Antony Kitchener and Simin Littschwager	199.9	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that the housing crisis cannot be solved purely through increased supply alone. If new housing is not "affordable" and there are no controls on who can purchase all of this new housing supply, it is highly likely that a large percentage of new housing will be purchased by rent-seeking landlords, who will continue to push up rent costs.	Seeks that the WCC stipulate a certain percentage of newly built dwellings to be classed as "affordable".
Russell Taylor	224.1	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the requirement to ensure all residential properties have north facing sunlight and no property can shade adjacent properties needs to be strengthened.
Lorraine and Richard Smith	230.12	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that demolishing many functional wooden buildings to replace them with steel and concrete high-rises will create excessive landfill and excessive carbon emissions with consequent burdens on future generations.	Seeks that well-functioning older housing should be retained as much as possible to avoid landfill waste and reduce carbon emissions.
Lorraine and Richard Smith	230.13	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that homes should be warm, dry places of stability where natural sunlight, mood enhancing benefits and areas of open space are recognised as essential to human wellbeing. [Refer to original submission for full reason]	Not specified.
Lorraine and Richard Smith	230.14	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Because the first areas to be intensified will be at the whim of developers, well-functioning, established heritage and character housing such as Lower Kelburn will be among the first to be demolished as an investment opportunity.	Not specified.
Lorraine and Richard Smith	230.15	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the Proposed District Plan be amended to make greater provision for limited notification in relation to light, shading, privacy and wind effects so as to enable and support fair and reasonable compromises between neighbours.
Victoria Stace	235.2	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that yard setbacks enable adjacent property owners of wooden structures gain access for repairs and maintenance to their structures.	Seeks that yard setbacks of at least 1.5m front yard and 1m side yard are required in all residential zones.
Alan Fairless	242.12	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that throughout the city are many sites that sit idle or underutilised. Developing these sites provides a means to addressing much of the future housing demand while avoiding adverse effects on quality, amenity and character. [Refer to original submission for full reasons].	Seeks that the District Plan sets out a clear sequence for intensification that focusses first on major areas of underutilised land and smaller groups of underutilised sites close to public transport, rather than upzoning broad areas of land.
Alan Fairless	242.13	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that the District Plan is amended to encompass more new developments as controlled activities in respect of urban design to ensure that quality in design at a local level can be considered for the majority of developments.	Seeks that the Proposed District Plan is amended to encompass more new developments as controlled activities.
Alan Fairless	242.14	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that current proposals only develop 14% of rezoned areas. LIVE Wellington want to see partnerships that will develop at least 50% of underutilised land in the next ten years.	Seeks that the District Plan identify areas suitable for intensification and provide a timetable for developing masterplans for these areas, including quality design guides and rapid assessment processes for sites within these areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Alan Fairless	242.15	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the District Plan more comprehensively provide for enhanced sunlight access to outdoor and indoor living areas.
Steve Dunn	288.5	Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	Does not support having a blanket provision enabling 3 units up to 3 storeys or multi unit buildings up to 6 storeys and considers this contrary to the objective of providing a liveable well-functioning urban environment.	Seeks that an urban development plan, specific to the local area be developed as a refined response and would allow for intensive development in specific areas that consider the immediate surroundings, topography, local character, and ecology.
Steve Dunn	288.6	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that Newtown is suited to 3-4 storey housing along its transport spine [Refer to original submission for full reason].	Seeks that building heights in central Newtown are amended to 3-4 storeys. [Inferred decision requested]
Steve Dunn	288.7	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that to meet the objectives of a healthy living environment, the plan is amended to protect sunlight access for all outdoor living areas, not just public open space, as well as solar panels on roofs.	Seeks that the plan is amended to protect sunlight access for all outdoor living areas, not just public open space, as well as solar panels on roofs.
Phillippa O'Connor	289.14	Residential Zones / General point on Residential Zones / General point on Residential Zones	Support	Supports restricted discretionary status for breached standards, rather than a broader discretionary status.	Retain approach where a standard is breached that a restricted discretionary activity status is used.
Tawa Community Board	294.15	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Concerned about the transition edges between areas of differing permitted density not being addressed nor the effect of topography in Tawa.	Not specified.
Matthew Plummer	300.3	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that there is insufficient infrastructure to deliver the significant uplift in housing that Wellington needs.	Not specified.
Matthew Plummer	300.4	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers WCC should enable infrastructure development in the form of big apartment buildings in areas like Adelaide Road, Cambridge Terrace and Kent Terrace, in similar fashion to what has been done on Victoria Street. The Proposed District Plan in its current form will not incentivise development of affordable homes.	Seeks that infrastructure development be incentivised on Adelaide Road, Cambridge Terrace and Kent Terrace.
Wellington Branch NZIA	301.3	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that the proposed set-back provisions of the Draft District Plan should be reinstated. Requiring developments on narrow streets to have to step back as they rose higher would stop the obliteration of daylight and sunlight to the residents on lower levels. This was a vitally important step to take and should not have been removed from the Proposed District Plan. [Refer to original submission for full reason]	Seeks that the Draft District Plan's set-back provisions be reinstated for City Centre Zones.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Roland Sapsford	305.30	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that the zoning applied to parts of Aro Valley in the PDP reflects historical errors that have been carried over from the ODP. [Refer to original submission for details]	Seeks that historical errors are corrected by relief sought in submission.
James Coyle	307.5	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Opposes the current change for Multi-Unit properties from 4-hour winter sunlight to living areas to 1 hour daylight to living areas.	Seeks that the 4-hour sunlight requirement for living areas from the Operative Plan Residential Design Guide be reinstated.
James Coyle	307.6	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers Newtown should have special zones dedicated to intensive development, such as terraced housing blocks and plazas. These zones could be brownfield and part of centre zones. For instance, the area opposite the entry to the zoo with borders of Owen, Daniell and Manchester.	Seeks that Newtown have special zones dedicated to intensive development to create terraced housing blocks and plazas.
James Coyle	307.7	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that building topologies should not be mixed too much.	Not specified.
James Coyle	307.8	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that over shadowing and overlooking should be minimised.	Not specified.
James Coyle	307.9	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers there needs to be a maximum height for single dwellings that is much lower than for multi-unit. The demographic of Newtown is changing and outcome may be large houses that have car parking underneath and that build high to access views.	Seeks that the maximum height for single dwellings is much lower than for multi-unit.
Penelope Borland	317.7	Residential Zones / General point on Residential Zones / General point on Residential Zones	Support	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.	Supports the Pre-1930 Character Area Review, Boffa Miskell Report.
Penelope Borland	317.8	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that the PDP should include sunlight provisions in all residential zone housing areas, rather than a minimum of 2 hours of daylight.	Seeks that Residential Zones include sunlight provisions for housing areas.
Rimu Architects Ltd	318.24	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	It would be useful to have clarity on how low decks and eaves are to be treated in relation to setbacks - exclusion of decks no more than 500mm above ground and also eaves up to 600mm (as applying at b & c in the Makara Beach & Makara Village precinct) could usefully be applied generally.	Clarify how low decks and eaves will be treated in the residential zones.
Bruce Crothers	319.16	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that planning for new housing and rural areas should include the implementation of wildlife corridors including encouragement to restore the Queens chain to public access.	Seeks that wildlife corridors and access to the Queen's chain be taken into account when planning for new housing.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Mt Cook Mobilised	331.10	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that residential zones in Mt Cook may get too much shading from neighbouring City Centre Zones. Private properties should benefit from the same shading limits as green places. The proposed plan has constraints on shading green areas, other than very limited recession plane requirements, but nothing to limit the shading of private properties.	Seeks that constraints be developed to prevent City Centre Zones from shading private properties, in similar fashion to constraints in place for Open Space Zones.
Kāinga Ora – Homes and Communities	FS89.99	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	[Not specified].	Disallow
Property Council New Zealand	338.9	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that residential standards meant for new apartments and townhouses to be pleasant places to live in could have unintended consequences if not worked closely with the sector.	Not specified.
Mt Victoria Residents' Association	342.23	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that some measure of minimum floor space per person should be required to avoid tiny low-quality spaces for people to live in.	Seeks that minimum residential unit size standards include a measure of minimum floor space per person.
Mt Victoria Residents' Association	342.24	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that housing needs to provide a high standard of accessibility, because 25% of New Zealanders will be over 65 by 2030 and 25% of New Zealanders have a disability.	Seeks that housing provide a high standard of accessibility.
Mt Victoria Residents' Association	342.25	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that developments with oppressive street frontages, like garages, are impediments to community connection, and should be discouraged in the District Plan's design rules.	Seeks that developments with oppressive street frontages be discouraged.
Royal Forest and Bird Protection Society	345.384	Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose in part	Seeks reinsertion of the deleted SNAs in the residential zones, and the provisions protecting them, and apply the ECO provisions to these zones.	Amend GRUZ-P2 (Keeping of goats): Provide for the keeping of goats <u>outside of significant natural areas</u> in the General Rural Zone where they are contained and managed to avoid adverse ecological effects within identified significant natural areas
Kāinga Ora – Homes and Communities	FS89.158	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	Kāinga Ora opposes amendments as this may impact on residential intensification outcomes.	Disallow
Inner City Wellington	352.2	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that the current level of intensification already occurring is exacerbating the existing deficit in amenities available to inner-city residents living in 'vertical streets.	Not specified.
Inner City Wellington	352.3	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that the plan may not be able to directly influence and improve Sunlight protection.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Inner City Wellington	352.4	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that the plan may not be able to directly influence and improve Diversity of Inner City Neighbourhoods.	Not specified.
John Bryce	354.1	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that WCC should develop special rules for areas like Aro Valley where one size building rules will result in poor quality and unhealthy dwellings. For example, six story buildings are totally inappropriate in many parts of Aro Valley where they would block the small amount of winter sunshine from nearby property. Considers that sunshine is important for healthy living spaces, particularly in freestanding older wooden houses that do not benefit from the heated thermal mass that exists in concrete apartment buildings where sunlight may suffice.	Seeks that the Proposed District Plan protects future inhabitants of dwellings by ensuring good quality living spaces. [Inferred decision requested]
Jane Szentivanyi and Ben Briggs	369.13	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that building height in relation to boundary, outdoor living spaces, landscaped areas, permeable surface area, minimum residential unit size and setbacks from any boundary, especially the street facing boundary might impact neighbouring properties and reduce the adjacent street's amenity, vibrancy and safety.	Not specified.
Waka Kotahi	370.258	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that further weighting exercise is required in order to justify the inclusion, nature and extent of provisions related to special character.	Seeks that Wellington City Council undertake further evaluation and weighting exercise to determine extent of protection required on balance with achieving the outcomes of the NPS-UD. [Inferred decision requested]
Waka Kotahi	370.259	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that further weighting exercise is required in order to justify the inclusion, nature and extent of provisions related to special character.	Seeks that Wellington City Council undertake further evaluation and weighting exercise to determine extent of protection required on balance with achieving the outcomes of the NPS-UD. [Inferred decision requested]
Waka Kotahi	370.260	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Submitter supports greater heights for multi-unit developments that are subject to resource consent.	Not specified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.106	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	The submitter acknowledges that relief is not appropriate in relation to the construction and use of up to three dwellings per site. However, the submitter notes that residential amenity will be better protected for larger-scale and higher-density residential developments where they have been appropriately designed to manage reverse sensitivity where there is an interface with a Commercial or Mixed-Use Zone, or with lawfully established non-residential activities.	Amend the Residential Zones to ensure that larger-scale and higher-density residential developments are designed to managed reverse sensitivity where there is an interface with a commercial or Mixed-use Zone, or with lawfully established non-residential activities. [Inferred decision requested].
Kāinga Ora – Homes and Communities	FS89.46	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	Kāinga Ora opposes the relief sought due to potential impacts on the scale of residential intensification.	Disallow
The Retirement Villages Association of New Zealand Incorporated	FS126.14	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	The RVA opposes the relief sought in these submission points as reverse sensitivity should be managed through appropriate setback provisions rather than requiring activities contemplated in the zone to manage the effects of activities outside the zone.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ryman Healthcare Limited	FS128.14	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	Ryman opposes the relief sought in these submission points as reverse sensitivity should be managed through appropriate setback provisions rather than requiring activities contemplated in the zone to manage the effects of activities outside the zone.	Disallow
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.107	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	The submitter notes that several of the fuel companies assets are located in close proximity to residential zoned properties. The proposed changes to the residential zones have the potential to generate reverse sensitivity effects and amenity effects.	Not specified.
WCC Environmental Reference Group	377.318	Residential Zones / General point on Residential Zones / General point on Residential Zones	Support in part	Generally supportive of the proposals for medium density and high density residential zones. Minor suggestions made [further detail provided in later parts of submission and summarised below]	Not specified.
Henry Bartholomew Nankivell Zwart	378.10	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that larger, more comprehensive developments are needed in our centres.	Seeks that MRZ (Medium density residential zone) height limits are increased in the 15 minute walking catchments to rail stations.
Sue Kedgley	387.3	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that there are numerous sites in the inner city which are ideal for high-rise buildings such as along main arterial routes such as Kent Terrace, Adelaide Road, Taranaki Street, Vivian Street and Te Aro flats.	Seeks that densification focuses on the areas such as along Kent Terrace, Adelaide Road, Taranaki Street, Vivian Street and Te Aro flats.
LIVE WELLington	FS96.52	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	Prioritising Brownfield development is Supported There are strong economic & social benefits from concentrating development in Te-Aro and on the city fringes of inner-city suburbs close to main transport routes, on relatively flat ground and where renewal of 3 water infrastructure can be concentrated into a smaller area. This is a much better alternative than the propose scattergun approach of allowing 6-story apartment blocks to be built through the majority of the inner-city suburbs. By doing this, valuable heritage and innercity character areas could be retained while meeting the required housing need in Wellington at the same time.	Disallow
Sue Kedgley	387.4	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that there are numerous vacant or under-utilised commercial buildings in the city centre that could be converted and re-purposed into apartment blocks. Valuable character areas comprised of pre-1930s wooden houses should be retained and high-rise development concentrated in the CBD. By doing this, valuable heritage and inner-city character areas could be retained while meeting the required housing need in Wellington at the same time.	Seeks that densification focuses on the areas such as in the central city, where there are numerous vacant or under-utilised commercial buildings that could be converted and re-purposed into apartment blocks.
LIVE WELLington	FS96.53	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	Prioritising Brownfield development is Supported There are strong economic & social benefits from concentrating development in Te-Aro and on the city fringes of inner-city suburbs close to main transport routes, on relatively flat ground and where renewal of 3 water infrastructure can be concentrated into a smaller area. This is a much better alternative than the propose scattergun approach of allowing 6-story apartment blocks to be built through the majority of the inner-city suburbs. By doing this, valuable heritage and innercity character areas could be retained while meeting the required housing need in Wellington at the same time.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.308	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that the residential intensification provisions in the Medium Density Residential and High Density Residential Zones should be reviewed to improve national and regional consistency and increase density and heights across the board. Residential intensification standards should be expanded to reflect an increase in intensification anticipated in and around centres and rapid transit stops, and where necessary introduce a new chapter.	Seeks that residential intensification provisions in the Medium Density Residential and High Density Residential Zones are reviewed to improve national and regional consistency and increase density and heights across the board.
Onslow Residents Community Association	FS80.22	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	Considers the proposed amendments go well beyond the requirements of the National Policy Statement on Urban Development and the Medium Density Residential Standards and would enable an unjustified level of development. Considers there is no evidence that this level of enablement is necessary. Considers original submission contains the submitter's view of appropriate settings for our community. [Refer to original submission - 283]	Disallow
Greater Wellington Regional Council	FS84.29	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Kāinga Ora Homes and Communities	391.309	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that where standards are not referenced in building and structure activity rules, an activity status should be provided for non-compliance with the standard. It is sought that this activity status in Residential Zones is a Restricted Discretionary to be consistent with the general approach throughout the Plan.	Seeks that where Residential Zone standards are not referenced in building and structure activity rules a Restricted Discretionary activity status is provided for non-compliance with the standard, to be consistent with the general approach throughout the Plan
Kāinga Ora Homes and Communities	391.310	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	The submitter has noted that as a result of their amendments requested for height adjustments there may be consequential changes needed to other standards such as wind and daylight standards.	Seeks that standards are amended across the plan to be proportionate to the building height changes sought in the submission.
Onslow Residents Community Association	FS80.31	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	Considers that what is proposed will lead to an increase in building height.	Disallow
Stephen Minto	395.3	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that the historic low-rise suburbs of older wooden buildings are a character feature throughout Wellington that is of huge liveability and tourist value.	Not specified.
Wellington International Airport Ltd	406.497	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	[No specific reason given beyond decision requested - see original submission]	Seeks that the Air Noise Boundary is amended to establish a policy framework where resource consents can be declined within existing residential zones for noise sensitive activities on reverse sensitivity grounds;
Kāinga Ora – Homes and Communities	FS89.152	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	Kāinga Ora opposes the decision sought on the basis that adverse effects from noise can be appropriately managed and the concept of reverse sensitivity is not supported.	Disallow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.152	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Emma Osborne	410.7	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Emma Osborne	410.8	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what is proposed.
Stephen Minto	FS100.17	Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	<p>Submitter 234 wants to reduce shading as an issue when designing a development. But if people have solar panels on their house then this is an ongoing financial benefit that is lost. Compensation has not been considered or discussed in the submission. The criticality of sunlight to well being. It should be a right to have it in your house. It is known to help house sales so it has a value and the submitters place no value on it.</p> <p>Appreciates the submitter wants more houses and assumes they want affordable housing. Instead wants affordable housing and sees densification as having merits in the right places. Like in the brownfields of Te Aro. Not by ripping the heart out of our heritage/ character suburbs. Our heritage/chaacrter suburbs are a finite asset that is special to NZ. Tourists talk about it being special and different. Our heritage is part of continuity with our past. And being connected to the past is a critical part of becoming aware of our identity as New Zealanders. Heritage gives us a sense of place. Our place. Try getting Parisians to pull down the Eiffel Tower now.</p> <p>Heritage buildings and character areas connect to the trees that covered our land and were destroyed. Respecting heritage houses gives us a chance to still see the beauty of their wood. The trees that are special to NZ. The Rimu reds, the various stains, the hardness of Matai. The connection to what makes NZ. So when we plant and replace it will mean a deeper understanding of the beauty that was destroyed. Protecting heritage therefore helps connect us to a better future and an awareness that we should not let that destruction happen again.</p> <p>Wellington has already lost most of its character and heritage from the central city. Lambton Quay destroyed but its no safer from earthquakes in fact less safe. Heritage and character just aren't looked after so they often are poor quality. Requiring them to be done up to an excellent standard would be cheaper and less carbon intensive than building new. Note: Cities can shape well being and happiness as well. They aren't just cost effective rooms to sleep in. [Inferred reference to submission point 234.7]</p>	Disallow
Emma Osborne	410.9	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that where shading is qualifying matter, there is a new policy for provding pop-up public realm for development-shaded homes.	Seeks that there is a new policy providing for pop-up public realm for houses that are shaded by new development.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Stephen Minto	FS100.9	Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	<p>Submtter 410 proposes the encouragement of ‘Pop-up public realm’ for dwellings shaded by developments. This is in effect telling people to go outside, to the beach or park if they want sun. Or a glass van will drive round and people can sit in it for 5 minutes before it drives away somewhere else. ‘Closing time drink up ya tea’. That just doesn’t match how people use their time, the independence of when you can relax. It’s simply costly and silly.</p> <p>It is not even a viable proposal in the summer heat when you may want sun to warm the house or dry the clothes but not be in it. But especially in winter when sun is so important for comfort but it is still very cold outside. This heavily impacts the elderly and puts them at higher risk from illnesses. Wellington is not called windy for nothing.</p> <p>These suggestions take no account of how vulnerable some people feel outside and increases the chances of predatory behaviour onto the vulnerable.</p> <p>Every dwelling should be an excellent one and this submission does nothing for that. In theory even new developments could be overshadowed and it’s just bad luck.</p> <p>[Inferred reference to submission point 410.9]</p>	Disallow
Donna Yule	421.1	Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	<p>Opposes the blanket policy of Medium Density 3 Storey Residential housing in all residential areas - the height limits are too high. Also no residential minimum boundaries space of at least 1 metre.</p> <p>No consideration has been given to the geographical location of each individual suburb, its terrain and orientation to the sun. For suburbs that are built in a north south direction with hills either side and the main housing is on the flat, any 3 storey building will cast a significant shadow over many properties.</p> <p>Many more 3 storey development means a whole suburb except for those on the hills will be in permanent shadows.</p> <p>Added to that no space between properties, no outside areas to enjoy a little privacy. These suburbs will become sunless undesirable transitional suburbs where people will only stay a short time until the can afford to move elsewhere with sun & outdoor space.</p>	Not specified.
Paul Gregory Rutherford	424.15	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	<p>Considers that Wellington is a folded landscape with valleys and ridges, and this means that a single large dwelling in the wrong place can adversely affect many others.</p> <p>The PDP needs to allow and adjust for this reality by adopting a more carefully tailored and locally nuanced approach, rather than a one-size-fits-all approach if it is to avoid serious and long-lasting adverse impacts in Wellington.</p> <p>Considers that planning needs to drive and encourage quality and ensure the design of new, more intensive development works with the city’s idiosyncratic landscape and for the communities in which it is located. We need local Design Guides, founded on a sophisticated understanding of local character, as a proven and effective vehicle for addressing good residential quality.</p>	Seeks that the Proposed District Plan must more comprehensively provide for enhanced sunlight access to outdoor and indoor living areas, the addition and extension of new green space to balance increased residential densities and strengthen the urban design qualities of the city through a more sophisticated approach to design guidance, in particular the use of local design guides tailored to local areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association	429.28	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	<p>Considers that the Spatial Plan/PDP proposes that over 2/3rds of population growth be absorbed into selected outer suburban areas while inner suburbs will take a much smaller impact. The experience of the Johnsonville MDRA shows that simply zoning residential areas for denser development does not lead to more housing or affordable housing. This is simply unsustainable to focus growth on a few suburbs as population growth needs to be supported across the city.</p> <p>Increasing the available residential accommodation close to the city centre is more likely to be attractive to new residents, as inner suburbs are more accessible by active modes and have more frequent and faster public transport services. Living in inner suburbs is attractive to many because they can access the vibrant city centre – including its work cultural and sporting opportunities – easily and efficiently, without clogging roads or wasting resources on transport unnecessarily.</p>	Seeks that the proposed district plan focuses on increasing available residential accommodation close to the city centre.
Johnsonville Community Association	429.29	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	<p>Considers that about half of the multi-level developments in Johnsonville have been built in breach of the MDRA planning rules but have been allowed because impacts were less than minor.</p> <p>Considers that there has been a breach of the WCC Planning Officers duty of care to consider and act to protect the best interests of home owners where residential developments do not comply with Council planning rules.</p> <p>The expectation with multi-unit developments is now that there will be non-notified permits for developments that exceed the limits of the PDP rules.</p> <p>[See original submission for full reason]</p>	Seeks that the criteria required for permitting non-compliant housing developments on a non-notified basis is more clearly outlined in the Proposed District Plan.
Johnsonville Community Association	429.30	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	<p>Considers that 3+ storey developments will render neighbouring homes less warm and dry.</p> <p>Considers whether council has fulfilled its fiduciary duty, duty of care obligation to affected residential home owners impacted by new building heights.</p>	Not specified.
Newtown Residents' Association	440.15	Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose in part	<p>Considers that allowing extensive redevelopment which removes the existing trees and other plants in Newtown's backyards does permanent damage to the natural bio-diversity of the area. Private gardens comprise the greatest proportion of green space in urban environments, so their potential to contribute to biodiversity is significant</p>	Not specified.
Ingrid Downey	443.1	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	<p>Considers that the existing provisions relating to minimum sunlight in the Operative Plan should be retained rather than replacing them with the minimum daylight provisions in the PDP.</p> <p>Keeping the Operative Plan provisions will ensure a minimum level of quality - and humanity - will be maintained in our new homes.</p> <p>Considers that light is fundamental to our well-being, and shading is far more than simply a minor issue. Reductions in sunlight can and do affect: heating and light cost; dampness; the ability to dry clothes outside and grow food; and mental well-being.</p>	<p>Seeks that the existing provisions relating to minimum sunlight in the Operative Plan are reinstated in the Proposed District Plan.</p> <p>[Inferred decision requested].</p>
Anita Gude and Simon Terry	461.17	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	<p>Considers that a height limit of 11m on properties bordering the town belt will lead to a loss of character over time and will degrade the natural backdrop that the town belt provides for the City.</p>	Amend the rules (and associated objectives and policies) so that a height limit of 8m is applied to all properties bordering the town belt.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ben Barrett	479.21	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that Constable Street is not a major transport corridor. [Refer to original submission for full reason]	Seeks that appropriate building planning needs to be had along Constable Street, varying in height, with building heights reducing as the elevation of the road rises.
Catharine Underwood	481.21	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that design requirements for multi-unit residential developments regarding sunshine and shading need to be strengthened or made mandatory to future-proof buildings and provide for good community experience. New 22m, 14m and 11m storey blocks will make existing neighbouring houses shadier, damper, less healthy, and unpleasant to live in. A particular issue is if a new building blocks sunlight from existing solar panels on a neighbour's property.	Seeks that provisions for multi-unit developments be stricter in regards to the shade they can cast.
Living Streets Aotearoa	482.46	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that many people are concerned about multi-unit developments not providing the sort of quality, privacy and amenity that a house in its own section can. That is not true if the units are well-designed.	Seeks that new and altered multi-unit developments have good design that provides privacy. [Inferred that the decision requested refers to multi-unit developments].
Living Streets Aotearoa	482.47	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Not specified.	Seeks that new and altered multi-unit developments are accessible. [Inferred that the decision requested refers to multi-unit developments].
Living Streets Aotearoa	482.48	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Not specified.	Seeks that new and altered multi-unit developments have outside spaces including for clothes drying. [Inferred that the decision requested refers to multi-unit developments].
Living Streets Aotearoa	482.49	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Not specified.	Seeks that new and altered multi-unit developments include storage and bike parking. [Inferred that the decision requested refers to multi-unit developments].
Living Streets Aotearoa	482.50	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Not specified.	Seeks that new and altered multi-unit developments provide green space both private and communal. [Inferred that the decision requested refers to multi-unit developments].
Living Streets Aotearoa	482.51	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Not specified.	Seeks that new and altered multi-unit developments be insulated for noise and energy efficiency. [Inferred that the decision requested refers to multi-unit developments].
Living Streets Aotearoa	482.52	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Not specified.	Seeks that new and altered multi-unit developments have access to daylight. [Inferred that the decision requested refers to multi-unit developments].
Te Rūnanga o Toa Rangatira	488.73	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that there are inconsistencies in the zoning and identifying of rapid transit stops across the region. Concerned about the impact this will create in the future.	Not specified.

Residential - Medium Density Residential Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Jonathan Markwick	490.14	Residential Zones / General point on Residential Zones / General point on Residential Zones	Support	Supports the increase in height controls in the Mt Cook area.	Retain the building height controls in the Mt Cook area as notified. [Inferred decision requested]
Greg Coyle	39.1	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that any building over two storeys will shade roof-top solar panels and make these useless. Therefore written approval should be required if development is occurring next to a site with solar panels.	Seeks that neighbours' approval is required for any development next to a site that has roof top solar panels.
Karen Serjeantson	43.1	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Considers that the recent government amendments for denser housing have not taken into account older, unique areas such as Roseneath where properties can have no bordering street. Considers that the building of a 12-metre high house on the North side of 95 Grafton Road could restrict sunlight access to the house and change the outlook to a huge wall - which could be expected in the city centre but not the residential area. Seeks that space between houses is maintained for passive solar access.	Not specified.
Karen Serjeantson	43.2	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Seeks clarification as to where is the heritage protection for the site at 95 Grafton Road, which historically was one of only two houses overlooking Balaena Bay.	Seeks clarification about heritage protection.
Robert and Chris Gray	46.6	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Considers that the PDP growth estimates need to allow for children's primary education and day centres in the Mount Victoria area.	Not specified.
Robert and Chris Gray	46.7	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Considers that allowing the neighbour at 43 Porritt Avenue to build higher than an 11 metre building would block the sun and make any solar panels, if installed, redundant.	Seeks that existing utilities such as solar panels, skylights etc. on neighbouring properties will be considered and safeguarded in the consent decision making process.
Robert and Chris Gray	46.8	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Seeks clarification as to whether the Council will reimburse the cost of setting up solar and provide a replacement solution for alternative energy.	Seeks clarification.
Shailesh Kumar Patel	49.3	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Opposes the restrictions and provisions on site in the Air Noise Overlay, which mean that Council and Wellington Airport permission is required for subdivision and infill new housing on the existing section. Currently the Airport is not giving any permission for subdivision and infill on the existing section for resident housing as well as commercial buildings. Considers that sites in the Air Noise Boundary should have the same development rights as sites outside this (i.e. be able to build in accordance with the MDRS).	Seeks that council ease restrictions on subdivision and infill housing in the Air Noise Boundary so that these sites have the development potential available under the MDRS.
Michael Hamilton	53.1	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	PDP does not protect or acknowledge existing heating and energy consumption patterns of storey bungalows that make up most of Karori and will lose passive-heating if with no protections. Loss of passive heating during winter will require alternative heating methods which consume more energy and have a larger carbon footprint. Retrofits to account for changes in passive heating will be expensive for property owners. [Refer to original submission for further detail, including attachments]	Seeks that the Medium Density Residential Zone chapter is amended to recognise and protect the energy efficiency and energy consumption of the existing housing stock, through recognising these effects as a resource with their own protections, or new developments should not be allowed to impact existing dwellings energy daytime energy requirements by more than 10%.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Trace Quinn	54.1	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that 369 Adelaide Road would benefit from increased height control to 21 meters, rather than the current 14m limit. The site has potential for housing development that will depend on the outcome of the district plan changes. [Refer to original submission for full reason].	Seeks that height control be increased from 14m to 21m at 369 Adelaide Rd.
Judith Ellen Bleach	60.2	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that challenging the heritage status of areas and properties in Wellington by the WCC in the name of progress has been a superficial process. There has been serious concern expressed by residents.	Reinstate the Officers Recommended Plan as notified.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.43	Residential Zones / Medium Density Residential Zone / General MRZ	Support	Supports submission seeking textending character precincts in Owen Street Newtown.	Allow
Judith Ellen Bleach	60.3	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that 98 Owen Street should be included in a character precinct. Notes that the WCC records for 98 Owen Street stated that the house existed prior to 1892. The property was purchased substantially due to the character of the house and surrounding houses in the street (Owen Street and Cardall Street). The property has undergone substantial renovations to ensure it is warm and dry and its rich and interesting heritage is a source of pride for the owner.	Amend the extent of MRZ-PREC01 (Character Precincts) to include 98 Owen Street.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.44	Residential Zones / Medium Density Residential Zone / General MRZ	Support	Supports submission seeking textending character precincts in Owen Street Newtown.	Allow
Coronation Real Estate Ltd	62.3	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that if the entire site at 9 Comber Place is not rezoned MRZ, then the zoning should be split with the northern portion being zoned MRZ and the southern portion zoned NOSZ as shown in the submission. (OPTION A)	Seeks that if the entirety of the site at 9 Comber Place is not zoned Medium Density Residential Zone, then the zoning should be split Medium Density Residential Zone/Natural Open Space Zone with the zone boundary across the centre of the site. Consequential amendment to the mapping.
Coronation Real Estate Ltd	62.4	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that if the entire site at 9 Comber Place is not rezoned MRZ, then the existing split zoning should be retained. (OPTION B)	Seeks that if the entirety of the site at 9 Comber Place is not zoned Medium Density Residential Zone and OPTION A is not selected, then the zoning should be split Medium Density Residential Zone/Natural Open Space Zone to reflect the Outer Residential/Open Space B zoning in the Operative District Plan. Consequential amendment to the mapping.
Susan Rotto	63.3	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	MRZ-P8.4 (Achieve attractive and safe streets), MRZ-P11 (Attractive and safe streets and public open spaces) and MRZ-R6 (Visitor accommodation) cannot work without provision for off-street parking. Lack of off-street parking drives parking on-street which packs up streets, which are unsafe and provide no space for workers.	Seeks that the Medium Density Residential Zone chapter is amended to require at least one off-street car park per residential unit on a site.
Susan Rotto	63.4	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	MRZ-P8.4 (Achieve attractive and safe streets), MRZ-P11 (Attractive and safe streets and public open spaces) and MRZ-R6 (Visitor accommodation) cannot work without provision for off-street parking. Lack of off-street parking drives parking on-street which packs up streets, which are unsafe and provide no space for workers.	Seeks that the Medium Density Residential Zone chapter is amended to require 1 > off-street car parks on sites that are used for non-residential purposes.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Juliet Cooke	68.2	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	<p>Considers that CCZ standards will lead to inappropriate, out of scale development with a direct impact on residential properties that have recognised heritage and character values and are therefore contrary to the objectives and policies of the plan.</p> <p>Heritage and character are qualifying matters under MRZ Pt1 Sch 1.</p> <p>The height limits in Height Control Area 9 would allow inappropriate scale of development adjacent to land which is zoned for residential purposes or has character or heritage overlay.</p> <p>Moir Street will have adverse effects due to the potential for development in neighbouring CCZ zoning.</p> <p>Moir street is a key and coherent character and heritage area.</p> <p>Moir street is unique with the amount of overlapping relevant overlays.</p> <p>[See submission for further detail]</p>	Seeks that the Medium Density Residential Zone chapter appropriately considers the transition between the Medium Density Residential Zone and the City Centre Zone to protect heritage and character values.
Brett McKay	69.1	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Opposes MRZ provisions in their entirety.	Seeks that the Medium Density Residential Zone provisions are recrafted to achieve reasonable intensification whilst maintaining and enhancing the existing valued housing stock.
Richard Murcott	FS71.2	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Support	Reasonable, well-regulated intensification in MDRZ's is OK. Unreasonable intensification is not OK. Intensification that jeopardises things that are valued by communities (liveability), and risk things that are valuable for the city's reputation overall (its character and heritage), may be considered imprudent or irresponsible. The city doesn't need to rush into this. This increases the risks. The stakes are high; one mistake at this point could jeopardise a lot over the next 10-30yrs.	Allow
Brett McKay	69.2	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	<p>Considers that the Council should recraft provisions for the inner residential neighbourhoods that will achieve reasonable intensification whilst maintaining and enhancing the existing valued housing stock.</p> <p>This will require objectives and policies that recognise both residential character and heritage qualities supported by rules with 'teeth' to ensure appropriate implementation.</p>	Seeks that the Council devise new provisions relating to intensification of residential neighbourhoods.
Richard Murcott	FS71.3	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Support	Reasonable, well-regulated intensification in MDRZ's is OK. Unreasonable intensification is not OK. Intensification that jeopardises things that are valued by communities (liveability), and risk things that are valuable for the city's reputation overall (its character and heritage), may be considered imprudent or irresponsible. The city doesn't need to rush into this. This increases the risks. The stakes are high; one mistake at this point could jeopardise a lot over the next 10-30yrs.	Allow
Judith Graykowski	80.3	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	<p>Considers that the PDP will result in a random scattering of tower blocks in the Mount Victoria area. These blocks will dominate and shade existing neighbours in what is mainly a one or two storey residential suburb.</p> <p>This has considerable potential for poor health outcomes and resentment.</p>	Seeks that the maximum building height is reduced to 11 or 14 metres for a much greater proportion of the Mount Victoria area.
Rachel Marr	89.2	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that residential multi-unit developments affect neighbours and need to be notified.	Seeks that notification of multi-unit developments is required. [Inferred decision requested]
Hugh Good	90.4	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Considers that 3-waters infrastructure should not be a qualifying matter that governs where development takes place.	Seeks that three waters infrastructure should not be a qualifying matter that governs where development takes place.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
292 Main Road Limited	105.3	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Opposes 292 Main Road, Tawa (The site) being zoned as MRZ (Medium Density Residential Zone). Considers that the site is within 700m walking distance from Lindon Station in Tawa which is a rapid transit stop and is therefore within a walkable catchment. WCC Spatial Plan puts the site within NPS-UD Policy 3 (c) areas. [Refer to original submission for full reasons]	Seeks that 292 Main Road, Tawa is rezoned to HRZ (High Density Residential Zone).
Tawa Business Group	107.16	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Opposes the zoning of 1 Redwood Avenue, 3 Redwood Avenue, and 85 Main Road, Tawa as Medium Density Residential. [Refer to original submission for full reasons].	Rezone 1 Redwood Avenue, 3 Redwood Avenue, and 85 Main Road, Tawa from Medium Density Residential Zone to Mixed Use Zone.
Gael Webster	114.3	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that based on evidence from expert Council officers, Boffa Miskell consultants, and the Heritage New Zealand Pouhere Taonga assessment, the character areas in other parts of Wellington (as well as Mount Victoria) should also be considerably larger.	Not specified.
Zoe Ogilvie-Burns	131.7	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Zoe Ogilvie-Burns	131.8	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
Anne Lian	132.6	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards.
Anne Lian	132.7	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Anne Lian	132.8	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what is proposed.
Anne Lian	132.9	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
Ingo Schommer	133.7	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards.
Ingo Schommer	133.8	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Ingo Schommer	133.9	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Olivier Reuland	134.8	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards.
Olivier Reuland	134.9	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Olivier Reuland	134.10	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what is proposed.
Olivier Reuland	134.11	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
Ella Patterson	138.4	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that larger, more comprehensive developments are needed in our centres.	Seeks that height limits are increased in the 15 minute walking catchments to rail stations.
Ella Patterson	138.5	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Grant Buchan	143.11	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that all inconsistencies between the NPS-UD and MDRS should be removed (in favour of NPS-UD directions).	Seeks that all NPS-UD (National Policy Statement on Urban Development) recommendations are adhered to in the Medium Density Residential Zones. [Inferred decision requested].
Grant Buchan	143.12	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards.
Grant Buchan	143.13	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' alternative medium density residential standards recommendations for outdoor living space and green space.
Grant Buchan	143.14	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what's proposed.
Grant Buchan	143.15	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
Braydon White	146.15	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations with respect to building height limits, recession planes and setbacks.	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards.
Braydon White	146.16	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
David Stevens	151.8	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Considers that four storey buildings sometimes may be appropriate in specific locations throughout the area from Broadmeadows to Crofton Downs or for example on the downside of a road, where the ground floor is effectively below normal pavement level, leaving not much more than three storeys visible at street level.	Seeks that four storey buildings throughout the area from Broadmeadows to Crofton Downs should only be considered on a case-by-case basis via notifiable resource consent applications.
Matpor Holdings Ltd	152.1	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that their property is underutilised and should be provided for to allow improvements whilst meeting the character requirements for the street [thought to be on Brougham Street - not specified]. The property is only a single level dwelling on a good size site with under 40% site coverage in a location very close to the city. [Refer to original submission for full reasons].	Seeks that improvements, meeting the character requirements for the street, to the submitter's property [thought to be on Brougham Street - not specified] should be provided for whilst only requiring a building consent. [Inferred decision requested].
Cameron Vannisselroy	157.5	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations with respect to building height limits, recession planes and setbacks.	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standard recommendations.
Cameron Vannisselroy	157.6	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Seeks that five dwellings, not three, should be a permitted activity.	Seeks that five units can be constructed as a permitted activity.
Wellington's Character Charitable Trust	FS82.53	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Considers the submission point is inconsistent with the NPS-UD and MDRS.	Disallow
LIVE WELLington	FS96.87	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	This would be inconsistent with the NPS-UD and MDRS	Disallow
Cameron Vannisselroy	157.7	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what's proposed.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Stephen Minto	FS100.15	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>Submitter 234 wants to reduce shading as an issue when designing a development. But if people have solar panels on their house then this is an ongoing financial benefit that is lost. Compensation has not been considered or discussed in the submission. The criticality of sunlight to well being. It should be a right to have it in your house. It is known to help house sales so it has a value and the submitters place no value on it.</p> <p>Appreciates the submitter wants more houses and assumes they want affordable housing. Instead wants affordable housing and sees densification as having merits in the right places. Like in the brownfields of Te Aro. Not by ripping the heart out of our heritage/ character suburbs. Our heritage/character suburbs are a finite asset that is special to NZ. Tourists talk about it being special and different. Our heritage is part of continuity with our past. And being connected to the past is a critical part of becoming aware of our identity as New Zealanders. Heritage gives us a sense of place. Our place. Try getting Parisians to pull down the Eiffel Tower now.</p> <p>Heritage buildings and character areas connect to the trees that covered our land and were destroyed. Respecting heritage houses gives us a chance to still see the beauty of their wood. The trees that are special to NZ. The Rimu reds, the various stains, the hardness of Matai. The connection to what makes NZ. So when we plant and replace it will mean a deeper understanding of the beauty that was destroyed. Protecting heritage therefore helps connect us to a better future and an awareness that we should not let that destruction happen again.</p> <p>Wellington has already lost most of its character and heritage from the central city. Lambton Quay destroyed but its no safer from earthquakes in fact less safe. Heritage and character just aren't looked after so they often are poor quality. Requiring them to be done up to an excellent standard would be cheaper and less carbon intensive than building new. Note: Cities can shape well being and happiness as well. They aren't just cost effective rooms to sleep in. [Inferred reference to submission point 234.7]</p>	Disallow
James and Karen Fairhall	160.3	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Supports that Character and Heritage are noted as qualifying matters under the RZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".	Seeks that particular focus is taken to ensure that the Proposed District Plan appropriately considers the transition from a residential area (MRZ) to the City Centre Zone, especially on a street like Moir St where the plan seeks to protect the heritage and character values.
Karen and Jeremy Young	162.3	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Supports that Character and Heritage are noted as qualifying matters under the RZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".	Seeks that particular focus is taken to ensure that the district plan appropriately considers the transition from a residential area (MRZ) to the City Centre Zone, especially on a street like Moir St where the District Plan seeks to protect the heritage and character values.
Jill Ford	163.9	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	<p>Considers that there is the opportunity in places like Newtown, for taller multi-story units to be developed in a more consistent way, e.g. along Riddiford Street shopping as opposed to randomly amongst smaller housing.</p> <p>The submitter is concerned about sporadic six storey buildings beside small older homes.</p>	Seeks that taller multi-storey units are developed in a consistent way as opposed to randomly amongst smaller housing.
Jill Ford	163.10	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Considers that sunlight is important for a carbon-zero lifestyle as it fuels solar panels, helps gardens grow, dries the washing, and heats people's homes. If tall buildings are able to overshadow low-rise homes the latter risk becoming cold and damp, leading to illness, and in some cases the homes will become unfit for purpose. Sunlight is vital for everyday life. With new developments the standards require a certain amount of sunlight access but there is no guarantee of this being protected for existing neighbouring properties.	<p>Seeks that sunlight protection are provided for existing neighbourhood properties.</p> <p>[Inferred decision requested].</p>
Jill Ford	163.11	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
John Schiff	166.2	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Considers that intensive development in character areas such as Mt Victoria will not offer "affordable" housing as the demand for inner city living will continue to grow and new builds will fetch high prices, shutting out those seeking affordable living. In fact, the houses that are likely to be demolished to make way for new developments are most likely providing affordable rental accommodation. These will disappear if the character zones are reduced as significantly as proposed. Considers that a more balanced approach between retaining character precincts and allowing more intensive development is required.	Not specified.
Amos Mann	172.17	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards recommendations.
Amos Mann	172.18	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the MRZ (Medium Density Residential Zone) is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Amos Mann	172.19	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
Patrick Wilkes	173.14	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards recommendations.
Patrick Wilkes	173.15	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Patrick Wilkes	173.16	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what's proposed.
Patrick Wilkes	173.17	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
Kane Morison and Jane Williams	176.3	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Supports that Character and Heritage are noted as qualifying matters under the RZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".	Seeks that particular focus is taken to ensure that the district plan appropriately considers the transition from a residential area (Medium density Residential Zone) to the City Centre Zone, especially on a street like Moir St where the District Plan seeks to protect the heritage and character values.
Pete Gent	179.9	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards recommendations.
Pete Gent	179.10	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the MRZ (Medium Density Residential Zone) is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Pete Gent	179.11	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what's proposed.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Pete Gent	179.12	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
James Harris	180.6	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
James Harris	180.7	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that strong controls on shading caused by proposed new developments are required such as build to the sun, enabling passive solar house, and solar panels.
Historic Places Wellington	182.19	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the extent of the character areas of the operative district plan are a matter of national importance under s6 of the RMA supported by the following reasons: - The Pre-1930s character area review - The Heritage New Zealand Pouhere Taonga submission on the Draft Spatial Plan. - Council officers recommendations June 2021 recommendations on the Spatial Plan. [See original submission for full reasons]	Seeks that a resource consent be required to demolish a building built before 1930 applies to the same spatial extent as the Operative District Plan.
Thorndon Residents' Association Inc	FS69.103	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Support	All inner Residential suburbs should be MDZ Exemption from upzoning Importance of character areas Character Precincts, rules & design regime Extended Character Precincts in line with Boffa Miskell Demolition be a restricted activity for pre-1930 buildings New viewshaft for views of St Paul's	Allow
Kāinga Ora – Homes and Communities	FS89.80	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Kāinga Ora is concerned about the potential loss in intensification opportunities if the proposed relief is granted.	Disallow
Athena Papadopoulos	183.2	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Supports that Character and Heritage are noted as qualifying matters under the RZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".	Seeks that particular focus is taken to ensure that the district plan appropriately considers the transition from a residential area (MRZ) to the City Centre Zone, especially on a street like Moir St where the District Plan seeks to protect the heritage and character values.
Lara Bland	184.2	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Supports that Character and Heritage are noted as qualifying matters under the RZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".	Seeks that particular focus is taken to ensure that the district plan appropriately considers the transition from a residential area (MRZ) to the City Centre Zone, especially on a street like Moir St where the District Plan seeks to protect the heritage and character values.
Emma Baines	185.5	Residential Zones / Medium Density Residential Zone / General MRZ	Support	Supports the PDP heights for Cockayne Road, Khandallah.	Retain proposed building heights for Cockayne Road as notified.
Ros Bignell	186.7	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the existing newer, infill townhouses on Lawrence Street are positioned such that they have a relatively low impact on the overall streetscape. This might be similarly possible with new 3 storey (11 metres height) townhouses or residential buildings but not with 4 storey multi dwelling buildings of up to 14 metres.	Seeks that the building height limit in Lawrence Street is reduced from 14m to 11m. [Inferred decision requested].
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.25	Residential Zones / Medium Density Residential Zone / General MRZ	Support	Supports submission seeking that character protections should extend to Lawrence Street, Newtown.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Geoff Palmer	188.2	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Supports that Character and Heritage are noted as qualifying matters under the RZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".	Seeks that particular focus is taken to ensure that the district plan appropriately considers the transition from a residential area (MRZ) to the City Centre Zone, especially on a street like Moir St where the District Plan seeks to protect the heritage and character values.
Chris Howard	192.8	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Considers that some housing intensification [Inferred in the inner residential area] is warranted, e.g. allowing 3 homes on many sections, (rather than a limit of 2).	Allow three houses on many sites in the inner residential area. [inferred decision requested]
Chris Howard	192.9	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Considers that sites with wide street frontages are typically more suited to medium density housing than those with deep set backs that would require 'sausage flat' housing, which the submitter considers is unattractive.	Only allow medium density housing on sites with wide street frontages. [Inferred decision requested]
Chris Howard	192.10	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Considers that sites with wide street frontages are typically more suited to medium density housing than those with deep set backs that would require 'sausage flat' housing, which the submitter considers is unattractive.	Seeks that the Council review how other councils such as Auckland Council are addressing the issue and incorporate additional safeguards in the plan.
Michael O'Rourke	194.5	Residential Zones / Medium Density Residential Zone / General MRZ	Support	Supports the attempts in the MRZ to make new builds more liveable with regard to required outdoor space.	Not specified.
Michael O'Rourke	194.6	Residential Zones / Medium Density Residential Zone / General MRZ	Support	Supports that the MRZ to some extent attempts to mitigate the impact of higher buildings on neighbouring properties.	Not specified.
Peter Nunns	196.10	Residential Zones / Medium Density Residential Zone / General MRZ	Support	Supports the extension of medium density residential zone to Berhampore, including the Chatham Street neighbourhood.	Retain Medium Density Residential Zone mapping in Berhampore as notified.
Peter Nunns	196.11	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards.
Peter Nunns	196.12	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Peter Nunns	196.13	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
Andrew Flanagan	198.3	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards.
Andrew Flanagan	198.4	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Andrew Flanagan	198.5	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Anne Lian	198.7	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what is proposed.
LIVE WELLington	FS96.51	Part 3 / Residential I Zones / Medium Density Residential I Zone / General MRZ	Oppose	Sunlight is important for health and well-being, as well as practical applications such as passive heating and solar PV. Retain or improve allowance for sunlight.	Disallow
Antony Kitchener and Simin Littschwager	199.10	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Considers that it is not fair nor reasonable that the outer northern suburbs deal with the brunt of intensification, while the inner suburbs that are close walking distance to the CBD or on the proposed light-rail route, appear not to be included in the six-plus storey building densification plans. This will increase the value of the already costly inner suburbs while the comparably more affordable outer suburbs will decrease in value.	Seeks that Ngaio and Khandallah should not be expected to accommodate the construction of six-storey residential buildings to ease the housing affordability crisis but not other Wellington suburbs which are within walking distance of the central city.
Wellington City Youth Council	201.29	Residential Zones / Medium Density Residential Zone / General MRZ	Support	Supports the upzoning of residential land to medium-density, in keeping with the MDRS. Considers that this will allow more housing across current suburbs, providing more choice for young people of where to live in the future and reducing reliance on new greenfield developments.	Retain MRZ (Medium Density Residential Zone) as notified.
Avryl Bramley	202.31	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that non demolition rules should be extended to other building cohorts that are durable.	Seeks non-demolition rules for other building cohort eras that have produced durable residential buildings.
Dougal and Libby List	207.3	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Supports that Character and Heritage are noted as qualifying matters under the RZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".	Seeks that particular focus is taken to ensure that the Proposed District Plan appropriately considers the transition from a residential area (Medium Density Residential Zone) to the City Centre Zone, especially on a street like Moir St where the District Plan seeks to protect the heritage and character values.
Craig Forrester	210.3	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Supports that Character and Heritage are noted as qualifying matters under the RZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".	Seeks that particular focus is taken to ensure that the district plan appropriately considers the transition from a residential area (MRZ) to the City Centre Zone, especially on a street like Moir St where the District Plan seeks to protect the heritage and character values.
Richard W Keller	232.9	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
Richard W Keller	232.10	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what is proposed.
Richard W Keller	232.11	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that where shading is qualifying matter, there is a new policy for providing pop-up public realm for development-shaded homes.	Seeks that there is a new policy providing for pop-up public realm for houses that are shaded by new development.
Gabriela Roque-Worcel	234.5	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative MDRS.
Gabriela Roque-Worcel	234.6	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative MDRS recommendations for outdoor living space and green space.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Gabriela Roque-Worcel	234.7	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what is proposed.
Stephen Minto	FS100.18	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>Submitter 234 wants to reduce shading as an issue when designing a development. But if people have solar panels on their house then this is an ongoing financial benefit that is lost. Compensation has not been considered or discussed in the submission. The criticality of sunlight to well being. It should be a right to have it in your house. It is known to help house sales so it has a value and the submitters place no value on it.</p> <p>Appreciates the submitter wants more houses and assumes they want affordable housing. Instead wants affordable housing and sees densification as having merits in the right places. Like in the brownfields of Te Aro. Not by ripping the heart out of our heritage/ character suburbs. Our heritage/chaacrter suburbs are a finite asset that is special to NZ. Tourists talk about it being special and different. Our heritage is part of continuity with our past. And being connected to the past is a critical part of becoming aware of our identity as New Zealanders. Heritage gives us a sense of place. Our place. Try getting Parisians to pull down the Eiffel Tower now.</p> <p>Heritage buildings and character areas connect to the trees that covered our land and were destroyed. Respecting heritage houses gives us a chance to still see the beauty of their wood. The trees that are special to NZ. The Rimu reds, the various stains, the hardness of Matai. The connection to what makes NZ. So when we plant and replace it will mean a deeper understanding of the beauty that was destroyed. Protecting heritage therefore helps connect us to a better future and an awareness that we should not let that destruction happen again.</p> <p>Wellington has already lost most of its character and heritage from the central city. Lambton Quay destroyed but its no safer from earthquakes in fact less safe. Heritage and character just aren't looked after so they often are poor quality. Requiring them to be done up to an excellent standard would be cheaper and less carbon intensive than building new. Note: Cities can shape well being and happiness as well. They aren't just cost effective rooms to sleep in. [Inferred reference to submission point 234.7]</p>	Disallow
Gabriela Roque-Worcel	234.8	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
Regan Dooley	239.9	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative MDRS.
Regan Dooley	239.10	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative MDRS recommendations for outdoor living space and green space.	Seeks that the MRZ (Medium Density Residential Zone) is amended to include the Coalition for More Homes' Alternative MDRS recommendations for outdoor living space and green space.
Ara Poutama Aotearoa the Department of Corrections	240.11	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Considers that the definition of "residential activity" entirely captures supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama, and therefore a separate definition of "supported residential care activities" is unnecessary.	Remove the references to "supported residential care activity" from the Medium Density Residential zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Prime Property Group	256.3	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	<p>Spenmoor area defined in the district plan restricts any multi residential development in this area by seeking further assessments with respect to traffic.</p> <p>Considers that the street is no worse than others in Newlands that do not have a specific policy focussed on traffic effects and roading capacity.</p> <p>Works are scheduled which negate the need for the policy and further assessment of traffic effects</p> <p>[Refer to original submission for full reason].</p>	Seeks to remove all references in the chapter to Spenmoor Street Area.
Wellington City Council	266.131	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	<p>Considers introduction to the chapter needs to be amended to include reference to inundation areas as a qualifying matter.</p>	<p>Amend paragraph 6 of the Medium Density Residential Zone Introduction as follows:</p> <ul style="list-style-type: none"> Stream corridors, and overland flow paths <u>and inundation areas</u> (refer to Natural Hazards Chapter). <p>Note – for changes to the MRZ chapter, refer to the annotated version of the chapter that is included with the submission.</p>
Kāinga Ora – Homes and Communities	FS89.105	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>Kāinga Ora opposes this submission, noting that inundation areas are managed by other rules so therefore do not necessarily need to be included as qualifying matters.</p>	Disallow
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.33	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>Opposes MRZ (Medium Density Residential Zone) at 395 Middleton Road in Upper Stebbings and Glenside West development zone.</p> <p>[Refer to original submission for full reason]</p>	Opposes Medium Density Residential Zone in the Upper Stebbings and Glenside West Future Development Zone (specifically at 395 Middleton Road).
Parsons Green Trust	291.2	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>Considers that The current and ongoing childcare centre use of the PGT land would better align with the purpose of the MUZ, and the MUZ provisions would better enable commercial and mixed use development opportunities to service the surrounding residential catchment,</p> <p>A MUZ and MDRZ zone interface is not out of the ordinary. The PGT land is similarly located on the corner of Redwood Avenue / Main Road and adjoins the General Industrial Zone to the east. Furthermore, in order to address the interface with residential zones The MUZ contains rules relating to buildings and standards, noting that Rule MUZ-S5 requires windows on walls adjacent to Residential Zones to comprise of opaque privacy glazing to mitigate privacy or overlooking onto adjoining residentially zoned sites.</p> <p>MUZ is the most appropriate zoning for the PGT land. Applying the MUZ to the PGT land would create a practical zoning boundary and the MUZ contains provisions which manage potential privacy and amenity effects on adjoining MDRZ sites.</p> <p>[Refer to original submission for full reason]</p>	Opposes 1 & 3 Redwood Avenue and 85 Main Road, Tawa being zoned as Medium Density Residential Zone.
Priscilla Williams	293.5	Residential Zones / Medium Density Residential Zone / General MRZ	Support	<p>Considers that the spatial area coverage (Medium Density Residential Zoning) to Kinross Street in the PDP is appropriate.</p>	Retain the MRZ (Medium Density Residential Zone) zoning at Kinross Street as notified.
Johanna Carter	296.5	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>Opposes the MRZ objectives, policies and standards</p>	Opposes Medium Density Residential zone chapter as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Johanna Carter	296.6	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the proposed outlook provisions do not appear to achieve privacy and in some instances will have adjoining neighbours looking directly at each other with very little separation between properties.	Seeks addition of a new provision in the Medium Density Residential Zone chapter to add a parking standard requirement for new units where there is insufficient available on road parking.
Johanna Carter	296.7	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the simplistic notion that getting rid of parking will discourage private vehicle use is short sighted and not justified and without adequate provision for some parking per site will generate adverse effects – such as impeding traffic flow especially for emergency vehicles, creating pedestrian hazards as well as generating unsightly negative visual effects. Not all streets in Wellington have sufficient on street parking available so encouraging some off-street parking seems prudent.	Seeks the addition of a new provision in the Medium Density Residential Zone chapter to add a requirement that sites accommodate some parking to cater for people with disabilities and families not able to use public transport and for those where public transport is erratic. [Inferred decision requested]
Johanna Carter	296.8	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that there is no reason why the multi-unit rules have lesser standards of privacy outlook and open space.	Seeks that provisions relating to outlooks in multi-unit developments need further refinement and investigation to better control the adverse effects such developments will generate.
Tapu-te-Ranga Trust	297.25	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Opposes changing zoning of part of the Tapu te Ranga marae site at 44 Rhine Street, Island Bay from NOSZ to MRZ. Submitter acknowledges their original request for increased residential zoning in the PDP, they would like to amend the extent of residential zoning within the PDP to reflect the original residential and open space zoning in the operative district plan. This is to reflect the aspirations the submitter has for the site in the next 10-15 years. At this stage, the Trust do not have the resources to comprehensively address contamination and geotechnical issues, so would like to revert to the zoning shown in the operative district plan (changing additional Medium Residential Zone back to Open Space).	Seeks that land at 44 Rhine Street, Island Bay that has been rezoned Medium Density Residential Zone from Natural Open Space Zone, be rezoned back to Natural Open Space Zone.
Tapu-te-Ranga Trust	297.26	Residential Zones / Medium Density Residential Zone / General MRZ	Support	Supports the specific reference to Tapu-te-Ranga requiring specific policies to manage opportunities on their site.	Retain introduction of Medium Density Residential Zone as notified.
Wellington Branch NZIA	301.4	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Considers that the revised recession plane (height in relation to boundary) provisions introduced by the MDRS and the adoption of the MRZ removes the chance for sunlight, while also reducing adequate daylight, and that design guidance on this would improve built outcomes.	Seeks amendments to the design guides to address sunlight/daylight access.
The Retirement Villages Association of New Zealand Incorporated	FS126.221	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission, which seeks for retirement villages to be excluded from the application of the Design Guides.	Disallow
Ryman Healthcare Limited	FS128.221	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission, which seeks for retirement villages to be excluded from the application of the Design Guides.	Disallow
Wellington Branch NZIA	301.5	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers the need for a Design Review Panels for 3 x3 developments in MDRZ where developments are over 3 levels. The wholesale adoption of the MDRS standards could well result in a drastic lowering of design standards of housing, given that there are no quality control standards applied at the same time. A solution would be a mandatory Design Panel Review, as it would encourage high quality design outcomes in the city. [Refer to original submission for full reason]	Seeks that a mandatory Design Panel Review be adopted for all 3x3 Medium Density Residential Zone developments.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
The Retirement Villages Association of New Zealand Incorporated	FS126.222	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission and with the intent of the Enabling Housing Act and the NPSUD, in that it will slow, not speed up intensification.	Disallow
Ryman Healthcare Limited	FS128.222	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission and with the intent of the Enabling Housing Act and the NPSUD, in that it will slow, not speed up intensification.	Disallow
Paihikara Ki Pōneke Cycle Wellington	302.35	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Supports the PDP subject to amendments to ensure that the intensification outcomes required by the Resource Management Act 1991, as amended by the RM (Enabling Housing Supply and Other Matters) Act 2021 and the NPS-UD 2020 are enabled.	Seeks that special character qualifying matters are applied within the Medium Density Residential Zone only where there has been a rigorous, site-specific analysis and only to areas with a high concentration of character.
Kāinga Ora – Homes and Communities	FS89.87	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Support	Kāinga Ora supports this submission and associated submissions to the extent that they align with Kāinga Ora's primary submission.	Allow
Paihikara Ki Pōneke Cycle Wellington	302.36	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose in part	Considers that MRZ standards should be amended to require cycle and micromobility parking and charging for residents that is sufficient to meet future demand aligned with 80% of people making some trips per week by cycle. Multi-unit housing should provide adequate and appropriately located cycle and micromobility parking that meets the standards set out in the Transport chapter of the PDP.	Opposes standards in the 'Medium Density Residential Zone' chapter and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.198	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	The RVA does not oppose these submission point in principle, but due to the age and frequency of mobility constraints amongst retirement village residents, The RVA considers that the changes sought should not apply to retirement villages.	Amend / Allow submission points, subject to excluding retirement villages from the application of the new provisions.
Ryman Healthcare Limited	FS128.198	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Ryman does not oppose these submission point in principle, but due to the age and frequency of mobility constraints amongst retirement village residents, Ryman considers that the changes sought should not apply to retirement villages.	Amend / Allow submission points, subject to excluding retirement villages from the application of the new provisions.
Paihikara Ki Pōneke Cycle Wellington	302.37	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that MRZ standards should be amended to require cycle and micromobility parking and charging for residents that is sufficient to meet future demand aligned with 80% of people making some trips per week by cycle. Multi-unit housing should provide adequate and appropriately located cycle and micromobility parking that meets the standards set out in the Transport chapter of the PDP.	Amend standards in the 'Medium Density Residential Zone' chapter to require cycle and micromobility parking and charging for residents that is sufficient to meet future demand aligned with 80% of people making some trips per week by cycle.
The Retirement Villages Association of New Zealand Incorporated	FS126.199	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	The RVA does not oppose these submission point in principle, but due to the age and frequency of mobility constraints amongst retirement village residents, The RVA considers that the changes sought should not apply to retirement villages.	Amend / Allow submission points, subject to excluding retirement villages from the application of the new provisions.
Ryman Healthcare Limited	FS128.199	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Ryman does not oppose these submission point in principle, but due to the age and frequency of mobility constraints amongst retirement village residents, Ryman considers that the changes sought should not apply to retirement villages.	Amend / Allow submission points, subject to excluding retirement villages from the application of the new provisions.
Roland Sapsford	305.31	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the District Plan should better identify and protect areas of existing green space from partial or complete loss within Medium Density Residential Zones.	Seeks that the District Plan be amended to better identify and protect areas of existing green space from partial or complete loss within Medium Density Residential Zones.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Roland Sapsford	305.32	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	<p>Considers that six-storey buildings should not be allowed on Adams Terrace. Most of Aro Street, as well as Adams Terrace and lower Durham Street, are zoned for at least six storeys, with the exception of some heritage-listed buildings.</p> <p>While six storeys may be appropriate for structures tucked into the escarpment below Landcross Street or Durham Street, one poorly-placed building fronting Aro Street could have catastrophic effects on winter sunlight for many dwellings, including a large amount of recent infill housing.</p>	<p>Retain Adams Terrace as Medium Density Residential Zone.</p> <p>[Inferred decision requested]</p>
Roland Sapsford	305.33	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the objectives and rules relating to the Medium Density Residential area need modification so as to provide a far more nuanced and careful consideration of issues such as light, shading, wind, privacy, design quality, retention of green areas, character and heritage.	Seeks that the Medium Density Residential Zone chapter be amended to provide more careful consideration to issues such as light, shading, wind, privacy, design quality, retention of green areas, character and heritage.
Roland Sapsford	305.34	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the objectives and rules relating to Medium Density Residential area need modification so as to provide for enhanced sunlight access to outdoor and indoor living areas, the addition and extension of new green space to balance increased residential densities, and take a more sophisticated and nuanced approach to design guidance.	Seeks that the Medium Density Residential Zone chapter be amended to provide for enhanced sunlight access to outdoor and indoor living areas, the addition and extension of new green space to balance increased residential densities, and take a more sophisticated and nuanced approach to design guidance.
Roland Sapsford	305.35	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that Palmer Street should not be surrounded on four sides by buildings with permitted heights of six storeys and eight storeys. Palmer Street is identified in the Proposed Plan as a "character precinct" with an 11m height limit for new buildings. Palmer Street already experiences significant shading from the existing high rise located between Palmer and Abel Smith Streets.	<p>Seeks that Palmer Street not be surrounded on four sides by buildings with permitted heights of six storeys and eight storeys.</p> <p>[Inferred decision requested]</p>
Roland Sapsford	305.36	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the objectives and rules relating to Medium Density Residential area need modification so as to retain the capacity within Aro Valley for site-by-site consideration of each development by ensuring that most developments triggers the need for a resource consent, as is currently the case.	Seeks that the Medium Density Residential Zone chapter be amended to require resource consents for new developments in Aro Valley.
Roland Sapsford	305.37	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the objectives and rules relating to Medium Density Residential area need modification so as to develop location specific design guides and relevant standards to enable a more granular approach to local character. Standards should include access to sunlight and shade, the maintenance of personal privacy, the variety and location of green spaces, the location and scale of exterior space and development, the control of heat island effects and the look and feel of the streets we inhabit.	Seeks that the Medium Density Residential Zone chapter be amended to include location specific design guides and standards to enable a more granular approach to local character.
Roland Sapsford	305.38	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the Medium Density Residential Zone standards for height limit, site coverage, height in relation to boundary and side and rear yard setbacks so as to require resource consents where new developments have a more than minor impact on local character, sunlight, shading and outdoor recreation space.
Roland Sapsford	305.39	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the Medium Density Residential Zone chapter be amended to require resource consents related to the location of buildings on sites and issues of personal privacy and shading within and between multiple developments on a single site so to enable management of these design quality issues.
Roland Sapsford	305.40	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the objectives and rules relating to Medium Density Residential area need modification so as to retain existing provisions relating to minimum sunlight in the Operative Plan rather than replace them with the minimum daylight provisions of the proposed Plan.	Seeks that the Medium Density Residential Zone chapter be amended to retain existing provisions relating to minimum sunlight in the Operative Plan.
Roland Sapsford	305.41	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the Medium Density Residential Zone chapter be amended to identify underutilised sites and locations within Aro Valley that are not subject to demolition controls and are suitable for intensification within the existing character areas (as defined in the Operative Plan).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Roland Sapsford	305.42	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the Medium Density Residential Zone chapter be amended to identify sites and areas within Aro Valley where more intensive development could occur without adverse effects on sunlight, privacy, heritage and local character.
Roland Sapsford	305.43	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that objectives and rules relating to the MRZ as they relate to Aro Valley should clearly identify community-based planning for intensification as a method for increasing housing supply within areas subject to the revised demolition controls set out above, and provide for this planning to occur so as to be complete prior to significant infrastructure investment.	Seeks that community-based planning be identified prior to infrastructure investments in the Medium Density Residential chapter.
James Coyle	307.10	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that carparking be minimised and accessed via rear lots or lanes.
James Coyle	307.11	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that tree canopy and soil be prioritised over concrete and carparks.
Svend Heeselholt Henne Hansen	308.5	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative MDRS recommendations for outdoor living space and green space.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Svend Heeselholt Henne Hansen	308.6	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the plan should enable larger more comprehensive developments in centres.	Seeks that the plan enables larger, more comprehensive developments in Centres zones. [Inferred decision requested].
Svend Heeselholt Henne Hansen	308.7	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that larger, more comprehensive developments are needed in centres.	Seeks that Medium Density Residential Zone height limits are increased in the 15 minute walking catchments to rail stations.
Wellington's Character Charitable Trust	FS82.21	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Considers submissions are inconsistent with NPS-UD requirements; and no justification for enabling more intensive development in the MDRZ or around rail stations.	Disallow
LIVE WELLington	FS96.58	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Luke Stewart, Matthew Reweti, Miriam Moore, Patrick Wilkes, Svend Hansen — seeks that MDRZ height limits are increased in the 15 minute walking catchments around all rail stations. Opposed where this is inconsistent with NPS-UD requirements	Disallow
Philip O'Reilly and Julie Saddington	310.1	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that there is a lack of policy and standards managing the transition between areas that have a 21m maximum height and adjacent character areas, with the 11m height. Considers that this will lead to the character areas being boxed in and reduce amenity in these areas.	Seeks an appropriate transition zone adjacent to character areas. [Inferred decision sought]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Moir Street Collective - Dougal List, Libby List, Karen Young, Jeremy Young, James Fairhall, Karen Fairhall, Craig Forrester, Sharlene Gray	312.3	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Supports that Character and Heritage are noted as qualifying matters under the RZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".	Seeks that particular focus is taken to ensure that the district plan appropriately considers the transition from a residential area (MRZ) to the City Centre Zone, especially on a street like Moir St where the District Plan seeks to protect the heritage and character values.
Transpower New Zealand Limited	315.178	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that in accordance with s771 and s770 of the RMA, the National Grid is a qualifying matter. Considers amendment should be made in introductory text to specifically reference the National Grid as a qualifying matter. Considers this would be consistent with the approach of listing other matters.	Amend the introduction as follows: There are parts of the Medium Density Residential Zone where the permitted development, height or density directed by the NPS-UD may be modified <u>and/or</u> limited by qualifying matters. <u>Each activity shall comply with the relevant qualifying matter area provisions and permitted activity standards of the Plan as listed below. These include the following:-</u> - Character Precincts and the Mt Victoria North Townscape Precinct (refer to MRZ-PREC01 and MRZ-PREC02). - <u>- The National Grid Yard and National Grid Subdivision Corridor provisions.</u>
Transpower New Zealand Limited	315.179	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that in accordance with s771 and s770 of the RMA, the National Grid is a qualifying matter. An amendment to the introduction is sought to clarify that the list is exhaustive, thereby providing certainty to plan users as to what qualifying matters apply.	Clarify in the introduction to the Medium Density Residential Zone chapter that the list of qualifying matters is exhaustive.
Hilary Watson	321.11	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that demolishing wooden houses is not ecologically sound and would strip Wellington of its character. There are very few wooden cities in the world. Totara is unique to Aotearoa, it's a Taonga, and it's green. Wooden houses can be insulated, made earthquake-safe and resilient using ecologically sound materials. Demolition will emit CO2, as will concrete from new builds. Newtown's wooden houses have lasted from back as far as 1890 and will last another 142 years at least. Furthermore, new builds require cement, which is the source of about 8% of the world carbon dioxide emissions. [Refer to original submission for full reason]	Seeks that wooden houses be preserved rather than demolished. [Inferred decision requested]
Khoi Phan	326.4	Residential Zones / Medium Density Residential Zone / General MRZ	Support	Considers Ngaio should be classified as Medium Density Residential Zone.	Retain Ngaio as Medium Density Residential Zone.
Khoi Phan	326.5	Residential Zones / Medium Density Residential Zone / General MRZ	Support	Considers Khandallah should be classified as Medium Density Residential Zone.	Retain Khandallah as Medium Density Residential Zone.
Mt Cook Mobilised	331.11	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that multi-unit dwellings are an important aspect of Mt Cook and should have strong environmental and sustainable living provisions. In particular, the impacts of living more sustainably in apartments needs to incorporate provision for waste management such as composting, emergency provisions such as water storage, and access to green spaces and common areas for wellbeing, mental health and dog-walking. Rooftop gardens, pocket parks, well-designed foyers and hallways provide spaces for informal interaction which are important for living well together in an apartment community.	Seeks that provisions on sustainable living be created for multi-unit dwellings in Mount Cook.
Yvonne Weeber	340.104	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the MRZ chapter needs clarification. The MRZ chapter should be amended to include cross references to qualifying matters in the rules to make the plan easier to understand their implications e.g. the Air Noise Overlay (Inner Air Noise Overlay and Outer Air Noise Overlay).	Amend the 'Medium Density Residential Zone' chapter to reference all qualifying matters in its rules.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.97	Residential Zones / Medium Density Residential Zone / General MRZ	Support in part	Paragraph 1 of the introduction refers to the zone comprising of 'predominantly residential activities with a moderate concentration and bulk of buildings...'. Considers that 'moderate concentration' is an ambiguous term that is not defined elsewhere in the District Plan, meaning the Introduction as currently drafted does not clearly identify the anticipated concentration of buildings in the MDR Zone. Also considers that the reference to residential activity having a moderate concentration and bulk of buildings does not reflect the expectations for the Medium Density Residential Zone as set out in the MDRS. Seeks that the introductory text acknowledge that the amenity and character of the Medium Density Residential Zone will substantially change as a result of the MDRS and acknowledge the broad scope of the MRZ.	Retain Paragraph 1 of the Introduction of the Medium Density Residential Zone and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.98	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Paragraph 1 of the introduction refers to the zone comprising of 'predominantly residential activities with a moderate concentration and bulk of buildings...'. Considers that 'moderate concentration' is an ambiguous term that is not defined elsewhere in the District Plan, meaning the Introduction as currently drafted does not clearly identify the anticipated concentration of buildings in the MDR Zone. Also considers that the reference to residential activity having a moderate concentration and bulk of buildings does not reflect the expectations for the Medium Density Residential Zone as set out in the MDRS. Seeks that the introductory text acknowledge that the amenity and character of the Medium Density Residential Zone will substantially change as a result of the MDRS and acknowledge the broad scope of the MRZ.	Amend Paragraph 1 of the Introduction of the Medium Density Residential Zone t as follows: The Medium Density Residential Zone comprises predominantly residential activities <u>that enable more intensive development including medium density development that typically comprises with a moderate concentration and bulk of</u> buildings, such as detached, semi-detached and terraced housing, low-rise apartments and other compatible activities.
Retirement Villages Association of New Zealand Incorporated	350.99	Residential Zones / Medium Density Residential Zone / General MRZ	Support in part	Supports that Paragraph 5 of the introduction recognises that the form, appearance and amenity of neighbourhoods within the MRZ Zone will change over time, in line with Objective 4 NPSUD. However, considers that as it is currently drafted, it does not acknowledge that such changes will enable a variety of housing types with a mix of densities in the zone, as required by Objective 2 MDRS.	Retain Paragraph 2 of the Introduction of the Medium Density Residential Zone and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.100	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports that Paragraph 5 of the introduction recognises that the form, appearance and amenity of neighbourhoods within the MRZ Zone will change over time, in line with Objective 4 NPSUD. However, considers that as it is currently drafted, it does not acknowledge that such changes will enable a variety of housing types with a mix of densities in the zone, as required by Objective 2 MDRS.	Amend Paragraph 2 of the Introduction of the Medium Density Residential Zone as follows: It is anticipated that the form, appearance and amenity of neighbourhoods within the Medium Density Residential Zone will change over time <u>to enable a variety of housing types with a mix of densities.</u>
Greater Wellington Regional Council	351.248	Residential Zones / Medium Density Residential Zone / General MRZ	Support in part	Supports well-planned intensification within the existing urban footprint in appropriate areas that are not subject to a qualifying matter. This approach is consistent with Policy 31 of Proposed RPS Change 1.	Retain chapter, subject to amendments, as outlined in other submission points.
Wellington City Council Environmental Reference Group	FS112.21	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Support	Ensure that the provisions align with Objective 22 of the Proposed RPS Change 1.	Allow
Greater Wellington Regional Council	351.249	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that for the provisions of the zone to contribute to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1. This includes (but is not limited to) urban areas that are climate resilient, contribute to the protection of the natural environment and transition to a low-emission region, are compact and well connected, support housing affordability and choice, and enable Māori to express their cultural and traditional norms.	Seeks to ensure the Medium Density Residential Zone provisions have regard to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1, by including necessary objectives, policies, permitted standards and rules that provide for these qualities and characteristics.
Wellington City Council Environmental Reference Group	FS112.22	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Support	Ensure that the provisions align with Objective 22 of the Proposed RPS Change 1.	Allow
Lower Kelburn Neighbourhood Group	356.6	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that Lower Kelburn should have more character Precincts. [Inferred reason - refer to original submission]	Rezone Lower Kelburn from High Density Residential Zone to Medium Density Residential Zone. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora – Homes and Communities	FS89.90	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Kāinga Ora opposes this submission and its impacts on the supply of a variety of housing choices and typologies in Wellington.	Disallow
Richard Herbert	360.3	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that SNAs should be reinstated on residential zones as originally proposed in earlier drafts of the Proposed District Plan, and prior to the Councillor Amendment to remove SNAs from Residential zones in June 2022. SNAs on Medium Residential Zones are supported. [Refer to original submission for full reason]	Reinstate Significant Natural Areas for Medium Density Residential Zones.
Z Energy Limited	361.16	Residential Zones / Medium Density Residential Zone / General MRZ	Support in part	The MRZ chapter is partially supported, granted MRZ-P6 (Multi unit housing) is amended to require consideration of reverse sensitivity effects. This policies i a matter of discretion for multi-unit housing (i.e. more than 3 dwellings per site) in the MRZ.	Retain the Medium Density Residential Zone chapter with amendment.
Kāinga Ora – Homes and Communities	FS89.153	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Kāinga Ora opposes the decision sought relating to recognition of reverse sensitivity in policies and matters of discretion in order to maximise residential intensification.	Disallow
Jane Szentivanyi and Ben Briggs	369.14	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the MRZ objectives and policies relating to housing supply need to allow for public and private collaborations and inducements. The submitter notes that if left to their own devices (and profit goals) and without a change in the current offerings, it is difficult to anticipate the majority of developers unilaterally offering the range and variety of housing at an appropriate price point to meet the actual demands of Wellington home buyers and renters. Public and private collaborations and inducements will achieve the goal of future development increasing housing choice and affordability, including assisted living and social housing.	Seeks that MRZ (Medium Density Residential Zone) objectives relating to housing supply allow for public and private collaborations and inducements.
Jane Szentivanyi and Ben Briggs	369.15	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that MRZ and Design guide standards must ensure that scale and intensity requirements for new builds or additions are consistent with the amenity values anticipated for the zone. This means that the impact of the increased development on the amenity value of neighbouring properties needs to be considered as required by guideline 21 from the Residential Design Guide.	Seeks that MRZ (Medium Density Residential Zone) and Residential Design Guide standards ensure scale and intensity requirements for new builds or additions are consistent with the amenity values anticipated for the zone.
Waka Kotahi	370.261	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	[Relates to Special Character Precincts only] The submitter does not Consider that the extent of special character precincts and the way that they have been applied is supported by the NPS-UD, the limitations will affect the ability of Waka Kotahi to deliver on key strategic priorities (such as mode shift and emissions reduction) without the densities to support the ambitious targets. [See original submission for full reasons].	Undertake further assessment to weigh the benefits of character protection against the wider opportunity costs of development limitations in key areas. Amend underlying zoning to Medium or High-Density Zone, depending on locations within walkable catchments and provide for Special Character Areas as an overlay. Either remove the demolition control or include provisions that provide for demolition only as part of an approval for a replacement development. Provide for special character by instituting design controls in the overlays which allow for special character to be considered and incorporated in design while enabling levels of development anticipated by the zones.
Mt Victoria Historical Society Inc	FS39.1	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Oppose because submitter objects to extent of special character precincts. Further weighting exercise for character precincts not justified - already reduced in Mt Victoria from what evidence indicates they should be. Do not allow further weighting exercise which has the express purpose of reducing extent of character precincts.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	FS82.99	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Considers that character precincts should be expanded in accordance with the Boffa Miskell or Council officer recommendations, and should not be reduced to the extent in the notified plan or any further. Considers the evidence and analysis in the section 32 reports provides a sufficient basis to identify and apply character precincts as a qualifying matter and to a wider area than in the notified plan.	Disallow
Greater Wellington Regional Council	FS84.95	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Support	Greater Wellington consider Johnsonville Rail Line should be classified a rapid transit service to align with the Regional Land Transport Plan which support the 'upzoning' of walkable catchments. Johnsonville Rail Line is recognised as a key part of the region's transport network.	Allow / Seeks review of walkable catchments and reclassification of Johnsonville Rail Line as a rapid transit service.
Kāinga Ora – Homes and Communities	FS89.19	Part 3 / Residential zones / Medium Density Residential Zone / General MRZ	Support	Kāinga Ora supports the decision requested, to the extent it is consistent with Kāinga Ora primary submission. Kāinga Ora supports subsequent and associated submission points from Waka Kotahi which relate to the character precincts being overlays and further assessment to weigh the benefits of character protection against the wider opportunity costs of development limitations in key areas.	Allow / Seeks that the submission is allowed in part, to the extent that it is consistent with the Kainga Ora primary submission.
Kāinga Ora – Homes and Communities	FS89.20	Part 3 / Residential zones / Medium Density Residential Zone / General MRZ	Oppose	Kāinga Ora does not support for the inclusion of any design controls related to special character to be inserted into the District Plan.	Disallow / Seeks that the submission is disallowed in part.
LIVE WELLington	FS96.89	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Reduction of character precincts is strongly opposed. These are a justifiable means of protecting areas that are special to Wellington. Their reduction is not justified on grounds of requiring capacity.	Disallow
Waka Kotahi	370.262	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Support higher densities being enabled in the medium density residential zone. Considers that the precinct would be more appropriate as an overlay, and/or the area rezoned to high density residential zone.	Seeks Oriental Bay Height Precinct is amended to be an overlay. [Inferred decision requested]
Waka Kotahi	370.263	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that a further weighting exercise is needed to justify inclusion, nature and extent of provisions related to special character.	Undertake further assessment to weigh the benefits of character protection against the wider opportunity costs of development limitations in key areas.
Mt Victoria Historical Society Inc	FS39.2	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Oppose because submitter objects to extent of special character precincts. Further weighting exercise for character precincts not justified - already reduced in Mt Victoria from what evidence indicates they should be. Do not allow further weighting exercise which has the express purpose of reducing extent of character precincts.	Disallow
Waka Kotahi	370.264	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that all boundary setbacks should have immediate legal effect to align with the MDRS requirements, and to avoid confusion where boundary setbacks are applied from both the operative and district plan. Notes that the intention of the NPS-UD is to enable urban environments to evolve and change, enabled by the national standards.	Seeks that all that relate to MRZ-S4 (Boundary setbacks) have immediate legal effect. [Inferred decision requested]
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.108	Residential Zones / Medium Density Residential Zone / General MRZ	Support in part	The MRZ chapter is generally supported. As it stands, the PDP will enable the construction and use of three dwellings on most residential properties, with a maximum height of 11m and more permissive building recession planes, as a permitted activity. In addition, resource consents may be obtained as a restricted discretionary activity to construct buildings up to 25m in height with no limit to the number of residential units (i.e.: density). The Fuel Companies consider these greater residential densities and more permissive building standards are likely to generate greater potential for reverse sensitivity effects that may affect the ongoing operation, maintenance and upgrade of their facilities which are a physical resource that must be managed under the Act.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora – Homes and Communities	FS89.47	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Kāinga Ora opposes the relief sought due to potential impacts on the scale of residential intensification.	Disallow
Henry Bartholomew Nankivell Zwart	378.11	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards recommendations.
Henry Bartholomew Nankivell Zwart	378.12	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the MRZ (Medium Density Residential Zone) is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Henry Bartholomew Nankivell Zwart	378.13	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as day-cares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
Henry Bartholomew Nankivell Zwart	378.14	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what's proposed.
Stephen Minto	FS100.19	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>Submitter 234 wants to reduce shading as an issue when designing a development. But if people have solar panels on their house then this is an ongoing financial benefit that is lost. Compensation has not been considered or discussed in the submission. The criticality of sunlight to well being. It should be a right to have it in your house. It is known to help house sales so it has a value and the submitters place no value on it.</p> <p>Appreciates the submitter wants more houses and assumes they want affordable housing. Instead wants affordable housing and sees densification as having merits in the right places. Like in the brownfields of Te Aro. Not by ripping the heart out of our heritage/ character suburbs. Our heritage/chaacter suburbs are a finite asset that is special to NZ. Tourists talk about it being special and different. Our heritage is part of continuity with our past. And being connected to the past is a critical part of becoming aware of our identity as New Zealanders. Heritage gives us a sense of place. Our place. Try getting Parisians to pull down the Eiffel Tower now.</p> <p>Heritage buildings and character areas connect to the trees that covered our land and were destroyed. Respecting heritage houses gives us a chance to still see the beauty of their wood. The trees that are special to NZ. The Rimu reds, the various stains, the hardness of Matai. The connection to what makes NZ. So when we plant and replace it will mean a deeper understanding of the beauty that was destroyed. Protecting heritage therefore helps connect us to a better future and an awareness that we should not let that destruction happen again.</p> <p>Wellington has already lost most of its character and heritage from the central city. Lambton Quay destroyed but its no safer from earthquakes in fact less safe. Heritage and character just aren't looked after so they often are poor quality. Requiring them to be done up to an excellent standard would be cheaper and less carbon intensive than building new. Note: Cities can shape well being and happiness as well. They aren't just cost effective rooms to sleep in. [Inferred reference to submission point 234.7]</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Taranaki Whānui ki te Upoko o te Ika	389.92	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST is amended from Natural Open Space Zone to Medium Density Residential with a 'Te Motu Kairangi Precinct' with associated objectives, policies, rules and standards to recognise the cultural and environmental overlays over the site whilst enabling Taranaki Whānui to exercise their customary responsibilities as kaitiaki, and to undertake development that supports their cultural, social and economic wellbeing.
Laurence Harger & Ingrid Kölle	FS2.29	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>Taranaki Whānui's proposal would seem to allow another large and obtrusive development on the prison site, à la Shelly Bay, by sale of the land, if acquired under the right of first refusal, to a commercial developer.</p> <p>Support Papakāinga development that keeps to the 11-12 m height limits and rules restricting building on ridgelines and hilltops, as long as native trees and vegetation are protected. Such a housing development should also be compatible with the adjacent reserve/National Heritage Park. The local community, the wider Wellington community and all iwi groups should be involved in any decisions made.</p>	Disallow / Seeks that the part of the submission that could open up the Mount Crawford site to large-scale commercial housing development be disallowed.
Enterprise Miramar Peninsula Inc	FS26.14	Part 3 / Residential Zones/ Medium Density Zone / General MRZ	Oppose	<p>It is clear Taranaki Whānui want all restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear based on the submission exactly how large an area they want to have rezoned.</p> <p>Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan, both the Corrections and Defence Land have not in the past contested this zoning and the Proposed District Plan keeps Watts Peninsula as open Space, the Ridgelines and Hilltops add to significant Natural Areas (for biodiversity) it has a Special Amenity Landscape which is used by the community and tourists to the enjoyment of being close to a city but with a natural environment.</p> <p>Taranaki Whānui are seeking to amend the zoning in this area to Medium Density Residential or to a Special Purpose Zone – Māori Purpose Zone, without any public engagement. Such changes would have a significant impact on the local community and should not be undertaken without wider consultation and engagement in order to ensure that proposed changes do not have a detrimental effect. As noted above, it is of concern to the businesses, community (ratepayers) of Te Motu Kairangi/Miramar Peninsula and the wider public that the rezoning applied for by Taranaki Whānui (currently open space) to develop a papakainga creates infrastructure issues on an already overloaded roading, flooding and transport links to and from the Peninsula.</p> <p>[Inferred reference to submission 389.92].</p>	Disallow
Mary Varnham and Paul O'Regan	FS40.29	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>The submission by Taranaki Whānui is not specific on this matter but seems to imply that the site be open for medium density housing development. We would support proposals for papakainga on the site provided 11-12 m height limits and rules restricting building on ridgelines and hilltops are observed. Buildings should not be visible from the harbour and native trees and vegetation should be protected and regenerated. Access should be restricted to existing roads; no road access should be allowed from Shelly Bay or adjacent hillsides.</p> <p>Disallow any provisions which would allow the Mount Crawford site to be sold to a commercial property developer (as happened at Shelly Bay) and current provisions regarding height limits, ridgelines and hilltops to be removed. Any housing development should be compatible with and sympathetic to the values of the adjacent reserve/National Heritage Park proposed for Watts Peninsula, and the local community should be involved in all decision making.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Buy Back the Bay	FS79.34	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>Submission 389 states: "Taranaki Whānui's RFR [Right of First Refusal] opportunities in Te Motu Kairangi: Taranaki Whānui have a significant interest in Te Motu Kairangi which includes Mount Crawford and Watts Peninsula, these landholdings hold significant interest - culturally, socially, environmentally and commercially to Taranaki Whānui. These opportunities include the Mount Crawford Prison site as well as the 'Watts Peninsula' sites being 75.85 hectares of former Defence Land."</p> <p>Buy Back the Bays notes that the Submission does not include maps however they (Buy Back the Bays) are very concerned to see that Taranaki Whānui appears to be seeking possible commercial development of 75.85 hectares of former defence land on Watts Peninsula. This appears to be the heart of the long-promised Watts Peninsula park and a major part of the proposed national heritage park.</p> <p>Buy Back the Bays strongly oppose rezoning on Watts Peninsula to facilitate any development there that is incompatible with the park plans. More generally, Buy Back the Bays oppose Submission 389's attempt to remove the proposed public interest controls from Watts Peninsula and Mount Crawford. Considers that where Submission 389 states "Illustrated on Figure One below, the following zone and overlays are proposed for Taranaki Whānui's RFR properties in Te Motu Kairangi," Buy Back the Bays oppose the changes it seeks.</p> <p>This includes opposing Submission 389's request for "The proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST [to be] amended from Natural Open Space Zone to: a. Medium Density Residential; and b. Special Purpose Zone – Māori Purpose Zone."</p>	Disallow
Lance Lones	FS81.19	Part 3 / Residential Zones/ Medium Density Zone / General MRZ	Oppose	<p>Te Motu Kairangi is very nearly an island, and as a result of the amazing work of Predator Free Wellington, is in fact, nearly predator free, and uniquely able to support significant biodiversity. Combined with the Ridgelines and Hilltops Overlay, and the Significant Natural Areas overlay of this space, all citizens of both Wellington, and Aotearoa in general have an incredibly singular opportunity to support the development of native flora and fauna in one nearly contiguous environment, a situation which is unique within Wellington. Attests to the incredible return of many native species of birds to this area, from kererū, to flocks of piwakawaka and tūi, kārearea hunting on the hillsides and heard ruru calling in the evenings and mornings.</p> <p>To remove the Open Space zoning, Significant Natural Areas and Special Amenity Landscape overlays for a significant portion of this habitat would put these species at risk once again.</p> <p>Presents a unique opportunity to implement the Ministry for the Environment's Proposed National Policy Statement for Indigenous Biodiversity. This policy progressively refers to the concept of Te Rito o te Harakeke.</p> <p>The local community has expressed the desire to work with and develop a master plan for the Watts Peninsula, but this voice has been repeatedly denied by council. Removing the protections put in place by the proposed district plan would once again disempower the greater community with no discussion.</p> <p>[Refer to further submission for full reason]</p>	Disallow / Seeks that the current zoning and overlays as presented in the Proposed District Plan for the northern sections of Te Motu Kairangi / Miramar Peninsula be retained. In particular, that the Open Space zoning, Special Amenity Landscape, Natural Areas, and Ridgelines and Hilltops overlays are retained.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Andy Foster	FS86.20	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>The submission from Taranaki Whanui if accepted would remove all protections, many of them long standing and uncontested for decades, from Te Motu Kairangi / Watts Peninsula and make community involvement much less likely, and limit the need for community involvement. On these basis the submitter opposes Taranaki Whanui's submission.</p> <p>Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan. It has been Open Space B for at least the last 30 years, and nobody has ever contested this. That includes both the Corrections and Defence Land.</p> <p>The Proposed District Plan keeps Watts as Open Space and within the Ridgelines and Hilltops Overlay. It also adds Significant Natural Areas (for biodiversity) and a Special Amenity Landscape (because of its high level of landscape importance) All of these are based on good evidence. Taranaki Whanui want all of those restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear exactly how large an area they want to have rezoned.</p> <p>Taranaki Whanui's request to remove the Open Space zoning which has been in place, uncontested by the owners, for at least 30 years. The current Open Space B zoning does not anticipate any built development and therefore there is no legal or reasonable expectation that there should be any development here.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 389.92]</p>	Disallow
Kāinga Ora Homes and Communities	391.311	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that MRZ heights in walkable catchments of Local Centre Zones should be amended.	Seeks that Medium Density Residential Zone heights be increased by up to 5 storeys within 5 min/400m walkable catchments of Local Centre Zones.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.4	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>Submitter opposes Medium Density Residential Standards' heights to increase by 5 stories with 5 mins/ 400 meters of Local Centre Zone.</p> <p>Considers that this is beyond the scope of National Policy Statement on Urban Development / Medium Density Residential Standards.</p>	Disallow
Onslow Residents Community Association	FS80.13	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Considers 5-storey intensification in and near Local Centre Zones is too extensive and inappropriate and goes beyond the requirements of the National Policy Statement on Urban Development and the Medium Density Residential Standards.	Disallow
Wellington's Character Charitable Trust	FS82.64	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Considers that 5-storey intensification in and near Local Centre Zones is too extensive and inappropriate and goes beyond the requirements of the NPS-UD and MDRS.	Disallow
Greater Wellington Regional Council	FS84.30	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
LIVE WELLington	FS96.17	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Increasing medium density residential zone heights to 5 storeys within a 5 min catchment of local centre zones is opposed. This would make them high density and this is a radical change that has not been widely socialized. 5-storey intensification in and near Local Centre Zones is too extensive and inappropriate and goes beyond the requirements of the NPS-UD and MDRS	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Roland Sapsford	FS117.16	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Increasing medium density residential zone heights to 5 storeys within a 5 min catchment of local centre zones is opposed. This would make them high density and this is a radical change that has not been widely socialized. 5-storey intensification in and near Local Centre Zones is too extensive and inappropriate and goes beyond the requirements of the NPS-UD and MDRS.	Disallow
Kāinga Ora Homes and Communities	391.312	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that amendments to centres and height limits would achieve well-functioning urban environments and national and regional consistency.	Seeks to expand the geographical extent of centres and height limits, to better reflect their role and function in the Centres hierarchy.
Greater Wellington Regional Council	FS84.31	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Kāinga Ora Homes and Communities	391.313	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose in part	The Introduction to the MRZ is generally supported, in particular the provision of medium density housing to give effect to the NPS-UD and the Act. But amendments are sought relating to the introduction of Character Precincts and different provisions related to the construction of 4 or more residential units. Instead, it is sought that a Character Overlay is introduced into District-wide matters.	Opposes the Introduction of the Medium Density Residential Zone chapter and seeks amendment.
Thorndon Residents' Association Inc	FS69.12	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>The WCC summary reads: <i>The Introduction to the MRZ is generally supported, in particular the provision of medium density housing to give effect to the NPS-UD and the Act. But amendments are sought relating to the introduction of Character Precincts and different provisions related to the construction of 4 or more residential units. Instead, it is sought that a Character Overlay is introduced into District-wide matters.</i></p> <p>Special character precincts enable rigorous, targeted, sustainable urban planning regulation, and a role for community engagement in future changes.</p> <p>TRA specifically oppose 391.318 which seeks to delete Objective UFD-08 and rejects its recognition of "special character" at the strategic level of the Plan.</p> <p>The TRA supports Character precincts because they comply with the NPS-UD, and are an important qualifying matter under the RMA.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.314	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	<p>Considers that the Introduction of the MRZ chapter should be amended to make it clear that incompatible activities in the MRZ will be managed or discouraged in line with a Discretionary / Non-Complying activity status. Character Precincts, Mt Victoria North Townscape Precinct or Oriental Bay Precinct should be removed from the introduction. These precincts do not fulfil the matters of national importance as set out under section 6(f) and the requirements under section 77L and 77R of the RMA, and therefore do not meet the threshold to be applied as a qualifying matter to restrict height and density.</p> <p>It is also considered that 4 or more dwellings should not be classified as a different activity as the potential, or actual effects of residential development should not be distinguished between building 3 and 4 (or more) residential units.</p>	<p>Amend the Introduction of the Medium Density Residential Zone chapter as follows:</p> <p>...</p> <p>The Medium Density Residential Zone adopts the medium density residential standards from the RMA which allow for three residential units of up to three storeys on a site. <u>Developments of four or more residential units are also encouraged through the policy framework and provided for through a resource consent process. Multi-unit housing of four or more units is also anticipated through a resource consent process subject to standards and design guidance.</u></p> <p>There are parts of the Medium Density Residential Zone where the permitted development, height or density directed by the NPS-UD may be modified by qualifying matters. These include the following:</p> <p>Character Precincts and the Mt Victoria North Townscape Precinct (refer to MRZ-PREC01 and MRZ-PREC02).</p> <p>...</p> <p>The Medium Density Residential Zone accommodates a range of compatible non-residential uses that support the needs of local communities. Incompatible non-residential activities are not anticipated managed or discouraged in this zone.</p> <p>Precincts within the Medium Density Residential Zone include Character Precincts, the Mt Victoria North Townscape Precinct, and the Oriental Bay Height Precinct.</p>
Ann Mallinson	FS3.1	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	The review or elimination of MRZ-PREC-03 and policies and rules and standards relating to the Oriental Bay Height Precinct are opposed. The Oriental Bay Height Precinct responded to the judgment in the submitter's successful legal case D Rendel, A Mallinson & others v Wellington City Council Decision No. W73/98 and provides protection for significant amenity value, landscape, townscape and character in Oriental Bay. Refer to original submission 81 (points 81.3 and 81.4).	Disallow
Jackie Pope	FS8.1	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	The Oriental Bay Height Precinct is extremely important to maintain important townscape and landscape values, and protects public views of Mt Victoria/Matairangi and St Gerards heritage site, and also supports the unique character of Oriental Bay.	Disallow
Denis Foot	FS10.1	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>The matters of the heights density and planning issues in Oriental Bay were the subject of a very expensive three week hearing at the Environment Court. The case was called Foot v WCC. In that case there were many lawyers, planners, urban designers, architects and residents that gave their views. Judge Kenderdine gave a very carefully considered judgement covering the various areas in Oriental Bay. The decision takes into account the diverse landforms which includes several valleys. There are still many areas in the Oriental Bay area where it is possible to build multi-storey apartments.</p> <p>[Inferred reference to submission point 391.314]</p>	Disallow
Oriental Bay Residents Association	FS13.1	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay.	Disallow
Ruapapa Limited	FS18.3	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay. The principles set out in the Environment Court decision in Foot v WCC should remain in place.	Disallow

Scott Galloway and Carolyn McLean	FS19.1	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay.	Disallow
Pukepuke Pari Residents Incorporated	FS37.7	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Opposes walkable catchment extension - limit of 10 mins on the walkable catchment is appropriate for Wellington and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. People's propensity to walk diminishes with distance. Particularly relevant if the catchment was increased to 15 minutes and the last 5 minutes was up a steep hill. Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay). Oppose review of the O' Bay Height precinct- The Oriental Bay Height Precinct provides protection for significant public amenity value, for all those who use the beach and Parade, representing a large part of the Wellington population. This Height Precinct was decided after careful review by the Environment Court in 1989 and all the considerations that were carefully laid out there are relevant here.	Disallow
Gareth and Joanne Morgan	FS38.24	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Oppose those parts of Kāinga Ora's submission that seeks to amend, or remove the Character Precincts in Oriental Bay.	Disallow
Mt Victoria Historical Society Inc	FS39.3	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Oppose removal of reference to Character Precincts and Mt Victoria North Townscape from the introduction because it is important to make it clear that these are qualifying matters.	Disallow
Jenny Gyles	FS53.1	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Considers that the Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay.	Disallow
Helen Foot	FS62.1	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	The Oriental Bay Height Precinct is extremely important to maintain important townscape and landscape values, and protects public views of Mt Victoria/Matairangi and St Gerards heritage site, and also supports the unique character of Oriental Bay. The Oriental Bay Height Precinct and in particular that part of it adjacent to Hay Street and Grass Street was the subject of a very careful review in the decision of the Environment Court in 1989 (Helen Foot and others v WCC Decision W79/98). There is nothing to be gained by seeking a review of this decision.	Disallow
Thorndon Residents' Association Inc	FS69.13	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	The WCC summary reads: The Introduction to the MRZ is generally supported, in particular the provision of medium density housing to give effect to the NPS-UD and the Act. But amendments are sought relating to the introduction of Character Precincts and different provisions related to the construction of 4 or more residential units. Instead, it is sought that a Character Overlay is introduced into District-wide matters. Special character precincts enable rigorous, targeted, sustainable urban planning regulation, and a role for community engagement in future changes. TRA specifically oppose 391.318 which seeks to delete Objective UFD-08 and rejects its recognition of "special character" at the strategic level of the Plan. The TRA supports Character precincts because they comply with the NPS-UD, and are an important qualifying matter under the RMA.	Disallow
Wellington's Character Charitable Trust	FS82.132	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Considers the signalled direction in the introduction would be more enabling than MDRS requirements without adequate justification.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Don MacKay	FS94.7	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Considers that walkable catchment extension opposed -see above in relation to Property Council. Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay).Oppose review of the O' Bay Height precinct- see our reasons re Waka Kotahi.	Disallow
Matthew Tamati Reweti	394.10	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards recommendations.
Matthew Tamati Reweti	394.11	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the MRZ is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Generation Zero	FS54.1	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Support	Support and further submit that: The Coalition for More Homes setback, recession planes and outdoor space recommendations should be adopted. These recommendations enable perimeter block housing rather than only enabling 'sausage flat' housing, due to New Zealand's typical long, narrow sites. This leads to better urban design outcomes that maximise quality habitable indoor and outdoor space for residents, minimise shading and privacy impacts for neighbours, and produces housing that positively interacts with the street frontage.	Allow / Seeks the adoption of the Coalition for More Homes set-back, recession planes and outdoor space recommendations for the MRZ and HRZ zones. Seeks the adoption of more mixed-use zoning in all zones, especially the MRZ and HRZ zones.
Matthew Tamati Reweti	394.12	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as day-cares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
Generation Zero	FS54.2	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Support	Support and further submit that: More mixed-use zoning should be adopted in all residential zones, especially in MDZ and HDZ. The PDP focuses on enabling more residential development but lacks enabling commercial development outside the CCZ. Low impact uses like daycares, cafes, physios, doctor's offices, small retail should be enabled. This can especially be enabled on corner sites and near existing town centres and villages, and in walkable catchments. Mixed-use zoning is essential for well-functioning urban environments. It has numerous benefits including: increased ability for new shops to cater for new residents and WFH habits, lower transport needs, more freedom for children and elderly, more competitive commercial rents, vibrant community villages, spillover safety benefits. Pre1930s suburbs have significant 'grandfathered' mixed use zoning, before modern zoning was introduced. These provide significant local amenity to residents, reflected in the high prices and increased liveability of those suburbs. Low impact commercial uses have little negative externalities (these can be managed via existing PDP noise, shading, opening hour, etc provisions) and significant positive externalities. More mixed-used zoning is consistent with Objectives 1, 3, 4 and 8 of the NPS-UD. And policies 1, 2. Council is rightly planning for growth by enabling residential housing supply, it must also enable neighborhood mixed-used zoning to cater for that growth.	Allow / Seeks the adoption of the Coalition for More Homes set-back, recession planes and outdoor space recommendations for the MRZ and HRZ zones. Seeks the adoption of more mixed-use zoning in all zones, especially the MRZ and HRZ zones.
Matthew Tamati Reweti	394.13	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what's proposed.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Stephen Minto	FS100.21	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>Submitter 234 wants to reduce shading as an issue when designing a development. But if people have solar panels on their house then this is an ongoing financial benefit that is lost. Compensation has not been considered or discussed in the submission. The criticality of sunlight to well being. It should be a right to have it in your house. It is known to help house sales so it has a value and the submitters place no value on it.</p> <p>Appreciates the submitter wants more houses and assumes they want affordable housing. Instead wants affordable housing and sees densification as having merits in the right places. Like in the brownfields of Te Aro. Not by ripping the heart out of our heritage/ character suburbs. Our heritage/chaacter suburbs are a finite asset that is special to NZ. Tourists talk about it being special and different. Our heritage is part of continuity with our past. And being connected to the past is a critical part of becoming aware of our identity as New Zealanders. Heritage gives us a sense of place. Our place. Try getting Parisians to pull down the Eiffel Tower now.</p> <p>Heritage buildings and character areas connect to the trees that covered our land and were destroyed. Respecting heritage houses gives us a chance to still see the beauty of their wood. The trees that are special to NZ. The Rimu reds, the various stains, the hardness of Matai. The connection to what makes NZ. So when we plant and replace it will mean a deeper understanding of the beauty that was destroyed. Protecting heritage therefore helps connect us to a better future and an awareness that we should not let that destruction happen again.</p> <p>Wellington has already lost most of its character and heritage from the central city. Lambton Quay destroyed but its no safer from earthquakes in fact less safe. Heritage and character just aren't looked after so they often are poor quality. Requiring them to be done up to an excellent standard would be cheaper and less carbon intensive than building new. Note: Cities can shape well being and happiness as well. They aren't just cost effective rooms to sleep in. [Inferred reference to submission point 234.7]</p>	Disallow
David Cadman	398.9	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards recommendations.
David Cadman	398.10	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the MRZ is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
David Cadman	398.11	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as day-cares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
David Cadman	398.12	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what's proposed.
Thorndon Residents' Association Inc	FS69.28	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>The WCC Summary reads: The submission seeks that shading as a qualifying matter should be reduced from what's proposed. Shading impacts are a considerable issue. Shading can impact the use, enjoyment, amenity, and thermal performance of wooden and other dwellings originally built with solar advantages assumed on their sites.</p> <p>TRA are mindful that the greenest buildings are those timber buildings that are already built. There's an accumulative benefit from our older native timber buildings. They have low carbon emissions instead of constructing new buildings using materials (such as concrete and steel) with significant whole of life carbon emissions.</p>	Disallow

Respecting heritage houses gives us a chance to still see the beauty of their wood. The trees that are special to NZ. The Rimu reds, the various stains, the hardness of Matai. The connection to what makes NZ. So when we plant and replace it will mean a deeper understanding of the beauty that was destroyed. Protecting heritage therefore helps connect us to a better future and an awareness that we should not let that destruction happen again.</p> <p>Wellington has already lost most of its character and heritage from the central city. Lambton Quay destroyed but its no safer from earthquakes in fact less safe. Heritage and character just aren't looked after so they often are poor quality. Requiring them to be done up to an excellent standard would be cheaper and less carbon intensive than building new. Note: Cities can shape well being and happiness as well. They aren't just cost effective rooms to sleep in. [Inferred reference to submission point 234.7]</p>	Disallow
Guy Marriage	407.3	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	<p>Considers that the wholesale adoption of the MDRS standards and only the MDRS could well result in a drastic lowering of design standards of housing, given that there are no quality control standards applied at the same time.</p> <p>[See original submission for full reason]</p>	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	408.116	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	<p>The Proposed Plan does not recognise rail as a qualifying matter. KiwiRail seeks that the railway corridor be identified as a qualifying matter and be applied to impose building setback requirements from the rail boundary.</p> <p>The Medium Density Residential Zone adjoins the rail corridor in several suburbs in Wellington City, including Wadestown, Ngaio, Khandallah, Johnsonville and Tawa. KiwiRail supports urban development, including around transport nodes, and recognises the benefits of co-locating housing near transport corridors.</p> <p>However, it is critical that the Proposed Plan provides for adequate management of the interface between urban development and lawfully established, critical infrastructure, such as the railway network. This is necessary to ensure our communities are built in healthy living environments, and the railway network can operate and develop in the future without constraint. An integrated and proactive approach to planning is critical to support the overall vision of our urban environments, and to ensure that our transport network can support the increasing growth and housing intensification.</p> <p>The nature of railway operations means KiwiRail cannot fully internalise all its effects within the railway corridor boundaries. Environmental legislation and caselaw recognises the lawful emission of such effects. Increasing development around railway corridors consequentially means the introduction of more sensitive receivers to adverse effects of existing and lawful railway activities. With a likely increase in sensitive activities forecast to locate in proximity to the railway corridor as a result of the Amendment Act, KiwiRail is concerned that without appropriate planning measures in place at a territorial level, the risk of adverse health and amenity effects impacting people locating in proximity to the railway corridor, and reverse sensitivity effects constraining our operations is significantly elevated.</p> <p>For this reason, it is essential that the Proposed Plan appropriately manages the development of new sensitive activities in proximity to the railway corridor.</p>	<p>Amend the MRZ Introduction as follows:</p> <p>There are parts of the Medium Density Residential Zone where the permitted development, height or density directed by the NPS-UD may be modified by qualifying matters. These include the following:</p> <ul style="list-style-type: none"> - Character Precincts and the Mt Victoria North Townscape Precinct (refer to MRZ-PREC01 and MRZ-PREC02). - Wellington Fault (refer to Natural Hazards Chapter). - Stream corridors and overland flow paths (refer to Natural Hazards Chapter). - Medium and high coastal hazards (refer to Coastal Environment Chapter). - Very high and high coastal natural character areas (refer to Coastal Environment Chapter). - Coastal margins and riparian margins (refer to Coastal Environment and Natural Character Chapters). - Air noise overlay (refer to Noise Chapter). - Heritage buildings, heritage structures and heritage areas (refer to Historic Heritage Chapter). - Notable trees (refer to Notable Trees Chapter). - Sites and areas of significance to Māori (refer to Sites and Areas of Significance to Māori Chapter). - <u>Railway corridor (building setback from rail boundary); (refer to MRZ-S4).</u>
Kāinga Ora – Homes and Communities	FS89.27	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Kāinga Ora opposes changes to provisions and rules relating to the rail corridor as a qualifying matter in KiwiRail's submission.	Disallow
Emma Osborne	410.10	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards.
Metlifecare Limited	413.8	Residential Zones / Medium Density Residential Zone / General MRZ	Support in part	The introduction to this chapter is generally supported.	Retain provision, subject to amendments, as outlined other submission points.
Metlifecare Limited	413.9	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers it would be helpful if it also recognises that retirement villages are provided for and that these have different built for requirements to meet the needs of residents.	<p>Amend MRZ Introduction to read as follows (or words to similar effect):</p> <p>The Medium Density Residential Zone adopts the medium density residential standards from the RMA which allow for three residential units of up to three storeys on a site. Multi-unit housing of four or more units is also anticipated through a resource consent process subject to standards and design guidance. <u>Retirement village development is also enabled and the provisions recognise the functional and operational needs of this type of housing.</u></p>
Willis Bond and Company Limited	416.68	Residential Zones / Medium Density Residential Zone / General MRZ	Support	Supports the medium density residential zone provisions (other than those referred to specifically in other submission points), noting these reflect the requirements of the medium density residential standards in the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021.	Retain the Medium Density Residential Zone chapter as notified, subject to amendments sought in specific provisions comments on other submission points.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.69	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	<p>Submitter notes the effect that the more permissive medium density residential standards will have on other zones. The zones supporting higher density development have more restrictive standards than in the MRZ, creating a risk that new development is concentrated in the more permissive MRZ at the exclusion of denser zones where Council wishes to encourage greater development. The PDP should ensure that the restrictions within denser zones are not substantially more restrictive than within the MRZ.</p> <p>[Refer to original submission for full reason].</p>	Seeks that Council consider the relationship between the Medium Density Residential Zone and denser zones (i.e. the High Density Residential Zone, Large Lot Residential Zone, Neighbourhood Centre Zone, Local Centre one, Commercial Zone, Mixed Use Zone, Metropolitan Centre Zone and City Centre Zone) to ensure development is not unduly restricted in denser zones by greater restrictions and Council discretion.
Luke Stewart	422.6	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Luke Stewart	422.7	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for recession planes.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative Medium Density Residential Standards recession planes.
Luke Stewart	422.8	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for building heights.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative Medium Density Residential Standards building height limits.
Luke Stewart	422.9	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what is proposed.
Stephen Minto	FS100.20	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>Submitter 234 wants to reduce shading as an issue when designing a development. But if people have solar panels on their house then this is an ongoing financial benefit that is lost. Compensation has not been considered or discussed in the submission. The criticality of sunlight to well being. It should be a right to have it in your house. It is known to help house sales so it has a value and the submitters place no value on it.</p> <p>Appreciates the submitter wants more houses and assumes they want affordable housing. Instead wants affordable housing and sees densification as having merits in the right places. Like in the brownfields of Te Aro. Not by ripping the heart out of our heritage/ character suburbs. Our heritage/chaacrter suburbs are a finite asset that is special to NZ. Tourists talk about it being special and different. Our heritage is part of continuity with our past. And being connected to the past is a critical part of becoming aware of our identity as New Zealanders. Heritage gives us a sense of place. Our place. Try getting Parisians to pull down the Eiffel Tower now.</p> <p>Heritage buildings and character areas connect to the trees that covered our land and were destroyed. Respecting heritage houses gives us a chance to still see the beauty of their wood. The trees that are special to NZ. The Rimu reds, the various stains, the hardness of Matai. The connection to what makes NZ. So when we plant and replace it will mean a deeper understanding of the beauty that was destroyed. Protecting heritage therefore helps connect us to a better future and an awareness that we should not let that destruction happen again.</p> <p>Wellington has already lost most of its character and heritage from the central city. Lambton Quay destroyed but its no safer from earthquakes in fact less safe. Heritage and character just aren't looked after so they often are poor quality. Requiring them to be done up to an excellent standard would be cheaper and less carbon intensive than building new. Note: Cities can shape well being and happiness as well. They aren't just cost effective rooms to sleep in.</p> <p>[Inferred reference to submission point 234.7]</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association	429.31	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Supports medium density residential standards as they allow 3 dwellings up to 3 storeys in height in all residential zones. This would enable higher levels of development than is currently proposed in the Draft District Plan in the General Residential and Medium Density Residential Zones	Not specified.
Kat Hall	430.4	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the reduced protection of character areas under the pre-1930s demolition rule should be amended to at least 50%. The current 71% reduction of character protection is considered too high. Wellington's character suburbs provide value through amenity, character enjoyment and architecture. They provided a sense of place and neighbourhood, as well as a historical record of a period of time that cannot be replicated. According to the 2019 Boffa Miskell Pre-1930 Character Area Review, there are only around 4,500 homes in Wellington's inner city suburbs that predate 1930 (p.11). Therefore a reduction in character protection of 71% would see only around 1300 dwellings remaining as part of character areas.	Seeks that the extent of the Character Precincts is increased.
Michelle Rush	436.12	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the MRZ should be revised to reflect the walking catchments of the Johnsonville line as a rapid transit route. All other consequential amendments to the plan's sections should also be made to give effect to this.	Seeks that the Medium Density Residential Zone be revised to reflect the walking catchments of the Johnsonville Line as a Rapid Transit Line
Michelle Rush	436.13	Residential Zones / Medium Density Residential Zone / General MRZ	Support	Objectives and policies in the MRZ chapter are supported as they provide for intensification whilst safeguarding the environment.	Retain Objectives in the Medium Density Residential Zone chapter as notified.
Michelle Rush	436.14	Residential Zones / Medium Density Residential Zone / General MRZ	Support	Objectives and policies in the MRZ chapter are supported as they provide for intensification whilst safeguarding the environment.	Retain Policies in the Medium Density Residential Zone chapter as notified.
Kirsty Woods	437.5	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Supports the current character areas identified, but considers that the character precinct should be extended in Newtown.	Retain Character Precincts identified in the Medium Density Residential Zone Chapter as notified and seeks amendment to extent to Newtown.
Newtown Residents' Association	440.16	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that Newtown's residential streets outside the suburban centre should be classified as MRZ. In particular the zoning of several blocks around the Newtown suburban centre for heights of up to 21m seems unnecessary and counter productive to maintaining a well functioning urban environment. Allowing 6-storey development blocks in low-rise residential areas would have damaging effects on the value of neighbouring houses. Furthermore, combining terraced homes, typically of 3 storeys, with 6 storey apartment blocks doesn't give good results unless the sites are carefully planned.	Seeks that the permitted heights for the medium density zones in Newtown and Berhampore to be 11m, not 14m.
Chrissie Potter	446.2	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Supports that Character and Heritage are noted as qualifying matters under the RZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".	Seeks that particular focus is taken to ensure that the district plan appropriately considers the transition from a residential area (MRZ) to the City Centre Zone, especially on a street like Moir St where the District Plan seeks to protect the heritage and character values.
Kay Larsen	447.13	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - see original submission]	Seeks that carefully thought out medium density houses considering sunlight and space a right to any people living in the neighbourhood is encouraged.
Dorothy Thompson	449.2	Residential Zones / Medium Density Residential Zone / General MRZ	Not specified	Supports that Character and Heritage are noted as qualifying matters under the RZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".	Seeks that particular focus is taken to ensure that the district plan appropriately considers the transition from a residential area (Medium Density Residential Zone) to the City Centre Zone, especially on a street like Moir St where the District Plan seeks to protect the heritage and character values.
Guardians of the Bays	452.61	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers it would be useful to include cross references to qualifying matters in the rules to make the plan easier to understand their implications e.g. the Air Noise Overlay (Inner Air Noise Overlay and Outer Air Noise Overlay)	Amend rules to reference qualifying matters.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Daniel Christopher Murray Grantham	468.4	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that larger, more comprehensive developments are needed in our centres.	Seeks that height limits are increased in the 15 minute walking catchments to rail stations.
Alicia Hall on behalf of Parents for Climate Aotearoa	472.11	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards recommendations.
Alicia Hall on behalf of Parents for Climate Aotearoa	472.12	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations recommendations for outdoor living space and green space.	Seeks that the Medium Density Residential Zone is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Alicia Hall on behalf of Parents for Climate Aotearoa	472.13	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the scale of commercial activities that are permitted in MRZ should be increased where it's activities that involve people spending time together, such as daycares.	Seeks that the range of Permitted Activities in the Medium Density Residential Zone be expanded.
Alicia Hall on behalf of Parents for Climate Aotearoa	472.14	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what's proposed.
Stephen Minto	FS100.14	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	<p>Submitter 234 wants to reduce shading as an issue when designing a development. But if people have solar panels on their house then this is an ongoing financial benefit that is lost. Compensation has not been considered or discussed in the submission. The criticality of sunlight to well being. It should be a right to have it in your house. It is known to help house sales so it has a value and the submitters place no value on it.</p> <p>Appreciates the submitter wants more houses and assumes they want affordable housing. Instead wants affordable housing and sees densification as having merits in the right places. Like in the brownfields of Te Aro. Not by ripping the heart out of our heritage/ character suburbs. Our heritage/chaacrter suburbs are a finite asset that is special to NZ. Tourists talk about it being special and different. Our heritage is part of continuity with our past. And being connected to the past is a critical part of becoming aware of our identity as New Zealanders. Heritage gives us a sense of place. Our place. Try getting Parisians to pull down the Eiffel Tower now.</p> <p>Heritage buildings and character areas connect to the trees that covered our land and were destroyed. Christina Mackay	478.9	Residential Zones / Medium Density Residential Zone / General MRZ	Support in part	Supports the overall concept of Character Precincts and rules, including new in-fill housing, but rules appear too loose. Submitter recommende the guidance and direction of a Urban Design panel.	Supports in parts provisions for Character precincts, but seeks amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Catharine Underwood	481.22	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Considers that the MRZ for Brooklyn should be removed and the status quo remains until a proper character/heritage assessment has been completed for the Brooklyn Area. Allowing 11 and 14 metres in height is likely to undermine potential character areas could create towering buildings dominating the neighbourhood.	Opposes Brooklyn being classified as Medium Density Residential Zone until a character/heritage assessment has been completed for the Brooklyn Area.
Living Streets Aotearoa	482.53	Residential Zones / Medium Density Residential Zone / General MRZ	Support in part	Supports in principle the provision of medium density housing zones but it is vital that the design rules work well to ensure that these continue to provide quality private and public spaces.	Not specified.
Thorndon Residents' Association Inc	FS69.98	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Support	Provision of medium density housing zones Provision of Character Precincts. Tall buildings create wind and shade problems	Allow
Jonathan Markwick	490.15	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards.
Dinah Priestley	495.1	Residential Zones / Medium Density Residential Zone / General MRZ	Oppose	Opposes the provisions of the MRZ and associated design guides relating to residential development within the residential suburbs of the city. Considers that Council's proposals are aimed specifically at achieving a complete transformation of the inner residential neighbourhoods through intensification that will result in the irrevocable loss of the city's older housing stock which gives Wellington its special character and unique sense of place. It is believed that the inner residential neighbourhoods can make an acceptable contribution to city growth without destroying the existing residential fabric.	Seeks that the MRZ (Medium density residential zone) provisions are re-written to achieve reasonable intensification whilst maintaining and enhancing the existing valued housing stock. The provisions will need to recognize both residential character and heritage qualities ensure appropriate implementation.
Thorndon Residents' Association Inc	FS69.62	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ	Support	The TRA believes that the city can have its cake and eat it. That it is not necessary to plan and zone for irrevocable loss of the city's valued older housing stock. And especially when this is part of Wellington special character and unique sense of place. It is observed how liveable cities overseas are enhanced by appreciating these values, and undertaking urban planning accordingly to get the right balance. Inner residential neighbourhoods like Thorndon have made an acceptable contribution to city growth, and can continue to do so without destroying the existing residential fabric.	Allow
Dinah Priestley	495.2	Residential Zones / Medium Density Residential Zone / General MRZ	Amend	Opposes the provisions of the MRZ and associated design guides relating to residential development within the residential suburbs of the city. Considers that Council's proposals are aimed specifically at achieving a complete transformation of the inner residential neighbourhoods through intensification that will result in the irrevocable loss of the city's older housing stock which gives Wellington its special character and unique sense of place. It is believed that the inner residential neighbourhoods can make an acceptable contribution to city growth without destroying the existing residential fabric.	Seeks that the MRZ (Medium density residential zone) provisions are re-written to achieve reasonable intensification whilst maintaining and enhancing the existing valued housing stock. The provisions will need to recognize both residential character and heritage qualities ensure appropriate implementation.

Phil Kelliher	FS57.3	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	<p>Supports evidence provided by the WCC for the inclusion of Porritt Ave into new Heritage Area (45) This addition recognises the importance of heritage to Wellington's identity and sense of place. Porritt Avenue recognised by experts as an important example of an intact late 19th / early 20th century streetscape. There are unlikely to be few others in Wellington from the same period that can match its overall integrity.</p>	Disallow
Tim Bright	75.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers an extension to character precincts should be made.	Seeks that Character Precincts be extended.
Judith Graykowski	80.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the Character Precincts are extended.
Ann Mallinson	81.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that character precincts must be much larger. Character homes are an important part of the attraction of Wellington to tourists and others.	Seeks that the extent of the Character Precincts is increased.
Joanna Newman	85.1	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	<p>Considers that character and heritage are qualifying matters under the PDP. Heritage is the most significant characteristic which must be considered in deciding 'character' and this has largely been ignored in deciding the extent of character precincts in Mt Victoria. There is strong evidence from Council officers and consultants (Boffa Miskell) whom the Council commissioned to undertake a house-by-house analysis, along with the Heritage New Zealand Pouhere Taonga assessment, that the character areas in Mt Victoria should be considerably larger than they are. Boffa Miskell's house-by-house analysis resulted in the definition of a clear Primary/Contributory character area which should be the minimum extent of Character Precincts. Therefore, even the WCC Officers' Final Spatial Plan Recommendation (pre-Council amendment 24 June 2021) area represents a political compromise, not justified by the evidence WCC, itself, commissioned. Decisions about character precinct extent in Mt Victoria were based on allowing more housing, therefore it is essentially a political decision ignoring heritage values and character. The Proposed District Plan creates small, disconnected blocks where the character can be destroyed by high-density development around, for little housing gain on a city-wide scale. Mt Victoria's character is unique in Wellington and New Zealand for its concentration of Victorian and Edwardian wooden dwellings. It is important to both for its accessibility and visibility, and for the cultural, social and economic stories it tells about the development of Wellington. Supports evidence submitted by Mt Victoria Historical Society.</p>	<p>Seeks that Character Precincts in Mount Victoria be extended to encompass Boffa Miskell Primary/Contributory Character sub-area plus Heritage New Zealand Pouhere Taonga's recommendations.</p> <p>[As illustrated in the submission]</p>

Aro Valley Community Council	87.31	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the Character Precincts should be extended in line with the recommendations of the Character Area Review, Boffa Miskell Report .	Seeks that the Character Precincts in Aro Valley are extended and requests specific areas be included in these.
Generation Zero	FS54.35	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	For character areas, the central test is “other” qualifying matter under clause 3.33(3) of the NPS-UD, alongside the objectives and purpose of the NPS-UD. There is an extremely high bar to creating a character area. The reduction in development capacity must be justified against the national significance of urban development and the objectives of the NPS-UD. Cities are dynamic and changeable. Indeed Wellington underwent many built changes before the currently form was locked in place by modern zoning documents. New housing and residents are a positive to encourage, rather a negative to push out further or crowd into the remaining housing stock. It is significantly more climate friendly to allow denser housing in inner-suburbs, rather than displacing development into greenfields, even accounting for embodied carbon. Character areas are in inner-city suburbs which are highly connected to amenities and already have high-mode share of low emissions transport. This land is often the most resilient. More residents can be easily absorbed in these suburbs and will create a positive impact on that suburb. The counterfactual – the status quo – is that the best quality land in the city is locked away by wealthy residents who seek to preserve an unsustainable way of life and/or their property values. This causes reduced supply and higher prices, higher rents, lower quality, displacement of low-income residents, and pushes residents to worse locations with higher lifetime emissions. The development capacity lost through character areas is extremely weighty; only very ‘character’ of very high quality can be justified. It must also be a site-specific analysis; the current broadbrush suburb-by-suburb analysis in the current District Plan is not allowed. The approaches advocated by the submitters is erroneous under the NPS-UD and should be rejected. Submitters cannot point to individual streets or houses they subjectively find as ‘character’ as this does not meet the stringent evidential requirement of clause 3.33(3). Submitters cannot request to go back to the current District Plan character areas, as these are untenable under the new NPS-UD test. Submitters cannot point to the Boffa Miskell report and adopt its recommendation. The report was written before the enactment of the NPS-UD. And, crucially, this approach begs the question of how the report fits into the NPS-UD test in clause 3.33(3). The approach in the PDP, where only contiguous and coherent pockets of high-quality character are proposed, is legal under the NPS-UD.	Disallow / Disallow the submission in full to the extent that this relates to character areas or reducing the amount of enabled housing. Reject increasing character areas in the PDP.
Aro Valley Community Council	87.32	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the sites at 39, 41, 43 and 45 Palmer Street should be included as a Character Precinct.	Seeks that the sites at 39, 41, 43 and 45 Palmer Street are included as a Character Precinct.

Te Tūāpapa Kura Kāinga – Ministry of Housing and Urban Development	121.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose in part	<p>Considers that character precincts are still significant as proposed and via a variety of controls will materially restrict the ability of development to be responsive in these areas.</p> <p>Notes that provisions and proposed policies are in many cases much more restrictive than those for nearby properties.</p> <p>Considers that the requirements of section 77L of the RMA have not been met, particularly with regard to wider costs. There is limited evidence the relevant costs of the character restrictions, including impacts on development capacity, accessibility and well-functioning urban environments, have been taken into account and it is likely that, if they were, the proposed extent of the character precincts would be smaller.</p> <p>Considers that HUD and MFE's evidence base clearly shows the benefits of intensification, including social benefits, economic benefits, more efficient use of infrastructure and environmental benefits. These benefits tend to outweigh costs such as sunlight loss and congestion. Benefits are widespread, longstanding and projected to grow over time. Costs are real but tend to be smaller and more narrowly focused, affecting current homeowners.</p> <p>Proposed character precincts are in areas well suited to development. Costs will fall predominantly on future homeowners, renters and public at large. Character provisions will shift development to areas less-suited for this.</p> <p>Considers that these impacts are not reflected in Wellington City Council's section 32 report. Impacts considered relate primarily to aesthetic concerns and relatively minor impacts on current homeowners. Wellington City Council did not take into account the main negative impacts of these restrictions in its evaluation report, meaning that the character areas at present cannot be justified as qualifying matters. HUD requests that these impacts are considered, and that the extent of the character areas are reviewed in light of these costs and the requirements of section 77L of the RMA.</p> <p>HUD notes that several of Wellington City Council's documents refer to additional analysis that would be published in late August. However, this analysis was not published in time for the drafting of this submission and did not inform the options analysis in the relevant section 32 report.</p>	Seeks that the extent of the character areas are reviewed in light of the negative impacts of these restrictions and the requirements of section 77L of the RMA.
Mt Victoria Historical Society Inc	FS39.9	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	<p>Character precincts should be expanded in accordance with the Boffa Miskell plus Heritage New Zealand Pouhere Taonga recommendations, or at a minimum Council officer recommendations, and not reduced to the extent in the Plan or any further.</p> <p>Do not allow review of, and decrease in, the extent of character areas.</p>	Disallow
Wellington's Character Charitable Trust	FS82.98	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	<p>Considers that character precincts should be expanded in accordance with the Boffa Miskell or Council officer recommendations, and should not be reduced to the extent in the notified plan or any further. Considers the evidence and analysis in the section 32 reports provides a sufficient basis to identify and apply character precincts as a qualifying matter and to a wider area than in the notified plan.</p>	Disallow
LIVE WELLington	FS96.50	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZPREC01	Oppose	<p>Removal of Character precincts is strongly opposed. The NPSUD makes provision for "any other matters" determined by the Council to be a qualifying matter. Character Precincts are vital to protect the character & heritage of Wellington, NZ's capital city. Removal is not warranted for reasons of capacity. There are better alternatives available to concentrate high density development rather than the scattergun approach through inner-city suburbs.</p>	Disallow
Historic Places Wellington Inc	FS111.90	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	<p>Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.</p>	Disallow

Victoria University of Wellington Students' Association	123.45	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Considers that the status quo of housing typologies such as character housing does not serve the diverse needs of our communities. Many students live in character housing which are often damp, cold, uninsulated and in general disrepair.	Not specified.
Jocelyn Ng	130.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Supports the Newtown Character house protection submission which proposes at a minimum the Officers' Recommended plan is re-instated into the PDP.	Amend the extent of MRZ-PREC01 (Character Precincts) to reinstate the Officers' Recommended Plan in the Proposed District Plan.
Claire Nolan, James Fraser, Margaret Franken, Bidy Bunzel, Michelle Wooland, Lee Muir	FS68.29	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Supports submission that seeks a character protection extension for Owen Street.	Allow
Grant Buchan	143.16	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Not specified	<p>Considers that "special character" as it exists in the PDP is an entirely aesthetic consideration. The preference for some people for the aesthetics of wooden houses of a certain era is in itself harmless. However their insistence that others be held to uphold that preference by force of law is not harmless especially given Wellington has one of the worst housing shortages in the country.</p> <p>In parts of Wellington, older, single or two storey detached houses are prolific and there is no serious prospect that future generations will be deprived of the opportunity to see living examples of this house type.</p> <p>Considers that it would be better for the wellbeing of residents if old buildings that lack insulation and have a high level of dampness were replaced with housing of greater density and more modern construction.</p> <p>[Refer to original submission for full reasons].</p>	<p>Seeks that old buildings that lack insulation and have a high level of dampness were replaced with housing of greater density and more modern construction.</p> <p>[Inferred decision requested].</p>
Matthew Gibbons	148.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	<p>Considers there should be increased densification throughout Wellington, including in Character Precincts.</p> <p>Considers that 'Character protections' should be removed to allow more high density housing. This will be good for the environment, and for housing affordability. Currently most of my students are paying almost all their income in rent, and this is not good for their health or education. Increased density will make Wellington a more attractive place to live and will be good for the economy.</p> <p>As an economist, considers that improved infrastructure (better railway lines and more frequent bus services) will follow intensification.</p>	Seeks that 'character protections' are removed to allow more high density housing.
Wellington's Character Charitable Trust	FS82.91	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow
LIVE WELLington	154.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Not specified	Recognises the council has a distinction between character and heritage, where heritage achieves a higher bar and then requires a higher degree of protection.	Not specified.
Vivienne Morrell	155.9	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support in part	Supports the proposed Character Precincts but believe they should be bigger.	Amend the extent of the area covered by the Character Precincts to encompass all the dwellings identified in the 2019 Boffa Miskell report on character areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Cameron Vannisselroy	157.8	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Supports the Character Precincts as notified. The Character Precincts should not be expanded beyond what is currently proposed.	Retain the Character Precincts as notified.
Jocelyn Brandon	158.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the area immediately around Wesley Road contains many historic houses of a character that deserve to be preserved, as in other areas like Mt Victoria, Thorndon and Te Aro.	Seeks that Wesley Road is recognised as a Character Precinct. [Inferred decision requested].
John Schiff	166.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the inner city suburbs, such as Mt Victoria, are an integral part of Wellington's character. Considers that reducing the protection of these character areas by 71% would see the demolition of many character homes in the inner city suburbs to be replaced by six storey apartment blocks. This would adversely affect many of the dwellings in these areas through loss of sun, views and amenity, let alone the character of these areas. The submitter believes that the need for an increase in the housing stock can be achieved without reducing the character precincts as proposed in the PDP.	Seeks that the extent of the area encompassed by Character Precincts is increased.
Michelle Leonie Rose	167.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Notes that Donald McLean Street was mentioned in the Boffa Miskell Pre-1930 Character Area review. The beautiful old homes and gardens/trees add to the history of Wellington. 30 Donald McLean Street, as far as the submitter knows, was built in 1888 and altered in the 1940s, and the back garage was first used as a stables, judging by appearance.	Amend the extent of the Character Precincts to include Donald McLean Street. [Inferred decision requested].
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.41	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Supports submission that seeks to extend character precincts in Newtown.	Allow
Zaffa Christian	174.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the character areas should be reinstated in accordance with the recommendations in the Officers' Recommended Plan.	Amend the extent of MRZ-PREC01 (Character Precincts) to reinstate the Officers Recommended Plan.
Jon Gaupset	175.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the character areas should be reinstated in accordance with the recommendations in the Officers' Recommended Plan.	Amend the extent of MRZ-PREC01 (Character Precincts) to reinstate the Officers Recommended Plan.
Historic Places Wellington	182.20	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support in part	Supports the general idea of proposed Character Precincts and the rules and design regime for them.	Retain the Character Precincts and provisions with amendment.
Thorndon Residents' Association Inc	FS69.104	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	All inner Residential suburbs should be MDZ Exemption from upzoning Importance of character areas Character Precincts, rules & design regime Extended Character Precincts in line with Boffa Miskell Demolition be a restricted activity for pre-1930 buildings New viewshaft for views of St Paul's	Allow
Historic Places Wellington	182.21	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers the description of Character Precincts and their rules are insufficient and do not recognise the important heritage entwined with those early, native timber, colonial neighbourhoods	Amend the provisions of MRZ-PREC01 (Character Precincts) to include provisions that promote the adaptive re-use of existing buildings as a lower emissions alternative to demolition and rebuilding.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Historic Places Wellington	182.22	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers the description of Character Precincts and their rules are insufficient and do not recognise the important heritage entwined with those early, native timber, colonial neighbourhoods	Amend the provisions of MRZ-PREC02 (Mt Victoria North Townscape Precinct) to specifically acknowledge that the inner city suburb character is in part derived from heritage.
Historic Places Wellington	182.23	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers the description of Character Precincts and their rules are insufficient and do not recognise the important heritage entwined with those early, native timber, colonial neighbourhoods	Amend the provisions of MRZ-PREC01 (Character precincts) to limit the scope of non-residential uses to prevent the loss of character houses which can seriously undermine the character of an area.
Historic Places Wellington	182.24	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the creation within the suburb of separate development areas which themselves include many quality character houses and will have no character controls should be avoided.	Amend the extent of Character Precincts to be one large character area or precinct over the heritage suburb.
Historic Places Wellington	182.25	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Supports the proposed application of a qualifying matter, to exempt from intensification, sites in the proposed Character Precincts.	Retain Character Precincts and related provisions with amendment.
Historic Places Wellington	182.26	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the Character Precincts should be extended in line with the recommendations of the Boffa Miskell Character Report.	Seeks the extension of the MRZ-PREC01 (Character precincts) areas to include the sites coloured olive and blank in Appendix 4 of the Boffa Miskell Character report.
Thorndon Residents' Association Inc	FS69.105	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	All inner Residential suburbs should be MDZ Exemption from upzoning Importance of character areas Character Precincts, rules & design regime Extended Character Precincts in line with Boffa Miskell Demolition be a restricted activity for pre-1930 buildings New viewshaft for views of St Paul's	Allow
Kāinga Ora – Homes and Communities	FS89.81	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ – PREC01	Oppose	Kāinga Ora is concerned about the potential loss in intensification opportunities if the proposed relief is granted.	Disallow
Ros Bignell	186.8	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Lawrence Street includes houses of architectural heritage that contribute to the overall character of the Newtown precinct. The street has several "anchor" houses including 11A Lawrence Street. The "streetscape" of Lawrence is one of the most attractive in Newtown and the positioning of the current housing could be considered sympathetic to the natural topography of the hillside. Considers that Council Officers who are not personally invested in Lawrence Street have considered the qualities of housing and character in Newtown and seen fit to recommend the boundaries and protections of the Newtown character precinct are extended to a further 300 buildings including those of Lawrence Street.	Amend the extent of area covered by the Character Precincts in Newtown to include Lawrence Street.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.26	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Supports submission seeking that character protections should extend to Lawrence Street, Newtown.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ros Bignell	186.9	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	<p>Considers that Council Officers who are not personally invested in Lawrence Street have considered the qualities of housing and character in Newtown and seen fit to recommend the boundaries and protections of the Newtown character precinct are extended to a further 300 buildings including those of Lawrence Street.</p> <p>Considers that there is a need to be careful that the current character of the precinct is not destroyed; removal of existing heritage character buildings or infilling with housing that is not complementary to the precincts character and topography will slowly erode that character. Once gone, the Newtown precinct's character will be changed irrevocably for future generations.</p>	Amend the extent of the area covered by the Character Precincts to ideally include the 300 houses recommended by Council Officers and/or adopt a site by site character analysis as proposed by the Boffa Miskell Report 2019.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.27	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Supports submission seeking that character protections should extend to Lawrence Street, Newtown.	Allow
Jonothan and Tricia Briscoe	190.12	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	<p>Considers that the Proposed District Plan largely ignores the heritage value of the whole area of Mount Victoria, by choosing instead a piecemeal approach (of individual buildings that have "character"), that is highly likely to destroy this important heritage area.</p> <p>Considers that character in Mount Victoria derives from its historic heritage.</p> <p>Considers that the character areas in Mount Victoria should be considerably larger based on evidence from expert Council officers, Boffa Miskell consultants, and the Heritage New Zealand Pouhere Taonga assessment.</p> <p>Considers that a critical mass is required to preserve character and the PDP creates small, disconnected blocks. There is a mismatch between WCC's statement that the Plan "protects areas of special character" in "some of the City's original settlements" and its designation of small, discrete areas of Mt Victoria as Character Precincts.</p> <p>Mount Victoria's character is unique in Wellington and New Zealand for its concentration of Victorian and Edwardian wooden dwellings. Legislation and a number of key WCC documents make clear the value of heritage and heritage buildings and areas.</p> <p>Considers that the inner suburbs have more than enough housing capacity to meet demand over the next 30 years under the existing Operative District Plan.</p> <p>[Refer to original submission for full reasons].</p>	Amend the extent of the area covered by the Character Precincts in Mount Victoria to encompass Boffa Miskell's Primary/Contributory Character area (Boffa Miskell, Pre-1930 Character Area Review) and Heritage New Zealand recommendations.
Jonothan and Tricia Briscoe	190.13	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the east side of Lipman Street should be a Character Precinct.	Seeks that the east side of Lipman Street is made a Character Precinct.
Jane Beale and Lisa Terreni	191.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	<p>Considers that Green Street and Emmett Streets should be a Character Precinct as they were identified as contributing to the streetscape in the Pre-1930s character area review and are well maintained.</p> <p>Considers that greater housing density will destroy the character, the community and the safety of these streets.</p>	Seeks that Green Street and Emmett Street made a Character Precinct.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.31	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Supports submission that seeks Green Street to be a character precinct/heritage area.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Dennis Foot	193.1	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	[No specific reason given beyond decision requested - refer to original submission.]	Seeks that inner city heritage and character housing is retained.
Michael O'Rourke	194.7	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the heritage area of Newtown should be extended by 30% to 50%	Seeks that the heritage area of Newtown be extended from 30% to 50% of the existing heritage area.
Peter Nunns	196.14	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Supports the reduction in the area covered by the MRZ-PREC01 in Berhampore. Considers that the remaining special character areas seem much better targeted towards areas that have a contiguous look and feel.	Retain the MRZ-PREC01 (Character Precincts) mapping in Berhampore as notified.
Angus Hodgson	200.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the PDP reduces Mt Cook Character areas to about 50% of what they were, and 10 minute walking catchment will mean that the missing areas can become high density. Considers that decision making on this issue was political and ignored evidence in the Boffa Miskell 2019 report. Considers that the requirements for consents before demolition is a reasonable expectation and the submitter is concerned that without this step, pre 1930's buildings will be unjustifiably lost.	Seeks that MRZ-PREC01 (Character Precincts) is amended to include Myrtle Crescent.
Angus Hodgson	200.6	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the PDP reduces Mt Cook Character areas to about 50% of what they were, and 10 minute walking catchment will mean that the missing areas can become high density. Considers that decision making on this issue was political and ignored evidence in the Boffa Miskell 2019 report. Considers that the requirements for consents before demolition is a reasonable expectation and the submitter is concerned that without this step, pre 1930's buildings will be unjustifiably lost.	Seeks that MRZ-PREC01 (Character Precincts) is amended to include Rolleston Street.
Angus Hodgson	200.7	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the PDP reduces Mt Cook Character areas to about 50% of what they were, and 10 minute walking catchment will mean that the missing areas can become high density. Considers that decision making on this issue was political and ignored evidence in the Boffa Miskell 2019 report. Considers that the requirements for consents before demolition is a reasonable expectation and the submitter is concerned that without this step, pre 1930's buildings will be unjustifiably lost.	Seeks that MRZ-PREC01 (Character Precincts) is amended to include Hargreaves Street.
Angus Hodgson	200.8	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the PDP reduces Mt Cook Character areas to about 50% of what they were, and 10 minute walking catchment will mean that the missing areas can become high density. Considers that decision making on this issue was political and ignored evidence in the Boffa Miskell 2019 report. Considers that the requirements for consents before demolition is a reasonable expectation and the submitter is concerned that without this step, pre 1930's buildings will be unjustifiably lost.	Seeks that MRZ-PREC01 (Character Precincts) is amended to include Lower Hankey Street.
Angus Hodgson	200.9	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Supports the exclusion of Wallace Street from proposed character precincts. Considers that Wallace Street is a mass transit route, is effectively a gully and is therefore well suited to high density residential development.	Seeks that the exclusion of Wallace Street from Character Precincts is retained as notified.

Sam Stocker & Patricia Lee	216.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	<p>Considers that far too much historic character areas have been left out of the Newtown and Berhampore areas which will destroy quality of life for their community.</p> <p>The land is not needed to help cope with Wellingtons increasing population.</p> <p>Land values will soar and will lead to unpayable rates bills and loss of sunlight access.</p> <p>New builds more than three storeys high are expensive and won't provide low-cost housing.</p> <p>Average residents will either be forced away or live in ghetto conditions. [Refer to original submission for full reason]</p>	<p>Seeks that any areas that include pre-1935 buildings be included as character precincts.</p> <p>[Inferred decision requested]</p>
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.50	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Supports submission that seeks character precinct extensions in Newtown.	Allow
Eva Brodie	217.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	<p>Considers that the Boffa Miskell 2019 report identified Lower Kelburn as an area that warranted further consideration for it's contributions to Thorndon Character Areas.</p> <p>Lower Kelburn is a similar age to Thorndon and Mt Victoria and has well maintained, functioning old homes with ancient local timbers built by traditional craftsmen.</p> <p>Placement of even one tall building in this neighbourhood would degrade surrounding homes.</p> <p>Developments built to the edge of zones in the HRZ (High Density Residential Zone) in Lower Kelburn will mean losses of privacy, sun, views, and access.</p> <p>The area is on the fault line, steep and is already dependent on many retaining walls, making it unsuitable for large, heavy buildings.</p>	Seeks that Lower Kelburn (Area with boundaries of the Botanic Gardens and Bolton Street Cemetery, motorway and cable car track) should be classified as a Character Precinct.
Mike Camden	226.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that Character Precincts be extended to encompass all dwellings identified as being "Positive, contributing or neutral" in the Pre-1930 Character Area Review from Boffa Miskell.
Lorraine and Richard Smith	230.16	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Opposes high density development with no constraints or right of appeal in character areas	Not specified.
Lorraine and Richard Smith	230.17	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the Proposed District Plan is amended to recognise that character is in part derived from heritage in pre-1930s character areas.
Lorraine and Richard Smith	230.18	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the Proposed District Plan is amended to add demolition controls in the pre-1930s character areas while identifying areas of particular character within these to enable a more granular level of control over demolition.
Lorraine and Richard Smith	230.19	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Lower Kelburn should be a character precinct for the reasons set out in the submission.	Seeks that Lower Kelburn Neighbourhood is recognized as a special character area.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	233.14	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support in part	Supports the character precincts and corresponding rules in the PDP, but considers that the extent of these should be increased to cover all areas identified in the Boffa Miskell character report as having 'primary' or 'contributory' character streetscape values, or areas omitted from analysis in this report..	Retain MRZ-PREC01 (Character Precincts) as notified, with an increase to the extent of these areas in line with the recommendations in the Boffa Miskell Character Report.
Thorndon Residents' Association Inc	FS69.92	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Appropriate protection of pre-1930s buildings 10min walkable catchment Specific heritage identification and assessment Views contributing to sense of place and identity Extend Character Precincts per Boffa Miskell Boffa Miskell streetscapes Appropriate protection of pre-1930s buildings CCZ encroachment on residential zones Old St Pauls height controls Preserve viewshalfs	Allow
Wellington's Character Charitable Trust	233.15	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that a qualifying matter applies in the areas identified as having primary/contributory character streetscape values in the Boffa Miskell 2019 report, which is supported by NZ Pouhere Taonga's submission on the draft spatial plan and the WCC officers final recommendations on the spatial plan from 24 June 2021.	Seeks that Character Precincts be extended to encompass all areas identified in the Boffa Miskell 2019 report as having primary/contributory character streetscape values.
Thorndon Residents' Association Inc	FS69.93	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Appropriate protection of pre-1930s buildings 10min walkable catchment Specific heritage identification and assessment Views contributing to sense of place and identity Extend Character Precincts per Boffa Miskell Boffa Miskell streetscapes Appropriate protection of pre-1930s buildings CCZ encroachment on residential zones Old St Pauls height controls Preserve viewshalfs	Allow
Wellington's Character Charitable Trust	233.16	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that evidence from the Hay Street Heritage Report (July 2021) supports Hay Street being a Character Precinct and/or a Heritage Area. [Refer to Hay Street Heritage Report (July 2021) provided with submission for details].	Seeks that Hay Street area is amended to be a Character Precinct and/or a Heritage Area.
Alan Fairless	242.16	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that character and heritage can be considered as part of the community dialogue. Not every old building needs to be retained, but neither are people's sense of connection and place disposable commodities. [Inferred reason given].	Seeks that it is recognised that character is in part derived from heritage (as set out in the Operative Plan) in pre-1930s character areas (as defined in the Operative Plan).
Alan Fairless	242.17	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Wellington's liveability, and its character and heritage, can be protected at the same time as new housing is added. Considers that character and heritage can be considered as part of community dialogue. Not every old building needs to be retained, but neither are people's sense of connection and place disposable commodities. [Inferred reason given].	Seeks that the District Plan use a comprehensive, holistic definition of character as a qualifying matter under the National Policy Statement-Urban Development.
Alan Fairless	242.18	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Wellington's liveability, and its character and heritage, can be protected at the same time as new housing is added. Considers that rather than wholesale deregulation and the widespread removal of protections, the District Plan needs to better recognise and provide for the protection of heritage from inappropriate development and better take into account the need to maintain and enhance amenity values.	Seeks that areas of particular character within the pre-1930s character areas are identified (for example as recommended in the revised Draft Spatial Plan) to enable a more granular level of control over demolition.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Cheryl Crooks	243.1	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	<p>Considers that the subsequent Officers Recommended plan should be reinstated.</p> <p>Supports the reinstatement of 300 houses that meet the requirement of "character" as defined in the Boffa Miskell report.</p> <p>The 300 houses need to be reinstated as they are important to the preservation of the social history of part of the original city of Wellington.</p> <p>Some of the houses were built as early as 1875. Newtown was a suburb of working families, and maintains a rich demographic. Green and Emmett streets were the locations of open air political meetings of trade unions early in the movement, and Peter Fraser would speak to constituents, Council and union representatives in these streets - sometimes before leading marches to Trades Hall.</p> <p>The owners of the Newtown houses stood for Council and believed in building a city that cared for the rights of people to live and work within the city.</p> <p>Green and Emmett streets, as well as other parts of Newtown could become even more vibrant with the introduction of a character precinct in these streets. Similar to other historic precincts, such as The Rocks in Sydney they could be come a significant tourist attraction, as well as supporting the local hospitality industry.</p> <p>Thoughtful, modern housing can be incorporated into the character areas, as it has been at The Rocks - while maintaining important aspects of Wellington history.</p>	Amend the extent of MRZ-PREC01 (Character Precincts) to include previously identified character precinct areas in Newtown.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.52	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Supports submission because it supports character extensions in Newtown. Green and Emmett Streets.	Allow
Cherie Jacobson	251.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Not specified	<p>Considers that Character is given inadequate weight in the PDP.</p> <p>There is a lack of evidence indicating that the existing heritage and character provisions in the District Plan are affecting the housing market in Wellington.</p> <p>Heritage and character can make a significant contribution to Wellington's climate change goals by reducing emissions and waste through sustainable resource use.</p>	Not specified.
Cherie Jacobson	251.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	<p>Considers that reducing the size of character areas in Wellington means that the more vernacular or everyday values of Wellington's most well-known suburbs will be vulnerable to loss.</p> <p>Considers that the expert advice and community's views on heritage and character were largely ignored in the development of the Spatial Plan and now again in the PDP.</p> <p>[Refer to original submission for full reason]</p>	Seeks that Character Precincts be extended.
Generation Zero Inc	254.15	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	<p>GZ Inc supports PDP's identification of areas with high concentrations of character (i.e. areas with a predominance of primary classified buildings).</p> <p>[Refer to original submission for full reason]</p>	Retain the extent of the character precincts as notified which only include properties that have been identified as having high concentrations of character (i.e. areas with a predominance of primary classified buildings).
Pauletta Wilson	257.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Inferred support for Yale road being in a character precinct.	<p>Retain Yale road as within a character precinct.</p> <p>[Inferred decision requested]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Jim & Christine Seymour	262.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Not specified	Considers that character areas could be designed by approved architects to ensure consistency in these areas as has been done in other jurisdictions.	Seeks that new buildings in character precincts be designed by one or more approved architects.
Mike Robbers	264.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that there are a large number of character homes on Lawrence Street, some of the homes have Māori names in stained glass on the front of the properties. [Refer to original submission for full reason]	Seeks that Character Precincts are extended to encompass Lawrence Street, Newtown.
Everard Aspell	270.1	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Opposes loss of character protection in the suburbs zoned Inner Residential Area in the ODP. Considers that intensification shouldn't come at the expense of character and heritage. Considers that the attraction in the Lambton Ward is the unique character and heritage, older Victorian styled houses and working men's cottages dotted around Thorndon, Mount Vic, Aro Valley and Mount Cook. There are multiple brownfield sites well suited for accommodating extra population that will avoid impacting heritage and character. [Refer to original submission for full reason]	Seeks amendment to the Proposed District Plan to maintain the character areas within Mount Victoria.
Everard Aspell	270.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Opposes loss of character protection in the suburbs zoned Inner Residential Area in the ODP. Considers that intensification shouldn't come at the expense of character and heritage. Considers that the attraction in the Lambton Ward is the unique character and heritage, older Victorian styled houses and working men's cottages dotted around Thorndon, Mount Vic, Aro Valley and Mount Cook. There are multiple brownfield sites well suited for accommodating extra population that will avoid impacting heritage and character. [Refer to original submission for full reason]	Seeks amendment to the Proposed District Plan to maintain the character areas within Mount Cook.
Everard Aspell	270.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Opposes loss of character protection in the suburbs zoned Inner Residential Area in the ODP. Considers that intensification shouldn't come at the expense of character and heritage. Considers that the attraction in the Lambton Ward is the unique character and heritage, older Victorian styled houses and working men's cottages dotted around Thorndon, Mount Vic, Aro Valley and Mount Cook. There are multiple brownfield sites well suited for accommodating extra population that will avoid impacting heritage and character. [Refer to original submission for full reason]	Seeks amendment to the Proposed District Plan to maintain the character areas within Thorndon.
Thorndon Residents' Association Inc	FS69.108	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Part of WCC's summary: ... intensification shouldn't come at the expense of character and heritage. ... the attraction in the Lambton Ward is the unique character and heritage, older Victorian styled houses and working men's cottages dotted around Thorndon, Mount Vic, Aro Valley and Mount Cook. There are multiple brownfield sites well suited for accommodating extra population that will avoid impacting heritage and character.	Allow

Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.14	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	[No specific reason given beyond decision requested - refer back to original submission]	<p>Retain the character precincts with amendment.</p> <p>[Inferred decision requested]</p>
Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.15	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	<p>Opposes extent of the character precincts to the extent that they do not include areas that are currently protected by the pre-1930s demolition control in the operative district plan.</p> <p>[Refer to original submission for full reason]</p>	<p>Extend the extent of the character precincts to that of the operative district plan.</p> <p>[Inferred decision requested]</p>
Bernard Palamountain	278.1	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	[No specific reason given beyond decision requested - refer back to original submission]	Seeks that 75 - 80% of the character protections proposed by the Boffa Miskell report, and those adopted by the Auckland City Council, are added to the Proposed District Plan.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Bernard Palamountain	278.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	[No specific reason given beyond decision requested - refer back to original submission]	Seeks that at least 50% of the character area protections recommended by the 2021 Officers Recommended Plan are added to the Proposed District Plan.
Laura Gaudin	279.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support in part	Supports character precincts and considers that these could be extended.	Retain character precincts as notified.
Laura Gaudin	279.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	[No specific reason given beyond decision requested - refer back to original submission]	Seeks that a mechanism is added to allow for character precincts to be extended, with protections given to viewshafts within any given extension.
Eldin Family Trust	287.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	<p>Considers that the rezoning of Selwyn Terrace would be a dramatic change and would enable activities that conflict with the current primary use of Selwyn Terrace as a distinct enclave of residential dwellings.</p> <p>Considers that the Council is incorrect to say that Selwyn Terrace already has a mixture of land uses.</p> <p>Does not agree that a land use change is necessary to support a mixture of activities and growth, considering the street is very narrow and steep access, with a single carriageway for much of its length. A change to a commercial zoning would place unreasonable demand on vehicle and pedestrian access.</p> <p>Considers that Selwyn Terrace has a high concentration of pre-1930s character as evidenced by the 2019 Pre-1930s character area review report.</p> <p>Considers that 9 Selwyn Terrace is an excellent example of the work of one of Wellington's pre-eminent architects of the 20th Century, William Gray Young.</p> <p>Selwyn Terrace has special historic context as a reminder of the original suburb prior to the construction of the Wellington Motorway.</p> <p>Considers the plan provides sufficient development capacity without needing to change planning settings in Selwyn Terrace.</p> <p>[Refer to original submission for full reason]</p>	Seeks that Selwyn Terrace, Thorndon is included as a Character Precinct.
Eldin Family Trust	287.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that numbers 15, 16, 17 and 18 Selwyn Terrace should be considered as primary contributors of character.	Seeks that numbers 15, 16, 17 and 18 Selwyn Terrace should be considered as primary contributors of character.
Matthew Plummer	300.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Supports Character Precincts in Wellington's inner city.	Retain Character Precincts in Wellington's inner city.
Matthew Plummer	300.6	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Boffa Miskell's Pre-1930 Character Area Review has been ignored by councillors.	Seeks that Character Precincts in Mount Victoria be extended to encompass Boffa Miskell's recommendations in the Pre-1930 Character Area Review.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Matthew Plummer	300.7	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that WCC officers' recommendations for Character Area expansion (2021) have been ignored by councillors. The Proposed District Plan in its current form will not incentivise development of affordable homes.	Seeks that Character Precincts in Mount Victoria be extended to encompass Council officers' recommendations.
Matthew Plummer	300.8	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Not specified	Considers that petitions with significant community support for Character Area enlargement have been ignored by Councillors, namely the Mount Victoria petition. The Proposed District Plan in its current form will not incentivise development of affordable homes.	Not specified.
Roland Sapsford	305.44	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Not specified	Considers that the 10 minute walkable catchments have resulted in a reduction in the extent of Aro Valley included in the character precincts. [Refer to original submission for details]	Seeks that further consideration is given to the unique characteristics of Aro Valley. [Inferred decision sought]
Roland Sapsford	305.45	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	The extent of Character Precincts should be extended to match pre-existing demolition control for pre-1930s character areas under the Operative Plan. Areas of particular character within these should be identified to enable a more granular level of control over demolition and redevelopment. Considers that the plan needs to create a more coherent and connected set of sites covered by the character protections in Aro Valley. [Refer to original submission for full reason]	Seeks that Character Precincts be extended to encompass those in the operative district plan.
James Coyle	307.12	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that character zones in the spatial plan need to be re-assessed. Political affiliations may have worked to reduce the extent of character zones. There was a lack of independent voices at the table, ones that could see the opportunity of qualifying matters and advocate for a specific design and an appropriate response to Wellington.	Seeks that Character Precincts be re-assessed with independent voices involved.
Penelope Borland	317.9	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Character Precincts in Mount Victoria should be extended to encompass Boffa Miskell's recommendations in the Pre-1930 Character Area Review. Extending Character Precincts will not affect future housing capacity. The Council's own growth figures indicate that Mount Victoria's contribution is small and likely to be achieved even with the current pre-1930s demolition rule fully in place. Therefore, the qualifying matters of character and heritage should be applied as they were envisaged under the NPS-UD in the Proposed District Plan MRZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".	Seeks that Character Precincts in Mount Victoria be extended to encompass Boffa Miskell's recommendations in the Pre-1930 Character Area Review.
Penelope Borland	317.10	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Character Precincts in Mount Victoria should be extended to encompass Heritage New Zealand's recommendations, specifically Earls Terrace, Lower Hawker Street, Port Street and Stafford Street. [Refer to original submission for full reason, including attachment]	Seeks that Character Precincts in Mount Victoria be extended to encompass Heritage New Zealand Pouhere Taonga's recommendations.
Penelope Borland	317.11	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Character Precincts in Mount Victoria should be extended with the WCC officer's recommendation as a baseline starting point.	Amend the extent of MRZ-PREC01 (Character Precincts) in Mount Victoria to encompass Council officers' recommendations.
Penelope Borland	317.12	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	PREC01 should be amended to include all houses on Earls Terrace, as recommended by Heritage New Zealand. (Option A)	Amend the extent of MRZ- PREC01 (Character Precincts) to include all houses on Earls Terrace.
Penelope Borland	317.13	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	PREC01 should be amended to include all houses on Stafford Street, as recommended by Heritage New Zealand. (Option A)	Amend the extent of MRZ-PREC01 (Character Precincts) to include all houses on Stafford Street.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Penelope Borland	317.14	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	PREC01 should be amended to include 1, 3,4 and 8 Port Street, as recommended by Heritage New Zealand. (Option A)	Amend the extent of MRZ-PREC01 (Character Precincts) to include 1, 3,4 and 8 Port Street.
Penelope Borland	317.15	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	PREC01 should be amended to include 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 26 and 30 Hawker Street, as recommended by Heritage New Zealand. (Option A)	Amend the extent of MRZ-PREC01 (Character Precincts) to include 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 26 and 30 Hawker Street.
Hilary Watson	321.12	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support in part	Supports Character Precincts, but seeks an extension of Newtown's Character Precincts.	Retain Character Precincts with amendments.
Hilary Watson	321.13	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that PREC01 should be extended to include additional properties in Newtown. The balance between upzoning areas for increased density, and retaining valuable character areas has not been struck appropriately in the Proposed District Plan (PDP), and needs to be changed. A list of properties specifying the addresses of the additional properties that should be added to the Character Precinct has been provided in Appendix One. These properties were included in the Councillor Recommended Spatial plan from July 2021, the Boffa Miskell Pre-1930 Character Review and WCC officer recommendations. [See Appendix 1 to original submission for full list of properties]	Amend the extent of MRZ-PREC01 (Character Precincts) to include additional properties in Newtown. [See Appendix 1 to original submission for full list of properties]
Hilary Watson	321.14	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Newtown's Character Precincts should be extended to preserve the precious green coverage across private properties that acts as a corridor from Zealandia across the city. These trees also prevent surface water runoff from overloading the pipe system in times of flooding events. Every neighbourhood should have a 30 percent tree canopy and everyone should live less than 300meters away from a green space. [Refer to original submission for full reason]	Seeks that Newtown's Character Precinct be extended to preserve green coverage from private properties.
Richard Murcott	322.17	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the Character Precinct Area over the Hobson Street block in Thorndon should be restored, based upon Boffa Miskell's report.	Seeks that Character Precincts in Thorndon be extended to encompass Boffa Miskell's recommendations.
Thorndon Residents' Association Inc	FS69.49	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Richard Murcott	322.18	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the Character Precinct Area in Thorndon be restored to reflect WCC planners recommendations in the pre-approved version of the Spatial Plan (18 June 2021). Dwellings in the Thorndon area have character attributes and quality that should be recognised.	Seeks that Character Precincts in Thorndon be extended to encompass WCC officers' recommendations in the Spatial Plan.
Thorndon Residents' Association Inc	FS69.50	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Richard Murcott	322.19	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the Thorndon suburb makes a significant contribution to Wellington's identity and should be classified as Character Precinct. Most of Thorndon's larger wooden houses are of superior build quality, from native timbers, making them a very valuable part of Wellington's history and part of the unique story of Wellington and its heritage.	Seeks that Thorndon be classified as Character Precinct.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Richard Murcott	322.20	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the Selwyn Terrace residential enclave should be a Character Precinct.	Amend the extent of MRZ-PREC01 (Character Precincts) to include the residential area of Selwyn Terrace.
Thorndon Residents' Association Inc	FS69.51	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Richard Murcott	322.21	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the residential area of Portland Crescent should be a Character Precinct.	Amend the extent of MRZ-PREC01 (Character Precincts) to include the residential area of Portland Crescent.
Thorndon Residents' Association Inc	FS69.53	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Richard Murcott	322.22	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the residential area of Hawkestone Street should be a Character Precinct.	Amend the extent of MRZ-PREC01 (Character Precincts) to include the residential area of Hawkestone Street.
Thorndon Residents' Association Inc	FS69.54	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Richard Murcott	322.23	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the High Density Residential Zone block bounded by Hobson St, Davis St, Moturoa St, Murphy St, Turnbull St, and Fitzherbert Tce in Thorndon be classified as a Character Precinct. [Refer to original submission for full reason]	Amend the extent of MRZ-PREC01 (Character Precincts) to include the residential block bounded by Hobson St, Davis St, Moturoa St, Murphy St, Turnbull St, and Fitzherbert Tce in Thorndon.
Thorndon Residents' Association Inc	FS69.55	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Craig Erskine	325.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	MRZ- PREC01 (Character Precincts) is opposed as there is insufficient evidence or justification to exempt such large areas from the overall intent of the new rules. There needs to be more assessment and refinement of these areas before they can be properly considered as qualifying matters.	Remove MRZ-PREC01 (Character Precincts) in its entirety, and replace with justified provisions.
Craig Erskine	325.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	MRZ- PREC01 (Character Precincts) should be reassessed and replaced with justified provisions. There needs to be more assessment and refinement of these areas before they can be properly considered as qualifying matters.	Seeks that MRZ-PREC01 (Character Precincts) be reassessed and replaced with justified provisions.
Khoi Phan	326.6	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	[No specific reason given beyond decision requested - refer to original submission].	Remove Berhampore from Character Precincts.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Khoi Phan	326.7	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	[No specific reason given beyond decision requested - refer to original submission].	Remove Newtown from Character Precincts.
Khoi Phan	326.8	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	[No specific reason given beyond decision requested - refer to original submission].	Remove Mt Cook from Character Precincts.
Khoi Phan	326.9	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	[No specific reason given beyond decision requested - refer to original submission].	Remove Mt Victoria from Character Precincts.
Khoi Phan	326.10	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	[No specific reason given beyond decision requested - refer to original submission].	Remove Aro Valley from Character Precincts.
Mt Cook Mobilised	331.12	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	The extent of Character Precincts in Mt Cook is incorrect and should be amended. Areas of significant character value in Mt Cook identified by Boffa Miskell's Pre-1930 Character Area Review should align with Character Precincts in the PDP. Retaining character protection over further parts of Mt Cook would not prevent an adequate supply of housing in future, and will help keep the character and diversity of the suburb. Boffa Miskell provided evidence justifying the inclusion of Myrtle Crescent, Hargreaves Street, Wallace Street, Rolleston Street and the lower section of Hankey Street, which has been set aside. [Refer to original submission for full reason]	Seeks that Character Precincts in Mount Cook be extended to encompass Boffa Miskell's recommendations in the Pre-1930 Character Area Review, specifically Myrtle Crescent, Hargreaves Street, Wallace Street, Rolleston Street, and the lower section of Hankey Street.
Kāinga Ora – Homes and Communities	FS89.100	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Kāinga Ora opposes this submission and its impacts on the supply of a variety of housing choices and typologies in Wellington.	Disallow
Thorndon Residents' Association	333.8	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the Thorndon Flat and the Hobson St residential precinct should be classified as Character Precincts. The area neighbours the Parliamentary Precinct and has a unique residential character and heritage context in NZ. The Hobson Precinct, in particular, warrants application of a qualifying matter such as the Character Precinct Area designation, as applied to other parts of residential Thorndon.	Amend the extent of Character Precincts in Thorndon to include the Thorndon flat and the Hobson Street Residential precinct consistent with the maps appended to the submission. [Refer to original submission]
Thorndon Residents' Association	333.9	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the Selwyn Terrace / Hill Street enclave should be rezoned from City Centre Zone to Medium Density Residential Zone. The enclave provides a visual linkage between this residential area and its residential neighbours across the motorway. It is part of the story of the Thorndon community demonstrating the impact the motorway construction had on Thorndon.	Seeks that the Selwyn Terrace / Hill Street enclave and the Portland Crescent/Hawkestone St cluster not be classified as City Centre Zone , and be re-zoned back to Inner Residential Area, with a qualifying matter as a Character Precinct Area, in a manner consistent with the maps and information appended to the submission. [Refer to original submission]
Thorndon Residents' Association	333.10	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the Selwyn Terrace / Hill Street enclave should be rezoned from City Centre Zone to Medium Density Residential Zone. The enclave provides a visual linkage between this residential area and its residential neighbours across the motorway. It is part of the story of the Thorndon community demonstrating the impact the motorway construction had on Thorndon.	Seeks that the Selwyn Terrace / Hill Street enclave and the Portland Crescent/Hawkestone St cluster not be classified as City Centre Zone , and be re-zoned back to Inner Residential Area, with a qualifying matter as a Character Precinct Area, in a manner consistent with the maps and information appended to the submission. [Refer to original submission]
Thorndon Residents' Association	333.11	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Goring Street, along Grant Road and Park Street, should be a Character Precinct. [Refer to original submission for full reason].	Amend the extent of MRZ-PREC01 (Character Precincts) to include Goring Street. [Refer to original submission for schematic]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Thorndon Residents' Association	333.12	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that 220-235 Tinakori Road should be included in MRZ-PREC01 similar to the adjacent character precincts. [Refer to original submission for full reason]	Amend the extent of MRZ-PREC01 (Character Precincts) to include 220-235 Tinakori Road.
Thorndon Residents' Association	333.13	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that 106 and 110 Hill Street should be included in MRZ-PREC01. [Refer to original submission for full reason]	Amend the extent of MRZ-PREC01 (Character Precincts) to include 106 and 110 Hill Street.
Kerry Finnigan	336.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support in part	Supports Character Precincts in Newtown.	Retain MRZ-PREC01 (Character Precincts) with amendment.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.35	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Supports submission that seeks to extend character precincts.	Allow
Kerry Finnigan	336.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	The extent of Character Precincts in Newtown should be amended to include areas identified by the Boffa Miskell study.	Seeks that Character Precincts in Newtown be extended to encompass Boffa Miskell's recommendations in the Pre-1930 Character Area Review.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.36	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Supports submission that seeks to extend character precincts.	Allow
Property Council New Zealand	338.10	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support in part	Supports character precincts as a qualifying matter. The principle of protecting pre-1930s character housing within character precincts is important when properly balanced with unlocking additional development capacity for Wellington.	Not specified.
Mt Victoria Residents' Association	342.26	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Mount Victoria should be included in the Character Area from Cambridge Terrace to the ridge, Tangi the Keo. This will provide a consistent approach to planning in a well-defined coherent area. Consistent treatment of an already dense area will also allow for sympathetic building design.	Amend the extent of MRZ-PREC01 (Character Precincts) to include all of Mount Victoria.
Carolyn Stephens	344.9	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the plan should recognise that character is in part derived from heritage in pre-1930s character areas as set out in the Operative Plan.	Seeks that character be recognised as being derived from heritage in pre-1930s Character Areas.
Carolyn Stephens	344.10	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that character precincts should be extended to match pre-existing demolition control for pre-1930s character areas under the Operative Plan. Areas of particular character within these should be identified to enable a more granular level of control over demolition and redevelopment.	Reinstate the Operative Plans' pre-1930s demolition controls.
Lower Kelburn Neighbourhood Group	356.7	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the present number of character homes protected from demolition should be increased in Lower Kelburn. The submitter notes that it is reported that the 5500 dwellings with character protection is less than 6% of Wellington's current housing stock, and all of it is in Aotearoa's oldest built suburbs, like Lower Kelburn, Thorndon and Mount Victoria. The submitter considers that character homes are an important special feature that define Wellington. In areas such as Lower Kelburn, they consist predominantly of well-maintained pre-1900 wooden homes with some built pre-1930. They are very effective and valuable ways of continuing to store carbon and provide residents with tangible experiences of beautiful design and craftsmanship. The submitter notes that the threat of potential destruction is unjustified and adds a significant uncertainty to the market value of houses.	Amend the extent of MRZ-PREC01 (Character Precincts) to include further areas of character. [Inferred decision requested]. [See original submission for further detail].

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora – Homes and Communities	FS89.91	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Kāinga Ora opposes this submission and its impacts on the supply of a variety of housing choices and typologies in Wellington.	Disallow
Lower Kelburn Neighbourhood Group	356.8	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the North Bolton St Character Area should be expanded to include Wesley Road as a Character Precinct. Notes that the 2019 Boffa Miskell Pre-1930 Area Character Review concluded that the Wesley Rd area needed to be further investigated as a potential Character Area. This area had not been studied in detail for the Report as had other areas such as Thorndon and Mt Victoria. Therefore many submissions were made to WCC in the previous round from ninety concerned Lower Kelburn residents, adding to our earlier written and oral submissions that had provided strong evidence that this area should have Character Precinct status, and not be kept as high density with a 21 m height limit. [Refer to original submission for full reason, including appendix]	Amend the extent of MRZ-PREC01 (Character Precincts) to include Wesley Road. An 11 meter height limit should be in place.
Kāinga Ora – Homes and Communities	FS89.92	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Kāinga Ora opposes this submission and its impacts on the supply of a variety of housing choices and typologies in Wellington.	Disallow
Josephine Brien / Tim Bollinger	365.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the tall houses at the top of Abel Smith Street at 43 and 45 Palmer Street, with their "pigeon box" roofs are unique in Wellington and are clearly an important part of the heritage character of the area as well. [Refer to original submission for full reason]	Amend the extent of MRZ-PREC01 (Character Precincts) to include 43 and 45 Palmer Street.
Elizabeth Nagel	368.14	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the plan should recognise that character is in part derived from heritage in pre-1930s character areas as set out in the Operative Plan.	Seeks that character be recognised as being derived from heritage in pre-1930s Character Areas.
Elizabeth Nagel	368.15	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that character precincts should be extended to match pre-existing demolition control for pre-1930s character areas under the Operative Plan. Areas of particular character within these should be identified to enable a more granular level of control over demolition and redevelopment.	Reinstate the Operative Plans' pre-1930s demolition controls.
Sue Kedgley	387.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Opposes the proposals in the PDP that would see a 71% reduction in the protections for character areas in Wellington, especially in Wellington's inner city suburbs such as Mt Victoria, Aro Valley, Thorndon, Mount Cook, and Newtown. These suburbs are already some of the most densely housed areas in Wellington. They are full of Victorian and Edwardian wooden houses which are an important part of our heritage, our history and our sense of place, and as such they are some of the most unique, distinct and liveable areas of Wellington. The densely located houses in these unique inner-city suburbs provide a wonderful sense of neighbourhood and community and provide coherence and interest to the Wellington city scape.	Opposes MRZ-PREC01 (Character precincts) and seeks amendments.
Sue Kedgley	387.6	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Opposes the proposals in the PDP that would see a 71% reduction in the protections for character areas in Wellington, especially in Wellington's inner city suburbs such as Mt Victoria, Aro Valley, Thorndon, Mount Cook, and Newtown. These suburbs are already some of the most densely housed areas in Wellington. They are full of Victorian and Edwardian wooden houses which are an important part of our heritage, our history and our sense of place, and as such they are some of the most unique, distinct and liveable areas of Wellington. The densely located houses in these unique inner-city suburbs provide a wonderful sense of neighbourhood and community and provide coherence and interest to the Wellington city scape.	Seeks that the existing, inner city heritage Character Precincts in Mt Victoria, Mt Cook, Aro Valley and Thorndon are retained and increase the extent of character precincts so that, at the very minimum, 50% of existing character areas are allowed to remain under the pre-1930s demolition rule.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Grace Ridley-Smith	390.6	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support in part	Supports the proposed Character Precincts.	Retain MRZ-PREC01 (Character Precincts) as notified, subject to increasing the extent of the area encompassed by Character Precincts.
Grace Ridley-Smith	390.7	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the Character Precincts should be bigger in spatial area in order to protect the specific character and heritage of Wellington.	Amend the extent of the area encompassed by the Character Precincts to be increased.
Grace Ridley-Smith	390.8	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the Character Precincts in Mount Victoria should be joined together in a larger block as proposed by the Council Officers' recommendations June 2021.	Seeks that the Character Precincts in Mount Victoria are joined together in a larger block as proposed by the Council Officers' recommendations June 2021.
Kāinga Ora Homes and Communities	391.315	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose in part	Considers that the introduction of Character Precincts including, Mt Victoria North Townscape Precinct and Oriental Bay Height Precinct, within the Medium Density Residential Zone should be reviewed in full, including their spatial extent. The S32 analysis has not sufficiently addressed the matters in s77L of the RMA and therefore may not meet threshold to be applied as qualifying matter as currently proposed.	Seeks that Character Precincts and their extent are reviewed to assess whether they meet Qualifying Matter thresholds from s77L of the RMA.
Ann Mallinson	FS3.2	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	The review or elimination of MRZ-PREC-03 and policies and rules and standards relating to the Oriental Bay Height Precinct are opposed. The Oriental Bay Height Precinct responded to the judgment in the submitter's successful legal case D Rendel, A Mallinson & others v Wellington City Council Decision No. W73/98 and provides protection for significant amenity value, landscape, townscape and character in Oriental Bay. Refer to original submission 81 (points 81.3 and 81.4).	Disallow
Jackie Pope	FS8.2	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	The Oriental Bay Height Precinct is extremely important to maintain important townscape and landscape values, and protects public views of Mt Victoria/Matairangi and St Gerards heritage site, and also supports the unique character of Oriental Bay.	Disallow
Denis Foot	FS10.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	The matters of the heights density and planning issues in Oriental Bay were the subject of a very expensive three week hearing at the Environment Court. The case was called Foot v WCC. In that case there were many lawyers, planners, urban designers, architects and residents that gave their views. Judge Kenderdine gave a very carefully considered judgement covering the various areas in Oriental Bay. The decision takes into account the diverse landforms which includes several valleys. There are still many areas in the Oriental Bay area where it is possible to build multi-storey apartments. [Inferred reference to submission point 391.315]	Disallow
Oriental Bay Residents Association	FS13.2	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay.	Disallow
Ruapapa Limited	FS18.4	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay. The principles set out in the Environment Court decision in Foot v WCC should remain in place.	Disallow
Scott Galloway and Carolyn McLean	FS19.2	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay.	Disallow

Roland Sapsford	FS117.17	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Character precincts do not have to be reviewed to see whether they meet Qualifying Matter thresholds from S77L of the RMA. The NPSUD makes provision for “any other matters” determined by the Council to be a qualifying matter. Character Precincts are important to protect the character and heritage of Wellington City.	Disallow
Kāinga Ora Homes and Communities	391.316	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that a full review of Character Precincts is needed and if it is found that there is a need to continue to manage such values, then the PDP should introduce a Character chapter that will apply as an overlay as a Districtwide matter. [Refer to Appendix 3 for proposed Character Area Overlay]	Seeks that Character Precincts not be referenced in the plan and be instead focused into a Character Areas Overlay Chapter in the ‘District-wide – General matters’ section of the Plan. [Refer to original submission for full details]. [Refer to Appendix 3 for proposed Character Area Overlay].
Pukepuke Pari Residents Incorporated	FS37.9	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Opposes walkable catchment extension - limit of 10 mins on the walkable catchment is appropriate for Wellington and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. People’s propensity to walk diminishes with distance. Particularly relevant if the catchment was increased to 15 minutes and the last 5 minutes was up a steep hill. Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay). Oppose review of the O’ Bay Height precinct- The Oriental Bay Height Precinct provides protection for significant public amenity value, for all those who use the beach and Parade, representing a large part of the Wellington population. This Height Precinct was decided after careful review by the Environment Court in 1989 and all the considerations that were carefully laid out there are relevant here.	Disallow
Gareth and Joanne Morgan	FS38.19	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Opposes those parts of Kāinga Ora’s submission that seek to extend the walkable catchment above 10 minutes.	Disallow
Gareth and Joanne Morgan	FS38.26	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Oppose those parts of Kāinga Ora’s submission that seeks to amend, or remove the Character Precincts in Oriental Bay.	Disallow
Thorndon Residents' Association Inc	FS69.15	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	The WCC summary reads: The Introduction to the MRZ is generally supported, in particular the provision of medium density housing to give effect to the NPS-UD and the Act. But amendments are sought relating to the introduction of Character Precincts and different provisions related to the construction of 4 or more residential units. Instead, it is sought that a Character Overlay is introduced into District-wide matters. Special character precincts enable rigorous, targeted, sustainable urban planning regulation, and a role for community engagement in future changes. TRA specifically oppose 391.318 which seeks to delete Objective UFD-08 and rejects its recognition of “special character” at the strategic level of the Plan. The TRA supports Character precincts because they comply with the NPS-UD, and are an important qualifying matter under the RMA.	Disallow
Don MacKay	FS94.9	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Considers that walkable catchment extension opposed -see above in relation to Property Council. Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay). Oppose review of the O’ Bay Height precinct- see our reasons re Waka Kotahi.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.317	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that Character Precincts be removed in areas with Heritage classification.
Kāinga Ora Homes and Communities	391.318	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	It is considered that MRZ-PREC01 (Character Precincts) does not fulfil the matters of national importance as set out under section 6(f) and the requirements under section 77L and 77R of the RMA, and therefore do not meet the threshold to be applied as a qualifying matter to restrict height and density. Instead, it is sought that a Character Overlay is introduced into Districtwide matters.	Delete MRZ-PREC-01 (Character Precincts) in its entirety.
Jaqui Tutt	FS35.7	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Removal of character precincts is opposed. The NPSUD makes provision for "any other matters" determined by the Council to be a qualifying matter. Character Precincts are important to protect the character and heritage of Wellington. A character overlay will not achieve the same outcome.	Disallow
Mt Victoria Historical Society Inc	FS39.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	The character of Character Precincts derives from their historic/heritage qualities and therefore do meet the requirements for a qualifying matter.	Disallow
Phil Kelliher	FS57.5	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Removal of Character precincts is strongly opposed. Reason: The NPSUD makes provision for "any other matters" determined by the Council to be a qualifying matter. Character Precincts are vital to protect the character & heritage of Wellington, NZ's capital city. Considers that the Boffa Miskell assessment of the Inner-city suburbs character areas covering circa 74% of pre-1930 properties defined as either Primary or Contributory should be considered as a Qualifying Matter and be designated Character Precincts in the District Plan. Further reasons for opposing: 1) EXCESS HOUSING CAPACITY OVER THE NEXT 30Y 2) TOTALLY INADEQUATE INFRASTRUCTURE 3) STRONG COMMUNITY SUPPORT FOR CHARACTER & HERITAGE including renters 4) HOUSING MARKET CONDITIONS HAVE CHANGED DRASTICALLY ie housing deficit fully eroded, house price crash, declining population. 5) BETTER ALTERNATIVES to concentrate high density development rather than the scattergun approach through inner-city suburbs.	Disallow / Seeks the following decision: "Increase the size of the inner-city suburb's Character Precincts in the District Plan to the circa 74% of the pre-1930's properties defined as either Primary or Contributory" as recommended by Boffa Miskell who were commissioned by the WCC to conduct a Pre-1930 Character Area Review (2019).
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.1	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Submitter opposes submission by Kāinga Ora Homes and Communities which seeks to delete objective UFD-08 and rejects recognition of 'special character' at the strategic level of the plan. The submitter supports character precincts because they comply with the National Policy Statement on Urban Development and are an important Qualifying matter under the Resource Management Act 1991.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Murray Pillar	393.15	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that new Character Precinct areas should be established in areas missed out altogether in the PDP, such as Wesley Road.	Add a new Character Precinct area for Wesley Road in MRZ-PREC01 (Character Precincts).
Thorndon Residents' Association Inc	FS69.82	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Boffa Miskell - adoption Boffa Miskell – support definitions and include all Add Character Precincts to areas missed 10min walkable catchment Character precincts and rules Character precincts for all sites identified by Boffa M. Establish Character Precincts where they were missed resource consents for demolishing pre-1930s dwellings	Allow
Murray Pillar	393.16	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that new Character Precinct areas should be established in areas missed out altogether in the PDP, such as Bolton Street.	Add a new Character Precinct area for Bolton Street in MRZ-PREC01 (Character Precincts).
Murray Pillar	393.17	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that new Character Precinct areas should be established in areas missed out altogether in the PDP, such as Aurora Terrace.	Add a new Character Precinct area for Aurora Terrace in MRZ-PREC01 (Character Precincts).
Murray Pillar	393.18	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that new Character Precinct areas should be established in areas missed out altogether in the PDP, such as Talavera Terrace in Lower Kelburn.	Add a new Character Precinct area for Talavera Terrace in Lower Kelburn in MRZ-PREC01 (Character Precincts).
Lucy Harper and Roger Pemberton	401.46	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the Earls Terrace and Port Street/Stafford Street area has qualities, including visibility which should qualify it as a character area. The submitter considers that Earls Terrace and Port Street/Stafford Street area has a particularly charming ambience and modification to the houses has generally been in keeping with the Mt Victoria architecture.	Seeks that Earls Terrace, Port Street and Stafford Street are included in the PDP as a character area.
Wellington Heritage Professionals	412.71	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Considers that there is a lack of evidence to support the character content of the PDP.	Not specified
Wellington Heritage Professionals	412.72	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Considers that the lifting of demolition controls in existing character areas, will unnecessarily sacrifice heritage, character and liveability, while not achieving the desired affordable housing outcomes. [See original submission for full reasons]	Not specified.
Wellington Heritage Professionals	412.73	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the character precincts should be as mapped in the existing district plan because of the lack of evidence upon which the reduction in scale is based including the flawed analysis by Boffa Miskell and the information in the HBA. [See original submission for further detail including appendices]	Seeks that the character precincts be extended to that in the operative district plan.
The Urban Activation Lab of Red Design Architects	420.12	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the current height control areas in the Newtown Character Precincts are too high to achieve good urban design and to create a well-functioning livable environment.	Seeks that the 11m Height Control Area in Newtown Character Precincts is decreased. [Inferred decision requested].
Historic Places Wellington Inc	FS111.59	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	HPW supports the implementation of a sensible plan for revitalisation in Newtown heritage shopping area including provision of additional housing at scale, while also protecting the heritage shop frontages. Considers that this plan retains heritage features (important for stepping back taller buildings from the narrow street to retain street level public amenity) but allows for desirable intensification.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Paul Gregory Rutherford	424.16	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Wellington's liveability, and its character and heritage, can be protected at the same time as new housing is added. Not every old building needs to be retained, but neither are people's sense of connection and place disposable commodities. Rather than wholesale deregulation and the widespread removal of protections, heritage and character can be considered as part of community dialogue, while new construction focuses first on under-utilised land.	Seeks that the Proposed District Plan is amended to recognise that character is in part derived from heritage (as set out in the Operative Plan) in pre-1930s character areas (as defined in the Operative Plan), and use a comprehensive, holistic definition of character as a qualifying matter under the National Policy Statement Urban Development.
Paul Gregory Rutherford	424.17	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Wellington's liveability, and its character and heritage, can be protected at the same time as new housing is added. Not every old building needs to be retained, but neither are people's sense of connection and place disposable commodities. Rather than wholesale deregulation and the widespread removal of protections, heritage and character can be considered as part of community dialogue, while new construction focuses first on under-utilised land.	Seeks that demolition controls generally in the pre-1930s character areas (as defined in the Operative Plan) while identifying areas of particular character within these (for example as recommended in the revised Draft Spatial Plan) to enable a more granular level of control over demolition.
Kat Hall	430.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	The extent of Character Precincts should be amended to include areas identified in the 'Officer's Recommended Plan'. [Refer to original submission for full reason]	Seeks that Character Precincts be extended to encompass the extent recommended in the 'Officer's Recommended Plan' - ie approximately 50% increase in character precincts.
Kat Hall	430.6	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	The extent of Character Precincts should be amended to include areas identified by the Boffa Miskell Pre- 1930 Character Area Review. [Refer to original submission for full reason]	Seeks that Character Precincts be extended to encompass Boffa Miskell's recommendations in the Pre-1930 Character Area Review.
Kat Hall	430.7	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	The extent of Character Precincts should be amended to include areas identified by Heritage New Zealand in their submission on the the Spatial Plan in 2021. [Refer to original submission for full reason]	Seeks that Character Precincts be extended to encompass Heritage New Zealand's recommendations in the Spatial Plan 2021.
Kat Hall	430.8	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Character Precincts should be extended in Newtown to match the recommendations from the Boffa Miskell report (p. 18-21) which identifies 83% of properties predating 1930 that are primary character contributory and include similar architectural style, lot size, and building type. These properties within the character area are located within two relatively discrete areas. [Refer to original submission for full reason]	Seeks that Character Precinct in Newtown in extended to encompass Boffa Miskell's recommendations.
Kat Hall	430.9	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that intensification needs to deliver additional housing while retaining character and cohesion in a suburb such as Newtown. This could be achieved by developing along commercial spines (refer to Hanley and Kemble Welch's 'Red Desing' concept plans). Intensification along the main streets, and mostly within existing Suburban Centres zoning, could provide up to 2,000 or more new dwellings, which exceeds the current projections of the Draft Spatial Plan for the Newtown area.	Seeks that intensification and development be focused along main streets in Local and Neighbourhood Centre Zones.
Peter Fordyce	431.8	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the Heritage chapter should have a provision to protect original windows with stained and decorative glass on buildings within the character precincts, and heritage structures. As the chapter stands, provisions have little protection for the windows of heritage buildings, particularly stained and decorative glass, and there is a significant risk that this will be lost with the push for double glazing. Where possible, original window frames should be retained, and new or modified windows must contain the original decorative glass.	Add a new rule in the MRZ-PREC01 (Character Precincts) providing protection of original windows and stained and decorative window glass on buildings within the character precincts. [Inferred decision requested - note: relief sought refers to heritage structures and character precincts]
Peter Fordyce	431.9	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that there should be wider coverage for the rules preventing demolition of pre-1930s dwellings in areas with that protection.	Seeks that the character precincts are extended.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Garvin Wong	432.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	<p>Character Precincts in Thorndon are opposed. Some old properties under character protection in Thorndon are over 100 years old. Renovating these properties will be more expensive than building new ones, as most of them:</p> <ul style="list-style-type: none"> - have rotten weatherboards and borer holes in their structure frames, - have been left "as is", - are cold and damp in winter and costly to warm up, - were built very close to each other and get very little sunlight, - have sunken foundations. <p>It is expected that the life span of a newly built property is 50 years and houses built 100 years ago should not be expected to last longer.</p>	Opposes Character Precincts in Thorndon.
Thorndon Residents' Association Inc	FS69.39	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	<p>WCC Summary reads: Considers that Character Precincts should not be a qualifying matter. Seeks that the extent of Character Precincts be amended to remove properties in Thorndon.</p>	Disallow
Wellington's Character Charitable Trust	FS82.57	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	<p>Considers Thorndon character precincts protect significant heritage and character values.</p>	Disallow
Garvin Wong	432.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	<p>Character Precincts in Thorndon are opposed. Some old properties under character protection in Thorndon are over 100 years old. Renovating these properties will be more expensive than building new ones, as most of them:</p> <ul style="list-style-type: none"> - have rotten weatherboards and borer holes in their structure frames, - have been left "as is", - are cold and damp in winter and costly to warm up, - were built very close to each other and get very little sunlight, - have sunken foundations. <p>It is expected that the life span of a newly built property is 50 years and houses built 100 years ago should not be expected to last longer.</p>	Seeks that the extent of Character Precincts be amended to remove properties in Thorndon.
Thorndon Residents' Association Inc	FS69.40	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	<p>WCC Summary reads: Considers that Character Precincts should not be a qualifying matter. Seeks that the extent of Character Precincts be amended to remove properties in Thorndon.</p>	Disallow
Wellington's Character Charitable Trust	FS82.58	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	<p>Considers Thorndon character precincts protect significant heritage and character values.</p>	Disallow
Miriam Moore	433.12	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	<p>Oppose the extent of the character protected areas. The inaccessibility of the City's character housing stock forces out older populations, if our ageing population can age in place in their home suburbs like Mount Victoria, this will free up more affordable land in the fringe suburbs</p>	Seeks to reduce the extent of the character precincts.
Anna Kemble Welch	434.9	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	<p>Considers that the Character Precincts should be increased through the application of character as a qualifying matter.</p>	Seeks that the extent of the character precincts is increased.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Anna Kemble Welch	434.10	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Character Precincts in Newtown should be increased to reflect Boffa Miskell's recommendations in their Pre-1930 Character Area Review. The Newtown Character Precinct should include all the houses in Emmett Street and Green Street, Normanby St east of the suburban centre, Donald Mclean St north side, east of the suburban centre, all of Harper Street and Regent St, Daniell St to number 138 on the west side and 171 on the east, Lawrence St , Wingate Tce, Balmoral Tce, and Owen St from 1 to 173 on the east and 66 to 192 on the west. A WCC character area story map is provided to support this point. [Refer to original submission for full reasons, including attachment]	Amend the extent of MRZ-PREC01 (Character Precincts) to include the area in Newtown recommended by Boffa Miskell's Pre-1930 Character Area Review.
Kirsty Woods	437.6	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Supports the current character areas identified, but considers that the character precinct should be extended to Newtown.	Seeks an amendment to MRZ-PREC01 (Character precincts) that the extent of the character precinct in Newtown is increased.
Newtown Residents' Association	440.17	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support in part	Character Precincts are fully supported, but could be extended. Character as a Qualifying Matter is supported, as it permits the modification of building heights and other matters that would be required under the NPS-UD 2020 or the MDRS. [Refer to original submission for full reason]	Retain MRZ-PREC01 (Character Precincts) as notified.
Newtown Residents' Association	440.18	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Boffa Miskell's Pre-1930 Character Area Review identified 5 sub-areas on the eastern side of Newtown and another 3 on the west side as having particularly noticeable coherence of character, which should be included in MRZ-PREC01. (Option A)	Seeks that Character Precincts in Newtown be extended to encompass Boffa Miskell's recommendations in the Pre-1930 Character Area Review (Primary & contributing).
Newtown Residents' Association	440.19	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Character Precincts should include all areas of Newtown and Berhampore described in the Boffa Miskell report as having a noticeable degree of cohesion. (Option B)	Seeks that Character Precincts be extended to encompass areas of Newtown and Berhampore described as having a noticeable degree of cohesion in the Pre-1930 Character Area Review from Boffa Miskell, with the addition of Green St, Emmett St, Wilson St, 74 Daniell St to 171 Daniell St, and Regent St.
Newtown Residents' Association	440.20	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that Character Precincts should be extended to match the areas recommended by the Council Officers in the pre-approved Spatial Plan, June 2021. (Option C) [Refer to original submission for full reason]	Seeks that Character Precincts be extended to encompass Council Officers' recommendations in the pre-approved 2021 Spatial Plan.
Kathryn Lethbridge	442.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that WCC should be including character / heritage recognition for the Hobson Precinct (between Murphy Street and Hobson Street/Davis Street and the motorway). The zone is a jewel in the Wellington character / heritage crown and appropriate houses in the area should be protected to prevent unnecessary loss to this key cultural asset for the city.	Seeks that Hobson Street (between Murphy Street and Hobson Street/Davis Street and the motorway) is included within a character precinct.
Thorndon Residents' Association Inc	FS69.71	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	WCC summary reads: The zone is a jewel in the Wellington character / heritage crown and appropriate houses in the area should be protected to prevent unnecessary loss to this key cultural asset for the city. Considers that MRZ for the Hobson Precinct meets the Government requirements for development and is more appropriate given the existing nature of the area and potential for inappropriate development.	Allow
Dale Mary McTavish	448.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the Newtown housing stock is mostly around 100 years which says a lot about the quality and resilience. Newtown is already high density on a human scale and is well-placed for sun and green spaces. People enjoy living here and there is the pleasure of 19th century views. Every single house has a story. The most recent infill housing is a blot on the landscape. [Refer to original submission for full reasons].	Seeks that the Character Precinct areas in Newtown are extended to include the Council Officers Recommended Plan areas. [Inferred decision requested].

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
David Lee	454.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Opposes the removal of the pre-30s demolition consent from Mt Victoria.	Seeks to add Operative District Plan rule relating to Pre-1930s demolition. [Inferred decision requested]
David Lee	454.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Not specified	Considers that 'Character' areas should all be renamed heritage areas because character is a subjective term, unlike 'heritage' which has a legal force in the RMA.	Seeks that 'Character' areas should all be renamed heritage areas.
Mt Victoria Historical Society Inc	FS39.8	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Agree that 'Character' areas should be renamed heritage areas because character is a subjective term, unlike 'heritage' which has a legal force in the RMA. The character only derives from the heritage.	Allow
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.17	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Suports submission seeking all character areas should be relabelled to Heritage Areas.	Allow
Wellington's Character Charitable Trust	FS82.159	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	[No specific reason given beyond decision requested - refer to further submission]	Allow
Historic Places Wellington Inc	FS111.1	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Renaming Character Precincts as heritage recognises that all character precincts fundamentally protect heritage from inappropriate subdivision or development in accordance with s.6 RMA, and as such is a qualifying matter under s.77L RMA exempting those areas and sites from mandatory intensification, and from demolition without specific analysis of the heritage values at risk of being lost.	Allow
Historic Places Wellington Inc	FS111.44	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	HPW supports the addition of heritage areas in Mt Victoria, comprising notified areas of Elizabeth St and Porritt Ave and further new heritage areas in Claremont Grove; addresses in Ellice St; and the addition of 1-6 & 8 Tutchen Ave to the adjacent proposed new Porritt Ave Heritage Area as notified.	Allow
David Lee	454.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Not specified	Considers Mt Victoria's Victorian/Edwardian houses, constructed of irreplaceable native timber, contribute immensely to Wellington's character and that this has been recognised internationally.	Not specified.
Rachel Underwood	458.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers the plan should give more protection for older, heritage, wooden buildings because upgrading existing houses is more sustainable than demolition and replacing with concrete structures. Considers that it is unacceptable that planning should allow high-rise buildings that deprive older houses of sunlight and air flow and intensify dampness in living conditions.	Seeks to alter the Character Precincts to reflect the recommendations of the Character Area Review, Boffa Miskell Report 2019.
Rachel Underwood	458.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers further character protection is needed. [Refer to original submission for full reason]	Seeks that new areas of character precinct be established in areas missed out altogether, such as Wesley Rd, Bolton St and Aurora Terrace; and Talavera Terrace in lower Kelburn.
Anita Gude and Simon Terry	461.18	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support in part	Supports the creation of Character Precincts.	Retain the MRZ-PREC01 (Character Precincts), with amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Anita Gude and Simon Terry	461.19	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the area encompassed by the Character Precincts is expanded to include all inner city suburbs not covered by the Priority Development Areas.
Anita Gude and Simon Terry	461.20	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Requests that 11 Vogel Street is included in the Mount Victoria Character Precinct. Notes that the Boffa Miskell character report classified the property as having contributory character but was ultimately excluded from the overlay. Notes that 11 Vogel Street is the only property south of Hawker Street that within the Townscape Precinct but not within the Character Precinct. While the Townscape Precinct offers certain protections, the Character Precinct would be better suited to protecting the character values of the property. [see original submission for further details and maps]	Include 11 Vogel Street in the Mount Victoria Character Precinct.
Anita Gude and Simon Terry	461.21	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Notes that there are a cluster of a dozen properties on McFarlane Street that are not included in the Mount Victoria Character Precinct that should be included [see original submission for maps and images identifying these properties]. Notes that any redevelopment of these sites may make the area less conforming to the general pattern of development and that the hillside location makes these properties visible from the City. Notes that the whole hillside face where these properties are located needs to be treated as one cohesive block under one set of consistent rules, and valued as a whole.	Include a cluster of up to a dozen properties on McFarlane Street in the Mount Victoria Character Precinct. [see original submission for maps and images identifying these properties].
Christina Mackay	478.10	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers the proposed district plan does not promote enough character houses.	Seeks that the extent of the character precincts be amended consistent with: 1. Boffa Miskell report of February 2019; 2. Heritage New Zealand Pouhere Taonga (HNZPT) submission on the draft spatial plan; and 3. WCC officers recommended final spatial plan of 24 June 2021.
Christina Mackay	478.11	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support in part	Supports the overall concept of Character Precincts and rules, including new in-fill housing, but rules appear too loose. I recommend the guidance and direction of a Urban Design panel.	Supports in parts provisions for Character precincts, but seeks amendments.
Christina Mackay	478.12	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Supports the overall concept of Character Precincts and rules, including new in-fill housing, but rules appear too loose. I recommend the guidance and direction of a Urban Design panel.	Amend the Character Precinct rules to be more stringent with advice from an urban design panel.
Catharine Underwood	481.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the plan should be amended to protect more Victorian and Edwardian wooden dwellings. Reducing the protection of character areas (particularly Mt Vic) by 71% through the pre 1930s demolition rule will irreversibly and adversely affect the liveability (attractiveness/sunlight, shading/bulk) of the inner city suburbs. It will change the sense of place of these suburbs and lead to the loss of valuable historic heritage that is part of Wellington's story.	Seeks that MRZ-PREC01 (Character Precincts) be extended to more areas in Thorndon, Mount Victoria, Mount Cook, Aro Valley and within the central city.
Catharine Underwood	481.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that the balance between upzoning areas for increased density and retaining character has not been appropriately agreed between the council and the residents and needs to be changed. For the character of Wellington to be maintained it takes more than 1 or two houses to be retained. Considers large buildings will be interspersed with smaller ones.	Seeks that the balance between upzoning areas for increased density and retaining character be more appropriately agreed on.
Catharine Underwood	481.6	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers the decision of councillors to not increase the size of character areas from the draft spatial plan was incorrect.	Seeks that officers recommendations for character precincts in the recomended spatial plan be adopted
Living Streets Aotearoa	482.54	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support in part	Supports in principle the provision of Character Precincts. It is important that our city continues to have areas that have their own distinct character. It is also important to retain, where possible, the context for some of our historic buildings (e.g. Katherine Mansfield House).	Retain MRZ-PREC01 (Character Precincts) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Thorndon Residents' Association Inc	F569.99	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	Provision of medium density housing zones Provision of Character Precincts. Tall buildings create wind and shade problems	Allow
Jonathan Markwick	490.16	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	Considers that restrictive rules protecting Character Precincts should not be a priority and is morally wrong when we are experiencing a massive shortage of housing and a housing crisis.	Seeks that the coverage of the Mount Victoria Character Precincts are reduced to match the boundaries of the SCHED3 - Heritage Areas.
John McSoriley and Pierre David	493.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	The area is difficult and steep terrain which would impeded large scale development. The residential character of one or two-storey housing is a complete contrast with the intense urban development on the other side of the motorway. Limited vehicle traffic contrasts with the developed urban area of the central city and a significant number of pedestrians / cyclists pass through the area. The area has a high degree of green space and provides a sympathetic, appropriate interface with, and approach to, the Botanic Gardens, Norwood Rose Garden, Anderson Park, and the Bolton St Cemetery. Many residences have associations with important people and many of these are in original historic condition. Limited sun hours are available. The area in its present state is an intrinsic element in the character and look of the city itself. [Refer to original submission for full reasons].	Add a Character Precinct that encompasses the Lower Kelburn area (Easedale St; Kinross St; Bolton St; Wesley Rd; Aurora Terrace; Clifton Terrace; San Sebastian Rd; Everton Terrace; Onslow Terrace, Talavera Terrace; Clermont Terrace; Salmont Place; Salamanca Road (as far as Kelburn Park), Gladstone Terrace and Rawhiti Terrace near the cable car).
John McSoriley and Pierre David	493.6	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	The residential character of one or two-storey housing is a complete contrast with the intense urban development on the other side of the motorway. Limited vehicle traffic contrasts with the developed urban area of the central city and a significant number of pedestrians/cyclists pass through the area. The area has a high degree of green space and provides a sympathetic, appropriate interface with, and approach to, the Botanic Gardens, Norwood Rose Garden, Anderson Park, and the Bolton St Cemetery. Many residences have associations with important people and many of these are in original historic condition. Limited sun hours are available. The area in its present state is an intrinsic element in the character and look of the city itself. [Refer to original submission for full reasons].	Add a Character Precinct that encompasses the area of west of Kinross Street and Clifton Terrace, broadly bounded by San Sebastian Road, Wesley Road and Bolton Street.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
John McSoriley and Pierre David	493.7	Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Amend	<p>The residential character of one or two-storey housing is a complete contrast with the intense urban development on the other side of the motorway. Limited vehicle traffic contrasts with the developed urban area of the central city and a significant number of pedestrians/cyclists pass through the area.</p> <p>The area has a high degree of green space and provides a sympathetic, appropriate interface with, and approach to, the Botanic Gardens, Norwood Rose Garden, Anderson Park, and the Bolton St Cemetery.</p> <p>Many residences have associations with important people and many of these are in original historic condition.</p> <p>Limited sun hours are available.</p> <p>The area in its present state is an intrinsic element in the character and look of the city itself.</p> <p>[Refer to original submission for full reasons].</p>	Add a Character Precinct that encompasses the area broadly centred around Clifton Terrace and Talavera Terrace.
Robert and Chris Gray	46.14	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Oppose	<p>Considers that the current provision for Council to notify neighbours regarding demolition, new builds, and major alterations was a strong control over keeping Wellington's Character.</p> <p>In the case of Mount Victoria, downgrading the current controls will lead to the development of small disconnected blocks where its character will progressively be destroyed by high density and "affordable" cheaply built housing.</p>	Seeks that the current (operative District Plan) provisions relating to notifying neighbours with respect to demolition, new builds and major alterations remain.
Robert and Chris Gray	46.15	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Not specified	Considers that giving developers a fairly open book with regard to the Character of Mount Victoria will encourage them to utilise simple design and cheaper materials.	Not specified.
Owen Watson	51.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain MRZ-PREC02 as notified.
Judith Graykowski	80.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Support	Supports the Mount Victoria North Townscape Precinct.	Retain the Mount Victoria North Precinct as notified.
Kirsty Wood	109.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Amend	Considers that in the MRZ-PREC02, where a site is also in MRZ-PREC01, the stronger provisions of the MRZ-PREC01 should govern decisions and not the more lenient MRZ-PREC02 provision.	Clarify that the MRZ-PREC01 (Character precincts) provisions override the MRZ-PREC02 (Mt Victoria North Townscape Precinct) provisions, where a site is within both precincts.
Alan Olliver & Julie Middleton	111.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Amend	Considers that in the MRZ-PREC02, where a site is also in MRZ-PREC01, the stronger provisions of the MRZ-PREC01 should govern decisions and not the more lenient MRZ-PREC02 provision.	Clarify that the MRZ-PREC01 (Character Precincts) provisions override the MRZ-PREC02 (Mt Victoria North Townscape Precinct) provisions, where a site is within both precincts.
Gael Webster	114.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Support	Supports the Mt Victoria North Townscape Precinct (MRZ-PREC02) to protect the iconic view Mount Victoria.	Retain MRZ-PREC02 (Mt Victoria North Townscape Precinct) as notified.
Gael Webster	114.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Not specified	Considers that where the Character Precinct is overlaid on the Mt Victoria North Townscape Precinct, the stronger provisions of Character Precincts govern decisions, not the more permissive Mt Victoria North Townscape provisions.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Vivienne Morrell	155.10	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Support	Supports the Mount Victoria North Townscape Precinct.	Retain the Mount Victoria North Precinct as notified.
Jonathan and Tricia Briscoe	190.14	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Support	Supports the Mt Victoria North Townscape Precinct to protect the iconic view Mount Victoria.	Retain MRZ-PREC02 (Mt Victoria North Townscape Precinct) as notified.
Jonathan and Tricia Briscoe	190.15	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Not specified	[No specific reason given beyond decision requested - refer to original submission.]	Clarify MRZ-PREC02 (Mt Victoria North Townscape Precinct) so that where the Character Precinct is overlaid on the Mt Victoria North Townscape Precinct, the stronger provisions of Character Precincts govern decisions, not the more permissive Mt Victoria North Townscape provisions.
Glen Scanlon	212.5	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Amend	No reasons beyond decision requested. [Refer to original submission for full reason]	Seeks that Mount Victoria North Townscape Precinct is extended to encompass Earls Terrace, Port Street and Stafford Street.
Penelope Borland	317.16	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Amend	PREC02 should be amended to include all houses on Earls Terrace. (Option B)	Amend the extent of MRZ-PREC02 (Mt Victoria North Townscape Precinct) to include all houses on Earls Terrace.
Penelope Borland	317.17	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Amend	PREC02 should be amended to include all houses on Stafford Street. (Option B)	Amend the extent of MRZ-PREC02 (Mt Victoria North Townscape Precinct) to include all houses on Stafford Street.
Penelope Borland	317.18	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Amend	PREC02 should be amended to include 1, 3,4 and 8 Port Street. (Option B)	Amend the extent of MRZ-PREC02 (Mt Victoria North Townscape Precinct) to include 1, 3,4 and 8 Port Street.
Penelope Borland	317.19	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Amend	PREC02 should be amended to include 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 26 and 30 Hawker Street. (Option B)	Amend the extent of MRZ-PREC02 (Mt Victoria North Townscape Precinct) to include 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 26 and 30 Hawker Street.
Kāinga Ora Homes and Communities	391.319	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Oppose	It is considered that MRZ-PREC02 (Mt Victoria North Townscape Precinct) does not fulfil the matters of national importance as set out under section 6(f) and the requirements under section 77L and 77R of the RMA, and therefore do not meet the threshold to be applied as a qualifying matter to restrict height and density. Instead, it is sought that a Character Overlay is introduced into District-wide matters.	Delete MRZ-PREC-02 (Mt Victoria North Townscape Precinct) in its entirety.
Wellington's Character Charitable Trust	FS82.100	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Oppose	Considers the Mt Victoria North Townscape Precinct has significant amenity value to Wellington City and ought to be retained.	Disallow
LIVE WELLington	FS96.20	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZPREC02	Oppose	The Mt Victoria North Townscape Precinct is in place to protect an iconic view associated with Wellington. This is of importance to Wellington and New Zealand and warrants protection under the RMA. Retaining this is protection is unlikely to impact on KO activities.	Disallow
Roland Sapsford	FS117.19	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Oppose	The Mt Victoria North Townscape Precinct is in place to protect an iconic view associated with Wellington. This is of importance to Wellington and New Zealand and warrants protection under the RMA. Retaining this is protection is unlikely to impact on KO activities.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Anita Gude and Simon Terry	461.22	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Amend	Considers that a height limit of 11m in the Townscape Precincts will lead to a loss of character as most dwellings within the precinct, specifically properties on the Mt Victoria northern slopes, are two storeys. Notes that the current Pre-1930s Design Guide mentions most dwellings are two storeys.	Amend the rules so that a height limit of 8m is applied to the Townscape Precinct. Provide the ability to apply for Resource Consent for structures that are appropriately sympathetic to the character of the area.
Anita Gude and Simon Terry	461.23	Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Amend	[No specific reason given beyond decision requested - refer to original submission].	Remove the height to boundary control exemption for multi-unit developments in the Townscape Precinct.
Gareth Morgan	18.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Support	Tall towers darken the landscape and the Oriental Bay Height Precinct will prevent this in Oriental Bay.	Retain MRZ-PREC03 (Oriental Bay Height Precinct) provisions as notified [inferred decision requested]
Joanne Morgan	19.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Support	There has been significant investment by successive generations of Oriental Bay residents to preserve and restore the character of the area. The regulation to establish a height limit over the Oriental Bay area has prevented the further construction of tall buildings. This has helped maintain the vista which is part of the experience of visiting Oriental Bay and its special character and heritage.	Seeks that the spirit of the regulated Oriental Bay Height Precinct is respected. Retain General MRZ-PREC03 (Oriental Bay Height Precinct) as notified [Inferred decision requested].
Ann Mallinson	81.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Support	Considers that the height limits within the MRZ-PREC03 are appropriate, given these heights were set by decisions of the Environmental Court.	Retain MRZ-PREC03 (Oriental Bay Height Precinct) as notified.
Oriental Bay Residents Association Inc	128.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Support	Supports MRZ-PREC03 in its entirety. The height controls are long standing and reflect detailed cost/benefit and legal investigation.	Retain MRZ-PREC03 (Oriental Bay Height Precinct) as notified.
Oriental Bay Residents Association Inc	128.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Support	Supports the proposed height restrictions of 11m in MRZ-PREC03 (or lower heights) because of qualifying matters that apply to Oriental Bay residential side streets including Hay Street and Baring Street. There are many qualifying matters relating to the steep cliff side streets which render higher levels of development inappropriate. Those matters include safety to pedestrians on unformed paths, restricted access for emergency vehicles and a long history of slips and instability of the coastal cliffs. Furthermore, the area has a special character and historic values, and comprises an iconic landscape of very high public significance.	Retain MRZ-PREC03 (Oriental Bay Height Precinct) as notified.
Jennifer Mary Gyles	147.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Support	Supports MRZ-PREC03 in its entirety. The height controls are long standing and reflect detailed cost/benefit and legal investigation.	Retain MRZ-PREC03 (Oriental Bay Height Precinct) as notified.
Jennifer Mary Gyles	147.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Support	Supports the proposed height restrictions of 11m in MRZ-PREC03 (or lower heights) because of qualifying matters that apply to Oriental Bay residential side streets including Hay Street and Baring Street. There are many qualifying matters relating to the steep cliff side streets which render higher levels of development inappropriate. Those matters include safety to pedestrians on unformed paths, restricted access for emergency vehicles and a long history of slips and instability of the coastal cliffs. Furthermore, the area has a special character and historic values, and comprises an iconic landscape of very high public significance.	Retain MRZ-PREC03 (Oriental Bay Height Precinct) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Escape Investments Limited	FS136.83	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	Oppose point 147.3 for a height control area of 11m for residential side streets off Oriental Parade. Residential side streets are not a Qualifying Matter. Qualifying Matters are set out & listed in s771 (a through j) of Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021. Wellington has determined what Qualifying Matters apply to the City in in the Proposed District Plan. Steep cliff side streets, pedestrians & vehicle access, & land stability are matters to be addressed in Assessment of Environmental Effects, as required by s88 RMA report. MRZ-PREC03 (Oriental Bay Height Precinct) is an appropriate precinct for recognising the aspects that have been tested before the courts. Any expansion to this precinct fails to give effect to Policy 3 of the NPS-UD.	Disallow
Tore Hayward	170.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Support	Supports the proposed maintenance of the existing Oriental Bay Height Area (MRZ-PREC03) along Oriental Parade. Considers that increasing the height limits above this would detract significantly from the public amenity for those who visit Oriental Parade and use Oriental Bay beach. [Refer to original submission for full reasons].	Retain MRZ-PREC03 (Oriental Bay Height Precinct) as notified.
Scott Galloway & Carolyn McLean	171.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Support	Supports MRZ-PREC03 in its entirety. The height controls are long standing and reflect detailed cost/benefit and legal investigation.	Retain MRZ-PREC03 (Oriental Bay Height Precinct) as notified.
Pukepuke Pari Residents Incorporated	237.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Support	Supports MRZ-PREC03 - Oriental Bay Height Precinct and its long standing site by site height limits for Oriental Bay Parade sites.	Retain MRZ-PREC03 (Oriental Bay) as notified.
Paul Ridley-Smith	245.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Support	Supports MRZ-PREC03 - Oriental Bay Height Precinct and its long standing site by site height limits for Oriental Bay Parade sites and reflects detailed cost/benefit and legal investigation of local environmental effects.	Retain MRZ-PREC03 (Oriental Bay) as notified.
Kāinga Ora Homes and Communities	391.320	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	MRZ-PEC03 (Oriental Bay Height Precinct) is opposed and it is sought that the Council reviews the methods adopted to manage the identified townscape values in the proposed Oriental Bay Height Precinct. It is considered that an option would be to create and identify a viewshaft managing those significant public views to the monastery and the maunga (Mt Victoria).	Seeks that MRZ-PREC03 (Oriental Bay Height Precinct) is reviewed, so that the Council's adopted methods to manage the identified townscape values in the proposed Oriental Bay Height Precinct are reconsidered.
Ann Mallinson	FS3.3	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	The review or elimination of MRZ-PREC-03 and policies and rules and standards relating to the Oriental Bay Height Precinct are opposed. The Oriental Bay Height Precinct responded to the judgment in the submitter's successful legal case D Rendel, A Mallinson & others v Wellington City Council Decision No. W73/98 and provides protection for significant amenity value, landscape, townscape and character in Oriental Bay. Refer to original submission 81 (points 81.3 and 81.4).	Disallow
Jackie Pope	FS8.3	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	The Oriental Bay Height Precinct is extremely important to maintain important townscape and landscape values, and protects public views of Mt Victoria/Matairangi and St Gerards heritage site, and also supports the unique character of Oriental Bay.	Disallow
Denis Foot	FS10.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	The matters of the heights density and planning issues in Oriental Bay were the subject of a very expensive three week hearing at the Environment Court. The case was called Foot v WCC. In that case there were many lawyers, planners, urban designers, architects and residents that gave their views. Judge Kenderdine gave a very carefully considered judgement covering the various areas in Oriental Bay. The decision takes into account the diverse landforms which includes several valleys. There are still many areas in the Oriental Bay area where it is possible to build multi-storey apartments. [Inferred reference to submission point 391.320]	Disallow

Oriental Bay Residents Association	FS13.3	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay.	Disallow
Ruapapa Limited	FS18.5	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay. The principles set out in the Environment Court decision in Foot v WCC should remain in place.	Disallow
Scott Galloway and Carolyn McLean	FS19.3	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay.	Disallow
Pukepueke Pari Residents Incorporated	FS37.10	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	Opposes walkable catchment extension - limit of 10 mins on the walkable catchment is appropriate for Wellington and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. People's propensity to walk diminishes with distance. Particularly relevant if the catchment was increased to 15 minutes and the last 5 minutes was up a steep hill. Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay). Oppose review of the O' Bay Height precinct- The Oriental Bay Height Precinct provides protection for significant public amenity value, for all those who use the beach and Parade, representing a large part of the Wellington population. This Height Precinct was decided after careful review by the Environment Court in 1989 and all the considerations that were carefully laid out there are relevant here.	Disallow
Gareth and Joanne Morgan	FS38.4	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	Opposes elements of Kāinga Ora's submission that seek to amend, remove or rezone the Oriental Bay Height Precinct to High Density Residential Zone.	Disallow
Jenny Gyles	FS53.3	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	Considers that the Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay.	Disallow
Helen Foot	FS62.3	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	The Oriental Bay Height Precinct is extremely important to maintain important townscape and landscape values, and protects public views of Mt Victoria/Matairangi and St Gerards heritage site, and also supports the unique character of Oriental Bay. The Oriental Bay Height Precinct and in particular that part of it adjacent to Hay Street and Grass Street was the subject of a very careful review in the decision of the Environment Court in 1989 (Helen Foot and others v WCC Decision W79/98). There is nothing to be gained by seeking a review of this decision.	Disallow
Wellington's Character Charitable Trust	FS82.101	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	Considers the Oriental Bay Height Precinct provides protection for significant amenity value and character in Oriental Bay.	Disallow
Don MacKay	FS94.10	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	Considers that walkable catchment extension opposed -see above in relation to Property Council. Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay). Oppose review of the O' Bay Height precinct- see our reasons re Waka Kotahi.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.321	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	It is considered that MRZ-PREC02 (Oriental Bay Precinct) does not fulfil the matters of national importance as set out under section 6(f) and the requirements under section 77L and 77R of the RMA, and therefore do not meet the threshold to be applied as a qualifying matter to restrict height and density. Instead, it is sought that a Character Overlay is introduced into District-wide matters.	Delete MRZ-PREC-03 (Oriental Bay Height Precinct) in its entirety.
Ann Mallinson	FS3.4	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	The review or elimination of MRZ-PREC-03 and policies and rules and standards relating to the Oriental Bay Height Precinct are opposed. The Oriental Bay Height Precinct responded to the judgment in the submitter's successful legal case D Rendel, A Mallinson & others v Wellington City Council Decision No. W73/98 and provides protection for significant amenity value, landscape, townscape and character in Oriental Bay. Wellington's Character Charitable Trust	FS82.102	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	Considers the Oriental Bay Height Precinct provides protection for significant amenity value and character in Oriental Bay.	Disallow
LIVE WELLington	FS96.21	Part 3 / Residential I Zones / Medium Density Residential I Zone / General MRZPREC03	Oppose	A Character Overlay would not provide the necessary protection for the Oriental Bay precinct.	Disallow
Roland Sapsford	FS117.20	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Oppose	A Character Overlay would not provide the necessary protection for the Oriental Bay precinct.	Disallow
Richard Tweedie	392.2	Residential Zones / Medium Density Residential Zone / General MRZ-PREC03	Support	Supports the current height controls proposed in the Oriental Bay Precinct. Considers that the height controls are long standing and accepted. The height controls should be set no greater than 11m. The area is very steep, prone to slips, has poor and congested access, and limited safety for pedestrians at present. Furthermore it is a unique character area with historic values and has a very special view from Oriental Bay.	Retain the building height controls in MRZ-PREC03 (Oriental Bay Precinct) as notified.
Tim Bright	75.6	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that a setback of more than 1m should be required to allow for more of a transition zone between Heritage Areas or Character Precincts.	Seeks that a setback of more than 1m is required from boundaries in or adjoining Character Precincts in the Medium Density Residential Zone. [Inferred decision requested]
Scots College Incorporated	117.6	Residential Zones / Medium Density Residential Zone / New MRZ	Oppose	Opposes the removal of the Educational Precincts and that educational activities on established school campuses will not be able to occur without resource consent. Considers that the PDP fails to "roll over" more permissive ODP provisions for educational activities on the Scots College Campus. This will expose the College to risks and constraints. It is the College's experience that the requirement for the College to have to apply for resource consent for new educational buildings that comply with the building standards of the ODP has not added any value or benefit to either the College or to residential neighbours.	Seeks that a permitted activity rule is added for Educational Activities where the activity is within an identified school campus as follows: <u>MRZ-R11 Educational Activities</u> <u>Activity Status: Permitted</u> <u>Where: The activity is on a school campus identified on the Plan maps.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested

Anne Lian	132.10	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that where shading is qualifying matter, there is a new policy for providing pop-up public realm for development-shaded homes.	Seeks that there is a new policy providing for pop-up public realm for houses that are shaded by new development.
Olivier Reuland	134.12	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that where shading is qualifying matter, there is a new policy for providing pop-up public realm for development-shaded homes.	Seeks that there is a new policy providing for pop-up public realm for houses that are shaded by new development.
Grant Buchan	143.17	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that where shading is qualifying matter, there is a new policy for providing pop-up public realm for development-shaded homes.	Seeks that there is a new policy providing for pop-up public realm for houses that are shaded by new development.
Cameron Vannisselroy	157.9	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that where shading is qualifying matter, there is a new policy for providing pop-up public realm for development-shaded homes.	Seeks that there is a new policy providing for pop-up public realm for houses that are shaded by new development.
Stephen Minto	FS100.7	Residential Zones / Medium Density Residential Zone / New MRZ	Oppose	<p>Submtter 157 proposes the encouragement of ‘Pop-up public realm’ for dwellings shaded by developments. This is in effect telling people to go outside, to the beach or park if they want sun. Or a glass van will drive round and people can sit in it for 5 minutes before it drives away somewhere else. ‘Closing time drink up ya tea’. That just doesn’t match how people use their time, the independence of when you can relax. It’s simply costly and silly.</p> <p>It is not even a viable proposal in the summer heat when you may want sun to warm the house or dry the clothes but not be in it. But especially in winter when sun is so important for comfort but it is still very cold outside. This heavily impacts the elderly and puts them at higher risk from illnesses. Wellington is not called windy for nothing.</p> <p>These suggestions take no account of how vulnerable some people feel outside and increases the chances of predatory behaviour onto the vulnerable.</p> <p>Every dwelling should be an excellent one and this submission does nothing for that. In theory even new developments could be overshadowed and it’s just bad luck.</p> <p>[Inferred reference to submission point 157.9]</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Patrick Wilkes	173.18	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that where shading is qualifying matter, there is a new policy for providing pop-up public realm for development-shaded homes.	Seeks that there is a new policy providing for pop-up public realm for houses that are shaded by new development.
Pete Gent	179.13	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that where shading is qualifying matter, there is a new policy for providing pop-up public realm for development-shaded homes.	Seeks that there is a new policy providing for pop-up public realm for houses that are shaded by new development.
James Harris	180.8	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that MRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it. [Refer to original submission for full details].	Seeks that a new standard is added requiring that Medium Density Residential Zone developments should adequately accommodate active travel as the building users' first-best choice for accessing it.
James Harris	180.9	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that MRZ developments should provide universal accessibility as a non-negotiable.	Seeks that a new standard is added requiring that Medium Density Residential Zone developments provide universal accessibility as a non-negotiable.
Historic Places Wellington	182.27	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that a policy similar to that requiring new development to positively contribute to the sense of place, quality and amenity of the Neighbourhood Centre Zone (NCZ-P7) by ensuring that development responds to the site context, particular where it is located adjacent to a scheduled site of significant to Māori, heritage buildings, structures or areas, character precincts, and other areas should be added.	Add a policy with equivalent wording to NCZ-P7 (Quality design – neighbourhood and townscape outcomes) to the Medium Density Residential Zone.
Anne Lian	198.8	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that where shading is qualifying matter, there is a new policy for providing pop-up public realm for development-shaded homes.	Seeks that there is a new policy providing for pop-up public realm for houses that are shaded by new development.
Gabriela Roque-Worcel	234.9	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that where shading is qualifying matter, there is a new policy for providing pop-up public realm for development-shaded homes.	Seeks that there is a new policy providing for pop-up public realm for houses that are shaded by new development.
Alan Fairless	242.19	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that the District Plan include Sunlight provisions in ALL Residential Zones.	Seeks that the District Plan include Sunlight provisions in Medium Density Residential Zones.
The Retirement Villages Association of New Zealand Incorporated	FS126.2	Part 3 / Residential Zones / Medium Density Residential Zone / New MRZ	Oppose	Inconsistent with the Enabling Housing Act.	Disallow
Ryman Healthcare Limited	FS128.2	Part 3 / Residential Zones / Medium Density Residential Zone / New MRZ	Oppose	Inconsistent with the Enabling Housing Act.	Disallow
Fire and Emergency New Zealand	273.167	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Seeks the addition of a new rule for 'emergency service facilities' for the reasons set out in the previous feedback point on the proposed definitions of 'emergency service facilities'. New fire stations may be necessary in order to continue to achieve emergency response time commitments in stations where development occurs, and populations change. In this regard it is noted that FENZ is not a requiring authority under section 166 of the RMA, and therefore does not have the ability to designate land for the purposes of fire stations. FENZ considers that adding a new rule for Emergency Service Facilities provides for emergency service facilities in this zone as a permitted activity. This will better provide for health and safety of the community by enabling the efficient functioning of FENZ in establishing and operating fire stations	Add new MRZ rule: <u>MRZ-RX:</u> <u>Emergency Service Facilities.</u> <u>Activity Status: Permitted</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Phillippa O'Connor	289.15	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that commercial activities should be able to establish within the residential zones, and that the list of permitted activities is too small and should have a baseline of 100m2 for dairies, restaurants and cafes.	Add a new rule as follows: <u>MRZ-R11 – Dairies, cafes and restaurants</u> <u>1. Activity status: Restricted Discretionary</u> <u>Where:</u> <u>a. The maximum GFA is 100m2</u> <u>Matters of discretion are:</u> <u>1. Infrastructure and servicing</u> <u>2. Effects on neighbourhood character, residential amenity, safety and the surrounding residential area from building scale, form and appearance; traffic; noise; lighting; and hours of operation</u>
Johanna Carter	296.9	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that a privacy rule should be included for developments that overlook each other or face each other as the PDP outlook provisions do not appear to achieve this and in some instances will have adjoining neighbours directly looking into each others' sites.	Seeks that a new standard for privacy is added.
Johanna Carter	296.10	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that the PDP is the only document that can protect light and sunlight reaching a property. Considers there should be a rule that encourages passive solar design by maximising solar access to homes.	Seeks that a new standard for solar access to homes is added. [Inferred decision requested]
Retirement Villages Association of New Zealand Incorporated	350.101	Residential Zones / Medium Density Residential Zone / New MRZ	Support in part	Considers that the current drafting of MRZ-O1 generally aligns with the wording of Objective 2 of the MDRS, however the objectives of the MDRS need to be incorporated as drafted under the Enabling Housing Act. Considers that a consequential amendment will be needed to specify the purpose of the MRZ is to provide for predominately residential activities.	Retain MRZ-O2 (Purpose) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.102	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that the current drafting of MRZ-O1 generally aligns with the wording of Objective 2 of the MDRS, however the objectives of the MDRS need to be incorporated as drafted under the Enabling Housing Act. Considers that a consequential amendment will be needed to specify the purpose of the MRZ is to provide for predominately residential activities.	Seeks addition of new objective (see change sought to MRZ-O1) as follows: MRZ-OX Purpose The Medium Density Residential Zone accommodates predominantly residential activities and a range of compatible non-residential activities.
Retirement Villages Association of New Zealand Incorporated	350.103	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that the mandatory objectives of the Act are required to be included in the Proposed Plan as drafted in the MDRS. Objective 1 of the Act has not been integrated into the Proposed Plan.	Add new "Well-functioning urban environment" objective into the Medium Density Residential Zone chapter to ensure that mandatory Objective 1 of the Act is provided for in alignment with its intended direction and interpretation: <u>MRZ-OX Well-functioning urban environment</u> <u>A well-functioning urban environment that enables all people and communities to provide for their social, economic, and cultural wellbeing, and for their health and safety, now and into the future.</u>
Retirement Villages Association of New Zealand Incorporated	350.104	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that a policy regarding the intensification opportunities provided by larger sites and a policy recognising the changing nature of communities should be integrated into the District Plan.	Add the following Policies into the Medium Density Residential Zone chapter: <u>RZ-PX Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within all residential zones by providing for more efficient use of those sites.</u> <u>RESZ-PX Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the residential zones will change over time to enable a variety of housing types with a mix of densities.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.105	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that it would be appropriate to enable the density standards to be utilised as a baseline for the assessment of the effects of developments for the reasons set out in the submission above.	Add new "Role of density standards" policy into the Medium Density Residential Zone chapter: <u>MRZ-PX Role of density standards</u> <u>Enable the density standards to be utilised as a baseline for the assessment of the effects of developments.</u>
Envirowaste Services Ltd	373.9	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that the proposed standards for permitted residential activities do not provide for rubbish/recycling storage. It is proposed that a standard be provided to allow for appropriate storage of a minimum standard.	Seeks that a new standard be added in the Medium Density Residential Zone chapter allowing for appropriate rubbish and recycling storage of a minimum standard.
Henry Bartholomew Nankivell Zwart	378.15	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Add a new policy providing for popup open spaces for houses that are shaded by new development.
Stephen Minto	FS100.11	Residential Zones / Medium Density Residential Zone / New MRZ	Oppose	<p>Submtter 378 proposes the encouragement of 'Pop-up public realm's for dwellings shaded by developments. This is in effect telling people to go outside, to the beach or park if they want sun. Or a glass van will drive round and people can sit in it for 5 minutes before it drives away somewhere else. 'Closing time drink up ya tea'. That just doesn't match how people use their time, the independence of when you can relax. It's simply costly and silly.</p> <p>It is not even a viable proposal in the summer heat when you may want sun to warm the house or dry the clothes but not be in it. But especially in winter when sun is so important for comfort but it is still very cold outside. This heavily impacts the elderly and puts them at higher risk from illnesses. Wellington is not called windy for nothing.</p> <p>These suggestions take no account of how vulnerable some people feel outside and increases the chances of predatory behaviour onto the vulnerable.</p> <p>Every dwelling should be an excellent one and this submission does nothing for that. In theory even new developments could be overshadowed and it's just bad luck.</p> <p>[Inferred reference to submission point 378.15]</p>	Disallow
Kāinga Ora Homes and Communities	391.322	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that a new Objective should be added to the MRZ chapter to address provisional provide for additional height and density in areas in the Medium Density Residential Zone with high accessibility to public transport, commercial amenity and community services. (Option B)	Add a new Objective to the Medium Density Residential Zone to provisionally provide for additional height and density in areas in the Medium Density Residential Zone with high accessibility to public transport, commercial amenity and community services.
Mt Victoria Historical Society Inc	FS39.6	Residential Zones / Medium Density Residential Zone / New MRZ	Oppose	<p>Medium density zones should not become high density zones by default; this requirement would make nonsense of the zoning.</p> <p>Do not allow increased height and density in Medium Density Residential zones.</p>	Disallow
Wellington's Character Charitable Trust	FS82.109	Part 3 / Residential Zones / Medium Density Residential Zone / New MRZ	Oppose	Considers the submission point is overly directive, and the current notified framework of objectives and policies strikes an appropriate balance.	Disallow
LIVE WELLington	FS96.22	Part 3 / Residential Zones / Medium Density Residential Zone / New MRZ	Oppose	The proposal to add a new Objective to the Medium Density Residential Zone to provisionally provide for additional height and density in areas in the Medium Density Residential Zone with high accessibility to public transport, commercial amenity and community services is opposed. Due to Wellington's topography this would affect large areas and has not been adequately socialized.	Disallow
Roland Sapsford	FS117.21	Part 3 / Residential Zones / Medium Density Residential Zone / New MRZ	Oppose	The proposal to add a new objective to the Medium Density Residential Zone to provisionally provide for additional height and density in areas in the Medium Density Residential Zone with high accessibility to public transport, commercial amenity and community services is opposed. Ministry of Education	400.93	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that the MRZ objectives do not sufficiently provide for additional infrastructure/ educational facilities. Therefore, the submitter supports the inclusion of a new objective as sought.	<p>Add new objective to MRZ (Medium Density Residential Zone) as follows:</p> <p><u>MRZ-OX</u></p> <p>Non-Residential activities</p> <p><u>Non-residential activities are in keeping with the amenity of the Medium Density Residential zone and provide for the community’s social, economic, and cultural wellbeing.</u></p>
Onslow Residents Community Association	FS80.8	Part 3 / Residential Zones / Medium Density Residential Zone / New MRZ	Support	Considers that a blanket statement on non-residential activities opens up to any non-residential activity which the submitter would like disallowed. The submitter however supports non-residential educational activities.	Amend / Seeks that only non-residential educational activities are allowed but not any non-residential activities.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Lucy Harper and Roger Pemberton	401.47	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	<p>Considers that for the areas that are subject to qualifying matters as referenced in the MRZ introduction and in MRZ-P4, there appears to be no recognition or provisions that address the effect of surrounding or adjacent medium or high density development on those identified areas.</p> <p>Submitter considers that provisions that recognise the need for and provide for specific controls in buffer areas adjacent to identified areas such as heritage areas and character areas are needed to control inappropriate development alongside these areas that would compromise the values or matters for which they are recognised.</p>	Seeks that new rules and standards on development in the areas adjacent to those areas which have been identified under qualifying matters be inserted into the MRZ (Medium Density Residential Zone).
Wellington Heritage Professionals	412.74	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that the chapter should include a policy similar to NZC-P7 ensuring that development responds to site context, where it is located adjacent to a site of significance to Māori, heritage place or character precinct.	Add a policy similar to NCZ-P7 (Quality design – neighbourhood and townscape outcomes) ensuring that development responds to site context, where it is located adjacent to a site of significance to Māori, heritage place or character precinct.
Metlifecare Limited	413.10	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021 requires that the Proposed Plan include the following objective: “a well-functioning urban environment that enables all people and communities to provide for their social, economic, and cultural wellbeing, and for their health and safety, now and into the future”.	<p>Provide a separate objective relating to the efficient use of land as follows (or words to similar effect):</p> <p><u>Land within the Medium Density Residential Zone is used efficiently for residential development, and more intensive development is enabled on larger sites.</u></p>
Metlifecare Limited	413.11	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers an additional policy is necessary relating to the efficient use of land as this aligns with the strategic direction and the proposed objective above.	<p>Insert an additional policy relating to the efficient use of larger sites as follows (or words to similar effect):</p> <p><u>Recognise the intensification opportunities provided by larger sites by providing for more efficient use of those sites.</u></p>
Metlifecare Limited	413.12	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that in order to be consistent with the strategic direction of the Proposed Plan, it is also necessary and appropriate to recognise the demand for housing and care needs of the ageing population. Due to the ageing population, longer life expectancy, and desire to live in a retirement village, there is a housing crisis for the elderly. It is critical that this demand is recognised and provided for in the Proposed District Plan.	<p>Insert an additional policy relating to the efficient use of larger sites as follows (or words to similar effect):</p> <p><u>Recognise and provide for the demand for housing and care needs of the ageing population</u></p>
Luke Stewart	422.10	Residential Zones / Medium Density Residential Zone / New MRZ	Amend	Considers that where shading is qualifying matter, there is a new policy for providing pop-up public realm for development-shaded homes.	Seeks that there is a new policy providing for pop-up public realm for houses that are shaded by new development.
Stephen Minto	FS100.12	Residential Zones / Medium Density Residential Zone / New MRZ	Oppose	<p>Submtter 422 proposes the encouragement of ‘Pop-up public realm’ for dwellings shaded by developments. This is in effect telling people to go outside, to the beach or park if they want sun. Or a glass van will drive round and people can sit in it for 5 minutes before it drives away somewhere else. ‘Closing time drink up ya tea’. Gael Webster	114.6	Residential Zones / Medium Density Residential Zone / MRZ- PREC01	Amend	<p>Supports the Boffa Miskell Pre-1930 Character Area Review.</p> <p>Considers that the character areas in Mount Victoria should be considerably larger based on evidence from expert Council officers, Boffa Miskell consultants, and the Heritage New Zealand Pouhere Taonga assessment.</p> <p>Decisions about 'Character Precincts' in Mount Victoria were based on allowing more housing and ignored heritage values and character, and the well-being of residents to receive sufficient light and sunshine.</p> <p>Acritical mass is required to preserve character and the PDP creates small, disconnected blocks.</p> <p>Mount Victoria's character is unique in Wellington and New Zealand for its concentration of Victorian and Edwardian wooden dwellings.</p> <p>[Refer to original submission for full reasons].</p>	Amend the extent of the area covered by the Character Precincts in Mount Victoria to increase it to encompass Boffa Miskell's Primary/Contributory Character area (Boffa Miskell, Pre-1930 Character Area Review).
Alexander Hockley	153.2	Residential Zones / Medium Density Residential Zone / MRZ- PREC01	Amend	<p>Considers that the extent of the character precincts should be increased because of the following reasons:</p> <ul style="list-style-type: none"> - Increased development could be located in other parts of the city such as Kent and Cambridge terraces. - New development would block sunlight. - The visibility and coherence of the inner city suburbs are an important part of Wellington's identity, and often appear in promotional material. - That the reduction in the extent of character precincts from the Operative District Plan will irrevocably and adversely affect the liveability of the inner city suburbs, sense of place, as well as loss of historic heritage. - There is the ability to adjust the character settings significantly while still meeting housing capacity requirements. - Wellington's character suburbs are finite in the sense that dwellings made from native timber, built in a particular style and workmanship of the age, cannot be fully recreated. - Character is derived from critical mass and this is not provided for in the plan as it has small disconnected blocks where remaining sense character can be easily compromised destroyed by high-density development around it. - The extent of the character precincts is not consistent with public sentiment as evidenced by recommendations made by Council officers on the Spatial Plan and a survey commissioned by the Submitter. <p>[Refer to original submission for full reason]</p>	<p>Seeks that the extent of the character precincts are amended based on three options:</p> <p>Option 1. Extended to those areas recommended by council officers in the spatial plan decision in June 2021 (Least preferred).</p> <p>Option 2. Include Heritage New Zealand recommendations in addition to option 1.</p> <p>Option 3. Include buildings that were identified in the Boffa Miskell Pre-1930 Character Area Review, 23.1.2019 as Primary/Contributory recommendations, in addition to Options 1 and 2 (Most preferred).</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
LIVE WELLington	154.4	Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Amend	Considers that the introductory paragraphs for Character Precincts should recognise the important role of dwelling age in determining character.	Amend the Introduction to the Character Precincts (MRZ-PREC01) as follows: The purpose of the Character Precincts is to provide for the management of effects on character values within specifically identified residential areas of the City. ... The Character Precincts do not seek to protect historic heritage values. While some areas may also be identified as heritage areas in the District Plan, the majority of the Character Precincts seek to identify existing concentrations of consistent character and prevent its further erosion. This character is a product of the <u>age of buildings, building materials, architectural styles, size and shape</u> architectural values of the dwellings in these areas, patterns of subdivision and the resultant streetscape. The Character Precincts have been identified and mapped based on the consistency and coherence of character of the houses in these areas. ...
Thorndon Residents' Association Inc	FS69.33	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Support	Extend character precincts in the mapping. Improve the definition of character. Avoid erosion of character, especially in Thorndon; the city's (& NZ's) oldest suburb lost much when the urban motorway was carved through it. What remains is of significant cultural and other values. Significant and superior residential character on the eastern side of the suburb, though small in area, should be zoned as Character Precincts because they contribute significantly to the appeal, character and liveability of Thorndon. What remains is of significant cultural and other values. Significant and superior residential character on the eastern side of the suburb, though small in area, should be zoned as Character Precincts because they contribute significantly to the appeal, character and liveability of Thorndon. Inadequate infrastructure, and resilience to natural disasters are additional factors to account for. The natural vulnerabilities should restrain intensification within Thorndon. Thorndon is already a relatively intensely subdivided suburb (compared, say, to equivalent inner suburbs in Auckland).	Allow

Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.16	Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Amend	<p>Supports an extension of character precincts to include all the houses in the Officers Recommended Plan from June 19, 2021.</p> <p>The site-by-site analysis found that some 300 houses contributed sufficiently to the character and streetscape of Newtown. These houses also passed the test established by the officers as Qualifying Matters for exemption from the NPS-UD and MDRS.</p> <p>Considers that these houses therefore should be exempt from intensification, and be covered by Character Precinct rules, in particular the pre-1930 demolition rule.</p> <p>Almost all of the houses identified by the ORP are deemed to be primary or contributory by Boffa Miskell. In addition, these houses all demonstrate assemblages of consistent character streetscape.</p> <p>[Refer to original submission for full reason]</p>	<p>Amend Character Precincts to match that of the Officer Recommended Spatial Plan which include the following sites:</p> <p>Balmoral Terrace - 3, 5, 7, 9, 2, 4, 6, 8, 10.</p> <p>Blucher Avenue - 1, 3, 5, 7, 9, 2, 4, 6, 8, 10.</p> <p>Coromandel Street - 1, 1A, 5, 7, 9, 11, 11, 13, 15, 17, 83, 85, 87, 89, 91, 93, 127, 135, 137, 139, 6, 8, 10, 12, 14, 16, 22, 90, 92, 96, 100, 102, 104, 106.</p> <p>Daniell Street - 147, 149, 157, 159, 82, 84, 86, 88, 90, 92, 94, 124, 126, 128, 130, 132, 134, 136, 162.</p> <p>Harper St 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 2, 4, 6, 8, 10, 12, 14, 16, 18, 20.</p> <p>Lawrence St 7, 9, 11, 11A, 13, 15, 17, 19, 21, 23, 25, 27, 10, 12, 14, 16, 18, 20, 22, 24.</p> <p>Owen St 1, 5, 7A, 9/11A. 15, 77, 79, 81, 83, 85, 87, 89, 91, 93, 95, 97, 99, 101, 103, 105, 107, 109, 111, 113, 115, 117, 119, 121A, 121C, 123, 125, 127, 127A, 129, 131, 133, 135, 137, 139, 141, 143, 154, 20, 22, 24B, 26, 28, 30, 34, 36, 38, 40, 42, 46, 48, 54, 56, 58, 60, 62, 64, 66, 70, 74, 76, 78, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, 110, 112, 114, 116, 156, 158, 160, 162, 164.</p> <p>Stoke St 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 33, 13, 15, 17, 19, 21, 31, 33, 35, 37.</p>
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.17	Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Amend	<p>Considers that these properties not included in the Officers Recommended Plan are classified as Character Precincts.</p> <p>The sites identified have streetscape appeal and are intact pre-1900 houses in many cases. 50% of the sites identified have a primary categorisation within the Boffa Miskell analysis.</p> <p>Donald Maclean and Normanby streets are over 75% primary or contributory.</p> <p>[Refer to original submission for full reasons]</p>	<p>Amend the extent of the Character Precincts to include the following sites:</p> <p>Emmett St 6, 8, 10A, 12, 14, 16, 18, 20.</p> <p>Green St 1, 5, 7, 7A, 9, 13, 15, 17, 19, 2, 2A, 4, 6, 10, 12, 14, 18, 20.</p> <p>Donald Maclean St 16, 24, 28, 30, 36, 38, 17, 19, 21, 25, 27, 29, 31, 33, 35, 37.</p> <p>Normanby St 12, 14, 16, 18, 20, 22, 24, 30, 32, 34, 19, 21, 23, 25, 27, 29, 31, 33, 35, 37, 39, 41.</p>
Waka Kotahi	370.265	Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Not specified	<p>[Submitter has provided a neutral position on this provision]</p> <p>Considers that further weighting exercise is required in order to justify the inclusion, nature and extent of provisions related to special character.</p>	<p>Retain MRZ-PREC01 (Character Precincts) subject to further evaluation and weighting exercise to determine extent of protection required on balance with achieving the outcomes of the NPS-UD.</p>
Lucy Harper and Roger Pemberton	401.48	Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Support	<p>Supports the MRZ-PREC01 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form.</p> <p>The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.</p>	<p>Retain MRZ-PREC01 (Character Precincts) as notified.</p>
VicLabour	414.28	Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Oppose in part	<p>Considers that character precincts restrict space for development and are a hindrance for the proposed mass rapid transit route.</p> <p>Considers that many owners will choose not to sell their homes to be developed given how valuable many are in their current state. Those that are less appealing will be more likely to be sold for development which is considered a good outcome.</p> <p>[See original submission for full reasons]</p>	<p>Seeks that character precincts be removed from the plan. [Inferred decision requested]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Josephine Smith	419.11	Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Amend	Considers that Wellingtons livability, character and heritage can be protected at the same time as new housing is added. [See original submission for full reasons]	Seeks that the Proposed District Plan is amended to recognise that character is in part derived from heritage in pre 1930's character areas.
Josephine Smith	419.12	Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Support	Considers that Wellingtons livability, character and heritage can be protected at the same time as new housing is added. Considers that the demolition controls in pre-1930s areas (as defined in the Operative District Plan) should be retained, while identifying areas of particular character within these (for example as identified in the revised draft Spatial Plan) to enable a more granular level of control over demolition. [See original submission for full reasons]	Supports the controls on the demolition of pre-1930s dwellings in the Character Precincts.
Josephine Smith	419.13	Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Support	Considers that Wellingtons livability, character and heritage can be protected at the same time as new housing is added. Considers that the demolition controls in pre-1930s areas (as defined in the Operative District Plan) should be retained, while identifying areas of particular character within these (for example as identified in the revised draft Spatial Plan) to enable a more granular level of control over demolition. [See original submission for full reasons]	Seeks that the character precincts are extended to encompass the areas in Appendix 1 of the Operative District Plan.
Paul Gregory Rutherford	424.18	Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Amend	Considers that Wellingtons livability, character and heritage can be protected at the same time as new housing is added. [See original submission for full reasons]	Seeks that the proposed district plan is amended to recognise that character is in part derived from heritage in pre 1930's character areas.
Paul Gregory Rutherford	424.19	Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Amend	Considers that Wellingtons liveability, character and heritage can be protected at the same time as new housing is added. [See original submission for full reasons]	Seeks the addition of the pre-1930's demolition controls from the operative district plan.
Paul Gregory Rutherford	424.20	Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Amend	Considers that Wellingtons liveability, character and heritage can be protected at the same time as new housing is added. [See original submission for full reasons]	Seeks the addition of a mechanism to identify areas of particular character within the pre-1930's character areas to enable a more granular level of control over demolition.
Catharine Underwood	481.11	Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Amend	Considers the decision of councillors to not increase the size of character areas from the draft spatial plan was incorrect.	Seeks that the operative district plan character areas be reinstated.
Tim Bright	75.7	Residential Zones / Medium Density Residential Zone / MRZ-PREC02	Support	Supports the Mount Victoria North Precinct.	Retain the Mount Victoria North Precinct as notified.
Alan Olliver & Julie Middleton	111.5	Residential Zones / Medium Density Residential Zone / MRZ-PREC02	Support	Supports the MRZ-PREC02 as notified.	Retain MRZ-PREC02 (Mt Victoria North Townscape Precinct) as notified.
Avryl Bramley	202.33	Residential Zones / Medium Density Residential Zone / MRZ-PREC02	Amend	Considers that this has been a recipe for disaster leaving individual homeowners trying to wrench enforcement compliance out of builders who think they have a right to trespass on adjoining properties and or demolish structures they do not own.	Seeks amendment to MRZ-PREC02 (Mt Vic North) for the removal of any rules permitting building along boundary lines.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Avryl Bramley	202.34	Residential Zones / Medium Density Residential Zone / MRZ-PREC02	Amend	Considers that this has been a recipe for disaster leaving individual homeowners trying to wrench enforcement compliance out of builders who think they have a right to trespass on adjoining properties and or demolish structures they do not own.	Seeks amendment to MRZ-PREC02 (Mt Vic North) for the reinstatement of side yards.
Avryl Bramley	202.35	Residential Zones / Medium Density Residential Zone / MRZ-PREC02	Amend	Considers that these are already densely built areas of considerable charm and amenity and intensification will increase the disaster risk in the central area.	Amend MRZ-PREC02 (Mt Vic North) to remove any provisions that allow demolition of pre 1930's buildings, with an exception for safety that is subject to demolition rules and protocols.
Mount Victoria Historical Society	214.7	Residential Zones / Medium Density Residential Zone / MRZ-PREC02	Support	Supports the Mt Victoria North Townscape Precinct.	Retain MRZ-PREC02 (Mt Victoria North Townscape Precinct) as notified.
Historic Places Wellington Inc	FS111.71	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Support	No specific reason provided.	Allow
Mount Victoria Historical Society	214.8	Residential Zones / Medium Density Residential Zone / MRZ-PREC02	Support	[No specific reason given beyond decision requested - refer to original submission]	Seeks that where there's conflict between MRZ-PREC02 (Mt Victoria North Townscape Precinct) and MRZPREC-01 (Character Precincts), provisions in MRZ-PREC01 take priority.
Historic Places Wellington Inc	FS111.72	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC02	Support	No specific reason provided.	Allow
Waka Kotahi	370.266	Residential Zones / Medium Density Residential Zone / MRZ-PREC02	Not specified	[Submitter has provided a neutral position on this provision] Considers that further weighting exercise is required in order to justify the inclusion, nature and extent of provisions related to special character.	Retain MRZ-PREC02 (Mt Victoria North Townscape Precinct) subject to further evaluation and weighting exercise to determine extent of protection required on balance with achieving the outcomes of the NPS-UD.
Lucy Harper and Roger Pemberton	401.49	Residential Zones / Medium Density Residential Zone / MRZ-PREC02	Support	Supports the MRZ-PREC02 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC02 (Mt Victoria North Townscape Precinct) as notified.
Jonathan Markwick	490.17	Residential Zones / Medium Density Residential Zone / MRZ-PREC02	Oppose	Considers that MRZ-PREC02 (Mt Victoria North Townscape Precinct) should be removed to allow for six storey high density residential buildings where SCHED 3 - Heritage Areas do not apply (such as McFarlane Street). Restrictive rules protecting Character Precincts should not be a priority and is morally wrong when we are experiencing a massive shortage of housing and a housing crisis.	Delete MRZ-PREC02 (Mt Victoria North Townscape Precinct).
Ruapapa Limited	225.3	Residential Zones / Medium Density Residential Zone / MRZ-PREC03	Support	Considers that the height controls are long standing and reflect detailed cost/benefit and legal investigation.	Retain MRZ-PREC03 (Oriental Bay) as notified.
Victoria Stace	235.3	Residential Zones / Medium Density Residential Zone / MRZ-PREC03	Support	Supports the Oriental Bay Height Precinct.	Retain MRZ-PREC03 (Oriental Bay) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Richard Martin	244.2	Residential Zones / Medium Density Residential Zone / MRZ-PREC03	Support	Supports the Oriental Bay Height Precinct, as they have been in place for a long time and are appreciated by Wellingtonians.	Retain MRZ-PREC03 (Oriental Bay) as notified.
Waka Kotahi	370.267	Residential Zones / Medium Density Residential Zone / MRZ-PREC03	Support in part	Policy MRZ-PREC03 is supported, but amendment is sought.	Retain Policy MRZ-PREC03 (Oriental Bay Height Precinct) and seeks amendment.
Lucy Harper and Roger Pemberton	401.50	Residential Zones / Medium Density Residential Zone / MRZ-PREC03	Support	Supports the MRZ-PREC03 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC03 (Oriental Bay Height Precinct) as notified.
Oranga Tamariki	83.6	Residential Zones / Medium Density Residential Zone / MRZ-O1	Support	Oranga Tamariki support this objective. Oranga Tamariki homes are encompassed by the residential activities definition. If the nesting recommendation for supported residential care is accepted, this objective will be further strengthened.	Retain MRZ-O1 (Purpose) as notified.
Leeanne Templer	206.1	Residential Zones / Medium Density Residential Zone / MRZ-O1	Amend	Considers that MRZ-O1 does not respond to Rama Crescents planned urban built character, as the MRZ is not in line with the mainly 2 storey, protected views and diplomatic residential neighbourhood. Rama Crescent does not have the infrastructure for further intensification. There is a need to retain existing covenants on titles in Rama Crescent which protect views. There needs to be provision for onsite parking in Rama Crescent because public transport can't enter and walking is tough. Ambassadorial residencies on the street require privacy and further stories and intensification would compromise this.	Seeks that Rama Crescent and streets above Rama Crescent are exempt from the building height increases and intensification in the MRZ (Medium Density Residential Zone).
Kilmarston Developments Limited and Kilmarston Properties Limited	290.48	Residential Zones / Medium Density Residential Zone / MRZ-O1	Support	Supports the appropriate Medium Density Residential Zoning of their land.	Retain MRZ-O1 (Purpose) as notified.
Transpower New Zealand Limited	315.180	Residential Zones / Medium Density Residential Zone / MRZ-O1	Support	Supports MRZ-O1 (noting it reflects that required under Schedule 3A Part 1(6)(1) of the RMA) in that it recognises a range of residential activities and housing types.	Retain Objective MRZ-O1 (Purpose) as notified.
Khoi Phan	326.11	Residential Zones / Medium Density Residential Zone / MRZ-O1	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend Objective MRZ-O1 to allow up to 6-storey buildings.
Retirement Villages Association of New Zealand Incorporated	350.106	Residential Zones / Medium Density Residential Zone / MRZ-O1	Support in part	Considers that the current drafting of MRZ-O1 generally aligns with the wording of Objective 2 of the MDRS, however the objectives of the MDRS need to be incorporated as drafted under the Enabling Housing Act. Considers that a consequential amendment will be needed to specify the purpose of the MRZ is to provide for predominately residential activities.	Retain MRZ-O1 (Purpose) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.107	Residential Zones / Medium Density Residential Zone / MRZ-O1	Amend	Considers that the current drafting of MRZ-O1 generally aligns with the wording of Objective 2 of the MDRS, however the objectives of the MDRS need to be incorporated as drafted under the Enabling Housing Act. Considers that a consequential amendment will be needed to specify the purpose of the MRZ is to provide for predominately residential activities.	Amend MRZ-O1 (Purpose) as follows: <div style="border: 1px solid black; padding: 2px;"> <p>Purpose Residential density</p> </div> The Medium Density Residential Zone provides for predominantly residential activities and a variety of housing types and sizes that respond to: ...
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.109	Residential Zones / Medium Density Residential Zone / MRZ-O1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-O1 (Purpose) as notified.
WCC Environmental Reference Group	377.319	Residential Zones / Medium Density Residential Zone / MRZ-O1	Support	Increasing density in Wellington in areas well serviced by transportation and facilities is an important part of reducing the city's carbon footprint; reducing congestion and improving economic and social wellbeing.	Retain MRZ-O1 (Purpose) as notified.
Kāinga Ora Homes and Communities	391.325	Residential Zones / Medium Density Residential Zone / MRZ-O1	Support in part	Objective MRZ-O1 is generally supported but an amendment is sought.	Retain Objective MRZ-O1 (Purpose) with amendment.
Kāinga Ora Homes and Communities	391.326	Residential Zones / Medium Density Residential Zone / MRZ-O1	Amend	Considers that Objective MRZ-O1 should be amended to provide for additional height and density in areas in the MRZ with high accessibility to public transport, commercial amenity and community services. (Option A)	Amend Objective MRZ-O1 (Purpose) as follows: The Medium Density Residential Zone provides for predominantly residential activities and a variety of housing types and sizes that respond to: 1. Housing needs and demand; and 2. The neighbourhood's planned urban built character, including 3 storey buildings <u>and additional height and density in areas of high accessibility to public transport, commercial amenity and community services.</u>
Greater Wellington Regional Council	FS84.32	Part 3 / Residential Zones / Medium Density Residential Zone / MRZO1	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
LIVE WELLington	FS96.24	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-O1	Oppose	The submission to introduce additional height limits to the MRZ is opposed. While these may be appropriate in some circumstances, it is more appropriate to require notification for additional height in these residential areas.	Disallow
Roland Sapsford	FS117.23	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-O1	Oppose	The submission to introduce additional height limits to the MRZ is opposed. While these may be appropriate in some circumstances, it is more appropriate to require notification for additional height in these residential areas.	Disallow
Metlifecare Limited	413.13	Residential Zones / Medium Density Residential Zone / MRZ-O1	Amend	Considers that the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021 requires that the Proposed Plan include certain objectives, including the following objective: a relevant residential zone provides for a variety of housing types and sizes that respond to— (i) housing needs and demand; and (ii) the neighbourhood's planned urban built character, including 3-storey buildings. MRZ-O1 does not accurately reflect the wording required in the Amendment Act.	Amend MRZ-O2 (Efficient use of land) to reflect Objective 2 as in the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Metlifecare Limited	413.14	Residential Zones / Medium Density Residential Zone / MRZ-O1	Oppose in part	Considers the objective does not align with the required objectives in the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021.	Retain provision, subject to amendments, as outlined other submission points.
Metlifecare Limited	413.15	Residential Zones / Medium Density Residential Zone / MRZ-O1	Amend	Considers the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021 requires that the Proposed Plan include the following objective: "a well-functioning urban environment that enables all people and communities to provide for their social, economic, and cultural wellbeing, and for their health and safety, now and into the future".	Amend MRZ-O2 (Efficient use of land) to reflect Objective 2 as in the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021.
Leeanne Templer	206.2	Residential Zones / Medium Density Residential Zone / MRZ-O2	Amend	Considers that MRZ does not contribute positively to a changing and well-functioning urban environment in Rama Crescent, as per MRZ-O2. Rama Crescent does not have the infrastructure for further intensification. There is a need to retain existing covenants on titles in Rama Crescent which protect views. There needs to be provision for onsite parking in Rama Crescent because public transport can't enter and walking is tough. Ambassadorial residencies on the street require privacy and further stories and intensification would compromise this.	Seeks that Rama Crescent and streets above Rama Crescent are exempt from the building height increases and intensification in the MRZ (Medium Density Residential Zone).
Toka Tū Ake EQC	282.15	Residential Zones / Medium Density Residential Zone / MRZ-O2	Amend	Considers that Wellington City is at risk from multiple natural hazards, and it is important that intensification developments do not increase the public's exposure to natural hazard risks. Considers that any development should adequately account for natural hazard risk at the site, to not significantly increase exposure through poor land use decisions.	Amend MRZ-O2 (Efficient use of land) as follows: Land within the Medium Density Residential Zone is used efficiently for residential development that: <u>1. Increases housing supply and choice; and</u> <u>2. Contributes positively to a changing and well-functioning urban environment; and</u> <u>3. Does not increase exposure to natural hazard risk, and is not located within a high ranked hazard area.</u>
Pukepūke Pari Residents Incorporated	FS37.26	Residential Zones / Medium Density Residential Zone / General MRZ-O2	Support	Considers that the submitter raises an important issue. This is relevant to and supports the further submitter's submission points around the vulnerability of some sites in Hay Street and the 'Hay Street Extension' to earthquakes and slippage. The further submitter notes in this context and support the comments of the ICNZ on 23 November 2022 that councils should do more to stop development in high hazard zones.	Allow
Kilmarston Developments Limited and Kilmarston Properties Limited	290.49	Residential Zones / Medium Density Residential Zone / MRZ-O2	Support	Supports the appropriate Medium Density Residential Zoning of their land.	Retain MRZ-O2 (Efficient use of land) as notified.
Transpower New Zealand Limited	315.181	Residential Zones / Medium Density Residential Zone / MRZ-O2	Support in part	Considers that within the Medium Density Residential Zone existing qualifying matter areas may limit the amount of permitted medium density development possible on an allotment. Considers while the policy directive is supported, the submitter supports reference to qualifying matter areas as they directly influence the capacity for intensification and residential development.	Retain Objective MRZ-O2 (Efficient use of land), subject to amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Transpower New Zealand Limited	315.182	Residential Zones / Medium Density Residential Zone / MRZ-O2	Amend	Considers that within the Medium Density Residential Zone existing qualifying matter areas may limit the amount of permitted medium density development possible on an allotment. Considers while the policy directive is supported, the submitter supports reference to qualifying matter areas as they directly influence the capacity for intensification and residential development.	Amend Objective MRZ-O2 (Efficient use of land) as follows: MRZ-O2 Efficient use of land Land within the Medium Density Residential Zone is used efficiently for residential development that: 1. Increases housing supply and choice; and 2. Contributes positively to a changing and well-functioning urban environment; <u>while avoiding inappropriate locations, heights and densities of buildings and development within qualifying matter areas as specified by the relevant qualifying matter area provisions.</u>
Kāinga Ora – Homes and Communities	FS89.25	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-O2	Oppose	Kāinga Ora opposes the amendment which seeks to introduce 'avoid' into an objective that seeks to enable urban development.	Disallow
Retirement Villages Association of New Zealand Incorporated	350.108	Residential Zones / Medium Density Residential Zone / MRZ-O2	Support in part	Considers that the current drafting of MRZ-O2 is inconsistent with Objectives 1 and 2 of the MDRS. Objectives 1 and 2 of the Act should be included in the Proposed Plan verbatim to their drafting in the MDRS. Questions what the context is in relation to contributing 'positively' to a changing and well-functioning urban environment. Considers that it is unclear what this would entail, particularly when considering that the definition of 'well functioning urban environment' consists of a list of positive / beneficial matters. Considers that it is not clear if this phrasing is stipulating that additional benefit is required in order to contribute 'positively'.	Retain MRZ-O2 (Efficient use of land) and seeks amendment as follows: Land within the Medium Density Residential Zone is used efficiently for residential development that: 1. Increases housing supply and choice; and 2. Contributes positively to a changing and well-functioning urban environment.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.110	Residential Zones / Medium Density Residential Zone / MRZ-O2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-O2 (Efficient use of land) as notified.
WCC Environmental Reference Group	377.320	Residential Zones / Medium Density Residential Zone / MRZ-O2	Support	Increasing density in Wellington in areas well serviced by transportation and facilities is an important part of reducing the city's carbon footprint; reducing congestion and improving economic and social wellbeing.	Retain MRZ-O2 (Efficient use of land) as notified.
Kāinga Ora Homes and Communities	391.327	Residential Zones / Medium Density Residential Zone / MRZ-O2	Support	Objective MRZ-O2 is generally supported.	Retain Objective MRZ-O2 (Efficient use of land) as notified.
Fire and Emergency New Zealand	273.168	Residential Zones / Medium Density Residential Zone / MRZ-O3	Support	Supports the objective as it promotes safe and accessible living environments.	Retain MRZ-O3 (Healthy, safe, accessible, and attractive environments) as notified.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.50	Residential Zones / Medium Density Residential Zone / MRZ-O3	Support	Supports the appropriate Medium Density Residential Zoning of their land.	Retain MRZ-O3 (Healthy, safe, accessible and attractive environments) as notified.
Transpower New Zealand Limited	315.183	Residential Zones / Medium Density Residential Zone / MRZ-O3	Support	Supports MRZ-O3 (Healthy, safe, accessible and attractive environments) in that it recognises safe living environments. Considers the management of activities within proximity of the National Grid gives effect to the objective in providing safe environments.	Retain Objective MRZ-O3 (Healthy, safe, accessible and attractive environments) as notified.
Retirement Villages Association of New Zealand Incorporated	350.109	Residential Zones / Medium Density Residential Zone / MRZ-O3	Amend	Considers that the current drafting of MRZ-O3 is inconsistent with Objective 1 and Policy 3 of the MDRS. In addition, notes that MRZ-O3 makes reference to 'accessible living environments'. Opposes regulation of internal environments as retirement village operators are best placed to understand the accessibility requirements of their residents and access is addressed by the Building Act.	Seeks to amend MRZ-O3 (Healthy, safe, accessible and attractive environments) to delete reference to "accessible living environments".

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.111	Residential Zones / Medium Density Residential Zone / MRZ-O3	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-O3 (Healthy, safe, accessible and attractive environments) as notified.
WCC Environmental Reference Group	377.321	Residential Zones / Medium Density Residential Zone / MRZ-O3	Support	Increased density needs to be done well: this objective gives an important signal to ensure that this is achieved.	Retain MRZ-O3 (Healthy, safe, accessible and attractive environments) as notified.
Kāinga Ora Homes and Communities	391.328	Residential Zones / Medium Density Residential Zone / MRZ-O3	Support	Objective MRZ-O3 is generally supported.	Retain Objective MRZ-O3 (Healthy, safe, accessible and attractive environments) as notified.
Victoria University of Wellington Students' Association	123.46	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-O1	Oppose	Opposes MRZ-PREC01-O1 (Character Precincts - Purpose) as notified.	Seeks that character housing is not protected or prioritised over new non-character residential dwellings.
LIVE WELLington	154.6	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-O1	Support	Considers that given the finite nature of the character precincts (they are a product of materials and architectural style that cannot be fully and successfully imitated) it is important to manage them to minimise their erosion and to work to maintain or enhance them.	Retain MRZ-PREC01-O1 (Purpose) as notified. [Inferred decision requested]
Thorndon Residents' Association Inc	FS69.35	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC02	Support	WCC Summary reads: Considers that given the finite nature of the character precincts (they are a product of materials and architectural style that cannot be fully and successfully imitated) it is important to manage them to minimise their erosion and to work to maintain or enhance them.	Allow
Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.18	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-O1	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain MRZ-PREC01-O1 (Purpose) as notified.
Waka Kotahi	370.268	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-O1	Not specified	[Submitter has provided a neutral position on this provision] Considers that further weighting exercise is required in order to justify the inclusion, nature and extent of provisions related to special character.	Seeks that MRZ-PREC01-O1 (Purpose) retained subject to further evaluation and weighting exercise to determine extent of protection required on balance with achieving the outcomes of the NPS-UD.
WCC Environmental Reference Group	377.322	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-O1	Support	Considers that the character of parts of Wellington's suburbs that is an integral part of the city's identity is important to preserve, whilst enabling changes and adaptations in land use over time. This objective to prevent erosion of this character is necessary	Retain MRZ-PREC01-O1 (Purpose (Character)) as notified.
Kāinga Ora Homes and Communities	391.329	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-O1	Oppose	MRZ-PREC01-O1 is opposed, consistent with the deletion of Character Precincts and associated provisions from zone chapters and as a qualifying matter.	Delete Objective MRZ-PREC01-O1 (Purpose) as notified.
LIVE WELLington	FS96.25	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-O1	Oppose	The submission to delete character precincts is strongly opposed. Character precincts are a justifiable means of protecting unique Wellington areas of Victorian and Edwardian native timber housing, that is of a cohesive style and form. Many of these areas are iconic to Wellington.	Disallow
Roland Sapsford	FS117.24	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-O1	Oppose	The submission to delete character precincts is strongly opposed. Character precincts are a justifiable means of protecting unique Wellington areas of Victorian and Edwardian native timber housing, that is of a cohesive style and form. Many of these areas are iconic to Wellington.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Lucy Harper and Roger Pemberton	401.51	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-01	Support	Supports the MRZ-PREC01-01 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC01-01 (Purpose) as notified.
Avryl Bramley	202.36	Residential Zones / Medium Density Residential Zone / MRZ-PREC02-01	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks amendment to MRZ-PREC02-01.4 (Mt Victoria North Townscape Precinct) to narrow discretion and clarify meaning.
Waka Kotahi	370.269	Residential Zones / Medium Density Residential Zone / MRZ-PREC02-01	Not specified	[Submitter has provided a neutral position on this provision] Considers that further weighting exercise is required in order to justify the inclusion, nature and extent of provisions related to special character.	Seeks that MRZ-PREC02-01 (Purpose) retained subject to further evaluation and weighting exercise to determine extent of protection required on balance with achieving the outcomes of the NPS-UD.
Kāinga Ora Homes and Communities	391.330	Residential Zones / Medium Density Residential Zone / MRZ-PREC02-01	Oppose	MRZ-PREC02-01 is opposed, consistent with the deletion of Character Precincts and associated provisions from zone chapters and as a qualifying matter.	Delete Objective MRZ-PREC02-01 (Purpose) as notified.
LIVE WELLington	FS96.26	Part 3 / Residential Zones / Medium Density Residential Zone / MRZPREC02-01	Oppose	Character precincts are a justifiable means of protecting unique Wellington areas of Victorian and Edwardian native timber housing, that is of a cohesive style and form. Many of these areas are iconic to Wellington.	Disallow
Roland Sapsford	FS117.25	Part 3 / Residential Zones / Medium Density Residential Zone / MRZPREC01-01	Oppose	Character precincts are a justifiable means of protecting unique Wellington areas of Victorian and Edwardian native timber housing, that is of a cohesive style and form. Many of these areas are iconic to Wellington.	Disallow
Lucy Harper and Roger Pemberton	401.52	Residential Zones / Medium Density Residential Zone / MRZ-PREC02-01	Support	Supports the MRZ-PREC02-01 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC02-01 (Purpose) as notified.
Anita Gude and Simon Terry	461.24	Residential Zones / Medium Density Residential Zone / MRZ-PREC02-01	Amend	Considers that MRZ-PREC02-01 may need to be amended if MRZ-PREC02-P1 (Maintenance of townscape values) is amended to include the requirement that "Applicants must demonstrate that the provisions of this Design Guide have been acknowledged and interpreted and their objectives satisfied" (as suggested by this submission)..	Amend MRZ-PREC02-01 (Purpose) by adding an objective statement concerning the "protecting against further erosion of what is sought to be protected".
Waka Kotahi	370.270	Residential Zones / Medium Density Residential Zone / MRZ-PREC03-01	Not specified	Submitter takes a neutral position on MRZ-PREC03-P1. Notes that relief sought to MRZ-PREC03 applies to this policy.	Not specified.
Kāinga Ora Homes and Communities	391.331	Residential Zones / Medium Density Residential Zone / MRZ-PREC03-01	Oppose	MRZ-PREC03-01 is opposed, consistent with the deletion of Character Precincts and associated provisions from zone chapters and as a qualifying matter.	Delete Objective MRZ-PREC03-01 (Purpose) as notified.
LIVE WELLington	FS96.27	Part 3 / Residential Zones / Medium Density Residential Zone / MRZPREC03-01	Oppose	Character precincts are a justifiable means of protecting unique Wellington areas of Victorian and Edwardian native timber housing, that is of a cohesive style and form. Many of these areas are iconic to Wellington.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Roland Sapsford	FS117.26	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC03-O1	Oppose	Character precincts are a justifiable means of protecting unique Wellington areas of Victorian and Edwardian native timber housing, that is of a cohesive style and form. Many of these areas are iconic to Wellington.	Disallow
Lucy Harper and Roger Pemberton	401.53	Residential Zones / Medium Density Residential Zone / MRZ-PREC03-O1	Support	Supports the MRZ-PREC03-O1 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC03-O1 (Purpose) as notified.
Oranga Tamariki	83.7	Residential Zones / Medium Density Residential Zone / MRZ-P1	Support	Oranga Tamariki support this policy, in particular the specific inclusion of supported residential care activities in (4). Supported residential care homes are considered to encompass Oranga Tamariki homes.	Retain MRZ-P1 (Enabled activities) as notified.
Scots College Incorporated	117.8	Residential Zones / Medium Density Residential Zone / MRZ-P1	Support in part	Considers that educational activities on the Scots College, Samuel Marsden College, Queen Margaret College and St Marks Church School campuses should be provided with permitted activity status to reflect their essential role in meeting the educational needs of residents of the City and so that they are treated by the District Plan similarly to public schools. The "Educational Precincts" in the Operative District Plan should be retained in the PDP. The PDP fails to "roll over" more permissive ODP provisions for educational activities on the Scots College Campus. This will expose the College to risks and constraints. It is the College's experience that the requirement for the College to have to apply for resource consent for new educational buildings that comply with the building standards of the ODP has not added any value or benefit to either the College or to residential neighbours.	Amend MRZ-P1 (Enabled activities) as follows: ... <u>7. Educational activities on school campuses identified in the District Plan Maps.</u>
Avryl Bramley	202.37	Residential Zones / Medium Density Residential Zone / MRZ-P1	Amend	Considers that these provisions allow the creeping commercialisation of these suburbs. There is no limit as to the number of these businesses that may be established in a suburb and a single business could begin to operate over a number of adjacent sites.	Amend MRZ-P1 (Enabled activities) as follows: ... 2. Visitor Accommodation 4. Supported Residential 5. Childcare Services ...
Ara Poutama Aotearoa the Department of Corrections	240.12	Residential Zones / Medium Density Residential Zone / MRZ-P1	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain MRZ-P1 (Enabled activities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.13	Residential Zones / Medium Density Residential Zone / MRZ-P1	Oppose in part	Considers that should Council see it as being absolutely necessary to implement the separate definition of "supported residential care activity", then Ara Poutama requests that the enabled activities policies and permitted land use activity rules applying to supported residential care activities in the Medium Density Residential, High Density Residential, Large Lot Residential and Corrections zones are retained as notified. The permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities. Such activities are an important component of the rehabilitation and reintegration process for people under Ara Poutama's supervision. They enable people and communities to provide for their social and cultural well-being and for their health and safety.	Retain MRZ-P1.4 (Enabled activities) as notified if "supported residential care activity" definition and references to term are retained.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.169	Residential Zones / Medium Density Residential Zone / MRZ-P1	Support in part	Considers emergency service activities, including the establishment of fire stations, are an integral part of providing for the health, safety, and wellbeing of people in the community. As such, FENZ seeks an amendment to MRZ-P1 to enable the establishment of emergency service facilities in the Medium Density Residential zone.	Supports MRZ-P1 (Enabled activities), with amendment.
Fire and Emergency New Zealand	273.170	Residential Zones / Medium Density Residential Zone / MRZ-P1	Amend	Considers emergency service activities, including the establishment of fire stations, are an integral part of providing for the health, safety, and wellbeing of people in the community. As such, FENZ seeks an amendment to MRZ-P1 to enable the establishment of emergency service facilities in the Medium Density Residential zone.	Amend MRZ-P1 (Enabled activities) as follows: Enable residential activities and other activities that are compatible with the purpose of the Medium Density Residential Zone, while ensuring their scale and intensity is consistent with the amenity values anticipated for the Zone, including: 1. Home Business; 2. Boarding Houses; 3. Visitor Accommodation; 4. Supported Residential Care; 5. Childcare Services; and 6. Community Gardens. <u>7. Emergency service facilities</u>
Phillippa O'Connor	289.16	Residential Zones / Medium Density Residential Zone / MRZ-P1	Support in part	Considers the scope of activities enabled in the Medium Density Residential zone are limited and do not align with current rule MRZ-R10 or proposed new rule MRZ-P11.	Retain Policy MRZ-P1 (Enabled activities) with amendment.
Phillippa O'Connor	289.17	Residential Zones / Medium Density Residential Zone / MRZ-P1	Amend	Considers the scope of activities enabled in the Medium Density Residential zone are limited and do not align with current rule MRZ-R10 or proposed new rule MRZ-P11.	Amend Policy MRZ-P1 (Enabled activities) as follows: Enable residential activities and other activities that are compatible with the purpose of the Medium Density Residential Zone, while ensuring their scale and intensity is consistent with the amenity values anticipated for the Zone, including: 1. Home Business; 2. Boarding Houses; 3. Visitor Accommodation; 4. Supported Residential Care; 5. Childcare Services; and 6. Community Gardens.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.51	Residential Zones / Medium Density Residential Zone / MRZ-P1	Support	Supports the appropriate Medium Density Residential Zoning of their land.	Retain MRZ-P1 (Enabled activities) as notified.
Khoi Phan	326.12	Residential Zones / Medium Density Residential Zone / MRZ-P1	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend MRZ-P1 (Enabled activities) as follows: Enable residential activities and other activities that are compatible with the purpose of the Medium Density Residential Zone, while ensuring their scale and intensity is consistent with the amenity values anticipated for the Zone, including: 1. Home Business; 2. Boarding Houses; 3. Visitor Accommodation; 4. Supported Residential Care; 5. Childcare Services; and 6. Community Gardens; <u>and</u> <u>7. Commercial Activities</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.110	Residential Zones / Medium Density Residential Zone / MRZ-P1	Oppose	<p>Considers that the policy appears to identify / support the permitted activities of the MDR Zone - being some residential activities (e.g. boarding houses, visitor accommodation and supported residential care), and some non-residential activities (e.g. home businesses, childcare services and community gardens). Considers that retirement villages are residential activities that should be permitted in the residential zones. Rather than listing retirement villages in this policy, considers that an enabling retirement village-specific policy (MRZ-P6) is more appropriate.</p> <p>Considers that while the policy is seeking to 'enable' the permitted activities in the zone, the phrasing of the policy qualifies this enabling provision by reference to a scale and intensity that is 'consistent with the amenity values anticipated for the zone'. Considers this part of MRZ-P1 conflicts with the MDRS in that it seeks to manage the form, scale and design of development in a manner that is inconsistent with the direction provided in the Enabling Housing Act for the MRZ.</p> <p>Considers that MRZ-P1 appears to summarise provisions provided elsewhere in the chapter, but in a confusing manner that does not provide any additional guidance for consent applicants or other users of the District Plan.</p>	Delete MRZ-P1 (Enabled activities) in its entirety as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.112	Residential Zones / Medium Density Residential Zone / MRZ-P1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-P1 (Enabled activities) as notified.
Kāinga Ora Homes and Communities	391.332	Residential Zones / Medium Density Residential Zone / MRZ-P1	Support in part	MRZ-P1 is generally supported, but an amendment is sought.	Retain MRZ-P1 (Enabled activities) with amendment.
Kāinga Ora Homes and Communities	391.333	Residential Zones / Medium Density Residential Zone / MRZ-P1	Amend	Considers that NOISE-P3 should be clarified to better recognise the intent of the NPS-UD (particularly Policy 6) that recognises the planned urban built form and that change to existing amenity is not in itself an adverse effect.	<p>Amend MRZ-P1 (Enabled activities) as follows:</p> <p>Enable residential activities and other activities that are compatible with the purpose of the Medium Density Residential Zone, while ensuring their scale and intensity is consistent with the amenity values values anticipated <u>and planned built form of</u> for the Zone, including:</p> <ol style="list-style-type: none"> 1. Home Business; 2. Boarding Houses; 3. Visitor Accommodation; 4. Supported Residential Care; 5. Childcare Services; and 6. Community Gardens.
Metlifecare Limited	413.16	Residential Zones / Medium Density Residential Zone / MRZ-P1	Oppose	<p>The policy is being introduced as part of the P1 Sch1 process but is inconsistent with the mandatory policies in the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021 which seek to enable a variety of housing typologies regardless of their use.</p> <p>It should therefore be limited to "other activities".</p>	Seeks to remove this policy.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Metlifecare Limited	413.17	Residential Zones / Medium Density Residential Zone / MRZ-P1	Oppose	The policy is being introduced as part of the P1 Sch1 process but is inconsistent with the mandatory policies in the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021 which seek to enable a variety of housing typologies regardless of their use. It should therefore be limited to "other activities".	Seeks to amend MRZ-P1 (Enabled activities) as follows: Enable residential activities and other activities that are compatible with the purpose of the Medium Density Residential Zone, while ensuring their scale and intensity is consistent with the amenity values anticipated for the Zone, including: 1. Home Business; 2. Boarding Houses; 3. Visitor Accommodation; 4. Supported Residential Care; 5. Childcare Services; and 6. Community Gardens.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.52	Residential Zones / Medium Density Residential Zone / MRZ-P2	Support	Supports the appropriate Medium Density Residential Zoning of their land.	Retain MRZ-P2 (Housing supply and choice) as notified.
Tapu-te-Ranga Trust	297.27	Residential Zones / Medium Density Residential Zone / MRZ-P2	Support	Supports the inclusion of a policy enabling a variety of housing typologies within the zone.	Retain MRZ-P2 (Housing supply and choice) as notified.
Disabled Persons Assembly New Zealand Incorporated	343.3	Residential Zones / Medium Density Residential Zone / MRZ-P2	Support	Supports policy MRZ-P2. Notes that Disabled people currently lack housing choices due to the traditional design of housing not enabling accessibility. Concepts, such as Universal Design, need to be incorporated into the design of all new builds and this can be done with a wide range of housing designs. [Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]	Retain MRZ-P2 (Housing supply and choice) as notified. [Inferred decision requested]
Retirement Villages Association of New Zealand Incorporated	350.111	Residential Zones / Medium Density Residential Zone / MRZ-P2	Support	Supports MRZ-P2 as it aligns with Policy 1 of the MDRS.	Retain MRZ-P2 (Housing supply and choice) as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.113	Residential Zones / Medium Density Residential Zone / MRZ-P2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-P2 (Housing supply and choice) as notified.
Kāinga Ora Homes and Communities	391.334	Residential Zones / Medium Density Residential Zone / MRZ-P2	Support in part	MRZ-P2 is generally supported, but an amendment is sought.	Retain MRZ-P2 (Housing supply and choice) with amendment.
Kāinga Ora Homes and Communities	391.335	Residential Zones / Medium Density Residential Zone / MRZ-P2	Amend	Considers that MRZ-P2 should be amended to provide for additional height and density in areas in the MRZ with high accessibility to public transport, commercial amenity and community services. (Option A)	Amend MRZ-P2 (Housing supply and choice) as follows: Enable a variety of housing typologies with a mix of densities within the zone, including 3-storey attached and detached dwellings, and low-rise apartments <u>up to 5 storeys in areas of in areas of high accessibility to public transport, commercial amenity and community services.</u>
Metlifecare Limited	413.18	Residential Zones / Medium Density Residential Zone / MRZ-P2	Support	Supports this policy on the basis it is required by the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021.	Retain MRZ-P2 (Housing supply and choice) as notified.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.53	Residential Zones / Medium Density Residential Zone / MRZ-P3	Support	Supports the appropriate Medium Density Residential Zoning of their land.	Retain MRZ-P3 (Housing needs) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Tapu-te-Ranga Trust	297.28	Residential Zones / Medium Density Residential Zone / MRZ-P3	Support	Supports the inclusion of this policy as it supports the development of papakāinga housing.	Retain MRZ-P3 (Housing needs) as notified.
Disabled Persons Assembly New Zealand Incorporated	343.4	Residential Zones / Medium Density Residential Zone / MRZ-P3	Amend	Considers that replacing the term 'abilities' with 'impairments' in MRZ-P3 is more appropriate. Notes that using the term 'abilities' to refer to disabled people is regarded as euphemistic by many within the disabled community. [Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]	Amend MRZ-P3 (Housing needs) as follows: Enable housing to be designed to meet the day-to-day needs of residents, and encourage a variety of housing types, sizes and tenures to cater for people of all ages, lifestyles and abilities <u>impairments</u> . [Inferred decision requested]
Retirement Villages Association of New Zealand Incorporated	350.112	Residential Zones / Medium Density Residential Zone / MRZ-P3	Oppose in part	Considers that the current drafting of the first part of MRZ-P3 aligns with the wording of Policy 4 of the MDRS; however surplus to the requirements of the Act MRZ-P3 seeks to 'encourage a variety of housing types, sizes and tenures to cater for people of all ages, lifestyles and abilities', which is generally already covered by MRZ-P2.	Opposes MRZ-P3 (Housing needs) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.113	Residential Zones / Medium Density Residential Zone / MRZ-P3	Amend	Considers that the current drafting of the first part of MRZ-P3 aligns with the wording of Policy 4 of the MDRS; however surplus to the requirements of the Act MRZ-P3 seeks to 'encourage a variety of housing types, sizes and tenures to cater for people of all ages, lifestyles and abilities', which is generally already covered by MRZ-P2.	Amend MRZ-P3 (Housing needs) as follows: Enable housing to be designed to meet the day-to-day needs of residents, and encourage a variety of housing types, sizes and tenures to cater for people of all ages, lifestyles and abilities.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.114	Residential Zones / Medium Density Residential Zone / MRZ-P3	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-P3 (Housing needs) as notified.
Kāinga Ora Homes and Communities	391.336	Residential Zones / Medium Density Residential Zone / MRZ-P3	Support in part	MRZ-P3 is generally supported, but an amendment is sought.	Retain MRZ-P3 (Medium density residential standards) with amendment.
Kāinga Ora Homes and Communities	391.337	Residential Zones / Medium Density Residential Zone / MRZ-P3	Amend	Considers that MRZ-P3 should be amended to remove reference of tenures. This would recognise that tenures cannot and should not be managed through the District Plan.	Amend MRZ-P3 (Medium density residential standards) as follows: Enable housing to be designed to meet the day-to-day needs of residents, and encourage a variety of housing types, and sizes and tenures to cater for people of all ages, lifestyles and abilities.
Metlifecare Limited	413.19	Residential Zones / Medium Density Residential Zone / MRZ-P3	Support in part	Supports this policy on the basis it is required by the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021.	Retain provision, subject to amendments, as outlined other submission points.
Metlifecare Limited	413.20	Residential Zones / Medium Density Residential Zone / MRZ-P3	Amend	Considers an addition has been made to indicate that housing should cater for people of all ages, lifestyles and abilities. The amendments made create a new consideration that was not anticipated by the mandatory policy. It also unnecessarily overlaps with the policy enabling a variety of housing typologies (P2). Therefore, while Metlifecare supports the intention of the addition that was made, it	Amend MRZ-P3 (Housing needs) as follows (or words to similar effect): Enable housing to be designed to meet the day-to-day needs of residents, including by and encouraging a variety of housing types, sizes and tenures to and catering for people of all ages, lifestyles and abilities.
Leeanne Templer	206.3	Residential Zones / Medium Density Residential Zone / MRZ-P4	Amend	Considers that Rama Crescent does not have the infrastructure for further intensification. Considers that there is a need to retain existing covenants on titles in Rama Crescent which protect views. Considers that there needs to be provision for onsite parking in Rama Crescent because public transport can't enter and walking is tough. Considers that ambassadorial residences on the street require privacy and further stories and intensification would compromise this.	Seeks an amendment to MRZ-P4 (Medium Density Residential Standards) to exclude Rama Crescent and streets above it from the application of MRZ-P4.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kilmarston Developments Limited and Kilmarston Properties Limited	290.54	Residential Zones / Medium Density Residential Zone / MRZ-P4	Support	Supports the appropriate Medium Density Residential Zoning of their land.	Retain MRZ-P4 (Medium density residential standards) as notified.
Tapu-te-Ranga Trust	297.29	Residential Zones / Medium Density Residential Zone / MRZ-P4	Support	Supports the recognition of Māori and their culture and traditions with their ancestral lands, water, sites, wāhi tapu and other taonga.	Retain MRZ-P4 (Medium density residential standards) as notified.
Transpower New Zealand Limited	315.184	Residential Zones / Medium Density Residential Zone / MRZ-P4	Support	Supports MRZ-P4 (noting it reflects that required under Schedule 3A Part 1(6)(2) of the RMA) in that it recognises qualifying matters.	Retain MRZ-P4 (Medium density residential standards) as notified.
Retirement Villages Association of New Zealand Incorporated	350.114	Residential Zones / Medium Density Residential Zone / MRZ-P4	Oppose in part	Supports MRZ-P4 to the extent it aligns with Policy 2 of the MDRS. However, considers that the replacement of "all relevant residential zones" with reference to the MRZ creates interpretation issues as it suggests the medium density residential standards do not apply in parts of the MRZ (but not what standards apply instead). Areas subject to qualifying matters have not been zoned MRZ so that part of the policy is not required.	Opposes MRZ-P4 (Medium density residential standards) and seeks amendment as follows: Apply the medium density residential standards across the Medium Density Residential Zone except in circumstances where a qualifying matter is relevant (including matters of significance such as historic heritage and the relationship of Māori and their culture and traditions with their ancestral lands, water, sites, wāhi tapu, and other taonga).
Wellington Tenth Trust	363.3	Residential Zones / Medium Density Residential Zone / MRZ-P4	Amend	Considers that conversation around amending height control limit is appropriate. [see original submission]	Seeks to amend MRZ-S2 (Building Height Control 2) height control limit at 557 Adelaide Road from 14m to heights advised by the Wellington Tenth Trust.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.115	Residential Zones / Medium Density Residential Zone / MRZ-P4	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-P4 (Medium density residential standards) as notified.
Kāinga Ora Homes and Communities	391.338	Residential Zones / Medium Density Residential Zone / MRZ-P4	Support	MRZ-P4 is generally supported.	Retain MRZ-P4 (Medium density residential standards) as notified.
Metlifecare Limited	413.21	Residential Zones / Medium Density Residential Zone / MRZ-P4	Support	Supports this policy on the basis it is required by the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021.	Retain MRZ-P4 (Medium density residential standards) as notified.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.55	Residential Zones / Medium Density Residential Zone / MRZ-P5	Support	Supports the appropriate Medium Density Residential Zoning of their land.	Retain MRZ-P5 (Developments not meeting permitted activity status) as notified.
Tapu-te-Ranga Trust	297.30	Residential Zones / Medium Density Residential Zone / MRZ-P5	Support	Supports the inclusion of a policy which provides for developments not meeting permitted activity status given marae activities may require resource consent.	Retain MRZ-P5 (Developments not meeting permitted activity status) as notified.
Retirement Villages Association of New Zealand Incorporated	350.115	Residential Zones / Medium Density Residential Zone / MRZ-P5	Support	Supports MRZ-P5 as it aligns with Policy 5 of the MDRS.	Retain MRZ-P5 (Developments not meeting permitted activity status) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.116	Residential Zones / Medium Density Residential Zone / MRZ-P5	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-P5 (Developments not meeting permitted activity status) as notified.
Kāinga Ora Homes and Communities	391.339	Residential Zones / Medium Density Residential Zone / MRZ-P5	Support	MRZ-P5 is generally supported.	Retain MRZ-P5 (Developments not meeting permitted activity status) as notified.
Metlifecare Limited	413.22	Residential Zones / Medium Density Residential Zone / MRZ-P5	Support	Supports this policy on the basis it is required by the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021.	Retain MRZ-P5 (Developments not meeting permitted activity status) as notified.
Survey & Spatial New Zealand Wellington Branch	439.36	Residential Zones / Medium Density Residential Zone / MRZ-P5	Amend	Considers that Council's scope is too broad under this policy as it would allow Council to change any aspect of a proposal.	Amend MRZ-P5 (Developments not meeting permitted activity status) to: Provide for developments not meeting permitted activity status, while encouraging high-quality <u>developments buildings</u> .
Stratum Management Limited	249.17	Residential Zones / Medium Density Residential Zone / MRZ-P6	Amend	<p>Considers that policy MRZ-P6 (Multi-unit housing) seeks to provide for multi-unit housing where the development can demonstrate four factors. The first matter relates to 'fulfilling' the intent of the residential design guide. The residential design guide, as notified, contains 137 individual guidelines. It is unclear how, or what point, any given multi-unit development can fulfil the intent of the design guide given that a design guide assessment is inherently a subjective assessment. Is the intent of the design guide fulfilled when a proposal is considered to achieve more than 50% of the applicable design guides for example? The approach to this matter is also inconsistent with the approach adopted by the City Centre zone. In that zone, the reference to the design guide is made within the matters for discretion of, for example, Rule CCZ-R20. It also omits reference to 'fulfilling the intent of' the design guide. This approach is preferred. The second matter requires the provision of a minimum area of private or shared open space. In the context of this policy, a multi-unit development that does not meet the minimum area standard should not be provided for.</p> <p>Notwithstanding that non-compliance with the standard can be considered through a resource consent process. Matter 3 requires the provision for on site management of waste storage and collection. This matter is also considered through the design guide. Stratum invites further consideration of the appropriate means to achieve this and suggests that there may be duplication across the policy and design guide.</p>	<p>Amend MRZ-P6 (Multi-unit housing) as follows:</p> <p>Delete matters (1);</p> <p>Delete the words 'a minimum area of' from matter (2);</p> <p>Consider whether the policy needs to address matters relating to waste storage and collection.</p>
Fire and Emergency New Zealand	273.171	Residential Zones / Medium Density Residential Zone / MRZ-P6	Support	Supports the policy as it provides for multi-unit housing and retirement villages where it can be demonstrated that the development can be adequately serviced by three waters infrastructure, or can address any constraints on the site.	Retain MRZ-P6 (Multi-unit housing) as notified.
Phillippa O'Connor	289.18	Residential Zones / Medium Density Residential Zone / MRZ-P6	Support in part	Considers that Reference to the Design Guide as a matter of discretion (by virtue of referring to Policy MRZ-P6 in the matters of discretion for activities requiring consent under MRZ-R14) is challenged and deletion sought accordingly. Given the prescriptive, yet subjective, nature of the assessment, elevating this Guide to a statutory requirement for compliance or assessment is not considered appropriate or commensurate in respect of a restricted discretionary activity assessment.	Retain MRZ-P6 (Multi-unit housing) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Phillippa O'Connor	289.19	Residential Zones / Medium Density Residential Zone / MRZ-P6	Amend	Considers that Reference to the Design Guide as a matter of discretion (by virtue of referring to Policy MRZ-P6 in the matters of discretion for activities requiring consent under MRZ-R14) is challenged and deletion sought accordingly. Given the prescriptive, yet subjective, nature of the assessment, elevating this Guide to a statutory requirement for compliance or assessment is not considered appropriate or commensurate in respect of a restricted discretionary activity assessment.	Amend MRZ-P6 (Multi-unit housing) as follows: Provide for multi-unit housing where it can be demonstrated that the development: 1. Fulfils the intent of the Residential Design Guide; 1. 2. Provides a minimum area of private or shared outdoor living space that is sufficient to cater for the needs of future occupants; 2. 3. Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; and 3. 4. Is adequately serviced by three waters infrastructure or can address any constraints on the site.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.56	Residential Zones / Medium Density Residential Zone / MRZ-P6	Support	Supports the appropriate Medium Density Residential Zoning of their land.	Retain MRZ-P6 (Multi-unit housing) as notified.
Tapu-te-Ranga Trust	297.31	Residential Zones / Medium Density Residential Zone / MRZ-P6	Support	Supports the inclusion of a policy providing for multi-unit housing in the Medium Density Residential Zone, and the reference to the Residential Design Guide (as this supports papakāinga).	Retain MRZ-P6 (Multi-unit housing) as notified.
Paihikara Ki Pōneke Cycle Wellington	302.38	Residential Zones / Medium Density Residential Zone / MRZ-P6	Support in part	[No specific reason given beyond decision requested - refer to original submission].	Retain MRZ-P6 (Multi-unit housing) with amendment.
Paihikara Ki Pōneke Cycle Wellington	302.39	Residential Zones / Medium Density Residential Zone / MRZ-P6	Amend	Considers that MRZ-P6 should be amended, as multi-unit housing and other non-residential activities and building cannot require car parking as set out in the NPS-UD. Developments should provide adequate and appropriately located cycle and micromobility parking to align with infrastructure and transport objectives in the PDP.	Amend MRZ-P6 (Multi-unit housing) as follows: Provide for multi-unit housing where it can be demonstrated that the development: 1. Fulfils the intent of the Residential Design Guide; 2. Provides a minimum area of private or shared outdoor living space that is sufficient to cater for the needs of future occupants; 3. Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; and 4. Is adequately serviced by three waters infrastructure or can address any constraints on the site. <u>5. Provides an adequate and appropriately located area on site for cycle and micromobility parking and charging;</u> <u>6. Adequate cycle facilities are accessible, secure, and covered (protected from weather)</u>
Disabled Persons Assembly New Zealand Incorporated	343.5	Residential Zones / Medium Density Residential Zone / MRZ-P6	Support	Supports policy MRZ-P6. Notes that disabled people need to be accommodated in all types of housing, including in multiunit housing which will only grow in number as housing intensification increases. [Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]	Retain MRZ-P6 (Multi-unit housing) as notified. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Z Energy Limited	361.17	Residential Zones / Medium Density Residential Zone / MRZ-P6	Amend	<p>Considers that as it stands, the PDP will enable the construction and use of three dwellings on properties that share a common boundary with the Z on Constable Street, with a maximum height of 11m and more permissive building recession planes, as a permitted activity. In addition, resource consents may be obtained as a restricted discretionary activity to construct buildings on these properties up to 25m in height with no limit to the number of residential units (i.e.: density). These greater residential densities and more permissive building standards are likely to generate greater potential for reverse sensitivity effects that may affect the ongoing operation, maintenance and upgrade of Z facilities which are a physical resource that must be managed under the Act.</p> <p>Several of Z Energy's service stations either directly adjoin or are located in close proximity. The proposed changes to the residential zone provisions and consequential increase in development potential on these surrounding sites have the potential to generate reverse sensitivity effects including nuisance effects (e.g. noise, lighting and odour displacement) and amenity effects. For instance, an occupier on a third storey apartment building is more likely to perceive noise and visual effects compared to an occupier of single storey dwelling which is less elevated and, more than likely, screened by a fence and landscaping. [Refer to original submission, including table of Z sites]</p>	<p>Amend MRZ-P6 (Multi-unit housing) as follows:</p> <p>Provide for multi-unit housing where it can be demonstrated that the development:</p> <ol style="list-style-type: none"> 1. Fulfils the intent of the Residential Design Guide; 2. Provides a minimum area of private or shared outdoor living space that is sufficient to cater for the needs of future occupants; 3. Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; and 4. Is adequately serviced by three waters infrastructure or can address any constraints on the site. <u>5. Manages reverse sensitivity effects on existing lawfully established non-residential activities.</u>
Kāinga Ora – Homes and Communities	FS89.155	Part 3 / Residential Zones / High Density Residential Zone / MRZP6	Oppose	Kāinga Ora opposes the decision sought relating to recognition of reverse sensitivity in matters of discretion due to potential impacts on residential intensification.	Disallow
Waka Kotahi	370.271	Residential Zones / Medium Density Residential Zone / MRZ-P6	Support in part	Policy MRZ-P6 is supported, but amendment is sought.	Retain Policy MRZ-P6 (Multi-unit housing) and seeks amendment.
Waka Kotahi	370.272	Residential Zones / Medium Density Residential Zone / MRZ-P6	Amend	Considers that multi-unit housing should be appropriately designed and insulated to mitigate noise effects from the existing environment in the interests of the human health of occupants. Considers that commercial activities should be encouraged and supported where appropriate and integrated with residential development.	<p>Amend Policy MRZ-P6 (Multi-unit housing) as follows:</p> <p>Provide for multi-unit housing where it can be demonstrated that the development:</p> <p>...</p> <ol style="list-style-type: none"> 4. Is adequately serviced by three waters infrastructure or can address any constraints on the site; <u>and</u> <u>5. Where located in proximity to legally established activities that emit noise (such as State Highways), buildings for noise sensitive activities are designed to mitigate noise and vibration effects to occupants.</u> <u>6. For higher density developments, options to incorporate mixed-uses such as commercial activities have been explored.</u>
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.117	Residential Zones / Medium Density Residential Zone / MRZ-P6	Support in part	MRZ-P6 is partially supported, but amendments are required for proposed residential developments that adjoin or are in close proximity to lawfully established non-residential activities where reverse sensitivity effects might occur.	Retain MRZ-P6 (Multi-unit housing) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.118	Residential Zones / Medium Density Residential Zone / MRZ-P6	Amend	Considers that MRZ-P6 should be amended to better protect larger-scale and higher-density residential developments where they have been appropriately designed to manage reverse sensitivity where there is an interface with a Commercial or Mixed-Use Zone, or with lawfully established non-residential activities. Amendments are required for proposed residential developments that adjoin or are in close proximity to lawfully established non-residential activities where reverse sensitivity effects might occur. The following relief appropriately gives effect to design principle 1(c): 'The Site' of the National Medium Density Design Guide (Ministry for the Environment, May 2022) which encourages new development to respond to existing or proposed nearby non-residential activities.	Amend MRZ-P6 (Multi-unit housing) as follows: Provide for multi-unit housing where it can be demonstrated that the development: 1. Fulfils the intent of the Residential Design Guide; 2. Provides a minimum area of private or shared outdoor living space that is sufficient to cater for the needs of future occupants; 3. Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; and 4. Is adequately serviced by three waters infrastructure or can address any constraints on the site. <u>5. Manages reverse sensitivity effects on existing lawfully established non-residential activities.</u>
Kāinga Ora – Homes and Communities	FS89.48	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ – P6	Oppose	Kāinga Ora opposes the relief sought due to potential impacts on the scale of residential intensification.	Disallow
The Retirement Villages Association of New Zealand Incorporated	FS126.15	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-P6	Oppose	The RVA opposes the relief sought in these submission points as reverse sensitivity should be managed through appropriate setback provisions rather than requiring activities contemplated in the zone to manage the effects of activities outside the zone.	Disallow
Ryman Healthcare Limited	FS128.15	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-P6	Oppose	Ryman opposes the relief sought in these submission points as reverse sensitivity should be managed through appropriate setback provisions rather than requiring activities contemplated in the zone to manage the effects of activities outside the zone.	Disallow
Envirowaste Services Ltd	373.10	Residential Zones / Medium Density Residential Zone / MRZ-P6	Support in part	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-P6 (Multi-unit housing) with amendment.
Envirowaste Services Ltd	373.11	Residential Zones / Medium Density Residential Zone / MRZ-P6	Amend	Considers that the collection of waste from multi-unit housing sites needs the waste storage areas to be accessed by rubbish trucks or conveniently walked to the kerb for pickup. Specific consideration of the accessibility of waste collection by collection trucks needs to be ensured.	Seeks that specific consideration of the accessibility of waste collection by collection truck be ensured in MRZ-P6 (Multi-unit housing).
WCC Environmental Reference Group	377.323	Residential Zones / Medium Density Residential Zone / MRZ-P6	Amend	Notes that an effect of the Resource Management (Enabling Housing Supply and Other Matters) Amendment Bill is that more development is enabled further away from the City, with the bulk of Wellington's residential areas now zoned 'medium density'. To help mitigate this, the submitter seeks that there also be a need to ensure multi-unit developments reduce reliance on travel by private motor vehicle when considered for consenting.	Amend MRZ-P6 (Multi-unit housing) to add an additional point, as follows: <u>"Reduce reliance on travel by private motor vehicle"</u>
Kāinga Ora Homes and Communities	391.340	Residential Zones / Medium Density Residential Zone / MRZ-P6	Oppose in part	MRZ-P6 is opposed and amendments are sought.	Opposes MRZ-P6 (Multi-unit housing) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.341	Residential Zones / Medium Density Residential Zone / MRZ-P6	Amend	<p>Considers that MRZ-P6 should be amended to delete 'multi-unit housing' as a separate activity type from stand-alone houses or any other residential typology for the purposes of the zone rules and standards. Residential development should be considered on the basis of its effects and merits rather than specifically on typology or the scale/collective number of dwellings.</p> <p>The policy should therefore provide for residential activity beyond the permitted activity status and a framework that includes the outcome that the District Plan is seeking to achieve. Amendments are sought to the policy to allow reference to more than three residential units on a site as these are managed through a resource consent process.</p> <p>The direct reference to the design guide should be removed, as design guides should be removed from the Plan and treated as a nonstatutory tool outside of the District Plan. Amendments are therefore sought to articulate the urban design outcomes that are sought and to recognise changing amenity in accordance with the NPS-UD.</p> <p>If the Council does not provide the relief sought, in deleting the design guidelines and references to such guidelines in the District Plan, it is sought that the design guidelines are amended, simplified and written in a manner that is easy to follow. The outcomes sought in the guidelines should read as desired requirements with sufficient flexibility to provide for a design that fits and works on site, rather than rules that a consent holder must follow and adhere to. Otherwise, there is no flexibility and scope to create a design that fits with specific site characteristics and desired built form development. Kāinga Ora seeks the opportunity to review these guidelines if they are to remain a statutory document.</p>	<p>Amend MRZ-P6 (Multi-unit housing) as follows:</p> <p>Multi-unit housing <u>Higher density residential development</u></p> <p>Provide for multi-unit housing <u>more than three residential units per site</u> where it can be demonstrated that the development:</p> <ol style="list-style-type: none"> Fulfills the intent of the Residential Design Guide; <u>Achieves the following urban design outcomes:</u> <ol style="list-style-type: none"> <u>Provides an effective public private interface;</u> <u>The scale, form, and appearance of the development is compatible with the planned urban built form of the neighbourhood;</u> <u>Provides high quality buildings;</u> <u>Responds to the natural environment.</u> Provides a minimum area of private or shared outdoor living space that is sufficient to cater for the needs of future occupants; Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; and Is adequately able to be serviced by three waters infrastructure or can address any constraints on the site. <p><u>Note: Best practice urban design guidance is contained within Council's Design Guidelines.</u></p>
Wellington's Character Charitable Trust	FS82.133	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-P6	Oppose	Considers the signalled direction in the introduction would be more enabling than MDRS requirements without adequate justification.	Disallow
LIVE WELLington	FS96.28	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-P6	Oppose	The submission to remove reference to the Design guide is opposed, along with amendments to multi unit housing requirements. This form of housing requires special scrutiny to ensure it fits with the community and local environment.	Disallow
Roland Sapsford	FS117.27	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-P6	Oppose	The submission to remove reference to the Design guide is opposed, along with amendments to multi unit housing requirements. This form of housing requires special scrutiny to ensure it fits with the community and local environment.	Disallow
Willis Bond and Company Limited	416.70	Residential Zones / Medium Density Residential Zone / MRZ-P6	Amend	<p>Considers that generally, a more permissive approach to multi-unit housing should be taken within the Medium Density Residential Zone provided the relevant height limits and building envelope controls are complied with.</p> <p>The Residential Design Guide should be non-statutory. [Refer to submission points made on 'Design Guides' and HRZ – P6].</p> <p>Lack of infrastructure should not limit housing development. It should just be a question of cost.</p> <p>[Refer to submission points made on SCA-O1 –SCA-O6].</p>	<p>Delete clause 1 and 4 of MRZ-P6 (Multi-unit housing) as follows:</p> <p>Multi-unit housing</p> <p>Provide for multi-unit housing where it can be demonstrated that the development:</p> <ol style="list-style-type: none"> Fulfills the intent of the Residential Design Guide; Provides a minimum area of private or shared outdoor living space that is sufficient to cater for the needs of future occupants; Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; and Is adequately serviced by three waters infrastructure or can address any constraints on the site.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
The Retirement Villages Association of New Zealand Incorporated	FS126.253	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-P6	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.253	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-P6	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Te Rūnanga o Toa Rangatira	488.74	Residential Zones / Medium Density Residential Zone / MRZ-P6	Support	Supports MRZ-P6 as enabling the collection of all kinds of waste, this will be beneficial in reducing waste pollution and enable more sustainable living.	Retain MRZ-P6 (Multi-unit housing) as notified.
Fire and Emergency New Zealand	273.172	Residential Zones / Medium Density Residential Zone / MRZ-P7	Support	Supports the policy as it provides for multi-unit housing and retirement villages where it can be demonstrated that the development can be adequately serviced by three waters infrastructure, or can address any constraints on the site.	Retain MRZ-P7 (Retirement villages) as notified.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.57	Residential Zones / Medium Density Residential Zone / MRZ-P7	Support	Supports the appropriate Medium Density Residential Zoning of their land.	Retain MRZ-P7 (Retirement Villages) as notified.
Retirement Villages Association of New Zealand Incorporated	350.116	Residential Zones / Medium Density Residential Zone / MRZ-P7	Oppose in part	<p>Supports the inclusion of a retirement village specific policy in the Proposed Plan; however, considers that some of the clauses of this policy are inappropriate for the reasons set out in this submission, including that they conflict with the MDRS. References Clause 1 of MRZ-P7 seeks to 'fulfil the intent of the Residential Design Guide' - The Residential Design Guide makes no specific reference to retirement villages, and there is no guidance provided as to why the requirements that are applicable to non-retirement village activities apply in the same manner to retirement villages (despite retirement villages being a unique activity with substantially differing functional and operational needs).</p> <p>Considers that the 'intent' of the Residential Design Guide is not identified within the Proposed Plan, or the Design Guide itself, and as such no guidance is provided as to how to measure a development against this intent. Considers high quality developments can be encouraged through other mechanisms. It is noted that an additional clause (Clause 5 –consistency of intensity, scale and design with zone amenity values) is applicable to the retirement village policy (MRZ-P7) to those applicable to multi-unit housing (MRZ-P6).</p> <p>Considers that recognising that retirement villages and multiunit housing developments are assessed against the same provisions in many places throughout the Proposed Plan, and that they can be and frequently are constructed at similar scales, it is unclear why retirement villages are subject to additional provisions. The RVA considers this clause is inconsistent with the MDRS and should be deleted.</p> <p>Considers that MRZ-P7 does not appropriately provide for / recognise the functional and operational needs of retirement villages, and that they may require greater density than the planned urban built character to enable efficient provision of services, and have unique layouts and internal amenity needs to cater to the needs of residents.</p>	Opposes MRZ-P7 (Retirement villages) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.117	Residential Zones / Medium Density Residential Zone / MRZ-P7	Amend	<p>Supports the inclusion of a retirement village specific policy in the Proposed Plan; however, considers that some of the clauses of this policy are inappropriate for the reasons set out in this submission, including that they conflict with the MDRS. Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Envirowaste Services Ltd	373.13	Residential Zones / Medium Density Residential Zone / MRZ-P7	Amend	Considers that the collection of waste from retirement villages needs the waste storage areas to be accessed by rubbish trucks or conveniently walked to the kerb for pickup. Specific consideration of the accessibility of waste collection by collection trucks needs to be ensured.	Seeks that specific consideration of the accessibility of waste collection by collection trucks be ensured in MRZ-P7 (Retirement villages).
Kāinga Ora Homes and Communities	391.342	Residential Zones / Medium Density Residential Zone / MRZ-P7	Support in part	MRZ-P7 is generally supported, but an amendment is sought.	Retain MRZ-P7 (Retirement villages) with amendment.
Kāinga Ora Homes and Communities	391.343	Residential Zones / Medium Density Residential Zone / MRZ-P7	Amend	<p>Considers that MRZ-P7 should be amended to remove direct reference to the design guide, as design guides should be removed from the Plan and treated as a non-statutory tool outside of the District Plan. Amendments are therefore sought to articulate the urban design outcomes that are sought and to recognise changing amenity in accordance with the NPSUD. If the Council does not provide the relief sought, in deleting the design guidelines and references to such guidelines in the District Plan, Kāinga Ora seeks that the design guidelines are amended, simplified and written in a manner that is easy to follow.</p> <p>The outcomes sought in the guidelines should read as desired requirements with sufficient flexibility to provide for a design that fits and works on site, rather than rules that a consent holder must follow and adhere to. Otherwise, there is no flexibility and scope to create a design that fits with specific site characteristics and desired built form development.</p> <p>Kāinga Ora seek the opportunity to review these guidelines if they are to remain a statutory document.</p>	<p>Amend MRZ-P7 (Retirement villages) as follows:</p> <p>Provide for retirement villages where it can be demonstrated that the development:</p> <ol style="list-style-type: none"> Fulfills the intent of the Residential Design Guide; <u>Achieves the following urban design outcomes:</u> <ol style="list-style-type: none"> <u>Provides an effective public private interface;</u> <u>The scale, form, and appearance of the development is compatible with the planned urban built form of the neighbourhood;</u> <u>Provides high quality buildings.</u> <u>Responds to the natural environment.</u> Includes outdoor space that is sufficient to cater for the needs of the residents of the village; Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; Is adequately able to be <u>adequately able to be</u> serviced by three waters infrastructure or can address any constraints on the site; and Is of an intensity, scale and design that is consistent with the amenity values <u>amenity values anticipated and planned built form</u> for the Zone. <p><u>Note: Best practice urban design guidance is contained within Council's Design Guidelines.</u></p>
Onslow Residents Community Association	FS80.25	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-P7	Oppose	[No specific reason given beyond decision requested - refer to further submission]	Disallow / Seeks that the improved design guides in the Proposed District Plan as notified are retained.
The Retirement Villages Association of New Zealand Incorporated	FS126.134	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-P7	Oppose	The RVA supports the intent of the policy and agrees with the removal of the design guides, however The RVA opposes the submission point seeking to include new urban design outcomes. It is not clear what 'responds to the natural environment' is intended to entail, and the new outcomes are inconsistent with the relief sought in The RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.134	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-P7	Oppose	Ryman supports the intent of the policy and agrees with the removal of the design guides, however Ryman opposes the submission point seeking to include new urban design outcomes. It is not clear what 'responds to the natural environment' is intended to entail, and the new outcomes are inconsistent with the relief sought in Ryman's primary submission.	Disallow
Metlifecare Limited	413.23	Residential Zones / Medium Density Residential Zone / MRZ-P7	Support in part	Supports the provision of a specific policy for retirement villages.	Retain provision, subject to amendments, as outlined other submission points.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Metlifecare Limited	413.24	Residential Zones / Medium Density Residential Zone / MRZ-P7	Support in part	<p>As retirement villages have particular functional and operational needs which drive their built form it is appropriate to recognise and provide for this.</p> <p>However, Metlifecare seeks amendments to the policy for the following reasons:</p> <ul style="list-style-type: none"> The policy provides for retirement villages where it can be demonstrated that the village “fulfils the intent of the Residential Design Guide”. Metlifecare opposes this requirement for the following reasons: <p>(a) The Residential Design Guide does not refer to retirement village development or particular design intentions in relation to these villages. It is therefore difficult to determine how the Design Guide can be applied or how the criteria could be satisfied.</p> <p>(b) It is not appropriate for retirement village developments to be required to align with design goals that apply to residential development more generally because it fails to recognise the differing functional and operational needs of retirement villages.</p> <p>(c) It is also unclear what “fulfils the intent” of the design guide means, particularly in the context where there is no direct reference to retirement villages in the guide.</p> <ul style="list-style-type: none"> Requiring retirement villages to be of an intensity, scale and design that is “consistent” with the amenity values anticipated for the zone is unnecessarily restrictive and does not recognise the functional and operational needs of a retirement village. In addition, as a retirement village site is often a larger site, there is an opportunity to provide more intensive development while avoiding adverse amenity effects on adjoining properties. The effects arising from exceedance of any of the relevant standards will be considered as part of any application for resource consent (as a restricted discretionary activity). Metlifecare also considers that the policy should refer to the functional and operational needs of retirement villages to ensure that the particular needs of this type of development are recognised in this zone. This is consistent with Metlifecare’s proposals in relation to strategic directions (above). 	<p>Amend MRS-P7 (Retirement villages) as follows: Retirement villages</p> <p>Provide for retirement villages where it can be demonstrated that the development:</p> <ol style="list-style-type: none"> Fulfils the intent of the Residential Design Guide; Includes outdoor space that is sufficient to cater for the needs of the residents of the village; Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; Is adequately serviced by three waters infrastructure or can address any constraints on the site; and Is of an intensity, scale and design that is consistent in keeping with the amenity values anticipated for the Zone. <p><u>Recognise the functional and operational needs of retirement villages, including that they:</u></p> <ol style="list-style-type: none"> May require greater density than the planned urban built character to enable efficient provision of services. <u>Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u>
Leeanne Templer	206.4	Residential Zones / Medium Density Residential Zone / MRZ-P8	Amend	<p>Considers that MRZ does not contribute positively to a safe and accessible living environment, or positively to a changing urban environment or achieve attractive and safe streets (Per MRZ-P8) on Rama Crescent.</p> <p>Considers that Rama Crescent does not have the infrastructure for further intensification.</p> <p>Considers that there is a need to retain existing covenants on titles in Rama Crescent which protect views.</p> <p>Considers that there needs to be provision for onsite parking in Rama Crescent because public transport can’t enter and walking is tough.</p> <p>Considers that ambassadorial residences on the street require privacy and further stories and intensification would compromise this.</p>	<p>Seeks that the application of MRZ-P8 (Residential Buildings and Structures) is amended so Rama Crescent and the streets above it are excluded from building height increases and intensification.</p>
Fire and Emergency New Zealand	273.173	Residential Zones / Medium Density Residential Zone / MRZ-P8	Support	<p>Supports the policy as it provides for a range of residential buildings and structures, including additions and alterations, that provide for healthy, safe and accessible living environments.</p>	<p>Retain MRZ-P8 (Residential buildings and structures) as notified.</p>
Kilmarston Developments Limited and Kilmarston Properties Limited	290.58	Residential Zones / Medium Density Residential Zone / MRZ-P8	Support	<p>Supports the appropriate Medium Density Residential Zoning of their land.</p>	<p>Retain MRZ-P8 (Residential buildings and structures) as notified.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.118	Residential Zones / Medium Density Residential Zone / MRZ-P8	Oppose in part	Considers it is not clear whether MRZ-P8 applies to retirement villages, given MRZ-P7 is a more specific policy. The RVA seeks that this policy does not apply to retirement villages.	Opposes MRZ-P8 (Residential buildings and structures) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.119	Residential Zones / Medium Density Residential Zone / MRZ-P8	Amend	Considers it is not clear whether MRZ-P8 applies to retirement villages, given MRZ-P7 is a more specific policy. The RVA seeks that this policy does not apply to retirement villages.	Amend MRZ-P8 (Residential buildings and structures) to clarify that it does not apply to retirement villages.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.120	Residential Zones / Medium Density Residential Zone / MRZ-P8	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-P8 (Residential buildings and structures) as notified.
WCC Environmental Reference Group	377.324	Residential Zones / Medium Density Residential Zone / MRZ-P8	Amend	Notes that an effect of the Resource Management (Enabling Housing Supply and Other Matters) Amendment Bill is that more development is enabled further away from the City, with the bulk of Wellington's residential areas now zoned 'medium density'. To help mitigate this, the submitter seeks that there also be a need to ensure multi-unit developments reduce reliance on travel by private motor vehicle when considered for consenting.	Amend MRZ-P8 (Residential buildings and structures) to add an additional point, as follows: "Reduce reliance on travel by private motor vehicle"
Kāinga Ora Homes and Communities	391.344	Residential Zones / Medium Density Residential Zone / MRZ-P8	Support	MRZ-P8 is generally supported.	Retain MRZ-P8 (Residential buildings and structures) as notified.
Trelissick Park Group	168.23	Residential Zones / Medium Density Residential Zone / MRZ-P9	Amend	Considers that MRZ-P9 is too vague and should be amended to require at least neutral or lesser stormwater runoff, compared with pre-development.	Amend MRZ-P9 (Permeable surface) to require neutral or lesser stormwater runoff, compared with pre-development.
Tyers Stream Group	221.72	Residential Zones / Medium Density Residential Zone / MRZ-P9	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks amendment to MRZ-P9 (Permeable surface) so that the level of permeable surface should be proportionate to the extent of hard surface increase from the development.
Wellington City Council	266.132	Residential Zones / Medium Density Residential Zone / MRZ-P9	Oppose in part	Considers that given this is not a building provision, but a three waters/infrastructure provision, it is more logical to locate this policy in the THW chapter. Note: MRZ-P9 (Permeable surface) and MRZ-S10 (Permeable surface) are to be relocated to THW – see new THW-P6 and THW-R7.	Delete MRZ-P9 (Permeable Surface) in its entirety. Consequential renumbering and amendments to updated policy references for MRZ-P10 to MRZ-P15 to reflect change in numbering.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.59	Residential Zones / Medium Density Residential Zone / MRZ-P9	Support	Supports the appropriate Medium Density Residential Zoning of their land.	Retain MRZ-P9 (Permeable surface) as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.121	Residential Zones / Medium Density Residential Zone / MRZ-P9	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-P9 (Permeable surface) as notified.
WCC Environmental Reference Group	377.325	Residential Zones / Medium Density Residential Zone / MRZ-P9	Support	The policy will assist with reducing the rate and amount of storm water run-off.	Retain MRZ-P9 (Permeable surface) as notified.
Kāinga Ora Homes and Communities	391.345	Residential Zones / Medium Density Residential Zone / MRZ-P9	Support in part	MRZ-P9 is generally supported, but an amendment is sought.	Retain MRZ-P9 (Permeable surface) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.346	Residential Zones / Medium Density Residential Zone / MRZ-P9	Amend	Considers that MRZ-P9 should be amended to relate to sufficient permeable surface provision rather than a minimum. There may be instances where stormwater runoff effects can be mitigated by a lower level of permeable surface area and the policy should recognise this.	Amend MRZ-P9 (Permeable surface) as follows: Require development to provide a <u>minimum level of sufficient permeable surface area</u> to assist with reducing the rate and amount of storm water run-off.
Greater Wellington Regional Council	FS84.88	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-P9	Oppose	Greater Wellington support the requirement for minimum permeable surface area and consider 'sufficient' to be too uncertain. We also note that multi-unit housing is excluded from HRZ-S10 and MRZ-S10 which the submitter supports. Amending the policy for all development is therefore not necessary.	Disallow / Seeks that the policy is retained as notified.
Tyers Stream Group	221.73	Residential Zones / Medium Density Residential Zone / MRZ-P10	Amend	Considers that new 'landscaping' should be required, not just 'sought'.	Amend MRZ-P10 (Vegetation and landscaping) as follows: Encourage the retention of existing vegetation, particularly native vegetation and visually prominent trees that may not otherwise be protected, and where vegetation is proposed to be removed, seek <u>require</u> new landscaping of equal or better quality to help integrate new development into the surrounding environment and minimise hard surfacing.
Fire and Emergency New Zealand	273.174	Residential Zones / Medium Density Residential Zone / MRZ-P10	Support in part	Supports the policy as it takes account of vegetation removal as a measure for the preventative mitigation of fire risk to property and life. It is important that property owners and occupiers are able to remove flammable vegetation, as required, to provide sufficient clearance to mitigate the potential for fire risk/spread between flammable vegetation and property	Support MRZ-P10 (Vegetation and landscaping), with amendment.
Fire and Emergency New Zealand	273.175	Residential Zones / Medium Density Residential Zone / MRZ-P10	Amend	Supports the policy as it takes account of vegetation removal as a measure for the preventative mitigation of fire risk to property and life. It is important that property owners and occupiers are able to remove flammable vegetation, as required, to provide sufficient clearance to mitigate the potential for fire risk/spread between flammable vegetation and property	Amend MRZ-P10 (Vegetation and landscaping) as follows: Encourage the retention of existing vegetation, particularly native vegetation and visually prominent trees that may not otherwise be protected, <u>except where it poses fire risk to the environment and the health and safety of people</u> , and where vegetation is proposed to be removed, seek new landscaping of equal or better quality to help integrate new development into the surrounding environment and minimise hard surfacing).
Kilmarston Developments Limited and Kilmarston Properties Limited	290.60	Residential Zones / Medium Density Residential Zone / MRZ-P10	Support	Supports the appropriate Medium Density Residential Zoning of their land.	Retain MRZ-P10 (Vegetation and landscaping) as notified.
Hilary Watson	321.15	Residential Zones / Medium Density Residential Zone / MRZ-P10	Amend	Considers that Newtown's vegetation and trees, including in private backyards, should be preserved as they are essential connectors for birdlife between the city's flourishing green belts and Zealandia. The trees on private properties and in parks also act as the components of the natural sump system in times of flooding, and prevent surface water runoff. The established Doctor Margaret Stanley also proposed a 30-300 rule, which states everyone should be able to see three trees from their house, every neighbourhood should have a 30 percent tree canopy and everyone should live less than 300 meters away from a green space.	Amend MRZ-P10 (Vegetation and landscaping) as follows: <u>To</u> encourage the retention of existing vegetation, particularly native vegetation and visually prominent trees that may not otherwise be protected, and where vegetation is proposed to be removed, seek new landscaping of equal or better quality to help integrate new development into the surrounding environment and minimise hard surfacing.
Retirement Villages Association of New Zealand Incorporated	350.120	Residential Zones / Medium Density Residential Zone / MRZ-P10	Oppose in part	Considers that the requirement to provide "equal or better quality" vegetation where existing vegetation is removed is unlikely to be feasible alongside residential intensification.	Opposes MRZ-P10 (Vegetation and landscaping) and seeks amendment to encourage new landscaping but delete reference to "equal or better quality".
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.122	Residential Zones / Medium Density Residential Zone / MRZ-P10	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-P10 (Vegetation and landscaping) as notified.
WCC Environmental Reference Group	377.326	Residential Zones / Medium Density Residential Zone / MRZ-P10	Support	The policy will assist with reducing unnecessary loss of vegetation, with benefits to biodiversity, pleasantness and amenity, as well as helping reduce the rate and amount of storm water run-off.	Retain MRZ-P10 (Vegetation and landscaping) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Director-General of Conservation	385.81	Residential Zones / Medium Density Residential Zone / MRZ-P10	Support	Supports the use of policy which encourages the retention of existing vegetation (including native vegetation) that would otherwise be unprotected under the Proposed District Plan.	Retain MRZ-P10 (Vegetation and landscaping) as notified.
Kāinga Ora Homes and Communities	391.347	Residential Zones / Medium Density Residential Zone / MRZ-P10	Oppose	MRZ-P10 is opposed as it may have the effect of applying blanket protections to non-indigenous vegetation and therefore seeks the deletion of this policy.	Delete MRZ-P10 (Vegetation and landscaping) in its entirety.
Metlifecare Limited	413.25	Residential Zones / Medium Density Residential Zone / MRZ-P10	Oppose	Supports the provision of high quality landscaping to enhance the built environment, however the proposed policy MRZ-P10 goes much further than this, and is likely to be counter to the requirement in the NPS-UD to enable intensification.	Seeks to delete MRZ-P10 (Vegetation and landscaping).
Metlifecare Limited	413.26	Residential Zones / Medium Density Residential Zone / MRZ-P10	Oppose	Supports the provision of high quality landscaping to enhance the built environment, however the proposed policy MRZ-P10 goes much further than this, and is likely to be counter to the requirement in the NPS-UD to enable intensification.	Seeks add amend MRZ-P10 (Vegetation and landscaping) to add as follows: <u>Encourage the provision and maintenance of landscaping to enhance the built environment.</u>
Kilmarston Developments Limited and Kilmarston Properties Limited	290.61	Residential Zones / Medium Density Residential Zone / MRZ-P11	Support	Supports the appropriate Medium Density Residential Zoning of their land.	Retain MRZ-P11 (Attractive and safe streets and public open spaces) as notified.
Retirement Villages Association of New Zealand Incorporated	350.121	Residential Zones / Medium Density Residential Zone / MRZ-P11	Support	Supports MRZ-P11 as it aligns with Policy 3 of the MDRS.	Retain MRZ-P11 (Attractive and safe streets and public open spaces) as notified.
Waka Kotahi	370.275	Residential Zones / Medium Density Residential Zone / MRZ-P11	Support	Policy MRZ-P11 is supported.	Retain MRZ-P11 (Attractive and safe streets and public open spaces) as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.123	Residential Zones / Medium Density Residential Zone / MRZ-P11	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-P11 (Attractive and safe streets and public open spaces) as notified.
WCC Environmental Reference Group	377.327	Residential Zones / Medium Density Residential Zone / MRZ-P11	Support	The policy will assist with improving liveability and attractiveness - designing for safety is highly important in built environments.	Retain MRZ-P11 (Attractive and safe streets and public open spaces) as notified.
Prime Property Group	256.4	Residential Zones / Medium Density Residential Zone / MRZ-P12	Oppose	Spenmoor area defined in the district plan restricts any multi residential development in this area by seeking further assessments with respect to traffic. Considers that the street is no worse than others in Newlands that do not have a specific policy focussed on traffic effects and roading capacity. Works are scheduled which negate the need for the policy and further assessment of traffic effects [Refer to original submission for full reason].	Delete provision MRZ-P12 (Roading capacity in the Spenmoor Street Area).
Waka Kotahi	370.276	Residential Zones / Medium Density Residential Zone / MRZ-P12	Support	Policy MRZ-P12 is supported.	Retain MRZ-P12 (Roading capacity in the Spenmoor Street Area) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Prime Property Group	FS93.4	Part 3 / Residential Zones / Medium Density Residential Zone / MRZP12	Oppose	<p>Roading improvements in this area are planned by Prime Property Group.</p> <p>Prime Property Group considers that this road also does not significantly differ than the surrounding areas where no specific roading reports are required. It is also worth noting that Waka Kotahi are not requiring other similar streets to have their roading capacity identified before a subdivision/development can occur.</p>	Disallow
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.124	Residential Zones / Medium Density Residential Zone / MRZ-P12	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-P12 (Roading capacity in the Spenmoor Street Area) as notified.
Rongotai Investments Ltd	FS93.1	Part 3 / Residential Zones / Medium Density Residential Zone / MRZP12	Oppose	Considers that there is no given reason to why the original submitters support the given provision. Roading improvements in this area are planned by Prime Property Group. This road also does not significantly differ than the surrounding areas where no specific roading reports are required.	Disallow / Remove the Spenmoor Street area provision
Kāinga Ora Homes and Communities	391.348	Residential Zones / Medium Density Residential Zone / MRZ-P12	Support in part	MRZ-P12 is generally supported but an amendment is sought.	Retain MRZ-P12 (Roading capacity in the Spenmoor Street Area) with amendment.
Prime Property Group	FS93.2	Part 3 / Residential Zones / Medium Density Residential Zone / MRZP12	Oppose	Kāinga Ora supports the Spenmoor Street Roading Provisions. Roading improvements in this area are planned by Prime Property Group. Prime Property Group considers that this road also does not significantly differ than the surrounding areas where no specific roading reports are required.	Disallow / Remove the Spenmoor Street area provision
Kāinga Ora Homes and Communities	391.349	Residential Zones / Medium Density Residential Zone / MRZ-P12	Amend	Considers that MRZ-P12 should be amended to delete the reference to 'multi-unit housing' consistent with the rest of the submission.	<p>Amend MRZ-P12 (Roading capacity in the Spenmoor Street Area) as follows:</p> <p>Only allow multi-unit housing more than three residential units per site where it can be demonstrated that the local roading network has the capacity to accommodate any increase in traffic associated with the new development, and that the safety and efficiency of the roading network will be maintained.</p>
Wellington's Character Charitable Trust	FS82.134	Part 3 / Residential Zones / Medium Density Residential Zone / MRZP12	Oppose	Considers the signalled direction in the introduction would be more enabling than MDRS requirements without adequate justification.	Disallow
Prime Property Group	FS93.3	Part 3 / Residential Zones / Medium Density Residential Zone / MRZP12	Oppose	Kāinga Ora supports the Spenmoor Street Roading Provisions. Roading improvements in this area are planned by Prime Property Group. Prime Property Group considers that this road also does not significantly differ than the surrounding areas where no specific roading reports are required.	Disallow / Remove the Spenmoor Street area provision
Tapu-te-Ranga Trust	297.32	Residential Zones / Medium Density Residential Zone / MRZ-P13	Support in part	Supports (in large) the inclusion of a provision which directs the development of their land, but would like it amended to be more enabling for the anticipated use of the land.	Retain MRZ-P13 (Tapu Te Ranga), but seeks amendment
Tapu-te-Ranga Trust	297.33	Residential Zones / Medium Density Residential Zone / MRZ-P13	Amend	Supports (in large) the inclusion of a provision which directs the development of their land, but would like it amended to be more enabling for the anticipated use of the land.	<p>Amend MRZ-P13 (Tapu Te Ranga) as follows:</p> <p>Facilitate Enable the integrated development of the Tapu Te Ranga land in a manner that:</p> <ol style="list-style-type: none"> 1. Identifies and appropriately addresses any geo-technical and contamination issues; 2. Incorporates planting and landscaping to provide visual screening and integrate development into the surrounding environment; and 3. Fulfils the intent of the Residential Design Guide and Papakāinga Design Guide where relevant and applicable; and 4. <u>Supports the long-term development aspirations for the site including Nohokāinga/Papakāinga, Marae, Urupā extension, Kāinga, and community buildings.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.125	Residential Zones / Medium Density Residential Zone / MRZ-P13	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-P13 (Tapu Te Ranga) as notified.
Taranaki Whānui ki te Upoko o te Ika	389.93	Residential Zones / Medium Density Residential Zone / MRZ-P13	Amend	Seeks clarification of the use of papakāinga.	Amend MRZ-P13 (Tapu Te Ranga) to the following: 3. Fulfills the intent of the Residential Design Guide and Papakāinga Papakāinga Design Guide where relevant and applicable. [Inferred decision requested]
Kāinga Ora Homes and Communities	391.350	Residential Zones / Medium Density Residential Zone / MRZ-P13	Support in part	MRZ-P13 is generally supported but an amendment is sought.	Retain MRZ-P13 (Tapu Te Ranga) with amendment.
Kāinga Ora Homes and Communities	391.351	Residential Zones / Medium Density Residential Zone / MRZ-P13	Amend	Considers that MRZ-P13 should be amended to delete Design Guides within the District Plan. Kāinga Ora considers Design Guides to be too broad to be used as an assessment matter. A limited range of design criteria should be utilised instead and the focus for assessment should be effects beyond those anticipated by the zone in accordance with Policy 6 of the NPSUD.	Amend MRZ-P13 (Tapu Te Ranga) to delete reference to the Residential Design Guide and Papakāinga Design Guide and replace with the key design principles from these guides.
Te Rūnanga o Toa Rangatira	FS138.82	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-P13	Oppose	The submitter seeks for MRZ-P13 to be amended so that design guides, including the papakāinga design guide, are deleted from the plan. Te Rūnanga o Toa Rangatira oppose this submission because design guides developed by tangata whenua are key mechanisms to give effect to cultural values, visions and tikanga. There is a need for design guides specific to each iwi to be reflected throughout Te Whanganui a Tara.	Disallow
Te Rūnanga o Toa Rangatira	488.75	Residential Zones / Medium Density Residential Zone / MRZ-P13	Support in part	Supports reference to papakainga design guide.	Retain MRZ-P13 (Tapu Te Ranga) as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.126	Residential Zones / Medium Density Residential Zone / MRZ-P14	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-P14 (Community gardens, urban agriculture and waste minimisation) as notified.
Envirowaste Services Ltd	373.14	Residential Zones / Medium Density Residential Zone / MRZ-P14	Support	MRZ-P14 is supported as it will encourage the diversion of waste appropriately. The definition for community gardens does not allow for composting of food waste specifically, which may preclude the undertaking of food waste composting.	Retain MRZ-P14 (Community gardens, urban agriculture and waste minimisation) as notified.
WCC Environmental Reference Group	377.328	Residential Zones / Medium Density Residential Zone / MRZ-P14	Support	Considers that the policy will help compensate for residents having less available green space, and provide for community building and public health, as well as potential infrastructure for green waste recycling at a local scale.	Retain MRZ-P14 (Community gardens, urban agriculture and waste minimisation) as notified.
Kāinga Ora Homes and Communities	391.352	Residential Zones / Medium Density Residential Zone / MRZ-P14	Support	MRZ-P14 is generally supported.	Retain MRZ-P14 (Community gardens, urban agriculture and waste minimisation) as notified.
VicLabour	414.29	Residential Zones / Medium Density Residential Zone / MRZ-P14	Support	Supports provision for community gardens and urban agriculture and considers a green city and more community spaces is needed.	Retain MRZ-P14 (Community gardens, urban agriculture and waste minimisation) as notified. [Inferred decision requested]
Avryl Bramley	202.38	Residential Zones / Medium Density Residential Zone / MRZ-P15	Oppose	Considers that this provision is too wide and allows commercial usage creep.	Delete MRZ-P15 (Non residential activities and buildings) in it's entirety.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.176	Residential Zones / Medium Density Residential Zone / MRZ-P15	Support	Supports the policy as it enables non-residential activities and buildings that support the needs of the local communities which provide for emergency service facilities to locate in this zone. This policy also supports non-residential activities that maintain the safety of the transport network and are adequately serviced by three waters infrastructure	Retain MRZ-P15 (Non-residential activities and buildings) as notified.
Phillippa O'Connor	289.20	Residential Zones / Medium Density Residential Zone / MRZ-P15	Amend	Considers that Non-residential activities (being activities already contemplated by the zone by way of restricted discretionary or discretionary activities, or ones that infringe the zone standards) should be able to be accommodated in the zone if they can demonstrate the requirements of the policy.	Amend MRZ-P15 (Non-residential activities and buildings) as follows: Only Allow non-residential activities and buildings that: 1. Support the needs of local communities; 2. Are of an intensity, scale and design that is consistent with the amenity values anticipated for the Zone; 3. Contribute positively to the urban environment and achieve attractive and safe streets; 4. Reduce reliance on travel by private motor vehicle; 5. Maintain the safety and efficiency of the transport network; and 6. Are adequately serviced by three waters infrastructure or can address any constraints on the site.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.62	Residential Zones / Medium Density Residential Zone / MRZ-P15	Support	Supports the appropriate Medium Density Residential Zoning of their land.	Retain MRZ-P15 (Non-residential activities and buildings) as notified.
Paihikara Ki Pōneke Cycle Wellington	302.40	Residential Zones / Medium Density Residential Zone / MRZ-P15	Support in part	[No specific reason given beyond decision requested - refer to original submission].	Retain MRZ-P15 (Non-residential activities and buildings) with amendment.
Paihikara Ki Pōneke Cycle Wellington	302.41	Residential Zones / Medium Density Residential Zone / MRZ-P15	Amend	Considers that MRZ-P15 should be amended, as multi-unit housing and other non-residential activities and building cannot require car parking as set out in the NPS-UD. Developments should provide adequate and appropriately located cycle and micromobility parking to align with infrastructure and transport objectives in the PDP.	Amend MRZ-P15 (Non-residential activities and buildings) as follows: Only allow non-residential activities and buildings that: ... 6. Are adequately serviced by three waters infrastructure or can address any constraints on the site. <u>7. Provides an adequate and appropriately located area on site for cycle and micromobility parking and charging;</u> <u>8. Adequate cycle facilities are accessible, secure, and covered (protected from weather) by three waters infrastructure or can address any constraints on the site.</u>
Woolworths New Zealand	359.41	Residential Zones / Medium Density Residential Zone / MRZ-P15	Amend	Considers that MRZ-P15 should be amended to clarify wording relative to the discretionary activity status of various non-residential activities and buildings provided for within the Medium Density Residential zone as restricted discretionary activities, and the provision of all other activities as discretionary activities.	Amend MRZ-P15 (Non-residential activities and buildings) as follows: Only Allow non-residential activities and buildings that: 1. Support the needs of local communities; 2. Are of an intensity, scale and design that is consistent with the amenity values anticipated for the Zone; 3. Contribute positively to the urban environment and achieve attractive and safe streets; 4. Reduce reliance on travel by private motor vehicle; 5. Maintain the safety and efficiency of the transport network; and 6. Are adequately serviced by three waters infrastructure or can address any constraints on the site; <u>7. Can demonstrate an operational or functional need to locate within the zone.</u>
Waka Kotahi	370.277	Residential Zones / Medium Density Residential Zone / MRZ-P15	Support in part	Policy MRZ-P15 is supported, but amendment is sought.	Retain Policy MRZ-P15 (Non-residential activities and buildings) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.278	Residential Zones / Medium Density Residential Zone / MRZ-P15	Amend	Considers that mixed-use activities should be encouraged in MRZ-P15 and supported where appropriate and integrated with residential development.	Amend Policy MRZ-P15 (Non-residential activities and buildings) as follows: Only allow non-residential activities and buildings that: ... 5. Maintain the safety and efficiency of the transport network; and 6. Are adequately serviced by three waters infrastructure or can address any constraints on the site, <u>and</u> <u>7. Are integrated into residential developments where possible.</u>
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.127	Residential Zones / Medium Density Residential Zone / MRZ-P15	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-P15 (Non-residential activities and buildings) as notified.
WCC Environmental Reference Group	377.329	Residential Zones / Medium Density Residential Zone / MRZ-P15	Support	The policy will help enable facilities and services that support urban living.	Retain MRZ-P15 (Non-residential activities and buildings) as notified.
Kāinga Ora Homes and Communities	391.353	Residential Zones / Medium Density Residential Zone / MRZ-P15	Support in part	MRZ-P15 is generally supported but an amendment is sought.	Retain MRZ-P15 (Non-residential activities and buildings) with amendment.
Greater Wellington Regional Council	FS84.89	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-P15	Oppose	Greater Wellington support the requirement for minimum permeable surface area and consider 'sufficient' to be too uncertain. We also note that multi-unit housing is excluded from HRZ-S10 and MRZ-S10 which the submitter supports. Amending the policy for all development is therefore not necessary.	Disallow / Seeks that the policy is retained as notified.
Kāinga Ora Homes and Communities	391.354	Residential Zones / Medium Density Residential Zone / MRZ-P15	Amend	Considers that MRZ-P15 should be amended to clarify that servicing may change as a result of development. Changes are also sought to better recognise the intent of the NPS-UD (particularly Policy 6) that recognises the planned urban built form and that change to existing amenity is not in itself an adverse effect.	Amend MRZ-P15 (Non-residential activities and buildings) as follows: Only allow non-residential activities and buildings that: 1. Support the needs of local communities; 2. Are of an intensity, scale and design that is consistent with the amenity values <u>amenity values anticipated and planned built form</u> for the Zone; 3. Contribute positively to the urban environment and achieve attractive and safe streets; 4. Reduce reliance on travel by private motor vehicle; 5. Maintain the safety and efficiency of the transport network; and 6. Are adequately able to be <u>adequately able to be</u> serviced by three waters infrastructure or can address any constraints on the site.
Ministry of Education	400.94	Residential Zones / Medium Density Residential Zone / MRZ-P15	Support in part	Supports MRZ-P15 in part as it provides for non-residential activities in the MRZ.	Retain MRZ-P15 (Non-residential activities and buildings) with amendment.
Ministry of Education	400.95	Residential Zones / Medium Density Residential Zone / MRZ-P15	Amend	Seeks MRZ-P15 be amended to ensure that additional infrastructure (including educational facilities) are explicitly recognised and provided for within the MRZ.	Amend MRZ-P15 (Non-residential activities and buildings) as follows: Only allow non-residential activities and buildings that: ... 6. Are adequately serviced by three waters infrastructure or can address any constraints on the site. <u>7. Provides additional infrastructure to support the needs of the community</u>
Victoria University of Wellington Students' Association	123.47	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P1	Oppose	Opposes MRZ-PREC01-P1 (Character Precincts - Maintenance of character) as notified. The provision does not allow for more modern housing or work towards warmer or drier homes and instead maintains the status quo.	Opposes MRZ-PREC01-P1 (Character Precincts - Maintenance of character) as notified. Seeks that the high standard of safety, accessibility, and warmth of dwellings is prioritised instead.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	FS82.93	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P1	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow
Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.19	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P1	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain MRZ-PREC01-P1 (Maintenance of character) as notified.
Waka Kotahi	370.279	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P1	Not specified	[Submitter has provided a neutral position on this provision] Considers that further weighting exercise is required in order to justify the inclusion, nature and extent of provisions related to special character.	Retain MRZ-PREC01-P1 (Maintenance of character) subject to further evaluation and weighting exercise to determine extent of protection required on balance with achieving the outcomes of the NPS-UD.
WCC Environmental Reference Group	377.330	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P1	Support	MRZ-PREC01-P1 is supported as it is considered that it clearly signals an intent to ensure alterations and developments in character precincts are done in a way that preserves the character that is an integral part of the city's identity	Retain MRZ-PREC01-P1 (Maintenance of character) as notified.
Kāinga Ora Homes and Communities	391.355	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P1	Oppose	MRZ-PREC01-P1 is opposed, consistent with the deletion of Character Precincts and associated provisions from zone chapters and as a qualifying matter.	Delete MRZ-PREC01-P1 (Maintenance of character) in its entirety.
Wellington's Character Charitable Trust	FS82.66	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow
Lucy Harper and Roger Pemberton	401.54	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P1	Support	Supports the MRZ-PREC01-P1 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC01-P1 (Maintenance of character) as notified.
Anita Gude and Simon Terry	461.25	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P1	Amend	Considers that the provisions are insufficient to manage the Mount Vicotira North Character Area. [See original submission for full reasons]	Seeks that MRZ-PREC02-P1 (Maintenance of townscape values) is amended to require developers to conform to minimum standards specified in the design guide.
Anita Gude and Simon Terry	461.26	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P1	Amend	Developers should be required to conform to "Guiding principles" specified in the design guide. As worded, the policies present more of an advisory note than a mandatory requirement. All developers should be required to conform to the "Guiding principles".	Amend Policy MRZ-PREC01-P1 (maintenance of character) to require developers conform to the "Guiding Principles" specified in the Design Guide.
The Retirement Villages Association of New Zealand Incorporated	FS126.7	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P1	Oppose	Inconsistent with the RVA's original submission which sought to exclude retirement villages from having to apply Design Guides. Council oversight is not required to retirement villages as the RVA is best placed to understand different operational and functional needs.	Disallow
Ryman Healthcare Limited	FS128.7	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P1	Oppose	Inconsistent with Ryman's original submission which sought to exclude retirement villages from having to apply Design Guides. Council oversight is not required to retirement villages as Ryman is best placed to understand different operational and functional needs.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Owen Watson	51.4	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Support	Supports the presumption of non-demolition for pre-1930's buildings.	Retain MRZ-PREC01-P2 provisions relating to demolition of pre-1930s buildings as notified.
Tim Bright	75.8	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Not specified	No details supplied	[Not specified]
Alan Olliver & Julie Middleton	111.6	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Amend	Considers that heritage values need to be given stronger weighting in considering whether demolition is appropriate. Considers that no. 3 under this policy is only acceptable if more is done to prevent 'demolition by neglect'. [refer to original submission for further reasons]	Seeks that MRZ-PREC01-P2 (Restrictions on demolition) is amended to take into account the status of a building in the wider heritage context of the character precinct and Mount Victoria.
Victoria University of Wellington Students' Association	123.48	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Oppose	Considers that MRZ-PREC01-P2 and related rules should be set aside as the protection of character prevents access to modern homes, or warmer and drier housing.	Delete MRZ-PREC01-P2 (Restrictions on demolition) in its entirety.
Wellington's Character Charitable Trust	FS82.94	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ@PREC01-P2	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow
Victoria University of Wellington Students' Association	123.49	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Amend	Considers that MRZ-PREC01-P2 should be amended to include post-1930s buildings as they may also meet the threshold of low contribution to the area and poor condition for demolition.	Amend MRZ-PREC01-P2 (Restrictions on demolition) to include post-1930s buildings (to allow for their demolition), if this is not deleted.
Wellington's Character Charitable Trust	FS82.95	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ@PREC01-P2	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow
LIVE WELLington	154.7	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Support	Supports restrictions on demolition of pre-1930s buildings as stated in the proposed District Plan. Considers that requiring a resource consent for this activity allows input and review of the value of the building and whether it should be demolished.	Retain MRZ-PREC01-P2 (Restrictions on demolition) as notified. [Inferred decision requested]
Thorndon Residents' Association Inc	FS69.36	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ@PREC01-P2	Support	WCC Summary reads: Supports restrictions on demolition of pre-1930s buildings as stated in the proposed District Plan. Considers that requiring a resource consent for this activity allows input and review of the value of the building and whether it should be demolished.	Allow
Jonathan and Tricia Briscoe	190.16	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Amend	Considers that heritage values need to be given stronger weighting in deciding whether a building may be demolished. Considers that MRZ-PREC01-P2.2. (Restrictions on demolition) is only acceptable if the WCC also takes action to prevent 'demolition by neglect', a strategy many property owners are known to resort to.	Seeks that the WCC and District Plan do not support 'demolition by neglect' and that there should be a presumption of non-demolition for pre-1930s buildings.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Jonothan and Tricia Briscoe	190.17	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Not specified	<p>Considers that the criteria referring to consistency in form and style with other pre-1930 buildings risks ignoring a unique characteristic of Mt Victoria's historic building patterns where original buildings are not consistent in form and style with their neighbours.</p> <p>Considers that the criteria referring to the level of visibility does not take into account that a unique characteristic of Mt Victoria's historic building patterns is houses set back or barely visible from the street.</p>	Seeks that MRZ-PREC01-P2 (Restrictions on demolition) takes into account the status of a building in the wider heritage context of the Character Precinct and Mt Victoria.
Jonothan and Tricia Briscoe	190.18	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Not specified	Considers that if the extent of character 'overlay' in Mt Victoria is to be reduced to only 30% from the area covered by the current pre-1930s demolition rule, more needs to be done to protect what remains.	Not specified.
Mike Camden	226.6	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that MRZ-PREC01-P2 (Demolition) be expanded to include consideration of environmental effects of demolition or removal and salvage.
Alan Fairless	242.20	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Amend	<p>Considers that Wellington's liveability, and its character and heritage, can be protected at the same time as new housing is added.</p> <p>Considers that rather than wholesale deregulation and the widespread removal of protections, the District Plan needs to better recognise and provide for the protection of heritage from inappropriate development and better take into account the need to maintain and enhance amenity values.</p>	Reinstate the Operative Plan's demolition controls in the pre-1930s character areas.
Alan Fairless	242.21	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Amend	<p>Considers that rather than wholesale deregulation and the widespread removal of protections, character and heritage can be considered as part of community dialogue.</p> <p>The District Plan needs to better recognise and provide for the protection of heritage from inappropriate development and better take into account the need to maintain and enhance amenity values.</p>	Seeks that the District Plan clearly identify community-based planning for intensification as a method for increasing housing supply within areas subject to the demolition controls (as revised by this submission) for pre-1930s character areas.
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.20	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain MRZ-PREC01-P2 (Restrictions on demolition) as notified.

Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.21	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Amend	<p>The site-by-site analysis found that some 300 houses contributed sufficiently to the character and streetscape of Newtown. These houses also passed the test established by the officers as Qualifying Matters for exemption from the NPS-UD and MDRS.</p> <p>Considers that these houses, if not Character Precincts, should be covered by the pre-1930's demolition rules.</p> <p>Almost all of the houses identified by the ORP are deemed to be primary or contributory by Boffa Miskell. In addition, these houses all demonstrate assemblages of consistent character streetscape.</p> <p>[Refer to original submission for full reasons]</p>	<p>If the following sites are not classified under a character precinct:</p> <p>Seeks that MRZ-PREC01-P2 (Restrictions on demolition) is amended to apply to the following sites:</p> <p>Balmoral Terrace - 3, 5, 7, 9, 2, 4, 6, 8, 10.</p> <p>Blucher Avenue - 1, 3, 5, 7, 9, 2, 4, 6, 8, 10.</p> <p>Coromandel Street - 1, 1A, 5, 7, 9, 11, 11, 13, 15, 17, 83, 85, 87, 89, 91, 93, 127, 135, 137, 139, 6, 8, 10, 12, 14, 16, 22, 90, 92, 96, 100, 102, 104, 106.</p> <p>Daniell Street - 147, 149, 157, 159, 82, 84, 86, 88, 90, 92, 94, 124, 126, 128, 130, 132, 134, 136, 162.</p> <p>Harper St 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 2, 4, 6, 8, 10, 12, 14, 16, 18, 20.</p> <p>Lawrence St 7, 9, 11, 11A, 13, 15, 17, 19, 21, 23, 25, 27, 10, 12, 14, 16, 18, 20, 22, 24.</p> <p>Owen St 1, 5, 7A, 9/11A, 15, 77, 79, 81, 83, 85, 87, 89, 91, 93, 95, 97, 99, 101, 103, 105, 107, 109, 111, 113, 115, 117, 119, 121A, 121C, 123, 125, 127, 127A, 129, 131, 133, 135, 137, 139, 141, 143, 154, 20, 22, 24B, 26, 28, 30, 34, 36, 38, 40, 42, 46, 48, 54, 56, 58, 60, 62, 64, 66, 70, 74, 76, 78, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, 110, 112, 114, 116, 156, 158, 160, 162, 164.</p> <p>Stoke St 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 33, 13, 15, 17, 19, 21, 31, 33, 35, 37.</p>
Khoi Phan	326.13	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Amend	<p>Only allow the demolition of pre-1930s buildings, including the demolition or removal of architectural features from the primary elevation of any pre-1930 building, where either:</p> <p>1 It can be demonstrated that the contribution of a building to the character of the area is low, with reference to:</p> <ol style="list-style-type: none"> The level of visibility of the existing building from surrounding public spaces; Whether the building is consistent in form and style with other pre-1930 buildings that contribute positively to the character of the area; The extent to which the existing building retains its original design features relating to form, materials, and detailing and the extent to which those features have been modified. whether the building is an integral part of a row of buildings that are consistent in form, scale, and siting; and Whether the building represents a rare or unique example of pre-1930s architecture; <p>2. The building is shown to be in a poor condition, particularly in terms of:</p> <ol style="list-style-type: none"> Its structural integrity, so that its retention is impractical or economically unviable; Whether the building presents a hazard; and Whether the building presents a risk to life in the event of an earthquake. 	Amend MRZ-PREC-01-P2 (Restrictions on demolition) to replace 1930 with 1950.
Khoi Phan	326.14	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Amend	[No specific reason given beyond decision requested - refer to original submission].	Clarify MRZ-PREC01-P2 (Restrictions on demolition) to define "poor condition".
Waka Kotahi	370.280	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Not specified	<p>[Submitter has provided a neutral position on this provision]</p> <p>Considers that further weighting exercise is required in order to justify the inclusion, nature and extent of provisions related to special character.</p>	Retain MRZ-PREC01-P2 (Restrictions on demolition) subject to further evaluation and weighting exercise to determine extent of protection required on balance with achieving the outcomes of the NPS-UD.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.331	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Support	Considers that MRZ-PREC01-P2 clearly signals an intent to ensure re-use rather than demolition of buildings in character areas - important as part of reducing wastage, as well as preserving the character that is an integral part of the city's identity.	Retain MRZ-PREC01-P2 (Restrictions on demolition) as notified.
Kāinga Ora Homes and Communities	391.356	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Oppose	MRZ-PREC01-P2 is opposed, consistent with the deletion of Character Precincts and associated provisions from zone chapters and as a qualifying matter.	Delete MRZ-PREC01-P2 (Restrictions on demolition) in its entirety.
Thorndon Residents' Association Inc	FS69.19	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Oppose	Kāinga Ora Homes and Communities wishes to remove reference of Demolition throughout the PDP. TRA are mindful that the greenest buildings are those timber buildings that are already built. There's an accumulative benefit from not demolishing older native timber buildings which have low carbon emissions instead of constructing new buildings using materials (such as concrete and steel) with significant whole of life carbon emissions.	Disallow
Wellington's Character Charitable Trust	FS82.67	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow
LIVE WELLington	FS96.29	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Oppose	The amendment to delete restrictions on demolition is opposed. Restrictions on demolition are needed to ensure maintenance of heritage and character provisions.	Disallow
Roland Sapsford	FS117.28	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Oppose	The amendment to delete restrictions on demolition is opposed. Restrictions on demolition are needed to ensure maintenance of heritage and character provisions.	Disallow
Murray Pillar	393.19	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Amend	Considers that there should be much wider coverage of the rule requiring a resource consent for demolishing pre-1930s dwellings in areas currently with that protection.	Seeks that there is much wider coverage of the MRZ-PREC01-P2 (Restrictions on demolition) provisions that require a resource consent for demolishing pre-1930s buildings. [Inferred decision requested].
Thorndon Residents' Association Inc	FS69.83	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Support	Boffa Miskell - adoption Boffa Miskell – support definitions and include all Add Character Precincts to areas missed 10min walkable catchment Character precincts and rules Character precincts for all sites identified by Boffa M. Establish Character Precincts where they were missed resource consents for demolishing pre-1930s dwellings	Allow
Lucy Harper and Roger Pemberton	401.55	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Support	Supports the MRZ-PREC01-P2 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC01-P2 (Restrictions on demolition) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington Heritage Professionals	412.75	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Amend	Considers that the character areas should seek to preserve pre-1930 character, not original character as many buildings have had modifications prior to 1930 that are not original. [See original submission for full reasons]	Amend MRZ-PREC01-P2 (Restrictions on demolition) as follows: Only allow the demolition of pre-1930 buildings, including the demolition or removal of architectural features from the primary elevation of any pre-1930 building, where either: 1. It can be demonstrated that the contribution of the building to the character of the area is low, with reference to: ... c. The extent to which the existing building retains its original pre-1930 design features relating to form, materials, and detailing and the extent to which those features have been modified;
Anita Gude and Simon Terry	461.27	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P2	Support	Supports MRZ-PREC01-P2 in its entirety. Considers that these provisions are well thought through.	Retain MRZ-PREC01-P2 (Restrictions on demolition) as notified.
Victoria University of Wellington Students' Association	123.50	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P3	Amend	Considers that MRZ-PREC01-P3 with regards to 'provided that it does not detract from the character' poses further limits on what can be built in the area.	Seeks that the consideration 'provided that it does not detract from the character' is removed from MRZ-PREC01-P3 (Intensification). [Inferred decision requested]
Mt Victoria Historical Society Inc	FS39.20	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P3	Oppose	Allowing greater intensification in Character Precincts by removing the wording "provided it does not detract from the character and amenity" effectively removes the character protection. This rule is important to protect the character and heritage of Character Precincts and to remove it would effectively remove character protection.	Disallow
Wellington's Character Charitable Trust	FS82.96	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P3	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow

The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC01-P3 (Intensification) as notified.
VicLabour	414.30	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P3	Oppose	Opposes the provision as the submitter considers that the protection of Character should not be cast over the need for higher density housing.	Delete MRZ-PREC01-P3 (Intensification)
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.23	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P4	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain MRZ-PREC01-P4 (Ongoing use and repair and maintenance) as notified.
WCC Environmental Reference Group	377.333	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P4	Support	Considers that MRZ-PREC01-P4 supports sustainable use of buildings in character areas.	Retain MRZ-PREC01-P4 (On-going use and repair and maintenance) as notified.
Kāinga Ora Homes and Communities	391.358	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P4	Oppose	MRZ-PREC01-P4 is opposed, consistent with the deletion of Character Precincts and associated provisions from zone chapters and as a qualifying matter.	Delete MRZ-PREC01-P4 (On-going use and repair and maintenance) in its entirety.
Wellington's Character Charitable Trust	FS82.69	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P4	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow
Lucy Harper and Roger Pemberton	401.57	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P4	Support	Supports the MRZ-PREC01-P4 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC01-P4 (On-going use and repair and maintenance) as notified.
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.24	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P5	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain MRZ-PREC01-P5 (Car parking and accessory buildings) as notified.
Waka Kotahi	370.281	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P5	Not specified	[Submitter has provided a neutral position on this provision] Considers that further weighting exercise is required in order to justify the inclusion, nature and extent of provisions related to special character.	Retain MRZ-PREC01-P5 (Car parking and accessory buildings) subject to further evaluation and weighting exercise to determine extent of protection required on balance with achieving the outcomes of the NPS-UD.
WCC Environmental Reference Group	377.334	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-P5	Support	Considers that MRZ-PREC01-P5 important as character can be adversely impacted by poorly designed car parking and garaging.	Retain MRZ-PREC01-P5 (Car parking and accessory buildings) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested

Retain MRZ-PREC03-P1 (Managing development) as notified.
Phillippa O'Connor	289.21	Residential Zones / Medium Density Residential Zone / MRZ-R1	Amend	Considers #64 Kelburn Parade should have provision for non-residential activities on the ground floor because it is close to the university. [See original submission for full details]	Seeks that provision is made for small scale non-residential activity on the ground floor of 64 Kelburn Parade.
WCC Environmental Reference Group	377.336	Residential Zones / Medium Density Residential Zone / MRZ-R1	Support	Considers that the rule will help compensate for residents having less available green space, and provide for community building and public health, as well as potential infrastructure for green waste recycling at a local scale.	Retain MRZ-R1 (Community gardens) as notified.
VicLabour	414.31	Residential Zones / Medium Density Residential Zone / MRZ-R1	Support	Supports provision for community gardens and urban agriculture and considers a green city and more community spaces is needed.	Retain MRZ-R1 (Community gardens) as notified. [Inferred decision requested]
Ara Poutama Aotearoa the Department of Corrections	240.14	Residential Zones / Medium Density Residential Zone / MRZ-R2	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain MRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) as notified.
Tapu-te-Ranga Trust	297.34	Residential Zones / Medium Density Residential Zone / MRZ-R2	Support	Supports the inclusion of this rule and recognition of Tapu-te-Ranga land and the identification of specific matters relevant to the development of the site. These matters are all relevant and are addressed individually above.	Retain MRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Transpower New Zealand Limited	315.185	Residential Zones / Medium Density Residential Zone / MRZ-R2	Amend	Considers that on the basis the National Grid is a qualifying matter, MRZ-R2 should be amended to clarify activities subject to the rule are subject to the qualifying matter area provisions. Considers the note would assist with plan interpretation and application.	Amend Rule MRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) as follows: MRZ-R2 Residential activities, excluding retirement villages, supported residential care activities and boarding houses 1. Activity status: Permitted Where: a. No more than three residential units occupy the site, except in MRZ-PREC03 where there is no limit. 2. Activity status: Restricted Discretionary Where: a. Compliance with MRZ-R2.1.a cannot be achieved. Matters of discretion are: 1. The matters in MRZ-P2, MRZ-P3, MRZ-P5 and MRZ-P6; 2. For any site within the Spenmoor Street Area: the matters in MRZ-P2, MRZ-P3, MRZ-P5, MRZ-P6 and MRZ-P12; and 3. For the Tapu Te Ranga land: the matters in MRZ-P2, MRZ-P3, MRZ-P5, MRZ-P6 and MRZ-P13. Notification status: An application for resource consent made in respect of rule MRZ-R2.2.a is precluded from being either publicly or limited notified. Note: <u>Activities subject to MRZ-R2 shall comply with, and are subject to, the relevant provisions for qualifying matter areas.</u>
Khoi Phan	326.16	Residential Zones / Medium Density Residential Zone / MRZ-R2	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend MRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) as follows: 1. Activity status: Permitted Where: a. No more than three <u>six</u> residential units occupy the site, except in MRZ-PREC03 where there is no limit.
Waka Kotahi	370.285	Residential Zones / Medium Density Residential Zone / MRZ-R2	Support	Rule MRZ-R2 is supported.	Retain MRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) as notified.
WCC Environmental Reference Group	377.337	Residential Zones / Medium Density Residential Zone / MRZ-R2	Support	Considers that MRZ-R2 will help enable facilities and services that are suited to a residential setting.	Retain MRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) as notified.
Kāinga Ora Homes and Communities	391.362	Residential Zones / Medium Density Residential Zone / MRZ-R2	Support in part	MRZ-R2 is partially supported but amendments are sought.	Retain MRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.363	Residential Zones / Medium Density Residential Zone / MRZ-R2	Amend	Considers that MRZ-R2 should be amended so that changes can be made to provide for better clarity in regard to the intention of the rule and notification preclusions.	Amend MRZ-R2.1 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) as follows: 1. Activity status: Permitted where: a. No more than three residential units occupy the site; and, except in MRZ-PREC03 where there is no limit. <u>b. Compliance with the following standards is achieved:</u> <u>i. MRZ-S1;</u> <u>ii. MRZ-S3;</u> <u>iii. MRZ-S4 only in relation to the rear/side yard boundary setback;</u> <u>iv. MRZ-S5;</u> <u>v. MRZ-S7.</u>
Kāinga Ora Homes and Communities	391.364	Residential Zones / Medium Density Residential Zone / MRZ-R2	Amend	Considers that MRZ-R2 should be amended so that changes can be made to provide for better clarity in regard to the intention of the rule and notification preclusions. An additional Restricted Discretionary activity status is proposed.	Amend MRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) as follows: <u>2. Activity Status: Restricted Discretionary where compliance with MRZ-R1.a. cannot be achieved.</u> <u>Matters of discretion are:</u> <u>1. The scale, form, and appearance of the development is compatible with the planned urban built form of the neighbourhood;</u> <u>2. The development contributes to a safe and attractive public realm and streetscape;</u> <u>3. The extent and effects on the three waters infrastructure, achieved by demonstrating that at the point of connection the infrastructure has the capacity to service the development.</u> <u>4. The degree to which development delivers quality on-site amenity and occupant privacy that is appropriate for its scale; and</u> <u>where compliance with MRZ-R1.b. cannot be achieved.</u> <u>5. The extent and effect of non-compliance with any relevant standard as specified in the associated assessment criteria for the infringed standard.</u>
Kāinga Ora Homes and Communities	391.365	Residential Zones / Medium Density Residential Zone / MRZ-R2	Amend	Considers that MRZ-R2 should be amended so that changes can be made to provide for better clarity in regard to the intention of the rule and notification preclusions. An additional Notification status is proposed.	Amend MRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) as follows: ... <u>Notification status:</u> <u>1. An application for resource consent which complies with MRZ-R1.a. but does not comply with MRZR1.b. is precluded from being publicly notified.</u> <u>2. An application for resource consent made which does not comply with MRZ-R1.a. but complies with MRZ-R1.b. is precluded from being either publicly or limited notified.</u> <u>3. An application for resource consent made which does not comply with MRZ-R1.a. and MRZ-R1.b. but complies with MRZ-S1 and MRZ-S5 is precluded from being either publicly notified.</u>
Anita Gude and Simon Terry	461.29	Residential Zones / Medium Density Residential Zone / MRZ-R2	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend MRZ-R2 (Residential Activities...) to make it clear that the Restricted Discretionary provisions are only available in the Townscape Precincts if the burden of proof is placed with the developer, in respect to MRZ-P2 (Housing Supply and Choice) and MRZ-P3 (Housing Needs).
Craig Palmer	492.2	Residential Zones / Medium Density Residential Zone / MRZ-R2	Oppose	Opposes the preclusion of limited notification in the rule and accordingly notification of neighbouring property owners and residents. Considers that without local knowledge, discretionary powers cannot be exercised with all the implications weighed in the balance.	Seeks that MRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) be amended to be able to be limited notified to request identification of faults and improvements to address local conditions.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.286	Residential Zones / Medium Density Residential Zone / MRZ-R3	Support in part	Submitter supports the permitted activity standards for home business as it limits potential traffic effects on the roading network. Submitter also supports the restricted discretionary activity status for where the standards are not met.	Retain Rule MRZ-R3 (Home business) and seeks amendment.
Waka Kotahi	370.287	Residential Zones / Medium Density Residential Zone / MRZ-R3	Amend	Submitter has sought changes to standards that apply to the permitted rule of MRZ-R3.	Seeks to amend Rule MRZ-R3.1 (Home business) to align with requested changes to the referenced standards in the rule.
WCC Environmental Reference Group	377.338	Residential Zones / Medium Density Residential Zone / MRZ-R3	Support	Considers that MRZ-R3 will help enable businesses that are suited to a residential setting.	Retain MRZ-R3 (Home business) as notified.
Kāinga Ora Homes and Communities	391.366	Residential Zones / Medium Density Residential Zone / MRZ-R3	Support in part	MRZ-R3 is generally supported, particularly the preclusion of public notification but an amendment is sought.	Retain MRZ-R3 (Home business) with amendment.
Kāinga Ora Homes and Communities	391.367	Residential Zones / Medium Density Residential Zone / MRZ-R3	Amend	Considers that MRZ-R3 should be amended to recognise changing urban environments and amenity in accordance with the NPSUD.	Amend MRZ-R3.2 (Home business) as follows: ... Matters of discretion are: 1. The extent to which the intensity and scale of the activity adversely impacts on the <u>planned urban built form amenity values</u> of nearby residential properties and the surrounding neighbourhood. 2. The extent to which the intensity and scale of the activity adversely impacts on the amenity values of nearby residential properties and the surrounding neighbourhood. ...
Onslow Residents Community Association	FS80.30	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R3	Oppose	Considers amenity is important and must be retained.	Disallow
Craig Palmer	492.3	Residential Zones / Medium Density Residential Zone / MRZ-R3	Oppose	Opposes the preclusion of limited notification in the rule and accordingly notification of neighbouring property owners and residents. Considers that without local knowledge, discretionary powers cannot be exercised with all the implications weighed in the balance.	Seeks that MRZ-R3 (Home business) be amended to be able to be limited notified to request identification of faults and improvements to address local conditions.
Craig Palmer	492.4	Residential Zones / Medium Density Residential Zone / MRZ-R3	Support in part	Supports MRZ-R3 (Home business) facilitating individuals being able to conduct a business from their principal place of residence.	Retain Supports MRZ-R3 (Home business) with amendment.
Craig Palmer	492.5	Residential Zones / Medium Density Residential Zone / MRZ-R3	Amend	Considers that MRZ-R3 (Home business) should be amended to reduce the proposed numbers working and those visiting as they are out of proportion to a home-based business. Considers that the MRZ-R3 exception to exclusive residential use needs to be tailored to small and non-intrusive ventures that can be readily monitored. The right of neighbours to have quiet enjoyment at all times needs to be upheld as having paramount importance.	Amend MRZ-R3.1.b. (Home Business) as follows: ... b. No more than four <u>three</u> people in total work in the home business at any one time, and the maximum number of people on site associated with the home business does not exceed 10 <u>6</u> people at any one time;
Craig Palmer	492.6	Residential Zones / Medium Density Residential Zone / MRZ-R3	Amend	Considers that the HRZ-R3 exception to exclusive residential use needs to be tailored to small and non-intrusive ventures that can be readily monitored. The right of neighbours to have quiet enjoyment at all times needs to be upheld as having paramount importance.	Seeks that MRZ-R3 (Home Business) is amended to include the mandatory notification and consultation provisions of the Prostitution Reform Act 2003 need to be added as a caveat.
Craig Palmer	492.7	Residential Zones / Medium Density Residential Zone / MRZ-R3	Amend	Considers that the MRZ-R3 exception to exclusive residential use needs to be tailored to small and non-intrusive ventures that can be readily monitored. The right of neighbours to have quiet enjoyment at all times needs to be upheld as having paramount importance.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Craig Palmer	492.8	Residential Zones / Medium Density Residential Zone / MRZ-R3	Amend	Considers that the potential loss of tenancies for commercial property owners paying higher rates should be considered.	Seeks that MRZ-R3.2 (Home Business) is amended to include the potential loss of tenancies for commercial property owners paying higher rates as a matter of discretion [inferred decision requested]
Oranga Tamariki	83.8	Residential Zones / Medium Density Residential Zone / MRZ-R4	Support	Oranga Tamariki support the Permitted activity status for supported residential care activities. It provides flexibility for Oranga Tamariki to establish homes (up to 10 residents) in residential zones. Residential zones are considered an appropriate zone for Oranga Tamariki homes.	Retain MRZ-R4.1 (Supported residential care activities) as notified.
Oranga Tamariki	83.9	Residential Zones / Medium Density Residential Zone / MRZ-R4	Support	Oranga Tamariki support the Restricted Discretionary activity status for supported residential care activities exceeding 10 residents. Oranga Tamariki consider it acceptable for Council to consider the effects on the amenity values of the wider area as a result of the intensity and scale of the activity. Oranga Tamariki also support the preclusion of public notification for supported residential care activities exceeding 10 residents.	Retain MRZ-R4.2 (Supported residential care activities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.15	Residential Zones / Medium Density Residential Zone / MRZ-R4	Oppose in part	Considers that should Council see it as being absolutely necessary to implement the separate definition of "supported residential care activity", then Ara Poutama requests that the enabled activities policies and permitted land use activity rules applying to supported residential care activities in the Medium Density Residential, High Density Residential, Large Lot Residential and Corrections zones are retained as notified. The permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities. Such activities are an important component of the rehabilitation and reintegration process for people under Ara Poutama's supervision. They enable people and communities to provide for their social and cultural well-being and for their health and safety.	Retain MRZ-R4 (Supported residential care activities) as notified if "supported residential care activity" definition and references to term are retained.
Khoi Phan	326.17	Residential Zones / Medium Density Residential Zone / MRZ-R4	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend MRZ-R4 (Supported residential care activities) as follows: 1. Activity status: Permitted Where: a. The maximum occupancy does not exceed 10-20 residents.
WCC Environmental Reference Group	377.339	Residential Zones / Medium Density Residential Zone / MRZ-R4	Support	Considers that MRZ-R4 will help enable facilities and services that are suited to a residential setting.	Retain MRZ-R4 (Supported residential care activities) as notified.
Kāinga Ora Homes and Communities	391.368	Residential Zones / Medium Density Residential Zone / MRZ-R4	Support in part	MRZ-R4 is generally supported but an amendment is sought.	Retain MRZ-R4 (Supported residential care activities) with amendment.
Kāinga Ora Homes and Communities	391.369	Residential Zones / Medium Density Residential Zone / MRZ-R4	Amend	Considers that MRZ-R4 should be amended to recognise changing urban environments and amenity in accordance with the NPS-UD, and to preclude both public and limited notification as the activity is residential in nature and anticipated within the zone.	Amend MRZ-R4.2 (Supported residential care activities) as follows: ... Matters of discretion are: 1. The extent to which the intensity and scale of the activity adversely impacts on the <u>planned urban built form amenity values</u> of nearby residential properties and the surrounding neighbourhood. Notification status: An application for resource consent made in respect of rule MRZ-R4.2.a is precluded from being <u>either publicly or limited</u> notified.

Amend MRZ-R5 (Boarding houses) as follows: <input checked="" type="checkbox"/> 1. Activity status: Permitted Where: a. The maximum occupancy does not exceed 49 <u>20</u> guests per night.
WCC Environmental Reference Group	377.340	Residential Zones / Medium Density Residential Zone / MRZ-R5	Support	Considers that MRZ-R5 will help enable facilities and services that are suited to a residential setting.	Retain MRZ-R5 (Boarding houses) as notified.
Kāinga Ora Homes and Communities	391.370	Residential Zones / Medium Density Residential Zone / MRZ-R5	Support in part	MRZ-R5 is generally supported but an amendment is sought.	Retain MRZ-R5 (Boarding houses) with amendment.
Kāinga Ora Homes and Communities	391.371	Residential Zones / Medium Density Residential Zone / MRZ-R5	Amend	Considers that MRZ-R5 should be amended to recognise changing urban environments and amenity in accordance with the NPS-UD, and to preclude both public and limited notification as the activity is residential in nature and anticipated within the zone.	Amend MRZ-R5.2 (Boarding houses) as follows: ... Matters of discretion are: 1. The extent to which the intensity and scale of the activity adversely impacts on the <u>planned urban built form amenity values</u> of nearby residential properties and the surrounding neighbourhood. Notification status: An application for resource consent made in respect of rule MRZ-R5.2.a is precluded from being <u>either publicly or limited</u> notified.
Craig Palmer	492.10	Residential Zones / Medium Density Residential Zone / MRZ-R5	Oppose	Opposes the preclusion of limited notification in the rule and accordingly notification of neighbouring property owners and residents. Considers that without local knowledge, discretionary powers cannot be exercised with all the implications weighed in the balance.	Seeks that MRZ-R5 (Boarding houses) be amended to be able to be limited notified to request identification of faults and improvements to address local conditions.
Airbnb	126.7	Residential Zones / Medium Density Residential Zone / MRZ-R6	Support	Supports the approach to visitor accommodation in the residential zone.	Retain MRZ-R6 (Visitor Accommodation) as notified.
Khoi Phan	326.19	Residential Zones / Medium Density Residential Zone / MRZ-R6	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend MRZ-R6 (Visitor accommodation) as follows: 1. Activity status: Permitted Where: 2. The maximum occupancy does not exceed 49 <u>20</u> guests per night.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.372	Residential Zones / Medium Density Residential Zone / MRZ-R6	Support in part	MRZ-R6 is generally supported but an amendment is sought.	Retain MRZ-R6 (Visitor accommodation) with amendment.
Kāinga Ora Homes and Communities	391.373	Residential Zones / Medium Density Residential Zone / MRZ-R6	Amend	Considers that MRZ-R6 should be amended to recognise changing urban environments and amenity in accordance with the NPS-UD.	Amend MRZ-R6.2 (Visitor accommodation) as follows: ... Matters of discretion are: 1. The extent to which the intensity and scale of the activity adversely impacts on the <u>planned urban built form amenity values</u> of nearby residential properties and the surrounding neighbourhood. ..
Craig Palmer	492.11	Residential Zones / Medium Density Residential Zone / MRZ-R6	Oppose	Opposes the preclusion of limited notification in the rule and accordingly notification of neighbouring property owners and residents. Considers that without local knowledge, discretionary powers cannot be exercised with all the implications weighed in the balance.	Seeks that MRZ-R6 (Visitor accommodation) be amended to be able to be limited notified to request identification of faults and improvements to address local conditions.
Waka Kotahi	370.288	Residential Zones / Medium Density Residential Zone / MRZ-R7	Support in part	The submitter supports the permitted activity status for childcare service activities for up to 10 children, the effects of larger scale activities of this nature should be assessed through a resource consent and the RD activity status for childcare activities exceeding 10 children at a time is considered appropriate.	Retain Rule MRZ-R7 (Childcare services) and seeks amendment.
Waka Kotahi	370.289	Residential Zones / Medium Density Residential Zone / MRZ-R7	Amend	Considers that traffic effects should be added as a matter of discretion as childcare activities can generate high volumes of traffic. Considers that in urban areas, childcare services should be located and designed to facilitate alternative transport modes – e.g located in densely populated areas with good walking connections. In addition, considers a matter of discretion should be included to support multi-use development, provision to include childcare facilities into residential developments where possible	Amend Rule MRZ-R7 (Childcare services) as follows: 1. Activity status: Restricted Discretionary Where: a. Compliance with MRZ-R7.1.a or MRZ-R7.1.b cannot be achieved. Matters of discretion are: 1. The extent to which the intensity and scale of the activity may adversely impact on the amenity values of nearby residential properties and the surrounding neighbourhood; <u>and</u> 2. <u>The extent to which childcare facilities are integrated into residential development;</u> 3. <u>Expected traffic generation and effects on the road network; and</u> 4. <u>How alternative modes will be supported.</u>
WCC Environmental Reference Group	377.341	Residential Zones / Medium Density Residential Zone / MRZ-R7	Support	Considers that MRZ-R7 will help enable facilities and services that are suited to a residential setting.	Retain MRZ-R7 (Childcare services) as notified.
Kāinga Ora Homes and Communities	391.374	Residential Zones / Medium Density Residential Zone / MRZ-R7	Support in part	MRZ-R7 is generally supported but an amendment is sought.	Retain MRZ-R7 (Childcare services) with amendment.
Kāinga Ora Homes and Communities	391.375	Residential Zones / Medium Density Residential Zone / MRZ-R7	Amend	Considers that MRZ-R7 should be amended to recognise changing urban environments and amenity in accordance with the NPS-UD.	Amend MRZ-7.2 (Childcare services) as follows: ... Matters of discretion are: 1. The extent to which the intensity and scale of the activity adversely impacts on the <u>planned urban built form amenity values</u> of nearby residential properties and the surrounding neighbourhood. ...
Ministry of Education	400.96	Residential Zones / Medium Density Residential Zone / MRZ-R7	Support	Supports that the District Plan continues to outline exclusions for childcare facilities in relevant rules in residential zones.	Retain MRZ-R7 (Childcare services) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Craig Palmer	492.12	Residential Zones / Medium Density Residential Zone / MRZ-R7	Oppose	Opposes the preclusion of limited notification in the rule and accordingly notification of neighbouring property owners and residents. Considers that without local knowledge, discretionary powers cannot be exercised with all the implications weighed in the balance.	Seeks that MRZ-R7 (Childcare services) be amended to be able to be limited notified to request identification of faults and improvements to address local conditions.
Retirement Villages Association of New Zealand Incorporated	350.122	Residential Zones / Medium Density Residential Zone / MRZ-R8	Support	Supports the inclusion of a retirement village specific rule, and for applications under this rule being precluded from being publicly notified. However, considers that retirement villages as an activity should be a permitted activity (with the construction of the retirement villages being a restricted discretionary activity). Permitted activity status recognises that retirement villages are residential activities and provide substantial benefit in residential zones including enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	Retain MRZ-R8 (Retirement village) and seeks amendments as outlined below.
Retirement Villages Association of New Zealand Incorporated	350.123	Residential Zones / Medium Density Residential Zone / MRZ-R8	Support in part	Supports the inclusion of a retirement village specific rule, and for applications under this rule being precluded from being publicly notified. However, considers that retirement villages as an activity should be a permitted activity (with the construction of the retirement villages being a restricted discretionary activity). Permitted activity status recognises that retirement villages are residential activities and provide substantial benefit in residential zones including enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	Retain MRZ-R8 (Retirement village) and seeks amendment
Retirement Villages Association of New Zealand Incorporated	350.124	Residential Zones / Medium Density Residential Zone / MRZ-R8	Amend	Supports the inclusion of a retirement village specific rule, and for applications under this rule being precluded from being publicly notified. However, considers that retirement villages as an activity should be a permitted activity (with the construction of the retirement villages being a restricted discretionary activity). Permitted activity status recognises that retirement villages are residential activities and provide substantial benefit in residential zones including enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	Amend MRZ-R8 (Retirement village) as follows: Activity status: Restricted Discretionary <u>Permitted</u> Matters of discretion are: The matters in MRZ P2, MRZ P3 and MRZ P7. Notification status: An application for resource consent made in respect of rule MRZ R8.1 is precluded from being publicly notified.
Retirement Villages Association of New Zealand Incorporated	350.125	Residential Zones / Medium Density Residential Zone / MRZ-R8	Support in part	Supports the inclusion of a retirement village specific rule, and for applications under this rule being precluded from being publicly notified. However, considers that retirement villages as an activity should be a permitted activity (with the construction of the retirement villages being a restricted discretionary activity). Permitted activity status recognises that retirement villages are residential activities and provide substantial benefit in residential zones including enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	Retain MRZ-R8 (Retirement village) and seeks amendment
Retirement Villages Association of New Zealand Incorporated	350.126	Residential Zones / Medium Density Residential Zone / MRZ-R8	Amend	Supports the inclusion of a retirement village specific rule, and for applications under this rule being precluded from being publicly notified. However, considers that retirement villages as an activity should be a permitted activity (with the construction of the retirement villages being a restricted discretionary activity). Permitted activity status recognises that retirement villages are residential activities and provide substantial benefit in residential zones including enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	Amend MRZ-R8 (Retirement village) as follows: Activity status: Restricted Discretionary <u>Permitted</u> Matters of discretion are: The matters in MRZ P2, MRZ P3 and MRZ P7. Notification status: An application for resource consent made in respect of rule MRZ R8.1 is precluded from being publicly notified.
Waka Kotahi	370.290	Residential Zones / Medium Density Residential Zone / MRZ-R8	Support in part	Supports the Restricted Discretionary Activity status for retirement villages.	Retain Rule MRZ-R8 (Retirement village) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.291	Residential Zones / Medium Density Residential Zone / MRZ-R8	Amend	Supports provided earlier submission point on MRZ-P7 is implemented.	Retain MRZ-R8 (Retirement Village) as notified, provided changes to MRZ-P7 are made as per earlier submission point.
WCC Environmental Reference Group	377.342	Residential Zones / Medium Density Residential Zone / MRZ-R8	Support	Considers that MRZ-R8 will help enable facilities and services that are suited to a residential setting.	Retain MRZ-R8 (Retirement village) as notified.
Kāinga Ora Homes and Communities	391.376	Residential Zones / Medium Density Residential Zone / MRZ-R8	Support	MRZ-R8 is generally supported.	Retain MRZ-R8 (Retirement village) as notified.
Metlifecare Limited	413.27	Residential Zones / Medium Density Residential Zone / MRZ-R8	Oppose in part	<p>The submitter states that a retirement village use requires resource consent as a restricted discretionary activity. The matters of discretion are policies MRZ-P2 (housing supply and choice), P3 (Housing needs) and P7 (Retirement Villages). Each of these policies relates to the provision of housing and the design of the housing development (in this case a retirement village).</p> <p>The construction of a retirement village also requires resource consent as a restricted discretionary activity. The matters of discretion are broader but also include policies MRZ-P2, P3 and P7.</p> <p>This means that when a resource consent is required for a retirement village, an applicant will be required to apply for a resource consent to enable both the construction and use of a retirement village. It is unnecessary to require two consents to be obtained that require consideration of the same criteria. It is also unclear why the use should require resource consent.</p> <p>Retirement villages should be a permitted activity (while their construction remains a restricted discretionary activity). The applicant will still need to provide the same information for a new retirement village development and it will be assessed against the same criteria.</p>	Seeks to amend the activity status of retirement villages to: Permitted and Delete the matters of discretion and notification status.
Craig Palmer	492.13	Residential Zones / Medium Density Residential Zone / MRZ-R8	Oppose	<p>Opposes the preclusion of limited notification in the rule and accordingly notification of neighbouring property owners and residents.</p> <p>Considers that without local knowledge, discretionary powers cannot be exercised with all the implications weighed in the balance.</p>	Seeks that MRZ-R8 (Retirement village) be amended to be able to be limited notified to request identification of faults and improvements to address local conditions.
The Retirement Villages Association of New Zealand Incorporated	FS126.17	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R8	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with the RVA's primary submission and will slow down, not speed up, the provision of housing for the ageing population which is inconsistent with the intent of the Enabling Housing Act and the NPSUD.	Disallow
Ryman Healthcare Limited	FS128.17	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R8	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission and will slow down, not speed up, the provision of housing for the ageing population which is inconsistent with the intent of the Enabling Housing Act and the NPSUD.	Disallow
Waka Kotahi	370.292	Residential Zones / Medium Density Residential Zone / MRZ-R9	Support in part	Rule MRZ-R9 is supported, but amendment is sought.	Retain Rule MRZ-R9 (Community facility, health care facility, emergency facility, education facility (excluding child care services)) with amendment.
Waka Kotahi	370.293	Residential Zones / Medium Density Residential Zone / MRZ-R9	Amend	Considers that commercial activities should be included as a restricted discretionary activity in MRZ-R9. Considers that access to appropriately located and scaled commercial activities improves amenity for residents in urban environments and creates walkable environments. Supports this rule provided that commercial services are included and MRZ-P15 is revised to include provision for integrated residential developments.	Amend Rule MRZ-R9 (Community facility, health care facility, emergency facility, education facility (excluding child care services)) as follows: Community facility, <u>commercial activity</u> health care facility, emergency facility, education facility (excluding child care services)

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.343	Residential Zones / Medium Density Residential Zone / MRZ-R9	Support	Considers that MRZ-R9 will help enable facilities and services that are suited to a residential setting.	Retain MRZ-R9 (Community facility, health care facility, emergency facility, education facility (excluding child care services)) as notified.
Kāinga Ora Homes and Communities	391.377	Residential Zones / Medium Density Residential Zone / MRZ-R9	Support	MRZ-R9 is generally supported.	Retain MRZ-R9 (Community facility, health care facility, emergency facility, education facility (excluding child care services)) as notified.
Ministry of Education	400.97	Residential Zones / Medium Density Residential Zone / MRZ-R9	Support in part	Supports MRZ-R9 in part.	Retain MRZ-R9 (Community facility, health care facility, emergency facility, education facility (excluding child care services)) with amendment.
Ministry of Education	400.98	Residential Zones / Medium Density Residential Zone / MRZ-R9	Amend	Seeks MRZ-R9 be amended. The submitter seeks to replace 'education facilities' with 'educational facilities' to keep definitions consistent throughout the plan.	Amend MRZ-R9 (Community facility, health care facility, emergency facility, education facility (excluding child care services)) as follows: Community facility, health care facility, emergency facility, educational facility (excluding childcare services) 1. Activity status: Restricted Discretionary Matters of discretion are: The matters in MRZ-P15. Notification status: An application for resource consent made in respect of rule MRZ-R9.1 is precluded from being publicly notified.
Craig Palmer	492.14	Residential Zones / Medium Density Residential Zone / MRZ-R9	Oppose	Opposes the preclusion of limited notification in the rule and accordingly notification of neighbouring property owners and residents. Considers that without local knowledge, discretionary powers cannot be exercised with all the implications weighed in the balance.	Seeks that MRZ-R9 (Community facility, health care facility, emergency facility, education facility (excluding child care services)) be amended to be able to be limited notified to request identification of faults and improvements to address local conditions.
Anne Lian	132.11	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled or Restricted Discretionary.
Ingo Schommer	133.10	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled or Restricted Discretionary.
Olivier Reuland	134.13	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled or Restricted Discretionary.
Grant Buchan	143.18	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled, Restricted Discretionary.
Braydon White	146.17	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled, Restricted Discretionary.
Cameron Vannisselroy	157.10	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled, Restricted Discretionary.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Amos Mann	172.20	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled, Restricted Discretionary.
Patrick Wilkes	173.19	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled, Restricted Discretionary.
Pete Gent	179.14	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled, Restricted Discretionary.
Peter Nunns	196.15	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled or Restricted Discretionary.
Andrew Flanagan	198.6	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity. These activities could and do bring life and charm to all parts of the city.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled or Restricted Discretionary.
Richard W Keller	232.12	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled, Restricted Discretionary.
Gabriela Roque-Worcel	234.10	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled or Restricted Discretionary.
Woolworths New Zealand	359.42	Residential Zones / Medium Density Residential Zone / MRZ-R10	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain MRZ-R10 (All other activities) as notified.
Waka Kotahi	370.294	Residential Zones / Medium Density Residential Zone / MRZ-R10	Support	Rule MRZ-R10 is supported.	Retain Rule MRZ-R10 (All other activities) as notified.
Henry Bartholomew Nankivell Zwart	378.16	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled, Restricted Discretionary.
Matthew Tamati Reweti	394.15	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled, Restricted Discretionary.
David Cadman	398.14	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled, Restricted Discretionary.
Alicia Hall on behalf of Parents for Climate Aotearoa	472.16	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) of Discretionary be changed to Permitted, or Controlled, or Restricted Discretionary.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Jonathan Markwick	490.18	Residential Zones / Medium Density Residential Zone / MRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for MRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled or Restricted Discretionary. [Inferred decision requested]
Craig Palmer	492.15	Residential Zones / Medium Density Residential Zone / MRZ-R10	Oppose	Opposes the preclusion of limited notification in the rule and accordingly notification of neighbouring property owners and residents. Considers that without local knowledge, discretionary powers cannot be exercised with all the implications weighed in the balance.	Seeks that MRZ-R10 (All other activities) be amended to be able to be limited notified to request identification of faults and improvements to address local conditions.
Fire and Emergency New Zealand	273.177	Residential Zones / Medium Density Residential Zone / MRZ-R11	Support	Supports the rule as the maintenance and repair of buildings and structures within the MRZ is a permitted activity.	Retain MRZ-R11 (Maintenance and repair of buildings and structures) as notified.
Kāinga Ora Homes and Communities	391.378	Residential Zones / Medium Density Residential Zone / MRZ-R11	Support	MRZ-R11 is generally supported.	Retain MRZ-R11 (Maintenance and repair of buildings and structures) as notified.
Craig Palmer	492.16	Residential Zones / Medium Density Residential Zone / MRZ-R11	Oppose	Opposes the preclusion of limited notification in the rule and accordingly notification of neighbouring property owners and residents. Considers that without local knowledge, discretionary powers cannot be exercised with all the implications weighed in the balance.	Seeks that MRZ-R11 (Maintenance and repair of buildings and structures) be amended to be able to be limited notified to request identification of faults and improvements to address local conditions.
The Retirement Villages Association of New Zealand Incorporated	FS126.18	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R11	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with the RVA's primary submission and will slow down, not speed up, the provision of housing for the ageing population which is inconsistent with the intent of the Enabling Housing Act and the NPSUD.	Disallow
Ryman Healthcare Limited	FS128.18	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R11	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission and will slow down, not speed up, the provision of housing for the ageing population which is inconsistent with the intent of the Enabling Housing Act and the NPSUD.	Disallow
Fire and Emergency New Zealand	273.178	Residential Zones / Medium Density Residential Zone / MRZ-R12	Support	Supports the policy as the demolition or removal of buildings and structures within the MRZ is a permitted activity.	Retain MRZ-R12 (Demolition or removal of buildings and structures) as notified.
Greater Wellington Regional Council	351.250	Residential Zones / Medium Density Residential Zone / MRZ-R12	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain MRZ-R12 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.251	Residential Zones / Medium Density Residential Zone / MRZ-R12	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend MRZ-R12 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Kāinga Ora Homes and Communities	391.379	Residential Zones / Medium Density Residential Zone / MRZ-R12	Support	MRZ-R12 is generally supported.	Retain MRZ-R12 (Demolition or removal of buildings and structures) as notified.
Craig Palmer	492.17	Residential Zones / Medium Density Residential Zone / MRZ-R12	Oppose	Opposes the preclusion of limited notification in the rule and accordingly notification of neighbouring property owners and residents. Considers that without local knowledge, discretionary powers cannot be exercised with all the implications weighed in the balance.	Seeks that MRZ-R12 (Demolition or removal of buildings and structures) be amended to be able to be limited notified to request identification of faults and improvements to address local conditions.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Khoi Phan	326.20	Residential Zones / Medium Density Residential Zone / MRZ-R13	Amend	Considers that apartment buildings should permit up to 15 units per site without resource consent.	Amend the title of MRZ-R13 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) as follows: Construction, addition or alteration of buildings and structures where no more than three <u>fifteen</u> residential units occupy the site
Bruce Rae	334.4	Residential Zones / Medium Density Residential Zone / MRZ-R13	Amend	Considers that MRZ-R13 should be amended to include two omitted relevant matters in qualifying matters. The first matter is that there is no indication of a minimum site size to which this rule applies, or how cross leases are to be treated - Many once ample sites have been subdivided, some into areas 300 m2 or even less. The addresses 85, 85A, 87, 87A & 89 marine parade in Seatoun (ignoring other overlays) are considered as an example. 85 & 85A have been subdivided, 85 is 812m2, with a smaller front site of 392m2 at 85A 87 & 87A are 2 houses on one cross leased site with an area of 926m2 89 appears to have had an area for an additional house subdivided from the rear of the site, but retains an area of 2852m2. The second matter is that no account is taken of the effects of topography, the most severe of these is shading and overlooking from sites on a south-facing slope.	Amend MRZ-R13 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) as follows: 1. Activity status: Permitted Where: <u>a. The site is of a minimum area of 400m2 and</u> <u>b. The site does not have a south-facing slope of steeper than 15° and</u> <u>c. a Compliance with the following standards is achieved:</u>
Waka Kotahi	370.295	Residential Zones / Medium Density Residential Zone / MRZ-R13	Support in part	Support permitted activity status of MRZ-R13 to construct up to three dwellings that comply with standards, provided that further weighting assessment is done on restrictions on character precincts, mount Victoria north townscape precinct and oriental bay height precinct as well, and provided that changes are made to standards as per our submission points.	Retain MRZ-R13 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) subject to further evaluation and weighting exercise to determine extent of protection required on balance with achieving the outcomes of the NPS-UD.
Waka Kotahi	370.296	Residential Zones / Medium Density Residential Zone / MRZ-R13	Amend	Support permitted activity status of MRZ-R13 to construct up to three dwellings that comply with standards, provided that further weighting assessment is done on restrictions on character precincts, mount Victoria north townscape precinct and oriental bay height precinct as well, and provided that changes are made to standards as per our submission points.	Retain MRZ-R13 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) subject to further evaluation and weighting exercise to determine extent of protection required on balance with achieving the outcomes of the NPS-UD.
WCC Environmental Reference Group	377.344	Residential Zones / Medium Density Residential Zone / MRZ-R13	Amend	Considers that it should be evident that the Residential Design Guide applies to all residential buildings.	Amend the matters of Discretion under MRZ-R13 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) to add a new matter of discretion: <u>"The Residential Design Guide"</u>
Kāinga Ora Homes and Communities	391.380	Residential Zones / Medium Density Residential Zone / MRZ-R13	Support in part	MRZ-R13 is generally supported but an amendment is sought.	Retain MRZ-R13 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.381	Residential Zones / Medium Density Residential Zone / MRZ-R13	Amend	Considers that MRZ-R13 should be amended to allow the rule to apply to all buildings not just those associated with no more than three residential units on a site. A further amendment is sought to delete reference to MRZ-P10 which is opposed.	Amend MRZ-13 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) as follows: Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site 1. Activity Status: Permitted where: <u>a. There are no more than three residential units on a site; and</u> <u>b. Compliance with the following standards is achieved:</u> ... 2. Activity status Restricted Discretionary where: <u>a. Compliance with any of the requirements of MRZ-R13.1.a and MRZ-R13.1.b cannot be are not achieved.</u> Matters of discretion are: 2. The matters in MRZ-P2, MRZ-P3, MRZ-P4, MRZ-P5, MRZ-P8, MRZ-P9, MRZ-P10 and MRZ-P11; <u>and</u> <u>3. where compliance with MRZ-R13.1.a is not achieved, the matters in MRZ-P6.</u>
KiwiRail Holdings Limited	408.117	Residential Zones / Medium Density Residential Zone / MRZ-R13	Amend	Considers that for health and safety reasons, a setback for structures from the rail corridor boundary is sought. KiwiRail seek that the railway corridor be identified as a qualifying matter and be applied to require a building setback for structures from the rail corridor boundary. KiwiRail seek amendment to this rule to ensure compliance with the requested rail corridor boundary setback standard (MRZ-S4) is required.	Amend HRZ-R13.1 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) as follows: 1. Activity status: Permitted Where: a. Compliance with the following standards is achieved: i. MRZ-S1; ii. MRZ-S3; iii. MRZ-S4 only in relation to the rear yard <u>and rail corridor</u> boundary setbacks; iv.
KiwiRail Holdings Limited	408.118	Residential Zones / Medium Density Residential Zone / MRZ-R13	Amend	Considers that a matter of discretion directing consideration of impacts on the safety and efficiency of the rail corridor is appropriate in situations where the 5m setback standard is not complied with. This amendment is sought in addition to the amendment sought in relation to MRZ-R13.1.	Amend MRZ-R13.2 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) as follows: 2. Activity status: Restricted discretionary Where: a. Compliance with any of the requirement of MRZ-R13.1.a cannot be achieved. Matters of discretion are: 1. ... 2. ... <u>3. The location and design of the building as it relates to the ability to safely use, access and maintain buildings without requiring access on, above or over the rail corridor.</u>
Kāinga Ora – Homes and Communities	FS89.32	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R13	Oppose	Kāinga Ora opposes the relief sought; a considerably reduced set back would provide adequate space for maintenance activities within sites adjacent to the rail network. In doing so, it will continue to protect the safe, efficient, and effective operation of the rail infrastructure while balancing the cost on landowners.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Rachel Underwood	458.6	Residential Zones / Medium Density Residential Zone / MRZ-R13	Amend	Considers inappropriate to include the standards for setbacks and side yards when implementing MRZ-R13 .	Seeks to amend MRZ-R13 (Outdoor living space for multi-unit housing) as follows: Compliance with the following standards is achieved: MRZ-S1; MRZ-S3; MRZ-S4 only in relation to the rear yard boundary setback ; MRZ-S5... [inferred decision requested].
Craig Palmer	492.18	Residential Zones / Medium Density Residential Zone / MRZ-R13	Oppose	Opposes the preclusion of limited notification in the rule and accordingly notification of neighbouring property owners and residents. Considers that without local knowledge, discretionary powers cannot be exercised with all the implications weighed in the balance.	Seeks that MRZ-R13 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) be amended to be able to be limited notified to request identification of faults and improvements to address local conditions.
Stratum Management Limited	249.18	Residential Zones / Medium Density Residential Zone / MRZ-R14	Amend	The non-notification statement for this rule precludes public notification. Given that any multi-unit development is subject to this rule, and that it specifies a range of standards that apply to multi-unit development, where a proposal meets these standards, it should be processed on a non-notified basis.	Amend the notification status under MRZ-R14 (Construction of buildings or structures for multi-unit housing or a retirement village) by adding the following: <u>An application for resource consent made in respect of rule MRZ-R14.1 that meets the standards specified is precluded from being either publicly or limited notified.</u>
The Retirement Villages Association of New Zealand Incorporated	FS126.209	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R14	Not specified	The RVA supports the relief sought in this submission to the extent it is consistent with The RVA's primary submission.	Amend / Allow the submission points, subject to the relief sought by The RVA in relation to MRZ-R14 and HRZ-R14.
Ryman Healthcare Limited	FS128.209	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R14	Not specified	Ryman supports the relief sought in this submission to the extent it is consistent with Ryman's primary submission.	Amend / Allow the submission points, subject to the relief sought by Ryman in relation to MRZ-R14 and HRZ-R14.
Wellington City Council	266.133	Residential Zones / Medium Density Residential Zone / MRZ-R14	Amend	Considers the notification clauses for 4 or more household units need to align with Sch 3A, cl 5 of the RMA. This also needs to reflect the building standards	Amend the notification clause of MRZ-R14 (Construction of buildings or structures for multi-unit housing or a retirement village) as follows: Notification status: An application for resource consent made in respect of rule MRZ-R14.1 is precluded from being publicly notified. <u>An application for resource consent made in respect of rule MRZ-R14.1 which results from non-compliance with MRZ-S2, MRZ-S3, MRZ-S4 or MRZ-S5, is precluded from being publicly notified.</u> <u>An application for resource consent made in respect of rule MRZ-R14.1 which results from non-compliance with MRZ-S12, MRZ-S13 or MRZ-S14, is precluded from being either publicly or limited notified.</u>
Kāinga Ora – Homes and Communities	FS89.107	Part 3 / Residential Zones / Medium Density Residential Zone / MRZR14	Oppose	Kāinga Ora opposes the amendments as other standards should also be precluded from notification. Standards 7 to 11 largely relate to impacts internal to sites, such as outlook space and permeable surfaces, so should also be considered for notification preclusion.	Disallow
The Retirement Villages Association of New Zealand Incorporated	FS126.241	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R14	Not specified	The RVA supports the relief sought in this submission in so far as it is consistent with The RVA's primary submission.	Amend / Allow the submission point, subject to the relief sought in The RVA's primary submission.
Ryman Healthcare Limited	FS128.241	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R14	Not specified	Ryman supports the relief sought in this submission in so far as it is consistent with Ryman's primary submission.	Amend / Allow the submission point, subject to the relief sought in Ryman's primary submission.

Khoi Phan	326.21	Residential Zones / Medium Density Residential Zone / MRZ-R14	Amend	Considers that apartment buildings should be allowed to be maintained and fixed without the need of resource consents.	Amend MRZ-R14 (Construction of buildings or structures for multi-unit housing or a retirement village) as follows: 1. Activity status: Restricted Discretionary Permitted ... Retain MRZ-R14 (Construction of buildings or structures for multi-unit housing or a retirement village) and seeks amendment
Retirement Villages Association of New Zealand Incorporated	350.127	Residential Zones / Medium Density Residential Zone / MRZ-R14	Oppose in part	Supports the construction of buildings or structures for a retirement village being a restricted discretionary activity under MRZ-R14. Does not oppose the inclusion of the matters of discretion in Clause 1 relating to the extent and effect on non-compliance with the height, height in relation to boundary, setbacks and building coverage standards. However, considers that the matters of discretion in Clause 2, are not appropriate except for the reference to MRZ-P7 (subject to the submission points on that policy). The listed policies are broad and not specific to the effects of retirement villages that require management. Considers that a set of retirement village specific matters of discretion should be included that are based on the MDRS provisions; consider / acknowledge the positive effects provided by retirement villages; the functional and operational needs of retirement villages; and the need to provide for efficient use of larger sites. Supports MRZ-R14 being precluded from being publicly notified, but in accordance with Schedule 3A (5)(2) of the Act Considers that a retirement village that is compliant with MRZ-S2 – MRZ-S5 should also be precluded from limited notification.	Retain MRZ-R14 (Construction of buildings or structures for multi-unit housing or a retirement village) and seeks amendment
Retirement Villages Association of New Zealand Incorporated	350.128	Residential Zones / Medium Density Residential Zone / MRZ-R14	Amend	Supports the construction of buildings or structures for a retirement village being a restricted discretionary activity under MRZ-R14. Does not oppose the inclusion of the matters of discretion in Clause 1 relating to the extent and effect on non-compliance with the height, height in relation to boundary, setbacks and building coverage standards. However, considers that the matters of discretion in Clause 2, are not appropriate except for the reference to MRZ-P7 (subject to the submission points on that policy). The listed policies are broad and not specific to the effects of retirement villages that require management. Considers that a set of retirement village specific matters of discretion should be included that are based on the MDRS provisions; consider / acknowledge the positive effects provided by retirement villages; the functional and operational needs of retirement villages; and the need to provide for efficient use of larger sites. Supports MRZ-R14 being precluded from being publicly notified, but in accordance with Schedule 3A (5)(2) of the Act Considers that a retirement village that is compliant with MRZ-S2 – MRZ-S5 should also be precluded from limited notification.	Amend MRZ-R14 (Construction of buildings or structures for multi-unit housing or a retirement village) as follows: 1. Activity status: Restricted Discretionary Matters of discretion are restricted to: 1. The extent and effect of non-compliance with any of the following standards as specified in the associated assessment criteria for any infringed standard: i. MRZ-S2; ii. MRZ-S3; iii. MRZ-S4; iv. MRZ-S5; v. MRZ-S12 for multi-unit housing only; vi. MRZ-S13 for multi-unit housing only; and vii. MRZ-S14 for multi-unit housing only; and 2. For multi-unit housing, the matters in MRZ-P2, MRZ-P3, MRZ-P5, MRZ-P6, MRZ-P7, MRZ-P8, MRZ-P10 and MRZ-P11. 3. For retirement villages: i. The effects of the retirement village on the safety of adjacent streets or public open spaces; ii. The extent to which articulation, modulation and materiality addresses adverse visual dominance effects associated with building length; iii. The effects arising from the quality of the interface between the retirement village and adjacent streets or public open spaces; iv. When assessing the matters in 1(i) – (iv), and 3(i) – (iii), consider: a. The need to provide for efficient use of larger sites; and b. The functional and operational needs of the retirement village. v. The positive effects of the construction, development and use of the retirement village. For clarity, no other rules or matters of discretion relating to the effects of density apply to buildings for a retirement village. Notification status: An application for resource consent made in respect of rule MRZ-R14.1 is precluded from being publicly notified. An application for resource consent for a retirement village where compliance is achieved with MRZ-S2, MRZ-S3, MRZ-S4 and MRZ-S5 is precluded from being limited notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council	266.134	Residential Zones / Medium Density Residential Zone / MRZ-R16	Amend	Considers this rule change provides for small structures on legal road (up to 1.5m high) as a Permitted Activity. This will reduce consenting requirements. It is noted that structures on legal road are covered by the encroachment licence process. Considers there is a consequential amendment to update the Restricted Discretionary rule.	Amend MRZ-R16 (Buildings and structures over legal road) as follows: <u>1. Activity status: Permitted</u> <u>Where:</u> <u>a. It is a retaining wall of less than 1.5m in height above ground level.</u> 2. <u>Activity Status: Restricted Discretionary</u> <u>Where:</u> <u>1. Compliance with any of the requirements of MRZ-R16.1.a cannot be achieved.</u> (...)
Fire and Emergency New Zealand	273.179	Residential Zones / Medium Density Residential Zone / MRZ-R16	Support in part	Supports the rule as the development on or over a legal road is a restricted discretionary activity and development must ensure that highway access and safety is maintained for all road users. Fire and Emergency relies on the safe and efficient operation of the transport network to respond to emergency call outs. It is therefore critical that buildings and structures on legal roads do not hinder the ability for FENZ to respond to emergency call outs effectively and efficiently for firefighting and other rescue operations. A further matter of discretion is therefore sought	Supports MRZ-R16 (Buildings and structures on or over a legal road), with amendment.
Fire and Emergency New Zealand	273.180	Residential Zones / Medium Density Residential Zone / MRZ-R16	Amend	Supports the rule as the development on or over a legal road is a restricted discretionary activity and development must ensure that highway access and safety is maintained for all road users. Fire and Emergency relies on the safe and efficient operation of the transport network to respond to emergency call outs. It is therefore critical that buildings and structures on legal roads do not hinder the ability for FENZ to respond to emergency call outs effectively and efficiently for firefighting and other rescue operations. A further matter of discretion is therefore sought	Amend MRZ-R16 (Buildings and structures on or over a legal road) as follows: ... Matters of discretion are restricted to: ... 3. Maintaining safe access and safety for road users, including pedestrians; and 4. The matters in MRZ-P8, MRZ-P10 and MRZ-P11; and 5. Maintaining the ability for emergency services, including fire appliances, to access the property for firefighting purposes.
The Retirement Villages Association of New Zealand Incorporated	FS126.38	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R16	Oppose	The RVA opposes the relief sought in this submission as matters relating to fire-fighting servicing are already provided for under the Building Act and it is inappropriate to duplicate controls under the Proposed Plan.	Disallow
Ryman Healthcare Limited	FS128.38	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R16	Oppose	Ryman opposes the relief sought in this submission as matters relating to fire-fighting servicing are already provided for under the Building Act and it is inappropriate to duplicate controls under the Proposed Plan.	Disallow
Waka Kotahi	370.299	Residential Zones / Medium Density Residential Zone / MRZ-R16	Support in part	Rule MRZ-R16 is supported, but amendment is sought.	Retain Rule MRZ-R16 (Buildings and structures on or over a legal road) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.300	Residential Zones / Medium Density Residential Zone / MRZ-R16	Amend	Considers that amendments to Rule MRZ-R16 are required to ensure visibility over the road corridor.	Amend MRZ-R16 (Buildings and structures on or over a legal road) as follows: 1. Activity status: Restricted Discretionary Where the legal road is controlled by Waka Kotahi, written approval has been provided from Waka Kotahi authorising the building or structure. Matters of discretion are: ...
Kāinga Ora Homes and Communities	391.384	Residential Zones / Medium Density Residential Zone / MRZ-R16	Support	MRZ-R16 is supported.	Retain MRZ-R16 (Buildings and structures on or over a legal road) as notified.
Craig Palmer	492.21	Residential Zones / Medium Density Residential Zone / MRZ-R16	Oppose	Opposes the preclusion of limited notification in the rule and accordingly notification of neighbouring property owners and residents. Considers that without local knowledge, discretionary powers cannot be exercised with all the implications weighed in the balance.	Seeks that MRZ-R16 (Buildings and structures on or over a legal road) be amended to be able to be limited notified to request identification of faults and improvements to address local conditions.
The Retirement Villages Association of New Zealand Incorporated	FS126.22	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R16	Oppose	The RVA opposes the relief sought in this submission as it is inconsistent with the RVA's primary submission and will slow down, not speed up, the provision of housing for the ageing population which is inconsistent with the intent of the Enabling Housing Act and the NPSUD.	Disallow
Ryman Healthcare Limited	FS128.22	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R16	Oppose	Ryman opposes the relief sought in this submission as it is inconsistent with Ryman's primary submission and will slow down, not speed up, the provision of housing for the ageing population which is inconsistent with the intent of the Enabling Housing Act and the NPSUD.	Disallow
Fire and Emergency New Zealand	273.181	Residential Zones / Medium Density Residential Zone / MRZ-R17	Support	Supports the policy as the addition or alteration to buildings and structures within the MRZ is provided for as a permitted or restricted discretionary activity. FENZ has existing stations in the Medium Density Residential Zone which may require future extension or alteration.	Retain MRZ-R17 (Construction of any other building or structure, including additions and alterations) as notified.
Retirement Villages Association of New Zealand Incorporated	350.130	Residential Zones / Medium Density Residential Zone / MRZ-R17	Support in part	Supports additions and alterations to retirement villages being provided for as a permitted or restricted discretionary activity under MRZ-R17. Considers the matters of discretion need to align with those for new retirement villages. Supports MRZ-R17.2a being precluded from being publicly notified, but in accordance with Schedule 3A(5)(s) of the Act Considers that alterations and additions to retirement villages that are compliant with MRZ-S2 – MRZ-S5 should also be precluded from limited notification.	Retain MRZ-R17 (Construction of any other building or structure, including additions and alterations) and seeks amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.131	Residential Zones / Medium Density Residential Zone / MRZ-R17	Amend	Supports additions and alterations to retirement villages being provided for as a permitted or restricted discretionary activity under MRZ-R17. Considers the matters of discretion need to align with those for new retirement villages. Supports MRZ-R17.2a being precluded from being publicly notified, but in accordance with Schedule 3A(5)(s) of the Act Considers that alterations and additions to retirement villages that are compliant with MRZ-S2 – MRZ-S5 should also be precluded from limited notification.	Amend MRZ-R17 (Construction of any other building or structure, including additions and alterations) as follows: 1. Activity status: Permitted Where: ... vi. MRZ-S12 <u>for multi-unit housing</u> ; vii. MRZ-S13 <u>for multi-unit housing</u> ; and viii. MRZ-S14 <u>for multi-unit housing</u> . 2. Activity status: Restricted Discretionary ... 2. The matters in MRZ-P9, MRZ-P10, MRZ-P11 and MRZ-P15 (this clause is not applicable to retirement villages); and 3. The matters in MRZ-P6, MRZ-P7 and HRZ-P8 for additions and alterations to multi-unit housing or a retirement village, and <u>4. For additions and alterations to retirement villages:</u> <u>i. The effects of the retirement village on the safety of adjacent streets or public open spaces;</u> <u>ii. The extent to which articulation, modulation and materiality addresses adverse visual dominance effects associated with building length;</u> <u>iii. The effects arising from the quality of the interface between the retirement village and adjacent streets or public open spaces.</u> <u>For clarity, no other rules or matters of discretion relating to the effects of density apply to buildings for a retirement village.</u> Notification status: An application for resource consent made in respect of rule MRZ-R17.2a is precluded from being publicly notified. An application for resource consent for additions and alterations to a retirement village where compliance is achieved with MRZ-S2, MRZ-S3, MRZ-S4 and MRZ-S5 is precluded from being limited notified.
WCC Environmental Reference Group	377.345	Residential Zones / Medium Density Residential Zone / MRZ-R17	Amend	Considers that it should be evident that the Residential Design Guide applies to all residential buildings.	Amend the matters of Discretion under MRZ-R17 (Construction of any other building or structure, including additions and alterations) to add a new matter of discretion: <u>"The Residential Design Guide"</u>
The Retirement Villages Association of New Zealand Incorporated	FS126.220	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-R17	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission.	Disallow

Heritage New Zealand Pouhere Taonga	70.33	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R3	Support in part	Supports the provision and suggests amendments to reduce ambiguity.	Retain MRZ-PREC01-R3 (Demolition or removal of buildings and structures) with amendments
Onslow Historical Society	FS6.23	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R3	Support	OHS supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Historic Places Wellington Inc	FS111.22	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R3	Support	HPW supports robust provisions for protecting historic heritage from inappropriate subdivision or development in accordance with s.6 of the RMA.	Allow
Heritage New Zealand Pouhere Taonga	70.34	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R3	Amend	Considers that MRZ-PREC01-R3 provides for the demolition or removal of buildings and structures as a permitted activity, and this is in contrast to MRZ-PREC01-R4 (Demolition of any building or part of an building, excluding accessory buildings, constructed prior to 1930), which addresses the demolition of pre-1930 buildings. Considers that to avoid ambiguity, MRZ-PREC01-R3 should be amended to refer to post-1930 buildings.	Amend MRZ-PREC01-R3 (Demolition or removal of buildings and structures) as follows: MRZ-PREC01-R3: Demolition or removal of buildings and structures, <u>except those buildings addressed in MRZ-PREC01-R4.</u>
Onslow Historical Society	FS6.24	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R3	Support	OHS supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Historic Places Wellington Inc	FS111.23	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R3	Support	HPW supports robust provisions for protecting historic heritage from inappropriate subdivision or development in accordance with s.6 of the RMA.	Allow
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.28	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R3	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain MRZ-PREC01-R3 (Demolition or removal of buildings and structures) as notified.
Kimberley Vermaey	348.10	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R3	Amend	MRZ-PREC01-R3 should be clarified so that it only applies to buildings constructed after the 1930s. Otherwise this rule may clash with MRZ-PREC01-R4 which requires resource consent for buildings constructed prior to 1930.	Amend MRZ-PREC01-R3 (Demolition or removal of buildings and structures) to only apply to buildings constructed after the 1930s.
Greater Wellington Regional Council	351.252	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R3	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain MRZ-PREC01-R3 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.253	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R3	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend MRZ-PREC01-R3 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
WCC Environmental Reference Group	377.348	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R3	Support	Considers that MRZ-PREC01-R3 enabled change and development in character areas.	Retain MRZ-PREC01-R3 (Demolition or removal of buildings and structures) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.389	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R3	Oppose	MRZ-PREC01-R3 is opposed, consistent with the deletion of Character Precincts and associated provisions from zone chapters and as a qualifying matter.	Delete MRZ-PREC01-R3 (Demolition or removal of buildings and structures) in its entirety.
Wellington's Character Charitable Trust	FS82.75	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ@PREC01-R3	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow
Victoria University of Wellington Students' Association	123.51	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Oppose	Considers that MRZ-PREC01-R4 should be set aside as the protection of character prevents access to modern homes, or warmer and drier housing.	Delete MRZ-PREC01-R4 (Demolition of any building or part of any building, excluding accessory buildings, constructed prior to 1930) in its entirety. [Inferred decision requested]
Mt Victoria Historical Society Inc	FS39.21	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Oppose	Allowing greater intensification in Character Precincts by removing the wording "provided it does not detract from the character and amenity" effectively removes the character protection. This rule is important to protect the character and heritage of Character Precincts and to remove it would effectively remove character protection.	Disallow
Wellington's Character Charitable Trust	FS82.97	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ@PREC01-R4	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow
Historic Places Wellington	182.28	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Support	Strongly supports the rule that demolition within a Character Precinct is a restricted discretionary activity for pre- 1930 buildings	Retain MRZ-PREC01-R4 (Demolition of any building or part of any building, excluding accessory buildings, constructed prior to 1930) as notified. [Inferred decision requested]
Thorndon Residents' Association Inc	FS69.106	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ@PREC01-R4	Support	All inner Residential suburbs should be MDZ Exemption from upzoning Importance of character areas Character Precincts, rules & design regime Extended Character Precincts in line with Boffa Miskell Demolition be a restricted activity for pre-1930 buildings New viewshaft for views of St Paul's	Allow
Avryl Bramley	202.39	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Amend	Considers that the pre 1930's non demolition rules are reinstated and that it should be extended to other building cohorts that are durable.	Seeks amendment to demolition rules and protocols to ensure that demolition is a last resort and that the maximum amount of removal or recyclable activity is undertaken.
Wellington's Character Charitable Trust	233.17	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Support in part	Considers that appropriate protection of pre-1930s buildings and structures is necessary to protect heritage buildings from inappropriate development, which is a matter of national importance under s6 of the Resource Management Act.	Seeks that MRZ-PREC01-R4 is retained as notified, but should apply to an extended area comprising all existing pre-1930s character areas (Appendix 1 of Chapter 5 of the Operative District Plan). [Inferred Decision Requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested

Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.29	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain MRZ-PREC01-R4 (Demolition of any building or part of any building, excluding accessory buildings, constructed prior to 1930) as notified.
Khoi Phan	326.22	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend the title of MRZ-PREC01-R4 (Demolition of any building or part of any building, excluding accessory buildings, constructed prior to 1930) as follows: Demolition of any building or part of any building, excluding accessory buildings, constructed prior to 1930 1950
Khoi Phan	326.23	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Amend	Considers that it can be demonstrated that the contribution of a building to the character of the area is low, with reference to: a. The level of visibility of the existing building from surrounding public spaces; b. Whether the building is consistent in form and style with other pre-1930 buildings that contribute positively to the character of the area; c. The extent to which the existing building retains its original design features relating to form, materials, and detailing and the extent to which those features have been modified.	Amend MRZ-PREC01-R4 (Demolition of any building or part of any building, excluding accessory buildings, constructed prior to 1930) as follows: Activity status: Restricted Discretionary Permitted Matters of discretion are: The matters contained in MRZ-PREC01-P2.
Waka Kotahi	370.301	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Not specified	[Submitter has provided a neutral position on this provision] Considers that further weighting exercise is required in order to justify the inclusion, nature and extent of provisions related to special character.	Retain MRZ-PREC01-R4 (Demolition of any building or part of any building, excluding accessory buildings, constructed prior to 1930) subject to further evaluation and weighting exercise to determine extent of protection required on balance with achieving the outcomes of the NPS-UD.
WCC Environmental Reference Group	377.349	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Support	Considers that MRZ-PREC01-R4 enables change and development in character areas in a way that contributes to, or preserves, character.	Retain MRZ-PREC01-R4 (Demolition of any building or part of any building, excluding accessory buildings, constructed prior to 1930) as notified.
Kāinga Ora Homes and Communities	391.390	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Oppose	MRZ-PREC01-R4 is opposed, consistent with the deletion of Character Precincts and associated provisions from zone chapters and as a qualifying matter.	Delete MRZ-PREC01-R4 (Demolition of any building or part of any building, excluding accessory buildings, constructed prior to 1930) in its entirety.
Thorndon Residents' Association Inc	FS69.20	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Oppose	Kāinga Ora Homes and Communities wishes to remove reference of Demolition throughout the PDP. TRA are mindful that the greenest buildings are those timber buildings that are already built. There's an accumulative benefit from not demolishing older native timber buildings which have low carbon emissions instead of constructing new buildings using materials (such as concrete and steel) with significant whole of life carbon emissions.	Disallow
Wellington's Character Charitable Trust	FS82.76	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Lucy Harper and Roger Pemberton	401.64	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Support	Supports the MRZ-PREC01-R4 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC01-R4 (Demolition of any building or part of any building, excluding accessory buildings, constructed prior to 1930) as notified.
Christina Mackay	478.13	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R4	Support	Supports the rule that demolition within Character Precincts as a restricted discretionary activity for pre-1930 buildings (MRZ-PREC01- R4) in order to support the conservation/regeneration of character housing	Retain MRZ-PREC01-R4 (Demolition of any building or part of any building, excluding accessory buildings, constructed prior to 1930) as notified.
Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.30	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R5	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain MRZ-PREC01-R5 (Construction, addition or alteration of any buildings or structures, excluding accessory buildings) as notified.
Bruce Rae	334.5	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R5	Amend	Considers that MRZ-PREC01-R5 should be amended to clarify wording. The phrasing of this section is unhelpful, as it implies the existence of a 'permitted' category where the standards are observed. MRZ-PREC01-R5 also mentions at 3. 'The Residential Design Guide Character Precincts appendix', but not the main Residential Design Guide. Wording here should either be clarified or split into two sections, one where multi-unit housing standards apply and another where they don't.	Amend MRZ-PREC01-R (Construction, addition or alteration of any buildings or structures, excluding accessory buildings) as follows: 1. Activity status: Restricted Discretionary Matters of discretion are: 1. In cases where there is no compliance with all relevant the standards listed below the extent and effect of non-compliance with any of the following standards as specified in the associated assessment criteria for the infringed standard: ... 3. The Residential Design Guide together with its Character Precincts Appendix; and ...
Waka Kotahi	370.302	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R5	Not specified	[Submitter has provided a neutral position on this provision] Considers that further weighting exercise is required in order to justify the inclusion, nature and extent of provisions related to special character.	Retain MRZ-PREC01-R5 (Construction, addition or alteration of any buildings or structures, excluding accessory buildings) subject to further evaluation and weighting exercise to determine extent of protection required on balance with achieving the outcomes of the NPS-UD.
WCC Environmental Reference Group	377.350	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R5	Support	Considers that MRZ-PREC01-R5 enables change and development in character areas in a way that contributes to, or preserves, character.	Retain MRZ-PREC01-R5 (Construction, addition or alteration of any buildings or structures, excluding accessory buildings) as notified.
Kāinga Ora Homes and Communities	391.391	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R5	Oppose	MRZ-PREC01-R5 is opposed, consistent with the deletion of Character Precincts and associated provisions from zone chapters and as a qualifying matter.	Delete MRZ-PREC01-R5 (Construction, addition or alteration of any buildings or structures, excluding accessory buildings) in its entirety.
Wellington's Character Charitable Trust	FS82.77	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R5	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Lucy Harper and Roger Pemberton	401.65	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R5	Support	Supports the MRZ-PREC01-R5 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC01-R5 (Construction, addition or alteration of any buildings or structures, excluding accessory buildings) as notified.
Investore Property Limited	405.46	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R5	Support in part	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Retain MRZ-PREC01-R5.1 (Construction, addition or alteration of any buildings or structures, excluding accessory buildings) and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.77	Part 3 / Residential Zones / MediumDensityResidentialZone / MRZ-PREC01-R5	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.77	Part 3 / Residential Zones / MediumDensityResidentialZone / MRZ-PREC01-R5	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Investore Property Limited	405.47	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R5	Amend	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Amend MRZ-PREC01-R5.1 (Construction, addition or alteration of any buildings or structures, excluding accessory buildings) to remove the Design Guide as a matter of discretion and replace with specific design outcomes that are sought.
The Retirement Villages Association of New Zealand Incorporated	FS126.78	Part 3 / Residential Zones / MediumDensityResidentialZone / MRZ-PREC01-R5	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.78	Part 3 / Residential Zones / MediumDensityResidentialZone / MRZ-PREC01-R5	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.31	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R6	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain MRZ-PREC01-R6 (Fences and standalone walls) as notified.
WCC Environmental Reference Group	377.351	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R6	Support	Considers that MRZ-PREC01-R6 enables change and development in character areas in a way that contributes to, or preserves, character.	Retain MRZ-PREC01-R6 (Fences and standalone walls) as notified.
Kāinga Ora Homes and Communities	391.392	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R6	Oppose	MRZ-PREC01-R6 is opposed, consistent with the deletion of Character Precincts and associated provisions from zone chapters and as a qualifying matter.	Delete MRZ-PREC01-R6 (Fences and standalone walls) in its entirety.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	FS82.78	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R6	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow
Lucy Harper and Roger Pemberton	401.66	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R6	Support	Supports the MRZ-PREC01-R6 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC01-R6 (Fences and standalone walls) as notified.
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.32	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R7	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain MRZ-PREC01-R7 (Buildings and structures on or over a legal road) as notified.
Waka Kotahi	370.303	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R7	Not specified	[Submitter has provided a neutral position on this provision] Considers that amendments to Rule MRZPREC01-R7 are required to ensure visibility over the road corridor.	Neutral position on Rule MRZPREC01-R7 (Buildings and structures on or over a legal road) and seeks amendment.
Waka Kotahi	370.304	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R7	Amend	Considers that amendments to Rule MRZPREC01-R7 are required to ensure visibility over the road corridor.	Amend Rule MRZPREC01-R7 (Buildings and structures on or over a legal road) as follows: 1. Activity status: Restricted Discretionary <u>Where the legal road is controlled by Waka Kotahi, written approval has been provided from Waka Kotahi authorising the building or structure.</u>
WCC Environmental Reference Group	377.352	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R7	Support	Considers that MRZ-PREC01-R7 enables change and development in character areas in a way that contributes to, or preserves, character.	Retain MRZ-PREC01-R7 (Buildings and structures on or over a legal road) as notified.
Kāinga Ora Homes and Communities	391.393	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R7	Oppose	MRZ-PREC01-R7 is opposed, consistent with the deletion of Character Precincts and associated provisions from zone chapters and as a qualifying matter.	Delete MRZ-PREC01-R7 (Buildings and structures on or over a legal road) in its entirety.
Wellington's Character Charitable Trust	FS82.79	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R7	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow
Lucy Harper and Roger Pemberton	401.67	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-R7	Support	Supports the MRZ-PREC01-R7 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC01-R7 (Buildings and structures on or over a legal road) as notified.
Kāinga Ora Homes and Communities	391.394	Residential Zones / Medium Density Residential Zone / MRZ-PREC02-R1	Oppose	MRZ-PREC02-R1 is opposed, consistent with the deletion of Character Precincts and associated provisions from zone chapters and as a qualifying matter.	Delete MRZ-PREC02-R1 (Maintenance and repair of buildings and structures) in its entirety.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	FS82.80	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC02-R1	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow
Lucy Harper and Roger Pemberton	401.68	Residential Zones / Medium Density Residential Zone / MRZ-PREC02-R1	Support	Supports the MRZ-PREC02-R1 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC02-R1 (Maintenance and repair of buildings and structures) as notified.
Greater Wellington Regional Council	351.254	Residential Zones / Medium Density Residential Zone / MRZ-PREC02-R2	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain MRZ-PREC02-R2 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.255	Residential Zones / Medium Density Residential Zone / MRZ-PREC02-R2	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend MRZ-PREC02-R2 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Kāinga Ora Homes and Communities	391.395	Residential Zones / Medium Density Residential Zone / MRZ-PREC02-R2	Oppose	MRZ-PREC02-R2 is opposed, consistent with the deletion of Character Precincts and associated provisions from zone chapters and as a qualifying matter.	Delete MRZ-PREC02-R2 (Demolition or removal of buildings and structures) in its entirety.
Thorndon Residents' Association Inc	FS69.21	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC02-R2	Oppose	Kāinga Ora Homes and Communities wishes to remove reference of Demolition throughout the PDP. TRA are mindful that the greenest buildings are those timber buildings that are already built. There's an accumulative benefit from not demolishing older native timber buildings which have low carbon emissions instead of constructing new buildings using materials (such as concrete and steel) with significant whole of life carbon emissions.	Disallow
Wellington's Character Charitable Trust	FS82.81	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC02-R2	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow
Lucy Harper and Roger Pemberton	401.69	Residential Zones / Medium Density Residential Zone / MRZ-PREC02-R2	Support	Supports the MRZ-PREC02-R2 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC02-R2 (Demolition or removal of buildings and structures).
Anita Gude and Simon Terry	461.30	Residential Zones / Medium Density Residential Zone / MRZ-PREC02-R2	Amend	Considers that MRZ-PREC02-R2 not having parallel provisions to MRZ-PREC01-P2 (Restrictions on demolition) is an anomaly and should be amended so that demolition is a restricted discretionary activity.	Amend MRZ-PREC02-R2 (Demolition or removal of buildings and structures) so that demolition is a restricted discretionary activity (not a permitted activity).
Waka Kotahi	370.305	Residential Zones / Medium Density Residential Zone / MRZ-PREC02-R3	Not specified	[Submitter has provided a neutral position on this provision] Considers that further weighting exercise is required in order to justify the inclusion, nature and extent of provisions related to special character.	Retain MRZ-PREC02-R3 (Demolition or removal of buildings and structures) subject to further evaluation and weighting exercise to determine extent of protection required on balance with achieving the outcomes of the NPS-UD.

Thorndon Residents' Association Inc	FS69.109	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S1	Support	Part of WCC's summary: ... intensification shouldn't come at the expense of character and heritage. ... the attraction in the Lambton Ward is the unique character and heritage, older Victorian styled houses and working men's cottages dotted around Thorndon, Mount Vic, Aro Valley and Mount Cook. There are multiple brownfield sites well suited for accommodating extra population that will avoid impacting heritage and character.	Allow
Fire and Emergency New Zealand	273.182	Residential Zones / Medium Density Residential Zone / MRZ-S1	Support in part	Supports the standard to the extent that it provides a maximum height of 11m for any building. Fire stations are typically single storied buildings of approximately 8-9m in height and are usually able to comply with the height standards in district plans generally. This is considered acceptable for fire stations in this zone. FENZ however seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height. FENZ considers that the inclusion of an exemption for hose drying towers provides for the health and safety of the community by enabling the efficient functioning of FENZ in establishing and operating fire stations	Supports MRZ-S1 (Building height control 1), with amendment.
Fire and Emergency New Zealand	273.183	Residential Zones / Medium Density Residential Zone / MRZ-S1	Amend	Supports the standard to the extent that it provides a maximum height of 11m for any building. Fire stations are typically single storied buildings of approximately 8-9m in height and are usually able to comply with the height standards in district plans generally. This is considered acceptable for fire stations in this zone. FENZ however seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height. FENZ considers that the inclusion of an exemption for hose drying towers provides for the health and safety of the community by enabling the efficient functioning of FENZ in establishing and operating fire stations	Amend MRZ-S1 (Building height control 1) as follows: <u>Clause 1 does not apply to hose drying towers up to 15m in height.</u>
Phillippa O'Connor	289.22	Residential Zones / Medium Density Residential Zone / MRZ-S1	Amend	Considers that the Western Side of Kelburn Parade, especially #64 Kelburn Parade should have maximum building height increased because: - It is close to the transport network, employment opportunities and social infrastructure. - Larger building heights would support additional housing for the benefit of those utilising the university. [See original submission for full details]	Seeks that Standard MRZ-S1 (Building height control 1) is amended so that the western side of Kelburn Parade has a maximum height limit of 21m as a permitted activity.
Phillippa O'Connor	289.23	Residential Zones / Medium Density Residential Zone / MRZ-S1	Oppose	Considers this dual-standard approach is unnecessary, and that the more permissive height standard in the MRZ should be enabled irrespective of scale of the development.	Seeks that standards MRZ-S1 (Building height control 1) and MRZ-S2 (Building height control 2) building height control are combined so that there are not different height standards for 1-3 residential units and multi unit developments.
Johanna Carter	296.11	Residential Zones / Medium Density Residential Zone / MRZ-S1	Amend	Considers that the MRZ rules one size fits approach does not adequately protect existing and future residents in the Medium Density Zone. [Refer to original submission for full reason]	Seeks that MRZ-S1 (Building height control 1...) is amended to adequately control the adverse impacts that will result from higher density development.

Khoi Phan	326.24	Residential Zones / Medium Density Residential Zone / MRZ-S1	Amend	Considers that MRZ-S1 should be amended so that structures do not exceed 16 metres in height and the 15 degree slope are removed.	Amend MRZ-S1 (Building height control 1) as follows: 1. Buildings and structures must not exceed 11.16 metres in height above ground level, except that 50% of a building's roof in elevation, measured vertically from the junction between wall and roof, may exceed this height by 1 metre, where the entire roof slopes 15° or more, as shown in Diagram 5 below: ...
Richard Benge	327.3	Residential Zones / Medium Density Residential Zone / MRZ-S1	Amend	Considers that the MRZ height control area 2 (14m) at 33 Hiripi Street is too restrictive, and that Height control area 3 from the DDP would have been more appropriate. (Option C) [Refer to original submission for full reasons]	Amend the Medium Density Residential Zone chapter to reinstate Height control area 3 (21m). [Inferred decision requested]
Waka Kotahi	370.310	Residential Zones / Medium Density Residential Zone / MRZ-S1	Support	Standard MRZ-S1 is supported as it is consistent with the MDRS.	Retain Standard MRZ-S1 (Building height control 1: 1. where no..) as notified.
Kāinga Ora Homes and Communities	391.405	Residential Zones / Medium Density Residential Zone / MRZ-S1	Support in part	MRZ-S1 is generally supported and it is acknowledged that the standard is taken from the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021. However, amendments are sought to allow this standard to apply to all residential units regardless of how many are on a site and to be more enabling for residential units located within close proximity to train stations and local centres.	Retain MRZ-S1 (Building height control 1: 1. where no more than three residential units occupy the site; or 2. For the construction, addition or alteration of any buildings or structures in a Character Precinct or Mount Victoria North Townscape Precinct.) with amendment.
Kāinga Ora Homes and Communities	391.406	Residential Zones / Medium Density Residential Zone / MRZ-S1	Amend	Considers that MRZ-S1 should be amended to allow this standard to apply to all residential units regardless of how many are on a site and to be more enabling for residential units located within close proximity to train stations and local centres. Consistent with the rest of the submission, the deletion of Character Precincts and associated provisions from zone chapters and as a qualifying matter is sought.	Amend MRZ-S1 (Building height control 1: - where no more than three residential units occupy the site; or - For the construction, addition or alteration of any buildings or structures in a Character Precinct or Mount Victoria North Townscape Precinct.) as follows: Building height control 1: 1. where no more than three residential units occupy the site; or 2. For the construction, addition or alteration of any buildings or structures in a Character Precinct or Mount Victoria North Townscape Precinct. 1. ... <u>Except where:</u> <u>2. In areas identified as having a height control of 18m in the planning maps, the height must not exceed 18 metres above ground level except that 50% of a building's roof in elevation, measured vertically from the junction between wall and roof, may exceed the heights above by 1 metre, where the entire roof slopes 15° or more, as shown in Diagram 1 below:</u> ...

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Donna Yule	421.2	Residential Zones / Medium Density Residential Zone / MRZ-S1	Oppose	<p>Opposes the blanket policy of Medium Density 3 Storey Residential housing in all residential areas - the height limits are too high.</p> <p>Considers that no consideration has been given to the geographical location of each individual suburb, its terrain and orientation to the sun. For suburbs that are built in a north south direction with hills either side and the main housing is on the flat, any 3 storey building will cast a significant shadow over many properties.</p> <p>Many more 3 storey development means a whole suburb except for those on the hills will be in permanent shadows.</p> <p>Added to that no space between properties, no outside areas to enjoy a little privacy. These suburbs will become sunless undesirable transitional suburbs where people will only stay a short time until they can afford to move elsewhere with sun & outdoor space.</p>	Not specified.
Catharine Underwood	481.7	Residential Zones / Medium Density Residential Zone / MRZ-S1	Oppose in part	Considers that the current height control areas in Brooklyn should be removed until a proper character/heritage assessment has been completed. There are a few protected buildings in Brooklyn, but no character precinct compared to other suburbs. Brooklyn has some older well built houses and street scapes that are worth the protection.	Seeks that MRZ-S1 (Maximum height) of 11m be removed in Brooklyn, until a character/heritage assessment has been completed.
Catharine Underwood	481.8	Residential Zones / Medium Density Residential Zone / MRZ-S1	Amend	Considers that the current height control areas in Brooklyn should be removed until a proper character/heritage assessment has been completed. There are a few protected buildings in Brooklyn, but no character precinct compared to other suburbs. Brooklyn has some older well built houses and street scapes that are worth the protection.	Seeks that the Operative District Plan height controls be reinstated in Brooklyn. [Inferred decision requested]
Jonathan Markwick	490.19	Residential Zones / Medium Density Residential Zone / MRZ-S1	Support	Supports the increase in building height controls around the Johnsonville centre, including those east of the motorway.	Retain MCZ-S1 (Maximum height) around Johnsonville Centre as notified.
Lilias Bell	50.2	Residential Zones / Medium Density Residential Zone / MRZ-S2	Support	Supports Proposed District Plan heights for Colway Street in Ngaio.	Retain MRZ-S2 as notified.
David Stephen	82.4	Residential Zones / Medium Density Residential Zone / MRZ-S2	Amend	Opposes 14m Height Limit in MRZ-S2 (Building Height Control) and wants them removed.	Amend MRZ-S2 (Building Height Control) as follows: 1. Buildings... a. Height Area 1 11m b. Height Area 2 14m [Decision inferred from submission]
Ian Law	101.4	Residential Zones / Medium Density Residential Zone / MRZ-S2	Amend	Opposes 14m Height Limit in MRZ-S2 (Building Height Control) and wants them removed.	Amend MRZ-S2 (Building Height Control) as follows: 1. Buildings... a. Height Area 1 11m b. Height Area 2 14m [inferred decision requested]
Julie Patricia Ward	103.4	Residential Zones / Medium Density Residential Zone / MRZ-S2	Oppose	Opposes 14m Height Limit in walkable catchment from LCZ's and NCZ's.	Seeks that if Khandallah remains a LCZ (Local Centre Zone) the 14m walkable catchment should be removed.

Pukepuke Pari Residents Incorporated	237.5	Residential Zones / Medium Density Residential Zone / MRZ-S2	Support	Supports a height limit of 11m for Hay Street. Considers that Hay Street has many qualifying matters which would exempt it from intensification. There are limited benefits that don't outweigh the consequences of intensification in Oriental Bay. Considers that there would be significant costs related to preparing the area for intensification. The Hay Street Heritage Report 2021 identifies a high concentration of higher quality character streetscape of Hay St. [Refer to original submission for full reason]	Retain MRZ-S2 (Building height control 2) - with Hay Street, including the Hay Street extension, within Height Area 2 (11m), as notified.
Escape Investments Limited	FS136.87	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S2	Oppose	The submitter oppose points 237.2, 237.3, & 237.5 to restrict development due to 'qualifying matters' and retain Hay Street as MRZ. Qualifying Matters are set out in s77I of the RMA Enabling Housing Supply and Other Matters Amendment Act 2021. Hay Street itself does not have any qualifying matters. Site specific limitations are addressed in a s88 RMA report Assessment of Environmental Effects. While Oriental Bay's special character has been addressed in the special Precinct Height Control's (PREC-03) overlay, it is not a Qualifying Matter. [See original Further Submission for full reasoning].	Disallow
Richard Martin	244.3	Residential Zones / Medium Density Residential Zone / MRZ-S2	Support	Supports the 11m Height Area within the MRZ in Hay Street and Baring Street. A 21m height limit would not work due to steep contours, history of slips, inadequate drainage, and inadequate infrastructure. Considers that Hay Street has unique characteristics that made 21m height limit a poor idea. Considers that Baring Street is prone to slips, has no identifiable owner, limited room for access. [Refer to original submission for full reason]	Retain MRZ-S2 (Maximum height) as notified, with Hay Street and Baring Street within Height control area 2 (11m).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Paul Ridley-Smith	245.3	Residential Zones / Medium Density Residential Zone / MRZ-S2	Support	Supports a height limit of 11m for Hay Street. Considers that Hay Street has many qualifying matters which would exempt it from intensification. Considers that there are significant structural issues with the area, limited vehicle space water/drainage issues and heritage value in Hay Street. [Refer to original submission for full reason]	Retain MRZ-S2 (Maximum height) as notified, with Hay Street and Baring Street within Height control area 2 (11m).
Escape Investments Limited	FS136.89	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S2	Oppose	The submitter opposes restricting development due to 'qualifying matters' and retain Hay Street as MRZ. Qualifying Matters are set out in s771 of the RMA Enabling Housing Supply and Other Matters Amendment Act 2021. Hay Street itself does not have any qualifying matters. Site specific limitations are addressed in a s88 RMA report Assessment of Environmental Effects. While Oriental Bay's special character has been addressed in the special Precinct Height Control's (PREC-03) overlay, it is not a Qualifying Matter. [See original Further Submission for full reasoning].	Disallow
Everard Aspell	270.8	Residential Zones / Medium Density Residential Zone / MRZ-S2	Not specified	Considers that allowing building heights of 11-21 metres in the inner city suburbs of Mount Victoria, Mount Cook, Thorndon, Berhampore, Newtown and Aro Valley will create shading, privacy issues, loss of green areas, reduced property values; will forever change the streetscape and will not reflect the character of the area.	Seeks that intensification is restricted to brownfield sites.
Thorndon Residents' Association Inc	FS69.110	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S2	Support	Part of WCC's summary: ... intensification shouldn't come at the expense of character and heritage. ... the attraction in the Lambton Ward is the unique character and heritage, older Victorian styled houses and working men's cottages dotted around Thorndon, Mount Vic, Aro Valley and Mount Cook. There are multiple brownfield sites well suited for accommodating extra population that will avoid impacting heritage and character.	Allow
Fire and Emergency New Zealand	273.184	Residential Zones / Medium Density Residential Zone / MRZ-S2	Support in part	Seeks the inclusion of an exemption for hose drying towers to enable the efficient functioning of FENZ in establishing and operating fire stations	Supports MRZ-S2 (Building height control 2), with amendment.
Fire and Emergency New Zealand	273.185	Residential Zones / Medium Density Residential Zone / MRZ-S2	Amend	As noted in the previous submission point, seeks the inclusion of an exemption for hose drying towers to enable the efficient functioning of FENZ in establishing and operating fire stations	Amend MRZ-S2 (Building height control 2) as follows: <u>Clause 1 does not apply to hose drying towers up to 15m in height.</u>
Onslow Residents Community Association	283.8	Residential Zones / Medium Density Residential Zone / MRZ-S2	Oppose in part	Considers that Khandallah is a small neighbourhood village that only supports its local community. The adjacent centres of Ngaio-Crofton Downs and Johnsonville have all the services Khandallah has, and also contain larger facilities, so do not require such support. The current supermarket and retail shops, plus services including medical, education, recreation, etc. are all small and are at capacity right now. The road the retail centre is on is a constrained one-lane road. They therefore will not support the increased demand coming from the significant medium density development proposed by 14m zones.	Opposes MRZ-S2 (Building height control 2: For multi-unit housing or a retirement village: or Other buildings and structures) with respect to Khandallah being in Height Control Area 2 (14m).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Onslow Residents Community Association	283.9	Residential Zones / Medium Density Residential Zone / MRZ-S2	Amend	<p>Considers that Khandallah is a small neighbourhood village that only supports its local community. The adjacent centres of Ngaio-Crofton Downs and Johnsonville have all the services Khandallah has, and also contain larger facilities, so do not require such support. The current supermarket and retail shops, plus services including medical, education, recreation, etc. are all small and are at capacity right now. The road the retail centre is on is a constrained one-lane road.</p> <p>They therefore will not support the increased demand coming from the significant medium density development proposed by 14m zones.</p>	Seeks that Khandallah is moved to Height control Area 1 (11m) under MRZ-S2 (Building height control 2: For multi-unit housing or a retirement village: or Other buildings and structures).
Phillippa O'Connor	289.24	Residential Zones / Medium Density Residential Zone / MRZ-S2	Amend	<p>Considers that the Western Side of Kelburn Parade, especially #64 Kelburn Parade should have maximum building height increased because:</p> <ul style="list-style-type: none"> - It is close to the transport network, employment opportunities and social infrastructure. - Larger building heights would support additional housing for the benefit of those utilising the university. <p>[See original submission for full details]</p>	Seeks that Standard MRZ-S2 (Building height control 2) is amended so that the western side of Kelburn Parade has a maximum height limit of 21m as a permitted activity.
Phillippa O'Connor	289.25	Residential Zones / Medium Density Residential Zone / MRZ-S2	Oppose	Considers this dual-standard approach is unnecessary, and that the more permissive height standard in the MRZ should be enabled irrespective of scale of the development.	Seeks that standards MRZ-S1 (Building height control 1) and MRZ-S2 (Building height control 2) building height control are combined so that there are not different height standards for 1-3 residential units and multi unit developments.
Johanna Carter	296.12	Residential Zones / Medium Density Residential Zone / MRZ-S2	Amend	<p>Considers that the MRZ rules one size fits approach does not adequately protect existing and future residents in the Medium Density Zone.</p> <p>[Refer to original submission for full reason]</p>	Seeks that MRZ-S2 (Building height control 2...) is amended to adequately control the adverse impacts that will result from higher density development.
Wilma Sherwin	306.6	Residential Zones / Medium Density Residential Zone / MRZ-S2	Oppose	Opposes 14m Height Limit in Khandallah under MRZ-S2 and wants development heights kept to 11m. Heights of 14m are out of character for what is an outer suburb.	Opposes Khandallah being classified as MRZ-S2 (Building Height Control) - Height Area 2 (14m).
Wilma Sherwin	306.7	Residential Zones / Medium Density Residential Zone / MRZ-S2	Amend	Opposes 14m Height Limit in Khandallah under MRZ-S2 and wants development heights kept to 11m. Heights of 14m are out of character for what is an outer suburb.	Seeks that Khandallah be classified as MRZ-S2 (Building Height Control) - Height Area 1 (11m).
Retirement Villages Association of New Zealand Incorporated	350.132	Residential Zones / Medium Density Residential Zone / MRZ-S2	Oppose in part	Supports MRZ-S2 and the additional building height that it enables for retirement villages located in the Height Area 2 to the extent it is consistent with the MDRS. However the standard fails to provide for roof variation height.	Opposes MRZ-S2 (Building height control 2) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.133	Residential Zones / Medium Density Residential Zone / MRZ-S2	Amend	Supports MRZ-S2 and the additional building height that it enables for retirement villages located in the Height Area 2 to the extent it is consistent with the MDRS. However the standard fails to provide for roof variation height.	Amend MRZ-S2 to provide for roof variation height in line with the MDRS.
Waka Kotahi	370.311	Residential Zones / Medium Density Residential Zone / MRZ-S2	Support	Standard MRZ-S2 is supported as it provides for up to four storeys for multi-units.	Retain Standard MRZ-S2 (Building height control 2: 1.For multi-unit...) as notified.
Kāinga Ora Homes and Communities	391.407	Residential Zones / Medium Density Residential Zone / MRZ-S2	Oppose	MRZ-S2 is opposed as it offers two separate height standards, and should be deleted. An amendment to MRZ-S1 is sought to allow that standard to cover all areas and provide for greater height limits in areas with high accessibility to public transport, commercial amenity and community services.	Delete MRZ-S2 (Building height control 2: 1. For multi-unit housing or a retirement village: or 2. Other buildings and structures.) in its entirety.
Thorndon Residents' Association Inc	FS69.24	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S2	Oppose	Detrimental impacts arising from excessive ratios of height to boundary.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	FS84.71	Part 3 / Residential Zones / Medium Density Residential Zone / MRZS2	Oppose	Greater Wellington disagree with the submitter that the flood hazard maps should be removed from the Proposed District Plan and instead be held in a nonstatutory GIS.	Disallow / Seeks that all flood hazard maps are included in the Proposed District Plan
The Retirement Villages Association of New Zealand Incorporated	FS126.136	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S2	Not specified	The RVA does not oppose this submission point but seeks that the changes it sought to MRZ-S2 are incorporated in this change in accordance with the MDRS.	Amend / Allow the submission point, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.136	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S2	Not specified	Ryman does not oppose this submission point but seeks that the changes it sought to MRZ-S2 are incorporated in this change in accordance with the MDRS.	Amend / Allow the submission point, subject to the relief sought within Ryman's primary submission.
Metlifecare Limited	413.32	Residential Zones / Medium Density Residential Zone / MRZ-S2	Support in part	Supports the 11m height limit that is proposed to be applied to sites across the Medium Density Residential zone.	Retain provision, subject to amendments, as outlined other submission points.
Metlifecare Limited	413.33	Residential Zones / Medium Density Residential Zone / MRZ-S2	Amend	Considers that retire village buildings should be able to be established up to three storeys (or 11m) excluding any pitched roof, rather than the Height Area 1 limit that has been applied. This is consistent with the minimum building height anticipated by the Amendment Act. This also allows the design of retirement villages to be in keeping with the surrounding area as they can have variable roof pitches.	Amend the Height Area 1 limit to read as follows: <u>11m above ground level, except that 50% of a building's roof in elevation, measured vertically from the junction between wall and roof, may exceed the heights above by 1 metre, where the entire roof slopes 15° or more.</u>
Newtown Residents' Association	440.21	Residential Zones / Medium Density Residential Zone / MRZ-S2	Oppose	Considers that 21m height are unnecessary in Newtown. Residential streets outside the suburban centre should be zoned medium density.	Opposes Newtown being classified as HRZ-S2 (Building height control 2 for multi-unit housing or a retirement village).
Newtown Residents' Association	440.22	Residential Zones / Medium Density Residential Zone / MRZ-S2	Oppose	Considers that 14m height are unnecessary in Newtown and should be reduced to 11m.	Opposes Newtown being classified as MRZ-S2 (Building Height Control) - Height Area 2 (14m).
Newtown Residents' Association	440.23	Residential Zones / Medium Density Residential Zone / MRZ-S2	Oppose	Considers that 14m height are unnecessary in Berhampore and should be reduced to 11m.	Opposes Berhampore being classified as MRZ-S2 (Building Height Control) - Height Area 2 (14m).
Catharine Underwood	481.9	Residential Zones / Medium Density Residential Zone / MRZ-S2	Oppose in part	Considers that the current height control areas in Brooklyn should be removed until a proper character/heritage assessment has been completed. 11 metres is too tall for most of the Brooklyn area and doesn't appear to take topography into consideration or the existing street scape. There are a few protected buildings in Brooklyn, but no character precinct compared to other suburbs. Brooklyn has some older well built houses and street scapes that are worth the protection.	Seeks that MRZ-S2 (Height control area 1) of 11m be removed in Brooklyn, until a character/heritage assessment has been completed.
Catharine Underwood	481.10	Residential Zones / Medium Density Residential Zone / MRZ-S2	Oppose in part	Considers that the current height control areas in Brooklyn should be removed until a proper character/heritage assessment has been completed. 14 metres is too tall for most of the Brooklyn area and doesn't appear to take topography into consideration or the existing street scape. There are a few protected buildings in Brooklyn, but no character precinct compared to other suburbs. Brooklyn has some older well built houses and street scapes that are worth the protection, such as McKinley Crescent, Jefferson Street and Todman Street.	Seeks that MRZ-S2 (Height control area 2) of 14m be removed in Brooklyn, until a character/heritage assessment has been completed.
James Barber	56.3	Residential Zones / Medium Density Residential Zone / MRZ-S3	Oppose	Considers that there should be no height in relation to boundary requirements for low to medium density housing.	Delete MRZ-S3 (Height in relation to boundary) in its entirety. [Inferred Decision Requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Ann Mallinson	81.5	Residential Zones / Medium Density Residential Zone / MRZ-S3	Not specified	Considers that developers should not be allowed to build without a requirement not to intrude on the sunlight of neighbouring buildings. The extra heating that will be used by the affected buildings will badly affect our carbon emissions.	Not Specified.
Interprofessional Trust	96.6	Residential Zones / Medium Density Residential Zone / MRZ-S3	Oppose	Considers that recession plane requirements should be removed from the PDP.	Seeks that MRZ-S3 (Height in relation to boundary) is deleted.
Cameron Vannisselroy	157.12	Residential Zones / Medium Density Residential Zone / MRZ-S3	Amend	Amend MRZ-S3 (Height in relation to boundary) to be consistent with the Coalition for More Homes' Alternative medium density residential standards	Amend MRZ-S3 (Height in relation to boundary) to be consistent with the Coalition for More Homes' Alternative medium density residential standard recommendations.
Richard W Keller	232.14	Residential Zones / Medium Density Residential Zone / MRZ-S3	Amend	Amend MRZ-S3 (Height in relation to boundary) to be consistent with the Coalition for More Homes' Alternative medium density residential standards	Amend MRZ-S3 (Height in relation to boundary) to be consistent with the Coalition for More Homes' Alternative medium density residential standards
Wellington City Council	266.138	Residential Zones / Medium Density Residential Zone / MRZ-S3	Amend	Considers there is a need to amend exemptions to MRZ-S3 (Height in relation to boundary) to enable minor 'height in relation to boundary' intrusions.	Amend MRZ-S3 (Height in relation to boundary) exemptions as follows: This standard does not apply to: a. (...) b. (...) c. (...); <u>d. Solar panel and heating components attached to a building provided these do not exceed the height by more than 500mm; and</u> <u>e. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height by more than 1m measured vertically.</u>
Fire and Emergency New Zealand	273.186	Residential Zones / Medium Density Residential Zone / MRZ-S3	Amend	As per the previous two submission points, seeks an exemption for hose drying towers regarding height in relation to boundary standards.	Supports MRZ-S3 (Height in relation to boundary), with amendment.
Fire and Emergency New Zealand	273.187	Residential Zones / Medium Density Residential Zone / MRZ-S3	Amend	As per the previous two submission points, seeks an exemption for hose drying towers regarding height in relation to boundary standards.	Amend MRZ-S3 (Height in relation to boundary) as follows: ... This standard does not apply to: ... c. Existing or proposed internal boundaries within a site; and d. Site boundaries where there is an existing common wall between 2 buildings on adjacent sites or where a common wall is proposed; <u>and</u> <u>d. Hose drying towers up to 15m in height.</u>
Johanna Carter	296.13	Residential Zones / Medium Density Residential Zone / MRZ-S3	Amend	Considers that the MRZ rules one size fits approach does not adequately protect existing and future residents in the Medium Density Zone. Considers that the height in relation to boundary should be modified to take into account the orientation of the boundary. [Refer to original submission for full reason]	Seeks that MRZ-S3 (Height in relation to boundary) is amended to take into account boundary orientation to adequately control the adverse impacts that will result from higher density development..

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
James Coyle	307.13	Residential Zones / Medium Density Residential Zone / MRZ-S3	Support	Recession planes are supported as long as building height, length and front yards feel appropriate.	Retain MRZ-S3 (Height in relation to boundary) as notified. [Inferred decision requested]
Khoi Phan	326.25	Residential Zones / Medium Density Residential Zone / MRZ-S3	Oppose	[No specific reason given beyond decision requested - refer to original submission].	Delete MRZ-S3 (Height in relation to boundary) in its entirety.
Retirement Villages Association of New Zealand Incorporated	350.134	Residential Zones / Medium Density Residential Zone / MRZ-S3	Amend	Supports MRZ-S3 to the extent it is consistent with the MDRS. However, it is considered that additional exclusions should be integrated with the standard to reflect that some developments may occur adjacent to less sensitive zones.	Amend MRZ-S3 (Height in relation to boundary) so that it does not apply to boundaries adjoining open space and recreation zones, commercial and mixed use zones, and special purpose zones.
Waka Kotahi	370.312	Residential Zones / Medium Density Residential Zone / MRZ-S3	Support	Standard MRZ-S3 is supported as it is consistent with the MDRS.	Retain Standard MRZ-S3 (Height in relation to boundary) as notified.
WCC Environmental Reference Group	377.353	Residential Zones / Medium Density Residential Zone / MRZ-S3	Support	Considers that MRZ-S3 is reasonable in terms of enabling development whilst providing for some mitigation of shading on adjacent properties.	Retain MRZ-S3 (Height in relation to boundary) as notified.
Kāinga Ora Homes and Communities	391.408	Residential Zones / Medium Density Residential Zone / MRZ-S3	Support in part	MRZ-S3 is generally supported but an amendment is sought.	Retain MRZ-S3 (Height in relation to boundary) with amendment.
Thorndon Residents' Association Inc	FS69.25	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S3	Oppose	Detrimental impacts arising from excessive ratios of height to boundary.	Disallow
Kāinga Ora Homes and Communities	391.409	Residential Zones / Medium Density Residential Zone / MRZ-S3	Amend	Considers that MRZ-S3 should be amended to recognise the amended height limits sought through the amendment to MRZ-S1 and ensure development is suitably enabled. An amendment is also sought to remove reference to MRZ-S2 which is opposed.	Amend MRZ-S3 (Height in relation to boundary) as follows: 1. For any site where MRZ-S1 or MRZ-S2.1.a applies: no part of any building or structure may project beyond a 60° recession plane measured from a point 4 metres vertically above ground level along all boundaries, as shown in Diagram 2 below ; ... 2. For any site where MRZ-S2.1.b MRZ-S1.2 applies: no part of any building or structure may project beyond a 60° recession plane measured from a point 5.6 metres vertically above ground level along all boundaries; and
Thorndon Residents' Association Inc	FS69.26	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S3	Oppose	Detrimental impacts arising from excessive ratios of height to boundary.	Disallow
Greater Wellington Regional Council	FS84.72	Part 3 / Residential Zones / Medium Density Residential Zone / MRZS3	Oppose	Greater Wellington disagree with the submitter that the flood hazard maps should be removed from the Proposed District Plan and instead be held in a nonstatutory GIS.	Disallow / Seeks that all flood hazard maps are included in the Proposed District Plan

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kirsty Woods	437.7	Residential Zones / Medium Density Residential Zone / MRZ-S3	Amend	Considers that the current standards for Medium Density Residential fail to address effects adequately, including loss of sunlight. Heights from which recession planes on the southern boundary of a new development are measured should also be adjusted down to minimise loss of sun from the north of neighbouring properties.	Amend MRZ-S3 (Height in relation to boundary) as follows: 1. For any site where MRZ-S1 or MRZ-S2.1.a applies: no part of any building or structure may project beyond a 60° recession plane measured from a point 4 metres vertically above ground level along all boundaries, as shown in Diagram 2 below its northern boundary, and 2 metres vertically above ground level along its southern, eastern and western boundaries; [amendment to diagram will be required] 2. For any site where MRZ-S2.1.b applies: no part of any building or structure may project beyond a 60° recession plane measured from a point 5 metres vertically above ground level along all boundaries its northern boundary, and 2 metres verically along its eastern, western and southern boundaries; and
Newtown Residents' Association	440.24	Residential Zones / Medium Density Residential Zone / MRZ-S3	Amend	Considers that MRZ-S3 should be amended, as it is too limited and does not provide enough protection from shade. It is considered that: - Buildings not directly adjacent to the park or otherwise seperated from the park boundary can still cast a shadow across an open space. - Height in relation to boundary controls do not prevent the remaining bulk of the building from casting significant shade. - The days and hours this standard applies are too restrictive. the 30% shade limit will often be reached with only minor changes to the maximum permitted height between 10am to 3pm at either of the equinoxes. - Peak usage for primary and secondary school aged children is after school, so 3pm is too early for them; the time should extend to at least 4pm and preferably 4.30pm. Carrara Park has two boundaries where adjacent properties are MRZ (14m). Despite the height in relation to boundary standard (5m x 60° recession plane) that applies to development on these properties, the park may not be protected enough from shade. [Refer to original submission for full reason]	Amend MRZ-S3 (Height in relation to boundary) as follows: ... 3. Where the boundary forms part of a legal right of way, entrance strip, access site, or pedestrian access way, the height in relation to boundary applies from the farthest boundary of that legal right of way, entrance strip, access site, or pedestrian access way. 4. For any site where MRZ-S1, MRZ-S2.1.a or MRZ-S2.1.b applies that is located within 60m of a site in the Natural Open Space Zone, Open Space Zone, or Sport and Active Recreation Zone: all buildings and structures must be designed and located to maintain sunlight access to a minimum of 70% of the open space site area during 10am to 4.30pm at either of the equinoxes (i.e. 21 March or 23 September) and at midwinter i.e. 23 June. ...
Jonathan Markwick	490.20	Residential Zones / Medium Density Residential Zone / MRZ-S3	Amend	Considers that in MRZ, all height-to-boundary or recession plane controls for sites with a street frontage of less than 15m should be scrapped to ensure that these rules do not prevent development on small sites.	Amend MRZ-S3 (Height in relation to boundary) to remove all height-to-boundary or recession plane controls for sites with a street frontage of less than 15m
Gareth and Joanne Morgan	FS38.15	Residential Zones / Medium Density Residential Zone / MRZ-S3	Oppose	Oppose those parts of Jonathon Markwick's submission that seeks to amend, remove or rezone the Oriental Bay Height Precinct to High Density Residential Zone.	Disallow
Karen Serjeantson	43.3	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that one side of the house should be allowed a five to six metre 'breathing'/'virtual road' space.	Seeks that a yard separation of 5-6 metres is provided along one boundary (inferred decision requested).
James Barber	56.4	Residential Zones / Medium Density Residential Zone / MRZ-S4	Oppose	Considers that there should be no set-back requirements in low to medium density housing.	Delete MRZ-S4 (Boundary setbacks) in its entirety. [Inferred Decision Requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	FS72.85	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S4	Oppose	<p>Rejects the deletion of yard setback standards. For sites adjoining the rail corridor, setbacks ensure that people can use and maintain their land and buildings safely without needing to extend out into the railway corridor, minimising the risks of physical interference on railway operations and health and safety hazards on these residents.</p> <p>Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.</p>	Disallow
James Barber	56.5	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	<p>Prefers housing opening to street, as opposed to a 1.5m courtyard surrounded by high fencing.</p> <p>Setback space can otherwise be used for communal or private greenspaces.</p>	Amend MRZ-S4 (Boundary setbacks) so that front and side yard requirements are removed for all developments in the MRZ. [Inferred Decision Requested]
KiwiRail Holdings Limited	FS72.86	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S4	Oppose	<p>Rejects the deletion of yard setback standards. For sites adjoining the rail corridor, setbacks ensure that people can use and maintain their land and buildings safely without needing to extend out into the railway corridor, minimising the risks of physical interference on railway operations and health and safety hazards on these residents.</p> <p>Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.</p>	Disallow
Tim Bright	75.9	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that buildings and structures must be set back from the relevant boundary by the minimum depth listed.	Seeks that the yard setbacks at MRZ-S4 are reinstated for developments of one to three units. [Inferred decision requested]
Nico Maiden	77.2	Residential Zones / Medium Density Residential Zone / MRZ-S4	Support in part	Considers smaller front setbacks will allow for bigger backyards and better streetscapes.	Retain MRZ-S4 (Boundary setbacks) as notified with respect to 1-3 units, with no front yard requirement.
Nico Maiden	77.3	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers smaller front setbacks will allow for bigger backyards and better streetscapes.	Amend MRZ-S4 (Boundary setbacks) with respect to 4 or more units, with the front yard requirement reduced to 1 metre or less.
David Stephen	82.5	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that the front and side boundary setbacks in the MRZ should be reinstated.	Retain MRZ-S4 (Boundary setbacks) as notified, with requirement to provide front and side yards for developments of 1 to 3 units.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Hugh Good	90.5	Residential Zones / Medium Density Residential Zone / MRZ-S4	Support	Considers that Medium Density front and side yard setbacks should not be reinstated.	Supports removal of front and side yards in the Medium Density Residential Zone.
Ian Law	101.5	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that the front and side boundary setbacks in the MRZ should be reinstated.	Retain MRZ-S4 (Boundary setbacks) as notified, with requirement to provide front and side yards for developments of 1 to 3 units. [Inferred decision requested].
Pam Wilson	120.6	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	[No specific reason given beyond decision requested - refer to original submission].	Retain MRZ-S4 (Boundary setbacks) as notified, with requirement to provide front and side yards for developments of 1 to 3 units [Inferred decision requested].
AdamsonShaw	137.9	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that MRZ-S4 should be amended as the current standards in the Operative District Plan are more permissive than the PDP yard/setback standards.	Amend MRZ-S4 (Boundary setbacks) so that the front setback is 1.5 metres, or 10 metres less half the width of the road, which ever is the lesser.
AdamsonShaw	137.10	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that MRZ-S4 should be amended as the current standards in the Operative District Plan are more permissive than the PDP yard/setback standards.	Amend MRZ-S4 (Boundary setbacks) so that there is no side or rear yard setback requirement except that, a minimum width of 1 metre must be maintained between buildings where a residential building (other than an accessory building) on an adjoining site is sited less than 1 metre from the boundary.
Janice Young	140.6	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that the front and side yard setbacks should be reinstated in the MRZ.	Seeks that the front and side yard set-backs at MRZ-S4 (Boundary setbacks) are reinstated for developments of 1 to 3 units.
Grant Buchan	143.19	Residential Zones / Medium Density Residential Zone / MRZ-S4	Support	Considers that front and side setbacks should be removed. Front yards rarely get used as living space and the side areas of buildings is simply dead space. Many of the housing typologies that have existed, without complaint, in Wellington for 100 or more years have directly fronted the street or shared walls with adjacent houses or other buildings.	Retain MRZ-S4 (Boundary setbacks) as notified (with no Front or Side setbacks for MRZ houses of 1-3 storeys). [Inferred decision requested].
David Stevens	151.11	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Opposes the removal of front and side yard setbacks for all MRZ and other developments. Considers that existing homeowners have a fundamental right to sunlight and reasonable privacy on their sections. Without front and side yard setbacks, Medium Density development will impact on the quality of life for these existing homeowners, as well as having a potentially significant reduction on property values.	Retain MRZ-S4 (Boundary setbacks) as notified, with requirement to provide front and side yards for developments of 1 to 3 units. [Inferred decision requested].
Vivienne Morrell	155.11	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that more of a transition zone than 1m is allowed for between Character Precincts or Heritage areas and other zones.
Cameron Vannisselroy	157.13	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Amend MRZ-S4 (Boundary setbacks) to be consistent with the Coalition for More Homes' Alternative medium density residential standards	Amend MRZ-S4 (Boundary setbacks) to be consistent with the Coalition for More Homes' Alternative medium density residential standards
Zaffa Christian	174.4	Residential Zones / Medium Density Residential Zone / MRZ-S4	Oppose	Opposes MRZ-S4 (Boundary setbacks) as notified, which allows the ability to be able to build to the fence/boundary line. Opposes this plan based on the recommendations made by Michael Fowler that one metre needs to be maintained in order to minimise damage in an earthquake. Building this close with high-medium rise buildings, also contravenes the sunshine clause currently being upheld by the environmental commission.	Opposes MRZ-S4 (Boundary setbacks) as notified, in relation to developments of 1-3 household units.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Jon Gaupset	175.4	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	<p>Opposes MRZ-S4 (Boundary setbacks) as notified, which allows the ability to be able to build to the fence/boundary line.</p> <p>Opposes this plan based on the recommendations made by Michael Fowler that one metre needs to be maintained in order to minimise damage in an earthquake.</p> <p>Building this close with high-medium rise buildings, also contravenes the sunshine clause currently being upheld by the environmental commission.</p>	Opposes MRZ-S4 (Boundary setbacks) as notified, in relation to developments of 1-3 household units.
Avryl Bramley	202.40	Residential Zones / Medium Density Residential Zone / MRZ-S4	Oppose	Considers that this has been the case in the past and has been a recipe for disaster leaving individual homeowners trying to wrench enforcement compliance out of builders who think they have a right to trespass on adjoining properties and or demolish structures they do not own.	<p>Seeks that MRZ-S4 is amended to require boundary setbacks.</p> <p>[Inferred decision requested]</p>
Avryl Bramley	202.41	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that this has been the case in the past and has been a recipe for disaster leaving individual homeowners trying to wrench enforcement compliance out of builders who think they have a right to trespass on adjoining properties and or demolish structures they do not own.	<p>Seeks reinstatement of side yards in residential areas.</p> <p>[Inferred reinstatement of front and side yards for 1 - 3 units in MRZ-S4].</p>
Monique Zorn	205.3	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	<p>Considers that the removal of front yard standards reduces the ability to meet the objectives and policies in the MRZ.</p> <p>11m high developments on front boundaries are more appropriate in central city, centres and inner residential areas.</p> <p>Construction of buildings on the front boundary of a property creates risks and hazards for footpath users, such as doors opening onto streets and garages opening directly onto paths.</p> <p>Buildings on the front boundaries undermines the streets amenity.</p> <p>The residential design guide leans positively towards a landscaped and active front yard, not an absence of a front yard.</p> <p>The side yard standard has the effect of allowing 11m maximum height to be closer to the neighbouring property, reducing neighbours residential amenity.</p> <p>The removal of the side yard standard also reduces the practical utility area in which to put rubbish bins, bikes or household goods, rear property access, maintenance of side properties without trespassing and may reduce emergency service access.</p> <p>The removal of side yard standards changes the way utilities can be configured and laid.</p> <p>The removal of this side yard standard of 1m across all residential zones will compromise residential amenity and good neighbourly relations.</p> <p>[Refer to original submission for full reason]</p>	Amend MRZ-S4 (Boundary setbacks) so that front and side yard requirements apply for 1 - 3 residential units.
Russell Taylor	224.2	Residential Zones / Medium Density Residential Zone / MRZ-S4	Oppose	Considers that multi unit developments need to be encouraged	Seeks that MRZ-S4 (Boundary setbacks) not apply to multi unit developments.
Richard W Keller	232.15	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Amend MRZ-S4 (Boundary setbacks) to be consistent with the Coalition for More Homes' Alternative medium density residential standards	Amend MRZ-S4 (Boundary setbacks) to be consistent with the Coalition for More Homes' Alternative medium density residential standards
Victoria Stace	235.4	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that yard setbacks enable adjacent property owners of wooden structures gain access for repairs and maintenance to their structures.	Seeks that MRZ-S4 (Boundary setbacks) is amended to require 1.5m front yard setback and 1m side yard setback for all properties in the zone, including sites with 1 - 3 dwellings.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Paul Ridley-Smith	245.4	Residential Zones / Medium Density Residential Zone / MRZ-S4	Support in part	Supports the minimum yard setbacks of 1.5m (front yard) and 1m (side yards) in all residential zones. Considers that this enables adjacent property owners of wooden structures gain access for repairs and maintenance to their structures.	Supports MRZ-S4 (Building setbacks) with amendment.
Paul Ridley-Smith	245.5	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that the minimum yard setbacks of 1.5m (front yard) and 1m (side yards) should apply in all residential zones as this enables adjacent property owners of wooden structures gain access for repairs and maintenance to their structures.	Seeks that MRZ-S4 is amended to require 1.5m front yard setback and 1m side yard setback for all properties in the zone, including sites with 1 - 3 dwellings. [Inferred decision requested]
Wellington City Council	266.139	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers it necessary amend the standard so it only relates to 4+ units. Add exemption to standard for uncovered decks and uncovered structures no more than 500mm in height above ground level and eaves up to 600mm in width.	Amend MRZ-S4 (Boundary setbacks) exemptions as follows: This standard does not apply to: <u>a. Developments of 1-3 household units with respect to the front and side yard set-back requirements;</u> <u>b. Site boundaries where there is an existing common wall between 2 buildings on adjacent sites or where a common wall is proposed; and</u> <u>c. Fences or standalone walls;</u> <u>d. Uncovered decks and uncovered structures no more than 500mm in height above ground level;</u> <u>e. Eaves up to 600mm in width;</u> <u>f. Multi-unit housing; and</u> <u>g. Retirement villages.</u>
KiwiRail Holdings Limited	FS72.87	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S4	Oppose	Rejects exempting 1-3 dwellings from complying with yard setback standards. For sites adjoining the rail corridor, setbacks ensure that people can use and maintain their land and buildings safely without needing to extend out into the railway corridor, minimising the risks of physical interference on railway operations and health and safety hazards on these residents. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Onslow Residents Community Association	283.10	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Opposes the removal of MRZ front and side yard setbacks. It is important that the District Plan distinguishes the outer suburbs amenity from the inner city and metropolitan areas in order to retain choices for the city residents, to do otherwise destroys existing character for no reasonable gain in development capacity. [Refer to original submission for full reason]	Seeks that MRZ-S4 (Boundary setbacks) is amended to require 1.5m front yard setback and 1m side yard setback for all properties, including sites with 1 - 3 dwellings. [Inferred decision requested]
Johanna Carter	296.14	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that the MRZ rules one size fits approach does not adequately protect existing and future residents in the Medium Density Zone. Considers that the yard standard needs to be revised to provide for better privacy between residential units/sites. [Refer to original submission for full reason]	Seeks that MRZ-S4 (Boundary setbacks) is amended to increase setbacks to improve privacy between homes.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wilma Sherwin	306.8	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that the front and side boundary setbacks in the MRZ should be reinstated.	Retain MRZ-S4 (Boundary setbacks) as notified, with requirement to provide front and side yards for developments of 1 to 3 units.
James Coyle	307.14	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that resource consent should be required when front yards are larger than 4m and less than 1.5m for all building types.	Retain MRZ-S4 (Boundary setbacks) as notified, with requirement to require resource consents for front yards larger than 4m and less than 1.5m
James Coyle	307.15	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that front yard design be specific depending on the orientation of the street.
Rimu Architects Ltd	318.25	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that MRZ-S4 should be amended to have an exception for low decks or eaves. Both the front & side yard requirements are more restrictive than current rules. There are also no exceptions for low decks or eaves. A wall 1m clear of the boundary with an eave up to 600 wide above is consistent with other regulatory requirements, so keeping the side yard requirement but allowing a 600 eave (as at GRUZ-S4) would be reasonable, as would that provision's allowance for low decks.	Amend MRZ-S4 (Boundary setbacks) as follows: ... This standard does not apply to: a. Site boundaries where there is an existing common wall between 2 buildings on adjacent sites or where a common wall is proposed; and b. Fences or standalone walls; and c. <u>Uncovered decks no more than 500mm in height above ground level; and</u> d. <u>Eaves up to 600mm in width.</u>
Khoi Phan	326.26	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend MRZ-S4 (Boundary setbacks) as follows: Yard Minimum depth Front 1.5 metres <u>1.0 metre</u> Side 1 metre <u>0.5 metre</u> Rear 1 metre <u>0.5 metre</u> (excluded on corner sites)
KiwiRail Holdings Limited	FS72.88	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S5	Oppose	Seeks side and rear setbacks from the rail corridor for health and safety reasons. Setbacks ensure that people can use and maintain their land and buildings safely without needing to extend out into the railway corridor, minimising the risks of physical interference on railway operations and health and safety hazards on these residents. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Mt Cook Mobilised	331.13	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that There should be enough space in the side-yard, or backyard, to allow for the placement of a domestic emergency water tank, along with space to sit and enjoy the outdoors. A 1,000 litre tank is likely to be 1m wide, and the PDP proposes 1m side-yard setback requirements only. Sufficient space is needed to be able to walk past a water tank.	Amend MRZ-S4 (Boundary setbacks) to allow for a 1m wide emergency water tank to fit in a side yard.
Retirement Villages Association of New Zealand Incorporated	350.135	Residential Zones / Medium Density Residential Zone / MRZ-S4	Support	Supports MRZ-S4 and the boundary setbacks which reflect the setback density standard of the Act.	Retain MRZ-S4 (Boundary setbacks) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested										
Waka Kotahi	370.313	Residential Zones / Medium Density Residential Zone / MRZ-S4	Support in part	Standard MRZ-S4 is supported, but amendment is sought.	Retain Standard MRZ-S4 (Boundary setbacks) and seeks amendment.										
Waka Kotahi	370.314	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that all boundary setbacks should have immediate legal effect to align with the MDRS requirements, and to avoid confusion where boundary setbacks are applied from both the operative and district plan. Notes that the intention of the NPS-UD is to enable urban environments to evolve and change, enabled by the national standards.	Seeks to amend MRZ-S4 (Boundary setbacks) to ensure it has immediate legal effect.										
WCC Environmental Reference Group	377.354	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that the boundary setbacks do not provide for efficient use of land, and will continue to perpetuate the poor land use practice of infill without regard to long term liveability. The submitter seeks that the requirement for a frontage setback be removed, along with side yard requirements. The submitter seeks a greater rear yard set back which they consider will help get our medium and high density zones on a track towards a better, more efficient yet useable urban form for the years to come.	Amend MRZ-S4 (Boundary setbacks) to: - Remove the minimum depth front yard requirement - Remove the side yard requirement for the first 20m from the street frontage to the back. - Increase the rear yard requirement to 8m.										
Kāinga Ora Homes and Communities	391.410	Residential Zones / Medium Density Residential Zone / MRZ-S4	Support	MRZ-S4 is supported.	Retain MRZ-S4 (Boundary setbacks) as notified.										
KiwiRail Holdings Limited	408.119	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	<p>Considers that building setbacks are essential to address significant safety hazards associated with the operational rail corridor.</p> <p>The Proposed Plan enables a 1m setback from side and rear boundaries shared with the rail corridor under MRZ-S4, increasing the risk that poles, ladders, or even ropes for abseiling equipment, could protrude into the rail corridor and increasing the risk of collision with a train or electrified overhead lines.</p> <p>KiwiRail consider that a 5m setback would be more appropriate in providing for vehicular access to the rear of buildings (e.g. a cherry picker) and allowing for scaffolding to be erected safely. An increased setback would provide for the unhindered operation of buildings, including higher rise structures and for the safer use of outdoor deck areas at height. This in turn fosters visual amenity, as lineside properties can be regularly maintained.</p> <p>KiwiRail seek a boundary setback of 5m from the rail corridor for all buildings and structures.</p>	<p>Amend MRZ-S4 (Boundary setbacks) as follows:</p> <p>1. Buildings and structures must be set back from the relevant boundary by the minimum depth listed in the yards table below:</p> <table border="1"> <thead> <tr> <th><u>Yard Boundary</u></th> <th>Minimum depth</th> </tr> </thead> <tbody> <tr> <td>Front</td> <td>1.5 metres</td> </tr> <tr> <td>Side</td> <td>1 metre</td> </tr> <tr> <td>Rear</td> <td>1 metre (excluded on corner sites)</td> </tr> <tr> <td><u>Rail corridor</u></td> <td><u>5 metres</u></td> </tr> </tbody> </table>	<u>Yard Boundary</u>	Minimum depth	Front	1.5 metres	Side	1 metre	Rear	1 metre (excluded on corner sites)	<u>Rail corridor</u>	<u>5 metres</u>
<u>Yard Boundary</u>	Minimum depth														
Front	1.5 metres														
Side	1 metre														
Rear	1 metre (excluded on corner sites)														
<u>Rail corridor</u>	<u>5 metres</u>														
Kāinga Ora – Homes and Communities	FS89.33	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S4	Oppose	Kāinga Ora opposes the relief sought; a considerably reduced set back would provide adequate space for maintenance activities within sites adjacent to the rail network. In doing so, it will continue to protect the safe, efficient, and effective operation of the rail infrastructure while balancing the cost on landowners.	Disallow										
Donna Yule	421.3	Residential Zones / Medium Density Residential Zone / MRZ-S4	Oppose	<p>Opposes having no residential minimum boundaries space of at least 1 metre.</p> <p>No consideration has been given to the geographical location of each individual suburb, its terrain and orientation to the sun. For suburbs that are built in a north south direction with hills either side and the main housing is on the flat, any 3 storey building will cast a significant shadow over many properties.</p> <p>Many more 3 storey development means a whole suburb except for those on the hills will be in permanent shadows.</p> <p>Added to that no space between properties, no outside areas to enjoy a little privacy. These suburbs will become sunless undesirable transitional suburbs where people will only stay a short time until they can afford to move elsewhere with sun & outdoor space.</p>	Not specified.										

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association	429.32	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that one major recent decision by the Council has been to remove the building front and side setback requirements in the current District Plan. Permitting buildings onto the boundary is a significant loss of neighbourhood amenity and is likely to further reduce the natural light next to high buildings.	Seeks that MRZ-S4 (Boundary setbacks) is amended to require 1.5m front yard setback and 1m sideyard setback for all properties in the zone, including sites with 1 - 3 dwellings. [Inferred Decision Requested]
Meredith Robertshawe	444.4	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Seeks that MRZ-S4 has front and side yard boundaries retained to retain existing streetscape and visual amenity effects; and minimise potential dominance, lack of privacy and shading effects on adjoining sites. I seek the reinstatement of front and side yard boundaries for: a. Site boundaries where there is an existing common wall between 2 buildings on adjacent sites or where a common wall is proposed; b. Fences or standalone walls. Considers that this will ensure that space between separate buildings will be retained, and increase the amenity value for neighbourhoods where medium density building is allowed.	Amend MRZ-S4 (Boundary setbacks) to reinstate the front and side yard set-backs for developments of 1 to 3 units.
Meredith Robertshawe	444.5	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Seeks that MRZ-S4 has front and side yard boundaries retained to retain existing streetscape and visual amenity effects; and minimise potential dominance, lack of privacy and shading effects on adjoining sites. Seeks the reinstatement of front and side yard boundaries for: a. Site boundaries where there is an existing common wall between 2 buildings on adjacent sites or where a common wall is proposed; b. Fences or standalone walls. Considers that this will ensure that space between separate buildings will be retained, and increase the amenity value for neighbourhoods where medium density building is allowed.	Amend MRZ-S4 (Boundary setbacks) as follows: ... This standard does not apply to: a. Site boundaries where there is an existing common wall between 2 buildings on adjacent sites or where a common wall is proposed; and b. Fences or standalone walls. ...
Greater Brooklyn Residents Association Inc's	459.8	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers it appropriate to amend front setbacks to two metres as per the Operative District Plan.	Amend MRZ-S4 (Boundary Setbacks) as follows: Buildings and structures must be set back from the relevant boundary by the minimum depth listed in the yards table below: Front - 1.5 metres 2 metres [Inferred decision requested]
Catharine Underwood	481.1	Residential Zones / Medium Density Residential Zone / MRZ-S4	Oppose	Considers that the removal of front and side yard setbacks for medium density residential standards compliant development will negatively affect the street scape of suburban Wellington.	Seeks that front and side yard setbacks in MRZ-S4 (Boundary setbacks) apply to residential units that comply with the medium density residential standards.
Catharine Underwood	481.23	Residential Zones / Medium Density Residential Zone / MRZ-S4	Amend	Considers that all new buildings in the suburbs should have a minimum set back of 2m to give room for a green corridor. Side yards are a good place for rubbish bins, compost bins or sheds to store bikes and other toys. This practice should be adopted for the sake of climate change, the biodiversity crisis and emissions off setting.	Amend MRZ-S4 (Boundary setbacks) to have a minimum setbacks of 2m and at least 1.5m in the inner city.
Wellington City Council	266.140	Residential Zones / Medium Density Residential Zone / MRZ-S5	Amend	Considers it is necessary to add exemption to standard for uncovered decks and uncovered structures no more than 500mm in height about ground level and eaves up to 600mm in width.	Amend MRZ-S5 (Building coverage) as follows: <u>This standard does not apply to:</u> <u>a. Uncovered decks and uncovered structures no more than 500mm in height above ground level; and</u> <u>b. Eaves up to 600mm in width.</u> <u>c. Multi-unit housing; and</u> <u>d. Retirement villages.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
AdamsonShaw Limited	FS1.1	MRZ-S5	Support	<p>The exemptions proposed by Wellington City Council in their submission are similar to the existing exemptions to site coverage in the Operative District Plan. However the exemption for uncovered decks and uncovered structures should be increased to being "no more than 1m in height about ground level" and "eaves up to 1m in width" as this is the current exemptions under the ODP.</p> <p>Given the topography of Wellington, most decks are greater than 500mm. Decks are used to provide flat outdoor living space and they should not count towards site coverage where they are less than 1m.</p>	<p>Amend / Amend MRZ-S5 (Building coverage) by adding the following:</p> <p>...</p> <p><u>This standard does not apply to:</u></p> <p><u>a. Uncovered decks and uncovered structures no more than 1m in height above ground level; and</u> <u>b. Eaves up to 1m in width.</u></p>
Johanna Carter	296.15	Residential Zones / Medium Density Residential Zone / MRZ-S5	Amend	<p>Considers that the MRZ rules one size fits approach does not adequately protect existing and future residents in the Medium Density Zone.</p> <p>Considers that the building coverage requirement is going from 35% to 50% is a significant increase in this zone and will have a huge impact of the feeling of openness in the area increasing overall building bulk.</p> <p>Considers that either retaining the 35% coverage but allow for a 15% deck coverage under particular conditions is a better option.</p> <p>[Refer to original submission for full reason]</p>	<p>Seeks that MRZ-S5 (Building coverage) is amended from 50% to 35% to adequately control the adverse impacts that will result from higher density development. An additional 15% for decks could be permitted in particular conditions.</p>
Khoi Phan	326.27	Residential Zones / Medium Density Residential Zone / MRZ-S5	Amend	[No specific reason given beyond decision requested - refer to original submission].	<p>Amend MRZ-S5 (Building coverage) as follows:</p> <p>1. Maximum building coverage must not exceed 50% <u>70%</u> of the net site area.</p>
Retirement Villages Association of New Zealand Incorporated	350.136	Residential Zones / Medium Density Residential Zone / MRZ-S5	Support	Supports MRZ-S5 and the maximum building coverage which reflects the building coverage density standard of the Act.	Retain MRZ-S5 (Building coverage) as notified.
Waka Kotahi	370.315	Residential Zones / Medium Density Residential Zone / MRZ-S5	Support	Standard MRZ-S5 is supported as it is consistent with the MDRS.	Retain Standard MRZ-S5 (Building coverage) as notified.
Kāinga Ora Homes and Communities	391.411	Residential Zones / Medium Density Residential Zone / MRZ-S5	Support	MRZ-S5 is supported.	Retain MRZ-S5 (Building coverage) as notified.
Metlifecare Limited	413.34	Residential Zones / Medium Density Residential Zone / MRZ-S5	Support	Supports the maximum building coverage is 50% of the net site area.	Retain MRZ-S5 (Building Coverage) as notified.
Richard W Keller	232.16	Residential Zones / Medium Density Residential Zone / MRZ-S6	Amend	Considers that the addition of the Coalition for More Homes' alternative recommendations for outdoor living space and green space should be adopted.	Amend MRZ-S6 (Outdoor living space per unit) to be consistent with the Coalition for More Homes' Alternative medium density residential standards
Johanna Carter	296.16	Residential Zones / Medium Density Residential Zone / MRZ-S6	Amend	<p>Considers that the MRZ rules one size fits approach does not adequately protect existing and future residents in the Medium Density Zone.</p> <p>[Refer to original submission for full reason]</p>	Seeks that MRZ-S6 (Outdoor living space (per unit)) is amended to adequately control the adverse impacts that will result from higher density development.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.137	Residential Zones / Medium Density Residential Zone / MRZ-S6	Support	Supports the exclusion of retirement villages from MRZ-S6.	Retain MRZ-S6 (Outdoor living space (per unit)) as notified.
Retirement Villages Association of New Zealand Incorporated	350.138	Residential Zones / Medium Density Residential Zone / MRZ-S6	Amend	Supports the exclusion of retirement villages from MRZ-S6. If retirement villages are regulated by the standard, the standard should be amended to enable the communal outdoor living spaces of retirement villages to count towards the amenity standard	Should MRZ-S6 (Outdoor living space (per unit)) be amended to be subject to retirement villages following notification, seeks that the MRZ-S6 (Outdoor living space (per unit)) is amended as follows: <u>For retirement units, clause 1 and 2 apply with the following modifications:</u> <u>a. the outdoor living space may be in whole or in part grouped cumulatively in 1 or more communally accessible location(s) and/or located directly adjacent to each retirement unit; and</u> <u>b. a retirement village may provide indoor living spaces in one or more communally accessible locations in lieu of up to 50% of the required outdoor living space.</u>
Envirowaste Services Ltd	373.15	Residential Zones / Medium Density Residential Zone / MRZ-S6	Support in part	[No specific reason given beyond decision requested - refer to original submission]	Retain MRZ-S6 (Outdoor living space (per unit)) with amendment.
Envirowaste Services Ltd	373.16	Residential Zones / Medium Density Residential Zone / MRZ-S6	Amend	Considers that bin storage should have a specific and acknowledged location on site that is outside an outdoor living space.	Amend MRZ-S6 (Outdoor living space (per unit)) as follows: 1. A residential unit at ground floor level must have an outdoor living space that is at least 20 square metres and that comprises ground floor, balcony, patio, or roof terrace space that: a. Where located at ground level, has no dimension less than 3 metres; b. Where provided in the form of a balcony, patio, or roof terrace, is at least 8 square metres and has a minimum dimension of 1.8 metres; c. Is accessible from the residential unit; d. May be: i. grouped cumulatively by area in 1 communally accessible location; or ii. located directly adjacent to the unit; and e. Is free of buildings, parking spaces, and servicing (<u>including waste facilities</u>) and maneuvering areas.
WCC Environmental Reference Group	377.355	Residential Zones / Medium Density Residential Zone / MRZ-S6	Support	Considers that provision for outdoor living space is an important part of ensuring a healthy and pleasant environment for people living in higher density areas.	Retain MRZ-S6 (Outdoor living space (per unit)) as notified.
Kāinga Ora Homes and Communities	391.412	Residential Zones / Medium Density Residential Zone / MRZ-S6	Support in part	MRZ-S6 is generally supported and it is acknowledged that that this standard is directly taken from the MDRS, however seek that the standard is more enabling, but an amendment is sought.	Retain MRZ-S6 (Outdoor living space (per unit)) with amendment.
Kāinga Ora Homes and Communities	391.413	Residential Zones / Medium Density Residential Zone / MRZ-S6	Oppose	Considers that MRZ-S6 should be amended to be more enabling. MRZ-S13 for multi-unit housing is a more enabling outdoor living space requirement which is considered appropriate for all residential units as it provides sufficient onsite space and amenity. Amendments are sought to replace MRZ-S6 with MRZ-S13 and delete reference to multi-unit housing and retirement villages.	Delete MRZ-S6 (Outdoor living space (per unit)) including the exclusion for multiunit housing and retirement villages and replace with MRZS13 which should then be deleted.
LIVE WELLington	FS96.31	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S6	Oppose	Opposed as existing provision for outdoor living space delivers a better outcome for residents	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Roland Sapsford	FS117.30	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S6	Oppose	Opposed as existing provision for outdoor living space delivers a better outcome for residents.	Disallow
The Retirement Villages Association of New Zealand Incorporated	FS126.137	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S6	Not specified	The RVA would support the intent of the relief sought in this submission subject to the relief sought by The RVA within the primary submission for retirement villages to be excluded.	Amend / Allow the submission point, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.137	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S6	Not specified	Ryman would support the intent of the relief sought in this submission subject to the relief sought by Ryman within the primary submission for retirement villages to be excluded.	Amend / Allow the submission point, subject to the relief sought within Ryman's primary submission.
Metlifecare Limited	413.35	Residential Zones / Medium Density Residential Zone / MRZ-S6	Support	Considers the outdoor living space (per unit) and outlook space (per unit) requirements do not apply to retirement village development. This appropriately recognises that these types of developments are designed for elderly residents and generally have communal outdoor spaces (which are maintained by the village provider) rather than individual backyard or outdoor living areas that would need to be maintained by the residents.	Retain MRZ-S6 (Outdoor living space (per unit)) as notified.
AdamsonShaw	137.11	Residential Zones / Medium Density Residential Zone / MRZ-S7	Amend	Considers that MRZ-S7 is one of the main limitations to intensification of development and dwelling density in the established residential areas as the requirement to provide a 4m deep outlook space is too much. Considers that the depth of the outlook space should be reduced to 3m so that the complying outdoor living space can double as outlook space.	Amend MRZ-S7.3.a (Outlook space (per unit)) so that, if possible, the depth of the outlook space is reduced to 3m from 4m.
AdamsonShaw	137.12	Residential Zones / Medium Density Residential Zone / MRZ-S7	Support in part	Considers that the 4m width requirement is ok in MRZ-S7.	Retain the MRZ-S7 (Outlook space (per unit)) 4m width requirement as notified.
Johanna Carter	296.17	Residential Zones / Medium Density Residential Zone / MRZ-S7	Amend	Considers that the MRZ rules one size fits approach does not adequately protect existing and future residents in the Medium Density Zone. [Refer to original submission for full reason]	Seeks that MRZ-S7 (Outlook space (per unit)) is amended to adequately control the adverse impacts that will result from higher density development.
Retirement Villages Association of New Zealand Incorporated	350.139	Residential Zones / Medium Density Residential Zone / MRZ-S7	Support	The RVA supports the exclusion of retirement villages from MRZ-S7.	Retain MRZ-S7 (Outlook space (per unit)) as notified.
Retirement Villages Association of New Zealand Incorporated	350.140	Residential Zones / Medium Density Residential Zone / MRZ-S7	Amend	The RVA supports the exclusion of retirement villages from MRZ-S7. If the standard is amended and retirement villages are regulated by this standard, the standard should ensure that outlook space requirements are provided that are appropriate for retirement villages.	Should MRZ-S7 (Outlook space (per unit)) be amended to be subject to retirement villages following notification, seeks that the MRZ-S7 (Outlook space (per unit)) is amended as follows: <u>For retirement units, clauses 1 – 9 apply with the following modification: The minimum dimensions for a required outlook space are 1 metre in depth and 1 metre in width for a principal living room and all other habitable rooms.</u>
WCC Environmental Reference Group	377.356	Residential Zones / Medium Density Residential Zone / MRZ-S7	Support	Considers that provision for outdoor living space is an important part of ensuring a healthy and pleasant environment for people living in higher density areas.	Retain MRZ-S7 (Outlook space (per unit)) as notified.
Kāinga Ora Homes and Communities	391.414	Residential Zones / Medium Density Residential Zone / MRZ-S7	Support in part	MRZ-S7 is generally supported and it is acknowledged that that this standard is directly taken from the MDRS, however seek that the standard is more enabling, but an amendment is sought.	Retain MRZ-S7 (Outlook space (per unit)) with amendment.
Kāinga Ora Homes and Communities	391.415	Residential Zones / Medium Density Residential Zone / MRZ-S7	Oppose	Considers that MRZ-S7 should be amended to be more enabling. MRZ-S14 for multi-unit housing is a more enabling provision which provides sufficient outlook space and is considered to be appropriate for all residential units regardless of the number on a site.	Delete MRZ-S7 (Outlook space (per unit)) including the exclusion for multiunit housing and retirement villages and replace with MRZS14 which should then be deleted.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Metlifecare Limited	413.36	Residential Zones / Medium Density Residential Zone / MRZ-S7	Support	Considers the policy recognises that there are a range of units within a retirement village including care units where the provision of outlook space should not unnecessarily constrain the design of these care facilities.	Retain MRZ-S7 (Outlook space (per unit)) as notified.
Craig Palmer	492.23	Residential Zones / Medium Density Residential Zone / MRZ-S7	Oppose	Considers that MRZ-S7 (Outlook space (per unit)) avoids specifying access to direct sunlight within principal living rooms. The very small living spaces allowed for under MRZ-S12 (Minimum residential unit size for multi-unit housing), i.e. 35m2 to 55m2, necessitate a counterbalancing measure to ensure that direct sunlight prevents claustrophobia and depression from living in confined shaded spaces. In Wellington direct sunlight enjoyed indoors is crucially important. [Refer to original submission for full detail].	Seeks that provision is made to ensure that principal living rooms enjoy a minimum of two hours of direct sunlight from June to August.
Craig Palmer	492.24	Residential Zones / Medium Density Residential Zone / MRZ-S7	Amend	Considers that MRZ-S7 (Outlook space (per unit)) avoids specifying access to direct sunlight within principal living rooms. The very small living spaces allowed for under MRZ-S12 (Minimum residential unit size for multi-unit housing), i.e. 35m2 to 55m2, necessitate a counterbalancing measure to ensure that direct sunlight prevents claustrophobia and depression from living in confined shaded spaces. In Wellington direct sunlight enjoyed indoors is crucially important. [Refer to original submission for full detail].	Seeks that provision is made to ensure that principal living rooms enjoy a minimum of two hours of direct sunlight from June to August.
Interprofessional Trust	96.7	Residential Zones / Medium Density Residential Zone / MRZ-S8	Amend	Considers that the 20% glazing standard has no support in science and that glass is not an insulating cladding. [Refer to original submission for further details]	Seeks that the 20% glazing standard is amended to say 15-50% glass when oriented 90° of north and 20% max for other orientations, excluding shopfronts [Refer to submission for further details].
Retirement Villages Association of New Zealand Incorporated	350.141	Residential Zones / Medium Density Residential Zone / MRZ-S8	Support	Supports the exclusion of retirement villages from MRZ-S8.	Retain MRZ-S8 (Windows to street) as notified.
Retirement Villages Association of New Zealand Incorporated	350.142	Residential Zones / Medium Density Residential Zone / MRZ-S8	Amend	Supports the exclusion of retirement villages from MRZ-S8. If the standard is amended and retirement villages are regulated by this standard, the standard should be amended to apply to retirement units that face a public street only.	Should MRZ-S8 (Windows to street) be amended to be subject to retirement villages following notification, seeks that MRZ-S8 (Windows to street) to only apply to retirement villages that face a public street.
Waka Kotahi	370.316	Residential Zones / Medium Density Residential Zone / MRZ-S8	Support	Standard MRZ-S8 is supported as it is consistent with the MDRS.	Retain Standard MRZ-S8 (Outlook space (per unit)) as notified.
WCC Environmental Reference Group	377.357	Residential Zones / Medium Density Residential Zone / MRZ-S8	Support	Considers that MRZ-S8 will help ensure attractiveness at street level, as well as provide for passive surveillance: designing for safety is highly important in built environments.	Retain MRZ-S8 (Windows to street) as notified.
Kāinga Ora Homes and Communities	391.416	Residential Zones / Medium Density Residential Zone / MRZ-S8	Support	MRZ-S8 is supported.	Retain MRZ-S8 (Windows to street) as notified.
Metlifecare Limited	413.37	Residential Zones / Medium Density Residential Zone / MRZ-S8	Support	The submitter states the medium density residential standard related to window glazing does not apply to retirement village development. This standard is therefore supported.	Retain MRZ-S8 (Windows to street) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Richard W Keller	232.17	Residential Zones / Medium Density Residential Zone / MRZ-S9	Amend	Considers that the addition of the Coalition for More Homes' alternative recommendations for outdoor living space and green space should be adopted.	Amend MRZ-S9 (Landscaped area) to be consistent with the Coalition for More Homes' Alternative medium density residential standards
Phillippa O'Connor	289.26	Residential Zones / Medium Density Residential Zone / MRZ-S9	Not specified	Considers that 'landscaped area' could benefit from a definition.	Seeks clarity on the interpretation of 'landscaped area' as it relates to standard MRZ-S9 (Landscaped area).
Johanna Carter	296.18	Residential Zones / Medium Density Residential Zone / MRZ-S9	Amend	Considers that the MRZ rules one size fits approach does not adequately protect existing and future residents in the Medium Density Zone. [Refer to original submission for full reason]	Seeks that MRZ-S9 (Landscaped area) is amended to adequately control the adverse impacts that will result from higher density development.
Retirement Villages Association of New Zealand Incorporated	350.143	Residential Zones / Medium Density Residential Zone / MRZ-S9	Support	Supports the exclusion of retirement villages from MRZ-S9.	Retain MRZ-S9 (Landscaped area) as notified.
Retirement Villages Association of New Zealand Incorporated	350.144	Residential Zones / Medium Density Residential Zone / MRZ-S9	Amend	Supports the exclusion of retirement villages from MRZ-S9. If the standard is amended and retirement villages are regulated by this standard, the standard should be amended to apply to retirement units.	Should MRZ-S9 (Landscaped area) be amended to be subject to retirement villages following notification, seeks that MRZ-S9 (Landscaped area) to only apply to retirement units.
WCC Environmental Reference Group	377.358	Residential Zones / Medium Density Residential Zone / MRZ-S9	Support	Considers that MRZ-S9 will help provide a biophilic environment for residents, along with benefits to biodiversity, pleasantness and amenity, as well as helping reduce the rate and amount of storm water run-off.	Retain MRZ-S9 (Landscaped area) as notified.
Kāinga Ora Homes and Communities	391.417	Residential Zones / Medium Density Residential Zone / MRZ-S9	Support	MRZ-S9 is supported.	Retain MRZ-S9 (Landscaped area) as notified.
Metlifecare Limited	413.38	Residential Zones / Medium Density Residential Zone / MRZ-S9	Support	The submitter states that it is appropriate that no landscape area standard applies to retirement village development. Retirement villages have well landscaped and maintained grounds for residents. Regulating this on a per unit basis would be inappropriate, and would not enable the efficient use of the site.	Retain MRZ-S9 (Landscaped areas) as notified.
Rod Halliday	25.31	Residential Zones / Medium Density Residential Zone / MRZ-S10	Amend	Considers that 30% permeable surface is too high, considering the MDRZ allows for 50% site coverage and other standards require 20% landscape area of grass or plants.	Seeks that the first point in MRZ-S10 (Permeable surface area) be amended to require a minimum of 20% of net surface area be permeable.
Glenside Progressive Association (GPA)	FS4.7	Residential Zones / Medium Density Residential Zone / MRZ-S10	Oppose	Oppose submitter seeking to reduce permeable surface from 30% to 20%. This is because residents below the site and downstream will be adversely affected. Housing development on Glenside West slopes should be hydrologically neutral. Because this is almost certainly not achievable, we oppose any high or medium density housing development in this area at all. The Boffa Miskell Upper Stebbings Valley Wellington Landscape and Ecology Analysis report (2018) is very pertinent when considering this development. This report identified Glenside West as having remnant forest of high ecological values, worthy of protection.	Disallow / Seeks that the submission is disallowed to retain appropriate standard for permeable surfaces that avoids any increase in flooding or risk of slips i.e 30% permeable surface or higher. [Refer to further submission for full decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Heidi Snelson	FS24.9	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-S10	Oppose	<p>Submitter is seeking to reduce mitigation requirements and responsibilities around hydraulic neutrality and permeable surface requirements in the case of storm water management at a unprecedented time of storm water damage in Wellington.</p> <p>Developments should undertake more mitigation not less in all areas given climate change. Especially those posing more risk, such as steep hillsides, abutting/above key infrastructure (roading, power, water, railway), and significant streams, such as at the sites of the current and planned developments in Churton Park and Glenside West.</p> <p>The Glenside West development area is downstream of both detention structures, on extremely steep hillsides, above Porirua Stream, directly above Middleton Road (State Highway 1 motorway detour route) and the North Island railway line (which runs alongside and over the Porirua Stream). This development area must be specifically required to achieve Hydraulic Neutrality. Be that through specific technological infrastructure in build design and water catchment, significant permeable surface requirements/planting. Through Large Lot Residential Only in Glenside West.</p>	<p>Disallow / Seeks that submission be disallowed to ensure strict adherence to hydraulic neutrality in Glenside West Development Area, and Stebbings Valley / Reedy Block Development Area. Seeks minimum standard of hydraulic neutrality required and corresponding requirement of high level of permeable surface mitigations.</p> <p>Seeks that Glenside West be designated Large Lot Residential only.</p>
Zoe Ogilvie-Burns	131.9	Residential Zones / Medium Density Residential Zone / MRZ-S10	Support in part	[No specific reason given beyond decision requested - refer to original submission].	Seeks a permeability standard in the Medium Density Residential Zone requiring a minimum 30-40% of a site to be permeable (including permeable pavers / gravel etc).
Anne Lian	132.12	Residential Zones / Medium Density Residential Zone / MRZ-S10	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks a permeability standard in the Medium Density Residential Zone requiring a minimum 30-40% of a site to be permeable (including permeable pavers / gravel etc).
Ingo Schommer	133.11	Residential Zones / Medium Density Residential Zone / MRZ-S10	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks a permeability standard in the Medium Density Residential Zone requiring a minimum 30-40% of a site to be permeable (including permeable pavers / gravel etc).
Olivier Reuland	134.14	Residential Zones / Medium Density Residential Zone / MRZ-S10	Support in part	[No specific reason given beyond decision requested - refer to original submission].	Seeks a permeability standard in the Medium Density Residential Zone requiring a minimum 30-40% of a site to be permeable (including permeable pavers / gravel etc).
Grant Buchan	143.20	Residential Zones / Medium Density Residential Zone / MRZ-S10	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Add a new permeability standard in the Medium Density Residential Zone requiring that a minimum 30-40% of sites should be permeable (including permeable pavers / gravel etc).
Braydon White	146.18	Residential Zones / Medium Density Residential Zone / MRZ-S10	Support	Supports requirement for permeability of 30-40% of the site.	Retain MRZ-S10 (Permeable surface area), such as that a minimum 30-40% of sites should be permeable (including permeable pavers / gravel etc).
Jill Ford	163.12	Residential Zones / Medium Density Residential Zone / MRZ-S10	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks a permeability standard requiring a minimum 30-40% of a site to be permeable (including permeable pavers / gravel etc).
Amos Mann	172.21	Residential Zones / Medium Density Residential Zone / MRZ-S10	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks a permeability standard in the Medium Density Residential Zone requiring a minimum 30-40% of a site to be permeable (including permeable pavers / gravel etc).
Patrick Wilkes	173.20	Residential Zones / Medium Density Residential Zone / MRZ-S10	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks a permeability standard in the Medium Density Residential Zone requiring a minimum 30-40% of a site to be permeable (including permeable pavers / gravel etc).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Pete Gent	179.15	Residential Zones / Medium Density Residential Zone / MRZ-S10	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks a permeability standard in the Medium Density Residential Zone requiring a minimum 30-40% of a site to be permeable (including permeable pavers / gravel etc).
James Harris	180.10	Residential Zones / Medium Density Residential Zone / MRZ-S10	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks a permeability standard in the Medium Density Residential Zone requiring a minimum 30-40% of a site to be permeable (including permeable pavers / gravel etc).
Peter Nunns	196.16	Residential Zones / Medium Density Residential Zone / MRZ-S10	Support in part	[No specific reason given beyond decision requested - refer to original submission].	Seeks a permeability standard in the Medium Density Residential Zone requiring a minimum 30-40% of a site to be permeable (including permeable pavers / gravel etc).
Richard W Keller	232.18	Residential Zones / Medium Density Residential Zone / MRZ-S10	Amend	[No specific reason given beyond decision requested - refer to original submission]	Amend MRZ-S10 (Permeable surface areas) to require a minimum of 30 – 40% permeability .
Gabriela Roque-Worcel	234.11	Residential Zones / Medium Density Residential Zone / MRZ-S10	Support in part	[No specific reason given beyond decision requested - refer to original submission].	Seeks a permeability standard in the Medium Density Residential Zone requiring a minimum 30-40% of a site to be permeable (including permeable pavers / gravel etc).
Wellington City Council	266.141	Residential Zones / Medium Density Residential Zone / MRZ-S10	Oppose in part	Considers that given this is not a building provision, but a three waters/infrastructure provision, it is more logical to locate this standard in the THW chapter. Note: MRZ-P9 (Permeable surface area) and MRZ-S10 (Permeable surface area) are to be relocated to THW – see new THW-P6 and THW-R7.	Delete MRZ-S10 (Permeable surface area) in its entirety. Consequential renumbering of standards MRZ-S11 and MRZ-S14 to reflect change in numbering. Consequential update to references in notification clauses as required.
Phillippa O'Connor	289.27	Residential Zones / Medium Density Residential Zone / MRZ-S10	Not specified	Considers that the definitions lead to unnecessary restriction on site layout and design as currently drafted.	Seeks clarity on the whether the permeable surface area standard MRZ-S10 (Permeable surface area) is inclusive of landscaped area.
Johanna Carter	296.19	Residential Zones / Medium Density Residential Zone / MRZ-S10	Amend	Considers that the MRZ rules one size fits approach does not adequately protect existing and future residents in the Medium Density Zone. [Refer to original submission for full reason]	Seeks that MRZ-S10 (Permeable surface area) is amended to adequately control the adverse impacts that will result from higher density development.
Retirement Villages Association of New Zealand Incorporated	350.145	Residential Zones / Medium Density Residential Zone / MRZ-S10	Support	Supports the exclusion of retirement villages from MRZ-S10.	Retain MRZ-S10 (Permeable surface area) as notified.
WCC Environmental Reference Group	377.359	Residential Zones / Medium Density Residential Zone / MRZ-S10	Support	Considers that MRZ-S10 will help to reduce the rate and amount of stormwater run off.	Retain MRZ-S10 (Permeable surface area) as notified.
Henry Bartholomew Nankivell Zwart	378.17	Residential Zones / Medium Density Residential Zone / MRZ-S10	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Add a new MRZ (Medium Density Residential Zone) permeability standard, such as that a minimum 30-40% of sites should be permeable (including permeable pavers / gravel etc).
Kāinga Ora Homes and Communities	391.418	Residential Zones / Medium Density Residential Zone / MRZ-S10	Support in part	MRZ-S10 is supported but an amendment is sought.	Retain MRZ-S10 (Permeable surface area) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.419	Residential Zones / Medium Density Residential Zone / MRZ-S10	Amend	Considers that MRZ-S10 should be amended so that that reference to multi-unit housing is deleted, as this concept is not supported.	Amend MRZ-S10 (Permeable surface area) as follows: ... This standard does not apply to: a. Multi-unit housing; and b. Retirement villages.
Matthew Tamati Reweti	394.16	Residential Zones / Medium Density Residential Zone / MRZ-S10	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Add a new MRZ permeability standard, such as that a minimum 30-40% of sites should be permeable (including permeable pavers / gravel etc).
David Cadman	398.15	Residential Zones / Medium Density Residential Zone / MRZ-S10	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Add a new MRZ permeability standard, such as that a minimum 30-40% of sites should be permeable (including permeable pavers / gravel etc).
Emma Osborne	410.11	Residential Zones / Medium Density Residential Zone / MRZ-S10	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks a permeability standard in the Medium Density Residential Zone requiring a minimum 30-40% of a site to be permeable (including permeable pavers / gravel etc).
Metlifecare Limited	413.39	Residential Zones / Medium Density Residential Zone / MRZ-S10	Support	The submitter states that no permeable surface area standard applies to retirement village development. This is appropriate as it will enable the efficient use of the site.	Retain MRZ-S10 (Permeable surface area) as notified.
Luke Stewart	422.11	Residential Zones / Medium Density Residential Zone / MRZ-S10	Support in part	[No specific reason given beyond decision requested - refer to original submission].	Seeks a permeability standard in the Medium Density Residential Zone requiring a minimum 30-40% of a site to be permeable (including permeable pavers / gravel etc).
Alicia Hall on behalf of Parents for Climate Aotearoa	472.17	Residential Zones / Medium Density Residential Zone / MRZ-S10	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks a permeability standard in the Medium Density Residential Zone requiring a minimum 30-40% of a site to be permeable (including permeable pavers / gravel etc).
Rod Halliday	25.32	Residential Zones / Medium Density Residential Zone / MRZ-S11	Amend	Considers that the maximum height of 2m for fences and standalone walls is too low.	Seeks that MRZ-S11.2.b (Fences and standalone walls) be amended to allow a fence to be 1.5m in height before the 50% visually transparency requirement applies.
Rod Halliday	25.33	Residential Zones / Medium Density Residential Zone / MRZ-S11	Amend	Considers that the maximum height for fences and standalone walls needs to specifically exclude retaining walls.	Seeks that MRZ-S11 (Fences and standalone walls) be amended to exclude retaining walls from maximum height limits of fences and standalone walls.
Fire and Emergency New Zealand	273.188	Residential Zones / Medium Density Residential Zone / MRZ-S11	Support in part	Considers it important that the erection of fences and walls will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Fences and walls should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ.FENZ therefore seeks an amendment to provide for this.	Supports MRZ-S11 (Fences and standalone walls), with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.189	Residential Zones / Medium Density Residential Zone / MRZ-S11	Amend	Considers it important that the erection of fences and walls will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Fences and walls should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. FENZ therefore seeks an amendment to provide for this.	Amend MRZ-S11 (Fences and standalone walls) as follows: 1. Any fence or standalone wall, or combination of these structures, must not exceed : a. <u>Exceed</u> a maximum height of 2m above ground level where within 1m of any side or rear boundary; b. <u>Obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut off valves, or other emergency response facilities.</u> 2. On a front boundary or in a front boundary setback any fence or standalone wall, or combination of these structures, must not exceed : a. <u>Exceed</u> a maximum height of 2m above ground level; and b. Any part of a fence or standalone wall above 1.2m in height must be 50% visually transparent for its entire length, as shown in Diagram 4 below. c. <u>Obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves, or other emergency response facilities.</u>
Johanna Carter	296.20	Residential Zones / Medium Density Residential Zone / MRZ-S11	Amend	Considers that the MRZ rules one size fits approach does not adequately protect existing and future residents in the Medium Density Zone. [Refer to original submission for full reason]	Seeks that MRZ-S11 (Fences and standalone walls) is amended to adequately control the adverse impacts that will result from higher density development.
Johanna Carter	296.21	Residential Zones / Medium Density Residential Zone / MRZ-S11	Amend	Considers that MRZ-S11 (Fences) needs to allow building along busy roads to prevent traffic noise.	Seeks amendment to MRZ-S11 (Fences and standalone walls) to allow for provision for close-board fences along busy roads.
Retirement Villages Association of New Zealand Incorporated	350.146	Residential Zones / Medium Density Residential Zone / MRZ-S11	Support in part	Supports the 2m height standard for fences/walls but considers an exclusion is required for temporary fences/walls e.g. for noise mitigation during construction.	Retain MRZ-S11 (Fences and standalone walls) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.147	Residential Zones / Medium Density Residential Zone / MRZ-S11	Amend	Supports the 2m height standard for fences/walls but considers an exclusion is required for temporary fences/walls e.g. for noise mitigation during construction.	Amend MRZ-S11 (Fences and standalone walls) to exclude temporary fences/walls from the standard.
WCC Environmental Reference Group	377.360	Residential Zones / Medium Density Residential Zone / MRZ-S11	Amend	Considers that solid fences of 2m in height detract from neighbourhood interactions, and create unsafe environments. Seeks that fences should be no higher than 1.2m in height at the street frontage. Add provision for 2m height where the height above 1.2m is 50% visually transparent on fences abutting public walkways.	Amend MRZ-S11 (Fences and standalone walls) to require fences on the front boundary are no greater than 1.2m in height.
WCC Environmental Reference Group	377.361	Residential Zones / Medium Density Residential Zone / MRZ-S11	Amend	Considers that solid fences of 2m in height detract from neighbourhood interactions, and create unsafe environments. Seeks that fences should be no higher than 1.2m in height at the street frontage. Add provision for 2m height where the height above 1.2m is 50% visually transparent on fences abutting public walkways.	Amend MRZ-S11 (Fences and standalone walls) to require that fences abutting a public walkway be no more than 2m in height with the area above 1.2m being 50% visually transparent.
Living Streets Aotearoa	482.55	Residential Zones / Medium Density Residential Zone / MRZ-S11	Oppose	Concerned that the height of fences at which they are allowed as permitted activities should be lowered. High fences that cannot be seen through, are a public space problem for safety reasons.	Seeks amendment to standard MRZ-S11 (Fences and Standalone walls).
Living Streets Aotearoa	482.56	Residential Zones / Medium Density Residential Zone / MRZ-S11	Amend	Concerned that the height of fences at which they are allowed as permitted activities should be lowered. High fences that cannot be seen through, are a public space problem for safety reasons.	Seeks that MRZ-S11 is amended so that the fences up to 1m can be built with any material along a boundary with public space, and where higher than 1 metre they must be of a material that allows pedestrians to see through it from the adjacent path.
Property Council New Zealand	338.11	Residential Zones / Medium Density Residential Zone / MRZ-S12	Amend	Considers that minimum unit sizes, coupled with increased height density, run the risk of buildings that are smaller in floor space but greater in height. The overall design outcome should be considered so that adverse design outcomes for small, skinny buildings with less total floor space be avoided.	Seeks that overall design outcomes be considered when setting minimum unit sizes in MRZ-S12 (Minimum residential unit size for multi-unit housing).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.420	Residential Zones / Medium Density Residential Zone / MRZ-S12	Support in part	MRZ-S12 is supported but an amendment is sought.	Retain MRZ-S12 (Minimum residential unit size for multi-unit housing) with amendment.
Kāinga Ora Homes and Communities	391.421	Residential Zones / Medium Density Residential Zone / MRZ-S12	Amend	Considers that MRZ-S12 should be amended to allow for smaller floor areas for studio units and for simplicity, a minimum floor area for 1 or bedrooms.	Amend MRZ-S12 (Minimum residential unit size for multi-unit housing) as follows: Residential Unit Type Minimum Net Floor Area a. Studio unit 35m² <u>30m²</u> 2. 1 or more bedroom unit 40m ² 3. 2+ bedroom unit 55m²
Metlifecare Limited	413.40	Residential Zones / Medium Density Residential Zone / MRZ-S12	Support	The submitter states these provisions apply to multi-unit housing, not retirement villages. This is supported. It appropriately recognises that retirement villages contain a range of different units, including dementia and care units and/or serviced apartment units which are generally smaller than residential units established in multi-unit housing developments, due to the nature of the residents and their particular needs.	Retain MRZ-S12 (Minimum residential unit size for multi-unit housing) as notified.
Willis Bond and Company Limited	416.71	Residential Zones / Medium Density Residential Zone / MRZ-S12	Oppose	Opposes MRZ-S12 as the submitter considers: - Minimum residential unit sizes restrict the ability for developers to provide affordable housing choices and a diverse range of housing. - Occupiers are well-equipped to make their own decisions as to the type and size of dwelling. - Health, fire egress and overcrowding issues that arise from small sized dwellings are best dealt with by other legislation (e.g. Building Act 2004, Housing Improvement Regulations 1947, Residential Tenancies Act 1986). - Minimum unit sizes are not required where there are three or fewer residential units on a site (in accordance with the medium density residential standards). The submitter considers it is inconsistent to then provide minimum unit sizes for multi-unit housing and will create perverse incentives for developers. - Minimum unit sizes do not reflect the policy in HRZ-P3 to provide a range of housing sizes.	Delete MRZ-S12 (Minimum residential unit size for multi-unit housing) in its entirety.
Rod Halliday	25.34	Residential Zones / Medium Density Residential Zone / MRZ-S13	Amend	Considers that communal space minimum area and dimensions would benefit from more clarification, namely a note section or an example. The assumption is that the minimum area of 10m ² is cumulative, but that the minimum dimensions remain 8m.	Clarify the intent of MRZ-S13 (Outdoor living space for multi-unit housing) by adding an example or a clarification note relating to communal space minimum area and dimensions.
Design Network Architecture Limited	259.2	Residential Zones / Medium Density Residential Zone / MRZ-S13	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Clarify MRZ-S13 (Outdoor living space for multi-unit housing) "Minimum Dimension" - so that for communal shared living spaces an 8m dimension is required at only one portion of the outdoor living space, with the other dimension able to be smaller than this. i.e. not an 8m x 8m space.
Design Network Architecture Limited	259.3	Residential Zones / Medium Density Residential Zone / MRZ-S13	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Seeks amendment to HRZ-S13 (Outdoor living space for multi-unit housing) to allow 10m ² minimum area to be achieved with alternative dimensions of 5m x 2m, or 3.2m x 3.2m.
Johanna Carter	296.22	Residential Zones / Medium Density Residential Zone / MRZ-S13	Amend	Considers that the MRZ rules one size fits approach does not adequately protect existing and future residents in the Medium Density Zone. [Refer to original submission for full reason]	Seeks that MRZ-S1 (Outdoor living space for multi-unit housing) is amended to adequately control the adverse impacts that will result from higher density development.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Rimu Architects Ltd	318.26	Residential Zones / Medium Density Residential Zone / MRZ-S13	Amend	<p>Considers that the outdoor living space for multi-unit housing in MRZ-S13 has large requirements. The requirement for only 10 square metres of communal outdoor living space per every 5 units fits oddly with both the much larger requirement per unit if the space is private and also the 8m minimum dimension requirement.</p> <p>An 8m x 8m area, would in theory be sufficient communal space for 30 residential units with 4 square metres 'spare' increasing the allowance 5 square metres (matching the studio/1 bedroom private allowance) would leave the minimum area as adequate for 12 residential units.</p> <p>There are also sites within this zone where the site width is less than 8m.</p>	<p>Amend MRZ-S13 (Outdoor living space for multi-unit housing) as follows:</p> <p>Living Space Type ... b. Communal i. For every 5 units <u>unit</u></p> <p>Minimum area - 40m² <u>5m²</u></p> <p>Minimum dimension - 8m <u>except where site width is less than 8m. In that situation an area the full width of the site and 8m deep is acceptable.</u></p>
WCC Environmental Reference Group	377.362	Residential Zones / Medium Density Residential Zone / MRZ-S13	Support	Considers that provision for outdoor living space is an important part of ensuring a healthy and pleasant environment for people living in higher density areas.	Retain MRZ-S13 (Outdoor living space for multi-unit housing) as notified.
Kāinga Ora Homes and Communities	391.422	Residential Zones / Medium Density Residential Zone / MRZ-S13	Oppose	Character Precincts are opposed, as well as all related Standards. It is sought that this Standard is deleted.	Replace MRZ-S6 (Outdoor living space (per unit)) with MRZ-S13 (Outdoor living space for multi-unit housing) and delete MRZ-S13 (Outdoor living space for multi-unit housing).
Metlifecare Limited	413.41	Residential Zones / Medium Density Residential Zone / MRZ-S13	Support	Considers that these provisions do not apply to retirement villages. This is supported. It is appropriate to recognise the needs of residents are different to those in a multi-unit housing development.	Retain MRZ-S13 (Outdoor living space for multiunit housing) as notified.
Johanna Carter	296.23	Residential Zones / Medium Density Residential Zone / MRZ-S14	Amend	<p>Considers that the MRZ rules one size fits approach does not adequately protect existing and future residents in the Medium Density Zone.</p> <p>[Refer to original submission for full reason]</p>	Seeks that MRZ-S14 (Outlook space for multi unit housing) is amended to adequately control the adverse impacts that will result from higher density development.
WCC Environmental Reference Group	377.363	Residential Zones / Medium Density Residential Zone / MRZ-S14	Support	Considers that provision for outdoor living space is an important part of ensuring a healthy and pleasant environment for people living in higher density areas.	Retain MRZ-S14 (Outlook space for multi-unit housing) as notified.
Kāinga Ora Homes and Communities	391.423	Residential Zones / Medium Density Residential Zone / MRZ-S14	Oppose	The submitter seeks that this standard replace MRZ-S7 as the level of outlook space proposed by this standard is appropriate for all sites not just sites developed with more than 3 residential units.	Replace MRZ-S7 (Outlook space (per unit)) with MRZ-S14 (Outlook space for multi-unit housing) and delete MRZ-S14 (Outlook space for multi-unit housing)
Metlifecare Limited	413.42	Residential Zones / Medium Density Residential Zone / MRZ-S14	Support	Considers that these provisions do not apply to retirement villages. This is supported. It is appropriate to recognise the needs of residents are different to those in a multi-unit housing development.	Retain MRZ-S12 (Outlook space for multi-unit housing) as notified.
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.33	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-S1	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain MRZ-PREC01-S1 (Fences and standalone walls) as notified.
Khoi Phan	326.28	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-S1	Amend	[No specific reason given beyond decision requested - refer to original submission].	<p>Amend MRZ-PREC01-S1 (Fences and standalone walls) as follows:</p> <p>1. Any fence or standalone wall, or combination of these structures, must not exceed a maximum height of 2m <u>1.5m</u> above ground level within 1m of any site boundary.</p> <p>Except that: a. Any fence or standalone wall, or combination of these structures along a road boundary, must not exceed a maximum height of 1m above ground level within 1m of the boundary.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.424	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-S1	Oppose	Character Precincts are opposed, as well as all related Standards. It is sought that this Standard is deleted.	Delete MRZ-PREC01-S1 (Fences and standalone walls) in its entirety.
Lucy Harper and Roger Pemberton	401.80	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-S1	Support	Supports the MRZ-PREC01-S1 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC01-S1 (Fences and standalone walls) as notified.
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.34	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-S2	Support	[No specific reason given beyond decision requested - refer back to original submission]	Retain MRZ-PREC01-S2 (Maximum height of an accessory building) as notified.
Kāinga Ora Homes and Communities	391.425	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-S2	Oppose	The Oriental Bay Height Precinct is opposed, as well as all related Standards. It is sought that this Standard is deleted.	Delete MRZ-PREC01-S2 (Maximum height of an accessory building) in its entirety.
Pukepuke Pari Residents Incorporated	FS37.11	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01-S2	Oppose	Opposes walkable catchment extension - limit of 10 mins on the walkable catchment is appropriate for Wellington and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. People's propensity to walk diminishes with distance. Particularly relevant if the catchment was increased to 15 minutes and the last 5 minutes was up a steep hill. Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay). Oppose review of the O' Bay Height precinct- The Oriental Bay Height Precinct provides protection for significant public amenity value, for all those who use the beach and Parade, representing a large part of the Wellington population. This Height Precinct was decided after careful review by the Environment Court in 1989 and all the considerations that were carefully laid out there are relevant here.	Disallow
Gareth and Joanne Morgan	FS38.5	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-S2	Oppose	Opposes elements of Kāinga Ora's submission that seek to amend, remove or rezone the Oriental Bay Height Precinct to High Density Residential Zone.	Disallow
Gareth and Joanne Morgan	FS38.27	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-S2	Oppose	Oppose those parts of Kāinga Ora's submission that seeks to amend, or remove the Character Precincts in Oriental Bay.	Disallow
Don MacKay	FS94.11	Part 3 / Residential Zones / Medium Density Residential Zone / MRZPREC01-S2	Oppose	Considers that walkable catchment extension opposed -see above in relation to Property Council. Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay). Oppose review of the O' Bay Height precinct- see our reasons re Waka Kotahi.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Lucy Harper and Roger Pemberton	401.81	Residential Zones / Medium Density Residential Zone / MRZ-PREC01-S2	Support	Supports the MRZ-PREC01-S2 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form. The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.	Retain MRZ-PREC01-S2 (Maximum height of an accessory building) as notified.
Waka Kotahi	370.317	Residential Zones / Medium Density Residential Zone / MRZ-PREC03-S1	Not specified	Takes a neutral position to standards that relate to the Oriental Bay Height Precinct.	Neutral position on Standard MRZ-PREC03-S1 (Boundary setbacks) and seeks to retain standard.
Waka Kotahi	370.318	Residential Zones / Medium Density Residential Zone / MRZ-PREC03-S1	Support	Standard MRZ-PREC03-S1 is generally supported.	Retain Standard MRZ-PREC03-S1 (Boundary setbacks) as notified.
Kāinga Ora Homes and Communities	391.426	Residential Zones / Medium Density Residential Zone / MRZ-PREC03-S1	Oppose	The Oriental Bay Height Precinct is opposed, as well as all related Standards. It is sought that this Standard is deleted.	Delete MRZ-PREC03-S1 (Boundary setbacks) in its entirety.
Pukepuke Pari Residents Incorporated	FS37.12	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC03-S1	Oppose	Opposes walkable catchment extension - limit of 10 mins on the walkable catchment is appropriate for Wellington and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. Residential - High Density Residential Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Lucy Harper and Roger Pemberton	401.87	Residential Zones / Medium Density Residential Zone / MRZ-PREC03-S6	Support	<p>Supports the MRZ-PREC03-S6 as the submitter considers that the provisions in the medium density chapter generally allow for more of the population to live close to city and work, to enable efficient public transport and to take advantage of the existing compact city form.</p> <p>The submitter supports the identification of character areas and considers the accompanying provisions enables the retention of Wellington's early development and city character while allowing for provision of housing.</p>	Retain MRZ-PREC03-S6 (Fences and standalone walls) as notified.
Abby and Amos Leota	27.2	Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>Opposes the zoning of the Northern Linden, Tawa area (from Coates street walkway back to Wall Park) as a High Density Residential Zone.</p> <p>Considers that the walking access of the Northern Linden, Tawa area (from Coates street walkway back to Wall Park) to basic amenities is poor. Linden Shops is over 800m (of hillside) walking distance and access to Keneperu Station is difficult.</p> <p>Considers that the two road entry/exit points (Coates Avenue and Handyside Street via Collins Ave) to service the Northern Linden, Tawa area (from Coates street walkway back to Wall Park) have poor visibility, are narrow, and only one side of both streets have a footpath.</p> <p>The Coates Avenue intersection has issues with the pedestrian crossing safety.</p> <p>Considers that the high-density rating of the Northern Linden, Tawa area (from Coates street walkway back to Wall Park) is inconsistent with other urban areas. Other locations in Linden which are within 5-10 minutes from a railway station are zoned differently e.g. Handyside Street with better access to amenities and the station and more suitable for high-density is 11m.</p>	Seeks that the northern Linden, Tawa area is rezoned to Medium Density Residential Area [Inferred decision requested].
Abby and Amos Leota	27.3	Residential Zones / High Density Residential Zone / General HRZ	Not specified	<p>Considers that there are no available provisions for additional Open Space zones in this proposed high density Northern Linden, Tawa area (from Coates street walkway back to Wall Park) apart from Wall Park which is on a hillside and adjacent to the new Kenepuru Link Road to Transmission Gully.</p> <p>This area is surrounded by the Kenepuru industrial area and Transmission Gully, impacting beautification, and increasing noise and air pollution.</p> <p>A lack of Open Space impacts the quality of life for residents.</p>	Not specified.
Gregory Webber	33.5	Residential Zones / High Density Residential Zone / General HRZ	Support in part	Not against higher density housing in Newtown in specific areas that have a lesser impact on surrounding residents.	Not specified.
Wellington's Character Charitable Trust	FS82.217	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Gregory Webber	33.6	Residential Zones / High Density Residential Zone / General HRZ	Not specified	Considers that there is a lack of specificity regarding existing residents' right to sunlight (on Green Street). This could adversely affect house values.	Not specified.
Wellington's Character Charitable Trust	FS82.218	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Greg Coyle	39.2	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that any building over two storeys will shade roof-top solar panels and make these useless. Therefore written approval should be required if development is occurring next to a site with solar panels.	Seeks that neighbours' approval is required for any development next to a site that has roof top solar panels.
Owen Watson	51.5	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that a 'transition zone' of at least one property wide be required between any Character Precinct border and a High Density Residential Zone.
Graham Mexted (No 2) Family Trust	66.2	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes HRZ zoning of 130 Main Road, Tawa. The building has been office space from the Tawa Borough Council use and rated commercially (rates & water) i.e. non-residential. It is currently used commercially as a cafe. At no time has the current owner used the building for residential use, as the Tawa Borough Council converted it into offices.	Rezone 130 Main Road, Tawa from High Density Residential Zone to Neighbourhood Centre Zone.
George North	67.1	Residential Zones / High Density Residential Zone / General HRZ	Support	Supports housing densification in Wellington. Urban sprawl costs the city far more than dense buildings due to bus lines, pipes and powerlines. The character of Wellington comes from the people, and the people are priced out and stressed from rent prices. Denser housing will allow a modern history to develop, rather than trapping Wellington in the past.	Retain High Density Residential Zone chapter as notified.
Judith Graykowski	80.6	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that HRZ new six-storey buildings will make existing neighbours' houses shadier, damper, less healthy, and unpleasant to live in.	Not specified.
Judith Graykowski	80.7	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that design requirements for multi-unit residential developments should be strengthened to future-proof buildings and provide for good community experience. Considers that the provisions for recession planes, privacy, outlook space and solar access (HRZ-S3, HRZ-S14, and HRZ-S15) are very limited and simply not adequate, given the buildings in the HRZ can go right to site boundaries.	Not specified.
Judith Graykowski	80.8	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that allowing 21 metres height to adjoin designated character areas could create towering buildings that dominate the neighbourhood.	Seeks that more of a transition zone is allowed for at the boundary of Character Precincts or Heritage Areas. [Inferred decision requested].
Aro Valley Community Council	87.36	Residential Zones / High Density Residential Zone / General HRZ	Not specified	Considers that the proposed HRZ zoning will counterintuitively slow down development in Aro Valley. [Refer to original submission for details]	Seeks that land zoned High Density Residential Zone is zoned Medium Density Residential Zone.

Generation Zero	FS54.40	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>For character areas, the central test is “other” qualifying matter under clause 3.33(3) of the NPS-UD, alongside the objectives and purpose of the NPS-UD. There is an extremely high bar to creating a character area. The reduction in development capacity must be justified against the national significance of urban development and the objectives of the NPS-UD. Cities are dynamic and changeable. Indeed Wellington underwent many built changes before the currently form was locked in place by modern zoning documents. New housing and residents are a positive to encourage, rather a negative to push out further or crowd into the remaining housing stock. It is significantly more climate friendly to allow denser housing in inner-suburbs, rather than displacing development into greenfields, even accounting for embodied carbon. Character areas are in inner-city suburbs which are highly connected to amenities and already have high-mode share of low emissions transport. This land is often the most resilient. More residents can be easily absorbed in these suburbs and will create a positive impact on that suburb. The counterfactual – the status quo – is that the best quality land in the city is locked away by wealthy residents who seek to preserve an unsustainable way of life and/or their property values. This causes reduced supply and higher prices, higher rents, lower quality, displacement of low-income residents, and pushes residents to worse locations with higher lifetime emissions. The development capacity lost through character areas is extremely weighty; only very ‘character’ of very high quality can be justified. It must also be a site-specific analysis; the current broadbrush suburb-by-suburb analysis in the current District Plan is not allowed. The approaches advocated by the submitters is erroneous under the NPS-UD and should be rejected. Submitters cannot point to individual streets or houses they subjectively find as ‘character’ as this does not meet the stringent evidential requirement of clause 3.33(3). Submitters cannot request to go back to the current District Plan character areas, as these are untenable under the new NPS-UD test. Submitters cannot point to the Boffa Miskel report and adopt its recommendation. The report was written before the enactment of the NPS-UD. And, crucially, this approach begs the question of how the report fits into the NPS-UD test in clause 3.33(3). The approach in the PDP, where only contiguous and coherent pockets of high-quality character are proposed, is legal under the NPS-UD.</p>	<p>Disallow / Disallow the submission in full to the extent that this relates to character areas or reducing the amount of enabled housing.</p> <p>Reject increasing character areas in the PDP.</p>
Aro Valley Community Council	87.37	Residential Zones / High Density Residential Zone / General HRZ	Amend	<p>Considers that 39 Palmer Street should be considered Character Precinct as it is contiguous with four cottages 32-38 Aro Street that are listed Heritage buildings. They were built on the same section and to the same plans in 1879 and not subdivided until 1925.</p> <p>Boffa Miskell Pre 1930 Review recommends research into Potential Historic Heritage and inclusion in areas of Contiguous Character.</p>	<p>Seeks that 39 Palmer Street be considered as being an area of Contiguous Character to Items 11.1, 11.2, 11.3 and 11.4 in SCHED1 - Heritage Buildings.</p>

Disallow / Disallow the submission in full to the extent that this relates to character areas or reducing the amount of enabled housing. Reject increasing character areas in the PDP.
M J & P B Murtagh	98.2	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes unregulated high rise development for Mount Victoria as defined as the suburb is already densely populated. Considers that 21m height limit is not a good idea. Considers that Mount Victoria is densely populated, has high vehicle traffic with lack of parking, and new zoning does not account for these factors. [See original submission for further detail]	Seeks that high rise development in Mount Victoria is more strictly regulated.
Tawa Business Group	107.17	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes the zoning of 130 Main Road, Tawa as High Density Residential. [Refer to original submission for full reasons].	Rezone 130 Main Road, Tawa from High Density Residential Zone to Neighbourhood Centre Zone.
Dennis Michael Hunt	119.1	Residential Zones / High Density Residential Zone / General HRZ	Not specified	Considers that allowing 21m high buildings to be built on smallish sites in the HRZ block of properties between Aurora Terrace, Bolton Street, the Urban Motorway, and Wesley Road could destroy the ambience of this area and would be short-sighted.	Seeks that 21m high buildings on small isolated sites should not be allowed in the HRZ (High Density Residential Zone) block of properties between Aurora Terrace, Bolton Street, the Urban Motorway, and Wesley Road while refined design concepts are still being established. [Inferred decision requested].

Dennis Michael Hunt	119.2	Residential Zones / High Density Residential Zone / General HRZ	Not specified	<p>Considers that the HRZ block of properties between Aurora Terrace, Bolton Street, the Urban Motorway, and Wesley Road would suit apartment style living for students and city workers generally without children (because of the steep terrain).</p> <p>Sun and park-like areas should be prioritised and that exposed decks at higher levels in apartment buildings are not often used primarily due to wind.</p> <p>The steep terrain is advantageous for the creation of sheltered, sunny outdoor areas but would still require at least 30 metres between six-storey apartment blocks on the north east facing slope.</p>	Seeks that a well-thought out vision is developed for accommodation which acknowledges densification and emphasizes design refinement in the HRZ block of properties between Aurora Terrace, Bolton Street, the Urban Motorway, and Wesley Road.
Zoe Ogilvie-Burns	131.10	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone is more enabling of small-scale public-facing commercial activities.
Anne Lian	132.13	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone is more enabling of small-scale public-facing commercial activities.
Ingo Schommer	133.12	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone is more enabling of small-scale public-facing commercial activities.
Olivier Reuland	134.15	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the HRZ is more enabling of small-scale public-facing commercial activities.
Grant Buchan	143.21	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone is more enabling of small-scale public-facing commercial activities.
Braydon White	146.19	Residential Zones / High Density Residential Zone / General HRZ	Amend	Wants to see the zone more enabling of small-scale public-facing commercial activities.	Seeks that the HRZ (High Density Residential Zone) is more enabling of small-scale public-facing commercial activities.
Cameron Vannisselroy	157.14	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the HRZ (High Density Residential Zone) is more enabling of small-scale public-facing commercial activities.
Jocelyn Brandon	158.3	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes the proposal to allow greater intensification in the lower Kelburn area.	<p>Seeks that greater intensification is not enabled in the lower Kelburn area.</p> <p>[Inferred decision requested].</p>
Jill Ford	163.13	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the HRZ (High Density Residential Zone) is more enabling of small-scale public-facing commercial activities.
Amos Mann	172.22	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone is more enabling of small-scale public-facing commercial activities.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Patrick Wilkes	173.21	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone is more enabling of small-scale public-facing commercial activities.
Pete Gent	179.16	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone is more enabling of small-scale public-facing commercial activities.
Dennis Foot	193.2	Residential Zones / High Density Residential Zone / General HRZ	Not specified	Considers that there are many available sites for intensive high rise housing should be located on Te Aro flat and main transport routes.	Seeks that intensive high density residential housing should be located on Te Aro flat and main transport routes.
Michael O'Rourke	194.8	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the Government and main opposition party have mandated MRZ changes to the District Plan to reduce the amount of land zoned for High Density Residential Housing.	Seeks that the amount of land proposed as high density residential outside the CBD and rapid transit hubs, should be decreased.
Michael O'Rourke	194.9	Residential Zones / High Density Residential Zone / General HRZ	Amend	Opposes the strip south of the Basin Reserve up Adelaide Road to John Street being zoned as CCZ. Notes that by various measures, including the Wellington Regional Council City Zone for public transport ending at the Basin, this area is not the CBD. [Refer to original submission for full detail].	Amend the mapping to rezone the Adelaide Road spine as High Density Residential Zone.
Michael O'Rourke	194.10	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes the amount of land in Newtown zoned as HRZ. Considers that the premise of making most of Newtown high density is that it is 10 minutes walk from the CBD - which is false.	Seeks that the amount of land proposed as high density residential in Newtown, especially more than 10 or 15 minutes from the CBD, should be decreased.
Michael O'Rourke	194.11	Residential Zones / High Density Residential Zone / General HRZ	Not specified	Considers that HRZ four storey or 21m high buildings will negate most of the liveability rules about outdoor space, glazing, boundaries, sun angle boundary heights and site coverage. Considers that we need to minimise the spread of individual high rise building pockets. [Inferred reason given].	Seeks that high rise buildings are concentrated in zones already high (the CBD and faded warehouse spine in lower Adelaide Road).
Michael O'Rourke	194.12	Residential Zones / High Density Residential Zone / General HRZ	Not specified	Considers that HRZ buildings will require non-renewable materials, result in total de-vegetation of sites, and no requirement for an outdoor space to dry washing means that dryers will be needed all year round.	Not specified.
Michael O'Rourke	194.13	Residential Zones / High Density Residential Zone / General HRZ	Not specified	Considers that HRZ buildings will cause shading issues and unhealthy homes for those living to the south of these monoliths.	Not specified.
Michael O'Rourke	194.14	Residential Zones / High Density Residential Zone / General HRZ	Not specified	Considers that HRZ buildings will steal the investment of those who have installed solar panels on their roof.	Not specified.
Michael O'Rourke	194.15	Residential Zones / High Density Residential Zone / General HRZ	Not specified	Considers that replacing existing homes with HRZ studios, one to two bedroom apartments, can drive families out of neighbourhoods. [Refer to original submission for full reasons].	Not specified.
Peter Nunns	196.17	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone is more enabling of small-scale public-facing commercial activities.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Andrew Flanagan	198.14	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density is more enabling of small-scale public-facing commercial activities.
Antony Kitchener and Simin Littschwager	199.11	Residential Zones / High Density Residential Zone / General HRZ	Not specified	Considers that given the very real possibility of a developer building a six-storey high residential only one metre from the property boundary, the submitter asks how will WCC compensate neighbouring properties.	Seeks that the Council clarifies how it will compensate neighbouring properties of six-storey developments for the loss of light, privacy, increased noise, and investments that depend on sunshine hours.
Kim McGuinness, Andrew Cameron, Simon Bachler, Deb Hendry, Penny Evans, Stephen Evens, David Wilcox, Mary Vaughan Roberts, Siva Naguleswaran, Mohammed Talim, Ben Sutherland, Atul Patel, Lewis Roney Yip, Sarah Collier Jaggard	204.12	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes the area between Adelaide Road, Stoke Street and Kenwyn Terrace being zoned as High Density Residential Zone.	Seeks that the area between Adelaide Road, Stoke Street and Kenwyn Terrace is all zoned as Medium Density Residential Zone.
Claire Nolan, James Fraser, Margaret Franken, Bidy Bunzel, Michelle Wooland, Lee Muir	FS68.16	Residential Zones / High Density Residential Zone / General HRZ	Support	Not specified.	Allow
Russell Taylor	224.3	Residential Zones / High Density Residential Zone / General HRZ	Oppose	[No specific reason given beyond decision requested - refer to original submission]	Remove the High Density Residential Zone from the south side hillside of Aro Valley.
Keith Clement	231.1	Residential Zones / High Density Residential Zone / General HRZ	Amend	<p>Considers that the NPS-UD which is flawed in the it fails to address local circumstance, history, nuance and need.</p> <p>Zoning by height is incompatible and indeed contradictory to the many controls employed over the last fifty years. The HRZ (21m) is at odds with the fine grained largely low rise existing in central city Character Areas. The use of this control requires to be set aside for reconsideration.</p> <p>A 45degree SAP from a 21m high building will cast a shadow to the footpath on the opposite side of the street, all year. This is negative to the public space and amenity and would mean that when the area is fully redeveloped under this proposed control the entire length of the street will be in shade for most of the day, all year.</p> <p>Six storey buildings are a lot more expensive to build (concrete and steel) and operate (lifts and BA Schedule systems) than walk-up town-houses.</p> <p>[Refer to original submission for full reason]</p>	<p>Seeks that the PDP replaces the HRZ (High Density Residential Zone) with MRZ (Medium Density Residential Zone) wherever possible.</p> <p>[Inferred decision requested]</p>
Richard W Keller	232.19	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that a standard is added requiring that developments adequately accommodate active travel as the building users' first-best choice for accessing it.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Richard W Keller	232.20	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that universal accessibility is required for all residential development in the HRZ (High Density Residential Zone).
Richard W Keller	232.21	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the HRZ (High Density Residential Zone) is amended to be more enabling of small-scale public-facing commercial activities.
Gabriela Roque-Worcel	234.12	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it.	Seeks that a new standard is added requiring that developments in the High Density Residential Zone adequately accommodate active travel as the building users' first-best choice for accessing it.
Gabriela Roque-Worcel	234.13	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the HRZ is more enabling of small-scale public-facing commercial activities.
Victoria Stace	235.5	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the Hay Street Extension is not within a 10 minute walking Catchment from the City Centre. All of the properties along the extension have qualifying matters under P3.32 of the NPS-UD. The topography, safety issues, and impracticality make this area unsuitable for HRZ (High Density Residential Zone). [Refer to original submission for full reason]	If the PDP is amended to extend walkable catchment beyond 10 minutes: Retain Hay Street Extension as notified (As Medium Density Residential Zone).
Escape Investments Limited	FS136.84	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Disagrees that changing the zoning of Hay Street to HRZ would result in unstable developments going ahead as a resource consent process will deal with this. [See original Further Submission for the full reasoning].	Disallow
Regan Dooley	239.11	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it, with universal accessibility as a non-negotiable.	Seeks that a new standard is added requiring that HRZ (High density residential zone) developments should adequately accommodate active and public transport as the building users' first-best choice for accessing it, with universal accessibility as a non-negotiable.
Ara Poutama Aotearoa the Department of Corrections	240.16	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Considers that the definition of "residential activity" entirely captures supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama, and therefore a separate definition of "supported residential care activities" is unnecessary.	Remove the references to "supported residential care activity" from the High Density Residential zone.
Kāinga Ora – Homes and Communities	FS89.8	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Kāinga Ora opposes the deletion of this definition as it is uncertain how the deletion of the definition would affect existing activities that fall within this definition.	Disallow
Pauletta Wilson	257.4	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes the Mt Cook area being zoned as High Density Residential Zone.	Seeks that the Mt Cook Area be rezoned as Medium Density Residential Zone with the 11m Height Control Area.
Wellington City Council	266.142	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers the introduction to the chapter needs to be amended to include reference to inundation areas as a qualifying matter.	Amend paragraph 5 of the High Density Residential Zone Introduction as follows: <ul style="list-style-type: none"> Stream corridors, and overland flow paths <u>and</u> <u>inundation areas</u> (refer to Natural Hazards Chapter). Note – for changes to the HRZ chapter, refer to the attached annotated version of the chapter.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora – Homes and Communities	FS89.106	Part 3 / Residential Zones / Medium Density Residential Zone / General HRZ	Oppose	Kāinga Ora opposes this submission, noting that inundation areas are managed by other rules so therefore do not necessarily need to be included as qualifying matters.	Disallow
Mary Sullivan	277.2	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes High Density Residential Zoning in the Prospect Terrace, Woodland Road, and the up-hill section of Frankmoore Avenue area. Considers that the area includes areas which are difficult to access on foot by most people, particularly elderly and people with young children or disabilities. Some of the area zoned as High density is up steep hills, with narrow roads, and have either no footpaths or footpaths on one side only. They are not therefore suitable for high density developments.	Opposes High Density Residential Zoning in the Prospect Terrace, Woodland Road, and the up-hill section of Frankmoore Avenue area.
Eldin Family Trust	287.6	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes zoning of Selwyn Terrace (and the nearby areas of Hill Street and Guildford Terrace) in the High Density Residential Zone (as alternative to City Centre Zone) due to the height limits this would permit. [Refer to original submission for full reason]	Opposes zoning of Selwyn Terrace (and the nearby areas of Hill Street and Guildford Terrace) in the High Density Residential Zone (as alternative to City Centre Zone). [Inferred decision requested]
Priscilla Williams	293.6	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Considers that the hilly terrain makes this area unsuitable for high rise building.	Opposes the HRZ (High Density Residential Zone) that spans across Wesley Road, Aurora Terrace and Bolton Street. [Inferred Decision Requested]
Paihikara Ki Pōneke Cycle Wellington	302.42	Residential Zones / High Density Residential Zone / General HRZ	Oppose in part	Considers that HRZ standards should be amended to require cycle and micromobility parking and charging for residents that is sufficient to meet future demand aligned with 80% of people making some trips per week by cycle. Multi-unit housing should provide adequate and appropriately located cycle and micromobility parking that meets the standards set out in the Transport chapter of the PDP.	Opposes standards in the 'High Density Residential Zone' chapter and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.200	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Not specified	The RVA does not oppose these submission point in principle, but due to the age and frequency of mobility constraints amongst retirement village residents, The RVA considers that the changes sought should not apply to retirement villages.	Amend / Allow submission points, subject to excluding retirement villages form the application of the new provisions.
Ryman Healthcare Limited	FS128.200	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Not specified	Ryman does not oppose these submission point in principle, but due to the age and frequency of mobility constraints amongst retirement village residents, Ryman considers that the changes sought should not apply to retirement villages.	Amend / Allow submission points, subject to excluding retirement villages form the application of the new provisions.
Paihikara Ki Pōneke Cycle Wellington	302.43	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that HRZ standards should be amended to require cycle and micromobility parking and charging for residents that is sufficient to meet future demand aligned with 80% of people making some trips per week by cycle. Multi-unit housing should provide adequate and appropriately located cycle and micromobility parking that meets the standards set out in the Transport chapter of the PDP.	Amend standards in the 'High Density Residential Zone' chapter to require cycle and micromobility parking and charging for residents that is sufficient to meet future demand aligned with 80% of people making some trips per week by cycle.
The Retirement Villages Association of New Zealand Incorporated	FS126.201	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Not specified	The RVA does not oppose these submission point in principle, but due to the age and frequency of mobility constraints amongst retirement village residents, The RVA considers that the changes sought should not apply to retirement villages.	Amend / Allow submission points, subject to excluding retirement villages form the application of the new provisions.
Ryman Healthcare Limited	FS128.201	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Not specified	Ryman does not oppose these submission point in principle, but due to the age and frequency of mobility constraints amongst retirement village residents, Ryman considers that the changes sought should not apply to retirement villages.	Amend / Allow submission points, subject to excluding retirement villages form the application of the new provisions.
Roland Sapsford	305.46	Residential Zones / High Density Residential Zone / General HRZ	Not specified	Considers that the 10 minute walkable catchments have resulted in parts of Aro Valley being zoned HRZ, when this is not appropriate for this suburb. [Refer to original submission for details]	Seeks that further consideration is given to the unique characteristics of Aro Valley. [Inferred decision sought]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Roland Sapsford	305.47	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the site to the North of Aro Park being zoned HRZ allows development of a 6-storey building which would significantly reduce daytime sunlight on the park in the cooler months of the year.	Seeks that the site to the north of Aro Park not be classified as High Density Residential Zone. [Inferred decision requested]
Roland Sapsford	305.48	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the District Plan should better identify and protect areas of existing green space from partial or complete loss within High Density Residential Zones.	Seeks that the District Plan be amended to better identify and protect areas of existing green space from partial or complete loss within High Density Residential Zones.
Roland Sapsford	305.49	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that six-storey buildings should not be allowed on Aro Street. Most of Aro Street, as well as Adams Terrace and lower Durham Street, are zoned for at least six storeys, with the exception of some heritage-listed buildings. While six storeys may be appropriate for structures tucked into the escarpment below Landcross Street or Durham Street, one poorly-placed building fronting Aro Street could have catastrophic effects on winter sunlight for many dwellings, including a large amount of recent infill housing.	Seeks that all High Density Residential Zones be removed from Aro Street. [Inferred decision requested]
Roland Sapsford	305.50	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that six-storey buildings should not be allowed on Aro Street. Most of Aro Street, as well as Adams Terrace and lower Durham Street, are zoned for at least six storeys, with the exception of some heritage-listed buildings. While six storeys may be appropriate for structures tucked into the escarpment below Landcross Street or Durham Street, one poorly-placed building fronting Aro Street could have catastrophic effects on winter sunlight for many dwellings, including a large amount of recent infill housing.	Seeks that all High Density Residential Zones fronting Aro Street be removed from Durham Street. [Inferred decision requested]
Roland Sapsford	305.51	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the objectives and rules relating to High Density Residential area need modification so as to provide a far more nuanced and careful consideration of issues such as light, shading, wind, privacy, design quality, retention of green areas, character and heritage.	Seeks that the High Density Residential Zone chapter be amended to provide more careful consideration to issues such as light, shading, wind, privacy, design quality, retention of green areas, character and heritage.
Roland Sapsford	305.52	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the objectives and rules relating to High Density Residential area need modification so as to provide for enhanced sunlight access to outdoor and indoor living areas, the addition and extension of new green space to balance increased residential densities, and take a more sophisticated and nuanced approach to design guidance.	Seeks that the High Density Residential Zone chapter be amended to provide for enhanced sunlight access to outdoor and indoor living areas, the addition and extension of new green space to balance increased residential densities, and take a more sophisticated and nuanced approach to design guidance.
Roland Sapsford	305.53	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the vacant site North of 95A Aro Street being zoned HRZ would cause loss of sunlight and negative impacts on the wellbeing of residents of the Argo Trust. The Argo Trust provides a residential and vocational service for six men and women with profound physical and intellectual disabilities. Permanent residents of the Argo Trust have north-facing bedrooms overlooking the vacant site. The vacant site will be zoned for at least six storeys and may cast shade across their home and external spaces.	Seeks that 95 Aro Street not be classified as High Density Residential Zone. [Inferred decision requested]
Roland Sapsford	305.54	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that properties immediately to the East of 95A Aro Street being zoned HRZ would cause loss of sunlight and negative impacts on the wellbeing of residents of the Argo Trust. The Argo Trust provides a residential and vocational service for six men and women with profound physical and intellectual disabilities. Permanent residents of the Argo Trust have north-facing bedrooms overlooking the vacant site. The vacant site will be zoned for at least six storeys and may cast shade across their home and external spaces.	Seeks that properties immediately to the East of 95A Aro Street not be classified as High Density Residential Zone. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Roland Sapsford	305.55	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the objectives and rules relating to High Density Residential area need modification so as to retain the capacity within Aro Valley for site-by-site consideration of each development by ensuring that most developments triggers the need for a resource consent, as is currently the case.	Seeks that the High Density Residential Zone chapter be amended to require resource consents for new developments in Aro Valley.
Roland Sapsford	305.56	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the objectives and rules relating to High Density Residential area need modification so as to develop location specific design guides and relevant standards to enable a more granular approach to local character. Standards should include access to sunlight and shade, the maintenance of personal privacy, the variety and location of green spaces, the location and scale of exterior space and development, the control of heat island effects and the look and feel of the streets we inhabit.	Seeks that the High Density Residential Zone chapter be amended to include location specific design guides and standards to enable a more granular approach to local character.
Roland Sapsford	305.57	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone standards for height limit, site coverage, height in relation to boundary and side and rear yard setbacks so as to require resource consents where new developments have a more than minor impact on local character, sunlight, shading and outdoor recreation space.
Roland Sapsford	305.58	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone chapter be amended to require resource consents related to the location of buildings on sites and issues of personal privacy and shading within and between multiple developments on a single site so to enable management of these design quality issues.
Roland Sapsford	305.59	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the objectives and rules relating to High Density Residential area need modification so as to retain existing provisions relating to minimum sunlight in the Operative Plan rather than replace them with the minimum daylight provisions of the proposed Plan.	Seeks that the High Density Residential Zone chapter be amended to retain existing provisions relating to minimum sunlight in the Operative Plan.
Roland Sapsford	305.60	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone chapter be amended to identify underutilised sites and locations within Aro Valley that are not subject to demolition controls and are suitable for intensification within the existing character areas (as defined in the Operative Plan).
Roland Sapsford	305.61	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone chapter be amended to identify sites and areas within Aro Valley where more intensive development could occur without adverse effects on sunlight, privacy, heritage and local character.
Roland Sapsford	305.62	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that objectives and rules relating to the HRZ chapter as they relate to Aro valley should clearly identify community-based planning for intensification as a method for increasing housing supply within areas subject to the revised demolition controls set out above, and provide for this planning to occur so as to be complete prior to significant infrastructure investment.	Seeks that community-based planning be identified prior to infrastructure investments in the High Density Residential chapter.
Svend Heeselholt Henne Hansen	308.8	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it.	Seeks that a new standard is added requiring that developments in the High Density Residential Zone adequately accommodate active travel as the building users' first-best choice for accessing it.
Svend Heeselholt Henne Hansen	308.9	Residential Zones / High Density Residential Zone / General HRZ	Amend	Wants to see the zone more enabling of small-scale public-facing commercial activities.	Seeks that the High Density Residential Zone is more enabling of small-scale public-facing commercial activities.
Lisa Nickson, Garrick Northover and Warren Sakey	313.3	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Considers that HRZ developments will create civil disobedience in the area.	Opposes zoning of Aro Street as High Density Residential Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Lisa Nickson, Garrick Northover and Warren Sakey	313.4	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the inclusion of Aro Street in the high density residential zone will achieve the opposite of a healthy, safe, and attractive living environment, and in fact undermine those objectives in this area.	Seeks that Aro Street not be zoned a High Density Residential Zone.
Penelope Borland	317.20	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that Mount Victoria should not be zoned HRZ, as 6-storey intensification is too much for Mt. Victoria. High density in this area will adversely affect the liveability and sense of place of both Mount Victoria and Wellington's overall identity. High density in Mount Victoria is also unnecessary for housing capacity and will lead to the loss of valuable historic heritage and character that is a part of the city's story and identity.	Seeks that Mount Victoria not be zoned High Density Residential Zone.
Penelope Borland	317.21	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that a 21m building at the top of Majoribanks Street, on Hawker, Earl's Terrace or Stafford Street would negatively impact light for many neighbours, have dramatic wind effects in extreme wind zones, massively impact the neighbourhood character, and stretch constrained infrastructure including roads, parking and other amenities.	Seeks that Majoribanks Street, Hawker, Earl's Terrace and Stafford Street not have 21m building height limits.
Richard Murcott	322.24	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Considers that the Housing and Business Land Capacity Assessment established that the demand was for 2-3 storey townhouses, not 6 storey blocks. The greatest unmet demand overall in the city will be in terrace housing, which makes 6-storey zoning in the city unnecessary.	Opposes 6-storey housing developments under High Density Residential Zoning in the inner city.
Thorndon Residents' Association Inc	FS69.56	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Richard Murcott	322.25	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that wind should be included as a qualifying matter, rule or standard to address any hazard/safety issues that can arise from 6-storey or higher developments. Wind can have adverse impacts on adjacent areas, properties and streets, which should be avoided. Such rules may be particularly pertinent in transition areas between low-rise zones and more permissive height zones, such as the Thorndon flat. [Refer to original submission for full reason]	Seeks that wind be taken into account as a potential safety hazard linked with High Density Residential Zone developments.
Thorndon Residents' Association Inc	FS69.57	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Khoi Phan	326.29	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the inner suburb of Mt Victoria, Mt Cook, Te Aro and Kelburn should be classified as High Density Residential Zones.	Seeks that Mt Victoria, Mt Cook, Te Aro and Kelburn be classified as High Density Residential Zones.
Mt Cook Mobilised	331.14	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that six-storey development in Mount Cook should be focused along the semi-industrial zones near Adelaide Road and in the Arlington to Hankey Street block abutting the City Centre Zone, as these sites are well suited to high-density development.	Seeks that High Density Residential Zones in Mount Cook be localised along the semi-industrial zones near Adelaide Road and in the Arlington to Hankey Street block abutting the City Centre Zone.
Kāinga Ora – Homes and Communities	FS89.101	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Kāinga Ora opposes this submission as this not consistent with the outcomes sought by the NPS-UD.	Disallow
Mt Cook Mobilised	331.15	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that multi-unit dwellings are an important aspect of Mt Cook and should have strong environmental and sustainable living provisions. In particular, the impacts of living more sustainably in apartments needs to incorporate provision for waste management such as composting, emergency provisions such as water storage, and access to green spaces and common areas for wellbeing, mental health and dog-walking. Rooftop gardens, pocket parks, well-designed foyers and hallways provide spaces for informal interaction which are important for living well together in an apartment community.	Seeks that provisions on sustainable living be created for multi-unit dwellings in Mount Cook.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Tina Reid	341.2	Residential Zones / High Density Residential Zone / General HRZ	Amend	Support the majority of the Mt Cook area as high density would destroy the pre-1930 character of the area, and believe that intensification of housing can happen in much more harmonious ways.	Seeks that the majority of Mt Cook area not be zoned High Density Residential Zone.
Mt Victoria Residents' Association	342.27	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that four to six-storey buildings in Mount Victoria, aside from Kent Terrace, will be out of scale with the surrounding dwellings. These areas should be redefined for residential and business purposes.	Seeks that Mount Victoria be rezoned from High Density Residential Zone to Medium Density Residential Zone.
Greater Wellington Regional Council	351.256	Residential Zones / High Density Residential Zone / General HRZ	Support in part	Supports well-planned intensification within the existing urban footprint in appropriate areas that are not subject to a qualifying matter. This approach is consistent with Policy 31 of Proposed RPS Change 1.	Retain chapter, subject to amendments, as outlined in other submission points.
Greater Wellington Regional Council	351.257	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that for the provisions of the zone to contribute to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1. This includes (but is not limited to) urban areas that are climate resilient, contribute to the protection of the natural environment and transition to a low-emission region, are compact and well connected, support housing affordability and choice, and enable Māori to express their cultural and traditional norms.	Seeks to ensure the Medium Density Residential Zone provisions have regard to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1, by including necessary objectives, policies, permitted standards and rules that provide for these qualities and characteristics.
Lower Kelburn Neighbourhood Group	356.9	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the need for affordable housing will not be met by demolishing well-functioning pre-1930s inner suburban housing and replacing it with 6-storey apartment blocks. Considers that this will rip apart the fabric of established neighbourhoods, while severely disrupting the lives of many who will no longer be able to afford to live there or whose homes are downgraded. Considers that developers and wealthy property investors will maximise their profits by building luxurious rental complexes at the expense of residents. Notes that this has happened overseas. The submitter states that the goal should be to strengthen the cohesion of the whole community by providing sufficient well-designed and affordable and social housing in the many underdeveloped and derelict areas of the city and its near surrounds. [Refer to original submission for full reason]	Seeks that more well-designed affordable and social housing be provided in the many underdeveloped and derelict areas of the city and its near surrounds
Lower Kelburn Neighbourhood Group	356.10	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that high density housing in inner suburbs should be reduced and re-assessed. Notes that the recent Housing and Business Land Capacity Assessment (HBA) Update undermines the need to expose quality older homes to the random threat of demolition. The submitter understands that the report concluded that Wellington's capacity was already in place in the earlier District Plan to meet the inner-city demand for apartment buildings until 2051. The demand, as described in this Report, is for low-rise town houses which is entirely compatible with retaining the older inner-city houses of our city.	Seeks that High Density Residential Zones be reduced and re-assessed according to the Housing and Business Land Capacity Assessment (HBA).
Lower Kelburn Neighbourhood Group	356.11	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that high rise apartment blocks in inner suburbs should be carefully selected. These buildings must be well regulated and subject to rules that avoid increasing the risks of dampness, cold, lack of sunshine and lack of privacy in adjacent homes. They should not be zoned in broad-bush areas. [Refer to original submission for full reason, including attachments]	Seeks that High Density Residential Zones in inner suburbs be carefully and appropriately selected.
Lower Kelburn Neighbourhood Group	356.12	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that Character Housing and Areas should be listed as Qualifying Matters limiting 6-storey heights in High Density Residential Zones.	Seeks that character be a qualifying matter in High Density Residential Zones.
Kāinga Ora – Homes and Communities	FS89.93	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Kāinga Ora opposes this submission and its impacts on the supply of a variety of housing choices and typologies in Wellington.	Disallow
Lower Kelburn Neighbourhood Group	356.13	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that sunshine access and privacy should be considered as Qualifying Matters when considering the suitability of sites for 6-story blocks.	Seeks that sunshine and privacy be treated as Qualifying Matters in High Density Residential Zones.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora – Homes and Communities	FS89.94	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Kāinga Ora opposes this submission and its impacts on the supply of a variety of housing choices and typologies in Wellington.	Disallow
Z Energy Limited	361.18	Residential Zones / High Density Residential Zone / General HRZ	Support in part	The HRZ chapter is partially supported, granted HRZ-P6 (Multi unit housing) is amended to require consideration of reverse sensitivity effects. This policies i a matter of discretion for multi-unit housing (i.e. more than 3 dwellings per site) in the HRZ.	Retain the High Density Residential Zone chapter with amendment.
Kāinga Ora – Homes and Communities	FS89.154	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Kāinga Ora opposes the decision sought relating to recognition of reverse sensitivity in policies and matters of discretion due to potential impacts on residential intensification.	Disallow
Josephine Brien / Tim Bollinger	365.4	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the High Density zoning of all addresses adjacent to the open Community Centre grounds and the community recreational area on Aro Street is inappropriate for the requirements of this well-used inner city community area, that includes a basket ball court and a pedestrian cycle access way through the park to the top of Palmer street and into Wellington city. This is most likely an accident and should be corrected, as sunlight needs to reach the park.	Seeks that properties on Palmer street adjacent to the Aro Valley Cottages Heritage Area be rezoned from High Density Residential Zone to Medium Density Residential Zone.
Waka Kotahi	370.323	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Considers he NPS-UD requires councils to enable buildings of at least 6 storeys within at least a walkable catchment of existing and planned rapid transit stops, the edge of city centre zones, and the edge of metropolitan centre zones, with building heights and densities of urban form commensurate with the level of commercial activity and community services in other centre zones. As many centres as possible should be up-zoned to the fullest extent possible to provide for local services for people who will be living in the walkable catchments. [See original submission for full reasons].	Seeks that the provisions in the High Density residential zone should be amended to enable higher densities to better align with the NPS-UD. Recommend that greater building heights are enabled – to provide for densities that are commensurate to the services available. Waka Kotahi considers this is best determined by an assessment undertaken by Wellington Council to determine what densities are commensurate in different areas across the district, or otherwise the following maximum building heights are included: - Maximum of six storeys in a walkable catchment of local centre zones - Maximum of twelve storeys in a walkable catchment of city centre, metropolitan centre zones and within a walkable catchment of existing and planned rapid transit stops.
Wellington's Character Charitable Trust	FS82.145	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Considers the proposed increases in heights are more enabling than NPS-UD requirements without justification.	Disallow
Kāinga Ora – Homes and Communities	FS89.21	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Support	Kāinga Ora supports the enabling of higher densities within the High Density residential zone and greater building heights, to the extent consistent with Kāinga Ora primary submission. Kāinga Ora supports subsequent and associated submission points from Waka Kotahi in respect of increased density and greater building heights.	Allow / Seeks that the submission is allowed where it is consistent with the Kāinga Ora primary submission.
LIVE WELLington	FS96.90	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Proposed increases in heights are more enabling than NPS-UD requirements without justification.	Disallow
Waka Kotahi	370.324	Residential Zones / High Density Residential Zone / General HRZ	Support in part	Supports the direction to enable a range of housing types and densities in the High Density residential Zone.	Retain the High Density Residential Zone, with amendments.
Waka Kotahi	370.325	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that enabling up to twelve stories is appropriate in certain areas where the density is supported by services.	Amend the High Density Residential Zone chapter as follows: The High Density Residential Zone provides for a range of housing types at a greater density and scale than the Medium Density Residential Zone. It gives effect to the requirements of the RMA to allow for three residential units of up to three storeys on a site, and also by enabling multi-unit housing of up to six <u>twelve</u> storeys in <u>appropriate areas</u> through a resource consent process subject to standards and design guidance.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.326	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that HRZ-S4 should have immediate legal effect to align with the MDRS requirements, and to avoid confusion where boundary setbacks are applied from both the operative and district plan. It is noted the intention of the NPS-UD is to enable urban environments to evolve and change, enabled by the national standards.	[Inferred decision requested] Seeks that all that relate to HRZ-S4 (Boundary setbacks) have immediate legal effect.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.128	Residential Zones / High Density Residential Zone / General HRZ	Support in part	The HRZ chapter is generally supported. As it stands, the PDP will enable the construction and use of three dwellings on most residential properties, with a maximum height of 11m and more permissive building recession planes, as a permitted activity. In addition, resource consents may be obtained as a restricted discretionary activity to construct buildings up to 25m in height with no limit to the number of residential units (i.e.: density). The submitters considers these greater residential densities and more permissive building standards are likely to generate greater potential for reverse sensitivity effects that may affect the ongoing operation, maintenance and upgrade of their facilities which are a physical resource that must be managed under the Act.	Retain the HRZ (high density residential zone) chapter, with amendment to HRZ-P6 (Multi-unit housing).
Henry Bartholomew Nankivell Zwart	378.18	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the HRZ (High density residential zone) is more enabling of small-scale public-facing commercial activities.
Kāinga Ora Homes and Communities	391.432	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the High Density Residential Zone should apply to areas that extend: i. 15-20min/1500m walkable catchment from the edge of the City Centre Zone ii. 15min/800m walkable catchment from the edge of MCZ and from existing and planned rapid transit stops (including the Johnsonville Line) iii. 10 min/400-800m walkable catchment from Town Centre Zones. [Refer to original submission for full reason, including Appendix 4]	Seeks that High Density Residential Zones extend: i. 15-20min/1500m walkable catchment from the edge of the City Centre Zone ii. 15min/800m walkable catchment from the edge of MCZ and from existing and planned rapid transit stops (including the Johnsonville Line) iii. 10 min/400-800m walkable catchment from Town Centre Zones. [Refer to original submission, Appendix 4 for proposed walkable catchment mapping]
Onslow Residents Community Association	FS80.23	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Considers the proposed amendments go well beyond the requirements of the National Policy Statement on Urban Development and the Medium Density Residential Standards and would enable an unjustified level of development. Considers there is no evidence that this level of enablement is necessary. Considers original submission contains the submitter's view of appropriate settings for our community. [Refer to original submission - 283]	Disallow
Wellington's Character Charitable Trust	FS82.112	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Considers the submission point is more enabling of intensification than the NPS-UD and MDRS and is not justified.	Disallow
Greater Wellington Regional Council	FS84.73	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Greater Wellington seek that additional provisions are included to give effect to the NPS-FM and have regard to Proposed RPS Change 1 to manage the effects of urban development on freshwater.
LIVE WELLington	FS96.32	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	We oppose changes to introduce new high density provisions as these are not required to deliver the capacity required and will have significant impact on the amenity and liveability of residential areas.	Disallow
Roland Sapsford	FS117.31	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	We oppose changes to introduce new high density provisions as these are not required to deliver the capacity required and will have significant impact on the amenity and liveability of residential areas.	Disallow
Kāinga Ora Homes and Communities	391.433	Residential Zones / High Density Residential Zone / General HRZ	Support in part	The Introduction of the High Density Residential Zone in the Proposed District Plan is supported, but amendments consistent with the spatial extent and heights are sought.	Retain the Introduction of the High Density Residential Zone with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.434	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that the Introduction of the High Density Residential Zone should be amended.	Amend the Introduction of the High Density Residential Zone as follows: The High Density Residential Zone encompasses areas of the city located near to the City Centre Zone, Johnsonville City Centre Zone, Metropolitan Centre Zones, Town Centre Zones and Kenepepe and Tawa railway stations. These areas are used predominantly for residential activities with a high concentration and bulk of buildings and other compatible activities. ... The High Density Residential Zone provides for a range of housing types at a greater density and scale than the Medium Density Residential Zone. It gives effect to the requirements of the RMA to provide for well functioning urban environments by allowing for three intensive development residential units of up to 6 storeys in all areas of the HRZ and up to 12 storeys in areas of high accessibility to key centres three storeys on a site, and also by enabling multi unit housing of up to six storeys through a resource consent process subject to standards and design guidance. ...
Pukepuke Pari Residents Incorporated	FS37.18	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes walkable catchment extension - limit of 10 mins on the walkable catchment is appropriate for Wellington and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. People's propensity to walk diminishes with distance. Particularly relevant if the catchment was increased to 15 minutes and the last 5 minutes was up a steep hill. Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay). Oppose review of the O' Bay Height precinct- The Oriental Bay Height Precinct provides protection for significant public amenity value, for all those who use the beach and Parade, representing a large part of the Wellington population. This Height Precinct was decided after careful review by the Environment Court in 1989 and all the considerations that were carefully laid out there are relevant here.	Disallow
Gareth and Joanne Morgan	FS38.12	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes elements of Kāinga Ora's submission that seek to amend, remove or rezone the Oriental Bay Height Precinct to High Density Residential Zone.	Disallow
Don MacKay	FS94.18	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Considers that walkable catchment extension opposed -see above in relation to Property Council. Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay). Oppose review of the O' Bay Height precinct- see our reasons re Waka Kotahi.	Disallow
LIVE WELLington	FS96.33	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Changes to high density residential zone approach is opposed. These are not required to deliver the capacity required and will have significant impact on the amenity and liveability of residential areas	Disallow
Roland Sapsford	FS117.32	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Changes to high density residential zone approach is opposed. These are not required to deliver the capacity required and will have significant impact on the amenity and liveability of residential areas.	Disallow
Matthew Tamati Reweti	394.17	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the HRZ is more enabling of small-scale public-facing commercial activities.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
David Cadman	398.16	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the HRZ is more enabling of small-scale public-facing commercial activities.
Lucy Harper and Roger Pemberton	401.88	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes extent of High Density Residential Zone in Mount Victoria. The areas to the south of Vogel Street are predominantly high density zone in the plan except for small character areas. Submitter considers that that the Earls Terrace and Port Street/Stafford Street area has qualities, including visibility which should qualify it as a character area. The submitter considers that Earls Terrace and Port Street/Stafford Street area has a particularly charming ambience and modification to the houses has generally been in keeping with the Mt Victoria architecture.	Remove High Density Residential Zone from Earls Terrace, Port Street and Stafford Street area.
Investore Property Limited	405.52	Residential Zones / High Density Residential Zone / General HRZ	Support	Supports the provision of six storey residential development in the wider Johnsonville catchment.	Not specified.
Investore Property Limited	405.53	Residential Zones / High Density Residential Zone / General HRZ	Support	Supports the provision of a broad area of six storey High Density Residential zoning in the wider Johnsonville catchment. Submitter considers that this gives effect to the NPS-UD and reflects the status of Johnsonville as a Metropolitan Centre.	Retain the the provision for six storey high density zoning within the wider Johnsonville catchment as notified.
Investore Property Limited	405.54	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Considers that the exclusion of the Johnsonville rail line from "rapid transit" and high density residential zoning within catchments of a train station is inappropriate and inconsistent with the NPS-UD, Wellington Regional Land Transport Plan and Change 1 to the Wellington Regional Policy Statement. [Refer to original submission for full reason].	Opposes the exclusion of the walkable catchments of the Johnsonville rail line from the High Density Residential Zone. Seeks that the Johnsonville train line is identified as rapid transit and high density residential zoning applies in accordance with Policy 3 of the NPS-UD.
Johnsonville Community Association Inc	FS114.25	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	The NPS-UD definition states that Rapid Transit Services must be "frequent" and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services. Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi. In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service. Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit. Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid. [Refer to further submission for full reason]	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	408.120	Residential Zones / High Density Residential Zone / General HRZ	Amend	<p>Considers the Proposed Plan does not recognise rail as a qualifying matter. KiwiRail seeks that the railway corridor be identified as a qualifying matter and be applied to impose building setback requirements from the rail boundary.</p> <p>The High Density Residential Zone adjoins the rail corridor in several suburbs in Wellington City, including Johnsonville, Tawa and Keneperu. KiwiRail support urban development, including around transport nodes, and recognises the benefits of co-locating housing near transport corridors.</p> <p>However, it is critical that the Proposed Plan provides for adequate management of the interface between urban development and lawfully established, critical infrastructure, such as the railway network. This is necessary to ensure our communities are built in healthy living environments, and the railway network can operate and develop in the future without constraint. An integrated and proactive approach to planning is critical to support the overall vision of our urban environments, and to ensure that our transport network can support the increasing growth and housing intensification.</p> <p>The nature of railway operations means KiwiRail cannot fully internalise all its effects within the railway corridor boundaries. Environmental legislation and caselaw recognises the lawful emission of such effects. Increasing development around railway corridors consequentially means the introduction of more sensitive receivers to adverse effects of existing and lawful railway activities. With a likely increase in sensitive activities forecast to locate in proximity to the railway corridor as a result of the Amendment Act, KiwiRail is concerned that without appropriate planning measures in place at a territorial level, the risk of adverse health and amenity effects impacting people locating in proximity to the railway corridor, and reverse sensitivity effects constraining our operations is significantly elevated.</p> <p>For this reason, it is essential that the Proposed Plan appropriately manages the development of new sensitive activities in proximity to the railway corridor.</p>	<p>Amend the HRZ Introduction as follows:</p> <p>There are parts of the High Density Residential Zone where the permitted development, height or density directed by the NPS-UD may be modified by qualifying matters. These include the following:</p> <ul style="list-style-type: none"> - Stream corridors and overland flow paths (refer to Natural Hazards Chapter); - Heritage buildings, heritage structures and heritage areas (refer to Historic Heritage Chapter); - Notable trees (refer to Notable Trees Chapter); and - Sites and areas of significance to Māori (refer to Sites and Areas of Significance to Māori Chapter). <p>- <u>Railway corridor (building set back from rail boundary): (refer to HRZ-S4).</u></p>
Kāinga Ora – Homes and Communities	FS89.28	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Kāinga Ora opposes changes to provisions and rules relating to the rail corridor as a qualifying matter in KiwiRail's submission.	Disallow
Emma Osborne	410.12	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it.	Seeks that a new standard is added requiring that developments in the High Density Residential Zone adequately accommodate active travel as the building users' first-best choice for accessing it.
Willis Bond and Company Limited	416.72	Residential Zones / High Density Residential Zone / General HRZ	Amend	Submitter notes the effect that the more permissive medium density residential standards will have on other zones. The zones supporting higher density development have more restrictive standards than in the MRZ, creating a risk that new development is concentrated in the more permissive MRZ at the exclusion of denser zones where Council wishes to encourage greater development. The PDP should ensure that the restrictions within denser zones are not substantially more restrictive than within the MRZ [Refer to original submission for full reason].	Seeks that Council consider the relationship between the Medium Density Residential Zone and denser zones (i.e. the High Density Residential Zone, Large Lot Residential Zone, Neighbourhood Centre Zone, Local Centre one, Commercial Zone, Mixed Use Zone, Metropolitan Centre Zone and City Centre Zone) to ensure development is not unduly restricted in denser zones by greater restrictions and Council discretion.
Luke Stewart	422.12	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone is more enabling of small-scale public-facing commercial activities.
Johnsonville Community Association	429.33	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Supports medium density residential standards as they allow 3 dwellings up to 3 storeys in height in all residential zones. This would enable higher levels of development than is currently proposed in the Draft District Plan in the General Residential and Medium Density Residential Zones	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association	429.34	Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>Considers that Johnsonville East should not be in the HDRZ.</p> <p>The Johnsonville Walkable Catchment testing report says that walking network model does not account for the quality or perceived safety of walking routes and pathways.</p> <p>MfE guidance on NPS-UD leaves walking catchment size and "Path quality" up to local councils but does recommend that certain factors are taken into account when determining walking catchment (Full reference in original submission).</p> <p>Considers that Johnsonville East (Map on original submission) should be excluded from High Density Residential Zone on the basis that it has poor pedestrian access, inconsistency with MfE recommended factors, it's accessible via steps, and that in 2013 the Environment Court rejected the claim that Johnsonville East was walkable accessible and WCC agreed to remove it from MDRA.</p> <p>[See original submission for full reason]</p>	<p>Opposes High Density Residential Zoning in Johnsonville East (Area A on original submission map, page 25).</p> <p>[Inferred Decision Requested]</p>
Johnsonville Community Association	429.35	Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>Considers that Middleton Road should not be in the HDRZ.</p> <p>The Johnsonville Walkable Catchment testing report says that walking network model does not account for the quality or perceived safety of walking routes and pathways.</p> <p>MfE guidance on NPS-UD leaves walking catchment size and "Path quality" up to local councils but does recommend that certain factors are taken into account when determining walking catchment (Full reference in original submission).</p> <p>Considers that Middleton Road area (Map on original submission page 25) is excluded from High Density Residential Zoning because it is not walking accessible. Middleton Road area has a busy arterial road with limited crossing areas, is inconsistent with many of the MfE factors, and that in 2013 Environment Court rejected WCC claim that the area was walking accessible and it was removed from MDRA.</p> <p>[See original submission for full reason]</p>	<p>Opposes High Density Residential Zoning in Middleton Road (Area B on original submission map, page 25).</p> <p>[Inferred Decision Requested]</p>
Johnsonville Community Association	429.36	Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>Considers that Woodland Road/Prospect Terrace should not be in the HDRZ.</p> <p>The Johnsonville Walkable Catchment testing report says that walking network model does not account for the quality or perceived safety of walking routes and pathways.</p> <p>MfE guidance on NPS-UD leaves walking catchment size and "Path quality" up to local councils but does recommend that certain factors are taken into account when determining walking catchment (Full reference in original submission).</p> <p>Considers that Woodland Road/Prospect Terrace is not walking accessible, as it requires walking on a steep and narrow road. It is inconsistent with many of the MfE factors. High rise along this ridge will also have an impact on visual amenity.</p> <p>[See original submission for full reason]</p>	<p>Opposes High Density Residential Zoning in Woodland Road/Prospect Terrace (Area C on original submission map, page 25).</p> <p>[Inferred Decision Requested]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association	429.37	Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>Considers that Cortina Avenue should not be in the HDRZ.</p> <p>The Johnsonville Walkable Catchment testing report says that walking network model does not account for the quality or perceived safety of walking routes and pathways.</p> <p>MFE guidance on NPS-UD leaves walking catchment size and "Path quality" up to local councils but does recommend that certain factors are taken into account when determining walking catchment (Full reference in original submission).</p> <p>Considers that Cortina Avenue is beyond the 10 minute walking catchment, the central government medium density standards will render the special zoning in the PDP no longer relevant.</p> <p>[See original submission for full reason]</p>	<p>Opposes High Density Residential Zoning in Cortina Avenue (Area D on original submission map, page 25).</p> <p>[Inferred Decision Requested]</p>
Miriam Moore	433.13	Residential Zones / High Density Residential Zone / General HRZ	Amend	<p>Considers that housing along more accessible routes is essential in Wellington where terrain is a constant challenge to accessibility. Public transport users are likely to walk further for trains, and having an efficient bus service as a faster option should not lessen a train line's suitability as an MRT line, but enhance it.</p>	<p>Seeks to include high density along Mass Rapid Transit</p>
Miriam Moore	433.14	Residential Zones / High Density Residential Zone / General HRZ	Amend	<p>Considers that Council should be active in looking for acquisition opportunities for more small and functional parks in the HRZ. Smaller yards and smaller homes need to be brought in hand-in-hand with more spaces for people of all ages and abilities to spend time outside.</p>	<p>Seeks more green spaces within the High Density Residential Zone.</p>
Miriam Moore	433.15	Residential Zones / High Density Residential Zone / General HRZ	Amend	<p>Considers the HRZ provisions should be more enabling provisions of small-scale public commercial activities like corner stores/coffee shops to help keep these areas convenient and active, subject to matters of discretion.</p>	<p>Seek that more public and private community activities are enabled as a Discretionary Restricted activity within the High Density Residential Zone.</p>
Michelle Rush	436.15	Residential Zones / High Density Residential Zone / General HRZ	Amend	<p>Considers that the HRZ should be revised to reflect the walking catchments of the Johnsonville line as a rapid transit route. All other consequential amendments to the plan's sections should also be made to give effect to this.</p>	<p>Seeks that the High Density Residential Zone be revised to reflect the walking catchments of the Johnsonville Line as a Rapid Transit Line</p>
Michelle Rush	436.16	Residential Zones / High Density Residential Zone / General HRZ	Support	<p>Objectives in the HRZ chapter are supported as they balance the need for intensification with environmental safeguards.</p>	<p>Retain Objectives in the High Density Residential Zone chapter as notified.</p>
Kirsty Woods	437.8	Residential Zones / High Density Residential Zone / General HRZ	Amend	<p>Opposes the High Density Residential zoning for suburban Newtown. High density zoning in this area fails to address effects adequately, including loss of sunlight, adverse effects associated with demolition and rebuilding and loss of green spaces. Considers that there is an excess of housing provided through the proposed district plan above what is required. By creating much larger areas to enable 6 storey buildings than is likely to be required, the council is promoting unnecessary adverse effects on existing housing. Considers that the alternative extent provided in the Red Design Architects submission is more appropriate.</p>	<p>Seeks that High Density Zoning in Newtown is limited to the extent indicated in the Red Design Architects and Newtown Residents Association submissions. Seeks that all other areas are rezoned as Medium Density Residential.</p>
Newtown Residents' Association	440.25	Residential Zones / High Density Residential Zone / General HRZ	Amend	<p>Considers that Newtown's residential streets outside the suburban centre should be classified as MRZ. In particular the zoning of several blocks around the Newtown suburban centre for heights of up to 21m seems unnecessary and counter productive to maintaining a well functioning urban environment.</p> <p>Allowing 6-storey development blocks in low-rise residential areas would have damaging effects on the value of neighbouring houses. Furthermore, combining terraced homes, typically of 3 storeys, with 6 storey apartment blocks doesn't give good results unless the sites are carefully planned.</p>	<p>Seeks that Newtown's residential streets outside the suburban centre be rezoned as Medium Density Residential Zone.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kathryn Lethbridge	442.4	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes the High Density Residential Zoning of the Hobson Precinct (between Murphy Street and Hobson Street/Davis Street and the motorway) and considers that this should be rezoned as MRZ. Considers that MRZ for the Hobson Precinct meets the Government requirements for development and is more appropriate given the existing nature of the area and potential for inappropriate development.	Opposes the zoning of the Hobson Precinct (between Murphy Street and Hobson Street/Davis Street and the motorway) as High Density Residential Zone.
Thorndon Residents' Association Inc	FS69.72	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Support	WCC summary reads: The zone is a jewel in the Wellington character / heritage crown and appropriate houses in the area should be protected to prevent unnecessary loss to this key cultural asset for the city. Considers that MRZ for the Hobson Precinct meets the Government requirements for development and is more appropriate given the existing nature of the area and potential for inappropriate development.	Allow
Kay Larsen	447.14	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Considers that the make up of the area is already dense enough to be considered High-Density. Considers that the terrace is too small to accommodate further traffic from high density development. Considers that the infrastructure on TheTerrace South is insufficient for further development. Considers that the hillside is steep and innappropriate for 6 storey development. Considers that there are many pathways, shortcuts, large old trees, housing and Boyd Wilson Sports Field scattered in the area. [See original submission for full reason]	Opposes High Density Residential Zoning in Southern Terrace (Area between Abel Smith Street, Ghuznee Street, Terrace and including St John Street and Abel Smith Street extension).
John Wilson	453.9	Residential Zones / High Density Residential Zone / General HRZ	Not specified	[No specific reason given beyond decision requested - refer to original submission]	Seeks clarification in relation to zoning around Metropolitan Centre Zones - why High Density Residential rules also apply to the Johnsonville centre compared to the Kilbirnie residential centre. [Inferred decision requested]
John Wilson	453.10	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes the provisions in the Plan relating to "Kenepuru and Tawa railway stations Zone/Zones". [Refer to original submission for full reason]	Delete all provisions related to "Kenepuru and Tawa railway stations Zone/Zones". [Inferred decision requested]
John Wilson	453.11	Residential Zones / High Density Residential Zone / General HRZ	Not specified	Considers that there are no definition links from the "High Density residential" page as for the "City Centre Zone", which has a definition of the applicable zone rules.	Seeks that definition links are added to the High Density Residential wording in the introduction of the chapter. [inferred decision requested]
Rachel Underwood	458.7	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Considers that under the proposed plan, the character of suburbs like Mt Victoria, Newtown, Island Bay, Kelburn, Thorndon, Aro Valley, parts of Brooklyn, Ngaio is at risk if developers place six-storey blocks. [Refer to original submission for full reason]	Seeks to remove provisions relating to six storey requirements. [Inferred decision requested]
Greater Brooklyn Residents Association Inc's	459.9	Residential Zones / High Density Residential Zone / General HRZ	Amend	The submitter has concerns on the shading of private properties. [Refer to original submission for full reason]	Seeks clarity and stricter standards for shading, recession planes privacy, outlook space and solar access in the High Density residential zones. [inferred decision requested].
Daniel Christopher Murray Grantham	468.5	Residential Zones / High Density Residential Zone / General HRZ	Amend	Supports larger walking catchments for intensification around mass transit hubs.	Seeks that walking catchments around mass transit hubs are increased to a 15 minute walking catchment. [Inferred decision requested].

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Stride Investment Management Limited	470.22	Residential Zones / High Density Residential Zone / General HRZ	Support	Supports the area zoned as High Residential and the associated six storey allowance in the wider Johnsonville catchment.	Retain the High Density Residential Zoning (21m) in the wider Johnsonville catchment.
Alicia Hall on behalf of Parents for Climate Aotearoa	472.18	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone is more enabling of small-scale public-facing commercial activities.
Catherine Penetito	474.2	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes the HRZ of Arlington Street. Considers that the District Plan encourages a variety of housing types, sizes and tenure which will be lost in Arlington Street without a zone change. CC-O3 (Urban form and scale) states that development should be consistent with the strategic goal (5) of a natural environment protected, enhanced and integrated into the urban environment. Without a zone change, the very small reserve at the corner of Arlington and Torrens Terrace, enjoyed by locals for its sunshine, could be overshadowed by high-rise development.	Seeks that the part of Arlington Street currently occupied by privately owned housing should be zoned as General Residential Zone.
Catherine Penetito	474.3	Residential Zones / High Density Residential Zone / General HRZ	Oppose	Opposes the HRZ of Taranaki Street. Considers that preventing further development on Taranaki Street will enable the opportunity in the future to open up the park to become a more fitting National site for the capital city.	Seeks that no further development takes place on Taranaki Street.
Te Rūnanga o Toa Rangatira	488.76	Residential Zones / High Density Residential Zone / General HRZ	Amend	Concerned that the Residential Design Guide is not given consideration and referred to in any relevant rules for the High Density Residential Zone	Amend appropriate parts of the High Density Residential Zone rules to reflect that they will give effect to Residential Design Guide. [Inferred decision requested]
Jonathan Markwick	490.21	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that where building height limits and recession planes and setbacks are mentioned in the PDP, these are made universally consistent with the Coalition for More Homes' Alternative medium density residential standards.
Jonathan Markwick	490.22	Residential Zones / High Density Residential Zone / General HRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the High Density Residential Zone is more enabling of small-scale public-facing commercial activities.
Jonathan Markwick	490.23	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that six storey high density residential buildings should be allowed in all of Kelburn (with a viewshaft protection from the top of the cable car) to help accommodate demand for student and staff housing close to Victoria University's Kelburn Campus. Students and staff have extremely high rents with a restricted housing supply in Kelburn.	Seeks that six storey high density residential buildings is allowed in all of Kelburn (with a viewshaft protection from the top of the cable car).
Jonathan Markwick	490.24	Residential Zones / High Density Residential Zone / General HRZ	Amend	Considers that six storey high density residential buildings should be allowed in all of Oriental Bay including Hay Street and Grass Street. This suburb is the easiest suburb to walk to from the city centre (from a traffic safety and scenery point of view). Oriental Bay is also the only suburb that is connected to the city centre with a continuous traffic-free cycle path.	Considers that six storey high density residential buildings should be allowed in all of Oriental Bay including Hay Street and Grass Street.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Pukepuke Pari Residents Incorporated	FS37.24	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>Considers that qualifying matters exist under s.77L and s.77R of the RMA relating to the specific characteristics of Hay St. Submitters repeats comments made above in relation to Property Council re their opposition to extension of the walkable catchment.</p> <p>Considers that a limit of 10 mins on the walkable catchment is appropriate for Wellington and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. People's propensity to walk diminishes with distance. Particularly relevant if the catchment was increased to 15 minutes and the last 5 minutes was up a steep hill (as would be the case for eg in Hay Street).</p>	Disallow
Don MacKay	FS94.24	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>Considers that qualifying matters exist under s.77L and s.77R of the RMA relating to the specific characteristics of Wilkinson Street, particularly its steepness, narrowness, and potentially hazardous nature which make high density intensification inappropriate. Also Don MacKay repeat comments made above in relation to Property Council re their opposition to extension of the walkable catchment.</p>	Disallow
Jonathan Markwick	490.25	Residential Zones / High Density Residential Zone / General HRZ	Amend	<p>Considers that MRZ-PREC02 (Mt Victoria North Townscape Precinct) should be removed to allow for six storey high density residential buildings where SCHED 3 - Heritage Areas do not apply (such as McFarlane Street).</p> <p>Restrictive rules protecting Character Precincts should not be a priority and is morally wrong when we are experiencing a massive shortage of housing and a housing crisis.</p>	Seeks that six storey high density residential buildings are allowed in the areas currently encompassed by the Mount Victoria North Townscape Precinct which do not overlap with SCHED3 - Heritage Areas and that if needed, lower height controls (than six storeys) can be applied for the properties immediately neighbouring St Gerard's.
Jonathan Markwick	490.26	Residential Zones / High Density Residential Zone / General HRZ	Amend	<p>Considers that restrictive rules protecting Character Precincts should not be a priority and is morally wrong when we are experiencing a massive shortage of housing and a housing crisis).</p>	Seeks that six storey high density residential buildings is allowed in the areas currently encompassed by Mount Victoria Character Precincts which are outside the SCHED3 - Heritage Areas.
Ann Mallinson	FS3.6	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>Greater intensification on Oriental Parade and in Hay and Grass Streets is opposed. The Oriental Bay Height Precinct responded to the judgment in the submitter's successful legal case D Rendel, A Mallinson & others v Wellington City Council Decision No. W73/98 and provides protection for significant amenity value, landscape, townscape and character in Oriental Bay. Refer to original submission 81 (points 81.3 and 81.4).</p>	Disallow
Denis Foot	FS10.6	Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>The matters of the heights density and planning issues in Oriental Bay were the subject of a very expensive three week hearing at the Environment Court. The case was called Foot v WCC. In that case there were many lawyers, planners, urban designers, architects and residents that gave their views. Judge Kenderdine gave a very carefully considered judgement covering the various areas in Oriental Bay. The decision takes into account the diverse landforms which includes several valleys. There are still many areas in the Oriental Bay area where it is possible to build multi-storey apartments.</p> <p>[Inferred reference to submission point 490.26]</p>	Disallow
Oriental Bay Residents Association	FS13.6	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay.</p> <p>Qualifying matters exist under s.77L and s.77R of the RMA arising from the topography and specific characteristics of residential side streets, including Hay St and Grass St.</p>	Disallow
Ruapapa Limited	FS18.8	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay. The principles set out in the Environment Court decision in Foot v WCC should remain in place.</p> <p>Qualifying matters exist under s.77L and s.77R of the RMA arising from the topography and specific characteristics of residential side streets, including Hay St and Grass St. These matters impact the health and safety of Oriental Bay residents.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Scott Galloway and Carolyn McLean	FS19.6	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay.</p> <p>Qualifying matters exist under s.79L and s.79 of the RMA arising from the topography and specific characteristics of residential side streets, including Hay St and Grass St.</p> <p>The futher submitter also also refer to and support the media statement of the Insurance Council of New Zealand Inc dated 23 November 2022.</p> <p>[Refer to further submission for full reason]</p>	Disallow
Jenny Gyles	FS53.6	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay.</p> <p>Considers that qualifying matters exist under s.79L and s.79 of the RMA arising from the topography and specific characteristics of residential side streets, including Hay St and Grass St.</p> <p>Jenny Gyles refers to and support the media statement of the Insurance Council of New Zealand Inc dated 23 November 2022.</p> <p>Considers that the difficulties in obtaining and/or paying for insurance in the future for intensive housing in high hazard zones (especially re earthquake and climate change) and the exposure to hazard of increased infrastructure will be a burden on property owners, taxpayers, ratepayers and residents for many decades to come.</p>	Disallow
Helen Foot	FS62.6	Residential Zones / High Density Residential Zone / General HRZ	Oppose	<p>The Oriental Bay Height Precinct is extremely important to maintain important townscape and landscape values, and protects public views of Mt Victoria/Matairangi and St Gerards heritage site, and also supports the unique character of Oriental Bay. The Oriental Bay Height Precinct and in particular that part of it adjacent to Hay Street and Grass Street was the subject of a very careful review in the decision of the Environment Court in 1989 (Helen Foot and others v WCC Decision W79/98). There is nothing to be gained by seeking a review of this decision.</p>	Disallow

Jill Ford	163.15	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should provide universal accessibility as a non-negotiable.	Seeks that a new standard is added requiring that HRZ (High Density Residential Zone) developments provide universal accessibility as a non-negotiable.
Amos Mann	172.23	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it.	Seeks that a new standard is added requiring that High Density Residential Zone developments should adequately accommodate active travel as the building users' first-best choice for accessing it.
Patrick Wilkes	173.22	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it.	Seeks that a new standard is added requiring that High Density Residential Zone developments should adequately accommodate active travel as the building users' first-best choice for accessing it.
Pete Gent	179.17	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it.	Seeks that a new standard is added requiring that High Density Residential Zone developments should adequately accommodate active travel as the building users' first-best choice for accessing it.
Pete Gent	179.18	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should provide universal accessibility as a non-negotiable.	Seeks that a new standard is added requiring that High Density Residential Zone developments provide universal accessibility as a non-negotiable.
James Harris	180.11	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it. [Refer to original submission for full details].	Seeks that a new standard is added requiring that High Density Residential Zone developments should adequately accommodate active travel as the building users' first-best choice for accessing it.
James Harris	180.12	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should provide universal accessibility as a non-negotiable.	Seeks that a new standard is added requiring that High Density Residential Zone developments provide universal accessibility as a non-negotiable.
Historic Places Wellington	182.29	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that a policy similar to that requiring new development to positively contribute to the sense of place, quality and amenity of the Neighbourhood Centre Zone by ensuring that development responds to the site context, particular where it is located adjacent to a scheduled site of significant to Māori, heritage buildings, structures or areas, character precincts, and other areas should be added.	Add a new Policy with equivalent wording to NCZ-P7 (Quality design – neighbourhood and townscape outcomes) in the High Density Residential Zone.
Peter Nunns	196.18	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it.	Seeks that a new standard is added requiring that developments in the High Density Residential Zone adequately accommodate active travel as the building users' first-best choice for accessing it.
Peter Nunns	196.19	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should provide universal accessibility.	Seeks that a new standard is added requiring that High Density Residential Zone developments provide universal accessibility.
Andrew Flanagan	198.15	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it.	Seeks that a new standard is added requiring that developments in the High Density Residential Zone adequately accommodate active travel as the building users' first-best choice for accessing it.
Andrew Flanagan	198.16	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should provide universal accessibility as a non-negotiable.	Seeks that a new standard is added requiring that HRZ developments provide universal accessibility as a non-negotiable.
Alan Fairless	242.22	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that the District Plan include Sunlight provisions in ALL Residential Zones.	Seeks that the District Plan include Sunlight provisions in High Density Residential Zones.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
The Retirement Villages Association of New Zealand Incorporated	FS126.3	Part 3 / Residential Zones / High Density Residential Zone / New HRZ	Oppose	Inconsistent with the Enabling Housing Act.	Disallow
Ryman Healthcare Limited	FS128.3	Part 3 / Residential Zones / High Density Residential Zone / New HRZ	Oppose	Inconsistent with the Enabling Housing Act.	Disallow
Fire and Emergency New Zealand	273.190	Residential Zones / High Density Residential Zone / New HRZ	Amend	Seeks the addition of a new rule for 'emergency service facilities' for the reasons set out in the previous feedback point on the proposed definitions of 'emergency service facilities'. New fire stations may be necessary in order to continue to achieve emergency response time commitments where development occurs, and populations change. In this regard it is noted that FENZ is not a requiring authority under section 166 of the RMA, and therefore does not have the ability to designate land for the purposes of fire stations. FENZ considers that adding a new rule for Emergency Service Facilities provides for emergency service facilities in this zone as a permitted activity. This will provide for health and safety of the community by enabling the efficient functioning of FENZ in establishing and operating fire stations	Add new HRZ rule: <u>HRZ-RX:</u> <u>Emergency Service Facilities</u> <u>Activity Status: Permitted</u>
Phillippa O'Connor	289.28	Residential Zones / High Density Residential Zone / New HRZ	Support	Considers that commercial activities should be able to establish within the residential zones, and that the list of permitted activities is too small and should have a baseline of 100m2 for dairies, restaurants and cafes.	Add a new rule as follows: <u>HRZ-R11 – Dairies, cafes and restaurants</u> <u>1. Activity status: Restricted Discretionary</u> <u>Where:</u> <u>a. The maximum GFA is 100m2</u> <u>Matters of discretion are:</u> <u>1. Infrastructure and servicing</u> <u>2. Effects on neighbourhood character, residential amenity, safety and the surrounding residential area from building scale, form and appearance; traffic; noise; lighting; and hours of operation</u>
Hilary Watson	321.16	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that Carrara Park should have 11m height control right round its boundary to get maximum possible sun all year round. Part of the properties around the park are currently inappropriately classified under Building Height Control 2 (21m).	Seeks that all development around Carrara Park is subject to a maximum height limit of 11 metres.
Retirement Villages Association of New Zealand Incorporated	350.148	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that Objective 1 of the MDRS must be integrated into the Proposed Plan.	Add new 'well-functioning urban environment' objective in the High Density Residential Zone as follows: <u>HRZ-OX Well-functioning urban environment</u> <u>A well-functioning urban environment that enables all people and communities to provide for their social, economic, and cultural wellbeing, and for their health and safety, now and into the future.</u>
Retirement Villages Association of New Zealand Incorporated	350.149	Residential Zones / High Density Residential Zone / New HRZ	Support	Considers that a policy regarding the intensification opportunities provided by larger sites and a policy recognising the changing nature of communities should be integrated into the Proposed Plan.	Add the following new policies in the High Density Residential Zone: <u>HRZ-PX Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within all residential zones by providing for more efficient use of those sites.</u> <u>RESZ-PX Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the residential zones will change over time to enable a variety of housing types with a mix of densities.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.150	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that a policy regarding the intensification opportunities provided by larger sites and a policy recognising the changing nature of communities should be integrated into the Proposed Plan.	Add the following new policies in the High Density Residential Zone: <u>HRZ-PX Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within all residential zones by providing for more efficient use of those sites.</u> <u>RESZ-PX Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the residential zones will change over time to enable a variety of housing types with a mix of densities.</u>
Retirement Villages Association of New Zealand Incorporated	350.151	Residential Zones / High Density Residential Zone / New HRZ	Support	Considers that it would be appropriate to enable the density standards to be utilised as a baseline for the assessment of the effects of developments.	Add new 'Role of density standards' policy in the High Density Residential Zone as follows: <u>HRZ-PX Role of density standards</u> <u>Enable the density standards to be utilised as a baseline for the assessment of the effects of developments.</u>
Retirement Villages Association of New Zealand Incorporated	350.152	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that it would be appropriate to enable the density standards to be utilised as a baseline for the assessment of the effects of developments.	Add new 'Role of density standards' policy in the High Density Residential Zone as follows: <u>HRZ-PX Role of density standards</u> <u>Enable the density standards to be utilised as a baseline for the assessment of the effects of developments.</u>
Waka Kotahi	370.327	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that the inclusion of a permitted land use rule to provide for mixed use development in multi-unit housing supports the outcomes of the zone and in the NPS-UD.	Add a new Rule to the High Density Residential Zone chapter as follows: <u>HRZ-R2x Commercial activities</u> <u>Activity status: Permitted</u> <u>Where</u> <u>a. They are integrated into a multi-unit residential development.</u> <u>b. In apartment buildings, commercial activities are at street level.</u>
Envirowaste Services Ltd	373.17	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that the proposed standards for permitted residential activities do not provide for rubbish/recycling storage. It is proposed that a standard be provided to allow for appropriate storage of a minimum standard.	Seeks that a new standard be added in the Medium Density Residential Zone chapter allowing for appropriate rubbish and recycling storage of a minimum standard.
Henry Bartholomew Nankivell Zwart	378.19	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it.	Seeks that a new standard is added requiring that HRZ (High density rdevelopments should adequately accommodate active travel as the building users' first-best choice for accessing it.
Henry Bartholomew Nankivell Zwart	378.20	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should provide universal accessibility as a non-negotiable.	Seeks that a new standard is added requiring that HRZ (High Density Residential Zone) developments provide universal accessibility as a non-negotiable.
Matthew Tamati Reweti	394.18	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it.	Seeks that a new standard is added requiring that HRZ developments should adequately accommodate active travel.
Matthew Tamati Reweti	394.19	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should provide universal accessibility as a non-negotiable.	Seeks that a new standard is added requiring that HRZ developments provide universal accessibility as a non-negotiable.
David Cadman	398.17	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it.	Seeks that a new standard is added requiring that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
David Cadman	398.18	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should provide universal accessibility as a non-negotiable.	Seeks that a new standard is added requiring that HRZ developments provide universal accessibility as a non-negotiable.
Ministry of Education	400.99	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that the HRZ objectives do not sufficiently provide for additional infrastructure/ educational facilities. Therefore, the submitter supports the inclusion of a new objective as sought.	Add new objective to HRZ (High Density Residential Zone) as follows: <u>HRZ-OX</u> <u>Non-Residential activities</u> <u>Non-residential activities are in keeping with the amenity of the High Density Residential zone and provide for the community's social, economic, and cultural wellbeing [Inferred decision requested]</u>
Lucy Harper and Roger Pemberton	401.89	Residential Zones / High Density Residential Zone / New HRZ	Amend	Submitter is concerned that there appears to be no provisions that recognise the possible adverse effects of development and especially intensive development adjacent to the heritage area, on the values identified. For the Doctors Common Heritage area the adjoining zoning is high density. The submitter considers that it is hard to see how development to that extent would not compromise the values for which the Heritage Area is recognised.	Add new provisions within the Proposed District Plan to protect the Doctors' Common Heritage Area from possible adverse effects of intensive development adjacent to the heritage area (inferred decision requested).
Wellington Heritage Professionals	412.76	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that the chapter should include a policy similar to NZC-P7 ensuring that development responds to site context, where it is located adjacent to a site of significance to Māori, heritage place or character precinct.	Add a policy similar to NCZ-P7 (Quality design – neighbourhood and townscape outcomes) ensuring that development responds to site context, where it is located adjacent to a site of significance to Māori, heritage place or character precinct.
Luke Stewart	422.13	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it.	Seeks that a new standard is added requiring that developments in the High Density Residential Zone adequately accommodate active travel as the building users' first-best choice for accessing it.
Alicia Hall on behalf of Parents for Climate Aotearoa	472.19	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should adequately accommodate active travel as the building users' first-best choice for accessing it.	Seeks that a new standard is added requiring that High Density Residential Zone developments should adequately accommodate active travel as the building users' first-best choice for accessing it.
Alicia Hall on behalf of Parents for Climate Aotearoa	472.20	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that HRZ developments should provide universal accessibility as a non-negotiable.	Seeks that a new standard is added requiring that High Density Residential Zone developments provide universal accessibility as a non-negotiable.
Christina Mackay	478.14	Residential Zones / High Density Residential Zone / New HRZ	Amend	Considers that where heritage listed sites are in HDRZ, the submitter support special height and design controls on those nearby sites to protect context and curtilage setting of heritage listed buildings.	Seeks provisions within High Density Residential Zone to provide for height and design controls for heritage listed sites within zone.
Stratum Management Limited	249.19	Residential Zones / High Density Residential Zone / HRZ-O1	Amend	Considers that HRZ-O1 references 3-storey buildings and that this appears to be an error that should refer to 6-storey buildings.	Amend HRZ-O1 (Purpose) to refer to 6-storey buildings.
Retirement Villages Association of New Zealand Incorporated	350.153	Residential Zones / High Density Residential Zone / HRZ-O1	Support in part	Considers that the current drafting of HRZ-O1 generally aligns with the wording of Objective 2 of the MDRS, however surplus to the requirements of the Act the HRZ-O1 stipulates that the HDR Zone will provide for 'predominantly residential activities'. Considers that this objective conflicts with the MDRS in that it seeks to manage development in the zone in a manner that is inconsistent with the direction provided in the Enabling Housing Act.	Retain HRZ-O1 (Purpose) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.154	Residential Zones / High Density Residential Zone / HRZ-O1	Amend	Considers that the current drafting of HRZ-O1 generally aligns with the wording of Objective 2 of the MDRS, however surplus to the requirements of the Act the HRZ-O1 stipulates that the HDR Zone will provide for 'predominantly residential activities'. Considers that this objective conflicts with the MDRS in that it seeks to manage development in the zone in a manner that is inconsistent with the direction provided in the Enabling Housing Act.	Amend HRZ-O1 (Purpose) as follows: <u>HRZ-O1 Purpose Residential density</u> The High Density Residential Zone provides for predominantly residential activities and a variety of housing types and sizes that respond to: 1. Housing needs and demand; and 2. The neighbourhood's planned urban built character, including 3-storey buildings.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.155	Residential Zones / High Density Residential Zone / HRZ-O1	Support in part	Considers that the current drafting of HRZ-O1 generally aligns with the wording of Objective 2 of the MDRS, however surplus to the requirements of the Act the HRZ-O1 stipulates that the HDR Zone will provide for 'predominantly residential activities'. Considers that this objective conflicts with the MDRS in that it seeks to manage development in the zone in a manner that is inconsistent with the direction provided in the Enabling Housing Act.	Retain HRZ-O1 (Purpose) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.156	Residential Zones / High Density Residential Zone / HRZ-O1	Amend	Considers that the current drafting of HRZ-O1 generally aligns with the wording of Objective 2 of the MDRS, however surplus to the requirements of the Act the HRZ-O1 stipulates that the HDR Zone will provide for 'predominantly residential activities'. Considers that this objective conflicts with the MDRS in that it seeks to manage development in the zone in a manner that is inconsistent with the direction provided in the Enabling Housing Act.	Amend HRZ-O1 (Purpose) to Add new 'Purpose' objective into the High Density Residential Zone as follows: <u>HRZ-OX Purpose</u> <u>The High Density Residential Zone accommodates predominantly residential activities and a range of compatible non-residential activities.</u>
Retirement Villages Association of New Zealand Incorporated	350.157	Residential Zones / High Density Residential Zone / HRZ-O1	Oppose in part	Considers that the current drafting of HRZ-O1 generally aligns with the wording of Objective 2 of the MDRS, however surplus to the requirements of the Act the HRZ-O1 stipulates that the HDR Zone will provide for 'predominantly residential activities'. Considers that this objective conflicts with the MDRS in that it seeks to manage development in the zone in a manner that is inconsistent with the direction provided in the Enabling Housing Act.	Opposes HRZ-O1 (Purpose) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.158	Residential Zones / High Density Residential Zone / HRZ-O1	Amend	Considers that the current drafting of HRZ-O1 generally aligns with the wording of Objective 2 of the MDRS, however surplus to the requirements of the Act the HRZ-O1 stipulates that the HDR Zone will provide for 'predominantly residential activities'. Considers that this objective conflicts with the MDRS in that it seeks to manage development in the zone in a manner that is inconsistent with the direction provided in the Enabling Housing Act.	Amend HRZ-O1 (Purpose) to Add new 'Purpose' objective into the High Density Residential Zone as follows: <u>HRZ-OX Purpose</u> <u>The High Density Residential Zone accommodates predominantly residential activities and a range of compatible non-residential activities.</u>
Waka Kotahi	370.328	Residential Zones / High Density Residential Zone / HRZ-O1	Support in part	Support in part.	Retain HRZ-O1 (Purpose) with amendments.
Waka Kotahi	370.329	Residential Zones / High Density Residential Zone / HRZ-O1	Amend	Considers that enabling up to twelve stories is appropriate in certain areas where the density is supported by services.	Amend HRZ-O1 (Purpose) as follows: <u>The High Density Residential Zone provides for predominantly residential activities and mixed use activities that support urban living, and a variety of housing types and sizes that respond to:</u> 1. Housing needs and demand; and 2. <u>The neighbourhood's planned urban built character, including 3-storey buildings, and higher density residential living such as apartments of up to twelve storeys.</u>
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.129	Residential Zones / High Density Residential Zone / HRZ-O1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-O1 (Purpose) as notified.
WCC Environmental Reference Group	377.366	Residential Zones / High Density Residential Zone / HRZ-O1	Support	Considers that increasing density in Wellington in areas well serviced by transportation and facilities is an important part of reducing the city's carbon footprint; reducing congestion and improving economic and social wellbeing.	Retain HRZ-O1 (Purpose) as notified.
Kāinga Ora Homes and Communities	391.435	Residential Zones / High Density Residential Zone / HRZ-O1	Support in part	Objective HRZ-O1 is generally supported, but amendments are sought.	Retain Objective HRZ-O1 (Purpose) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.436	Residential Zones / High Density Residential Zone / HRZ-O1	Amend	Considers that HRZ-O1 should be amended to better reflect the density necessary to achieve a well-functioning urban environment anticipated by the NPS-UD and RMA. While this objective comes largely from the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021 (see objective 2), these objectives are mandatory for Medium Density Residential Areas. Therefore, this objective should be adapted to reflect the higher density of the HRZ and to better achieve objective 1 of the RMAA 2021.	Amend Objective HRZ-O1 (Purpose) as follows: The High Density Residential Zone provides for predominantly residential activities and a variety of housing types and sizes that respond to: 1. Housing needs and demand; and 2. The neighbourhood's planned urban built character <u>proximate to Centres and Rapid Transit Stops</u> , including 3-6-12 storey buildings.
Greater Wellington Regional Council	FS84.74	Part 3 / Residential Zones / High Density Residential Zone / HRZO1	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Greater Wellington seek that additional provisions are included to give effect to the NPS-FM and have regard to Proposed RPS Change 1 to manage the effects of urban development on freshwater.
Willis Bond and Company Limited	416.73	Residential Zones / High Density Residential Zone / HRZ-O1	Support	Supports the direction of HRZ-O1.	Retain HRZ-O1 (Purpose) as notified.
Disabled Persons Assembly New Zealand Incorporated	343.6	Residential Zones / High Density Residential Zone / HRZ-O2	Support	Supports objective HRZ-O2. Notes that Disabled people currently lack housing choices due to the traditional design of housing not enabling accessibility. Concepts, such as Universal Design, need to be incorporated into the design of all new builds and this can be done with a wide range of housing designs.	Retain HRZ-O2 (Efficient use of land) as notified. [Inferred decision requested]
Retirement Villages Association of New Zealand Incorporated	350.159	Residential Zones / High Density Residential Zone / HRZ-O2	Support	Considers that the current drafting of HRZ-O2 is inconsistent with Objectives 1 and 2 of the MDRS. Objectives 1 and 2 of the Act should be included in the Proposed Plan verbatim to their drafting in the MDRS. Questions what the context is in relation to contributing 'positively' to a changing and well-functioning urban environment. Considers that it is unclear what this would entail, particularly when considering that the definition of 'well functioning urban environment' consists of a list of positive / beneficial matters. Considers that it is not clear if this phrasing is stipulating that additional benefit is required in order to contribute 'positively'.	Retain HRZ-O2 (Efficient use of land) and seeks amendment as follows: Land within the High Density Residential Zone is used efficiently for residential development that: 1. Increases housing supply and choice; 2. May be of a greater density and scale than the Medium Density Residential Zone; and 3. Contributes positively to a more intensive high-density urban living environment.
Retirement Villages Association of New Zealand Incorporated	350.160	Residential Zones / High Density Residential Zone / HRZ-O2	Amend	Considers that the current drafting of HRZ-O2 is inconsistent with Objectives 1 and 2 of the MDRS. Objectives 1 and 2 of the Act should be included in the Proposed Plan verbatim to their drafting in the MDRS. Questions what the context is in relation to contributing 'positively' to a changing and well-functioning urban environment. Considers that it is unclear what this would entail, particularly when considering that the definition of 'well functioning urban environment' consists of a list of positive / beneficial matters. Considers that it is not clear if this phrasing is stipulating that additional benefit is required in order to contribute 'positively'.	Seeks to amend HRZ-O2 (Efficient use of land) as follows: Land within the High Density Residential Zone is used efficiently for residential development that: 1. Increases housing supply and choice; 2. May be of a greater density and scale than the Medium Density Residential Zone; and 3. Contributes positively to a more intensive high-density urban living environment.
Waka Kotahi	370.330	Residential Zones / High Density Residential Zone / HRZ-O2	Support in part	Supports in part.	Retain HRZ-O2 (Efficient use of land) with amendments.
Waka Kotahi	370.331	Residential Zones / High Density Residential Zone / HRZ-O2	Amend	Considers that higher densities should be explicitly provided for and expected in the zone, to better align with the direction of the NPS-UD to achieve a compact urban form.	Amend HRZ-O2 (Efficient use of land) as follows: Land within the High Density Residential Zone is used efficiently for residential development that: 1. Increases housing supply and choice; 2. May be of a Provides for a greater density and scale than the Medium Density Residential Zone; and 3. Contributes positively to a more intensive high-density urban living environment.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.130	Residential Zones / High Density Residential Zone / HRZ-O2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-O2 (Efficient use of land) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.367	Residential Zones / High Density Residential Zone / HRZ-O2	Support	Considers that increasing density in Wellington in areas well serviced by transportation and facilities is an important part of reducing the city's carbon footprint; reducing congestion and improving economic and social wellbeing.	Retain HRZ-O2 (Efficient use of land) as notified.
Kāinga Ora Homes and Communities	391.437	Residential Zones / High Density Residential Zone / HRZ-O2	Support in part	Objective HRZ-O2 is generally supported, but amendments are sought.	Retain Objective HRZ-O2 (Efficient use of land) with amendment.
Kāinga Ora Homes and Communities	391.438	Residential Zones / High Density Residential Zone / HRZ-O2	Amend	Considers that HRZ-O2 should be amended to better reflect density outcomes anticipated in the HRZ as outlined elsewhere in the submission.	Amend Objective HRZ-O2 (Efficient use of land) as follows: Land within the High Density Residential Zone is used efficiently for residential development that: 1. Increases housing supply and choice; 2. May be <u>is</u> of a greater density and scale than the Medium Density Residential Zone;...
Willis Bond and Company Limited	416.74	Residential Zones / High Density Residential Zone / HRZ-O2	Support	Supports the direction of HRZ-O2 to provide for more density and scale than the Medium Density Residential Zone and for a more intensive high-density urban living environment. [Refer to original submission for full reason].	Retain HRZ-O2 (Efficient use of land) as notified.
Fire and Emergency New Zealand	273.191	Residential Zones / High Density Residential Zone / HRZ-O3	Support	Supports the policy as it promotes safe and accessible living environments.	Retain HRZ-O3 (Healthy, safe, and accessible living environments) as notified.
Disabled Persons Assembly New Zealand Incorporated	343.7	Residential Zones / High Density Residential Zone / HRZ-O3	Support	Supports objective HRZ-O3 as enabling ease of access for people of all ages and mobility.	Retain HRZ-O3 (Healthy, safe and accessible living environments) as notified. [Inferred decision requested]
Retirement Villages Association of New Zealand Incorporated	350.161	Residential Zones / High Density Residential Zone / HRZ-O3	Support	Considers that the current drafting of HRZ-O3 is inconsistent with Objective 1 and Policy 3 of the MDRS. In addition, notes that HRZ-O3 makes reference to 'accessible living environments'. Opposes regulation of internal environments as retirement village operators are best placed to understand the accessibility requirements of their residents and access is addressed by the Building Act.	Retain HRZ-O3 (Healthy, safe, accessible and attractive environments) and seeks amendment to delete reference to "accessible living environments".
Retirement Villages Association of New Zealand Incorporated	350.162	Residential Zones / High Density Residential Zone / HRZ-O3	Support	Considers that the current drafting of HRZ-O3 is inconsistent with Objective 1 and Policy 3 of the MDRS. In addition, notes that HRZ-O3 makes reference to 'accessible living environments'. Opposes regulation of internal environments as retirement village operators are best placed to understand the accessibility requirements of their residents and access is addressed by the Building Act.	Retain HRZ-O3 (Healthy, safe, accessible and attractive environments) as notified.
Retirement Villages Association of New Zealand Incorporated	350.163	Residential Zones / High Density Residential Zone / HRZ-O3	Amend	Considers that the current drafting of HRZ-O3 is inconsistent with Objective 1 and Policy 3 of the MDRS. In addition, notes that HRZ-O3 makes reference to 'accessible living environments'. Opposes regulation of internal environments as retirement village operators are best placed to understand the accessibility requirements of their residents and access is addressed by the Building Act.	Seeks to amend HRZ-O3 (Healthy, safe, accessible and attractive environments) to delete reference to "accessible living environments".
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.131	Residential Zones / High Density Residential Zone / HRZ-O3	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-O3 (Healthy, safe and accessible living environments) as notified.
WCC Environmental Reference Group	377.368	Residential Zones / High Density Residential Zone / HRZ-O3	Support	Considers that increased density needs to be done well: this objective gives an important signal to ensure that this is achieved.	Retain HRZ-O3 (Healthy, safe and accessible living environments) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.17	Residential Zones / High Density Residential Zone / HRZ-P1	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain HRZ-P1 (Enabled activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora – Homes and Communities	F589.9	Part 3 / Residential Zones / High Density Residential Zone / General HRZ	Oppose	Kāinga Ora opposes the deletion of this definition as it is uncertain how the deletion of the definition would affect existing activities that fall within this definition.	Disallow
Ara Poutama Aotearoa the Department of Corrections	240.18	Residential Zones / High Density Residential Zone / HRZ-P1	Oppose in part	<p>Considers that should Council see it as being absolutely necessary to implement the separate definition of “supported residential care activity”, then Ara Poutama requests that the enabled activities policies and permitted land use activity rules applying to supported residential care activities in the Medium Density Residential, High Density Residential, Large Lot Residential and Corrections zones are retained as notified.</p> <p>The permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities. Such activities are an important component of the rehabilitation and reintegration process for people under Ara Poutama’s supervision. They enable people and communities to provide for their social and cultural well-being and for their health and safety.</p>	Retain HRZ-P1.4 (Enabled activities) as notified if “supported residential care activity” definition and references to this term are retained.
Fire and Emergency New Zealand	273.192	Residential Zones / High Density Residential Zone / HRZ-P1	Support in part	Seeks to amend HRZ-P1 to enable the establishment of emergency service facilities in the High Density Residential zone. Considers emergency service activities, including the establishment of fire stations, are an integral part of providing for the health, safety, and wellbeing of people in the community.	Supports HRZ-P1 (Enabled activities), with amendment.
Fire and Emergency New Zealand	273.193	Residential Zones / High Density Residential Zone / HRZ-P1	Amend	Seeks to amend HRZ-P1 to enable the establishment of emergency service facilities in the High Density Residential zone. Considers emergency service activities, including the establishment of fire stations, are an integral part of providing for the health, safety, and wellbeing of people in the community.	<p>Amend HRZ-P1 (Enabled activities) as follows:</p> <p>Enable residential activities and other activities that are compatible with the purpose of the High Density Residential Zone, while ensuring their scale and intensity is consistent with the amenity values anticipated for the Zone, including:</p> <ol style="list-style-type: none"> 1. Home business; 2. Boarding houses; 3. Visitor accommodation; 4. Supported residential care; 5. Childcare services; and 6. Community gardens; <u>and</u> 7. <u>Emergency service facilities.</u>
Phillippa O'Connor	289.29	Residential Zones / High Density Residential Zone / HRZ-P1	Amend	Considers the scope of activities enabled in the Medium Density Residential zone are limited and do not align with current rule HRZ-R10 or proposed new rule HRZ-P11.	<p>Amend Policy HRZ-P1 (Enabled activities) as follows:</p> <p>Enable residential activities and other activities that are compatible with the purpose of the High Density Residential Zone, while ensuring their scale and intensity is consistent with the amenity values anticipated for the Zone, including:</p> <ol style="list-style-type: none"> 1. Home Business; 2. Boarding Houses; 3. Visitor Accommodation; 4. Supported Residential Care; 5. Childcare Services; and 6. Community Gardens.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.164	Residential Zones / High Density Residential Zone / HRZ-P1	Oppose	Considers that the policy appears to identify / support the permitted activities of the MDR Zone - being some residential activities (e.g. boarding houses, visitor accommodation and supported residential care), and some non-residential activities (e.g. home businesses, childcare services and community gardens). Considers that retirement villages are residential activities that should be permitted in the residential zones. Rather than listing retirement villages in this policy, considers that an enabling retirement village-specific policy (MRZ-P6) is more appropriate. Considers that while the policy is seeking to 'enable' the permitted activities in the zone, the phrasing of the policy qualifies this enabling provision by reference to a scale and intensity that is 'consistent with the amenity values anticipated for the zone'. Considers this part of MRZ-P1 conflicts with the MDRS in that it seeks to manage the form, scale and design of development in a manner that is inconsistent with the direction provided in the Enabling Housing Act for the MRZ. Considers that MRZ-P1 appears to summarise provisions provided elsewhere in the chapter, but in a confusing manner that does not provide any additional guidance for consent applicants or other users of the District Plan.	Delete HRZ-P1 (Enabled activities) in its entirety as notified.
Waka Kotahi	370.332	Residential Zones / High Density Residential Zone / HRZ-P1	Support in part	Supports in part.	Retain HRZ-P1 (Enabled activities) with amendments.
Waka Kotahi	370.333	Residential Zones / High Density Residential Zone / HRZ-P1	Amend	Considers that to support the higher densities, commercial activities (particularly at ground floor) should be enabled and encouraged where they are integrated with residential development	Amend HRZ-P1 (Enabled activities) as follows: Enable residential activities and other activities that are compatible with the purpose of the High Density Residential Zone, while ensuring their scale and intensity is consistent with the amenity values anticipated for the Zone, including: 1. Home business; 2. Boarding houses; 3. Visitor accommodation; 4. Supported residential care; 5. Childcare services; and 6. Community gardens. <u>7. Commercial activities where they are integrated with residential development.</u>
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.132	Residential Zones / High Density Residential Zone / HRZ-P1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-P1 (Enabled activities) as notified.
WCC Environmental Reference Group	377.369	Residential Zones / High Density Residential Zone / HRZ-P1	Support	Considers that increasing density in Wellington in areas well serviced by transportation and facilities is an important part of reducing the city's carbon footprint; reducing congestion and improving economic and social wellbeing.	Retain HRZ-P1 (Enabled activities) as notified.
Kāinga Ora Homes and Communities	391.439	Residential Zones / High Density Residential Zone / HRZ-P1	Support in part	Policy HRZ-P1 is generally supported, but amendments are sought.	Retain Policy HRZ-P1 (Enabled activities) and seeks amendment.
Kāinga Ora Homes and Communities	391.440	Residential Zones / High Density Residential Zone / HRZ-P1	Amend	Considers that the wording should be updated to better recognise the intent of the NPS-UD (particularly Policy 6) that recognises the planned urban built form and that change to existing amenity is not in itself an adverse effect.	Amend Policy HRZ-P1 (Enabled activities) as follows: Enable residential activities and other activities that are compatible with the purpose of the High Density Residential Zone, while ensuring their scale and intensity is consistent with the amenity values anticipated and planned built form of the Zone, including:
LIVE WELLington	FS96.34	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P1	Oppose	The proposal to delete the term 'amenity' from this point is opposed, along with all other attempts to remove 'amenity' from the Plan.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Roland Sapsford	FS117.33	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P1	Oppose	The proposal to delete the term 'amenity' from this point is opposed, along with all other attempts to remove 'amenity' from the Plan.	Disallow
Antony Wilkinson	11.1	Residential Zones / High Density Residential Zone / HRZ-P2	Oppose in part	Opposes HRZ-P2 on the grounds that increasing the height limit to 6 stories will negatively affect the character of the city and its suburbs. Population growth estimates from the Council are too optimistic and should not warrant six-story residential buildings being built.	Seeks that the height limit of up to 6 stories in HRZ-P2 (Housing supply and choice) be rescinded.
Khoi Phan	326.30	Residential Zones / High Density Residential Zone / HRZ-P2	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend HRZ-P2 (Housing supply and choice) as follows: Enable a variety of housing typologies with a mix of densities within the zone, including 3-storey attached and detached dwellings, low-rise apartments, and residential buildings of up to 6-15 storeys in height.
Retirement Villages Association of New Zealand Incorporated	350.165	Residential Zones / High Density Residential Zone / HRZ-P2	Support in part	Considers that the current drafting of HRZ-P2 generally aligns with the wording of Policy 1 of the Act, with amendments that respond to Policy 3 of the NPSUD. The drafting could be improved to clarify the references to 3-storeys and 6- storeys, which conflict on their face.	Retain HRZ-P2 as notified, subject to drafting improvements.
Waka Kotahi	370.334	Residential Zones / High Density Residential Zone / HRZ-P2	Support in part	Support in part.	Retain HRZ-P2 (Enable a variety of housing) with amendments.
Waka Kotahi	370.335	Residential Zones / High Density Residential Zone / HRZ-P2	Amend	Considers that higher densities should be explicitly provided for and expected in the zone, to better align with the direction of the NPS-UD to achieve a compact urban form. This should include provision for apartments of appropriate heights and dwellings of four storeys.	Amend HRZ-P2 (Enable a variety of housing) as follows: Enable a variety of housing typologies with a mix of densities within the zone, including 3- 4- storey townhouses attached and detached dwellings, and low-rise apartments of up to twelve storeys in height in suitable locations, and residential buildings of up to 6- storeys in height. <u>twelve storeys in height</u>
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.133	Residential Zones / High Density Residential Zone / HRZ-P2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-P2 (Housing supply and choice) as notified.
WCC Environmental Reference Group	377.370	Residential Zones / High Density Residential Zone / HRZ-P2	Support	Considers that provision for a wide variety of housing types is essential if we are to achieve the city's social, economic and environmental goals.	Retain HRZ-P2 (Housing supply and choice) as notified.
Kāinga Ora Homes and Communities	391.441	Residential Zones / High Density Residential Zone / HRZ-P2	Support in part	Policy HRZ-P2 is supported, but amendments are sought.	Retain Policy HRZ-P2 (Housing supply and choice) and seeks amendment.
Kāinga Ora Homes and Communities	391.442	Residential Zones / High Density Residential Zone / HRZ-P2	Amend	Considers amendments are needed to provide for a higher density.	Amend Policy HRZ-P2 (Housing supply and choice) as follows: Enable a variety of housing typologies with a mix of densities within the zone, including 36- storey attached and detached dwellings, low-rise apartments, and residential buildings of up to 6-12 storeys in height <u>located close to higher order centres.</u>
Greater Wellington Regional Council	FS84.75	Part 3 / Residential Zones / High Density Residential Zone / HRZP2	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Greater Wellington seek that additional provisions are included to give effect to the NPS-FM and have regard to Proposed RPS Change 1 to manage the effects of urban development on freshwater.
Willis Bond and Company Limited	416.75	Residential Zones / High Density Residential Zone / HRZ-P2	Support	Supports HRZ-P2, noting the storey limits mentioned in this policy do not preclude developments which do not meet permitted activity standard.	Retain HRZ-P2 (Housing supply and choice) as notified, on the basis HRZ-P5 (Developments not meeting permitted activity status) is also retained.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Disabled Persons Assembly New Zealand Incorporated	343.8	Residential Zones / High Density Residential Zone / HRZ-P3	Amend	Considers that replacing the term 'abilities' with 'impairments' in HRZ-P3 is more appropriate. Notes that using the term 'abilities' to refer to disabled people is regarded as euphemistic by many within the disabled community.	Amend HRZ-P3 (Housing needs) as follows: Enable housing to be designed to meet the day-to-day needs of residents, and encourage a variety of housing types, sizes and tenures to cater for people of all ages, lifestyles and abilities <u>impairments</u> . [Inferred decision requested]
Retirement Villages Association of New Zealand Incorporated	350.166	Residential Zones / High Density Residential Zone / HRZ-P3	Oppose	Considers that the current drafting of the first part of HRZ-P3 aligns with the wording of Policy 4 of the MDRS; however surplus to the requirements of the Act HRZ-P3 seeks to 'encourage a variety of housing types, sizes and tenures to cater for people of all ages, lifestyles and abilities', which is <u>generally already covered by HRZ-P2</u> .	Opposes HRZ-P3 (Housing needs) and seeks amendment
Retirement Villages Association of New Zealand Incorporated	350.167	Residential Zones / High Density Residential Zone / HRZ-P3	Amend	Considers that the current drafting of the first part of HRZ-P3 aligns with the wording of Policy 4 of the MDRS; however surplus to the requirements of the Act HRZ-P3 seeks to 'encourage a variety of housing types, sizes and tenures to cater for people of all ages, lifestyles and abilities', which is <u>generally already covered by HRZ-P2</u> .	Amend HRZ-P3 (Housing needs) as follows: Enable housing to be designed to meet the day-to-day needs of residents, and encourage a variety of housing types, sizes and tenures to cater for people of all ages, lifestyles and abilities.
Waka Kotahi	370.336	Residential Zones / High Density Residential Zone / HRZ-P3	Support in part	Support in part.	Retain HRZ-P3 (Housing needs) with amendment.
Waka Kotahi	370.337	Residential Zones / High Density Residential Zone / HRZ-P3	Amend	Considers that to support the higher densities, commercial activities (particularly at ground floor) should be enabled and encouraged where they are integrated with residential development	Amend HRZ-P3 (Housing needs) as follows: Enable housing to be designed to meet the day-to-day needs of residents, and encourage a variety of housing types, sizes and tenures, <u>and commercial activities where appropriately integrated into residential development</u> , to cater for people of all ages, lifestyles and abilities.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.134	Residential Zones / High Density Residential Zone / HRZ-P3	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-P3 (Housing needs) as notified.
WCC Environmental Reference Group	377.371	Residential Zones / High Density Residential Zone / HRZ-P3	Support	Considers that the policy sends an important signal about the quality of housing in high density areas: it is essential that density is done well, and that those living in such areas can do so in a way that meets their health and wellbeing.	Retain HRZ-P3 (Housing needs) as notified.
Kāinga Ora Homes and Communities	391.443	Residential Zones / High Density Residential Zone / HRZ-P3	Support in part	Policy HRZ-P3 is supported, but amendments are sought.	Retain Policy HRZ-P3 (Housing needs) and seeks amendment.
Kāinga Ora Homes and Communities	391.444	Residential Zones / High Density Residential Zone / HRZ-P3	Amend	Considers that an amendment to HRZ-P3 is required to remove reference to tenure to recognise that tenures cannot and should not be managed through the District Plan.	Amend Policy HRZ-P3 (Housing needs) as follows: Enable housing to be designed to meet the day-to-day needs of residents, and encourage a variety of housing types, <u>and sizes and tenures</u> to cater for people of all ages, lifestyles and abilities.
Willis Bond and Company Limited	416.76	Residential Zones / High Density Residential Zone / HRZ-P3	Support	Supports the direction of HRZ-P3 to provide for a variety of housing types, sizes and tenures.	Retain HRZ-P3 (Housing needs) as notified.
Retirement Villages Association of New Zealand Incorporated	350.168	Residential Zones / High Density Residential Zone / HRZ-P4	Support	Supports HRZ-P4 to the extent it aligns with Policy 2 of the MDRS. However, considers that the replacement of "all relevant residential zones" with reference to the HRZ creates interpretation issues as it suggests the medium density residential standards do not apply in parts of the HRZ (but not what standards apply instead). Areas subject to qualifying matters have not been zoned HRZ so that part of the policy is not required.	Retain HRZ-P4 (Medium density residential standards) and seeks amendment as follows: Apply the medium density residential standards across the High Density Residential Zone except in circumstances where a qualifying matter is relevant (including matters of significance such as historic heritage and the relationship of Māori and their culture and traditions with their ancestral lands, water, sites, wāhi tapu, and other taonga).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.169	Residential Zones / High Density Residential Zone / HRZ-P4	Amend	Supports HRZ-P4 to the extent it aligns with Policy 2 of the MDRS. However, considers that the replacement of “all relevant residential zones” with reference to the HRZ creates interpretation issues as it suggests the medium density residential standards do not apply in parts of the HRZ (but not what standards apply instead). Areas subject to qualifying matters have not been zoned HRZ so that part of the policy is not required.	Retain HRZ-P4 (Medium density residential standards) and seeks amendment as follows: Apply the medium density residential standards across the High Density Residential Zone except in circumstances where a qualifying matter is relevant (including matters of significance such as historic heritage and the relationship of Māori and their culture and traditions with their ancestral lands, – water, sites, wāhi tapu, and other taonga).
Waka Kotahi	370.338	Residential Zones / High Density Residential Zone / HRZ-P4	Support in part	Support in part.	Retain HRZ-P4 (Medium density residential standards) with amendments.
Waka Kotahi	370.339	Residential Zones / High Density Residential Zone / HRZ-P4	Amend	The submitter considers that given that higher densities and a more urban form are anticipated in the High Density Residential Zone, Waka Kotahi considers that the permitted level of development should be higher – to support the urban change outcomes in the NPS-UD.	Amend HRZ-P4 (Medium density residential standards) as follows: Apply the medium density residential standards across the High Density Residential Zone except in circumstances where a qualifying matter is relevant (including matters of significance such as historic heritage and the relationship of Māori and their culture and traditions with their ancestral lands, water, sites, wāhi tapu, and other taonga), <u>and enable higher permitted threshold of development due to the more urban character of the High Density Residential Zone.</u>
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.135	Residential Zones / High Density Residential Zone / HRZ-P4	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-P4 (Medium density residential standards) as notified.
WCC Environmental Reference Group	377.372	Residential Zones / High Density Residential Zone / HRZ-P4	Support	Considers the provision is reasonable in light of legitimate qualifying matters	Retain HRZ-P4 (Medium density residential standards) as notified.
Kāinga Ora Homes and Communities	391.445	Residential Zones / High Density Residential Zone / HRZ-P4	Support	Policy HRZ-P4 is supported.	Retain Policy HRZ-P4 (Medium density residential standards) as notified.
Willis Bond and Company Limited	416.77	Residential Zones / High Density Residential Zone / HRZ-P4	Amend	Support the application of the Medium Density Residential Zone standards to the High Density Residential Zone, however, these standards should apply as a minimum. The submitter considers that the High Density Residential Zone should be more permissive than the Medium Density Residential Zone. If this does not occur, then the submitter considers that the High Density Residential Zone will become a de facto Medium Density Residential Zone.	Amend HRZ-P4 (Medium density residential standards) to ensure the residential standards in the High Density Residential Zone are more permissive, and encourage denser and more intensive development than that permitted within the Medium Density Residential Zone.
Retirement Villages Association of New Zealand Incorporated	350.170	Residential Zones / High Density Residential Zone / HRZ-P5	Support	Supports HRZ-P5 as it aligns with Policy 5 of the MDRS.	Retain HRZ-P5 (Developments not meeting permitted activity status) as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.136	Residential Zones / High Density Residential Zone / HRZ-P5	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-P5 (Developments not meeting permitted activity status) as notified.
Kāinga Ora Homes and Communities	391.446	Residential Zones / High Density Residential Zone / HRZ-P5	Support	Policy HRZ-P5 is supported.	Retain Policy HRZ-P5 (Developments not meeting permitted activity status) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.78	Residential Zones / High Density Residential Zone / HRZ-P5	Support	Supports HRZ-P5 for developments that do not meet the permitted activity status. The submitter considers that this retains flexibility for quality development proposals.	Retain HRZ-P5 (Developments not meeting permitted activity status) as notified.
Survey & Spatial New Zealand Wellington Branch	439.39	Residential Zones / High Density Residential Zone / HRZ-P5	Amend	Considers that since this rule makes all multi-unit housing a RD activity and refers back to broad policies as matters of discretion, Council's scope is too broad for an RD activity. Considers this may risk failing to meet S77B, and Council is already required to consider relevant policies under 104(1)(b).	Amend HRZ-P5 (Developments not meeting permitted activity status) to: Provide for developments not meeting permitted activity status, while encouraging high-quality <u>developments buildings</u> .
Stratum Management Limited	249.20	Residential Zones / High Density Residential Zone / HRZ-P6	Amend	<p>Considers that policy HRZ-P6 (Multi-unit housing) relates to the provision of multi-unit housing. It seeks to provide for multi-unit housing where the development can demonstrate four factors.</p> <p>The first matter relates to 'fulfilling' the intent of the residential design guide. The residential design guide, as notified, contains 137 individual guidelines. Considers that it is unclear how, or at what point, any given multi-unit development can fulfil the intent of the design guide given that a design guide assessment is inherently a subjective assessment. Seeks clarification as to whether the intent of the design guide is fulfilled when a proposal is considered to achieve more than 50% of the applicable design guides for example?</p> <p>Considers that the approach to this matter is also inconsistent with the approach adopted by the City Centre zone. In that zone, the reference to the design guide is made within the matters for discretion of, for example, Rule CCZ-R20 (Construction of buildings and structures). It also omits reference to 'fulfilling the intent of' the design guide. This approach is preferred.</p> <p>The second matter requires the provision of a minimum area of private or shared open space. In the context of this policy, a multi-unit development that does not meet the minimum area standard should not be provided for. Notwithstanding that non-compliance with the standard can be considered through a resource consent process.</p> <p>Matter 3 requires the provision for on site management of waste storage and collection. This matter is also considered through the design guide. Stratum invites further consideration of the appropriate means to achieve this and suggests that there may be duplication across the policy and design guide.</p>	<p>Amend HRZ-P6 (Multi-unit housing) as follows:</p> <p>Delete matter (1);</p> <p>Delete the words 'a minimum area of' from matter (2);</p> <p>Consider whether the policy needs to address matters relating to waste storage and collection.</p>
Fire and Emergency New Zealand	273.194	Residential Zones / High Density Residential Zone / HRZ-P6	Support	Supports the policy as it provides for multi-unit housing and retirement villages where it can be demonstrated that the development can be adequately serviced by three waters infrastructure, or can address any constraints on the site	Retain HRZ-P6 (Multi-unit housing) as notified.
Phillippa O'Connor	289.30	Residential Zones / High Density Residential Zone / HRZ-P6	Amend	Considers that Reference to the Design Guide as a matter of discretion (by virtue of referring to Policy HRZ-P6 in the matters of discretion for activities requiring consent under HRZ-R2.2) is challenged and deletion sought accordingly. Given the prescriptive, yet subjective, nature of the assessment, elevating this Guide to a statutory requirement for compliance or assessment is not considered appropriate or commensurate in respect of a restricted discretionary activity assessment.	<p>Amend HRZ-P6 (Multi-unit housing) as follows:</p> <p>Provide for multi-unit housing where it can be demonstrated that the development:</p> <p>1. Fulfils the intent of the Residential Design Guide;</p> <p>1. 2. Provides a minimum area of private or shared outdoor living space that is sufficient to cater for the needs of future occupants;</p> <p>2. 3. Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; and</p> <p>3. 4. Is adequately serviced by three waters infrastructure or can address any constraints on the site.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Paihikara Ki Pōneke Cycle Wellington	302.44	Residential Zones / High Density Residential Zone / HRZ-P6	Support in part	[No specific reason given beyond decision requested - refer to original submission].	Retain HRZ-P6 (Multi-unit housing) with amendment.
Paihikara Ki Pōneke Cycle Wellington	302.45	Residential Zones / High Density Residential Zone / HRZ-P6	Amend	Considers that HRZ-P6 should be amended, as multi-unit housing and other non-residential activities and building cannot require car parking as set out in the NPS-UD. Developments should provide adequate and appropriately located cycle and micromobility parking to align with infrastructure and transport objectives in the PDP.	Amend HRZ-P6 (Multi-unit housing) as follows: Provide for multi-unit housing where it can be demonstrated that the development: <ol style="list-style-type: none">1. Fulfils the intent of the Residential Design Guide;2. Provides a minimum area of private or shared outdoor living space that is sufficient to cater for the needs of future occupants;3. Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; and4. Is adequately serviced by three waters infrastructure or can address any constraints on the site.5. Provides an adequate and appropriately located area on site for cycle and micromobility parking and charging;6. Adequate cycle facilities are accessible, secure, and covered (protected from weather)
Z Energy Limited	361.19	Residential Zones / High Density Residential Zone / HRZ-P6	Amend	Considers that as it stands, the PDP will enable the construction and use of three dwellings on properties that share a common boundary with the Z on Constable Street, with a maximum height of 11m and more permissive building recession planes, as a permitted activity. In addition, resource consents may be obtained as a restricted discretionary activity to construct buildings on these properties up to 25m in height with no limit to the number of residential units (i.e.: density). These greater residential densities and more permissive building standards are likely to generate greater potential for reverse sensitivity effects that may affect the ongoing operation, maintenance and upgrade of Z facilities which are a physical resource that must be managed under the Act. Several of Z Energy's service stations either directly adjoin or are located in close proximity. The proposed changes to the residential zone provisions and consequential increase in development potential on these surrounding sites have the potential to generate reverse sensitivity effects including nuisance effects (e.g. noise, lighting and odour displacement) and amenity effects. For instance, an occupier on a third storey apartment building is more likely to perceive noise and visual effects compared to an occupier of single storey dwelling which is less elevated and, more than likely, screened by a fence and landscaping. [Refer to original submission, including table of Z sites]	Amend HRZ-P6 (Multi-unit housing) as follows: Provide for multi-unit housing where it can be demonstrated that the development: <ol style="list-style-type: none">1. Fulfils the intent of the Residential Design Guide;2. Provides a minimum area of private or shared outdoor living space that is sufficient to cater for the needs of future occupants;3. Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; and4. Is adequately serviced by three waters infrastructure or can address any constraints on the site.5. <u>Manages reverse sensitivity effects on existing lawfully established non-residential activities.</u>
Kāinga Ora – Homes and Communities	FS89.156	Part 3 / Residential Zones / High Density Residential Zone / HRZP6	Oppose	Kāinga Ora opposes the decision sought relating to recognition of reverse sensitivity in matters of discretion due to potential impacts on residential intensification.	Disallow
Waka Kotahi	370.340	Residential Zones / High Density Residential Zone / HRZ-P6	Support in part	Supports in part.	Retain HRZ-P6 (Multi-unit housing) with amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.341	Residential Zones / High Density Residential Zone / HRZ-P6	Amend	Considers that multi-unit housing should be appropriately designed and insulated to mitigate noise effects from the existing environment in the interests of the human health of occupants. considers that commercial activities should be encouraged and supported where appropriate and integrated with residential development.	Amend HRZ-P6 (Multi-unit housing) as follows: ... 3. Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; and 4. Is adequately serviced by three waters infrastructure or can address any constraints on the site.; <u>and</u> <u>5. Where located in proximity to legally established activities that emit noise (such as State Highways), buildings for noise sensitive activities are designed to mitigate noise and vibration effects to occupants.</u> <u>6. For higher density developments, options to incorporate mixed-uses such as commercial activities have been explored.</u>
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.137	Residential Zones / High Density Residential Zone / HRZ-P6	Support in part	HRZ-P6 is partially supported, but amendments are required for proposed residential developments that adjoin or are in close proximity to lawfully established non-residential activities where reverse sensitivity effects might occur.	Retain HRZ-P6 (Multi-unit housing) with amendment.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.138	Residential Zones / High Density Residential Zone / HRZ-P6	Amend	Considers that HRZ-P6 should be amended to better protect larger-scale and higher-density residential developments where they have been appropriately designed to manage reverse sensitivity where there is an interface with a Commercial or Mixed-Use Zone, or with lawfully established non-residential activities. Amendments are required for proposed residential developments that adjoin or are in close proximity to lawfully established non-residential activities where reverse sensitivity effects might occur. The following relief appropriately gives effect to design principle 1(c): 'The Site' of the National Medium Density Design Guide (Ministry for the Environment, May 2022) which encourages new development to respond to existing or proposed nearby non-residential activities.	Amend HRZ-P6 (Multi-unit housing) as follows: Provide for multi-unit housing where it can be demonstrated that the development: 1. Fulfils the intent of the Residential Design Guide; 2. Provides a minimum area of private or shared outdoor living space that is sufficient to cater for the needs of future occupants; 3. Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; and 4. Is adequately serviced by three waters infrastructure or can address any constraints on the site. <u>5. Manages reverse sensitivity effects on existing lawfully established non-residential activities.</u>
Kāinga Ora – Homes and Communities	FS89.49	Part 3 / Residential Zones / High Density Residential Zone / HRZ – P6	Oppose	Kāinga Ora opposes the relief sought due to potential impacts on the scale of residential intensification.	Disallow
The Retirement Villages Association of New Zealand Incorporated	FS126.16	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P6	Oppose	The RVA opposes the relief sought in these submission points as reverse sensitivity should be managed through appropriate setback provisions rather than requiring activities contemplated in the zone to manage the effects of activities outside the zone.	Disallow
Ryman Healthcare Limited	FS128.16	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P6	Oppose	Ryman opposes the relief sought in these submission points as reverse sensitivity should be managed through appropriate setback provisions rather than requiring activities contemplated in the zone to manage the effects of activities outside the zone.	Disallow
Envirowaste Services Ltd	373.18	Residential Zones / High Density Residential Zone / HRZ-P6	Support in part	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-P6 (Multi-unit housing) with amendment.
Envirowaste Services Ltd	373.19	Residential Zones / High Density Residential Zone / HRZ-P6	Amend	Considers that the collection of waste from multi-unit housing sites needs the waste storage areas to be accessed by rubbish trucks or conveniently walked to the kerb for pickup. Specific consideration of the accessibility of waste collection by collection trucks needs to be ensured.	Seeks that specific consideration of the accessibility of waste collection by collection truck be ensured in HRZ-P6 (Multi-unit housing).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.373	Residential Zones / High Density Residential Zone / HRZ-P6	Amend	Seeks that there is a need to ensure multi-unit developments reduce reliance on travel by private motor vehicle when considered for consenting.	Amend HRZ-P6 (Multi-unit housing) to add a new Point 5 to the list, as follows: ... <u>5. Reduce reliance on travel by private motor vehicle.</u>
Kāinga Ora Homes and Communities	391.447	Residential Zones / High Density Residential Zone / HRZ-P6	Support in part	Policy HRZ-P6 is generally supported, but amendments are sought.	Retain Policy HRZ-P6 (Multi-unit housing) and seeks amendment.
Kāinga Ora Homes and Communities	391.448	Residential Zones / High Density Residential Zone / HRZ-P6	Amend	Seeks amendments to Policy HRZ-P6. Considers that residential development should be considered on the basis of its effects and merits rather than specifically on typology or the scale/collective number of dwellings. Therefore is requesting deletion of 'multiunit housing' as a separate activity type from stand-alone houses or any other residential typology for the purposes of the zone rules and standards. Also considers that the policy should allow reference to more than three residential units on a site as they are managed through resource consent process.	Amend Policy HRZ-P6 (Multi-unit housing) as follows: Multi-unit housing <u>Higher density residential development</u> Provide for multi-unit housing <u>more than six residential units per site</u> where it can be demonstrated that the development: 1. Fulfills the intent of the Residential Design Guide <u>Achieves the following urban design outcomes:</u> <u>a. Provides an effective public private interface;</u> <u>b. The scale, form, and appearance of the development is compatible with the planned urban built form of the neighbourhood;</u> <u>c. Provides high quality buildings;</u> <u>d. Responds to the natural environment;</u> 2. Provides a minimum area of private or shared outdoor living space that is sufficient to cater for the needs of future occupants; 3. Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; and 4. Is adequately able to be serviced by three waters infrastructure or can address any water <u>constraints on the site.</u>
Onslow Residents Community Association	FS80.33	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P6	Oppose	[No specific reason given beyond decision requested - refer to further submission]	Disallow / Seeks to retain greater guarantees of proportionate and quality development than the unquantified terms proposed.
Wellington's Character Charitable Trust	FS82.147	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P6	Oppose	Considers the submission is more enabling than MDRS requirements without adequate justification.	Disallow
Willis Bond and Company Limited	416.79	Residential Zones / High Density Residential Zone / HRZ-P6	Amend	Submitter considers that the matters in clauses 1, 2 and 4 can be addressed elsewhere and do not meet the section 32, Resource Management Act 1991 tests for appropriateness. In particular: • The Residential Design Guide should be non-statutory [Refer to original submission for full reason]. • External areas should not be mandated [Refer to original submission for full reason]. As drafted, these additional requirements for multi-unit housing (which do not apply to housing which complies with the Medium Density Residential Zone standards) may defeat the purpose of the High Density Residential Zone which is to provide for more intensive development than that permitted within the Medium Density Residential Zone.	Amend HRZ-P6 (Multi-unit housing) as follows: Multi-unit housing Provide for multi-unit housing where it can be demonstrated that the development: 1. Fulfills the intent of the Residential Design Guide; 2. Provides a minimum area of private or shared outdoor living space that is sufficient to cater for the needs of future occupants; 3. Provides an adequate and appropriately located area on site for the management, storage and collection of all waste, recycling and organic waste potentially generated by the development; and 4. Is adequately serviced by three waters infrastructure or can address any constraints on the site.
The Retirement Villages Association of New Zealand Incorporated	FS126.254	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P6	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested

Ryman Healthcare Limited	FS128.139	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P7	Not specified	Ryman supports the intent of the policy and agrees with the removal of the design guides, however Ryman opposes the submission point seeking to include new urban design outcomes. It is not clear what 'responds to the natural environment' is intended to entail, and the new outcomes are inconsistent with the relief sought in Ryman's primary submission.	Amend / Disallow the submission point in favour of the relief sought within Ryman's primary submission.
Fire and Emergency New Zealand	273.196	Residential Zones / High Density Residential Zone / HRZ-P8	Support	Supports the policy as it provides for a range of residential buildings and structures, including additions and alterations, that provide for healthy, safe and accessible living environments.	Retain HRZ-P8 (Residential buildings and structures) as notified.
Philip O'Reilly and Julie Saddington	310.2	Residential Zones / High Density Residential Zone / HRZ-P8	Amend	HRZ-P8 is weak in giving guidance on managing the interface between the Character Precincts and other zones and should be amended to have an additional sub-point. Adding this additional sub-point will result in the same outcome of improved management between the High Density Residential and Character Precincts.	Amend HRZ-P8 (Residential buildings and structures) as follows: ... 4. Achieve attractive and safe streets; <u>and</u> 5. <u>Where these buildings and structures are in a site adjacent to a character and heritage precinct, their form and scale be sympathetic towards the identified Character Precinct and heritage precinct values.</u>
Retirement Villages Association of New Zealand Incorporated	350.173	Residential Zones / High Density Residential Zone / HRZ-P8	Oppose in part	Considers it is not clear whether MRZ-P8 [HRZ-P8] applies to retirement villages, given MRZ-P7 [HRZ-P7] is a more specific policy. The RVA seeks that this policy does not apply to retirement villages.	Opposes HRZ-P8 (Residential buildings and structures) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.174	Residential Zones / High Density Residential Zone / HRZ-P8	Amend	Considers it is not clear whether MRZ-P8 [HRZ-P8] applies to retirement villages, given MRZ-P7 [HRZ-P7] is a more specific policy. The RVA seeks that this policy does not apply to retirement villages.	Amend HRZ-P8 (Residential buildings and structures) to clarify that it does not apply to retirement villages.
Waka Kotahi	370.345	Residential Zones / High Density Residential Zone / HRZ-P8	Support in part	Supports in part.	Retain HRZ-P8 (Residential buildings and structures) with amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.346	Residential Zones / High Density Residential Zone / HRZ-P8	Amend	Considers that multi-unit housing should be appropriately designed and insulated to mitigate noise effects from the existing environment in the interests of the human health of occupants. Considers that commercial activities should be encouraged and supported where appropriate and integrated with residential development.	Amend HRZ-P8 (Residential buildings and structures) as follows: ... 4. Achieve attractive and safe streets, <u>and</u> 5. <u>Where located in proximity to legally established activities that emit noise (such as State Highways), are designed to mitigate noise and vibration effects on sensitive receivers;</u> 6. <u>For higher density developments, options to incorporate mixed-uses such as commercial activities at ground floor have been explored.</u>
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.140	Residential Zones / High Density Residential Zone / HRZ-P8	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-P8 (Residential buildings and structures) as notified.
WCC Environmental Reference Group	377.375	Residential Zones / High Density Residential Zone / HRZ-P8	Support	HRZ-P8 is supported as it is important in ensuring that density is done well.	Retain HRZ-P8 (Residential buildings and structures) as notified.
Kāinga Ora Homes and Communities	391.451	Residential Zones / High Density Residential Zone / HRZ-P8	Support	Policy HRZ-P8 is generally supported.	Retain HRZ-P8 (Residential buildings and structures) as notified.
Trelissick Park Group	168.24	Residential Zones / High Density Residential Zone / HRZ-P9	Amend	Considers that HRZ-P9 is too vague and should be amended to require at least neutral or lesser stormwater runoff, compared with pre-development.	Amend HRZ-P9 (Permeable surface) to require neutral or lesser stormwater runoff, compared with pre-development.
Tyers Stream Group	221.74	Residential Zones / High Density Residential Zone / HRZ-P9	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks amendment to HRZ-P9 (Permeable surface) so that the level of permeable surface is proportionate to the extent of hard surface increase from the development.
Wellington City Council	266.143	Residential Zones / High Density Residential Zone / HRZ-P9	Oppose in part	Considers that given this is not a building provision, but a three waters/infrastructure provision, it is more logical to locate this policy in the THW chapter. Note: HRZ-P9 and HRZ-S10 are to be relocated to THW – see new THW-P6 and THW-R7.	Delete HRZ-P9 (Permeable Surface) in its entirety. Consequential renumbering of HRZ-P10 to HRZ-P14 to reflect change in numbering.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.141	Residential Zones / High Density Residential Zone / HRZ-P9	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-P9 (Permeable surface) as notified.
WCC Environmental Reference Group	377.376	Residential Zones / High Density Residential Zone / HRZ-P9	Support	HRZ-P9 is supported as it is important in ensuring that increased density manages risks of stormwater runoff including risks to water quality and flooding.	Retain HRZ-P9 (Permeable surface) as notified.
Kāinga Ora Homes and Communities	391.452	Residential Zones / High Density Residential Zone / HRZ-P9	Support in part	Policy HRZ-P9 is generally supported, but amendments are sought.	Supports Policy HRZ-P9 (Permeable surface) and seeks amendment.
Kāinga Ora Homes and Communities	391.453	Residential Zones / High Density Residential Zone / HRZ-P9	Amend	Considers that an amendment is required to HRZ-P9 to relate to sufficient permeable surface provision rather than a minimum. There may be instances where stormwater runoff effects can be mitigated by a lower level of permeable surface area and the policy should recognise this.	Amend Policy HRZ-P9 (Permeable surface) as follows: Require development to provide a minimum level of sufficient permeable surface <u>area</u> to assist with reducing the rate and amount of storm water run-off.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Tyers Stream Group	221.75	Residential Zones / High Density Residential Zone / HRZ-P10	Amend	Considers that new 'landscaping' should be required, not just 'sought'.	Amend HRZ-P10 (Vegetation and landscaping) as follows: Encourage the retention of existing vegetation, particularly native vegetation and visually prominent trees that may not otherwise be protected, and where vegetation is proposed to be removed, seek <u>require</u> new landscaping of equal or better quality to help integrate new development into the surrounding environment and minimise hard surfacing.
Retirement Villages Association of New Zealand Incorporated	350.175	Residential Zones / High Density Residential Zone / HRZ-P10	Oppose in part	Considers that the requirement to provide "equal or better quality" vegetation where existing vegetation is removed is unlikely to be feasible alongside residential intensification.	Opposes HRZ-P10 (Vegetation and landscaping) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.176	Residential Zones / High Density Residential Zone / HRZ-P10	Amend	Considers that the requirement to provide "equal or better quality" vegetation where existing vegetation is removed is unlikely to be feasible alongside residential intensification.	Amend HRZ-P10 (Vegetation and landscaping) to encourage new landscaping but delete reference to "equal or better quality."
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.142	Residential Zones / High Density Residential Zone / HRZ-P10	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-P10 (Vegetation and landscaping) as notified.
WCC Environmental Reference Group	377.377	Residential Zones / High Density Residential Zone / HRZ-P10	Support	HRZ-P10 is supported as it is important to assist with reducing unnecessary loss of vegetation, with benefits to biodiversity, pleasantness and amenity, as well as helping reduce the rate and amount of storm water run-off.	Retain HRZ-P10 (Vegetation and landscaping) as notified.
Director-General of Conservation	385.82	Residential Zones / High Density Residential Zone / HRZ-P10	Support	Supports the use of policy which encourages the retention of existing vegetation (including native vegetation) that would otherwise be unprotected under the Proposed District Plan.	Retain HRZ-P10 (Vegetation and landscaping) as notified.
Kāinga Ora Homes and Communities	391.454	Residential Zones / High Density Residential Zone / HRZ-P10	Support	Policy HRZ-P10 is generally supported.	Retain Policy HRZ-P10 (Vegetation and landscaping) as notified.
Willis Bond and Company Limited	416.81	Residential Zones / High Density Residential Zone / HRZ-P10	Amend	Considers that the retention of existing vegetation (other than protected vegetation) is difficult to reconcile with the more intensive urban built form encouraged in the High Density Residential Zone.	Option 1: Delete HRZ-P10 (Vegetation and landscaping) in its entirety.
Willis Bond and Company Limited	416.82	Residential Zones / High Density Residential Zone / HRZ-P10	Amend	Considers that the retention of existing vegetation (other than protected vegetation) is difficult to reconcile with the more intensive urban built form encouraged in the High Density Residential Zone.	Option 2: Amend HRZ-P10 (Vegetation and landscaping) to acknowledge the greater intensity encouraged in the High Density Residential Zone.
Retirement Villages Association of New Zealand Incorporated	350.177	Residential Zones / High Density Residential Zone / HRZ-P11	Support	Supports HRZ-P11 as it aligns with Policy 3 of the MDRS.	Retain HRZ-P11 (Attractive and safe streets and public open spaces) as notified.
Waka Kotahi	370.347	Residential Zones / High Density Residential Zone / HRZ-P11	Support	Support policy wording as it requires consideration of passive surveillance.	Retain HRZ-P11 (Attractive and safe streets and public open spaces) as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.143	Residential Zones / High Density Residential Zone / HRZ-P11	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-P11 (Attractive and safe streets and public open spaces) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.378	Residential Zones / High Density Residential Zone / HRZ-P11	Support	HRZ-P11 is supported as it will help ensure attractiveness at street level, as well as provide for passive surveillance: designing for safety is highly important in built environments.	Retain HRZ-P11 (Attractive and safe streets and public open spaces) as notified.
Kāinga Ora Homes and Communities	391.455	Residential Zones / High Density Residential Zone / HRZ-P11	Support	Policy HRZ-P11 is generally supported.	Retain Policy HRZ-P11 (Attractive and safe streets and public open spaces) as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.144	Residential Zones / High Density Residential Zone / HRZ-P12	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-P12 (Community gardens, urban agriculture and waste minimisation) as notified.
Envirowaste Services Ltd	373.22	Residential Zones / High Density Residential Zone / HRZ-P12	Support	HRZ-P12 is supported as it will encourage the diversion of waste appropriately. The definition for community gardens does not allow for composting of food waste specifically, which may preclude the undertaking of food waste composting. [Submitter identified HRZ-P14 (Non-residential activities and buildings) instead of HRZ-P12 (Community gardens, urban agriculture and waste minimisation); submission points have been changed to refer to HRZ-P12]	Retain HRZ-P12 (Community gardens, urban agriculture and waste minimisation) as notified.
WCC Environmental Reference Group	377.379	Residential Zones / High Density Residential Zone / HRZ-P12	Support	Considers that the policy will help compensate for residents having less available green space, and provide for community building and public health, as well as potential infrastructure for green waste recycling at a local scale: important for the circular economy.	Retain HRZ-P12 (Community gardens, urban agriculture and waste minimisation) as notified.
Kāinga Ora Homes and Communities	391.456	Residential Zones / High Density Residential Zone / HRZ-P12	Support	Policy HRZ-P12 is generally supported.	Retain Policy HRZ-P12 (Community gardens, urban agriculture and waste minimisation) as notified.
VicLabour	414.32	Residential Zones / High Density Residential Zone / HRZ-P12	Support	Supports provision for community gardens and urban agriculture and considers a green city and more community spaces is needed.	Retain HRZ-P12 (Community gardens, urban agriculture and waste minimisation) as notified. [Inferred decision requested]
Te Rūnanga o Toa Rangatira	488.77	Residential Zones / High Density Residential Zone / HRZ-P12	Support	Supports policy HRZ-P12 in the High-Density Residential Zone Chapter, as provisions for community gardens and circular production supports more sustainable living which is beneficial in response to climate change.	Retain HRZ-P12 (Community gardens, urban agriculture and waste minimisation) as notified.
Property Council New Zealand	338.12	Residential Zones / High Density Residential Zone / HRZ-P13	Amend	Considers that incentives for large developments that can demonstrate a City Outcomes Contribution (such as priority consenting) would establish a quid pro quo system and enable growth rather than placing additional obstacles for large-scale development to occur.	Seeks that incentives be provided to encourage but not require large developments to deliver City Outcomes Contributions.
The Retirement Villages Association of New Zealand Incorporated	FS126.204	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P13	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.204	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P13	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Disabled Persons Assembly New Zealand Incorporated	343.9	Residential Zones / High Density Residential Zone / HRZ-P13	Support	Supports policy HRZ-P13 and widest possible application of the City Outcomes Contribution through the Environmental and Accessibility Performance Fund established by the WCC in order to incentivise the building of housing and public buildings to Universal Design standards. [Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]	Retain HRZ-P13 (City Outcomes Contribution) as notified. [Inferred decision requested]
Disabled Persons Assembly New Zealand Incorporated	343.10	Residential Zones / High Density Residential Zone / HRZ-P13	Support	Supports policy HRZ-P13 and widest possible application of the City Outcomes Contribution through the Environmental and Accessibility Performance Fund established by the WCC in order to incentivise the building of housing and public buildings to Universal Design standards. [Submitter has referenced Centres and Mixed Use Design Guide in their submission rather than the Residential Design Guide.]	Retain HRZ-P13 (City Outcomes Contribution) as notified. [Inferred decision requested]
Retirement Villages Association of New Zealand Incorporated	350.178	Residential Zones / High Density Residential Zone / HRZ-P13	Oppose	Opposes the inclusion of the City Outcomes Contribution requirements of HRZ-P13 and considers that any requirements associated with developments that are under or over height should directly relate to mitigation of potential or actual effects. Considers that the policy would create barriers that strongly conflict with the need to resolve the housing crisis and address the needs of the rapidly growing aging population.	Delete HRZ-P13 (City Outcomes Contribution) in its entirety as notified.
Waka Kotahi	370.348	Residential Zones / High Density Residential Zone / HRZ-P13	Support in part	Supports in part.	Retain HRZ-P13 (City outcomes contribution) with amendments.
Waka Kotahi	370.349	Residential Zones / High Density Residential Zone / HRZ-P13	Amend	Considers that commercial activities should be encouraged and supported where appropriate and integrated with residential development.	Amend HRZ-P13 (City Outcomes Contribution) as follows: 5. Enabling ease of access for people of all ages and mobility.; and/or 6. Incorporating non-residential uses to provide for mixed use development.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.145	Residential Zones / High Density Residential Zone / HRZ-P13	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-P13 (City Outcomes Contribution) as notified.
Kāinga Ora Homes and Communities	391.457	Residential Zones / High Density Residential Zone / HRZ-P13	Oppose	Policy HRZ-P13 is opposed and amendment is sought.	Opposes Policy HRZ-P13 (City Outcomes Contribution) and amendment is sought.
The Retirement Villages Association of New Zealand Incorporated	FS126.140	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P13	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission to remove the design guides in full.	Disallow
Ryman Healthcare Limited	FS128.140	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P13	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission to remove the design guides in full.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.458	Residential Zones / High Density Residential Zone / HRZ-P13	Amend	Considers that amendments are required to Policy HRZ-P13 to instead encourage positive outcomes for development in the HRZ. [See original submission for further details]	Amend Policy HRZ-P13 (City Outcomes Contributions) as follows: Require over height, large scale residential development in the High Density Residential Zone to contribute to positive outcomes <u>Encourage</u> development in the High Density Residential Zone to contribute to positive outcomes deliver City Outcomes Contributions as detailed and scored in the Residential Design Guide, including through either: 1. Positively contributing to public space provision and the amenity of the site and surrounding area; and/or 2. Incorporating a level of building performance that leads to reduced carbon emissions and increased climate change resilience; and/or 3. Incorporating construction materials that increase the lifespan and resilience of the development and reduce ongoing maintenance costs; and/or 4. Incorporating assisted housing into the development, and where this is provided legal instruments are required to ensure that it remains assisted housing for at least 25 years; and/or 5.4. Enabling ease of access for people of all ages and mobility.
The Retirement Villages Association of New Zealand Incorporated	FS126.141	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P13	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission to remove the design guides in full.	Disallow
Ryman Healthcare Limited	FS128.141	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P13	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission to remove the design guides in full.	Disallow
Investore Property Limited	405.55	Residential Zones / High Density Residential Zone / HRZ-P13	Oppose	Considers that the 'City Outcomes Contributions' provisions are inappropriate. Specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development which he submitter considers is inappropriate. Developments that breach height standards should instead be considered on their own merits and effects. [Refer to original submission for full reason, including attachment]	Seeks that HRZ-P13 (City Outcomes Contribution) is deleted in its entirety as notified.
VicLabour	414.33	Residential Zones / High Density Residential Zone / HRZ-P13	Support in part	Supportive of the inclusion of a points based system to allow developments outside of some of the rules in the PDP if they provide other benefits (the city outcomes contribution mechanism) but considers it an example of how arbitrary and excessive many of these regulations are, particularly around height and character protections.	Seeks to retain points based system to allow developments outside of some of the rules in the PDP if they provide other benefits. [Inferred decision requested]
Willis Bond and Company Limited	416.83	Residential Zones / High Density Residential Zone / HRZ-P13	Amend	The submitter considers that while they are generally supportive of the City Outcomes Contribution, there needs to be a level of certainty that the significant investment required to deliver these outcomes will result in material and reliable intensifications (be it height, floor area ratio, etc). As currently drafted, the initiative remains "subject to" numerous other mechanisms in the plan, potentially rendering it ineffective, despite its good intentions. HRZ-P13 is also phrased to "require" City Outcomes Contributions, rather than to provide a clear incentive for meeting the requested outcomes. The City Outcomes Contribution should be reviewed to reflect any amendments made to CCZ-P11 and the relevant provisions in the Design Guides.	Seeks that HRZ-P13 (City Outcomes Contribution) be reconsidered following any amendments to the City Outcomes Contribution within the City Centre Zone.
The Retirement Villages Association of New Zealand Incorporated	FS126.256	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P13	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.256	Part 3 / Residential Zones / High Density Residential Zone / HRZ-P13	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fabric Property Limited	425.49	Residential Zones / High Density Residential Zone / HRZ-P13	Oppose	<p>Opposed to the 'City Outcomes Contributions' provisions, and specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development. While Fabric recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list.</p> <p>The 'City Outcomes Contributions' have the potential to act as a disincentive for development, which conflicts with the Proposed Plan strategic objectives and NPS-UD requirements of providing development capacity and providing for urban intensification. This would not achieve the aim of "density done well" as stated in the Design Guide.</p> <p>Seeks that all references to the City Outcomes Contributions be removed from the Proposed Plan and design guides.</p>	Delete HRZ-P13 (City Outcomes Contribution) in its entirety.
McDonald's Restaurants New Zealand Limited	FS45.9	Part 3 / Residential Zones / High Density Residential Zone / HRZP13	Support	McDonald's Restaurants New Zealand Limited supports these submissions seeking deletion of the City Outcomes Contributions. While MRNZL recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list.	Allow
Fire and Emergency New Zealand	273.197	Residential Zones / High Density Residential Zone / HRZ-P14	Support	Supports the policy as it enables non-residential activities and buildings that support the needs of the local communities which provides for emergency service facilities to locate in this zone. This policy also supports non-residential activities that maintain the safety of the transport network and are adequately serviced by three waters infrastructure	Retain HRZ-P14 (Non-residential activities, excluding retirement villages, supported residential care activities, and boarding houses) as notified.
Phillippa O'Connor	289.31	Residential Zones / High Density Residential Zone / HRZ-P14	Amend	Considers that Non-residential activities (being activities already contemplated by the zone by way of restricted discretionary or discretionary activities, or ones that infringe the zone standards) should be able to be accommodated in the zone if they can demonstrate the requirements of the policy.	<p>Amend HRZ-P14 (Non-residential activities and buildings) as follows:</p> <p>Only Allow non-residential activities and buildings that:</p> <ol style="list-style-type: none"> 1. Support the needs of local communities; 2. Are of an intensity, scale and design that is consistent with the amenity values anticipated for the Zone; 3. Contribute positively to the urban environment and achieve attractive and safe streets; 4. Reduce reliance on travel by private motor vehicle; 5. Maintain the safety and efficiency of the transport network; and 6. Are adequately serviced by three waters infrastructure or can address any constraints on the site.
Paihikara Ki Pōneke Cycle Wellington	302.46	Residential Zones / High Density Residential Zone / HRZ-P14	Support in part	[No specific reason given beyond decision requested - refer to original submission].	Retain HRZ-P14 (Non-residential activities and buildings) with amendment.
Paihikara Ki Pōneke Cycle Wellington	302.47	Residential Zones / High Density Residential Zone / HRZ-P14	Amend	Considers that HRZ-P14 should be amended, as multi-unit housing and other non-residential activities and building cannot require car parking as set out in the NPS-UD. Developments should provide adequate and appropriately located cycle and micromobility parking to align with infrastructure and transport objectives in the PDP.	<p>Amend HRZ-P14 (Non-residential activities and buildings) as follows:</p> <p>Only allow non-residential activities and buildings that:</p> <p>....</p> <ol style="list-style-type: none"> 6. Are adequately serviced by three waters infrastructure or can address any constraints on the site. 7. Provides an adequate and appropriately located area on site for cycle and micromobility parking and charging; 8. Adequate cycle facilities are accessible, secure, and covered (protected from weather)

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.43	Residential Zones / High Density Residential Zone / HRZ-P14	Amend	Considers that HRZ-P14 should be amended to clarify wording relative to the discretionary activity status of various non-residential activities and buildings provided for within the High Density Residential zone as restricted discretionary activities, and the provision of all other activities as discretionary activities.	Amend HRZ-P14 (Non-residential activities and buildings) as follows: Only Allow non-residential activities and buildings that: 1. Support the needs of local communities; 2. Are of an intensity, scale and design that is consistent with the amenity values anticipated for the Zone; 3. Contribute positively to the urban environment and achieve attractive and safe streets; 4. Reduce reliance on travel by private motor vehicle; 5. Maintain the safety and efficiency of the transport network; and 6. Are adequately serviced by three waters infrastructure or can address any constraints on the site; <u>7. Can demonstrate an operational or functional need to locate within the zone.</u>
Waka Kotahi	370.350	Residential Zones / High Density Residential Zone / HRZ-P14	Support in part	Supports in part.	Retain HRZ-P14 (Non-residential activities and buildings), with amendments.
Waka Kotahi	370.351	Residential Zones / High Density Residential Zone / HRZ-P14	Amend	Considers that commercial activities should be encouraged and supported where appropriate and integrated with residential development.	Amend HRZ-P14 (Non-residential activities and buildings) as follows: ... 1. Maintain the safety and efficiency of the transport network; and 2. Are adequately serviced by three waters infrastructure or can address any constraints on the site; <u>and</u> <u>3. are integrated into residential developments where possible</u>
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.146	Residential Zones / High Density Residential Zone / HRZ-P14	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-P14 (Non-residential activities and buildings) as notified.
WCC Environmental Reference Group	377.380	Residential Zones / High Density Residential Zone / HRZ-P14	Support	Considers that HRZ-P14 will help enable facilities and services well suited to a residential setting.	Retain HRZ-P14 (Non-residential activities and buildings) as notified.
Kāinga Ora Homes and Communities	391.459	Residential Zones / High Density Residential Zone / HRZ-P14	Support	Policy HRZ-P14 is generally supported.	Retain Policy HRZ-P14 (Non-residential activities and buildings) as notified.
Ministry of Education	400.100	Residential Zones / High Density Residential Zone / HRZ-P14	Support in part	Supports HRZ-P14 in part as it provides for non-residential activities in the HRZ.	Retain HRZ-P14 (Non-residential activities and buildings) with amendment.
Ministry of Education	400.101	Residential Zones / High Density Residential Zone / HRZ-P14	Amend	Seeks that HRZ-P14 be amended to ensure that additional infrastructure (including educational facilities) are explicitly recognised and provided for within the HRZ.	Amend HRZ (Non-residential activities and buildings) as follows: Only allow non-residential activities and buildings that: ... 6. Are adequately serviced by three waters infrastructure or can address any constraints on the site. <u>7. Provides additional infrastructure to support the needs of the community</u>
WCC Environmental Reference Group	377.381	Residential Zones / High Density Residential Zone / HRZ-R1	Support	Considers that HRZ-R1 will help compensate for residents having less available green space, and provide for community building and public health, as well as potential infrastructure for green waste recycling at a local scale.	Retain HRZ-R1 (Community gardens) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
VicLabour	414.34	Residential Zones / High Density Residential Zone / HRZ-R1	Support	Supports provision for community gardens and urban agriculture and considers a green city and more community spaces is needed.	Retain HRZ-R1 (Community gardens) as notified. [Inferred decision requested]
Ara Poutama Aotearoa the Department of Corrections	240.19	Residential Zones / High Density Residential Zone / HRZ-R2	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain HRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) as notified.
Khoi Phan	326.31	Residential Zones / High Density Residential Zone / HRZ-R2	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend HRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) as follows: 1. Activity status: Permitted Where: a. No more than three <u>ten</u> residential units occupy the site.
Waka Kotahi	370.352	Residential Zones / High Density Residential Zone / HRZ-R2	Support in part	Supports provision for three dwellings per site.	Retain HRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) with amendments.
Waka Kotahi	370.353	Residential Zones / High Density Residential Zone / HRZ-R2	Amend	Considers there may be opportunity to provide for higher densities as a permitted activity – such as four dwellings of up to four storeys subject to permitted activity standards and restricted discretionary activity status supported where that can't be achieved. Support notification preclusion where resource consent is required.	Amend HRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) as follows: Residential activities, excluding retirement villages, supported residential care activities and boarding houses Activity status: Permitted Where: No more than three <u>four</u> residential units occupy the site.
WCC Environmental Reference Group	377.382	Residential Zones / High Density Residential Zone / HRZ-R2	Support	HRZ-R2 is supported as it will help enable facilities and services well suited to a residential setting.	Retain HRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) as notified.
Kāinga Ora Homes and Communities	391.460	Residential Zones / High Density Residential Zone / HRZ-R2	Support in part	Rule HRZ-R2 is generally supported, but amendments are sought.	Retain Rule HRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) and seeks amendment.
Kāinga Ora Homes and Communities	391.461	Residential Zones / High Density Residential Zone / HRZ-R2	Amend	Considers changes can be made to HRZ-R2 provide for better clarity in regard to the intention of the rule and notification preclusions and allow for a higher permitted activity threshold to allow for up to 6 dwellings within the HDRZ	Amend Rule HRZ-R2 (Residential activities, excluding retirement villages, supported residential care activities and boarding houses) as follows: 1. Activity status: Permitted where: a. No more than three <u>six</u> residential units occupy the site. b. <u>Compliance with the following standards is achieved:</u> <u>i. HRZ-S1;</u> <u>ii. HRZ-S3;</u> <u>iii. HRZ-S4 only in relation to the rear/side yard boundary setback;</u> <u>iv. HRZ-S5;</u> <u>v. HRZ-S7</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
					<p><u>2. Activity Status: Restricted Discretionary</u> a. where compliance with HRZ-R1.a. cannot be achieved. Matters of discretion are: <u>1. The matters in HRZ-P2, HRZ-P3, HRZ-P5 and HRZ-P6. The scale, form, and appearance of the development is compatible with the planned urban built form of the neighbourhood;</u> <u>2. The development contributes to a safe and attractive public realm and streetscape;</u> <u>3. The extent and effects on the three waters infrastructure, achieved by demonstrating that at the point of connection the infrastructure has the capacity to service the development.</u> <u>4. The degree to which development delivers quality on-site amenity and occupant privacy that inappropriate for its scale.</u></p> <p><u>b. where compliance with HRZ-1.b. cannot be achieved.</u> 1. The extent and effect of non-compliance with any relevant standard as specified in the associated assessment criteria for the infringed standard. Notification status: <u>1. An application for resource consent made in respect of rule HRZ-R2.2.a is precluded from being either publicly or limited notified, which complies with HRZ-R1.a. but does not comply with MRZ-R1.b. is precluded from being publicly notified.</u> <u>2. An application for resource consent made which does not comply with HRZ-R1.a. but complies with HRZ-R1.b. is precluded from being either publicly or limited notified.</u> <u>3. An application for resource consent made which does not comply with HRZ-R1.a. and HRZ-R1.b. but complies with HRZ-S1 and HRZ-S5 is precluded from being either publicly notified.</u></p>
Onslow Residents Community Association	FS80.34	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R2	Oppose	[No specific reason given beyond decision requested - refer to further submission]	Disallow / Seeks to retain greater guarantees of proportionate and quality development than the unquantified terms proposed.
Wellington's Character Charitable Trust	FS82.148	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R2	Oppose	Considers the submission is more enabling than MDRS requirements without adequate justification.	Disallow
WCC Environmental Reference Group	377.383	Residential Zones / High Density Residential Zone / HRZ-R3	Support	HRZ-R3 is supported as it will help enable businesses well suited to a residential setting.	Retain HRZ-R3 (Home business) as notified.
Kāinga Ora Homes and Communities	391.462	Residential Zones / High Density Residential Zone / HRZ-R3	Support in part	Rule HRZ-R3 is generally supported, but amendments are sought.	Retain Rule HRZ-R3 (Home business) and seeks amendment.
Kāinga Ora Homes and Communities	391.463	Residential Zones / High Density Residential Zone / HRZ-R3	Amend	Considers that amendments are required to recognise changing urban environments and amenity in accordance with the NPSUD.	Amend Rule HRZ-R3.2 (Home business) as follows: 2. Activity status: Restricted Discretionary Where: a. Compliance with any of the requirements of HRZ-R3.1 cannot be achieved. Matters of discretion are: 1. The extent and effects of non-compliance with any requirement not met; and 2. The extent to which the intensity and scale of the activity adversely impacts on the <u>planned urban built form amenity values</u> of nearby residential properties and the surrounding neighbourhood.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Craig Palmer	492.25	Residential Zones / High Density Residential Zone / HRZ-R3	Support in part	Supports HRZ-R3 (Home business) facilitating individuals being able to conduct a business from their principal place of residence.	Retain HRZ-R3 (Home business) with amendment.
Craig Palmer	492.26	Residential Zones / High Density Residential Zone / HRZ-R3	Amend	Considers that HRZ-R3 (Home business) should be amended to reduce the proposed numbers working and those visiting as they are out of proportion to a home-based business. Considers that the HRZ-R3 exception to exclusive residential use needs to be tailored to small and non-intrusive ventures that can be readily monitored. The right of neighbours to have quiet enjoyment at all times needs to be upheld as having paramount importance.	Amend HRZ-R3.1.b. (Home Business) as follows: ... b. No more than four three people in total work in the home business at any one time, and the maximum number of people on site associated with the home business does not exceed 40 <u>6</u> people at any one time;
Craig Palmer	492.27	Residential Zones / High Density Residential Zone / HRZ-R3	Amend	Considers that the MRZ-R3 exception to exclusive residential use needs to be tailored to small and non-intrusive ventures that can be readily monitored. The right of neighbours to have quiet enjoyment at all times needs to be upheld as having paramount importance.	Seeks that HRZ-R3 (Home Business) is amended to include the mandatory notification and consultation provisions of the Prostitution Reform Act 2003 need to be added as a caveat.
Craig Palmer	492.28	Residential Zones / High Density Residential Zone / HRZ-R3	Amend	Considers that the HRZ-R3 exception to exclusive residential use needs to be tailored to small and non-intrusive ventures that can be readily monitored. The right of neighbours to have quiet enjoyment at all times needs to be upheld as having paramount importance.	Not specified.
Craig Palmer	492.29	Residential Zones / High Density Residential Zone / HRZ-R3	Amend	Considers that the potential loss of tenancies for commercial property owners paying higher rates should be considered.	Seeks that HRZ-R3.2 (Home Business) is amended to include the potential loss of tenancies for commercial property owners paying higher rates as a matter of discretion. [inferred decision requested]
Ara Poutama Aotearoa the Department of Corrections	240.20	Residential Zones / High Density Residential Zone / HRZ-R4	Oppose	Considers that should Council see it as being absolutely necessary to implement the separate definition of "supported residential care activity", then Ara Poutama requests that the enabled activities policies and permitted land use activity rules applying to supported residential care activities in the Medium Density Residential, High Density Residential, Large Lot Residential and Corrections zones are retained as notified. The permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities. Such activities are an important component of the rehabilitation and reintegration process for people under Ara Poutama's supervision. They enable people and communities to provide for their social and cultural well-being and for their health and safety.	Retain HRZ-R4 (Supported residential care activities) as notified if "supported residential care activity" definition and references to term are retained.
Khoi Phan	326.32	Residential Zones / High Density Residential Zone / HRZ-R4	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend HRZ-R4 (Supported residential care activities) as follows: 1. Activity status: Permitted Where: a. The maximum occupancy does not exceed 40 <u>20</u> residents.
WCC Environmental Reference Group	377.384	Residential Zones / High Density Residential Zone / HRZ-R4	Support	HRZ-R4 is supported as it will help enable facilities and services well suited to a residential setting.	Retain HRZ-R4 (Supported residential care activities) as notified.
Khoi Phan	326.33	Residential Zones / High Density Residential Zone / HRZ-R5	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend HRZ-R5 (Boarding houses) as follows: 1. Activity status: Permitted Where: a. The maximum occupancy does not exceed 40 <u>20</u> residents.
Airbnb	126.8	Residential Zones / High Density Residential Zone / HRZ-R6	Support	Supports the approach to visitor accommodation in the residential zone.	Retain HRZ-R6 (Visitor Accomodation) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.344	Residential Zones / High Density Residential Zone / HRZ-R7	Support in part	Waka Kotahi supports the permitted activity status for childcare service activities for up to 10 children, the effects of larger scale activities of this nature should be assessed through a resource consent and the RD activity status for childcare activities exceeding 10 children at a time is considered appropriate.	Retain HRZ-R7 (Child care services) with amendments.
Waka Kotahi	370.354	Residential Zones / High Density Residential Zone / HRZ-R7	Amend	Considers the effects of larger scale activities of this nature should be assessed through a resource consent and the RD activity status for childcare activities exceeding 10 children at a time is considered appropriate. Traffic effects should be added as a matter of discretion as childcare activities can generate high volumes of traffic. In urban areas, childcare services should be located and designed to facilitate alternative transport modes – e.g located in densely populated areas with good walking connections. In addition, a matter of discretion should be included to support multi-use development, provision to include childcare facilities into residential developments where possible.	Amend HRZ-R7 (Child care services) as follows: ... Matters of discretion are: 1. The extent to which the intensity and scale of the activity may adversely impact on the amenity values of nearby residential properties and the surrounding neighbourhood. 2. <u>The extent to which childcare facilities are integrated into residential development</u> 3. <u>Traffic generation and effects on the road network, and</u> 4. <u>How alternative modes will be supported.</u>
WCC Environmental Reference Group	377.385	Residential Zones / High Density Residential Zone / HRZ-R7	Support	HRZ-R7 is supported as it will help enable facilities and services well suited to a residential setting.	Retain HRZ-R7 (Child care services) as notified.
Ministry of Education	400.102	Residential Zones / High Density Residential Zone / HRZ-R7	Support	Supports that the District Plan continues to outline exclusions for childcare facilities in relevant rules in residential zones.	Retain HRZ-R7 (Childcare services) as notified.
Retirement Villages Association of New Zealand Incorporated	350.179	Residential Zones / High Density Residential Zone / HRZ-R8	Support in part	Supports the inclusion of a retirement village specific rule, and applications under this rule being precluded from being publicly notified. However, considers that retirement villages as an activity should be a permitted activity (with the construction of the retirement villages being a restricted discretionary activity). Permitted activity status recognises that retirement villages are residential activities and provide substantial benefit in residential zones including enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	Retain HRZ-R8 (Retirement village) and seeks amendment
Retirement Villages Association of New Zealand Incorporated	350.180	Residential Zones / High Density Residential Zone / HRZ-R8	Amend	Supports the inclusion of a retirement village specific rule, and applications under this rule being precluded from being publicly notified. However, considers that retirement villages as an activity should be a permitted activity (with the construction of the retirement villages being a restricted discretionary activity). Permitted activity status recognises that retirement villages are residential activities and provide substantial benefit in residential zones including enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	Amend HRZ-R8 (Retirement village) as follows: 1. Activity status: <u>Restricted Discretionary Permitted</u> Matters of discretion are: 1. The matters in HRZ P2, HRZ P3 and HRZ P7. Notification status: An application for resource consent made in respect of rule HRZ R8.1 is precluded from being publicly notified.
Waka Kotahi	370.355	Residential Zones / High Density Residential Zone / HRZ-R8	Support	Support the restricted discretionary activity status for retirement villages provided that HRZ-P7 is revised to require consideration to multi-modal connectivity.	Retain as drafted, provided changes to HRZ-P7 (Retirement villages) is updated as per previous submission point.
WCC Environmental Reference Group	377.386	Residential Zones / High Density Residential Zone / HRZ-R8	Support	HRZ-R8 is supported as it will help enable facilities and services well suited to a residential setting.	Retain HRZ-R8 (Retirement Village) as notified.
Waka Kotahi	370.356	Residential Zones / High Density Residential Zone / HRZ-R9	Support in part	Supports in part	Retain HRZ-R9 (Community facility, health care facility, emergency facility, education facility (excluding child care services)) with amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.357	Residential Zones / High Density Residential Zone / HRZ-R9	Amend	Considers in interests of amenity and services for urban environments, Waka Kotahi considers that commercial activities should be included as a restricted discretionary activity. Access to appropriately located and scaled commercial activities improves amenity for residents in urban environments and creates for walkable environments. Waka Kotahi supports this rule provided that commercial services are included and HRZ-P14 is revised to include provision for integrated residential developments.	Amend HRZ-R9 Community facility, <u>commercial activity</u> , health care facility, emergency facility, education facility (excluding child care services)
WCC Environmental Reference Group	377.387	Residential Zones / High Density Residential Zone / HRZ-R9	Support	HRZ-R9 is supported as it will help enable facilities and services well suited to a residential setting.	Retain HRZ-R9 (Community facility, health care facility, emergency facility, education facility (excluding child care services)) as notified.
Kāinga Ora Homes and Communities	391.464	Residential Zones / High Density Residential Zone / HRZ-R9	Support in part	Rule HRZ-R9 is generally supported, but amendments are sought.	Retain Rule HRZ-R9 (Community facility, health care facility, emergency facility, education facility (excluding child care services)) and seeks amendment.
Kāinga Ora Homes and Communities	391.465	Residential Zones / High Density Residential Zone / HRZ-R9	Amend	Considers that amendments are required to recognise changing urban environments and amenity in accordance with the NPSUD. Small scale commercial activities, such as cafes, convenience stores, and hairdressers, provide amenity to residents in a walkable urban setting and increase the vibrancy of an area. Operating thresholds have been incorporated to ensure such activities do not detract from the underlying residential environment.	Amend Rule HRZ-R9 (Community facility, health care facility, emergency facility, education facility (excluding child care services)) as follows: Community facility, health care facility, emergency facility, education facility (excluding childcare services) <u>and Commercial activities</u> 1. Activity status: Restricted Discretionary <u>Where commercial activities:</u> <u>a. Are limited to the ground floor tenancy of an apartment building;</u> <u>b. Have a gross floor area that does not exceed 200m2</u> <u>c. Have hours of operation between:</u> <u>i. 7.00am and 9.00pm Monday to Friday; and</u> <u>ii. 8.00am and 7.00pm Saturday, Sunday and public holidays.</u> Matters of discretion are: 1. The matters in HRZ-P14. Notification status: An application for resource consent made in respect of rule HRZ-R9.1 is precluded from being publicly notified.
Ministry of Education	400.103	Residential Zones / High Density Residential Zone / HRZ-R9	Support in part	Support HRZ-R9 in part.	Retain HRZ-R9 (Community facility, health care facility, emergency facility, education facility (excluding child care services)) with amendment.
Ministry of Education	400.104	Residential Zones / High Density Residential Zone / HRZ-R9	Amend	Seeks HRZ-R9 be amended to replace 'education facilities' with 'educational facilities' to keep definitions consistent throughout the plan.	Amend HRZ-R9 (Community facility, health care facility, emergency facility, education facility (excluding child care services)) as follows: Community facility, health care facility, emergency facility, <u>educational</u> facility (excluding child care services) 1. Activity status: Restricted Discretionary Matters of discretion are: 1. The matters in HRZ-P14. Notification status: An application for resource consent made in respect of rule HRZ-R9.1 is precluded from being publicly notified.
Braydon White	146.20	Residential Zones / High Density Residential Zone / HRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for HRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled, Restricted Discretionary.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.44	Residential Zones / High Density Residential Zone / HRZ-R10	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain HRZ-R10 (All other activities) as notified.
Waka Kotahi	370.358	Residential Zones / High Density Residential Zone / HRZ-R10	Support	Support discretionary activity status for activities not provided for so that the effects of incompatible activities can be assessed and managed.	Retain HRZ-R10 (All other activities) as notified.
Jonathan Markwick	490.27	Residential Zones / High Density Residential Zone / HRZ-R10	Amend	Considers that small-scale commercial activity should not be a discretionary activity.	Seeks that the activity status for HRZ-R10 (All other activities) relating to small-scale commercial activity should be changed from Discretionary to Permitted, Controlled or Restricted Discretionary. [Inferred decision requested]
Fire and Emergency New Zealand	273.198	Residential Zones / High Density Residential Zone / HRZ-R11	Support	Supports the rule as the maintenance and repair of buildings and structures within the HRZ are a permitted activity.	Retain HRZ-R11 (Maintenance and repair of buildings and structures) as notified.
Fire and Emergency New Zealand	273.199	Residential Zones / High Density Residential Zone / HRZ-R12	Support	Supports the rule as the demolition or removal of buildings and structures within the HRZ are a permitted activity.	Retain HRZ-R12 (Demolition or removal of buildings and structures) as notified.
Greater Wellington Regional Council	351.258	Residential Zones / High Density Residential Zone / HRZ-R12	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain HRZ-R12 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.259	Residential Zones / High Density Residential Zone / HRZ-R12	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend HRZ-R12 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Khoi Phan	326.34	Residential Zones / High Density Residential Zone / HRZ-R13	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend the title of HRZ-R13 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) as follows: Construction, addition or alteration of buildings and structures where no more than three <u>ten</u> residential units occupy the site
Waka Kotahi	370.359	Residential Zones / High Density Residential Zone / HRZ-R13	Support in part	Supports construction of residential buildings as a permitted activity subject to standards. Also supports the Restricted Discretionary Activity Status where permitted activity status is not met.	Retain HRZ-R13 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) with amendments.
Waka Kotahi	370.360	Residential Zones / High Density Residential Zone / HRZ-R13	Amend	Considers that the permitted density should be increased to better align with the outcomes of the NPS-UD.	Amend HRZ-R13 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) as follows: Construction, addition or alteration of buildings and structures where no more than three <u>four</u> residential units occupy the site.
Wellington's Character Charitable Trust	FS82.146	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R13	Oppose	Considers the original submission is more enabling than MDRS requirements without adequate justification. [Inferred reference to 370.360]	Disallow
Kāinga Ora Homes and Communities	391.466	Residential Zones / High Density Residential Zone / HRZ-R13	Support in part	Rule HRZ-R13 is generally supported, but amendments are sought.	Retain Rule HRZ-R13 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.467	Residential Zones / High Density Residential Zone / HRZ-R13	Amend	Considers that an amendment is required to the title of HRZ-R13 to apply to all buildings not just those associated with no more than three residential units on a site. Considers that the permitted standard should also be expanded to six residential units as the HDZ should provide for a greater number of dwellings than the MRZ given that a greater intensity of dwellings are anticipated in this Zone. A further amendment is sought to delete reference to HRZ-P10.	Amend Rule HRZ-R13 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) as follows: Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site. 1. Activity Status: Permitted where: <u>a. There are no more than six residential units on a site; and</u> a.b. Compliance with the following standards is achieved: ... 2. Activity status: Restricted Discretionary Where: a. Compliance with any of the requirements of HRZ-R13.1.a and HRZ-R13.1.b cannot be <u>are not</u> achieved. Matters of discretion are: 1. The extent and effect of non-compliance with any relevant standard as specified in the associated assessment criteria for the infringed standard; and 2. The matters in HRZ-P2, HRZ-P3, HRZ-P4, HRZ-P5, HRZ-P8, HRZ-P9, HRZ-P10 and HRZ-P11.; <u>and</u> <u>3. where compliance with HRZ-R13.1.a is not achieved the matters in HRZ-P6.</u> Notification status: An application for resource consent made in respect of rule HRZ-R13.2.a which results from non-compliance with HRZ-S1, HRZ-S3, MRZ-S4 or MRZ-S5 is precluded from being publicly notified.
KiwiRail Holdings Limited	408.121	Residential Zones / High Density Residential Zone / HRZ-R13	Amend	Considers that for health and safety reasons, a setback for structures from the rail corridor boundary is sought. While KiwiRail do not oppose development on adjacent sites, ensuring the ability to access and maintain structures without requiring access to rail land is important. KiwiRail seek amendment to this rule to ensure compliance with the requested rail corridor boundary setback standard (HRZ-S4) is required.	Amend HRZ-R13.1 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) as follows: 1. Activity status: Permitted Where: a. Compliance with the following standards is achieved: i. HRZ-S1; ii. HRZ-S3; iii. HRZ-S4 only in relation to the rear yard <u>and rail corridor</u> boundary setbacks; iv.
Kāinga Ora – Homes and Communities	FS89.34	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R13	Oppose	Kāinga Ora opposes the relief sought; a considerably reduced set back would provide adequate space for maintenance activities within sites adjacent to the rail network. In doing so, it will continue to protect the safe, efficient, and effective operation of the rail infrastructure while balancing the cost on landowners.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	408.122	Residential Zones / High Density Residential Zone / HRZ-R13	Amend	Considers that a matter of discretion directing consideration of impacts on the safety and efficiency of the rail corridor is appropriate in situations where the 5m setback standard is not complied with. This amendment is sought in addition to the amendment sought in relation to HRZ-R13.1.	Amend HRZ-R13.2 (Construction, addition or alteration of buildings and structures where no more than three residential units occupy the site) as follows: 2. Activity status: Restricted discretionary Where: a. Compliance with any of the requirement of HRZ-R13.1.a cannot be achieved. Matters of discretion are: 1. ... 2. ... 3. <u>The location and design of the building as it relates to the ability to safely use, access and maintain buildings without requiring access on, above or over the rail corridor.</u>
Kāinga Ora – Homes and Communities	FS89.35	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R13	Oppose	Kāinga Ora opposes the relief sought; a considerably reduced set back would provide adequate space for maintenance activities within sites adjacent to the rail network. In doing so, it will continue to protect the safe, efficient, and effective operation of the rail infrastructure while balancing the cost on landowners.	Disallow
Rachel Underwood	458.8	Residential Zones / High Density Residential Zone / HRZ-R13	Amend	Considers inappropriate to include the standards for setbacks and side yards when implementing HRZ-R13 .	Seeks to amend HRZ-R13 (Outdoor living space for multi-unit housing) as follows: Compliance with the following standards is achieved: HRZ-S1; HRZ-S3; HRZ-S4 only in relation to the rear yard boundary setback; HRZ-S5... [inferred decision requested].
Stratum Management Limited	249.21	Residential Zones / High Density Residential Zone / HRZ-R14	Amend	The non-notification statement for this rule precludes public notification. Given that any multi-unit development is subject to this rule, and that it specifies a range of standards that apply to multi-unit development, where a proposal meets these standards, it should be processed on a non-notified basis.	Amend the notification status under HRZ-R14 (Construction of buildings or structures for multi-unit housing or a retirement village) by adding the following: <u>An application for resource consent made in respect of rule HRZ-R14.1 that meets the standards specified is precluded from being either publicly or limited notified.</u>
The Retirement Villages Association of New Zealand Incorporated	FS126.210	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R14	Not specified	The RVA supports the relief sought in this submission to the extent it is consistent with The RVA's primary submission.	Amend / Allow the submission points, subject to the relief sought by The RVA in relation to MRZ-R14 and HRZ-R14.
Ryman Healthcare Limited	FS128.210	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R14	Not specified	Ryman supports the relief sought in this submission to the extent it is consistent with Ryman's primary submission.	Amend / Allow the submission points, subject to the relief sought by Ryman in relation to MRZ-R14 and HRZ-R14.
Wellington City Council	266.144	Residential Zones / High Density Residential Zone / HRZ-R14	Amend	Considers the notification clauses for 4 or more household units need to align with Sch 3A, cl 5 of the RMA. This also needs to reflect the building standards	Amend the notification clause of HRZ-R14 (Construction of buildings or structures for multi-unit housing or a retirement village) as follows: Notification status: <u>An application for resource consent made in respect of rule HRZ-R14.1 is precluded from being publicly notified.</u> <u>An application for resource consent made in respect of rule HRZ-R14.1 which results from non-compliance with HRZ-S2, HRZ-S3, HRZ-S4 or HMRZ-S5 is precluded from being publicly notified.</u> <u>An application for resource consent made in respect of rule HRZ-R14.1 which results from non-compliance with HRZ-S12, HRZ-S13 or HRZ-S14 is precluded from being either publicly or limited notified.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
The Retirement Villages Association of New Zealand Incorporated	FS126.242	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R14	Not specified	The RVA supports the relief sought in this submission in so far as it is consistent with The RVA's primary submission.	Amend / Allow the submission point, subject to the relief sought in The RVA's primary submission.
Ryman Healthcare Limited	FS128.242	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R14	Not specified	Ryman supports the relief sought in this submission in so far as it is consistent with Ryman's primary submission.	Amend / Allow the submission point, subject to the relief sought in Ryman's primary submission.
Khoi Phan	326.35	Residential Zones / High Density Residential Zone / HRZ-R14	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend HRZ-R14 (Construction of buildings or structures for multi-unit housing or a retirement village) as follows: 1. Activity status: Restricted Discretionary <u>Permitted</u>
Retirement Villages Association of New Zealand Incorporated	350.181	Residential Zones / High Density Residential Zone / HRZ-R14	Support in part	Supports the construction of buildings or structures for a retirement village being a restricted discretionary activity under HRZ-R14. Does not oppose the inclusion of the matters of discretion in Clause 1 relating to the extent and effect on non-compliance with the height, height in relation to boundary, minimum privacy separation to a boundary for a retirement village, and minimum building separation distance for a retirement village standards. Considers that the matters of discretion in Clause 2, are not appropriate except for the reference to HRZ-P7 (subject to the submission points on that policy). The listed policies are broad and not specific to the effects of retirement villages that require management. Opposes the inclusion of the Clause 3 matters of discretion relating to the City Outcomes Contribution for the reasons provided in response to HRZ-P13. Considers that a set of retirement village specific matters of discretion should be included that are based on the MDRS provisions; consider / acknowledge the positive effects provided by retirement villages, the functional and operational needs of retirement villages, and the need to provide for efficient use of larger sites. Support applications made under HRZ-R14 being precluded from being publicly notified, but Considers that if a retirement village is compliant with HRZ-S2, HRZ-S3, HRZ-S15, HRZ-S16 and HRZ-S17 it should also be precluded from limited notification	Retain HRZ-R14 (Construction of buildings or structures for multi-unit housing or a retirement village) and seeks amendment

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.182	Residential Zones / High Density Residential Zone / HRZ-R14	Amend	Supports the construction of buildings or structures for a retirement village being a restricted discretionary activity under HRZ-R14. Does not oppose the inclusion of the matters of discretion in Clause 1 relating to the extent and effect on non-compliance with the height, height in relation to boundary, minimum privacy separation to a boundary for a retirement village, and minimum building separation distance for a retirement village standards. Considers that the matters of discretion in Clause 2, are not appropriate except for the reference to HRZ-P7 (subject to the submission points on that policy). The listed policies are broad and not specific to the effects of retirement villages that require management. Opposes the inclusion of the Clause 3 matters of discretion relating to the City Outcomes Contribution for the reasons provided in response to HRZ-P13. Considers that a set of retirement village specific matters of discretion should be included that are based on the MDRS provisions; consider / acknowledge the positive effects provided by retirement villages, the functional and operational needs of retirement villages, and the need to provide for efficient use of larger sites. Support applications made under HRZ-R14 being precluded from being publicly notified, but Considers that if a retirement village is compliant with HRZ-S2, HRZ-S3, HRZ-S15, HRZ-S16 and HRZ-S17 it should also be precluded from limited notification	<p>Amend HRZ-R14 (Construction of buildings or structures for multi-unit housing or a retirement village) as follows:</p> <p>1. Activity status: Restricted Discretionary</p> <p>Matters of discretion are:</p> <p>1. The Retirement Villages Association of New Zealand Incorporated	FS126.142	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R14	Not specified	The RVA supports the relief sought in this submission to the extent it aligns with The RVA's primary submission.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission on HRZ-R14 and HRZ-R17.
Ryman Healthcare Limited	FS128.142	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R14	Not specified	Ryman supports the relief sought in this submission to the extent it aligns with Ryman's primary submission.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission on HRZ-R14 and HRZ-R17.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Survey & Spatial New Zealand Wellington Branch	439.40	Residential Zones / High Density Residential Zone / HRZ-R14	Amend	Considers that since this rule makes all multi-unit housing a RD activity and refers back to broad policies as matters of discretion, Council's scope is too broad for an RD activity. Considers this may risk failing to meet S77B, and Council is already required to consider relevant policies under 104(1)(b).	Amend HRZ-R14 (Construction of buildings or structures for multi-unit housing or a retirement village) to: 2. The matters in HRZ-P2, HRZ-P3, HRZ-P5, HRZ-P6, HRZ-P7, HRZ-P8 , HRZ-P10 and HRZ-P11.
Survey & Spatial New Zealand Wellington Branch	439.41	Residential Zones / High Density Residential Zone / HRZ-R14	Amend	Considers that preclusion from public notification only does not comply with Clause 5(2) of Schedule 3A, which requires both limited and public notification be excluded for any resource consent for 4+ units that comply with the MDRS.	Amend HRZ-R14 (Construction of buildings or structures for multi-unit housing or a retirement village) to: Notification status: An application for resource consent made in respect of rule HRZ-R14.1 is precluded from being publicly notified. <u>An application for resource consent made in respect of rule HRZ-R14.1 is precluded from being limited notified where the proposal complies with HRZ-S2 to HRZ-S9.</u> <u>An application for resource consent made in respect of rule HRZ-R14.1 is precluded from being limited notified where the proposal complies with HRZ-S2 to HRZ-S5 and HRZ-S12 to HRZ-S17.</u>
The Retirement Villages Association of New Zealand Incorporated	FS126.212	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R14	Not specified	The RVA supports the relief sought in this submission to the extent it is consistent with The RVA's primary submission.	Amend / Allow the submission points, subject to the relief sought by The RVA in relation to MRZ-R14 and HRZ-R14.
Ryman Healthcare Limited	FS128.212	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R14	Not specified	Ryman supports the relief sought in this submission to the extent it is consistent with Ryman's primary submission.	Amend / Allow the submission points, subject to the relief sought by Ryman in relation to MRZ-R14 and HRZ-R14.
Wellington City Council	266.145	Residential Zones / High Density Residential Zone / HRZ-R16	Amend	Considers a change to this rule is required to provide for small structures on legal road (up to 1.5m high) as a Permitted Activity. Considers this will reduce consenting requirements. It is noted that structures on legal road are covered by the encroachment licence process. There is a consequential amendment to update the Restricted Discretionary rule.	Amend HRZ-R16 as follows: HRZ-R16 (Buildings and structures on or over a legal road) ... <u>1. Activity status: Permitted</u> <u>Where:</u> <u>a. It is a retaining wall of less than 1.5m in height above ground level.</u> 2. Activity Status: Restricted Discretionary <u>Where: 1. Compliance with any of the requirements of HRZ-R16.1 a cannot be achieved. (...)</u>
Fire and Emergency New Zealand	273.200	Residential Zones / High Density Residential Zone / HRZ-R16	Support in part	Supports the rule as the development on or over a legal road is a restricted discretionary activity and which must ensure that highway access and safety is maintained for all road users. Fire and Emergency relies on the safe and efficient operation of the transport network to respond to emergency call outs. It is therefore critical that buildings and structures on legal roads do not hinder the ability for FENZ to respond to emergency call outs effectively and efficiently for firefighting and other rescue operations. A further matter of discretion is therefore sought	Supports HRZ-R16 (Buildings and structures on or over a legal road), with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.201	Residential Zones / High Density Residential Zone / HRZ-R16	Amend	Supports the rule as the development on or over a legal road is a restricted discretionary activity and which must ensure that highway access and safety is maintained for all road users. Fire and Emergency relies on the safe and efficient operation of the transport network to respond to emergency call outs. It is therefore critical that buildings and structures on legal roads do not hinder the ability for FENZ to respond to emergency call outs effectively and efficiently for firefighting and other rescue operations. A further matter of discretion is therefore sought	Amend HRZ-R16 (Buildings and structures on or over a legal road) as follows: ... Matters of discretion are restricted to: ... 3. Maintaining safe access and safety for road users, including pedestrians; and 4. The matters in HRZ-P8, HRZ-P10 and HRZ-P11; <u>and</u> 5. <u>Maintaining the ability for emergency services, including fire appliances, to access the property for firefighting purposes.</u>
The Retirement Villages Association of New Zealand Incorporated	FS126.39	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R16	Oppose	The RVA opposes the relief sought in this submission as matters relating to fire-fighting servicing are already provided for under the Building Act and it is inappropriate to duplicate controls under the Proposed Plan.	Disallow
Ryman Healthcare Limited	FS128.39	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R16	Oppose	Ryman opposes the relief sought in this submission as matters relating to fire-fighting servicing are already provided for under the Building Act and it is inappropriate to duplicate controls under the Proposed Plan.	Disallow
Waka Kotahi	370.362	Residential Zones / High Density Residential Zone / HRZ-R16	Support in part	Rule HRZ-R16 is supported, but amendment is sought	Retain Rule HRZ-R16 (Buildings and structures on or over a legal road) and seeks amendment.
Waka Kotahi	370.363	Residential Zones / High Density Residential Zone / HRZ-R16	Amend	Considers that amendments to Rule HRZ-R16 are required to ensure visibility over the road corridor.	Amend Rule HRZ-R16 (Buildings and structures on or over a legal road) as follows: 1. Activity status: Restricted Discretionary <u>Where the legal road is controlled by Waka Kotahi, written approval has been provided from Waka Kotahi authorising the building or structure.</u> Matters of discretion are:
Kāinga Ora Homes and Communities	391.470	Residential Zones / High Density Residential Zone / HRZ-R16	Support	Rule HRZ-R16 is supported.	Retain HRZ-R16 (Buildings and structures on or over a legal road) as notified.
Fire and Emergency New Zealand	273.202	Residential Zones / High Density Residential Zone / HRZ-R17	Support	Supports the rule as the addition or alteration to buildings and structures within the HRZ is provided for as a permitted or restricted discretionary activity.	Retain HRZ-R17 (Construction of any other building or structure, including additions and alterations) as notified.
Retirement Villages Association of New Zealand Incorporated	350.185	Residential Zones / High Density Residential Zone / HRZ-R17	Support in part	Supports additions and alterations to a retirement village being provided for as a permitted or restricted discretionary activity under HRZ-R17. The RVA considers the matters of discretion need to align with those for new requirement villages. Supports HRZ-R17.2a being precluded from being publicly notified, but in accordance with Schedule 3A(5)(s) of the Act Considers that alterations and additions to retirement villages that are compliant with HRZ-S2, HRZ-S3, HRZ-S15, HRZ-S16 and HRZ-S17 should also be precluded from limited notification.	Retain HRZ-R17.2 (Construction of any other building or structure, including additions and alterations) and seeks amendment

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.186	Residential Zones / High Density Residential Zone / HRZ-R17	Amend	Supports additions and alterations to a retirement village being provided for as a permitted or restricted discretionary activity under HRZ-R17. The RVA considers the matters of discretion need to align with those for new requirement villages. Supports HRZ-R17.2a being precluded from being publicly notified, but in accordance with Schedule 3A(5)(s) of the Act Considers that alterations and additions to retirement villages that are compliant with HRZ-S2, HRZ-S3, HRZ-S15, HRZ-S16 and HRZ-S17 should also be precluded from limited notification.	<p>Amend HRZ-R17.2 (Construction of any other building or structure, including additions and alterations) as follows:</p> <p>2. Activity status: Restricted Discretionary</p> <p>Where:</p> <p>...</p> <p>2. The matters in HRZ-P9, HRZ-P10, HRZ-P11 and HRZ-P14 (this clause is not applicable o retirement villages); and</p> <p>3. The matters in HRZ-P6, HRZ-P7 and HRZ-P8 for additions and alterations to multi-unit-housing; or a retirement village, and</p> <p>4. For additions and alterations to retirement villages:</p> <p>i. <u>The effects of the retirement village on the safety of adjacent streets or public open spaces;</u></p> <p>ii. <u>The extent to which articulation, modulation and materiality addresses adverse visual dominance effects associated with building length;</u></p> <p>iii. <u>The effects arising from the quality of the interface between the retirement village and adjacent streets or public open spaces;</u></p> <p>iv. <u>When assessing the matters in 1(a)(i) – (v), and 2(a)(4)(i) –(iii), consider:</u></p> <p>a. <u>The need to provide for efficient use of larger sites; and</u></p> <p>b. <u>The functional and operational needs of the retirement village.</u></p> <p>v. <u>The positive effects of the construction, development and use of the retirement village.</u></p> <p><u>For clarity, no other rules or matters of discretion relating to the effects of density apply to buildings for a retirement village</u></p> <p>Notification status: An application for resource consent made in respect of rule HRZ-R17.2.a is precluded from being publicly notified.</p> <p><u>An application for resource consent for additions and alterations to a retirement village where compliance is achieved with HRZ-S2, HRZ-S3, HRZ-S15 and HRZ-S17 is precluded from being limited notified.</u></p>
Kāinga Ora Homes and Communities	391.471	Residential Zones / High Density Residential Zone / HRZ-R17	Support in part	Rule HRZ-R17 is generally supported, but amendments are sought.	Retain Rule HRZ-R17 (Construction of any other building or structure, including additions and alterations) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.472	Residential Zones / High Density Residential Zone / HRZ-R17	Amend	Considers that amendments are required to remove reference to policies which are opposed and reference to residential units, multi-unit housing and retirement villages.	Amend HRZ-R17 (Construction of any other building or structure, including additions and alterations) as follows: Activity status: Permitted Where: a. Compliance with the following standards is achieved: i. HRZ-S1; ii. HRZ-S2; iii. HRZ-S3; iv. HRZ-S4; v. HRZ-S5; vi. HRZ-S10; and vii. HRZ-S12; viii. HRZ-S13; ix. HRZ-S14; x. HRZ-S15; xi. HRZ-S16; and xii. HRZ-S17. 2. Activity status: Restricted Discretionary where: a. Compliance <u>is not achieved</u> with any of the requirements of HRZ-R17.1. a cannot be achieved . Matters of discretion are: 1. The extent and effect of non-compliance with any relevant standard as specified in the associated assessment criteria for the infringed standard; 2. The matters in HRZ-P9, HRZ-P10 , HRZ-P11 and HRZ-P14; and 3. The matters in HRZ-P6 , HRZ-P7 and HRZ-P8 for additions and alterations to multi-unit housing or a retirement village.
The Retirement Villages Association of New Zealand Incorporated	FS126.143	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R17	Not specified	The RVA supports the relief sought in this submission to the extent it aligns with The RVA's primary submission.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission on HRZ-R14 and HRZ-R17.
Ryman Healthcare Limited	FS128.143	Part 3 / Residential Zones / High Density Residential Zone / HRZ-R17	Not specified	Ryman supports the relief sought in this submission to the extent it aligns with Ryman's primary submission.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission on HRZ-R14 and HRZ-R17.
Peter Preston	42.6	Residential Zones / High Density Residential Zone / HRZ-S1	Oppose	Considers that HRZ-S1 (Maximum height of buildings and structures) does not adequately take account of areas where 21m high buildings with 5 metre boundaries are permitted up against Character Precincts, Heritage Areas, Mt Victoria North Townscape Precinct or Character Precinct-extension areas proposed by Mt Victoria Historical Society. Afternoon sun may be blocked from these properties. Degradation and abandonment of these properties may ultimately occur as their heritage or character may be visually destroyed. [Refer to original submission for full reason]	Seeks that a 'transition zone' of Medium Density Residential Zone of at least one property wide be required between any Character Precinct or heritage area border and a High Density Residential Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kirsty Wood	109.3	Residential Zones / High Density Residential Zone / HRZ-S1	Amend	<p>Considers that PDP doesn't take into account HRZ zoning bordering character precincts.</p> <p>Considers that HRZ zoning next to character precincts or heritage areas will ruin the character/heritage.</p> <p>Considers that the HRZ zoning will result in blocked afternoon sun in a number of locations.</p> <p>[Refer to original submission for full reason]</p>	Seeks that a 'transition zone' of Medium Density Residential Zone of at least one property wide be required between any Character Precinct border or Heritage Area border and a High Density Residential Zone.
Alan Olliver & Julie Middleton	111.7	Residential Zones / High Density Residential Zone / HRZ-S1	Amend	<p>Considers that PDP doesn't take into account HRZ zoning bordering character precincts.</p> <p>Considers that HRZ zoning next to character precincts or heritage areas will ruin the character/heritage.</p> <p>Considers that the HRZ zoning will result in blocked afternoon sun in a number of locations.</p> <p>[Refer to original submission for full reason]</p>	Seeks that a 'transition zone' of Medium Density Residential Zone of at least one property wide be required between any Character Precinct border or Heritage Area border and a High Density Residential Zone.
LIVE WELLington	154.8	Residential Zones / High Density Residential Zone / HRZ-S1	Amend	<p>Considers that shading effects on parks may occur not just with adjacent buildings as buildings on sites further away may also cause shading.</p>	<p>Seeks amendment to the assessment criteria of HRZ-S1 (Building height control where no more than three residential units occupy the site) as follows:</p> <p>Assessment criteria where the standard is infringed:</p> <ol style="list-style-type: none"> 1. Streetscape and visual amenity effects; 2. Dominance, privacy and shading effects on adjoining sites; and 3. Effects on the function and associated amenity values of any adjacent open space zone <u>within 50 metres.</u>
Glen Scanlon	212.6	Residential Zones / High Density Residential Zone / HRZ-S1	Amend	<p>Considers that this does not rule out higher buildings but it does mean there is due process for such projects</p> <p>[Refer to original submission for full reason]</p>	Seeks that height limits are decreased from 21m to 8m where the landscape begins to rise in Mount Victoria.
Glen Scanlon	212.7	Residential Zones / High Density Residential Zone / HRZ-S1	Amend	<p>Considers that steep elevation and close elevation already limits sunlight access to their property.</p> <p>Considers that lowering heights in these areas would align with Hawker Street.</p> <p>Considers that this does not rule out higher buildings but it does mean there is due process for such projects</p> <p>Considers that 21m height can theoretically be built right next door with little consideration for sunlight access beyond "Adequate sunlight access" which has no guidance.</p> <p>Considers that construction of large buildings would require purchasing many properties in the area with major earthworks to provide suitable platforms. The costs will be high, infrastructure will be under pressure and it's a high wind zone - the PDP does not account for these. As a result, properties will be expensive.</p> <p>[Refer to original submission for full reason]</p>	Seeks that the height control in Earls Terrace, Port Street and Stafford Street are amended from 21m to 11m.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council	266.146	Residential Zones / High Density Residential Zone / HRZ-S1	Amend	Considers there is a need to amend exemptions to HRZ-S1 (Building height control 1 where no more than three residential units occupy the site) to enable minor building height limit intrusions.	Amend HRZ-S1 (Building height control 1 where no more than three residential units occupy the site) exemptions as follows: (...) This standard does not apply to: a. Fences or standalone walls-; <u>and</u> <u>b. Solar panel and heating components attached to a building provided these do not exceed the height by more than 500mm;</u> <u>c. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height by more than 1m measured vertically;</u> <u>d. Multi-unit housing; and e. Retirement villages.</u>
Everard Aspell	270.9	Residential Zones / High Density Residential Zone / HRZ-S1	Not specified	Considers that allowing building heights of 11-21 metres in the inner city suburbs of Mount Victoria, Mount Cook, Thorndon, Berhampore, Newtown and Aro Valley will create shading, privacy issues, loss of green areas, reduced property values; will forever change the streetscape and will not reflect the character of the area.	Seeks that intensification is restricted to brownfield sites.
Thorndon Residents' Association Inc	FS69.111	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S1	Support	Part of WCC's summary: ... intensification shouldn't come at the expense of character and heritage. ... the attraction in the Lambton Ward is the unique character and heritage, older Victorian styled houses and working men's cottages dotted around Thorndon, Mount Vic, Aro Valley and Mount Cook. There are multiple brownfield sites well suited for accommodating extra population that will avoid impacting heritage and character.	Allow
Fire and Emergency New Zealand	273.203	Residential Zones / High Density Residential Zone / HRZ-S1	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations i is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height. FENZ considers that the inclusion of an exemption for hose drying towers provides for the health and safety of the community by enabling the efficient functioning of FENZ in establishing and operating fire stations.	Supports HRZ-S1 (Building height control 1 where no more than three residential units occupy the site), with amendment.
Fire and Emergency New Zealand	273.204	Residential Zones / High Density Residential Zone / HRZ-S1	Amend	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations i is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height. FENZ considers that the inclusion of an exemption for hose drying towers provides for the health and safety of the community by enabling the efficient functioning of FENZ in establishing and operating fire stations.	Amend HRZ-S1 (Building height control 1 where no more than three residential units occupy the site) as follows: This standard does not apply to: ... a. Fences or standalone walls-; <u>and</u> <u>b. Hose drying towers up to 15m in height.</u>
Marilyn Powell	281.2	Residential Zones / High Density Residential Zone / HRZ-S1	Oppose	Considers that for WCC to permit high rise dwellings will mean demolition destruction of well-maintained wooden heritage housing stock and insertion of concrete and glass. Inserting just one such high-rise will affect negatively the surrounding wooden housing, causing shading and weatherboard deterioration.	Not specified.
Thorndon Residents' Association Inc	FS69.73	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S1	Support	TRA support these submissions insofar as they underpin the reasons to change the Hobson residential are from HDZ to MDZ and to create a Character Precinct over the block.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Phillippa O'Connor	289.32	Residential Zones / High Density Residential Zone / HRZ-S1	Amend	Considers that the Western Side of Kelburn Parade, especially #64 Kelburn Parade should have maximum building height increased because: - It is close to the transport network, employment opportunities and social infrastructure. - Larger building heights would support additional housing for the benefit of those utilising the university. [See original submission for full details]	Seeks that Standard HRZ-S1 (Building height control 1) is amended so that the western side of Kelburn Parade has a maximum height limit of 21m as a permitted activity.
Phillippa O'Connor	289.33	Residential Zones / High Density Residential Zone / HRZ-S1	Oppose	Considers this dual-standard approach is unnecessary, and that the more permissive height standard in the MRZ should be enabled irrespective of scale of the development.	Seeks that standards HRZ-S1 (Building height control 1 where no more than three residential units occupy the site) and HRZ-S2 (Building height control 2 for multi-unit housing or a retirement village) building height control are combined so that there are not different height standards for 1-3 residential units and multi unit developments.
Khoi Phan	326.36	Residential Zones / High Density Residential Zone / HRZ-S1	Amend	Considers that HRZ-S1 should be amended so that structures do not exceed 15 metres in height and the 15 degree slope are removed.	Amend HRZ-S1 (Building height control 1) as follows: 1. Buildings and structures must not exceed 11 15 metres in height above ground level, except that 50% of a building's roof in elevation, measured vertically from the junction between wall and roof, may exceed this height by 1 metre, where the entire roof slopes 15° or more, as shown in Diagram 5 below: ... Remove High Density Residential Zoning at 35 to 61 Hankey Street.
Mt Cook Mobilised	331.16	Residential Zones / High Density Residential Zone / HRZ-S1	Amend	The 6-storey height limit at 35 to 61 Hankey Street is not supported, as these properties are along the ridgeline, steeply sloped, and already suffer from poor pedestrian and vehicle access.	Remove High Density Residential Zoning at 35 to 61 Hankey Street.
Kerry Finnigan	336.5	Residential Zones / High Density Residential Zone / HRZ-S1	Amend	Considers that early 1900s houses in Newtown will have no protection from being shaded by 6-storey buildings and may lose their privacy and value by being exposed to a possible "visual pollution" in the neighbourhood. These houses are the main assets of many residents in Newtown who put in work, money and time to upgrade and maintain their character.	Seeks that areas in proximity to early 1900s houses in Newtown not be zoned High Density Residential. [Inferred decision requested]
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.37	Residential Zones / High Density Residential Zone / HRZ-S1	Support	Supports submission that seeks to extend character precincts.	Allow
Waka Kotahi	370.364	Residential Zones / High Density Residential Zone / HRZ-S1	Support in part	Standard HRZ-S1 is supported, but amendment is sought.	Retain Standard HRZ-S1 (Building height control 1 where no more than three residential units occupy the site) with amendments.
Waka Kotahi	370.365	Residential Zones / High Density Residential Zone / HRZ-S1	Amend	Considers that HRZ-S1 should be amended to enable greater densities (heights and number of dwellings) to promote a more urban form. Considers that dwellings of this scale that comply with the permitted activity standards should not require resource consent and be better aligned with the outcomes of the NPS-UD.	Amend Standard HRZ-S1 (Building height control 1 where no more than three residential units occupy the site) as follows: Building height control 1 where no more than three four residential units occupy the site 1. Buildings and structures must not exceed 11 14 metres in height above ground level, except that 50% of a building's roof in elevation, measured vertically from the junction between wall and roof, may exceed this height by 1 metre, where the entire roof slopes 15° or more, as shown in Diagram 5 below: ... Retain Standard HRZ-S1 (Building height control 1 where no more than three residential units occupy the site) and seeks amendment.
Kāinga Ora Homes and Communities	391.473	Residential Zones / High Density Residential Zone / HRZ-S1	Support in part	Standard HRZ-S1 is generally supported, but amendments are sought.	Retain Standard HRZ-S1 (Building height control 1 where no more than three residential units occupy the site) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.474	Residential Zones / High Density Residential Zone / HRZ-S1	Amend	<p>Considers that amendments are required to allow this standard to apply to all residential units regardless of how many are on a site and to be more enabling for residential units located within close proximity to train stations and local centres. Considers that amendments are required to align with the NPS-UD Policy 3 which enables building heights and density of urban form to realise as much development capacity as possible, particularly within walkable distances of existing and planned rapid transit stops and amenities such as local centres. Similarly, heights should be adjusted to 35 meters where the following criteria are broadly met to recognise the higher level of these centres in the Centres hierarchy given their broader function and characteristics. Expand the High Density Residential Zone and heights as follows:</p> <ul style="list-style-type: none"> • 43m (12 Storeys) within 400m of edge of the CCZ and 36m (10 Storeys) within 400m to 1500m from the edge of the CCZ • 36m (10 Storeys) within 800m of the MCZ • 29m (8 Storeys) within 800m of the TCZ. <p>[See Appendix 4 of original submission for more detail]</p>	<p>Amend Standard HRZ-S1 (Building height control 1 where no more than three residential units occupy the site) as follows: Building height control 1 where no more than three residential units occupy the site 1. Buildings and structures must <u>meet the following requirements:</u> <u>a. not exceed 44.22 metres in height above ground level, except that:</u> <u>i. This can be extended to 43m where Buildings and Structures are located within 400m of the CCZ; and</u> <u>ii. This can be extended to 36m where Buildings and Structures are located between 400m-800m of the CCZ or 400m of the MCZ; and</u> <u>iii. This can be extended to 29m where Buildings and Structures are located within 400m from Miramar Town Centre and 50m adjoining the Tawa MUZ extension, within 400m of the Tawa Town Centre Zone and 36m within 400m of the Newtown Town Centre Zone; and</u> <u>b. in all other cases 50% of a building's roof in elevation, measured vertically from the junction between wall and roof, may exceed this height by 1 metre, where the entire roof slopes 15° or more, as shown in Diagram 5 below:</u> <u>Except where:</u> [diagram] This standard does not apply to: a. Fences or standalone walls. <u>b. Solar panel and heating components attached to a building provided these do not exceed the height by more than 500mm; and</u> <u>c. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g., finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height by more than 1m.</u></p> <p>Assessment criteria where the standard is infringed: 1. Streetscape and visual amenity effects; 2. Dominance, privacy and shading effects on adjoining sites; and 3. Effects on the function and associated amenity values of any adjacent open space zone.; <u>and</u> 4. <u>Wind effects</u></p> <p>[Refer to original submission for further information]</p>
Pukepuke Pari Residents Incorporated	FS37.19	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S1	Oppose	<p>Opposes walkable catchment extension - limit of 10 mins on the walkable catchment is appropriate for Wellington and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. People's propensity to walk diminishes with distance. Particularly relevant if the catchment was increased to 15 minutes and the last 5 minutes was up a steep hill.</p> <p>Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay). Oppose review of the O' Bay Height precinct- The Oriental Bay Height Precinct provides protection for significant public amenity value, for all those who use the beach and Parade, representing a large part of the Wellington population. This Height Precinct was decided after careful review by the Environment Court in 1989 and all the considerations that were carefully laid out there are relevant here.</p>	Disallow
Gareth and Joanne Morgan	FS38.13	Residential Zones / High Density Residential Zone / HRZ-S1	Oppose	Opposes elements of Kāinga Ora's submission that seek to amend, remove or rezone the Oriental Bay Height Precinct to High Density Residential Zone.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Onslow Residents Community Association	FS80.16	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S1	Oppose	Considers the proposed amendments go well beyond the requirements of the National Policy Statement on Urban Development and the Medium Density Residential Standards and would enable an unjustified level of development. Considers there is no evidence that this level of enablement is necessary. Considers original submission contains the submitter's view of appropriate settings for our community. [Refer to original submission - 283]	Disallow
Wellington's Character Charitable Trust	FS82.104	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S1	Oppose	The proposed amendments go well beyond the requirements of the NPS-UD and MDRS and would enable an unjustified level of development. There is no evidence that this level of enablement is necessary.	Disallow
Greater Wellington Regional Council	FS84.33	Part 3 / Residential Zones / High Density Residential Zone / HRZS1	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Don MacKay	FS94.19	Part 3 / Residential Zones / High Density Residential Zone / HRZS1	Oppose	Considers that walkable catchment extension opposed -see above in relation to Property Council. Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay). Oppose review of the O' Bay Height precinct- see our reasons re Waka Kotahi.	Disallow
LIVE WELLington	FS96.35	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S1	Oppose	We opposed amendments to standard HRZ-S1 to increase building height controls within given distances of CCZ, MCZ and Town Centre Zones. The proposed amendments go well beyond the requirements of the NPS-UD and MDRS and would enable an unjustified level of development. There is no evidence that this level of enablement is necessary	Disallow
Roland Sapsford	FS117.34	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S1	Oppose	Roland Sapsford opposed amendments to standard HRZ-S1 to increase building height controls within given distances of CCZ, MCZ and Town Centre Zones. The proposed amendments go well beyond the requirements of the NPS-UD and MDRS and would enable an unjustified level of development. There is no evidence that this level of enablement is necessary.	Disallow
Donna Yule	421.4	Residential Zones / High Density Residential Zone / HRZ-S1	Oppose	<p>Opposes the blanket policy of Medium Density 3 Storey Residential housing in all residential areas - the height limits are too high.</p> <p>Considers that no consideration has been given to the geographical location of each individual suburb, its terrain and orientation to the sun. For suburbs that are built in a north south direction with hills either side and the main housing is on the flat, any 3 storey building will cast a significant shadow over many properties.</p> <p>Many more 3 storey development means a whole suburb except for those on the hills will be in permanent shadows.</p> <p>Added to that no space between properties, no outside areas to enjoy a little privacy. These suburbs will become sunless undesirable transitional suburbs where people will only stay a short time until they can afford to move elsewhere with sun & outdoor space.</p>	Not specified.
Gregory Webber	33.7	Residential Zones / High Density Residential Zone / HRZ-S2	Oppose	Opposes six storey buildings in Green Street and believes that two-three storey housing is acceptable.	Amend the 21m height limit at HRZ-S2
Wellington's Character Charitable Trust	FS82.219	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S2	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greg Coyle	39.3	Residential Zones / High Density Residential Zone / HRZ-S2	Oppose	Opposes six storey height limit in Newtown	Not specified
M J & P B Murtagh	98.3	Residential Zones / High Density Residential Zone / HRZ-S2	Amend	Considers that the 21m height standard for Mount Victoria should be reduced.	Seeks that the 21m height limit specified at HRZ-S2 (Building height control 2 for multi-unit housing or a retirement village) is reduced in relation to Mount Victoria.
Lorraine and Richard Smith	230.20	Residential Zones / High Density Residential Zone / HRZ-S2	Oppose	Opposes HRZ-S2 height limit of 21m with regards to Lower Kelburn Neighbourhood. Considers that an 11m height limit will help preserve the unique character of the area. Lower Kelburn is not suitable for 21m height limit because of steep and narrow access, hilly and deeply indented physical character which would require significant infrastructural development to intensify. [Refer to original submission for full reason]	Opposes HRZ-S2 (Height Controls for multi unit housing or a retirement village) with regards to 6 storey building height in Lower Kelburn
Everard Aspell	270.10	Residential Zones / High Density Residential Zone / HRZ-S2	Not specified	Considers that allowing building heights of 11-21 metres in the inner city suburbs of Mount Victoria, Mount Cook, Thorndon, Berhampore, Newtown and Aro Valley will create shading, privacy issues, loss of green areas, reduced property values; will forever change the streetscape and will not reflect the character of the area.	Seeks that intensification is restricted to brownfield sites.
Thorndon Residents' Association Inc	FS69.112	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S2	Support	Part of WCC's summary: ... intensification shouldn't come at the expense of character and heritage. ... the attraction in the Lambton Ward is the unique character and heritage, older Victorian styled houses and working men's cottages dotted around Thorndon, Mount Vic, Aro Valley and Mount Cook. There are multiple brownfield sites well suited for accommodating extra population that will avoid impacting heritage and character.	Allow
Fire and Emergency New Zealand	273.205	Residential Zones / High Density Residential Zone / HRZ-S2	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height. FENZ considers that the inclusion of an exemption for hose drying towers provides for the health and safety of the community by enabling the efficient functioning of FENZ in establishing and operating fire stations.	Supports HRZ-S2 (Building height control 2 for multi-unit housing or a retirement village), with amendment.
Fire and Emergency New Zealand	273.206	Residential Zones / High Density Residential Zone / HRZ-S2	Amend	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height. FENZ considers that the inclusion of an exemption for hose drying towers provides for the health and safety of the community by enabling the efficient functioning of FENZ in establishing and operating fire stations.	Amend HRZ-S2 (Building height control 2 for multi-unit housing or a retirement village) as follows: This standard does not apply to: ... b. Solar panel and heating components attached to a building provided these do not exceed the height by more than 500mm; and c. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height by more than 1m; <u>and</u> d. Hose drying towers up to 15m in height.
Marilyn Powell	281.3	Residential Zones / High Density Residential Zone / HRZ-S2	Oppose	Considers that for WCC to permit high rise dwellings will mean demolition destruction of well-maintained wooden heritage housing stock and insertion of concrete and glass. Inserting just one such high-rise will affect negatively the surrounding wooden housing, causing shading and weatherboard deterioration.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Thorndon Residents' Association Inc	FS69.74	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S2	Support	TRA support these submissions insofar as they underpin the reasons to change the Hobson residential are from HDZ to MDZ and to create a Character Precinct over the block.	Allow
Phillippa O'Connor	289.34	Residential Zones / High Density Residential Zone / HRZ-S2	Amend	Considers that the Western Side of Kelburn Parade, especially #64 Kelburn Parade should have maximum building height increased because: - It is close to the transport network, employment opportunities and social infrastructure. - Larger building heights would support additional housing for the benefit of those utilising the university. [See original submission for full details]	Seeks that Standard HRZ-S2 (Building height control 2) is amended so that the western side of Kelburn Parade has a maximum height limit of 21m as a permitted activity.
Phillippa O'Connor	289.35	Residential Zones / High Density Residential Zone / HRZ-S2	Oppose	Considers this dual-standard approach is unnecessary, and that the more permissive height standard in the MRZ should be enabled irrespective of scale of the development.	Seeks that standards HRZ-S1 (Building height control 1 where no more than three residential units occupy the site) and HRZ-S2 (Building height control 2 for multi-unit housing or a retirement village) building height control are combined so that there are not different height standards for 1-3 residential units and multi unit developments.
Hilary Watson	321.17	Residential Zones / High Density Residential Zone / HRZ-S2	Oppose in part	Considers that Building Height Control 2 is inadequate for properties surrounding Carrara Park. The park serves a large community of people of all ages who live nearby, some of whom are in social housing and apartments with little outdoor space. Carrara Park is a precious resource for the community, heavily used in the afternoon when the sun comes from the northwest and west, an area inappropriately zoned in the PDP at 21 meters. The new three storey block on Regent St already casts shade on the park in the morning at certain times of the year.	Opposes HRZ-S2 in relation to properties around Carrara Park being classified under Building Height Control 2 in HRZ-S2 (Building height control 2 for multi-unit housing or a retirement village).
Khoi Phan	326.37	Residential Zones / High Density Residential Zone / HRZ-S2	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend HRZ-S2 (Building height control 2) as follows: 1. Buildings and structures must not exceed 21 30 metres in height above ground level. ...
Mt Cook Mobilised	331.17	Residential Zones / High Density Residential Zone / HRZ-S2	Amend	Considers that 21 metres heights, or 6 stories, is too tall for the whole Mt Cook area given much of the suburb should be captured within the character area per the findings of the Boffa Miskell report. 21-metre areas adjoining designated character areas could create towering buildings dominating the neighbourhood. Furthermore, such heights will cause neighbouring properties to become shadier, damper, less healthy and unpleasant to live in, with risks of blocking sunlight and solar energy production.	Seeks that High Density Residential Zones in Mount Cook not be directly adjacent to Character Precincts.
Kāinga Ora – Homes and Communities	FS89.102	Part 3 / Residential Zones / High Density Residential Zone / HRZS2	Oppose	Kāinga Ora opposes this submission and its impacts on the supply of a variety of housing choices and typologies in Wellington.	Disallow
Retirement Villages Association of New Zealand Incorporated	350.187	Residential Zones / High Density Residential Zone / HRZ-S2	Support	Supports HRZ-S2 and the additional building height that it enables for retirement villages.	Retain HRZ-S2 (Building height control 2 for multi-unit housing or a retirement village) as notified.
Waka Kotahi	370.366	Residential Zones / High Density Residential Zone / HRZ-S2	Support in part	Supports the direction to enable a range of housing types and densities in the High Density residential Zone.	Retain Standard HRZ-S2 (Building height control 2 for multi-unit housing or a retirement village) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.367	Residential Zones / High Density Residential Zone / HRZ-S2	Amend	Considers that enabling up to twelve stories is appropriate in certain areas where the density is supported by services.	Amend Standard HRZ-S2 (Building height control 2 for multi-unit housing or a retirement village) as follows: 1. Buildings and structures must not exceed 24 <u>22</u> metres in height above ground level. This standard does not apply to: a. Fences or standalone walls; b. Solar panel and heating components attached to a building provided these do not exceed the height by more than 500mm; and c. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height by more than 1m. Assessment criteria where the standard is infringed: 1. Streetscape and visual amenity effects; 2. Dominance, privacy and shading effects on adjoining sites; 3. Effects on the function and associated amenity values of any adjacent open space zone; and 4. Wind effects; and 5. <u>Contribution to built urban form and outcomes sought under the NPS-UD.</u>
Kāinga Ora Homes and Communities	391.475	Residential Zones / High Density Residential Zone / HRZ-S2	Oppose	Opposes the provision of two entirely separate height standards seeks an amendment to HRZ-S1 to allow that standard to cover all areas and provide for greater height limits close to train stations and centres. [As detailed above].	Delete HRZ-S2 (Building height control 1 where no more than three residential units occupy the site) in its entirety as notified.
Greater Wellington Regional Council	FS84.34	Part 3 / Residential Zones / High Density Residential Zone / HRZS1	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Investore Property Limited	405.56	Residential Zones / High Density Residential Zone / HRZ-S2	Support	Supports the provision of a broad area of six storey High Density Residential zoning in the wider Johnsonville catchment. Submitter considers that this gives effect to the NPS-UD and reflects the status of Johnsonville as a Metropolitan Centre.	Retain HRZ-S2 (Building height control 2 for multi-unit housing or a retirement village) as notified. [Inferred decision requested].
Willis Bond and Company Limited	416.84	Residential Zones / High Density Residential Zone / HRZ-S2	Amend	Submitter considers that there should be further scope for development above the façade height, e.g. plant rooms, sloping roofs, etc. The submitter considers that is the view from the street which is the greatest concern (i.e. the height of the parapet). The submitter considers that the way the current height limits are drafted encourages a 'flat haircut' style of building and limits potential roof designs.	Amend HRZ-S2 (Building height control 2 for multi-unit housing or a retirement village) as follows: 1. Buildings and structures must not exceed 21 metres in height above ground level. This standard does not apply to: ... b. Solar panel and heating components attached to a building provided these do not exceed the height by more than 500mm; and c. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height by more than 1m; <u>d. Circumstances where up to 50% of a building's roof in elevation exceeds the maximum height where the entire roof slopes 15° or more; or</u> <u>e. Circumstances where, in respect of flat roofs or roofs sloping less than 15°, non-habitable rooms (such as plant rooms) and other roof-top structures may exceed the height, provided those structures are set back from the leading edge of the parapet by at least 2 metres and do not exceed 50% of the overall roof area.</u> ... [Inferred decision requested].

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Jonathan Markwick	490.28	Residential Zones / High Density Residential Zone / HRZ-S2	Support	Supports the increase in height controls in the "Kelburn North" area.	Retain HRZ-S2 (Maximum height) around Kelburn North as notified.
Jonathan Markwick	490.29	Residential Zones / High Density Residential Zone / HRZ-S2	Support	Supports the increase in height controls in the Hobson Street, Hobson Crescent and Moturoa Street (Thorndon) area.	Retain the High Density Residential Zoning (21m) for Hobson Street, Hobson Crescent and Moturoa Street as notified.
Judith Graykowski	80.9	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that HRZ-S3 (Height in relation to boundary) is very limited and simply not adequate.	Not specified.
Ann Mallinson	81.6	Residential Zones / High Density Residential Zone / HRZ-S3	Not specified	Considers that developers should not be allowed to build without a requirement not to intrude on the sunlight of neighbouring buildings. The extra heating that will be used by the affected buildings will badly affect our carbon emissions.	Not Specified.
Joanna Newman	85.3	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that HRZ-S3 (Height in relation to boundary) does not adequately take account of areas where 21m or 28.5m buildings are permitted up against character precincts, heritage areas, Mt Victoria North Townscape Precinct or Character Precinct-extension areas proposed by Mt Victoria Historical Society. Considers that allowing buildings of heights with 5 metre boundaries will destroy heritage or character from a visual point of view and lead to degradation of such properties. [See original submission for further detail] Supports evidence submitted by the Mt Victoria Historical Society.	Seeks that a 'transition zone' of Medium Density Residential Zone of at least one property wide be required between any Character Precinct or heritage area border and a High Density Residential Zone.
Interprofessional Trust	96.8	Residential Zones / High Density Residential Zone / HRZ-S3	Oppose	Considers that recession plane requirements should be removed from the PDP.	Seeks that HRZ-S3 (Height in relation to boundary) is deleted.
Gael Webster	114.7	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that HRZ-S3 (Height in relation to boundary) does not adequately take account of areas where 21m or 28.5m high buildings are permitted up against Character Precincts, Heritage Areas, Mt Victoria North Townscape Precinct or Character Precinct-extension areas proposed by Mt Victoria Historical Society. Considers that allowing buildings of such heights with a 5 metre height to boundary will destroy the heritage or character from a visual point of view and reduce the well-being of residents due to insufficient light and sunshine, and will likely to lead to degradation and abandonment of these properties.	Seeks that a 'transition zone' of Medium Density Residential Zone at least one property wide is required between any Character Precinct or Heritage Area border and a High Density Residential Zone.
Vivienne Morrell	155.12	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that HRZ-S3 (Height in relation to boundary) is very limited and simply not adequate, given that HRZ buildings can go right to site boundaries.	Not specified.
Mount Victoria Historical Society	214.9	Residential Zones / High Density Residential Zone / HRZ-S3	Oppose	Considers that HRZ-S3 (Height in relation to boundary) does not adequately take account of areas where 21m or 28.5m buildings are permitted up against character precincts, heritage areas, Mt Victoria North Townscape Precinct or Character Precinct-extension areas proposed by Mt Victoria Historical Society.	Not specified.
Pauletta Wilson	257.5	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that the plan has very limited controls to manage shading and sunshine and that these are not adequate given buildings in the new high density zone can go right to site boundaries.	Seeks that HRZ-S3 (Height in relation to boundary) is amended to limit the shading of private properties beyond the controls that are in the plan already.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council	266.147	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers there is a need to amend exemptions to HRZ-S3.	Amend HRZ-S3 (Height in relation to boundary) exemptions as follows: (...) This standard does not apply to: a. (...) b. (...) c. (...)- <u>d. Solar panel and heating components attached to a building provided these do not exceed the height by more than 500mm; and</u> <u>e. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height by more than 1m measured vertically.</u>
Fire and Emergency New Zealand	273.207	Residential Zones / High Density Residential Zone / HRZ-S3	Support in part	As per previous submission points, FENZ seeks an exemption for hose drying towers regarding height in relation to boundary standards	Supports HRZ-S3 (Height in relation to boundary), with amendment.
Fire and Emergency New Zealand	273.208	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	As per previous submission points, FENZ seeks an exemption for hose drying towers regarding height in relation to boundary standards	Amend HRZ-S3 (Height in relation to boundary) as follows: This standard does not apply to: ... b. Existing or proposed internal boundaries within a site; <u>and</u> c. Site boundaries where there is an existing common wall between 2 buildings on adjacent sites or where a common wall is proposed; <u>and</u> <u>d. Hose drying towers up to 15m in height.</u>
Phillippa O'Connor	289.36	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that at 21m, a maximum height to boundary of 8m plus 60 degrees is onerous and renders future development of smaller sites in particular likely unable to achieve maximum height.	Amend HRZ-S3 (Height in relation to boundary) as follows: 2. For any site where HRZ-S2 applies: no part of any building or structure may project beyond a 60° recession plane measured from a point 3 19 metres vertically above ground level along all boundaries, <u>except where (3) or (4) below is applicable.</u>
James Coyle	307.16	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that HRZ-S3 is not suitable to be applied around Carrara Park for the following reasons: - The shallow depth of the park in the North South Direction make it susceptible for shading. - The location of amenities close to the Western Boundary are susceptible to shading. - The equinox is not a suitable measure to shading as the sun angle is still high. - The mixture of HRZ and MRZ zones around the park further complicates and adds risk to shading, there is no guidance on MRZ for open space. - Winter sun has significant shading potential. - There are little accessible parks in Newtown. A hatched zone measured by the winter solstice sunrise to sunset angles should be created. All properties in this zone need a 45deg recession plane measured from 2m above ground at the boundary. The point of measurement should be from the southwest boundary corner and the South east boundary corner. [Refer to attachment]	Amend HRZ-S3 (Height in relation to boundary) around Carrara Park in Newtown to require properties to have a 45 degree recession plane measured from 2m above ground at the boundary.
James Coyle	307.17	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that Carrara Park should be protected for development to the East / North / West. [Refer to original submission for full reason]	Seeks that Carrara Park be protected for development to the East, North and West.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Philip O'Reilly and Julie Saddington	310.3	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	HRZ-S3 does not provide any protection of the amenity effects on character precinct and should be amended to have an additional sub-point. The policy as it stands will result in large buildings creating significant effects on neighbouring character areas, eroding their special character values.	Amend HRZ-S3 (Height in relation to boundary) as follows: ... 3. For any site where HRZ-S2 applies: no part of any building or structure may project beyond a 60° recession plane measured from a point 5 metres vertically above ground level along any boundary that adjoins a site in: i. The Medium Density Residential Zone; or ii. The Wellington Town Belt Zone; or iii. Any Heritage Area; or iv. Any site containing a Heritage Building; or v. Any site occupied by a school; <u>or</u> vi. <u>Any Character Precinct.</u>
Hilary Watson	321.18	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that the upzoning of 73.2 percent of Newtown as HRZ is not respectful of the City's historic heritage and will result in the irretrievable loss of character, distinctiveness and identity across the suburb, including Character Precincts. The HRZ in the area will not effectively achieve the strategic direction supporting the creation of a liveable, well-functioning urban environment that enables all people and communities to provide for their social, economic and cultural wellbeing, as well as their health and safety. [Refer to original submission for full reason]	Seeks to reduce the extent of the High Density Residential Zone in Newtown. [Inferred decision requested]
Hilary Watson	321.19	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that HRZ-S3.4 provides inadequate height zoning for properties around Carrara Park in Newtown. The provision does not provide sufficient sun access to the park and is too limited in the way it relates to the properties surrounding Carrara Park in Newtown. Properties surrounding Carrara Park should have appropriate setbacks and roof planes so that the park gets maximum possible sun all year round.	Seeks that the properties bordering Carrara Park have appropriate setbacks and roof planes so that the park gets maximum possible sun all year round.
Khoi Phan	326.38	Residential Zones / High Density Residential Zone / HRZ-S3	Oppose	[No specific reason given beyond decision requested - refer to original submission].	Delete HRZ-S3 (Height in relation to boundary) in its entirety.
Mt Cook Mobilised	331.18	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that HRZ-S3 is inadequate, given buildings can go right up to site boundaries. Design requirements for multi-unit residential developments need to be strengthened to future-proof buildings and provide for good community experience.	Amend HRZ-S3 (Height in relation to boundary) to better future-proof buildings and provide for good community experience.
Thorndon Residents' Association	333.14	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that adjacent property owners, particularly of wooden structures, should be enabled to gain access for repairs and maintenance to their structures, and to maintain access to services/utilities and boundary fences. It references standard HRZ - S3 and states that "amend if necessary". 1.5m front yard setback and a 1 metre yard are considered absolute minimums (perhaps should be more).	Seeks that there are adequate setbacks for buildings and structures from neighbouring boundaries in any residential zone. 1.5m front yard setback and a 1 metre yard are considered absolute minimums (perhaps should be more).
Retirement Villages Association of New Zealand Incorporated	350.188	Residential Zones / High Density Residential Zone / HRZ-S3	Support in part	Supports HRZ-S3 to the extent it is consistent with the MDRS. However, it is considered that additional exclusions should be integrated with the standard to reflect that some developments may occur adjacent to less sensitive zones.	Retain HRZ-S3 (Height in relation to boundary) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.189	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Supports HRZ-S3 to the extent it is consistent with the MDRS. However, it is considered that additional exclusions should be integrated with the standard to reflect that some developments may occur adjacent to less sensitive zones.	Amend HRZ-S3 (Height in relation to boundary) so that it does not apply to boundaries adjoining open space and recreation zones, commercial and mixed use zones, and special purpose zones.
WCC Environmental Reference Group	377.388	Residential Zones / High Density Residential Zone / HRZ-S3	Support	HRZ-S3 is supported as it will help enable facilities and services well suited to a residential setting.	Retain HRZ-S3 (Height in relation to boundary) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.476	Residential Zones / High Density Residential Zone / HRZ-S3	Support in part	Supports HRZ-S3 in general subject to amendments being made to reflect the relevant height control as sought for other standards and to achieve improved regional alignment and enable appropriate levels of intensification in the HRZ.	Retain HRZ-S3 (Height in relation to boundary) and seeks amendment.
Kāinga Ora Homes and Communities	391.477	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Supports HRZ-S3 in general subject to amendments being made to reflect the relevant height control as sought for other standards and to achieve improved regional alignment and enable appropriate levels of intensification in the HRZ.	Amend HRZ-S3 (Height in relation to boundary) as follows: 1. For any site where HRZ-S1 applies: No part of any building or structure may project beyond a 60° recession plane measured from a point 4-19 metres vertically above ground level along all boundaries within 21.5 m from the frontage, as shown in Diagram 6 below. (diagram) 2. For any site where HRZ-S2 applies: No part of any building or structure may project beyond a 60° recession plane measured from a point 8 metres vertically above ground level along all boundaries except where (1) above is applicable, and except where (3) or (4) below is applicable; 3. For any site where HRZ-S2 applies: No part of any building or structure may project beyond a 60° recession plane measured from a point 56 metres vertically above ground level along any boundary that adjoins a site in: ...
Greater Wellington Regional Council	FS84.35	Part 3 / Residential Zones / High Density Residential Zone / HRZS3	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Willis Bond and Company Limited	416.85	Residential Zones / High Density Residential Zone / HRZ-S3	Amend		Amend HRZ-S3 (Height in relation to boundary) as follows: 1. For any site where HRZ-S1 applies: no part of any building or structure may project beyond a 60° recession plane measured from a point 4 metres vertically above ground level along all boundaries, as shown in Diagram 6 below. (Diagram) ... [Also delete diagram]
Anna Kemble Welch	434.11	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that HRZ-S3 should be amended to allow for more daily sunlight access throughout the year. Carrara Park in Newtown is in the middle of a residential area and close to a large amount of WCC housing with many families who use the park as their playground and social space to meet friends. If neighbouring properties are designated as Medium or High Density residential, then future development could easily overshadow the open space and make the playground cold and damp, uninviting and unhealthy. The provision in item 4 does not go far enough to protect this from happening. Retaining a minimum of 70% sunlight for only half the year (spring to autumn equinox) for only the hours of 10am to 3pm means the park could be heavily shaded for the other half of the year, autumn to spring, which is the time people really need the sunshine. 10am to 3pm cuts out the times children are likely to play in the park after school, so by the time they get there it is no longer sunny.	Amend HRZ-S3 (Height in relation to boundary) as follows: ... 4. For any site where HRZ-S2 or HRZ-S1 applies that is located within 60 meters of adjacent to a site in the Natural Open Space Zone, Open Space Zone, or Sport and Active Recreation Zone: all buildings and structures must be designed and located to maintain sunlight access to a minimum of 70% of the open space site area during 10am to 4.30pm throughout the year, 3pm at either of the equinoxes (i.e. 21 March or 23 September). ...
The Retirement Villages Association of New Zealand Incorporated	FS126.9	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S3	Oppose	Inconsistent with the MDRS and with the RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.9	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S3	Oppose	Inconsistent with the MDRS and with Ryman's primary submission.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kirsty Woods	437.9	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that the current standards for High Density Residential fail to address effects adequately, including loss of sunlight. Heights from which recession planes on the southern boundary of a new development are measured should also be adjusted down to minimise loss of sun from the north of neighbouring properties.	Amend HRZ-S3 (Height in relation to boundary) as follows: 1. For any site where HRZ-S1 applies: no part of any building or structure may project beyond a 60° recession plane measured from a point 4 metres vertically above ground level along all boundaries, as shown in Diagram 6 below its northern boundary, and 2 metres vertical above ground level on its southern, eastern and western boundaries; 2. For any site where HRZ-S2 applies: no part of any building or structure may project beyond a 60° recession plane measured from a point 8 metres vertically above ground level along all boundaries, its northern boundary except where (3) or (4) below is applicable, and 5 metres vertically above ground level on its southern, eastern and western boundaries; ...
Newtown Residents' Association	440.26	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers tht HRZ-S3 should be amended, as it is too limited and does not provide enough protection from shade. It is considered that: - A 4m wall on the north boundary, with a 60 degree recession plane, would allow a complete blocking of sun for existing homes on Newtown's small sections, where there is likely to only be a small side yard. - The standard only applies to buildings in the HRZ directly adjacent to a park, and not to buildings across the street or otherwise seperated from the park boundary. - The days and hours this standard applies are too restrictive and will often be reached with only minor changes to the maximum permitted height. However it is during the winter that the need for sunlight is most acute, and a building that meets the standard at the solstice will be shading a much bigger area by mid winter. Carrara Park in Newtown is an example of a space that will be affected by this standard. - Peak usage for primary and secondary school aged children is after school, so 3pm is too early for them; the time should extend to at least 4pm and preferably 4.30pm. - Sites where HRZ-S1 applies have a required set back from the boundary, but if someone chooses to build to the allowed 11m height then the remaining bulk of the building still casts a significant shadow. [Refer to original submission for full reason]	Amend HRZ-S3 (Height in relation to boundary) as follows: ... 4. For any site where HRZ-S2 or HRZ-S1 applies that is located adjacent to <u>within 60m of</u> a site in the Natural Open Space Zone, Open Space Zone, or Sport and Active Recreation Zone: all buildings and structures must be designed and located to maintain sunlight access to a minimum of 70% of the open space site area during 10am to 3pm <u>4pm</u> at either of the equinoxes (i.e. 21 March or 23 September) <u>and at midwinter ie. 23 June.</u>
Greater Brooklyn Residents Association Inc's	459.10	Residential Zones / High Density Residential Zone / HRZ-S3	Oppose	Considers HRZ-S3 (Height in relation to boundary) as very limited and simply not adequate.	Not specified.
Catharine Underwood	481.24	Residential Zones / High Density Residential Zone / HRZ-S3	Amend	Considers that the standard is very limited and simply not adequate, given the buildings in the new medium density zone can go right to site boundaries.	Amend HRZ-S3 (Height in relation to boundary) to be stricter.
AdamsonShaw	137.13	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers that HRZ-S4 should be amended as the current standards in the Operative District Plan for the corresponding zone are more permissive than the PDP yard/setback standards. The front yard setback should be 1 metre as it is in the ODP for the inner residential zone.	Amend HRZ-S4 (Boundary setbacks) so that the front yard setback is 1 metre.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
AdamsonShaw	137.14	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers that HRZ-S4 should be amended as the current standards in the Operative District Plan for the corresponding zone are more permissive than the PDP yard/setback standards.	Amend HRZ-S4 (Boundary setbacks) so that there is no side or rear yard setback requirement except that, a minimum width of 1 metre must be maintained between buildings where a residential building (other than an accessory building) on an adjoining site is sited less than 1 metre from the boundary.
KiwiRail Holdings Limited	FS72.89	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S4	Oppose	Rejects the deletion of yard setback standards. For sites adjoining the rail corridor, setbacks ensure that people can use and maintain their land and buildings safely without needing to extend out into the railway corridor, minimising the risks of physical interference on railway operations and health and safety hazards on these residents. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Zaffa Christian	174.5	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers that a one metre needs to be maintained in order to minimise damage in an earthquake. This is based on recommendations made by Michael Fowler. Building this close with high-medium rise buildings, also contravenes the sunshine clause currently being upheld by the environmental commission.	Seeks that MRZ-S4 (Boundary setbacks) applies to developments of 1 - 3 units, so that buildings are setback at least one metre from the fence/boundary line. [Inferred decision requested].
Jon Gaupset	175.5	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers that a one metre needs to be maintained in order to minimise damage in an earthquake. This is based on recommendations made by Michael Fowler. Building this close with high-medium rise buildings, also contravenes the sunshine clause currently being upheld by the environmental commission.	Seeks that MRZ-S4 (Boundary setbacks) applies to developments of 1 - 3 units, so that buildings are setback at least one metre from the fence/boundary line. [Inferred decision requested].
Avryl Bramley	202.42	Residential Zones / High Density Residential Zone / HRZ-S4	Oppose	Considers that this has been the case in the past and has been a recipe for disaster leaving individual homeowners trying to wrench enforcement compliance out of builders who think they have a right to trespass on adjoining properties and or demolish structures they do not own.	Seeks that HRZ-S4 is amended to require boundary setbacks. [Inferred decision requested]
Avryl Bramley	202.43	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers that this has been the case in the past and has been a recipe for disaster leaving individual homeowners trying to wrench enforcement compliance out of builders who think they have a right to trespass on adjoining properties and or demolish structures they do not own.	Seeks reinstatement of side yards in residential areas. [Inferred reinstatement of front and side yards for 1 - 3 units in HRZ-S4].
Russell Taylor	224.4	Residential Zones / High Density Residential Zone / HRZ-S4	Oppose	Considers that multi unit developments need to be encouraged	Seeks that HRZ-S4 (Boundary setbacks) not apply to multi unit developments.
Victoria Stace	235.6	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers that yard setbacks enable adjacent property owners of wooden structures gain access for repairs and maintenance to their structures.	Seeks that HRZ-S4 (Boundary setbacks) is amended to require 1.5m front yard setback and 1m side yard setback for all properties in the zone, including sites with 1 - 3 dwellings.
Pukepuke Pari Residents Incorporated	237.6	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers that this enables adjacent property owners of wooden structures gain access for repairs and maintenance to their structures. [Note the submitter refers to HRZ-S3, which is the height in relation to boundary standard]	Seeks that HRZ-S4 is amended to require 1.5m front yard setback and 1m side yard setback for all properties in the zone, including sites with 1 - 3 dwellings. [Inferred decision requested]
Paul Ridley-Smith	245.6	Residential Zones / High Density Residential Zone / HRZ-S4	Support in part	Supports the minimum yard setbacks of 1.5m (front yard) and 1m (side yards) in all residential zones. Considers that this enables adjacent property owners of wooden structures gain access for repairs and maintenance to their structures.	Supports HRZ-S4 (Building setbacks) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Paul Ridley-Smith	245.7	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers that the minimum yard setbacks of 1.5m (front yard) and 1m (side yards) should apply in all residential zones as this enables adjacent property owners of wooden structures gain access for repairs and maintenance to their structures.	Seeks that HRZ-S4 is amended to require 1.5m front yard setback and 1m side yard setback for all properties in the zone, including sites with 1 - 3 dwellings. [Inferred decision requested]
Wellington City Council	266.148	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Amend HRZ-S4 (Boundary setbacks) exemptions as follows: This standard does not apply to: <u>a. Developments of 1-3 household units with respect to the front and side yard set-back requirements;</u> <u>a.b. Site boundaries where there is an existing common wall between 2 buildings on adjacent sites or where a common wall is proposed; and</u> <u>b.c. Fences or standalone walls;</u> <u>d. Uncovered decks and uncovered structures no more than 500mm in height above ground level;</u> <u>e. Eaves up to 600mm in width;</u> <u>e.e. Multi-unit housing; and</u> <u>e.f. Retirement villages.</u>
KiwiRail Holdings Limited	FS72.90	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S4	Oppose	Rejects exempting 1-3 dwellings from complying with yard setback standards. For sites adjoining the rail corridor, setbacks ensure that people can use and maintain their land and buildings safely without needing to extend out into the railway corridor, minimising the risks of physical interference on railway operations and health and safety hazards on these residents. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Rimu Architects Ltd	318.27	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers that HRZ-S4 should be amended to have an exception for low decks and eaves. Both the front & side yard requirements are more restrictive than current rules. There are also no exceptions for low decks or eaves. A wall 1m clear of the boundary with an eave up to 600 wide above is consistent with other regulatory requirements, so keeping the side yard requirement but allowing a 600 eave (as at GRUZ-S4) would be reasonable, as would that provision's allowance for low decks.	Amend HRZ-S4 (Boundary setbacks) as follows: ... This standard does not apply to: a. Site boundaries where there is an existing common wall between 2 buildings on adjacent sites or where a common wall is proposed; and b. Fences or standalone walls; and c. <u>Uncovered decks no more than 500mm in height above ground level; and</u> d. <u>Eaves up to 600mm in width</u>
Khoi Phan	326.39	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend HRZ-S4 (Boundary setbacks) as follows: Yard Minimum depth Front 1.5 metres <u>1.0 metre</u> Side 1 metre <u>0.5 metre</u> Rear 1 metre <u>0.5 metre</u> (excluded on corner sites)

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested										
Mt Cook Mobilised	331.19	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers that setback requirements should be modelled after the Sydney Design Guide, by taking into account the width of the street (i.e. narrower the street, lower the height in which a setback takes effect) and the height of the building (i.e. higher the building, the greater the setback is).	Seeks that setback requirements take into account the width of the streets and heights of buildings.										
Retirement Villages Association of New Zealand Incorporated	350.190	Residential Zones / High Density Residential Zone / HRZ-S4	Support	Supports the exclusion of retirement villages from HRZ-S4.	Retain HRZ-S4 (Boundary setbacks) as notified.										
Waka Kotahi	370.368	Residential Zones / High Density Residential Zone / HRZ-S4	Support in part	Standard HRZ-S4 is supported, but amendment is sought	Retain Standard HRZ-S4 (Boundary setbacks) with amendment.										
Waka Kotahi	370.369	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers that HRZ-S4 should have immediate legal effect to align with the MDRS requirements, and to avoid confusion where boundary setbacks are applied from both the operative and proposed district plan. It is noted the intention of the NPS-UD is to enable urban environments to evolve and change, enabled by the national standards.	Seeks to amend HRZ-S4 (Boundary setbacks) to ensure it has immediate legal effect.										
WCC Environmental Reference Group	377.389	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers that the boundary setbacks do not provide for efficient use of land, and will continue to perpetuate the poor land use practice of infill without regard to long term liveability. The submitter seeks that the requirement for a frontage setback be removed, along with side yard requirements. The submitter seeks a greater rear yard set back. Considers that this will help get our medium and high density zones on a track towards a better, more efficient yet useable urban form for the years to come.	Amend HRZ-S4 (Boundary setbacks) to remove: - the minimum depth front yard requirement, - the side yard requirement for the first 20 m from front (street frontage) to back, and increase the rear yard requirement to 8 metres.										
Kāinga Ora Homes and Communities	391.478	Residential Zones / High Density Residential Zone / HRZ-S4	Support in part	Supports HRZ-S4 subject to removal of reference to Multi-Unit housing.	Retain HRZ-S4 (Boundary setbacks) and seeks amendment.										
Kāinga Ora Homes and Communities	391.479	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Supports HRZ-S4 subject to removal of reference to Multi-Unit housing.	Amend HRZ-S4 (Boundary setbacks) as follows: This standard does not apply to: ... c. Multi-unit housing where there are more than six residential units; and										
KiwiRail Holdings Limited	408.123	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers that building setbacks are essential to address significant safety hazards associated with the operational rail corridor. The Proposed Plan enables a 1m setback from side and rear boundaries shared with the rail corridor under HRZ-S4, increasing the risk that poles, ladders, or even ropes for abseiling equipment, could protrude into the rail corridor and increasing the risk of collision with a train or electrified overhead lines. KiwiRail consider that a 5m setback would be more appropriate in providing for vehicular access to the rear of buildings (e.g. a cherry picker) and allowing for scaffolding to be erected safely. An increased setback would provide for the unhindered operation of buildings, including higher rise structures and for the safer use of outdoor deck areas at height. This in turn fosters visual amenity, as lineside properties can be regularly maintained. KiwiRail seek a boundary setback of 5m from the rail corridor for all buildings and structures.	Amend HRZ-S4 (Boundary setbacks) as follows: 1. Buildings and structures must be set back from the relevant boundary by the minimum depth listed in the yards table below: <table border="1"> <thead> <tr> <th>Yard Boundary</th> <th>Minimum depth</th> </tr> </thead> <tbody> <tr> <td>Front</td> <td>1.5 metres</td> </tr> <tr> <td>Side</td> <td>1 metre</td> </tr> <tr> <td>Rear</td> <td>1 metre (excluded on corner sites)</td> </tr> <tr> <td>Rail corridor</td> <td>5 metres</td> </tr> </tbody> </table>	Yard Boundary	Minimum depth	Front	1.5 metres	Side	1 metre	Rear	1 metre (excluded on corner sites)	Rail corridor	5 metres
Yard Boundary	Minimum depth														
Front	1.5 metres														
Side	1 metre														
Rear	1 metre (excluded on corner sites)														
Rail corridor	5 metres														
Kāinga Ora – Homes and Communities	FS89.36	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S4	Oppose	Kāinga Ora opposes the relief sought insofar as it relates to the requested 5m setback; a considerably reduced set back would provide adequate space for maintenance activities within sites adjacent to the rail network. In doing so, it will continue to protect the safe, efficient, and effective operation of the rail infrastructure while balancing the cost on landowners.	Disallow

Donna Yule	421.5	Residential Zones / High Density Residential Zone / HRZ-S4	Oppose	<p>Opposes having no residential minimum boundaries space of at least 1 metre.</p> <p>No consideration has been given to the geographical location of each individual suburb, its terrain and orientation to the sun. For suburbs that are built in a north south direction with hills either side and the main housing is on the flat, any 3 storey building will cast a significant shadow over many properties.</p> <p>Many more 3 storey development means a whole suburb except for those on the hills will be in permanent shadows.</p> <p>Added to that no space between properties, no outside areas to enjoy a little privacy. These suburbs will become sunless undesirable transitional suburbs where people will only stay a short time until they can afford to move elsewhere with sun & outdoor space.</p>	Not specified.
Johnsonville Community Association	429.38	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	<p>Considers that one major recent decision by the Council has been to remove the building front and side setback requirements in the current District Plan. Permitting buildings onto the boundary is a significant loss of neighbourhood amenity and is likely to further reduce the natural light next to high buildings.</p>	<p>Seeks that HRZ-S4 (Boundary setbacks) is amended to require 1.5m front yard setback and 1m sideyard setback for all properties in the zone, including sites with 1 - 3 dwellings.</p> <p>[Inferred Decision Requested]</p>
Kirsty Woods	437.10	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	<p>Considers that the current standards for High Density Residential fail to address effects adequately, including loss of sunlight. Standards should acknowledge the effects on existing properties of new-builds, depending on whether they are built to the north, east, west or South.</p>	<p>Amend HRZ-S4 (Boundary setbacks) as follows:</p> <p>1. Buildings and structures must be set back from the relevant boundary by the minimum depth listed in the yards table below:</p> <p>This standard does not apply to:</p> <p>a. Site boundaries where there is an existing common wall between 2 buildings on adjacent sites or where a common wall is proposed; <u>and</u></p> <p>b. Fences or standalone walls;</p> <p>c. Multi-unit housing; and</p> <p>d. Retirement villages.</p> <p><u>The standard for Front Yard minimum depth do not apply to:</u></p> <p><u>a. Multi-unit housing; and</u></p> <p><u>b. Retirement villages.</u></p>
The Retirement Villages Association of New Zealand Incorporated	FS126.169	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S4	Oppose	<p>The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission.</p>	Disallow
Ryman Healthcare Limited	FS128.169	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S4	Oppose	<p>Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.</p>	Disallow
Meredith Robertshawe	444.6	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	<p>Seeks that front and side yard boundaries retained to increase the streetscape and visual amenity effects; and minimise potential dominance, lack of privacy and shading effects on adjoining sites.</p>	Amend HRZ-S4 (Boundary setbacks) to reinstate the front and side yard set-backs for developments of 1 to 3 units.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Meredith Robertshawe	444.7	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	<p>Seeks that MRZ-S4 has front and side yard boundaries retained to retain existing streetscape and visual amenity effects; and minimise potential dominance, lack of privacy and shading effects on adjoining sites.</p> <p>Seeks the reinstatement of front and side yard boundaries for:</p> <p>a. Site boundaries where there is an existing common wall between 2 buildings on adjacent sites or where a common wall is proposed;</p> <p>b. Fences or standalone walls;</p> <p>c. Multi-unit housing; and</p> <p>d. Retirement villages</p> <p>Considers that this will ensure that space between separate buildings will be retained, and increase the amenity value for neighbourhoods where medium density building is allowed.</p>	<p>Amend HRZ-S4 (Boundary setbacks) as follows:</p> <p>...</p> <p>This standard does not apply to:</p> <p>a. Site boundaries where there is an existing common wall between 2 buildings on adjacent sites or where a common wall is proposed;</p> <p>b. Fences or standalone walls;</p> <p>c. Multi-unit housing; and</p> <p>d. Retirement villages.</p> <p>...</p>
Ryman Healthcare Limited	FS128.184	Residential Zones / High Density Residential Zone / HRZ-S4	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Greater Brooklyn Residents Association Inc's	459.11	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers it appropriate to amend front setbacks to two metres as per the Operative District Plan.	<p>Amend HRZ-S4 (Boundary setbacks) as follows:</p> <p>Buildings and structures must be set back from the relevant boundary by the minimum depth listed in the yards table below:</p> <p>Front - 1.5 metres 2 metres</p> <p>[Inferred decision requested]</p>
Catharine Underwood	481.2	Residential Zones / High Density Residential Zone / HRZ-S4	Oppose	Considers that the removal of front and side yard setbacks for medium density residential standards compliant development will negatively affect the street scape of suburban Wellington.	Seeks that front and side yard setbacks in HRZ-S4 (Boundary setbacks) apply to residential units that comply with the medium density residential standards.
Catharine Underwood	481.25	Residential Zones / High Density Residential Zone / HRZ-S4	Amend	Considers that all new buildings in the inner city should have a minimum set back of at least 1.5 (2m is better) to give room for a green corridor. Side yards are a good place for rubbish bins, compost bins or sheds to store bikes and other toys. A good example of why larger set backs are needed in The Paddington on Taranaki Street, which was meant to have several street trees lining the pavement and softening the development, as part of the consent but ended up with no trees due to underground services like pipes, telecommunications, electricity and sewerage. If there had been a setback, a green front would have been possible. The residents of The Paddington and Wellington are the poorer because of this.	Amend HRZ-S4 (Boundary setbacks) to have setbacks of 2m and at least 1.5m in the inner city.
Wellington City Council	266.149	Residential Zones / High Density Residential Zone / HRZ-S5	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	<p>Amend HRZ-S5 (Building coverage) exemptions as follows:</p> <p>This standard does not apply to:</p> <p><u>a. Uncovered decks and uncovered structures no more than 500mm in height above ground level;</u></p> <p><u>b. Eaves up to 600mm in width;</u></p> <p>c. Multi-unit housing; and</p> <p>d. Retirement villages.</p>
Retirement Villages Association of New Zealand Incorporated	350.191	Residential Zones / High Density Residential Zone / HRZ-S5	Support	Supports the exclusion of retirement villages from HRZ-S5.	Retain HRZ-S5 (Building coverage) as notified.
Waka Kotahi	370.370	Residential Zones / High Density Residential Zone / HRZ-S5	Support	Standard HRZ-S5 is supported as it aligns with the MDRS requirements.	Retain HRZ-S5 (Building coverage) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.480	Residential Zones / High Density Residential Zone / HRZ-S5	Support in part	Supports HRZ-S5 subject to removal of reference to Multi-Unit housing.	Retain HRZ-S5 (Building coverage) and seeks amendment.
Kāinga Ora Homes and Communities	391.481	Residential Zones / High Density Residential Zone / HRZ-S5	Amend	Supports HRZ-S5 subject to removal of reference to Multi-Unit housing.	Amend HRZ-S5 (Building coverage) as follows: This standard does not apply to: a. Multi-unit housing where there are more than six residential units; and ...
Retirement Villages Association of New Zealand Incorporated	350.192	Residential Zones / High Density Residential Zone / HRZ-S6	Support	Supports the exclusion of retirement villages from HRZ-S6.	Retain HRZ-S6 (Outdoor living space (per unit)) as notified.
Waka Kotahi	370.371	Residential Zones / High Density Residential Zone / HRZ-S6	Support	Standard HRZ-S6 is supported as it aligns with the MDRS requirements.	Retain HRZ-S6 (Outdoor living space (per unit)) as notified.
Envirowaste Services Ltd	373.23	Residential Zones / High Density Residential Zone / HRZ-S6	Support in part	[No specific reason given beyond decision requested - refer to original submission]	Retain HRZ-S6 (Outdoor living space (per unit)) with amendment.
Envirowaste Services Ltd	373.24	Residential Zones / High Density Residential Zone / HRZ-S6	Amend	Considers that bin storage should have a specific and acknowledged location on site that is outside an outdoor living space.	Amend HRZ-S6 (Outdoor living space (per unit)) as follows: 1. A residential unit at ground floor level must have an outdoor living space that is at least 20 square metres and that comprises ground floor, balcony, patio, or roof terrace space that: a. Where located at ground level, has no dimension less than 3 metres; b. Where provided in the form of a balcony, patio, or roof terrace, is at least 8 square metres and has a minimum dimension of 1.8 metres; c. Is accessible from the residential unit; d. May be: i. grouped cumulatively by area in 1 communally accessible location; or ii. located directly adjacent to the unit; and e. Is free of buildings, parking spaces, and servicing (including waste facilities) and maneuvering areas.
WCC Environmental Reference Group	377.390	Residential Zones / High Density Residential Zone / HRZ-S6	Support	HRZ-S6 is supported as provision for outdoor living space is an important part of ensuring a healthy and pleasant environment for people living in higher density areas.	Retain HRZ-S6 (Outdoor living space (per unit)) as notified.
Kāinga Ora Homes and Communities	391.482	Residential Zones / High Density Residential Zone / HRZ-S6	Oppose in part	Acknowledges that HRZ-S6 is directly taken from the MDRS, however, considers that the standard could be made more enabling. HRZ-S13 for multi-unit housing is a more enabling outdoor living space requirement which is considered appropriate for all residential units as it provides sufficient onsite space and amenity. Amendments are sought to replace HRZ-S6 with HRZ-S13 and delete reference to multi-unit housing and retirement villages.	Delete HRZ-S6 (Outdoor living space (per unit)) in its entirety as notified. Seeks to replace standard with amendments sought to HRZ-S13.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested

Retain HRZ-S10 (Permeable surface area) as follows: ... This standard does not apply to: a. Multi-unit housing where there are more than six residential units; and ...

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Design Network Architecture Limited	259.4	Residential Zones / High Density Residential Zone / HRZ-S11	Amend	Considers that the current wording of HRZ-S11 potentially allows fences for multi-unit developments to be at any height provided the fences were not immediately on the front boundary.	Seeks amendment to HRZ-S11 (Fences and Standalone Walls) to improve clarity to avoid fences for multi-unit developments being able to have any height as long as they are not on the front boundary.
Fire and Emergency New Zealand	273.209	Residential Zones / High Density Residential Zone / HRZ-S11	Support in part	Considers it important that the erection of fences and walls will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Fences and walls should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ	Support HRZ-S11 (Fences and standalone walls), with amendment.
Fire and Emergency New Zealand	273.210	Residential Zones / High Density Residential Zone / HRZ-S11	Amend	Considers it important that the erection of fences and walls will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Fences and walls should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ	Amend HRZ-S11 (Fences and standalone walls) as follows: 1. Any fence or standalone wall, or combination of these structures, must not exceed : a. <u>Exceed</u> a maximum height of 2m above ground level where within 1m of any side or rear boundary. b. <u>Obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves, or other emergency response facilities.</u> 2. On a front boundary or in a front boundary setback any fence or standalone wall, or combination of these structures, must not exceed : a. <u>Exceed</u> a maximum height of 2m above ground level; and b. Any part of a fence or standalone wall above 1.2m in height must be 50% visually transparent for its entire length, as shown in Diagram 8 below. c. <u>Obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves, or other emergency response facilities.</u>
Khoi Phan	326.40	Residential Zones / High Density Residential Zone / HRZ-S11	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend MRZ-S11 (Fences and standalone walls) as follows: 1. Any fence or standalone wall, or combination of these structures, must not exceed: a. A maximum height of 2m <u>1.5m</u> above ground level where within 1m of any side or rear boundary;
Retirement Villages Association of New Zealand Incorporated	350.197	Residential Zones / High Density Residential Zone / HRZ-S11	Support in part	Supports the 2m height standard for fences/walls but considers an exclusion is required for temporary fences/walls e.g. for noise mitigation during construction.	Retain HRZ-S11 (Fences and standalone walls) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.198	Residential Zones / High Density Residential Zone / HRZ-S11	Amend	Supports the 2m height standard for fences/walls but considers an exclusion is required for temporary fences/walls e.g. for noise mitigation during construction.	Amend HRZ-S11 (Fences and standalone walls) to exclude temporary fences/walls from the standard.
WCC Environmental Reference Group	377.395	Residential Zones / High Density Residential Zone / HRZ-S11	Amend	Considers that solid fences of 2m height destroy streetscapes, detract from neighbourhood interactions, and create unsafe environments. The submitter seeks that fences should not be allowed to be more than 1.2m in height where that fence fronts the street, and that the provision for 2 m with the area above 1.2m being 50% visually transparent be applied to fences abutting public walkways.	Amend HRZ-S11 (Fences and standalone walls) as follows: - Require a fence on a front boundary to be no more than 1.2m in height. - Require a fence abutting a public walkway to be no more than 2 m with the area above 1.2m being 50% visually transparent.
Living Streets Aotearoa	482.57	Residential Zones / High Density Residential Zone / HRZ-S11	Oppose	Concerned that the height of fences at which they are allowed as permitted activities should be lowered. High fences that cannot be seen through, are a public space problem for safety reasons.	Seeks amendment to standard HRZ-S11 (Fences and Standalone walls).
Living Streets Aotearoa	482.58	Residential Zones / High Density Residential Zone / HRZ-S11	Amend	Concerned that the height of fences at which they are allowed as permitted activities should be lowered. High fences that cannot be seen through, are a public space problem for safety reasons.	Seeks that MRZ-S11 is amended so that the fences up to 1m can be built with any material along a boundary with public space, and where higher than 1 metre they must be of a material that allows pedestrians to see through it from the adjacent path.
Property Council New Zealand	338.13	Residential Zones / High Density Residential Zone / HRZ-S12	Amend	Considers that minimum unit sizes, coupled with increased height density, run the risk of buildings that are smaller in floor space but greater in height. The overall design outcome should be considered so that adverse design outcomes for small, skinny buildings with less total floor space be avoided.	Seeks that overall design outcomes be considered when setting minimum unit sizes in HRZ-S12 (Minimum residential unit size for multi-unit housing).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.491	Residential Zones / High Density Residential Zone / HRZ-S12	Support in part	Supports HRZ-S12 in part, but considers that there should be smaller floor areas for studio units and for simplicity, a minimum floor area for 1 or bedrooms.	Retain HRZ-S12 (Minimum residential unit size for multi-unit housing) and seeks amendment.
Kāinga Ora Homes and Communities	391.492	Residential Zones / High Density Residential Zone / HRZ-S12	Amend	Supports HRZ-S12 in part, but considers that there should be smaller floor areas for studio units and for simplicity, a minimum floor area for 1 or bedrooms.	Amend HRZ-S12 (Minimum residential unit size for multi-unit housing) as follows: 1. Residential units, including any dual key unit, must meet the following minimum sizes: Residential Unit Type Minimum Net Floor Area a. Studio Unit 35m² <u>30m²</u> b. 1 <u>or more</u> bedroom(s) unit 40m ² c. 2+ bedroom unit 55m²
Willis Bond and Company Limited	416.86	Residential Zones / High Density Residential Zone / HRZ-S12	Oppose	Opposes HRZ-S12 as the submitter considers: - Minimum residential unit sizes restrict the ability of developers to provide affordable housing choices and a diverse range of housing. - Occupiers are well-equipped to make their own decisions as to the type and size of dwelling. - Health, fire egress and overcrowding issues that arise from small sized dwellings are best dealt with by other legislation (e.g. Building Act 2004, Housing Improvement Regulations 1947, Residential Tenancies Act 1986). - Minimum unit sizes do not reflect the policy in HRZ-P2 to provide a range of housing sizes.	Delete HRZ-S12 (Minimum residential unit size for multi-unit housing) in its entirety.
Willis Bond and Company Limited	416.87	Residential Zones / High Density Residential Zone / HRZ-S12	Amend	Opposes HRZ-S12 as the submitter considers: - Minimum residential unit sizes restrict the ability of developers to provide affordable housing choices and a diverse range of housing. - Occupiers are well-equipped to make their own decisions as to the type and size of dwelling. - Health, fire egress and overcrowding issues that arise from small sized dwellings are best dealt with by other legislation (e.g. Building Act 2004, Housing Improvement Regulations 1947, Residential Tenancies Act 1986). - Minimum unit sizes do not reflect the policy in HRZ-P2 to provide a range of housing sizes.	Seeks that if Council does decide to retain minimum residential unit sizes, it should be clearly defined that hotel accommodation, student accommodation and other similar accommodation types are distinct from residential unit sizes. The definition of residential units does not clearly exclude student accommodation and may render it subject to these minimum sizes.
Craig Palmer	492.32	Residential Zones / High Density Residential Zone / HRZ-S12	Oppose	Considers that the minimum unit size standards in HRZ-S12 are small.	Not specified.
Design Network Architecture Limited	259.5	Residential Zones / High Density Residential Zone / HRZ-S13	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Clarify HRZ-S13 (Outdoor living space for multi-unit housing) "Minimum Dimension" - so that for communal shared living spaces an 8m dimension is required at only one portion of the outdoor living space, with the other dimension able to be smaller than this. i.e. not an 8m x 8m space.
Design Network Architecture Limited	259.6	Residential Zones / High Density Residential Zone / HRZ-S13	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Seeks amendment to HRZ-S13 (Outdoor living space for multi-unit housing) to allow 10m ² minimum area to be achieved with alternative dimensions of 5m x 2m, or 3.2m x 3.2m.
Rimu Architects Ltd	318.28	Residential Zones / High Density Residential Zone / HRZ-S13	Amend	Considers that the outdoor living space for multi-unit housing in HRZ-S13 has large requirements. The requirement for only 10 square metres of communal outdoor living space per every 5 units fits oddly with both the much larger requirement per unit if the space is private and also the 8m minimum dimension requirement. An 8m x 8m area, would in theory be sufficient communal space for 30 residential units with 4 square metres 'spare' increasing the allowance 5 square metres (matching the studio/1 bedroom private allowance) would leave the minimum area as adequate for 12 residential units. There are also sites within this zone where the site width is less than 8m.	Amend HRZ-S13 (Outdoor living space for multi-unit housing) as follows: Living Space Type ... b. Communal i. For every 5 units unit Minimum area - 10m² <u>5m²</u> Minimum dimension - 8m <u>except where site width is less than 8m. In that situation an area the full width of the site and 8m deep is acceptable.</u>

Kāinga Ora Homes and Communities	391.493	Residential Zones / High Density Residential Zone / HRZ-S13	Oppose	Considers that HRZ-S13 is appropriate to apply to all sites. Seeks that this standard replace HRZ-S6 as the level of outdoor living area proposed by this standard is appropriate for all sites not just sites developed with more than 3 residential units.	Opposes HRZ-S6 (Outdoor living space for multi-unit housing) and seeks that HRZ-S13 replace the standard with the following amendment to the title of HRZ-S13 (Outdoor living space for multi-unit housing) as follows: Outdoor living space for multi-unit housing
The Retirement Villages Association of New Zealand Incorporated	FS126.146	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S13	Not specified	The RVA would support the intent of the relief sought in this submission subject to the relief sought by The RVA within the primary submission for retirement villages to be excluded.	Amend / Allow the submission point, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.146	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S13	Not specified	Ryman would support the intent of the relief sought in this submission subject to the relief sought by Ryman within the primary submission for retirement villages to be excluded.	Amend / Allow the submission point, subject to the relief sought within Ryman's primary submission.
Kāinga Ora Homes and Communities	391.494	Residential Zones / High Density Residential Zone / HRZ-S13	Amend	Considers that HRZ-S13 is appropriate to apply to all sites. Seeks that this standard replace HRZ-S6 as the level of outdoor living area proposed by this standard is appropriate for all sites not just sites developed with more than 3 residential units.	Opposes HRZ-S6 (Outdoor living space for multi-unit housing) and seeks that HRZ-S13 replace the standard with the following amendment to the title of HRZ-S13 (Outdoor living space for multi-unit housing) as follows: Outdoor living space for multi-unit housing
The Retirement Villages Association of New Zealand Incorporated	FS126.147	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S13	Not specified	The RVA would support the intent of the relief sought in this submission subject to the relief sought by The RVA within the primary submission for retirement villages to be excluded.	Amend / Allow the submission point, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.147	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S13	Not specified	Ryman would support the intent of the relief sought in this submission subject to the relief sought by Ryman within the primary submission for retirement villages to be excluded.	Amend / Allow the submission point, subject to the relief sought within Ryman's primary submission.
Willis Bond and Company Limited	416.88	Residential Zones / High Density Residential Zone / HRZ-S13	Oppose	Opposes this provision for the following reasons: - mandating unutilised external areas is expensive and will have a detrimental impact on dwelling prices. -there is insufficient economic justification for the provision and it does not meet the section 32, Resource Management Act 1991 tests for appropriateness. -there is also a lack of sufficient research that underpins Council's evidence base. -Wellington's climate also reduces the amenity and use of outdoor living spaces, which can be exposed and windy.	Delete HRZ-S13 (Outdoor living space for multi-unit housing) in its entirety.
Judith Graykowski	80.10	Residential Zones / High Density Residential Zone / HRZ-S14	Amend	Considers that HRZ-S14 (Outlook space for multi-unit housing) is very limited and simply not adequate, given the buildings in the HRZ can go right to site boundaries.	Not specified.
Vivienne Morrell	155.13	Residential Zones / High Density Residential Zone / HRZ-S14	Amend	Considers that HRZ-S14 (Outlook space for multi-unit housing) is very limited and simply not adequate, given that HRZ buildings can go right to site boundaries.	Not specified.
Pauletta Wilson	257.6	Residential Zones / High Density Residential Zone / HRZ-S14	Amend	Considers that the plan has very limited controls to manage shading and sunshine and that these are not adequate given buildings in the new high density zone can go right to site boundaries.	Seeks that HRZ-S14 (outlook space for multi unit housing) is amended to limit the shading of private properties beyond the controls that are in the plan already.
Mt Cook Mobilised	331.20	Residential Zones / High Density Residential Zone / HRZ-S14	Amend	Considers that HRZ-S14 is inadequate, given buildings can go right up to site boundaries. Design requirements for multi-unit residential developments need to be strengthened to future-proof buildings and provide for good community experience.	Amend HRZ-S14 (Outlook space for multi-unit housing) to better future-proof buildings and provide for good community experience.
Mt Cook Mobilised	331.21	Residential Zones / High Density Residential Zone / HRZ-S14	Amend	Considers that HRZ-S15 is inadequate, given buildings can go right up to site boundaries. Design requirements for multi-unit residential developments need to be strengthened to future-proof buildings and provide for good community experience.	Amend HRZ-S15 (Minimum privacy separation to a boundary for multi-unit housing or a retirement village) to better future-proof buildings and provide for good community experience.

Amend / Allow the submission point, subject to the relief sought within Ryman's primary submission.
Il Casino Apartment Body Corporate	426.1	Residential Zones / High Density Residential Zone / HRZ-S14	Oppose	Considers that the standard requires a more context-specific standard to define what constitutes acceptable levels of natural light. For example, lower level apartments may lose daylight due to high neighbouring buildings, resulting in colder, darker apartments that use more electricity and do not result in a desirable urban living environment.	Opposes HRZ-S14 (Outlook space for multi-unit housing) and seeks amendment.
Il Casino Apartment Body Corporate	426.2	Residential Zones / High Density Residential Zone / HRZ-S14	Amend	Considers that the standard requires a more context-specific standard to define what constitutes acceptable levels of natural light. For example, lower level apartments may lose daylight due to high neighbouring buildings, resulting in colder, darker apartments that use more electricity and do not result in a desirable urban living environment.	Amend HRZ-S14 (Outlook space for multi-unit housing) to have better design considerations and with specific consideration given to natural light for high rises.
Greater Brooklyn Residents Association Inc's	459.12	Residential Zones / High Density Residential Zone / HRZ-S14	Oppose	Considers HRZ-S14 (Outlook space for multi-unit housing) very limited and simply not adequate.	Not specified.
Catharine Underwood	481.26	Residential Zones / High Density Residential Zone / HRZ-S14	Amend	Considers that the standard is very limited and simply not adequate, given the buildings in the new medium density zone can go right to site boundaries.	Amend HRZ-S14 (Outlook space for multi-unit housing) to be stricter.
Judith Graykowski	80.11	Residential Zones / High Density Residential Zone / HRZ-S15	Amend	Considers that HRZ-S15 (Minimum privacy separation to a boundary for multi-unit housing or a retirement village) is very limited and simply not adequate, given the buildings in the HRZ can go right to site boundaries.	Not specified.
Vivienne Morrell	155.14	Residential Zones / High Density Residential Zone / HRZ-S15	Amend	Considers that HRZ-S15 (Minimum privacy separation to a boundary for multi-unit housing or a retirement village) is very limited and simply not adequate, given that HRZ buildings can go right to site boundaries.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Pauletta Wilson	257.7	Residential Zones / High Density Residential Zone / HRZ-S15	Amend	Considers that the plan has very limited controls to manage shading and sunshine and that these are not adequate given buildings in the new high density zone can go right to site boundaries.	Seeks that HRZ-S15 (Minimum privacy separation to a boundary for multi-unit housing or a retirement village) is amended to limit the shading of private properties beyond the controls that are in the plan already.
Steve Dunn	288.8	Residential Zones / High Density Residential Zone / HRZ-S15	Amend	Considers that two metre setbacks from boundaries and restricted rootzones in pavement does not support healthy trees or the objectives of a vibrant green living environment. A larger growing zone and porous ground is needed.	Seeks that HRZ-S15 (Minimum privacy separation to a boundary for multi-unit housing or a retirement village) is amended to ensure healthy tree growth in streetscape and intensified residential areas.
Retirement Villages Association of New Zealand Incorporated	350.199	Residential Zones / High Density Residential Zone / HRZ-S15	Support	Does not oppose HRZ-S15 and the minimum privacy separation to a boundary above ground level at retirement villages.	Retain HRZ-S15 (Minimum privacy separation to a boundary for multi-unit housing or a retirement village) as notified.
Sarah Walker	367.2	Residential Zones / High Density Residential Zone / HRZ-S15	Oppose	Concerned about the minimum of 2 metres from the boundary that apartments can be built from existing apartments. Considers this will change the look and feel of the community, block light and pose a security risk. Also considers this will impact upon the value of homes which will place financial pressure on owners. Considers that in apartments with windows only on one side that sunlight would not be able to enter apartments with the new standards.	Not specified.
Waka Kotahi	370.375	Residential Zones / High Density Residential Zone / HRZ-S15	Not specified	Submitter takes a neutral position on HRZ-S15. Notes that there are no HIRB or boundary setback standards.	Not specified.
Kāinga Ora Homes and Communities	391.497	Residential Zones / High Density Residential Zone / HRZ-S15	Support in part	Supports HRZ-S15. However, considers that reference to multi-unit housing should be deleted as this concept is not supported.	Retain HRZ-S15 (Minimum privacy separation to a boundary for multi-unit housing or a retirement village) and seeks amendment.
Kāinga Ora Homes and Communities	391.498	Residential Zones / High Density Residential Zone / HRZ-S15	Amend	Supports HRZ-S15. However, considers that reference to multi-unit housing should be deleted as this concept is not supported.	Amend HRZ-S15 (Minimum privacy separation to a boundary for multi-unit housing or a retirement village) as follows: Minimum privacy separation to a boundary for multi-unit housing more than six residential units or a retirement village
Il Casino Apartment Body Corporate	426.3	Residential Zones / High Density Residential Zone / HRZ-S15	Oppose	Considers that a 2m setback does not result in good urban design that encourages people to live in the city. Considers that sense of community is lost as people do not want to spend as much time at home. Considers that privacy and security of residents will also be affected.	Opposes HRZ-S15 (Minimum privacy separation to a boundary for multi-unit housing or a retirement village) and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.73	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S15	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with the RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.73	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S15	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Il Casino Apartment Body Corporate	426.4	Residential Zones / High Density Residential Zone / HRZ-S15	Amend	Considers that a 2m setback does not result in good urban design that encourages people to live in the city. Considers that sense of community is lost as people do not want to spend as much time at home. Considers that privacy and security of residents will also be affected.	Amend HRZ-S15 (Minimum privacy separation to a boundary for multi-unit housing or a retirement village) to require better design considerations and wider gaps between high rise buildings.
The Retirement Villages Association of New Zealand Incorporated	FS126.74	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S15	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with the RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.74	Part 3 / Residential Zones / High Density Residential Zone / HRZ-S15	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Greater Brooklyn Residents Association Inc's	459.13	Residential Zones / High Density Residential Zone / HRZ-S15	Oppose	Considers HRZ-S15 (Minimum privacy separation to a boundary for multi-unit housing or a retirement village) very limited and simply not adequate.	Not specified.
Catharine Underwood	481.27	Residential Zones / High Density Residential Zone / HRZ-S15	Amend	Considers that the standard is very limited and simply not adequate, given the buildings in the new medium density zone can go right to site boundaries.	Amend HRZ-S15 (Minimum privacy separation to a boundary for multi-unit housing or a retirement village) to be stricter.
James Coyle	307.18	Residential Zones / High Density Residential Zone / HRZ-S16	Amend	Considers that the 20m building depth standard is too long for Newtown.	Seeks that HRZ-S16 (Building depth for multi-unit housing or a retirement village) is reduced for Newtown.
James Coyle	307.19	Residential Zones / High Density Residential Zone / HRZ-S16	Amend	Considers that boundary setbacks for front yards should be provided to encourage planting and soil retention.	Retain MRZ-S4 (Boundary setbacks) as notified, with requirement to provide front yards for developments of 1 to 3 units.
Retirement Villages Association of New Zealand Incorporated	350.200	Residential Zones / High Density Residential Zone / HRZ-S16	Oppose in part	Opposes the applicability of a maximum building depth standard for retirement villages. It is considered that the proposed matters of discretion for HRZ-R17 and HRZ-R14 are sufficient for assessing any effects relating to building lengths.	Opposes HRZ-S16 (Maximum building depth for multi-unit housing or a retirement village) and seeks amendment
Retirement Villages Association of New Zealand Incorporated	350.201	Residential Zones / High Density Residential Zone / HRZ-S16	Amend	Opposes the applicability of a maximum building depth standard for retirement villages. It is considered that the proposed matters of discretion for HRZ-R17 and HRZ-R14 are sufficient for assessing any effects relating to building lengths.	Amend the title of HRZ-S16 (Maximum building depth for multi-unit housing or a retirement village) as follows: HRZ-S16 Minimum building separation distance for multi-unit housing or a retirement village
Waka Kotahi	370.376	Residential Zones / High Density Residential Zone / HRZ-S16	Oppose	Considers HRZ-S16 should be removed as it is unnecessarily restrictive to development. Considers that residential developments are already required to consider residential [design guide] and require consent as a RD activity. Submitter is unsure of the intended purpose of restricting depth, and is concerned about the implications where large multi-unit residential developments are proposed. Considers that this standard and HRZ-S17 may be better addressed with a building coverage standard that enables densities sought by the NPSUD for urban areas.	Delete Standard HRZ-S16 (Maximum building depth for multi-unit housing or a retirement village) in its entirety as notified.
Kāinga Ora Homes and Communities	391.499	Residential Zones / High Density Residential Zone / HRZ-S16	Oppose	Opposes HRZ-S16 as Building for multi-unit housing (more than six units) is a Restricted Discretionary activity so this matter can be considered as part of that consent process, so this standard is unnecessary.	Delete HRZ-S16 (Maximum building depth for multi-unit housing or a retirement village) in its entirety as notified.

Residential - Large Lot Residential Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.89	Residential Zones / High Density Residential Zone / HRZ-S16	Oppose	Considers that maximum building depth is too restrictive and they do not consider that it meets the section 32, Resource Management Act 1991 tests for appropriateness.	Delete HRZ-S16 (Maximum building depth for multi-unit housing or a retirement village) in its entirety.
Willis Bond and Company Limited	416.90	Residential Zones / High Density Residential Zone / HRZ-S16	Amend	Considers that maximum building depth is too restrictive and they do not consider that it meets the section 32, Resource Management Act 1991 tests for appropriateness.	Remove HRZ-S16 (Maximum building depth for multi-unit housing or a retirement village) from HRZ and include the provision in a non-statutory Design Guide.
James Coyle	307.20	Residential Zones / High Density Residential Zone / HRZ-S17	Amend	Considers that the 10m building separation standard needs to exclude car parking and decks from these areas. These areas should be used for ecological or green spaces to ensure safe landing spots for birds, tree canopy and soil retention.	Seeks that HRZ-S17 (Minimum building separation distance for multi-unit housing or a retirement village) excludes car parking and decks from within these areas.
Retirement Villages Association of New Zealand Incorporated	350.202	Residential Zones / High Density Residential Zone / HRZ-S17	Oppose in part	Opposes the minimum building separation distance (being 10 m from any other building on the same site) for retirement villages as it would prevent linked buildings. It is considered that the proposed matters of discretion for HRZ-R17 and HRZ-R14 are sufficient for assessing any effects relating to building lengths.	Opposes the title of HRZ-S17 (Minimum building separation distance for multi-unit housing or a retirement village) and seeks amendment
Retirement Villages Association of New Zealand Incorporated	350.203	Residential Zones / High Density Residential Zone / HRZ-S17	Amend	Opposes the minimum building separation distance (being 10 m from any other building on the same site) for retirement villages as it would prevent linked buildings. It is considered that the proposed matters of discretion for HRZ-R17 and HRZ-R14 are sufficient for assessing any effects relating to building lengths.	Amend the title of HRZ-S17 (Minimum building separation distance for multi-unit housing or a retirement village) as follows: HRZ-S16 Minimum building separation distance for multi-unit housing or a retirement village
Waka Kotahi	370.377	Residential Zones / High Density Residential Zone / HRZ-S17	Oppose	Considers that HRZ-S17 should be removed as it is unnecessarily restrictive to development. Considers that residential developments are already required to consider residential [design guide] and require consent as a RD activity. Submitter is concerned about the implications where large multi-unit residential developments are proposed.	Delete Standard HRZ-S17 (Minimum building separation distance for multi-unit housing or a retirement village) in its entirety as notified.
Kāinga Ora Homes and Communities	391.500	Residential Zones / High Density Residential Zone / HRZ-S17	Oppose	Opposes HRZ-S17 as Building for multi-unit housing (more than six units) is a Restricted Discretionary activity so this matter can be considered as part of that consent process, so this standard is unnecessary.	Delete HRZ-S17 (Minimum building separation distance for multi-unit housing or a retirement village) in its entirety as notified.
Willis Bond and Company Limited	416.91	Residential Zones / High Density Residential Zone / HRZ-S17	Oppose	Considers that the building separation distance is too restrictive and they do not consider it meets the RMA tests for appropriateness.	Delete HRZ-S17 (Minimum building separation distance for multi-unit housing or a retirement village) in its entirety.
RR Ventures (2018) Ltd	227.3	Residential Zones / Large Lot Residential Zone / General LLRZ	Oppose	Opposes 166 Glanmire Road (Part Lot 8 DP 2205) being zoned as Large Lot Residential Zone. Considers that this section is 20,491 sq. mtr in area and is currently undeveloped. Considering the size and proximity to council's infrastructure, we believe the potential of the section can be further enhanced if it can be zoned residential, subdivided and developed to accommodate low to medium density housing.	Seeks that 166 Glanmire Road (Part Lot 8 DP 2205) be rezoned to Medium Density Residential Zone.
Ara Poutama Aotearoa the Department of Corrections	240.21	Residential Zones / Large Lot Residential Zone / General LLRZ	Oppose	Considers that the definition of "residential activity" entirely captures supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama, and therefore a separate definition of "supported residential care activities" is unnecessary.	Remove the references to "supported residential care activity" from the Large Lot Residential zone.
Kāinga Ora – Homes and Communities	FS89.10	Part 3 / Residential Zones / Large Lot Residential Zone / General LLRZ	Oppose	Kāinga Ora opposes the deletion of this definition as it is uncertain how the deletion of the definition would affect existing activities that fall within this definition.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Peter Charlesworth	248.3	Residential Zones / Large Lot Residential Zone / General LLRZ	Oppose in part	<p>Considers that the portion of the site 11B Wilmshurst Place containing the existing dwelling should be zoned Medium Density Residential Zone to be consistent with the current Outer Residential Area zoning, as the LLRZ zoning will result in development that is inconsistent with the proposed zoning and form of development that surrounds the site directly to the north, east and west.</p> <p>Considers that there is no rationale for zoning the Outer Residential Area portion of the site as LLRZ to a less enabling zone, as this will be contrary to the NPS-UD.</p> <p>[Refer to submission for area of the site that the submission applies to]</p> <p>[Refer to original submission for full reason]</p>	Seeks that the part of the site at 11B Wilmshurst Place containing the existing dwelling is zoned MRZ (Medium Density Residential Zone) not LLRZ (Large Lot Residential Zone).
Wellington City Council	266.151	Residential Zones / Large Lot Residential Zone / General LLRZ	Amend	Considers that the permeable area requirements have been relocated to the THW chapter.	<p>Amend paragraph 3 of the Large Lot Residential Zone Introduction as follows:</p> <p>(...)</p> <p>The Zone provides for lower density development through development controls which limit the scale of buildings that can be built, through restrictions on the number of residential buildings, site coverage, building height, height in relation to boundaries, and permeable area requirements.</p> <p>Note – for changes to the LLRZ chapter, refer to the attached annotated version of the chapter.</p>
Greater Wellington Regional Council	FS84.9	Part 3 / Residential Zones / Large Lot Residential Zone / General LLRZ	Support	Greater Wellington agree that the MRZ and HRZ policy and permeable surface rules are better suited to the Three Waters Chapter and support the amendments.	Allow
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.34	Residential Zones / Large Lot Residential Zone / General LLRZ	Amend	Considers that this will keep earthworks to a minimum and enabling significant and effective environmental impacts to be mitigated against. Complying with the PDP areas of significant concern around Earthworks and Three Waters.	Seeks that development in the LLRZ (Large Lot Residential Zone) is given Discretionary activity status.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.35	Residential Zones / Large Lot Residential Zone / General LLRZ	Amend	Considers that this will keep earthworks to a minimum and enabling significant and effective environmental impacts to be mitigated against. Complying with the PDP areas of significant concern around Earthworks and Three Waters.	Seeks that building in the LLRZ (Large Lot Residential Zone) is required to be done on individual building platforms.
Greater Wellington Regional Council	351.260	Residential Zones / Large Lot Residential Zone / General LLRZ	Support in part	Supports well-planned intensification within the existing urban footprint in appropriate areas that are not subject to a qualifying matter. This approach is consistent with Policy 31 of Proposed RPS Change 1.	Retain chapter, subject to amendments outlined in other submission points.
Greater Wellington Regional Council	351.261	Residential Zones / Large Lot Residential Zone / General LLRZ	Amend	Considers that for the provisions of the zone to contribute to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1. This includes (but is not limited to) urban areas that are climate resilient, contribute to the protection of the natural environment and transition to a low-emission region, are compact and well connected, support housing affordability and choice, and enable Māori to express their cultural and traditional norms.	Seeks to ensure the Medium Density Residential Zone provisions have regard to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1, by including necessary objectives, policies, permitted standards and rules that provide for these qualities and characteristics.
Richard Herbert	360.4	Residential Zones / Large Lot Residential Zone / General LLRZ	Amend	<p>Considers that SNAs should be reinstated on residential zones as originally proposed in earlier drafts of the Proposed District Plan, and prior to the Councillor Amendment to remove SNAs from Residential zones in June 2022.</p> <p>SNAs on Large Lot Residential Zones are supported.</p> <p>[Refer to original submission for full reason]</p>	Reinstate Significant Natural Areas for Large Lot Residential Zones.
Taranaki Whānui ki te Upoko o te Ika	389.94	Residential Zones / Large Lot Residential Zone / General LLRZ	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that 'Other relevant District Plan provisions' is amended to include reference to the Sites and Areas of Significance to Māori.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.92	Residential Zones / Large Lot Residential Zone / General LLRZ	Amend	Submitter notes the effect that the more permissive medium density residential standards will have on other zones. The zones supporting higher density development have more restrictive standards than in the MRZ, creating a risk that new development is concentrated in the more permissive MRZ at the exclusion of denser zones where Council wishes to encourage greater development. The PDP should ensure that the restrictions within denser zones are not substantially more restrictive than within the MRZ [Refer to original submission for full reason].	Seeks that Council consider the relationship between the Medium Density Residential Zone and denser zones (i.e. the High Density Residential Zone, Large Lot Residential Zone, Neighbourhood Centre Zone, Local Centre one, Commercial Zone, Mixed Use Zone, Metropolitan Centre Zone and City Centre Zone) to ensure development is not unduly restricted in denser zones by greater restrictions and Council discretion.
Alan Fairless	242.23	Residential Zones / Large Lot Residential Zone / New LLRZ	Amend	Considers that the District Plan include Sunlight provisions in ALL Residential Zones.	Seeks that the District Plan include Sunlight provisions in Large Lot Residential Zones.
The Retirement Villages Association of New Zealand Incorporated	FS126.4	Part 3 / Residential Zones / Large Lot Residential Zone / New LLRZ	Oppose	Inconsistent with the Enabling Housing Act.	Disallow
Ryman Healthcare Limited	FS128.4	Part 3 / Residential Zones / Large Lot Residential Zone / New LLRZ	Oppose	Inconsistent with the Enabling Housing Act.	Disallow
Fire and Emergency New Zealand	273.211	Residential Zones / Large Lot Residential Zone / New LLRZ	Amend	Seeks the addition of a new rule for 'emergency service facilities' for the reasons set out in the previous feedback point on the proposed definitions of 'emergency service facilities'. New fire stations may be necessary in order to continue to achieve emergency response time commitments in areas where development occurs, and populations change. In this regard it is noted that FENZ is not a requiring authority under section 166 of the RMA, and therefore does not have the ability to designate land for the purposes of fire stations. FENZ considers that adding a new rule for Emergency Service Facilities provides for emergency service facilities in this zone as a permitted activity. This will better provide for health and safety of the community by enabling the efficient functioning of FENZ in establishing and operating fire stations	Add new Large Lot Residential Zone rule: <u>LLRZ-RX:</u> <u>Emergency Service Facilities</u> <u>Activity Status: Permitted</u>
Oranga Tamariki	83.10	Residential Zones / Large Lot Residential Zone / LLRZ-O1	Support	Residential zones are considered an appropriate zone for Oranga Tamariki homes. Oranga Tamariki consider that there is land within the Large Lot Residential Zone that can satisfy site selection criteria for Oranga Tamariki homes. For consistency with the residential-related provisions and terminology used in the other residential zones (i.e., General Residential and Medium Density Residential), Oranga Tamariki supports the inclusion of residential activities within LLRZ-O1, as opposed to the original drafting which referred to residential development. If the nesting recommendation for supported residential care is accepted, this objective will be further strengthened.	Retain LLRZ-O1 (Purpose) as notified.
Fire and Emergency New Zealand	273.212	Residential Zones / Large Lot Residential Zone / LLRZ-O3	Support in part	Supports the objective as it enables non-residential activities within the Large Lot Residential zone. However, FENZ seeks an amendment to enable activities that provide for the safety of communities within the LLRZ.	Supports LLRZ-O3 (Non-residential activities), with amendment.
Fire and Emergency New Zealand	273.213	Residential Zones / Large Lot Residential Zone / LLRZ-O3	Amend	Supports the objective as it enables non-residential activities within the Large Lot Residential zone. However, FENZ seeks an amendment to enable activities that provide for the safety of communities within the LLRZ.	Amend LLRZ-O3 (Non-residential activities) as follows: Non-residential activities are in keeping with the amenity of the Large Lot Residential zone and provide for the community's <u>safety and</u> social, economic, and cultural well-being.
Ministry of Education	400.105	Residential Zones / Large Lot Residential Zone / LLRZ-O3	Support	Support LLRZ-O3 as it explicitly recognises and provides for a range of non-residential activities in the LLRZ (including educational facilities).	Retain LLRZ-O3 (Non-Residential activities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.22	Residential Zones / Large Lot Residential Zone / LLRZ-P1	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain LLRZ-P1 (Residential activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora – Homes and Communities	F589.11	Part 3 / Residential Zones / Large Lot Residential Zone / General LLRZ	Oppose	Kāinga Ora opposes the deletion of this definition as it is uncertain how the deletion of the definition would affect existing activities that fall within this definition.	Disallow
Waka Kotahi	370.378	Residential Zones / Large Lot Residential Zone / LLRZ-P1	Support in part	Supports the provision of appropriately scaled residential activities where they do not result in adverse effects to the roading network.	Not specified.
Waka Kotahi	370.379	Residential Zones / Large Lot Residential Zone / LLRZ-P1	Amend	Policy wording should be revised to enable the management of the effects on the roading network from residential activities.	Amend LLRZ-P1 (Residential activities) as follows: Residential activities Allow residential activities in the Large Lot Residential Zone that result in a low density of building form and open character, <u>and that do not adversely affect the safety and efficiency of the roading network.</u>
Oranga Tamariki	83.11	Residential Zones / Large Lot Residential Zone / LLRZ-P2	Support	The Large Lot Residential Zone is fundamentally a residential zone and it is considered appropriate for Oranga Tamariki homes to establish in such zones (as provided for in the General Residential Zone and Medium Density Residential Zone). Oranga Tamariki support the inclusion of supported residential care activities within LLRZ-P2. This achieves a consistent approach to residential care activities across all the Residential Zones.	Retain LLRZ-P2 (Enabled activities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.23	Residential Zones / Large Lot Residential Zone / LLRZ-P2	Oppose in part	Considers that should Council see it as being absolutely necessary to implement the separate definition of "supported residential care activity", then Ara Poutama requests that the enabled activities policies and permitted land use activity rules applying to supported residential care activities in the Medium Density Residential, High Density Residential, Large Lot Residential and Corrections zones are retained as notified. The permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities. Such activities are an important component of the rehabilitation and reintegration process for people under Ara Poutama's supervision. They enable people and communities to provide for their social and cultural well-being and for their health and safety.	Retain LLRZ-P2.4 (Enabled non-residential activities) as notified if "supported residential care activity" definition and references to term are retained.
Fire and Emergency New Zealand	273.214	Residential Zones / Large Lot Residential Zone / LLRZ-P2	Support in part	Supports the policy as it enables non-residential activities and buildings in the LLRZ. However, FENZ seeks the inclusion of emergency service facilities with the policy to provide for the establishment of fire stations with the LLRZ.	Supports LLRZ-P2 (Enabled non-residential activities), with amendment.
Fire and Emergency New Zealand	273.215	Residential Zones / Large Lot Residential Zone / LLRZ-P2	Amend	Supports the policy as it enables non-residential activities and buildings in the LLRZ. However, FENZ seeks the inclusion of emergency service facilities with the policy to provide for the establishment of fire stations with the LLRZ.	Amend LLRZ-P2 (Enabled non-residential activities) as follows: Provide for home business, visitor accommodation, supported residential care activities, <u>emergency service facilities</u> , and childcare service activities to occur where the scale is such that the low-density amenity of the Large Lot Residential Zone is maintained.
Waka Kotahi	370.380	Residential Zones / Large Lot Residential Zone / LLRZ-P2	Support in part	Supported, with amendments.	Retain LLRZ-P2 (Enabled non-residential activities) with amendments.
Waka Kotahi	370.381	Residential Zones / Large Lot Residential Zone / LLRZ-P2	Amend	Policy wording should be revised to enable the management of the effects on the roading network from residential activities.	Amend LLRZ-P2 (Enabled non-residential activities) as follows: Provide for home business, visitor accommodation, supported residential care activities, and childcare service activities to occur where: 1. the scale is such that the low-density amenity of the Large Lot Residential Zone is maintained; and 2. <u>the safety and efficiency of the roading network will be maintained.</u>
Waka Kotahi	370.382	Residential Zones / Large Lot Residential Zone / LLRZ-P4	Support	Supports the wording as notified which provides for appropriately scaled community facility activities where they do not result in adverse effects to the roading network.	Retain LLRZ-P4 (Community facilities) as notified.
Waka Kotahi	370.383	Residential Zones / Large Lot Residential Zone / LLRZ-P5	Support in part	Supported, with amendments.	Retain LLRZ-P5 (Inappropriate activities) with amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.384	Residential Zones / Large Lot Residential Zone / LLRZ-P5	Amend	Supports the policy direction to avoid activities which are incompatible but consider the wording should include those activities which adversely affect the roading network.	Amend LLRZ-P5 (Inappropriate activities) as follows: Avoid activities that are incompatible with the purpose and the amenity values of the Large Lot Residential Zone, <u>or which have an adverse effect on the safety and efficiency of the roading network.</u>
Waka Kotahi	370.385	Residential Zones / Large Lot Residential Zone / LLRZ-P7	Support	Supports the wording as notified which provides for appropriately scaled educational facility activities where they do not result in adverse effects to the roading network.	Retain LLRZ-P7 (Educational facilities) as notified.
Ministry of Education	400.106	Residential Zones / Large Lot Residential Zone / LLRZ-P7	Support	Supports LLRZ-P7 as it explicitly recognises and provides for educational facilities in the LLRZ.	Retain LLRZ-P7 (Educational facilities) as notified.
Fire and Emergency New Zealand	273.216	Residential Zones / Large Lot Residential Zone / LLRZ-P8	Support	Supports the policy as it ensures new buildings in the LLRZ can be appropriately serviced by either on-site or council reticulated infrastructure.	Retain LLRZ-P8 (Infrastructure) as notified.
Waka Kotahi	370.386	Residential Zones / Large Lot Residential Zone / LLRZ-P8	Support in part	Supports the policy direction. Requests amendments.	Retain LLRZ-P8 (Infrastructure) with amendments.
Waka Kotahi	370.387	Residential Zones / Large Lot Residential Zone / LLRZ-P8	Amend	Consider the wording should be amended to provide for all public infrastructure.	Amend LLRZ-P8 (Infrastructure) as follows: Ensure that new buildings can be appropriately serviced by either on-site or council reticulated public infrastructure that is able to accommodate the demand generated by the proposed activity within the building.
Ara Poutama Aotearoa the Department of Corrections	240.24	Residential Zones / Large Lot Residential Zone / LLRZ-R1	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain LLRZ-R1 (Residential activities) as notified.
Kāinga Ora – Homes and Communities	FS89.12	Part 3 / Residential Zones / Large Lot Residential Zone / General LLRZ	Oppose	Kāinga Ora opposes the deletion of this definition as it is uncertain how the deletion of the definition would affect existing activities that fall within this definition.	Disallow
Waka Kotahi	370.388	Residential Zones / Large Lot Residential Zone / LLRZ-R2	Support	Supports the permitted activity status and rules for home business activities, and the restricted discretionary activity status where the rules are not complied with. Waka Kotahi also supports that the effects on the roading network are included as a matter of discretion for restricted discretionary activities. This rule provides for small-scale activities while enabling the management of effects to the transport network from larger scale activities.	Retain LLRZ-R2 (Home business) as notified.
Craig Palmer	492.33	Residential Zones / Large Lot Residential Zone / LLRZ-R2	Support in part	Supports LLRZ-R2 (Home business) facilitating individuals being able to conduct a business from their principal place of residence.	Retain LLRZ-R2 (Home business) with amendment.
Craig Palmer	492.34	Residential Zones / Large Lot Residential Zone / LLRZ-R2	Amend	Considers that LLRZ-R2 (Home business) should be amended to reduce the proposed numbers working and those visiting as they are out of proportion to a home-based business. Considers that the LLRZ-R2 exception to exclusive residential use needs to be tailored to small and non-intrusive ventures that can be readily monitored. The right of neighbours to have quiet enjoyment at all times needs to be upheld as having paramount importance.	Amend LLRZ-R2.1.b. (Home Business) as follows: ... b. No more than four three people in total work in the home business at any one time, and the maximum number of people on site associated with the home business does not exceed 10 <u>6</u> people at any one time;
Craig Palmer	492.35	Residential Zones / Large Lot Residential Zone / LLRZ-R2	Amend	Considers that the LLRZ-R2 exception to exclusive residential use needs to be tailored to small and non-intrusive ventures that can be readily monitored. The right of neighbours to have quiet enjoyment at all times needs to be upheld as having paramount importance.	Not specified.
Craig Palmer	492.36	Residential Zones / Large Lot Residential Zone / LLRZ-R2	Amend	Considers that the potential loss of tenancies for commercial property owners paying higher rates should be considered.	Seeks that LLRZ-R2.2 (Home Business) is amended to include the potential loss of tenancies for commercial property owners paying higher rates as a matter of discretion. [inferred decision requested]
Airbnb	126.9	Residential Zones / Large Lot Residential Zone / LLRZ-R3	Support	Supports the approach to visitor accommodation in the residential zone.	Retain LLRZ-R3 (Visitor Accomodation) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.389	Residential Zones / Large Lot Residential Zone / LLRZ-R3	Support	Supports the permitted activity status and rules for Visitor Accommodation activities, and the restricted discretionary activity status where the rules are not complied with. Waka Kotahi also supports that the effects on the roading network are included as a matter of discretion for restricted discretionary activities. This rule provides for small-scale activities while enabling the management of effects to the transport network from larger scale activities.	Retain LLRZ-R3 (Visitor accommodation) as notified.
Craig Palmer	492.37	Residential Zones / Large Lot Residential Zone / LLRZ-R3	Amend	Considers that the LLRZ-R2 exception to exclusive residential use needs to be tailored to small and non-intrusive ventures that can be readily monitored. The right of neighbours to have quiet enjoyment at all times needs to be upheld as having paramount importance.	Seeks that LLRZ-R2 (Home Business) is amended to include the mandatory notification and consultation provisions of the Prostitution Reform Act 2003 need to be added as a caveat.
Waka Kotahi	370.390	Residential Zones / Large Lot Residential Zone / LLRZ-R4	Support	Supports the permitted activity status and rules for Childcare services, and the discretionary activity status where the rules are not complied with. This rule provides for small-scale activities while enabling the management of effects to the transport network from larger scale activities. Childcare activities can have significant effects on the transport network and a discretionary activity status is therefore appropriate.	Retain LLRZ-R4 (Childcare services) as notified.
Ministry of Education	400.107	Residential Zones / Large Lot Residential Zone / LLRZ-R4	Support	Supports that the District Plan continues to outline exclusions for childcare facilities in relevant rules in residential zones.	Retain LLRZ-R4 (Childcare services) as notified.
Oranga Tamariki	83.12	Residential Zones / Large Lot Residential Zone / LLRZ-R5	Support	Oranga Tamariki support the Permitted activity status for supported residential care activities. It provides flexibility for Oranga Tamariki to establish homes (up to 10 residents) in residential zones. Residential zones are considered an appropriate zone for Oranga Tamariki homes.	Retain LLRZ-R5.1 (Supported Residential Care Activities) as notified.
Oranga Tamariki	83.13	Residential Zones / Large Lot Residential Zone / LLRZ-R5	Amend	Oranga Tamariki support the Restricted Discretionary activity status for supported residential care activities exceeding 10 residents. Oranga Tamariki consider it acceptable for Council to consider the effects on the amenity values of the wider area as a result of the intensity and scale of the activity. Oranga Tamariki seek the preclusion of public notification for supported residential care activities exceeding 10 residents to ensure consistency across the residential zones.	Amend LLRZ-R5.2 (Supported Residential Care) as follows: Supported residential care activities 1. Activity Status: Restricted Discretionary Where: a. Compliance with LLRZ-R5.1 cannot be achieved. Matters of discretion are restricted to: 1. The extent to which the intensity and scale of the activity adversely impacts on the amenity values of nearby properties; 2. The local roading network has the capacity to accommodate any increase in traffic associated with the activity, and the safety and efficiency of the roading network will be maintained; and 3. There is adequate infrastructure to support the activity. <u>Notification status: An application for resource consent made in respect of rule LLRZ-R5.2 is precluded from being publicly notified.</u>
Ara Poutama Aotearoa the Department of Corrections	240.25	Residential Zones / Large Lot Residential Zone / LLRZ-R5	Oppose in part	Considers that should Council see it as being absolutely necessary to implement the separate definition of "supported residential care activity", then Ara Poutama requests that the enabled activities policies and permitted land use activity rules applying to supported residential care activities in the Medium Density Residential, High Density Residential, Large Lot Residential and Corrections zones are retained as notified. The permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities. Such activities are an important component of the rehabilitation and reintegration process for people under Ara Poutama's supervision. They enable people and communities to provide for their social and cultural well-being and for their health and safety.	Retain LLRZ-R5 (Supported residential care) as notified if "supported residential care activity" definition and references to term are retained.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.391	Residential Zones / Large Lot Residential Zone / LLRZ-R5	Support	Supports the permitted activity status and rules for supported residential care activities, and the restricted discretionary activity status where the rules are not complied with. Waka Kotahi also supports that the effects on the roading network are included as a matter of discretion for restricted discretionary activities. This rule provides for small-scale activities while enabling the management of effects to the transport network from larger scale activities.	Retain LLRZ-R5 (Supported residential care) as notified.
Waka Kotahi	370.392	Residential Zones / Large Lot Residential Zone / LLRZ-R6	Support in part	LLRZ-R6 is supported, as some rural activities in the zone are permitted activity where the activities will not adversely affect the safety or efficiency of the transport network. The discretionary activity status where the permitted standards are not met is also supported as this enables managing adverse effects to the transport network. It is considered that the rule should be amended to ensure that trip generation as a result of these permitted activities is minimal.	Retain LLRZ-R6 (Rural activity) with amendment.
Waka Kotahi	370.393	Residential Zones / Large Lot Residential Zone / LLRZ-R6	Amend	Considers that the rule should be amended to ensure that trip generation as a result of these permitted activities is minimal.	Amend LLRZ-R6 (Rural activity) as follows: Activity Status: Permitted Where: a. The activity is limited to: i. The grazing and keeping of livestock; ii. Equestrian activities; and iii. Horticulture.; <u>and</u> b. Vehicle movements generated by the activity comply with the trip generation thresholds in the <u>transport chapter</u> .
Waka Kotahi	370.394	Residential Zones / Large Lot Residential Zone / LLRZ-R7	Support	Considers these activities can have significant effects on the transport network and a discretionary activity status is therefore appropriate and enable managing adverse effects on the transport network.	Retain LLRZ-R7 (Community facility) as notified.
Waka Kotahi	370.395	Residential Zones / Large Lot Residential Zone / LLRZ-R8	Support	Considers these activities can have significant effects on the transport network and a discretionary activity status is therefore appropriate and enable managing adverse effects on the transport network.	Retain LLRZ-R8 (Educational facility) as notified.
Ministry of Education	400.108	Residential Zones / Large Lot Residential Zone / LLRZ-R8	Support in part	Supports LLRZ-R8 in part.	Retain LLRZ-R8 (Educational facility) with amendment.
Ministry of Education	400.109	Residential Zones / Large Lot Residential Zone / LLRZ-R8	Amend	Amend LLRZ-R8. The submitter requests that educational facilities are provided for as a Restricted Discretionary activity in the LLRZ. The submitter considers that educational facilities should be provided for in this zone as educational facilities are considered essential social infrastructure that may need to be located in within the LLRZ.	Amend LLRZ-R8 (Educational facility) as follows: Educational Facility 1. Activity Status: Discretionary <u>Restricted Discretionary</u> <u>Matters of discretion are:</u> <u>1. The matters in LLRZ-P7</u> <u>Notification status: An application for resource consent made in respect of rule LLRZ-R8.1 is precluded from being publicly notified.</u>
Fire and Emergency New Zealand	273.217	Residential Zones / Large Lot Residential Zone / LLRZ-R9	Oppose in part	Considers this rule would deem the construction of an emergency service facility, such as a fire station, as a non-complying activity in this zone. Due to urban growth, population changes and commitments to response times, FENZ may need to locate anywhere within the urban and rural environment. It is therefore critical to the safety and wellbeing of the future population of LLRZ that the principle of constructing and operating a fire station within this zone is acceptable.	Retain LLRZ-R9 (Any activity not otherwise listed as permitted, restricted discretionary, or discretionary) as notified, subject to inclusion of new rule LLRZ-RX with respect to emergency service facilities (as set out in the following submission point).
Waka Kotahi	370.396	Residential Zones / Large Lot Residential Zone / LLRZ-R9	Support	Supports the activity status of noncomplying for activities not listed – this enables the management of any adverse effects on the safety and function of the transport network	Retain LLRZ-R9 (Any activity not otherwise listed as permitted, restricted discretionary, or discretionary) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.218	Residential Zones / Large Lot Residential Zone / LLRZ-R10	Support	Supports the rule as the maintenance and repair of buildings and structures within the LLRZ are a permitted activity.	Retain LLRZ-R10 (Maintenance and repair of buildings and structures) as notified.
Fire and Emergency New Zealand	273.219	Residential Zones / Large Lot Residential Zone / LLRZ-R11	Support	Supports the rule as the demolition or removal of buildings and structures within the LLRZ are a permitted activity.	Retain LLRZ-R11 (Demolition or removal of a building or structure) as notified
Greater Wellington Regional Council	351.262	Residential Zones / Large Lot Residential Zone / LLRZ-R11	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain LLRZ-R11 (Demolition or removal of buildings and structures) with amendment.
Greater Wellington Regional Council	351.263	Residential Zones / Large Lot Residential Zone / LLRZ-R11	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend LLRZ-R11 (Demolition or removal of buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Fire and Emergency New Zealand	273.220	Residential Zones / Large Lot Residential Zone / LLRZ-R12	Support	Supports the rule as the addition or alteration to buildings and structures within the LLRZ is provided for as a permitted or restricted discretionary activity.	Retain LLRZ-R12 (Construction, addition, or alteration of buildings, accessory buildings) as notified.
KiwiRail Holdings Limited	408.124	Residential Zones / Large Lot Residential Zone / LLRZ-R12	Amend	Considers that a matter of discretion directing consideration of impacts on the safety and efficiency of the rail corridor is appropriate in situations where the 5m setback standard is not complied with. This amendment is sought in addition to the amendment sought in relation to LLRZ-S6.	Amend LLRZ-R12 (Construction, addition or alteration of buildings, accessory buildings) as follows: 2. Activity status: Restricted discretionary Where: a. Compliance with any of the requirements of LLRZ-R12.1.a cannot be achieved. Matters of discretion are: 1. The extent and effects of the non-compliance with any relevant standard as specified in the associated assessment criteria for the infringed standards. <u>2. The location and design of the building as it relates to the ability to safely use, access and maintain buildings without requiring access on, above or over the rail corridor.</u>
Rimu Architects Ltd	318.29	Residential Zones / Large Lot Residential Zone / LLRZ-S1	Amend	Considers that LLRZ-S1 should be amended, as it does not adequately cover a situation where a minor unit forms part of the main residential building (e.g. in a separate wing or floor level) rather than existing as a standalone building.	Amend LLRZ-S1 (Maximum number of residential buildings) as follows: 1. There shall be a maximum number of: a. One residential unit per site; or b. One residential unit and one minor residential unit per site <u>(whether both are located within one building or each located in a separate building).</u>
Waka Kotahi	370.397	Residential Zones / Large Lot Residential Zone / LLRZ-S1	Support in part	Supports, with amendments.	Retain LLRZ-S1 (Maximum number of residential buildings) with amendments.
Waka Kotahi	370.398	Residential Zones / Large Lot Residential Zone / LLRZ-S1	Amend	Considers the residential activities that are not permitted should be assessed for any adverse effect on infrastructure and the transport network.	Amend LLRZ-S1 (Maximum number of residential buildings) as follows: ... 4. Whether the topography of the site mitigates or exacerbates effects; and 5. The extent to which site layout or landscaping has been incorporated into the design to mitigate any resulting amenity effects; and <u>6. Whether the proposal will have any adverse effects on infrastructure capacity or the safety and efficiency of the transport network and how any effects will be managed.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	FS72.91	Part 3 / Residential Zones / Large Lot Residential Zone / LLRZ-S1	Support	Supports the addition to assessment criteria to allow for consideration of infrastructure and the transport network when the activity fails to meet permitted activity standards. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Allow
Rimu Architects Ltd	318.30	Residential Zones / Large Lot Residential Zone / LLRZ-S2	Amend	Considers that LLRZ-S2 should be amended to mention 'gross floor area' and 'net floor area' are both defined terms. The use of either of these would be preferable to the current use of 'floor area' which is not. It would also be helpful to clarify that unlike a Minor Residential Unit, where a 1 per site maximum is stated at LLRZ-S1, several accessory buildings of up to 100 sq.m each are acceptable.	Amend LLRZ-S2 (Maximum floor area of accessory buildings and minor residential units) as follows: 1. The maximum <u>gross</u> floor area of an <u>each</u> accessory building per site shall be 100m2; and 2. The maximum <u>gross</u> floor area of a minor residential unit per site shall be 80m2 ...
Fire and Emergency New Zealand	273.221	Residential Zones / Large Lot Residential Zone / LLRZ-S3	Support in part	Supports the standard as it permits buildings and structures up to 8m in height. Fire stations are typically single storied buildings of approximately 8-9m in height and are usually able to comply with the height standards in district plans generally. This is considered acceptable for fire stations in this zone. As such, FENZ seeks an exemption from LLRZ-S3 for emergency service facilities within the LLRZ. FENZ seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height. FENZ considers that the inclusion of an exemption for hose drying towers better provides for the health and safety of the community by enabling the efficient functioning of FENZ in establishing and operating fire stations.	Support LLRZ-S3 (Maximum Height), with amendment.
Fire and Emergency New Zealand	273.222	Residential Zones / Large Lot Residential Zone / LLRZ-S3	Amend	Supports the standard as it permits buildings and structures up to 8m in height. Fire stations are typically single storied buildings of approximately 8-9m in height and are usually able to comply with the height standards in district plans generally. This is considered acceptable for fire stations in this zone. As such, FENZ seeks an exemption from LLRZ-S3 for emergency service facilities within the LLRZ. FENZ seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height. FENZ considers that the inclusion of an exemption for hose drying towers better provides for the health and safety of the community by enabling the efficient functioning of FENZ in establishing and operating fire stations.	Amend LLRZ-S3 (Maximum Height) as follows: This standard does not apply to: ... b. Solar panel and heating components attached to a building provided these do not exceed the height by more than 500mm; and c. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height by more than 1m; and <u>d. Emergency service facilities up to 9m in height and hose drying towers up to 15m in height.</u>
Fire and Emergency New Zealand	273.223	Residential Zones / Large Lot Residential Zone / LLRZ-S4	Support in part	Seeks an exemption for emergency service facilities and hose drying towers regarding height in relation to boundary standards.	Support LLRZ-S4 (Height in relation to boundary), with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.224	Residential Zones / Large Lot Residential Zone / LLRZ-S4	Amend	Seeks an exemption for emergency service facilities and hose drying towers regarding height in relation to boundary standards.	Amend LLRZ-S4 (Height in relation to boundary) as follows: This standard does not apply to: ... 1. No part of any building, accessory building or structure may project beyond a building line of 45 degrees from a height of 2.5m above ground level from all boundaries of the site; <u>and</u> 2. <u>Emergency service facilities up to 9m in height and hose drying towers up to 15m in height.</u>
Rimu Architects Ltd	318.31	Residential Zones / Large Lot Residential Zone / LLRZ-S5	Amend	Considers that LLRZ-S5 should be amended to be more concise on what defines a site area and to be less restrictive. Initial limit is set at site coverage of 35%, which is based on building footprint as a percentage of net site area. Equivalent provisions in other residential zones (ref MDZS5, HRZ-S5) are similar, with a higher 50% limit. For all of these it would be helpful to mention that the site area to be used is the 'net site area' LLRZ-S5 also has a hard maximum coverage limit of 500 sq.m, which is expressed in terms of 'total floor area', not building footprint. To be consistent, this coverage limit should also be expressed as a maximum building footprint figure (which, like 'net site area' is a defined term). Also note while 'gross floor area' and 'net floor area' are defined terms, 'floor area' and 'total floor area' are not. The hard limit currently stated is likely to encourage subdivision into smaller sites, which is not a desirable outcome. The maximum coverage of 500 sq. m also appears unduly restrictive. Even using 'building footprint' rather than 'total floor area' for the 500 sq m limit, only sites smaller than 1430 sq. m will be governed by the 35% limit instead. The sites in this zone are largely land previously zoned rural, where there was a 400 sq, m limit on residential buildings plus an 800 sq .m limit on accessory buildings. buildings. A building footprint limit of at least 600 sq. m would be more consistent with the scale of existing development. Wording suggested would give a 'pause' at a building footprint of 600m2 until this size falls below 20% of the net site area.	Amend LLRZ-S5 (Building coverage) as follows: 1. <u>For net site areas below 1750m2:</u> Maximum site coverage: 35%, or a maximum total floor area <u>building footprint of 500 600 m2</u> inclusive of any accessory buildings (whichever is the lesser) 2. <u>For net site areas 1750m2 and above : Maximum site coverage: 20%.</u> ...
James Barber	56.6	Residential Zones / Large Lot Residential Zone / LLRZ-S6	Oppose	Prefers housing opening to street, as opposed to a 1.5m courtyard surrounded by high fencing. Setback space can otherwise be used for communal or private greenspaces.	Delete LLRZ-S6 (Building setbacks) in entirety. [Inferred Decision Requested]
KiwiRail Holdings Limited	FS72.92	Part 3 / Residential Zones / Large Lot Residential Zone / LLRZ-S6	Oppose	Rejects the deletion of building setbacks. For sites adjoining the rail corridor, setbacks ensure that people can use and maintain their land and buildings safely without needing to extend out into the railway corridor, minimising the risks of physical interference on railway operations and health and safety hazards on these residents. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.225	Residential Zones / Large Lot Residential Zone / LLRZ-S6	Support	Supports the standard as it exempts water tanks for firefighting purposes from the required setback from road boundaries.	Retain LLRZ-S6 (Building setback) as drafted.
KiwiRail Holdings Limited	408.125	Residential Zones / Large Lot Residential Zone / LLRZ-S6	Amend	Considers that building setbacks are essential to address significant safety hazards associated with the operational rail corridor. While KiwiRail do not oppose development on adjacent sites, ensuring the ability to access and maintain structures without requiring access to or protruding over rail land is crucial. The Proposed Plan enables a 3m setback from side and rear boundaries shared with the rail corridor under LLRZ-S6. This standard does however, enable a 5m setback from a road boundary. KiwiRail seek a boundary setback of 5m from the rail corridor for all buildings and structures.	Amend LLRZ-S6 (Building setback) as follows: 1. Buildings or structures must not be located within: a. A 5m setback from a road <u>or rail corridor</u> boundary; and b. A 3m setback from a side or rear boundary.
Fire and Emergency New Zealand	273.226	Residential Zones / Large Lot Residential Zone / LLRZ-S7	Support in part	Considers it important that the erection of fences and walls will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Fences and walls should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. FENZ therefore seeks an amendment to provide for this.	Supports LLRZ-S7 (Fences and standalone walls), with amendment.
Fire and Emergency New Zealand	273.227	Residential Zones / Large Lot Residential Zone / LLRZ-S7	Amend	Considers it important that the erection of fences and walls will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Fences and walls should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. FENZ therefore seeks an amendment to provide for this.	Amend LLRZ-S7 (Fences and standalone walls) as follows: 1. No fence or standalone wall, or combination of these structures, must not exceed : a. <u>Exceed</u> a maximum height of 2m above ground level where within 1m of any boundary; and b. <u>Exceed</u> the height in relation to boundary standard in LLRZ-S4; and c. <u>Obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves, or other emergency response facilities</u>
Trelissick Park Group	168.25	Residential Zones / Large Lot Residential Zone / LLRZ-S8	Amend	Considers that a 60% permeable surface is too vague and should be amended to require at least neutral or lesser stormwater runoff, compared with pre-development.	Amend LLRZ-S8 (Permeable area) from 60% permeable surface to require neutral or lesser stormwater runoff, compared with pre-development.
Trelissick Park Group	168.26	Residential Zones / Large Lot Residential Zone / LLRZ-S8	Amend	Considers that it is essential that all building developments, including infill housing, require at least neutral or lesser stormwater runoff, compared with pre-development, and so infringement provisions for stormwater should be deleted.	Amend LLRZ-S8 (Permeable area) as follows: Assessment criteria where the standard is infringed: 1. Any measures used to mitigate stormwater runoff; and 2. The capacity of, and effects on, the stormwater network.
Tyers Stream Group	221.76	Residential Zones / Large Lot Residential Zone / LLRZ-S8	Amend	Considers that development must not occur if rules cannot be followed.	Amend LLRZ-S8 (Permeable area) as follows: ... Assessment criteria where the standard is infringed: 1. Any measures used to mitigate stormwater runoff; and 2. The capacity of, and effects on, the stormwater network.
Tyers Stream Group	221.77	Residential Zones / Large Lot Residential Zone / LLRZ-S8	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that LLRZ-S8 (Permeable area) is amended to stipulate neutral or lesser stormwater runoff, compared with pre-development.
Wellington City Council	266.152	Residential Zones / Large Lot Residential Zone / LLRZ-S8	Oppose in part	Considers that given this is not a building provision, but a three waters/infrastructure provision, it is more logical to locate this standard in the THW chapter. Note: HRZ-P9 and HRZ-S10 are to be relocated to THW – see new THW-P6 and THW-R7.	Delete LLRZ-S8 (Permeable area) in its entirety. Consequential renumbering of LLRZ-S9 and references to standards.
Greater Wellington Regional Council	FS84.10	Part 3 / Residential Zones / Large Lot Residential Zone / LLRZS8	Support	Greater Wellington agree that the MRZ and HRZ policy and permeable surface rules are better suited to the Three Waters Chapter and support the amendments.	Allow

Rural Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Tyers Stream Group	221.78	Residential Zones / Large Lot Residential Zone / LLRZ-S9	Amend	Considers that development must not occur if rules cannot be followed.	Amend LLRZ-S9 (On site services) as follows: ... Assessment criteria where the standard is infringed:- 1. The engineering measure to provide on-site services and measures to maintain the health of future occupants and neighbouring properties; 2. The ability for the engineering measure to provide a level of service to support the proposed development; and 3. The ongoing maintenance of the engineering measure.
Fire and Emergency New Zealand	273.228	Residential Zones / Large Lot Residential Zone / LLRZ-S9	Support in part	Supports the standard as it requires on-site water supply systems where a connection to Council's reticulated system is not available. However, FENZ seeks the inclusion of a standard requiring the provision of a firefighting water supply, and access to that supply, in accordance with NZ Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. The provision for an alternative method of firefighting water supply in the absence of a connection to a reticulated network is necessary in order to minimise the risk of loss of life, property damage and adverse effects on the wider environment (e.g. the spread of fire through surrounding vegetation).	Supports LLRZ-S9 (On-site services), with amendment.
Fire and Emergency New Zealand	273.229	Residential Zones / Large Lot Residential Zone / LLRZ-S9	Amend	Supports the standard as it requires on-site water supply systems where a connection to Council's reticulated system is not available. However, FENZ seeks the inclusion of a standard requiring the provision of a firefighting water supply, and access to that supply, in accordance with NZ Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. The provision for an alternative method of firefighting water supply in the absence of a connection to a reticulated network is necessary in order to minimise the risk of loss of life, property damage and adverse effects on the wider environment (e.g. the spread of fire through surrounding vegetation).	Amend LLRZ-S9 (On-site services) as follows: ... 1. ... December 2021 and 2. ... disposal of stormwater; <u>and</u> 3. <u>Where a connection to Council's reticulated system is not available, an onsite firefighting water supply, and access to that supply, must be provided in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008.</u>
The Retirement Villages Association of New Zealand Incorporated	FS126.42	Part 3 / Residential Zones / Large Lot Residential Zone / LLRZ-S9	Oppose	The RVA opposes the relief sought in this submission as matters relating to fire-fighting servicing are already provided for under the Building Act and it is inappropriate to duplicate controls under the Proposed Plan.	Disallow
Ryman Healthcare Limited	FS128.42	Part 3 / Residential Zones / Large Lot Residential Zone / LLRZ-S9	Oppose	Ryman opposes the relief sought in this submission as matters relating to fire-fighting servicing are already provided for under the Building Act and it is inappropriate to duplicate controls under the Proposed Plan.	Disallow
Barry Ellis	47.2	Rural Zones / General point on Rural Zones / General point on Rural Zones	Oppose	Supports District Plan Change 33 – Ridgelines and Hilltops (Visual Amenity) and Rural Area (2009) . The Council should abide by their District Plan Change 33 concerning the protection of ridgelines and hilltops.	Seeks that the Ridgelines and Hilltops overlay incorporated into the operative District Plan (via Plan Change 33) be retained and opposes changing this overlay.
Meridian Energy Limited	FS101.165	Part 3 / Rural Zones / General point on Rural Zones / General point on Rural Zones	Oppose	Meridian accepts the delineation of ridgeline and hilltop overlays shown on the Plan maps.	Disallow
Margaret Ellis	48.2	Rural Zones / General point on Rural Zones / General point on Rural Zones	Amend	Supports District Plan Change 33 –Ridgelines and Hilltops (Visual Amenity) and Rural Area (2009). The overlay protection of ridgelines and hilltops should be considered.	Seeks that the Ridgelines and Hilltops overlay incorporated into the operative District Plan (via PC 33) be considered.
Meridian Energy Limited	FS101.166	Part 3 / Rural Zones / General point on Rural Zones / General point on Rural Zones	Oppose	Meridian accepts the delineation of ridgeline and hilltop overlays shown on the Plan maps.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Rowan Hannah	84.2	Rural Zones / General point on Rural Zones / General point on Rural Zones	Oppose	Supports District Plan Change 33 – Ridgelines and Hilltops (Visual Amenity) and Rural Area (2009) . The Council should abide by their District Plan Change 33 concerning the protection of ridgelines and hilltops.	Seeks that the Ridgelines and Hilltops overlay incorporated into the operative District Plan (via Plan Change 33) be retained and opposes changing this overlay.
Meridian Energy Limited	FS101.167	Part 3 / Rural Zones / General point on Rural Zones / General point on Rural Zones	Oppose	Meridian accepts the delineation of ridgeline and hilltop overlays shown on the Plan maps.	Disallow
Rowan Hannah	84.3	Rural Zones / General point on Rural Zones / General point on Rural Zones	Not specified	Considers that the changes to the District Plan (specifically intensification provisions) will change the look and feel of the rural area.	Seeks that intensification is not enabled in the General Rural Zone.
Rowan Hannah	84.4	Rural Zones / General point on Rural Zones / General point on Rural Zones	Amend	Considers that the colour of houses could be darker colours (Blacks, dark greens, dark browns etc) so they blend more with the surrounding grassland, bush and forestry in the area.	Seeks that houses in rural areas are required to be darker colours. [Inferred decision requested]
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.36	Rural Zones / General point on Rural Zones / General point on Rural Zones	Amend	Considers that the ODP Ridgelines and Hilltops overlay should be retained, with Marshall's ridge included in the overlay.	Seeks that the Ridgelines and Hilltops overlay as in the Operative District Plan (introduced by Plan Change 33) is retained.
Meridian Energy Limited	FS101.168	Part 3 / Rural Zones / General point on Rural Zones / General point on Rural Zones	Oppose	Meridian accepts the delineation of ridgeline and hilltop overlays shown on the Plan maps.	Disallow
WCC Environmental Reference Group	377.396	Rural Zones / General point on Rural Zones / General point on Rural Zones	Support in part	Generally supportive with amendments specified to address wilding pines. [further detail provided in later parts of submission and summarised below]	Not specified.
New Zealand Agricultural Aviation Association	40.8	Rural Zones / General Rural Zone / General GRUZ	Amend	The GRZ chapter has no provisions for the intermittent use of aircraft for agricultural aviation activities.	Seeks that the intermittent use of aircraft for agricultural aviation activities is included in the Proposed District Plan as permitted activity in the General Rural Zone.
Helen Grove	197.2	Rural Zones / General Rural Zone / General GRUZ	Oppose	[No specific reason given beyond decision requested - refer to original submission.]	Seeks that the District Plan removes the objective of a compact city at the expense of the rural space around the city.
Wellington Branch of the New Zealand Deerstalkers	299.1	Rural Zones / General Rural Zone / General GRUZ	Amend	Considers that the rifle range has been in use since 1960s and is the only not-for-profit range used by police, defence and community groups for the benefit of the wellington community. Considers that if the existing use rights of the rifle range are not recognised in the plan that the established land use (and activity) may become vulnerable to complaint from future land uses and activities. Considers that it is only fair that potential investors of land in the vicinity of the range are made aware of its existence.	Seeks that the General Rural Zone [Inferred from submission] provisions are amended to recognise the rifle range located at 109 Rifle Range Road and protect it from reverse sensitivity from future nearby land uses and activities.
New Zealand Motor Caravan Association	314.12	Rural Zones / General Rural Zone / General GRUZ	Amend	The NOSZ chapter should be amended to allow for more permissive rules related to campgrounds. Allowing for more permissive rules around the establishment of campgrounds will make it easier to establish sites for vehicle-based camping in the Wellington District. Campgrounds can easily meet the objectives, policies and intention of this zone.	Seeks that the GRUZ (General Rural Zone) chapter be amended to allow for more permissive rules related to campgrounds.
Greater Wellington Regional Council	351.264	Rural Zones / General Rural Zone / General GRUZ	Support in part	Considers the approach taken in this zone aligns with Policy 56 of Proposed RPS Change 1 and gives effect to Policy 56 in the Operative RPS.	Retain chapter, subject to amendments outlined in other submission points.
Greater Wellington Regional Council	351.265	Rural Zones / General Rural Zone / General GRUZ	Amend	Considers the approach taken in this zone aligns with Policy 56 of Proposed RPS Change 1 and gives effect to Policy 56 in the Operative RPS.	See submission point about flood hazard mapping for the General Rural Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.399	Rural Zones / General Rural Zone / General GRUZ	Not specified	Considers areas zoned General Rural Zone as notified does not contain land accessed from state highway, if the extent of General Rural Zones area changes, Waka Kotahi may be interested.	Not specified.
Envirowaste Services Ltd	373.25	Rural Zones / General Rural Zone / General GRUZ	Support in part	Considers that General Rural Zones need to have a consenting pathway for the establishment of composting operations for the processing of household food waste.	Retain the General Rural Zone chapter with amendment.
Envirowaste Services Ltd	373.26	Rural Zones / General Rural Zone / General GRUZ	Amend	Considers that General Rural Zones need to have a consenting pathway for the establishment of composting operations for the processing of household food waste.	Seeks that the General Rural Zone chapter has a consenting pathway for the establishment of composting operations for the processing of household food waste.
M&P Makara Family Trust	FS41.5	Rural Zones / General Rural Zone / General GRUZ	Oppose	This should not be created specifically for the rural area and the current provisions can satisfactorily assess any resource consent application.	Disallow
Mākara-Ōhāriu Community Board	FS66.1	Part 3 / Rural Zones / General Rural Zone / General GRUZ	Oppose	The requested amendments propose an expectation of industrialisation in the general rural zone and are not consistent with the rural values, environmental, character, amenity, or biodiversity objectives of the PDP.	Disallow
Meridian Energy Limited	228.112	Rural Zones / General Rural Zone / New GRUZ	Oppose in part	Considers the Plan establishes a policy framework that seeks to avoid adverse reverse sensitivity effects for existing regionally significant infrastructure. One source of potential reverse sensitivity is allowing sensitive activities to establish close to existing wind farm turbines. Considers the policy intention (of avoiding reverse sensitivity effects) needs to be carried through into the rules for the General Rural Zone by requiring new sensitive activities (a defined term including dwellings) to be located a minimum distance away from existing wind turbines that will protect the amenity values of the sensitive activity. The distance should be established based on the noise contour endorsed for the resource consents for the West Wind and Mill Creek wind farms.	Add a new standard GRUZ-S5 (Minimum setback for sensitive activities) as follows <u>New Standard GRUZ-S5:</u> <u>1. Minimum setback for sensitive activities</u> <u>Setback: no closer than the 40 dBA noise contour in relation to turbines in the existing West Wind and Mill Creek wind farms.</u> <u>[Refer to original submission for attachment of 40 dBA noise contour in relation to turbines in the existing West Wind and Mill Creek wind farms]</u>
M&P Makara Family Trust	FS41.7	Rural Zones / General Rural Zone / New GRUZ	Oppose	The map appended in the further submission is insufficient to understand the impact of this requested inclusion. The maps as endorsed by the original resource consents for West Wind and Mill Creek (projected) are not necessarily the same as their post-establishment (actual) noise contours. The community needs to be able to consider any proposed new provision and its practical effects. The requested change potentially limits current and proposed activities on private land already provided for under the operational District Plan. [Refer to Further submission for full reason, including attachment]	Disallow
Mākara-Ōhāriu Community Board	FS66.4	Part 3 / Rural Zones / General Rural Zone / New GRUZ	Oppose	The proposal to establish a new 'noise setback' standard GRUZ-S5 would impose new restrictions on currently lawful activity for adjacent private land-owners. This could affect the amenity value of land without any consultation or compensation. The information on noise contours affecting land adjacent to West Wind is incomplete so the impact to the Mākara community cannot be assessed.	Disallow
Horokiwi Quarries Ltd	271.60	Rural Zones / General Rural Zone / New GRUZ	Amend	Seeks that a new policy is added to recognise and provide for the benefits of quarrying activities, noting that policy GRUZ-P5 relates to adverse effects and not benefits.	Add new policy to the General Rural Zone chapter as follows: <u>The benefits of quarrying activities to the city and region are recognised and provided for in the General Rural Zone.</u>
Mākara-Ōhāriu Community Board	FS66.2	Part 3 / Rural Zones / General Rural Zone / New GRUZ	Oppose	The requested amendments propose an expectation of industrialisation in the general rural zone and are not consistent with the rural values, environmental, character, amenity, or biodiversity objectives of the PDP.	Disallow
Horokiwi Quarries Ltd	271.61	Rural Zones / General Rural Zone / New GRUZ	Amend	Accepts the discretionary activity status for a new quarry. It is presumed the rule applies to all quarry activities, regardless of whether they are new or an extension. Clarification is required.	Add a new rule providing a Restricted Discretionary Activity status for the extension to an existing quarry.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.397	Rural Zones / General Rural Zone / New GRUZ	Amend	<p>Considers the introduction to the general rural zone, in referencing other relevant regulations, states that the General Rural Zone provisions do not apply to plantation forestry: they note that the in this circumstance the NES-PF applies. This leaves a serious gap in the council's ability to control the weed risk associated with some forestry.</p> <p>Many land holders are now planting exotic species forests as carbon sinks (known as carbon farming) - planting exotic species that will not be harvested. These, sometimes extremely large scale forests are proving to be a serious wilding risk, e.g. non-sterile Douglas Fir and many other conifers and larches.</p> <p>The plan notes the importance of the rural zone for indigenous biodiversity: this will be at risk if forests of this nature are able to be established as of right. Rules to prevent the establishment of forests not captured within the NES definition are required: it is our view that plantations of exotic species known to cause wilding problems should be prohibited in Wellington's rural areas.</p>	Seeks to include a policy that signals the risk of wilding species from non-plantation forests (those not covered by the NES-PF) to the indigenous biodiversity of the rural zone, and encourage instead the planting of native species, or sterile exotic species.
M&P Makara Family Trust	FS41.19	Part 3 / Rural Zones / General Rural Zone / New GRUZ	Support	<p>Not specified. [Submitter references 377.97 in error]</p>	Allow
WCC Environmental Reference Group	377.398	Rural Zones / General Rural Zone / New GRUZ	Amend	<p>Considers the introduction to the general rural zone, in referencing other relevant regulations, states that the General Rural Zone provisions do not apply to plantation forestry: they note that the in this circumstance the NES-PF applies. This leaves a serious gap in the council's ability to control the weed risk associated with some forestry.</p> <p>Many land holders are now planting exotic species forests as carbon sinks (known as carbon farming) - planting exotic species that will not be harvested. These, sometimes extremely large scale forests are proving to be a serious wilding risk, e.g. non-sterile Douglas Fir and many other conifers and larches.</p> <p>The plan notes the importance of the rural zone for indigenous biodiversity: this will be at risk if forests of this nature are able to be established as of right. Rules to prevent the establishment of forests not captured within the NES definition are required: it is our view that plantations of exotic species known to cause wilding problems should be prohibited in Wellington's rural areas.</p>	<p>Seeks to include a related rule that has the effect of prohibiting establishment of exotic species forests and / or exotic species shelter belts of 1ha area or more, where such forests do not meet the criteria of a plantation forest as defined in the NES-PF (and are therefore not subject to the controls that the NES-PF sets out) and where the species sought to be planted are exotic and non-sterile. To tie this in with the NES-PF we recommend the rule use 1 ha continuous cover as its starting point.</p> <p>[See original submission for full relief sought]</p>
M&P Makara Family Trust	FS41.20	Part 3 / Rural Zones / General Rural Zone / New GRUZ	Support	<p>Not specified. [Submitter references 377.98 in error]</p>	Allow
Ministry of Education	400.110	Rural Zones / General Rural Zone / New GRUZ	Amend	<p>Considers that GRUZ rules do not sufficiently provide for additional infrastructure/educational facilities. Therefore, the submitter supports the inclusion of a new rule as sought.</p>	<p>Amend GRUZ to include a new rule as follows:</p> <p><u>GRUZ-RX Educational Facility</u></p> <p><u>1. Activity Status: Restricted Discretionary Matters of Discretion</u></p> <p><u>1. The matters in GRUZ-P4.</u></p>
Ministry of Education	400.111	Rural Zones / General Rural Zone / New GRUZ	Amend	<p>Considers that GRUZ does not have a corresponding activity status for the construction, addition or alteration to buildings and structures associated activities outside the purposes of rural and residential activities.</p> <p>Policy GRUZ-P4 enables potentially compatible buildings and structures where it can be demonstrated that they are compatible with the character and amenity values of the zone. However, there is no rule to support this policy. The Ministry considers that Educational Facilities, particularly schools and early childhood centres, should be provided for where there is potential for a population to support them.</p> <p>[see original submission for full reason].</p> <p>The submitter therefore seeks a new rule which aims to ensure that Educational Facilities can operate in a way that positively contributes to the rural community.</p>	<p>Add new rule to GRUZ (General Rural Zone) as follows:</p> <p><u>GRUZ-RX – Construction, addition or alteration to buildings and structures associated with activities not otherwise listed.</u></p> <p><u>1. Activity status: Restricted Discretionary Matters of Discretion</u></p> <p><u>a. The matters in GRUZ-P4.</u></p> <p><u>2. Activity status: Discretionary</u></p> <p><u>Where:</u></p> <p><u>1. Compliance with GRUZ-S1, GRUZ-S2 and GRUZ-S5 is not achieved.</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Horokiwi Quarries Ltd	271.62	Rural Zones / General Rural Zone / GRUZ-01	Support	Supports the recognition of other activities within the General Rural Zone which have a functional need.	Retain GRUZ-01 (Purpose) as notified.
Fire and Emergency New Zealand	273.230	Rural Zones / General Rural Zone / GRUZ-01	Support	Supports this objective as it provides for other activities that have a functional need to be located in this zone.	Retain GRUZ-01 (Purpose) as notified.
Aggregate and Quarry Association	303.18	Rural Zones / General Rural Zone / GRUZ-01	Support in part	Supports the reference in GRUZ-01 with respect to the purpose of the GRUZ being to support its functional need.	Retain Objective 1 of General Rural Zone with amendment.
Aggregate and Quarry Association	303.19	Rural Zones / General Rural Zone / GRUZ-01	Amend	Considers that GRUZ-01 excludes quarrying and mining activities. The definition of Rural Activities mentioned in GRUZ-01 specifically excludes "quarrying and mining activities", which may inadvertently rule provision for them out of the General Rural Zone. Using the term 'primary production' instead of 'rural activities' could be one way to address this, as quarrying is included within the definition of primary production.	Amend Objective 1 of General Rural Zone to replace the mention of "rural activities" with "primary production".
Horokiwi Quarries Limited	FS28.3	Part 3 / Rural Zones / General Rural Zone / GRUZ-01	Support	Horokiwi supports the recognition of other activities within the General Rural Zone.	Allow
Mākara-Ōhāriu Community Board	FS66.3	Part 3 / Rural Zones / General Rural Zone / GRUZ-01	Oppose	The requested amendments propose an expectation of industrialisation in the general rural zone and are not consistent with the rural values, environmental, character, amenity, or biodiversity objectives of the PDP.	Disallow
Royal Forest and Bird Protection Society	345.385	Rural Zones / General Rural Zone / GRUZ-01	Support in part	Considers the objective should refer to the need to maintain biodiversity.	Amend GRUZ-01 (Purpose): The General Rural Zone predominately provides for rural activities, complemented by informal outdoor recreation and other activities that have a functional need for a rural location, <u>and maintains biodiversity.</u>
WCC Environmental Reference Group	377.399	Rural Zones / General Rural Zone / GRUZ-01	Support	Supports providing for rural activities, of the type described here, is well suited to the nature of the landscape.	Retain GRUZ-01 (Purpose) as notified.
Ministry of Education	400.112	Rural Zones / General Rural Zone / GRUZ-01	Support in part	Supports GRUZ-01 in part.	Retain GRUZ-01 (Purpose) with amendment.
Ministry of Education	400.113	Rural Zones / General Rural Zone / GRUZ-01	Amend	Seeks GRUZ-01 be amended. The submitter considers GRUZ-01 does not adequately provide for educational facilities within the GRUZ. Therefore the submitter supports the amendment to GRUZ-01 as sought for more explicit reference to schools. The submitter considers that Educational Facilities, particularly schools and early childhood centres, should be provided for where there is potential for a population to support them. Schools in within rural areas play an integral part in servicing the needs of the local rural community. Should there be increased pressure on existing school roles in future which trigger the need for new school sites or classrooms, it is critical this is provided for.	Amend GRUZ-01 (Purpose) as follows: The General Rural Zone predominately provides for rural activities, complemented by informal outdoor recreation, <u>educational facilities</u> and other activities that have a functional need for a rural location.
Royal Forest and Bird Protection Society	345.386	Rural Zones / General Rural Zone / GRUZ-02	Support in part	Considers the objective should refer to the need to maintain biodiversity.	Amend GRUZ-02 (Character and amenity values): Activities and development maintain or enhance the predominant character and amenity values of the General Rural Zone, including the prevalence of natural features over man-made features, a low density and scale of buildings and structures, and a general absence of urban infrastructure, <u>and maintains biodiversity.</u>
Fire and Emergency New Zealand	273.231	Rural Zones / General Rural Zone / GRUZ-03	Support	Supports this objective as it encourages the management of effects from activities and developments within the zone which can provide for the health and safety of the community.	Retain GRUZ-03 (Managing effects) as notified.
Royal Forest and Bird Protection Society	345.387	Rural Zones / General Rural Zone / GRUZ-03	Support in part	Considers the objective should refer to the need to maintain biodiversity.	Amend GRUZ-03 (Managing effects): Adverse effects from activities and development in the General Rural Zone are managed within the Zone and at the Zone interface, and rural activities are not constrained or compromised by incompatible activities and/or reverse sensitivity effects <u>and maintain biodiversity.</u>
Ministry of Education	400.114	Rural Zones / General Rural Zone / GRUZ-03	Support	Support GRUZ-03 in that it promotes the effective management of adverse effects on activities within the GRUZ and protect them from incompatible activities and/or reverse sensitivity effects.	Retain GRUZ-03 (Managing effects) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.400	Rural Zones / General Rural Zone / GRUZ-PREC01-O1	Support	Considers Makara Beach and Village is a unique part of Wellington with difficult access and subject to natural hazards. It is sensible that it has its own set of rules under a Makara Beach and Makara Village Precinct.	Retain GRUZ-PREC01-O1 (Purpose) as notified.
WCC Environmental Reference Group	377.401	Rural Zones / General Rural Zone / GRUZ-PREC01-O2	Support	Considers Makara Beach and Village is a unique part of Wellington with difficult access and subject to natural hazards: densified use and development is inappropriate in this place for landscape, open space, hazard and climate change issues (most residents will require private vehicles to access amenities) therefore it is not an area in which further housing should be encouraged.	Retain GRUZ-PREC01-O2 (Character and amenity values) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.26	Rural Zones / General Rural Zone / GRUZ-P1	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain GRUZ-P1.2 (Enabled activities) as notified.
Fire and Emergency New Zealand	273.232	Rural Zones / General Rural Zone / GRUZ-P1	Support in part	Supports the policy as it enables a range of activities within the GRUZ. However, FENZ seeks the inclusion of emergency service facilities in the policy to provide for the establishment of fire stations with the GRUZ	Supports GRUZ-P1 (Enabled activities), with amendment.
Fire and Emergency New Zealand	273.233	Rural Zones / General Rural Zone / GRUZ-P1	Amend	Supports the policy as it enables a range of activities within the GRUZ. However, FENZ seeks the inclusion of emergency service facilities in the policy to provide for the establishment of fire stations with the GRUZ	Amend GRUZ-P1 (Enabled activities) as follows: Enable activities that are compatible with the purpose of the General Rural Zone, while ensuring that their design, scale and intensity is appropriate to the rural environment, including: 1. Rural activities; 2. Residential activities in lawfully established residential buildings; 3. Informal recreation activities; and 4. Small scale clean fill areas; and 5. <u>Emergency service facilities.</u>
Envirowaste Services Ltd	373.27	Rural Zones / General Rural Zone / GRUZ-P1	Support in part	[No specific reason given beyond decision requested - refer to original submission]	Retain GRUZ-P1 (Enabled activities) with amendment.
Envirowaste Services Ltd	373.28	Rural Zones / General Rural Zone / GRUZ-P1	Amend	Considers that the enablement of site(s) for the composting of organic waste needs to be added to GRUZ-P1.	Amend GRUZ-P1 (Enabled activities) as follows: Enable activities that are compatible with the purpose of the General Rural Zone, while ensuring that their design, scale and intensity is appropriate to the rural environment, including: 1. Rural activities; 2. Residential activities in lawfully established residential buildings; 3. Informal recreation activities; and 4. Small scale cleanfill areas. 5. <u>Composting of organic waste.</u>
M&P Makara Family Trust	FS41.6	Rural Zones / General Rural Zone / GRUZ-P1	Oppose	This should not be created specifically for the rural area and the current provisions can satisfactorily assess any resource consent application.	Disallow
WCC Environmental Reference Group	377.402	Rural Zones / General Rural Zone / GRUZ-P1	Support	Supports providing for rural activities, of the type described here, is well suited to the nature of the landscape.	Retain GRUZ-P1 (Enabled activities) as notified.
Te Marama Ltd	337.2	Rural Zones / General Rural Zone / GRUZ-P2	Amend	Considers that GRUZ-P2 should be amended to reduce cost to landowners. Goats are already an important control agent for keeping exotic invasive species, such as gorse, under control. Also, SNAs are arbitrarily being introduced without any consideration to the potential cost to the landowner that this policy will incur, i.e. "managed to avoid adverse ecological effects within identified significant natural areas".	Amend GRUZ-P2 (Keeping of goats) as follows: Provide for the keeping of goats in the General Rural Zone where they are contained and managed to avoid adverse ecological effects within identified significant natural areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
M&P Makara Family Trust	FS41.8	Rural Zones / General Rural Zone / GRUZ-P2	Oppose	There are various farming interests that must co-exist within the Rural Area, each of which can impinge on neighbouring farming rights if not carefully managed. The three main ones in Wellington's rural area into the future are traditional farming (agricultural), wind farming (renewable energy generation) and carbon farming (forestry in the ETS). Feral goats eat pasture that sheep and cattle otherwise graze and can decimate native and some exotic forestry crops especially in the establishment phase. As a result, M&P Trust supports the PDP as notified for the containment of farmed goats, and supports the culling of feral (uncontained) goats. M&P Trust also notes that where GRUZ-58 is infringed, applicants are free to demonstrate other means of containment which satisfy the requirement.	Disallow
Mākara-Ōhāriu Community Board	FS66.5	Part 3 / Rural Zones / General Rural Zone / GRUZ-P2	Oppose	To control the feral goat population, the containment of farmed goats is supported. However MOCB understands that for landowners, the cost of fencing SNA areas is potentially prohibitive without incentives. We believe that control of feral deer and pigs should also be supported.	Disallow
Royal Forest and Bird Protection Society	345.388	Rural Zones / General Rural Zone / GRUZ-P2	Support in part	Considers the policy should be more clear that goats must be excluded from SNAs.	Amend GRUZ-P2 (Keeping of goats): Provide for the keeping of goats in the General Rural Zone where they are contained and managed to <u>be excluded from and</u> avoid adverse ecological effects within identified significant natural areas.
Mākara-Ōhāriu Community Board	FS66.6	Part 3 / Rural Zones / General Rural Zone / GRUZ-P2	Oppose	To control the feral goat population, the containment of farmed goats is supported. However MOCB understands that for landowners, the cost of fencing SNA areas is potentially prohibitive without incentives. We believe that control of feral deer and pigs should also be supported.	Disallow
Te Kamaru Station Ltd Ratings	362.5	Rural Zones / General Rural Zone / GRUZ-P2	Oppose in part	Considers that GRUZ-P2 should be amended to reduce cost to landowners. Goats are already an important control agent for keeping exotic invasive species, such as gorse, under control. Also, SNAs are arbitrarily being introduced without any consideration to the potential cost to the landowner that this policy will incur, i.e. "managed to avoid adverse ecological effects within identified significant natural areas".	Retain GRUZ-P2 (Keeping of goats) with amendments.
M&P Makara Family Trust	FS41.10	Rural Zones / General Rural Zone / GRUZ-P2	Oppose	There are various farming interests that must co-exist within the Rural Area, each of which can impinge on neighbouring farming rights if not carefully managed. The three main ones in Wellington's rural area into the future are traditional farming (agricultural), wind farming (renewable energy generation) and carbon farming (forestry in the ETS). Feral goats eat pasture that sheep and cattle otherwise graze and can decimate native and some exotic forestry crops especially in the establishment phase. As a result, M&P Trust supports the PDP as notified for the containment of farmed goats, and supports the culling of feral (uncontained) goats. M&P Trust also notes that where GRUZ-58 is infringed, applicants are free to demonstrate other means of containment which satisfy the requirement.	Disallow
M&P Makara Family Trust	FS41.12	Rural Zones / General Rural Zone / GRUZ-P2	Oppose	There are various farming interests that must co-exist within the Rural Area, each of which can impinge on neighbouring farming rights if not carefully managed. M&P Trust also notes that where GRUZ-S8 is infringed, applicants are free to demonstrate other means of containment which satisfy the requirement.	Disallow
Mākara-Ōhāriu Community Board	FS66.7	Part 3 / Rural Zones / General Rural Zone / GRUZ-P2	Oppose	To control the feral goat population, the containment of farmed goats is supported. However MOCB understands that for landowners, the cost of fencing SNA areas is potentially prohibitive without incentives. We believe that control of feral deer and pigs should also be supported.	Disallow
WCC Environmental Reference Group	377.403	Rural Zones / General Rural Zone / GRUZ-P2	Support	Considers goats are a pest in Wellington, causing damage to vegetation and habitat for native creatures. Keeping goats as livestock should be controlled for this reason.	Retain GRUZ-P2 (Keeping of goats) as notified.
Terawhiti Farming Co Ltd (Terawhiti Station)	411.5	Rural Zones / General Rural Zone / GRUZ-P2	Oppose in part	Opposes policy as notified and considers that goats are an important control agent for keeping exotic invasive species, such as gorse, under control.	Seeks that the policy is amended.
Mākara-Ōhāriu Community Board	FS66.8	Part 3 / Rural Zones / General Rural Zone / GRUZ-P2	Oppose	To control the feral goat population, the containment of farmed goats is supported. However MOCB understands that for landowners, the cost of fencing SNA areas is potentially prohibitive without incentives. We believe that control of feral deer and pigs should also be supported.	Disallow
Terawhiti Farming Co Ltd (Terawhiti Station)	411.6	Rural Zones / General Rural Zone / GRUZ-P2	Amend	Opposes policy as notified and considers that goats are an important control agent for keeping exotic invasive species, such as gorse, under control.	Amend GRUZ-P2 (Keeping of goats) as follows: Provide for the keeping of goats in the General Rural Zone where they are contained and managed to avoid adverse ecological effects within identified significant natural areas.
WCC Environmental Reference Group	377.404	Rural Zones / General Rural Zone / GRUZ-P3	Support	Supports providing for activities, of the type described here, is suitable in the context of a rural landscape.	Retain GRUZ-P3 (Residential visitor accommodation and home business) as notified.
Aggregate and Quarry Association	303.20	Rural Zones / General Rural Zone / GRUZ-P4	Support	GRUZ-P4 is supported, especially sub-point 5 which specifically allows quarrying activities in the General Rural Zone where it can be demonstrated that the adverse effects can be managed through industry best practice, management plans, monitoring and self-reporting.	Retain GRUZ-P4 (Potentially compatible activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Horokiwi Quarries Limited	FS28.4	Part 3 / Rural Zones / General Rural Zone / GRUZ-P4	Support	Horokiwi supports the policy recognition of quarrying activities in the General Rural Zone.	Allow
Mākara-Ōhāriu Community Board	FS66.9	Part 3 / Rural Zones / General Rural Zone / GRUZ-P4	Oppose	Sub point 5 (of the provision) represents industrialisation of the general rural zone and is not consistent with the rural values, environment, character, amenity, or biodiversity objectives of the PDP.	Disallow
Envirowaste Services Ltd	373.29	Rural Zones / General Rural Zone / GRUZ-P4	Support in part	[No specific reason given beyond decision requested - refer to original submission]	Retain GRUZ-P4 (Potentially compatible activities) with amendment.
Envirowaste Services Ltd	373.30	Rural Zones / General Rural Zone / GRUZ-P4	Amend	Considers that the addition of organic composting to this clause will promote a suitable consenting pathway for the processing of organic food waste.	Amend GRUZ-P4 (Potentially compatible activities) as follows: Only allow other activities in the General Rural Zone where it can be demonstrated that: ... 5. In relation to quarrying activities, mining, cleanfill areas, <u>organic composting</u> and intensive indoor primary production activities, any adverse effects can be managed through industry best practice, management plans, monitoring and self-reporting; ...
Mākara-Ōhāriu Community Board	FS66.10	Part 3 / Rural Zones / General Rural Zone / GRUZ-P4	Oppose	Sub point 5 (of the provision) represents industrialisation of the general rural zone and is not consistent with the rural values, environment, character, amenity, or biodiversity objectives of the PDP.	Disallow
WCC Environmental Reference Group	377.405	Rural Zones / General Rural Zone / GRUZ-P4	Support	Supports providing for activities, of the type described here, is suitable in the context of a rural landscape.	Retain GRUZ-P4 (Potentially compatible activities) as notified.
Ministry of Education	400.115	Rural Zones / General Rural Zone / GRUZ-P4	Support in part	Support GRUZ-P4 in part.	Retain GRUZ-P4 (Potentially compatible activities) with amendment.
Ministry of Education	400.116	Rural Zones / General Rural Zone / GRUZ-P4	Amend	Seeks GRUZ-P4 be amended. The submitter considers that GRUZ-P4 does not adequately provide for educational facilities. Therefore the submitter proposes an amendment to GRUZ-P4 to ensure that educational facilities are explicitly provided for as a compatible activity to other activities in the General Rural Zone.	Amend GRUZ-P4 (Potentially compatible activities) as follows: 9. Indigenous vegetation and visually prominent trees are retained where practicable; and <u>10. The activity provides for educational facilities as needed to support rural communities; and</u> 11. 10 -Any adverse effects on waterbodies and their margins are effectively managed.
Horokiwi Quarries Ltd	271.63	Rural Zones / General Rural Zone / GRUZ-P5	Amend	Considers that while the majority of the Horokiwi site is zoned Quarry zone, a portion (which has not been quarried) is zoned General Rural Zone. Notwithstanding the zoning of the land east of Horokiwi Road, Horokiwi supports the policy recognition within the General Rural Zone of new quarrying activities and the need for a detailed management plan. With respect to existing quarry sites that will change their use. Horokiwi is unclear how the policy would be applied if the change of use was to a permitted activity. Any requirement for site rehabilitation should be enforced through existing consent conditions and not a retrospective policy approach.	Amend GRUZ-P5 (Quarrying and mining site rehabilitation) as follows: GRUZ-P5 Quarrying and mining site rehabilitation Require any new mining or quarrying activities and changes of use on existing quarry or mining sites in the General Rural Zone to demonstrate, through a detailed management plan, how the site will be rehabilitated, having particular regard to: ...
Aggregate and Quarry Association	303.21	Rural Zones / General Rural Zone / GRUZ-P5	Support	GRUZ-P5 is supported as it provides for adequate site rehabilitation. Aggregate extraction is a temporary land-use whereby the aggregate material is extracted and processed before the area is rehabilitated to a former use, or an alternative and/or enhanced use. Responsible environmental management using best practice approaches is an integral part of any aggregate extraction and processing venture.	Retain GRUZ-P5 (Quarrying and mining site rehabilitation) as notified.
WCC Environmental Reference Group	377.406	Rural Zones / General Rural Zone / GRUZ-P5	Support	Considers quarrying is a necessary activity: this policy signals how it needs to be conducted to minimise environmental effects in the rural landscape.	Retain GRUZ-P5 (Quarrying and mining site rehabilitation) as notified.
Taranaki Whānui ki te Upoko o te Ika	389.95	Rural Zones / General Rural Zone / GRUZ-P5	Support	Support policy direction stating the need to demonstrate the outcomes of any consultation with Taranaki Whānui.	Retain GRUZ-P5 (Quarrying and mining site rehabilitation) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.407	Rural Zones / General Rural Zone / GRUZ-P6	Support	Considers this policy is important to signal the incompatibility of urban development in the rural zone: this is essential if Wellington is to meet its goal to reduce its carbon footprint	Retain GRUZ-P6 (Incompatible activities) as notified.
Te Marama Ltd	337.3	Rural Zones / General Rural Zone / GRUZ-P7	Amend	Considers that GRUZ-P7 should be amended, as what causes a building's scale and location to compromise or be inconsistent with the Rural Design Guide is subjective. It is noted the industrial character of much of the Makara landscape has electricity substations (at least 2), wind turbines, radar domes (at least 2), and Transpower transmission lines criss-crossing the landscape. Therefore the rural character is already compromised and is in fact not rural but industrial.	Amend GRUZ-P7 (Rural buildings and structures) as follows: Provide for a range of buildings and structures associated with rural activities that are an integral part of the rural environment but ensure that their scale and location does not compromise the rural character and amenity prevalent within the General Rural Zone.
Mākara-Ōhāriu Community Board	FS66.11	Part 3 / Rural Zones / General Rural Zone / GRUZ-P7	Oppose	The presence of national and regional energy infrastructure is not evidence of existing industrialisation of the rural character.	Disallow
Te Kamaru Station Ltd Ratings	362.7	Rural Zones / General Rural Zone / GRUZ-P7	Amend	Considers that GRUZ-P7 should be amended, as what causes a building's scale and location to compromise or be inconsistent with the Rural Design Guide is subjective. It is noted the industrial character of much of the Makara landscape has electricity substations (at least 2), wind turbines, radar domes (at least 2), and Transpower transmission lines criss-crossing the landscape. Therefore the rural character is already compromised and is in fact not rural but industrial.	Amend GRUZ-P7 (Rural buildings and structures) as follows: Provide for a range of buildings and structures associated with rural activities that are an integral part of the rural environment but ensure that their scale and location does not compromise the rural character and amenity prevalent within the General Rural Zone.
Mākara-Ōhāriu Community Board	FS66.12	Part 3 / Rural Zones / General Rural Zone / GRUZ-P7	Oppose	The presence of national and regional energy infrastructure is not evidence of existing industrialisation of the rural character.	Disallow
Terawhiti Farming Co Ltd (Terawhiti Station)	411.7	Rural Zones / General Rural Zone / GRUZ-P7	Oppose	Opposes the policy as notified. Considers that the Makara landscape has an industrial character and that within the landscape exists electricity substations (at least 2), wind turbines, radar domes (at least 2), and Transpower transmission lines criss-crossing the landscape. Considers that the rural character is already compromised and is in fact not rural but industrial.	Seeks that the policy is amended.
Mākara-Ōhāriu Community Board	FS66.13	Part 3 / Rural Zones / General Rural Zone / GRUZ-P7	Oppose	The presence of national and regional energy infrastructure is not evidence of existing industrialisation of the rural character.	Disallow
Terawhiti Farming Co Ltd (Terawhiti Station)	411.8	Rural Zones / General Rural Zone / GRUZ-P7	Amend	Opposes the policy as notified. Considers that the Makara landscape has an industrial character and that within the landscape exists electricity substations (at least 2), wind turbines, radar domes (at least 2), and Transpower transmission lines criss-crossing the landscape. Considers that the rural character is already compromised and is in fact not rural but industrial.	Amend GRUZ-P7 (Rural buildings and structures) as follows: Provide for a range of buildings and structures associated with rural activities that are an integral part of the rural environment but ensure that their scale and location does not compromise the rural character and amenity prevalent within the General Rural Zone.
Mākara-Ōhāriu Community Board	FS66.14	Part 3 / Rural Zones / General Rural Zone / GRUZ-P7	Oppose	The presence of national and regional energy infrastructure is not evidence of existing industrialisation of the rural character.	Disallow
Te Marama Ltd	337.4	Rural Zones / General Rural Zone / GRUZ-P8	Oppose	GRUZ-P8 is opposed in its entirety. Limiting the number of one residential unit per one allotment makes sense for some smaller lots, such as in Makara Beach where lots are c.800sqm. However it would make more sense to locate buildings together (i.e. next to the road) for larger lots (e.g. lots of 40 hectares+ in size) rather than spreading buildings across the landscape for the sake of restricting dwellings to "one unit per allotment".	Delete GRUZ-P8 (New residential buildings) in its entirety.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
M&P Makara Family Trust	FS41.22	Rural Zones / General Rural Zone / GRUZ-P8	Oppose	<p>The PDP as notified allows for 10 guests per night in temporary accommodation for one residential unit, and any number greater than this is sufficiently covered by the discretionary framework.</p> <p>The PDP as notified retains the existing one household per allotment which is sufficient to encourage larger blocks to place that unit where it is most easily accessible or useful for their purposes. Any number greater than this is sufficiently covered by the resource consent framework.</p> <p>M&P Trust also submits that the intent of the subdivision provisions in the Rural Area, including their time-related requirement, is to anticipate a lower rate of residential development in than urban areas. Allowing more than one residential unit per allotment defeats the purpose of these subdivision provisions. Any number greater than this is sufficiently covered by the resource consent framework.</p>	Disallow
Te Kamaru Station Ltd Ratings	362.8	Rural Zones / General Rural Zone / GRUZ-P8	Oppose	<p>GRUZ-P8 is opposed in its entirety.</p> <p>Limiting the number of one residential unit per one allotment makes sense for some smaller lots, such as in Makara Beach where lots are c.800sqm. However it would make more sense to locate buildings together (i.e. next to the road) for larger lots (e.g. lots of 40 hectares+ in size) rather than spreading buildings across the landscape for the sake of restricting dwellings to “one unit per allotment”.</p>	Delete GRUZ-P8 (New residential buildings).
M&P Makara Family Trust	FS41.25	Rural Zones / General Rural Zone / GRUZ-P8	Oppose	<p>The PDP as notified allows for 10 guests per night in temporary accommodation for one residential unit, and any number greater than this is sufficiently covered by the discretionary framework.</p> <p>The PDP as notified retains the existing one household per allotment which is sufficient to encourage larger blocks to place that unit where it is most easily accessible or useful for their purposes. Disallow
Mākara-Ōhāriu Community Board	FS66.16	Part 3 / Rural Zones / General Rural Zone / GRUZ-P8	Oppose	Any increase in the number of residential guests permissible should also take account of the potential noise and privacy impacts to neighbouring properties.	Disallow
Te Marama Ltd	337.5	Rural Zones / General Rural Zone / GRUZ-P9	Amend	Considers that GRUZ-P9 should be amended, as scale and location are subjective.	Amend GRUZ-P9 (Residential additions, alterations, accessory buildings, and structures) as follows: Enable alterations and additions to residential buildings within the General Rural Zone, along with the construction of associated accessory buildings and structures, provided that their scale and location does not compromise the character and amenity values of the local area.
Te Kamaru Station Ltd Ratings	362.9	Rural Zones / General Rural Zone / GRUZ-P9	Amend	Considers that GRUZ-P9 should be amended, as scale and location are subjective.	Amend GRUZ-P9 (Residential additions, alterations, accessory buildings, and structures) as follows: Enable alterations and additions to residential buildings within the General Rural Zone, along with the construction of associated accessory buildings and structures, provided that their scale and location does not compromise the character and amenity values of the local area.
Terawhiti Farming Co Ltd (Terawhiti Station)	411.11	Rural Zones / General Rural Zone / GRUZ-P9	Oppose	Considers that scale and location is subjective	Seeks that the policy is amended.
Terawhiti Farming Co Ltd (Terawhiti Station)	411.12	Rural Zones / General Rural Zone / GRUZ-P9	Amend	Considers that scale and location is subjective	Amend GRUZ-P9 (Residential additions, alterations, accessory buildings, and structures) as follows: Enable alterations and additions to residential buildings within the General Rural Zone, along with the construction of associated accessory buildings and structures, provided that their scale and location does not compromise the character and amenity values of the local area.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Te Marama Ltd	337.6	Rural Zones / General Rural Zone / GRUZ-P10	Oppose	GRUZ-P10 is opposed in its entirety. Limiting the number of one residential unit per one allotment makes sense for some smaller lots, such as in Makara Beach where lots are c.800sqm. However it would make more sense to locate buildings together (i.e. next to the road) for larger lots (e.g. lots of 40 hectares+ in size) rather than spreading buildings across the landscape for the sake of restricting dwellings to “one unit per allotment”.	Delete GRUZ-P10 (Potentially compatible buildings and structures) in its entirety.
M&P Makara Family Trust	FS41.23	Rural Zones / General Rural Zone / GRUZ-P10	Oppose	The PDP as notified allows for 10 guests per night in temporary accommodation for one residential unit, and any number greater than this is sufficiently covered by the discretionary framework. The PDP as notified retains the existing one household per allotment which is sufficient to encourage larger blocks to place that unit where it is most easily accessible or useful for their purposes. Any number greater than this is sufficiently covered by the resource consent framework. M&P Trust also submits that the intent of the subdivision provisions in the Rural Area, including their time-related requirement, is to anticipate a lower rate of residential development in than urban areas. Allowing more than one residential unit per allotment defeats the purpose of these subdivision provisions. Any number greater than this is sufficiently covered by the resource consent framework.	Disallow
Royal Forest and Bird Protection Society	345.389	Rural Zones / General Rural Zone / GRUZ-P10	Support in part	Supports the policy, particularly given the Council’s function of maintaining biodiversity, which applies more broadly than just in SNAs. We query whether ‘retaining vegetation where practicable’ fulfils that function however. Seek that this is deleted.	Amend GRUZ-P10 (Potentially compatible buildings and structures): Only allow other buildings and structures where it can be demonstrated that they are compatible with the character and amenity values of the General Rural Zone, having regard to: 1. The Rural Design Guide; 2. The nature and extent of any adverse effects on nearby properties, including outlook, privacy and shading; 3. Whether there is a functional need for a specific design or location within the site; 4. Whether indigenous vegetation and visually prominent trees are retained where practicable ; and 5. The ability to mitigate adverse effects through screening, planting and landscaping.
Te Kamaru Station Ltd Ratings	362.10	Rural Zones / General Rural Zone / GRUZ-P10	Oppose	GRUZ-P10 is opposed in its entirety. Limiting the number of one residential unit per one allotment makes sense for some smaller lots, such as in Makara Beach where lots are c.800sqm. However it would make more sense to locate buildings together (i.e. next to the road) for larger lots (e.g. lots of 40 hectares+ in size) rather than spreading buildings across the landscape for the sake of restricting dwellings to “one unit per allotment”.	Delete GRUZ-P10 (Potentially compatible buildings and structures).
Terawhiti Farming Co Ltd (Terawhiti Station)	411.13	Rural Zones / General Rural Zone / GRUZ-P10	Oppose	Opposes GRUZ-P10 (Potentially compatible buildings and structures) [See original submission for full reasons]	[Inferred decision requested] Delete GRUZ-P10 (Potentially compatible buildings and structures).
Fire and Emergency New Zealand	273.234	Rural Zones / General Rural Zone / GRUZ-P11	Support in part	Supports the policy provided it takes account of vegetation removal as a measure for the preventative mitigation of fire risk to property and life. It is important that property owners and occupiers are able to remove flammable vegetation, as required, to provide sufficient clearance to mitigate the potential for fire risk/spread between flammable vegetation and property.	Supports GRUZ-P11 (Vegetation retention), with amendment.
Fire and Emergency New Zealand	273.235	Rural Zones / General Rural Zone / GRUZ-P11	Amend	Supports the policy provided it takes account of vegetation removal as a measure for the preventative mitigation of fire risk to property and life. It is important that property owners and occupiers are able to remove flammable vegetation, as required, to provide sufficient clearance to mitigate the potential for fire risk/spread between flammable vegetation and property.	Amend GRUZ-P11 (Vegetation retention) as follows: Encourage the retention of existing vegetation in association with site development in the General Rural Zone, particularly native vegetation and visually prominent trees that may not otherwise be protected, except where it poses fire risk to the environment and the health and safety of people.

WCC Environmental Reference Group	377.415	Rural Zones / General Rural Zone / GRUZ-R8	Support	Supports providing for activities, of the type described here, and with the activity classes as described here, is suitable in the context of a rural landscape.	Retain GRUZ-R8 (Visitor accommodation) as notified.
WCC Environmental Reference Group	377.416	Rural Zones / General Rural Zone / GRUZ-R10	Support	Supports requiring discretion for intensive indoor primary production is necessary given the potential for significant adverse effects.	Retain GRUZ-R10 (Intensive indoor primary production) as notified.
WCC Environmental Reference Group	377.417	Rural Zones / General Rural Zone / GRUZ-R11	Support	Supports requiring discretion for intensive indoor primary production is necessary given the potential for significant adverse effects.	Retain GRUZ-R11 (Pet animal boarding and breeding and day-care) as notified.
Horokiwi Quarries Ltd	271.64	Rural Zones / General Rural Zone / GRUZ-R12	Amend	Considers that the discretionary activity status for a new quarry is acceptable. It is presumed the rule applies to all quarry activities, regardless of whether they are new or an extension. Clarification is required.	Clarify the intent of GRUZ-R12 (Quarrying or mining activities) as to whether the rule applies to all quarry activities, regardless of whether they are new or an extension.
Horokiwi Quarries Ltd	271.65	Rural Zones / General Rural Zone / GRUZ-R12	Support in part	Considers that the discretionary activity status for a new quarry is acceptable. It is presumed the rule applies to all quarry activities, regardless of whether they are new or an extension. Clarification is required.	Retain GRUZ-R12 (Quarrying or mining activities), subject to clarification it applies to new quarries.
Aggregate and Quarry Association	303.22	Rural Zones / General Rural Zone / GRUZ-R12	Support	GRUZ-R12 is supported as it provides a 'Discretionary' activity status for quarrying or mining activities in the General Rural Zone.	Retain GRUZ-R12 (Quarrying or mining activities) as notified.
WCC Environmental Reference Group	377.418	Rural Zones / General Rural Zone / GRUZ-R12	Support	Considers quarrying is a necessary activity that has major effects: discretion is necessary to ensure that it is to be conducted to minimise or mitigate environmental effects in the rural landscape.	Retain GRUZ-R12 (Quarrying or mining activities) as notified.
Fire and Emergency New Zealand	273.236	Rural Zones / General Rural Zone / GRUZ-R13	Support	Supports the rule as it allows for the development of an emergency service facilities as a discretionary land use activity. Due to urban growth, population changes and commitments to response times, FENZ may need to locate new fire stations within this zone.	Retain GRUZ-R13 (Emergency service facility) as notified.
Fire and Emergency New Zealand	273.237	Rural Zones / General Rural Zone / GRUZ-R15	Support	Supports the rule as the maintenance and repair of buildings and structures within the GRUZ are a permitted activity.	Retain GRUZ-R15 (Repair and maintenance of buildings and structures) as notified.
Fire and Emergency New Zealand	273.238	Rural Zones / General Rural Zone / GRUZ-R16	Support	Supports the rule as the demolition or removal of buildings and structures within the GRUZ are a permitted activity.	Retain GRUZ-R16 (Demolition or removal of a building or structure) as notified.
Greater Wellington Regional Council	351.266	Rural Zones / General Rural Zone / GRUZ-R16	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain GRUZ-R16 (Demolition or removal of a building or structure) with amendment.
Greater Wellington Regional Council	351.267	Rural Zones / General Rural Zone / GRUZ-R16	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend GRUZ-R16 (Demolition or removal of a building or structure)) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	228.113	Rural Zones / General Rural Zone / GRUZ-R17	Amend	Considers the Plan establishes a policy framework that seeks to avoid adverse reverse sensitivity effects for existing regionally significant infrastructure. One source of potential reverse sensitivity is allowing sensitive activities to establish close to existing wind farm turbines. Considers the policy intention (of avoiding reverse sensitivity effects) needs to be carried through into the rules for the General Rural Zone by requiring new sensitive activities (a defined term including dwellings) to be located a minimum distance away from existing wind turbines that will protect the amenity values of the sensitive activity. The distance should be established based on the noise contour endorsed for the resource consents for the West Wind and Mill Creek wind farms.	Amend Rule GRUZ-R17 (Construction, alteration or addition to buildings and structures associated with rural activities) to include new relief sought standard GRUZ-S5 (Minimum setback for sensitive activities) as a required standard.
Fire and Emergency New Zealand	273.239	Rural Zones / General Rural Zone / GRUZ-R17	Support	Supports the rule as the addition or alteration to buildings and structures within the GRUZ are provided for as a permitted or restricted discretionary activity.	Retain GRUZ-R17 (Construction, alteration, or addition to buildings and structures associated with rural activities) as notified.
Meridian Energy Limited	228.114	Rural Zones / General Rural Zone / GRUZ-R18	Amend	Considers the Plan establishes a policy framework that seeks to avoid adverse reverse sensitivity effects for existing regionally significant infrastructure. One source of potential reverse sensitivity is allowing sensitive activities to establish close to existing wind farm turbines. Considers the policy intention (of avoiding reverse sensitivity effects) needs to be carried through into the rules for the General Rural Zone by requiring new sensitive activities (a defined term including dwellings) to be located a minimum distance away from existing wind turbines that will protect the amenity values of the sensitive activity. The distance should be established based on the noise contour endorsed for the resource consents for the West Wind and Mill Creek wind farms.	Amend Rule GRUZ-R18 (Construction, addition or alteration to residential buildings and structures) to include new relief sought standard GRUZ-S5 (Minimum setback for sensitive activities) as a required standard.
Fire and Emergency New Zealand	273.240	Rural Zones / General Rural Zone / GRUZ-R18	Support	Supports the rule as the addition or alteration to buildings and structures within the GRUZ are provided for as a permitted or restricted discretionary activity.	Retain GRUZ-R18 (Construction, addition, or alteration to residential buildings and structures) as notified.
Investore Property Limited	405.57	Rural Zones / General Rural Zone / GRUZ-R18	Support in part	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Retain GRUZ-R18.2 (Construction, addition or alteration to residential buildings and structures) and an amendment to remove the Design Guide as a matter of discretion and replace with specific design outcomes that are sought.
Investore Property Limited	405.58	Rural Zones / General Rural Zone / GRUZ-R18	Amend	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Amend GRUZ-R18.2 (Construction, addition or alteration to residential buildings and structures) to remove the Design Guide as a matter of discretion and replace with specific design outcomes that are sought.
Fire and Emergency New Zealand	273.240	Rural Zones / General Rural Zone / GRUZ-PRECO1-R1	Support	Supports the rule as the addition or alteration to buildings and structures within the GRUZ are provided for as a permitted or restricted discretionary activity.	Retain GRUZ-PRECO1-R1 (Construction, addition or alteration to residential buildings or structures in the Makara Beach and Makara Village Precinct) as notified.
Fire and Emergency New Zealand	273.241	Rural Zones / General Rural Zone / GRUZ-S1	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height. FENZ considers that the inclusion of an exemption for hose drying towers better provides for the health and safety of the community by enabling the efficient functioning of FENZ in establishing and operating fire stations.	Supports GRUZ-S1 (Maximum height), with amendment.
Fire and Emergency New Zealand	273.242	Rural Zones / General Rural Zone / GRUZ-S1	Amend	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height. FENZ considers that the inclusion of an exemption for hose drying towers better provides for the health and safety of the community by enabling the efficient functioning of FENZ in establishing and operating fire stations.	Amend GRUZ-S1 (Maximum height) as follows: This standard does not apply to fences or standalone walls, <u>emergency service facilities up to 9m in height and associated hose drying towers up to 15m in height.</u>

Te Marama Ltd	337.12	Rural Zones / General Rural Zone / GRUZ-S1	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend GRUZ-S1 (Maximum height) as follows: ... 3. Buildings and structures associated with rural activities - 8m <u>10m</u> ...
Te Kamaru Station Ltd Ratings	362.16	Rural Zones / General Rural Zone / GRUZ-S1	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend GRUZ-S1 (Maximum height) as follows: ... 3. Buildings and structures associated with rural activities - 8m <u>10m</u> ...
WCC Environmental Reference Group	377.419	Rural Zones / General Rural Zone / GRUZ-S1	Support	Supports providing for height limits on activities, of the type described here, and with the activity classes as described here, is suitable in the context of a rural landscape.	Retain GRUZ-S1 (Maximum height) as notified.
Ministry of Education	400.117	Rural Zones / General Rural Zone / GRUZ-S1	Support in part	Support GRUZ-S1 in part insofar as it aims to control height limits to maintain the rural amenity of the zone.	Retain GRUZ-S1 (Maximum height) with amendment.
Ministry of Education	400.118	Rural Zones / General Rural Zone / GRUZ-S1	Amend	Seeks that GRUZ-S1 be amended. The submitter seeks that a maximum building height limit is required under GRUZ-S1 for buildings and structures associated with other activities. This will support the submitter's feedback point which seeks to add a new rule for the construction, addition or alteration to buildings and structures associated with potentially compatible activities.	Amend GRUZ-S1 (Maximum height) as follows: Maximum height ... Building or structure 4. Buildings and structures associated with other activities Limit <u>8m</u>
Terawhiti Farming Co Ltd (Terawhiti Station)	411.20	Rural Zones / General Rural Zone / GRUZ-S1	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend GRUZ-S1 (Maximum height) Building or structures 3. Buildings and structures associated with rural activities - Limit - 8 <u>10m</u>
WCC Environmental Reference Group	377.420	Rural Zones / General Rural Zone / GRUZ-S2	Support	Supports providing for floor areas to the extent described here, and with the activity classes as described here, is suitable in the context of a rural landscape.	Retain GRUZ-S2 (Maximum gross floor area) as notified.
Ministry of Education	400.119	Rural Zones / General Rural Zone / GRUZ-S2	Support in part	Supports GRUZ-S2 in part insofar as it aims to maintain the rural amenity of the zone.	Retain GRUZ-S2 (Maximum gross floor area) with amendment.
Ministry of Education	400.120	Rural Zones / General Rural Zone / GRUZ-S2	Amend	Seeks that GRUZ-S2 be amended so that a maximum gross floor area is required under GRUZ-S2 for buildings and structures associated with other activities. This will support the submitter's feedback point which seeks to add a new rule for the construction, addition or alteration to buildings and structures associated with potentially compatible activities.	Amend GRUZ-S2 (Maximum gross floor areas) as follows: Building or structure <u>3. Buildings and structures associated with other activities</u> Limit <u>a. maximum gross floor area of 400m² for a single building or structure; or</u> <u>b. an aggregated total of 800m² gross floor area for all buildings and structures on the site.</u>
Rimu Architects Ltd	318.32	Rural Zones / General Rural Zone / GRUZ-S4	Support	GRUZ-S4 is supported, as it is particularly useful to have clarity on how low decks and eaves are to be treated in relation to setbacks - exclusion of decks no more than 500mm above ground and also eaves up to 600mm (as applying at b & c in the Makara Beach & Makara Village precinct) could usefully be applied generally.	Retain GRUZ-S4 (Minimum boundary setbacks for residential buildings) as notified.
WCC Environmental Reference Group	377.421	Rural Zones / General Rural Zone / GRUZ-S4	Support	Supports providing for setbacks as described here, and with the activity classes proposed, is suitable in the context of a rural landscape	Retain GRUZ-S4 (Minimum boundary setbacks for residential buildings) as notified.
WCC Environmental Reference Group	377.422	Rural Zones / General Rural Zone / GRUZ-S5	Support	Supports providing for setbacks as described here, and with the activity classes proposed, is suitable in the context of a rural landscape	Retain GRUZ-S5 (Minimum boundary setbacks for rural buildings) as notified.
Ministry of Education	400.121	Rural Zones / General Rural Zone / GRUZ-S5	Support in part	Support GRUZ-S5 in part. The submitter supports these setback standards insofar as they aim to maintain the rural amenity of the zone.	Retain GRUZ-S5 (Minimum boundary setbacks for rural buildings) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Ministry of Education	400.122	Rural Zones / General Rural Zone / GRUZ-S5	Amend	Seeks GRUZ-S5 be amended as the submitter considers that minimum boundary setbacks are required under GRUZ-S5 for buildings and structures associated with other activities. This will support the submitter's feedback point which seeks to add a new rule for the construction, addition or alteration to buildings and structures associated with potentially compatible activities.	Amend GRUZ-S5 (Minimum boundary setbacks for rural buildings) as follows: Minimum boundary setbacks for rural buildings <u>and non-residential buildings</u> ...
Fire and Emergency New Zealand	273.243	Rural Zones / General Rural Zone / GRUZ-S6	Support in part	Seeks an exemption for emergency service facilities and hose drying towers regarding height in relation to boundary standards	Supports GRUZ-S6 (Height in relation to boundary within the Makara Beach and Makara Village Precinct), with amendment.
Fire and Emergency New Zealand	273.244	Rural Zones / General Rural Zone / GRUZ-S6	Amend	Seeks an exemption for emergency service facilities and hose drying towers regarding height in relation to boundary standards	Amend GRUZ-S6 (Height in relation to boundary within the Makara Beach and Makara Village Precinct) as follows: This standard does not apply to: ... <u>x. Emergency service facilities up to 9m in height and hose drying towers up to 15m in height.</u>
WCC Environmental Reference Group	377.423	Rural Zones / General Rural Zone / GRUZ-S6	Support	Supports providing for height in relation to boundary as described here, and with the activity classes proposed, is suitable in the context of Makara beach and village.	Retain GRUZ-S6 (Height in relation to boundary within the Makara Beach and Makara Village Precinct) as notified.
Fire and Emergency New Zealand	273.245	Rural Zones / General Rural Zone / GRUZ-S7	Support in part	Considers it important that the erection of fences and walls will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Fences and walls should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ.	Support GRUZ-S7 (Fences and standalone walls), with amendment.
Fire and Emergency New Zealand	273.246	Rural Zones / General Rural Zone / GRUZ-S7	Amend	Considers it important that the erection of fences and walls will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Fences and walls should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ.	Amend GRUZ-S7 (Fences and standalone walls) as follows: 2. No fence or standalone wall, or combination of these structures, must not exceed : a. <u>Exceed</u> a maximum height of 2m above ground level where within 1m of any boundary; and b. <u>Exceed</u> the height in relation to boundary standard in GRUZ-S6; <u>and</u> c. <u>Obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut off valves, or other emergency response facilities.</u>
Te Marama Ltd	337.13	Rural Zones / General Rural Zone / GRUZ-S8	Oppose	[No specific reason given beyond decision requested - refer to original submission].	Delete GRUZ-S8 (Fencing requirements for the keeping of goats) in its entirety.
M&P Makara Family Trust	FS41.9	Rural Zones / General Rural Zone / GRUZ-S8	Oppose	There are various farming interests that must co-exist within the Rural Area, each of which can impinge on neighbouring farming rights if not carefully managed. The three main ones in Wellington's rural area into the future are traditional farming (agricultural), wind farming (renewable energy generation) and carbon farming (forestry in the ETS). Feral goats eat pasture that sheep and cattle otherwise graze and can decimate native and some exotic forestry crops especially in the establishment phase. As a result, M&P Trust supports the PDP as notified for the containment of farmed goats, and supports the culling of feral (uncontained) goats. M&P Trust also notes that where GRUZ-S8 is infringed, applicants are free to demonstrate other means of containment which satisfy the requirement.	Disallow
Royal Forest and Bird Protection Society	345.392	Rural Zones / General Rural Zone / GRUZ-S8	Support in part	Seeks controlled status where the goats are kept outside of SNAs. Within SNAs, RDA is appropriate. The matters of discretion need to refer to the ECO policies	Amend GRUZ-S8 (Fencing requirements for keeping of goats): ... Assessment criteria where the standard is infringed: 1. Whether the proposed alternative fence design or other means of containment (by enclosure or tether) will adequately contain the keeping of goats within the site. 2. <u>[Relevant ECO policies]</u>
Te Kamaru Station Ltd Ratings	362.17	Rural Zones / General Rural Zone / GRUZ-S8	Oppose	[No specific reason given beyond decision requested - refer to original submission].	Delete GRUZ-S8 (Fencing requirements for the keeping of goats) in its entirety.

Terawhiti Farming Co Ltd (Terawhiti Station)	411.22	Rural Zones / General Rural Zone / GRUZ-S8	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend GRUZ-S8 as follows: 1. All goats shall be contained within fenced areas that meet the following requirements:- a. A wire post and batten fence constructed with no internal or external stays and a minimum high-tensile 2.5mm diameter galvanised steel wire configuration as follows:- i. Nine wires, with the bottom wire placed no higher than 80mm above ground level and, above that, wires placed at the following intervals: 100, 100, 100, 110, 120, 135, 150 and 165mm. The top wire should be approximately 50mm below the top of the post; or ii. Seven wires, with the bottom wire barbed, and no higher than 80mm above ground level and, above that, wires placed at the following intervals: 100, 120, 140, 160, 210 and 250mm. The top wire should be approximately 50mm below the top of the post. An electric wire on an outrigger shall also extend for the full length of the fence; b. Posts must be at the following intervals:- i. Less than 30 degrees ground slope: 5m; ii. 20 degrees to less than 45 degrees: 4m; and iii. 45 degrees or more: 3m; c. Battens must be at 1m intervals; and d. A floodgate for any fencing crossing a waterbody that:- i. Is constructed of H3 treated 100mm x 50mm timber suspended from an overhead wire or rail in such a way that the spacings allow for the passage of water but not goats; ii. Is not constructed using wire netting; iii. Has a crossbar positioned in the top third of the structure; and iv. Is located on the downstream side of any culverted watercourse.

Commercial and Mixed use - General Points

Greater Wellington Regional Council	351.268	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Support in part	Considers the approach taken across these zones gives effect to operative RPS policy 30	Retain chapter, subject to amendments outlined in other submission points.
Greater Wellington Regional Council	351.269	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Amend	Considers for the provisions across these zones to contribute to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1. This includes (but is not limited to) urban areas that are climate resilient, contribute to the protection of the natural environment and transition to a low-emission region, are compact and well connected, support housing affordability and choice, and enable Māori to express their cultural and traditional norms.	Seeks to ensure the Commercial and Mixed-use Zone provisions have regard to the qualities and characteristics of well-functioning urban environments as articulated in Objective 22 of Proposed RPS Change 1, by including necessary objectives, policies, permitted standards and rules that provide for these qualities and characteristics.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.45	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Support	The "centres hierarchy" approach adopted by the higher order provisions of the PDP is supported, insofar as it recognises that centres can and should be the primary focal point for business activity in the District, noting the importance of supermarkets in helping to achieve prosperous centres.	Supports the Centres hierarchy, subject to amendments following the application of the proposed "centres plus" approach.
Woolworths New Zealand	359.46	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Support	The increase in intensity of the existing CMUZ land under the PDP is supported, as it is understood that the difference between the Centre Zones primarily relates to the height that is enabled in these zones.	Retain the Centre Zones as notified. [Inferred decision requested]
Woolworths New Zealand	359.47	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Amend	It is considered that the consent requirement across the CMUZ for supermarkets is not in accordance with the higher order strategic direction outlined in Objectives CEKP-O2 and CEKP-O3 where business needs are envisaged to be enabled within the CMUZ. As currently proposed, supermarkets are not permitted in any CMUZ by virtue of needing a consent for the building proper (as in, while the activity itself is permitted in all Centre zones irrespective of size, and in the Mixed-Use zone up to 1500m2 GFA, all buildings greater than 100m2 in all Centre zones and greater than 500m2 in the Mixed-Use zone need resource consent). This is at odds with the widely accepted role that supermarkets play in centres. Supermarkets act as anchor tenants, and as catalysts for investment in centres of all scales. The importance of convenient and efficient access to supermarkets as critical infrastructure or an essential service has also been recognised in other districts, most recently highlighted by the Covid-19 pandemic. [Refer to original submission for full reason]	Seeks that Commercial and Mixed-Use Zones have requirements for supermarkets that are in accordance with the higher order strategic direction outlined in Objectives CEKP-O2 and CEKP-O3 where business needs are envisaged to be enabled within these zones.
Henry Bartholomew Nankivell Zwart	378.21	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Amend	Considers that the plan should enable larger more comprehensive developments in centres.	Seeks that the plan enables larger, more comprehensive developments are needed in our centres. [Inferred decision requested].
Kāinga Ora Homes and Communities	391.501	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Amend	Considers that the Centre hierarchy should be reviewed to improve national and regional consistency and increase density and heights across the board. Centre Zoning standards should be expanded to reflect an increase in intensification anticipated in and around centres and rapid transit stops, and where necessary introduce a new chapter.	Seeks that the Centres hierarchy is reviewed to improve national and regional consistency and increase density and heights across the board.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	FS84.36	Part 3 / Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Kāinga Ora Homes and Communities	391.502	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Amend	Considers that commercial intensification provisions in the Commercial (Centres) and Mixed-Use zones should be reviewed to improve national and regional consistency and increase density and heights across the board. Centre Zoning standards should be expanded to reflect an increase in intensification anticipated in and around centres and rapid transit stops, and where necessary introduce a new chapter.	Seeks that commercial intensification provisions in the Commercial (Centres) and Mixed-Use Zones are reviewed to improve national and regional consistency and increase density and heights across the board.
Greater Wellington Regional Council	FS84.37	Part 3 / Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Kāinga Ora Homes and Communities	391.503	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Amend	Considers that new Town Centre chapter provisions should be added to the plan. [Refer to original submission, including Appendix 2]	Seeks that a Town Centre chapter is added to the Commercial and Mixed Use Zones classification.
Greater Wellington Regional Council	FS84.38	Part 3 / Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Kāinga Ora Homes and Communities	391.504	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Amend	Considers that where standards are not referenced in building and structure activity rules, an activity status should be provided for non-compliance with the standard. It is sought that this activity status in Centre Zones is a Restricted Discretionary to be consistent with the general approach throughout the Plan.	Seeks that where City Centre Zone standards are not referenced in building and structure activity rules a Restricted Discretionary activity status is provided for non-compliance with the standard, to be consistent with the general approach throughout the Plan.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.505	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Support in part	Active frontage controls are generally supported, but it is considered that they should only apply where necessary, such as along principal roads/arterials not necessary along connecting streets.	Retain active frontage control provisions with amendments.
Kāinga Ora Homes and Communities	391.506	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Support in part	The need for restrictions on the gross floor area of retail is supported, particularly within commercial (Centres) and mixed-use zones as this will ensure that there are appropriate opportunities for residential activities in these areas. However, is noted that the Integrated Retail Activity gross floor areas of 20,000m2 do not reflect the scale of the Centres hierarchy anticipated in the NPSUD and the National Planning Standards.	Retain gross floor area restrictions with amendment for Local Centre Zones and Neighbourhood Centre Zones.
Matthew Tamati Reweti	394.20	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Amend	Considers that the plan should enable larger more comprehensive developments in centres.	Seeks that the plan enables larger, more comprehensive developments are needed in our centres. [Inferred decision requested].
David Cadman	398.19	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Amend	Considers that the plan should enable larger more comprehensive developments in centres.	Seeks that the plan enables larger, more comprehensive developments are needed in our centres. [Inferred decision requested].
Investore Property Limited	405.59	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Support	Supports the provision of a range of commercial and mixed-use environments.	Not specified.
Investore Property Limited	405.60	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Support	Supports the hierarchy of centres.	Not specified.

Commercial and Mixed use - Neighbourhood Centre Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
VicLabour	414.35	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Oppose in part	Considers the 20m building depth standard in certain neighbourhood centres is too restrictive [See original submission for full reasons]	Seeks that the 20m maximum building depth standard for certain neighbourhood centres be increased.
Kirsty Woods	437.11	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Amend	Considers that intensification should occur in the suburban centre, combined with new developments in underutilised sites (for example Adelaide Road) would provide for predicted housing requirements.	Seeks that intensification is enabled around Centres and underutilised sites. [Inferred decision requested]
Daniel Christopher Murray Grantham	468.6	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Amend	Considers that larger, more comprehensive developments are needed in our centres.	Seeks that the plan enables larger, more comprehensive developments are needed in our centres. [Inferred decision requested].
Alicia Hall on behalf of Parents for Climate Aotearoa	472.21	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Amend	Considers that the plan should enable larger more comprehensive developments in centres.	Seeks that the plan enables larger, more comprehensive developments are needed in our centres. [Inferred decision requested].
Te Rūnanga o Toa Rangatira	488.78	Commercial and mixed use Zones / General point on Commercial and mixed use Zones / General point on Commercial and mixed use Zones	Amend	Concerned that the Centres and Mixed Use Design Guide is not given consideration and referred to in any relevant rules for the Commercial and Mixed Use zones	Amend appropriate parts of the Commercial and Mixed use zone rules to reflect that they will give effect to the Commercial and Mixed Use Design Guide.
Aro Valley Community Council	87.42	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Oppose	Opposes zoning of 72, 82 and 84 Aro Street as NCZ. - This residence was built to be residential, and has always been occupied as residential. - Residential properties are more needed than NZC areas in Aro Valley. - NCZ at this address could cause loss of sunlight to functioning shops/cafe/bar/restaurant on the other "sunny" side of the street will destroy the businesses and defeat the purpose of the zoning. - The height in relation to the Heritage Precinct next door is inappropriate.	Seeks that the sites at 72, 82 and 84 Aro Street are zoned Medium Density Residential Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Generation Zero	FS54.46	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Oppose	For character areas, the central test is "other" qualifying matter under clause 3.33(3) of the NPS-UD, alongside the objectives and purpose of the NPS-UD. There is an extremely high bar to creating a character area. The reduction in development capacity must be justified against the national significance of urban development and the objectives of the NPS-UD. Cities are dynamic and changeable. Indeed Wellington underwent many built changes before the currently form was locked in place by modern zoning documents. New housing and residents are a positive to encourage, rather a negative to push out further or crowd into the remaining housing stock. It is significantly more climate friendly to allow denser housing in inner-suburbs, rather than displacing development into greenfields, even accounting for embodied carbon. Character areas are in inner-city suburbs which are highly connected to amenities and already have high-mode share of low emissions transport. This land is often the most resilient. More residents can be easily absorbed in these suburbs and will create a positive impact on that suburb. The counterfactual – the status quo – is that the best quality land in the city is locked away by wealthy residents who seek to preserve an unsustainable way of life and/or their property values. This causes reduced supply and higher prices, higher rents, lower quality, displacement of low-income residents, and pushes residents to worse locations with higher lifetime emissions. The development capacity lost through character areas is extremely weighty; only very 'character' of very high quality can be justified. It must also be a site-specific analysis; the current broadbrush suburb-by-suburb analysis in the current District Plan is not allowed. The approaches advocated by the submitters is erroneous under the NPS-UD and should be rejected. Submitters cannot point to individual streets or houses they subjectively find as 'character' as this does not meet the stringent evidential requirement of clause 3.33(3). Submitters cannot request to go back to the current District Plan character areas, as these are untenable under the new NPS-UD test. Submitters cannot point to the Boffa Miskel report and adopt its recommendation. The report was written before the enactment of the NPS-UD. And, crucially, this approach begs the question of how the report fits into the NPS-UD test in clause 3.33(3). The approach in the PDP, where only contiguous and coherent pockets of high-quality character are proposed, is legal under the NPS-UD.	Disallow / Disallow the submission in full to the extent that this relates to character areas or reducing the amount of enabled housing. Reject increasing character areas in the PDP.
Tawa Business Group	107.18	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Oppose	Opposes the zoning of 105 Main Road, 107 Main Road, 109 Main Road, 111 Main Road, 113 Main Road, and 115 Main Road, Tawa as Neighbourhood Centre Zone. [Refer to original submission for full reasons].	Rezone 105 Main Road, 107 Main Road, 109 Main Road, 111 Main Road, 113 Main Road, and 115 Main Road, Tawa from Neighbourhood Centre Zone to High Density Residential Zone.
David Stevens	151.12	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Support	Supports Ngaio being a Neighbourhood Centre Zone.	Retain Ngaio being a Neighbourhood Centre Zone as notified.
Tawa Community Board	294.16	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Oppose	Opposes Neighbourhood Centre Zone at 105 - 115 Main Road, Tawa. Considers that if zoned as NCZ, 105 - 115 Main Road, Tawa they could be subject to specific controls around active frontage and non-residential activity, should the owners wish to amend their building in the future and could cause issues should they wish to sell. These properties currently contain residential-only buildings.	Opposes the zoning of 105, 107, 109, 111, 113 and 115 Main Road, Tawa as Neighbourhood Centre Zone and seeks amendment.
Roland Sapsford	305.63	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Amend	Considers that the site to the West of Aro Park being zoned NCZ allows development of an 8-storey building which would effectively remove a large amount of afternoon sun from the park.	Seeks that the site to the west of Aro Park not be classified as Neighbourhood Centre Zone. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.204	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Support	Considers policy support for retirement villages in the Neighbourhood Centre Zone is required.	<p>Add the following new policies in the Neighbourhood Centre Zone chapter and amend current objectives and policies for consistency:</p> <p><u>Provision of housing for an ageing population</u> <u>1. Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u> <u>2. Recognise the functional and operational needs of retirement villages, including that they:</u> <u>a. May require greater density than the planned urban built character to enable efficient provision of services.</u> <u>b. Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u></p> <p><u>Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the [add] zone will change over time to enable a variety of housing types with a mix of densities.</u></p> <p><u>Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within the [add] zone by providing for more efficient use of those sites.</u></p>
Retirement Villages Association of New Zealand Incorporated	350.205	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Amend	Considers policy support for retirement villages in the Neighbourhood Centre Zone is required.	<p>Add the following new policies in the Neighbourhood Centre Zone chapter and amend current objectives and policies for consistency:</p> <p><u>Provision of housing for an ageing population</u> <u>1. Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u> <u>2. Recognise the functional and operational needs of retirement villages, including that they:</u> <u>a. May require greater density than the planned urban built character to enable efficient provision of services.</u> <u>b. Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u></p> <p><u>Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the [add] zone will change over time to enable a variety of housing types with a mix of densities.</u></p> <p><u>Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within the [add] zone by providing for more efficient use of those sites.</u></p>
Waka Kotahi	370.400	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Amend	Considers the term “roading network” is used in several places, and the term is not defined. Particularly supports the provision for public transport, consideration of function of the transport network, the discouragement of carparking visible at street edge along an active frontage and the quality design outcomes.	Amend the reference to “transport network”, to ensure that it captures all transport modes.
WCC Environmental Reference Group	377.424	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Support in part	Generally supportive with some amendments specified below.	Not specified.
Kāinga Ora Homes and Communities	391.507	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Support in part	Generally supports the introduction and application of a Neighbourhood Centre Zone in the Draft District Plan. However, considers that amendments required to remove references to Design Guides. Considers that Design Guides are too broad to be used as an assessment matter. Considers that a limited range of design criteria should be utilised instead and the focus for assessment should be effects beyond those anticipated by the zone.	Retain the introduction of the Neighbourhood Centre Zone chapter and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.508	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Amend	Generally supports the introduction and application of a Neighbourhood Centre Zone in the Draft District Plan. However, considers that amendments required to remove references to Design Guides. Considers that Design Guides are too broad to be used as an assessment matter. Considers that a limited range of design criteria should be utilised instead and the focus for assessment should be effects beyond those anticipated by the zone.	Amend the third paragraph of the introduction of the Neighbourhood Centre Zone chapter as follows: High quality building design is a focus for the Neighbourhood Centres Zone. The transition to more intensive use in some neighbourhood centres will result in changes to existing amenity values in the centres and their surrounds. Consequently, redevelopment will be supported by a range of measures to promote good design and environmental outcomes, and address <u>amenity issues that are not anticipated in the zone.</u> Accordingly, most building activities will require a resource consent and an assessment against the <u>Centres and Mixed Use Design Guide key design criteria.</u> To enable intensification around existing neighbourhood centres, some of these will have increased building heights.
Willis Bond and Company Limited	416.93	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Amend	Submitter notes the effect that the more permissive medium density residential standards will have on other zones. The zones supporting higher density development have more restrictive standards than in the MRZ, creating a risk that new development is concentrated in the more permissive MRZ at the exclusion of denser zones where Council wishes to encourage greater development. The PDP should ensure that the restrictions within denser zones are not substantially more restrictive than within the MRZ [Refer to original submission for full reason].	Seeks that Council consider the relationship between the Medium Density Residential Zone and denser zones (i.e. the High Density Residential Zone, Large Lot Residential Zone, Neighbourhood Centre Zone, Local Centre one, Commercial Zone, Mixed Use Zone, Metropolitan Centre Zone and City Centre Zone) to ensure development is not unduly restricted in denser zones by greater restrictions and Council discretion.
Newtown Residents' Association	440.27	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Oppose	Considers that there is not justification for the Neighbourhood Centre in Berhampore to be up-zoned for 22m permitted heights, and several adjacent blocks for 21m heights.	Opposes the Neighbourhood City Centre Zone in Berhampore.
Foodstuffs North Island	476.11	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Support in part	Generally supports the objectives and policies for the Neighbourhood Centre Zone, and specifically supports the recognition of medium and high-density development and the enablement of a wide range of activities.	Retain the Neighbourhood Centre Zone objectives and policies, with amendments. [Inferred decision requested].
Foodstuffs North Island	476.82	Commercial and mixed use Zones / Neighbourhood Centre Zone / General NCZ	Support	Supports the Metropolitan Centre Zoning of Pak'n'Save Kilbirnie (5 Onepu Road).	Retain Metropolitan Centre Zoning of Pak'n'Save Kilbirnie (5 Onepu Road) as notified.
Retirement Villages Association of New Zealand Incorporated	350.206	Commercial and mixed use Zones / Neighbourhood Centre Zone / New NCZ	Support	Considers policy support for retirement villages in the Neighbourhood Centre Zone is required.	Add the following new policies in the Neighbourhood Centre Zone chapter and amend current objectives and policies for consistency: <u>Provision of housing for an ageing population</u> <u>1. Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u> <u>2. Recognise the functional and operational needs of retirement villages, including that they:</u> <u>a. May require greater density than the planned urban built character to enable efficient provision of services.</u> <u>b. Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u> <u>Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the [add] zone will change over time to enable a variety of housing types with a mix of densities.</u> <u>Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within the [add] zone by providing for more efficient use of those sites.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.207	Commercial and mixed use Zones / Neighbourhood Centre Zone / New NCZ	Amend	Considers policy support for retirement villages in the Neighbourhood Centre Zone is required.	<p>Add the following new policies in the Neighbourhood Centre Zone chapter and amend current objectives and policies for consistency:</p> <p><u>Provision of housing for an ageing population</u> <u>1. Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u> <u>2. Retirement Villages Association of New Zealand Incorporated	350.208	Commercial and mixed use Zones / Neighbourhood Centre Zone / New NCZ	Support	As currently drafted retirement villages would be a permitted or discretionary activity under the 'residential activities' rule of the Neighbourhood Centre Zone (NCZ-R10). Considers that the Neighbourhood Centre Zone should have a retirement village specific rule that provides for retirement villages as a permitted activity (with the construction of the retirement villages being a restricted discretionary activity under NCZ-R18). Permitted activity status recognises retirement villages are residential activities and provide substantial benefit by way of enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	<p>Add new 'Retirement villages' rule as follows:</p> <p><u>NCZ-RX Retirement villages</u> <u>1. Activity status: Permitted</u></p>
Retirement Villages Association of New Zealand Incorporated	350.209	Commercial and mixed use Zones / Neighbourhood Centre Zone / New NCZ	Amend	As currently drafted retirement villages would be a permitted or discretionary activity under the 'residential activities' rule of the Neighbourhood Centre Zone (NCZ-R10). Considers that the Neighbourhood Centre Zone should have a retirement village specific rule that provides for retirement villages as a permitted activity (with the construction of the retirement villages being a restricted discretionary activity under NCZ-R18). Permitted activity status recognises retirement villages are residential activities and provide substantial benefit by way of enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	<p>Add new 'Retirement villages' rule to the Neighbourhood Centre Zone as follows:</p> <p><u>NCZ-RX Retirement villages</u> <u>1. Activity status: Permitted</u></p>
Kāinga Ora Homes and Communities	391.509	Commercial and mixed use Zones / Neighbourhood Centre Zone / New NCZ	Amend	Considers that there is need for a new rule to allow for the construction of, or additions and alterations to residential buildings and structures as a permitted activity. Considers that NCZ-R18 does not provide for residential activities, or the standards associated.	<p>Seeks to Add the following new rule in the Neighbourhood Centres Zone chapter:</p> <p><u>NCZ-RX - The construction of, or additions and alterations to buildings and structures containing residential activities.</u> <u>1. Activity status: Permitted where:</u> <u>a. The activity is located:</u> <u>i. Above ground floor level;</u> <u>ii. At ground floor level along any street edge not identified as an active frontage; or</u> <u>iii. At ground floor level along any street edge not identified as a non-residential activity frontage; and</u> <u>iv. Complies with NCZ-R1, NCZ-R4, NCZ-S7, LCZ-S8 and LCZ-S9.</u> <u>2. Activity status: Restricted Discretionary where:</u> <u>b. Compliance with the requirements of NCZ-R10.1.a cannot be achieved.</u> <u>Matters of discretion are restricted to:</u> <u>1. The matters in NCZ-P7-P8.</u> <u>Notification status: An application for resource consent made in respect of rule NCZ-RX is precluded from being limited and publicly notified</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi NZ Transport Agency	FS103.35	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / New NCZ	Oppose	Oppose residential activities on the ground floor to support vibrant streets.	Disallow
Restaurant Brands Limited	349.57	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O1	Support	Support	Retain NCZ-O1 (Purpose) as notified.
Woolworths New Zealand	359.48	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O1	Amend	Considers that Neighbourhood Centres serve passers-by as well as their immediate residential neighbourhood. The amended wording is consistent with the current wording proposed in Policy NCZ-P2 and the proposed amendments to Objective CEKP-O2.	Amend Objective NCZ-O1 (Purpose) as follows: The Neighbourhood Centre Zone meets the needs of communities, businesses and residents in the immediate residential neighbourhood <u>and passers-by</u> in a manner that supports the City's compact urban growth objectives and its role and function in the City's hierarchy of centres.
WCC Environmental Reference Group	377.425	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O1	Support	Support objective providing for sustainable, mixed use neighbourhood zones.	Retain NCZ-O1 (Purpose) as notified.
Kāinga Ora Homes and Communities	391.510	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O1	Support	Generally supports NCZ-O1.	Retain NCZ-O1 (Purpose) as notified.
Fire and Emergency New Zealand	273.247	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O2	Support	Supports the objective as it seeks to ensure that residential and commercial growth needs are met through land specifically zoned for this purpose with the provision of adequate infrastructure for housing and business use.	Retain NCZ-O2 (Accommodating growth) as notified.
Restaurant Brands Limited	349.58	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O2	Support	Support	Retain NCZ-O2 (Accommodating growth) as notified.

Kāinga Ora Homes and Communities	391.511	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O2	Support	Generally supports NCZ-O2.	Retain NCZ-O2 (Accommodating growth) as notified.
Ministry of Education	400.123	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O2	Support in part	Supports NCZ-O2 in part.	Retain NCZ-O2 (Accommodating growth) with amendment.
Ministry of Education	400.124	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O2	Amend	Seeks NCZ-O2 be amended to explicitly recognise and provide for educational activities in the NCZ as these activities are necessary to service growth.	Amend NCZ-O2 (Accommodating growth) as follows: Accommodating growth The Neighbourhood Centre Zone has sufficient serviced, resilient development capacity <u>and additional infrastructure</u> to meet residential and commercial growth needs.
Restaurant Brands Limited	349.59	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O3	Support	Support	Retain NCZ-O3 (Amenity and design) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.210	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O3	Support in part	Considers that the current drafting of NCZ-O2 is inconsistent with Objectives 1 and 2 of the MDRS. Objectives 1 and 2 of the Act should be included in the Proposed Plan verbatim to their drafting in the MDRS. Questions what the context is in relation to contributing 'positively' to a changing and well-functioning urban environment. Considers that it is unclear what this would entail, particularly when considering that the definition of 'well functioning urban environment' consists of a list of positive / beneficial matters. Considers that it is not clear if this phrasing is stipulating that additional benefit is required in order to contribute 'positively'.	Retain NCZ-O3 (Amenity and design) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.211	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O3	Amend	Considers that the current drafting of NCZ-O2 is inconsistent with Objectives 1 and 2 of the MDRS. Objectives 1 and 2 of the Act should be included in the Proposed Plan verbatim to their drafting in the MDRS. Questions what the context is in relation to contributing 'positively' to a changing and well-functioning urban environment. Considers that it is unclear what this would entail, particularly when considering that the definition of 'well functioning urban environment' consists of a list of positive / beneficial matters. Considers that it is not clear if this phrasing is stipulating that additional benefit is required in order to contribute 'positively'.	Amend NCZ-O3 (Amenity and design) as follows: Medium density, mixed-use development is achieved that positively contributes to creating a good quality, well-functioning urban environment that reflects the changing urban form and amenity values of the Neighbourhood Centres and their surrounding residential areas.
WCC Environmental Reference Group	377.427	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O3	Support	Support objective providing for sustainable, mixed use neighbourhood zones.	Retain NCZ-O3 (Amenity and design) as notified.
Kāinga Ora Homes and Communities	391.512	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O3	Support in part	Supports NCZ-O3 but seeks a minor amendment to recognise the range of housing densities potentially enabled in the zone. Amendments sought.	Retain NCZ-O3 (Amenity and design) and seeks amendment.
Kāinga Ora Homes and Communities	391.513	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O3	Amend	Supports NCZ-O3 but seeks a minor amendment to recognise the range of housing densities potentially enabled in the zone. Amendments sought.	Amend NCZ-O3 (Amenity and design) as follows: Medium <u>to high</u> density, mixed-use development is achieved that positively contributes to creating a good quality, well-functioning urban environment that reflects the changing urban form and amenity values of the Neighbourhood Centres and their surrounding residential areas.
Restaurant Brands Limited	349.60	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O4	Support	Support	Retain NCZ-O4 (Activities) as notified.
WCC Environmental Reference Group	377.428	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O4	Support	Support objective providing for sustainable, mixed use neighbourhood zones.	Retain NCZ-O4 (Activities) as notified.
Kāinga Ora Homes and Communities	391.514	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O4	Support in part	Generally supports NCZ-O4.	Retain NCZ-O4 (Activities) as notified.
McDonald's	274.10	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P1	Support in part	Supports the objectives and policies for the Neighbourhood, Local and Metropolitan Centre zones, and specifically supports the recognition of medium and high-density development and the enablement of a wide range of activities.	Retain NCZ-P1 (Accommodating growth), subject to amendments, as outlined other submission points.
McDonald's	274.11	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P1	Amend	Submitter is opposed to the references on undermining the ongoing viability, vibrancy and primacy of the other Centre zones	Seek that NCZ-P1.1 (Accommodating growth) is amended as follows: 1. A variety of building types, sizes, tenures, affordability and distribution of a scale and intensity that does not undermine the ongoing viability and vibrancy of the Local Centre Zone and Metropolitan Centre Zone and primacy of the City Centre Zone <u>supports the purpose of the zone;</u>
Kāinga Ora – Homes and Communities	FS89.82	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P1	Oppose	Kāinga Ora considers that the scale and primacy of Centres is critical in achieving a well-functioning urban environment and intensification outcomes.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Restaurant Brands Limited	349.61	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P1	Support	Support	Retain NCZ-P1 (Accommodating growth) as notified.
Foodstuffs North Island	FS23.35	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-O1	Oppose	FSNI submission point 476.12 seeks an amendment. Submission point 349.61 seeks to retain NCZ-O1 as notified.	Disallow / Reject submission in part.
Retirement Villages Association of New Zealand Incorporated	350.212	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P1	Support	Supports NCZ-P1 and its accommodation for growth and a variety of building types, sizes, tenures, affordability, intensity, density, and efficient use of available sites.	Retain NCZ-P1 (Accommodating growth) as notified.
Kāinga Ora Homes and Communities	391.515	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P1	Support in part	Supports NCZ-P1 but seeks amendment to recognise that tenures and affordability cannot and should not be managed through the District Plan. The focus should be on providing for the level of the activity and building form that is appropriate for a Neighbourhood Centre. Amendments sought.	Retain NCZ-P1 (Accommodating growth) and seeks amendment.
Kāinga Ora Homes and Communities	391.516	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P1	Amend	Supports NCZ-P1 but seeks amendment to recognise that tenures and affordability cannot and should not be managed through the District Plan. The focus should be on providing for the level of the activity and building form that is appropriate for a Neighbourhood Centre. Amendments sought.	Amend NCZ-P1 (Accommodating growth) as follows: Provide for the use and development of the Neighbourhood Centre Zone to meet the City's needs for housing, business activities and community facilities, including: 1. A variety of building types, sizes, tenures, affordability and distribution of a scale and intensity that does not undermine the ongoing viability and vibrancy of the Local Centre Zone and Metropolitan Centre Zone and primacy of the City Centre Zone; 2. A mix of medium to high density housing; 3. Convenient access to active, public transport and rapid transit options; 4. Efficient, well integrated and strategic use of available development sites; and 5. Convenient access to a range of open spaces.
Foodstuffs North Island	476.12	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P1	Amend	Opposes the references in NCZ-P1.1. to undermining the ongoing viability, vibrancy and primacy of the other Centre zones. The Centres each fulfil a different purpose as detailed in Objective 1, and are of different scales to one another. Any development within the lower order Centres should be considered in its own right without the additional administrative burden of potentially requiring assessments of effects on the higher order Centres.	Amend NCZ-P1.1. (Accommodating growth) as follows: ... 1. A variety of building types, sizes, tenures, affordability and distribution of a scale and intensity that does not undermine the ongoing viability and vibrancy of the Local Centre Zone and Metropolitan Centre Zone and primacy of the City Centre Zone supports the purpose of the zone;
Kāinga Ora – Homes and Communities	FS89.57	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P1	Oppose	Kāinga Ora considers that the scale and primacy of Centres is critical in achieving a well-functioning urban environment and intensification outcomes.	Disallow
Ara Poutama Aotearoa the Department of Corrections	240.28	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P2	Support	Considers that community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification. The permitted activity status (enabled by the associated policies) is appropriate in the context of the current and potential future establishment and operation of a community corrections facility or facilities within these areas in Wellington City.	Retain NCZ-P2.7 (Enabled activities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.29	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P2	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain NCZ-P2.2 (Enabled activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.248	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P2	Support	Supports the policy as it makes provision for the provision of emergency service facilities within the zone. Due to urban growth, population changes and commitments to response times, FENZ may need to locate anywhere within the urban and rural environment.	Retain NCZ-P2 (Enabled activities) as notified.
Restaurant Brands Limited	349.62	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P2	Support	Support	Retain NCZ-P2 (Enabled Activities) as notified.
Woolworths New Zealand	359.49	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P2	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain NCZ-P2 (Enabled activities) as notified.
Kāinga Ora Homes and Communities	391.517	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P2	Support	Supports NCZ-P2 as it enables residential activities in the NCZ and a range of activities to support residential growth.	Retain NCZ-P2 (Enabled activities) as notified.
Ministry of Education	400.125	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P2	Support	Supports NCZ-P2 as it is important to recognise and provide for educational facilities which will service the surrounding residential catchments and other community/commercial activities.	Retain NCZ-P2 (Enabled activities) as proposed.
Restaurant Brands Limited	349.63	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P3	Support	Support	Retain NCZ-P3 (Managed Activities) as notified.
Kāinga Ora Homes and Communities	391.518	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P3	Support	Supports NCZ-P3 .	Retain NCZ-P3 (Managed activities) as notified.
Restaurant Brands Limited	349.64	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P4	Support	Support	Retain NCZ-P4 (Potentially incompatible activities) as notified.
Woolworths New Zealand	359.50	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P4	Amend	Considers that NCZ-P4 is unclear as drafted and should be amended to clarify why matters 1-4 have been included within the policy. It is considered that these clauses do not need to be incorporated into Policy NCZ-P4. Potentially incompatible activities (being activities not contemplated by the zone, or ones that infringe the zone standards) should be able to be accommodated in the zone if there is a functional and operational need and effects on the Centre are managed.	Amend NCZ-P4 (Potentially incompatible activities) as follows: Only allow activities that are potentially incompatible with the role and function of the Neighbourhood Centre Zone, where they demonstrate an operational or functional need to locate within the zone; or will not have an unacceptable adverse effect on the vibrancy and amenity of the centre: _ 1. Carparking visible at street edge along an active frontage or non-residential activity frontage; 2. Demolition of buildings that results in the creation of vacant land; 3. Ground floor residential activities on street edges identified as having an active frontage or non-residential activity frontage; and 4. Yard-based retail activities.
Waka Kotahi NZ Transport Agency	FS103.33	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P4	Oppose	The policy as drafted is considered to give greater clarity over types of activities that may not be compatible in the zone.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.429	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P4	Amend	Considers that NCZ-P4 should be amended, as it seems unduly restrictive to limit all yard-based activities in neighbourhood centre zones - garden centres and plant sales for example would seem business that would fit perfectly within neighbour centres. Having a wide range of activities in local neighbourhoods is fundamental to limiting car use and this policy may hinder creating 'walkable' neighbourhoods where people can access a full range of goods and services.	Amend NCZ-P4 (Potentially incompatible activities) as follows: Only allow activities that are potentially incompatible with the role and function of the Neighbourhood Centre Zone, where they will not have an adverse effect on the vibrancy and amenity of the centre: ... 4. Yard-based retail activities.
Kāinga Ora Homes and Communities	391.519	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P4	Support	Supports NCZ-P4.	Retain NCZ-P4 (Potentially incompatible activities) as notified.
Restaurant Brands Limited	349.65	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P5	Support	Support	Retain NCZ-P5 (Heavy industrial activities) as notified.
WCC Environmental Reference Group	377.430	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P5	Amend	Considers that NCZ-P5 should be amended as 'Avoid' is too strong and prohibitive a policy test to apply, post the NZ King Salmon case. There are easily envisaged circumstances where some activities that would fit within the heavy industrial category would fit well with a neighbourhood centre. For example small scale waste collection or recycling. As cities move towards a 'circular economy' model there will be a need for community based waste and recycling and this may prohibit such activities and raise additional barriers to sustainable waste management.	Amend NCZ-P5 (Heavy industrial activities) as follows: <u>Only allow heavy industrial activities where they will not have an adverse effect on the vibrancy and amenity of the centre.</u> Avoid heavy industrial activities from locating in the Neighbourhood Centre Zone.
Kāinga Ora Homes and Communities	391.520	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P5	Support	Supports NCZ-P5.	Retain NCZ-P5 (Heavy industrial activities) as notified.
Restaurant Brands Limited	349.66	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P6	Support	Support	Retain NCZ-P6 (Housing Choice) as notified.
Retirement Villages Association of New Zealand Incorporated	350.213	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P6	Support in part	Generally supports NCZ-P6 and its enablement of medium density residential development that offers a range of housing price, type, size and tenure that caters to various ages, lifestyles, cultures and abilities. However, it is necessary to acknowledge that each individual development will not offer a range in those matters.	Retain NCZ-P6 (Housing choice) and seeks amendment
Retirement Villages Association of New Zealand Incorporated	350.214	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P6	Amend	Generally supports NCZ-P6 and its enablement of medium density residential development that offers a range of housing price, type, size and tenure that caters to various ages, lifestyles, cultures and abilities. However, it is necessary to acknowledge that each individual development will not offer a range in those matters.	Amend NCZ-P6 (Housing choice) to read " Offers <u>Contributes</u> to a range of housing price, type, size and tenure".
Kāinga Ora Homes and Communities	391.521	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P6	Support in part	Generally supports NCZ-P6 but considers that an amendment is required to: (a) recognise the range of housing densities potentially enabled in the zone, and to recognise that tenures and affordability cannot and should not be managed through the District Plan. The focus should be on providing for the level of the activity and building form that is appropriate for a Neighbourhood Centre. And; (b) Clarify that intent of the Neighbourhood Centre zone is to enable intensification and height, and therefore medium to high-density housing is the appropriate scale of development to encourage within the Neighbourhood Centre, particularly taking account of the location of some Neighbourhood Centres adjoining High Density Residential Zones. Furthermore, high density residential development can provide for a range of housing choices in itself. This position is consistent with NCZ-P1 and NCZ-P7 and the intent of the NCZ.	Retain NCZ-P6 (Housing choice) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.522	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P6	Amend	Generally supports NCZ-P6 but considers that an amendment is required to: (a) recognise the range of housing densities potentially enabled in the zone, and to recognise that tenures and affordability cannot and should not be managed through the District Plan. The focus should be on providing for the level of the activity and building form that is appropriate for a Neighbourhood Centre. And; (b) Clarify that intent of the Neighbourhood Centre zone is to enable intensification and height, and therefore medium to high-density housing is the appropriate scale of development to encourage within the Neighbourhood Centre, particularly taking account of the location of some Neighbourhood Centres adjoining High Density Residential Zones. Furthermore, high density residential development can provide for a range of housing choices in itself. This position is consistent with NCZ-P1 and NCZ-P7 and the intent of the NCZ.	Amend NCZ-P6 (Housing choice) as follows: Enable medium <u>to high</u> density residential development that: 1. Contributes towards accommodating anticipated growth in the City; and 2. Offers a range of housing price, type, <u>and size and tenure</u> that is accessible to people of all ages, lifestyles, cultures and abilities.
Historic Places Wellington	182.30	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P7	Support	[No specific reason given - refer to original submission]	Retain NCZ-P7 (Quality design – neighbourhood and townscape outcomes) as notified. [Inferred decision requested]
Fire and Emergency New Zealand	273.249	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P7	Support in part	Supports the policy as it seeks to achieve quality design outcomes for new development in the zone. In order to achieve good quality design outcomes, which includes the provision of a safe environment and resilient urban environment, FENZ considers it critical that access for emergency service vehicles is a consideration of the design and layout of new developments. FENZ therefore seeks the inclusion of a further matter under this policy	Supports NCZ-P7 (Quality design - neighbourhood and townscape outcomes), with amendment.
Fire and Emergency New Zealand	273.250	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P7	Amend	Supports the policy as it seeks to achieve quality design outcomes for new development in the zone. In order to achieve good quality design outcomes, which includes the provision of a safe environment and resilient urban environment, FENZ considers it critical that access for emergency service vehicles is a consideration of the design and layout of new developments. FENZ therefore seeks the inclusion of a further matter under this policy	Amend NCZ-P7 (Quality design - neighbourhood and townscape outcomes) as follows: Require new development, and alterations and additions to existing development at a site scale, to positively contribute to the sense of place, quality and amenity of the Neighbourhood Centre Zone by: 1. Recognising the benefits of well-designed, comprehensive development, including the extent to which the development: ... c. Provides for the increased levels of residential accommodation enabled in this zone; and d. Provides for a range of supporting business, open space and community facilities; <u>and</u> e. <u>Is accessible for emergency service vehicles;</u>
McDonald's	274.12	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P7	Support in part	Whilst functional and operational needs are referred to within some assessment criteria, there is no correlation to any policies.	Retain NCZ-P7 (Quality design -neighbourhood and townscape outcomes), subject to amendments as outlined other submission points.
McDonald's	274.13	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P7	Amend	Whilst functional and operational needs are referred to within some assessment criteria, there is no correlation to any policies.	Seeks addition of the following to NCZ-P7 (Quality design -neighbourhood and townscape outcomes) as follows: <u>Recognise the functional and operational requirements of activities and development.</u>
Restaurant Brands Limited	349.67	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P7	Support	Support	Retain NCZ-P7 (Quality Design) as notified.
Foodstuffs North Island	FS23.36	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P7	Oppose	FSNI submission point 476.14 seeks an amendment. Submission point 349.67 seeks to retain NCZ-P7 as notified.	Disallow / Reject submission in part.
Retirement Villages Association of New Zealand Incorporated	350.215	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P7	Support in part	Supports the recognition in (1)(b) of optimising the development capacity of land and in (2)(e) of flexibility for ground floor space to be used for residential purposes.	Retain NCZ-P7 (Quality design – neighbourhood and townscape outcomes) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.431	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P7	Support	NCZ-P8 is supported as the need for, and scope of, quality design matters specified.	Retain NCZ-P7 (Quality design – neighbourhood and townscape outcomes) as notified.
Kāinga Ora Homes and Communities	391.523	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P7	Support in part	Generally supports NCZ-P7, but seeks amendment to: (a) The policy name to better reflect the intent of the policy and the subsequent wording, which seeks to manage new developments contribution to the neighbourhood and townscape; and (b) The policy wording to better recognise the NCZ rule setting and the intent of the NPS-UD (particularly Policy 6) that recognises the planned urban built form and that change to existing amenity is not in itself an adverse effect; and to simplify and clarify the neighbourhood and townscape outcomes that plan is seeking to manage.	Retain NCZ-P7 (Quality design – neighbourhood and townscape outcomes) and seeks amendment.
Kāinga Ora Homes and Communities	391.524	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P7	Amend	Generally supports NCZ-P7, but seeks amendment to: (a) The policy name to better reflect the intent of the policy and the subsequent wording, which seeks to manage new developments contribution to the neighbourhood and townscape; and (b) The policy wording to better recognise the NCZ rule setting and the intent of the NPS-UD (particularly Policy 6) that recognises the planned urban built form and that change to existing amenity is not in itself an adverse effect; and to simplify and clarify the neighbourhood and townscape outcomes that plan is seeking to manage.	Amend NCZ-P7 (Quality design – neighbourhood and townscape outcomes) as follows: Quality design – Neighbourhood and townscape outcomes Require new development, and alterations and additions to existing development at a site scale, to positively contribute to the sense of place, quality and amenity <u>planned urban built form</u> of the Neighbourhood Centre Zone by: 1. Recognising the benefits of well-designed, comprehensive development, including the extent to which the development: a. Acts as a positive catalyst for future change by reflecting <u>Reflects</u> the nature and scale of the development proposed enabled within the zone and in the vicinity, and responds to the evolving, more intensive identity of the neighbourhood; b. Optimises the development capacity of land, particularly sites that are: i. Large; or ii. Narrow; or iii. Vacant; or iv. Ground level parking areas; c. Provides for the increased levels of residential accommodation enabled in this zone; and d. Provides for a range of supporting business, open space and community facilities; 2. Ensuring that the development, where relevant: a. Responds to the site context, particularly where it is located adjacent to: ...
Wellington Heritage Professionals	412.77	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P7	Support	Supports this policy to ensure that development responds to site context, where it is located adjacent to a site of significance to Māori, heritage place or character precinct.	Retain NCZ-P7 (Quality design – neighbourhood and townscape outcomes) as notified.
Foodstuffs North Island	476.13	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P7	Support in part	Considers that whilst functional and operational needs are referred to within some assessment criteria, there is no correlation to any policies.	Retain NCZ-P7 (Quality design – neighbourhood and townscape outcomes) with amendment.
Foodstuffs North Island	476.14	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P7	Amend	Considers that whilst functional and operational needs are referred to within some assessment criteria, there is no correlation to any policies.	Amend NCZ-P7 (Quality design – neighbourhood and townscape outcomes) to include the following: Recognise the functional and operational requirements of activities and development.
Restaurant Brands Limited	349.68	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P8	Support	Support	Retain NCZ-P8 (On-site residential amenity) as notified.
WCC Environmental Reference Group	377.432	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P8	Support	NCZ-P8 is supported as the need for ensuring access to outdoor space, including private or shared communal areas is supported.	Retain NCZ-P8 (On-site residential amenity) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.525	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P8	Support in part	Supports NCZ-P8 in part subject to amendments to relevant rules being made to clarify the extent of on-site amenity requirements. Amendments to remove communal outdoor space requirements are also sought as this is already covered by reference to outdoor space generally and this could be private outdoor space.	Retain NCZ-P8 (On-site residential amenity) and seeks amendment.
Kāinga Ora Homes and Communities	391.526	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P8	Amend	Supports NCZ-P8 in part subject to amendments to relevant rules being made to clarify the extent of on-site amenity requirements. Amendments to remove communal outdoor space requirements are also sought as this is already covered by reference to outdoor space generally and this could be private outdoor space.	Amend NCZ-P8 (On-site residential amenity) as follows: Achieve a good standard of amenity for residential activities in the Neighbourhood Centre Zone by: 1. Providing residents with access to adequate outlook; and 2. Ensuring access to convenient outdoor space, including private or shared communal areas.
Restaurant Brands Limited	349.69	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P9	Support	Support	Retain NCZ-P9 (Managing adverse effects) as notified.
Retirement Villages Association of New Zealand Incorporated	350.216	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P9	Support in part	Agrees that shading, privacy, bulk and dominance effects on adjacent sites require management. However, the level of management needs to be informed by the development expectations for the zone.	Retain NCZ-P9 (Managing adverse effects) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.217	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P9	Amend	Agrees that shading, privacy, bulk and dominance effects on adjacent sites require management. However, the level of management needs to be informed by the development expectations for the zone.	Add new "role of density standards" policy into the Neighbourhood Centre Zone chapter as follows: <u>MRZ-PX Role of density standards</u> <u>Enable the density standards to be utilised as a baseline for the assessment of the effects of developments.</u>
WCC Environmental Reference Group	377.433	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P9	Support	NCZ-P9 is supported as the need for ensuring access to outdoor space, including private or shared communal areas is supported.	Retain NCZ-P9 (Managing adverse effects) as notified.
Kāinga Ora Homes and Communities	391.527	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P9	Support in part	Considers that an amendment is required to NCZ-P9 to specify that adverse effects that need consideration are those beyond what is anticipated in the zone, consistent with the proposed zone framework and in accordance with Policy 6 NPSUD.	Retain NCZ-P9 (Managing adverse effects) and seeks amendment.
Kāinga Ora Homes and Communities	391.528	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P9	Amend	Considers that an amendment is required to NCZ-P9 to specify that adverse effects that need consideration are those beyond what is anticipated in the zone, consistent with the proposed zone framework and in accordance with Policy 6 NPSUD.	Amend NCZ-P9 (Managing adverse effects) as follows: Recognise the evolving, higher density development context enabled in the Neighbourhood Centres Zone, while managing any associated adverse effects <u>beyond those anticipated within the zone</u> , including: 1. Shading, privacy, bulk and dominance effects on adjacent sites; and 2. The impact of construction on the transport network.
McDonald's	274.14	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Oppose	McDonald's is opposed to the 'City Outcomes Contributions' provisions and considers that developments that breach height standards should instead be considered on their merits and effects. The merits of a proposal should not be confined to a specified and required list.	Seeks that NCZ-P10 (City Outcomes Contributions) is deleted.
Property Council New Zealand	338.14	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Amend	Considers that incentives for large developments that can demonstrate a City Outcomes Contribution (such as priority consenting) would establish a quid pro quo system and enable growth rather than placing additional obstacles for large-scale development to occur.	Seeks that incentives be provided to encourage but not require large developments to deliver City Outcomes Contributions.
The Retirement Villages Association of New Zealand Incorporated	FS126.205	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ryman Healthcare Limited	FS128.205	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Restaurant Brands Limited	349.70	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Oppose	<p>Oppose</p> <p>The Centres and Mixed-Use Design Guide (and the associated policy and matters of discretion linkages), do not recognise or provide for the functional or operational requirements of activities.</p> <p>The Design Guide reads as a set of rules to be complied with, rather than guidelines to inform the assessment of applications for resource consent and will result in an unnecessarily onerous and unreasonable resource consent process.</p> <p>The Design Guide places unreasonable requirements on applicants on matters that are more appropriately dealt with at a national level (for example, reducing travel/shipping costs of materials to reduce carbon emissions, and installing insulation above minimum requirements). The imposition of "thresholds" for certain types of development result in a "pass/fail" assessment being applied and will result in an unnecessarily onerous and unreasonable resource consent process.</p>	<p>Amend NCZ-P10 (City outcomes contribution) as follows:</p> <p>...</p> <p>Require over height, large-scale residential, non-residential and comprehensive development in the Neighbourhood Centre Zone to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107, including through either:</p> <p>...</p> <p>2. Incorporating a level of building performance that leads to reduced carbon emissions and increased climate change resilience, and/or</p> <p>2-2. Incorporating...</p> <p>4-3. Incorporating...</p> <p>5-4. Enabling...</p>
Foodstuffs North Island	FS23.37	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Oppose	FSNI submission seeks to delete this policy in its entirety (476.15), FSNI submission 476.16 seeks that functional or operational requirements of activities and development are recognised in NCZ-P7. Submission point 349.70 just seeks to amend NCZ-P10.	Disallow / Reject submission in part.
Retirement Villages Association of New Zealand Incorporated	350.218	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Oppose	Opposes the inclusion of the City Outcomes Contribution requirements of NCZ-P10 and considers that any requirements associated with developments that are under or over height should directly relate to mitigation of potential or actual effects. Considers that the policy would create barriers that strongly conflict with the need to resolve the housing crisis and address the needs of the rapidly growing aging population.	Delete NCZ-P10 (City outcomes contribution) in its entirety.
Woolworths New Zealand	359.51	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Amend	Considers that NCZ-P10 is unclear and should be amended. Notes that the policy contains an incorrect reference to the Centres and Mixed Use Design Guide document (should be G97 as opposed to G107). A review of the guideline indicates that G97 City Outcomes Contribution is only triggered for City Centre zone developments (under or over height development comprising 50 or more units or any comprehensive development) and for over height development comprising 25 or more units or any comprehensive development in the MCZ, NCZ, LCZ and HRZ. As such, the Policy as currently drafted implies that any non-residential development in the NCZ is subject to this policy which is incorrect. The above amendment seeks to align this Policy with the Guide document.	<p>Amend NCZ-P10 (City outcomes contribution) as follows:</p> <p>Require over height, large-scale residential, non-residential and comprehensive development <u>that are over height</u> in the Neighbourhood Centre Zone to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107 <u>G97</u>, including through either:</p> <p>...</p>
Foodstuffs North Island	FS23.3	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Oppose	FSNI seeks to remove NCZ-P10 in it's entirety in submission point 476.15. Submission point 359.51 seeks to amend NCZ-P10 so opposes 476.15.	Disallow / Reject submission in part.
WCC Environmental Reference Group	377.434	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Support	NCZ-P10 is supported as the need for ensuring access to outdoor space, including private or shared communal areas is supported.	Retain NCZ-P10 (City outcomes contribution) as notified.
Kāinga Ora Homes and Communities	391.529	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Oppose in part	<p>Opposes requiring 'City Outcomes Contribution' in NCZ-P10 for the following reasons:</p> <p>(a) It is inconsistent with the current legislative framework;</p> <p>(b) Over height development should be assessed based on the potential or actual effects or the proposed infringement, as provided for by the rule framework; and</p> <p>(c) All of these activities are anticipated by the zone, and this policy has the potential to disincentivise intensified development.</p> <p>Seeks amendments to instead encourage positive outcomes of development.</p>	Opposes in part NCZ-P10 (City outcomes contribution) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
The Retirement Villages Association of New Zealand Incorporated	FS126.152	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Not specified	The RVA oppose in part the relief sought in this submission as it is inconsistent with The RVA's primary submission where The RVA sought this provision be deleted in full.	Amend / Disallow the submission point and instead grant the relief sought by The RVA.
Ryman Healthcare Limited	FS128.152	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Not specified	Ryman oppose in part the relief sought in this submission as it is inconsistent with Ryman's primary submission where Ryman sought this provision be deleted in full.	Amend / Disallow the submission point and instead grant the relief sought by Ryman.
Kāinga Ora Homes and Communities	391.530	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Amend	Opposes requiring 'City Outcomes Contribution' in NCZ-P10 for the following reasons: (a) It is inconsistent with the current legislative framework; (b) Over height development should be assessed based on the potential or actual effects or the proposed infringement, as provided for by the rule framework; and (c) All of these activities are anticipated by the zone, and this policy has the potential to disincentivise intensified development. Seeks amendments to instead encourage positive outcomes of development.	Amend NCZ-P10 (City outcomes contribution) as follows: Require over height, large scale residential, non residential and comprehensive Encourage development in the Neighbourhood Centre Zone to contribute to positive outcomes deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107, including through either: 1. Positively contributing to public space provision and the amenity of the site and surrounding area; and/or 2. Incorporating a level of building performance that leads to reduced carbon emissions and increased climate change resilience; and/or 3. Incorporating construction materials that increase the lifespan and resilience of the development and reduce ongoing maintenance costs; and/or 4. Incorporating assisted housing into the development; where this is provided, legal instruments are required to ensure that it remains assisted housing for at least 25 years; and/or 5. Enabling ease of access for people of all ages and mobility.
The Retirement Villages Association of New Zealand Incorporated	FS126.153	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Not specified	The RVA oppose in part the relief sought in this submission as it is inconsistent with The RVA's primary submission where The RVA sought this provision be deleted in full.	Amend / Disallow the submission point and instead grant the relief sought by The RVA.
Ryman Healthcare Limited	FS128.153	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Not specified	Ryman oppose in part the relief sought in this submission as it is inconsistent with Ryman's primary submission where Ryman sought this provision be deleted in full.	Amend / Disallow the submission point and instead grant the relief sought by Ryman.
Investore Property Limited	405.61	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Oppose	Considers that the 'City Outcomes Contributions' provisions are inappropriate. Specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development which he submitter considers is inappropriate. Developments that breach height standards should instead be considered on their own merits and effects. [Refer to original submission for full reason, including attachment]	Seeks deletion of NCZ-P10 (City Outcomes Contribution) in its entirety as notified.
VicLabour	414.36	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Support in part	Supportive of the inclusion of a points based system to allow developments outside of some of the rules in the PDP if they provide other benefits (the city outcomes contribution mechanism) but considers it an example of how arbitrary and excessive many of these regulations are, particularly around height and character protections.	Seeks to retain points based system to allow developments outside of some of the rules in the PDP if they provide other benefits. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fabric Property Limited	425.50	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Oppose	<p>Opposed to the 'City Outcomes Contributions' provisions, and specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development. While Fabric recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list.</p> <p>The 'City Outcomes Contributions' have the potential to act as a disincentive for development, which conflicts with the Proposed Plan strategic objectives and NPS-UD requirements of providing development capacity and providing for urban intensification. This would not achieve the aim of "density done well" as stated in the Design Guide.</p> <p>Seeks that all references to the City Outcomes Contributions be removed from the Proposed Plan and design guides.</p>	Delete NCZ-P10 (City Outcomes Contribution) in its entirety.
Foodstuffs North Island	476.15	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-P10	Oppose	<p>Opposes NCZ-P10.</p> <p>While FSNI recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list.</p> <p>The 'City Outcomes Contributions' have the potential to act as a disincentive for development, which conflicts with the PDP strategic objectives and NPS-UD requirements of providing for development capacity and urban intensification.</p>	Delete NCZ-P10 (City outcomes contribution) and consequential references in their entirety.
Restaurant Brands Limited	349.71	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R1	Support	Support	Retain NCZ-R1 (Commercial activities) as notified.
WCC Environmental Reference Group	377.435	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R1	Support	NCZ-R1 is supported as the need for ensuring access to outdoor space, including private or shared communal areas is supported.	Retain NCZ-R1 (Commercial activities) as notified.
WCC Environmental Reference Group	377.436	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R2	Support	NCZ-R2 is supported as the need for ensuring access to outdoor space, including private or shared communal areas is supported.	Retain NCZ-R2 (Community facilities) as notified.
WCC Environmental Reference Group	377.437	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R3	Support	NCZ-R3 is supported as the need for ensuring access to outdoor space, including private or shared communal areas is supported.	Retain NCZ-R3 (Educational facilities) as notified.
Ministry of Education	400.126	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R3	Support	Support NCZ-R3 as the submitter considers it is important to recognise and provide for educational facilities which will service the surrounding residential catchments and other community/ commercial activities.	Retain NCZ-R3 (Educational facilities) as notified.
WCC Environmental Reference Group	377.438	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R4	Support	NCZ-R4 is supported as the need for ensuring access to outdoor space, including private or shared communal areas is supported.	Retain NCZ-R4 (Arts, culture and entertainment activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.251	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R5	Support	Supports the rule as it permits emergency service facilities in the NCZ.	Retain NCZ-R5 (Emergency service facilities) as notified.
WCC Environmental Reference Group	377.439	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R5	Support	NCZ-R5 is supported as the need for ensuring access to outdoor space, including private or shared communal areas is supported.	Retain NCZ-R5 (Emergency service facilities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.30	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R6	Support	Considers that community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification. The permitted activity status (enabled by the associated policies) is appropriate in the context of the current and potential future establishment and operation of a community corrections facility or facilities within these areas in Wellington City.	Retain NCZ-R6 (Community corrections activities) as notified.
WCC Environmental Reference Group	377.440	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R6	Support	NCZ-R6 is supported as the need for ensuring access to outdoor space, including private or shared communal areas is supported.	Retain NCZ-R6 (Community corrections activities) as notified.
WCC Environmental Reference Group	377.441	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R7	Support	NCZ-R7 is supported as the need for ensuring access to outdoor space, including private or shared communal areas is supported.	Retain NCZ-R7 (Visitor accommodation) as notified.
WCC Environmental Reference Group	377.442	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R8	Support	NCZ-R8 is supported as the need for ensuring access to outdoor space, including private or shared communal areas is supported.	Retain NCZ-R8 (Recreational activities) as notified.
WCC Environmental Reference Group	377.443	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R9	Support	NCZ-R9 is supported as the need for ensuring access to outdoor space, including private or shared communal areas is supported.	Retain NCZ-R9 (Public transport activities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.31	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R10	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain NCZ-R10 (Residential activities) as notified.
Retirement Villages Association of New Zealand Incorporated	350.219	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R10	Oppose in part	Opposes limitations on ground level residential activities.	Opposes NCZ-R10 (Residential activities) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.220	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R10	Amend	Opposes limitations on ground level residential activities.	Seeks a retirement village specific rule.
WCC Environmental Reference Group	377.444	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R10	Support	NCZ-R10 is supported as the need for ensuring access to outdoor space, including private or shared communal areas is supported.	Retain NCZ-R10 (Residential activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.531	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R10	Support in part	Supports NCZ-R10 in part as residential activities should be enabled in Neighbourhood Centres, but seeks that: (a) The activity status for non-compliance is amended to Restricted Discretionary with preclusion for limited notification and appropriate matters of discretion are restricted to Policy 7 and 8 matters. (b) Rules related to verandah coverage are removed, as it is considered that residential activities should be provided for where verandah coverage is required, particularly when ground floor development is controlled on active frontages and non-residential activity frontages in accordance with NCZ-P4. (c) Reference to natural hazards is removed as these matters are controlled by Natural Hazard rules and the proposed wording is inconsistent with this approach and does not manage residential activity at ground-level in hazard overlay areas.	Supports in part NCZ-R10 (Residential activities) with amendments.
Kāinga Ora Homes and Communities	391.532	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R10	Amend	Supports NCZ-R10 in part as residential activities should be enabled in Neighbourhood Centres, but seeks that: (a) The activity status for non-compliance is amended to Restricted Discretionary with preclusion for limited notification and appropriate matters of discretion are restricted to Policy 7 and 8 matters. (b) Rules related to verandah coverage are removed, as it is considered that residential activities should be provided for where verandah coverage is required, particularly when ground floor development is controlled on active frontages and non-residential activity frontages in accordance with NCZ-P4. (c) Reference to natural hazards is removed as these matters are controlled by Natural Hazard rules and the proposed wording is inconsistent with this approach and does not manage residential activity at ground-level in hazard overlay areas.	Retain NCZ-R10 (Residential activities) and seeks amendment as follows: 1. Activity status: Permitted where: a. The activity is located: i. Above ground floor level; ii. At ground floor level along any street edge not identified as an active frontage; or iii. At ground floor level along any street edge not identified as a non-residential activity frontage; or iv. At ground level along any street not identified as requiring verandah coverage; or v. At ground level on any site contained within a Natural Hazard Overlay. 2. Activity status: <u>Restricted</u> Discretionary where: a. Compliance with the requirements of NCZ-R10.1 cannot be achieved. Matters of discretion are restricted to: 1. The matters in NCZ-P7-P8. Notification status: An application for resource consent made in respect of rule NCZ-R10.2.a is precluded from being <u>limited and</u> publicly notified
Waka Kotahi NZ Transport Agency	FS103.34	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R10	Oppose	Oppose residential activities on the ground floor to support vibrant streets.	Disallow
WCC Environmental Reference Group	377.445	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R11	Support	NCZ-R11 is supported as the need for ensuring access to outdoor space, including private or shared communal areas is supported.	Retain NCZ-R11 (Integrated retail activity) as notified.
Kāinga Ora Homes and Communities	391.533	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R11	Amend	Considers that the Integrated Retail Activity gross floor areas of 20,000m ² do not reflect the scale of the Centres hierarchy anticipated in the NPSUD and the National Planning Standards. In some cases, the size of the Zones would not be large enough to accommodate 20,000m ² GFA.	Seeks to reduce the Integrated Retail Activity Gross Floor Area in NCZ-R11 (Integrated retail activity) to better reflect the lower order of Neighbourhood Centres in the Centres hierarchy.
Kāinga Ora Homes and Communities	391.534	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R11	Oppose	Opposes NCZ-R11 as the provision of integrated retail up to 20,000m ² is inconsistent with the centre hierarchy across the Plan and the zones are too small to accommodate an integrated retail activity of 20,000m ² .	Delete NCZ-R13 (Carparking activities) in its entirety as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.446	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R12	Amend	Considers that NCZ-R12 is far too restrictive and should be amended. Community waste collection and recycling could be key aspects of a more sustainable 'circular' economy. Non-complying status with compulsory public notification is a major barrier to any activity. This could be a major roadblock for community waste management, small scale composting or niche recycling activities. For example it is not clear a small scale bottle recycling and cleaning business would not be caught by this rule.	Amend NCZ-R12.2 (Industrial activities) as follows: 2. Activity Status: Non-complying <u>Discretionary</u> Where: a. Compliance with the requirements of NCZ-R12.1 cannot be achieved. Notification status: An application for resource consent made in respect of rule NCZ-R12.2 a must be publicly notified.
Kāinga Ora Homes and Communities	391.535	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R12	Support	Generally supports NCZ-R12.	Retain NCZ-R12 (Industrial activities) as notified.
McDonald's	274.15	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R13	Oppose in part	Opposed to the Discretionary Activity status for car parking activities that do not comply with the permitted activity requirements.	Retain NCZ-R13.2 (Carparking activities), subject to amendment outlined other submission points.
McDonald's	274.16	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R13	Amend	Opposed to the Discretionary Activity status for car parking activities that do not comply with the permitted activity requirements.	Amend NCZ-R13.2 (Carparking activities) as follows: ... 2. Activity status: Discretionary <u>Restricted Discretionary</u> Where: a. Compliance with the requirements of NCZ-R13.1.a cannot be achieved.
Woolworths New Zealand	359.52	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R13	Amend	Considers that NCZ-R13 should be amended so that the activity status of this standard infringement is changed to restricted discretionary. It is considered that this status, plus the suggested matters of discretion, will ensure an appropriate assessment of effects is undertaken, whilst providing a level of certainty to applicants that where activities are anticipated, such assessments will be rational and streamlined. Supermarkets often require car parking to be visible, both from commercial viability perspective but also given the requirements to separate loading and servicing activities from public interfaces. This site layout requires that loading is located to the rear of a store, with the building in front and the entrance accessible and legible from the car park and street frontage. The application of blanket urban design ideals in these standards is challenged such that the proposed amendment seeks to explicitly exclude supermarkets from complying with this standard.	Amend NCZ-R13 (Carparking activities) as follows: ... 2. Activity Status: <u>Restricted</u> Discretionary Where: a. Compliance with the requirements of NCZ-R13.1.a is not achieved. <u>Matters of discretion are:</u> <u>1. The matters in NCZ-P2, NCZ-P3, NCZ-P4, NCZ-P7, NCZ-P9 and NCZ-P10;</u> <u>2. The cumulative effect of the development on:</u> <u>a. The ongoing viability and vibrancy of the Zone ;</u> <u>b. The safety and efficiency of the transport network, including providing for a range of transport modes;</u> <u>c. The hierarchy of roads, travel demand or vehicle use; and</u> <u>3. The compatibility with other activities provided for in the zone.</u> <u>Note: Rule NCZ-R13 does not apply to new supermarkets or additions to existing supermarkets.</u>
Foodstuffs North Island	FS23.4	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R13	Support	Submission point 359.52 supports submission points 476.16 and 476.17.	Allow / Allow submission in part.
Greater Wellington Regional Council	FS84.106	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R13	Oppose	Greater Wellington oppose this submission point. A "discretionary" activity status provides necessary controls for carparking activities which align with the direction of Proposed RPS Change 1, including objectives CC.1 and CC.3, and policies CC.1, CC.3 and CC.9.	Disallow / Seeks that the provisions be retained as notified and support provisions that support active transport nodes.

Waka Kotahi NZ Transport Agency	FS103.36	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R13	Oppose	Space in the centres is valuable, but the use of that space can have a wide range of effects (negative and positive), including on the character, perceptions of safety, road user behaviour, walkability and choice of transport mode. It is considered appropriate that non-compliant car parking provision consider a wide range of effects.	Disallow
Kāinga Ora Homes and Communities	391.536	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R13	Support	Generally supports NCZ-R13.	Retain NCZ-R13 (Carparking activities) as notified.
Foodstuffs North Island	476.16	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R13	Oppose	Opposes the Discretionary Activity status in NCZ-R13 for car parking activities that do not comply with the Permitted Activity requirements.	Amend NCZ-R13 (Carparking activities) as follows: ... 2. Activity status: Discretionary <u>Restricted Discretionary</u> ...
Foodstuffs North Island	476.17	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R13	Amend	Opposes the Discretionary Activity status in NCZ-R13 for car parking activities that do not comply with the Permitted Activity requirements.	Amend NCZ-R13 (Carparking activities) as follows: ... 2. Activity status: Discretionary <u>Restricted Discretionary</u> ...
Greater Wellington Regional Council	FS84.105	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R13	Oppose	Greater Wellington oppose this submission point. A "discretionary" activity status provides necessary controls for carparking activities which align with the direction of Proposed RPS Change 1, including objectives CC.1 and CC.3, and policies CC.1, CC.3 and CC.9	Disallow / Seeks that the provisions be retained as notified and support provisions that support active transport nodes.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.147	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R14	Support in part	NCZ-R14 is supported in so much as the rule provides for yard-based retail activities as a discretionary activity. It is understood that an application for resource consent made in respect of this rule, however, must be publicly notified in accordance with the Notification Status. [Submitter identified NCZ-R15 (All other activities) instead of NCZ-R14 (Yard-based retailing activities); submission points have been changed to refer to NCZ-R14]	Retain NCZ-R14 (Yard-based retailing activities) with amendment.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.148	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R14	Amend	Considers that NCZ-R14 should be amended as the notification requirement is not supported as it may have a range of unintended outcomes. For instance, without clarification, it may require public notification for any operational change, upgrading or maintenance to an existing yard-based activity where public notification would be more appropriately determined through standard notification tests. It may therefore also discourage existing activities from undertaking important maintenance and upgrades, for instance, to meet requirements of HSNO / HSWA legislation, better accord with good practise, introduce new technologies, or necessary changes to meet demand. Ongoing operation, maintenance, and upgrades of existing service stations / yard-based retail activities should not be subject to this notification requirement, which is not appropriate for existing lawful activities. It is considered that an additional exclusion to the notification status is appropriate only where the existing or new activity is located on the edge of the zone or adjacent to an arterial or collector road. These locations and/or interfaces do not have, nor should they expect, the same urban design outcomes and levels of visual amenity compared to a centrally located site in the CCZ for example. A service station, for example, would not impact the function and vitality of a centre zone if it were located on the edge of the zone where it can appropriately transition to the adjoining zone.	Amend NCZ-R14 (Yard-based retailing activities) as follows: Notification Status: An application for resource consent made in respect of rule NCZ-R14 must be publicly notified <u>except</u> : <u>a. The activity relates to the maintenance, operation and upgrading of an existing activity;</u> <u>b. The new or existing activity adjoins another commercial zone, a residential zone or an arterial or collector Road.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.447	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R14	Amend	Considers that NCZ-R14 should be amended, as it seems unduly restrictive to limit all yard-based activities in neighbourhood centre zones - garden centres and plant sales for example would seem business that would fit perfectly within neighbour centres. Having a wide range of activities in local neighbourhoods is fundamental to limiting car use and this policy may hinder creating 'walkable' neighbourhoods. It may even be appropriate to have some permitted activity rules for some yard based activities - for example a small garden centre. Drafting for this Rule is not specifically provided but it is considered this should be reconsidered as the 50% total area yard restriction appears to catch a wide range of activities, many of which may be appropriate and should be permitted in neighbourhood centres.	Amend NCZ-R14 (Yard-based retailing activities) as follows: 1. Activity status: <u>Restricted</u> Discretionary <u>Matters of discretion are:</u> <u>The matters in NCZ-P1, NCZ-P2, NCZ-P3, and NCZ-P4;</u> Notification status: An application for resource consent made in respect of rule LCZ-R14 must be publicly notified.
Kāinga Ora Homes and Communities	391.537	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R14	Support	Generally supports NCZ-R14.	Retain NCZ-R14 (Yard-based retailing activities) as notified.
Fire and Emergency New Zealand	273.252	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R16	Support	Supports the rule as the demolition or removal of buildings and structures within the NCZ is a permitted activity.	Retain NCZ-R16 (Maintenance and repair of buildings and structures) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.53	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R18	Amend	Considers that NCZ-R18 should be amended so that permitted activities include a baseline for supermarket operations within the NCZ that is greater than the current threshold of 100m ² for new buildings on account of the general operational requirements of the stores. This proposed baseline of 450m ² aligns with the Auckland Unitary Plan provisions in the Neighbourhood Centre zone and is considered a commensurate response given the typical scale of supermarket buildings.	Amend NCZ-R18.1 (Construction of, or additions and alterations to, buildings and structures) as follows: 1. Activity status: Permitted b. The construction of any building or structure: i. Is not located on a site with an active frontage or non-residential activity frontage; or ii. Is not visible from a public space; and iii. Will have a gross floor area of less than 100m ² <u>except where specified in iv below</u> ; and iv. <u>Will have a gross floor area of less than 450m² where it accomodates a supermarket</u> ; and iv. Will result in a total coverage (together with other buildings) of no more than 20 percent of the site; and vi. Comply with effects standards NCZ-S1, NCZ-S2, NCZ-S3, NCZ-S4, NCZ-S5 and NCZ-S6; and vii. Does not involve the construction of a new building for residential activities.
Woolworths New Zealand	359.54	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R18	Amend	Considers that NCZ-R18 restricted discretionary activities should exclude new supermarket buildings. There are concerns around the inclusion of the Centres and Mixed Use Design Guide within these matters of discretion on account of the unnecessary scope this introduces in a restricted discretionary consenting framework. As such, it is specifically sought that that this is excluded from the matters of discretion for new supermarket buildings.	Amend NCZ-R18.2 (Construction of, or additions and alterations to, buildings and structures) as follows: 1. Activity status: Restricted Discretionary Where: 1. Compliance with any of the requirements of NCZ-R18.1 cannot be achieved. Matters of discretion are: 1. The matters in NCZ-P6, NCZ-P7, NCZ-P8, NCZ-P9 and NCZ-P10, <u>excluding for supermatkets exceeding NCZ-R18 (b)(iv)</u> ; 2 <u>2. For supermarkets exceeding NCZ-R18(b)(iv), the matters in NCZ-P3, NCZ-P4, NCZ-P7, NCZ-P9;</u> 3 <u>3. The extent and effect of non-compliance with any relevant standard as specified in the associated assessment criteria for the infringed standard;</u> 4 <u>4. The Centres and Mixed-Use Design Guide, including guideline G107 97 - City Outcomes Contribution for any building that exceeds the maximum height limit requirement at Ngaio, Berhampore and Aro Valley centres and either comprises 25 or more residential units or is a non-residential building (excluding supermarkets);</u> 5 <u>5. The Residential Design Guide;</u> 6 <u>6. The extent and effect of any identifiable site constraints;</u> 7 <u>7. Construction impacts on the transport network; and</u> 8 <u>8. The availability and connection to existing or planned three waters infrastructure.</u>
Kāinga Ora Homes and Communities	391.541	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R18	Support in part	Supports NCZ-R18 in part, but seeks: (a) amendments to remove direct reference to the design guide and to instead rely on the urban design outcomes that are outlined by the policy references and amended standards, and (b) to remove reference to the "City Outcomes Contribution" as this will unduly limit intensive development and height infringements should be assessed on its effects as provided for under the Resource Management Act, instead reference to NCZ-P10 in the matters of discretion is sufficient.	Retain NCZ-R18 (Construction of, or additions and alterations to, buildings and structures) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.542	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R18	Amend	Seeks: (a) amendments to remove direct reference to the design guide and to instead rely on the urban design outcomes that are outlined by the policy references and amended standards, and (b) to remove reference to the “City Outcomes Contribution” as this will unduly limit intensive development and height infringements should be assessed on its effects as provided for under the Resource Management Act, instead reference to NCZ-P10 in the matters of discretion is sufficient.	Amend NCZ-R18 (Construction of, or additions and alterations to, buildings and structures) as follows: 1. Activity status: Permitted where: a. Alterations or additions to a building or structure: ... iii. Do not result in the creation of new residential units; and ... b. The construction of any building or structure: ... <u>vii. any building for residential activities complies with effects standards NCZ-S7 and NCZ-S8.</u> 2. Activity status: Restricted Discretionary where: a. Compliance with any of the requirements of NCZ-R18.1 cannot be achieved. Matters of discretion are: ... 3. The Centres and Mixed Use Design Guide, including guideline G107 – City Outcomes Contribution for any building that exceeds the maximum height limit requirement at Ngaio, Berhampore and Aro Valley centres and either comprises 25 or more residential units or is a non-residential building; 4. The Residential Design Guide; 53. The extent and effect of any identifiable site constraints; 64. Construction impacts on the transport network; and 75. The availability and connection to existing or planned three waters infrastructure. Notification status: An application for resource consent made in respect of rule NCZ-R18.2.a that complies with both NCZ-S3, NCZ-S7, and NCZ-S8, NCZ-S9, NCZ-S10 and NCZ-S11 is precluded from being either publicly or limited notified. ...
Investore Property Limited	405.62	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R18	Support in part	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Retain NCZ-R18.2 (Construction of, or additions and alterations to, buildings and structures) and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.83	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R18	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA’s primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA’s primary submission.
Ryman Healthcare Limited	FS128.83	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R18	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman’s primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman’s primary submission.
Investore Property Limited	405.63	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R18	Amend	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Amend NCZ-R18.2 (Construction of, or additions and alterations to, buildings and structures) to remove the Design Guide as a matter of discretion and replace with specific design outcomes that are sought.

Fabric Property Limited	425.51	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R18	Amend	<p>Opposed to the 'City Outcomes Contributions' provisions, and specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development. While Fabric recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list.</p> <p>The 'City Outcomes Contributions' have the potential to act as a disincentive for development, which conflicts with the Proposed Plan strategic objectives and NPS-UD requirements of providing development capacity and providing for urban intensification. This would not achieve the aim of "density done well" as stated in the Design Guide.</p> <p>Seeks that all references to the City Outcomes Contributions be removed from the Proposed Plan and design guides.</p>	<p>Amend NCZ-R18.2.3 (City Outcomes Contribution) as follows:</p> <p>...</p> <p>2. The Centres and Mixed Use Design Guide, including guideline G107 – City Outcomes Contribution for any building that exceeds the maximum height limit requirement at Ngaio, Berhampore and Aro Valley centres and either comprises 25 or more residential units or is a non-residential building;</p> <p>...</p>
Fire and Emergency New Zealand	273.255	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R19	Support in part	Supports the rule as the matters of discretion for these restricted discretionary activities include consideration of the availability and connection to existing or planned three waters infrastructure, particularly where this may involve the conversion of non-habitable rooms to residential use. A minor amendment is however sought to include the necessity to connect to three waters infrastructure including for the purposes of firefighting.	Supports NCZ-R19 (Conversion of buildings or parts of buildings for residential activities), with amendment.
Fire and Emergency New Zealand	273.256	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R19	Amend	Supports the rule as the matters of discretion for these restricted discretionary activities include consideration of the availability and connection to existing or planned three waters infrastructure, particularly where this may involve the conversion of non-habitable rooms to residential use. A minor amendment is however sought to include the necessity to connect to three waters infrastructure including for the purposes of firefighting.	<p>Amend NCZ-R19 (Conversion of buildings or parts of buildings for residential activities) as follows:</p> <p>Matters of discretion are:</p> <ol style="list-style-type: none"> 1. The matters in NCZ-P1, NCZ-P3, NCZ-P6 and NCZ-P8; 2. The extent of compliance with standards NCZ-S7, NCZ-S8 and NCZ-S9 and satisfaction of associated assessment criteria; 3. The Residential Design Guide; and 4. The availability and connection to existing or planned three waters infrastructure, <u>including for firefighting purposes.</u>
Kāinga Ora Homes and Communities	391.543	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R19	Support in part	Supports NCZ-R19 in part, and particularly supports the preclusion of public and limited notification. Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Fire and Emergency New Zealand	273.257	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R20	Support in part	Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Supports NCZ-R20 (Outdoor storage areas), with amendment.
Fire and Emergency New Zealand	273.258	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-R20	Amend	Considers it important that screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Amend NCZ-R20 (Outdoor storage areas) as follows: Activity status: Permitted Where: a. The storage area is screened by either a fence or landscaping of 1.8m in height from any adjoining road or site. <u>b. Screening does not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves, or other emergency response facilities.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
David Stephen	82.6	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Amend	Considers that the 22m maximum height limit in the Centres zones should be reduced.	Seeks that the 22m minimum height for Height Control Area 2 at NCZ-S1 (Minimum building height) is reduced.
David Stevens	151.13	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend NCZ-S1 (Maximum Height) so that the Ngaio Centre has a height limit of 11m. [Inferred decision requested].
David Stevens	151.14	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Amend	[No specific reason given beyond decision requested - refer to original submission]. Access for deliveries to local businesses is already constrained in Khandallah Village limiting any scope for expansion.	Amend NCZ-S1 (Maximum Height) so that the Khandallah Centre (rezoned as a NCZ) has a height limit of 11m. [Inferred decision requested].
Wellington City Council	266.154	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Amend	Considers there needs to be an increase in the height of the neighbourhood centre on the corner of Mersey Street and The Parade, Island Bay shops from 12m to 14m. This is because the PDP building neighbourhood centre heights are lower than the surrounding residential areas (14m). This is inconsistent with the approach taken to building heights in other centres and adjoining residential areas.	Amend NCZ-S1 (Maximum Height) as per table included in full submission. [Refer to original submission for table version of amendment sought]
Fire and Emergency New Zealand	273.259	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Supports NCZ-S1 (Maximum height), with amendment.
Fire and Emergency New Zealand	273.260	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Amend	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Amend NCZ-S1 (Maximum height) as follows: This standard does not apply to: ... c. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height by more than 1m; and d. Lift overruns provided these do not exceed the height by more than 4m; <u>and</u> e. <u>Hose drying towers up to 15m in height.</u>
Onslow Residents Community Association	283.11	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Oppose	Considers that the 22m height limit is not appropriate for the Khandallah centre.	Opposes NCZ-S1 (Maximum Height) with respect to Khandallah being in Height Control Area 2 (22m).
Onslow Residents Community Association	283.12	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Amend	Considers that the 22m height limit is not appropriate for the Khandallah centre.	Seeks that Khandallah Centre is moved to Height Control Area 1 (12m) under NCZ-S1 (Maximum height).
James Coyle	307.21	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain NCZ-S1 (Maximum height) as notified.
Restaurant Brands Limited	349.75	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Support	Support	Retain NCZ-S1 (Maximum height) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.545	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Support in part	Generally supports NCZ-S1 particularly as it enables six storey development in a number of centres. However, seeks amendment to enable fence heights of up to 2 metres to align with the Building Act.	Retain NCZ-S1 (Maximum Height) and seeks amendment.
Kāinga Ora Homes and Communities	391.546	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Amend	Generally supports NCZ-S1 particularly as it enables six storey development in a number of centres. However, seeks amendment to enable fence heights of up to 2 metres to align with the Building Act.	Amend NCZ-S1 (Maximum Height) as follows: ... 2. Fences and standalone walls must not exceed a maximum height of 1.8 2 metres (measured above ground level).
Rachel Underwood	458.9	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S1	Oppose	Opposes the provision to allow six-storey buildings considering that it will result in cold, sunless, wind canyons.	Amend NCZ-S1 (Maximum Height) to retain existing low-rise or one-level buildings adjacent to the roadside with three-storey (or six-storey) buildings set back.
McDonald's	274.17	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S2	Oppose	Considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete NCZ-S2 (Minimum building height) in its entirety.
Restaurant Brands Limited	349.76	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S2	Oppose	Oppose There are many buildings with a height less than the required minimum that will contribute positively to a well-functioning urban environment. The proposed standard will result in too many buildings requiring resource consent and is not an efficient or effective method to implement the policies of the Proposed District Plan.	Delete NCZ-S2 (Maximum building height) in its entirety.
Foodstuffs North Island	FS23.38	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S2	Support	Submission point 349.76 supports FSNI submission point 476.18.	Allow
Woolworths New Zealand	359.55	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S2	Oppose	NCZ-S2 is opposed in its entirety and should be deleted, as it seeks to impose minimum building heights in the Neighbourhood and Local Centre zones of 7m. This requirement is overly prescriptive and unnecessary and should be deleted. The standard is overly onerous, when the PDP should be promoting development in the Centres. If this is to be retained in some degree, it should be refined to be a building frontage height standard and limited to specified streets as identified on the planning maps to achieve centre vibrancy and amenity.	Delete NCZ-S2 (Minimum building height) in its entirety.
Foodstuffs North Island	FS23.5	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S2	Support	Submission point 359.55 supports FSNI submission point 476.18.	Allow
Kāinga Ora Homes and Communities	391.547	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S2	Support	Generally supports NCZ-S2.	Retain NCZ-S2 (Minimum building height) as notified.
Foodstuffs North Island	476.18	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S2	Oppose	Whilst supportive of certain bulk and location standards in the Commercial and Mixed Use zones, considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete NCZ-S2 (Minimum building height) in its entirety.
McDonald's	274.18	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S3	Oppose	Considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete NCZ-S3 (Minimum ground floor height) in its entirety.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Restaurant Brands Limited	349.77	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S3	Oppose	Oppose Opposed to the minimum floor-to-floor ceiling heights for new development. The standard is overly prescriptive, does not provide for the specific requirements of drive-through facilities, and is unworkable from an operational perspective, and will only serve to increase the cost and/or regulatory processes of the development.	Delete NCZ-S3 (Minimum ground floor height) in its entirety.
Foodstuffs North Island	FS23.39	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S3	Support	Submission point 349.77 supports FSNI submission point 476.19.	Allow
Kāinga Ora Homes and Communities	391.548	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S3	Support	Generally supports NCZ-S3.	Retain NCZ-S3 (Minimum ground floor height) as notified.
Foodstuffs North Island	476.19	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S3	Oppose	Whilst supportive of certain bulk and location standards in the Commercial and Mixed Use zones, considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete NCZ-S3 (Minimum ground floor height) in its entirety.
Fire and Emergency New Zealand	273.261	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S4	Support in part	Seeks an exemption for emergency facilities and associated hose drying towers as noted in above submission point.	Supports NCZ-S4 (Height in relation to boundary), with amendment.
Fire and Emergency New Zealand	273.262	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S4	Amend	Seeks an exemption for emergency facilities and associated hose drying towers as noted in above submission point.	Amend NCZ-S4 (Height in relation to boundary) as follows: These standards do not apply to: ... c. Solar power and heating components attached to a building provided these do not exceed the height in relation to boundary by more than 500mm; and d. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height in relation to boundary by more than 3m measured vertically; and <u>e. Emergency facilities up to 9m in height and associated hose drying towers up to 15m in height.</u>
Restaurant Brands Limited	349.78	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S4	Support	Support	Retain NCZ-S4 (Height in relation to boundary) as notified.
Kāinga Ora Homes and Communities	391.549	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S4	Support	Generally supports NCZ-S4.	Retain NCZ-S4 (Height in relation to boundary) as notified.
Restaurant Brands Limited	349.79	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S5	Support	Support	Retain NCZ-S5 (Verandah control) as notified.
McDonald's	274.19	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Oppose in part	Considers that the standards on active frontage and non-residential activity frontage controls in Centres and Mixed Use Zones are overly prescriptive.	Retain NCZ-S6 (Active frontage and non-residential activity frontage controls), subject to amendment outlined other submission points.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
McDonald's	274.20	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Amend	Considers that centres and commercial areas have a mixture of street typologies. Most have at least one main shopping street and while it is appropriate that these streets have high levels of activation, there are secondary frontages or streets are less important retail streets and have lower levels of pedestrian activity. It would be more appropriate to streamline the standards with portions instead included within the Design Guidance and/or as matters of discretion.	Amend NCZ-S6 (Active frontage and non-residential activity frontage controls) as follows: 1. Dwellings must not locate on the ground floor of Any new building or addition to an existing building on an identified street with an active frontage or a non-residential activity frontage control for any new building, or ground level addition or alteration to an existing building. must: a. Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary; b. Provide a minimum of 60% of continuous display windows or transparent glazing along the width of the ground floor building frontage; and c. Locate the principal public entrance on the front boundary; 2. Any <u>new building or ground level addition to, or alteration of, a building or structure facing a public space must not result in a featureless façade that:</u> a. Is more than 4 <u>3</u> metres wide; and b. Extends from a height of 1m above ground level to a maximum height of 2.5m; <u>and</u> <u>c. Any roller shutter doors, security grilles, screens or similar structures fitted to the facade of any building must be at least 50% visually transparent.</u> 3. Any roller shutter doors, security grilles, screens or similar structures fitted to the facade of any building must be at least 50% visually transparent; and 4. Any new building or addition to an existing building on a site with a non-residential activity frontage control must: a. Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary; and b. Locate the principal public entrance on the front boundary.
The Retirement Villages Association of New Zealand Incorporated	FS126.178	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission. The RVA considers that residential activities, including retirement villages, should be permitted at ground floor.	Disallow
Ryman Healthcare Limited	FS128.178	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission. Ryman considers that residential activities, including retirement villages, should be permitted at ground floor.	Disallow
Restaurant Brands Limited	349.80	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Support	Support	Retain NCZ-S6 (Active frontage and non-residential activity frontage controls) as notified.
Foodstuffs North Island	FS23.40	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Oppose	Submission point 349.80 seeks to retain NCZ-S6 as notified. FSNI submission point 476.20 - 476.21 seeks this standard is amended.	Disallow / Reject submission in part.
Woolworths New Zealand	359.56	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Support in part	The restricted discretionary activity status to infringe the active frontage standards of MCZ-S6, NCZ-S6, and LCZ-S6 is supported. Notwithstanding, it is noted that supermarkets are unlikely to comply with these standards in any circumstance (being built up to the street edge on all street boundaries; a minimum of 60% of continuous display windows or transparent glazing along the width of the ground floor building frontage; 50% visually transparent shutter doors), owing to genuine operational reasons. Whilst Woolworths acknowledges that the assessment criteria associated with the standard enable the consideration of those operational and functional needs, the standard represents another circumstance whereby consents would always be required for supermarkets, despite supposedly being encouraged with the relevant CMUZ.	Retain NCZ-S6 (Active frontage and non-residential activity frontage controls) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Foodstuffs North Island	FS23.6	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Support	Submission point 359.56 partly supports FSNI submission points 476.20 and 476.21.	Allow / Allow submission in part.
Woolworths New Zealand	359.57	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Oppose in part	Opposes the application of the standard to new or extended supermarkets.	Oppose in part NCZ-S6 (Active frontage and non-residential activity frontage controls) and request amendment.
Foodstuffs North Island	FS23.7	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Support	Submission point 359.57 partly supports FSNI submission point 476.20 and 476.21.	Allow / Allow submission in part.
Woolworths New Zealand	359.58	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Amend	<p>Considers that supermarkets are unlikely to comply with the restricted discretionary standards of NCZ-S6 in any circumstance, owing to genuine operational reasons.</p> <p>While the assessment criteria associated with the standard enable the consideration of those operational and functional needs, the standard represents another circumstance whereby consents would always be required for supermarkets, despite supposedly being encouraged with the relevant CMUZ. This standard should be amended to not apply to new or extended supermarkets. The restricted discretionary activity status to infringe this standard is supported.</p>	<p>Amend NCZ-S6 (Active frontage and non-residential activity frontage controls) as follows:</p> <ol style="list-style-type: none"> Any new building or addition to an existing building (<u>excluding new supermarkets or additions to an existing supermarket</u>) on an identified street with an active frontage must: <ol style="list-style-type: none"> Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary; Provide a minimum of 60% of continuous display windows or transparent glazing along the width of the ground floor building frontage; and Locate the principal public entrance on the front boundary; Any ground level addition to, or alteration of, a building or structure facing a public space must not result in a featureless façade that: <ol style="list-style-type: none"> is more than 3 metres wide; and extends from a height of 1m above ground level to a maximum height of 2.5m; Any roller shutter doors, security grilles, screens or similar structures fitted to the facade of any building <u>on a site located on an identified street with an active frontage</u> must be at least 50% visually transparent; and Any new building or addition to an existing building (<u>excluding new supermarkets or additions to an existing supermarket</u>) on a site with a non-residential activity frontage control must: <ol style="list-style-type: none"> Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary; and Locate the principal public entrance on the front boundary.
Foodstuffs North Island	FS23.8	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Support	Submission point 359.58 partly supports FSNI submission point 476.20 and 476.21.	Allow / Allow submission in part.
Kāinga Ora Homes and Communities	391.550	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Amend	<p>Considers that NCZ-S6 should be amended so that active frontage controls only apply where necessary, such as along principal roads/arterials not necessary along connecting streets. Only buildings that are located along any street edge should be controlled, rather than buildings on the whole site where an active frontage applies. Active frontage controls on streets and buildings where these matters do not apply should be deleted.</p> <p>These amendments recognise that active frontage controls are useful to achieve well-functioning urban environments where they are specifically applied on key roads where character and amenity values anticipated by underlying zoning are present.</p>	Amend NCZ-S6 (Active frontage and non-residential activity frontage controls) to only apply for buildings that are located along principal roads/arterials and along any street edge.
Kāinga Ora Homes and Communities	391.551	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Support	Generally supports NCZ-S6.	Retain NCZ-S6 (Active frontage and non-residential activity frontage controls) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Foodstuffs North Island	476.20	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S6	Oppose in part	<p>Whilst supportive of certain bulk and location standards in the Commercial and Mixed Use zones, considers that the standards on active frontage and non-residential activity frontage controls are overly prescriptive.</p> <p>In FSNI's experience, centres and commercial areas have a mixture of street typologies. Most have at least one main shopping street and while it is appropriate that these streets have high levels of activation, there are secondary frontages or streets are less important retail streets and have lower levels of pedestrian activity.</p> <p>Considers that it would be more appropriate to streamline the standards with portions instead included within the Design Guidance and/or as matters of discretion.</p>	<p>Amend NCZ-S6 (Active frontage and non-residential activity frontage controls) as follows:</p> <ol style="list-style-type: none"> Dwellings must not locate on the ground floor of Any new building or addition to an existing building on an identified street with an active frontage or a non-residential activity frontage control for any new building, or ground level addition or alteration to an existing building, must: <ol style="list-style-type: none"> Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary; Provide a minimum of 60% of continuous display windows or transparent glazing along the width of the ground floor building frontage; and Locate the principal public entrance on the front boundary; Any new building or ground level addition to, or alteration of, a building or structure facing a public space must not result in a featureless façade that: <ol style="list-style-type: none"> Is more than 4 metres wide; and Extends from a height of 1m above ground level to a maximum height of 2.5m; and Any roller shutter doors, security grilles, screens or similar structures fitted to the facade of any building must be at least 50% visually transparent. Retirement Villages Association of New Zealand Incorporated	350.223	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S8	Oppose in part	Considers retirement villages should be excluded from this standard as in the MRZ and HRZ zones.	Opposes NCZ-S8 (Residential – outdoor living space) and seeks amendment.								
Retirement Villages Association of New Zealand Incorporated	350.224	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S8	Amend	Considers retirement villages should be excluded from this standard as in the MRZ and HRZ zones.	Amend NCZ-S8 (Residential – outdoor living space) to exclude retirement villages.								

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.554	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S8	Support	Generally supports NCZ-S8.	Retain NCZ-S8 (Residential – outdoor living space) as notified.
Kāinga Ora Homes and Communities	391.555	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S9	Oppose	Opposes NCZ-S9 as it sets a standard that may not be possible to meet for dwellings that would otherwise provide a decent standard of living and is inconsistent with the scale of high density development.	Delete NCZ-S9 (Minimum outlook space for multi-unit housing) in its entirety as notified.
Retirement Villages Association of New Zealand Incorporated	350.225	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S10	Oppose in part	Opposes the minimum building separation distance (being 10 m from any other building on the same site) for retirement villages as it would prevent linked buildings. It is considered that the proposed matters of discretion for retirement villages are sufficient for assessing any effects relating to building lengths.	Opposes NCZ-S10 (Minimum building separation distance) and seeks amendment
Retirement Villages Association of New Zealand Incorporated	350.226	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S10	Amend	Opposes the minimum building separation distance (being 10 m from any other building on the same site) for retirement villages as it would prevent linked buildings. It is considered that the proposed matters of discretion for retirement villages are sufficient for assessing any effects relating to building lengths.	Amend NCZ-S10 (Minimum building separation distance) as follows: 1..... [figure] This standard does not apply to Neighbourhood centres other than Aro Valley, Berhampore and Ngaio Centres, or retirement villages.
Kāinga Ora Homes and Communities	391.556	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S10	Oppose	Opposes NCZ-S10 as it constrains design flexibility, and it is not clear what positive outcome it achieves. The zones are small and generally have limited depth which will place natural constraints on development and separations. Furthermore, considers that these standards are not triggered by any rule and so should be deleted.	Delete NCZ-S10 (Minimum building separation distance) in its entirety as notified.
Restaurant Brands Limited	349.81	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S11	Support	Support	Retain NCZ-S11 (Maximum building depth) as notified.
Foodstuffs North Island	FS23.72	Part 3 / Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S11	Oppose	Submission point 349.81 seeks to retain NCZ-S11 as notified. FSNI submission point 476.83 seeks to delete NCZ-S11 in its entirety.	Disallow
Retirement Villages Association of New Zealand Incorporated	350.227	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S11	Oppose in part	Opposes the applicability of a maximum building depth standard for retirement villages. Considers that the proposed matters of discretion for NCZ-R18 are sufficient for assessing any effects relating to building lengths.	Opposes NCZ-S11 (Maximum building depth) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.228	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S11	Amend	Opposes the applicability of a maximum building depth standard for retirement villages. Considers that the proposed matters of discretion for NCZ-R18 are sufficient for assessing any effects relating to building lengths.	Amend NCZ-S11 (Maximum building depth) as follows: 1..... [figure] This standard does not apply to Neighbourhood centres other than Aro Valley, Berhampore and Ngaio Centres, or retirement villages.
Woolworths New Zealand	359.59	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S11	Amend	Considers that NCZ-S11 should be amended to introduce operational and functional requirements to infringements to maximum building depth since continuous external wall depth greater than 25m may be difficult to avoid in some larger scale proposals. Development of that scale may warrant consent and assessment, so long as that assessment is commensurate to the scale of the proposal, its context and those operational and functional requirements.	Amend NCZ-S11 (Maximum building depth) as follows: ... Assessment criteria where the standard is infringed: 1. The extent to which the design mitigates the effect of a long featureless building elevation; and 2. Dominance, privacy and shading effects on adjoining sites. 3. The extent to which any non-compliance is necessary to provide for the functional needs or operational needs of a proposed activity
Kāinga Ora Homes and Communities	391.557	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S11	Oppose	Opposes NCZ-S11 as it constrains design flexibility, and it is not clear what positive outcome it achieves. The zones are small and generally have limited depth which will place natural constraints on development and separations. Furthermore, considers that these standards are not triggered by any rule and so should be deleted.	Delete NCZ-S11 (Maximum building depth) in its entirety as notified.

Commercial and Mixed use - Local Centre Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Foodstuffs North Island	476.83	Commercial and mixed use Zones / Neighbourhood Centre Zone / NCZ-S11	Oppose	<p>Opposes the Centre standards which sets a maximum 25m continuous depth of any external side wall.</p> <p>The word "continuous" is defined as forming an unbroken whole, without being interrupted. It is unclear whether the standard would still apply if the side wall was modulated.</p> <p>It would appear that the intent of these standards relates to privacy and dominance effects on neighbours and preventing a long featureless building façade. Privacy and dominance effects are more appropriately dealt with via the height, height in relation to boundary and outlook space standards. Furthermore, any new building in a Centre zone that is visible from the public realm requires consent and consideration of objectives and policies that also address amenity and design.</p> <p>Considers that the standards on maximum building depth are unnecessary and will act as a constraint on appropriate development and design.</p>	Delete NCZ-S11 (Maximum building depth) in its entirety.
David Stephen	82.7	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Opposes Khandallah being a Local Centre Zone.	Seeks that Khandallah is rezoned Neighbourhood Centre Zone.
Hugh Good	90.6	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Support	Supports Khandallah being a Local Centre Zone.	Retain Khandallah as a Local Centre Zone as notified.
Ian Law	101.6	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Opposes Khandallah being a Local Centre Zone.	Seeks that Khandallah is rezoned as a Neighbourhood Centre Zone.
Julie Patricia Ward	103.7	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	<p>Opposes Khandallah being a Local Centre Zone.</p> <p>Considers that the Khandallah Shopping Village in Ganges Road is a neighbourhood centre to which Policy 3(d) of the NPS-UD applies and therefore the PDP is required to enable 'commensurate with the level of commercial activity and community services' required..</p> <p>Considers that the neighbouring suburbs of Ngaio, Broadmeadows and Kaiwharawhara are not reliant on services/commercial activities in Khandallah, which only service the needs of the immediate area (Khandallah) and therefore comes under the definition of a LCZ.</p> <p>Presence or absence of a supermarket is not a defining character of an LCZ.</p> <p>[Refer to original submission for full reasons.]</p>	Seeks that Khandallah is rezoned NCZ (Neighbourhood Centre Zone).
Julie Patricia Ward	103.8	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	<p>Oppose LCZ (Local Centre Zone) zoning at corner of Box Hill and Baroda Street and wants it rezoned to NCZ (Neighbourhood Centre Zone).</p> <p>Considers that there are two cafes and a car repair business at this location and should therefore be rezoned to NCZ.</p>	Seeks that the LCZ (Local Centre Zone) at corner of Box Hill and Baroda Street be rezoned to NCZ (Neighbourhood Centre Zone)
Brian McKenna	113.3	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	<p>Opposes the zoning of Khandallah Village as Local Centre Zone.</p> <p>Considers that this area is not significantly different in size or level of business than any other "Centre" zones in the North-western suburbs.</p> <p>It is significantly smaller than the Karori "Local Centre".</p>	Amend the zoning of Khandallah Village from Local Centre Zone to Neighbourhood Centre Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Pam Wilson	120.7	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Opposes the zoning of Khandallah Village as Local Centre Zone.	Amend the zoning of Khandallah Village from LCZ (Local Centre Zone) to NCZ (Neighbourhood Centre Zone).
Janice Young	140.7	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Opposes Khandallah being zoned as a Local Centre and wants it to be zoned as a Neighbourhood Centre.	Opposes Khandallah being zoned Local Centre Zone.
David Stevens	151.15	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Opposes Khandallah being a Local Centre Zone. Considers that Khandallah is essentially a small village which serves its local community. Neither Ngaio or Johnsonville rely on Khandallah for retail or business services. Access for deliveries to local businesses is already constrained in Khandallah Village limiting any scope for expansion.	Seeks that Khandallah is rezoned as a Neighbourhood Centre Zone.
David Stevens	151.16	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Opposes Crofton Downs being a Local Centre Zone.	Seeks that Crofton Downs is rezoned as a Neighbourhood Centre Zone.
David Stevens	151.17	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Considers that the area at the junction of Box Hill/Burma Road/Station Road has mistakenly been classified as a 14m LCZ.	Seeks that the area at the junction of Box Hill/Burma Road/Station Road is rezoned as a MRZ (Medium Density Residential Zone) with a height limit of 11m.
Brian Sheppard	169.2	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Considers that LCZ are defined as having easy access to rapid transit public transport and that Churton Park should not be zoned as LCZ as its meagre bus service cannot be considered rapid transit public transport.	Seeks that Churton Park is not zoned as a Local Centre Zone.
Emma Baines	185.6	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Opposes Khandallah being a Local Centre Zone. Khandallah has no more amenities than Ngaio or Crofton Downs and should not be treated differently to these other Neighbourhood Centres. The submitter travels from Khandallah to either Johnsonville or Crofton Downs to use the larger Countdown supermarkets and petrol stations.	Seeks that Khandallah is rezoned as a Neighbourhood Centre Zone.
Emma Baines	185.7	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Opposes the Station Road area being a Local Centre Zone. Considers that making this area of one café, a garage, and a restaurant a Local Centre Zone is completely overstated and must be an error given the number of shops in Ngaio which is still considered a neighbourhood centre.	Seeks that the Station Road area is rezoned as a Neighbourhood Centre Zone. [Inferred decision requested].
Wellington's Character Charitable Trust	233.20	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Opposes Khandallah Village being a Local Centre Zone. Considers that Khandallah is similar to Ngaio, and Ngaio has an NCZ. All the elements required of an NCZ are present in Khandallah. There is a large distinction between Khandallah and other suburbs with LCZ. [Refer to original submission for full reason]	Seeks that Khandallah Village is rezoned Neighbourhood Centre Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	233.21	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Opposes Station Road/Baroda Street satellite shops being a Local Centre Zone. Considers that LCZ is inappropriate zoning for this area. This area is consistent with the PDP's description of NCZ. [Refer to original submission for full reason]	Seeks that the Station Road/Baroda Street satellite shops are rezoned Neighbourhood Centre Zone.
Onslow Residents Community Association	283.13	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Opposes the Local Centre Zone at Khandallah Centre. Considers that Khandallah Centre does not "Commensurate with the level of commercial activity and community services" required by NPS-UD Policy 3 (d).	Opposes the Local Centre Zoning in the Khandallah Centre and seeks that it is rezoned to Neighbourhood Centre Zone.
Onslow Residents Community Association	283.14	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Opposes the Local Centre Zone at Box Hill Road. Considers that the zoning of LCZ here is an error in the District Plan. This extends the MRZ beyond reasonable limits. Also, there is no footpath that makes the southern end of Simla Crescent accessible in its entirety within a reasonable walking catchment of the Khandallah centre.	Opposes the Local Centre Zoning at Box Hill Road, Khandallah and seeks that it is rezoned to Neighbourhood Centre Zone.
Wilma Sherwin	306.9	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Opposes Khandallah being a Local Centre Zone. Khandallah village has a small village hub with limited vehicular access and only a small number of businesses. It is not big enough to be called a Local Centre and should instead be zoned Neighbourhood Centre.	Seeks that Khandallah is rezoned Neighbourhood Centre Zone.
Ryman Healthcare Limited	346.3	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Amend	Supports the Local Centre Zone at Ryman's site at 192 Adelaide Road, Newtown, provided the provisions applicable to the Local Centre Zone are amended to better enable retirement villages, as outlined in the submission from the Retirement Village Association of New Zealand. Namely, seeking a fit for purpose retirement village framework in the Local Centre Zone that recognises the unique needs of retirement villages, compared to other residential typologies. Finally, opposing restrictions on residential activities at ground floor level to the extent they would apply to retirement villages. [Refer to submission 350].	Supports the Local Centre Zone in Newtown, with amendment. [Refer to submission 350]
Retirement Villages Association of New Zealand Incorporated	350.229	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Support	Considers policy support for retirement villages in the Local Centre Zone is required.	Add the following new policies in the Local Centre Zone chapter and amend current objectives and policies for consistency: <u>Provision of housing for an ageing population</u> <u>1. Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u> <u>2. Recognise the functional and operational needs of retirement villages, including that they:</u> <u>a. May require greater density than the planned urban built character to enable efficient provision of services.</u> <u>b. Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u> <u>Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the [add] zone will change over time to enable a variety of housing types with a mix of densities.</u> <u>Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within the [add] zone by providing for more efficient use of those sites.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.230	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Amend	Considers policy support for retirement villages in the Local Centre Zone is required.	<p>Add the following new policies in the Local Centre Zone chapter and amend current objectives and policies for consistency:</p> <p><u>Provision of housing for an ageing population</u></p> <p><u>1. Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u></p> <p><u>2. Recognise the functional and operational needs of retirement villages, including that they:</u></p> <p><u>a. May require greater density than the planned urban built character to enable efficient provision of services.</u></p> <p><u>b. Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u></p> <p><u>Changing communities</u></p> <p><u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the [add] zone will change over time to enable a variety of housing types with a mix of densities.</u></p> <p><u>Larger sites</u></p> <p><u>Recognise the intensification opportunities provided by larger sites within the [add] zone by providing for more efficient use of those sites.</u></p>
Z Energy Limited	361.20	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Support	The LCZ is generally supported, as it provides for a range of commercial, community, recreational and residential activities. These centres service the needs of the surrounding residential catchment and neighbouring suburbs.	Retain Local Centre Zone chapter as notified.
Waka Kotahi	370.401	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Amend	Considers the term "roading network" is used in several places, and the term is not defined. Particularly supports the provision for public transport, consideration of function of the transport network, the discouragement of carparking visible at street edge along an active frontage and the quality design outcomes.	Amend the reference to "transport network", to ensure that it captures all transport modes.
WCC Environmental Reference Group	377.448	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Support in part	Generally supportive with some amendments specified below.	Not specified.
Kāinga Ora Homes and Communities	391.558	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Amend	Considers that notified Local Centres in Miramar, Tawa and Newtown should be classified as Town Centre zones for their role and function within Wellington City. The spatial extent of these and other Centre Zones should be expanded to support the plan-enabled residential intensification surrounding them to and support a well-functioning urban environment.	Seeks that the Miramar, Tawa and Newtown Local Centre Zones be classified as Town Centre Zones.
Greater Wellington Regional Council	FS84.39	Part 3 / Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.559	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Support in part	Generally supports the introduction and application of a Local Centre Zone in the Draft District Plan. The Local Centre Zone description states "These centres serve the needs of the surrounding residential catchment and neighbouring suburbs". Considers that this is inconsistent with the National Planning Standards description which limits this to the "residential catchment". The Planning Standards description of Town Centres includes the "immediate and neighbouring suburbs". Accordingly, Seeks that a Town Centre category is added to the Hierarchy of Centres to include Karori, Miramar, Tawa, and Newtown and the description of Local Centres is amended to better reflect the Planning Standards. Considers that is unclear why the High Density Residential Zone only applies to "most" centres so this should be amended to include all local centres to help support their core functions. At the moment the MDRS (11m) applies to Karori, Crofton Downs, Khandallah, Churton Park. 14m applies to Miramar, Hataitai, Island Bay, Brooklyn, and Newlands. High Density applies to Newtown, Kilburn, Linden and Tawa. Notes that reference is made to assessment against Design Guides. Design Guides are too broad to be used as an assessment matter.	Retain the introduction of the Local Centre Zone chapter and seeks amendment.
Onslow Residents Community Association	FS80.11	Part 3 / Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Considers an additional layer in the hierarchy of centres adds undue complexity. Considers it is not necessary for a small-medium city such as Wellington. Seeks to retain hierarchy of centres and definition of Local Centres as notified.	Disallow
Greater Wellington Regional Council	FS84.40	Part 3 / Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Kāinga Ora Homes and Communities	391.560	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Amend	Generally supports the introduction and application of a Local Centre Zone in the Draft District Plan. The Local Centre Zone description states "These centres serve the needs of the surrounding residential catchment and neighbouring suburbs". Considers that this is inconsistent with the National Planning Standards description which limits this to the "residential catchment". The Planning Standards description of Town Centres includes the "immediate and neighbouring suburbs". Accordingly, Seeks that a Town Centre category is added to the Hierarchy of Centres to include Karori, Miramar, Tawa, and Newtown and the description of Local Centres is amended to better reflect the Planning Standards. Considers that is unclear why the High Density Residential Zone only applies to "most" centres so this should be amended to include all local centres to help support their core functions. At the moment the MDRS (11m) applies to Karori, Crofton Downs, Khandallah, Churton Park. 14m applies to Miramar, Hataitai, Island Bay, Brooklyn, and Newlands. High Density applies to Newtown, kelburn, Linden and Tawa. Notes that reference is made to assessment against Design Guides. Design Guides are too broad to be used as an assessment matter.	Amend the introduction of the Local Centre Zone chapter as follows: 1. Introduce a Town Centre category in the Centres hierarchy and include Miramar, Tawa, and Newtown in a new Town Centre chapter. [See Appendix 2 of submission for further detail]. 2. Amend the introduction text as follows: The purpose of the Local Centre Zone is to provide for a range commercial, community, recreational and residential activities. These centres service the needs of the surrounding residential catchment and neighbouring suburbs . Local centres support the role and function of other Centre Zones in the hierarchy of centres. The Local Centre Zone is distributed across the city and will play a crucial role in accommodating and servicing the needs of the existing and forecast population growth. The <u>Medium Density and High Density Residential Zone</u> surrounds most local centres. These zones enable intensification due to the capacity of the area to absorb more housing with enablers of growth such as walkability, access to public transport, community facilities and services.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
					<p>High quality building design is a focus for the Local Centres Zone. The transition to more intensive use in some local centres will result in changes to existing amenity values in the centres and their surrounds. Consequently, redevelopment will be supported by a range of measures to promote good design and environmental outcomes, and address amenity issues <u>that are not anticipated in the Zone</u>. Accordingly, most building activities will require a resource consent and an assessment against <u>the Centres and Mixed Use Design Guide key design criteria</u>. To enable intensification around existing neighbourhood centres, some of these will have substantial building heights.</p> <p>There is an identified need for residential intensification within and around local centres. These centres are subject to the intensification policies 3 (c) and (d) of the National Policy Statement on Urban Development 2020 (NPS-UD). Accordingly, residential activity is permitted above ground floor or where not visible at ground level within these centres. To support a mix of activities within the zone, activities that have off-site effects, such as industrial activities and different retail formats, will need to be managed. There is however a desire for larger scale retail to locate in centres, where these are of an appropriate form and scale, rather than at out-of-centre locations, to support the vitality and viability of centres.</p>
Onslow Residents Community Association	FS80.12	Part 3 / Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Considers an additional layer in the hierarchy of centres adds undue complexity. Considers it is not necessary for a small-medium city such as Wellington. Seeks to retain hierarchy of centres and definition of Local Centres as notified.	Disallow
Greater Wellington Regional Council	FS84.41	Part 3 / Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Willis Bond and Company Limited	416.94	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Amend	Submitter notes the effect that the more permissive medium density residential standards will have on other zones. The zones supporting higher density development have more restrictive standards than in the MRZ, creating a risk that new development is concentrated in the more permissive MRZ at the exclusion of denser zones where Council wishes to encourage greater development. The PDP should ensure that the restrictions within denser zones are not substantially more restrictive than within the MRZ [Refer to original submission for full reason].	Seeks that Council consider the relationship between the Medium Density Residential Zone and denser zones (i.e. the High Density Residential Zone, Large Lot Residential Zone, Neighbourhood Centre Zone, Local Centre one, Commercial Zone, Mixed Use Zone, Metropolitan Centre Zone and City Centre Zone) to ensure development is not unduly restricted in denser zones by greater restrictions and Council discretion.
Foodstuffs North Island	476.22	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Support in part	Generally supports the objectives and policies for the Local Centre Zone, and specifically supports the recognition of medium and high-density development and the enablement of a wide range of activities.	Retain the Local Centre Zone objectives and policies, with amendments. [Inferred decision requested].
Foodstuffs North Island	476.84	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Support	Supports the Local Centre Zoning of New World Newtown (195 Riddiford Street).	Retain Local Centre Zoning of New World Newtown (195 Riddiford Street) as notified.
Foodstuffs North Island	476.85	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Support	Supports the Local Centre Zoning of New World Miramar (54 Miramar Avenue).	Retain Local Centre Zoning of New World Miramar (54 Miramar Avenue) as notified.
Foodstuffs North Island	476.86	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Support	Supports the Local Centre Zoning of New World Island Bay (8 Medway Street).	Retain Local Centre Zoning of New World Island Bay (8 Medway Street) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Foodstuffs North Island	476.87	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Support	Supports the Local Centre Zoning of New World Karori (236 Karori Road).	Retain Local Centre Zoning of New World Karori (236 Karori Road) as notified.
Foodstuffs North Island	476.88	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Support	Supports the Local Centre Zoning of New World Khandallah (26 Ganges Road).	Retain Local Centre Zoning of New World Khandallah (26 Ganges Road) as notified.
Onslow Residents Community Association	FS80.7	Part 3 / Commercial and mixed use Zones / Local Centre Zone / General LCZ	Oppose	[No specific reason given beyond decision requested - refer to further submission - 283].	Disallow / Seeks Neighbourhood Centre Zoning.
Foodstuffs North Island	476.89	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Support	Supports the Local Centre Zoning of New World Newlands (1 Bracken Road).	Retain Local Centre Zoning of New World Newlands (1 Bracken Road) as notified.
Foodstuffs North Island	476.90	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Support	Supports the Local Centre Zoning of New World Churton Park (103 Westchester Drive).	Retain Local Centre Zoning of New World Churton Park (103 Westchester Drive) as notified.
Foodstuffs North Island	476.91	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Support	Supports the Local Centre Zoning of New World Tawa (37 Oxford Street).	Retain Local Centre Zoning of New World Tawa (37 Oxford Street) as notified.
Ben Barrett	479.22	Commercial and mixed use Zones / Local Centre Zone / General LCZ	Amend	Considers that Constable Street is not a major transport corridor. [Refer to original submission for full reason]	Seeks that appropriate building planning needs to be had along Constable Street, varying in height, with building heights reducing as the elevation of the road rises.
Simon Ross	37.6	Commercial and mixed use Zones / Local Centre Zone / New LCZ	Amend	Considers that Mixed Used Zones (i.e. Local Centre Zones) in Karori are too small. The biggest missed opportunity is to make mixed use along the full length between Marsden Village and the west end of Karori Village.	Seeks that the Local Centre Zone extends along the length of Karori Road and/or between Morley Street and Tringham Street.
Retirement Villages Association of New Zealand Incorporated	350.231	Commercial and mixed use Zones / Local Centre Zone / New LCZ	Support	Considers policy support for retirement villages in the Local Centre Zone is required.	Add the following new policies in the Local Centre Zone chapter and amend current objectives and policies for consistency: <u>Provision of housing for an ageing population</u> <u>1. Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u> <u>2. Recognise the functional and operational needs of retirement villages, including that they:</u> <u>a. May require greater density than the planned urban built character to enable efficient provision of services.</u> <u>b. Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u> <u>Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the [add] zone will change over time to enable a variety of housing types with a mix of densities.</u> <u>Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within the [add] zone by providing for more efficient use of those sites.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.232	Commercial and mixed use Zones / Local Centre Zone / New LCZ	Amend	Considers policy support for retirement villages in the Local Centre Zone is required.	<p>Add the following new policies in the Local Centre Zone chapter and amend current objectives and policies for consistency:</p> <p><u>Provision of housing for an ageing population</u> <u>1. Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u> <u>2. Recognise the functional and operational needs of retirement villages, including that they:</u> <u>a. May require greater density than the planned urban built character to enable efficient provision of services.</u> <u>b. Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u></p> <p><u>Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the [add] zone will change over time to enable a variety of housing types with a mix of densities.</u></p> <p><u>Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within the [add] zone by providing for more efficient use of those sites.</u></p>
Retirement Villages Association of New Zealand Incorporated	350.233	Commercial and mixed use Zones / Local Centre Zone / New LCZ	Support	As currently drafted retirement villages would be a permitted or discretionary activity under the 'residential activities' rule of the Local Centre Zone (LCZ-R10). Considers that the Local Centre Zone should have a retirement village specific rule that provides for retirement villages as a permitted activity (with the construction of the retirement villages being a restricted discretionary activity under LCZ-R18). Permitted activity status recognises retirement villages are residential activities and provide substantial benefit by way of enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	<p>Add a new 'Retirement villages' in the Local Centres Zone chapter rule as follows: <u>LCZ-RX Retirement villages</u> <u>1. Activity status: Permitted</u></p>
Retirement Villages Association of New Zealand Incorporated	350.234	Commercial and mixed use Zones / Local Centre Zone / New LCZ	Amend	As currently drafted retirement villages would be a permitted or discretionary activity under the 'residential activities' rule of the Local Centre Zone (LCZ-R10). Considers that the Local Centre Zone should have a retirement village specific rule that provides for retirement villages as a permitted activity (with the construction of the retirement villages being a restricted discretionary activity under LCZ-R18). Permitted activity status recognises retirement villages are residential activities and provide substantial benefit by way of enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.	<p>Add a new 'Retirement villages' in the Local Centres Zone chapter rule as follows: <u>LCZ-RX Retirement villages</u> <u>1. Activity status: Permitted</u></p>
Kāinga Ora Homes and Communities	391.561	Commercial and mixed use Zones / Local Centre Zone / New LCZ	Amend	Seeks a new rule to allow for the Conversion of Buildings, or parts of buildings for Residential activities as a permitted activity. Residential activities are considered an appropriate activity within the LCZ, and the effects can be controlled through the standards.	<p>Seeks to Add the following new rule in the Local Centres Zone chapter: <u>1. Activity status: Permitted</u> <u>where:</u> <u>a. The conversion of Buildings, or parts of buildings for Residential activities:</u> <u>i. Do not alter the external appearance of the building or structure; and</u> <u>ii. Complies with LCZ-S7, LCZ-S8 and LCZ-S9.</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	408.126	Commercial and mixed use Zones / Local Centre Zone / New LCZ	Amend	<p>Considers that building setbacks are essential to address significant safety hazards associated with the operational rail corridor.</p> <p>Parts of the KiwiRail network adjoin commercial and mixed use zones that do not currently include provision for boundary setbacks for buildings and structures.</p> <p>KiwiRail seek a boundary setback of 5m from the rail corridor for all buildings and structures, and that the rail corridor be recognised as a qualifying matter in relevant non-residential zones in accordance with section 77(1)(o) of the RMA.</p> <p>Consistent with the amendment requested for the assessment criteria in the residential zones, KiwiRail considers that a matter of discretion directing consideration of impacts on the safety and efficiency of the rail corridor is appropriate in situations where the 5m setback standard is not complied with in all zones adjacent to the railway corridor.</p>	<p>Add new standard as follows:</p> <p><u>LCZ-SX:</u> <u>Boundary setbacks.</u> <u>Buildings or structures must not be located within a 5m setback from a rail corridor boundary.</u></p> <p>AND seeks that as applicable, the following matter of discretion be inserted:</p> <p><u>Matters of discretion:</u> <u>(X) The location and design of the building as it relates to the ability to safely use, access and maintain buildings without requiring access on, above or over the rail corridor.</u></p>
Kāinga Ora – Homes and Communities	FS89.37	Part 3 / Commercial and Mixed Use Zones / Local Centre Zone / New LCZ	Oppose	Kāinga Ora opposes the relief sought; a considerably reduced set back would provide adequate space for maintenance activities within sites adjacent to the rail network. In doing so, it will continue to protect the safe, efficient, and effective operation of the rail infrastructure while balancing the cost on landowners.	Disallow
Restaurant Brands Limited	349.82	Commercial and mixed use Zones / Local Centre Zone / LCZ-O1	Support	Support	Retain LCZ-O1 (Purpose) as notified.
Woolworths New Zealand	359.60	Commercial and mixed use Zones / Local Centre Zone / LCZ-O1	Amend	Considers that LCZ-O1 should be amended to recognise that Local Centres, like Neighbourhood Centres, also serve passers-by.	<p>Amend Objective LCZ-O1 (Purpose) as follows:</p> <p>The Local Centre Zone meets the needs of communities, businesses, and residents in the surrounding residential catchment and neighbouring suburbs, <u>and passers-by</u>, in a manner that supports the City's compact urban growth objectives and its role and function in the City's hierarchy of centres.</p>
Z Energy Limited	361.21	Commercial and mixed use Zones / Local Centre Zone / LCZ-O1	Support	Supports Objectives LCZ-O1 to LCZ-O2 which seek to meet the needs of communities, businesses and residents in the surrounding residential catchment and neighbouring suburbs and their contribution in achieving a high quality and well-functioning urban environment.	Retain LCZ-O1 (Purpose) as notified.
WCC Environmental Reference Group	377.449	Commercial and mixed use Zones / Local Centre Zone / LCZ-O1	Amend	Objective LCZ-O1 is generally supported, especially the statement on the need to support compact urban growth. But an amendment is suggested to expand the Objective and capture that in providing the needs of the community it should do so in a way that supports sustainable transport choices.	<p>Amend Objective LCZ-O1 (Purpose) as follows:</p> <p>The Local Centre Zone meets the needs of communities, businesses and residents in the surrounding residential catchment and neighbouring suburbs in a manner that supports the City's compact urban growth objectives, <u>sustainable transport</u>, and its role and function in the City's hierarchy of centres.</p>
Waka Kotahi NZ Transport Agency	FS103.28	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-O1	Support	This amendment aligns well with Waka Kotahi strategic direction around mode choice and safe systems planning.	Allow
Kāinga Ora Homes and Communities	391.562	Commercial and mixed use Zones / Local Centre Zone / LCZ-O1	Support in part	Generally supports LCZ-O1 apart from the need to reflect the place of Local Centres under Town Centres in the Centres hierarchy by primarily serving surrounding residential areas instead of suburbs.	Retain LCZ-O1 (Purpose) and seeks amendment.
Kāinga Ora Homes and Communities	391.563	Commercial and mixed use Zones / Local Centre Zone / LCZ-O1	Amend	Generally supports LCZ-O1 apart from the need to reflect the place of Local Centres under Town Centres in the Centres hierarchy by primarily serving surrounding residential areas instead of suburbs.	<p>Amend LCZ-O1 (Purpose) as follows:</p> <p>The Local Centre Zone meets the needs of communities, businesses and residents in the surrounding residential catchment <u>and neighbouring suburbs</u> in a manner that supports the City's compact urban growth objectives and its role and function in the City's hierarchy of centres.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.263	Commercial and mixed use Zones / Local Centre Zone / LCZ-O2	Support	Supports the objective as it seeks to ensure that residential and commercial growth needs are met through land specifically zoned for this purpose with the provision of adequate infrastructure for housing and business use.	Retain LCZ-O1 (Purpose) as notified.
Restaurant Brands Limited	349.83	Commercial and mixed use Zones / Local Centre Zone / LCZ-O2	Support	Support	Retain LCZ-O2 (Accommodating growth) as notified.
Z Energy Limited	361.22	Commercial and mixed use Zones / Local Centre Zone / LCZ-O2	Support	Supports Objectives LCZ-O1 to LCZ-O2 which seek to meet the needs of communities, businesses and residents in the surrounding residential catchment and neighbouring suburbs and their contribution in achieving a high quality and well-functioning urban environment.	Retain LCZ-O2 (Accommodating growth) as notified.
WCC Environmental Reference Group	377.450	Commercial and mixed use Zones / Local Centre Zone / LCZ-O2	Support	Objective LCZ-O2 is supported.	Retain Objective LCZ-O2 (Accommodating growth) as notified.
Kāinga Ora Homes and Communities	391.564	Commercial and mixed use Zones / Local Centre Zone / LCZ-O2	Support	Generally supports LCZ-O2.	Retain LCZ-O2 (Accommodating growth) as notified.
Ministry of Education	400.127	Commercial and mixed use Zones / Local Centre Zone / LCZ-O2	Support in part	Support LCZ-O2 in part.	Retain LCZ-O2 (Accommodating growth) with amendment.
Ministry of Education	400.128	Commercial and mixed use Zones / Local Centre Zone / LCZ-O2	Amend	Seeks LCZ-O2 be amended to explicitly recognise and provide for educational activities to in the LCZ which are necessary to accommodate growth.	Amend LCZ-O2 (Accommodating growth) as follows: Accommodating growth The Local Centre Zone has an important role in accommodating growth and has sufficient serviced, resilient development capacity <u>and additional infrastructure</u> to meet residential and commercial growth needs.
Restaurant Brands Limited	349.84	Commercial and mixed use Zones / Local Centre Zone / LCZ-O3	Support	Support	Retain LCZ-O3 (Amenity and design) as notified.
Z Energy Limited	361.23	Commercial and mixed use Zones / Local Centre Zone / LCZ-O3	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain LCZ-O3 (Amenity and design) as notified.
WCC Environmental Reference Group	377.451	Commercial and mixed use Zones / Local Centre Zone / LCZ-O3	Support	Objective LCZ-O3 is supported.	Retain Objective LCZ-O3 (Amenity and design) as notified.
Kāinga Ora Homes and Communities	391.565	Commercial and mixed use Zones / Local Centre Zone / LCZ-O3	Support in part	Supports LCZ-O3 but seeks a minor amendment to recognise the range of housing densities potentially enabled in the zone.	Retain LCZ-O3 (Amenity and design) and seeks amendment.
Kāinga Ora Homes and Communities	391.566	Commercial and mixed use Zones / Local Centre Zone / LCZ-O3	Amend	Supports LCZ-O3 but seeks a minor amendment to recognise the range of housing densities potentially enabled in the zone.	Amend LCZ-O3 (Amenity and design) as follows: Medium <u>to high</u> density mixed-use development is achieved that positively contributes to creating a high quality, well-functioning urban environment that reflects the changing urban form and amenity values of the Local Centres and their surrounding residential areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Restaurant Brands Limited	349.85	Commercial and mixed use Zones / Local Centre Zone / LCZ-O4	Support	Support	Retain LCZ-O4 (Activities) as notified.
Z Energy Limited	361.24	Commercial and mixed use Zones / Local Centre Zone / LCZ-O4	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain LCZ-O4 (Activities) as notified.
WCC Environmental Reference Group	377.452	Commercial and mixed use Zones / Local Centre Zone / LCZ-O4	Amend	Objective LCZ-O4 is generally supported, but an amendment is suggested to expand the Objective and capture that the activities provided for should provide choices that support walkable neighbourhoods.	Amend Objective LCZ-O4 (Activities) as follows: Activities will be of an appropriate scale and type to enhance the vibrancy and viability of Local Centres, <u>support walkable neighbourhoods</u> and support their local purpose.
Waka Kotahi NZ Transport Agency	FS103.29	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-O4	Support	This amendment aligns with Waka Kotahi strategic direction around modal choice.	Allow
Kāinga Ora Homes and Communities	391.567	Commercial and mixed use Zones / Local Centre Zone / LCZ-O4	Support	Generally supports LCZ-O4.	Retain LCZ-O4 (Activities) as notified.
Brian Sheppard	169.3	Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Not specified	Considers that the provision of appropriate public facilities and infrastructure has not kept pace with the extensive housing development of Churton Park. This is most noticeable in the small community centre which, even when built 10 years ago, was not large enough to accommodate the community needs of our rapidly expanding population.	Seeks that adequate provision is made for the good use of public space in Churton Park. [Inferred decision requested].
McDonald's	274.21	Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Support in part	Supports the objectives and policies for the Neighbourhood, Local and Metropolitan Centre zones, and specifically supports the recognition of medium and high-density development and the enablement of a wide range of activities.	Retain LCZ-P1 (Accommodating growth), subject to amendments, as outlined other submission points.
McDonald's	274.22	Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Amend	Submitter is opposed to the references on undermining the ongoing viability, vibrancy and primacy of the other Centre zones	Seek that LCZ-P1.1 (Accommodating growth) is amended as follows: 1. A variety of building types, sizes, tenures, affordability and distribution of a scale and intensity that does not undermine the ongoing viability and vibrancy of the Local Centre Zone and Metropolitan Centre Zone and primacy of the City Centre Zone supports the purpose of the zone;
Kāinga Ora – Homes and Communities	FS89.83	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Oppose	Kāinga Ora considers that the scale and primacy of Centres is critical in achieving a well-functioning urban environment and intensification outcomes.	Disallow
Restaurant Brands Limited	349.86	Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Support	Support	Retain LCZ-P1 (Accommodating growth) as notified.
Foodstuffs North Island	FS23.41	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Oppose	Submission point 349.86 seeks to retain LCZ-P1 as notified. FSNI submission point 476.23 seeks this standard is amended.	Disallow / Reject submission in part.
Retirement Villages Association of New Zealand Incorporated	350.235	Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Support	Supports LCZ-P1 and its accommodation for growth and a variety of building types, sizes, tenures, affordability, intensity, density, and efficient use of available development sites.	Retain LCZ-P1 (Accommodating growth) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Z Energy Limited	361.25	Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Support in part	LCZ-P1 is partially supported as it recognises the role of the LCZ to accommodate future growth in residential, commercial and community services and agrees that providing such development capacity should include the matters included in 1-5 of the Policy.	Retain LCZ-P1 (Accommodating growth) with amendment.
Z Energy Limited	361.26	Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Amend	Considers that Local Centres also need to enable a broad range of commercial activities that support the medium-density business and residential intensification sought.	Amend LCZ-P1 (Accommodating growth) as follows: Provide for the use and development of the Local Centre Zone to meet the City's needs for housing, business activities and community facilities, including: 1. A variety of building types, sizes, tenures, affordability and distribution of a scale and intensity that does not undermine the viability and vibrancy of the Metropolitan Centre Zone and the primacy of the City Centre Zone; 2. Forms of medium density housing; 3. Convenient access to active, public transport and rapid transit options; 4. Efficient, well integrated and strategic use of available development sites; and 5. Convenient access to a range of commercial service and open spaces .
WCC Environmental Reference Group	377.453	Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Support	The policy framework of the LCZ is supported as it allows the management of Local Centre Zones in a way that provides for the needs to the local neighbourhood and wider city.	Retain LCZ-P1 (Commercial activities) as notified.
Kāinga Ora Homes and Communities	391.568	Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Support in part	Generally supports LCZ-P1 but seeks amendment to: (a) recognise the range of housing densities potentially enabled in the zone, and to recognise that tenures and affordability cannot and should not be managed through the District Plan. The focus should be on providing for the level of the activity and building form that is appropriate for a Local Centre. And; (b) Clarify that intent of the Local Centre Zone is to enable significant intensification and height, and therefore medium to high-density housing is the appropriate scale of development to encourage within the Local Centre. (c) recognise the place of Local Centres under Town Centres in the Centres hierarchy.	Retain LCZ-P1 (Accommodating growth) and seeks amendment.
Kāinga Ora Homes and Communities	391.569	Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Amend	Generally supports LCZ-P1 but seeks amendment to: (a) recognise the range of housing densities potentially enabled in the zone, and to recognise that tenures and affordability cannot and should not be managed through the District Plan. The focus should be on providing for the level of the activity and building form that is appropriate for a Local Centre. And; (b) Clarify that intent of the Local Centre Zone is to enable significant intensification and height, and therefore medium to high-density housing is the appropriate scale of development to encourage within the Local Centre. (c) recognise the place of Local Centres under Town Centres in the Centres hierarchy.	Amend LCZ-P1 (Accommodating growth) as follows: Provide for the use and development of the Local Centre Zone to meet the City's needs for housing, business activities and community facilities, including: 1. A variety of building types, sizes, tenures, affordability and distribution of a scale and intensity that does not undermine the viability and vibrancy of <u>the Town Centre Zone</u> , the Metropolitan Centre Zone and the primacy of the City Centre Zone; 2. Forms of medium <u>to high</u> density housing; 3. Convenient access to active, public transport and rapid transit options; 4. Efficient, well integrated and strategic use of available development sites; and 5. Convenient access to a range of open spaces.
Foodstuffs North Island	476.23	Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Amend	Opposes the references in LCZ-P1.1. to undermining the ongoing viability, vibrancy and primacy of the other Centre zones. The Centres each fulfil a different purpose as detailed in Objective 1, and are of different scales to one another. Any development within the lower order Centres should be considered in its own right without the additional administrative burden of potentially requiring assessments of effects on the higher order Centres.	Amend LCZ-P1.1. (Accommodating growth) as follows: ... 1. A variety of building types, sizes, tenures, affordability and distribution of a scale and intensity that does not undermine the viability and vibrancy of the Metropolitan Centre Zone and the primacy of the City Centre Zone <u>supports the purpose of the zone</u> ; ...
Kāinga Ora – Homes and Communities	FS89.58	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-P1	Oppose	Kāinga Ora considers that the scale and primacy of Centres is critical in achieving a well-functioning urban environment and intensification outcomes.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ara Poutama Aotearoa the Department of Corrections	240.32	Commercial and mixed use Zones / Local Centre Zone / LCZ-P2	Support	Considers that community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification. The permitted activity status (enabled by the associated policies) is appropriate in the context of the current and potential future establishment and operation of a community corrections facility or facilities within these areas in Wellington City.	Retain LCZ-P2.7 (Enabled activities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.33	Commercial and mixed use Zones / Local Centre Zone / LCZ-P2	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain LCZ-P2.2 (Enabled activities) as notified.
Fire and Emergency New Zealand	273.264	Commercial and mixed use Zones / Local Centre Zone / LCZ-P2	Support	Supports the policy as it makes provision for emergency service facilities within the zone. Due to urban growth, population changes and commitments to response times, FENZ may need to locate anywhere within the urban and rural environment.	Retain LCZ-P2 (Enabled activities) as notified.
Restaurant Brands Limited	349.87	Commercial and mixed use Zones / Local Centre Zone / LCZ-P2	Support	Support	Retain LCZ-P2 (Enabled activities) as notified.
Z Energy Limited	361.27	Commercial and mixed use Zones / Local Centre Zone / LCZ-P2	Support	LCZ-P2 is supported as it enables a wide-range of activities, including commercial activities (as defined).	Retain LCZ-P2 (Enabled activities) as notified.
WCC Environmental Reference Group	377.454	Commercial and mixed use Zones / Local Centre Zone / LCZ-P2	Support	The policy framework of the LCZ is supported as it allows the management of Local Centre Zones in a way that provides for the needs to the local neighbourhood and wider city.	Retain LCZ-P2 (Enabled activities) as notified.
Kāinga Ora Homes and Communities	391.570	Commercial and mixed use Zones / Local Centre Zone / LCZ-P2	Support	Supports LCZ-P2 as it enables residential activities in the LCZ and a range of activities to support residential growth.	Retain LCZ-P2 (Enabled activities) as notified.
Ministry of Education	400.129	Commercial and mixed use Zones / Local Centre Zone / LCZ-P2	Support	Supports LCZ-P2 as it is important to recognise and provide for educational facilities which will service the surrounding residential catchments and other community/commercial activities.	Retain LCZ-P2 (Enabled activities) as notified.
Restaurant Brands Limited	349.88	Commercial and mixed use Zones / Local Centre Zone / LCZ-P3	Support	Support	Retain LCZ-P3 (Managed Activities) as notified.
Z Energy Limited	361.28	Commercial and mixed use Zones / Local Centre Zone / LCZ-P3	Support	LCZ-P3 is supported as it enables a wide-range of activities, including commercial activities (as defined).	Retain LCZ-P3 (Managed activities) as notified.
WCC Environmental Reference Group	377.455	Commercial and mixed use Zones / Local Centre Zone / LCZ-P3	Support	The policy framework of the LCZ is supported as it allows the management of Local Centre Zones in a way that provides for the needs to the local neighbourhood and wider city.	Retain LCZ-P3 (Managed activities) as notified.
Kāinga Ora Homes and Communities	391.571	Commercial and mixed use Zones / Local Centre Zone / LCZ-P3	Support	Supports LCZ-P3.	Retain LCZ-P3 (Managed activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Restaurant Brands Limited	349.89	Commercial and mixed use Zones / Local Centre Zone / LCZ-P4	Support	Support	Retain LCZ-P4 (Potentially incompatible activities) as notified.
Woolworths New Zealand	359.61	Commercial and mixed use Zones / Local Centre Zone / LCZ-P4	Amend	Considers that LCZ-P4 is unclear as drafted and should be amended to clarify why matters 1-4 have been included within the policy. It is considered that these clauses do not need to be incorporated into Policy LCZ-P4. Potentially incompatible activities (being activities not contemplated by the zone, or ones that infringe the zone standards) should be able to be accommodated in the zone if there is a functional and operational need and effects on the Centre are managed.	Amend LCZ-P4 (Potentially incompatible activities) as follows: Only allow activities that are potentially incompatible with the role and function of the Local Centre Zone, where they demonstrate an operational or functional need to locate within the zone; or will not have an unacceptable adverse effect on the vibrancy and amenity of the centre. ± 1. Carparking visible at street edge along an active frontage or non-residential activity frontage; 2. Demolition of buildings that results in the creation of vacant land; 3. Ground floor residential activities on street edges identified as having an active frontage or non-residential activity frontage; and 4. Yard-based retail activities.
Waka Kotahi NZ Transport Agency	FS103.30	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-P4	Oppose	The policy as drafted is considered to give greater clarity over types of activities that may not be compatible in the zone.	Disallow
Z Energy Limited	361.29	Commercial and mixed use Zones / Local Centre Zone / LCZ-P4	Support in part	LCZ-P4 is supported for its intent in relation to new activities. Policy LCZ-P4 identifies potentially incompatible activities with the purpose of the LCZ, including yard-based retail, ground level carparking and residential activities, and vacant sites and seeks to only allow these activities where they will not have an adverse effect on its vitality, vibrancy and amenity.	Retain LCZ-P4 (Potentially incompatible activities) with amendment.
Z Energy Limited	361.30	Commercial and mixed use Zones / Local Centre Zone / LCZ-P4	Amend	Considers that LCZ-P4 is too specific and should be amended. LCZ-P4 is too specific and it will impact on the continued operation, maintenance and upgrade of a range of existing activities. It is considered that some yard-based activities, like service stations, play a key role in providing essential services to enable a well-functioning urban environment.	Amend LCZ-P4 (Potentially incompatible activities) as follows: Only allow <u>new</u> activities that are potentially incompatible with the role and function of the Local Centre Zone, where they will not have an adverse effect on the vibrancy and amenity of the centre: 1. Carparking visible at street edge along an active frontage or non-residential activity frontage; 2. Demolition of buildings that results in the creation of unutilised vacant land; 3. Ground floor residential activities on street edges identified as having an active frontage or non-residential activity frontage; and 4. <u>Some</u> yard-based retail activities
WCC Environmental Reference Group	377.456	Commercial and mixed use Zones / Local Centre Zone / LCZ-P4	Amend	Considers that LCZ-P4 should be amended as it seems unduly restrictive to limit all yard-based activities in Local Centre Zones - garden centres and plant sales for example would seem business that would fit perfectly within local centres. Having a wide range of activities in local neighbourhoods is fundamental to limiting car use and this policy may hinder creating 'walkable' neighbourhoods.	Amend LCZ-P4 (Potentially incompatible activities) as follows: Only allow activities that are potentially incompatible with the role and function of the Local Centre Zone, where they will not have an adverse effect on the vibrancy and amenity of the centre: ... 4. Yard-based retail activities.
Kāinga Ora Homes and Communities	391.572	Commercial and mixed use Zones / Local Centre Zone / LCZ-P4	Support	Supports LCZ-P4.	Retain LCZ-P4 (Potentially incompatible activities) as notified.
Restaurant Brands Limited	349.90	Commercial and mixed use Zones / Local Centre Zone / LCZ-P5	Support	Support	Retain LCZ-P5 (Heavy industrial activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Z Energy Limited	361.31	Commercial and mixed use Zones / Local Centre Zone / LCZ-P5	Support	LCZ-P5 is supported as it seeks to avoid heavy industrial activities in the LCZ.	Retain LCZ-P5 (Heavy industrial activities) as notified.
WCC Environmental Reference Group	377.457	Commercial and mixed use Zones / Local Centre Zone / LCZ-P5	Amend	Considers that LCZ-P5 should be amended as 'Avoid' is too strong and prohibitive a policy test to apply, post the NZ King Salmon case. There are easily envisaged circumstances where some activities that would fit within the heavy industrial category would fit well with a local centre. For example small scale waste collection or recycling. As cities move towards a 'circular economy' model there will be a need for community based waste and recycling and this may prohibit such activities and raise additional barriers to sustainable waste management.	Amend LCZ-P5 (Heavy industrial activities) as follows: <u>Only allow heavy industrial activities where they will not have an adverse effect on the vibrancy and amenity of the centre.</u> Avoid heavy industrial activities from locating in the Local Centre Zone.
Kāinga Ora Homes and Communities	391.573	Commercial and mixed use Zones / Local Centre Zone / LCZ-P5	Support	Supports LCZ-P5.	Retain LCZ-P5 (Heavy industrial activities) as notified.
Restaurant Brands Limited	349.91	Commercial and mixed use Zones / Local Centre Zone / LCZ-P6	Support	Support	Retain LCZ-P6 (Housing choice) as notified.
Retirement Villages Association of New Zealand Incorporated	350.236	Commercial and mixed use Zones / Local Centre Zone / LCZ-P6	Amend	Generally supports LCZ-P6 and its enablement of medium density residential development that offers a range of housing price, type, size and tenure that caters to various ages, lifestyles, cultures and abilities. However, it is necessary to acknowledge that each individual development will not offer a range in those matters.	Retain LCZ-P6 (Housing choice) and seeks amendment to read "Offers Contributes to a range of housing price, type, size and tenure" ..
Retirement Villages Association of New Zealand Incorporated	350.237	Commercial and mixed use Zones / Local Centre Zone / LCZ-P6	Support	Generally supports LCZ-P6 and its enablement of medium density residential development that offers a range of housing price, type, size and tenure that caters to various ages, lifestyles, cultures and abilities. However, it is necessary to acknowledge that each individual development will not offer a range in those matters.	Retain LCZ-P6 (Housing choice) and seeks amendment to read "Offers <u>Contributes to</u> a range of housing price, type, size and tenure" ..
Z Energy Limited	361.32	Commercial and mixed use Zones / Local Centre Zone / LCZ-P6	Support	LCZ-P6 is supported as it seeks to provide for a range of medium density residential development.	Retain LCZ-P6 (Housing choice) as notified.
WCC Environmental Reference Group	377.458	Commercial and mixed use Zones / Local Centre Zone / LCZ-P6	Support	The policy framework of the LCZ is supported as it allows the management of Local Centre Zones in a way that provides for the needs to the local neighbourhood and wider city.	Retain LCZ-P6 (Housing choice) as notified.
Kāinga Ora Homes and Communities	391.574	Commercial and mixed use Zones / Local Centre Zone / LCZ-P6	Support in part	Generally supports LCZ-P6 but seeks amendment to: (a) recognise the range of housing densities potentially enabled in the zone, and to recognise that tenures and affordability cannot and should not be managed through the District Plan. The focus should be on providing for the level of the activity and building form that is appropriate for a Local Centre. And; (b) Clarify that intent of the Local Centre zone is to enable significant intensification and height, and therefore medium to high-density housing is the appropriate scale of development to encourage within the Local Centre and high-density residential development can provide for a range of housing choices in itself. This position is consistent with LCZ-P7 and the intent of the LCZ	Retain LCZ-P6 (Housing choice) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.575	Commercial and mixed use Zones / Local Centre Zone / LCZ-P6	Amend	Generally supports LCZ-P6 but seeks amendment to: (a) recognise the range of housing densities potentially enabled in the zone, and to recognise that tenures and affordability cannot and should not be managed through the District Plan. The focus should be on providing for the level of the activity and building form that is appropriate for a Local Centre. And; (b) Clarify that intent of the Local Centre zone is to enable significant intensification and height, and therefore medium to high-density housing is the appropriate scale of development to encourage within the Local Centre and high-density residential development can provide for a range of housing choices in itself. This position is consistent with LCZ-P7 and the intent of the LCZ	Amend LCZ-P6 (Housing choice) as follows: Enable medium <u>to high</u> density residential development that: 1. Contributes towards accommodating anticipated growth in the City; and 2. Offers a range of housing price, type, <u>and size and tenure</u> that is accessible to people of all ages, lifestyles, cultures and abilities.
Fire and Emergency New Zealand	273.265	Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Support in part	Supports the policy as it seeks to achieve quality design outcomes for new development in the zone. In order to achieve good quality design outcomes, which includes the provision of a safe environment and resilient urban environment, FENZ considers it critical that access for emergency service vehicles is a consideration of the design and layout of new developments. FENZ therefore seeks the inclusion of a further matter under this policy.	Supports LCZ-P7 (Quality design - neighbourhood and townscape outcomes), with amendment.
Fire and Emergency New Zealand	273.266	Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Amend	Supports the policy as it seeks to achieve quality design outcomes for new development in the zone. In order to achieve good quality design outcomes, which includes the provision of a safe environment and resilient urban environment, FENZ considers it critical that access for emergency service vehicles is a consideration of the design and layout of new developments. FENZ therefore seeks the inclusion of a further matter under this policy.	Amend LCZ-P7 (Quality design - neighbourhood and townscape outcomes) as follows: Require new development, and alterations and additions to existing development at a site scale, to positively contribute to the sense of place, quality and amenity of Local Centre Zone by: 1. Recognising the benefits of well-designed, comprehensive development, including the extent to which the development: <u>x. is accessible for emergency service vehicles</u>
McDonald's	274.23	Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Support in part	Whilst functional and operational needs are referred to within some assessment criteria, there is no correlation to any policies.	Retain LCZ-P7 (Quality design -neighbourhood and townscape outcomes), subject to amendments as outlined other submission points.
McDonald's	274.24	Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Amend	Whilst functional and operational needs are referred to within some assessment criteria, there is no correlation to any policies.	Seeks addition of the following to LCZ-P7 (Quality design -neighbourhood and townscape outcomes) as follows: <u>Recognise the functional and operational requirements of activities and development.</u>
Restaurant Brands Limited	349.92	Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Support	Support	Retain LCZ-P7 (Quality design) as notified.
Foodstuffs North Island	FS23.42	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Oppose	Submission point 349.92 seeks to retain LCZ-P7 as notified. FSNI submission point 476.24 and 476.25 seeks this standard is amended.	Disallow / Reject submission in part.
Retirement Villages Association of New Zealand Incorporated	350.238	Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Support in part	Supports the recognition in (1)(b) of optimising the development capacity of land and in (2)(e) of flexibility for ground floor space to be used for residential purposes	Retain LCZ-P7 (Quality design – neighbourhood and townscape outcomes) as notified.
Z Energy Limited	361.33	Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Support in part	LCZ-P7 is supported for its intent, which requires new development and additions and alterations, to positively contribute to the sense of space and form, quality and amenity of the LCZ.	Retain LCZ-P7 (Quality design – neighbourhood and townscape outcomes) with amendment.
Z Energy Limited	361.34	Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Amend	Considers that LCZ-P7 should be amended to recognise that alternative design responses are necessary for functional requirements of a range of activities, including existing service stations.	Amend LCZ-P7 (Quality design – neighbourhood and townscape outcomes) as follows: ... 2. Ensuring that the development, where relevant: ... <u>f. Recognises that alternative design responses are necessary for functional requirements of a range of activities, including existing service stations.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.459	Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Support	The policy framework of the LCZ is supported as it allows the management of Local Centre Zones in a way that provides for the needs to the local neighbourhood and wider city.	Retain LCZ-P7 (Quality design – neighbourhood and townscape outcomes) as notified.
Kāinga Ora Homes and Communities	391.576	Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Support in part	Generally supports LCZ-P7, but seeks amendment to: (a) The policy name to better reflect the intent of the policy and the subsequent wording, which seeks to manage new developments contribution to the neighbourhood and townscape; and (b) The policy wording to better recognise the MCZ rule setting and the intent of the NPS-UD (particularly Policy 6) that recognises the planned urban built form and that change to existing amenity is not in itself an adverse effect; and to simplify and clarify the neighbourhood and townscape outcomes that plan is seeking to manage.	Retain LCZ-P7 (Quality design – neighbourhood and townscape outcomes) and seeks amendment.
Kāinga Ora Homes and Communities	391.577	Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Amend	Generally supports LCZ-P7, but seeks amendment to: (a) The policy name to better reflect the intent of the policy and the subsequent wording, which seeks to manage new developments contribution to the neighbourhood and townscape; and (b) The policy wording to better recognise the MCZ rule setting and the intent of the NPS-UD (particularly Policy 6) that recognises the planned urban built form and that change to existing amenity is not in itself an adverse effect; and to simplify and clarify the neighbourhood and townscape outcomes that plan is seeking to manage.	Amend LCZ-P7 (Quality design – neighbourhood and townscape outcomes) as follows: Quality design – Neighbourhood and townscape outcomes Require new development, and alterations and additions to existing development at a site scale, to positively contribute to the sense of place, quality and <u>planned urban built form and function amenity</u> of the Local Centre Zone by: 1. Recognising the benefits of well-designed, comprehensive development, including the extent to which the development: a. Acts as a positive catalyst for future change by reflecting <u>Reflects</u> the nature and scale of the development proposed enabled <u>enabled</u> within the zone and in the vicinity and responds to the evolving, more intensive identity of the neighbourhood; b. Optimises the development capacity of land, particularly sites that are: i. Large; or ii. Narrow; or iii. Vacant; or iv. Ground level parking areas; c. Provides for the increased levels of residential accommodation enabled in this zone; and d. Provides for a range of supporting business, open space and community facilities; and 3. Ensuring that the development, where relevant: a. Responds to the site context, particularly where it is located adjacent to: I. A scheduled site of significance to tangata whenua or other Māori; ii. Heritage buildings, heritage structures and heritage areas; iii. An identified character precinct; ...
Wellington Heritage Professionals	412.78	Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Support	Supports this policy to ensure that development responds to site context, where it is located adjacent to a site of significance to Māori, heritage place or character precinct.	Retain LCZ-P7 (Quality design – neighbourhood and townscape outcomes) as notified.
Foodstuffs North Island	476.24	Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Support in part	Considers that whilst functional and operational needs are referred to within some assessment criteria, there is no correlation to any policies.	Retain LCZ-P7 (Quality design – neighbourhood and townscape outcomes) with amendment.
Foodstuffs North Island	476.25	Commercial and mixed use Zones / Local Centre Zone / LCZ-P7	Amend	Considers that whilst functional and operational needs are referred to within some assessment criteria, there is no correlation to any policies.	Amend LCZ-P7 (Quality design – neighbourhood and townscape outcomes) to include the following: Recognise the functional and operational requirements of activities and development.
Restaurant Brands Limited	349.93	Commercial and mixed use Zones / Local Centre Zone / LCZ-P8	Support	Support	Retain LCZ-P8 (On-site residential amenity) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Z Energy Limited	361.35	Commercial and mixed use Zones / Local Centre Zone / LCZ-P8	Support	LCZ-P8 is supported as it seeks to achieve a good standard of amenity for residential activities.	Retain LCZ-P8 (On-site residential amenity) as notified.
WCC Environmental Reference Group	377.460	Commercial and mixed use Zones / Local Centre Zone / LCZ-P8	Support	The policy framework of the LCZ is supported as it allows the management of Local Centre Zones in a way that provides for the needs to the local neighbourhood and wider city.	Retain LCZ-P8 (On-site residential amenity) as notified.
Kāinga Ora Homes and Communities	391.578	Commercial and mixed use Zones / Local Centre Zone / LCZ-P8	Support in part	Supports LCZ-P8 in part subject to amendments to relevant rules being made to clarify the extent of on-site amenity requirements. Amendments to remove communal outdoor space and outlook requirements are also sought as this is already covered by reference to outdoor space generally and this could be private outdoor space and outlook requirements should not be mandatory in a higher density living situation.	Retain LCZ-P8 (On-site residential amenity) and seeks amendment.
Kāinga Ora Homes and Communities	391.579	Commercial and mixed use Zones / Local Centre Zone / LCZ-P8	Amend	Supports LCZ-P8 in part subject to amendments to relevant rules being made to clarify the extent of on-site amenity requirements. Amendments to remove communal outdoor space and outlook requirements are also sought as this is already covered by reference to outdoor space generally and this could be private outdoor space and outlook requirements should not be mandatory in a higher density living situation.	Amend LCZ-P8 (On-site residential amenity) as follows: Achieve a good standard of amenity for residential activities in the Local Centre Zone by <u>ensuring access to convenient outdoor space</u> :- 1. Providing residents with access to adequate outlook; and 2. Ensuring access to convenient outdoor space, including private or shared communal areas.
Restaurant Brands Limited	349.94	Commercial and mixed use Zones / Local Centre Zone / LCZ-P9	Support	Support	Retain LCZ-P9 (Managing adverse effects) as notified.
Retirement Villages Association of New Zealand Incorporated	350.239	Commercial and mixed use Zones / Local Centre Zone / LCZ-P9	Oppose in part	Agrees that shading, privacy, bulk and dominance effects on adjacent sites require management. However, the level of management needs to be informed by the development expectations for the zone.	Opposes LCZ-P9 (Managing adverse effects) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.240	Commercial and mixed use Zones / Local Centre Zone / LCZ-P9	Amend	Agrees that shading, privacy, bulk and dominance effects on adjacent sites require management. However, the level of management needs to be informed by the development expectations for the zone.	Seeks to Add new "role of density standards" policy in the Local Centre Zone chapter as follows: <u>MRZ-PX Role of density standards</u> <u>Enable the density standards to be utilised as a baseline for the assessment of the effects of developments.</u>
Z Energy Limited	361.36	Commercial and mixed use Zones / Local Centre Zone / LCZ-P9	Support	LCZ-P9 I supported as it seeks to manage adverse effects relating to shading, privacy, bulk and dominance effects as well as effects on the transport network.	Retain LCZ-P9 (Managing adverse effects) as notified.
WCC Environmental Reference Group	377.461	Commercial and mixed use Zones / Local Centre Zone / LCZ-P9	Support	The policy framework of the LCZ is supported as it allows the management of Local Centre Zones in a way that provides for the needs to the local neighbourhood and wider city.	Retain LCZ-P9 (Managing adverse effects) as notified.
Kāinga Ora Homes and Communities	391.580	Commercial and mixed use Zones / Local Centre Zone / LCZ-P9	Support in part	Considers that an amendment is required to LCZ-P9 to specify that adverse effects that need consideration are those beyond what is anticipated in the zone, is consistent with the proposed zone framework and in accordance with Policy 6 NPSUD. Kāinga Ora Homes and Communities	391.581	Commercial and mixed use Zones / Local Centre Zone / LCZ-P9	Amend	Considers that an amendment is required to LCZ-P9 to specify that adverse effects that need consideration are those beyond what is anticipated in the zone, is consistent with the proposed zone framework and in accordance with Policy 6 NPSUD.	Amend LCZ-P9 (Managing adverse effects) as follows: Recognise the evolving, higher density development context enabled in the Local Centres Zone, while managing any associated adverse effects <u>beyond those anticipated within the zone</u> , including: 1. Shading, privacy, bulk and dominance effects on adjacent sites; and 2. The impact of construction on the transport network.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
McDonald's	274.25	Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Oppose	McDonald's is opposed to the 'City Outcomes Contributions' provisions and considers that developments that breach height standards should instead be considered on their merits and effects. The merits of a proposal should not be confined to a specified and required list.	Seeks that LCZ-P10 (City Outcomes Contributions) is deleted.
Property Council New Zealand	338.15	Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Amend	Considers that incentives for large developments that can demonstrate a City Outcomes Contribution (such as priority consenting) would establish a quid pro quo system and enable growth rather than placing additional obstacles for large-scale development to occur.	Seeks that incentives be provided to encourage but not require large developments to deliver City Outcomes Contributions.
The Retirement Villages Association of New Zealand Incorporated	FS126.206	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.206	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Restaurant Brands Limited	349.95	Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Oppose	Oppose The Centres and Mixed-Use Design Guide (and the associated policy and matters of discretion linkages), do not recognise or provide for the functional or operational requirements of activities. The Design Guide reads as a set of rules to be complied with, rather than guidelines to inform the assessment of applications for resource consent and will result in an unnecessarily onerous and unreasonable resource consent process. The Design Guide places unreasonable requirements on applicants on matters that are more appropriately dealt with at a national level (for example, reducing travel/shipping costs of materials to reduce carbon emissions, and installing insulation above minimum requirements). The imposition of "thresholds" for certain types of development result in a "pass/fail" assessment being applied and will result in an unnecessarily onerous and unreasonable resource consent process.	Amend LCZ-P10 (City outcomes contribution) as follows: ... Require over height, large-scale residential, non-residential and comprehensive development in the Local Centre Zone to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107, including through either: 1. Positively contributing to public space provision and the amenity of the site and surrounding area; and/or 2. Incorporating a level of building performance that leads to reduced carbon emissions and increased climate change resilience; and/or 3-2. Incorporating ... 4-3. Incorporating ... 5-4. Enabling ...
Foodstuffs North Island	FS23.43	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Oppose	FSNI submission point 476.26 seeks to delete this policy in its entirety, FSNI submission point 476.25 seeks that functional or operational requirements of activities and development are recognised in LCZ-P7. Submission point 349.95 seeks to amend LCZ-P10.	Disallow / Reject submission in part.
Retirement Villages Association of New Zealand Incorporated	350.241	Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Oppose	Opposes the inclusion of the City Outcomes Contribution requirements of LCZ-P10 and considers that any requirements associated with developments that are under or over height should directly relate to mitigation of potential or actual effects. Considers that the policy would create barriers that strongly conflict with the need to resolve the housing crisis and address the needs of the rapidly growing aging population.	Delete LCZ-P10 (City outcomes contribution) in its entirety.
Woolworths New Zealand	359.62	Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Amend	Considers that LCZ-P10 is unclear and should be amended. The policy contains an incorrect reference to the Centres and Mixed Use Design Guide document (should be G97 as opposed to G107). A review of the guideline indicates that G97 City Outcomes Contribution is only triggered for City Centre zone developments (under or over height development comprising 50 or more units or any comprehensive development) and for over height development comprising 25 or more units or any comprehensive development in the Metropolitan Centre zone (MCZ), Neighbourhood Centre zone (NCZ), Local Centre zone (LCZ) and High Density Residential zone (HRZ). As such, the Policy as currently drafted implies that any non-residential development in the LCZ is subject to this policy which is incorrect. The above amendment seeks to align this Policy with the Guide document.	Amend LCZ-P10 (City outcomes contribution) as follows: Require over height, large-scale residential, non-residential and comprehensive development that are over height in the Local Centre Zone to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107 G97, including through either:

Foodstuffs North Island	FS23.9	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Oppose	Submission point 359.62 seeks to amend LCZ-P10. FSNI submission point 476.26 seeks to delete LCZ-P10 in it's entirety.	Disallow / Reject submission in part.
Z Energy Limited	361.37	Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Support in part	LCZ-P10 is supported as it seeks to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107. However, the policy should also recognise the existing environment. [Submitter identified LCZ-P11 instead of LCZ-P10 (City outcomes contribution); submission points have been changed to refer to LCZ-P10]	Retain LCZ-P10 (City outcomes contribution) with amendment.
Z Energy Limited	361.38	Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Amend	Considers that LCZ-P10 should be amended to recognise the existing environment. [Submitter identified LCZ-P11 instead of LCZ-P10 (City outcomes contribution); submission points have been changed to refer to LCZ-P10]	Amend LCZ-P10 (City outcomes contribution) as follows: Require over height, large-scale residential, non-residential and comprehensive development in the Local Centre Zone to deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107, <u>while recognising the existing environment</u> including through either: ...
WCC Environmental Reference Group	377.462	Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Support	The policy framework of the LCZ is supported as it allows the management of Local Centre Zones in a way that provides for the needs to the local neighbourhood and wider city.	Retain LCZ-P10 (City outcomes contribution) as notified.
Kāinga Ora Homes and Communities	391.582	Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Oppose in part	Opposes requiring 'City Outcomes Contribution' for development in LCZ-P10. This policy has the potential to disincentivise residential development. 'Over height' developments should instead be considered on their own merits and effects. Deletion sought. Kāinga Ora opposes this policy for the following reasons: (a) all of these activities are anticipated by the zone, and this policy has the potential to disincentivise intensified development; (b) Over height development should be assessed based on the potential or actual effects or the proposed infringement, as provided for by the rule framework; (c) Notwithstanding the above, there is no definition for large-scale residential, which creates ambiguity within the plan	Retain LCZ-P10 (City outcomes contribution) and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.154	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Not specified	The RVA oppose in part the relief sought in this submission as it is inconsistent with The RVA's primary submission where The RVA sought this provision be deleted in full.	Amend / Disallow the submission point and instead grant the relief sought by The RVA.
Ryman Healthcare Limited	FS128.154	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Not specified	Ryman oppose in part the relief sought in this submission as it is inconsistent with Ryman's primary submission where Ryman sought this provision be deleted in full.	Amend / Disallow the submission point and instead grant the relief sought by Ryman.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.583	Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Amend	Opposes requiring 'City Outcomes Contribution' for development in LCZ-P10. This policy has the potential to disincentivise residential development. 'Over height' developments should instead be considered on their own merits and effects. Deletion sought. Kāinga Ora opposes this policy for the following reasons: (a) all of these activities are anticipated by the zone, and this policy has the potential to disincentivise intensified development; (b) Over height development should be assessed based on the potential or actual effects or the proposed infringement, as provided for by the rule framework; (c) Notwithstanding the above, there is no definition for large-scale residential, which creates ambiguity within the plan	Amend LCZ-P10 (City outcomes contribution) as follows: Require over height, large-scale residential, non-residential and comprehensive Encourage development within the Local Centre Zone in the Local Centre Zone to contribute to positive outcomes deliver City Outcomes Contributions as detailed and scored in the Centres and Mixed Use Design Guide guideline G107, including through either: 1. Positively contributing to public space provision and the amenity of the site and surrounding area; and/or 2. Incorporating a level of building performance that leads to reduced carbon emissions and increased climate change resilience; and/or 3. Incorporating construction materials that increase the lifespan and resilience of the development and reduce ongoing maintenance costs; and/or 4. Incorporating assisted housing into the development, where this is provided, legal instruments are required to ensure that it remains assisted housing for at least 25 years; and/or 5. Enabling ease of access for people of all ages and mobility.
The Retirement Villages Association of New Zealand Incorporated	FS126.155	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Not specified	The RVA oppose in part the relief sought in this submission as it is inconsistent with The RVA's primary submission where The RVA sought this provision be deleted in full.	Amend / Disallow the submission point and instead grant the relief sought by The RVA.
Ryman Healthcare Limited	FS128.155	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Not specified	Ryman oppose in part the relief sought in this submission as it is inconsistent with Ryman's primary submission where Ryman sought this provision be deleted in full.	Amend / Disallow the submission point and instead grant the relief sought by Ryman.
Investore Property Limited	405.66	Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Oppose	Considers that the 'City Outcomes Contributions' provisions are inappropriate. Specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development which he submitter considers is inappropriate. Developments that breach height standards should instead be considered on their own merits and effects. [Refer to original submission for full reason, including attachment]	Seeks that LCZ-P10 (City Outcomes Contribution) is deleted in its entirety as notified.
VicLabour	414.37	Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Support in part	Supportive of the inclusion of a points based system to allow developments outside of some of the rules in the PDP if they provide other benefits (the city outcomes contribution mechanism) but considers it an example of how arbitrary and excessive many of these regulations are, particularly around height and character protections.	Seeks to retain points based system to allow developments outside of some of the rules in the PDP if they provide other benefits. [Inferred decision requested]
Fabric Property Limited	425.52	Commercial and mixed use Zones / Local Centre Zone / LCZ-P10	Oppose	Opposed to the 'City Outcomes Contributions' provisions, and specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development. While Fabric recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list. The 'City Outcomes Contributions' have the potential to act as a disincentive for development, which conflicts with the Proposed Plan strategic objectives and NPS-UD requirements of providing development capacity and providing for urban intensification. This would not achieve the aim of "density done well" as stated in the Design Guide. Seeks that all references to the City Outcomes Contributions be removed from the Proposed Plan and design guides.	Delete LCZ-P10 (City Outcomes Contribution) in its entirety.

Ara Poutama Aotearoa the Department of Corrections	240.34	Commercial and mixed use Zones / Local Centre Zone / LCZ-R6	Support	Considers that community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification. The permitted activity status (enabled by the associated policies) is appropriate in the context of the current and potential future establishment and operation of a community corrections facility or facilities within these areas in Wellington City.	Retain LCZ-R6 (Community corrections activities) as notified.
WCC Environmental Reference Group	377.468	Commercial and mixed use Zones / Local Centre Zone / LCZ-R6	Support	The strong rule framework of this Rule in managing local centres and operationalising the objectives and policies of the Local Centre Zone chapter is supported.	Retain LCZ-R6 (Community corrections activities) as notified.
WCC Environmental Reference Group	377.469	Commercial and mixed use Zones / Local Centre Zone / LCZ-R7	Support	The strong rule framework of this Rule in managing local centres and operationalising the objectives and policies of the Local Centre Zone chapter is supported.	Retain LCZ-R7 (Visitor accommodation) as notified.
WCC Environmental Reference Group	377.470	Commercial and mixed use Zones / Local Centre Zone / LCZ-R8	Support	The strong rule framework of this Rule in managing local centres and operationalising the objectives and policies of the Local Centre Zone chapter is supported.	Retain LCZ-R8 (Recreational activities) as notified.
WCC Environmental Reference Group	377.471	Commercial and mixed use Zones / Local Centre Zone / LCZ-R9	Support	The strong rule framework of this Rule in managing local centres and operationalising the objectives and policies of the Local Centre Zone chapter is supported.	Retain LCZ-R9 (Public transport activities) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.35	Commercial and mixed use Zones / Local Centre Zone / LCZ-R10	Support	Considers that the permitted activity status (enabled by the associated policies) is appropriate in the context of the establishment and operation of supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama.	Retain LCZ-R10 (Residential activities) as notified.
Friends of Khandallah	252.3	Commercial and mixed use Zones / Local Centre Zone / LCZ-R10	Amend	Considers that developers will abuse LCZ-R10 without the amendment. No developers have built residential on top of commercial in Wellington and developers do not like doing retail development. Retain rents in Khandallah are insufficient to justify the development of new retail space in Khandallah. People do not like purchasing/leasing residential above food-courts or premises. [Refer to original submission for full reason]	Seeks that LCZ-R10 (Residential Activities) is amended so that the entire ground floor needs to be non-residential.
The Retirement Villages Association of New Zealand Incorporated	FS126.51	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R10	Oppose	The RVA opposes the relief sought in this submission as matters relating to fire-fighting servicing are already provided for under the Building Act and it is inappropriate to duplicate controls under the Proposed Plan.	Disallow
Ryman Healthcare Limited	FS128.51	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R10	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission. Ryman considers that residential activities, including retirement villages should be permitted at ground floor level.	Disallow
Retirement Villages Association of New Zealand Incorporated	350.242	Commercial and mixed use Zones / Local Centre Zone / LCZ-R10	Oppose in part	Opposes limitations on ground level residential activities.	Opposes LCZ-10 (Residential Activities) and seeks amendment.

Retirement Villages Association of New Zealand Incorporated	350.243	Commercial and mixed use Zones / Local Centre Zone / LCZ-R10	Amend	Opposes limitations on ground level residential activities.	Seeks a the addition of a Rule specific to retirement villages.
Waka Kotahi NZ Transport Agency	FS103.31	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R10	Oppose	Waka Kotahi supports the limitation of residential activities at ground floor to retain the commercial centre vibrancy and walkability.	Disallow
WCC Environmental Reference Group	377.472	Commercial and mixed use Zones / Local Centre Zone / LCZ-R10	Support	The strong rule framework of this Rule in managing local centres and operationalising the objectives and policies of the Local Centre Zone chapter is supported.	Retain LCZ-R10 (Residential activities) as notified.
Kāinga Ora Homes and Communities	391.584	Commercial and mixed use Zones / Local Centre Zone / LCZ-R10	Support in part	Supports LCZ-R10 in part as residential activities should be enabled in Local Centres, but seeks that: (a) The activity status for non-compliance is amended to Restricted Discretionary with preclusion for limited notification and appropriate matters of discretion are restricted to Policy 7 and 8 matters. (b) Rules related to verandah coverage are removed, as it is considered that residential activities should be provided for where verandah coverage is required, particularly when ground floor development is controlled on active frontages and non-residential activity frontages in accordance with LCZ-P4. (c) Reference to natural hazards is removed as these matters are controlled by Natural Hazard rules and the proposed wording is inconsistent with this approach and does not manage residential activity at ground level in hazard overlay areas	Retain LCZ-R10 (Residential activities) and seeks amendment.
Kāinga Ora Homes and Communities	391.585	Commercial and mixed use Zones / Local Centre Zone / LCZ-R10	Amend	Supports LCZ-R10 in part as residential activities should be enabled in Local Centres, but seeks that: (a) The activity status for non-compliance is amended to Restricted Discretionary with preclusion for limited notification and appropriate matters of discretion are restricted to Policy 7 and 8 matters. (b) Rules related to verandah coverage are removed, as it is considered that residential activities should be provided for where verandah coverage is required, particularly when ground floor development is controlled on active frontages and non-residential activity frontages in accordance with LCZ-P4. (c) Reference to natural hazards is removed as these matters are controlled by Natural Hazard rules and the proposed wording is inconsistent with this approach and does not manage residential activity at ground level in hazard overlay areas	Amend LCZ-R10 (Residential activities) as follows: 1. Activity status: Permitted Where: a. The activity is located: i. Above ground floor level; ii. At ground floor level along any street edge not identified as an active frontage; <u>and</u> iii. At ground floor level along any street edge not identified as a non-residential activity frontage; iv. At ground level along any street not identified as requiring verandah coverage; or v. At ground level on any site contained within a Natural Hazard Overlay. Activity status: Discretionary <u>Restricted Discretionary</u> Where: a. Compliance with the requirements of LCZ-R10.1.a cannot be achieved. <u>Matters of discretion are restricted to:</u> <u>1. The matters in LCZ-P7 and LCZ-P8.</u> Notification status: An application for resource consent made in respect of rule LCZ-R10.2.a is precluded from being <u>limited and</u> publicly notified
WCC Environmental Reference Group	377.473	Commercial and mixed use Zones / Local Centre Zone / LCZ-R11	Support	The strong rule framework of this Rule in managing local centres and operationalising the objectives and policies of the Local Centre Zone chapter is supported.	Retain LCZ-R11 (Integrated retail activity) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association Inc	FS114.44	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R11	Oppose	<p>Considers that the rule was introduced by the WCC to block the original Johnsonville Mall development and was retained in the DPC72. Considers that WCC does not have either the responsibility or capability to regulate the normal market process. It should not impose its own centres hierarchy that restricts where and when retail businesses can locate. Considers the incorporation of the rules specifically protecting retailers on the Golden Mile from legal competition is not only specifically part of the strategy of the WCC, it is even specifically prohibited under the Resource Management Act. As follows:</p> <p>(3) In preparing or changing any district plan, a territorial authority must not have regard to trade competition or the effects of trade competition.</p> <p>Resource Management Act 1991 (as at 15 November 2021), Part 5, Section 74</p> <p>It is also noted that, while the Golden Mile is the only retail with specific protection under the proposed policies and rules, there is no supporting justification for why this huge retail area needs such protection under the district plan. The continued presence of this economic protection rule is a significant reason why the Johnsonville Mall has not been developed. The continued inclusion of this rule in the PDP essentially ensures any future Johnsonville retail development is restricted or even blocked when such development would have a major positive contribution to North Wellington City and the city in general.</p>	Disallow / Delete LCZ-R11 (Integrated Retail Activity) in its entirety.
Kāinga Ora Homes and Communities	391.586	Commercial and mixed use Zones / Local Centre Zone / LCZ-R11	Amend	<p>Considers that the Integrated Retail Activity gross floor areas of 20,000m2 do not reflect the scale of the Centres hierarchy anticipated in the NPSUD and the National Planning Standards. In some cases, the size of the Zones would not be large enough to accommodate 20,000m2 GFA.</p>	Seeks to reduce the Integrated Retail Activity Gross Floor Area in LCZ-R11 (Integrated retail activity) to better reflect their lower order of Local Centres in the Centres hierarchy.
Johnsonville Community Association Inc	FS114.37	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R11	Oppose	<p>Considers that the rule was introduced by the WCC to block the original Johnsonville Mall development and was retained in the DPC72. Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.474	Commercial and mixed use Zones / Local Centre Zone / LCZ-R12	Amend	Considers that LCZ-R12 is far too restrictive and should be amended. Community waste collection and recycling could be key aspects of a more sustainable 'circular' economy. Non-complying status with compulsory public notification is a major barrier to any activity. This could be a major roadblock for community waste management, small scale composting or niche recycling activities. For example it is not clear a small scale bottle recycling and cleaning business would not be caught by this rule.	Amend LCZ-R12.2 (Industrial activities) as follows: 2. Activity Status: Non-complying <u>Discretionary</u> Where: Compliance with the requirements of LCZ-R12.1.a cannot be achieved. Notification status: An application for resource consent made in respect of rule LCZ-R12.2.a must be publicly notified.
McDonald's	274.26	Commercial and mixed use Zones / Local Centre Zone / LCZ-R13	Oppose in part	Opposed to the Discretionary Activity status for car parking activities that do not comply with the permitted activity requirements.	Retain LCZ-R13.2 (Carparking activities), subject to amendment outlined other submission points.
McDonald's	274.27	Commercial and mixed use Zones / Local Centre Zone / LCZ-R13	Amend	Opposed to the Discretionary Activity status for car parking activities that do not comply with the permitted activity requirements.	Amend LCZ-R13.2 (Carparking activities) as follows: ... 2. Activity status: Discretionary <u>Restricted Discretionary</u> Where: a. Compliance with the requirements of LCZ-R1.1.a cannot be achieved.
Woolworths New Zealand	359.63	Commercial and mixed use Zones / Local Centre Zone / LCZ-R13	Amend	Considers that LCZ-R13 should be amended so that the activity status of this standard infringement is changed to restricted discretionary. It is considered that this status, plus the suggested matters of discretion, will ensure an appropriate assessment of effects is undertaken, whilst providing a level of certainty to applicants that where activities are anticipated, such assessments will be rational and streamlined. Supermarkets often require car parking to be visible, both from commercial viability perspective but also given the requirements to separate loading and servicing activities from public interfaces. This site layout requires that loading is located to the rear of a store, with the building in front and the entrance accessible and legible from the car park and street frontage. The application of blanket urban design ideals in these standards is challenged such that the proposed amendment seeks to explicitly exclude supermarkets from complying with this standard.	Amend LCZ-R13.2 (Carparking activities) as follows: 2. Activity status: <u>Restricted</u> Discretionary Where: a. Compliance with the requirements of LCZ-R13.1.a is not achieved. <u>Matters of discretion are:</u> <u>1. The matters in LCZ-P2, LCZ-P3, LCZ-P4, LCZ-P7, LCZ-P9 and LCZ-P10;</u> <u>2. The cumulative effect of the development on:</u> <u>a. The ongoing viability and vibrancy of the Zone ;</u> <u>b. The safety and efficiency of the transport network, including providing for a range of transport modes;</u> <u>c. The hierarchy of roads, travel demand or vehicle use; and</u> <u>3. The compatibility with other activities provided for in the zone.</u> <u>Note: Rule LCZ-R13 does not apply to new supermarkets or additions to existing supermarkets.</u>
Foodstuffs North Island	FS23.10	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R13	Support	Submission point 359.63 partly supports FSNI submission points 476.27 and 476.28.	Allow / Allow submission in part.
Greater Wellington Regional Council	FS84.107	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R13	Oppose	Greater Wellington oppose this submission point. A "discretionary" activity status provides necessary controls for carparking activities which align with the direction of Proposed RPS Change 1, including objectives CC.1 and CC.3, and policies CC.1, CC.3 and CC.9.	Disallow / Seeks that the provisions be retained as notified and support provisions that support active transport nodes.
Waka Kotahi NZ Transport Agency	FS103.32	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R13	Oppose	Space in the centres is valuable, but the use of that space can have a wide range of effects (negative and positive), including on the character, perceptions of safety, road user behaviour, walkability and choice of transport mode. It is considered appropriate that non-compliant car parking provision consider a wide range of effects	Disallow

Kāinga Ora Homes and Communities	391.589	Commercial and mixed use Zones / Local Centre Zone / LCZ-R13	Support	Generally supports LCZ-R13.	Retain LCZ-R13 (Carparking activities) as notified.
Foodstuffs North Island	476.27	Commercial and mixed use Zones / Local Centre Zone / LCZ-R13	Oppose	Opposes the Discretionary Activity status in LCZ-R13 for car parking activities that do not comply with the Permitted Activity requirements.	Amend LCZ-R13 (Carparking activities) as follows: ... 2. Activity status: Discretionary <u>Restricted Discretionary</u> ...
Foodstuffs North Island	476.28	Commercial and mixed use Zones / Local Centre Zone / LCZ-R13	Amend	Opposes the Discretionary Activity status in LCZ-R13 for car parking activities that do not comply with the Permitted Activity requirements.	Amend LCZ-R13 (Carparking activities) as follows: ... 2. Activity status: Discretionary <u>Restricted Discretionary</u> ...
Greater Wellington Regional Council	FS84.104	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R13	Oppose	Greater Wellington oppose this submission point. A “discretionary” activity status provides necessary controls for carparking activities which align with the direction of Proposed RPS Change 1, including objectives CC.1 and CC.3, and policies CC.1, CC.3 and CC.9	Disallow / Seeks that the provisions be retained as notified and support provisions that support active transport nodes.
Z Energy Limited	361.39	Commercial and mixed use Zones / Local Centre Zone / LCZ-R14	Support in part	LCZ-R14 is supported in so much as it provides for yard-based retail activities (the definition of which includes service stations) as a discretionary activity.	Retain LCZ-R14 (Yard-based retailing activities) with amendment.
Z Energy Limited	361.40	Commercial and mixed use Zones / Local Centre Zone / LCZ-R14	Amend	Considers that LCZ-R14 should be amended to make changes to the notification status to exclude activities relating to the operation, maintenance and upgrading of existing activities and activities adjoining specific areas.	Amend LCZ-R14 (Yard-based retailing activities) as follows: 1. Activity status: Discretionary Notification Status: An application for resource consent made in respect of rule CCZ-R15 must be publicly notified <u>except:</u> <u>a. The activity relates to the maintenance, operation and upgrading of an existing activity;</u> <u>b. The new or existing activity adjoins another commercial zone, a residential zone or an arterial or collector Road.</u>
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.149	Commercial and mixed use Zones / Local Centre Zone / LCZ-R14	Support in part	LCZ-R14 is supported in so much as the rule provides for yard-based retail activities as a discretionary activity. It is understood that an application for resource consent made in respect of this rule, however, must be publicly notified in accordance with the Notification Status. [Submitter identified LCZ-R16 (Maintenance and repair of buildings and structures) instead of LCZ-R14 (Yard-based retailing activities); submission points have been changed to refer to LCZ-R14]	Retain LCZ-R14 (Yard-based retailing activities) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.150	Commercial and mixed use Zones / Local Centre Zone / LCZ-R14	Amend	<p>Considers that LCZ-R14 should be amended as the notification requirement is not supported as it may have a range of unintended outcomes. For instance, without clarification, it may require public notification for any operational change, upgrading or maintenance to an existing yard-based activity where public notification would be more appropriately determined through standard notification tests. It may therefore also discourage existing activities from undertaking important maintenance and upgrades, for instance, to meet requirements of HSNO / HSWA legislation, better accord with good practise, introduce new technologies, or necessary changes to meet demand.</p> <p>Ongoing operation, maintenance, and upgrades of existing service stations / yard-based retail activities should not be subject to this notification requirement, which is not appropriate for existing lawful activities.</p> <p>It is considered that an additional exclusion to the notification status is appropriate only where the existing or new activity is located on the edge of the zone or adjacent to an arterial or collector road. These locations and/or interfaces do not have, nor should they expect, the same urban design outcomes and levels of visual amenity compared to a centrally located site in the CCZ for example. A service station, for example, would not impact the function and vitality of a centre zone if it were located on the edge of the zone where it can appropriately transition to the adjoining zone.</p>	<p>Amend LCZ-R14 (Yard-based retailing activities) as follows:</p> <p>Notification Status: An application for resource consent made in respect of rule LCZ-R14 must be publicly notified <u>except</u>:</p> <p><u>a. The activity relates to the maintenance, operation and upgrading of an existing activity;</u> <u>b. The new or existing activity adjoins another commercial zone, a residential zone or an arterial or collector Road.</u></p>
WCC Environmental Reference Group	377.475	Commercial and mixed use Zones / Local Centre Zone / LCZ-R14	Amend	<p>Considers that LCZ-R14 should be amended as it seems unduly restrictive to limit all yard-based activities in neighbourhood centre zones. For example, garden centres and plant sales would seem a business that would fit perfectly within neighbour centres. Having a wide range of activities in local neighbourhoods is fundamental to limiting car use and this policy may hinder creating 'walkable' neighbourhoods. It may even be appropriate to have some permitted activity rules for some yard based activities - for example a small garden centre. Drafting for this policy was not specifically provided but it is considered this should be reconsidered as the 50% total area yard restriction appears to catch a wide range of activities, many of which may be appropriate and should be permitted in neighbourhood centres.</p>	<p>Amend LCZ-R14 (Yard-based retailing activities) as follows:</p> <p>1. Activity status: <u>Restricted Discretionary</u></p> <p><u>Matters of discretion are:</u> <u>1. The matters in LCZ-P1, LCZ-P2, LCZ-P3 and LCZ-P4;</u></p> <p>Notification status: An application for resource consent made in respect of rule LCZ-R15 must be publicly notified.</p>
Fire and Emergency New Zealand	273.268	Commercial and mixed use Zones / Local Centre Zone / LCZ-R16	Support	<p>Supports the rule as the demolition or removal of buildings and structures within the LCZ are a permitted activity.</p>	<p>Retain LCZ-R16 (Maintenance and repair of buildings and structures) as notified.</p>

Greater Wellington Regional Council	351.270	Commercial and mixed use Zones / Local Centre Zone / LCZ-R17	Support in part	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Retain LCZ-R17 (Demolition or removal of a buildings and structures) with amendment.
Greater Wellington Regional Council	351.271	Commercial and mixed use Zones / Local Centre Zone / LCZ-R17	Amend	Supports the permitted activity status for the demolition of buildings provided that building waste is properly disposed of. This gives effect to Policy 34 of the operative RPS.	Amend LCZ-R17 (Demolition or removal of a buildings and structures) to include a rule requirement that permitted activity status is subject to building and demolition waste being disposed of at an approved facility.
Kāinga Ora Homes and Communities	391.591	Commercial and mixed use Zones / Local Centre Zone / LCZ-R17	Support in part	Supports LCZ-R17 in part but seeks an amendment to ensure the rule only applies to active and non-residential activity frontages. The notification status is supported.	Retain LCZ-R17.1 (Demolition or removal of buildings and structures) and seeks amendment.
Kāinga Ora Homes and Communities	391.592	Commercial and mixed use Zones / Local Centre Zone / LCZ-R17	Amend	Supports LCZ-R17 in part but seeks an amendment to ensure the rule only applies to active and non-residential activity frontages. The notification status is supported.	Amend LCZ-R17.1 (Demolition or removal of buildings and structures) as follows: 1. Activity status: Permitted Where: a. <u>The demolition or removal of a building on a site that has an active frontage or non-residential activity frontage:</u>
Investore Property Limited	405.67	Commercial and mixed use Zones / Local Centre Zone / LCZ-R17	Support in part	Seeks amendments to LCZ-R17 to provide for demolition that does not comply with the permitted conditions as a Restricted Discretionary activity. While the submitter supports the intention of the rule, and supports the preclusion of public and limited notification, the submitter has concerns that as notified it may constrain staged developments that require demolition and clearing of a larger site to enable development. Considers that a restricted discretionary activity status with preclusion of notification would provide greater certainty for development while ensuring that Council still retains appropriate discretion to ensure quality design outcomes.	Retain LCZ-R17.2 (Demolition or removal of buildings and structures) and seeks amendment.
Investore Property Limited	405.68	Commercial and mixed use Zones / Local Centre Zone / LCZ-R17	Amend	Seeks amendments to LCZ-R17 to provide for demolition that does not comply with the permitted conditions as a Restricted Discretionary activity. While the submitter supports the intention of the rule, and supports the preclusion of public and limited notification, the submitter has concerns that as notified it may constrain staged developments that require demolition and clearing of a larger site to enable development. Considers that a restricted discretionary activity status with preclusion of notification would provide greater certainty for development while ensuring that Council still retains appropriate discretion to ensure quality design outcomes.	Amend LCZ-R17.2 (Demolition or removal of buildings and structures) to be a restricted discretionary activity status with a notification preclusion requirement.
Wellington City Council	266.155	Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Amend	Considers a notification status statement is missing in relation to developments where all standards are met.	Amend LCZ-R18.2 (Construction of, or additions and alterations to, buildings and structures) as follows: Notification status: <u>An application for resource consent made in respect of rule LCZ-R18.2.a which complies with all standards is precluded from being either publicly or limited notified. (...)</u>
The Retirement Villages Association of New Zealand Incorporated	FS126.243	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Not specified	The RVA supports the relief sought in this submission in so far as it is consistent with The RVA's primary submission.	Amend / Allow the submission point subject to the relief sought in The RVA's primary submission.
Ryman Healthcare Limited	FS128.243	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Not specified	Ryman supports the relief sought in this submission in so far as it is consistent with Ryman's primary submission.	Amend / Allow the submission point subject to the relief sought in Ryman's primary submission.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.270	Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Support	Supports the rule as the construction or, or additions and alterations to, buildings and structures within the LCZ are a permitted activity.	Retain LCZ-R18 (Construction of or additions and alterations to buildings and structures) as notified.
McDonald's	274.28	Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Oppose in part	Oppose the requirement for restricted discretionary consent where additions and alterations change the exterior to the building above veranda level and are visible from public spaces.	Retain LCZ-R18 (Alterations and additions to buildings and structures), subject to amendment as outlined other submission points.
McDonald's	274.29	Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Amend	Considers where compliance can be achieved with the relevant standards, this should be a permitted activity otherwise McDonald's considered there to be a risk that this will result in the perverse outcome of parts of exterior facades not being updated.	Seeks the following amendment to LCZ-R18 (Alterations and additions to buildings and structures) as follows: 1 a. Any alterations or additions to a building or structure: i. Do not alter the external appearance of the building or structure; or ii. Relate to a building frontage below veranda level, including entranceways and glazing and compliance with LCZ-S5; or iii. Do not result in the creation of new residential units; and iv. Are not visible from public spaces; and v. i. Comply with effects standards LCZ-S1, LCZ-S2, LCZ-S3, LCZ-S4, LCZ-S5 and LCZ-S6.
Restaurant Brands Limited	349.99	Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Oppose	Opposed to the cross reference to the Centres and Mixed-Use Design Guide within the matters of discretion. The cross reference to the policies of the LCZ is sufficient to ensure that development achieves a "good quality, well-functioning environment" as required by LCZ-O3.	Amend LCZ-R18 (Construction of, or additions and alterations to, buildings and structures) as follows: Matters of discretion are: ... 3. The Centres and Mixed-Use Design Guide, including guideline G107 – City Outcomes Contribution for any building that exceeds the maximum height limit requirement and either comprises 25 or more residential units or is a non-residential building; 4-3. 5-4. 6-5. 7-6.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.244	Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Support in part	Supports the construction of, or additions and alterations to, buildings and structures being a permitted or restricted discretionary activity under LCZ-R18. Does not oppose the inclusion of the matters of discretion in Clause 2 relating to the extent and effect on non-compliance with the requirements of LCZ-R18.1. Considers that the matters of discretion in Clause 1, are not appropriate. The listed policies are broad and not specific to the effects of retirement villages that require management. Opposes the inclusion of LCZ-P10 in Clause 1, and the Clause 3 matters of discretion relating to the City Outcomes Contribution for the reasons provided in response to LCZ-P10 above. Considers that due to an absence of any reference to retirement villages in the Centres and Mixed Use and Residential Design Guides, their inclusion as matters of discretion in Clauses 3 and 4 are not of relevance / applicable to retirement villages and should be deleted. Considers that a set of retirement village specific matters of discretion should be included that are based on the MDRS provisions; consider / acknowledge the positive effects offered by retirement villages; the functional and operational needs of retirement villages; and the need to provide for efficient use of larger sites. Considers that for resource consent applications for the construction of or additions / alterations to retirement villages under LCZ-R18 should be precluded from being publicly notified; and that for a resource consent application for the construction of or additions / alterations to retirement villages under LCZ-R18 that complies with LCZ-S1, LCZ-S2 and LCZ-S4 should be precluded from being limited notified.	Retain LCZ-R18.2 (Construction of, or additions and alterations to, buildings and structures) and seeks amendment
Retirement Villages Association of New Zealand Incorporated	350.245	Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Amend	Supports the construction of, or additions and alterations to, buildings and structures being a permitted or restricted discretionary activity under LCZ-R18. Does not oppose the inclusion of the matters of discretion in Clause 2 relating to the extent and effect on non-compliance with the requirements of LCZ-R18.1. Considers that the matters of discretion in Clause 1, are not appropriate. The listed policies are broad and not specific to the effects of retirement villages that require management. Opposes the inclusion of LCZ-P10 in Clause 1, and the Clause 3 matters of discretion relating to the City Outcomes Contribution for the reasons provided in response to LCZ-P10 above. 					<p><u>v. The positive effects of the construction, development and use of the retirement village.</u></p> <p><u>For clarity, no other rules or matters of discretion relating to the effects of density apply to buildings for a retirement village.</u></p> <p>Notification status:</p> <p>An application for resource consent made in respect of rule LCZ-R18.2.a that complies with LCZ-S3, LCZ-S7, LCZ-S8, LCZ-S9, LCZ-S10 and LCZ-S11 is precluded from being either publicly or limited notified.</p> <p>An application for resource consent made in respect of rule LCZ-R18.2.a that results from non-compliance with LCZ-S1, LCZ-S2, LCZ-S4, LCZ-S5 and LCZ-S6 is precluded from being publicly notified.</p> <p><u>An application for resource consent for a retirement village made in respect of rule NCZ-R18.2.a is precluded from being publicly notified.</u></p> <p><u>An application for resource consent for a retirement village made in respect of rule NCZ-R18.2.b where compliance is achieved with NCZ-S1, NCZ-S2 and NCZ-S4 is precluded from being limited notified.</u></p>
Woolworths New Zealand	359.64	Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Amend	Considers that LCZ-R18 should be amended to establish a baseline for supermarket operations within the LCZ that is greater than the current threshold of 100m ² for new buildings on account of the general operational requirements of the stores. This proposed baseline of 2000m ² aligns with the Auckland Unitary Plan provisions in the Local Centre zone and is considered a commensurate response given the typical scale of supermarket buildings in this zone.	<p>Amend LCZ-R18.1 (Construction of, or additions and alterations to, buildings and structures) as follows:</p> <p>1. Activity status: Permitted</p> <p>...</p> <p>b. The construction of any building or structure:</p> <p>i. Is not located on a site with an active frontage or non-residential activity frontage; or</p> <p>ii. Is not visible from a public space; and</p> <p>iii. Will have a gross floor area of less than 100m² <u>except where specified in iv below;</u></p> <p><u>iv. Will have a gross floor area of less than 2000m² where it accommodates a supermarket; and</u></p> <p>iv. Will result in a total coverage (together with other buildings) of no more than 20 percent of the site; and</p> <p>vi. Comply with effects standards LCZ-S1, LCZ-S2, LCZ-S3, LCZ-S4, LCZ-S5 and LCZ-S6; and</p> <p>vii. Does not involve the construction of a new building for residential activities</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.65	Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Amend	Considers that LCZ-R18 restricted discretionary activities should exclude new supermarket buildings. The submitter is concerned around the inclusion of the Centres and Mixed Use Design Guide within these matters of discretion on account of the unnecessary scope this introduces in a restricted discretionary consenting framework. As such, it is specifically sought that that this is excluded from the matters of discretion for new supermarket buildings.	Amend LCZ-R18.2 (Construction of, or additions and alterations to, buildings and structures) as follows: 1. Activity status: Restricted Discretionary Where: 1. Compliance with any of the requirements of LCZ-R18.1 cannot be achieved. Matters of discretion are: 1. The matters in LCZ-P6, LCZ-P7, LCZ-P8, LCZ-P9 and LCZ-P10; <u>excluding for supermarkets exceeding LCZ-R18(b)(iv);</u> 2. For supermarkets exceeding LCZ-R18(b)(iv), the matters in LCZ-P3, LCZ-P4, LCZ-P7, LCZ-P9; 3. The extent and effect of non-compliance with LCZ-S1, LCZ-S2, LCZ-S3, LCZ-S4, LCZ-S5, LCZ-S6, LCZ-S7, LCZ-S8, LCZ-S9, LCZ-S10 and LCZ-S11; 4. The Centres and Mixed-Use Design Guide, including guideline G107-97 - City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 25 or more residential units or is a non-residential building (<u>excluding supermarkets</u>); 5. The Residential Design Guide; 6. The extent and effect of any identifiable site constraints; 7. Construction impacts on the transport network; and 8. The availability and connection to existing or planned three waters infrastructure.
Kāinga Ora Homes and Communities	391.593	Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Support in part	Supports LCZ-R18 in part, particularly the preclusion of public and limited notification.	Retain LCZ-R18 (Construction of, or additions and alterations to, buildings and structures) and seeks amendment.
Kāinga Ora Homes and Communities	391.594	Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Amend	Supports LCZ-R18 in part, particularly the preclusion of public and limited notification. Seeks: (a) amendments to remove direct reference to the design guides given their breadth and to instead rely on the urban design outcomes that are outlined by the policy references and amended standards, and (b) to remove reference to the “City Outcomes Contribution” as this will unduly limit intensive development and height should be assessed on its effects. (c) The removal of reference to residential units as the use is controlled by the activity rules.	Amend LCZ-R18 (Construction of, or additions and alterations to, buildings and structures) as follows: 1. Activity status: Permitted where: a. Any alterations or additions to a building or structure: ... <u>iii. Do not result in the creation of new residential units; and</u> ii. Are not visible from public spaces; and iv. Comply with effects standards LCZ-S1, LCZ-S2, LCZ-S3, LCZ-S4, LCZ-S5 and LCZ-S6. ... 2. Activity status: Restricted Discretionary where: a. Compliance with any of the requirements of LCZ-R18.1 cannot be achieved. Matters of discretion are: 1. The matters in LCZ-P6, LCZ-P7, LCZ-P8, <u>and</u> LCZ-P9 <u>and</u> LCZ-P10; 2. The extent and effect of non-compliance with LCZ-S1, LCZ-S2, LCZ-S3, LCZ-S4, LCZ-S5, LCZ-S6, LCZ-S7, <u>and</u> LCZ-S8, LCZ-S9, LCZ-S10 <u>and</u> LCZ-S11; 3. The Centres and Mixed Use Design Guide, including guideline G107 - City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 25 or more residential units or is a non-residential building; 4. The Residential Design Guide; 5. The extent and effect of any identifiable site constraints; 6. Construction impacts on the transport network; and 7. The availability and connection to existing or planned three waters infrastructure.

Investore Property Limited	405.70	Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Amend	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Amend LCZ-R18.2 (Construction of, or additions and alterations to, buildings and structures) to remove the Design Guide as a matter of discretion and replaced with specific design outcomes that are sought.
The Retirement Villages Association of New Zealand Incorporated	FS126.88	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.88	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Fabric Property Limited	425.53	Commercial and mixed use Zones / Local Centre Zone / LCZ-R18	Amend	<p>Opposed to the 'City Outcomes Contributions' provisions, and specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development. While Fabric recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list.</p> <p>The 'City Outcomes Contributions' have the potential to act as a disincentive for development, which conflicts with the Proposed Plan strategic objectives and NPS-UD requirements of providing development capacity and providing for urban intensification. This would not achieve the aim of "density done well" as stated in the Design Guide.</p> <p>Seeks that all references to the City Outcomes Contributions be removed from the Proposed Plan and design guides.</p>	<p>Amend LCZ-R18.2.3 (City Outcomes Contribution) as follows:</p> <p>...</p> <p>3. The Centres and Mixed Use Design Guide, including guideline G107 – City Outcomes Contribution for any building that exceeds the maximum height requirement and either comprises 25 or more residential units or is a non-residential building.</p> <p>...</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.271	Commercial and mixed use Zones / Local Centre Zone / LCZ-R19	Support in part	Supports the rule as the matters of discretion for these restricted discretionary activities include consideration of the availability and connection to existing or planned three waters infrastructure, particularly where this may involve the conversion of non-habitable rooms to residential use. A minor amendment is however sought to include the necessity to connect to three waters infrastructure including for the purposes of firefighting.	Supports LCZ-R19 (Conversion of buildings or parts of buildings for residential activities), with amendment.
Fire and Emergency New Zealand	273.272	Commercial and mixed use Zones / Local Centre Zone / LCZ-R19	Amend	Supports the rule as the matters of discretion for these restricted discretionary activities include consideration of the availability and connection to existing or planned three waters infrastructure, particularly where this may involve the conversion of non-habitable rooms to residential use. A minor amendment is however sought to include the necessity to connect to three waters infrastructure including for the purposes of firefighting.	Amend LCZ-R19 (Conversion of buildings or parts of buildings for residential activities) as follows: Matters of discretion are: 5. The matters in NCZ-P1, NCZ-P3, NCZ-P6 and NCZ-P8 6. The extent of compliance with standards NCZ-S7, NCZ-S8 and NCZ-S9 and satisfaction of associated assessment criteria; 7. The Residential Design Guide; and 8. The availability and connection to existing or planned three waters infrastructure, <u>including for firefighting purposes.</u>
Kāinga Ora Homes and Communities	391.595	Commercial and mixed use Zones / Local Centre Zone / LCZ-R19	Support in part	Supports LCZ-R19 in part, and particularly supports the preclusion of public and limited notification. Seek amendments to remove direct reference to the design guide as the matters in the relevant policies include those matters articulated through the design guides.	Retain LCZ-R19 (Conversion of buildings, or parts of buildings, for residential activities) and seeks amendment.
Kāinga Ora Homes and Communities	391.596	Commercial and mixed use Zones / Local Centre Zone / LCZ-R19	Amend	Supports LCZ-R19 in part, and particularly supports the preclusion of public and limited notification. Seek amendments to remove direct reference to the design guide as the matters in the relevant policies include those matters articulated through the design guides.	Amend LCZ-R19 (Conversion of buildings, or parts of buildings, for residential activities) as follows: 1. Activity status: Restricted Discretionary Matters of discretion are: 1. The matters in LCZ-P1, LCZ-P3, LCZ-P6, <u>LCZ-P7</u> and LCZ-P8; 2. The extent of compliance with standards LCZ-S7, LCZ-P8 and LCZ-S9 and satisfaction of associated assessment criteria; <u>and</u> 3. The Residential Design Guide; and 43. The availability and connection to existing or planned three waters infrastructure. Notification status: An application for resource consent made in respect of rule LCZ-R19.1 is precluded from being either publicly or limited notified.
Investore Property Limited	405.71	Commercial and mixed use Zones / Local Centre Zone / LCZ-R19	Support in part	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Retain LCZ-R19.2 (Conversion of buildings, or parts of buildings, to residential activities) and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.89	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R19	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.89	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R19	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Investore Property Limited	405.72	Commercial and mixed use Zones / Local Centre Zone / LCZ-R19	Amend	Considers that design guides are reference documents that sit best outside the district plan, rather than being formally incorporated into the district plan.	Amend LCZ-R19.2 (Conversion of buildings, or parts of buildings, to residential activities) to remove the Design Guide as a matter of discretion and replace with specific design outcomes that are sought.

The Retirement Villages Association of New Zealand Incorporated	FS126.90	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R19	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.90	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-R19	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Fire and Emergency New Zealand	273.273	Commercial and mixed use Zones / Local Centre Zone / LCZ-R20	Support in part	Considers it important that the screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Supports LCZ-R20 (Outdoor storage areas), with amendment.
Fire and Emergency New Zealand	273.274	Commercial and mixed use Zones / Local Centre Zone / LCZ-R20	Amend	Considers it important that the screening of outdoor storage areas as a visual mitigation will not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves or other emergency response facilities. Such mitigation should be constructed in a way to ensure the signs and facilities are visible / accessible for FENZ. Where this is not possible, mitigation should not be required.	Amend LCZ-R20 (Outdoor storage areas) as follows: Activity status: Permitted Where: a. The storage area is screened by either a fence or landscaping of 1.8m in height from any adjoining road or site. b. Screening does not obscure emergency or safety signage or obstruct access to emergency panels, hydrants, shut-off valves, or other emergency response facilities.
John L Morrison	28.1	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	Considers that height restrictions in the Churton Park Local Centre should be reduced to 11m to match with the surrounding residential area, instead of the proposed 22m. The area does not meet the rapid transit criteria and the construction of 22m high buildings would be out of character with the surrounding low rise residential areas.	Amend LCZ-S1 (Maximum Height) to remove Churton Park from Height Control Area 3.
David Stephen	82.8	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	Considers that the 22m maximum height limit in the Centres zones should be reduced.	Seeks that the 22m minimum height for Height Control Area 3 at LCZ-S1 (Minimum building height) is reduced.
Ian Law	101.7	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	The 22m height limit in LCZ-S1 (maximum height) is too high and needs to be amended.	Seeks that the height limit in LCZ-S1 (maximum height) should be reduced.
Julie Patricia Ward	103.9	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	Considers that the height limit for all centres defined as LCZ's, other than heritage sites, should be 14 metres. Considers that this limit would establish an appropriate step down to surrounding existing one and two storey buildings and any three storey buildings which are added in the future. Considers that a 22m height limit would create a wind tunnel.	Seeks that the height limit around all LCZ (Local Centre Zone), other than heritage sites, is set at a consistent 14m, excluding heritage sites.
Brian McKenna	113.4	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	Considers that the maximum height in Khandallah should be amended from 22m and set at 14m. Considers that given the narrow one-lane road in most of the village centre, 22m height buildings will create a road-blocked wind tunnel and increased business activities will not survive. Even Karori has a limit of 18 metres.	Amend the maximum height of Khandallah Village to 14m.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Pam Wilson	120.8	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend LCZ-S1 (Maximum height) to reduce the 22m maximum height in Khandallah.
Wellington's Character Charitable Trust	233.22	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Oppose	Opposes Height Control Area 2 - LCZ-S1 (22m) in Khandallah Village. 22m is not appropriate due to the scale of commercial activity and demand for commercial activity in the future. [Refer to original submission for full reason]	Opposes LCZ-S1 (Maximum height) - Height control area 3 - 22m in Khandallah Village.
Wellington's Character Charitable Trust	233.23	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	Considers that the maximum height in Khandallah Village should be 14m	Amend LCZ-S1 (Maximum height) to set a maximum height of 14 m in Khandallah Village
Friends of Khandallah	252.4	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Oppose	Opposes 21m height limits within the Khandallah centre and seeks amendment.	Seeks that the height limits in the Khandallah local centre zone are amended.
Friends of Khandallah	252.5	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	Considers that large scale residential will lead to erosion of commercial by residential. Theoretical planning from other cities is not necessarily good for Khandallah. Commercial areas need to be protected in Khandallah for resilience and emergencies. [Refer to original submission for full reason]	Seeks that the height limits in the Khandallah LCZ (Local Centre Zone) are reduced from 22m- 35m (as part of a resource consent) to 8m. [Inferred decision requested]
Fire and Emergency New Zealand	273.275	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Support in part	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Supports LCZ-S1 (Maximum height), with amendment.
Fire and Emergency New Zealand	273.276	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	Seeks an exemption for hose drying towers associated with emergency service facilities in order to appropriately provide for the operational requirements of FENZ. Whilst referred to as 'hose drying towers', they serve several purposes being for hose drying, communications and training purposes on station. Hose drying towers being required at stations is dependent on locational and operational requirements of each station. These structures can be around 12 to 15 metres in height.	Amend LCZ-S1 (Maximum height) as follows: This standard does not apply to: ... c. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height by more than 1m; and d. Lift overruns provided these do not exceed the height by more than 4m; and e. <u>Emergency service facilities up to 9m in height and hose drying towers up to 15m in height.</u>
Wilma Sherwin	306.10	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Oppose	Opposes 22m Height Limit in Khandallah village centre and wants development heights kept to 14m. The area currently only has 3-storey buildings. Heights of 22m for business and residential use far exceeds what a small street like Ganges Road can practically cope with.	Opposes LCZ-S1 (Maximum height) - Height control area 3 (22m) with respect to Khandallah Village
Wilma Sherwin	306.11	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	Opposes 22m Height Limit in Khandallah village centre and wants development heights kept to 14m. The area currently only has 3-storey buildings. Heights of 22m for business and residential use far exceeds what a small street like Ganges Road can practically cope with.	Seeks that the height specified for LCZ-S1 (Maximum height) is reduced to 14m in Khandallah Village
James Coyle	307.22	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain LCZ-S1 (Maximum height) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested																																								
Restaurant Brands Limited	349.100	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Support	Support	Retain LCZ-S1 (Maximum height) as notified.																																								
Kāinga Ora Homes and Communities	391.597	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Support in part	Supports LCZ-S1 in part, and particularly as it enables six storey development in a number of centres. Seeks amendment to enable six storey development in Local Centres noting that Newtown, Miramar, and Tawa should be reclassified as Town Centres. Kāinga Ora considers that the zone building heights should not be reduced because of a heritage area and there is no justification for building heights of less than six storeys in the Karori centre. If heights for specific areas are to be reduced for heritage reasons this should apply through the heritage overlay provisions.	Retain LCZ-S1 (Maximum height) and seeks amendment.																																								
Wellington's Character Charitable Trust	FS82.105	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Oppose	Considers enabling six storey development in local centres is inconsistent with amenity value, level of commercial activity and community expectations for the local centre zones.	Disallow																																								
Greater Wellington Regional Council	FS84.42	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.																																								
Kāinga Ora Homes and Communities	391.598	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Support in part	Supports LCZ-S1 in part, and particularly as it enables six storey development in a number of centres. Seeks amendment to enable six storey development in Local Centres noting that Newtown, Miramar, and Tawa should be reclassified as Town Centres. Kāinga Ora considers that the zone building heights should not be reduced because of a heritage area and there is no justification for building heights of less than six storeys in the Karori centre. If heights for specific areas are to be reduced for heritage reasons this should apply through the heritage overlay provisions.	Amend LCZ-S1 (Maximum height) as follows: 1. Maximum Height limits above ground level of 22m must be complied with. The following maximum height limits above ground level must be complied with: <table border="1"> <thead> <tr> <th>Location</th> <th>Limit</th> </tr> </thead> <tbody> <tr> <td>Height Control Area 1</td> <td></td> </tr> <tr> <td>Newtown Local Centre Heritage Area</td> <td></td> </tr> <tr> <td>Island Bay Local Centre Heritage Area</td> <td>12 metres</td> </tr> <tr> <td>Hataitai Local Centre Heritage Area</td> <td></td> </tr> <tr> <td>Height Control Area 2</td> <td></td> </tr> <tr> <td>Karori</td> <td>18 metres</td> </tr> <tr> <td>Height Control Area 3</td> <td></td> </tr> <tr> <td>Brooklyn</td> <td></td> </tr> <tr> <td>Churton Park</td> <td></td> </tr> <tr> <td>Crofton Downs</td> <td></td> </tr> <tr> <td>Island Bay</td> <td></td> </tr> <tr> <td>Kelburn</td> <td></td> </tr> <tr> <td>Khandallah</td> <td>22 metres</td> </tr> <tr> <td>Linden</td> <td></td> </tr> <tr> <td>Miramar</td> <td></td> </tr> <tr> <td>Newlands</td> <td></td> </tr> <tr> <td>Hataitai</td> <td></td> </tr> <tr> <td>Newtown</td> <td></td> </tr> <tr> <td>Tawa</td> <td></td> </tr> </tbody> </table> 2. Fences and standalone walls must not exceed a maximum height of 1.8 2 metres (measured above ground level). Wellington's Character Charitable Trust	FS82.106	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Oppose	Considers enabling six storey development in local centres is inconsistent with amenity value, level of commercial activity and community expectations for the local centre zones.	Disallow																																								

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	FS84.43	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
LIVE WELLington	FS96.36	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Oppose	Retain height limits as notified in local centre zones as these are appropriate to the suburb.	Disallow
Roland Sapsford	FS117.35	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Oppose	Retain height limits as notified in local centre zones as these are appropriate to the suburb.	Disallow
Investore Property Limited	405.73	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Support	Supports the 22 m maximum height standard.	Retain LCZ-S1 (Maximum height) as notified.
The Urban Activation Lab of Red Design Architects	420.13	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	Considers that the current height control areas in the Newtown Local Centre Zone are too low to achieve good urban design and to create a well-functioning livable environment.	Seeks that the Height Control Areas in the Newtown Local Centre Zone is increased. [Inferred decision requested].
Historic Places Wellington Inc	FS111.60	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Support	HPW supports the implementation of a sensible plan for revitalisation in Newtown heritage shopping area including provision of additional housing at scale, while also protecting the heritage shop frontages. Considers that this plan retains heritage features (important for stepping back taller buildings from the narrow street to retain street level public amenity) but allows for desirable intensification.	Allow
Rachel Underwood	458.10	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Oppose	Opposes the provision to allow six-storey buildings considering that it will result in cold, sunless, wind canyons.	Amend LCZ-S1 (Maximum Height) to retain existing low-rise or one-level buildings adjacent to the roadside with three-storey (or six-storey) buildings set back.
Catharine Underwood	481.28	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	The 22m limit in the Brooklyn local centre is opposed. 22m on both sides of the street will make it a very unattractive place to be, destroying the streetscape and sunlight and make it very shady and windy and takes not notice of th topography.	Amend LCZ-S1 (Maximum height) to remove 5 and 2 Todman street, 28 Cleveland Street Brooklyn from Height Area 3 (22m).
Catharine Underwood	481.29	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	Considers that the height limits in the central Brooklyn Zone be limited to 14m on the south side and 11m on the north side. Any higher than this will impact on sunlight onto the street, create a canyon effect for what is a narrow street and cause much shading on the street.	Seeks that the height specified for Brooklyn in LCZ-S1 (Maximum height) is reduced to 14m on the south side and 11m on the north side.
Catharine Underwood	481.30	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	Considers that the north side of Upland Road in the Kelburn Village zone should be limited to 11m in height and the south side be limited to 14m. 22m height is way out of proportion to the available area, will destroy to street scape, will reduce sunlight on the south side of the street. And not provide a 'transition' between the centre and the houses.	Seeks that the height specified for LCZ-S1 (Maximum height) is reduced to 11m on the North side of Upland Road and 14 m on the South side of Upland Road in Kelburn Village.
Catharine Underwood	481.31	Commercial and mixed use Zones / Local Centre Zone / LCZ-S1	Amend	Considers that he proposed height limit of 18m for the local centre in Karori should be increased to match those of the other centres at 22m. Karori has more shops, more room, flatter land and a catchment that is almost fully catered for without leaving the suburb. Brooklyn Village, Aro Village and Kelburn Village seem to be being pushed for development when to do the buildings at the proposed height will impact the liveability, sunshine, shading, biodiversity. If Karori cannot be increased, Kelburn and Aro St should be reduced.	Seeks that the height specified for LCZ-S1 (Maximum height) is increased to 22m in Karori.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ciampa Family Trust	165.2	Commercial and mixed use Zones / Local Centre Zone / LCZ-S2	Amend	Considers that it is unclear in LCZ-S2 whether the minimum building height applies to all buildings on a site zoned Local Centre Zone or whether it only applies to the building that directly adjoins/addresses the street. [Refer to original submission for full reasons].	Clarify whether the LCZ-S2 (Minimum building height) applies to all buildings on a site zoned Local Centre Zone or whether it only applies to the building that directly adjoins/addresses the street.
McDonald's	274.30	Commercial and mixed use Zones / Local Centre Zone / LCZ-S2	Oppose	Considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete LCZ-S2 (Minimum building height) in its entirety..
Restaurant Brands Limited	349.101	Commercial and mixed use Zones / Local Centre Zone / LCZ-S2	Support	Oppose There are many buildings with a height less than the required minimum that will contribute positively to a well-functioning urban environment. The proposed standard will result in too many buildings requiring resource consent and is not an efficient or effective method to implement the policies of the Proposed District Plan.	Delete LCZ-S2 (Maximum building height) in its entirety.
Foodstuffs North Island	FS23.44	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S2	Support	Submission point 349.101 supports FSNI submission point 476.29.	Allow
Woolworths New Zealand	359.66	Commercial and mixed use Zones / Local Centre Zone / LCZ-S2	Oppose	LCZ-S2 is opposed in its entirety and should be deleted as it seeks to impose minimum building heights in the Neighbourhood and Local Centre zones of 7m. This requirement is overly prescriptive and unnecessary and should be deleted. The standard is overly onerous, when the PDP should be promoting development in the Centres. If this is to be retained in some degree ,it should be refined to be a building frontage height standard and limited to specified streets as identified on the planning maps to achieve centre vibrancy and amenity.	Delete LCZ-S2 (Minimum building height) in its entirety.
Foodstuffs North Island	FS23.11	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S2	Support	Submission point 359.66 supports FSNI submission point 476.29.	Allow
Kāinga Ora Homes and Communities	391.599	Commercial and mixed use Zones / Local Centre Zone / LCZ-S2	Support	Generally supports LCZ-S2.	Retain LCZ-S2 (Minimum building height) as notified.
Foodstuffs North Island	476.29	Commercial and mixed use Zones / Local Centre Zone / LCZ-S2	Oppose	Whilst supportive of certain bulk and location standards in the Commercial and Mixed Use zones, considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete LCZ-S2 (Minimum building height) in its entirety.
Ciampa Family Trust	165.3	Commercial and mixed use Zones / Local Centre Zone / LCZ-S3	Amend	Considers that it would not be necessary in LCZ-S3 to require a 4m minimum ground floor height for buildings behind the street-facing street. Currently it is unclear in LCZ-S3 whether the 4m minimum ground floor height applies to all buildings on a site zoned Local Centre Zone or just the building that directly adjoins/addresses the street.	Seeks that LCZ-S3 (Minimum ground floor height) should not apply to buildings behind the street-facing building.
McDonald's	274.31	Commercial and mixed use Zones / Local Centre Zone / LCZ-S3	Oppose	Considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete LCZ-S3 (Minimum ground floor height) in its entirety.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Restaurant Brands Limited	349.102	Commercial and mixed use Zones / Local Centre Zone / LCZ-S3	Support	Oppose Opposed to the minimum floor-to-floor ceiling heights for new development. The standard is overly prescriptive, does not provide for the specific requirements of drive-through facilities, and is unworkable from an operational perspective, and will only serve to increase the cost and/or regulatory processes of the development.	Delete LCZ-S3 (Minimum ground floor height) in its entirety.
Foodstuffs North Island	FS23.45	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S3	Support	Submission point 349.102 supports FSNI submission point 476.30. [Inferred reference to submission point 349.102]	Allow
Kāinga Ora Homes and Communities	391.600	Commercial and mixed use Zones / Local Centre Zone / LCZ-S3	Support	Generally supports LCZ-S3.	Retain LCZ-S3 (Minimum ground floor height) as notified.
Foodstuffs North Island	476.30	Commercial and mixed use Zones / Local Centre Zone / LCZ-S3	Oppose	Whilst supportive of certain bulk and location standards in the Commercial and Mixed Use zones, considers that the standards on minimum building height and minimum ground floor height are unnecessary and would be more appropriate to have within the Design Guidance and/or as matters of discretion.	Delete LCZ-S3 (Minimum ground floor height) in its entirety.
Fire and Emergency New Zealand	273.277	Commercial and mixed use Zones / Local Centre Zone / LCZ-S4	Support in part	Seeks an exemption for emergency facilities and associated hose drying towers for the reasons set out in the previous feedback point on LCZ-S1.	Supports LCZ-S4 (Height in relation to boundary), with amendment.
Fire and Emergency New Zealand	273.278	Commercial and mixed use Zones / Local Centre Zone / LCZ-S4	Amend	Seeks an exemption for emergency facilities and associated hose drying towers for the reasons set out in the previous feedback point on LCZ-S1.	Amend LCZ-S4 (Height in relation to boundary) as follows: This standard does not apply to: ... c. Solar power and heating components attached to a building provided these do not exceed the height in relation to boundary by more than 500mm; and d. Satellite dishes, antennas, aerials, chimneys, flues, architectural or decorative features (e.g. finials, spires) provided that none of these exceed 1m in diameter and do not exceed the height in relation to boundary by more than 3m measured vertically; and e. <u>Emergency service facilities up to 9m in height and hose drying towers up to 15m in height.</u>
Steve Dunn	288.11	Commercial and mixed use Zones / Local Centre Zone / LCZ-S4	Amend	Considers that building height at 42a Riddiford Street should be similar to that enabled in the operative district plan.	Seeks that the height in relation to boundary calculation at 42a Riddiford Street be taken at the street frontage or allow a building at the frontage only.
Restaurant Brands Limited	349.103	Commercial and mixed use Zones / Local Centre Zone / LCZ-S4	Support	Support	Retain LCZ-S4 (Height in relation to boundary) as notified.
Kāinga Ora Homes and Communities	391.601	Commercial and mixed use Zones / Local Centre Zone / LCZ-S4	Support in part	Considers that amendments to LCZ-S4 are needed to achieve consistency with any recommended changes to the height in relation to boundary rules and height for the residential zones.	Retain LCZ-S4 (Height in relation to boundary) and seeks to amendment.
Kāinga Ora Homes and Communities	391.602	Commercial and mixed use Zones / Local Centre Zone / LCZ-S4	Amend	Considers that amendments to LCZ-S4 are needed to achieve consistency with any recommended changes to the height in relation to boundary rules and height for the residential zones.	Seeks to amend the standard to align with changes sought to LCZ-S1.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Cheryl Robilliard	409.6	Commercial and mixed use Zones / Local Centre Zone / LCZ-S4	Amend	Considers that building height at 42a Riddiford Street should be similar to that enabled in the operative district plan. [See original submission for full reasons]	Seeks that the height in relation to boundary calculation at 42a Riddiford Street be taken at the street frontage or allow a building at the frontage only.
McDonald's	274.32	Commercial and mixed use Zones / Local Centre Zone / LCZ-S5	Oppose in part	Opposes the requirement for a veranda along the frontage of the site at 190 Riddiford Street, Newtown.	Seeks that the site at 190 Riddiford Street, Newtown is exempt from LCZ-S5 (Veranda control).
Restaurant Brands Limited	349.104	Commercial and mixed use Zones / Local Centre Zone / LCZ-S5	Support	Support	Retain LCZ-S5 (Verandah control) as notified.
Z Energy Limited	361.41	Commercial and mixed use Zones / Local Centre Zone / LCZ-S5	Support in part	LCZ-S5 is partially supported as relates to specific sites identified on the Planning Maps with a 'verandah control'.	Retain LCZ-S5 (Verandah control) with amendment.
Z Energy Limited	361.42	Commercial and mixed use Zones / Local Centre Zone / LCZ-S5	Amend	Considers that LCZ-S5 should recognise situations where functional requirements which necessitate site design where verandahs and buildings on boundaries cannot be achieved, such as service stations. (Option A)	Amend LCZ-S5 (Verandah control) as follows: 1. Verandahs must be provided on building elevations on identified street frontages <u>except where there is a functional requirement for a building to not contain a verandah.</u>
Z Energy Limited	361.43	Commercial and mixed use Zones / Local Centre Zone / LCZ-S5	Amend	Considers that LCZ-S5 should recognise situations where functional requirements which necessitate site design where verandahs and buildings on boundaries cannot be achieved, such as service stations. (Option B)	Amend LCZ-S5 (Verandah control) as follows: ... This standard does not apply to: a. Any scheduled building identified in SCHED1 - Heritage Buildings; b. Any building where compliance with the standard results in an encroachment into the dripline of an existing street tree. <u>c. Service stations</u>
Z Energy Limited	361.44	Commercial and mixed use Zones / Local Centre Zone / LCZ-S5	Amend	Considers that LCZ-S5 should recognise situations where functional requirements which necessitate site design where verandahs and buildings on boundaries cannot be achieved, such as service stations. (Option C)	Amend LCZ-S5 (Verandah control) as follows: ... 1. The extent to which any non-compliance: a. Will adversely affect the comfort and convenience of pedestrians; b. Will result in further street trees being added to public space as part the development; and <u>c. Is required for on-site functional or operational needs</u>
McDonald's	274.33	Commercial and mixed use Zones / Local Centre Zone / LCZ-S6	Oppose in part	Considers that the standards on active frontage and non-residential activity frontage controls in Centres and Mixed Use Zones are overly prescriptive.	Retain LCZ-S6 (Active frontage and non-residential activity frontage controls), subject to amendment outlined other submission points.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
McDonald's	274.34	Commercial and mixed use Zones / Local Centre Zone / LCZ-S6	Amend	Considers that centres and commercial areas have a mixture of street typologies. Most have at least one main shopping street and while it is appropriate that these streets have high levels of activation, there are secondary frontages or streets are less important retail streets and have lower levels of pedestrian activity. It would be more appropriate to streamline the standards with portions instead included within the Design Guidance and/or as matters of discretion.	Amend LCZ-S6 (Active frontage and non-residential activity frontage controls) as follows: 1. Dwellings must not locate on the ground floor of Any new building or addition to an existing building on an identified street with an active frontage or a non-residential activity frontage control for any new building, or ground level addition or alteration to an existing building. must: a. Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary; b. Provide a minimum of 60% of continuous display windows or transparent glazing along the width of the ground floor building frontage; and c. Locate the principal public entrance on the front boundary; 2. Any <u>new building or ground level addition to, or alteration of, a building or structure facing a public space must not result in a featureless façade that:</u> a. Is more than <u>4.3 metres wide; and</u> b. Extends from a height of 1m above ground level to a maximum height of 2.5m; <u>and</u> c. <u>Any roller shutter doors, security grilles, screens or similar structures fitted to the facade of any building must be at least 50% visually transparent.</u> 3. Any roller shutter doors, security grilles, screens or similar structures fitted to the facade of any building must be at least 50% visually transparent; and 4. Any new building or addition to an existing building on a site with a non-residential activity frontage control must: a. Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary; and b. Locate the principal public entrance on the front boundary.
The Retirement Villages Association of New Zealand Incorporated	FS126.179	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S6	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission. The RVA considers that residential activities, including retirement villages, should be permitted at ground floor.	Disallow
Ryman Healthcare Limited	FS128.179	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S6	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission. Ryman considers that residential activities, including retirement villages, should be permitted at ground floor.	Disallow
Restaurant Brands Limited	349.105	Commercial and mixed use Zones / Local Centre Zone / LCZ-S6	Support	Support	Retain LCZ-S6 (Active frontage and non-residential activity frontage controls) as notified.
Foodstuffs North Island	FS23.46	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S6	Oppose	Submission point XXX seeks to retain LCZ-S6 as notified. FSNI submission point 476.31 and 476.32 seeks to amend LCZ-S6. [Inferred reference to submission point 349.105]	Disallow / Reject submission in part.
Woolworths New Zealand	359.67	Commercial and mixed use Zones / Local Centre Zone / LCZ-S6	Support in part	The restricted discretionary activity status to infringe the active frontage standards of MCZ-S6, NCZ-S6, and LCZ-S6 is supported. Notwithstanding, it is noted that supermarkets are unlikely to comply with these standards in any circumstance (being built up to the street edge on all street boundaries; a minimum of 60% of continuous display windows or transparent glazing along the width of the ground floor building frontage; 50% visually transparent shutter doors), owing to genuine operational reasons. Whilst Woolworths acknowledges that the assessment criteria associated with the standard enable the consideration of those operational and functional needs, the standard represents another circumstance whereby consents would always be required for supermarkets, despite supposedly being encouraged with the relevant CMUZ.	Retain LCZ-S6 (Active frontage and non-residential activity frontage controls) with amendment.

Foodstuffs North Island	FS23.13	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S6	Support	Submission point 359.68 partly supports FSNI submission point 476.31 and 476.32.	Allow / Allow submission in part.
Z Energy Limited	361.45	Commercial and mixed use Zones / Local Centre Zone / LCZ-S6	Support in part	LCZ-S6 is partially supported for its intent as it requires that buildings are built up to the street edge along the full width of the site, that glazing is provided and that the principal entrance is located on the front road boundary.	Retain LCZ-S6 (Active frontage and non-residential activity frontage controls) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Z Energy Limited	361.46	Commercial and mixed use Zones / Local Centre Zone / LCZ-S6	Amend	Considers that LCZ-S6 should be amended to recognise situations where functional requirements which necessitate site design where verandahs and buildings on boundaries cannot be achieved, such as service stations.	Amend LCZ-S6 (Active frontage and non-residential activity frontage controls) as follows: 1. Any new building or addition to an existing building adjoining an identified street with an active frontage control must: a. Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary <u>except where there is a functional requirement for that building to be set back from the street edge. In this case, 1b would not apply;</u> b. Provide a minimum of 60% of continuous display windows or transparent glazing along the width of the ground floor building frontage c. Locate the principal public entrance on the front boundary <u>except where there is a functional requirement for the principal entrance to not front the street.</u> ... 4. Any new building or addition to an existing building on a site with a non-residential activity frontage control must: a. Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary <u>except where there is a functional requirement for that building to be set back from the street edge.</u> b. Locate the principal public entrance on the front boundary <u>except where there is a functional requirement for the principal entrance to not front the street.</u>
Kāinga Ora Homes and Communities	391.603	Commercial and mixed use Zones / Local Centre Zone / LCZ-S6	Amend	Considers that LCZ-S6 should be amended so that active frontage controls only apply where necessary, such as along principal roads/arterials not necessary along connecting streets. Only buildings that are located along any street edge should be controlled, rather than buildings on the whole site where an active frontage applies. Active frontage controls on streets and buildings where these matters do not apply should be deleted. These amendments recognise that active frontage controls are useful to achieve well-functioning urban environments where they are specifically applied on key roads where character and amenity values anticipated by underlying zoning are present.	Amend LCZ-S6 (Active frontage and non-residential activity frontage controls) to only apply for buildings that are located along principal roads/arterials and along any street edge.
Investore Property Limited	405.74	Commercial and mixed use Zones / Local Centre Zone / LCZ-S6	Support in part	Supports the intent of the standard, but considers that there is insufficient exceptions for functional requirements such as vehicle entrances.	Retain LCZ-S6.1.a (Active frontage and non-residential activity frontage controls) and seeks amendment
Investore Property Limited	405.75	Commercial and mixed use Zones / Local Centre Zone / LCZ-S6	Amend	Supports this control and associated provisions in part but considers that it provides insufficient exceptions for functional requirements such as vehicle entrances. Seeks amendments to the active frontage controls and all associated provisions so, in order to allow for functional requirements such as for a vehicle or pedestrian entrance or public space.	Amend LCZ-S6.1.a (Active frontage and non-residential activity frontage controls) as follows: 1. Any new building or addition to an existing building adjoining an identified street with an active frontage must: a. Be built up to the street edge on all street boundaries and along the full width of the site bordering any street boundary, <u>excluding vehicle and pedestrian access and public open spaces;</u> ...

Kāinga Ora Homes and Communities	391.606	Commercial and mixed use Zones / Local Centre Zone / LCZ-S8	Support in part	Supports LCZ-S8 in part but is opposed to requiring communal outdoor living space in addition to private outdoor living space. As notified, it is not clear whether communal outdoor living space is required in addition to, or as an alternative to private outdoor living space. Seeks amendments to either: - clarify that communal outdoor living space is not required but can be provided as an alternative to private outdoor living space, or - to remove the requirement to provide communal outdoor living space. Seeks to amend the minimum dimension.	Retain LCZ-S8 (Residential – outdoor living space) and seeks amendment.
Kāinga Ora Homes and Communities	391.607	Commercial and mixed use Zones / Local Centre Zone / LCZ-S8	Amend	Supports LCZ-S8 in part but is opposed to requiring communal outdoor living space in addition to private outdoor living space. As notified, it is not clear whether communal outdoor living space is required in addition to, or as an alternative to private outdoor living space. Seeks amendments to either: - clarify that communal outdoor living space is not required but can be provided as an alternative to private outdoor living space, or - to remove the requirement to provide communal outdoor living space. Seeks to amend the minimum dimension.	Amend LCZ-S8 (Residential – outdoor living space) to either: 1. Clarify that communal outdoor living space is not required but can be provided as an alternative to private outdoor living space; or 2. Amend as follows: ... 3.where communal outdoor living space is provided it does not need to be in a single continuous space but it must be: ... c. Free of buildings, parking spaces, and servicing and manoeuvring areas. Living space type <input type="checkbox"/> Minimum area ² Minimum dimension a. Private i. Studio unit and 1-bedroom unit 5m ² 1.8m ii. 2+ bedroom unit 8m ² 1.8m b. Communal i. For every 5 units — 10m² — 8m
Kāinga Ora Homes and Communities	391.608	Commercial and mixed use Zones / Local Centre Zone / LCZ-S9	Oppose	Opposes LCZ-S9 as it sets a standard that may not be possible to meet for dwellings that would otherwise provide a decent standard of living.	Delete LCZ-S9 (Minimum outlook space for multi-unit housing) in its entirety as notified.
Retirement Villages Association of New Zealand Incorporated	350.248	Commercial and mixed use Zones / Local Centre Zone / LCZ-S10	Oppose in part	Opposes the minimum building separation distance (being 10 m from any other building on the same site) for retirement villages as it would prevent linked buildings. It is considered that the proposed matters of discretion for retirement villages are sufficient for assessing any effects relating to building lengths.	Opposes LCZ-S10 (Minimum building separation distance) as follows: 1..... [figure] <u>This standard does not apply to retirement villages.</u>
Retirement Villages Association of New Zealand Incorporated	350.249	Commercial and mixed use Zones / Local Centre Zone / LCZ-S10	Amend	Opposes the minimum building separation distance (being 10 m from any other building on the same site) for retirement villages as it would prevent linked buildings. It is considered that the proposed matters of discretion for retirement villages are sufficient for assessing any effects relating to building lengths.	Amend LCZ-S10 (Minimum building separation distance) as follows: 1..... [figure] <u>This standard does not apply to retirement villages.</u>
Kāinga Ora Homes and Communities	391.609	Commercial and mixed use Zones / Local Centre Zone / LCZ-S10	Oppose	Opposes LCZ-S10 as it constrains design flexibility, and it is not clear what positive outcome it achieves. The zones are small and generally have limited depth which will place natural constraints on development and separations. Furthermore, these standards are not triggered by any rule and so should be deleted.	Delete LCZ-S10 (Minimum building separation distance) in its entirety as notified.
Restaurant Brands Limited	349.106	Commercial and mixed use Zones / Local Centre Zone / LCZ-S11	Support	Support	Retain LCZ-S11 (Maximum building depth) as notified.
Foodstuffs North Island	FS23.74	Part 3 / Commercial and mixed use Zones / Local Centre Zone / LCZ-S11	Oppose	Submission point 349.106 seeks to retab LCZ-S11 as notified. FSNI submission point 476.93 seeks to delete LCZ-S11 in its entirety.	Disallow
Retirement Villages Association of New Zealand Incorporated	350.250	Commercial and mixed use Zones / Local Centre Zone / LCZ-S11	Oppose in part	Opposes the applicability of a maximum building depth standard for retirement villages. Considers that the proposed matters of discretion for LCZ-R18 are sufficient for assessing any effects relating to building lengths.	Opposes LCZ-S11 (Maximum building depth) and seeks amendment

Commercial and Mixed use - Commercial Zone

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.251	Commercial and mixed use Zones / Local Centre Zone / LCZ-S11	Amend	Opposes the applicability of a maximum building depth standard for retirement villages. Considers that the proposed matters of discretion for LCZ-R18 are sufficient for assessing any effects relating to building lengths.	Amend LCZ-S11 (Maximum building depth) t as follows: 1..... [figure] <u>This standard does not apply to retirement villages.</u>
Woolworths New Zealand	359.69	Commercial and mixed use Zones / Local Centre Zone / LCZ-S11	Amend	Considers that LCZ-S11 should be amended to introduce operational and functional requirements to infringements to maximum building depth since continuous external wall depth greater than 25m may be difficult to avoid in some larger scale proposals. Development of that scale may warrant consent and assessment, so long as that assessment is commensurate to the scale of the proposal, its context and those operational and functional requirements.	Amend LCZ-S11 (Maximum building depth) as follows: Assessment criteria where the standard is infringed: 1. The extent to which the design mitigates the effect of a long featureless building elevation; and 2. Dominance, privacy and shading effects on adjoining sites. <u>3. The extent to which any non-compliance is necessary to provide for the functional needs or operational needs of a proposed activity</u>
Kāinga Ora Homes and Communities	391.610	Commercial and mixed use Zones / Local Centre Zone / LCZ-S11	Oppose	Opposes LCZ-S11 as it constrains design flexibility, and it is not clear what positive outcome it achieves. The zones are small and generally have limited depth which will place natural constraints on development and separations. Furthermore, these standards are not triggered by any rule and so should be deleted.	Delete LCZ-S11 (Maximum building depth) in its entirety as notified.
Foodstuffs North Island	476.93	Commercial and mixed use Zones / Local Centre Zone / LCZ-S11	Oppose	Opposes the Centre standards which sets a maximum 25m continuous depth of any external side wall. The word “continuous” is defined as forming an unbroken whole, without being interrupted. It is unclear whether the standard would still apply if the side wall was modulated. It would appear that the intent of these standards relates to privacy and dominance effects on neighbours and preventing a long featureless building façade. Privacy and dominance effects are more appropriately dealt with via the height, height in relation to boundary and outlook space standards. Furthermore, any new building in a Centre zone that is visible from the public realm requires consent and consideration of objectives and policies that also address amenity and design. Considers that the standards on maximum building depth are unnecessary and will act as a constraint on appropriate development and design.	Delete LCZ-S11 (Maximum building depth) in its entirety.
Ara Poutama Aotearoa the Department of Corrections	240.36	Commercial and mixed use Zones / Commercial Zone / General COMZ	Oppose	Considers that the zone frameworks (Commercial and General Industrial) do not enable community corrections activities, and provides discretionary activity status for these activities in the zones, in accordance with the respective default “all other activities” rules (COMZ-R4 and GIZR6). Community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety. It is important that provision is made to enable noncustodial community corrections sites to establish, operate and redevelop, within appropriate areas, as the demand for these services is likely to increase as a result of urban intensification. Industrial and commercial areas provide suitable sites for community corrections activities; in particular community work components often require large sites for yard-based activities and large equipment and/or vehicle storage. Community corrections activities are a compatible and appropriate activity in commercial and industrial zones. They are consistent with the character and amenity of such zones. Furthermore, as community corrections facilities are not sensitive to the effects of commercial and industrial environments (e.g. noise, high traffic movements, etc), they are not prone to reverse sensitivity.	Amend the land use activity rule framework for the Commercial Zone as notified and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Prime Property Group	256.5	Commercial and mixed use Zones / Commercial Zone / General COMZ	Amend	Considers the Height Control Area over 55-85 Curtis St to be inconsistent with the NPS-UD and more restrictive than the residential area around. [Refer to original submission for full reason]	Seeks that the objective, policy and rule framework be amended to enable a permitted height of 12m in the Commercial Zone.
Retirement Villages Association of New Zealand Incorporated	350.252	Commercial and mixed use Zones / Commercial Zone / General COMZ	Amend	Considers policy support for retirement villages in the Local Centre Zone is required.	Add the following new policies in the Commercial Zone chapter and amend current objectives and policies for consistency: <u>Provision of housing for an ageing population</u> <u>1. Provide for a diverse range of housing and care options that are suitable for the particular needs and characteristics of older persons in [add] zone, such as retirement villages.</u> <u>2. Recognise the functional and operational needs of retirement villages, including that they:</u> <u>a. May require greater density than the planned urban built character to enable efficient provision of services.</u> <u>b. Have unique layout and internal amenity needs to cater for the requirements of residents as they age.</u> <u>Changing communities</u> <u>To provide for the diverse and changing residential needs of communities, recognise that the existing character and amenity of the [add] zone will change over time to enable a variety of housing types with a mix of densities.</u> <u>Larger sites</u> <u>Recognise the intensification opportunities provided by larger sites within the [add] zone by providing for more efficient use of those sites.</u>
Waka Kotahi	370.402	Commercial and mixed use Zones / Commercial Zone / General COMZ	Not specified	Considers this zone seems to apply only to a block of land on Curtis Street. The submitter would like the policy direction to be clearer about expectations for this area, especially the integration of active and public transport in its development (and especially given that it is currently a vacant site). [Position is neutral on provision].	Retain the Commercial Zone chapter as notified.
Prime Property Group	FS93.5	Part 3 / Commercial and mixed use Zones / Commercial Zone / General COMZ	Support	Prime Property Group also require the policy direction to be clearer about the expectations of this site.	Allow
Willis Bond and Company Limited	416.95	Commercial and mixed use Zones / Commercial Zone / General COMZ	Amend	Submitter notes the effect that the more permissive medium density residential standards will have on other zones. The zones supporting higher density development have more restrictive standards than in the MRZ, creating a risk that new development is concentrated in the more permissive MRZ at the exclusion of denser zones where Council wishes to encourage greater development. The PDP should ensure that the restrictions within denser zones are not substantially more restrictive than within the MRZ. [Refer to original submission for full reason].	Seeks that Council consider the relationship between the Medium Density Residential Zone and denser zones (i.e. the High Density Residential Zone, Large Lot Residential Zone, Neighbourhood Centre Zone, Local Centre one, Commercial Zone, Mixed Use Zone, Metropolitan Centre Zone and City Centre Zone) to ensure development is not unduly restricted in denser zones by greater restrictions and Council discretion.

Retirement Villages Association of New Zealand Incorporated	350.254	Commercial and mixed use Zones / Commercial Zone / New COMZ	Amend	<p>As currently drafted retirement villages would be a permitted or discretionary activity under the 'residential activities' rule of the Local Centre Zone (COMZ-R2). Considers that the Local Centre Zone should have a retirement village specific rule that provides for retirement villages as a permitted activity (with the construction of the retirement villages being a restricted discretionary activity under COMZ-R9). Permitted activity status recognises retirement villages are residential activities and provide substantial benefit by way of enabling older people to remain in familiar community environments for longer (close to family and support networks), whilst also freeing up a number of dwellings located in surrounding suburbs.</p>	<p>Add new 'Retirement villages' in the Commercial Zone chapter rule as follows:</p> <p><u>COMZ-RX Retirement villages</u></p> <p>1. Activity status: Permitted</p>
Ministry of Education	400.131	Commercial and mixed use Zones / Commercial Zone / New COMZ	Amend	<p>Seeks that in accordance with the submitter's amendments to COMZ-P1, a new associated rule is created for COMZ to provide for educational facilities. The submitter requests the inclusion of a new rule as sought.</p>	<p>Add new rule to COMZ (Commercial Zone) as follows:</p> <p><u>Educational Facilities</u></p> <p>1. Activity Status: Permitted</p>

Restaurant Brands Limited	349.107	Commercial and mixed use Zones / Commercial Zone / COMZ-O1	Support	Support	Retain COMZ-O1 (Purpose) as notified.
Restaurant Brands Limited	349.108	Commercial and mixed use Zones / Commercial Zone / COMZ-O2	Support	Support	Retain COMZ-O2 (Activities) as notified.
Restaurant Brands Limited	349.109	Commercial and mixed use Zones / Commercial Zone / COMZ-O3	Support	Support	Retain COMZ-O3 (Amenity and design) as notified.
Retirement Villages Association of New Zealand Incorporated	350.255	Commercial and mixed use Zones / Commercial Zone / COMZ-O3	Oppose in part	Considers that the current drafting of COMZ-O3 is inconsistent with Objectives 1 and 2 of the MDRS. Objectives 1 and 2 of the Act should be included in the Proposed Plan verbatim to their drafting in the MDRS. Questions what the context is in relation to contributing 'positively' to a changing and well-functioning urban environment. Considers that it is unclear what this would entail, particularly when considering that the definition of 'well functioning urban environment' consists of a list of positive / beneficial matters. Considers that it is not clear if this phrasing is stipulating that additional benefit is required in order to contribute 'positively'.	Opposes COMZ-O3 (Amenity and design) and seeks amendment as follows: Development in the Commercial Zone is achieved that positively contributes to creating a good quality, well-functioning urban environment and is compatible with the surrounding residential context
Ara Poutama Aotearoa the Department of Corrections	240.38	Commercial and mixed use Zones / Commercial Zone / COMZ-P1	Oppose	<p>Considers that the zone frameworks (Commercial and General Industrial) do not enable community corrections activities, and provides discretionary activity status for these activities in the zones, in accordance with the respective default "all other activities" rules (COMZ-R4 and GIZR6).
