that have recognised heritage and character values on Moir Street. The standards will result in outcomes that are contrary to the objectives and policies of the PDP (CCZ)	Reject CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Tracey Paterson	74.6	Commercial and mixed use Zones / City Centre Zone / CCZ-S3	Amend	Amend CCZ-S3 to set a more appropriate recession plane provision between the CCZ and MRZ.	Amend CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height) as follows: 1. Identified character precincts and Residentially Zoned heritage areas: a. For any site adjoining a site identified within a Character Precinct or a Residentially Zoned Heritage Area: no part of any building, accessory building or structure may project beyond a line of 60° measured from a height of 8m <u>5m</u> above ground level from all side and rear boundaries that adjoin that precinct. <u>b. For any site adjoining a site identified within the Medium Density Residential Zone within a Character Precinct or a Residentially Zoned Heritage Area: no part of any building, accessory building or structure may be higher than 15m.</u>
James and Karen Fairhall	160.8	Commercial and mixed use Zones / City Centre Zone / CCZ-S3	Amend	Considers that CCZ-S3 should be amended to set a more appropriate recession plane and maximum height of 15m for any CCZ site adjacent to any heritage area or character precinct. Considers that the 8m height and 60 degree recession planes in CCZ-S3 is not enough to prevent a devastating dominance over Moir Street's little one to two storey 1880s cottages. The shading effects will be substantial. [Refer to original submission for full reasons].	Amend CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height) as follows: 1. Identified character precincts and Residentially Zoned heritage areas: a. For any site adjoining a site identified within a Character Precinct or a Residentially Zoned Heritage Area: no part of any building, accessory building or structure may project beyond a line of 60° measured from a height of 8m <u>5m</u> above ground level from all side and rear boundaries that adjoin that precinct.
James and Karen Fairhall	160.9	Commercial and mixed use Zones / City Centre Zone / CCZ-S3	Amend	Considers that CCZ-S3 should be amended to set a more appropriate recession plane and maximum height of 15m for any CCZ site adjacent to any heritage area or character precinct. Considers that the 8m height and 60 degree recession planes in CCZ-S3 is not enough to prevent a devastating dominance over Moir Street's little one to two storey 1880s cottages. The shading effects will be substantial. [Refer to original submission for full reasons].	Amend CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height) as follows: 1. ... <u>2. For any site adjoining a site identified within a Character Precinct or a Residentially Zoned Heritage Area: no part of any building, accessory building or structure may be higher than 15m.</u> ...
James and Karen Fairhall	160.10	Commercial and mixed use Zones / City Centre Zone / CCZ-S3	Amend	Considers that CCZ-S3 should be amended to introduce a 5m setback with a 4m height limit within that setback so that building mass, and thus dominance, is not on the boundary of a residential property. Considers that the 8m height and 60 degree recession planes in CCZ-S3 is not enough to prevent a devastating dominance over Moir Street's little one to two storey 1880s cottages. The shading effects will be substantial. [Refer to original submission for full reasons].	Amend CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height) as follows: 1. ... <u>3. For any site adjoining a site identified within Character Precinct or a Residentially Zoned Heritage Area: The first 5 metres back from the boundary must not exceed 4m (one storey).</u>
James and Karen Fairhall	160.11	Commercial and mixed use Zones / City Centre Zone / CCZ-S3	Amend	Supports the report 'Planning for Residential Amenity' by Boffa Miskell as it relates to its recommendation for all character areas to have a '5m boundary height limit with a 60 degree recession plane for ANY zone adjoining a character area'.	Amend CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height) as follows: 1. Identified character precincts and Residentially Zoned heritage areas: a. For any site adjoining a site identified within a Character Precinct or a Residentially Zoned Heritage Area: no part of any building, accessory building or structure may project beyond a line of 60° measured from a height of 8m <u>5m</u> above ground level from all side and rear boundaries that adjoin that precinct.

Moir Street Collective - Dougal List, Libby List, Karen Young, Jeremy Young, James Fairhall, Karen Fairhall, Craig Forrester, Sharlene Gray	312.13	Commercial and mixed use Zones / City Centre Zone / CCZ-S3	Amend	Supports the report 'Planning for Residential Amenity' by Boffa Miskell as it relates to its recommendation for all character areas to have a '5m boundary height limit with a 60 degree recession plane for ANY zone adjoining a character area'.	Amend CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height) as follows: 1. Identified character precincts and Residentially Zoned heritage areas: a. For any site adjoining a site identified within a Character Precinct or a Residentially Zoned Heritage Area: no part of any building, accessory building or structure may project beyond a line of 60° measured from a height of 8m <u>5m</u> above ground level from all side and rear boundaries that adjoin that precinct.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Moir Street Collective - Dougal List, Libby List, Karen Young, Jeremy Young, James Fairhall, Karen Fairhall, Craig Forrester, Sharlene Gray	312.14	Commercial and mixed use Zones / City Centre Zone / CCZ-S3	Amend	Considers that CCZ-S1, CCZ-S3, and CCZ-S11 as proposed are contrary to the proposed objectives and policies of the PDP relating to amenity, design adverse effects and heritage.	Amend CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height) as proposed by this submission. [Inferred decision requested].
Jane Szentivanyi	376.8	Commercial and mixed use Zones / City Centre Zone / CCZ-S3	Oppose in part	CCZ-S3 is opposed as the proposed controls will fail to manage significant adverse effects on adjoining sites. As currently drafted, CCZ-S11 will result in significant adverse effects on Moir Street properties, as well as recognised heritage and character values which cannot be mitigated through design. As such, the provision is contrary to the objectives and policies of the plan.	Opposes CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height) and seeks amendment.
Jane Szentivanyi	376.9	Commercial and mixed use Zones / City Centre Zone / CCZ-S3	Amend	Considers that CCZ-S3 should be amended to set a more appropriate recession plane and a maximum height of 15m for any CCZ site adjacent to any site in the MDZ which is a heritage area or character precinct.	Amend CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height) as follows: 1. Identified character precincts and Residentially Zoned heritage areas: a. For any site adjoining a site identified within a Character Precinct or a Residentially Zoned Heritage Area: no part of any building, accessory building or structure may project beyond a line of 60° measured from a height of 8m <u>5m</u> above ground level from all side and rear boundaries that adjoin that precinct. b. For any site adjoining a site identified within the MDZ within a Character Precinct or a Residentially Zoned Heritage Area: <u>no part of any building, accessory building or structure may be higher than 15m.</u>
Chrissie Potter	446.7	Commercial and mixed use Zones / City Centre Zone / CCZ-S3	Oppose in part	Considers that CCZ-S3 will fail to manage significant adverse effects by allowing inappropriate, out of scale development. Considers that standard is contrary to the proposed objectives and policies of the District Plan relating to amenity, design adverse effects and heritage. [Refer to original submission for full reason].	Opposes CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height).
Chrissie Potter	446.8	Commercial and mixed use Zones / City Centre Zone / CCZ-S3	Amend	Considers that CCZ-S3 should be amended to set a more appropriate recession plane and maximum height of 15m for any CCZ site adjacent to any heritage area or character precinct. The currently proposed 60 degree recession plane from 8m will provide negligible mitigation from allowing buildings of up to 28.5m to tower over one-two storey heritage cottages on Moir Street. Considers that the significant adverse effects include: loss of sunlight, overlooking and loss of privacy, shading, increased wind, over-dominance of building form, loss of privacy, streetscape and urban design impacts. [Refer to original submission for full reasons].	Amend CCZ-S3 (Character precincts and Residentially Zoned heritage areas – Adjoining site specific building and structure height) as follows: 1. Identified character precincts and Residentially Zoned heritage areas: a. For any site adjoining a site identified within a Character Precinct or a Residentially Zoned Heritage Area: no part of any building, accessory building or structure may project beyond a line of 60° measured from a height of 8m <u>5m</u> above ground level from all side and rear boundaries that adjoin that precinct.

Precinct Properties New Zealand Limited	139.54	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Oppose	Opposes CCZ-S4 as it may be appropriate and necessary to provide building heights less than 22m in certain areas and the standard is seen as unnecessarily constraining.	Delete CCZ-S4 (Minimum building height) in its entirety.
Wellington's Character Charitable Trust	FS82.164	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Support	[No specific reason given beyond decision requested - refer to further submission]	Allow
Century Group Limited	238.24	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Support	Generally supports the balance of the standards that are proposed to apply to the City Centre Zone, subject to the specific relief sought in respect of the application of the Veranda and Active Frontages controls to the Property. The range of standards will effectively manage the design of development within the City Centre.	Retain CCZ-S4 (Minimum building heights) as notified.
Wheeler Grace Trust	261.4	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Oppose	<p>Considers that the proposed Height Controls in Selwyn Terrace are inappropriate.</p> <p>Supports the proposal that Selwyn Terrace is HRZ with 21m Height Control area.</p> <p>6 Storey buildings would significantly detract from the residential amenity of Selwyn Terrace.</p> <p>[Refer to original submission for full reason]</p>	Amend CCZ-S4 (Minimum building height) so that Selwyn terrace, Thorndon does not have a 22m minimum building height.
McDonald's	274.67	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Oppose	Considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete CCZ-S4 (Minimum building height) in its entirety.
Eldin Family Trust	287.8	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Oppose	<p>Considers that regardless of the zoning applied to Selwyn Terrace a minimum building height of 22m or a maximum if either 21m or 27m would be inappropriate.</p> <p>Considers that these building heights are inconsistent with the Viewshafts VS1 (The Beehive) and VS4 (The Beehive and The Cenotaph – Whitmore Street) which would clash with the viewshaft.</p> <p>Considers that tall buildings in Selwyn Terrace would detract from the residential amenity, special character and heritage of Selwyn Terrace and increase pressure on access, parking and turning.</p> <p>Considers that developers would face difficulty in complying with the minimum height requirements due to covenants on titles.</p> <p>[Refer to original submission for full reason]</p>	Opposes CCZ-S4 (Minimum building height) with respect to Selwyn Terrace (and the nearby areas of Hill Street and Guildford Terrace) being subject to the 22m minimum height control (Height control area 3).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Restaurant Brands Limited	349.198	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Oppose	Oppose There are many buildings with a height less than the required minimum that will contribute positively to a well-functioning urban environment. The proposed standard will result in too many buildings requiring resource consent and is not an efficient or effective method to implement the policies of the Proposed District Plan.	Delete CCZ-S4 (Minimum building height) in its entirety.
Foodstuffs North Island	FS23.66	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Support	Submission point 349.198 supports FSNI submission point 476.57.	Allow
Woolworths New Zealand	359.90	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Amend	CCZ-S4 should be amended to exclude supermarkets, as this is an overly onerous standard when the PDP should be promoting development in the Centres. The standard could also be refined to be a building frontage height standard and limited to specified streets as identified on the planning maps to achieve centre vibrancy and amenity.	Amend CCZ-S4 (Minimum building height) as follows: 1. A minimum height of 22m is required for new buildings or structures. This standard does not apply to: 1. Any site adjoining a site located within a character precinct or Residentially Zoned Heritage Area and thus subject to CCZ-S3; and 2. Any site within the Te Ngākau Civic Square Precinct. 3. <u>Any new supermarket building</u>
Foodstuffs North Island	FS23.25	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Support	Submission point 359.90 CCZ-S4 has similar outcome to FSNI submission point 476.57.	Allow / Allow submission if submission point 476.57 is rejected.
Z Energy Limited	361.121	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Support in part	CCZ-S4 is supported in so much as it seeks to enable a higher density of activities in the CC by enabling buildings of greater heights than other zones. This standard applies to every new 'building' or 'structure', which are both defined in the PDP and essentially includes any physical object that is fixed to the ground with no qualifying dimensions.	Retain CCZ-S4 (Minimum building height) with amendment.
Z Energy Limited	361.122	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Amend	Considers that CCZ-S4 should include an exclusion for any building or structure which is unable to be occupied. The intent of this rule is to relate to occupiable buildings rather than any structure that may be fixed to the ground (e.g. sign, pole, box, above ground water tanks, rubbish bins or compounds), which is unlikely to meet this 22m height requirement often for operational and functional necessity and triggers resource consent as a restricted discretionary activity. It is acknowledged that the assessment criteria requires consideration of any functional or operational need for a reduction in height. However, it is considered that an additional exclusion be included for ancillary structures that are not intended to be roofed or occupied by people.	Amend CCZ-S4 (Minimum building height) as follows: ... This standard does not apply to: 1. Any site adjoining a site located within a character precinct or Residentially Zoned Heritage Area and thus subject to CCZ-S3; and 2. Any site within the Te Ngākau Civic Square Precinct 3. <u>Any ancillary building or structure unable to be occupied by people.</u>
U.S. Embassy Wellington	366.4	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Oppose	Concerned about the minimum building height requirement of 21m in the City Centre zone around the United States Embassy for security reasons.	Amend the minimum building height standard CCZ-S4 (Minimum building height) so that it does not apply to sites surrounding the United States Embassy as identified on a map provided. [Inferred decision requested] [See original submission for map]
Thorndon Residents' Association Inc	FS69.30	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Support	The US Embassy is City Centre Zone. Immediately east of the Embassy are superior quality character and heritage residential properties. The TRA seeks a change from the HDRZ proposed to a MDRZ for the Hobson precinct situated east of the Embassy.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Argosy Property No. 1 Limited	383.120	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Amend	Opposes the proposed minimum building height of 22m. Appreciates that the intention of this standard is to ensure new development in the CBD realises as much development capacity as possible, in accordance with NPS-UD. However, it may not be possible or practical for temporary buildings on sites (such as containers or temporary offices) to reach the minimum building height of 22m. However, there is still a functional need for such buildings to be located in the City Centre on a temporary basis, and it would be inappropriate and potentially onerous to obtain a discretionary resource consent in every situation where a temporary building or structure below 22m is to be erected in the City Centre zone. Therefore, Argosy seeks an exception to Standard CCZ-S4 in relation to temporary buildings. Argosy supports the assessment criteria where the standard is infringed to include recognising that a reduced height may be necessary to provide for the functional or operational needs of a proposed activity, or due to topographical or other site constraints	Amend CCZ-S4 (Minimum building height): <u>This standard does not apply to temporary buildings and structures.</u>
Foodstuffs North Island	FS23.67	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Support	Submission point 383.120 partly supports FSNI submission point 476.57.	Allow / Allow submission in part.
Wellington Civic Trust	388.34	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Support	CCZ-S4 is supported as it excludes buildings and structures in the Te Ngākau Civic Square Precinct from the minimum height of buildings standard.	Retain CCZ-S4 (Minimum building height) as notified.
Willis Bond and Company Limited	416.187	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Support	Supports CCZ-S4 in part. Submitter is generally supportive of requiring sufficiently dense development within the CCZ, it should be acknowledged that 6 storeys will not always be appropriate for every site.	Retain CCZ-S4 (Minimum building height) with amendment.
Foodstuffs North Island	FS23.102	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Oppose	Submission point 416.187 seeks to amend CCZ-S4. FSNI submission point 476.57 seeks to delete CCZ-S4 in its entirety.	Disallow
Willis Bond and Company Limited	416.188	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Amend	Submitter considers that while they are generally supportive of requiring sufficiently dense development within the CCZ, it should be acknowledged that 6 storeys will not always be appropriate for every site.	Seeks that for CCZ-S4 (Minimum building height) Council should consider reducing the height limit.
Willis Bond and Company Limited	416.189	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Amend	Submitter considers that while they are generally supportive of requiring sufficiently dense development within the CCZ, it should be acknowledged that 6 storeys will not always be appropriate for every site.	Seeks that for CCZ-S4 (Minimum building height) Council should consider amending the standard to provide clarity on the factors which will be considered if the minimum building height is not achieved (e.g. quality urban design outcome).
Foodstuffs North Island	476.57	Commercial and mixed use Zones / City Centre Zone / CCZ-S4	Oppose	Whilst supportive of certain bulk and location standards in the Commercial and Mixed Use zones, considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete CCZ-S4 (Minimum building height) in its entirety.
Precinct Properties New Zealand Limited	139.55	Commercial and mixed use Zones / City Centre Zone / CCZ-S5	Oppose	Opposes CCZ-S5 as it may be appropriate to provide ground floor heights lower than 4m in certain areas and the standard is seen as unnecessarily constraining.	Delete (Minimum ground floor height) in its entirety.
Century Group Limited	238.25	Commercial and mixed use Zones / City Centre Zone / CCZ-S5	Support	Generally supports the balance of the standards that are proposed to apply to the City Centre Zone, subject to the specific relief sought in respect of the application of the Veranda and Active Frontages controls to the Property. The range of standards will effectively manage the design of development within the City Centre.	Retain CCZ-S5 (Minimum ground floor height) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Stratum Management Limited	249.35	Commercial and mixed use Zones / City Centre Zone / CCZ-S5	Support in part	Supports the proposed minimum 4m ground floor height as it applies to non-residential buildings. Considers that for residential apartment buildings the 4m ground floor height is not required, serves no useful purpose, and imposes additional construction costs and therefore increases apartment prices. Considers that while conversion of commercial buildings to residential use is often feasible, it is rare that a residential building can be converted to commercial use and therefore a 4m ground floor height is less appropriate for residential buildings.	Retain CCZ-S5 (Minimum ground floor height) subject to amendment.
Stratum Management Limited	249.36	Commercial and mixed use Zones / City Centre Zone / CCZ-S5	Amend	Supports the proposed minimum 4m ground floor height as it applies to non-residential buildings. Considers that for residential apartment buildings the 4m ground floor height is not required, serves no useful purpose, and imposes additional construction costs and therefore increases apartment prices. Considers that while conversion of commercial buildings to residential use is often feasible, it is rare that a residential building can be converted to commercial use and therefore a 4m ground floor height is less appropriate for residential buildings.	Amend CCZ-S5 (Minimum ground floor height) as follows: The minimum ground floor height to <u>the underside of a structural slab or equivalent shall be:</u> 1. <u>For non-residential and mixed use buildings - 4m.</u> 2. <u>For residential buildings - 3m.</u>
McDonald's	274.68	Commercial and mixed use Zones / City Centre Zone / CCZ-S5	Oppose	Considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete CCZ-S5 (Minimum ground floor height) in its entirety.
Restaurant Brands Limited	349.199	Commercial and mixed use Zones / City Centre Zone / CCZ-S5	Oppose	Opposed to the minimum floor-to-floor ceiling heights for new development. The standard is overly prescriptive, does not provide for the specific requirements of drive-through facilities, and is unworkable from an operational perspective, and will only serve to increase the cost and/or regulatory processes of the development.	Delete CCZ-S5 (Minimum ground floor height) in its entirety.
Foodstuffs North Island	FS23.68	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S5	Support	Submission point 349.199 supports FSNI submission point 476.58.	Allow
Fabric Property Limited	425.83	Commercial and mixed use Zones / City Centre Zone / CCZ-S5	Oppose	Opposes CCZ-S5 and seeks its deletion. Considers that it may be appropriate to provide ground floor heights lower than 4 metres in certain areas and that the standard as notified is unnecessarily constraining.	Delete CCZ-S5 (Minimum Ground Floor Heights) in its entirety.
Foodstuffs North Island	476.58	Commercial and mixed use Zones / City Centre Zone / CCZ-S5	Oppose	Whilst supportive of certain bulk and location standards in the Commercial and Mixed Use zones, considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete CCZ-S5 (Minimum ground floor height) in its entirety.
Wellington City Youth Council	201.37	Commercial and mixed use Zones / City Centre Zone / CCZ-S6	Support	Supports maintaining the protection of sunlight access to listed public space in City Centre, including increasing the number of protected parks.	Retain CCZ-S6 (Minimum sunlight access - public space) as notified.
Century Group Limited	238.26	Commercial and mixed use Zones / City Centre Zone / CCZ-S6	Support	Generally supports the balance of the standards that are proposed to apply to the City Centre Zone, subject to the specific relief sought in respect of the application of the Veranda and Active Frontages controls to the Property. The range of standards will effectively manage the design of development within the City Centre.	Retain CCZ-S6 (Minimum sunlight access - public space) as notified.
Khoi Phan	326.41	Commercial and mixed use Zones / City Centre Zone / CCZ-S6	Oppose	Considers that minimum sunlight requirement will further restrict our housing need. We are Wellington and now Whakatu Nelson.	Remove CCZ-S6 (Minimum sunlight access – public space) in its entirety.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Restaurant Brands Limited	349.200	Commercial and mixed use Zones / City Centre Zone / CCZ-S6	Support	Support	Retain CCZ-S6 (Minimum sunlight access – public space) as notified.
Kāinga Ora Homes and Communities	391.735	Commercial and mixed use Zones / City Centre Zone / CCZ-S6	Amend	Considers that CCZ-S8 should be amended so that active frontage controls only apply where necessary, such as along principal roads/arterials not necessary along connecting streets. Only buildings that are located along any street edge should be controlled, rather than buildings on the whole site where an active frontage applies. Active frontage controls on streets and buildings where these matters do not apply should be deleted. These amendments recognise that active frontage controls are useful to achieve well-functioning urban environments where they are specifically applied on key roads where character and amenity values anticipated by underlying zoning are present.	Amend CCZ-S8 (Active frontage control) to only apply for buildings that are located along principal roads/arterials and along any street edge.
Catherine Penetito	474.8	Commercial and mixed use Zones / City Centre Zone / CCZ-S6	Amend	Considers that Pukeahu National War Memorial Park should have sunlight protection for the whole area if it is to be maintained and enhanced. The Hall of Memories, the Carillon and the old museum building are too important to be overshadowed by residential or other buildings.	Seeks that sunlight access must be maintained in a minimum of 80% of Pukeahu Park rather than the current 70% as specified in CCZ-S6 (Minimum sunlight access - public space). [Inferred decision requested].
Century Group Limited	238.27	Commercial and mixed use Zones / City Centre Zone / CCZ-S7	Support	Generally supports the balance of the standards that are proposed to apply to the City Centre Zone, subject to the specific relief sought in respect of the application of the Veranda and Active Frontages controls to the Property. The range of standards will effectively manage the design of development within the City Centre.	Retain CCZ-S7 (Verandas) as notified.
Restaurant Brands Limited	349.201	Commercial and mixed use Zones / City Centre Zone / CCZ-S7	Support	Support	Retain CCZ-S7 (Verandahs) as notified.
Z Energy Limited	361.123	Commercial and mixed use Zones / City Centre Zone / CCZ-S7	Support in part	CCZ-S7 is partially supported as relates to specific sites identified on the Planning Maps with a 'verandah control'.	Retain CCZ-S7 (Verandahs) with amendment.
Z Energy Limited	361.124	Commercial and mixed use Zones / City Centre Zone / CCZ-S7	Amend	Considers that CCZ-S7 should be amended to have greater recognition of these existing activities and their operational and functional requirements that prevent compliance is needed, noting the investment associated with the existing commercial activities, the benefits they provide to the community and the need for them to be maintained and upgraded from time to time. It is sought that this standard not apply to buildings where there is functional requirement to not include a verandah. (Option A)	Amend CCZ-S7 (Verandahs) as follows: 1. Verandahs must be provided on building elevations on identified street frontages <u>except where there is a functional requirement for a building to not contain a verandah.</u> ...
Z Energy Limited	361.125	Commercial and mixed use Zones / City Centre Zone / CCZ-S7	Amend	Considers that CCZ-S7 should be amended to have greater recognition of these existing activities and their operational and functional requirements that prevent compliance is needed, noting the investment associated with the existing commercial activities, the benefits they provide to the community and the need for them to be maintained and upgraded from time to time. It is sought that this standard not apply to service stations. (Option B)	Amend CCZ-S7 (Verandahs) as follows: ... This standard does not apply to: a. Any scheduled building identified in SCHED1 - Heritage Buildings; b. Any building where compliance with the standard results in an encroachment into the dripline of an existing street tree. <u>c. Service stations</u>
Z Energy Limited	361.126	Commercial and mixed use Zones / City Centre Zone / CCZ-S7	Amend	Considers that CCZ-S7 should be amended to have greater recognition of these existing activities and their operational and functional requirements that prevent compliance is needed, noting the investment associated with the existing commercial activities, the benefits they provide to the community and the need for them to be maintained and upgraded from time to time. It is sought that this standard recognise functional requirement in the assessment criteria. (Option C)	Amend CCZ-S7 (Verandahs) as follows: ... 1. The extent to which any non-compliance: a. Will adversely affect the comfort and convenience of pedestrians; b. Will result in further street trees being added to public space as part the development; and <u>c. Is required for on-site functional or operational needs</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Argosy Property No. 1 Limited	383.121	Commercial and mixed use Zones / City Centre Zone / CCZ-S7	Amend	Supports that this standard would not apply where compliance would result in encroachment into the dripline of an existing tree, however there is a risk that referring to "street tree" would only include trees on berms or road reserves, and exclude existing trees on private property which still contribute to streetscape. Argosy proposes amending Standard CCZ-S7 to clarify that this standard would not apply where it would result in encroachment into the dripline of any tree that is to be retained	Amend CCZ-S7 (Verandahs) as follows: This standard does not apply to: ... Any building where compliance with the standard results in an encroachment into the dripline of an existing street-tree <u>that is to be retained.</u>
Craig Palmer	492.38	Commercial and mixed use Zones / City Centre Zone / CCZ-S7	Support in part	Supports the overall requirement for verandahs within the central city especially the north-south corridors that channel the prevailing winds. These significantly reduce the less pleasant elements of the city's climate.	Retain CCZ-S7 (Verandahs) and extent as notified.
Craig Palmer	492.39	Commercial and mixed use Zones / City Centre Zone / CCZ-S7	Oppose	Opposes the lack of verandahs along the east-west thoroughfares. These have the potential to enhance the experience of walking across the city under shelter.	Seeks that verandahs are installed over time along the south side "Active Frontages" of Tennyson, Lorne, and College Streets; and Jessie, Frederick, and Haining Streets.
Craig Palmer	492.40	Commercial and mixed use Zones / City Centre Zone / CCZ-S7	Amend	Opposes the lack of verandahs along the east-west thoroughfares. These have the potential to enhance the experience of walking across the city under shelter.	Seeks that verandahs are installed over time along the south side "Active Frontages" of Tennyson, Lorne, and College Streets; and Jessie, Frederick, and Haining Streets.
Craig Palmer	492.41	Commercial and mixed use Zones / City Centre Zone / CCZ-S7	Amend	Considers that to achieve sunlight illuminating the active frontages, verandahs need to have clear glazing out to the kerbside.	Seeks that verandahs are required to have clear glazing out to the kerbside.
Precinct Properties New Zealand Limited	139.56	Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Amend	Supports CCZ-S8 in part and generally agrees with the intent of the standard, but considers that it provides insufficient exceptions for functional requirements such as vehicle entrances. Therefore seeks that the standard be amended so that only 70% of an active frontage must be built up to the street edge, in order to allow for functional requirements on the remaining 30% of the frontage.	Amend CCZ-S8 (Active frontage) as follows: ... a. Be built up to the street edge on all street boundaries and <u>along the full 70% of the width of the site boundary bordering any street boundary, subject to functional requirements.</u>
Century Group Limited	238.28	Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Support	Generally supports the balance of the standards that are proposed to apply to the City Centre Zone, subject to the specific relief sought in respect of the application of the Veranda and Active Frontages controls to the Property. The range of standards will effectively manage the design of development within the City Centre.	Retain CCZ-S8 (Active frontage control) as notified.
McDonald's	274.69	Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Oppose in part	Supports certain bulk and location standards in the Commercial and Mixed use zones the standards on active frontage and non-residential activity frontage controls are overly prescriptive.	Retain CCZ-S8 (Active frontage controls), subject to amendment outlined other submission points.
McDonald's	274.70	Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Amend	Considers that centres and commercial areas have a mixture of street typologies. Most have at least one main shopping street and while it is appropriate that these streets have high levels of activation, there are secondary frontages or streets are less important retail streets and have lower levels of pedestrian activity. It would be more appropriate to streamline the standards with portions instead included within the Design Guidance and/or as matters of discretion.	Seeks that CCZ-S8 (Active frontage controls) is amended as follows: 1. Dwellings must not locate on the ground floor of Any new building or addition to an existing building on an identified street with an active frontage for any new building, or ground level addition or alteration to an existing building, must: a. Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary; b. Provide a minimum of 60% of continuous display windows or transparent glazing along the width of the ground floor building frontage; and c. Locate the principal public entrance on the front boundary; 2. Any <u>new building or</u> ground level addition to, or alteration of, a building or structure facing a public space must not result in a featureless façade that:
The Retirement Villages Association of New Zealand Incorporated	FS126.181	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission. The RVA considers that residential activities, including retirement villages, should be permitted at ground floor.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Ryman Healthcare Limited	FS128.181	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission. Ryman considers that residential activities, including retirement villages, should be permitted at ground floor.	Disallow
Restaurant Brands Limited	349.202	Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Support	Support	Retain CCZ-S8 (Active frontage control) as notified.
Foodstuffs North Island	FS23.70	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Oppose	Submission point 349.202 seeks to retain CCZ-S8 as notified. FSNI submission point 476.64 & 476.65 seek that CCZ-S8 is amended.	Disallow / Reject submission in part.
Z Energy Limited	361.127	Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Support in part	CCZ-S8 is partially supported as it requires that buildings are built up to the street edge along the full width of the site, that glazing is provided and that the principal entrance is located on the front road boundary.	Retain CCZ-S8 (Active frontage control) with amendment.
Z Energy Limited	361.128	Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Amend	Considers that CCZ-S8 does not recognise the operational and functional requirements of existing service stations and should be amended. The following amendment is sought. (Option A)	Amend CCZ-S8 (Active frontage control) as follows: ... 2. Any new building or addition to an existing building adjoining an identified street with an active frontage control must: a. Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary <u>except where there is a functional requirement for that building to be set back from the street edge. In this case, 1b would not apply;</u> and b. Provide a minimum of 60% of continuous display windows or transparent glazing along the width of the ground floor building frontage; and c. Locate the principal public entrance on the front boundary <u>except where there is a functional requirement for the principal entrance to not front the street.</u>
Z Energy Limited	361.129	Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Amend	Considers that CCZ-S8 does not recognise the operational and functional requirements of existing service stations and should be amended. The following amendment is sought. (Option B)	Amend CCZ-S8 (Active frontage control) as follows: ... Except: This does not apply to any heritage building identified in SCHED1-heritage buildings or <u>service stations;</u> and ...
Argosy Property No. 1 Limited	383.122	Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Amend	Considers that standard CCZ-S8.1.a provides that any new building or addition to an existing building adjoining an identified street with an active frontage control must be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary. We considers that this control is overly restrictive and fails to recognise that there are robust reasons for a frontage to not be built up to the street edge along the full width of the site. For example, there may be a need for a vehicle or pedestrian entrance or public space.	Amend CCZ-S9.1 (Minimum residential unit size) as follows: a. Be built up to the street edge <u>on all street boundaries</u> and along the full width of the site bordering any street boundary, <u>excluding vehicle and pedestrian access and public open spaces</u>
Oyster Management Limited	404.81	Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Oppose in part	Considers CCZ-S8 to be overly restrictive and fails to recognise there are reasons that a frontage may not be built to the street edge along the full width of the site, e.g. to provide for vehicle or pedestrian entrance, or public space.	Amend CCZ-S8 (Active frontage control) as follows: Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary, <u>excluding vehicle and pedestrian access and public open spaces;</u>
Foodstuffs North Island	FS23.71	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S9	Oppose	Submission point 404.81 seeks to amend CCZ-S9 in a way inconsistent with amendments proposed in FSNI submission point 476.64 & 476.65.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Oyster Management Limited	404.82	Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Amend	Considers CCZ-S8 to be overly restrictive and fails to recognise there are reasons that a frontage may not be built to the street edge along the full width of the site, e.g. to provide for vehicle or pedestrian entrance, or public space.	Amend CCZ-S8 (Active frontage control) as follows: Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary, excluding vehicle and pedestrian access and public open spaces;
Willis Bond and Company Limited	416.190	Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Amend	Submitter considers that there should be more flexibility to breach the CCZ-S8 where the overall design has a positive effect on the streetscape.	Amend CCZ-S8 (Active frontage control) as follows: ... Assessment criteria where the standard is infringed: 1. The extent to which: a. Any non-compliance is required for on-site functional needs or operational needs; b. The building frontage is designed and located to create a strong visual alignment with adjoining buildings <u>or otherwise enhances the streetscape;</u> and ...
Fabric Property Limited	425.84	Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Amend	Considers that the properties at 1 Grey Street, 20 Customhouse Quay and 215 Lambton Quay are subject to the Active Frontage Control. Standard CCZ-S8.1.a provides that any new building or addition to an existing building adjoining an identified street with an active frontage control must be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary. Considers that this control is overly restrictive and fails to recognise that there are robust reasons for a frontage to not be built up to the street edge along the full width of the site. For example, there may be a need for a vehicle or pedestrian entrance or public space	Amend Standard CCZ-S9 as follows: 1. ... a. Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary, excluding vehicle and pedestrian access and public open spaces; ...
Foodstuffs North Island	476.64	Commercial and mixed use Zones / City Centre Zone / CCZ-S8	Oppose in part	Whilst supportive of certain bulk and location standards in the Commercial and Mixed Use zones, considers that the standards on active frontage and non-residential activity frontage controls are overly prescriptive. In FSNi's experience, centres and commercial areas have a mixture of street typologies. Most have at least one main shopping street and while it is appropriate that these streets have high levels of activation, there are secondary frontages or streets are less important retail streets and have lower levels of pedestrian activity. Considers that it would be more appropriate to streamline the standards with portions instead included within the Design Guidance and/or as matters of discretion.	Amend the CCZ-S8 (Active frontage control) as follows: 1. Dwellings must not locate on the ground floor of Any new building or addition to an existing building an adjoining identified street with an active frontage control <u>for any new building, or ground level addition or alteration to an existing building, must:</u> a) Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary; b) Provide a minimum of 60% of continuous display windows or transparent glazing along the width of the ground floor building frontage; and c) Locate the principal public entrance on the front boundary. Except that: This does not apply to any heritage building identified in SCHED1-heritage buildings; and 2. Any <u>new building or</u> ground level addition to, or alteration of, a building or structure facing a public space must not result in a featureless façade that: ...

Willis Bond and Company Limited	416.191	Commercial and mixed use Zones / City Centre Zone / CCZ-S9	Oppose	<p>Submitter is seeking fewer prescriptive standards.</p> <p>Submitter considers that Wellington needs to ensure that we are not unnecessarily preventing innovation by prescribing housing standards, such as minimum unit sizes and outdoor living space requirements (in particular, within the City Centre Zone). While the standards currently drafted will be appropriate for many uses, they may not suit everyone and they do not respond to emerging trends in apartment design.</p> <p>The standards also risk stifling affordable housing within the City Centre Zone by preventing more affordable building typologies.</p>	<p>Delete CCZ-S9 (Minimum residential – unit size) in its entirety.</p> <p>[Inferred decision requested].</p>
Wellington's Character Charitable Trust	FS82.151	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S9	Oppose	Considers the minimum unit standards support amenity values in the CCZ.	Disallow
LIVE WELLington	FS96.47	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S9	Oppose	Minimum unit standards support amenity values in the CCZ.	Disallow
Willis Bond and Company Limited	416.192	Commercial and mixed use Zones / City Centre Zone / CCZ-S9	Oppose	<p>Opposes CCZ-S9 as the submitter considers:</p> <ul style="list-style-type: none"> - Minimum residential unit sizes restrict the ability of developers to provide affordable housing choices and a diverse range of housing that meets market demands. - Occupiers are well-equipped to make their own decisions as to the type and size of dwelling. - Health, fire egress and overcrowding issues that arise from small sized dwellings are best dealt with by other legislation (e.g. Building Act 2004, Housing Improvement Regulations 1947, Residential Tenancies Act 1986). - Minimum unit sizes do not reflect the policy in CCZ-P4 to offer a range of housing price, type, size and tenure. 	Delete CCZ-S9 (Minimum residential – unit size) in its entirety.
Willis Bond and Company Limited	416.193	Commercial and mixed use Zones / City Centre Zone / CCZ-S9	Amend	<p>Opposes MCZ-S7 as the submitter considers:</p> <ul style="list-style-type: none"> - Minimum residential unit sizes restrict the ability of developers to provide affordable housing choices and a diverse range of housing that meets market demands. - Occupiers are well-equipped to make their own decisions as to the type and size of dwelling. - Health, fire egress and overcrowding issues that arise from small sized dwellings are best dealt with by other legislation (e.g. Building Act 2004, Housing Improvement Regulations 1947, Residential Tenancies Act 1986). - Minimum unit sizes do not reflect the policy in CCZ-P4 to offer a range of housing price, type, size and tenure. 	Seeks that if Council does decide to retain CCZ-S9 (Minimum residential – unit size) minimum residential unit sizes, it should be clearly defined that hotel accommodation, student accommodation and other similar accommodation types are distinct from residential unit sizes. The definition of residential units does not clearly exclude student accommodation and may render it subject to these minimum sizes.
Reading Wellington Properties Limited	441.7	Commercial and mixed use Zones / City Centre Zone / CCZ-S9	Support	Supports the permitted apartment sizes in CCZ-S9.	Retain CCZ-S9 (Minimum residential – unit size) as notified.
Paul Burnaby	44.18	Commercial and mixed use Zones / City Centre Zone / CCZ-S10	Amend	Considers that a provision should be made for 'juliet balconies' in CCZ-S10.	Add a provision in CCZ-S10 (Residential – outdoor living space) regarding 'juliet balconies'.
Century Group Limited	238.30	Commercial and mixed use Zones / City Centre Zone / CCZ-S10	Support	Generally supports the balance of the standards that are proposed to apply to the City Centre Zone, subject to the specific relief sought in respect of the application of the Veranda and Active Frontages controls to the Property. The range of standards will effectively manage the design of development within the City Centre.	Retain CCZ-S10 (Residential - outdoor living space) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Stratum Management Limited	249.39	Commercial and mixed use Zones / City Centre Zone / CCZ-S10	Oppose	<p>Considers that this standard requires that each residential unit must be provided with an outdoor living space of a minimum size, or that communal living space is provided. In an apartment context, private outdoor living space would be provided in the form of balcony space. There is no equivalent provision in the operative district plan. Stratum has developed various buildings, both with and without balcony space. Stratum's experience suggests that balcony spaces are rarely used in Wellington, often become storage areas, and that they are generally incompatible with typical weather conditions. At a practical level, this requirement will impose additional costs on development. The requirement to provide a 5m2 balcony for an apartment will add an additional \$60,000 to the sale price for each apartment. For an 8m2 balcony, this costs will be in the order of \$100,000. For a typical building of some 100 units, this is a \$10M cost imposition. A communal open space of some 150m2 would add about \$2M of cost. These additional costs result directly from the construction cost of the additional floor area, noting that this is additional to the minimum unit size required by CCZ-S9 (Minimum residential - unit size). The requirement will have a significant and direct impact on housing affordability. The provision of communal open space will have a similar effect.</p> <p>Stratum's recent development experience provides that the requirement is not necessary. The provision of Juliet balconies and fully openable sliding doors provide apartments with a strong connection to the outdoors. Moreover, the significant amenity provided within the public environment - public parks, the waterfront, Oriental Bay and Mt Victoria for instance - is a driving factor for the growth in central city residents.</p>	Remove standard CCZ-S10 (Residential - outdoor living space).
Kāinga Ora Homes and Communities	391.738	Commercial and mixed use Zones / City Centre Zone / CCZ-S10	Oppose	Opposes this standard and considers the City Centre is a zone where it may be appropriate to develop residential units without outdoor living space given the access to public spaces and facilities.	Delete CCZ-S10 (Residential - outdoor living space) in its entirety.
Wellington's Character Charitable Trust	FS82.141	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S10	Oppose	Considers that residential outdoor living space provides significant amenity value for residents. Considers it is not appropriate to assume that access to public spaces and facilities is a fair or adequate substitute.	Disallow

Retirement Villages Association of New Zealand Incorporated	350.302	Commercial and mixed use Zones / City Centre Zone / CCZ-S11	Amend	Opposes the minimum building separation distance (being 8 m from any other building on the same site) for retirement villages as it would prevent linked buildings. Considers that the proposed matters of discretion for retirement villages are sufficient for assessing any effects relating to building lengths.	Amend CCZ-S11 (Minimum building separation distance) as follows: 1. ... [diagram] <u>This standard does not apply to retirement villages.</u>
Jane Szentivanyi	376.10	Commercial and mixed use Zones / City Centre Zone / CCZ-S11	Oppose in part	CCZ-S11 is opposed as the proposed controls will fail to manage significant adverse effects on adjoining sites. As currently drafted, CCZ-S11 will result in significant adverse effects on Moir Street properties, as well as recognised heritage and character values which cannot be mitigated through design. As such, the provision is contrary to the objectives and policies of the plan.	Opposes CCZ-S11 (Minimum building separation distance) and seeks amendment.
Jane Szentivanyi	376.11	Commercial and mixed use Zones / City Centre Zone / CCZ-S11	Amend	Considers that CCZ-S11 should be amended to ensure that the same expectations for separation of residential buildings that apply within a site also apply to adjacent residentially zoned sites.	Amend CCZ-S11 (Minimum building separation distance) as follows: 1. Any new building or addition to an existing building used for residential activities must provide a 8m separation distance between buildings located on the same site <u>and a 5m separation distance from any residential building on any adjoining residentially zoned site</u> , as shown in Diagram 18 below. ...
Kāinga Ora Homes and Communities	391.739	Commercial and mixed use Zones / City Centre Zone / CCZ-S11	Oppose	Opposes this standard as considers it constrains design flexibility, and it is not clear what positive outcome it achieves.	Delete CCZ-S11 (Minimum building separation distance) in its entirety.
Wellington's Character Charitable Trust	FS82.142	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S11	Oppose	Considers the CCZ-S11 standard supports amenity values in CCZ of reducing dominance, shading and privacy intrusion effects.	Disallow
LIVE WELLington	FS96.42	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S11	Oppose	The CCZ-S11 standard supports amenity values in CCZ of reducing dominance, shading and privacy intrusion effects.	Disallow
Roland Sapsford	FS117.41	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S11	Oppose	The CCZ-S11 standard supports amenity values in CCZ of reducing dominance, shading and privacy intrusion effects.	Disallow
Chrissie Potter	446.11	Commercial and mixed use Zones / City Centre Zone / CCZ-S11	Amend	Considers that CCZ-S11 should be amended as the proposed controls will fail to manage significant adverse effects on adjoining sites. Considers that this should be amended to ensure that the same expectations for separation of residential buildings that apply within a site also apply to adjacent residentially zoned sites. The currently proposed 60 degree recession plane from 8m will provide negligible mitigation from allowing buildings of up to 28.5m to tower over one-two storey heritage cottages on Moir Street. The significant adverse effects include: loss of sunlight, overlooking and loss of privacy, shading, increased wind, over-dominance of building form, loss of privacy, streetscape and urban design impacts. [Refer to original submission for full reasons].	Amend CCZ-S11 (Minimum building separation distance) as follows: 1. Any new building or addition to an existing building used for residential activities must provide a 8m separation distance between buildings located on the same site, <u>and a 5m separation distance from any residential building on any adjoining residentially zoned site</u> , as shown in Diagram 18 below.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Dorothy Thompson	449.11	Commercial and mixed use Zones / City Centre Zone / CCZ-S11	Amend	<p>Considers that CCZ-S11 should be amended as the proposed controls will fail to manage significant adverse effects on adjoining sites.</p> <p>Considers that this should be amended to ensure that the same expectations for separation of residential buildings that apply within a site also apply to adjacent residentially zoned sites.</p> <p>The currently proposed 60 degree recession plane from 8m will provide negligible mitigation from allowing buildings of up to 28.5m to tower over one-two storey heritage cottages on Moir Street.</p> <p>The significant adverse effects include: loss of sunlight, overlooking and loss of privacy, shading, increased wind, over-dominance of building form, loss of privacy, streetscape and urban design impacts.</p> <p>[Refer to original submission for full reasons].</p>	<p>Amend CCZ-S11 (Minimum building separation distance) as follows:</p> <p>1. Precinct Properties New Zealand Limited	139.57	Commercial and mixed use Zones / City Centre Zone / CCZ-S12	Oppose	Considers that this standard will act as a constraint on appropriate development and design, and it is not clear what positive outcome it achieves.	Delete CCZ-S12 (Maximum building depth) in its entirety.
Century Group Limited	238.32	Commercial and mixed use Zones / City Centre Zone / CCZ-S12	Support	Generally supports the balance of the standards that are proposed to apply to the City Centre Zone, subject to the specific relief sought in respect of the application of the Veranda and Active Frontages controls to the Property. The range of standards will effectively manage the design of development within the City Centre.	Retain CCZ-S12 (Maximum building depth) as notified.
Stratum Management Limited	249.40	Commercial and mixed use Zones / City Centre Zone / CCZ-S12	Oppose	Considers that the standard appears to seek to address the creation of long and featureless building facades. This outcome would appear to be better addressed through design guidance (and associated discretion tied to the design guide) than through a standard. There are various design techniques that can address the issue that the standard is attempting to control.	Delete standard CCZ-S12 (Maximum building depth).
Restaurant Brands Limited	349.203	Commercial and mixed use Zones / City Centre Zone / CCZ-S12	Support	Support	Retain CCZ-S12 (Maximum building depth) as notified.
Foodstuffs North Island	FS23.81	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S12	Oppose	Submission point 349.203 seeks to retain CCZ-S12 as notified. FSNI submission point 476.101 seeks to delete CCZ-S12 in it's entirety.	Disallow
Retirement Villages Association of New Zealand Incorporated	350.303	Commercial and mixed use Zones / City Centre Zone / CCZ-S12	Oppose in part	Opposes the applicability of a maximum building depth standard for retirement villages. Considers that the proposed matters of discretion for CCZ-R19 and CCZ-R20 are sufficient for assessing any effects relating to building lengths.	Opposes CCZ-S12 (Maximum building depth) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.304	Commercial and mixed use Zones / City Centre Zone / CCZ-S12	Amend	Opposes the applicability of a maximum building depth standard for retirement villages. Considers that the proposed matters of discretion for CCZ-R19 and CCZ-R20 are sufficient for assessing any effects relating to building lengths.	<p>Amend CCZ-S12 (Maximum building depth) as follows:</p> <p>1. ... [diagram] <u>This standard does not apply to retirement villages.</u></p>
Kāinga Ora Homes and Communities	391.740	Commercial and mixed use Zones / City Centre Zone / CCZ-S12	Oppose	Opposes this standard as considers it constrains design flexibility, and it is not clear what positive outcome it achieves.	Delete CCZ-S12 (Minimum building depth) in its entirety.
Wellington's Character Charitable Trust	FS82.143	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S12	Oppose	Considers the CCZ-S12 standard supports amenity values in CCZ of reducing dominance.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
LIVE WELLington	FS96.43	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S12	Oppose	The CCZ-S12 standard supports amenity values in CCZ of reducing dominance.	Disallow
Roland Sapsford	FS117.42	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S12	Oppose	The CCZ-S12 standard supports amenity values in CCZ of reducing dominance.	Disallow
Willis Bond and Company Limited	416.196	Commercial and mixed use Zones / City Centre Zone / CCZ-S12	Oppose	Considers that maximum building depth is too restrictive and the submitter does not consider that it meets the section 32 Resource Management Act 1991 tests for appropriateness.	Delete CCZ-S12 (Maximum building depth) in its entirety.
Fabric Property Limited	425.85	Commercial and mixed use Zones / City Centre Zone / CCZ-S12	Oppose	Opposes CCZ-S12, which sets a maximum building depth of 25m. This standard will act as a constraint on appropriate development and design, and it is not clear what positive outcome it achieves.	Delete CCZ-S12 (Maximum Building Depth) in its entirety.
Foodstuffs North Island	476.101	Commercial and mixed use Zones / City Centre Zone / CCZ-S12	Oppose	Opposes the Centre standards which sets a maximum 25m continuous depth of any external side wall. The word “continuous” is defined as forming an unbroken whole, without being interrupted. It is unclear whether the standard would still apply if the side wall was modulated. It would appear that the intent of these standards relates to privacy and dominance effects on neighbours and preventing a long featureless building façade. Privacy and dominance effects are more appropriately dealt with via the height, height in relation to boundary and outlook space standards. Furthermore, any new building in a Centre zone that is visible from the public realm requires consent and consideration of objectives and policies that also address amenity and design. Considers that the standards on maximum building depth are unnecessary and will act as a constraint on appropriate development and design.	Delete CCZ-S12 (Maximum building depth) in its entirety.
Century Group Limited	238.33	Commercial and mixed use Zones / City Centre Zone / CCZ-S13	Support	Generally supports the balance of the standards that are proposed to apply to the City Centre Zone, subject to the specific relief sought in respect of the application of the Veranda and Active Frontages controls to the Property. The range of standards will effectively manage the design of development within the City Centre.	Retain CCZ-S13 (Outlook space) as notified.
Kāinga Ora Homes and Communities	391.741	Commercial and mixed use Zones / City Centre Zone / CCZ-S13	Oppose	Opposes this provision as considers it sets a standard that may not be possible to meet for dwellings that would otherwise provide a decent standard of living.	Delete CCZ-S13 (Outlook space) in its entirety.
Wellington's Character Charitable Trust	FS82.144	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S13	Oppose	Considers Kāinga Ora's submission provides no evidence or reassurance that residential units will inevitably achieve a decent standard of living without meeting this standard. Considers the PDP should not compromise the amenity value of providing “a decent standard of living”.	Disallow
LIVE WELLington	FS96.44	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-S13	Oppose	Kainga Ora's submission provides no evidence of reassurance that residential units will inevitably achieve a decent standard of living without meeting this standard. General Industrial Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Paul Burnaby	44.19	Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-S1	Support	Supports the Te Ngakau Civic Square Precinct provisions (precinct, objectives, policies, rules and standards), including the proposed 40m maximum height standard (CCZ-PREC01-S1) and request that the Council confirms those provisions.	Retain CCZ-PREC01-S1 precinct and associated provisions as notified.
Victoria University of Wellington Students' Association	123.60	Industrial Zones / General point on Industrial Zones / General point on Industrial Zones	Support	Considers that industrial areas should continue to be provided for as this results in areas that comply with health and safety standards. [Refer to original submission for full reasons].	Seeks that industrial areas continue to be provided for.
Greater Wellington Regional Council	351.280	Industrial Zones / General point on Industrial Zones / General point on Industrial Zones	Support in part	Considers the approach taken in this zone aligns with Policy 32 of Proposed RPS Change 1.	Retain provision, subject to amendments, as outlined other submission points.
Greater Wellington Regional Council	351.281	Industrial Zones / General point on Industrial Zones / General point on Industrial Zones	Amend	Considers the provisions of the industrial zone to contribute to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1.	Seeks to ensure the General Industrial Zone provisions have regard to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1, by including necessary objectives, policies, permitted standards and rules that provide for these qualities and characteristics.
Wellington City Youth Council	201.38	Industrial Zones / General Industrial Zone / General GIZ	Support	Supports the idea of providing business activities spaces for industrial areas of city centre.	Supports retention of the General Industrial Zone as notified
Ara Poutama Aotearoa the Department of Corrections	240.62	Industrial Zones / General Industrial Zone / General GIZ	Oppose	Considers that the zone frameworks (Commercial and General Industrial) do not enable community corrections activities, and provides discretionary activity status for these activities in the zones, in accordance with the respective default "all other activities" rules (COMZ-R4 and GIZR6). Community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification. Industrial and commercial areas provide suitable sites for community corrections activities; in particular community work components often require large sites for yard-based activities and large equipment and/or vehicle storage. Community corrections activities are a compatible and appropriate activity in commercial and industrial zones. They are consistent with the character and amenity of such zones. Furthermore, as community corrections facilities are not sensitive to the effects of commercial and industrial environments (e.g. noise, high traffic movements, etc), they are not prone to reverse sensitivity.	Opposes land use activity rule framework for the General Industrial Zone as notified and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Shelly Bay Road Limited	324.2	Industrial Zones / General Industrial Zone / General GIZ	Oppose	<p>The General Industrial zoning of 3 Shelly Bay is opposed. A Mixed Use zoning is considered to be more appropriate.</p> <p>The site known as Burnham Wharf is currently zoned as Business 2 Zone and subject to specific operational port rules. The site is currently being used as a car storage and bus parking area. The proposed district plan is to rezone this as a general industrial zone.</p> <p>The properties on the opposite side of the road are to be zoned either residential or mixed use. The General Industrial Zone does not allow for residential activities. The owners of the property request that the zone is changed from General Industrial Zone to Mixed Use to allow for the potential of future residential activities to occur. This would be in keeping with the surrounding wharf areas, such as Shelly Bay and allow for residential development in a desirable area close to Miramar.</p> <p>As this land is not held by the port authorities, it is not being used for port (or heavy industrial) activities. It will likely never be used as a functioning wharf again as the infrastructure and related buildings are removed from site. Thus, keeping this zoned for shipping or industrial activities will mean that the owners who wish to alleviate the residential housing market strain will need to put in a considerable amount of effort at the consenting stage. As such the most appropriate zone for this land is mixed use as it is a better management of resources. Any reverse sensitivity effects (such as noise and light) can be controlled with standards as is currently achieved in the central and centres area.</p>	Rezone 3 Shelly Bay from General Industrial Zone to Mixed Use Zone.
Waka Kotahi	370.406	Industrial Zones / General Industrial Zone / General GIZ	Support	Supports the provisions in this zone.	Retain the General Industrial Zone chapter as notified.
Envirowaste Services Ltd	373.31	Industrial Zones / General Industrial Zone / General GIZ	Support in part	The GIZ chapter is supported, as waste facilities must be protected from reverse sensitivity to ensure their ongoing operation. In the future the Wellington region may also need to consider composting operations for the treatment of the food waste produced. A composting facility is often difficult to establish and is best established with a buffer area in order to avoid reverse sensitivity effects.	Retain the General Industrial Zone chapter, with amendments.
Oyster Management Limited	404.83	Industrial Zones / General Industrial Zone / General GIZ	Oppose in part	Opposes the Proposed Plan in part.	Seeks that the General Industrial Zone provides for gyms.
CentrePort Limited	402.145	Industrial Zones / General Industrial Zone / General GIZ-PREC01	Amend	Considers that there should be recognition that Burnham and Miramar Wharves are located in the Coastal Marine Area and Burnham Wharf is used for Operational Port Activities. It is included in the Regional Policy Statement definition of Regionally Significant Infrastructure as being one of the three locations in Wellington Harbour for Commercial Port Activities. The land immediately adjoining Burnham Wharf is zoned General Industry there is an interrelationship with Port Activities. An alternative is to cross reference this matter in introductions of the Special Purpose Port Zone and Miramar/Burnham Precincts in the General Industrial Area.	Seeks that recognition of Miramar and Burnham Wharves location in the Coastal Marine Area and Burnham Wharf's use for Operational Port Activities is cross referenced in the introduction of the General Industrial Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Ara Poutama Aotearoa the Department of Corrections	240.63	Industrial Zones / General Industrial Zone / New GIZ	Amend	<p>Considers that the zone frameworks (Commercial and General Industrial) do not enable community corrections activities, and provides discretionary activity status for these activities in the zones, in accordance with the respective default "all other activities" rules (COMZ-R4 and GIZ-R6). Community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification.</p> <p>Industrial and commercial areas provide suitable sites for community corrections activities; in particular community work components often require large sites for yard-based activities and large equipment and/or vehicle storage.</p> <p>Community corrections activities are a compatible and appropriate activity in commercial and industrial zones. They are consistent with the character and amenity of such zones. Furthermore, as community corrections facilities are not sensitive to the effects of commercial and industrial environments (e.g. noise, high traffic movements, etc), they are not prone to reverse sensitivity.</p>	<p>Amend land use activity rule framework for the General Industrial Zone to include a permitted rule applying to "community corrections activities" as follows:</p> <p><u>GIZ-RX Community Corrections Activities</u></p> <p><u>1. Activity status: Permitted</u></p>
Ministry of Education	400.146	Industrial Zones / General Industrial Zone / New GIZ	Amend	<p>Seeks that educational facilities are provided for in the GIZ as educational facilities are considered essential social infrastructure that may need to be located in within industrial areas, particularly training facilities.</p> <p>Notwithstanding this, the Ministry acknowledges the potential effects and reverse sensitivity issues to be considered.</p> <p>The Ministry therefore request an activity status of Discretionary for educational facilities in this zone [see original submission for full reasons].</p>	<p>Add new rule to GIZ chapter (General Industrial Zone) as follows:</p> <p><u>GIZ-RX Educational Facilities</u></p> <p><u>1. Activity status: Discretionary</u></p> <p><u>Where</u></p> <p><u>GIZ-S1 – GIZ-S6 are complied with.</u></p> <p><u>Discretion is restricted to:</u></p> <p><u>a. The scale, intensity and/or character of the buildings and associated activity.</u></p> <p><u>b. Noise levels</u></p> <p><u>c. The placement of buildings on the site.</u></p> <p><u>d. The provision of suitable and safe access.</u></p> <p><u>e. The extent of impervious surfaces and landscaping.</u></p> <p><u>f. The effects of matters of reverse sensitivity.</u></p> <p><u>2. Activity status where compliance not achieved: Non-Complying</u></p>
Oyster Management Limited	404.84	Industrial Zones / General Industrial Zone / New GIZ	Amend	<p>Seeks that a new rule be added to enable "indoor exercise facilities" to be established as a Permitted activity in the General Industrial Zone. Submitter considers that the Industrial Zone is suitable for Indoor Exercise Facilities (such as gyms) because it includes large scale buildings that can accommodate such facilities and Indoor Exercise Facilities are not sensitive to the effects from industrial activities.</p>	<p>Add new rule as follows:</p> <p>GRZ-RX: Indoor exercise facilities</p> <p><u>1. Activity status: Permitted.</u></p>
KiwiRail Holdings Limited	408.130	Industrial Zones / General Industrial Zone / New GIZ	Amend	<p>Considers that building setbacks are essential to address significant safety hazards associated with the operational rail corridor.</p> <p>Parts of the KiwiRail network adjoin industrial zones which do not currently include provision for boundary setbacks for buildings and structures.</p> <p>KiwiRail seek a boundary setback of 5m from the rail corridor for all buildings and structures, and that the rail corridor be recognised as a qualifying matter in relevant non-residential zones in accordance with section 77(1)(o) of the RMA.</p> <p>Consistent with the amendment requested for the assessment criteria in the residential zones, KiwiRail considers that a matter of discretion directing consideration of impacts on the safety and efficiency of the rail corridor is appropriate in situations where the 5m setback standard is not complied with in all zones adjacent to the railway corridor.</p>	<p>Add new standard as follows:</p> <p><u>GIZ-SX:</u></p> <p><u>Boundary setbacks.</u></p> <p><u>Buildings or structures must not be located within a 5m setback from a rail corridor boundary.</u></p> <p>AND seeks that as applicable, the following matter of discretion be inserted:</p> <p><u>Matters of discretion:</u></p> <p><u>(X) The location and design of the building as it relates to the ability to safely use, access and maintain buildings without requiring access on, above or over the rail corridor.</u></p>

Envirowaste Services Ltd	373.35	Industrial Zones / General Industrial Zone / GIZ-P3	Amend	Considers that the proposed policy is not specific enough to deter sensitive activities from occurring. Further amendments are required to ensure reverse sensitivities effects are avoided.	Amend GIZ-P3 (Sensitive activities) to be more specific and to ensure reverse sensitivities effects are avoided.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
McDonald's	274.72	Industrial Zones / General Industrial Zone / GIZ-P4	Support	Supports the provision for service retail.	Retain GIZ-P4 (Commercial activities) as notified.
Restaurant Brands Limited	349.212	Industrial Zones / General Industrial Zone / GIZ-P4	Amend	Support with amendment When compared to other commercial activities that are provided for as a permitted activity within the General Industrial Zone (including trade supply retail, building improvement centre, service retail, or yard-based retail), no clear justification or rationale has been provided as to why drive-through restaurant activities cannot be provided for as a permitted activity. Consistent with the purpose of the General Industrial Zone, drive-through restaurants are compatible with the adverse effects generated from industrial activities and are of a scale and nature that do not undermine the hierarchy of Centres. It is therefore appropriate to provide for drive-through facilities as a permitted activity and to amend the policies of the General Industrial Zone accordingly.	Amend GIZ-P4 (Commercial activities) as follows: GIZ-P4 Commercial activities Avoid commercial activities in the General Industrial Zone except for: 1. Office, retail and other commercial activities which are ancillary to industrial activities; and 2. Trade supply retail, wholesalers, building improvement centres, service retail, <u>drive-through restaurant</u> , and yard based retail.
McDonald's Restaurants New Zealand Limited	FS45.2	Part 3 / Industrial Zones / General Industrial Zone / GIZ-P4	Support	McDonald's Restaurants New Zealand Limited supports this submission seeking drive-through activities as permitted in the General Industrial Zone (GIZ). In other cities, such as Auckland, drive-through restaurants are provided for a permitted activities in comparable zones.	Allow
Woolworths New Zealand	359.92	Industrial Zones / General Industrial Zone / GIZ-P4	Amend	Considers that GIZ-P4 should be amended to accommodate supermarkets within the zone and reflect the proposed discretionary activity status under Rule GIZ-R4. The proposed amendments enable consideration of operational and functional needs while also retain recognition of the centres hierarchy.	Amend GIZ-P4 (Commercial activities) as follows: Avoid commercial activities in the General Industrial Zone <u>that do not demonstrate an operational or functional need to locate within the zone and that result in unacceptable adverse effects that undermine the vibrancy of Centres, recognising that some commercial activities can be comfortably accommodated within the zone, including</u> except for: 1. Office, retail and other commercial activities which are ancillary to industrial activities; and 2. Trade supply retail, wholesalers, building improvement centres, service retail and yard based retail.
Foodstuffs North Island	FS23.27	Industrial Zones / General Industrial Zone / GIZ-P4	Support	Submission point 359.92 GIZ-P4 has similar outcomes to FSNI submission point 476.60.	Allow / Allow submission in part.
Foodstuffs North Island	476.59	Industrial Zones / General Industrial Zone / GIZ-P4	Support in part	Considers that GIZ-O3.2. (Commercial activities) acknowledges the ability of certain commercial activities that are of a nature and scale that do not undermine the hierarchy of Centres however Policy GIZ-P4 lists only certain commercial activities.	Retain GIZ-O3.2. (Commercial activities) as notified.
Foodstuffs North Island	476.60	Industrial Zones / General Industrial Zone / GIZ-P4	Amend	Considers that GIZ-O3.2. (Commercial activities) acknowledges the ability of certain commercial activities that are of a nature and scale that do not undermine the hierarchy of Centres however Policy GIZ-P4 lists only certain commercial activities.	Amend GIZ-P4 (Commercial activities) as follows: Avoid commercial activities in the General Industrial Zone except for: 1. Office, retail and other commercial activities which are ancillary to industrial activities; and or 2. Trade supply retail, wholesalers, building improvement centres, service retail and yard based retail; or <u>3. Are of a nature and scale that does not undermine the hierarchy of Centres.</u>
Restaurant Brands Limited	349.213	Industrial Zones / General Industrial Zone / GIZ-P5	Support	Support	Retain GIZ-P5 (Design of new development) as notified.
McDonald's Restaurants New Zealand Limited	FS45.3	Part 3 / Industrial Zones / General Industrial Zone / GIZ-P5	Support	McDonald's Restaurants New Zealand Limited supports this submission seeking drive-through activities as permitted in the General Industrial Zone (GIZ). In other cities, such as Auckland, drive-through restaurants are provided for a permitted activities in comparable zones.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Restaurant Brands Limited	349.214	Industrial Zones / General Industrial Zone / GIZ-P6	Support	Support	Retain GIZ-P6 (Zone interfaces) as notified.
McDonald's Restaurants New Zealand Limited	FS45.4	Part 3 / Industrial Zones / General Industrial Zone / GIZ-P6	Support	McDonald's Restaurants New Zealand Limited supports this submission seeking drive-through activities as permitted in the General Industrial Zone (GIZ). In other cities, such as Auckland, drive-through restaurants are provided for a permitted activities in comparable zones.	Allow
Fire and Emergency New Zealand	273.327	Industrial Zones / General Industrial Zone / GIZ-R3	Support	Supports the rule as it permits the delivery of new emergency service facilities within the zone. Due to urban growth, population changes and commitments to response times, FENZ may need to locate new stations in the GIZ.	Retain GIZ-R3 (Emergency service facilities) as notified.
Oyster Management Limited	404.85	Industrial Zones / General Industrial Zone / GIZ-R3	Support	Supports the Permitted activity status for emergency service facilities in the General Industrial Zone. The industrial area includes large scale buildings that are appropriate for emergency service facilities [Refer to original submission for full reason].	Retain GIZ-R3 (Emergency service facilities) as notified.
McDonald's	274.73	Industrial Zones / General Industrial Zone / GIZ-R4	Support	Supports that commercial activities (McDonald's restaurants) are permitted activities in the COMZ, MUZ and GIZ	Retain GIZ-R4.1 (Commercial activities) as notified.
McDonald's	274.74	Industrial Zones / General Industrial Zone / GIZ-R4	Support	Supports the provision for service retail.	Retain GIZ-R4 (Commercial activities) as notified.
Restaurant Brands Limited	349.215	Industrial Zones / General Industrial Zone / GIZ-R4	Amend	Support with amendment For the reasons discussed in submission point on GIZ-P4, submitter considers it appropriate to provide for drive-through restaurant activities as a permitted activity within the General Industrial Zone.	Amend GIZ-R4 (Commercial activities) as follows: GIZ-R4 Commercial activities 1. Activity status: Permitted Where: a. The activity is trade supply retail, a wholesaler, a building improvement centre, service retail, <u>drive-through restaurant</u> , or yard based retail.
McDonald's Restaurants New Zealand Limited	FS45.5	Part 3 / Industrial Zones / General Industrial Zone / GIZ-R4	Support	McDonald's Restaurants New Zealand Limited supports this submission seeking drive-through activities as permitted in the General Industrial Zone (GIZ). In other cities, such as Auckland, drive-through restaurants are provided for a permitted activities in comparable zones.	Allow
Woolworths New Zealand	359.93	Industrial Zones / General Industrial Zone / GIZ-R4	Amend	Considers that a non-complying activity status for supermarkets within the General Industrial zone (under rule GIZ-R4.2) is unnecessary and that a discretionary activity consent is more appropriate for supermarkets in the General Industrial zone. GIZ-R4 should therefore be amended. There is no prior awareness of any economic evidence prepared by the Council that identifies industrial land supply as being so significantly scarce relative to demand that non-industrial activities cannot be countenanced.	Amend GIZ-R4.2 (Commercial activities) as follows: 2. Activity status: Non-complying <u>Discretionary</u> Where: a. Compliance with the requirements of GIZ-R4.1 cannot be achieved.
Ministry of Education	400.147	Industrial Zones / General Industrial Zone / GIZ-R5	Support in part	Supports GIZ-R5 in part.	Retain GIZ-R5 (Sensitive activities not ancillary to a permitted activity) with amendment.
Ministry of Education	400.148	Industrial Zones / General Industrial Zone / GIZ-R5	Amend	Seeks GIZ-R5 be amended so that educational facilities are provided for in the GIZ. The Ministry considers that educational facilities should be provided for in the GIZ as educational facilities are considered essential social infrastructure that may need to be located in within industrial areas, particularly training facilities. Notwithstanding this, the Ministry acknowledges the potential effects and reverse sensitivity issues to be considered. The Ministry therefore request an activity status of Discretionary for educational facilities in this zone [see original submission for full reasons].	Amend GIZ-R5 (Sensitive activities not ancillary to a permitted activity) as follows: Sensitive activities not ancillary to a permitted activity (<u>Except educational facilities</u>) 1. Activity status: Non-complying

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.328	Industrial Zones / General Industrial Zone / GIZ-R8	Support	Supports the rule as the demolition or removal of buildings and structures within the GIZ is a permitted activity.	Retain GIZ-R8 (Maintenance and repair of buildings and structures) as notified.
Restaurant Brands Limited	349.216	Industrial Zones / General Industrial Zone / GIZ-R8	Support	Support	Retain GIZ-R8 (Maintenance and repair of buildings and structures) as notified.
Fire and Emergency New Zealand	273.329	Industrial Zones / General Industrial Zone / GIZ-R9	Support	Supports the rule as the demolition or removal of buildings and structures within the GIZ is a permitted activity.	Retain GIZ-R9 (Demolition or removal of buildings and structures) as notified.
Restaurant Brands Limited	349.217	Industrial Zones / General Industrial Zone / GIZ-R9	Support	Support	Retain GIZ-R9 (Demolition or removal of buildings and structures) as notified.
Greater Wellington Regional Council	351.282	Industrial Zones / General Industrial Zone / GIZ-R9	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain GIZ-R9 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.283	Industrial Zones / General Industrial Zone / GIZ-R9	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend GIZ-R9 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Fire and Emergency New Zealand	273.330	Industrial Zones / General Industrial Zone / GIZ-R10	Support	Supports the rule as the construction or, or additions and alterations to, buildings and structures within the CCZ is a permitted activity.	Retain GIZ-R10 (Construction of or additions and alterations to buildings and structures) as notified.
Restaurant Brands Limited	349.218	Industrial Zones / General Industrial Zone / GIZ-R10	Support	Support	Retain GIZ-R10 (Construction of, or additions and alterations to, buildings and structures) as notified.
Fire and Emergency New Zealand	273.331	Industrial Zones / General Industrial Zone / GIZ-R11	Support in part	Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Supports GIZ-R11 (Outdoor storage areas), with amendment.
Fire and Emergency New Zealand	273.332	Industrial Zones / General Industrial Zone / GIZ-R11	Amend	Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Amend GIZ-R11 (Outdoor storage areas) as follows: Activity status: Permitted Where: a. The storage area is screened by either a fence or landscaping of 1.8m in height from any adjoining road or site. <u>b. Screening does not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves, or other emergency response facilities.</u>
Fire and Emergency New Zealand	273.333	Industrial Zones / General Industrial Zone / GIZ-S1	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Supports GIZ-S1 (Maximum height of buildings and structures for the purpose of GIZ-R10.1 and GIZ-PREC01-R1.1), with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.334	Industrial Zones / General Industrial Zone / GIZ-S1	Amend	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Amend GIZ-S1 (Maximum height of buildings and structures for the purpose of GIZ-R10.1 and GIZ-PREC01-R1.1: This standard does not apply to: ... <u>b. Emergency service facilities up to 9m in height and hose drying towers up to 15m in height.</u>
Restaurant Brands Limited	349.219	Industrial Zones / General Industrial Zone / GIZ-S1	Support	Support	Retain GIZ-S1 (Maximum height of buildings and structures for the purpose of GIZ-R10.1 and GIZ-PREC01-R1.1) as notified.
Oyster Management Limited	404.86	Industrial Zones / General Industrial Zone / GIZ-S1	Oppose in part	Considers that the height limit for the Newlands industrial area (including 6 Hurring Place and 12 Newlands Road) should be increased from 15m to 20m, as a 15m height limit does not allow for large-scale industrial buildings expected in the General Industrial Zone and the submitter considers that this height limit is too restrictive for this area. Notes that a 20m height limit is consistent with industrial zones in other districts.	Amend GIZ-S1 (Maximum height of buildings and structures for the purpose of GIZ-R10.1 and GIZ-PREC01-R1.1) as follows: ... Height Control Area 2 ... Newlands: 15 <u>20</u> metres [Refer to original submission for maps of the submitter's properties under the Proposed District Plan].
Oyster Management Limited	404.87	Industrial Zones / General Industrial Zone / GIZ-S1	Amend	Considers that the height limit for the Newlands industrial area (including 6 Hurring Place and 12 Newlands Road) should be increased from 15m to 20m, as a 15m height limit does not allow for large-scale industrial buildings expected in the General Industrial Zone and the submitter considers that this height limit is too restrictive for this area. Notes that a 20m height limit is consistent with industrial zones in other districts.	Amend GIZ-S1 (Maximum height of buildings and structures for the purpose of GIZ-R10.1 and GIZ-PREC01-R1.1) as follows: ... Height Control Area 2 ... Newlands: 15 <u>20</u> metres [Refer to original submission for maps of the submitter's properties under the Proposed District Plan].
Restaurant Brands Limited	349.220	Industrial Zones / General Industrial Zone / GIZ-S2	Support	Support	Retain GIZ-S2 (Maximum height of buildings and structures for the purpose of GIZ-R10.2 and GIZ-PREC01-R1.2) as notified.
Oyster Management Limited	404.88	Industrial Zones / General Industrial Zone / GIZ-S2	Support in part	Supports having a separate standard for additional height as a restricted discretionary activity.	Retain GIZ-S2 (Maximum height of buildings and structures for the purpose of GIZ-R10.2 and GIZ-PREC01-R1.2) with amendments.
Oyster Management Limited	404.89	Industrial Zones / General Industrial Zone / GIZ-S2	Oppose in part	Considers the provision of a height standard as a restricted discretionary activity is useful. Submitter considers that it is appropriate to increase the Permitted height to 20m, seeks that the RD height limit be increased to 24m [Submitter also requests amendments to height limits through GIZ-S1].	Amend GIZ-S2 (Maximum height of buildings and structures for the purpose of GIZ-R10.2 and GIZ-PREC01-R1.2) as follows: Height Control Area 4 .. Newlands: 22.5 <u>24</u> metres
Oyster Management Limited	404.90	Industrial Zones / General Industrial Zone / GIZ-S2	Amend	Considers the provision of a height standard as a restricted discretionary activity is useful. Submitter considers that it is appropriate to increase the Permitted height to 20m, seeks that the RD height limit be increased to 24m [Submitter also requests amendments to height limits through GIZ-S1].	Amend GIZ-S2 (Maximum height of buildings and structures for the purpose of GIZ-R10.2 and GIZ-PREC01-R1.2) as follows: Height Control Area 4 .. Newlands: 22.5 <u>24</u> metres

Open Space and Recreation

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.335	Industrial Zones / General Industrial Zone / GIZ-S3	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Supports GIZ-S3 (Height in relation to boundary), with amendment.
Fire and Emergency New Zealand	273.336	Industrial Zones / General Industrial Zone / GIZ-S3	Amend	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Amend GIZ-S3 (Height in relation to boundary) as follows: This standard does not apply to: ... e. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height in relation to boundary by more than 3m measured vertically; and f. Lift overruns, provided these do not exceed the height in relation to boundary by more than 1m measured vertically; and g. <u>Emergency service facilities up to 9m in height and hose drying towers up to 15m in height.</u>
Restaurant Brands Limited	349.221	Industrial Zones / General Industrial Zone / GIZ-S3	Support	Support	Retain GIZ-S3 (Height in relation to boundary) as notified.
Restaurant Brands Limited	349.222	Industrial Zones / General Industrial Zone / GIZ-S4	Support	Support	Retain GIZ-S4 (Maximum gross floor area) as notified.
Restaurant Brands Limited	349.223	Industrial Zones / General Industrial Zone / GIZ-S5	Support	Support	Retain GIZ-S5 (Windows adjacent to Residential Zones) as notified.
Restaurant Brands Limited	349.224	Industrial Zones / General Industrial Zone / GIZ-S6	Support	Support	Retain GIZ-S6 (Verandah control) as notified.
Lorraine and Richard Smith	230.21	Open Space and Recreation Zones / General point on Open Space and Recreation Zones / General point on Open Space and Recreation Zones	Not specified	Considers that areas of open space are recognised as essential to human wellbeing. [Refer to original submission for details]	Seeks that alienated areas of the Wellington Town Belt are returned to enhance green space in light of the Housing Accord intensification plan.
James Coyle	307.24	Open Space and Recreation Zones / General point on Open Space and Recreation Zones / General point on Open Space and Recreation Zones	Not specified	Considers that the Town Belt is relied on too much for providing green areas and numbers may be skewed as a result. While the town belt is an asset it is not accessible to all.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
James Coyle	307.25	Open Space and Recreation Zones / General point on Open Space and Recreation Zones / General point on Open Space and Recreation Zones	Amend	Considers that more parks and public spaces should be planned to do density well, similar to Carrara Park.	Seeks that more parks and public spaces be planned.
James Coyle	307.26	Open Space and Recreation Zones / General point on Open Space and Recreation Zones / General point on Open Space and Recreation Zones	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that there are minimum walking distances to parks and public spaces based on density.
Carolyn Stephens	344.12	Open Space and Recreation Zones / General point on Open Space and Recreation Zones / General point on Open Space and Recreation Zones	Amend	Considers that the plan should be amended to provide for the addition and extension of new green space to balance increased residential densities. [Refer to original submission for full reason]	Seeks that the extent of green spaces be increased.
Greater Wellington Regional Council	351.284	Open Space and Recreation Zones / General point on Open Space and Recreation Zones / General point on Open Space and Recreation Zones	Support in part	Supports the provision for customary practices in this zone.	Retain chapter, subject to amendments outlined in other submission points.
Greater Wellington Regional Council	351.285	Open Space and Recreation Zones / General point on Open Space and Recreation Zones / General point on Open Space and Recreation Zones	Amend	Considers the provisions of the Open Space Zones to contribute to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1.	Seeks to ensure the Open Space Zone provisions have regard to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1, by including necessary objectives, policies, permitted standards and rules that provide for these qualities and characteristics.
Inner City Wellington	352.5	Open Space and Recreation Zones / General point on Open Space and Recreation Zones / General point on Open Space and Recreation Zones	Not specified	Considers that the plan may not be able to directly influence and improve Green Spaces.	Not specified.

Open Space and Recreation - Natural Open Space Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Josephine Brien / Tim Bollinger	365.5	Open Space and Recreation Zones / General point on Open Space and Recreation Zones / General point on Open Space and Recreation Zones	Not specified	Considers that here are many further issues related to inner city greenery and its protection and extension, and to do with traffic management in the inner city urban area in the District Plan.	Not specified.
Elizabeth Nagel	368.17	Open Space and Recreation Zones / General point on Open Space and Recreation Zones / General point on Open Space and Recreation Zones	Amend	Considers that the plan should be amended to provide for the addition and extension of new green space to balance increased residential densities. [Refer to original submission for full reason]	Seeks that the extent of green spaces be increased.
Te Rūnanga o Toa Rangatira	488.83	Open Space and Recreation Zones / General point on Open Space and Recreation Zones / General point on Open Space and Recreation Zones	Support in part	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the Open Space Zone chapter objectives and policies be amended to recognise mana whenua values and aspirations as well as the kaitiakitanga role that Mana Whenua has over the whenua
New Zealand Agricultural Aviation Association	40.9	Open Space and Recreation Zones / Natural Open Space Zone / General NOSZ	Amend	The NOSZ chapter has no provisions for the intermittent use of aircraft for agricultural aviation activities.	Seeks that the intermittent use of aircraft for agricultural aviation activities is included in the Proposed District Plan as permitted activity in the Natural Open Space Zone.
Coronation Real Estate Ltd	62.5	Open Space and Recreation Zones / Natural Open Space Zone / General NOSZ	Oppose	Opposes the zoning of the entire site at 9 Comber Place as NOSZ.	Seeks that the entirety of the site at 9 Comber Place is zoned Medium Density Residential Zone.
Victoria University of Wellington Students' Association	123.61	Open Space and Recreation Zones / Natural Open Space Zone / General NOSZ	Support	Considers that maintaining natural open spaces is an excellent initiative to improve community, wellbeing, and connection with nature. This not only can have mental health benefits but can also mobilise climate or environmental action.	Seeks the retention of natural open spaces.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Boston Real Estate Limited	220.3	Open Space and Recreation Zones / Natural Open Space Zone / General NOSZ	Oppose	<p>Considers that the Natural Open Space Zone is inappropriate on a portion of the site because:</p> <p>The current operative plan has split the site into two separate zones, a business area zone and a residential zone.</p> <p>The Natural Open Space Zone is intended to recognise high natural, ecological and historic heritage values.</p> <p>The surrounding properties are maintaining similar zones from the operative district plan to the proposed district plans.</p> <p>it is held in private ownership. This means that the public will have no access along this area or be able to use it.</p> <p>This site is extremely steep and no development has occurred yet due to the difficult site conditions.</p> <p>[Refer to original submission for full reason]</p>	Seeks that the Natural Open Space Zone at 62 Kaiwharawhara Road is rezoned to Medium Density Residential Zone.
New Zealand Motor Caravan Association	314.13	Open Space and Recreation Zones / Natural Open Space Zone / General NOSZ	Amend	The NOSZ chapter should be amended to allow for more permissive rules related to campgrounds. Allowing for more permissive rules around the establishment of campgrounds will make it easier to establish sites for vehicle-based camping in the Wellington District. Campgrounds can easily meet the objectives, policies and intention of this zone.	Seeks that the NOSZ (Natural Open Space Zone) chapter be amended to allow for more permissive rules related to campgrounds.
Royal Forest and Bird Protection Society	345.393	Open Space and Recreation Zones / Natural Open Space Zone / General NOSZ	Support in part	<p>Notes land in this zone contains high ecological and other values. While some areas within this zone will have vegetation removal rules applying because of the SNA overlay, there do not appear to be any other restrictions on vegetation clearance in this zone.</p> <p>We have sought a general vegetation clearance rule in the ECO chapter, outside of SNAs. It seems particularly important in this zone to have such a rule. Amend rules to include a general vegetation clearance rule</p> <p>We also seek a policy in this chapter to protect biodiversity and vegetation values outside SNAs.</p>	Add new rule NOSZ-RX to manage vegetation clearance outside of significant natural areas to protect maintain indigenous biodiversity.
Royal Forest and Bird Protection Society	345.394	Open Space and Recreation Zones / Natural Open Space Zone / General NOSZ	Support in part	<p>Notes land in this zone contains high ecological and other values. While some areas within this zone will have vegetation removal rules applying because of the SNA overlay, there do not appear to be any other restrictions on vegetation clearance in this zone.</p> <p>We have sought a general vegetation clearance rule in the ECO chapter, outside of SNAs. It seems particularly important in this zone to have such a rule. Amend rules to include a general vegetation clearance rule, or alternatively place vegetation clearance limits on the PAs currently in this chapter, in order to protect and maintain indigenous biodiversity.</p> <p>We also seek a policy in this chapter to protect biodiversity and vegetation values outside SNAs.</p>	Amend all rules in NOSZ (Natural Open Space Zone) chapter to include vegetation clearance limits on Permitted activities to protect and maintain indigenous biodiversity.
Royal Forest and Bird Protection Society	345.395	Open Space and Recreation Zones / Natural Open Space Zone / General NOSZ	Support in part	We also seek a policy in this chapter to protect biodiversity and vegetation values outside SNAs.	Add new policy NOSZ-PX to protect biodiversity and vegetation values outside significant natural areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
John Bryce	354.2	Open Space and Recreation Zones / Natural Open Space Zone / General NOSZ	Amend	Considers that if SNAs are to be on residential properties, there should be a comprehensive and meaningful strategy to incentivize willing private participation in the rezoning of residential areas to SNA. These properties should have significant natural features and not just be any area observed on an aerial photograph to be covered in native plants, such as serial Mahoe. SNAs originally proposed for private residential property represented less than 2% of Wellington's SNAs. If WCC incentives are sufficient to outweigh loss of property rights caused by the imposition of SNAs on residential property, then "most people" will willingly participate in the SNAs process, while the remaining ratepayers who do not agree with the imposition of SNA designation on their property, would represent a tiny portion of the total SNAs in Wellington. [Refer to original submission for full reason]	Seeks that if Significant Natural Areas are to apply to private residentially zoned land, incentives should be offered to incentivise willing private participation in the rezoning of residential areas to Significant Natural Areas.
John Bryce	354.3	Open Space and Recreation Zones / Natural Open Space Zone / General NOSZ	Support	Considers that natural environmental feature identified as being of genuine "National Significance" on private property should not be designated an SNA without willing consent of the landowner. Private individuals should not be made to bear the cost of the public benefit of SNA against their will.	Supports that Significant Natural Areas do not apply to private residentially zoned land without landowners' consent.
John Bryce	354.4	Open Space and Recreation Zones / Natural Open Space Zone / General NOSZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that if Significant Natural Areas are to be imposed, site coverage rules be put in place to limit buildings to a maximum allowable percentage of a residential site include any Significant Natural Area in the total area of the site.
Wellington International Airport Ltd	406.498	Open Space and Recreation Zones / Natural Open Space Zone / General NOSZ	Oppose	Opposes NOSZ (Natural Open Space Zone) zoning in the area on the Sea Wall between Lyall Bay and Moa Point and seeks that it is rezoned. The area of Natural Open Space zoned land located between Lyall Bay and Moa Point should be rezoned to an alternative land use zone which more accurately reflects the existing environment, including the significant hard engineering structures which currently protect Moa Point Road, the wastewater treatment network and Wellington International Airport from the effects of coastal erosion; or, A bespoke planning framework be inserted into the Natural Open Space Zone chapter that recognises the role and function of seawall between Lyall Bay and Moa Point and provide for its ongoing maintenance, repair and upgrade. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Opposes NOSZ (Natural Open Space Zone) zoning in the area on the Sea Wall between Lyall Bay and Moa Point and seeks that it is rezoned.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.153	Open Space and Recreation Zones / Natural Open Space Zone / General NOSZ	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.499	Open Space and Recreation Zones / Natural Open Space Zone / General NOSZ	Oppose	Considers that the Sewall between Lyall Bay and Moa Point is important infrastructure but is not captured within the definition of "Infrastructure" and therefore any maintenance upgrading repair, replacement or development of seawall does not engage infrastructure provisions of the PDP but rather the Natural Open Space Zone. Submitter questions the efficiency and effectiveness of the Natural Open Space zoning and the associated planning framework insofar as it relates to this area. [See original submission for full reason]	Seeks that an alternative land use zoning is applied to the site that more appropriately recognises the surrounding environment the seawall sits within.
Horokiwi Quarries Ltd	271.66	Open Space and Recreation Zones / Natural Open Space Zone / New NOSZ	Amend	Considers it appropriate that there is policy recognition of other activities. This could be achieved through amendment to P4 and provision of a new policy. The Natural Open Space zone is of relevance to Horokiwi as it adjoins the existing quarry to the west. Horokiwi is exploring options for expansion and wishes to ensure that the policy and rule framework within the adjoining zone provides some consenting pathway.	Insert a new policy as follows: <u>NZOS-P4a Other activities</u> <u>Enable other activities within the zone where they have regional benefits.</u>

Wellington International Airport Ltd	406.500	Open Space and Recreation Zones / Natural Open Space Zone / New NOSZ	Amend	<p>The area of Natural Open Space zoned land located between Lyall Bay and Moa Point should be rezoned to an alternative land use zone which more accurately reflects the existing environment, including the significant hard engineering structures which currently protect Moa Point Road, the wastewater treatment network and Wellington International Airport from the effects of coastal erosion; or,</p> <p>A bespoke planning framework be inserted into the Natural Open Space Zone chapter that recognises the role and function of seawall between Lyall Bay and Moa Point and provide for its ongoing maintenance, repair and upgrade.</p> <p>[See paragraphs 4.40 to 4.45 of original submission for full reason]</p>	<p>Add new objective to NOSZ chapter as follows:</p> <p><u>NOSZ-O5 Protecting Regionally Significant Infrastructure</u></p> <p><u>Recognise that the Natural Open Space Zone, between Lyall Bay and Moa Point, contains a significant hard engineering structures designed to protect regionally significant infrastructure from coastal erosion, and provide for the ongoing maintenance, repair and upgrade of such structures.</u></p> <p>(Option B).</p>
Wellington International Airport Ltd	406.501	Open Space and Recreation Zones / Natural Open Space Zone / New NOSZ	Amend	<p>The area of Natural Open Space zoned land located between Lyall Bay and Moa Point should be rezoned to an alternative land use zone which more accurately reflects the existing environment, including the significant hard engineering structures which currently protect Moa Point Road, the wastewater treatment network and Wellington International Airport from the effects of coastal erosion; or,</p> <p>A bespoke planning framework be inserted into the Natural Open Space Zone chapter that recognises the role and function of seawall between Lyall Bay and Moa Point and provide for its ongoing maintenance, repair and upgrade.</p> <p>[See paragraphs 4.40 to 4.45 of original submission for full reason]</p>	<p>Add new policy to NOSZ chapter as follows:</p> <p><u>NOSZ P8 Enabling seawalls that protect regionally significant infrastructure between Lyall Bay and Moa Point</u></p> <p><u>Enable the ongoing maintenance, repair and upgrade of the sea wall and associated activities between Lyall Bay and Moa Point.</u></p> <p>(Option B).</p>
Wellington International Airport Ltd	406.502	Open Space and Recreation Zones / Natural Open Space Zone / New NOSZ	Amend	<p>The area of Natural Open Space zoned land located between Lyall Bay and Moa Point should be rezoned to an alternative land use zone which more accurately reflects the existing environment, including the significant hard engineering structures which currently protect Moa Point Road, the wastewater treatment network and Wellington International Airport from the effects of coastal erosion; or,</p> <p>A bespoke planning framework be inserted into the Natural Open Space Zone chapter that recognises the role and function of seawall between Lyall Bay and Moa Point and provide for its ongoing maintenance, repair and upgrade.</p> <p>[See paragraphs 4.40 to 4.45 of original submission for full reason]</p>	<p>Add new policy to NOSZ chapter as follows:</p> <p><u>NOSZ-P9 Adverse effects of seawall construction, alteration and additions.</u></p> <p><u>Manage the adverse effects of construction, alterations and additions to the seawall between Lyall Bay and Moa Point, including effects on:</u></p> <ol style="list-style-type: none"> <u>1. Natural and physical resources;</u> <u>2. Amenity values;</u> <u>3. The identified values of Overlays;</u> <u>4. The safe and efficient operation of other infrastructure; and</u> <u>5. The health, well-being and safety of people and communities.</u> <p>(Option B).</p>
Wellington International Airport Ltd	406.503	Open Space and Recreation Zones / Natural Open Space Zone / New NOSZ	Amend	<p>The area of Natural Open Space zoned land located between Lyall Bay and Moa Point should be rezoned to an alternative land use zone which more accurately reflects the existing environment, including the significant hard engineering structures which currently protect Moa Point Road, the wastewater treatment network and Wellington International Airport from the effects of coastal erosion; or,</p> <p>A bespoke planning framework be inserted into the Natural Open Space Zone chapter that recognises the role and function of seawall between Lyall Bay and Moa Point and provide for its ongoing maintenance, repair and upgrade.</p> <p>[See paragraphs 4.40 to 4.45 of original submission for full reason]</p>	<p>Add new rule to NOSZ chapter as follows:</p> <p><u>NOSZ-R12 Construction, maintenance, alteration, addition, and upgrade of the seawall between Lyall Bay and Moa Point.</u></p> <ol style="list-style-type: none"> <u>1. Activity Status: Permitted</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.504	Open Space and Recreation Zones / Natural Open Space Zone / New NOSZ	Amend	<p>The area of Natural Open Space zoned land located between Lyall Bay and Moa Point should be rezoned to an alternative land use zone which more accurately reflects the existing environment, including the significant hard engineering structures which currently protect Moa Point Road, the wastewater treatment network and Wellington International Airport from the effects of coastal erosion; or,</p> <p>A bespoke planning framework be inserted into the Natural Open Space Zone chapter that recognises the role and function of seawall between Lyall Bay and Moa Point and provide for its ongoing maintenance, repair and upgrade.</p> <p>[See paragraphs 4.40 to 4.45 of original submission for full reason]</p>	<p>Add new rule to NOSZ chapter as follows:</p> <p><u>NZSO-R15 Alteration and addition to existing seawalls (including construction)</u></p> <p><u>1. Activity status: Permitted</u></p> <p><u>Where:</u></p> <p><u>a. Compliance with the Standard NOSZ-S6 is met.</u></p> <p><u>2. Activity status: Restricted Discretionary</u></p> <p><u>Where:</u></p> <p><u>a. Compliance with NOSZ-R15.1 is not met.</u></p> <p><u>Matters of discretion are:</u></p> <p><u>1. The matters in NZSO-P9.</u></p>
Wellington International Airport Ltd	406.505	Open Space and Recreation Zones / Natural Open Space Zone / New NOSZ	Amend	<p>The area of Natural Open Space zoned land located between Lyall Bay and Moa Point should be rezoned to an alternative land use zone which more accurately reflects the existing environment, including the significant hard engineering structures which currently protect Moa Point Road, the wastewater treatment network and Wellington International Airport from the effects of coastal erosion; or,</p> <p>A bespoke planning framework be inserted into the Natural Open Space Zone chapter that recognises the role and function of seawall between Lyall Bay and Moa Point and provide for its ongoing maintenance, repair and upgrade.</p> <p>[See paragraphs 4.40 to 4.45 of original submission for full reason]</p>	<p>Add new standard to NOSZ chapter as follows:</p> <p><u>NOSZ-S6 Seawall structures between Lyall Bay and Moa Point</u></p> <p><u>1. Maintenance, repair, upgrade construction, addition and alteration to the seawall located between Lyall Bay and Moa Point:</u></p> <p><u>a. Any addition shall add no more than 1m in vertical projection to the structure, as it existed on the date on [insert date plan is made operative].</u></p> <p><u>Assessment criteria where the standard is not met:</u></p> <p><u>1. The extent to which the additional height is necessary to provide for functional needs or operational needs of the activities on the site; and</u></p> <p><u>2. Whether topographical or other site constraints make compliance with the standard impractical.</u></p> <p><u>3. The importance of protecting the adjacent regionally significant infrastructure.</u></p>
KiwiRail Holdings Limited	408.131	Open Space and Recreation Zones / Natural Open Space Zone / New NOSZ	Amend	<p>Considers that building setbacks are essential to address significant safety hazards associated with the operational rail corridor.</p> <p>Parts of the KiwiRail network adjoin the natural open space zone which does not currently include provision for boundary setbacks for buildings and structures.</p> <p>KiwiRail seek a boundary setback of 5m from the rail corridor for all buildings and structures, and that the rail corridor be recognised as a qualifying matter in relevant non-residential zones in accordance with section 77(1)(o) of the RMA.</p> <p>Consistent with the amendment requested for the assessment criteria in the residential zones, KiwiRail considers that a matter of discretion directing consideration of impacts on the safety and efficiency of the rail corridor is appropriate in situations where the 5m setback standard is not complied with in all zones adjacent to the railway corridor.</p>	<p>Add new standard as follows:</p> <p><u>NOSZ-SX:</u></p> <p><u>Boundary setbacks</u></p> <p><u>Buildings or structures must not be located within a 5m setback from a rail corridor boundary.</u></p> <p>AND seeks that as applicable, the following matter of discretion be inserted:</p> <p><u>Matters of discretion:</u></p> <p><u>(X) The location and design of the building as it relates to the ability to safely use, access and maintain buildings without requiring access on, above or over the rail corridor.</u></p>
Kilmarston Developments Limited and Kilmarston Properties Limited	290.63	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O1	Oppose in part	<p>Considers that provisions limit the ability for the applicant to install a reservoir to service the site and the wider Ngaio area. The submitter notes that their subdivision consent includes the location of a reservoir within the proposed NOSZ.</p>	<p>Seeks amendments to permit reservoir in Natural Open Space Zone.</p> <p>[inferred decision requested]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Adam Groenewegen	FS46.5	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-01	Oppose	Opposes modifying the NOSZ in the way proposed as a reservoir of the size planned is completely out of scale and nature of the proposed zoning which is designed to protect the high amenity values of land surrounding Crows Nest. Barry Cottier has had previous consents for land use and subdivisions that resulted from a controversial environment court proceeding. He has failed to act on those consents and they have lapsed. A Code of Compliance issued earlier in 2022 for clearance of all vegetation from previously planned earthworks areas was issued by Council on the basis that previous land use consents had lapsed. In 2019 Barry Cottier proposed a complete rework of the earthworks and subdivision plan to garner council support for extending the consents, that did not feature any reservoir. A master plan process was promised but has not been actioned.	Disallow / Disallow that part of the submission that seeks to enable a large reservoir to be built in a NOSZ or on land that is proposed to be NOSZ.
Jo McKenzie	FS64.5	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-01	Oppose	Jo McKenzie opposes modifying the NOSZ in the way proposed as a reservoir of the size planned is completely out of scale and nature of the proposed zoning which is designed to protect the high amenity values of land surrounding Crows Nest. The original submitter has had previous consents for land use and subdivisions that resulted from a controversial environment court proceeding. Jo McKenzie considers that original submitter has failed to act on those consents and they have lapsed. A Code of Compliance issued earlier in 2022 for clearance of all vegetation from previously planned earthworks areas was issued by Council on the basis that previous land use consents had lapsed. In 2019 the original submitter proposed a complete rework of the earthworks and subdivision plan to garner council support for extending the consents, that did not feature any reservoir. A master plan process was promised but has not been actioned.	Disallow / Disallow the part of the submission that seeks to enable a large reservoir to be built in a NOSZ or on land that is proposed to be NOSZ.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.31	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-01	Oppose	Forest & Bird does not support amendments to broadly permit reservoir construction in Natural Open Space Zone. If this submitter seeks to build such a utility, then it should be subject to a private plan change or similar open process. Amending districtwide provisions is not appropriate when the submitter is seeking to construct a reservoir in a specific location.	Disallow
Andy Foster	FS86.54	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-01	Support	Considers that it is reasonable to allow a reservoir to be constructed on the rural – Open Space part of the land to service new development and existing surrounding suburbs. Care should be taken about how it is designed to fit in with the landform, landscape and vegetation. [See original Further Submission for full reasoning]. [Inferred reference to 290.63]	Allow
Kilmarston Developments Limited and Kilmarston Properties Limited	290.64	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-01	Amend	Considers that provisions limit the ability for the applicant to install a reservoir to service the site and the wider Ngaio area. The submitter notes that their subdivision consent includes the location of a reservoir within the proposed NOSZ.	Seeks that NOSZ-01 (Purpose) is amended to include wording for appropriate infrastructure to be located within the Natural Open Space Zone. [inferred decision requested]
Adam Groenewegen	FS46.6	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-01	Oppose	Opposes modifying the NOSZ in the way proposed as a reservoir of the size planned is completely out of scale and nature of the proposed zoning which is designed to protect the high amenity values of land surrounding Crows Nest. Barry Cottier has had previous consents for land use and subdivisions that resulted from a controversial environment court proceeding. He has failed to act on those consents and they have lapsed. Royal Forest and Bird Protection Society of New Zealand Inc	FS85.32	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O1	Oppose	Forest & Bird does not support amendments to broadly permit reservoir construction in Natural Open Space Zone. If this submitter seeks to build such a utility, then it should be subject to a private plan change or similar open process. Amending districtwide provisions is not appropriate when the submitter is seeking to construct a reservoir in a specific location.	Disallow
Andy Foster	FS86.55	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O1	Support	<p>Considers that it is reasonable to allow a reservoir to be constructed on the rural – Open Space part of the land to service new development and existing surrounding suburbs. Care should be taken about how it is designed to fit in with the landform, landscape and vegetation.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to 290.63]</p>	Allow
WCC Environmental Reference Group	377.482	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O1	Amend	Considers it appropriate to include wording to seek that natural open space areas are managed in a way so as to improve water quality and enhance habitat recognising that many of these areas include 'green' and 'blue' corridors of importance to Wellington City	Amend NOSZ-O1 (Purpose) as follows: Natural open space areas are <u>predominantly</u> used by the public for informal recreation activities, within un-developed natural areas, in such a way that protects, and where possible enhances, <u>water quality and biodiversity</u> and the predominant character and amenity values of the Natural Open Space Zone which include:
Wellington International Airport Ltd	406.506	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O1	Oppose	<p>Opposes this provision as they create an unduly onerous consenting pathway for the ongoing maintenance, repair and upgrading of the seawall between Lyall Bay and Moa Point.</p> <p>[See paragraphs 4.40 to 4.45 of original submission for full reason]</p>	Opposes NOSZ-O1 (Purpose) and seeks amendment.
Wellington International Airport Ltd	406.507	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O1	Amend	<p>Opposes this provision as they create an unduly onerous consenting pathway for the ongoing maintenance, repair and upgrading of the seawall between Lyall Bay and Moa Point.</p> <p>[See paragraphs 4.40 to 4.45 of original submission for full reason]</p>	Seeks that NOSZ-O1 (Purpose) is amended to make an exemption for the area of the seawall and associated structures above mean high water springs between Lyall Bay and Moa Point.
Wellington International Airport Ltd	406.508	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O1	Amend	<p>Opposes this provision as they create an unduly onerous consenting pathway for the ongoing maintenance, repair and upgrading of the seawall between Lyall Bay and Moa Point.</p> <p>[See paragraphs 4.40 to 4.45 of original submission for full reason]</p>	Seeks that NOSZ-O1 (Purpose) is amended to enable the maintenance, repair and upgrading of the existing seawall located between Lyall Bay and Moa Point.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.65	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O2	Support in part	<p>Considers that it is important that proposed NOSZ is introduced to protect the recreational, natural, landscape and ecological values of the Open Space areas that the Submitter owns.</p> <p>The Submitter currently permits access onto his land for informal recreation by the public. The land holding provide informal connections from Ngaio to Crow's Nest and the Skyline Walkway– both of which are entirely located within the proposed NOSZ.</p> <p>The Submitter considers this zoning on the balance of the Submitters land acceptable, subject to agreement being reached by WCC with Submitter on the appropriate tenure of the land.</p> <p>[Refer to original submission for full reason]</p>	No relief sought.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Adam Groenewegen	FS46.13	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O2	Oppose	Considers that while Kilmarston Development's support of the NOSZ is commendable for the SW area of their land, the zoning should not and cannot be conditional on appropriate tenure arrangements. The NOSZ zoning is entirely in keeping with the land's very high biodiversity values. It has some of the best examples of native forest in Wellington with mature podocarps such as matai, miro and totara interspersed in mature tawa and kohekohe forest. The natural values here are incredibly high and support a widening variety of resident native birds such as kakariki, kaka, kereru and occasionally bellbird (korimako). These values were recognised in the conditions of the environment court consents and the local community are well aware of the special nature of this land. While the community is very appreciative of being able to use the land over the years, it is inappropriate to suggest zoning of this sort is conditional on the land being purchased by WCC. Much of this land is already zoned Open Space B so the proposed District Plan is merely translating this existing status to its new equivalent.	Disallow / Disallow that part of the submission that suggests tying the NOSZ zoning to the future tenure of the land. The proposed zoning should be retained as unconditional for the area as mapped and currently Open Space B.
Jo McKenzie	FS64.13	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O2	Oppose	Considers that while Kilmarston Development's support of the NOSZ is commendable for the SW area of their land, the zoning should not and cannot be conditional on appropriate tenure arrangements. The NOSZ zoning is entirely in keeping with the land's very high biodiversity values. It has some of the best examples of native forest in Wellington with mature podocarps such as matai, miro and totara interspersed in mature tawa and kohekohe forest. The natural values here are incredibly high and support a widening variety of resident native birds such as kakariki, kaka, kereru and occasionally bellbird (korimako). These values were recognised in the conditions of the environment court consents and the local community are well aware of the special nature of this land. Considers that while the community is very appreciative of being able to use the land over the years, it is inappropriate to suggest zoning of this sort is conditional on the land being purchased by WCC. Disallow / Disallow the part of the submission that suggests tying the NOSZ zoning to the future tenure of the land. The proposed zoning should be retained as unconditional for the area mapped and currently Open Space B.
WCC Environmental Reference Group	377.483	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O2	Amend	Considers it appropriate to include wording to seek that adverse effects are not 'managed effectively' but rather, avoided, remedied or mitigated: this provides a clearer signal as to the importance of environmental protection of these areas as part of providing for their character and amenity.	Amend NOSZ-O2 (Managing effects) as follows: Adverse effects of activities undertaken in the Natural Open Space Zone at the zone interface and surrounding area are avoided, remedied or mitigated .
Wellington International Airport Ltd	406.509	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O2	Oppose	Opposes this provision as they create an unduly onerous consenting pathway for the ongoing maintenance, repair and upgrading of the seawall between Lyall Bay and Moa Point. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Opposes NOSZ-O2 (Managing effects) and seeks amendment.
Wellington International Airport Ltd	406.510	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O2	Amend	Opposes this provision as they create an unduly onerous consenting pathway for the ongoing maintenance, repair and upgrading of the seawall between Lyall Bay and Moa Point. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Seeks that NOSZ-O2 (Managing effects) is amended to make an exemption for the area of the seawall and associated structures above mean high water springs between Lyall Bay and Moa Point.
Wellington International Airport Ltd	406.511	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O2	Amend	Opposes this provision as they create an unduly onerous consenting pathway for the ongoing maintenance, repair and upgrading of the seawall between Lyall Bay and Moa Point. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Seeks that NOSZ-O2 (Managing effects) is amended to enable the maintenance, repair and upgrading of the existing seawall located between Lyall Bay and Moa Point.
Taranaki Whānui ki te Upoko o te Ika	389.106	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-O3	Support in part	Supports NOSZ-O3 (Mana whenua) in principle.	Retain NOSZ-O3 (Mana whenua) as notified. [Inferred decision requested]
Horokiwi Quarries Ltd	271.67	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P1	Not specified	Considers that if amendments sought in relation to NOSZ-P4 are not accepted, then NOSZ-P1 be amended to recognise other activities. On the basis policy NOSZ-P4 is amended to recognise other activities, Horokiwi is neutral on policy NOSZ-P1.	Seeks that NOSZ-P1 (Enabled activities) is amended to recognise other activities, if amendments to NOSZ-P4 (Potentially compatible activities) are not accepted.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.484	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P1	Support	Considers open space areas are areas of recreation and activity; enabling activities consistent with the purpose of these areas is part of enabling their cultural and amenity value.	Retain NOSZ-P1 (Enabled activities) as notified.
Wellington International Airport Ltd	406.512	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P1	Oppose	Opposes this provision as they create an unduly onerous consenting pathway for the ongoing maintenance, repair and upgrading of the seawall between Lyall Bay and Moa Point. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Opposes NOSZ-P1 (Enabled Activities) and seeks amendment.
Wellington International Airport Ltd	406.513	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P1	Amend	Opposes this provision as they create an unduly onerous consenting pathway for the ongoing maintenance, repair and upgrading of the seawall between Lyall Bay and Moa Point. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Seeks that NOSZ-P1 (Enabled Activities) is amended to make an exemption for the area of the seawall and associated structures above mean high water springs between Lyall Bay and Moa Point.
Wellington International Airport Ltd	406.514	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P1	Amend	Opposes this provision as they create an unduly onerous consenting pathway for the ongoing maintenance, repair and upgrading of the seawall between Lyall Bay and Moa Point. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Seeks that NOSZ-P1 (Enabled Activities) is amended to enable the maintenance, repair and upgrading of the existing seawall located between Lyall Bay and Moa Point.
WCC Environmental Reference Group	377.485	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P2	Support	Considers open space areas are areas of recreation and activity; enabling activities consistent with the purpose of these areas is part of enabling their cultural and amenity value.	Retain NOSZ-P2 (Small scale mobile commercial activities) as notified.
WCC Environmental Reference Group	377.486	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P3	Amend	Considers open space areas are areas of recreation and activity; recognising that some reserves may have as part of their purpose provision for rural activities, this policy is appropriate. However given the freshwater quality issues the City must urgently address, and the importance the city and its communities are putting on enhancement of native biodiversity, we seek that this policy be reworded to specifically require a focus on water quality and biodiversity.	Amend NOSZ-P3 (Rural activities) as follows: Only allow rural activities such as grazing or forestry where they are part of a management programme identified in the relevant reserve management plan for the area, <u>and where specific provision is made to avoid, remedy or mitigate adverse effects on freshwater and native biodiversity.</u>
Horokiwi Quarries Ltd	271.68	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P4	Amend	Considers it appropriate that there is policy recognition of other activities. This could be achieved through amendment to P4 and provision of a new policy. The Natural Open Space zone is of relevance to Horokiwi as it adjoins the existing quarry to the west. Horokiwi is exploring options for expansion and wishes to ensure that the policy and rule framework within the adjoining zone provides some consenting pathway.	Amend Policy NOSZ-P4 (Potentially compatible activities) as follows: Only Allow other activities to establish where it can be demonstrated that they are compatible with the purpose, character and amenity values of the zone, having regard to whether: ...
Kilmarston Developments Limited and Kilmarston Properties Limited	290.66	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P4	Oppose in part	Considers that provisions limit the ability for the applicant to install a reservoir to service the site and the wider Ngaio area. The submitter notes that their subdivision consent includes the location of a reservoir within the proposed NOSZ.	Seeks that NOSZ-P4 (Potentially compatible activities) is amended to include wording for appropriate infrastructure to be located within the Natural Open Space Zone. [inferred decision requested]
Adam Groenewegen	FS46.7	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P4	Oppose	Opposes modifying the NOSZ in the way proposed as a reservoir of the size planned is completely out of scale and nature of the proposed zoning which is designed to protect the high amenity values of land surrounding Crows Nest. Barry Cottier has had previous consents for land use and subdivisions that resulted from a controversial environment court proceeding. He has failed to act on those consents and they have lapsed. A Code of Compliance issued earlier in 2022 for clearance of all vegetation from previously planned earthworks areas was issued by Council on the basis that previous land use consents had lapsed. In 2019 Barry Cottier proposed a complete rework of the earthworks and subdivision plan to garner council support for extending the consents, that did not feature any reservoir. A master plan process was promised but has not been actioned.	Disallow / Disallow that part of the submission that seeks to enable a large reservoir to be built in a NOSZ or on land that is proposed to be NOSZ.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Jo McKenzie	FS64.7	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P4	Oppose	<p>Jo McKenzie opposes modifying the NOSZ in the way proposed as a reservoir of the size planned is completely out of scale and nature of the proposed zoning which is designed to protect the high amenity values of land surrounding Crows Nest. Kilmarston Developments Limited and Kilmarston Properties Limited	290.67	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P4	Amend	<p>Considers that provisions limit the ability for the applicant to install a reservoir to service the site and the wider Ngaio area. The submitter notes that their subdivision consent includes the location of a reservoir within the proposed NOSZ.</p>	<p>Seeks that NOSZ-O1 is amended to include wording for appropriate infrastructure to be located within the Natural Open Space Zone.</p> <p>[inferred decision requested]</p>
Adam Groenewegen	FS46.8	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P4	Oppose	<p>Opposes modifying the NOSZ in the way proposed as a reservoir of the size planned is completely out of scale and nature of the proposed zoning which is designed to protect the high amenity values of land surrounding Crows Nest. Barry Cottier has had previous consents for land use and subdivisions that resulted from a controversial environment court proceeding. He has failed to act on those consents and they have lapsed. A Code of Compliance issued earlier in 2022 for clearance of all vegetation from previously planned earthworks areas was issued by Council on the basis that previous land use consents had lapsed. In 2019 Barry Cottier proposed a complete rework of the earthworks and subdivision plan to garner council support for extending the consents, that did not feature any reservoir. A master plan process was promised but has not been actioned.</p>	Disallow / Disallow that part of the submission that seeks to enable a large reservoir to be built in a NOSZ or on land that is proposed to be NOSZ.
Jo McKenzie	FS64.8	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P4	Oppose	<p>Jo McKenzie opposes modifying the NOSZ in the way proposed as a reservoir of the size planned is completely out of scale and nature of the proposed zoning which is designed to protect the high amenity values of land surrounding Crows Nest. The original submitter has had previous consents for land use and subdivisions that resulted from a controversial environment court proceeding.</p> <p>Jo McKenzie considers that original submitter has failed to act on those consents and they have lapsed. A Code of Compliance issued earlier in 2022 for clearance of all vegetation from previously planned earthworks areas was issued by Council on the basis that previous landuse consents had lapsed. In 2019 the original submitter proposed a complete rework of the earthworks and subdivision plan to garner council support for extending the consents, that did not feature any reservoir. A master plan process was promised but has not been actioned.</p>	Disallow / Disallow the part of the submission that seeks to enable a large reservoir to be built in a NOSZ or on land that is proposed to be NOSZ.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Andy Foster	FS86.57	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P4	Support	Considers that it is reasonable to allow a reservoir to be constructed on the rural – Open Space part of the land to service new development and existing surrounding suburbs. Care should be taken about how it is designed to fit in with the landform, landscape and vegetation. [See original Further Submission for full reasoning]. [Inferred reference to 290.67]	Allow
WCC Environmental Reference Group	377.487	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P4	Support	Considers open space areas are areas of recreation and activity; enabling activities consistent with the purpose of these areas is part of enabling their cultural and amenity value.	Retain NOSZ-P4 (Potentially compatible activities) as notified.
Wellington International Airport Ltd	406.515	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P4	Oppose	Opposes this provision as they create an unduly onerous consenting pathway for the ongoing maintenance, repair and upgrading of the seawall between Lyall Bay and Moa Point. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Opposes NOSZ-P4 (Potentially compatible activities) and seeks amendment.
Wellington International Airport Ltd	406.516	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P4	Amend	Opposes this provision as they create an unduly onerous consenting pathway for the ongoing maintenance, repair and upgrading of the seawall between Lyall Bay and Moa Point. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Seeks that NOSZ-P4 (Potentially compatible activities) is amended to make an exemption for the area of the seawall and associated structures above mean high water springs between Lyall Bay and Moa Point.
Wellington International Airport Ltd	406.517	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P4	Amend	Opposes this provision as they create an unduly onerous consenting pathway for the ongoing maintenance, repair and upgrading of the seawall between Lyall Bay and Moa Point. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Seeks that NOSZ-P4 (Potentially compatible activities) is amended to enable the maintenance, repair and upgrading of the existing seawall located between Lyall Bay and Moa Point.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.68	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P5	Oppose in part	Considers that provisions limit the ability for the applicant to install a reservoir to service the site and the wider Ngaio area. The submitter notes that their subdivision consent includes the location of a reservoir within the proposed NOSZ.	Seeks that NOSZ-P5 (Enabled buildings and structures) is amended to include wording for appropriate infrastructure to be located within the Natural Open Space Zone. [inferred decision requested]
Adam Groenewegen	FS46.9	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P5	Oppose	Opposes modifying the NOSZ in the way proposed as a reservoir of the size planned is completely out of scale and nature of the proposed zoning which is designed to protect the high amenity values of land surrounding Crows Nest. Barry Cottier has had previous consents for land use and subdivisions that resulted from a controversial environment court proceeding. He has failed to act on those consents and they have lapsed. A Code of Compliance issued earlier in 2022 for clearance of all vegetation from previously planned earthworks areas was issued by Council on the basis that previous land use consents had lapsed. In 2019 Barry Cottier proposed a complete rework of the earthworks and subdivision plan to garner council support for extending the consents, that did not feature any reservoir. A master plan process was promised but has not been actioned.	Disallow / Disallow that part of the submission that seeks to enable a large reservoir to be built in a NOSZ or on land that is proposed to be NOSZ.
Jo McKenzie	FS64.9	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P5	Oppose	Jo McKenzie opposes modifying the NOSZ in the way proposed as a reservoir of the size planned is completely out of scale and nature of the proposed zoning which is designed to protect the high amenity values of land surrounding Crows Nest. The original submitter has had previous consents for land use and subdivisions that resulted from a controversial environment court proceeding. Jo McKenzie considers that original submitter has failed to act on those consents and they have lapsed. A Code of Compliance issued earlier in 2022 for clearance of all vegetation from previously planned earthworks areas was issued by Council on the basis that previous land use consents had lapsed. In 2019 the original submitter proposed a complete rework of the earthworks and subdivision plan to garner council support for extending the consents, that did not feature any reservoir. Wellington International Airport Ltd	406.525	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-R11	Amend	Opposes this provision as they create an unduly onerous consenting pathway for the ongoing maintenance, repair and upgrading of the seawall between Lyall Bay and Moa Point. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Seeks that NOSZ-R11 (Any other activity not provided for as a permitted activity) is amended to exclude the area of the seawall and associated structures above mean high water springs between Lyall Bay and Moa Point
Wellington International Airport Ltd	406.526	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-R11	Amend	Opposes this provision as they create an unduly onerous consenting pathway for the ongoing maintenance, repair and upgrading of the seawall between Lyall Bay and Moa Point. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Seeks that NOSZ-R11 (Any other activity not provided for as a permitted activity) is amended to enable the maintenance, repair and upgrading of the existing seawall located between Lyall Bay and Moa Point.
Greater Wellington Regional Council	351.286	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-R12	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain NOSZ-R12 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.287	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-R12	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend NOSZ-R12 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Wellington International Airport Ltd	406.527	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-R12	Support	Supports the permitted activity status for the demolition, removal, maintenance and repair of structures, such as sea walls, within the Natural Open Space Zone. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Retain NOSZ-R12 (Demolition or removal of buildings and structures) as notified, subject to adoption of submitters other submission points.
Wellington International Airport Ltd	406.528	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-R13	Support	Supports the permitted activity status for the demolition, removal, maintenance and repair of structures, such as sea walls, within the Natural Open Space Zone. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Retain NOSZ-R13 (Maintenance and repair of buildings and structures) as notified, subject to adoption of submitters other submission points.
Wellington International Airport Ltd	406.529	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-R14	Support in part	Supports this rule in part. Considers that a further amendment is required to ensure that the rule does not inadvertently capture the seawall between Lyall Bay and Moa Point.	Supports NOSZ-R14 (Construction, alteration of and addition to buildings and structures) in part and seeks amendment.
Wellington International Airport Ltd	406.530	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-R14	Amend	Supports this rule in part. Considers that a further amendment is required to ensure that the rule does not inadvertently capture the seawall between Lyall Bay and Moa Point.	Amend NOSZ-R14 (Construction, alteration of and addition to buildings and structures) as follows: NOSZ-R14 Construction, alteration of and addition to buildings and structures (<u>excluding seawalls</u>) ...
Wellington International Airport Ltd	406.531	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-S1	Support in part	Supports this rule in part. Submits that a further amendment is required to ensure that the standards appropriately provide for the height of seawall structures between Lyall Bay and Moa Point.	Supports NOSZ-S1 (Maximum height of buildings and structures) and seeks amendment.
Wellington International Airport Ltd	406.532	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-S1	Amend	Supports this rule in part. Submits that a further amendment is required to ensure that the standards appropriately provide for the height of seawall structures between Lyall Bay and Moa Point.	Amend NOSZ-S1 (Maximum height of buildings and structures) as follows: NOSZ-S1 Maximum height of buildings and structures (<u>excluding seawalls</u>) 1. Buildings and structures (<u>excluding seawalls</u>) must not exceed the following maximum height limits above ground level.

Open Space and Recreation - Open Space Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.533	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-S2	Oppose	Opposes this rule in part. Submits that a further amendment is required to ensure that the standards appropriately provide for the height of seawall structures between Lyall Bay and Moa Point.	Opposes NOSZ-S2 (Maximum Gross Floor Area) and seeks amendment.
Wellington International Airport Ltd	406.534	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-S2	Amend	Supports this rule in part. Submits that a further amendment is required to ensure that the standards appropriately provide for the height of seawall structures between Lyall Bay and Moa Point.	Amend NOSZ-S2 (Maximum Gross Floor Area) as follows: NOSZ-S2 Maximum gross floor area 1. This standard does not apply to: a. Additions and alterations to existing buildings at Karori Wildlife Sanctuary (Zealandia, Legal Description Lot 1 DP 313319). <u>b. The maintenance, repair, upgrade, construction, addition or alteration to the seawall located between Lyall Bay and Moa Point.</u> ...
Wellington International Airport Ltd	406.535	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-S3	Oppose	Opposes this rule in part. Submits that a further amendment is required to ensure that the standards appropriately provide for the height of seawall structures between Lyall Bay and Moa Point.	Opposes NOSZ-S3 (Maximum Building Coverage) and seeks amendment.
Wellington International Airport Ltd	406.536	Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-S3	Amend	Supports this rule in part. Submits that a further amendment is required to ensure that the standards appropriately provide for the height of seawall structures between Lyall Bay and Moa Point.	Amend NOSZ-S3 (Maximum Building Coverage) as follows: NOSZ-S3 Maximum building coverage 1. Maximum building coverage is 5% <u>This standard does not apply to:</u> <u>a. The maintenance, repair, upgrade, construction, addition or alteration to the seawall located between Lyall Bay and Moa Point.</u>
New Zealand Agricultural Aviation Association	40.10	Open Space and Recreation Zones / Open Space Zone / General OSZ	Amend	The OSZ chapter has no provisions for the intermittent use of aircraft for agricultural aviation activities.	Seeks that the intermittent use of aircraft for agricultural aviation activities is included in the Proposed District Plan as permitted activity in the Open Space Zone. [Inferred decision requested]
Kilmarston Developments Limited and Kilmarston Properties Limited	290.70	Open Space and Recreation Zones / Open Space Zone / General OSZ	Not specified	Considers that the overlays (SAL) do not give effect to both the proposed Medium Density Residential Zone of the Proposed District Plan and National Policy Statement for Urban Development. Considers that there is an opportunity to complete important public linkages to areas that the public value (Crows Nest and Skyline Track for example) rest with an appropriate pattern of development for the land. Kilmarston remain willing to assist Council realise those opportunities. [see original submission]	Seeks that provisions are included for infrastructure to be permitted within the Natural Open Space Zone (NOSZ) to provide for a reservoir. [inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.36	Open Space and Recreation Zones / Open Space Zone / New OSZ	Oppose	Forest & Bird does not support amendments to broadly permit reservoir construction in Natural Open Space Zone. If this submitter seeks to build such a utility, then it should be subject to a private plan change or similar open process. Amending districtwide provisions is not appropriate when the submitter is seeking to construct a reservoir in a specific location.	Disallow
New Zealand Motor Caravan Association	314.14	Open Space and Recreation Zones / Open Space Zone / General OSZ	Amend	The NOSZ chapter should be amended to allow for more permissive rules related to campgrounds. Allowing for more permissive rules around the establishment of campgrounds will make it easier to establish sites for vehicle-based camping in the Wellington District. Campgrounds can easily meet the objectives, policies and intention of this zone.	Seeks that the OSZ (Open Space Zone) chapter be amended to allow for more permissive rules related to campgrounds.
Mt Victoria Residents' Association	342.28	Open Space and Recreation Zones / Open Space Zone / General OSZ	Amend	Considers that the amount of public and green space to be provided needs to be made explicit.	Clarify the 'Open Space' chapter to explicitly state the amount of public and green spaces provided.
Mt Victoria Residents' Association	342.29	Open Space and Recreation Zones / Open Space Zone / General OSZ	Amend	Considers that access to green public space in the inner city and suburbs must include provision for children. Development of the Canal Reserve should also consider this.	Seeks that provisions be made for children's access to green public spaces.
Mt Victoria Residents' Association	342.30	Open Space and Recreation Zones / Open Space Zone / General OSZ	Amend	Considers that three areas within Mt Victoria require special amenity protection in the District Plan: - Mt Victoria bush and lookout - Town Belt - Canal Reserve - St Gerards	Seeks that special amenity protection be provided to: - Mt Victoria bush and lookout - Town Belt - Canal Reserve - St Gerards
Roseneath Residents' Association	FS49.10	Open Space and Recreation Zones / Open Space Zone / General OSZ	Support	Supports the approach of the MVRA submission, which seeks to protect and enhance the townscape of Mount Victoria. While MVRA particularly stresses the importance of protecting the much admired townscape of suburban housing on the lower to mid slopes of the hill, the submitter also agrees with the MVRA submission's reference to 'soft fringes' against the Town Belt, the importance of green and open spaces, and the iconic values of the wider views of Mount Victoria. The submitter particularly supports the reference to special protection being needed for 'Mt Victoria bush and lookout - Town Belt' and 'There have already been a number of encroachments on the Matarangi - Mt Victoria town belt to support private development.' Supporting MVRA's reference to special protection for Mount Victoria bus and lookout – Town Belt' and avoiding further intrusions into what is read visually as Town Belt and the critical Mount Victoria Ridgeline, the submitter requests that protection for Mount Victoria Lookout is achieved by number 22 Alexandra Road retaining the Open Space zoning and Ridgeline and Hilltops protection status as it is in the Operative District Plan. [Inferred reference to submission point 342.30]	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Matthew Wells, Adelina Reis and Sarah Rennie	FS50.9	Open Space and Recreation Zones / Open Space Zone / General OSZ	Support	<p>Supports the approach of the MVRA submission, which seeks to protect and enhance the townscape of Mount Victoria. While MVRA particularly stresses the importance of protecting the much admired townscape of suburban housing on the lower to mid slopes of the hill, we also agree with their submission's reference to 'soft fringes' against the Town Belt, the importance of green and open spaces, and the iconic values of the wider views of Mount Victoria. The submitter particularly supports the reference to special protection being needed for 'Mt Victoria bush and lookout - Town Belt' and 'There have already been a number of encroachments on the Matairangi - Mt Victoria town belt to support private development.'</p> <p>Supporting MVRA's reference to special protection for Mount Victoria bus and lookout – Town Belt' and avoiding further intrusions into what is read visually as Town Belt and the critical Mount Victoria Ridgeline, the submitter requests that protection for Mount Victoria Lookout is achieved by number 22 Alexandra Road retaining the Open Space zoning and Ridgeline and Hilltops protection status as it is in the Operative District Plan.</p> <p>[Inferred reference to submission point 342.30]</p>	Allow
Jane Szentivanyi and Ben Briggs	369.16	Open Space and Recreation Zones / Open Space Zone / General OSZ	Support	<p>Considers that the open space network takes on increased importance as a means of providing permeable surfaces to relieve some of the pressure on the storm water system. Open spaces also provide areas for citizens to utilize and enjoy and also supports the growing indigenous bird life in the city.</p>	<p>Retain the Open Space Zone network as notified.</p> <p>[Inferred decision requested]</p>
Jane Szentivanyi and Ben Briggs	369.17	Open Space and Recreation Zones / Open Space Zone / General OSZ	Amend	<p>Considers that there is opportunity to increase the range of open spaces for the public to enjoy. The town belt is not accessible for all and some underutilised spaces could provide additional open spaces.</p> <p>The submitter provides an example being the green islands between Kent and Cambridge Terraces as an attractive walkway between Courtenay Place and the Basin Reserve. However, notes that it is not easy to walk from island to island. The public space at the eastern end of Courtenay Place (where the tripod sculpture is located) is an underutilised space which could be more inviting.</p> <p>With increased development, density and smaller housing a quality supply of public open spaces becomes more critical. Developers cannot be relied on to create enjoyable open public spaces.</p>	Seeks that the extent of Open Space Zones be increased.
Waka Kotahi	370.407	Open Space and Recreation Zones / Open Space Zone / General OSZ	Amend	<p>Considers some of the activities permitted in this chapter have the potential to generate significant traffic and have a significant impact on the safe and efficient operation of the transport network if not managed appropriately. As trip generation is proposed to be managed in the traffic chapter, specific reference should be included to that chapter. Permitted rules in this chapter should be also required to comply with the trip generation rules in the transport chapter.</p>	<p>Seeks to add a note to the Open Space Zone chapter:</p> <p><u>All activities in this chapter must comply with the trip generation thresholds in the transport chapter.</u></p>
Ross Judge	438.1	Open Space and Recreation Zones / Open Space Zone / General OSZ	Amend	<p>Supports the rezoning of 39 Chapman Street from Open Space Zone to High Density Residential Zone. The 282 m2 area is in the process of being purchased from the WCC and has already been surveyed prior to the sale. The site is intended for housing development in conjunction with the subdivision at the back of 15 Chesterton Street. The site would be within the same walking distance to the Johnsonville railway station and other public transport as other Chesterton Street and Chapman St properties that will be classified as HRZ.</p> <p>[Refer to original submission for full reason]</p>	Rezone 39 Chapman Street from Open Space Zone to High Density Residential Zone.

Kilmarston Developments Limited and Kilmarston Properties Limited	290.71	Open Space and Recreation Zones / Open Space Zone / New OSZ	Amend	<p>Considers appropriate that amendments to the planning provisions to include provisions for infrastructure to be permitted within the Natural Open Space Zone (NOSZ). Considers that permitted infrastructure will assist in servicing future development.</p> <p>Seeks that this can be by proposed designation or appropriate zoning to provide for a reservoir.</p> <p>The Submitters land has been identified for residential development for at least 25 years. Considers that planning restrictions (overlays) over parts of the land do not assist in providing a framework for appropriate subdivision and land use for the subject property.</p> <p>Considers that it is not an effective use of the land resource to provide for a few rural residential properties on and area of land (over 15ha) that has been zoned for residential development. [see original submission]</p>	<p>Seeks that provisions are included for infrastructure to be permitted within the Natural Open Space Zone (NOSZ) to provide for a reservoir.</p> <p>[inferred decision requested]</p>
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.37	Part 3 / Open Space and Recreation Zones / Natural Open Space Zone / NOSZ-P4, NOSZP5 Part 3 / Open Space and Recreation Zones / Open Space Zone / General OSZ Part 3 / Open Space and Recreation Zones / Open Space Zone / New OSZ	Oppose	<p>Forest & Bird does not support amendments to broadly permit reservoir construction in Natural Open Space Zone. If this submitter seeks to build such a utility, then it should be subject to a private plan change or similar open process. Amending districtwide provisions is not appropriate when the submitter is seeking to construct a reservoir in a specific location.</p>	Disallow
Andy Foster	FS86.61	Part 3 / Open Space and Recreation Zones / Open Space Zone / New OSZ	Support	<p>Considers that it is reasonable to allow a reservoir to be constructed on the rural – Open Space part of the land to service new development and existing surrounding suburbs. Care should be taken about how it is designed to fit in with the landform, landscape and vegetation.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to 290.71]</p>	Allow
KiwiRail Holdings Limited	408.132	Open Space and Recreation Zones / Open Space Zone / New OSZ	Amend	<p>Considers that building setbacks are essential to address significant safety hazards associated with the operational rail corridor.</p> <p>Parts of the KiwiRail network adjoin the open space zone which does not currently include provision for boundary setbacks for buildings and structures.</p> <p>KiwiRail seek a boundary setback of 5m from the rail corridor for all buildings and structures, and that the rail corridor be recognised as a qualifying matter in relevant non-residential zones in accordance with section 77(1)(o) of the RMA.</p> <p>Consistent with the amendment requested for the assessment criteria in the residential zones, KiwiRail considers that a matter of discretion directing consideration of impacts on the safety and efficiency of the rail corridor is appropriate in situations where the 5m setback standard is not complied with in all zones adjacent to the railway corridor.</p>	<p>Add new standard as follows:</p> <p><u>OSZ-SX:</u> <u>Boundary setbacks</u> <u>Buildings or structures must not be located within a 5m setback from a rail corridor boundary.</u></p> <p>AND seeks that as applicable, the following matter of discretion be inserted:</p> <p><u>Matters of discretion:</u> <u>(X) The location and design of the building as it relates to the ability to safely use, access and maintain buildings without requiring access on, above or over the rail corridor.</u></p>
WCC Environmental Reference Group	377.491	Open Space and Recreation Zones / Open Space Zone / OSZ-O1	Amend	<p>Considers it appropriate to include wording to seek that natural open space areas are managed in a way so as to improve water quality and enhance habitat recognising that many of these areas include 'green' and 'blue' corridors of importance to Wellington City</p>	<p>Amend OSZ-O1 (Purpose) as follows:</p> <p>Open space areas are <u>predominantly</u> used by the public for a wide range of passive and active recreation activities, and may accommodate open space community activities, in such a way that maintains, and where possible, enhances the predominant character and amenity values <u>including water quality and biodiversity</u>, of the Open Space Zone,</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.408	Open Space and Recreation Zones / Open Space Zone / OSZ-O2	Support	Supports the inclusion of this objective which requires effects on the surrounding area to be managed effectively.	Retain OSZ-O2 (Managing effects) as notified.
WCC Environmental Reference Group	377.492	Open Space and Recreation Zones / Open Space Zone / OSZ-O2	Amend	Considers it appropriate to include wording to seek that adverse effects are not 'managed effectively' but rather, avoided, remedied or mitigated: this provides a clearer signal as to the importance of environmental protection of these areas as part of providing for their character and amenity.	Amend OSZ-O2 (Managing effects) as follows: Adverse effects of activities and development undertaken in the Open Space Zone at the Zone interface and the surrounding area are <u>avoided, remedied or mitigated.</u>
WCC Environmental Reference Group	377.493	Open Space and Recreation Zones / Open Space Zone / OSZ-O3	Support	Considers there is insufficient focus on mana whenua and their ability to exercise kaitiakitanga: this objective helps to re-balance this.	Retain OSZ-O3 (Mana whenua) as notified.
Taranaki Whānui ki te Upoko o te Ika	389.108	Open Space and Recreation Zones / Open Space Zone / OSZ-O3	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks to amend OSZ-O3 (Mana whenua) to include "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City". [inferred decision requested]
Te Rūnanga o Toa Rangatira	FS138.56	Part 3 / Open Space and Recreation Zones / Open Space Zone / OSZ-O3	Oppose	The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.	Disallow
Te Rūnanga o Toa Rangatira	488.84	Open Space and Recreation Zones / Open Space Zone / OSZ-O3	Support in part	Supports that the provision acknowledges Ngāti Toa Rangatira as mana whenua in Te Whanganui a Tara and the relation this has to parks in Wellington.	Retain OSZ-O3 (Mana whenua) as notified. [Inferred decision requested]
Waka Kotahi	370.409	Open Space and Recreation Zones / Open Space Zone / OSZ-P1	Amend	Considers some of the activities permitted in this chapter have the potential to generate significant traffic and have a significant impact on the safe and efficient operation of the transport network – particularly those that are of a larger scale or directly access the state highway network. Waka Kotahi requests that the wording of the policy is amended to include consideration of wider effects on the transport network	Amend OSZ-P1 (Enabled activities) as follows: Enable a wide range of recreational activities, and a limited range of other activities that are compatible with the predominant purpose, character and amenity of the Open Space Zone, while ensuring that their scale and intensity is appropriate <u>and adverse effects on the wider environment, including the transport network, are managed.</u>
WCC Environmental Reference Group	377.494	Open Space and Recreation Zones / Open Space Zone / OSZ-P1	Support	Considers open space areas are areas of recreation and activity: enabling activities consistent with the purpose of these areas is part of enabling their cultural and amenity value.	Retain OSZ-P1 (Enabled activities) as notified.
WCC Environmental Reference Group	377.495	Open Space and Recreation Zones / Open Space Zone / OSZ-P2	Support	Considers open space areas are areas of recreation and activity: enabling activities consistent with the purpose of these areas is part of enabling their cultural and amenity value.	Retain OSZ-P2 (Small scale mobile commercial activities) as notified.
Waka Kotahi	370.410	Open Space and Recreation Zones / Open Space Zone / OSZ-P3	Amend	Considers some of the activities permitted in this chapter have the potential to generate significant traffic and have a significant impact on the safe and efficient operation of the transport network – particularly those that are of a larger scale or directly access the state highway network. Waka Kotahi requests that the wording of the policy is amended to include consideration of wider effects on the transport network	Amend OSZ-P3 (Potentially compatible activities) as follows: ... 1. The activity maximises the use of existing buildings; and 2. Any reverse sensitivity effects can be appropriately managed; <u>and</u> 3. <u>Effects on the wider environment, including the transport network, are managed.</u>
WCC Environmental Reference Group	377.496	Open Space and Recreation Zones / Open Space Zone / OSZ-P3	Support	Considers open space areas are areas of recreation and activity: enabling activities consistent with the purpose of these areas is part of enabling their cultural and amenity value.	Retain OSZ-P3 (Potentially compatible activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.497	Open Space and Recreation Zones / Open Space Zone / OSZ-P4	Support	Considers open space areas are areas of recreation and activity: enabling activities consistent with the purpose of these areas is part of enabling their cultural and amenity value.	Retain OSZ-P4 (Enabled buildings and structures) as notified.
Panorama Property Limited	FS11.42	Part 3 / Open Space and Recreation Zones / Open Space Zone / OSZ-P4	Oppose	<p>Panorama submits that that if 1 Upland Road is to remain OSZ, OSZ-P4 should not be retained as notified, but should be amended to include complementary activities in existing buildings, including Community Facilities.</p> <p>The OSZ is intended for spaces and sites on which buildings and activities are small in scale and ancillary to recreation and other open space activities. The Botanic Gardens Management Plan makes no provision for the site, its building and present uses.</p> <p>Council has intended that the site and its buildings be used for commercial purposes for over 120 years and intends that to continue for at least another 20 years. The objectives, policies and rules of the MUZ are better suited to the site and the territorial authority's functions and obligations under the Act.</p> <p>The location, size, scale and nature of the buildings on this site are not intended for or utilised in a way that is ancillary to open space and conservation activities as presently drafted. They will not enhance the open space values of the adjacent Botanical Gardens or the wider city. However, if they are to remain within the OSZ (which is opposed), the OSZ provisions should be amended to accommodate and provide for the existing activities as permitted activities.</p> <p>The purpose and principles of the Act are better achieved by the site being zoned MUZ or some equivalent zone intended to provide a similar outcome for clusters of commercial activity on fringes of residential zones with public transport connectivity. Alternatively, the OSZ should be amended to enable and provide for the present and similar activities to take place on the site as permitted or controlled activities.</p>	Disallow / Seeks that OSZ-P4 should not be retained as notified if 1 Upland Road is to remain OSZ, but should be amended to include complementary activities in existing buildings, including Community Facilities.
WCC Environmental Reference Group	377.498	Open Space and Recreation Zones / Open Space Zone / OSZ-P5	Support	Considers open space areas are areas of recreation and activity: enabling activities consistent with the purpose of these areas is part of enabling their cultural and amenity value.	Retain OSZ-P5 (Potentially compatible buildings and structures) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Panorama Property Limited	FS11.43	Part 3 / Open Space and Recreation Zones / Open Space Zone / OSZ-P5	Oppose	<p>Panorama submits that that if 1 Upland Road is to remain OSZ, OSZ-P5 should not be retained as notified, but should be amended to include complementary activities in existing buildings, including Community Facilities.</p> <p>The OSZ is intended for spaces and sites on which buildings and activities are small in scale and ancillary to recreation and other open space activities. Open Space and Recreation - Sport and Active Recreation Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Panorama Property Limited	FS11.44	Part 3 / Open Space and Recreation Zones / Open Space Zone / OSZ-R10	Oppose	<p>Panorama submits that that if 1 Upland Road is to remain OSZ, OSZ-R10 should not be retained as notified, but should be amended to include complementary activities in existing buildings, including Community Facilities.</p> <p>The OSZ is intended for spaces and sites on which buildings and activities are small in scale and ancillary to recreation and other open space activities. The Botanic Gardens Management Plan makes no provision for the site, its building and present uses.</p> <p>Council has intended that the site and its buildings be used for commercial purposes for over 120 years and intends that to continue for at least another 20 years. The objectives, policies and rules of the MUZ are better suited to the site and the territorial authority's functions and obligations under the Act.</p> <p>The location, size, scale and nature of the buildings on this site are not intended for or utilised in a way that is ancillary to open space and conservation activities as presently drafted. They will not enhance the open space values of the adjacent Botanical Gardens or the wider city. However, if they are to remain within the OSZ (which is opposed), the OSZ provisions should be amended to accommodate and provide for the existing activities as permitted activities.</p> <p>The purpose and principles of the Act are better achieved by the site being zoned MUZ or some equivalent zone intended to provide a similar outcome for clusters of commercial activity on fringes of residential zones with public transport connectivity. Alternatively, the OSZ should be amended to enable and provide for the present and similar activities to take place on the site as permitted or controlled activities.</p>	Disallow / Seeks that OSZ-R10 should not be retained as notified if 1 Upland Road is to remain OSZ, but should be amended to include complementary activities in existing buildings, including Community Facilities.
Waka Kotahi	370.415	Open Space and Recreation Zones / Open Space Zone / OSZ-R11	Support	Support discretionary activity status for activities not provided for as this will enable effects to be assessed and managed, including those to the transport network.	Retain OSZ-R11 (Any other activity not otherwise provided for in this table) as notified.
WCC Environmental Reference Group	377.509	Open Space and Recreation Zones / Open Space Zone / OSZ-R11	Support	Supports providing for other activities with discretion is appropriate for the open space zone to help ensure these are appropriate to the character and amenity of the area, in accordance with its management plan, and avoid, remedy or mitigate adverse effects	Retain OSZ-R11 (Any other activity not otherwise provided for in this table) as notified.
Ministry of Education	400.150	Open Space and Recreation Zones / Open Space Zone / OSZ-R11	Support	Supports OSZ-R11. Considering the specific purpose of OSZ, the submitter generally supports the activity status of Discretionary for educational facilities.	Retain OSZ-R11 (Any other activity not otherwise provided for in this table).
Greater Wellington Regional Council	351.288	Open Space and Recreation Zones / Open Space Zone / OSZ-R12	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain OSZ-R12 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.289	Open Space and Recreation Zones / Open Space Zone / OSZ-R12	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend OSZ-R12 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
New Zealand Motor Caravan Association	314.15	Open Space and Recreation Zones / Sport and Active Recreation Zone / General SARZ	Amend	The NOSZ chapter should be amended to allow for more permissive rules related to campgrounds. Allowing for more permissive rules around the establishment of campgrounds will make it easier to establish sites for vehicle-based camping in the Wellington District. Campgrounds can easily meet the objectives, policies and intention of this zone.	Seeks that the SARZ (Sports and Active Recreation Zone) chapter be amended to allow for more permissive rules related to campgrounds.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.416	Open Space and Recreation Zones / Sport and Active Recreation Zone / General SARZ	Support in part	Supports, with amendments.	Supports the Sport and Active Recreation Zone chapter, with amendments.
Waka Kotahi	370.417	Open Space and Recreation Zones / Sport and Active Recreation Zone / General SARZ	Amend	Considers some of the activities permitted in this chapter have the potential to generate significant traffic and have a significant impact on the safe and efficient operation of the transport network if not managed appropriately. As trip generation is proposed to be managed in the traffic chapter, specific reference should be included to that chapter. Permitted rules in this chapter should be also required to comply with the trip generation rules in the transport chapter. The submitter is seeking a permitted trip generation threshold of 100 equivalent car movements per day for any activity accessed from the state highway.	Seeks to add a note to the Sport and Active Recreation Zone chapter: <u>All activities in this chapter must comply with the trip generation thresholds in the transport chapter.</u>
Waka Kotahi	370.418	Open Space and Recreation Zones / Sport and Active Recreation Zone / SARZ-O2	Support	Supports the inclusion of this objective which requires effects on the surrounding area to be managed effectively.	Retain SARZ-O2 (Managing effects) as notified.
Waka Kotahi	370.419	Open Space and Recreation Zones / Sport and Active Recreation Zone / SARZ-P1	Support in part	Supports, with amendments.	Supports, with amendments.
Waka Kotahi	370.420	Open Space and Recreation Zones / Sport and Active Recreation Zone / SARZ-P1	Amend	Considers some of the activities permitted in this chapter have the potential to generate significant traffic and have a significant impact on the safe and efficient operation of the transport network – particularly those that are of a larger scale or directly access the state highway network. The submitter request that the wording of the policy is amended to include consideration of wider effects on the transport network.	Amend SARZ-P1 (Enabled activities) as follows: Enable a wide range of recreational activities that are compatible with the purpose, character and amenity values of the Sport and Active Recreation Zone, or which enhance the public use and enjoyment of the open space, while ensuring that their scale and intensity is appropriate <u>and adverse effects on the wider environment, including the transport network, are managed.</u>
Waka Kotahi	370.421	Open Space and Recreation Zones / Sport and Active Recreation Zone / SARZ-P3	Amend	Considers some of the activities permitted in this chapter have the potential to generate significant traffic and have a significant impact on the safe and efficient operation of the transport network – particularly those that are of a larger scale or directly access the state highway network. The submitter request that the wording of the policy is amended to include consideration of wider effects on the transport network.	Amend SARZ-P3 (Potentially compatible activities) as follows: 5. Any maritime activities and associated facilities adjoining the coast or a water body have a functional need or operational need for a coastal location; and 6. Any adverse residential amenity effects will be minimised.; <u>and</u> 7. <u>Effects on the wider environment, including the transport network, are managed.</u>
Waka Kotahi	370.422	Open Space and Recreation Zones / Sport and Active Recreation Zone / SARZ-R1	Oppose	Considers that these activities have the potential to have significant impact on the safe and efficient operation of the transport network, particularly those of a larger scale, or directly accessing the state highway network. Traffic generated from events is not considered to be adequately managed through this chapter or through the transport chapter. Activities in this chapter which exceed 100 equivalent car movements per day where they are accessed from state highway should require a traffic management plan. Permitted rules in this chapter should also be required to comply with the trip generation rules in the transport chapter. The permitted activity status of these activities is opposed with the trip generation thresholds proposed in the plan as notified.	If activities are to retain permitted activity status: - See submission point on trip generation which Waka Kotahi request are adopted. - Reference to the trip generation thresholds should be included in this chapter – and in the rule table of the activities referenced in this submission point.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.423	Open Space and Recreation Zones / Sport and Active Recreation Zone / SARZ-R2	Oppose	<p>Considers that these activities have the potential to have significant impact on the safe and efficient operation of the transport network, particularly those of a larger scale, or directly accessing the state highway network.</p> <p>Traffic generated from events is not considered to be adequately managed through this chapter or through the transport chapter.</p> <p>Activities in this chapter which exceed 100 equivalent car movements per day where they are accessed from state highway should require a traffic management plan. Special Purpose Zone - General Points

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.426	Open Space and Recreation Zones / Sport and Active Recreation Zone / SARZ-R5	Oppose	<p>Considers that these activities have the potential to have significant impact on the safe and efficient operation of the transport network, particularly those of a larger scale, or directly accessing the state highway network.</p> <p>Traffic generated from events is not considered to be adequately managed through this chapter or through the transport chapter.</p> <p>Activities in this chapter which exceed 100 equivalent car movements per day where they are accessed from state highway should require a traffic management plan. Permitted rules in this chapter should also be required to comply with the trip generation rules in the transport chapter.</p> <p>The permitted activity status of these activities is opposed with the trip generation thresholds proposed in the plan as notified.</p>	<p>If activities are to retain permitted activity status:</p> <ul style="list-style-type: none"> • See submission point on trip generation which Waka Kotahi request are adopted. • Reference to the trip generation thresholds should be included in this chapter – and in the rule table of the activities referenced in this submission point.
Waka Kotahi	370.427	Open Space and Recreation Zones / Sport and Active Recreation Zone / SARZ-R6	Oppose	<p>Considers that these activities have the potential to have significant impact on the safe and efficient operation of the transport network, particularly those of a larger scale, or directly accessing the state highway network.</p> <p>Traffic generated from events is not considered to be adequately managed through this chapter or through the transport chapter.</p> <p>Activities in this chapter which exceed 100 equivalent car movements per day where they are accessed from state highway should require a traffic management plan. Permitted rules in this chapter should also be required to comply with the trip generation rules in the transport chapter.</p> <p>The permitted activity status of these activities is opposed with the trip generation thresholds proposed in the plan as notified.</p>	<p>If activities are to retain permitted activity status:</p> <ul style="list-style-type: none"> - See submission point on trip generation which Waka Kotahi request are adopted. - Reference to the trip generation thresholds should be included in this chapter – and in the rule table of the activities referenced in this submission point.
Waka Kotahi	370.428	Open Space and Recreation Zones / Sport and Active Recreation Zone / SARZ-R13	Support	Support discretionary activity status for activities not provided for as this will enable effects to be assessed and managed, including those to the transport network.	Retain SARZ-R13 (Any other activity not otherwise provided for as a Permitted Activity) as notified.
Ministry of Education	400.151	Open Space and Recreation Zones / Sport and Active Recreation Zone / SARZ-R13	Support	Supports SARZ-R13. Considering the specific purpose of the SARZ, the submitter generally supports the activity status of Discretionary for educational facilities.	Retain SARZ-R13 (Any other activity not otherwise provided for as a Permitted Activity) as notified.
James Coyle	307.27	Special Purpose Zones / General point on Special Purpose Zones / General point on Special Purpose Zones	Amend	Considers that Carrara Park should be a “special zone” that is clearly hatched to protect sunlight access to the park in winter months.	Add new Special Purpose Zone for Carrara Park to protect the park's sunlight access in winter months. [Inferred decision requested]
Royal Forest and Bird Protection Society	345.396	Special Purpose Zones / General point on Special Purpose Zones / General point on Special Purpose Zones	Support in part	Opposes any provisions in all Special Purpose Zones lessen the protection given to SNAs, OFLS, SALs, of areas of natural character in the coastal environment. We submit that all provisions in the Special Purpose Zones still have to give effect to the requirements of the Act and national direction, including the NZCPS. Any exemptions from, or lessening of, those requirements are opposed.	Amend Special Purpose Zone chapters to give effect to national direction regarding Significant Natural Areas, Outstanding Features and Landscapes, and Significant Amenity Areas in line with national direction instruments, particularly the NZ Coastal Policy Statement.
Greater Wellington Regional Council	351.290	Special Purpose Zones / General point on Special Purpose Zones / General point on Special Purpose Zones	Amend	Considers the provisions of the Special Purpose Zones to contribute to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1.	Seeks to ensure the Special Purpose Zone provisions have regard to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1, by including necessary objectives, policies, permitted standards and rules that provide for these qualities and characteristics.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Taranaki Whānui ki te Upoko o te Ika	389.110	Special Purpose Zones / General point on Special Purpose Zones / General point on Special Purpose Zones	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that Special Purpose Zone – Māori Purpose Zone be added to the Proposed District Plan and be used as an alternative.
Taranaki Whānui ki te Upoko o te Ika	389.111	Special Purpose Zones / General point on Special Purpose Zones / General point on Special Purpose Zones	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST is amended from Natural Open Space Zone to Special Purpose Zone – Māori Purpose Zone that would include objectives, policies, rules and standards to recognise the cultural and environmental overlays over the site whilst enabling Taranaki Whānui to exercise their customary responsibilities as kaitiaki, and to undertake development that supports their cultural, social and economic wellbeing.
Enterprise Miramar Peninsula Inc	FS26.15	Part 3 / Special Purpose Zone / General point on Special Purpose Zones / General point on Special Purpose Zones	Oppose	<p>It is clear Taranaki Whānui want all restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear based on the submission exactly how large an area they want to have rezoned.</p> <p>Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan, both the Corrections and Defence Land have not in the past contested this zoning and the Proposed District Plan keeps Watts Peninsula as open Space, the Ridgelines and Hilltops add to significant Natural Areas (for biodiversity) it has a Special Amenity Landscape which is used by the community and tourists to the enjoyment of being close to a city but with a natural environment.</p> <p>Taranaki Whānui are seeking to amend the zoning in this area to Medium Density Residential or to a Special Purpose Zone – Māori Purpose Zone, without any public engagement. Such changes would have a significant impact on the local community and should not be undertaken without wider consultation and engagement in order to ensure that proposed changes do not have a detrimental effect. As noted above, it is of concern to the businesses, community (ratepayers) of Te Motu Kairangi/Miramar Peninsula and the wider public that the rezoning applied for by Taranaki Whānui (currently open space) to develop a papakainga creates infrastructure issues on an already overloaded roading, flooding and transport links to and from the Peninsula.</p> <p>[Inferred reference to submission 389.111].</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Buy Back the Bay	FS79.35	Part 3 / Special Purpose Zones / General point on Special Purpose Zones / General point on Special Purpose Zones	Oppose	<p>Submission 389 states: "Taranaki Whānui's RFR [Right of First Refusal] opportunities in Te Motu Kairangi: Taranaki Whānui have a significant interest in Te Motu Kairangi which includes Mount Crawford and Watts Peninsula, these landholdings hold significant interest - culturally, socially, environmentally and commercially to Taranaki Whānui. These opportunities include the Mount Crawford Prison site as well as the 'Watts Peninsula' sites being 75.85 hectares of former Defence Land."</p> <p>Buy Back the Bays notes that the Submission does not include maps however they (Buy Back the Bays) are very concerned to see that Taranaki Whānui appears to be seeking possible commercial development of 75.85 hectares of former defence land on Watts Peninsula. This appears to be the heart of the long-promised Watts Peninsula park and a major part of the proposed national heritage park.</p> <p>Buy Back the Bays strongly oppose rezoning on Watts Peninsula to facilitate any development there that is incompatible with the park plans. More generally, Buy Back the Bays oppose Submission 389's attempt to remove the proposed public interest controls from Watts Peninsula and Mount Crawford. Considers that where Submission 389 states "Illustrated on Figure One below, the following zone and overlays are proposed for Taranaki Whānui's RFR properties in Te Motu Kairangi," Buy Back the Bays oppose the changes it seeks.</p> <p>This includes opposing Submission 389's request for "The proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST [to be] amended from Natural Open Space Zone to: a. Medium Density Residential; and b. Special Purpose Zone – Māori Purpose Zone."</p>	Disallow
Lance Lones	FS81.20	Part 3 / Special Purpose Zone / General point on Special Purpose Zones / General point on Special Purpose Zones	Oppose	<p>Te Motu Kairangi is very nearly an island, and as a result of the amazing work of Predator Free Wellington, is in fact, nearly predator free, and uniquely able to support significant biodiversity. Combined with the Ridgelines and Hilltops Overlay, and the Significant Natural Areas overlay of this space, all citizens of both Wellington, and Aotearoa in general have an incredibly singular opportunity to support the development of native flora and fauna in one nearly contiguous environment, a situation which is unique within Wellington. Attests to the incredible return of many native species of birds to this area, from kererū, to flocks of piwakawaka and tūi, kārearea hunting on the hillsides and heard ruru calling in the evenings and mornings.</p> <p>To remove the Open Space zoning, Significant Natural Areas and Special Amenity Landscape overlays for a significant portion of this habitat would put these species at risk once again.</p> <p>Presents a unique opportunity to implement the Ministry for the Environment's Proposed National Policy Statement for Indigenous Biodiversity. This policy progressively refers to the concept of Te Rito o te Harakeke.</p> <p>The local community has expressed the desire to work with and develop a master plan for the Watts Peninsula, but this voice has been repeatedly denied by council. Removing the protections put in place by the proposed district plan would once again disempower the greater community with no discussion.</p> <p>[Refer to further submission for full reason]</p>	Disallow / Seeks that the current zoning and overlays as presented in the Proposed District Plan for the northern sections of Te Motu Kairangi / Miramar Peninsula be retained. In particular, that the Open Space zoning, Special Amenity Landscape, Natural Areas, and Ridgelines and Hilltops overlays are retained.

Special Purpose Zone - Airport Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Andy Foster	FS86.21	Part 3 / Special Purpose Zones / General point on Special Purpose Zones / General point on Special Purpose Zones	Oppose	<p>The submission from Taranaki Whanui if accepted would remove all protections, many of them long standing and uncontested for decades, from Te Motu Kairangi / Watts Peninsula and make community involvement much less likely, and limit the need for community involvement. On these basis the submitter opposes Taranaki Whanui's submission.</p> <p>Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan. It has been Open Space B for at least the last 30 years, and nobody has ever contested this. That includes both the Corrections and Defence Land.</p> <p>The Proposed District Plan keeps Watts as Open Space and within the Ridgelines and Hilltops Overlay. It also adds Significant Natural Areas (for biodiversity) and a Special Amenity Landscape (because of its high level of landscape importance) All of these are based on good evidence. Taranaki Whanui want all of those restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear exactly how large an area they want to have rezoned.</p> <p>Taranaki Whanui's request to remove the Open Space zoning which has been in place, uncontested by the owners, for at least 30 years. The current Open Space B zoning does not anticipate any built development and therefore there is no legal or reasonable expectation that there should be any development here.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 389.111]</p>	Disallow
Save Our Venues	445.9	Special Purpose Zones / General point on Special Purpose Zones / General point on Special Purpose Zones	Amend	<p>Considers that a further solution to the issue of low acoustic insulation standards in new residential developments in the immediate vicinity of existing live music venues, could include the rezoning of existing music venues into Special Entertainment Precincts. This will allow for a higher level of sound output.</p> <p>Considers that these areas would allow for prioritising the cultural and economic value of these venues and protect them from land use conflict where new expectations of residential amenity can overlap with the existing features of the urban environment.</p> <p>Considers that these standards are already exemplified in the High Noise Area zoned for Courtenay Place, and could extend protections to the venues such as as Meow, San Fran and Valhalla which are currently located in the Central Area Zone.</p> <p>The Entertainment Precinct approach has been implemented successfully in Queenstown and Sydney, and with similar zoning structures to the Auckland Unitary Plan.</p> <p>[Refer to original submission for full reason]</p>	Seeks that the WCC consider creating a Special Entertainment Precinct Zone to protect existing and new music venues.
Yvonne Weeber	340.106	Special Purpose Zones / Airport Zone / General AIRPZ	Support in part	<p>The 'physically contiguous' nature of the airport precincts, mentioned in the introduction of the Airport Zone chapter, is supported. While its expedient for the airport to break the area up into different precincts the airport is viewed as one entity by the surrounding neighbourhood and visitors. Any development will have a cumulative environmental, landscape and visual effect on the neighbours and visitors.</p>	Retain 'physically contiguous' airport precincts in the Airport Zone chapter.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Limited	FS36.172	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Oppose	<p>WIAL has proposed alternative drafting of the Airport Zone which tries to better align the outcomes sought via WIAL's existing Designations with the Airport Zone (as appropriate, noting not all of WIAL's landholdings are designated). Notwithstanding this,</p> <ol style="list-style-type: none"> 1. WIAL supports the suggested incorporation of references to pedestrian access, cycling parking and land transport hubs into the description of the Terminal Precinct; 2. WIAL opposes the proposed new "Bridge Street Precinct" and considers it is appropriate to retain it as part of the wider airside / operational area of the airport and should not be unduly constrained by it been retained for "Open Space" activities, noting that only very low scale activity could occur in this area due to the obstacle limitation surface restrictions over this land. 3. Supports the intent to encourage carbon neutral development, however requiring it for all development is impracticable and does not appropriately reflect or take account of the technical or operational requirements of airports. 4. WIAL opposes the other matters raised to the extent that they conflict with the matters set out in WIAL's primary submission which proposes alternative drafting for the Airport Zone. 	Disallow
Yvonne Weeber	340.107	Special Purpose Zones / Airport Zone / General AIRPZ	Amend	<p>Considers that the 'Terminal Precinct' section in the introduction of the Airport Zone chapter should be amended to include road, pedestrian and cycle access and include information on public transport and cycle parking facilities. The airports land transport connections are described in broad detail in the Main Site Area designation. This should be included within the district plan to support the multimodal transport connection required of an airport and city committed to reducing climate changing emissions of land transport.</p>	<p>Amend the 'Terminal Precinct' section in the introduction of the Airport Zone chapter as follows:</p> <p>For passengers, the Terminal Precinct is the Airport's heart. It comprises the main passenger terminal, access and <u>pedestrian</u> roading, car parking, <u>cycle parking</u>, <u>land public transport hub</u> and commercial and passenger support services including visitor accommodation and conference facilities <u>and vehicle, pedestrian and cycle connection of Stewart Duff Drive</u>. It also contains airside airport facilities such as hangars, aircraft parking stands, and aviation support facilities.</p>
Wellington International Airport Limited	FS36.173	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Oppose	<p>WIAL has proposed alternative drafting of the Airport Zone which tries to better align the outcomes sought via WIAL's existing Designations with the Airport Zone (as appropriate, noting not all of WIAL's landholdings are designated). Notwithstanding this,</p> <ol style="list-style-type: none"> 1. WIAL supports the suggested incorporation of references to pedestrian access, cycling parking and land transport hubs into the description of the Terminal Precinct; 2. WIAL opposes the proposed new "Bridge Street Precinct" and considers it is appropriate to retain it as part of the wider airside / operational area of the airport and should not be unduly constrained by it been retained for "Open Space" activities, noting that only very low scale activity could occur in this area due to the obstacle limitation surface restrictions over this land. 3. Supports the intent to encourage carbon neutral development, however requiring it for all development is impracticable and does not appropriately reflect or take account of the technical or operational requirements of airports. 4. WIAL opposes the other matters raised to the extent that they conflict with the matters set out in WIAL's primary submission which proposes alternative drafting for the Airport Zone. 	Disallow
Yvonne Weeber	340.108	Special Purpose Zones / Airport Zone / General AIRPZ	Support in part	<p>Supports the WIAL5 (East Side Area) as it uses the area as part of the Miramar Golf Course until such time as airport air traffic growth. It is also supported due to the use of this area for the 'temporary' relocation of parking where it displaces by construction activity in other parts of the airport. The East Side Area should be maintained as a golf course recreation buffer if parking was proposed as a permanent feature of this Precinct.</p>	Retain part of the Miramar Golf Course in WIAL5 (East Side Area).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Limited	FS36.174	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Oppose	<p>WIAL has proposed alternative drafting of the Airport Zone which tries to better align the outcomes sought via WIAL's existing Designations with the Airport Zone (as appropriate, noting not all of WIAL's landholdings are designated). Notwithstanding this,</p> <ol style="list-style-type: none"> 1. Z Energy Limited	361.130	Special Purpose Zones / Airport Zone / General AIRPZ	Support	The Airport Zone is generally supported, as it provides for the ongoing management and development of Wellington International Airport. The zoning of Z Broadway, which is located within the proposed Airport Zone is supported.	Retain Airport Zone chapter as notified.
Waka Kotahi	370.429	Special Purpose Zones / Airport Zone / General AIRPZ	Not specified	Airport activities should be explicit about the goal of providing integrated public transport to and from the airport.	Airport activities should be explicit about the goal of providing integrated public transport to and from the airport.
Wellington International Airport Limited	FS36.232	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Support	WIAL supports this submission in principle, however considers that the rules within the Airport Zone will need to provide for such an activity.	Allow / Seeks that part of submission to be allowed.
Guardians of the Bays Inc	FS44.56	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Support	Supports any change to the Airport Zone that strengthens the goal of an integrated public transport system to and from the airport. [Inferred reference to submission 370.429]	Allow / Seeks the inclusion of airport activities should be explicit about the goal of providing integrated public transport to and from the airport.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Strathmore Park Residents Association Inc	371.7	Special Purpose Zones / Airport Zone / General AIRPZ	Support	Support the overview of the East Side Precinct. This overview limits car parking to the temporary relocation of parking where it is displaced by construction activity in other parts of the Airport which is supported. Since the ESA land Requirement was wholly justified on Airside expansion, we submit that public car parking is not an airside activity and should have been prohibited. The temporary restriction is an acceptable alternative. Note that Condition 5 of the WIAL designation is at odds with this.	Retain the overview of the East Side Precinct as in the introduction of the Airport Zone as notified.
Wellington International Airport Limited	FS36.231	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Oppose	WIAL opposes this submission to the extent that WIAL has prepared a new Airport Zone chapter that seeks to create better alignment between the Airport Zone and designations, while also providing for activities that are not provided for by the designation or by WIAL as the requiring authority.	Disallow
Strathmore Park Residents Association Inc	371.8	Special Purpose Zones / Airport Zone / General AIRPZ	Amend	Considers that the description of Airport Noise and reference to the Air Noise Overlay is not clear in that it does not state both inner and outer extent.	Amend Airport Noise description as follows: The management of noise associated with the Airport's operations is addressed in the District Plan Noise Chapter. Noise is subject to the following interrelated controls: 1. District Plan provisions which reference specific noise restrictions. 2. District Plan provisions which reference the Airport's Noise Management Plan (NMP). 3. The NMP, which sits outside of the District Plan. 4. The Air Noise Overlay (ANO's) of the Inner Air Noise Overlay and the Outer Air Noise Overlay – which is demarcated on the District Plan maps, and referenced in District Plan provisions and the NMP. The extent and nature of the ANO's are guided by the recommendations of New Zealand Standard NZS6805:1992 Airport Noise Management and Land Use Planning.
Wellington International Airport Limited	FS36.233	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Oppose	WIAL opposes this submission to the extent that WIAL is proposing to replace these definitions in their entirety with the well established terms (and associated definitions) "Air Noise Boundary" and "60dB Ldn Noise Boundary".	Disallow / Seeks that part of submission to be disallowed.
Taranaki Whānui ki te Upoko o te Ika	389.112	Special Purpose Zones / Airport Zone / General AIRPZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks to amend Special Purpose Airport Zone to include "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City".
Te Rūnanga o Toa Rangatira	FS138.58	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Oppose	The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.	Disallow
Wellington International Airport Ltd	406.537	Special Purpose Zones / Airport Zone / General AIRPZ	Oppose	Submitter acknowledges that the margins of its site at Lyall Bay and Evans Bay are within the coastal environment, as defined by the NZCPS and the Greater Wellington Regional Policy Statement. However both margins are heavily modified for airport activities and roading infrastructure. Submitter expresses concern that the complex relationship between the Coastal Environment, Infrastructure and Airport Zone provisions creates an inefficient consenting pathway for airport and airport related activities.	Not Specified
Guardians of the Bays Inc	FS44.55	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Oppose	Guardians of the Bays Incorporated opposes WIAL's amendments and changes to the airport zone proposed by Wellington International Airport. Seeks clarification from Wellington City Council on the relationship between the Airport zone and WIAL's designations and how the Airport Zone should be written into the plan. Submitter notes that areas of land zoned in the Airport Zone are not in WIAL designations e.g. The Bridge Street East area is not in the Main Site Area Designation maps.	Disallow / Seeks the submission points be disallowed or amended as to how designations be considered in the plan, but note that the Airport Zone does include land that is not in the WIAL designations.

Does not want the designation being forgotten in the District Plan.	Disallow / Seeks the submission points be disallowed or amended as to how designations be considered in the plan, but note that the Airport Zone does include land that is not in the WIAL designations.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.157	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.543	Special Purpose Zones / Airport Zone / General AIRPZ	Amend	<p>Considers that Airports provide services beyond traditional 'runways and terminals', and provide a range of industrial, commercial and logistical land uses.</p> <p>Considers that it is becoming increasingly important for airport operators to retain sufficient flexibility to properly enable forward planning and development necessary to respond to changing demands that arise at a modern airport.</p> <p>Per case law, commercial activities form part of modern airports.</p> <p>The airport zone chapter does not adequately recognise the diverse and evolving nature of an airport and creates an inefficient and ineffective consenting framework that fails to recognise that a broad range of activities are reasonably anticipated within the zone.</p> <p>[See original submission for full reason]</p>	<p>Seeks a re-write of the Airport Chapter. Has provided a redrafted chapter in Appendix B of the original submission.</p> <p>[See Appendix B of the original submission]</p>
Z Energy Limited	FS33.1	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Support	Z Energy generally supports the new Airport Zone chapter proposed by WIAL but seeks clarity on some of the specific provisions in line with the matters raised in Z Energy's original submission to seek to ensure that the provisions provide for the ongoing operation, maintenance and upgrade of Z Broadway. Notwithstanding this general support, specific amendments to provisions proposed by the WIAL are sought by Z Energy.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Z Energy Limited	FS33.3	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Support	Z Energy supports this rule which provides for non-airport activities (e.g. service stations) as a restricted discretionary activity subject to compliance with standards. It is assumed that the intent of this rule is to relate to 'new' non-airport activities and not to operational changes or expansion of existing non-airport activities.	Amend provision by adding the following to WIAL relief sought: AIRPZ-R2 Non-airport activities Activity Status: Restricted discretionary Where: a. All relevant standards in AIRPZ-S3 to AIRPZ-S4 are met; <u>and</u> b. <u>The activity is for a new non-airport activity</u> ...
Z Energy Limited	FS33.4	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Support	Z Energy supports this rule as, compared to the notified rule, does not differentiate activity status based on the type of activity (e.g. non-airport activity) the building or structure is intended to accommodate. The amended rule also appears to more clearly capture maintenance, repair, additions and alterations of existing buildings or structures with the activity status determined on compliance with built form standards and standards relating to specific precincts. Z Energy supports this approach. Z Energy considers that demolition or removal of existing buildings or structures should also be included in the permitted activity rule to be consistent with the approach adopted in the other PDP zone chapters.	Amend provision by adding the following to WIAL relief sought: AIRPZ-R3 Buildings and structures 1. Activity Status: Permitted Where: a. All relevant standards in AIRPZ-S1 to AIRPZ-S2 are met; or b. <u>The activity is for the demolition or removal of existing buildings or structures</u>
Z Energy Limited	FS33.6	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Support	Z Energy supports this amended standard as it removes the discrepancy in the notified version of AIRPZ-S3 which seeks to restrict all retail activities, service retail, restaurants and other food and beverage facilities including takeaway food facilities and commercial activities to the Terminal Precinct, noting that several of these abovementioned activities are currently located outside of the Terminal Precinct.	Allow
Guardians of the Bays Inc	FS44.63	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Oppose	Opposes the total re-writing of the Airport Zone. The Airport Zone includes land that is not in Wellington Airport Designations e.g. Bridge Street East. There needs to be clarification on how the Airport Zone and Designations interrelate. Does not want the designation being forgotten in the District Plan.	Disallow / Seeks the submission points be disallowed or amended as to how designations be considered in the plan, but note that the Airport Zone does include land that is not in the WIAL designations.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.158	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.544	Special Purpose Zones / Airport Zone / General AIRPZ	Not specified	Considers that the Airport Zone is subject to a number of natural hazard and coastal related overlays which render other rules obsolete.	Clarify the resulting activity status for a subdivision activity within the Airport Zone.
Guardians of the Bays Inc	FS44.64	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Oppose	Opposes the total re-writing of the Airport Zone. The Airport Zone includes land that is not in Wellington Airport Designations e.g. Bridge Street East. There needs to be clarification on how the Airport Zone and Designations interrelate. Does not want the designation being forgotten in the District Plan.	Disallow / Seeks the submission points be disallowed or amended as to how designations be considered in the plan, but note that the Airport Zone does include land that is not in the WIAL designations.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.159	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Guardians of the Bays	452.62	Special Purpose Zones / Airport Zone / General AIRPZ	Support	Support the 'physically contiguous' nature of the airport precincts. While its expedient for the airport to break the area up into different precincts the airport is viewed as one entity by the surrounding neighbourhood and visitors. Any development will have a cumulative environmental, landscape and visual effect on the neighbours and visitors.	Retain reference to airport precincts being physically contiguous in the Airport Zone introduction as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Limited	FS36.200	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Oppose	<p>WIAL has proposed alternative drafting of the Airport Zone which tries to better align the outcomes sought via WIAL's existing Designations with the Airport Zone (as appropriate, noting not all of WIAL's landholdings are designated). Notwithstanding this,</p> <ol style="list-style-type: none"> 1. WIAL supports the suggested incorporation of references to pedestrian access, cycling parking and land transport hubs into the description of the Terminal Precinct; 2. WIAL opposes the proposed new "Bridge Street Precinct" and considers it is appropriate to retain it as part of the wider airside / operational area of the airport and should not be unduly constrained by it been retained for "Open Space" activities, noting that only very low scale activity could occur in this area due to the obstacle limitation surface restrictions over this land. 3. Supports the intent to encourage carbon neutral development, however requiring it for all development is impracticable and does not appropriately reflect or take account of the technical or operational requirements of airports. 4. WIAL opposes the other matters raised to the extent that they conflict with the matters set out in WIAL's primary submission which proposes alternative drafting for the Airport Zone. 	Disallow
Guardians of the Bays	452.63	Special Purpose Zones / Airport Zone / General AIRPZ	Amend	<p>Considers amending the introduction (terminal precinct) description to include road, pedestrian and cycle access and include information on public transport and cycle parking facilities. The airports land transport connections are described in broad detail in the Main Site Area designation. This should be included within the district plan to support the multimodal transport connection required of an airport and city committed to reducing climate changing emissions of land transport.</p>	<p>Amend the description of the Terminal Precinct as follows:</p> <p>For passengers, the Terminal Precinct is the Airport's heart. It comprises the main passenger terminal, access and <u>pedestrian</u> roading, car parking, <u>cycle parking, land public transport hub</u> and commercial and passenger support services including visitor accommodation and conference facilities <u>and vehicle, pedestrian and cycle connection of Stewart Duff Drive</u>. It also contains airside airport facilities such as hangars, aircraft parking stands, and aviation support facilities.</p>
Wellington International Airport Limited	FS36.201	Part 3 / Special Purpose Zones / Airport Zone / General AIRPZ	Oppose	<p>WIAL has proposed alternative drafting of the Airport Zone which tries to better align the outcomes sought via WIAL's existing Designations with the Airport Zone (as appropriate, noting not all of WIAL's landholdings are designated). Notwithstanding this,</p> <ol style="list-style-type: none"> 1. WIAL supports the suggested incorporation of references to pedestrian access, cycling parking and land transport hubs into the description of the Terminal Precinct; 2. Relevant matters listed in policy AIRPZ-P5.</u></p>
Wellington International Airport Limited	FS36.236	Part 3 / Special Purpose Zones / Airport Zone / New AIRPZ	Support	WIAL supports in principle, the inclusion of this rule and considers it provides certainty and clarity, particularly as such rules are provided for in other chapters of the Proposed Plan.	Allow
Wellington International Airport Ltd	406.545	Special Purpose Zones / Airport Zone / New AIRPZ	Amend	[No specific reason given beyond decision requested - see original submission]	Seeks that the Proposed District Plan is amended to add reference to the obstacle limitation surface to draw plan users attention to designation requirements, to ensure that the designation is able to serve it's important purpose.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.160	Special Purpose Zones / Airport Zone / New AIRPZ	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Guardians of the Bays	452.69	Special Purpose Zones / Airport Zone / New AIRPZ	Amend	Considers amending the precinct descriptions by adding a precinct description on the Bridge Street area from the present fence boundary of the airport to Bridge Street. This area was not included in the Main Site Area Designation of the airport. In the 2030 WIAL Masterplan this land is indicated as remote car parking. This is an area that obviously is marked for redevelopment in the future for the airport and needs to be included within the District Plan as a redevelopment enhancement area.	<p>Amend the Airport Zone to include a new Bridge Street Precinct with a description as follows:</p> <p><u>The Bridge Street Precinct comprises land located on the East side of Bridge Street from Cairns Street at the north and Coutts Street to the south. At present the Bridge Street Precinct shall be limited to an open space enhancement area.</u></p>

Wellington International Airport Limited	FS36.207	Part 3 / Special Purpose Zones / Airport Zone / New AIRPZ	Oppose	WIAL has proposed alternative drafting of the Airport Zone which tries to better align the outcomes sought via WIAL's existing Designations with the Airport Zone (as appropriate, noting not all of WIAL's landholdings are designated). Notwithstanding this, <ol style="list-style-type: none"> 1. WIAL supports the suggested incorporation of references to pedestrian access, cycling parking and land transport hubs into the description of the Terminal Precinct; 2. WIAL opposes the proposed new "Bridge Street Precinct" and considers it is appropriate to retain it as part of the wider airside / operational area of the airport and should not be unduly constrained by it been retained for "Open Space" activities, noting that only very low scale activity could occur in this area due to the obstacle limitation surface restrictions over this land. 3. Supports the intent to encourage carbon neutral development, however requiring it for all development is impracticable and does not appropriately reflect or take account of the technical or operational requirements of airports. 4. WIAL opposes the other matters raised to the extent that they conflict with the matters set out in WIAL's primary submission which proposes alternative drafting for the Airport Zone. 	Disallow
Guardians of the Bays	452.70	Special Purpose Zones / Airport Zone / New AIRPZ	Amend	Considers the need to amend the Airport Precinct Plans to include a new Bridge Street Precinct the area between existing boundary fence of the airport to the eastern side of the Bridge Street formed road.	Amend the Airport Precinct Plan to include a new Bridge Street Precinct for the area between existing boundary fence of the airport to the eastern side of the Bridge Street formed road.
Wellington International Airport Limited	FS36.208	Part 3 / Special Purpose Zones / Airport Zone / New AIRPZ	Oppose	WIAL has proposed alternative drafting of the Airport Zone which tries to better align the outcomes sought via WIAL's existing Designations with the Airport Zone (as appropriate, noting not all of WIAL's landholdings are designated). Notwithstanding this, <ol style="list-style-type: none"> 1. Z Energy Limited	361.145	Special Purpose Zones / Airport Zone / AIRPZ-R3	Support in part	<p>AIRPZ-R3 is supported as it requires resource consent for all non-airport activities as they may not support the operational and functional requirements of the Airport zone. However, it is sought that this rule provides for the ongoing operation, maintenance and upgrade of the Z Broadway service station, which is located in the Broadway Precinct. It is considered that AIRPN-R3 relates to only new non-airport related activities, and any changes to the Z Broadway service station should not trigger a non-complying activity application that must be publicly notified.</p> <p>It is accepted that a service station would meet the definition of a 'non-airport activity' as it is not an 'airport activity' or 'airport related activity'. In this respect, it is understood that Rule AIRPZ-R3(1) provides for 'non-airport activities' as a discretionary activity on the basis the activity complies with standards AIRPZ-S1, AIRPZ-S2 and AIRPZ-S3. Otherwise, it is a non-complying activity under rule AIRPZ-R3(2) and must be publicly notified.</p>	Retain AIRPZ-R3 (Non-airport activities) with amendment.
Z Energy Limited	361.146	Special Purpose Zones / Airport Zone / AIRPZ-R3	Amend	Considers AIRPZ-R3 should be amended to clarify whether the rule permits ongoing operation, maintenance and upgrade of the existing Z Broadway service station without triggering a non-complying resource consent that must be publicly notified.	<p>Amend AIRPZ-R3 (Non-airport activities) as follows:</p> <ol style="list-style-type: none"> 1. Activity status: Discretionary <p>Where:</p> <ol style="list-style-type: none"> a. The <u>new</u> activity is a non-airport activity; and <p>...</p>
Z Energy Limited	361.147	Special Purpose Zones / Airport Zone / AIRPZ-R3	Amend	Considers AIRPZ-R3 should be amended to clarify whether the rule permits ongoing operation, maintenance and upgrade of the existing Z Broadway service station without triggering a non-complying resource consent that must be publicly notified.	Seeks to clarify that Rule AIRPZ-R3 ((Non-airport activities) permits ongoing operation, maintenance and upgrade of the Z Broadway service station (located in the Broadway Precinct).
Guardians of the Bays	452.87	Special Purpose Zones / Airport Zone / AIRPZ-R3	Support	Supports AIRPZ-R3 (Non-airport activities).	Retain AIRPZ-R3 (Non-airport activities) as notified.

Ara Poutama Aotearoa the Department of Corrections	240.66	Special Purpose Zones / Corrections Zone / General CORZ	Oppose	Considers that the definition of "residential activity" entirely captures supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama, and therefore a separate definition of "supported residential care activities" is unnecessary.	Remove the references to "supported residential care activity" from the Large Lot Residential zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Ara Poutama Aotearoa the Department of Corrections	240.67	Special Purpose Zones / Corrections Zone / General CORZ	Support in part	Considers that the Corrections Zone, in conjunction with the Arohata Prison designation, provides an appropriate planning framework to enable the continued operation and development of Arohata Prison (including both custodial and non-custodial activities). Ara Poutama's position is that the definition of "residential activity" entirely captures supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama, and therefore a separate definition of "supported residential care activities" is unnecessary. However, if Council are to retain the definition of "supported residential care activity" then there is a minor drafting error within Policy CORZ-P2 and Rule CORZ-R4, whereby "supported residential care accommodation" is referenced; this needs to be amended to reflect the terminology otherwise proposed in the PDP definition (i.e. "supported residential care activities").	Retain the Corrections Zone, with amendment.
Ara Poutama Aotearoa the Department of Corrections	240.68	Special Purpose Zones / Corrections Zone / CORZ-P2	Support	Considers that community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification. The permitted activity status (enabled by the associated policies) is appropriate in the context of the current and potential future establishment and operation of a community corrections facility or facilities within these areas in Wellington City.	Retain CORZ-P2.3 (Compatible activities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.69	Special Purpose Zones / Corrections Zone / CORZ-P2	Oppose in part	Considers that should Council see it as being absolutely necessary to implement the separate definition of "supported residential care activity", then Ara Poutama requests that the enabled activities policies and permitted land use activity rules applying to supported residential care activities in the Medium Density Residential, High Density Residential, Large Lot Residential and Corrections zones are retained as notified. The permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities. Such activities are an important component of the rehabilitation and reintegration process for people under Ara Poutama's supervision. They enable people and communities to provide for their social and cultural well-being and for their health and safety.	Retain CORZ-P2.4 (Compatible activities) as notified if "supported residential care activity" definition and references to term are retained.
Ara Poutama Aotearoa the Department of Corrections	240.70	Special Purpose Zones / Corrections Zone / CORZ-P2	Amend	Considers that the Corrections Zone, in conjunction with the Arohata Prison designation, provides an appropriate planning framework to enable the continued operation and development of Arohata Prison (including both custodial and non-custodial activities). Ara Poutama's position is that the definition of "residential activity" entirely captures supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama, and therefore a separate definition of "supported residential care activities" is unnecessary. However, if Council are to retain the definition of "supported residential care activity" then there is a minor drafting error within Policy CORZ-P2 and Rule CORZ-R4, whereby "supported residential care accommodation" is referenced; this needs to be amended to reflect the terminology otherwise proposed in the PDP definition (i.e. "supported residential care activities").	Amend policy CORZ-P2 (Compatible activities) as follows, if council are to retain the "supported residential care activity" definition: CORZ-P2 Compatible activities Provide for activities that are compatible with the purpose and function of the Corrections Zone including: ... 4. Supported residential care accommodation activities.
Ara Poutama Aotearoa the Department of Corrections	240.71	Special Purpose Zones / Corrections Zone / CORZ-R3	Support	Considers that community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification. The permitted activity status (enabled by the associated policies) is appropriate in the context of the current and potential future establishment and operation of a community corrections facility or facilities within these areas in Wellington City.	Retain CORZ-R3 (Community corrections activities) as notified.

Activity status: Permitted</p> <p>Where:</p> <p>a. The maximum number of residents to be accommodated at any one time is 30; and</p> <p>b. No more than five supported residential care accommodation activity buildings are to be located within the Corrections Zone</p>
Greater Wellington Regional Council	351.291	Special Purpose Zones / Corrections Zone / CORZ-R13	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain CORZ-R13 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.292	Special Purpose Zones / Corrections Zone / CORZ-R13	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend CORZ-R13 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Wellington City Youth Council	201.39	Special Purpose Zones / Future Urban Zone / General FUZ	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that consideration is given to possible effects upon existing natural environments in the development of "greenfield" zones.
Wellington City Council	266.159	Special Purpose Zones / Future Urban Zone / General FUZ	Amend	Considers the introduction to the FUZ refers to two development areas, when there are three development areas – two greenfield and one brownfield.	<p>Amend the last two sentences of the Future Urban Zone Introduction as follows:</p> <p>(...)</p> <p>The District Plan currently incorporates two <u>greenfield</u> Development Area overlays <u>within the Future Urban Zone</u>, one being Lincolnshire Farm and the other being Upper Stebbings and Glenside West.</p>
Greater Wellington Regional Council	351.293	Special Purpose Zones / Future Urban Zone / General FUZ	Support in part	Supports the direction to coordinate planning and development in this chapter, as this aligns with RPS direction.	Retain chapter, subject to amendments outlined in other submission points.
Greater Wellington Regional Council	351.294	Special Purpose Zones / Future Urban Zone / General FUZ	Amend	Considers the provisions of the Future Urban Zone to contribute to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1.	Seeks to ensure the Future Urban Zone provisions have regard to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1, by including necessary objectives, policies, permitted standards and rules that provide for these qualities and characteristic
Greater Wellington Regional Council	351.295	Special Purpose Zones / Future Urban Zone / General FUZ	Amend	Considers the provisions of the Future Urban Zone to contribute to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1.	Seeks to ensure future urban zone provisions have regard to Proposed RPS Change 1 policies 55, UD.3 and 57 as required.
Greater Wellington Regional Council	351.296	Special Purpose Zones / Future Urban Zone / General FUZ	Amend	Considers the provisions of the Future Urban Zone to contribute to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1.	Seeks to give effect to the NPS-FM by ensuring that freshwater bodies are required to be identified and protected during development planning

Special Purpose Zone - Hospital Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.742	Special Purpose Zones / Future Urban Zone / General FUZ	Oppose	Seeks the deletion of this chapter give that the Future Urban Zone is applied to two Development Areas that have detailed plans and associated zoning that could be applied now so that Wellington achieves its housing capacity minimums and a well-functioning urban environment.	Delete the Future Urban Zone chapter and instead Zone the land at Lincolnshire Farm and Upper Stebbings/Glenside West in accordance with the Development Area provisions, and amendments sought, now.
Te Rūnanga o Toa Rangatira	488.86	Special Purpose Zones / Future Urban Zone / General FUZ	Amend	Concerned that the Residential Design Guide is not given consideration and referred to in any relevant rules for the Future Urban Zone.	Amend appropriate parts of the Future Urban Zone rules to reflect that they will give effect to Residential Design Guide.
Waka Kotahi	370.433	Special Purpose Zones / Future Urban Zone / FUZ-O1	Support	Objective FUZ-O1 is supported.	Retain Objective FUZ-O1 (Purpose) as notified.
Waka Kotahi	370.434	Special Purpose Zones / Future Urban Zone / FUZ-O2	Support in part	Objective FUZ-O2 is supported, but amendment is sought.	Retain Objective FUZ-O2 (Activities) and seeks amendment.
Waka Kotahi	370.435	Special Purpose Zones / Future Urban Zone / FUZ-O2	Amend	Supports FUZ-O2 in providing for rural activities in the zone until the land is urbanised. Considers that it is not clear whether new rural activities are sought to be enabled.	Seeks to amend Objective FUZ-O2 (Activities) to clarify on if new rural activities are being enabled.
Ministry of Education	400.152	Special Purpose Zones / Future Urban Zone / FUZ-R7	Support	Supports FUZ-R7. The submitter notes that FUZ land is held for the purposes of greenfield developments which will enable activities that are in accordance with an associated Development Area. The FUZ has been identified for future urban use. Where the land is ready for use, a Development Area overlay will be incorporated into the District Plan for a given FUZ area which will allow the Ministry to ensure Educational Facilities are well provided for as required [see original submission for full reasons].	Retain FUZ-R7 (All other activities) as notified.
Waka Kotahi	370.436	Special Purpose Zones / Future Urban Zone / FUZ-R8	Support	Rule FUZ-R8 is supported as it sets an appropriate activity status to manage adverse effects	Retain Rule FUZ-R8 (Construction, addition or alteration to buildings and structures) as notified.
Waka Kotahi	370.437	Special Purpose Zones / Future Urban Zone / FUZ-S1	Support in part	Standard FUZ-S1 is supported, but amendment is sought.	Retain Standard FUZ-S1 (Maximum height) and seeks amendment.
Waka Kotahi	370.438	Special Purpose Zones / Future Urban Zone / FUZ-S1	Amend	Considers it appropriate to provide for greater density in the Future Urban Zone.	Seeks to amend Standard FUZ-S1 (Maximum height) to allow a permitted height of 11m +1m for pitched roofs.
Waka Kotahi	370.439	Special Purpose Zones / Future Urban Zone / FUZ-S3	Support in part	Standard FUZ-S3 is supported, but amendment is sought.	Retain Standard FUZ-S3 (Boundary setbacks) and seeks amendment.
Waka Kotahi	370.440	Special Purpose Zones / Future Urban Zone / FUZ-S3	Amend	Considers it appropriate to provide for denser development in the Future Urban Zone.	Seeks to amend Standard FUZ-S3 (Boundary setbacks) to provide for setbacks in keeping with the medium density residential standards.
Vital Healthcare Property Trust	258.2	Special Purpose Zones / Hospital Zone / General HOSPZ	Support	Supports the application of the Special Purpose Hospital Zone at Bowen and Wakefield Hospitals	Retain the Special Purpose Hospital Zoning at Bowen Hospital (98 Churchill Drive) and Wakefield Hospital (30 Florence Street) as notified.
Waka Kotahi	370.441	Special Purpose Zones / Hospital Zone / General HOSPZ	Support	The Hospital Zone provisions are supported. In particular provision of residential development close to the hospital.	Retain the Hospital Zone provisions as notified.
Southern Cross Healthcare Limited	380.43	Special Purpose Zones / Hospital Zone / General HOSPZ	Support	Supports introduction. It is appropriate that the Introduction recognises that Southern Cross Hospital Wellington and that private hospitals play a role in serving the healthcare needs of Wellington,	Retain Introduction of Special Purpose Hospital Zone as notified.
Taranaki Whānui ki te Upoko o te Ika	389.113	Special Purpose Zones / Hospital Zone / General HOSPZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks to amend chapter to provide triggers for active partnership or engagement with Taranaki Whānui in respect of design opportunities with Taranaki Whānui specific associations

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Southern Cross Healthcare Limited	FS127.1	Part 3 / Special Purpose Zones / Hospital Zone / General HOSPZ	Oppose	<p>Southern Cross appreciates that Toa Rangatira and Taranaki Whānui both have significant interests in the Wellington district as mana whenua and kaitiaki, and seek to ensure these are appropriately recognised in the Proposed Plan.</p> <p>Toa Rangatira and Taranaki Whānui primary submissions seek amendments to the Special Hospital zone to reflect their mana whenua status. Southern Cross understands that their submissions relate only to the Wellington Regional Hospital Ngā Puna Wai Ora, however this is unclear in some instances and the scope of relief sought.</p> <p>Southern Cross considers that it is appropriate to recognise mana whenua status and enable Toa Rangatira and Taranaki Whānui cultural associations in respect of Wellington Regional Hospital Ngā Puna Wai Ora as currently set out in HOSZ-O2 and HOSZ-P3 of the Proposed Plan. However, for completeness, Southern Cross seeks to clarify that it would not be appropriate to amend other provisions in the Special Purpose Hospital zone which also apply to private hospitals.</p> <p>[Inferred reference to submission 389.113]</p>	Disallow / Seeks that any amendments to the Introduction of the Special Purpose Hospital zone chapter to give effect to the relief sought by Toa Rangatira and Taranaki Whānui are clear that this relates to the Wellington Regional Hospital Ngā Puna Wai Ora.
Te Rūnanga o Toa Rangatira	488.87	Special Purpose Zones / Hospital Zone / General HOSPZ	Amend	<p>Considers that the introduction to the chapter statement could be improved by requiring partnership with mana whenua rather than engagement.</p>	Amend the introduction of the Hospital Zone to require partnership rather than engagement with mana whenua.
Southern Cross Healthcare Limited	FS127.5	Part 3 / Special Purpose Zones / Hospital Zone / General HOSPZ	Oppose	<p>Southern Cross appreciates that Toa Rangatira and Taranaki Whānui both have significant interests in the Wellington district as mana whenua and kaitiaki, and seek to ensure these are appropriately recognised in the Proposed Plan.</p> <p>Toa Rangatira and Taranaki Whānui primary submissions seek amendments to the Special Hospital zone to reflect their mana whenua status. Southern Cross understands that their submissions relate only to the Wellington Regional Hospital Ngā Puna Wai Ora, however this is unclear in some instances and the scope of relief sought.</p> <p>Southern Cross considers that it is appropriate to recognise mana whenua status and enable Toa Rangatira and Taranaki Whānui cultural associations in respect of Wellington Regional Hospital Ngā Puna Wai Ora as currently set out in HOSZ-O2 and HOSZ-P3 of the Proposed Plan. However, for completeness, Southern Cross seeks to clarify that it would not be appropriate to amend other provisions in the Special Purpose Hospital zone which also apply to private hospitals.</p> <p>[Inferred reference to submission 488.87]</p>	Disallow / Seeks that any amendments to the Introduction of the Special Purpose Hospital zone chapter to give effect to the relief sought by Toa Rangatira and Taranaki Whānui are clear that this relates to the Wellington Regional Hospital Ngā Puna Wai Ora.
Te Whatu Ora - Health New Zealand	496.2	Special Purpose Zones / Hospital Zone / General HOSPZ	Support	<p>The Hospital Zone is supported. The urban context around the Hospital is changing, and the Hospital Zone settings have been updated to reflect this. The proposed settings will better enable the Hospital to deliver health services for the community and region.</p>	Retain the Hospital Zone chapter as notified.
Vital Healthcare Property Trust	258.3	Special Purpose Zones / Hospital Zone / New HOSPZ	Amend	<p>Considers it appropriate that a new rule enabling healthcare facilities, pharmacies and cafes activities to occur as a permitted activity in the Special Purpose Hospital Zone</p>	<p>Seeks to add new rule to as follows:</p> <p><u>HORZ-R1A: Healthcare facilities, pharmacies and cafes ancillary to a hospital activity.</u> <u>1. Activity Status: Permitted</u></p>
Southern Cross Healthcare Limited	380.44	Special Purpose Zones / Hospital Zone / HOSZ-O1	Support	<p>Supports objective HOSZ-O1.</p> <p>Supports Southern Cross Hospital Wellington being recognised as a regionally significant hospital and the extent to which the Proposed Plan provides for its ongoing operation, function and development to support the economic, health and social wellbeing.</p> <p>Southern Cross Hospital plays a critical role in supporting Health NZ (which has replaced Capital and Coast and Hutt Valley DHBs) to provide urgent or complex surgeries, and plays an important role in providing both publicly and privately funded elective surgeries.</p>	Retain Special Purpose Hospital Zone Objective HOSZ-O1 (Purpose) as notified.
Taranaki Whānui ki te Upoko o te Ika	389.114	Special Purpose Zones / Hospital Zone / HOSZ-O2	Amend	<p>[No specific reason given beyond decision requested - refer to original submission].</p>	Seeks that HOSZ-O2 (Mana Whenua) as amended to include "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City".

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Southern Cross Healthcare Limited	FS127.2	Part 3 / Special Purpose Zones / Hospital Zone / HOSZ-02	Oppose	<p>Southern Cross appreciates that Toa Rangatira and Taranaki Whānui both have significant interests in the Wellington district as mana whenua and kaitiaki, and seek to ensure these are appropriately recognised in the Proposed Plan.</p> <p>Toa Rangatira and Taranaki Whānui primary submissions seek amendments to the Special Hospital zone to reflect their mana whenua status. However, for completeness, Southern Cross seeks to clarify that it would not be appropriate to amend other provisions in the Special Purpose Hospital zone which also apply to private hospitals.</p> <p>[Inferred reference to submission 389.114]</p>	Disallow
Te Rūnanga o Toa Rangatira	FS138.59	Part 3 / Special Purpose Zones / Hospital Zone / HOSZ-02	Oppose	<p>The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.</p>	Disallow
Te Rūnanga o Toa Rangatira	488.88	Special Purpose Zones / Hospital Zone / HOSZ-02	Support in part	Supports objective HOSZ-02 and reference to mana whenua	Retain HOSZ-02 (Mana whenua) with amendment.
Te Rūnanga o Toa Rangatira	488.89	Special Purpose Zones / Hospital Zone / HOSZ-02	Amend	Considers that the objective should requiring partnership with mana whenua rather than engagement.	Amend HOSZ-02 (Mana whenua) to require partnership rather than engagement with mana whenua.
Southern Cross Healthcare Limited	FS127.6	Part 3 / Special Purpose Zones / Hospital Zone / HOSZ-02	Oppose	<p>Southern Cross appreciates that Toa Rangatira and Taranaki Whānui both have significant interests in the Wellington district as mana whenua and kaitiaki, and seek to ensure these are appropriately recognised in the Proposed Plan.</p> <p>Toa Rangatira and Taranaki Whānui primary submissions seek amendments to the Special Hospital zone to reflect their mana whenua status. Southern Cross understands that their submissions relate only to the Wellington Regional Hospital Ngā Puna Wai Ora, however this is unclear in some instances and the scope of relief sought.</p> <p>Southern Cross considers that it is appropriate to recognise mana whenua status and enable Toa Rangatira and Taranaki Whānui cultural associations in respect of Wellington Regional Hospital Ngā Puna Wai Ora as currently set out in HOSZ-02 and HOSZ-P3 of the Proposed Plan. However, for completeness, Southern Cross seeks to clarify that it would not be appropriate to amend other provisions in the Special Purpose Hospital zone which also apply to private hospitals.</p> <p>[Inferred reference to submission 488.89]</p>	Disallow
Southern Cross Healthcare Limited	380.45	Special Purpose Zones / Hospital Zone / HOSZ-03	Support in part	Supports the direction of objective HOSZ-03 to recognise that healthcare needs are evolving and its important that the Proposed Plan enables hospitals and healthcare facilities are about to provide choice to their patients, staff and visitors.	Supports objective HOSZ-03 (Evolving demands, service and technological changes), with amendment.
Southern Cross Healthcare Limited	380.46	Special Purpose Zones / Hospital Zone / HOSZ-03	Amend	<p>Seeks that objective HOSZ-03 is amended to include hospital activities, which would be consistent with the objectives, policies and rules in this zone.</p> <p>The objective refers to "health care facility needs". Health care facilities are define in the Proposed Plan as distinct from hospital activities, and health care facilities expressly exclude hospitals.</p>	<p>Amend Objective HOSZ-03 (Evolving demands, service and technological changes) as follows:</p> <p>The evolving health care facility <u>and hospital</u> needs of Wellington City and the wider region are supported through land use activities and development that:</p> <p>.....</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Vital Healthcare Property Trust	FS51.1	Part 3/ Special Purpose Zones / Hospital Zone / HOSZ-O3	Support	Support. The relief sought will ensure that the evolving needs of hospitals are supported.	Allow
Southern Cross Healthcare Limited	380.47	Special Purpose Zones / Hospital Zone / HOSZ-O3	Amend	Seeks that objective HOSZ-O3 is amended to specify that the objective only applies to the Wellington Regional Hospital I Nga Puna Wai Ora site only. HOSZ-O3(2) also provides for a greater choice of open space for patients, staff and visitors to enjoy, recreate and shelter. This is appropriate for the large Wellington Regional Hospital I Nga Puna Wai Ora site, but not for the private hospital sites which are smaller and need to make more efficient use of their land. The private hospitals also focus on elective surgery where patients are discharged as soon as possible, therefore there is not the same need for outdoor spaces.	Amend Objective HOSZ-O3 (Evolving demands, service and technological changes) as follows: ... 1. Is undertaken in an efficient, well- integrated and strategic manner; 2. The Wellington Regional Hospital I Nga Puna Wai Ora provides a greater choice of open space for patients, staff and visitors to enjoy, recreate and shelter; and 3. Positively contributes to maintaining, and where possible enhancing a safe, comfortable and accessible hospital environment including enhance connectivity through the site.
Vital Healthcare Property Trust	FS51.2	Part 3/ Special Purpose Zones / Hospital Zone / HOSZ-O3	Support	Support. Considers that the relief sought to HOSZ-O3(2) is appropriate as it acknowledges the importance of open space for public hospitals only.	Allow
Southern Cross Healthcare Limited	380.48	Special Purpose Zones / Hospital Zone / HOSZ-O4	Support in part	Supports the intention that any adverse effects of activities and development in the Special Purpose Hospital zone are managed appropriately.	Supports objective HOSZ-O4 (Managing adverse effects), with amendment.
Southern Cross Healthcare Limited	380.49	Special Purpose Zones / Hospital Zone / HOSZ-O4	Amend	Seeks that objective HOSZ-O4 is amended to require this assessment at interfaces with the zone, but not within the zone.	Amend Objective HOSZ-O4 (Managing adverse effects) as follows: Adverse effects of activities and development in the Special Purpose Hospital Zone are managed effectively both: 1. Within the Zone, and 2. 1. At interfaces with; a. Heritage buildings
Vital Healthcare Property Trust	FS51.3	Part 3/ Special Purpose Zones / Hospital Zone / HOSZ-O4	Support	Support. Considers that the relief sought to will ensure adverse effects of activities at interfaces with the zone are managed appropriately.	Allow
Southern Cross Healthcare Limited	380.50	Special Purpose Zones / Hospital Zone / HOSZ-P1	Support	Supports HOSZ-P1 (Enabled activities) hospital activities being enabled in the Special Purpose Hospital Zone.	Retain policy HOSZ-P1 (Enabled activities)as notified.
Vital Healthcare Property Trust	FS51.4	Part 3/ Special Purpose Zones / Hospital Zone /HOSZ-P1	Support	Support. Considers that the relief sought will support the provision of hospital activities within the Special Purpose Zone – Hospital Zone.	Allow
Southern Cross Healthcare Limited	380.51	Special Purpose Zones / Hospital Zone / HOSZ-P2	Support	Supports HOSZ-P2 (Potentially incompatible activities) only allowing other activities which are compatible with the purpose of the zone and will not have adverse effects on the vitality, amenity and function of the zone.	Retain policy HOSZ-P2 (Potentially incompatible activities) as notified.
Vital Healthcare Property Trust	FS51.5	Part 3/ Special Purpose Zones / Hospital Zone /HOSZ-P2	Support	Support. Considers that the relief sought will support the intent of the Special Purpose Zone – Hospital Zone by preventing incompatible activities from establishing within the zone.	Allow
Taranaki Whānui ki te Upoko o te Ika	389.115	Special Purpose Zones / Hospital Zone / HOSZ-P3	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that HOSZ-P3 (Mana Whenua) as amended to include "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City".

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Southern Cross Healthcare Limited	FS127.3	Part 3 / Special Purpose Zones / Hospital Zone / HOSZ-P3	Oppose	<p>Southern Cross appreciates that Toa Rangatira and Taranaki Whānui both have significant interests in the Wellington district as mana whenua and kaitiaki, and seek to ensure these are appropriately recognised in the Proposed Plan.</p> <p>Toa Rangatira and Taranaki Whānui primary submissions seek amendments to the Special Hospital zone to reflect their mana whenua status. Southern Cross understands that their submissions relate only to the Wellington Regional Hospital Ngā Puna Wai Ora, however this is unclear in some instances and the scope of relief sought.</p> <p>Southern Cross considers that it is appropriate to recognise mana whenua status and enable Toa Rangatira and Taranaki Whānui cultural associations in respect of Wellington Regional Hospital Ngā Puna Wai Ora as currently set out in HOSZ-O2 and HOSZ-P3 of the Proposed Plan. However, for completeness, Southern Cross seeks to clarify that it would not be appropriate to amend other provisions in the Special Purpose Hospital zone which also apply to private hospitals.</p> <p>[Inferred reference to submission 389.115]</p>	Disallow
Te Rūnanga o Toa Rangatira	FS138.60	Part 3 / Special Purpose Zones / Hospital Zone / HOSZ-P3	Oppose	<p>The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. Activity status: Restricted Discretionary</p> <p><u>Matters of discretion are:</u></p> <p><u>HOSZ-P2.</u></p> <p><u>HOSZ-P4.</u></p> <p><u>HOSZ-P5.</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Southern Cross Healthcare Limited	380.57	Special Purpose Zones / Hospital Zone / HOSZ-R3	Support	Supports rule HOSZ-R3 maintenance and repair of buildings and structures being permitted.	Retain rule HOSZ-R3 (Maintenance and repair of buildings and structures) as notified.
Greater Wellington Regional Council	351.297	Special Purpose Zones / Hospital Zone / HOSZ-R4	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain HOSZ-R4 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.298	Special Purpose Zones / Hospital Zone / HOSZ-R4	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend HOSZ-R4 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Southern Cross Healthcare Limited	380.58	Special Purpose Zones / Hospital Zone / HOSZ-R4	Support	Supports rule HOSZ-R4 demolition or removal of building and structures being permitted.	Retain rule HOSZ-R4 (Demolition or removal of buildings and structures) as notified.
Southern Cross Healthcare Limited	380.59	Special Purpose Zones / Hospital Zone / HOSZ-R5	Support in part	Supports additions and alterations that comply with Rule HOSZ-R5.1 being permitted.	Supports Permitted activity status under rule HOSZ-R5.1 (Additions and alterations to buildings and structures).
Southern Cross Healthcare Limited	380.60	Special Purpose Zones / Hospital Zone / HOSZ-R5	Support in part	Supports resource consent applications for additions and alterations that do not comply with Rule HOSZ-R5.1 being a Restricted Discretionary activity.	Supports Restricted Discretionary activity status under rule HOSZ-R5.3 (Additions and alterations to buildings and structures).
Southern Cross Healthcare Limited	380.61	Special Purpose Zones / Hospital Zone / HOSZ-R5	Amend	Supports resource consent applications for additions and alterations that do not comply with Rule HOSZ-R5.1 being precluded from public notification.	Supports notification clauses under rule HOSZ-R5.3 (Additions and alterations to buildings and structures).
Southern Cross Healthcare Limited	380.62	Special Purpose Zones / Hospital Zone / HOSZ-R5	Oppose in part	Opposes the Centres and Mixed-Use Design Guide being a matter of control and matter of discretion. This is inappropriate, as it elevates the design guide to the status of standards, rather than guidance as it is intended to be. Further, some of the matters addressed in the Centres and Mixed-Use Design Guide are inappropriate for a hospital development. For example, hospitals are purpose-built and may not be consistent with the built form of other urban developments (G80) and it is impractical for a hospital building to be designed to allow for conversion to other uses (G89).	Opposes part of rule HOSZ-R5.3 (Additions and alterations to buildings and structures), seeks amendment.
Vital Healthcare Property Trust	FS51.7	Part 3/ Special Purpose Zones / Hospital Zone / HOSZ-R5	Support	Support. Considers that the relief sought to remove the Centres and Mixed-Use Design Guide as a matter of control and discretion recognises that hospitals are purpose built facilities with design requirements which are different to other urban developments.	Allow
Southern Cross Healthcare Limited	380.63	Special Purpose Zones / Hospital Zone / HOSZ-R5	Amend	Considers references to the Centres and Mixed-Use Design Guide to be deleted from the Special Purpose Hospital zone chapter. It is noted that discretion is retained over "design, external appearance, siting and verandahs".	Amend Rule HOSZ-R5.3 (Additions and alterations to buildings and structures) as follows: 2. The extent and effect of noncompliance with HOSZS1 and HOSZ-S2; 3. The Centres and Mixed-Use Design Guide; 4. <u>3.</u> Design, external appearance, siting and verandahs; and
Vital Healthcare Property Trust	FS51.8	Part 3/ Special Purpose Zones / Hospital Zone / HOSZ-R5	Support	Support. Considers that the relief sought to remove the Centres and Mixed-Use Design Guide as a matter of control and discretion recognises that hospitals are purpose built facilities with design requirements which are different to other urban developments.	Allow
Southern Cross Healthcare Limited	380.64	Special Purpose Zones / Hospital Zone / HOSZ-R6	Support in part	Supports new buildings and structures that comply with HOSZ-R6.1 being permitted.	Supports Permitted activity status under rule HOSZ-R6.1 (Construction of new buildings and structures).
Vital Healthcare Property Trust	FS51.9	Part 3/ Special Purpose Zones / Hospital Zone / HOSZ-R6	Support	Support. Considers that the relief sought will enable the intent of the Special Purpose Zones – Hospital Zone to provide for hospital activities and development.	Allow
Southern Cross Healthcare Limited	380.65	Special Purpose Zones / Hospital Zone / HOSZ-R6	Support in part	Supports resource consent applications for new buildings and structures that do not comply with Rule HOSZ-R6.1 being a Restricted Discretionary activity.	Supports Restricted Discretionary activity status under rule HOSZ-R6.3 (Construction of new buildings and structures).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Vital Healthcare Property Trust	FS51.10	Part 3/ Special Purpose Zones / Hospital Zone / HOSZ-R6	Support	Support. Considers that the relief sought will enable the intent of the Special Purpose Zones – Hospital Zone to provide for hospital activities and development.	Allow
Southern Cross Healthcare Limited	380.66	Special Purpose Zones / Hospital Zone / HOSZ-R6	Support	Supports resource consent applications for new buildings and structures that do not comply with Rule HOSZ-R6.1 being precluded from public notification.	Supports notification clauses under rule HOSZ-R6.3 (Construction of new buildings and structures).
Vital Healthcare Property Trust	FS51.11	Part 3/ Special Purpose Zones / Hospital Zone / HOSZ-R6	Support	Support. Considers that the relief sought will enable the intent of the Special Purpose Zones – Hospital Zone to provide for hospital activities and development.	Allow
Southern Cross Healthcare Limited	380.67	Special Purpose Zones / Hospital Zone / HOSZ-R6	Amend	Considers that there should be amendments to the matters of discretion to remove references of HOSZP3 within rule HOSZ-R6. HOSZ-P3 only applies to the Wellington Regional Hospital I Nga Puna Wai Ora and should be deleted.	Amend Rule HOSZ-R6 (Construction of new buildings and structures) as follows: Matters of discretion are: 1. Any relevant matters in HOSZP3 , HOSZ-P4 HOSZ-P5;
Southern Cross Healthcare Limited	380.68	Special Purpose Zones / Hospital Zone / HOSZ-R6	Amend	Considers references to the Centres and Mixed-Use Design Guide to be deleted from the matters of discretion from Rule HOSZ-R6 (Construction of new buildings and structures). This is inappropriate, as it elevates the design guide to the status of standards, rather than guidance as it is intended to be. Further, some of the matters addressed in the Centres and Mixed-Use Design Guide are inappropriate for a hospital development. For example, hospitals are purpose-built and may not be consistent with the built form of other urban developments (G80) and it is impractical for a hospital building to be designed to allow for conversion to other uses (G89).	Amend Rule HOSZ-R6 (Construction of new buildings and structures) as follows: 2. The extent and effect of noncompliance with HOSZS1 and HOSZ-S2; 3. The Centres and Mixed-Use Design Guide ; 4. 3. Design, external appearance, siting and verandahs; and
Vital Healthcare Property Trust	FS51.12	Part 3/ Special Purpose Zones / Hospital Zone / HOSZ-R6	Support	Support. Considers that the relief sought to remove the Centres and Mixed-Use Design Guide as a matter of control and discretion recognises that hospitals are purpose built facilities with design requirements which are different to other urban developments.	Allow
Southern Cross Healthcare Limited	380.69	Special Purpose Zones / Hospital Zone / HOSZ-R7	Support	Supports outdoor storage being permitted where the storage area is screened by either a fence or landscaping of 1.8m in height from any adjoining road or site.	Retain Rule HOSZ-R7 (Outdoor storage areas) as notified.
Vital Healthcare Property Trust	258.6	Special Purpose Zones / Hospital Zone / HOSZ-S1	Amend	Considers the more restrictive 14m height control as it applies to the eastern portion of the site is not supported because a more restrictive height in relation to boundary control already applies along those boundaries shared with adjacent residential properties.	Seeks to amend HOSZ-S1.4 (Maximum height of buildings and structures) Wakefield Hospital so that a 21m height control applies across the whole site.
Southern Cross Healthcare Limited	380.70	Special Purpose Zones / Hospital Zone / HOSZ-S1	Support	Supports height limit in standard HOSZ-S1 (Maximum height of buildings and structures). A height control area with a limit of 21m applies to Southern Cross Hospital, and the land to the north and east. This approach meets the intensification requirements of the NPS-UD and reflects the mixed used nature of Southern Cross Hospital's surrounding environment. Specifically, Policy 3 of the NPS-UD requires that building heights of at least 6 storeys within at least a walkable catchment of existing and planned rapid transit stops, the edge of city centre zones, or the edge of metropolitan centre zones. The Site is within a 2-3 minute walk of the City Centre zone, being approximately 156m away.	Retain Standard HOSZ-S1 (Maximum height of buildings and structures) as notified.
Vital Healthcare Property Trust	258.7	Special Purpose Zones / Hospital Zone / HOSZ-S2	Support	Supports the proposed height in relation to boundary standard as notified. Specifically, Vital supports the application of different height in relation to boundary standards as they relate to the height limits proposed on adjacent residential zones.	Retain HOSZ-S2 (Height in relation to boundary) as notified.
Southern Cross Healthcare Limited	380.71	Special Purpose Zones / Hospital Zone / HOSZ-S2	Support	Supports the height in relation to boundary controls.	Retain HOSZ-S2 (Height in relation to boundary) as notified.

Special Purpose Zone - Port Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Vital Healthcare Property Trust	FS51.13	Part 3/ Special Purpose Zones / Hospital Zone / HOSZ-S2	Support	Support. Considers that the relief sought will enable the intent of the Special Purpose Zones – Hospital Zone to provide for hospital activities and development.	Allow
Taranaki Whānui ki te Upoko o te Ika	389.117	Special Purpose Zones / Port Zone / General PORTZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend the Special Purpose Port Zone introduction as follows: Active engagement with mana whenua will assist in ensuring the mauri/mauri of this area of importance to mana whenua is not diminished through any potential adverse effects created by activities or development within the Precinct. [Inferred decision requested]
Taranaki Whānui ki te Upoko o te Ika	389.118	Special Purpose Zones / Port Zone / General PORTZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend the Special Purpose Port Zone introduction as follows: Kaiwharawhara and the Kaiwharawhara Stream has long established ecological, historical and cultural associations for the mana whenua of Whanganui a Tara (Wellington), Taranaki Whānui and Ngati Toa Rangatira. Activities within the Multi-User Ferry Precinct must recognise mana whenua as kaitiaki, alongside their relationship with the land. Active engagement with mana whenua will assist in ensuring the mauri/mauri of this area of importance to mana whenua is not diminished through any potential adverse effects created by activities and development within the Precinct. [Inferred decision requested]
Wellington Civic Trust	FS83.40	Part 3 / Special Purpose Zones / Port Zone / General PORTZ	Support	Wellington Civic Trust is seeking improved recognition of the Kaiwharawhara Stream and public space in this area, and supports mana whenua interest in this area.	Allow
CentrePort Limited	402.146	Special Purpose Zones / Port Zone / General PORTZ	Amend	Considers that there should be recognition that Burnham and Miramar Wharves are located in the Coastal Marine Area and Burnham Wharf is used for Operational Port Activities. It is included in the Regional Policy Statement definition of Regionally Significant Infrastructure as being one of the three locations in Wellington Harbour for Commercial Port Activities. The land immediately adjoining Burnham Wharf is zoned General Industry there is an interrelationship with Port Activities. An alternative is to cross reference this matter in introductions of the Special Purpose Port Zone and Miramar/Burnham Precincts in the General Industrial Area.	Seeks that recognition of Miramar and Burnham Wharves location in the Coastal Marine Area and Burnham Wharf's use for Operational Port Activities is cross referenced in the introduction of the Special Purpose Zone.
CentrePort Limited	402.147	Special Purpose Zones / Port Zone / General PORTZ-PREC01	Support in part	Considers that the requirement for smaller scale developments to be subject to a plan change and Master Plan is onerous and this should be reflected in the text.	Retain PORTZ-PREC01 Inner Harbour Port Precinct Introduction, with amendment.
CentrePort Limited	402.148	Special Purpose Zones / Port Zone / General PORTZ-PREC01	Amend	Considers that the requirement for smaller scale developments to be subject to a plan change and Master Plan is onerous and this should be reflected in the text.	Amend 5th paragraph of PORTZ-PREC01 Inner Harbour Port Precinct Introduction as follows. The eventual vision for the Inner Harbour Port Precinct is that it becomes an extension of the Waterfront Zone. In order to achieve this, any <u>significant</u> future comprehensive redevelopment and rezoning of the area would be progressed through a plan change process, including the preparation of a companion masterplan to guide anticipated <u>although smaller scale developments are not required to go through a plan change.</u>
Wellington Civic Trust	FS83.47	Part 3 / Special Purpose Zones / Port Zone / PORTZ-PREC01-P4	Oppose	Wellington Civic Trust considers it imperative that no substantial development should take place in this important inner-city precinct area without the benefit of a Master Plan having been prepared and incorporated in the Plan. CentrePort has a good record of previous planning through Master Planning. WCT opposes the suggested rewording, as it could open the door to progressive small developments and lack of proper integrated planning for this important area.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Craig Palmer	492.42	Special Purpose Zones / Port Zone / General PORTZ-PREC02	Amend	Considers that while challenging, the weaving-in of these natural features within PORTZ-PREC02 will recognise recognising the full potential of this nationally significant site. The reward will be a source of pleasure and inspiration for travellers as they depart and arrive by ferry. It will represent man-made buildings and structures co-existing in harmony with nature.	Amend PORTZ-PREC02 (Port Zone - Multi-User Ferry Precinct) to include objectives, policies, and rules that explicitly protect and ensure public access to the following ecological and recreational features: a) the Sanctuary to Sea walkway commencing at Zealandia and finishing at the estuary of the Kaiwharawhara Stream. b) the estuary and its banks to be accorded ecological protection status and maintained as a public reserve. c) the small man-made beach on the north-west corner of the escarpment to be designated as a public reserve featuring indigenous coastal trees and shrubs.
CentrePort Limited	FS30.1	Part 3 / Area Specific Matters / Zones / Special Purposes / Port Zone / PORTZ-PREC-02	Oppose	Considers that amendments sought are inconsistent with current development proposals by KiwiRail for the Wellington ferry terminal upgrade.	Disallow
Wellington Civic Trust	FS83.38	Part 3 / Special Purpose Zones / Port Zone / General PORTZ-PREC02	Support	The submission encompasses a wider area than the Port Zone and parallels and provides more detail on matters of interest to Wellington Civic Trust within the Kaiwharawhara area. Wellington Civic Trust supports the submission to the extent that it applies to the Port Zone.	Allow
CentrePort Limited	402.149	Special Purpose Zones / Port Zone / PORTZ-O1	Support in part	Considers that there should be consistent terminology within the plan and the terminology used in the Proposed Natural Resources Plan that refers to functional needs and operational requirements.	Retain PORTZ-O1 (Purpose), with amendment.
CentrePort Limited	402.150	Special Purpose Zones / Port Zone / PORTZ-O1	Amend	Considers that there should be consistent terminology within the plan and the terminology used in the Proposed Natural Resources Plan that refers to functional needs and operational requirements.	Amend PORTZ-O1 (Purpose) as follows: ... 2. A commercial port area whose functional needs and operational needs requirements are not constrained or compromised by non-port activities, reverse sensitivity, incompatible built form or subdivision.
KiwiRail Holdings Limited	408.133	Special Purpose Zones / Port Zone / PORTZ-O1	Support	Supports the objective to operate significant infrastructure safety, efficiently and effectively within the Special Purpose Port Zone. KiwiRail further support recognition of the functional and operational need of infrastructure and potential for reverse sensitivity effects.	Retain PORTZ-O1 (Purpose) as notified.
CentrePort Limited	402.151	Special Purpose Zones / Port Zone / PORTZ-O2	Support	Support the intent of this objective.	Retain PORTZ-O2 (Managing effects) as notified.
Wellington Civic Trust	388.35	Special Purpose Zones / Port Zone / PORTZ-PREC01-O1	Support	Objective PORTZ-PREC01-O1 is supported.	Retain PORTZ-PREC01-O1 (Purpose of the Inner Harbour Port Precinct) as notified.
CentrePort Limited	402.152	Special Purpose Zones / Port Zone / PORTZ-PREC01-O1	Support	Support the intent of this objective.	Retain PORTZ-PREC01-O1 (Purpose of the Inner Harbour Port Precinct) as notified.
Wellington Civic Trust	FS83.48	Part 3 / Special Purpose Zones / Port Zone / General PORTZ-PREC01	Oppose	This submission does not recognise the very visible and important position of the proposed Multi-user Ferry Precinct to people approaching the City from the north and from the sea. The area is a landmark and holds gateway potential. Wellington Civic Trust opposes the change in wording proposed. There is the opportunity to "create" something of significance for the whole city here – an opportunity which should not be overlooked or forgotten.	Disallow
Wellington Civic Trust	388.36	Special Purpose Zones / Port Zone / PORTZ-PREC01-O2	Support	Objective PORTZ-PREC01-O2 is supported.	Retain PORTZ-PREC01-O2 (Amenity and design) as notified.
CentrePort Limited	402.153	Special Purpose Zones / Port Zone / PORTZ-PREC01-O2	Support	Support the intent of this objective.	Retain PORTZ-PREC01-O2 (Amenity and design) as notified.

Enhancing accessibility for passenger/freight vehicles and rail are a key consideration.	Retain PORTZ-PREC02-P3 (Access and connections), with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.176	Special Purpose Zones / Port Zone / PORTZ-PREC02-P3	Amend	Considers that the wording of the policy appears to only favour Passenger Transport and Walking/cycling. Enhancing accessibility for passenger/freight vehicles and rail are a key consideration.	Amend PORTZ-PREC02-P3 (Access and connections) as follows: Ensure that the use, development, and operation of the Multi-User Ferry Precinct provides attractive, safe, efficient, and convenient connections to existing and planned transport rail and road networks <u>by while also:</u> ...
Wellington Civic Trust	FS83.59	Part 3 / Special Purpose Zones / Port Zone / PORTZ-PREC02-P3	Support	Wellington Civic Trust supports these additional transport matters being recognised for this particular precinct. We would support recognition of integrated road, rail, and sea networks.	Allow
Waka Kotahi NZ Transport Agency	FS103.54	Part 3 / Special Purpose Zones / Port Zone / PORTZ-PREC02-P3	Oppose	Waka Kotahi opposes the amendment sought as all modes of transport, for example walking and cycling, should be considered in providing safe and effective access and connections.	Disallow
KiwiRail Holdings Limited	408.143	Special Purpose Zones / Port Zone / PORTZ-PREC02-P3	Support	Supports maintaining and providing for safe and efficient access and connections with other transport modes.	Retain PORTZ-PREC02-P3 (Access and connections) as notified.
Wellington Civic Trust	388.46	Special Purpose Zones / Port Zone / PORTZ-PREC02-P4	Support in part	PORTZ-PREC02-P4 is partially supported and an amendment is sought.	Retain PORTZ-PREC02-P4 (Quality and amenity) with amendment.
Wellington Civic Trust	388.47	Special Purpose Zones / Port Zone / PORTZ-PREC02-P4	Amend	Considers that PORTZ-PREC02-P4 should be amended to recognise the presence of the Kaiwharawhara Stream and estuary, an area understood to be an area of DoC esplanade reserve, and also the coastal marine area.	Amend PORTZ-PREC02-P4 (Quality and amenity) as follows: ... 3. Responding to the site context, particularly where it is located adjacent to: a. A heritage building, heritage structure or heritage area; and b. Sites and areas of significance to Māori; <u>and</u> c. <u>The coastal marine area, the Kaiwharara Stream and estuary, and public land.</u>
CentrePort Limited	402.177	Special Purpose Zones / Port Zone / PORTZ-PREC02-P4	Support in part	Support in part. Considers that Clause 2 should be amended as there are no adjoining sites and public spaces to the Precinct, and Clause 3a is not required as there is no heritage items within or adjoining the precinct.	Retain PORTZ-PREC02-P4 (Quality and Amenity), with amendments.
CentrePort Limited	402.178	Special Purpose Zones / Port Zone / PORTZ-PREC02-P4	Amend	Considers that Clause 2 should be amended as there are no adjoining sites and public spaces to the Precinct.	Amend PORTZ-PREC02-P4 (Quality and Amenity) as follows: ... 2. Ensuring the bulk, scale and location of built form is appropriate to the context, and is integrated with other development on the site, <u>and adjacent areas sites and surrounding public spaces;</u>
Wellington Civic Trust	FS83.60	Part 3 / Special Purpose Zones / Port Zone / PORTZ-PREC02-P4	Oppose	The CentrePort submission appears to overlook the fact that the Precinct adjoins the coastal marine area which is a public space, and areas of road and rail, which are also public space. We understand there are also public spaces on the Kaiwharawhara reclamation itself, including DoC-owned esplanade reserves.	Disallow
CentrePort Limited	402.179	Special Purpose Zones / Port Zone / PORTZ-PREC02-P4	Amend	Considers that Clause 3a is not required as there is no heritage items within or adjoining the precinct.	Amend PORTZ-PREC02-P4 (Quality and Amenity) as follows: ... 3. Responding to the site context, particularly where it is located adjacent to: a. A heritage building, heritage structure or heritage area; and b. Sites and areas of significance to Māori;
KiwiRail Holdings Limited	408.144	Special Purpose Zones / Port Zone / PORTZ-PREC02-P4	Support	Supports policy that requires development within the Precinct to contribute to a well-functioning urban environment.	Retain PORTZ-PREC02-P4 (Quality and Amenity) as notified.
Wellington Civic Trust	388.48	Special Purpose Zones / Port Zone / PORTZ-PREC02-P5	Support	PORTZ-PREC02-P5 is supported.	Retain PORTZ-PREC02-P5 (Cultural, historical and ecological values) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.180	Special Purpose Zones / Port Zone / PORTZ-PREC02-P5	Support	Support the intent of this policy.	Retain PORTZ-PREC02-P5 (Cultural, historical and ecological values) as notified.
KiwiRail Holdings Limited	408.145	Special Purpose Zones / Port Zone / PORTZ-PREC02-P5	Support	Supports having regard to the significance of the Kaiwharawhara area including the cultural and ecological significance of the area and the relationship between Mana Whenua and the area.	Retain PORTZ-PREC02-P5 (Cultural, historical and ecological values) as notified.
CentrePort Limited	402.181	Special Purpose Zones / Port Zone / PORTZ-R1	Support	Support the intent of this rule.	Retain PORTZ-R1 (Operational port activities) as notified.
KiwiRail Holdings Limited	408.146	Special Purpose Zones / Port Zone / PORTZ-R1	Support	Supports the permitted activity status of operational port activities which includes rail activities, subject to height controls, within the Special Purpose Port Zone.	Retain PORTZ-R1 (Operational port activities) as notified.
CentrePort Limited	402.182	Special Purpose Zones / Port Zone / PORTZ-R2	Support	Support the intent of this rule.	Retain PORTZ-R2 (All Other Activities) as notified.
Greater Wellington Regional Council	351.299	Special Purpose Zones / Port Zone / PORTZ-R3	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain PORTZ-R3 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.300	Special Purpose Zones / Port Zone / PORTZ-R3	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend PORTZ-R3 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
CentrePort Limited	402.183	Special Purpose Zones / Port Zone / PORTZ-R3	Support	Support the intent of this rule.	Retain PORTZ-R3 (Maintenance and repair of buildings and structures) as notified.
KiwiRail Holdings Limited	408.147	Special Purpose Zones / Port Zone / PORTZ-R3	Support	Supports the permitted activity status of maintenance, repair, demolition, removal of buildings; and the construction, alteration and addition to buildings and structures, within the Special Purpose Port Zone.	Retain PORTZ-R3 (Maintenance and repair of buildings and structures) as notified.
CentrePort Limited	402.184	Special Purpose Zones / Port Zone / PORTZ-R4	Support	Support the intent of this rule.	Retain PORTZ-R4 (Demolition or removal of buildings and structures Permitted) as notified.
KiwiRail Holdings Limited	408.148	Special Purpose Zones / Port Zone / PORTZ-R4	Support	Supports the permitted activity status of maintenance, repair, demolition, removal of buildings; and the construction, alteration and addition to buildings and structures, within the Special Purpose Port Zone.	Retain PORTZ-R4 (Demolition or removal of buildings and structures) as notified.
CentrePort Limited	402.185	Special Purpose Zones / Port Zone / PORTZ-R5	Support	Support the intent of this rule.	Retain PORTZ-R5 (Construction and alterations and additions to buildings and structures) as notified.
KiwiRail Holdings Limited	408.149	Special Purpose Zones / Port Zone / PORTZ-R5	Support	Supports the permitted activity status of maintenance, repair, demolition, removal of buildings; and the construction, alteration and addition to buildings and structures, within the Special Purpose Port Zone.	Retain PORTZ-R5 (Construction and alterations and additions to buildings and structures) as notified.
CentrePort Limited	402.186	Special Purpose Zones / Port Zone / PORTZ-PREC01-R1	Oppose	Opposes permitted limitation of 500m2 for commercial activities as it is inappropriate in this precinct that adjoins the Central City and is identified as an area for future mixed use.	Delete PORTZ-PREC01-R1 (Commercial Activities) in its entirety, or amend floorspace limitation to 2000m2.
Wellington Civic Trust	FS83.61	Part 3 / Special Purpose Zones / Port Zone / PORTZ-PREC01-R1	Oppose	Wellington Civic Trust opposes these submissions which seek to increase to delete or amend the size limitation for commercial and office activities in the Inner Harbour Port Precinct. The Trust considers that the "allowance" is ample as an interim measure until there is a Master Plan for the area.	Disallow
CentrePort Limited	402.187	Special Purpose Zones / Port Zone / PORTZ-PREC01-R1	Amend	Opposes permitted limitation of 500m2 for commercial activities as it is inappropriate in this precinct that adjoins the Central City and is identified as an area for future mixed use.	Seeks that PORTZ-PREC01-R1 (Commercial Activities) is deleted its entirety, or otherwise seeks amendment to amend floorspace limitation to 2000m2.
Wellington Civic Trust	FS83.62	Part 3 / Special Purpose Zones / Port Zone / PORTZ-PREC01-R1	Oppose	Wellington Civic Trust opposes these submissions which seek to increase to delete or amend the size limitation for commercial and office activities in the Inner Harbour Port Precinct. The Trust considers that the "allowance" is ample as an interim measure until there is a Master Plan for the area.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.188	Special Purpose Zones / Port Zone / PORTZ-PREC01-R2	Oppose	Opposes permitted limitation of 2000m2 for office activities as it is inappropriate in this precinct that adjoins the Central City and is identified as an area for future mixed use. It is also at significant variance from the Operative District Plan That enabled office activities.	Delete PORTZ-PREC01-R2 (Office Activities) in its entirety, or amend floorspace limitation to 10000m2.
Wellington Civic Trust	FS83.63	Part 3 / Special Purpose Zones / Port Zone / PORTZ-PREC01-R1	Oppose	Wellington Civic Trust opposes these submissions which seek to increase to delete or amend the size limitation for commercial and office activities in the Inner Harbour Port Precinct. The Trust considers that the "allowance" is ample as an interim measure until there is a Master Plan for the area.	Disallow
CentrePort Limited	402.189	Special Purpose Zones / Port Zone / PORTZ-PREC01-R2	Amend	Opposes permitted limitation of 2000m2 for office activities as it is inappropriate in this precinct that adjoins the Central City and is identified as an area for future mixed use. It is also at significant variance from the Operative District Plan That enabled office activities.	Seeks that PORTZ-PREC01-R2 (Office Activities) is deleted its entirety, or otherwise seeks amendment to amend floorspace limitation to 10000m2.
Wellington Civic Trust	FS83.64	Part 3 / Special Purpose Zones / Port Zone / PORTZ-PREC01-R2	Oppose	Wellington Civic Trust opposes these submissions which seek to increase to delete or amend the size limitation for commercial and office activities in the Inner Harbour Port Precinct. The Trust considers that the "allowance" is ample as an interim measure until there is a Master Plan for the area.	Disallow
CentrePort Limited	402.190	Special Purpose Zones / Port Zone / PORTZ-PREC01-R2	Oppose	Considers that PORTZ-PREC01-R2 should be clarified for the avoidance of doubt that the rule is not intended in itself to define what constitutes a significant development or trigger the requirement for a Master Plan or a Plan Change is required.	Clarify the intent of PORTZ-PREC01-R2 (Office Activities) that the rule is not intended in itself to define what constitutes a significant development or trigger the requirement for a Master Plan or a Plan Change.
Wellington Civic Trust	FS83.65	Part 3 / Special Purpose Zones / Port Zone / PORTZ-PREC01-R2	Oppose	Wellington Civic Trust opposes these submissions which seek to increase to delete or amend the size limitation for commercial and office activities in the Inner Harbour Port Precinct. The Trust considers that the "allowance" is ample as an interim measure until there is a Master Plan for the area.	Disallow
CentrePort Limited	402.191	Special Purpose Zones / Port Zone / PORTZ-PREC01-R3	Support	Support the intent of this rule.	Retain PORTZ-PREC01-R3 (All other Activities) as notified.
CentrePort Limited	402.192	Special Purpose Zones / Port Zone / PORTZ-PREC01-R4	Support	Support the intent of this rule.	Retain PORTZ-PREC01-R4 (Existing passenger port facilities) as notified.
CentrePort Limited	402.193	Special Purpose Zones / Port Zone / PORTZ-PREC01-R5	Support	Support the intent of this rule.	Retain PORTZ-PREC01-R5 (Maintenance and repair of buildings and structures) as notified.
Greater Wellington Regional Council	351.301	Special Purpose Zones / Port Zone / PORTZ-PREC01-R6	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain PORTZ-PREC01-R6 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.302	Special Purpose Zones / Port Zone / PORTZ-PREC01-R6	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend PORTZ-PREC01-R6 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
CentrePort Limited	402.194	Special Purpose Zones / Port Zone / PORTZ-PREC01-R6	Support	Support the intent of this rule.	Retain PORTZ-PREC01-R6 (Demolition or removal of buildings and structures) as notified.
CentrePort Limited	402.195	Special Purpose Zones / Port Zone / PORTZ-PREC01-R7	Oppose	Opposes the rule as any buildings and structures not related to existing passenger port facilities or operational port activities are a discretionary activity. There is no scale reference for this rule for example a coffee kiosk would require a consent and be subject to public notification. The rule should either be deleted or alternatively allow such buildings up to 200 m2 as a permitted activity.	Delete PORTZ-PREC01-R7 (Construction of buildings and structures and alterations and additions to buildings and structures not related to existing passenger port facilities or operational port activities in the Inner Harbour Port Precinct) in its entirety, or amend rule to allow such buildings up to 200 m2 as a permitted activity.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington Civic Trust	FS83.66	Part 3 / Special Purpose Zones / Port Zone / PORTZ-PREC01-R7	Oppose	Wellington Civic Trust opposes submissions which seek to increase to delete or amend the size limitation for commercial and office activities in the Inner Harbour Port Precinct. The Trust considers that the "allowance" is ample as an interim measure until there is a Master Plan for the area. For the same reasons, Wellington Civic Trust oppose this submission. There are already buildings within the area that can provide for necessary facilities such as the example in the submission, or consent applications can be made.	Disallow
CentrePort Limited	402.196	Special Purpose Zones / Port Zone / PORTZ-PREC01-R7	Oppose	Considers that the public notification statement is not necessary as the Act provides the circumstances where public notification is required.	Seeks that the public notification statement is deleted.
Wellington Civic Trust	FS83.68	Part 3 / Special Purpose Zones / Port Zone / PORTZ-PREC01-R7	Oppose	The Inner Harbour Port Precinct and its future use and development are aspects of considerable interest to the people of Wellington. Mandatory public notification of applications is appropriate and consistent with the adjoining Waterfront Zone.	Disallow
CentrePort Limited	402.197	Special Purpose Zones / Port Zone / PORTZ-PREC01-R7	Amend	Opposes the rule as any buildings and structures not related to existing passenger port facilities or operational port activities are a discretionary activity. There is no scale reference for this rule for example a coffee kiosk would require a consent and be subject to public notification. The rule should either be deleted or alternatively allow such buildings up to 200 m2 as a permitted activity.	Seeks that PORTZ-PREC01-R7 (Construction of buildings and structures and alterations and additions to buildings and structures not related to existing passenger port facilities or operational port activities in the Inner Harbour Port Precinct) is deleted in its entirety, or otherwise amended to allow such buildings up to 200 m2 as a permitted activity.
Wellington Civic Trust	FS83.67	Part 3 / Special Purpose Zones / Port Zone / PORTZ-PREC01-R7	Oppose	Wellington Civic Trust opposes submissions which seek to increase to delete or amend the size limitation for commercial and office activities in the Inner Harbour Port Precinct. The Trust considers that the "allowance" is ample as an interim measure until there is a Master Plan for the area. For the same reasons, Wellington Civic Trust oppose this submission. There are already buildings within the area that can provide for necessary facilities such as the example in the submission, or consent applications can be made.	Disallow
Wellington Civic Trust	388.49	Special Purpose Zones / Port Zone / PORTZ-PREC01-R8	Support in part	PORTZ-PREC01-R8 is partially supported and an amendment is sought.	Retain PORTZ-PREC01-R8 (Outdoor storage areas) with amendment.
Wellington Civic Trust	388.50	Special Purpose Zones / Port Zone / PORTZ-PREC01-R8	Amend	Considers that PORTZ-PREC01-R8 should be amended so that storage areas are also screened from the coastal marine area.	Amend PORTZ-PREC01-R8 (Outdoor storage areas) as follows: ... a. The storage area is screened by a fence of at least 1.8m high or landscaping from any adjoining road, coastal marine areas or site.
CentrePort Limited	FS30.2	Part 3 / Area Specific Matters / Zones / Special Purposes / Port Zone / PORTZ-PREC-01-R8	Oppose	Considers that amendment sought to screen storage areas adjoining the CMA is impractical in a port environment.	Disallow
CentrePort Limited	402.198	Special Purpose Zones / Port Zone / PORTZ-PREC02-R1	Oppose	Considers that an arbitrary permitted limitation of 500m2 for commercial activities is unnecessary.	Delete PORTZ-PREC02-R1 (Commercial activities) in its entirety, or amend floorspace limitation to 2000m2.
Wellington Civic Trust	FS83.69	Part 3 / Special Purpose Zones / Port Zone / PORTZ-PREC02-R1	Oppose	Wellington Civic Trust opposes the suggestion that the allowable permitted activity area for commercial activity should be increased. The precinct has a particular purpose and there should not be significant commercial development beyond that purpose in this important area	Disallow
CentrePort Limited	402.199	Special Purpose Zones / Port Zone / PORTZ-PREC02-R1	Amend	Considers that an arbitrary permitted limitation of 500m2 for commercial activities is unnecessary.	Seeks that PORTZ-PREC02-R1 (Commercial activities) is deleted its entirety, or otherwise seeks amendment to amend floorspace limitation to 2000m2.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested

CentrePort Limited	402.201	Special Purpose Zones / Port Zone / PORTZ-PREC02-R3	Support	Support the intent of this rule.	Retain PORTZ-PREC02-R3 (Existing passenger port facilities) as notified.
KiwiRail Holdings Limited	408.151	Special Purpose Zones / Port Zone / PORTZ-PREC02-R3	Support	Supports the permitted activity status of passenger port facilities; maintenance and repair of structures; and demolition or removal of buildings and structures, within the Multi-User Ferry Precinct.	Retain PORTZ-PREC02-R3 (Existing passenger port facilities) as notified.
CentrePort Limited	402.202	Special Purpose Zones / Port Zone / PORTZ-PREC02-R4	Support	Support the intent of this rule.	Retain PORTZ-PREC02-R4 (Maintenance and repair of buildings and structures) as notified.
KiwiRail Holdings Limited	408.152	Special Purpose Zones / Port Zone / PORTZ-PREC02-R4	Support	Supports the permitted activity status of passenger port facilities; maintenance and repair of structures; and demolition or removal of buildings and structures, within the Multi-User Ferry Precinct.	Retain PORTZ-PREC02-R4 (Maintenance and repair of buildings and structures) as notified.
Greater Wellington Regional Council	351.303	Special Purpose Zones / Port Zone / PORTZ-PREC02-R5	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain PORTZ-PREC02-R5 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.304	Special Purpose Zones / Port Zone / PORTZ-PREC02-R5	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend PORTZ-PREC02-R5 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
CentrePort Limited	402.203	Special Purpose Zones / Port Zone / PORTZ-PREC02-R5	Support	Support the intent of this rule.	Retain PORTZ-PREC02-R5 (Demolition or removal of buildings and structures) as notified.
KiwiRail Holdings Limited	408.153	Special Purpose Zones / Port Zone / PORTZ-PREC02-R5	Support	Supports the permitted activity status of passenger port facilities; maintenance and repair of structures; and demolition or removal of buildings and structures, within the Multi-User Ferry Precinct.	Retain PORTZ-PREC02-R5 (Demolition or removal of buildings and structures) as notified.
CentrePort Limited	402.204	Special Purpose Zones / Port Zone / PORTZ-PREC02-R6	Support	Support the intent of this rule.	Retain PORTZ-PREC02-R6 (Construction of buildings and structures, alterations and additions to buildings and structures for passenger port facilities) as notified.
KiwiRail Holdings Limited	408.154	Special Purpose Zones / Port Zone / PORTZ-PREC02-R6	Support	Supports the permitted activity status of construction of buildings and structures, alterations and additions to buildings and structures for passenger port facilities.	Retain PORTZ-PREC02-R6 (Construction of buildings and structures, alterations and additions to buildings and structures for passenger port facilities) as notified.
CentrePort Limited	402.205	Special Purpose Zones / Port Zone / PORTZ-PREC02-R7	Support	Support the intent of this rule.	Retain PORTZ-PREC02-R7 (Construction of buildings and structures, alterations and additions to buildings and structures not related to passenger port facilities or operational port activities) as notified.
Wellington Civic Trust	388.51	Special Purpose Zones / Port Zone / PORTZ-PREC02-R8	Support in part	PORTZ-PREC02-R8 is partially supported and an amendment is sought.	Retain PORTZ-PREC02-R8 (Outdoor storage areas) with amendment.

Special Purpose Zone - Quarry Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Civic Trust	388.52	Special Purpose Zones / Port Zone / PORTZ-PREC02-R8	Amend	Considers that PORTZ-PREC02-R8 should be amended so that storage areas are also screened from the coastal marine area.	Amend PORTZ-PREC02-R8 (Outdoor storage areas) as follows: ... a. The storage area is screened by a fence of at least 1.8m high or landscaping from any adjoining road, coastal marine areas or site.
CentrePort Limited	FS30.3	Part 3 / Area Specific Matters / Zones / Special Purposes / Port Zone / PORTZ-PREC-02-R8	Oppose	Considers that amendment sought to screen storage areas adjoining the CMA is impractical in a port environment.	Disallow
KiwiRail Holdings Limited	408.155	Special Purpose Zones / Port Zone / PORTZ-PREC02-R8	Support	Supports the permitted activity status of outdoor storage subject to screening.	Retain PORTZ-PREC02-R8 (Outdoor Storage Areas) as notified.
CentrePort Limited	402.206	Special Purpose Zones / Port Zone / PORTZ-S1	Support	Support the intent of this standard.	Retain PORTZ-S1 (Maximum height of buildings and structures) as notified.
KiwiRail Holdings Limited	408.156	Special Purpose Zones / Port Zone / PORTZ-S1	Support	Supports the maximum height limit of 27m for buildings and structures.	Retain PORTZ-S1 (Maximum height of buildings and structures) as notified.
CentrePort Limited	402.207	Special Purpose Zones / Port Zone / PORTZ-PREC01-S1	Support	Support the intent of this standard.	Retain PORTZ-PREC01-S1 (Maximum height of buildings and structures) as notified.
KiwiRail Holdings Limited	408.157	Special Purpose Zones / Port Zone / PORTZ-PREC01-S1	Support	Supports the unrestricted height limit for cranes, elevators, cargo and passenger handling equipment, and walkways. KiwiRail further support the 19m maximum height limit for all other buildings and structures.	Retain PORTZ-PREC01-S1 (Maximum height of buildings and structures) as notified.
CentrePort Limited	402.208	Special Purpose Zones / Port Zone / PORTZ-PREC01-S2	Support	Support the intent of this standard.	Retain PORTZ-PREC01-S2 (Verandahs) as notified.
CentrePort Limited	402.209	Special Purpose Zones / Port Zone / PORTZ-PREC02-S1	Support	Support the intent of this standard.	Retain PORTZ-PREC02-S1 (Maximum height of buildings and structure) as notified.
Wellington City Council	266.160	Special Purpose Zones / Quarry Zone / General QUARZ	Amend	Considers that in the Special Purpose Quarry Zone chapter text, the precinct for Kiwi Point is referred to as the "Kiwi Point Precinct" whereas the name is "Kiwipoint Quarry Precinct" in the District Plan Maps.	Seeks to amend all references of "Kiwi Point Precinct" to "Kiwipoint Quarry Precinct".
Horokiwi Quarries Ltd	271.70	Special Purpose Zones / Quarry Zone / General QUARZ	Support	Supports the zoning of the Horokiwi Quarry from General Rural in the Operative District Plan to Special Purpose Quarry Zone. Horokiwi has considered the implications of such a zoning and notwithstanding the existing use rights that apply to the existing quarry site (which includes those area of land identified in the Existing Use Certificate which includes unused areas of the greater site) it supports the rezoning of the site on the basis it: <ul style="list-style-type: none"> Recognises the existing and long-established quarry activity. Provide policy support and consenting framework recognising the importance, benefit and role of the quarry activity, and provides a more efficient policy and rule framework. Provide structure to the assessment of any future resource consents on the site that are behind the scope of the Existing Use Certificate. Reflects the approach in the National Planning Standards for having the provisions in one chapter. Gives effect to the RPS Objective 31 to provide mineral resources within close proximity of the demand, and Policy 60 to give particular regard to the benefits of utilising mineral resources within the region. 	Retain the Special Purpose Quarry zoning of the Horokiwi Quarry site, with amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Horokiwi Quarries Ltd	271.71	Special Purpose Zones / Quarry Zone / General QUARZ	Support in part	Supports the application of the Special Purpose Quarry Zone to the site, and seeks the application of the zoning to adjoining sites owned by Horokiwi. The proposed zoning recognises the existing quarry activities and provides an efficient and effective policy and rule framework in which to consider the effects. Related to the zoning, Horokiwi supports the PDP provisions which recognise the expansion of existing quarries.	Retain Special Purpose Quarry Zone, with amendments.
Horokiwi Quarries Ltd	271.72	Special Purpose Zones / Quarry Zone / General QUARZ	Amend	Supports that the Horokiwi site is zoned Special Purpose Quarry Zone, however two sites are not included, and amendments are sought to rezone two areas (being Pt Sec 17 Harbour District and Pt Sect 18 Harbour District from General Rural zone to Special Purpose Quarry zone, and part of Pt Sec 16 Harbour District from Open Space zone to Special Purpose Quarry Zone). This would provide for the full utilisation of the quarry site and provide a more efficient consenting regime. Pt Sec 16 Harbour District is owned by Horokiwi Quarries Ltd, is included within the existing use certificate, and part of the site features the existing sediment pond. Public access within the site is restricted and the site has no passive or active recreational assets or activities. The land is not subject to a reserves management plan and other than its historical zoning, there appears no basis or justification for an Open Space Zoning in the PDP. A consistent zoning would therefore be logical and efficient. [Refer to original submission for full reason, including attachments]	Rezone Pt Sec 16 Harbour District from Open Space Zone to Special Purpose Quarry Zone. [Refer to original submission for figures and attachments showing the area sought to be rezoned].
Horokiwi Quarries Ltd	271.73	Special Purpose Zones / Quarry Zone / General QUARZ	Amend	Supports that the Horokiwi site is zoned Special Purpose Quarry Zone, however two sites are not included, and amendments are sought to rezone two areas (being Pt Sec 17 Harbour District and Pt Sect 18 Harbour District from General Rural zone to Special Purpose Quarry zone, and part of Pt Sec 16 Harbour District from Open Space zone to Special Purpose Quarry Zone). This would provide for the full utilisation of the quarry site and provide a more efficient consenting regime. Pt Sec 18 is owned by Horokiwi Quarries Ltd and is included within the existing use certificate. Pt Sec 17 Harbour District is not in the existing use certificate, but is owned by Horokiwi and is positioned between the existing quarry site and Pt Sect 18. A consistent zoning would therefore be logical and efficient. [Refer to original submission for full reason, including attachments]	Rezone Pt Sec 18 Harbour District and Pt Sec 17 Harbour District from General Rural Zone to Special Purpose Quarry Zone. [Refer to original submission for figures and attachments showing the areas sought to be rezoned].
Horokiwi Quarries Ltd	271.74	Special Purpose Zones / Quarry Zone / General QUARZ	Support	Supports the introductory text to the Quarry Zone on the basis it provides clarity as to the nature and uniqueness of the existing activities and the reasoning for the special purpose zone.	Retain the Special Purpose Quarry Zone Introduction as notified.
Aggregate and Quarry Association	303.23	Special Purpose Zones / Quarry Zone / General QUARZ	Not specified	Considers that it is important that the PDP does not shut off access to potential aggregate sources to provide for Wellington's current and future construction needs. As aggregate is expensive to transport, sources of this need to be close to the place of construction.	Seeks that the Proposed District Plan provisions do not unreasonably curtail the expansion or establishment of quarries.
Wellington City Council Environmental Reference Group	FS112.34	Part 3 / Special Purpose Zones / Quarry Zone / General QUARZ	Oppose	A number of submission points made by the Aggregate & Quarry Association (please see multiple points in their submission relating to the same theme) argue that "it is important that the PDP does not shut off access to potential aggregate sources to provide for Wellington's current and future construction needs. As aggregate is expensive to transport, sources of this need to be close to the place of construction."Elsewhere, they also say: "... the District Plan must not unreasonably curtail expansion of existing quarries and establishment of new quarries..." WCCERG disagree, on the basis of primary and secondary greenhouse gas emissions from quarrying, which are no longer tenable; and the opportunity to re-use existing materials (instead of sending them to landfill, as is currently the case).	Disallow / Seeks that instead of allowing new mining or quarrying activities and changes of use, WCC requires no expansion of any kind of mining or quarrying activities, and a second policy stating that these activities be phased out by (for example), 2030.
Aggregate and Quarry Association	303.24	Special Purpose Zones / Quarry Zone / General QUARZ	Not specified	Considers that it is important that the PDP does not shut off access to potential aggregate sources to provide for Wellington's current and future construction needs. As aggregate is expensive to transport, sources of this need to be close to the place of construction.	Seeks that the Proposed District Plan provisions do not preclude the potential development of new quarries in areas outside the Special Purpose Quarry Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Horokiwi Quarries Limited	FS28.5	Part 3 / Special Purpose Zones / Quarry Zone / General QUARZ	Support	Given the importance of quarries to the city and region, Horokiwi Quarries Ltd would support recognition and quarry provisions outside the Special Purpose Quarry zone.	Allow
Wellington City Council Environmental Reference Group	FS112.35	Part 3 / Special Purpose Zones / Quarry Zone / General QUARZ	Oppose	A number of submission points made by the Aggregate & Quarry Association (please see multiple points in their submission relating to the same theme) argue that "it is important that the PDP does not shut off access to potential aggregate sources to provide for Wellington's current and future construction needs. As aggregate is expensive to transport, sources of this need to be close to the place of construction." Elsewhere, they also say: "... the District Plan must not unreasonably curtail expansion of existing quarries and establishment of new quarries..." WCCERG disagree, on the basis of primary and secondary greenhouse gas emissions from quarrying, which are no longer tenable; and the opportunity to re-use existing materials (instead of sending them to landfill, as is currently the case).	Disallow / Seeks that instead of allowing new mining or quarrying activities and changes of use, WCC requires no expansion of any kind of mining or quarrying activities, and a second policy stating that these activities be phased out by (for example), 2030.
Aggregate and Quarry Association	303.25	Special Purpose Zones / Quarry Zone / General QUARZ	Support	Supports the Special Purpose Quarry Zone as it stands for Wellington's existing quarries.	Retain the 'Special Purpose - Quarry Zone' Chapter as notified.
Horokiwi Quarries Ltd	271.75	Special Purpose Zones / Quarry Zone / QUARZ-O1	Support	Supports recognition of the purpose and role of quarries.	Retain QUARZ-O1 (Purpose) as notified.
Horokiwi Quarries Ltd	271.76	Special Purpose Zones / Quarry Zone / QUARZ-O2	Support in part	Supports recognition of the management of the adverse effects of quarry activities but seeks amendment to require management where practicable.	Retain QUARZ-O2 (Adverse effects), with amendment.
Horokiwi Quarries Ltd	271.77	Special Purpose Zones / Quarry Zone / QUARZ-O2	Amend	Supports recognition of the management of the adverse effects of quarry activities but seeks amendment to require management where practicable. The Horokiwi quarry is long established and has been operating on its site for nearly 50 years. In that time, residential development on its boundaries has intensified and while Horokiwi endeavours to manage the adverse effects, it is constrained by the nature of the quarry activity and long-term operational constraints.	Amend QUARZ-O2 (Adverse effects) as follows: <u>Where practicable, a</u> Adverse effects generated by quarrying activities onto adjacent residential sites are appropriately managed.
Horokiwi Quarries Ltd	271.78	Special Purpose Zones / Quarry Zone / QUARZ-O3	Support	Supports recognition of rehabilitation noting the existing quarry activity has existing use rights and no current consenting rehabilitation requirements.	Retain QUARZ-O3 (Site rehabilitation) as notified.
Horokiwi Quarries Ltd	271.79	Special Purpose Zones / Quarry Zone / QUARZ-P1	Support	Supports recognition of the benefits of quarries, and their functional and operational needs.	Retain QUARZ-P1 (Enabled activities) as notified.
Horokiwi Quarries Ltd	271.80	Special Purpose Zones / Quarry Zone / QUARZ-P2	Support	Supports the strong policy directive relating to non-quarrying activities within the zone.	Retain QUARZ-P2 (Other activities) as notified.
Horokiwi Quarries Ltd	271.81	Special Purpose Zones / Quarry Zone / QUARZ-P3	Support	Supports recognition of the need to maintain, where practicable reasonable amenity for adjoining residential zones. The reference to 'where practicable' is supported as specific to Horokiwi, it recognises the residential development that has occurred in the lifetime of the quarry and that the ability maintain reasonable amenity is constrained.	Retain QUARZ-P3 (Zone interfaces) as notified.
Horokiwi Quarries Ltd	271.82	Special Purpose Zones / Quarry Zone / QUARZ-P4	Support	Supports that should the Horokiwi site be expanded and require resource consent, it anticipates rehabilitation will be required.	Retain QUARZ-P4 (Site rehabilitation) as notified.
Horokiwi Quarries Ltd	271.83	Special Purpose Zones / Quarry Zone / QUARZ-R1	Support	Supports the permitted activity rule for rural activities.	Retain QUARZ-R1 (Rural activities) as notified.
Horokiwi Quarries Ltd	271.84	Special Purpose Zones / Quarry Zone / QUARZ-R2	Support	Supports the permitted activity rule for conservation activities.	Retain QUARZ-R2 (Conservation activities) as notified.

Special Purpose Zone - Stadium Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Horokiwi Quarries Ltd	271.85	Special Purpose Zones / Quarry Zone / QUARZ-R3	Support	Supports the controlled activity rule for quarrying activities. The non-notification clause is also supported. Noting the Horokiwi Quarry is operating under existing use rights.	Retain QUARZ-R3 (Quarrying activities) as notified.
Horokiwi Quarries Ltd	271.86	Special Purpose Zones / Quarry Zone / QUARZ-R4	Support	Supports the default discretionary activity rule. Noting the Horokiwi Quarry is operating under existing use rights.	Retain QUARZ-R4 (All other activities) as notified.
Horokiwi Quarries Ltd	271.87	Special Purpose Zones / Quarry Zone / QUARZ-R5	Support	Supports the permitted activity rule for maintenance and repair of buildings and structures. Noting the Horokiwi Quarry is operating under existing use rights.	Retain QUARZ-R5 (Maintenance and repair of buildings and structures) as notified.
Horokiwi Quarries Ltd	271.88	Special Purpose Zones / Quarry Zone / QUARZ-R6	Support	Supports the permitted activity rule for demolition or removal of buildings and structures. Noting the Horokiwi Quarry is operating under existing use rights.	Retain QUARZ-R6 (Demolition or removal of buildings and structures) as notified.
Greater Wellington Regional Council	351.305	Special Purpose Zones / Quarry Zone / QUARZ-R6	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain QUARZ-R6 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.306	Special Purpose Zones / Quarry Zone / QUARZ-R6	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend QUARZ-R6 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Horokiwi Quarries Ltd	271.89	Special Purpose Zones / Quarry Zone / QUARZ-R7	Support	Supports the rule for construction of buildings and structures and alteration and addition to buildings and structures. Noting the Horokiwi Quarry is operating under existing use rights.	Retain QUARZ-R7 (Construction of buildings and structures and alterations and additions to buildings and structures) as notified.
Horokiwi Quarries Ltd	271.90	Special Purpose Zones / Quarry Zone / QUARZ-S1	Support	Supports the standard for a site rehabilitation plan should consent be required at some stage in the future under Rule QUARZ-R3. Noting the Horokiwi Quarry is operating under existing use rights.	Retain QUARZ-S1 (Site Rehabilitation Plan) as notified.
Horokiwi Quarries Ltd	271.91	Special Purpose Zones / Quarry Zone / QUARZ-S2	Support	Supports the height in relation to boundary standard, should consent be required at some stage in the future under Rule QUARZ-R3. Noting the Horokiwi Quarry is operating under existing use rights.	Retain QUARZ-S2 (Maximum height of buildings and structures) as notified.
Horokiwi Quarries Ltd	271.92	Special Purpose Zones / Quarry Zone / QUARZ-S3	Support	Supports the height in relation to boundary standard, should consent be required at some stage in the future under Rule QUARZ-R3. Noting the Horokiwi Quarry is operating under existing use rights.	Retain QUARZ-S3 (Height in relation to boundary) as notified.
Waka Kotahi	370.442	Special Purpose Zones / Quarry Zone / QUARZ-PREC01-S7	Support	Standard QUARZ-PREC01-S7 is supported as requires access is only via an authorised crossing from State Highway 1.	Retain Standard QUARZ-PREC01-S7 (Access) as notified.
Waka Kotahi	370.443	Special Purpose Zones / Stadium Zone / STADZ-P2	Support	Policy STADZ-P2 is supported as it promotes pedestrian and cycling access and accessibility for all ages and mobility.	Retain Policy STADZ-P2 (Other activities) as notified.
Waka Kotahi	370.444	Special Purpose Zones / Stadium Zone / STADZ-P3	Support	Policy STADZ-P3 is supported as it promotes pedestrian and cycling access and accessibility for all ages and mobility.	Retain Policy STADZ-P3 (Access and connections) as notified.
Waka Kotahi	370.445	Special Purpose Zones / Stadium Zone / STADZ-P5	Support	Policy STADZ-P5 is supported as it promotes pedestrian and cycling access and accessibility for all ages and mobility.	Retain Policy STADZ-P5 (Urban Form, quality and amenity) as notified.
Wellington City Council	266.161	Special Purpose Zones / Stadium Zone / STADZ-P6	Amend	Considers that STADZ-P6 (Cultural, historical and ecological values) refers to "ecological values" in the policy title, however there are no ecological values within the highly modified Stadium Zone.	Amend STADZ-P6 (Cultural, historical and ecological values) as follows: Cultural and historical values
Taranaki Whānui ki te Upoko o te Ika	389.121	Special Purpose Zones / Stadium Zone / STADZ-P6	Support in part	[No specific reason given beyond decision requested - refer to original submission].	Retain STADZ-P6 (Cultural, historical and ecological values) with amendments.
Taranaki Whānui ki te Upoko o te Ika	389.122	Special Purpose Zones / Stadium Zone / STADZ-P6	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks to amend STADZ-P6 (Cultural, historical and ecological values) as amended to include "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City".

Special Purpose Zone - Tertiary Education Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Te Rūnanga o Toa Rangatira	FS138.62	Part 3 / Special Purpose Zones / Stadium Zone / STADZ-P6	Oppose	The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui ā Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui ā Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui ā Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.123	Special Purpose Zones / Stadium Zone / STADZ-P6	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks to amend STADZ-P6 (Cultural, historical and ecological values) to provide triggers for active partnership or engagement with Taranaki Whānui in respect of design opportunities with Taranaki Whānui specific associations.
Greater Wellington Regional Council	351.307	Special Purpose Zones / Stadium Zone / STADZ-R5	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain STADZ-R5 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.308	Special Purpose Zones / Stadium Zone / STADZ-R5	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend STADZ-R5 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Te Herenga Waka Victoria University of Wellington	106.11	Special Purpose Zones / Tertiary Education Zone / General TEDZ	Support in part	Considers that the Tertiary Education zone should be extended to include the McLean Flats site at 320A The Terrace (outlined in black in Figure 2 on original submission) and the substation site adjoining the Gordon Wilson Flats site on the northern side (outlined in blue in Figure 2 on original submission). Both sites will be utilised for university purposes in accordance with the CDP.	Seeks extension to the Tertiary Education zone to apply to the McLean Flats site and the substation site adjoining the Gordon Wilson Flats site. [Refer to original submission for map]
Massey University	253.22	Special Purpose Zones / Tertiary Education Zone / General TEDZ	Support in part	Supports in part the introduction of a specific tertiary education zone provided the relief sought in this submission are addressed.	Retain the Tertiary Education Zone with amendments sought in the submission.
Massey University	253.23	Special Purpose Zones / Tertiary Education Zone / TEDZ-O1	Support in part	Seeks relief to provide clarify to Objective TEDZ-O1.	Retain Objective TEDZ-O1 (Purpose) with amendment.
Massey University	253.24	Special Purpose Zones / Tertiary Education Zone / TEDZ-O1	Amend	Seeks relief to provide clarify to Objective TEDZ-O1.	Amend Objective TEDZ-O1 (Purpose) as follows: Victoria University's Kelburn Campus and Massey University's Mt Cook Campus operate efficiently and effectively and are recognised regionally, nationally and internationally <u>as</u> significant educational facilities supported by a range of primary and ancillary activities.
Massey University	253.25	Special Purpose Zones / Tertiary Education Zone / TEDZ-O2	Support in part	Supports the objective as the university has invested and established relationships with their iwi partners in Wellington and nationwide.	Retain TEDZ-O2 (Mana Whenua) with amendment.
Massey University	253.26	Special Purpose Zones / Tertiary Education Zone / TEDZ-O2	Amend	While Massey acknowledges Taranaki Whānui and Ngāti Toa Rangatira it does not wish for the objective to rule out other Mana Whenua and seeks to recognise the varying interests of all mana whenua within the area.	Amend Objective TEDZ-O2 (Mana Whenua) as follows: Taranaki Whānui, <u>Te Āti Awa</u> , and Ngāti Toa Rangatira are acknowledged as the mana whenua of Te Whanganui ā Tara (Wellington) and their cultural associations to these sites and the land are recognised in planning and developing the Tertiary Education Zone.
Massey University	253.27	Special Purpose Zones / Tertiary Education Zone / TEDZ-O2	Amend	While Massey acknowledges Taranaki Whānui and Ngāti Toa Rangatira it does not wish for the objective to rule out other Mana Whenua and seeks to recognise the varying interests of all mana whenua within the area.	Amend Objective TEDZ-O2 (Mana Whenua) as follows: Taranaki Whānui and Ngāti Toa Rangatira are acknowledged as the cultural association the mana whenua of Te Whanganui ā Tara (Wellington) and their cultural associations have to these sites and the land are recognised in future planning and development of the Tertiary Education Zone.
Taranaki Whānui ki te Upoko o te Ika	389.124	Special Purpose Zones / Tertiary Education Zone / TEDZ-O2	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that TEDZ-O2 (Mana Whenua) is amended to include "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City".

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Te Rūnanga o Toa Rangatira	FS138.63	Part 3 / Special Purpose Zones / Tertiary Education Zone / TEDZ-O2	Oppose	The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.	Disallow
Te Rūnanga o Toa Rangatira	488.92	Special Purpose Zones / Tertiary Education Zone / TEDZ-O2	Support in part	Supports objective TEDZ-O2 and reference to mana whenua.	Retain TEDZ-O2 (Mana whenua) with amendment below.
Te Rūnanga o Toa Rangatira	488.93	Special Purpose Zones / Tertiary Education Zone / TEDZ-O2	Amend	Considers that TEDZ-O2 should requiring partnership with mana whenua rather than engagement.	Amend TEDZ-O2 (Mana whenua) to require partnership rather than engagement with mana whenua.
Massey University	253.28	Special Purpose Zones / Tertiary Education Zone / TEDZ-O3	Support in part	Considers objective TEDZ-O3 in its current form implies coordination is required between Massey University and Victoria University for their future development. Wants to ensure that there shall be no coordination expected between Massey University and Victoria University as they operate as separate entities. Relief is sought to provide clarity to distinct the development expectations on the respective universities.	Retain TEDZ-O3 (Amenity and design) with amendment.
Massey University	253.29	Special Purpose Zones / Tertiary Education Zone / TEDZ-O3	Amend	Considers objective TEDZ-O3 in its current form implies coordination is required between Massey University and Victoria University for their future development. Wants to ensure that there shall be no coordination expected between Massey University and Victoria University as they operate as separate entities. Relief is sought to provide clarity to distinct the development expectations on the respective universities.	Amend TEDZ-O3 (Amenity and design) as follows: Changes in land use and the built form of Victoria university's Kelburn campus and Massey University's Mt Cook campus' occur in a coordinated and integrated manner <u>respectively for each individual campus</u> , contribute to a well-functioning urban environment and recognise the functional and operational needs of <u>each of the individual</u> the university campus.
Massey University	253.30	Special Purpose Zones / Tertiary Education Zone / TEDZ-O4	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-O4 (Managing adverse effects) as notified.
WCC Environmental Reference Group	377.510	Special Purpose Zones / Tertiary Education Zone / TEDZ-O4	Support	Support the policy as it currently stands because of the need to assist Wellingtons tertiary education sector into a transition of new learning styles (ie: Online learning). The student housing crisis is also addressed in point 4, with important emphasis placed on providing for a range of accommodation types that would include a range of prices and locations, acknowledging the need for cheaper higher quality living environments due to increased time spent in accommodation and increased cost of living.	Retain TEDZ-O4 (Managing adverse effects) as notified.
Massey University	253.31	Special Purpose Zones / Tertiary Education Zone / TEDZ-P1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-P1 (Enabled activities) as notified.
Massey University	253.32	Special Purpose Zones / Tertiary Education Zone / TEDZ-P2	Support in part	Considers that an amendment is needed to let Massey University to allow other entities to utilize their established premises when a space is underutilized.	Retain Policy TEDZ-P2 (Incompatible activities) with amendment.
Massey University	253.33	Special Purpose Zones / Tertiary Education Zone / TEDZ-P2	Amend	Considers that an amendment is needed to let Massey University to allow other entities to utilize their established premises when a space is underutilized.	Amend Policy TEDZ-P2 (Incompatible activities) as follows: Only allow other activities within the Tertiary Education Zone where they: 1. are compatible with the purpose of the Zone; and 2. will not have adverse effects on the vitality and amenity of the Zone; <u>and</u> 3. <u>are facilitated by the tertiary education provider.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Massey University	253.34	Special Purpose Zones / Tertiary Education Zone / TEDZ-P3	Support in part	Considers that often facilities within the zone are designed to be functional so as to meet their educational purpose, meaning that there are little opportunities for design modifications. Considers that managing design collaboration with their iwi partners via non-statutory documents such as the Massey's Te Tiriti o Waitangi objectives means that the plan as notified results in duplication.	Retain Policy TEDZ-P3 (Mana Whenua) with amendment.
Massey University	253.35	Special Purpose Zones / Tertiary Education Zone / TEDZ-P3	Amend	Considers that often facilities within the zone are designed to be functional so as to meet their educational purpose, meaning that there are little opportunities for design modifications. Considers that managing design collaboration with their iwi partners via non-statutory documents such as the Massey's Te Tiriti o Waitangi objectives means that the plan as notified results in duplication.	Amend Policy TEDZ-P3 (Mana Whenua) as follows: Recognise and enable mana whenua association in the Tertiary Education Zone by: 1. ensuring that use and development in the Zone recognises and has regard to historical and contemporary relationship between mana whenua and these sites and universities; <u>and</u> 2. managing new development adjoining scheduled sites of significance to Māori; and 3. collaborating on the design and incorporation of traditional cultural elements into public space within the zone.
Taranaki Whānui ki te Upoko o te Ika	389.125	Special Purpose Zones / Tertiary Education Zone / TEDZ-P3	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that TEDZ-P3 (Mana Whenua) is amended to include "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City".
Te Rūnanga o Toa Rangatira	FS138.64	Part 3 / Special Purpose Zones / Tertiary Education Zone / TEDZ-P3	Oppose	The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.	Disallow
Te Rūnanga o Toa Rangatira	488.94	Special Purpose Zones / Tertiary Education Zone / TEDZ-P3	Support in part	Supports Policy TEDZ-P3 and reference to mana whenua.	Retain TEDZ-P3 (Mana whenua) with amendment.
Te Rūnanga o Toa Rangatira	488.95	Special Purpose Zones / Tertiary Education Zone / TEDZ-P3	Support in part	Considers that TEDZ-P3 should requiring partnership with mana whenua rather than engagement.	Amend TEDZ-P3 (Mana whenua) to require partnership rather than engagement with mana whenua.
Massey University	253.36	Special Purpose Zones / Tertiary Education Zone / TEDZ-P4	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-P4 (Providing for future needs) as notified.
Massey University	253.37	Special Purpose Zones / Tertiary Education Zone / TEDZ-P5	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-P5 (Sense of place) as notified.
Taranaki Whānui ki te Upoko o te Ika	389.126	Special Purpose Zones / Tertiary Education Zone / TEDZ-P5	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that TEDZ-P5 (Sense of place) is amended to include "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City".
Te Rūnanga o Toa Rangatira	FS138.65	Part 3 / Special Purpose Zones / Tertiary Education Zone / TEDZ-P5	Oppose	The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.	Disallow
Massey University	253.38	Special Purpose Zones / Tertiary Education Zone / TEDZ-P6	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-P6 (Quality design outcomes and amenity) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.446	Special Purpose Zones / Tertiary Education Zone / TEDZ-P6	Support	Policy TEDZ-P6 is supported as it promotes pedestrian and cycling access and accessibility for all ages and mobility.	Retain Policy TEDZ-P6 (Quality design outcomes and amenity) as notified.
WCC Environmental Reference Group	377.511	Special Purpose Zones / Tertiary Education Zone / TEDZ-P6	Support	Support as the policy clearly and effectively encompasses all key considerations for future development within the Centre Zone. In particular the need for maintaining the amenity of culturally significant sites, creation of green space, climate change resilience, and incorporating current and future public transport	Retain TEDZ-P6 (Quality design outcomes and amenity) as notified.
Massey University	253.39	Special Purpose Zones / Tertiary Education Zone / TEDZ-P7	Support in part	Considers that Massey University has no agreement with any natural hazard and emergency services providers to serve as a resilience anchor during a natural hazard event, nor is the scope of this role/requirement defined. Considers that Policy TEDZ-P7(2) has not been justified through Wellington City Council's Section 32 reporting for the Tertiary Education Zone in the Wellington City Proposed District Plan. Consequently, the inclusion of Policy TEDZ-P7(2) has not been justified and imposes a requirement on Massey University that have not been agreed to.	Retain Policy TEDZ-P7 (Resilience) with amendment.
Massey University	253.40	Special Purpose Zones / Tertiary Education Zone / TEDZ-P7	Amend	Considers that Massey University has no agreement with any natural hazard and emergency services providers to serve as a resilience anchor during a natural hazard event, nor is the scope of this role/requirement defined. Considers that Policy TEDZ-P7(2) has not been justified through Wellington City Council's Section 32 reporting for the Tertiary Education Zone in the Wellington City Proposed District Plan. Consequently, the inclusion of Policy TEDZ-P7(2) has not been justified and imposes a requirement on Massey University that have not been agreed to.	Amend Policy TEDZ-P7 (Resilience) as follows: Encourage new development within Victoria University's Kelburn campus and Massey University's t Cook campus that 1- is sustainable, resilient and adaptable to change in use over time, and 2- supports the universities' role and function as resilience anchors during and after natural hazard events.
WCC Environmental Reference Group	377.512	Special Purpose Zones / Tertiary Education Zone / TEDZ-P7	Support	Support this policy due to its clear and concise expression of support for improving Wellington City's tertiary education facilities whilst emphasising some of the most important considerations of any new development within the CBD that being their long term sustainability, resilience and capacity as a multi use building. In addition the policy also addresses the important role these facilities play in improving the resilience of surrounding areas to climate change induced natural hazards, an issue of increasing relevance and importance.	Retain TEDZ-P7 (Resilience) as notified.
Massey University	253.41	Special Purpose Zones / Tertiary Education Zone / TEDZ-P8	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-P8 (National war memorial) as notified.
Massey University	253.42	Special Purpose Zones / Tertiary Education Zone / TEDZ-R1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-R1 (Tertiary education facility) as notified.
Massey University	253.43	Special Purpose Zones / Tertiary Education Zone / TEDZ-R2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-R2 (Activities relating to the function of the National War Memorial including ceremonial activities) as notified.
Te Herenga Waka Victoria University of Wellington	106.12	Special Purpose Zones / Tertiary Education Zone / TEDZ-R3	Support in part	The term 'cannot be achieved' implies the standard must be complied with unless it is impossible to do so. Instead, the wording should reflect the intent of the provision, which is to introduce a more onerous activity status when permitted activity standards are not met. Amending the language to 'is not achieved' reflects language used in district plans elsewhere in the country and provides greater consenting flexibility for when permitted activity standards are not met.	Amend TEDZ-R3 (All other activities) as follows: [...] Where: a. Compliance with any of the requirements of the requirements of [...] cannot be is not achieved.
Massey University	253.44	Special Purpose Zones / Tertiary Education Zone / TEDZ-R3	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-R3 (All other activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.513	Special Purpose Zones / Tertiary Education Zone / TEDZ-R3	Amend	Considers the rule provides an outline for requirements for activities outside of other established outlines however as it currently stands it fails to include the important long term sustainability and resilience considerations outlined within policies, 6 and 7. As such we suggest including these within the listed policies outlined within the matters of discretion.	Amend TEDZ-R3 (all other activities) as follows: ... Matters of discretion are: 1. Any relevant matters in TEDZ-P1, TEDZ-P2, TEDZ-P3, TEDZ-P4 , <u>TEDZ-P6, TEDZ-P7</u> and TEDZ-P8; 2. The provision of an Event Management Plan, including details of traffic and noise generation from the proposed activity and how any effects of these will be managed; and
Massey University	253.45	Special Purpose Zones / Tertiary Education Zone / TEDZ-R4	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-R4 (Maintenance and repair of buildings and structures) as notified.
Te Herenga Waka Victoria University of Wellington	106.13	Special Purpose Zones / Tertiary Education Zone / TEDZ-R5	Not specified	The term 'cannot be achieved' implies the standard must be complied with unless it is impossible to do so. Instead, the wording should reflect the intent of the provision, which is to introduce a more onerous activity status when permitted activity standards are not met. Amending the language to 'is not achieved' reflects language used in district plans elsewhere in the country and provides greater consenting flexibility for when permitted activity standards are not met.	Amend TEDZ-R5 (Demolition or removal of buildings and structures) as follows: [...] a. compliance with any requirements in TEDZ-R5.1.a cannot be achieved <u>is not achieved</u> .
Oliver Sangster	112.13	Special Purpose Zones / Tertiary Education Zone / TEDZ-R5	Amend	Considers that amendment to TEDZ-R5 is needed consistent with submission points to permit demolition of the Gordon Wilson Flats.	Amend TEDZ-R5 (Demolition or removal of buildings and structures) as follows: Activity status: Permitted Where: The demolition or removal is not of Gordon Wilson Flats at 320 the Terrace"
Massey University	253.46	Special Purpose Zones / Tertiary Education Zone / TEDZ-R5	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-R5.1 (Demolition or removal of buildings and structures) as notified.
Massey University	253.47	Special Purpose Zones / Tertiary Education Zone / TEDZ-R5	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-R5.2 (Demolition or removal of buildings and structures) as notified.
Greater Wellington Regional Council	351.309	Special Purpose Zones / Tertiary Education Zone / TEDZ-R5	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain TEDZ-R5 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.310	Special Purpose Zones / Tertiary Education Zone / TEDZ-R5	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend TEDZ-R5 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
WCC Environmental Reference Group	377.514	Special Purpose Zones / Tertiary Education Zone / TEDZ-R5	Amend	Considers the second part of the rule in regards to controlled demolition activities does not effectively consider the potential significant local and wider environmental impacts of demolition activities within Wellington City. Suggest the addition of further consideration points that acknowledges these risks and the need for their minimisation.	Amend TEDZ-R5.2 (Demolition or removal of buildings and structures) ... Matters of control are: 1. The preparation and implementation of a demolition management plan; 2. Management of demolition effects on local amenity values; and 3. Recording of the building prior to demolition. <u>4. Establishment of a management plan for runoff of potential on site exotoxins and other environmental hazards.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Te Herenga Waka Victoria University of Wellington	106.14	Special Purpose Zones / Tertiary Education Zone / TEDZ-R6	Oppose	<p>Opposes changing the activity status for additions and alterations to buildings and structures in the Tertiary Zone from Controlled to Discretionary Restricted.</p> <p>Considers that changing the activity status would significantly expand the matters for assessment which are already sufficiently broad and that the Controlled activity status provides sufficient discretion to the Council to ensure neighbours are not adversely affected without exposing the University to unnecessarily onerous consenting requirements. There is a risk that this will cause unnecessary delay and cost, impacting the University's ability to grow.</p>	<p>Amend TEDZ-R6.2 (Additions and alterations to buildings and structures) as follows:</p> <p>2. Activity status: Restricted Discretionary <u>Controlled</u></p>
Te Herenga Waka Victoria University of Wellington	106.15	Special Purpose Zones / Tertiary Education Zone / TEDZ-R6	Oppose in part	<p>Considers that the definition of 'public spaces' in the PDP is broad and includes anywhere within the University that is accessible by a pedestrian. 'Public spaces' should be replaced with 'legal road or are located 10m away from a legal road boundary.'</p> <p>This would strike a reasonable balance between retaining Council oversight of additions and alterations that could affect the streetscape but will not impact activities well within the respective campuses.</p>	<p>Amend TEDZ-R6.1 (Additions and alterations to buildings and structures) as follows:</p> <p>Additions and alterations to Buildings and Structures</p> <p>1. Activity status: Permitted</p> <p>Where:</p> <p>a. The proposed additions or alterations:</p> <p>i. Do not alter the appearance of the building or structure; or</p> <p>ii. Are not visible from public spaces <u>a legal road or are located 10m away from a legal road boundary</u>; and</p> <p>iii. Compliance with TEDZ-S1, TEDZ-S2, TEDZ-S3; and TEDZ-S4 is achieved.</p>

Te Herenga Waka Victoria University of Wellington	106.20	Special Purpose Zones / Tertiary Education Zone / TEDZ-R7	Support in part	<p>Considers that in the event that the activity status for TEDZ-7.2 remains restricted discretionary (i.e. is not changed to controlled); the University seeks that limited notification be precluded where the proposal otherwise complies with the relevant requirements under TEDZ-S1, TEDZ-S2, TEDZ-S3 and TEDZ-S4.</p> <p>The University considers it is appropriate to engage with the Council on matters of design (as is currently the situation under the Wellington Operative District Plan) but does not consider that development in the TEDZ that otherwise meets development standards warrants wider public involvement.</p>	<p>Amend notification clauses under TEDZ-R7.2 (Construction of new buildings and structures) as follows:</p> <p>Notification status: An application for resource consent made in respect of rule TEDZ-R7.2 is precluded from being publicly notified, <u>and will be precluded from being limited notified where compliance with TEDZ-S1, TEDZ-S2, TEDZ-S3; and TEDZ-S4 is achieved.</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Te Herenga Waka Victoria University of Wellington	106.21	Special Purpose Zones / Tertiary Education Zone / TEDZ-R7	Support in part	The term 'cannot be achieved' implies the standard must be complied with unless it is impossible to do so. Instead, the wording should reflect the intent of the provision, which is to introduce a more onerous activity status when permitted activity standards are not met. Amending the language to 'is not achieved' reflects language used in district plans elsewhere in the country and provides greater consenting flexibility for when permitted activity standards are not met.	Amend TEDZ-R7 (Construction of new buildings and structures) as follows: [...] Where: a. Compliance with any of the requirements of the requirements of [...] cannot be is not achieved.
Massey University	253.51	Special Purpose Zones / Tertiary Education Zone / TEDZ-R7	Support in part	Supports the entire rule with amendments	Retain Rule TEDZ-R7 Construction of new buildings and structures) with amendments.
Massey University	253.52	Special Purpose Zones / Tertiary Education Zone / TEDZ-R7	Amend	Considers most Massey buildings are already visible from public spaces and a 100m ² footprint is too small to construct any form of structure required for the operation of a tertiary education facility.	Amend Rule TEDZ-R7.1 (Construction of new buildings and structures) as follows: Construction of new buildings and structures 1. Activity status: Permitted Where: a. The new building or structure: i. Is not visible from a public space; and ii. W will have a gross floor area of less than <u>or equal to</u> 1000 m ² ; and b. Compliance with TEDZ-S1, TEDZ-S2, TEDZ-S3 and TEDZ-S4 is achieved.
Massey University	253.53	Special Purpose Zones / Tertiary Education Zone / TEDZ-R7	Amend	Considers that any potential adverse effects relating to visibility from a public space and large building sizes can be sufficiently covered by Rule TEDZ-R7(2).	Amend Rule TEDZ-R7.1 (Construction of new buildings and structures) as follows: Construction of new buildings and structures 1. Activity status: Permitted Where: a. The new building or structure: i. Is not visible from a public space; and ii. W will have a gross floor area of less than <u>or equal to</u> 1000 m ² ; and b. Compliance with TEDZ-S1, TEDZ-S2, TEDZ-S3 and TEDZ-S4 is achieved.
Massey University	253.54	Special Purpose Zones / Tertiary Education Zone / TEDZ-R7	Amend	Considers that that further clarification is needed to Rule TEDZ-R7(2)(4) as a matter of discretion so as to make it clear that these views from roads and/or open space is limited to directly adjoining public areas. This is because the Massey University Site is visible from a wide range of vantages around Wellington, which would result in this matter of discretion being relatively wide reaching. Further, this could result in unintended consequences.	Amend Rule TEDZ-R7.2 (Construction of new buildings and structures) to read as follows: Construction of new buildings and structures 2. Activity status: Restricted Discretionary Where: a. Compliance with any of the requirements of TEDZ-R7.1 cannot be achieved: Matters of discretion are: 1. Any relevant matters in TEDZ-P3, TEDZ-P4, TEDZ-P5, TEDZ-P6, TEDZ-P7 and TEDZ-P8; 2. The extent and effect of non-compliance with any relevant standard as specified in the associated assessment criteria for the infringed standards; 3. The Centres and Mixed-Use Design Guide; and 4. The extent to which any service elements (e.g. roof plant, exhaust and intake units, and roof equipment) that could be viewed from the <u>directly adjoining</u> road or open space zone can be screened or integrated as part of the façade or roof of the building.
Te Herenga Waka Victoria University of Wellington	106.22	Special Purpose Zones / Tertiary Education Zone / TEDZ-R8	Support in part	The term 'cannot be achieved' implies the standard must be complied with unless it is impossible to do so. Instead, the wording should reflect the intent of the provision, which is to introduce a more onerous activity status when permitted activity standards are not met. Amending the language to 'is not achieved' reflects language used in district plans elsewhere in the country and provides greater consenting flexibility for when permitted activity standards are not met.	Amend TEDZ-R8 (Outdoor storage areas) as follows: [...] Where: a. Compliance with any of the requirements of the requirements of [...] cannot be is not achieved.
Massey University	253.55	Special Purpose Zones / Tertiary Education Zone / TEDZ-R8	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-R8.1 (Outdoor storage areas) as notified.

Special Purpose Zone - Waterfront Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Massey University	253.56	Special Purpose Zones / Tertiary Education Zone / TEDZ-R8	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-R8.2 (Outdoor storage areas) as notified.
Te Herenga Waka Victoria University of Wellington	106.23	Special Purpose Zones / Tertiary Education Zone / TEDZ-S1	Support in part	Considers that Height Control Area 4 (area shaded blue on PDP figure on original submission) should be extended to include the McLean Flats site at 320A The Terrace. The site is now owned by the University and will be utilised for university purposes.	Seeks extend Height Control Area 4 to include the McLean Flats site. [Refer to original submission for map]
Te Herenga Waka Victoria University of Wellington	106.24	Special Purpose Zones / Tertiary Education Zone / TEDZ-S1	Support in part	Considers that Height Control Area 4 should be amended to accommodate the proposed Te Huanui building which is anticipated to be between 8 to 12 metres above the maximum in Height Control Area 4. The Te Huanui project is expected to increase the level of amenity to the southern end of The Terrace and should be accommodated within the Height Control Areas of the Tertiary Education zone to reduce future consenting complexity.	Seeks amendment to apply TEDZ-S1 (Maximum height of buildings and structures) Height Control Area 2 to those parts of the site that are 20 metres or more away from a residential zone.
Massey University	253.57	Special Purpose Zones / Tertiary Education Zone / TEDZ-S1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-S1.2 (Maximum height of buildings and structures) as notified.
Massey University	253.58	Special Purpose Zones / Tertiary Education Zone / TEDZ-S1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-S1.3 (Maximum height of buildings and structures) as notified.
Te Herenga Waka Victoria University of Wellington	106.25	Special Purpose Zones / Tertiary Education Zone / TEDZ-S2	Support in part	The University supports the changes made to the PDP where the Council has identified zone boundaries around the Tertiary Education zone and the corresponding recession planes. However, the University seeks to remove '320 The Terrace' as a specific location from the height standards. The site at 320 The Terrace is included within the Tertiary Education zone not the High Density Residential zone and therefore no specific boundary control should apply.	Amend TEDZ-S2 (Height in relation to boundary) as follows: Location [...] Boundary adjoining any site within the HRZ, including 320 The Terrace
Massey University	253.59	Special Purpose Zones / Tertiary Education Zone / TEDZ-S2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-S2.1 (Height in relation to boundary) as notified.
Massey University	253.60	Special Purpose Zones / Tertiary Education Zone / TEDZ-S2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-S2.2 (Height in relation to boundary) as notified.
Te Herenga Waka Victoria University of Wellington	106.26	Special Purpose Zones / Tertiary Education Zone / TEDZ-S3	Oppose in part	The University opposes the proposed building setbacks because it seeks that 320 The Terrace is included in the Tertiary Education zone and considers that a 5 metre setback distance is appropriate for any boundary with any residential zone	Amend TEDZ-S3 (Building setbacks) as follows: 1. [...] 2. in relation to 320 The Terrace a 5m setback shall apply to the boundaries with the High Density Residentially zoned areas, except for:- 3. the boundary adjoining 302 The Terrace where a 1m setback shall apply; and- 4. the boundary of 224 The Terrace where a 10m yard shall apply.
Massey University	253.61	Special Purpose Zones / Tertiary Education Zone / TEDZ-S3	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEDZ-S3.1 (Building setbacks) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.74	Special Purpose Zones / Waterfront Zone / General WFZ	Support	Considers that that the definition of "residential activity" entirely captures supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain the provisions applicable to "residential activities" in the Waterfront Zone as notified.
Wellington Civic Trust	388.53	Special Purpose Zones / Waterfront Zone / General WFZ	Support in part	The Waterfront Zone at the former Lambton Harbour Area is supported in concept, but some specific issues temper support.	Retain the Waterfront Zone chapter, with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Civic Trust	388.54	Special Purpose Zones / Waterfront Zone / General WFZ	Amend	Considers that the introduction of the Waterfront Area chapter should be amended to clearly state the principles of collective ownership and engagement from the Wellington Waterfront Framework 2001. The Wellington Waterfront Framework 2001 was intended to be Stage One of a three-stage process. Stage two was to prepare detailed plans for each of the sub-areas, and Stage three was an implementation and monitoring stage. The current Framework is thus no more than a framework, as has been pointed out by the Environment Court. While it is important, it lacks clarity and detail. In the absence of Stages two and three, the principles of collective ownership and engagement from the Framework need to be incorporated more clearly in the Zone introduction.	Amend the Introduction of the Waterfront Zone chapter to state the following principles from the Wellington Waterfront Framework 2001 after paragraph #4: ... - <u>The waterfront is predominantly a public area.</u> - <u>The public should be consulted – either through the stage two process or through a statutory planning process – about any proposed new buildings and any significant changes to existing buildings.</u> - <u>Ground floors of buildings will be predominantly accessible to the public.</u>
Fale Malae Trust	FS59.1	Special Purpose Zones / Waterfront Zone / General WFZ	Support	The Fale Malae Trust strongly supports specific recognition in the Introduction to the WFZ of the waterfront being predominantly a public area, and inclusion of a strong direction that public consultation is expected for significant developments. The Trust notes that paragraph seven of the Introduction already supports these matters, but is open to alternative wording or the direct incorporation of principles from the Wellington Waterfront Framework. The Trust also strongly supports the recognition of mana whenua connections to the waterfront area in the Introduction.	Amend / Allow submission point 388.54 with alternative wording if this is considered necessary.
Wellington Civic Trust	388.55	Special Purpose Zones / Waterfront Zone / General WFZ	Amend	Considers that the introduction of the Waterfront Area chapter should be amended to clarify the circumstances in which public notification will occur. Paragraph 7 of the Introduction says that all “significant” new development are publicly notified, but it is noted that there is no indication of what might be considered “significant”. There is concern over the cumulative effects of numerous small building additions with permitted activity status in the current plan provisions, which could significantly change the nature of this important public area. Clarification should state whether public notification is intended for any new building, structure or activity which requires a resource consent in or outside the Waterfront Public Open Space.	Amend the Introduction of the Waterfront Zone chapter to clarify the circumstances in which public notification will occur.
Wellington Civic Trust	388.56	Special Purpose Zones / Waterfront Zone / General WFZ	Oppose in part	Considers that provisional zoning in the Waterfront Zone chapter is not adequate. Some areas in the Waterfront Zone do not appear to be specifically excluded from further encroachment by buildings and private residential use and could lose their connectivity function.	The Waterfront Zone chapter is partially opposed and an amendment is sought.
Wellington Civic Trust	388.57	Special Purpose Zones / Waterfront Zone / General WFZ	Amend	Considers that some areas in the Waterfront Zone do not appear to be specifically excluded from further encroachment by buildings and private residential use and could lose their connectivity function. The mapping of the Waterfront Zone shows three types of areas – Public open spaces, Queens Wharf buildings and Areas of change. A large part of the Zone area is outside all of these three. Such areas are either the footprints of existing buildings, or are often multi-purpose access and connection areas, public “shared areas” where slow-moving vehicles, pedestrians and those using micro-mobility devices (including bikes) co-exist. These are also part of the public open space network. The purpose of these areas should be made very clear in the description of the Zone.	Amend the Introduction of the Waterfront Zone chapter to clarify the purpose of the areas which are not within the three identified areas, including where areas are not building footprints or open space access and connection areas.
Wellington Civic Trust	388.58	Special Purpose Zones / Waterfront Zone / General WFZ	Amend	Considers that some areas in the Waterfront Zone do not appear to be specifically excluded from further encroachment by buildings and private residential use and could lose their connectivity function. The mapping of the Waterfront Zone shows three types of areas – Public open spaces, Queens Wharf buildings and Areas of change. A large part of the Zone area is outside all of these three. Such areas are either the footprints of existing buildings, or are often multi-purpose access and connection areas, public “shared areas” where slow-moving vehicles, pedestrians and those using micro-mobility devices (including bikes) co-exist. These are also part of the public open space network. The purpose of these areas should be made very clear in the description of the Zone.	Seeks to ensure that the rules do not allow for cumulative effects by filling up these publicly-accessible spaces.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.210	Special Purpose Zones / Waterfront Zone / General WFZ	Support	Supports Waterfront zoning. CentrePort owns the triangle of land between Lady Elizabeth Lane and Waterloo and Interislander wharves. Previously this land was included as being part of the Coastal Marine Area. It is an integral part of the future development of both of these wharves which are specifically recognised through Policy 51 (Heritage demolition) and Policy 149 (Lambton Harbour Area) of the Proposed Natural Resources Plan. While CentrePort supports this Zoning, this is on the basis that any redevelopment proposal for this area will be assessed for its compatibility with urban form and other matters, rather than an acceptance that the zero height limit indicates that no built structures can or should occur. [Refer to original submission for map extent]	Retain Waterfront zoning at the triangle of land between Lady Elizabeth Lane and Waterloo and Interislander wharves [Refer to original submission for map extent].
Fabric Property Limited	425.86	Special Purpose Zones / Waterfront Zone / General WFZ	Support in part	Supports the objectives and policies for the Waterfront Zone generally, and specifically supports the development of buildings to maintain or enhance the sense of place and distinctive form, quality and amenity of the Waterfront Zone (WFZ-P5).	Retain objectives in Special Purpose Waterfront Zone as notified.
Fale Malae Trust	FS59.2	Special Purpose Zones / Waterfront Zone / General WFZ	Support	The Fale Malae Trust generally supports the proposed objectives and policies for the WFZ (subject to the further submission points below), including the specific recognition of buildings that maintain or enhance the sense of place and distinctive form, quality and amenity of the Waterfront Zone, are appropriate. (In particular WFZ-P5).	Allow / Allow submission points 425.86.
Fabric Property Limited	425.87	Special Purpose Zones / Waterfront Zone / General WFZ	Support in part	Supports the objectives and policies for the Waterfront Zone generally, and specifically supports the development of buildings to maintain or enhance the sense of place and distinctive form, quality and amenity of the Waterfront Zone (WFZ-P5).	Retain policies in Special Purpose Waterfront Zone as notified.
Fale Malae Trust	FS59.3	Special Purpose Zones / Waterfront Zone / General WFZ	Support	The Fale Malae Trust generally supports the proposed objectives and policies for the WFZ (subject to the further submission points below), including the specific recognition of buildings that maintain or enhance the sense of place and distinctive form, quality and amenity of the Waterfront Zone, are appropriate. (In particular WFZ-P5).	Allow / Allow submission point 425.87
Ara Poutama Aotearoa the Department of Corrections	240.75	Special Purpose Zones / Waterfront Zone / New WFZ	Amend	Considers that should Council see it as being absolutely necessary to implement the separate definition of "supported residential care activity", then Ara Poutama requests that the enabled activities policies and land use activity rules applying to supported and transitional accommodation activities in the Mixed Use, City Centre and Waterfront zones are amended. The zone frameworks would not otherwise enable supported residential care activities, and provides discretionary activity status for these activities in the zones, in accordance with the respective default "all other activities" rules (MUZ-R13, CCZ-R16 and WFZ-R11). Supported and transitional accommodation activities, such as those provided for by Ara Poutama, are an important component of the rehabilitation and reintegration process for people under Ara Poutama's supervision. They enable people and communities to provide for their social and cultural	Amend the land use activity rule framework for the Waterfront Zone to include a new permitted activity rule applying to "supported residential care activities" as follows, if the definition of "supported residential care activity" is retained: <u>WFZ-RX Supported residential care activities</u> <u>1. Activity Status: Permitted</u> <u>Where:</u> <u>a. The maximum occupancy does not exceed 10 residents; and</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
				well-being and for their health and safety. The subject zones include suitable locations for supported and transitional accommodation activities; as they are close to civic amenities and services. This is apparent in that the zones provide for residential activities as permitted, including aligned activities such as visitor accommodation. Supported and transitional accommodation activities are a compatible and appropriate activity in the Mixed Use, City Centre and Waterfront zones. They are consistent with the character and amenity of such zones, and the effects of such can be managed through the imposition of a restriction on the maximum number of residents (10), as is the case in the residential zones.	<p><u>1. The activity is located above ground floor level.</u></p> <p><u>Cross-reference – also refer to NOISE-R5 and NOISE-S4 for noise-sensitive controls near the Port Zone.</u></p> <p><u>2. Activity status: Restricted Discretionary</u></p> <p><u>Where:</u></p> <p><u>a. Compliance with the requirements of WFZ-RX.1.a cannot be achieved.</u></p> <p><u>Matters of discretion are:</u></p> <p><u>1. The extent to which the intensity and scale of the activity may adversely impact on the amenity values of nearby residential properties and the surrounding neighbourhood.</u></p> <p><u>Notification status: An application for resource consent made in respect of rule WFZ-RX.2.a is precluded from being publicly notified.</u></p> <p><u>3. Activity status: Non-complying</u></p> <p><u>Where:</u></p> <p><u>a. Compliance with the requirements of WFZ-RX.1.b cannot be achieved.</u></p>
Wellington Civic Trust	388.59	Special Purpose Zones / Waterfront Zone / WFZ-O1	Support in part	WFZ-O1 is partially supported and clarification is sought.	Retain Objective WFZ-O1 (Purpose) with amendment.
Wellington Civic Trust	388.60	Special Purpose Zones / Waterfront Zone / WFZ-O1	Amend	Considers that WFZ-O1 should be amended to clarify part of this objective. It is considered that part of the objective is vague and does not help provide a vision for the zone, particularly the part that states "the unique and special components and elements".	<p>Amend Objective WFZ-O1 (Purpose) as follows:</p> <p>Activities and development in the Waterfront Zone contribute to Wellington's identity and sense of place, with public spaces, buildings and other structures that reflect the unique <u>location and existing character of</u> and special components and elements that make up the waterfront.</p>
Taranaki Whānui ki te Upoko o te Ika	389.127	Special Purpose Zones / Waterfront Zone / WFZ-O2	Amend	Considers that only Taranaki Whānui can be referred in relation to Ahi Kā.	Seeks that WFZ-O2 (Ahi Kā) is amended to include "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City."
Te Rūnanga o Toa Rangatira	FS138.66	Part 3 / Special Purpose Zones / Waterfront Zone / WFZ-O2	Oppose	The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.128	Special Purpose Zones / Waterfront Zone / WFZ-O2	Amend	Considers that only Taranaki Whānui can be referred in relation to Ahi Kā.	Seeks that WFZ-O2 (Ahi Kā) is amended to remove any other references to iwi. [Inferred decision requested]

VicLabour	414.47	Special Purpose Zones / Waterfront Zone / WFZ-O2	Support	Supportive of ahi ka provisions	Retain WFZ-O2 (Ahi kā) as notified. [Inferred decision requested]
Fale Malae Trust	FS59.4	Special Purpose Zones / Waterfront Zone / WFZ-O2	Support	The Fale Malae Trust supports WFZ-O2 in acknowledging the cultural associations and development interests of mana whenua in the Waterfront Zone.	Allow / Allow submission point 414.47
Wellington Civic Trust	388.61	Special Purpose Zones / Waterfront Zone / WFZ-O3	Support in part	WFZ-O3 is partially supported and clarification is sought.	Retain Objective WFZ-O3 (Protection of public open spaces) with amendment.
Fale Malae Trust	FS59.5	Special Purpose Zones / Waterfront Zone / WFZ-O3	Support	<p>The need for a clarifying amendment to WFZ-O3 is supported. The current direction to protect and maintain the mapped public open space for temporary and recreation activities could be interpreted to not support new buildings or structures that would enhance and benefit the waterfront. New high-quality buildings may be appropriate in the waterfront's public open spaces, particularly when replacing existing buildings of lesser quality. WFZ-O3 should be amended accordingly.</p> <p>The proposed strong direction in WFZ-O3 would restrict appropriate development and does not align with other Waterfront Zone provisions, including:</p> <ul style="list-style-type: none"> - WFZ-O1 which recognises the waterfront is made up of a combination of elements. - WFZ-P7 which recognises that some types of new buildings are appropriate in public open space and can improve public use and enjoyment. - WFZ-R15 which recognises that different types of new buildings in public open space can be assessed as different activity statuses. <p>The submission that WFZ-O3 should allow temporary and recreation activities 'only' is not supported as this may discourage or prevent types of beneficial developments for public open space areas being advanced for consideration and public consultation.</p>	Amend / Seeks that WFZ-O3 is amended to ensure scope is provided for new or replacement buildings and structures that may be appropriate in the public open spaces of the waterfront.
Wellington Civic Trust	388.62	Special Purpose Zones / Waterfront Zone / WFZ-O3	Amend	Considers that WFZ-O3 should be amended as it is poorly worded and hard to understand.	Amend Objective WFZ-O3 (Protection of public open spaces) as follows: The Waterfront's public open spaces <u>identified on the planning maps</u> mapped as specific controls are protected and maintained for temporary activities and recreational activity only.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fale Malae Trust	FS59.6	Special Purpose Zones / Waterfront Zone / WFZ-03	Support	<p>The need for a clarifying amendment to WFZ-03 is supported. The current direction to protect and maintain the mapped public open space for temporary and recreation activities could be interpreted to not support new buildings or structures that would enhance and benefit the waterfront. New high-quality buildings may be appropriate in the waterfront's public open spaces, particularly when replacing existing buildings of lesser quality. WFZ-03 should be amended accordingly.</p> <p>The proposed strong direction in WFZ-03 would restrict appropriate development and does not align with other Waterfront Zone provisions, including:</p> <ul style="list-style-type: none"> - WFZ-O1 which recognises the waterfront is made up of a combination of elements. - WFZ-P7 which recognises that some types of new buildings are appropriate in public open space and can improve public use and enjoyment. - WFZ-R15 which recognises that different types of new buildings in public open space can be assessed as different activity statuses. <p>The submission that WFZ-03 should allow temporary and recreation activities 'only' is not supported as this may discourage or prevent types of beneficial developments for public open space areas being advanced for consideration and public consultation.</p>	Amend / Seeks that WFZ-03 is amended to ensure scope is provided for new or replacement buildings and structures that may be appropriate in the public open spaces of the waterfront.
Wellington Civic Trust	388.63	Special Purpose Zones / Waterfront Zone / WFZ-05	Support in part	WFZ-05 is partially supported and an amendment is sought.	Retain Objective WFZ-05 (Connections to Te Whanganui a Tara, public transport and the City Centre) with amendment.
Wellington Civic Trust	388.64	Special Purpose Zones / Waterfront Zone / WFZ-05	Amend	Considers that WFZ-05 should be amended to emphasise connectivity throughout the Waterfront Zone. There is concern that connectivity is not provided for or protected by a description or policy provision and yet it is vital to the future of the waterfront. It is sought that that the heading and text of this Objective includes this connectivity throughout the zone and not just from the harbour, to the City Centre and to public transport.	<p>Amend Objective WFZ-05 (Connections to Te Whanganui a Tara, public transport and the City Centre) as follows:</p> <p>Connections to Te Whanganui a Tara, public transport and the City Centre <u>and throughout the Zone.</u></p> <p>Active transport and micro-mobility connections between the edge of Te Whanganui a Tara, public transport and the City Centre are maintained or enhanced <u>and connectivity is provided throughout the Zone.</u></p>
Wellington Civic Trust	388.65	Special Purpose Zones / Waterfront Zone / WFZ-07	Support in part	WFZ-07 is partially supported and an amendment is sought.	Retain Objective WFZ-07 (Managing adverse effects) with amendment.
Wellington Civic Trust	388.66	Special Purpose Zones / Waterfront Zone / WFZ-07	Amend	Considers that connectivity within the Zone's open spaces (whether labelled as public open space or not) should be considered when assessing any developments or activities. Connectivity has been a fundamental part of the development of the waterfront area. It is also noted that some of the items listed in 2. do not seem to interface with the Waterfront Zone.	<p>Amend Objective WFZ-07 (Managing adverse effects) as follows:</p> <p>Adverse effects of activities and development in the Waterfront Zone are managed effectively both:</p> <ol style="list-style-type: none"> 1. Within the zone, including on its role, and function <u>and connectivity</u>; and <p>...</p>
Wellington Civic Trust	388.67	Special Purpose Zones / Waterfront Zone / WFZ-07	Amend	<p>Considers that WFZ-02 may mention interfaces that do not exist, namely:</p> <ul style="list-style-type: none"> c. Mapped public open spaces; d. Identified pedestrian streets; e. Residential zoned areas; f. Open space zoned areas; <p>Correction as appropriate is sought.</p>	Amend Objective WFZ-07 (Managing adverse effects) to ensure the validity of items c, d, e and f in WFZ-07.2.
Ara Poutama Aotearoa the Department of Corrections	240.76	Special Purpose Zones / Waterfront Zone / WFZ-P1	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain WFZ-P1.8 (Enabled activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ara Poutama Aotearoa the Department of Corrections	240.77	Special Purpose Zones / Waterfront Zone / WFZ-P1	Amend	<p>Considers that should Council see it as being absolutely necessary to implement the separate definition of "supported residential care activity", then Ara Poutama requests that the enabled activities policies and land use activity rules applying to supported and transitional accommodation activities in the Mixed Use, City Centre and Waterfront zones are amended. The zone frameworks would not otherwise enable supported residential care activities, and provides discretionary activity status for these activities in the zones, in accordance with the respective default "all other activities" rules (MUZ-R13, CCZ-R16 and WFZ-R11).</p> <p>Supported and transitional accommodation activities, such as those provided for by Ara Poutama, are an important component of the rehabilitation and reintegration process for people under Ara Poutama's supervision. They enable people and communities to provide for their social and cultural well-being and for their health and safety. The subject zones include suitable locations for supported and transitional accommodation activities; as they are close to civic amenities and services. This is apparent in that the zones provide for residential activities as permitted, including aligned activities such as visitor accommodation. Supported and transitional accommodation activities are a compatible and appropriate activity in the Mixed Use, City Centre and Waterfront zones. They are consistent with the character and amenity of such zones, and the effects of such can be managed through the imposition of a restriction on the maximum number of residents (10), as is the case in the residential zones.</p>	<p>Amend WFZ-P1 (Enabled activities) as follows, if the definition of "supported residential care activity" is retained:</p> <p>WFZ-P1 Enabled activities</p> <p>Enable a range and diversity of activities that support the role and function of the Waterfront Zone and enhance the Zone's vitality, vibrancy and amenity during the day and night, including:</p> <p>8. Residential activities <u>and supported residential care activities</u> above ground floor.</p>
Fire and Emergency New Zealand	273.337	Special Purpose Zones / Waterfront Zone / WFZ-P1	Support	Supports the policy as it permits the delivery of new emergency service facilities within the zone. Due to urban growth, population changes and commitments to response times, FENZ may need to locate new stations in the WFZ.	Retain WFZ-P1 (Enabled activities) as notified.
Wellington Civic Trust	388.68	Special Purpose Zones / Waterfront Zone / WFZ-P1	Support in part	WFZ-P1 is partially supported and an amendment is sought.	Retain WFZ-P1 (Enabled activities) with amendment.
Fale Malae Trust	FS59.7	Special Purpose Zones / Waterfront Zone / WFZ-P1	Support	<p>The need for amendments to these policies is supported:</p> <ul style="list-style-type: none"> - 'Demolition of buildings that results in creation of unutilised vacant land' is both an incompatible activity in WFZ-P3, and a managed activity in WFZ-P2. It is considered that the reference in WFZ-P2 should simply be to 'demolition of buildings'. - Consistent with this, WFZ-P1 should include as enabled activities: <ul style="list-style-type: none"> o 'demolition of buildings to enable development of new buildings or activities that enhance the waterfront'. This would be consistent with WFZ-R13 where demolition or removal of a building for the purpose of constructing a new consented building is a permitted activity. o The replacement and upgrade of existing buildings and structures with new buildings and structures. - 'Significant buildings in mapped public open space' should be classed as a managed activity in WFZ-P2, not an incompatible activity in WFZ-P3. As stated above, strong direction restricting buildings in public open space areas is not consistent with WFZ-O1, WFZ-P7 and WFZ-R15, and may discourage or prevent beneficial developments for public open space areas being advanced for public consultation and consideration. - The content of WFZ-P1, WFZ-P2 and WFZ-P3 is otherwise supported. 	<p>Seeks that WFZ-P1 (Enabled activities) is amended as follow:</p> <p>...</p> <p>Enable a range... including:</p> <p>...</p> <p>7. Visitor accommodation; and</p> <p>8. Residential activities above ground floor; <u>and</u></p> <p>9. <u>demolition of buildings as part of the development of new buildings or activities that enhance the waterfront.</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Civic Trust	388.69	Special Purpose Zones / Waterfront Zone / WFZ-P1	Amend	<p>Considers that WFZ-P1 should be amended to remove public transport activities and to enable visitor accommodation only above ground floor. Connections to public transport, including ticketing facilities and stops adjacent to on-street public transport are supported. In the past, this area has been proposed to have a connected light rail or similar system passing through it. That remains a future possibility, but it is not one that should be a permitted activity, as included under this policy.</p> <p>Most activities listed in the definition of "Public Transport Activities" are unsuited for the location of Wellington's waterfront, due to its scarce resources. These activities should be listed under WFZ-P2.</p> <p>Ground floor use of the Waterfront Zoned area for visitor accommodation is opposed. This activity should be treated on the same basis as residential, and permitted at above ground floor only.</p>	<p>Amend WFZ-P1 (Enabled activities) as follows:</p> <p>Enable a range and diversity of activities that support the role and function of the Waterfront Zone and enhance the Zone's vitality, vibrancy and amenity during the day and night, including:</p> <ol style="list-style-type: none"> 1. Commercial activities; 2. Community facilities; 3. Recreation activities; 4. Emergency service facilities; 5. Marae activities; 6. Public transport activities; 7. Visitor accommodation above ground floor; and 8. Residential activities above ground floor.

Fabric Property Limited	425.88	Special Purpose Zones / Waterfront Zone / WFZ-P5	Support	Supports the objectives and policies for the Waterfront Zone generally, and specifically supports the development of buildings to maintain or enhance the sense of place and distinctive form, quality and amenity of the Waterfront Zone (WFZ-P5).	Retain WFZ-P5 (Sense of place) as notified.
Fale Malae Trust	FS59.15	Special Purpose Zones / Waterfront Zone / WFZ-P5	Support	<p>The Fale Malae Trust supports WFZ-P5 and the direction to provide a balance of buildings and open space.</p> <p>The Trust also supports the clarifying amendment sought by the Wellington Civic Trust. The wording proposed in the PDP of 'building site coverage' doesn't make it clear that 35% coverage is intended to apply across the Waterfront Zone as a whole, not to individual building 'sites'. This intention is more clearly expressed in WFZ-S6. The Trust suggests a reference to 'building footprint' would be an alternative way of providing clarity.</p> <p>Allow submission 425.88, with the minor amendment, or wording to similar effect, sought by 388.77.</p>	<p>Amend / Seeks that WFZ-P5 (Sense of place) is amended as follows:</p> <p>1. A balance of buildings and open space with no more than 35% building site coverage over the whole Waterfront Zone to form a sense of openness and transition between the dense city centre environment and the expansiveness of Te Whanganui a Tara;</p> <p>...</p>
Wellington Civic Trust	388.78	Special Purpose Zones / Waterfront Zone / WFZ-P7	Support	[No specific reason provided other than decision requested - refer to original submission]	Retain WFZ-P7 (Protection of public open space) as notified.
Fale Malae Trust	FS59.16	Special Purpose Zones / Waterfront Zone / WFZ-P7	Support	<p>The Fale Malae Trust supports WFZ-P7 and the recognition that buildings in public open space can improve the space for public use and enjoyment.</p> <p>The Trust is concerned that the requirement that buildings do not 'dominate or cumulatively diminish' the public open space is a highly subjective criteria. The quality requirements applying to buildings in WFZ-P6 are more objective, including references to buildings being 'complementary and of an appropriate scale'. These or similar requirements would be more appropriate in WFZ-P7. The Wellington Waterfront Framework also makes reference to new buildings being 'in scale'</p> <p>A further appropriate change would be for WFZ-P7 to support buildings that replace existing buildings and improve public open space areas.</p>	Allow / Allow the submission point with the amendment sought.
Wellington Civic Trust	388.79	Special Purpose Zones / Waterfront Zone / WFZ-P9	Support	[No specific reason provided other than decision requested - refer to original submission]	Retain WFZ-P9 (Sustainable long term use) as notified.
Fale Malae Trust	FS59.17	Special Purpose Zones / Waterfront Zone / WFZ-P9	Support	The Fale Malae Trust supports the direction in WFZ-P9 for long term sustainable use and redevelopment, and for providing for flexible ground floor use.	Allow
Wellington Civic Trust	388.80	Special Purpose Zones / Waterfront Zone / WFZ-P10	Support	[No specific reason provided other than decision requested - refer to original submission]	Retain WFZ-P10 (Ahi kā) as notified.
Fale Malae Trust	FS59.18	Special Purpose Zones / Waterfront Zone / WFZ-P10	Support	The Fale Malae Trust supports WFZ-P10 and recognising and providing for cultural associations and development interests of mana whenua in the Waterfront Zone.	Allow
VicLabour	414.48	Special Purpose Zones / Waterfront Zone / WFZ-P10	Support	Supportive of ahi ka provisions	<p>Retain WFZ-P10 (Ahi kā) as notified.</p> <p>[Inferred decision requested]</p>

Fabric Property Limited	425.89	Special Purpose Zones / Waterfront Zone / WFZ-R1	Support	Supports commercial activities being permitted as part of the range of activities anticipated in the Waterfront Zone.	Retain WFZ-R1 (Commercial Activities) as notified.
Fire and Emergency New Zealand	273.338	Special Purpose Zones / Waterfront Zone / WFZ-R4	Support	Supports the rule as it permits the establishment of emergency service facilities within the WFZ	Retain WFZ-R4 (Emergency service facilities) as notified.
Wellington Civic Trust	388.81	Special Purpose Zones / Waterfront Zone / WFZ-R6	Oppose	WFZ-R6 is opposed. Public transport activities should be removed from permitted activities so that they default to Discretionary status.	Delete WFZ-R6 (Public transport activities) in its entirety.
Wellington Civic Trust	388.82	Special Purpose Zones / Waterfront Zone / WFZ-R7	Oppose in part	WFZ-R7 is partially opposed and an amendment is sought.	Retain WFZ-R7 (Visitor accommodation) with amendment.
Wellington Civic Trust	388.83	Special Purpose Zones / Waterfront Zone / WFZ-R7	Amend	Considers that WFZ-R7 should be amended so that it applies to Visitor accommodation on the same basis as residential activities throughout the zone.	Amend WFZ-R7 (Visitor accommodation) as follows: 1. Activity status: Permitted <u>Where:</u> <u>a. The activity is located above ground floor level. Cross-reference – also refer to NOISE-R5 and NOISE-S4 for noise-sensitive controls near the Port Zone.</u>
Ara Poutama Aotearoa the Department of Corrections	240.78	Special Purpose Zones / Waterfront Zone / WFZ-R8	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain WFZ-R8 (Residential activities) as notified.
Wellington Civic Trust	388.84	Special Purpose Zones / Waterfront Zone / WFZ-R10	Support	WFZ-R10 is supported as it provides limited permitted car parking activity status, and the default to non-complying in this area. The car parking for people with mobility issues is particularly supported.	Retain WFZ-R10 (Car parking activities) as notified.
Fire and Emergency New Zealand	273.339	Special Purpose Zones / Waterfront Zone / WFZ-R12	Support	Supports the rule as the demolition or removal of buildings and structures within the WFZ is a permitted activity.	Retain WFZ-R12 (Maintenance and repair of buildings, structures, and public open space) as notified.
Fabric Property Limited	425.90	Special Purpose Zones / Waterfront Zone / WFZ-R12	Support	Considers that it is appropriate for the maintenance and repair of buildings to be permitted in the Waterfront Zone.	Retain WFZ-R12 (Maintenance and repair of buildings) as notified.
Fire and Emergency New Zealand	273.340	Special Purpose Zones / Waterfront Zone / WFZ-R13	Support	Supports the rule as the demolition or removal of buildings and structures within the WFZ is a permitted activity.	Retain WFZ-R13 (Demolition or removal of buildings and structures) as notified.
Greater Wellington Regional Council	351.311	Special Purpose Zones / Waterfront Zone / WFZ-R13	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain WFZ-R13 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.312	Special Purpose Zones / Waterfront Zone / WFZ-R13	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend WFZ-R13 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Wellington Civic Trust	388.85	Special Purpose Zones / Waterfront Zone / WFZ-R13	Support in part	WFZ-R13 is partially supported and an amendment is sought.	Retain WFZ-R13 (Demolition or removal of buildings and structures) with amendment.
Wellington Civic Trust	388.86	Special Purpose Zones / Waterfront Zone / WFZ-R13	Amend	Oppose the provision that buildings in the Waterfront Zone may be demolished to provide private outdoor living space. That is inconsistent with the rules applying to residential activities and contrary to the description of the purpose of the area as for public use and future generations.	Modify WFZ-R13 1.a.ii (Demolition or removal of buildings and structures) as follows": "ii. Enables the creation of public space or for private outdoor living space ; or
Fabric Property Limited	425.91	Special Purpose Zones / Waterfront Zone / WFZ-R13	Support	Supports the permitted activity status for demolition of a building for the purposes of avoiding threats to life and property, and for the purposes of constructing a new building.	Retain WFZ-R13.1 (Demolition or removal of buildings and structures) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fale Malae Trust	FS59.19	Special Purpose Zones / Waterfront Zone / WFZ-R13	Support	<p>The Fale Malae Trust supports proposed rule WFZ-R13.1 which provides for demolition of buildings as a permitted activity where the demolition is required for the purposes of constructing a new building or adding to or altering an existing building that has an approved resource consent or resource consent is being sought concurrently under WFZ-R14 or WFZ-R15.</p> <p>The flexibility sought by Fabric Property Limited for demolition under WFZ-R13.2, that does not meet the permitted activity requirements, is also supported. The permitted activity requirement for resource consents for new buildings to already be in existence, or applications to be 'concurrent', is stringent and does not recognise the staged nature of many developments. Restricted discretionary status, with regard being had to the status of redevelopment plans for the demolition site, strikes the appropriate balance.</p> <p>The non-notification direction is supported.</p> <p>If restricted-discretionary status for demolition that does not comply with permitted activity requirements is not supported, discretionary activity status is sought.</p>	Allow
Fabric Property Limited	425.92	Special Purpose Zones / Waterfront Zone / WFZ-R13	Amend	<p>Considers that there is a risk that the non-complying activity status for activities that do not comply with WFZ-R13 may constrain staged developments that require demolition and clearing of a site to enable well-planned development.</p> <p>A restricted discretionary activity status with preclusion of notification would provide greater certainty for development while ensuring that Council still retains appropriate discretion to ensure quality design outcomes.</p>	<p>Amend WFZ-R13.2 (Demolition or removal of buildings and structures) as follows:</p> <p>...</p> <p>Activity Status: Non-complying <u>Restricted Discretionary</u></p> <p>...</p>
Fale Malae Trust	FS59.20	Special Purpose Zones / Waterfront Zone / WFZ-R13	Support	<p>The Fale Malae Trust supports proposed rule WFZ-R13.1 which provides for demolition of buildings as a permitted activity where the demolition is required for the purposes of constructing a new building or adding to or altering an existing building that has an approved resource consent or resource consent is being sought concurrently under WFZ-R14 or WFZ-R15.</p> <p>The flexibility sought by Fabric Property Limited for demolition under WFZ-R13.2, that does not meet the permitted activity requirements, is also supported. The permitted activity requirement for resource consents for new buildings to already be in existence, or applications to be 'concurrent', is stringent and does not recognise the staged nature of many developments. Restricted discretionary status, with regard being had to the status of redevelopment plans for the demolition site, strikes the appropriate balance.</p> <p>The non-notification direction is supported.</p> <p>If restricted-discretionary status for demolition that does not comply with permitted activity requirements is not supported, discretionary activity status is sought.</p>	Allow
Wellington Civic Trust	FS83.3	Part 3 / Special Purpose Zones / Waterfront Zone / WFZ-R13	Oppose	<p>The submission seeks that demolition of buildings in the Waterfront Zone that is not permitted should be restricted discretionary. This is unreasonable, given the expectation of permitted activities (which includes concurrent resource consent application being made for a replacement building. The idea that this would constrain staged developments is highly unlikely. No list of matters for restricted discretion is given, so the submission is incomplete.</p>	Disallow

Wellington Civic Trust	FS83.4	Part 3 / Special Purpose Zones / Waterfront Zone / WFZ-R13	Oppose	The Waterfront Zone has no comparison with the MCZ in terms of activity status, being public realm for the people of Wellington.	Disallow
Fire and Emergency New Zealand	273.341	Special Purpose Zones / Waterfront Zone / WFZ-R14	Support	Supports the rule as additions and alterations to buildings and structures within the WFZ is a permitted activity.	Retain WFZ-R14 (Alterations or additions to buildings and structures) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Civic Trust	388.87	Special Purpose Zones / Waterfront Zone / WFZ-R14	Support in part	WFZ-R14 is partially supported and an amendment is sought.	Retain WFZ-R14 (Alterations or additions to buildings and structures) with amendment.
Fale Malae Trust	FS59.23	Special Purpose Zones / Waterfront Zone / WFZ-R14	Support	<p>The Fale Malae Trust supports the proposed direction to have regard to the Wellington Waterfront Framework. The Trust supports the vision of the Framework: "Wellington's Waterfront is a special place that welcomes all people to live, work and play in the beautiful and inspiring spaces and architecture that connects our city to the sea and protect our heritage for future generations." Incorporating the Framework values of heritage, diversity, cultures and sense of place into the Waterfront Zone provisions is strongly supported.</p> <p>The proposed permitted status requirement that the aggregate area of buildings and structures in the Public Open Space Zone does not exceed 200sqm per hectare is appropriate and consistent with WFZ-O1 and should be retained. The sought amendment to limit the aggregate area to 50sqm per hectare is too restrictive and would not enable the variety of activities and structures that contribute to the Waterfront Zone's identity and sense of place.</p> <p>WFZ-R14.2 should more clearly allow for replacement buildings and structures that occupy the same (or lesser) footprint than existing buildings and structures in the public open space zone to be assessed as a discretionary activity. Where an existing building is replaced by a new building, the change in effects is likely to be more similar to an alteration and should be assessed as such.</p> <p>Also, or alternatively, WFZ-R14.5 and WFZ-R14.6 should be amended to apply to public open space, with wording amendments to make clear that these rules also apply to replacement buildings and structures that occupy the same (or lesser) footprint than existing buildings and structures that are removed.</p>	Allow / Seeks that WFZ-R14 is amended to clearly include replacement buildings and structures.
Wellington Civic Trust	388.88	Special Purpose Zones / Waterfront Zone / WFZ-R14	Amend	<p>Oppose the permitted aggregate area of additions and alterations to buildings and structures in Public Open Space in the Zone being set at 200m² per hectare in 1. Of this rule. This is too high given the dispersed and non-continuous nature of the spaces. The Wellington Waterfront Framework as the guiding document should also be referred to when making decisions on discretionary activity applications. In 5. of this rule – Alterations or additions to buildings and structures - We oppose the 5% footprint screen between restricted discretionary and discretionary, and thus between whether notification is discretionary or required. We seek that this is halved, given the size and location of some of the existing buildings in relation to the unclassified (but well-used) areas which the space may be taken from. An alternative would be to set a maximum area of additional floorspace.</p>	<p>Amend WFZ-R14.1 (Alterations or additions to buildings and structures) as follows:</p> <p>....</p> <p>b. The alterations or additions result in the building or structure being:</p> <ol style="list-style-type: none"> i. Less than 30 m² in site coverage; and ii. Less than 4 metres high; and c. The aggregate area of all buildings <u>and structures</u> in the contiguous public open space does not exceed <u>50</u> 200 m² per hectare.

Incorporating the Framework values of heritage, diversity, cultures and sense of place into the Waterfront Zone provisions is strongly supported.</p> <p>The proposed permitted status requirement that the aggregate area of buildings and structures in the Public Open Space Zone does not exceed 200sqm per hectare is appropriate and consistent with WFZ-O1 and should be retained. The sought amendment to limit the aggregate area to 50sqm per hectare is too restrictive and would not enable the variety of activities and structures that contribute to the Waterfront Zone's identity and sense of place.</p> <p>WFZ-R14.2 should more clearly allow for replacement buildings and structures that occupy the same (or lesser) footprint than existing buildings and structures in the public open space zone to be assessed as a discretionary activity. Where an existing building is replaced by a new building, the change in effects is likely to be more similar to an alteration and should be assessed as such.</p> <p>Also, or alternatively, WFZ-R14.5 and WFZ-R14.6 should be amended to apply to public open space, with wording amendments to make clear that these rules also apply to replacement buildings and structures that occupy the same (or lesser) footprint than existing buildings and structures that are removed.</p>	Allow / Seeks that WFZ-R14 is amended to clearly include replacement buildings and structures.
Wellington Civic Trust	388.93	Special Purpose Zones / Waterfront Zone / WFZ-R14	Amend	<p>Oppose the permitted aggregate area of additions and alterations to buildings and structures in Public Open Space in the Zone being set at 200m² per hectare in 1. of this rule. This is too high given the dispersed and non-continuous nature of the spaces. The Wellington Waterfront Framework as the guiding document should also be referred to when making decisions on discretionary activity applications. In 5. of this rule – Alterations or additions to buildings and structures - We oppose the 5% footprint screen between restricted discretionary and discretionary, and thus between whether notification is discretionary or required. We seek that this is halved, given the size and location of some of the existing buildings in relation to the unclassified (but well-used) areas which the space may be taken from. An alternative would be to set a maximum area of additional floorspace.</p>	<p>Amend WFZ-R14.5 (Alterations or additions to buildings and structures) as follows:</p> <p>...</p> <p>Where:</p> <p>a. The alterations or additions do not extend the footprint of the existing building by more than <u>2.5%</u> of the footprint at 18 July 2022; and</p>
Fabric Property Limited	425.95	Special Purpose Zones / Waterfront Zone / WFZ-R14	Support in part	Supports WFZ-R14 in part and in particular supports the Restricted Discretionary activity status provided for additions and alterations that do not exceed a building footprint by more than 5% under WFZ-R14.5.	Retain WFZ-R14.5 (Alterations or additions to buildings and structures) with respect to the Restricted Discretionary activity status where a building footprint is not extended by more than 5%.
Wellington Civic Trust	FS83.5	Part 3 / Special Purpose Zones / Waterfront Zone / WFZ-R14	Oppose	The submission is contrary to a Civic Trust Submission, which seeks a reduction in area under this rule.	Disallow
Fabric Property Limited	425.96	Special Purpose Zones / Waterfront Zone / WFZ-R14	Amend	<p>Seeks amendments to WFZ-R14.6 to remove the mandatory public notification clause.</p> <p>It is more appropriate for notification to be determined on a case-by-case basis, and in some cases non-notification may be appropriate. While Fabric recognises the high degree of public interest in the Waterfront area, public notification and the associated risk of litigation impose a high potential cost on development. There are means to ensure the effects of an alteration on the public realm are appropriately taken into account without the need for public notification, and retain the Council's discretion to publicly notify applications that are appropriate.</p>	<p>Amend WFZ-R14.6 (Alterations or additions to buildings and structures) as follows:</p> <p>...</p> <p>Notification status: An application for resource consent made in respect of Rule WFZ-R14.6 must be publicly notified.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Civic Trust	FS83.6	Part 3 / Special Purpose Zones / Waterfront Zone / WFZ-R14	Oppose	The type of development which fits into this category will be encroaching into public space, so must be publicly notified.	Disallow
Fire and Emergency New Zealand	273.342	Special Purpose Zones / Waterfront Zone / WFZ-R15	Support	Supports the rule as the construction of buildings and structures within the WFZ is a permitted activity	Retain WFZ-R15 (Construction of new buildings and structures) as notified.
Wellington Civic Trust	FS83.15	Part 3 / Special Purpose Zones / Waterfront Zone / WFZ-R15	Oppose	The submission is contrary to a Civic Trust Submission, which seeks a reduction in permitted size under this rule	Disallow
Wellington Civic Trust	388.94	Special Purpose Zones / Waterfront Zone / WFZ-R15	Support in part	WFZ-R15 is partially supported and an amendment is sought.	Retain WFZ-R15 (Construction of new buildings and structures) with amendment.
Fale Malae Trust	FS59.29	Special Purpose Zones / Waterfront Zone / WFZ-R15	Support	<p>The Fale Malae Trust supports the proposed direction to have regard to the Wellington Waterfront Framework. The Trust supports the vision of the Framework: "Wellington's Waterfront is a special place that welcomes all people to live, work and play in the beautiful and inspiring spaces and architecture that connects our city to the sea and protect our heritage for future generations." Incorporating the Framework values of heritage, diversity, cultures and sense of place into the Waterfront Zone provisions is strongly supported.</p> <p>The proposed permitted status requirement that the aggregate area of buildings and structures in the Public Open Space Zone does not exceed 200sqm per hectare is appropriate and consistent with WFZ-O1 and should be retained. Fire and Emergency New Zealand	273.343	Special Purpose Zones / Waterfront Zone / WFZ-R17	Support in part	Supports the rule as the matters of discretion for these restricted discretionary activities include consideration of the availability and connection to existing or planned three waters infrastructure, particularly where this may involve the conversion of non-habitable rooms to residential use. A minor amendment is however sought to include the necessity to connect to three waters infrastructure including for the purposes of firefighting	Supports WFZ-R17 (Conversion of buildings or parts of buildings to residential activities), with amendment.
Fire and Emergency New Zealand	273.344	Special Purpose Zones / Waterfront Zone / WFZ-R17	Amend	Supports the rule as the matters of discretion for these restricted discretionary activities include consideration of the availability and connection to existing or planned three waters infrastructure, particularly where this may involve the conversion of non-habitable rooms to residential use. A minor amendment is however sought to include the necessity to connect to three waters infrastructure including for the purposes of firefighting	<p>Amend WFZ-R17 (Conversion of buildings or parts of buildings to residential activities) as follows:</p> <p>Matters of discretion are:</p> <p>...</p> <p>4. The availability and connection <u>of</u> existing or planned three waters infrastructure, <u>including for firefighting purposes</u>; and</p>
Wellington Civic Trust	388.100	Special Purpose Zones / Waterfront Zone / WFZ-R17	Support in part	WFZ-R17 is partially supported and an amendment is sought.	Retain WFZ-R17 (Conversion of buildings or parts of buildings to residential activities) with amendment.
Wellington Civic Trust	388.101	Special Purpose Zones / Waterfront Zone / WFZ-R17	Amend	Considers that WFZ-R17 should be amended to reference the Wellington Waterfront Framework as the guiding document when making decisions on discretionary activity applications.	Amend WFZ-R17 (Conversion of buildings or parts of buildings to residential activities) to reference the Wellington Waterfront Framework.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.345	Special Purpose Zones / Waterfront Zone / WFZ-R18	Amend	<p>Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.</p> <p>Note: submitter refers to WFZ-R11, this is an error.</p>	<p>Amend WFZ-R18 (Outdoor storage areas) as follows:</p> <p>Activity status: Permitted</p> <p>Where:</p> <p>a. The storage area is screened by either a fence or landscaping of 1.8m in height from any adjoining road or site.</p> <p>b. Screening does not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves, or other emergency response facilities.</p>
Wellington Civic Trust	388.102	Special Purpose Zones / Waterfront Zone / WFZ-R18	Support in part	WFZ-R18 is partially supported and an amendment is sought.	Retain WFZ-R18 (Outdoor storage areas) with amendment.
Fale Malae Trust	FS59.39	Special Purpose Zones / Waterfront Zone / WFZ-R18	Oppose	The submission seeking that outdoor storage areas are limited to 10m2 is not supported. This size area would be inadequate for many buildings. Ensuring adequate screening is more important than limiting total area.	Disallow / Disallow submission in part.
Wellington Civic Trust	388.103	Special Purpose Zones / Waterfront Zone / WFZ-R18	Amend	Considers that WFZ-R18 should be amended so that outdoor storage areas should either precluded from establishing, or, if permitted, be extremely limited in area within the Waterfront Zone. The screening provision is inadequate for a primarily public area, as screening from road or site boundaries provides inadequate protection for users of the area.	<p>Amend WFZ-R18 (Outdoor storage areas) as follows:</p> <p>1. Activity status: Permitted</p> <p>Where:</p> <p>a. The storage area is screened by a fence or landscaping of 1.8m in height <u>around its immediate perimeter and</u> from any adjoining road or site; <u>and</u></p> <p>b. The storage area has a maximum area of 10m2</p>
Fale Malae Trust	FS59.40	Special Purpose Zones / Waterfront Zone / WFZ-R18	Oppose	The submission seeking that outdoor storage areas are limited to 10m2 is not supported. This size area would be inadequate for many buildings. Ensuring adequate screening is more important than limiting total area.	Disallow / Disallow submission in part.
Fabric Property Limited	425.101	Special Purpose Zones / Waterfront Zone / WFZ-S1	Oppose in part	<p>The Meridian Building at 33 Customhouse Quay is located in the Special Purpose Waterfront zone.</p> <p>Supports the building height standard as set out in WFZ-S1 in as far as it enables building heights at least equivalent to the height of the existing building at 55 Lady Elizabeth Lane. The Proposed Plan maps show that the maximum height for the Meridian Building site is 17.7m.</p> <p>Seeks a building height of at least 23.1m for the meridian building site to enable an additional floor to be added. This is consistent with the nearby PWC building and would improve the viability of the works required to the building for earthquake strengthening. It is appropriate to enable minor additional height in this location, while recognising and leveraging the existing built form investment.</p>	Opposes the height limit under WFZ-S1 (Maximum building height outside of Public Open Space and Areas of Change) with respect to 33 Customhouse Quay
Wellington Civic Trust	FS83.11	Part 4 / Special Purpose Zones / Waterfront Zone / WFZ-S1	Oppose	The additional height sought for a specific building is contrary to the schema for building heights in the Waterfront Zone and contrary to the public interest in this area	Disallow

Special Purpose Zone - Wellington Town Belt Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fabric Property Limited	425.102	Special Purpose Zones / Waterfront Zone / WFZ-S1	Amend	<p>The Meridian Building at 33 Customhouse Quay is located in the Special Purpose Waterfront zone.</p> <p>Supports the building height standard as set out in WFZ-S1 in as far as it enables building heights at least equivalent to the height of the existing building at 55 Lady Elizabeth Lane. The Proposed Plan maps show that the maximum height for the Meridian Building site is 17.7m.</p> <p>Seeks a building height of at least 23.1m for the meridian building site to enable an additional floor to be added. This is consistent with the nearby PWC building and would improve the viability of the works required to the building for earthquake strengthening. It is appropriate to enable minor additional height in this location, while recognising and leveraging the existing built form investment.</p>	Amend WFZ-S1 (Maximum building height outside of Public Open Space and Areas of Change) is amended to enable buildin heights of at least 23.1m for 33 Customhouse Quay
Wellington Civic Trust	FS83.12	Part 4 / Special Purpose Zones / Waterfront Zone / WFZ-S1	Oppose	The additional height sought for a specific building is contrary to the schema for building heights in the Waterfront Zone and contrary to the public interest in this area	Disallow
Fabric Property Limited	425.103	Special Purpose Zones / Waterfront Zone / WFZ-S2	Oppose	The Meridian Building at 33 Customhouse Quay is located adjacent to a Minimum Sunlight Access Public Space in relation to Kumutoto Park Fabric seeks deletion of WFZ-S2.	Option 1: Delete WFZ-S2 (Minimum Sunlight Access - Public Space) in its entirety.
Wellington Civic Trust	FS83.14	Part 4 / Special Purpose Zones / Waterfront Zone / WFZ-S2	Oppose	Protection of sunlight access is essential for the Waterfront Zone. The request to remove one protected area is unreasonable and contrary to the interest of users and the wider public.	Disallow
Wellington Civic Trust	388.104	Special Purpose Zones / Waterfront Zone / WFZ-S6	Support in part	WFZ-S6 is partially supported and an amendment is sought.	Retain WFZ-S6 (Waterfront Zone site coverage) with amendment.
Wellington Civic Trust	388.105	Special Purpose Zones / Waterfront Zone / WFZ-S6	Amend	Considers that WFZ-S6 should be amended to not refer to the Waterfront coverage as a "site". The reference to "site" in relation to coverage may result in difficulty in interpreting this rule. The Zone consists of a number of sites (as defined), whereas the rule, in line with the policy, is intended to apply to the Zone as a whole.	<p>Amend the title of WFZ-S6 (Waterfront Zone site coverage) as follows:</p> <p>Waterfront Zone site coverage</p> <p>1. All development must result in the sum of all buildings in the Waterfront Zone having a site coverage of less than 35% of the whole Waterfront Zone.</p> <p>...</p>
Lorraine and Richard Smith	230.22	Special Purpose Zones / Wellington Town Belt Zone / General WTBTZ	Amend	Considers that remnants of the town belt should be protected to enhance green space and historic elements in these areas, particularly if intensification is to proceed. [Refer to original submission for details]	Seeks provisions to ensure that remnants of the town belt are protected, to enhance green space and historic elements in these areas.
Lucy Harper and Roger Pemberton	401.90	Special Purpose Zones / Wellington Town Belt Zone / General WTBTZ	Support	<p>Supports the intent of the zone. Submitter considers that the green belt is a prominent aspect of Wellington city and provides a strong backdrop to the built environment and a health and wellbeing benefit to residents and visitors to the city.</p> <p>Submitter considers that identifying the area as WTBTZ and the provisions for its protection and use promotes the continuation of its value.</p>	Retain the WTBTZ (Wellington Town Belt Zone) as notified, to ensure the identification and recognition of the Wellington Town Belt in a specific zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Roseneath Residents' Association	FS49.8	Special Purpose Zones / Wellington Town Belt Zone / General WTBZ	Support	<p>Supports the submission of Lucy Harper and Roger Pemberton - 401, the submitter supports Ms Harper and Mr Pemberton's submission, because it emphasises how important the 'green belt' is to our city.</p> <p>The submitter highlights this submission as reflective of the high value that Wellingtonians place on our Town Belt. That underpins the submitter's request that number 22 Alexandra Road retains the Open Space zoning and Ridgeline and Hilltops protection status as it is in the Operative District Plan.</p> <p>[Inferred reference to submission point 401.90]</p>	Allow
Matthew Wells, Adelina Reis and Sarah Rennie	FS50.7	Special Purpose Zones / Wellington Town Belt Zone / General WTBZ	Support	<p>Supports the submission of Lucy Harper and Roger Pemberton - 401, we support Ms Harper and Mr Pemberton's submission, because it emphasises how important the 'green belt' is to our city.</p> <p>The submitter highlights this submission as reflective of the high value that Wellingtonians place on our Town Belt. That underpins the submitter's request that number 22 Alexandra Road retains the Open Space zoning and Ridgeline and Hilltops protection status as it is in the Operative District Plan.</p> <p>[Inferred reference to submission point 401.90]</p>	Allow
Craig Palmer	492.43	Special Purpose Zones / Wellington Town Belt Zone / New WTBZ	Amend	<p>Considers that the District Plan needs to be the ultimate bastion of the Town Belt. Recent legislation (Wellington Town Belt Act 2016, and Wellington Town Belt Management Plan June 2018) has diminished the public's awareness of the competing interests over the Town Belt. This unique public treasure has constantly required protection for the retention of free access and enjoyment since its inception in 1983. In particular, for walkers and those seeking quiet passive recreation in semi-wilderness surroundings.</p>	<p>Add a new provision in the Wellington Town Belt Zone chapter to evaluate proposed commercial activities within the Town Belt.</p> <p>The rules are to be accorded discretionary activity status with mandatory public notification.</p>
Wellington Civic Trust	FS83.33	Part 3 / Special Purpose Zones / Wellington Town Belt Zone / New WTBZ	Support	<p>The submission is supported. As the Wellington Civic Trust understands it, all commercial activities would "default" to fully discretionary under rule WTBZ-R8 and we support that. The plan is however silent on public notification, meaning that the need for notification would be assessed directly under the RMA provisions. Because of the importance of the Town Belt to the public and to future generations, we support the submission that all activities requiring consent (activities and buildings) should be subject to public notification.</p>	Allow
Wellington Civic Trust	388.106	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-O1	Support in part	<p>WTBZ-O1 is supported for its purpose. However the purpose of the Zone does match with the principles of the Town Belt Act.</p>	Retain Objective WTBZ-O1 (Purpose) with amendment.
Wellington Civic Trust	388.107	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-O1	Amend	<p>Considers that WTBZ-O1 should be amended to match its purpose with the principles of the Town Belt Act. It is clear that there are omissions in the stated purpose relating to its landscape significance, its historic and cultural heritage values, and its significance to the City as place with natural ecosystems which need protection and enhancement (extending beyond the recognition of vegetation, which is already mentioned).</p> <p>Many of these aspects are woven through the Town Belt's area and its development over time. While they may not be individually important enough to justification through scheduling or overlays they nevertheless need to be recognised in the Plan as well as in the legislation covering the Council's responsibility for this very important area. These aspects should be integrated into the Zone's purpose statement.</p>	<p>Amend Objective WTBZ-O1 (Purpose) to have additional items referring to the Town Belt Zone as having:</p> <ul style="list-style-type: none"> - Large areas of landscape value - Areas, places, associations and structures of cultural heritage significance - Existing ecosystem values, which must be sustained and enhanced
Lucy Harper and Roger Pemberton	401.91	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-O1	Support	<p>Supports WTBZ-O1. Submitter considers that the green belt is a prominent aspect of Wellington city and provides a strong backdrop to the built environment and a health and wellbeing benefit to residents and visitors to the city.</p> <p>Submitter considers that identifying the area as WTBZ and the provisions for its protection and use promotes the continuation of its value.</p>	Retain WTBZ-O1 (Purpose) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington Civic Trust	388.108	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-O2	Support in part	WTBZ-O2 is partially supported, but an amendment is sought.	Retain Objective WTBZ-O2 (Managing effects) with amendment.
Wellington Civic Trust	388.109	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-O2	Amend	Considers that WTBZ-O2 is inadequate and should be amended, as it only refers to managing effects at the Zone interface and surrounding area. The Town Belt is an area which experiences significant pressure for use by non-recreational activities, for activities such as public parking, additional through-routes and the location of public services and facilities. There are also significant circumstances where the effects of access and recreational use must be managed within the zoned area itself.	Amend Objective WTBZ-O2 (Managing effects) as follows: Adverse effects of activities and development undertaken in the Wellington Town Belt Zone are managed effectively <u>within the zone</u> and at the zone interface and surrounding area.
Lucy Harper and Roger Pemberton	401.92	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-O2	Support	Supports WTBZ-O2. Submitter considers that the green belt is a prominent aspect of Wellington city and provides a strong backdrop to the built environment and a health and wellbeing benefit to residents and visitors to the city. Submitter considers that identifying the area as WTBZ and the provisions for its protection and use promotes the continuation of its value.	Retain WTBZ-O2 (Managing effects) as notified.
Wellington Civic Trust	FS83.39	Part 3 / Special Purpose Zones / Wellington Town Belt Zone / WTBZ02	Support	Wellington Civic Trust has requested a modification to this objective – and we seek alignment with our submission.	Allow
Lucy Harper and Roger Pemberton	401.93	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-O3	Support	Supports WTBZ-O3. Submitter considers that the green belt is a prominent aspect of Wellington city and provides a strong backdrop to the built environment and a health and wellbeing benefit to residents and visitors to the city. Submitter considers that identifying the area as WTBZ and the provisions for its protection and use promotes the continuation of its value.	Retain WTBZ-O3 (Mana whenua) as notified.
Wellington Civic Trust	388.110	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-P2	Support in part	WTBZ-P2 is partially supported, but an amendment is sought.	Retain WTBZ-P2 (Managed activities) with amendment.
Wellington Civic Trust	388.111	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-P2	Amend	Considers that WTBZ-P2 does not recognise the need to consider internal compatibility between activities within the Zone and should be amended.	Amend WTBZ-P2 (Managed activities) as follows: Only allow other activities to establish in the Wellington Town Belt Zone where it can be demonstrated that they are compatible with the purpose and values of the zone, having particular regard to whether: ... 4. Any adverse residential amenity effects will be minimised. 5. <u>Adverse effects between activities are able to be avoided or limited to an appropriate level</u>
Taranaki Whānui ki te Upoko o te Ika	389.129	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-P3	Amend	[No specific reason given beyond decision requested - refer to original submission].	Clarify policy WTBZ-P3 (Mana Whenua)'s role to support WTBZ-O3 (Mana Whenua). [Inferred decision requested]
Wellington Civic Trust	388.112	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-R6	Oppose in part	Considers that the construction and alteration (including extensions) of new footpaths and tracks should not be permitted activities. WTBZ-R6 should only allow for allow for maintenance of existing such facilities, but require new such facilities to obtain consents through the default rule.	WTBZ-R6 (Construction of, and alteration and additions to footpaths and tracks) is opposed, and an amendment is sought.
Wellington Civic Trust	388.113	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-R6	Amend	Considers that the construction and alteration (including extensions) of new footpaths and tracks should not be permitted activities. WTBZ-R6 should only allow for allow for maintenance of existing such facilities, but require new such facilities to obtain consents through the default rule.	Amend WTBZ-R6 (Construction of, and alteration and additions to footpaths and tracks) as follows: WTBZ-R6: <u>Maintenance of Construction of, and alteration and additions to</u> footpaths and tracks 1. Activity status: Permitted

Development Areas - General Points

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Craig Palmer	492.47	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-R7	Amend	<p>Opposes WTBZ-R7 enabling the construction of, and alterations and additions to, carparking areas and vehicle access as a permitted status activity.</p> <p>Considers that the District Plan needs to be the last bastion of the Town Belt. Recent legislation (Wellington Town Belt Act 2016, and Wellington Town Belt Management Plan June 2018) has diminished the public's awareness of the competing interests over the Town Belt. This unique public treasure has constantly required protection for the retention of free access and enjoyment since its inception in 1983. In particular, for walkers and those seeking quiet passive recreation in semi-wilderness surroundings.</p>	Amend WTBZ-R7 (Construction of, and alteration and additions to car parking areas and vehicle access) to be accorded discretionary activity status and for new carparking areas and vehicle access points to require mandatory public notification.
Wellington Civic Trust	FS83.37	Part 3 / Special Purpose Zones / Wellington Town Belt Zone / WTBZ-R7	Support	The submissions are similar to those of the Wellington Civic Trust. We also support mandatory public notification of all consent applications in this zone.	Allow
Greater Wellington Regional Council	351.313	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-R9	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain WTBZ-R9 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.314	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-R9	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend WTBZ-R9 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Craig Palmer	492.48	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-R11	Amend	<p>Considers that the District Plan needs to be the last bastion of the Town Belt. Recent legislation (Wellington Town Belt Act 2016, and Wellington Town Belt Management Plan June 2018) has diminished the public's awareness of the competing interests over the Town Belt. This unique public treasure has constantly required protection for the retention of free access and enjoyment since its inception in 1983. In particular, for walkers and those seeking quiet passive recreation in semi-wilderness surroundings.</p>	Amend WTBZ - R11 (Construction of, and alterations and additions to buildings and structures) to require mandatory public notification.
Wellington Civic Trust	388.116	Special Purpose Zones / Wellington Town Belt Zone / WTBZ-S4	Oppose	WTBZ-S4 is opposed as it sets a permitted 5% building coverage standard. It is unclear how this rule would apply in the Town Belt and deletion is suggested. Most of the "sites" within the zone are very large and the maximum gross floor area standard (30m2) would be the limiting factor. If applied to leased areas, it could result in much larger areas being leased than necessary.	Delete WTBZ-S4 (Maximum building coverage) in its entirety.
Greater Wellington Regional Council	351.315	Development Area / General point on Development Areas / General point on Development Areas	Support in part	The submitter recognises the efforts to mitigate potential environmental and cultural impacts of greenfield development through development planning, and to provide for SNAs, amenity, open space, bus services and mixed use activities (particularly in Lincolnshire Farms).	Retain Development areas, subject to amendments.
Greater Wellington Regional Council	351.316	Development Area / General point on Development Areas / General point on Development Areas	Amend	<p>The submitter recognises the efforts to mitigate potential environmental and cultural impacts of greenfield development through development planning, and to provide for SNAs, amenity, open space, bus services and mixed use activities (particularly in Lincolnshire Farms).</p> <p>Considers the Development Areas to contribute to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1</p>	Seeks to ensure the Development Area provisions have regard to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1, by including necessary objectives, policies, permitted standards and rules that provide for these qualities and characteristics.
Greater Wellington Regional Council	351.317	Development Area / General point on Development Areas / General point on Development Areas	Amend	<p>The submitter recognises the efforts to mitigate potential environmental and cultural impacts of greenfield development through development planning, and to provide for SNAs, amenity, open space, bus services and mixed use activities (particularly in Lincolnshire Farms).</p> <p>Considers the Development Areas to contribute to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1</p>	<p>Seeks for WCC to consider whether greenfield development is necessary in the PDP at this stage given:</p> <ul style="list-style-type: none"> • the scale of intensification provided for within the existing urban footprint • whether the proposed greenfield development areas can provide for well-functioning urban environments • the potential environmental and cultural impacts of greenfield development, for example the extensive earthworks required, and whether they can be appropriately mitigated while still providing appropriate amenities and density

Development Areas - Kilbirnie Bus Barns

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
VicLabour	414.49	Development Area / General point on Development Areas / General point on Development Areas	Support	Supports direction that new greenfield developments be proactively designed to be lower-emissions.	Seeks that greenfield development be undertaken in a truly sustainable manner within carbon budget constraints rather than providing some tick-box environmental measures that may be insufficient.
Waka Kotahi	370.447	Development Area / Development Area Kilbirnie Bus Barns / General DEV1	Support	The Kilbirnie Bus Barn Development Area is supported. In particular development being consistent with the "Bus Barn - Concept Plan" to achieve the integrated outcomes.	Retain Development Area 1: Kilbirnie Bus Barn Development Area and its provisions as notified.
Bus Barn Ltd	FS95.4	Part 3 /Development Area / Development Area Kilbirnie Bus Barns / General DEV1	Oppose	The original submission proposed by Waka Kotahi seeks to retain the bus barn provisions as notified. Bus Barn Ltd seeks to modify this provision as outlined in their submission.	Disallow / Retain the Kilbirnie Bus Barn Development, as modified by the Bus Barn Limited submission
Kāinga Ora Homes and Communities	391.743	Development Area / Development Area Kilbirnie Bus Barns / General DEV1	Support in part	Seeks amendments to the rules to make all necessary consequential changes in response to the rezoning of those parcels which are identified for Medium Density Residential Zone to High Density Residential Zone. This rezoning is sought as considers the sites adjoin the metropolitan centres and thereby the adjoining zoning should appropriately be High Density Residential Zone. Considers this zone would also align in the outcomes sought in the overarching submission.	Seeks consequential amendments for all rules to reflect the High Density Residential Development rules.
Kāinga Ora Homes and Communities	391.744	Development Area / Development Area Kilbirnie Bus Barns / General DEV1	Amend	Seeks amendments to the rules to make all necessary consequential changes in response to the rezoning of those parcels which are identified for Medium Density Residential Zone to High Density Residential Zone. This rezoning is sought as considers the sites adjoin the metropolitan centres and thereby the adjoining zoning should appropriately be High Density Residential Zone. Considers this zone would also align in the outcomes sought in the overarching submission.	Seeks consequential amendments for all rules to reflect the High Density Residential Development rules.
Bus Barn Limited	320.3	Development Area / Development Area Kilbirnie Bus Barns / DEV1-R1	Oppose	Considers that the provision within DEV1-R1 that states that alterations or new buildings are required to not be visible from public spaces will mean that any development in this area would fail the permitted activity requirements. The DEV1 site (Kilbirnie Bus Barns site) is bounded by Onepu Road to the west, Ross Street to the east and the sewer reserve to the south that is used as a pedestrian walkway. These public spaces make the whole site visible. As such any development, even one a one storey residential lot would not meet this requirement, and any development of this site will require a consent. This is conflicting with Policy 3 (b) of the NPS-UD.	Opposes DEV-R1 (Construction of, or additions and alterations to, buildings and structures) in part and seeks amendment.

Development Areas - Lincolnshire Farm

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Bus Barn Limited	320.4	Development Area / Development Area Kilbirnie Bus Barns / DEV1-R1	Amend	Considers that the provision within DEV1-R1 that states that alterations or new buildings are required to not be visible from public spaces will mean that any development in this area would fail the permitted activity requirements. The DEV1 site (Kilbirnie Bus Barns site) is bounded by Onepu Road to the west, Ross Street to the east and the sewer reserve to the south that is used as a pedestrian walkway. These public spaces make the whole site visible. As such any development, even one a one storey residential lot would not meet this requirement, and any development of this site will require a consent. This is conflicting with Policy 3 (b) of the NPS-UD.	Amend DEV1-R1 (Construction of, or additions and alterations to, buildings and structures) as follows: 1. Activity status: Permitted Where: a. Any alterations or additions to a building or structure that: i. Do not alter the external appearance of the building or structure; or ii. Relate to a building frontage below verandah level, including entranceways and glazing; or iii. Are not visible from public spaces; and iii iv . Results in the creation of new residential units; and iv v . Comply with standards MCZ-S1, MCZ-S2, MCZ-S3, MCZ-S4, MCZ-S5, and MCZ-S6; or b. The construction of any building or structure: i. Is not located on a site with an active frontage or non-residential activity frontage; or ii. Is not visible from public space; and ii iii . Will have a gross floor area of less than 100m2; and iii iv . Will result in a total coverage (together with other buildings) of no more than 20 percent of the site; and iv v . Comply with standards MCZ-S1, MCZ-S2, MCZ-S3, MCZ-S4, MCZ-S5, and MCZ-S6; and v vi . Does not involve the construction of a new building for residential activities.
Kāinga Ora – Homes and Communities	FS89.50	Part 3 / Development Area / Development Area Kilbirnie Bus Barns / DEV1-R1	Support	Kāinga Ora supports the relief noting that the site is wholly visible from a public place and the proposed rule would consequently limit intensification opportunities for the site which are sought in the Kāinga Ora primary submission.	Allow
VicLabour	414.50	Development Area / Development Area Kilbirnie Bus Barns / DEV1-R1	Support in part	Supportive of the inclusion of a points based system to allow developments outside of some of the rules in the PDP if they provide other benefits (the city outcomes contribution mechanism) but considers it an example of how arbitrary and excessive many of these regulations are, particularly around height and character protections.	Seeks to retain points based system to allow developments outside of some of the rules in the PDP if they provide other benefits. [Inferred decision requested]
Fabric Property Limited	425.104	Development Area / Development Area Kilbirnie Bus Barns / DEV1-R1	Amend	Opposed to the 'City Outcomes Contributions' provisions, and specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development. While Fabric recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list. The 'City Outcomes Contributions' have the potential to act as a disincentive for development, which conflicts with the Proposed Plan strategic objectives and NPS-UD requirements of providing development capacity and providing for urban intensification. This would not achieve the aim of "density done well" as stated in the Design Guide. Seeks that all references to the City Outcomes Contributions be removed from the Proposed Plan and design guides.	Amend DEV1-R1.1.3 (City Outcomes Contribution) as follows: ... a. The Centres and Mixed-Use Design Guide, including guideline G107 – City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 25 or more residential units or is a non-residential building. ...
Rod Halliday	25.35	Development Area / Development Area Lincolnshire Farm / General DEV2	Support	Supports the sentence 'location of roads and special features are not intended to be immovable' in DEV2 (Development Area - Lincolnshire Farm).	Retain DEV2 (Lincolnshire Farm) as notified with the wording 'location of roads and special features are not intended to be immovable'.
Rod Halliday	25.36	Development Area / Development Area Lincolnshire Farm / General DEV2	Amend	Considers that the sentence 'location of roads and special features are not intended to be immovable' in DEV2 (Development Area - Lincolnshire Farm) should be highlighted.	Seeks that 'location of roads and special features are not intended to be immovable' in DEV2 (Development Area - Lincolnshire Farm) be highlighted.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Rod Halliday	25.37	Development Area / Development Area Lincolnshire Farm / General DEV2	Support in part	The Lincolnshire Farm Development Plan is generally supported including the introduction of the MDRZ throughout to achieve higher density and increase housing supply.	Not specified.
Wellington City Youth Council	201.40	Development Area / Development Area Lincolnshire Farm / General DEV2	Support	Supports the main developments of Upper Stebbings/Glenside West and Lincolnshire Farm and the accompanying zone redesignation for both areas. Considers that provision of housing for a growing population is important, and creating new higher density areas plays a role in this.	Retain DEV2 (Lincolnshire Farm) as notified.
Wellington City Council	266.162	Development Area / Development Area Lincolnshire Farm / General DEV2	Amend	Considers it necessary to add an additional paragraph to the introduction of this chapter to provide for the construction of a new link road between Jamaica Drive and Mark Avenue, as shown in the Development Plan. This is to prevent unnecessary resource consenting impeding the progression of the road once this is ready for construction.	Add the following paragraph to the introduction, between existing paragraphs three and four: <u>The new roading connection between Jamaica Drive and Mark Avenue is essential infrastructure that is required to implement the Development Plan. This connection will ensure that the Lincolnshire Farm neighbourhood centre, school, and community hub will be accessible to the whole community and have a viable catchment; and the residents of Lincolnshire Farm will have public transport, cycling and vehicular access to Takapu Train Station. An alternative transport route to State Highway 1 and Willowbank Road / Middleton Road will add resilience to the road network.</u>
Wellington City Council	266.163	Development Area / Development Area Lincolnshire Farm / General DEV2	Amend	Considers it necessary to add a new objective to support the construction of the link road between Jamaica Drive and Mark Avenue, as shown in the Development Plan, and generally to support access and connection across Lincolnshire and Woodridge areas.	Add a new objective DEV2-05 to the Development Area Lincolnshire Farm chapter as follows: <u>DEV2-05 Access and connection</u> <u>New communities at Lincolnshire Farm are well connected with each other and with the adjoining communities in Grenada North and Woodridge to increase their resilience and accessibility.</u>
Transpower New Zealand Limited	315.187	Development Area / Development Area Lincolnshire Farm / General DEV2	Amend	Considers existing transmission lines traverse the northern part of the Lincolnshire Farm Development Area, over areas zoned for Medium Density Residential and Open Space (noting the Development Area layer obscures the transmission lines). On the basis any development within the area complies with the National Grid rules within the Infrastructure Chapter, Transpower has no concerns. Seeks amendment to reference the National Grid transmission lines to highlight their existence to plan users. [see original submission for images supplied]	Amend the introductory text to the Development Area 2 chapter as follows: ... There are limited areas suitable for greenfield development in Wellington City so they must be used efficiently, providing medium density where practical and ensuring that there are a variety of housing types to suit different needs. It is crucial that the area is designed comprehensively so that infrastructure, services and facilities are provided in the most suitable location and are planned to service the entire neighbourhood. <u>Existing transmission lines traverse the site, and any development must be appropriately managed to ensure the National Grid is not compromised.</u> A local centre is intended to act as a focal point and meeting space for the neighbourhood and provide community services including local shops, hospitality venues, and a supermarket. An industrial business area is included to provide local employment opportunities and contribute to the industrial land supply of Wellington City. Bus, cycle, and walking infrastructure should be planned from the outset and integrated into the design of the earthworks and subdivision. Water sensitive design methods will be used which will benefit water quality and reduce impacts from runoff. ...
Waka Kotahi	370.448	Development Area / Development Area Lincolnshire Farm / General DEV2	Support in part	The Lincolnshire Farm Development Area is supported, but an amendment is sought.	Retain Development Area 2: Lincolnshire Farm Development Area and seeks amendment

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.449	Development Area / Development Area Lincolnshire Farm / General DEV2	Amend	Considers that the following amendments are required to the Lincolnshire Farm Development Area: a) Access on to the Johnsonville Porirua Motorway (SH1) at the Grenada Drive intersection may require upgrades to ensure no level of service deficiency as identified in the "Lincolnshire Farm Transport Review – June 2021 Tonkin and Taylor Ltd". Further investigation should be made into this. Development should be managed until such time that appropriate mitigation has been determined or funding identified. b) Needs a specific to integrated transport including multi-modal connections needs to be provided for. DEV-O2 and DEV-O3 generally direct development to consider integration but it is not explicit to transportation.	Seeks to amend Development Area 2: Lincolnshire Farm Development Area to include proviso that planned development shall only occur once the infrastructure upgrades, including SH1 and Grenada Drive intersection have been completed. Also seeks to include specific reference to all development within the Lincolnshire Farm area to facilitate multi-modal connections.
Victoria University of Wellington Students' Association	123.62	Development Area / Development Area Lincolnshire Farm / DEV2-O1	Support	Supports the Lincolnshire Farm development zone. [Refer to original submission for full reasons].	Not specified.
Wellington City Council	266.164	Development Area / Development Area Lincolnshire Farm / DEV2-P1	Amend	Considers it necessary to reflect the new objective relating to the link road.	Amend DEV2-P1 (Coordinated Development) as follows: Provide flexibility for development and subdivision in the Lincolnshire Farm Development Area while ensuring that: ... <u>9. A continuous road connection is provided across the Lincolnshire Farm Development Area connecting Jamaica Drive to Mark Avenue and Grenada Drive to Woodridge Drive, in general accordance with the alignment shown on the Development Area Plan;</u> 9-10. The development is supported by sufficient infrastructure that considers the needs across the entire Development Area and land is allocated for installations from network utility operators; 10. <u>11.</u> The development achieves hydraulic neutrality over the entire Development Area; 11. <u>12.</u> Buildings and sensitive activities are not located in overland flow paths, stream corridors or ponding areas; 12. <u>13.</u> Development does not result in the fragmentation of sites in a manner that may compromise the anticipated future urban form of the area; 13. <u>14.</u> Planned minimum areas for industrial, local centre, and community facilities are provided within the overall development area; 14. <u>15.</u> Industrial activities that are adjacent to residential sites, open spaces and other sensitive activities provide for appropriate amenity in those adjacent areas; and 15. <u>16.</u> The natural environment and local biodiversity are protected
Greater Wellington Regional Council	351.318	Development Area / Development Area Lincolnshire Farm / DEV2-P1	Amend	The submitter suggest amendment to align with what is included in the Upper Stebbings and Glenside West Policies and signal the importance of including public transport and active modes in developments. The Regional Public Transport Plan 2021 states Greater Wellington will work with its regional partners to ensure new developments can accommodate public transport.	Amend DEV2-P1 (Coordinated Development) sub-clause 8 as follows: ... The road and access network provides high connectivity key connections to a well-connected transport network, including roads, public transport links and walking and cycling routes that assist in reducing carbon emissions and traffic congestion and provide a high quality street environment for people
Ministry of Education	400.153	Development Area / Development Area Lincolnshire Farm / DEV2-P1	Support	Supports DEV2-P1 as is important to recognise and provide for schools which will service the residential catchments and other community/commercial activities.	Retain DEV2-P1 (Coordinated Development) as notified.
Ministry of Education	400.154	Development Area / Development Area Lincolnshire Farm / DEV2-P4	Support	Supports DEV2-P4. The submitter agrees that educational facilities in general are incompatible within the Lincolnshire Farm Industrial Area and therefore supports DEV2-P4 as proposed.	Retain DEV2-P4 (Sensitive activities within the Industrial Area) as notified.
Kāinga Ora Homes and Communities	391.745	Development Area / Development Area Lincolnshire Farm / DEV2-P5	Support in part	Seeks amendments to this policy to remove direct reference to the design guide and instead articulate the urban design outcomes that are sought and to recognise changing amenity in accordance with the NPSUD.	Retain DEV2-P5 (Amenity and Design) and seeks amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.746	Development Area / Development Area Lincolnshire Farm / DEV2-P5	Amend	Seeks amendments to this policy to remove direct reference to the design guide and instead articulate the urban design outcomes that are sought and to recognise changing amenity in accordance with the NPSUD.	Amend DEV2-P5 (Amenity and Design) as follows: Amenity and Design Require new development, and alterations and additions to existing development in the Lincolnshire Farm Development Area to positively contribute to the creation of a well functioning urban environment by ensuring that it: <u>1. Fulfils the intent of the Residential Design Guide. Achieves the following urban design outcomes:</u> <u>a. Provides an effective public private interface;</u> <u>b. The scale, form, and appearance of the development is compatible with the planned urban built form of the neighbourhood;</u> <u>c. Provides high quality buildings.</u> <u>d. Responds to the natural environment.</u> 2. Adds visual diversity and interest through the overall street design and the form, landscaping, design, and siting of buildings.
Fire and Emergency New Zealand	273.346	Development Area / Development Area Lincolnshire Farm / DEV2-R3	Support	Supports the rule as it permits the establishment of emergency service facilities within the Lincolnshire Farm area.	Retain DEV2-R3 (Emergency service facilities) as notified.
Ministry of Education	400.155	Development Area / Development Area Lincolnshire Farm / DEV2-R4	Support	Supports DEV2-R4 as educational facilities are considered a sensitive activity not ancillary to a permitted activity in the Lincolnshire Farm General Industrial Activity Area. The submitter agrees that educational facilities in general are incompatible within the Farm General Industrial Activity Area and as such is generally accepting of the Discretionary activity status for sensitive activities in this zone.	Retain DEV2-R4 (Sensitive activities not ancillary to a permitted activity) as notified.
Ministry of Education	400.156	Development Area / Development Area Lincolnshire Farm / DEV2-R21	Support	Supports DEV2-R21 as it provides for educational facilities as a permitted activity.	Retain DEV2-R21 (Educational facilities) as notified.
Fire and Emergency New Zealand	273.347	Development Area / Development Area Lincolnshire Farm / DEV2-R23	Support	Supports the rule as it permits the establishment of emergency service facilities within the Lincolnshire Farm area.	Retain DEV-R23 (Emergency service facilities) as notified.
Fire and Emergency New Zealand	273.348	Development Area / Development Area Lincolnshire Farm / DEV2-R26	Support in part	Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Supports DEV-R26 (Supported residential care activities), with amendment.
Fire and Emergency New Zealand	273.349	Development Area / Development Area Lincolnshire Farm / DEV2-R26	Amend	Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Amend DEV2-R26 (Supported residential care activities) as follows: Activity status: Permitted Where: a. The storage area is screened by either a fence or landscaping of 1.8m in height from any adjoining road or site. <u>b. Screening does not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves, or other emergency response facilities</u>
Greater Wellington Regional Council	351.319	Development Area / Development Area Lincolnshire Farm / DEV2-R42	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain DEV2-R42 (Demolition or removal of buildings and structures in all activity areas) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.320	Development Area / Development Area Lincolnshire Farm / DEV2-R42	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend DEV2-R42 (Demolition or removal of buildings and structures in all activity areas) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Kāinga Ora Homes and Communities	391.747	Development Area / Development Area Lincolnshire Farm / DEV2-R44	Support in part	Generally supports this rule although an amendment is sought to the rule title to allow the rule to apply to all buildings not just those associated with no more than three residential units on a site.	Retain DEV2-R44 (Construction, addition or alteration of residential buildings and structures including accessory buildings, but excluding multi-unit housing - Medium Density Residential Activity Area) and seeks amendments.
Kāinga Ora Homes and Communities	391.748	Development Area / Development Area Lincolnshire Farm / DEV2-R44	Amend	Generally supports this rule although an amendment is sought to the rule title to allow the rule to apply to all buildings not just those associated with no more than three residential units on a site.	Amend DEV2-R44 (Construction, addition or alteration of residential buildings and structures including accessory buildings, but excluding multi-unit housing - Medium Density Residential Activity Area) as follows: Construction, addition or alteration of residential buildings and structures including accessory buildings but excluding multi-unit housing – Medium Density Residential Area 1. Activity Status: Permitted where: <u>a. There are no more than three residential unit on a site; and</u> ...
Kāinga Ora Homes and Communities	391.749	Development Area / Development Area Lincolnshire Farm / DEV2-R44	Support in part	Amendment is sought to delete reference to MRZ-P10 which is opposed.	Retain DEV2-R44 (Construction, addition or alteration of residential buildings and structures including accessory buildings, but excluding multi-unit housing - Medium Density Residential Activity Area) and seeks amendment.
Kāinga Ora Homes and Communities	391.750	Development Area / Development Area Lincolnshire Farm / DEV2-R44	Amend	Amendment is sought to delete reference to MRZ-P10 which is opposed.	Amend DEV2-R44 (Construction, addition or alteration of residential buildings and structures including accessory buildings, but excluding multi-unit housing - Medium Density Residential Activity Area) as follows: 2. Activity status: Restricted Discretionary where: Compliance with the requirements of DEV2-R45.1 cannot be achieved. Matters of discretion are: 1. The extent and effect of non-compliance with any relevant standard as specified in the associated assessment criteria for the infringed standards; and 2. The matters in DEV2-P2 and MRZ-P10
Kāinga Ora Homes and Communities	391.751	Development Area / Development Area Lincolnshire Farm / DEV2-R45	Support in part	Supports this rule in part, particularly the preclusion of public notification. Opposes the inclusion of multi-unit housing as considers this can be managed through DEV2-R44 in accordance with the amendments sought to that rule. A further amendment is sought to delete reference to MRZ-P10 which is opposed.	Retain DEV2-R45 (Construction of buildings, accessory buildings or structures for multi-unit development or a retirements village, and additions or alterations to a multi-unit housing or retirement village – Medium Density Residential Activity Area) and seeks amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.752	Development Area / Development Area Lincolnshire Farm / DEV2-R45	Amend	Supports this rule in part, particularly the preclusion of public notification. Opposes the inclusion of multi-unit housing as considers this can be managed through DEV2-R44 in accordance with the amendments sought to that rule. A further amendment is sought to delete reference to MRZ-P10 which is opposed.	Amend DEV2-R45 (Construction of buildings, accessory buildings or structures for multi-unit development or a retirements village, and additions or alterations to a multi-unit housing or retirement village – Medium Density Residential Activity Area) as follows: Construction of buildings, accessory buildings or structures for multi-unit development or a retirements village, and additions or alterations to a multi-unit housing or retirement village – Medium Density Residential Activity Area. 1. Activity status: Restricted Discretionary Matters of discretion are: 1. The extent and effect of non-compliance with any of the follow standards as specified in the associated assessment criteria for any infringed standard: i. DEV2-S6; ii. DEV2-S7; iii. DEV2-S8; iv. DEV2-S17; v. DEV2-S18; vi. DEV2-S19; and vii. DEV2-S20; and 2. The extent and effect of non-compliance with the requirements in Appendix 12; 3. The matters in DEV2-P1, DEV2-P2, DEV2-P5, MRZ-P6, and MRZ-P10 for multi-unit housing; and 4. The matters in DEV2-P5, and MRZ-P5, and MRZ-P10 for a retirement village. ...
Kāinga Ora Homes and Communities	391.753	Development Area / Development Area Lincolnshire Farm / DEV2-R45	Support in part	Supports this rule in part, particularly the preclusion of public notification. Seeks amendments to preclude limited notification for developments that comply with the relevant standards.	Retain DEV2-R45 (Construction of buildings, accessory buildings or structures for multi-unit development or a retirements village, and additions or alterations to a multi-unit housing or retirement village – Medium Density Residential Activity Area) and seeks amendments.
Kāinga Ora Homes and Communities	391.754	Development Area / Development Area Lincolnshire Farm / DEV2-R45	Amend	Supports this rule in part, particularly the preclusion of public notification. Seeks amendments to preclude limited notification for developments that comply with the relevant standards.	Amend DEV2-R45 (Construction of buildings, accessory buildings or structures for multi-unit development or a retirements village, and additions or alterations to a multi-unit housing or retirement village – Medium Density Residential Activity Area) as follows: ... Notification status: An application for resource consent made in respect of rule DEV2-R45.1 is precluded from being publicly notified. <u>An application for resource consent made in respect of rule DEV2-R45.1 that complies with the relevant standards is precluded from public and limited notification.</u>
Fire and Emergency New Zealand	273.350	Development Area / Development Area Lincolnshire Farm / DEV2-S1	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Supports DEV2-S1 (Maximum height - General Industrial Activity Area), with amendment.
Fire and Emergency New Zealand	273.351	Development Area / Development Area Lincolnshire Farm / DEV2-S1	Amend	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Amend DEV2-S1 (Maximum height - General Industrial Activity Area) as follows: This standard does not apply to: ... <u>x. Emergency service facilities up to 9m in height and hose drying towers up to 15m in height.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.352	Development Area / Development Area Lincolnshire Farm / DEV2-S2	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Supports DEV2-S2 (Height in relation to boundary - General Industrial Activity Area), with amendment.
Fire and Emergency New Zealand	273.353	Development Area / Development Area Lincolnshire Farm / DEV2-S2	Amend	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Amend DEV2-S2 (Height in relation to boundary - General Industrial Activity Area) as follows: This standard does not apply to: ... <u>x. Emergency service facilities up to 9m in height and hose drying towers up to 15m in height.</u>
Fire and Emergency New Zealand	273.354	Development Area / Development Area Lincolnshire Farm / DEV2-S6	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Supports DEV2-S6 (Building height - Medium Density Residential Area), with amendment.
Fire and Emergency New Zealand	273.355	Development Area / Development Area Lincolnshire Farm / DEV2-S6	Amend	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Amend DEV2-S6 (Building height - Medium Density Residential Area) as follows: This standard does not apply to: ... 1. Multi-unit housing; and 2. Retirement villages; and <u>3. Emergency service facilities up to 9m in height and hose drying towers up to 15m in height.</u>
Fire and Emergency New Zealand	273.356	Development Area / Development Area Lincolnshire Farm / DEV2-S8	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Supports DEV2-S8 (Height in relation to boundary - Medium Density Residential Area), with amendment.
Fire and Emergency New Zealand	273.357	Development Area / Development Area Lincolnshire Farm / DEV2-S8	Amend	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Amend DEV2-S8 (Height in relation to boundary - Medium Density Residential Area) as follows: This standard does not apply to: ... i. Multi-unit housing; and ii. Retirement villages; and <u>iii. Emergency service facilities up to 9m in height and hose drying towers up to 15m in height.</u>
Rod Halliday	25.38	Development Area / Development Area Lincolnshire Farm / DEV2-S15	Amend	Considers that 30% permeable surface is too high because the MDRZ allows for 50% site coverage and DEV-S14 (Landscape area – Medium Density Residential Area) requires 20% landscape area of grass or plants.	Seeks that DEV2-S15.1 (Permeable surface area - Medium Density Residential Area) be amended to require a minimum of 20% of net surface area be permeable.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Glenside Progressive Association (GPA)	FS4.8	Development Area / Glenside West Development Area / DEV2-S15	Oppose	<p>Oppose submitter seeking to reduce permeable surface from 30% to 20%. This is because residents below the site and downstream will be adversely affected.</p> <p>Housing development on Glenside West slopes should be hydrologically neutral. Because this is almost certainly not achievable, we oppose any high or medium density housing development in this area at all.</p> <p>The Boffa Miskell Upper Stebbings Valley Wellington Landscape and Ecology Analysis report (2018) is very pertinent when considering this development. This report identified Glenside West as having remnant forest of high ecological values, worthy of protection.</p> <p>[Inferred reference to submission 25.38]</p>	<p>Disallow / Seeks that the submission is disallowed to retain appropriate standard for permeable surfaces that avoids any increase in flooding or risk of slips i.e 30% permeable surface or higher.</p> <p>[Refer to further submission for full decision requested]</p>
Rod Halliday	25.39	Development Area / Development Area Lincolnshire Farm / DEV2-S16	Amend	Considers that the maximum height of 2m for a standalone fence is too low.	Seeks that DEV2-S16.2.b (Fences and standalone walls - Medium Density Residential Area) be amended to remove reference to walls.
Rod Halliday	25.40	Development Area / Development Area Lincolnshire Farm / DEV2-S16	Amend	Considers that the maximum height for standalone fences and walls needs to specifically exclude retaining walls as they are commonplace and should be part of the measurement.	Seeks that DEV2-S16.2.b (Fences and standalone walls - Medium Density Residential Area) be amended to allow a fence to be 1.5m in height before the 50% visually transparency requirement applies.
Rod Halliday	25.41	Development Area / Development Area Lincolnshire Farm / DEV2-S18	Amend	Considers that communal space minimum area and dimensions would benefit from more clarification, namely a note section or an example. The assumption is that the minimum area is cumulative and that minimum dimensions remain 8m.	Seeks that a clarification note be made to DEV2-S18 (Outdoor living space for multi-unit housing) regarding communal space rules.
Rod Halliday	25.42	Development Area / Development Area Lincolnshire Farm / DEV2-S18	Not specified	Supports minimum areas being cumulative.	Seeks that the minimum area standards in DEV2-S17 (Minimum residential unit size) and DEV2-S18 (Outdoor living space) are cumulative.
Rod Halliday	25.43	Development Area / Development Area Lincolnshire Farm / DEV2-S18	Not specified	Supports minimum dimensions remaining at 8m.	Seeks that the minimum dimension standards in DEV2-S17 (Minimum residential unit size) and DEV2-S18 (Outdoor living space) are retained at 8m.
Rod Halliday	25.44	Development Area / Development Area Lincolnshire Farm / DEV2-S20	Not specified	Considers that DEV2-S20 should be clarified so that it accounts for new roads, reserve areas, right of ways or easement areas (drainage etc). Or hazard area on a site (ponding/flood), SNA's or sites of significance.	Seeks that DEV2-S20 (Minimum density) is amended to specify that roads, reserve areas, right of ways or easement areas (drainage etc), or hazard areas on a site (ponding/flood), SNA's or sites of significance are excluded when calculating density.
Glenside Progressive Association (GPA)	FS4.9	Development Area / Glenside West Development Area / DEV2-S20	Oppose	<p>Oppose submitter seeking to reduce permeable surface from 30% to 20%. This is because residents below the site and downstream will be adversely affected.</p> <p>Housing development on Glenside West slopes should be hydrologically neutral. Because this is almost certainly not achievable, we oppose any high or medium density housing development in this area at all.</p> <p>The Boffa Miskell Upper Stebbings Valley Wellington Landscape and Ecology Analysis report (2018) is very pertinent when considering this development. This report identified Glenside West as having remnant forest of high ecological values, worthy of protection.</p> <p>[Inferred reference to submission 25.44]</p>	<p>Disallow / Seeks:</p> <ul style="list-style-type: none"> - Acknowledgement by Council that the Government's Policy Statement on Urban Development does not apply to areas such as Glenside West. - That any development in Glenside West takes place with a minimum of earthworks and that natural gullies are not filled in. - That the grey unbuilt area in Glenside West is unsuitable land for housing and that the whole area shown in mustard/yellow (Fig 1) is limited to Large Lot Residential. - Roading and housing doesn't extend into gullies, ephemeral streams, intermittent and perennial streams and is kept away from the ridgetop. - Furthermore no housing is built above the current Glenside-Churton park suburb boundary in order that the ridgeline is offered at least some degree of visual protection. - Significant Natural Areas (SNAs) on this site must be preserved and not impacted by development, if any development is to take place
Rod Halliday	25.45	Development Area / Development Area Lincolnshire Farm / DEV2-S20	Amend	Considers that DEV2-S20 (Minimum density) lacks clarity and should be amended.	Seeks that DEV2-S20 (Minimum Density) is amended to add more detail on how minimum density is calculated.

Development Areas - Upper Stebbings and Glenside West

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Edwin Crampton	21.1	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Amend	<p>Considers that Greyfriars Crescent is the most logical connection point to make, as it was designed to provide for such a connection when the Redwood block was subdivided in the 1970's.</p> <p>As the development of Churton Park has proceeded, it is expected by the Churton Park community that Upper Stebbings has a road connection to Tawa.</p>	Seeks that a road connection be provided to join Upper Stebbings with Greyfriars Crescent, Tawa.
John L Morrison	28.2	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Amend	<p>Considers that the DEV3 chapter does not include an acceptable connection between Tawa and Upper Stebbings.</p> <p>Every opportunity should be taken to increase the resilience of the whole city. a road connection between Upper Stebbings and Greyfriars Crescent will quite clearly increase overall city resilience by providing an additional secure access route to and from the north.</p> <p>A connection is required between Churton Park and Tawa to achieve compact urban form. Otherwise the development becomes an isolated group of houses.</p> <p>The PDP states that the Development Area has easy access to SH1, the NIMT railway, as well as the town centres and facilities at Tawa and Johnsonville. This misleading statement in</p> <p>[refer to original submission for full reason]</p>	Seeks that a road connection be provided to join Upper Stebbings with Greyfriars Crescent, Tawa.
John L Morrison	28.3	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Amend	<p>Considers that language in the Introduction of DEV3 is misleading, as Upper Stebbings and Glenside West do not have easy access to the NIMT railway or the Tawa Town Centre.</p> <p>Easy access to NIMT railway or Tawa Town Centre would only be available if a connection is provided to Greyfriars Crescent Tawa.</p>	Clarify language in the introduction of DEV3 (Development Area Upper Stebbings and Glenside West) relating to easy access between the development area and the railway spine and town centres.
Richard H. Taylor	35.1	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Amend	<p>Considers that language in the Introduction of DEV3 is misleading, as Upper Stebbings and Glenside West do not have easy access to the NIMT railway or the Tawa Town Centre.</p> <p>Only if there is a connection road via Greyfriars Crescent to Tawa will the railway and Tawa town centre access be available.</p>	Clarify language in the introduction of DEV3 (Development Area Upper Stebbings and Glenside West) relating to easy access between the development area and the railway spine and town centres. [Inferred decision requested]
Richard H. Taylor	35.2	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Amend	<p>Considers that a road connection between Greyfriars Crescent and Upper Stebbings would be of regional and national importance.</p> <p>According to WREMO in the event of a major disaster road and rail links out of Wellington city could be made impassable for some time, with the only way home for people being on foot. In such a situation the route for walkers (or cyclists) would be Middleton Road between Churton Park and Tawa. However Middleton Road is vulnerable and likely to be impassable.</p> <p>A connection at Greyfriars Crescent would provide another alternative in a disaster situation, providing a route for emergency vehicles in the response and recovery phase.</p> <p>[Refer to original submission for full reason]</p>	Seeks that a road connection be provided to join Upper Stebbings with Greyfriars Crescent, Tawa.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Richard H. Taylor	35.3	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Amend	<p>Considers that the DEV3 chapter does not include an acceptable connection between Tawa and Upper Stebbings. As the proposal currently stands, Upper Stebbings Valley would become an isolated group of residences cut off from Churton Park by the transmission lines exclusion area and without access to the north east.</p> <p>A road connection between Upper Stebbings and Tawa would have many benefits:</p> <p>In the immediate future, a bus route from Porirua (including Kenepuru Hospital) through western Tawa, Stebbings Valley and Churton Park to Johnsonville could be established.</p> <p>In the move towards carbon neutrality, cycling (especially with electric bikes) is likely to become more popular. The suggested connection would provide a safer route for cyclists traveling to or from Wellington along Middleton Road.</p> <p>A connecting road would also encourage the use of Tawa's facilities including the library, pool, schools, and shopping centre. Linkages between the two communities will be significantly enhanced.</p> <p>[refer to original submission for full reason]</p>	Seeks that a road connection be provided to join Upper Stebbings with Greyfriers Crescent, Tawa.
Barry Ellis	47.3	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Amend	Considers that the Council should provide the relevant data that justifies filling in gullies and building over natural streams and springs. Natural disasters of Nelson and Abbots Ford should not be forgotten.	Seeks that data be provided in DEV3 (Development Area: Upper Stebbings and Glenside West) to justify filling in gullies.
Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.8	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Oppose	The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. Hydraulic neutrality is also required unless a detention structure provides this attenuation. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). Hydraulic neutrality is also required unless a detention structure provides this attenuation.As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth.	Disallow
Barry Ellis	47.4	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Not specified	Considers the WCC is using a flawed survey.	Not Specified
Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.9	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Oppose	The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. Hydraulic neutrality is also required unless a detention structure provides this attenuation. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). Hydraulic neutrality is also required unless a detention structure provides this attenuation.As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Margaret Ellis	48.3	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Oppose	Opposes Glenside West being a development area, as the current proposal has 122 dwellings and 3 cul-de-sacs in Glenside West. Large lot residential would be a more suitable use considering the topography of the land, which has steep gullies and ephemeral streams flowing through it, making the land unsuitable for intensive cut and L.L.R. would be more suited to the rural nature of Glenside.	Rejects Glenside West being classified as a Development Area.
Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.10	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / DEV3-04	Oppose	The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. Hydraulic neutrality is also required unless a detention structure provides this attenuation. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). Hydraulic neutrality is also required unless a detention structure provides this attenuation. As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth.	Disallow
Oliver Sangster	112.14	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Support in part	Generally supportive of Upper Stebbings/Glenside West structure plan provisions being incorporated into the district plan as a Development Area overlay.	Retain Upper Stebbings/Glenside West Development Area as notified.
Oliver Sangster	112.15	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Support	Supports provision for medium density housing, and walking tracks with the Upper Stebbings/Glenside West Development Area.	Retain Upper Stebbings/Glenside West Development Area as notified.
Oliver Sangster	112.16	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Not specified	Considers that the Porirua Stream is an environment that is sensitive to urban development. [Inferred reasons]	Seeks that any development in the Upper Stebbings/Glenside West Development Area be done in a way that sensitive to the environment (particularly with regard to the stream/gully network which feeds into Porirua Stream and ultimately Porirua Harbour)
Oliver Sangster	112.17	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Support	Considers that alternative density options that people might propose that would promote more low density development (e.g. 'lifestyle blocks') in the Upper Stebbings/Glenside West Development Areas as it is one of the last remaining viable greenfield development areas in the city. Considers that carving this area up into lifestyle blocks will make well planned future development of this area difficult.	Retain housing densities in the Upper Stebbings/Glenside West Development Area as notified.
John Tiley	142.21	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Not specified	Considers that while the map of the Development Area Upper Stebbings and Glenside West is grey and bounded red, as unbuilt, the future intentions attached to the area, revealed by the label "FUZ", suggest residential construction in the future. A coherent plan should not contain any such discrepancy.	Clarity is sought over where residential development can occur in the FUZ (Future Urban Zone) in the Upper Stebbings and Glenside West development. [Inferred decision requested].

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Brian Sheppard	169.4	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Amend	<p>Considers that a connection between Upper Stebbings and Tawa would be of benefit to the adjacent communities as well as the whole Wellington Region. A road connection is required to achieve the WCC objective of compact urban form and for the Development Area to have easy access to SH1, the NIMT railway as well as the town centres and facilities at Tawa and Johnsonville.</p> <p>Tawa and Stebbings Valley are only about 200m apart but, without connection, the separation becomes several kilometres. In addition, the transmission lines exclusion separates Upper Stebbings from Churton Park, creating an isolated island community.</p> <p>Churton Park is unusual amongst the northern suburbs, in having no direct public transport access to the north. A road connection would enable a new bus route to be created that would provide a much-needed bus service from Johnsonville to Porirua which would serve Churton Park and the western side of Tawa.</p> <p>The north end of Stebbings Valley is a long way from the facilities in Johnsonville. A connection to Tawa would bring services much closer and provide a much needed boost to Tawa businesses and organisations.</p> <p>This connection would provide a resilient alternative route for people leaving the City for their homes further north.</p> <p>It has been suggested that, with a connection such this, vehicles bound for the motorway would add to traffic congestion in Tawa. Commuters from Upper Stebbings are more likely, however, to access the motorway from the closer junction at Churton Park. During the day, it is more likely that vehicles using the connection will primarily be heading to and from facilities in Tawa.</p> <p>[Refer to original submission for full reasons].</p>	Seeks that a road connection is provided to join Upper Stebbings and Tawa.
Niki Yosha	178.1	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Oppose	<p>Opposes the development of Marshall Ridge in Glenside West.</p> <p>Considers that WCC has failed to take its own advice and the advice of council contracted engineering firm Abcon. In 2019, a number of meetings were held where assurances were made that no residential development would happen on the Glenside Valley Hills.</p> <p>Considers that the development is a direct contradiction to the analysis regarding underdeveloped ridgelines in the July 2018 Upper Stebbings Valley, Wellington, Phase One: Landscape and Ecology Analysis Report.</p> <p>There is resident concern about the effects of light pollution caused by the development. Transport is poorly planned with excessive distances to the bus for Glenside West and very little vision for traffic coming out of Glenside West onto Westchester Drive.</p> <p>Considers that consultation with the affected community was poor. The potential impact on Porirua Stream has not involved consultation with Ngāti Toa Rangitira or Porirua City Council. The piping or covering of the stream running from Marshall Ridge will severely impact the species sustained by the stream and will completely wipe out the koura, tuna and glow worm populations.</p> <p>Considers that with the recent history of slips in the area, filling in more gullies and closing over natural water paths is not a sustainable move.</p> <p>Considers that the developer in question for this block does not have a good history of stormwater management.</p> <p>[Refer to original submission for full reasons].</p>	<p>Seeks that WCC rejects the proposed development of Glenside West, specifically on Marshall Ridge.</p> <p>Or, if development proceeds, amend plans to greatly reduce the number of planned dwellings and to ensure that no house built encroaches in the visual amenity of those living along Rowells and Middleton Roads.</p> <p>Additionally, ensure that no gullies are filled, and no streams piped or covered in order to protect current wildlife populations and native bush stands.</p>

Churton Park Community Association	189.21	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Not specified	Considers that while the map of the Development Area Upper Stebbings and Glenside West is grey and bounded red, as unbuilt, the future intentions attached to the area, revealed by the label "FUZ", suggest residential construction in the future. A coherent plan should not contain any such discrepancy.	Clarity is sought over where residential development can occur in the FUZ in the Upper Stebbings and Glenside West development. [Inferred decision requested].
Kāinga Ora – Homes and Communities	FS89.51	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Oppose	Kāinga Ora seeks further clarity on how this relief may impact opportunities for residential intensification to commence in the area in accordance with the primary submission.	Disallow
Wellington City Youth Council	201.41	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Support	Supports the main developments of Upper Stebbings/Glenside West and Lincolnshire Farm and the accompanying zone redesignation for both areas. Considers that provision of housing for a growing population is important, and creating new higher density areas plays a role in this.	Retain DEV3 (Upper Stebbings development) as notified.
Tawa Community Board	294.18	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Support	Support the proposed plan for Upper Stebbings Valley, in particular the protection given to ecology.	Retain DEV3 chapter (Upper Stebbings and Glenside West) as notified.
Transpower New Zealand Limited	315.188	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Support	Considers that existing Transmission lines traverse the northern part of the Upper Stebbings and Glenside West Development Area, over areas zoned "Unbuilt areas" (noting the Development Area layer obscures the transmission lines). On the basis any development within the area complies with the National Grid rules within the Infrastructure Chapter, Transpower has no concerns. The reference to the National Grid transmission lines is supported. [see original submission for images supplied]	Retain the introductory text to the Development Area 3 Chapter as notified.
Claire Bibby	329.2	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Amend	Considers that Archaeological Field Surveys should be carried out for any future development in Glenside West. As stated in the 'Historic Heritage Study for the Upper Stebbings and Marshall Ridge Structure Plan' by Elizabeth Cox (2018, p.3): If future development of this area is to occur, every effort should be made to first document the numerous possible very early settler 19th century house sites in the area. Therefore, it could be useful to commission an Archaeological Field Survey to traverse the area in order to identify any such remaining 19th century house sites along the Middleton/Willowbank Roads corridor, along with any associated old gardens, trees and shelter belts, sawpits, and associated farming and other material.	Seeks that an Archaeological Field survey be required for any development in the Glenside West Development Area.
Richard Herbert	360.5	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Support in part	Supports DEV3, as it is directed towards providing for development of this new greenfield development area, safeguarding natural resources and green spaces and recognising that this area also adjoins the Outer Green Belt, with areas within the Ridge Lines and Hilltops Overlay zone of the existing District Plan.	Retain DEV3 (Upper Stebbings and Glenside West Development Area) with amendment.
Richard Herbert	360.6	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Amend	Considers that the Development Area of Upper Stebbings and Glenside West should retain the areas designated within the Ridge Lines and Hilltops Overlay zone of the existing District Plan.	Seeks that the areas designated within the Ridge Lines and Hilltops Overlay zone be retained in DEV3 (Upper Stebbings and Glenside West Development Area).
Waka Kotahi	370.450	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Support in part	The Upper Stebbings and Glenside West Development Area is supported, but an amendment is sought.	Retain Development Area 3: Upper Stebbings and Glenside West Development Area and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.451	Special Purpose Zones / Development Area Upper Stebbings and Glenside West / General DEV3	Amend	Considers that the following amendments are required to the Upper Stebbings and Glenside West Development Area: a) The Tonkin Taylor "Transport Assessment Upper Stebbings" identifies a Level of Service F is anticipated at the intersection between Westchester Drive/ Middleton Road / Westchester Drive East, prior to the approach on to state highway 1. As such, development should be managed until such time that appropriate mitigation has been determined or funding identified. b) Provisions are required to enable integrated transport options including multi-modal connections. DEV3-O2 and DEV3-O3 generally direct development to consider integration but it is not explicit to transportation.	Seeks to amend Development Area 3: Upper Stebbings and Glenside West Development Area to include proviso that planned development shall only occur once the infrastructure upgrades, including SH1 and Westchester Drive intersection have been completed. Also seeks to include specific reference to all development within the Upper Stebbings and Glenside West area to facilitate multi-modal connections.
Glenside Progressive Association Inc	374.5	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Oppose in part	The Upper Stebbings and Glenside West Development Area is opposed in its current form, as it is considered misleading. The two areas should not be combined as if they were the same site. It is confusing what development is proposed for Upper Stebbings and what is proposed for 395 Middleton Road, Glenside West.	The Upper Stebbing and Glenside West Development Area is opposed and an amendment is sought.
Glenside Progressive Association Inc	374.6	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Amend	The Upper Stebbings and Glenside West Development Area is opposed in its current form, as it is considered misleading. The two areas should not be combined as if they were the same site. It is confusing what development is proposed for Upper Stebbings and what is proposed for 395 Middleton Road, Glenside West.	Seeks that information in DEV3 - Upper Stebbing and Glenside West Development Area be separated between Glenside West (395 Middleton Road) and Upper Stebbings.
Glenside Progressive Association Inc	374.7	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Oppose in part	The Introduction to the Upper Stebbings and Glenside West Development Area is opposed as it is considered misleading. The sentence "The areas have been identified for urban development since the 1970s." is not true for Glenside West and is misleading to people reading the District Plan. Glenside West was only bought by the developer less than 15 years ago and was never planned for development prior as it was farmed by the Broderick family for 100 years and the Warren family from 1968. [Refer to original submission for full reason]	The Introduction of DEV3 - Upper Stebbing and Glenside West Development Area is opposed and an amendment is sought.
Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.4	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Oppose	The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth.	Disallow
Glenside Progressive Association Inc	374.8	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Amend	The Introduction to the Upper Stebbings and Glenside West Development Area is opposed as it is considered misleading. The sentence "The areas have been identified for urban development since the 1970s." is not true for Glenside West and is misleading to people reading the District Plan. Glenside West was only bought by the developer less than 15 years ago and was never planned for development prior as it was farmed by the Broderick family for 100 years and the Warren family from 1968. [Refer to original submission for full reason]	Amend the Introduction of DEV3 - Upper Stebbing and Glenside West Development Area as follows: The Upper Stebbings and Glenside West developments are some of the final stages of urban - development in the northern suburbs. <u>Stebbing Valley was identified for Urban Development after it was sold to a developer in 1979 but Glenside West was only recently decided for development and notified to the public in 2021. The areas have been identified for urban development since the 1970s.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Glenside Progressive Association Inc	374.9	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Oppose	<p>Opposes the removal of Glenside West District Plan Change 33 – Ridgelines and Hilltops (Visual Amenity) with an activity status of Discretionary. Glenside West was never identified for development under the Northern Growth Management Framework (NGMF) consulted in 2001-2003.</p> <p>The area was subject to District Plan Change 33, Ridgeline and Hilltops Visual Amenity, 2009 (DPS 33) with an activity status of Discretionary and the Council should abide by the protection of ridgelines and hilltops in Glenside West.</p> <p>Northern Reserves Management Plan, 2008 recognised the ridgeline as a critical reserve, contributing to landscape coherence and amenity, offering extremely important views, with slopes providing vital linkages and coherence across the landscape. [Refer to original submission for full reason]</p>	Seeks that the Ridgelines and Hilltops overlay incorporated into the Operative District Plan (via Plan Change 33) be retained for Glenside West, with an activity status of Discretionary.
Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.5	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Oppose	The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth.	Disallow
Andy Foster	FS86.23	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Oppose	<p>Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 374.9].</p>	Allow
Donna Sherlock	384.3	Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Oppose	<p>Submitter considers that the land is too steep to support 120-150 dwellings.</p> <p>Submitter does not think the water for this catchment can be managed sensitively without harm downstream, with erosion and sediment and flooding.</p>	Not specified.
John Tiley	142.22	Development Area / Development Area Upper Stebbings and Glenside West / New DEV3	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that a new objective is provided regarding preservation of significant ridgelines, most particularly Marshalls Ridge.
Andy Foster	FS86.31	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / New DEV3	Oppose	<p>Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 142.22].</p>	Allow
Churton Park Community Association	189.22	Development Area / Development Area Upper Stebbings and Glenside West / New DEV3	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that a new objective is provided regarding preservation of significant ridgelines, most particularly Marshalls Ridge.
Andy Foster	FS86.41	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / New DEV3	Oppose	<p>Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 189.22].</p>	Allow

Victoria University of Wellington Students' Association	123.63	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-O1	Support	Supports the Upper Stebbings/Glenside West development zone. [Refer to original submission for full reasons].	Not specified.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.37	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-O1	Oppose	Opposes DEV3-O1 (Purpose). Considers that Glenside West is not well-connected, and the area is not connected to any public transport or local parks.	Opposes DEV3-O1 (Purpose) and seeks an amendment.
Ministry of Education	400.157	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-O1	Support in part	Supports DEV3-O1 in part.	Retain DEV3-O1 (Purpose) with amendment.
Ministry of Education	400.158	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-O1	Amend	Seeks DEV3-O1 be amended to explicitly recognise and provide for educational activities to in the Upper Stebbings and Glenside West Development Area. Moreover, the submitter considers that their relief sought provides a more concise alternative to the proposed objective.	Amend DEV3-O1 (Purpose) as follows: Purpose Upper Stebbings and Glenside West are well-connected neighbourhoods that accommodate new residential growth supported by <u>educational facilities</u> , community and open space activities.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.38	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-O2	Oppose	Considers that while an ISPP is underway and simplicity required where possible, clarity is needed around adherence and the core understanding of Te Kaupapa - rationales for the PDP and protections afforded by it.	Opposes DEV3-O2 (Activities and development) and seeks amendment.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.39	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-O2	Amend	Considers that while an ISPP is underway and simplicity required where possible, clarity is needed around adherence and the core understanding of Te Kaupapa - rationales for the PDP and protections afforded by it.	Amend DEV3-O2 (Activities and development) as follows: Activities and development Activities are carried out in an <u>a responsible</u> , integrated and coordinated way- <u>in adherence to the objectives, policies rules and standards of the District Plan entire</u> .
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.40	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-O2	Amend	Considers that while an ISPP is underway and simplicity required where possible, clarity is needed around adherence and the core understanding of Te Kaupapa - rationales for the PDP and protections afforded by it.	Seeks that DEV3-O2 (Activities and development) is amended to strengthen wording to stipulate the need to adhere to Te Kaupapa of the Draft District Plan.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.41	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-O3	Oppose	Considers that the development of 395 Middleton Road is not "Well functioning" because it does not comply with points d, f & g in the definition of "Well functioning urban environment" within the PDP. There is no link road from the development site to Churton Park, Glenside or Tawa has been planned. Development area is an isolated area on steep, hilly terrain. The access road from Westchester Drive is flood prone. West Glenside at 395 Middleton Road will not be Climate Change Sustainable and Natural Hazard Resilient. [Refer to original submission for full reason]	Opposes DEV3-O3 (Amenity and Design).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.11	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / General DEV3	Oppose	The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. Hydraulic neutrality is also required unless a detention structure provides this attenuation. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth. There is no reason to limit these areas to low density, especially with such a small pocket of space proposed for development and the NPS-UD seeking density.	Disallow
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.42	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-O4	Amend	<p>Considers that protecting Marshall's Ridge would be consistent with the intent of the ODP Ridgelines and Hilltops overlay, introduced by plan change 33.</p> <p>Excluding Marshall's Ridge from protections afforded to other connected hilltops and ridgelines make s no sense in the face of the above i.e., Introduction, DEV-04; DEV3-P4. Where the connective network of geographical features have been specified as needing protection and incorporation into a network for open spaces and reserves. Opening it up instead for housing development which will irreversibly reduce the visual amenity of the area, have a huge reverse sensibility effect and remove it from the network of accessible public open spaces.</p>	Seeks that DEV3-O4 (Natural environment) is amended to include absolute protection of Marshall's ridge and the steeper ridges and spurs descending into Stebbings Valley and Middleton Road.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.43	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-O4	Amend	<p>Seeks that DEV-O4 is amended to include SNA's in West Glenside, namely two larger areas of bush remnants either side of 395 Middleton Road, and two smaller areas as per SNA maps and planning maps showing FUZ of 395 Middleton Road. These SNA's risk encroachment upon and destruction if not specifically protected given the planned development of the site, shows an urban road being built across an area marked SNA.</p>	Seeks that DEV3-O4 (Natural environment) is amended to include protection of Significant Natural Areas in West Glenside, namely two larger areas of bush remnants either side of 395 Middleton Road, and two smaller areas as per the Significant Natural Area maps and planning maps showing the Future Urban Zone of 395 Middleton Road.
Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.12	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / DEV3-O4	Oppose	The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. Hydraulic neutrality is also required unless a detention structure provides this attenuation. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth. There is no reason to limit these areas to low density, especially with such a small pocket of space proposed for development and the NPS-UD seeking density.	Disallow
John Tiley	142.23	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P1	Amend	<p>Considers that DEV3-P1.2.b. indicates that the focus is solely on facilitating construction and that the well-being and integrity of the 'No Build Area' is being considered unworthy.</p> <p>Considers that a 'No Build Area' means exactly that, without compromise.</p>	Seeks that DEV3-P1 (Activities) is amended to provide a clear statement that a 'No Build Area' means no building without compromise.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Churton Park Community Association	189.23	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P1	Amend	Considers that DEV3-P1.2.b. indicates that the focus is solely on facilitating construction and that the well-being and integrity of the 'No Build Area' is being considered unworthy. Considers that a 'No Build Area' means exactly that, without compromise.	Seeks that DEV3-P1 (Activities) is amended to provide a clear statement that a 'No Build Area' means no building without compromise.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.44	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P1	Amend	Considers that the policy is too softly worded suggesting 'non-build spaces' are available predominantly for facilitating construction or residential facilitation. This could mean escarpment/battens, ditches, construction material storage - gravel pits, asphalt piles, or driveways, parking spaces.	Seeks amendment to DEV3-P1 (Activities) to clarify that construction of residential buildings is contained entirely within Build Areas, and not in non-build areas.
Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.13	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P1	Oppose	The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. Hydraulic neutrality is also required unless a detention structure provides this attenuation. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth. There is no reason to limit these areas to low density, especially with such a small pocket of space proposed for development and the NPS-UD seeking density.	Disallow
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.45	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P1	Amend	Considers that the policy is too softly worded suggesting 'non-build spaces' are available predominantly for facilitating construction or residential facilitation. This could mean escarpment/battens, ditches, construction material storage - gravel pits, asphalt piles, or driveways, parking spaces.	Seeks that DEV3-P1 (Activities) is amended to give non-build areas protections.
John Tiley	142.24	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P2	Amend	Considers that DEV3-P2 to DEV3-P5 (excluding DEV3-P4, item 6) focus entirely on development without regard for adverse effects.	Seeks that DEV3-P2 (Residential activities) is amended to not just focus on development but show regard for the adverse effects of development. [Inferred decision requested].
Churton Park Community Association	189.24	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P2	Amend	Considers that DEV3-P2 to DEV3-P5 (excluding DEV3-P4, item 6) focus entirely on development without regard for adverse effects.	Seeks that DEV3-P2 (Residential activities) is amended to not just focus on development but show regard for the adverse effects of development. [Inferred decision requested].
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.46	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P2	Oppose	Opposes DEV3-P2 on the basis that the wording is weak and this could signal a minimal need to adhere and poor legal footing for WCC post consent process to act on breaches.	Opposes DEV3-P2 (Residential activities) and seeks amendments.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.47	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P2	Amend	Considers that the terms encourage and intent are weak and should be replaced by REQUIRE and REQUIREMENT respectively to signal the need for strict adherence to policies, principles and guidelines within the PDP. Such weak language could signal a minimal need to adhere and poor legal footing for the WCC post consent process to act on breaches. A developer could claim a breach occurred due to the WCC's own limited encouragement and/or the developers own good but misguided intent.	Amend DEV3-P2 (Residential Activities) as follows: Residential activities Encourage Require residential activities within the build areas indicated on the Development Plans in the Planning Maps that: ... Fulfil the intent requirement of the Subdivision Design Guide and Residential Design Guide.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.48	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P2	Amend	<p>Considers that the policy should be amended to require low impact design guidelines for the Development Area of 395 Middleton Road, Glenside West.</p> <p>The houses in the area will be visible to a large geographical area in an area known for it's rural green open space character.</p> <p>Low impact guidelines regarding colour, form and light and noise pollution need to be clearly specified.</p> <p>Due to the geography of the area - the steep valley sides and 'as the crow flies' closeness to neighbours in Glenside, noise pollution occurs readily and must be specifically incorporated into design to minimise.</p> <p>Light pollution will be a new issue in a "dark sky area".</p> <p>The latter and the SNA's nearby have promoted biodiversity and improving ecological health. This will be drastically altered by a 150 housing development and 'all night' street lights. Ecological</p> <p>Light Pollution will be introduced to the area and must be strongly mitigated against.</p> <p>Guidelines also need to require hydraulic neutrality with comprehensive storm water infrastructure to mitigate against hard surfaces in an area prone to heavy rainfall impacts and with Porirua Stream and Te Awarua-o-Porirua directly impacted by 'downstream effects'.</p> <p>The area is also prone to high wind impacts. Considered planting of native species will be required to protect housing and associated activities from the high wind impacts associated with the area and the altitude and exposure</p>	Amend DEV3-P2 (Residential Activities) to include residential build guidelines to specify low impact design requirements, around colour, form, visual impact, noise and light pollution (in relation to West Glenside, 395 Middleton Road specifically).
Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.14	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P2	Oppose	<p>The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. Hydraulic neutrality is also required unless a detention structure provides this attenuation. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth. There is no reason to limit these areas to low density, especially with such a small pocket of space proposed for development and the NPS-UD seeking density.</p>	Disallow
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.49	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P2	Amend	<p>Considers that the policy should be amended to require hydraulic neutrality with comprehensive storm water infrastructure to mitigate against hard surfaces in an area prone to heavy rainfall impacts and with Porirua Stream and Te Awarua-o-Porirua directly impacted by 'downstream effects'.</p>	Amend DEV3-P2 (Residential Activities) to require hydraulic neutrality with comprehensive storm water infrastructure.

Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.15	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P2	Oppose	The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. Hydraulic neutrality is also required unless a detention structure provides this attenuation. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth. There is no reason to limit these areas to low density, especially with such a small pocket of space proposed for development and the NPS-UD seeking density.	Disallow
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.50	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P2	Amend	Considers that the policy should be amended as the area is prone to high wind impacts and considered planting of native species will be required to protect housing and associated activities from high wind impacts associated with the area and the altitude and exposure.	Amend DEV3-P2 (Residential Activities) to include high wind protection.
John Tiley	142.25	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P3	Amend	Considers that DEV3-P2 to DEV3-P5 (excluding DEV3-P4, item 6) focus entirely on development without regard for adverse effects.	Seeks that DEV3-P2 (Potentially compatible activities) is amended to not just focus on development but show regard for the adverse effects of development. [Inferred decision requested].
Churton Park Community Association	189.25	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P3	Amend	Considers that DEV3-P2 to DEV3-P5 (excluding DEV3-P4, item 6) focus entirely on development without regard for adverse effects.	Seeks that DEV3-P2 (Potentially compatible activities) is amended to not just focus on development but show regard for the adverse effects of development. [Inferred decision requested].
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.51	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P3	Amend	Amend the policy statement to specify the protection of natural contours, water courses, landforms, SNA's and non build areas. Specifically stating that activity can occur if protections occur, not instead of or over the top off. Wording is too weak around "appropriately managed" adverse effects - particularly because protection of SNA's and waterways is not mentioned in relation to this sentence. This is particularly important in relation to earthworks, described as 'moderate' (with no clear definition of the term), and breaches around these and environmental damage from such notified.	Seeks an amendment to DEV3-P3 (Potentially compatible activities) to indicate that activities can occur only if protections are in place.
John Tiley	142.26	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P4	Support in part	Supports DEV3-P4, Part 6 as notified.	Retain DEV3-P4 (Coordinated activities), part 6 as notified.
John Tiley	142.27	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P4	Amend	Considers that DEV3-P2 to DEV3-P5 (excluding DEV3-P4, item 6) focus entirely on development without regard for adverse effects.	Seeks that DEV3-P4 (Coordinated activities), part 6 is amended to not just focus on development but show regard for the adverse effects of development.
John Tiley	142.28	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P4	Amend	Considers that only referencing Upper Stebbings valley ridgetop in DEV3-P4.6., excludes the Stebbings Valley ridgelines, including Marshalls Ridge, to the detriment of the surrounding communities.	Amend DEV3-P4.6. (Coordinated development) to include the Stebbings Valley ridgelines, including Marshalls Ridge (not restricted to just Upper Stebbings Valley ridgelines).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Andy Foster	FS86.32	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P4	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 142.28].	Allow
Churton Park Community Association	189.26	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P4	Support in part	Supports DEV3-P4, Part 6 as notified.	Retain DEV3-P4 (Coordinated activities), part 6 as notified.
Churton Park Community Association	189.27	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P4	Amend	Considers that DEV3-P2 to DEV3-P5 (excluding DEV3-P4, item 6) focus entirely on development without regard for adverse effects.	Seeks that DEV3-P4 (Coordinated activities), part 6 is amended to not just focus on development but show regard for the adverse effects of development.
Churton Park Community Association	189.28	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P4	Amend	Considers that only referencing Upper Stebbings valley ridgetop in DEV3-P4.6., excludes the Stebbings Valley ridgelines, including Marshalls Ridge, to the detriment of the surrounding communities.	Amend DEV3-P4.6. (Coordinated development) to include the Stebbings Valley ridgelines, including Marshalls Ridge (not restricted to just Upper Stebbings Valley ridgelines).
Fire and Emergency New Zealand	273.358	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P4	Support	Supports the policy which seeks to ensure the Development Area is supported by sufficient infrastructure which considers the needs across the entire Development Area, particularly given that a large proportion of the Area does not form currently part of the Council's reticulated network.	Retain DEV3-P4 (Coordinated development) as notified.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.52	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P4	Amend	Considers that protecting Marshall's Ridge would be consistent with the intent of the ODP Ridgelines and Hilltops overlay, introduced by plan change 33. Excluding Marshall's Ridge from protections afforded to other connected hilltops and ridgelines makes no sense in the face of the above i.e., Introduction, DEV-04; DEV3-P4. Where the connective network of geographical features have been specified as needing protection and incorporation into a network for open spaces and reserves. Opening it up instead for housing development which will irreversibly reduce the visual amenity of the area, have a huge reverse sensibility effect and remove it from the network of accessible public open spaces.	Seeks that DEV3-P4 (Co-ordinated development) is amended to provide absolute protection of Marshall's Ridge.
Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.16	Part 3 / Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P4	Oppose	The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. Hydraulic neutrality is also required unless a detention structure provides this attenuation. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth. There is no reason to limit these areas to low density, especially with such a small pocket of space proposed for development and the NPS-UD seeking density.	Disallow

Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.53	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P4	Oppose	West Glenside, 395 Middleton Road is not well connected, not accessible to public transport, not within walking distance of a community hub, local park or public transport.	Opposes DEV3-P4 (Coordinated Development) and seeks amendment.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.54	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P4	Amend	Considers that including Marshall Ridge under DEV3-P4.6 will extend the connected network of natural open spaces with public accessibility promoted and secured via tracks for walking and cycling (current dirt road already in place, no further earthworks needed) as per other ridgelines and the outer green belt.	Seeks amendment to DEV3-P4 (Coordinated development) to include Marshall Ridge as consideration under DEV3-P4.6.
Richard Herbert	360.7	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P4	Support	DEV3-P4 is supported, as it provides hydraulic neutrality objectives.	Retain DEV3-P4 (Coordinated development) as notified.
John Tiley	142.29	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P5	Amend	Considers that DEV3-P2 to DEV3-P5 (excluding DEV3-P4, item 6) focus entirely on development without regard for adverse effects.	Seeks that DEV3-P5 (Amenity and design) is amended to not just focus on development but show regard for the adverse effects of development. [Inferred decision requested].
Churton Park Community Association	189.29	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P5	Amend	Considers that DEV3-P2 to DEV3-P5 (excluding DEV3-P4, item 6) focus entirely on development without regard for adverse effects.	Seeks that DEV3-P5 (Amenity and design) is amended to not just focus on development but show regard for the adverse effects of development. [Inferred decision requested].
Kāinga Ora Homes and Communities	391.755	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P5	Support in part	Seek amendments to this policy to remove direct reference to the design guide and instead articulate the urban design outcomes that are sought and to recognise changing amenity in accordance with the NPSUD	Retain DEV3-P5 (Amenity and design) and seeks amendments.
Kāinga Ora Homes and Communities	391.756	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-P5	Amend	Seek amendments to this policy to remove direct reference to the design guide and instead articulate the urban design outcomes that are sought and to recognise changing amenity in accordance with the NPSUD	Amend DEV3-P5 (Amenity and design) as follows: Amenity and Design Require new development, and alterations and additions to existing development in the Lincolnshire Farm Development Area to positively contribute to the creation of a well functioning urban environment by ensuring that it: 1. <u>Fulfills the intent of the Residential Design Guide</u> Achieves the following urban design outcomes: <u>a. Provides an effective public private interface;</u> <u>b. The scale, form, and appearance of the development is compatible with the planned urban built form of the neighbourhood;</u> <u>c. Provides high quality buildings.</u> <u>d. Responds to the natural environment.</u> 2. Adds visual diversity and interest through the overall street design and the form, landscaping, design, and siting of buildings.
Ministry of Education	400.159	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-R6	Support	Support DEV3-R6 as it provides for educational facilities as a permitted activity.	Retain DEV3-R6 (Educational Facilities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.359	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-R7	Support	Supports the rule as it permits the establishment of emergency service facilities within the Upper Stebbings and Glenside West area.	Retain DEV3-R7 (Emergency service facilities) as notified.
Greater Wellington Regional Council	351.321	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-R26	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain DEV3-R26 (Demolition or removal of buildings and structures in all activity areas) with amendment.
Greater Wellington Regional Council	351.322	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-R26	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend DEV3-R26 (Demolition or removal of buildings and structures in all activity areas) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Kāinga Ora Homes and Communities	391.757	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-R27	Support in part	Generally supports this rule although an amendment is sought to the rule title to allow the rule to apply to all buildings not just those associated with no more than three residential units on a site. A further amendment is sought to delete reference to MRZ-P10 which is opposed.	Retain DEV3-R27 (Construction, addition or alteration of residential buildings and structures including accessory buildings, but excluding multi-unit housing - Built Area) and seeks amendments.
Kāinga Ora Homes and Communities	391.758	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-R27	Amend	Generally supports this rule although an amendment is sought to the rule title to allow the rule to apply to all buildings not just those associated with no more than three residential units on a site. A further amendment is sought to delete reference to MRZ-P10 which is opposed.	Amend DEV3-R27 (Construction, addition or alteration of residential buildings and structures including accessory buildings, but excluding multi-unit housing - Built Area) as follows: Construction, addition or alteration of residential buildings and structures including accessory buildings but excluding multi-unit housing - Built Areas 1. Activity Status: Permitted where: a. <u>There are no more than three residential unit on a site; and</u> b. Compliance is achieved with: i. DEV3-S1; ii. DEV3-S2; iii. DEV3-S3; iv. DEV3-S4; v. DEV3-S5 only in relation to the rear yard boundary setback; vi. DEV3-S6; vii. DEV3-S7; viii. DEV3-S8; ix. DEV3-S9; x. DEV3-S10; and xi. DEV3-S11 2. Activity status: Restricted Discretionary where: a. Compliance with the requirements of DEV3-R27.1 cannot be achieved. Matters of discretion are: 1. The extent and effect of non-compliance with any relevant standard as specified in the associated assessment criteria for the infringed standards; and 2. The matters in DEV3-P2 and GRZ-P8 <u>MRZ-P8</u>
Kāinga Ora Homes and Communities	391.759	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-R28	Support in part	Supports this rule in part, particularly the preclusion of public notification. Opposes the inclusion of multi-unit housing as it is considered this can be managed through DEV3-R27 in accordance with the amendments sought to that rule. A further amendment is sought to delete reference to MRZ-P10 which is opposed.	Retain DEV3-R28 (Construction of buildings, accessory buildings or structures for multi-unit housing or a retirement village, and additions or alterations to multi-unit housing or a retirement village - Built Areas) and seeks amendments.

Kāinga Ora Homes and Communities	391.760	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-R28	Support in part	Supports this rule in part, particularly the preclusion of public notification. Opposes the inclusion of multi-unit housing as it is considered this can be managed through DEV3-R27 in accordance with the amendments sought to that rule. A further amendment is sought to delete reference to MRZ-P10 which is opposed.	Amend DEV3-R28 (Construction of buildings, accessory buildings or structures for multi-unit housing or a retirement village, and additions or alterations to multi-unit housing or a retirement village - Built Areas) as follows: Construction of buildings, accessory buildings or structures for multi-unit development or a retirements village, and additions or alterations to a multi-unit housing or retirement village – Built Areas 1. Activity status: Restricted Discretionary Matters of discretion are: 1. The extent and effect of non-compliance with any of the follow standards as specified in the associated assessment criteria for any infringed standard: a. DEV3-S1; b. DEV3-S2; c. DEV3-S3; d. DEV3-S4; e. DEV3-S5; f. DEV3-S12; g. DEV3-S13; h. DEV3-S14; and i. DEV3-S15; and 2. The extent and effect of non-compliance with the requirements in Appendix 13; 3. The matters in DEV3-P2, 4, 4, MRZ-P6, and MRZ-P10 for multi-unit housing; and 4. The matters in DEV3-P2, DEV3-P5, and MRZ-P5, and MRZ-P10 for a retirement village. ...
Kāinga Ora Homes and Communities	391.761	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-R28	Support in part	Supports this rule in part, particularly the preclusion of public notification. Seeks amendments to preclude limited notification for developments that comply with the relevant standards.	Retain DEV3-R28 (Construction of buildings, accessory buildings or structures for multi-unit housing or a retirement village, and additions or alterations to multi-unit housing or a retirement village - Built Areas) and seeks amendments.
Kāinga Ora Homes and Communities	391.762	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-R28	Amend	Supports this rule in part, particularly the preclusion of public notification. Seeks amendments to preclude limited notification for developments that comply with the relevant standards.	Amend DEV3-R28 (Construction of buildings, accessory buildings or structures for multi-unit housing or a retirement village, and additions or alterations to multi-unit housing or a retirement village - Built Areas) as follows: Construction of buildings, accessory buildings or structures for multi-unit development or a retirements village, and additions or alterations to a multi-unit housing or retirement village – Built Areas ... Notification status: An application for resource consent made in respect of rule DEV3-R28.1 is precluded from being publicly notified. <u>An application for resource consent made in respect of rule DEV3-R28.1 that complies with the relevant standards is precluded from public and limited notification.</u>
Fire and Emergency New Zealand	273.360	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-S1	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Supports DEV3-S1 (Building height), with amendment.

Designations

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.361	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-S1	Amend	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Amend DEV3-S1 (Building height) as follows: This standard does not apply to: ... a. Fences or standalone walls; <u>and</u> b. <u>Emergency service facilities up to 9m in height and hose drying towers up to 15m in height.</u>
Fire and Emergency New Zealand	273.362	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-S3	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Supports DEV3-S3 (Height in relation to boundary), with amendment.
Fire and Emergency New Zealand	273.363	Development Area / Development Area Upper Stebbings and Glenside West / DEV3-S3	Amend	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Amend DEV3-S3 (Height in relation to boundary) as follows: This standard does not apply to: ... b. Existing or proposed internal boundaries within a site; <u>and</u> c. Site boundaries where there is an existing common wall between 2 buildings on adjacent sites or where a common wall is proposed; <u>and</u> d. <u>Emergency service facilities up to 9m in height and hose drying towers up to 15m in height.</u>
Kilmarston Developments Limited and Kilmarston Properties Limited	290.72	Designations / General point on Designations / General point on Designations	Amend	Considers appropriate that amendments to the planning provisions to include provisions for infrastructure to be permitted within the Natural Open Space Zone (NOSZ). Considers that permitted infrastructure will assist in servicing future development. Seeks that this can be by proposed designation or appropriate zoning to provide for a reservoir. The Submitters land has been identified for residential development for at least 25 years. Considers that planning restrictions (overlays) over parts of the land do not assist in providing a framework for appropriate subdivision and land use for the subject property. Considers that it is not an effective use of the land resource to provide for a few rural residential properties on and area of land (over 15ha) that has been zoned for residential development. [see original submission]	Seeks that provisions for a designation are included for infrastructure within the Natural Open Space Zone (NOSZ) to provide for a reservoir. [inferred decision requested]
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.38	Part 3 / Designations / General point on Designations / General point on Designations	Oppose	It is not appropriate to include provisions for a designation for infrastructure within the Natural Open Space Zone (NOSZ) to provide for a reservoir. Designations are for requiring authorities, which this submitter is not. Furthermore, the requiring authority needs to go through a process which considers alternatives. The submitter provides no evidence that there is need for a reservoir, particularly when many councils such as Kāpiti, now require rain water tanks as a suitable water storage mechanism.	Disallow
Andy Foster	FS86.62	Part 3 / Designations / General point on Designations / General point on Designations	Support	Considers that it is reasonable to allow a reservoir to be constructed on the rural – Open Space part of the land to service new development and existing surrounding suburbs. Care should be taken about how it is designed to fit in with the landform, landscape and vegetation. [See original Further Submission for full reasoning]. [Inferred reference to 290.72]	Allow

Taranaki Whānui ki te Upoko o te Ika	389.130	Designations / General point on Designations / General point on Designations	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the Designations chapter is amended to include "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City."
Te Rūnanga o Toa Rangatira	FS138.68	Part 3 / Designations / General point on Designations / General point on Designations	Oppose	The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.131	Designations / General point on Designations / General point on Designations	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that references to Wellington Tenth Trust are removed.
Guardians of the Bays	452.93	Designations / General point on Designations / General point on Designations	Amend	Considers the use the Designation unique identifier at the beginning of each new designation would greatly improve reading and navigating the District Plan.	Seeks to use the Designation unique identifier at the beginning of each new designation.
KiwiRail Holdings Limited	408.158	Designations / KiwiRail Holdings Limited / KRH1	Support in part	Supports the KRH – KiwiRail Holdings Limited designations text which accurately specify 'railway purposes' as the designation purpose and 'primary' for the designation hierarchy for both KRH-1 and KRH-2.	Retain KRH1 (Wellington Railway Lines), with amendments.
KiwiRail Holdings Limited	408.159	Designations / KiwiRail Holdings Limited / KRH1	Amend	Considers minor amendment to the wording of Conditions 1 to improve readability of the condition is appropriate.	Amend KRH1 (Wellington Railway Lines) as follows: The following conditions shall apply to the designation containing the Wellington Railway Station (designation KRH1) in the Wellington District Plan: 1. Nothing in this designation authorises the demolition or partial demolition of the following parts of the Wellington Railway Station building heritage features : - the 3 streets facades including the Thorndon Quay addition; - the main concourse; - the roofline (excluding without air-conditioning units); and - the plaques at the office entrance. which are heritage features. Any such proposal shall require KiwiRail to either obtain any necessary resource consent or to seek the alteration of this designation by the removal of this condition. For the avoidance of doubt, this condition does not cover repairs or maintenance, or additions or alterations, or any other activity requiring an outline plan under section 176A.
KiwiRail Holdings Limited	408.160	Designations / KiwiRail Holdings Limited / KRH2	Support	Supports the KRH – KiwiRail Holdings Limited designations text which accurately specify 'railway purposes' as the designation purpose and 'primary' for the designation hierarchy for both KRH-1 and KRH-2.	Retain KRH2 (Radio Station – Te Kopahao, Hawkins Hill) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.79	Designations / Minister of Corrections / MCOR1	Support	These designations have been rolled over from the Operative District Plan, and are an appropriate planning mechanism for managing these custodial corrections facilities. Noting however that Wellington Prison is no longer operational and designation MCOR1 will be uplifted at the time that the property ownership transfer has been confirmed.	Retain designation MCOR1 (Wellington Prison - Mt Crawford) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.80	Designations / Minister of Corrections / MCOR2	Support	These designations have been rolled over from the Operative District Plan, and are an appropriate planning mechanism for managing these custodial corrections facilities. Noting however that Wellington Prison is no longer operational and designation MCOR1 will be uplifted at the time that the property ownership transfer has been confirmed.	Retain designation MCOR2 (Arohata Prison - Tawa) as notified.

Taranaki Whānui ki te Upoko o te Ika	389.132	Designations / Minister for Courts / MCOU Conditions 2	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the within conditions under 'Cultural' are amended to include "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City."
Te Rūnanga o Toa Rangatira	FS138.69	Part 3 / Designations / Minister for Courts / MCOU Conditions 2	Oppose	The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.133	Designations / Minister for Courts / MCOU Conditions 2	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that references to Wellington Tenth Trust are removed.
New Zealand Defence Force	423.43	Designations / Minister of Defence / MDEF1	Support	Considers that the details provided under Designation Reference MDEF1 are accurate and this designation has been subject to the usual requiring authority roll over process.	Retain MDEF1 (Point Jeringham Saluting Battery Site) as notified.
New Zealand Defence Force	423.44	Designations / Minister of Defence / MDEF2	Support	Considers that the details provided under Designation Reference MDEF2 are accurate and this designation has been subject to the usual requiring authority roll over process.	Retain MDEF2 (HMNZS Olphet Defence Establishment) as notified.
Ministry of Education	400.160	Designations / Minister of Education / General MEDU	Not specified	Submitter considers that the designation boundaries and details within the Schedule of Designations and designation details within the submitter's confirmation of designations (dated 15 June 2022) for the submitter's 73 sites within the Wellington District currently designated by the Minister of Education for education purposes, have generally been adopted into the Plan.	Not specified.
Ministry of Education	400.161	Designations / Minister of Education / MEDU Conditions 1	Amend	Seeks that the advice note of 'Education Purposes' under Conditions 1: Minister of Education Conditions be updated to the most recent version that has been used in more recent Designations across the country [see original submission for full reason].	"Educational Purposes" for the purposes of [this/these] designation[s] shall, in the absence of specific conditions to the contrary: ... iii. Enable the provision of community education (e.g.: night classes for adults) outside school hours in school facilities, <u>and which will not be restricted to the primary syllabus taught to school age children during school hours.</u>
Waka Kotahi	370.452	Designations / Waka Kotahi New Zealand Transport Agency / General NZTA	Support	Supports the Waka Kotahi Designation and conditions as drafted.	Retain NZTA - Waka Kotahi New Zealand Transport Agency Designation as notified.
Transpower New Zealand Limited	315.189	Designations / Transpower New Zealand Limited / TPR1	Support	Supports the rollover of the Central Park Substation designation. Considers the substation is a key National Grid asset and requires protection by designation.	Retain designation TPR1 (Central Park Substation) as notified.
Transpower New Zealand Limited	315.190	Designations / Transpower New Zealand Limited / TPR2	Support	Supports the rollover of the Wilton Substation designation. Considers the substation is a key National Grid asset and requires protection by designation.	Retain designation TPR2 (Wilton Substation) as notified.
Transpower New Zealand Limited	315.191	Designations / Transpower New Zealand Limited / TPR3	Support	Supports the rollover of the Takapu Road Substation designation. Considers the substation is a key National Grid asset and requires protection by designation.	Retain designation TPR3 (Takapu Road Substation) as notified.
Transpower New Zealand Limited	315.192	Designations / Transpower New Zealand Limited / TPR4	Support	Supports the rollover of the Oteranga Bay Terminal Station designation. Considers the substation is a key National Grid asset and requires protection by designation.	Retain designation TPR4 (Oteranga Bay Terminal Station) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Transpower New Zealand Limited	315.193	Designations / Transpower New Zealand Limited / TPR5	Support	Supports the rollover of the Te Hikowhenua Shore Electrode Station designation. Considers the substation is a key National Grid asset and requires protection by designation.	Retain designation TPR5 (Te Hikowhenua Shore Electrode Station) as notified.
Transpower New Zealand Limited	315.194	Designations / Transpower New Zealand Limited / TPR6	Support	Supports the rollover of the Kaiwharawhara Supply Point Substation designation. Considers the substation is a key National Grid asset and requires protection by designation.	Retain designation TPR6 (Kaiwharawhara Supply Point Substation) as notified.
Friends of Owhiro Stream (FOOS)	403.1	Designations / Wellington City Council / WCC8	Amend	<p>Considers the ecological importance of the Upper Carey's Gully above the existing landfill operation to the health and restoration of the Owhiro stream network.</p> <p>The Upper Carey's Gully is also an important ecological corridor between Zealandia to the north and significant areas of ecological reserves to the south. This upper gully is recognised as a significant ecological area (SNA) which is clearly incompatible with any future expansion of the landfill up the valley. [Refer to original submission for full reason]</p> <p>The protection of this unique upper valley ecosystem, above the existing landfill, is consistent with the WCC commitment to reducing carbon emissions and protecting the natural environment of Wellington City.</p>	Seeks that the extent of the WCC8 Designation be amended to the operational footprint of the landfill, including: Stages 1, 2 and 3; The proposed Southern Landfill extension - Piggy back option (SLEPO); Associated working areas and Areas required for remediation of legacy issues relating to stages 1, 2 and 3. of the landfill.
Paul Blaschke	FS129.1	Part 3 / Designations / Wellington City Council / WCC8	Support	Upper Carey's Gully has some of the best (if not the best) quality freshwater habitats in Wellington City and their destruction for the originally proposed Southern Landfill one of the worst environmental losses for the city that could be imagined. Although the new landfill proposals are much less destructive, rezoning of the upper gully as suggested by FOOS would make loss of any more habitat than now proposed less likely and also help ensure commitment to reducing carbon emissions and waste generation, as suggested by FOOS.	Allow
Owhiro Bay Residents Association	477.2	Designations / Wellington City Council / WCC8	Amend	<p>Considers that the Carey's Gully Landfill Designation (WCC- 61) as Refuse Disposal and other works should be reduced to the footprint required for the current landfill plus 'Piggyback' extension and associated facilities.</p> <p>Considers there are enviromental values as indicated on the plan and possible in the future that indicate a reduction in size of the designation is needed.</p> <p>Considers reducing the extent of the designation would align with committments by Council.</p> <p>[see original submission for full reasons]</p>	Amend extent of designation to be reduced for WCC8 (Careys Gully Landfill) to the area only of the current landfills and planned SLEPO works.
Wellington City Council	266.165	Designations / Wellington City Council / WCC9	Amend	WCC Designations – WCC9 Christeson Lane Service Lane is to be amended because the service lane beyond the formed part of Christeson Lane was not implemented under the Operative District Plan designation, and there are no plans in the foreseeable future to actively pursue the implementation of the service lane.	Amend site identifier of WCC9 Christeson Lane Service Lane to reflect updated mapped extent.
Wellington City Council	266.166	Designations / Wellington City Council / WCC10	Amend	Considers the designation over this land should be removed as WCC have no plans to either acquire 11 Manners Street nor to use it for a service lane.	Amend Site Identifier in WCC10 (Bond Street Service Lane) as follows: Part Lot 10 DP 1886; Part Lot 22 DP 1886; Lot 4 DP 63430
Wellington City Council	266.167	Designations / Wellington City Council / WCC12	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Amend designation WCC12 (Green Street and Wilson Service Lane) as follows: Green Street and Wilson Street Service Lane
Bruce Crothers	319.17	Designations / Wellington International Airport Limited / General WIAL	Amend	Considers that there should be stronger noise restrictions for aircraft and stricter limits on the number of flights unless they are electrically powered and much quieter.	Seeks stronger noise restrictions for aircrafts, including limits on the number of flights allowed.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Limited	FS36.239	Part 3 / Designations / Wellington International Airport Limited / General WIAL	Oppose	The Main Site and East Side Area Designations are not subject to amendment as part of the Proposed Plan review. This submission should therefore be struck out.	Disallow
Bruce Crothers	319.18	Designations / Wellington International Airport Limited / General WIAL	Amend	Seeks a reduction in the hours that aircrafts can fly into and out of Wellington in order to reduce carbon footprint.	Seeks restrictions in aircraft flight hours.
Wellington International Airport Limited	FS36.240	Part 3 / Designations / Wellington International Airport Limited / General WIAL	Oppose	The Main Site and East Side Area Designations are not subject to amendment as part of the Proposed Plan review. This submission should therefore be struck out.	Disallow
Yvonne Weeber	340.134	Designations / Wellington International Airport Limited / General WIAL	Amend	Considers that the WIAL chapter should be amended to have the Designations' unique identifier at the beginning of each new designation, as this would greatly improve readability and navigation of the PDP.	Amend the 'Wellington International Airport Limited' Designations chapter to have each designation's unique identifier at the beginning of each designation.
Wellington International Airport Ltd	406.546	Designations / Wellington International Airport Limited / General WIAL	Amend	[No specific reason given beyond decision requested - see original submission]	Seeks that duplications of provisions regarding aircraft noise management requirements set out in the main site and east side area designations are deleted.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.161	Designations / Wellington International Airport Limited / General WIAL	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.547	Designations / Wellington International Airport Limited / General WIAL	Amend	Considers that the PDP provisions for the Airport Zone replicate the Designation provisions. This is considered inefficient and ineffective.	Amend the provisions of the Airport Chapter to not duplicate those of the Airport Designation. [Inferred decision requested].
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.162	Designations / Wellington International Airport Limited / General WIAL	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council	266.168	Designations / Wellington International Airport Limited / WIAL1	Amend	Considers this condition currently prohibits development over 8 m, which is inconsistent with the MDRS height of 11 m. The height limit should be increased to 11 m. Considers the use of the word prohibited should be removed – given the RMA meaning of this.	Amend Condition 1 of the WIAL-1 Designation as follows: 1. Take-off and Approach Surfaces a. Specifications (...) b. Conditions i. With the exception of the properties identified in Figure 1 below, new objects or extensions of objects that penetrate the Take-off and Approach Surfaces and shall not exceed a height of 11m 8m above existing ground level, shall be prohibited except where the new object or extension is shielded by an existing immovable object, or the penetration is a temporary short term penetration (e.g. construction machinery or equipment) and that penetration has been approved by Wellington International Airport Limited. ii. With respect to the properties shown in Figure 1 below, new objects or extensions of objects that penetrate the take-off and approach surfaces and exceed the height limits specified in Figure 1 shall be prohibited, shall not exceed 11m , except where the new object or extension is shielded by an existing immovable object or the penetration is a temporary short term penetration (e.g. construction machinery or equipment) of these surfaces and that penetration has been approved by Wellington International Airport Limited.
Guardians of the Bays Inc	FS44.177	Part 3 / Designations / Wellington International Airport Limited / WIAL1	Support	Considers that providing a maximum height of 11 m brings it in line with the MDRS.	Allow
Kāinga Ora – Homes and Communities	FS89.108	Part 3 / Designations / Wellington International Airport Limited / WIAL1	Support	Kāinga Ora supports the amendments as the changes will enable greater opportunities for residential intensification.	Allow
Yvonne Weeber	340.135	Designations / Wellington International Airport Limited / WIAL1	Amend	Considers that Figure 1 - The grey area of the plan needs to refer to a height area as there are "no higher than existing roof line". All the houses have been removed from the east side of Bridge Street next to the airport.	Amend Figure 1 - 'Designation WIAL1 Properties affected by specific height restrictions' in WIAL1 (Wellington Airport Obstacle Limitation Surfaces) to have a height indicated for the grey area (east side of bridge street next to the airport runway).
Kāinga Ora Homes and Communities	391.763	Designations / Wellington International Airport Limited / WIAL1	Support in part	Seeks amendments to conditions 1 of Designation WIAL 1 in order to provide greater clarity and information to assist with calculating OLS and associated maximum building heights. Considers the lack of clarity and certainty around height restrictions within Designation WIAL 1 place unnecessary cost and uncertainty on landowners and may inhibit full development potential on a site.	Seeks to include additional diagrams and detail in condition 1 of Designation WIAL 1 to provide more detail and clarity on height restrictions.
Kāinga Ora Homes and Communities	391.764	Designations / Wellington International Airport Limited / WIAL1	Amend	Seeks amendments to conditions 1 of Designation WIAL 1 in order to provide greater clarity and information to assist with calculating OLS and associated maximum building heights. Considers the lack of clarity and certainty around height restrictions within Designation WIAL 1 place unnecessary cost and uncertainty on landowners and may inhibit full development potential on a site.	Seeks to include additional diagrams and detail in condition 1 of Designation WIAL 1 to provide more detail and clarity on height restrictions.
Guardians of the Bays	452.94	Designations / Wellington International Airport Limited / WIAL1	Amend	Considers Figure 1 – The grey area of the plan needs to refer to a height as the houses that were there have been removed and the standard “no higher than existing roof line’ no longer makes sense.	Seeks that Figure 1 of the Wellington International Airport Designation is amended to specify a height for the grey area (east side of bridge street next to the airport runway).
Yvonne Weeber	340.136	Designations / Wellington International Airport Limited / WIAL2	Not specified	[No specific reason given - refer to original submission].	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Guardians of the Bays	452.95	Designations / Wellington International Airport Limited / WIAL2	Not specified	Submitter is 'neutral' on WIAL2. Please refer to the original submission.	Not specified.
Yvonne Weeber	340.137	Designations / Wellington International Airport Limited / WIAL3	Not specified	[No specific reason given - refer to original submission].	Not specified.
Guardians of the Bays	452.96	Designations / Wellington International Airport Limited / WIAL3	Not specified	Submitter is 'neutral' on WIAL3. Please refer to the original submission.	Not specified.
Yvonne Weeber	340.138	Designations / Wellington International Airport Limited / WIAL4	Support	The designation of the Main Site Area (WIAL4) is supported.	Retain WIAL4 (Wellington Airport Main Site Area) as notified.
Guardians of the Bays	452.97	Designations / Wellington International Airport Limited / WIAL4	Support	Supports WIAL4 (Wellington Airport Main Site Area).	Retain WIAL4 (Wellington Airport Main Site Area) as notified.
Yvonne Weeber	340.139	Designations / Wellington International Airport Limited / WIAL5	Support	The designation of the East Site Area (WIAL5) is supported.	Retain WIAL5 (Wellington Airport East Side Area) as notified.
Guardians of the Bays	452.98	Designations / Wellington International Airport Limited / WIAL5	Support	Supports WIAL5 (Wellington Airport East Side Area).	Retain WIAL5 (Wellington Airport East Side Area) as notified.
Strathmore Park Residents Association Inc	371.9	Designations / Wellington International Airport Limited / WIAL Conditions 5	Oppose	Considers that the condition is inconsistent with the East Side Precinct direction overview which states that car parking is limited to temporary relocation only.	Opposes WIAL Conditions 5 (Airport Purposes Designation - East Side Area) and seeks amendment.
Strathmore Park Residents Association Inc	371.10	Designations / Wellington International Airport Limited / WIAL Conditions 5	Amend	Considers that the condition is inconsistent with the East Side Precinct direction overview which states that car parking is limited to temporary relocation only.	Amend WIAL Conditions 5 (Airport Purposes Designation - East Side Area) as follows: The designation shall cover the area shown in Attachment 1 ("the ESA Designation"). Subject to the conditions set out below, land within the ESA Designation may be used for activities for the operation of Wellington International Airport ("the Airport"), limited to the following: ... <ul style="list-style-type: none"> • Temporary Car parking, roads, accessways, pedestrian ways, stormwater and wastewater infrastructure, sustainable infrastructure, utility activities and security fencing; • All demolition (if required), construction and earthworks activities, including associated structures; • Landscaping, planting, tracks and trails; • Ancillary activities, buildings and structures related to the above; and • Servicing, testing and maintenance activities related to the above.
Wellington International Airport Limited	FS36.241	Part 3 / Designations / Wellington International Airport Limited / WIAL Conditions 5	Oppose	The Main Site and East Side Area Designations are not subject to amendment as part of the Proposed Plan review. This submission should therefore be struck out.	Disallow

Appendices

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Strathmore Park Residents Association Inc	371.11	Designations / Wellington International Airport Limited / WIAL Conditions 5	Support	Support clause 32 (Noise Compliance Monitoring). Considers that with the movement of the Noise "Compliance Line" further East than the original Air Noise Boundary across the Golf Course and the need to ensure tight Noise Compliance for nearby residents, that provision for an additional noise monitor in the defined area is justified.	Retain clause 32 of CONDITIONS 5 of the Wellington International Airport Limited designation as notified.
Strathmore Park Residents Association Inc	371.12	Designations / Wellington International Airport Limited / WIAL Conditions 5	Support	Supports clause 40 (Noise Mitigation Measures). Considers that noise experienced by nearby residents will commence from the beginning of construction work which is the largest earthworks, retaining and tarmac provision in the East since the original Airport construction in the 1950's. From the commencement of Code C aircraft operations were originally set down to trigger the Mitigation Measures but the current wording now includes mitigation measures prior to the commencement of construction work which we support.	Retain clause 40 of CONDITIONS 5 of the Wellington International Airport Limited designation as notified.
Strathmore Park Residents Association Inc	371.13	Designations / Wellington International Airport Limited / WIAL Conditions 5	Support	Support clause 47 (Lapse). Note that the ESA lapse period was earlier requested to be 15 years. In view of the uncertainty of the impact of COVID-19, Climate Change, public reaction to long haul wide bodied jet travel, move toward quieter and/or electric engine aircraft development and the impact of earthworks & construction on WIAL's Carbonisation objectives (ref. Clause 48) we support the shorter lapse period of 10 years which will also be in line with the statutory District Plan review period.	Retain clause 47 of CONDITIONS 5 of the Wellington International Airport Limited designation as notified.
Greater Wellington Regional Council	351.323	Designations / Greater Wellington Regional Council / General WRC	Support	Support the retention of the designations.	Retain the WRC (Greater Wellington Regional Council) Designation chapter as notified.
Rod Halliday	25.46	Designations / Greater Wellington Regional Council / WRC2	Support	Supports the purpose of the WRC2 designation (Seton Nossiter flood detention area) as a flood detention area.	Retain WRC2.
Rod Halliday	25.47	Designations / Greater Wellington Regional Council / WRC2	Amend	Considers that the WRC2 designation (Seton Nossiter flood detention area) is designed to hold a 1 in 100 year event as per the on-site information boards. [Refer to original submission for on-site information board attachment].	Seeks that the WRC2 designation (Seton Nossiter flood detention area) is updated with wording to reflect the designation is designed to hold a 1 in 100 year event as per the on-site information boards.
Greater Wellington Regional Council	351.324	Designations / Greater Wellington Regional Council / WRC2	Support in part	The submitter notes that the development and residential intensification proposed upstream and downstream of Seton Nossiter Dam will affect its level of service. While we acknowledge the hydraulic neutrality provisions in the Three Waters chapter, any new development will still affect the dam.	Retain Designation WRC2 (Seton Nossiter flood detention area) as notified.
Rod Halliday	25.48	Designations / Greater Wellington Regional Council / WRC6	Amend	Considers that the designation is incorrectly mapped in the operative District Plan and the PDP carries this error over.	Seeks that the WRC6 designation (Stebbing's Valley Flood Detention Dam) is re-modelled and re-mapped based on the easement or correct 92m contour, and that this takes into account the changes to ground levels as a result of approved earthworks.
Greater Wellington Regional Council	351.325	Designations / Greater Wellington Regional Council / WRC6	Support in part	The submitter notes that the development and residential intensification proposed upstream and downstream of Stebbings Valley Dam will affect its level of service. While we acknowledge the hydraulic neutrality provisions in the Three Waters chapter, any new development will still affect the dam and associated infrastructure.	Retain Designation WRC6 (Stebbing's Valley Flood Detention Dam) as notified.
Heritage New Zealand Pouhere Taonga	70.36	Appendices Subpart / Appendices / APP1 Historic Heritage Advice Notes	Support in part	Supports APP1 Historic Heritage Advice Notes and considers these advice notes are a useful source of advice and further information for various aspects of heritage.	Retain APP1 Historic Heritage Advice Notes with amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Heritage New Zealand Pouhere Taonga	70.37	Appendices Subpart / Appendices / APP1 Historic Heritage Advice Notes	Amend	Considers that it is common practice (and is a requirement for archaeological authorities under the Heritage New Zealand Pouhere Taonga Act) that tangata whenua are notified in the event of any discovery which may be of Māori origin.	Amend the end of the Heritage New Zealand Pouhere Taonga and Accidental Discovery section in APP1 Historic Heritage Advice Notes to include the following: ... The Police will also need to be notified if any koiwi/human remains are revealed and if any artifacts/taonga tūturu are found the Ministry for Culture and Heritage must be notified. <u>Where the discovery is of Māori origin the relevant iwi representatives will need to be notified.</u>
Te Rūnanga o Toa Rangatira	FS138.12	Part 4 / Appendices Subpart / Appendices / APP1 Historic Heritage Advice Notes	Support	The submitter seeks for APP1 Historic Heritage Advice Notes to include the following: Where the discovery is of Māori origin the relevant iwi representatives will need to be notified. Te Rūnanga o Toa Rangatira support this submission because relevant iwi representatives should be notified when discoveries are of Māori origin. It is important for discovery processes are to be outlined in the plan and for awareness to be spread about the issue.	Allow
Wellington City Council	266.169	Appendices Subpart / Appendices / APP1 Historic Heritage Advice Notes	Amend	Considers in the 'ICOMOS NZ Charter and other policy documents and guidelines' section of APP1 (Historic Heritage Advice Notes), the final sentence is long and confusing and required clarification.	Amend APP1 (Historic Heritage Advice Notes) as follows: ICOMOS NZ Charter and other policy documents and guidelines (...) These documents provide important references in identifying and protecting heritage, and in the resource consent process including for the assessment of environmental effects. <u>These documents provide important references in identifying and protecting heritage. They also contribute to the assessment of environmental effects within resource consent processes.</u>
Wellington City Council	266.170	Appendices Subpart / Appendices / APP1 Historic Heritage Advice Notes	Amend	Considers in the 'Conservation plans' section of APP1, a conservation plan is incorrectly defined as a method, which is inconsistent with its true meaning. The definition should be rephrased to match the definition in the "ICOMOS New Zealand Charter for the Conservation of Places of Cultural Heritage Value".	Append APP1 (Historic and Heritage Advice Notes) as follows: (...) Conservation Plans A conservation plan is a method of managing the cultural significance of a place of cultural heritage value. <u>A Conservation Plan is an objective report which documents the history, fabric, and cultural heritage value of a place, assesses its cultural heritage significance, describes the condition of the place, outlines conservation policies for managing the place, and makes recommendations for the conservation of the place.</u>
Heritage New Zealand Pouhere Taonga	FS9.50	Part 4 / Appendices Subpart / Appendices / APP1 Historic Heritage Advice Notes	Support	Revised description of the purpose of a conservation plan is preferable to the wording as notified.	Allow
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.35	Appendices Subpart / Appendices / APP1 Historic Heritage Advice Notes	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 1 Historic Heritage Advice Notes as notified.
Wellington Heritage Professionals	412.82	Appendices Subpart / Appendices / APP1 Historic Heritage Advice Notes	Support	Support the mention of the ICOMOS Charter and HNZPT Sustainable Management series here.	Retain reference to ICOMOS Charter in APP1 as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	228.115	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Support in part	<p>Considers the Plan includes the defined term 'biodiversity offsetting' so the Appendix should use consistent language. Considers the reference to Policy ECO-P2 (Appropriate vegetation removal in significant natural areas) may be incorrect and the management hierarchy is actually set out in Policy ECO-P1 (Protection of significant natural areas).</p> <p>Considers that the policy framework and APP2 (Biodiversity offsetting) (should apply biodiversity offsetting to residual adverse effects that are more than minor. Some amendments are appropriate to align APP2 to the approach adopted in the Proposed Natural Resources Plan.</p>	Retain APP2 - Biodiversity Offsetting with amendment.
Transpower New Zealand Limited	FS29.13	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Oppose	Transpower support the proposed framework of principles for the use of biodiversity offsets, which is in line with the guidance document "Biodiversity Offsetting under the Resource Management Act"	Allow
Meridian Energy Limited	228.116	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Amend	<p>Considers the Plan includes the defined term 'biodiversity offsetting' so the Appendix should use consistent language. Considers the reference to Policy ECO-P2 (Appropriate vegetation removal in significant natural areas) may be incorrect and the management hierarchy is actually set out in Policy ECO-P1 (Protection of significant natural areas). The policy framework and APP2 (Biodiversity offsetting) (should apply biodiversity offsetting to residual adverse effects that are more than minor. Some amendments are appropriate to align APP2 to the approach adopted in the Proposed Natural Resources Plan.</p>	<p>Amend APP2 - Biodiversity Offsetting, in the following (or similar) way:</p> <p>The following sets out a framework of principles for the use of biodiversity <u>offsetting</u> offsets. Principles must be complied with for an action to qualify as a biodiversity offset. These principles will be used when assessing the adequacy of proposals for the design and implementation of offsetting as part of resource consent applications.</p> <ol style="list-style-type: none"> Adherence to the effects management hierarchy: The proposed biodiversity offset will be assessed in accordance with the management hierarchy set out in ECO-P1, ECO-P2. It should only be contemplated after the management hierarchy steps in ECO-P1, ECO-P2 have been demonstrated to have been sequentially exhausted. Any proposal for a biodiversity offset will demonstrate how it addresses the <u>more than minor</u> residual adverse effects of the activity. Limits to offsetting: Many biodiversity values cannot be offset and if they are adversely affected then they will be permanently lost. These situations include where: <ol style="list-style-type: none"> Residual adverse effects cannot be offset because of the irreplaceability or vulnerability of the indigenous biodiversity affected or there is no appropriate offset site; There are no technically feasible or socially acceptable options or <u>no appropriate site, knowledge, proven methods, expertise or mechanism available to design and implement an adequate biodiversity offset options</u> by which to secure gains within acceptable timeframes; and Effects on indigenous biodiversity are uncertain, unknown or little understood, but potential effects are significantly adverse. ...
Meridian Energy Limited	228.117	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Amend	Considers clarification of the expression 'trading up' is required.	Clarify the expression 'trading up' in APP2 - Biodiversity Offsetting.
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.36	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 2 Biodiversity Offsetting as notified.
Royal Forest and Bird Protection Society	345.397	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Support in part	<p>Supports the provisions of APP2, except as set out below.</p> <p>Support the mandatory requirement that any offset proposal must comply with the principles in APP2</p>	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.398	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Support in part	Limits to offsetting: we generally support this principle. This is a crucial principle, given the risks and uncertainties associated with offsetting. As such, it is very important that this principle is as clear as possible. The wording must avoid any argument that offsetting is available, even where there is irreplaceable or vulnerable biodiversity affected.	Amend APP2 (Biodiversity offsetting): 2. Limits to offsetting: biodiversity offsetting is not available, and the activity causing the residual adverse effects must be avoided where: Many biodiversity values cannot be offset and if they are adversely affected then they will be permanently lost. These situations include where: a. The biodiversity affected by the residual adverse effects is irreplaceable or vulnerable; b. Residual adverse effects cannot be offset because of the irreplaceability or vulnerability of the indigenous biodiversity affected or there is no appropriate offset site; c. There are no technically feasible or socially acceptable options by which to secure gains within acceptable timeframes; and d. Effects on indigenous biodiversity are uncertain, unknown or little understood, but potential effects are significantly adverse.
Meridian Energy Limited	FS101.169	Part 4 / Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Oppose	Meridian considers the wording amendments proposed by its submission point 228.116, refined where necessary to give effect to the NPS-Indigenous Biodiversity (when that is gazetted), more appropriately give effect to the RMA and higher order policy instruments.	Disallow
Royal Forest and Bird Protection Society	345.399	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Support in part	Long-term outcomes: we query the last clause of this principle: 'including through the use of adaptive management where necessary'. This is an unusual addition to this principle, and in our view it may increase the uncertainty inherent in offsetting, that an overall ecologically positive outcome will be achieved. As such, we oppose the inclusion of these words.	Amend APP2 (Biodiversity offsetting): 7. Long-term outcomes: The biodiversity offset must be managed to secure outcomes of the activity that last at least as long as the impacts, and preferably in perpetuity, including through the use of adaptive management where necessary.
Meridian Energy Limited	FS101.170	Part 4 / Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Oppose	Meridian considers the wording amendments proposed by its submission point 228.116, refined where necessary to give effect to the NPS-Indigenous Biodiversity (when that is gazetted), more appropriately give effect to the RMA and higher order policy instruments.	Disallow
Royal Forest and Bird Protection Society	345.400	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Support in part	Supports in principle, but a requirement to "minimise" delay between loss and gains is unclear and inadequate to ensure good indigenous biodiversity outcomes. There will be a plethora of views about when time lags have been "minimised" or minimised enough. Ecologically, the longer the time lag between the loss and gains the less likely the outcome will be positive to achieve a net gain. In addition, delay increases risk that the offset will not be provided at all. Ideally an offset would be initiated before the loss occurs so that it gets a 'head start'. Sometimes, however, this may not be feasible, for example if the offset site would be impacted by the activity it is offsetting. The Otago Regional Policy Statement provides one way of overcoming these issues but avoiding the uncertainty of a principle requiring minimisation. It requires that the offset be time delay is the least necessary to deliver the best possible biodiversity outcome, or at most the term of the resource consent. This approach has merit but misses that some resource consents will not have a specific term. As such, a final backstop is required.	Amend APP2 (Biodiversity offsetting): 8. Time lags: The delay between loss of indigenous biodiversity at the impact site and gain or maturity of indigenous biodiversity at the offset site must be minimised <u>the shortest necessary to achieve the best possible biodiversity outcome and must not exceed the consent period or 35 years, whichever is shorter</u> so that gains are achieved within the consent period and <u>Any time lag must be identified within the biodiversity offset management plan.</u>
Meridian Energy Limited	FS101.171	Part 4 / Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Oppose	Meridian considers the wording amendments proposed by its submission point 228.116, refined where necessary to give effect to the NPS-Indigenous Biodiversity (when that is gazetted), more appropriately give effect to the RMA and higher order policy instruments.	Disallow
Royal Forest and Bird Protection Society	345.401	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Support in part	Considers trading up is not appropriate to include in offsetting principles. It is contrary to the requirement that the offset is like for like. It is not an accepted offsetting principle, although may be appropriate for compensation. We seek that this principle is deleted from APP2.	Amend APP2 (Biodiversity offsetting): 9. Trading up: When trading up forms part of an offset, the proposal must demonstrate that the indigenous biodiversity values gained are demonstrably of higher value than those lost, and the values lost are not indigenous taxa that are listed as Threatened, At risk or Data deficient in the New Zealand Threat Classification System lists, or considered vulnerable or irreplaceable.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	FS101.172	Part 4 / Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Oppose	Meridian considers the wording amendments proposed by its submission point 228.116, refined where necessary to give effect to the NPS-Indigenous Biodiversity (when that is gazetted), more appropriately give effect to the RMA and higher order policy instruments.	Disallow
Royal Forest and Bird Protection Society	345.402	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Support in part	Considers this principle needs minor amendments to be clear and effective.	Amend APP2 (Biodiversity offsetting): 11. Proposing a biodiversity offset: A proposed biodiversity offset must include a specific biodiversity offset management plan, that: a. Sets out baseline information on the indigenous biodiversity that is potentially impacted by the proposed activity at both the donor and recipient sites, and b. Demonstrates how the requirements set out in this schedule <u>are met, and how they will be carried out, and</u> c. Identifies the monitoring approach that will be used to demonstrate how the principles set out in this schedule will be fulfilled over an appropriate timeframe <u>in accordance with the principles set out above.</u>
Meridian Energy Limited	FS101.173	Part 4 / Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Oppose	Meridian considers the wording amendments proposed by its submission point 228.116, refined where necessary to give effect to the NPS-Indigenous Biodiversity (when that is gazetted), more appropriately give effect to the RMA and higher order policy instruments.	Disallow
Greater Wellington Regional Council	351.326	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Support in part	Supports the inclusion of APP2 – Biodiversity Offsetting	Retain provision, subject to amendments, as outlined other submission points.
Greater Wellington Regional Council	351.327	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Amend	Consider it should state the long-term outcome must be at least a 10 percent biodiversity gain or benefit to have regard to Policy 24 in Proposed RPS Change 1.	Seeks to amend to require that that biodiversity offsets shall provide at least a 10 percent net biodiversity gain.
Meridian Energy Limited	FS101.174	Part 4 / Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Oppose	Meridian opposes the requested requirement for a +10% net biodiversity gain.	Disallow
Greater Wellington Regional Council	351.328	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Amend	Consider it should state the long-term outcome must be at least a 10 percent biodiversity gain or benefit to have regard to Policy 24 in Proposed RPS Change 1.	Seeks the appendix should set out the limitations where biodiversity offsetting is not appropriate.
Meridian Energy Limited	FS101.175	Part 4 / Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Oppose	Meridian opposes the requested requirement for a +10% net biodiversity gain. The submission does not detail the wording proposed for setting out the limitations on biodiversity offsetting.	Disallow
WCC Environmental Reference Group	377.515	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Support	Considers biodiversity offsetting to be a less-than-ideal solution, the reality is that it will be necessary at times, and these principles ensure that environmental damage will be minimised.	Retain APP2 (Biodiversity Offsetting) as notified.
Paul Blaschke	FS129.11	Part 4 / Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Support	Support submission points made by a significant number of individuals and groups that essentially support the same proposition "Reinstate the overlay of all properly delineated SNAs or part SNAs on all relevant residential zoned properties".	Allow
Director-General of Conservation	385.84	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Support	Supports the proposed framework of principles for the use of biodiversity offsets, which is in line with the guidance document "Biodiversity Offsetting under the Resource Management Act".	Retain APP2 Biodiversity Offsetting as notified.
Taranaki Whānui ki te Upoko o te Ika	389.134	Appendices Subpart / Appendices / APP2 Biodiversity Offsetting	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that there is awareness of the impending National Policy Statement for Indigenous Biodiversity. [Inferred decision requested]
Meridian Energy Limited	228.118	Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Amend	Considers clarification of the expression 'trading up' is required.	Clarify the expression 'trading up' in APP3 - Biodiversity Compensation.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	228.119	Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Support in part	The reference to Policy ECO-P2 may be incorrect and the management hierarchy is actually set out in Policy ECO-P1. The policy framework and APP3 should allow consideration of biodiversity compensation where necessary to address residual adverse effects that are more than minor. Some amendments are appropriate to align APP3 to the approach adopted in the Proposed Natural Resources Plan.	Retain APP3-Biodiversity Compensation with amendment.
Meridian Energy Limited	228.120	Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Amend	The reference to Policy ECO-P2 may be incorrect and the management hierarchy is actually set out in Policy ECO-P1. The policy framework and APP3 should allow consideration of biodiversity compensation where necessary to address residual adverse effects that are more than minor. Some amendments are appropriate to align APP3 to the approach adopted in the Proposed Natural Resources Plan.	Amend APP3-Biodiversity Compensation as follows (or similar): The following sets out a framework of principles for the use of biodiversity compensation. Principles must be complied with for an action to qualify as biodiversity compensation. 1. Adherence to effects management hierarchy: Biodiversity compensation is a commitment to redress residual adverse effects <u>that are more than minor</u> . It must only be contemplated after the management hierarchy steps in <u>ECO-P1</u> ECO-P2 have been demonstrated to have been sequentially exhausted and thus applies only to residual adverse effects on indigenous biodiversity <u>that are more than minor</u> . 2. Limits to biodiversity compensation: In deciding whether biodiversity compensation is appropriate, a decision-maker must consider the principle that many indigenous biodiversity values are not able to be compensated for because: a. The indigenous biodiversity affected is irreplaceable or vulnerable; b. There are no technically feasible or socially acceptable options or no <u>appropriate site, knowledge, proven methods, expertise or mechanism available to design and implement an adequate biodiversity offset options</u> by which to secure gains within acceptable timeframes; and ...
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.37	Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 3 Biodiversity Compensation as notified.
Royal Forest and Bird Protection Society	345.403	Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Support in part	Opposes the use of compensation as a management approach for indigenous biodiversity. As such, we seek the deletion of this Appendix, and the provisions elsewhere in the Plan providing for compensation.	Delete APP3 (Biodiversity compensation).
Transpower New Zealand Limited	FS29.38	Part 4 / Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Oppose	Transpower supports the recognition of compensation and the provision of schedule APP3.	Disallow
Meridian Energy Limited	FS101.176	Part 4 / Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Oppose	Considers that biodiversity compensation is a valid response, endorsed by the exposure draft NPS-Indigenous Biodiversity and numerous Environment Court decisions. Meridian considers the wording amendments proposed by its submission point 228.120, refined where necessary to give effect to the NPS-Indigenous Biodiversity (when that is gazetted), more appropriately give effect to the RMA and higher order policy instruments.	Disallow / Disallow the requested deletion of APP3. Disallow the requested amendments to APP3.
Royal Forest and Bird Protection Society	345.404	Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Support in part	However, if compensation is to be retained, we support the mandatory application of principles to its use, and support this appendix, with the exception of the below comments. Pōtai: query why the pōtai is different from the offset appendix.	Amend APP3 (Biodiversity compensation): Pōtai:... <u>These principles will be used when assessing the adequacy of proposals for the design and implementation of offsetting as part of resource consent applications.</u>
Meridian Energy Limited	FS101.177	Part 4 / Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Oppose	Considers that biodiversity compensation is a valid response, endorsed by the exposure draft NPS-Indigenous Biodiversity and numerous Environment Court decisions. Meridian considers the wording amendments proposed by its submission point 228.120, refined where necessary to give effect to the NPS-Indigenous Biodiversity (when that is gazetted), more appropriately give effect to the RMA and higher order policy instruments.	Disallow / Disallow the requested deletion of APP3. Disallow the requested amendments to APP3.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.405	Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Support in part	<p>However, if compensation is to be retained, we support the mandatory application of principles to its use, and support this appendix, with the exception of the below comments.</p> <p>Limits to biodiversity compensation: again, this is a crucial principle, and must be absolutely clear. The drafting of this principle includes a confusing standard of appropriateness, as well as a direction to 'consider the principle'. The 'limits to offsetting' principle is intended to operate as a simple limit, if certain features are present. Incorporating a test of appropriateness defeats the purpose of the principle, which is to set out situations where compensation simply won't be available. It is also not something to simply be 'considered', it is a test that must be met is compensation is allowed. The reason this principle exists is to safeguard against some of the worst outcomes that can be associated with compensation –because compensation is an uncertain management approach, the limits to compensation principle puts a line in the sand, and says that some things are too precious to apply this approach to. It 'bites' as a prior step, before compensation can even be considered. The amended wording below avoids an argument that a value can still be offset, despite its irreplaceable or vulnerable status. In our experience, this is an argument that consent applicants will use when the wording of the 'limits to offsetting' principle is drafted along the lines of the current wording. As such, we seek the following amendments:</p>	<p>Amend APP3 (Biodiversity compensation):</p> <p>2. Limits to biodiversity compensation: In deciding whether biodiversity compensation is appropriate, a decision maker must consider the principle that many indigenous biodiversity values are not able to be compensated for because biodiversity compensation is not available, and the activity causing the residual adverse effects must be avoided where:</p>
Meridian Energy Limited	FS101.178	Part 4 / Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Oppose	<p>Considers that biodiversity compensation is a valid response, endorsed by the exposure draft NPS-Indigenous Biodiversity and numerous Environment Court decisions. Meridian considers the wording amendments proposed by its submission point 228.120, refined where necessary to give effect to the NPS-Indigenous Biodiversity (when that is gazetted), more appropriately give effect to the RMA and higher order policy instruments.</p>	<p>Disallow / Disallow the requested deletion of APP3.</p> <p>Disallow the requested amendments to APP3.</p>
Royal Forest and Bird Protection Society	345.406	Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Support in part	<p>However, if compensation is to be retained, we support the mandatory application of principles to its use, and support this appendix, with the exception of the below comments.</p> <p>Scale of biodiversity compensation: in general we support this principle, but it needs amendment to ensure it is consistent with Council's obligation to maintain indigenous biodiversity. That obligation requires no net loss of biodiversity, rather than the vague standard of 'proportionality'.</p>	<p>Amend APP3 (Biodiversity compensation):</p> <p>3. Scale of biodiversity compensation: The values to be lost through the activity to which the biodiversity compensation applies must be addressed by positive effects to indigenous biodiversity that are proportionate to the adverse effects on indigenous biodiversity. <u>There must be at least no net loss of indigenous biodiversity values as between the values lost through the activity and the values gained through the biodiversity compensation.</u></p>
Meridian Energy Limited	FS101.179	Part 4 / Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Oppose	<p>Considers that biodiversity compensation is a valid response, endorsed by the exposure draft NPS-Indigenous Biodiversity and numerous Environment Court decisions. Meridian considers the wording amendments proposed by its submission point 228.120, refined where necessary to give effect to the NPS-Indigenous Biodiversity (when that is gazetted), more appropriately give effect to the RMA and higher order policy instruments.</p>	<p>Disallow / Disallow the requested deletion of APP3.</p> <p>Disallow the requested amendments to APP3.</p>
Royal Forest and Bird Protection Society	345.407	Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Support in part	<p>However, if compensation is to be retained, we support the mandatory application of principles to its use, and support this appendix, with the exception of the below comments.</p> <p>Time lags: we seek amendments for the reasons set out in relation to APP2 above. We seek the following amendment:</p>	<p>Amend APP3 (Biodiversity compensation):</p> <p>7. Time lags: The delay between loss of indigenous biodiversity at the impact site and gain or maturity of indigenous biodiversity at the compensation site must be minimised <u>the shortest necessary to achieve the best possible biodiversity outcome and must not exceed the consent period or 35 years whichever is shorter, so that gains are achieved within the consent period and Any time lag must be identified within the biodiversity offset management plan.</u></p>
Meridian Energy Limited	FS101.180	Part 4 / Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Oppose	<p>Considers that biodiversity compensation is a valid response, endorsed by the exposure draft NPS-Indigenous Biodiversity and numerous Environment Court decisions. Meridian considers the wording amendments proposed by its submission point 228.120, refined where necessary to give effect to the NPS-Indigenous Biodiversity (when that is gazetted), more appropriately give effect to the RMA and higher order policy instruments.</p>	<p>Disallow / Disallow the requested deletion of APP3.</p> <p>Disallow the requested amendments to APP3.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.408	Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Support in part	However, if compensation is to be retained, we support the mandatory application of principles to its use, and support this appendix, with the exception of the below comments. Proposing biodiversity compensation: we seek a new principle to replicate principle 11 of APP2.	Amend APP3 (Biodiversity compensation) to add new principle: <u>10. Proposing a biodiversity offset: A proposed biodiversity offset must include a specific biodiversity offset management plan, that:</u> <u>a. Sets out baseline information on the indigenous biodiversity that is potentially impacted by the proposed activity at both the donor and recipient sites, and</u> <u>b. Demonstrates how the requirements set out in this schedule will be carried out, and</u> <u>c. Identifies the monitoring approach that will be used to demonstrate how the principles set out in this schedule will be fulfilled over an appropriate timeframe.</u>
Meridian Energy Limited	FS101.181	Part 4 / Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Oppose	Considers that biodiversity compensation is a valid response, endorsed by the exposure draft NPS-Indigenous Biodiversity and numerous Environment Court decisions. Meridian considers the wording amendments proposed by its submission point 228.120, refined where necessary to give effect to the NPS-Indigenous Biodiversity (when that is gazetted), more appropriately give effect to the RMA and higher order policy instruments.	Disallow / Disallow the requested deletion of APP3. Disallow the requested amendments to APP3.
Greater Wellington Regional Council	351.329	Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Amend	Considers that amendments are required to principle 3. The positive effects offered should outweigh the adverse effects incurred. This recognises the inherent risks and uncertainty of compensation, thus aiming for an overall net gain from the exchange (though not in the strict technical sense of offsetting as these are like-for-unlike exchanges). This approach would align with that suggested in the definition for biodiversity compensation provided in this plan (see comment above) and with the approach taken in the NRP and in the in the NPS-IB exposure draft	Seeks to amend principle 3 (Scale of biodiversity compensation:) to: 2. Scale of biodiversity compensation: The values to be lost through the activity to which the biodiversity compensation applies must be addressed by positive effects to indigenous biodiversity that are proportionate to <u>outweigh</u> the adverse effects on indigenous biodiversity.
Greater Wellington Regional Council	351.330	Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Amend	Principle 8 is redundant for managing biodiversity compensation exchanges as it essentially just specifies what the limits of biodiversity compensation are. Compensation exchanges are always like for unlike.	Seeks to delete principle 8 (Trading up).
Greater Wellington Regional Council	351.331	Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Amend	Considers that principle 2 should be amended to incorporate direction from principle 8 into the limits of offsetting under the Plan	Amend principle 2 (Limits to biodiversity compensation) to: 2. Limits to biodiversity compensation: In deciding whether biodiversity compensation is appropriate, a decision-maker must consider the principle that many indigenous biodiversity values are not able to be compensated for because: a. The indigenous biodiversity affected is irreplaceable or vulnerable; <u>ba. The values lost are not indigenous taxa that are listed as Threatened, At-risk or Data deficient in the New Zealand Threat Classification System lists;</u> b. There are no technically...".
Director-General of Conservation	385.85	Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Support	Supports the proposed framework of principles for the use of biodiversity compensation, which is in line with the guidance document "Biodiversity Offsetting under the Resource Management Act".	Retain APP3 Biodiversity Compensation as notified.
Wellington City Council	266.171	Appendices Subpart / Appendices / APP4 Permitted Noise Standards	Amend	Considers it necessary to amend Table 19 of Appendix 4 (Permitted Noise Standards) to increase the permitted noise levels in the Open Space Zone and Sport/Active Recreation Zones so that sports events can occur on Sundays without unnecessary noise restrictions. Considers allowing 55 dB LAeq (15 mins) until 10pm is a pragmatic way to allow for higher daytime and evening noise levels for recreational activity.	Amend Table 19 by replacing it with table provided in full submission. [Refer to original submission, including detailed table attached]
Wellington City Council	266.172	Appendices Subpart / Appendices / APP4 Permitted Noise Standards	Amend	Considers there is a type in Table 19 (no 'd' at the end of receive)	Amend the title of Table 19 in Appendix 4 - Permitted Noise Standards as follows: Noise emitted from activities within the Town Belt Zone, Natural Open Space Zone, Open Space Zone, Sport and Active Recreation Zone as received in other areas (any Residential Zone, Town Belt Zone, Natural Open Space Zone, Open Space Zone, and Sport and Active Recreation Zone) must not exceed the following limits.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.38	Appendices Subpart / Appendices / APP4 Permitted Noise Standards	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 4 Permitted Noise Standards as notified.
Steve Dunn	288.13	Appendices Subpart / Appendices / APP4 Permitted Noise Standards	Amend	Considers that there is a cumulative effect of increased noise on the local community from emergency aircraft using the rooftop of Wellington Regional Hospital as well as ventilation.	Seeks that noise standards or measures are added to manage noise from emergency aircraft on top of Wellington Regional Hospital
Steve Dunn	288.14	Appendices Subpart / Appendices / APP4 Permitted Noise Standards	Amend	Considers that there is a cumulative effect of increased noise on the local community from emergency aircraft using the rooftop of Wellington Regional Hospital as well as ventilation.	Seeks that ambient noise levels are regulated and enforced [inferred around Wellington Regional Hospital] to give added protection from noise and ensure the local community is not affected.
Woolworths New Zealand	359.94	Appendices Subpart / Appendices / APP4 Permitted Noise Standards	Amend	<p>Considers that APP4 should be amended to provide more clarity on the terminology of zones used. It is assumed that reference to noise emitted from “the Commercial and Mixed-Use Zones” within Table 15 – APP4, Table 16 – APP4, Table 17 – APP4, Table 18 – APP4 is encompassing of all of the Centres Zones (being the City Centre, Metropolitan Centre, Local Centre and Neighbourhood Centre Zones) as well as the Commercial Zone and a Mixed-Use Zone. This clarification is sought as the PDP as notified otherwise does not include standards for the Centre Zones and proposes the creation of both a Commercial Zone and a Mixed-Use Zone within the broader umbrella of Commercial and Mixed-Use Zones.</p> <p>It is noted that the use of emergency generators is expressly exempt from compliance however this is limited to generators operated by emergency services or lifeline utilities, or for the continuation of radiocommunication broadcasts. It is considered that the proposed exclusion could be comfortably extended to include emergency use by supermarkets given the essential role they play as community infrastructure in crises, for example making sure there is access to refrigerated food during storm events.</p>	Amend Appendix 4 - Permitted Noise Standards to clarify the terminology of zones used in Tables 15, 16, 17 and 18.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.155	Appendices Subpart / Appendices / APP4 Permitted Noise Standards	Support	APP4 is supported as it includes noise limits for activities contained within a single zone and separate standards for activities generated in one zone but received in another.	Retain Appendix 4 - Permitted Noise Standards as notified.
CentrePort Limited	402.211	Appendices Subpart / Appendices / APP4 Permitted Noise Standards	Amend	Alterations to Table 20 are required to comply with the methodology in NZS 6809:1999 (Port Noise Standard).	Amend Table 20 in APP4 Permitted Noise Standards as per submission. [Refer to original submission for changes sought to Table 20 in APP4].
CentrePort Limited	402.212	Appendices Subpart / Appendices / APP4 Permitted Noise Standards	Support	Support the intent of this standard subject to the alterations to Table 20 which are required to comply with the methodology in NZS 6809:1999 (Port Noise Standard).	Amend Table 20 in APP4 Permitted Noise Standards as per submission. [Refer to original submission for changes sought to Table 20 in APP4].
Wellington International Airport Ltd	406.548	Appendices Subpart / Appendices / APP4 Permitted Noise Standards	Oppose	Opposes APP4 Permitted Noise Standards. [See paragraphs 4.70 and 4.74 of original submission for full reason]	Delete Table 21 in APP4 in it's entirety.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.163	Appendices Subpart / Appendices / APP4 Permitted Noise Standards	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Living Streets Aotearoa	482.60	Appendices Subpart / Appendices / APP4 Permitted Noise Standards	Amend	Considers that it is unclear why the plan has two different noise levels for night time in residential receiving environments.	Clarify the LAEQ and LAFmax noise levels for night time in residential zones. [Inferred decision requested].
Living Streets Aotearoa	482.61	Appendices Subpart / Appendices / APP4 Permitted Noise Standards	Not specified	Considers that noise levels up to 85 decibels is questionable in a public space. It is important in public spaces, even in industrial zones, to not have dangerous noise levels.	Not specified.
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.39	Appendices Subpart / Appendices / APP5 Fixed Plant Noise Standards	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 5 Fixed Plant Noise Standards as notified.
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.40	Appendices Subpart / Appendices / APP6 Permitted Noise Standards for Temporary Activities	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 6 Permitted Noise Standards for Temporary Activities as notified.
New Zealand Defence Force	423.45	Appendices Subpart / Appendices / APP6 Permitted Noise Standards for Temporary Activities	Oppose in part	Considers that NZDF has developed bespoke noise standards with respect to TMTA (refer to Attachment 3) that NZDF is seeking to be included in every district plan throughout the country, and requests these standards be included in the District Plan. The standards have been specifically developed by NZDF to manage the particular noise characteristics of TMTA (as outlined in Attachment 4). The standards provide appropriate controls to manage noise effects from TMTA (which include minimum separation distances and peak sound levels for both daytime and nighttime periods), as well as having a standard practice of informing affected landowners and occupiers of properties. Based on these control methods, adverse noise effects in any zone can be appropriately mitigated.	Opposes the noise standards in Table 26 – APP6: Noise standards for temporary military training activities as notified.
New Zealand Defence Force	423.46	Appendices Subpart / Appendices / APP6 Permitted Noise Standards for Temporary Activities	Amend	Considers that NZDF has developed bespoke noise standards with respect to TMTA that NZDF is seeking to be included in every district plan throughout the country, and requests these standards be included in the District Plan. The standards have been specifically developed by NZDF to manage the particular noise characteristics of TMTA (as outlined in Attachment 4). The standards provide appropriate controls to manage noise effects from TMTA (which include minimum separation distances and peak sound levels for both daytime and nighttime periods), as well as having a standard practice of informing affected landowners and occupiers of properties. Based on these control methods, adverse noise effects in any zone can be appropriately mitigated.	Seeks that Table 26 – APP6: Noise standards for temporary military training activities is amended to be replaced with the standard in Attachment 3 of the original submission.
Nick Ruane	61.3	Appendices Subpart / Appendices / APP7 Temporary Activities Event Management Plan	Amend	Inferred support for the requirements of the Temporary Activities Event Management Plan.	Retain Appendix 7 - Temporary Activities Event Management Plan. [Inferred decision requested]
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.41	Appendices Subpart / Appendices / APP7 Temporary Activities Event Management Plan	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 7 Temporary Activities Event Management Plan as notified.

Taranaki Whānui ki te Upoko o te Ika	389.135	Appendices Subpart / Appendices / APP7 Temporary Activities Event Management Plan	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that Schedule 7 is amended to include "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City."
Te Rūnanga o Toa Rangatira	FS138.70	Part 4 / Appendices Subpart / Appendices / APP7 Temporary Activities Event Management Plan	Oppose	The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.136	Appendices Subpart / Appendices / APP7 Temporary Activities Event Management Plan	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that Appendix 7 is amend to remove any other references to iwi. [Inferred decision requested]
Te Rūnanga o Toa Rangatira	FS138.71	Part 4 / Appendices Subpart / Appendices / APP7 Temporary Activities Event Management Plan	Oppose	The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.	Disallow
Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.42	Appendices Subpart / Appendices / APP8 Quantitative Wind Study and Qualitative Wind Assessment – Modelling and Reporting Requirements	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 8 Quantitative Wind Study and Qualitative Wind Assessment – Modelling and Reporting Requirements as notified.
Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.43	Appendices Subpart / Appendices / APP9 City Centre Zone & Special Purpose Waterfront Zone – Minimum Sunlight Access and Wind Comfort Control – Public Space Requirements	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 9 City Centre Zone & Special Purpose Waterfront Zone – Minimum Sunlight Access and Wind Comfort Control – Public Space Requirements as notified.
Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.44	Appendices Subpart / Appendices / APP10 Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 10 Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.332	Appendices Subpart / Appendices / APP10 Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements	Support	Supports the requirement for masterplans for the Inner Harbour Port Precinct and Multi User Ferry Precinct and recognition in the draft Plan of the need to enhance access by active modes and public transport and to ensure good transport network integration.	Retain Appendix 10 (Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements) as notified.
Wellington Civic Trust	388.117	Appendices Subpart / Appendices / APP10 Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements	Support in part	Appendix 10 is generally supported as it provides an essential outline of what needs to be considered in relation to any developments in these areas. It is essential that use and development in these two precincts are subject to very careful control over time. It is understood that a masterplan is to be prepared for the Inner Harbour Port Precinct and a plan change carried out before substantial development can take place. However, an amendment is sought in relation to the Multi-user Ferry Precinct.	Retain Appendix 10 - Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements, with amendment.
Wellington Civic Trust	388.118	Appendices Subpart / Appendices / APP10 Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements	Amend	Considers that Appendix 10 should recognised that the Multi-user Ferry Precinct is the main gateway to the central city. This fact should become a consideration when assessing any development proposals for the area.	Amend Appendix 10 - Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements as follows: ... Appendix 10-B: Multi-User Ferry Precinct requirements ... 7. Provide a mana whenua engagement plan and either a Cultural Impact Assessment, a Cultural Values report or an assessment prepared by mana whenua. 8. Demonstrates recognition that the Precinct is in a key gateway position at the entrance to the City Centre from passenger railways, from cycleways, from State Highway 1 and from the harbour, and provides layout and design which does not detract from, and, if practical, contributes to, recognition and celebration of this position.
Taranaki Whānui ki te Upoko o te Ika	389.137	Appendices Subpart / Appendices / APP10 Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that Appendix 10-A is amended to include "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City."
Te Rūnanga o Toa Rangatira	FS138.72	Part 4 / Appendices Subpart / Appendices / APP10 Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements	Oppose	The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.138	Appendices Subpart / Appendices / APP10 Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that Appendix 10-B is amended to include "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City."
Te Rūnanga o Toa Rangatira	FS138.73	Part 4 / Appendices Subpart / Appendices / APP10 Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements	Oppose	The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.213	Appendices Subpart / Appendices / APP10 Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements	Support in part	Appendix 10-A: Inner Harbour Port Precinct requirements - This set of requirements are generally supported however there is no reference to the scale of the activity or structure proposed. The first line should have the words 'that is required' added to reflect this, noting submission points in relation to the rules that apply to the Inner Harbour Port Precinct. In relation to the clause 1 this would be improved with the addition of a reference to the Coastal Marine Area noting that there are complimentary provisions in the Proposed Natural Resources Plan concerning heritage listed wharf structures that directly adjoin the precinct.	Retain Appendix 10-A: Inner Harbour Port Precinct requirements, with amendment.
CentrePort Limited	402.214	Appendices Subpart / Appendices / APP10 Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements	Amend	Appendix 10-A: Inner Harbour Port Precinct requirements - This set of requirements are generally supported however there is no reference to the scale of the activity or structure proposed. The first line should have the words 'that is required' added to reflect this, noting submission points in relation to the rules that apply to the Inner Harbour Port Precinct. In relation to the clause 1 this would be improved with the addition of a reference to the Coastal Marine Area noting that there are complimentary provisions in the Proposed Natural Resources Plan concerning heritage listed wharf structures that directly adjoin the precinct.	Amend Appendix 10-A: Inner Harbour Port Precinct requirements as follows: Any application <u>that is required</u> for development must: 1. Contribute to the compatibility of existing and future activities, buildings and public space within the site and integrate with the transport network and adjacent sites, particularly at interfaces with the Waterfront Zone, City Centre Zone, and Commercial Port and <u>activities within the coastal marine area</u>
CentrePort Limited	402.215	Appendices Subpart / Appendices / APP10 Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements	Support in part	Appendix 10-B: Multi-User Ferry Precinct requirements - This set of requirements are generally supported however there is no reference to the scale of the activity or structure proposed. The first line should have the words 'that is required' added to reflect this, noting submission points in relation to the rules that apply to the Inner Harbour Port Precinct.	Retain Appendix 10-B: Multi-User Ferry Precinct requirements, with amendment.
CentrePort Limited	402.216	Appendices Subpart / Appendices / APP10 Inner Harbour Port Precinct and Multi-User Ferry Precinct Requirements	Amend	Appendix 10-B: Multi-User Ferry Precinct requirements - This set of requirements are generally supported however there is no reference to the scale of the activity or structure proposed. The first line should have the words 'that is required' added to reflect this, noting submission points in relation to the rules that apply to the Inner Harbour Port Precinct.	Amend Appendix 10-B: Multi-User Ferry Precinct requirements as follows: Any application <u>that is required</u> for development must:
Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.45	Appendices Subpart / Appendices / APP11 Kilbirnie Bus Barns Development Plan	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 11 Kilbirnie Bus Barns Development Plan as notified.
Bus Barn Ltd	FS95.1	Part 4 / Appendices Subpart /Appendices / APP11 Kilbirnie Bus Barns Development Plan	Oppose	The original submission proposed by Claire et al seeks to retain the bus barn provisions as notified. Bus Barn Ltd seeks to modify this provision as outlined in their submission.	Disallow / Retain the Kilbirnie Bus Barn Development, as modified by the Bus Barn Limited submission
Waka Kotahi	370.453	Appendices Subpart / Appendices / APP11 Kilbirnie Bus Barns Development Plan	Support in part	Appendix 11 is supported, but an amendment is sought.	Retain APP11 - Kilbirnie Bus Barns Development Plan and seeks amendment.
Bus Barn Ltd	FS95.2	Part 4 / Appendices Subpart /Appendices / APP11 Kilbirnie Bus Barns Development Plan	Oppose	The submission provided by Waka Kotahi states that pedestrian linkages must go through the site. Bus Barn Limited considers that this does not allow for any flexibility within the design which may restrict safe and cohesive pedestrian linkages. The provision within DEV1-APP-R7 as it stands allows for this flexibility.	Disallow / Retain the provision DEV1-APP-R7 as originally proposed

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Bus Barn Ltd	FS95.3	Part 4 / Appendices Subpart /Appendices / APP11 Kilbirnie Bus Barns Development Plan	Oppose	The submission provided by Waka Kotahi states that pedestrian linkages must go through the site. Bus Barn Limited considers that this does not allow for any flexibility within the design which may restrict safe and cohesive pedestrian linkages. The provision within DEV1-APP-R7 as it stands allows for this flexibility.	Disallow / Retain the provision DEV1-APP-R7 as originally proposed
Waka Kotahi	370.454	Appendices Subpart / Appendices / APP11 Kilbirnie Bus Barns Development Plan	Amend	Considers that pedestrian linkages through the Bus Barn area should be a non-negotiable to enable a well connected transport route.	Amend DEV1-APP-R7 of APP11 - Kilbirnie Bus Barns Development Plan as follows: <p>☐ A public, mid-block pedestrian and vehicular link shall be provided to connect Onepu Road and Ross Street, and to provide access to commercial and residential units as indicated in the Development Plan.</p> <p>The layout and design of the internal road and pedestrian link shall be in general accordance with the Concept Plan, but depending on the final design and layout of development on the site it may not be possible to provide 'active edges' strictly in accordance with District Plan definition along the full length of the internal road. Access into and from the site shall be confined to the points indicated on the concept plan in order to ensure traffic, cyclist, and pedestrian safety and efficiency.</p>
Rod Halliday	25.49	Appendices Subpart / Appendices / APP12 Lincolnshire Farm Development Area	Not specified	Not opposed to the provision of a new school of 3ha in DEV2-APP-R2 (School site) provided two clarifications are sought.	Not specified.
Rod Halliday	25.50	Appendices Subpart / Appendices / APP12 Lincolnshire Farm Development Area	Amend	Considers that the land provided for the new school of 3ha in DEV2-APP-R2 (School site) should be purchased by the Ministry of Education.	Amend DEV2-APP-R2 (School site) to include that the land would need to be purchased by the Ministry of Education.
Ministry of Education	FS52.1	Part 4 / Appendices Subpart / Appendices / APP12 Lincolnshire Farm Development Area	Oppose	The Ministry of Education wishes to oppose Sub No/Point No 25.50 as it seeks to change the requirements for the Lincolnshire Farm Development Area. The Ministry fully supports the identification of a new school in this area to support the future population growth that is envisaged. However, the requirement that the Ministry should purchase the land of 3ha which must be set aside for schools under DEV2-APP-R2 as a District Plan matter is opposed.	Disallow
Rod Halliday	25.51	Appendices Subpart / Appendices / APP12 Lincolnshire Farm Development Area	Amend	Considers that the requirement for the land provided for the new school in DEV2-APP-R2 (School site) to be flat will be difficult and expensive.	Clarify DEV-APP-R2 (School site) to include that the land for the new school may be handed over in original form and allow the Ministry of Education to obtain earthworks consents as a designating authority.
				No other school site in Wellington's Northern suburbs is flat and are typically built over multiple levels. The land in Lincolnshire is not flat and obtaining consents from GWRC for bulk earthworks is extremely difficult given the current legislature and planning framework. [Refer to original submission for full reason].	
				The NES - Freshwater Standards that re-defined and expanded the definition of wetlands to include stock wetlands, and new rules relating to earthworks, stormwater discharges and vegetation removal within certain distances from these areas, makes it difficult to achieve a largely flat site for a school.	
Rod Halliday	25.52	Appendices Subpart / Appendices / APP12 Lincolnshire Farm Development Area	Not specified	Not opposed to the provision of a community facility in DEV2-APP-R3 (Community facilities) provided two clarifications are sought.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Rod Halliday	25.53	Appendices Subpart / Appendices / APP12 Lincolnshire Farm Development Area	Amend	<p>Considers that the requirement for the land provided for the new community facility in DEV2-APP-R3 (Community facility) to be flat will be difficult and expensive.</p> <p>The land in Lincolnshire is not flat and obtaining consents from GWRC for bulk earthworks is extremely difficult given the current legislature and planning framework. [Refer to original submission for full reason].</p> <p>The NES - Freshwater Standards that re-defined and expanded the definition of wetlands to include stock wetlands, and new rules relating to earthworks, stormwater discharges and vegetation removal within certain distances from these areas, makes it difficult to achieve a largely flat site for a community facility.</p>	Clarify DEV-APP-R3 (Community facilities) to include that the land for the new community facility may be handed over in original form and allow Wellington City Council to obtain earthworks consents as a designating authority.
Rod Halliday	25.54	Appendices Subpart / Appendices / APP12 Lincolnshire Farm Development Area	Support in part	Not opposed to the provision of a new community park of between 4-6ha in DEV-APP-R4 (Open spaces) provided two clarifications are sought.	Not specified.
Rod Halliday	25.55	Appendices Subpart / Appendices / APP12 Lincolnshire Farm Development Area	Amend	<p>Considers that the requirement for the land provided for the new community facility in DEV2-APP-R4 (Open spaces) to be flat will be difficult and expensive.</p> <p>The land in Lincolnshire is not flat and obtaining consents from GWRC for bulk earthworks is extremely difficult given the current legislature and planning framework. [Refer to original submission for full reason].</p> <p>The NES - Freshwater Standards that re-defined and expanded the definition of wetlands to include stock wetlands, and new rules relating to earthworks, stormwater discharges and vegetation removal within certain distances from these areas, makes it difficult to achieve a largely flat site for a sports field.</p>	Clarify DEV-APP-R4 (Open spaces) to include that the land for the new community park may be handed over in original form and allow Wellington City Council to obtain earthworks consents as a designating authority.
Rod Halliday	25.56	Appendices Subpart / Appendices / APP12 Lincolnshire Farm Development Area	Amend	Considers that Lincolnshire Farm Ltd are developing land.	Clarify DEV-APP-R4 (open spaces) to include that the land for the new community park will be formalised in a reserves agreement with Lincolnshire Farm Ltd who are developing the land.
Wellington City Council	266.173	Appendices Subpart / Appendices / APP12 Lincolnshire Farm Development Area	Amend	Considers amendments necessary to provide clarification, cross reference and better connection between the Development Plan maps and appendices.	<p>Amend DEV2-APP-R4.1.i as follows:</p> <p>The neighbourhood parks required by DEV2-APP-R4.c to DEV2-APP-R4.e must be constructed and accessible for public use at the time the 100th dwelling within the relevant neighbourhood park catchment area, shown on the Development Plan <u>maps as catchment areas A to J</u>, is constructed.</p>
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.46	Appendices Subpart / Appendices / APP12 Lincolnshire Farm Development Area	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 12 Lincolnshire Farm Development Area as notified.
Transpower New Zealand Limited	315.195	Appendices Subpart / Appendices / APP12 Lincolnshire Farm Development Area	Support	Considers existing transmission lines traverse the northern part of the Lincolnshire Farm Development Area, over areas zoned for Medium Density Residential and Open Space (noting the Development Area layer obscures the transmission lines). Transpower supports the reference within the DEV2-APP-R4.	Retain DEV2-APP-R4 (Open Spaces) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Edwin Crampton	21.2	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Amend	<p>Considers that Greyfriars Crescent is the most logical connection point to make, as it was designed to provide for such a connection when the Redwood block was subdivided in the 1970's.</p> <p>As the development of Churton Park has proceeded, it is expected by the Churton Park community that Upper Stebbings has a road connection to Tawa.</p>	Seeks that a road connection be provided to join Upper Stebbings with Greyfriars Crescent, Tawa.
Rod Halliday	25.57	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Amend	<p>Considers that the planned intersection designed to link Glenside West Development Area and Westchester Drive has already been designed and approved by the Council as part of the resource consent for the Reedy Stage 2 subdivision (WCC SR No. 416389). A multi-modal safety audit to assess the safety of the intersection is therefore not required and should be removed from the provision. The second point in DEV-APP-R5.2 is unnecessary.</p>	Seeks that DEV3-APP-R5 (Roads) be amended to not require a multi-modal safety audit be carried out.
Glenside Progressive Association (GPA)	FS4.4	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Oppose	<p>We submit that the development of the intersection and Te Kahu Road should be brought forward and built now.</p> <p>Completing the Te Kahu link road to Westchester Drive is necessary to reduce circuitous route through Churton Park. The intersection and related road is necessary now, to reduce emissions, reduce wear and tear on roads and to prevent traffic conflicts and near misses at Melksham-Westchester drive intersection.</p>	Disallow / Seeks that it a requirement to construct the Te Kahu link road and intersection in readiness for any further development.
Heidi Snelson	FS24.11	Part 4 / Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Oppose	<p>Submitter looks to not undertake multi-modal safety audit as required with necessary points within DEV-APP-R5.2 being disregarded/deleted/not required to be upheld.</p> <p>The submitter is currently in the process of requesting additional housing density changes, road position changes and dwelling sites changes outside of MDR areas within the Glenside West Development Area.</p> <p>This will mean more road use at this proposed intersection rather than less, requiring an audit and amended/enhanced safety requirements. The proposed intersection is between one blind corner and another with restricted sight lines and heavy use of both commuters and earth moving trucks. Any development of this area will see increased use by the latter for a considerable period of time.</p>	Disallow / Seeks that submission be disallowed to retain the requirement for a multi-modal safety audit in accordance with DEV3-APP-R5.2 given the increasing use of this roading infrastructure.
Rod Halliday	25.58	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Amend	<p>Considers that the planned intersection designed to link Glenside West Development Area and Westchester Drive has already been designed and approved by the Council as part of the resource consent for the Reedy Stage 2 subdivision (WCC SR No. 416389). A reference to this construction plan (BECA 3321886-S3-C-0023) should be added in the provision.</p>	Seeks that the first point in DEV3-APP-R5 (Roads) be amended to include a reference to the intersection's approved construction plan (BECA 3321886-S3-C-0023).
Glenside Progressive Association (GPA)	FS4.5	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Oppose	<p>Submits that the development of the intersection and Te Kahu Road should be brought forward and built now.</p> <p>Completing the Te Kahu link road to Westchester Drive is necessary to reduce circuitous route through Churton Park. The intersection and related road is necessary now, to reduce emissions, reduce wear and tear on roads and to prevent traffic conflicts and near misses at Melksham-Westchester drive intersection.</p>	Disallow / Seeks that it a requirement to construct the Te Kahu link road and intersection in readiness for any further development.
Heidi Snelson	FS24.12	Part 4 / Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Oppose	<p>The submitter is currently in the process of requesting additional housing density changes, road position changes and dwelling sites changes outside of MDR areas within the Glenside West Development Area.</p> <p>This will mean more road use at this proposed intersection rather than less, requiring an audit and amended/enhanced safety requirements. The proposed intersection is between one blind corner and another with restricted sight lines and heavy use of both commuters and earth moving trucks. Any development of this area will see increased use by the latter for a considerable period of time.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Rod Halliday	25.59	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Amend	<p>Considers that the planned intersection designed to link Glenside West Development Area and Westchester Drive has already been designed and approved by the Council as part of the resource consent for the Reedy Stage 2 subdivision (WCC SR No. 416389).</p> <p>Considers that the second point in DEV-APP-R5.2 is unnecessary.</p>	Seeks that the second point in DEV3-APP-R5 (Roads) be deleted.
Glenside Progressive Association (GPA)	FS4.6	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Oppose	<p>Submits that the development of the intersection and Te Kahu Road should be brought forward and built now.</p> <p>Completing the Te Kahu link road to Westchester Drive is necessary to reduce circuitous route through Churton Park. The intersection and related road is necessary now, to reduce emissions, reduce wear and tear on roads and to prevent traffic conflicts and near misses at Melksham-Westchester drive intersection.</p>	Disallow / Seeks that it a requirement to construct the Te Kahu link road and intersection in readiness for any further development.
Heidi Snelson	FS24.13	Part 4 / Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Oppose	<p>The submitter is currently in the process of requesting additional housing density changes, road position changes and dwelling sites changes outside of MDR areas within the Glenside West Development Area.</p> <p>This will mean more road use at this proposed intersection rather than less, requiring an audit and amended/enhanced safety requirements. The proposed intersection is between one blind corner and another with restricted sight lines and heavy use of both commuters and earth moving trucks. Any development of this area will see increased use by the latter for a considerable period of time.</p>	Disallow
John L Morrison	28.4	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Amend	<p>Considers that DEV3-APP-R2 does not include an acceptable road connection between Tawa and Upper Stebbings. A local road should be constructed to connect Melksham Drive or Rochdale Drive in Upper Stebbings to Greyfriars Crescent in Tawa, requiring consequential modifications to the DEV3 Chapter.</p> <p>Adding this road connection would facilitate a compact urban form, which is a WCC objective.</p> <p>[refer to original submission for full reason]</p>	<p>Amend APP13, DEV3-APP-R2 (Roads) as follows:</p> <p>1. A collector road shall be constructed which connects Melksham Drive and Rochdale Drive to form a loop through Upper Stebbings. A local road shall be constructed to connect Melksham Drive/ Rochdale Drive in Upper Stebbings Valley to Greyfriars Crescent Tawa.</p>
Colin Roy Miller	34.1	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Amend	<p>Considers that the current Development Plan for Upper Stebbings and Glenside West does not provide an acceptable road link between Upper Stebbings Valley and Tawa.</p> <p>There is a clear need for more than one access road in and out of the Upper Stebbings Valley development primarily to cope with traffic heading directly north to Tawa, Linden, Kenepuru and Porirua.</p> <p>Considers that in the absence of a community centre at Stebbings Valley, displaced residents must rely on emergency services at either Johnsonville or Tawa.</p> <p>Considers that the Greyfriars link road is the logical northern access route during or after an emergency because of its proximity to Tawa. The Greyfriars link road would not be impacted in adverse circumstances due to its elevation and is also unlikely to be congested.</p> <p>In a worst-case scenario of the overhead Cook Strait DC towers and cables that cross the Stebbings Valley development, access via a connector road to Tawa would be especially valuable.</p>	<p>Amend DEV3-APP-R2 (Roads) as follows:</p> <p>1. A collector road shall be constructed which connects Melksham Drive and Rochdale Drive to form a loop through Upper Stebbings.</p> <p><u>2. A local road shall be constructed to connect the Upper Stebbings loop road to Greyfriars Crescent, Tawa</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Richard H. Taylor	35.4	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Amend	<p>Considers that DEV3-APP-R2 does not include an acceptable provision for a road connection between Tawa and Upper Stebbings. A local road should be constructed to connect Melksham Drive or Rochdale Drive in Upper Stebbings to Greyfriars Crescent in Tawa. Reasons for adding this road connection are: This road connection would facilitate a compact urban form, which is a WCC objective.</p> <p>A. This is a prime opportunity to increase the resilience of the whole city. The proposed connection will clearly assist in achieving this.</p> <p>B. To help achieve the Council's objective of a compact urban form a connection between Tawa and this new development in Churton Park is necessary. If not undertaken, the development becomes an isolated group of residences.</p> <p>C. The PDP states that the development area has easy access to SH1, the NIMT railway as well as town centres and facilities available in Tawa and Johnsonville. This is a very misleading assertion. Only if there is a connection road via Greyfriars Crescent to Tawa will the railway and Tawa town centre access be available as stated in the PDP.</p> <p>[refer to original submission for full reason]</p>	Amend DEV3-APP13 (Upper Stebbings and Glenside West Development Area) to include a provision for a road to connect Melksham Road in Upper Stebbings with Greyfriars Crescent in Tawa.
Brian Sheppard	169.5	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Amend	<p>Considers that a connection between Upper Stebbings and Tawa would be of benefit to the adjacent communities as well as the whole Wellington Region. A road connection is required to achieve the WCC objective of compact urban form and for the Development Area to have easy access to SH1, the NIMT railway as well as the town centres and facilities at Tawa and Johnsonville.</p> <p>Tawa and Stebbings Valley are only about 200m apart but, without connection, the separation becomes several kilometres. In addition, the transmission lines exclusion separates Upper Stebbings from Churton Park, creating an isolated island community.</p> <p>Churton Park is unusual amongst the northern suburbs, in having no direct public transport access to the north. A road connection would enable a new bus route to be created that would provide a much-needed bus service from Johnsonville to Porirua which would serve Churton Park and the western side of Tawa.</p> <p>The north end of Stebbings Valley is a long way from the facilities in Johnsonville. A connection to Tawa would bring services much closer and provide a much needed boost to Tawa businesses and organisations.</p> <p>This connection would provide a resilient alternative route for people leaving the City for their homes further north.</p> <p>It has been suggested that, with a connection such this, vehicles bound for the motorway would add to traffic congestion in Tawa. Commuters from Upper Stebbings are more likely, however, to access the motorway from the closer junction at Churton Park. During the day, it is more likely that vehicles using the connection will primarily be heading to and from facilities in Tawa.</p> <p>[Refer to original submission for full reasons].</p>	Seeks that a road connection is provided to join Upper Stebbings and Tawa.
Wellington City Council	266.174	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Amend	Considers amendments necessary to provide clarification, cross reference and better connection between the Development Plan maps and appendices.	Amend DEV3-APP-R1.5 as follows: The neighbourhood parks required by DEV3-APP-R1.6 must be constructed and accessible for public use at the time the 100th dwelling within the relevant neighbourhood park catchment area, shown on the Development Plan maps as catchment areas A to C, is constructed.
Wellington City Council	266.175	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Amend	Considers amendments necessary to provide clarification, cross reference and better connection between the Development Plan maps and appendices.	Amend DEV3-APP-R4.3 as follows: The Neighbourhood Park required by DEV3-APP-R4.3.1 must be constructed and accessible for public use at the time the 50th dwelling is constructed within catchment area D shown on the Development Plan map.

Design Guides

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.47	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 13 Upper Stebbings and Glenside West Development Area as notified.
Transpower New Zealand Limited	315.196	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Support	Considers existing transmission lines traverse the northern part of the Upper Stebbings and Glenside West Development Area, over areas zoned "Unbuilt areas" (noting the Development Area layer obscures the transmission lines). Transpower supports the recognition of the existing National Grid assets within clause b.	Retain DEV3-APP-R1 (Open Spaces) as notified.
Richard Herbert	360.8	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Support in part	Supports APP13, as it is directed towards providing for development of the greenfield development area, safeguarding natural resources and green spaces and recognising that this area also adjoins the Outer Green Belt, with areas within the Ridge Lines and Hilltops Overlay zone of the existing District Plan.	Retain APP-13 - Upper Stebbings and Glenside West Development Area with amendment.
Richard Herbert	360.9	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Amend	Considers that the Appendix for the Upper Stebbings and Glenside West Development Area should retain the areas designated within the Ridge Lines and Hilltops Overlay zone of the existing District Plan.	Seeks that the areas designated within the Ridge Lines and Hilltops Overlay zone be retained in APP-13 - Upper Stebbings and Glenside West Development Area.
Glenside Progressive Association Inc	374.10	Appendices Subpart / Appendices / APP13 Upper Stebbings and Glenside West Development Area	Support	DEV3-APP-R5 is supported. It is agreed that an intersection connecting a road from the Development Area to Westchester Drive must be constructed prior to the construction of any dwellings in the Glenside West Development Area. It is noted that the developer used Te Kahu road (The link from the Reedy block to Westchester Drive) for earthworks on the Reedy block and has still not opened this road for public access, despite being required to as part of the Reedy development.	Retain DEV3-APP-R5 (Roads) as notified.
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.48	Appendices Subpart / Appendices / APP14 Wind Chapter Best Practice Guidance Document	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 14 Wind Chapter Best Practice Guidance Document as notified.
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.49	Appendices Subpart / Appendices / APP15 Ecological Assessment	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain Appendix 15 Ecological Assessment as notified.
Royal Forest and Bird Protection Society	345.409	Appendices Subpart / Appendices / APP15 Ecological Assessment	Support in part	Generally supports this appendix, however considers it is missing a requirement to clearly identify the potential effects of the proposal, including any cumulative effects. Supports paragraph 2(a) and (b) but notes ECO P1 needs to be amended to explicitly incorporate these concepts. We have sought amendments above to achieve this.	Amend APP15 - Ecological Assessment: <u>2. Identifying the biodiversity values and potential effects of the proposal, including cumulative effects.</u>
Director-General of Conservation	385.86	Appendices Subpart / Appendices / APP15 Ecological Assessment	Support	Supports the proposed Ecological Assessment guidelines, which links to the guidance document "Biodiversity Offsetting under the Resource Management Act"	Retain APP15 Ecological Assessment as notified.
Victoria University of Wellington Students' Association	123.64	Design Guides Subpart / Design Guides / Design Guides General	Support	Supports the endeavour to make the design guides more simplified and accessible as well as limiting the potential for different interpretations.	Retain Design Guides as notified.
Victoria University of Wellington Students' Association	123.65	Design Guides Subpart / Design Guides / Design Guides General	Support	Supports the prioritisation of higher density urban form and living and the public outcomes over private amenities.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
McIndoe Urban Limited	135.1	Design Guides Subpart / Design Guides / Design Guides General	Amend	<p>Considers that the suite of design guides in the PDP need considerable editing and tightening up to ensure the effectiveness and efficiency of the PDP.</p> <p>Considers that the suite of design guides in the PDP are too long and unnecessarily complicated, and the content needs to be reassessed and edited.</p> <p>Considers that the design guides need to be to the point and easy to use, and the proposed design guides don't achieve this.</p>	Not specified.
Kāinga Ora – Homes and Communities	FS89.85	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	Kāinga Ora supports the review of the design guides but also seeks that the design guides are taken out of the District Plan and provided as a non-statutory guidance. If Design Guides are retained in the Plan, the plan provisions need to be clear to identify the key outcomes sought rather than full compliance with the entire suite of design guides. Any consequential changes to plan provisions resulting from amendments to design guides and their referencing is also sought.	Disallow / Seeks that Design Guides are taken out of the Plan and provided as non-statutory guidance. If Design Guides are retained in the Plan, the plan provisions need to be clear to identify the key outcomes sought rather than full compliance with the entire suite of design guides. Any consequential changes to plan provisions resulting from amendments to design guides and their referencing is also sought.
McIndoe Urban Limited	135.2	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that the specific amendments requested to the Centres and Mixed Use Design Guide and Residential Design Guide in the submission should be applied to all of the design guides.	Seeks that all Design Guides are subject to a high level of scrutiny and refinement.
McIndoe Urban Limited	135.3	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that as the design guides overlap and assessments will be required against more than one Design Guide, unnecessary complication will occur, particularly when repeated over multiple sites.	Seeks that the entire suite of Design Guides is restructured and coordinated to remove unnecessary overlap and repetition between the design guides.
McIndoe Urban Limited	135.4	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that for small developments the full Design Guide may not be relevant and the level of assessment required will not be fit for purpose, being unnecessarily onerous and inefficient.	Seeks that the entire suite of Design Guides is restructured and coordinated to remove unnecessary overlap and repetition between the Design Guides.
McIndoe Urban Limited	135.5	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that there is no mechanism for departing from the guidelines or clarity on how this will be assessed.	Seeks that the Design Guides include mechanism for departure from the guidelines, which should be tied into identified, relevant and numbered objectives or outcomes.
McIndoe Urban Limited	135.6	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that the outcomes are identified as being part of this statutory document and must be met. Therefore these should be numbered to allow cross reference in assessments.	Seeks that the 'outcomes' in each design guide are numbered and integrate with the relevant section / guidelines to avoid flipping back and forth between Design Guides.
McIndoe Urban Limited	135.7	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that the same set of outcomes appears in each of the Design Guides, in addition to the 16 page Introduction to the Design Guides. This is unnecessary repetition and has the effect of bloating the suite of guides.	Not specified.
McIndoe Urban Limited	135.8	Design Guides Subpart / Design Guides / Design Guides General	Oppose	Considers that the function of the Design Guide Introduction is not clear, other than providing the rationale for the approach taken through the suite of guides. If that is the case, it is useful information for this process of explaining and implementing a new set of guides. But it does not and need to be and should not be within the set of statutory Design Guides.	Seeks that the Design Guide Introduction is removed from the Proposed District Plan.
McIndoe Urban Limited	135.9	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that repetition should be eliminated from the Design Guides because the degree of overlap and repetition makes the document unnecessarily long, unwieldy and inefficient to apply. Because a point is made multiple times may not necessarily lead to efficient application, and it could give undue and unintended over-emphasis to some design direction. This would allow the design guides to be materially shortened without loss of content, and the task of applying them made considerably more efficient.	Seeks that the content of the Design Guides is restructured to eliminate repetition within individual design guides and edit to ensure consistency of expression of guidelines.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
McIndoe Urban Limited	135.10	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that in many cases a matter is dealt with in a section by multiple guidelines, when it would be equally effective and more efficient to combine into a reduced number of guidelines. An example is Residential GG99, G101 and G102	Seeks that the content of the Design Guides is restructured to eliminate repetition within individual design guides and edit to ensure consistency of expression of guidelines.
McIndoe Urban Limited	135.11	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that the guidelines in the design guides should be edited to ensure consistency of expression. Many are directive such as maintain visual connection..., Orientate building frontages; Use planting to..... But others are passive descriptive statements. Considers that the approach of being directive is preferred as it will enhance legibility and it will also allow the text to be shortened.	Seeks that the content of the Design Guides is restructured to eliminate repetition within individual design guides and edit to ensure consistency of expression of guidelines.
McIndoe Urban Limited	135.12	Design Guides Subpart / Design Guides / Design Guides General	Oppose in part	Considers that the Design Guides inappropriately combine good practice in detailed building design, specification and construction which are properly covered at the time of building consent with issues which relate to the design, configuration and amenity effects of the building. Those matters should be stripped out as they require a level of detail that is inappropriate to develop and provide before resource consent is granted. That is due to the cost of providing that information in a situation where it may be quite uncertain whether a consent can/will be achieved.	Seeks that requirements for detailed information on construction, materials, services that is only reasonably developed following receipt of resource consent are removed.
Precinct Properties New Zealand Limited	139.58	Design Guides Subpart / Design Guides / Design Guides General	Support	Generally supports the intent and provisions of the Design Guides. [Specific Design Guides not referenced]	Retain the Design Guides as notified.
Precinct Properties New Zealand Limited	139.59	Design Guides Subpart / Design Guides / Design Guides General	Oppose	Opposes the City Outcomes Contribution - referenced in the Design Guides and PDP	Seeks that all references to the City Outcomes Contribution are removed from the Design Guides and Proposed District Plan policies.
Amos Mann	172.26	Design Guides Subpart / Design Guides / Design Guides General	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that accessibility and universal design requirements are provided for in the Design Guides and in incentives.
The Retirement Villages Association of New Zealand Incorporated	FS126.6	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	Inconsistent with the RVA's original submission which sought to exclude retirement villages from having to apply Design Guides. Council oversight is not required to retirement villages as the RVA is best placed to understand different operational and functional needs.	Disallow
Ryman Healthcare Limited	FS128.6	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	Inconsistent with Ryman's original submission which sought to exclude retirement villages from having to apply Design Guides. Council oversight is not required to retirement villages as Ryman is best placed to understand different operational and functional needs.	Disallow
Wellington City Youth Council	201.42	Design Guides Subpart / Design Guides / Design Guides General	Amend	Supports making design guides clear and concise to facilitate easier access and accessible knowledge about design standards.	Seeks that design guides are clear and concise to facilitate easier access and accessible knowledge about design standards.
Wellington City Youth Council	201.43	Design Guides Subpart / Design Guides / Design Guides General	Not specified	Considers the importance of high quality, high density residential development and urban form, ensuring that people have access to green spaces, light, warmth, and air. Considers that high quality, sustainable materials should be a focus for buildings and infrastructure that stands the test of time. Considers that ensuring spaces are clean, welcoming and have an attractive aesthetic are also immensely important to contribute to wellbeing for everyone in the city.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington City Youth Council	201.44	Design Guides Subpart / Design Guides / Design Guides General	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that new builds and developments are required to be safe for those with different access needs.
Wellington City Youth Council	201.45	Design Guides Subpart / Design Guides / Design Guides General	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that design guides reward the use of environmentally sustainable building materials to promote climate friendly development.
Wellington City Youth Council	201.46	Design Guides Subpart / Design Guides / Design Guides General	Not specified	Supports and emphasises the importance of current, new, and renovation toward high-performance Buildings.	Not specified.
Wellington City Youth Council	201.47	Design Guides Subpart / Design Guides / Design Guides General	Not specified	Considers that partnering with mana whenua especially for high impact urban developments is essential to weaving te ao Māori throughout the urban landscape.	Not specified.
Go Media Ltd	236.35	Design Guides Subpart / Design Guides / Design Guides General	Not specified	Considers that the signs design guide is broad and open to interpretation.	Not specified.
Alan Fairless	242.24	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that the District Plan is amended to encompass more new developments as controlled activities in respect of urban design to ensure that quality in design at a local level can be considered for the majority of developments.	Seeks that the Proposed District Plan is amended to encompass more new developments as controlled activities in respect of urban design and that this process is tied to community-level design guides as they are developed.
Alan Fairless	242.25	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that Wellington is a folded landscape with valleys and ridges, where a single large dwelling in the wrong place can adversely affect many others. The Plan needs to allow and adjust for this reality by adopting a more carefully tailored and locally nuanced approach, rather than a one-size-fits-all approach. Planning needs to drive and encourage quality and ensure the design of new, more intensive development works with the city's idiosyncratic landscape and for the communities in which it is located.	Seeks that the District Plan strengthen the urban design qualities of the city through a more sophisticated approach to design guidance, in particular the use of local design guides tailored to local areas.
Stratum Management Limited	249.41	Design Guides Subpart / Design Guides / Design Guides General	Not specified	Considers that for apartment developments both the Residential Design Guide and Centres and Mixed Use Design Guide will apply, with over 200 guidelines to be considered and work through.	Seeks rationalisation of the Residential Design Guide to reduce the number of guidelines as much as possible.
Stratum Management Limited	249.42	Design Guides Subpart / Design Guides / Design Guides General	Not specified	Considers that for apartment developments both the Residential Design Guide and Centres and Mixed Use Design Guide will apply, with over 200 guidelines to be considered and work through.	Seeks rationalisation of the Mixed Use Design Guide to reduce the number of guidelines as much as possible.
Stratum Management Limited	249.43	Design Guides Subpart / Design Guides / Design Guides General	Support	Considers that the ranking of guidelines within the Design Guides is appropriate.	Retain ranking system in Design Guides as notified.
Stratum Management Limited	249.44	Design Guides Subpart / Design Guides / Design Guides General	Not specified	Considers that it is unclear what the 'Outcomes' section of each Design Guide attempts to achieve.	Seeks that the 'Outcomes' that read as policies are included as policies, if that is the intention; alternatively deletion or appropriate qualification of the 'Outcomes'.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
McDonald's	274.75	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers it is important that the design guides are reference documents that sit outside the PDP, rather than being formally incorporated into it. Incorporating the design guides into the PDP elevates these provisions into the form of standards, rather than what they are intended to be as guidance. It is not appropriate to provide that the Council's discretion is restricted to all matters in the Design Guide. This does not give any clear direction or certainty for applicants and is onerous for the preparation and assessment of resource consent applications.	Seeks amendments to remove all direct references to the design guides in the PDP and for the relevant provisions to instead refer to the specific design outcomes that are being sought.
The Retirement Villages Association of New Zealand Incorporated	FS126.182	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	The RVA supports in part the relief sought in this submission where it aligns with The RVA's primary submission to have these references removed but opposes relevant provisions instead referring to specific design guidelines to the extent these provisions apply to retirement villages.	Amend / Allow the submission point, subject to excluding retirement villages from any specific design principles as sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.182	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	Ryman supports in part the relief sought in this submission where it aligns with Ryman's primary submission to have these references removed but opposes relevant provisions instead referring to specific design guidelines to the extent these provisions apply to retirement villages.	Amend / Allow the submission point, subject to excluding retirement villages from any specific design principles as sought within Ryman's primary submission.
Roland Sapsford	305.64	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that the objectives and rules relating to minimum sunlight in the Operative Plan rather than replace them with the minimum daylight provisions of the proposed Plan.	Seeks reinstatement of the operative district plan design guidance for minimum sunlight access [Inferred decision requested]
Carolyn Stephens	344.13	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that the plan should strengthen the urban design qualities of the city through a more sophisticated approach to design guidance, in particular the use of local design guides tailored to local areas. [Refer to original submission for full reason]	Seeks that urban design qualities be strengthened in Design Guides.
Greater Wellington Regional Council	351.333	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers the design guides are one part of how the District Plan can give effect to the NPS-FM, and should rate freshwater matters with appropriate weight throughout the guides. The current ratings for guidelines for stormwater, freshwater bodies and water conservation are currently rated as having lowest weight in the residential design guide for example.	Seeks that Design Guides are amended as necessary to give effect to the NPS-FM, including by rating freshwater guidelines to recognise their importance.
Wellington City Council Environmental Reference Group	FS112.19	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Support	Agree that the Design Guides can give effect to the NPS-FM and should prioritise measures that enhance freshwater and water conservation.	Allow
The Retirement Villages Association of New Zealand Incorporated	FS126.65	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with the RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.65	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Greater Wellington Regional Council	351.334	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers the design guides are one part of how the District Plan can give effect to the NPS-FM, and should rate freshwater matters with appropriate weight throughout the guides. The current ratings for guidelines for stormwater, freshwater bodies and water conservation are currently rated as having lowest weight in the residential design guide for example.	Seeks to apply ratings for freshwater matters equally between the Rural Design Guide and the Urban Design Guide.
Wellington City Council Environmental Reference Group	FS112.20	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Support	Agree that the Design Guides can give effect to the NPS-FM and should prioritise measures that enhance freshwater and water conservation.	Allow
The Retirement Villages Association of New Zealand Incorporated	FS126.66	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with the RVA's primary submission.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ryman Healthcare Limited	FS128.66	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Greater Wellington Regional Council	351.335	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that the Regional Standard for Water Services should be referenced directly through design guides, which provides technical engineering detail and contains specific infrastructure requirements for development.	Seeks to reference the Regional Standard for Water Services in Design Guides.
The Retirement Villages Association of New Zealand Incorporated	FS126.67	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with the RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.67	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Greater Wellington Regional Council	351.336	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that the Regional Standard for Water Services is not referenced directly through design guides, which provides technical engineering detail and contains specific infrastructure requirements for development.	Seeks to ensure emphasis on water conservation throughout guides, including mandate for the use of rainwater tanks and other best practices for water conservation such as low-flow devices, in new developments
The Retirement Villages Association of New Zealand Incorporated	FS126.68	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with the RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.68	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Woolworths New Zealand	359.95	Design Guides Subpart / Design Guides / Design Guides General	Not specified	Considers that urban design aspirations in Design Guides should not be used as a veto for the operational and functional requirements of commercial activities in commercial zones, specifically supermarkets. The submitter considers that the inclusion of reference to Design Guides as matters of discretion in the PDP with respect to development in Centres and Mixed-Use zones and in terms of Signs elevates their statutory relevance whilst introducing a subjective yet prescriptive assessment framework that gives rise to uncertainty and unnecessary complexity in consenting, even with generally anticipated restricted discretionary activities. Specific to supermarkets, which are typically larger in scale than regular high street or boutique retail, building bulk and scale is a function of supermarkets' unique operational and functional requirements, which themselves can still be managed through consideration of design, bulk and location, however to a different standard than currently outlined in the Centres and Mixed-Use Design Guide.	Seeks that Design Guides are not used as a veto for the operational and functional requirements of commercial activities in commercial zones, specifically supermarkets.
Foodstuffs North Island	FS23.28	Design Guides Subpart / Design Guides / Design Guides General	Support	Submission point 359.95 (Design Guides General) has similar outcomes to FSNi submission point 476.1 and 476.102.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.96	Design Guides Subpart / Design Guides / Design Guides General	Amend	<p>Considers that the status of the notification of these Guides, as well as their bearing on subsequent legal weighting as the plan-making process continues should be clarified.</p> <p>The PDP states that these Design Guides have been notified using the ISPP process, however, they have been referenced in the context of parts of the PDP which have been notified under both the ISPP process and the P1 Sch1 process.</p> <p>The status of these Guides would appear to be statutory by reference within the matters of discretion of relevance. Given the prescriptive, yet subjective, nature of the assessment, elevating these Guides to a statutory requirement for compliance or assessment is not considered appropriate or commensurate in respect of a restricted discretionary activity assessment.</p> <p>In the proposed consenting framework this means that the design of supermarket buildings will be considered against all matters within these Guides (which have been ranked via a rating system). The subjective nature of the Design Guides and their inclusion as matters of discretion for restricted discretionary activities is opposed by Woolworths as it is considered that restricted discretionary consent applications should be straightforward with clear discretion parameters. [Refer to original submission for full reason]</p>	Seeks clarification on the status of the notification of Design Guides, as well as their subsequent legal weighting.
Elizabeth Nagel	368.18	Design Guides Subpart / Design Guides / Design Guides General	Amend	<p>Considers that the plan should be amended to encompass more new developments as controlled activities in respect of urban design. This is to ensure that quality in design at a local level can be considered for the majority of developments, and that this process is tied to community-level design guides as they are developed. [Refer to original submission for full reason]</p>	Seeks that the plan be amended to encompass more new developments as controlled activities in respect to urban design.
Elizabeth Nagel	368.19	Design Guides Subpart / Design Guides / Design Guides General	Amend	<p>Considers that the plan should strengthen the urban design qualities of the city through a more sophisticated approach to design guidance, in particular the use of local design guides tailored to local areas. [Refer to original submission for full reason]</p>	Seeks that urban design qualities be strengthened in Design Guides.
Glenside Progressive Association Inc	374.11	Design Guides Subpart / Design Guides / Design Guides General	Amend	<p>Considers that Design guides should be stricter in restricting earthworks in elevated development area, particularly Upper Stebbings and Glenside West.</p>	Seeks that Design Guides be stricter in restricting earthworks in elevated development areas, particularly Upper Stebbings and Glenside West.
Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.6	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	<p>The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth.</p>	Disallow
WCC Environmental Reference Group	377.516	Design Guides Subpart / Design Guides / Design Guides General	Support in part	<p>Generally supportive.</p>	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.765	Design Guides Subpart / Design Guides / Design Guides General	Oppose in part	<p>The inclusion of Design Guidelines in the Plan is opposed, as they act as de facto rules to be complied with. Any policy or rule approach which would require development proposals to comply with such design guidelines in the District Plan is opposed.</p> <p>The Design Guidelines should be treated as a non-statutory tool. If there is content of a Design Guideline that Council wants in the Plan, it is sought that that these are relocated within a specific rule, matter of discretion or assessment criterion.</p> <p>where particular design outcomes are to be achieved, these should be specified in matters of discretion or assessment.</p>	Remove Design Guides from within the District Plan, as well as any references or requirements related to Design Guides. Treat Design Guides as non-statutory tools, outside of the District Plan.
Mt Victoria Historical Society Inc	FS39.24	Design Guides Subpart / Design Guides / Design Guides General	Oppose	Submitter 391 seeks to omit references to Residential Design Guide and Heritage Design Guide from the Plan. The Residential Design Guide and Heritage Design Guide are important for testing proposed development and ought to be a statutory criteria.	Disallow
Wellington's Character Charitable Trust	FS82.128	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	Considers the Residential Design Guide and Heritage Design Guide is a valuable touchstone for testing proposed development and ought to be a statutory criterion.	Disallow
LIVE WELLington	FS96.45	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	Residential Design Guide and Heritage Design Guide is a valuable touchstone for testing proposed development and ought to be a statutory criterion.	Disallow
Roland Sapsford	FS117.44	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	Residential Design Guide and Heritage Design Guide is a valuable touchstone for testing proposed development and ought to be a statutory criterion.	Disallow
The Retirement Villages Association of New Zealand Incorporated	FS126.165	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.165	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Kāinga Ora Homes and Communities	391.766	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that Design Guidelines should sit outside the Plan as guidance regarding best practice design outcomes. (Option A)	<p>Seeks that a note be added in the District Plan as follows:</p> <p><u>1. Acceptable means of compliance and best practice urban design guidance is contained within the Council's Design Guidelines.</u></p>
The Retirement Villages Association of New Zealand Incorporated	FS126.166	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.166	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Kāinga Ora Homes and Communities	391.767	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that design guidelines should be amended, simplified, and written in a manner that is easy to follow. The outcomes sought in the guidelines should read as desired requirements with sufficient flexibility to provide for a design that fits and works on site, rather than rules that a consent holder must follow and adhere to. Otherwise, there is no flexibility and scope to create a design that fits with specific site characteristics and desired built form development. (Option B)	<p>Amend Design Guidelines to clarify and simplify them.</p> <p>[See original submission for further details].</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
The Retirement Villages Association of New Zealand Incorporated	FS126.167	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.167	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Kāinga Ora Homes and Communities	391.768	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that Kāinga Ora should get the opportunity to review Design Guidelines if they are to remain a statutory document. (Option C)	Seeks that Kāinga Ora be allowed to review Design Guidelines.
The Retirement Villages Association of New Zealand Incorporated	FS126.168	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.168	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Investore Property Limited	405.138	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that it is important that the design guides are reference documents that sit outside the district plan, rather than being formally incorporated into the district plan. Incorporating the design guides into the district plan elevates these provisions into the form of standards, rather than what they are intended to be as guidance. The Centres and Mixed-Use Design Guide is supported and a helpful tool, however it should be a reference document that sits outside the district plan [Refer to original submission for full reason].	Seeks that the design guides are reference documents that sit outside of the district plan, rather than being formally incorporated into the district plan.
The Retirement Villages Association of New Zealand Incorporated	FS126.109	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.109	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Guy Marriage	407.8	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that a multi-unit specific design guide is much needed. [See original submission for full reason]	Seeks the addition of a Multi-Unit Design Guide.
Guy Marriage	407.9	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that while the Facades section of the Centres and Mixed Use Design Guide has 4 points listed under Facades (and no such Star system ***) and 9 points regarding Artificial Lighting, there is no associated rating for Natural Lighting, or Sunlight and that all these points need to be related.	Seeks that points on Facades, Artificial Lighting, Natural Lighting and Sunlight need to be related.
Guy Marriage	407.10	Design Guides Subpart / Design Guides / Design Guides General	Not specified	Considers that access to natural light and daylight and sunlight is just as important in the Inner City Housing as it is in suburban areas.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Cheryl Robilliard	409.7	Design Guides Subpart / Design Guides / Design Guides General	Support	[No specific reason given beyond decision requested - see original submission]	Retain Design Guides as notified. [Inferred decision requested]
VicLabour	414.51	Design Guides Subpart / Design Guides / Design Guides General	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks the prioritisation of pedestrian experience, including the emphasis on accessibility, for subdivisions.
VicLabour	414.52	Design Guides Subpart / Design Guides / Design Guides General	Not specified	Considers that accessibility needs to be a key focus throughout the plan.	Seeks that the Council considers recommendations from disabled people and advocates and explore co-design with remuneration where appropriate.
VicLabour	414.53	Design Guides Subpart / Design Guides / Design Guides General	Amend	Supports references to waste minimisation.	Seeks that provisions for waste minimisation should be strengthened where possible
VicLabour	414.54	Design Guides Subpart / Design Guides / Design Guides General	Support	Supports emphasis on mitigating stormwater problems, and particularly endorse the water conservation guidelines	Retain design guidance relating to mitigating storm water and water conservation. [inferred decision requested]
VicLabour	414.55	Design Guides Subpart / Design Guides / Design Guides General	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that ecology guidelines should incorporate a te ao Māori perspective
VicLabour	414.56	Design Guides Subpart / Design Guides / Design Guides General	Amend	Support guidelines around the installation of place-based site interpretation.	Seeks a greater emphasis on recognising history of places and sites in a way that is not settler perspective dominant
VicLabour	414.57	Design Guides Subpart / Design Guides / Design Guides General	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the design guides include direction that within walking catchments of the central city transport links car parking may not be required, with emphasis on accessibility.
VicLabour	414.58	Design Guides Subpart / Design Guides / Design Guides General	Amend	Supports sustainable building and considers more can be done.	Seeks that a low emissions design guide be made compulsory.
Willis Bond and Company Limited	416.197	Design Guides Subpart / Design Guides / Design Guides General	Support in part	Supports the intent of the Design Guides, their inclusion in the PDP significantly expands the matters Council must consider when exercising its discretion and, perversely, may even limit Council's flexibility to promote quality design outcomes. While well-intentioned, the Design Guides may become a 'tick-box' exercise and may discourage innovation. Our proposal is to make the Design Guides nonstatutory; they should be a useful 'how-to' resource (for example, like the Auckland Design Manual) which developers and Council can turn to when considering the design of new developments. It also provides more flexibility to adjust the Guides over time, as requirements and preferred design outcomes evolve, without requiring a plan change process.	Supports the intent of the design guides, but seeks that these are non-statutory.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.198	Design Guides Subpart / Design Guides / Design Guides General	Amend	<p>Supports the intent of the Design Guides, their inclusion in the PDP significantly expands the matters Council must consider when exercising its discretion and, perversely, may even limit Council's flexibility to promote quality design outcomes.</p> <p>While well-intentioned, the Design Guides may become a 'tick-box' exercise and may discourage innovation. The Retirement Villages Association of New Zealand Incorporated	FS126.261	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.261	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Willis Bond and Company Limited	416.199	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that maximum building depth is too restrictive and they do not consider that it meets the section 32, Resource Management Act 1991 tests for appropriateness.	Include HRZ-S16 (Maximum building depth for multi-unit housing or a retirement village) in a non-statutory Design Guide.
Willis Bond and Company Limited	416.200	Design Guides Subpart / Design Guides / Design Guides General	Amend	considers that maximum building depth is too restrictive and the submitter does not consider that it meets the section 32 Resource Management Act 1991 tests for appropriateness.	Submitter suggests that Council may wish to include the maximum building depth provision in a non-statutory Design Guide.
The Retirement Villages Association of New Zealand Incorporated	FS126.262	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.262	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Willis Bond and Company Limited	416.201	Design Guides Subpart / Design Guides / Design Guides General	Oppose	<p>Generally supports the intent of the Design Guides, but opposes their inclusion in the District Plan for the following reasons:</p> <ul style="list-style-type: none"> - In many areas, the Design Guides overlap with the objectives and policies in Part 3. This will cause confusion for both planners and developers in attempting to interpret the Design Guides alongside Part 3. In particular, the submitter queries how the 'Outcomes' in the Design Guides are to be read alongside other provisions in the plan. - It will be simpler to update the Design Guides to reflect best practice if they remain non-statutory. - The way the Design Guides are included as relevant criteria for restricted discretionary activities significantly expands the Council's discretion beyond what could normally be expected, for example, the Residential Design Guide contains various provisions dealing with internal areas such as G114-116 (internal living spaces) and G130-131 (internal storage). 	Seeks that references to the Design Guide in the Proposed District Plan be removed and that the Design Guides should be non-statutory in a similar way to the Auckland Design Manual. They should be used for guidance on how the objectives and policies in Part 3 may be implemented.
Foodstuffs North Island	FS23.103	Design Guides Subpart / Design Guides / Design Guides General	Support	Submission point 416.201 supports submission points 476.1 & 476.102.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.204	Design Guides Subpart / Design Guides / Design Guides General	Amend	<p>generally supports the intent of the Design Guides, but opposes their inclusion in the District Plan for the following reasons:</p> <ul style="list-style-type: none"> - In many areas, the Design Guides overlap with the objectives and policies in Part 3. This will cause confusion for both planners and developers in attempting to interpret the Design Guides alongside Part 3. In particular, the queries how the 'Outcomes' in the Design Guides are to be read alongside other provisions in the plan. - It will be simpler to update the Design Guides to reflect best practice if they remain non-statutory. - The way the Design Guides are included as relevant criteria for restricted discretionary activities significantly expands the Council's discretion beyond what could normally be expected, for example, the Residential Design Guide contains various provisions dealing with internal areas such as G114-116 (internal living spaces) and G130-131 (internal storage). 	Seeks that Council consider a Design Excellence Panel (or similar) which is constituted for each project (with representatives agreed by Council and the developer) and is charged with ensuring the development achieves the quality urban outcomes sought by Council. Submitter notes that provided approval is obtained from the Design Excellence Panel, Council would not have discretion to consider urban outcomes (to ensure there is no overlap of roles between Council and the Design Excellence Panel).
The Retirement Villages Association of New Zealand Incorporated	FS126.266	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.266	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Fabric Property Limited	425.105	Design Guides Subpart / Design Guides / Design Guides General	Amend	<p>Submitter supports the intent and provisions of the design guides. However, it is important that the design guides are reference documents that sit outside the District Plan, rather than being formally incorporated into the District Plan. Incorporating the design guides into the district plan elevates these provisions into the form of standards, rather than what they are intended to be as guidance.</p> <p>It is not appropriate to provide that the Council's discretion is restricted to all matters in the design guides, for example under Rules CCZ-R19 and CCZ-20. This does not give any clear direction or certainty for applicants, and it would be onerous to potentially address two design guides in the preparation and assessment of resource consent applications.</p> <p>Submitter seeks amendments to remove all direct references to the design guides in the Proposed Plan and for the relevant district plan provisions to instead refer to the specific design outcomes that are being sought. As above, the Centres and Mixed-Use Design Guide is supported and a helpful tool, however it should be a reference document that sits outside the District Plan, and can be appropriately referenced in the relevant plan provisions in the following way "For guidance, refer to the Centres and Mixed-Use Design Guide".</p> <p>Considers that the Centres and Mixed Use, and Residential design guides have the potential to overlap and conflict with each other. Some activities, such as construction of buildings, may require separate design assessments under the two design guides. To avoid conflict and duplication the design guides should be combined into a single document.</p>	Seeks that Design Guides are removed from the Proposed District Plan and used as external reference documents.
The Retirement Villages Association of New Zealand Incorporated	FS126.29	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	The RVA supports the relief sought in this submission where it seeks to remove the design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, as they have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.29	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, as they have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Miriam Moore	433.20	Design Guides Subpart / Design Guides / Design Guides General	Support in part	Support of the design guides holding statutory weight as a matter of discretion in the PDP.	Retain provision, subject to amendments, as outlined other submission points.
Miriam Moore	433.21	Design Guides Subpart / Design Guides / Design Guides General	Support in part	Considers that assessments against the Design Guide(s) could take extra time in the consenting process. Seeks that the Council is well-resourced in Design Review, and works well with developers to get good and timely outcomes. Hopes the enforcement of design guides can achieve a good number of accessible homes - Auckland's similar intensification rules have resulted in many multi -storey terraced homes, while these are good compact designs for family homes, they exclude our ageing population and those who aren't able bodied. Believes Wellington needs density to be inclusive and done well to bring those on board, who may be nervous about the changes coming.	Seeks consent efficiency.
Paul M Blaschke	435.11	Design Guides Subpart / Design Guides / Design Guides General	Support	Supports the widespread use of Design Guides and their inclusion in the statutory plan.	Retain Design Guides as notified.
Marilyn Head	457.8	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers the landscaping standards to be too low. [Refer to original submission for full reason]	Not specified.
Greater Brooklyn Residents Association Inc's	459.14	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers it is appropriate to amend design guide as enough capability in the current plan to accommodate the projected population growth.	Seeks to amend the design guides. [inferred decision requested].
Anita Gude and Simon Terry	461.31	Design Guides Subpart / Design Guides / Design Guides General	Support in part	Considers that the WCC's latest revisions of the design guides has produced a lot of very good changes. There are now far clearer descriptions of what defines the character that is sought to be protected, compared to that laid out in the versions that accompanied the draft district plan.	Not specified.
Stride Investment Management Limited	470.63	Design Guides Subpart / Design Guides / Design Guides General	Support in part	Supports in general the intent and provisions of the design guides.	Not specified.
Stride Investment Management Limited	470.64	Design Guides Subpart / Design Guides / Design Guides General	Amend	Considers that it is important that design guides are reference documents that sit outside of the district plan. Including them in the district plan elevates them into standards, rather than guidance. Considers that it is not appropriate to provide that the councils discretion is restricted to all matters in design guides. The design guides do not provide any clear direction or certainty for applicants and it is onerous to potentially need to address two design guides.	Seeks that the design guides are used as reference documents which sit outside of the district plan
Foodstuffs North Island	476.102	Design Guides Subpart / Design Guides / Design Guides General	Support in part	Generally supports the intent and provisions of the Design Guide, it is important that the design guides are reference documents that sit outside the PDP, rather than being formally incorporated into it. Incorporating the design guides into the PDP elevates these provisions into the form of standards, rather than what they are intended to be as guidance. It is not appropriate to provide that the Council's discretion is restricted to all matters in the Design Guide. This does not give any clear direction or certainty for applicants and is onerous for the preparation and assessment of resource consent applications.	Remove the design guides from the plan and instead revise provisions to refer to the specific design outcomes that are being sought.
Living Streets Aotearoa	482.62	Design Guides Subpart / Design Guides / Design Guides General	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the Design Guides ensure that there are no blank frontages.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
The Retirement Villages Association of New Zealand Incorporated	FS126.174	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.174	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Living Streets Aotearoa	482.63	Design Guides Subpart / Design Guides / Design Guides General	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the Design Guides ensure that entryways are designed so people entering buildings can move off the public space while they do that (e.g. while they find their keys or seek permission to enter).
The Retirement Villages Association of New Zealand Incorporated	FS126.175	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.175	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Living Streets Aotearoa	482.64	Design Guides Subpart / Design Guides / Design Guides General	Not specified	Considers that the worst possible outcome for pedestrians is that they are in a cold, wet space that never dries out in winter because it never gets any sun.	Seeks that the Design Guides ensure that buildings do not unduly shade public space unless they are providing a verandah.
The Retirement Villages Association of New Zealand Incorporated	FS126.176	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.176	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Living Streets Aotearoa	482.65	Design Guides Subpart / Design Guides / Design Guides General	Not specified	Considers that there are a number of buildings in Wellington that generate their own weather in the adjacent public square eg. Majestic Centre.	Seeks that the Design Guides ensure that design does not generate wind problems.
The Retirement Villages Association of New Zealand Incorporated	FS126.177	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.177	Part 4 / Design Guides Subpart / Design Guides / Design Guides General	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Historic Places Wellington	182.31	Design Guides Subpart / Design Guides / New design guide	Amend	Considers that the design guides as notified are too 'loose'.	Seeks a new multi unit design guide to ensure that new development is well designed and will complement the predominant patterns of local neighbourhoods. [Inferred decision requested]
The Retirement Villages Association of New Zealand Incorporated	FS126.72	Part 4 / Design Guides Subpart / Design Guides / New design guide	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Ryman Healthcare Limited	FS128.72	Part 4 / Design Guides Subpart / Design Guides / New design guide	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Disallow
Historic Places Wellington	182.32	Design Guides Subpart / Design Guides / New design guide	Not specified	Considers that urban design panels could be used as part of the assessment process [of the new multi unit design guide]. [Refer to original submission].	Not specified.
Alan Fairless	242.26	Design Guides Subpart / Design Guides / New design guide	Amend	Considers that local Design Guides, founded on a sophisticated understanding of local character, are a proven and effective vehicle for addressing good residential quality.	Seeks that local design guides, tailored to local areas, are created and used to strengthen the urban design qualities of the city. [Inferred decision requested].
The Retirement Villages Association of New Zealand Incorporated	FS126.5	Part 4 / Design Guides Subpart / Design Guides / New design guide	Oppose	Inconsistent with the RVA's original submission which sought to exclude retirement villages from having to apply Design Guides. Council oversight is not required to retirement villages as the RVA is best placed to understand different operational and functional needs.	Disallow
Ryman Healthcare Limited	FS128.5	Part 4 / Design Guides Subpart / Design Guides / New design guide	Oppose	Inconsistent with Ryman's original submission which sought to exclude retirement villages from having to apply Design Guides. Council oversight is not required to retirement villages as Ryman is best placed to understand different operational and functional needs.	Disallow
Wellington Branch NZIA	301.13	Design Guides Subpart / Design Guides / New design guide	Amend	Considers that the Multi-Unit Design Guide should be reinstated, or otherwise brought back in a revised form.	Seeks that the Multi-Unit Design Guide be reinstated.
The Retirement Villages Association of New Zealand Incorporated	FS126.226	Part 4 / Design Guides Subpart / Design Guides / New design guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full.	Disallow
Ryman Healthcare Limited	FS128.226	Part 4 / Design Guides Subpart / Design Guides / New design guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow
Roland Sapsford	305.65	Design Guides Subpart / Design Guides / New design guide	Amend	Considers that an Aro Valley specific design guide which applies to all new developments within the existing character areas (as identified in the Operative Plan) should be instated.	Reinstate the Operative Plan's Design Guide specific to Aro Valley.
Willis Bond and Company Limited	416.205	Design Guides Subpart / Design Guides / New design guide	Amend	Submitter considers that the building separation distance is too restrictive and they do not consider it meets the RMA tests for appropriateness.	Include HRZ-S17 (Minimum building separation distance for multi-unit housing or a retirement village) in a non-statutory Design Guide.
The Retirement Villages Association of New Zealand Incorporated	FS126.267	Part 4 / Design Guides Subpart / Design Guides / New design guide	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.267	Part 4 / Design Guides Subpart / Design Guides / New design guide	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Greater Brooklyn Residents Association Inc's	459.15	Design Guides Subpart / Design Guides / New design guide	Amend	Considers that this would be a great move to sustainability. Considers that a 'must' have rather than a negotiation to get more height and induce more shading for others, if it is installed.	Seeks that all new developments must have solar or wind for communal lighting and heating.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Greater Brooklyn Residents Association Inc's	459.16	Design Guides Subpart / Design Guides / New design guide	Amend	Considers that there will never be another chance to include this in a building than when it is built. Considers that retrofitting will be expensive.	Seeks that water conservation would be madatory in design guides. [Inferred decision requested].
Craig Palmer	492.49	Design Guides Subpart / Design Guides / New design guide	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that Design Guides are introduced for all verandahs. [Refer to original submission for full guidance on verandah design guide notes].
Paul Burnaby	44.20	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support in part	Supports City Outcomes Contribution (pages 29 to 31).	Retain Centres and Mixed Use Design Guide as notified.
Nick Ruane	61.4	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	[No specific reason given beyond decision requested - refer to original submission].	Opposes G91 of the Centres and Mixed Use Design Guide in its current form and seeks amendment.
Nick Ruane	61.5	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that G91 of the Centres and Mixed Use Design Guide is amended as follows: For developments that are likely to be occupied by people with limited mobility, where possible, provide ground level access that is accessible by people using wheelchairs, and design units with reference to New Zealand Standards for access and mobility. Consider things such as....
The Retirement Villages Association of New Zealand Incorporated	FS126.185	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA's primary submission to expressly exclude retirement villages from applying the Design Guides. To the extent these matters are relevant to retirement villages, they do not require council oversight as The RVA is best placed to understand residents' needs.	Disallow
Ryman Healthcare Limited	FS128.185	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission to expressly exclude retirement villages from applying the Design Guides. To the extent these matters are relevant to retirement villages, they do not require council oversight as Ryman is best placed to understand residents' needs.	Disallow
Victoria University of Wellington Students' Association	123.66	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support	Supports that ground-floor level buildings in centres are used for non-residential activities. [Refer to original submission for full reasons].	Seeks that ground-floor level buildings in Centres are used for non-residential activities.
Mclndoe Urban Limited	135.13	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	Considers that the City Outcomes Contribution (G97) is an interesting methodology, but there are many issues to be addressed for this to be effective and/or suitably responsive to context and the effects that may arise with 'over height' buildings. [Refer to original submission for full reasons]	Seeks that G97 (City Outcomes Contribution) is removed from the Centres and Mixed Use Design Guide.
Mclndoe Urban Limited	135.14	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that the City Outcomes Contribution (G97) is an interesting methodology, but there are many issues to be addressed for this to be effective and/or suitably responsive to context and the effects that may arise with 'over height' buildings. [Refer to original submission for full reasons]	Seeks that the extent of scope to increase height and public/neighbour involvement in that, and remove possibility for height to extend above the permitted envelope to be delivered using the City Outcomes Contribution mechanism in the residential zones is reconsidered.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
McIndoe Urban Limited	135.15	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Considers that the City Outcomes Contribution (G97) is an interesting methodology, but there are many issues to be addressed for this to be effective and/or suitably responsive to context and the effects that may arise with 'over height' buildings. [Refer to original submission for full reasons]	Seeks that the workability and effectiveness of the City Outcomes Contribution methodology is tested.
McIndoe Urban Limited	135.16	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that the City Outcomes Contribution (G97) is an interesting methodology, but there are many issues to be addressed for this to be effective and/or suitably responsive to context and the effects that may arise with 'over height' buildings. [Refer to original submission for full reasons]	Seeks that the content of the G97 (City Outcomes Contribution) is refined with consideration of the matters identified.
McIndoe Urban Limited	135.17	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that the title 'Responding to whakapapa of place' under the broad title of 'Responding to the natural environment' would be better as 'Responding to context' as many of the matters addressed are responses to the cultural and built environment.	Amend heading 'Responding to whakapapa of place' as follows: 'Responding to context'
McIndoe Urban Limited	135.18	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that G1 has two lists and multiple overlapping layers, and that a single much tighter list should be used. Considers that the level of detail required in this guideline will be too much for some projects. Considers that context analysis should be framed around the scope of the project. Considers that there is a focus on existing context but no recognition of planned urban context and character. Considers that when there is no specific requirement to respond to matters such as materials, finishes and textures, this is unnecessary detail.	Amend G1 (Responding to whakapapa of place) of the Centres and Mixed Use Design Guide as follows: ... "...should include, <u>where relevant</u> , the following:"
McIndoe Urban Limited	135.19	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that G2 repeats G1 and these two guidelines should be integrated.	Seeks that G1 and G2 (Responding to whakapapa of place) of the Centres and Mixed Use Design Guide are integrated.
McIndoe Urban Limited	135.20	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	G3 is an essential requirement, yet there will be situations where planting at the interface of the public realm is problematic, for example along the Golden Mile.	Not specified.
McIndoe Urban Limited	135.21	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Considers G3 will place an overemphasis on planting in centres, where it may be inappropriate within the private realm along a retail.	Not specified.
McIndoe Urban Limited	135.22	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Considers that G11 is sound in principle, but is already covered by the Residential Design Guide. Considers that there may be challenges in relying on natural ventilation in the central city context unless there are very strict controls on external noise after hours.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
McIndoe Urban Limited	135.23	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support in part	Considers that while G14 can't be disagreed with in principle, it is too vague as a direction.	Clarify G14 (Designing with Topography) of the Centres and Mixed Use Design Guide.
McIndoe Urban Limited	135.24	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	Considers that G15 should not be included in the Design Guide as this is covered by Council standards.	Seeks that G15 (Designing with Topography) of the Centres and Mixed Use Design Guide is deleted.
McIndoe Urban Limited	135.25	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Considers that the 'Designing with Water' section of the Design Guide contains unnecessary repetition that will lead to multiple assessments and inefficiencies. Matters relating to water are covered in three sections - G5 (vegetation and planting), G15 (designing with topography) and G16/G17 (designing with water).	Not specified.
McIndoe Urban Limited	135.26	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Considers that G19 overlaps with G2, G4 and G8	Not specified.
McIndoe Urban Limited	135.27	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support in part	Considers that while G20 is sound as an objective, this risks being overly broad as a guideline as it can be taken to mean many different things.	Clarify G20 (Ground floor interface and frontage) of the Centres and Mixed Use Design Guide.
McIndoe Urban Limited	135.28	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support in part	Considers that while G22 is sound the diagrams are questionable. [Refer to submission for details]	Not specified.
McIndoe Urban Limited	135.29	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that while G22 is sound the diagrams are questionable. [Refer to submission for details]	Amend the diagrams under G22 (Ground floor interface and frontage) of the Centres and Mixed Use Design Guide.
McIndoe Urban Limited	135.30	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Considers that the methods identified under G28 may be unnecessary in some instances or too onerous in others.	Not specified.
McIndoe Urban Limited	135.31	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	Considers that passive surveillance is already covered by G21, and then again by G41 and G50.	Seeks that G31 (Passive surveillance) of the Centres and Mixed Use Design Guide is removed to avoid unnecessary repetition.
McIndoe Urban Limited	135.32	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Considers that G33 is too open and undefined. Queries what is meant by 'an appropriate transition' - i.e. what is the principle to be followed? Considers that the types of open space need to be defined. Considers that if sunlight protection is desirable then that should be a rule.	Clarify G33 (Massing and scale) of the Centres and Mixed Use Design Guide.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
McIndoe Urban Limited	135.33	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Considers that G35 is contrary to design in context and could lead to arbitrary outcomes.	Not specified.
McIndoe Urban Limited	135.34	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Submission point re G42. No specific reason provided.	Not specified.
McIndoe Urban Limited	135.35	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Considers that the methods identified under G45 in italics are undefined and open the opportunity of use of ineffective methods.	Not specified.
McIndoe Urban Limited	135.36	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that G46 repeats G45.	Seeks that G45, G46 and G47 (Roofscape) of the Centres and Mixed Use Design Guide are integrated.
McIndoe Urban Limited	135.37	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that G47 repeats G45 / G46.	Seeks that G45, G46 and G47 (Roofscape) of the Centres and Mixed Use Design Guide are integrated.
McIndoe Urban Limited	135.38	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that the five guidelines under 'Connections for People' should be compressed into fewer guidelines.	Seeks that the five guidelines under 'Connections for People' are compressed into fewer guidelines.
McIndoe Urban Limited	135.39	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that G49 and G53 could be combined into a single guideline.	Seeks that G49 and G53 (Connections for people) of the Centres and Mixed Use Design Guide are integrated.
McIndoe Urban Limited	135.40	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that passive surveillance is covered multiple times and this should be rationalised.	Not specified.
McIndoe Urban Limited	135.41	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that the wording of G51 should be amended.	Amend G51 (Connections for people) of the Centres and Mixed Use Design Guide as follows: Avoid entrapments opportunity for entrapment and minimise blind corners along routes by providing good sightlines and alternative routes
McIndoe Urban Limited	135.42	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that G51 and G52 could be combined into a single guideline.	Seeks that G51 and G52 (Connections for people) of the Centres and Mixed Use Design Guide are integrated.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
McIndoe Urban Limited	135.43	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Submission point re G52. No specific reason provided.	Not specified.
McIndoe Urban Limited	135.44	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Submission point re G53. Combine with G49.	Seeks that G49 and G53 (Connections for people) of the Centres and Mixed Use Design Guide are integrated.
McIndoe Urban Limited	135.45	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Submission point re G53. Considers that lighting should be covered later. To give certainty, this should better identify the situations where pedestrian connectivity is enhanced.	Clarify G53 (Connections for people) of the Centres and Mixed Use Design Guide.
McIndoe Urban Limited	135.46	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that while G55 is sound in principle, there may be instances in a centre or mixed use area where it is acceptable to have a car-park, subject to appropriate facade design located at upper levels extending to the street edge and this should be acknowledged - but the guideline and associated illustration preclude this.	Amend G55 (Car-parking and service vehicles) of the Centres and Mixed Use Design Guide to allow for parking in some instances.
McIndoe Urban Limited	135.47	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Considers that lighting is a matter of detail that can be covered by standards and referred to in conditions on a resource consent.	Not specified.
McIndoe Urban Limited	135.48	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that G62 and G63 cover the same matter and should be combined.	Seeks that G62 and G63 (Lighting) of the Centres and Mixed Use Design Guide are combined.
McIndoe Urban Limited	135.49	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that G70 identified a list of five matters that need to be considered, and that G71 and G73 are matters of the same order and should be included in that list.	Seeks that the matters under G71 (design of communal areas should maximise their use and enhance their safety and accessibility) and G73 (Consider the design of communal spaces to enhance a sense of place) of the Centres and Mixed Use Design Guide be included in the list under G70 (Open and communal space).
McIndoe Urban Limited	135.50	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Consider that the focus of G72 only on outdoor space omits consideration of the shared communal facilities that are a useful feature of build to rent and other emerging apartment developments and the content should be modified to recognise that. Notes that the text needs to be amended with no specific details provided.	Seeks that the content of G72 (Open and communal space) of the Centres and Mixed Use Design Guide be amended to allow consideration of shared communal facilities.
McIndoe Urban Limited	135.51	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that the wording of G77 is ambiguous and that precluding any ventilation from to/from the street is unnecessarily restrictive.	Seeks that G77 (Servicing) of the Centres and Mixed Use Design Guide is clarified and amended.
McIndoe Urban Limited	135.52	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Considers that using the words 'where possible' in G78 could result in negative effects on the site use and particularly on small narrow lots in centres and mixed use zones. Considers that the guideline should instead focus on how such facilities are 'required' in order to avoid adverse effects on the street environment, rather than encouraging on site vehicle access of the type.	Amend G78 (Servicing) of the Centres and Mixed Use Design Guide.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
McIndoe Urban Limited	135.53	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support in part	Considers that G82 is an important guideline and is essential to achieving outcomes that are more than an assemblage of uncoordinated response to a range of guidelines; but that the wording is currently too vague.	Retain G82 (Architectural coherence) of the Centres and Mixed Use Design Guide, with amendment.
McIndoe Urban Limited	135.54	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that G82 is an important guideline and is essential to achieving outcomes that are more than an assemblage of uncoordinated response to a range of guidelines; but that the wording is currently too vague.	Amend G82 (Architectural coherence) of the Centres and Mixed Use Design Guide to include the following underlined wording, taken from G81 (Wind effects on the public): Provide appropriate solutions to mitigate any impacts of the development on wind or micro-climate within and beyond the site that are functional and do not <u>compromise the coherence and compositional integrity of the building.</u>
McIndoe Urban Limited	135.55	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Considers that G87 is unsound and precludes the diagrid buildings that are a feature of innovative contemporary structural and architectural design in Wellington. Further, in an earthquake prone city, expression of strength of a building can be structurally efficiency, psychologically comforting and architecturally viable.	Not specified.
McIndoe Urban Limited	135.56	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Submission point on G88 - considers that exoskeletons, external columns and external bracing elements should not be precluded as these may be the only way of saving existing unsound buildings, and can be successfully achieved,	Seeks that G88 (Seismic bracing/strengthening) of the Centres and Mixed Use Design Guide is amended to identify the qualities that are required, should this approach be taken.
McIndoe Urban Limited	135.57	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Submission point re G89. No specific reason provided.	Not specified.
McIndoe Urban Limited	135.58	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support in part	Considers that while G90 is sound in principle, the second bullet point is vague and undefined.	Not specified.
McIndoe Urban Limited	135.59	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose in part	Considers that the italicised bullet points under G91 address a level of detail that is not provided and should not be necessary at the time of resource consent. These should be deleted.	Amend G91 (Compatibility of uses (Mixed Use)) of the Centres and Mixed Use Design Guide as follows: G91. For developments that are likely to be occupied by people with limited mobility, where possible, provide ground level access that is accessible by people using wheelchairs, and design units with reference to New Zealand standards for access and mobility. Consider things such as: — Lever handles on all doors — Easy to reach window sills, power sockets and light switches — Sufficient space to access storage spaces including wardrobes — Ensuring flush levels between rooms, at entryways, and shower access — Ensuring smoke alarms have both visual and audible alerts — Best practice guidance for accessible kitchen, laundry and bathroom design — Best practice standards for signage legibility and colour contrast
McIndoe Urban Limited	135.60	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Considers that G93 requires a level of detail that is unlikely to be known or assessed at the time of resource consent.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
McIndoe Urban Limited	135.61	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	Considers that G95 and G96 are sound in principle but relating to matters of specification and construction methodology and are more properly addressed at the time of building consent.	Seeks that G95 (Waste reduction) of the Centres and Mixed Use Design Guide is deleted.
McIndoe Urban Limited	135.62	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	Considers that G95 and G96 are sound in principle but relating to matters of specification and construction methodology and are more properly addressed at the time of building consent.	Seeks that G96 (Waste reduction) of the Centres and Mixed Use Design Guide is deleted.
McIndoe Urban Limited	135.63	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	Considers that G97 relating to City Outcomes Contributions should be deleted.	Seeks that G97 (City Outcomes Contribution) of the Centres and Mixed Use Design Guide is deleted.
Stratum Management Limited	249.45	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	Considers that the guideline (G5) appears to introduce requirements additional to the Three Waters chapter.	Remove guideline G5 of the Centres and Mixed Use Design Guide (Vegetation and planting).
Stratum Management Limited	249.46	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that the guideline (G8), as worded, will be difficult to apply in a city centre context.	Re-word the guideline G8 (Urban Ecology) of the Centres and Mixed Use Design Guide to make it achievable in the city centre context.
Stratum Management Limited	249.47	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	Opposes the guideline (G69) in relation to the bike storage in respect of the Transport chapter.	Seeks that appropriate qualification is ensured in the guideline G69 (Carbon reduction - site) of the Centres and Mixed Use Design Guide.
McDonald's	274.76	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	McDonald's is opposed to the 'City Outcomes Contributions' provisions and considers that developments that breach height standards should instead be considered on their merits and effects. The merits of a proposal should not be confined to a specified and required list.	Seeks that G97 of the Centres and Mixed Use Design Guide (City Outcomes Contributions) is deleted.
Johnsonville Community Association Inc	FS114.45	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support	Considers that while large scale residential developments "will positively contribute to addressing future challenges confronting the city", such developments will also likely have a severe adverse impact on the neighbouring properties. Having a 6 storey development under NDRZ zone rules occur next door will have a major impact on neighbouring home owners and having a 7, 8 or higher development under City Outcome Rules will only have a greater adverse local impact. It is particularly objectionable that a development can increase its height by simply "satisfying the relevant design guide". It is unclear what would enable a development to meet this criteria but the design guide does not include any significantly onerous requirements ... in fact "The guidance that follows here is ... to ensure best practice design approaches and encourage built outcomes." This one provision essentially increases the maximum height in these zones by 1 storey to 7 storeys for MDRZ and 2 storeys to 10 storeys in the Metropolitan. The JCA supports the encouragement of significant residential developments but it is unfair to support this by rewarding such developments with height increases beyond PDP maximums. This permits developments that can be out of scale to the area in which it is built with major local adverse impacts on amenity and property values.	Allow / Seeks to delete the City Outcomes Contribution provisions from Centres and Mixed Use Design Guide in its entirety.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
McDonald's	274.77	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support in part	Generally supports the intent and provisions of the Centres and Mixed Use Design Guide.	Retain Centres and Mixed Use Design Guide, subject to amendments outlined other submission points.
Wellington Branch NZIA	301.14	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that the Centres and Mixed Use Design Guide is too vague and should be amended to push for greater analysis of the construction carbon footprint.	Clarify the Centres and Mixed Use Design Guide to provide greater analysis of the construction carbon footprint.
The Retirement Villages Association of New Zealand Incorporated	FS126.227	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full.	Disallow
Ryman Healthcare Limited	FS128.227	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow
Wellington Branch NZIA	301.15	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that the Centres and Mixed Use Design Guide should be amended to require a Design Review Panel made of urban planners, architects, landscape architects, Iwi and public representatives.	Amend the Centres and Mixed Use Design Guide to require a Design Review Panel.
The Retirement Villages Association of New Zealand Incorporated	FS126.225	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission and with the intent of the Enabling Housing Act and the NPSUD, in that it will slow, not speed up intensification.	Disallow
Ryman Healthcare Limited	FS128.225	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission and with the intent of the Enabling Housing Act and the NPSUD, in that it will slow, not speed up intensification.	Disallow
Disabled Persons Assembly New Zealand Incorporated	343.14	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that inserting the term 'ensure' rather than 'consider' in clause G91 of the Centres and Mixed Use Design Guide provides greater emphasis on the need to meet standards.	Amend G91 (Accessibility) of the Centres and Mixed Use Design Guide as follows: For developments that are likely to be occupied by people with limited mobility, where possible, provide ground level access that is accessible by people using wheel chairs, and design units with reference to New Zealand standards for access and mobility. Consider Ensure things such as: ... [Inferred decision requested]

Lucy Harper and Roger Pemberton	401.94	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support in part	Supports the Centres and Mixed Use Design Guide in part. Submitter notes that the design guide is intended to encourage developers to use more sustainable materials to help meet the climate change challenge (Strategic Direction Chapter).	Retain the Centres and Mixed Use Design Guide, with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Lucy Harper and Roger Pemberton	401.95	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that this guidance should extend to the encouragement of the use of timber as a structural material in high rise buildings to reduce the use of concrete which has a very high carbon cost.	Seeks that the Centres and Mixed Use Design Guide be amended as follows: <u>G84 (a) Consider the use of timber as a structural basis for high rise buildings, or words to like effect.</u>
Investore Property Limited	405.139	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support in part	Generally supports the intent and provisions of the design guides. However, considers that it is important that the design guides are reference documents that sit outside the district plan, rather than being formally incorporated into the district plan. Incorporating the design guides into the district plan elevates these provisions into the form of standards, rather than what they are intended to be as guidance. The Centres and Mixed-Use Design Guide is supported and a helpful tool, however it should be a reference document that sits outside the district plan [Refer to original submission for full reason].	Retain the Design Guides and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.110	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.110	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Investore Property Limited	405.140	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that it is important that the design guides are reference documents that sit outside the district plan, rather than being formally incorporated into the district plan. Incorporating the design guides into the district plan elevates these provisions into the form of standards, rather than what they are intended to be as guidance. The Centres and Mixed-Use Design Guide is supported and a helpful tool, however it should be a reference document that sits outside the district plan [Refer to original submission for full reason].	Seeks that the design guides are reference documents that sit outside of the district plan, rather than being formally incorporated into the district plan.
The Retirement Villages Association of New Zealand Incorporated	FS126.111	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.111	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Investore Property Limited	405.141	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that the Centres and Mixed Use, and Residential design guides have the potential to overlap and conflict with each other. Some activities, such as construction of buildings, may require separate design assessments under the two design guides. To avoid conflict and duplication the design guides should be combined into a single document.	Amend Design Guides to combine the Centres and Mixed Use, and Residential Design Guides into a single design guide document.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Investore Property Limited	405.142	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	<p>Considers that the 'City Outcomes Contributions' provisions, and specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development is inappropriate. Submitter recognises the intent of these provisions in providing publicly beneficial outcomes, but considers it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Considers that developments that breach height standards should instead be considered on their own merits and effects.</p> <p>Considers that the provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list.</p> <p>Should the City Outcomes Contributions provisions be retained, there needs to be greater clarity and predictability provided under Table 3 of G97 of the Centres and Mixed Use Design Guide.</p> <p>[Refer to original submission for full reason, including attachment].</p>	<p>Opposes Table 3 of the Centres and Mixed Use Design Guide and seeks amendment.</p> <p>[Refer to original submission for attachment].</p>
Johnsonville Community Association Inc	FS114.26	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support	<p>Considers that while large scale residential developments "will positively contribute to addressing future challenges confronting the city", such developments will also likely have a severe adverse impact on the neighbouring properties. Having a 6 storey development under NDRZ zone rules occur next door will have a major impact on neighbouring home owners and having a 7, 8 or higher development under City Outcome Rules will only have a greater adverse local impact. It is particularly objectionable that a development can increase its height by simply "satisfying the relevant design guide". It is unclear what would enable a development to meet this criteria but the design guide does not include any significantly onerous requirements ... in fact "The guidance that follows here is ... to ensure best practice design approaches and encourage built outcomes." This one provision essentially increases the maximum height in these zones by 1 storey to 7 storeys for MDRZ and 2 storeys to 10 storeys in the Metropolitan. The JCA supports the encouragement of significant residential developments but it is unfair to support this by rewarding such developments with height increases beyond PDP maximums. This permits developments that can be out of scale to the area in which it is built with major local adverse impacts on amenity and property values.</p>	<p>Allow / Seeks to delete the City Outcomes Contribution provisions from Centres and Mixed Use Design Guide in its entirety.</p>
Investore Property Limited	405.143	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	<p>Considers that the 'City Outcomes Contributions' provisions, and specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development is inappropriate. Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association Inc	FS114.27	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support	Considers that while large scale residential developments “will positively contribute to addressing future challenges confronting the city”, such developments will also likely have a severe adverse impact on the neighbouring properties. Having a 6 storey development under NDRZ zone rules occur next door will have a major impact on neighbouring home owners and having a 7, 8 or higher development under City Outcome Rules will only have a greater adverse local impact. It is particularly objectionable that a development can increase its height by simply “satisfying the relevant design guide”. It is unclear what would enable a development to meet this criteria but the design guide does not include any significantly onerous requirements ... in fact “The guidance that follows here is ... to ensure best practice design approaches and encourage built outcomes.” This one provision essentially increases the maximum height in these zones by 1 storey to 7 storeys for MDRZ and 2 storeys to 10 storeys in the Metropolitan. The JCA supports the encouragement of significant residential developments but it is unfair to support this by rewarding such developments with height increases beyond PDP maximums. This permits developments that can be out of scale to the area in which it is built with major local adverse impacts on amenity and property values.	Allow / Seeks to delete the City Outcomes Contribution provisions from Centres and Mixed Use Design Guide in its entirety.
Guy Marriage	407.11	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that there is a clear need for a Design Review Panel. The mix of the panel would include urban planners, architects, landscape architects, Iwi and public representatives. We believe improving the design guide also presents the council with an opportunity to push for greater analysis of the construction carbon footprint.	Seeks that the Centres and Mixed Use Design Guide in reviewed by a Design Review Panel.
Guy Marriage	407.12	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that the Centres and Mixed Use Design Guides repeat much of what has been raised in the Residential Design Guide, which highlights the need for far more specialization of the Guides.	Seeks that each Design Guide has more specialisation.
The Retirement Villages Association of New Zealand Incorporated	FS126.247	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA’s primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full.	Disallow
Ryman Healthcare Limited	FS128.247	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman’s primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow
Wellington Heritage Professionals	412.84	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that G28 of the Centres and Mixed use design guide lacks practical specificity on how to manage height and scale and that the operative district plan design guidance should be reinstated on this matter.	Amend the design guide to include G3.5 and the associated diagrams from the current Central Area Urban Design Guide
The Retirement Villages Association of New Zealand Incorporated	FS126.248	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA’s primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full.	Disallow
Ryman Healthcare Limited	FS128.248	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman’s primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.206	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support in part	<p>Supports Centres and Mixed Use Design Guide - City Outcomes Contribution guideline G97 in part. While generally supportive of the City Outcomes Contribution, the submitter considers there needs to be a level of certainty that the significant investment required to deliver these outcomes will result in material and reliable intensifications (be it height, floor area ratio, etc). Submitter considers that as currently drafted, the initiative remains "subject to" numerous other mechanisms in the plan, potentially rendering it ineffective, despite its good intentions.</p> <p>Submitter considers that Centres and Mixed Use Design Guide - City Outcomes Contribution guideline G97 is also phrased to "require" City Outcomes Contributions, rather than to provide a clear incentive for meeting the requested outcomes.</p>	Retain Centres and Mixed Use Design Guide - City Outcomes Contribution guideline G97, with amendments.
The Retirement Villages Association of New Zealand Incorporated	FS126.268	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.268	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Willis Bond and Company Limited	416.207	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	<p>Supports Centres and Mixed Use Design Guide - City Outcomes Contribution guideline G97 in part. While generally supportive of the City Outcomes Contribution, the submitter considers there needs to be a level of certainty that the significant investment required to deliver these outcomes will result in material and reliable intensifications (be it height, floor area ratio, etc). Submitter considers that as currently drafted, the initiative remains "subject to" numerous other mechanisms in the plan, potentially rendering it ineffective, despite its good intentions.</p> <p>Submitter considers that G97 is also phrased to "require" City Outcomes Contributions, rather than to provide a clear incentive for meeting the requested outcomes.</p> <p>If height limits are removed (see comments on CCZ-S1), the City Outcomes Contribution guideline will need to be deleted and/or redefined to relate to additional floor area (or an appropriate metric as required).</p>	Delete Centres and Mixed Use Design Guide City Outcomes Contribution guideline G97 if height limits are also deleted.
The Retirement Villages Association of New Zealand Incorporated	FS126.269	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.269	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.208	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	<p>Supports Centres and Mixed Use Design Guide - City Outcomes Contribution guideline G97 in part. While generally supportive of the City Outcomes Contribution, the submitter considers there needs to be a level of certainty that the significant investment required to deliver these outcomes will result in material and reliable intensifications (be it height, floor area ratio, etc). Submitter considers that as currently drafted, the initiative remains “subject to” numerous other mechanisms in the plan, potentially rendering it ineffective, despite its good intentions.</p> <p>Submitter considers that Centres and Mixed Use Design Guide - City Outcomes Contribution guideline G97 is also phrased to “require” City Outcomes Contributions, rather than to provide a clear incentive for meeting the requested outcomes.</p> <p>If height limits are removed (see comments on CCZ-S1), the City Outcomes Contribution will need to be deleted and/or redefined to relate to additional floor area (or an appropriate metric as required).</p>	Seeks that Centres and Mixed Use Design Guide City Outcomes Contribution guideline G97 be amended if floor area ratios are used instead of height standards. Amend to allow greater additional floor area (or an appropriate metric as required) if the relevant outcomes are achieved.
The Retirement Villages Association of New Zealand Incorporated	FS126.270	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.270	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Willis Bond and Company Limited	416.209	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	<p>Supports Centres and Mixed Use Design Guide City Outcomes Contribution guideline G97 in part. While generally supportive of the City Outcomes Contribution, the submitter considers there needs to be a level of certainty that the significant investment required to deliver these outcomes will result in material and reliable intensifications (be it height, floor area ratio, etc). Submitter considers that as currently drafted, the initiative remains “subject to” numerous other mechanisms in the plan, potentially rendering it ineffective, despite its good intentions.</p> <p>Submitter considers that Centres and Mixed Use Design Guide City Outcomes Contribution guideline G97 is also phrased to “require” City Outcomes Contributions, rather than to provide a clear incentive for meeting the requested outcomes.</p> <p>If height limits are removed (see comments on CCZ-S1), the City Outcomes Contribution will need to be deleted and/or redefined to relate to additional floor area (or an appropriate metric as required).</p>	Seeks that if Centres and Mixed Use Design Guide City Outcomes Contribution guideline G97 is retained, it should be re-phrased so that, rather than “Require over and under height” developments to deliver City Outcomes Contributions, the height limit for developments is varied where City Outcomes Contributions are achieved. The change of phrasing reflects the possibility that, as currently proposed, over and under height developments still have a theoretical pathway to obtain a restricted discretionary consent without achieving City Outcomes Contributions. It would also make it clearer that the developer providing the outcome is entitled to the increase in height (or floor area).
The Retirement Villages Association of New Zealand Incorporated	FS126.271	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.271	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.

Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Fabric Property Limited	425.109	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	<p>If the references to the City Outcomes Contributions are to be retained, considers that there needs to be greater clarity and predictability provided under Table 3 of G97 of the Centres and Mixed Use Design Guide. As notified, there is a wider range of points set out for different "outcomes" with little detail provided on how these will be allocated or scored. While many developments may achieve the outcomes set out in Table 3 regardless, it will be difficult for applicants to design developments to achieve these outcomes when it is unclear how points will be awarded for many of the outcomes. For example, in providing a lane-way or public amenities when it could be awarded anywhere between 1-10 or 1-5 points and there is no objective criteria as to how points are awarded.</p> <p>Submitter has provided more comments on Table 3 in Appendix C of their original submission to identify how Table 3 could be amended to provide certainty and clarity for the Council and applicants in how points will be awarded.</p>	<p>If the Proposed District Plan retains provisions relating to the City Outcomes Contribution:</p> <p>Seeks that Table 3 of G97 in the Centres and Mixed Use Design Guide is amended to provide greater clarity and predictability around the City Outcomes points that will be achieved for different outcomes.</p> <p>[See Appendix C of original submission for amendments to Table 3]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fabric Property Limited	425.110	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	<p>Seeks amendments to the design guides to anticipate situations where a consent holder will provide a City Outcomes Contribution for current and future stages of a staged development, and receive a credit toward future stages. This should be a codified system in which points achieved but not needed by a development are recorded against a property for use for a later project. This would encourage comprehensive development to take a future-focussed approach in light of the outcomes sought in the design guides.</p> <p>It is appropriate that points be retained as credits to reflect that outcomes have been achieved which have community benefits, and significant investment may have been undertaken in order to achieving points under Table 3.</p> <p>This is important for the redevelopment of a large site where City Outcomes Contributions are provided and credits earned on early stages but not used in that stage, and therefore should be available to be used in future stages.</p>	<p>If the Proposed District Plan retains provisions relating to the City Outcomes Contribution:</p> <p>Seeks that the Centres and Mixed Use Design Guide is amended to enable a codified system for credits for City Outcomes Contributions achieved by earlier stages of development to be used for later stages of development on the same property.</p>
Johnsonville Community Association	429.41	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	<p>Considers that large-scale developments will likely have adverse impacts on neighbouring properties.</p> <p>It is unclear what would enable a development to meet the criteria of "satisfying the relevant design guide".</p> <p>Considers that it is unfair to encourage developments by rewarding height increases beyond PDP maximums.</p> <p>[See original submission for full reason]</p>	Delete the City Outcomes Contribution provisions from Centres and Mixed Use Design Guide in its entirety.
Stride Investment Management Limited	470.65	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support in part	Supports in general the Centres and Mixed Use Design Guide.	Not specified.
Stride Investment Management Limited	470.66	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that the Centres and Mixed Use Design Guide should be a reference document that sits outside of the district plan and referenced in the relevant plan provisions in the following way: "For guidance, refer to the Centres and Mixed Use Design Guide"	Delete all direct references to the design guides in the Metropolitan Centre Zone provisions and replace with references as appropriate and necessary to the specific design outcomes that are being sought.
Stride Investment Management Limited	470.67	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that the Centres and Mixed Use, and Residential design guides have the potential to overlap and conflict with each other. Some activities, such as construction of buildings, may require separate design assessments under the two design guides.	Seeks that the Centres and Mixed Use, and Residential Design Guides are combined into a single design guide document.
Stride Investment Management Limited	470.68	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose	<p>Opposes the 'City Outcomes Contributions' in the Centres and Mixed Use Design Guide.</p> <p>Considers that there is a wider range of points set out for different "outcomes" with little detail provided on how these will be allocated or scored.</p> <p>Considers that it will be difficult for applicants to design developments to achieve these outcomes when it is unclear how points will be awarded for many of the outcomes.</p> <p>[Refer to original submission for full reason]</p>	Remove all references to the 'City Outcomes Contributions' from the PDP and Design Guides.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association Inc	FS114.31	Part 4 / Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support	Considers that while large scale residential developments “will positively contribute to addressing future challenges confronting the city”, such developments will also likely have a severe adverse impact on the neighbouring properties. Having a 6 storey development under NDRZ zone rules occur next door will have a major impact on neighbouring home owners and having a 7, 8 or higher development under City Outcome Rules will only have a greater adverse local impact. It is particularly objectionable that a development can increase its height by simply “satisfying the relevant design guide”. It is unclear what would enable a development to meet this criteria but the design guide does not include any significantly onerous requirements ... in fact “The guidance that follows here is ... to ensure best practice design approaches and encourage built outcomes.” This one provision essentially increases the maximum height in these zones by 1 storey to 7 storeys for MDRZ and 2 storeys to 10 storeys in the Metropolitan. The JCA supports the encouragement of significant residential developments but it is unfair to support this by rewarding such developments with height increases beyond PDP maximums. This permits developments that can be out of scale to the area in which it is built with major local adverse impacts on amenity and property values.	Allow / Seeks to delete the City Outcomes Contribution provisions from Centres and Mixed Use Design Guide in its entirety.
Stride Investment Management Limited	470.69	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers appropriate that as an alternative to removing references to 'City Outcomes Contributions' from the PDP and Design Guides, that changes to G97 are necessary. Considers that there is a need for greater clarity and predictability provided under Table 3 (G97). Considers that there is little detail provided on how the different outcomes will be allocated or scored. [Refer to original submission for full reasons].	Seeks alternative to the preferred relief of remove all references to the 'City Outcomes Contributions' from the PDP and Design Guides. Seeks to amend Table of G97 of the Centres and Mixed Use Design Guide to provide greater clarity and predictability around the City Outcomes points that will be achieved for different outcomes, in light of the submitter's comments in Appendix B. [refer to original submission for attachment].
Stride Investment Management Limited	470.70	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers appropriate that as an alternative to removing references to 'City Outcomes Contributions' from the PDP and Design Guides, to replace a codified system for credits for City Outcomes Contributions. Considers appropriate that where points are awarded for the current stage of a development, that this should be able to be used as credits at later stages of development (of a staged development) or for future projects. [Refer to original submission for full reason]	Seeks alternative to the preferred relief of remove all references to the 'City Outcomes Contributions' from the PDP and Design Guides. Seeks to amend the Centres and Mixed Use Design Guide to enable a codified system for credits for City Outcomes Contributions achieved by earlier stages of development to be used for later stages of development on the same property. [refer to original submission for attachment].
Stride Investment Management Limited	470.71	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that 'public space' should be used instead of 'public open space'.	Amend Table 3 as follows: .. For every 10% of the site accessible as public open space [Inferred decision requested]
Stride Investment Management Limited	470.72	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that objective criteria is needed for outcome of 'For every 10% of the site accessible as public open space'. [Inferred decision requested]
Stride Investment Management Limited	470.73	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that there should be a set number of points for providing a lane-way or through block connection through a site, for outcome 'Any lane-way or through block connection'. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Stride Investment Management Limited	470.74	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that objective criteria is needed for outcome of 'Provision of appropriate communal gardens, playgrounds, and roof gardens'. [Inferred decision requested]
Stride Investment Management Limited	470.75	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that objective criteria is needed for outcome of 'Provision of permanent public amenities, i.e. public toilets'. [Inferred decision requested]
Stride Investment Management Limited	470.76	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that there should be objective criteria or guidance on the number of points that can be awarded in various reuse situations, for the outcome of "Adaptive reuse of buildings". [Inferred decision requested]
Stride Investment Management Limited	470.77	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that there should be objective criteria or guidance on the number of points that can be awarded in reducing embodied carbon, for the outcome of "Reduction in embodied carbon in buildings". [Inferred decision requested]
Stride Investment Management Limited	470.78	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that there should be objective criteria or guidance on the number of points that can be awarded in relation to different resilience measures, for the outcome of "Additional seismic resilience measures, including base isolations, seismic dampers, etc.". [Inferred decision requested]
Stride Investment Management Limited	470.79	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that objective criteria is needed, for the outcome of "Urban Design Panel Approval". [Inferred decision requested]
Foodstuffs North Island	476.61	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Oppose in part	Opposes the City Outcomes Contribution and seeks that it be removed from the plan in its entirety.	Delete the City Outcomes Contribution (G97) from the Centres and Mixed Use Design Guide.
Foodstuffs North Island	476.103	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Support in part	Considers that 'The internal spaces' (page 10 Centres and Mixed Use Design Guide) section is useful for some developments, supermarkets are designed and constructed for a specific activity therefore the guidance should recognise also the functional and operational requirements of activities and development, i.e. practicalities such as servicing, storage and rubbish bins.	Amend 'The internal spaces' (page 10 Centres and Mixed Use Design Guide) section as follows: Buildings in Centres and the Central area are designed to facilitate multiple uses and changes in use over time <u>while recognising the functional and operational requirements of activities and development.</u>
Foodstuffs North Island	476.104	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Amend	Considers that 'The internal spaces' (page 10 Centres and Mixed Use Design Guide) section is useful for some developments, supermarkets are designed and constructed for a specific activity therefore the guidance should recognise also the functional and operational requirements of activities and development, i.e. practicalities such as servicing, storage and rubbish bins.	Amend 'The internal spaces' (page 10 Centres and Mixed Use Design Guide) section as follows: Buildings in Centres and the Central area are designed to facilitate multiple uses and changes in use over time <u>while recognising the functional and operational requirements of activities and development.</u>
Te Rūnanga o Toa Rangatira	488.96	Design Guides Subpart / Design Guides / Centres and Mixed Use Design Guide	Not specified	[No specific reason given beyond decision requested - refer to original submission]. Dennis Michael Hunt	119.3	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Considers that refined design is key to the future of the area. The current design guidelines do not exhibit refinement and are based on box like structures and words which read well but do not contemplate how the written features would be practically incorporated.</p> <p>Sun and park-like areas should be prioritised and that exposed decks at higher levels in apartment buildings are not often used primarily due to wind.</p> <p>The steep terrain is advantageous for the creation of sheltered, sunny outdoor areas but would still require at least 30 metres between six-storey apartment blocks on the north east facing slope.</p>	Seeks that more refined design concepts are established for the HRZ (High Density Residential Zone) block of properties between Aurora Terrace, Bolton Street, the Urban Motorway, and Wesley Road.
McIndoe Urban Limited	135.64	Design Guides Subpart / Design Guides / Residential Design Guide	Not specified	<p>Considers that the City Outcomes Contribution (G137) is an interesting methodology, but there are many issues to be addressed for this to be effective and/or suitably responsive to context and the effects that may arise with 'over height' buildings.</p> <p>[Refer to original submission for full reasons]</p>	Seeks that G137 (City Outcomes Contribution) is removed from the Residential Design Guide.
Johnsonville Community Association Inc	FS114.49	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Support	<p>Considers that while large scale residential developments “will positively contribute to addressing future challenges confronting the city”, such developments will also likely have a severe adverse impact on the neighbouring properties. Having a 6 storey development under NDRZ zone rules occur next door will have a major impact on neighbouring home owners and having a 7, 8 or higher development under City Outcome Rules will only have a greater adverse local impact. It is particularly objectionable that a development can increase its height by simply “satisfying the relevant design guide”. It is unclear what would enable a development to meet this criteria but the design guide does not include any significantly onerous requirements ... in fact “The guidance that follows here is ... to ensure best practice design approaches and encourage built outcomes.” This one provision essentially increases the maximum height in these zones by 1 storey to 7 storeys for MDRZ and 2 storeys to 10 storeys in the Metropolitan. The JCA supports the encouragement of significant residential developments but it is unfair to support this by rewarding such developments with height increases beyond PDP maximums. This permits developments that can be out of scale to the area in which it is built with major local adverse impacts on amenity and property values.</p>	Allow / Seeks to delete the City Outcomes Contribution provisions from Centres and Mixed Use Design Guide in its entirety.
McIndoe Urban Limited	135.65	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Considers that the City Outcomes Contribution (G137) is an interesting methodology, but there are many issues to be addressed for this to be effective and/or suitably responsive to context and the effects that may arise with 'over height' buildings.</p> <p>[Refer to original submission for full reasons]</p>	Seeks that the extent of scope to increase height and public/neighbour involvement in that, and remove possibility for height to extend above the permitted envelope to be delivered using the City Outcomes Contribution mechanism in the residential zones is reconsidered.
McIndoe Urban Limited	135.66	Design Guides Subpart / Design Guides / Residential Design Guide	Not specified	<p>Considers that the City Outcomes Contribution (G137) is an interesting methodology, but there are many issues to be addressed for this to be effective and/or suitably responsive to context and the effects that may arise with 'over height' buildings.</p> <p>[Refer to original submission for full reasons]</p>	Seeks that the workability and effectiveness of the City Outcomes Contribution methodology is tested.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
McIndoe Urban Limited	135.67	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the City Outcomes Contribution (G137) is an interesting methodology, but there are many issues to be addressed for this to be effective and/or suitably responsive to context and the effects that may arise with 'over height' buildings. [Refer to original submission for full reasons]	Seeks that the content of the G137 (City Outcomes Contribution) is refined with consideration of the matters identified.
McIndoe Urban Limited	135.68	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G12 and G13 say more or less than same thing and should be combined to avoid repetition.	Seeks that G12 and G13 (Designing with Topography) of the Centres and Mixed Use Design Guide are integrated.
McIndoe Urban Limited	135.69	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the title 'Responding to whakapapa of place' under the broad title of 'Responding to the natural environment' would be better as 'Responding to context' as many of the matters addressed are responses to the cultural and built environment.	Amend heading 'Responding to whakapapa of place' as follows: <u>'Responding to context'</u>
McIndoe Urban Limited	135.70	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G1 has two lists and multiple overlapping layers, and that a single much tighter list should be used. Considers that the level of detail required in this guideline will be too much for some projects. Considers that context analysis should be framed around the scope of the project. Considers that there is a focus on existing context but no recognition of planned urban context and character. Considers that when there is no specific requirement to respond to matters such as materials, finishes and textures, this is unnecessary detail.	Amend G1 (Responding to whakapapa of place) of the Residential Design Guide as follows: ... "...should include, <u>where relevant</u> , the following:"
McIndoe Urban Limited	135.71	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G2 repeats G1 and these two guidelines should be integrated.	Seeks that G1 (Responding to whakapapa of place) and G2 (Responding to whakapapa of place) of the Residential Design Guide are integrated.
McIndoe Urban Limited	135.72	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the content under the subheadings 'Vegetation and Planting', 'Urban Ecology' and 'Carbon reduction - natural environment' (G3 to G10) should be rationalised as trees and landscaping are covered under all three headings.	Seeks that the content of G3 to G6 (Vegetation and Planting), G7 (Urban Ecology) and G8 to G10 (Carbon reduction - natural environment) of the Residential Design Guide is rationalised.
McIndoe Urban Limited	135.73	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G12 is better located in the stormwater section.	Seeks that G12 (Designing with topography) of the Residential Design Guide is moved to sit under the heading 'Stormwater'.
McIndoe Urban Limited	135.74	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G16 should be edited - recommends either listing the intended methods in full, or listing best practice water sensitive design, but not both as this is repetitive.	Seeks that G16 (Stormwater) of the Residential Design Guide is edited to avoid repetition.
McIndoe Urban Limited	135.75	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers the validity of the uses of greywater should be verified. No mention is made of toilet flushing or irrigation, which are common uses for grey water.	Seeks that G18 (Water conservation) of the Residential Design Guide is amended.
McIndoe Urban Limited	135.76	Design Guides Subpart / Design Guides / Residential Design Guide	Not specified	Considers that G25 is very broad, is undefined and its actual meaning is uncertain.	Seeks that G25 (Ground floor interface and frontage) of the Residential Design Guide is edited or deleted.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
McIndoe Urban Limited	135.77	Design Guides Subpart / Design Guides / Residential Design Guide	Not specified	Considers that G27 may be relevant for ground floor non-residential activity in centres, but does not fit well with private dining rooms in houses or apartments.	Not specified.
McIndoe Urban Limited	135.78	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers that G31 covers matters that must be addressed by the Heritage Design Guide so should be deleted	Seeks that G31 (Ground floor interface and frontage) of the Residential Design Guide is deleted.
McIndoe Urban Limited	135.79	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers that G33 is a construction management issue not an issue for the proposed building design.	Seeks that G33 (Ground floor interface and frontage) of the Residential Design Guide is deleted.
McIndoe Urban Limited	135.80	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G37 and G39 cover the same matter and should be combined.	Seeks that G37 and G39 (Entrances) of the Residential Design Guide are combined.
McIndoe Urban Limited	135.81	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers that G40, relating to canopies and verandas over building entrances, does not apply to residential development, and if the development is in a Centres it is covered by the Centres and Mixed Use Design Guide. G38 relates to cover at entries.	Seeks that G40 (Entrances) of the Residential Design Guide is deleted.
McIndoe Urban Limited	135.82	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G44 should allow a portion of the front fence to be high - e.g. not more than 50%, to allow privacy to front yards where these are the dwelling's only sunny area.	Seeks that G44 (Fencing) of the Residential Design Guide is amended to allow for a portion of a front fence to be high.
McIndoe Urban Limited	135.83	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that 'low' in G44 should be clarified.	Clarify the use of the word 'low' in G44 (Fencing) of the Residential Design Guide.
McIndoe Urban Limited	135.84	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that while G49 will be appropriate in some circumstances, it wont in others.	Seeks that G49 (Connections for people) of the Residential Design Guide is amended to acknowledge the subtleties of width being suitable for location and function.
McIndoe Urban Limited	135.85	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G50 conflates street with external accessways, and does not apply to streets. This should be added.	Seeks that G50 (Garages, carports and car pads) of the Residential Design Guide is amended to state that this guideline does not apply to external streets.
McIndoe Urban Limited	135.86	Design Guides Subpart / Design Guides / Residential Design Guide	Support in part	Considers that G54 is sound in principle but undefined, leading to uncertainty.	Clarify G54 (Vehicle crossings and basement entries) of the Residential Design Guide.
McIndoe Urban Limited	135.87	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G55 is unnecessary in some instances, where a shared surface approach may be both suitably safe and the optimal solution.	Seeks that G55 (Grouped parking and shared access at grade) of the Residential Design Guide is amended to allow for a shared surface approach in some circumstances. [Inferred decision requested]
McIndoe Urban Limited	135.88	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	The italicised test under G55 does not relate to the subject of the guideline.	Remove the italicised text under G55 (Grouped parking and shared access at grade) of the Residential Design Guide as follows: Planting is also important in ensuring visual amenity, stormwater treatment, shade and screening of grouped carpark spaces.
McIndoe Urban Limited	135.89	Design Guides Subpart / Design Guides / Residential Design Guide	Support in part	Considers that while G58 is sound in principle, there may be instances where it is acceptable to have a car-park, subject to appropriate facade design located at upper levels extending to the street edge and this should be acknowledged - but the guideline and associated illustration preclude this.	Amend G58 (Grouped parking and shared access at grade) of the Residential Design Guide to allow for parking in some instances.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
McIndoe Urban Limited	135.90	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G59 addresses the same matter as G55 and the two guidelines should be combined, with the qualifying matter to G55 that a shared surface approach may be suitably safe and the optimal solution in some circumstances.	Seeks that G55 and G59 (Grouped parking and shared access at grade) of the Residential Design Guide are combined, with amendment to allow for a shared surface approach in some circumstances .
McIndoe Urban Limited	135.91	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers that G60 is both unspecific and broad, could mean many things.	Seeks that G60 (Grouped parking and shared access at grade) of the Residential Design Guide is edited or deleted.
McIndoe Urban Limited	135.92	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers that G60 conflicts with G58.	Seeks that G60 (Grouped parking and shared access at grade) of the Residential Design Guide is edited or deleted.
McIndoe Urban Limited	135.93	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers that the italicised statement above G62 relates to neighbourhood design yet the guideline relates to design within the site.	Seeks that the italicised statement above G62 (Legibility) of the Residential Design Guide is deleted as follows: Safety, accessibility and legibility contribute to vibrant connected neighbourhoods.
McIndoe Urban Limited	135.94	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G62 should be integrated into 'Connections for People'.	Seeks that G62 (Legibility) of the Residential Design Guide is relocated to the section titled 'Connections for People'.
McIndoe Urban Limited	135.95	Design Guides Subpart / Design Guides / Residential Design Guide	Not specified	Submission point re G63 to G72 (Lighting). Considers that lighting is a matter of detail that is generally covered later and can be referred to in conditions on a resource consent.	Not specified.
McIndoe Urban Limited	135.96	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Submission point re G75 to G79 (Communal open space). Considers that these five guidelines could be compressed into one.	Seeks that G75 to G79 (Communal open space) of the Residential Design Guide are combined into one guideline.
McIndoe Urban Limited	135.97	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Submission point re G75 to G79 (Communal open space). Considers that the more guidance is required on what an appropriate level and extent of sun should be for shared spaces.	Clarify the use of 'sunlight access' within G75 to G79 (Communal open space) of the Residential Design Guide.
McIndoe Urban Limited	135.98	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G84 should include some provision for private occupation of parts of the frontage, with low fencing along the balance.	Seeks that G84 (Private open space) of the Residential Design Guide is amended to include some provision for private occupation of parts of the frontage, with low fencing along the balance.
McIndoe Urban Limited	135.99	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the more guidance is required on what an appropriate level and extent of sun should be for private open spaces.	Clarify the use of 'sunlight access' within G84 (Private open space) of the Residential Design Guide.
McIndoe Urban Limited	135.100	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G89 should refer to 'occupiable space', as clothes lines are a legitimate use that is required by the RDG.	Seeks that G89 (Balconies and sunrooms) of the Residential Design Guide is amended to refer to 'occupiable space'.
McIndoe Urban Limited	135.101	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that there is much overlap and scope for considerable compression of G90-G92 (Waste collection) and G93 -G94 (Waste storage). Notes that these guidelines refer to the Council's Waste Collection Bylaw 2020 which might supersede much of this content.	Seeks that G90-G92 (Waste collection) and G93 -G94 (Waste storage) of the Residential Design Guide are compressed into less guidelines.
McIndoe Urban Limited	135.102	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	No specific reason provided.	Seeks that G99, G101, G102 and G103 (External storage) of the Residential Design Guide are combined into a single guideline,

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
McIndoe Urban Limited	135.103	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	No specific reason provided.	Seeks that G104 and G105 (External storage) of the Residential Design Guide are combined into a single guideline,
McIndoe Urban Limited	135.104	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that guidance should be provided to address uncertainty created by G100.	Clarify G100 (External storage) of the Residential Design Guide.
McIndoe Urban Limited	135.105	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G105 may be challenging to achieve when storage and service areas are within basements and some service areas are on rooftops, and the text should be edited for more precision.	Seeks that the text of G105 (External storage) of the Residential Design Guide is edited for more precision.
McIndoe Urban Limited	135.106	Design Guides Subpart / Design Guides / Residential Design Guide	Not specified	Considers that light (and heat) absorbent risk contributing to the urban heat island effect. Questions priorities - whether visibility of a building in an urban area is more important than minimising contribution to atmospheric heat gain. If the latter, the second bullet point of G107 should be removed.	Seeks that the second bullet point of G107 (Architectural context) of the Residential Design Guide is removed, depending on priorities. Use roof materials and colours that are dark and absorb rather than reflect light.
McIndoe Urban Limited	135.107	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the wording of G110 should be turned around to provide for reasonable internal privacy.	Seeks that the wording of G110 (Visual privacy) of the Residential Design Guide is amended to provide for reasonable internal privacy.
McIndoe Urban Limited	135.108	Design Guides Subpart / Design Guides / Residential Design Guide	Not specified	Considers that while G115 provides one way of dealing with noise, it is not strictly necessary and it would be preferable to identify that this might also be addressed by construction.	Amend G115 (Internal living spaces) of the Residential Design Guide.
McIndoe Urban Limited	135.109	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G117 combines too many, not convincingly grouped matters. The guideline mixes room space standard with circulation layout and capacity, and room size is already covered by G114. And, for example, wayfinding does not apply to kitchens and bathrooms.	Amend G117 (Circulation) of the Residential Design Guide.
McIndoe Urban Limited	135.110	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the title of G118 should be 'Sun Exposure' as the three guidelines refer to sun, and natural light is covered by G121 and G122 below this.	Amend title preceding G118-G120 (Light and sun) of the Residential Design Guide as follows: Light and Sun <u>Sun Exposure</u>
McIndoe Urban Limited	135.111	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the use of 'direct natural lighting' needs to be defined or clarified. If this means exposure to the sky, this should be stated.	Clarify term 'direct natural lighting' at G118 (Light and Sun) of the Residential Design Guide.
McIndoe Urban Limited	135.112	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G118 sits better under the 'Natural Lighting' heading.	Seeks that G118 (Light and Sun) of the Residential Design Guide is relocated under the heading 'Natural Light' below.
McIndoe Urban Limited	135.113	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the use of the words 'maximum possible' at G119 leads to uncertainty and ambiguity, and that the minimum amount of sun that should be provided should be defined, allowing for some flexibility.	Amend G119 (Light and sun) of the Residential Design Guide to remove uncertainty.
McIndoe Urban Limited	135.114	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that if there is no clear and unequivocal empirical link between borrowed light and mental wellbeing, then that part of the text should be removed.	Seeks that, if no link between borrowed light and mental wellbeing is shown, G122 (Natural light) of the Residential Design Guide is amended.
McIndoe Urban Limited	135.115	Design Guides Subpart / Design Guides / Residential Design Guide	Support in part	Considers that while G123 is sound in principle, this guideline which 'must be applied' may be problematic for apartments in noisy entertainment districts, and this situation must be recognised.	Amend G123 (Natural ventilation) of the Residential Design Guide.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
McIndoe Urban Limited	135.116	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	There needs to be guidance about what is meant by 'large' at G126. This mandatory requirement might be relevant to a large apartment development, but might be irrelevant to a large terraced housing development.	Clarify the use of the word 'large' at G126 (Community internal amenity) of the Residential Design Guide.
McIndoe Urban Limited	135.117	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	There needs to be guidance about what is meant by 'are inclusive of' at G132 as this is a 'must be applied' guideline.	Clarify the use of 'are inclusive of' at G132 (Accessibility) of the Residential Design Guide.
McIndoe Urban Limited	135.118	Design Guides Subpart / Design Guides / Residential Design Guide	Not specified	Considers that G133 might be an important aspect of achieving G132, but is given little weight (one dot).	Not specified.
McIndoe Urban Limited	135.119	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers that G137 relating to City Outcomes Contributions should be deleted.	Seeks that G137 (City Outcomes Contribution) of the Residential Design Guide is deleted.
Jill Ford	163.16	Design Guides Subpart / Design Guides / Residential Design Guide	Support	Supports the Residential Design Guide G99 as notified.	Retain G99 (For large developments, provide a secure weatherproof storage area external to the unit large enough to store a bicycle) in the Residential Design Guide as notified.
Jill Ford	163.17	Design Guides Subpart / Design Guides / Residential Design Guide	Support	Supports the Residential Design Guide G100 as notified.	Retain G100 (External storage areas must be of an appropriate size and volume in relation to the occupancy of the allocated unit.) in the Residential Design Guide as notified.
Jill Ford	163.18	Design Guides Subpart / Design Guides / Residential Design Guide	Support	Supports the Residential Design Guide G101 as notified.	Retain G101 (Where possible locate bicycle storage near to primary entrances for convenient access and to encourage usage) in the Residential Design Guide as notified.
Jill Ford	163.19	Design Guides Subpart / Design Guides / Residential Design Guide	Support	Supports the Residential Design Guide G102 as notified.	Retain G102 (Bicycle storage should accommodate electric bicycles (wallmounted racks are inappropriate for electric bicycles). Bicycle storage should also consider including spaces for larger bicycles and adaptable bicycles) in the Residential Design Guide as notified.
Patrick Wilkes	173.24	Design Guides Subpart / Design Guides / Residential Design Guide	Support in part	[No specific reason given beyond decision requested - refer to original submission].	Retain Residential Design Guide guidance GG 99-102 (external bike storage) with amendment to include in objectives policies and rules.
Jaqui Tutt	209.1	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Considers the importance of sunlight in Aro Valley.</p> <p>Considers the role of Aro Valley residents in writing appropriate sunlight rules.</p> <p>Supports the definition of sunlight as amenity attribute by Boffa Miskell and wider recommendations from Boffa Miskell.</p> <p>Considers that the Councillors recognise the importance of sunlight.</p> <p>Considers that it is unreasonable for Aro Valley Residents to have to leave their houses to access sunlight.</p> <p>Supports an amendment to include sunlight provisions in all residential zoned housing.</p> <p>[Refer to original submission for full reason]</p>	<p>Seeks addition to Residential Design Guide to include the following:</p> <p>"Sun access to outdoor spaces between spring and autumn equinox (4hrs) as well as sun access to internal living spaces in winter (2hrs)".</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Stratum Management Limited	249.48	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the guideline (58) presents as a standard.	Seeks that guideline 58 (Grouped car-parking or shared access at grade) of the Residential Design Guide is removed or appropriately qualified.
Stratum Management Limited	249.49	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers that the guideline (58) presents as a standard.	Seeks that guideline 58 (Grouped car-parking or shared access at grade) of the Residential Design Guide is removed or appropriately qualified.
Stratum Management Limited	249.50	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the guideline (73) will be applied as a standard and is concerned with this. Considers that given the guideline applies to residential development, the provision of end of trip facilities would appear to be axiomatic, and the requirement can be deleted.	Seeks that guideline 73 (Carbon reduction - site) of the Residential Design Guide is appropriately qualified, for instance by amending the first sentence to "Encourage the provision of..."
Stratum Management Limited	249.51	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	The guideline (74) presents as a standard.	Seeks that guideline 74 (Carbon reduction - site) of the Residential Design Guide is appropriately qualified.
Stratum Management Limited	249.52	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that this outcome may not always be possible and a qualification along the lines of "wherever possible" should be added. The guideline (82) has the potential to have a significant impact on city centre housing stock particularly.	Seeks that guideline 82 (Private open space) of the Residential Design Guide is appropriately qualified.
Stratum Management Limited	249.53	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers the matters listed in G93 present as standards and may be better achieved as a standard.	Seeks that guideline 93 (Waste collection) of the Residential Design Guide is removed.
Stratum Management Limited	249.54	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers the matter (94) presents as standards and may be better accommodated as such, if required.	Seeks that guideline 94 (Waste collection) of the Residential Design Guide is removed.
Stratum Management Limited	249.55	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that these guidelines (G99-G105) present as standards. As noted above, provision of bicycle storage for each apartment in a building can require significant space which comes at a cost, in turn affecting affordability. Not all users of an apartment building will require such storage. The practicality of G105 needs to be considered, particularly in an apartment context where access is controlled through security systems.	Seeks that guidelines G99-G105 (External storage) of the Residential Design Guide are appropriately qualified to not present as standards and are removed where possible.
Stratum Management Limited	249.56	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers that these guidelines (G99-G105) present as standards. As noted above, provision of bicycle storage for each apartment in a building can require significant space which comes at a cost, in turn affecting affordability. Not all users of an apartment building will require such storage. The practicality of G105 needs to be considered, particularly in an apartment context where access is controlled through security systems.	Seeks that guidelines G99-G105 (External storage) of the Residential Design Guide are appropriately qualified to not present as standards and are removed where possible.
Stratum Management Limited	249.57	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers that this guideline (120) presents as a standard in 'avoid' terms and would preclude any south facing apartment units which are often unavoidable in a city centre context.	Seeks to remove guideline 120 (Light and Sun) of the Residential Design Guide or appropriately qualify it, for example with "wherever possible".
Stratum Management Limited	249.58	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that this guideline (120) presents as a standard in 'avoid' terms and would preclude any south facing apartment units which are often unavoidable in a city centre context.	Seeks to remove guideline 120 (Light and Sun) of the Residential Design Guide or appropriately qualify it, for example with "wherever possible".
Stratum Management Limited	249.59	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers guideline (122) presents as a standard and requires something over and above building code requirements. This guideline is particularly problematic for city centre apartments.	Seeks to remove guideline 122 (Natural Light) of the Residential Design Guide or appropriately qualify it.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Stratum Management Limited	249.60	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers guideline (122) presents as a standard and requires something over and above building code requirements. This guideline is particularly problematic for city centre apartments.	Seeks to remove guideline 122 (Natural Light) of the Residential Design Guide or appropriately qualify it.
Stratum Management Limited	249.61	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers guideline (123) presents as a standard and requires something over and above building code requirements. This guideline is particularly problematic for city centre apartments.	Seeks to remove guideline 123 (Natural ventilation) of the Residential Design Guide or appropriately qualify it.
Stratum Management Limited	249.62	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers guideline (123) presents as a standard and requires something over and above building code requirements. This guideline is particularly problematic for city centre apartments.	Seeks to remove guideline 123 (Natural ventilation) of the Residential Design Guide or appropriately qualify it.
Stratum Management Limited	249.63	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers this (guideline 126) presents as a standard and would impose costs to multi-unit development.	Seeks to remove guideline 126 (Communal internal amenity) of the Residential Design Guide or appropriately qualify it.
Stratum Management Limited	249.64	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers this (guideline 126) presents as a standard and would impose costs to multi-unit development.	Seeks to remove guideline 126 (Communal internal amenity) of the Residential Design Guide or appropriately qualify it.
Stratum Management Limited	249.65	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers the guideline (129) presents as a standard and is unclear on whether the requirement is for each and every residential unit.	Remove guideline 129 (Communal internal amenity) of the Residential Design Guide.
Stratum Management Limited	249.66	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers the guideline (130) presents as a standard and is inherently subjective.	Seeks to remove guideline 130 (Internal Storage) of the Residential Design Guide or greater qualification.
Stratum Management Limited	249.67	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers the guideline (130) presents as a standard and is inherently subjective.	Seeks to remove guideline 130 (Internal Storage) of the Residential Design Guide or greater qualification.
Stratum Management Limited	249.68	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers the guideline (131) presents as a standard and is inherently subjective.	Seeks to remove guideline 131 (Internal Storage) of the Residential Design Guide or greater qualification.
Stratum Management Limited	249.69	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers the guideline (131) presents as a standard and is inherently subjective.	Seeks to remove guideline 131 (Internal Storage) of the Residential Design Guide or greater qualification.
McDonald's	274.78	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	McDonald's is opposed to the 'City Outcomes Contributions' provisions and considers that developments that breach height standards should instead be considered on their merits and effects. The merits of a proposal should not be confined to a specified and required list.	Seeks that G137 of the Residential Design Guide (City Outcomes Contributions) is deleted.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association Inc	FS114.46	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Support	Considers that while large scale residential developments “will positively contribute to addressing future challenges confronting the city”, such developments will also likely have a severe adverse impact on the neighbouring properties. Having a 6 storey development under NDRZ zone rules occur next door will have a major impact on neighbouring home owners and having a 7, 8 or higher development under City Outcome Rules will only have a greater adverse local impact. It is particularly objectionable that a development can increase its height by simply “satisfying the relevant design guide”. It is unclear what would enable a development to meet this criteria but the design guide does not include any significantly onerous requirements ... in fact “The guidance that follows here is ... to ensure best practice design approaches and encourage built outcomes.” This one provision essentially increases the maximum height in these zones by 1 storey to 7 storeys for MDRZ and 2 storeys to 10 storeys in the Metropolitan. The JCA supports the encouragement of significant residential developments but it is unfair to support this by rewarding such developments with height increases beyond PDP maximums. This permits developments that can be out of scale to the area in which it is built with major local adverse impacts on amenity and property values.	Allow / Seeks to delete the City Outcomes Contribution provisions from Centres and Mixed Use Design Guide in its entirety.
The Retirement Villages Association of New Zealand Incorporated	FS126.183	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Support	The RVA supports part of the relief sought in this submission as it is consistent with The RVA’s primary submission, however, The RVA would seek for the deletion of the Design Guides in full.	Allow
The Retirement Villages Association of New Zealand Incorporated	FS126.184	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Support	The RVA supports part of the relief sought in this submission as it is consistent with RVA’s primary submission, however, The RVA would seek for the deletion of the Design Guides in full.	Allow
Ryman Healthcare Limited	FS128.183	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Support	Ryman supports part of the relief sought in this submission as it is consistent with Ryman’s primary submission, however, Ryman would seek for the deletion of the Design Guides in full.	Allow
Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.50	Design Guides Subpart / Design Guides / Residential Design Guide	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain the Residential design guide as notified
Phillippa O’Connor	289.39	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers that the Design Guides should be removed as part of the statutory framework of the plan in respect of restricted discretionary activities as these are subjective and do not allow the rule framework to set clear parameters.	Seeks that the design guides are not a statutory requirement in respect of restricted discretionary activities. [Inferred decision requested]
Phillippa O’Connor	289.40	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers that the Design Guides should be removed as part of the statutory framework of the plan in respect of restricted discretionary activities as these are subjective and do not allow the rule framework to set clear parameters.	Seeks that the guidelines in the design guides are included within the zone-based rules as standards or matters of discretion. [Inferred decision requested]
Tapu-te-Ranga Trust	297.35	Design Guides Subpart / Design Guides / Residential Design Guide	Support	Supports the reference to whakapapa of place, given their land is a site of significance and will support traditional uses.	Retain G2 (Responding to whakapapa of place) of the Residential Design Guide as notified.
Wellington Branch NZIA	301.16	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the Residential Design Guides should be split into three parts and be redesigned to adequately reflect that there are now distinctly different zones for Residential within the revised District Plan. These three distinct zones are low-end MDRZ, high-end CCZ and all the other zones clustered in between. [Refer to original submission for full reason]	Seeks that the Residential Design Guide be split into three parts: low-end Medium Density Residential, high-end City Centre Zone and all zones in between.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
The Retirement Villages Association of New Zealand Incorporated	FS126.228	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full.	Disallow
Ryman Healthcare Limited	FS128.228	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow
Wellington Branch NZIA	301.17	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the Residential Design Guide requires clarification. The thorough guidance provided by the now former Multi-Unit Design Guide has now be replaced by vague-sounding statements.	Clarify the Residential Design Guide to be less vague.
The Retirement Villages Association of New Zealand Incorporated	FS126.229	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full.	Disallow
Ryman Healthcare Limited	FS128.229	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow
Wellington Branch NZIA	301.18	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G109 in the Residential Design Guide has vague statements. [Refer to original submission for full reason]	Clarify G109 in Residential Design Guide to provide more guidance on Medium Density housing and High Density Housing needs.
The Retirement Villages Association of New Zealand Incorporated	FS126.230	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full.	Disallow
Ryman Healthcare Limited	FS128.230	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow
Wellington Branch NZIA	301.19	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose in part	Considers that the City Outcomes Contributions will not maintain the concept of High City / Low City form in the Operative District Plan. [Refer to original submission for full reason]	Opposes G137 (City outcomes Contributions) of the Residential Design Guide.
Wellington Branch NZIA	301.20	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the Facades section of the Residential Design Guide (G41) is too short and inadequate and should be amended to be more thorough. The section should include provisions on proportion, materials, texture and colour.	Amend the G41 (Facades) of the Residential Design Guide to include provisions on proportion, materials, texture and colour.
The Retirement Villages Association of New Zealand Incorporated	FS126.231	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full.	Disallow
Ryman Healthcare Limited	FS128.231	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow
Wellington Branch NZIA	301.21	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the Facades section of the Residential Design Guide (G41) should require multi-storey buildings to be designed by Registered Architects, such as the NZIA.	Amend G41 (Facades) of the Residential Design Guide to require multi-storey buildings to be designed by Registered Architects.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
The Retirement Villages Association of New Zealand Incorporated	FS126.232	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full.	Disallow
Ryman Healthcare Limited	FS128.232	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow
Wellington Branch NZIA	301.22	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G87 (Balconies and Sunrooms) should mandate the provision of a balcony or deck to every living space in the CCZ, even where something as small as a student housing unit is proposed. The Residential Design Guide states: "Good quality balcony spaces or sunrooms can substantially improve residents' quality of life and increase the value and desirability of apartments to potential buyers". Therefore, these should be mandatory. The events of the last few years with the Covid pandemic showed the world the vital importance of access to external open space. While people in the MDRZ can access a front or rear yard, people living in the CCZ must have access to a balcony space.	Amend G87 (Balconies and sunrooms) of the Residential Design Guide to mandate a balcony or deck to every living space in the City Centre Zones.
The Retirement Villages Association of New Zealand Incorporated	FS126.233	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full.	Disallow
Ryman Healthcare Limited	FS128.233	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow
Wellington Branch NZIA	301.23	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the star rating of importance in Private Open Space and Communal Open Space should be amended to give more importance to multi-unit housing rather than single houses. Single houses under Private Open Space G80 to G84 have a three-star rank, implying they are of highest importance than multi-housing under Communal Open Space in G75 to G79.	Seeks that G75 to G79 (Communal Open Space) in the Residential Design Guide be classified as being of three-star importance.
The Retirement Villages Association of New Zealand Incorporated	FS126.234	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full.	Disallow
Ryman Healthcare Limited	FS128.234	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow
Wellington Branch NZIA	301.24	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that items G63 to G72 under the Light section are only concerned with artificial electric light, and do not refer to natural levels of daylight and sunlight. The Lighting section of the Residential Design Guide should be re-titled as "Artificial Light".	Amend the heading of the 'Lighting' section in the Residential Design Guide to rename it to "Artificial Light".
The Retirement Villages Association of New Zealand Incorporated	FS126.235	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full. Ryman Healthcare Limited	FS128.235	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Branch NZIA	301.25	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the Lighting section of the Residential Design Guide should be moved next to sections on Light and Sun (G18 to G120), and Natural Light (G121 & G122).	Amend the Residential Design Guide to put the 'Lighting' section near the 'Light and Sun' and 'Natural Light' sections.
The Retirement Villages Association of New Zealand Incorporated	FS126.236	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full.	Disallow
Ryman Healthcare Limited	FS128.236	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow
Wellington Branch NZIA	301.26	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the Natural Ventilation section of the Residential Design Guide should require opening windows on two separate facades. G123 states: "Ensure habitable rooms, especially bedrooms and living spaces have at least one openable window to an external wall for direct access to fresh air". Research has shown a greatly increased ability for natural ventilation to actually work when there are opening windows on two separate facades, which allows far better pull through of natural ventilation.	Amend G123 (Natural ventilation) of the Residential Design Guide to require opening windows on two separate facades.
The Retirement Villages Association of New Zealand Incorporated	FS126.237	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full.	Disallow
Ryman Healthcare Limited	FS128.237	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow
James Coyle	307.28	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the word 'daylight' is too vague and should be replaced with 'sunlight' as sunlight is direct and can be measured. Daylight can be indirect and is not specific enough to be measured sufficiently.	Seeks that the term 'daylight' be changed to 'sunlight' in the Residential Design Guide. [Inferred decision requested]
James Coyle	307.29	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	The term "daylight" should be amended to "sunlight" in the Residential Design Guide. Buildings should look to solar gain for regulating temperature and need direct sunlight for this. The carbon footprint of buildings need to be reduced and air conditioning usage should be decreased. Natural techniques for ventilation and temperature regulation should be used. Direct sun in Winter should be maximised.	Amend language in the Residential Design Guide to replace "daylight" with "sunlight".
Bruce Crothers	319.19	Design Guides Subpart / Design Guides / Residential Design Guide	Support	Supports G99 to G102 (external bike storage) and considers that these should be carried into the PDP rules, policies and objectives.	Retain G99 to G102 (external bike storage) of the Residential Design Guide as notified.
Joan Fitzgerald	323.5	Design Guides Subpart / Design Guides / Residential Design Guide	Support	Supports GG99 to G102 (external bike storage).	Retain G99-102 (External bike storage) of the Residential Design Guide as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Bruce Rae	334.6	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Considers that the proper use of Appendices should be clarified. The residential design guide flowchart makes it clear the appendices must be used in conjunction with the main design guide. However, in the 'unqualified' parts of the MRZ the main design guide is only engaged when four or more units are intended for a site.</p> <p>In character areas, an alteration affecting neither floor area nor function of rooms, triggers a requirement to follow both the main residential design guide as well as the character precincts appendix, which seems excessive.</p> <p>Additional scope guidance is needed at the start of the appendices, making it clear that the assessment does not need to expand to the whole of the building on the whole of the site when only limited works on a limited part of the site are contemplated. Clarification of whether a full and expensive assessment or a more streamlined assessment is needed will suffice.</p>	Seeks that the Residential Design Guide Appendices be amended to have an additional scope guidance at the start of appendices, so as to clarify the scope of required assessments.
Disabled Persons Assembly New Zealand Incorporated	343.15	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Considers that inserting the term 'must' rather than 'should' in clause G37 of the Residential Design Guide provides greater emphasis on the need to meet standards.</p>	<p>Submitter has incorrectly referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.</p> <p>[Inferred Decision Sought] Amend G37 (Entrances) of the Residential Design Guide as follows:</p> <p>Entrances should must be of adequate dimensions to provide universal access for all and allow for movement from a wide range of users, including moving furniture and wheelchairs.</p>
Disabled Persons Assembly New Zealand Incorporated	343.16	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Considers that the use of "where possible" in clause G39 of the Residential Design Guide is not appropriate and does not emphasise the need for greater compliance and uptake from designers, developers and builders.</p> <p>[Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]</p>	<p>Amend G39 (Entrances) of the Residential Design Guide as follows:</p> <p>Where possible, ensure dwellings on the ground floor have a step-free entry.</p> <p>[Inferred decision requested]</p>
Disabled Persons Assembly New Zealand Incorporated	343.17	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Considers that inserting the term 'must' rather than 'should' in clause G53 of the Residential Design Guide provides greater emphasis on the need to meet standards.</p> <p>[Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]</p>	<p>Amend G53 (Garages, carports and carpads) of the Residential Design Guide as follows:</p> <p>Developments designed for limited mobility users should must provide an accessible link between parking spaces and their associated unit.</p> <p>[Inferred decision requested]</p>
Disabled Persons Assembly New Zealand Incorporated	343.18	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Considers that the use of 'where possible' in clause G116 of the Residential Design Guide is not appropriate and does not emphasise the need for greater compliance and uptake from designers, developers and builders.</p> <p>[Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]</p>	<p>Seeks to amend G116 (Internal living spaces) as follows:</p> <p>Where possible, ensure ground level dwellings and all habitable rooms are designed for accessible and practical use.</p> <p>[Inferred decision requested]</p>
Disabled Persons Assembly New Zealand Incorporated	343.19	Design Guides Subpart / Design Guides / Residential Design Guide	Support	<p>Supports clause G117 of the Residential Design Guide as this provision will ensure uptake and compliance from designers, builders and developers.</p> <p>[Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]</p>	<p>Retain G117 (Circulation) of the Residential Design Guide as notified.</p> <p>[Inferred decision requested]</p>
Disabled Persons Assembly New Zealand Incorporated	343.20	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Considers that inserting the word 'impairments' rather than 'abilities' in clause G132 of the Residential Design Guide is more appropriate. Notes that using the term 'abilities' to refer to disabled people is regarded as euphemistic by many within the disabled community.</p> <p>[Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]</p>	<p>Amend G132 (Accessibility) of the Residential Design Guide as follows:</p> <p>Ensure developments are inclusive of people of all ages and abilities impairments, including the ageing population, children and pregnant women or parents with infants and toddlers.</p> <p>[Inferred decision requested]</p>
Disabled Persons Assembly New Zealand Incorporated	343.21	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Considers that inserting 'ensure' rather than 'where possible, provide' in clause G133 of the Residential Design Guide provides greater compliance and uptake by designers, builders and developers.</p> <p>[Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]</p>	<p>Amend G133 (Accessibility) of the Residential Design Guide as follows:</p> <p>Where possible, provide Ensure ground-level access that is accessible by people using wheelchairs, and design units with reference to NZ standards for access and mobility</p> <p>[Inferred decision requested]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Disabled Persons Assembly New Zealand Incorporated	343.22	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that inserting the term 'must' rather than 'should' in clause G37 of the Residential Design Guide provides greater emphasis on the need to meet standards. [Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]	Amend G37 (Entrances) of the Residential Design Guide as follows: Entrances should must be of adequate dimensions to provide universal access for all and allow for movement from a wide range of users, including moving furniture and wheelchairs. [Inferred decision requested]
Disabled Persons Assembly New Zealand Incorporated	343.23	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the use of "where possible" in clause G39 of the Residential Design Guide is not appropriate and does not emphasise the need for greater compliance and uptake from designers, developers and builders. [Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]	Amend G39 (Entrances) of the Residential Design Guide as follows: Where possible, ensure dwellings on the ground floor have a step-free entry. [Inferred decision requested]
Disabled Persons Assembly New Zealand Incorporated	343.24	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that replacing "limited mobility users" with "people with mobility impairments, i.e., wheelchair users, mobility aid users, etc" is more appropriate as the intention is to refer to this grouping of the disability community. [Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]	Amend G53 (Garages, carports and carpads) of the Residential Design Guide as follows: Developments designed for limited mobility users people with mobility impairments, i.e., wheelchair users, mobility aid users, etc , should provide an accessible link between parking spaces and their associated unit. [Inferred decision requested]
Disabled Persons Assembly New Zealand Incorporated	343.25	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Seeks to add "Changes in the level should be properly ramped" as an additional sentence to point 7 of clause G76 of the Residential Design Guide. [Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]	Amend G76 (Communal open space) of the Residential Design Guide as follows: Communal open space should: » Offer a sense of manaakitanga (are safe and inviting). » Be the focus of the development.» Be of an appropriate proportion and defined by the built form. » Have a direct or easy connection to all dwellings. » Be located and oriented to receive sun and shelter at times of highest use. » Be flat, but may incorporate changes in level where these are designed to add to the visual and functional amenity of the space. <u>Changes in level should be properly ramped.</u> » Include landscape elements that are of an appropriate scale e.g trees, seating and fences. [Inferred decision requested]
Disabled Persons Assembly New Zealand Incorporated	343.26	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that inserting the term 'accessible' will ensure spaces can be accessible for all people, including disabled people and that reference should be made to kitchenettes in clause 78 of the Residential Design Guide.	Amend G78 (Communal open space) of the Residential Design Guide as follows: Where possible, provide <u>accessible</u> communal spaces for social interaction and outdoor activities, including kitchenettes. Especially in more significant developments or where private outdoor living spaces are insufficient for people to meet their everyday needs. [Inferred Decision Sought]
Disabled Persons Assembly New Zealand Incorporated	343.27	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that inserting the term 'accessible' before "open space" would indicate that sometimes balconies are inaccessible to disabled people, particularly wheelchair or mobility aid users due to the fact that too often balconies are too small to accommodate wheelchairs or mobility aids and lips can be difficult to negotiate.	Amend G81 (Private open space) of the Residential Design Guide as follows: Assign private <u>accessible</u> open space to individual units of a type and quality appropriate to the dwelling typology, wherever possible. [Inferred decision requested]
Disabled Persons Assembly New Zealand Incorporated	343.28	Design Guides Subpart / Design Guides / Residential Design Guide	Support	Support clause G86 of the Residential Design Guide on the basis that the concept of accessibility will be understood by guide users.	Retain G86 (Private open space) of the Residential Design Guide as notified. [Inferred decision requested]
Disabled Persons Assembly New Zealand Incorporated	343.29	Design Guides Subpart / Design Guides / Residential Design Guide	Support	Support clause G91 of the Residential Design Guide on the basis that the concept of accessibility as it applies to the needs of disabled householders is understood.	Retain G91 (Waste storage) of the Residential Design Guide as notified. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Disabled Persons Assembly New Zealand Incorporated	343.30	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that guidance on large scale plant fixtures in clauses G96 - G98 need to ensure they are placed at accessible heights or in such a way that they can be easily adjusted by the householder concerned, and this includes by disabled people.	Amend G96, G97 and G98 (Service elements) of the Residential Design Guide as follows: G96. • • <u>Any and all large plant fixtures should be placed at accessible heights where they can be easily adjusted by the householder concerned, including by any disabled person.</u> Suitable space for natural or open-air laundry drying should be provided, within or accessible from each dwelling, but not within the defined 'principal area' or within shared open spaces that might be used for gathering. G97. • • <u>Any and all large plant fixtures should be placed at accessible heights where they can be easily adjusted by the householder concerned, including by any disabled person.</u> Smaller-scale external service elements such as air conditioning units, water heating units, gas bottles and water tanks, should not be visible from the public realm, dominate entrances or be located in the principal area of private open space or within shared open gathering spaces. G98. • <u>Any and all large plant fixtures should be placed at accessible heights where they can be easily adjusted by the householder concerned, including by any disabled person.</u> Where possible, integrate any necessary security features into buildings or public spaces by designing them intrinsic, unobtrusive, or positive decorative features. [Inferred decision requested]
Disabled Persons Assembly New Zealand Incorporated	343.31	Design Guides Subpart / Design Guides / Residential Design Guide	Support	Support clause G106 of the Residential Design Guide as the provisions comply with updated architectural practises.	Retain G106 (Architectural context) of the Residential Design Guide as notified. [Inferred decision requested]
Disabled Persons Assembly New Zealand Incorporated	343.32	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the use of 'where possible' in clause G116 of the Residential Design Guide is not appropriate and does not emphasise the need for greater compliance and uptake from designers, developers and builders.	Seeks to amend G116 (Internal living spaces) as follows: <u>Where possible</u> , ensure ground level dwellings and all habitable rooms are designed for accessible and practical use. [Inferred decision requested]
Disabled Persons Assembly New Zealand Incorporated	343.33	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that replacing the term 'abilities' with 'impairments' in clause G132 of the Residential Design Guide is more appropriate. Notes that using the term 'abilities' to refer to disabled people is regarded as euphemistic by many within the disabled community. Considers that the other examples of impairment-based groups should be also identified in the last sentence of same clause.	Amend G132 (Accessibility) of the Residential Design Guide as follows: Ensure developments are inclusive of people of all ages and <u>abilities impairments</u> , including the ageing population, children and pregnant women or parents with infants and toddlers, <u>and people who use mobility aids such as wheelchairs and crutches.</u> [Inferred decision requested]
Disabled Persons Assembly New Zealand Incorporated	343.34	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the use of "where possible" in clause G133 of the Residential Design Guide is not appropriate and does not emphasise the need for greater compliance and uptake from designers, developers and builders.	Amend G133 (Accessibility) of the Residential Design Guide as follows: <u>Where possible</u> , provide ground-level access that is accessible by people using wheelchairs, and design units with reference to NZ standards for access and mobility. [Inferred decision requested]
Retirement Villages Association of New Zealand Incorporated	350.306	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Considers that the Residential Design Guide makes no specific reference to retirement villages, and there is no guidance provided as to why the requirements that are applicable to non-retirement village activities apply in the same manner to retirement villages (despite retirement villages being a unique activity with substantially differing functional and operational needs)	Opposes the Residential Design Guide and seeks amendment to expressly exclude retirement villages from having to apply the Residential Design Guide.
Jane Szentivanyi and Ben Briggs	369.18	Design Guides Subpart / Design Guides / Residential Design Guide	Support	Considers that it is pleasing to note the mention of embodied energy in the Design Guidelines: Existing buildings contain embodied energy, and their retention avoids the additional use of carbon associated with the construction of new buildings, including in materials, transport, demolition and landfill. Retaining existing buildings in a sustainable long-term use, whether through the retention of its original use or by the adaptation for a new use, can be a sustainable option. These are all important matters that need to be given due consideration and weighted in considering any new development.	Retain the Residential Design Guide as notified, especially the mention of embodied energy. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Jane Szentivanyi and Ben Briggs	369.19	Design Guides Subpart / Design Guides / Residential Design Guide	Support	Considers that direct sunlight to a home is an integral part of creating and maintaining a healthy home and supporting residents' wellbeing. The Design Guidelines recognise the benefit of solar access to improve energy efficiency and wellbeing.	Retain Residential Design Guide as notified, especially provisions relating to the benefits of sunlight access. [Inferred decision requested]
Glenside Progressive Association Inc	374.12	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the Residential Design Guide's section on Built Form should be strengthened to include form, colour and light pollution for housing that is visually prominent. Where houses are visually prominent, attention needs to be paid by the architect and builder to the form, shape and colour of the building. This is especially important for houses in high altitude locations or houses which are visible from a distance. It is suggested that the Residential Design Guide refers to the preferred use of forms that harmonise with the landscape where concentrated housing developments are located high on hillsides or close to ridgelines. This includes the use of natural materials, and colour schemes selected from a palette of subdued natural colours that vary from building to building where possible.	Amend the Residential Design guide to more strictly regulate visually prominent form and colours.
Andy Foster	FS86.33	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 374.12].	Allow
Glenside Progressive Association Inc	374.13	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the Residential Design Guide's section on Light should be amended to more strongly minimise long-distance and cross-valley light pollution. Light pollution is of special concern when the light arises from new, visually prominent housing developments. Light pollution from a new housing development in Glenside West will adversely affect the Glenside Valley unless measures are taken to ensure that outside lighting including street lighting is diverted downwards and shielded.	Amend the Residential Design guide to more strictly regulate light pollution.
Guy Marriage	407.13	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that there is now the low-end MDRZ, the high-end CCZ, and all the other Zones clustered in between. The guidelines for what to do in the high density CCZ need to offer markedly different advice from the much lower density MDRZ. The MDRZ in particular is still likely to comprise single family houses for many years to come, and even the new housing in this zone is likely to be mainly just one or two storey high, even if denser than before.	Seeks that the Residential Design Guides are split into three parts redesigned to adequately reflect the different residential zones in the Proposed District Plan.
Guy Marriage	407.14	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	[No specific reason given beyond decision requested - see original submission]	Seeks that the MRZ (Medium Density Residential Zone) is amended to account for how denser housing interfaces with concerns of existing residents in existing housing.
Guy Marriage	407.15	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the former daylight access planes almost guaranteed sunlight and daylight for any house in what was the Inner and Outer Residential Zones. The revised recession planes imposed by the new MDRS and the adoption of the MDRZ removes the chance for sunlight, while also reducing the chance of adequate daylight.	Seeks the addition to the Residential Design Guide on how to manage sunlight considerations.
Guy Marriage	407.16	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that guidance on Medium Density and High Density Housing needs to be so much more, or we will end up with continued urban housing disasters.	Seeks that guidance on the MRZ (Medium Density Residential Zone) is expanded.
Guy Marriage	407.17	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that guidance on Medium Density and High Density Housing needs to be so much more, or we will end up with continued urban housing disasters.	Seeks that guidance on the HRZ (High Density Residential Zone) is expanded.
Guy Marriage	407.18	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the events of the last few years with the Covid pandemic showed the world the vital importance of access to external open space. While people in the MDRZ can access a front or rear yard, people living in the CCZ must have access to a balcony space.	Seeks that G87 (Balconies and sunrooms) of the Residential Design Guide mandates the provision of a balcony or deck to every living space in the City Centre Zone.
Guy Marriage	407.19	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G80 - G84 of the Residential Design Guide are important and should apply to multi-unit housing.	Seeks that G80 (Private Open Space) in the Residential Design Guide applies to multi-unit housing. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Guy Marriage	407.20	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G80 - G84 of the Residential Design Guide are important and should apply to multi-unit housing.	Seeks that G81 (Private Open Space) in the Residential Design Guide applies to multi-unit housing. [Inferred decision requested]
Guy Marriage	407.21	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G80 - G84 of the Residential Design Guide are important and should apply to multi-unit housing.	Seeks that G82 (Private Open Space) in the Residential Design Guide applies to multi-unit housing. [Inferred decision requested]
Guy Marriage	407.22	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G80 - G84 of the Residential Design Guide are important and should apply to multi-unit housing.	Seeks that (Private Open Space) in the Residential Design Guide applies to multi-unit housing. [Inferred decision requested]
Guy Marriage	407.23	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G80 - G84 of the Residential Design Guide are important and should apply to multi-unit housing.	Seeks that G84 (Private Open Space) in the Residential Design Guide applies to multi-unit housing. [Inferred decision requested]
Guy Marriage	407.24	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G75 - G79 of the Residential Design Guide should be given more importance, especially with medium density housing.	Seeks that G75 (Communal Open Space) in the Residential Design Guide should be amended to be given three star (***) importance.
Guy Marriage	407.25	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G75 - G79 of the Residential Design Guide should be given more importance, especially with medium density housing.	Seeks that G76 in the Residential Style Guide should be amended to be given more importance.
Guy Marriage	407.26	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G75 - G79 of the Residential Design Guide should be given more importance, especially with medium density housing.	Seeks that G77 (Communal Open Space) in the Residential Design Guide should be amended to be given three star (***) importance.
Guy Marriage	407.27	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G75 - G79 of the Residential Design Guide should be given more importance, especially with medium density housing.	Seeks that G78 (Communal Open Space) in the Residential Design Guide should be amended to be given three star (***) importance.
Guy Marriage	407.28	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G75 - G79 of the Residential Design Guide should be given more importance, especially with medium density housing.	Seeks that G79 (Communal Open Space) in the Residential Design Guide should be amended to be given three star (***) importance.
Guy Marriage	407.29	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Concerned that G63 - G72 of the Residential Design Guide only applies to artificial light and not natural levels of daylight and sunlight.	Seeks that G63 (Lighting) of the Residential Design Guide is amended to apply to natural levels of daylight and sunlight.
Guy Marriage	407.30	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Concerned that G63 - G72 of the Residential Design Guide only applies to artificial light and not natural levels of daylight and sunlight.	Seeks that G64 (Lighting) of the Residential Design Guide is amended to apply to natural levels of daylight and sunlight.
Guy Marriage	407.31	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Concerned that G63 - G72 of the Residential Design Guide only applies to artificial light and not natural levels of daylight and sunlight.	Seeks that G65 (Lighting) of the Residential Design Guide is amended to apply to natural levels of daylight and sunlight.
Guy Marriage	407.32	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Concerned that G63 - G72 of the Residential Design Guide only applies to artificial light and not natural levels of daylight and sunlight.	Seeks that G66 (Lighting) of the Residential Design Guide is amended to apply to natural levels of daylight and sunlight.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Guy Marriage	407.33	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Concerned that G63 - G72 of the Residential Design Guide only applies to artificial light and not natural levels of daylight and sunlight.	Seeks that G67 (Lighting) of the Residential Design Guide is amended to apply to natural levels of daylight and sunlight.
Guy Marriage	407.34	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Concerned that G63 - G72 of the Residential Design Guide only applies to artificial light and not natural levels of daylight and sunlight.	Seeks that G68 (Lighting) of the Residential Design Guide is amended to apply to natural levels of daylight and sunlight.
Guy Marriage	407.35	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Concerned that G63 - G72 of the Residential Design Guide only applies to artificial light and not natural levels of daylight and sunlight.	Seeks that G69 (Lighting) of the Residential Design Guide is amended to apply to natural levels of daylight and sunlight.
Guy Marriage	407.36	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Concerned that G63 - G72 of the Residential Design Guide only applies to artificial light and not natural levels of daylight and sunlight.	Seeks that G70 (Lighting) of the Residential Design Guide is amended to apply to natural levels of daylight and sunlight.
Guy Marriage	407.37	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Concerned that G63 - G72 of the Residential Design Guide only applies to artificial light and not natural levels of daylight and sunlight.	Seeks that G71 (Lighting) of the Residential Design Guide is amended to apply to natural levels of daylight and sunlight.
Guy Marriage	407.38	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Concerned that G63 - G72 of the Residential Design Guide only applies to artificial light and not natural levels of daylight and sunlight.	Seeks that G72 (Lighting) of the Residential Design Guide is amended to apply to natural levels of daylight and sunlight.
Guy Marriage	407.39	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	[No specific reason given beyond decision requested - see original submission]	Amend the Residential Design Guide to put the "Lighting" provisions (G62 - G72) next to the "Light and sunlight" provisions (G118 to G120).
Guy Marriage	407.40	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	[No specific reason given beyond decision requested - see original submission]	Amend the Residential Design Guide to put the "Lighting" provisions (G62 - G72) next to the "Artificial Light" provisions (G121 to G122).
Guy Marriage	407.41	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that research has shown a greatly increased ability for natural ventilation to actually work when there are opening windows on two separate facades, which allows far better pull through of natural ventilation.	Seeks that G123 (Natural Ventilation) of the Residential Design Guide is amended to mandate the provision of windows on two different facades. [Inferred decision requested]
Guy Marriage	407.42	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G41 is short and inadequate. The external appearance of buildings makes up the physical appearance of the capital city,	Seeks that G41 (Facades) of the Residential Design Guide is expanded, requiring multi-storey buildings to be designed by Registered Architects.
Guy Marriage	407.43	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G41 is short and inadequate. The external appearance of buildings makes up the physical appearance of the capital city,	Seeks that G41 (Facades) of the Residential Design Guide includes a provision for statements on proportion, materials, texture and colour.
Wellington Heritage Professionals	412.1	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the design guide Mount Victoria section should note that under streetscape attribute, it is characteristic for buildings in Mt Victoria to have had alterations pre-1930 as found in the assessment made by Michael Kelly in 2017.	Amend page 12 under streetscape attributes as follows: Many of the remaining older buildings have been substantially modified over time <u>and pre-1930 alterations are characteristic of many Mt Victoria buildings. However,</u> their original primary form generally remains apparent.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington Heritage Professionals	412.85	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that the guidance G31 of the residential design guide should include a diagram to show how to manage height and scale adjacent to a heritage place.	Amend the design guide to include G3.5 and the associated diagrams from the current Central Area Urban Design Guide
The Retirement Villages Association of New Zealand Incorporated	FS126.249	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with The RVA's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and The RVA seeks for these to be deleted in full.	Disallow
Ryman Healthcare Limited	FS128.249	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission, noting that design guides do not provide for the benefits of retirement villages or recognise their functional and operational needs and Ryman seeks for these to be deleted in full.	Disallow
Metlifecare Limited	413.43	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose in part	Design guide does not provide guidelines relating to retirement village development and should not be applied to this type of development. Any design guide should also not sit within the plan as a standard but sit outside the plan as a guidance tool only.	Retain provision, subject to amendments, as outlined other submission points.
Metlifecare Limited	413.44	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Design guide does not provide guidelines relating to retirement village development and should not be applied to this type of development. Any design guide should also not sit within the plan as a standard but sit outside the plan as a guidance tool only.	Seeks to amend the Residential Design Guide to make it clear that it does not apply to retirement village development.
Metlifecare Limited	413.45	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Design guide does not provide guidelines relating to retirement village development and should not be applied to this type of development. Any design guide should also not sit within the plan as a standard but sit outside the plan as a guidance tool only.	Seeks to provide for the Residential Design Guide as a guidance tool only that sits outside of the District Plan.
VicLabour	414.59	Design Guides Subpart / Design Guides / Residential Design Guide	Support	Supports the suggestion that on-site car parks may not be required for new developments.	Retain G56 of the residential design guide. [Inferred decision requested]
Willis Bond and Company Limited	416.210	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that generally, a more permissive approach to multi-unit housing should be taken within the Medium Density Residential Zone provided the relevant height limits and building envelope controls are complied with. The Residential Design Guide should be non-statutory. [Refer to submission points made on 'Design Guides' and HRZ – P6].	Seeks that the Residential Design Guide be made non-statutory. [Inferred decision].
The Retirement Villages Association of New Zealand Incorporated	FS126.272	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.272	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Johnsonville Community Association	429.42	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that large-scale developments will likely have adverse impacts on neighbouring properties. It is unclear what would enable a development to meet the criteria of "satisfying the relevant design guide". Considers that it is unfair to encourage developments by rewarding height increases beyond PDP maximums. [See original submission for full reason]	Delete the City Outcomes Contribution provisions from Residential Design Guide in its entirety.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Ingrid Downey	443.2	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Considers that the existing provisions relating to minimum sunlight in the Operative Plan should be retained rather than replacing them with the minimum daylight provisions in the PDP.</p> <p>Keeping the Operative Plan provisions will ensure a minimum level of quality - and humanity - will be maintained in our new homes.</p> <p>Considers that light is fundamental to our well-being, and shading is far more than simply a minor issue. Reductions in sunlight can and do affect: heating and light cost; dampness; the ability to dry clothes outside and grow food; and mental well-being.</p>	<p>Seeks that the existing provisions relating to minimum sunlight in the Operative Plan are reinstated in the Design Guides.</p> <p>[Inferred decision requested].</p>
Greater Brooklyn Residents Association Inc's	459.17	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Considers that good design will take these trees into account and provide a better outcome for residents.</p>	<p>Seeks amendment that Residential Design Guide G19 (regenerate waterways and enhance the stream ecology where waterways exist above or below ground) is mandatory.</p> <p>[Inferred decision requested].</p>
Greater Brooklyn Residents Association Inc's	459.18	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Considers that good design will take these trees into account and provide a better outcome for residents.</p>	<p>Seeks amendment that Residential Design Guide G20 (protect and enhance existing native bush and significant trees on-site and in the surrounding area) is mandatory.</p> <p>[Inferred decision requested].</p>
Greater Brooklyn Residents Association Inc's	459.19	Design Guides Subpart / Design Guides / Residential Design Guide	Not specified	<p>Considers that G24 partially supports a 1.5m-2m minimum setback for the planting of a street scape i.e. trees</p>	<p>Not specified.</p>
Anita Gude and Simon Terry	461.32	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>The wording of the "Guiding Principles" does not suggest it is mandatory for developers to conform to them.</p>	<p>Amend the "Guiding Principles" in the Residential (Character Precincts) Design Guide (page 5-9) so that the wording makes conformance with the principles mandatory, unless the developer can persuade the council otherwise.</p>
The Retirement Villages Association of New Zealand Incorporated	FS126.8	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	<p>Inconsistent with the RVA's original submission which sought to exclude retirement villages from having to apply Design Guides. Council oversight is not required to retirement villages as the RVA is best placed to understand different operational and functional needs.</p>	<p>Disallow</p>
Ryman Healthcare Limited	FS128.8	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	<p>Inconsistent with Ryman's original submission which sought to exclude retirement villages from having to apply Design Guides. Council oversight is not required to retirement villages as Ryman is best placed to understand different operational and functional needs.</p>	<p>Disallow</p>
Anita Gude and Simon Terry	461.33	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Developers should be required to conform to "Guiding principles" specified in the design guide. As worded, the policies present more of an advisory note than a mandatory requirement. All developers should be required to conform to the "Guiding principles".</p>	<p>Include a requirement in the "Guiding Principles" in the Residential (Character Precincts) Design Guide (page 5-9) that "Applicants must demonstrate that the provisions of this Design Guide have been acknowledged and interpreted and their objectives satisfied".</p> <p>Noted that this may require a change to MRZ-PREC01-O1 (Purpose).</p>
Foodstuffs North Island	476.62	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose in part	<p>Opposes the City Outcomes Contribution and seeks that it be removed from the plan in its entirety.</p>	<p>Delete the City Outcomes Contribution (G137) from the Residential Design Guide.</p>
Catharine Underwood	481.33	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Considers that the design guides should require all new development to have solar or wind for communal lighting and heating, rather than incentivising or negotiating it. Making these a requirement would be a great move to sustainability.</p>	<p>Amend the Residential Design Guide to require solar or wind for communal lighting and heating.</p>
Catharine Underwood	481.34	Design Guides Subpart / Design Guides / Residential Design Guide	Support in part	<p>Supports the planting of more native trees as per G5 and G6. It is expected that hope the range of specimen trees mentioned in G10 are predominately native trees, as they provide a better habitat for native species, contribute to the street scape as well as off setting emissions.</p>	<p>Retain Vegetation and Planting recommendations in the Residential Design Guide (G5, G6 and G10) as notified.</p> <p>[Inferred decision requested]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Catharine Underwood	481.35	Design Guides Subpart / Design Guides / Residential Design Guide	Support in part	Considers that it is unclear and uncertain whether the Residential Design Guide guidelines with actually provide protection for trees and require designs to be made around them. There is concern regarding developers getting permission to raze and cut down trees.	Amend the Residential Design Guide to clarify that trees will actively be protected from development. [Inferred decision requested]
Catharine Underwood	481.36	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that water conservation (G17 and G18) should be made mandatory, as it will be very costly, if not impossible, to include water retrofittings in buildings after they have been built. New Zealand should take note of what Japan is doing.	Seeks that Water Conservation recommendations in the Residential Design Guide (G17 and G18) be made mandatory.
Catharine Underwood	481.37	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G19 and G20 (Ecology) in the Residential Design Guide should be made mandatory. Good design will take trees into account and provide a better outcome for residents, instead of cutting down trees to get more money from extra apartments. G24 also supports prior amendment suggestions of 1.5m minimum setback for the planting of a street scape.	Seeks that Ecology recommendations in the Residential Design Guide (G19 and G20) be made mandatory.
Catharine Underwood	481.38	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	Considers that G60 in the Residential Design Guide is unclear, as it refers to grouping carparks to improve setbacks, despite it being understood that there would be not setbacks to the front or sides.	Clarify the intent of G60 of the Residential Design Guide [Inferred decision requested]
Catharine Underwood	481.39	Design Guides Subpart / Design Guides / Residential Design Guide	Not specified	Considers that sub-points in the Residential Design Guide regarding cars and carparking tend to have 'must' in their wording, while sub-points on storage for ebikes, bikes, scooters and other modes of transport have 'should' in their wording, such as G74 under the heading Carbon Reduction.	Not specified.
Te Rūnanga o Toa Rangatira	488.97	Design Guides Subpart / Design Guides / Residential Design Guide	Support in part	Supports the Residential Design Guide as it provides direction on matters such as urban design, stormwater and implementation of climate change measures that are part of PDP's pivotal strategic objectives.	Retain the residential design guide as notified.
Dinah Priestley	495.3	Design Guides Subpart / Design Guides / Residential Design Guide	Oppose	Opposes the provisions of the MRZ and associated design guides relating to residential development within the residential suburbs of the city. Considers that Council's proposals are aimed specifically at achieving a complete transformation of the inner residential neighbourhoods through intensification that will result in the irrevocable loss of the city's older housing stock which gives Wellington its special character and unique sense of place. It is believed that the inner residential neighbourhoods can make an acceptable contribution to city growth without destroying the existing residential fabric.	Seeks that the Residential Design Guide is re-written to achieve reasonable intensification whilst maintaining and enhancing the existing valued housing stock. The Guide will need to recognize both residential character and heritage qualities ensure appropriate implementation.
Thorndon Residents' Association Inc	FS69.64	Part 4 / Design Guides Subpart / Design Guides / Residential Design Guide	Support	The TRA believes that the city can have its cake and eat it. That it is not necessary to plan and zone for irrevocable loss of the city's valued older housing stock. And especially when this is part of Wellington special character and unique sense of place. It is observed how liveable cities overseas are enhanced by appreciating these values, and undertaking urban planning accordingly to get the right balance. Inner residential neighbourhoods like Thorndon have made an acceptable contribution to city growth, and can continue to do so without destroying the existing residential fabric.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Dinah Priestley	495.4	Design Guides Subpart / Design Guides / Residential Design Guide	Amend	<p>Opposes the provisions of the MRZ and associated design guides relating to residential development within the residential suburbs of the city.</p> <p>Considers that Council's proposals are aimed specifically at achieving a complete transformation of the inner residential neighbourhoods through intensification that will result in the irrevocable loss of the city's older housing stock which gives Wellington its special character and unique sense of place. Robert and Chris Gray	46.16	Design Guides Subpart / Design Guides / Character Precincts Design Guide	Amend	<p>Mount Victoria's character is unique in Wellington and New Zealand for its concentration of Victorian and Edwardian wooden dwellings.</p> <p>Considers that a critical mass is required to preserve character.</p> <p>Notes that the area that WCC Officers, presumably guided by the Boffa Miskell assessment, originally recommended to be classified as Character Precincts in Mount Victoria was considerably larger than the those in the PDP.</p>	Seeks that Character Precincts in Mount Victoria be extended to encompass Boffa Miskell Primary/Contributory Character sub-area plus Heritage New Zealand Pouhere Taonga's recommendations.
Owen Watson	51.6	Design Guides Subpart / Design Guides / Character Precincts Design Guide	Amend	Considers that that the character areas in Mt Victoria should be extended, in line with the recommendations in the Boffa Miskell Report.	Seeks that Character Precincts in Mount Victoria be extended to areas recommended by Heritage New Zealand submission.
Avryl Bramley	202.46	Design Guides Subpart / Design Guides / Character Precincts Design Guide	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that a provision is added to allow design alteration on streetscapes to bring them in line with original plans, only allowing use of materials in the same style (Excluding strength, fire and insulation requirements).
Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.51	Design Guides Subpart / Design Guides / Character Precincts Design Guide	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain the Character Precincts design guide as notified
Wellington Heritage Professionals	412.86	Design Guides Subpart / Design Guides / Character Precincts Design Guide	Amend	Considers that content should be revised to focus on pre-1930 character as opposed to 'original' elements because it is characteristic of many buildings in the character areas to have had alterations in the 1920s.	Seeks that content under the heading 'Building age and style revise paragraphs 2 and 4 to ensure the emphasis is on pre-1930 character as opposed to 'original' elements.
Wellington Heritage Professionals	412.87	Design Guides Subpart / Design Guides / Character Precincts Design Guide	Amend	Identifies a grammatical mistake	Amend sentence in paragraph 8 which does not make sense.
Wellington Heritage Professionals	412.88	Design Guides Subpart / Design Guides / Character Precincts Design Guide	Amend	Considers that references to 'originality' or 'original' throughout this guide should be changed to 'pre-1930'.	Amend references to 'originality' or 'original' throughout the guide to 'pre-1930'.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
David Lee	454.7	Design Guides Subpart / Design Guides / Character Precincts Design Guide	Not specified	Considers that 'Character' areas should all be renamed heritage areas because character is a subjective term, unlike 'heritage' which has a legal force in the RMA.	Seeks that 'Character' areas should all be renamed heritage areas.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.18	Design Guides Subpart / Design Guides / Character Precincts Design Guide	Support	Suports submission seeking all character areas should be relabelled to Heritage Areas.	Allow
Christina Mackay	478.15	Design Guides Subpart / Design Guides / Character Precincts Design Guide	Amend	Considers that the Character Precincts Design Guide appears too permissive, which could led to an undermining of the integrity of historical houses and their neighbourhood. Submitter supports a more conservation and preservation approach.	Seeks a more conservation and preservation approach for Character Precincts Design Guide.
Avryl Bramley	202.47	Design Guides Subpart / Design Guides / Mt Victoria North Townscape Precinct Design Guide	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that a provision is added to allow design alteration on streetscapes to bring them in line with original plans, only allowing use of materials in the same style (Excluding strength, fire and insulation requirements).
Tapu-te-Ranga Trust	297.36	Design Guides Subpart / Design Guides / Papakāinga Design Guide	Support	Supports the recognition of papakāinga supporting Māori who don't necessarily whakapapa to a particular place, and as a concept of communal purchase of land by common Kaupapa to support intergenerational communal living.	Retain introduction 'What is a 'papakāinga' of the Papakāinga Residential Design Guide, as notified.
Tapu-te-Ranga Trust	297.37	Design Guides Subpart / Design Guides / Papakāinga Design Guide	Support	Support the recognition of urban papakāinga for mātāwaka who are wanting to live in more communal ways to support the revitalization of culture and te reo me ōna tikanga (language and its cultural practices).	Retain introduction 'What is a 'papakāinga' of the Papakāinga Residential Design Guide, as notified.
Tapu-te-Ranga Trust	297.38	Design Guides Subpart / Design Guides / Papakāinga Design Guide	Support	Supports the cross reference between the Residential Design Guide and the Papakāinga Design Guide.	Retain introduction 'Coordination with Residential Design Guide' of the Papakāinga Residential Design Guide, as notified.
Tapu-te-Ranga Trust	297.39	Design Guides Subpart / Design Guides / Papakāinga Design Guide	Support	Supports the inclusion of this section, and the identification of increased interest in medium and high density papakāinga models and associated kaupapa or principles underpinning papakāinga.	Retain 'Kaupapa' section of the Papakāinga Residential Design Guide, as notified.
Tapu-te-Ranga Trust	297.40	Design Guides Subpart / Design Guides / Papakāinga Design Guide	Support	Supports the guidelines included in the design guide.	Retain guidelines of the Papakāinga Residential Design Guide, as notified.
Tapu-te-Ranga Trust	297.41	Design Guides Subpart / Design Guides / Papakāinga Design Guide	Support	Supports glossary.	Retain glossary of the Papakāinga Residential Design Guide, as notified.
Greater Wellington Regional Council	351.337	Design Guides Subpart / Design Guides / Papakāinga Design Guide	Support in part	Supports the Papakāinga Design Guide and the approach to providing for papakāinga using guiding Kaupapa, as long as this design guide does not undermine tino rangatiratanga. Currently the District Plan only references this design guide for Tapu Te Ranga land in the Medium Density Residential Zone.	Retain the Papakāinga Design Guide with amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.69	Part 4 / Design Guides Subpart / Design Guides / Papakāinga Design Guide	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with the RVA's primary submission.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ryman Healthcare Limited	FS128.69	Part 4 / Design Guides Subpart / Design Guides / Papakāinga Design Guide	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Greater Wellington Regional Council	351.338	Design Guides Subpart / Design Guides / Papakāinga Design Guide	Amend	The submitter notes that there is no papakāinga chapter, nor are papakāinga activities specifically provided for in the zone chapters. The PDP does not provide for papakāinga on Māori owned land or ancestral land. Seeks to ensure the approach to providing for the occupation, use, development and ongoing relationship of mana whenua / tangata whenua with their ancestral land, and enabling Māori to express their cultural and traditional norms, has regard to direction from Policies UD.1 and UD.2 in Proposed RPS Change 1.	Seeks to clarify how the Papakāinga Design Guide will apply in areas outside the Tapu Te Ranga land.
Te Rūnanga o Toa Rangatira	488.98	Design Guides Subpart / Design Guides / Papakāinga Design Guide	Support	Supports the Papakāinga design guide	Retain Papakainga Design Guide as notified. [Inferred decision requested]
Paul Burnaby	44.21	Design Guides Subpart / Design Guides / Heritage Design Guide	Support	Supports the Heritage Design Guide provisions in principle.	Retain Heritage Design Guide as notified.
Paul Burnaby	44.22	Design Guides Subpart / Design Guides / Heritage Design Guide	Support	Supports, in principle, the proposed 'Additional Considerations' as stated on page 5 of the Heritage Design Guide (HDG).	Retain Heritage Design Guide as notified.
Paul Burnaby	44.23	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers that clarification is needed as to the meaning, purpose, interpretation, and application of the 'additional considerations' within the HDG.	Clarify additional considerations in the Heritage Design Guide.
Paul Burnaby	44.24	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers that clarification is needed regarding the status (meaning, purpose, interpretation, and application) of the orange guidance notes in the HDG.	Clarify notes on page 20 of the Heritage Design Guide.
Foster+Melville Architects Limited	141.3	Design Guides Subpart / Design Guides / Heritage Design Guide	Not specified	Considers that Wellington needs to be striving for design excellence to ensure that our heritage buildings are part of the future.	Not specified.
Foster+Melville Architects Limited	141.4	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers that G10 in the Heritage Design Guide should be amended to reflect that the relationship between aligning key elements is important but is not a measure of a good design.	Amend G10 (Where contrast is discouraged) in the Heritage Design Guide as follows: ... also consideration can be given to the alignment of floor levels and window heads and sills.
Foster+Melville Architects Limited	141.5	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers that the relationships outlined on page 20 are too prescriptive, will lead to confusion, and should be deleted. Different buildings and different contexts need to be considered on a case by case basis.	Amend the Heritage Design Guide by deleting the whole section relating to managing scale transitions within heritage areas outlined on page 20. [Inferred decision requested].
Foster+Melville Architects Limited	141.6	Design Guides Subpart / Design Guides / Heritage Design Guide	Support	Supports G15 in the Heritage Design Guide as correct.	Retain G15 (Retaining and restoring significant heritage shopfronts) in the Heritage Design Guide as notified.
Foster+Melville Architects Limited	141.7	Design Guides Subpart / Design Guides / Heritage Design Guide	Oppose	Opposes G16 in the Heritage Design Guide as while it is appropriate to restore and reconstruct shopfronts, particularly where heritage fabric remains, this should not be imposed on buildings where little, or no heritage fabric remains. G16 conflicts with the objectives outlined in the Gehl Report. [Refer to original submission for full reasons].	Delete G16 (Restore or reconstruct shopfronts where there is evidence of original form, detailing and materials) from the Heritage Design Guide.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Foster+Melville Architects Limited	141.8	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers that G40 in the Heritage Design Guide should be clarified to reflect that the strengthening of certain buildings in Wellington poses considerable challenges and the guidelines need to be flexible enough to enable a variety of engineering solutions. In some cases, an external support structure is the only option.	Amend G40 (The installation of exoskeletons, external columns, and external bracing elements is discouraged) in the Heritage Design Guide as follows: G40. The installation of exoskeletons, external columns, and external bracing elements is discouraged , <u>should only be considered where there is no viable, alternative engineering solution and consideration should be given to particularly where these would:</u> ...
Historic Places Wellington	182.33	Design Guides Subpart / Design Guides / Heritage Design Guide	Support	Supports the Heritage Design Guide on facadism.	Retain G37 (Built form) of the Heritage Design Guide as notified. [Inferred decision requested]
Historic Places Wellington	182.34	Design Guides Subpart / Design Guides / Heritage Design Guide	Support	[No specific reason given - refer to original submission]	Retain the Heritage Design Guide with amendment.
Historic Places Wellington	182.35	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers that while the submitter recognises the special significance of tangata whenua as partners in Te Tiriti they submit that other cultural backgrounds and heritages that contribute to New Zealand's multicultural society also warrant recognition.	Amend the Heritage Design Guide outcomes as follows: "New development respects and responds to nearby scheduled sites and areas <u>of significance to Māori, heritage areas of significance to all New Zealand peoples and cultures</u> , buildings, structures and trees.
Te Rūnanga o Toa Rangatira	FS138.14	Part 4 / Design Guides Subpart / Design Guides / Heritage Design Guide	Support	The submitter seeks for the Heritage Design Guide outcomes to be amended as follows: "New development respects and responds to nearby scheduled sites and areas of significance to Māori, heritage areas of significance to all New Zealand peoples and cultures, buildings, structures and trees." Te Rūnanga o Toa Rangatira support this submission because the suggested amendments will help to protect sites and areas of significance to Māori from development.	Allow
Go Media Ltd	236.36	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the Heritage Design Guide expressly recognises the potential for third-party signs on heritage buildings.
Wellington City Council	266.176	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers minor clarification needed in second point of G31.	Amend G31 as follows: (...) - understanding the heritage value <u>values</u> of the place through research, investigation, recording and documentation.
Wellington City Council	266.177	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers clarification is needed in the third point of G31 to match wording in HH-P2.	Amend G31 as follows: (...) - planning and carrying out maintenance and repair in accordance with <u>recognised</u> conservation principles <u>and methods</u> .
Wellington Heritage Professionals	412.83	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Supports G2 of the heritage design guide.	Retain G2 of the heritage design guide as notified.
Wellington Heritage Professionals	412.89	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers that the heritage design guides should be amended to provide a set of considerations in the heritage design guide to be used when deciding whether to allow removal of a chimney, rather than providing a policy framework in the district plan.	[Inferred decision requested] Amend the heritage design guides to provide a set of considerations to be used when deciding whether to allow removal of a chimney.
Wellington Heritage Professionals	412.90	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers that 'Heritage from both Tiriti o Waitangi partners' does not capture all of Wellington's heritage - only the heritage of the Crown and tangata whenua.	Seeks that references to 'Heritage from both Tiriti o Waitangi partners' be amended to 'heritage from all of New Zealand's peoples' in the application section .

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Heritage Professionals	412.91	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers that it is heritage conservation that leads to the best learning opportunities, not new development.	Seeks that the application section is amended as follows: " development <u>heritage conservation</u> can lead to learning opportunities for the wider public, making currently unseen heritage and histories more accessible"
Wellington Heritage Professionals	412.92	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers that it may not always be appropriate to acknowledge or celebrate sites of significance to mana whenua.	Amend the Outcomes section of the heritage design guide as follows: "Mana whenua sites of significance are acknowledged and celebrated <u>where appropriate</u> "
Te Rūnanga o Toa Rangatira	FS138.116	Part 4 / Design Guides Subpart / Design Guides / Heritage Design Guide	Oppose	The submitter considers that it may not always be appropriate to acknowledge or celebrate sites of significance to mana whenua. Te Rūnanga o Toa Rangatira oppose this part of the submission because it is up to mana whenua to decide which of their sites of significance are acknowledged and celebrated in the plan.	Disallow
Wellington Heritage Professionals	412.93	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers that the heritage design guide should clearly refer to the CMU and Residential Design Guides that provide guidance on how to design new development adjacent to a heritage place.	Amend the Heritage design guide to clearly refer to the Centres and Mixed Use and Residential Design Guides that provide guidance on how to design new development adjacent to a heritage place.
Wellington Heritage Professionals	412.94	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers that the guideline should not refer to works and that conservation is about understanding and planning and does not always involve works.	Amend G31 of the Heritage Design Guide as follows: Consider effects on heritage fabric by: • undertaking conservation works with consultation, engagement and in partnership with mana whenua.
Wellington Heritage Professionals	412.95	Design Guides Subpart / Design Guides / Heritage Design Guide	Amend	Considers that the area-specific guides in the operative district plan should be reinstated to help to reduce the likelihood of adverse effects on heritage.	Seeks that the Area Specific Heritage Design Guides in the Operative District Plan be included.
Go Media Ltd	236.37	Design Guides Subpart / Design Guides / Signs Design Guide	Amend	Considers that requiring the confirmation of priority of principles in pre-application discussions will create ambiguity,	Seeks that the Signs Design Guide is amended to make prioritisation of each principle clear without owner or applicant having to enter preapplication discussions with the Council.
Go Media Ltd	236.38	Design Guides Subpart / Design Guides / Signs Design Guide	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that G3 (Scale and Location of Signs) in the Signs Design Guide is amended to reflect that architectural features don't necessarily make a positive contribution to the building and local area.
Go Media Ltd	236.39	Design Guides Subpart / Design Guides / Signs Design Guide	Not specified	Considers that the suggestion to proportion signs to grid locations as illustrated in Diagram 2 in Signs Design Guide can result in sign installations which alter the apparent proportion and form of the building.	Seeks that G3 (Scale and Location of Signs) in the Signs Design Guide is deleted or amended.
Go Media Ltd	236.40	Design Guides Subpart / Design Guides / Signs Design Guide	Amend	Considers that G10 in the Signs Design Guide assumes that all architectural or other features of a building make a contribution to the building or local area and this may not be the case.	Seeks that G10 (Visual Dominance) in Signs Design Guide is deleted or amended to reflect that architectural features don't necessarily make a positive contribution to the building and local area.
Go Media Ltd	236.41	Design Guides Subpart / Design Guides / Signs Design Guide	Amend	Considers that G11 in the Signs Design Guide assumes that all architectural or other features of a building make a contribution to the building or local area and this may not be the case.	Seeks that G11 (Visual Dominance) in the Signs Design Guide is deleted or amended to reflect that architectural features don't necessarily make a positive contribution to the building and local area.
Go Media Ltd	236.42	Design Guides Subpart / Design Guides / Signs Design Guide	Amend	Considers that Guideline 15 may be appropriate response for some signs, but may not be the most appropriate response.	Seeks that G15 (Visual Dominance) in the Signs Design Guide is deleted or amended to make it only considered on a building by building basis.
Go Media Ltd	236.43	Design Guides Subpart / Design Guides / Signs Design Guide	Amend	Considers that different signs and designs may be appropriate, particularly on different elevations.	Seeks that G16 (Design Quality) in the Signs Design Guide is amended to be more specific to relate more fully to the example within the Guideline.

Go Media Ltd	236.44	Design Guides Subpart / Design Guides / Signs Design Guide	Amend	Considers that G26 (Illuminated and digital signs) in the Signs Design Guide shows bias against illuminated and digital signs.	Seeks that G26 (Illuminated and digital signs) in the Signs Design Guide is amended to remove bias and the potential for misinterpretation.
Out of Home Media Association of Aotearoa	284.41	Design Guides Subpart / Design Guides / Signs Design Guide	Oppose	Opposes parts of the Signs Design Guide that are not appropriately balanced to enable a site-by-site consideration of signs and billboards relative to their context. The submitter opposes these guidelines because the submitter considers that they will not: -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means.	Seeks that parts of the Signs Design Guide that are not appropriately balanced to enable a site-by-site consideration of signs and billboards relative to their context be deleted. [Inferred decision requested].
Out of Home Media Association of Aotearoa	284.42	Design Guides Subpart / Design Guides / Signs Design Guide	Oppose	Opposes the inclusion of a Design Guide for Signs for the following reasons: - 'Prioritisation' system between one and three dots, which considers establishes a set of 'pass or fail' requirements; - Considers many of the guidelines replicate standards; - Relationship between Design Guide and other statutory provisions of the District Plan will create an overly complex framework; - 'Prioritisation system' will further restrict the design of signs rather than guiding their design.	Delete Signs Design Guide in Part 4 in its entirety.
Lumo Digital Outdoor Limited	285.41	Design Guides Subpart / Design Guides / Signs Design Guide	Oppose	Opposes parts of the Signs Design Guide that are not appropriately balanced to enable a site-by-site consideration of signs and billboards relative to their context. The submitter opposes these guidelines because the submitter considers that they will not: -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means.	Seeks that parts of the Signs Design Guide that are not appropriately balanced to enable a site-by-site consideration of signs and billboards relative to their context be deleted. [Inferred decision requested].
Lumo Digital Outdoor Limited	285.42	Design Guides Subpart / Design Guides / Signs Design Guide	Oppose	Opposes the inclusion of a Design Guide for Signs for the following reasons: - 'Prioritisation' system between one and three dots, which considers establishes a set of 'pass or fail' requirements; - Considers many of the guidelines replicate standards; - Relationship between Design Guide and other statutory provisions of the District Plan will create an overly complex framework; - 'Prioritisation system' will further restrict the design of signs rather than guiding their design.	Delete Signs Design Guide in Part 4 in its entirety.
Restaurant Brands Limited	349.1	Design Guides Subpart / Design Guides / Signs Design Guide	Oppose	Oppose The Signs Design Guide does not appropriately recognise or provide for the functional or operational requirements of activities. The Design Guide reads as a set of rules to be complied with, rather than guidelines to inform the assessment of applications for resource consent and will result in an unnecessarily onerous and unreasonable resource consent process. The Design Guide imposes certain outcomes that are required to be achieved in every circumstances and results in a "pass/fail" assessment being applied, resulting in an unnecessarily onerous and unreasonable resource consent process.	Delete Te Aratohu Hoahoa o Ngā Pokapū Whakamahinga Rau - Centres and Mixed Use Design Guide in its entirety.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Foodstuffs North Island	FS23.30	Design Guides Subpart / Design Guides / Signs Design Guide	Support	Submission point 349.1 supports FSNI submission points 476.1 and 476.102.	Allow
Taranaki Whānui ki te Upoko o te Ika	389.139	Design Guides Subpart / Design Guides / Signs Design Guide	Amend	Considers that signs design guide does not contain any guidance on language used for signs or requirements for use of Te Reo Māori.	Seeks to amend signs design guide, to include Taranaki Whānui in relation to te reo Māori and as first points of contact in relation to ahi kā and primary mana whenua status matters.
Wellington Heritage Professionals	412.96	Design Guides Subpart / Design Guides / Signs Design Guide	Amend	Considers that high illumination levels of digital signage can negatively impact historic heritage, in addition to other matters such as driver and pedestrian distraction and that his guidance should be strengthened.	Amend G28 of the Signs Design Guide to receive a three or two "point" rating.
Wellington Heritage Professionals	412.97	Design Guides Subpart / Design Guides / Signs Design Guide	Amend	Considers that a frequent rate of change (short dwell times) and rapid transition between content can detract from heritage places, as well as causing distraction from drivers.	Add a new guideline as G29 as follows with a three or two "point" rating: "Ensure the rate of change and transition times are appropriate to the context of the sign"
Wellington Heritage Professionals	412.98	Design Guides Subpart / Design Guides / Signs Design Guide	Support	Supports the assessment of the visual impacts of signs from a "full range of distances", and the associated requirement to provide views of these in the application.	Retain G9 of the Signs Design Guide as notified.
Mclndoe Urban Limited	135.120	Design Guides Subpart / Design Guides / Subdivision Design Guide	Amend	Considers that the Subdivision Design Guide contains a lot of detail that will not be relevant to many small subdivision applications. Different types and scales of subdivision should be identified and a mechanism should be introduced to identify which guidelines apply to each type and scale of subdivision, if this is not already present in the Proposed District Plan. This is to avoid unnecessary inefficiency in minor subdivision projects such as subdividing a single lot.	Seeks that the Subdivision Design Guide identifies different types and scales of subdivision and introduces a mechanism to identify which guidelines apply to each type and scale of subdivision.
Wellington City Council	266.178	Design Guides Subpart / Design Guides / Subdivision Design Guide	Amend	Considers amendment necessary to clarify the use of the terms 'wetlands' to distinguish between 'constructed wetland' and 'natural wetland'.	Seeks to amend G19, G20, and G21 in the Subdivision Design Guide to reference natural wetland, and G23 to reference constructed wetland.
Greater Wellington Regional Council	351.339	Design Guides Subpart / Design Guides / Subdivision Design Guide	Support in part	Supports the intent of this guideline, and the identification and protection of existing watercourses and wetlands, but care should be taken not to encourage potentially damaging activities in them.	Retain the Subdivision Design Guide with amendment.
Greater Wellington Regional Council	351.340	Design Guides Subpart / Design Guides / Subdivision Design Guide	Amend	Considers that the current phrasing of policy G21 in the Subdivision Design Guide could suggest that piping streams is a way to avoid adverse effects on water quality. Existing natural wetlands should not be used as stormwater treatment devices. Using natural wetlands as stormwater devices requires disruptive maintenance activities, so constructed wetlands built for that purpose are required. Natural wetlands should not be affected by the development and improved where possible.	Amend wording in the Subdivision Design Guide in the first bullet point to avoid suggesting utilization of natural wetlands and watercourses as stormwater devices and in G21 as follows: 'Streams or wetlands should not be disturbed. However, where development does impact a stream (such as piping streams), alternative design solutions for stormwater management must be provided that will not adversely affect the waterway's quality or ecological health, such as piping streams.'
Glenside Progressive Association Inc	374.14	Design Guides Subpart / Design Guides / Subdivision Design Guide	Amend	Considers that the Subdivision Design guide should be stricter in restricting earthworks in elevated development area, particularly Upper Stebbings and Glenside West.	Seeks that the Subdivision Design Guide be stricter in restricting earthworks in elevated development areas, particularly Upper Stebbings and Glenside West.
Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.7	Part 4 / Design Guides Subpart / Design Guides / Subdivision Design Guide	Oppose	The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington Heritage Professionals	412.99	Design Guides Subpart / Design Guides / Subdivision Design Guide	Support	Supports G1 of the subdivision design guide. Supports the consideration of the cultural and heritage context of new subdivisions	Retain G1 of the Subdivision Design Guide as notified.
Wellington Heritage Professionals	412.100	Design Guides Subpart / Design Guides / Subdivision Design Guide	Support	Supports G4 of the subdivision design guide. Supports the consideration of the cultural and heritage context of new subdivisions	Retain G4 of the Subdivision Design Guide as notified.
Paul M Blaschke	435.12	Design Guides Subpart / Design Guides / Subdivision Design Guide	Support	Supports the widespread use of the Subdivision Design Guide	Retain the Subdivision Design Guide as notified.
M&P Makara Family Trust	159.10	Design Guides Subpart / Design Guides / Rural Design Guide	Amend	Considers that more explicit locational wording should be used instead of referring to “buildings in centres or central areas” and that the Wellington Rural Area is so specific that this will not be complex.	Seeks that the Rural Design Guide should name specific areas, clarify areas by map, or use more explicit locational wording instead of referring to “buildings in centres or central areas”.
M&P Makara Family Trust	159.11	Design Guides Subpart / Design Guides / Rural Design Guide	Amend	Considers that where “providing roof gardens and vegetation on surfaces which would typically be covered by cladding or other external materials” is mentioned in the Rural Design Guide, practical provision for the collection of rainwater from roof surfaces must be an over-riding consideration in the rural area.	Seeks that where “providing roof gardens and vegetation on surfaces which would typically be covered by cladding or other external materials” is mentioned in the Rural Design Guide, practical provision for the collection of rainwater from roof surfaces must be an over-riding consideration in the Rural Zone.
M&P Makara Family Trust	159.12	Design Guides Subpart / Design Guides / Rural Design Guide	Amend	Considers that the recommendation “Place services underground where possible, otherwise use simple utilitarian timber posts” should be adjusted as the power companies will not install timber poles any more, opting for the higher concrete reinforced poles. The recommendation is redundant if not practicable.	Seeks that the Rural Design Guide should adjust the recommendation “Place services underground where possible, otherwise use simple utilitarian timber posts”.
Meridian Energy Limited	228.121	Design Guides Subpart / Design Guides / Rural Design Guide	Oppose in part	Considers that most of the guidance is relevant to rural production and residential buildings only and not relevant at all for renewable electricity generation activities.	Retain the Rural Design Guide with amendment.
Meridian Energy Limited	228.122	Design Guides Subpart / Design Guides / Rural Design Guide	Amend	Considers that most of the guidance is relevant to rural production and residential buildings only and not relevant at all for renewable electricity generation activities.	Amend the Rural Design Guide to include a statement clarifying that the Design Guide does not apply to renewable electricity generation activities (including renewable electricity generation investigation activities and upgrading of renewable electricity generation activities) in the General Rural Zone.
Wellington City Council	266.179	Design Guides Subpart / Design Guides / Rural Design Guide	Amend	Considers amendment necessary to clarify the use of the terms 'wetlands' to distinguish between 'constructed wetland' and 'natural wetland'.	Seeks to amend G26, G27, and G28 in the Rural Design Guide to reference natural wetland.
Te Marama Ltd	337.14	Design Guides Subpart / Design Guides / Rural Design Guide	Support	The Rural Design Guide is supported, especially G30 (Group buildings together).	Retain the Rural Design Guide as notified.
Greater Wellington Regional Council	351.341	Design Guides Subpart / Design Guides / Rural Design Guide	Amend	Considers there is no mention of on-site wastewater in the rural design guide, which represents a potential contaminant source in the rural environment.	Amend the Rural Design Guide to include mention of on-site wastewater system installation, discharge fields, treatment/maintenance and potential adverse effects in the rural design guide.
Te Kamaru Station Ltd Ratings	362.18	Design Guides Subpart / Design Guides / Rural Design Guide	Support	The Rural Design Guide is supported, especially G30 (Group buildings together).	Retain the Rural Design Guide as notified.
Terawhiti Farming Co Ltd (Terawhiti Station)	411.23	Design Guides Subpart / Design Guides / Rural Design Guide	Support	Supports Rural Design Guide, G30: “Group buildings together”	Retain Rural Design Guide, G30: “Group buildings together” as notified.

Schedules

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Director-General of Conservation	385.87	Schedules Subpart / Schedules / New schedule	Amend	Oppose Council decision on 23 June 2022 at the Planning and Environment Committee on significant natural areas applying to residential land.	Seeks that all 169 groups of residential parcels identified within the SNA overlays within a new schedule named 'Urban Environment Allotments' [Inferred decision requested]
Opoutere Trust	3.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Considers that Firth House at 18 Vera Street should not be included as a heritage building under SCHED1. Disagrees with the Council's heritage assessment that the house is 'largely unmodified'. The house has been extensively remodelled since 1995 under WCC supervision. Little remains from the house's original design. [refer to original submission for full reason]	Remove Item 521 (18 Vera Street) from SCHED1 - Heritage Buildings.
Sophie Kahn	FS76.2	Part 4/Schedules Subpart / Schedules / SCHED 1 - Heritage Buildings	Support	The Trust states that the original house no longer exists - that modification under Council's approval decades ago (1995 and 2005) left virtually nothing of the original design intact. The accurately and authentically of the remaining heritage value is low. The modifications were made thirty years ago for very good reasons: the house had to be altered to make it livable for the present. This reflects the Kahn House situation where external an internal modifications have been made, significantly reducing the accuracy and authentically of the remaining 'heritage' value. This also demonstrates that the old modernist houses will over time require major updating to meet the needs and safety requirements of the present, and many of the changes result in changes to the authenticity of the original designs. This is now acutely pertinent for the Kahn House.	Amend / Remove Item 521 (18 Vera Street) from SCHED1 - Heritage Buildings. Seeks that Council: - Do not list private homes that have undergone such major alterations where virtually all or none of the original heritage structure exists. - Consider the impact the listing will have on the homeowners ability to make updates and upgrades, especially when the homes is in urgent need of updating - Consider that heritage listing a private home will prevent the homeowner from making changes as desired, and that older heritage homes are often unfit (either unsafe and/or constructed considering primitive living conditions/) for modern living.
Sophie Kahn	FS76.3	Part 4/Schedules Subpart / Schedules / SCHED 1 - Heritage Buildings	Support	The submission (3) discusses that the architectural heritage and original design of 18 Vera Street is well documented in publicly accessible archives and argues with that this is where heritage resides, and is accessible to the public. Kahn House agrees with this point. Opoutere Trust points out that there is a well known restored, preserved, superior, and awardwinning example of Firth's best work in Wellington. It has not been scheduled. The submitter exposes that the identification process is inequitable, unfair, biased, and based on questionable evidence. Kahn House supports this point and agrees the process for identification of homes for listing is poorly evidenced, apparently random and without justification. Indeed, it is highly concerning that it became clear during this process that the WCC itself does not even know what is in its inventory. Opoutere Trust points out that for the owner of a private suburban home severe outcomes are evident: loss of capital value, reduced sales pool, constraints on development and improvements, and increased compliance costs. The owner states he would not have purchased the property if he had been aware that thirty years later the house would be scheduled. Kahn House shares concerns about the grave financial outcomes and endorse his point that owners would never have purchased / built their homes if as a result of this retrospective action. Kahn House supports the submitter's point about the WCC's ability to unilaterally change home designations being unfair to homeowners and endorses an urgent independent review of the means by which government bodies (and Crown Entities) are able to use their power to severely negatively impact the financial (and other) futures, and impose on the property rights of select NZ private citizens. [Inferred reference to submission point 3.1]	Amend / Remove Item 521 (18 Vera Street) from SCHED1 - Heritage Buildings. Seeks that: - All privately-owned, standalone independent suburban homes (not in identified precincts) should be wholly removed from Schedule 1 'Heritage Buildings' - unless the owner(s) seeks and agree to listing. - WCC must provide evidence they have identified effects of listing on private owners (including a financial analysis by an independent body), as well as provide evidence that their quantitative and qualitative evaluation for all private owners has been achieved to a level of detail and accuracy proportional to the significance of the effects on private owners. - List only (and only with full agreement of owners) superior examples of a desired architects/movements/etc representation on the Plan, with detailed, factually-correct reason why it is the key representation of the movement. - One or two listings of each representative theme is reasonable (not redundant listings from a single architect). Any more is excessive, and needs justification. - Do not place 'public need' - especially when no evidence is provided of this need - over the financial security of NZ citizens. Especially in circumstances where the homes are not in a recognised precinct and are almost entirely hidden from public view

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Sarah Cutten and Matthew Keir	FS91.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>The submitter notes that there appears little reasoning for why some buildings are proposed for listing and others (often better examples) are not. The submitter also notes that the Council had failed to understand what it has in its own heritage inventory and that there is no clear classification system of architectural themes.</p> <p>The submitter share the original submitters concerns regarding the process run by the Council in regard to identifying which properties should be scheduled for listing.</p> <p>The Council has not considered any direct alternatives or options to listing this home to achieve their outcome as would be expected under Clause(1) (b) (i) of s32 of the RMA. This situation reflects the experience with the further submitters home, 28 Robieson St.</p> <p>The further submitter does not support listing where there is no justification given for selection over alternatives (direct alternatives not considered).</p> <p>[See original further submission for full reason].</p>	<p>Allow / Item 521 (18 Vera Street) be removed from SCHED1 - Heritage Buildings.</p> <p>The Council commission an independent review into the performance and effectiveness of the current heritage protection regime in relation to achieving desired heritage outcomes and requirements of the RMA.</p>
Sarah Cutten and Matthew Keir	FS91.32	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>The further submitter supports the submitters view that the Council has made no effort to understand the impacts that the listing will have on the individual homeowner, and that this impact is significant for isolated homes.</p> <p>The Council has failed to identify the effects of listing and undertake an evaluation or quantitative assessment to a required level of detail that is proportional to the scale and significant of the regulatory intervention as required under s32 of the RMA.</p> <p>[See original further submission for full reason].</p>	<p>Allow / Seeks that Item 521 (18 Vera Street) be removed from SCHED1 - Heritage Buildings.</p> <p>The Council does not list private homes in SCHED1 without owner's consent. Especially in the case where these are homes are isolated and not part of a cohesive precinct or area that can be appreciated by the public.</p> <p>Seeks that the Council only consider listing buildings where there is a net benefit to the community from doing so. Identify the full range of effects of listing and quantify the costs and benefits to a level of detail that corresponds to the scale and significance the effect imposed by heritage listing (as required in s32 of the RMA).</p>
Mark Whitaker Levett	7.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>Considers that very little of the original heritage features of the building exists anymore. The building has undergone numerous construction changes. [Refer to original submission for full list of changes].</p> <p>The Historic Heritage Evaluation refers to features that no longer exist on the current building. Earlier WCC assessments have determined the heritage values to be low, and there is nothing in the current assessment that changes this position.</p> <p>Only has a Heritage New Zealand Historic Places Category 2 listing.</p>	Remove Item 524 (134 Willis Street) from SCHED1 - Heritage Buildings.
Heritage New Zealand Pouhere Taonga	FS9.43	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	134 Willis Street is included in the New Zealand Heritage List/ Rārangī Kōrero as a Category 2 place and has heritage values to support its inclusion in schedule 1.	Disallow / Retain as notified.
Sarah Cutten and Matthew Keir	FS91.11	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	The further submitters supports this submission. Heritage value is higher in buildings that are in both original and good condition.	Allow / Seeks that the Council only consider buildings with high heritage value to the community for evaluation and potential listing.
Sarah Cutten and Matthew Keir	FS91.12	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>The further submitter supports the position of the submitter that reflects their own experience of claimed features that no longer exist being used in our heritage assessment. The further submitter covered this in their submission in the section "The heritage assessment of our home is weak".</p> <p>The process and evidence used to justify the Council's proposed listings is insufficient.</p> <p>[See original submission for full reason].</p>	<p>Allow / Seeks that the Council only list buildings or structures with accurate information (i.e. free from errors) and robust evidence is provided to support listing.</p> <p>Seeks that the Council only list buildings where there is a net benefit to the community of doing so. The full range of effects of listing are identified and the costs and benefits are quantified to a level of detail that corresponds to the scale and significance of the effect of listing (as required in s32 of the RMA).</p>
Tony De Lorenzo	9.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Not specified	Considers that if the PDP is adopted the Council will make ownership of historic properties unaffordable for all except the wealthiest people in Wellington.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Sarah Cutten and Matthew Keir	FS91.42	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>The further submitter supports the original submitters concerns around affordability and impact on their financial wellbeing. The Council must consider the costs of a heritage protection regime that demands heritage services form private homeowners. Reduced property value and higher compliance limits access to funds that can be used to remediate and maintain these properties and can lead to less heritage being protected.</p> <p>Requiring the Council to compensate owners for the heritage services they mandate, or for them to offer to purchase properties where owners are opposed, would provide important balance and restraint to their incentives to over procure heritage as they bear no cost of doing so.</p> <p>[See original further submission for full reason].</p>	<p>Allow / Seeks that the Council offer to purchase homes proposed for listing when the owners are opposed.</p> <p>Seeks that the Council investigate other non-regulatory incentive schemes (as expected under the RMA) including enduring rates remissions for private owners providing heritage services to the city.</p> <p>Seeks that the Council commission an independent review into the performance and effectiveness of the current heritage protection regime in relation to achieving desired heritage outcomes and meeting the requirements of the RMA.</p>
Tony De Lorenzo	9.2	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>Seeks that all heritage listings to 1 Ranfurly Terrace (SCHED1 Item 415) are deleted and this property is given a generic area based heritage listing. Currently listing is unclear and too restrictive, and will incur disproportionate costs to the owners. [Refer to original submission for full reason]</p>	<p>Delete item 415 (1 Ranfurly Terrace) from SCHED1 - Heritage buildings.</p>
Tony De Lorenzo	9.3	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	<p>Seeks that the specific listed provisions in column 5 of SCHED1 Item 415 (1 Ranfurly Terrace) are amended (if this listing is not deleted in its entirety). Currently listing is unclear and too restrictive, and will incur disproportionate costs to the owners. [Refer to original submission for full reason]</p>	<p>Amend term 415 (1 Ranfurly Terrace) of SCHED1 - Heritage Buildings as follows: Protections Required All of the exterior of the house including the Exterior - facades, roofs <u>roofline</u>, chimneys and chimney pots. All of the front garden including Front garden - masonry front fence, piers, and metal gates; front garden formal layout including edging around planter beds; tiled path; tiled steps to entrance, rendered plinths, and tiled porch floor. Specific items in the rear garden Rear garden - three sections of masonry fence with plinth, bottle balusters, and top rail. The interior of the house including any Interior - including any original lath and plaster walls and ceilings; decorative plasterwork including ceiling roses, cornices and mouldings, and decorative plaster arches; timber floorboards; timber joinery including timber panelled doors, skirting boards, and architraves. (...)</p>
Rachael Bell and Michael McCormack	15.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>Support the removal of 355 The Parade from the list of heritage buildings. The values that this building was proposed to be scheduled for are seen in other buildings in Wellington.</p>	<p>Retain SCHED1 (Heritage Buildings) as notified.</p>
Sarah Cutten and Matthew Keir	FS91.43	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>The further submitter supports that 355 The Parade is not listed as we understand this would have imposed a significant burden on the owners for little value. This case sets a clear precedent for the Council taking into account the burden imposed on private homeowners, low heritage value, to removing buildings from SCHED1.</p> <p>The further submitter does not believe the Council has correctly recorded the original submitters view as support of SCHED1 when the submission's purpose is to discourage the relisting of their property.</p> <p>[See original further submission for full reason].</p>	<p>Allow / Seeks that the Council correct the submitters position to 'support in part' as its only in relation to their property not being scheduled (i.e. the part they support).</p>
Wellington Amusement Holdings	22.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>The portion of the cinema building identified to justify listing does not have sufficient heritage value.</p> <p>Retention and strengthening of this portion of the building compromises redevelopment options, including the continuation of viable cinema activities.</p>	<p>Remove Item 505 (Penthouse Cinema) from SCHED1 - Heritage Buildings.</p>
Heritage New Zealand Pouhere Taonga	70.38	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>Opposed to Schedule 1 (Heritage buildings) to the extent that the Wellington Central Library (Te Matapihi) is not included.</p>	<p>Retain SCHED1 - Heritage buildings with amendment.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Onslow Historical Society	FS6.26	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	OSH supports currently scheduled heritage buildings in our local area, and HNZPTs proposals.	Allow
Sarah Cutten and Matthew Keir	FS91.41	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>The further submitter believes the Council's efforts to delist the library is likely pragmatic. and will save Wellington rate payers from significant excess expense. In short, there is likely a net benefit to community of delisting. We are sympathetic to this situation.</p> <p>The further submitter notes that Council's approach clearly demonstrates the recognition excessive costs and restrictions that arise from remediating a heritage listed building.</p> <p>Notes that the fact that the Council are actively delisting their own buildings to allow significant remediation to occur to avoid this cost on one hand, while they actively pursue the listing of private isolated homes (and other buildings) also in similar need of significant remediation is hypocritical and offensive. The same burden the Council is seeking to avoid, they seek to impose on private homeowners - despite being significantly better placed to bear the burden than private homeowners.</p> <p>[See original further submission for full reason].</p>	<p>Allow / Seeks that the Council retain the delisting of the Wellington City Library as proposed and seek heritage input into the remediation project.</p> <p>Seeks the removal of the proposed listings of isolated private homes that are in need of remediation, that have low heritage value, where listing would impose a significant financial burden, and the owners are opposed.</p> <p>Item 514 (28 Robieson Street) be removed from SCHED1 - Heritage Buildings (as it fits these same criteria)</p>
Historic Places Wellington Inc	FS111.25	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	HPW supports currently scheduled heritage buildings in Wellington and HNZPTs amendments and proposals.	Allow
Heritage New Zealand Pouhere Taonga	70.39	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that the Wellington Central Library (Te Matapihi) should be included on Schedule 1 (Heritage Buildings) as it has been entered on the NZ Heritage List / Rārangī Kōrero as a Category 1 Historic Place (list number 9761).	Amend SCHED1 - Heritage Buildings to include the Wellington Central Library (Te Matapihi)
Heritage New Zealand Pouhere Taonga	70.40	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Opposed to Schedule 1 (Heritage buildings) to the extent that the McClean Flats are not included.	Retain SCHED1- Heritage Buildings with amendment
Heritage New Zealand Pouhere Taonga	70.41	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Schedule 1 (Heritage Buildings) should include the McLean Flats as it has been entered on the NZ Heritage List / Rārangī Kōrero as a Category 1 Historic Place (list number 9783) in the same listing as the Gordon Wilson Flats which is included in Schedule 1.	Amend SCHED1-Heritage Buildings to include McLean Flats as either a separate listing or as part of the listing of the Gordon Wilson Flats (#299).
Heritage New Zealand Pouhere Taonga	70.42	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Opposed to Schedule 1 (Heritage buildings) to the extent that Hurston House is not included.	Retain SCHED1- Heritage Buildings with amendment
Heritage New Zealand Pouhere Taonga	70.43	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Schedule 1 (Heritage Buildings) should include Hurston House as this building has recently been added to the NZ Heritage List / Rārangī Kōrero as a Category 2 Historic Place (list number 9954).	Amend SCHED1 - Heritage Buildings to include Hurston House
Heritage New Zealand Pouhere Taonga	70.44	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose in part	<p>Notes that a number of entries in Schedule 1 have incorrect New Zealand Heritage List/Rārangī Kōrero references, and incorrect addresses.</p> <p>Notes several instances where legal descriptions appear to be incorrect.</p>	Seeks that all SCHED1 - Heritage Buildings entries are checked for accuracy in terms of address, legal descriptions and Heritage New Zealand Listing number.

Te Herenga Waka Victoria University of Wellington	106.27	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support in part	The Wellington Operative District Plan specified the curtilage of the heritage listing under Hunter Building so that works outside of the curtilage are not unnecessarily subject to the heritage rules of the PDP. The Hunter Building should be defined as comprising only the entire external building envelope so as to exclude the interior of the building. The heritage value of the Hunter Building relates only to its external façade and envelope rather than any interior features.	Seeks amendment to Item 171 (Hunter Building, Victoria University) of SCHED1 - Heritage buildings to only include the external building envelope, not the inside of the building as follows: Hunter Building (<u>external building envelope</u>), Victoria University
Heritage New Zealand Pouhere Taonga	FS9.44	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Rules HH-R4 and HH-S2 of the PDP serve to manage the curtilage and surrounds of heritage places. As such the requested change can be accepted.	Allow
Te Herenga Waka Victoria University of Wellington	106.28	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Considers that the Gordon Wilson Flats have insufficient heritage value to warrant inclusion in the Heritage Schedule. The University also seeks to remove GWF from the Heritage Schedule because: (i) there are no reasonable alternatives to total demolition considering the maintenance, repair and seismic strengthening required; (ii) the building is unusable for any purpose in its present state; (iii) there is no appetite from the University, Council or Housing and Urban Development to repair, refurbish and use the building because it does not fit current needs; and (iv) the cost of refurbishment and conversion to an acceptable design and standard would make such a proposition a financial failure.	Remove Item 299 (Gordon Wilson Flats (Lot 1 DP 363050)) from SCHED1 - Heritage Buildings.
Heritage New Zealand Pouhere Taonga	FS9.48	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Gordon Wilson Flats are entered in NZ Heritage List/ Rārangi Kōrero as a Historic Place Category 1 and has heritage values to support its inclusion in Schedule 1. [Inferred reference to submission 106.28]	Disallow / Retain as notified.
Wellington's Character Charitable Trust	FS82.158	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Considers the original submitter has not sufficiently explored contemporary strengthening options for repurpose and reuse of this heritage building. Considers the building is a quality building with unique attributes and history, and recognised with a category 1 listing by Heritage New Zealand Pouhere Taonga. Considers the carbon emissions associated with converting the building to much needed student accommodation are significantly less than those associated with demolishing it and constructing a new building.	Disallow
Te Herenga Waka Victoria University of Wellington	106.29	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Considers that the Robert Stout Building has insufficient heritage value to warrant inclusion in the Heritage Schedule.	Remove Item 497 (Robert Stout Building (PT TOWN BELT TN OF WELLINGTON)) from SCHED1 - Heritage Buildings.
Historic Places Wellington Inc	FS111.27	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	The buildings are entered on the NZ Heritage List/Rarangi Korero as Historic Places. Considers that they are nationally significant.	Disallow
Alan Olliver & Julie Middleton	111.9	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Supports the heritage listing of all the buildings in Mount Victoria proposed to be included in SCHED1.	Retain SCHED1 - Heritage Buildings as notified, with respect to any buildings in Mount Victoria

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Alan Oliver & Julie Middleton	111.10	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	<p>Considers that additional buildings in Mount Victoria are worthy of heritage listing and should be included in SCHED1.</p> <p>53 Ellice Street and 67 Austin Street were included in the Draft District Plan but are not in SCHED1 of the PDP.</p> <p>Other buildings should be included.</p> <p>67 Austin Street was included in the Draft District Plan but is not in SCHED1 of the PDP.</p>	<p>Add the following buildings to SCHED1 - Heritage Buildings:</p> <p>13 Austin Street 67 Austin Street 17 Brougham Street (Owd Trafford) 33 Brougham Street (Hutchinson's House / Women's House) 123-125 Brougham Street (Ionian Flats) 136/138 Brougham Street (Rev Moir's wife's houses) 53 Ellice Street 9 Hawker Street (Hamilton Flats) 43 Hawker Street (Bernard Freyburg's House) 71 Hawker Street (Paterson's House) 7 Paterson Street (William Waring Taylor's House) 58 Pirie Street (George Winder's House) 49 Porritt Avenue (Kate Edger's House) 23 Stafford Street (Wellington Harbour Pilot Holmes's House) 1 Tutchen Avenue (Wellington Harbour Pilot Shilling's House)</p>
Wellington's Character Charitable Trust	FS82.199	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest of the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.</p>	Allow
Oliver Sangster	112.18	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>Opposed to the inclusion of the Gordon Wilson Flats on SCHED1-Heritage buildings (# 299).</p> <p>Considers that the flats are an embarrassing and sorry sight in a time when there is a growing problem of homelessness and high rents in Wellington.</p> <p>Considers that the flats need to be demolished to make way for more housing near our city centre and Victoria University.</p> <p>Considers that because they already have Heritage New Zealand protection, further protection under the District Plan is unnecessary.</p>	Seeks that Item 299 - Gordon Wilson Flats be deleted from SCHED1 - Heritage buildings
Scots College Incorporated	117.10	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>Considers that the maps do not identify the curtilage around the heritage listed main College building in order to limit the application of HH-R4 to the reasonable vicinity of the listed building. Because the Campus is a very large site this change is sought so that resource consent is not unnecessarily required for building work that is sufficiently far away from the main building.</p>	Amend item 219 (Scots' College Main Building) in SCHED1 - Heritage Buildings by inserting <u>Building curtilage for application of the historic heritage rules is mapped</u> against the item, in a similar manner to the heritage listed Hunter Building on the large Kelburn Campus.
Heritage New Zealand Pouhere Taonga	FS9.45	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>The submission makes a reasonable point that there is no identified curtilage for the recognised heritage building at Scots College. The New Zealand Heritage List / Rārangī Kōrero identifies an extent of the listing, which may form a practical basis for the mapping of a curtilage for this building.</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Singvest Group Limited	129.2	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>Opposes the inclusion of Item 522 (154 Victoria Street - Commercial Building) in SCHED1 - Heritage Buildings.</p> <p>Considers that the decision to include the Building on Schedule 1 was not conducted fairly or follow due process. [Refer to original submission for comprehensive detailing of process].</p> <p>The comprehensive heritage assessment by heritage expert David Kernohan in 2007 concluded that the recommendation for listing was "unreasonable and should not be sustained".</p> <p>Based on assessments from David Kernohan and Mark Leong (architect), considers that the WCC 2021 Heritage Evaluation Report drew incorrect conclusions which has led to an incorrect assessment that the Building holds significant heritage value.</p> <p>Considers that the impact of the Schedule 1 listing is that SGL will not be able to keep the site commercially viable.</p> <p>With demolition being significantly constrained by a listing, the Building is at risk of becoming uninhabitable after March 2026 as it is also designated as earthquake prone.</p> <p>[Refer to original submission for full reasons, including attachments].</p>	Delete Item 522 (154 Victoria Street - Commercial Building) from SCHED1 - Heritage Buildings.
Sarah Cutten and Matthew Keir	FS91.24	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>The further submitter shares the original submitters concerns regarding the process run by the Council in regard to SCHED1 listings. The further submission details significant failings in the identification of heritage, assessment of heritage value, identification of effects of listing, and undertaking an evaluation or quantitative assessment to a required level of detail that is proportional to the scale and significant of the regulatory intervention as required under s32 of the RMA.</p> <p>[See original further submission for full reason].</p>	<p>Allow / Seeks that the Council only list buildings or structures with accurate information (i.e. free from errors) and robust evidence is provided to support listing.</p> <p>Seeks that the Council only list buildings where there is a net benefit to the community of doing so. Identify the effects of listing and quantify the costs and benefits to a level of detail that corresponds to the scale and significance of the effect of listing (as required in s32 of the RMA).</p>
Andrew Gan	136.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	<p>Opposes the inclusion of Item 490 (Former Primitive Methodist Church) in SCHED1 - Heritage Buildings.</p> <p>The church has a long term plan to redevelop the building into a modern complex to suit the needs of the community in the near future. Inclusion in SCHED1 will negatively impact, or even make impossible, future development.</p>	Delete Item 490 (Former Primitive Methodist Church) from SCHED1 - Heritage Buildings.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Foster+Melville Architects Limited	141.9	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	<p>Opposes the inclusion of Item 514 (28 Robieson Street - Toomath House) in SCHED1 - Heritage Buildings.</p> <p>Considers that there are several inaccuracies within the Historic Heritage Evaluation.</p> <p>The house is in need of extensive repairs, maintenance and upgrading and the statement in the Evaluation report that <i>the fabric appears to be sound</i> is incorrect. Significant changes are essential for the survival of the building and to ensure it can continue to serve a useful purpose as a healthy and well-functioning family home. The New Zealand modernist architecture of this house has led to water damage to the property. The building is reasonably intact however several changes have occurred. The neighbouring houses, also designed by Toomath and more refined examples of the architect's design achievements, have not been scheduled.</p> <p>Including the site extent would serve no constructive purpose, creates further challenges for the owners, and prevents alterations that enable appropriate use and enjoyment of indoor-outdoor flow. Considers that the property is not significant for its open plan layout. The study extension, which has significance assigned to it, is an area subsequently destroyed by water damage. Considers that the proposal for listing the exterior is unsubstantiated as much of the evaluation is concerned with the interior. Considers that most of the exterior materials were imported.</p> <p>[Refer to original submission for full reasons].</p>	Delete Item 514 (28 Robieson Street - Toomath House) from SCHED1 - Heritage Buildings.
Sarah Cutten and Matthew Keir	FS91.8	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>The further submitter supports the submission, and notes that they were surprised at the low quality, lack of evidence, and inaccuracies in the report. The assessment made no attempt to assess heritage value.</p> <p>The further submitters own assessment expands on their findings with regard to the quality of the heritage assessment in the section "The heritage assessment of our home is weak" on page 63 (Of FS 91).</p> <p>The submission from a heritage expert (independent from the Council) notes the modifications and changes that have occurred to the property and that is it not in original condition as simply assumed in the assessment.</p> <p>The further submitter supports the submission and agree the home is far from the example of 'integrity and authenticity' claimed by the Council and does not warrant listing.</p> <p>[See original further submission for full reason].</p>	Allow / Seeks that Item 514 (28 Robieson Street) is removed from SCHED1 - Heritage Buildings.
Sarah Cutten and Matthew Keir	FS91.38	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>The further submitter supports the view that scheduling would place a disproportionate and unreasonable burden on us as homeowners.</p> <p>The further submitter supports this submission and note that listing would reduce our ability to remediate known issues with our property and lead to poor outcomes for both our home, us, and the community.</p>	Allow / Seeks that Item 514 (28 Robieson Street) is removed from SCHED1 - Heritage Buildings.
Foster+Melville Architects Limited	141.10	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	<p>Considers that other authorities including Auckland Council and Heritage New Zealand, recognise that some buildings are more significant than others. The "blanket" approach taken by Wellington City Council makes it difficult to apply heritage in practice.</p>	Seeks that consideration is given to the ranking of heritage items in SCHED1 - Heritage Buildings.
Grant Buchan	143.24	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>Supports the protection of Heritage Buildings which are excellent examples of their type and are preserved in good and close to original condition.</p>	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Chinese Baptist Church	144.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>Opposes the inclusion of Item 490 (Former Primitive Methodist Church) in SCHED1 - Heritage Buildings.</p> <p>The church has a long term plan to redevelop the building and neighbouring properties (i.e. 22, 26, 28 Donald McLean Street) into a complex to service the community better and more widely. Item 490 (24 Donald McLean Street) has the largest area and is located at the centre of the plots and its inclusion in SCHED1 will negatively impact, or even make impossible, future development.</p>	Remove Item 490 (Former Primitive Methodist Church) from SCHED1 - Heritage Buildings.
Claire Nolan, James Fraser, Margaret Franken, Bidy Bunzel, Michelle Wooland, Lee Muir	FS68.5	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>Submitter opposes delisting of Chinese Baptist Church from Shedule 1 item 490.</p> <p>This area and street Donald Maclean Street is part of our submission to make a character precinct or a heritage area. This street has many of the oldest houses in Newtown as shown on the Thomas Ward map.</p> <p>There is also support for a new character precinct from other submissions as well as the Clare Nolan et al [submission 275] and the Newtown Residents Association submission.</p> <p>A new development would impact detrimentally on older heritage houses. Also, on the streetscape and primary consistency of the street according to Boffa Miskel report 2019.</p> <p>Also, the church itself has heritage attributes otherwise would not be listed with WCC.</p>	Disallow
Hannah Gao	145.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>Opposes the inclusion of Item 490 (Former Primitive Methodist Church) in SCHED1 - Heritage Buildings.</p> <p>The church has a long term plan to redevelop the building into a modern complex to suit the needs of the community in the near future. Inclusion in SCHED1 will negatively impact, or even make impossible, future development.</p>	Remove Item 490 (Former Primitive Methodist Church) from SCHED1 - Heritage Buildings.
The Coronation Lodge	149.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	<p>Opposes the inclusion of Item 366 (Johnsonville Masonic Lodge) in SCHED1 - Heritage Buildings.</p> <p>Considers that the Johnsonville Masonic Hall was purpose built for the use of Freemasons and is unlikely to have appeal to other organisations.</p> <p>Including the Hall in the SCHED1 reduces the future development potential of the site and future value of the building in a commercial sense.</p> <p>[Refer to original submission for full reasons].</p>	Delete Item 366 (Johnsonville Masonic Hall) from SCHED1 - Heritage Buildings.
Johnsonville Community Association Inc	FS114.2	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>Johnsonville has very few old protected buildings. Johnsonville does not have enough community halls and indoor spaces. The hall would be used more if it was known by the community as being available for meetings, etc.</p>	Disallow / Seeks that Item 366 (Johnsonville Masonic Lodge) is retained in SCHED1 - Heritage Buildings.
Vivienne Morrell	155.16	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>Supports the heritage listings in the heritage schedules.</p>	Retain SCHED1 - Heritage Buildings as notified, and include the recommendations of Heritage NZ and Historic Places Wellington.
Sarah Cutten and Matthew Keir	FS91.55	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>The further submitter is opposed the generic support for all new additions to SCHED1. The further submitter does not believe the original submitter has made any detailed assessment of each scheduled item to inform their view, and as such, believe their submission point should be discounted.</p> <p>[See original further submission for full reason].</p>	Disallow / Seeks that the Council does not add new listings of private homes without owner's consent.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Sophie Kahn	161.4	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>Considers that Kahn House (#520) should not be included on SCHED1-Heritage buildings for the following reasons:</p> <ul style="list-style-type: none"> - Listing is causing emotional distress. - The house is the submitter's sole asset. - The house needs alterations to modernise it and make it suitable for well-being and safety reasons. - Listing could see significant diminution in capital value - It is very unlikely they will continue to contemplate living in the house if they have their rights to developing the house constrained - It is privately, not publicly owned - The owners agreed to listing the house with Heritage New Zealand due to assurances there would be absolutely no restrictions imposed on the owner as a result of the listing - at the time or in the future. - The house is not Plischke's first construction in New Zealand and it is regarded as being far from his best work. - There is only one room that is 'special' - the living/dining room. - Substantial changes have already been made to the house. - Sufficient examples of Plischke's work, both private and public commissions are already listing by Heritage New Zealand and proposed in the District Plan. - Considers that homes, like humans, are at their best when they are living, breathing, adapting entities. - Concerned about loss of right to privacy of our personal history. - Listing the house in the PDP undermines human rights and renders the house incapable of reasonable use. - Listing can lead to neglect. <p>[Refer to original submission for full reason]</p>	Seeks that Item 520 (Kahn House) is removed from SCHED1-Heritage Buildings.
Heritage New Zealand Pouhere Taonga	FS9.47	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Kahn House is included in the New Zealand Heritage List / Rārangī Kōrero as a Category 1 place and has heritage values to support its inclusion in Schedule 1.	Disallow / Retain as notified.
Ian Attwood	FS16.13	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>The Kahn House as it now stands needs to be modernised if it's to become a viable contemporary home.</p> <p>What constitutes a contemporary home in 2022 is very different to what was built in constrained circumstances in 1941.</p>	Allow / Seeks that Kahn House to be wholly removed from Schedule 1 'Heritage Buildings'.
Ian Attwood	FS16.14	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>The Kahn House, whilst having minimal architectural significance in context when built, is not regarded as a leading example of Plischke's work or of Modernist design principles.</p> <p>Plischke's superior homes are scheduled or already protected, not least by their current owners (Sutch and Lang).</p> <p>The Kahn House history is well-documented in various publications and archives. This is where the 'heritage' is best served and protected.</p>	Allow / Seeks that Kahn House to be wholly removed from Schedule 1 'Heritage Buildings'.
Ian Attwood	FS16.15	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>'Locking up' the Kahn House against the wishes of the family does little to further preserve whatever influences the Modernist architects' had then and now.</p> <p>It is debatable whether the Kahn House is Modernist as Plischke himself considered it more European-inspired than Modernist and was in fact contrary to the prevailing view of New Zealand architects at the time.</p>	Allow / Seeks that Kahn House to be wholly removed from Schedule 1 'Heritage Buildings'.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ian Attwood	FS16.16	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Scheduling the Kahn House is against the wishes of the family. It imposes not insignificant constraints on the right to determine the future of their home. It interferes with an intensely private family's desire for privacy and self-determination.	Allow / Seeks that Kahn House to be wholly removed from Schedule 1 'Heritage Buildings'.
Ian Attwood	FS16.17	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Stripping a family of its legally established wealth and managerial right to their primary asset seems contrary to the legal intentions of property law. Heritage rights for Māori and taonga are well established. 'Locking up' marae as examples from 1941 and preservation of 'heritage' would be totally unacceptable, but that is what is proposed in the District Plan for our homes. The 'heritage' of the Kahn House belongs to the family and owners unless they willingly agree to share it with the citizens of Wellington in the interest of the community. Council have no business interfering and impacting long-standing private property ownership.	Allow / Seeks that Kahn House to be wholly removed from Schedule 1 'Heritage Buildings'.
Ian Attwood	FS16.18	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Actions and evident attitudes at Council have been deeply impactful and distressing to the Kahn family. It is highly regrettable given the historical context of Nazi persecution and diminution of assets. History and heritage are a measure of our society - in the District Plan lessons have not be learnt and the consequences are profound and difficult to accept. Tiriti o Waitangi has illustrated time and time again that the use of power against disadvantaged communities does not deliver fair and equitable outcomes to the benefit of all. Council have chosen an adversative process that benefits no party and where alternatives might be preferred.	Allow / Seeks that Kahn House to be wholly removed from Schedule 1 'Heritage Buildings'.
Wellington's Character Charitable Trust	FS82.156	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Considers the building has significant heritage value. Heritage New Zealand Pouhere Taonga has listed this building as Historic Place Category 1, which is sufficient basis for it being in the heritage schedule in the PDP.	Disallow
Sarah Cutten and Matthew Keir	FS91.2	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	The submitter notes that there appears little reasoning for why some buildings are proposed for listing and others (often better examples) are not. The submitter also notes that the Council had failed to understand what it has in its own heritage inventory and that there is no clear classification system of architectural themes. The submitter share the original submitters concerns regarding the process run by the Council in regard to identifying which properties should be scheduled for listing. The Council has not considered any direct alternatives or options to listing this home to achieve their outcome as would be expected under Clause(1) (b) (i) of s32 of the RMA. This situation reflects the experience with the further submitters home, 28 Robieson St. The further submitter does not support listing where there is no justification given for selection over alternatives (direct alternatives not considered). [See original further submission for full reason].	Allow / Item 520 (Khan House) be removed from SCHED1-Heritage Buildings. The Council commission an independent review into the performance and effectiveness of the current heritage protection regime in relation to achieving desired heritage outcomes and requirements of the RMA.
Sarah Cutten and Matthew Keir	FS91.6	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	The further submitter agrees with the original submitter that the entire process of having their home proposed for listing has and continues to be stressful, tiring, and detrimental to their mental health. This is especially relevant for consultation and engagement of listing family homes. The further submitter supports the submitters concerns about the lack of consideration of homeowner's rights to privacy in their own homes where they become an listed and 'promoted' by the Council.	Allow / Seeks that the Council provide clarification of what information about private homes will become public should they be listed as part of the Council's engagement policy and processes. Seeks that the Council ensure residents of listed homes retain their right to privacy.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Sarah Cutten and Matthew Keir	FS91.9	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	The further submitter supports the submission, and was surprised at the low quality, lack of evidence, and inaccuracies in our heritage assessment report. The assessment made no attempt to assess heritage value and was never intended to identify the effects of heritage listing. The further submitters submission expands on their findings with regard to the quality of our heritage assessment in the section "The heritage assessment of our home is weak" on page 63. [See original further submission for full reason].	Allow / Seeks that the Council only list buildings or structures with accurate information (i.e. free from errors) and robust evidence is provided to support listing.
Sarah Cutten and Matthew Keir	FS91.35	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	The further submitter supports the original submitters concerns that the heritage listing would prevent or inhibit modifications to their home to make it safe for their elderly family to comfortably live there. The health and safety of inhabitants (and modifications to support or facilitate this) should come above providing heritage services to the community that has no access to the private home.	Allow / Seeks that Item 520 (Khan House) be removed from SCHED1-Heritage Buildings. The Council consider the current and future health and safety needs of the occupants (their 'use value' of the property) above heritage value to the community.
Sarah Cutten and Matthew Keir	FS91.39	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	The further submitter shares the original submitters concerns in terms of impact on capital value. A registered valuation the further submitter commissioned for their property illustrated a 30% fall in value would occur if the listing was to proceed. As the Council, nor proponents of listing bear the cost of listing their views should be secondary to owners.	Allow / Seeks that Item 520 (Khan House) be removed from SCHED1-Heritage Buildings. Seeks that the Council does not list private homes in SCHED1 without owner's consent. Especially in the case where these are homes are isolated and not part of a cohesive precinct or area that can be appreciated by the public.
Historic Places Wellington Inc	FS111.26	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	The buildings are entered on the NZ Heritage List/Rarangi Korero as Historic Places. Considers that they are nationally significant.	Disallow
Stephen Inzon	177.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Opposes the inclusion of Item 366 (Johnsonville Masonic Lodge) in SCHED1 - Heritage Buildings. Considers that the Johnsonville Masonic Hall is significant to the Freemasons community but has little relevance to the rest of the Johnsonville community. [Refer to original submission for full reasons].	Delete Item 366 (Johnsonville Masonic Hall) from SCHED1 - Heritage Buildings.
Johnsonville Community Association Inc	FS114.3	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Johnsonville has very few old protected buildings. Johnsonville does not have enough community halls and indoor spaces. The hall would be used more if it was known by the community as being available for meetings, etc.	Disallow / Seeks that Item 366 (Johnsonville Masonic Lodge) is retained in SCHED1 - Heritage Buildings.
Tim Appleton	181.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Opposes the inclusion of Item 490 (Former Primitive Methodist Church, 24 Donald McLean Street) on SCHED1- Heritage Buildings for the following reasons: - considers that more old buildings do not need to be protected in Newtown. -considers more cost effective housing is needed. - considers the owners should be able to decide for themselves whether or not to develop. - considers the buildings next to the church do not have a nice look and are no in keeping with the main church building.	Delete item 490 (Former Primitive Methodist Church, 24 Donald McLean Street) from SCHED1- Heritage Buildings.
Historic Places Wellington	182.36	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Supports all proposed listings of historic sites and areas, (including retention of ODP listings) with amendment.	Retain SCHED1- Heritage buildings with amendment.
Sarah Cutten and Matthew Keir	FS91.46	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	The further submitter is opposed the generic support for all new additions to SCHED1. The further submitter does not believe the original submitter has made any detailed assessment of each scheduled item to inform their view, and as such, believe their submission point should be discounted. [See original further submission for full reason].	Disallow / Seeks that the Commissioners discount generic submissions in support for SCHED1 listings as they provide no additional evidence relating to specific items proposed. Seeks that the Council does not add new listings of private homes without owner's consent.

Historic Places Wellington	182.37	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that the Wellington Central Library should be included on SCHED1 - Heritage Buildings. [See original submission for full reasons]	Add Wellington Central Library to SCHED1 - Heritage Buildings.
Historic Places Wellington	182.38	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Hurston House at 1 Mersey Street, Island Bay, should be included on SCHED1 - Heritage Buildings. [See original submission for full reasons]	Add Hurston House at 1 Mersey Street Island Bay to SCHED1 - Heritage Buildings.
Historic Places Wellington	182.39	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Wilkinson holiday flats at 5-7 and 9-11 Grass Street should be included on SCHED1 - Heritage Buildings. [See original submission for full reasons]	Add Wilkinson holiday flats at 5-7 and 9-11 Grass Street to SCHED1 - Heritage Buildings.
Historic Places Wellington	182.40	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Newman House at 15 and 17 Hawkestone Street should be included on SCHED1 - Heritage Buildings. [See original submission for full reasons]	Add Newman House at 15 and 17 Hawkestone Street to SCHED1 - Heritage Buildings.
Historic Places Wellington	182.41	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Samuel Brown House at 22 Hanson Street should be included on SCHED1 - Heritage Buildings. [See original submission for full reasons]	Add Samuel Brown House at 22 Hanson Street should be included on SCHED1 - Heritage Buildings.
Historic Places Wellington	182.42	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Burns Upholsterer at 47-49 Martin Square should be included on SCHED1 - Heritage Buildings. [See original submission for full reasons]	Add Burns Upholsterer at 47-49 Martin Square to SCHED1 - Heritage Buildings.
Historic Places Wellington	182.43	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Coffey House at 230 Oriental Parade should be included on SCHED1 - Heritage Buildings. [See original submission for full reasons]	Add Coffey House at 230 Oriental Parade to SCHED1 - Heritage Buildings.
Historic Places Wellington	182.44	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that The Salvation Army Citadel on Jessie Street be included on SCHED1 - Heritage Buildings. [See original submission for full reasons]	Add The Salvation Army Citadel on Jessie Street to SCHED1 - Heritage Buildings.
Shirley Smith Family Trust	187.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Opposes the inclusion of Item 519 (Sutch-Smith House, 79A Todman Street) in SCHED1 - Heritage Buildings. Considers that the Historic Heritage listing will have a detrimental effect on the overall value of property while achieving no real benefit to it. The listing imposes potential financial harm on the beneficiaries without realistically protecting the house in any meaningful way. Considers that the house is better protected by the will of the family and the Trust than by a Heritage listing. The family are deeply committed to the house and would never alter its exterior fabric further than it has already been altered. Nor would they pass it on to someone who didn't share their commitment.	Delete Item 519 (Sutch-Smith House, 79A Todman Street) from SCHED1 - Heritage Buildings.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Sophie Kahn	FS76.10	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	<p>The Submitter (187) is another Plischke home that points to the significant financial harm it will cause the owner and that the reason for doing this to the owner has no sound purpose. Specifically, it will not result in protecting the home in any meaningful way. The further submitter considers that the only outcomes of a forced listing are likely to be negative.</p> <p>The Submitter (187) also points out that the WCC have no reason to claim that the home will be better protected by them and not the owners. The further submitter agrees - Kahn House will be better protected by the Kahn family than a Heritage Listing.</p>	<p>Amend / Delete item 519 (Sutch-Smith House) from SCHED1- Heritage Buildings</p> <p>Do not list private homes in Schedule 1 without owner's consent</p> <p>Consider that the heritage protection of private homes can be maintained by altruistic value to the homeowner</p> <p>Do not list homes that are isolated and not part of a cohesive precinct.</p> <p>Do not propose for listing homes where the architect/movement is already adequately represented in the Plan.</p> <p>Commission review into assertion Listing of private homes will achieve desired heritage outcomes as opposed to undesired outcomes.</p> <p>Commission review on the severe financial outcomes on private home owners, including what this means for their well-being in old age.</p> <p>Commission review on the need for a full, robust and encompassing consideration of all the impacts on individuals impacted by the heritage listing process</p>
Nicola Crauford	208.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	<p>Considers that the house has been altered far beyond its original design in order to meet the needs of modern living.</p> <p>Considers that the original design and concepts have been well preserved.</p> <p>Considers that the house no longer represents those original concepts and designs.</p>	Remove Item 521 (18 Vera Street) from SCHED1 - Heritage Buildings.
Mount Victoria Historical Society	214.11	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Supports all current buildings listed in SCHED1 - Heritage Buildings in mount Victoria	<p>Retain SCHED1 - Heritage Buildings as notified.</p> <p>[Inferred decision requested]</p>
Mount Victoria Historical Society	214.12	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	<p>Considers that the reasons for including these buildings are just as well justified as those that are already listed (Reasons listed in original submission).</p> <p>Considers that 53 Ellice Street and 67 Austin Street were proposed to be included in the Draft District Plan and have been removed in the Proposed District Plan. WCC reassessment documents do not support this decision.</p> <p>[Refer to original submission for full reason]</p>	<p>Amend SCHED1 - Heritage Buildings to add the following properties:</p> <p>13 Austin Street 67 Austin Street 17 Brougham Street 33 Brougham Street 123 - 125 Brougham Street 136/138 Brougham Street 53 Ellice Street 9 Hawker Street 43 Hawker Street 71 Hawker Street 7 Paterson Street 58 Pirie Street 49 Porritt Avenue 23 Stafford Street 1 Tutchen Avenue 53 Ellice Street 67 Austin Street</p> <p>[Refer to original submission for summary of heritage significance]</p>

Wellington's Character Charitable Trust	FS82.177	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest of the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Mike Camden	226.7	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Supports the heritage schedule and new listings, but considers that consultation with community groups and NZIA and a public process for selecting new listings would have been preferable.	Retain SCHED1 - Heritage Buildings as notified.
Sarah Cutten and Matthew Keir	FS91.51	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	The further submitter is opposed the generic support for all new additions to SCHED1. The further submitter does not believe the original submitter has made any detailed assessment of each scheduled item to inform their view, and as such, believe their submission point should be discounted. [See original further submission for full reason].	Disallow / Seeks that the Council does not add new listings of private homes without owner's consent.
Wellington's Character Charitable Trust	233.26	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Supports all proposed listings of historic sites and areas, (including retention of ODP listings) with amendment.	Retain SCHED1- Heritage buildings with amendment
Sarah Cutten and Matthew Keir	FS91.47	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	The further submitter is opposed the generic support for all new additions to SCHED1. The further submitter does not believe the original submitter has made any detailed assessment of each scheduled item to inform their view, and as such, believe their submission point should be discounted. [See original further submission for full reason].	Disallow / Seeks that the Council does not add new listings of private homes without owner's consent.
Wellington's Character Charitable Trust	233.27	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Supports all proposed listings of historic sites and areas, (including retention of ODP listings) with amendment.	Retain SCHED1- Heritage buildings with amendment
Sarah Cutten and Matthew Keir	FS91.48	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	The further submitter is opposed the generic support for all new additions to SCHED1. The further submitter does not believe the original submitter has made any detailed assessment of each scheduled item to inform their view, and as such, believe their submission point should be discounted. [See original further submission for full reason].	Disallow / Seeks that the Council does not add new listings of private homes without owner's consent.
Wellington's Character Charitable Trust	233.28	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that the Wellington Central Library should be included on SCHED1 - Heritage Buildings [Refer to original submission for full reason]	Add Wellington Central Library to SCHED1 - Heritage Buildings
Sarah Cutten and Matthew Keir	FS91.36	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Not specified	The further submitter believes the Council's efforts to delist the library is likely pragmatic. and will save Wellington rate payers from significant excess expense. In short, there is likely a net benefit to community of delisting. We are sympathetic to this situation. The further submitter notes that Council's approach clearly demonstrates the recognition excessive costs and restrictions that arise from remediating a heritage listed building. Notes that the fact that the Council are actively delisting their own buildings to allow significant remediation to occur to avoid this cost on one hand, while they actively pursue the listing of private isolated homes (and other buildings) also in similar need of significant remediation is hypocritical and offensive. The same burden the Council is seeking to avoid, they seek to impose on private homeowners - despite being significantly better placed to bear the burden than private homeowners. [See original further submission for full reason].	Amend / Seeks that the Council retain the delisting of the Wellington City Library as proposed and seek heritage input into the remediation project. Seeks the removal of the proposed listings of isolated private homes that are in need of remediation, that have low heritage value, where listing would impose a significant financial burden, and the owners are opposed. Seeks that Item 514 (28 Robieson Street) be removed from SCHED1 - Heritage Buildings (as it fits these same criteria)
Wellington's Character Charitable Trust	233.29	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Hurston House at 1 Mersey Street, Island Bay, should be included on SCHED1 - Heritage Buildings [Refer to original submission for full reason]	Add Hurston House at 1 Mersey Street Island Bay to SCHED1 - Heritage Buildings

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	233.30	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Wilkinson holiday flats at 5-7 and 9-11 Grass Street should be included on SCHED1 - Heritage Buildings [Refer to original submission for full reason]	Add Wilkinson holiday flats at 5-7 and 9-11 Grass Street to SCHED1 - Heritage Buildings
Wellington's Character Charitable Trust	233.31	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Newman House at 15 and 17 Hawkestone Street should be included on SCHED1 - Heritage Buildings [Refer to original submission for full reason]	Add Newman House at 15 and 17 Hawkestone Street to SCHED1 - Heritage Buildings
Wellington's Character Charitable Trust	233.32	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Samuel Brown House at 22 Hanson Street should be included on SCHED1 - Heritage Buildings [Refer to original submission for full reason]	Add Samuel Brown House at 22 Hanson Street should be included on SCHED1 - Heritage Buildings
Wellington's Character Charitable Trust	233.33	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Burns Upholsterer at 47-49 Martin Square should be included on SCHED1 - Heritage Buildings [Refer to original submission for full reason]	Add Burns Upholsterer at 47-49 Martin Square to SCHED1 - Heritage Buildings
Wellington's Character Charitable Trust	233.34	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Coffey House at 230 Oriental Parade should be included on SCHED1 - Heritage Buildings [Refer to original submission for full reason]	Add Coffey House at 230 Oriental Parade to SCHED1 - Heritage Buildings
Wellington's Character Charitable Trust	233.35	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that The Salvation Army Citadel on Jessie Street be included on SCHED1 - Heritage Buildings [Refer to original submission for full reason]	Add The Salvation Army Citadel on Jessie Street to SCHED1 - Heritage Buildings
Wellington's Character Charitable Trust	233.36	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Supports evidence submitted by Historic Places Wellington.	Seeks that additional heritage listings are added for decorative/coloured glass.
Cherie Jacobson	251.8	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Supports all historic heritage added to the schedules.	Retain SCHED1 - Heritage Buildings as notified.
Sarah Cutten and Matthew Keir	FS91.45	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	The further submitter is opposed the generic support for all new additions to SCHED1. The further submitter does not believe the original submitter has made any detailed assessment of each scheduled item to inform their view, and as such, believe their submission point should be discounted. [See original further submission for full reason].	Seeks that the Council does not add new listings of private homes without owner's consent. Seeks that the Commissioners note the submitters dissatisfaction with the Council's processes and questioning if the validity the proposed buildings as representative of Wellington.
Graeme Webster	255.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Considers that Toomath House is a private dwelling with little to no historic or heritage value. The site is not visible from the road. Heritage status would impose an unfair financial burden on the owners. Considers that it is unreasonable to list a property as heritage status without owners consent.	Remove item 514 (28 Robieson Street, Toomath House) from SCHED1 - Heritage Buildings.
Sarah Cutten and Matthew Keir	FS91.28	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	The further submitter supports this submission point. The property has low heritage value. Listings should focus on publicly accessible buildings or purchasing private properties with 'significant heritage' with a view to make them publicly accessible. [See original further submission for full reason].	Allow / Seeks that Item 514 (28 Robieson Street) be removed from SCHED1 - Heritage Buildings. Seeks that the Council only list buildings where there is a net benefit to the community of doing so. Identify the effects of listing and quantify the costs and benefits to a level of detail that corresponds to the scale and significance of the effect of listing (as required in s32 of the RMA).
Graeme Webster	255.2	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Considers that 26 Robieson Street is a private dwelling with little to no historic or heritage value. The site is not visible from the road. Heritage status would impose an unfair financial burden on the owners. Considers that it is unreasonable to list a property as heritage status without owners consent.	Seeks that 26 Robieson Street is not identified as a heritage building (as notified) and is not entered onto SCHED1-Heritage buildings in the future. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Sarah Cutten and Matthew Keir	FS91.29	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	The further submitter supports this submission point. Notes that properties that are isolated with limited visibility or value should not be considered for listing. Heritage should focus on publicly accessible buildings or purchasing private properties with 'significant heritage' and a net-benefit to the community with a view to making them publicly accessible. [See original further submission for full reason].	Seeks that 26 Robieson St, Roseneath Wellington not be considered for heritage listing in the future. The Council only consider buildings with high heritage value to the community for evaluation and potential listing.
Sarah Cutten and Matthew Keir	FS91.40	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	The further submitter supports the original submitters view that listing should only occur with homeowners consent. Notes that it is profoundly unfair to list an isolated homes with low heritage value at extreme financial costs to owners without their consent.	Allow / Seeks that the Council does not list private homes in SCHED1 without owner's consent. Especially in the case where these are homes are isolated and not part of a cohesive precinct or area that can be appreciated by the public.
Johnsonville Masonic Hall	263.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Freemasons Hall has little relevance to Johnsonville Community and that this building should not be included in the heritage schedule. [Refer to original submission for full reason]	Remove Item 366 (Johnsonville Masonic Hall) from SCHED1 - Heritage Buildings.
Johnsonville Community Association Inc	FS114.4	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Johnsonville has very few old protected buildings. Johnsonville does not have enough community halls and indoor spaces. The hall would be used more if it was known by the community as being available for meetings, etc.	Disallow / Seeks that Item 366 (Johnsonville Masonic Lodge) is retained in SCHED1 - Heritage Buildings.
Wellington City Council	266.180	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Seeks to re-order Schedule 1 alphabetically by street name.
Wellington City Council	266.181	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers 'Willowgrove' has been identified as having significant heritage values and meets the Councils criteria for listing in the District Plan. The owner has been active in supporting its listing.	Add 'Willowgrove' to SCHED1 (Heritage buildings) as follows: <u>Address: 17 Parkvale Road, Karori</u> <u>Name: Willowgrove</u> <u>Legal Description: Lot 2 DP 44016</u> <u>Protection Required: Entire external building envelope</u> <u>Values: A, B, C, E, F</u>
Wellington City Council	266.182	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers the Tea Rooms and Bakehouse (former) has been identified as having significant heritage values and meets the Councils criteria for listing in the District Plan. The owner has been active in supporting its listing.	Add 'Tea Rooms and Bakehouse' (former) to SCHED1 (Heritage buildings) as follows: <u>Address: 249-261 Mansfield Street, Newtown</u> <u>Name: Tea Rooms and Bakehouse (former)</u> <u>Legal Description: Part Section 875 TN of Wellington</u> <u>Protection Required: Entire external building envelope</u> <u>Values: A, B, C, E, F</u>
CAMJEC Commercial Limited	268.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Opposes the site at 233 Willis Street being included in SCHED1 - Heritage buildings on the basis that this building does not meet the requirements to be listed as a Heritage item [Refer to original submission for full reason].	Seeks to remove item 525 (233 Willis Street) from SCHED1 - Heritage Buildings.
Aimee Poy	272.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Opposes the church at 24 Donald McLean Street being included in SCHED1 - Heritage buildings. Considers that significant changes of appearance of the church building in the future can't be made. If it is heritage listed then the Church will not be able to carry out its vision for the future and serve the local community. The neighbouring properties adjacent to the Church will also be affected as this will significantly alter the development potential.	Remove item 490 (Former Primitive Methodist Church) from SCHED1 - Heritage Buildings.
Julie-Anne Daysh	330.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Opposes heritage listing of Item 525 at 233 Willis Street. Resource consents (SRs 496847 & 499648) have been granted to build apartment buildings on the site, namely at Part Lot 7, DP 557, and Lot 1 and 2 DP 5171, and Lot 1 DP 2988. [Refer to original submission for full reason]	Delete Item 525 (233 Willis Street) from SCHED1 (Heritage Buildings) in its entirety.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Mt Cook Mobilised	331.22	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	<p>There are multiple reasons why the consideration of scheduling 61 Hankey Street is warranted. This includes:</p> <ul style="list-style-type: none"> • Boffa Miskell report on pre-1930s Character Area review (2019) identified 61 Hankey Street as being of potential historic significance, and worthy of consideration • New Zealand Institute of Architects Wellington Branch – Enduring Architecture Award 2004 for 61 Hankey Street. <p>The owners have presented their summary statement of significance could be: 61 Hankey Street has significant architectural values within the Wellington region as a fine example of an intact, single-detached modernist house, designed by prominent Wellington architects Bill Toomath and Derek Wilson.</p>	Amend SCHED1 (Heritage Buildings) to include 61 Hankey Street.
Cho Yam Chan	335.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>Opposes heritage listing of Item 525 at 233 Willis Street. The theme and integrity of the original design of 233 Willis Street has been lost, as the front showroom which protruded out from the front of building was destroyed during the Willis Street road widening. There is limited community recognition of the site, as there are only 2 photos of the building on the NZ Archive website. There are other Anscombe buildings in the heritage list worth preserving.</p> <p>NBS rating is at 34%, which would need to be raised through strengthening. Strengthening would require further capital investment in the vicinity of a few millions, which is more than the value of the building improvement value.</p> <p>The site is also suited for apartment development. The economic value lies in the land. The best return value on investment and best use of the site is apartments/residential development with commercial units at ground level.</p>	Delete Item 525 (233 Willis Street) from SCHED1 (Heritage Buildings) in its entirety.
Wayne Coffey and Gregory Young	347.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	<p>Considers that Schedule 1 (Heritage Buildings) should include the Salvation Army Citadel building on Jessie Street. The building has special architectural, social and cultural heritage significance. The Citadel was purpose built as a place of community gathering and worship for a noteworthy group, the Salvation Army. Salvation Army activity on the site dates back over 100 years. It was the home of the world renowned Wellington Citadel Salvation Army Band for more than 125 years. Wellington city is in need of a medium sized performance venue and the Citadel would be suitable for that purpose. The quality space has excellent features for public performance. [Refer to original submission for full reason]</p>	Amend SCHED1-Heritage Buildings to include the Salvation Army Citadel building on Jessie Street.
Sarah Cutten and Matthew Keir	FS91.53	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	<p>The further submitter is opposed the generic support for all new additions to SCHED1. The further submitter does not believe the original submitter has made any detailed assessment of each scheduled item to inform their view, and as such, believe their submission point should be discounted. [See original further submission for full reason].</p>	Disallow / Seeks that the Council does not add new listings of private homes without owner's consent.

Wētā FX	364.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Opposes the Heritage listing of Item 511 (139 Park Road) in SCHED1 - Heritage buildings. Weta FX has identified this location as the only one fitting the unique attributes they need to increase their crew members and provide work spaces for them in Miramar. [Refer to original submission for full reason]	Opposes 139 Park Road, Miramar being included in SCHED1 - Heritage Buildings (Item 511).
Sarah Cutten and Matthew Keir	FS91.26	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	The further submitter believes the RMA places the onus on the Council to provide evidence that there is a higher net-benefit to the community of listing than not listing in order to justify listing a building. The RMA explicitly seeks to balance social, economic, and cultural wellbeing - not just cultural. The Council must weigh the impacts of listing on jobs and the local economy in addition to the financial burden on the owner. The further submission expands on this issue in the section titled "The Council has failed to effectively consider cost and benefits" on page 52. [See original further submission for full reason].	Allow / Seeks that Item 511 (139 Park Road) be removed from SCHED1. Seeks that the Council only list buildings where there is a net benefit to the community of doing so. Identify the effects of listing and quantify the costs and benefits to a level of detail that corresponds to the scale and significance of the effect of listing (as required in s32 of the RMA).
Wētā FX	364.2	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Opposes the Heritage listing of Item 511 (139 Park Road) in SCHED1 - Heritage buildings. Weta FX has identified this location as the only one fitting the unique attributes they need to increase their crew members and provide work spaces for them in Miramar. [Refer to original submission for full reason]	Remove Item 511 (139 Park Road) from SCHED1 - Heritage Buildings.
Argosy Property No. 1 Limited	383.125	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Argosy's property at 15 Stout Street is recognised as a heritage building as the 'Department Building'. The entire external building envelope is listed.	Retain Schedule 1 - Heritage Buildings, Ref 23 as notified.
Argosy Property No. 1 Limited	383.126	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	The former State Insurance Building comprises the first eight floors of the building. In 1998, a three storey addition designed by Athfield Architects, was constructed on top of the former State Insurance Building (Athfield Addition). Argosy opposes the Athfield addition being included in the listing of the State Insurance Building for the following reasons: - The Wellington City Council Heritage Inventory describes the history, architectural information and cultural value of the building. The Heritage Inventory's recognition of the heritage values of the building is limited to the former State Insurance Building. It describes the Athfield Addition as "a large and somewhat incongruous" addition. - Heritage New Zealand Pouhere Taonga lists the former State Insurance Office Building on the New Zealand Heritage List/Rarangi Korero.2 The building was registered on the New Zealand Heritage List/Rarangi Korero in 1981 (before the Athfield Addition was constructed) and the listing describes the former State Insurance Office Building and not the Athfield Addition. - A heritage order was issued in relation to the State Insurance Building on 29 September 1987. Heritage New Zealand Pouhere Taonga is the heritage protection authority in relation to this heritage order. Because the heritage order was issued before the Athfield Addition was constructed, the Council is not restricted by the requirements in s 195A of the Resource Management Act 1991 in relation to altering the heritage listing of the building in the Proposed Plan to exclude the Athfield Addition. - The Athfield Addition does not have any heritage value and should be excluded from the heritage listing of 143 Lambton Quay in the Draft Plan. It is not appropriate for this addition to be subject to the controls of being a heritage building in the Proposed Plan when it has no heritage value and can be easily distinguished from the former State Insurance Building.	Amend Schedule 1, DP Ref 181: Entire external building envelope of former State Insurance Building. <u>Listing excludes the 1998 three-storey addition designed by Athfield architects.</u>
Heritage New Zealand Pouhere Taonga	FS9.46	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Although the submission is correct regarding the 1998 addition, the listing in the New Zealand Heritage List / Rarangi Korero is for the entire building. The building, including the 1998 addition, need to be read a whole, and it is appropriate for the scheduled item to include the whole building.	Disallow / Retain as notified.
Argosy Property No. 1 Limited	383.127	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Argosy's property at 360-366 Lambton Quay is recognised as including two heritage buildings: the 'Equitable Building and Investment Co. Building' and 'Stewart Dawson's Corner'. The entire external building envelope is listed in relation to both buildings.	Retain the Schedule 1 - Heritage buildings listings for Ref 191.1 and 191.2 as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington Civic Trust	388.119	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support in part	SCHED1 is partially supported and additional Heritage Buildings are proposed.	Retain Schedule 1 - Heritage Buildings with amendment.
Wellington Civic Trust	388.120	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that SCHED1 should include the Michael Fowler Centre, the Municipal Office Building, the Civic Administration Building and Wellington Public Library. These buildings should be identified as having heritage values within the Te Ngākau Civic Square Precinct.	Amend Schedule 1 - Heritage Buildings to include: - The Michael Fowler Centre, - The Municipal Office Building, - The Civic Administration Building, - Wellington Public Library.
Grace Ridley-Smith	390.9	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Supports the heritage scheduling of additional sites identified by Historic Places Wellington.	Seeks that the Heritage Buildings identified by the Historic Places Wellington submission are listed in SCHED3 - Heritage Areas. (Historic Places Wellington Submission 182).
Murray Pillar	393.20	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support in part	Supports the WCC proposals for retaining existing, and adding new, listed heritage buildings.	Retain all existing and new Items in SCHED1 - Heritage Buildings as notified.
Murray Pillar	393.21	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the selection of new listings for SCHED1 - Heritage Buildings involved greater consultation with Historic Places Wellington and other community groups, and to have been a public process.
Wellington Heritage Professionals	412.101	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support in part	Support the new additions to the schedule of historic heritage items, but considers that they are not representative of what is distinctive about Wellington, the region, and New Zealand.	Retain SCHED1- Heritage buildings as notified, with amendments [Inferred decision requested]
Sarah Cutten and Matthew Keir	FS91.44	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	The further submitter is opposed the generic support for all new additions to SCHED1. The further submitter does not believe the original submitter has made any detailed assessment of each scheduled item to inform their view, and as such, believe their submission point should be discounted. [See original further submission for full reason].	Disallow / Seeks that the Council does not add new listings of private homes without owner's consent. Seeks that the Commissioners note the submitters dissatisfaction with the Council's processes, questioning if the proposed buildings reflect the values of Wellingtonians, and earlier taking exception to the lack of evidence used to inform the Council's process (412.3). The justification of SCHED1 listings is equally lacking in evidence.
Wellington Heritage Professionals	412.102	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that the Heritage items schedule does not adequately protect historic heritage nor reflect what Wellingtonians value. Considers that the schedule will not meet objective HH-O1. [Refer to original submission for full reason]	Not specified.
Sarah Cutten and Matthew Keir	FS91.4	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	The further submitter supports the original point that there are significant weaknesses in the Council's heritage protection regime, and this includes with the process to identify heritage. [See original further submission for full reason].	Allow / The Council commission a study to improve understanding and quantify the value the community places on heritage across different types of heritage including isolated homes not visible or accessible to the public.
Wellington Heritage Professionals	412.103	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Supports the addition of new places to the schedule but concerned that the lack of public engagement on the review of the schedule will undermine its efficacy as it is unlikely to have the support of the people of Wellington as it does not reflect Wellington's important heritage.	[Inferred decision requested] retain SCHED1 - Heritage Buildings as notified
Sarah Cutten and Matthew Keir	FS91.5	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	The further submitter supports the point that there are significant weaknesses in the Council's heritage protection regime, and this includes the Council's engagement and understanding of what the community values. The further submitter has also been disappointed with the Council's engagement. The Council should spend the time and effort to understand how much value the community places on different types of heritage. This work would then inform Council resourcing and support quantitative net benefit assessments of listings as expected under s32 of the RMA. [See original further submission for full reason].	Allow / The Council commission a study to improve understanding and quantify the value the community places on heritage across different types of heritage including isolated homes not visible or accessible to the public.
Wellington Heritage Professionals	412.104	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Does not support the protection of facades only where heritage fabric exists in addition to the facade and considers that this is likely to lead to adverse effects on heritage.	Not specified

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
VicLabour	414.60	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose in part	Considers The Gordon Wilson flats are an example of where heritage protection has gotten in the way of the city's priorities.	Not specified
Sarah Cutten and Matthew Keir	415.12	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	The Heritage Building listing of 28 Robieson Street is opposed. Considers the house is deemed to be in poor condition and remediation work is estimated to cost as much as \$800 - \$1million. Detailed renovations plans from the owners have been provided, which include repurposing the timber from the house and other special aspects of the building. Considers a heritage listing on the property would incur risks, costs and stress to the owners, who wish to renovate the house. It is argued that the heritage value of the building is low, and that the listing would not result in any positive net benefits for society or the owners. It is considered that the listing would instead lead to a worse heritage outcome for the community due to the significant impacts on the owners linked to the condition of the building. [Refer to original submission for full reason, including attachments]	Delete Item 514 (28 Robieson Street) from SCHED1 - Heritage Building.
Sarah Cutten and Matthew Keir	415.31	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Not specified	Considers that the Council failed to meet the NZ Treasury's expected standards of good regulatory practice with their proposal, evidence base and evaluation of options to list 28 Robieson Street as a Heritage Building. The New Zealand Treasury sets expectations for good regulatory practice, stating that net benefits need to be considered, that regulated parties should be treated fairly and the Council should seek to meet their objectives in a way that has the least impact on property rights, market competition and individual autonomy. For instance, the Treasury's guidance report 'Best Practice Monitoring and Review' (2019) suggests that 5 to 10 per cent of the total time and budget committed to an intervention should be spent on review, monitoring and evaluation. [Refer to original submission for full reasons, including attachments]	Seeks that the Council meets the New Zealand Treasury standards and guidelines on regulatory practice, monitoring and review in regard to listing 28 Robieson Street as a heritage building. [Inferred decision requested]
Sarah Cutten and Matthew Keir	415.32	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Not specified	Considers the evidence base for the historic heritage section of the section 32 evaluation is weak in regard to heritage listing of 28 Robieson Street. Has concerns with low-quality analysis, considers some reports do not exist, some are still draft reports, some are missing content, and some are summer student projects. The low quality of these reports implies the Council was never expecting to be asked to provide evidence. Any evidence used to form proposals of this scale and significance needs to have a level of detail and analytical rigour that is commensurate to the impacts in addition to transparency, and the findings being clearly documented. Considers some reports which form the evidence base are also not publicly available. [Refer to original submission for full reasons, including attachments]	Seeks that the evidence base for the historic heritage section of the Section 32 have a level of detail and analytical rigour that is commensurate to the impacts in addition to being transparent, and the findings being clearly documented. [Inferred decision requested]
Sarah Cutten and Matthew Keir	415.33	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Not specified	Considers that council has failed to have an effective and unbiased process to identify heritage. Considers the identification process used by Council lacks the detail and rigour that corresponds to the scale and significance of the proposal to list 28 Robieson Street. [Refer to original submission for full reasons, including attachments]	Not specified.
Sarah Cutten and Matthew Keir	415.34	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Not specified	Considers there is little evidence to support modernist architecture being under-represented in the heritage schedule being used as a reason to list 28 Robieson Street. Considers that there are modernist buildings that are not classified as modernist by Council already listed and that no consideration has been given to modernist representation across the Greater Wellington region.Considers it is unreasonable for the Council to claim the architectural theme of modernism is under-represented, if classification is lacking or undefined. [Refer to original submission for full reasons, including attachments]	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Sarah Cutten and Matthew Keir	415.35	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Not specified	Considers that the Pukehinau flats are modernist flats with distinctive round windows at the bottom of Brooklyn hill are easily viewably by the public. The flats are owned and managed by the Council. This imposing building has similarities to other notable architects of the era. The flats are unlisted and unfortunately, they were documented as being in poor condition in 2017. Queries why some buildings and architects attract attention but others do not and notes Burren and Keen largely appear to be ignored in the literary history and heritage of the city. [Refer to original submission for full reasons, including attachments]	Not specified.
Sarah Cutten and Matthew Keir	415.36	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Not specified	Considers that Toomath house has very low community amenity value and option use value. Since the owners have bought the house in 2014, there has been no requests to visit or tour the house. It is considered that the highest actual use value attained from private homes, and from Toomath house, is from living in them. [Refer to original submission for full reasons, including attachments]	Not specified.
Sarah Cutten and Matthew Keir	415.37	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Not specified	A registered valuation of Toomath House (28 Robieson Street) has assessed that the property will have a 29% drop in value as a result of a Heritage Listing, amounting to a loss of \$450,000. This will impact the owners' financial wellbeing, security, and retirement plans. It is also considered that the home is in poor condition, costs to remediate are high and there is uncertainty and list with the property being heritage listed. [Refer to original for full reason, including Appendix A]	Not specified.
Fabric Property Limited	425.111	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Acknowledges the building at 22 The Terrace is recognised as a heritage building. The entire external building envelope is listed.	Retain item 287 in SCHED1 - Heritage Buildings as notified.
Wingnut PM Ltd	428.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that The Former School and Convent have little to no architectural merit, has been altered many times, and is poor build quality. Preservation while developing for future use would be difficult. Considers that expansion of the Post Production Music composing and recording base would be difficult. [See original submission for full reasons]	Amend Item 120 in SCHED1 - Heritage Buildings to remove The Former School and Convent 1899. [See original submission for map of building]
Heritage New Zealand Pouhere Taonga	FS9.49	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Schedule 1 item 120 (chapel and retreat house) is entered on the New Zealand Heritage List / Rārangī Kōrero as a category 2 place, and has sufficient heritage value to merit its inclusion in the schedule.	Disallow / Retain as notified (with minor amendment as per the original HNZPT submission)
Wellington's Character Charitable Trust	FS82.157	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Considers the building has significant heritage value.	Disallow
Historic Places Wellington Inc	FS111.28	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	The buildings are entered on the NZ Heritage List/Rarangī Korero as Historic Places. Considers that they are nationally significant.	Disallow
The Retirement Villages Association of New Zealand Incorporated	FS126.173	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	The RVA opposes the submission point as it is unclear if the relief sought is consistent with financial contributions regime under the RMA.	Disallow
Ryman Healthcare Limited	FS128.173	Part 4 / Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Ryman opposes the submission point as it is unclear if the relief sought is consistent with financial contributions regime under the RMA.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Rachel Underwood	458.12	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Supports the Council’s proposals for retaining existing, and adding new, listed Heritage Buildings but considers a public process should have been followed to select them with consultation with Heritage Places Wellington and community groups.	Retain SCHED1- Heritage buildings, as notified. [Inferred decision requested]
Sarah Cutten and Matthew Keir	FS91.50	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	The further submitter is opposed the generic support for all new additions to SCHED1. The further submitter does not believe the original submitter has made any detailed assessment of each scheduled item to inform their view, and as such, believe their submission point should be discounted. [See original further submission for full reason].	Disallow / Seeks that the Council does not add new listings of private homes without owner’s consent.
Philip Cooke	465.4	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that Item 471 (20 Austin Street) in SCHED1 - Heritage Buildings is highly modified from the original Victorian building and relies on the surrounding buildings for scale and context. Considers that 20 Austin Street's contribution to the townscape is not in isolation nor is it held in high public esteem by the local community without the context of the surrounding buildings. [Refer to original submission for full reasons].	Seeks that Item 471 (20 Austin Street) is only included as a listed Item on SCHED1 - Heritage Buildings if the surrounding buildings are included within the Character Precinct boundary.
Mt Victoria Historical Society Inc	FS39.10	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	The submitter requests removal of 20 Austin Street from the list of heritage buildings IF Claremont Grove is not designated a Heritage Area. We do not believe this should occur, however we agree that Claremont Grove does provide context to this house. Claremont Grove must be made a Heritage Area (refer to our submission on the Proposed DP). Do not remove this house from the list of heritage buildings because, if Claremont Grove is not designated a Heritage Area in this Plan, it may be in future.	Disallow
Philip Cooke	465.5	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose in part	Considers that 20 Austin Street's contribution to the townscape is not in isolation nor is it held in high public esteem by the local community without the context of the surrounding buildings. [Refer to original submission for full reasons].	Remove Heritage Building Item 471 (20 Austin Street) in its current form. [inferred decision requested]
Mt Victoria Historical Society Inc	FS39.11	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	The submitter requests removal of 20 Austin Street from the list of heritage buildings IF Claremont Grove is not designated a Heritage Area. We do not believe this should occur, however we agree that Claremont Grove does provide context to this house. Claremont Grove must be made a Heritage Area (refer to our submission on the Proposed DP). Do not remove this house from the list of heritage buildings because, if Claremont Grove is not designated a Heritage Area in this Plan, it may be in future.	Disallow
WingNut Films Productions Limited	467.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Oppose the heritage listing of the Bulk Storage Tank at 139 Park Road. Considers that the tank is predominantly a steel structure and has significant rust.The roof has a large number of leaks and significant amounts of water come into the building whenever it rains. The tank also has a condensation problem which makes it unsuitable for the vast majority of activities. [Refer to original submission for full reason]	Remove Heritage listing 511 - 139 Park Road from SCHED1 - Heritage Buildings.
Sarah Cutten and Matthew Keir	FS91.27	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	The further submitter support this submission. If the Council had identified the effects of listing the tank, and its poor state, and weighed the benefits and costs (as required under s32 of the RMA) it seems likely this would not have been proposed for listing. Remedial work to resolve the issues would be significant and only increase if the listing proceeded.	Allow / Seeks that the Council only list buildings or structures with accurate information (i.e., free from errors) and robust evidence is provided to support listing. Seeks that the Council only list buildings where there is a net benefit to the community of doing so. Identify the effects of listing and quantify the costs and benefits to a level of detail that corresponds to the scale and significance of the effect of listing (as required in s32 of the RMA).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Olympus Apartments	473.1	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Oppose	Opposes the proposed heritage designation of the Olympus Apartments. Considers that the added cost of any improvements or maintenance if the building is designated historic is concerning, especially as many owners are retired and on fixed incomes. [Refer to original submission for full reason]	Remove Heritage Listing 510 (280 Oriental Parade) from SCHED1 - Heritage Buildings.
Olympus Apartments	473.2	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers 280 Oriental Parade does not qualify as a Listed Heritage Building. [Refer to original submission for full reason]	Remove Heritage Listing 510 (280 Oriental Parade) from SCHED1 - Heritage Buildings.
Craig Palmer	492.50	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Amend	Considers that SCHED1 - Heritage Buildings should be amended so that the Item List is aggregated into defined areas of the city. This is to enable the public to readily access a definitive list for the neighbourhood where they live and other areas of interest.	Seeks that the Items List in SCHED1 - Heritage Buildings are aggregated into defined areas of the city.
Rita Angus Cottage Trust (formerly Thorndon Trust)	494.2	Schedules Subpart / Schedules / SCHED1 – Heritage Buildings	Support	Supports the inclusion of Item 470 (Cooper's Cottage) in SCHED1 - Heritage Buildings.	Retain Item 470 as a listed building in SCHED1 - Heritage Buildings as notified.
Heritage New Zealand Pouhere Taonga	70.55	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Oppose in part	Notes that a number of entries in Schedule 1 have incorrect New Zealand Heritage List/Rārangi Kōrero references.	[Inferred Decision requested] Seeks that all SCHED2 - Heritage Structure entries are checked for accuracy in terms of heritage New Zealand Listing number.
Heritage New Zealand Pouhere Taonga	70.56	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	SCHED2 Item 4 does not have a HNZPT #.	Amend SCHED2 Item 4 (Seatoun Tunnel) HNZPT # as follows: (HNZPT #) <u>Historic Place Category 2, 3650</u>
Heritage New Zealand Pouhere Taonga	70.57	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	SCHED2 Item 28 has an inaccurate HNZPT #.	Amend SCHED2 Item 28 (Queen Victoria Statue) HNZPT # as follows: (HNZPT #) <u>Historic Place Category 2, 28 3663</u>
Tim Bright	75.12	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	Considers that the Mount Victoria Tunnel should be added to SCHED2 - Heritage Structures as all other tunnels of a similar era are included.	Add Mount Victoria Tunnel to SCHED2 - Heritage Structures
Judith Graykowski	80.14	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	Considers that the Mount Victoria Tunnel should be added to SCHED2 - Heritage Structures as all other tunnels of a similar era are included.	Add Mount Victoria Tunnel to SCHED2 - Heritage Structures
Judith Graykowski	80.15	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	SCHED2 should be amended to include all other tunnels of a similar era to the Mount Victoria Tunnel.	Add all other tunnels of similar era as the Mount Victoria Tunnel to SCHED2 - Heritage Structures.
Joanna Newman	85.6	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	SCHED2 should be amended to include the Mount Victoria Tunnel. Considers that the Mount Victoria tunnel is not included in the list of heritage structures, while all other early road tunnels in Wellington are, namely Karori, Seatoun, Northland, Hataitai Bus Tunnels. Considers that this tunnel is arguably one of the most 'storied' tunnels in Wellington, whether from the earliest days construction by Depression workers and Government grant, and burial of a murder victim on site during construction to the current history of tooting in the tunnel. Supports evidence from the Mt Victoria Historical Society submission.	Add the Mount Victoria Tunnel to SCHED2 - Heritage Structures.
Alan Olliver & Julie Middleton	111.11	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	Considers that Mount Victoria tunnel is unique amongst tunnels in not being a heritage structure. Considers that the tunnel is the most 'storied'.	Add Mount Victoria Tunnel to SCHED2 - Heritage Structures.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	FS82.200	Part 4 / Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Vivienne Morrell	155.17	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Support	Supports the heritage listings in the heritage schedules.	Retain SCHED2 - Heritage Structures as notified, and include the recommendations of Heritage NZ and Historic Places Wellington.
Vivienne Morrell	155.18	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	Considers that the Mount Victoria Tunnel should be added to SCHED2 - Heritage Structures as all other tunnels of a similar era are included.	Add Mount Victoria Tunnel to SCHED2 - Heritage Structures
Historic Places Wellington	182.45	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Support	Supports all proposed listings of historic sites and areas, (including retention of ODP listings).	Retain SCHED2 - Heritage Structures as notified.
Sarah Cutten and Matthew Keir	FS91.30	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Oppose	The further submitter is opposed to the listing of operational infrastructures because of the costs this imposes of maintaining and adapting our infrastructure networks to best serve the communities of today and tomorrow. [See original further submission for full reason].	Disallow / Seeks that the Commissioners note the impact of adding heritage restrictions to operational infrastructure and providing for future needs of our communities. The Council does not add any items of operational infrastructure to SCHED2. The Council only list structures where there is a net benefit to the community of doing so. Identify the effects of listing and quantify the costs and benefits to a level of detail that corresponds to the scale and significance of the effect of listing (as required in s32 of the RMA).
Mount Victoria Historical Society	214.13	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	SCHED2 should be amended to include the Mount Victoria Tunnel. Considers that the Mount Victoria tunnel is not included in the list of heritage structures, while all other early road tunnels in Wellington are, namely Karori, Seatoun, Northland, Hataitai Bus Tunnels. Considers that this tunnel is arguably one of the most 'storied' tunnels in Wellington, whether from the earliest days construction by Depression workers and Government grant, and burial of a murder victim on site during construction to the current history of tooting in the tunnel.	Add the Mount Victoria Tunnel to SCHED2 - Heritage Structures.
Wellington's Character Charitable Trust	FS82.178	Part 4 / Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Tyers Stream Group	221.79	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	[No specific reason given beyond decision requested - refer to original submission]	Add Tyers Stream Dam to SCHED2 - Heritage Structures.
Wellington's Character Charitable Trust	233.37	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Support	Supports all proposed listings of historic sites and areas, (including retention of ODP listings).	Retain SCHED2 - Heritage Structures as notified
Cherie Jacobson	251.9	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Support	Supports all historic heritage added to the schedules.	Retain SCHED2 - Heritage Structures as notified
Wellington City Council	266.183	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Seeks to amend Schedule 2 (Heritage structures) to re-order the Schedule alphabetically by street name.
Historic Places Wellington Inc	FS111.29	Part 4 / Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Support	HPW supports currently scheduled heritage structures in Wellington and these additional structures.	Allow

Claire Bibby	329.3	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	<p>Considers that the survey marker used for the Tawa tunnel construction should be added to SCHED2 as a heritage structure. The survey marker was used to assess the centre line of the railway tunnel, and has a view shaft on property 395 Middleton Road. Support for this heritage nomination is attached in Appendix A, B, C, from Glenside Progressive Assn. Inc, the Tawa Historical Society and the Rail Heritage Trust. The survey mark is located on property 395 Middleton Road (Lot 2 DP76164). Approximate location of marker (41.197092, 174.820693).</p> <p>As stated in the 'Historic Heritage Study for the Upper Stebbings and Marshall Ridge Structure Plan' by Elizabeth Cox (2018, p.4): "Preserve the area around the Railway Survey Peg Protection of this site should be considered, plus protection of a view shaft between the tunnel and peg."</p> <p>[Refer to original submission for full reason, including appendices]</p>	Add the survey mark used for the construction of the Tawa No.2 tunnel to SCHED2 - Heritage Structures.
Historic Places Wellington Inc	FS111.34	Part 4 / Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Support	HPW supports currently scheduled heritage structures in Wellington and these additional structures.	Allow
Claire Bibby	329.4	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	<p>Considers that the concrete milk stand on the corner of Glenside and Middleton Road should be considered a Heritage Structure. Approximate location is 41.20574 174.81178.</p> <p>[Refer to original submission for full reason, including appendices]</p>	Add the concrete milk stand on the corner of Glenside and Middleton Road to SCHED2 - Heritage Structures.
Historic Places Wellington Inc	FS111.35	Part 4 / Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Support	HPW supports currently scheduled heritage structures in Wellington and these additional structures.	Allow
Claire Bibby	329.5	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	<p>Considers there should be a property listing on the Reedy block for the area adjacent to Westchester Drive and Te Kahu Road. There should be a comment included in the Property Report and in the District Plan that there is a burial site dating back to about 1841 on this block. This would ensure it is not destroyed accidentally and will enable a proper archaeological investigation to be carried out.</p> <p>[Refer to original submission for full reason, including appendices]</p>	<p>Seeks that the burial site dating back to about 1841 at 28 Westchester Drive be included in a property listing in SCHED2 - Heritage Structures.</p> <p>[Inferred decision requested]</p>
Tawa Historical Society	386.1	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	<p>Considers that the SCHED2 - Heritage Structures listing of Item 60 (Elsdon Best Memorial) should be amended to include an enlarged area encompassing the Tawa War Memorial at the Northern end of Oxford Street, and the World War I memorial rock (recently moved from Willowbank Park).</p> <p>Considers that it is appropriate to enlarge (or add to) the existing memorial area to include the other memorials now in the area.</p> <p>Considers that the Enlarged Memorial area will meet the following heritage values: A, C, D, E, F</p>	Amend Item 60 (Elsdon Best Memorial) in SCHED2 - Heritage Structures to include an enlarged area encompassing the Tawa War Memorial at the Northern end of Oxford Street, and the World War I memorial rock (recently moved from Willowbank Park).
Wellington Civic Trust	388.121	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Support in part	SCHED2 is partially supported and additional Heritage Structures are proposed.	Retain SCHED2 - Heritage Structures with amendment.
Wellington Civic Trust	388.122	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Amend	Considers that SCHED2 should include the City to Sea bridge and Civic Square. It should include all features associated with the City to Sea Bridge, including the decking, the steps, the sculptures: and the paving, steps, sculptures, water features and other items which comprise the original design for the square, including the walkway which links the two levels of the above features.	<p>Amend SCHED2 - Heritage Structures to include:</p> <ul style="list-style-type: none"> - The City to Sea Bridge and all associated features, - Civic Square.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	FS12.4	Part 4 / Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Oppose	The submitter seeks to include the City to Sea bridge and Civic Square as heritage structures. While Willis Bond and Company Limited appreciate the reasons for the submission and are supportive of protecting historic heritage, we agree with Heritage New Zealand Pouhere Taonga(sub 70.35) that the proposed Te Ngākau Civic Square Precinct provisions adequately address heritage considerations within the area.	Disallow
Historic Places Wellington Inc	FS111.36	Part 4 / Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Support	HPW supports currently scheduled heritage structures in Wellington and these additional structures.	Allow
Wellington Heritage Professionals	412.105	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Support in part	Support the new additions to the schedule of historic heritage items, but considers that they are not representative of what is distinctive about Wellington, the region, and New Zealand.	Retain SCHED2 - Heritage Structures as notified, with amendments
Wellington Heritage Professionals	412.106	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Support	Supports the addition of new structures to the schedule but concerned that the lack of public engagement on the review of the schedule will undermine its efficacy as it is unlikely to have the support of the people of Wellington as it does not reflect Wellington's important heritage.	[Inferred decision requested] retain SCHED2 - Heritage Structures as notified
Sarah Cutten and Matthew Keir	415.38	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Not specified	Considers that 28 Robieson Street may have more heritage protection than the bucket fountain and considers this to be odd. The fountain has high community value and the fact that it is not listed suggests there are issues with the way the Council is identifying and prioritising historic heritage within the city. Queries why some buildings and architects attract attention but others do not and notes Burren and Keen largely appear to be ignored in the literary history and heritage of the city. [Refer to original submission for full reasons, including attachments]	Not specified.
Sophie Kahn	FS76.8	Schedules Subpart / Schedules / SCHED2 – Heritage Structures	Support	The Submitters (415) point to the inexplicability of the way structures of infinitely more heritage value to the community are not proposed for listing (such as the bucket fountain) but lowvalue structures are. They (415) also point to the fact that the WCC has removed several public structures of extremely high heritage value to the community from the Plan (eg. Public library) whilst forcing extremely low-value privately owned structures on it. One can only conjecture why. Could it be the WCC recognises the burden listing inflicts on owners and does not wish that on themselves? The Submitters (415) suggest the WCC's process for identifying structures is broken. The further submitter concurs. Kahn House is of extremely low-value to the community and absolutely no evidence exists to suggest any more than a handful of individuals (many of whom do not even reside in this city and who have never actually seen Kahn House) wish Kahn House to be protected.	Amend / Remove item 514 (28 Robieson St) from SCHED 1 - Heritage buildings. Seeks that an independent Body is hired to complete a full review and audit of the the way WCC is identifying which structures require listing on the Plan and which don't. A review to understand why WCC is identifying three times the number of homes requiring heritage status relative to total housing stock as compared to Auckland City Council. Require that the WCC provide full quantitative and qualitative data and evidence to support their forcing private homes on the plan.
Jean Morgan	5.1	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	The entirety of Porritt Avenue in Mt Victoria should be a Heritage Area to retain the history of the area. It is an unbroken streetscape in the city. (Option A)	Retain Item 45 (Porritt Avenue) of SCHED3 - Heritage Areas as notified.
Barry Insull	32.4	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that last names in Item 38 required protections are not up to date. Identification of each of the baches at Mestanes Bay is both unclear and generally reflects earlier times.	Seeks that last names in SCHED3 (Heritage Areas), Item 38 (Mestanes Bay Baches) be updated to reflect current leases.
Barry Insull	32.5	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that last names in Item 39 required protections are not up to date. identification of each of the baches both at Red Rocks is both unclear and generally reflects earlier times.	Seeks that last names in SCHED3 (Heritage Areas), Item 39 (Red Rocks Baches) be updated to reflect current leases.
Barry Insull	32.6	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Item 39 (Red Rocks Baches) in SCHED3 fails to include the wording "Historic Area" and should be amended.	Seeks that HNZPT of column, Item 39 (Red Rocks Baches) make mention of Heritage Area.
Barry Insull	32.7	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Supports the inclusion of Red Rocks Baches in SCHED3.	Retain as notified.

Gregory Webber	33.8	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that Green Street is given heritage protection to match Coromandel Street and Wilson Street as these have similar era housing	Seeks that Green Street is included as a Heritage Area
Wellington's Character Charitable Trust	FS82.220	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
E W Limited	45.1	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that the existing building at 241 Tinakori Road may be on the site of an 1870s retail building but extensive modifications have left very little of the original building. As the exterior was completely rebuilt in the 1920s and the interior has also been altered, it does not represent an 1870s retail building or even a heavily modified version. [Refer to original submission for full reason].	Seeks that 241 Tinakori Road should either be excluded from the SCHED46 - Ascot Street Heritage Area; or be assigned a heritage status of 1, "Neutral impact on heritage area"; or, at most, 2, "Contributes to the values of the heritage area".
Phil Kelliher	58.5	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Supports that Porritt Avenue is zoned Heritage Area.	Retain Item 45 (Porritt Avenue) in SCHED3 - Heritage Areas as a Heritage Area.
Historic Places Wellington Inc	FS111.40	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	HPW supports the addition of heritage areas in Mt Victoria, comprising notified areas of Elizabeth St and Porritt Ave and further new heritage areas in Claremont Grove; addresses in Ellice St; and the addition of 1-6 & 8 Tutchen Ave to the adjacent proposed new Porritt Ave Heritage Area as notified.	Allow
Phil Kelliher	58.6	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	The extent of the Porritt Avenue Heritage Area should include properties on Tutchen Avenue.	Add the following houses in Tutchen Avenue to Item 45 (Porritt Avenue) of SCHED3 - Heritage Areas: 1 Tutchen Avenue (Home of Wellington Harbour Pilot, William Shilling) Built c1896 3 Tutchen Avenue Built c1894 5 Tutchen Avenue Built c1894 2 Tutchen Avenue Built c1896 4 Tutchen Avenue Built c1894 6 Tutchen Avenue Built c1896 8 Tutchen Avenue Built c1896
Historic Places Wellington Inc	FS111.41	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	HPW supports the addition of heritage areas in Mt Victoria, comprising notified areas of Elizabeth St and Porritt Ave and further new heritage areas in Claremont Grove; addresses in Ellice St; and the addition of 1-6 & 8 Tutchen Ave to the adjacent proposed new Porritt Ave Heritage Area as notified.	Allow
Heritage New Zealand Pouhere Taonga	70.58	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Oppose in part	Opposes SCHED3-Heritage Areas to the extent that the Truby King Historic Reserve is not included on the schedule.	Retain SCHED3-Heritage Areas with amendment.
Onslow Historical Society	FS6.27	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	OHS generally supports currently scheduled heritage areas in the wider Wellington area and HNZPTs proposals.	Allow
Historic Places Wellington Inc	FS111.37	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	HPW supports currently scheduled heritage areas in Wellington and HNZPTs amendment proposals.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Heritage New Zealand Pouhere Taonga	70.59	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that SCHED3 (Historic Areas) should include the Truby King historic area as it is included in the NZ Heritage List / Rārangī Kōrero as an historic area (list number 7040). Acknowledges that several individual buildings within this historic area have been included in Schedule 1 (Historic buildings), but considers that the Truby King historic area as a whole, including the gardens, landscaping, and settings of the buildings, has significant heritage values and merits inclusion in SCHED3.	Amend SCHED3 - Heritage Areas to include a Truby King Heritage Area (HNZPT#) 7040.
Heritage New Zealand Pouhere Taonga	70.60	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Oppose in part	Opposes SCHED3-Heritage Areas to the extent that there are minor errors and missing New Zealand Heritage List/Rārangī Kōrero references on the schedule.	[Inferred Decision requested] Seeks that all SCHED3 - Heritage Area entries are checked for accuracy in terms of address, legal descriptions and Heritage New Zealand Listing number.
Heritage New Zealand Pouhere Taonga	70.61	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	The SCHED3 Item 5 HNZPT # should be amended to reflect that the Heritage Area also incorporates the 'Dominion Observatory Historic Area'.	Amend SCHED3 Item 5 (Wellington Botanic Gardens) HNZPT # as follows: (HNZPT #) Wellington Botanic Gardens Historic Area, 7573 and Dominion Observatory Historic Area, 7033
Heritage New Zealand Pouhere Taonga	70.62	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	SCHED3 Item 14 does not have a NZHPT # reference and name should be changed.	Amend SCHED3 Item 14 (Parliamentary Precinct) HNZPT # as follows: (HNZPT #) Government Centre Historic Area, 7035
Heritage New Zealand Pouhere Taonga	70.63	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	SCHED3 Item 19 does not have a NZHPT # reference and name should be changed.	Amend SCHED3 Item 19 (Wright's Hill Gun Emplacement) HNZPT # as follows: (HNZPT #) Wrights Hill Fortress Historic Place Category 1, 7543
Heritage New Zealand Pouhere Taonga	70.64	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	SCHED3 Item 21 does not have a NZHPT # reference.	Amend SCHED3 Item 21 (Old Coach Road) HNZPT # as follows: (HNZPT #) Old Coach Road Historic Place Category 1, 7396
Heritage New Zealand Pouhere Taonga	70.65	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	SCHED3 Item 22 does not have a NZHPT # reference.	Amend SCHED3 Item 22 (Evans Bay Patent Slip) HNZPT # as follows: (HNZPT #) Evans Bay Patent Slip Historic Place Category 2, 2895
Heritage New Zealand Pouhere Taonga	70.66	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	SCHED3 Item 27 should include both the Cuba Street Historic Area and the Footscray Avenue Historic Area and this should be reflected in the NZHPT # reference.	Amend SCHED3 Item 27 (Cuba Street) HNZPT # as follows: (HNZPT #) Cuba Street Historic Area, 7209 and Footscray Avenue Historic Area, 7209
Heritage New Zealand Pouhere Taonga	70.67	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	SCHED3 Item 28 is incorporated by the Government Centre Historic Area (although not all the boundaries correspond exactly in all aspects) and this should be reflected in the NZHPT # reference.	Amend SCHED3 Item 28 (Stout Street Precinct) HNZPT # as follows: (HNZPT #) Government Centre Historic Area, 7035
Heritage New Zealand Pouhere Taonga	70.68	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	SCHED3 Item 39 has an incorrect NZHPT # reference.	Amend SCHED3 Item 39 (Stout Street Precinct) HNZPT # as follows: (HNZPT #) Red Rocks Baches Historic Area, 7509
Heritage New Zealand Pouhere Taonga	70.69	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	SCHED3 Item 40 has an incorrect NZHPT # reference.	Amend SCHED3 Item 40 (Stout Street Precinct) HNZPT # as follows: (HNZPT #) Albion Gold Mining Company Battery and Remains, Historic Place Category 2, 9032
Lucy Telfar Barnard	72.7	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Oppose	Opposes Armour Avenue (Item 41 of SCHED3) being scheduled as a Heritage Area. Considers that nothing about this area makes it more worthy of protection than many other areas of the city. Its presence on this list indicates a privileging of a small number of wealthy property owners over other current and future city residents' needs for more effective residential use of land so close to the central city. In particular, there is nothing about this area that means it should be given "Heritage Area" protection.	Delete Item 41 (Armour Avenue) from SCHED3 - Heritage Areas in its entirety.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Lucy Telfar Barnard	72.8	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Oppose	<p>Opposes the Doctors' Common Heritage Area (Item 42 of SCHED3) being scheduled as a Heritage Area.</p> <p>Considers that nothing about this area makes it more worthy of protection than many other areas of the city.</p> <p>Its presence on this list indicates a privileging of a small number of wealthy property owners over other current and future city residents' needs for more effective residential use of land so close to the central city. Phil Kelliher	F557.4	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Oppose	<p>Supports evidence provided by the WCC for the inclusion of Porritt Ave into new Heritage Area (45)</p> <p>This addition recognises the importance of heritage to Wellington's identity and sense of place.</p> <p>Porritt Avenue recognised by experts as an important example of an intact late 19th / early 20th century streetscape. There are unlikely to be few others in Wellington from the same period that can match its overall integrity.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Turi & Jane Park	73.3	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Seeks that 134 Brougham Street is removed from the Moir Steet Heritage Area.	Amend SCHED3 (Heritage Areas) to remove 134 Brougham Street from item 44 (Moir Street Heritage Area), with the following changes to Item 44 required: 1. Column 4 (Legal Descriptions) - delete the legal description for 134 Brougham Street as follows: Brougham Street 134 (PT SEC 294 TOWN OF WELLINGTON)... 2. Column 5 (Protections Sought) add 134 Brougham Street to the exclusions as follows: ... <u>134 Brougham Street</u>
Tim Bright	75.13	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that the extent of the Porritt Avenue Heritage Area should be increased to include properties on Tutchen Avenue.	Amend the Item 45 (Porritt Avenue Heritage Area) of SCHED 3 - Heritage Areas include Tutchen Avenue.
Tim Bright	75.14	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that a new Heritage Area should be created for Claremont Grove.	Amend SCHED3 to add a Heritage Area for Claremont Grove.
Judith Graykowski	80.16	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend the extent of Item 45 (Porritt Avenue Heritage Area) of SCHED3 - Heritage Areas to include Tutchen Avenue.
Joanna Newman	85.7	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	The extent of the Porritt Avenue Heritage Area should include properties on Tutchen Avenue. Considers that Tutchen Avenue is an integral part of the Porritt Avenue surrounds, in terms of history, building type and height and streetscape. The street was created by the Tutchen, on their estate, before being taken over by the Council. Council is also proposing to add the building which was the original Tutchen home, backing onto Tutchen Avenue, to the District Plan heritage list. Tutchen Avenue is included in the 'primary/contributory' pre-1930 character area in the Boffa Miskell Pre-1930 Character Area Review commissioned by Wellington City Council. Housing on the street is just as 'primary/contributory' to character as the overall housing stock of Porritt, Armour and Albany Avenues. There is only one building (No. 10 and 12) which is not original. An important figure in Wellington's history – Wellington Pilot, William Shilling – lived at No. 1 Tutchen Avenue for many years. It is topographically a prominent site in this part of Mt Victoria and in the middle of the proposed Porritt Avenue and Armour Avenue heritage areas. To allow a large concentration of four-storey, mixed-use apartments in the middle of this heritage area would destroy the character of both. The narrowness of the street – barely more than a drive-width – reflects its origins as a private way created by the Tutchen, who accessed the stables behind their Pirie Street residence via it. Supports evidence submitted by Mt Victoria Historical Society.	Add the following houses in Tutchen Avenue to the Porritt Avenue Heritage Area (No 45): 1 Tutchen Avenue (Home of Wellington Harbour Pilot, William Shilling) Built c1896 3 Tutchen Avenue Built c1894 5 Tutchen Avenue Built c1894 2 Tutchen Avenue Built c1896 4 Tutchen Avenue Built c1894 6 Tutchen Avenue Built c1896 8 Tutchen Avenue Built c1896 12 Tutchen Avenue Built 1926, Rear of the listed building at 56 Pirie St.

Craig Forrester	210.13	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Supports the Heritage area over Moir Street. Identified in SCHED3- Heritage Areas	Retain SCHED3 - Heritage areas (#44)
Mount Victoria Historical Society	214.14	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	<p>The extent of the Porritt Avenue Heritage Area should include properties on Tutchen Avenue.</p> <p>Considers that Tutchen Avenue is an integral part of the Porritt Avenue surrounds, in terms of history, building type and height and streetscape.</p> <p>[Refer to original submission for full reason]</p>	<p>Add the following houses in Tutchen Avenue to the Porritt Avenue Heritage Area (No 45) as follows:</p> <p>1 Tutchen Avenue (Home of Wellington Harbour Pilot, William Shilling) Built c1896 3 Tutchen Avenue Built c1894 5 Tutchen Avenue Built c1894 2 Tutchen Avenue Built c1896 4 Tutchen Avenue Built c1894 6 Tutchen Avenue Built c1896 8 Tutchen Avenue Built c1896 12 Tutchen Avenue Built 1926, Rear of the listed building at 56 Pirie St.</p>
Wellington's Character Charitable Trust	FS82.179	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Jane O'Loughlin	FS98.1	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	The Porritt St Heritage Area should include Tutchen avenue. Agree that Tutchen Avenue is an integral part of the Porritt Avenue surrounds, in terms of history, building type and height and streetscape. If it remained outside the heritage area and was developed to up to 6 stories, this would significantly impact the surrounding heritage and character areas.	Allow
Mount Victoria Historical Society	214.15	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	<p>Supports the addition of a new Heritage Area at Claremont Grove.</p> <p>Considers that Claremont Grove is historically important due to the Victoria Bowling Club.</p> <p>[Refer to original submission for full reason]</p>	<p>Add a new Heritage Area to SCHED3 - Heritage Areas for Claremont Grove, with the following properties (Significance of properties on original submission) as follows:</p> <p>1 Claremont Grove 3 Claremont Grove 5 Claremont Grove 7 Claremont Grove 9 Claremont Grove 15 Brougham Street 16 Austin Street 18 Austin Street 20 Austin Street 22 Austin Street 11 Austin Street 13 Austin Street 17 Austin Street</p>
Wellington's Character Charitable Trust	FS82.180	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow

Sam Stocker & Patricia Lee	216.6	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	<p>Considers that far too much historic character areas have been left out of the Newtown and Berhampore areas which will destroy quality of life for their community.</p> <p>The land is not needed to help cope with Wellingtons increasing population.</p> <p>Land values will soar and will lead to unpayable rates bills and loss of sunlight access.</p> <p>New builds more than three storeys high are expensive and won't provide low-cost housing.</p> <p>Average residents will either be forced away or live in ghetto conditions.</p> <p>[Refer to original submission for full reason]</p>	<p>Seeks that SCHED3 - Heritage Areas is amended to include any areas that contain pre-1935 buildings.</p> <p>[Inferred decision requested]</p>
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.51	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Supports submission that seeks character precinct extensions in Newtown.	Allow
Wellington's Character Charitable Trust	233.38	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	<p>Considers that evidence from the Hay Street Heritage Report (July 2021) supports Hay Street being a Character Precinct and/or a Heritage Area.</p> <p>[Refer to Hay Street Heritage Report (July 2021) provided with submission for details].</p>	Seeks that Hay Street area is amended to be a Character Precinct and/or a Heritage Area.
Wellington's Character Charitable Trust	233.39	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Supports all proposed listings of historic sites and areas, (including retention of ODP listings).	Retain SCHED3- Heritage Areas as notified.
Wellington's Character Charitable Trust	233.40	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that Te Ngākau Civic Square should be included on SCHED2 - Heritage areas [Refer to original submission for full reason]	Add Te Ngākau Civic Square to SCHED2 - Heritage Areas
Adam King	246.3	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Oppose in part	Oppose the Inclusion of 12A Parliament Street, Thorndon, Wellington in the Ascot Street Heritage Area. [Refer to original submission for full reason]	Retain as notified with amendment below.
Adam King	246.4	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers Historic Heritage Area Evaluation report provided refers to properties within the proposed heritage area as having characteristics which are not consistent with that of 12A Parliament Street.	Seeks to remove 12a Parliament St (Legal Description Part Lot 8 DP 632 and Part Section 522 Town of Wellington) from Heritage Area 46 - Ascot Street, Hill Street, Glenbervie Terrace, Parliament Street, Sydney Street West, Tinakori Road.
Friends of the Bolton St Cemetery Inc	250.3	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Supports the inclusion of Bolton St Cemetery as a heritage area.	Retain Item 2 (Bolton Street Cemetery) in SCHED3 - Heritage Areas as notified.
Cherie Jacobson	251.10	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Supports all historic heritage added to the schedules.	Retain SCHED3 - Heritage Areas as notified.
Dean Knight and Alan Wendt	265.7	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	<p>Considers that when Salisbury Garden Court was designated a heritage area, at the initiative of owners and residents, the key heritage feature sought to be protected was historic connectedness.</p> <p>The heritage controls imposed are, in practice, too heavy and go well beyond what is sought to be protected.</p> <p>[Refer to original submission for full reason]</p>	Seeks that if Salisbury Garden Court is not exempt from all Heritage Zone Controls except HH-P14 (New buildings and structures within heritage areas), HH-R13 (New buildings and structures within heritage areas), HH-P16 (Total demolition of contributing buildings and structures) and HH-R16 (Total demolition of contributing buildings and structures), then Item 24 (Salisbury Garden Court) is deleted from SCHED3 - Heritage Areas.
Wellington City Council	266.188	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Seeks to amend Schedule 3 (Heritage areas) to re-order the Schedule alphabetically by street name.
Wellington City Council	266.189	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Amend SCHED3 (Heritage structures) – 20 as follows: F, C, A, B, C, E, F

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council	266.190	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Amend SCHED3 (Heritage structures) – 21 as follows: Includes all above and below ground features associated with the Old Coach Road including - pathway and original track formation that underlies the road; original earthworks cuttings. Exclusions – TBC
Wellington City Council	266.191	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Amend SCHED 3 (Heritage structures) to remove 50, 52, 61 and 63 Elizabeth Street from Item 43 - Elizabeth Street Heritage area.
Wellington City Council	266.192	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers 134 Brougham Street should be retained within the Moir Street heritage area as this adds to the collective heritage values of the context, however, exclude the rear addition from the extent of 134 Brougham Street.	Amend SCHED3 (Heritage structures) – Item 44 as follows: Exclusions - the following buildings or structures have been identified as non-heritage 2, 2a Moir Street <u>134 Brougham Street (rear addition only)</u> 33 Moir Street existing accessory buildings and minor residential units as at 18 July 2022
Mt Victoria Historical Society Inc	FS39.19	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Although modified, 134 Brougham Street is very important to the Moir Street Heritage Area because it is the house of Rev Moir and is at the main 'gateway' to the area. We do not support removal of 33 Moir Street from the Heritage Area, however.	Allow / Allow submission in part. Clarify that: - 33 Moir Street is not proposed for removal - What exactly is meant by "the rear" of 134 Brougham Street because the way it is set out in the submission is not clear.
Wellington City Council	266.193	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers it necessary to remove 12A Parliament Street as a contributing building and instead identify this as a non-heritage building in SCHED3 to reflect mapping change – SCHED3-46.	Amend SCHED3 (Heritage structures) – Item 46 as follows: Exclusions - the following buildings or structures have been identified as non-heritage -6, 8, 19, 19C, 19D, 19E, 19F, 21, 23 Glenervie Tce <u>12A Parliament Street</u> 111 Hill Street existing accessory buildings and minor residential units as at 18 July 2022 N.B.: 119 Hill St and 2 and 4 Parliament St are the same property. 9 Ascot St and 206 Sydney St W are the same property.
Wellington City Council	266.194	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Amend SCHED3 (Heritage structures) – Item 46 as follows: (...) Parliament Street - 1 (PT SEC 522 TOWN OF WELLINGTON), 2 (PT SEC 522 TOWN OF WELLINGTON), 4 (PT SEC 522 TOWN OF WELLINGTON), 6 (ALL PLAN A 1230), 8 (LOT 1 DP 60215 - UNIT PLAN 60755), 9 (LOT 1 DP 5571 - 14 M2 CARPAD ON ROAD RESERVE), 10 (LOT 1 DP 85326), 11 (LOT 1 DP 303746 LOT 2 DP 5571 - 16 M2CARPAD & LAND ON ROAD RESERVE), 12 (LOT 2 DP 85326 - 13 M2 DOUBLE GARAGE ON ROAD RESERVE), 12A (Part Lot 8 DP 632) , 13 (LOT 2 DP 303746), 14 (PT SEC 522 TOWN OF WELLINGTON - 12 M2CARPAD ON ROAD RESERVE), (...)
Wellington City Council	266.195	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	16 Parliament Street is not currently listed as an exclusion (non-heritage) property in SCHED3 (Heritage structures) – 46.	Amend SCHED3 (Heritage structures) – Item 46 to list 16 Parliament Street as an exclusion (non-heritage) property.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council	266.196	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	8 Glenbervie Terrace is currently listed as an exclusion (non-heritage) property in SCHED3 – 46 but should be a Heritage Area listed building.	Seeks to amend SCHED3 – Item 46 to include 8 Glenbervie Terrace as a Heritage Area contributing building.
Wellington City Council	266.197	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Oppose	8 Glenbervie Terrace is currently listed as an exclusion (non-heritage) property in SCHED3 – 46 but should be a Heritage Area listed building.	Seeks to amend SCHED3 (Heritage structures) – Item 46 to remove 8 Glenbervie Terrace from the exclusion (non-heritage building) list.
Wellington City Council	266.198	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers 11 Glenbervie Terrace is not currently a Heritage Area listed building in SCHED3 – Item 46.	Seeks to amend SCHED3 (Heritage structures) – Item 46 to include 11 Glenbervie Terrace as a Heritage Area contributing building.
Wellington City Council	266.199	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers 21 Glenbervie Terrace is listed as a Heritage Area listed building and an exclusion (non-heritage building) in SCHED3 – 46 but should only be an exclusion.	Seeks to amend SCHED3 (Heritage structures) – Item 46 to remove 21 Glenbervie Terrace as a Heritage Area contributing building.
Wellington City Council	266.200	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Considers 21 Glenbervie Terrace is listed as a Heritage Area listed building and an exclusion (non-heritage building) in SCHED3 – 46 but should only be an exclusion.	Seeks to retain 21 Glenbervie Terrace as an exclusion (nonheritage) property in SCHED3 (Heritage structures)
Wellington City Council	266.201	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers 23 Glenbervie Terrace is 6 flats, but in the exclusion list it is only listed as 23 Glenbervie Terrace.	Amend the exclusion (non-heritage building) list in SCHED 3 – Item 46 as follows: (...) 23 Glenbervie Terrace <u>23/1, 23/2, 23/3, 23/4, 23/5, and 23/6 Glenbervie Terrace</u>
Everard Aspell	270.11	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Oppose	<p>Opposes any reduction in heritage protection in the suburbs zoned Inner Residential Area in the ODP.</p> <p>Considers that intensification shouldn't come at the expense of character and heritage.</p> <p>Considers that the attraction in the Lambton Ward is the unique character and heritage, older Victorian styled houses and working men's cottages dotted around Thorndon, Mount Vic, Aro Valley and Mount Cook.</p> <p>There are multiple brownfield sites well suited for accommodating extra population that will avoid impacting heritage and character.</p> <p>[Refer to original submission for full reason]</p>	Seeks amendment to the Proposed District Plan to maintain the heritage areas within Mount Victoria.
Everard Aspell	270.12	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Oppose	<p>Opposes any reduction in heritage protection in the suburbs zoned Inner Residential Area in the ODP.</p> <p>Considers that intensification shouldn't come at the expense of character and heritage.</p> <p>Considers that the attraction in the Lambton Ward is the unique character and heritage, older Victorian styled houses and working men's cottages dotted around Thorndon, Mount Vic, Aro Valley and Mount Cook.</p> <p>There are multiple brownfield sites well suited for accommodating extra population that will avoid impacting heritage and character.</p> <p>[Refer to original submission for full reason]</p>	Seeks amendment to the Proposed District Plan to maintain the heritage areas within Mount Cook.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Everard Aspell	270.16	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Oppose	<p>Opposes any reduction in heritage protection in the suburbs zoned Inner Residential Area in the ODP.</p> <p>Considers that intensification shouldn't come at the expense of character and heritage.</p> <p>Considers that the attraction in the Lambton Ward is the unique character and heritage, older Victorian styled houses and working men's cottages dotted around Thorndon, Mount Vic, Aro Valley and Mount Cook.</p> <p>There are multiple brownfield sites well suited for accommodating extra population that will avoid impacting heritage and character.</p> <p>[Refer to original submission for full reason]</p>	Seeks amendment to the Proposed District Plan to maintain the heritage areas within Berhampore.
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.52	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	<p>Considers that the area has special historical qualities.</p>	<p>Seeks that the following sites are added as a new heritage area:</p> <p>Emmett St 6, 8, 10A, 12, 14, 16, 18, 20.</p> <p>Green St 1, 5, 7, 7A, 9, 13, 15, 17, 19, 2, 2A, 4, 6, 10, 12, 14, 18, 20.</p> <p>Donald Maclean St 16, 24, 28, 30, 36, 38, 17, 19, 21, 25, 27, 29, 31, 33, 35, 37.</p> <p>Normanby St 12, 14, 16, 18, 20, 22, 24, 30, 32, 34, 19, 21, 23, 25, 27, 29, 31, 33, 35, 37, 39, 41.</p>
Marilyn Powell	281.4	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	<p>Considers that Hobson Street area has many housing examples of the Victorian merchant-class.</p> <p>Hobson street is a suggested tourist walking trail to visit Katherine Mansfield House, amongst other notable buildings.</p> <p>Pre-covid tour buses included Hobson Street on their route.</p> <p>[Refer to original submission for full reason]</p>	Amend SCHED3 - Heritage Areas to add the area of High Density Residential Zone at Hobson Street.
Thorndon Residents' Association Inc	FS69.75	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	<p>TRA support these submissions insofar as they underpin the reasons to change the Hobson residential are from HDZ to MDZ and to create a Character Precinct over the block.</p>	Allow
Lisa Nickson, Garrick Northover and Warren Sakey	313.5	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	<p>Considers that the rows of cottages and villas to the west of Epuni Street have heritage value and should be scheduled as heritage, as these are a significant factor in the attractiveness of the area, and the HRZ zoning will destroy this.</p>	<p>Seeks that the rows and cottages to the west of Epuni Street are included as a heritage area.</p> <p>[Inferred decision requested]</p>
Richard Tyler	357.1	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	<p>Considers that 34 Hawker Street should no be included in SCHED3-Heritage Areas. The submitter notes that the property was purchased with no classification and a classification will now significantly reduce the value, enjoyment, and usage of the property. The adjacent property has a proposed 21m height, which will significantly increase its value. There is a big disparity in property values of adjacent properties due to the classification process.</p>	Amend SCHED3-Heritage Areas to remove 34 Hawker Street from Item 42 (Doctors' Common Heritage area).
Mt Victoria Historical Society Inc	FS39.18	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Oppose	<p>This house has high historical and architectural significance, as detailed in Wellington City Council's Mt Victoria Heritage Study Report, June 2017, and should therefore not be removed from the Doctor's Common Heritage Area.</p> <p>We acknowledge the owner's concern, however, that allowing 21m development right next door may devalue his property and re-iterate that such zoning is completely inappropriate for Mt Victoria.</p> <p>Retain 34 Hawker Street in the Doctor's Common Heritage Area.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Richard Herbert	360.10	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that the Tawa Cemetery should be classified as a Historic Reserve in SCHED3. This area should be classified as a Heritage Area, in keeping with other historic cemeteries of Wellington; Bolton Cemetery, Mount Street Cemetery and Johnsonville Cemetery. In a recent review of the WCC Cemeteries Management Plan (adopted June 2021) (Ref Chapter 4.1.2 Heritage recognition and protection) a proposed action was to “Consider scheduling the Tawa Cemetery as a heritage area in the district plan.” This Amendment to the Proposed District Plan would give effect to that action point of the earlier review of Cemeteries Management Plan.	Add a new Item in SCHED3 - Heritage Area for the Tawa Cemetery, as follows: Address - 307 Main Road, Tawa Name - Tawa Cemetery Legal Descriptions – PT SEC 52 PORIRUA DISTRICT-CLOSED CEMETERY Protection required – Includes all above and below ground features Values – A, B, C, E, F
Te Kamaru Station Ltd Ratings	362.19	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that the overlay boundaries at Albion Battery and Mine Remains should be redefined. No part of the Albion Battery and mine remains are located on Te Kamaru Station. The Albion Battery is located to the west of the boundary with Terawhiti Farming Co Ltd's land.	Delete Item 40 (Albion Gold Mining Company Battery and Mine Remains) from SCHED3 - Heritage Areas. [Inferred decision requested]
Josephine Brien / Tim Bollinger	365.6	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that HNZPT#1 (Aro Valley Cottages) in SCHED3 should be amended to include some of the oldest and most significant addresses in this area that have not been included. For example, 43 Palmer Street and the cottages on either side (39, 41 and 45 Palmer Street) are part the same original lot that corresponds to the Aro Street cottages at 32-38 Aro Street, which back onto the Palmer Street properties. Significant properties on Aro Street have been designated High Density. [Refer to original submission for full reason]	Amend the Item 1 (Aro Valley Cottages) of SCHED3 - Heritage Areas to include the adjacent properties on Palmer Street.
Margaret Cochran	382.3	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that the Thorndon Historic Area should be extended to retain its existing boundaries as the new boundaries in the PDP are arbitrary and make no sense.	Seeks to amend Item 35 (Thorndon Shopping Centre) of SCHED3 - Heritage Areas with respect to how the Thorndon Historic Area is defined and to retain the existing boundaries. [Inferred decision sought]
Wellington's Character Charitable Trust	F582.292	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Argosy Property No. 1 Limited	383.128	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Oppose in part	For the reasons set out for the former State Insurance building (Ref 181), Argosy also opposes the Athfield addition being included in the Stout Street Precinct heritage area.	Amend Schedule 3, DP Ref 28 as follows: Exclusions - The following buildings, structures and sites are identified as non-heritage: - Façade (above second floor), Courts Building, cnr, Stout and Whitmore Sts. - 1998 three storey addition designed by Athfield architects to former State Insurance Building
Argosy Property No. 1 Limited	383.129	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Argosy's property at 360-366 Lambton Quay is recognised as part of the BNZ / Head Offices heritage area	Retain listing for Ref 30 as notified.
Tawa Historical Society	386.2	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that SCHED3 - Heritage Areas should be amended to include the Tawa Cemetery (Main Road, Linden). Notes that other cemeteries are included as Heritage Areas. The submitter understands that the Tawa cemetery is currently on the WCC's radar for recognition but wish to formally recommend its addition. Considers that the Tawa Cemetery will meet the following heritage values: A, B, C, D, E, F	Amend SCHED3 - Heritage Areas to include Tawa Cemetery as a listed Item.
Tawa Historical Society	386.3	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that SCHED3 - Heritage Areas should be amended to include the former Tawa Flat Railway Station site on Duncan Street. The former Tawa Flat Railway Station site was a major communications route through the area (since superseded) and part of Tawa's link to the outside world during the late 19th and early 20th centuries. Considers that the former Tawa Flat Railway Station site will meet the following heritage values: A, B, C, E, F	Amend SCHED3 - Heritage Areas to include the former Tawa Flat Railway Station as a listed Item.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Grace Ridley-Smith	390.10	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support in part	Supports the new Heritage Areas in Mount Victoria and Thorndon.	Retain the SCHED3 - Heritage Areas in Mount Victoria and Thorndon as notified, subject to increasing the extent of the area encompassed by Heritage Areas in Mount Victoria and Thorndon.
Grace Ridley-Smith	390.11	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that the Heritage Areas in Mount Victoria and Thorndon should be expanded in spatial extent to better reflect the heritage of Mount Victoria and Thorndon.	Amend the extent of the Heritage Areas in Mount Victoria and Thorndon by expanding the spatial areas.
Grace Ridley-Smith	390.12	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that the Heritage Areas in Mount Victoria and Thorndon should be expanded in spatial extent to better reflect the heritage of Mount Victoria and Thorndon.	Amend the mapping to expand the spatial areas of the Heritage Areas in Mount Victoria and Thorndon.
Grace Ridley-Smith	390.13	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that SCHED3 - Heritage Areas should be amended to include a new Heritage Area in Newtown around Emmitt Street, Green Street and Wilson Street to reflect the heritage of Newtown.	Amend SCHED3 - Heritage Areas to include a Heritage Area around Emmitt Street, Green Street and Wilson Street.
Lucy Harper and Roger Pemberton	401.96	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Supports the Doctors Common Heritage area. The submitter considers that the Doctors Common Heritage area is a visible and memorable part of the cityscape because of its buildings, streets (including steps) layout and position on Mt Victoria. The submitter considers that it still has a strong relationship to the early/historical layout of Wellington. The submitters are landowners in the area and support the recognition in the Plan of this area's significance to the city and the provisions that will retain that significance.	Retain Item 42 (Doctors' Common Heritage area) in SCHED3 - Heritage Areas as a Heritage Area.
Terawhiti Farming Co Ltd (Terawhiti Station)	411.24	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Considers the current extent The current overlay is far too broad, and covers significant area of land not associated with the Albion Battery and Mine Remains.	Retain the Albion Gold Mining Company Battery and Mine Remains Heritage area (#40) with amendment.
Terawhiti Farming Co Ltd (Terawhiti Station)	411.25	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers the current extent The current overlay is far too broad, and covers significant area of land not associated with the Albion Battery and Mine Remains.	Amend the Albion Gold Mining Company Battery and Mine Remains Heritage Area (#40) description to more accurately define the heritage features.
Wellington Heritage Professionals	412.107	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support in part	Support the new additions to the schedule of historic heritage items, but considers that they are not representative of what is distinctive about Wellington, the region, and New Zealand.	Retain SCHED3 - Heritage Areas as notified, with amendments
Wellington Heritage Professionals	412.108	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Supports the addition of new areas to the schedule but concerned that the lack of public engagement on the review of the schedule will undermine its efficacy as it is unlikely to have the support of the people of Wellington as it does not reflect Wellington's important heritage.	[Inferred decision requested] retain SCHED3- Heritage areas as notified
Wellington Heritage Professionals	412.109	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers the character areas will meet the criteria for listing.	Seeks that the character areas are assessed for inclusion in the district plan as heritage areas.
Fabric Property Limited	425.112	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Acknowledges the building at 1 Grey Street is in scheduled heritage area, identified as Post Office Square. The building is listed as a non-heritage building.	Retain item 16 in SCHED3 - Heritage Areas as notified.
Peter Fordyce	431.10	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support in part	Heritage areas are supported, but should be extended.	Retain SCHED3 - Heritage Areas, with amendment.
Anna Kemble Welch	434.12	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support in part	Considers that the Newtown Shopping Centre includes a small number of Historic Buildings of significance that should be retained as closely as feasible to their historic presence. However, the rest of the Newtown shopping centre is identified as a Historic Area (Part 4, Schedule 3, Heritage Areas, DP reference #33, Newtown Shopping Centre)	Retain SCHED3 - Heritage Areas, with amendment. [Inferred decision requested]
Anna Kemble Welch	434.13	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that the Newtown Shopping Centre includes a small number of Historic Buildings of significance that should be retained as closely as feasible to their historic presence. However, the rest of the Newtown shopping centre is identified as a Historic Area (Part 4, Schedule 3, Heritage Areas, DP reference #33, Newtown Shopping Centre)	Amend SCHED3 - Heritage Areas to remove buildings of less heritage significance in the Newtown Shopping Centre (Item 33). [Inferred decision requested]
Historic Places Wellington Inc	FS111.62	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Oppose	HPW supports the retention of the Newtown heritage shopping area, since it allows for 21/22m height limits for sites to the rear of the shop frontages. The interface between this proposal and that of The Urban Activation Lab needs resolution. [Interred reference to submission 434.13]	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
David Lee	454.8	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Supports the Elizabeth St Heritage Area (DP Ref 43) in Schedule 3 - Heritage Areas.	Retain DP Ref 43 in Schedule 3 - Heritage Areas as notified.
Wellington's Character Charitable Trust	FS82.205	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
David Lee	454.9	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	considers that Tutchen Avenue should be included in the Porritt Avenue Heritage Area (DP Ref 43) in Schedule 3 - Heritage Areas. It is a strange anomaly that this charming little cul-de-sac, bearing the name of the original dairy farm there, has been left out.	Add Tutchen Avenue to the Porritt Avenue Heritage Area (DP Ref 43) in Schedule 3 - Heritage Areas.
Wellington's Character Charitable Trust	FS82.206	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
David Lee	454.10	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	Supports all Heritage Areas in the PDP.	Retain SCHED3 - Heritage Areas as notified.
Christina Mackay	478.16	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support in part	Submitter supports the proposed heritage area designations in Mt Victoria and Thorndon	Retain Heritage areas in Thorndon and Mount Victoria with amendment.
Christina Mackay	478.17	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that Heritage Areas in Thorndon should be amended to include the 'thorndon areas' in the operative district plan.	Amend SCHED3- Heritage areas to include the 'Thordon Areas' of the operative district plan.
The Thorndon Society Inc	487.6	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that Item 46 (Ascot Street) should be extended to include the adjoining areas of Upton Terrace and St Mary Streets as they are of similar age and design to those in the heritage area.	Amend Item 46 (Ascot Street) in SCHED3 - Heritage Areas to include the adjoining areas of Upton Terrace and St Mary Streets.
Historic Places Wellington Inc	FS111.45	Part 4 / Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Support	HPW supports the addition of those identified heritage areas.	Allow
David Wu	489.1	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that the PDP allows height limits twice as high (21m vs 11m) in Tutchen Avenue as the immediate street around it (such as Porritt Avenue) and should be added to the Porritt Avenue Heritage Area.	Amend Item 45 (Porritt Avenue Heritage area) in SCHED3 - Heritage Areas to include Tutchen Avenue.
Helen Heffernan	491.1	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that in SCHED3 - Heritage Areas, as Item 46 (Ascot Street) and Item 35 (Thorndon Shopping Centre) are adjacent, these should be combined.	Amend SCHED3 - Heritage Areas by combining the area of Item 46 (Ascot Street) with Item 35 (Thorndon Shopping Centre) to create a combined Heritage Area named the "Thorndon Heritage Area".
Helen Heffernan	491.2	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Considers that in SCHED3 - Heritage Areas, as Item 46 (Ascot Street) and Item 35 (Thorndon Shopping Centre) are adjacent, these should be combined.	Amend SCHED3 - Heritage Areas by combining the area of Item 46 (Ascot Street) with Item 35 (Thorndon Shopping Centre) to create a combined Heritage Area named the "Thorndon Heritage Area".
Helen Heffernan	491.3	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	Opposes the name of Item 46 "Ascot Street Heritage Area" in SCHED3 - Heritage Areas as there are several other streets included in this area.	If Item 46 (Ascot Street) and Item 35 (Thorndon Shopping Centre) are not combined as suggested by this submission; Amend the name of Item 46 in SCHED3 - Heritage Areas to the "Thorndon Heritage Area" or "Thorndon Residential Heritage Area".
Helen Heffernan	491.4	Schedules Subpart / Schedules / SCHED3 – Heritage Areas	Amend	[No specific reason given beyond decision requested - refer to original submission].	If Item 46 (Ascot Street) and Item 35 (Thorndon Shopping Centre) are not combined as suggested by this submission; Amend the name of Item 35 in SCHED3 - Heritage Areas to the "Tinakori Road Village Heritage Area".

Eldin Family Trust	287.9	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Support in part	<p>Supports retention of viewshaft VS1 (The Beehive) with amendment.</p> <p>Considers The Beehive in particular is an internationally recognisable symbol of New Zealand. The outlooks towards the Beehive from the corners of Bunny/Featherston Streets and Whitmore/Featherston Streets are significant contributors to Wellington's sense of place and identity.</p>	Retain viewshaft VS1 (The Beehive) with minor amendments to the descriptions of the viewshaft.
Thorndon Residents' Association Inc	FS69.3	Part 4 / Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Support	<p>The concept of viewshafts is important for anchoring people in place and identity.</p> <p>Te Ahumairangi Hill is the significant feature of Thorndon which flanks the western side of the suburb. This visual backdrop is particularly striking from residential properties situated on the eastern side of the urban motorway. It's part of the experience of being in historic Thorndon and connects the community (in spite of the chasm (motorway) that fractured the suburb in the 1960's).</p> <p>The Hill is part of the experience of being in residential Thorndon. The mood of the day in Thorndon can be marked by the mood of the weather on and around Te Ahumairangi Hill (wind, fog, etc).</p>	Allow / Seeks that the concept of viewshafts to Te Ahumairangi Hill also be considered from both the Hobson Street and Portland residential areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Eldin Family Trust	287.10	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Amend	Considers that amendments should be made to the Descriptions of VS1 to place greater recognition on the international significance of the Beehive as well as the contributing role of the Te Ahumairangi Hill (Tinakori Hill) backdrop.	Amend the description of Viewshaft VS1 (The Beehive) as follows: “A view of the Beehive <u>against the backdrop of Te Ahumairangi Hill</u> from a major thoroughfare for commuters. This is one of two significant viewshafts (the other being VS4) which, when combined, promote the image of Wellington as a capital city in views from key points within the northern end of the City Centre Zone. The Beehive and Parliament Buildings are two of the emblems of New Zealand’s capital and key landmarks in the Wellington townscape. <u>They are internationally recognised symbols of New Zealand</u> . VS1, located on a major pedestrian route for commuters leaving the Wellington Rail Station, enhances wayfinding and contributes to Wellington’s sense of place. <u>The backdrop of Te Ahumairangi Hill adds striking contrast and visual interest.</u> ”
Thorndon Residents' Association Inc	FS69.4	Part 4 / Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Support	The concept of viewshafts is important for anchoring people in place and identity. Te Ahumairangi Hill is the significant feature of Thorndon which flanks the western side of the suburb. This visual backdrop is particularly striking from residential properties situated on the eastern side of the urban motorway. It’s part of the experience of being in historic Thorndon and connects the community (in spite of the chasm (motorway) that fractured the suburb in the 1960’s). The Hill is part of the experience of being in residential Thorndon. The mood of the day in Thorndon can be marked by the mood of the weather on and around Te Ahumairangi Hill (wind, fog, etc).	Allow / Seeks that the concept of viewshafts to Te Ahumairangi Hill also be considered from both the Hobson Street and Portland residential areas.
Eldin Family Trust	287.11	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Support in part	Supports the retention of Viewshaft VS4 (The Beehive and The Cenotaph – Whitmore Street) with amendment. Considers The Beehive in particular is an internationally recognisable symbol of New Zealand. The outlooks towards the Beehive from the corners of Bunny/Featherston Streets and Whitmore/Featherston Streets are significant contributors to Wellington’s sense of place and identity.	Retain Viewshaft VS4 (The Beehive and The Cenotaph – Whitmore Street) with minor amendments to the descriptions of the viewshaft
Thorndon Residents' Association Inc	FS69.5	Part 4 / Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Support	The concept of viewshafts is important for anchoring people in place and identity. Te Ahumairangi Hill is the significant feature of Thorndon which flanks the western side of the suburb. This visual backdrop is particularly striking from residential properties situated on the eastern side of the urban motorway. It’s part of the experience of being in historic Thorndon and connects the community (in spite of the chasm (motorway) that fractured the suburb in the 1960’s). The Hill is part of the experience of being in residential Thorndon. The mood of the day in Thorndon can be marked by the mood of the weather on and around Te Ahumairangi Hill (wind, fog, etc).	Allow / Seeks that the concept of viewshafts to Te Ahumairangi Hill also be considered from both the Hobson Street and Portland residential areas.
Eldin Family Trust	287.12	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Amend	Considers that amendments should be made to the Descriptions of VS4 to place greater recognition on the international significance of the Beehive as well as the contributing role of the Te Ahumairangi Hill (Tinakori Hill) backdrop.	Amend the description of Viewshaft VS4 (The Beehive and The Cenotaph – Whitmore Street) as follows: “VS4 is one of two viewshafts (the other being VS1) focused on the Beehive from the south and east as set against the backdrop of Te Ahumairangi Hill. Along with the Beehive this viewshaft includes the Cenotaph as an additional focal element. Both of these viewshafts are individually and collectively significant and promote the image of Wellington as NZ’s ‘seat of government’ and capital city in views from key points. Additionally, as the Beehive and Cenotaph are important physical reminders of Wellington’s rich history the views to and from them, as provided by VS4, contribute to the city’s sense of place. <u>The Beehive is an internationally recognised symbol of New Zealand. The backdrop of Te Ahumairangi Hill adds striking contrast and visual interest.</u> ”

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Eldin Family Trust	287.13	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Amend	<p>Considers that Viewshaft VS3 from the Operative District Plan should be added to SCHED5-viewshafts.</p> <p>The viewshaft is from further back and captures some of the Old Government Buildings that now house the Victoria University Law Faculty. The Old Government Buildings are historically significant, and the outlook of them in contrast with the Beehive is a symbolic link between the past and present homes of New Zealand’s Government.</p> <p>Considers that the Waterloo/Bunny viewshaft captures more of the Tinakori Hill/Te Ahumairangi Hill backdrop. This striking green bush backdrop is visually significant.</p>	Add a viewshaft to SCHED5 from the corner of Bunny Street and Waterloo Quay as provided in the operative district plan.
Claire Bibby	329.6	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Amend	<p>Considers that the survey mark used for the construction of the Tawa tunnel has a view worthy of preservation as a viewshaft.</p> <p>[Refer to original submission for full reason, including appendices]</p>	Seeks that the view from the survey marker used for the centre line of the railway tunnel in Tawa be recognised as a viewshaft in SCHED5 - Schedule of Viewshafts. [Inferred decision requested].
Sarah Walker	367.3	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Oppose	<p>Opposes the removal of Viewshaft 21 from the Operative District Plan from SCHED5 -Schedule of Viewshafts in the Proposed District Plan.</p> <p>Considers that walking along the streets of Jessie street and seeing the Carillon is one of the things that makes Te Aro feel a part of the city's fabric.</p>	Seeks that Viewshaft 21 of the operative district plan be added to SCHED5 - Schedule of viewshafts
Sarah Walker	367.4	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Amend	<p>Opposes the removal of Viewshaft 21 from the Operative District Plan from SCHED5 -Schedule of Viewshafts in the Proposed District Plan.</p> <p>Considers that walking along the streets of Jessie street and seeing the Carillon is one of the things that makes Te Aro feel a part of the city's fabric.</p>	Seeks that Viewshaft 21 of the operative district plan be added to SCHED5 - Schedule of viewshafts
Argosy Property No. 1 Limited	383.130	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Oppose in part	A small part of 7 Waterloo Quay is subject to VS3: North Queens Wharf and Inner Town Belt – Whitmore Street.	Retain SCHED5 - Schedule of viewshafts VS3 as notified. OR Review the extent of VS3 so it does not extend onto 7 Waterloo Quay.
Argosy Property No. 1 Limited	383.131	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Oppose in part	A small part of 360 Lambton Quay is subject to VS9: Lambton Quay/Grey Street	Retain VS9 as notified OR Review the extent of VS9 so it does not extend onto 360 Lambton Quay.
Kāinga Ora Homes and Communities	391.769	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Amend	Considers that it is an option to create and identify a viewshaft managing significant public views to the monastery and the maunga (Mt Victoria) as an alternative to MRZ-PREC03.	Seeks to create and identify a viewshaft managing significant public views to the monastery and the maunga (Mt Victoria).
Thomas John Broadmore	417.3	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Amend	<p>Opposes the removal of Viewshaft 21 (in the Operative District Plan).</p> <p>Considers that purchasers of apartments in Il Casino did so on the assumption of the continued existence of a viewshaft.</p> <p>Construction of high rise apartments in the area covered by the viewshaft would deprive the apartments of afternoon sun and views.</p> <p>Considers that the best use of the viewshaft space is greenspace.</p> <p>[See original submission for full reason]</p>	Amend SCHED5 - Viewshafts to add Viewshaft 21 from the Operative District Plan (National War Memorial, out across the central city).
Il Casino Apartment Body Corporate	426.5	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Amend	<p>Considers many buildings have been built with the viewshaft in mind and designed accordingly.</p> <p>Considers tha the views to the memorial connects residents to the history of the city and promotes remembrance of those who gave their lives in the wars.</p>	Amend SCHED5 - Viewshafts to add Viewshaft 21 from the Operative District Plan (National War Memorial, out across the central city).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Harish Ravji	427.1	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Amend	Considers that many (multi-level) buildings in Te Aro have been designed and constructed around the View Shaft 21. Most multi-level buildings around Te Aro have been marketed and reference the view shaft, giving owners & residents a unique of the harbour and town belt. The viewshaft gives the City Centre a unique look and feel. This decision would also have a direct impact on owners property value.	Amend SCHED5 - Viewshafts to add Viewshaft 21 from the Operative District Plan (National War Memorial, out across the central city).
Juliet Broadmore	471.2	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Oppose in part	Oppose the removal of viewshaft VS21 (from the Operative District Plan) within the Prososed District Plan.	Opposes SCHED5- Schedule of Viewshafts as notified, with amendments.
Juliet Broadmore	471.3	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Amend	Considers that the Viewshaft (VS21) from Te Aro to the National War Memorial Carillon retained in this District Plan from the Operative District Plan.	Amend SCHED5 - Schedule of Viewshafts to include VS21 (Central Area Viewshaft) from the Operative District Plan.
Jonathan Markwick	490.30	Schedules Subpart / Schedules / SCHED5 – Schedule of Viewshafts	Not specified	Considers that six storey high density residential buildings should be allowed in all of Kelburn (with a viewshaft protection from the top of the cable car).	Seeks that a viewshaft protection is retained from the top of the cable car.
David Fisher	125.1	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Oppose	Opposes Notable Tree listing 21 at 127 Grafton Road, Roseneath. The Pinus radiata trees adjacent to this area pose a risk to pedestrians and reduces light to nearby properties. The tree is also no longer fit for listing due to its position on the road reserve bank, proximity to nearby houses and consequent ongoing management required.	Opposes Item 21 - SCHED6 (Notable Trees).
David Fisher	125.2	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Amend	Opposes Notable Tree listing 21 at 127 Grafton Road, Roseneath. The Pinus radiata trees adjacent to this area pose a risk to pedestrians and reduces light to nearby properties. The tree is also no longer fit for listing due to its position on the road reserve bank, proximity to nearby houses and consequent ongoing management required.	Amend SCHED6 (Notable Trees) to remove Item 21 (Radiata Pine at 127 Grafton Road, Roseneath).
Wellington City Council	266.202	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Seeks to amend SCHED 36 (Notable trees) to re-order the Schedule alphabetically by street name.
Royal Forest and Bird Protection Society	345.410	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Oppose in part	Opposes inclusion of monkey apple Syzygium smithii. This species is listed on MPI's Pest Plant Accord and is a listed Harmful Organism (called Acmena smithii) on Greater Wellington's Regional Pest Management Plan, a statutory document under the Biosecurity Act 1993. This is a serious weed and vector of myrtle rust and is within the definition of pest in the proposed District Plan. Delete lilly pilly/monkey apple reference 112 and 306 from SCHED6.	Delete the following references from SCHED6 (Schedule of Notable Trees): 112: 151 Abel Smith St, Te Aro, Lilly pilly/ monkey apple, Syzygium smithii, () 41.294749, 174.768768 306: 13 Myrtle Crescent, Mt Cook, Wellington, Lilly pilly/ monkey apple, Syzygium smithii, () 41.302522, 174.777944
Greater Wellington Regional Council	351.342	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Oppose	Considers Notable Tree classification for these trees inappropriate. These species are listed as Harmful Organisms in the Greater Wellington Regional Pest Management Plan 2019-2039. Legally protecting these trees permits ongoing seed source and hinders Greater Wellington's efforts to improve the biodiversity of the region.	Remove reference 112 from SCHED6 – Notable Trees.
Greater Wellington Regional Council	351.343	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Oppose	Considers Notable Tree classification for these trees inappropriate. These species are listed as Harmful Organisms in the Greater Wellington Regional Pest Management Plan 2019-2039. Legally protecting these trees permits ongoing seed source and hinders Greater Wellington's efforts to improve the biodiversity of the region.	Remove reference 261 from SCHED6 – Notable Trees.
Greater Wellington Regional Council	351.344	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Oppose	Considers Notable Tree classification for these trees inappropriate. These species are listed as Harmful Organisms in the Greater Wellington Regional Pest Management Plan 2019-2039. Legally protecting these trees permits ongoing seed source and hinders Greater Wellington's efforts to improve the biodiversity of the region.	Remove reference 306 from SCHED6 – Notable Trees.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Richard Herbert	360.11	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Amend	Considers that the suburb of Tawa is currently underrepresented in the list of Wellington Notable Trees and that SCHED6 should include specific trees from the suburb. In particular the Tawa Tree located in Redwood Bush behind approximately 2 St Held as Glade and featured on the cover of the book publication “Tawa the Tree, the Community and its Reserves” as it is possibly the largest Tawa tree in the Wellington area. Other trees that should be included are Kauri trees from the kauri plantation in Willobank Reserve (2 The Drive and 269 Main Road) and other trees recommended by Friends of Tawa Bush Reserves Inc. [Refer to original submission for full list of trees]	Add new Items to SCHED6 - Notable Trees from the Tawa suburb as follows: 1. A selection of significant Tawa trees located in Tawa – as representatives of the tree that gave the suburb its name. 2. A selection of Kauri trees in Wellington – as representatives of a significant NZ tree that may well become species survival plantations; including those at Willowbank Reserve, at 2 The Drive, Tawa, and at 269 Main Road, Tawa. 3. Other examples of substantive trees in Tawa which might be recommended by the Friends of Tawa Bush Reserves Inc. [Refer to original submission for full list of recommendations].
Josephine Brien / Tim Bollinger	365.7	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Not specified	Considers that one of the properties at 45-45 Palmer Street includes a recently listed 'Notable Tree', a copper birch in its back garden, which once again backs onto the Community Centre and Aro park area.	Not specified.
Argosy Property No. 1 Limited	383.132	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Oppose in part	Notes that the property at 7 Waterloo Quay is identified as being subject to notable trees 242, 243 and 244, which are Pohutukawa. These trees are all stated to have condition, amenity and notable values. It is not known why the trees are considered to have notable (historic / scientific) values. This needs to be considered, and if the identification of these values are correct.	Review the values applying to trees 242, 243 and 244, and remove the tree(s) from the schedule if the re-evaluation does not pass the test for scheduling.
Jonathan Anderson	397.1	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Amend	Considers that greater emphasis in the SCHED6 - Notable Trees listings should be given to another category of trees. These are the older individuals of indigenous species (i.e. grow naturally in Wellington City) that are slow growing and survive in low numbers, specifically kahikatea, matai, miro, rimu, and totara; plus nikau and northern rata. These species are of huge ecological significance. Considers that the current SCHED6 - Notable Trees is an ad hoc collection of trees proposed by individuals to WCC over the years. The proposed trees were evaluated under the STEM (Standard Tree Evaluation Method) method. The submitter generally supports the use of STEM to evaluate trees for scheduling, however notes that STEM tends to favour large, impressive trees that can be said to contribute to the character of a suburb. As a result, the proposed schedule is dominated by relatively fast growing (there are more of them because they grow faster) and large sized individuals such as pohutukawa and Norfolk Island pine. [Refer to original submission for full reason]	Seeks that the STEM criteria for evaluating Notable Trees is used to add indigenous trees to SCHED6 - Notable Trees. This may be possible through conscious use of the existing STEM criteria such or through the Council adding an addition criterion to give greater weighting to certain species of indigenous tree.
Jonathan Anderson	397.2	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Amend	Considers that in giving greater emphasis in SCHED6 - Notable Trees to a new category of indigenous species (i.e. grow naturally in Wellington City), the submitter has provided a list of individual trees for consideration to be added as listed trees under SCHED6 - Notable Trees. [Refer to original submission for Excel spreadsheet list of individual trees for evaluation].	Seeks that the list of indigenous trees in the submission's Excel spreadsheet are evaluated for inclusion as listed trees in SCHED6 - Notable Trees. [Refer to original submission for Excel spreadsheet list of individual trees for evaluation. Includes 37 Kahikatea, 11 Matai, 17 Miro, 75 Rimu, and 108 Totara trees].
Catharine Underwood	481.40	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Amend	Considers that the Pohutukawa on the corner of St Michaels Cres and Upland Road be noted as a protected tree.	Add an Item to SCHED6 - Schedule of Notable Tress for the pohutukawa tree on the corner of St Michaels Crescent and Upland Road.
Living Streets Aotearoa	482.66	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Support	Supports the provisions to protect notable trees. Considers that these are an important part of the quality of the public space and protect genetic resources.	Retain SCHED6 - Notable Trees as notified. [Inferred decision requested].
Craig Palmer	492.51	Schedules Subpart / Schedules / SCHED6 – Schedule of Notable Trees	Amend	Considers that SCHED6 - Notable Trees should be amended so that the Item List is aggregated into defined areas of the city and that the letter code values are set out on each page. This is to enable the public to readily access a definitive list for the neighbourhood where they live and other areas of interest.	Seeks that the Items List in SCHED6 - Notable Trees are aggregated into defined areas of the city and that the letter code values are set out on each page.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Barry Insull	32.8	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Amend	Item 157 in SCHED7 does not mention the cliff at Red Rocks is under Historic Reserve designation and should be amended.	Seeks that SCHED7 (Sites and Areas of Significance to Māori), Item 157 have a reference to the site's Historic Reserve designation.
Te Rūnanga o Toa Rangatira	FS138.1	Part 4 / Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Oppose	The submitter seeks for SCHED7 (sites and areas of significance to Māori) Item 157 has reference to the site's Historic Reserve designation. Te Rūnanga o Toa Rangatira oppose this part of the submission as this schedule is specifically for sites and areas of significance to Māori and Historic Reserves can be provided for in other parts of the plan.	Disallow
Heritage New Zealand Pouhere Taonga	70.75	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Support in part	Supports the significant sites and areas being included in SCHED7.	Retain SCHED7 (Sites and Areas of Significance to Māori) with amendments.
Heritage New Zealand Pouhere Taonga	70.76	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Support	Considers that it may be beneficial for plan users that the places entered in Schedule 7 are cross-referenced (where applicable) with recorded New Zealand Archaeological Association (NZAA) Sites and/or List numbers from the New Zealand Heritage List / Rārangī Kōrero. [Refer to original submission for full reasons]	Add an additional column to SCHED7 (Sites and Areas of Significance to Māori) headed <u>HNZPT List number and/or NZAA site record number</u> .
Te Rūnanga o Toa Rangatira	FS138.13	Part 4 / Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Support	The submitter seeks for an additional column to be added to SCHED7 (sites and areas of significance to Māori) to cross-reference sites that are recorded in the New Zealand Archaeological Association (NZAA) Sites and/or List numbers from the New Zealand Heritage List/ Rārangī Kōrero. Te Rūnanga o Toa Rangatira support this submission because this cross referencing can be found in schedules for sites and areas of significance in other plans. It is useful to see what sites are recorded under HNZPT or NZAA and which are not.	Allow
Heritage New Zealand Pouhere Taonga	70.77	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Amend	Considers that it may be beneficial for plan users that the places entered in Schedule 7 are cross-referenced (where applicable) with recorded New Zealand Archaeological Association (NZAA) Sites and/or List numbers from the New Zealand Heritage List / Rārangī Kōrero.	DP Reference 14 – Ōhau Kāinga 2 – <u>HNZPT List # 6143, NZAA reference R27/1</u>
Historic Places Wellington	182.56	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Support	Supports the existing sites and areas of significance to Māori and supports proposed additional sites and areas of significance to Māori.	Retain SCHED7 - (Sites and Areas of Significance to Māori) as notified. [Inferred decision requested]
Tyers Stream Group	221.80	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Support	Supports the Iwi's wish that Tyers Stream (Waitohi Steam) become a "Line of Significance" to Māori.	Retain item 168 (Waitohi Stream) in SCHED7 - Sites and Areas of Significance to Māori as notified.
Friends of the Bolton St Cemetery Inc	250.4	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Support	Supports the inclusion of Item 144 as a Site of Significance to Māori.	Retain Item 144 (Tutaenui Awa) in SCHED7 - Sites of Significance to Māori as notified.
Tapu-te-Ranga Trust	297.42	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Support in part	Supports site #76 being recognised as Category C in Schedule 7, but requests that this is expanded to reflect the submitter's current land holding and areas of importance.	Retain schedule 7 listing of site 76 (Tapu te Ranga Marae) categorisation of CAT C, with amendment.
Tapu-te-Ranga Trust	297.43	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Amend	Seeks the extension of the existing map extent for site #76 in the PDP, as it doesn't accurately reflect their existing land holding and aspirations for Marae redevelopment. Following the fire, whilst the existing Marae was burnt down, the Trust have aspirations and value associated with land as indicated in the map below, and would like to extend the site of significance extent to incorporate this land and include the existing area.	Seeks extent of site of significance to Māori be expanded for Site 76 (Tapu te Ranga Marae) of SCHED7 - Sites and Areas of Significance to Māori to reflect existing land holdings and future development.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Richard Murcott	322.30	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Amend	<p>Considers that Tiakiwai Stream's bed is not adequately recorded in the PDP. The stream flowed through a partially surveyed gully across the Thorndon Flat. Stilt foundations, retaining walls and the topography below the houses at 60 & 62 Hobson St are evidence that the houses were built on fill of a gully through which the Tiakiwai Stream flowed. Drainage plans from 1915 as well as the current drainage point on the eastern side of Hobson Street provide further evidence of the former location of the stream. Any qualifying matters that arise from knowing the feature's actual location should be identified.</p> <p>A publication is provided in the submission to show evidence of the stream's accurate location, as well as a map in attachments.</p> <p>[Refer to original submission for full reason, including attachments]</p>	<p>Seeks that the location of the historic Tiakiwai Stream, Item 60 (Tiakiwai) of SCHED8 - Sites and Areas of Significance to Maori is more correctly represented.</p> <p>[Inferred decision sought]</p>
Te Rūnanga o Toa Rangatira	FS138.23	Part 4 / Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Oppose	<p>The submitter considers that Tiakiwai Stream's bed is not adequately recorded in the PDP. They request for the Sites and Areas of Significance to Māori overlay to be amended to adequately represent the flow bed of the Tiakiwai Stream. They also seek for the significance of Tiakiwai Stream to mana whenua to be considered. They also seek that the chapter should consider any seismic and other vulnerabilities that will arise when building. They consider that the location of the stream, item 60 of SCHED7 (Sites and Areas of Significance to Māori) is more correctly represented. Te Rūnanga o Toa Rangatira oppose this submission as this site is adequately recorded in the PDP, and its significance to mana whenua is considered as it is recorded in the Sites and Areas of Significance to Māori schedule.</p>	Disallow
Josephine Brien / Tim Bollinger	365.8	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Support	<p>Considers that the Waimapihi stream flowing through/beneath properties on Aro Street may be of environmental and cultural significance to the area.</p>	<p>Retain Item 147 (Waimapihi) in SCHED7 (Sites and Areas of Significance to Māori).</p> <p>[Inferred decision requested]</p>
Southern Cross Healthcare Limited	380.72	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Amend	<p>Considers that there are inconsistencies between Schedule 7 and the representation of sites in the District Plan map.</p> <p>Southern Cross' site at 82-88 and 90 Hanson Street is subject to a site and area of significance to Māori. The map identifies that this is the Waitangi line DP ref 145, but DP ref 145 is Kumutoto Awa.</p>	<p>Amend schedule 7 (Sites and Areas of Significance to Māori) to match the District Plan Reference 145 with the map</p>
Investore Property Limited	405.144	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Support in part	<p>The Korokoro - Takapū Ara is identified as a category B Site and Area of Significance to Māori (SASM). This SASM has a very small encroachment into a built-up part of the submitter's Tawa site at 5 William Earp Place, before extending several kilometres to Korokoro. While the submitter generally supports the identification of this SASM, the submitter seeks clarification that this SASM is mapped at a level of detail, to provide sufficient certainty that it is intended to encroach into 5 William Earp Place.</p>	<p>Retain SCHED-7 (Sites and Areas of Significance to Maori) and seeks clarification.</p>
Investore Property Limited	405.145	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Amend	<p>The Korokoro - Takapū Ara is identified as a category B Site and Area of Significance to Māori (SASM). This SASM has a very small encroachment into a built-up part of the submitter's Tawa site at 5 William Earp Place, before extending several kilometres to Korokoro. While the submitter generally supports the identification of this SASM, the submitter seeks clarification that this SASM is mapped at a level of detail, to provide sufficient certainty that it is intended to encroach into 5 William Earp Place.</p>	<p>Seeks that the SASM extent identified in SCHED-7 (Sites and Areas of Significance to Maori) for Korokoro - Takapū Ara is clarified, provided in further detail with the identification on planning maps amended if necessary.</p>
Wellington Heritage Professionals	412.112	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Support	<p>Supports the acknowledgement of SASMs in the plan, acknowledging both their tangible and in-tangible significance to mana whenua.</p>	<p>Retain SCHED7 - Sites and Areas of Significance as notified.</p>
Wellington Heritage Professionals	412.113	Schedules Subpart / Schedules / SCHED7 – Sites and Areas of Significance to Māori	Support	<p>Supports the addition of new sites and areas of significance.</p>	<p>Retain SCHED7 - Sites and Areas of Significance as notified.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
David Edmonds	1.1	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Considers that the extent of the SNA overlay is incorrect and should be amended. The land covered by the SNA is in fact part of the built environment - the trees cover footpaths, driveways, garages and a cable car landing area. The remaining part of the SNA very small and consists of poor quality scrub and weeds. [Refer to original submission for full reason, including attachment].	Retain as notified with no Significant Natural Area overlay in residential areas.
David Edmonds	1.2	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that the extent of the SNA overlay is incorrect and should be amended. The land covered by the SNA is in fact part of the built environment - the trees cover footpaths, driveways, garages and a cable car landing area. The remaining part of the SNA very small and consists of poor quality scrub and weeds. [Refer to original submission for full reason, including attachment].	Remove Significant Natural Area overlay from the legal road outside 2 & 4 Governor Rd and 6 & 8 The Rigi, Northland (WC092)
Aaron Chester	6.1	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Considers that the Northern part SNA on 215 Takapu Road does not meet any of the 5 criteria used to assign SNA's. The area is manmade. The land has high human impact and has never had livestock excluded from it. There is no original or significant native flora in the area. [Refer to original submission for full details of current vegetation]. The SNA will prevent the construction of a planned disabled access to the house for elderly relatives and the intended planting of natives.	Seeks that 215 Takapu Road is retained as notified - with no Significant Natural Area.
Aaron Chester	6.2	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Considers that the Southern part SNA on 215 Takapu Road does not meet any of the 5 criteria used to assign SNA's. The area is manmade. The land has high human impact and has never had livestock excluded from it. There is no original or significant native flora in the area. The SNA will prevent the construction of a planned disabled access to the house for elderly relatives and the intended planting of natives.	Seeks that 215 Takapu Road is retained as notified - with no Significant Natural Area.
Peter Kelly	16.7	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Considers that it will not fragment the SNA area if the area at 170 Parkvale Road is not classified as a SNA. [Refer to original submission for SNA coordinates]. The cleared area is flat and suitable for residential purposes.	Seeks that 170 Parkvale Road is retained as notified - with no Significant Natural Area.
Barry Insull	32.9	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	WC144 (Wellington coastal cliffs scrub and shrubland) makes no mention of the Red Rocks Historic Reserve designation and should be amended.	Seeks that WC144 (South Wellington coastal cliffs scrub and shrubland) have a reference to the site's Historic Reserve designation.
Barry Insull	32.10	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Not specified	Considers that in WC144 (Wellington coastal cliffs scrub and shrubland), Sinclair Head could comprise two reserves depending on what defines the feature. [refer to original submission]	Not Specified.
Barry Insull	32.11	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	The Site Summary in WC144 (Wellington coastal cliffs scrub and shrubland) does not describe the purpose of specialist reserves in the area, namely Pariwhero / Red Rocks and Sinclair Head / Te Rimurapa Scientific Reserves and should be amended.	Seeks that WC144 (South Wellington coastal cliffs scrub and shrubland) have a reference to the purpose of specialist reserves.
Barry Insull	32.12	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	The Site Summary in WC122 does not list bird species similarly to WC144 and should be amended to match WC144.	Seeks that WC122 (Tongue Point coastal platform) make mention of bird species in the area to match WC144 (South Wellington coastal cliffs scrub and shrubland).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Barry Insull	32.13	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	The Site Summary in WC146 does not list bird species similarly to WC144 and should be amended to match WC144.	Seeks that WC146 (Karori Stream estuary) make mention of bird species in the area to match WC144 (South Wellington coastal cliffs scrub and shrubland).
Barry Insull	32.14	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports that credit is being given to the Wellington Cross Country Vehicle Club in WC144 in relation to their conservation input to protect and enhance the covenanted Kinnoull dunes. The club has been active in a number of like activities for many years.	Not specified.
Barry Insull	32.15	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that the Coastal Cliffs East of Karori Stream Estuary does not qualify as a historic habitat for Long Bay Beach Weevil.	Seeks that language in Site Summary of WC144 (South Wellington coastal cliffs scrub and shrubland) be amended to remove mention of "the only known North Island population of speargrass weevil (<i>Lyperobius huttonii</i>)". [Inferred decision requested]
Ian Law	101.8	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Opposes any attempts to reinstate Significant Natural Areas on private land.	Retain SCHED8 (Significant Natural Areas) as notified - with no SNA's on private land.
Janice Young	140.8	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	Opposes the reinstatement of Significant Natural Areas on private land.	Retain SCHED8 - Significant Natural Areas as notified (with no Significant Natural Areas on private land).
Sarah Packman and Simon Fern	150.1	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the removal of the SNA on 65A Holloway Road, Aro Valley. The submitter would like to have options available in the future to build or garden on this area.	Retain SCHED8 - Significant Natural Areas as notified (with no SNA on 65A Holloway Road).
David Stevens	151.18	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports no SNAs on private residential land as notified. Considers that most SNAs, which rightly need to be protected, are not on private residential land. Reinstating SNAs on private land would impinge on homeowners' rights to enjoy their property as they wish and would be a disincentive to further protection of native flora. Many parts of the proposed SNAs on private land are not significant native bush areas but just happen to show up green in aerial photographs.	Retain SCHED8 - Significant Natural Areas as notified (with no SNAs on private residential land).
David Stevens	151.19	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	Opposes reinstatement of SNAs on private residential land. Considers that most SNAs, which rightly need to be protected, are not on private residential land. Reinstating SNAs on private land would impinge on homeowners' rights to enjoy their property as they wish and would be a disincentive to further protection of native flora. Many parts of the proposed SNAs on private land are not significant native bush areas but just happen to show up green in aerial photographs.	Seeks that Significant Natural Areas are not included on residential land.
M&P Makara Family Trust	159.13	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that the area of SNA WC042 should be amended by removing a portion of gully land to the south of the stream running uphill (refer to submission for illustration). The gully in question can not justifiably be included as an SNA, and no ecological study that would suggest it should be has been provided. The gully has been partially fenced in recent years so it can regenerate and it has a pond or wetland area that was created when a residential and farm access road was constructed, but it is not of a standard that would warrant inclusion, largely consisting of manuka, mahoe and punga, as are many scrub areas in Makara that are not otherwise included as SNA's. The submission does not object to the majority area of land in this SNA being included. The s32 report on the previous submission concerning this location misrepresents the objection as being to the inclusion of all SNA areas on the property.	Amend the area covered by SNA WC042 (Scrub along Makara Stream tributary Quartz Hill No2) by removing a portion of gully land to the south of the stream running uphill. [Refer to submission for illustration of area].

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Thomas Brent Layton	164.7	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	<p>Considers that the WCC should abandon the SNA overlay and instead enter into negotiations. This will focus WCC and the community's mind on what value they place on conserving areas.</p> <p>Considers that If the council thinks that there is a net benefit to society from an SNA it should negotiate with the current owners over the imposition of controls and impose the costs of preservation on all ratepayers. If they don't think the community will bear the costs sought by the landowner, then, clearly, the community (which includes the landowner) will be better off if the land is not subject to an SNA.</p> <p>[Refer to original submission for full reasons].</p>	Remove the Significant Natural Area overlays from the Proposed District Plan.
Trelissick Park Group	168.27	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	<p>Considers that Heke Reserve (in Ngaio) should be included in SCHED8 - Significant Natural Areas.</p> <p>Considers that the degradation of the streams in the Kaiwharawhara catchment from stormwater and slips like the recent Wilton Park slump, causing downstream silting is a concern. Mitigation following increasingly frequent storm water events needs to be a priority to maintain the stream ecosystem.</p>	Amend SCHED8 - Significant Natural Areas to include Heke Reserve (in Ngaio).
Helen Grove	197.3	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support in part	<p>Supports the removal of SNAs on private property from urban land.</p> <p>[Refer to original submission for full reasons].</p>	<p>Retain SCHED8 - Significant Natural Areas, with respect to not having Significant Natural Areas on private residential land.</p> <p>[Inferred decision requested].</p>
Helen Grove	197.4	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	<p>Considers that SNAs should be removed from private rural land.</p>	Amend SCHED8 - Significant Natural Areas, to remove Significant Natural Areas from private rural land.
Boston Real Estate Limited	220.4	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	<p>Considers that the planning and Environment Committee deemed that the SNAs will apply to public and rural land. As this land is currently held in private ownership and zoned business and outer residential, the SNA cannot apply to this property.</p> <p>Relatedly considers that the area zoned Natural Open Space should be rezoned as medium density residential zone. As such the SNA should be removed from this part of the property.</p> <p>Considers that the information base for the Councils approach to SNAs is flawed and inaccurate.</p> <p>Considers that the site does not have significant ecological value.</p> <p>[Refer to original submission for full reason]</p>	Remove Significant Natural Area overlay from 62 Kaiwharawhara Road (WC079).
Tyers Stream Group	221.81	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	<p>Supports the classification of WC114 (Tyers Stream) as an SNA.</p> <p>Considers that the description of the SNA includes the significance of the Tyers Stream Reserve SNA for both land and instream flora and fauna.</p>	Retain the significant natural area WC114 (Tyers Stream) as notified.
Tyers Stream Group	221.82	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	<p>Considers that the neighbouring SNA's protect the increasingly important habitat and biodiversity of the Wellington area.</p> <p>The Reserve and those parts of the SNA on private land adjoining the reserve and stream, form an important part of the ecological corridor from Wellington Harbour to Khandallah Park, and beyond including Huntleigh Park, Otari/Wilton's Bush and Zealandia.</p> <p>The SNAs on private property also provide an ecological buffer and increase the area of continuous vegetation thereby increasing the biological carrying capacity of the area and its biodiversity potential.</p>	Amend SCHED8 - Significant Natural Areas to include significant natural areas on privately owned residentially zoned properties.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Steve West	FS110.2	Part 4 / Schedules Subpart / Schedules /SCHED8 – Significant Natural Areas	Oppose	<p>Notes that original submitter states that “SNAs on residential private property adjoining Tyers Stream should be reinstated as they protect increasingly important habitat and biodiversity of the Wellington area. Considers that this would then enable those residents and the community to be supported in efforts to enhance those values.” The original submitter also infers that without SNAs on private urban land, Wellington’s indigenous biodiversity would be worse.</p> <p>Opposes the reinstatement of SNAs on residential private property in the Proposed District Plan (including around Tyers Stream) for the following reasons:</p> <ul style="list-style-type: none"> - Indigenous biodiversity in Wellington has increased significantly over the last 20 years, without any need for SNAs. Rather voluntary conservation efforts have been hugely successful in Wellington City. - Considers that instead of supporting residents, creating SNAs on private urban land in the district plan will turn native bush into an expensive and unwanted burden for many private urban landowners, destroying landowner value and goodwill in the process. There is real risk that indigenous biodiversity gains achieved over the last two decades will diminish over time should SNAs be created on private urban land. 	Disallow
Russell Taylor	224.5	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	Opposes SNAs on private land	<p>Only apply SCHED8 - Significant Natural Areas to publicly owned land.</p> <p>[Inferred decision requested]</p>
Karepa Dell Developments	241.4	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	<p>Considers that the imposition of a Significant Natural Area over the property at 11 Makomako Road is an unreasonable means of meeting Council’s obligation to recognise and provide for significant areas under Section 6 of the RMA. Considers that reliance on the Wildlands report is not justified given the high-level nature of the report, and no on-site audits have occurred to ground truth the classification. Considers there is no evidence to show the listed plant types and birds are located on the site, and as no site-specific assessment has been completed, then the status quo (i.e. no SNA) should prevail. Considers the SNA is unreasonable as it follows property boundaries rather than physical realities, the SNA is located in an urban area, data discontinuities exist. Notes the Wildlands report states that the significance is likely, but further work to confirm this is required. Considers that other ecological analysis do not place the same importance on the area as the Wildlands report (cites Park and MWH NZ). Considers the Darroch valuation report to justify approach to SNAs, which is considered flawed due to redaction, adoption of social benefit approach, Darroch being property valuers and therefore not being within their area of expertise, reliance on overseas data, the report being out of date (2019), and the wide range of valuation outcomes. Considers the SNA removes property rights from owners and sends a signal that native bush is a liability in the future and will have the unintended effect of promoting the removal of bush prior to an SNA being imposed. Considers there are anomalies in the analysis e.g. the SNA covers a road and bridge, significant bush removal has been undertaken in some areas including earthworks and retaining walls, the SNA covers sewer lines that will require bush clearance to maintain, it encompasses known areas of weeds and pests, and covers a stormwater detention pond that has likely resulted in some measure of contamination.</p>	Retain SCHED8 as notified - with no Significant Natural Area applying to 11 Makomako Road.
Dominic Hurley	260.3	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	<p>Considers that site owners will lose control and value of their land due to SNA’s.</p> <p>SNA’s on land will drive owners to remove the native bush to avoid SNA status, having the opposite effect.</p> <p>Incentives should be offered instead.</p>	Remove the Significant Natural Areas overlays from the PDP.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Horokiwi Quarries Ltd	271.93	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	<p>Opposes the extent of WC109 and seeks amendment to the boundary of SNA area WC109. [Refer to Figure 6 of the original submission for detail of the amended SNA boundary sought].</p> <p>Considers that the removal of these areas from the wider SNA would not remove any value special to this area or diminish in a meaningful way the size or viability of the WC109 SNA, or faunal resource. It also does not change or affect buffering or connectivity.</p>	<p>Amend extent of WC109 (Coast escarpment broadleaved forest, Hutt Road between Ngauranga and Horokiwi) in SCHED8 – Significant Natural Areas.</p> <p>[Refer to original submission for attachments, including Figure 6 showing detail of the amended SNA boundary sought].</p>
Horokiwi Quarries Ltd	271.94	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	<p>Considers that there is a restrictive policy and rule framework that would apply to SNAs (and in particular where the sites are within a Coastal Environment overlay) and wishes to ensure any sites that are identified are in fact warranted as significant areas. Horokiwi does have concerns with particular areas on both its site and on the adjoining land to the west, in terms of whether the biodiversity values merit the specific areas being identified as SNAs. Based on the independent ecological assessment, Horokiwi seeks amendment to the SNA area identified. [Refer to original submission for full reason, including attachments]</p>	<p>Seeks that the Significant Natural Area overlay be amended as it relates to the Horokiwi quarry site including to remove the SNA from the Horokiwi site which is subject to the existing use certificate reference 1048648.</p> <p>[Refer to original submission, including figure and attachments]</p>
Onslow Residents Community Association	283.15	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	<p>Considers that significant Natural Areas on residential land can risk property owners removing the native bush to avoid status as an SNA.</p> <p>There are very few SNA's on residential land and the amount protected does not outweigh the loss to property value and further loss to biodiversity.</p> <p>[Refer to original submission for full reason]</p>	<p>Retain SCHED8 - Significant Natural Areas as notified (with no Significant Natural Areas on private residential land).</p>
Jane Hurley	286.2	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	<p>Opposes significant natural area controls in residential areas and seeks that are not applied in residential areas as per the Council decision to notify the plan.</p> <p>Considers that SNAs:</p> <ul style="list-style-type: none"> - go against the principles of natural justice and are unconstitutional. - penalise people who have taken care of bush and incentivises clearing. -are a form of theft <p>[Refer to original submission for full reason]</p>	<p>Retain Proposed District Plan as notified with no Significant Natural Area overlay in residential areas.</p>
Tawa Community Board	294.19	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	<p>Considers that there are a number of currently zoned rural areas which under the Proposed District Plan will become residential type areas and the SNA protections will then not apply. These areas include the Upper Stebbings Valley Development area (including the area above Redwood Bush currently in private hands), and a number of large lot properties that were previously rural and are proposed to be designated as large lot residential zone, which includes those sections above the Peterhouse Street, Westhaven Drive and Westwood Road on the western hills of Tawa, and also Gladys Scott, Bing Lucas Drive and Woodburn Drive properties on the eastern hills of Tawa.</p> <p>The removal of the SNA designations on these properties puts at risk the removal of a large proportion of the green space landscape outlook that Tawa residents enjoy. It also risks being a pathway to allowing further intensive development on these sections. Such development would also place these steeper slope areas at risk to greater erosion effects, slippages (both from rain and seismic effects), and lead to even more flooding and sediment of the Porirua Stream and Porirua Harbour.</p>	<p>Seeks that residential properties that were zoned as Rural under the Operative District Plan but have been rezoned to a Residential Zone in the Proposed District Plan retain their Significant Natural Areas.</p>
Paul Blaschke	FS129.6	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	<p>Agrees this important rider for sites rezoned from Rural to Residential in the PDP. These particular sites not only have the important amenity and landscape and other values identified in the submission but have important ecological and connectivity values that are critical to retain within this expanding residential area.</p>	<p>Allow</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Te Marama Ltd	337.15	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that SNAs should not be on private property.	Amend SCHED8 - Significant Natural Areas to not include SNAs on private property. [Inferred decision requested].
Te Marama Ltd	337.16	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that Item WC054 (Makara Peak) should be removed from SCHED8 as it imposes an SNA on Te Marama property. WC054 states "Much of the site is WCC public land" and SNAs being imposed on public land is not opposed.	Amend SCHED8 - Significant Natural Areas to remove, Item WC054 (Makara Peak to not include 171 South Makara Road (Part Section 16 Makara DIST) and Lot 6 DP477282.
Yvonne Weeber	340.140	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	SCHED8 is generally supported.	Retain SCHED8 - Significant Natural Areas as notified
Paul Blaschke	FS129.14	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Support submission points made by a significant number of individuals and groups that essentially support the same proposition "Reinstate the overlay of all properly delineated SNAs or part SNAs on all relevant residential zoned properties".	Allow
Yvonne Weeber	340.141	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC144 - South Wellington coastal cliffs scrub and shrubland in SCHED8. Considers that these cliffs represent the most significant coastal habitat of Wellington City.	Retain WC144 - South Wellington coastal cliffs scrub and shrubland in SCHED8 - Significant Natural Areas.
Yvonne Weeber	340.142	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC147 - Owhiro Bay and shore platform in SCHED8.	Retain WC147 - Owhiro Bay and shore platform in SCHED8 - Significant Natural Areas.
Yvonne Weeber	340.143	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC148 - Island Bay foreshore including Sirens Rock and Island Bay dunes in SCHED8.	Retain WC148 - Island Bay foreshore including Sirens Rock and Island Bay dunes in SCHED8 - Significant Natural Areas.
Yvonne Weeber	340.144	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC149 - Houghton Bay foreshore including Elsdon Point, Princess rock stacks and Princess Bay dunes in SCHED8.	Retain WC149 - Houghton Bay foreshore including Elsdon Point, Princess rock stacks and Princess Bay dunes in SCHED8 - Significant Natural Areas.
Yvonne Weeber	340.145	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC150 - Te Raekaihau Point Princess Bay in SCHED8.	Retain WC150 - Te Raekaihau Point Princess Bay in SCHED8 - Significant Natural Areas.
Yvonne Weeber	340.146	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC151 - Waitaha Cove duneland in SCHED8.	Retain WC151 - Waitaha Cove duneland in SCHED8 - Significant Natural Areas.
Yvonne Weeber	340.147	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC152 - Dorrie Leslie Park rocky coast in SCHED8.	Retain WC152 - Dorrie Leslie Park rocky coast in SCHED8 - Significant Natural Areas.
Yvonne Weeber	340.148	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC153 - Strathmore coastal shrubland in SCHED8.	Retain WC153 - Strathmore coastal shrubland in SCHED8 - Significant Natural Areas.
Yvonne Weeber	340.149	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC154 - Moa Point coastal platform and shrubland in SCHED8.	Retain WC154 - Moa Point coastal platform and shrubland in SCHED8 - Significant Natural Areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Yvonne Weeber	340.150	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC155 - Palmer Head rocky coast and Tarakena Bay duneland in SCHED8.	Retain WC155 - Palmer Head rocky coast and Tarakena Bay duneland in SCHED8 - Significant Natural Areas.
Yvonne Weeber	340.151	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC156 - Breaker Bay coastal scrub and forest remnants in SCHED8.	Retain WC156 - Breaker Bay coastal scrub and forest remnants in SCHED8 - Significant Natural Areas.
Yvonne Weeber	340.152	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC157 - Point Dorset coastal shrubland and duneland in SCHED8.	Retain WC157 - Point Dorset coastal shrubland and duneland in SCHED8 - Significant Natural Areas.
Yvonne Weeber	340.153	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC174 - Taputeranga Island in SCHED8.	Retain WC174 - Taputeranga Island in SCHED8 - Significant Natural Areas.
Yvonne Weeber	340.154	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC153 - Moa Point gravel dunes in SCHED8. These gravel dunes have a mix of plants and animal species living in this area that will be protected through this inclusion.	Retain WC153 - Moa Point gravel dunes in SCHED8 - Significant Natural Areas.
Yvonne Weeber	340.155	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion of WC176 - Lyall Bay dunes in SCHED8. These dune system have substantially increased since past practices of sand removal and sculpturing have stopped and dune planting and management have increased. Both plants such as pingao and spinifex have enable the dune to be stable for a number of years. Ongoing restoration planting and management is required to increase the distribution of dune planting between Maranui Surf Club building and the children's playground by Onepu Road.	Retain WC176 - Lyall Bay dunes in SCHED8 - Significant Natural Areas.
Royal Forest and Bird Protection Society	345.411	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports this schedule.	Retain SCHED8 - Significant Natural Areas as notified.
Greater Wellington Regional Council	351.345	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	<p>Though Greater Wellington supports WCC's identification of SNAs in line with RPS Policy 23, we oppose the omission of SNAs on private residential land from the Proposed District Plan (PDP) because:</p> <ul style="list-style-type: none"> the removal of identified SNAs from the PDP contradictory to national direction for indigenous biodiversity protection. Section 6(c) of the RMA 1991 states that 'the protection of areas of significant indigenous vegetation and significant habitats of indigenous fauna' is a matter of national importance, and that this matter must be 'recognised and provided for' by all persons exercising functions and powers under the RMA, including local authorities under Sections 30 and 31. the removal of SNAs on private residential land from the PDP is contrary to Policy 24 of RPS. Policy 24 directs district councils to include in their district plans policies, rules and methods to protect the indigenous ecosystems and habitats identified in accordance with policy 23. Policy 24 requires district councils to protect all areas identified in accordance with policy 23 through provisions in their district plans. the removal of identified SNAs on private residential land from the PDP to be inconsistent with WCC's vision and aspirations for protecting and restoring the city's indigenous biodiversity. The Our Natural Capital: Wellington's Biodiversity Strategy and Action Plan 2015[1] states that WCC will protect biodiversity by 'focussing on the protection of priority biodiversity sites on public and private land and rare, threatened, or locally significant species', and that it will build natural capital by 'respect[ing] the importance of indigenous biodiversity to New Zealand and its intrinsic right to exist'. We do not consider the exclusion of SNA on private residential land to align with this direction. 	Seeks to apply SNAs to all zones as intended by section 6 of the RMA and Policy 24 of the RPS.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Steve West	FS110.13	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	<p>Do not agree that reinstatement of SNAs on residential private property in the PDP is required for WCC to meet its obligations under section 6(c) of the RMA and policies 23/24 of the Regional Policy Statement for the following reasons:</p> <ul style="list-style-type: none"> - Neither the RMA or RPS prescribe in detail how a council might give effect to the requirement to protect areas of significant indigenous vegetation and significant habitats of indigenous fauna. The 2015 Environment Court case between Forrest & Bird and New Plymouth District Council the Environment Court concluded Councils might conceivably meet RMA Section 6(c) duties through methods other than identification and rules, but in this case the non-regulatory methods relied on by the Council were insufficient to provide protection. - Indigenous biodiversity in Wellington (including on private urban land) has increased significantly over the last 20 years, including Zealandia and Predator Free, along with voluntary conservation efforts without any need for SNAs. - Creating SNAs on private urban land will turn native bush into an expensive and unwanted burden for many private urban landowners, destroying landowner goodwill and value in the process. Real risk that indigenous biodiversity gains achieved over the last two decades will diminish should SNAs be created on private urban land, and as a result would see both GWRC and WCC failing to meet their regulatory obligations, including under the RMA. - Specifically for Captain Edward Daniell Drive, indigenous biodiversity is already protected under Section 3 of the Land Covenant registered on the records of title. <p>Policies 23/24 are flawed, when applied to Wellington city, particularly the 'representativeness' criteria. To explain: Wellington is part of the MF6 ecosystem, described as a Kohekohe and Tawa forest with only 16% remaining. Also in this ecosystem are Kawakawa, Mahoe, Nikau, Supplejack. Wellington is a compact region of around 29,000 hectares, of which ~40% is urban, compared to the regional average of ~25%, yet there is no specific criteria provided for Wellington City to reflect its greater proportion of urban land. By using the GWRC criteria of 30% remaining for Wellington City, rather than a specific criteria, areas of native bush with any of the listed plants, including secondary trees like Mahoe will trigger representativeness criteria, despite none of these trees being listed as threatened species. Mahoe is commonly found across Wellington city, in the town belt, council reserves and on private urban land. As a result, urban land with few notable features other than some Mahoe, has become ensnared in the SNA assessments. [Refer to further submission for full reason]</p>	<p>Disallow / Seeks that part of submission be disallowed and that already protected land (such as Captain Edward Dainell Drive) be removed from Schedule 9, should residential SNAs be reinstated.</p> <p>Seeks that:</p> <ul style="list-style-type: none"> - WCC engages with GRWC to establish appropriate criteria in the RPS for Wellington City, so indigenous biodiversity that is actually significant is identified, rather than capturing vast areas with commonly found bush. - SNAs on private urban land remain excluded from the Proposed District Plan.
Greater Wellington Regional Council	351.346	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support in part	Supports WCC's identification and scheduling of SNAs in the PDP as per Policy 23 and 24 of the RPS.	Retain provision, subject to amendments, as outlined other submission points.
Greater Wellington Regional Council	351.347	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that based on Greater Wellington's analysis, several additional areas within WCC's jurisdiction meet one or more of the criteria in Policy 23.	<p>Seeks the inclusion of the following sites as SNAs in the PDP:</p> <ul style="list-style-type: none"> • areas of significant bird habitat in parts of Island Bay, Lyall Bay, Owhiro Bay, Tongue Point, Makara Estuary and Pipinui Point South; and • active and stabilised dunelands in Worser Bay (southern end), Seatoun Beach, Churchill Park, Island Bay (north area, playground, south end), Owhiro Bay (southeast end), Waiariki Stream and Makara Beach (east end).
Guardians of the Bays Inc	FS44.192	Part 4 / t Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Considers that it is known that Lyall Bay is a significant habitat for birds in particular the western end (non dog area) of Lyall Bay where redbill gulls and oyster catchers are daily visitors in good numbers.	Disallow
Meridian Energy Limited	FS101.185	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	Considers that it is not possible to determine whether the areas referred to should be included in SCHED8 without any detail in the submission of the geographical extent proposed to be defined.	Disallow / In the absence of specific detail, disallow the requested additions to SCHED8.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.348	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Seeks that several site summaries for SNAs incorrectly refer to a Greater Wellington 'Biodiversity Management Area'. The correct term is 'Key Native Ecosystem' site.	Seeks to amend site descriptions for SNAs so that 'Key Native Ecosystem sites' are referred to instead of 'Biodiversity Management Areas', e.g., "Parts of this site are included in a GWRC Biodiversity Management Area Key Native Ecosystem area".
Greater Wellington Regional Council	351.349	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Seeks that several site summaries for SNAs incorrectly refer to a Greater Wellington 'Biodiversity Management Area'. The correct term is 'Key Native Ecosystem' site.	Seeks for WCC to consider capturing all areas identified as, or overlapping with, Key Native Ecosystem (KNE) as SNAs in Appendix 8 (Quantitative wind study and qualitative wind assessment - modelling and reporting).
Greater Wellington Regional Council	351.350	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Seeks that several site summaries for SNAs incorrectly refer to a Greater Wellington 'Biodiversity Management Area'. The correct term is 'Key Native Ecosystem' site.	Seeks for SNA sites name should, where possible, align with the KNE site that they are within.
Richard Herbert	360.12	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support in part	Supports the provision of significant natural areas to protect the residual indigenous ecosystems and green areas in the context of the wellbeing of the wider population of the city build landscape, and the mitigation of climate change effects.	Retain SCHED8 - Significant Natural Areas with amendment.
Richard Herbert	360.13	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that SNAs should be reinstated on residential zones as originally proposed in earlier drafts of the Proposed District Plan, and prior to the Councillor Amendment to remove SNAs from Residential zones in June 2022. SNAs on Medium Residential Zones and Large Lot Residential Zones are supported. [Refer to original submission for full reason]	Reinstate Significant Natural Areas in Medium Density Residential Zones and Large Lot Residential Zones.
Paul Blaschke	FS129.9	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Support submission points made by a significant number of individuals and groups that essentially support the same proposition "Reinstate the overlay of all properly delineated SNAs or part SNAs on all relevant residential zoned properties".	Allow
Te Kamaru Station Ltd Ratings	362.20	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that SNAs should not be on private property.	Amend SCHED8 - Significant Natural Areas to remove Significant Natural Areas on private property in both urban and rural environments. [Inferred decision requested].
Te Kamaru Station Ltd Ratings	362.21	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that Item WC037 (Side gully off Shepherds Gully, Terawhiti Station) should be removed from SCHED8 as it is arbitrarily imposed. The imposition of SNAs will put at risk the voluntary and co-operative conservation programme Te Kamaru Station has made with Capital Kiwi. The programme works to ensure the rural landscape is fit for the return of kiwi. Negative impacts from this SNA may lead Te Kamaru Station to withdraw from the programme, should the legislative risk remain or worsen.	Delete Item WC037 (Side gully off Shepherds Gully, Terawhiti Station) from SCHED8 - Significant Natural Areas.
Te Kamaru Station Ltd Ratings	362.22	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that Item WC042 (Scrub along Makara Stream tributary Quartz Hill No2) should be removed from SCHED8 as it is arbitrarily imposed. The imposition of SNAs will put at risk the voluntary and co-operative conservation programme Te Kamaru Station has made with Capital Kiwi. The programme works to ensure the rural landscape is fit for the return of kiwi. Negative impacts from this SNA may lead Te Kamaru Station to withdraw from the programme, should the legislative risk remain or worsen.	Delete Item WC042 (Scrub along Makara Stream tributary Quartz Hill No2) from SCHED8 - Significant Natural Areas.
Te Kamaru Station Ltd Ratings	362.23	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that Item WC047 (Terawhiti Station shrubland) should be removed from SCHED8 as it is arbitrarily imposed. The imposition of SNAs will put at risk the voluntary and co-operative conservation programme Te Kamaru Station has made with Capital Kiwi. The programme works to ensure the rural landscape is fit for the return of kiwi. Negative impacts from this SNA may lead Te Kamaru Station to withdraw from the programme, should the legislative risk remain or worsen.	Delete Item WC047 (Terawhiti Station shrubland) from SCHED8 - Significant Natural Areas.
Te Kamaru Station Ltd Ratings	362.24	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that Item WC049 (Terawhiti Farm Road forest remnants) should be removed from SCHED8 as it is arbitrarily imposed. The imposition of SNAs will put at risk the voluntary and co-operative conservation programme Te Kamaru Station has made with Capital Kiwi. The programme works to ensure the rural landscape is fit for the return of kiwi. Negative impacts from this SNA may lead Te Kamaru Station to withdraw from the programme, should the legislative risk remain or worsen.	Delete Item WC049 (Terawhiti Farm Road forest remnants) from SCHED8 - Significant Natural Areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Te Kamaru Station Ltd Ratings	362.25	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that Item WC050 (Oteranga Bay Road forest remnant) should be removed from SCHED8 as it is arbitrarily imposed. The imposition of SNAs will put at risk the voluntary and co-operative conservation programme Te Kamaru Station has made with Capital Kiwi. The programme works to ensure the rural landscape is fit for the return of kiwi. Negative impacts from this SNA may lead Te Kamaru Station to withdraw from the programme, should the legislative risk remain or worsen.	Delete Item WC050 (Oteranga Bay Road forest remnant) from SCHED8 - Significant Natural Areas.
Te Kamaru Station Ltd Ratings	362.26	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that Item WC119 (Nikau stand in side gully off Oteranga Strm, Terawhiti Strn.) should be removed from SCHED8 as it is arbitrarily imposed. The imposition of SNAs will put at risk the voluntary and co-operative conservation programme Te Kamaru Station has made with Capital Kiwi. The programme works to ensure the rural landscape is fit for the return of kiwi. Negative impacts from this SNA may lead Te Kamaru Station to withdraw from the programme, should the legislative risk remain or worsen.	Delete Item WC119 (Nikau stand in side gully off Oteranga Strm, Terawhiti Strn.) from SCHED8 - Significant Natural Areas.
Te Kamaru Station Ltd Ratings	362.27	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that Item WC120 (Nikau and broadleaf forest side gully of South Karori golf course) should be removed from SCHED8 as it is arbitrarily imposed. The imposition of SNAs will put at risk the voluntary and co-operative conservation programme Te Kamaru Station has made with Capital Kiwi. The programme works to ensure the rural landscape is fit for the return of kiwi. Negative impacts from this SNA may lead Te Kamaru Station to withdraw from the programme, should the legislative risk remain or worsen.	Delete Item WC120 (Nikau and broadleaf forest side gully of South Karori golf course) from SCHED8 - Significant Natural Areas.
Te Kamaru Station Ltd Ratings	362.28	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that Item WC121 (Tawa forest remnant Karori Golf Course, South Makara Road) should be removed from SCHED8 as it is arbitrarily imposed. The imposition of SNAs will put at risk the voluntary and co-operative conservation programme Te Kamaru Station has made with Capital Kiwi. The programme works to ensure the rural landscape is fit for the return of kiwi. Negative impacts from this SNA may lead Te Kamaru Station to withdraw from the programme, should the legislative risk remain or worsen.	Delete Item WC121 (Tawa forest remnant Karori Golf Course, South Makara Road) from SCHED8 - Significant Natural Areas.
WCC Environmental Reference Group	377.517	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support in part	Generally supportive but oppose the removal of residential SNAs.	Seeks to retain SCHED8 - Significant Natural Areas with amendments.
Paul Blaschke	FS129.12	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Support submission points made by a significant number of individuals and groups that essentially support the same proposition "Reinstate the overlay of all properly delineated SNAs or part SNAs on all relevant residential zoned properties".	Allow
WCC Environmental Reference Group	377.518	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that Schedule 8 should include all the SNAs identified in the draft district plan version provided to the Council's environment committee from officers. "Wellington, wild at heart" is what our unique capital city trades upon - and as the population grows and urban areas densify, preserving and enhancing significant natural areas will become increasingly important. Research shows that access to natural areas, and 'biophilic' environments are keys to human health and well-being and are a critical part of protecting biodiversity. On this matter, Wellington as a city is playing a critical role in providing refuge for formerly at risk native birds, e.g. kaka, and with efforts such as the Halo Project and Predator Free initiatives being undertaken by thousands of Wellingtonians, it is important our city's district plan provides legal and policy support to this. The failure to include SNA areas in residential zones means that the district plan is not in accordance with section 6 of the RMA, nor is it giving effect to relevant provisions of GWRC's regional policy statement and regional plan.	Amend SCHED8 - Significant Natural Areas to add all the SNA areas in the residential zones recommended by officers in the draft district plan version provided to the Council's environment and planning committee on June 23 2022.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Steve West	FS110.19	Part 4 / Schedules Subpart / Schedules /SCHED8 – Significant Natural Areas	Oppose	<p>The original submitter seeks that Schedule 9 of the draft district plan be reinstated (adding back SNAs on private residential land), citing this exclusion is contradictory to both section 6(c) of the RMA and Policies 23/24 of the Regional Policy Statement.</p> <p>Steve West does not agree that reinstatement of SNAs on residential private property in the Proposed District Plan is required for WCC to meet its obligations under section 6(c) of the RMA and policies 23/24 of the Regional Policy Statement for the following reasons:</p> <ul style="list-style-type: none"> - Neither the RMA or RPS prescribe in detail how a council might give effect to the requirement to protect of areas of significant indigenous vegetation and significant habitats of indigenous fauna. On note, in the 2015 Environment Court case between Forrest & Bird and New Plymouth District Council the Environment Court concluded Councils might conceivably meet RMA Section 6(c) duties through methods other than identification and rules, but in this case the non-regulatory methods relied on by the Council were insufficient to provide protection. - In any case, indigenous biodiversity in Wellington (including on private urban land) has increased significantly over the last 20 years, including through activities like Zealandia and Predator Free, along with voluntary conservation efforts without any need for SNAs. These activities have contributed significantly to the recovery of birds like the Kaka, and proves the current voluntary conservation efforts are working well. - Creating SNAs on private urban land in the district plan will turn native bush into an expensive and unwanted burden for many private urban landowners, destroying landowner value and goodwill in the process. So rather than providing legal protection for our flora and fauna, there is real risk that indigenous biodiversity gains achieved over the last two decades will diminish over time should SNAs be created on private urban land. <p>[Refer to further submission for full reason]</p>	Disallow / Seeks that SNAs on private urban land remain excluded from the Proposed District Plan.
Paul Blaschke	FS129.13	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Support submission points made by a significant number of individuals and groups that essentially support the same proposition "Reinstate the overlay of all properly delineated SNAs or part SNAs on all relevant residential zoned properties".	Allow
Director-General of Conservation	385.88	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the Council to identify, map and protect the 177 identified Significant Natural Areas under SCHED8, in line with section 6 of the RMA.	Supports Council's efforts to identify, map and protect the 177 identified Significant Natural Areas under SCHED8.
Director-General of Conservation	385.89	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose in part	Considers that there are likely to be significantly more wetland SNAs identified if the Policy 6 of the NPS-FM, Policy 23 of the RPS, and section 6(a) of the RMA were applied. The SNA report prepared for the Wellington City Proposed District Plan does not reference the NPS-FM. There are six SNAs that reference wetlands out of the notified 177 within the Plan.	Seeks that all wetlands within Wellington City's boundaries should be properly identified and protected in accordance with the NPS-FM 2020.
Greater Wellington Regional Council	FS84.13	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Greater Wellington consider that the Proposed District Plan needs to avoid, remedy or mitigate adverse effects of urban development on wetlands in order to give effect to the NPS-FM and have regard to Proposed RPS Change 1.	Allow / Supports the submission in part and seeks provisions that ensure urban development is located and designed in a way that protects wetlands in accordance with the NPS-FM and Proposed RPS change 1 FW 3.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.2	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Wetlands that meet the definition of SNA should be protected at the District level.	Allow
Wellington City Council Environmental Reference Group	FS112.29	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Agree with the Director-General of Conservation that the proposed district plan needs to better reflect Policy 6 of the NPS-FM; Policy 23 of the RPS; and seek to protect wetlands within Wellington City Council's boundaries.	Allow

Director-General of Conservation	385.90	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Considers that there are likely to be significantly more wetland SNAs identified if the Policy 6 of the NPS-FM, Policy 23 of the RPS, and section 6(a) of the RMA were applied. The SNA report prepared for the Wellington City Proposed District Plan does not reference the NPS-FM. There are six SNAs that reference wetlands out of the notified 177 within the Plan.	Seeks amendment within schedule 8. Requests that all wetlands within Wellington City's boundaries should be properly identified and protected in accordance with the NPS-FM 2020.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.3	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Wetlands that meet the definition of SNA should be protected at the District level.	Allow
Director-General of Conservation	385.91	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	Oppose Council decision on 23 June 2022 at the Planning and Environment Committee on significant natural areas applying to residential land. Considers actions to be contrary to section 6(c) of the RMA and Policies 23 & 24 of the RPS. The SNAs on private land were originally proposed to be included in SCHED9 as 'Urban Environment Allotments' in accordance with the requirements of section 76 of the RMA. The section 32 report for Ecosystems and Indigenous Biodiversity still refers to SCHED9 as 'Urban Environment Allotments', though in the Proposed District Plan, SCHED9 is instead listed as 'Indigenous Tree Sizes'. Considers that the removal of SNAs on private residential land will also be contrary to the exposure draft for the National Policy Statement for Indigenous Biodiversity. It is noted that this document has no legal effect, however, it is expected to come into effect in December 2022 during the further submissions and hearing process for the Proposed District Plan. It is considered effective and efficient to align the review of the Proposed District Plan provisions with the policy direction and requirements anticipated under the National Policy Statement on Indigenous Biodiversity.	Opposes significant natural areas not applying to residential land, seeks amendment.
Greater Wellington Regional Council	FS84.16	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Greater Wellington strongly support this submission and agree that excluding SNAs from residential land, particularly without any other protections, does not achieve Part 2 of the RMA or give effect to the Operative RPS.	Allow
Kāinga Ora – Homes and Communities	FS89.55	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	Further clarification is needed to understand the implications on land use opportunities of applying significant natural areas. Kāinga Ora supports the protection of the values of SNAs but seeks that these are mapped and identified in the District Plan.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Steve West	FS110.21	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	<p>Steve West does not agree that reinstatement of SNAs on residential private property in the Proposed District Plan is required for WCC to meet its obligations under section 6(c) of the RMA and policies 23/24 of the Regional Policy Statement for the following reasons:</p> <ul style="list-style-type: none"> - Section 5 of the RMA requires balancing of physical and natural resources, as well as enabling persons to provide for their social, economic and cultural well-being, and for their health and safety. By narrowly quoting section 6(c) the context of needing to balance outcomes has been lost. - Neither the RMA or RPS prescribe in detail how a council might give effect to the requirement to protection of areas of significant indigenous vegetation and significant habitats of indigenous fauna. On note, in the 2015 Environment Court case between Forrester & Bird and New Plymouth District Council the Environment Court concluded Councils might conceivably meet RMA Section 6(c) duties through methods other than identification and rules, but in this case the non-regulatory methods relied on by the Council were insufficient to provide protection. - Parts of policies 23/24 of the Regional Policy Statement are flawed for Wellington City, these matters are addressed in the further response to submission 351 above. - Indigenous biodiversity in Wellington (including on private urban land) has increased significantly over the last 20 years, including Zealandia and Predator Free, along with voluntary conservation efforts without any need for SNAs. - Creating SNAs on private urban land will turn native bush into an expensive and unwanted burden for many private urban landowners, destroying landowner value and goodwill in the process. Real risk that indigenous biodiversity gains over the last two decades will diminish over time should SNAs be created on private urban land. - Specifically for Captain Edward Daniell Drive, indigenous biodiversity is already protected under Section 3 of the Land Covenant registered on the records of title. <p>Steve West supports the requirement for WCC to correctly identify SNAs by undertaking ground truthing of the ecosystem to confirm the status and boundaries of the SNA. [Refer to further submission for full reason]</p>	<p>Disallow / Seeks that the submission be rejected in part and seeks that:</p> <ul style="list-style-type: none"> - When identifying (ground truthing) individual SNAs that WCC is required to provide accurate cadastral markings of the SNA boundary and set individual land policies and rules in conjunction with each landowner in a way that will limit landowner losses while providing the required indigenous biodiversity protection. - SNAs on private urban land remain excluded from the Proposed District Plan. - Already protected land (such as Captain Edward Daniell Drive) be removed from Schedule 9, should residential SNAs be reinstated.
Paul Blaschke	FS129.7	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	<p>Support submission points made by a significant number of individuals and groups that essentially support the same proposition "Reinstate the overlay of all properly delineated SNAs or part SNAs on all relevant residential zoned properties".</p>	Allow
Director-General of Conservation	385.92	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	<p>Oppose Council decision on 23 June 2022 at the Planning and Environment Committee on significant natural areas applying to residential land.</p> <p>SNAs are considered a 'qualifying matter' under the National Policy Statement for Urban Development (NPS-UD), meaning that the intensification requirements of the NPS-UD should not apply in these areas. The new Medium and High Density Residential Zones of the Proposed District Plan include enabling standards to provide for intensification and increased housing opportunities in accordance with the requirements of the NPS-UD8, however SNAs have been removed from the private land in these zones.</p> <p>The submitter holds concerns that the NPS-UD rules will have legal effect or become operative, before the missing SNAs are incorporated into the District Plan which could lead to the inappropriate removal of significant indigenous vegetation and the loss of significant habitats of indigenous fauna. Even without the consideration of the NPS-UD rules, there is concern that inappropriate development will take place in residential areas that should be protected by the SNA status.</p>	Opposes significant natural areas not applying to residential land, seeks amendment.
Kāinga Ora – Homes and Communities	FS89.56	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	<p>Further clarification is needed to understand the implications on land use opportunities of applying significant natural areas.</p> <p>Kāinga Ora supports the protection of the values of SNAs but seeks that these are mapped and identified in the District Plan.</p>	Disallow

Wellington City Council Environmental Reference Group	FS112.30	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Agree with the Director-General of Conservation that there is a very real risk of inappropriate development in residential areas in new medium and high density zones (in accordance with the NPS-UD) by SNAs in residential areas not being included: this reflects that SNAs are a 'qualifying matter' under the NPS-UD.	Allow
Paul Blaschke	FS129.8	Part 4 / Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Support submission points made by a significant number of individuals and groups that essentially support the same proposition "Reinstate the overlay of all properly delineated SNAs or part SNAs on all relevant residential zoned properties".	Allow
Wellington International Airport Ltd	406.549	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	Opposes the mapped extent of the Lyall Bay and Moa Point Dunes. [See paragraphs 4.50 to 4.53 of original submission for full reason]	Delete item WC175 (Moa Point Gravel Dunes) from SCHED8 - Significant Natural Areas.
Guardians of the Bays Inc	FS44.188	Mapping / Rezone / Rezone	Oppose	Considers these are significant natural areas of Wellington City. The local community have undertaken significant coastal restoration of the sand dunes at Lyall Bay and predator control of both areas. The sand dunes on Lyall Bay are a significant barrier to sea level rise and coastal inundation for both the community and the airport. The Moa Point dunes also protect the road, coastal community and airport. Removal from any zone in this area should not occur.	Disallow
Wellington International Airport Ltd	406.550	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Oppose	Opposes the mapped extent of the Lyall Bay and Moa Point Dunes. [See paragraphs 4.50 to 4.53 of original submission for full reason]	Delete item WC176 (Lyall Bay Dunes) from SCHED8 - Significant Natural Areas.
Guardians of the Bays Inc	FS44.189	Mapping / Rezone / Rezone	Oppose	Considers these are significant natural areas of Wellington City. The local community have undertaken significant coastal restoration of the sand dunes at Lyall Bay and predator control of both areas. The sand dunes on Lyall Bay are a significant barrier to sea level rise and coastal inundation for both the community and the airport. The Moa Point dunes also protect the road, coastal community and airport. Removal from any zone in this area should not occur.	Disallow
Wellington International Airport Ltd	406.551	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	There are two SNAs identified in the vicinity of the Airport. These are WC175 and WC176. The analysis of the site acknowledges that the assessment was based on a desktop analysis and these sites require site visits. The submitter considers that the presence of the SNA in such close proximity to the runway poses a potential risk to aircraft due to some of the bird species that reside in this area. While WIAL has mechanisms in place to actively manage such threats to aircraft safety, WIAL considers it is more appropriate to avoid enhancing habitats that have the potential to create a risk to aircraft in close proximity to the Airport and instead encourage them to locate elsewhere within the coastal environment.	Requests that the following SNAs are deleted in their entirety from SCHED8: - The Moa Point Gravel Dunes (WC175); and - The Lyall Bay Gravel Dunes (WC176). The submitter notes that a site visit is needed for these sites if they are to be included in the SCHED8. (Option A).
Guardians of the Bays Inc	FS44.190	Mapping / Rezone / Rezone	Oppose	Considers these are significant natural areas of Wellington City. The local community have undertaken significant coastal restoration of the sand dunes at Lyall Bay and predator control of both areas. The sand dunes on Lyall Bay are a significant barrier to sea level rise and coastal inundation for both the community and the airport. The Moa Point dunes also protect the road, coastal community and airport. Removal from any zone in this area should not occur.	Disallow

Wellington International Airport Ltd	406.552	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	<p>There are two SNAs identified in the vicinity of the Airport. These are WC175 and WC176. The analysis of the site acknowledges that the assessment was based on a desktop analysis and these sites require site visits.</p> <p>The submitter considers that the presence of the SNA in such close proximity to the runway poses a potential risk to aircraft due to some of the bird species that reside in this area. While WIAL has mechanisms in place to actively manage such threats to aircraft safety, WIAL considers it is more appropriate to avoid enhancing habitats that have the potential to create a risk to aircraft in close proximity to the Airport and instead encourage them to locate elsewhere within the coastal environment.</p>	Should the SNAs remain in the plan, the submitter seeks that the relevant infrastructure provisions of the Proposed Plan provide a potential consenting pathway for the potential removal of vegetation within these SNAs where necessary to protect the safe operation and functioning of regionally significant infrastructure. (Option B).
Guardians of the Bays Inc	FS44.191	Mapping / Rezone / Rezone	Oppose	Considers that Significant Natural Areas should be in close vicinity of the airport. The airport in the 'vicinity' of the SNA's should not be a reason for their removal. Measures such as bird control should be the method of reducing bird strike rather than requiring the removal of a SNA.	Disallow
Cheryl Robilliard	409.8	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	[No specific reason given beyond decision requested - see original submission]	<p>Retain SCHED8 - Significant natural areas as notified.</p> <p>[Inferred decision requested]</p>
Terawhiti Farming Co Ltd (Terawhiti Station)	411.26	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	<p>Oppose SNAs on private property.</p> <p>Considers that sites have been incorrectly identified.</p> <p>Considers that a regulatory regime puts voluntary conservation programmes at risk.</p> <p>[See original submission for full reasons]</p>	<p>Seeks that SNA overlays WC030, WC031, WC033, WC172, WC121 are removed from the following title:</p> <p>Fee Simple, 1/1, Lot 4 Deposited Plan 375401 and Section 1-4, 8, 10-13, 13A, 14-16, 19-26, 26, 29-32, 51-52, 55-59, 94, 17, 17, 17, 98, 98, 98, 98 Terawhiti District and Part Section 9, 33, 50, 54, 60-64, 73, 75 Terawhiti District and Lot 3 Deposited Plan 5864 and Lot 3 Deposited Plan 5864 and Lot 3 Deposited Plan 5864 and Lot 3 Deposited Plan 5864 and Lot 3 Deposited Plan 5864 and Lot 3 Deposited Plan 5864 and Lot 3 Deposited Plan 5864, 26,748,701 m2</p>
Terawhiti Farming Co Ltd (Terawhiti Station)	411.27	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	<p>Oppose SNAs on private property.</p> <p>Considers that sites have been incorrectly identified.</p> <p>Considers that a regulatory regime puts voluntary conservation programmes at risk.</p> <p>[See original submission for full reasons]</p>	[Inferred decision requested] Seeks that significant natural areas do not apply to privately owned land.
Penny Griffith	418.6	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the removal of SNA's from residentially zoned land.	Retain SCHED8 - Significant Natural Areas as notified (With no Significant Natural Areas on residentially zoned land).
Johnsonville Community Association	429.43	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support in part	<p>Considers that unilaterally taking over of private property is a major intrusion on rights of the property owners, and may lead to removal of major natural areas on urban property.</p> <p>Opposes SNA's on private urban or rural land.</p>	<p>Retain SCHED8 - Significant Natural Areas, with respect to not having Significant Natural Areas on private urban property.</p> <p>[Inferred decision requested].</p>
Johnsonville Community Association	429.44	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	<p>Considers that unilaterally taking over of private property is a major intrusion on rights of the property owners, and may lead to removal of major natural areas on urban property.</p> <p>Opposes SNA's on private urban or rural land.</p>	Amend SCHED8 - Significant Natural Areas, to remove Significant Natural Areas from private rural land.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Paul M Blaschke	435.13	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	<p>Considers that the Council should allow SNAs on residentially zoned properties. The Council should be consistent with its overall policy objectives and let its original decisions on SNAs stand on their merits. The decision from Council's Planning & Environment Committee to remove SNAs from all residentially zoned properties on 23 June 2022 is opposed. This decision renders the Ecosystems and Indigenous Biodiversity section much less effective than it could and should be.</p> <p>It greatly hinders the achievement of Council's Te Atakura blueprint and other moves towards sustainability and resilience.</p> <p>It disadvantages the great majority of the city's residents except for a tiny number of suburban residential landowners who become privileged over all others including other suburban residential landowners with portions of SNAs within their properties and who have welcomed or not objected to the provisions.</p> <p>It overturns the very good process adopted by the council team and consultants who have planned and undertaken the SNA survey and policy development. Finally, it renders ECO-O1, ECO-P1, ECO-P2, and ECO-P3, and the rules supporting these objectives and policies, incapable of being properly implemented, and perpetuates the uncertainty caused by lack of a comprehensive statutory process around significant areas and indigenous biodiversity.</p> <p>[Refer to original submission for full reason]</p>	Seeks to extend Significant Natural Areas to residentially zoned properties.
Paul M Blaschke	435.14	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	SCHED8 is strongly supported for its general direction.	Retain SCHED8 -Significant Natural Areas as notified.
Guardians of the Bays	452.99	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion WC153 Strathmore coastal shrubland in Schedule 8 of the significant natural areas.	Retain WC153 Strathmore coastal shrubland in Schedule 8 of the significant natural areas as notified.
Guardians of the Bays	452.100	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion WC154 Moa Point coastal platform and shrubland in Schedule 8 of the significant natural areas.	Retain WC154 Moa Point coastal platform and shrubland in Schedule 8 of the significant natural areas as notified.
Guardians of the Bays	452.101	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion WC153 Moa Point gravel dunes in Schedule 8 of the significant natural areas.	Retain WC153 Moa Point gravel dunes in Schedule 8 of the significant natural areas as notified.
Guardians of the Bays	452.102	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Support	Supports the inclusion WC176 Lyall Bay dunes in Schedule 8 of the significant natural areas.	Retain WC176 Lyall Bay dunes in Schedule 8 of the significant natural areas as notified.
Grant and Marilyn Griffiths, Griffiths Family Trust	460.3	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	Opposes Significant Natural Areas on Private land.	Seeks to remove all Significant Natural Areas from Private Land.
Smith Geursen	475.2	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Not specified	Considers that it could be argued that an area of land should not have special environmental protections (SNA) based on aspirational outcomes (possible regeneration of certain species) unless it had been carefully assessed by an ecologist to confirm that it was desired native species that would likely become dominant (rather than invasive ones).	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Smith Geursen	475.3	Schedules Subpart / Schedules / SCHED8 – Significant Natural Areas	Amend	<p>Considers that parts of the area encompassed by WC135 in SCHED8 - Significant Natural Areas fit the description in WC135 and should be protected as a SNA.</p> <p>Considers that parts of the area encompassed by WC135 in SCHED8 - Significant Natural Areas appear to have not met the description in WC135 for decades and should not be protected as a part of the SNA.</p> <p>Considers that parts of the area encompassed by WC135 in SCHED8 - Significant Natural Areas appear to have not met the description in WC135 for decades and should not be protected as a part of the SNA.</p> <p>Considers that parts of the area encompassed by WC135 in SCHED8 - Significant Natural Areas appear to have not met the description in WC135 for decades and should not be protected as a part of the SNA.</p> <p>Considers that some parts of the site have been cleared recently, as a complying activity, and as such do not represent the habitat that would benefit from protection. These areas should be excluded from the SNA as the ecological value is now largely lost.</p> <p>[Refer to original submission for full detail, including diagrams].</p>	<p>Seeks that the extent of the area encompassed by WC135 (Carey Gully scrub and shrubland, South Coast) in SCHED8 - Significant Natural Areas is altered to:</p> <ul style="list-style-type: none"> - Encompass the 3m+ vegetation that is north and west of the loop shaped farm track; and - Also encompass the stand of 3m+ vegetation in the centre to the south of the site. <p>[The new boundaries suggested for WC135 (Carey Gully scrub and shrubland, South Coast) are approximated in Figure 8 in the submission]</p>

Royal Forest and Bird Protection Society	345.412	Schedules Subpart / Schedules / SCHED9 – Indigenous Tree Sizes	Oppose in part	<p>Seeks reinstatement of SCHED 9 – Urban Environment Allotments that was included in the draft plan as at 20 April 2022, so that all areas of significant biodiversity in residential areas are identified and listed appropriately in the plan, to meet the requirements of s6(c) and s76.</p>	<p>Reinstate SCHED9 - Urban Environment Allotments from the Draft District Plan.</p>
Kāinga Ora – Homes and Communities	FS89.159	Part 4 / Schedules Subpart / Schedules / SCHED9 – Indigenous Tree Sizes	Oppose	<p>Kāinga Ora opposes amendments as this may impact on residential intensification outcomes.</p>	<p>Disallow</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
VicLabour	414.61	Schedules Subpart / Schedules / SCHED9 – Indigenous Tree Sizes	Amend	<p>Considers Significant Natural Areas are important in order to protect our environment and native plantlife.</p> <p>Considers that while the city is built denser, the environment and our wildlife should be protected.</p> <p>Considers that it is ironic that the argument for being anti-density is to protect the ‘character’ of our housing but yet there is no consideration for the ‘character’ of our nature, which is arguably much harder to restore than the character amenity gained from what the Council deems as character housing.</p>	Seeks that significant natural areas provisions apply to residentially zoned sites.
Barry Insull	32.16	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Amend	<p>The title "Te Rimurapa Sinclair Head/Pipinui Point Pariwhero Red Rocks" is confusing and should be amended.</p> <p>The inclusion of Pipinui point adds an excess of 30 kilometres of coastline to the area.</p>	Amend the title of title of Te Rimurapa Sinclair Head/Pipinui Point Pariwhero Red Rocks. To remove Pipinui Point.
Barry Insull	32.17	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Amend	<p>Amend the title "Te Rimurapa Sinclair Head/Pipinui Point Pariwhero Red Rocks" as it is likely incorrect.</p> <p>Sinclair Head / Te Rimurapa is the official name.</p>	Amend the title of Te Rimurapa Sinclair Head to Sinclair Head / Te Rimurapa.
Barry Insull	32.18	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Amend	<p>Amend Site Summary in Te Rimurapa Sinclair Head/Pipinui Point Pariwhero Red Rocks to fix the typo in the first sentence.</p> <p>"Te Rimurapa" should be changed to Te Rimurapa.</p>	Amend language in the Site Summary of Te Rimurapa Sinclair Head/Pipinui Point Pariwhero Red Rocks to "Te Rimurapa" instead of "Te Rimurapa".
Barry Insull	32.19	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Amend	<p>The Site Summary for Te Rimurapa Sinclair Head/Pipinui Point Pariwhero Red Rocks does not make reference to the Historic Reserve in the area.</p>	Seeks that the Site Summary of Te Rimurapa Sinclair Head/Pipinui Point Pariwhero Red Rocks in SCHED10 (Outstanding Natural Features and Landscapes) be amended to mention the Historic Reserve in the area.
Barry Insull	32.20	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Amend	<p>Considers that there is only one seal colony in the Pariwhero / Red Rocks Sinclair Head / Te Rimurapa area. The term "colonies" in the site summary is incorrect.</p>	Amend language in site summary of Te Rimurapa Sinclair Head/Pipinui Point Pariwhero Red Rocks to "colony" instead of "colonies".
Barry Insull	32.21	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Amend	<p>Considers that the site summary for Taputeranga Island could provide a distorted picture of the species inhabiting the sites due to lack of wider information.</p> <p>The Marlborough "mini" gecko may have been seen near the two named points. The existing text fails to add balance by stating the species also inhabits other sites between Makara and Island Bay including Taputeranga Island.</p> <p>The officers' response failed to address the identification and distribution of the bird species. Banded dotterel (Conservation Status- declining) have been seen in this area and greater numbers can be found elsewhere on the coast. It is possible coastal trapping established as part of the Capital Kiwi programme will lessen the effects of predation on rare and threatened species.</p>	Seeks that the Site Summary of Taputeranga Island under SCHED10 (Outstanding Natural Features and Landscapes) be clarified to list threatened and rare species of birds and lizards that have been accurately identified in the area.
Barry Insull	32.22	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Amend	<p>Considers that the appropriate name for the water body between North Island and South Island, as determined by the New Zealand Geographic Board, is "Cook Strait". The name "Raukawa Coast Cook Strait" in SCHED10 should be amended to "Cook Strait Coast".</p>	Amend title of "Raukawa Coast Cook Strait" to "Cook Strait Coast" under SCHED10 (Outstanding Natural Features and Landscapes).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Te Rūnanga o Toa Rangatira	FS138.2	Part 4 / Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Oppose	The submitter seeks for the title of “Raukawa Coast Cook Strait” to be amended to “Cook Strait Coast” under SCHED10 (Outstanding Natural Features and Landscapes). Te Rūnanga o Toa Rangatira oppose this part of the submission because the name for the Cook Strait in Te Reo Māori is Raukawa Moana and we would like this name to be upheld and recognised throughout planning documents.	Disallow
Barry Insull	32.23	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Amend	Considers that the phrasing “Known as Wellington’s wild coast” in Raukawa Coast Cook Strait’s site summary is not adequate and should be amended.	Seeks that language in the Site Summary of Raukawa Coast Cook Strait’s be amended to remove “Known as Wellington’s wild coast”.
Meridian Energy Limited	228.123	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Oppose in part	Considers the text description is incomplete because it fails to acknowledge the visible presence of the existing turbines and other built structures in the West Wind and Mill Creek wind farms which are visible, along with this natural landscape, from long distances away (on land and at sea).	Retain SCHED10 - Raukawa Coast Cook Strait’ with amendment.
Meridian Energy Limited	228.124	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Amend	Considers the text description is incomplete because it fails to acknowledge the visible presence of the existing turbines and other built structures in the West Wind and Mill Creek wind farms which are visible, along with this natural landscape, from long distances away (on land and at sea).	Amend the description by inserting the following (or similar) text acknowledging the existing turbines and other built structures in the West Wind and Mill Creek wind farms which form part of the backdrop to the coastal escarpments: <u>“The backdrop to this natural landscape includes the wind turbines, roads and structures in the West Wind and Mill Creek wind farms, including turbines within the mapped coastal environment”</u> [Refer to original submission for map sought for inclusion].
Yvonne Weeber	340.156	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Support	Supports the inclusion of Hue tē Taka Peninsula/Rangitatau Palmer Head in SCHED10. It is an important environmental, landscape and cultural southern headland of Wellington City. It is supported that this outstanding natural feature is being recognised as high and very high natural features and sensory factors.	Retain Hue tē Taka Peninsula/Rangitatau Palmer Head in SCHED10 - Outstanding Natural Features and Landscapes.
Royal Forest and Bird Protection Society	345.413	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Support in part	Opposes the values as written. The identified values of ONFLs in the coastal environment are insufficient to give effect to Policy 15 of the NZCPS. Furthermore, the “Relevant values under Policy 25 of the RPS” as identified in SCHED10 are uncertain and do not provide the level of information required to determine whether the effects of an activity can be adequately avoided, remedied or mitigated. Seek inclusion of the values of each ONFL in SCHED10 to give effect to the RPS and NZCPS. “High” for example, is not a value.	Amend SCHED10 - Outstanding Natural Features and Landscapes to include values of each ONFL.
Meridian Energy Limited	FS101.186	Part 4 / Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Support	Meridian agrees that the descriptions of values in SCHED10 are not helpful in guiding the policy framework.	Not specified / Seeks that any amendments to the SCHED10 descriptions be made available to submitters for consideration before inclusion in the Plan.
Royal Forest and Bird Protection Society	345.414	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Support in part	Seek inclusion of Boom Rock/Pipinui Point Escarpment ONF and/or clarify in the planning maps whether Boom Rock/Pipinui Point Escarpment is instead contained within the Raukawa Coast Cook Strait ONL.	Amend SCHED10 - Outstanding Natural Features and Landscapes to include new ONF Boom Rock/Pipinui Point Escarpment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	FS101.187	Part 4 / Schedules Subpart /Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Oppose	Considers that in the absence of any detail about the geographic extent of the requested addition, it is not possible to evaluate whether it should be included in SCHED10.	Disallow / Seeks that request is disallowed, pending an opportunity to review and comment on the detail of the proposed additional item.
Director-General of Conservation	385.93	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Support	Supports the Council to identify, map and protect Outstanding Natural Features and Landscapes in line with Policy 25 of the RPS and Policies 13 & 15 of the NZCPS.	Retain schedule 10 (Outstanding Natural Features and Landscapes) as notified.
Terawhiti Farming Co Ltd (Terawhiti Station)	411.28	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Oppose	Opposes Terawhiti being listed as an Outstanding Natural Feature. Considers the provisions are overly restrictive	Delete Terawhiti from SCHED10 as an outstanding natural feature.
Terawhiti Farming Co Ltd (Terawhiti Station)	411.29	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Oppose	Opposes Raukawa Coast Cook Strait being listed as an Outstanding Natural Feature. Considers the provisions are overly restrictive	Delete Raukawa Coast Cook Strait from SCHED10 as an outstanding natural feature.
Guardians of the Bays	452.103	Schedules Subpart / Schedules / SCHED10 – Outstanding Natural Features and Landscapes	Support	Supports Hue tē Taka Peninsula/Rangitatau Palmer Head being recognised as an outstanding natural feature.	Retain Hue tē Taka Peninsula/Rangitatau Palmer Head on SCHED10- outstanding natural feature as notified.
John Tiley	142.30	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Amend	Considers that the lack of inclusion of the ridgelines and hilltops in the schedules and the title of NFL-P2 (Use and development within ridgeline and hilltops) demonstrates that ridgelines and hilltops are not protected to any significant degree. Considers that it is extraordinary that policies NFL-P3 to P7 set out how ONFL and SAL areas are subject to development, defying any reasonable expectation that such areas would be highly valued by the city and developments would be prohibited.	Seeks that the 18 ridgelines and hilltops (and Marshalls Ridge) are listed in either SCHED11 - Special Amenity Landscapes and/or SCHED12 - High Coastal Natural Character Areas.
Meridian Energy Limited	FS101.188	Part 4 / Schedules Subpart /Schedules / SCHED11 – Special Amenity Landscapes	Oppose	Considers that there is no basis supplied for including the 18 identified ridgelines and hilltops as 'specialamenity landscapes' in SCHED11.	Disallow
Thomas Brent Layton	164.8	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Oppose	Considers that the WCC should abandon the adoption of the Special Amenities Landscape as its application to all the "outer green belt" shows that its purpose is to constrain the urban development of the city. Considers that it is not about landscapes with special amenities as there is nothing special or unusual about the amenity the "outer green belt" provides. The landscape of flattish tops punctuated by streams in steep valleys is very common in the region; it is not special. Considers that the green belt idea stops the expansion of the city to areas where housing would be suitable and economic because of proximity to infrastructure. It tells those interested in capital gains from land holding within the urban boundary that they need not worry about much expansion in supply. [Refer to original submission for full reasons].	Remove the Special Amenities Landscape overlays from the Proposed District Plan. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Thomas Brent Layton	164.9	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Oppose	Opposes the application of the Special Amenities Landscape overlay to 183, 241, 249 and 287 South Karori Road.	Remove the Special Amenities Landscape overlay from 183, 241, 249 and 287 South Karori Road.
Churton Park Community Association	189.30	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Amend	Considers that the lack of inclusion of the ridgelines and hilltops in the schedules and the title of NFL-P2 (Use and development within ridgeline and hilltops) demonstrates that ridgelines and hilltops are not protected to any significant degree. Considers that it is extraordinary that policies NFL-P3 to P7 set out how ONFL and SAL areas are subject to development, defying any reasonable expectation that such areas would be highly valued by the city and developments would be prohibited.	Seeks that the 18 ridgelines and hilltops (and Marshalls Ridge) are listed in either SCHED11 - Special Amenity Landscapes and/or SCHED12 - High Coastal Natural Character Areas.
Meridian Energy Limited	FS101.189	Part 4 / Schedules Subpart /Schedules / SCHED11 – Special Amenity Landscapes	Oppose	Considers that there is no basis supplied for including the 18 identified ridgelines and hilltops as ‘specialamenity landscapes’ in SCHED11.	Disallow
Horokiwi Quarries Ltd	271.95	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Support in part	Considers that, in relation to objectives and policies in the Natural Features and Landscapes Chapter, while the values for particular sites are outlined in Schedule 11, the characteristics are not. Clarification on the characteristics would assist with plan interpretation and application.	Clarify what characteristics of special amenity landscapes are in the PDP, and in particular the Natural Features and Landscapes Chapter.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.73	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Amend	Considers that development within the MDRZ area of the Submitters land can contribute to the existing urban form, providing land resources that can facilitate quality development. However, the proposed SAL overlay which the MRZ area that the land is subject to will restrict the potential medium density development of the land. Similar to the proposed SNA mapping of the land, the SAL overlay should not include the proposed MRZ area of the Submitters land.	Amend Schedule 11 to remove special amenity landscape from submitter's land zoned Medium Density Residential Zone.
Andy Foster	FS86.63	Part 4 / Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Oppose	Considers that it is reasonable to uplift the Special Amenity Landscape over the residential part of the land. However Andy Foster suggests that the hearings panel find a way of ensuring that development is sympathetic to the landform and to the ecological values on the lower part of the land. [See original Further Submission for full reasoning]. [Inferred reference to submission 290.73]	Disallow
Kilmarston Developments Limited and Kilmarston Properties Limited	290.74	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Support	Supports that Mount Kaukau and the Outer Green Belt Special Amenity Landscape are Special Amenity Landscapes.	Retain Mount Kaukau as an Special Amenity Landscape in Schedule 11 as notified
Kilmarston Developments Limited and Kilmarston Properties Limited	290.75	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Support	Supports that Mount Kaukau and the Outer Green Belt Special Amenity Landscape are Special Amenity Landscapes.	Retain Outer Green Belt Special Amenity Landscape as an Special Amenity Landscape in Schedule 11 as notified
Kilmarston Developments Limited and Kilmarston Properties Limited	290.76	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Oppose in part	Considers that there is a conflict between these provisions and the SAL overlay provisions which make residential development on this land restrictive and adds uncertainty. Notes that NFL-R11 requires buildings and structures within the SAL overlay to be no more than 8m in height. The MRZ height restriction is 11m. The proposed MRZ over the Submitters land is appropriate to support the strategic direction of the PDP.	Seeks that submitter's land zoned Medium Density Residential Zone, be removed from Schedule 11.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Andy Foster	FS86.64	Part 4 / Schedules Subpart / Schedules /SCHED11 – Special Amenity Landscapes	Oppose	<p>Considers that it is reasonable to uplift the Special Amenity Landscape over the residential part of the land. However Andy Foster suggests that the hearings panel find a way of ensuring that development is sympathetic to the landform and to the ecological values on the lower part of the land.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 290.76]</p>	Disallow
Kilmarston Developments Limited and Kilmarston Properties Limited	290.77	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Amend	<p>Considers that the MDRZ area of the land should not be included in this SAL schedule 11.</p> <p>Considers the inclusion MDRZ land within the SAL overlay, it restricts the land from being efficiently utilized for medium density residential development. Furthermore, the zoning layout has principal support from GWRC both in terms of policy direction (i.e. Policy 27) and the consented layout.</p> <p>The landscape identified to be ‘distinctive and widely recognised by the community for the contribution to the amenity and quality of the environment’ is predominantly located within the balance land which includes Crows Nest and the Skyline Walkway Trailhead.</p>	Seeks that submitter’s land zoned Medium Density Residential Zone, be removed from Schedule 11.
Andy Foster	FS86.65	Part 4 / Schedules Subpart / Schedules /SCHED11 – Special Amenity Landscapes	Oppose	<p>Considers that it is reasonable to uplift the Special Amenity Landscape over the residential part of the land. However Andy Foster suggests that the hearings panel find a way of ensuring that development is sympathetic to the landform and to the ecological values on the lower part of the land.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 290.77]</p>	Disallow
Kilmarston Developments Limited and Kilmarston Properties Limited	290.78	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Amend	<p>Considers that the MDRZ area of the land should not be included in this SAL schedule 11.</p> <p>Considers that to fully realise the objectives and policies of the proposed zoning, the SAL overlay should be removed. This portion of the land has always been zoned for residential development, and this potential should be maintained as part of this planning process.</p>	Seeks that submitter’s land zoned Medium Density Residential Zone, be removed from Schedule 11.
Orienteering Wellington	FS32.2	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Support	<p>Submitter has restricted this submission to areas of relevance to Orienteering Wellington, and does not feel competent to reflect on some of the wider aspects of the plan and submission 290. It is their understanding that the submission includes a proposal to build medium density housing within the original submitters land interest, and retain a further block designated as an NOSZ. The area being proposed to be an NOSZ includes land that they have been provided access to for orienteering events by Kilmarston Developments. This area, which is adjacent to the Huntleigh Reserve has high value to our organisation in its natural state. It has potential to be a significant asset to the local community. Submitter notes the “Reasons” (section B, page 6 of the submission) text recognises the value of linkages in this area and a Willingness to enter dialogue over mechanisms to support both the NOSZ and residential uses of this land. They support this. Arrangements that allow for careful development, enhancement of linkages to other public land and tracks, and retention of the natural value of the reserve-adjacent land would benefit the community, and specifically ourselves as an orienteering club providing outdoor experiences to residents of the area. Submitter notes that the submission also includes a request to provide for installation of a water reservoir within the land identified as NOSZ. The specifics of the land designations that permit or hinder this are not within my competency. Considers that use of the proposed NOSZ area is unlikely to be unduly compromised by the presence of such a reservoir, and to note that with appropriate design, there may be access and linkage benefits from track infrastructure required for installation and maintenance of the reservoir. The reaching of agreement as described in “Reasons” section B (page 6 of submission) is far preferable to our organization that the alternative proposed in section C (bottom of page 6).</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Andy Foster	FS86.66	Part 4 / Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Oppose	Considers that it is reasonable to uplift the Special Amenity Landscape over the residential part of the land. However Andy Foster suggests that the hearings panel find a way of ensuring that development is sympathetic to the landform and to the ecological values on the lower part of the land. [See original Further Submission for full reasoning]. [Inferred reference to submission 290.78]	Disallow
Royal Forest and Bird Protection Society	345.415	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Support in part	Opposes the values as written. The identified values of SALs in the coastal environment are insufficient to give effect to the NZCPS. Furthermore, the “Relevant values under Policy 28 of the RPS” as identified in SCHED11 are uncertain and do not provide the level of information required to determine whether the effects of an activity can be adequately avoided, remedied or mitigated. Seek inclusion of the values of each SAL in SCHED11 to give effect to the RPS and NZCPS.	Amend SCHED11 - Special Amenity Landscapes to include values of each SAL.
Royal Forest and Bird Protection Society	345.416	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Support in part	Include Outer Green Belt Special Amenity Landscape in SCHED11 as identified using criteria set out in Policy 27 of the RPS, and those areas of SAL identified in accordance with the adopted amendment by the Planning and Environment Committee on 23 June 2022.	Amend SCHED11 - Special Amenity Landscapes to include new SAL Outer Green Belt Special Amenity Landscape.
Taranaki Whānui ki te Upoko o te Ika	389.140	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Amend	Considers that overlays to significantly restrict future development and opportunities for Taranaki Whānui to exercise tino rangatiratanga over our ancestral lands.	Seeks that SAL schedule be amended to reflect historical and current built development over the Wellington Prison site (Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035).
Buy Back the Bay	FS79.36	Part 4 / Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Oppose	Submission 389 states: “Taranaki Whānui’s RFR [Right of First Refusal] opportunities in Te Motu Kairangi: Taranaki Whānui have a significant interest in Te Motu Kairangi which includes Mount Crawford and Watts Peninsula, these landholdings hold significant interest - culturally, socially, environmentally and commercially to Taranaki Whānui. These opportunities include the Mount Crawford Prison site as well as the ‘Watts Peninsula’ sites being 75.85 hectares of former Defence Land.” Buy Back the Bays notes that the Submission does not include maps however they (Buy Back the Bays) are very concerned to see that Taranaki Whānui appears to be seeking possible commercial development of 75.85 hectares of former defence land on Watts Peninsula. This appears to be the heart of the long-promised Watts Peninsula park and a major part of the proposed national heritage park. Buy Back the Bays strongly oppose rezoning on Watts Peninsula to facilitate any development there that is incompatible with the park plans. More generally, Buy Back the Bays oppose Submission 389’s attempt to remove the proposed public interest controls from Watts Peninsula and Mount Crawford. Considers that where Submission 389 states “Illustrated on Figure One below, the following zone and overlays are proposed for Taranaki Whānui’s RFR properties in Te Motu Kairangi,” Buy Back the Bays oppose the changes it seeks. This includes opposing Submission 389’s request for “The proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST [to be] amended from Natural Open Space Zone to: a. Medium Density Residential; and b. Special Purpose Zone – Māori Purpose Zone.”	Disallow
Penny Griffith	418.7	Schedules Subpart / Schedules / SCHED11 – Special Amenity Landscapes	Support	Supports the inclusion of the Outer Green Belt as a Special Amenity Landscape.	Retain SCHED11 - Special Amenity Landscapes as notified (With the Outer Green Belt locations included).
Barry Insull	32.24	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Amend	The subtitle under SCHED12 (Sinclair Head / Te Rimurapa) is non-compliant with official dual English/Māori name legalised in 2008 and should be amended. The Te Reo name for Sinclair Head is "Te Rimurapa" and should be included in the subtitle.	Amend language in SCHED12 (High Coastal Natural Character Areas) to "Sinclair Head/ Te Rimurapa" instead of "Sinclair Head".

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Barry Insull	32.25	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Amend	Considers that the Coastal Cliffs East of Karori Stream Estuary does not qualify as a historic habitat for Long Bay Beach Weevil. [Refer to original submission for full reason]	Seeks that language in Key Values of Coastal Cliffs East of Karori Stream Estuary be amended to remove mention of "a historic habitat for Long Bay Beach Weevil". [Inferred decision requested]
John Tiley	142.31	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Amend	Considers that the lack of inclusion of the ridgelines and hilltops in the schedules and the title of NFL-P2 (Use and development within ridgeline and hilltops) demonstrates that ridgelines and hilltops are not protected to any significant degree. Considers that it is extraordinary that policies NFL-P3 to P7 set out how ONFL and SAL areas are subject to development, defying any reasonable expectation that such areas would be highly valued by the city and developments would be prohibited.	Seeks that the 18 ridgelines and hilltops (and Marshalls Ridge) are listed in either SCHED11 - Special Amenity Landscapes and/or SCHED12 - High Coastal Natural Character Areas.
Andy Foster	FS86.34	Part 4 / Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 142.31].	Allow
Meridian Energy Limited	FS101.190	Part 4 / Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Oppose	Considers that there is no basis supplied for including the 18 identified ridgelines and hilltops as 'high coastal natural coastal character areas' in SCHED12.	Disallow
Churton Park Community Association	189.31	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Amend	Considers that the lack of inclusion of the ridgelines and hilltops in the schedules and the title of NFL-P2 (Use and development within ridgeline and hilltops) demonstrates that ridgelines and hilltops are not protected to any significant degree. Considers that it is extraordinary that policies NFL-P3 to P7 set out how ONFL and SAL areas are subject to development, defying any reasonable expectation that such areas would be highly valued by the city and developments would be prohibited.	Seeks that the 18 ridgelines and hilltops (and Marshalls Ridge) are listed in either SCHED11 - Special Amenity Landscapes and/or SCHED12 - High Coastal Natural Character Areas.
Meridian Energy Limited	FS101.191	Part 4 / Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Oppose	Considers that there is no basis supplied for including the 18 identified ridgelines and hilltops as 'high coastal natural coastal character areas' in SCHED12.	Disallow
Yvonne Weeber	340.157	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Support	Supports the inclusion of the Lyall Bay connection between Te Raekaihau and Hue tē Taka Peninsula/ Mōa Point in SCHED12, as it is ranked as an important environmental, cultural and social connection, even with the disruption of the airport reclamation. Te importance of the southern coastline and the connections and the ranking of the high status of Hue tē Taka Peninsula / Mōa Point is supported.	Retain the Lyall Bay connection between Te Raekaihau and Hue tē Taka Peninsula/ Mōa Point in SCHED12 - High Coastal Natural Character Areas.
Royal Forest and Bird Protection Society	345.417	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Support in part	Considers the schedule does not give effect to Policy 13 of the NZCPS. The "Relevant values under Policy 13 of the NZCPS" as identified in SCHED12 are uncertain and do not provide the level of information required to determine whether the effects of an activity can be adequately avoided, remedied or mitigated. "High" and "Moderate" are not values.	Amend SCHED12 - High Coastal Natural Character Areas to give effect to policy 13 of the NZ Coastal Policy Statement.
Meridian Energy Limited	FS101.192	Part 4 / Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Oppose	Meridian agrees that the descriptions of values in SCHED12 are not helpful in guiding the policy framework. In the absence of any specific detail, it is not possible to comment further on the requested amendments.	Not specified / Seeks that any amendments to the SCHED12 descriptions be made available for consideration before inclusion in the Plan.
Royal Forest and Bird Protection Society	345.418	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Support in part	It is unclear what the relationship is between the sections "Relevant values under Policy 13 of the NZCPS" and "Key values" for each identified area. If these are connected, then it needs to be stated explicitly. Seek inclusion of the values of each High and Very High Coastal Natural Character Area in SCHED12 to give effect to Policy 13 of the NZCPS.	Clarify relationship in SCHED12 - High Coastal Natural Character Areas between "relevant values under policy 13 of the NZCPS" and the "key values" between each area.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	FS101.193	Part 4 / Schedules Subpart /Schedules / SCHED12 – High Coastal Natural Character Areas	Oppose	Meridian agrees that the descriptions of values in SCHED12 are not helpful in guiding the policy framework. In the absence of any specific detail, it is not possible to comment further on the requested amendments.	Not specified / Seeks that any amendments to the SCHED12 descriptions be made available for consideration before inclusion in the Plan.
Royal Forest and Bird Protection Society	345.419	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Support in part	Seek inclusion of the values of each High and Very High Coastal Natural Character Area in SCHED12 to give effect to Policy 13 of the NZCPS.	Amend SCHED12 - High Coastal Natural Character Areas to include the values of each High and Very High Coastal Natural Area.
Meridian Energy Limited	FS101.194	Part 4 / Schedules Subpart /Schedules / SCHED12 – High Coastal Natural Character Areas	Oppose	Meridian agrees that the descriptions of values in SCHED12 are not helpful in guiding the policy framework. In the absence of any specific detail, it is not possible to comment further on the requested amendments.	Not specified / Seeks that any amendments to the SCHED12 descriptions be made available for consideration before inclusion in the Plan.
Greater Wellington Regional Council	351.351	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Amend	Considers that the New Zealand Coastal Policy Statement (NZCPS) Policy 13(1)(a) requires that for areas of outstanding natural character, adverse effects are avoided. NZCPS Policy 13(1)(b) requires that for natural character in all other areas of the coastal environment, significant adverse effects are avoided, and all other adverse effects are avoided, remedied or mitigated.	Seeks to amend SCHED12 - High Coastal Natural Character to the area identified in the 2016 Boffa Miskell coastal natural character assessment.
Meridian Energy Limited	FS101.195	Part 4 / Schedules Subpart /Schedules / SCHED12 – High Coastal Natural Character Areas	Oppose	Meridian agrees that the descriptions of values in SCHED12 are not helpful in guiding the policy framework. In the absence of any specific detail, it is not possible to comment further on the requested amendments.	Not specified / Seeks that any amendments to the SCHED12 descriptions be made available for consideration before inclusion in the Plan.
Greater Wellington Regional Council	351.352	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Support in part	Supports the work undertaken to identify and schedule sites of high natural character in the PDP.	Retain SCHED12 (High Coastal Natural Character Areas), subject to amendments, as outlined other submission points.
Greater Wellington Regional Council	351.353	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Amend	Considers the primary function of mapping area scale natural character ratings (low – high) in the PDP is to ensure applicants do not have to undertake this work as part of applications for resource consent, to give effect to NZCPS Policy 13(1)(b). It would not be efficient or effective to require applicants for resource consent to undertake this step as part of a consent process, especially when the work has already been commissioned by WCC, presumably to be included in the PDP. Mapping the full range of natural character areas in the PDP also provides more certainty to applicants/developers on areas that are more suitable/less suitable for development based on an improved understanding of the natural character values present.	Seeks to schedule natural character ratings at all levels (low, moderate, high) at the wider area scale in Schedule 12, as undertaken in the 2016 Boffa Miskell natural character assessment.
Meridian Energy Limited	FS101.196	Part 4 / Schedules Subpart /Schedules / SCHED12 – High Coastal Natural Character Areas	Oppose	Meridian agrees that the descriptions of values in SCHED12 are not helpful in guiding the policy framework. In the absence of any specific detail, it is not possible to comment further on the requested amendments.	Not specified / Seeks that any amendments to the SCHED12 descriptions be made available for consideration before inclusion in the Plan.

General Points - Other

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.354	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Support in part	<p>The submitter is concerned that the wider area scale natural character assessment has not been scheduled in the PDP. Adverse effects on natural character cannot be managed at a site of high natural character (referred to in the 2016 Boffa Miskell natural character assessment as 'components') in isolation. They need to be considered in the broader context of the coastal environment, at the area scale in which the site of high natural character is located. This wider area-scale natural character rating should be at all natural character ratings levels (low-high) to provide the appropriate context to a site.</p> <p>A proposed activity in the site of high natural character needs to consider potential effects on both the specific site (what the PDP already contains in SCHED12) and the overall area scale rating, to give effect to NZCPS Policy 13(1)(b). This is because there also needs to be an assessment of whether there will be 'significant adverse effects' on natural character outside of the mapped sites of high natural character in the PDP. Undertaking this assessment would be best informed by an understanding of whether the broader area has been assessed as having low, moderate or high natural character. Conversely, for an activity not in a site of high natural character (as currently scheduled), the potential effects only need to be assessed on the overall area scale rating.</p>	<p>Seeks to amend the title of Schedule 12, so it refers to all coastal natural character areas, rather than areas of high natural character in isolation as follows:</p> <p>(SCHED 12 – High Coastal Natural Character Areas)</p>
Meridian Energy Limited	FS101.198	Part 4 / Schedules Subpart /Schedules / SCHED12 – High Coastal Natural Character Areas	Oppose	Considers that the objectives and policies that pertain to SCHED12 do not support deletion of 'high' from the title of the Schedule.	Disallow / Disallow the deletion of 'high'
Greater Wellington Regional Council	351.355	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Oppose	Considers the proposed mapping approach is not appropriate to achieve CE-O1, does not fully incorporate the 2016 Boffa Miskell assessment, and will be less effective in giving effect to NZCPS 13(1)(b).	Map area scale natural character ratings (in addition to the sites of high and very high natural character already included in the proposed approach) identified in Boffa Miskell's natural character assessment (2016).
Meridian Energy Limited	FS101.197	Part 4 / Schedules Subpart /Schedules / SCHED12 – High Coastal Natural Character Areas	Oppose	Meridian agrees that the descriptions of values in SCHED12 are not helpful in guiding the policy framework. In the absence of any specific detail, it is not possible to comment further on the requested amendments.	Not specified / Seeks that any amendments to the SCHED12 descriptions be made available for consideration before inclusion in the Plan.
Director-General of Conservation	385.94	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Support	Supports the Council to identify, map and protect the natural character of the coastal environment in line with Policy 13 of the NZCPS.	Retain Schedule 12 (High Coastal Natural Character Areas) as notified.
Terawhiti Farming Co Ltd (Terawhiti Station)	411.30	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Oppose	Opposes the High Coastal Natural Character overlay as it relates to the submitter's property, but considers it more appropriate in terms of its scale, impact to the property, and view shafts from Cook Strait.	Delete Ōteranga Head / Outlook Hill from SCHED12 as an area of High Coastal Natural Character.
Terawhiti Farming Co Ltd (Terawhiti Station)	411.31	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Oppose	Opposes the High Coastal Natural Character overlay as it relates to the submitter's property, but considers it more appropriate in terms of its scale, impact to the property, and view shafts from Cook Strait.	Delete Terawhiti / Ohau Point from SCHED12 as an area of High Coastal Natural Character.
Guardians of the Bays	452.104	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Support	Supports supports the Lyall Bay connection between Te Raekaihau and Hue tē Taka Peninsula/ Moa Point being ranked as an important environmental, cultural and social connection	Retain Hue tē Taka Peninsula/ Moa Point on SCHED12 - High Coastal Natural Character Areas.
Guardians of the Bays	452.105	Schedules Subpart / Schedules / SCHED12 – High Coastal Natural Character Areas	Support	Supports the importance of the southern coastline and the connections and the ranking of the high status of Hue tē Taka Peninsula / Moa Point	Supports the importance of the southern coastline and the connections and the ranking of the high status of Hue tē Taka Peninsula / Moa Point
Kay Larsen	447.1	Other / Other / Other	Not specified	Considers that summary of submission on Draft District Plan was insufficient.	Not specified.

James Barber	56.1	Other / Other / Other	Amend	Property developers will benefit most from densification and should contribute. Civic spaces are much needed with densification.	Seeks that a levy is introduced on property developers to contribute to civic spaces with densification.
Phil Kelliher	58.1	Other / Other / Other	Support	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.
Phil Kelliher	58.2	Other / Other / Other	Not specified	The lack of adequate infrastructure needs to be regarded as a qualifying matter precluding high density development in Mount Victoria and other inner city suburbs.	Seeks that development potential is not increased in Mount Victoria as there is inadequate infrastructure.
Juliet Cooke	68.1	Other / Other / Other	Support	Considers that their position is supported by the Boffa Miskell Report and that as Moir Street will be Heritage Area, it should have even more importance placed on mitigating the impacts of development from adjoining sites.	Not specified.
Tracey Paterson	74.1	Other / Other / Other	Support	Supports the Pre-1930 Character Area Review, Boffa Miskell Report with respect to the interface between Moir Street and the CCZ.	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.
Tracey Paterson	74.2	Other / Other / Other	Support in part	Supports density done well and the intent of the PDP to enable good quality intensification of the CCZ, but does not support density at all costs.	[Not specified]
Tim Bright	75.1	Other / Other / Other	Not specified	Submission is made in conjunction with the Wellington Historical Society Documents	[Not specified]
Judith Graykowski	80.1	Other / Other / Other	Not specified	Considers that there are benefits in retaining carbon by keeping old wooden houses rather than producing emissions from the activities needed for new builds.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ann Mallinson	81.1	Other / Other / Other	Not specified	Considers that the assumption that Wellington will have 80,000 extra residents in the coming years is based on research done before the Covid epidemic. It is now generally agreed that these figures no longer apply.	Not Specified.
Amanda Wang	93.1	Other / Other / Other	Not specified	Concerned about rates. Refer to original submission for further detail]	[Not specified]
Susan Birch	94.1	Other / Other / Other	Not specified	Concerned about rates. Refer to original submission for further detail]	[Not specified]
John Liu	95.1	Other / Other / Other	Not specified	Concerned about rates. Refer to original submission for further detail]	[Not specified]
Interprofessional Trust	96.1	Other / Other / Other	Not specified	Considers that owners wanting to use neighbour's land for daylighting purposes should be able to do so by private treaty.	[Not specified]
Tim Brown	97.1	Other / Other / Other	Not specified	Considers that Mayor Foster and CEO should resign for the stale state of the city.	Seeks that Mayor Foster and CEO resign.
Te Herenga Waka Victoria University of Wellington	106.1	Other / Other / Other	Not specified	Victoria University is a significant property owner in Wellington and has a planned programme of works to revitalise university buildings over the next 10 years, called the Campus Development Plan (CDP). Considers that the controlled activity status in the Operative District Plan that has applied to such works has ensured good design outcomes for major campus projects to date. The CDP proposes to connect the Kelburn campus with 320 and 320A The Terrace, and to conserve and repurpose the McLean Flats. There is no ability, appetite or available resource to repurpose the Gordon Wilson Flats. Considers that, due to the state of disrepair, any heritage values associated with the Gordon Wilson Flats are now significantly undermined.	Not specified.
Tawa Business Group	107.1	Other / Other / Other	Support	Supports the proposed intensification of the Tawa town centre and surrounding residential areas, facilitated by the increased building height and density within the proposed Medium Density Residential/High Density Residential and Neighbourhood Centre/Local Centre zones.	Seeks that the Tawa town centre and surrounding residential areas are intensified. [Inferred decision requested].
Oliver Sangster	112.1	Other / Other / Other	Not specified	Considers that Johnsonville Mall and the surrounding carparks is highly inefficient and that it has huge development potential as flat sunny land right next to the Johnsonville railway, numerous open space parks and Waitohi library.	Seeks that the Council consult with Kainga Ora and the Ministry of Housing and Urban Development over the use of powers under the Urban Development Act 2020 to acquire the Johnsonville Mall site in the event that development of the site does not occur.
Oliver Sangster	112.2	Other / Other / Other	Amend	Considers that the road is steep and vehicles frequently speed. Has witnessed a number of vehicle crashes taking place on this road. Considers that an increase in vehicle traffic from the Upper Stebbings/Glenside West Development area is likely to increase crashes creating more hazards for road users and pedestrians.	Seeks that the Council consider methods to reduce traffic speed down Westchester Drive between Melksham Drive and Middleton Rd roundabout.
Candy Cheung	115.1	Other / Other / Other	Oppose	Submission in opposition - no details supplied.	Not specified.
Summerset Group Holdings Limited	118.1	Other / Other / Other	Not specified	Supports the submission of the Retirement Villages Association of New Zealand in its entirety.	Supports the Retirement Villages Association of New Zealand submission in its entirety.
Victoria University of Wellington Students' Association	123.1	Other / Other / Other	Not specified	Considers that the protection of heritage buildings, character housing, private space, skylines, and aesthetics should not compromise the more important functions of the city. Student's sense of place in Pōneke Wellington is determined by our ability to live here well, and what we're able to do here. The vibrancy, accessibility and functionality of the city are some of its most important aspects for students.	Seeks that the City's "identity" is promoted through prioritising affordability, accessibility, well-being, functionality, arts, nature, and public space.
Victoria University of Wellington Students' Association	123.2	Other / Other / Other	Not specified	Supports actions taken by the PDP to support the WCC's Te Atakura - First to Zero policy.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Victoria University of Wellington Students' Association	123.3	Other / Other / Other	Not specified	Considers that climate resilience should require a holistic approach.	Seeks that housing and city areas should have a people-centred design.
Airbnb	126.1	Other / Other / Other	Not specified	Considers that local districts and councils should take the opportunity to support efforts to streamline and simplify Residential Visitor Accommodation regulation at the central government level. [Refer to original submission for full reasons].	Seeks that local districts and councils take the opportunity to support efforts to streamline and simplify Residential Visitor Accommodation regulation at the central government level.
Airbnb	126.2	Other / Other / Other	Not specified	Considers that consistency for guests and hosts is important and that a national approach is the most effective way to address these concerns. The NSW Code of Conduct is an example of a standardised approach with a robust compliance and enforcement mechanism. [Refer to original submission for full reasons].	Seeks that a similar mechanism to the NSW Code of Conduct is employed as part of a national framework.
Zoe Ogilvie-Burns	131.1	Other / Other / Other	Amend	Considers that changes should be made that actively support and do not don't undermine the better places created by more density done well and proximity to daily amenities.	Seeks changes to the Council's Network Operating Framework, Parking Policies, street maintenance systems.
Zoe Ogilvie-Burns	131.2	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the District Plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.
Zoe Ogilvie-Burns	131.3	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale. [Inferred decision requested]
Anne Lian	132.1	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the District Plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.
Anne Lian	132.2	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale. [Inferred decision requested]
Ingo Schommer	133.1	Other / Other / Other	Amend	Considers that changes should be made that actively support, and definitely don't undermine, the better places created by more density done well and proximity to daily amenities.	Seeks changes to the Council's Network Operating Framework, Parking Policies, street maintenance systems.
Ingo Schommer	133.2	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the District Plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.
Ingo Schommer	133.3	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale. [Inferred decision requested].
Olivier Reuland	134.1	Other / Other / Other	Amend	Considers that changes should be made that actively support, and definitely don't undermine, the better places created by more density done well and proximity to daily amenities.	Seeks changes to the Council's Network Operating Framework, Parking Policies, street maintenance systems.
Olivier Reuland	134.2	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the District Plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.
Olivier Reuland	134.3	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Grant Buchan	143.1	Other / Other / Other	Not specified	<p>Considers that one of the biggest drivers of carbon emissions in relation to transport has been increases in private car use and this reliance on cars has much to do with Wellington's detached housing development of land at the city fringes.</p> <p>This low density has generally made it uneconomic for business providing necessary goods and services, such as groceries, within walking and cycling distance. Similarly any amenities in these areas such as schools, recreation facilities etc are largely only accessible to sufficient numbers of people to justify the expense of their construction and upkeep if they are serviced by car. This car infrastructure tends to crowd out cycling and walking as ways to access local amenities in these areas.</p>	Not specified.
Grant Buchan	143.2	Other / Other / Other	Support	Supports the Generation Zero submission in its entirety.	Not specified. (Submission 254 Generation Zero Inc.)
Grant Buchan	143.3	Other / Other / Other	Support	Supports the A City For People submission in its entirety.	Not specified.
Braydon White	146.1	Other / Other / Other	Amend	Considers that changes should be made that actively support, and definitely don't undermine, the better places created by more density done well and proximity to daily amenities.	Seeks changes to the Council's Network Operating Framework, Parking Policies, street maintenance systems.
Braydon White	146.2	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the PDP.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.
Braydon White	146.3	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	<p>Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale.</p> <p>[Inferred decision requested].</p>
Matthew Gibbons	148.1	Other / Other / Other	Not specified	Considers that the submissions process favours established Wellington residents who have time to wade through a long District plan, and who don't personally experience most of the disadvantages of not allowing densification.	Not specified.
Vivienne Morrell	155.1	Other / Other / Other	Support	Supports the Boffa Miskell 2019 report on character areas.	Supports the Boffa Miskell 2019 report on character areas.
Vivienne Morrell	155.2	Other / Other / Other	Not specified	Considers that there are benefits in retaining carbon by keeping old wooden houses rather than producing emissions from the activities needed for new builds.	Not specified.
Dr Briar E R Gordon and Dr Lyndsay G M Gordon	156.1	Other / Other / Other	Support	Supports the Hon Sir Douglas White submission in its entirety.	Supports the Hon Sir Douglas White submission in its entirety. [Refer to submission 287]
Thorndon Residents' Association Inc	FS69.66	General / Other / Other / Other	Support	These submissions align with the Association's submissions for the Hobson precinct, the Portland/Hawkestone precinct, and the Selwyn precinct.	Allow
James and Karen Fairhall	160.1	Other / Other / Other	Support	Supports the report 'Planning for Residential Amenity' by Boffa Miskell as it relates to its comments on boundary setbacks: 'it is common for a side, rear or front boundary set back to provide space between buildings. Set-backs can be used to provide a degree of privacy separation between adjoining buildings, allow site access/ circulation or to address scale/dominance of buildings in relation to one another. Set backs in the order of 1-3m are common'.	Not specified.
Sophie Kahn	161.1	Other / Other / Other	Not specified	Considers that commissioners must be capable of considering and assessing the Jewish perspective.	Seeks that a commissioner capable of understanding a Jewish perspective be appointed to the hearings panel for the Proposed District Plan.
Ian Attwood	FS16.10	Other / Other / Other	Support	<p>The Jewish perspective is very relevant to the historical contexts of the building the Khan House.</p> <p>It is well-documented in several sources but is not perse illuminated in the house's architecture.</p> <p>It is also a very sensitive 'context', and the Kahn family and Jewish community should have the sole right to determine how they wish to manage the home's heritage and future.</p>	Allow / Seeks that Kahn House to be wholly removed from Schedule 1 'Heritage Buildings'.
Sarah Cutten and Matthew Keir	FS91.25	Other / Other / Other	Support	<p>The further submitter is supportive of the submission and believe the same right should apply to all cultures and the Jewish community should choose how their heritage is protected.</p> <p>[See original further submission for full reason].</p>	Allow / Seeks that the Council engage with cultural groups with respect to their heritage, and the protection of it, rather than deciding for them or dictating to them how it will be protected.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Karen and Jeremy Young	162.1	Other / Other / Other	Support	Supports the report 'Planning for Residential Amenity' by Boffa Miskell as it relates to its comments on boundary setbacks: 'it is common for a side, rear or front boundary set back to provide space between buildings. Set-backs can be used to provide a degree of privacy separation between adjoining buildings, allow site access/circulation or to address scale/dominance of buildings in relation to one another. Set backs in the order of 1-3m are common'.	Not specified.
Jill Ford	163.1	Other / Other / Other	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that developers have the opportunity to have reduced development fees if there is low cost accommodation included.
Trelissick Park Group	168.1	Other / Other / Other	Not specified	Considers that with housing intensification and more extreme weather events due to climate change, the problems caused by stormwater in Trelissick Park are becoming worse. [Refer to original submission for full reasons].	Not specified.
Amos Mann	172.1	Other / Other / Other	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that lifts in multi-storey developments are incentivised.
Amos Mann	172.2	Other / Other / Other	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the Council works with central government to improve accessibility and building performance requirements in the Building Code.
Amos Mann	172.3	Other / Other / Other	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that WCC work with Waka Kotahi to make a more liveability-focused and climate-focused road and street network, especially where intensification is happening.
Amos Mann	172.4	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.
Amos Mann	172.5	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale. [Inferred decision requested].
Patrick Wilkes	173.1	Other / Other / Other	Support	Considers that changes should be made that actively support, and definitely don't undermine, the better places created by more density done well and proximity to daily amenities.	Seeks changes to the Council's Network Operating Framework, Parking Policies, street maintenance systems.
Patrick Wilkes	173.2	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.
Patrick Wilkes	173.3	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale. [Inferred decision requested].
Patrick Wilkes	173.4	Other / Other / Other	Support	Considers this important so that people don't need to drive to stations, nor traverse inhospitable park-and-rides once they get there.	Seeks that universal accessibility, and active and sustainable travel be prioritised for access to public transport.
Kane Morison and Jane Williams	176.1	Other / Other / Other	Support	Supports the report 'Planning for Residential Amenity' by Boffa Miskell as it relates to its comments on boundary setbacks: 'it is common for a side, rear or front boundary set back to provide space between buildings. Set-backs can be used to provide a degree of privacy separation between adjoining buildings, allow site access/circulation or to address scale/dominance of buildings in relation to one another. Set backs in the order of 1-3m are common'.	Not specified.
Pete Gent	179.1	Other / Other / Other	Amend	Considers that changes should be made that actively support, and definitely don't undermine, the better places created by more density done well and proximity to daily amenities.	Seeks changes to the Council's Network Operating Framework, Parking Policies, street maintenance systems.
Pete Gent	179.2	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.
Pete Gent	179.3	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale. [Inferred decision requested].
James Harris	180.1	Other / Other / Other	Amend	Considers that changes should be made that actively support, and definitely don't undermine, the better places created by more density done well and proximity to daily amenities.	Seeks changes to the Council's Network Operating Framework, Parking Policies, street maintenance systems.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
James Harris	180.2	Other / Other / Other	Not specified	Considers that state highways operated by Waka Kotahi should respond to city council needs so that (for example) they support cycleways and other traffic intersections with local roads.	Seeks that state highways operated by Waka Kotahi should respond to city council needs.
James Harris	180.3	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.
James Harris	180.4	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale. [Inferred decision requested].
Historic Places Wellington	182.1	Other / Other / Other	Support	Supports submission from Wellington Heritage Professionals. [refer to submission 412]	Supports the Wellington Heritage Professionals submission on the PDP. [Refer to submission 412]
Ros Bignell	186.1	Other / Other / Other	Support	Supports the site by site character analysis proposal by the Boffa Miskell character report 2019.	Supports the Boffa Miskell character report 2019.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.19	Other / Other / Other	Support	Supports submission seeking that character protections should extend to Lawrence Street, Newtown.	Allow
Ros Bignell	186.2	Other / Other / Other	Not specified	Supports the Newtown Character Protection Group submission in its entirety.	Not specified.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.20	Other / Other / Other	Support	Supports submission seeking that character protections should extend to Lawrence Street, Newtown.	Allow
Jonathan and Tricia Briscoe	190.1	Other / Other / Other	Support	Supports the Boffa Miskell Report 2019.	Supports the Boffa Miskell Report 2019.
Jonathan and Tricia Briscoe	190.2	Other / Other / Other	Support	Supports the Mount Victoria Historical Society Submission.	Supports the Mount Victoria Historical Society Submission. [Refer to submission 214]
Chris Howard	192.1	Other / Other / Other	Oppose	Opposes changes to the RMA, considering it a blanket approach to densification and over simplistic. Considers that densification for Wellington needs to be highly tailored to the city's existing and considerable widespread special character.	Not specified.
Chris Howard	192.2	Other / Other / Other	Not specified	Concerned by the level of polarisation that is evident in the housing debate.	Not specified.
Chris Howard	192.3	Other / Other / Other	Not specified	Considers that decision making needs to be take a balanced view, considering the nuanced benefits of how much-needed housing intensification can be achieved.	Not specified.
Chris Howard	192.4	Other / Other / Other	Not specified	Considers that stronger leadership is exerted by those Chairing the WCC debate on the PDP to ensure that the process is impartially driven more by technical merit rather than by polarised agendas	Seeks that debate on the Proposed District Plan is impartial and driven by technical merit.
Chris Howard	192.5	Other / Other / Other	Not specified	Considers that the PDP should not be rushed to ensure the best long-term outcomes, extending this process may be needed, including, another public iteration of the spatial plan, that includes greater transparency as to how public feedback is being actioned.	That further public consultation is undertaken on the plan and it is not rushed to meet RMA implementation timeframes. [Inferred decision requested]
Chris Howard	192.6	Other / Other / Other	Amend	Supported the Draft Spatial Plan and considered that detailed consideration had gone into its development, through a local process that appreciated the Wellington specific trade-offs.	Seeks that the Spatial Plan is updated to ensure compliance with the RMA, with qualifying matters regarding Wellington's widespread special character further analysed and documented instead of the Proposed District Plan as notified.
Mary-Anne O'Rourke	195.1	Other / Other / Other	Not specified	Considers that there is a valid risk in the future from ratepayers, who are unable to attain house insurances for council consented houses that have been built in known flood and tsunami prone areas, taking future class actions against the Council.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Mary-Anne O'Rourke	195.2	Other / Other / Other	Not specified	Considers that transport infrastructure investment in the Eastern Suburbs is much needed.	Not specified.
Peter Nunns	196.1	Other / Other / Other	Amend	Considers that changes should be made that actively support, and definitely don't undermine, the better places created by more density done well and proximity to daily amenities.	Seeks changes to the Council's Network Operating Framework, Parking Policies, street maintenance systems.
Peter Nunns	196.2	Other / Other / Other	Not specified	Considers that the WCC needs to tackle the issue of water/wastewater/stormwater capacity and upgrades, especially as new housing development may cause some further pressures.	Seeks that appropriate resources are allocated to identifying water/wastewater/stormwater infrastructure capacity and upgrade costs.
Peter Nunns	196.3	Other / Other / Other	Not specified	Considers that there is a need to ensure adequate in-house staffing to process resource and building consents quickly and at an affordable cost.	Seeks that appropriate resources are allocated to ensure resource consent and building consent processing is done as efficiently and transparently as possible, including good internal or external reviews.
Andrew Flanagan	198.9	Other / Other / Other	Support	Considers that changes should be made that actively support, and definitely don't undermine, the better places created by more density done well and proximity to daily amenities.	Seeks changes to the Council's Network Operating Framework, Parking Policies, street maintenance systems.
Andrew Flanagan	198.10	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.
Andrew Flanagan	198.11	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale. [Inferred decision requested].
Antony Kitchener and Simin Littschwager	199.1	Other / Other / Other	Support	Supports the original Draft Spatial Plan, prior to the Government relaxing planning rules for developers, which had a much more holistic and well-considered approach to densification across the entire city, and appeared to give consideration all potential affected parties i.e. building higher in urban centres, and gradually tapering off building height as distance from urban/suburb centre increases.	Supports the Draft Spatial Plan, with regard to its densification approach.
Angus Hodgson	200.1	Other / Other / Other	Support	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.
Angus Hodgson	200.2	Other / Other / Other	Support	Supports the submission put forward by Mt Cook Mobilised.	Supports the submission put forward by Mt Cook Mobilised.
Wellington City Youth Council	201.1	Other / Other / Other	Not specified	Considers the role of tangata whenua of Aotearoa as kaitiaki over the land. Considers that Land use by Crown institutions such as Council has often been in conflict with the holistic nature of the Māori world view and has not allowed tangata whenua to exercise kaitiakitanga over their ancestral lands and to carry out customary activities.	Seeks that Council repairing injustices and work to ensure that the institutional barriers restricting tangata whenua from exercising their rights are removed and repaid.
Elayna Chhiba	FS131.35	General / Other / Other / Other	Support	Supports increasing walking catchments around the City Centre Zone for the following reasons: - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Additionally, less reliance on private vehicles increases overall health. - Higher density housing will support providing liveable cities for future Wellingtonians. The NPS-UD and the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act provides for greater density. [See original Further Submission for full reasoning].	Allow
Te Rūnanga o Toa Rangatira	FS138.15	General / Other / Other / Other	Support	The submitter seeks that Council repairing injustices and work to ensure that the institutional barriers restricting tangata whenua from exercising their rights are removed and repaid. Te Rūnanga o Toa Rangatira support this submission because removing institutional barriers and repairing injustices will create better partnership between Council and tangata whenua. This will also support tino rangatiratanga.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington City Youth Council	201.2	Other / Other / Other	Support	Considers that well-functioning three-waters infrastructure has often evaded Wellington. Considers that the renewal and replacement of aging infrastructure with a growing population and the impacts of climate change considered is essential. Supports investment into three waters infrastructure for te mana o te wai and the health and wellbeing of Wellingtonians.	Seeks that investment is made to three waters infrastructure.
Wellington City Youth Council	201.3	Other / Other / Other	Not specified	[No specific reason given beyond decision requested - refer to original submission]	Seeks reduction in cost and disruption through coordination of different sub-street-level utility replacement or renovation projects.
Wellington City Youth Council	201.4	Other / Other / Other	Support	Considers that council can facilitate City Centre accessibility by considering accessibility when making decisions around parking and drop off zones which can be part of ensuring CBD access to people with disabilities.	Seeks that council consider disability accessibility when making decisions around parking and drop off zones.
Wellington City Youth Council	201.5	Other / Other / Other	Support	Considers that non-car parking such as for E-Bike and e-scooter 'Locky Docks' should be incorporated into city design, incentivizing the use of alternative and green modes of transport.	Seeks that non-car parking be incorporated into city design.
Wellington City Youth Council	201.6	Other / Other / Other	Not specified	Submitter emphasises the role of maintaining high efficiency, high volume and accessible public transport in the process of increasing urban space density.	Not specified.
Avryl Bramley	202.1	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the number of residents living in the city centre is capped and reduces over time.
Avryl Bramley	202.2	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks a whole of city and a suburb by suburb earthquake and Tsunami risk assessment around existing and proposed buildings to ensure that sufficient resources are likely to be available in the event of a major earthquake.
Kim McGuiness, Andrew Cameron, Simon Bachler, Deb Hendry, Penny Evans, Stephen Evens, David Wilcox, Mary Vaughan Roberts, Siva Naguleswaran, Mohammed Talim, Ben Sutherland, Atul Patel, Lewis Roney Yip, Sarah Collier Jaggard	204.1	Other / Other / Other	Support	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.
Claire Nolan, James Fraser, Margaret Franken, Bidy Bunzel, Michelle Wooland, Lee Muir	FS68.6	Other / Other / Other	Support	Not specified.	Allow
Kim McGuiness, Andrew Cameron, Simon Bachler, Deb Hendry, Penny Evans, Stephen Evens, David Wilcox, Mary Vaughan Roberts, Siva Naguleswaran, Mohammed Talim, Ben Sutherland, Atul Patel, Lewis Roney Yip, Sarah Collier Jaggard	204.2	Other / Other / Other	Support	Supports the submission put forward by [Inferred] Newtown Residents Association	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Dougal and Libby List	207.1	Other / Other / Other	Support	Supports the report 'Planning for Residential Amenity' by Boffa Miskell as it relates to its comments on boundary setbacks: 'it is common for a side, rear or front boundary set back to provide space between buildings. Set-backs can be used to provide a degree of privacy separation between adjoining buildings, allow site access/circulation or to address scale/dominance of buildings in relation to one another. Set backs in the order of 1-3m are common'.	Not specified.
Craig Forrester	210.1	Other / Other / Other	Support	Supports the report 'Planning for Residential Amenity' by Boffa Miskell as it relates to its comments on boundary setbacks: 'it is common for a side, rear or front boundary set back to provide space between buildings. Set-backs can be used to provide a degree of privacy separation between adjoining buildings, allow site access/circulation or to address scale/dominance of buildings in relation to one another. Set backs in the order of 1-3m are common'.	Not specified.
Glen Scanlon	212.1	Other / Other / Other	Oppose	Considers that It is highly unlikely that the country will return to previous immigration levels in the near future and that contributions to growth from mount Victoria is small.	Seeks that the plan I made more flexible rather than having one-size-fits-all approach. [Inferred decision requested]
Robert Murray	213.1	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that cycle lanes should be able to be used by motorcycles.
Sam Stocker & Patricia Lee	216.1	Other / Other / Other	Amend	Considers that far too much historic character areas have been left out of the Newtown and Berhampore areas which will destroy quality of life for their community. The land is not needed to help cope with Wellingtons increasing population. Land values will soar and will lead to unpayable rates bills and loss of sunlight access. New builds more than three storeys high are expensive and won't provide low-cost housing. Average residents will either be forced away or live in ghetto conditions. [Refer to original submission for full reason]	Seeks that the Council proactively work to make empty and unused land become housing or mixed commercial land rather than land banked.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.46	Other / Other / Other	Support	Supports submission that seeks character precinct extensions in Newtown.	Allow
Sam Stocker & Patricia Lee	216.2	Other / Other / Other	Support	Considers that we live in a society that relies on cars and taking away street parking will make the historic area unliveable. The simple answer to making our neighbourhood more cycle and walking friendly is to lower the speed limit across the city. Considers that the neighbourhood needs to retain its carparks. [Refer to original submission for full reason]	Seeks that residents parking in historic areas is protected.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.47	Other / Other / Other	Support	Supports submission that seeks character precinct extensions in Newtown.	Allow
Jill Wilson	218.1	Other / Other / Other	Amend	Considers that the inner city lacks greenspace. Considers that the Green Network Plan should be a mandated component of green space and amenity planning for the city, with a transparent and integrated set of criteria, rather than being a non-statutory document. [Refer to original submission for full reason]	Seeks that the Green Network Plan become a statutory component of the Proposed District Plan.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Jill Wilson	218.2	Other / Other / Other	Amend	Considers that green spaces in the City Centre should be designed for families and the people living in the area rather than lunchtime workers.	Seeks that green spaces in the City Centre should be designed for families and the people living in the area rather than lunchtime workers. [Inferred decision requested]
Tyers Stream Group	221.1	Other / Other / Other	Oppose	Considers that the existing three waters infrastructure has suffered from lack of maintenance and renewals, and shows signs of significant failure, causing ongoing and significant contamination (water and air), erosion events and other problems in Tyers Stream. Opposes further development and intensification until significant upgrading of three waters capacity can be ensured and is put in place.	Land use intensification and all development (e.g., residential growth) to only occur if there is a fully functional and resilient Three Waters Infrastructure in place prior to development.
Tyers Stream Group	221.2	Other / Other / Other	Oppose	Considers that the existing three waters infrastructure has suffered from lack of maintenance and renewals, and shows signs of significant failure, causing ongoing and significant contamination (water and air), erosion events and other problems in Tyers Stream. Opposes further development and intensification until significant upgrading of three waters capacity can be ensured and is put in place.	Seeks no urban intensification in the Tyers Stream catchment until the Three Waters Infrastructure has the capacity, the upgrades, the resilience, and appropriate monitoring and maintenance to manage the growth, without causing damage to, and contamination of the stream, the catchment's biodiversity, and its airshed.
Tyers Stream Group	221.3	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks appropriate monitoring and maintenance of infrastructure to ensure retention of capacity, necessary upgrades, resilience, and avoidance of adverse environmental effects.
Tyers Stream Group	221.4	Other / Other / Other	Amend	TSG has been in contact with other community bodies which have explained how they can assist in development and provision of walking access, but only where this can be identified and connected through Council action. At present, the Tyers Stream Reserve is not adequately connected to residential Khandallah.	Seeks that public access to, along and within Tyers Stream Reserve be developed by WCC in line with its policies on public access.
Richard W Keller	232.1	Other / Other / Other	Oppose	[No specific reason given beyond decision requested - refer to original submission]	Opposes the construction of a second vehicle tunnel.
Richard W Keller	232.2	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that "Lets Get Wellington Moving" is renamed to "Lets get Wellington Serious About Climate Change".
Wellington's Character Charitable Trust	233.1	Other / Other / Other	Amend	Considers that the maximum height in the residential area of Khandallah should be 11m	Amend the height in the mapping to 11m in Khandallah.
Elayna Chhiba	FS131.3	General / Other / Other / Other	Support	Supports increasing walking catchments around the City Centre Zone for the following reasons: - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Additionally, less reliance on private vehicles increases overall health. - Higher density housing will support providing liveable cities for future Wellingtonians. The NPS-UD and the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act provides for greater density. [See original Further Submission for full reasoning].	Allow
Wellington's Character Charitable Trust	233.2	Other / Other / Other	Amend	Considers that the maximum height in Khandallah Village should be 14m	Amend the height in the mapping to 14m in Khandallah Village.
Regan Dooley	239.1	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that Council binds land use and transport closer together to they create co-benefits and don't undermine each other.
Regan Dooley	239.2	Other / Other / Other	Amend	Supports better resourcing for Council Officers related to the submission points.	Seeks better resourcing for Council officers.
Alan Fairless	242.1	Other / Other / Other	Support	Supports the submission for LIVE Wellington.	Supports the submission of LIVE Wellington. [See Submission 155 - LIVE Wellington].

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Alan Fairless	242.2	Other / Other / Other	Not specified	Considers that innovative models for public and private investment working together are needed to rapidly develop Wellington's large areas of underutilised land into high quality housing, greenspace, and small business facilities. Current proposals only develop 14% of rezoned areas. LIVE Wellington want to see partnerships that will develop at least 50% of underutilised land in the next ten years.	Seeks that the District Plan identify key potential actors and development partnerships to achieve an increased rate of development on underutilised land.
Richard Norman	247.1	Other / Other / Other	Not specified	Considers that greater housing density should not be at the expense of existing wooden housing, which is proven to be earthquake resistant.	Seeks that Council maps areas of the central city which are underdeveloped, with a focus on Te Aro and major roads through Newtown to identify where higher apartments could be built without destroying or shading wooden heritage.
Richard Norman	247.2	Other / Other / Other	Not specified	Requests that the commissioners are mindful that the greenest buildings are those that are already built, and that using wood is less carbon intensive than using steel or concrete. [Refer to original submission for full reason]	Seeks that wholesale rezoning is replaced with research and evidence-based analysis of city precincts and neighbourhoods, and the upzoning in the Proposed District Plan is given a more considered investigation and consideration of alternatives for creating affordable housing.
Lower Kelburn Neighbourhood Group	FS123.37	General / Other / Other / Other	Support	Supports submission because it is considered it is against demolition of pre-1930s homes because of the high CO2 emissions resulting and also from re-building with new materials. Council should control demolition of old buildings and seek to renovate and repurpose them to reduce CO2 emissions.	Allow
Richard Norman	247.3	Other / Other / Other	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that WCC review it's capital rating system and its contribution to underdevelopment of the city, and investigate how rated based on unimproved land values could make more development land available.
Richard Norman	247.4	Other / Other / Other	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that WCC review whether it needs a specialist development agency.
Richard Norman	247.5	Other / Other / Other	Not specified	Considers that the highest level of the terrace has buildings which provide a rare reminder of 19th century Wellington. [Refer to original submission for full reason]	Seeks that WCC include advice from Heritage New Zealand with regards to large buildings at the highest levels of The Terrace.
Richard Norman	247.6	Other / Other / Other	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that WCC map in detail the impacts of proposed rezoning on the most affected localities and neighbourhoods about how housing can be increased without blighting large blocks of pre 1930s houses.
Friends of the Bolton St Cemetery Inc	250.1	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that any statement made by the Council in respect of the Cemetery's history is fully and properly researched by qualified people and that such research is done in consultation with the Friends of the Bolton St Cemetery.
Friends of the Bolton St Cemetery Inc	250.2	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that Friends of the Bolton St Cemetery are party to any change of status that might later be proposed to the listing in the Proposed District Plan.
Cherie Jacobson	251.1	Other / Other / Other	Amend	Supports the Wellington Heritage Professionals group submission.	Seeks that the table of specific submission points on the Proposed District Plan in the Wellington Heritage Professionals group submission are submitted.
Friends of Khandallah	252.1	Other / Other / Other	Amend	Considers that large scale residential will lead to erosion of commercial by residential. Theoretical planning from other cities is not necessarily good for Khandallah. Commercial areas need to be protected in Khandallah for resilience and emergencies. [Refer to original submission for full reason]	Seeks that the height limits in the Khandallah local centre zone in the operative district plan are amended from 12m to 8m.
Generation Zero Inc	254.1	Other / Other / Other	Amend	Considers that the Proposed District Plan needs to create space for different housing typologies, such as papakāinga, to be developed with ease. The rules and regulations of the PDP must be relevant, applicable, and adaptable, to different types of housing. [Refer to original submission for full reason]	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Generation Zero Inc	254.2	Other / Other / Other	Not specified	Considers that more analysis that complies with section 77L is required. Considers that applying Character Precincts within the Medium Density Residential Zone WCC has not provided a section 32 analysis that complies with section 77L of the RMA. [Refer to original submission for full reason]	Seeks that more information is provided with respect to the Character Precincts is undertaken that complies with the requirements of section 77K and 77L of the Resource Management Act 1991. [inferred decision requested]
Kāinga Ora – Homes and Communities	FS89.65	General / Other / Other / Other	Support	Kāinga Ora supports further assessment is required if Character Precincts/Overlays are to remain in the District Plan.	Allow
Generation Zero Inc	254.3	Other / Other / Other	Not specified	Considers that at the time of preparing this submission, the impact assessment had not yet been made publicly available. The section 32 report notes that at the time of publishing, the requisite detailed assessment has not yet been undertaken and will be published in approximately August 2022. Submitter was unable to comment on the adequacy of the impact assessment. [see original submission]	Seeks the ability to make a further submission point on the assessment on the impacts of limiting development capacity through qualifying matters, when the assessment is available. [inferred decision requested]
Jim & Christine Seymour	262.1	Other / Other / Other	Not specified	Considers that current infrastructure cannot cope with significant increases in load. Considers how well the current power network will cope with intensification. [Refer to original submission for full reason]	Seeks that infrastructure - potable and sewer networks in particular - are upgraded before denser housing is implemented.
Jim & Christine Seymour	262.2	Other / Other / Other	Not specified	Considers the lack of play areas for young children and sporting facilities for older children.	Seeks the addition of green spaces.
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.1	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer back to original submission]	Seeks that the Council undertake a suburb specific response to assessing the ability of Infrastructure to accommodate impacts on wastewater, water supply and storm water,
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.1	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer back to original submission]	Seeks planting around natural water courses and on steep contours to maintain the steep hillsides under severe weather events.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.2	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer back to original submission]	Seeks protection of Middleton Road.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.3	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer back to original submission]	Seeks protection of the Porirua Stream.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.4	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer back to original submission]	Seeks protection of the Te Awarua-o-Porirua Harbour.
Marilyn Powell	281.1	Other / Other / Other	Amend	Considers that picnickers enjoy sitting on the grass and looking out at the view there. The area could have park benches added for visitors to rest on when walking the area and for the existing government workers who currently lunch there to use.	Seeks that Wellington City Council purchase the green space area at 107 Hill Street and convert it to a public recreation area.
Steve Dunn	288.1	Other / Other / Other	Amend	Considers that to do density well there needs to be green infrastructure that requires adequate space in urban planning. Considers that there are studies that demonstrate the value of open space to health.	Amend the plan to include the Council's Green Network Plan as an enforceable key document for greening Wellington.
Steve Dunn	288.2	Other / Other / Other	Amend	Considers that the provision of new public space and well-designed streets is critical as the central city intensifies to ensure the health and wellbeing of the new residents and should have adequate protection for sunlight access and protect from building development or shading.	Seeks that the plan identify open spaces in the City Centre to recognise the need for this green infrastructure along with the Council's Green Network Plan.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Steve Dunn	288.3	Other / Other / Other	Support	<p>Considers that the provision of new public space and well-designed streets is critical as the central city intensifies to ensure the health and wellbeing of the new residents and should have adequate protection for sunlight access and protect from building development or shading.</p> <p>Considers that the current provision under the Lambton Harbour plan allows buildings for a Fale Malae on Frank Kitts Park if allowed under a resource consent application. This area has always been open space and a building should be at the transitional building site between Te Papa and Waitangi Park.</p>	Seeks that Frank Kitts Park and Waitangi Park are vested as reserves under the Reserves Act.
Priscilla Williams	293.1	Other / Other / Other	Not specified	Considers that housing intensification should be targeted to brownfield areas such as Adelaide Road, which has good transport links.	Seeks that housing intensification should be targeted to brownfield areas such as Adelaide Road.
Lower Kelburn Neighbourhood Group	FS123.6	General / Other / Other / Other	Support	Considers that council should focus on brownfield development for affordable housing and ensuring high quality there. Considers the impact on the functioning of older neighbourhoods by random placing of high buildings must be prevented.	Allow
Tawa Community Board	294.1	Other / Other / Other	Amend	<p>Considers that structure plans are a key tool to encourage larger footprint development or redevelopment.</p> <p>Wishes to ensure that infrastructure is sufficient for the planned more intensive development.</p> <p>Supports encouragement of the redevelopment of seismic limited structures.</p> <p>Ensure the inclusion of adequate community facilities including green spaces, connectivity and laneways.</p> <p>Ensure there is wider scale area planning for climate change effects - minimum floor heights, flood flow zones, and Porirua stream development setbacks.</p> <p>[Refer to original submission for full reason]</p>	Seeks that a Structure Plan is developed for the Tawa CBD to sit alongside the plan that provides a more holistic community and business development.
Tawa Community Board	294.2	Other / Other / Other	Not specified	Considers that passing the baton to GWRC in providing the minimum setback measure does not address the problems caused by the intersection between GWRC and WCC responsibilities in this transitional space along the stream edge.	Seeks that the Proposed District Plan includes more stringent measures to provide greater protection against increased erosion events along the Porirua Stream.
Matthew Plummer	300.1	Other / Other / Other	Support	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.
Roland Sapsford	305.1	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Supports Live Wellington's submission. [refer to submission 154]
Roland Sapsford	305.2	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Supports Aro Valley Community Council Inc's submission. [refer to submission 87]
Roland Sapsford	305.3	Other / Other / Other	Not specified	[no specific reasons - refer to original submission]	Seeks that a community based planning exercise be undertaken with reference to intensification as a method for increasing housing supply within areas subject to the revised demolition controls, and that this be completed before significant infrastructure investment.
Lower Kelburn Neighbourhood Group	FS123.52	General / Other / Other / Other	Support	<p>Considers that for a harmonious and involved citizenry, community deliberative processes are necessary to decide where development and intensification can take place in their local area.</p> <p>Seeks each community participates in deciding where, in their local area, high rise intensification is appropriate.</p>	Allow
Roland Sapsford	305.4	Other / Other / Other	Support	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.
Svend Heeselholt Henne Hansen	308.1	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the District Plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Moir Street Collective - Dougal List, Libby List, Karen Young, Jeremy Young, James Fairhall, Karen Fairhall, Craig Forrester, Sharlene Gray	312.1	Other / Other / Other	Support	Supports the report 'Planning for Residential Amenity' by Boffa Miskell as it relates to its comments on boundary setbacks: 'it is common for a side, rear or front boundary set back to provide space between buildings. Set-backs can be used to provide a degree of privacy separation between adjoining buildings, allow site access/circulation or to address scale/dominance of buildings in relation to one another. Set backs in the order of 1-3m are common'.	Not specified.
Lisa Nickson, Garrick Northover and Warren Sakey	313.1	Other / Other / Other	Amend	Considers that the impacts of COVID, migration and remote working should be factored into the council's projections of 50,000 to 80,000 population growth over the next 30 years.	Seeks that the Council's population growth projections be re-assessed.
oOh!Media Street Furniture New Zealand Limited	316.1	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission]	Supports the submission made by Out of Home Media Association of Aotearoa. [Refer to submission 284]
Bruce Crothers	319.1	Other / Other / Other	Not specified	Considers that the Council needs to respond to the climate emergency, as it is indeed an emergency. Radical change is required.	Seeks that Council responds to the climate emergency.
Bruce Crothers	319.2	Other / Other / Other	Not specified	Considers that responding to biodiversity collapse and the climate emergency will require a deliberate reduction in economic activity, less cars, less planes, energy consumption reductions by using less heating and cooling, less wasteful consumption and a return to values of the past that put humans above money.	Seeks reductions in economic activity, energy consumption and wasteful consumption.
Hilary Watson	321.1	Other / Other / Other	Support	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.
Hilary Watson	321.2	Other / Other / Other	Support	Supports Newtown Residential Association's submission on the topic of extending Character Precincts to houses bordering on Carrara Park.	Supports Newtown Residential Association's submission. [refer to submission 440]
Hilary Watson	321.3	Other / Other / Other	Not specified	Considers that submissions from the public on the Spatial Plan and the District Plan, and the resulting professional advice to Councillors made by Council Officers was disregarded by just over half of councillors.	Not specified.
Hilary Watson	321.4	Other / Other / Other	Support	Supports Red Design's Submission on the Draft District Plan, as it shows how 2000 dwellings can be fitted in around the central spine of Newtown by making use of under-utilised land and going up to six stories.	Supports Red Design's Submission on the Draft District Plan.
Richard Murcott	322.1	Other / Other / Other	Support	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.
Richard Murcott	322.2	Other / Other / Other	Not specified	Considers that Council should use facts and evidence-based decision-making rather than ideology to drive the PDP.	Not specified.
Richard Murcott	322.3	Other / Other / Other	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that new developments in the Thorndon area require resource consents, with notification clauses that provide for the community and neighbours to have a say on new developments.
Tawa Residents Association	328.1	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Supports the Tawa Community Board's submission. [refer to submission 294]
Tawa Residents Association	328.2	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Supports the Tawa Business Group's submission. [refer to submission 107]
Mt Cook Mobilised	331.1	Other / Other / Other	Support	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.
Mt Cook Mobilised	331.2	Other / Other / Other	Not specified	Considers that all Community Emergency Hubs should have water tanks on site.	Not specified.
Mt Cook Mobilised	331.3	Other / Other / Other	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that all parks have water tanks on site unless they are within the tsunami hazard zone.
Mt Cook Mobilised	331.4	Other / Other / Other	Not specified	Apartments outside the tsunami zone need to have provision for water tanks in their grounds, in their basements, or in a designated separate storage area within the building. For apartments within the tsunami zone, indoor water storage areas need to be made available on level 5 and above. This is because anyone living below level 5 will have been asked to evacuate. People living above level 5 may be stranded for some time.	Seeks that multi-unit dwellings have provisions for water tanks in their grounds, basements, or in designated separate storage areas within their building.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Mt Cook Mobilised	331.5	Other / Other / Other	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that water tanks be required for all social housing complexes, particularly for new-builds.
Mt Cook Mobilised	331.6	Other / Other / Other	Not specified	Considers that apartment blocks should designate an area for humanure collection, or a long drop. Typically, this could be a wheelie bin and a supply of dry carbon matter, e.g. sawdust, used to cover each layer of contents. The wheelie bin would need to be stored for 6 months before it is safe to be disposed of as compost. The Body Corporate needs to determine how this will be done in each apartment complex, and communicate this to residents.	Seeks that apartments blocks be required to designate an area for humanure collection, or a long drop.
Kerry Finnigan	336.1	Other / Other / Other	Support	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.33	Other / Other / Other	Support	Supports submission that seeks to extend character precincts.	Allow
Kerry Finnigan	336.2	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Supports submission 275. [Refer to submission 275]
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.34	Other / Other / Other	Support	Supports submission that seeks to extend character precincts.	Allow
Property Council New Zealand	338.1	Other / Other / Other	Not specified	Considers that a whole-of-system approach should be adopted to make strides towards reducing emissions, rather than solely focusing efforts on the elimination of private vehicles. The Golden Mile design consultation earlier this year proposed up to 300 carparks being removed, with final numbers potentially changing. Removing private vehicle use directly contradicts to the Government's commitment towards EVs. The whole-of-system plan should consider a space for private vehicles (moving towards EV), a freight and transport movement plan, and should encourage sustainable designs within the building sector. [Refer to original submission for full reason]	Seeks that a whole-of-system approach be adopted to make strides towards reducing emissions.
Property Council New Zealand	338.2	Other / Other / Other	Not specified	Considers that congestion charging could support the upkeep of connections and infrastructure and support the development of EV charging stations around the city. This would align with the Government and the Council's policies to reduce total net emissions. The introduction of congestion charging should be ringfenced towards the upkeep of connections, infrastructure and EV charging stations around Wellington. [Refer to original submission for full reason]	Seeks that congestion charging be implemented to support the development of EV charging stations around the city.
The Retirement Villages Association of New Zealand Incorporated	FS126.202	General / Other / Other / Other	Not specified	The RVA does not oppose this submission point in principle, but due to the age and frequency of mobility constraints amongst retirement village residents, The RVA considers that the relief sought should not apply to retirement villages.	Amend / Allow submission points, subject to excluding retirement villages from the application of the new provisions.
Ryman Healthcare Limited	FS128.202	General / Other / Other / Other	Not specified	Ryman does not oppose this submission point in principle, but due to the age and frequency of mobility constraints amongst retirement village residents, Ryman considers that the relief sought should not apply to retirement villages.	Amend / Allow submission points, subject to excluding retirement villages from the application of the new provisions.
Tina Reid	341.1	Other / Other / Other	Support	Support the majority of the Mt Cook area as high density would destroy the pre-1930 character of the area, and believe that intensification of housing can happen in much more harmonious ways.	Supports the Mt Cook Mobilised submission. [Refer to submission 331]
Mt Victoria Residents' Association	342.1	Other / Other / Other	Amend	Considers that resource consents' requirements are not properly enforced and offers should be supported and trained to ensure no mistakes are made that require retrospective consents and administrative tasks to be undertaken in order to get the paperwork in line.	Seeks that resource consents are properly enforced.
Mt Victoria Residents' Association	342.2	Other / Other / Other	Not specified	Considers that another density measure based on people, or separate dwellings per hectare and not number of storeys per building should be included in the PDP.	Seeks that a new density measurement based on people per hectare be included.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Mt Victoria Residents' Association	342.3	Other / Other / Other	Not specified	Considers that low-speed and low-traffic improvements would allow greater connections with neighbours in most suburbs.	Not specified.
Mt Victoria Residents' Association	342.4	Other / Other / Other	Not specified	Considers that the maintenance of redevelopment of character houses should be financially supported. Reworking existing buildings has been shown to be more climate-friendly than construction of entirely new structures.	Seeks that renovation activities for character houses be financially supported.
Mt Victoria Residents' Association	342.5	Other / Other / Other	Not specified	Considers that a new scheme needs to be designed that utilises the full scope of grounds available in this case for exemption from NPS height provisions. In order to allow proper consideration of an alternative scheme, the Council needs to complete a design for that new scheme in close consultation with affected stakeholders, and complete a draft evaluation report in support of it. This will preferably be carried out on an explicit co-design basis. It needs to be prepared well in advance of any consultation on proposed revisions to the district plan as it would be fundamental to the shaping of such changes. [Refer to original submission, including Appendix 1]	Seeks that a new NPS height exemption scheme be designed for Mount Victoria, as outlined in Appendix 1. [Refer to original submission and Appendix 1]
Mt Victoria Residents' Association	342.6	Other / Other / Other	Amend	Considers that new height limits could be introduced incrementally. While the NPS requires sufficient development capacity to be identified for the coming 30 years, it does not require that all of this be made available immediately. Only what is required in the next 3 years needs to be available at any one time. So instead of releasing all the capacity at once, through changing height limits across the suburb overnight, the capacity can be released in blocks. As one block is nearly used up, more can be made available as there is evidence of need. Once there development is channelled to priority areas, the immediate need for new dwellings can be catered to without having to incur costs through sacrificing amenity values before it is clear there is a need for this.	Seeks that new height limits be released and enforced incrementally.
Kāinga Ora – Homes and Communities	FS89.97	General / Other / Other / Other	Oppose	Kāinga Ora opposes this submission and its impacts on the supply of a variety of housing choices and typologies in Wellington, noting that NPSUD capacity requirements are minimums not targets.	Disallow
Carolyn Stephens	344.1	Other / Other / Other	Amend	Considers that the plan needs to identify community-based planning for intensification as a method for increasing housing supply within areas subject to the revised demolition controls.	Seeks that community-based planning for intensification be identified to increase housing supply in areas subject to revised demolition controls.
Lower Kelburn Neighbourhood Group	FS123.50	General / Other / Other / Other	Support	Considers that for a harmonious and involved citizenry, community deliberative processes are necessary to decide where development and intensification can take place in their local area. Seeks each community participates in deciding where, in their local area, high rise intensification is appropriate.	Allow
Ryman Healthcare Limited	346.1	Other / Other / Other	Support in part	Supports the Retirement Village Association of New Zealand's' submission on the provisions applicable to the Medium Density Residential Zone.	Supports the Retirement Village Association of New Zealand's' submission. [refer to submission 350]
Restaurant Brands Limited	349.2	Other / Other / Other	Support	Support	Retain Ngā Hononga i Waenga i Ngā Paparanga Mokowā - Relationships Between Spatial Layers as notified.
Greater Wellington Regional Council	351.1	Other / Other / Other	Amend	Considers it appropriate to have regard to the Proposed RPS Change 1 (Policy FW.3) and give effect to the RMA	Seeks that any changes through the process that require S32AA evaluation should include matters in Policy FW.3 as appropriate.
Greater Wellington Regional Council	351.2	Other / Other / Other	Support in part	Supports s32 reports.	Not Specified.
Greater Wellington Regional Council	351.3	Other / Other / Other	Amend	Considers it appropriate to have regard to the Proposed RPS Change 1 (Policy FW.3, FW.4, 55 and UD.3) and give effect to the RMA.	Seeks that any changes through the process that require S32AA evaluation should include matters in Policy 55 as appropriate, for any new FUS or any change to relevant residential zones, commercial, industrial or mixed-use zones.
Greater Wellington Regional Council	351.4	Other / Other / Other	Amend	Considers it appropriate to make decisions based on the best available information and mātauranga Māori, upholding Māori data sovereignty and requiring Māori data and mātauranga Māori to be interpreted within Te Ao Māori.	Seeks to ensure that where Māori data is used, sovereignty is upheld and data is interpreted within Te Ao Māori.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.5	Other / Other / Other	Amend	Considers that to ensure planners and decision makers understand the key natural character values when assessing the potential effects of an activity, and therefore support the protection of natural character, we request that the 2016 Boffa Miskell natural character assessment report is made public.	Seeks to make the 2016 Boffa Miskell natural character assessment report publicly available alongside the PDP.
Lower Kelburn Neighbourhood Group	356.1	Other / Other / Other	Amend	Considers that height limits on apartment blocks should not have exceptions. Notes that these height limits are most likely specified for reasons of safety in steep valleyed and severe earthquake-prone zones; to prevent domination of the city and hills around the harbour by manmade structures; and probably for practical infrastructure reasons. Such reasons should be adhered to for the necessary purposes they were put in place, with no exceptions.	Seeks that height limits be strictly enforced.
Historic Places Wellington Inc	FS111.158	General / Other / Other / Other	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Sarah Walker	367.1	Other / Other / Other	Not specified	Considers that a derelict building on the Terrace could be used for apartments as it will have good access to amenities without encroaching on existing homes.	Seeks that a derelict building on the Terrace is used for apartments. [Inferred decision requested]
Elizabeth Nagel	368.1	Other / Other / Other	Not specified	Supports the Live Wellington submission.	Not specified.
Historic Places Wellington Inc	FS111.207	General / Other / Other / Other	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Inferred reference to submission 158.1]	Allow
Elizabeth Nagel	368.2	Other / Other / Other	Amend	Considers that the plan needs to identify community-based planning for intensification as a method for increasing housing supply within areas subject to the revised demolition controls.	Seeks that community-based planning for intensification be identified to increase housing supply in areas subject to revised demolition controls.
Lower Kelburn Neighbourhood Group	FS123.48	General / Other / Other / Other	Support	Considers that for a harmonious and involved citizenry, community deliberative processes are necessary to decide where development and intensification can take place in their local area. Seeks each community participates in deciding where, in their local area, high rise intensification is appropriate.	Allow
Jane Szentivanyi and Ben Briggs	369.1	Other / Other / Other	Amend	Considers that provisions of food sources and flight paths for Wellington's birds is an important aspect of Wellington's natural environment.	Seeks that provisions be made in the District Plan to provide for food source and flight paths of local birds. [Inferred decision requested]
Jane Szentivanyi and Ben Briggs	369.2	Other / Other / Other	Not specified	The Council's previous plantings of kowhai and pōhutukawa in the city to support the indigenous bird life is applauded. The significant increase in indigenous birdlife in the city adds to its uniqueness and character.	Not specified.
Jane Szentivanyi and Ben Briggs	369.3	Other / Other / Other	Not specified	Considers that the timing and location of development in the city will be a relevant factor in meeting the Atakura - First to Zero emission reduction targets of 57% by 2030 and to net zero by 2050. Emissions from the construction industry have increased by 66 percent in the decade from 2007 - 2017. As well as the carbon footprint of the raw materials used in construction, we need to reduce locked-in or embodied carbon. The large scale demolition of existing homes will have a negative impact on any carbon reduction goals. It is considered that more than half of upfront embodied carbon emissions captured in a building's sub-structure, frame, upper floors and roof, the business case for refurbishing is growing. On average, the carbon footprint of a refurbished building is half that of a newly built replacement building. The concept of "novelty of new" needs to be rethought.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Lower Kelburn Neighbourhood Group	FS123.36	General / Other / Other / Other	Support	Supports submission because it is considered it is against demolition of pre-1930s homes because of the high CO2 emissions resulting and also from re-building with new materials. Council should control demolition of old buildings and seek to renovate and repurpose them to reduce CO2 emissions.	Allow
Jane Szentivanyi and Ben Briggs	369.4	Other / Other / Other	Not specified	Considers that there currently is sufficient development capacity and that further development capacity can and should be encouraged in existing underutilised brownfields - such Kent Terrace, Cambridge Terrace, south end of Taranaki St and the north end of Adelaide Road. The increased development along this transport spine and in walking distance to the CBD will meet a number of objectives of the Proposed District Plan	Seeks that further development capacity be encouraged in existing underutilised brownfields, such Kent Terrace, Cambridge Terrace, the south end of Taranaki St and the north end of Adelaide Road.
Waka Kotahi	370.3	Other / Other / Other	Amend	Oppose use of 'access allotment' as it is redundant as it duplicates definition of access lot and access strip.	Seeks any consequential changes in the plan to convert "Access Allotment" to "Access Lot".
Waka Kotahi	370.4	Other / Other / Other	Amend	Oppose use of 'access allotment' as it is redundant as it duplicates definition of access lot and access strip.	Seeks any consequential changes in the plan to change "access strip" to "access lot".
Waka Kotahi	370.5	Other / Other / Other	Amend	Considers that The operative district plan does not contain provisions to manage noise and vibration effects to new noise sensitive activities established alongside state highway. where there is intensification of noise sensitive activities proposed which has immediate legal effect (such as in HRZ and MRZ zones) the related provisions in the NOISE chapter to manage the effects should also have immediate legal effect (e.g rules in Noise-R3). Is concerned about the risk of intensification occurring alongside state highways which is not designed to appropriately mitigate noise and vibration effects in the existing environment, and the adverse human health and nuisance effects to occupants as a result	Seek that Noise R3 rules have immediate legal effect [Inferred decision requested].
Jane Szentivanyi	376.1	Other / Other / Other	Not specified	Considers that intensification and density must be undertaken in a way that also maintains the character, amenity and heritage of the City. Density done well should be the bottom line, not density at all costs.	Seeks that density be undertaken in a way that also maintains the character, amenity and heritage of the City.
Jane Szentivanyi	376.2	Other / Other / Other	Not specified	Considers that Moir Street should have even more importance placed on mitigating the impacts of development from adjoining sites, given it is designated as a heritage area by Boffa Miskell. Boffa Miskell's recommendation for all character areas is a 5m boundary height limit with a 60 degree recession plane for any zone adjoining a character area (let alone allowing 28m high buildings). This is based on their extensive studies to maintain acceptable hours of sunlight access to existing buildings, but also compromising to still allow for development to take place. Moir Street is recognised as one of the key coherent character and heritage areas of Mt Victoria. The street is unique, it has a small and diverse community, as well as many historical and cultural qualities that must be preserved from CCZ standards. No other MDRZ has as many character and heritage factors as Moir Street. This means that the specific changes requested in relation avoiding significant adverse impacts on Moir St do not have wider ramifications for the Council's intensification plans. Development as currently proposed in the draft district plan would have a significant adverse effect on the character, heritage and amenity of houses on both sides of Moir St. You simply cannot mitigate the impacts of buildings which are up to 28.5m tall on a heritage / character area consisting of low lying houses [Refer to original submission for full reason]	Seeks that the character, heritage value and sunlight access of Moir Street be protected from the adverse effects of nearby City Centre Zoning standards.
Jane Szentivanyi	376.3	Other / Other / Other	Support	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.
Henry Bartholomew Nankivell Zwart	378.1	Other / Other / Other	Amend	Considers that changes should be made that actively support, and definitely don't undermine, the better places created by more density done well and proximity to daily amenities.	Seeks changes to the Council's Network Operating Framework, Parking Policies, street maintenance systems.
Henry Bartholomew Nankivell Zwart	378.2	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Henry Bartholomew Nankivell Zwart	378.3	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale. [Inferred decision requested].
Wellington Civic Trust	388.1	Other / Other / Other	Amend	Considers that the Wellington Waterfront Framework 2001 should be completed. The Wellington Waterfront Framework 2001 was intended to be Stage One of a three-stage process. Stage two was to prepare detailed plans for each of the sub-areas, and Stage three was an implementation and monitoring stage. The current Framework is thus no more than a framework, as has been pointed out by the Environment Court.	Seeks that the Council completes the unfinished work on the Wellington Waterfront Framework so that it provides greater detail for the future of the distinctive areas of the waterfront.
Taranaki Whānui ki te Upoko o te Ika	389.1	Other / Other / Other	Not specified	Considers that the extensive opportunities for Taranaki Whānui in Strathmore, that Taranaki Whānui would like opportunities of engagement. [see original submission].	Seeks the opportunity to engage with Council and stakeholders regarding future regeneration opportunities in Strathmore.
Taranaki Whānui ki te Upoko o te Ika	389.2	Other / Other / Other	Oppose in part	Considers that social and cultural wellbeing has not been adequately provided for within the Proposed District Plan. The planning framework that has focused on delivering a certain type of suburban and rural development – typically one dwelling per site with no communal buildings/outdoor areas, does not fit with more traditional forms of village living such as Papakāinga where tikanga Māori can be practiced. [refer to original submission for full reason]	Not specified.
Wellington Civic Trust	FS83.46	General / Mapping / Mapping General / Rezone	Oppose	Wellington Civic Trust supports the extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford, and the proposed zoning of the prison land. This is an important part of Wellington's current green space, which Wellington Civic Trust has had a long interest and involvement in, and the overlays and zoning are appropriate.	Disallow
Andy Foster	FS86.4	General / Other / Other / Other	Support	Considers it is important that papakainga are allowed for. Considers that there is a problem with Taranaki Whānui's submission is that it is completely open ended about definition, location, size, design, height – and therefore potential impacts. Considers that it is quite reasonable that papakainga be allowed in areas where that level of development is anticipated. For example in residential areas allowing 11 metre heights, and the appropriate level of site coverage. That does not apply in ridgelines, special amenity areas, or open space. For Watts Peninsula this again means that a papakainga could well be a result of a master planning exercise, but it would come with some certainty about location, scale etc. Supports the request in part as it applies to zones where housing development of equivalent scale, height, site coverage is expected. For clarity that excludes open space and recreation zones and limits scale in rural areas. [See original Further Submission for full reasoning]. [Inferred reference to submission 389.2]	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Andy Foster	FS86.14	General / Mapping / Rezone / Rezone	Oppose	<p>The submission from Taranaki Whānui if accepted would remove all protections, many of them long standing and uncontested for decades, from Te Motu Kairangi / Watts Peninsula and make community involvement much less likely, and limit the need for community involvement. On these basis the submitter opposes Taranaki Whānui's submission.</p> <p>Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan. It has been Open Space B for at least the last 30 years, and nobody has ever contested this. That includes both the Corrections and Defence Land.</p> <p>The Proposed District Plan keeps Watts as Open Space and within the Ridgelines and Hilltops Overlay. It also adds Significant Natural Areas (for biodiversity) and a Special Amenity Landscape (because of its high level of landscape importance) All of these are based on good evidence. Taranaki Whānui want all of those restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear exactly how large an area they want to have rezoned.</p> <p>Taranaki Whānui's request to remove the Open Space zoning which has been in place, uncontested by the owners, for at least 30 years. The current Open Space B zoning does not anticipate any built development and therefore there is no legal or reasonable expectation that there should be any development here.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 389.20]</p>	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.3	Other / Other / Other	Not specified	<p>Considers that with any decisions made in respect of landholdings over which Taranaki Whānui have an interest in, that Taranaki Whānui are consulted first so as to ensure our interests are given due consideration as required under the RMA and in line with their MOU with Council.</p> <p>[refer to original submission for full reason]</p>	Seeks that any decisions made in respect of landholdings over which Taranaki Whānui have an interest in, that Taranaki Whānui are consulted first.
Laurence Harger & Ingrid Kölle	FS2.1	General / Other / Other / Other	Oppose	<p>Taranaki Whānui has sold the land it owned at Shelly Bay to The Wellington Company for a large development which was consented via the Special Housing Accords Act, thus denying the community any say on the consenting process. Community involvement should be ensured for the future though and the current DP height limit of 11 metres in some areas and the zero height limit in Open Space B land should remain. A recent poll has shown that the wider Wellington public want Shelly Bay included in a National Heritage Park centred on the 76 hectares of Watts Peninsula already designated for a reserve by the Government.</p> <p>Taranaki Whānui have treated Shelly Bay solely as a commercial proposition despite disagreement by a large group of its members (Mau Whenua) who occupied the site and opposed its sale, wanting to uphold their cultural and spiritual connection to the land. Mau Whenua continue to oppose the sale of the land at Shelly Bay and should be included by the council in all decisions taken about its future.</p>	Disallow / Seeks that the provisions relating to Shelly Bay in submission 389 are disallowed.
Laurence Harger & Ingrid Kölle	FS2.12	General / Other / Other / Other	Oppose	<p>76 hectares of Watts Peninsula has been set aside by the government as a reserve focused on protecting iwi and military history sites and retaining the value of the natural landscape of the area. Supports the establishment of such a reserve and would like to see it become part of the National Heritage Park proposed by the Buy Back the Bay group. The zoning and overlays of the Proposed District Plan must be kept if the reserve/heritage park is to be a viable option. Taranaki Whānui's requests would remove many protections that have been longstanding and unopposed for decades, which must surely not occur without extensive community engagement. Watts Peninsula, with its ridges and hill lines visible from all over Wellington, should remain undeveloped, which might very well not be the case if the land is rezoned.</p>	Disallow / Seeks that the part of the submission to remove the proposed zoning and overlays on Watts Peninsula be disallowed.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Mary Varnham and Paul O'Regan	FS40.1	Other / Other / Other	Oppose	<p>Taranaki Whānui has sold its holdings at Shelly Bay and are no longer, as claimed, 'significant landowners'. Their possible ownership interest in the peninsula as a whole through Right of First Refusal is confined to the Mt Crawford site as the adjacent 76 hectares of Watts Peninsula has been designated reserve by the government (the current landowner) and WCC since 2011.</p> <p>The local community, despite its active interest in and use of the bay, was shut out of all consultation during the resource consent process. It is critical that it be involved in all future decision making.</p> <p>The current DP height limit of 11 metres in some areas and the zero height limit in Open Space B land is supported not only by the local community but by the wider Wellington public, as evidenced in the independent poll conducted for the group Buy Back the Bay by Research NZ, which showed that 78% of Wellingtonians want Shelly Bay included in a National Heritage Park, which would also include the 76 hectares of Watts Peninsula set aside by the government as a reserve in 2011.</p> <p>Taranaki Whānui have viewed Shelly Bay as a strictly commercial proposition and disavowed any cultural, historical and spiritual connection to the site. A substantial proportion of the iwi (mau whenua) have opposed and continue to oppose the sale of the site, and should be included by the council in all democratic decision making about the future of Shelly Bay.</p>	Disallow
Mary Varnham and Paul O'Regan	FS40.12	Other / Other / Other	Oppose	<p>From 2011 the 76 hectares of Watts Peninsula has been set aside by the government as a reserve, to incorporate and protect iwi (as well as military) sites and history. Submitter supports this as an appropriate and visionary plan for the peninsula.</p> <p>Submitter supports the proposal of Buy Back the Bay group that the area should become a National Heritage Park.</p> <p>Submitter supports a conservancy model for development and management of this park, to include iwi, government, council, the local community, and organisations such as Forest and Bird and Predator Free Miramar.</p> <p>Disallow all proposals by Taranaki Whānui to remove the proposed zoning and overlays. These provisions are vital to protect the natural values, history and landscape of Watts Peninsula, a prominent feature of Te Whanganui-a-Tara.</p> <p>Supports retaining all provisions in the proposed district plan for Open Space B, Ridgelines and Hilltops, Significant Natural Areas and Special Amenity Landscape. We note the magnificent work done by Predator Free Miramar. Protecting and enhancing the huge gains in bringing back birdlife made should be a primary consideration. We also believe the peninsula should see extensive planting and regeneration of native forest.</p>	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.4	Other / Other / Other	Not specified	<p>Considers that the success of the Proposed District Plan for Taranaki Whānui will be realised through high standards of implementation and ability to operationalise the provisions well. It is expected that:</p> <ul style="list-style-type: none"> - Tākai Here and Tūpiki Ora will enable resourcing for Taranaki Whānui partnership opportunities with Wellington City Council. - Cultural Capability Programmes will be developed with Taranaki Whānui for successful implementation. 	Not specified.
Taranaki Whānui ki te Upoko o te Ika	389.5	Other / Other / Other	Amend	<p>Seeks that the interest of the submitter in Shelly Bay is given recognition.</p>	Seeks that the planning framework as set out in the consented Shelly Bay Masterplan and Design Guide is adopted as the default planning settings for the landholdings within the scope of the granted consents.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Laurence Harger & Ingrid Kölle	FS2.2	General / Other / Other / Other	Oppose	<p>Taranaki Whānui has sold the land it owned at Shelly Bay to The Wellington Company for a large development which was consented via the Special Housing Accords Act, thus denying the community any say on the consenting process. Community involvement should be ensured for the future though and the current DP height limit of 11 metres in some areas and the zero height limit in Open Space B land should remain. A recent poll has shown that the wider Wellington public want Shelly Bay included in a National Heritage Park centred on the 76 hectares of Watts Peninsula already designated for a reserve by the Government.</p> <p>Taranaki Whānui have treated Shelly Bay solely as a commercial proposition despite disagreement by a large group of its members (Mau Whenua) who occupied the site and opposed its sale, wanting to uphold their cultural and spiritual connection to the land. Grace Ridley-Smith	390.1	Other / Other / Other	Support	Supports the Council Officers' recommendations June 2021 for Mount Victoria	Supports the Council Officers' recommendations June 2021 for Mount Victoria
Sarah Cutten and Matthew Keir	FS91.54	Other / Other / Other	Oppose	<p>The further submitter is opposed the generic support for all new additions to SCHED1. The further submitter does not believe the original submitter has made any detailed assessment of each scheduled item to inform their view, and as such, believe their submission point should be discounted.</p> <p>[See original further submission for full reason].</p>	Disallow / Seeks that the Council does not add new listings of private homes without owner's consent.
Grace Ridley-Smith	390.2	Other / Other / Other	Support	Supports the Council Officers' recommendations June 2021 for other old suburbs (such as Thorndon and Mount Cook etc.).	Supports the Council Officers' recommendations June 2021 for other old suburbs (such as Thorndon and Mount Cook etc.).
Grace Ridley-Smith	390.3	Other / Other / Other	Support	Supports the heritage scheduling of additional sites identified by Historic Places Wellington.	Seeks that the Heritage Buildings identified by the Historic Places Wellington submission are listed in SCHED3 - Heritage Areas. (Historic Places Wellington Submission 182).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.1	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that any specific sites or buildings that the Council considers to be worthy of protection to be assessed on a site-by-site basis to determine if it meets the definition of historic heritage as set out in s6 of the RMA and propose that those sites or buildings are considered for scheduling in the PDP, including any buildings that the Council considers having historic heritage values pre-1930s and should be protected.
Hilary Watson	FS74.25	General / Other / Other / Other	Oppose	Considers that the proposal to add Town Centres - ie Newtown, Miramar and Tawa - to the Centres hierarchy is an unnecessary change. There is enough realisable capacity for development even if the PDP is modified to further reduce walking catchments and increase character precincts. Overzoning has many negative effects on the urban environment.	Disallow
Kāinga Ora Homes and Communities	391.2	Other / Other / Other	Support	Considers that a Town Centre zone should be added to the Hierarchy of Centres and to include Miramar, Tawa, and Newtown. Considers that all of these centres provide a range of commercial, community, recreational and residential activities that service the needs of the immediate and neighbouring suburbs. The introduction of a Town Centre is sought to more appropriately reflect the wider catchment that these geographic centre services (both now and into the future). A proposed chapter with a full set of provisions has been provided with the submission [see submission for further details].	Seeks the addition of a new Town Centre Zone chapter in the proposed District Plan, with: <ol style="list-style-type: none"> 1. Town Centre Zone provisions in Appendix 2 of the submission [see original submission for full details]. 2. The Miramar commercial centre is zoned as a Town Centre Zone as sought in this submission and on the planning maps in Appendix 4 [see original submission for full details]. 3. The Tawa commercial centre is zoned as a Town Centre Zone as sought in this submission and on the planning maps in Appendix 4 [see original submission for full details]. 4. The Newtown commercial centre is zoned as a Town Centre Zone as sought in this submission and on the planning maps in Appendix 4 [see original submission for full details]. 5. Any consequential updates to the Plan to account for the introduction of a Town Centre Zone. 6. Amendments to planning maps are made as shown in Appendix 4 of this submission [see original submission for full details]. 7. Any consequential updates to maps.
Newtown Residents' Association	FS63.2	General / Other / Other / Other	Oppose	Considers that the proposal to add Town Centres - ie Newtown, Miramar and Tawa - to the Centres hierarchy is an unnecessary change. As outlined in the submission appendix of Kāinga Ora's original submission, the primary purpose seems to be to justify increasing the walking catchments and increasing permitting building heights up to 8 storeys. Newtown Residents' Association original submission (#440) outlines that there is enough realisable capacity for development even if the PDP is modified to further reduce walking catchments and increase character precincts. The rationale for the Kainga Ora submission is that maximising development is desirable and leads to a "well functioning urban environment". We argue that zoning for vastly more development than will be realised in the foreseeable future is counter productive and has many negative effects on the urban environment. [Inferred reference to submission 391.2]	Disallow
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.3	Other / Other / Other	Oppose	Submitter opposes new Town Centre Zone to be added to Newtown including corresponding objectives.	Disallow
Hilary Watson	FS74.26	General / Other / Other / Other	Oppose	Considers that walkable catchments in PDP are already too large - reducing them can still provide predicted development capacity. They should be reduced to avoid negative effects on the community.	Disallow
Onslow Residents Community Association	FS80.9	General / Other / Other / Other	Oppose	Considers an additional layer in the hierarchy of centres adds undue complexity. Considers it is not necessary for a small-medium city such as Wellington. Seeks to retain hierarchy of centres and definition of Local Centres as notified.	Disallow
Wellington's Character Charitable Trust	FS82.62	General / Other / Other / Other	Oppose	Considers an additional layer in the hierarchy of centres adds undue complexity. Not necessary for a small-medium city such as Wellington.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	FS84.17	General / Other / Other / Other	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that SNAs are applied to all zones where relevant criteria are met.
Kāinga Ora Homes and Communities	391.3	Other / Other / Other	Amend	Considers that a Town Centre zone should be added to the Hierarchy of Centres and to include Miramar, Tawa, and Newtown. Considers that all of these centres provide a range of commercial, community, recreational and residential activities that service the needs of the immediate and neighbouring suburbs. The introduction of a Town Centre is sought to more appropriately reflect the wider catchment that these geographic centre services (both now and into the future). A proposed chapter with a full set of provisions has been provided with the submission [see submission for further details].	Seeks the addition of a new Town Centre Zone chapter in the proposed District Plan, with: 1. Town Centre Zone provisions in Appendix 2 of the submission [see original submission for full details]. 2. The Miramar commercial centre is zoned as a Town Centre Zone as sought in this submission and on the planning maps in Appendix 4 [see original submission for full details]. 3. The Tawa commercial centre is zoned as a Town Centre Zone as sought in this submission and on the planning maps in Appendix 4 [see original submission for full details]. 4. The Newtown commercial centre is zoned as a Town Centre Zone as sought in this submission and on the planning maps in Appendix 4 [see original submission for full details]. 5. Any consequential updates to the Plan to account for the introduction of a Town Centre Zone. 6. Amendments to planning maps are made as shown in Appendix 4 of this submission [see original submission for full details]. 7. Any consequential updates to maps.
Newtown Residents' Association	FS63.3	General / Other / Other / Other	Oppose	Newtown Residents' Association submit that the walkable catchments in the PDP are certainly adequate to allow more than enough realisable development capacity, and could be reduced further. Zoning for more development than needed has unintended negative consequences. [Inferred reference to submission 391.3]	Disallow
Onslow Residents Community Association	FS80.10	General / Other / Other / Other	Oppose	Considers an additional layer in the hierarchy of centres adds undue complexity. Considers it is not necessary for a small-medium city such as Wellington. Seeks to retain hierarchy of centres and definition of Local Centres as notified.	Disallow
Wellington's Character Charitable Trust	FS82.63	General / Other / Other / Other	Oppose	Considers an additional layer in the hierarchy of centres adds undue complexity. Not necessary for a small-medium city such as Wellington.	Disallow
Greater Wellington Regional Council	FS84.18	General / Other / Other / Other	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Murray Pillar	393.1	Other / Other / Other	Support	Supports the Boffa Miskell 2019 report.	Seeks to amend the character precincts to reflect the area recommended in the Boffa Miskell 2019 report.
Thorndon Residents' Association Inc	FS69.76	General / Other / Other / Other	Support	Boffa Miskell - adoption Boffa Miskell – support definitions and include all Add Character Precincts to areas missed 10min walkable catchment Character precincts and rules Character precincts for all sites identified by Boffa M. Establish Character Precincts where they were missed resource consents for demolishing pre-1930s dwellings	Allow
Matthew Tamati Reweti	394.1	Other / Other / Other	Amend	Considers that changes should be made that actively support, and definitely don't undermine, the better places created by more density done well and proximity to daily amenities.	Seeks changes to the Council's Network Operating Framework, Parking Policies, street maintenance systems.
Matthew Tamati Reweti	394.2	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Matthew Tamati Reweti	394.3	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale. [Inferred decision requested].
Stephen Minto	395.1	Other / Other / Other	Oppose	Considers that the assumption of undersupply of housing driving housing prices up and fixing this problem by increasing the supply of houses to drive down prices is false and will not deliver affordable housing. The real problem is not a housing supply shortage but excessive demand for the usage of housing for purposes other than long-term residence. This includes: short-term rentals for tourists e.g. Airbnb and holidays; Overseas students; High pre-Covid immigration; Superannuation/Income investments; and "build to rent". The private market, with its economic imperative to maximise profit, simply does not work to set prices by using demand and supply. These reasons mean that intensification does not result in affordable housing. [Refer to original submission for full reason]	Not specified.
Lower Kelburn Neighbourhood Group	FS123.4	General / Other / Other / Other	Support	Considers that in Inner City areas, expensive new high rise buildings will not provide resident living space but be used for short term rental. Considers that this will not provide affordable housing which should be the focus of Council. Considers that council should focus on brownfield development for affordable housing and ensuring high quality there. Considers the impact on functioning of older neighbourhoods by random placing of high buildings must be prevented.	Allow
Stephen Minto	395.2	Other / Other / Other	Oppose	Considers that under the Local Government Act 2002, section 10.1, the purpose of Council is to 'enable democratic local decision making'. Granting permission to developers to bully build up to six-stories without a right of complaint is not in alignment with promoting democracy and an abdication to an elite, and often wealthy few. Changes to intensification in the District Plan will not deliver affordable housing and therefore Council will be in breach of its purpose to promote social, economic, environmental and cultural well-being. [Refer to original submission for full reason]	Not specified.
Lower Kelburn Neighbourhood Group	FS123.5	General / Other / Other / Other	Support	Considers that in Inner City areas, expensive new high rise buildings will not provide resident living space but be used for short term rental. Considers that this will not provide affordable housing which should be the focus of Council. Considers that council should focus on brownfield development for affordable housing and ensuring high quality there. Considers the impact on functioning of older neighbourhoods by random placing of high buildings must be prevented.	Allow
David Cadman	398.1	Other / Other / Other	Amend	Considers that changes should be made that actively support, and definitely don't undermine, the better places created by more density done well and proximity to daily amenities.	Seeks changes to the Council's Network Operating Framework, Parking Policies, street maintenance systems.
David Cadman	398.2	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.
David Cadman	398.3	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale. [Inferred decision requested].

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.1	Other / Other / Other	Amend	<p>Expresses concern that 60% of the proposed district plan is notified using ISPP, rendering it unappealable.</p> <p>Considers that it is unclear how progressing the Natural Hazards chapter through the ISPP will give effect to one of the mandatory outcomes, and therefore questions why the entire chapter is being progressed through ISPP.</p> <p>Considers that it is unclear how the hearing process will work for chapters that are partly processed through Schedule 1 and partly through the ISPP.</p> <p>Considers that decisions from the ISPP cannot be appealed which significantly limits the opportunity for the provisions to be considered, which could have significant ramifications particularly for district-wide provisions and overlays such as those mentioned above.</p> <p>[See original submission for full reason]</p>	The submitter seeks that the matters relating to notification under the ISPP is appropriately rectified to ensure that only chapters/provisions which qualify to be notified under the ISPP are notified under the ISPP, and everything else is notified under Schedule 1.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.1	Other / Other / Other	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Cheryl Robilliard	409.1	Other / Other / Other	Support	[No specific reason given beyond decision requested - see original submission]	Seeks the relief requested by the Newtown Residents' Association with respect to sunlight protection to parks and reserves.
Cheryl Robilliard	409.2	Other / Other / Other	Support	[No specific reason given beyond decision requested - see original submission]	Seeks the relief requested by submitter Paul Forrest with respect to ecosystems in the context of densification and green corridors and biodiversity within the inner city and inner city suburbs Mt Victoria and Newtown.
Cheryl Robilliard	409.3	Other / Other / Other	Amend	[No specific reason given beyond decision requested - see original submission]	Amend the plan to include the Wellington City Council Green Network Plan as an enforceable key document for greening Wellington.
Cheryl Robilliard	409.4	Other / Other / Other	Amend	[No specific reason given beyond decision requested - see original submission]	Amend the Wellington City Council Green Network Plan to include Newtown and Mount Victoria.
Emma Osborne	410.1	Other / Other / Other	Amend	Considers that changes should be made that actively support, and definitely don't undermine, the better places created by more density done well and proximity to daily amenities.	Seeks changes to the Council's Network Operating Framework, Parking Policies, street maintenance systems.
Emma Osborne	410.2	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the District Plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.
Emma Osborne	410.3	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	<p>Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale.</p> <p>[Inferred decision requested].</p>
Wellington Heritage Professionals	412.2	Other / Other / Other	Support	<p>Considers that local and overseas research has shown that heritage contributes to positive economic, environmental, social, and cultural wellbeing outcomes.</p> <p>Considers that Seville, Graz and Copenhagen are good examples of cities that have strong heritage values.</p>	Not specified
Wellington Heritage Professionals	412.3	Other / Other / Other	Support	Considers that heritage and character can make a significant contribution to the city's climate change goals by reducing emissions and waste through sustainable resource use and mitigating the effects of climate change through building community cohesion and resilience.	Not specified
Wellington Heritage Professionals	412.4	Other / Other / Other	Amend	Considers that an approach where consent fees are fixed and payable upfront is an approach used in other places which NZ is frequently compared to such as Victoria and the United Kingdom. In these places the cost of planning permission is substantially lower than it is in New Zealand.	Seeks that the Council investigate making resource consent fees fixed and payable up front, depending on the cost of the activities being applied for.
Wellington Heritage Professionals	412.5	Other / Other / Other	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that Council continue its program of waiving resource consent fees for heritage items as an incentive to keep places in sustainable use.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Heritage Professionals	412.6	Other / Other / Other	Oppose	Considers that the lack of public consultation throughout the planning process combined with flawed analysis, particularly around character areas, has resulted in a schedule that does not adequately protect historic heritage nor reflect what Wellingtonians value.	Not specified.
Wellington Heritage Professionals	412.7	Other / Other / Other	Not specified	Considers that the methodology that has been used for selecting potential new places to add to the schedule is unclear. Considers that the section 32 analysis has limited information about the methodology used. States there is no heritage study listed in the technical assessments, reports and background content informing the Proposed District Plan. Considers that the work undertaken to review the schedule outlined in the relevant section 32 analysis report is ad hoc in nature, is not indicative of the expected methodology for a professional heritage study.	Not specified
Wellington Heritage Professionals	412.8	Other / Other / Other	Not specified	Considers that the Council has not adequately sought the views of the community on historic heritage in the development of the PDP. The submitter notes that the section 32 report notes engagement with owners, Heritage New Zealand Pouhere Taonga, Thorndon and Mt Victoria heritage groups on proposed new heritage listings but not with the general public. Considers that there was no awareness campaign activity commonly undertaken by TAs occurring, such as social media posts, newsletter content, or press releases, for example. [Refer to original submission for full reason]	Not specified.
Wellington Heritage Professionals	412.9	Other / Other / Other	Not specified	Considers that as the submissions on the draft district plan also included nominations for heritage listings that this is indicative of a lack of public engagement.	Not specified.
Wellington Heritage Professionals	412.10	Other / Other / Other	Not specified	Considers that much of the character areas are likely to meet the threshold for scheduling as historic heritage for their historical and physical significance.	Seeks that the Council apply the Greater Wellington Regional Council 'Guide to historic heritage identification' to assess the value of the character areas.
Sarah Cutten and Matthew Keir	FS91.10	Other / Other / Other	Support	The further submitter supports the point that there are significant weaknesses in the Council's process and their proposal lacks evidence - including the proposed listings in SCHED1. The further submitter supports this view and have also been disappointed with the Council's lack of diligence and rigor applied to justifying the original submitters proposal. The RMA sets clear requirements in s32 Clause 1(c) that the evaluation must contain a level of detail that corresponds to the scale and significance of the environmental, economic, social, and cultural effects that are anticipated from the implementation of the proposal. This requirement has not been met by the Council's evaluation. [See original further submission for full reason].	Allow / Seeks that the Council commission a study to improve understanding and quantify the value the community places on heritage across different types of heritage including isolated homes not visible or accessible to the public.
Wellington Heritage Professionals	412.11	Other / Other / Other	Oppose	Considers that the Pre-1930s character area Boffa Miskell review 2019 was based on a flawed analysis character areas. Considers that the review elevated original built form over pre-1930s character as described in the operative district plan.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Heritage Professionals	412.12	Other / Other / Other	Not specified	<p>Considers that there is a lack of evidence indicating that the existing heritage and character provisions in the District Plan are affecting the housing market in Wellington.</p> <p>Considers that the Council's 2019 HBA does not include any analysis of the impacts of heritage and character provisions on the housing market in Wellington.</p> <p>[Refer to original submission for full reason]</p>	Not specified.
Wellington Heritage Professionals	412.13	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the Council to lobby the government to improve resource consent processes to make them more cost effective and less risky.
Wellington Heritage Professionals	412.14	Other / Other / Other	Support	Considers that historically this is how housing shortages have been solved in New Zealand and that affordable and good quality housing has only been delivered in Aotearoa/NZ when the government has been a significant player in the housing market - either through cheap mortgage finance or by building dwellings itself.	Seeks that the Council continue to invest in social housing and lobby central Government to provide it.
VicLabour	414.1	Other / Other / Other	Not specified	<p>Considers that small groups of people have had a disproportionate influence on Council planning processes, particularly homeowners with a vested interest in slowing change to our urban form.</p> <p>[Refer to original submission for full reasons]</p>	<p>Seeks that the Council centres the needs of those worst affected by the realities and locked-in future challenges for the status quo.</p> <p>[inferred decision requested]</p>
VicLabour	414.2	Other / Other / Other	Support	Supportive of Council taking a partnership approach within a Te Tiriti framework, especially in relation to sites and areas of significance to Māori.	Not specified.
VicLabour	414.3	Other / Other / Other	Not specified	Considers that there is a saturation of colonial/settler monuments in the city, and mana whenua should be partnered with and empowered to shape the future of the city. Considers that as part of this Council should change current design rather than only taking a Te Tiriti approach for future developments.	Seeks that mana whenua are partnered with and empowered to shape the future of the city and as part of this council should change current design rather than only taking a Te Tiriti approach for future developments.
Te Rūnanga o Toa Rangatira	FS138.117	General / Other / Other / Other	Support	The submitter seeks that mana whenua are partnered with and empowered to shape the future of the city and as part of this council should change current design rather than only taking a Te Tiriti approach for future developments. Te Rūnanga o Toa Rangatira support this submission because mana whenua should be empowered to achieve their aspirations for Te Whanganui a Tara.	Allow
VicLabour	414.4	Other / Other / Other	Not specified	Supported the introduction of rent controls for council tenants on low incomes until at least Income related rent subsidy is realised, wages go up substantially or inflation is under control	Seeks that a rent to buy scheme, perhaps in partnership with central government is introduced. [Inferred decision requested]
Escape Investments Limited	FS136.29	General / Other / Other / Other	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning more people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
VicLabour	414.5	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that land be made available for infrastructure corridors, particularly the proposed MRT Southern spine corridor making sure that housing, transport, and other uses are well catered for.
VicLabour	414.6	Other / Other / Other	Amend	Considers that the district plan does not go far enough to address climate change and that meeting the challenge presented by climate change must be a key focus through the district plan. [see original submission for full reasons]	Seeks that the district plan be amended to create a legal obligation for carbon emissions to be controlled and budgeted in a time-bound way within wellington city.
Sarah Cutten and Matthew Keir	FS91.31	Other / Other / Other	Support	<p>The further submitter agrees that making changes to a heritage listed building is a very fraught, uncertain, and costly process. There is also risk that regimes change and become more restrictive in the future at further cost to property owners.</p> <p>The further submitter does not believe the community values associated with the heritage of the Gordon Wilson Flats (which the further submitter thinks are low) outweigh the costs of protection. The Council should evaluate the listing under s32 of the RMA and quantify the costs and benefits to inform their decisions.</p> <p>While the University is a large enough organisation to employ lawyers and team to fight its own battles, private home owners are simply not equipped with the resources to challenge heritage process. The further submitter discusses this issue in terms of the power imbalance and incentives of the Council in sections of their submission "The Council is naturally incentivised to over-provide Heritage protection" and "There is a significant power imbalance between the Council and isolated homeowners".</p> <p>[See original further submission for full reason].</p>	<p>Allow / Seeks that Item 299 (Gordon Wilson Flats) is removed from SCHED1 - Heritage Buildings (unless the Council can demonstrate a net benefit to retaining it in the schedule)</p> <p>The Council commission a study to improve understanding and quantify the value the community places on heritage across different types of heritage including isolated homes not visible or accessible to the public.</p> <p>The Council only list buildings where there is a net benefit to the community of doing so. Identify the effects of listing and quantify the costs and benefits to a level of detail that corresponds to the scale and significance the effect imposed by heritage listing (as required in s32 of the RMA).</p>
Sarah Cutten and Matthew Keir	415.1	Other / Other / Other	Not specified	<p>Considers Wellington, like many cities is under pressure from rapid growth and demographic changes, 'crumbling' and deficient infrastructure, supply and affordability housing issues for renters and first-time home buyers, societal demand for greater sustainability considerations, and resilience to climate change just to name a few.</p> <p>[Refer to original submission for full reason, including attachments]</p>	Not specified.
Sarah Cutten and Matthew Keir	415.14	Other / Other / Other	Not specified	<p>Considers that the Council should refer to guidance provided by the Ministry for the Environment, the NZ Treasury, the RMA and the Office of Best Practice Regulation in Australia. Guidance should be reviewed when undertaking evaluations of the impacts of proposed policies and changes on community value, cost-benefit analysis and non-use and community values. [Refer to original submission for full reasons, including attachments]</p>	<p>Seeks that Council use guidance from the Ministry for the Environment, the NZ Treasury, the RMA and the Office of Best Practice Regulation in Australia to better evaluate the impacts of Heritage listings.</p> <p>[Inferred decision requested]</p>
Sarah Cutten and Matthew Keir	415.15	Other / Other / Other	Not specified	<p>Considers the listing of 28 Robieson Street on the heritage schedule should proceed through a Schedule 1 process, rather than the ISPP [Refer to original submission for full reasons, including attachments]</p>	<p>Seeks that the listing of 28 Robieson Street on the heritage schedule should proceed through a Schedule 1 process, rather than the ISPP [Inferred decision requested]</p>
Ian Attwood	FS16.6	General / Other / Other / Other	Support	<p>Absence of accountability and fair presentation of evidence through denying a right of appeal through applying the ISPP instead of the RMA process.</p>	<p>Allow / Seeks that 28 Robieson Street be wholly removed from Schedule 1 'Heritage Buildings'.</p>
Sophie Kahn	FS76.5	Other / Other / Other	Support	<p>The submitter (415) highlight the following legal point: that the inclusion of new heritage listings in the ISPP, NPS-UD or MDRS is inappropriate, and there is insufficient justification for them. The Submitters (415) point to the legal misrepresentation WCC is using to justify the lack of right to appeal which does not follow the WCC's own requirements for natural justice. The further submitter concurs with their assertion.</p>	<p>Amend / Delete Item 514 (28 Robieson St) from SCHED1 - Heritage Buildings. Allow all private homeowners the right to appeal in order for justice to occur.</p> <p>Seeks that Council: -seek and make publicly available an independent legal evaluation of the the councils inclusion of heritage scheduling of new listings in the ISPP process, and if the proposed WCC's inclusion of inaccessible private homes are aligned with the independent evaluation</p>
Thomas John Broadmore	417.1	Other / Other / Other	Not specified	<p>Supports the submission of Il Casino Body Corporate.</p>	Not specified.
Thomas John Broadmore	417.2	Other / Other / Other	Not specified	<p>Supports the submission of Juliet Broadmore on the point on the use of Viewshaft area as greenspace.</p>	Not specified.
Penny Griffith	418.1	Other / Other / Other	Not specified	<p>Supports the submission of Historic Places Wellington.</p>	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Penny Griffith	418.2	Other / Other / Other	Amend	Considers that the 40km/hr speed zone in Oriental Bay doesn't interface well with nearby 50km/hr zones because drivers don't react to 10km/hr changes in speed limit - compounded by the fact that there's many pedestrians. [See original submission for full reasons]	Not specified.
Penny Griffith	418.3	Other / Other / Other	Amend	Considers that the New World supermarket adjacent to Waitangi Park creates a busy roundabout , with many lane changes and pedestrian activity making it dangerous. [See original submission for full reason]	Not specified.
Paul Gregory Rutherford	424.1	Other / Other / Other	Amend	[No specific reason beyond decision requested - refer to original submission]	Seeks that the Proposed District Plan add a new objective that recognises the positive value of participation in decisions on an ongoing basis, and acknowledge that this is central to communities being able to meet their needs on an ongoing basis.
Lower Kelburn Neighbourhood Group	FS123.39	General / Other / Other / Other	Support	Considers that for a harmonious and involved citizenry, community deliberative processes are necessary to decide where development and intensification can take place in their local area. Seeks each community participates in deciding where, in their local area, high rise intensification is appropriate.	Allow
Paul Gregory Rutherford	424.2	Other / Other / Other	Amend	[No specific reason beyond decision requested - refer to original submission]	Seeks that the Proposed District Plan is more rigorously tested against the objectives to ensure that the Council's chosen methods are the best options to deliver on the objectives of the Plan.
Paul Gregory Rutherford	424.3	Other / Other / Other	Amend	Considers that many sites in the city are under utilised and that filling these gaps will provide for future housing needs without impacting quality, amenity and character.	Seeks that the proposed district plan add a clear sequence for intensification, done through zoning, that follows the sequence set out in the Spatial Plan and that it focus on major areas of underutilised land and smaller groups of under utilised sites close to public transport.
Lower Kelburn Neighbourhood Group	FS123.40	General / Other / Other / Other	Support	Considers that for a harmonious and involved citizenry, community deliberative processes are necessary to decide where development and intensification can take place in their local area. Seeks each community participates in deciding where, in their local area, high rise intensification is appropriate.	Allow
Paul Gregory Rutherford	424.4	Other / Other / Other	Amend	Considers that Wellingtonians will relish the challenge of working together. Some suburbs such as Newtown are proactively taking a lead in rethinking their localities. Such initiatives create a sense of community, enhance democracy and deliver change in ways that build on community strengths. Seeks that participatory design projects, coupled with clear housing targets, so communities are involved in welcoming new people. Imposing arbitrary change when better options exist simply fosters local resentment.	Seeks that the Proposed District Plan needs to be amended to identify a sequence of communities which will be involved in community-based planning, based on the sequence set out in the Spatial Plan.
Lower Kelburn Neighbourhood Group	FS123.41	General / Other / Other / Other	Support	Considers that for a harmonious and involved citizenry, community deliberative processes are necessary to decide where development and intensification can take place in their local area. Seeks each community participates in deciding where, in their local area, high rise intensification is appropriate.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Paul Gregory Rutherford	424.5	Other / Other / Other	Amend	<p>Considers that Wellingtonians will relish the challenge of working together. Some suburbs such as Newtown are proactively taking a lead in rethinking their localities. Such initiatives create a sense of community, enhance democracy and deliver change in ways that build on community strengths.</p> <p>Seeks that participatory design projects, coupled with clear housing targets, so communities are involved in welcoming new people. Imposing arbitrary change when better options exist simply fosters local resentment.</p>	Seeks that the Proposed District Plan needs to be amended to make greater provision for limited notification (as opposed to non-notification) in relation to light, shading, privacy and wind effects so as to enable and support fair and reasonable compromises between neighbours.
Lower Kelburn Neighbourhood Group	FS123.33	General / Other / Other / Other	Support	Considers that the submission requests notification for high rise building effects on surrounding housing with regard to sunlight, shade, wind and more, and that such notification is essential for neighbourhoods to thrive, for community relations to be good and citizenry to be involved in their community.	Allow / Seeks that council instate notification procedures as requested.
Paul Gregory Rutherford	424.6	Other / Other / Other	Amend	<p>Considers that local government, central government agencies, private developers, and communities need to work in partnership not as adversaries.</p> <p>Considers that Wellington needs innovative models for public and private investment working together to rapidly develop Wellington's large areas of underutilised land into high quality housing, greenspace and small business facilities.</p> <p>Current proposals assume a meagre 14% of rezoned areas will be developed.</p> <p>LIVE WELLington wants to see partnerships that can realise the potential of at least half our underutilised land in the next ten years.</p>	Seeks that the Proposed District Plan includes an assessment of housing capacity in Wellington that is based on a target of realising at least 50% of the development capacity (as measured under the Operative Plan) on underutilised land over the term of the draft Plan, and that the draft Plan needs to include methods to achieve this.
Johnsonville Community Association	429.1	Other / Other / Other	Amend	<p>Considers that re-zoning rural land for urban purposes is needed to provide more space for affordable housing.</p> <p>Takapu Valley and Ohariu Valley has been land-banked by developers. These areas can potentially account for 25% of future population growth.</p>	Seeks that Wellington City Council review the prohibition on rezoning rural land for urban purposes.
Johnsonville Community Association	429.2	Other / Other / Other	Amend	<p>Considers that since Johnsonville residential area was zoned as Medium Density that many non-compliant and substandard multi-unit developments have been built.</p> <p>Considers that if a review was done of this area that it would be found that District Plan Change 72 did not achieve its promised levels of high quality, high density housing.</p> <p>[See original submission for full reason]</p>	Seeks that WCC complete an independent review of the MDRAs to determine if the objectives in DPC72 have been met and confirm the WCC has successfully permitted "Density Done Well" developments. This review should provide a clear list of Do's and Don'ts for future housing development within the city.
Johnsonville Community Association	429.3	Other / Other / Other	Amend	<p>Considers that the New Zealand Motu Study identified the property value effect of each hour of sunlight lost, valuing it at around 2.4% per hour lost.</p> <p>[See original submission for full reason]</p>	Seeks that WCC undertake independent monitoring of what happens to Wellington Property Market prices when properties are surrounded by High Density Developments over 3 storeys versus those that aren't.
Johnsonville Community Association	429.4	Other / Other / Other	Not specified	<p>Considers that Amenity Values are protected under the Resource Management Act, and are valuable - inferring that any loss of amenity value should be compensated for.</p> <p>[See original submission for full reason]</p>	Not specified.
Johnsonville Community Association	429.5	Other / Other / Other	Amend	Considers that neighbouring properties losing amenities and value because of nearby 6 or more storey high density accommodation housing located in the outer suburbs is essentially an economic wealth transfer from those residents to the developer without compensation.	<p>Seeks that the PDP include a compensation framework for neighbouring residents who suffer a loss of value and amenity due to nearby high density accommodation housing developments.</p> <p>[See original submission for further details on this framework]</p>
Director-General of Conservation	FS107.1	General / Other / Other / Other	Oppose	Stride is opposed to a compensation framework for neighbouring residents of high-density housing developments as this could impose inappropriate costs on development.	Disallow
Investore Property Limited	FS108.1	General / Other / Other / Other	Oppose	Investore is opposed to a compensation framework for neighbouring residents of high-density housing developments as this could impose inappropriate costs on development.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association	429.6	Other / Other / Other	Not specified	Considers that because the Wellington RLTP says that decisions around intensification around Rapid Transit stops will be considered during the District Planning process, and the PDP does not have a definition of Rapid Transit, the classification of Johnsonville line or any other transit as Rapid Transit is not supported by the Wellington RLTP.	Seeks that WCC release the criteria used to determine which public transport stops are rapid transit stops and/or “commercial centres and with good public transport accessibility” deemed suitable for a MDRZ.
Johnsonville Community Association	429.7	Other / Other / Other	Amend	Considers that Johnsonville is expected to have the highest population growth of any Wellington suburb and needs infrastructure investment to account for this. Considers that Johnsonville has a high level of traffic and there are many uncompleted road projects. [See original submission for full reason]	Seeks that WCC complete planned roading improvements for the Johnsonville Triangle.
Johnsonville Community Association	429.8	Other / Other / Other	Amend	Considers that Johnsonville is expected to have the highest population growth of any Wellington suburb and needs infrastructure investment to account for this. Considers that Johnsonville has a high level of traffic and there are many uncompleted road projects. [See original submission for full reason]	Seeks that WCC support planned growth in Johnsonville.
Johnsonville Community Association	429.9	Other / Other / Other	Support	Considers that Johnsonville lacks public parking and green space and that the site of the old Johnsonville library is a good opportunity. It is the only WCC owned site in the triangle, it is sunny, sheltered and a decent distance from other green space, and there are other sites that can be repurposed for social housing.	Supports the completion of the Green Space Review for Johnsonville.
Johnsonville Community Association	429.10	Other / Other / Other	Amend	Considers that Johnsonville lacks public parking and green space and that the site of the old Johnsonville library is a good opportunity. It is the only WCC owned site in the triangle, it is sunny, sheltered and a decent distance from other green space, and there are other sites that can be repurposed for social housing.	Seeks that development of the Old Library Site in Johnsonville is postponed until Green Space Review is complete.
Onslow Residents Community Association	FS80.48	General / Other / Other / Other	Support	Support the submission regarding more provision for green space in Johnsonville and generally throughout the city.	Allow
Johnsonville Community Association	429.11	Other / Other / Other	Amend	Considers that while Johnsonville does have some public facilities including the new public library and the Alex Moore sports ground, there is a shortage of other facilities. Perhaps the most obvious is the lack of any indoor sports stadium. Other major suburbs have such a facility including Tawa, Ngaio, Newtown and Kilbirnie	Seeks that the WCC outline the specific planned investments that require further investment in facilities and infrastructure, with regard to Indoor sports stadium, parks, greenspace, public transport and roading. [Inferred Decision Requested]
Johnsonville Community Association	429.12	Other / Other / Other	Amend	Submitter is concerned at the lack of supporting information in justifying these major changes in PDP urban planning rules for Johnsonville.	Seeks that further information be released on the justification of both the rapid transit stop walking catchment MDRZs and the metropolitan walking catchment MDRZ.
Kat Hall	430.1	Other / Other / Other	Support	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.
Kat Hall	430.2	Other / Other / Other	Support	Supports Red Design's Submission on the Draft District Plan, as their 'proof of concept' plan shows that intensification along the main streets, and mostly within existing Suburban Centres zoning, could provide up to 2,000 or more new dwellings. This far exceeds the current projections of the Draft Spatial Plan for the whole Newtown area.	Not specified.
Anna Kemble Welch	434.1	Other / Other / Other	Support	Supports Red Design's Submission on the Draft District Plan, as it shows the potential for development of increased housing while retaining the historic frontages of the old shops. [Refer to original submission for full reason]	Supports Red Design's Submission on the Draft District Plan. [Inferred decision requested]
Anna Kemble Welch	434.2	Other / Other / Other	Support	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.
Anna Kemble Welch	434.3	Other / Other / Other	Support	Supports Newtown Resident's Association's submission on the extension of Newtown's character Precinct, sunlight access and their point related to MDRZ sites with parks and open space in the neighbourhood.	Supports Newtown Residents' Association submission. [Refer to submission 440]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Paul M Blaschke	435.1	Other / Other / Other	Oppose	<p>The decision from Council's Planning & Environment Committee to remove SNAs from all residentially zoned properties on 23 June 2022 is opposed. This decision renders the Ecosystems and Indigenous Biodiversity section much less effective than it could and should be.</p> <p>It greatly hinders the achievement of Council's Te Atakura blueprint and other moves towards sustainability and resilience.</p> <p>It disadvantages the great majority of the city's residents except for a tiny number of suburban residential landowners who become privileged over all others including other suburban residential landowners with portions of SNAs within their properties and who have welcomed or not objected to the provisions.</p> <p>It overturns the very good process adopted by the council team and consultants who have planned and undertaken the SNA survey and policy development. Finally, it renders ECO-O1, ECO-P1, ECO-P2, and ECO-P3, and the rules supporting these objectives and policies, incapable of being properly implemented, and perpetuates the uncertainty caused by lack of a comprehensive statutory process around significant areas and indigenous biodiversity.</p> <p>[Refer to original submission for full reason]</p>	Opposes the decision from Council's Planning & Environment Committee to remove Significant Natural Areas from all residentially zoned properties.
Newtown Residents' Association	440.1	Other / Other / Other	Support	<p>Supports Red Design's Submission on the Draft District Plan, as it demonstrated how new buildings on only 45% of Mansfield Street escarpment area could provide at least 2000 sunny, accessible, comfortable new apartments, while retaining the historic character of the Riddiford St shops. Planned intensification along Newtown's main streets is supported.</p> <p>[Refer to original submission for full reason]</p>	Supports Red Design's Submission on the Draft District Plan.
Newtown Residents' Association	440.2	Other / Other / Other	Support	Supports the Planning for Residential Amenity, Boffa Miskell Report.	Supports the Planning for Residential Amenity, Boffa Miskell Report.
Newtown Residents' Association	440.3	Other / Other / Other	Not specified	<p>Considers that there are environmental effects associated with demolition and rebuilding. New buildings, particularly high rises, are very carbon intensive. On the other hand, existing timber houses represent a great deal of embodied energy and sequestered carbon. Many have been adapted and upgraded over time, which is more environmentally sustainable than replacing them. Furthermore, these buildings are resilient and have survived 100+ years of earthquakes, while many new buildings in Wellington have been badly damaged in earthquakes.</p>	Not specified.
Lower Kelburn Neighbourhood Group	FS123.35	General / Other / Other / Other	Support	<p>Supports submission because it is considered it is against demolition of pre-1930s homes because of the high CO2 emissions resulting and also from re-building with new materials.</p> <p>Council should control demolition of old buildings and seek to renovate and repurpose them to reduce CO2 emissions.</p>	Allow
Save Our Venues	445.1	Other / Other / Other	Oppose	<p>Considers that there are significant issues with current Noise Control enforcement processes.</p> <p>Considers that the current methodology of measuring sound is subjective and places the onus on the complainant. The response from noise control officers is then exclusively a punitive process. This can create a huge scope for loss of income and confidence in the venue.</p> <p>A model where measuring the sound at the boundary of the property from where the sound is emanating, as well as inside the complainant's property, would enable Council to ensure that both the venue and the residential property are compliant with noise standards and acoustic mitigation standards respectively. This will allow for mediation between both parties and ensure reasonable steps can be taken to mitigate noise before the venue is restricted in its ability to operate at all.</p> <p>[Refer to original submission for full reason]</p>	Seeks that the WCC reforms its Noise Control enforcement processes, equipping officers with decibel meters and requiring that an objective measurement demonstrating non-compliance be recorded before an infringement notice can be issued or enforcement action taken.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Save Our Venues	445.2	Other / Other / Other	Oppose	Considers that there should also be the consideration that the sound of live music is inherently a different frequency to the sound of amplified recorded music or the normal environmental sounds of living in the city and should be measured to a standard that takes that into account. [Refer to original submission for full reason]	Seeks that there should be separate consideration that the sound of live music, due to its frequency. [Inferred decision requested]
Kay Larsen	447.2	Other / Other / Other	Not specified	Considers that it seems impossible to imagine allowing developers to demolish existing houses without public notification so that the local community can work together to improve the neighbourhood. [Refer to original submission for full reason]	Not specified.
Dale Mary McTavish	448.1	Other / Other / Other	Not specified	Opposes recent examples of infill housing. [Refer to original submission for full reason]	Not specified.
Dale Mary McTavish	448.2	Other / Other / Other	Not specified	Considers that the Newtown shopping strip needs to be viable, which means parking for cars outside the shops, and the character needs to be kept.	Seeks that parking for cars outside shops on the Newtown shopping strip are kept.
Peter Jack	450.1	Other / Other / Other	Not specified	Considers that more catchment or reservoir storage be looked at for the future. With all this excessive water we are getting in the winter now rather than let it go, store it.	Not specified.
Graham Thomas Stewart	451.1	Other / Other / Other	Support	The submitter wants to follow the Councils (Kainga Ora's) proposal for 300 houses to be built [at Arlington Development in Mt Cook, Wellington].	Not specified.
David Lee	454.1	Other / Other / Other	Not specified	Considers there is the Climate change issue to consider. Demolishing wooden heritage housing (which the Plan will allow of right) will release carbon into the atmosphere. Considers that more carbon will be used in building replacements made of concrete, steel and glass. 'Old is greener than new'.	Not specified.
Lower Kelburn Neighbourhood Group	FS123.34	General / Other / Other / Other	Support	Supports submission because it is considered it is against demolition of pre-1930s homes because of the high CO2 emissions resulting and also from re-building with new materials. Council should control demolition of old buildings and seek to renovate and repurpose them to reduce CO2 emissions.	Allow
(Vivien) Jane Kirkcaldie and Denis Maxwell Kirkcaldie	455.1	Other / Other / Other	Oppose	Opposes the creation of canyons within the submitters' area (the Botanic Gardens and Bolton St Cemetery, the motorway and the cable car track), from multi-floor buildings. Considers that the area is steep and hilly, subject to seismic activity as the city in general, and the service infrastructure is old.	Not specified.
Lower Kelburn Neighbourhood Group	FS123.20	General / Other / Other / Other	Support	Considers that Wesley Precinct and Lower Kelburn, the area between Bolton St to San Sebastian Rd or the cable car, and between the Botanic Gardens and the Motorway should be classified as a Character Precinct with demolition controls and height limit of 11m for the many reasons outlined the submission and others referred to in further submission, including that of Lower Kelburn Neighbourhood, submission 356.	Allow
(Vivien) Jane Kirkcaldie and Denis Maxwell Kirkcaldie	455.2	Other / Other / Other	Not specified	Considers that functioning, well-maintained houses in our area built before the 1930s should retain protection from demolition. Considers that people have worked hard in their jobs to be able to choose single dwellings to live their lives in this area and they take pride and love in maintaining the houses and gardens. These in turn reflect the history and stories of our city.	Not specified.
Lower Kelburn Neighbourhood Group	FS123.21	General / Other / Other / Other	Support	Considers that Wesley Precinct and Lower Kelburn, the area between Bolton St to San Sebastian Rd or the cable car, and between the Botanic Gardens and the Motorway should be classified as a Character Precinct with demolition controls and height limit of 11m for the many reasons outlined the submission and others referred to in further submission, including that of Lower Kelburn Neighbourhood, submission 356.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Chris Horne, Sunita Singh, Julia Stace, Paul Bell-Butler	456.1	Other / Other / Other	Support	Supports the protection of indigenous plant communities for their own sake and for their carbon-sequestration function. This is of increasing importance in the battle to limit global climate change and rising sea levels.	Not specified.
Marilyn Head	457.1	Other / Other / Other	Support	Support the Newtown Residents Association submission. [Refer to submission number 440 for full details].	Support the Newtown Residents Association submission. [Refer to submission number 440 for full details].
Marilyn Head	457.2	Other / Other / Other	Not specified	Considers that Council should instead support redevelopment and repurposing of existing buildings, or, where necessary, rebuilding on similar scales. [Refer to original submission for full reason]	Not specified.
Marilyn Head	457.3	Other / Other / Other	Not specified	Considers that Council should regulate to prevent land banking and unused sites/buildings, requiring cleared sites to be available as temporary parks if building has not commenced within a specified period. [Refer to original submission for full reason]	Not specified.
Marilyn Head	457.4	Other / Other / Other	Support	Considers the recreational outdoor space to built space needs to be increased and levies charged for parks and recreation must be made into law to ensure that these facilities are available in the area. [Refer to original submission for full reason]	Seeks to introduce fees for entrance into parks to ensure that these facilities are available in the areas not aggregated into public spaces like the waterfront. [inferred decision requested].
Marilyn Head	457.5	Other / Other / Other	Not specified	Considers the plan does not factor in infrastructure requirements	not specified.
Greater Brooklyn Residents Association Inc's	459.1	Other / Other / Other	Not specified	Considers there to be insufficient evidence of Brooklyn suburbs character or heritage value.	Seeks for WCC to investigate Character/ Heritage in the Brooklyn suburb.
Greater Brooklyn Residents Association Inc's	459.2	Other / Other / Other	Not specified	Consideration given to topography, not just roads on a map for development.	Not specified.
Lower Kelburn Neighbourhood Group	FS123.14	Other / Other / Other	Support	Considers that upzoning heights on swathes of housing is very 'destructive'. Considers high rise sites need to be carefully and individually selected according to topology with pockets of intensity if sites allow.	Allow
Anita Gude and Simon Terry	461.1	Other / Other / Other	Support	Supports the LIVE WELLington submission in its entirety.	Supports the LIVE WELLington submission (submission 154) in its entirety.
Anita Gude and Simon Terry	461.2	Other / Other / Other	Not specified	Considers that WCC needs to redress some of the housing market failure and become a market maker and standards setter through actively fostering development on key sites.	Seeks that Wellington City Council actively fosters development through targeting properties for acquisition, engaging designers, consenting a plan, and then onselling the package to developers.
Philip Cooke	465.1	Other / Other / Other	Amend	Considers that the heritage assessment of Item 471 (20 Austin Street) in SCHED1 - Heritage Buildings should be amended to remove protection of the roof design. The unusual arrangement or intriguing roof design is highlighted in the Physical Values and Rarity as of importance. The submitter considers that this feature was originally intended to be hidden from view. The roof's internal gutters are a problematic design which have resulted in damaging leaks twice in the last 23 years and would benefit from re-configuration.	Seeks that the heritage assessment of Item 471 (20 Austin Street) is amended to remove protection of the roof design.
Philip Cooke	465.2	Other / Other / Other	Amend	Considers that the heritage assessment of Item 471 (20 Austin Street) in SCHED1 - Heritage Buildings should be amended with regard to its description of 'Age' under Physical Values. Considers that the description has "the place is particularly old in the context of human occupation in the Wellington region" but it should be amended to reflect that the house is old in the "context of European occupation of Mount Victoria".	Seeks that the heritage assessment of Item 471 (20 Austin Street) is amended in its description of Age under Physical Values to reflect that the house is old in the "context of European occupation of Mount Victoria" rather than the "context of human occupation".
Alicia Hall on behalf of Parents for Climate Aotearoa	472.1	Other / Other / Other	Amend	Considers that changes should be made that actively support, and definitely don't undermine, the better places created by more density done well and proximity to daily amenities.	Seeks changes to the Council's Network Operating Framework, Parking Policies, street maintenance systems.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Alicia Hall on behalf of Parents for Climate Aotearoa	472.2	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the plan.	Seeks greater resourcing of Council's planning and consent enforcing teams over road maintenance.
Alicia Hall on behalf of Parents for Climate Aotearoa	472.3	Other / Other / Other	Support	Considers that greater resourcing is needed to implement the plan.	Supports more rates being used for resourcing these teams vs for maintaining large sections of road seal to a high standard for driving and parking private vehicles.
Alicia Hall on behalf of Parents for Climate Aotearoa	472.4	Other / Other / Other	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that combined / pooled resources for consenting, design review, and other permitting functions are established that mean multiple small councils can enjoy high-calibre people and economies of scale. [Inferred decision requested].
Christina Mackay	478.1	Other / Other / Other	Support	Submitter supports Historic Places Wellington's submissions. Supports the submission by Historic Places Wellington including support for PDP proposals for heritage provisions, proposals for additional heritage listings, new Historical and Cultural Heritage provisions and for inner city heritage/character suburbs.	Supports Historic Places Wellington's submission. [Refer to submission 182]
Ben Barrett	479.1	Other / Other / Other	Not specified	Supports the Isthmus group planning ideas https://isthmus.co.nz/thinking/density-donewell-10-tips-for-aotearoa/ If any of these ideas can be included in the DP that would be useful. Submitter wants to see more evidence of wider expert planning consideration from professional groups such as Isthmus.	Supports the Isthmus group planning ideas
Ben Barrett	479.2	Other / Other / Other	Amend	[Refer to original submission for full reason]	Seeks that the Council has a dedicated customer team to support those that are leading the way in development and make it easier for them to get consent.
Ben Barrett	479.3	Other / Other / Other	Amend	Considers that the Council should increase the percentage of green spaces in line with planned population density . [Refer to original submission for full reason]	Seeks that the Council will increase the percentage of green spaces in line with planned population density.
Ben Barrett	479.4	Other / Other / Other	Amend	Considers that the Council improve the quality of the green spaces; (quiet, allow seats to capture sunshine hours, away from roads, connect us to nature/plants/water, include playgrounds for all ages).	Seeks that the Council improve the quality of green spaces.
Ben Barrett	479.5	Other / Other / Other	Amend	Considers that Newtown streets have far too many cars on already. Private (internal combustion) vehicle priorities need to be secondary to active travel, and public transport.	Seeks that the Council will limit private car use and parking.
Catharine Underwood	481.12	Other / Other / Other	Amend	Considers that the 'We Are Newtown housing/dwelling plan/proposal by the residents for the residents' should be recognised by Councillors and be considered as the blue print for Newtown. Council officers have rejected the residents' plan as it was different to the residents wants. Though it achieved exactly the same outcome regarding the number of dwellings.	Seek that the 'We Are Newtown housing/dwelling plan/proposal by the residents for the residents' be recognised and considered as the proposed district plan provisions for Newtown.
Wellington International Airport Limited	FS36.242	General/ Other/ Other / Other	Oppose	Considers that this matter goes beyond the scope of the District Plan controls.	Disallow
Catharine Underwood	481.13	Other / Other / Other	Amend	Seeks that this would protect the valley location of Zealandia from aero plane noise and make listening to kiwi calling at night a much better experience.	Seeks a no commercial plane/helicopter fly zone between Mt Kaukau and Te Ahumairangi and over the Zealandia valley.
Wellington Helicopters	FS5.1	General/ Other/ Other/Other	Oppose	Restriction of flying through this area would restrict Wellington Helicopters' ability to operate and possibly introduce compromises to safety by restricting the available operating area. The comment regarding hearing kiwis would only be relevant at night.	Disallow
Living Streets Aotearoa	482.2	Other / Other / Other	Not specified	Considers that there are too many shortcuts where the edges often have no obvious exits (because of high and solid property boundaries) and there is no surveillance.	Seeks that shortcuts have obvious exits and do not have high and solid property boundaries. [Inferred decision requested].
Living Streets Aotearoa	482.3	Other / Other / Other	Not specified	Considers that there are often excessive numbers or width of vehicle accessways across footpaths, and footpaths are often modified to suit driveway use rather than footpath users	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Living Streets Aotearoa	482.4	Other / Other / Other	Amend	Considers that during construction, it tends to be the footpath that is lost.	Seeks that the WCC ensures that effective pedestrian provision is maintained through the construction stage, including for those with wheelchairs, suitcases etc. [Inferred decision requested].
Living Streets Aotearoa	482.5	Other / Other / Other	Not specified	Considers that the pedestrian network is disconnected at every intersection. Roundabouts are a particular problem. Crossings often put where that minimises effects on traffic rather than to ensure a direct pedestrian route. Crossing systems are not designed to make the pedestrian journey seamless eg. they may require the pedestrian to wait twice, as at the Basin Reserve crossing in Kent/Cambridge.	Not specified.
Living Streets Aotearoa	482.6	Other / Other / Other	Amend	Considers that parts of the pedestrian grid are missing. Sometimes this is because of topography, sometimes because of poor past decisions during subdivisions, sometimes because it has been subsequently lost. [Refer to original submission for full reason].	Seeks that the complete pedestrian grid is restored and enhanced at every opportunity. [inferred decision requested]
Living Streets Aotearoa	482.7	Other / Other / Other	Amend	Considers that the District Plan needs to be clear that public access is a far higher priority than privacy. Public accessways are not always visible or signposted and there is sometimes pressure from adjacent landowners to not have them visible to the public.	Seeks that the public accessways are visible or signposted. [Inferred decision requested].
Living Streets Aotearoa	482.8	Other / Other / Other	Amend	Considers that there have been a number of cases where private property owners have requested driveways along what are currently pedestrian only shortcuts. This significantly reduces pedestrian service levels and amenity of the space.	Seeks that the District Plan ensures that private vehicle use on pedestrian accessways is avoided.
Living Streets Aotearoa	482.9	Other / Other / Other	Not specified	Considers that the city suffers from poor quality public spaces in terms of lighting, surface, seats, shelter and shade, wayfinding. It is important that the overall public space delivers amenity, rather than there just being reliance on a few spaces that get focused design work.	Seeks that every available public space is treated as valuable and made usable.
Living Streets Aotearoa	482.10	Other / Other / Other	Amend	Considers that many public spaces are cluttered by poles, signs, café tables, bike parking infrastructure and so on. It is vital that the DP ensures an adequate uncluttered width of footpath, rather than treating an unusable part of the footpath as contributing to provision.	Seeks that the District Plan ensures that an adequate uncluttered width of footpath is provided and that new infrastructure should not be located in footpath space.
Living Streets Aotearoa	482.11	Other / Other / Other	Not specified	Considers that there are significant accessibility issues in Wellington, including to buildings and public spaces.	Not specified.
Living Streets Aotearoa	482.12	Other / Other / Other	Not specified	Considers that walking routes also need to be public spaces. Considers that this is essential to ensure that access is assured in future and walkability can be enhanced by the council and supported by community groups.	Not specified.
Living Streets Aotearoa	482.13	Other / Other / Other	Not specified	Considers that an important health measure to combat the spread of COVID-19 and other future diseases will be to increase the utility of well-ventilated outdoor space. In cities and towns overseas where this has been handled well, this involved widened footpaths, temporary cycle lanes, and an increase in outdoor dining options, to allow for adequate social distancing.	Not specified.
Living Streets Aotearoa	482.14	Other / Other / Other	Amend	Much of our public space between buildings is wasted – cultivating only parked cars, weeds, and litter. Many of our streets are wider than needed for vehicle movement purposes, and space could easily be re-allocated to public amenity and walking.	Seeks that street space is re-allocated to public amenity and walking. [Inferred decision requested].
Living Streets Aotearoa	482.15	Other / Other / Other	Amend	Considers that the widening of footpaths is vital to handle the likely increased pedestrian numbers, use of micro-mobility devices, social distancing, and as meeting and socialising spaces.	Seeks that planning prioritises the widening of footpaths. In the short-term, tactical urbanism can be used to create more walking space until the budget allows for a proper footpath is created.

Living Streets Aotearoa	482.16	Other / Other / Other	Amend	Considers that the widening of footpaths is vital to handle the likely increased pedestrian numbers, use of micro-mobility devices, social distancing, and as meeting and socialising spaces. Much of our public space between buildings is wasted – cultivating only parked cars, weeds, and litter. Many of our streets are wider than needed for vehicle movement purposes, and space could easily be re-allocated to public amenity and walking.	Seeks that the formed footpath space available is increased through the removal of footpath clutter, a well-signalled tougher line on footpath parking, and utilisation of roadside parking for outdoors seating.
Living Streets Aotearoa	482.17	Other / Other / Other	Amend	Considers that non-disability parking should be re-purposed for outdoor seating to achieve the triple benefit of increasing capacity for businesses, highlighting to businesses in practice that short-term car parking is not essential for business success, and maintaining the footpath space required for pedestrians and other footpath users.	Seeks that non-disability parking is re-purposed for outdoor seating.
Living Streets Aotearoa	482.18	Other / Other / Other	Not specified	Considers that work needs to be to increase parking availability while reducing parking footprint. The Thorndon Quay argument epitomises the tendency for businesses to conflate parking places with parking availability.	Seeks that work is done to allow booked parking for some key purposes, changing long-term spaces to more short-term and drop off/pickup spaces, and moving non-customer parking to other places. [Inferred decision requested].
Living Streets Aotearoa	482.19	Other / Other / Other	Oppose	Opposes allowing individual developers to impose their vision on the community.	Not specified.
Hilary Carr	483.1	Other / Other / Other	Amend	Considers that to encourage more people to use public transport, more park and ride facilities are required in the suburbs, and a fairly large one on the waterfront by the railway station.	Seeks that more park and ride facilities are required in the suburbs, and a fairly large one on the waterfront by the railway station (charged during the week, free in weekends). [Refer to original submission for full detail].
Hilary Carr	483.2	Other / Other / Other	Support	Considers that to encourage more people to use public transport, maybe have buses running 24/7 continually or until 3-5am from Courtney Place to the Railway station at least Thursday to Saturday hop on hop off for a minimal or no charge.	Seeks that there are buses running 24/7 continually or until 3-5am from Courtney Place to the Railway station at least Thursday to Saturday hop on hop off for a minimal or no charge.
Hilary Carr	483.3	Other / Other / Other	Support	Considers that providing each property with a food waste bin, services for collection, and a worm farm landfill would reduce methane and provide user friendly manure.	Seeks that each property is provided with a food waste bin, and services provided for collection and a worm farm landfill.
Te Rūnanga o Toa Rangatira	488.1	Other / Other / Other	Amend	Considers that there are limited provisions for papakainga in the plan and this is not adequate for iwi.	Amend the plan to include a papakainga chapter to be developed in partnership with mana whenua.
Kāinga Ora – Homes and Communities	FS89.42	Other / Other / Other	Support	Kāinga Ora supports the introduction of a standalone papakāinga chapter.	Allow
Te Rūnanga o Toa Rangatira	488.2	Other / Other / Other	Not specified	Considers that throughout the plan the language used to refer to the role of mana whenua in resource management switches between 'active involvement,' 'active participation,' and 'active partnership.'	Seeks that the role of mana whenua is consistently referred to as active partnership. [Inferred decision requested]
Te Rūnanga o Toa Rangatira	488.3	Other / Other / Other	Amend	Considers that cultural wellbeing could be better supported in the plan as CEKP-O5 is the only place this is mentioned.	Amend the plan to give effect to cultural wellbeing across the Proposed District Plan.
Craig Palmer	492.1	Other / Other / Other	Not specified	Considers that more inner city parks and green space are needed in the CCZ.	Seeks that more inner city paks and green spaces are created in the City Centre.
Rita Angus Cottage Trust (formerly Thorndon Trust)	494.1	Other / Other / Other	Amend	Considers that the Historic Heritage Area Evaluation report December 2021 on the Ascot Street Heritage Area should be amended to correct two mistakes regarding Cooper's Cottage.	Seeks that Cooper's Cottage should be HNZPT Category 2 listed in both the <i>Acknowledgements</i> , page 2, and the <i>List of Places</i> , pages 21-36 (not Category 1). In the <i>Inventory of buildings and features</i> table, pages 275-8, Cooper's Cottage should be status 4 (not status 3).
John Mulholland	497.1	Other / Other / Other	Support	Supports Smith Guersen's submission regarding the alteration of SNA boundaries in Carey Gully.	Supports Smith Guersen's submission. [Refer to submission 475]
