Buy Back the Bay	FS79.24	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Oppose	<p>Submission 389 states: "Taranaki Whānui's RFR [Right of First Refusal] opportunities in Te Motu Kairangi: Taranaki Whānui have a significant interest in Te Motu Kairangi which includes Mount Crawford and Watts Peninsula, these landholdings hold significant interest - culturally, socially, environmentally and commercially to Taranaki Whānui. These opportunities include the Mount Crawford Prison site as well as the 'Watts Peninsula' sites being 75.85 hectares of former Defence Land."</p> <p>Buy Back the Bays notes that the Submission does not include maps however they (Buy Back the Bays) are very concerned to see that Taranaki Whānui appears to be seeking possible commercial development of 75.85 hectares of former defence land on Watts Peninsula. This appears to be the heart of the long-promised Watts Peninsula park and a major part of the proposed national heritage park.</p> <p>Buy Back the Bays strongly oppose rezoning on Watts Peninsula to facilitate any development there that is incompatible with the park plans. More generally, Buy Back the Bays oppose Submission 389's attempt to remove the proposed public interest controls from Watts Peninsula and Mount Crawford. Considers that where Submission 389 states "Illustrated on Figure One below, the following zone and overlays are proposed for Taranaki Whānui's RFR properties in Te Motu Kairangi," Buy Back the Bays oppose the changes it seeks. This includes opposing Submission 389's request for "The proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST [to be] amended from Natural Open Space Zone to: a. Medium Density Residential; and b. Special Purpose Zone – Māori Purpose Zone."</p>	Disallow

Buy Back the Bay	FS79.42	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Oppose	<p>Refers to submission 389 states: Taranaki Whānui opposes the extent of the proposed zoning of Shelly Bay Taikuru and the proposed height control limits." Buy Back the Bays opposes the submission on both points.</p> <p>Specifically, the Submission 389 for Taranaki Whānui seeks that:</p> <p>"1. The Mixed Use Zone is extended across the allotments illustrated in Figure Two below or amended to follow the extent of consented development area outlined in the approved masterplan and engineering drawings.</p> <p>2. The Height Control Area is amended to 27m being the maximum height of development consented under the Shelly Bay Masterplan resource consent."</p> <p>Buy Back the Bays opposes both parts. Buy Back the Bays note that neither part affects Taranaki Whānui's commercial or other interests. Considers that both parts only affect the tall apartment buildings planned by and for the exclusive commercial benefit of The Wellington Company, not the leasing of lower existing buildings that The Wellington Company has offered to Taranaki Whānui as its stake in the project.</p>	Disallow
Lance Lones	FS81.8	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Oppose	<p>Te Motu Kairangi is very nearly an island, and as a result of the amazing work of Predator Free Wellington, is in fact, nearly predator free, and uniquely able to support significant biodiversity. Combined with the Ridgelines and Hilltops Overlay, and the Significant Natural Areas overlay of this space, all citizens of both Wellington, and Aotearoa in general have an incredibly singular opportunity to support the development of native flora and fauna in one nearly contiguous environment, a situation which is unique within Wellington. Attests to the incredible return of many native species of birds to this area, from kererū, to flocks of pīwakawaka and tūi, kārearea hunting on the hillsides and heard ruru calling in the evenings and mornings.</p> <p>To remove the Open Space zoning, Significant Natural Areas and Special Amenity Landscape overlays for a significant portion of this habitat would put these species at risk once again.</p> <p>Presents a unique opportunity to implement the Ministry for the Environment's Proposed National Policy Statement for Indigenous Biodiversity. This policy progressively refers to the concept of Te Rito o te Harakeke.</p> <p>The local community has expressed the desire to work with and develop a master plan for the Watts Peninsula, but this voice has been repeatedly denied by council. Removing the protections put in place by the proposed district plan would once again disempower the greater community with no discussion.</p> <p>[Refer to further submission for full reason]</p>	Disallow / Seeks that the current zoning and overlays as presented in the Proposed District Plan for the northern sections of Te Motu Kairangi / Miramar Peninsula be retained. In particular, that the Open Space zoning, Special Amenity Landscape, Natural Areas, and Ridgelines and Hilltops overlays are retained.
Taranaki Whānui ki te Upoko o te Ika	389.71	Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Amend	<p>Considers that there is potential for these overlays to significantly restrict future development and opportunities for Taranaki Whānui to exercise tino rangatiratanga over our ancestral lands.</p> <p>Taranaki Whānui support the protection of areas of significant indigenous vegetation as well as landscapes that have cultural, historical, spiritual and traditional significance to Taranaki Whānui, the identification and protection of environmental overlays in previously developed areas is of concern to Taranaki Whānui.</p>	Seeks that the objectives, policies, rules and standards in the Ngā Wāhi Tapu ki te Māori - Sites and Areas of Significance to Māori are amended to make papakainga a permitted activity, subject to standards.

Wellington International Airport Ltd	406.217	Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Oppose in part	<p>Supports the clarification provided by the introductory text that the provisions of this chapter only apply to the use, development and activities located within the mapped extent of the scheduled Sites and Areas of Significance to Māori.</p>	<p>Retain SASM chapter introduction as notified, subject to the general relief sought by WIAL in the covering submission.</p> <p>[See original submission for further detail].</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Guardians of the Bays Inc	FS44.143	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Oppose	Guardians of the Bays Incorporated oppose WIAL's amendments and removal as the airport zone does not need to be 'accommodated' in relationship to the following SASMs - Maupuia Pā (Category A); and - Moa Point (Category B). These are significant heritage areas to Māori that need to be in the District Plan.	Disallow / Seeks the submission points be disallowed to retain Maupuia Pā (Category A) and Moa Point (Category B) in the SASMs.
Wellington International Airport Ltd	406.218	Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Not specified	Considers that Moa Pont site is located within a core operational area of the airport and is subject to strict Civil Aviation regulations. As the infrastructure methods do not apply within the Airport Zone, there is no clear consenting pathway within the SASM chapter for what is otherwise a piece of regionally significant infrastructure.	Not specified.
Guardians of the Bays Inc	FS44.144	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Oppose	Guardians of the Bays Incorporated oppose WIAL's amendments and removal as the airport zone does not need to be 'accommodated' in relationship to the following SASMs - Maupuia Pā (Category A); and - Moa Point (Category B). These are significant heritage areas to Māori that need to be in the District Plan.	Disallow / Seeks the submission points be disallowed to retain Maupuia Pā (Category A) and Moa Point (Category B) in the SASMs.
Wellington International Airport Ltd	406.219	Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Amend	[No specific reason given beyond decision requested - see original submission]	Seeks that the SASM chapter is amended to accommodate activities within the Airport Zone, particularly given the regional significance of the Airport and the existing modified state of the sites of significance.
Guardians of the Bays Inc	FS44.145	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Oppose	Guardians of the Bays Incorporated oppose WIAL's amendments and removal as the airport zone does not need to be 'accommodated' in relationship to the following SASMs - Maupuia Pā (Category A); and - Moa Point (Category B). These are significant heritage areas to Māori that need to be in the District Plan.	Disallow / Seeks the submission points be disallowed to retain Maupuia Pā (Category A) and Moa Point (Category B) in the SASMs.
Te Rūnanga o Toa Rangatira	FS138.87	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Oppose	The submitter requests for the SASM chapter is amended to accommodate activities within the Airport Zone, particularly given the regional significance of the Airport and the existing modified state of the sites of significance. Te Rūnanga o Toa Rangatira oppose this submission because no matter the extent of modification, sites of significance should still be protected and the engagement requirements with Tangata Whenua to remain. Therefore, it is not appropriate to use the SASM chapter to accommodate activities within the Airport Zone.	Disallow
Wellington International Airport Ltd	406.220	Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Amend	Considers that the following SASMs should not be over the Airport Zone: - Maupuia Pā (Category A); and - Moa Point (Category B).	Delete the following SASMs from the Airport Zone: - Maupuia Pā (Category A); and - Moa Point (Category B). (Option A).
Guardians of the Bays Inc	FS44.146	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Oppose	Guardians of the Bays Incorporated oppose WIAL's amendments and removal as the airport zone does not need to be 'accommodated' in relationship to the following SASMs - Maupuia Pā (Category A); and - Moa Point (Category B). These are significant heritage areas to Māori that need to be in the District Plan.	Disallow / Seeks the submission points be disallowed to retain Maupuia Pā (Category A) and Moa Point (Category B) in the SASMs.
Te Rūnanga o Toa Rangatira	FS138.88	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Oppose	The submitter requests for the SASM chapter is amended to accommodate activities within the Airport Zone, particularly given the regional significance of the Airport and the existing modified state of the sites of significance. Te Rūnanga o Toa Rangatira oppose this submission because no matter the extent of modification, sites of significance should still be protected and the engagement requirements with Tangata Whenua to remain. Therefore, it is not appropriate to use the SASM chapter to accommodate activities within the Airport Zone.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.221	Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Amend	Considers that the following SASMs require significant changes to the Airport Zone to accommodate airport activities: - Maupuia Pā (Category A); and - Moa Point (Category B).	Seeks that the following SASMs require significant changes to the Airport Zone to accommodate airport activities: - Maupuia Pā (Category A); and - Moa Point (Category B). (Option A).
Guardians of the Bays Inc	FS44.147	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Oppose	Guardians of the Bays Incorporated oppose WIAL's amendments and removal as the airport zone does not need to be 'accommodated' in relationship to the following SASMs - Maupuia Pā (Category A); and - Moa Point (Category B). These are significant heritage areas to Māori that need to be in the District Plan.	Disallow / Seeks the submission points be disallowed to retain Maupuia Pā (Category A) and Moa Point (Category B) in the SASMs.
Te Rūnanga o Toa Rangatira	FS138.89	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Oppose	The submitter requests for the SASM chapter is amended to accommodate activities within the Airport Zone, particularly given the regional significance of the Airport and the existing modified state of the sites of significance. Te Rūnanga o Toa Rangatira oppose this submission because no matter the extent of modification, sites of significance should still be protected and the engagement requirements with Tangata Whenua to remain. Therefore, it is not appropriate to use the SASM chapter to accommodate activities within the Airport Zone.	Disallow
Wellington Heritage Professionals	412.56	Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Amend	Considers that given that many of the scheduled SASM are also archaeological sites (pre-1900 human activity), reference should be made within the Introduction that modifications to some of the SASM may	Seeks that the introduction to the chapter be amended to include reference to the archaeological provisions of the Heritage New Zealand Pouhere Taonga Act 2014.
Te Rūnanga o Toa Rangatira	488.44	Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Oppose	Considers that Sites and Areas of Significance to Maori may be impacted by the scale of development permitted by the plan in residential zones. Considers that the Sites and Areas of Significance to Maori provisions may not be able to cover site specific protection requirements.	Seeks that further work be undertaken in some of these areas to see if there needs to be a significant level of modification needed to the currently identified high intensification residential areas.
Greater Wellington Regional Council	FS84.111	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / General SASM	Support	Greater Wellington seek to ensure all sites are recorded and provisions apply appropriate protection, including on adjoining sites.	Allow / Seeks to ensure that all sites of significance are captured in the Proposed District Plan and appropriate protections from the effects of intensification are provided, including on properties surrounding those sites.
Te Rūnanga o Toa Rangatira	488.45	Historical and Cultural Values / Sites and Areas of Significance to Māori / New SASM	Amend	Considers that the Accidental Discovery Protocol and its implementation can be improved by embedding the process in the Sites and Areas of Significance to Maori chapter.	Add new policy to the Sites and Areas of Significance to Maori chapter that acknowledges the importance of Accidental Discovery to maintaining and protecting the sites and areas of significance to Māori and iwi.
Greater Wellington Regional Council	FS84.112	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / New SASM	Support	Greater Wellington support provisions which seek to protect Sites and Areas of Significance to Māori.	Allow / Seek provisions which protect SASM.
Tapu-te-Ranga Trust	297.17	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-O1	Support	Supports the purpose of the chapter as set out in this objective.	Retain SASM-O1 (Purpose) as notified.
WCC Environmental Reference Group	377.100	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-O1	Support	Objective SASM-O1 is supported, as identifying and protecting sites and significance to Māori is a fundamental aspect of protecting cultural heritage. This objective provides for that protection in a way that empowers Māori enables Mana whenua to exercise kaitiakitanga	Retain Objective SASM-O1 (Purpose) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.222	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-O1	Oppose in part	Supports the identification and mapping of areas and sites of significance to Māori and considers it is appropriate to protect these areas from inappropriate subdivision, use and development.	
WCC Environmental Reference Group	377.101	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-O2	Support	Objective SASM-O2 is supported, as identifying and protecting sites and significance to Māori is a fundamental aspect of protecting cultural heritage. This objective provides for that protection in a way that empowers Māori enables Mana whenua to exercise kaitiakitanga	Retain Objective SASM-O2 (Protecting the sites and areas of significance to Māori) as notified.
Wellington International Airport Ltd	406.223	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-O2	Oppose in part	Supports the identification and mapping of areas and sites of significance to Māori and considers it is appropriate to protect these areas from inappropriate subdivision, use and development.	Retain SASM-O2 (Protecting sites and areas of significance to Maori) as notified, subject to relief sought by WIAL in the covering submission. [See original submission for further detail]
Guardians of the Bays Inc	FS44.148	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-O2	Oppose	Guardians of the Bays Incorporated oppose the removal of - Maupuia Pā (Category A); and - Moa Point (Category B) from SASM-03 These are significant heritage areas to Māori that need to be in the District Plan.	Disallow / Seeks the submission points be disallowed to retain Maupuia Pā (Category A) and Moa Point (Category B) in the SASMs.
WCC Environmental Reference Group	377.102	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-O3	Support	Objective SASM-O3 is supported, as identifying and protecting sites and significance to Māori is a fundamental aspect of protecting cultural heritage. This objective provides for that protection in a way that empowers Māori enables Mana whenua to exercise kaitiakitanga	Retain Objective SASM-O3 (Kaitiakitanga) as notified.
Wellington International Airport Ltd	406.224	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-O3	Oppose in part	Opposes these provisions to the extent that apply to the two identified sites at the regionally significant Wellington International Airport. [See paragraph 4.81 to 4.84 of original submission for full reason]	Opposes SASM-O3 (Kaitiakianga) and seeks amendment.
Guardians of the Bays Inc	FS44.149	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-O3	Oppose	Guardians of the Bays Incorporated oppose the removal of - Maupuia Pā (Category A); and - Moa Point (Category B) from SASM-03 These are significant heritage areas to Māori that need to be in the District Plan.	Disallow / Seeks the submission points be disallowed to retain Maupuia Pā (Category A) and Moa Point (Category B) in the SASMs.
Te Rūnanga o Toa Rangatira	FS138.90	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-O3	Oppose	The submitter opposes SASM-O3 (kaitiakitanga) and seeks amendments to update the planning framework to exclude Maupuia Pā and Moa Point or provide greater clarity around the application of the planning framework particularly where it relates to existing heavily modified environments and the ongoing operation, maintenance, use and development of regionally significant infrastructure. Te Rūnanga o Toa Rangatira oppose this submission because no matter the extent of modification sites of significance should still be protected. Therefore, Moa Point and Maupuia Pā should not be excluded from the planning framework, nor from the schedule of SASM. It is unclear why regionally significant infrastructure should have priority over the protection of sites of significance to Māori. Under section 6(e) of the Resource Management Act, wāhi tapu are matters of national importance that should be recognised and provided for in relation to managing the use, development, and protection of natural and physical resources.	Disallow
Wellington International Airport Ltd	406.225	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-O3	Amend	Opposes these provisions to the extent that apply to the two identified sites at the regionally significant Wellington International Airport. [See paragraph 4.81 to 4.84 of original submission for full reason]	Seeks that SASM-O3 (Kaitiakianga) is amended to update the planning framework, either broadly or insofar as it relates to Maupuia Pā and Moa Point, to exclude these sites or provide greater clarity around the application of the planning framework particularly where it relates to existing heavily modified environments and the ongoing operation, maintenance, use and development of regionally significant infrastructure.
Guardians of the Bays Inc	FS44.150	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-O3	Oppose	Guardians of the Bays Incorporated oppose the removal of - Maupuia Pā (Category A); and - Moa Point (Category B) from SASM-03 These are significant heritage areas to Māori that need to be in the District Plan.	Disallow / Seeks the submission points be disallowed to retain Maupuia Pā (Category A) and Moa Point (Category B) in the SASMs.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Te Rūnanga o Toa Rangatira	FS138.91	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-03	Oppose	The submitter opposes SASM-03 (kaitiakitanga) and seeks amendments to update the planning framework to exclude Maupuia Pā and Moa Point or provide greater clarity around the application of the planning framework particularly where it relates to existing heavily modified environments and the ongoing operation, maintenance, use and development of regionally significant infrastructure. Te Rūnanga o Toa Rangatira oppose this submission because no matter the extent of modification sites of significance should still be protected. Therefore, Moa Point and Maupuia Pā should not be excluded from the planning framework, nor from the schedule of SASM. It is unclear why regionally significant infrastructure should have priority over the protection of sites of significance to Māori. Disallow / Seeks the submission points be disallowed to retain Maupuia Pā (Category A) and Moa Point (Category B) in the SASMs.
Te Rūnanga o Toa Rangatira	FS138.93	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P2	Oppose	The submitter opposes SASM-P2 (maintenance and repair) and seeks amendments to update the planning framework to exclude Maupuia Pā and Moa Point or provide greater clarity around the application of the planning framework particularly where it relates to existing heavily modified environments and the ongoing operation, maintenance, use and development of regionally significant infrastructure. Te Rūnanga o Toa Rangatira oppose this submission because no matter the extent of modification sites of significance should still be protected. Therefore, Moa Point and Maupuia Pā should not be excluded from the planning framework. It is also unclear why regionally significant infrastructure should have priority over the protection of sites of significance to Māori. Under section 6(e) of the Resource Management Act, wāhi tapu are matters of national importance that should be recognised and provided for in relation to managing the use, development, and protection of natural and physical resources.	Disallow
Te Rūnanga o Toa Rangatira	488.46	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P2	Support in part	Supports the policy protecting spiritual and cultural values of Sites and Areas of Significance to Maori. [Inferred reason]	Retain SASM-P2 (Maintenance and repair) with amendment below.
Greater Wellington Regional Council	FS84.113	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P2	Support	Greater Wellington support provisions which seek to protect Sites and Areas of Significance to Māori.	Allow / Seek provisions which protect SASM.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Te Rūnanga o Toa Rangatira	488.47	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P2	Amend	Considers that there are environmental values embedded to cultural values and this should be recognised.	Seeks that SASM-P2 (Maintenance and repair) is amended to include protection of environmental values that mana whenua have attributed to sites.
Greater Wellington Regional Council	FS84.114	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P2	Support	Greater Wellington support provisions which seek to protect Sites and Areas of Significance to Māori.	Allow / Seek provisions which protect SASM.
Wellington City Council Environmental Reference Group	FS112.15	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P2	Support	Support and agree that SASM-P2 be amended to include the protection of environmental values that mana whenua attribute to sites.	Allow
Tapu-te-Ranga Trust	297.19	Strategic Direction / Sites and Areas of Significance to Māori / SASM-P3	Support	Supports that the ongoing use and development of marae is enabled.	Retain SASM-P3 (Ongoing use and development of marae) as notified.
WCC Environmental Reference Group	377.105	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P3	Support	This policy provides a comprehensive framework for protection of sites of significance while providing the flexibility to enable mana whenua to exercise kaitiakitanga. The SASM policies together recognize not just the importance of protection but of allowing, and making easy, ongoing use in a practical way - and the importance of using sites of significance as a fundamental part of their "significance".	Retain SASM-P3 (Ongoing use and development of marae) as notified.
Fire and Emergency New Zealand	273.97	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P4	Support	Supports the policy as it makes provision for the construction of buildings and structures within sites and areas of significance to Māori. An established fire station is located within a site and area of significance to Māori and this rule would provide for any future on-site alterations, subject to the protection of cultural and spiritual values	Retain SASM-P4 (Construction of buildings and structures within sites and areas of significance) as notified.
Tapu-te-Ranga Trust	297.20	Strategic Direction / Sites and Areas of Significance to Māori / SASM-P4	Support	Supports the inclusion of this policy. It provides for the construction of buildings and structures within sites and areas of significance so long as they consider the extent and impact on relevant matters listed in the policy.	Retain SASM-P4 (Construction of buildings and structures within sites and areas of significance) as notified.
WCC Environmental Reference Group	377.106	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P4	Support	This policy provides a comprehensive framework for protection of sites of significance while providing the flexibility to enable mana whenua to exercise kaitiakitanga. The SASM policies together recognize not just the importance of protection but of allowing, and making easy, ongoing use in a practical way - and the importance of using sites of significance as a fundamental part of their "significance".	Retain SASM-P4 (Construction of buildings and structures within sites and areas of significance) as notified.
Wellington International Airport Ltd	406.230	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P4	Oppose	Opposes these provisions to the extent that apply to the two identified sites at the regionally significant Wellington International Airport. [See paragraph 4.81 to 4.84 of original submission for full reason]	Opposes SASM-P4 (Construction of buildings and structures within sites and areas of significance) and seeks amendment.
Guardians of the Bays Inc	FS44.155	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P4	Oppose	Guardians of the Bays Incorporated oppose the removal of - Maupuia Pā (Category A); and - Moa Point (Category B) from SASM-P4. These are significant heritage areas to Māori that need to be in the District Plan.	Disallow / Seeks the submission points be disallowed to retain Maupuia Pā (Category A) and Moa Point (Category B) in the SASMs.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Te Rūnanga o Toa Rangatira	FS138.94	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P4	Oppose	The submitter opposes SASM-P4 (construction of buildings and structures within sites and areas of significance) and seeks amendments to update the planning framework to exclude Maupuia Pā and Moa Point or provide greater clarity around the application of the planning framework particularly where it relates to existing heavily modified environments and the ongoing operation, maintenance, use and development of regionally significant infrastructure. Te Rūnanga o Toa Rangatira oppose this submission because no matter the extent of modification sites of significance should still be protected. Therefore, Moa Point and Maupuia Pā should not be excluded from the planning framework. It is also unclear why regionally significant infrastructure should have priority over the protection of sites of significance to Māori. Under section 6(e) of the Resource Management Act, wāhi tapu are matters of national importance that should be recognised and provided for in relation to managing the use, development, and protection of natural and physical resources.	Disallow
Wellington International Airport Ltd	406.231	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P4	Amend	Opposes these provisions to the extent that apply to the two identified sites at the regionally significant Wellington International Airport. [See paragraph 4.81 to 4.84 of original submission for full reason]	Seeks that SASM-P4 (Construction of buildings and structures within sites and areas of significance) is amended to update the planning framework, either broadly or insofar as it relates to Maupuia Pā and Moa Point, to exclude these sites or provide greater clarity around the application of the planning framework particularly where it relates to existing heavily modified environments and the ongoing operation, maintenance, use and development of regionally significant infrastructure.
Guardians of the Bays Inc	FS44.156	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P4	Oppose	Guardians of the Bays Incorporated oppose the removal of - Maupuia Pā (Category A); and - Moa Point (Category B) from SASM-P4. These are significant heritage areas to Māori that need to be in the District Plan.	Disallow / Seeks the submission points be disallowed to retain Maupuia Pā (Category A) and Moa Point (Category B) in the SASMs.
Te Rūnanga o Toa Rangatira	FS138.95	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P4	Oppose	The submitter opposes SASM-P4 (construction of buildings and structures within sites and areas of significance) and seeks amendments to update the planning framework to exclude Maupuia Pā and Moa Point or provide greater clarity around the application of the planning framework particularly where it relates to existing heavily modified environments and the ongoing operation, maintenance, use and development of regionally significant infrastructure. Te Rūnanga o Toa Rangatira oppose this submission because no matter the extent of modification sites of significance should still be protected. Therefore, Moa Point and Maupuia Pā should not be excluded from the planning framework. It is also unclear why regionally significant infrastructure should have priority over the protection of sites of significance to Māori. Under section 6(e) of the Resource Management Act, wāhi tapu are matters of national importance that should be recognised and provided for in relation to managing the use, development, and protection of natural and physical resources.	Disallow
Wellington International Airport Ltd	406.232	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P4	Not specified	Considers that SASM-P4 and P5 and associated SASM-R4 and R5 set out the parameters around when buildings and structures may be appropriate within sites or areas of significance to Māori. Submitter does not oppose the sites being SASM but the sites have been significantly modified by land use development over time and that it is not clear how planning framework applies to these areas.	Clarify how SASM-P4 (Construction of buildings and structures within sites and areas of significance) will apply to heavily modified sites and areas which will not affect any identified "integral" features.
Guardians of the Bays Inc	FS44.157	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-P4	Oppose	Guardians of the Bays Incorporated oppose the removal of - Maupuia Pā (Category A); and - Moa Point (Category B) from SASM-P4. These are significant heritage areas to Māori that need to be in the District Plan.	Disallow / Seeks the submission points be disallowed to retain Maupuia Pā (Category A) and Moa Point (Category B) in the SASMs.

Te Rūnanga o Toa Rangatira	FS138.106	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-R3	Oppose	The submitter opposes SASM-R3 (Modification of features integral to a Category A or B site or area of significance to Māori identified in SCHED7) and seeks amendment. Te Rūnanga o Toa Rangatira oppose this submission because this provision is appropriate and should still apply to heavily modified sites.	Disallow
Wellington International Airport Ltd	406.243	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-R3	Not specified	Considers that SASM-P5 and associated SASM-R3 provides for the 'modification of features integral to a Category A or B site of significance to Māori', however Schedule 7 does not identify any 'features integral' to the Maupuia Pa or Moa Point.	Clarify how provisions SASM-R3 (Modification of features integral to a Category A or B site or area of significance to Māori identified in SCHED7) will apply to Maupuia Pa or Moa Point.
Guardians of the Bays Inc	FS44.168	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-R3	Oppose	Guardians of the Bays Incorporated oppose the removal of - Maupuia Pā (Category A); and - Moa Point (Category B) from SASM-R2/ SASM-R3/ SASM-R4/ SASM-R5/ SASM-R6. These are significant heritage areas to Māori that need to be in the District Plan.	Disallow / Seeks the submission points be disallowed to retain Maupuia Pā (Category A) and Moa Point (Category B) in SASM-R2/ SASM-R3/ SASM-R4/ SASM-R5/ SASM-R6.
Te Rūnanga o Toa Rangatira	FS138.107	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-R3	Oppose	The submitter opposes SASM-R3 (Modification of features integral to a Category A or B site or area of significance to Māori identified in SCHED7) and seeks amendment. Te Rūnanga o Toa Rangatira oppose this submission because this provision is appropriate and should still apply to heavily modified sites.	Disallow
Fire and Emergency New Zealand	273.100	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-R4	Support	Supports the rule as it makes provision for the establishment of new buildings or structures within sites and areas of significance to Māori in Category A or B.	Retain SASM-R4 (New buildings or structures within a site or area of significance to Māori in Category A or B) as notified.
WCC Environmental Reference Group	377.112	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-R4	Support	This rule framework is supported as it operationalises Policies from the SASM chapter. As well as providing a flexible framework to allow ongoing use of sites of significance where appropriate, the rule provides a specific pathway for repair and construction of marae, which is supported as it further enables mana whenua to exercise kaitiakitanga.	Retain SASM-R4 (New buildings or structures within a site or area of significance to Māori in Category A or B) as notified.
Southern Cross Healthcare Limited	380.41	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-R4	Support in part	Supports SASM-R4 in part and in particular supports the permitted activity status provided under SASM-R4.1 and restricted discretionary activity status provided under SASM-R4.2, subject to the relief sought above.	Supports Rule SASM-R4 (New buildings or structures within a site or area of significance to Māori in Category A or B) in its current form and seeks amendment.
Investore Property Limited	405.37	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-R4	Support in part	Supports SASM-R4 in part and in particular supports the permitted activity status provided under SASM-R4.1. Also supports the Restricted Discretionary activity status provided, but considers there needs to be amendments to clarify that this rule only applies within the line area identified as a SASM on the maps, and not to the entire site that the line encroaches into.	Retain SASM-R4 (New buildings or structures within a site or area of significance to Māori in Category A or B) and seeks amendment.
Investore Property Limited	405.38	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-R4	Amend	Supports SASM-R4 in part and in particular supports the permitted activity status provided under SASM-R4.1. Also supports the Restricted Discretionary activity status provided, but considers there needs to be amendments to clarify that this rule only applies within the line area identified as a SASM on the maps, and not to the entire site that the line encroaches into.	Amend SASM-R4 (New buildings or structures within a site or area of significance to Māori in Category A or B) to clarify that this rule only applies within the line area identified as a SASM on the maps, and not to the entire site that the line encroaches into.
Wellington International Airport Ltd	406.244	Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-R4	Oppose	Opposes these provisions to the extent that apply to the two identified sites at the regionally significant Wellington International Airport. [See paragraph 4.81 to 4.84 of original submission for full reason]	Opposes SASM-R4 (New buildings or structures within a site or area of significance to Māori in Category A or B) and seeks amendment.
Guardians of the Bays Inc	FS44.169	Part 2 / Historical and Cultural Values / Sites and Areas of Significance to Māori / SASM-R4	Oppose	Guardians of the Bays Incorporated oppose the removal of - Maupuia Pā (Category A); and - Moa Point (Category B) from SASM-R2/ SASM-R3/ SASM-R4/ SASM-R5/ SASM-R6. These are significant heritage areas to Māori that need to be in the District Plan.	Disallow / Seeks the submission points be disallowed to retain Maupuia Pā (Category A) and Moa Point (Category B) in SASM-R2/ SASM-R3/ SASM-R4/ SASM-R5/ SASM-R6.

Wellington City Council	266.89	Historical and Cultural Values / Viewshafts / General VIEW	Amend	Considers an additional sentence is needed in the introduction.	Add the following sentence to the end of the last paragraph in the introduction: <u>The associated rules apply to sites within the City Centre Zone, Waterfront Zone and the Viewshaft Control Area identified on the District Plan maps, and only to development that impinges on the specific parameters of each view set out in SCHED5.</u>
Claire Bibby	329.1	Historical and Cultural Values / Viewshafts / General VIEW	Amend	Considers that the survey mark used for the construction of the Tawa tunnel has a view worthy of preservation as a viewshaft. [Refer to original submission for full reason, including appendices]	Seeks that the view from the survey marker used for the centre line of the railway tunnel in Tawa be recognised as a viewshaft.
Juliet Broadmore	471.1	Historical and Cultural Values / Viewshafts / General VIEW	Support in part	Support viewshafts to protect the views to important and connecting landmarks in the city.	Retain Viewshaft chapter as notified. [Inferred decision requested]
Argosy Property No. 1 Limited	383.70	Historical and Cultural Values / Viewshafts / VIEW-P2	Support	Supports the policy as it enables reasonable intrusions into viewshafts. Viewshafts are generally provided within the street corridor, however some extend onto and over private properties. This policy reflects that buildings and additions to existing buildings can be appropriate	Retain VIEW-P2 (Maintaining identified values) as notified.
Argosy Property No. 1 Limited	383.71	Historical and Cultural Values / Viewshafts / VIEW-P2	Support	Supports the policy as it enables reasonable intrusions into viewshafts. Viewshafts are generally provided within the street corridor, however some extend onto and over private properties. This policy reflects that buildings and additions to existing buildings can be appropriate	Retain VIEW-P3 (Avoiding intrusions into iconic and landmark views) as notified.
Wellington City Council	266.90	Historical and Cultural Values / Viewshafts / VIEW-R1	Amend	Considers amendment needed to fix drafting error. Considers the reference to CCZ-S8 (Active frontage control) is incorrect. Considers this rule is meant to cross-reference to CCZ veranda standard, which is CCZ-S7.	Amend VIEW-R1 (Verandahs within viewshafts) as follows: a. Compliance with Standard CCZ-S8 CCZ-S7 is achieved; and ...
Wellington City Council	266.91	Historical and Cultural Values / Viewshafts / VIEW-R1	Amend	Considers zoning boxes should be added to the left of the rules, so it is clear where the viewshaft provisions apply.	Amend VIEW-R1.1 (Verandas within viewshafts) and R1.2 to add a zones column for both the Permitted Activity and Restricted Discretionary rule categories as follows: <u>City Centre Zone</u>
Wellington City Council	266.92	Historical and Cultural Values / Viewshafts / VIEW-R2	Amend	Considers zoning boxes should be added to the left of the rules, so it is clear where the viewshaft provisions apply. Considers this rule only applies to the less significant Golden Mile views that only rule through the CCZ and WFZ and end at the waterfront.	Amend VIEW-R2.1 (Construction of new buildings and structures, and alterations and additions to existing buildings, within a viewshaft), to add a zones column for the Restricted Discretionary rule category as follows: <u>City Centre Zone</u> <u>Waterfront Zone</u>

Natural Environment Values - Ecosystems and Indigenous Biodiversity

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council	266.93	Historical and Cultural Values / Viewshafts / VIEW-R2	Amend	<p>Considers zoning boxes should be added to the left of the rules, so it is clear where the viewshaft provisions apply.</p> <p>Considers this rule relates to more significant views out to long range focal elements over the harbour.</p>	<p>Amend VIEW-R2.2 (Construction of new buildings and structures, and alterations and additions to existing buildings, within a viewshaft), to add a zones column for the Restricted Discretionary rule category as follows:</p> <p>City Centre Zone Waterfront Zone Viewshaft Control Area</p>
Argosy Property No. 1 Limited	383.72	Historical and Cultural Values / Viewshafts / VIEW-R2	Support in part	<p>Supports the rule in that construction of new buildings and structures, and alterations and additions to existing buildings within viewshafts that are not iconic or landmark views should be restricted discretionary. This is appropriate to reflect that some intrusions into viewshafts are appropriate and can be considered in light of the relevant policies. It appears that Policy VIEW-P3 has been overlooked as a matter of discretion.</p>	<p>Amend VIEW-R2 (Construction of new buildings and structures, and alterations and additions to existing buildings within a viewshaft) as follows:</p> <p>Matters of discretion are: 1. The matters in VIEW-P2 and VIEW-P3.</p>
Argosy Property No. 1 Limited	383.73	Historical and Cultural Values / Viewshafts / VIEW-S1	Support in part	<p>Supports the standard in that construction of new buildings and structures, and alterations and additions to existing buildings within viewshafts that are not iconic or landmark views should be restricted discretionary. This is appropriate to reflect that some intrusions into viewshafts are appropriate and can be considered in light of the relevant policies. It appears that Policy VIEW-P3 has been overlooked as a matter of discretion.</p>	<p>Amend VIEW-S1 (View protection):</p> <p>Matters of discretion are: 1. The matters in VIEW-P2 and VIEW-P3.</p>
CentrePort Limited	402.109	Historical and Cultural Values / Viewshafts / VIEW-S1	Support	<p>Support exclusion for the Commercial Port Area from provisions</p>	<p>Retain VIEW-S1 (View protection) as notified.</p>
Steve West	2.2	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	<p>[Refer to original submission for full reason, including attachment].</p>	<p>[Refer to original submission for full reason, including attachment].</p>
Steve West	2.3	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	<p>[Refer to original submission for full reason, including attachment].</p>	<p>Seeks that if Significant Natural Areas are to apply to private land, incentives should be offered to compensate for loss of land value, to avoid landowners either removing natives, or reducing their environmental efforts to protect that bush. Providing incentives for new planting of natives so as to avoid a reduction in food sources for native birds and indigenous biodiversity.</p>
Steve West	2.4	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>Considers that the SNA rules are unworkable and have resulted in owners pre-emptively removing vegetation before the plan was notified. Because they are generic they do not suit urban land which have unique characteristics on each site, such as views, slopes and development potential.</p>	<p>Seeks that the Council work with private landowners to develop rules unique to specific properties rather than blanket rules.</p>
Steve West	2.5	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	<p>Considers that SNAs on private urban land affect a large number of landowners but contribute little total area of vegetation. This creates increased work for Council staff and challenges to intensify housing within urban boundaries as some of the undeveloped city land will include native bush.</p>	<p>Supports that Significant Natural Areas do not apply to private residential land. [Inferred decision requested]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Steve West	2.6	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	<p>Considers that SNA criteria should be clarified so that it is more representative of Wellington's biodiversity. Much vegetation that is being identified as significant are common native species. [Refer to original submission for full reason]</p> <p>Considers that the criteria being used by WCC for assessing for SNAs are broad with large areas of commonly found bush being captured by the policy settings as a result. [Refer to original submission for full reason]</p>	Seeks that the Council have set its own specific criteria, rather than using those set by the Greater Wellington Regional Council, to reflect Wellington's natural and built-up environment.
Steve West	2.7	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Not specified	Considers that the rules create significant legal risk for landowners if they misunderstand those rules, are unaware of future rule updates, or if the SNA boundaries are imprecisely defined.	Not specified.
Steve West	2.8	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	<p>Considers that alternative options should be pursued to manage indigenous biodiversity on private land.</p> <p>SNA provisions in the district plan including: making signing up to SNA rules a voluntary option, Council negotiate purchase of land or seek agreement from owner on rules, use QEII tools, and establish a city wide campaign of native planting.</p>	<p>Seeks that alternative policy options are explored:</p> <p>a) Remove all private land from the Significant Natural Area requirement.</p> <p>b) Make signing up to Significant Natural Areas on private land voluntary, and if coupled with Council incentives would see some landowners signing up to lock in their Significant Natural Area for future generations.</p> <p>c) If there were a significant area of private land (say more than one hectare) the Council could negotiate with that landowner to seek agreement on how to protect this area, or even to purchase the land for addition to the Council's land reserves.</p> <p>d) The Council could accept all types of protection including QEII and title conservation covenants. This would require the Council to create more nuanced maps with multiple protection measures shown (including Significant Natural Areas) as a measure of the protected indigenous biodiversity areas.</p> <p>e) Establish a program to encourage city wide planting of suitable natives to provide a broad spread of food across the city.</p>
Shannon Andrews	12.1	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Supports WCC's decision to exclude SNAs from residential zones.	Retain as notified.
Peter Kelly	16.2	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Councillors have a democratic mandate to balance the interests of WCC residents against the important natural environment values represented by significant natural areas (SNAs). The Proposed Rules are essentially the Officer Draft Rules, but with the SNA designation removed from all residential zoned land.	Supports the Proposed District Plan as notified - with no Significant Natural Areas on residentially zoned land.
Peter Kelly	16.3	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	<p>Councillors have a democratic mandate to balance the interests of WCC residents against the important natural environment values represented by significant natural areas (SNAs). The Proposed Rules are essentially the Officer Draft Rules, but with the SNA designation removed from all residential zoned land.</p> <p>Requests that if SNAs are returned to residentially zoned land, the provisions in the draft District Plan are reinstated and fine-tuned.</p>	<p>If the Proposed District Plan is amended to allow Significant Natural Areas on residentially zoned land:</p> <p>Seeks that changes are made to ECO (Ecosystems and Indigenous Biodiversity) to give effect to the following provision:</p> <p>Add an amended Draft District Plan ECO-R4:</p> <p>i. Be held in a freehold title that existed at 18 July 2022 1 July 2027</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Barry Insull	32.1	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	<p>Considers that the PDP does not identify why shingle beaches are endangered.</p> <p>At several points it is recorded that shingle beaches are endangered e.g. site 122 (Toungue Point). Given numerous shingle beaches exist between Owhiro Bay and Makara perhaps it would be helpful to explain both why such a designation exists and set out what mitigation/enhancement measures are being undertaken and by whom.</p>	Clarify the endangered status of shingle beaches.
Barry Insull	32.2	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	<p>Considers that the PDP does not identify what mitigation/enhancement measures are being undertaken to protect shingle beaches.</p> <p>At several points it is recorded that shingle beaches are endangered e.g. site 122 (Toungue Point). Given numerous shingle beaches exist between Owhiro Bay and Makara perhaps it would be helpful to explain both why such a designation exists and set out what mitigation/enhancement measures are being undertaken and by whom.</p>	Seeks that the PDP make mention of what mitigation and enhancement measures to protect shingle beaches are being undertaken.
Barry Insull	32.3	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	<p>Considers that the PDP does not identify who is undertaking mitigation/enhancement measures to protect shingle beaches.</p> <p>At several points it is recorded that shingle beaches are endangered e.g. site 122 (Toungue Point). Given numerous shingle beaches exist between Owhiro Bay and Makara perhaps it would be helpful to explain both why such a designation exists and set out what mitigation/enhancement measures are being undertaken and by whom.</p>	Seeks that the PDP make mention of who is undertaking mitigation and enhancement measures to protect shingle beaches.
Hugh Good	90.3	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Not specified	Not opposed to attempts to reinstate Significant Natural Areas on private land.	Not Specified
Capital Kiwi Trust Board	91.1	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	<p>Considers that there is a level of concern across landowners in the Capital Kiwi project area around the potential for SNAs to be declared over their properties in the future should kiwi either be released onto their land or be ranging onto them.</p> <p>In particular, concern is around any potential to unreasonably limit, restrict or prevent operations or developments on their land.</p> <p>Considers that the Capital Kiwi project would not be possible without the trust and support of a wide range of rural private landowners.</p> <p>Considers that based discussions with the Minister of Conservation, and officials in DOC (Director General and Head of Policy), GWRC, and WCC, each party makes it clear that the declaration of SNAs on private land as the result of having North Island brown kiwi on their land is not a possible outcome.</p> <p>[Refer to submission for full reasons].</p>	Clarify the intent of the Significant Natural Area policy to provide assurance that Significant Natural Areas will not, and cannot, be created through native bird species being released onto, or visiting landowners' properties as a result of their commitment to predator control.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Airways Corporation of New Zealand Limited	FS106.1	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Policy 23 of the Regional Policy Statement for the Wellington Region (RPS) sets out the criteria for identifying significant ecosystems and habitats (i.e. SNAs). Ecosystems and habitats will be considered significant if they meet one or more of the criteria listed under Policy 23. Point d of Policy 23 states "provides seasonal or core habitat for protected or threatened indigenous species". The definition of protected species under the RPS is "Species protected by the Wildlife Act 1953 and the Marine Mammals Protection Act 1978". Although North Island Brown Kiwi have a conservation status of "not threatened" under the NZ Threat Classification System, they are "absolutely protected" under the Wildlife Act 1953. As such, it is considered that the seasonal or core habitat of the North Island Brown Kiwi (or any other protected indigenous species) would meet the criteria of a SNA under Policy 23 of the RPS and would therefore be required to be scheduled in WCC's District Plan as a SNA. It is noted that areas used intermittently by protected indigenous species may not meet the criteria of a SNA, however, could meet the criteria for a highly mobile fauna area under the NPS-IB exposure draft. Note: The North Island Brown Kiwi has not been identified as highly mobile fauna under Appendix 2 of the NPS-IB exposure draft.	Allow / Acknowledges that the presence of kiwi would currently result in eligibility for SNA status and seeks that that submission be allowed in part.
Oliver Sangster	112.9	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support in part	Generally supports the use of SNA provisions	Retain Significant Natural Area provisions with amendment.
Oliver Sangster	112.10	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Not specified	[Inferred reasons] Considers that awareness is needed about SNAs, what they do, their benefits, and how to work appropriately within and around them.	Seeks that the implementation of the Proposed District Plan be coupled with a strong public education campaign about Significant Natural Areas.
Pam Wilson	120.4	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Oppose any attempt to reinstate Significant Natural Areas on private land.	Not specified.
Thomas Brent Layton	164.4	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	Considers that the WCC should abandon the SNA overlay and instead enter into negotiations. This will focus WCC and the community's mind on what value they place on conserving areas. Considers that if the council thinks that there is a net benefit to society from an SNA it should negotiate with the current owners over the imposition of controls and impose the costs of preservation on all ratepayers. If they don't think the community will bear the costs sought by the landowner, then, clearly, the community (which includes the landowner) will be better off if the land is not subject to an SNA. [Refer to original submission for full reasons].	Adopt a policy of negotiating with current landowners for agreement to preserve significant natural areas.
Helen Grove	197.1	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	Opposes the Council confiscating land rights of private ownership in multiple ways, including SNAs.	Opposes Significant Natural Areas on urban or rural private land.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Boston Real Estate Limited	220.2	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that where 'site specific' assessments are not completed then the status quo of the operative district plan should prevail.
Tyers Stream Group	221.31	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	Opposes exception of residentially zoned land to SNA classification.	Amend the plan to include significant natural areas on privately owned residential land.
Steve West	FS110.1	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	Notes that original submitter states that "SNAs on residential private property adjoining Tyers Stream should be reinstated as they protect increasingly important habitat and biodiversity of the Wellington area. Considers that this would then enable those residents and the community to be supported in efforts to enhance those values." The original submitter also infers that without SNAs on private urban land, Wellington's indigenous biodiversity would be worse. Opposes the reinstatement of SNAs on residential private property in the Proposed District Plan (including around Tyers Stream) for the following reasons: - Indigenous biodiversity in Wellington has increased significantly over the last 20 years, without any need for SNAs. Rather voluntary conservation efforts have been hugely successful in Wellington City. - Considers that instead of supporting residents, creating SNAs on private urban land in the district plan will turn native bush into an expensive and unwanted burden for many private urban landowners, destroying landowner value and goodwill in the process. There is real risk that indigenous biodiversity gains achieved over the last two decades will diminish over time should SNAs be created on private urban land.	Disallow
Paul Blaschke	FS129.10	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Support submission points made by a significant number of individuals and groups that essentially support the same proposition "Reinstate the overlay of all properly delineated SNAs or part SNAs on all relevant residential zoned properties".	Allow
Dominic Hurley	260.1	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	Considers that site owners will lose control and value of their land due to SNA's. SNA's on land will drive owners to remove the native bush to avoid SNA status, having the opposite effect. Incentives should be offered instead.	Remove the Ecosystems and Indigenous Biodiversity Chapter from the PDP.
Dominic Hurley	260.2	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	Considers that site owners will lose control and value of their land due to SNA's. SNA's on land will drive owners to remove the native bush to avoid SNA status, having the opposite effect. Incentives should be offered instead.	Seeks that Significant Natural Areas are not applied to residentially zoned private land in the future.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Horokiwi Quarries Ltd	271.21	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	Considers that there is a restrictive policy and rule framework that would apply to SNAs (and in particular where the sites are within a Coastal Environment overlay) and wishes to ensure any sites that are identified are in fact warranted as significant areas. Horokiwi does have concerns with particular areas on both its site and on the adjoining land to the west, in terms of whether the biodiversity values merit the specific areas being identified as SNAs. Based on the independent ecological assessment, Horokiwi seeks amendment to the SNA area identified. [Refer to original submission for full reason, including attachments]	Seeks that the Significant Natural Area overlay be amended as it relates to the Horokiwi quarry site including to remove the SNA from the Horokiwi site which is subject to the existing use certificate reference 1048648. [Refer to original submission, including figure and attachments]
Director-General of Conservation	FS106.2	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	The methodology used to determine SNAs for the PDP should align with the criteria of Policy 23 of the Regional Policy Statement for the Wellington Region. It is also considered effective and efficient to align the review of Significant Natural Area provisions with the policy direction and requirements that are anticipated to come into effect during the PDP hearing process as set out in the exposure draft of the National Policy Statement on Indigenous Biodiversity (NPS-IB). Removal or amendments to the extent of any SNA is not supported without the site being ground-truthed by a suitably qualified ecologist to confirm the accuracy of the current SNA mapping in Schedule 8. The SNA opposed by Horokiwi Quarries Ltd should be ground-truthed before a determination is made to retain, amend, or remove the site/SNA from Schedule 8. If the site does not meet the SNA criteria under the NPS-IB exposure draft or the RPS, only then should it be removed.	Disallow / Seeks that the submission is disallowed, unless it can be confirmed that the site does not meet the relevant SNA criteria
Jane Hurley	286.1	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	Opposes significant natural area controls, but if are included on residential land considers that the Council should at the market price, and that that compensation should be determined at the point at which owners wish to sell their property, so that it reflects the actual market loss suffered at that point. [Refer to original submission for full reason]	Seeks that compensation be provided to private landowners should residential zoned sites have significant natural area controls applied.
Tawa Community Board	294.10	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Supports the protection of our ecology on public land by the use of the Significant Natural Area (SNA). Considers that SNA's on private land may leave some property owners with unusable land, leading to financial hardship.	Retain ECO Chapter as notified (with regards to Significant Natural Areas).
Tawa Community Board	294.11	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Not specified	Considers that SNA's on private land may leave some property owners with unusable land, leading to financial hardship.	Not specified.
Roland Sapsford	305.29	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	Considers that Aro Valley's vegetation should be considered natural heritage. Aro Valley is recognised for the significant presence of vegetation within its urban fabric, along with its built environment. Significant Natural Areas are not the only tool at the Council's disposition. Creative use can be made of design controls which recognise the value of green space and enable design conversations about its retention.	Seeks that Aro Valley's vegetation be considered natural heritage and make creative use of planning tools to protect it.
Wilma Sherwin	306.4	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Opposes any attempts to re-instate Significant Natural Areas (SNA's) on private land.	Supports that Significant Natural Areas do not apply to private urban land. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wilma Sherwin	306.5	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Opposes any attempts to re-instate Significant Natural Areas (SNA's) on private land.	Supports that Significant Natural Areas do not apply to private rural land. [Inferred decision requested]
Transpower New Zealand Limited	315.162	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Supports the introductory text which clarifies that provisions specific to infrastructure are addressed in the infrastructure chapter.	Retain the Introduction to the Ecosystems and Indigenous Biodiversity chapter as notified.
Bruce Crothers	319.9	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Not specified	Considers that support for revegetation of marginal land and restoration of wetlands for biodiversity and carbon sequestration should be continued. No further draining or development on wetland. It is considered that if humans are to survive as a species for more than fifty years, the Council must put in place the means to reduce emissions and ensure carbon sequestration by restoring green spaces and wetlands, as per the IPCC report.	Seeks that the council put in place the means to reduce emissions and ensure sequestration of carbon by restoring greenspace and wetlands, as per the IPCC report as well as ensuring no further draining or development of, wetlands.
Bruce Crothers	319.10	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	Opposes the draining or development of wetlands.	Not specified.
Bruce Crothers	319.11	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	Considers that there should be a ban on the covering of waterways in green fields development.	Seeks a ban on covering waterways in greenfield development
Bruce Crothers	319.12	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	Considers the Queen's chain should be restored, possibly allowing for public walking network and wildlife corridor.	Seeks that the Queen's chain is restored.
Bruce Crothers	319.13	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Not specified	Considers that the Council needs to intervene on the noticeable biodiversity collapse by not allow the wholesale destruction of nature on land, in the air and sea, or any destruction of irreplaceable natural assets.	Seeks that Council protect nature on land, in the air and in the sea, as well as any irreplaceable natural assets.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.171	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Not specified	Generally supports the provisions in this chapter, subject to the submission points below. As discussed above, the SNA provisions applying to residential SNAs must be reinstated from the previous version of the Plan. Reinsert all provisions relating to SNAs in residential zones, from the District Plan draft dated 20 April 2022 (ECO chapter is attached to this submission) with amendments as set out below. This includes any deleted references to residential SNAs or SCHED 9 - Urban Environment Allotments that may have been included in other parts of the Plan. If this is not done, there will need to be an alternative rule or rules to protect significant biodiversity in residential areas, that still meets the requirements of the Act. Insert additional provisions in this chapter and in other relevant chapters to provide for Council's function for the maintenance of indigenous biodiversity, including regulatory methods to restrict vegetation clearance and policy direction for assessments of effects on indigenous biodiversity. Include provisions to promote maintenance, restoration, and enhancement of areas within and beyond SNAs. There appears to be a referencing problem with several of the provisions. The provisions seem to have retained the references to policies prior to the deletion of the residential SNAs. We seek that all references to ECO policies are reviewed to ensure that they are accurate.	Not specified.
Kāinga Ora – Homes and Communities	FS89.157	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	Kāinga Ora opposes amendments as this may impact on residential intensification outcomes.	Disallow
Director-General of Conservation	FS106.3	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	The reasoning and decision requested by the original submitter is supported.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Steve West	FS110.3	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>Disagree that reinstatement of residential SNAs in the Proposed District Plan is required for WCC to meet its obligations under section 6(c) of the RMA and policies 23/24 of the Regional Policy Statement for the following reasons:</p> <ul style="list-style-type: none"> - Neither the RMA or RPS prescribe in detail how a council might give effect to the requirement to protect of areas of significant indigenous vegetation and significant habitats of indigenous fauna. On note, in the 2015 Environment Court case between Forrest & Bird and New Plymouth District Council the Environment Court concluded Councils might conceivably meet RMA Section 6(c) duties through methods other than identification and rules, but in this case the non-regulatory methods relied on by the Council were insufficient to provide protection. - Alternative methods of compliance are available to WCC. - Indigenous biodiversity in Wellington (including on private urban land) has increased significantly over the last 20 years, including Zealandia and Predator Free, along with voluntary conservation efforts without any need for SNAs. - Creating SNAs on private urban land will turn native bush into an expensive and unwanted burden for many private urban landowners , destroying landowner value and goodwill in the process. Real risk that indigenous biodiversity gains achieved over the last two decades will diminish should SNAs be created on private urban land, and as a result would see both GWRC and WCC failing to meet their regulatory obligations, including under the RMA. - Specifically for Captain Edward Daniell Drive, indigenous biodiversity is already protected under Section 3 of the Land Covenant registered on the records of title. <p>Considers that as the NPSIB is in draft form and has no legal effect, and given how unpopular SNAs proved to be in submissions on the draft district plan, pushing on with creating SNA on private urban land before the policy statement is in effect would further undermine WCC's already poor relationship with impacted landowners. [Refer to further submission for full reason]</p>	Disallow / Seeks that part of submission be disallowed and that already protected land (such as Captain Edward Dainell Drive) be removed from Schedule 9, should residential SNAs be reinstated.
Wellington City Council Environmental Reference Group	FS112.23	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Support the position that the SNA provisions applying to residential SNAs must be reinstated from the previous version of the Plan. Reinsert all provisions relating to SNAs in residential zones, from the District Plan draft dated 20 April 2022. Further support amendment to clarify the wider role of the Council maintaining biodiversity wider than SNAs. We support the submission point and need an objective stating the district's biodiversity is maintained and enhanced. Support the need for a new suite of objectives, policies, and rules to provide for protection of wetlands.	Allow
Royal Forest and Bird Protection Society	345.172	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support in part	Considers the Introduction is silent on the Council function of maintaining biodiversity, which is wider than only protection SNAs. The purpose of this chapter is to identify significant natural areas within Wellington City to protect and maintain the remaining areas of indigenous biodiversity. In addition to the requirement to identify and protect significant natural areas, Council also has the job of maintaining biodiversity outside of significant natural areas. This chapter contains provisions which support that function.	<p>Amend the Introduction to the Ecosystems and Indigenous Biodiversity chapter:</p> <p>The purpose of this chapter is to identify significant natural areas within Wellington City to protect and maintain the remaining areas of indigenous biodiversity. <u>In addition to the requirement to identify and protect significant natural areas, Council also has the job of maintaining biodiversity outside of significant natural areas. This chapter contains provisions which support that function.</u></p> <p>...</p> <p>The SNAs that are covered by this chapter are contained in SCHED8 – Significant Natural Areas, <u>SCHED 9 – Urban Environment Allotment, and any area that biodiversity values that meet Policy 23 RPS. Where SNAs are within an urban environment allotment the trees and location are identified in SCHED9 – Urban Environment Allotments to meet the requirements of s76 of the RMA.</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council Environmental Reference Group	FS112.24	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Support the position that the SNA provisions applying to residential SNAs must be reinstated from the previous version of the Plan. Reinsert all provisions relating to SNAs in residential zones, from the District Plan draft dated 20 April 2022. Further support amendment to clarify the wider role of the Council maintaining biodiversity wider than SNAs. We support the submission point and need an objective stating the district's biodiversity is maintained and enhanced. Support the need for a new suite of objectives, policies, and rules to provide for protection of wetlands.	Allow
Greater Wellington Regional Council	351.144	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support in part	Supports the identification of SNAs in the PDP in accordance with RPS Policies 23 and 24.	Retain provision, subject to amendments, as outlined other submission points.
Greater Wellington Regional Council	351.145	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	Considers that in managing the effects of intensification on indigenous ecosystems and habitats, we recommend WCC includes additional controls for zones where intensification may occur in areas adjacent to SNAs, such as buffer zones and ecological corridors. Such areas contribute to the long-term viability and enhancement of SNAs. Greater Wellington seeks consideration of these measures in accordance with Policy 47(a) and (b) of the operative RPS.	Seeks to include any necessary consequential amendments to provide this direction.
Director-General of Conservation	FS106.4	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	The reasoning and decision requested by the original submitter is supported.	Allow
Wellington City Council Environmental Reference Group	FS112.9	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Support GWRC seeking that WCC includes additional controls for zones where intensification may occur in areas adjacent to SNAs, such as buffer zones and ecological corridors. Agree with them that such areas contribute to the long-term viability and enhancement of SNAs, and also give effect to Policy 47(a) and (b) of the operative RPS.	Allow
Greater Wellington Regional Council	351.146	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	Though Greater Wellington supports WCC's identification of SNAs in line with RPS Policy 23, we oppose the omission of SNAs on private residential land from the Proposed District Plan (PDP) because: <ul style="list-style-type: none"> the removal of identified SNAs from the PDP contradictory to national direction for indigenous biodiversity protection. Section 6(c) of the RMA 1991 states that 'the protection of areas of significant indigenous vegetation and significant habitats of indigenous fauna' is a matter of national importance, and that this matter must be 'recognised and provided for' by all persons exercising functions and powers under the RMA, including local authorities under Sections 30 and 31. the removal of SNAs on private residential land from the PDP is contrary to Policy 24 of RPS. Policy 24 directs district councils to include in their district plans policies, rules and methods to protect the indigenous ecosystems and habitats identified in accordance with policy 23. Policy 24 requires district councils to protect all areas identified in accordance with policy 23 through provisions in their district plans. the removal of identified SNAs on private residential land from the PDP to be inconsistent with WCC's vision and aspirations for protecting and restoring the city's indigenous biodiversity. The Our Natural Capital: Wellington's Biodiversity Strategy and Action Plan 2015[1] states that WCC will protect biodiversity by 'focussing on the protection of priority biodiversity sites on public and private land and rare, threatened, or locally significant species', and that it will build natural capital by 'respect[ing] the importance of indigenous biodiversity to New Zealand and its intrinsic right to exist'. We do not consider the exclusion of SNA on private residential land to align with this direction. 	Seeks to apply SNAs to all zones as intended by section 6 of the RMA and Policy 24 of the RPS.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Director-General of Conservation	FS106.5	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	The reasoning and decision requested by the original submitter is supported.	Allow
Steve West	FS110.12	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>Do not agree that reinstatement of SNAs on residential private property in the PDP is required for WCC to meet its obligations under section 6(c) of the RMA and policies 23/24 of the Regional Policy Statement for the following reasons:</p> <ul style="list-style-type: none"> - Neither the RMA or RPS prescribe in detail how a council might give effect to the requirement to protect of areas of significant indigenous vegetation and significant habitats of indigenous fauna. The 2015 Environment Court case between Forrest & Bird and New Plymouth District Council the Environment Court concluded Councils might conceivably meet RMA Section 6(c) duties through methods other than identification and rules, but in this case the non-regulatory methods relied on by the Council were insufficient to provide protection. - Indigenous biodiversity in Wellington (including on private urban land) has increased significantly over the last 20 years, including Zealandia and Predator Free, along with voluntary conservation efforts without any need for SNAs. - Creating SNAs on private urban land will turn native bush into an expensive and unwanted burden for many private urban landowners, destroying landowner goodwill and value in the process. Real risk that indigenous biodiversity gains achieved over the last two decades will diminish should SNAs be created on private urban land, and as a result would see both GWRC and WCC failing to meet their regulatory obligations, including under the RMA. - Specifically for Captain Edward Daniell Drive, indigenous biodiversity is already protected under Section 3 of the Land Covenant registered on the records of title. <p>Policies 23/24 are flawed, when applied to Wellington city, particularly the 'representativeness' criteria. To explain: Wellington is part of the MF6 ecosystem, described as a Kohekohe and Tawa forest with only 16% remaining. Also in this ecosystem are Kawakawa, Mahoe, Nikau, Supplejack. Wellington is a compact region of around 29,000 hectares, of which ~40% is urban, compared to the regional average of ~25%, yet there is no specific criteria provided for Wellington City to reflect its greater proportion of urban land. By using the GWRC criteria of 30% remaining for Wellington City, rather than a specific criteria, areas of native bush with any of the listed plants, including secondary trees like Mahoe will trigger representativeness criteria, despite none of these trees being listed as threatened species. Mahoe is commonly found across Wellington city, in the town belt, council reserves and on private urban land. As a result, urban land with few notable features other than some Mahoe, has become ensnared in the SNA assessments. [Refer to further submission for full reason]</p>	<p>Disallow / Seeks that part of submission be disallowed and that already protected land (such as Captain Edward Dainell Drive) be removed from Schedule 9, should residential SNAs be reinstated.</p> <p>Seeks that:</p> <ul style="list-style-type: none"> - WCC engages with GRWC to establish appropriate criteria in the RPS for Wellington City, so indigenous biodiversity that is actually significant is identified, rather than capturing vast areas with commonly found bush. - SNAs on private urban land remain excluded from the Proposed District Plan.
Wellington City Council Environmental Reference Group	FS112.10	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	<p>Support GWRC's opposition to the omission of SNAs on private residential land from the Proposed District Plan (PDP) because:</p> <ul style="list-style-type: none"> - the removal of identified SNAs from the PDP is contradictory to the national direction for indigenous biodiversity protection; - is also contrary to Policy 24 of RPS;and - is inconsistent with WCC's Our Natural Capital: Wellington's Biodiversity Strategy and Action Plan 2015. 	Allow
Wellington City Council Environmental Reference Group	FS112.27	Part 2 / Energy Infrastructure and Transport / Renewable Electricity Generation / REG-S3	Support	WCCERG agree with the submitter and oppose the omission of SNAs on private residential land from the Proposed District Plan (PDP).	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.147	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	Policy IE.1 of Proposed RPS Change 1 directs district plans include policies, rule or methods to partner with mana whenua to managing indigenous biodiversity values. where offsetting is required, this policy could be implemented by provisions requiring management plans for managing offset biodiversity areas and effects on significant areas. Monitoring requirements would form part of these plans and plan direction could encourage the adoption of mātauranga Māori in monitoring of indigenous species in relevant circumstances. Other relevant Proposed RPS Change 1 policies include Policy 47 and IE.2.	Seeks to Amend the PDP to require partnering with mana whenua in the management of activities that affect indigenous biodiversity. Consider the requirement for management plans for consents and within those management plans a requirement for enabling tangata whenua to exercise kaitiakitanga to monitor biodiversity.
Director-General of Conservation	FS106.6	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	The reasoning and decision requested by the original submitter is supported.	Allow
Wellington City Council Environmental Reference Group	FS112.11	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Support GWRC's request to require partnering with mana whenua in the management of activities that affect indigenous biodiversity. This is because Policy IE.1 of Proposed RPS Change 1 directs district plans to include policies, rules or methods to partner with mana whenua to manage indigenous biodiversity values.	Allow
Te Rūnanga o Toa Rangatira	FS138.25	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	The submitter seeks to amend the PDP to require partnering with mana whenua in the management of activities that affect indigenous biodiversity. They also seek that the requirement for management plans for consents is considered, and within those management plans a requirement for enabling tangata whenua to exercise kaitiakitanga to monitor biodiversity. Te Rūnanga o Toa Rangatira support this part of the submission because requiring partnership with mana whenua in the management of indigenous biodiversity will support kaitiakitanga. This will support mana whenua in building their mātauranga and skills in relation to monitoring and management of biodiversity and te taiao.	Allow
Greater Wellington Regional Council	351.148	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	Considers that while mana whenua / tangata whenua exercising their role as kaitiaki have been provided for, we consider the policy requires amendment or a new policy inserted to specifically recognise mana whenua / tangata whenua involvement in the mapping of indigenous biodiversity, including to identify taonga species. This would be to have regard to Proposed RPS Change 1 policies IE.1 and IE.2.	Seeks to amend to provide for mana whenua / tangata whenua involvement in the mapping of indigenous biodiversity, including to identify taonga species.
Director-General of Conservation	FS106.7	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	The reasoning and decision requested by the original submitter is supported.	Allow
Te Rūnanga o Toa Rangatira	FS138.26	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	The submitter seeks to amend to provide for mana whenua / tangata whenua involvement in the mapping of indigenous biodiversity, including to identify taonga species Te Rūnanga o Toa Rangatira support this part of the submission because providing for mana whenua involvement in mapping indigenous biodiversity and taonga species will also support kaitiakitanga and the ability of mana whenua to build their skills and mātauranga.	Allow
Greater Wellington Regional Council	351.149	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	Considers amendments are required have regard to Policies IE.1 and IE.2 of Proposed RPS Change 1. We consider the adverse effects on mahinga kai, other customary uses and access for these activities needs to be included as an assessment matter for consent applications	Seeks to include a new matter of discretion/control to consider the adverse effects on mahinga kai, other customary uses and access for these activities.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Director-General of Conservation	FS106.8	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	The reasoning and decision requested by the original submitter is supported.	Allow
Richard Herbert	360.2	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	Supports the retention of SNAs as proposed originally, before the Councillor amendment to remove SNAs from residential zones in June 2022.	Amend Significant Natural Areas to re-instate on Residential Zones, as proposed prior to the Councillor Amendment to remove Significant Natural Areas from Residential Zones in June 2022.
Te Kamaru Station Ltd Ratings	362.4	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	Considers that SNAs should not be on private property.	Seeks that Significant Natural Areas be removed Significant Natural Areas on private property in both urban and rural environments. [Inferred decision requested].
WCC Environmental Reference Group	377.115	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	Considers that Schedule 8 should include all the SNAs identified in the draft district plan version provided to the Council's environment committee from officers. "Wellington, wild at heart" is what our unique capital city trades upon - and as the population grows and urban areas densify, preserving and enhancing significant natural areas will become increasingly important. Research shows that access to natural areas, and 'biophilic' environments are keys to human health and well-being and are a critical part of protecting biodiversity. On this matter, Wellington as a city is playing a critical role in providing refuge for formerly at risk native birds, e.g. kaka, and with efforts such as the Halo Project and Predator Free initiatives being undertaken by thousands of Wellingtonians, it is important our city's district plan provides legal and policy support to this. The failure to include SNA areas in residential zones means that the district plan is not in accordance with section 6 of the RMA, nor is it giving effect to relevant provisions of GWRC's regional policy statement and regional plan.	Seeks that Significant Natural Areas to add all the SNA areas in the residential zones recommended by officers in the draft district plan version provided to the Council's environment and planning committee on June 23 2022.
Director-General of Conservation	FS106.9	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	The decision requested by the original submitter is supported. The omission of SNAs on private residential sites in the PDP is considered contrary to section 6(c) of the RMA and Policy 23 & 24 of the RPS. It is also considered contrary to the NPS-IB exposure draft. It is noted at the time of this further submission the NPS-IB exposure draft no legal effect, however, it is expected to come into effect in December 2022 prior to the PDP hearing process.	Allow

Steve West	FS110.18	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>The original submitter seeks that Schedule 9 of the draft district plan be reinstated (adding back SNAs on private residential land), citing this exclusion is contradictory to both section 6(c) of the RMA and Policies 23/24 of the Regional Policy Statement.</p> <p>Steve West does not agree that reinstatement of SNAs on residential private property in the Proposed District Plan is required for WCC to meet its obligations under section 6(c) of the RMA and policies 23/24 of the Regional Policy Statement for the following reasons:</p> <ul style="list-style-type: none"> - Neither the RMA or RPS prescribe in detail how a council might give effect to the requirement to protect of areas of significant indigenous vegetation and significant habitats of indigenous fauna. On note, in the 2015 Environment Court case between Forrest & Bird and New Plymouth District Council the Environment Court concluded Councils might conceivably meet RMA Section 6(c) duties through methods other than identification and rules, but in this case the non-regulatory methods relied on by the Council were insufficient to provide protection. - In any case, indigenous biodiversity in Wellington (including on private urban land) has increased significantly over the last 20 years, including through activities like Zealandia and Predator Free, along with voluntary conservation efforts without any need for SNAs. These activities have contributed significantly to the recovery of birds like the Kaka, and proves the current voluntary conservation efforts are working well. - Creating SNAs on private urban land in the district plan will turn native bush into an expensive and unwanted burden for many private urban landowners, destroying landowner value and goodwill in the process. So rather than providing legal protection for our flora and fauna, there is real risk that indigenous biodiversity gains achieved over the last two decades will diminish over time should SNAs be created on private urban land. <p>[Refer to further submission for full reason]</p>	Disallow / Seeks that SNAs on private urban land remain excluded from the Proposed District Plan.
Taranaki Whānui ki te Upoko o te Ika	389.73	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support in part	Supports the general direction of chapter, with amendments.	Retain Natural Character chapter with amendments.
Taranaki Whānui ki te Upoko o te Ika	389.74	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>Opposes the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford.</p> <p>Submitter supports the protection of areas of significant indigenous vegetation as well as landscapes that have cultural, historical, spiritual and traditional significance to Taranaki Whānui, the identification and protection of environmental overlays in previously developed areas is of concern to Taranaki Whānui.</p> <p>Concerns there is potential for these overlays to significantly restrict future development and opportunities for Taranaki Whānui to exercise tino rangatiratanga over their ancestral lands.</p>	Seeks that the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford is removed; specifically at Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Laurence Harger & Ingrid Kölle	FS2.9	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>Taranaki Whānui has sold the land it owned at Shelly Bay to The Wellington Company for a large development which was consented via the Special Housing Accords Act, thus denying the community any say on the consenting process. Community involvement should be ensured for the future though and the current DP height limit of 11 metres in some areas and the zero height limit in Open Space B land should remain. A recent poll has shown that the wider Wellington public want Shelly Bay included in a National Heritage Park centred on the 76 hectares of Watts Peninsula already designated for a reserve by the Government.</p> <p>Taranaki Whānui have treated Shelly Bay solely as a commercial proposition despite disagreement by a large group of its members (Mau Whenua) who occupied the site and opposed its sale, wanting to uphold their cultural and spiritual connection to the land. Mau Whenua continue to oppose the sale of the land at Shelly Bay and should be included by the council in all decisions taken about its future.</p>	Disallow / Seeks that the provisions relating to Shelly Bay in submission 389 are disallowed.
Laurence Harger & Ingrid Kölle	FS2.21	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>76 hectares of Watts Peninsula has been set aside by the government as a reserve focused on protecting iwi and military history sites and retaining the value of the natural landscape of the area. Supports the establishment of such a reserve and would like to see it become part of the National Heritage Park proposed by the Buy Back the Bay group. The zoning and overlays of the Proposed District Plan must be kept if the reserve/heritage park is to be a viable option. Taranaki Whānui's requests would remove many protections that have been longstanding and unopposed for decades, which must surely not occur without extensive community engagement. Watts Peninsula, with its ridges and hill lines visible from all over Wellington, should remain undeveloped, which might very well not be the case if the land is rezoned.</p>	Disallow / Seeks that the part of the submission to remove the proposed zoning and overlays on Watts Peninsula be disallowed.
Enterprise Miramar Peninsula Inc	FS26.10	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>It is clear Taranaki Whānui want all restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear based on the submission exactly how large an area they want to have rezoned.</p> <p>Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan, both the Corrections and Defence Land have not in the past contested this zoning and the Proposed District Plan keeps Watts Peninsula as open Space, the Ridgelines and Hilltops add to significant Natural Areas (for biodiversity) it has a Special Amenity Landscape which is used by the community and tourists to the enjoyment of being close to a city but with a natural environment.</p> <p>Taranaki Whānui are seeking to amend the zoning in this area to Medium Density Residential or to a Special Purpose Zone – Māori Purpose Zone, without any public engagement. Such changes would have a significant impact on the local community and should not be undertaken without wider consultation and engagement in order to ensure that proposed changes do not have a detrimental effect. As noted above, it is of concern to the businesses, community (ratepayers) of Te Motu Kairangi/Miramar Peninsula and the wider public that the rezoning applied for by Taranaki Whānui (currently open space) to develop a papakainga creates infrastructure issues on an already overloaded roading, flooding and transport links to and from the Peninsula.</p> <p>[Inferred reference to submission 389.74].</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Mary Varnham and Paul O'Regan	FS40.9	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>Taranaki Whanui has sold its holdings at Shelly Bay and are no longer, as claimed, 'significant landowners'. Their possible ownership interest in the peninsula as a whole through Right of First Refusal is confined to the Mt Crawford site as the adjacent 76 hectares of Watts Peninsula has been designated reserve by the government (the current landowner) and WCC since 2011.</p> <p>The local community, despite its active interest in and use of the bay, was shut out of all consultation during the resource consent process. It is critical that it be involved in all future decision making.</p> <p>The current DP height limit of 11 metres in some areas and the zero height limit in Open Space B land is supported not only by the local community but by the wider Wellington public, as evidenced in the independent poll conducted for the group Buy Back the Bay by Research NZ, which showed that 78% of Wellingtonians want Shelly Bay included in a National Heritage Park, which would also include the 76 hectares of Watts Peninsula set aside by the government as a reserve in 2011.</p> <p>Taranaki Whanui have viewed Shelly Bay as a strictly commercial proposition and disavowed any cultural, historical and spiritual connection to the site. A substantial proportion of the iwi (mau whenua) have opposed and continue to oppose the sale of the site, and should be included by the council in all democratic decision making about the future of Shelly Bay.</p>	Disallow
Mary Varnham and Paul O'Regan	FS40.21	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>From 2011 the 76 hectares of Watts Peninsula has been set aside by the government as a reserve, to incorporate and protect iwi (as well as military) sites and history. Submitter supports this as an appropriate and visionary plan for the peninsula.</p> <p>Submitter supports the proposal of Buy Back the Bay group that the area should become a National Heritage Park.</p> <p>Submitter supports a conservancy model for development and management of this park, to include iwi, government, council, the local community, and organisations such as Forest and Bird and Predator Free Miramar.</p> <p>Disallow all proposals by Taranaki Whanui to remove the proposed zoning and overlays. These provisions are vital to protect the natural values, history and landscape of Watts Peninsula, a prominent feature of Te Whanganui-a-Tara.</p> <p>Supports retaining all provisions in the proposed district plan for Open Space B, Ridgelines and Hilltops, Significant Natural Areas and Special Amenity Landscape. We note the magnificent work done by Predator Free Miramar. Protecting and enhancing the huge gains in bringing back birdlife made should be a primary consideration. We also believe the peninsula should see extensive planting and regeneration of native forest.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Buy Back the Bay	FS79.8	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>Submission 389 states as a Submission Point, that "Taranaki Whānui opposes the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford."</p> <p>It lists the relevant PDP Chapter as:</p> <ul style="list-style-type: none"> • Planning maps • He Rohe Ahoaho Māori Natural Open Space Zone chapter • Ngā Wāhi Tapu ki te Māori Sites and Areas of Significance to Māori chapter • Ngā Pūnaha Rauropi me te Kanorau Koiora Taketake Ecosystems and Indigenous Biodiversity chapter • Te Ahurei o Ngā Hanga Māori Natural Character chapter • Ngā Hanga Māori me Ngā Nohopae Natural Features and Landscapes chapter • Wawaetanga Subdivision chapter • Taiao Takutai Coastal Environment chapter <p>Opposes in total Submission 389 on these points, which appears to be a wholesale rejection of planning rules in these areas.</p>	Disallow
Buy Back the Bay	FS79.25	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>Submission 389 states: "Taranaki Whānui's RFR [Right of First Refusal] opportunities in Te Motu Kairangi: Taranaki Whānui have a significant interest in Te Motu Kairangi which includes Mount Crawford and Watts Peninsula, these landholdings hold significant interest - culturally, socially, environmentally and commercially to Taranaki Whānui. These opportunities include the Mount Crawford Prison site as well as the 'Watts Peninsula' sites being 75.85 hectares of former Defence Land."</p> <p>Buy Back the Bays notes that the Submission does not include maps however they (Buy Back the Bays) are very concerned to see that Taranaki Whānui appears to be seeking possible commercial development of 75.85 hectares of former defence land on Watts Peninsula. This appears to be the heart of the long-promised Watts Peninsula park and a major part of the proposed national heritage park.</p> <p>Buy Back the Bays strongly oppose rezoning on Watts Peninsula to facilitate any development there that is incompatible with the park plans. More generally, Buy Back the Bays oppose Submission 389's attempt to remove the proposed public interest controls from Watts Peninsula and Mount Crawford. Considers that where Submission 389 states "Illustrated on Figure One below, the following zone and overlays are proposed for Taranaki Whānui's RFR properties in Te Motu Kairangi," Buy Back the Bays oppose the changes it seeks. This includes opposing Submission 389's request for "The proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST [to be] amended from Natural Open Space Zone to: a. Medium Density Residential; and b. Special Purpose Zone – Māori Purpose Zone."</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Buy Back the Bay	FS79.44	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>Refers to submission 389 states: Taranaki Whānui opposes the extent of the proposed zoning of Shelly Bay Taikuru and the proposed height control limits." Buy Back the Bays opposes the submission on both points.</p> <p>Specifically, the Submission 389 for Taranaki Whānui seeks that:</p> <p>"1. The Mixed Use Zone is extended across the allotments illustrated in Figure Two below or amended to follow the extent of consented development area outlined in the approved masterplan and engineering drawings.</p> <p>2. The Height Control Area is amended to 27m being the maximum height of development consented under the Shelly Bay Masterplan resource consent."</p> <p>Buy Back the Bays opposes both parts. Buy Back the Bays note that neither part affects Taranaki Whānui's commercial or other interests. Considers that both parts only affect the tall apartment buildings planned by and for the exclusive commercial benefit of The Wellington Company, not the leasing of lower existing buildings that The Wellington Company has offered to Taranaki Whānui as its stake in the project.</p>	Disallow
Lance Lones	FS81.10	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>Te Motu Kairangi is very nearly an island, and as a result of the amazing work of Predator Free Wellington, is in fact, nearly predator free, and uniquely able to support significant biodiversity. Combined with the Ridgelines and Hilltops Overlay, and the Significant Natural Areas overlay of this space, all citizens of both Wellington, and Aotearoa in general have an incredibly singular opportunity to support the development of native flora and fauna in one nearly contiguous environment, a situation which is unique within Wellington. Attests to the incredible return of many native species of birds to this area, from kererū, to flocks of pīwakawaka and tūi, kārearea hunting on the hillsides and heard ruru calling in the evenings and mornings.</p> <p>To remove the Open Space zoning, Significant Natural Areas and Special Amenity Landscape overlays for a significant portion of this habitat would put these species at risk once again.</p> <p>Presents a unique opportunity to implement the Ministry for the Environment's Proposed National Policy Statement for Indigenous Biodiversity. This policy progressively refers to the concept of Te Rito o te Harakeke.</p> <p>The local community has expressed the desire to work with and develop a master plan for the Watts Peninsula, but this voice has been repeatedly denied by council. Removing the protections put in place by the proposed district plan would once again disempower the greater community with no discussion.</p> <p>[Refer to further submission for full reason]</p>	Disallow / Seeks that the current zoning and overlays as presented in the Proposed District Plan for the northern sections of Te Motu Kairangi / Miramar Peninsula be retained. In particular, that the Open Space zoning, Special Amenity Landscape, Natural Areas, and Ridgelines and Hilltops overlays are retained.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Andy Foster	FS86.16	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>The submission from Taranaki Whānui if accepted would remove all protections, many of them long standing and uncontested for decades, from Te Motu Kairangi / Watts Peninsula and make community involvement much less likely, and limit the need for community involvement. On these basis the submitter opposes Taranaki Whānui's submission.</p> <p>Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan. It has been Open Space B for at least the last 30 years, and nobody has ever contested this. That includes both the Corrections and Defence Land.</p> <p>The Proposed District Plan keeps Watts as Open Space and within the Ridgelines and Hilltops Overlay. It also adds Significant Natural Areas (for biodiversity) and a Special Amenity Landscape (because of its high level of landscape importance) All of these are based on good evidence. Taranaki Whānui want all of those restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear exactly how large an area they want to have rezoned.</p> <p>Taranaki Whānui's request to remove the Open Space zoning which has been in place, uncontested by the owners, for at least 30 years. The current Open Space B zoning does not anticipate any built development and therefore there is no legal or reasonable expectation that there should be any development here.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 389.74]</p>	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.75	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	<p>Opposes the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford.</p> <p>Submitter supports the protection of areas of significant indigenous vegetation as well as landscapes that have cultural, historical, spiritual and traditional significance to Taranaki Whānui, the identification and protection of environmental overlays in previously developed areas is of concern to Taranaki Whānui.</p> <p>Concerns there is potential for these overlays to significantly restrict future development and opportunities for Taranaki Whānui to exercise tino rangatiratanga over their ancestral lands.</p>	Seeks that any other relief to enable Taranaki Whānui to exercise tino rangatiratanga over their properties in Te Motu Kairangi.
Laurence Harger & Ingrid Kölle	FS2.10	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>Taranaki Whānui has sold the land it owned at Shelly Bay to The Wellington Company for a large development which was consented via the Special Housing Accords Act, thus denying the community any say on the consenting process. Buy Back the Bay	FS79.45	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>Refers to submission 389 states: Taranaki Whānui opposes the extent of the proposed zoning of Shelly Bay Taikuru and the proposed height control limits." Buy Back the Bays opposes the submission on both points.</p> <p>Specifically, the Submission 389 for Taranaki Whānui seeks that:</p> <p>"1. The Mixed Use Zone is extended across the allotments illustrated in Figure Two below or amended to follow the extent of consented development area outlined in the approved masterplan and engineering drawings.</p> <p>2. The Height Control Area is amended to 27m being the maximum height of development consented under the Shelly Bay Masterplan resource consent."</p> <p>Buy Back the Bays opposes both parts. Buy Back the Bays note that neither part affects Taranaki Whānui's commercial or other interests. Considers that both parts only affect the tall apartment buildings planned by and for the exclusive commercial benefit of The Wellington Company, not the leasing of lower existing buildings that The Wellington Company has offered to Taranaki Whānui as its stake in the project.</p>	Disallow
Lance Lones	FS81.11	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>Te Motu Kairangi is very nearly an island, and as a result of the amazing work of Predator Free Wellington, is in fact, nearly predator free, and uniquely able to support significant biodiversity. Combined with the Ridgelines and Hilltops Overlay, and the Significant Natural Areas overlay of this space, all citizens of both Wellington, and Aotearoa in general have an incredibly singular opportunity to support the development of native flora and fauna in one nearly contiguous environment, a situation which is unique within Wellington. Attests to the incredible return of many native species of birds to this area, from kererū, to flocks of piwakawaka and tūi, kārearea hunting on the hillsides and heard ruru calling in the evenings and mornings.</p> <p>To remove the Open Space zoning, Significant Natural Areas and Special Amenity Landscape overlays for a significant portion of this habitat would put these species at risk once again.</p> <p>Presents a unique opportunity to implement the Ministry for the Environment's Proposed National Policy Statement for Indigenous Biodiversity. This policy progressively refers to the concept of Te Rito o te Harakeke.</p> <p>The local community has expressed the desire to work with and develop a master plan for the Watts Peninsula, but this voice has been repeatedly denied by council. Removing the protections put in place by the proposed district plan would once again disempower the greater community with no discussion.</p> <p>[Refer to further submission for full reason]</p>	Disallow / Seeks that the current zoning and overlays as presented in the Proposed District Plan for the northern sections of Te Motu Kairangi / Miramar Peninsula be retained. In particular, that the Open Space zoning, Special Amenity Landscape, Natural Areas, and Ridgelines and Hilltops overlays are retained.
Terawhiti Farming Co Ltd (Terawhiti Station)	411.4	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>SNAs are being arbitrarily being introduced without any consideration to the potential cost to the landowner that this policy will incur</p>	Not specified.

VicLabour	414.23	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	<p>Considers Significant Natural Areas are important in order to protect our environment and native plantlife.</p> <p>Considers that while the city is built denser, the environment and our wildlife should be protected.</p> <p>Considers that it is ironic that the argument for being anti-density is to protect the 'character' of our housing but yet there is no consideration for the 'character' of our nature, which is arguably much harder to restore than the character amenity gained from what the Council deems as character housing.</p>	Seeks that significant natural areas provisions apply to residentially zoned sites.
Steve West	FS110.22	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>The original submitter states "it is incredibly disappointing that they [SNAs] have been removed for residential land considering this land is at great risk of being damaged further".</p> <p>Steve West does not support the reinstatement of SNAs on residential private property in the Proposed District Plan for the following reasons:</p> <ul style="list-style-type: none"> - Indigenous biodiversity in Wellington (including on private urban land) has increased significantly over the last 20 years, through voluntary conservation and activities like Predator Free without any need for SNAs. - While recently there was reported felling of some native trees, this was in response to the planned SNA introduction in the draft district plan. Arguably the biggest threat to indigenous biodiversity on private urban land in Wellington remains how landowners might respond to the creation of SNAs, such as by reducing conservation efforts, in the face of their bush being turned into an expensive and unwanted burden. 	Disallow
Johnsonville Community Association	429.24	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Supports the protection of significant natural areas on public land within Wellington.	Not specified.
Johnsonville Community Association	429.25	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	<p>Considers that unilaterally taking over of private property is a major intrusion on rights of the property owners, and may lead to removal of major natural areas on urban property.</p> <p>Opposes SNA's on private urban or rural land.</p>	Opposes Significant Natural Areas on urban or rural private land.
Paul M Blaschke	435.5	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Objectives, Policies and Rules in the Ecosystems and Indigenous Biodiversity section are strongly supported, as they support a critical part of the city's overall vision and strategic objectives and are strongly supported by the overwhelming majority of the city's residents.	Retain the Ecosystems and Indigenous Biodiversity chapter as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Paul M Blaschke	435.6	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	<p>Considers that the Council should allow SNAs on residentially zoned properties. The Council should be consistent with its overall policy objectives and let its original decisions on SNAs stand on their merits. The decision from Council's Planning & Environment Committee to remove SNAs from all residentially zoned properties on 23 June 2022 is opposed. This decision renders the Ecosystems and Indigenous Biodiversity section much less effective than it could and should be.</p> <p>It greatly hinders the achievement of Council's Te Atakura blueprint and other moves towards sustainability and resilience.</p> <p>It disadvantages the great majority of the city's residents except for a tiny number of suburban residential landowners who become privileged over all others including other suburban residential landowners with portions of SNAs within their properties and who have welcomed or not objected to the provisions.</p> <p>It overturns the very good process adopted by the council team and consultants who have planned and undertaken the SNA survey and policy development. Finally, it renders ECO-01, ECO-P1, ECO-P2, and ECO-P3, and the rules supporting these objectives and policies, incapable of being properly implemented, and perpetuates the uncertainty caused by lack of a comprehensive statutory process around significant areas and indigenous biodiversity.</p> <p>[Refer to original submission for full reason]</p>	Seeks to extend Significant Natural Areas to residentially zoned properties.
Paul M Blaschke	435.7	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	Considers that the SNA regulatory framework in the Ecosystems and Indigenous Biodiversity section should apply to SNAs on residentially zoned properties.	Seeks that Ecosystems and Indigenous Biodiversity provisions apply to Significant Natural Areas on residentially zoned properties.
Meredith Robertshawe	444.1	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Supports the objectives and policies for Significant Natural Areas and support the intent of the provisions in the PDP.	Retain the objectives in the Ecosystems and Indigenous Biodiversity (ECO) chapter as notified.
Meredith Robertshawe	444.2	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Supports the objectives and policies for Significant Natural Areas and support the intent of the provisions in the PDP.	Retain the policies in the Ecosystems and Indigenous Biodiversity (ECO) chapter as notified. [Inferred Decision Requested]
Meredith Robertshawe	444.3	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Supports the objectives and policies for Significant Natural Areas and support the intent of the provisions in the PDP.	Retain the provisions in the Ecosystems and Indigenous Biodiversity (ECO) chapter as notified. [Inferred Decision Requested]
Chris Horne, Sunita Singh, Julia Stace, Paul Bell-Butler	456.3	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support in part	<p>Supports the protection of Indigenous Biodiversity and Significant Natural Areas.</p> <p>[Refer to original submission for full reason]</p>	Retain Significant Natural Area provisions, with amendment. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Chris Horne, Sunita Singh, Julia Stace, Paul Bell-Butler	456.4	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	Considers that SNA-status should be restored to all residential-zoned properties. In particular considers that the Planning and Environment Committee vote to remove SNAs from all residential-zoned properties over-ride the purpose of the ECO chapter which " ... is to identify significant natural areas within Wellington City in order to protect and maintain the remaining areas of indigenous biodiversity".	Amend mapping of Significant Natural Areas to include all residential-zoned properties.
Chris Horne, Sunita Singh, Julia Stace, Paul Bell-Butler	456.5	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Amend	Considers that there should be monitoring compliance by all owners of Significant Natural Areas with Council's objective of protecting those SNAs' indigenous ecosystems in perpetuity.	Seeks that a monitoring programme for Significant Natural Areas is established. [Inferred decision requested]
Grant and Marilyn Griffiths, Griffiths Family Trust	460.2	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose in part	Opposes Significant Natural Areas on Private land.	Retain Significant Natural Area provisions with amendment below.
Te Rūnanga o Toa Rangatira	488.48	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Oppose	Opposes that significant natural areas provisions do not apply to residential zoned land.	Seeks that Significant Natural Area provisions are applied to all zones.
Royal Forest and Bird Protection Society	345.173	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Amend	Protection of SNAs and encouragement of restoration by community groups etc is not enough to fulfil the Council's obligation to maintain biodiversity under s31(1)(b)(iii). As such, we seek a new objective. The S32 report briefly touches on this issue, in the context of potential vegetation clearance rules outside SNAs (pg 41). It refers to the RPS approach of suggesting non-regulatory methods outside of SNAs. The report also mentions that additional controls on non-SNA indigenous vegetation are included in the overlay chapters for Outstanding Natural Features, Outstanding Natural Landscapes, Special Amenity Landscapes and the Coastal Environment. However, these additional controls are not for the purpose of biodiversity maintenance, and do not refer back to any policy which would allow consideration of this Council function. The rules in the Coastal Environment chapter for example, only consider natural character effects and policies. We seek that additional provisions (an objective, policy and rules) are included in the ECO chapter for the maintenance of biodiversity outside of SNAs. We also seek that the vegetation clearance controls in other chapters refer back to the ECO policy for maintenance of biodiversity. It is not clear what non-regulatory methods have been included in the plan to fulfil this function. In any case, given the biodiversity crisis, non-regulatory measures are not sufficient to meet S31.	Add a new objective to the Ecosystems and Indigenous Biodiversity chapter: <u>ECO-OX</u> <u>The District's indigenous biodiversity is maintained and enhanced.</u>
Meridian Energy Limited	FS101.117	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Support	Considers that the objective of maintaining and enhancing indigenous biodiversity at an overall District Scale is appropriate. Enhancement will not be achievable or appropriate in all circumstances however and, consistent with the approach in Objective ECO-O1, the proposed objective would be improved by making it clear that enhancement should occur at the District-wide scale and where appropriate.	Allow / Amend provision to clarify that indigenous biodiversity is to be enhanced overall at District scale and where practicable – for example as follows (or similar wording): 'The District's indigenous biodiversity is maintained and, where appropriate, enhanced'.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council Environmental Reference Group	FS112.25	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Support the position that the SNA provisions applying to residential SNAs must be reinstated from the previous version of the Plan. Reinsert all provisions relating to SNAs in residential zones, from the District Plan draft dated 20 April 2022. Further support amendment to clarify the wider role of the Council maintaining biodiversity wider than SNAs. We support the submission point and need an objective stating the district's biodiversity is maintained and enhanced. Support the need for a new suite of objectives, policies, and rules to provide for protection of wetlands.	Allow
Royal Forest and Bird Protection Society	345.174	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Amend	<p>Considers it is not clear that the plan adequately provides for the protection of wetlands. In relation to wetlands, the Council has responsibilities in terms of integrated management and the maintenance of biodiversity. This includes responsibilities under the RMA and NPSFM. RPS Policy 61 allocates responsibility for various matters as between district and regional council. It is not clear that the GWRC has sole responsibility for works in wetlands and their margins. Policy 61 provides:</p> <p>Policy 61: Allocation of responsibilities for land use controls for indigenous biodiversity Regional and district plans shall recognise and provide for the responsibilities below, when developing objectives, policies and methods, including rules, to maintain indigenous biodiversity:</p> <ul style="list-style-type: none"> - Wellington Regional Council shall be responsible for developing objectives, policies, and methods in the regional policy statement for the control of the use of land to maintain indigenous biological diversity; - Wellington Regional Council shall be responsible for developing objectives, policies, rules and/or methods in regional plans for the control of the use of land to maintain and enhance ecosystems in water bodies and coastal water. This includes land within the coastal marine area, wetlands and the beds of lakes and rivers; and - city and district councils shall be responsible for developing objectives, policies, rules and/or methods in district plans for the control of the use of land for the maintenance of indigenous biological diversity. This excludes land within the coastal marine area and the beds of lakes and rivers. GWRC is clearly responsible for controlling the use of land within wetlands to maintain and enhance ecosystems in water bodies (paragraph (b)). However, according to paragraph (c), this Council retains responsibility for controlling the use of land for the maintenance of indigenous biodiversity. Neither wetlands, nor their margins, are excluded from that responsibility. Policy 23 echoes that concept. The explanation to the policy states: Regional plans will identify indigenous ecosystems and habitats with significant biodiversity values in the coastal marine area, wetlands and the beds of lakes and rivers. District plans will identify indigenous ecosystems and habitats with significant biodiversity values for all land, except the coastal marine area and the beds of lakes and rivers. Again, Council's responsibility under s31 still applies to wetlands. The regional plan states: "Also refer to the relevant district plan for provisions that apply to activities within or adjacent to wetlands. "As such, we seek objectives, policies and rules protecting wetlands and their margins, as far as is possible within Council's responsibilities under the RAM and NPSFM. These provisions may need to be located throughout the plan, for example in the earthworks chapter. 	Add new suite of objectives, policies, and rules to provide for protection of wetlands.
Greater Wellington Regional Council	FS84.99	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Support	Greater Wellington consider that the Proposed District Plan needs to avoid, remedy or mitigate adverse effects of urban development on wetlands in order to give effect to the NPS-FM and have regard to Proposed RPS Change 1.	Allow / Seeks provisions that ensure urban development is located and designed in a way that protects wetlands in accordance with the NPS-FM and proposed RPS Change 1 FW 3.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Director-General of Conservation	FS106.10	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Support	The reasoning and decision requested by the original submitter is supported.	Allow
Wellington City Council Environmental Reference Group	FS112.26	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / General ECO	Support	Support the position that the SNA provisions applying to residential SNAs must be reinstated from the previous version of the Plan. Reinsert all provisions relating to SNAs in residential zones, from the District Plan draft dated 20 April 2022. Further support amendment to clarify the wider role of the Council maintaining biodiversity wider than SNAs. We support the submission point and need an objective stating the district's biodiversity is maintained and enhanced. Support the need for a new suite of objectives, policies, and rules to provide for protection of wetlands.	Allow
Royal Forest and Bird Protection Society	345.175	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Amend	Considers the plan should include a policy aimed at identification of SNAs. This is important for where new SNAs are identified, for example as part of consenting processes.	Add new policy ECO-PX (<u>Identification of Significant Natural Areas</u>); <u>Identify all areas with significant indigenous biodiversity values and list within SCHED8 and SCHED9, and provide for identification of additional areas with significant biodiversity values.</u>
Steve West	FS110.5	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Oppose	The original submitter seeks to include a new policy aimed at identification of new SNAs and also for maintaining indigenous biodiversity in other areas, suggesting rules to limit removal of indigenous biodiversity in each area to under 200m2 in any 10-year period. Steve West does not support the identification and/or creation of SNAs under the district plan, particularly on private urban land, or provision of other overly restrictive rules (as suggested above) for the following reasons: - Considers that through voluntary conservation programs and effort, the city's indigenous biodiversity (including on private urban land) has increased significantly over the last 20 years. This has occurred without any need for SNAs. - Considers that creating SNAs (and other overly restrictive rules), particularly on private urban land, in the district plan will turn native bush into an expensive and unwanted burden for many private urban landowners, destroying landowner goodwill in the process. And as a result, planting of new trees (both indigenous and exotic) in the urban environment will likely diminish over time, both within the SNAs and elsewhere as other landowners in Wellington become aware of the extent and onerous nature of the rules. - Considers that by seeking regulatory outcomes for expanding SNA areas, rather than continuing to encourage and support voluntary conservation efforts there is real risk that indigenous biodiversity gains achieved over the last two decades will diminish over time.	Disallow
Royal Forest and Bird Protection Society	345.176	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Amend	Considers the Plan does not give effect to the Council's obligation to maintain indigenous biodiversity. Considers support for restoration is not sufficient (by way of ECO P4), and therefore seeks a new policy be added. Also seeks that the relevant rules and their matters of discretion in this and other chapters refer back to this new policy.	Add new policy ECO-PX (<u>Maintaining Indigenous Biodiversity</u>): <u>1. To maintain indigenous biodiversity outside of SNAs by avoiding, remedying or mitigating the adverse effects of subdivision, land use and development on indigenous biodiversity.</u> <u>2. To have regard to the following potential adverse effects in considering subdivision, land use and development that may adversely affect indigenous ecosystems and habitats with indigenous biodiversity values:</u> <u>a. Fragmentation of, or reduction in the extent of, indigenous vegetation or habitats of indigenous fauna;</u> <u>b. Fragmentation or disruption of connections and linkages between ecosystems or habitats of indigenous fauna;</u> <u>c. Loss of, or damage to, buffering of ecosystems or habitats of indigenous fauna; and</u> <u>d. Loss or reduction of rare or threatened indigenous species' populations or habitats.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	FS84.100	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Support	Greater Wellington agree with the intent of the submission point but not the wording as drafted.	Allow / Support this submission point in part.
Meridian Energy Limited	FS101.118	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Support	Considers that the requested additional policy should manage potential adverse effects in accordance with a management hierarchy, as signaled by the exposure draft NPS-Indigenous Biodiversity	Allow / Seeks that if the requested additional policy is included, to ensure that it is amended to manage potential adverse effects on indigenous biodiversity in accordance with an effects management hierarchy that focuses on the indigenous biodiversity values.
Steve West	FS110.6	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Oppose	<p>The original submitter seeks to include a new policy aimed at identification of new SNAs and also for maintaining indigenous biodiversity in other areas, suggesting rules to limit removal of indigenous biodiversity in each area to under 200m2 in any 10-year period.</p> <p>Steve West does not support the identification and/or creation of SNAs under the district plan, particularly on private urban land, or provision of other overly restrictive rules (as suggested above) for the following reasons:</p> <ul style="list-style-type: none"> - Considers that through voluntary conservation programs and effort, the city's indigenous biodiversity (including on private urban land) has increased significantly over the last 20 years. Disallow
Royal Forest and Bird Protection Society	345.177	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Amend	Considers including a policy to deal with the development of existing vacant lots, as was included in the plan version as at 20 April 2022 (attached to this submission), which provided parameters around developing in existing vacant residential sites established prior to the notification of the DP where there is no suitable building platform available outside the SNA. Notes the date would need to be amended to reflect that the SNAs were not included at notification. We would support more protective parameters than those above, to ensure the SNA was protected to the greatest extent possible.	<p>Add new policy ECO-PX (<u>Development of Existing Vacant Lots</u>):</p> <p><u>Provide for the development of existing vacant residential site established prior to the notification of the District Plan where there is no suitable building platform available outside of a Significant Natural Area identified in SCHED8 and SCHED9, having regard to:</u></p> <ol style="list-style-type: none"> <u>1. The location of the building platform and minimizing the extent of associated vegetation removal</u> <u>2. The location of the access or driveway to the building platform to minimize the loss of vegetation or fragmentation of the Significant Natural Area; and</u> <u>3. The location of lateral service connections to public wastewater, sewer and water supply network, electricity and telephone cables.</u>
Royal Forest and Bird Protection Society	345.178	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Amend	<p>Seeks additional rules to manage vegetation clearance outside SNAs. Considers the plan's provisions do not fulfil Council's requirement to maintain indigenous biodiversity. Regulating activities only in SNAs falls short of this function.</p> <p>This rule would limit permitted indigenous vegetation removal to 200m2 in any 10 year period. Where this PA was not met, it would become RDA, and the matters of discretion would need to reference the new policy aimed at the maintenance of biodiversity. This rule is particularly important given the deletion of the residential SNAs.</p>	Add new rule ECO-RX to manage vegetation clearance outside Significant Natural Areas that permit indigenous vegetation removal to 200m2 in any 10 year period. Where the Permitted activity status is not met, the activity would become a Restricted Discretionary activity, and the matters of discretion would need to reference the new policy aimed at the maintenance of biodiversity.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	FS101.119	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Oppose	Considers that the requested additional rules would apply to any and all indigenous biodiversity. The proposed limits are unduly restrictive in a rural setting and capture even indigenous vegetation that is planted rather than naturally occurring. The policy needs to give effect to clause (1) (b) of the objective of the exposure draft NPS Indigenous Biodiversity (providing for social, economic wellbeing of people and communities) as well as protecting, maintaining and restoring indigenous biodiversity.	Disallow / Seeks that the requested new rules are disallowed, or if the requested rules are included, to ensure the permitted activity standards provide for the clearance of indigenous vegetation to the extent necessary to maintain existing lawfully established infrastructure, including regionally significant infrastructure.
Steve West	FS110.7	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Oppose	<p>The original submitter seeks to include a new policy aimed at identification of new SNAs and also for maintaining indigenous biodiversity in other areas, suggesting rules to limit removal of indigenous biodiversity in each area to under 200m2 in any 10-year period.</p> <p>Steve West does not support the identification and/or creation of SNAs under the district plan, particularly on private urban land, or provision of other overly restrictive rules (as suggested above) for the following reasons:</p> <ul style="list-style-type: none"> - Considers that through voluntary conservation programs and effort, the city's indigenous biodiversity (including on private urban land) has increased significantly over the last 20 years. This has occurred without any need for SNAs. - Considers that creating SNAs (and other overly restrictive rules), particularly on private urban land, in the district plan will turn native bush into an expensive and unwanted burden for many private urban landowners, destroying landowner goodwill in the process. And as a result, planting of new trees (both indigenous and exotic) in the urban environment will likely diminish over time, both within the SNAs and elsewhere as other landowners in Wellington become aware of the extent and onerous nature of the rules. - Considers that by seeking regulatory outcomes for expanding SNA areas, rather than continuing to encourage and support voluntary conservation efforts there is real risk that indigenous biodiversity gains achieved over the last two decades will diminish over time. 	Disallow
Royal Forest and Bird Protection Society	345.179	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Amend	<p>Notes that there is a vegetation clearance rule in the Coastal Environment chapter, which currently only applies in high natural character areas and outside SNAs. As submitted in the Coastal Environment chapter, the vegetation clearance rules should apply everywhere outside SNAs in the coastal environment, not only in high natural character areas, where CES1 is met.</p> <p>We seek a rule that would also have effect outside the coastal environment. Trimming or removal of indigenous vegetation outside SNAs would be permitted if:</p> <ul style="list-style-type: none"> - to address an imminent threat to people or property provided that a standard is complied with, - for the operation or maintenance of lawfully established buildings, infrastructure, walking cycling or private vehicle access or fences or existing farming activities; and the removal does not exceed 200m2 per title as at notification. A new RDA would apply if those standards were not met. 	Add new rule ECO-RX to manage vegetation clearance in all areas of the coastal environment.
Meridian Energy Limited	FS101.120	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Oppose	Considers that the requested additional rules would apply to any and all indigenous biodiversity. The proposed limits are unduly restrictive in a rural setting and capture even indigenous vegetation that is planted rather than naturally occurring. The policy needs to give effect to clause (1) (b) of the objective of the exposure draft NPS Indigenous Biodiversity (providing for social, economic wellbeing of people and communities) as well as protecting, maintaining and restoring indigenous biodiversity.	Disallow / Seeks that the requested new rules are disallowed, or if the requested rules are included, to ensure the permitted activity standards provide for the clearance of indigenous vegetation to the extent necessary to maintain existing lawfully established infrastructure, including regionally significant infrastructure.
Royal Forest and Bird Protection Society	345.180	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Amend	<p>We seek a rule that would also have effect outside the coastal environment. Trimming or removal of indigenous vegetation outside SNAs would be permitted if:</p> <ul style="list-style-type: none"> - to address an imminent threat to people or property provided that a standard is complied with, - for the operation or maintenance of lawfully established buildings, infrastructure, walking cycling or private vehicle access or fences or existing farming activities; and the removal does not exceed 200m2 per title as at notification. Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Transpower New Zealand Limited	FS29.36	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Oppose	Considers that on the basis SNA's are identified in the PDP (and have been comprehensively addressed) Transpower does not support the provision of a blanket rule to apply to all indigenous vegetation. While Transpower agrees that indigenous vegetation outside an SNA has value, given the significant planning implications of imposing a rule to apply outside an SNA, a robust S32AA analysis is required as to the alternatives, cost and benefits, effectiveness and efficiency, risks and then a decision made about the most appropriate action. There is no higher order support for such a rule. The PDP gives effect to Objective 16 and Policies 23 and 24 of the RPS and Section 6(c) of the RMA is confined to significant indigenous vegetation. Given the robustness of the process in determining the SNAs (notwithstanding the Council decision to not notify SNA within urban area), the inclusion of a plan wide rule is not the most efficient and effective way in which to give effect to the objectives of the PDP or the higher order RPS.	Disallow
Meridian Energy Limited	FS101.121	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Oppose	Considers that the requested additional rules would apply to any and all indigenous biodiversity. The proposed limits are unduly restrictive in a rural setting and capture even indigenous vegetation that is planted rather than naturally occurring. The policy needs to give effect to clause (1) (b) of the objective of the exposure draft NPS Indigenous Biodiversity (providing for social, economic wellbeing of people and communities) as well as protecting, maintaining and restoring indigenous biodiversity.	Disallow / Seeks that the requested new rules are disallowed, or if the requested rules are included, to ensure the permitted activity standards provide for the clearance of indigenous vegetation to the extent necessary to maintain existing lawfully established infrastructure, including regionally significant infrastructure.
Royal Forest and Bird Protection Society	345.181	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Amend	Considers that it is appropriate to include standards for residential SNA's in line with those in the Draft Plan.	Reinstate the Draft Plan's ECO standards for residential Significant Natural Areas.
Steve West	FS110.4	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Oppose	Disagree that reinstatement of residential SNAs in the Proposed District Plan is required for WCC to meet its obligations under section 6(c) of the RMA and policies 23/24 of the Regional Policy Statement for the following reasons: <ul style="list-style-type: none"> - Neither the RMA or RPS prescribe in detail how a council might give effect to the requirement to protect of areas of significant indigenous vegetation and significant habitats of indigenous fauna. On note, in the 2015 Environment Court case between Forrest & Bird and New Plymouth District Council the Environment Court concluded Councils might conceivably meet RMA Section 6(c) duties through methods other than identification and rules, but in this case the non-regulatory methods relied on by the Council were insufficient to provide protection. - Alternative methods of compliance are available to WCC. - Indigenous biodiversity in Wellington (including on private urban land) has increased significantly over the last 20 years, including Zealandia and Predator Free, along with voluntary conservation efforts without any need for SNAs. - Creating SNAs on private urban land will turn native bush into an expensive and unwanted burden for many private urban landowners , destroying landowner value and goodwill in the process. Real risk that indigenous biodiversity gains achieved over the last two decades will diminish should SNAs be created on private urban land, and as a result would see both GWRC and WCC failing to meet their regulatory obligations, including under the RMA. - Specifically for Captain Edward Daniell Drive, indigenous biodiversity is already protected under Section 3 of the Land Covenant registered on the records of title. <p>Considers that as the NPSIB is in draft form and has no legal effect, and given how unpopular SNAs proved to be in submissions on the draft district plan, pushing on with creating SNA on private urban land before the policy statement is in effect would further undermine WCC's already poor relationship with impacted landowners. [Refer to further submission for full reason]</p>	Disallow / Seeks that part of submission be disallowed and that already protected land (such as Captain Edward Dainell Drive) be removed from Schedule 9, should residential SNAs be reinstated.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.182	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Support in part	It is not clear how these policies are given effect to in the rules. Seeking (in the ECO chapter) a general indigenous vegetation clearance rule, outside of SNAs. Seek that this is applied in the rural zone, in order to maintain biodiversity.	Add new rule ECO-RX to manage indigenous vegetation clearance outside of Significant Natural Areas to maintain biodiversity.
Transpower New Zealand Limited	FS29.37	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Oppose	Considers that on the basis SNA's are identified in the PDP (and have been comprehensively addressed) Transpower does not support the provision of a blanket rule to apply to all indigenous vegetation. While Transpower agrees that indigenous vegetation outside an SNA has value, given the significant planning implications of imposing a rule to apply outside an SNA, a robust S32AA analysis is required as to the alternatives, cost and benefits, effectiveness and efficiency, risks and then a decision made about the most appropriate action. There is no higher order support for such a rule. The PDP gives effect to Objective 16 and Policies 23 and 24 of the RPS and Section 6(c) of the RMA is confined to significant indigenous vegetation. Given the robustness of the process in determining the SNAs (notwithstanding the Council decision to not notify SNA within urban area), the inclusion of a plan wide rule is not the most efficient and effective way in which to give effect to the objectives of the PDP or the higher order RPS.	Disallow
Meridian Energy Limited	FS101.122	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Oppose	Considers that the requested additional rules would apply to any and all indigenous biodiversity. The proposed limits are unduly restrictive in a rural setting and capture even indigenous vegetation that is planted rather than naturally occurring. The policy needs to give effect to clause (1) (b) of the objective of the exposure draft NPS Indigenous Biodiversity (providing for social, economic wellbeing of people and communities) as well as protecting, maintaining and restoring indigenous biodiversity.	Disallow / Seeks that the requested new rules are disallowed, or if the requested rules are included, to ensure the permitted activity standards provide for the clearance of indigenous vegetation to the extent necessary to maintain existing lawfully established infrastructure, including regionally significant infrastructure.
Greater Wellington Regional Council	351.150	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Oppose	Considers that WCC has stated that wetlands are sufficiently covered by the National Environmental Standards for Freshwater 2020, the submitter does not support this view and considers that the PDP has a role for integrated management of adverse effects on wetlands and their functions, including those wetlands not yet identified, under NPS-FM Clause 3.5. Under NPS-FM Section 3.5 the PDP should contribute to the protection and enhancement of the health and well-being of water bodies and freshwater ecosystems, including wetlands, through WCC's RMA section 31 functions, as outlined in Policies FW.3 and FW.6 of Proposed RPS Change 1. This approach would help to achieve NPS-FM Policies 6 and 7 and operative RPS policy 47. The PDP should provide for identification and avoidance of waterways (both within and outside of SNAs) during structure planning and sub-division, such that waterways must be identified and protected prior to any development occurring. Greater Wellington does not consider the freshwater direction in the design guides to provide sufficient certainty of protection and enhancement.	Add a policy and objective to protect and enhance the health and well-being of water bodies and freshwater ecosystems, including wetlands, in the ECO chapter. This should lead into rules in the subdivision and future urban zone chapters, requiring that waterways and wetlands have been identified for structure planning or subdivision prior to any development occurring.
Director-General of Conservation	385.35	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Not specified	Considers that Policy 8 of the NPS-IB exposure draft seeks that "The importance of maintaining indigenous biodiversity outside SNAs is recognised and provided for". Given the NPS-IB is anticipated to be gazetted in December 2022, the Director-General submits that the Proposed District Plan should give effect to this national direction.	Add policy to require the protection of indigenous biodiversity outside of SNAs.
Transpower New Zealand Limited	FS29.2	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Oppose	Until such time as the NPS-IB is gazetted, Transpower does not support the provision of policies to give effect to the NPS.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.1	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Support	Given the NPS-IB is anticipated to be gazetted in December 2022, Forest & Bird agrees that the Proposed District Plan should give effect to this national direction.	Allow
Kāinga Ora – Homes and Communities	FS89.53	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Oppose	Further clarification is needed to understand the implications on land use opportunities of applying significant natural areas.	Disallow
Meridian Energy Limited	FS101.123	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Support	Considers that the requested policy should manage potential adverse effects in accordance with a management hierarchy, as signaled by the exposure draft NPS-Indigenous Biodiversity.	Amend / Seeks that if the additional policy is included, to ensure it is amended to manage potential adverse effects on indigenous biodiversity in accordance with an effects management hierarchy that focuses on the indigenous biodiversity values.
Director-General of Conservation	385.36	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Amend	<p>Considers addition of setback standard within the chapter.</p> <p>Under the current standards, there is no setback requirement from a Significant Natural Area (SNA) which means development could be located directly against the boundary of a SNA. Adverse effects resulting from development within proximity to an SNA include bright lights impacting indigenous fauna and people trimming/removing vegetation/trees from an SNA for being too close to their property. The provision of a buffer or setback between new development and SNAs will reduce the possibility of adverse effects and allow the consideration of effects/mitigation at resource consent stage if new development is proposed within the setback.</p> <p>Additionally, the addition of a development setback for SNAs would ensure the Proposed District Plan is in line with Policy 47, specifically point b, of the RPS.</p>	Add standard which would manage development setbacks as follows: New buildings, building additions, structures, and swimming pools shall be setback 5m from the boundary of a Significant Natural Area.
Greater Wellington Regional Council	FS84.15	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Support	Greater Wellington support the proposed setback provisions as one method to protect SNAs from the adverse effects of intensification.	Allow
Kāinga Ora – Homes and Communities	FS89.54	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Oppose	Kainga Ora does not support the proposed change requested and considers it is unnecessary to manage identified values.	Disallow
Meridian Energy Limited	FS101.124	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Support	Considers that there may be circumstances where a 5m setback is not achievable due to legitimate functional or operational needs of infrastructure.	Amend / Seeks that if the requested standard is included, to ensure that there is provision for reduction of the setback distance where necessary to provide for existing lawfully established infrastructure and where functional or operational needs mean it is not practicable to achieve or maintain a 5m setback.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council Environmental Reference Group	FS112.28	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / New ECO	Support	Agree with the Director-General of Conservation to include a set-back standard where a development is adjacent to an SNA. This buffer provision will reduce the possibility of adverse effects by allowing consideration of effects/mitigation at resource consent stage. It also brings the Proposed District Plan in line with Policy 47, specifically point b, of the RPS.	Allow
Tyers Stream Group	221.32	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-01	Amend	[No specific reason given beyond decision requested - refer to original submission]	Amend ECO-01 (Significant Natural Areas are protected from inappropriate subdivision, use and development and where appropriate, restored) as follows: Significant Natural Areas are protected from inappropriate subdivision, use and development and where appropriate, restored.
Meridian Energy Limited	FS101.125	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-01	Oppose	Considers that Part 2 of the RMA intends that significant natural areas should be protected from inappropriate subdivision, use and development.	Disallow
Meridian Energy Limited	228.68	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-01	Support in part	Considers that it is the values of Significant Natural Areas that should be protected, not the geographic areas they occupy.	Retain Objective ECO-01 (Significant natural areas are protected from inappropriate subdivision, use and development, and where appropriate, restored) with amendment.
Meridian Energy Limited	228.69	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-01	Amend	Considers that it is the values of Significant Natural Areas that should be protected, not the geographic areas they occupy.	Amend Objective ECO-01 (Significant natural areas are protected from inappropriate subdivision, use and development, and where appropriate, restored) as follows: <u>The ecological and indigenous biodiversity values</u> of Significant Natural Areas are protected from inappropriate subdivision, use and development and where appropriate, restored.
Wellington Electricity Lines Limited (WELL)	FS27.7	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-01	Support	WELL agree in principle with the submitter that it is the values of Significant Natural Areas that should be protected, not the geographic areas they occupy. In this regard, WELL consider that the sought amendment to ECO-01 is appropriate and therefore is supported.	Allow
Kilmarston Developments Limited and Kilmarston Properties Limited	290.34	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-01	Support in part	Considers that It is important that Council identified SNAs within the City in order to protect and maintain the remaining areas of indigenous biodiversity. However, this should not include areas earmarked for public access and roads. The Submitter accepts the overlay being clipped to the proposed MRZ areas of their land, but not over the paper road and parts of the access.	Retain ECO-01 (Significant Natural Areas are protected from inappropriate subdivision, use and development and where appropriate, restored) as notified.
Royal Forest and Bird Protection Society	345.183	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-01	Support in part	Notes that Section 6(c) does not include reference to 'inappropriate subdivision, use and development'.	Amend ECO-01 as follows: Significant Natural Areas are protected from inappropriate subdivision, use and development and where appropriate, restored.
Meridian Energy Limited	FS101.126	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-01	Oppose	Considers that the scheme of the RMA is that significant natural areas should be protected from inappropriate subdivision, use and development.	Disallow
WCC Environmental Reference Group	377.116	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-01	Amend	Considers that it is crucial that SNAs are protected, as is required by law. By rephrasing this objective, it puts the emphasis on restoration as the default position, rather than a possible option. It is thought that this strikes the balance better between use and protection	Amend the wording "where appropriate" from ECO-01 (Significant Natural Areas are protected from inappropriate subdivision, use...) to "where possible"

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	FS101.127	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-01	Oppose	Considers that restoration in all circumstances 'where possible' creates an unduly stringent requirement. Evaluation of what is 'appropriate' better gives effect to the exposure draft NPS-Indigenous Biodiversity objective, including providing for the social and economic wellbeing of people and communities and enabling consideration of the merit or restoring specific indigenous biodiversity resources.	Disallow
Director-General of Conservation	385.37	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-01	Oppose in part	Considers that as the objectives (ECO-01 and ECO-02) are seeking the same outcome, they should be incorporated into one objective.	Opposes ECO-01 in its current form and seeks amendment.
Director-General of Conservation	385.38	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-01	Amend	The Director-General is supportive of the intention of Objective ECO-01 & ECO-02, however considers that as the objectives are seeking the same outcome, they should be incorporated into one objective. The suggested wording is in line with the NZCPS including Policy 7 which provides protection from inappropriate subdivision, use, and development in these areas through objectives and Policy 14 which promotes restoration or rehabilitation of the natural character of the coastal environment.	Amend Objective ECO-01 as follows: "Significant Natural Areas (<u>including those within the coastal environment</u>) are protected from inappropriate subdivision, use and development and where appropriate, restored <u>or rehabilitated</u> ."
Te Rūnanga o Toa Rangatira	488.49	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-01	Support in part	Supports that the objective says that significant natural areas are protected from inappropriate land use	Retain ECO-01 (Significant Natural Areas are protected from inappropriate subdivision, use and development and where appropriate, restored) with amendment below.
Te Rūnanga o Toa Rangatira	488.50	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-01	Amend	Considers the objective should mention protection from adverse effects of incompatible activities.	Amend Ecosystems and Indigenous Biodiversity Objective 1 (Protection of significant natural areas) to mention protection from adverse effects of incompatible activities.
Victoria University of Wellington Students' Association	123.39	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-02	Not specified	Considers that ECO-02 (Significant Natural Areas within the coastal environment are protected.) supports the restriction of building activities around the coast. Section 6(a) of the RMA identifies the protection of the natural character of the coastal environment from inappropriate subdivision, use, and development as a matter of national importance.	Seeks that building activities around the coast are restricted to protect biodiversity, natural character, and amenity values.
Victoria University of Wellington Students' Association	123.40	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-02	Support	Considers that ECO-02 (Significant Natural Areas within the coastal environment are protected.) supports the restriction of building activities around the coast.	Seeks that building activities around the coast, and any expansion of the city including airport runway extensions, acknowledge the large range of indigenous birds nesting around the Pōneke Wellington coastline.
Tyers Stream Group	221.33	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-02	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-02 (Significant Natural Areas within the coastal environment are protected) as notified.
Meridian Energy Limited	228.70	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-02	Support in part	Considers that it is the values of Significant Natural Areas that should be protected, not the geographic areas they occupy.	Retain Objective ECO-02 (Significant natural areas within the coastal environment) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	228.71	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-02	Amend	Considers that it is the values of Significant Natural Areas that should be protected, not the geographic areas they occupy.	Amend Objective ECO-02 (Significant natural areas within the coastal environment) as follows: <u>The ecological and indigenous biodiversity values of Significant Natural Areas within the coastal environment are protected.</u>
Kilmarston Developments Limited and Kilmarston Properties Limited	290.35	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-02	Support in part	Considers that it is important that Council identified SNAs within the City in order to protect and maintain the remaining areas of indigenous biodiversity. However, this should not include areas earmarked for public access and roads. The Submitter accepts the overlay being clipped to the proposed MRZ areas of their land, but not over the paper road and parts of the access.	Retain ECO-02 (Significant Natural Areas within the coastal environment are protected) as notified.
Royal Forest and Bird Protection Society	345.184	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-02	Support	Generally supports ECO-02.	Retain ECO-02 as notified.
Greater Wellington Regional Council	351.151	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-02	Amend	Considers that the wording used for the coastal environment should differ from that in ECO-01.	Seeks to amend wording to 'protected and, where appropriate, restored' or remove the objective.
Meridian Energy Limited	FS101.128	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-02	Support	Meridian supports the proposed wording, which includes 'where appropriate, restored'.	Amend / Allow the requested amendment, provided it includes the words 'and, where appropriate, restored'.
WCC Environmental Reference Group	377.117	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-02	Support	ECO-02 is supported as it is vital to ensuring SNAs are protected.	Retain ECO-02 (Significant Natural Areas within the coastal environment are protected). As notified.
Director-General of Conservation	385.39	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-02	Oppose in part	Considers that as the objectives (ECO-01 and ECO-02) are seeking the same outcome, they should be incorporated into one objective.	Delete objective ECO-02 in its entirety, on the grounds that ECO-01 is amended.
Tyers Stream Group	221.34	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-03	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-03 (Significant Natural Areas are protected from the adverse effects of plantation forestry activities) as notified.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.36	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-03	Support in part	Considers that it is important that Council identified SNAs within the City in order to protect and maintain the remaining areas of indigenous biodiversity. However, this should not include areas earmarked for public access and roads. The Submitter accepts the overlay being clipped to the proposed MRZ areas of their land, but not over the paper road and parts of the access.	Retain ECO-03 (Significant Natural Areas are protected from the adverse effects of plantation forestry activities) as notified.
Royal Forest and Bird Protection Society	345.185	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-03	Support	Generally supports ECO-03.	Retain ECO-03 as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.118	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-03	Support	ECO-03 is supported as it is vital to ensuring SNAs are protected.	Retain ECO-03 (Significant Natural Areas are protected from the adverse effects of plantation forestry activities) as notified.
Te Rūnanga o Toa Rangatira	488.51	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-03	Support in part	Supports mention of protection from the effects of plantation forestry.	Retain ECO-03 (Significant Natural Areas are protected from the adverse effects of plantation forestry activities.) as notified.
Tyers Stream Group	221.35	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-04	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-04 (Significant Natural Areas are maintained or restored by mana whenua in accordance with kaitiakitanga) as notified.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.37	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-04	Support in part	Considers that It is important that Council identified SNAs within the City in order to protect and maintain the remaining areas of indigenous biodiversity. However, this should not include areas earmarked for public access and roads. The Submitter accepts the overlay being clipped to the proposed MRZ areas of their land, but not over the paper road and parts of the access.	Retain ECO-04 (Significant Natural Areas are maintained or restored by mana whenua in accordance with kaitiakitanga) as notified.
Royal Forest and Bird Protection Society	345.186	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-04	Support	Generally supports ECO-04.	Retain ECO-04 as notified.
Greater Wellington Regional Council	351.152	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-04	Amend	Considers that the wording, 'maintain and restore' is inconsistent with 'protect and restore' in ECO-01 and the related policy ECO-P4.	Seeks to amend wording in ECO-04 to 'protect and restore'.
WCC Environmental Reference Group	377.119	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-04	Support	Supports as the objective is vital to ensuring SNAs are protected. Particularly supports ECO-R4 (Significant Natural Areas are maintained or restored by mana whenua in accordance with kaitiakitanga) as it further Wellington City Council's Te Tiriti obligations.	Retain ECO-R4 (Significant Natural Areas are maintained or restored by mana whenua in accordance with kaitiakitanga) as notified.
Tyers Stream Group	221.36	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-P1 (Protection of significant natural areas) as notified.
Meridian Energy Limited	228.72	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Oppose in part	Considers that the mitigation hierarchy created by Policy ECO-P1 (Protection of significant natural areas) should focus biodiversity and compensation initiatives at adverse effects that are more than minor (not all residual adverse effects). Considers the word 'only' in clauses 4 and 5 is unnecessary because the circumstances when biodiversity offsetting and biodiversity compensation will be considered are set out in APP2 (Biodiversity offsetting) and APP3 (Biodiversity compensation). Considers the word 'only' adds no value to the principles in APP2 and APP3.	Retain Policy ECO-P1 (Protection of significant natural areas) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	228.73	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Amend	<p>Considers that the mitigation hierarchy created by Policy ECO-P1 (Protection of significant natural areas) should focus biodiversity and compensation initiatives at adverse effects that are more than minor (not all residual adverse effects).</p> <p>Considers the word 'only' in clauses 4 and 5 is unnecessary because the circumstances when biodiversity offsetting and biodiversity compensation will be considered are set out in APP2 (Biodiversity offsetting) and APP3 (Biodiversity compensation). Considers the word 'only' adds no value to the principles in APP2 and APP3.</p>	<p>Amend Policy ECO-P1 (Protection of significant natural areas) as follows:</p> <p>Protect the biodiversity values of the identified significant natural areas within SCHED8 by requiring subdivision, use and development to:</p> <ol style="list-style-type: none"> 1. Avoid adverse effects on indigenous biodiversity values where practicable; 2. Minimise adverse effects on the biodiversity values where avoidance is not practicable; 3. <u>Where practicable, remedy</u> adverse effects on the biodiversity values where they cannot be avoided or minimised; 4. <u>Where residual adverse effects cannot be avoided, mitigated or remedied, Only</u> consider biodiversity offsetting for any residual adverse effects that are more than minor cannot otherwise be avoided, minimised or remedied and where the principles of APP2 – Biodiversity Offsetting are met; and 5. <u>Only if biodiversity offsetting of more than minor residual adverse effects is not practicable,</u> consider biodiversity compensation after first considering biodiversity offsetting and where the principles of APP3 – Biodiversity Compensation are met.
Horokiwi Quarries Ltd	271.22	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Support	<p>Supports ECO-P1 as it reflects the common mitigation hierarchy approach to biodiversity. Depending on the identification of specific SNA areas, Horokiwi is not opposed to the policy. The references to 'where practicable' and ability for offsetting are supported.</p>	Retain ECO-P1 (Protection of significant natural areas) as notified.
Aggregate and Quarry Association	303.14	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Support	<p>ECO-P1 is supported as it provides for an effects management hierarchy for land development, including offsetting and compensation, within Significant Natural Areas.</p>	Retain ECO-P1 (Protection of significant natural areas) as notified.
Transpower New Zealand Limited	315.163	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Support	<p>Considers policy INF-ECO-P36 and P37 requires application of the effects management hierarchy (which is incorrectly referenced as ECO-P2 within the aforementioned policies) to the upgrade and development of the National Grid. Submitter notes that in its comments on INF-ECO-P36 and P37 deletion of the cross reference to Policy ECO-P1 is sought.</p> <p>Submitter is not opposed to ECO-P1 (and is supportive of the mitigation hierarchy approach within ECO-P1 on the basis biodiversity offsets and compensation are only a consideration as opposed to a mandatory requirement). However, given the uncertainty as to what form ECO-P1 will take and the significant implications of any policy changes to policy ECO-P1 to the National Grid, Transpower seeks to include Significant Natural Areas within the 'seek to avoid' policy directive of the sought National Grid specific policies, as opposed to being subject to ECO-P1. By deleting the ECO specific clause within INF-ECO-P36 and P37, the policy directive would be to 'seek to avoid' the SNA's as applying to the National Grid. Considers this would be the most efficient and effective solution in respect of the NPS-ET. While NPS-ET Policy 8 does not specifically reference indigenous biodiversity, given the high value of the areas within the policy, considers it would be consistent to include SNA's within the sought "seek to avoid" policy directive. Considers the inclusion would be consistent for the intent of the NPS-ET to provide a comprehensive enabling regime for the National Grid recognising its national significance, and for the 'seek to avoid' policy to address RMA section 6 matters in a consistent manner. Considers policies 1-5 of the NPS-ET require some tempering of plan provisions that may otherwise be applied to the National Grid, in order to provide for the need to operate, maintain, develop and upgrade the electricity transmission network as a matter of national significance.</p>	Retain Policy ECO-P1 (Protection of significant natural areas) as notified, subject to deletion of reference to the policy within INF-ECO-P36 and INF-ECO-P37.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.187	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Support	<p>Considers this policy needs to be limited to situations where policy 11 NZCPS does not apply. The Auckland Unitary Plan provides an example of how this can be achieved. It is currently not clear that ECO-P5 would apply as a first step in the coastal environment. As such, a specific clause is required. The SNA provisions should apply to any area of significant biodiversity that meets the Policy 23 RPS criteria. There may be areas that have been missed in the scheduling process, and could be discovered for example via the consenting process. In order to meet the requirements of the Act, the SNA provisions must also apply to these areas. The SNA provisions also need to apply to the deleted SCHED9 areas. This can be achieved by either:</p> <ul style="list-style-type: none"> - Amending the SNA definition as sought above to incorporate SCHED 8, SCHED9, and any other area that meets the Policy 23 RPS criteria, and simply referring to the defined term in the provisions (as opposed to the current approach, which specifically references SCHED8 repeatedly) (preferred option); or - Amending every provision in the Plan that refers to SCHED8, to also refer to SCHED9 and any area that meets Policy 23 RPS criteria. <p>The effects management hierarchy in ECO-P1 only requires for avoidance of effects where practicable. That low standard is not sufficient to ensure the requirements of the Act (including s6 and s31) are met. Some effects must actually be avoided in order to meet these requirements. We seek changes to meet these requirements. We note that the recent PC18 to the Porirua DP includes such limits.</p> <p>We note that this policy applies to subdivision. Please see our submission points on the Subdivision chapter.</p> <p>The effects management hierarchy in this policy uses the term “minimised” rather than the RMA term “mitigated”. The term mitigation comes directly from s 5 RMA. There is extensive jurisprudence on what it means and how it sits within the RMA’s system alongside avoidance and remediation for managing adverse effects of activities. Conversely, the term “minimise” is not in s 5 RMA. This raises a question of the vires of substituting mitigate for minimise.</p> <p>Continued use of mitigate, alongside avoidance and remediation, will preserve case law and knowledge as to their meaning. The term ‘minimise’ or minimisation of effects refers to what effects management should achieve, rather than being an effects management step itself.</p> <p>We do not support providing for compensation, as it is not an effective tool to adequately manage adverse effects on indigenous biodiversity. Forest & Bird’s primary position is that biodiversity compensation should not be part of the effects management hierarchy, because it is inherently uncertain as to whether it will maintain indigenous biodiversity. This is particularly the case where the policy itself does not include any effects which must be avoided (only avoided where practicable).</p> <p>Support the mandatory requirements in 4 and 5 that the offsetting and compensation (if compensation is to be retained) principles must be met for an offsetting/compensation proposal to meet the policy.</p>	<p>Amend ECO-P1 (Protection of significant natural areas):</p> <p>Protect the biodiversity values of the identified significant natural areas within SCHED8 by requiring subdivision, use and development to:</p> <ol style="list-style-type: none"> 1. Avoid adverse effects on indigenous biodiversity in the coastal environment to the extent stated in ECO P5; 2. Avoid the following adverse effects on indigenous biodiversity values: <ol style="list-style-type: none"> a. Loss of ecosystem representation and extent; b. Disruption to sequences, mosaics or ecosystem function; c. Fragmentation or loss of buffering or connectivity within the SNA and between other indigenous habitats and ecosystems; and d. A reduction in population size or occupancy of threatened species using the SNA for any part of their life cycle. 3. Avoid other adverse effects on indigenous biodiversity values where practicable 4. Minimise Mitigate adverse effects on the biodiversity values where avoidance is not practicable; Remedy adverse effects on the biodiversity values where they cannot be avoided or mitigated minimised; Only consider biodiversity offsetting for any residual adverse effects that cannot otherwise be avoided, mitigated minimised or remedied and where the principles of APP2 – Biodiversity Offsetting are met; and 7. Only consider biodiversity compensation after first considering biodiversity offsetting and where the principles of APP2 – Biodiversity Compensation are met.
Meridian Energy Limited	FS101.129	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Oppose	The proposed amendment conflicts, in part, with the amendments Meridian seeks to policy ECO-P1.	Disallow / Allow the amendments only to the extent that they align with the amendments requested by Meridian in its submission point 228.73.
Greater Wellington Regional Council	351.153	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Amend	The wording ‘where practicable’ is unnecessary in clause 1 as it is restated in clause 2.	Seeks to amend wording to remove ‘where practicable’ from clause 1.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	FS101.130	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Oppose	Considers that the deletion of 'where practicable' from clause 1 would not give effect to the objective of the NPS Indigenous Biodiversity (it would fail to consider clause (1) (b)). The words 'where practicable' in clause 2 of Policy ECO-P1 address the subsequent step in the hierarchy (not the first 'avoid' step).	Disallow
WCC Environmental Reference Group	377.120	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Amend	In relation to Point 3, the submitter considers that environmental damage cannot be remedied in a way that is different to biodiversity offsetting.	Amend Point 3 of ECO-P1 (Protection of significant natural areas) to be clearer as to how remedying may exist, or remove entirely.
Meridian Energy Limited	FS101.131	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Oppose	Considers that it is relevant to include 'remediation' in the mitigation hierarchy, even if it is unlikely to be employed in most cases. Biodiversity compensation is a valid response, endorsed by the exposure draft NPS-Indigenous Biodiversity and numerous Environment Court decisions.	Disallow
The Retirement Villages Association of New Zealand Incorporated	FS126.216	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Oppose	The RVA opposes this submission point as the current policy provides an appropriate hierarchy for avoiding, minimising, remedying, offsetting and compensating for biodiversity values. Compensation is an appropriate mechanism to be considered that can lead to enhanced biodiversity outcomes	Disallow
Ryman Healthcare Limited	FS128.216	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Oppose	Ryman opposes this submission point as the current policy provides an appropriate hierarchy for avoiding, minimising, remedying, offsetting and compensating for biodiversity values. Compensation is an appropriate mechanism to be considered that can lead to enhanced biodiversity outcomes	Disallow
WCC Environmental Reference Group	377.121	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Amend	Considers that biodiversity compensation should not be available. It should not be possible for destruction of biodiversity to be available at a price.	Remove Point 5, biodiversity compensation, of ECO-P1 (Protection of significant natural areas) in its entirety.
Meridian Energy Limited	FS101.132	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Oppose	Considers that it is relevant to include 'remediation' in the mitigation hierarchy, even if it is unlikely to be employed in most cases. Biodiversity compensation is a valid response, endorsed by the exposure draft NPS-Indigenous Biodiversity and numerous Environment Court decisions.	Disallow
The Retirement Villages Association of New Zealand Incorporated	FS126.217	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Oppose	The RVA opposes this submission point as the current policy provides an appropriate hierarchy for avoiding, minimising, remedying, offsetting and compensating for biodiversity values. Compensation is an appropriate mechanism to be considered that can lead to enhanced biodiversity outcomes	Disallow
Ryman Healthcare Limited	FS128.217	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Oppose	Ryman opposes this submission point as the current policy provides an appropriate hierarchy for avoiding, minimising, remedying, offsetting and compensating for biodiversity values. Compensation is an appropriate mechanism to be considered that can lead to enhanced biodiversity outcomes	Disallow
Director-General of Conservation	385.40	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Oppose in part	Considers that the use of policy that implements an effects management hierarchy is supported, provided that, Policy ECO-P1 is amended to be in line with the wording in the exposure draft for the National Policy Statement on Indigenous Biodiversity.	Opposes in part ECO-P1 (Protection of significant natural areas), in its current form and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Director-General of Conservation	385.41	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Amend	Considers that the use of policy that implements an effects management hierarchy is supported, provided that, Policy ECO-P1 is amended to be in line with the wording in the exposure draft for the National Policy Statement on Indigenous Biodiversity.	Amend Policy ECO-P1 (Protection of significant natural areas) to be in line with the wording set out in the exposure draft for the National Policy Statement on Indigenous Biodiversity.
Meridian Energy Limited	FS101.133	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Support	Meridian agrees that any amendments to the wording of ECO objectives and policies must be aligned with the NPS-Indigenous Biodiversity once that is gazetted. The issue will be in the timing of the Plan hearings/decisions and gazettal of the NPS.	Allow
Paul M Blaschke	435.8	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P1	Support	ECO-P1 is particularly supported.	Retain ECO-P1 (Protection of significant natural areas) as notified.
Tyers Stream Group	221.37	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-P2 (Appropriate vegetation removal in significant natural areas) as notified.
Meridian Energy Limited	228.74	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Support in part	Considers that the removal of vegetation may also be appropriate where necessary to provide for the functional or operational needs of regionally significant infrastructure, including vegetation removal from around structures.	Retain Policy ECO-P2 (Appropriate vegetation removal in significant natural areas) with amendment.
Meridian Energy Limited	228.75	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Amend	Considers that the removal of vegetation may also be appropriate where necessary to provide for the functional or operational needs of regionally significant infrastructure, including vegetation removal from around structures.	Amend Policy ECO-P2 (Appropriate vegetation removal in significant natural areas) as follows (or similar to provide for the functional and operational needs of regionally significant infrastructure): Enable vegetation removal within significant natural areas identified within SCHED8 where it is of a scale and nature that maintains the biodiversity values, including to provide for: 1. Maintenance around existing buildings and structures; or 2. Safe operation of roads, tracks and access ways; or 3. <u>Functional or operational needs in operating, maintaining, repairing, or upgrading regionally significant infrastructure; or</u> <u>4. ...</u>
Wellington Electricity Lines Limited (WELL)	FS27.8	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Support	WELL support the submission point in that the removal of vegetation may also be appropriate where necessary to provide for the functional or operational needs of regionally significant infrastructure. WELL is guided by the Electricity (Hazards from Trees) Regulations 2003, and therefore consider that the submission point to amend Policy ECO-P2 so as to allow appropriate vegetation removal in SNA areas is appropriate for the safe and secure supply of electricity.	Allow
Director-General of Conservation	FS106.11	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Oppose	Infrastructure in relation to SNAs is detailed under the "Infrastructure – Ecosystems and Indigenous Biodiversity" chapter of the PDP. To avoid confusion, it should continue to be included in a separate chapter and not referenced in the "Ecosystems and Indigenous Biodiversity" chapter.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.102	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Support	Supports the policy as it enables the removal of vegetation within significant natural areas to reduce wildfire risk through the removal of highly flammable vegetation near existing residential units or on rural property	Retain ECO-P2 (appropriate vegetation removal in significant natural areas) as notified.
Aggregate and Quarry Association	303.15	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Amend	Considers that ECO-P2 is unlikely to apply to quarrying activities. Adding a point that enables vegetation clearance where the existing activity is a legal activity will achieve the right balance between protection of appropriate vegetation and allowing essential economic activities.	Amend ECO-P2 (Appropriate vegetation removal in significant natural areas) to add a sub-point enabling vegetation clearance where the existing activity is a legal activity.
Director-General of Conservation	FS106.12	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Oppose	It is unclear what the submitter considers to be a legal activity. However, if an activity is able to take place by an approved resource consent, by being a Permitted Activity, or by having existing use rights, then the activity is already able to go ahead, and this wording is therefore not necessary in the PDP. If the proposed vegetation clearance is not enabled by one of the points above, it should be considered separately under the District Plan and not enabled.	Disallow
Transpower New Zealand Limited	315.164	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Not specified	Considers that, on the basis ECO-P2 is not applicable to Infrastructure, Transpower is neutral on the policy. However, if the intent is that it does and should apply to the National Grid, seeks amendment to recognise vegetation removal to enable the safe and efficient operation and maintenance of the National Grid. [position is specified as neutral]	Retain Policy ECO-P2 (Appropriate vegetation removal in significant natural areas). [Subject to amendment if the intent is that the policy applies to the National Grid]
Transpower New Zealand Limited	315.165	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Not specified	Considers that, on the basis ECO-P2 is not applicable to Infrastructure, Transpower is neutral on the policy. However, if the intent is that it does and should apply to the National Grid, seeks amendment to recognise vegetation removal to enable the safe and efficient operation and maintenance of the National Grid. [position is specified as neutral]	Seeks that if the intent is that Policy ECO-P2 (Appropriate vegetation removal in significant natural areas) applies to the National Grid, it is amended to recognise vegetation removal to enable the safe and efficient operation and maintenance of the National Grid.
Royal Forest and Bird Protection Society	345.188	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Support in part	Considers the policy should not start from a point of enabling because this policy will be considered when consenting the listed activities where they are no longer permitted: the matters of discretion for ECO R1.4, 1.5, 2.2, 3.2 refer to this policy. Considers it is not clear whether all or some of these references are in error, because of the deletion of some policies just prior to notification. Considers it is not appropriate to provide for new roads etc through SNAs as of right, this should be limited to maintenance of existing roads and tracks. It is not clear why conservation activities are referred to in this policy. The rules provide for restoration activities, not conservation activities. If 'conservation activities' is to be retained, see submission point on its definition. Considers the list should be exhaustive, so that it only provides for the intended activities.	Amend ECO-P2 (Appropriate vegetation removal in significant natural areas): Consider enabling Enable vegetation removal within significant natural areas identified within SCHEDULES where it is of a scale and nature that maintains the biodiversity values, including to provide for: 1. Maintenance around existing buildings; or 2. Safe operation of <u>existing</u> roads, tracks and access ways; or 3. Restoration and conservation activities including plant and animal pest control activities; or 4. Natural hazard management activities; or 5. Reduction of wildfire risk through the removal of highly flammable vegetation near existing residential units on rural property; or 6. Opportunities to enable tangata whenua to exercise customary harvesting practices (excluding commercial use).
Fire and Emergency New Zealand	FS14.4	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Oppose	Fire and Emergency consider that amending the wording of ECO-P2, as sought by the RFBPS, to 'consider enabling' the removal of highly flammable vegetation could be problematic for reducing the risk of wildfire and would be inconsistent with the provisions of the Fire and Emergency New Zealand Act 2017.	Disallow / Retain ECO-P2 as notified.
Meridian Energy Limited	FS101.134	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Oppose	Considers that the policy is deliberately enabling: it provides the policy 'hook' for the rules and standards managing vegetation clearance. Inserting the words 'consider enabling' is at odds with the policy's function. The policy should address the areas identified in the Schedule. Meridian's own submission point 228.75 supports inclusion of the word 'including'. Meridian agrees the policy should be addressing roads.	Allow / Seeks that part of the submission be allowed to include the insertion of roads, and otherwise and, otherwise, disallow the requested amendments.
Paul M Blaschke	435.9	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Support	ECO-P2 is particularly supported.	Retain ECO-P2 (Appropriate vegetation removal in significant natural areas) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Te Rūnanga o Toa Rangatira	488.52	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P2	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend policy ECO-P2 (Appropriate vegetation removal in significant natural areas) to: Enable vegetation removal within significant natural areas identified within SCHED8 where it is of a scale and nature that maintains the biodiversity values, including to provide for: 1. Maintenance around existing buildings; or 2. Safe operation of roads, tracks and access ways; or 3. Restoration and conservation activities including plant and animal pest control activities; or 4. Natural hazard management activities; or 5. Reduction of wildfire risk through the removal of highly flammable vegetation near existing residential units on rural property; or 6. Opportunities to enable Provide for tangata whenua to exercise customary harvesting practices (excluding commercial use).
Tyers Stream Group	221.38	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P3	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-P3 (Subdivision, use and development in significant natural areas) as notified.
Meridian Energy Limited	228.76	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P3	Support	Considers Policy ECO-P3 (Subdivision, use and development in significant natural areas) gives effect to the objectives.	Retain Policy ECO-P3 (Subdivision, use and development in significant natural areas) as notified.
Horokiwi Quarries Ltd	271.23	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P3	Support	Supports policy ECO-P3 (Subdivision, use and development in significant natural areas) as it provides a clear framework in which to address the effects of activities within an SNA.	Retain ECO-P3 (Subdivision, use and development in significant natural areas) as notified.
Royal Forest and Bird Protection Society	345.189	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P3	Support in part	Considers the policy should not start from a presumption of allowing activities. It should also include SNAs in SCHED8, 9 and areas that meet Policy 23 criteria that have not yet been defined, as per the relief sought for the SNA definition. We seek the following change to the pōtai: We note that this policy applies to subdivision. Please see our submission points on the Subdivision chapter. Paragraph 1 should refer to ECO-P1. Paragraph 1 is supported, as long as ECO-P1 is amended in the way sought above, including with reference to the policy giving effect to NZCPS policy 11, ECO P5. Paragraph 2 suggests the activity will be demonstrated to be appropriate solely by considering an ecologist's report. A report is not the only consideration in determining appropriateness. Paragraph 3 needs amendment as it could be taken to suggest that no net loss via offsetting is the end goal, whereas there needs to be some effects built into the effects management hierarchy that must be avoided (in line with submission points above). Paragraph 4 is strongly supported. However, it would make more sense to include in ECO-P1. The concepts contained in paragraph 4 are what we have sought for inclusion in ECO-P1, albeit expressed as adverse effects that must be avoided.	Amend ECO-P3 (Subdivision, use and development in significant natural areas): <u>Only a</u> Allow for subdivision, use and development in significant natural areas listed in SCHED8 where it: 1. Applies the effects management hierarchy approach in ECO-P21; and 2. Demonstrates that it is appropriate, <u>including</u> by taking into account the findings of an ecological assessment for the activity in accordance with APP15; and 3. Ensures the activities effects on biodiversity values are appropriately managed in accordance with the effects management hierarchy, <u>and where residual effects remain after avoiding, remedying or mitigating</u> , to achieve no net loss of biodiversity values of the identified significant natural area; and 4. Ensures that the ecological processes, functions and integrity of the significant natural area are maintained.
Meridian Energy Limited	FS101.135	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P3	Oppose	Considers that the policy should apply to areas identified in the Schedule. The proposed amendments unnecessarily replicate elements of the APP2 and APP3 management hierarchies (which apply anyway and do not require the embellishment proposed in Policy ECO-P3).	Allow / Seeks that part of the submission be allowed to include correction of the ECO-P1 policy reference and, otherwise, disallow the requested amendments.
WCC Environmental Reference Group	377.122	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P3	Support	SNAs must be protected usually, however, this policy strikes a fair balance between interests in use and interests in protection. It is important that the effects management hierarchy is applied.	Retain ECO-P3 (Subdivision, use and development in significant natural areas) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Director-General of Conservation	385.42	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P3	Amend	Policy ECO-P3 references the effects management hierarchy approach in ECO-P2, however the effects management approach is referenced ECO-P1.	Amend Policy ECO-P3 as follows: "Applies the effects management hierarchy approach in ECO-P21; and"
Paul M Blaschke	435.10	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P3	Support	ECO-P3 is particularly supported.	Retain ECO-P3 (Subdivision, use and development in significant natural areas) as notified.
Paul Van Houtte	92.1	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P4	Amend	Considers that free roaming of cats should be restricted in ECO-P4 due to their killing of native birds and lizards when roaming, and for their spread of the toxoplasmosis disease.	Seeks that ECO-P4 (Protection and restoration initiatives) be amended to restrict free roaming of cats.
Victoria University of Wellington Students' Association	123.41	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P4	Amend	Considers that ECO-P4 should be amended to allow for the practice of rāhui to be implemented when there is a threat to biodiversity from human activity. This is an important addition as rāhui is an important part of Māori conservation practice. This will allow certain protected species to thrive and be free from human interference for brief periods when there may be a threat of particular vulnerability.	Amend ECO-P4 (Protection and restoration initiatives) to include a provision that allows for the practice of rāhui to be implemented when there is a threat to biodiversity from human activity.
Tyers Stream Group	221.39	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P4	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-P4 (Protection and restoration initiatives) as notified.
Meridian Energy Limited	228.77	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P4	Support in part	Supports Policy ECO-P4 (Protection and restoration initiatives), provided the amendments requested to the mitigation hierarchy in Policy ECO-P1 (Protection of significant natural areas) are adopted.	Retain Policy ECO-P4 (Protection and restoration initiatives), provided the amendments requested to Policy ECO-P1 (Protection of significant natural areas) are adopted.
Royal Forest and Bird Protection Society	345.190	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P4	Support	Supports that this policy is not limited to restoration in SNAs.	Retain ECO-P4 (Protection and restoration initiatives) as notified.
WCC Environmental Reference Group	377.123	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P4	Amend	Generally supportive and particularly supportive of the recognition of mana whenua and land owners as key players in the wording. However, the submitter considers it vital that SNAs are not only protected but also restored.	Amend ECO-P4 (Protection and restoration initiatives) to add a fourth point as follows: <u>4. Where possible, recognise and assist with the financial costs associated with protection and restoration initiatives incurred by mana whenua, landowners and community groups.</u>
Steve West	FS110.20	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P4	Support	The original submitter seeks that where possible WCC recognises and assists with the financial costs associated with protection and restoration initiatives incurred by landowners. Steve West does not support the creation of SNAs on private urban land, if these are included, Steve West support the requirement for WCC to provide compensation, including for: - Substantial annual rates relief to fully compensate the landowner for costs incurred with protecting the SNA area. - Fully covering resource consent and ecologist reports, where required to support ongoing maintenance of the SNA. - Full compensation to the landowner at time of sale for the loss of land value (for the first sale of the private urban SNA). Noting that Darroch has assessed these losses could be up to 30%	Allow / Seeks that if SNAs are implemented on private urban land that WCC establish a full compensation scheme to offset the losses that impacted landowners will face because of SNAs being created.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Te Rūnanga o Toa Rangatira	FS138.27	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P4	Support	The submitter seeks for ECO-P4 (protection and restoration initiatives) to be amended with the addition of a fourth point as follows: where possible, recognise and assist with the financial costs associated with protection and restoration initiatives incurred by mana whenua, landowners and community groups. Te Rūnanga o Toa Rangatira support this submission because supporting these initiatives would support protection and restoration which aligns with tikanga Māori. This would also support tino rangatiratanga and the ability for mana whenua to achieve their aspirations in relation to protecting and restoring te taiao.	Allow
Tyers Stream Group	221.40	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P5	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-P5 (Significant natural areas within the coastal environment) as notified.
Meridian Energy Limited	228.78	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P5	Support in part	Considers that policy ECO-P5 (Significant natural areas within the coastal environment) gives effect to the NZCPS. Considers that there is a minor editorial amendment required in clause 3 and there appears to be an error in the reference to Policy ECO-P2 (Appropriate vegetation removal in significant natural areas). It may be that this should be 'ECO-P1' (Protection of significant natural areas) (i.e. the mitigation hierarchy).	Retain Policy ECO-P5 (Significant natural areas within the coastal environment) with amendment.
Meridian Energy Limited	228.79	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P5	Amend	Considers that policy ECO-P5 (Significant natural areas within the coastal environment) gives effect to the NZCPS. Considers that there is a minor editorial amendment required in clause 3 and there appears to be an error in the reference to Policy ECO-P2 (Appropriate vegetation removal in significant natural areas). It may be that this should be 'ECO-P1' (Protection of significant natural areas) (i.e. the mitigation hierarchy).	Amend Policy ECO-P5 (Significant natural areas within the coastal environment) as follows (or similar): Only allow activities within an identified significant natural area within SCHED8 in the coastal environment where it can be demonstrated that they; 1. Avoid adverse effects on the matters in Policy 11(a) of the New Zealand Coastal Policy Statement 2010; 2. Avoid significant adverse effects and avoid, remedy or mitigate other adverse effects of activities on the matters in Policy 11(b) of the New Zealand Coastal Policy Statement 2010; and 3. Protects the other indigenous biodiversity values in accordance with ECO-P1 ECO-P2 .
Horokiwi Quarries Ltd	271.24	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P5	Oppose	Considers that given the nature of the existing quarrying activities undertaken and modified nature of the environment, parts of the Coastal Overlay as it relates to part of the exiting quarry site is opposed.	Seeks that the Significant Natural Area overlay and Coastal Environment overlay be amended as they relate to the Horokiwi quarry site. [Refer to original submission, including figure and attachments]
Director-General of Conservation	FS106.13	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P5	Oppose	The methodology used to determine the extent of the Coastal Environment for the PDP should align with the criteria under Policy 1 of the New Zealand Coastal Policy Statement (NZCPS). Removal or amendments to the extent of any Coastal Environment area is not supported without the site being ground-truthed by a suitably qualified ecologist to confirm the accuracy of the current Coastal Environment mapping. The Coastal Environment area opposed by Horokiwi Quarries Ltd should be ground-truthed and assessed by WCC before a determination is made to retain, amend, or remove the Coastal Environment area. If the site does not meet the Coastal Environment criteria under Policy 1 of the NZCPS, only then should it be removed.	Disallow / Seeks that the submission is disallowed, unless it can be confirmed that the site does not meet the Coastal Environment criteria under Policy 1 of the NZCPS
Royal Forest and Bird Protection Society	345.191	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P5	Support in part	Considers the policy should refer to ECO-P1. In order to give effect to the NZCPS, this policy needs to apply in all zones, including residential. As noted above, this can be achieved by amending the definition of SNA to include SCHED8 and 9, and to any other area that meets Policy 23 RPS. The relationship between this policy and the general effects management hierarchy needs to be more clear. Currently the policies could allow for an argument that policy 11 NZCPS values could be managed in accordance with the general effects management hierarchy, which is incorrect. Amendments are sought to this policy and to ECO P1 above to achieve this.	Amend ECO-P5 (Significant natural areas within the coastal environment): Only allow activities within an identified significant natural area within SCHED8 in the coastal environment where it can be demonstrated that they; 1. Avoid adverse effects on the matters in Policy 11(a) of the New Zealand Coastal Policy Statement 2010; 2. Avoid significant adverse effects and avoid, remedy or mitigate other adverse effects of activities on the matters in Policy 11(b) of the New Zealand Coastal Policy Statement 2010; and 3. Protects other the indigenous biodiversity values in accordance with ECO-P2 ECO-P1

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	FS101.136	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P5	Oppose	Considers that the policy should apply to areas identified in the Schedule. The proposed amendments unnecessarily replicate elements of the APP2 and APP3 management hierarchies (which apply anyway and do not require the embellishment proposed in Policy ECO-P3).	Allow / Seeks that part of the submission be allowed to include correction of the ECO-P1 policy reference and, otherwise, disallow the requested amendments.
WCC Environmental Reference Group	377.124	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P5	Support	Supportive as the Policy is consistent with national direction and it ensures the protection of coastal SNAs in accordance with the NZCPs.	Retain ECO-P5 (Significant natural areas within the coastal environment) as notified.
Director-General of Conservation	385.43	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P5	Support	Supports proposed Policy ECO-P5 (Significant natural areas within the coastal environment).	Retain policy ECO-P5 (Significant natural areas within the coastal environment) as notified.
Tyers Stream Group	221.41	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P6	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-P6 (New plantation forestry) as notified.
Royal Forest and Bird Protection Society	345.192	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P6	Support	Supports the policy.	Retain ECO-P6 (New plantation forestry) as notified.
WCC Environmental Reference Group	377.125	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P6	Support	The submitter supports the intention that SNAs must be protected from new plantation forestry.	Retain ECO-P6 (new plantation forestry) as notified.
Tyers Stream Group	221.42	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P7	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-P7 (Existing plantation forestry) as notified.
Royal Forest and Bird Protection Society	345.193	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P7	Oppose	Considers it is not clear what activities this provision is intended to provide a policy basis for. While Forest & Bird may be able to support a policy such as this one, without the context of what rules/activities the policy provides for, the policy is opposed.	Delete ECO-P7 (Existing plantation forestry).
Royal Forest and Bird Protection Society	345.194	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-P7	Amend	If the relief sought above to delete ECO-P7 is not accepted, seeks deletion of the word "identified" in the policy.	Amend ECO-P7 (Existing plantation forestry): Provide for existing plantation forestry and associated activities where these maintain or restore the identified biodiversity values of significant natural areas.
Steve West	2.9	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Not specified	Considers that ECO-R1 (Trimming, pruning or removal of vegetation within a significant natural area) is too restrictive. Native trees can grow over 15m tall and are not suited to small plots of urban land. The rules do not account for regular trimming which is important for maintaining bush in an urban environment.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Peter Kelly	16.4	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Amend	Councillors have a democratic mandate to balance the interests of WCC residents against the important natural environment values represented by significant natural areas (SNAs). The Proposed Rules are essentially the Officer Draft Rules, but with the SNA designation removed from all residential zoned land. Requests that if SNAs are returned to residentially zoned land, the provisions in the draft District Plan are reinstated and fine-tuned.	If the Proposed District Plan is amended to allow Significant Natural Areas on residentially zoned land: Seeks that changes are made to ECO (Ecosystems and Indigenous Biodiversity) to give effect to the following provision: Add Draft District Plan ECO-R1: <u>c) where trimming or removal of vegetation is required to allow subdivision approved under SUB R-1 within an Significant Natural Area that minimises vegetation loss.</u>
Oliver Sangster	112.11	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Amend	Considers that it is important to strike a balance to ensure people can tend to growing bush in close proximity to existing buildings (e.g. houses) and structures (including underground pipes) to prevent damage due to tree roots growing around pipes and foundations, dead branches falling on roofs etc. Accordingly, the PDP should include provisions that this kind of maintenance be permitted to a reasonable level.	Seeks that ECO-R1 (Trimming, pruning or removal of vegetation within a significant natural area) be expanded to account for damage to underground property (e.g. pipes/foundations/driveways) from growing tree roots (whether "imminent" or otherwise).
Tyers Stream Group	221.43	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-R1 (Trimming, pruning or removal of vegetation within a significant natural area) as notified.
Horokiwi Quarries Ltd	271.25	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Amend	Considers that in its current drafting, the activity status for works within a SNA outside the CE, that are not provided for within R1.1 or R1.2, is not clear as rules R1.4, R1.5 and R1.6 all apply to vegetation within the CE. R1.3 only applies to certain activities. Horokiwi understands the intent of the rule ECO-R1.4 and 1.5 may be that if you do not meet R1.1 or R1.2 and you are not affecting any NZCPS policy 11(a) matters, you are permitted regardless of whether you are within or outside the CE. However, this is not clear and open to interpretation. As proposed, the cascade rule approach does not work for vegetation work outside the CE in that there is no clear activity status and ECO-R1 is open to interpretation issues.	Seeks amendment to the activity status within ECO-R1 from non-complying under clause 6. to discretionary if amendments sought to the areas identified as SNAs (as outlined in Appendix C of the submission) and amendment to the Coastal Environment Boundary (as identified in Appendix D of the submission) are not accepted.
Horokiwi Quarries Ltd	271.26	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Amend	Considers that in its current drafting, the activity status for works within a SNA outside the CE, that are not provided for within R1.1 or R1.2, is not clear as rules R1.4, R1.5 and R1.6 all apply to vegetation within the CE. R1.3 only applies to certain activities. Horokiwi understands the intent of the rule ECO-R1.4 and 1.5 may be that if you do not meet R1.1 or R1.2 and you are not affecting any NZCPS policy 11(a) matters, you are permitted regardless of whether you are within or outside the CE. However, this is not clear and open to interpretation. As proposed, the cascade rule approach does not work for vegetation work outside the CE in that there is no clear activity status and ECO-R1 is open to interpretation issues.	Seeks an amendment to ECO-R1 (Trimming, pruning or removal of vegetation within a significant natural area) to clarify the activity status for trimming, pruning or removal of vegetation within a significant natural area that is not within the Coastal Environment and does not comply with ECO-R1.1 or ECO-R1.2.
Fire and Emergency New Zealand	273.103	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Support in part	Supports the preventative mitigation of fire risk to property and life through providing for the clearance of vegetation as a permitted activity (all zones) in circumstances where FENZ is required to remove vegetation for the purposes of extinguishing or preventing the spread of fire or, where a notice has been served on a landholder to clear vegetation from a firebreak, in accordance with relevant sections of the FENZ Act.	Supports ECO-R1 (Trimming, pruning or removal of vegetation within a significant natural area) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.104	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Amend	Supports the preventative mitigation of fire risk to property and life through providing for the clearance of vegetation as a permitted activity (all zones) in circumstances where FENZ is required to remove vegetation for the purposes of extinguishing or preventing the spread of fire or, where a notice has been served on a landholder to clear vegetation from a firebreak, in accordance with relevant sections of the FENZ Act.	Amend ECO-R1 (Trimming, pruning or removal of vegetation within a significant natural area) as follows: 1. Activity status: Permitted Where: vi. Enable the ongoing restoration work within the Zealandia sanctuary where undertaken by the Karori Sanctuary Trust; or vii. To enable the maintenance of public walking or cycling tracks and parks maintenance and repair undertaken by the Department of Conservation, a Regional or Territorial Authority, or their approved contractor, and in accordance with ECO-S2; or viii. It is necessary to avoid loss of life, injury or serious damage to property, including from the risk of fire.
Royal Forest and Bird Protection Society	345.195	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Support in part	Supports that the rules under ECO-R1 apply to 'vegetation' within SNAs, not only indigenous vegetation. That is appropriate because exotic vegetation can provide significant habitat, and also can contribute to the ecosystem functioning of the SNA. Comment on each section of the rule are set out in the following submission points.	Not specified.
Meridian Energy Limited	FS101.137	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Not specified	Considers that the original submission does not specify the relief requested. Any amendments need to give effect to the NPS-Indigenous Biodiversity.	Allow / Seeks that the submission point be allowed to the extent that the amendments are necessary to give effect to the NPS-Indigenous Biodiversity.
Steve West	FS110.8	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Oppose	The original submitter seeks to include non-indigenous vegetation (other than pest plants) into the proposed trimming standards for SNAs and where an arborist is required this be a Technician Arborist, rather than a Works Arborist or a suitably qualified arborist as defined currently. Steve West does not support these proposals for the following reasons: - The trimming standards for native trees in the SNA, already places a very heavy burden on landowners through the requirements for a resource consent and ecologist's report. Adding exotic vegetation and even more stringent requirements for the type of arborist used to those requirements will further magnify this burden. - New Zealand native trees are large (many grow over 15m tall) and are not well suited to private urban land, if left unchecked. The reality is that trimming of both native and exotic trees is an important part of maintaining bush in the urban environment. - Planting of new trees (both indigenous and exotic) in the urban environment will likely diminish over time, both within the SNA areas and elsewhere as other landowners in Wellington become aware of the extent and onerous nature of the rules.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.196	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Support in part	Seeks that Council consider whether any activities should be permitted in residential areas, given our submission that residential SNAs must be reinserted. The April 2022 version of the plan (attached) included PAs for trimming or clearance for maintenance of buildings, within 5m of the building; and trimming or pruning only to maintain sunlight where a standard was complied with (then called ECO-54, which regulated how trimming was to occur, and no branches less than 50mm wide, and over 50mm wide needs to be done by a works arborist and WCC notified prior). In residential areas, we would accept a PA for maintenance or repair of services (telecoms, wastewater etc), however for installation we submit this is better as a controlled activity, and for existing residential units only. This allows the Council more control over where and how the services are installed, so that the vegetation clearance can be kept to the absolute minimum. Providing for it as a PA does not encourage this. For services to residential units that are not existing at the time of plan notification, a higher consenting standard should apply, at least RDA. There was also a PA for a private access track, provided it complied with a standard (no wider than 1m, no trees removed where they have a trunk diameter exceeding that in Schedule 10 at 1.4m above ground). We submit this would be better as a controlled activity, to give the Council greater opportunity to ensure that any higher value parts of the SNA are avoided.	Reinstate the Draft Plan's provisions for trimming, pruning, clearance, and maintenance of buildings in Residential Areas, given the submitter is seeking to reinstate residential Significant Natural Areas.
Steve West	FS110.11	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Oppose	The original submitter also seeks to amend the rules that were provided for allowing landowners to create some access tracks on private urban SNA land, to make these a controlled activity. Steve West does not support this, and considers that it is unreasonable to expect private landowners to obtain a resource consent (presumably with an ecologist's report) to create a track on their land. Considers that the tracks created have allowed for placement of predator traps and weed eradication, but without these tracks, neither would have occurred due to the difficult site access.	Disallow
Royal Forest and Bird Protection Society	345.197	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Support in part	Considers the rule should refer to "lawfully established" public roads.	Amend ECO-R1 (Trimming, pruning or removal of vegetation within a significant natural area): 1. Activity Status: Permitted Where: a. The trimming, pruning or removal of vegetation is to: i. Ensure the operation of any <u>lawfully established</u> formed public road or rail corridor, private access leg, driveway or right of way where removal of vegetation is limited to within the formed width of the road, rail corridor or access; or...
Royal Forest and Bird Protection Society	345.198	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Oppose in part	Considers that new fences can involve the clearing of very large amounts of significant vegetation, and without some kind of limit, this activity is not appropriate as a PA. It should become a discretionary activity. The amount of allowed trimming/removal for maintenance should also be limited to what is strictly necessary, given that it could cover a very large area. We seek that the rule is clarified to ensure that the 2m limit is the total allowed, rather than 2m on either side of the fence. Paragraph (ii) should also include a limit, that the removal/trimming is only what is strictly necessary. Opposes the PA in (iv) applying to new access tracks; this activity should be discretionary. Queries whether this provision was intended to use the defined term 'access strip'?	Amend ECO-R1 (Trimming, pruning or removal of vegetation within a significant natural area): 2. Activity Status: Permitted Where: a. The trimming or removal of vegetation is to: i. Construct new perimeter fences for stock or pest animal exclusion from areas or maintenance of existing fences for stock or pest animal exclusion provided the trimming or removal of any vegetation does not exceed 2m in width (<u>1m maximum on either side of the fence</u>); or ii. Maintain an existing farm drain, septic tank disposal field, or constructed stormwater management or treatment device, <u>provided that the removal or trimming is limited to that which is necessary for the maintenance</u> ; or iii. To create a firebreak within 10m of an external wall or roof of a residential unit that existed at 18 July 2022; or iv. Maintain, upgrade or create a new <u>an</u> access track for agricultural, pastoral or horticultural activities in accordance with ECO-S3.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.199	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Oppose	Considers the activity has the potential to remove large amounts of significant vegetation or habitat, even where the ECO S4 is applied. It is not appropriate to be a controlled activity, as the Council will not be able to refuse consent, regardless of the effects. In the coastal environment, providing for this activity as a controlled activity fails to give effect to policy 11 NZCPS.	Amend ECO-R1.3 (Trimming, pruning or removal of vegetation within a significant natural area) to a higher activity status to align with policy 11 of NZ Coastal Policy Statement.
Royal Forest and Bird Protection Society	345.200	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Support in part	Notes the rule appears to refer to ECO-P2 in error. Considers this rule should not be limited to excluding situations where policy 11(a) NZCPS is engaged because both paragraphs (a) and (b) of policy 11 require a different management approach than is set out in the effects management hierarchy of ECO-P1. Under ECO-P1, adverse effects only need to be avoided where practicable. That is contrary to the policy 11(a) requirement to avoid certain effects, and also to the policy 11(b) requirement to avoid significant adverse effects. Support matter of discretion reference to ECO-P1 (assuming that was intended)	Amend ECO-R1 (Trimming, pruning or removal of vegetation within a significant natural area): 5. Activity status: Restricted discretionary Where: a. Compliance with any of the requirements of ECO-R1.1 cannot be achieved; and b. The significant natural area does not contain any matters identified in Policy 11(4) of the New Zealand Coastal Policy Statement 2010 where located within the coastal environment. Matters of discretion are: The matters in ECO-P21, ECO-P3 and ECO-P4; and The extent and effect of non-compliance with any relevant standard not met as specified in the associated assessment criteria for the infringed standard.
Royal Forest and Bird Protection Society	345.201	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Support in part	Notes the rule appears to refer to ECO-P2 in error. Considers this rule should not be limited to excluding situations where policy 11(a) NZCPS is engaged because both paragraphs (a) and (b) of policy 11 require a different management approach than is set out in the effects management hierarchy of ECO-P1. Under ECO-P1, adverse effects only need to be avoided where practicable. That is contrary to the policy 11(a) requirement to avoid certain effects, and also to the policy 11(b) requirement to avoid significant adverse effects. Support matter of discretion reference to ECO-P1 (assuming that was intended)	Amend ECO-R1 (Trimming, pruning or removal of vegetation within a significant natural area): 5. Activity status: Restricted discretionary Where: a. Compliance with any of the requirements of ECO-R1.1 cannot be achieved; and b. The significant natural area does not contain any matters identified in Policy 11(4) of the New Zealand Coastal Policy Statement 2010 where located within the coastal environment. Matters of discretion are: The matters in ECO-P21, ECO-P3 and ECO-P4; and The extent and effect of non-compliance with any relevant standard not met as specified in the associated assessment criteria for the infringed standard.
Royal Forest and Bird Protection Society	345.202	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Amend	Supports non-complying status attaching to this activity. Opposes the application of this rule being limited to policy 11(a) NZCPS situations. Considers non-complying status should also apply where policy 11(b) is engaged. Also opposes the application of the effects management hierarchy in ECO-P1 applying to biodiversity that is required to be protected in accordance with policy 11(a) or (b) NZCPS as the policy requires that adverse effects (a)/significant adverse effects (b) are avoided, whereas ECO-P1 only requires avoidance of adverse effects where practicable. Considers the provisions need to be clear that the policy applying to the coastal environment (currently ECO P5) applies as a first step for these activities.	Amend ECO-R1 (Trimming, pruning or removal of vegetation within a significant natural area): 6. Activity status: Non Complying Where: a. Compliance with the requirements of ECO-R1.1 or ECO-R1.2 or ECO-R1.4 cannot be achieved; and b. The significant natural area includes matters identified in Policy 11(4) of the New Zealand Coastal Policy Statement 2010 where located within the Coastal Environment. Section 88 information requirements for applications: Applications for activities within an identified significant natural area must provide, in addition to the standard information requirements, an ecological assessment in accordance with APP15: 1. Identifying the indigenous biodiversity values and potential impacts from the proposal; and 2. Demonstrating that <u>ECOP5 has first been met</u> , and the effects management hierarchy at ECO-P2 has been applied <u>to other adverse effects</u> .
WCC Environmental Reference Group	377.126	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Amend	The submitter considers these rules largely strike a good balance between protection and use, however, in the interests of the primacy of indigenous biodiversity, we propose changing the activity status of R1.4 and R1.5.	Amend ECO-R1.4. (Trimming, pruning or removal of vegetation within a significant natural area) from Restricted Discretionary to Non-Complying.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
The Retirement Villages Association of New Zealand Incorporated	FS126.218	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Oppose	The RVA opposes this submission point on the basis that it has the potential to affect the consenting of retirement villages and is too stringent a control.	Disallow
Ryman Healthcare Limited	FS128.218	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Oppose	Ryman opposes this submission point on the basis that it has the potential to affect the consenting of retirement villages and is too stringent a control.	Disallow
WCC Environmental Reference Group	377.127	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Amend	The submitter considers these rules largely strike a good balance between protection and use, however, in the interests of the primacy of indigenous biodiversity, we propose changing the activity status of R1.4 and R1.5.	Amend ECO-R1.5. (Trimming, pruning or removal of vegetation within a significant natural area) from Restricted Discretionary to Non-Complying.
The Retirement Villages Association of New Zealand Incorporated	FS126.219	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Oppose	The RVA opposes this submission point on the basis that it has the potential to affect the consenting of retirement villages and is too stringent a control.	Disallow
Ryman Healthcare Limited	FS128.219	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Oppose	Ryman opposes this submission point on the basis that it has the potential to affect the consenting of retirement villages and is too stringent a control.	Disallow
Zealandia Te Māra a Tāne	486.1	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R1	Support	Supports ECO-R1.a.vi. as notified. Considers that this allows for adequate biosecurity and proactive work to protect the integrity of the predator-proof fence and to mitigate the biosecurity risk. It also enables occasional trimming specific areas to allow interpretation, enable viewsheds, or to maintain wetland areas.	Retain ECO-R1.a.vi. (Trimming or Removal of Indigenous Vegetation within a Significant Natural Area) as notified.
Tyers Stream Group	221.44	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-R2 (Removal of non-indigenous vegetation within a significant natural area) as notified.
Royal Forest and Bird Protection Society	345.203	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R2	Support in part	Supports this Permitted activity being limited to pest plants. Non-indigenous vegetation can provide habitat for indigenous fauna, and can otherwise form part of the ecosystem making up the SNA, and should not be able to be removed as of right. Considers this PA would be better incorporated into ECO-R1.1, given the issue below. Vegetation removal that did not comply with it would then become RDA (under ECO R1.4), or non-complying (under ECO R1.6).	Amend ECO-R2.1 (Removal of non-indigenous vegetation within a significant natural area) to be incorporated within ECO-R1 (Trimming, pruning or removal of vegetation within a significant natural area).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Steve West	FS110.9	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R2	Oppose	<p>The original submitter seeks to include non-indigenous vegetation (other than pest plants) into the proposed trimming standards for SNAs and where an arborist is required this be a Technician Arborist, rather than a Works Arborist or a suitably qualified arborist as defined currently.</p> <p>Steve West does not support these proposals for the following reasons:</p> <ul style="list-style-type: none"> - The trimming standards for native trees in the SNA, already places a very heavy burden on landowners through the requirements for a resource consent and ecologist's report. Adding exotic vegetation and even more stringent requirements for the type of arborist used to those requirements will further magnify this burden. - New Zealand native trees are large (many grow over 15m tall) and are not well suited to private urban land, if left unchecked. The reality is that trimming of both native and exotic trees is an important part of maintaining bush in the urban environment. - Planting of new trees (both indigenous and exotic) in the urban environment will likely diminish over time, both within the SNA areas and elsewhere as other landowners in Wellington become aware of the extent and onerous nature of the rules. 	Disallow
Royal Forest and Bird Protection Society	345.204	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R2	Support in part	Notes the rule appears to refer to ECO-P2 in error. Considers it is also not clear whether the reference to ECO-P4 is therefore also in error – it appears that the appropriate references in the matters of discretion should be ECO-P1 and ECO-P3. If that is the case, we support those references.	<p>Amend ECO-R2.2 (Removal of non-indigenous vegetation within a significant natural area):</p> <p>2. Activity Status: Restricted Discretionary Where: a. Compliance is not achieved with ECO-R2.1</p> <p>Matters of discretion are: The matters in ECO-P2 and ECO-P43.</p> <p>Section 88 information requirements for applications: Applications for activities within an identified significant natural area must provide, in addition to the standard information requirements, an ecological assessment in accordance with APP15</p> <ol style="list-style-type: none"> 1. Identifying the indigenous biodiversity values and potential impacts from the proposal; and 2. Demonstrating that effects management hierarchy at ECO-P2 has been applied.
Royal Forest and Bird Protection Society	345.205	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R2	Support in part	Considers is not clear when this rule would apply. The rules in ECO-R1 already appropriately apply to the removal of all vegetation, including exotic vegetation. This rule states that it applies when compliance with ECO-R2.1 is not achieved. That suggests that the exotic vegetation at issue is not a pest plant. But if that is the case, it is already regulated by ECO R1. As noted above, we suggest that the PA ECO R2.1 is incorporated into ECO R1.1. it would then default to RDA under ECO R1.4 where the vegetation was not a pest plant. This would have he added benefit of engaging the required protections for the coastal environment, which are absent from this rule. ECO R2.2 could then be deleted. If this rule is retained, we seek that it replicates the approach of ECO R1.4, in that it does not apply where policy 11 NZCPS is relevant. We also seek an accompanying non-complying rule, to replicate ECO R1.6. That rule should refer to the coastal environment policy, ECO-P5, in the information requirements	<p>Amend ECO-R2.2 (Removal of non-indigenous vegetation within a significant natural area) to be incorporated within ECO-R1 (Trimming, pruning or removal of vegetation within a significant natural area).</p> <p>Add new parallel non-complying rule to ECO-R1.6.</p>
WCC Environmental Reference Group	377.128	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R2	Amend	Considers that non-indigenous and old-growth vegetation (such as Pinus radiata) can be important habitat for indigenous species (such as Nestor meridionalis). It is important that removal of these large individuals is considered in that context.	<p>Amend ECO-R2.2 (Removal of non-indigenous vegetation within a significant natural area) as follows:</p> <p>Matters of discretion are: The matters in ECO-P1, ECO-P2 and ECO-P4.</p>
Steve West	2.10	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R3	Not specified	Considers that requirements such as needing "eco-sourced local indigenous" plants, will further discourage native planting.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Nga Kaimanaaki o te Waimapihi	215.2	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R3	Amend	Considers that we need to preserve and restore indigenous native fauna. As well as preying on our native birds, cats also eat a large number of our native lizards and wētā (which are still in decline).	Seeks amendment to ECO-R3 (Restoration and maintenance of a significant natural area) to add provisions that restrict pets from roaming in Significant Natural Areas.
Tyers Stream Group	221.45	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R3	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-R3 (Restoration and maintenance of a significant natural area) as notified.
Royal Forest and Bird Protection Society	345.206	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R3	Support in part	Notes this provision (and others) refers to 'identified values'. It is not clear what these are. The descriptions in SCHED 8 are often brief and high level. We seek that a greater level of detail for each SNA is provided in the schedules.	Clarify ECO-R3 (Restoration and maintenance of a significant natural area) to provide further detail on "identified values".
Royal Forest and Bird Protection Society	345.207	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R3	Support in part	Considers the matters of discretion also need to refer to the policy giving effect to policy 11 NZCPS, currently ECO-P5.	Amend ECO-R3 (Restoration and maintenance of a significant natural area): 2. Activity status: Restricted Discretionary Where: a. Compliance with the requirements of ECO-R3.1 cannot be achieved Matters of discretion are: The matters in ECO-P2 and ECO-P4 Section 88 information requirements for applications: Applications for activities within an identified significant natural area must provide, in addition to the standard information requirements, an ecological assessment in accordance with APP15: 1. Identifying the indigenous biodiversity values and potential impacts from the proposal; and 2. Demonstrating that effects management hierarchy at ECO-P2 has been applied; <u>and</u> 3. <u>Demonstrating the effects of the proposal give effect to ECO-P5 in relation the requirements of Policy 11 of the NZ Coastal Policy Statement.</u>
WCC Environmental Reference Group	377.129	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R3	Support	Considers it is important to allow and encourage the restoration and maintenance of SNAs, and this provides a fair rule framework to do so.	Retain ECO-R3 (Restoration and maintenance of a significant natural area) as notified.
Zealandia Te Māra a Tāne	486.2	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R3	Amend	Considers that ECO-R3 should be amended with an additional clause that enables Zealandia operations to continue, as per other areas in the plan. Considers that ECO-R3 may limit activities such as reintroductions of fauna species, and other related activities, as Zealandia Te Māra a Tāne is not subject to the Reserves Act, Conservation Act nor the Queen Elizabeth the Second National Trust Act.	Amend ECO-R3 (Restoration and Maintenance of a Significant Natural Area) by adding a clause that enables the ongoing restoration work within the Zealandia sanctuary where undertaken by the Karori Sanctuary Trust.
Tyers Stream Group	221.46	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R4	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-R4 (New plantation forestry within a significant natural area) as notified.
Royal Forest and Bird Protection Society	345.208	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R4	Support	Supports the rule.	Retain ECO-R4 (New plantation forestry within a significant natural area) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.130	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-R4	Support	Considers that protection and restoration must come first in SNAs, but recognises there will be essential needs for the removal of vegetation. The submitter considers these standards are clear and comprehensive and strike a good balance between the two interests.	Retain ECO-R4 (Significant Natural Areas are maintained or restored by mana whenua in accordance with kaitiakitanga) as notified.
Tyers Stream Group	221.47	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-S1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-S1 (Trimming, pruning or removal where there is the imminent threat to the safety of people or property) as notified.
Royal Forest and Bird Protection Society	345.209	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-S1	Support in part	Supports this standard, with the following amendment - Notes that both 'Technician Arborist' and 'Works Arborist' are defined in the Interpretation section of this Plan. Paragraph 3 of this standard should use the defined term 'Technician Arborist', as the definition requires the skills appropriate for risk assessment relevant to this activity. It is also clearer to refer to a defined term	Amend ECO-S1 (Trimming, pruning or removal where there is the imminent threat to the safety of people or property): ... 3. Any removal is undertaken or supervised by a suitably qualified arboricultural expert <u>Technician Arborist</u> .
Steve West	FS110.10	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-S1	Oppose	The original submitter seeks to include non-indigenous vegetation (other than pest plants) into the proposed trimming standards for SNAs and where an arborist is required this be a Technician Arborist, rather than a Works Arborist or a suitably qualified arborist as defined currently. Steve West does not support these proposals for the following reasons: - The trimming standards for native trees in the SNA, already places a very heavy burden on landowners through the requirements for a resource consent and ecologist's report. Adding exotic vegetation and even more stringent requirements for the type of arborist used to those requirements will further magnify this burden. - New Zealand native trees are large (many grow over 15m tall) and are not well suited to private urban land, if left unchecked. The reality is that trimming of both native and exotic trees is an important part of maintaining bush in the urban environment. - Planting of new trees (both indigenous and exotic) in the urban environment will likely diminish over time, both within the SNA areas and elsewhere as other landowners in Wellington become aware of the extent and onerous nature of the rules.	Disallow
Greater Wellington Regional Council	351.154	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-S1	Amend	Vegetation trimming standards and rules should be amended so that they also apply to both indigenous and non-indigenous vegetation. This would make it clear that all vegetation (aside from pest plants) is to be protected in these areas, except where otherwise specified for restoration or other purposes. Any non-indigenous plants within SNAs that are not pest plants may provide significant habitat for indigenous biodiversity such as birds, bats and lizards. This understanding is recognised in section 6(c) of the Act which directs the protection of the "significant habitats of indigenous fauna" not the significant indigenous habitats of indigenous fauna.	Seeks to amend standard (where relevant) to change 'indigenous vegetation' to 'vegetation'.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Steve West	FS110.14	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-S1	Oppose	<p>The submitter seeks to include non-indigenous vegetation into the proposed trimming standards for SNAs, in addition to indigenous vegetation. The submitter has also recommended additional controls be applied in areas adjacent to SNAs, such as buffer zones and ecological corridors.</p> <p>Do not support these proposals for the following reasons:</p> <ul style="list-style-type: none"> - The trimming standards, while intended to protect native trees, places a very heavy burden on landowners through the requirements for a resource consent and ecologist's report. Adding exotic vegetation to those requirements would add to this burden. - New Zealand native trees are large (many grow over 15m tall) and are not well suited to private urban land, if left unchecked. The reality is that trimming is an important part of maintaining bush in the urban environment. - The likelihood of urban native bush being cleared by landowners prior to the district plan coming into effect will be magnified by including exotics. Whether urban bush remains or is removed will likely come down to whether the landowner loves their bush more than they hate SNAs, or if they hate SNAs more than they love their bush. - Planting of new trees (both indigenous and exotic) in the urban environment will likely diminish over time, both within the SNA areas and elsewhere as other landowners in Wellington become aware of the extent and onerous nature of the rules. - Rather than becoming a world-renowned "nature city", Wellington could well become known as "the exotic city", where indigenous biodiversity gains were squandered through implementation of the poorly developed SNA policy. <p>[Refer to further submission for full reason]</p>	Disallow
WCC Environmental Reference Group	377.131	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-S1	Support	Considers that protection and restoration must come first in SNAs, but recognises there will be essential needs for the removal of vegetation. The submitter considers these standards are clear and comprehensive and strike a good balance between the two interests.	Retain ECO-S1 (Trimming, pruning or removal where there is the imminent threat to the safety of people or property) as notified.
Tyers Stream Group	221.48	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-S2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain ECO-S2 (Vegetation removal associated with maintenance or repair of public walking and cycling tracks including parks maintenance and repair) as notified.
Royal Forest and Bird Protection Society	345.210	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-S2	Support in part	Considers the standard could be more clear as to how much clearance is allowed.	<p>Amend ECO-S2 (Vegetation removal associated with maintenance or repair of public walking and cycling tracks including parks maintenance and repair):</p> <p>Vegetation removal <u>or trimming</u> must:</p> <p>1. Not be greater than 2.5m in width <u>in total</u>, to accommodate the track</p>
Greater Wellington Regional Council	351.155	Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-S2	Amend	<p>Vegetation trimming standards and rules should be amended so that they also apply to both indigenous and non-indigenous vegetation. This would make it clear that all vegetation (aside from pest plants) is to be protected in these areas, except where otherwise specified for restoration or other purposes.</p> <p>Any non-indigenous plants within SNAs that are not pest plants may provide significant habitat for indigenous biodiversity such as birds, bats and lizards. This understanding is recognised in section 6(c) of the Act which directs the protection of the "significant habitats of indigenous fauna" not the significant indigenous habitats of indigenous fauna.</p>	Seeks to amend standard (where relevant) to change 'indigenous vegetation' to 'vegetation'.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Steve West	FS110.15	Part 2 / Natural and Environmental Values / Ecosystems and Indigenous Biodiversity / ECO-S2	Oppose	<p>The submitter seeks to include non-indigenous vegetation into the proposed trimming standards for SNAs, in addition to indigenous vegetation. The submitter has also recommended additional controls be applied in areas adjacent to SNAs, such as buffer zones and ecological corridors.</p> <p>Do not support these proposals for the following reasons:</p> <ul style="list-style-type: none"> - The trimming standards, while intended to protect native trees, places a very heavy burden on landowners through the requirements for a resource consent and ecologist's report. Adding exotic vegetation to those requirements would add to this burden. - New Zealand native trees are large (many grow over 15m tall) and are not well suited to private urban land, if left unchecked. The reality is that trimming is an important part of maintaining bush in the urban environment. - The likelihood of urban native bush being cleared by landowners prior to the district plan coming into effect will be magnified by including exotics. Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.16	Natural and Environmental Values / Natural Character / General NATC	Amend	<p>Considers that protection of the biodiversity and ecology is important.</p> <p>These SNA's risk encroachment upon and destruction if not specifically protected given the planned development of the site, shows an urban road being built across an area marked SNA.</p>	<p>Seeks absolute protection of the Significant Natural Areas present at 395 Middleton Road.</p>
Tawa Community Board	294.12	Natural and Environmental Values / Natural Character / General NATC	Amend	<p>Considers that the PDP relies on GWRC requirements which WCC officers have been unclear on, which appear to have been reduced since the above report was written, and which do not adequately take into account the impact of historical development on current and probable future stream bank erosion.</p>	<p>Seeks that the Proposed District Plan provides adequate setback distances from stream edge for new structures.</p> <p>[inferred decision requested]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.213	Natural and Environmental Values / Natural Character / General NATC	Oppose	Considers the Introduction is uncertain and mainly says what this chapter doesn't manage. Considers the scope of this chapter is very unclear, particularly in regard to the coastal environment. It says areas of natural character within the coastal environment are identified and managed in the Coastal Environment Chapter but needs to be explicit about whether the coastal environment is therefore excluded from this chapter. Amend to say this chapter applies outside the coastal environment and recognise that activities landward of the coastal environment may have downstream effects which are recognised in the activity focussed chapters having regard to the policy direction in this chapter and the Coastal Environment Chapter. Furthermore, the introduction mentions NES-F and NRP regulations manage vegetation removal, earthworks, natural hazards works, infrastructure and public access structures within 10 metres of natural wetlands as well as earthworks within 5 metres of surface water bodies but doesn't mention where in the Plan these are managed. As this chapter applies outside the coastal environment, we suggest NES-F and NRP regulations should be given effect to through the NATC policies to ensure integration of the policy direction across the Plan. Seek amendment accordingly.	Amend NATC - Introduction: Clarify scope of chapter and amend give effect to NES-F and NRP though the NATC policies.
Meridian Energy Limited	FS101.138	Part 2 / Natural and Environmental Values / Natural Character / General NATC	Not specified	Considers that the original submission does not specify the relief requested. Any amendments need to give effect to the relevant higher order policy instruments.	Disallow / In the absence of specific wording, disallow the submission point.
Taranaki Whānui ki te Upoko o te Ika	389.76	Natural and Environmental Values / Natural Character / General NATC	Support in part	Supports the general direction of chapter, with amendments.	Retain Natural Character chapter with amendments.
Taranaki Whānui ki te Upoko o te Ika	389.77	Natural and Environmental Values / Natural Character / General NATC	Oppose	Opposes the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford. Submitter supports the protection of areas of significant indigenous vegetation as well as landscapes that have cultural, historical, spiritual and traditional significance to Taranaki Whānui, the identification and protection of environmental overlays in previously developed areas is of concern to Taranaki Whānui. Concerns there is potential for these overlays to significantly restrict future development and opportunities for Taranaki Whānui to exercise tino rangatiratanga over their ancestral lands.	Seeks that any other relief to enable Taranaki Whānui to exercise tino rangatiratanga over their properties in Te Motu Kairangi.
Buy Back the Bay	FS79.10	Part 2 / Natural and Environmental Values / Natural Character / General NATC	Oppose	Submission 389 states as a Submission Point, that "Taranaki Whānui opp oses the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford." It lists the relevant PDP Chapter as: <ul style="list-style-type: none"> • Planning maps • He Rohe Ahoaho Māori Natural Open Space Zone chapter • Ngā Wāhi Tapu ki te Māori Sites a nd Areas of Significance to Māori chapter • Ngā Pūnaha Rauropi me te Kanorau Koiora Taketake Ecosystems and Indigenous Biodiversity chapter • Te Ahurei o Ngā Hanga Māori Natural Character chapter • Ngā Hanga Māori me Ngā Nohopae Natural Features and L andscapes chapter • Wawaetanga Subdivision chapter • Taiao Takutai Coastal Environment chapter Opposes in total Submission 389 on these points, which appears to be a wholesale rejection of planning rules in these areas.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Buy Back the Bay	FS79.27	Part 2 / Natural and Environmental Values / Natural Character / General NATC	Oppose	<p>Submission 389 states: "Taranaki Whānui's RFR [Right of First Refusal] opportunities in Te Motu Kairangi: Taranaki Whānui have a significant interest in Te Motu Kairangi which includes Mount Crawford and Watts Peninsula, these landholdings hold significant interest - culturally, socially, environmentally and commercially to Taranaki Whānui. These opportunities include the Mount Crawford Prison site as well as the 'Watts Peninsula' sites being 75.85 hectares of former Defence Land."</p> <p>Buy Back the Bays notes that the Submission does not include maps however they (Buy Back the Bays) are very concerned to see that Taranaki Whānui appears to be seeking possible commercial development of 75.85 hectares of former defence land on Watts Peninsula. This appears to be the heart of the long-promised Watts Peninsula park and a major part of the proposed national heritage park.</p> <p>Buy Back the Bays strongly oppose rezoning on Watts Peninsula to facilitate any development there that is incompatible with the park plans. More generally, Buy Back the Bays oppose Submission 389's attempt to remove the proposed public interest controls from Watts Peninsula and Mount Crawford. Considers that where Submission 389 states "Illustrated on Figure One below, the following zone and overlays are proposed for Taranaki Whānui's RFR properties in Te Motu Kairangi," Buy Back the Bays oppose the changes it seeks. This includes opposing Submission 389's request for "The proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST [to be] amended from Natural Open Space Zone to: a. Medium Density Residential; and b. Special Purpose Zone – Māori Purpose Zone."</p>	Disallow
Buy Back the Bay	FS79.46	Part 2 / Natural and Environmental Values / Natural Character / General NATC	Oppose	<p>Refers to submission 389 states: Taranaki Whānui opposes the extent of the proposed zoning of Shelly Bay Taikuru and the proposed height control limits." Buy Back the Bays opposes the submission on both points.</p> <p>Specifically, the Submission 389 for Taranaki Whānui seeks that:</p> <p>"1. The Mixed Use Zone is extended across the allotments illustrated in Figure Two below or amended to follow the extent of consented development area outlined in the approved masterplan and engineering drawings.</p> <p>2. The Height Control Area is amended to 27m being the maximum height of development consented under the Shelly Bay Masterplan resource consent."</p> <p>Buy Back the Bays opposes both parts. Buy Back the Bays note that neither part affects Taranaki Whānui's commercial or other interests. Considers that both parts only affect the tall apartment buildings planned by and for the exclusive commercial benefit of The Wellington Company, not the leasing of lower existing buildings that The Wellington Company has offered to Taranaki Whānui as its stake in the project.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Lance Lones	FS81.12	Part 2 / Natural and Environmental Values / Natural Character / General NATC	Oppose	<p>Te Motu Kairangi is very nearly an island, and as a result of the amazing work of Predator Free Wellington, is in fact, nearly predator free, and uniquely able to support significant biodiversity. Combined with the Ridgelines and Hilltops Overlay, and the Significant Natural Areas overlay of this space, all citizens of both Wellington, and Aotearoa in general have an incredibly singular opportunity to support the development of native flora and fauna in one nearly contiguous environment, a situation which is unique within Wellington. Attests to the incredible return of many native species of birds to this area, from kererū, to flocks of piwakawaka and tūi, kārearea hunting on the hillsides and heard ruru calling in the evenings and mornings.</p> <p>To remove the Open Space zoning, Significant Natural Areas and Special Amenity Landscape overlays for a significant portion of this habitat would put these species at risk once again.</p> <p>Presents a unique opportunity to implement the Ministry for the Environment's Proposed National Policy Statement for Indigenous Biodiversity. This policy progressively refers to the concept of Te Rito o te Harakeke.</p> <p>The local community has expressed the desire to work with and develop a master plan for the Watts Peninsula, but this voice has been repeatedly denied by council. Removing the protections put in place by the proposed district plan would once again disempower the greater community with no discussion.</p> <p>[Refer to further submission for full reason]</p>	Disallow / Seeks that the current zoning and overlays as presented in the Proposed District Plan for the northern sections of Te Motu Kairangi / Miramar Peninsula be retained. In particular, that the Open Space zoning, Special Amenity Landscape, Natural Areas, and Ridgelines and Hilltops overlays are retained.
Greater Wellington Regional Council	351.158	Natural and Environmental Values / Natural Character / New NATC	Amend	Considers that WCC needs to identify natural character ratings, at both site and area scales, in riparian margins landward of the coastal environment, as required by section 6(a) of the RMA. This work has not yet been undertaken and is necessary to managing adverse effects on natural character in riparian margins.	Include a new process policy as follows: <u>Identification of natural character ratings in riparian margins landward of the coastal environment</u>
Greater Wellington Regional Council	351.159	Natural and Environmental Values / Natural Character / New NATC	Amend	Considers it appropriate to insert a policy in the PDP to direct this work to commence. This policy should also direct Council officers to work with resource consent applicants to determine whether a natural character assessment is required in the meantime. This will indicate to Plan users that this mapping work has not yet been undertaken, and ensure that the natural character in riparian margins is appropriately preserved and protected in the interim.	Include a new process policy as follows: <u>Until natural character ratings in riparian margins landward of the coastal environment are mapped in this Plan, an assessment may be required as to whether an activity is within an area of high or outstanding natural character. Wellington City Council officers will assist resource consent applicants in determining whether an assessment is required. The need for such an assessment will depend on the level or scale of potential effects and the sensitivity of the receiving environment. Any assessment shall be commensurate with the scale and significance of the effects that the use or development may have on the environment.</u>
Greater Wellington Regional Council	351.160	Natural and Environmental Values / Natural Character / New NATC	Amend	Considers it appropriate to identify natural character ratings of riparian margins is consistent with the approach taken by Greater Wellington in Method M24(a) of the Natural Resources Plan, to identify natural character ratings in the beds of lakes and rivers, and wetlands landward of the coastal environment.	Include a new process policy as follows: <u>Identify in the Plan natural character ratings in riparian margins landward of the coastal environment.</u>
Tyers Stream Group	221.51	Natural and Environmental Values / Natural Character / NATC-01	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain NATC-01 (Natural character) as notified.
Royal Forest and Bird Protection Society	345.214	Natural and Environmental Values / Natural Character / NATC-01	Support in part	Considers natural character within riparian margins should also be focussed on maintaining or enhancing the ecological functions of riparian margins to give effect to policy 43 of the RPS but also to contribute to flood management and improve water quality to give effect to the NPS-FM and provide for Te Mana o Te Wai. Considers riparian margins should be protected from stock via fencing to protect their natural character in the rural zone and to allow for protection and enhancement.	Amend NATC-01 (Natural character): The natural characteristics and qualities that contribute to the natural character within riparian margins are preserved and protected from inappropriate subdivision, use and development, and <u>the ecological functions of riparian margins</u> maintained or enhanced where appropriate
Greater Wellington Regional Council	351.161	Natural and Environmental Values / Natural Character / NATC-01	Support in part	Supports the inclusion of an objective to manage the potential effects of activities on natural character in riparian margins.	Retain provision, subject to amendments, as outlined other submission points.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.162	Natural and Environmental Values / Natural Character / NATC-O1	Amend	<p>Considers it is unclear as to whether the scope of the objective relates to riparian margins both inside and outside of the coastal environment. Greater Wellington requests that amendments are made as necessary to provide clarity to plan users on which objectives apply to riparian margins in the coastal environment (CE-O1 or NATCO1). These objectives set out the outcomes sought which the remaining provides then contribute to achieving, so it should be clear where they apply.</p> <p>Also notes that the outcomes of NATC-O1 cannot be achieved by plan provisions, given natural character values in riparian margins landward of the coastal environment have not been identified by WCC (or mapped or scheduled in the PDP), nor is there any indication that natural character assessments will be required as part of resource consent and restoration processes, to give effect to the outcomes in which NATC-O1 seeks to achieve. Please refer to reasons and decision sought on a new process policy for riparian margin natural character mapping to commence.</p>	Seeks to Amend NATC-O1 (Natural character) as is necessary to clarify which objective applies to riparian margins in the coastal environment, or any other amendments to the same effect.
Greater Wellington Regional Council	351.163	Natural and Environmental Values / Natural Character / NATC-O1	Amend	Considers that consistent terminology should be used across the PDP when referring to restoring and rehabilitating natural character, both within and landward of the coastal environment	Amend NATC-O1 (Natural character) to reflect the terminology recommended elsewhere in this submission, as follows: The natural characteristics and qualities that contribute to the natural character within riparian margins are preserved and protected from inappropriate subdivision, use and development, and <u>restored or rehabilitated</u> maintained or enhanced where appropriate.
WCC Environmental Reference Group	377.135	Natural and Environmental Values / Natural Character / NATC-O1	Support	Considers Wellington's natural waterways are a valuable, and seriously compromised part of the city, and need considerable work to be restored both in terms of quality and amenity. The focus on maintaining and enhancing is particularly important in this objective.	Retain NATC-O1 (Natural Character) as notified.
Tyers Stream Group	221.52	Natural and Environmental Values / Natural Character / NATC-O2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain NATC-O2 (Customary Harvesting) as notified.
Royal Forest and Bird Protection Society	345.215	Natural and Environmental Values / Natural Character / NATC-O2	Support	Supports the objective.	Retain NATC-O2 (Customary Harvesting) as notified.
WCC Environmental Reference Group	377.136	Natural and Environmental Values / Natural Character / NATC-O2	Support	Considers this objective helps redress the imbalance that has existed, compromising the ability of tangata whenua to exercise customary harvesting.	Retain NATC-O2 (Customary Harvesting) as notified.
Taranaki Whānui ki te Upoko o te Ika	389.78	Natural and Environmental Values / Natural Character / NATC-O2	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Not specified [please refer to original submission].

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Tyers Stream Group	221.53	Natural and Environmental Values / Natural Character / NATC-P1	Amend	Considers that these matters should be provided for, rather than their non-provision be avoided. In other words, matters such as good riparian management and public access to and along water bodies should be an active duty in development, not something to avoid adverse effects to. This is not achieving, for example section 6(d) of the RMA or the Council's own objective PA – 01.	Amend NATC-P1 (Appropriate use and development) as follows: Provide for <u>Protect natural character, avoid natural hazards and provide for biodiversity and public access to and along water bodies by only allowing</u> use and development within riparian margins <u>which are</u> : 1. It protects the natural character and integrates with the landform <u>AND</u> ; 2. It provides for planned natural hazard mitigation works where undertaken by Wellington City Council, Greater Wellington Regional Council or their nominated agents <u>AND</u> ; 3. It has a functional or operational need to be located within the riparian margin; and 4. It does not limit or prevent <u>Improves practical</u> public access to, along or adjacent to waterbodies.
Royal Forest and Bird Protection Society	345.216	Natural and Environmental Values / Natural Character / NATC-P1	Oppose in part	Considers activities within riparian margins should be provisional on meeting these policy requirements, to ensure their natural character values and ecological functions are maintained	Amend NATC-P1 (Appropriate use and development): <u>Only provide</u> for use and development within riparian margins where: 1. It protects the natural character and integrates with the landform; 2. It provides for planned natural hazard mitigation works where undertaken by Wellington City Council, Greater Wellington Regional Council or their nominated agents; 3. It has a functional or operational need to be located within the riparian margin; and 4. It does not limit or prevent public access to, along or adjacent to waterbodies; <u>and</u> 5. It maintains or enhances the ecological functions of the riparian margin.
WCC Environmental Reference Group	377.137	Natural and Environmental Values / Natural Character / NATC-P1	Support	Considers Wellington's natural waterways are a valuable, and seriously compromised part of the city, and need considerable work to be restored both in terms of quality and amenity. The focus on maintaining and enhancing is particularly important in this objective.	Retain NATC-P1 (appropriate use and development) as notified.
Tyers Stream Group	221.54	Natural and Environmental Values / Natural Character / NATC-P2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain NATC-P2 (Restoration and enhancement) as notified.
Royal Forest and Bird Protection Society	345.217	Natural and Environmental Values / Natural Character / NATC-P2	Support in part	Supports the intent of this policy and suggest amending 1. to be consistent with the definition in the plan, subject to our submission point on the definition,	Amend NATC-P2 (Restoration and enhancement): Provide for restoration and enhancement of natural character within riparian margins where appropriate including: 1. The replanting of riparian margins with indigenous <u>vegetation species</u> ; 2. The removal of pest plant and animal species; and 3. The removal of redundant buildings or structures in riparian margins.
WCC Environmental Reference Group	377.138	Natural and Environmental Values / Natural Character / NATC-P2	Support	Considers Wellington's natural waterways are a valuable, and seriously compromised part of the city, and need considerable work to be restored both in terms of quality and amenity. The focus on maintaining and enhancing is particularly important in this objective.	Retain NATC-P2 (Restoration and enhancement) as notified.
Tyers Stream Group	221.55	Natural and Environmental Values / Natural Character / NATC-P3	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain NATC-P3 (Customary harvesting) as notified.
Royal Forest and Bird Protection Society	345.218	Natural and Environmental Values / Natural Character / NATC-P3	Support	Supports the policy.	Retain NATC-P3 (Customary Harvesting) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.139	Natural and Environmental Values / Natural Character / NATC-P3	Support	NATC-P3 is supported as it helps redress the imbalance that has existed, compromising the ability of tangata whenua to exercise customary harvesting.	Retain NATC-P3 (Customary harvesting) as notified.
Taranaki Whānui ki te Upoko o te Ika	389.79	Natural and Environmental Values / Natural Character / NATC-P3	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Not specified [please refer to original submission].
Tyers Stream Group	221.56	Natural and Environmental Values / Natural Character / NATC-R1	Amend	Considers that this rule needs to be amended to meet the submitted requirements of NATC-P1.	Seeks Amendment to NATC-R1 (Activities within riparian margins) to meet the submitted requirements of NATC-P1.
Royal Forest and Bird Protection Society	345.219	Natural and Environmental Values / Natural Character / NATC-R1	Support	Supports the rule.	Retain NATC-R1 (Activities within riparian margins) as notified.
WCC Environmental Reference Group	377.140	Natural and Environmental Values / Natural Character / NATC-R1	Support	NATC-R1 is supported as it gives effect to the objectives and policies and is therefore supported.	Retain NATC-R1 (Activities within riparian margins) as notified.
Tyers Stream Group	221.57	Natural and Environmental Values / Natural Character / NATC-R2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain NATC-R2 (Restoration and enhancement activities within riparian margins) as notified.
Royal Forest and Bird Protection Society	345.220	Natural and Environmental Values / Natural Character / NATC-R2	Support	Supports the rule.	Retain NATC-R2 (Restoration and enhancement activities within riparian margins) as notified.
Greater Wellington Regional Council	351.164	Natural and Environmental Values / Natural Character / NATC-R2	Oppose in part	Considers it is likely that not all restoration activities will restore natural character ratings.	Retain provision, subject to amendments, as outlined other submission points.
Greater Wellington Regional Council	351.165	Natural and Environmental Values / Natural Character / NATC-R2	Amend	Considers that the construction of a structure (provided it is blocked off from human interference) in the coastal environment may provide roosting area for birds and thus improve the biotic values, but it may also have an impact on the abiotic and experiential values, thus may not restore the overall natural character rating of the wider character area.	Seeks to include permitted activity conditions to clarify which restoration activities are permitted.
WCC Environmental Reference Group	377.141	Natural and Environmental Values / Natural Character / NATC-R2	Support	NATC-R2 is supported as it encourages efforts to restore and enhance waterways, and is strongly supported.	Retain NATC-R2 (Restoration and enhancement activities within riparian margins) as notified.
Tyers Stream Group	221.58	Natural and Environmental Values / Natural Character / NATC-R3	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain NATC-R3 (Customary harvesting within riparian margins) as notified.
Royal Forest and Bird Protection Society	345.221	Natural and Environmental Values / Natural Character / NATC-R3	Support	Supports the rule.	Retain NATC-R3 (Customary harvesting within riparian margins) as notified.
WCC Environmental Reference Group	377.142	Natural and Environmental Values / Natural Character / NATC-R3	Support	NATC-R3 is supported as it helps redress the imbalance that has existed, compromising the ability of tangata whenua to exercise customary harvesting.	Retain NATC-R3 (Customary harvesting within riparian margins) as notified.

Natural Environment Values - Natural Features and Landscapes

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Tyers Stream Group	221.59	Natural and Environmental Values / Natural Character / NATC-R4	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain NATC-R4 (Construction, addition or alteration of buildings or structures for natural hazard mitigation purposes where carried out within riparian margins by a Regional or Territorial Authority, or an agent on their behalf) as notified.
Royal Forest and Bird Protection Society	345.222	Natural and Environmental Values / Natural Character / NATC-R4	Support in part	Seeks a qualifier as per NATC-R1 to ensure effects are appropriately addressed.	Amend NATC-R4 (Construction, addition or alteration of buildings or structures for natural hazard mitigation purposes where carried out within riparian margins by a Regional or Territorial Authority, or an agent on their behalf): 1. Activity status: Permitted <u>Where:</u> <u>a. Compliance is achieved with the rules and standards for activities in the underlying zone</u>
WCC Environmental Reference Group	377.143	Natural and Environmental Values / Natural Character / NATC-R4	Support	NATC-R4 is supported as it is necessary for practical purposes in helping safeguard life and property.	Retain NATC-R4 (Construction, addition or alteration of buildings or structures for natural hazard mitigation purposes...) as notified.
Zealandia Te Māra a Tāne	486.3	Natural and Environmental Values / Natural Character / NATC-R4	Amend	Considers that NATC-R4 should be amended with an additional clause that enables Zealandia operations to continue as per other areas in the plan. Considers that NATC-R4 may prevent maintenance and management work of bridges and associated infrastructure within Zealandia.	Amend NATC-R4 (Construction, addition or alteration of buildings or structures for natural hazard mitigation purposes where carried out within riparian margins by a Regional or Territorial Authority, or an agent on their behalf) to list the Karori Sanctuary Trust as an approved operator.
Tyers Stream Group	221.60	Natural and Environmental Values / Natural Character / NATC-R5	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain NATC-R5 (Construction, addition or alteration of buildings and structures within riparian margins) as notified.
Royal Forest and Bird Protection Society	345.223	Natural and Environmental Values / Natural Character / NATC-R5	Oppose	Considers construction of new buildings should be non-complying within riparian margins.	Amend NATC-R5 (Construction, addition or alteration of buildings and structures within riparian margins): 1. Activity status: Restricted Discretionary <u>Non-complying</u>
Royal Forest and Bird Protection Society	345.224	Natural and Environmental Values / Natural Character / NATC-R5	Oppose	If relief for a non-complying activity status is not accepted, considers the matters of discretion should be widened to include policies from ECO chapter.	Amend NATC-R5 (Construction, addition or alteration of buildings and structures within riparian margins): 1. Activity status: Restricted Discretionary Matters of discretion are: 1. The matters in NATC-P1, PA-P1, PA-P2 and PA-P3 <u>[add appropriate ECO policy references]</u> ; and 2. Any measures proposed to avoid, remedy or mitigate the adverse effects. This rule does not apply to agricultural fences used to separate livestock from rivers and streams.
WCC Environmental Reference Group	377.144	Natural and Environmental Values / Natural Character / NATC-R5	Support	NATC-R5 is supported as it gives effect to the objectives and policies and is supported.	Retain NATC-R5 (Construction, addition or alteration of buildings and structures within riparian margins) as notified.
Victoria University of Wellington Students' Association	123.42	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Support	Supports greatly increasing the protection given to Outstanding Natural Features. These are important features that frequently house ecological biodiversity, act as carbon sinks, and add to the vibrant character of Wellington City.	Seeks that the activities that can occur within natural landscapes are limited by requiring extra resource consents for additional buildings or earthworks.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	FS101.139	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	Considers that the reason for requiring 'extra resource consents for additional buildings or earthworks' within 'natural landscapes' is not provided.	Disallow
Victoria University of Wellington Students' Association	123.43	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Support	Supports greatly increasing the protection given to Special Amenity Landscapes. These are important features that frequently house ecological biodiversity, act as carbon sinks, and add to the vibrant character of Wellington City.	Seeks that the activities that can occur within natural landscapes are limited by requiring extra resource consents for additional buildings or earthworks.
Matthew Wells, Adelina Reis and Sarah Rennie	FS50.10	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Support	Supports this specific aspect of VUWSA's submission. The submitter's contention is that logically 22 Alexandra Road forms a highly visual part of the Mount Victoria ridgeline directly above the Central City and suburbs of Mount Victoria, Oriental Bay and Roseneath. The Town Belt is a Special Amenity Landscape. Logically and visually Lookout Road including 22 Alexandra Road is without question one of the significant landscapes of our city, and is covered by the broad sweep of VUWSA's request. Supporting VUWSA's request for greatly increasing protection to our most significant landscapes the Mount Victoria Ridgeline should retain the same protections from development as it has had for decades. Number 22 Alexandra Road should retain the Open Space zoning and Ridgeline and Hilltops protection status as it has in the Operative District Plan. [Inferred reference to submission point 123.43]	Allow
Meridian Energy Limited	FS101.140	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	Considers that the reason for requiring 'extra resource consents for additional buildings or earthworks' within 'natural landscapes' is not provided.	Disallow
John Tiley	142.6	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Not specified	Considers that a lay person could reasonably expect that ONFL and SAL areas are exempt from any activities except for the minimum required to maintain and protect the area.	Not specified.
Wellington Civic Trust	FS83.75	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Support	The submissions identify the need for greater clarity and better protection in the Plan for the city's identified ridgelines and hilltops. Wellington Civic Trust supports these points	Allow
John Tiley	142.7	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Amend	Notes that the 18 ridgelines and hilltops set out in the introduction to the chapter are listed without comment or explanation of selection criteria.	Seeks that comments or explanation of selection criteria are included for the 18 ridgelines and hilltops. [Inferred decision requested].
Wellington Civic Trust	FS83.76	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Support	The submissions identify the need for greater clarity and better protection in the Plan for the city's identified ridgelines and hilltops. Wellington Civic Trust supports these points	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Andy Foster	FS86.28	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 142.7].	Allow
John Tiley	142.8	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Amend	Considers that given its importance in other council policies and plans, Marshalls Ridge should be included as an identified ridgeline. Notes that Marshalls Ridge is mentioned several times in the NRMP with various references to its importance as an open space. Council documents show Marshalls Ridge valued as a critical reserve, contributing to landscape coherence and amenity. The NRMP 2008 provides (8.3.2.1) a clear policy statement for protecting the open space character of Marshalls Ridge and the steeper ridges and spurs falling to Stebbings Valley and Middleton Road. The PDP dismisses Marshalls Ridge as of no account, not listing it with other city ridgelines, and designating it as a Future Urban Zone. [Refer to original submission for full reasons, including attachments].	Amend the list of identified ridgelines and hilltops to include Marshalls Ridge.
Roseneath Residents' Association	FS49.3	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Support	Supports Mr Tiley's submission about the importance of these listed ridgelines to Wellington's landscape, environment, and liveability. Mount Victoria ridgeline is one of the identified ridgelines in the Proposed District Plan, as it is also in the Operative District Plan. The submitter seeks that number 22 Alexandra Road must remain within the identified Mount Victoria Ridgeline as it is in the Operative Plan, rather than be removed from it as is proposed under the Proposed District Plan. The submitter also considers that the intention to remain relatively undeveloped as a crucially important ridgeline should be achieved by retaining the Operative District Plan Open Space zoning rather than rezoning to Residential as is proposed in the Proposed District Plan. [Inferred reference to submission point 142.8]	Allow / Seeks that that number 22 Alexandra Road retains the Open Space zoning and Ridgeline and Hilltops protection status as it is in the Operative District Plan.
Matthew Wells, Adelina Reis and Sarah Rennie	FS50.3	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Support	Supports Mr Tiley's submission about the importance of these listed ridgelines to Wellington's landscape, environment, and liveability. Mount Victoria ridgeline is one of the identified ridgelines in the Proposed District Plan, as it is also in the Operative District Plan. The submitter seeks that number 22 Alexandra Road must remain within the identified Mount Victoria Ridgeline as it is in the Operative Plan, rather than be removed from it as is proposed under the Proposed District Plan. The submitter also considers that the intention to remain relatively undeveloped as a crucially important ridgeline should be achieved by retaining the Operative District Plan Open Space zoning rather than rezoning to Residential as is proposed in the Proposed District Plan. [Inferred reference to submission point 142.8] [Refer to further submission for full reason]	Allow / Seeks that number 22 Alexandra Road retains the Open Space zoning and Ridgeline and Hilltops protection status as it is in the Operative District Plan.
Wellington Civic Trust	FS83.77	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Support	The submissions identify the need for greater clarity and better protection in the Plan for the city's identified ridgelines and hilltops. Wellington Civic Trust supports these points	Allow
Andy Foster	FS86.29	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 142.8].	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Thomas Brent Layton	164.5	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	Opposes the application of the Ridgelines and Hilltops overlay to 183, 241, 249 and 287 South Karori Road on the basis that this is inconsistent with the policy intention to preserve the visible ridgelines and hilltops being natural. The ridgelines on these properties are not visible or prominent and there are no hilltops.	Seeks the removal of the Ridgelines and Hilltops overlay from 183, 241, 249 and 287 South Karori Road.
Thomas Brent Layton	164.6	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Amend	Considers that the Ridgelines and Hilltops overlay should be removed from the sites at 183, 241, 249 and 287 South Karori Road.	Seeks the removal of the Ridgelines and Hilltops overlay from 183, 241, 249 and 287 South Karori Road.
Churton Park Community Association	189.6	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Not specified	Considers that a lay person could reasonably expect that ONFL and SAL areas are exempt from any activities except for the minimum required to maintain and protect the area.	Not specified.
Churton Park Community Association	189.7	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Amend	Notes that the 18 ridgelines and hilltops set out in the introduction to the chapter are listed without comment or explanation of selection criteria.	Seeks that comments or explanation of selection criteria are included for the 18 ridgelines and hilltops. [Inferred decision requested].
Roseneath Residents' Association	FS49.5	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Support	Supports submission 189 in seeking to change the Proposed District Plan to more fully protect and enhance the City's natural landscapes including Outstanding Natural Landscapes, Special Amenity Landscapes and Ridgelines and Hilltops, and request that all the CPCA proposals are adopted. It is the view of the submitter that the only new activities to be allowed in these areas should be those essential pieces of infrastructure that cannot be located anywhere else. Housing development should not be allowed. [Inferred reference to submission point 189.7]	Allow
Matthew Wells, Adelina Reis and Sarah Rennie	FS50.6	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Support	Supports submission 189 in seeking to change the Proposed District Plan to more fully protect and enhance the City's natural landscapes including Outstanding Natural Landscapes, Special Amenity Landscapes and Ridgelines and Hilltops, and request that all the CPCA proposals are adopted. It is the submitters view that the only new activities to be allowed in these areas should be those essential pieces of infrastructure that cannot be located anywhere else. Housing development should not be allowed. [Inferred reference to submission point 189.10]	Allow
Andy Foster	FS86.39	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 189.7].	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Churton Park Community Association	189.8	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Amend	<p>Considers that given its importance in other council policies and plans, Marshalls Ridge should be included as an identified ridgeline.</p> <p>Notes that Marshalls Ridge is mentioned several times in the NRMP with various references to its importance as an open space.</p> <p>Council documents show Marshalls Ridge valued as a critical reserve, contributing to landscape coherence and amenity. The NRMP 2008 provides (8.3.2.1) a clear policy statement for protecting the open space character of Marshalls Ridge and the steeper ridges and spurs falling to Stebbings Valley and Middleton Road. The PDP dismisses Marshalls Ridge as of no account, not listing it with other city ridgelines, and designating it as a Future Urban Zone.</p> <p>[Refer to original submission for full reasons, including attachments].</p>	Amend the list of identified ridgelines and hilltops to include Marshalls Ridge.
Meridian Energy Limited	228.80	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose in part	<p>Considers the statement in the preamble does not include existing infrastructure within the ridgeline and hilltops overlay which seems to be captured by Rule NFL-R2. This suggests that existing renewable electricity generation activities within ridgeline and hilltop overlays are intended to be captured by these NFL rules. Meridian understood this was not the intention of this Plan. Meridian prefers the approach whereby all rules for renewable generation activities are contained in the bespoke REG Renewable Electricity Generation chapter. Meridian accepts that the objectives and policies of the NFL chapter apply to renewable electricity generation activities in overlay areas.</p>	Retain the Introduction of the Natural Features and Landscapes chapter, with amendment.
Meridian Energy Limited	228.81	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Amend	<p>Considers the statement in the preamble does not include existing infrastructure within the ridgeline and hilltops overlay which seems to be captured by Rule NFL-R2. This suggests that existing renewable electricity generation activities within ridgeline and hilltop overlays are intended to be captured by these NFL rules. Meridian understood this was not the intention of this Plan. Meridian prefers the approach whereby all rules for renewable generation activities are contained in the bespoke REG Renewable Electricity Generation chapter. Meridian accepts that the objectives and policies of the NFL chapter apply to renewable electricity generation activities in overlay areas.</p>	<p>Amend the Introduction of the Natural Features and Landscapes chapter, under the heading 'Other relevant District Plan provisions', by inserting the following (or similar) clarification note:</p> <p><u>The rules applicable to renewable electricity generation activities (including in Outstanding Natural Features and Landscapes and Special Amenity Landscapes) are contained in Chapter REG Renewable Electricity Generation. The rules in Chapter NFL Natural Features and Landscapes do not apply to renewable electricity generation activities.</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council	266.94	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Amend	Considers the introduction of the NFL chapter needs to have the list of Ridgelines and Hilltops deleted. This is because there is a map overlay that already identifies these areas. Clarification is also needed to ensure this overlay does not apply to Lincolnshire Farm Development Area or the Upper Stebbings and Glenside West Development Area.	<p>Amend the Introduction to Natural Features and Landscapes chapter as follows:</p> <p>The purpose of the Natural Features and Landscapes Chapter is to manage the effects of activities on the identified outstanding natural features and landscapes (ONFL), special amenity landscapes (SAL), and ridgelines and hilltops. These are identified within SCHED10 – Outstanding Natural Features and Landscapes and SCHED11 – Special Amenity Landscapes.</p> <p><u>The Ridgelines and Hilltops are identified in an overlay on the District Plan Maps.</u></p> <p><u>The location of Ridgelines and Hilltops have informed the master planning and resultant Development Plans in the Lincolnshire Farm Development Area and the Upper Stebbings and Glenside West Development Area. However the overlays are not located within the Development Areas. In Upper Stebbings and Glenside West, natural features are recognised by distinguishing the Build and the No Build areas. A site-specific Ridgetop area is subject to separate protection and management in the Upper Stebbings and Glenside West Development Area through requirements in the DEV3 chapter, EW chapter and in APP13.</u></p> <p>(...)</p> <p>The following ridgelines and hilltops have been identified in Wellington City: Bests Ridge Horokiwi Ridge Mt Albert Ridge Mt Crawford / Point Halswell Mt Victoria Ngaio Reserve Oku Street Reserve Orongo Ridge Point Dorset Pipinui Point & Coastal Hills South Headland Reserve Tawatawa Ridge Te Kopahu Ridge Te Wharangi Ridge & Totara / Bests / Spicers Ridge Tinakori Hill Upper Ngauranga Western Harbour Hills (Brandon's Rock / Woodridge) White Rock Hill / Quartz Hill / Outlook Hill Wrights Hill</p>
Horokiwi Quarries Ltd	271.27	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Not specified	Considers that, in relation to objectives and policies in the Natural Features and Landscapes Chapter, while the values for particular sites are outlined in Schedule 11, the characteristics are not. Clarification on the characteristics would assist with plan interpretation and application.	Clarify what characteristics of special amenity landscapes are in the PDP, and in particular the Natural Features and Landscapes Chapter.
Horokiwi Quarries Ltd	271.28	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	Considers that there is a lack of higher order document policy support for the policy and rule framework for Ridgelines and Hilltops assuming that Special Amenity Landscapes capture RMA S6(c) matters); and a lack of identified values within the PDP for the Ridgelines and Hilltops (noting they are not scheduled) and therefore lack of clarity for plan users as to the values. [Refer to original submission for full reason]	Clarify the policy and rule framework for Ridgelines and Hilltops and review the appropriateness of Hilltops and Ridgelines within the PDP.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.17	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Amend	Considers that open space activity will be greatly reduced without the protection of Marshall Ridge as a natural connected open space with similar protections afforded to the ridgelines in Stebbings Valley and Tawa.	Amend the Natural Features and Landscapes chapter to recognise Marshall's Ridge as an identified ridgeline and hilltop.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.18	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Amend	[No specific reason given beyond decision requested - refer back to original submission]	<p>Retain the protections afforded to ridgelines and hilltops as notified.</p> <p>[Inferred decision requested]</p>
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.19	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Amend	<p>Considers that excluding Marshall's Ridge from protections afforded to other connected hilltops and ridgelines makes no sense in the face of the Introduction, DEV-04; DEV3-P4. Where the connective network of geographical features have been specified as needing protection and incorporation into a network for open spaces and reserves.</p> <p>Opening it up instead for housing development which will irreversibly reduce the visual amenity of the area, have a huge reverse sensibility effect and remove it from the network of accessible public open spaces.</p>	<p>Seeks that Marshalls Ridge is included within the list of ridgelines and hilltops in the introduction to the Natural Features and Landscapes chapter.</p> <p>[Inferred decision sought]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.225	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Not specified	Supports any provisions in the Plan that would ensure the values of ONFLs are maintained and enhanced and would not enable modification of their outstanding values. We also support the identification and protection of Special Amenity Landscapes and seek to ensure provisions in the NFL chapter adequately protect the ONFLs and SALs in Wellington and are well integrated in the ECO chapter to ensure no-net-loss of biodiversity.	Not specified.
Meridian Energy Limited	FS101.141	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	Considers that the submission point suggests the purpose of the ONFL overlays is to prevent any modification of their outstanding values. The policy framework is more nuanced: it seeks to protect the values from inappropriate subdivision, use and development.	Disallow / In the absence of specific wording, disallow the submission point.
Royal Forest and Bird Protection Society	345.226	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Amend	Considers the Introduction should include the Outer Green Belt in list of SALs.	Amend NFL - Introduction: ... The following SALs have been identified in Wellington City: ... <u>8. Outer Green Belt.</u>
Glenside Progressive Association Inc	374.2	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Amend	Considers that the Council has misinterpreted the NPS-UD and should not be creating housing areas in highly visual and steep land close to ridgelines such as the proposed development in Glenside West. Furthermore, the need for more housing should not justify the removal of the visual protection offered by DPC33 in Glenside West or any other part of Wellington. There is concern that this justification given by Council for this to occur misinterprets the NPS with the result that one particular ridgeline is left unprotected with further ridgelines perhaps under threat in the future by the precedent that this unjustifiably sets. [Refer to original submission for full reason, including attachments]	Seeks that Council not remove the ridgeline protection offered by District Plan Change 33 in Glenside West or any other part of Wellington.
Hilary Watson	FS75.1	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth.	Disallow
Andy Foster	FS86.22	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 374.2].	Allow
Taranaki Whānui ki te Upoko o te Ika	389.80	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Amend	Considers that are no triggers for active engagement with Taranaki Whānui in the Natural Features and Landscapes chapter. [refer to original submission for full reason]	Seeks that there are amendments to include higher triggers for active engagement of Taranaki Whānui within the chapter. [Inferred decision requested]
Taranaki Whānui ki te Upoko o te Ika	389.81	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	Opposes the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford. Submitter supports the protection of areas of significant indigenous vegetation as well as landscapes that have cultural, historical, spiritual and traditional significance to Taranaki Whānui, the identification and protection of environmental overlays in previously developed areas is of concern to Taranaki Whānui. Concerns there is potential for these overlays to significantly restrict future development and opportunities for Taranaki Whānui to exercise tino rangatiratanga over their ancestral lands.	Seeks that the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford is removed; specifically at Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Enterprise Miramar Peninsula Inc	FS26.11	Part2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	<p>It is clear Taranaki Whānui want all restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear based on the submission exactly how large an area they want to have rezoned.</p> <p>Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan, both the Corrections and Defence Land have not in the past contested this zoning and the Proposed District Plan keeps Watts Peninsula as open Space, the Ridgelines and Hilltops add to significant Natural Areas (for biodiversity) it has a Special Amenity Landscape which is used by the community and tourists to the enjoyment of being close to a city but with a natural environment.</p> <p>Taranaki Whānui are seeking to amend the zoning in this area to Medium Density Residential or to a Special Purpose Zone – Māori Purpose Zone, without any public engagement. Such changes would have a significant impact on the local community and should not be undertaken without wider consultation and engagement in order to ensure that proposed changes do not have a detrimental effect. As noted above, it is of concern to the businesses, community (ratepayers) of Te Motu Kairangi/Miramar Peninsula and the wider public that the rezoning applied for by Taranaki Whānui (currently open space) to develop a papakainga creates infrastructure issues on an already overloaded roading, flooding and transport links to and from the Peninsula.</p> <p>[Inferred reference to submission 389.81].</p>	Disallow
Buy Back the Bay	FS79.11	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	<p>Submission 389 states as a Submission Point, that “Taranaki Whānui opposes the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford.”</p> <p>It lists the relevant PDP Chapter as:</p> <ul style="list-style-type: none"> • Planning maps • He Rohe Ahoaho Māori Natural Open Space Zone chapter • Ngā Wāhi Tapu ki te Māori Sites and Areas of Significance to Māori chapter • Ngā Pūnaha Rauropi me te Kanorau Koiora Taketake Ecosystems and Indigenous Biodiversity chapter • Te Ahurei o Ngā Hanga Māori Natural Character chapter • Ngā Hanga Māori me Ngā Nohopae Natural Features and Landscapes chapter • Wawaetanga Subdivision chapter • Taiao Takutai Coastal Environment chapter <p>Opposes in total Submission 389 on these points, which appears to be a wholesale rejection of planning rules in these areas.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Buy Back the Bay	FS79.28	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	<p>Submission 389 states: "Taranaki Whānui's RFR [Right of First Refusal] opportunities in Te Motu Kairangi: Taranaki Whānui have a significant interest in Te Motu Kairangi which includes Mount Crawford and Watts Peninsula, these landholdings hold significant interest - culturally, socially, environmentally and commercially to Taranaki Whānui. These opportunities include the Mount Crawford Prison site as well as the 'Watts Peninsula' sites being 75.85 hectares of former Defence Land."</p> <p>Buy Back the Bays notes that the Submission does not include maps however they (Buy Back the Bays) are very concerned to see that Taranaki Whānui appears to be seeking possible commercial development of 75.85 hectares of former defence land on Watts Peninsula. This appears to be the heart of the long-promised Watts Peninsula park and a major part of the proposed national heritage park.</p> <p>Buy Back the Bays strongly oppose rezoning on Watts Peninsula to facilitate any development there that is incompatible with the park plans. More generally, Buy Back the Bays oppose Submission 389's attempt to remove the proposed public interest controls from Watts Peninsula and Mount Crawford. Considers that where Submission 389 states "Illustrated on Figure One below, the following zone and overlays are proposed for Taranaki Whānui's RFR properties in Te Motu Kairangi," Buy Back the Bays oppose the changes it seeks. This includes opposing Submission 389's request for "The proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST [to be] amended from Natural Open Space Zone to: a. Medium Density Residential; and b. Special Purpose Zone – Māori Purpose Zone."</p>	Disallow
Buy Back the Bay	FS79.47	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	<p>Refers to submission 389 states: Taranaki Whānui opposes the extent of the proposed zoning of Shelly Bay Taikuru and the proposed height control limits." Buy Back the Bays opposes the submission on both points.</p> <p>Specifically, the Submission 389 for Taranaki Whānui seeks that:</p> <p>"1. The Mixed Use Zone is extended across the allotments illustrated in Figure Two below or amended to follow the extent of consented development area outlined in the approved masterplan and engineering drawings.</p> <p>2. The Height Control Area is amended to 27m being the maximum height of development consented under the Shelly Bay Masterplan resource consent."</p> <p>Buy Back the Bays opposes both parts. Buy Back the Bays note that neither part affects Taranaki Whānui's commercial or other interests. Considers that both parts only affect the tall apartment buildings planned by and for the exclusive commercial benefit of The Wellington Company, not the leasing of lower existing buildings that The Wellington Company has offered to Taranaki Whānui as its stake in the project.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Lance Lones	FS81.13	Part2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	<p>Te Motu Kairangi is very nearly an island, and as a result of the amazing work of Predator Free Wellington, is in fact, nearly predator free, and uniquely able to support significant biodiversity. Combined with the Ridgelines and Hilltops Overlay, and the Significant Natural Areas overlay of this space, all citizens of both Wellington, and Aotearoa in general have an incredibly singular opportunity to support the development of native flora and fauna in one nearly contiguous environment, a situation which is unique within Wellington. Attests to the incredible return of many native species of birds to this area, from kererū, to flocks of piwakawaka and tūi, kārearea hunting on the hillsides and heard ruru calling in the evenings and mornings.</p> <p>To remove the Open Space zoning, Significant Natural Areas and Special Amenity Landscape overlays for a significant portion of this habitat would put these species at risk once again.</p> <p>Presents a unique opportunity to implement the Ministry for the Environment's Proposed National Policy Statement for Indigenous Biodiversity. This policy progressively refers to the concept of Te Rito o te Harakeke.</p> <p>The local community has expressed the desire to work with and develop a master plan for the Watts Peninsula, but this voice has been repeatedly denied by council. Removing the protections put in place by the proposed district plan would once again disempower the greater community with no discussion.</p> <p>[Refer to further submission for full reason]</p>	Disallow / Seeks that the current zoning and overlays as presented in the Proposed District Plan for the northern sections of Te Motu Kairangi / Miramar Peninsula be retained. In particular, that the Open Space zoning, Special Amenity Landscape, Natural Areas, and Ridgelines and Hilltops overlays are retained.
Andy Foster	FS86.17	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / General NFL	Oppose	<p>The submission from Taranaki Whanui if accepted would remove all protections, many of them long standing and uncontested for decades, from Te Motu Kairangi / Watts Peninsula and make community involvement much less likely, and limit the need for community involvement. On these basis the submitter opposes Taranaki Whanui's submission.</p> <p>Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan. It has been Open Space B for at least the last 30 years, and nobody has ever contested this. That includes both the Corrections and Defence Land.</p> <p>The Proposed District Plan keeps Watts as Open Space and within the Ridgelines and Hilltops Overlay. It also adds Significant Natural Areas (for biodiversity) and a Special Amenity Landscape (because of its high level of landscape importance) All of these are based on good evidence. Taranaki Whanui want all of those restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear exactly how large an area they want to have rezoned.</p> <p>Taranaki Whanui's request to remove the Open Space zoning which has been in place, uncontested by the owners, for at least 30 years. The current Open Space B zoning does not anticipate any built development and therefore there is no legal or reasonable expectation that there should be any development here.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 389.81]</p>	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.82	Natural and Environmental Values / Natural Features and Landscapes / General NFL	Amend	<p>Considers that overlays to significantly restrict future development and opportunities for Taranaki Whānui to exercise tino rangatiratanga over our ancestral lands.</p>	Seeks that any other relief to enable Taranaki Whānui to exercise tino rangatiratanga over our RFR properties in Te Motu Kairangi.

Royal Forest and Bird Protection Society	345.227	Natural and Environmental Values / Natural Features and Landscapes / New NFL	Amend	Seeks new policy to give effect to policy 11 outside of SNAs. Recognises that policy 11 is given effect to in the coastal environment by way of the ECO chapter policies, however, those policies only apply to identified SNAs. There may be other areas in the coastal environment, particularly within SALs and ONFLs, that have biodiversity that is required to be protected under policy 11. As such, a separate policy to ensure that policy 11 is given effect to in these areas is required.	Add new policy NFL-PX to give effect to Policy 11 of the NZ Coastal Policy Statement outside of Significant Natural Areas.
Meridian Energy Limited	FS101.142	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / New NFL	Oppose	NZCPS Policy 11 addresses significant indigenous biodiversity in the coastal environment. Considers it is not directly relevant for chapter NFL.	Disallow / In the absence of specific wording, disallow the submission point.
Royal Forest and Bird Protection Society	345.228	Natural and Environmental Values / Natural Features and Landscapes / NFL-O1	Support	Supports the objective.	Retain NFL-O1 (Outstanding natural features and landscapes) as notified.
Greater Wellington Regional Council	351.166	Natural and Environmental Values / Natural Features and Landscapes / NFL-O1	Support	Considers it gives effect to section 6(b) of the RMA and NZCPS Policy 15(a).	Retain NFL-O1 (Outstanding natural features and landscapes) as notified.
WCC Environmental Reference Group	377.145	Natural and Environmental Values / Natural Features and Landscapes / NFL-O1	Support	It is important that the District Plan provides legal and policy support to be able to protect outstanding natural features and landscapes. Research shows that access to natural areas and environments is key to human health and well-being and a critical part of providing refuge for formerly at risk native birds.	Retain NFL-O1 (Outstanding natural features and landscapes) as notified.
Director-General of Conservation	385.44	Natural and Environmental Values / Natural Features and Landscapes / NFL-O1	Support	Supports proposed Objective NFL-O1 (Outstanding natural features and landscapes).	Retain objective NFL-O1 (Outstanding natural features and landscapes) as notified.
Horokiwi Quarries Ltd	271.29	Natural and Environmental Values / Natural Features and Landscapes / NFL-O2	Support in part	Supports the policy directive within NFL-O2 to enhance the values 'where practicable'. Notwithstanding the support, the submitter notes that while the values for particular sites are outlined in Schedule 11, the characteristics are not. Clarification on the characteristics would assist with plan interpretation and application.	Retain NFL-O2 (Special amenity landscapes) as notified, with clarification.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.38	Natural and Environmental Values / Natural Features and Landscapes / NFL-O2	Oppose in part	Considers that it is appropriate subdivision, use and development in areas identified as SAL should be managed to maintain and enhance amenity values. Also agrees that Mount Kaukau and the Outer Green Belt Special Amenity Landscape are Special Amenity Landscapes. However, the submitter believes that the MDRZ area of the land should not be included in this SAL mapping. By including the MDRZ land within the SAL overlay, it restricts the land from being efficiently utilized for medium density residential development. Furthermore, the zoning layout has principal support from GWRC both in terms of policy direction (i.e. Policy 27) and the consented layout. The landscape identified to be 'distinctive and widely recognised by the community for the contribution to the amenity and quality of the environment' is predominantly located within the balance land which includes Crows Nest and the Skyline Walkway Trailhead.	Retain NFL-O2 (Special amenity landscapes) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Adam Groenewegen	FS46.15	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-O2	Oppose	Supports Kilmarnston Development's support of the SAL overlay in the District Plan. However opposes the removal for the land in question. However oppose the removal for the land in question. The history of proposed development on this land (environment court decisions) and the community concerns about it strongly suggest that overlays such as SAL are appropriate to retain. An 8m height restriction is entirely appropriate for this location given it high landscape and amenity values, particularly for sightlines from Ngaio but also Crofton Downs from which are development will be visible.	Disallow / Disallow that part of the submission that seeks to remove the SAL from the Kilmarnston Development's land.
Jo McKenzie	FS64.15	Part 2 / Natural and Environmental Values / Natural Features and Landscapes /NFL-O2	Oppose	Support Kilmarnston Development's support of the SAL overlay in the District Plan. However Jo McKenzie opposes the removal for the land in question. Considers that the history of proposed development on this land (environment court decisions) and the community concerns about it strongly suggest that overlays such as SAL are appropriate to retain. An 8m height restriction is entirely appropriate for this location given it high landscape and amenity values, particularly for sightlines from Ngaio but also Crofton Downs from which are development will be visible.	Disallow / Disallow that part of the submission that proposes removing the SAL from the Kilmarnston Development's land
Royal Forest and Bird Protection Society	345.229	Natural and Environmental Values / Natural Features and Landscapes / NFL-O2	Oppose	Considers the objective does not give effect to s7(c) of the RMA.	Amend NFL-O2 (Special amenity landscapes): The characteristics and values of special amenity landscapes are maintained and, where practicable, enhanced.
WCC Environmental Reference Group	377.146	Natural and Environmental Values / Natural Features and Landscapes / NFL-O2	Support	It is important that the District Plan provides legal and policy support to be able to protect outstanding natural features and landscapes. Research shows that access to natural areas and environments is key to human health and well-being and a critical part of providing refuge for formerly at risk native birds.	Retain NFL-O2 (Special Amenity Landscapes) as notified.
John Tiley	142.9	Natural and Environmental Values / Natural Features and Landscapes / NFL-O3	Amend	Considers that NFL-O3 should be clarified to state the amenity value of associated open space, and the opportunities to create continuity of open space.	Amend NFL-O3 (Ridgelines and hilltops) to include reference to the protection of 'the amenity value of associated open space, and the opportunities to create continuity of open space'.
Wellington Civic Trust	FS83.78	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-O3	Support	The submissions identify the need for greater clarity and better protection in the Plan for the city's identified ridgelines and hilltops. Wellington Civic Trust supports these points	Allow
Churton Park Community Association	189.9	Natural and Environmental Values / Natural Features and Landscapes / NFL-O3	Amend	Considers that NFL-O3 should be clarified to state the amenity value of associated open space, and the opportunities to create continuity of open space.	Amend NFL-O3 (Ridgelines and hilltops) to include reference to the protection of 'the amenity value of associated open space, and the opportunities to create continuity of open space'.
Roseneath Residents' Association	FS49.6	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-O3	Support	Supports submission 189 in seeking to change the Proposed District Plan to more fully protect and enhance the City's natural landscapes including Outstanding Natural Landscapes, Special Amenity Landscapes and Ridgelines and Hilltops, and request that all the CPCA proposals are adopted. It is the view of the submitter that the only new activities to be allowed in these areas should be those essential pieces of infrastructure that cannot be located anywhere else. Housing development should not be allowed. [Inferred reference to submission point 189.9]	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Matthew Wells, Adelina Reis and Sarah Rennie	F550.5	Natural and Environmental Values / Natural Features and Landscapes / NFL-O3	Support	Supports submission 189 in seeking to change the Proposed District Plan to more fully protect and enhance the City's natural landscapes including Outstanding Natural Landscapes, Special Amenity Landscapes and Ridgelines and Hilltops, and request that all the CPCA proposals are adopted. It is the submitters view that the only new activities to be allowed in these areas should be those essential pieces of infrastructure that cannot be located anywhere else. Housing development should not be allowed. [Inferred reference to submission point 189.9]	Allow
Meridian Energy Limited	228.82	Natural and Environmental Values / Natural Features and Landscapes / NFL-O3	Oppose	Considers the objective inaccurately characterises the actual character of large areas of ridgelines and hilltops overlays in which wind turbines are located and fails to acknowledge the reality of the existing environment.	Retain NFL-O3 (Ridgelines and hilltops) with amendment.
Meridian Energy Limited	228.83	Natural and Environmental Values / Natural Features and Landscapes / NFL-O3	Amend	Considers the objective inaccurately characterises the actual character of large areas of ridgelines and hilltops overlays in which wind turbines are located and fails to acknowledge the reality of the existing environment.	Amend NFL-O3 (Ridgelines and hilltops) as follows: The natural green landscape backdrop provided by identified ridgelines and hilltops is maintained and enhanced , where practicable, enhanced recognising the existence of and the functional and operational needs of regionally significant infrastructure.
Horokiwi Quarries Ltd	271.30	Natural and Environmental Values / Natural Features and Landscapes / NFL-O3	Oppose	Considers that the wording of objective NFL-O3 could be clarified as to the appropriateness of ensuring a natural green backdrop to the city on private land.	Clarify the appropriateness of ensuring a natural green backdrop to the city on private land and review the appropriateness of Hilltops and Ridgelines within the PDP.
Royal Forest and Bird Protection Society	345.230	Natural and Environmental Values / Natural Features and Landscapes / NFL-O3	Support	Supports the objective.	Retain NFL-O3 (Ridgelines and hilltops) as notified.
WCC Environmental Reference Group	377.147	Natural and Environmental Values / Natural Features and Landscapes / NFL-O3	Support	The green ridge tops of Wellington are a core part of its character and a major contributor to maintaining a 'biophilic' environment, which is key to human health, well being, and a critical part of protecting biodiversity.	Retain NFL-O3 (Ridgelines and hilltops) as notified.
John Tiley	142.10	Natural and Environmental Values / Natural Features and Landscapes / NFL-P1	Amend	Considers that NFL-P1 should be amended to include reference to ridgelines and hilltops.	Amend NFL-P1 (Identification of outstanding natural features and landscapes and special amenity landscapes) to include reference to ridgelines and hilltops.
Wellington Civic Trust	FS83.79	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-P1	Support	The submissions identify the need for greater clarity and better protection in the Plan for the city's identified ridgelines and hilltops. Wellington Civic Trust supports these points	Allow
Churton Park Community Association	189.10	Natural and Environmental Values / Natural Features and Landscapes / NFL-P1	Amend	Considers that NFL-P1 should be amended to include reference to ridgelines and hilltops.	Amend NFL-P1 (Identification of outstanding natural features and landscapes and special amenity landscapes) to include reference to ridgelines and hilltops.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Matthew Wells, Adelina Reis and Sarah Rennie	FS49.7	Natural and Environmental Values / Natural Features and Landscapes / NFL-P1	Support	Supports submission 189 in seeking to change the Proposed District Plan to more fully protect and enhance the City's natural landscapes including Outstanding Natural Landscapes, Special Amenity Landscapes and Ridgelines and Hilltops, and request that all the CPCA proposals are adopted. It is the submitters view that the only new activities to be allowed in these areas should be those essential pieces of infrastructure that cannot be located anywhere else. Housing development should not be allowed. [Inferred reference to submission point 189.10]	Allow
Matthew Wells, Adelina Reis and Sarah Rennie	FS50.4	Natural and Environmental Values / Natural Features and Landscapes / NFL-P1	Support	Supports submission 189 in seeking to change the Proposed District Plan to more fully protect and enhance the City's natural landscapes including Outstanding Natural Landscapes, Special Amenity Landscapes and Ridgelines and Hilltops, and request that all the CPCA proposals are adopted. It is the submitters view that the only new activities to be allowed in these areas should be those essential pieces of infrastructure that cannot be located anywhere else. Housing development should not be allowed. [Inferred reference to submission point 189.10]	Allow
Andy Foster	FS86.40	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-P1	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 189.10].	Allow
Royal Forest and Bird Protection Society	345.231	Natural and Environmental Values / Natural Features and Landscapes / NFL-P1	Support	Supports the policy.	Retain NFL-P1 (Identification of outstanding natural features and landscapes and special amenity landscapes) as notified.
Greater Wellington Regional Council	351.167	Natural and Environmental Values / Natural Features and Landscapes / NFL-P1	Support	Considers it gives effect to section 6(b) of the RMA and NZCPS Policy 15(a).	Retain NFL-P1 (Identification of outstanding natural features and landscapes and special amenity landscapes) as notified.
WCC Environmental Reference Group	377.148	Natural and Environmental Values / Natural Features and Landscapes / NFL-P1	Support	NFL-P1 is supported as it is helpful in that having a specific list provides certainty for owners and potential owners whose land falls within these areas.	Retain NFL-P1 (Identification of outstanding natural features and landscapes and special amenity landscapes) as notified.
Meridian Energy Limited	228.84	Natural and Environmental Values / Natural Features and Landscapes / NFL-P2	Oppose	Considers that functional and operational needs will not be able to be accommodated (as intended by the Policy) if all adverse effects on visual amenity and landscape values must be avoided (for example, in upgrading existing wind turbines that occupy hilltops because they have a functional need to locate on high points). Considers the policy, as worded, does not reconcile the outcomes intended by clauses 2 and 3.	Retain NFL-P2 (Use and development within ridgeline and hilltops) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	228.85	Natural and Environmental Values / Natural Features and Landscapes / NFL-P2	Amend	Considers that functional and operational needs will not be able to be accommodated (as intended by the Policy) if all adverse effects on visual amenity and landscape values must be avoided (for example, in upgrading existing wind turbines that occupy hilltops because they have a functional need to locate on high points). Considers the policy, as worded, does not reconcile the outcomes intended by clauses 2 and 3.	Amend Policy NFL-P2 (Use and development within ridgeline and hilltops) as follows (or similar): Enable use and development within identified ridgelines and hilltops where: 1. The activity is compliant with the underlying zone provisions; and or <u>2. Adverse effects on the visual amenity and landscape values of the identified Ridgelines and Hilltops are avoided, remedied or mitigated, recognising the existence of and the functional and operational needs of regionally significant infrastructure. There is a functional or operational need to locate within the ridgeline and hilltop area; and</u> 3. Any adverse effects on the visual amenity and landscape values can be mitigated.
Horokiwi Quarries Ltd	271.31	Natural and Environmental Values / Natural Features and Landscapes / NFL-P2	Amend	The submitter has concerns with the policy directive within NFP-P2 clause 3. to mitigate 'any' adverse effects on the visual amenity and landscape values, given the directive relates to all adverse effects regardless of scale or significance and that the values are not identified within the PDP. The requirement within clause 1. To "be compliant with the underlying zone provisions" is also not clear in its application. Considers the policy is subjective and open to interpretation and requests amendment to remove reference to the underlying zone provisions.	Amend NFL-P2 (Use and development within ridgeline and hilltops) as follows: Enable use and development within identified ridgelines and hilltops where: 1. The activity is compliant with the underlying zone provisions; and <u>2.1. There is a functional or operational need to locate within the ridgeline and hilltop area; and</u> 3.2. Any Significant adverse effects on the visual amenity and landscape values can be mitigated.
Parkvale Road Limited	298.6	Natural and Environmental Values / Natural Features and Landscapes / NFL-P2	Amend	Considers that if the Ridgelines and Hilltops overlay is not removed, in order to support residential development of the areas of the site proposed for rezoning, an amendment to the policy is proposed.	Amend NFL-P2 (Use and development within ridgeline and hilltops) as follows: Enable use and development within identified ridgelines and hilltops where: <u>1. Any adverse effects on the visual amenity and landscape values can be mitigated; and</u> <u>2. The activity is compliant with the underlying zone provisions; or</u> <u>3. There is a functional or operational need to locate within the ridgeline and hilltop area.</u>
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.43	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-P2	Oppose	Oppose removal of the Ridgelines and Hilltops overlay within 200 Parkvale Road. This overlay is part of wider landscape protection and is appropriate for the property in question.	Disallow
Andy Foster	FS86.72	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-P2	Oppose	Supports placing the farm within the Special Amenity Landscape (in addition to retaining Ridgeline and Hilltop status) as was instructed by Council when notifying the Plan. Opposes the request from Parkvale Road Limited to reorder the Ridgeline and Hilltops Policies and Rules. [See original Further Submission for full reasoning]. [Inferred reference to submission 29.6].	Disallow
Royal Forest and Bird Protection Society	345.232	Natural and Environmental Values / Natural Features and Landscapes / NFL-P2	Amend	Considers activities on ridgelines and hilltops should be provisional on meeting these policy requirements, to ensure their landscape values are maintained to give effect to NFL-O3.	Amend NFL-P2 (Use and development within ridgeline and hilltops): <u>Only</u> Enable use and development within identified ridgelines and hilltops where: 1. The activity is compliant with the underlying zone provisions; and 2. There is a functional or operational need to locate within the ridgeline and hilltop area; and 3. Any adverse effects on the visual amenity and landscape values can be mitigated.
Meridian Energy Limited	FS101.143	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-P2	Oppose	Considers that the insertion of 'only' enable adds no meaningful value to the policy, which is to provide for (enable) activities in the specified circumstances.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.149	Natural and Environmental Values / Natural Features and Landscapes / NFL-P2	Support	NFL-P12 is supported as it provides for necessary uses, e.g. masts, whilst seeking to mitigate adverse effects.	Retain NFL-P2 (Use and development within ridgeline and hilltops) as notified.
Meridian Energy Limited	228.86	Natural and Environmental Values / Natural Features and Landscapes / NFL-P3	Oppose	Considers Policy NFL-P3 fails to recognise and provide for the existing turbine on Brooklyn Hill.	Retain Policy NFL-P3 (Use and development in special amenity landscapes outside the coastal environment) with amendment.
Meridian Energy Limited	228.87	Natural and Environmental Values / Natural Features and Landscapes / NFL-P3	Amend	Considers Policy NFL-P3 fails to recognise and provide for the existing turbine on Brooklyn Hill. P3.1 and P3.2 should be merged as P3.2.	Amend Policy NFL-P3 (Use and development in special amenity landscapes outside the coastal environment) as follows (or similar): Provide for use and development within special amenity landscapes outside the coastal environment where: <u>1. Necessary to support the functional and operational needs of the Brooklyn Turbine; or</u> 2. Any adverse effects on the identified values can be avoided, remedied or mitigated; and the the scale of the activity maintains the identified landscape values and characteristics.
Horokiwi Quarries Ltd	271.32	Natural and Environmental Values / Natural Features and Landscapes / NFL-P3	Support in part	Considers that while NFL-P3 (Use and development in special amenity landscapes outside the coastal environment) is not in itself opposed, the submitter does note that while the values for particular sites are outlined in Schedule 11 of the PDP, the characteristics are not. It is therefore not clear what are the characteristics referred to in the policy. Clarification would assist with plan interpretation.	Clarify what are the characteristics referred to in NFL-P3.2 (Use and development in special amenity landscapes outside the coastal environment).
Kilmarston Developments Limited and Kilmarston Properties Limited	290.39	Natural and Environmental Values / Natural Features and Landscapes / NFL-P3	Oppose in part	Considers that it is appropriate subdivision, use and development in areas identified as SAL should be managed to maintain and enhance amenity values. Also agrees that Mount Kaukau and the Outer Green Belt Special Amenity Landscape are Special Amenity Landscapes. However, the submitter believes that the MDRZ area of the land should not be included in this SAL mapping. By including the MDRZ land within the SAL overlay, it restricts the land from being efficiently utilized for medium density residential development. Furthermore, the zoning layout has principal support from GWRC both in terms of policy direction (i.e. Policy 27) and the consented layout. The landscape identified to be 'distinctive and widely recognised by the community for the contribution to the amenity and quality of the environment' is predominantly located within the balance land which includes Crows Nest and the Skyline Walkway Trailhead.	Retain NFL-P3 (Use and development in special amenity landscapes outside the coastal environments) as notified.
Adam Groenewegen	FS46.16	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-P3	Oppose	Supports Kilmarston Development's support of the SAL overlay in the District Plan. However opposes the removal for the land in question. However oppose the removal for the land in question. The history of proposed development on this land (environment court decisions) and the community concerns about it strongly suggest that overlays such as SAL are appropriate to retain. An 8m height restriction is entirely appropriate for this location given it high landscape and amenity values, particularly for sightlines from Ngaio but also Crofton Downs from which are development will be visible.	Disallow / Disallow that part of the submission that seeks to remove the SAL from the Kilmarston Development's land.
Jo McKenzie	FS64.16	Part 2 / Natural and Environmental Values / Natural Features and Landscapes /NFL-P3	Oppose	Support Kilmarston Development's support of the SAL overlay in the District Plan. However Jo McKenzie opposes the removal for the land in question. Considers that the history of proposed development on this land (environment court decisions) and the community concerns about it strongly suggest that overlays such as SAL are appropriate to retain. An 8m height restriction is entirely appropriate for this location given it high landscape and amenity values, particularly for sightlines from Ngaio but also Crofton Downs from which are development will be visible.	Disallow / Disallow that part of the submission that proposes removing the SAL from the Kilmarston Development's land

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.233	Natural and Environmental Values / Natural Features and Landscapes / NFL-P3	Oppose in part	Raises concern that SAL Outer Green Belt has been left off SCHED11, and therefore there are no identified values to reference regarding this policy. Te Ahumairangi SAL for example, is home to the snail species, Potamopyrgus oppidanus. This policy should give effect to s7(f) of the RMA to ensure the maintenance and enhancement of the quality of the environment to protect the biodiversity that live in these SALs. Considers activities in SALs should not be provided for solely on the basis of these policies (including NFL-P4) but agree that these policy requirements must be met.	Amend NFL-P3 (Use and development in special amenity landscapes outside the coastal environment): <u>Only consider providing</u> for use and development within special amenity landscapes outside the coastal environment where: 1. Any adverse effects on the identified values can be avoided, remedied or mitigated; and 2. The scale of the activity maintains the identified landscape values and characteristics; <u>and</u> 3. <u>Any activity ensures the maintenance and enhancement of the quality of the environment.</u>
Meridian Energy Limited	FS101.144	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-P3	Oppose	Considers that the insertion of 'only' enable adds no meaningful value to the policy, which is to provide for (enable) activities in the specified circumstances.	Disallow
WCC Environmental Reference Group	377.150	Natural and Environmental Values / Natural Features and Landscapes / NFL-P3	Support	NFL-P3 is supported as it provides for activities that can work within these areas in a manner that does not compromise their value.	Retain NFL-P3 (Use and development in special amenity landscapes outside the coastal environment) as notified.
Horokiwi Quarries Ltd	271.33	Natural and Environmental Values / Natural Features and Landscapes / NFL-P4	Support in part	Considers that while NFL-P4 (Use and development in special amenity landscapes within the coastal environment) is not in itself opposed, the submitter does note that while the values for particular sites are outlined in Schedule 11 of the PDP, the characteristics are not. It is therefore not clear what are the characteristics referred to in the policy.	Clarify what are the characteristics referred to in NFL-P4.2 (Use and development in special amenity landscapes within the coastal environment). [Inferred decision requested]
Horokiwi Quarries Ltd	271.34	Natural and Environmental Values / Natural Features and Landscapes / NFL-P4	Amend	Considers that while NFL-P4 (Use and development in special amenity landscapes within the coastal environment) is not in itself opposed, the submitter does note that while the values for particular sites are outlined in Schedule 11 of the PDP, the characteristics are not. It is therefore not clear what are the characteristics referred to in the policy.	Amend Policy NFL-P4 (Use and development in special amenity landscapes within the coastal environment) as follows: Provide for use and development within special amenity landscapes within the coastal environment where: 1. ... 2. The activity maintains the identified landscape values and characteristics
Royal Forest and Bird Protection Society	345.234	Natural and Environmental Values / Natural Features and Landscapes / NFL-P4	Support in part	Considers the policy fails to give effect to Policies 13 and 15 of the NZCPS as well as s7(f) of the RMA. Further, the "identified" values are not enough to ensure the Plan gives effect to the NZCPS. Consideration of "providing for" activities in SALs in the coastal environment should not be solely on the basis of this one policy.	Amend NFL-P4 (Use and development in special amenity landscapes within the coastal environment): <u>Only consider providing</u> for use and development within special amenity landscapes within the coastal environment where: 1. Any significant adverse effects on the identified values can be avoided and any other adverse effects on the identified values can be avoided, remedied or mitigated; and , 2. The activity maintains the identified landscape values and characteristics; <u>and</u> ; 3. <u>Any activity ensures the maintenance and enhancement of the quality of the environment.</u>
Meridian Energy Limited	FS101.145	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-P4	Oppose	Considers that the insertion of 'only' enable adds no meaningful value to the policy, which is to provide for (enable) activities in the specified circumstances.	Disallow
WCC Environmental Reference Group	377.151	Natural and Environmental Values / Natural Features and Landscapes / NFL-P4	Support	NFL-P4 is supported as it provides for activities that can work within these areas in a manner that does not compromise their value.	Retain NFL-P4 (Use and development in special amenity landscapes within the coastal environment) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Director-General of Conservation	385.45	Natural and Environmental Values / Natural Features and Landscapes / NFL-P4	Support	Supports proposed Policy NFL-P4 (Use and development in special amenity landscapes within the coastal environment).	Retain policy NFL-P4 (Use and development in special amenity landscapes within the coastal environment) as notified.
Meridian Energy Limited	228.88	Natural and Environmental Values / Natural Features and Landscapes / NFL-P5	Oppose	Considers the word 'only' is not necessary because the following text explains where use and development will be allowed. Clause 2 of the policy does not add any value because Clause 1 addresses the same issue (protecting the identified values).	Retain Policy NFL-P5 (Use and development within outstanding natural features and landscapes outside the coastal environment) with amendment.
Meridian Energy Limited	228.89	Natural and Environmental Values / Natural Features and Landscapes / NFL-P5	Amend	Considers the word 'only' is not necessary because the following text explains where use and development will be allowed. Clause 2 of the policy does not add any value because Clause 1 addresses the same issue (protecting the identified values).	Delete clause 2 of Policy NFL-P5 (Use and development within outstanding natural features and landscapes outside the coastal environment) as follows, or otherwise eliminate the duplication between clauses 1 and 2: Only allow for use and development within outstanding natural features and landscapes outside the coastal environment where: 1. Any significant adverse effects on the identified values can be avoided and any other adverse effects on the identified values can be avoided, remedied or mitigated; and 2. The activity is designed to protect the identified landscape values and characteristics.
Royal Forest and Bird Protection Society	345.235	Natural and Environmental Values / Natural Features and Landscapes / NFL-P5	Amend	Supports the intent of this policy but have concerns regarding "Only allow" wording in ONFLs. We oppose the use of "identified" given the shortcomings of SCHED10 (see submission point on that matter). Allowing activities in ONFLs outside the coastal environment should not be solely on the basis of this policy. Other considerations should also apply, such as policies from ECO chapter. This policy needs to be worded to ensure other considerations, such as significant biodiversity values, are also taken into account.	Amend NFL-P5 (Use and development within outstanding natural features and landscapes outside the coastal environment): Only <u>consider</u> allowing for use and development within outstanding natural features and landscapes outside the coastal environment where: 1. Any significant adverse effects on the identified values can be avoided and any other adverse effects on the identified values can be avoided, remedied or mitigated; and 2. The activity is designed to protect the identified landscape values and characteristics.
Meridian Energy Limited	FS101.146	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-P5	Oppose	Considers that the insertion of 'only' enable adds no meaningful value to the policy, which is to provide for (enable) activities in the specified circumstances.	Disallow
WCC Environmental Reference Group	377.152	Natural and Environmental Values / Natural Features and Landscapes / NFL-P5	Support	NFL-P5 is supported as it provides for activities that can work within these areas in a manner that does not compromise their value.	Retain NFL-P5 (Use and development within outstanding natural features and landscapes outside the coastal environment) as notified.
Meridian Energy Limited	228.90	Natural and Environmental Values / Natural Features and Landscapes / NFL-P6	Oppose	Considers the NZCPS does not require avoidance of all adverse effects on outstanding natural features and landscapes within the coastal environment. Rather, avoidance of significant adverse effects is required.	Retain Policy NFL-P6 (Use and development within outstanding natural features and landscapes within the coastal environment) with amendment.
Meridian Energy Limited	228.91	Natural and Environmental Values / Natural Features and Landscapes / NFL-P6	Amend	Considers the NZCPS does not require avoidance of all adverse effects on outstanding natural features and landscapes within the coastal environment. Rather, avoidance of significant adverse effects is required.	Amend Policy NFL-P6 (Use and development within outstanding natural features and landscapes within the coastal environment) as follows (or similar): Avoid use and development within outstanding natural features and landscapes within the coastal environment unless any all significant adverse effects on the identified values can be avoided <u>and</u> other effects are avoided, remedied or mitigated.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.236	Natural and Environmental Values / Natural Features and Landscapes / NFL-P6	Amend	Considers the policy needs to give better effect to the NZCPS. The "identified values" do not go far enough to ensuring Policy 15(a) is given effect to. SCHED10 is uncertain (see our submission points on the schedules).	Amend NFL-P6 (Use and development within outstanding natural features and landscapes within the coastal environment): Only consider allowing for Avoid use and development within outstanding natural features and landscapes within the coastal environment <u>where</u> : 1. Any unless any adverse effects on the <u>outstanding natural features and landscapes identified values are</u> can be avoided; <u>and</u> 2. The activity is designed to protect the outstanding natural landscape values and characteristics.
Meridian Energy Limited	FS101.147	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-P6	Oppose	Meridian considers the amended wording proposed in its submission point 228.91 better gives effect to s. 6 of the RMA and the relevant higher order policy instruments.	Disallow
Greater Wellington Regional Council	351.168	Natural and Environmental Values / Natural Features and Landscapes / NFL-P6	Support	Considers it gives effect to section 6(b) of the RMA and NZCPS Policy 15(a).	Retain NFL-P6 (Use and development within outstanding natural features and landscapes within the coastal environment) as notified.
WCC Environmental Reference Group	377.153	Natural and Environmental Values / Natural Features and Landscapes / NFL-P6	Support	NFL-P6 is supported as it provides for activities that can work within these areas in a manner that does not compromise their value.	Retain NFL-P6 (Use and development within outstanding natural features and landscapes within the coastal environment) as notified.
Director-General of Conservation	385.46	Natural and Environmental Values / Natural Features and Landscapes / NFL-P6	Support	Supports proposed policy NFL-P6 (Use and development within outstanding natural features and landscapes within the coastal environment).	Retain policy NFL-P6 (Use and development within outstanding natural features and landscapes within the coastal environment) as notified.
Horokiwi Quarries Ltd	271.35	Natural and Environmental Values / Natural Features and Landscapes / NFL-P7	Support in part	Supports that NFL-P7 recognises existing quarry activities, and their expansion. NFL-P7 is specific to mining and quarrying, and specific to the Horokiwi site. The policy recognises the importance and role of existing quarry activities and provides a policy pathway for their expansion (outside ONFLs).	Retain NFL-P7 (Mining and quarrying activities in outstanding natural features and landscapes and special amenity landscapes), with amendments.
Horokiwi Quarries Ltd	271.36	Natural and Environmental Values / Natural Features and Landscapes / NFL-P7	Amend	Considers that reference to Hilltops and Ridgelines within the policy is appropriate given the Horokiwi Quarry site has a Hilltops and Ridgelines overlay.	Amend NFL-P7 (Mining and quarrying activities in outstanding natural features and landscapes and special amenity landscapes) as follows: Mining and quarrying activities in outstanding natural features and landscapes, and special amenity landscapes, <u>and hilltops and ridgelines</u> Manage mining and quarrying activities within outstanding natural features and landscapes, and special amenity landscapes, <u>and hilltops and ridgelines</u> as follows: 1 Allow for the ongoing operation of established mining and quarrying activities within out standing natural features and landscapes and special amenity landscapes <u>and hilltops and ridgelines</u> ; 2. Only allow for the extension of established mining and quarrying activities within special amenity landscape where potential adverse effects can be avoided, remedied or mitigated;

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.237	Natural and Environmental Values / Natural Features and Landscapes / NFL-P7	Support in part	Opposes the blanket provision for existing activities in 1, as this suggests their effects would not need to be considered if they require consenting. We support the rest of the provisions.	Amend NFL-P7 (Mining and quarrying activities in outstanding natural features and landscapes and special amenity landscapes): Manage mining and quarrying activities within outstanding natural features and landscapes and special amenity landscapes as follows: 1. Allow for the ongoing operation of established mining and quarrying activities within outstanding natural features and landscapes and special amenity landscapes <u>where their effects can be managed in accordance with the objectives and policies of this Plan</u> ; 2. Only allow for the extension of established mining and quarrying activities within special amenity landscape where potential adverse effects can be avoided, remedied or mitigated; 3. Avoid the establishment of new mining and quarrying within special amenity landscapes; and 4. Avoid the extension of established mining and quarrying activities and the establishment of new mining and quarrying activities within outstanding natural features and landscapes.
Royal Forest and Bird Protection Society	345.238	Natural and Environmental Values / Natural Features and Landscapes / NFL-P8	Amend	Seeks amendment to give effect to s6(b) of the RMA and Policy 15 of the NZCPS	Amend NFL-P8 (Plantation forestry): Manage plantation forestry within outstanding natural features and landscapes and special amenity landscapes as follows: 1. Provide for established plantation forestry and ongoing management of existing plantation forestry within outstanding natural features and landscapes and special amenity landscapes; and 2. Avoid the <u>extension of existing and</u> establishment of new plantation forestry in outstanding natural features and landscapes.
Greater Wellington Regional Council	351.169	Natural and Environmental Values / Natural Features and Landscapes / NFL-P8	Support	Considers that avoiding new plantation forestry activities in outstanding natural features and landscapes gives effect to section 6(b) of the RMA and, in the coastal environment, NZCPS Policy 15.	Retain NFL-P8 (Plantation forestry) as notified.
WCC Environmental Reference Group	377.154	Natural and Environmental Values / Natural Features and Landscapes / NFL-P8	Support	NFL-P8 is supported as it sends an important signal that plantation forestry should not be located within these important landscapes.	Retain NFL-P8 (Plantation forestry) as notified.
Royal Forest and Bird Protection Society	345.239	Natural and Environmental Values / Natural Features and Landscapes / NFL-P9	Amend	Seeks amendment to ensure values are protected in accordance with the objectives of this chapter.	Amend NFL-P9 (Restoration and enhancement): Provide for restoration or rehabilitation of the identified landscape character values in SCHED11 and SCHED12 by: 1. Recognising the landscape character values present; 2. Encouraging natural regeneration of indigenous species, including where practical the removal of pest species <u>and fencing off from stock</u> ; and 3. Providing for mana whenua to exercise their responsibilities as kaitiaki to protect, restore and maintain areas of indigenous biodiversity.
WCC Environmental Reference Group	377.155	Natural and Environmental Values / Natural Features and Landscapes / NFL-P9	Support	NFL-P9 is supported as it recognises the positive value of restoration and enhancement of these areas.	Retain NFL-P9 (Restoration and enhancement) as notified.
Te Rūnanga o Toa Rangatira	488.53	Natural and Environmental Values / Natural Features and Landscapes / NFL-P9	Support	Supports that the policy provides for mana whenua to exercise kaitiakitanga for indigenous biodiversity. [Inferred reason]	Retain NFL-P9 (Restoration and enhancement) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Nga Kaimanaaki o te Waimapihi	215.3	Natural and Environmental Values / Natural Features and Landscapes / NFL-R1	Amend	Considers that we need to preserve and restore indigenous native fauna. As well as preying on our native birds, cats also eat a large number of our native lizards and wētā (which are still in decline).	Seeks amendment to NFL-R1 (Restoration and enhancement activities within outstanding natural features and landscapes, special amenity landscapes and ridgelines and hilltops (including in the coastal environment)) to add guidelines that restrict pets from roaming in Outstanding Natural Features and Landscapes, Special Amenity Landscapes, and Ridgelines and Hilltops. [Inferred decision requested]
Royal Forest and Bird Protection Society	345.240	Natural and Environmental Values / Natural Features and Landscapes / NFL-R1	Support	Supports the rule.	Retain NFL-R1 (Restoration and enhancement activities within outstanding natural features and landscapes, special amenity landscapes and ridgelines and hilltops (including in the coastal environment)) as notified.
WCC Environmental Reference Group	377.156	Natural and Environmental Values / Natural Features and Landscapes / NFL-R1	Support	NFL-R1 is supported as it recognises the positive value of restoration and enhancement of these areas.	Retain NFL-R1 (Restoration and enhancement activities within outstanding natural features and landscapes...) as notified.
Zealandia Te Māra a Tāne	486.4	Natural and Environmental Values / Natural Features and Landscapes / NFL-R1	Amend	Considers that NFL-R1 should be amended with an additional clause that enables Zealandia operations to continue as per other areas in the plan. Considers that NFL-R1 does not allow for the conservation and restoration work of Zealandia Te Māra a Tāne as the area is not subject to the Reserves Act.	Amend NFL-R1 (Restoration and enhancement activities within outstanding natural features and landscapes, special amenity landscapes and ridgelines and hilltops (including in the coastal environment)) by adding a clause that enables the ongoing restoration work within the Zealandia sanctuary where undertaken by the Karori Sanctuary Trust.
John Tiley	142.11	Natural and Environmental Values / Natural Features and Landscapes / NFL-R2	Amend	Considers that the Permitted Activity status in NFL-R2 appears to give carte blanche for any activity within ridgelines and hilltops.	Not specified.
Churton Park Community Association	189.11	Natural and Environmental Values / Natural Features and Landscapes / NFL-R2	Amend	Considers that the Permitted Activity status in NFL-R2 appears to give carte blanche for any activity within ridgelines and hilltops.	Not specified.
Royal Forest and Bird Protection Society	345.241	Natural and Environmental Values / Natural Features and Landscapes / NFL-R2	Oppose	Opposes the wording of rule as it lacks clarity about the activities that are actually being referred to. This is uncertain and does not give any clarity to assess effects on this basis. Seek that the permitted activity be deleted.	Delete NFL-R2 (Any activity within the ridgelines and hilltops not otherwise listed as permitted, restricted discretionary, or non-complying).
Royal Forest and Bird Protection Society	345.242	Natural and Environmental Values / Natural Features and Landscapes / NFL-R2	Oppose	Given comment on NFL-P2, would support RD in the instance that NFL-P2 was amended.	Amend NFL-R2 (Any activity within the ridgelines and hilltops not otherwise listed as permitted, restricted discretionary, or non-complying) subject to relief sought for NFL-P2: 1. Activity status: Permitted <u>Restricted Discretionary</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.243	Natural and Environmental Values / Natural Features and Landscapes / NFL-R3	Support in part	Opposes the wording of the rule as it lacks clarity about the activities that are actually being referred to. Supports RD in SALs but seek that the matters of discretion cross reference new ECO and NFL policies sought above which are aimed at the maintenance of biodiversity outside of SNAs as well as ensuring policy 11 of the NZCPS is given effect to, outside of SNAs.	Amend NFL-R3 (Any activity within special amenity landscapes not otherwise listed as permitted, restricted discretionary, or non-complying) to clarify scope of activities covered, and: 1. Activity status: Restricted Discretionary Matters of discretion are: 1. The matters in NFL-P3 and NFL-P4 <u>[add cross references to relevant ECO and NFL policies that are aimed at maintenance of biodiversity outside Significant Natural Areas and give effect to policy 11 of NZ Coastal Policy Statement]</u> .
Royal Forest and Bird Protection Society	345.244	Natural and Environmental Values / Natural Features and Landscapes / NFL-R4	Support	Supports the rule.	Retain NFL-R4 (Any activity within outstanding natural features and landscapes not otherwise listed as permitted, restricted discretionary, or non-complying) as notified.
Horokiwi Quarries Ltd	271.37	Natural and Environmental Values / Natural Features and Landscapes / NFL-R5	Support in part	Supports the permitted activity rule NFL-R5. Notwithstanding the proposed Special Purpose Quarry Zone which would apply to the Horokiwi site, and the existing use certificate.	Retain NFL-R5 (Operation of existing quarrying and mining activities within special amenity landscapes), with amendments.
Horokiwi Quarries Ltd	271.38	Natural and Environmental Values / Natural Features and Landscapes / NFL-R5	Amend	Considers that in order to provide consistency in how existing quarries are managed within NFL features, an amendment is sought to include Hilltops and Ridgelines in the permitted rule, noting that rule NFL-R2 provides a qualifier to the permitted activity rule that is not provided in NFL-R5.	Amend NFL-R5 (Operation of existing quarrying and mining activities within special amenity landscapes) as follows: Operation of existing quarrying and mining activities within special amenity landscapes <u>and Hilltops and Ridgelines</u> . All Zones Activity status: Permitted
Royal Forest and Bird Protection Society	345.245	Natural and Environmental Values / Natural Features and Landscapes / NFL-R5	Oppose	Opposes the blanket provision for existing quarrying and mining activities, as this suggests their effects would not need to be considered if they require consenting.	Amend NFL-R5 (Operation of existing quarrying and mining activities within special amenity landscapes): 1. Activity status: Permitted Restricted Discretionary <u>Matters of discretion:</u> <u>1. [add cross references to relevant ECO and NFL policies that are aimed at maintenance of biodiversity outside Significant Natural Areas and give effect to policy 11 of NZ Coastal Policy Statement]</u> .
Horokiwi Quarries Limited	FS28.6	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-R5	Oppose	Horokiwi Quarries Ltd opposes the sought change in activity status for existing quarries. The rule as proposed recognises existing quarries and the PDP provides an appropriate consenting framework for any expansion or activities that require a new consent.	Disallow
Horokiwi Quarries Ltd	271.39	Natural and Environmental Values / Natural Features and Landscapes / NFL-R6	Support	Supports the discretionary activity rule NFL-R5 in so far as it applies to an expansion of the existing quarry operation. Notwithstanding the proposed Special Purpose Quarry Zone which would apply to the Horokiwi site, and the existing use certificate.	Retain NFL-R6 (Extension of existing quarrying and mining activities within special amenity landscapes) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.246	Natural and Environmental Values / Natural Features and Landscapes / NFL-R6	Oppose	Seeks the rule is given restricted discretionary status and that matters of discretion cross reference relevant policies in the plan including new ECO and NFL policies sought above.	Amend NFL-R6 (Extension of existing quarrying and mining activities within special amenity landscapes): 1. Activity status: Discretionary Restricted Discretionary <u>Matters of discretion:</u> 1. <u>add cross references to relevant ECO and NFL policies that are aimed at maintenance of biodiversity outside Significant Natural Areas and give effect to policy 11 of NZ Coastal Policy Statement.</u>
Horokiwi Quarries Limited	FS28.7	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-R6	Oppose	Horokiwi Quarries Ltd opposes the sought change in activity status for expansions. As a discretionary activity, other policies in the PDP would be applied where relevant and applicable.	Disallow
Horokiwi Quarries Ltd	271.40	Natural and Environmental Values / Natural Features and Landscapes / NFL-R7	Not specified	Considers that on the basis NFL-R6 relates to the expansion of existing quarries, Rule NFL-R7 has limited relevance to the submitter.	Retain NFL-R7 (New quarrying and mining activities within special amenity landscapes) as notified.
Royal Forest and Bird Protection Society	345.247	Natural and Environmental Values / Natural Features and Landscapes / NFL-R7	Support	Supports the rule.	Retain NFL-R7 (New quarrying and mining activities within special amenity landscapes) as notified.
Horokiwi Quarries Ltd	271.41	Natural and Environmental Values / Natural Features and Landscapes / NFL-R8	Not specified	Considers that given there are no ONFLs within proximity of the existing Horokiwi site, the rule has limited relevance to the submitter.	Retain NFL-R8 (Extension of existing quarrying and mining activities, new quarrying and mining activities and new plantation forestry within outstanding natural features and landscapes) as notified.
Royal Forest and Bird Protection Society	345.248	Natural and Environmental Values / Natural Features and Landscapes / NFL-R8	Support	Supports the rule.	Retain NFL-R8 (Extension of existing quarrying and mining activities, new quarrying and mining activities and new plantation forestry within outstanding natural features and landscapes) as notified.
Royal Forest and Bird Protection Society	345.249	Natural and Environmental Values / Natural Features and Landscapes / NFL-R9	Support	Supports the rule.	Retain NFL-R9 (The maintenance, repair or demolition of existing buildings and structures within outstanding natural features and landscapes, special amenity landscapes and ridgelines and hilltops) as notified.
Barry Ellis	47.1	Natural and Environmental Values / Natural Features and Landscapes / NFL-R10	Amend	Considers that the Council should provide the relevant data that justifies filling in gullies and building over natural streams and springs. Natural disasters of Nelson and Abbots Ford should not be forgotten.	Seeks that data be provided in NFL-R10 (The construction of, alteration of and addition to, buildings and structures within the ridgelines and hilltops) to justify filling in gullies. [Inferred decision requested]
Parkvale Road Limited	298.7	Natural and Environmental Values / Natural Features and Landscapes / NFL-R10	Oppose in part	Considers that the operational and functional need to locate within a ridgeline and hilltop is already reflected in the policy which is listed as a matter of discretion, and therefore does not need to be listed again separately.	Seeks amendment, opposes in part NFL-R10.2 (The construction of, alteration of and addition to, buildings and structures within the ridgelines and hilltops) within current form.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Andy Foster	FS86.73	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-R10	Oppose	Supports placing the farm within the Special Amenity Landscape (in addition to retaining Ridgeline and Hilltop status) as was instructed by Council when notifying the Plan. Opposes the request from Parkvale Road Limited to reorder the Ridgeline and Hilltops Policies and Rules. [See original Further Submission for full reasoning]. [Inferred reference to submission 29.7].	Disallow
Parkvale Road Limited	298.8	Natural and Environmental Values / Natural Features and Landscapes / NFL-R10	Amend	Considers that the operational and functional need to locate within a ridgeline and hilltop is already reflected in the policy which is listed as a matter of discretion, and therefore does not need to be listed again separately.	Amend NFL-R10 (The construction of, alteration of and addition to, buildings and structures within the ridgelines and hilltops) as follows: Matters of discretion are: 1. The matters in NFL-P2, and 2. The operational and function need to locate within the ridgeline and hilltop area.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.44	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-R10	Support	Agree that the operational and functional need to locate within a ridgeline and hilltop is already reflected in the policy which is listed as a matter of discretion, and therefore does not need to be listed again separately.	Allow
Andy Foster	FS86.74	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-R10	Oppose	Supports placing the farm within the Special Amenity Landscape (in addition to retaining Ridgeline and Hilltop status) as was instructed by Council when notifying the Plan. Opposes the request from Parkvale Road Limited to reorder the Ridgeline and Hilltops Policies and Rules. [See original Further Submission for full reasoning]. [Inferred reference to submission 29.8].	Disallow
Royal Forest and Bird Protection Society	345.250	Natural and Environmental Values / Natural Features and Landscapes / NFL-R10	Support in part	Considers permitted activity status in 1. and restricted discretionary in 2. is appropriate, but seeks subsequent amendments to NFL-P2 to ensure adequate protection of ridgelines and hilltops through matters of discretion.	Not specified.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.40	Natural and Environmental Values / Natural Features and Landscapes / NFL-R11	Oppose in part	Considers that there is a conflict between these provisions and the SAL overlay provisions which make residential development on this land restrictive and adds uncertainty. Notes that NFL-R11 requires buildings and structures within the SAL overlay to be no more than 8m in height. The MRZ height restriction is 11m. The proposed MRZ over the Submitters land is appropriate to support the strategic direction of the PDP.	Not specified.
Adam Groenewegen	FS46.17	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-R11	Oppose	Supports Kilmarston Development's support of the SAL overlay in the District Plan. However opposes the removal for the land in question. However oppose the removal for the land in question. The history of proposed development on this land (environment court decisions) and the community concerns about it strongly suggest that overlays such as SAL are appropriate to retain. An 8m height restriction is entirely appropriate for this location given it high landscape and amenity values, particularly for sightlines from Ngaio but also Crofton Downs from which are development will be visible.	Disallow / Disallow that part of the submission that seeks to remove the SAL from the Kilmarston Development's land.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Jo McKenzie	FS64.17	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-R11	Oppose	Support Kilmарston Development's support of the SAL overlay in the District Plan. However Jo McKenzie opposes the removal for the land in question. Considers that the history of proposed development on this land (environment court decisions) and the community concerns about it strongly suggest that overlays such as SAL are appropriate to retain. An 8m height restriction is entirely appropriate for this location given it high landscape and amenity values, apricularly for sightlines from Ngaio but also Crofton Downs from which are development will be visible.	Disallow / Disallow that part of the submission that proposes removing the SAL from the Kilmарston Development's land
Royal Forest and Bird Protection Society	345.251	Natural and Environmental Values / Natural Features and Landscapes / NFL-R11	Oppose	Opposes the permitted activity in SALs as neither it, nor NFL-S1, take into account effects on biodiversity as well as landscape values as well as policy 15 of the NZCPS, particularly regarding construction of new buildings and structures in the coastal environment	Delete NFL-R11.1 (The construction of, alteration of and addition to, buildings and structures within special amenity landscapes).
Royal Forest and Bird Protection Society	345.252	Natural and Environmental Values / Natural Features and Landscapes / NFL-R11	Amend	Supports RD status for this activity but seek that matters of discretion are widened to include relevant policies in the plan including new ECO and NFL policies sought above.	Amend NFL-R11.2 (The construction of, alteration of and addition to, buildings and structures within special amenity landscapes): 1. Activity status: Restricted Discretionary Where: a. Compliance with the requirements of NFL-R11.1.a cannot be achieved. Matters of discretion are: 1. The matters in NFL-P3 and NFL-P4 <u>add cross references to relevant ECO and NFL policies that are aimed at maintenance of biodiversity outside Significant Natural Areas and give effect to policy 11 of NZ Coastal Policy Statement</u> .
Royal Forest and Bird Protection Society	345.253	Natural and Environmental Values / Natural Features and Landscapes / NFL-R12	Support in part	Considers the hierarchy is appropriate as it gives effect to Policy 15 of the NZCPS. Seeks that matters of discretion are widened to include relevant policies in the plan including new ECO and NFL policies sought above.	Amend NFL-R12 (): 2. Activity status: Restricted Discretionary Where: a. Compliance can be achieved with NFL-S2; and b. The building or structure is located outside the coastal environment. Matters of discretion are: 1. The matters in NFL-P5 <u>add cross references to relevant ECO and NFL policies that are aimed at maintenance of biodiversity outside Significant Natural Areas and give effect to policy 11 of NZ Coastal Policy Statement</u> .
Zealandia Te Māra a Tāne	486.5	Natural and Environmental Values / Natural Features and Landscapes / NFL-R12	Support in part	Supports the new delineation of the Outstanding Natural Landscape which now excludes operations and office environments.	Retain NFL-R12 (The construction of, alteration of and addition to, buildings and structures within outstanding natural features and landscapes) as notified. [Inferred decision requested].
John Tiley	142.12	Natural and Environmental Values / Natural Features and Landscapes / NFL-S1	Oppose	Considers that NFL-S1 (Buildings and structures in special amenity landscapes) appears intended to permit residential housing construction in special amenity areas. These areas should be free of buildings.	Seeks that special amenity areas are free of buildings.
Churton Park Community Association	189.12	Natural and Environmental Values / Natural Features and Landscapes / NFL-S1	Oppose	Considers that NFL-S1 (Buildings and structures in special amenity landscapes) appears intended to permit residential housing construction in special amenity areas. These areas should be free of buildings.	Seeks that special amenity areas are free of buildings.
Kilmарston Developments Limited and Kilmарston Properties Limited	290.41	Natural and Environmental Values / Natural Features and Landscapes / NFL-S1	Support in part	Considers that the proposed standard will be better aligned to manage activities over the proposed NOSZ that the balance land is subject to.	Seeks that NFL-S1 (Buildings and structures in special amenity landscapes) apply to land identified within the Natural Open Space Zone. [inferred decision]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Adam Groenewegen	FS46.22	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-S1	Oppose	Opposes the suggestion that SAL criteria would be appropriate to apply to NOSZ zoned land. That would be contrary to the purpose of that zone to enable a more lax approach to buildings and structures.	Disallow
Jo McKenzie	FS64.22	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-S1	Oppose	Opposes the suggestion that SAL criteria would be appropriate to apply to NOSZ zoned land. Considers that would be contrary to the purpose of that zone to enable a more lax approach to buildings and structures.	Disallow
Andy Foster	FS86.53	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-S1	Oppose	Considers that it is not reasonable to allow for housing development to intrude into the land zoned Open Space and Rural in the Operative Plan. The landscape impacts would be substantial, both of any housing and of the roading access. The impacts on vegetation would also be significant. Notes that the area of bush at the bottom of the site, immediately adjacent to and climbing up from Silverstream Road is of particularly high quality. The concept of putting housing or an access road through it would be entirely unreasonable. For all these reasons Andy Foster opposes any development in this area beyond a carefully designed reservoir. [See original Further Submission for full reasoning]. [Inferred reference to submission 290.41]	Disallow
Kilmarston Developments Limited and Kilmarston Properties Limited	290.42	Natural and Environmental Values / Natural Features and Landscapes / NFL-S1	Amend	Considers that the proposed standard will be better aligned to manage activities over the proposed NOSZ that the balance land is subject to.	Seeks that NFL-S1 (Buildings and structures in special amenity landscapes) apply to land identified within the Natural Open Space Zone. [inferred decision]
Adam Groenewegen	FS46.23	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-S1	Oppose	Opposes the suggestion that SAL criteria would be appropriate to apply to NOSZ zoned land. That would be contrary to the purpose of that zone to enable a more lax approach to buildings and structures.	Disallow
Jo McKenzie	FS64.23	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-S1	Oppose	Opposes the suggestion that SAL criteria would be appropriate to apply to NOSZ zoned land. Considers that would be contrary to the purpose of that zone to enable a more lax approach to buildings and structures.	Disallow
Royal Forest and Bird Protection Society	345.254	Natural and Environmental Values / Natural Features and Landscapes / NFL-S1	Oppose in part	Considers construction of 8m buildings and structures in SALs will have significant visual and landscape effects, we question whether this is compatible with s7(c) of the RMA.	Amend NFL-S1 (Buildings and structures in special amenity landscapes) to reduce the maximum height of buildings and structures within special amenity landscapes.
Royal Forest and Bird Protection Society	345.255	Natural and Environmental Values / Natural Features and Landscapes / NFL-S2	Support	Supports the standard.	Retain NFL-S2 (Buildings and structures in outstanding natural features and landscapes) as notified.
Zealandia Te Māra a Tāne	486.6	Natural and Environmental Values / Natural Features and Landscapes / NFL-S2	Not specified	Considers that it is unclear whether NFL-S2 could cause challenges for Zealandia operations in relation to replacement of the fence perimeter fence over time (which may need to be done rapidly as issues arise, with an aging fence and the biosecurity threat it presents).	Seeks clarity whether NFL-S2 (Buildings and structures in outstanding natural features and landscapes) would cause challenges for Zealandia operations in relation to replacement of the fence perimeter fence over time.

Ecosystems and Indigenous Biodiversity - Public Access

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Victoria University of Wellington Students' Association	123.44	Natural and Environmental Values / Public Access / PA-O1	Support	Supports that public access is maintained along the coast, lakes, and rivers.	Retain PA-O1 (Public access) as notified. [Inferred decision requested]
Tyers Stream Group	221.61	Natural and Environmental Values / Public Access / PA-O1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain PA-O1 (Public access) as notified.
Greater Wellington Regional Council	351.170	Natural and Environmental Values / Public Access / PA-O1	Support	Considers it gives effect to section 6(d) of the RMA.	Retain PA-O1 (Public Access) as notified.
WCC Environmental Reference Group	377.157	Natural and Environmental Values / Public Access / PA-O1	Support	Objective PA-O1 is supported as it safeguards public access, whilst protecting environmental values is important to Wellington and a city that has a strong relationship to its natural environment.	Retain PA-O1 (Public access) as notified.
Director-General of Conservation	385.47	Natural and Environmental Values / Public Access / PA-O1	Support	Supports proposed Objective PA-O1 (Public access).	Retain objective PA-O1 (Public access) as notified.
Tyers Stream Group	221.62	Natural and Environmental Values / Public Access / PA-O2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain PA-O2 (Adverse effects of public access) as notified.
Meridian Energy Limited	228.92	Natural and Environmental Values / Public Access / PA-O2	Oppose in part	Considers the objective needs to be moderated to ensure that public access does not compromise the security of existing regionally significant infrastructure.	Retain Objective PA-O2 (Adverse effects of public access) with amendment.
Meridian Energy Limited	228.93	Natural and Environmental Values / Public Access / PA-O2	Amend	Considers the objective needs to be moderated to ensure that public access does not compromise the security of existing regionally significant infrastructure.	Amend Objective PA-O2 (Adverse effects of public access) to protect the security of regionally significant infrastructure as follows (or similar): Adverse effects of public access Public access does not have a negative impact on existing values such as natural character, indigenous biodiversity, landscape values, historic heritage, sites of significance to Māori, <u>the security of regionally significant infrastructure</u> or the coastal environment.
Wellington International Airport Limited	FS36.80	Part 2 / Natural and Environmental Values / Public Access / PA-O2	Support	WIAL supports this policy and agrees that it is important that public access is not provided to the detriment of the safety and security of regionally significant infrastructure. Similarly, public access should not give rise to adverse effects on public health and safety as a result of its proximity to regionally significant infrastructure.	Allow
Greater Wellington Regional Council	351.171	Natural and Environmental Values / Public Access / PA-O2	Support in part	The objective is generally supported, but amendments are sought to ensure that the objective is achieved.	Retain PA-O2 (Adverse effects of public access) with amendment.
Greater Wellington Regional Council	351.172	Natural and Environmental Values / Public Access / PA-O2	Amend	Considers an assessment of natural character in riparian margins landward of the coastal environment has not yet been undertaken, and is necessary to protect existing natural character values. It is sought that the natural character ratings of riparian margins are assessed, which has been sought through a new policy in the natural character chapter.	Seeks that the Objective PA-O2 (Adverse effects of public access) is ensured by undertaking natural character ratings of riparian margins.
WCC Environmental Reference Group	377.158	Natural and Environmental Values / Public Access / PA-O2	Support	Objective PA-O2 is supported as it safeguards public access, whilst protecting environmental values is important to Wellington and a city that has a strong relationship to its natural environment.	Retain PA-O2 (Adverse effects of public access) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Director-General of Conservation	385.48	Natural and Environmental Values / Public Access / PA-O2	Support	Supports proposed Objective PA-O2 (Adverse effects of public access).	Retain objective PA-O2 (Adverse effects of public access) as notified.
Wellington International Airport Ltd	406.252	Natural and Environmental Values / Public Access / PA-O2	Oppose in part	Considers that there are further changes are required to the objective to ensure there is a clear policy rationale for limbs 5 and 11 of Policy PA-P3.	Opposes PA-O2 (Adverse effects of public access) and seeks amendment.
Wellington International Airport Ltd	406.253	Natural and Environmental Values / Public Access / PA-O2	Amend	Considers that there are further changes are required to the objective to ensure there is a clear policy rationale for limbs 5 and 11 of Policy PA-P3.	Amend PA-O2 (Adverse effects of public access) as follows: ... Public access does not have a negative impact on: <u>a. existing values such as natural character, indigenous biodiversity, landscape values, historic heritage, sites of significance to Māori or the coastal environment; or</u> <u>b. Public health and safety, particularly with respect to the safe operation and functioning of the Port and Airport.</u>
Te Rūnanga o Toa Rangatira	488.54	Natural and Environmental Values / Public Access / PA-O2	Support	Supports that the objective seeks to ensure that public access does not negatively impacts Sites and Areas of Significance to Maori.	Retain Objective PA-O2 (Adverse effects of public access) as notified.
Greater Wellington Regional Council	FS84.115	Part 2 / Natural and Environmental Values / Public Access / PA-O2	Support	Greater Wellington support provisions which seek to protect Sites and Areas of Significance to Māori.	Allow / Seek provisions which protect SASM.
Tyers Stream Group	221.63	Natural and Environmental Values / Public Access / PA-P1	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks amendment to PA-P1 (Appropriate activities) to clearly deliver the enhancement required by Objective PA-O1.
Greater Wellington Regional Council	351.173	Natural and Environmental Values / Public Access / PA-P1	Support	Considers it gives effect to section 6(d) of the RMA.	Retain PA-P1 (Appropriate activities) as notified.
WCC Environmental Reference Group	377.159	Natural and Environmental Values / Public Access / PA-P1	Support	PA-P1 is supported as it safeguards public access, whilst protecting environmental values is important to Wellington and a city that has a strong relationship to its natural environment.	Retain PA-P1 (Appropriate activities) as notified.
Tyers Stream Group	221.64	Natural and Environmental Values / Public Access / PA-P2	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks amendment to PA-P2.3 to include setbacks from both existing and potential public access corridors to ensure linkages are made or enabled.
Greater Wellington Regional Council	351.174	Natural and Environmental Values / Public Access / PA-P2	Amend	Considers that an assessment of natural character in riparian margins landward of the coastal environment has not yet been undertaken.	Seeks to ensure that the natural character ratings of riparian margins are undertaken.
WCC Environmental Reference Group	377.160	Natural and Environmental Values / Public Access / PA-P2	Support	PA-P2 is supported as it sends an important signal about the need to take steps to at least maintain, and wherever possible enhance public access to the coast and water ways.	Retain PA-P2 (Maintenance and enhancement of public access) as notified.
Director-General of Conservation	385.49	Natural and Environmental Values / Public Access / PA-P2	Support	Supports proposed Policy PA-P2 (Maintenance and enhancement of public access).	Retain policy PA-P2 (Maintenance and enhancement of public access) as notified.
Tyers Stream Group	221.65	Natural and Environmental Values / Public Access / PA-P3	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain PA-P3 (Restriction of public access) as notified.
Meridian Energy Limited	228.94	Natural and Environmental Values / Public Access / PA-P3	Support in part	Considers the protection of existing regionally significant infrastructure other than the Port and Airport is another legitimate reason for restricting public access that should be added to the list of exceptions.	Retain Policy PA-P3 (Restriction of public access) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	228.95	Natural and Environmental Values / Public Access / PA-P3	Amend	Considers the protection of existing regionally significant infrastructure other than the Port and Airport is another legitimate reason for restricting public access that should be added to the list of exceptions.	Amend Policy PA-P3 (Restriction of public access) by adding an additional circumstance for restriction to the list as follows: Restriction of public access Only allow for the restriction of public access to, along or adjacent to the coast and waterbodies where the restriction is necessary to: 1. 11. Provide for the safe and efficient operation of <u>regionally significant infrastructure, including the Port and Airport Zone.</u>
Greater Wellington Regional Council	351.175	Natural and Environmental Values / Public Access / PA-P3	Oppose in part	Considers it unclear as to whether PA-P3(10) gives effect to a relevant higher order planning documents and therefore should not be included in PA-P3.	Opposes PA-P3 (Restriction of public access) and seeks amendments.
Greater Wellington Regional Council	351.176	Natural and Environmental Values / Public Access / PA-P3	Amend	Considers that sub-clause 10 in PA-P3 should be deleted. (Option A)	Amend PA-P3 (Restriction of public access) as follows: Only allow for the restriction of public access to, along or adjacent to the coast and waterbodies where the restriction is necessary to: ... 10. Address other exceptional circumstances sufficient to justify the restriction, or 11. Provide for the safe and efficient operation of the Port and Airport Zone.
Wellington International Airport Limited	FS36.81	Part 2 / Natural and Environmental Values / Public Access / PA-P3	Support	WIAL supports the inclusion of subparagraph 11, however notes that Airport infrastructure can also be located outside of the Airport Zone (and possibly the same could be said for Port infrastructure).	Allow / Seeks that part of submission to be allowed.
Greater Wellington Regional Council	351.177	Natural and Environmental Values / Public Access / PA-P3	Amend	Considers that PA-P3 should be amended to ensure the policy gives effect to higher planning documents. (Option B)	Amend PA-P3 (Restriction of public access) to ensure the policy gives effect to higher planning documents.
WCC Environmental Reference Group	377.161	Natural and Environmental Values / Public Access / PA-P3	Support	PA-P3 is supported as it recognises that in some situations the natural environment needs protecting from access.	Retain PA-P3 (Restriction of public access) as notified.
Wellington International Airport Ltd	406.254	Natural and Environmental Values / Public Access / PA-P3	Support	Considers that it is appropriate to limit the provision of public access when necessary to provide for the safe and efficient operation of activities at Wellington International Airport.	Retain PA-P3 (Restriction of Public Access) as notified.
Tyers Stream Group	221.66	Subdivision chapter / General point on Subdivision / General point on Subdivision	Amend	Considers that the RMA definition of river applies to streams. There are also waterways in Wellington with an annual flow bed width that is more than 3m wide, including Tyers Stream downstream from approximately the junction of Delhi and Karachi Crescents. [Refer to original submission for full reason]	Seeks that appropriate esplanade provision be made along the margins of Tyers Stream, and other waterways, whenever subdivision occurs (as is required by the RMA) to create better linkages and facilitate more liveable spaces and lower energy/runoff intensity use of areas,
Waka Kotahi	370.189	Subdivision chapter / General point on Subdivision / General point on Subdivision	Amend	Subdivision close to the state highway corridor should be at least restricted discretionary, and (as noted elsewhere), if there is a blanket distance from the state highway, it should be 100m. At subdivision stage there can be better options available to manage noise exposure rather than leaving it to treating individual houses, which does not protect outdoor amenity and can constrain residents to having to use mechanical ventilation.	Seeks to amend to require consent (at least restricted discretionary) for subdivision within 100m of a state highway.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	FS72.55	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Support	<p>Supports the relief sought and seeks further amendment to include the rail corridor within this provision. If subdivision within 100m of the rail corridor had a RDIS activity status, noise and vibration management options could be considered for a whole development as opposed to on individual properties.</p> <p>Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.</p>	Amend / Adopt amendment sought and include rail corridor within provision
Stride Investment Management Limited	FS107.27	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	Stride considers that it would be unnecessary and inappropriate to apply a Restricted Discretionary activity status for all subdivision with 100m of a state highway. This blanket rule lacks nuance and may impose an unreasonable burden on subdivision, and other controls are more appropriate to manage any effects of the subdivision on the state highway.	Disallow
Investore Property Limited	FS108.27	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	Investore considers that it would be unnecessary and inappropriate to apply a Restricted Discretionary activity status for all subdivision with 100m of a state highway. This blanket rule lacks nuance and may impose an unreasonable burden on subdivision, and other controls are more appropriate to manage any effects of the subdivision on the state highway.	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.83	Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	<p>Opposes the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford.</p> <p>Submitter supports the protection of areas of significant indigenous vegetation as well as landscapes that have cultural, historical, spiritual and traditional significance to Taranaki Whānui, the identification and protection of environmental overlays in previously developed areas is of concern to Taranaki Whānui.</p> <p>Concerns there is potential for these overlays to significantly restrict future development and opportunities for Taranaki Whānui to exercise tino rangatiratanga over their ancestral lands.</p>	Seeks that the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford is removed; specifically at Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Enterprise Miramar Peninsula Inc	FS26.12	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	<p>It is clear Taranaki Whānui want all restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear based on the submission exactly how large an area they want to have rezoned.</p> <p>Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan, both the Corrections and Defence Land have not in the past contested this zoning and the Proposed District Plan keeps Watts Peninsula as open Space, the Ridgelines and Hilltops add to significant Natural Areas (for biodiversity) it has a Special Amenity Landscape which is used by the community and tourists to the enjoyment of being close to a city but with a natural environment.</p> <p>Taranaki Whānui are seeking to amend the zoning in this area to Medium Density Residential or to a Special Purpose Zone – Māori Purpose Zone, without any public engagement. Such changes would have a significant impact on the local community and should not be undertaken without wider consultation and engagement in order to ensure that proposed changes do not have a detrimental effect. As noted above, it is of concern to the businesses, community (ratepayers) of Te Motu Kairangi/Miramar Peninsula and the wider public that the rezoning applied for by Taranaki Whānui (currently open space) to develop a papakainga creates infrastructure issues on an already overloaded roading, flooding and transport links to and from the Peninsula.</p> <p>[Inferred reference to submission 389.83].</p>	Disallow
Buy Back the Bay	FS79.13	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	<p>Submission 389 states as a Submission Point, that “Taranaki Whānui opposes the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford.”</p> <p>It lists the relevant PDP Chapter as:</p> <ul style="list-style-type: none"> • Planning maps • He Rohe Ahoaho Māori Natural Open Space Zone chapter • Ngā Wāhi Tapu ki te Māori Sites and Areas of Significance to Māori chapter • Ngā Pūnaha Rauropi me te Kanorau Koiara Taketake Ecosystems and Indigenous Biodiversity chapter • Te Ahurei o Ngā Hanga Māori Natural Character chapter • Ngā Hanga Māori me Ngā Nohopae Natural Features and Landscapes chapter • Wawaetanga Subdivision chapter • Taiao Takutai Coastal Environment chapter <p>Opposes in total Submission 389 on these points, which appears to be a wholesale rejection of planning rules in these areas.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Buy Back the Bay	FS79.30	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	<p>Submission 389 states: "Taranaki Whānui's RFR [Right of First Refusal] opportunities in Te Motu Kairangi: Taranaki Whānui have a significant interest in Te Motu Kairangi which includes Mount Crawford and Watts Peninsula, these landholdings hold significant interest - culturally, socially, environmentally and commercially to Taranaki Whānui. These opportunities include the Mount Crawford Prison site as well as the 'Watts Peninsula' sites being 75.85 hectares of former Defence Land."</p> <p>Buy Back the Bays notes that the Submission does not include maps however they (Buy Back the Bays) are very concerned to see that Taranaki Whānui appears to be seeking possible commercial development of 75.85 hectares of former defence land on Watts Peninsula. This appears to be the heart of the long-promised Watts Peninsula park and a major part of the proposed national heritage park.</p> <p>Buy Back the Bays strongly oppose rezoning on Watts Peninsula to facilitate any development there that is incompatible with the park plans. More generally, Buy Back the Bays oppose Submission 389's attempt to remove the proposed public interest controls from Watts Peninsula and Mount Crawford. Considers that where Submission 389 states "Illustrated on Figure One below, the following zone and overlays are proposed for Taranaki Whānui's RFR properties in Te Motu Kairangi," Buy Back the Bays oppose the changes it seeks. This includes opposing Submission 389's request for "The proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST [to be] amended from Natural Open Space Zone to: a. Medium Density Residential; and b. Special Purpose Zone – Māori Purpose Zone."</p>	Disallow
Buy Back the Bay	FS79.49	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	<p>Refers to submission 389 states: Taranaki Whānui opposes the extent of the proposed zoning of Shelly Bay Taikuru and the proposed height control limits." Buy Back the Bays opposes the submission on both points.</p> <p>Specifically, the Submission 389 for Taranaki Whānui seeks that:</p> <p>"1. The Mixed Use Zone is extended across the allotments illustrated in Figure Two below or amended to follow the extent of consented development area outlined in the approved masterplan and engineering drawings.</p> <p>2. The Height Control Area is amended to 27m being the maximum height of development consented under the Shelly Bay Masterplan resource consent."</p> <p>Buy Back the Bays opposes both parts. Buy Back the Bays note that neither part affects Taranaki Whānui's commercial or other interests. Considers that both parts only affect the tall apartment buildings planned by and for the exclusive commercial benefit of The Wellington Company, not the leasing of lower existing buildings that The Wellington Company has offered to Taranaki Whānui as its stake in the project.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Lance Lones	FS81.15	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	<p>Te Motu Kairangi is very nearly an island, and as a result of the amazing work of Predator Free Wellington, is in fact, nearly predator free, and uniquely able to support significant biodiversity. Combined with the Ridgelines and Hilltops Overlay, and the Significant Natural Areas overlay of this space, all citizens of both Wellington, and Aotearoa in general have an incredibly singular opportunity to support the development of native flora and fauna in one nearly contiguous environment, a situation which is unique within Wellington. Attests to the incredible return of many native species of birds to this area, from kererū, to flocks of piwakawaka and tūi, kārearea hunting on the hillsides and heard ruru calling in the evenings and mornings.</p> <p>To remove the Open Space zoning, Significant Natural Areas and Special Amenity Landscape overlays for a significant portion of this habitat would put these species at risk once again.</p> <p>Presents a unique opportunity to implement the Ministry for the Environment's Proposed National Policy Statement for Indigenous Biodiversity. This policy progressively refers to the concept of Te Rito o te Harakeke.</p> <p>The local community has expressed the desire to work with and develop a master plan for the Watts Peninsula, but this voice has been repeatedly denied by council. Removing the protections put in place by the proposed district plan would once again disempower the greater community with no discussion.</p> <p>[Refer to further submission for full reason]</p>	Disallow / Seeks that the current zoning and overlays as presented in the Proposed District Plan for the northern sections of Te Motu Kairangi / Miramar Peninsula be retained. In particular, that the Open Space zoning, Special Amenity Landscape, Natural Areas, and Ridgelines and Hilltops overlays are retained.
Andy Foster	FS86.18	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	<p>The submission from Taranaki Whānui if accepted would remove all protections, many of them long standing and uncontested for decades, from Te Motu Kairangi / Watts Peninsula and make community involvement much less likely, and limit the need for community involvement. On these basis the submitter opposes Taranaki Whānui's submission.</p> <p>Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan. It has been Open Space B for at least the last 30 years, and nobody has ever contested this. That includes both the Corrections and Defence Land.</p> <p>The Proposed District Plan keeps Watts as Open Space and within the Ridgelines and Hilltops Overlay. It also adds Significant Natural Areas (for biodiversity) and a Special Amenity Landscape (because of its high level of landscape importance) All of these are based on good evidence. Taranaki Whānui want all of those restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear exactly how large an area they want to have rezoned.</p> <p>Taranaki Whānui's request to remove the Open Space zoning which has been in place, uncontested by the owners, for at least 30 years. The current Open Space B zoning does not anticipate any built development and therefore there is no legal or reasonable expectation that there should be any development here.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 389.83]</p>	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.84	Subdivision chapter / General point on Subdivision / General point on Subdivision	Amend	<p>Considers that overlays to significantly restrict future development and opportunities for Taranaki Whānui to exercise tino rangatiratanga over our ancestral lands.</p>	Seeks that any other relief to enable Taranaki Whānui to exercise tino rangatiratanga over our RFR properties in Te Motu Kairangi.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Laurence Harger & Ingrid Kölle	FS2.23	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	76 hectares of Watts Peninsula has been set aside by the government as a reserve focused on protecting iwi and military history sites and retaining the value of the natural landscape of the area. Supports the establishment of such a reserve and would like to see it become part of the National Heritage Park proposed by the Buy Back the Bay group. The zoning and overlays of the Proposed District Plan must be kept if the reserve/heritage park is to be a viable option. Taranaki Whānui's requests would remove many protections that have been longstanding and unopposed for decades, which must surely not occur without extensive community engagement. Watts Peninsula, with its ridges and hill lines visible from all over Wellington, should remain undeveloped, which might very well not be the case if the land is rezoned.	Disallow / Seeks that the part of the submission to remove the proposed zoning and overlays on Watts Peninsula be disallowed.
Mary Varnham and Paul O'Regan	FS40.23	Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	<p>From 2011 the 76 hectares of Watts Peninsula has been set aside by the government as a reserve, to incorporate and protect iwi (as well as military) sites and history. Submitter supports this as an appropriate and visionary plan for the peninsula.</p> <p>Submitter supports the proposal of Buy Back the Bay group that the area should become a National Heritage Park.</p> <p>Submitter supports a conservancy model for development and management of this park, to include iwi, government, council, the local community, and organisations such as Forest and Bird and Predator Free Miramar.</p> <p>Disallow all proposals by Taranaki Whānui to remove the proposed zoning and overlays. These provisions are vital to protect the natural values, history and landscape of Watts Peninsula, a prominent feature of Te Whanganui-a-Tara.</p> <p>Supports retaining all provisions in the proposed district plan for Open Space B, Ridgelines and Hilltops, Significant Natural Areas and Special Amenity Landscape. We note the magnificent work done by Predator Free Miramar. Protecting and enhancing the huge gains in bringing back birdlife made should be a primary consideration. We also believe the peninsula should see extensive planting and regeneration of native forest.</p>	Disallow
Buy Back the Bay	FS79.14	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	<p>Submission 389 states as a Submission Point, that "Taranaki Whānui opposes the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford."</p> <p>It lists the relevant PDP Chapter as:</p> <ul style="list-style-type: none"> • Planning maps • He Rohe Ahoaho Māori Natural Open Space Zone chapter • Ngā Wāhi Tapu ki te Māori Sites and Areas of Significance to Māori chapter • Ngā Pūnaha Rauropi me te Kanorau Koiora Taketake Ecosystems and Indigenous Biodiversity chapter • Te Ahurei o Ngā Hanga Māori Natural Character chapter • Ngā Hanga Māori me Ngā Nohopae Natural Features and Landscapes chapter • Wawaetanga Subdivision chapter • Taiao Takutai Coastal Environment chapter <p>Opposes in total Submission 389 on these points, which appears to be a wholesale rejection of planning rules in these areas.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Buy Back the Bay	FS79.31	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	<p>Submission 389 states: "Taranaki Whānui's RFR [Right of First Refusal] opportunities in Te Motu Kairangi: Taranaki Whānui have a significant interest in Te Motu Kairangi which includes Mount Crawford and Watts Peninsula, these landholdings hold significant interest - culturally, socially, environmentally and commercially to Taranaki Whānui. These opportunities include the Mount Crawford Prison site as well as the 'Watts Peninsula' sites being 75.85 hectares of former Defence Land."</p> <p>Buy Back the Bays notes that the Submission does not include maps however they (Buy Back the Bays) are very concerned to see that Taranaki Whānui appears to be seeking possible commercial development of 75.85 hectares of former defence land on Watts Peninsula. This appears to be the heart of the long-promised Watts Peninsula park and a major part of the proposed national heritage park.</p> <p>Buy Back the Bays strongly oppose rezoning on Watts Peninsula to facilitate any development there that is incompatible with the park plans. More generally, Buy Back the Bays oppose Submission 389's attempt to remove the proposed public interest controls from Watts Peninsula and Mount Crawford. Considers that where Submission 389 states "Illustrated on Figure One below, the following zone and overlays are proposed for Taranaki Whānui's RFR properties in Te Motu Kairangi," Buy Back the Bays oppose the changes it seeks. This includes opposing Submission 389's request for "The proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST [to be] amended from Natural Open Space Zone to: a. Medium Density Residential; and b. Special Purpose Zone – Māori Purpose Zone."</p>	Disallow
Buy Back the Bay	FS79.50	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	<p>Refers to submission 389 states: Taranaki Whānui opposes the extent of the proposed zoning of Shelly Bay Taikuru and the proposed height control limits." Buy Back the Bays opposes the submission on both points.</p> <p>Specifically, the Submission 389 for Taranaki Whānui seeks that:</p> <p>"1. The Mixed Use Zone is extended across the allotments illustrated in Figure Two below or amended to follow the extent of consented development area outlined in the approved masterplan and engineering drawings.</p> <p>2. The Height Control Area is amended to 27m being the maximum height of development consented under the Shelly Bay Masterplan resource consent."</p> <p>Buy Back the Bays opposes both parts. Buy Back the Bays note that neither part affects Taranaki Whānui's commercial or other interests. Considers that both parts only affect the tall apartment buildings planned by and for the exclusive commercial benefit of The Wellington Company, not the leasing of lower existing buildings that The Wellington Company has offered to Taranaki Whānui as its stake in the project.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Lance Lones	FS81.16	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	<p>Te Motu Kairangi is very nearly an island, and as a result of the amazing work of Predator Free Wellington, is in fact, nearly predator free, and uniquely able to support significant biodiversity. Combined with the Ridgelines and Hilltops Overlay, and the Significant Natural Areas overlay of this space, all citizens of both Wellington, and Aotearoa in general have an incredibly singular opportunity to support the development of native flora and fauna in one nearly contiguous environment, a situation which is unique within Wellington. Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Transpower New Zealand Limited	315.166	Subdivision chapter / Subdivision / General SUB	Amend	Considers that in order to assist with plan interpretation and application, reference to the National Grid as a qualifying matter within the introductory/plan relationship text of the subdivision chapter of the PDP should be included.	Amend the introduction to the Subdivision Chapter as follows: Other relevant District Plan provisions It is important to note that in addition to the provisions in this chapter, subdivision must comply with all applicable rules and standards for qualifying matter areas and a number of other Part 2: District-Wide chapters also contain provisions that may be relevant, including: ... - Infrastructure - the subdivision chapter includes rules to implement objectives and policies in the Infrastructure Chapter where certain types of subdivision are in close proximity to some network utilities. <u>The National Grid is a qualifying matter with its rules to be applied.</u> ... Resource consent may therefore be required under rules in this chapter as well as other chapters. Unless specifically stated in a rule or in this chapter, resource consent is required under each relevant rule. The steps to determine the status of an activity are set out in the General Approach chapter.
Transpower New Zealand Limited	315.167	Subdivision chapter / Subdivision / General SUB	Support	Considers the introductory text to the Subdivision Chapter provides guidance as to the applicability of the rule and policy provisions. Supports this guidance, in particular the reference that the area specific and topic specific provisions apply. A minor amendment is sought to amend the reference 'topic specific' to 'district wide' as it is considered the term 'topic specific' is not otherwise used in the plan and therefore it may be unclear to plan users to which provisions the term applies.	Retain the Introductory text to the Subdivision Chapter, subject to a minor amendment.
Transpower New Zealand Limited	315.168	Subdivision chapter / Subdivision / General SUB	Amend	Considers the introductory text to the Subdivision Chapter provides guidance as to the applicability of the rule and policy provisions. Supports this guidance, in particular the reference that the area specific and topic specific provisions apply. A minor amendment is sought to amend the reference 'topic specific' to 'district wide' as it is considered the term 'topic specific' is not otherwise used in the plan and therefore it may be unclear to plan users to which provisions the term applies.	Amend the introductory text to the Subdivision Chapter as follows: ... Rule SUB-R1 relates specifically to subdivision of land for the purpose of the construction and use of residential units in the Medium Density Residential Zone and the High Density Residential Zone. Subdivisions under Rule SUB-R1 are not subject to Rules SUB-R2 – SUB-R5, but are subject to the area specific and topic-specific district wide rules where the land also contains a corresponding planning notation or overlay.
Transpower New Zealand Limited	315.169	Subdivision chapter / Subdivision / General SUB	Support	Supports guidance provided within the introduction to the PDP that clarifies for plan users that the objectives and policies relating to subdivision within the National Grid Yard are provided within the INF Chapter. Considers such direction is necessary given the PDP chapters separates the rules from the supporting policy framework.	Seeks to retain the text within the 'Other relevant District Plan provisions' section of the Introduction to the Subdivision chapter.
Greater Wellington Regional Council	351.178	Subdivision chapter / Subdivision / General SUB	Amend	Considers that in riparian margins landward of the coastal environment, the first step to assessing the potential effects of an activity (such as subdivision) on natural character requires determining the natural character rating, both at the site and area scales. Therefore, including a new policy to direct natural character ratings to be identified in riparian margins landward of the coastal environment will ensure that potential effects can be managed as part of the assessment of environmental effects in accordance with the natural character rating.	Seeks to include a new process policy as requested in the Natural Character chapter, for WCC to identify natural character ratings in riparian margins landward of the coastal environment and, in the interim, for WCC officers to work with applicants for resource consent to determine as to whether a natural character assessment is required as part of a resource consent process.
Kāinga Ora Homes and Communities	391.187	Subdivision chapter / Subdivision / General SUB	Support in part	The Introduction to the Subdivision chapter is generally supported, but amendments are sought to clarify the effects of poorly designed subdivisions are related to vacant lot subdivisions where the land use activities have not been designed.	Retain the Introduction to the Subdivision chapter with amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.188	Subdivision chapter / Subdivision / General SUB	Amend	Considers that the Introduction to the Subdivision chapter should be amended to clarify how the effects of poorly designed subdivisions are related to vacant lot subdivisions where the land use activities have not been designed. Further amendments are sought to clarify that the District Plan seeks to provide a more enabling framework for combined land use and subdivision resource consents. Further amendments are sought for clarity as it is considered that the explanation of the application of the objectives, policies and rules is confusing and does not provide further clarity, and that the objectives, policies and rules themselves should clearly describe how they apply.	Amend the Introduction to the Subdivision chapter as follows: ... In addition to facilitating increased housing supply and choice, subdivision is related to the Council's aims for a more sustainable and resilient future for Wellington. For example, poorly designed <u>vacant lot</u> subdivisions can limit neighbourhood connectivity and cohesion, entailing also longer travel times, greater reliance on private vehicle transport and associated increases in greenhouse gas emissions. ... Poorly-designed <u>vacant lot</u> subdivisions can also lead to greater energy consumption an associated costs for home heating, relative to designs that make better use of solar aspect another renewable energy opportunities. <u>Objectives, policies, rules and standards included in the subdivision chapter seek to manage the effects of vacant lot subdivision.</u> When subdivision and related land use activities are assessed concurrently, it enables a comprehensive understanding of the resulting pattern, scale and density of development. For this reason, the Council prefers combined subdivision and land use resource consent applications to be made wherever possible <u>and therefore the District Plan provides a more enabling framework for combined subdivision and land use application. However, it is understood that such an integrated approach is not always practicable or preferable for applicants, for a variety of reasons.</u> ... Subdivisions commonly lead to in an increase in intensity of land use activity, and <u>additional</u> steps <u>may</u> need to be taken <u>for vacant lot at</u> subdivisions <u>stage</u> to ensure existing and future activities can be serviced for access, water supply, wastewater disposal, stormwater management, telecommunications and power supply.
Kāinga Ora Homes and Communities	391.189	Subdivision chapter / Subdivision / General SUB	Amend	Considers that the Introduction to the Subdivision chapter should be amended to clarify the effects of poorly designed subdivisions are related to vacant lot subdivisions where the land use activities have not been designed. Further amendments are sought to clarify that the District Plan seeks to provide a more enabling framework for combined land use and subdivision resource consents. Further amendments are sought for clarity as it is considered that the explanation of the application of the objectives, policies and rules is confusing and does not provide further clarity, and that the objectives, policies and rules themselves should clearly describe how they apply.	Amend the Introduction to the Subdivision chapter as follows: ... Subdivision is only permitted in limited circumstances. <u>Under</u> Section 223 of the RMA, <u>a</u> requires that a survey plan for such subdivisions may be submitted to Council for approval provided that a certificate of compliance has been obtained for the subdivision and that certificate has not lapsed. ... Rule SUB R1 relates specifically to subdivision of land for the purpose of the construction and use of residential units in the Medium Density Residential Zone and the High Density Residential Zone. Subdivisions under Rule SUB R1 are not subject to Rules SUB R2 – SUB R5, but are subject to the area specific and topic specific rules where the land also contains a corresponding planning notation or overlay. With the exception of Rule SUB R1, the general subdivision objectives, policies and rules apply to all subdivision proposals, including those that affect land subject to other planning map notations, areas, or overlays. To the extent relevant, this includes Objectives SUB O1 and SUB O2, Policies SUB P1 – SUB P8, and Rules SUB R2 – SUB R5. In addition to those general provisions, the area specific and topic specific policies and rules apply to subdivisions affecting land subject to the applicable planning notation or overlay. This includes Policies SUB P9 – SUB P26, and Rules SUB R6 – SUB R31.
Kāinga Ora Homes and Communities	391.190	Subdivision chapter / Subdivision / General SUB	Support in part	Headings in the Subdivision chapter are partially supported and some additional heading are proposed.	Retain the Subdivision chapter with amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.191	Subdivision chapter / Subdivision / General SUB	Amend	Considers that the Subdivision chapter should be amended to have additional headings added to the chapter to categorise the policies to help with plan legibility and usability.	Amend the Subdivision chapter to add new policy headings as follows: <u>Historic Heritage and Cultural Values:</u> SUB-P8 – SUB-P13 <u>Natural Environment:</u> SUB-P14 – SUB-P19 <u>Coastal Environment:</u> SUB-P20 – SUB-P24 <u>Natural Hazards:</u> SUB-P25 – SUB-P26
Kāinga Ora Homes and Communities	391.192	Subdivision chapter / Subdivision / General SUB	Support in part	The introduction of notification preclusion statement (for both public and limited notification) for restricted discretionary activities is supported. It is sought that this is applied to all restricted discretionary activities.	Retain the Introduction to the Subdivision chapter as notified, with chapter subject to amendments.
KiwiRail Holdings Limited	FS72.57	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	Considers it necessary to be notified of infrastructure activities adjacent to the rail corridor to ensure KiwiRail has the opportunity to be included in the planning assessment process. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Kāinga Ora Homes and Communities	391.193	Subdivision chapter / Subdivision / General SUB	Amend	Considers that all rules in the Subdivision chapter should have a notification preclusion statement (for both public and limited notification) for restricted discretionary activities. The technical nature of these breaches requires technical and/or engineering assessments, and public participation by way of limited or public notification will unlikely add anything to the consideration of the effects of these breaches. Particularly, the notification statuses for SUB-R1 generally relate to the land use activity and associated standards, and the subdivision itself is not generating additional effects that should trigger notification.	Amend all Rules in the Subdivision chapter to include a notification preclusion statement for activities under Restricted Discretionary as follows: <u>Notification:</u> <u>Applications under this rule are precluded from being publicly or limited notified in accordance with section 95A or section 95B of the RMA.</u>
KiwiRail Holdings Limited	FS72.58	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Oppose	Considers it necessary to be notified of infrastructure activities adjacent to the rail corridor to ensure KiwiRail has the opportunity to be included in the planning assessment process. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Wellington's Character Charitable Trust	FS82.136	Part 2 / Subdivision chapter / Subdivision / General SUB	Oppose	Blanket approach to non-notification of subdivision is too blunt an approach and inconsistent with the policy of the RMA. There is insufficient justification to depart from the usual notification tests.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.194	Subdivision chapter / Subdivision / General SUB	Oppose in part	Opposes the matter of control and matter of discretion to 'any consent notices, covenants, easements or other legal instructed necessary' with all controlled and restricted discretion activities are opposed. An amendment is sought for all Rules in the Subdivision chapter.	Opposes the matter of control and matter of discretion to 'any consent notices, covenants, easements or other legal instructed necessary' with all controlled and restricted discretion activities and requests amendments.
Kāinga Ora Homes and Communities	391.195	Subdivision chapter / Subdivision / General SUB	Amend	Considers that all Rules in the Subdivision chapter should be amended to remove matters of discretion for activities with controlled and restricted discretionary status referring to 'any consent notices, covenants, easements or other legal instructed necessary'. This should not be a determining matter for discretion when granting consent. Anticipated development is provided for within the framework of the underlying zone and relevant district plan provisions, and covenants and consent notices are tools that are currently provided for when necessary and appropriate under current legislation. Deletion is sought in all rules.	Amend all Rules in the Subdivision chapter to remove reference of "Any consent notices, covenants, easements or other legal instruments necessary".
Kāinga Ora Homes and Communities	391.196	Subdivision chapter / Subdivision / General SUB	Oppose in part	The inclusion of design guides as a statutory document and matter of discretion with the Subdivision chapter Rules is opposed. Design guides should act as a tool to give effect to the outcomes in the objectives and policies of the chapter. Deletion is sought in all rules.	Opposes all references to design guides throughout all rules in the plan.
Heritage New Zealand Pouhere Taonga	FS9.3	Part 2 / Subdivision chapter / Subdivision / General SUB	Oppose	The Design guides provide a useful and informative guide to design of subdivision and development and should be retained.	Disallow / Retain as notified.
Onslow Residents Community Association	FS80.24	Part 2 / Subdivision chapter / Subdivision / General SUB	Oppose	[No specific reason given beyond decision requested - refer to further submission]	Disallow / Seeks that the improved design guides in the Proposed District Plan as notified are retained.
Kāinga Ora Homes and Communities	391.197	Subdivision chapter / Subdivision / General SUB	Amend	Considers that all Rules in the Subdivision chapter should be amended to remove Design Guides. Design guides should act as a tool to give effect to the outcomes in the objectives and policies of the chapter and should not be considered as statutory documents in matters of discretion. Deletion is sought in all rules.	Amend all Rules in the Subdivision chapter to remove references of Design Guides.
Heritage New Zealand Pouhere Taonga	FS9.4	Part 2 / Subdivision chapter / Subdivision / General SUB	Oppose	The Design guides provide a useful and informative guide to design of subdivision and development and should be retained.	Disallow / Retain as notified.
Wellington International Airport Ltd	406.262	Subdivision chapter / Subdivision / General SUB	Amend	Considers that amendments are required to other provisions within the subdivision chapter to remove the complex and duplicating consenting requirements for activities within the Airport Zone. [See paragraphs 4.76 to 4.80 in original submission for full reason]	Seeks that the subdivision chapter is amended to delete subdivision methods other than SUB-R4 insofar as they relate to infrastructure and/or provide clarification that the other provisions are not applicable to infrastructure.
Trelissick Park Group	168.17	Subdivision chapter / Subdivision / New SUB	Amend	Considers that subdivision should not be allowed in significant natural areas.	Add a new provision to the Subdivision chapter to prevent subdivision in significant natural areas. [Inferred decision requested].

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.190	Subdivision chapter / Subdivision / New SUB	Amend	<p>The Submitter seeks an additional standard which subdivision activities shall be assessed against when located within specified distances of the state highway network. Notes that it is widely accepted nationally and internationally that noise from transport networks have the potential to cause adverse health and amenity effects on people living nearby. That potential has been documented by authoritative bodies such as the World Health Organisation (WHO), including the Publication Environmental Noise Guidelines for the European region in October 2018 (WHO Europe Guidelines).</p> <p>State highways pass through both urban and rural areas throughout the Wellington City District and most have sufficient traffic volumes to generate sound above WHO Europe Guideline levels, indicating there will be impacts on human health and amenity where noise sensitive activities locate nearby.</p> <p>Applying the metric setback approach is a moderately efficient and effective method of managing noise effects on human health when compared to alternatives such as do nothing, modelling a setback, or creating a 'no build' yard zone. In the future, the submitter may seek a change to this standard to reflect modelling data which is a highly efficient and effective method of management.</p> <p>[See original submission for further details]</p>	<p>Add a new Standard to the Subdivision chapter as follows:</p> <p><u>SUB-SX</u> <u>Subdivision resulting in the creation of new sites 100m of a State Highway (measured from the nearest painted edge of the carriageway).</u></p> <p><u>Assessment criteria where the standard is infringed:</u></p> <ol style="list-style-type: none"> <u>1. The potential adverse effects of noise generated from the road network.</u> <u>2. The potential adverse effects of site development on the efficient use and operation of the state highway network and the suitability of any mitigation measures relating to noise and vibration to enable the continued operation of the network.</u> <u>3. Whether any consultation with Waka Kotahi NZ Transport Agency has occurred and the outcome of that consultation.</u> <u>4. Whether a consent notice with regard to reverse sensitivity effects on the State Highway network is proposed.</u> <u>5. Whether any proposed building platform or development should be restricted to parts of the site.</u> <u>6. Whether there are any special topographical features or ground conditions which may mitigate effects on the operation of the State Highway network.</u>
KiwiRail Holdings Limited	FS72.56	Part 2 / Subdivision chapter / General point on Subdivision / General point on Subdivision	Support	<p>Supports the relief sought and seeks further amendment to include the rail corridor within this provision. If subdivision within 100m of the rail corridor had a RDIS activity status, noise and vibration management options could be considered for a whole development as opposed to on individual properties.</p> <p>Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.</p>	Amend / Adopt amendment sought and include rail corridor within provision
Stride Investment Management Limited	FS107.28	Part 2 / Subdivision chapter / Subdivision / New SUB	Oppose	Stride is opposed to applying additional restrictions within 100m of a state highway and considers that this amendment seeks to unfairly impose the costs of mitigating state highway noise on private landowners. As noted above, this blanket rule lacks nuance and may impose an unreasonable burden on subdivision, and other controls are more appropriate to manage any effects of the subdivision on the state highway.	Disallow
Investore Property Limited	FS108.28	Part 2 / Subdivision chapter / Subdivision / New SUB	Oppose	Investore is opposed to applying additional restrictions within 100m of a state highway and considers that this amendment seeks to unfairly impose the costs of mitigating state highway noise on private landowners. As noted above, this blanket rule lacks nuance and may impose an unreasonable burden on subdivision, and other controls are more appropriate to manage any effects of the subdivision on the state highway.	Disallow
Kāinga Ora Homes and Communities	391.198	Subdivision chapter / Subdivision / New SUB	Amend	Considers that the Subdivision chapter should have an additional objective added to the subdivision chapter which speaks directly to the outcomes sought for subdivision within or on land identified as having historical values, natural environmental values and coastal values. This addition is sought to set a clear overarching objective to the policies concerned with these environments which are more sensitive to change.	<p>Add a new Objective to the Subdivision chapter as follows:</p> <p><u>SUB-O[number]</u></p> <p><u>Subdivision is managed in areas with identified historical values, natural environmental and coastal values, where subdivision can have adverse effects on the values that the District Plan seeks to manage or protect.</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Heritage New Zealand Pouhere Taonga	FS9.5	Part 2 / Subdivision chapter / Subdivision / New SUB	Support	The new objective suggested by the submitter has merit, and serves to support the subsequent policies and rules.	Allow
Wellington International Airport Ltd	406.263	Subdivision chapter / Subdivision / New SUB	Amend	Considers that a new policy is required to address subdivision within the Air Noise Boundary and 60dB Ldn Noise Boundary.	Add a new policy to SUB chapter as follows: <u>SUB-P27 Subdivision of land affected by the Air Noise Boundary or 60dB Ldn Noise Boundary</u> <u>Avoid subdivision within the Air Noise Boundary or 60dB Ldn Noise Boundary where the potential future permitted density of noise sensitive activities will give rise to adverse reverse sensitivity effects on Wellington International Airport.</u>
Kāinga Ora – Homes and Communities	FS89.122	Part 2 / Subdivision chapter / Subdivision / New SUB	Oppose	Kāinga Ora opposes the proposed policy which would unnecessarily constrain urban development within areas that would be suitable for high density development and where adverse effects can be managed through acoustic insulation and ventilation requirements.	Disallow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.74	Part 2 / Subdivision chapter / Subdivision / New SUB	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington Heritage Professionals	412.57	Subdivision chapter / Subdivision / New SUB	Support	Considers that the policy from the operative district plan should be added [see original submission for full reasons]	Add a new policy as follows: <i>"Protect the heritage values of listed buildings, objects, areas and scheduled archaeological sites by ensuring that the effects of subdivision and development on the same site as any listed building or object are avoided, remedied and mitigated"</i>
Heritage New Zealand Pouhere Taonga	FS9.6	Part 2 / Subdivision chapter / Subdivision / New SUB	Support	New policy addressing the avoidance of adverse effects of subdivision on heritage places. While policies SUB-P10, SUB-P11, and SUB-P12 address subdivision of land containing historic heritage features, these policies provide for subdivision, having regard to certain relevant matters. The addition of a policy for avoiding or mitigating adverse effects has merit.	Allow
John Tiley	142.13	Subdivision chapter / Subdivision / SUB-O1	Amend	Considers that the focus of SUB-O1 is on efficient development but is silent on preservation of landscape amenity values. The objective is unbalanced should be rewritten.	Seeks that SUB-O1 (Efficient pattern of development) is rewritten to provide greater balance between efficient development and the preservation of landscape amenity values. [Inferred decision requested].
Churton Park Community Association	189.13	Subdivision chapter / Subdivision / SUB-O1	Amend	Considers that the focus of SUB-O1 is on efficient development but is silent on preservation of landscape amenity values. The objective is unbalanced should be rewritten.	Seeks that SUB-O1 (Efficient pattern of development) is rewritten to provide greater balance between efficient development and the preservation of landscape amenity values. [Inferred decision requested].
Fire and Emergency New Zealand	273.105	Subdivision chapter / Subdivision / SUB-O1	Support	Supports the objective as it promotes adequate servicing of new subdivisions, including for water supply.	Retain SUB-O1 (Efficient pattern of development) as notified.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.20	Subdivision chapter / Subdivision / SUB-O1	Amend	Considers that Marshall's Ridge should be given protection through the strengthening of the objective.	Amend SUB-O1 (Efficient pattern of development) to give further protection to Marshall's Ridge and other ridgelines within the area.
Wellington Electricity Lines Limited	355.50	Subdivision chapter / Subdivision / SUB-O1	Not specified	Submitter is 'neutral' on provision. SUB-O1 is supported in that the electricity distribution network is clearly identified as being associated with efficient development. However, the need for a separate definition for development infrastructure is still reflected in SUB-O1. It is because of this concern that position remains neutral to the objective as currently worded.	Not specified.
Waka Kotahi	370.191	Subdivision chapter / Subdivision / SUB-O1	Support in part	Supports with amendment.	Supports SUB-O1 (Efficient pattern of development) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.192	Subdivision chapter / Subdivision / SUB-O1	Amend	Considers an additional outcome sought for subdivision activities to ensure that development considers land use and transport in an integrated manner throughout both the urban and rural areas as all development should consider the connections to the movement of people.	Amend Objective SUB-O1 (Efficient pattern of development) as follows: ... 6. The provision of electricity connections to the legal boundary or each allotment; and 7. Any consent notices, covenants, easements or other legal instruments necessary.; <u>and</u> 8. <u>Any potential adverse effects of site development on the efficient use and operation of the roading and state highway network.</u>
KiwiRail Holdings Limited	FS72.59	Part 2 / Subdivision chapter / General point on Subdivision / SUB-O1	Support	Supports the additional clause 8 but seeks that this matter is broadened to also consider potential adverse effects on the efficient use and operation of the rail network as sought in our primary submission. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Amend / Adopt amendment sought and include rail corridor within provision
LIVE WELLington	FS96.91	Part 2 / Subdivision chapter / Subdivision / SUB-O1	Oppose	More enabling than MDRS requirements without adequate justification.	Disallow
Stride Investment Management Limited	FS107.29	Part 2 / Subdivision chapter / Subdivision / SUB-O1	Oppose	Stride is opposed to this requested amendment as it is inappropriately broad and may be interpreted to require all subdivision to consider potential effects on the state highway network.	Disallow
Investore Property Limited	FS108.29	Part 2 / Subdivision chapter / Subdivision / SUB-O1	Oppose	Investore is opposed to this requested amendment as it is inappropriately broad and may be interpreted to require all subdivision to consider potential effects on the state highway network.	Disallow
WCC Environmental Reference Group	377.162	Subdivision chapter / Subdivision / SUB-O1	Support	This objective is in line with the overall strategic objectives of the plan, spatial plan and proposed Regional Policy Statement.	Retain SUB-O1 (Efficient pattern of development) as notified.
Kāinga Ora Homes and Communities	391.199	Subdivision chapter / Subdivision / SUB-O1	Support in part	Objective SUB-O1 is generally supported, but minor amendments are sought to recognise that the zone purpose, form and function along with amenity values will change overtime.	Retain Objective SUB-O1 (Efficient pattern of development) with amendment.
Kāinga Ora Homes and Communities	391.200	Subdivision chapter / Subdivision / SUB-O1	Amend	Considers that Objective SUB-O1 should be amended to recognise that the zone purpose, form and function along with amenity values will change overtime. This objective should align with Policy-5 that recognises the scale and intensity anticipated for the underlying zone.	Amend Objective SUB-O1 (Efficient pattern of development) as follows: Subdivision achieves an efficient development pattern that: 1. Maintains or enhances Wellington's compact urban form; 2. Is compatible with the nature, scale and intensity anticipated for the underlying zone and local context ; 3. Enables <u>flexibility, innovation and choice for appropriate</u> future development and use of resulting land or buildings; and 4. Is supported by development infrastructure and additional infrastructure for existing and anticipated future activities.
Wellington's Character Charitable Trust	FS82.137	Part 2 / Subdivision chapter / Subdivision / SUB-O1	Oppose	Consider local context is an important consideration for a consent authority. Local context ties in with the RMA's purpose of sustainable development.	Disallow
Wellington International Airport Ltd	406.264	Subdivision chapter / Subdivision / SUB-O1	Oppose in part	Opposes SUB-O1. [see paragraph 4.76 to 4.80 in original submission for full reason]	Opposes SUB-O1 (Efficient pattern of development) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.265	Subdivision chapter / Subdivision / SUB-O1	Amend	Opposes SUB-O1. [see paragraph 4.76 to 4.80 in original submission for full reason]	Amend SUB-O1 (Efficient pattern of development) as follows: ... <u>5. Avoids development that is incompatible with regionally significant infrastructure.</u>
KiwiRail Holdings Limited	FS72.60	Part 2 / Subdivision chapter / Subdivision / SUB-O1	Support	Supports amendment to this policy to ensure regionally significant infrastructure is protected. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Allow
Kāinga Ora – Homes and Communities	FS89.123	Part 2 / Subdivision chapter / Subdivision / SUB-O1	Oppose	Kāinga Ora opposes the proposed amendment which would constrain urban development. Furthermore, the amendment results in a lack of clarity for Plan users to understand what development may be incompatible.	Disallow
KiwiRail Holdings Limited	408.97	Subdivision chapter / Subdivision / SUB-O1	Amend	Considers that subdivision, and associated land use development that subdivision enables, can compromise public safety and the safe operation of the rail network if inappropriately designed. KiwiRail seek amendment to SUB-O1 to recognise the value of the transport network, and the need to maintain the safety and efficiency of this network.	Amend SUB-O1 (Efficient pattern of development) as follows: Subdivision achieves an efficient development pattern that: 1 Maintains or enhances Wellington’s compact urban form; 2. Is compatible with the zone purpose, local context and associated amenity values; 3 Enables appropriate future development and use of resulting land or buildings; and 4 Is supported by development infrastructure and additional infrastructure for existing and anticipated future activities. <u>5. Maintains the safety and efficiency of the transport network.</u>
Stride Investment Management Limited	FS107.19	Part 2 / Subdivision chapter / Subdivision / SUB-O1	Oppose	Stride is opposed to the insertion of reference to ‘maintains the safety and efficiency of the transport network’.	Disallow
Investore Property Limited	FS108.19	Part 2 / Subdivision chapter / Subdivision / SUB-O1	Oppose	Investore is opposed to the insertion of reference to ‘maintains the safety and efficiency of the transport network’.	Disallow
WCC Environmental Reference Group	377.163	Subdivision chapter / Subdivision / SUB-O2	Support	This objective recognises the importance of residents being able to access coastal and freshwater margins, and that in many areas such access doesn’t exist, or is difficult.	Retain SUB-O2 (Esplanades) as notified.
Royal Forest and Bird Protection Society	345.256	Subdivision chapter / Subdivision / SUB-P1	Support	Supports the policy.	Retain SUB-P1 (Recognising and providing for subdivision) as notified.
WCC Environmental Reference Group	377.164	Subdivision chapter / Subdivision / SUB-P1	Support	SUB-S1 is supported as it helps give effect to the Subdivision objectives.	Retain SUB-P1 (Recognising and providing for subdivision) as notified.
Kāinga Ora Homes and Communities	391.201	Subdivision chapter / Subdivision / SUB-P1	Support	SUB-P1 is generally supported.	Retain SUB-P1 (Recognising and providing for subdivision) as notified.
Royal Forest and Bird Protection Society	345.257	Subdivision chapter / Subdivision / SUB-P2	Support	Supports the policy.	Retain SUB-P2 (Boundary adjustments and amalgamation) as notified.
WCC Environmental Reference Group	377.165	Subdivision chapter / Subdivision / SUB-P2	Support	SUB-P2 is important as it will help reduce barriers in situations where such re-adjustments can provide cost-effective ways of achieving better development patterns in the city.	Retain SUB-P2 (Boundary adjustments and amalgamation) as notified.
Kāinga Ora Homes and Communities	391.202	Subdivision chapter / Subdivision / SUB-P2	Support in part	SUB-P2 is generally supported with a minor amendment.	Retain SUB-P2 (Boundary adjustments and amalgamation) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.203	Subdivision chapter / Subdivision / SUB-P2	Amend	Considers SUB-P2 should be amended to recognise what is anticipated by the underlying zone.	Amend SUB-P2 (Boundary adjustments and amalgamation) as follows: Enable boundary adjustments and site amalgamation to enhance the efficient use of land, provided that the nature and scale of resulting development potential is compatible with the <u>underlying zone local context</u> .
Wellington's Character Charitable Trust	FS82.138	Part 2 / Subdivision chapter / Subdivision / SUB-P2	Oppose	Consider local context is an important consideration for a consent authority. Local context ties in with the RMA's purpose of sustainable development.	Disallow
Trelissick Park Group	168.18	Subdivision chapter / Subdivision / SUB-P3	Support	Supports that SUB-P3 (Sustainable design) covers stormwater hydraulic neutrality and water sensitive design.	Retain SUB-P3 (Sustainable design) as notified.
Royal Forest and Bird Protection Society	345.258	Subdivision chapter / Subdivision / SUB-P3	Support	Supports the policy.	Retain SUB-P3 (Sustainable design) as notified.
Greater Wellington Regional Council	351.179	Subdivision chapter / Subdivision / SUB-P3	Support in part	Supports the direction in this policy, and its role as a matter of discretion throughout the subdivision chapter.	Retain SUB-P3 (Sustainable design), subject to amendments.
Greater Wellington Regional Council	351.180	Subdivision chapter / Subdivision / SUB-P3	Amend	Considers that proposed RPS Change 1 (policy FW.2) seeks for District Plans to address water demand and include provisions to improve water efficiency. An additional subclause to SUB-P3 regarding encouraging efficient water use would have regard to this policy. The Wellington Regional Public Transport Plan 2021 states Greater Wellington will work with its regional partners to ensure new subdivisions can accommodate public transport. The policy wording can be strengthened for public transport to signal that subdivisions should be designed to ensure public transport routes can be provided for, and vehicles can access those routes. Proposed RPS Change 1 (Policies CC.3 and CC.9 in particular) seeks for District Plans to contribute to reduction in transport-related greenhouse gas emissions. Subdivision design can aid in reducing greenhouse gas emission through actions such as the use of renewable energy, providing infrastructure to enable the use of non-fossil fuel transport and reducing urban sprawl. Policy SUB-P3 should include the need for subdivision design to support greenhouse gas emission reductions	Amend wording in SUB-P3 (Sustainable design) to include 'provide for' public transport, encourage efficient water use and support greenhouse gas emission reductions as follows: ... <u>2a. Encourage the efficient use of water:</u> ... 5. Support walking and cycling <u>opportunities</u> , and <u>provide for</u> public transport opportunities, and enhance neighbourhood and network connectivity and safety; and 6. Are adaptive to the effects of climate change. And <u>7. Support greenhouse gas emission reductions</u>
Waka Kotahi	370.193	Subdivision chapter / Subdivision / SUB-P3	Amend	The submitter requests that an additional clause be added, providing for local and other centres in proposed subdivisions to support reduced reliance on private vehicle travel & reduced emissions. Most large-scale subdivisions, whether it be brownfield or greenfield development, will still contribute to the vitality of the nearest commercial centre. As such, the proximity of the nearest centre should be considered across the board not just in new development areas.	Amend SUB-P3 (Sustainable design) as follows: ... <u>7. Considers the ability of future residents to meet their day-to-day needs within the immediate area.</u>
WCC Environmental Reference Group	377.166	Subdivision chapter / Subdivision / SUB-P3	Support	SUB-P3 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P3 (Sustainable design) as notified.
Kāinga Ora Homes and Communities	391.204	Subdivision chapter / Subdivision / SUB-P3	Support in part	SUB-P3 is generally supported	Retain SUB-P3 (Sustainable design) with amendment.
Hilary Watson	FS74.5	Part 2 / Subdivision chapter / Subdivision / SUB-P3	Oppose	Hilary Watson considers that these points are about removing character precincts from the plan. The precincts are important to protecting and preserving Wellington's townscape and sense of place, and can be retained and increased while still allowing enough realisable development capacity. Hillary Watson support the Council using Character as a Qualifying Matter to modify the permitted building heights and other matters under NPS-UD 2020 or the MDRS.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.205	Subdivision chapter / Subdivision / SUB-P3	Amend	Considers that SUB-P3 should be amended to provide the flexibility where practicable to achieve such outcomes as not all developments can achieve and attain all aspects in design and layout. Amendments also sought to remove reference to renewable energy as it is already captured under 'natural and physical resources.'	Amend SUB-P3 (Sustainable design) as follows: Provide Encourage and promote for subdivision design and layout that makes efficient use of renewable energy and other natural and physical resources, and delivers well-connected, resilient communities including development patterns that: 1. Maximise solar gain; 2. Incorporate effective water sensitive design <u>where practicable</u> ; 3. Achieve <u>Provide for</u> hydraulic neutrality; 4. Provide for safe vehicle access; 5. Support walking, cycling and public transport opportunities and enhance neighbourhood and network connectivity and safety; and 6. Are adaptive to the effects of climate change.
Hilary Watson	FS74.6	Part 2 / Subdivision chapter / Subdivision / SUB-P3	Oppose	Hilary Watson considers that these points are about removing character precincts from the plan. The precincts are important to protecting and preserving Wellington's townscape and sense of place, and can be retained and increased while still allowing enough realisable development capacity. Hilary Watson support the Council using Character as a Qualifying Matter to modify the permitted building heights and other matters under NPS-UD 2020 or the MDRS.	Disallow
Greater Wellington Regional Council	FS84.80	Part 2 / Subdivision chapter / Subdivision / SUB-P3	Oppose	Greater Wellington oppose the submitter's suggested amendments as it weakens the policy direction. The policy as notified has better regard to Proposed RPS Change 1.	Disallow / Seeks that SUB-P3 is retained as notified.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.11	Part 2 / Subdivision chapter / Subdivision / SUB-P3	Oppose	Oppose weakening of SUB-P3. Hydraulic neutrality is critical to reducing stormwater runoff and subsequent pollution into Wellington Harbour. Also needs to give effect to NPS-FM 2020.	Disallow / Seeks that SUB-P3 is retained as notified to ensure hydraulic neutrality is achieved.
KiwiRail Holdings Limited	408.98	Subdivision chapter / Subdivision / SUB-P3	Amend	Considers that effective subdivision design can enable development that provides for the health and well-being of people and communities by managing reverse sensitivity effects on established uses. KiwiRail seek amendment to SUB-P3 to address the potential for adverse effects on the infrastructure, including the rail corridor. The addition of clause 7 ensures adverse effects of activities are rightfully considered at subdivision design stage. This also provides for consistency with Policy INF-P7 in the Infrastructure Chapter and ensures this policy is given effect to as intended. KiwiRail support policy for subdivision design to incorporate water sensitive design and to achieve hydraulic neutrality as provided in clause 2 and 3. KiwiRail seek to ensure neighbouring development does not result in stormwater discharge onto the rail corridor which can compromise the safe and efficient operation of the rail network. KiwiRail further support clause 4 that provides for subdivision with safe vehicle access. KiwiRail seek to ensure safety at rail level crossings is maintained.	Amend SUB-P3 (Sustainable design) as follows: Provide for subdivision design and layout that makes efficient use of renewable energy and other natural and physical resources, and delivers well-connected, resilient communities including development patterns that: 1. Maximise solar gain; 2. Incorporate effective water sensitive design; 3. Achieve hydraulic neutrality; 4. Provide for safe vehicle access; 5. Support walking, cycling and public transport opportunities and enhance neighbourhood and network connectivity and safety; and 6. Are adaptive to the effects of climate change; <u>and</u> 7. <u>Manage adverse effects of activities through setbacks and design controls to achieve appropriate protection of infrastructure.</u>
Kāinga Ora – Homes and Communities	FS89.30	Part 2 / Subdivision chapter / Subdivision / SUB-P3	Oppose	Kāinga Ora opposes the amendment which is overly prescriptive.	Disallow
Stride Investment Management Limited	FS107.20	Part 2 / Subdivision chapter / Subdivision / SUB-P3	Oppose	Stride considers this is unnecessary in light of the existing measures to enable the safety and efficiency of the transport network, including designations, and it would be inappropriate to require development on adjoining land to do this.	Disallow
Investore Property Limited	FS108.20	Part 2 / Subdivision chapter / Subdivision / SUB-P3	Oppose	This is unnecessary in light of the existing measures to enable the safety and efficiency of the transport network, including designations, and it would be inappropriate to require development on adjoining land to do this.	Disallow
Royal Forest and Bird Protection Society	345.259	Subdivision chapter / Subdivision / SUB-P4	Support	Supports the policy.	Retain SUB-P4 (Integration and layout of subdivision and development) as notified.
WCC Environmental Reference Group	377.167	Subdivision chapter / Subdivision / SUB-P4	Support	SUB-P4 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P4 (Integration and layout of subdivision and development) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.206	Subdivision chapter / Subdivision / SUB-P4	Support	SUB-P4 is generally supported.	Retain SUB-P4 (Integration and layout of subdivision and development) as notified.
Peter Kelly	16.5	Subdivision chapter / Subdivision / SUB-P5	Amend	<p>Councillors have a democratic mandate to balance the interests of WCC residents against the important natural environment values represented by significant natural areas (SNAs). The Proposed Rules are essentially the Officer Draft Rules, but with the SNA designation removed from all residential zoned land.</p> <p>Requests that if SNAs are returned to residentially zoned land, the provisions in the draft District Plan are reinstated and fine-tuned.</p>	<p>If the Proposed District Plan is amended to allow Significant Natural Areas on residentially zoned land:</p> <p>Seeks that changes are made to SUB (Subdivision) to give effect to the following provision:</p> <p>Amend Draft District Plan SUB-P5 as follows: Provide for... "<u>and minimises vegetation clearance within Significant Natural Areas until 1 July 2027.</u>"</p>
Royal Forest and Bird Protection Society	345.260	Subdivision chapter / Subdivision / SUB-P5	Support	Supports the policy.	Retain SUB-P5 (Subdivision for residential activities) as notified.
WCC Environmental Reference Group	377.168	Subdivision chapter / Subdivision / SUB-P5	Support	SUB-P5 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P5 (Subdivision for residential activities) as notified.
Kāinga Ora Homes and Communities	391.207	Subdivision chapter / Subdivision / SUB-P5	Support	SUB-P5 is generally supported.	Retain SUB-P5 (Subdivision for residential activities) as notified.
Royal Forest and Bird Protection Society	345.261	Subdivision chapter / Subdivision / SUB-P6	Support	Supports the policy.	Retain SUB-P6 (Subdivision in the General Rural Zone) as notified.
Wellington Electricity Lines Limited	355.51	Subdivision chapter / Subdivision / SUB-P6	Support	<p>Supports SUB-P6 to the extent that recognition and protection of lawfully established activities is provided for.</p> <p>Regionally Significant Infrastructure (RSI) located within the Rural and future urban zones provides a critical service and is required to operate safely and efficiently. To ensure the efficient operation of RSI the adverse effects of reverse sensitivity need to be suitably recognised and provided for in the PDP, which this provision does.</p>	Retain SUB-P6 (Subdivision in the General Rural Zone) as notified.
Waka Kotahi	370.194	Subdivision chapter / Subdivision / SUB-P6	Support	Supports matter 3. "Do not increase the risk of reverse sensitivity effects arising on existing lawfully established activities".	Retain SUB-P6 (Subdivision in the General Rural Zone) as notified.
WCC Environmental Reference Group	377.169	Subdivision chapter / Subdivision / SUB-P6	Support	SUB-P6 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P6 (Subdivision in the General Rural Zone) as notified.
Kāinga Ora Homes and Communities	391.208	Subdivision chapter / Subdivision / SUB-P6	Support	SUB-P6 is generally supported.	Retain SUB-P6 (Subdivision in the General Rural Zone) as notified.
Fire and Emergency New Zealand	273.106	Subdivision chapter / Subdivision / SUB-P7	Support	<p>Supports the policy as it promotes suitable access and connections to the reticulated water supply. Where this is not possible, SUB-P7 expects allotments to accommodate on-site water supply for firefighting purposes. However, in order to ensure that the on-site location, capacity and access to such supply is adequate for FENZ to respond to a fire, it is necessary for the supply to be provided in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. It is acknowledged however that existing standard SUB-S2 requires all new allotments, created through subdivision, to comply with the Code so this policy, and associated standards, are fully supported</p>	Retain SUB-P7 (Servicing) as notified.
Royal Forest and Bird Protection Society	345.262	Subdivision chapter / Subdivision / SUB-P7	Support	Supports the policy.	Retain SUB-P7 (Servicing) as notified.
Greater Wellington Regional Council	351.181	Subdivision chapter / Subdivision / SUB-P7	Support in part	Supports this requirement to connect to reticulated networks where available.	Retain SUB-P7 (Servicing), subject to amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.182	Subdivision chapter / Subdivision / SUB-P7	Amend	<p>Considers the PDP should provide for approved alternative wastewater systems anywhere where there are constraints on the existing network capacity, as well as where connections are not available. Septic tanks are excluded from this recommendation due to their known issues with leakage of untreated wastewater and nitrates, particularly when poorly maintained.</p> <p>Providing for alternative wastewater treatment options aligns with recommendation 35 of Te Mahere Wai and gives effect to Te Mana o Te Wai. Alternative wastewater treatment options often reduce potable water use significantly. Reducing pressure of new development on the wastewater network may also make intensification in some areas with existing network capacity constraints more feasible.</p> <p>Relevant direction from the operative RPS includes policies 16 and 45. Relevant direction from Proposed RPS Change 1 includes policies FW.2, FW.3 and FW.5, CC.14 and 42(r), FW.5 and 58. Regional plan rules would apply to discharges from all wastewater systems to manage potential impacts on groundwater and surface water quality, aquatic ecosystems and soil health. These requirements could feasibly be met by approved alternative wastewater systems in both brownfield development and greenfield development.</p>	<p>Amend SUB-P7 (Servicing) to include direction in the Subdivision chapter to provide for decentralised wastewater re-use and treatment (of grey and black water) and disposal using alternative wastewater systems (but not septic tanks due to their existing issues with contamination and leaching) anywhere where there are constraints on the existing network capacity, as well as where connections are not available.</p> <p>Where connections are available and there is network capacity, a connection to the wastewater network would still be required.</p>
Greater Wellington Regional Council	351.183	Subdivision chapter / Subdivision / SUB-P7	Amend	<p>Considers the PDP should provide for approved alternative wastewater systems anywhere where there are constraints on the existing network capacity, as well as where connections are not available. Septic tanks are excluded from this recommendation due to their known issues with leakage of untreated wastewater and nitrates, particularly when poorly maintained.</p> <p>Providing for alternative wastewater treatment options aligns with recommendation 35 of Te Mahere Wai and gives effect to Te Mana o Te Wai. Kāinga Ora Homes and Communities	391.209	Subdivision chapter / Subdivision / SUB-P7	Support	<p>SUB-P7 is generally supported.</p>	<p>Retain SUB-P7 (Servicing) as notified.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.263	Subdivision chapter / Subdivision / SUB-P8	Support	Supports the policy.	Retain SUB-P8 (Esplanade requirements) as notified.
WCC Environmental Reference Group	377.171	Subdivision chapter / Subdivision / SUB-P8	Support	SUB-P8 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P8 (Esplanade requirements) as notified.
Kāinga Ora Homes and Communities	391.210	Subdivision chapter / Subdivision / SUB-P8	Support	SUB-P8 is generally supported.	Retain SUB-P8 (Esplanade requirements) as notified.
Royal Forest and Bird Protection Society	345.264	Subdivision chapter / Subdivision / SUB-P9	Support	Supports the policy.	Retain SUB-P9 (Subdivision of land within a site or area of significance to Māori Category A or B) as notified.
WCC Environmental Reference Group	377.172	Subdivision chapter / Subdivision / SUB-P9	Support	SUB-P9 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P9 (Subdivision of land within a site or area of significance to Māori Category A or B) as notified.
Kāinga Ora Homes and Communities	391.211	Subdivision chapter / Subdivision / SUB-P9	Support	SUB-P9 is generally supported.	Retain SUB-P9 (Subdivision of land within a site or area of significance to Māori Category A or B) as notified.
Te Rūnanga o Toa Rangatira	488.55	Subdivision chapter / Subdivision / SUB-P9	Support in part	Supports the policy managing subdivision within Category A and B Sites and Areas of Significance to Maori. [Inferred reason]	Retain SUB-P9 (Subdivision of land within a site or area of significance to Māori Category A or B) with amendments.
Greater Wellington Regional Council	FS84.116	Subdivision chapter / Subdivision / SUB-P9	Support	Greater Wellington support provisions which seek to protect Sites and Areas of Significance to Māori.	Allow / Seek provisions which protect SASM.
Te Rūnanga o Toa Rangatira	488.56	Subdivision chapter / Subdivision / SUB-P9	Amend	Considers that the policy could go further than presently drafted. [Inferred reason]	Amend SUB-P9 (Subdivision of land within a site or area of significance to Māori Category A or B) by requiring partnership and engagement with mana whenua rather than just having regard to the extent of consultation with mana whenua.
Greater Wellington Regional Council	FS84.117	Subdivision chapter / Subdivision / SUB-P9	Support	Greater Wellington support provisions which seek to protect Sites and Areas of Significance to Māori.	Allow / Seek provisions which protect SASM.
Wellington City Council	266.97	Subdivision chapter / Subdivision / SUB-P10	Amend	Considers an additional matter should be included in SUB-P10 (Subdivision of land on which a heritage building or heritage structure is located) for consistency with SUB-P11 (Subdivision within heritage areas).	Amend SUB-P10 (Subdivision of land on which a heritage building or heritage structure is located) as follows: Provide for the subdivision of land on which heritage buildings and heritage structures are located, having regard to: <u>a. The extent to which the subdivision and any anticipated development would detract from the identified heritage values;</u> 1-b. The identified relationship and contribution of the setting and surroundings of the site to the values of the heritage building or heritage structure; 2-c. The extent to which the subdivision would retain an appropriate setting for the heritage building or heritage structure; and 3-d. Whether covenants or consent notices can be imposed on any new allotment to manage any anticipated development.
Heritage New Zealand Pouhere Taonga	FS9.7	Part 2 / Subdivision chapter / Subdivision / SUB-P10	Support	The additional matter appropriately addresses the potential for adverse effects on heritage values.	Allow
Royal Forest and Bird Protection Society	345.265	Subdivision chapter / Subdivision / SUB-P10	Support	Supports the policy.	Retain SUB-P10 (Subdivision of land on which a heritage building or heritage structure is located) as notified.
WCC Environmental Reference Group	377.173	Subdivision chapter / Subdivision / SUB-P10	Support	SUB-P10 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P10 (Subdivision of land on which a heritage building or heritage structure is located) as notified.
Kāinga Ora Homes and Communities	391.212	Subdivision chapter / Subdivision / SUB-P10	Support in part	SUB-P10 is generally supported, but an amendment is sought to remove reference to whether covenants or consent notices can be imposed on new allotment to manage any anticipated development.	Retain SUB-P10 (Subdivision of land on which a heritage building or heritage structure is located) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.213	Subdivision chapter / Subdivision / SUB-P10	Amend	Considers that SUB-P10 should be amended to remove reference to whether covenants or consent notices can be imposed on new allotment to manage any anticipated development. Anticipated development is provided for within the framework of the underlying zone and relevant district plan provisions, and covenants and consent notices are tools that are currently provided for when necessary and appropriate under current legislation.	Amend SUB-P10 (Subdivision of land on which a heritage building or heritage structure is located) as follows: Provide for the subdivision of land on which heritage buildings and heritage structures are located, having regard to: 1. The identified relationship and contribution of the setting and surroundings of the site to the values of the heritage building or heritage structure; 2. The extent to which the subdivision would retain an appropriate setting for the heritage building or heritage structure; and 3. Whether covenants or consent notices can be imposed on any new allotment to manage any anticipated development.
Heritage New Zealand Pouhere Taonga	FS9.8	Part 2 / Subdivision chapter / Subdivision / SUBP10	Oppose	Reference to covenants or consent notices are appropriate methods for ongoing protection of heritage values. It is useful for applicants and decision makers are reminded of these methods when assessing applications for subdivision. [Inferred reference to submission 391.213]	Disallow / Retain as notified.
LIVE WELLington	FS96.15	Part 2 / Subdivision chapter / Subdivision / SUBP10	Oppose	We oppose removal of regard for convenants and consent notices. It is appropriate to allow for convenants to control development for heritage buildings.	Disallow
Roland Sapsford	FS117.14	Part 2 / Subdivision chapter / Subdivision / SUB-P10	Oppose	Roland Sapsford opposes removal of regard for convenants and consent notices. It is appropriate to allow for convenants to control development for heritage buildings.	Disallow
Wellington Heritage Professionals	412.58	Subdivision chapter / Subdivision / SUB-P10	Amend	Considers that advice from a qualified heritage professional, included in SUB-P12 (subdivision in archaeological sites), is also important to include as a point under the policies for sub-divisions involving heritage buildings and areas to ensure adverse effects are avoided or mitigated.	Amend policy SUB-P10 (Subdivision of land on which a heritage building or heritage structure is located) as follows: Provide for the subdivision of land on which heritage buildings and heritage structures are located, having regard to: 1. The identified relationship and contribution of the setting and surroundings of the site to the values of the heritage building or heritage structure; 2. The extent to which the subdivision would retain an appropriate setting for the heritage building or heritage structure; and 3. Whether covenants or consent notices can be imposed on any new allotment to manage any anticipated development and ; 4. <u>The findings of any advice by a suitably qualified heritage professional;</u>
Wellington Heritage Professionals	412.59	Subdivision chapter / Subdivision / SUB-P10	Amend	Considers that consideration of any buildings and structures associated with the heritage values of the heritage building or structure should be considered.	Amend policy SUB-P10 (Subdivision of land on which a heritage building or heritage structure is located) as follows: Provide for the subdivision of land on which heritage buildings and heritage structures are located, having regard to: 1. The identified relationship and contribution <u>of associated buildings and structures, of and</u> the setting and surroundings of the site to the values of the heritage building or heritage structure; 2. The extent to which the subdivision would retain an appropriate setting for the heritage building or heritage structure; and 3. Whether covenants or consent notices can be imposed on any new allotment to manage any anticipated development.
Wellington Heritage Professionals	412.60	Subdivision chapter / Subdivision / SUB-P10	Amend	Considers that there are no rules or standards to achieve the outcomes in SUB-P10 to 12. [See original submission for full reasons]	Seeks that SUB-P10 (Subdivision of land on which a heritage building or heritage structure is located) be added as a restricted discretionary rule.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.266	Subdivision chapter / Subdivision / SUB-P11	Support	Supports the policy.	Retain SUB-P11 (Subdivision within heritage areas) as notified.
WCC Environmental Reference Group	377.174	Subdivision chapter / Subdivision / SUB-P11	Support	SUB-P11 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P11 (Subdivision within heritage areas) as notified.
Kāinga Ora Homes and Communities	391.214	Subdivision chapter / Subdivision / SUB-P11	Support in part	SUB-P11 is generally supported, but an amendment is sought to remove reference to whether covenants or consent notices can be imposed on new allotment to manage any anticipated development, as consistent with the relief sought within this submission.	Retain SUB-P11 (Subdivision within heritage areas) with amendment.
Kāinga Ora Homes and Communities	391.215	Subdivision chapter / Subdivision / SUB-P11	Amend	Considers that SUB-P11 should be amended to remove reference to whether covenants or consent notices can be imposed on new allotment to manage any anticipated development, as consistent with the relief sought within this submission.	Amend SUB-P11 (Subdivision within heritage areas) as follows: Provide for the subdivision of land within heritage areas, having regard to: 1. The extent to which the subdivision and any anticipated development would detract from the identified heritage values; and 2. Whether covenants or consent notices can be imposed on any new allotment to manage any anticipated development.
Heritage New Zealand Pouhere Taonga	FS9.9	Part 2 / Subdivision chapter / Subdivision / SUBP11	Oppose	Reference to covenants or consent notices are appropriate methods for ongoing protection of heritage values. It is useful for applicants and decision makers are reminded of these methods when assessing applications for subdivision.	Disallow / Retain as notified.
LIVE WELLington	FS96.16	Part 2 / Subdivision chapter / Subdivision / SUBP11	Oppose	Removal of regard for covenants and consent notices is opposed. It is appropriate to allow for covenants to control development for heritage areas.	Disallow
Roland Sapsford	FS117.15	Part 2 / Subdivision chapter / Subdivision / SUB-P11	Oppose	Removal of regard for covenants and consent notices is opposed. It is appropriate to allow for covenants to control development for heritage areas.	Disallow
Wellington Heritage Professionals	412.61	Subdivision chapter / Subdivision / SUB-P11	Amend	Considers that advice from a qualified heritage professional, included in SUB-P12 (subdivision in archaeological sites), is also important to include as a point under the policies for sub-divisions involving heritage buildings and areas to ensure adverse effects are avoided or mitigated.	Amend HH-P11 (Subdivision within heritage areas) as follows: Provide for the subdivision of land within heritage areas, having regard to: 1. The extent to which the subdivision and any anticipated development would detract from the identified heritage values; and 2. Whether covenants or consent notices can be imposed on any new allotment to manage any anticipated development; <u>and</u> 3. <u>The findings of any advice by a suitably qualified heritage professional.</u>
Wellington Heritage Professionals	412.62	Subdivision chapter / Subdivision / SUB-P11	Amend	Considers that there are no rules or standards to achieve the outcomes in SUB-P10 to 12. [See original submission for full reasons]	Seeks that SUB-P11 (Subdivision within heritage areas) be added as a restricted discretionary rule.
Royal Forest and Bird Protection Society	345.267	Subdivision chapter / Subdivision / SUB-P12	Support	Supports the policy.	Retain SUB-P12 (Subdivision of land containing a scheduled archaeological site) as notified.
WCC Environmental Reference Group	377.175	Subdivision chapter / Subdivision / SUB-P12	Support	SUB-P12 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P12 (Subdivision of land containing a scheduled archaeological site) as notified.
Kāinga Ora Homes and Communities	391.216	Subdivision chapter / Subdivision / SUB-P12	Support in part	SUB-P12 is generally supported, but an amendment is sought to remove reference to whether covenants or consent notices can be imposed on new allotment to manage any anticipated development, as consistent with the relief sought within this submission.	Retain SUB-P12 (Subdivision of land containing a scheduled archaeological site) with amendment.
Kāinga Ora Homes and Communities	391.217	Subdivision chapter / Subdivision / SUB-P12	Amend	Considers that SUB-P12 should be amended to remove reference to whether covenants or consent notices can be imposed on new allotment to manage any anticipated development, as consistent with the relief sought within this submission.	Amend SUB-P12 (Subdivision of land containing a scheduled archaeological site) as follows: Provide for the subdivision of land containing a scheduled archaeological site, having regard to: ... 4. The outcomes of any consultation with Heritage New Zealand Pouhere Taonga; and 5. Whether controls such as covenants or consent notices can be imposed on any new allotment to manage anticipated development.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Heritage New Zealand Pouhere Taonga	FS9.10	Part 2 / Subdivision chapter / Subdivision / SUB-P12	Oppose	Reference to covenants or consent notices are appropriate methods for ongoing protection of heritage values. It is useful for applicants and decision makers are reminded of these methods when assessing applications for subdivision.	Disallow / Retain as notified.
Wellington Heritage Professionals	412.63	Subdivision chapter / Subdivision / SUB-P12	Support	Supports the inclusion of the outcomes of consultation with Heritage New Zealand Pouhere Taonga to ensure that any archaeological authority provisions are recognised.	Retain SUB-P12 (Subdivision of land containing a scheduled archaeological site) as notified.
Wellington Heritage Professionals	412.64	Subdivision chapter / Subdivision / SUB-P12	Amend	Considers that there are no rules or standards to achieve the outcomes in SUB-P10 to 12. [See original submission for full reasons]	Seeks that SUB-P12 (Subdivision of land containing a scheduled archaeological site) be added as a restricted discretionary rule.
Royal Forest and Bird Protection Society	345.268	Subdivision chapter / Subdivision / SUB-P13	Support	Supports the policy.	Retain SUB-P13 (Subdivision of land containing a notable tree) as notified.
WCC Environmental Reference Group	377.176	Subdivision chapter / Subdivision / SUB-P13	Support	SUB-P13 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P13 (Subdivision of land containing a notable tree) as notified.
Kāinga Ora Homes and Communities	391.218	Subdivision chapter / Subdivision / SUB-P13	Support in part	SUB-P13 is generally supported, but an amendment is sought to remove reference to whether covenants or consent notices can be imposed on new allotment to manage any anticipated development, as consistent with the relief sought within this submission.	Retain SUB-P13 (Subdivision of land containing a notable tree) with amendment.
Kāinga Ora Homes and Communities	391.219	Subdivision chapter / Subdivision / SUB-P13	Amend	Considers that SUB-P13 should be amended to remove reference to whether covenants or consent notices can be imposed on new allotment to manage any anticipated development, as consistent with the relief sought within this submission.	Amend SUB-P13 (Subdivision of land containing a notable tree) as follows: Require subdivision of land containing notable trees to support the maintenance of tree health and minimise the potential for interference, having regard to: 1. The extent to which the location of new boundaries relative to the notable tree and any anticipated development will increase the risk of the interference with property; 2. Whether controls such as consent notices or covenants can be imposed on any new allotment; and 3. Whether site access and new utilities can be located outside of the root protection area of the notable tree.
Royal Forest and Bird Protection Society	345.269	Subdivision chapter / Subdivision / SUB-P14	Support	Supports the policy.	Retain SUB-P14 (Subdivision within riparian margins) as notified.
Greater Wellington Regional Council	351.184	Subdivision chapter / Subdivision / SUB-P14	Oppose in part	Opposes the use of 'provide for' relating to subdivision in riparian margins. The proposed policy does not contribute to NATC-O1 to preserve and protect natural character within riparian margins from inappropriate subdivision.	Opposes SUB-P14 (Subdivision within riparian margins) and seeks amendment.
Greater Wellington Regional Council	351.185	Subdivision chapter / Subdivision / SUB-P14	Amend	Opposes the use of 'provide for' relating to subdivision in riparian margins. The proposed policy does not contribute to NATC-O1 to preserve and protect natural character within riparian margins from inappropriate subdivision.	Amend SUB-P14 (Subdivision within riparian margins) as follows: Provide for subdivision within riparian margins where- 1. The natural character is protected; and The subdivisions is designed to minimise the adverse effects of future use and development enabled by the subdivision on the natural character. Only allow for subdivision in riparian margins where adverse effect on natural character are avoided, and other adverse effects on natural character are avoided, remedied or mitigated.
Toka Tū Ake EQC	FS70.32	Part 2 / Subdivision chapter / Subdivision / SUB-P14	Support	Toka Tū Ake EQC consider it appropriate for terminology consistent with GRWC proposed RPS Change 1, based on standard risk based hazard management approaches, to be used throughout the WCC proposed district plan. We agree that 'minimise' natural hazard risk is a clearer instruction to bring risk in development to levels as low as reasonably practical than 'reduce' and 'reduce or do not increase'.	Allow
WCC Environmental Reference Group	377.177	Subdivision chapter / Subdivision / SUB-P14	Support	SUB-P14 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P14 (Subdivision within riparian margins) as notified.
Trelissick Park Group	168.19	Subdivision chapter / Subdivision / SUB-P15	Oppose	Considers that subdivision should not be allowed in significant natural areas.	Delete SUB-P15 (Protection of significant natural areas) as notified (as subdivision should not be allowed in significant natural areas).
Tyers Stream Group	221.67	Subdivision chapter / Subdivision / SUB-P15	Not specified	Considers that the main issue with the provision is that this has no effect in the absence of any SNAs on private residential land.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Tyers Stream Group	221.68	Subdivision chapter / Subdivision / SUB-P15	Not specified	Considers that avoid is a high bar for subdivision to cross, except for the 'where practicable'. The effects management hierarchy is very similar to that proposed in the NPSIB.	Seeks that accounting mechanism be developed if offsetting and compensation is contemplated and suggests this could be a fund to deliver more or better biodiversity elsewhere, on a 'net gain' basis.
Royal Forest and Bird Protection Society	345.270	Subdivision chapter / Subdivision / SUB-P15	Support in part	e introduction to this chapter states that it contains policies and rules that implement the objectives in the ECO chapter, where subdivision affects an SNA. We note that this chapter has taken the approach of replicating (although not exactly) some of the policies from the ECO chapter. An alternative approach would be to cross reference the EC policies in this chapter. Either can work, however, care needs to be taken to be clear which policies apply to subdivision, and to ensure that all relevant policies are included in the subdivision chapter. Because the ECO policies already apply to subdivision (e.g. ECO P1, P3) it may be simpler to cross reference the ECO policies in this subdivision chapter.	Amend SUB-P15 (Protection of significant natural areas) to refer to ECO policies to avoid repetition. <u>Protect significant natural areas by applying ECO-P1, ECO-P3, ECO XX (re maintenance of biodiversity) and ECO P5.</u>
Royal Forest and Bird Protection Society	345.271	Subdivision chapter / Subdivision / SUB-P15	Support in part	If the replication approach is retained, there will also need to be replication of ECO P5, to ensure that the NZCPS is given effect to.	Amend SUB-P15 (Protection of significant natural areas) to align with relief sought on ECO policies: Protect the biodiversity values of the identified significant natural areas with SCHEDULE by requiring subdivision, use and development to: 1. <u>Avoid adverse effects on indigenous biodiversity in the coastal environment to the extent stated in ECO P5 (or reference the replicated SUB policy);</u> 2. <u>Avoid the following adverse effects on indigenous biodiversity values:</u> <u>a. Loss of ecosystem representation and extent;</u> <u>b. Disruption to sequences, mosaics or ecosystem function;</u> <u>c. Fragmentation or loss of buffering or connectivity within the SNA and between other indigenous habitats and ecosystems; and</u> <u>d. A reduction in population size or occupancy of threatened species using the SNA for any part of their life cycle.</u> 3. Avoid other adverse effects on indigenous biodiversity values where practicable; 4. Minimise <u>Mitigate</u> adverse effects on the biodiversity values where avoidance is not practicable; 5. Remedy adverse effects on the biodiversity values where they cannot be avoided or <u>mitigated</u> minimised ; 6. Only consider biodiversity offsetting for any residual adverse effects that cannot otherwise be avoided, mitigated minimised or remedied and where the principles of APP2 – Biodiversity Offsetting are met; and 7. Only consider biodiversity compensation after first considering biodiversity offsetting and where the principles of APP2 – Biodiversity Compensation are met.
WCC Environmental Reference Group	377.178	Subdivision chapter / Subdivision / SUB-P15	Support	SUB-P15 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P15 (Protection of significant natural areas) as notified.
Director-General of Conservation	385.50	Subdivision chapter / Subdivision / SUB-P15	Support	Supports proposed Policy SUB-P15 (Protection of significant natural areas).	Retain policy SUB-P15 (Protection of significant natural areas) as notified.
Trelissick Park Group	168.20	Subdivision chapter / Subdivision / SUB-P16	Oppose	Considers that subdivision should not be allowed in significant natural areas.	Delete SUB-P16 (Subdivision in significant natural areas) as notified (as subdivision should not be allowed in significant natural areas).
Tyers Stream Group	221.69	Subdivision chapter / Subdivision / SUB-P16	Not specified	Considers that the main issue with the provision is that this has no effect in the absence of any SNAs on private residential land.	Not specified.
Royal Forest and Bird Protection Society	345.272	Subdivision chapter / Subdivision / SUB-P16	Support in part	Seeks to delete this policy, and include the following policy as a replacement for SUB P15 and P16: SUB P-15 Protection of, and subdivision in significant natural areas Protect significant natural areas by applying ECO-P1, ECO-P3, ECO XX (re maintenance of biodiversity) and ECO P5.	Delete SUB-P16 (Subdivision in significant natural areas) if cross reference policy relief is accepted for SUB-P15 (Protection of significant natural areas): <u>Protect significant natural areas by applying ECO-P1, ECO-P3, ECO XX (re maintenance of biodiversity) and ECO P5.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.273	Subdivision chapter / Subdivision / SUB-P16	Support in part	If the replication approach is retained, we seek amendments as per our submission points on ECO P3. We also note that this policy is slightly different from ECO-P3. It is not clear why this is. While this policy includes considerations absent from ECO-P3 (which are supported), arguably this policy applies a lesser standard, in that all that is required is that certain things are taken into account – typically the extent to which something is provided. ECO- P3 in contrast requires e.g. ‘ensures that the ecological processes’ (ECO-P3.4). As such, we prefer the formulation from ECO-P3, and have added the relevant additional requirements parts from SUB P16 below. We would also accept different wording, as long as the wording is clear that certain things must be achieved, not simply taken into account, or required to an extent.	Amend SUB-P16 (Subdivision in significant natural areas): Only a Allow for subdivision, use and development in significant natural areas listed in SCHED10 where it: 1. Applies the effects management hierarchy approach in SUB P15; and 2. Demonstrates that it is appropriate, <u>including</u> by taking into account the findings of an ecological assessment for the activity in accordance with APP15; and 3. Provides protective covenants of the significant natural area; 4. Minimises fragmentation of the significant natural area; 5. Locates building platforms and vehicle accessways within the new lots outside the significant natural area; and 6. Ensures the activities effects on biodiversity values are appropriately managed in accordance with the effects management hierarchy, <u>and where residual effects remain after avoiding, remedying or mitigating,</u> to achieve no net loss of biodiversity values of the identified significant natural area; and 7. Ensures that the ecological processes, functions and integrity of the significant natural area are maintained.
WCC Environmental Reference Group	377.179	Subdivision chapter / Subdivision / SUB-P16	Support	SUB-P16 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P16 (Subdivision in significant natural areas) as notified.
Director-General of Conservation	385.51	Subdivision chapter / Subdivision / SUB-P16	Support	Supports proposed Policy SUB-P16 (Subdivision in significant natural areas).	Retain policy SUB-P16 (Subdivision in significant natural areas) as notified.
John Tiley	142.14	Subdivision chapter / Subdivision / SUB-P17	Oppose	Oppose SUB-P17 (Subdivision of land within ridgeline and hilltops) as the concept of subdividing on ridgelines does a disservice to the city’s landscape values, expressed in other plans and policies over the last twenty years.	Not specified.
Churton Park Community Association	189.14	Subdivision chapter / Subdivision / SUB-P17	Oppose	Oppose SUB-17 as the concept of subdividing on ridgelines does a disservice to the city’s landscape values, expressed in other plans and policies over the last twenty years.	Not specified.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.21	Subdivision chapter / Subdivision / SUB-P17	Amend	Considers that Marshall's Ridge should be given protection through the strengthening of the policy.	Amend SUB-P17 (Subdivision of land within ridgeline and hilltops) to give further protection to Marshall's Ridge and other ridgelines within the area.
Royal Forest and Bird Protection Society	345.274	Subdivision chapter / Subdivision / SUB-P17	Support in part	Considers the policy broadly replicates NFL P2. We seek the same amendments sought for that policy here.	Amend SUB-P17 (Subdivision of land within ridgeline and hilltops) to align with relief sought on NFL-P2.
WCC Environmental Reference Group	377.180	Subdivision chapter / Subdivision / SUB-P17	Support	SUB-P17 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P17 (Subdivision of land within ridgeline and hilltops) as notified.
Royal Forest and Bird Protection Society	345.275	Subdivision chapter / Subdivision / SUB-P18	Support in part	Considers the policy broadly replicates NFL P3 and P4. We seek the same amendments sought for those policies here.	Amend SUB-P18 (Subdivision of land within special amenity landscapes) to align with relief sought on NFL-P3 and NFL-P4.
WCC Environmental Reference Group	377.181	Subdivision chapter / Subdivision / SUB-P18	Support	SUB-P18 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P18 (Subdivision of land within special amenity landscapes) as notified.
Royal Forest and Bird Protection Society	345.276	Subdivision chapter / Subdivision / SUB-P19	Support in part	Supports the intent of this policy but have concerns regarding “Only allow” wording in ONFLs. As per the submission points on SCHED10 and NFL-P5, opposes the use of “identified” given the shortcomings of SCHED10. Seeks the same amendments sought for that policy here.	Amend SUB-P19 (Subdivision of land within outstanding natural features and landscapes located outside of the coastal environment) to align with relief sought on NFL-P5.
WCC Environmental Reference Group	377.182	Subdivision chapter / Subdivision / SUB-P19	Support	SUB-P19 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P19 (Subdivision of land within outstanding natural features and landscapes located outside of the coastal environment) as notified.
Royal Forest and Bird Protection Society	345.277	Subdivision chapter / Subdivision / SUB-P20	Support in part	Considers the policy broadly replicates NFL P5. Seeks the same amendments sought for that policy here.	Amend SUB-P20 (Subdivision of land within outstanding natural features and landscapes located within the coastal environment) to align with relief sought on NFL-P5.
WCC Environmental Reference Group	377.183	Subdivision chapter / Subdivision / SUB-P20	Support	SUB-P20 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P20 (Subdivision of land within outstanding natural features and landscapes located within the coastal environment) as notified.
Director-General of Conservation	385.52	Subdivision chapter / Subdivision / SUB-P20	Support	Supports proposed Policy SUB-P20 (Subdivision of land within outstanding natural features and landscapes located within the coastal environment).	Retain policy SUB-P20 (Subdivision of land within outstanding natural features and landscapes located within the coastal environment) as notified.
Royal Forest and Bird Protection Society	345.278	Subdivision chapter / Subdivision / SUB-P21	Support in part	Considers the policy broadly replicates NFL P6. Seeks the same amendments sought for that policy here.	Amend SUB-P21 (Subdivision of land within the landward extent of the coastal environment) to align with relief sought on NFL-P6.
WCC Environmental Reference Group	377.184	Subdivision chapter / Subdivision / SUB-P21	Support	SUB-P21 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P21 (Subdivision of land within the landward extent of the coastal environment) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Director-General of Conservation	385.53	Subdivision chapter / Subdivision / SUB-P21	Support	Supports proposed Policy SUB-P21 (Subdivision of land within the landward extent of the coastal environment).	Retain policy SUB-P21 (Subdivision of land within the landward extent of the coastal environment) as notified.
Royal Forest and Bird Protection Society	345.279	Subdivision chapter / Subdivision / SUB-P22	Support in part	Considers the policy appears to replicate policy CE P5. Seeks the same amendments sought in relation to CE P5 to this policy.	Amend SUB-P22 (Subdivision of land within high coastal natural character areas) to align with relief sought on CE-P5.
WCC Environmental Reference Group	377.185	Subdivision chapter / Subdivision / SUB-P22	Support	SUB-P22 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P22 (Subdivision of land within high coastal natural character areas) as notified.
Director-General of Conservation	385.54	Subdivision chapter / Subdivision / SUB-P22	Support	Supports proposed Policy SUB-P22 (Subdivision of land within high coastal natural character areas).	Retain policy SUB-P22 (Subdivision of land within high coastal natural character areas) as notified.
Royal Forest and Bird Protection Society	345.280	Subdivision chapter / Subdivision / SUB-P23	Support in part	Considers the policy broadly replicates CE P6. Seeks the same amendments sought for that policy here.	Amend SUB-P23 (Subdivision of land within coastal margins and riparian margins in the coastal environment located inside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone or City Centre Zone) to align with relief sought on CE-P6.
WCC Environmental Reference Group	377.186	Subdivision chapter / Subdivision / SUB-P23	Support	SUB-P23 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P23 (Subdivision of land within coastal margins and riparian margins in the coastal environment located inside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone or City Centre Zone) as notified.
Royal Forest and Bird Protection Society	345.281	Subdivision chapter / Subdivision / SUB-P24	Support in part	Considers the policy broadly replicates CE P7. Seeks the same amendments sought for that policy here.	Amend SUB-P24 (Subdivision of land within coastal margins and riparian margins in the coastal environment located outside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone and City Centre Zone) to align with relief sought on CE-P7.
WCC Environmental Reference Group	377.187	Subdivision chapter / Subdivision / SUB-P24	Support	SUB-P24 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P24 (Subdivision of land within coastal margins and riparian margins in the coastal environment located outside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone and City Centre Zone) as notified.
Fire and Emergency New Zealand	273.107	Subdivision chapter / Subdivision / SUB-P25	Support	Supports the policy as it seeks to take a risk-based approach to the management of subdivision of land in locations where there is significant risk from natural hazards. This objective achieves the purpose of the RMA by providing for the safety and wellbeing of people and communities and addresses the risk to property across the city.	Retain SUB-P25 (Subdivision of land affected by natural hazards) as notified.
Toka Tū Ake EQC	282.13	Subdivision chapter / Subdivision / SUB-P25	Support	Supports this policy and the risk based approach to reducing natural hazard risk.	Retain SUB-P25 (Subdivision of land affected by natural hazards) as notified.
Royal Forest and Bird Protection Society	345.282	Subdivision chapter / Subdivision / SUB-P25	Support in part	Considers the policy broadly replicates CE P11. Seeks the same amendments sought for that policy here.	Amend SUB-P25 (Subdivision of land affected by natural hazards) to align with relief sought on CE-P11.
Greater Wellington Regional Council	351.186	Subdivision chapter / Subdivision / SUB-P25	Support	Considers this approach is appropriate.	Retain SUB-P25 (Subdivision of land affected by natural hazards) as notified.
WCC Environmental Reference Group	377.188	Subdivision chapter / Subdivision / SUB-P25	Support	SUB-P25 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P25 (Subdivision of land affected by natural hazards) as notified.
Kāinga Ora Homes and Communities	391.220	Subdivision chapter / Subdivision / SUB-P25	Support	SUB-P25 is generally supported.	Retain SUB-P25 (Subdivision that creates building platforms for hazard sensitive activities within the stream corridor of the Flood Hazard Overlay, the Wellington Fault Overlay, the Ohariu Fault Overlay or the high hazard area of the Coastal Hazard Overlays) as notified.
Toka Tū Ake EQC	282.14	Subdivision chapter / Subdivision / SUB-P26	Support	Supports this policy and the risk reduction measures being planned for in and around the port and railway areas of the Wellington Fault Overlay.	Retain SUB-26 (Subdivision of land within the port and railway yards within the Wellington Fault Overlay) as notified.
Royal Forest and Bird Protection Society	345.283	Subdivision chapter / Subdivision / SUB-P26	Support	Supports the policy.	Retain SUB-P26 (Subdivision of land within the port and railway yards within the Wellington Fault Overlay) as notified.
Greater Wellington Regional Council	351.187	Subdivision chapter / Subdivision / SUB-P26	Amend	Considers it appropriate to make amendments to bring the policy in line with the Objectives 19 and 20 and Policies 51 and 52 in Proposed RPS Change 1. Minimise is defined as “as low as reasonably practicable (ALARP)” and is in line with standard risk-based hazard management approaches. This leaves room for reduction as far as practicable but is a clearer signal than reduce or do not increase, to actively look to bring down the risk in the design and planning of the development.	Amend SUB-P26 (Subdivision of land within the port and railway yards within the Wellington Fault Overlay) as follows: Require subdivision of land within the port and railway yards within the Wellington Fault Overlay to incorporate mitigation measures that <u>minimise the reduce or avoid an increase in</u> risk to people, property and infrastructure from the ground shaking and fault rupture on the Wellington Fault.
Toka Tū Ake EQC	FS70.33	Part 2 / Subdivision chapter / Subdivision / SUB-P26	Support	Toka Tū Ake EQC consider it appropriate for terminology consistent with GRWC proposed RPS Change 1, based on standard risk based hazard management approaches, to be used throughout the WCC proposed district plan. We agree that ‘minimise’ natural hazard risk is a clearer instruction to bring risk in development to levels as low as reasonably practical than ‘reduce’ and ‘reduce or do not increase’.	Allow
WCC Environmental Reference Group	377.189	Subdivision chapter / Subdivision / SUB-P26	Support	SUB-P26 is important as it signals the type of subdivision the city needs to improve its sustainability and liveability in support of subdivision objectives and policies.	Retain SUB-P26 (Subdivision of land within the port and railway yards within the Wellington Fault Overlay) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.110	Subdivision chapter / Subdivision / SUB-P26	Oppose	Opposes SUB-P26 because the policy doesn't equate the process of subdivision per se which is not the land use or any structure which may be at increased risk from the Wellington Fault. This is included in the Natural Hazards chapter.	Delete SUB-P26 (Subdivision of land within the port and railway yards within the Wellington Fault Overlay) in its entirety.
Peter Kelly	16.6	Subdivision chapter / Subdivision / SUB-R1	Amend	Councillors have a democratic mandate to balance the interests of WCC residents against the important natural environment values represented by significant natural areas (SNAs). The Proposed Rules are essentially the Officer Draft Rules, but with the SNA designation removed from all residential zoned land. Requests that if SNAs are returned to residentially zoned land, the provisions in the draft District Plan are reinstated and fine-tuned.	If the Proposed District Plan is amended to allow Significant Natural Areas on residentially zoned land: Seeks that changes are made to SUB (Subdivision) to give effect to the following provision: Amend Draft District Plan SUB-R1 as follows: ... <u>8. Minimising vegetation loss within a Significant Natural Area.</u>
Chorus New Zealand Limited	88.1	Subdivision chapter / Subdivision / SUB-R1	Support	The SUB-R1 is supported as it ensures populations in the Medium Density Residential Zone and High Density Residential Zone have provision for fibre optic cables and continue to have access to world-class connectivity. If not provided at the time of subdivision, retroactively providing fibre optic cable connections can result in unnecessary and disruptive works and increased costs to the end user.	Retain SUB-R1 (Subdivision for the purpose of the construction and use of residential units in the Medium Density Residential Zone or High Density Residential Zone) as notified.
Rachel Marr	89.1	Subdivision chapter / Subdivision / SUB-R1	Oppose	Opposes the non-notification clauses under SUB-R1 on the basis that subdivision can cause problems and judicial review is often too late to rectify the issue. Considers that an open policy that allows for the public to voice any concerns before the subdevelopment begins, would make it a smoother process during the subdevelopment and manage expectations. [See original submission for further detail]	Seeks an amendment to SUB-R1 (Subdivision for the purpose of the construction and use of residential units in the Medium Density Residential Zone or High Density Residential Zone) for a more open process for consents with notification when neighbours will obviously be adversely affected by the work.
Design Network Architecture Limited	259.1	Subdivision chapter / Subdivision / SUB-R1	Amend	This rule has a notification preclusion relating to certain situations where there are 4 or more units complying with certain standards. For example, MRZ-S7 is a standard which specifically states it does not apply to multi-unit housing listed as a provision to be complied with for the notification preclusion for 4 or more units in SUB-R1, despite MRZ-S7 saying that it doesn't apply to multi-unit housing. This wording needs to be made clearer.	Seeks that SUB-R1 (Subdivision for the purpose of the construction and use of residential units in the Medium Density Residential Zone or High Density Residential Zone) is amended so that where a standard does not apply to multi-unit housing, it is not highlighted as being necessary to consider under a notification preclusion.
Wellington City Council	266.98	Subdivision chapter / Subdivision / SUB-R1	Oppose in part	Considers the rule does not have legal effect.	Remove the gavel for SUB-R1 (Subdivision for the purpose of the construction and use of residential units in the Medium Density Residential Zone or High Density Residential Zone)
Wellington City Council	266.99	Subdivision chapter / Subdivision / SUB-R1	Amend	Considers provisions relating to the consideration of 'any consent notices, covenants, easements or other legal instruments necessary' gives too much discretion to the assessment of controlled and restricted discretionary activities.	Delete below matter of control from rule SUB-R1.1.7 (Subdivision for the purpose of the construction and use of residential units in the Medium Density Residential Zone or High Density Residential Zone) as follows: Any consent notices, covenants, easements or other legal instruments necessary
Fire and Emergency New Zealand	273.108	Subdivision chapter / Subdivision / SUB-R1	Support	Supports the rule as it controls the provision of water supply for subdivision for the purpose of establishing residential units in the Medium and High Density Residential zones. The matters of control include the provision of a water supply connection for each allotment that meets the requirements of the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNZ PAS 4509:2008, this is strongly supported by FENZ.	Retain SUB-R1 (Subdivision for the purpose of the construction and use of residential units in the Medium Density Residential Zone or High Density Residential Zone) as notified.
Retirement Villages Association of New Zealand Incorporated	350.65	Subdivision chapter / Subdivision / SUB-R1	Support	Supports SUB-R1 to the extent it reflects MDRS clause 3.	Retain SUB-R1 (Subdivision for the purpose of the construction and use of residential units in the Medium Density Residential Zone or High Density Residential Zone) as notified.
Greater Wellington Regional Council	350.66	Subdivision chapter / Subdivision / SUB-R1	Support in part	Supports permitted activity status for signs P-1's provisions for appropriate signs, but opposes signs being required to meet all of the matters contained in the list. For example, an entrance sign for a retirement village is required but it is not to meet a regulatory or statutory requirement.	Amend Sign-P1 so signs are not required to comply with all of the listed matters, particularly (4) and (7).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Electricity Lines Limited	355.54	Subdivision chapter / Subdivision / SUB-R1	Support in part	Supports SUB-R1 as the subdivision of land associated with medium and high density land use development is required to be a controlled activity. Consideration of the NPSUD requirements is supported, with new records of title being certified under 223 and 224 of the RMA in conjunction with permitted development being controlled to the extent that a suitable connection to an electricity supply is provided.	Retain SUB-R1 (Subdivision for the purpose of the construction and use of residential units in the Medium Density Residential Zone or High Density Residential Zone) with amendment.
Wellington Electricity Lines Limited	355.55	Subdivision chapter / Subdivision / SUB-R1	Amend	Considers that SUB-R1 should be amended to be more robust regarding the degree of connection. As currently worded the Rule the "provision of electricity" does not instil an expectation that a safe and secure supply to an electricity supply network; but rather, merely that any given development has provision to the network. It is also noted that equipment is likely to also be required, which should be considered to facilitate the connection, not the development to an electricity supply.	Amend SUB-R1 (Subdivision for the purpose of the construction and use of residential units in the Medium Density Residential Zone or High Density Residential Zone) as follows: ... 6. The provision of <u>That connections to a safe and secure electricity supply network are provided</u> connections to the legal boundary or of each allotment; and ...
Waka Kotahi	370.195	Subdivision chapter / Subdivision / SUB-R1	Amend	Seeks an additional matter of control relating to the management of adverse effects on noise.	Amend SUB-R1 (Subdivision for the purpose of the construction and use of residential units in the Medium Density Residential Zone or High Density Residential Zone) as follows: ... 6. The provision of electricity connections to the legal boundary or each allotment; and 7. Any consent notices, covenants, easements or other legal instruments necessary; <u>and</u> 8. <u>Any potential adverse effects of site development on the efficient use and operation of the roading and state highway network.</u>
KiwiRail Holdings Limited	FS72.61	Part 2 / Subdivision chapter / General point on Subdivision / SUB-R1	Support	Supports the additional clause 8 but seeks that this matter is broadened to also consider potential adverse effects on the efficient use and operation of the rail network. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Amend / Adopt amendment sought and include rail corridor within provision
Kāinga Ora – Homes and Communities	FS89.18	Part 2 / Subdivision chapter / Subdivision / SUB-R1	Oppose	Kāinga Ora opposes the introduction of the proposed new matter of control.	Disallow
WCC Environmental Reference Group	377.190	Subdivision chapter / Subdivision / SUB-R1	Support	SUB-R1 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R1 (Subdivision for the purpose of the construction and use of residential units in the Medium Density Residential Zone or High Density Residential Zone) as notified.
Kāinga Ora Homes and Communities	391.221	Subdivision chapter / Subdivision / SUB-R1	Support in part	SUB-R1 is generally supported, but amendments are sought in matters of control.	Retain SUB-R1 (Subdivision for the purpose of the construction and use of residential units in the Medium Density Residential Zone or High Density Residential Zone) with amendment.
Hilary Watson	FS74.7	Part 2 / Subdivision chapter / Subdivision / SUB-R1	Oppose	Hilary Watson considers that these points are about removing character precincts from the plan. The precincts are important to protecting and preserving Wellington's townscape and sense of place, and can be retained and increased while still allowing enough realisable development capacity. Hilary Watson support the Council using Character as a Qualifying Matter to modify the permitted building heights and other matters under NPS-UD 2020 or the MDRS.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.222	Subdivision chapter / Subdivision / SUB-R1	Amend	Considers that SUB-R1 should be amended so that its matters of control are more consistent with other rules and standards in the Subdivision chapter. This would also be more appropriate with standards that are required to be complied with.	Amend SUB-R1 (Subdivision for the purpose of the construction and use of residential units in the Medium Density Residential Zone or High Density Residential Zone) as follows: 1. Activity status: Controlled Matters of control are: 1. The provision of practical, physical and legal access from each allotment directly to a formed legal road or by registered right of way; <u>2. Whether the subdivision necessitates a joint land use application.</u> <u>3. Compliance with SUB-S1, SUB-S2, SUB-S3, SUBS4, and SUB-S5</u> 2. The provision of a water supply connection to the Council's reticulated water supply system for each allotment sufficient to meet the levels of service in the Wellington Water Regional Standard for Water Services 2022 and the requirements of the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNZ PAS 4509:2008; 2. The provision of a wastewater disposal connection to Council's reticulated wastewater system for each allotment sufficient to meet the level of service in the Wellington Regional Standard for Water Services 2022; 4. The provision of a stormwater connection to Council's reticulated stormwater system for each allotment sufficient to meet the level of service in the Wellington Regional Standard for Water Services 2022; 5. The provision of fibre optic cable connections to the legal boundary of each allotment; 6. The provision of electricity connections to the legal boundary of each allotment; and 7. Any consent notices, covenants, easements or other legal instruments necessary. ...
Fire and Emergency New Zealand	FS14.1	Part 2 / Subdivision chapter / Subdivision / SUB-R1	Oppose	Fire and Emergency opposes the deletion of #2 matter of control relating to the provision of a water supply and firefighting water supply. Fire and Emergency consider it vital that the plan contains provisions which ensure all new land use development and subdivisions are supplied with an adequate firefighting water supply, and access to that supply, to provide for operational firefighting requirements. In order for Fire and Emergency to achieve its principal objective which includes protecting and preserving life and preventing or limiting damage to property, land and the environment, it is critical that water supply infrastructure of adequate capacity, pressures and accessibility is in place prior to development commencing. The Code of Practice sets out the minimum requirements for firefighting water and access in order for Fire and Emergency to operate effectively and efficiently in an emergency.	Disallow / Retain "The provision of a water supply connection to the Council's reticulated water supply system for each allotment sufficient to meet the levels of service in the Wellington Water Regional Standard for Water Services 2022 and the requirements of the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNZ PAS 4509:2008." as a matter of control for SUB-R1.
Hilary Watson	FS74.8	Part 2 / Subdivision chapter / Subdivision / SUB-R1	Oppose	Hilary Watson considers that these points are about removing character precincts from the plan. The precincts are important to protecting and preserving Wellington's townscape and sense of place, and can be retained and increased while still allowing enough realisable development capacity. Hilary Watson support the Council using Character as a Qualifying Matter to modify the permitted building heights and other matters under NPS-UD 2020 or the MDRS.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Survey & Spatial New Zealand Wellington Branch	439.27	Subdivision chapter / Subdivision / SUB-R1	Amend	Considers that the notification status statement erroneously includes compliance with MRZ-S1 for subdivision for 4+ units when the standard only applies to subdivisions with 1-3 units.	Amend SUB-R1 (Subdivision for the purpose of the construction and use of residential units in the Medium Density Residential Zone or High Density Residential Zone) to: Applications under this rule are precluded from being publicly notified or limited notified if the subdivision is only associated with residential units that fully comply with density standards MRZ-S1, MRZ-S2 , MRZ-S3, MRZ-S4, MRZ-S5, MRZ-S6, MRZ-S7 and MRZ-S8 in the Medium Density Residential Zone; or HRZ-S1, HRZ-S3, HRZ-S4, HRZ-S5, HRZ-S6, HRZ-S7, HRZ-S8 and HRZ-S9 in the High Density Residential Zone. Applications under this rule are precluded from being publicly or limited notified if the subdivision is associated with an application for the construction and use of 4 or more residential units that comply with density standards MRZ-S1 , MRZ-S2, MRZ-S3, MRZ-S4, MRZ-S5, MRZ-S6, MRZ-S7 and MRZ-S8 in the Medium Density Residential Zone; or HRZ-S1, HRZ-S3, HRZ-S4, HRZ-S5, HRZ-S6, HRZ-S7, HRZ-S8 and HRZ-S9 in the High Density Residential Zone.
Wellington City Council	266.100	Subdivision chapter / Subdivision / SUB-R2	Amend	Considers provisions relating to the consideration of 'any consent notices, covenants, easements or other legal instruments necessary' gives too much discretion to the assessment of controlled and restricted discretionary activities.	Delete below matter of discretion from rule SUB-R2.2.4 (Subdivision around an existing lawfully established building which does not result in the creation of any new undeveloped allotment) as follows: Any consent notices, covenants, easements or other legal instruments necessary.
Fire and Emergency New Zealand	273.109	Subdivision chapter / Subdivision / SUB-R2	Support	Supports the rule subject to the relief sought regarding SUB-S1 and SUB-S2, which will ensure water supply and access matters are sufficiently addressed for all new allotments. FENZ considers this will help ensure the safety and wellbeing of life, property, and the environment in relation to fire risk. FENZ considers the matters of discretion for Restricted Discretionary activities for SUB-R2, provide Council with the necessary scope to consider firefighting water supply and access matters, through consideration of SUB-P7 and the extent and effect of non-compliance with any relevant standard.	Retain SUB-R2 (Subdivision around an existing lawfully established building which does not result in the creation of any new undeveloped allotment) as notified. Support of this rule is subject to requested amendments to SUB-S1 and SUB-S2.
WCC Environmental Reference Group	377.191	Subdivision chapter / Subdivision / SUB-R2	Support	SUB-R2 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R2 (Subdivision around an existing lawfully established building which does not result in the creation of any new undeveloped allotment) as notified.
Kāinga Ora Homes and Communities	391.223	Subdivision chapter / Subdivision / SUB-R2	Support in part	SUB-R2 is partially supported, with the expectation that it may be amended to fit with other proposed requirements. [Refer to original submission for full reason]	Retain SUB-R2 (Subdivision around an existing lawfully established building which does not result in the creation of any new undeveloped allotment), with conditional amendment. [Refer to original submission]
Hilary Watson	FS74.9	Part 2 / Subdivision chapter / Subdivision / SUB-R2	Oppose	Hilary Watson considers that these points are about removing character precincts from the plan. The precincts are important to protecting and preserving Wellington's townscape and sense of place, and can be retained and increased while still allowing enough realisable development capacity. Hilary Watson support the Council using Character as a Qualifying Matter to modify the permitted building heights and other matters under NPS-UD 2020 or the MDRS.	Disallow
Survey & Spatial New Zealand Wellington Branch	439.28	Subdivision chapter / Subdivision / SUB-R2	Amend	Consider that all subdivision rules should include the ability to assess and claim existing use rights for standards that are not met for existing buildings or situations.	Amend SUB-R2 (Subdivision around an existing lawfully established building which does not result in the creation of any new undeveloped allotment) to: c. The subdivision will not lead to, or increase the degree of, non-compliance with land use standards of the applicable Zone.
Rod Halliday	25.23	Subdivision chapter / Subdivision / SUB-R3	Amend	Considers that the 100m setback distance in SUB-R3.2 is arbitrary and may incur risks to the applicant.	Delete SUB-R3 (Boundary adjustments) 3.2.e in its entirety.
Wellington City Council	266.101	Subdivision chapter / Subdivision / SUB-R3	Amend	Considers provisions relating to the consideration of 'any consent notices, covenants, easements or other legal instruments necessary' gives too much discretion to the assessment of controlled and restricted discretionary activities.	Delete below matter of control/discretion from rule SUB-R3.2.5 (Boundary adjustments) and 3.3.8 as follows: Any consent notices, covenants, easements or other legal instruments necessary.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.110	Subdivision chapter / Subdivision / SUB-R3	Support	Supports the rule subject to the relief sought regarding SUB-S1 and SUB-S2, which will ensure water supply and access matters are sufficiently addressed for all new allotments as both a permitted and controlled activity. Further, matters of control consider SUB-P7. FENZ considers this will help ensure the safety and wellbeing of life, property, and the environment in relation to fire risk. FENZ considers the matters of discretion for Restricted Discretionary activities for SUB-R3, provide Council with the necessary scope to consider firefighting water supply and access matters, through consideration of SUB-P7 and the extent and effect of non-compliance with any relevant standard.	Retain SUB-R3 (Boundary adjustments) as notified.
WCC Environmental Reference Group	377.192	Subdivision chapter / Subdivision / SUB-R3	Support	SUB-R3 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R3 (Boundary adjustments) as notified.
Kāinga Ora Homes and Communities	391.224	Subdivision chapter / Subdivision / SUB-R3	Support in part	SUB-R3 is partially supported, with the expectation that it may be amended to fit with other proposed requirements. WCC Environmental Reference Group	377.198	Subdivision chapter / Subdivision / SUB-R9	Support	SUB-R9 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R9 (Subdivision of a site on which a scheduled archaeological site is located) as notified.
WCC Environmental Reference Group	377.199	Subdivision chapter / Subdivision / SUB-R10	Support	SUB-R10 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R10 (Subdivision of a site on which a notable tree is located) as notified.
Fire and Emergency New Zealand	273.114	Subdivision chapter / Subdivision / SUB-R11	Support in part	Supports the rule as it restricts subdivision of land within a significant natural area. However, FENZ considers there is generally a heightened fire risk in more rural / vegetated areas, which is increasing overtime due to the effects of climate change. As such, FENZ considers it important that subdivisions within a significant natural area are provided with a sufficient firefighting water supply, including access to that supply, in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. FENZ considers this should apply to both reticulated and non-reticulated areas.	Supports SUB-R11 (Subdivision of land within a significant natural area), with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.115	Subdivision chapter / Subdivision / SUB-R11	Amend	Supports the rule as it restricts subdivision of land within a significant natural area. However, FENZ considers there is generally a heightened fire risk in more rural / vegetated areas, which is increasing overtime due to the effects of climate change. As such, FENZ considers it important that subdivisions within a significant natural area are provided with a sufficient firefighting water supply, including access to that supply, in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. FENZ considers this should apply to both reticulated and non-reticulated areas.	Amend SUB-R11 (Subdivision of land within a significant natural area) as follows: Matters of discretion: 1. The matters in SUB-P15 and 16624, SUB-P16; <u>and</u> 2. <u>The extent to which firefighting water supply, and access to that supply, has been provided in accordance with New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008.</u>
Royal Forest and Bird Protection Society	345.284	Subdivision chapter / Subdivision / SUB-R11	Support in part	Supports the requirement that the building platform be located outside the SNA for the RDA rule to apply. The RDA rule should also only apply where access to the building platform is also outside the SNA. The matters of discretion should be expanded to include ECO XX (re maintenance of biodiversity) and ECO P5, or their replicas in the SUB chapter (as sought above). Where the RDA requirements are not met, the activity should become non-complying	Amend SUB-R11 (Subdivision of land within a significant natural area): 1. Activity status: Restricted Discretionary Where: a. A future building platform to contain a residential unit is identified for each new undeveloped allotment that: i. Complies with the underlying zone provisions for buildings; and ii. Is located outside of the significant natural area. Matters of discretion are: 1. The matters in SUB-P15 and 16624, SUB-P16. 2. <u>The matters in ECO-P5 and ECO-PX (re: maintenance of biodiversity).</u> ... 2. Activity status: Discretionary <u>Non-complying</u>
WCC Environmental Reference Group	377.200	Subdivision chapter / Subdivision / SUB-R11	Support	SUB-R11 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R11 (Subdivision of land within a significant natural area) as notified.
Director-General of Conservation	385.55	Subdivision chapter / Subdivision / SUB-R11	Support	Supports proposed Rule SUB-R11 (Subdivision of land within a significant natural area).	Retain rule SUB-R11 (Subdivision of land within a significant natural area) as notified.
Fire and Emergency New Zealand	273.116	Subdivision chapter / Subdivision / SUB-R12	Support in part	Supports the rule as it restricts subdivision of land within a significant natural area. However, FENZ considers there is generally a heightened fire risk in more rural / vegetated areas, which is increasing overtime due to the effects of climate change. As such, FENZ considers it important that subdivisions within a significant natural area are provided with a sufficient firefighting water supply, including access to that supply, in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. FENZ considers this should apply to both reticulated and non-reticulated areas.	Support SUB-R12 (Subdivision of land within significant amenity landscapes), with amendment.
Fire and Emergency New Zealand	273.117	Subdivision chapter / Subdivision / SUB-R12	Amend	Supports the rule as it restricts subdivision of land within a significant natural area. However, FENZ considers there is generally a heightened fire risk in more rural / vegetated areas, which is increasing overtime due to the effects of climate change. As such, FENZ considers it important that subdivisions within a significant natural area are provided with a sufficient firefighting water supply, including access to that supply, in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. FENZ considers this should apply to both reticulated and non-reticulated areas.	Amend SUB-R12 (Subdivision of land within significant amenity landscapes) as follows: Matters of discretion: 1. The effects on the identified values of the special amenity landscape; and 2. The matters in SUB-P18; <u>and</u> 3. <u>The extent to which firefighting water supply, and access to that supply, has been provided in accordance with New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.285	Subdivision chapter / Subdivision / SUB-R12	Support in part	Supports RD in SALs but seek that the matters of discretion be expanded to include NFL-P3 and NFL-P4 and cross reference new ECO and NFL policies sought above which are aimed at the maintenance of biodiversity outside of SNAs as well as ensuring policy 11 of the NZCPS is given effect to, outside of SNAs. Oppose the use of "identified" values as per our submission on SCHED11. Support discretionary status in 2.	Amend SUB-R12 (Subdivision of land within special amenity landscapes): 1. Activity status: Restricted Discretionary Where: a. A future building platform to contain a residential unit is identified for each new undeveloped allotment that: i. complies with the underlying zone provisions for buildings. Matters of discretion are: 1. The effects on the identified values of the special amenity landscape; and 2. The matters in SUB-P18 <u>3. The matters in NFL-P3, NFL-P4 [and ECO and NFL policies for maintenance of biodiversity outside SNAs and giving effect to Policy 11 of NZ Coastal Policy Statement]</u>
WCC Environmental Reference Group	377.201	Subdivision chapter / Subdivision / SUB-R12	Support	SUB-R12 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R12 (Subdivision of land within special amenity landscapes) as notified.
Fire and Emergency New Zealand	273.118	Subdivision chapter / Subdivision / SUB-R13	Support in part	Supports the rule as it restricts subdivision of land within a significant natural area. However, FENZ considers there is generally a heightened fire risk in more rural / vegetated areas, which is increasing overtime due to the effects of climate change. As such, FENZ considers it important that subdivisions within a significant natural area are provided with a sufficient firefighting water supply, including access to that supply, in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. FENZ considers this should apply to both reticulated and non-reticulated areas.	Retain SUB-R13 (Subdivision of land within outstanding natural features and landscapes), with amendment.
Fire and Emergency New Zealand	273.119	Subdivision chapter / Subdivision / SUB-R13	Amend	Supports the rule as it restricts subdivision of land within a significant natural area. However, FENZ considers there is generally a heightened fire risk in more rural / vegetated areas, which is increasing overtime due to the effects of climate change. As such, FENZ considers it important that subdivisions within a significant natural area are provided with a sufficient firefighting water supply, including access to that supply, in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. FENZ considers this should apply to both reticulated and non-reticulated areas.	Amend SUB-R13 (Subdivision of land within outstanding natural features and landscapes) as follows: Matters of discretion: 1. The matters in SUB-P19 and SUB-P20; and 2. The effects on the identified values of the outstanding natural features or landscapes; and <u>3. The extent to which firefighting water supply, and access to that supply, has been provided in accordance with New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008</u>
Royal Forest and Bird Protection Society	345.286	Subdivision chapter / Subdivision / SUB-R13	Support in part	Supports the requirement that the future building platform is located outside of the outstanding natural feature or landscape. Considers this should be extended to also require that the access to the building platform is outside of the ONFL as well. Seeks that the matters of discretion for RDA refer to policies aimed at protecting ONFLs and the indigenous biodiversity located within them, including new ECO and NFL policies sought by F&B which are aimed at the maintenance of biodiversity outside of SNAs. Support Discretionary and Non-Complying status.	Amend SUB-R13 (Subdivision of land within outstanding natural features and landscapes): 1. Activity status: Restricted Discretionary Where: a. A future building platform to contain a residential unit <u>and access</u> is identified for each new undeveloped allotment that: i. complies with the underlying zone provisions for buildings; and ii. is located outside of the outstanding natural feature or landscape. Matters of discretion are restricted to: 1. The matters in SUB-P19 and SUB-P20; and 2. The effects on the identified values of the outstanding natural features or landscapes. <u>3. [Insert ECO and NFL policies for maintenance of biodiversity outside SNAs]</u>
WCC Environmental Reference Group	377.202	Subdivision chapter / Subdivision / SUB-R13	Support	SUB-R13 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R13 (Subdivision of land within outstanding natural features and landscapes) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.120	Subdivision chapter / Subdivision / SUB-R14	Support in part	Supports the rule s it restricts the subdivision of land within Coastal Environment, Coastal Hazard Overlays, or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault or Terawhiti Fault Overlays. FENZ seeks an additional matter of discretion requiring sufficient firefighting water supply, including access to that supply, to be provided in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. FENZ considers this should apply to both reticulated and non-reticulated areas.	Supports SUB-R14 (Subdivision of land within the coastal environment outside of high coastal natural character areas and outside of coastal margins and riparian margins), with amendment.
Fire and Emergency New Zealand	273.121	Subdivision chapter / Subdivision / SUB-R14	Amend	Supports the rule s it restricts the subdivision of land within Coastal Environment, Coastal Hazard Overlays, or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault or Terawhiti Fault Overlays. FENZ seeks an additional matter of discretion requiring sufficient firefighting water supply, including access to that supply, to be provided in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. FENZ considers this should apply to both reticulated and non-reticulated areas.	Amend SUB-R14 (Subdivision of land within the coastal environment outside of high coastal natural character areas and outside of coastal margins and riparian margins) as follows: Matters of discretion: 1. The matters in PA-P1, SUB-P8 and SUB-P21; <u>and</u> <u>2. The extent to which firefighting water supply, and access to that supply, has been provided in accordance with New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008.</u>
Royal Forest and Bird Protection Society	345.287	Subdivision chapter / Subdivision / SUB-R14	Oppose in part	Considers that provisions which only protect areas of high natural character do not give effect to NZCPS policy 13. As such, we oppose the controlled rule, which would not allow the Council the ability to decline consent where there were significant adverse effects. In that context, RD is more appropriate. Ensure that the matters of discretion refer to policies aimed at protecting natural character, not only those concerning esplanade strips (SUB P8) and urban sprawl (SUB P21)	Amend SUB-R14 (Subdivision of land within the coastal environment outside of high coastal natural character areas and outside of coastal margins and riparian margins): 1. Activity status: Controlled <u>Restricted Discretionary</u> Where: a. The subdivision is not located in any Open Space and Recreation Zone or the General Rural Zone; and b. Compliance is achieved with the following standards: i. SUB-S6; and ii. SUB-S7. Matters of control <u>discretion</u> are: The matters in PA-P1, SUB-P8 and SUB-P21, and <u>[insert references to policies that protect natural character]</u>
WCC Environmental Reference Group	377.203	Subdivision chapter / Subdivision / SUB-R14	Support	SUB-R14 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R14 (Subdivision of land within the coastal environment outside of high coastal natural character areas and outside of coastal margins and riparian margins) as notified.
Fire and Emergency New Zealand	273.122	Subdivision chapter / Subdivision / SUB-R15	Support in part	Supports the rule s it restricts the subdivision of land within Coastal Environment, Coastal Hazard Overlays, or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault or Terawhiti Fault Overlays. FENZ seeks an additional matter of discretion requiring sufficient firefighting water supply, including access to that supply, to be provided in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. FENZ considers this should apply to both reticulated and non-reticulated areas.	Supports SUB-R15 (Subdivision of land within the coastal environment within coastal margins or riparian margins), with amendment.
Fire and Emergency New Zealand	273.123	Subdivision chapter / Subdivision / SUB-R15	Amend	Supports the rule s it restricts the subdivision of land within Coastal Environment, Coastal Hazard Overlays, or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault or Terawhiti Fault Overlays. FENZ seeks an additional matter of discretion requiring sufficient firefighting water supply, including access to that supply, to be provided in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. FENZ considers this should apply to both reticulated and non-reticulated areas.	Amend SUB-R15 (Subdivision of land within the coastal environment within coastal margins or riparian margins) as follows: Matters of discretion: 2. Any measures proposed to protect the natural character values of the area, including the location and size of future building platforms; and , 3. The matters in SUB-P14, SUB-P21, SUB-P24, PA-P1, PA-P2 and PA-P3; <u>and</u> <u>4. The extent to which firefighting water supply, and access to that supply, has been provided in accordance with New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.288	Subdivision chapter / Subdivision / SUB-R15	Oppose in part	Opposes controlled status for this activity. As submitted in the Coastal Environment chapter, the requirement to protect natural character applies regardless of zoning. Ensure that the matters of discretion for the RDA refer to policies aimed at protecting natural character.	Amend SUB-R15 (Subdivision of land within the coastal environment within coastal margins or riparian margins): 1. Activity status: Controlled <u>Restricted Discretionary</u> Where: The subdivision is located in the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone or City-Centre Zone Matters of control <u>discretion</u> are: 1. The effect on coastal margins and riparian margins; 2. Any measures proposed to protect the natural character values of the area, including the location and size of future building platforms; and 3. The matters in SUB-P14, SUB-P21, SUB-P23, PA-P1, PA-P2 and PA-P3, <u>and [insert references to policies that protect natural character]</u> .
WCC Environmental Reference Group	377.204	Subdivision chapter / Subdivision / SUB-R15	Support	SUB-R15 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R15 (Subdivision of land within the coastal environment within coastal margins or riparian margins) as notified.
Director-General of Conservation	385.56	Subdivision chapter / Subdivision / SUB-R15	Support	Supports proposed Rule SUB-R15 (Subdivision of land within the coastal environment within coastal margins or riparian margins).	Retain rule SUB-R15 (Subdivision of land within the coastal environment within coastal margins or riparian margins) as notified.
Fire and Emergency New Zealand	273.124	Subdivision chapter / Subdivision / SUB-R16	Support in part	Supports the rule s it restricts the subdivision of land within Coastal Environment, Coastal Hazard Overlays, or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault or Terawhiti Fault Overlays. FENZ seeks an additional matter of discretion requiring sufficient firefighting water supply, including access to that supply, to be provided in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. FENZ considers this should apply to both reticulated and non-reticulated areas.	Supports SUB-R16 (Subdivision of land within the coastal environment within high coastal natural character areas), with amendment.
Fire and Emergency New Zealand	273.125	Subdivision chapter / Subdivision / SUB-R16	Amend	Supports the rule s it restricts the subdivision of land within Coastal Environment, Coastal Hazard Overlays, or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault or Terawhiti Fault Overlays. FENZ seeks an additional matter of discretion requiring sufficient firefighting water supply, including access to that supply, to be provided in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. FENZ considers this should apply to both reticulated and non-reticulated areas.	Amend SUB-R16 (Subdivision of land within the coastal environment within high coastal natural character areas) as follows: Matters of discretion: 2. Any measures proposed to protect the natural character values of the area, including the location and size of future building platforms; and 3. The matters in SUB-P14, SUB-P21, SUB-P22, PA-P1, PA-P2 and PA-P3; <u>and</u> 4. <u>The extent to which firefighting water supply, and access to that supply, has been provided in accordance with New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.289	Subdivision chapter / Subdivision / SUB-R16	Support in part	Supports the requirement that the building platform is outside the high natural character area. Considers this should be extended to also require that the access to the building platform is outside the high natural character area. Also seeks that this rule is extended to apply to all areas of natural character in the coastal environment. Considers matters of discretion must refer to policies aimed at the protection of natural character. Supports non-complying status.	Amend SUB-R16 (Subdivision of land within the coastal environment within high coastal natural character areas): Activity status: Restricted Discretionary Where: A future building platform to contain a residential unit <u>and an access</u> is identified for each new undeveloped allotment that: complies with the underlying zone provisions for buildings; and is located outside of the high coastal natural character area. Matters of discretion are: 1. The effects on the identified coastal natural character values; 2. Any measures proposed to protect the natural character values of the area, including the location and size of future building platforms; and 3. The matters in SUB-P14, SUB-P21, SUB-P22, PA-P1, PA-P2 and PA-P3 <u>and [insert references to policies that protect natural character]</u> .
WCC Environmental Reference Group	377.205	Subdivision chapter / Subdivision / SUB-R16	Support	SUB-R16 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R16 (Subdivision of land within the coastal environment within high coastal natural character areas) as notified.
Director-General of Conservation	385.57	Subdivision chapter / Subdivision / SUB-R16	Support	Supports proposed Rule SUB-R16 (Subdivision of land within the coastal environment within high coastal natural character areas).	Retain rule SUB-R16 (Subdivision of land within the coastal environment within high coastal natural character areas) as notified.
Wellington City Council	266.104	Subdivision chapter / Subdivision / SUB-R17	Amend	Considers provisions relating to the consideration of 'any consent notices, covenants, easements or other legal instruments necessary' gives too much discretion to the assessment of controlled and restricted discretionary activities.	Delete below matter of control/discretion from rule SUB-R17.2.3 (Subdivision that creates building platforms for less hazard sensitive activities within the low, medium or high hazard areas of the Coastal Hazard Overlays or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault or Terawhiti Fault Overlays) and 17.1.3 as follows: Any consent notices, covenants, easements or other legal instruments necessary.
Fire and Emergency New Zealand	273.126	Subdivision chapter / Subdivision / SUB-R17	Amend	Supports the rule s it restricts the subdivision of land within Coastal Environment, Coastal Hazard Overlays, or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault or Terawhiti Fault Overlays. FENZ seeks an additional matter of discretion requiring sufficient firefighting water supply, including access to that supply, to be provided in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. FENZ considers this should apply to both reticulated and non-reticulated areas.	Supports SUB-R17 (Subdivision that creates building platforms for less hazard sensitive activities within the low, medium, or high hazard areas of the Coastal Hazard Overlays or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault, or Terawhiti Fault Overlays) with amendment.
Fire and Emergency New Zealand	273.127	Subdivision chapter / Subdivision / SUB-R17	Amend	Supports the rule s it restricts the subdivision of land within Coastal Environment, Coastal Hazard Overlays, or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault or Terawhiti Fault Overlays. FENZ seeks an additional matter of discretion requiring sufficient firefighting water supply, including access to that supply, to be provided in accordance with the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008. FENZ considers this should apply to both reticulated and non-reticulated areas.	Amend SUB-R17 (Subdivision that creates building platforms for less hazard sensitive activities within the low, medium, or high hazard areas of the Coastal Hazard Overlays or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault, or Terawhiti Fault Overlays) as follows: Matters of discretion: 2. Site access and the design of any vehicle parking and associated maneuvering areas proposed; and 3. Any consent notices, covenants, easements or other legal instruments necessary; <u>and</u> 4. <u>The extent to which firefighting water supply, and access to that supply, has been provided in accordance with New Zealand Fire Service Firefighting Water Supplies Code of Practice SNA PAS 4509:2008</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.188	Subdivision chapter / Subdivision / SUB-R17	Amend	Considers where the activity does not comply with Rule SUB-R17.1.b, i.e. the building platform is within a stream corridor, a non-complying activity status is more appropriate instead of discretionary as proposed in the notified rule. Non-complying activity status allows full scrutiny of the application as part of the consent process and sends a message to applicants that consents generally will not be granted.	Amend SUB-R17.1 (Subdivision that creates building platforms for less hazard sensitive activities within the low, medium or high hazard areas of the Coastal Hazard Overlays or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault or Terawhiti Fault Overlays) as follows: 1. Activity status: Controlled <u>Non-Complying</u>
WCC Environmental Reference Group	377.206	Subdivision chapter / Subdivision / SUB-R17	Support	SUB-R17 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R17 (Subdivision that creates building platforms for less hazard sensitive activities within the low...) as notified.
Kāinga Ora Homes and Communities	391.228	Subdivision chapter / Subdivision / SUB-R17	Oppose in part	Opposes the inclusion of flood hazard overlays and the reference to 'Any consent notices, covenants, easements or other legal instruments necessary' in the District Plan and District Plan maps and seeks all rules and standards remove the reference to the overlays and instead refer to the relevant hazard.	Opposes in part SUB-R17 (Subdivision that creates building platforms for less hazard sensitive activities within the low, medium or high hazard areas of the Coastal Hazard Overlays or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault or Terawhiti Fault Overlays) and seeks amendment.
Hilary Watson	FS74.14	Part 2 / Subdivision chapter / Subdivision / SUB-R17	Oppose	Hilary Watson considers that these points are about removing character precincts from the plan. The precincts are important to protecting and preserving Wellington's townscape and sense of place, and can be retained and increased while still allowing enough realisable development capacity. Hilary Watson support the Council using Character as a Qualifying Matter to modify the permitted building heights and other matters under NPS-UD 2020 or the MDRS.	Disallow
Greater Wellington Regional Council	FS84.59	Part 2 / Subdivision chapter / Subdivision / SUB-R17	Oppose	Greater Wellington disagree with the submitter that the flood hazard maps should be removed from the Proposed District Plan and instead be held in a nonstatutory GIS.	Disallow / Seeks that all flood hazard maps are included in the Proposed District Plan
Kāinga Ora Homes and Communities	391.229	Subdivision chapter / Subdivision / SUB-R17	Amend	Opposes the inclusion of flood hazard overlays and the reference to 'Any consent notices, covenants, easements or other legal instruments necessary' in the District Plan and District Plan maps and seeks all rules and standards remove the reference to the overlays and instead refer to the relevant hazard.	Amend SUB-R17 (Subdivision that creates building platforms for less hazard sensitive activities within the low, medium or high hazard areas of the Coastal Hazard Overlays or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault or Terawhiti Fault Overlays) as follows: 1. Activity status: Controlled where: a. The building platform is not located within an identified overland flowpath of the Flood Hazard Overlay; and/or b. The building platform is not located within a stream corridor of the Flood Hazard Overlay. Matters of control are: ... 3. Any consent notices, covenants, easements or other legal instruments necessary. 2. Activity Status: Restricted Discretionary ... 3. Any consent notices, covenants, easements or other legal instruments necessary; and
Toka Tū Ake EQC	FS70.57	Part 2 / Subdivision chapter / Subdivision / SUB-R17	Oppose	Accurate and risk-based regulatory hazard maps are an important tool in the WCC Proposed District Plan to limit subdivision and development within areas subject to natural hazard risk. Removing part or all of these regulatory maps opens the possibility that rules controlling development in flood-prone areas will be inconsistently applied, exposing people and their properties to unnecessary flood risk.	Disallow / Seeks that the part of this submission regarding the flood hazard overlay be disallowed.
Hilary Watson	FS74.15	Part 2 / Subdivision chapter / Subdivision / SUB-R17	Oppose	Hilary Watson considers that these points are about removing character precincts from the plan. The precincts are important to protecting and preserving Wellington's townscape and sense of place, and can be retained and increased while still allowing enough realisable development capacity. Hilary Watson support the Council using Character as a Qualifying Matter to modify the permitted building heights and other matters under NPS-UD 2020 or the MDRS.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	FS84.60	Part 2 / Subdivision chapter / Subdivision / SUB-R17	Oppose	Greater Wellington disagree with the submitter that the flood hazard maps should be removed from the Proposed District Plan and instead be held in a nonstatutory GIS.	Disallow / Seeks that all flood hazard maps are included in the Proposed District Plan
Wellington International Airport Ltd	406.267	Subdivision chapter / Subdivision / SUB-R17	Oppose	Opposes these provisions as it is not clear the circumstances where building platforms will be required to be identified as part of subdivision consent. This is inappropriate within the Airport Zone given the size of the land parcels and nature of the activities that are accommodated on site, even where the activity is for hazard sensitive or potentially hazard sensitive activities. [See paragraphs 4.76 to 4.80 in original submission for further detail.]	Seeks that SUB-R17 (Subdivision that creates building platforms for less hazard sensitive activities within the low, medium or high hazard areas of the Coastal Hazard Overlays or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault or Terawhiti Fault Overlays) is amended to provide clarification around the requirement for building platforms, and provide that building platforms are not required at the time of subdivision within the Airport Zone.
Wellington International Airport Ltd	406.268	Subdivision chapter / Subdivision / SUB-R17	Amend	Opposes these provisions as it is not clear the circumstances where building platforms will be required to be identified as part of subdivision consent. This is inappropriate within the Airport Zone given the size of the land parcels and nature of the activities that are accommodated on site, even where the activity is for hazard sensitive or potentially hazard sensitive activities. [See paragraphs 4.76 to 4.80 in original submission for further detail.]	Seeks that SUB-R17 (Subdivision that creates building platforms for less hazard sensitive activities within the low, medium or high hazard areas of the Coastal Hazard Overlays or within the Flood Hazard, Liquefaction, Wellington Fault, Ohariu Fault, Sheppards Fault or Terawhiti Fault Overlays) is amended to provide clarification around the requirement for building platforms, and provide that building platforms are not required at the time of subdivision within the Airport Zone.
Wellington City Council	266.105	Subdivision chapter / Subdivision / SUB-R18	Amend	Considers provisions relating to the consideration of 'any consent notices, covenants, easements or other legal instruments necessary' gives too much discretion to the assessment of controlled and restricted discretionary activities.	Delete below matter of control from rule SUB-R18.1.1c (Subdivision that creates building platforms for potentially hazard sensitive activities within the low hazard area of the Coastal Hazard Overlays, or within the inundation area of the Flood Hazard Overlay, or within the Liquefaction, Sheppards Fault or Terawhiti Fault Overlays) as follows: Any consent notices, covenants, easements or other legal instruments necessary.
Poneke Architects	292.3	Subdivision chapter / Subdivision / SUB-R18	Oppose	Opposes the Coastal Environment provisions in relation to subdivision as these are too broad and will effectively stop development in Wellington.	Delete references to the Coastal Environment in SUB-R18 (Subdivision of land in special amenity landscapes). [Inferred decision requested]
Greater Wellington Regional Council	351.189	Subdivision chapter / Subdivision / SUB-R18	Amend	Considers it is appropriate to require resource consent for subdivisions that create building platforms associated with potentially hazard sensitive activities within the inundation area of the Flood Hazard Overlay. However, the activity status should be restricted discretionary, not controlled. Restricted discretionary activity status gives Council the ability to decline an application if it is considered inappropriate or the mitigation measures are inadequate. The matter listed under SUB-R18 (2) is considered appropriate for restricted activity status.	Amend SUB-R18. (Subdivision that creates building platforms for potentially hazard sensitive activities within the low hazard area of the Coastal Hazard Overlays, or within the inundation area of the Flood Hazard Overlay, or within the Liquefaction, Sheppards Fault or Terawhiti Fault Overlays) as follows: 1. Activity status: Controlled <u>Restricted Discretionary</u> ... Retain SUB-R18 (Subdivision that creates building platforms for potentially hazard sensitive activities within the low...) as notified.
WCC Environmental Reference Group	377.207	Subdivision chapter / Subdivision / SUB-R18	Support	SUB-R18 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R18 (Subdivision that creates building platforms for potentially hazard sensitive activities within the low...) as notified.
Kāinga Ora Homes and Communities	391.230	Subdivision chapter / Subdivision / SUB-R18	Oppose in part	Opposes the inclusion of flood hazard overlays and the reference to 'Any consent notices, covenants, easements or other legal instruments necessary' in the District Plan and District Plan maps and seeks all rules and standards remove the reference to the overlays and instead refer to the relevant hazard.	Opposes in part SUB-R18 (Subdivision that creates building platforms for potentially hazard sensitive activities within the low hazard area of the Coastal Hazard Overlays, or within the inundation area of the Flood Hazard Overlay, or within the Liquefaction, Sheppards Fault or Terawhiti Fault Overlays) and seeks amendments.
Hilary Watson	FS74.16	Part 2 / Subdivision chapter / Subdivision / SUB-R18	Oppose	Hilary Watson considers that these points are about removing character precincts from the plan. The precincts are important to protecting and preserving Wellington's townscape and sense of place, and can be retained and increased while still allowing enough realisable development capacity. Hillary Watson support the Council using Character as a Qualifying Matter to modify the permitted building heights and other matters under NPS-UD 2020 or the MDRS.	Disallow
Greater Wellington Regional Council	FS84.61	Part 2 / Subdivision chapter / Subdivision / SUB-R18	Oppose	Greater Wellington disagree with the submitter that the flood hazard maps should be removed from the Proposed District Plan and instead be held in a nonstatutory GIS.	Disallow / Seeks that all flood hazard maps are included in the Proposed District Plan

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.231	Subdivision chapter / Subdivision / SUB-R18	Amend	Opposes the inclusion of flood hazard overlays and the reference to 'Any consent notices, covenants, easements or other legal instruments necessary' in the District Plan and District Plan maps and seeks all rules and standards remove the reference to the overlays and instead refer to the relevant hazard.	Seeks amendments to SUB-R18 (Subdivision that creates building platforms for potentially hazard sensitive activities within the low hazard area of the Coastal Hazard Overlays, or within the inundation area of the Flood Hazard Overlay, or within the Liquefaction, Sheppards Fault or Terawhiti Fault Overlays) to remove the reference to 'Any consent notices, covenants, easements or other legal instruments necessary' and seeks all rules and standards remove the reference to the overlays and instead refer to the relevant hazard.
Toka Tū Ake EQC	FS70.58	Part 2 / Subdivision chapter / Subdivision / SUB-R18	Oppose	Accurate and risk-based regulatory hazard maps are an important tool in the WCC Proposed District Plan to limit subdivision and development within areas subject to natural hazard risk. Removing part or all of these regulatory maps opens the possibility that rules controlling development in flood-prone areas will be inconsistently applied, exposing people and their properties to unnecessary flood risk.	Disallow / Seeks that the part of this submission regarding the flood hazard overlay be disallowed.
Hilary Watson	FS74.17	Part 2 / Subdivision chapter / Subdivision / SUB-R18	Oppose	Hilary Watson considers that these points are about removing character precincts from the plan. The precincts are important to protecting and preserving Wellington's townscape and sense of place, and can be retained and increased while still allowing enough realisable development capacity. Hilary Watson support the Council using Character as a Qualifying Matter to modify the permitted building heights and other matters under NPS-UD 2020 or the MDRS.	Disallow
Greater Wellington Regional Council	FS84.62	Part 2 / Subdivision chapter / Subdivision / SUB-R18	Oppose	Greater Wellington disagree with the submitter that the flood hazard maps should be removed from the Proposed District Plan and instead be held in a nonstatutory GIS.	Disallow / Seeks that all flood hazard maps are included in the Proposed District Plan
Wellington City Council	266.106	Subdivision chapter / Subdivision / SUB-R19	Amend	Considers provisions relating to the consideration of 'any consent notices, covenants, easements or other legal instruments necessary' gives too much discretion to the assessment of controlled and restricted discretionary activities.	Delete below matter of control from rule SUB-R19.1.3 (Subdivision that creates building platforms for potentially hazard sensitive activities within the medium hazard area of the Coastal Hazard Overlays) as follows: Any consent notices, covenants, easements or other legal instruments necessary.
WCC Environmental Reference Group	377.208	Subdivision chapter / Subdivision / SUB-R19	Support	SUB-R19 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R19 (Subdivision that creates building platforms for potentially hazard sensitive activities within the medium hazard area of the Coastal Hazard Overlays) as notified.
Kāinga Ora Homes and Communities	391.232	Subdivision chapter / Subdivision / SUB-R19	Oppose in part	Opposes the inclusion of flood hazard overlays and the reference to 'Any consent notices, covenants, easements or other legal instruments necessary' in the District Plan and District Plan maps and seeks all rules and standards remove the reference to the overlays and instead refer to the relevant hazard.	Opposes in part SUB-R19 (Subdivision that creates building platforms for potentially hazard sensitive activities within the medium hazard area of the Coastal Hazard Overlays) and seeks amendment. to remove the reference to 'Any consent notices, covenants, easements or other legal instruments necessary' and seeks all rules and standards remove the reference to the overlays and instead refer to the relevant hazard.
Hilary Watson	FS74.18	Part 2 / Subdivision chapter / Subdivision / SUB-R19	Oppose	Hilary Watson considers that these points are about removing character precincts from the plan. The precincts are important to protecting and preserving Wellington's townscape and sense of place, and can be retained and increased while still allowing enough realisable development capacity. Hilary Watson support the Council using Character as a Qualifying Matter to modify the permitted building heights and other matters under NPS-UD 2020 or the MDRS.	Disallow
Greater Wellington Regional Council	FS84.63	Part 2 / Subdivision chapter / Subdivision / SUB-R19	Oppose	Greater Wellington disagree with the submitter that the flood hazard maps should be removed from the Proposed District Plan and instead be held in a nonstatutory GIS.	Disallow / Seeks that all flood hazard maps are included in the Proposed District Plan
Kāinga Ora Homes and Communities	391.233	Subdivision chapter / Subdivision / SUB-R19	Amend	Opposes the inclusion of flood hazard overlays and the reference to 'Any consent notices, covenants, easements or other legal instruments necessary' in the District Plan and District Plan maps and seeks all rules and standards remove the reference to the overlays and instead refer to the relevant hazard.	Seeks amendment to SUB-R19 (Subdivision that creates building platforms for potentially hazard sensitive activities within the medium hazard area of the Coastal Hazard Overlays) to remove the reference to 'Any consent notices, covenants, easements or other legal instruments necessary' and seeks all rules and standards remove the reference to the overlays and instead refer to the relevant hazard.
Toka Tū Ake EQC	FS70.59	Part 2 / Subdivision chapter / Subdivision / SUB-R19	Oppose	Accurate and risk-based regulatory hazard maps are an important tool in the WCC Proposed District Plan to limit subdivision and development within areas subject to natural hazard risk. Removing part or all of these regulatory maps opens the possibility that rules controlling development in flood-prone areas will be inconsistently applied, exposing people and their properties to unnecessary flood risk.	Disallow / Seeks that the part of this submission regarding the flood hazard overlay be disallowed.

Hilary Watson	FS74.19	Part 2 / Subdivision chapter / Subdivision / SUB-R19	Oppose	Hilary Watson considers that these points are about removing character precincts from the plan. The precincts are important to protecting and preserving Wellington's townscape and sense of place, and can be retained and increased while still allowing enough realisable development capacity. Hilary Watson support the Council using Character as a Qualifying Matter to modify the permitted building heights and other matters under NPS-UD 2020 or the MDRS.	Disallow
Greater Wellington Regional Council	FS84.64	Part 2 / Subdivision chapter / Subdivision / SUB-R19	Oppose	Greater Wellington disagree with the submitter that the flood hazard maps should be removed from the Proposed District Plan and instead be held in a nonstatutory GIS.	Disallow / Seeks that all flood hazard maps are included in the Proposed District Plan
Wellington International Airport Ltd	406.269	Subdivision chapter / Subdivision / SUB-R19	Oppose	Opposes these provisions as it is not clear the circumstances where building platforms will be required to be identified as part of subdivision consent. This is inappropriate within the Airport Zone given the size of the land parcels and nature of the activities that are accommodated on site, even where the activity is for hazard sensitive or potentially hazard sensitive activities. [See paragraphs 4.76 to 4.80 in original submission for further detail.]	Seeks that SUB-R19 (Subdivision that creates building platforms for potentially hazard sensitive activities within the medium hazard area of the Coastal Hazard Overlays) is amended to provide clarification around the requirement for building platforms, and provide that building platforms are not required at the time of subdivision within the Airport Zone.
Wellington International Airport Ltd	406.270	Subdivision chapter / Subdivision / SUB-R19	Amend	Opposes these provisions as it is not clear the circumstances where building platforms will be required to be identified as part of subdivision consent. This is inappropriate within the Airport Zone given the size of the land parcels and nature of the activities that are accommodated on site, even where the activity is for hazard sensitive or potentially hazard sensitive activities. [See paragraphs 4.76 to 4.80 in original submission for further detail.]	Seeks that SUB-R19 (Subdivision that creates building platforms for potentially hazard sensitive activities within the medium hazard area of the Coastal Hazard Overlays) is amended to provide clarification around the requirement for building platforms, and provide that building platforms are not required at the time of subdivision within the Airport Zone.
WCC Environmental Reference Group	377.209	Subdivision chapter / Subdivision / SUB-R20	Support	SUB-R20 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R20 (Subdivision that creates building platforms for potentially hazard sensitive activities within overland flow...) as notified.
Wellington International Airport Ltd	406.271	Subdivision chapter / Subdivision / SUB-R20	Oppose	Opposes these provisions as it is not clear the circumstances where building platforms will be required to be identified as part of subdivision consent. This is inappropriate within the Airport Zone given the size of the land parcels and nature of the activities that are accommodated on site, even where the activity is for hazard sensitive or potentially hazard sensitive activities. [See paragraphs 4.76 to 4.80 in original submission for further detail.]	Seeks that SUB-R20 (Subdivision that creates building platforms for potentially hazard sensitive activities within overland flow path of the Flood Hazard Overlay, the Wellington Fault Overlay or the Ohariu Fault Overlay) is amended to provide clarification around the requirement for building platforms, and provide that building platforms are not required at the time of subdivision within the Airport Zone.
Wellington International Airport Ltd	406.272	Subdivision chapter / Subdivision / SUB-R20	Amend	Opposes these provisions as it is not clear the circumstances where building platforms will be required to be identified as part of subdivision consent. This is inappropriate within the Airport Zone given the size of the land parcels and nature of the activities that are accommodated on site, even where the activity is for hazard sensitive or potentially hazard sensitive activities. [See paragraphs 4.76 to 4.80 in original submission for further detail.]	Seeks that SUB-R20 (Subdivision that creates building platforms for potentially hazard sensitive activities within overland flow path of the Flood Hazard Overlay, the Wellington Fault Overlay or the Ohariu Fault Overlay) is amended to provide clarification around the requirement for building platforms, and provide that building platforms are not required at the time of subdivision within the Airport Zone.
WCC Environmental Reference Group	377.210	Subdivision chapter / Subdivision / SUB-R21	Support	SUB-R21 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R21 (Subdivision that creates building platforms for potentially hazard sensitive activities within the stream corridor of the Flood...) as notified.
Kāinga Ora Homes and Communities	391.234	Subdivision chapter / Subdivision / SUB-R21	Oppose in part	SUB-R21 is opposed as it would prevent subdivision for residential activities in existing urban areas subject to coastal hazards such as Kilbirnie. An amendment is sought to change the activity status to Discretionary to allow for the potential for managing the hazard risk for residential activities. The reference to the 'Flood Hazard Overlays' is also opposed.	Opposes in part SUB-R21 (Subdivision that creates building platforms for potentially hazard sensitive activities within the stream corridor of the Flood Hazard Overlay or the high hazard area of the Coastal Hazard Overlays) and seeks amendment.
Hilary Watson	FS74.20	Part 2 / Subdivision chapter / Subdivision / SUB-R21	Oppose	Hilary Watson considers that these points are about removing character precincts from the plan. The precincts are important to protecting and preserving Wellington's townscape and sense of place, and can be retained and increased while still allowing enough realisable development capacity. Hilary Watson support the Council using Character as a Qualifying Matter to modify the permitted building heights and other matters under NPS-UD 2020 or the MDRS.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	FS84.81	Part 2 / Subdivision chapter / Subdivision / SUB-R21	Oppose	Greater Wellington oppose the suggested change in activity status as this would not have regard to Proposed RPS Change 1.	Disallow / Seeks that SUB-R21 and SUB-R25 are retained as notified.
Kāinga Ora Homes and Communities	391.235	Subdivision chapter / Subdivision / SUB-R21	Amend	Considers that SUB-R21 should be amended, as it would prevent subdivision for residential activities in existing urban areas subject to coastal hazards such as Kilbirnie. Amendments to change the activity status to Discretionary to allow for the potential for managing the hazard risk for residential activities. Amendments are also sought to remove the reference to flood hazard overlays in the District Plan and to remove the reference to 'Any consent notices, covenants, easements or other legal instruments necessary'	Amend SUB-R21 (Subdivision that creates building platforms for potentially hazard sensitive activities within the stream corridor of the Flood Hazard Overlay or the high hazard area of the Coastal Hazard Overlays) as follows: Subdivision that creates building platforms for potentially hazard sensitive activities within the stream corridor of the Flood Hazard Overlay or the high hazard area of the Coastal Hazard Overlays 1. Activity Status: Non-Complying Discretionary
Toka Tū Ake EQC	FS70.60	Part 2 / Subdivision chapter / Subdivision / SUB-R21	Oppose	Hazard sensitive activities, which include emergency facilities, hospitals, major hazardous facilities and childcare, within the stream corridor of the flood hazard overlay and high coastal hazard overlay should remain non-compliant. Unimpeded stream corridors are important in allowing floodwater to escape and recede. Additionally, coastal hazard risk is going to increase in the near future with the impact of climate change and sea level rise. Amending this to discretionary provides a path for development which puts more people at risk from flood hazard and may worsen the effects of flooding in the surrounding area, and expose more people to increasing coastal hazard risk.	Disallow / Seeks that the parts of this submission regarding the flood hazard overlay and coastal hazard overlay be disallowed.
Hilary Watson	FS74.21	Part 2 / Subdivision chapter / Subdivision / SUB-R21	Oppose	Hilary Watson considers that these points are about removing character precincts from the plan. The precincts are important to protecting and preserving Wellington's townscape and sense of place, and can be retained and increased while still allowing enough realisable development capacity. Hilary Watson support the Council using Character as a Qualifying Matter to modify the permitted building heights and other matters under NPS-UD 2020 or the MDRS.	Disallow
Wellington International Airport Ltd	406.273	Subdivision chapter / Subdivision / SUB-R21	Oppose	Opposes these provisions as it is not clear the circumstances where building platforms will be required to be identified as part of subdivision consent. This is inappropriate within the Airport Zone given the size of the land parcels and nature of the activities that are accommodated on site, even where the activity is for hazard sensitive or potentially hazard sensitive activities. [See paragraphs 4.76 to 4.80 in original submission for further detail.]	Seeks that SUB-R21 (Subdivision that creates building platforms for potentially hazard sensitive activities within the stream corridor of the Flood Hazard Overlay or the high hazard area of the Coastal Hazard Overlays) is amended to provide clarification around the requirement for building platforms, and provide that building platforms are not required at the time of subdivision within the Airport Zone.
Wellington International Airport Ltd	406.274	Subdivision chapter / Subdivision / SUB-R21	Amend	Opposes these provisions as it is not clear the circumstances where building platforms will be required to be identified as part of subdivision consent. This is inappropriate within the Airport Zone given the size of the land parcels and nature of the activities that are accommodated on site, even where the activity is for hazard sensitive or potentially hazard sensitive activities. [See paragraphs 4.76 to 4.80 in original submission for further detail.]	Seeks that SUB-R21 (Subdivision that creates building platforms for potentially hazard sensitive activities within the stream corridor of the Flood Hazard Overlay or the high hazard area of the Coastal Hazard Overlays) is amended to provide clarification around the requirement for building platforms, and provide that building platforms are not required at the time of subdivision within the Airport Zone.
Wellington City Council	266.107	Subdivision chapter / Subdivision / SUB-R22	Amend	Considers provisions relating to the consideration of 'any consent notices, covenants, easements or other legal instruments necessary' gives too much discretion to the assessment of controlled and restricted discretionary activities.	Delete below matter of control from rule SUB-R22.1.3 (Subdivision that creates building platforms for hazard sensitive areas within the Sheppards Fault, Terawhiti Fault or Liquefaction Overlays) as follows: Any consent notices, covenants, easements or other legal instruments necessary.
WCC Environmental Reference Group	377.211	Subdivision chapter / Subdivision / SUB-R22	Support	SUB-R22 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R22 (Subdivision that creates building platforms for hazard sensitive areas within the Sheppards Fault, Terawhiti Fault or Liquefaction Overlays) as notified.
Kāinga Ora Homes and Communities	391.236	Subdivision chapter / Subdivision / SUB-R22	Oppose in part	Opposes the inclusion of flood hazard overlays and the reference to 'Any consent notices, covenants, easements or other legal instruments necessary' in the District Plan and District Plan maps and seeks all rules and standards remove the reference to the overlays and instead refer to the relevant hazard.	Opposes in part SUB-R22 (Subdivision that creates building platforms for hazard sensitive areas within the Sheppards Fault, Terawhiti Fault or Liquefaction Overlays) and seeks amendment.

Opposes the inclusion of flood hazard overlays in the District Plan and District Plan maps and seeks all rules and standards remove the reference to the overlays and instead refer to the relevant hazard.	Opposes SUB-R25 (Subdivision that creates building platforms for hazard sensitive activities within the stream corridor of the Flood Hazard Overlay, the Wellington Fault Overlay, the Ohariu Fault Overlay or the high hazard area of the Coastal Hazard Overlays) and seeks amendments.
Greater Wellington Regional Council	FS84.82	Part 2 / Subdivision chapter / Subdivision / SUB-R25	Oppose	Greater Wellington oppose the suggested change in activity status as this would not have regard to Proposed RPS Change 1.	Disallow / Seeks that SUB-R21 and SUB-R25 are retained as notified.
Kāinga Ora Homes and Communities	391.243	Subdivision chapter / Subdivision / SUB-R25	Amend	Considers that SUB-R25 should be amended, as it would prevent subdivision for residential activities in existing urban areas subject to coastal hazards such as Kilbirnie. Amendments to change the activity status to Discretionary to allow for the potential for managing the hazard risk for residential activities. Amendments are also sought to remove the reference to flood hazard overlays in the District Plan and District Plan.	Amend SUB-R25 (Subdivision that creates building platforms for hazard sensitive activities within the stream corridor of the Flood Hazard Overlay, the Wellington Fault Overlay, the Ohariu Fault Overlay or the high hazard area of the Coastal Hazard Overlays) as follows: Subdivision that creates building platforms for hazard sensitive activities within the stream corridor of the Flood Hazard Overlay, the Wellington Fault Overlay, the Ohariu Fault Overlay or the high hazard area of the Coastal Hazard Overlays 1. Activity Status: Non-Complying <u>Discretionary</u> [Inferred decision requested]
Toka Tū Ake EQC	FS70.62	Part 2 / Subdivision chapter / Subdivision / SUB-R25	Oppose	Hazard sensitive activities, which include emergency facilities, hospitals, major hazardous facilities and childcare, within the stream corridor of the flood hazard overlay, high coastal hazard overlay, and the Wellington and Ohariu Fault overlays should remain non-compliant for the following reasons: - Unimpeded stream corridors are important in allowing floodwater to escape and recede. - coastal hazard risk is going to increase in the near future with the impact of climate change and sea level rise, and - Rupture of the Wellington or Ohariu fault is the natural hazard which will create the most devastating impact on Wellington City. While ground shaking can't be 'planned' for (but built for), the amount of damage can be reduced by not locating buildings on the faults. Therefore the fault overlays need to be retained to avoid building on the faults. Amending hazard sensitive activities in these overlays to discretionary provides a path for development which puts more people at risk from flood hazard and may worsen the effects of flooding in the surrounding area, exposes more people and properties to increasing coastal hazard risk, and exposes more people and properties to fault rupture. This is unacceptable even within already developed suburbs.	Disallow
Wellington International Airport Ltd	406.279	Subdivision chapter / Subdivision / SUB-R25	Oppose	Opposes these provisions as it is not clear the circumstances where building platforms will be required to be identified as part of subdivision consent. This is inappropriate within the Airport Zone given the size of the land parcels and nature of the activities that are accommodated on site, even where the activity is for hazard sensitive or potentially hazard sensitive activities. [See paragraphs 4.76 to 4.80 in original submission for further detail.]	Seeks that SUB-R25 (Subdivision that creates building platforms for hazard sensitive activities within the stream corridor of the Flood Hazard Overlay, the Wellington Fault Overlay, the Ohariu Fault Overlay or the high hazard area of the Coastal Hazard Overlays) is amended to provide clarification around the requirement for building platforms, and provide that building platforms are not required at the time of subdivision within the Airport Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.280	Subdivision chapter / Subdivision / SUB-R25	Amend	Opposes these provisions as it is not clear the circumstances where building platforms will be required to be identified as part of subdivision consent. This is inappropriate within the Airport Zone given the size of the land parcels and nature of the activities that are accommodated on site, even where the activity is for hazard sensitive or potentially hazard sensitive activities. [See paragraphs 4.76 to 4.80 in original submission for further detail.]	Seeks that SUB-R25 (Subdivision that creates building platforms for hazard sensitive activities within the stream corridor of the Flood Hazard Overlay, the Wellington Fault Overlay, the Ohariu Fault Overlay or the high hazard area of the Coastal Hazard Overlays) is amended to provide clarification around the requirement for building platforms, and provide that building platforms are not required at the time of subdivision within the Airport Zone.
Wellington City Council	266.109	Subdivision chapter / Subdivision / SUB-R26	Amend	Considers provisions relating to the consideration of 'any consent notices, covenants, easements or other legal instruments necessary' gives too much discretion to the assessment of controlled and restricted discretionary activities.	Delete below matter of control/discretion from rule SUB-R26.1.3 (Subdivision within the Wellington Fault Overlay or medium or high coastal hazard areas on land occupied by City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) as follows: Any consent notices, covenants, easements or other legal instruments necessary.
WCC Environmental Reference Group	377.215	Subdivision chapter / Subdivision / SUB-R26	Support	SUB-R26 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R26 (Subdivision within the Wellington Fault Overlay or medium or high coastal hazard areas on land...) as notified.
Wellington International Airport Ltd	406.281	Subdivision chapter / Subdivision / SUB-R26	Support in part	Supports this rule subject to the amendments sought to Policy CE-P20 of the Proposed Plan.	If amendments to CE-P20 in original submission are adopted: Retain SUB-R26 (Subdivision within the Wellington Fault Overlay or medium or high coastal hazard areas on land occupied by City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) as notified.
Wellington City Council	266.110	Subdivision chapter / Subdivision / SUB-R27	Oppose	Considers the 'National Grid substation buffer' has been removed and as such this rule is no longer relevant.	Seeks to delete SUB-R27 in its entirety. AND: consequential renumbering of SUB-R28 to SUB-R31.
Transpower New Zealand Limited	FS29.39	Part 2 / Subdivision chapter / Subdivision / SUB-R27	Support	The deletion of the rule is consistent with the relief sought in the Transpower submission and is therefore supported.	Allow
Transpower New Zealand Limited	315.170	Subdivision chapter / Subdivision / SUB-R27	Oppose	Submitter is not supportive of the rule and will not be pursuing it through the PDP process, noting there is no supporting definition of the substation buffer area to direct where the rule applies.	Delete Rule SUB-R27 (Subdivision in the National Grid substation buffer) in its entirety.
WCC Environmental Reference Group	377.216	Subdivision chapter / Subdivision / SUB-R27	Support	SUB-R27 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R27 (Subdivision in the National Grid substation buffer) as notified.
Transpower New Zealand Limited	315.171	Subdivision chapter / Subdivision / SUB-R28	Amend	Considers that on the basis the National Grid is a qualifying matter, the subdivision rule SUB-R28 should be addressed as part of the ISPP process.	Seeks that, subject to other amendments sought by the submitter to SUB-R28 (Subdivision in the National Grid Subdivision corridor) the rule be included within the IPI and made subject to the ISPP process.
Transpower New Zealand Limited	315.172	Subdivision chapter / Subdivision / SUB-R28	Support in part	Supports SUB-R28 on the basis the rule gives effect to Policy 10 and Policy 11 of the NPS-ET and provides for the outcomes sought in INF-P7 (noting Transpower is seeking amendment to the policy). In particular the activity status is supported and reflects the approach in other district plans across New Zealand. Considers a restricted discretionary activity status for subdivision provides an appropriate incentive and opportunity to design subdivision layouts that avoid building sites within the National Grid Yard. Considers that Subdivision is the most effective point at which to ensure future reverse sensitivity effects, maintenance access issues, and adverse effects of transmission lines (including amenity issues) are avoided. This can be achieved by designing subdivision layouts to properly accommodate transmission corridors (including, for example, through the creation of reserves and/or open space where buffer corridors are located). The default non-complying status is supported where the standards cannot be met and reflects the strong policy directive of the NPS-ET. Seeks the following amendments: - Amend clause 2. to provide clarity and certainty the consideration also applies to the support structures, noting that transmission lines are not defined in the PDP. - Amend clause 5. to provide further direction as to the matters to consider when considering vegetation planting. - Provide as a matter of discretion, the risk of electrical hazards (new clause 8.).	Retain SUB-R28 (Subdivision in the National Grid subdivision corridor), subject to amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Transpower New Zealand Limited	315.173	Subdivision chapter / Subdivision / SUB-R28	Amend	<p>Supports SUB-R28 on the basis the rule gives effect to Policy 10 and Policy 11 of the NPSET and provides for the outcomes sought in INF-P7 (noting Transpower is seeking amendment to the policy). In particular the activity status is supported and reflects the approach in other district plans across New Zealand. Considers a restricted discretionary activity status for subdivision provides an appropriate incentive and opportunity to design subdivision layouts that avoid building sites within the National Grid Yard. Considers that Subdivision is the most effective point at which to ensure future reverse sensitivity effects, maintenance access issues, and adverse effects of transmission lines (including amenity issues) are avoided. This can be achieved by designing subdivision layouts to properly accommodate transmission corridors (including, for example, through the creation of reserves and/or open space where buffer corridors are located). The default non-complying status is supported where the standards cannot be met and reflects the strong policy directive of the NPSET. Seeks the following amendments:</p> <ul style="list-style-type: none"> - Amend clause 2. to provide clarity and certainty the consideration also applies to the support structures, noting that transmission lines are not defined in the PDP. - Amend clause 5. to provide further direction as to the matters to consider when considering vegetation planting. - Provide as a matter of discretion, the risk of electrical hazards (new clause 8.). 	<p>Amend SUB-R28 (Subdivision in the National Grid subdivision corridor) as follows:</p> <p>...</p> <p>Matters of discretion are:</p> <p>...</p> <p>2. The provision for the on-going efficient operation, maintenance, development and upgrade of the National Grid, including the ability for continued reasonable access to existing transmission lines <u>and support structures</u> for maintenance, inspections and upgrading;</p> <p>...</p> <p>5. The nature and location of any proposed vegetation to be planted in the vicinity of the National Grid, <u>and how such landscaping will impact on the operation, maintenance, upgrade and development (including access) of the National Grid;</u></p> <p>6. The outcome of any consultation with Transpower; and</p> <p>7. The extent to which the design and layout of the subdivision demonstrates that a suitable building platform or platforms for a principal building or dwelling can be located outside of the National Grid Yard for each new allotment.</p> <p><u>8. The risk of electrical hazards affecting public or individual safety, and the risk of property damage.</u></p> <p>...</p>
WCC Environmental Reference Group	377.217	Subdivision chapter / Subdivision / SUB-R28	Support	SUB-R28 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R28 (Subdivision in the National Grid subdivision corridor) as notified.
Firstgas Limited	304.39	Subdivision chapter / Subdivision / SUB-R29	Amend	<p>Considers that SUB-R29 should not have a Permitted Activity status. New subdivision, and future land use development enabled by subdivision, can adversely affect the safe, efficient and effective functioning of the Gas Transmission Network including above-ground stations. The Gas Transmission Pipeline Corridor, as well as above ground related infrastructure has the ability to affect how subdivision and development takes place. A Restricted Discretionary Activity is considered more appropriate to manage the consultation outcomes sought as part of a matter of discretion (not control) by Council.</p>	Delete SUB-R29.1 (Subdivision of land containing a Gas Transmission Pipeline corridor) in its entirety and replace with a new rule.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Firstgas Limited	304.40	Subdivision chapter / Subdivision / SUB-R29	Amend	<p>Considers that SUB-R29 should be amended to ensure that it includes the subdivision of land containing and/or within 10m the Gas Transmission Pipeline Corridor or subdivision of land within 30m of above ground related infrastructure. The rule should be amended so that the subdivision of land containing and/or within 10m of a Gas Transmission Pipeline Corridor or within 30m of above ground related infrastructure can be appropriately managed</p> <p>New subdivision, and future land use development enabled by subdivision, can adversely affect the safe, efficient and effective functioning of the Gas Transmission Network including above-ground stations. The Gas Transmission Pipeline Corridor, as well as above ground related infrastructure has the ability to affect how subdivision and development takes place.</p>	<p>Amend SUB-R29.1 (Subdivision of land containing a Gas Transmission Pipeline corridor) as follows:</p> <p>Subdivision of land containing <u>and/or within 10m of a Gas Transmission Pipeline Corridor or; Subdivision of land within 30m of above ground related infrastructure.</u></p> <p>Activity status: <u>Restricted Discretionary</u></p> <p>Where:</p> <p>a. Kāinga Ora – Homes and Communities	FS89.124	Part 2 / Subdivision chapter / Subdivision / SUB-R30	Oppose	Kāinga Ora opposes the proposed amendment which would constrain urban development in a wide area. An assessment of affected parties should be determined on a case-by-case development dependent on the effects of the activity. A blanket notification requirement would result in unnecessary delays and constraints to development where adverse effects may already have been appropriately mitigated.	Disallow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.75	Part 2 / Subdivision chapter / Subdivision / SUB-R30	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
WCC Environmental Reference Group	377.220	Subdivision chapter / Subdivision / SUB-R31	Support	SUB-R31 is supported as it gives effect to Subdivision objectives and policies.	Retain SUB-R31 (Any other subdivision) as notified.
Fire and Emergency New Zealand	273.128	Subdivision chapter / Subdivision / SUB-S1	Support in part	Supports standard as it requires allotments to have access to a formed legal road. However, FENZ requires vehicle access standards to help ensure accesses can accommodate a fire appliances. As per the feedback provided within the Infrastructure and Transport chapters, FENZ seeks an amendment to SUB-S1 to ensure sufficient access for firefighting appliances is provided to sites in unreticulated areas, or areas where the driveway exceeds hose run distances	Retain SUB-S1 (Access), with amendment.
Fire and Emergency New Zealand	273.129	Subdivision chapter / Subdivision / SUB-S1	Amend	Supports standard as it requires allotments to have access to a formed legal road. However, FENZ requires vehicle access standards to help ensure accesses can accommodate a fire appliances. As per the feedback provided within the Infrastructure and Transport chapters, FENZ seeks an amendment to SUB-S1 to ensure sufficient access for firefighting appliances is provided to sites in unreticulated areas, or areas where the driveway exceeds hose run distances	Amend SUB-S1 (Access) as follows: Every allotment must have practical, physical and legal access directly to a formed legal road or by way of a registered right-of-way. <u>Any access to a site located in an area where no fully reticulated water supply system is available, or having a length greater than 50 metres when connected to a road that has a fully reticulated water supply system including hydrants, must be designed to accommodate a fire appliance design vehicle of at least 2.5 metres wide and 13 metres long and with a minimum gross mass of 25 tonne including:</u> <u>a. a gradient of no more than 15% at any point; and</u> <u>b. a minimum clear passageway and/or vehicle crossing of at least 3.5 metres width at the site entrance, internal entrances and between buildings; and</u> <u>c. a minimum formed carriageway width of 4 metres; and</u> <u>d. a height clearance of at least 4 metres; and</u> <u>e. a design that is free of obstacles that could hinder access for emergency service vehicles; and</u> <u>f. The provision of hardstand and turnaround areas with maximum gradient of 5% in all directions.</u>
Survey & Spatial New Zealand Wellington Branch	FS116.5	Part 2 / Subdivision chapter / Subdivision / SUB-S1	Oppose	The requested changes for driveways longer than 50m are not consistent with Acceptable Solution C/AS1 Part 6 nor SNZ PAS 4509:2008. The requirements of SNZ PAS 4509:2008 are included as a matter of control under SUB-R1. Therefore, changes to SUB-S1 are not required	Disallow
Waka Kotahi	370.198	Subdivision chapter / Subdivision / SUB-S1	Support in part	Supports with amendments, noted below.	Supports with amendment, noted below.
LIVE WELLington	FS96.92	Part 2 / Subdivision chapter / Subdivision / SUB-O1	Oppose	More enabling than MDRS requirements without adequate justification.	Disallow
Waka Kotahi	370.199	Subdivision chapter / Subdivision / SUB-S1	Amend	The Submitter seeks the addition of a note pertinent to this standard.	Amend SUB-S1 (Access) as follows: Every allotment must have practical, physical and legal access directly to a formed legal road or by way of a registered right-of-way. <u>Note, please refer to the requirements of Waka Kotahi NZ Transport Agency and Part IV of the Government Roadway Powers Act 1989 with regard to vehicle entrances onto state highways.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Survey & Spatial New Zealand Wellington Branch	439.31	Subdivision chapter / Subdivision / SUB-S1	Oppose	Considers that this standard requires discretion to be exercised by Council, which is not appropriate for a standard. Considers that this standard replicates S106(1)(c) of the RMA and is therefore an unnecessary duplication.	Delete SUB-S1 (Access).
AdamsonShaw	137.1	Subdivision chapter / Subdivision / SUB-S2	Amend	Considers that SUB-S2 should be clarified to refer to new <i>vacant</i> allotments. An allotment created around an existing dwelling (i.e. not a vacant allotment) will not create an adverse effects on the existing water supply arrangement currently serving the existing house. Therefore, upgrades to the existing water supply arrangement (to meet current standards by Wellington Water Limited) cannot be required in the form of a condition of the subdivision consent as per Section 108AA(1)(b)(i) of the Resource Management Act. The existing water supply arrangement servicing the existing dwelling on the allotment (as long as the dwelling is to remain as part of the subdivision) can be retained in full.	Amend SUB-S2 (Water supply) to specifically refer to new <i>vacant</i> allotments.
Survey & Spatial New Zealand Wellington Branch	FS116.6	Part 2 / Subdivision chapter / Subdivision / SUB-S2	Support	Agree that where an existing house is retained on a new lot, that the existing water supply does not need to be replaced.	Allow
AdamsonShaw	137.2	Subdivision chapter / Subdivision / SUB-S2	Amend	Considers that SUB-S2 should be clarified to ensure that existing water supply arrangements continuing to serve an existing dwelling as part of the subdivision can be retained in full.	Amend SUB-S2 (Water supply) to add a point to ensure that existing water supply arrangements continuing to serve an existing dwelling as part of the subdivision can be retained in full.
Fire and Emergency New Zealand	273.130	Subdivision chapter / Subdivision / SUB-S2	Support in part	Strongly supports the standard as it requires all new lots to be serviced with reticulated water supply where available and, where this is not possible or sufficient, the provision of an alternative and satisfactory firefighting water supply must be provided. FENZ also supports reference to the firefighting Code of Practice specifically within the standards as it gives assurance that new lots as required will have ability to connect to an adequate firefighting water supply which is best considered before the development of any new buildings on the lot. It is also essential that FENZ personnel are able to access such supplies to utilise for firefighting purposes. The standards for the facilitation of such access are also contained within the Code of Practice. Specific reference to the necessity to provide access to water supply in accordance with the Code is therefore sought. FENZ supports the assessment criteria where the standard is infringed which includes the suitability of the proposed water supply for firefighting purposes, including effects on people's health and safety, and on property. Where this standard is infringed, it is considered necessary for FENZ to be consulted on any such applications.	Supports SUB-S2 (Water supply), with amendment.
Fire and Emergency New Zealand	273.131	Subdivision chapter / Subdivision / SUB-S2	Amend	Strongly supports the standard as it requires all new lots to be serviced with reticulated water supply where available and, where this is not possible or sufficient, the provision of an alternative and satisfactory firefighting water supply must be provided. FENZ also supports reference to the firefighting Code of Practice specifically within the standards as it gives assurance that new lots as required will have ability to connect to an adequate firefighting water supply which is best considered before the development of any new buildings on the lot. It is also essential that FENZ personnel are able to access such supplies to utilise for firefighting purposes. The standards for the facilitation of such access are also contained within the Code of Practice. Specific reference to the necessity to provide access to water supply in accordance with the Code is therefore sought. FENZ supports the assessment criteria where the standard is infringed which includes the suitability of the proposed water supply for firefighting purposes, including effects on people's health and safety, and on property. Where this standard is infringed, it is considered necessary for FENZ to be consulted on any such applications.	Amend SUB-S2 (Water supply) as follows: 1. Where a connection to Council's reticulated water supply systems is available, all new allotments must: a. Be provided with a water supply connection at the allotment boundary, that provides the level of service in Chapter 6, Tables 6.1 and 6.2 of the Wellington Water Regional Standard for Water Services May 2019; b. Comply with water supply requirements, <u>including the requirements for access to such supply</u> , in of the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNZ PAS 4509:2008; and 2. Where a connection to Council's reticulated water supply systems is not available, all allotments must: a. Be provided with access to a self-sufficient potable water supply with a minimum volume of 10,000L; and b. Comply with the water supply requirements, <u>including the requirements for access to such supply</u> , of the New Zealand Fire Service Firefighting Water Supplies Code of Practice SNZ PAS 4509:2008.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.191	Subdivision chapter / Subdivision / SUB-S2	Amend	Considers that this would reduce the demand on reticulated water supplies, to have regard to Policies FW.2, FW.3, FW.5 and CC.14 42 (q) in Proposed RPS Change 1, and Policy 45 in the Operative RPS.	Amend SUB-S2 (Water supply) to require new lots connecting to the Council's water supply system to include alternate supplies for non-potable use, such as roofwater collection systems among other possible sources.
Survey & Spatial New Zealand Wellington Branch	439.32	Subdivision chapter / Subdivision / SUB-S2	Amend	Considers that this rule makes the Regional Standard for Water Services 2021 a permitted activity standard. Therefore considers that the document (or specific relevant provisions) should be incorporated into the Proposed District Plan to allow submissions on the provisions, rather than being incorporated as a reference document. Considers that the consultation requirements of Schedule 1, Clause 34 of the RMA have therefore not been met. Considers that incorporating material by reference creates uncertainty for developers, as these documents can be amended by other entities (specifically Wellington Water) with no particular process. Notes that while there was some consultation, few issues were resolved. Notes that a District Plan change would be required to incorporate any new variations to the Regional Standard for Water Services 2021.	Amend SUB-S2 (Water supply): Remove reference to the Regional Standard for Water Services Add minimum requirements for new connections into the District Plan as required by the Regional Standard for Water Services.
AdamsonShaw	137.3	Subdivision chapter / Subdivision / SUB-S3	Amend	Considers that SUB-S3 should be clarified to refer to new <i>vacant</i> allotments. An allotment created around an existing dwelling (i.e.. not a vacant allotment) will not create an adverse effects on the existing wastewater system/connection currently serving the existing house. Therefore, upgrades to the existing wastewater system/connection (to meet current standards by Wellington Water Limited) cannot be required in the form of a condition of the subdivision consent as per Section 108AA(1)(b)(i) of the Resource Management Act. The existing wastewater system/connection servicing the existing dwelling on the allotment (as long as the dwelling is to remain as part of the subdivision) can be retained in full.	Amend SUB-S3 (Wastewater disposal) to specifically refer to new <u>vacant</u> allotments.
AdamsonShaw	137.4	Subdivision chapter / Subdivision / SUB-S3	Amend	Considers that SUB-S3 should be clarified to ensure that existing wastewater system/connection continuing to serve an existing dwelling as part of the subdivision can be retained in full.	Amend SUB-S3 (Wastewater disposal) to add a point to ensure that existing wastewater system/connection continuing to serve an existing dwelling as part of the subdivision can be retained in full.
Greater Wellington Regional Council	351.192	Subdivision chapter / Subdivision / SUB-S3	Amend	Considers that the specific reference to septic tanks or soakage fields should be updated to refer to on-site domestic wastewater treatment and disposal.	Amend wording of SUB-S3 (Wastewater disposal) clause 2 as follows: Where a connection to Council's reticulated wastewater systems is not available, all allotments must be provided with <u>on-site wastewater systems</u> a septic tank or soakage field or an approved alternative means to dispose of sewage in a sanitary manner'.
Greater Wellington Regional Council	351.193	Subdivision chapter / Subdivision / SUB-S3	Amend	Considers that the standard should provide for using approved alternative wastewater systems for decentralised wastewater re-use and treatment (of grey and black water) and disposal anywhere where there are constraints on the existing network capacity, as well as where connections aren't available. Providing for alternative wastewater treatment options aligns with recommendation 35 of Te Mahere Wai and gives effect to Te Mana o Te Wai. Alternative wastewater treatment options often reduce potable water use significantly. Reducing pressure of new development on the wastewater network may also make intensification in some areas with existing network capacity constraints more feasible. Relevant direction from the operative RPS includes policies 16 and 45. Relevant direction from Proposed RPS Change 1 includes policies FW.2, FW.3 and FW.5, CC.14 and 42(r), FW.5 and 58. Regional plan rules would apply to discharges from all wastewater systems to manage potential impacts on groundwater and surface water quality, aquatic ecosystems and soil health. These requirements could feasibly be met by approved alternative wastewater systems in both brownfield development and greenfield development.	Seeks that WCC provide for the possibility of de-centralised wastewater re-use and treatment (of grey and black water) and disposal using alternative approved wastewater systems anywhere where there are constraints on the existing network capacity, as well as where connections are not available. Where connections are available and there is network capacity, a connection to the wastewater network would still be required.
Greater Wellington Regional Council	351.194	Subdivision chapter / Subdivision / SUB-S3	Amend	Considers that this standard should refer to additional requirements for on-site wastewater discharge under the Natural Resources Plan.	Seeks to amend to refer to additional requirements for on-site wastewater discharge under the Natural Resources Plan.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Survey & Spatial New Zealand Wellington Branch	439.33	Subdivision chapter / Subdivision / SUB-S3	Amend	Considers that this rule makes the Regional Standard for Water Services 2021 a permitted activity standard. Therefore considers that the document (or specific relevant provisions) should be incorporated into the Proposed District Plan to allow submissions on the provisions, rather than being incorporated as a reference document. Considers that the consultation requirements of Schedule 1, Clause 34 of the RMA have therefore not been met. Considers that many of the "level of service" items listed in the Standard are not appropriate to be standards for the District Plan. For example, the on-site disposal standards require Council to exercise discretion, which creates uncertainty.	Amend SUB-S3 (Wastewater disposal): Remove reference to the Regional Standard for Water Services Add minimum requirements for new connections into the District Plan as required by the Regional Standard for Water Services.
Rod Halliday	25.24	Subdivision chapter / Subdivision / SUB-S4	Amend	Considers that SUB-S4 (Stormwater management) needs to have an exemption, or a permitted activity standard that does not require hydraulic neutrality for sites upstream of the Stebbings or Seton Nossiter detention structure that are designed to hold back the 1 in 100 year storm event.	Seeks that an exemption be added in SUB-S4 (Stormwater management), point 2, where allotments should not be required to achieve hydraulic neutrality if they are located within the Stebbings or Seton Nossiter stormwater catchments.
Heidi Snelson	FS24.8	Part 2 / Subdivision Chapter / Subdivision / SUB-S4	Oppose	Submitter is seeking to reduce mitigation requirements and responsibilities around hydraulic neutrality and permeable surface requirements in the case of storm water management at a unprecedented time of storm water damage in Wellington. Developments should undertake more mitigation not less in all areas given climate change. Especially those posing more risk, such as steep hillsides, abutting/above key infrastructure (roading, power, water, railway), and significant streams, such as at the sites of the current and planned developments in Churton Park and Glenside West. The Glenside West development area is downstream of both detention structures, on extremely steep hillsides, above Porirua Stream, directly above Middleton Road (State Highway 1 motorway detour route) and the North Island railway line (which runs alongside and over the Porirua Stream). This development area must be specifically required to achieve Hydraulic Neutrality. Be that through specific technological infrastructure in build design and water catchment, significant permeable surface requirements/planting. Through Large Lot Residential Only in Glenside West.	Disallow / Seeks that submission be disallowed to ensure strict adherence to hydraulic neutrality in Glenside West Development Area, and Stebbings Valley / Reedy Block Development Area. Seeks minimum standard of hydraulic neutrality required and corresponding requirement of high level of permeable surface mitigations. Seeks that Glenside West be designated Large Lot Residential only.
AdamsonShaw	137.5	Subdivision chapter / Subdivision / SUB-S4	Amend	Considers that SUB-S4 should be clarified to refer to new <i>vacant</i> allotments. An allotment created around an existing dwelling (i.e.. not a vacant allotment) will not create an adverse effects on the existing stormwater system/connection currently serving the existing house. Therefore, upgrades to the existing stormwater system/connection (to meet current standards by Wellington Water Limited) cannot be required in the form of a condition of the subdivision consent as per Section 108AA(1)(b)(i) of the Resource Management Act. The existing stormwater system/connection servicing the existing dwelling on the allotment (as long as the dwelling is to remain as part of the subdivision) can be retained in full.	Amend SUB-S4 (Stormwater management) to specifically refer to new <i>vacant</i> allotments.
AdamsonShaw	137.6	Subdivision chapter / Subdivision / SUB-S4	Amend	Considers that SUB-S4 should be clarified to ensure that existing stormwater system/connection continuing to serve an existing dwelling as part of the subdivision can be retained in full.	Amend SUB-S4 (Stormwater management) to add a point to ensure that existing stormwater system/connection continuing to serve an existing dwelling as part of the subdivision can be retained in full.
AdamsonShaw	137.7	Subdivision chapter / Subdivision / SUB-S4	Amend	Considers that SUB-S4 should be clarified to reflect that subdivisions can involve creating allotments around existing dwellings. Allotments that contain existing dwellings do not need to be provided with hydraulic neutrality. This is because the dwelling existed prior to the subdivision and so the subdivision is not increasing the stormwater runoff on this allotment.	Amend SUB-S4.2 (Stormwater management) as follows: 2. All subdivisions <u>creating vacant allotments</u> must achieve hydraulic neutrality; and ...
AdamsonShaw	137.8	Subdivision chapter / Subdivision / SUB-S4	Amend	Considers that SUB-S4 should be clarified to reflect that allotments that contain existing dwellings do not need to be provided with hydraulic neutrality.	Amend SUB-S4.2 (Stormwater management) to include a note pointing out that existing dwellings do not require hydraulic neutrality.
Trelissick Park Group	168.21	Subdivision chapter / Subdivision / SUB-S4	Support	Supports that SUB-S4 (Stormwater management) covers stormwater hydraulic neutrality and water sensitive design.	Retain SUB-S4 (Stormwater management) as notified, with amendments below.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Trelissick Park Group	168.22	Subdivision chapter / Subdivision / SUB-S4	Amend	Considers that it is essential that all building developments, including infill housing, require at least neutral or lesser stormwater runoff, compared with pre-development, and so infringement provisions for stormwater should be deleted.	Amend SUB-S4 (Stormwater management) as follows: ... Assessment criteria where the standard is infringed:- 1. The extent to which the proposed stormwater management solution is sufficient for the development or activity it serves; 2. The extent to which the proposed stormwater management solution results in adverse effects on peoples' health and safety; 3. Whether the proposed stormwater management solution results in adverse flooding effects on other property, including on the effective function of Council's reticulated network; 4. Where Council's reticulated system is not immediately available but is likely to be in the near future, the appropriateness of temporary systems; and 5. Whether any site constraints make compliance impracticable.
Tyers Stream Group	221.71	Subdivision chapter / Subdivision / SUB-S4	Amend	Considers that SUB-S4 is OK except that provision of a connection to the water reticulation network does not fund the upgrade needed for that network to cope with extra capacity required for the series of new subdivision.	Seeks amendment to SUB-S4 (Stormwater management) to require contributions from the subdivider to any upgrades, in proportion to the extent of upgrade required from the subdivision. [Inferred decision requested]
Greater Wellington Regional Council	351.195	Subdivision chapter / Subdivision / SUB-S4	Amend	Considers these standards should refer to additional requirements for stormwater discharge under the Natural Resources Plan.	Seeks to amend to refer to additional requirements for stormwater discharge under the Natural Resources Plan.
Survey & Spatial New Zealand Wellington Branch	439.34	Subdivision chapter / Subdivision / SUB-S4	Amend	Considers that this rule makes the Regional Standard for Water Services 2021 a permitted activity standard. Therefore considers that the document (or specific relevant provisions) should be incorporated into the Proposed District Plan to allow submissions on the provisions, rather than being incorporated as a reference document. Considers that the consultation requirements of Schedule 1, Clause 34 of the RMA have therefore not been met. In the Standard, Tables 4.1 of the Standard provides a design level of service for a 10% AEP. However, Tables 4.2 and 4.3 evaluate floor levels and flood depths/flows in public areas, which are not relevant to the provision of stormwater connection for a lot.	Amend SUB-S4 (Stormwater management): Remove reference to the Regional Standard for Water Services Add minimum requirements for new connections into the District Plan as required by the Regional Standard for Water Services.
Chorus New Zealand Limited	88.2	Subdivision chapter / Subdivision / SUB-S5	Support	The SUB-S5 is supported as it ensures that appropriate subdivision activities within the relevant zones have provision for fibre optic cables. This provision achieves an appropriate balance to ensure that all allotments created by any subdivision are adequately serviced by telecommunications in accordance with SUB-P7.	Retain SUB-S5 (Telecommunications and power supply) as notified.
Rod Halliday	25.25	Subdivision chapter / Subdivision / SUB-S6	Amend	Considers that the use of the phrase 'capable of providing a platform within the 'built' area' in SUB-S6.8 (Upper Stebbings and Glenside West Development Area) is ambiguous and subject to misinterpretation. This development should be treated like 'All other Zones'.	Amend SUB-S6.8 (Number, size and shape of allotments - Upper Stebbings and Glenside West Development Area) as follows: ... Upper Stebbings and Glenside West Development Area 8. Minimum allotment size and shape: Capable of providing a platform within the 'built' area nil [Inferred decision requested].

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Glenside Progressive Association (GPA)	FS4.11	Subdivision chapter / Subdivision / SUB-S6	Oppose	<p>Supports unbuilt areas marked in grey remaining as 'no build' areas. Oppose any of these areas including the area marked in mustard/yellow (Fig 1 FS04) being used for medium density housing. Medium density housing would intrude into the hilltops and ridgelines, and any building platforms would require extensive earthworks causing sedimentation downstream and would fill existing deep gullies that contain and carry stormwater.</p> <p>Filling gullies for building platforms and roading is not sustainable watershed management and does not follow UN Sustainable Development Goals for addressing Climate Change. Council should ensure any proposed development for Glenside West promotes smarter water management and climate change adaptation solutions. Additionally, Council should protect the landscape as supported by the Boffa Miskell report <i>ibid</i> (2018): p 63). Refer to p 7-9 of this submission.</p> <p>Believe Council should discourage medium density housing on steep terrain as proposed for Glenside West and protect this landscape as supported by the Boffa Miskell (2018) report.</p> <p>[Refer to Further submission for full reason, including attachment]</p> <p>[Inferred reference to submission 25.25]</p>	<p>Amend / Seeks that:</p> <ul style="list-style-type: none"> - The grey unbuilt area in Glenside West is unsuitable land for housing. - The whole area shown in mustard/yellow is limited to Large Lot Residential. - No housing is built above the current Glenside-Churton park suburb boundary in order that the ridgeline is offered at least some degree of visual protection.
Heidi Snelson	FS24.10	Part 2 / Subdivision Chapter / Subdivision / SUB-S6	Oppose	<p>Submitter looks to remove and reduce requirements to keep development activities within 'built areas'.</p> <p>Submitter looks to remove need to adhere to defined limits around 'built area', 'non build' areas and activities. Submitter looks to undertake activities via their own discretion rather than those defined by the WCC/GWRC.</p>	<p>Disallow / Seeks requirements for discrete built areas and not allowing for "all other zone" considerations without defined limits.</p>
Kāinga Ora Homes and Communities	391.244	Subdivision chapter / Subdivision / SUB-S6	Support in part	<p>SUB-S6 is generally supported, but amendments are sought regarding the exclusion of minimum lot size requirements and limits as applied by this standard.</p> <p>[Submitter refers to SUB-R6 instead of SUB-S6]</p>	<p>Retain SUB-S6 (Number, size and shape of allotments) with amendment.</p>

General District-wide Matters

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested				
Kāinga Ora Homes and Communities	391.245	Subdivision chapter / Subdivision / SUB-S6	Amend	<p>Considers that SUB-S6 should be amended to exclude minimum lot size requirements and limits as applied by this standard. However, considers that the minimum lot size in the Metropolitan Centre, Local Centre, Neighbourhood Centre, Mixed Use and General Industrial Zone should be nil as well. Applying a minimum lot size is considered inconsistent with SUB-O1, SUB-P1 and SUB-P5.</p> <p>It is also sought by the submitter that a minimum shape factor standard is added for vacant allotments, to match with SUB-R5. The matters of control that apply to the creation of a vacant allotment ensure appropriate consideration is given to the feasible development of all vacant allotments which is considered sufficient to ensure small, undevelopable lots do not result.</p> <p>The submitter also requests the deletion to any reference of legal instruments as a matter of assessment criteria for considering and determining consent applications.</p>	<p>Amend SUB-S6 (Number, size and shape of allotments) as follows:</p> <p>Number, size and shape of <u>vacant</u> allotments</p> <p>The following maximum <u>vacant</u> allotment number and minimum size and shape limits must be complied with for any fee simple subdivision:</p> <p>...</p> <table border="0"> <tr> <td>Standard</td> <td>Limit</td> </tr> <tr> <td>....</td> <td></td> </tr> </table> <p><u>Vacant Allotments</u></p> <p><u>Minimum allotment shape</u> <u>Accommodate a rectangle of 8m x 15m.</u></p> <p>Metropolitan Centre, Local Centre, Neighbourhood Centre, Mixed Use & General Industrial Zones</p> <p>5. Maximum number of allotments nil</p> <p>6. Minimum allotment size 500m² <u>nil</u></p> <p>7. Minimum allotment shape nil</p> <p>Assessment Criteria where the standard is infringed:</p> <p>1. The extent to which a higher density of <u>higher density of</u> development is compatible with the <u>anticipated zone purpose, form and function local site context</u>;</p> <p>...</p> <p>5. The effectiveness of any legal or instruments necessary to limit future intensification.</p> <p>[Refer to original submission for table]</p>	Standard	Limit	
Standard	Limit								
....									
Rod Halliday	25.26	Subdivision chapter / Subdivision / SUB-S7	Amend	<p>Considers that SUB-S7 (Esplanade reserves and esplanade strips) seems inappropriate to apply to large rural lots as this will see huge tracts of riparian areas lost. SUB-S7 should be reverted back to the way it was written in Rule 15.4.5 in the Operative District Plan, with only lots less than 4ha in the rural zone captured.</p>	<p>Seeks that SUB-S7 (Esplanade reserves and esplanade strips) only applies to lots smaller than 4ha in Rural Zones.</p>				
Rod Halliday	25.27	Subdivision chapter / Subdivision / SUB-S7	Amend	<p>Considers that SUB-S7 (Esplanade reserves and esplanade strips) seems inappropriate to apply to large rural lots as this will see huge tracts of riparian areas lost. SUB-S7 should only be applicable to the following identified streams and tributaries, as stated in the Operative District Plan, Rule 15.4.5:</p> <ul style="list-style-type: none"> - Porirua Stream and tributaries - Makara Stream and tributaries, including Ohariu Stream - Oteranga Stream and tributaries - Karori Stream and tributaries 	<p>Seeks that SUB-S7 (Esplanade reserves and esplanade strips) applies solely to the following streams and tributaries:</p> <ul style="list-style-type: none"> - Porirua Stream and tributaries - Makara Stream and tributaries, including Ohariu Stream - Oteranga Stream and tributaries - Karori Stream and tributaries 				
Alan Fairless	242.11	General District wide Matters / General point on District wide Matters / General point on District wide Matters	Oppose	<p>Considers that amendments are needed to enable more limited notification (as opposed to non-notification) in relation to light, shading, privacy and wind effects, to enable and support fair and reasonable compromises between neighbours.</p>	<p>Seeks that the Proposed District Plan includes greater provisions for limited notification (as opposed to non-notification) in relation to light, shading, privacy and wind effects.</p>				
The Retirement Villages Association of New Zealand Incorporated	FS126.1	Part 2 / General District wide Matters / General point on District wide Matters / General point on District wide Matters	Oppose	<p>Relief sought in original submission is inconsistent with the RVA's primary submission and the Enabling Housing Act.</p>	<p>Disallow</p>				

General District-wide Matters - Coastal Environment

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ryman Healthcare Limited	FS128.1	Part 2 / General District wide Matters / General point on District wide Matters / General point on District wide Matters	Oppose	Relief sought in original submission is inconsistent with Ryman's primary submission and the Enabling Housing Act.	Disallow
Grant Birkinshaw	52.4	General District wide Matters / Coastal Environment / General CE	Oppose	Opposes the Coastal Hazard overlay based on Tsunami occurrences. The Tsunami baseline is for CD evacuation procedures and as such is not appropriate in a legal document.	Not specified.
Melissa Harward	65.3	General District wide Matters / Coastal Environment / General CE	Support	Supports green infrastructure and planning coastal hazard mitigation works.	Retain Coastal Environment chapter as notified.
Meridian Energy Limited	228.96	General District wide Matters / Coastal Environment / General CE	Oppose in part	Considers that the text in the introduction describing Wellington's coastline is only partially accurate. The description fails to acknowledge the presence of the turbines, roads and other built facilities in the West Wind and Mill Creek wind farms. Considers in this respect the description inaccurately depicts the actual character of the visible backdrop to the Moana Raukawa coastal environment as 'largely undeveloped'.	Retain the Introduction to the Coastal Environment chapter, with amendment.
Meridian Energy Limited	228.97	General District wide Matters / Coastal Environment / General CE	Amend	Considers that the text in the introduction describing Wellington's coastline is only partially accurate. The description fails to acknowledge the presence of the turbines, roads and other built facilities in the West Wind and Mill Creek wind farms. Considers in this respect the description inaccurately depicts the actual character of the visible backdrop to the Moana Raukawa coastal environment as 'largely undeveloped'.	Amend the text description in the introduction to read as follows (or similar) to acknowledge the presence of the built structures in the West Wind and Mill Creek wind farms: Wellington City's coastline extends for over 100 kilometers kilometres . The western and southern parts of this coastline are largely undeveloped. Narrow shore platforms and steep escarpment and cliff faces are typical along this part of the coastline, where exposure to rigorous environmental conditions has helped shape rugged landforms. <u>Many areas of Wellington's rural coastal environment are largely undeveloped (for example, the west-facing and south-facing escarpments adjacent to Raukawa Moana (Cook's Strait) west of Owhiro Bay). Parts of the rural environment above the coastal escarpments have been modified by development (for example, by the establishment of the West Wind and Mill Creek wind farms which now form part of the existing environment).</u> At the same time <u>The urban areas of the coastal environment have been heavily modified, with public roads present nearly the entire length of the coastline around the harbour from Sinclair Head to Petone, with and residential and commercial development having modified the natural character throughout this area.</u>
Meridian Energy Limited	228.98	General District wide Matters / Coastal Environment / General CE	Oppose in part	Considers the intention of the Plan to be that the rules for renewable electricity generation activities, structures and buildings would be wholly contained in the REG chapter. Meridian supports this approach. Considers The note in the preamble is not entirely helpful in clarifying this. Considers the standards listed for activities in the coastal environment are entirely inappropriate for renewable electricity generation activities and structures and should not be construed as a 'permitted baseline' for renewable electricity generation activities there, and particularly not for existing wind farms.	Retain the Introduction to the Coastal Environment Rules chapter with amendment.
Meridian Energy Limited	228.99	General District wide Matters / Coastal Environment / General CE	Amend	Considers the intention of the Plan to be that the rules for renewable electricity generation activities, structures and buildings would be wholly contained in the REG chapter. Meridian supports this approach. Considers The note in the preamble is not entirely helpful in clarifying this. Considers the standards listed for activities in the coastal environment are entirely inappropriate for renewable electricity generation activities and structures and should not be construed as a 'permitted baseline' for renewable electricity generation activities there, and particularly not for existing wind farms.	Amend the Introduction to Chapter CE Coastal Environment Rules, by inserting, under the heading 'Other relevant District Plan provisions', the following (or similar) clarification note: <u>The rules applicable to renewable electricity generation activities in the coastal environment, including in areas of high and very high coastal natural character, are contained in Chapter REG Renewable Electricity Generation. The rules in Chapter CE Coastal Environment do not apply to renewable electricity generation activities in the coastal environment, including in areas of high and very high coastal natural character in the coastal environment.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Horokiwi Quarries Ltd	271.42	General District wide Matters / Coastal Environment / General CE	Oppose in part	Opposes parts of the Coastal Overlay as it relates to part of the exiting Horokiwi quarry site. An amended boundary is sought given the nature of the existing quarrying activities undertaken and modified nature of the environment. [Refer to original submission for full reason, including attachments]	Seeks that the coastal environment line as it relates to Horokiwi is amended. [Refer to original submission, including figure and attachments]
Poneke Architects	292.4	General District wide Matters / Coastal Environment / General CE	Oppose	Opposes the Coastal Environment provisions as these are too broad and will effectively stop development in Wellington.	Delete the Coastal Environment chapter in its entirety. [Inferred decision requested]
Yvonne Weeber	340.19	General District wide Matters / Coastal Environment / General CE	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain the 'Coastal Environment' chapter as notified.
Yvonne Weeber	340.20	General District wide Matters / Coastal Environment / General CE	Amend	Considers that the Introduction to the Coastal Environment chapter should be amended to include coastal hazards of storm surges and storm events. It is not only sea level rise that is causing coastal inundation but storm surges and storm events that are increasing due to climate change.	Amend the Introduction to the Coastal Environment chapter as follows: Coastal Hazards Wellington City's coastal environment is susceptible to a range of coastal hazards, which are mapped as Coastal Hazard Overlays. These include: 1. Tsunami; 2. Coastal inundation including sea level rise, <u>storm surges and storm events.</u>
Yvonne Weeber	340.21	General District wide Matters / Coastal Environment / General CE	Oppose	Activities related to mining and quarrying within the coastal environment mentioned in CE-P9 are opposed.	Seeks that Mining and quarrying activities within the coastal environment not be permitted. [Inferred decision requested]
Horokiwi Quarries Limited	FS28.12	Part 2 / General District wide Matters / Coastal Environment / General CE	Oppose	Policy CE-P9 provides a policy framework for quarrying and mining activities within the coastal environment as opposed to activity status. The reasoning for the relief sought by the submitter is not clear.	Disallow
Yvonne Weeber	340.22	General District wide Matters / Coastal Environment / General CE	Oppose	Mining and quarrying activities within the coastal environment mentioned in CE-R10 and CE-R11 are opposed.	Not specified
Royal Forest and Bird Protection Society	345.290	General District wide Matters / Coastal Environment / General CE	Support in part	General comment on all rules - Notes policy 13 NZCPS requires that significant adverse effects are avoided in all natural character areas in the coastal environment, not only high natural character. As such, for any rule that applies to areas of high natural character, Forest & Bird seeks that it applies in any area of natural character.	Amend all rules to refer to all areas of "natural character", not only areas of "high natural character".
Wellington International Airport Limited	FS36.82	Part 2 / General District wide Matters / Coastal Environment / General CE	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Meridian Energy Limited	FS101.148	Part 2 / General District wide Matters / Coastal Environment / General CE	Oppose	Considers that the original submission point refers to 'all rules'. Meridian notes that the structure of the Plan is that the rules that apply to renewable electricity generation activities are entirely contained in the REG chapter (and Meridian has requested the insertion of notes that clarify this intention throughout the Plan). The original submission point is opposed to the extent that it seeks to cut across the Plan's intention.	Disallow / Disallow the requested amendments as they relate to the REG chapter.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Argosy Property No. 1 Limited	383.74	General District wide Matters / Coastal Environment / General CE	Support in part	Notes there is significant existing investment in the Wellington CBD which is subject to the coastal hazards overlays and this is not recognised in the Introduction. Argosy supports the Introduction to the extent that it takes an adaptation approach to coastal hazards. Retreat from the Wellington CBD is unlikely to occur, and therefore it would be more appropriate for the Proposed Plan to anticipate a protection or adaptation approach to climate change hazards. Amendment is required to help reconcile these provisions with the strategic direction and City Centre zone provisions above. The Introduction also includes a proposed Coastal Hazard Overlay Hazard Ranking table. This table includes tsunami with a 1:100 year scenario inundation extent as High. The High risk Coastal Hazard Tsunami Overlay covers a large part of the CBD, and the Medium and Low risk areas extend marginally further than the High risk area. Due to the nature of a tsunami, with high impact but low probability, it is considered that the greatest risk rating should be Medium	Amend the Introduction to the Coastal Environment as follows: Amend the Introduction to recognise that there is significant existing investment in the Wellington CBD and an adaptation and protection approach is needed to manage coastal hazards in this area. Argosy seeks for the Coastal Hazard Overlay Hazard Ranking table to be retained as notified subject to the following change: Tsunami – 1:100 year scenario inundation extent = High <u>Medium</u>
Toka Tū Ake EQC	FS70.3	Part 2 / General District wide Matters / Coastal Environment / General CE	Oppose	The risk of a 1:100 year tsunami risk is classed as high despite being low probability because tsunamis are a very high impact hazard, and for a locally sourced event (e.g. Hikaurangi subduction zone or local fault) there will be limited time to evacuate. Land use planning options must be considered, particularly when combined with other hazards along the coast (e.g. sea level rise, storm surge, liquefaction). It is not appropriate to reduce the hazard ranking to medium.	Disallow
CentrePort Limited	402.111	General District wide Matters / Coastal Environment / General CE	Oppose	Opposes structure of dealing with Natural Hazards. Considers that the structure of managing Natural Hazards is confusing. There are Natural Hazards provisions in the infrastructure chapter as well as Natural Hazards chapter, while coastal hazards are in the Coastal Environment Chapter. For CentrePort related matters you potentially have to look at all three. This is considered inefficient and could lead to duplication. Of the hazards listed CentrePort has fault hazard, liquefaction, coastal inundation and tsunami (high) risk.	Seeks that plan is amended so all Natural Hazards requirements are included in one chapter.
CentrePort Limited	402.112	General District wide Matters / Coastal Environment / General CE	Amend	Opposes structure of dealing with Natural Hazards. Considers that the structure of managing Natural Hazards is confusing. There are Natural Hazards provisions in the infrastructure chapter as well as Natural Hazards chapter, while coastal hazards are in the Coastal Environment Chapter. For CentrePort related matters you potentially have to look at all three. This is considered inefficient and could lead to duplication. Of the hazards listed CentrePort has fault hazard, liquefaction, coastal inundation and tsunami (high) risk.	Seeks that plan is amended so all Natural Hazards requirements are included in one chapter.
CentrePort Limited	402.113	General District wide Matters / Coastal Environment / General CE	Amend	Considers that there are also objectives and policies relating to the Port Zone which are relevant to the Coastal Environment chapter.	Amend explanatory statement in the introduction of the Coastal Environment chapter as follows: Provisions relating to infrastructure within the coastal environment are located in the INF-CE sub-chapter <u>and in the Special Purpose Port Zone</u> . The provisions in the INF-CE chapter apply in addition to the general provisions of the infrastructure chapter.
CentrePort Limited	402.114	General District wide Matters / Coastal Environment / General CE	Support in part	Considers that there are also objectives and policies relating to the Port Zone which are relevant to the Coastal Environment chapter.	Retain the explanatory statement in the introduction of the Coastal Environment chapter, with amendment.
Oyster Management Limited	404.30	General District wide Matters / Coastal Environment / General CE	Oppose in part	Opposes the Proposed Plan in part.	Seeks that the Proposed District Plan recognises the benefits of existing investment in the CBD in relation to natural hazards and coastal hazards.
Oyster Management Limited	404.31	General District wide Matters / Coastal Environment / General CE	Oppose in part	Opposes the Proposed Plan in part.	Seeks that the Proposed District Plan provides consistency in the approach to potentially hazardous activities in the Natural Hazards and Coastal Hazards Overlays.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Oyster Management Limited	404.32	General District wide Matters / Coastal Environment / General CE	Support in part	Supports the Introduction to the extent that it takes an adaptation approach to coastal hazards. [Refer to original submission for full reason] .	Retain CE (Coastal Environment) introduction with amendments.
Oyster Management Limited	404.33	General District wide Matters / Coastal Environment / General CE	Oppose in part	Considers there is significant existing investment in Wellington CBD that is subject to coastal hazard overlays, which is not recognised in the Introduction. Supports the Introduction to the extent it takes an adaption approach to coastal hazards, as retreat from Wellington CBD is unlikely, it would therefore be more appropriate to anticipate protection or adaption approaches to climate change hazards. Considers that amendment is required to align these provisions with the strategic direction and City Centre Zone provisions. Amendment is required to help reconcile these provisions with the strategic direction and City Centre zone provisions. [Refer to original submission for full reason].	Amend CE (Coastal Environment) - Introduction to recognise the significant existing investment in Wellington CBD and an adaption and protection approach is required to manage coastal hazards in the area.
Oyster Management Limited	404.34	General District wide Matters / Coastal Environment / General CE	Amend	Considers there is significant existing investment in Wellington CBD that is subject to coastal hazard overlays, which is not recognised in the Introduction. Supports the Introduction to the extent it takes an adaption approach to coastal hazards, as retreat from Wellington CBD is unlikely, it would therefore be more appropriate to anticipate protection or adaption approaches to climate change hazards. Considers that amendment is required to align these provisions with the strategic direction and City Centre Zone provisions. Amendment is required to help reconcile these provisions with the strategic direction and City Centre zone provisions. [Refer to original submission for full reason].	Amend CE (Coastal Environment) - Introduction to recognise the significant existing investment in Wellington CBD and an adaption and protection approach is required to manage coastal hazards in the area.
Oyster Management Limited	404.35	General District wide Matters / Coastal Environment / General CE	Amend	Considers that the hazard ratings for the tsunami risk events in the Coastal Hazard Overlay table in CE - Introduction should be amended due to the high impact, low probability nature of tsunami hazards. Considers the greatest risk rating for a tsunami event should be Medium. Considers that the hazard overlays are wide ranging in terms of risk and feasible approaches to mitigate that risk. By including all the Inundation and Tsunami overlays together, the Proposed Plan applies the same risk and mitigation approach to Inundation and Tsunami. This is inappropriate because the risk of tsunami cannot be mitigated and the probability of tsunami is low compared to Coastal Inundation.	Amend Coastal Hazard Overlay table in CE - Introduction as follows: Tsunami - 1:100 year scenario inundation extent: High <u>Medium</u> ... Tsunami - 1:500 year scenario inundation extent: Medium <u>Low</u> ... Tsunami - 1:1000 year scenario inundation extent: Low
Toka Tū Ake EQC	FS70.70	Part 2 / General District wide Matters / Coastal Environment / General CE	Oppose	The risk of a 1:100 year tsunami risk is classed as high despite being low probability because tsunamis are a very high impact hazard, and for a locally sourced event (e.g. Hikaurangi subduction zone or local fault) there will be limited time to evacuate. It is not appropriate to reduce the hazard ranking to medium. Land use planning options must be considered, particularly when combined with other hazards along the coast (e.g. sea level rise, storm surge, liquefaction). It is not appropriate to reduce the hazard ranking for all tsunamis given the high consequence of a tsunami occurring.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.284	General District wide Matters / Coastal Environment / General CE	Support in part	<p>Supports the recognition afforded to Wellington International Airport within the introductory text.</p> <p>Considers that the introductory text should also reference the relevant enabling provisions within the NZCPS relating to the operational and functional needs of infrastructure.</p> <p>The area of Natural Open Space Zone between Lyall Bay and Moa Point is highly modified and includes an extensive seawall that is located within the coastal margin. This wall protects regionally significant infrastructure from coastal erosion, including the WCC wastewater network and Wellington International Airport. It also protects Moa Point Road. As per the approach used for the Port and City Centre Zone, the relevant coastal margin provisions should not apply to this area.</p>	Retain Coastal Environment chapter introduction as notified, and seeks amendment.
Guardians of the Bays Inc	FS44.65	Part 2 / General District wide Matters / Coastal Environment / General CE	Oppose	Considers that Natural Open Space Zone between Lyall Bay and Moa Point should be retained within the Airport Zone. All amended changes are not required. The airport is a natural coastal environment. It is a complex environment which requires the NZCPS and Greater Wellington Regional Policy Statement for land below MHWS.	Disallow
Wellington International Airport Ltd	406.285	General District wide Matters / Coastal Environment / General CE	Amend	<p>Supports the recognition afforded to Wellington International Airport within the introductory text.</p> <p>Considers that the introductory text should also reference the relevant enabling provisions within the NZCPS relating to the operational and functional needs of infrastructure.</p> <p>The area of Natural Open Space Zone between Lyall Bay and Moa Point is highly modified and includes an extensive seawall that is located within the coastal margin. This wall protects regionally significant infrastructure from coastal erosion, including the WCC wastewater network and Wellington International Airport. It also protects Moa Point Road. As per the approach used for the Port and City Centre Zone, the relevant coastal margin provisions should not apply to this area.</p>	<p>Amend Coastal Environment chapter introduction as follows:</p> <p>...</p> <p>The coastal and riparian margin provisions do not apply in highly modified areas like the <u>Airport Zone, Port Zone, or the City Centre Zone, or the area of Natural Open Space Zone located between Lyall Bay and Moa Point.</u></p> <p>...</p> <p>Any activities within the City Centre Zone or are associated with the Wellington Airport, operational port activities, passenger port facilities and rail activities are assessed against their own specific objectives, policies and rules <u>contained in Part 3</u>. This is in recognition of the social and economic benefits these activities have and that their position in the City is largely fixed <u>as well as the policy directives of the NZCPS and RPS that recognise and provide for the functional and operational needs of infrastructure.</u></p> <p>...</p>
Guardians of the Bays Inc	FS44.66	Part 2 / General District wide Matters / Coastal Environment / General CE	Oppose	Considers that Natural Open Space Zone between Lyall Bay and Moa Point should be retained within the Airport Zone. All amended changes are not required. The airport is a natural coastal environment. It is a complex environment which requires the NZCPS and Greater Wellington Regional Policy Statement for land below MHWS.	Disallow
Wellington International Airport Ltd	406.286	General District wide Matters / Coastal Environment / General CE	Oppose	<p>Submitter acknowledges its siting within the coastal environment, as defined by the NZCPS and the Greater Wellington Regional Policy Statement.</p> <p>Submitter expresses concern that the complex relationship between the Coastal Environment, Infrastructure and Airport Zone provisions creates an inefficient consenting pathway for airport and airport related activities.</p>	Opposes the Coastal Environment overlay at the Airport Zone.
Wellington International Airport Ltd	406.287	General District wide Matters / Coastal Environment / General CE	Amend	<p>Submitter acknowledges its siting within the coastal environment, as defined by the NZCPS and the Greater Wellington Regional Policy Statement.</p> <p>Submitter expresses concern that the complex relationship between the Coastal Environment, Infrastructure and Airport Zone provisions creates an inefficient consenting pathway for airport and airport related activities.</p>	Seeks that the Coastal Environment overlay is removed from the Airport Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.288	General District wide Matters / Coastal Environment / General CE	Amend	Submitter acknowledges its siting within the coastal environment, as defined by the NZCPS and the Greater Wellington Regional Policy Statement. Submitter expresses concern that the complex relationship between the Coastal Environment, Infrastructure and Airport Zone provisions creates an inefficient consenting pathway for airport and airport related activities.	Seeks that the relationship and consenting pathway for activities within the coastal environment (insofar as they relate to activities undertaken within the Airport Zone) are enabled, streamlined and reflective of the existing environment.
Wellington International Airport Ltd	406.289	General District wide Matters / Coastal Environment / General CE	Amend	Considers that the Coastal Environment chapter unnecessarily duplicates controls found elsewhere in the PDP. [See original submission for full reason]	Seeks that the coastal environment chapter and the associated infrastructure within the coastal environment chapter should be reworked to focus on effects that specifically relate to the coastal environment and have not already been addressed, or cannot otherwise be addressed, by the underlying land use zone.
Wellington International Airport Ltd	406.290	General District wide Matters / Coastal Environment / General CE	Amend	Considers that the Coastal Environment chapter unnecessarily duplicates controls found elsewhere in the PDP. [See original submission for full reason]	Seeks that the coastal environment chapter is amended to give effect to all relevant parts of the NZCPS, including those provisions that recognise the functional and operational requirements of activities (such as infrastructure) to locate within these areas and the associated management of effects.
Wellington International Airport Ltd	406.291	General District wide Matters / Coastal Environment / General CE	Amend	Considers that tsunami hazard response within existing urban areas requires a broader management response that is best managed collectively by emergency management groups such as Civil Defence. The PDP's approach to tsunami management is cumbersome, particularly for large lifeline utilities like WIAL who have extensive emergency management plans and procedures in place, as well as CDEM requirements to remain operational during a civil defence emergency. The relevant coastal hazard policies and methods that apply to the site therefore have limited utility and will generate unnecessary resource consent requirements for matters that are otherwise already considered by WIAL during the design and development phase of activities within the zone. [See original submission for full reason]	Seeks that coastal hazard overlays are amended to focus only on coastal inundation hazards.
Toka Tū Ake EQC	FS70.93	Part 2 / General District wide Matters / Coastal Environment / General CE	Oppose	While the trigger of a tsunami cannot be mitigated, the consequences can be reduced through good design, evacuation planning and communication of the risk, and the tsunami hazard overlay should not be deleted from the policy. The current probability of a rupture of the Hikurangi subduction zone is calculated as 25% in the next 50 years. A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes. Land use planning and emergency management options need to be complimentary.	Disallow
Toka Tū Ake EQC	FS70.94	Part 2 / General District wide Matters / Coastal Environment / General CE	Oppose	The risk of a 1:100 year tsunami risk is classed as high despite being low probability because tsunamis are a very high impact hazard, and for a locally sourced event (e.g. Hikurangi subduction zone or local fault) there will be limited time to evacuate. Land use planning options must be considered, particularly when combined with other hazards along the coast (e.g. sea level rise, storm surge, liquefaction). Intensification and further development of brownfield sites as well as development of greenfield sites should be restricted within tsunami hazard overlays (refer to GNS guidance on land use planning which incorporates tsunami modelling).	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.292	General District wide Matters / Coastal Environment / General CE	Amend	<p>Considers that tsunami hazard response within existing urban areas requires a broader management response that is best managed collectively by emergency management groups such as Civil Defence.</p> <p>The PDP's approach to tsunami management is cumbersome, particularly for large lifeline utilities like WIAL who have extensive emergency management plans and procedures in place, as well as CDEM requirements to remain operational during a civil defence emergency. The relevant coastal hazard policies and methods that apply to the site therefore have limited utility and will generate unnecessary resource consent requirements for matters that are otherwise already considered by WIAL during the design and development phase of activities within the zone.</p> <p>[See original submission for full reason]</p>	Amend the Coastal Environment Chapter to apply coastal tsunami hazard provisions only to new Greenfield developments.
Fabric Property Limited	425.32	General District wide Matters / Coastal Environment / General CE	Oppose in part	<p>There is significant existing investment in the Wellington CBD which is subject to the coastal hazards overlays, and it is important that the risks from coastal hazards are appropriately addressed.</p> <p>supports the Introduction to the extent that it takes an adaptation approach to coastal hazards. Retreat from the Wellington CBD is unlikely to occur, and therefore it would be more appropriate for the Proposed Plan to anticipate a protection or adaptation approach to climate change hazards. Amendment is required to help reconcile these provisions with the strategic direction and City Centre zone provisions above.</p> <p>The Introduction also includes a proposed Coastal Hazard Overlay Hazard Ranking table. This table includes tsunami with a 1:100 year scenario inundation extent as High. The High risk Coastal Hazard Tsunami Overlay covers a large part of the CBD, and the Medium and Low risk areas extend marginally further than the High risk area. Due to the nature of a Tsunami, with high impact but low probability, it is considered that the greatest risk rating should be Medium.</p>	<p>Seeks that the introduction to the Coastal Environment introduction is amended to recognise that there is significant existing investment in the Wellington CBD and an adaptation and protection approach is needed to manage coastal hazards in this area.</p> <p>Amend the Coastal Hazard Overlay Hazard Ranking table as follows:</p> <p>Tsunami – 1:100 year scenario inundation extent = High <u>Medium</u></p>
Toka Tū Ake EQC	FS70.13	Part 2 / General District wide Matters / Coastal Environment / General CE	Oppose	The risk of a 1:100 year tsunami risk is classed as high despite being low probability because tsunamis are a very high impact hazard, and for a locally sourced event (e.g. Hikurangi subduction zone or local fault) there will be limited time to evacuate. It is not appropriate to reduce the hazard ranking to medium. Land use planning options must be considered, particularly when combined with other hazards along the coast (e.g. sea level rise, storm surge, liquefaction).	Disallow
Guardians of the Bays	452.18	General District wide Matters / Coastal Environment / General CE	Support	Supports the Coastal Environment Chapter.	Retain the Coastal Environment Chapter with amendment.
Guardians of the Bays	452.19	General District wide Matters / Coastal Environment / General CE	Amend	Considers an amendment to the introduction to include coastal hazards of storm surges and storm events. It is not only sea level rise that is causing coastal inundation but storm surges and storm events that are increasing due to climate change.	<p>Amend Introduction to the Coastal Environment chapter as follows:</p> <p>Coastal Hazards- Wellington City's coastal environment is susceptible to a range of coastal hazards, which are mapped as Coastal Hazard Overlays. These include:</p> <ol style="list-style-type: none"> 1. Tsunami; 2. Coastal inundation including sea level rise, <u>storm surges and storm events.</u>
Royal Forest and Bird Protection Society	345.291	General District wide Matters / Coastal Environment / New CE	Amend	<p>Considers the plan does not appear to include provisions to give effect to policy 13(1)(b) NZCPS.</p> <p>Seeks new objective, policy, and rules to protect areas of outstanding natural character in the coastal environment, in accordance with policy 13 NZCPS.</p>	Add new objective CE-OX, policy CE-PX, and rule CE-RX to give effect to policy 13(1)(b) of the NZ Coastal Policy Statement to protect areas of outstanding natural character in the coastal environment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Limited	FS36.83	Part 2 / General District wide Matters / Coastal Environment / New CE	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Meridian Energy Limited	FS101.149	Part 2 / General District wide Matters / Coastal Environment / New CE	Oppose	Considers that the framework of this Plan is that ONFLs, including ONFLs in the coastal environment, are identified in the relevant Schedule and the objectives and policies are set out in the NFL chapter. The NFL chapter policies already provide the protection requested.	Disallow
Royal Forest and Bird Protection Society	345.292	General District wide Matters / Coastal Environment / New CE	Amend	Seeks a new policy for outstanding natural character in the coastal environment to give effect to policy 13(1)(a) NZCPS. We also seek rules to give effect to that policy. Considers this section of the plan should also deal with areas of outstanding natural character in the landward coastal environment. It does not appear to be dealt with in the Natural Character chapter, which is only about rivers and riparian margins.	Add new policy CE-PX and rule CE-Rx to give effect to policy 13(1)(a) of the NZ Coastal Policy statement with regarding to outstanding natural character in the coastal environment and landward coastal environment.
Wellington International Airport Limited	FS36.84	Part 2 / General District wide Matters / Coastal Environment / New CE	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Meridian Energy Limited	FS101.150	Part 2 / General District wide Matters / Coastal Environment / New CE	Oppose	Considers that the framework of this Plan is that ONFLs, including ONFLs in the coastal environment, are identified in the relevant Schedule and the objectives and policies are set out in the NFL chapter. The NFL chapter policies already provide the protection requested.	Disallow
Royal Forest and Bird Protection Society	345.293	General District wide Matters / Coastal Environment / New CE	Amend	Seeks a new policy to give effect to policy 11 outside of SNAs. Notes that policy 11 is partially given effect to in the coastal environment by way of the ECO chapter policies, however, those policies only apply to identified SNAs. There may be other areas in the coastal environment, particularly within areas of natural character, that have biodiversity that is required to be protected under policy 11. Therefore considers a separate policy is required to ensure that policy 11 is given effect to in these areas.	Add new policy CE-PX to give effect to policy 11 of the NZ Coastal Policy Statement outside Significant Natural Areas and within the coastal environment.
Wellington International Airport Limited	FS36.85	Part 2 / General District wide Matters / Coastal Environment / New CE	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	FS101.151	Part 2 / General District wide Matters / Coastal Environment / New CE	Oppose	Considers that NZCPS Policy 11 addresses significant indigenous biological diversity in the coastal environment. The ECO chapter addresses NZCPS Policy 11 matters in relation to activities within SNAs in the coastal environment. Meridian accepts that the ECO chapter does not address NZCPS Policy 11 values outside SNAs. Considers that it is not possible to comment in any further detail in the absence of any explicit wording proposal. It may be that amendment to the ECO chapter is necessary to address this point.	Not specified / Seeks that any amendments be detailed for consideration.
Wellington International Airport Ltd	406.293	General District wide Matters / Coastal Environment / New CE	Amend	Opposes this rule insofar as it relates to the existing seawall located between Lyall Bay and Moa Point. Considers that the rule should only be applicable to new hard engineering structures. The ongoing upgrade, maintenance and repair of existing hard engineering structures that protect existing regionally significant infrastructure should be permitted, as WIAL has provided for in the underlying Natural Open Space Zone. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Add new rule in Coastal Environment chapter as follows: <u>CE – R24A Hard engineering measures in the high coastal hazard area for regionally significant infrastructure</u> <u>1. Activity Status: Permitted</u>
Guardians of the Bays Inc	FS44.67	Part 2 / General District wide Matters / Coastal Environment / New CE	Oppose	Considers that Natural Open Space Zone between Lyall Bay and Moa Point should be retained within the Airport Zone. All amended changes are not required. The airport is a natural coastal environment. It is a complex environment which requires the NZCPS and Greater Wellington Regional Policy Statement for land below MHWS.	Disallow
Te Rūnanga o Toa Rangatira	488.57	General District wide Matters / Coastal Environment / New CE	Amend	Considers that the Coastal Environment chapter could specifically recognise and protect significant cultural infrastructure, such as coastal marae, and the impacts that marae communities may face.	Add new objective in the Coastal Environment chapter as follows: <u>Reduce the susceptibility of significant cultural property, infrastructure and associated communities from damage by coastal hazards.</u>
Meridian Energy Limited	228.100	General District wide Matters / Coastal Environment / CE-O1	Oppose in part	Considers that together with the description of the natural character of the coastal environment along Raukawa Moana in Schedule SCHED10, Objective CE-O1 (Coastal environment) fails to acknowledge the presence of the existing modifications (including buildings and structures) made by the West Wind and Mill Creek wind farms. Seeks amendments to more accurately describe the modified natural character of these parts of the coastal environment in SCHED10 (Outstanding Natural Features and Landscapes), in the description of the coastal environment in Chapter CE Coastal Environment and in the objectives of Chapter CE Coastal Environment, including CE-O1.	Retain Objective CE-O1 (Coastal environment) with amendment to acknowledge the presence of the built structures in the West Wind and Mill Creek wind farms:
Meridian Energy Limited	228.101	General District wide Matters / Coastal Environment / CE-O1	Amend	Considers that together with the description of the natural character of the coastal environment along Raukawa Moana in Schedule SCHED10 (Outstanding Natural Features and Landscapes), Objective CE-O1 (Coastal environment) fails to acknowledge the presence of the existing modifications (including buildings and structures) made by the West Wind and Mill Creek wind farms. Seeks amendments to more accurately describe the modified natural character of these parts of the coastal environment in SCHED10, in the description of the coastal environment in Chapter CE Coastal Environment and in the objectives of Chapter CE Coastal Environment, including CE-O1.	Amend Objective CE-O1 (Coastal environment) to read as follows (or similar) to acknowledge the presence of the built structures in the West Wind and Mill Creek wind farms: The natural character and qualities that contribute to the natural character within the landward extent of the coastal environment are maintained and, where appropriate, restored or enhanced, <u>recognising the presence of existing renewable electricity generation activities and the importance of the renewable electricity generation resource in the coastal environment.</u>
Meridian Energy Limited	228.102	General District wide Matters / Coastal Environment / CE-O1	Amend	Considers that together with the description of the natural character of the coastal environment along Raukawa Moana in Schedule SCHED10 (Outstanding Natural Features and Landscapes), Objective CE-O1 (Coastal environment) fails to acknowledge the presence of the existing modifications (including buildings and structures) made by the West Wind and Mill Creek wind farms. Seeks amendments to more accurately describe the modified natural character of these parts of the coastal environment in SCHED10, in the description of the coastal environment in Chapter CE Coastal Environment and in the objectives of Chapter CE Coastal Environment, including CE-O1.	Add into the Chapter CE Coastal Environment or Chapter REG Renewable Electricity Generation, as a second option to amending Objective CE-O1, a new separate objective that acknowledges the presence of and recognises the benefits of the existing wind farms within the coastal environment and within the backdrop to the mapped coastal environment as follows (or similar to achieve the same outcome): <u>Objective [XX-O1]:</u> <u>The benefits of the existing wind farms along Wellington's coastline are recognised and their generation capacity is optimised.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Horokiwi Quarries Ltd	271.43	General District wide Matters / Coastal Environment / CE-O1	Support	Supports Objective CE-O1 .	Retain CE-O1 (Coastal environment) as notified.
Royal Forest and Bird Protection Society	345.294	General District wide Matters / Coastal Environment / CE-O1	Support	Supports this objective. However, the policies do not give effect to it, as they are limited to areas of high natural character only. Seeks that the policies give effect to this objective.	Retain CE-O1 (Coastal environment) as notified.
Wellington International Airport Limited	FS36.86	Part 2 / General District wide Matters / Coastal Environment / CE-O1	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Greater Wellington Regional Council	351.196	General District wide Matters / Coastal Environment / CE-O1	Support in part	Support the intent of Objective CE-O1 to preserve and protect natural character ratings across the landward extent of the coastal environment.	Retain provision, subject to amendments, as outlined other submission points.
Greater Wellington Regional Council	351.197	General District wide Matters / Coastal Environment / CE-O1	Amend	Considers that rather than just in high natural character areas/sites of high natural character; this approach gives effect to the intent of NZCPS Policy 13(1)(b). However, we request amendments to the wording of Objective CE-O1 to be more aligned with NZCPS Policies 13 and 14 consistently across the PDP, as provided in the requested amendments. This is important as 'preserved' and 'protected' are the terms used in NZCPS Policy 13 and section 6(a) of the RMA and are more directive than the term 'maintained' in terms of the outcome to be achieved. The submitter notes that the outcome of Objective CE-O1 cannot currently be achieved by the plan provisions, given natural character ratings have not been scheduled at the area scale across the full extent of the coastal environment. The relevant policies (such as CE-P5) also do not seek to manage the effects of development on natural character values across the full extent of the landward coastal environment. Mapping and scheduling area scale natural character ratings will ensure the appropriate plan provisions are included in the approach to ensure CE-O1 can be achieved and the provisions better give effect to NZCPS Policy 13(1)(b).	Seeks to amend to align with NZCPS Policies 13 and 15, specifically to reflect the requirement to "preserve" and "protect" natural character as follows. The natural character and qualities that contribute to the natural character within the landward extent of the coastal environment are maintained preserved and protected and, where appropriate, restored or enhanced rehabilitated.
Meridian Energy Limited	FS101.152	Part 2 / General District wide Matters / Coastal Environment / CE-O1	Oppose	Considers that it is not accurate to say that the NZCPS requires preservation in an absolute sense. The NZCPS qualifies its use of the word 'preserve' in accordance with s. 6 (a) of the RMA. If the word 'protected' is to be used, it should give proper effect to s. 6 (a) of the RMA and also include the words 'protected from inappropriate subdivision, use and development'. The word 'maintain' works in the context of Objective CE-O1.	Disallow / Disallow the requested amendments unless the word 'protected' is qualified as intended by the RMA and includes the words 'protected from inappropriate subdivision, use and development'. In the absence of explicit wording of requested relief, disallow the submission point's request for 'any other consequential amendments required'. There is simply insufficient detail.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.198	General District wide Matters / Coastal Environment / CE-O1	Amend	<p>Considers that rather than just in high natural character areas/sites of high natural character; this approach gives effect to the intent of NZCPS Policy 13(1)(b). However, we request amendments to the wording of Objective CE-O1 to be more aligned with NZCPS Policies 13 and 14 consistently across the PDP, as provided in the requested amendments. This is important as 'preserved' and 'protected' are the terms used in NZCPS Policy 13 and section 6(a) of the RMA and are more directive than the term 'maintained' in terms of the outcome to be achieved.</p> <p>The submitter notes that the outcome of Objective CE-O1 cannot currently be achieved by the plan provisions, given natural character ratings have not been scheduled at the area scale across the full extent of the coastal environment. The relevant policies (such as CE-P5) also do not seek to manage the effects of development on natural character values across the full extent of the landward coastal environment. Mapping and scheduling area scale natural character ratings will ensure the appropriate plan provisions are included in the approach to ensure CE-O1 can be achieved and the provisions better give effect to NZCPS Policy 13(1)(b).</p>	Seeks this includes any other consequential amendments required.
Meridian Energy Limited	FS101.153	Part 2 / General District wide Matters / Coastal Environment / CE-O1	Oppose	<p>Considers that it is not accurate to say that the NZCPS requires preservation in an absolute sense. The NZCPS qualifies its use of the word 'preserve' in accordance with s. 6 (a) of the RMA. If the word 'protected' is to be used, it should give proper effect to s. 6 (a) of the RMA and also include the words 'protected from inappropriate subdivision, use and development'. WCC Environmental Reference Group	377.221	General District wide Matters / Coastal Environment / CE-O1	Amend	<p>Considers that it is important to ensure that, in the midst of an ecological emergency, the default attitude towards environmental protection is one of restoration.</p>	<p>Amend CE-O1 (Coastal environment) as follows:</p> <p>"The natural character and qualities that contribute to the natural character within the landward extent of the coastal environment are maintained and, <u>where possible</u>, restored or enhanced".</p>
Meridian Energy Limited	FS101.154	Part 2 / General District wide Matters / Coastal Environment / CE-O1	Oppose	<p>Meridian considers that the expression 'where practicable' or 'where appropriate' better gives effect to the RMA and higher order policy instruments than 'where possible' (which sets an unduly stringent requirement).</p>	Disallow
Director-General of Conservation	385.58	General District wide Matters / Coastal Environment / CE-O1	Support in part	<p>Supports CE-O1, however would request the addition of the word 'rehabilitated' to ensure the objective is in line with Policy 14 of the NZCPS which promotes either restoration or rehabilitation of the natural character of the coastal environment.</p>	Supports objective CE-O1 (Coastal environment) in part, but seeks amendment.
Director-General of Conservation	385.59	General District wide Matters / Coastal Environment / CE-O1	Amend	<p>Supports CE-O1, however would request the addition of the word 'rehabilitated' to ensure the objective is in line with Policy 14 of the NZCPS which promotes either restoration or rehabilitation of the natural character of the coastal environment.</p>	<p>Amend objective CE-O1 (Coastal environment) as follows:</p> <p>The natural character and qualities that contribute to the natural character within the landward extent of the coastal environment are maintained and, where appropriate, restored, <u>rehabilitated</u>, or enhanced.</p>
Wellington International Airport Ltd	406.294	General District wide Matters / Coastal Environment / CE-O1	Support in part	<p>Supports this objective to the extent that the natural character is recognised and addressed in the underlying land use zone and thus do not require an additional level of control within this chapter and other plan provisions recognise the importance of regionally significant infrastructure and the need to adversely affect natural character for operational or functional reasons.</p>	Supports CE-O1 (Coastal Environment) and seeks amendment.
Wellington International Airport Ltd	406.295	General District wide Matters / Coastal Environment / CE-O1	Amend	<p>Supports this objective to the extent that the natural character is recognised and addressed in the underlying land use zone and thus do not require an additional level of control within this chapter and other plan provisions recognise the importance of regionally significant infrastructure and the need to adversely affect natural character for operational or functional reasons.</p>	<p>Seeks that CE-O1 (Coastal Environment) is amended to be reworked to focus on effects that specifically relate to the coastal environment and have not already been addressed, or cannot otherwise be addressed, by the underlying land use zone.</p> <p>[Inferred Decision Requested]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.296	General District wide Matters / Coastal Environment / CE-O1	Amend	Supports this objective to the extent that the natural character is recognised and addressed in the underlying land use zone and thus do not require an additional level of control within this chapter and other plan provisions recognise the importance of regionally significant infrastructure and the need to adversely affect natural character for operational or functional reasons.	Seeks that CE-O1 (Coastal Environment) is amended to ensure the provisions give effect to all relevant parts of the NZCPS, including those provisions that recognise the functional and operational requirements of activities (such as infrastructure) to locate within these areas and the associated management of effects. [Inferred Decision Requested]
Te Rūnanga o Toa Rangatira	488.58	General District wide Matters / Coastal Environment / CE-O1	Support in part	Supports the chapter as it has good provisions which incorporate the protection of the coastal environment and protection from Coastal Hazards.	Retain CE-O1 (Coastal Environment) as notified, subject to amendments in subsequent submission points
Meridian Energy Limited	228.103	General District wide Matters / Coastal Environment / CE-O2	Support in part	Considers that these [natural character areas] are identified in Schedule SCHED12 (High Coastal Natural Character Areas) as 'high' and 'very high'. There are no West Wind or Mill Creek wind farm turbines within the mapped overlays of 'high' or 'very high' coastal natural character but the wind farm structures are part of the visible backdrop to these 'high coastal natural character areas'. Considers the presence of these visible large structures needs to be acknowledged as existing and should not be considered inappropriate development. Considers the focus of Objective CE-O2 (High coastal natural character areas) should be on avoiding inappropriate subdivision, use and development within the mapped 'high coastal natural character areas'.	Retain Objective CE-O2 (High coastal natural character areas) with amendment to acknowledge and recognise the existing West Wind and Mill Creek wind farms as legitimate, authorised and appropriate existing development established within the backdrop to areas of identified 'high coastal natural character':
Meridian Energy Limited	228.104	General District wide Matters / Coastal Environment / CE-O2	Amend	Considers that these [natural character areas] are identified in Schedule SCHED12 (High Coastal Natural Character Areas) as 'high' and 'very high'. There are no West Wind or Mill Creek wind farm turbines within the mapped overlays of 'high' or 'very high' coastal natural character but the wind farm structures are part of the visible backdrop to these 'high coastal natural character areas'. Considers the presence of these visible large structures needs to be acknowledged as existing and should not be considered inappropriate development. Considers the focus of Objective CE-O2 (High coastal natural character areas) should be on avoiding inappropriate subdivision, use and development within the mapped 'high coastal natural character areas'.	Amend Objective CE-O2 (High coastal natural character areas) in the following manner (or similar) or otherwise amend the Chapter CE Coastal Environment objectives to acknowledge and recognise the existing West Wind and Mill Creek wind farms as legitimate, authorised and appropriate existing development established within the backdrop to areas of identified 'high coastal natural character': The identified characteristics and values of areas of high coastal natural character areas in the landward extent of the coastal environment are preserved and protected from inappropriate subdivision, use and development <u>occurring within the mapped high coastal natural character areas.</u>
Royal Forest and Bird Protection Society	345.295	General District wide Matters / Coastal Environment / CE-O2	Support in part	Considers that in order to give effect to NZCPS policy 13, this policy cannot be limited to areas of high natural character only. Seeks amendment to apply to all natural character in the landward extent of the coastal environment. Considers it also should not be limited to identified values. SCHED 12 provides only a very small amount of information about the values, and cannot be the basis for assessing protection. We therefore seek that reference to 'identified' values is deleted from this objective and all other provisions in this chapter. Considers SCHED 12 could be expanded to include a lot more detail on the values present.	Amend CE-O2 (High coastal natural character areas): The identified characteristics and values of areas of high coastal natural character areas in the landward extent of the coastal environment are preserved and protected from inappropriate subdivision, use and development.
Wellington International Airport Limited	FS36.87	Part 2 / General District wide Matters / Coastal Environment / CE-O2	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Meridian Energy Limited	FS101.155	Part 2 / General District wide Matters / Coastal Environment / CE-O2	Oppose	Considers that the focus of the objective is correctly on the identified characteristics and, consistent with the Objective's title, it should address the mapped areas of high coastal natural character.	Disallow
Greater Wellington Regional Council	351.199	General District wide Matters / Coastal Environment / CE-O2	Amend	Supports WCC's approach to protecting high natural character values in CE02	Retain provision, subject to amendments, as outlined other submission points.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.200	General District wide Matters / Coastal Environment / CE-O2	Amend	Considers to give effect to NZCPS Policy 13(1)(b), natural character is also required to be preserved "in all other areas of the coastal environment", rather than just sites of high natural character in isolation.	Amend CE-O2 (High coastal natural character areas) to refer to sites of natural character, in addition to areas of high natural character as per requested drafting as follows: High Coastal natural character areas <u>Adverse effects on identified characteristics and values of sites and areas of high coastal natural character in the landward extent of the coastal environment are avoided.</u>
Meridian Energy Limited	FS101.156	Part 2 / General District wide Matters / Coastal Environment / CE-O2	Oppose	Considers that the original submission point misrepresents the wording of NZCPS Policy 13. The NZCPS does not require absolute preservation of natural character and avoidance in all circumstances. Taken together, the policies of the CE chapter do implement the management hierarchy set out in NZCPS Policy 13 (i.e. avoid adverse effects in areas of outstanding natural character, avoid significant adverse effects and avoid, remedy or mitigate other adverse effects on natural character in all other areas of the coastal environment). Meridian would support amendments that reflect the NZCPS management hierarchy.	Disallow
WCC Environmental Reference Group	377.222	General District wide Matters / Coastal Environment / CE-O2	Support	Supports as the objective will benefit the coastal environment.	Retain CE-O2 (High coastal natural character areas) as notified.
Director-General of Conservation	385.60	General District wide Matters / Coastal Environment / CE-O2	Support	Supports proposed Objective CE-O2 (High coastal natural character areas).	Retain objective CE-O2 (High coastal natural character areas) as notified.
Te Rūnanga o Toa Rangatira	488.59	General District wide Matters / Coastal Environment / CE-O2	Support in part	Supports the chapter as it has good provisions which incorporate the protection of the coastal environment and protection from Coastal Hazards.	Retain CE-O2 (High natural character areas) as notified, subject to amendments in subsequent submission points
Royal Forest and Bird Protection Society	345.296	General District wide Matters / Coastal Environment / CE-O3	Support	Supports the objective.	Retain CE-O3 (Coastal margins and riparian margins) as notified.
Wellington International Airport Limited	FS36.88	Part 2 / General District wide Matters / Coastal Environment / CE-O3	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.223	General District wide Matters / Coastal Environment / CE-O3	Support	Supports as the objective will benefit the coastal environment.	Retain CE-O3 (Coastal margins and riparian margins) as notified.
Director-General of Conservation	385.61	General District wide Matters / Coastal Environment / CE-O3	Support	Supports proposed Objective CE-O3 (Coastal margins and riparian margins).	Retain objective CE-O3 (Coastal margins and riparian margins) as notified.
Wellington International Airport Ltd	406.297	General District wide Matters / Coastal Environment / CE-O3	Support in part	Supports this objective to the extent that the protection of coastal margins are addressed in the underlying land use zone and thus do not require an additional level of control within this chapter and other plan provisions recognise the importance of regionally significant infrastructure and the need to adversely affect natural character for operational or functional reasons.	Supports CE-O3 (Coastal Margins and riparian margins) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.298	General District wide Matters / Coastal Environment / CE-O3	Amend	Supports this objective to the extent that the protection of coastal margins are addressed in the underlying land use zone and thus do not require an additional level of control within this chapter and other plan provisions recognise the importance of regionally significant infrastructure and the need to adversely affect natural character for operational or functional reasons.	Seeks that CE-O3 (Coastal Margins and riparian margins) is amended to be reworked to focus on effects that specifically relate to the coastal environment and have not already been addressed, or cannot otherwise be addressed, by the underlying land use zone. [Inferred decision requested] [See paragraphs 4.48 and 4.49 of the original submission].
Wellington International Airport Ltd	406.299	General District wide Matters / Coastal Environment / CE-O3	Amend	Supports this objective to the extent that the protection of coastal margins are addressed in the underlying land use zone and thus do not require an additional level of control within this chapter and other plan provisions recognise the importance of regionally significant infrastructure and the need to adversely affect natural character for operational or functional reasons.	Seeks that CE-O3 (Coastal Margins and riparian margins) is amended to ensure the provisions give effect to all relevant parts of the NZCPS, including those provisions that recognise the functional and operational requirements of activities (such as infrastructure) to locate within these areas and the associated management of effects. [Inferred decision requested] [See paragraphs 4.48 and 4.49 of the original submission].
Te Rūnanga o Toa Rangatira	488.60	General District wide Matters / Coastal Environment / CE-O3	Support in part	Supports the chapter as it has good provisions which incorporate the protection of the coastal environment and protection from Coastal Hazards.	Retain CE-O3 (Coastal margins and riparian margins) as notified, subject to amendments in subsequent submission points
Royal Forest and Bird Protection Society	345.297	General District wide Matters / Coastal Environment / CE-O4	Support	Supports the objective.	Retain CE-O4 (Customary Harvesting) as notified.
Wellington International Airport Limited	FS36.89	Part 2 / General District wide Matters / Coastal Environment / CE-O4	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.224	General District wide Matters / Coastal Environment / CE-O4	Support	Supports as the objective will benefit the coastal environment. Particularly supports giving effect to Wellington City Council's Te Tiriti obligations.	Retain CE-O4 (Customary Harvesting) as notified.
Te Rūnanga o Toa Rangatira	488.61	General District wide Matters / Coastal Environment / CE-O4	Support in part	Supports the chapter as it has good provisions which incorporate the protection of the coastal environment and protection from Coastal Hazards.	Retain CE-O4 (Customary harvesting) as notified, subject to amendments in subsequent submission points
Fire and Emergency New Zealand	273.132	General District wide Matters / Coastal Environment / CE-O5	Support	Supports this objective to reduce risk to people, property, and infrastructure. FENZ acknowledges there are existing fire stations located within the Coastal Hazard Areas and that any development of these would be subject to provisions within this chapter.	Retain CE-O5 (Risk from coastal hazards) as notified.
Royal Forest and Bird Protection Society	345.298	General District wide Matters / Coastal Environment / CE-O5	Support in part	Considers this objective should not only refer to increased risk to people, property and infrastructure and should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected.	Amend CE-O5 (Risk from coastal hazards): Subdivision, use and development in the Coastal Hazard Overlays reduces or does not increase the risk to people, property, and infrastructure, <u>natural character, natural landscape, and biodiversity values.</u>
Wellington International Airport Limited	FS36.90	Part 2 / General District wide Matters / Coastal Environment / CE-O5	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.201	General District wide Matters / Coastal Environment / CE-05	Amend	Considers amendments appropriate to bring the policy in line with the Objectives 19 and 20 and Policies 51 and 52 in Proposed RPS Change 1.	Seeks to amend wording of CE-05 (Risk from coastal hazards): Subdivision, use and development in the Coastal Hazard Overlays minimises reduces or does not increase the risk to people, property, and infrastructure.
Toka Tū Ake EQC	FS70.34	Part 2 / General District wide Matters / Coastal Environment / CE-05	Support	Toka Tū Ake EQC consider it appropriate for terminology consistent with GRWC proposed RPS Change 1, based on standard risk based hazard management approaches, to be used throughout the WCC proposed district plan. We agree that 'minimise' natural hazard risk is a clearer instruction to bring risk in development to levels as low as reasonably practical than 'reduce' and 'reduce or do not increase'.	Allow
WCC Environmental Reference Group	377.225	General District wide Matters / Coastal Environment / CE-05	Support	Supports as the objective will benefit the coastal environment.	Retain CE-05 (Risk from coastal hazards) as notified.
Argosy Property No. 1 Limited	383.75	General District wide Matters / Coastal Environment / CE-05	Support	Supports the objective in that it enables subdivision, use and development in Coastal Hazard overlays that does not increase the risk to people, property, and infrastructure	Retain CE-05 (Risk from coastal hazards) as notified.
Kāinga Ora Homes and Communities	391.246	General District wide Matters / Coastal Environment / CE-05	Support in part	Objective CE-05 is partially supported and an amendment is sought.	Supports Objective CE-05 (Risk from coastal hazards) with amendment.
Kāinga Ora Homes and Communities	391.247	General District wide Matters / Coastal Environment / CE-05	Amend	Considers that CE-05 should be amended to better identify the effects of new subdivision, use and development may have on the existing environment. It is sought the word "new" is added to this objective to recognise the additional impact that only new subdivision, use and development has on the existing environment.	Amend Objective CE-05 (Risk from coastal hazards) as follows: New S -subdivision, use and development in the Coastal Hazard Overlays reduces or does not increase the risk to people, property, and infrastructure.
Oyster Management Limited	404.36	General District wide Matters / Coastal Environment / CE-05	Support	Supports this objective to the extent that it enables subdivision, use, and development in the Coastal Hazard overlays that does not increase the risk to people, property, or infrastructure.	Retain CE-05 (Risks from coastal hazards) as notified.
Investore Property Limited	405.41	General District wide Matters / Coastal Environment / CE-05	Support	Supports the objective.	Retain CE-05 (Risk from coastal hazards) as notified.
Wellington International Airport Ltd	406.300	General District wide Matters / Coastal Environment / CE-05	Oppose	Opposes CE-05. Considers that the risks from natural hazards should be avoided where they are intolerable. This concept should be brought into this policy and acknowledges that people, activities, property and infrastructure have varying levels of coastal hazard tolerance. [See paragraph 4.46 to 4.49 and 4.85 to 4.92 of original submission for full reason]	Opposes CE-05 (Risk from coastal hazards) and seeks amendment.
Airways Corporation of New Zealand Limited	FS105.2	Part 1 / Interpretation Subpart / Definitions / AIRPORT PURPOSES	Support	This submission point is consistent with Airways' operations and its core functions.	Allow
Wellington International Airport Ltd	406.301	General District wide Matters / Coastal Environment / CE-05	Oppose	Opposes CE-05. Considers that the risks from natural hazards should be avoided where they are intolerable. This concept should be brought into this policy and acknowledges that people, activities, property and infrastructure have varying levels of coastal hazard tolerance. [See paragraph 4.46 to 4.49 and 4.85 to 4.92 of original submission for full reason]	Amend CE-05 (Risk from coastal hazards) as follows: CE-05 Risk from coastal hazards Subdivision, use and development in the Coastal Hazard Overlays <u>do not create an intolerable level of</u> reduces or does not increase the risk to people, property, and infrastructure.
Fabric Property Limited	425.33	General District wide Matters / Coastal Environment / CE-05	Support	Supports CE-05 as notified.	Retain CE-05 (Risk from coastal hazards) as notified.
Te Rūnanga o Toa Rangatira	488.62	General District wide Matters / Coastal Environment / CE-05	Support in part	Supports the chapter as it has good provisions which incorporate the protection of the coastal environment and protection from Coastal Hazards.	Retain CE-05 (Risk from coastal hazards) as notified, subject to amendments in subsequent submission points
Grant Birkinshaw	52.5	General District wide Matters / Coastal Environment / CE-06	Oppose	Opposes the Coastal Hazard overlay based on Tsunami occurrences. The Tsunami baseline is for CD evacuation procedures and as such is not appropriate in a legal document.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.299	General District wide Matters / Coastal Environment / CE-O6	Support in part	Considers this objective should not only refer to increased risk to people, property and infrastructure and should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected.	Amend CE-O6 (Natural systems and features): Natural systems and features that reduce the susceptibility of people, property, and infrastructure, <u>natural character, natural landscape, and biodiversity values</u> from damage by coastal hazards are created, maintained or enhanced.
Wellington International Airport Limited	FS36.91	Part 2 / General District wide Matters / Coastal Environment / CE-O6	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Greater Wellington Regional Council	351.202	General District wide Matters / Coastal Environment / CE-O6	Support	Considers this approach is appropriate.	Retain CE-O6 (Natural systems and features) as notified.
WCC Environmental Reference Group	377.226	General District wide Matters / Coastal Environment / CE-O6	Support	Supports as the objective will benefit the coastal environment.	Retain CE-O6 (Natural systems and features) as notified.
Te Rūnanga o Toa Rangatira	488.63	General District wide Matters / Coastal Environment / CE-O6	Support in part	Supports the chapter as it has good provisions which incorporate the protection of the coastal environment and protection from Coastal Hazards.	Retain CE-O6 (Natural systems and features) as notified, subject to amendments in subsequent submission points
Yvonne Weeber	340.23	General District wide Matters / Coastal Environment / CE-O7	Support	CE-O7 is supported, as airport operations should not increase the risk to people, property and infrastructure.	Retain Objective CE-O7 (Airport, operational port activities, passenger port facilities and rail activities) as notified.
Royal Forest and Bird Protection Society	345.300	General District wide Matters / Coastal Environment / CE-O7	Support in part	Considers this objective should not only refer to increased risk to people, property and infrastructure and should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected.	Amend CE-O7 (Airport, operational port activities, passenger port facilities and rail activities): Airport, operational port activities, passenger port facilities and rail activities are provided for, while also ensuring that subdivision, development and use of land occupied by Airport, operational port activities, passenger port facilities and rail activities do not increase the risk to people, property, and infrastructure, <u>natural character, natural landscape, and biodiversity values</u> .
Wellington International Airport Limited	FS36.92	Part 2 / General District wide Matters / Coastal Environment / CE-O7	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.227	General District wide Matters / Coastal Environment / CE-O7	Support	Supports as the objective will benefit the coastal environment.	Retain CE-O7 (Airport, operational port activities, passenger port facilities and rail activities) as notified.
CentrePort Limited	402.115	General District wide Matters / Coastal Environment / CE-O7	Support in part	Supports objective, but opposes the structure of the plan managing Natural Hazards as it is confusing. There are Natural Hazards provisions in the infrastructure chapter, the Natural Hazards Chapter as well as this chapter dealing with coastal hazards in the Coastal Environment. For CentrePort related matters you potentially have to look at all three. This is considered inefficient and could lead to duplication. Of the hazards listed CentrePort has fault hazard, liquefaction, coastal inundation and tsunami (high) risk.	Seeks that all Natural Hazards provisions are consolidated in the same place or stronger cross-referencing is provided.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.302	General District wide Matters / Coastal Environment / CE-O7	Oppose	Considers that the activities listed have operational and functional constraints which ultimately govern the location of these activities, including within areas exposed to natural hazard risk. This objective needs to appropriately recognise this, and consistent with the directive contained within SRCC-O2, avoid areas where the risks are intolerable, taking into consideration operational and functional constraints associated with identified activities.	Opposes CE-O7 (Airport, operational port activities, passenger port facilities and rail activities) and seeks amendment.
Wellington International Airport Ltd	406.303	General District wide Matters / Coastal Environment / CE-O7	Amend	Considers that the activities listed have operational and functional constraints which ultimately govern the location of these activities, including within areas exposed to natural hazard risk. This objective needs to appropriately recognise this, and consistent with the directive contained within SRCC-O2, avoid areas where the risks are intolerable, taking into consideration operational and functional constraints associated with identified activities.	Amend CE-O7 (Airport, operational port activities, passenger port facilities and rail activities) as follows: Airport, operational port activities, passenger port facilities and rail activities are provided for, while also ensuring that subdivision, development and use of land occupied by Airport, operational port activities, passenger port facilities and rail activities do not <u>create an intolerable level of increase the risk to people, property, and infrastructure.</u>
KiwiRail Holdings Limited	408.99	General District wide Matters / Coastal Environment / CE-O7	Support	Supports the objective to provide for operational port activities, passenger port facilities and rail activities while ensuring these activities do not increase the risk to people, property and infrastructure.	Retain CE-O7 (Airport, operational port activities, passenger port facilities and rail activities) as notified.
Guardians of the Bays	452.20	General District wide Matters / Coastal Environment / CE-O7	Support	Supports this objective. Considers that Airport operations should not increase the risk to people, property and infrastructure.	Retain CE-O7 (Airport, operational port activities, passenger port facilities and rail activities) as notified.
Te Rūnanga o Toa Rangatira	488.64	General District wide Matters / Coastal Environment / CE-O7	Support in part	Supports the chapter as it has good provisions which incorporate the protection of the coastal environment and protection from Coastal Hazards.	Retain CE-O7 (Airport, operational port activities, passenger port facilities and rail activities) as notified, subject to amendments in subsequent submission points
Precinct Properties New Zealand Limited	139.19	General District wide Matters / Coastal Environment / CE-O8	Support in part	Supports CE-O8 (City centre zone) to the extent that it is enabling of development in the city centre.	Retain CE-O8 (City Centre Zone) as notified.
Royal Forest and Bird Protection Society	345.301	General District wide Matters / Coastal Environment / CE-O8	Support in part	Considers this objective should not only refer to increased risk to people, property and infrastructure and should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected.	Amend CE-O8 (City Centre Zone): Provide for a range of activities that maintain the vibrancy and vitality of the City Centre Zone, while also ensuring that subdivision, development and use in these areas do not increase the risk to people, property, and infrastructure, <u>natural character, natural landscape, and biodiversity values.</u>
Wellington International Airport Limited	FS36.93	Part 2 / General District wide Matters / Coastal Environment / CE-O8	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.228	General District wide Matters / Coastal Environment / CE-O8	Support	Supports as the objective will benefit the coastal environment.	Retain CE-O8 (City Centre Zone) as notified.
Argosy Property No. 1 Limited	383.76	General District wide Matters / Coastal Environment / CE-O8	Support	Supports the direction of this objective to provide for a range of activities that maintain the vibrancy and vitality of the City Centre zone, while also ensuring that subdivision, development and use in these areas do not increase the risk to people, property, and infrastructure. This is because this objective recognises the economic and social benefits of the significant existing investment in the Wellington CBD. The social and economic benefits that the existing Wellington CBD has and its position in the city is fixed. As we respond and adapt to climate change and other hazard risks, decisions will be made on where retreat occurs and what is protected, but it is anticipated that retreat from the Wellington CBD is unlikely to occur	Retain CE-O8 (City Centre Zone) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.248	General District wide Matters / Coastal Environment / CE-O8	Support in part	Objective CE-O8 is partially supported and an amendment is sought.	Supports Objective CE-O8 (City Centre Zone) with amendment.
Kāinga Ora Homes and Communities	391.249	General District wide Matters / Coastal Environment / CE-O8	Amend	Considers that CE-O5 should be amended to better identify the effects of new subdivision, use and development may have on the existing environment. It is sought the word “new” is added to this objective recognise the additional impact that only new subdivision, use and development has on the existing environment.	Amend Objective CE-O8 (City Centre Zone) as follows: Provide for a range of activities that maintain the vibrancy and vitality of the City Centre Zone, while also ensuring that <u>new</u> subdivision, development and use in these areas do not increase the risk to people, property, and infrastructure.
Oyster Management Limited	404.37	General District wide Matters / Coastal Environment / CE-O8	Support	Supports the direction of this objective to provide for a range of activities that maintain the vibrancy and vitality of the City Centre zone, while also ensuring that subdivision, development and use in these areas do not increase the risk to people, property, and infrastructure. Considers this is because this objective recognises the economic and social benefits of the significant existing investment in the Wellington CBD. The social and economic benefits that the existing Wellington CBD has and its position in the city is fixed. As we respond and adapt to climate change and other hazard risks, decisions will be made on where retreat occurs and what is protected, but it is anticipated that retreat from the Wellington CBD is unlikely to occur.	Retain CE-O8 (City Centre Zone) as notified.
Fabric Property Limited	425.34	General District wide Matters / Coastal Environment / CE-O8	Support in part	Fabric supports CE-O8 to the extent that it is enabling of development in the city centre. This reflects that the Wellington City Centre is intended to be the primary commercial centre for the wider Wellington region and retreat is not practical or likely.	Retain CE-O8 (City Centre Zone) as notified.
Te Rūnanga o Toa Rangatira	488.65	General District wide Matters / Coastal Environment / CE-O8	Support in part	Supports the chapter as it has good provisions which incorporate the protection of the coastal environment and protection from Coastal Hazards.	Retain CE-O8 (City centre zone) as notified, subject to amendments in subsequent submission points
Yvonne Weeber	340.24	General District wide Matters / Coastal Environment / CE-O9	Support	CE-O9 is supported as it enables green infrastructure as the primary method being used to reduce damage from sea level rise and coastal erosion. However, the policies and rules need to reflect that areas of the coastal environment should not be developed in the manner that has occurred in the past.	Retain Objective CE-O9 (Measures to reduce damage from sea level rise and coastal erosion) as notified.
Greater Wellington Regional Council	351.203	General District wide Matters / Coastal Environment / CE-O9	Amend	Considers that for consistency with Policy 52 in Proposed RPS Change 1. Green infrastructure has been defined in the WCC PDP with a strong focus on engineering systems that mimic natural systems, however there are other natural hazard mitigation measures that the change to the RPS directs consideration of, which are not captured by green infrastructure.	Amend CE-O9 (Measures to reduce damage from sea level rise and coastal erosion) to include non-structural, soft engineering or mātauranga Māori approaches.
WCC Environmental Reference Group	377.229	General District wide Matters / Coastal Environment / CE-O9	Support	Supports as the objective will benefit the coastal environment.	Retain CE-O9 (Measures to reduce damage from sea level rise and coastal erosion) as notified.
Te Rūnanga o Toa Rangatira	488.66	General District wide Matters / Coastal Environment / CE-O9	Support in part	Supports the chapter as it has good provisions which incorporate the protection of the coastal environment and protection from Coastal Hazards.	Retain CE-O9 (Measures to reduce damage from sea level rise and coastal erosion) as notified, subject to amendments in subsequent submission points
Horokiwi Quarries Ltd	271.44	General District wide Matters / Coastal Environment / CE-P1	Support	Supports the identification and mapping of the landward extent of the coastal environment at the broad scale level at which it was determined. Notwithstanding its submission point seeking amendment to the identification and mapping of the landward extent of the coastal environment as it applies to the Horokiwi site.	Retain CE-P1 (Identification of the coastal environment and of high coastal natural character areas within the coastal environment) as notified.
Aggregate and Quarry Association	303.16	General District wide Matters / Coastal Environment / CE-P1	Amend	Considers that CE-P1 only focuses on urban development and should be amended to refer to existing lawful activities such as quarries.	CE-P1 (Identification of the coastal environment and of high coastal natural character areas within the coastal environment) should be amended to refer to existing lawful activities such as quarries.
Yvonne Weeber	340.25	General District wide Matters / Coastal Environment / CE-P1	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain CE-P1 (Identification of the coastal environment and of high coastal natural character areas within the coastal environment) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.302	General District wide Matters / Coastal Environment / CE-P1	Support in part	Considers that this policy, or a new policy, needs to be amended to provide for the identification of outstanding areas of natural character in the coastal environment.	Amend CE-P1 (Identification of the coastal environment and of high coastal natural character areas within the coastal environment): 1. Identify and map the landward extent of the coastal environment. 2. Identify and map areas of very high and high natural character within the coastal environment and list the identified values in SCHED 12 – High Coastal Natural Character Areas. <u>3. Identify and map areas of outstanding natural character in the coastal environment.</u>
Wellington International Airport Limited	FS36.94	Part 2 / General District wide Matters / Coastal Environment / CE-P1	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Greater Wellington Regional Council	351.204	General District wide Matters / Coastal Environment / CE-P1	Amend	Considers that Natural character ratings have not been scheduled at the area scale across the full extent of the coastal environment. To give effect to Policies 13, 14 and 15 of the NZCPS, the area scale natural character ratings need to be included in the PDP.	Amend CE-P1 (Identification of the coastal environment and of high coastal natural character areas within the coastal environment) to widen the scope of the policy to also refer to area scale natural character ratings, as follows: Identification of the coastal environment and of high coastal natural character areas within the coastal environment 1. Identify and map the landward extent of the coastal environment. 2. Identify and map <u>sites areas</u> of very high and high natural character <u>and area scale natural character ratings</u> within the coastal environment and list the identified values in <u>SCHED 12 – High Coastal Natural Character Areas.</u>
Meridian Energy Limited	FS101.157	Part 2 / General District wide Matters / Coastal Environment / CE-P1	Oppose	Considers that there is insufficient detail provided about 'area scale natural character ratings' to determine whether they should or should not be included in SCHED12. Any amendments should be advanced as a variation to the Proposed Plan.	Disallow
WCC Environmental Reference Group	377.230	General District wide Matters / Coastal Environment / CE-P1	Support	Not specified.	Retain CE-P1 (Identification of the coastal environment and of high coastal natural character areas within the coastal environment) as notified.
Meridian Energy Limited	228.105	General District wide Matters / Coastal Environment / CE-P2	Oppose in part	Considers that in the absence of any explicit recognition of the presence of the West Wind and Mill Creek wind farms, Policy CE-P2 (Use and development within the coastal environment) could be applied in a manner that restricts appropriate upgrading of those wind farms or the establishment of replacement wind turbines in appropriate locations.	Retain Policy CE-P2 (Use and development within the coastal environment) with amendment to provide for the existing wind farms along Wellington's coastline and provide for upgrading within those wind farms, including by the placement of replacement wind turbines.
Meridian Energy Limited	228.106	General District wide Matters / Coastal Environment / CE-P2	Amend	Considers that in the absence of any explicit recognition of the presence of the West Wind and Mill Creek wind farms, Policy CE-P2 (Use and development within the coastal environment) could be applied in a manner that restricts appropriate upgrading of those wind farms or the establishment of replacement wind turbines in appropriate locations.	Amend Policy CE-P2 (Use and development within the coastal environment) to provide for the existing wind farms along Wellington's coastline and provide for upgrading within those wind farms, including by the placement of replacement wind turbines, by inserting the following (or similar) text: Provide for use and development in the landward extent of the coastal environment where it: 1. Consolidates existing urban areas; <u>or</u> 2. <u>Is necessary to enable the use, development, maintenance and upgrading of regionally significant infrastructure (including the repowering of existing wind farms by replacing and upgrading existing turbines and their support structures identified on the Plan Maps and associated electricity transmission facilities); and</u> 3.2- Does not establish new urban sprawl along the coastline;

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Horokiwi Quarries Ltd	271.45	General District wide Matters / Coastal Environment / CE-P2	Support in part	Supports CE-P2 in part - largely accepts CE-P2 but seeks recognition of those existing activities which are lawfully established.	Not specified.
Horokiwi Quarries Ltd	271.46	General District wide Matters / Coastal Environment / CE-P2	Amend	Considers that CE-P2 recognises existing activities which are lawfully established.	Amend Policy CE-P2 (Use and development within the coastal environment) as follows: Provide for use and development in the landward extent of the coastal environment where it: 1. 2. <u>3. Relates to an existing lawfully established activity.</u>
Yvonne Weeber	340.26	General District wide Matters / Coastal Environment / CE-P2	Amend	Considers that CE-P2 should be amended to have a third bullet point related to the Sustainability, Resilience and Climate Change chapter. Namely, the "level of uncertainty about the full extent of the impacts of climate change and sea level rise. This means the planning framework needs to retain a level of flexibility to enable the City to adapt in response to changing circumstances." The bullet point given relating to use and development of the coastal environment should clearly state the level of uncertainty and need for caution, climate change adaptation and in some areas retreat.	Amend CE-P2 (Use and development within the coastal environment) as follows: Provide for use and development in the landward extent of the coastal environment where it: 1. Consolidates existing urban areas; and 2. Does not establish new urban sprawl along the coastline. 3. Takes into consideration the level of uncertainty about the full extent of the impacts of climate change (storm surges and costal inundation) and sea level rise.
Wellington International Airport Limited	FS36.136	Part 2 / General District wide Matters / Coastal Environment / CE-P2	Oppose	Considers that such matters are dealt with via the relevant natural hazard provisions of the Proposed Plan.	Disallow
Royal Forest and Bird Protection Society	345.303	General District wide Matters / Coastal Environment / CE-P2	Support in part	Considers the policy should be amended to be less definitive about providing for use and development. in all cases. That is because several other factors will need to be considered, other than the two listed in the policy.	Amend CE-P2 (Use and development within the coastal environment): <u>Consider providing</u> for use and development in the landward extent of the coastal environment where it: 1. Consolidates existing urban areas; and 2. Does not establish new urban sprawl along the coastline.
Wellington International Airport Limited	FS36.95	Part 2 / General District wide Matters / Coastal Environment / CE-P2	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Meridian Energy Limited	FS101.158	Part 2 / General District wide Matters / Coastal Environment / CE-P2	Oppose	Considers that inserting the words 'consider providing' for use and development distorts the actual purpose of this policy (which is to make clear where use and development will be provided for).	Disallow
Royal Forest and Bird Protection Society	345.304	General District wide Matters / Coastal Environment / CE-P2	Support in part	It will also need to be amended if CE-P5 continues to apply only to areas of high natural character, rather than any area of natural character. If P5 remains unchanged, this policy will need to be significantly amended to ensure it gives effect to policy 13 NZCPS, and directs avoidance of significant adverse effects.	If relief sought on CE-P5 (Use and development in high coastal natural character areas) is not made, amend CE-P2 (Use and development within the coastal environment) to give effect to policy 13 of NZ Coastal Policy Statement with regard to avoiding significant adverse effects.
Greater Wellington Regional Council	351.205	General District wide Matters / Coastal Environment / CE-P2	Support	Considers that this approach is appropriate.	Retain CE-P2 (Use and development within the coastal environment) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.231	General District wide Matters / Coastal Environment / CE-P2	Amend	Considers it important that the environmental significance of the coastal environment is recognised.	Amend CE-P2 (Use and development within the coastal environment) to add a third point, as follows: <u>3. Does not adversely affect the environmental values of the coastal environment</u>
Wellington International Airport Limited	FS36.137	Part 2 / General District wide Matters / Coastal Environment / CE-P2	Oppose	Considers that the term "environmental values" is too broad and encapsulates both natural and physical resources. The intent of the changes are therefore not clear. Furthermore, it is inappropriate to require land use and development to avoid adversely effecting all effects, irrespective of their nature, scale or extent.	Disallow
Meridian Energy Limited	FS101.159	Part 2 / General District wide Matters / Coastal Environment / CE-P2	Oppose	Considers that the proposed additional text is not appropriate because it is not clear what is meant by 'environmental values'.	Disallow
Wellington International Airport Ltd	406.304	General District wide Matters / Coastal Environment / CE-P2	Support in part	Supports this objective to the extent that the use and development of the coastal environment, as set out in this policy, is addressed in the underlying land use zone and thus do not require an additional level of control within this chapter.	Supports CE-P2 (Use and development within the coastal environment) and seeks amendment.
Wellington International Airport Ltd	406.305	General District wide Matters / Coastal Environment / CE-P2	Amend	Supports this objective to the extent that the use and development of the coastal environment, as set out in this policy, is addressed in the underlying land use zone and thus do not require an additional level of control within this chapter.	Seeks that CE-P2 (Use and development within the coastal environment) is amended to be reworked to focus on effects that specifically relate to the coastal environment and have not already been addressed, or cannot otherwise be addressed, by the underlying land use zone. [Inferred decision requested] [See paragraph 4.48 and 4.49 of the original submission]
Wellington International Airport Ltd	406.306	General District wide Matters / Coastal Environment / CE-P2	Amend	Supports this objective to the extent that the use and development of the coastal environment, as set out in this policy, is addressed in the underlying land use zone and thus do not require an additional level of control within this chapter.	Seeks that CE-P2 (Use and development within the coastal environment) is amended to ensure the provisions give effect to all relevant parts of the NZCPS, including those provisions that recognise the functional and operational requirements of activities (such as infrastructure) to locate within these areas and the associated management of effects. [Inferred decision requested] [See paragraph 4.48 and 4.49 of the original submission]
Grant Birkinshaw	52.6	General District wide Matters / Coastal Environment / CE-P3	Support	CE-P3 is supported.	Retain CE-P3 (Restoration and enhancement within the coastal environment) as notified.
Yvonne Weeber	340.27	General District wide Matters / Coastal Environment / CE-P3	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain CE-P3 (Restoration and enhancement within the coastal environment) as notified.
Royal Forest and Bird Protection Society	345.305	General District wide Matters / Coastal Environment / CE-P3	Support	Supports the policy.	Retain CE-P3 (Restoration and enhancement within the coastal environment) as notified.
Greater Wellington Regional Council	351.206	General District wide Matters / Coastal Environment / CE-P3	Support in part	Supports the overall intent of CE-P3 to restore natural character.	Retain CE-P3 (Restoration and enhancement within the coastal environment) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.207	General District wide Matters / Coastal Environment / CE-P3	Amend	Considers that natural character ratings have not been scheduled at the area scale across the full extent of the coastal environment. To give effect to Policies 13, 14 and 15 of the NZCPS, and assist with identification of the appropriate areas to restore, the area scale natural character ratings need to be included in the PDP and referred to in this policy.	Amend CE-P3 (Restoration and enhancement within the coastal environment) as follows: Provide for restoration or rehabilitation of the natural character values and coastal and riparian margins within the landward extent of the coastal environment by: 1. Recognising the values present that could be enhanced restored in areas of low and moderate natural character; 2. Encouraging natural regeneration of indigenous species, including where practical the removal of pest species; 3. Rehabilitating dunes or other natural coastal features or processes; 4. Restoring or protecting riparian and coastal margins; 5. Removing redundant structures that do not have heritage or amenity value; 6. Modifying structures that interfere with coastal or ecosystem processes; or 7. Providing for mana whenua to exercise their responsibilities as kaitiaki to protect, restore and maintain values in the coastal environment areas of indigenous biodiversity.
WCC Environmental Reference Group	377.232	General District wide Matters / Coastal Environment / CE-P3	Support	Important to empower and allow the betterment of the coastal environment.	Retain CE-P3 (Restoration and enhancement within the coastal environment) as notified.
Director-General of Conservation	385.62	General District wide Matters / Coastal Environment / CE-P3	Support	Supports proposed policy CE-P3 (Restoration and enhancement within the coastal environment).	Retain policy CE-P3 (Restoration and enhancement within the coastal environment) as notified.
Wellington International Airport Ltd	406.307	General District wide Matters / Coastal Environment / CE-P3	Oppose	As drafted, this policy has broad application within the entire coastal environment, despite generally being focussed on matters within the coastal margins. Providing for the restoration and rehabilitation of 'natural character values' within the landward extent of the coastal environment is inappropriate in areas that are highly modified and otherwise urbanised environments. Considers that this policy should be refined to apply to the coastal margins only.	Opposes CE-P3 (Restoration and enhancement within the coastal environment) and seeks amendment.
Wellington International Airport Ltd	406.308	General District wide Matters / Coastal Environment / CE-P3	Amend	As drafted, this policy has broad application within the entire coastal environment, despite generally being focussed on matters within the coastal margins. Providing for the restoration and rehabilitation of 'natural character values' within the landward extent of the coastal environment is inappropriate in areas that are highly modified and otherwise urbanised environments. Considers that this policy should be refined to apply to the coastal margins only.	Amend CE-P3 (Restoration and enhancement within the coastal environment) as follows: Provide for restoration or rehabilitation of the natural character values within the and coastal and riparian margins within the landward extent of the coastal environment where appropriate by: ...
Royal Forest and Bird Protection Society	345.306	General District wide Matters / Coastal Environment / CE-P4	Support	Supports the policy.	Retain CE-P4 (Customary harvesting within the coastal environment) as notified.
WCC Environmental Reference Group	377.233	General District wide Matters / Coastal Environment / CE-P4	Support	Ensures WCC is acting in accordance with Te Tiriti obligations.	Retain CE-P4 (Customary harvesting within the coastal environment) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	228.107	General District wide Matters / Coastal Environment / CE-P5	Support in part	Considers that the 'or' in the preamble to Policy CE-P5 (Use and development in high coastal natural character areas) should probably be 'and' to capture all areas of 'high coastal natural character'. Although the mapped extent of 'high coastal natural character areas' currently avoids the footprint of turbines and associated facilities within the West Wind and Mill Creek wind farms, Meridian seeks to ensure that any earthworks or other activities associated with any future upgrading or repowering of turbines within these wind farms is not unduly restricted. Importantly, Policy CE-P5 applies to development within mapped areas of 'high coastal natural character'. The last clause (f) of Policy CE-P5 assumes that rehabilitation planting will always be appropriate or relevant for natural character. It may not be. Indeed, in some situations (such as rock faces) planting may conflict with the significant natural character values. In any event, Chapter ECO Ecosystems and Indigenous Biodiversity includes a mitigation hierarchy which can address the need (or not) for rehabilitation planting. Clause (f) is not necessary and should be deleted.	Retain Policy CE-P5 (Use and development in high coastal natural character areas) with amendment.
Meridian Energy Limited	228.108	General District wide Matters / Coastal Environment / CE-P5	Amend	Considers that the 'or' in the preamble to Policy CE-P5 (Use and development in high coastal natural character areas) should probably be 'and' to capture all areas of 'high coastal natural character'. Although the mapped extent of 'high coastal natural character areas' currently avoids the footprint of turbines and associated facilities within the West Wind and Mill Creek wind farms, Meridian seeks to ensure that any earthworks or other activities associated with any future upgrading or repowering of turbines within these wind farms is not unduly restricted. Importantly, Policy CE-P5 applies to development within mapped areas of 'high coastal natural character'. The last clause (f) of Policy CE-P5 assumes that rehabilitation planting will always be appropriate or relevant for natural character. It may not be. Indeed, in some situations (such as rock faces) planting may conflict with the significant natural character values. In any event, Chapter ECO Ecosystems and Indigenous Biodiversity includes a mitigation hierarchy which can address the need (or not) for rehabilitation planting. Clause (f) is not necessary and should be deleted.	Amend Policy CE-P5 (Use and development in high coastal natural character areas) (which applies only to use and development within mapped areas of 'high coastal natural character') as follows: Provide for use and development in areas of very high or <u>and</u> high coastal natural character in the coastal environment where: <ol style="list-style-type: none"> 1. Any Significant adverse effects on the identified values described in SCHED13 are avoided and any other adverse effects on the identified values described in SCHED13 are avoided, remedied or mitigated; <u>and</u> 2. It can be demonstrated that: <ol style="list-style-type: none"> a. The particular values and characteristics of the areas of very high or high coastal natural character as identified in SCHED13 are protected from inappropriate use and development, considering the extent to which the values and characteristics of the area are vulnerable to change including the effects of climate change and other natural processes; b. Any proposed earthworks, building platforms and buildings or structures are of a scale and prominence that respects the identified values and the design and development integrates with the existing landform and dominant character of the area, <u>recognising the functional and operational needs of renewable electricity generation activities</u>; c. There is a functional or operational need for the activity to locate in the area; or d. The duration and nature of adverse effects are limited; e. <u>The use and development will upgrade, repower or replace existing renewable electricity generation assets and enable more effective use of natural resources for renewable electricity generation</u>; f. There are no reasonably <u>practicable</u> practical alternative locations that are outside of the coastal environment or are less vulnerable to change; and g. Restoration or rehabilitation planting of indigenous species will be incorporated to mitigate any adverse effects.
Yvonne Weeber	340.28	General District wide Matters / Coastal Environment / CE-P5	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain CE-P5 (Use and development in high coastal natural character areas) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.307	General District wide Matters / Coastal Environment / CE-P5	Support in part	<p>Considers the policy does not give effect to NZCPS policy 13(1)(b), which requires that significant adverse effects are avoided on all areas of natural character of the coastal environment (other than outstanding). This policy only requires avoidance of significant adverse effects on identified areas of high natural character in SCHED 12.</p> <p>Seeks that this policy be amended to apply to all areas of natural character in the coastal environment, other than any areas of outstanding natural character.</p> <p>Delete the word 'identified' from 1. and 2.a.</p> <p>Add the word 'and' at the end of 1., to make clear that both 1. and 2. must be fulfilled.</p> <p>Amend 2.a. to make it clear that the consideration of the extent to which the values and characteristics are vulnerable to change etc is part of the consideration of appropriateness, but not all of it. This can be achieved by adding the words 'including by' before 'considering'.</p> <p>Change 'respects' in 2.b. to 'protects'.</p> <p>Delete 'operational' in 2.d. This test is far too broad.</p> <p>Add a clause providing that use or development will only be allowed where the natural character values of the area are retained.</p>	<p>Amend CE-P5 (Use and development in high coastal natural character areas) to give effect to policy 13(1)(b) of NZ Coastal Policy Statement and:</p> <p>Only allow use and development in high coastal natural character areas in the coastal environment where:</p> <p>1. Any significant adverse effects on the identified values described in SCHED12 are avoided and any other adverse effects on the identified values described in SCHED12 are avoided remedied or mitigated;</p> <p>2. It can be demonstrated that:</p> <p>a. The particular values and characteristics of the high coastal natural character areas as identified in SCHED12 are protected from inappropriate use and development, <u>including by</u> considering the extent to which the values and characteristics of the area are vulnerable to change including the effects of climate change and other natural processes;</p> <p>b. Any proposed earthworks, building platforms and buildings or structures are of a scale and prominence that respects-protects the identified values and the design and development integrates with the existing landform and dominant character of the area;</p> <p>c. The duration and nature of adverse effects are limited;</p> <p>d. There is a functional or operational need for the activity to locate in the area;</p> <p>e. There are no reasonably practical alternative locations that are outside of the high coastal natural character areas or are less vulnerable to change; and</p> <p>f. Restoration or rehabilitation planting of indigenous species will be incorporated to mitigate any adverse effects.</p> <p><u>g. Use and development will only be allowed where natural character values of the area are retained.</u></p>
Wellington International Airport Limited	FS36.96	Part 2 / General District wide Matters / Coastal Environment / CE-P5	Oppose	<p>WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably:</p> <ol style="list-style-type: none"> The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure; 	Disallow
Meridian Energy Limited	FS101.160	Part 2 / General District wide Matters / Coastal Environment / CE-P5	Oppose	Meridian considers its proposed amended wording in submission point 221.108 more appropriately gives effect to the RMA and higher order policy instruments.	Disallow
Greater Wellington Regional Council	351.208	General District wide Matters / Coastal Environment / CE-P5	Amend	Considers the policy does not give effect to NZCPS Policy 13(1)(b) which is to avoid significant adverse effects and avoid, remedy or mitigate other adverse effects of activities on natural character in all other areas which are not outstanding, rather than just in sites of high natural character. The policy needs be amended so that clause 1 applies to natural character in all areas of the coastal environment.	<p>Amend CE-P5 (Use and development in high coastal natural character areas) to manage effects across all coastal natural character areas as follows:</p> <p>CE-P5 Use and development in high coastal natural character areas</p> <p>Only allow use and development in high coastal natural character areas in the coastal environment where:</p> <p>...</p>
Meridian Energy Limited	FS101.161	Part 2 / General District wide Matters / Coastal Environment / CE-P5	Oppose	Meridian understands the point GWRC is trying to make (that effects on all scales of natural character in the coastal environment must be managed in accordance with NZCPS Policy 13). Consider that however, this Plan doesn't identify other 'natural character areas', so the requested relief will not achieve that outcome. Policy CE-P1 and P7, together, implement NZCPS Policy 13 and this Plan does not identify any areas of outstanding natural character in the coastal environment.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.234	General District wide Matters / Coastal Environment / CE-P5	Amend	The submitter notes that the coastal environment is home to indigenous biodiversity and that should be provided for in the District Plan.	Amend CE-P5 (Use and development in high coastal natural character areas) to add another point after Point 1, as follows: ... <u>2. Any adverse effects on indigenous biodiversity are applied in accordance with ECO-P2.</u>
Wellington International Airport Limited	FS36.138	Part 2 / General District wide Matters / Coastal Environment / CE-P5	Oppose	Considers that it is inappropriate to require land use and development to avoid adversely effecting all effects, irrespective of their nature, scale or extent.	Disallow
Director-General of Conservation	385.63	General District wide Matters / Coastal Environment / CE-P5	Support	Supports proposed policy CE-P5 (Use and development in high coastal natural character areas).	Retain policy CE-P5 (Use and development in high coastal natural character areas) as notified.
Ministry of Education	400.62	General District wide Matters / Coastal Environment / CE-P5	Support	Supports CE-P5 as the submitter recognises the importance of high coastal natural character areas. The submitter supports the provision as proposed as it allows for development where there is a functional and operational need in these areas. The Ministry may at times need to locate educational facilities in these areas to meet the needs of existing communities. Where required, development of these facilities would be sympathetic to the surrounding landscape as required by this policy.	Retain CE-P5 (Use and development in high coastal natural character areas) as notified.
Fire and Emergency New Zealand	273.133	General District wide Matters / Coastal Environment / CE-P6	Support	Supports the policy as it allows use and development within coastal and riparian margins inside of the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone or Evans Bay Marine Recreation Area.	Retain CE-P6 (Use and development within coastal margins and riparian margins in the coastal environment - located inside Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone, or Evans Bay Marine Recreation Area) as notified.
Yvonne Weeber	340.29	General District wide Matters / Coastal Environment / CE-P6	Not specified	[No specific reason given - refer to original submission].	Not specified.
Royal Forest and Bird Protection Society	345.308	General District wide Matters / Coastal Environment / CE-P6	Oppose in part	Considers the policy should not be a blanket enabling policy as it needs to recognise that there may be limits to development in those areas. At the very least, the policy should refer to potential limits on the use of these areas in accordance with policies 11, 13 and 15 NZCPS (and the policies in this plan that give effect to those policies). The requirements of the NZCPS do not stop applying because a zone has been assigned to an area	Amend CE-P6 (Use and development within coastal margins and riparian margins in the coastal environment – located inside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone or Evans Bay Marine Recreation Area): <u>Consider providing for use and development within coastal margins and riparian margins in the coastal environment where it is located in the highly modified Port Zone, Airport Zone, Stadium Zone, Waterfront Zone or City Centre Zone or Evans Bay Marine Recreation Area, with reference to limits on use in these areas in accordance with policies 11, 13, and 15 of the NZ Coastal Policy Statement.</u>
Wellington International Airport Limited	FS36.97	Part 2 / General District wide Matters / Coastal Environment / CE-P6	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.235	General District wide Matters / Coastal Environment / CE-P6	Support	CE-P6 is supported as it is considered logical and beneficial.	Retain CE-P6 (Use and development within coastal margins and riparian margins in the coastal environment – located inside the Port Zone...) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.309	General District wide Matters / Coastal Environment / CE-P6	Oppose	Opposes this policy to the extent that it does not recognise or provide for the existing hard engineering structures located between Lyall Bay and Moa Point which protect regionally significant infrastructure, including WCC's wastewater network and Wellington International Airport, as well as Moa Point Road, from the effects of coastal erosion. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Opposes CE-P6 (Use and development within coastal margins and riparian margins in the coastal environment – located inside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone or Evans Bay Marine Recreation Area) and seeks amendment.
Guardians of the Bays Inc	FS44.68	Part 2 / General District wide Matters / Coastal Environment / CE-P6	Oppose	Considers that Natural Open Space Zone between Lyall Bay and Moa Point should be retained within the Airport Zone. All amended changes are not required. The airport is a natural coastal environment. It is a complex environment which requires the NZCPS and Greater Wellington Regional Policy Statement for land below MHWS.	Disallow
Wellington International Airport Ltd	406.310	General District wide Matters / Coastal Environment / CE-P6	Amend	Opposes this policy to the extent that it does not recognise or provide for the existing hard engineering structures located between Lyall Bay and Moa Point which protect regionally significant infrastructure, including WCC's wastewater network and Wellington International Airport, as well as Moa Point Road, from the effects of coastal erosion. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Either delete or amend CE-P6 (Use and development within coastal margins and riparian margins in the coastal environment – located inside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone or Evans Bay Marine Recreation Area) as follows: CE-P6 Use and development within coastal margins and riparian margins in the coastal environment – located inside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone or Evans Bay Marine Recreation Area <u>or the Natural Open Space zone between Lyall Bay and Moa Point</u> Provide for use and development within coastal margins and riparian margins in the coastal environment where it is located in the highly modified Port Zone, Airport Zone, Stadium Zone, Waterfront Zone or City Centre Zone, or Evans Bay Marine Recreation Area <u>or the area of Natural Open Space Zone located between Lyall Bay and Moa Point.</u>
Guardians of the Bays Inc	FS44.69	Part 2 / General District wide Matters / Coastal Environment / CE-P6	Oppose	Considers that Natural Open Space Zone between Lyall Bay and Moa Point should be retained within the Airport Zone. All amended changes are not required. The airport is a natural coastal environment. It is a complex environment which requires the NZCPS and Greater Wellington Regional Policy Statement for land below MHWS.	Disallow
Wellington International Airport Ltd	406.311	General District wide Matters / Coastal Environment / CE-P6	Amend	Opposes this policy to the extent that it does not recognise or provide for the existing hard engineering structures located between Lyall Bay and Moa Point which protect regionally significant infrastructure, including WCC's wastewater network and Wellington International Airport, as well as Moa Point Road, from the effects of coastal erosion. [See paragraphs 4.40 to 4.45 of original submission for full reason]	If CE-P6 (Use and development within coastal margins and riparian margins in the coastal environment – located inside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone or Evans Bay Marine Recreation Area) is not amended: Seeks that CE-P6 (Use and development within coastal margins and riparian margins in the coastal environment – located inside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone or Evans Bay Marine Recreation Area) is amended to give relief to a similar effect if the area of Natural Open Space zoned land is rezoned to an alternative zoning.
Guardians of the Bays Inc	FS44.70	Part 2 / General District wide Matters / Coastal Environment / CE-P6	Oppose	Considers that Natural Open Space Zone between Lyall Bay and Moa Point should be retained within the Airport Zone. All amended changes are not required. The airport is a natural coastal environment. It is a complex environment which requires the NZCPS and Greater Wellington Regional Policy Statement for land below MHWS.	Disallow
Guardians of the Bays	452.21	General District wide Matters / Coastal Environment / CE-P6	Not specified	Submitter is 'neutral' on provision. [Refer to original submission for full reason]	Not specified.
Fire and Emergency New Zealand	273.134	General District wide Matters / Coastal Environment / CE-P7	Support	Supports the policy as it allows use and development within coastal and riparian margins outside of the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone or Evans Bay Marine Recreation Area where I can be demonstrated there is an operational and functional need for the activity in the area.	Retain CE-P7 (Use and development within coastal margins and riparian margins in the coastal environment - located outside Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone, or Evans Bay Marine Recreation Area) as notified.
Yvonne Weeber	340.30	General District wide Matters / Coastal Environment / CE-P7	Support	CE-P7 is supported, but it is noted that the policy conflicts with INF-CE-P21 and other coastal policies in relationship to the term 'upgrading'.	Retain CE-P7 (Use and development within coastal margins and riparian margins in the coastal environment – located outside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone and the Evans Bay Marine Recreation Area) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.309	General District wide Matters / Coastal Environment / CE-P7	Support in part	<p>Supports the policy in part. Considers 2.d. is not clear as to which effects are being mitigated. It appears that the Plan's approach is to only deal with natural character effects in this chapter, and have the biodiversity policies applying separately. However, 2.d. is not clear on that, and should refer specifically to 'natural character effects'.</p> <p>This policy needs to recognise that there may be limits to development in those areas. At the very least, the policy should refer to potential limits on the use of these areas in accordance with policies 11, 13 and 15 NZCPS (and the policies in this plan that give effect to those policies). The requirements of the NZCPS do not stop applying because a zone has or has not been assigned to an area.</p> <p>The policy should be amended to add a clause providing that use or development will only be allowed where the natural character values of the area are retained.</p>	<p>Amend CE-P7 (Use and development within coastal margins and riparian margins in the coastal environment – located outside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone and the Evans Bay Marine Recreation Area):</p> <p>Only allow use and development within coastal and riparian margins in the coastal environment outside of the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone or the Evans Bay Marine Recreation Area where:</p> <ol style="list-style-type: none"> 1. Any significant adverse effects on the natural character of the coastal environment are avoided and any other adverse effects on the natural character of the coastal environment are avoided, remedied or mitigated; and 2. It can be demonstrated that: <ol style="list-style-type: none"> a. Any proposed earthworks, building platform, building or structure are able to integrate with the existing landform, do not dominate the natural character of the area and do not limit or prevent public access to, along or adjacent to the coast and waterbodies; b. There is a functional or operational need for the activity to locate within the coastal or riparian margin; c. There are no reasonably practical alternative locations that are outside of the coastal or riparian margins or are less vulnerable to change; and d. Restoration or rehabilitation planting of indigenous species will be incorporated to mitigate any adverse effects <u>on natural character</u>. e. <u>Use and development will only be allowed where the natural character values of the area are retained.</u> f. <u>Are within potential development limits in these areas in accordance with policies 11, 13, and 15 of the NZ Coastal Policy Statement.</u>
Wellington International Airport Limited	FS36.98	Part 2 / General District wide Matters / Coastal Environment / CE-P7	Oppose	<p>WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably:</p> <ol style="list-style-type: none"> 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure; 	Disallow
Meridian Energy Limited	FS101.162	Part 2 / General District wide Matters / Coastal Environment / CE-P7	Oppose	<p>Considers that the requested additional text is not necessary because the Plan already provides for those matters, including in the wording of Policy CE-P7 (1) and (2).</p>	Disallow
WCC Environmental Reference Group	377.236	General District wide Matters / Coastal Environment / CE-P7	Support	<p>CE-P7 is supported as it is considered logical and beneficial.</p>	Retain CE-P7 (Use and development within coastal margins and riparian margins in the coastal environment – located outside the Port Zone...) as notified.
Director-General of Conservation	385.64	General District wide Matters / Coastal Environment / CE-P7	Support	<p>Supports proposed policy CE-P7 (Use and development within coastal margins and riparian margins in the coastal environment – located outside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone and the Evans Bay Marine Recreation Area).</p>	Retain policy CE-P7 (Use and development within coastal margins and riparian margins in the coastal environment – located outside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone and the Evans Bay Marine Recreation Area) as notified.
Wellington International Airport Ltd	406.312	General District wide Matters / Coastal Environment / CE-P7	Oppose	<p>Opposes this policy to the extent that it does not recognise or provide for the existing hard engineering structures located between Lyall Bay and Moa Point which protect regionally significant infrastructure, including WCC's wastewater network and Wellington International Airport, as well as Moa Point Road, from the effects of coastal erosion.</p> <p>[See paragraphs 4.40 to 4.45 of original submission for full reason]</p>	Opposes CE-P7 (Use and development within coastal margins and riparian margins in the coastal environment) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Guardians of the Bays Inc	FS44.71	Part 2 / General District wide Matters / Coastal Environment / CE-P7	Oppose	Considers that Natural Open Space Zone between Lyall Bay and Moa Point should be retained within the Airport Zone. All amended changes are not required. The airport is a natural coastal environment. It is a complex environment which requires the NZCPS and Greater Wellington Regional Policy Statement for land below MHWS.	Disallow
Wellington International Airport Ltd	406.313	General District wide Matters / Coastal Environment / CE-P7	Amend	Opposes this policy to the extent that it does not recognise or provide for the existing hard engineering structures located between Lyall Bay and Moa Point which protect regionally significant infrastructure, including WCC's wastewater network and Wellington International Airport, as well as Moa Point Road, from the effects of coastal erosion. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Either delete, or amend CE-P7 (Use and development within coastal margins and riparian margins in the coastal environment) as follows: CE-P7 Use and development within coastal margins and riparian margins in the coastal environment – located outside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone, and the Evans Bay Marine Recreation Area <u>or the area of Natural Open Space Zone located between Lyall Bay and Moa Point.</u> Only allow use and development within coastal and riparian margins in the coastal environment outside of the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone or the Evans Bay Marine Recreation Area <u>or the area of Natural Open Space zoned land between Lyall Bay and Moa Point</u> where ... 2. It can be demonstrated that: a. Any proposed earthworks, building platform, building or structure are able to integrate with the existing landform, do not dominate the natural character of the area and <u>where appropriate</u> do not limit or prevent public access to, along or adjacent to the coast and waterbodies; ... d. <u>Where appropriate</u> restoration or rehabilitation planting of indigenous species will be incorporated to mitigate any adverse effects. ...
Guardians of the Bays Inc	FS44.72	Part 2 / General District wide Matters / Coastal Environment / CE-P7	Oppose	Considers that Natural Open Space Zone between Lyall Bay and Moa Point should be retained within the Airport Zone. All amended changes are not required. The airport is a natural coastal environment. It is a complex environment which requires the NZCPS and Greater Wellington Regional Policy Statement for land below MHWS.	Disallow
Wellington International Airport Ltd	406.314	General District wide Matters / Coastal Environment / CE-P7	Amend	Opposes this policy to the extent that it does not recognise or provide for the existing hard engineering structures located between Lyall Bay and Moa Point which protect regionally significant infrastructure, including WCC's wastewater network and Wellington International Airport, as well as Moa Point Road, from the effects of coastal erosion. [See paragraphs 4.40 to 4.45 of original submission for full reason]	If CE-P7 (Use and development within coastal margins and riparian margins in the coastal environment – located outside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone and the Evans Bay Marine Recreation Area) is not amended: Seeks that CE-P7 (Use and development within coastal margins and riparian margins in the coastal environment – located outside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone and the Evans Bay Marine Recreation Area) is amended to give relief to a similar effect if the area of Natural Open Space zoned land is rezoned to an alternative zoning.
Guardians of the Bays Inc	FS44.73	Part 2 / General District wide Matters / Coastal Environment / CE-P7	Oppose	Considers that Natural Open Space Zone between Lyall Bay and Moa Point should be retained within the Airport Zone. All amended changes are not required. The airport is a natural coastal environment. It is a complex environment which requires the NZCPS and Greater Wellington Regional Policy Statement for land below MHWS.	Disallow
Guardians of the Bays	452.22	General District wide Matters / Coastal Environment / CE-P7	Support	Supports CE-P7 (Use and development within coastal margins and riparian margins in the coastal environment – located outside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone and the Evans Bay Marine Recreation Area).	Retain CE-P7 (Use and development within coastal margins and riparian margins in the coastal environment – located outside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone, City Centre Zone and the Evans Bay Marine Recreation Area) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	228.109	General District wide Matters / Coastal Environment / CE-P8	Support in part	Considers that policy CE-P8 (Vegetation removal within the coastal environment) is potentially restrictive of vegetation removal that is necessary to support regionally significant infrastructure and needs to be amended to recognise and provide for the particular operational and functional needs of regionally significant infrastructure.	Retain Policy CE-P8 (Vegetation removal within the coastal environment) with amendment.
Meridian Energy Limited	228.110	General District wide Matters / Coastal Environment / CE-P8	Amend	Considers that policy CE-P8 (Vegetation removal within the coastal environment) is potentially restrictive of vegetation removal that is necessary to support regionally significant infrastructure and needs to be amended to recognise and provide for the particular operational and functional needs of regionally significant infrastructure.	Amend Policy CE-P8 (Vegetation removal within the coastal environment) as follows: Manage the removal of vegetation in the coastal environment as follows: 1. Allow for the removal of vegetation in the coastal environment outside of areas of very high or high coastal natural character. 2. Allow for the removal of exotic vegetation in the coastal environment within areas of very high or high coastal natural character. 3. Only allow for the removal of indigenous vegetation in the coastal environment within areas of very high or high coastal natural character that: a. Is of a scale that maintains the identified values; or b. Is associated with ongoing maintenance of existing public accessways; <u>or</u> c. <u>Is necessary to enable the operation, maintenance, repair or upgrading of regionally significant infrastructure.</u>
KiwiRail Holdings Limited	FS72.63	Part 2 / General District wide Matters / Coastal Environment / CE-P8	Support	Supports recognition that vegetation clearance can be necessary for the safe and efficient operation of the rail corridor Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Allow
Horokiwi Quarries Ltd	271.47	General District wide Matters / Coastal Environment / CE-P8	Support	Supports the ability to remove vegetation in the coastal environment outside of areas of very high or high coastal natural character.	Retain CE-P8 (Vegetation removal within the coastal environment) as notified.
Fire and Emergency New Zealand	273.135	General District wide Matters / Coastal Environment / CE-P8	Support in part	Supports the policy as it manages the removal of vegetation in the coastal environment. It is however important that property owners and occupiers are able to remove flammable vegetation, as required, to provide sufficient clearance to mitigate the potential for fire risk/spread between flammable vegetation and property. This is particularly important where a property is located outside of a reticulated water network and any surrounding environment includes vegetation.	Retain CE-P8 (Vegetation removal within the coastal environment), with amendment.
Fire and Emergency New Zealand	273.136	General District wide Matters / Coastal Environment / CE-P8	Amend	Supports the policy as it manages the removal of vegetation in the coastal environment. It is however important that property owners and occupiers are able to remove flammable vegetation, as required, to provide sufficient clearance to mitigate the potential for fire risk/spread between flammable vegetation and property. This is particularly important where a property is located outside of a reticulated water network and any surrounding environment includes vegetation.	Amend CE-P8 (Vegetation removal within the coastal environment) as follows: Manage the removal of vegetation in the coastal environment as follows: ... 3. Only allow for the removal of indigenous vegetation in the coastal environment within high coastal natural character areas that: ... b. Is associated with ongoing maintenance of existing public accessways; <u>or</u> c. <u>It is necessary to avoid loss of life, injury or serious damage to property, including from the risk of fire.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Yvonne Weeber	340.31	General District wide Matters / Coastal Environment / CE-P8	Amend	Considers that CE-P8 should be amended to consider coastal erosion and other environmental, social and cultural benefits of both indigenous and exotic vegetation in the coastal environment.	Amend CE-P8 (Vegetation removal within the coastal environment) to consider coastal erosion and other environmental, social and cultural benefits of both indigenous and exotic vegetation in the coastal environment.
Royal Forest and Bird Protection Society	345.310	General District wide Matters / Coastal Environment / CE-P8	Support in part	Opposes the policy direction that provides generally for vegetation removal outside of high natural character areas. Opposes the policy direction that provides for exotic vegetation removal in high natural character areas. Exotic vegetation can contribute to natural character, and can also have ecosystem and habitat values. Supports the policy direction that vegetation removal within the coastal environment should be limited. However, this needs to be amended to apply to any area of natural character in the coastal environment, not just areas of high natural character. Limiting protections to high natural character areas only is inconsistent with policy 13 NZCPS. As discussed above, there is a lack of protection for SNAs in the coastal environment that are urban allotments. This policy was clearly intended to deal with natural character effects. However, in the absence of protections for these SNAs, the policy becomes even more important.	Amend CE-P8 (Vegetation removal within the coastal environment): <u>Only allow for vegetation clearance in the coastal environment where:</u> <u>a. The removal is of a scale that retains the biodiversity and natural character values of the area; and</u> <u>b. Is associated with ongoing maintenance of existing public accessways; and</u> <u>c. The removal does not contravene policy 11 or 13 NZCPS.</u> Manage the removal of vegetation in the coastal environment as follows:- a. Allow for the removal of vegetation in the coastal environment outside of high coastal natural character areas; b. Allow for the removal of exotic vegetation in the coastal environment within high coastal natural character areas; and c. Only allow for the removal of indigenous vegetation in the coastal environment within high coastal natural character areas that: a. Is of a scale that maintains the identified values; or b. Is associated with ongoing maintenance of existing public accessways.-
Meridian Energy Limited	FS101.163	Part 2 / General District wide Matters / Coastal Environment / CE-P8	Oppose	Meridian considers its proposed amended wording in submission point 221.110 more appropriately gives effect to the RMA and higher order policy instruments.	Disallow
Greater Wellington Regional Council	351.209	General District wide Matters / Coastal Environment / CE-P8	Amend	Considers the policy does not give effect to NZCPS Policy 13(1)(b) which is to avoid significant adverse effects and avoid, remedy or mitigate other adverse effects of activities on natural character in areas which are not outstanding, rather than just in sites of high natural character in isolation. Furthermore, allowing for the removal of indigenous vegetation in areas of low and moderate natural character could lead to a reduction in natural character and would not give effect to CE-O1.	Amend CE-P8 (Vegetation removal within the coastal environment) as follows: Manage the removal of vegetation in the coastal environment as follows: 1. Allow for the removal of <u>exotic</u> vegetation in the coastal environment outside of high coastal natural character <u>sites and</u> areas; 2. Allow for the removal of exotic vegetation in the coastal environment within high coastal natural character <u>sites and</u> areas; and 3. Only allow for the removal of indigenous vegetation in the coastal environment within high coastal natural character <u>sites and</u> areas that: a. Is of a scale that maintains the identified values; or b. Is associated with ongoing maintenance of existing public accessways.
Meridian Energy Limited	FS101.164	Part 2 / General District wide Matters / Coastal Environment / CE-P8	Oppose	Considers that the requested amendments are not necessary because Policy CE-P1 and P7, together, implement NZCPS Policy 13.	Disallow
Waka Kotahi	370.200	General District wide Matters / Coastal Environment / CE-P8	Support in part	Support in principle.	Retain CE-P8 (Vegetation removal within the coastal environment), subject to amendments.
Waka Kotahi	370.201	General District wide Matters / Coastal Environment / CE-P8	Amend	Considers that policy should be amended to provide for indigenous vegetation removal for the maintenance of public roads as well as accessways, to align with CE-R6 and CE-S1.	Amend CE-P8 (Vegetation removal within the coastal environment) as follows: ... 3. Only allow for the removal of indigenous vegetation in the coastal environment within high coastal natural character areas that: a. Is of a scale that maintains the identified values; or b. Is associated with ongoing maintenance of existing public accessways <u>and public roads.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.237	General District wide Matters / Coastal Environment / CE-P8	Support	CE-P8 is supported as it is considered logical and beneficial.	Retain CE-P8 (Vegetation removal within the coastal environment) as notified.
Guardians of the Bays	452.23	General District wide Matters / Coastal Environment / CE-P8	Amend	Considers the removal of vegetation within the coastal environment unless adequate consideration has been made of coastal erosion and other environmental, social and cultural benefits of the vegetation. Coastal vegetation is often difficult to grow and maintain. While it may just look weedy and unkempt it has many important benefits to the environment. Changes are necessary to give effect to the NZCPS and Greater Wellington Regional Council Proposed RPS - Plan Change 1.	Amend CE-P8 (Vegetation removal within the coastal environment) to consider coastal erosion and other environmental, social and cultural benefits of both indigenous and exotic vegetation in the coastal environment <u>in a manner consistent with the direction in the Proposed RPS -PC1 (and draft NPS-IB).</u>
Horokiwi Quarries Ltd	271.48	General District wide Matters / Coastal Environment / CE-P9	Support	Supports that CE-P9 recognises existing quarry activities, and their expansion. The policy recognises the importance and role of existing quarry activities and provides a policy pathway for their expansion (outside of high coastal natural character areas and outside of coastal and riparian margins). Notwithstanding the sought amendment to the CE line as it relates to the Horokiwi site, the submitter supports policy CE-P9.	Retain CE-P9 (Mining and quarrying activities within the coastal environment) as notified, with amendments to the Coastal Environment Overlay.
Royal Forest and Bird Protection Society	345.311	General District wide Matters / Coastal Environment / CE-P9	Oppose in part	Opposes the blanket provision (in 1.) for existing activities, as this suggests their effects would not need to be considered if they require re-consenting. Opposes because it is inconsistent with the NZCPS requirement to avoid significant adverse effects on all areas of natural character, not only high natural character. Supports 3, but this should not be limited to areas of high natural character. Supports paragraph 4.	Amend CE-P9 (Mining and quarrying activities within the coastal environment): Manage mining and quarrying activities within the coastal environment as follows: 1. Allow for established mining and quarrying activities in the Coastal Environment <u>where their effects can be managed in accordance with the objectives and policies of this Plan;</u> 2. Only allow for the extension of established mining and quarrying activities or new quarrying and mining activities where it is located outside of high coastal natural character areas and outside of coastal and riparian margins and any potential adverse effects can be avoided, remedied or mitigated; 3. Avoid the extension of established mining and quarrying activities and the establishment of new mining and quarrying within <u>high</u> coastal natural character areas and within coastal and riparian margins in the coastal environment; and 4. Avoid the establishment of new mining and quarrying activities within the coastal environment
Horokiwi Quarries Limited	FS28.8	Part 2 / General District wide Matters / Coastal Environment / CE-P9	Oppose	Policy NFL-P9 is specific to mining and quarrying, and in relation to the Horokiwi site, is supported in that it recognises existing quarry activities, and their expansion. Specific to Horokiwi, the policy recognises the importance and role of existing quarry activities and provides a policy pathway for their expansion (outside of high coastal natural character areas and outside of coastal and riparian margins).	Disallow
WCC Environmental Reference Group	377.238	General District wide Matters / Coastal Environment / CE-P9	Support	CE-P9 is supported as it is considered logical and beneficial.	Retain CE-P9 (Mining and quarrying activities within the coastal environment) as notified.
Meridian Energy Limited	228.111	General District wide Matters / Coastal Environment / CE-P10	Oppose	Considers that Policy CE-P10 (Inappropriate activities within the coastal environment) provides no guidance on what is considered 'inappropriate' in the coastal environment. This submission point is not saying that inappropriate activities should be allowed in the coastal environment. Rather, the point is that there is already sufficient useful guidance in other policies about what is considered inappropriate. Considers Policy CE-P10 adds no value and should be deleted.	Delete policy CE-P10 (Inappropriate activities within the coastal environment) in its entirety.
Wellington City Council	266.111	General District wide Matters / Coastal Environment / CE-P10	Amend	Considers commas need to be added to the Policy for clarification purposes.	Amend CE-P10 (Inappropriate activities within the coastal environment) as follows: Avoid the establishment of activities that are incompatible with, or detrimental to, the natural character and qualities within the landward extent of the coastal environment.
Yvonne Weeber	340.32	General District wide Matters / Coastal Environment / CE-P10	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain CE-P10 (Inappropriate activities within the coastal environment) as notified.
Royal Forest and Bird Protection Society	345.312	General District wide Matters / Coastal Environment / CE-P10	Support	Supports the policy.	Retain CE-P10 (Inappropriate activities within the coastal environment) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.239	General District wide Matters / Coastal Environment / CE-P10	Support	CE-P10 is supported as it is considered logical and beneficial.	Retain CE-P10 (Inappropriate activities within the coastal environment) as notified.
Director-General of Conservation	385.65	General District wide Matters / Coastal Environment / CE-P10	Support	Supports proposed policy CE-P10 (Inappropriate activities within the coastal environment).	Retain policy CE-P10 (Inappropriate activities within the coastal environment) as notified.
Wellington International Airport Ltd	406.315	General District wide Matters / Coastal Environment / CE-P10	Oppose	Opposes this policy. It is inappropriate for such a directive policy to apply to such a large and generally urbanised area, with highly variable levels of 'natural character and quality'. The extent to which an activity is 'incompatible with or detrimental to' with its surrounding environment, including its potential effects on coastal environment is addressed within the underlying land use zone provisions and the various natural environment overlays within the Proposed Plan.	Delete CE-P10 (Inappropriate activities within the coastal environment) in its entirety.
Fabric Property Limited	425.35	General District wide Matters / Coastal Environment / CE-P10	Not specified	Considers Policy CE10.3 is similarly restrictive and equally fails to recognise that a significant portion of the CBD is subject to High Hazard Areas under the Coastal Hazard Overlays. This policy fails to recognise that there is already significant investment in the CBD, and is inconsistent with CE-O8, which is to provide for activities in the City Centre Zone which do not increase the risk to people, property or infrastructure. It is also inappropriate for this policy to apply to tsunami risk.	Not specified.
Guardians of the Bays	452.24	General District wide Matters / Coastal Environment / CE-P10	Support	Supports CE-P10 (Inappropriate activities within the coastal environment).	Retain CE-P10 (Inappropriate activities within the coastal environment) as notified.
Yvonne Weeber	340.33	General District wide Matters / Coastal Environment / CE-P11	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain CE-P11 (Identification of coastal hazards) as notified.
Royal Forest and Bird Protection Society	345.313	General District wide Matters / Coastal Environment / CE-P11	Support in part	Considers the policy should address the risks posed to people, property and infrastructure in respect of use and development and coastal hazards. As noted above, these provisions should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected	Amend CE-P11 (Identification of coastal hazards): Identify coastal hazards within the District Plan and take a risk-based approach to the management of subdivision, use and development based on the following: 1. The sensitivity of the activities to the impacts of coastal hazards; 2. The risk posed to people, property, and infrastructure, <u>natural character, natural landscape, and biodiversity values</u> by considering the likelihood and consequences of different coastal hazard events; and 3. The longer term impacts of climate change and sea level rise.
Wellington International Airport Limited	FS36.99	Part 2 / General District wide Matters / Coastal Environment / CE-P11	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Greater Wellington Regional Council	351.210	General District wide Matters / Coastal Environment / CE-P11	Support	Considers this approach is appropriate.	Retain CE-P11 (Identification of coastal hazards) as notified.
WCC Environmental Reference Group	377.240	General District wide Matters / Coastal Environment / CE-P11	Support	CE-P11 is supported as it is considered logical and beneficial.	Retain CE-P11 (Identification of coastal hazards) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Argosy Property No. 1 Limited	383.77	General District wide Matters / Coastal Environment / CE-P11	Support in part	Supports this policy in so far that the risk-based approach needs to consider the impact, likelihood and consequences of different coastal hazard events. The Proposed Plan clearly identifies the risk of various coastal hazard events e.g. a high risk that a property will be affected if there is a tsunami. However, the Proposed Plan does not identify the probability of such events (which are low). This makes the identification of hazards misleading and potentially alarming	Retain CE-P11 (Identification of coastal hazards) as notified.
Kāinga Ora Homes and Communities	391.250	General District wide Matters / Coastal Environment / CE-P11	Support	CE-P11 is generally supported.	Retain CE-P11 (Identification of coastal hazards) as notified.
Oyster Management Limited	404.38	General District wide Matters / Coastal Environment / CE-P11	Support in part	Supports this policy to the extent that the risk-based approach needs to consider the impact, likelihood, and consequences of different coastal hazards.	Retain CE-P11 (Identification of coastal hazards) as notified.
Wellington International Airport Ltd	406.316	General District wide Matters / Coastal Environment / CE-P11	Oppose	Opposes this policy. The concept of tolerability also needs to be brought into the policy, as per Objective SRCC-O2, to recognise that different activities, people, property and infrastructure will have a different tolerance to the effects of coastal hazards. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Opposes CE-P11 (Identification of coastal hazards) and seeks amendment.
Wellington International Airport Ltd	406.317	General District wide Matters / Coastal Environment / CE-P11	Amend	Opposes this policy. The concept of tolerability also needs to be brought into the policy, as per Objective SRCC-O2, to recognise that different activities, people, property and infrastructure will have a different tolerance to the effects of coastal hazards. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Either delete, or amend CE-P11 (Identification of coastal hazards) as follows: Seeks that CE-P11 (Identification of coastal hazards) is amended to only apply to the coastal inundation hazard areas and recognise the concept of tolerability.
Toka Tū Ake EQC	FS70.95	Part 2 / General District wide Matters / Coastal Environment / CE-P11	Oppose	The risk of a 1:100 year tsunami risk is classed as high despite being low probability because tsunamis are a very high impact hazard, and for a locally sourced event (e.g. Hikurangi subduction zone or local fault) there will be limited time to evacuate ¹ . Land use planning options must be considered, particularly when combined with other hazards along the coast (e.g. sea level rise, storm surge, liquefaction). The tsunami hazard overlay should not be deleted from the policy. Deletion of this provision is not an appropriate alternative to including risk tolerance, as it is important to limit development in areas at risk from natural hazards.	Disallow
Wellington City Council	266.112	General District wide Matters / Coastal Environment / CE-P12	Amend	Considers the policy isn't clear and needs minor changes.	Amend CE-P12 (Levels of risk) as follows: <u>Ensure</u> subdivision, use and development reduces the risk to people, property, and infrastructure by: 1. Enable <u>Enabling</u> subdivision, use and development that have either low occupancy, risk, or replacement value within the low, medium and high hazard areas of the Coastal Hazard Overlays; (...)
Yvonne Weeber	340.34	General District wide Matters / Coastal Environment / CE-P12	Support	CE-P12 is supported, specifically the classification of Low Coastal Hazard Area, Medium Coastal Hazard Area and the High Coastal Hazard Area.	Retain CE-P12 (Levels of risk) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.314	General District wide Matters / Coastal Environment / CE-P12	Support in part	Considers the policy should address the risks posed to people, property and infrastructure in respect of use and development and coastal hazards. As noted above, these provisions should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected	Amend CE-P12 (Levels of risk): Subdivision, use and development reduces the risk to people, property, and infrastructure by: 1. Enable subdivision, use and development that have either low occupancy, risk, or replacement value within the low, medium and high hazard areas of the Coastal Hazard Overlays; 2. Requiring mitigation for subdivision, use and development that addresses the impacts from the relevant coastal hazards to people, property, and infrastructure, <u>natural character, natural landscape, and biodiversity values</u> in the low and medium hazard areas; and 3. Avoiding subdivision, use and development in the high hazard area unless there is a functional and operational need for the building or activity to be located in this area and incorporates mitigation measures are incorporated that reduces the risk to people, property, and infrastructure.
Wellington International Airport Limited	FS36.100	Part 2 / General District wide Matters / Coastal Environment / CE-P12	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Greater Wellington Regional Council	351.211	General District wide Matters / Coastal Environment / CE-P12	Amend	Considers that amendments are necessary to have regard to the RPS Objectives 19 and 20 and Policies 51 and 52. Minimise is defined as “as low as reasonably practicable (ALARP)” and is in line with standard risk-based hazard management approaches. This leaves room for reduction as far as practicable but is a clearer signal than reduce or do not increase, to actively look to bring down the risk in the design and planning of the development.	Seeks to amend CE-P12 (levels of risk) as follows: Subdivision, use and development <u>minimises</u> reduces the risk to people, property and infrastructure by: ... 3. Avoiding subdivision, use and development in the high hazard area unless there is a functional and operational need for the building or activity to be located in this area and incorporates mitigation measures are incorporated that reduces <u>minimise</u> the risk to people, property and infrastructure.
Toka Tū Ake EQC	FS70.35	Part 2 / General District wide Matters / Coastal Environment / CE-P12	Support	Toka Tū Ake EQC consider it appropriate for terminology consistent with GRWC proposed RPS Change 1, based on standard risk based hazard management approaches, to be used throughout the WCC proposed district plan. We agree that ‘minimise’ natural hazard risk is a clearer instruction to bring risk in development to levels as low as reasonably practical than ‘reduce’ and ‘reduce or do not increase’.	Allow
WCC Environmental Reference Group	377.241	General District wide Matters / Coastal Environment / CE-P12	Support	CE-P12 is supported as it is considered logical and beneficial.	Retain CE-P12 (Levels of risk) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Argosy Property No. 1 Limited	383.78	General District wide Matters / Coastal Environment / CE-P12	Oppose	<p>Opposes Policy CE-P12.1. This policy is very restrictive to enable only low occupancy, risk or replacement value development within the Coastal Hazard Overlays. The Coastal Hazard Overlays apply to approximately half of the CBD. It is considered that this policy does not appropriately recognise this context and existing built environment.</p> <p>Considers Policy CE-12.2 would also require mitigation for subdivision, use and development in the Low and Medium Hazard Areas. All of Argosy's properties are located in Low or Medium Hazard Areas. Policy CE-12.2 should apply to the Coastal Hazard Inundation Overlay only. It is not appropriate to require mitigation for tsunami risk based on the likelihood of an event occurring, and the inability to mitigate this type of event. Further, it is unrealistic to provide that mitigation can address the impacts from coastal hazards, rather than to reduce or not increase the risk.</p> <p>Considers CE-P12.3 is similarly restrictive and equally fails to recognise that a significant portion of the CBD is subject to High Hazard Areas under the Coastal Hazard Overlays. As noted above, the Proposed Plan fails to recognise that there is already significant investment in the CBD. It is also inappropriate for this policy to apply to tsunami risk.</p>	<p>Amend CE-P12 (Levels of risk) as follows:</p> <p>Subdivision, use and development reduces the risk to people, property, and infrastructure by:</p> <ol style="list-style-type: none"> 1. Enable subdivision, use and development that have either low occupancy, risk, or replacement value within the low, medium and high hazard areas of the Coastal Hazard Overlays; 2. Requiring mitigation for subdivision, use and development <u>to reduce or not increase that</u> addresses the impacts from the relevant coastal hazards to people, property, and infrastructure in the low, and medium <u>and high hazard areas</u> 3. Avoiding subdivision, use and development in the high hazard area <u>of the Coastal Inundation Overlay</u> unless there is an functional and or operational need for the building or activity to be located in this area and incorporates mitigation measures are incorporated that reduces the risk to people, property, and infrastructure
Toka Tū Ake EQC	FS70.4	Part 2 / General District wide Matters / Coastal Environment / CE-P12	Oppose	Coastal hazard risk is going to increase in the near future with the impact of climate change and sea level rise, and high occupancy developments in high risk areas will expose more people to increasing risk. Additionally, mitigation of risks from tsunami is possible with land use planning and building design, and tsunami risk should not be deleted from the policy.	Disallow
Kāinga Ora Homes and Communities	391.251	General District wide Matters / Coastal Environment / CE-P12	Support in part	CE-P12 is partially supported and an amendment is sought.	Retain CE-P12 (Levels of risk) with amendment.
Kāinga Ora Homes and Communities	391.252	General District wide Matters / Coastal Environment / CE-P12	Amend	Considers that CE-P12 should be amended so that the policy enables mitigation of hazard risk in high hazard areas.	<p>Amend CE-P12 (Levels of risk) as follows:</p> <p><u>New S</u> subdivision, use and development <u>reduces does not increase</u> the risk to people, property, and infrastructure by:</p> <ol style="list-style-type: none"> 1. Enable subdivision, use and development that have either low occupancy, risk, or replacement value within the Coastal Hazard Overlays; 2. Requiring mitigation for subdivision, use and development that addresses the impacts from the relevant coastal hazards to people, property, and infrastructure in the low and medium hazard areas; and 3. Avoiding subdivision, use and development in the high hazard area unless there is an functional and operational need for the building or activity to be located in this area and incorporates mitigation measures are incorporated that reduces the risk to people, property, and infrastructure.
Toka Tū Ake EQC	FS70.63	Part 2 / General District wide Matters / Coastal Environment / CE-P12	Oppose	The category of high hazard area is afforded to those areas where the level of risk from natural hazard is such that mitigation is not sufficient to bring risk to a tolerable level. Many natural hazard risks are going to increase in the near future with the impact of climate change and sea level rise, and high occupancy developments in high risk areas will expose more people to increasing risk. As such avoidance of subdivision and development in these areas is appropriate, and risks should be reduced where possible, rather than keeping the status quote i.e. not increasing risks.	Disallow
Ministry of Education	400.63	General District wide Matters / Coastal Environment / CE-P12	Support	Supports CE-P12 as the submitter may at times need to locate educational facilities in these areas to meet the needs of existing communities. The submitter notes that where required, development of these facilities would incorporate mitigation measures to reduce the risks to people, property and infrastructure.	Retain CE-P12 (Levels of risk) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Oyster Management Limited	404.39	General District wide Matters / Coastal Environment / CE-P12	Amend	Opposes CE-P12.1. Considers this policy is very restrictive in only enabling low occupancy, risk or replacement value development within the Coastal Hazard Overlays, as it applies to approximately half of the CBD. Considers this policy does not appropriately recognise this context and existing built environment.	Amend CE-P12 (Levels of risk) as follows: Subdivision, use and development reduces the risk to people, property, and infrastructure by: 1. Enable subdivision, use and development that have either low occupancy, risk, or replacement value within the low, medium and high hazard areas of the Coastal Hazard Overlays;
Toka Tū Ake EQC	FS70.71	Part 2 / General District wide Matters / Coastal Environment / CE-P12	Oppose	The category of high hazard area is afforded to those areas where the level of risk from natural hazard is such that mitigation is not sufficient to bring risk to a tolerable level. Many natural hazard risks are going to increase in the near future with the impact of climate change and sea level rise, and high occupancy developments in high risk areas will expose more people to increasing risk. As such avoidance of subdivision and development in these areas is appropriate.	Disallow
Oyster Management Limited	404.40	General District wide Matters / Coastal Environment / CE-P12	Oppose	Opposes CE-P12.1. Considers this policy is very restrictive in only enabling low occupancy, risk or replacement value development within the Coastal Hazard Overlays, as it applies to approximately half of the CBD. Considers this policy does not appropriately recognise this context and existing built environment.	Delete CE-P12.1 (Levels of risk) in its entirety.
Oyster Management Limited	404.41	General District wide Matters / Coastal Environment / CE-P12	Amend	Considers that Policy CE-12.2 would require mitigation for subdivision, use and development in the Low and Medium Hazard Areas. Policy CE-12.2 should apply to the Coastal Hazard Inundation Overlay only. Considers that it is not appropriate to require mitigation for tsunami risk because of the likelihood of an event occurring, and the inability to mitigate this type of event. Further, the submitter considers that it is unrealistic to provide that mitigation can address the impacts from coastal hazards, rather than to reduce or not increase the risk.	Amend CE-12.2 (Levels of risk) as follows: ... 2. Requiring mitigation for subdivision, use and development to <u>reduce or not increase that</u> addresses the impacts from the relevant coastal hazards to people, property, and infrastructure in the low, and medium, <u>and high hazard</u> areas;
Toka Tū Ake EQC	FS70.72	Part 2 / General District wide Matters / Coastal Environment / CE-P12	Oppose	The category of high hazard area is afforded to those areas where the level of risk from natural hazard is such that mitigation is not sufficient to bring risk to a tolerable level. Coastal hazard risk is going to increase in the near future with the impact of climate change and sea level rise, and high occupancy developments in high risk areas will expose more people to increasing risk.	Disallow
Oyster Management Limited	404.42	General District wide Matters / Coastal Environment / CE-P12	Amend	Considers Policy CE12.3 is similarly restrictive and equally fails to recognise that a significant portion of the CBD is subject to High Hazard Areas under the Coastal Hazard Overlays. As noted above, the Proposed Plan fails to recognise that there is already significant investment in the CBD. It is also inappropriate for this policy to apply to tsunami risk.	Amend CE-12.3 (Levels of risk) as follows: ... 3. Avoiding subdivision, use and development in the high hazard area <u>of the Coastal Inundation Overlay</u> unless there is a functional and <u>or</u> operational need for the building or activity to be located in this area and incorporates mitigation measures are incorporated that <u>reduces or does not increase</u> the risk to people, property, and infrastructure.
Toka Tū Ake EQC	FS70.73	Part 2 / General District wide Matters / Coastal Environmet / CE-P12	Oppose	Coastal hazard risk is going to increase in the near future with the impact of climate change and sea level rise, and high occupancy developments in high risk areas will expose more people to increasing risk. Additionally, mitigation of risks from tsunami is possible with land use planning and building design, and tsunami risk should not be deleted from the policy (ref tsunami guidance). A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes.	Disallow
Wellington International Airport Ltd	406.318	General District wide Matters / Coastal Environment / CE-P12	Oppose	Opposes this policy. The concept of tolerability also needs to be brought into the policy, as per Objective SRCC-O2, to recognise that different activities, people, property and infrastructure will have a different tolerance to the effects of coastal hazards. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Opposes CE-P12 (Levels of risk) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.319	General District wide Matters / Coastal Environment / CE-P12	Amend	<p>Opposes this policy.</p> <p>The concept of tolerability also needs to be brought into the policy, as per Objective SRCC-O2, to recognise that different activities, people, property and infrastructure will have a different tolerance to the effects of coastal hazards.</p> <p>[See paragraphs 4.85 to 4.92 of original submission for full reason]</p>	<p>Either delete or amend CE-P12 (Levels of risk) as follows:</p> <p>Seeks that CE-P12 (Levels of risk) is amended to only apply to the coastal inundation hazard areas and recognise the concept of tolerability.</p>
Toka Tū Ake EQC	FS70.96	Part 2 / General District wide Matters / Coastal Environment / CE-P12	Oppose	<p>The risk of a 1:100 year tsunami risk is classed as high despite being low probability because tsunamis are a very high impact hazard, and for a locally sourced event (e.g. Hikurangi subduction zone or local fault) there will be limited time to evacuate. Land use planning options must be considered, particularly when combined with other hazards along the coast (e.g. sea level rise, storm surge, liquefaction). WCC Environmental Reference Group	377.243	General District wide Matters / Coastal Environment / CE-P14	Support	CE-P14 is supported as it is considered logical and beneficial.	Retain CE-P14 (Additions to buildings for potentially hazard sensitive activities and hazard sensitive activities within the medium coastal hazard area and high coastal hazard area) as notified.
Argosy Property No. 1 Limited	383.79	General District wide Matters / Coastal Environment / CE-P14	Support in part	Supports the direction that additions to buildings for potentially hazard sensitive activities and hazard sensitive activities should be enabled within the medium coastal hazard area and high coastal hazard area where the risk can be mitigated. However, it is difficult to provide mitigation measures in relation to tsunami risk, because of the remoteness of tsunami risk. It would also be reasonable for policy CE-P14 to enable uses of the same level of hazard sensitivity in additions to buildings, rather than enabling the continued existing use. The risk assessment framework in the Proposed Plan provides classifications of activities based on their risk level i.e. Potentially Hazard Sensitive Activities. There is no reason for uses within the same level of hazard sensitivity to be differentiated.	Retain CE-P14 (Additions to buildings for potentially hazard sensitive activities and hazard sensitive activities within the medium coastal hazard area and high coastal hazard area) as notified, subject to amendments.
Argosy Property No. 1 Limited	383.80	General District wide Matters / Coastal Environment / CE-P14	Amend	Supports the direction that additions to buildings for potentially hazard sensitive activities and hazard sensitive activities should be enabled within the medium coastal hazard area and high coastal hazard area where the risk can be mitigated. However, it is difficult to provide mitigation measures in relation to tsunami risk, because of the remoteness of tsunami risk. It would also be reasonable for policy CE-P14 to enable uses of the same level of hazard sensitivity in additions to buildings, rather than enabling the continued existing use. The risk assessment framework in the Proposed Plan provides classifications of activities based on their risk level i.e. Potentially Hazard Sensitive Activities. There is no reason for uses within the same level of hazard sensitivity to be differentiated.	Amend CE-P14 (Additions to buildings for potentially hazard sensitive activities and hazard sensitive activities within the medium coastal hazard area and high coastal hazard area): Enable additions to buildings that accommodate existing potentially hazard sensitive activities and hazard sensitive activities within the medium coastal hazard area and high coastal hazard area in the <u>Coastal Inundation Overlay</u> , where: 1. They enable the continued use <u>same level of hazard sensitivity of the existing use of the building</u> ; 2. The risk from the coastal hazard is low due to either: a. Proposed mitigation measures; or b. The size and the activity of the addition
Toka Tū Ake EQC	FS70.5	Part 2 / General District wide Matters / Coastal Environment / CE-P14	Oppose	Mitigation of risks from tsunami is possible with land use planning and building design, and tsunami risk should not be deleted from the policy. Tsunami are not a 'remote' risk. The current probability of a rupture of the Hikurangi subduction zone is calculated as 25% in the next 50 years. A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes.	Disallow / Seeks that the part of this submission regarding hazard overlays be disallowed.
Kāinga Ora Homes and Communities	391.253	General District wide Matters / Coastal Environment / CE-P14	Support	CE-P14 is generally supported.	Retain CE-P14 (Additions to buildings for potentially hazard sensitive activities and hazard sensitive activities within the medium coastal hazard area and high coastal hazard area) as notified.
Ministry of Education	400.64	General District wide Matters / Coastal Environment / CE-P14	Support	Supports CE-P14 as proposed.	Retain CE-P14 (Additions to buildings for potentially hazard sensitive activities and hazard sensitive activities within the medium coastal hazard area and high coastal hazard area) as notified.
Oyster Management Limited	404.91	General District wide Matters / Coastal Environment / CE-P14	Support in part	Supports the direction that additions to buildings for potentially hazard sensitive activities and hazard sensitive activities should be enabled within the medium coastal hazard area and high coastal hazard area where the risk can be mitigated.	Retain CE-P14 (Additions to buildings for potentially hazard sensitive activities and hazard sensitive activities within the medium coastal hazard area and high coastal hazard area) with amendments.

Investore Property Limited	405.42	General District wide Matters / Coastal Environment / CE-P14	Support	Supports the policy as it provides for additions to buildings for potentially hazard sensitive activities and hazard sensitive activities within the medium coastal hazard area and high coastal hazard area.	Retain CE-R14 (Additions and alterations to existing buildings and structures within in the coastal environment: - Within coastal or riparian margins) as notified.
Wellington International Airport Ltd	406.320	General District wide Matters / Coastal Environment / CE-P14	Oppose	<p>Opposes this policy.</p> <p>The concept of tolerability also needs to be brought into the policy, as per Objective SRCC-O2, to recognise that different activities, people, property and infrastructure will have a different tolerance to the effects of coastal hazards.</p> <p>[See paragraphs 4.85 to 4.92 of original submission for full reason]</p>	Opposes CE-P14 (Additions to buildings for potentially hazard sensitive activities and hazard sensitive activities within the medium coastal hazard area and high coastal hazard area) and seeks amendment.
Wellington International Airport Ltd	406.321	General District wide Matters / Coastal Environment / CE-P14	Amend	<p>Opposes this policy.</p> <p>The concept of tolerability also needs to be brought into the policy, as per Objective SRCC-O2, to recognise that different activities, people, property and infrastructure will have a different tolerance to the effects of coastal hazards.</p> <p>[See paragraphs 4.85 to 4.92 of original submission for full reason]</p>	<p>Either delete or amend CE-P14 (Additions to buildings for potentially hazard sensitive activities and hazard sensitive activities within the medium coastal hazard area and high coastal hazard area) as follows:</p> <p>Seeks that CE-P14 (Additions to buildings for potentially hazard sensitive activities and hazard sensitive activities within the medium coastal hazard area and high coastal hazard area) is amended to only apply to the coastal inundation hazard areas and recognise the concept of tolerability.</p>
Toka Tū Ake EQC	FS70.97	Part 2 / General District wide Matters / Coastal Environment / CE-P14	Oppose	<p>Mitigation of risks from tsunami is possible with land use planning and building design, and tsunami risk should not be deleted from the policy. Tsunami are not a remote risk. The current probability of a rupture of the Hikurangi subduction zone is calculated as 25% in the next 50 years. A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes. Deletion of this provision is not an appropriate alternative to including risk tolerance, as it is important to limit development in areas at risk from natural hazards.</p>	Disallow
Fabric Property Limited	425.38	General District wide Matters / Coastal Environment / CE-P14	Support	Supports this policy as it provides for additions to buildings for potentially hazard sensitive activities and hazard sensitive activities within the medium coastal hazard area and high coastal hazard area.	Retain CE-P14 (Additionsto buildings) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council	266.113	General District wide Matters / Coastal Environment / CE-P15	Amend	Considers the policy isn't clear and needs minor changes in a manner consistent with the wording of CE-P16 (Potentially hazard sensitive activities within the medium coastal hazard areas)	Amend CE-P15 (Subdivision and hazard sensitive activities within the low coastal hazard areas) as follows: Provide for hazard sensitive activities within the low coastal hazard area, or any subdivision where the building platform for a hazard sensitive <u>activity activities</u> is within the low coastal hazard area, where it can be demonstrated that: (...)
Fire and Emergency New Zealand	273.138	General District wide Matters / Coastal Environment / CE-P15	Support	Supports the policy as it provides for hazard sensitive activities within the low and medium coastal hazard areas.	Retain CE-P15 (Subdivision and hazard sensitive activities within the low coastal hazard areas) as notified.
Yvonne Weeber	340.37	General District wide Matters / Coastal Environment / CE-P15	Support in part	CE-P15 is generally supported, however it is unclear where the low, medium and high coastal hazard areas are on the map.	Not specified.
Royal Forest and Bird Protection Society	345.317	General District wide Matters / Coastal Environment / CE-P15	Support in part	Considers the policy should address the risks posed to people, property and infrastructure in respect of use and development and coastal hazards. As noted above, these provisions should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected	Amend CE-P15 (Subdivision and hazard sensitive activities within the low coastal hazard areas) to also address risks posed to natural character, natural landscape, and biodiversity values.
Wellington International Airport Limited	FS36.103	Part 2 / General District wide Matters / Coastal Environment / CE-P15	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Greater Wellington Regional Council	351.213	General District wide Matters / Coastal Environment / CE-P15	Support	Considers this approach is appropriate.	Retain CE-P15 (Subdivision and hazard sensitive activities within the low coastal hazard areas) as notified.
WCC Environmental Reference Group	377.244	General District wide Matters / Coastal Environment / CE-P15	Support	CE-P15 is supported as it is considered logical and beneficial.	Retain CE-P15 (Subdivision and hazard sensitive activities within the low coastal hazard areas) as notified.
Kāinga Ora Homes and Communities	391.254	General District wide Matters / Coastal Environment / CE-P15	Support	CE-P15 is generally supported.	Retain CE-P15 (Subdivision and hazard sensitive activities within the low coastal hazard areas) as notified.
Ministry of Education	400.65	General District wide Matters / Coastal Environment / CE-P15	Support	Supports CE-P15 as proposed. The submitter considers that where educational facilities are required in these areas, appropriate mitigation measures and evacuation plans should be implemented to ensure the safety of staff, students and the community.	Retain CE-P15 (Subdivision and hazard sensitive activities within the low coastal hazard areas) as notified.
Wellington International Airport Ltd	406.322	General District wide Matters / Coastal Environment / CE-P15	Oppose	Opposes this policy. The concept of tolerability also needs to be brought into the policy, as per Objective SRCC-O2, to recognise that different activities, people, property and infrastructure will have a different tolerance to the effects of coastal hazards. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Opposes CE-P15 (Subdivision and hazard sensitive activities within the low coastal hazard areas) and seeks amendment.
Wellington International Airport Ltd	406.323	General District wide Matters / Coastal Environment / CE-P15	Amend	Opposes this policy. The concept of tolerability also needs to be brought into the policy, as per Objective SRCC-O2, to recognise that different activities, people, property and infrastructure will have a different tolerance to the effects of coastal hazards. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Either delete, or amend CE-P15 (Subdivision and hazard sensitive activities within the low coastal hazard areas) as follows: Seeks that CE-P15 (Subdivision and hazard sensitive activities within the low coastal hazard areas) is amended to only apply to the coastal inundation hazard areas and recognise the concept of tolerability.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Toka Tū Ake EQC	FS70.98	Part 2 / General District wide Matters / Coastal Environment / CE-P15	Oppose	The risk of a 1:100 year tsunami risk is classed as high despite being low probability because tsunamis are a very high impact hazard, and for a locally sourced event (e.g. Hikurangi subduction zone or local fault) there will be limited time to evacuate. Land use planning options must be considered, particularly when combined with other hazards along the coast (e.g. sea level rise, storm surge, liquefaction). The tsunami hazard overlay should not be deleted from the policy. Deletion of this provision is not an appropriate alternative to including risk tolerance, as it is important to limit development in areas at risk from natural hazards.	Disallow
Precinct Properties New Zealand Limited	139.21	General District wide Matters / Coastal Environment / CE-P16	Support	Supports CE-P16 as it provides for potentially hazard-sensitive activities in the medium coastal hazard areas.	Retain CE-P16 (Potentially hazard sensitive activities within the medium coastal hazard areas) as notified.
Yvonne Weeber	340.38	General District wide Matters / Coastal Environment / CE-P16	Support in part	CE-P16 is generally supported, however it is unclear where the low, medium and high coastal hazard areas are on the map.	Not specified.
Royal Forest and Bird Protection Society	345.318	General District wide Matters / Coastal Environment / CE-P16	Support in part	Considers the policy should address the risks posed to people, property and infrastructure in respect of use and development and coastal hazards. As noted above, these provisions should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected	Amend CE-P16 (Potentially hazard sensitive activities within the medium coastal hazard areas) to also address risks posed to natural character, natural landscape, and biodiversity values.
Wellington International Airport Limited	FS36.104	Part 2 / General District wide Matters / Coastal Environment / CE-P16	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Greater Wellington Regional Council	351.214	General District wide Matters / Coastal Environment / CE-P16	Amend	Considers that amendments are necessary to have regard to the RPS Objectives 19 and 20 and Policies 51 and 52. Minimise is defined as “as low as reasonably practicable (ALARP)” and is in line with standard risk-based hazard management approaches. This leaves room for reduction as far as practicable but is a clearer signal than reduce or do not increase, to actively look to bring down the risk in the design and planning of the development.	Amend CE-P16 (Potentially hazard sensitive activities within the medium coastal hazard areas) as follows: Provide for potentially hazard-sensitive activities in the medium coastal hazard areas, or any subdivision where the building platform for a potentially hazard-sensitive activity will be within the mediumcoastal hazard areas where it can be demonstrated that: 1. The activity, building, or subdivision incorporates measures that minimise reduce or do not increase the risk to people and property from the coastal hazard; and ...
Toka Tū Ake EQC	FS70.36	Part 2 / General District wide Matters / Coastal Environment / CE-P16	Support	Toka Tū Ake EQC consider it appropriate for terminology consistent with GRWC proposed RPS Change 1, based on standard risk based hazard management approaches, to be used throughout the WCC proposed district plan. We agree that ‘minimise’ natural hazard risk is a clearer instruction to bring risk in development to levels as low as reasonably practical than ‘reduce’ and ‘reduce or do not increase’.	Allow
WCC Environmental Reference Group	377.245	General District wide Matters / Coastal Environment / CE-P16	Support	CE-P16 is supported as it is considered logical and beneficial.	Retain CE-P16 (Potentially hazard sensitive activities within the medium coastal hazard areas) as notified.
Argosy Property No. 1 Limited	383.81	General District wide Matters / Coastal Environment / CE-P16	Support in part	Supports this provision to the extent that it enables potentially hazard sensitive activities within medium hazard areas where appropriate. However, as noted above, it is difficult to provide mitigation measures in relation to tsunami risk, because of the remoteness of tsunami risk, so it is appropriate to require safe evacuation routes to address tsunami risk.	Retain CE-P16 (Potentially hazard sensitive activities within the medium coastal hazard areas) as notified, subject to amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Argosy Property No. 1 Limited	383.82	General District wide Matters / Coastal Environment / CE-P16	Amend	Supports this provision to the extent that it enables potentially hazard sensitive activities within medium hazard areas where appropriate. However, as noted above, it is difficult to provide mitigation measures in relation to tsunami risk, because of the remoteness of tsunami risk, so it is appropriate to require safe evacuation routes to address tsunami risk.	Amend CE-P16 (Potentially hazard sensitive activities within the medium coastal hazard areas): Provide for potentially hazard-sensitive activities in the medium coastal hazard areas, or any subdivision where the building platform for a potentially hazard-sensitive activity will be within the medium coastal hazard areas where it can be demonstrated that: 1. The activity, building, or subdivision incorporates measures that reduce or do not increase the risk to people and property from the coastal hazard; and <u>or</u> 2. There is the ability to access safe evacuation routes for occupants of the building in case of a tsunami.
Toka Tū Ake EQC	FS70.6	Part 2 / General District wide Matters / Coastal Environment / CE-P16	Oppose	Mitigation of risks from tsunami and other coastal hazards are possible with land use planning and building design, and land use planning may be required to ensure that tsunami evacuation routes are secured. It is therefore appropriate to require measures that reduce or do not increase risk from activities within medium coastal hazard areas, as well as requiring safe tsunami evacuation routes.	Disallow
Kāinga Ora Homes and Communities	391.255	General District wide Matters / Coastal Environment / CE-P16	Support	CE-P16 is generally supported.	Retain CE-P16 (Potentially hazard sensitive activities within the medium coastal hazard areas) as notified.
Oyster Management Limited	404.93	General District wide Matters / Coastal Environment / CE-P16	Support in part	Supports the policy to the extent it enables potentially hazard sensitive activities within medium hazard areas where appropriate	Retain CE-P16 (Potentially hazard sensitive activities within the medium coastal hazard areas) with amendments.
Oyster Management Limited	404.94	General District wide Matters / Coastal Environment / CE-P16	Amend	Supports the policy to the extent it enables potentially hazard sensitive activities within medium hazard areas where appropriate. However, notes that it is difficult to provide mitigation measures for tsunami risk because of the remoteness of the risk, so considers that it is appropriate to require safe evacuation routes to address tsunami risk.	Amend CE-P16 (Potentially hazard sensitive activities within the medium coastal hazard areas) as follows: Provide for potentially hazard-sensitive activities in the medium coastal hazard areas, or any subdivision where the building platform for a potentially hazard sensitive activity will be within the medium coastal hazard areas where it can be demonstrated that: 1. The activity, building, or subdivision incorporates measures that reduce or do not increase the risk to people and property from the coastal hazard; and <u>or</u> 2. There is the ability to access safe evacuation routes for occupants of the building in case of a tsunami.
Toka Tū Ake EQC	FS70.75	Part 2 / General District wide Matters / Coastal Environment / CE-P16	Oppose	While the trigger of a tsunami cannot be mitigated, the consequences can be reduced through good design, evacuation planning and communication of the risk, and land use planning may be required to ensure that tsunami evacuation routes are secured. A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes. It is therefore appropriate to require measures that reduce or do not increase risk from activities within medium coastal hazard areas, as well as requiring safe tsunami evacuation routes.	Disallow
Wellington International Airport Ltd	406.324	General District wide Matters / Coastal Environment / CE-P16	Oppose	Opposes this policy. The concept of tolerability also needs to be brought into the policy, as per Objective SRCC-O2, to recognise that different activities, people, property and infrastructure will have a different tolerance to the effects of coastal hazards. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Opposes CE-P16 (Potentially hazard sensitive activities within the medium coastal hazard areas) and seeks amendment.
Wellington International Airport Ltd	406.325	General District wide Matters / Coastal Environment / CE-P16	Amend	Opposes this policy. The concept of tolerability also needs to be brought into the policy, as per Objective SRCC-O2, to recognise that different activities, people, property and infrastructure will have a different tolerance to the effects of coastal hazards. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Either delete, or amend CE-P16 (Potentially hazard sensitive activities within the medium coastal hazard areas) as follows: Seeks that CE-P16 (Potentially hazard sensitive activities within the medium coastal hazard areas) is amended to only apply to the coastal inundation hazard areas and recognise the concept of tolerability.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Toka Tū Ake EQC	FS70.99	Part 2 / General District wide Matters / Coastal Environment / CE-P16	Oppose	The risk of a 1:100 year tsunami risk is classed as high despite being low probability because tsunamis are a very high impact hazard, and for a locally sourced event (e.g. Hikurangi subduction zone or local fault) there will be limited time to evacuate. Land use planning options must be considered, particularly when combined with other hazards along the coast (e.g. sea level rise, storm surge, liquefaction). The tsunami hazard overlay should not be deleted from the policy. Deletion of this provision is not an appropriate alternative to including risk tolerance, as it is important to limit development in areas at risk from natural hazards.	Disallow
Fabric Property Limited	425.39	General District wide Matters / Coastal Environment / CE-P16	Support	Supports CE-P16 as it provides for potentially hazard sensitive activities in the medium coastal hazard areas. Considers that it is difficult to provide mitigation measures in relation to tsunami risk, because of the remoteness of tsunami risk, so it is appropriate to require safe evacuation routes to address tsunami risk.	Retain CE-P16 (Potentially hazard sensitive activities) as notified.
Wellington City Council	266.114	General District wide Matters / Coastal Environment / CE-P17	Amend	Considers the policy isn't clear.	Amend CE-P17 (Hazard sensitive activities in the medium coastal hazard areas) as follows: Only allow hazard-sensitive activities in the medium coastal hazard area where , or any subdivision where the building platform for a hazard-sensitive activity will be within the medium coastal hazard area, where it can be demonstrated that: (...)

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Toka Tū Ake EQC	FS70.37	Part 2 / General District wide Matters / Coastal Environment / CE-P18	Support	Toka Tū Ake EQC consider it appropriate for terminology consistent with GRWC proposed RPS Change 1, based on standard risk based hazard management approaches, to be used throughout the WCC proposed district plan. We agree that 'minimise' natural hazard risk is a clearer instruction to bring risk in development to levels as low as reasonably practical than 'reduce' and 'reduce or do not increase'.	Allow
WCC Environmental Reference Group	377.247	General District wide Matters / Coastal Environment / CE-P18	Support	CE-P18 is supported as it is considered logical and beneficial.	Retain CE-P18 (Hazard sensitive activities and potentially hazard sensitive activities in the high coastal hazard area) as notified.
Argosy Property No. 1 Limited	383.85	General District wide Matters / Coastal Environment / CE-P18	Oppose	Opposes this provision as it is not practical to avoid hazard sensitive and potentially hazard sensitive activities in the high coastal hazard area.	Delete CE-P18 (Hazard sensitive activities and potentially hazard sensitive activities in the high coastal hazard area).
Toka Tū Ake EQC	FS70.8	Part 2 / General District wide Matters / Coastal Environment / CE-P18	Oppose	It is not appropriate to allow hazard-sensitive activities, which include emergency facilities, hospitals, major hazardous facilities and childcare, within the high coastal hazard area, not only due to the current risk but because that risk will increase in the near future due to the effects of climate change.	Disallow
Kāinga Ora Homes and Communities	391.257	General District wide Matters / Coastal Environment / CE-P18	Support in part	CE-P18 is partially supported and an amendment is sought.	Retain CE-P18 (Hazard sensitive activities and potentially hazard sensitive activities in the high coastal hazard area) with amendment.
Kāinga Ora Homes and Communities	391.258	General District wide Matters / Coastal Environment / CE-P18	Amend	Considers that CE-P18 should be amended to enable the potential for Hazard Sensitive Activities and Potentially Hazard Sensitive Activities in the High Coastal Hazard Area to be provided in some circumstances where the risks can be managed through mitigation measures.	Amend CE-P18 (Hazard sensitive activities and potentially hazard sensitive activities in the high coastal hazard area) as follows: Avoid <u>Only allow</u> Hazard sensitive activities and potentially hazard sensitive activities in the high coastal hazard area or any subdivision where the building platform for a potentially hazard sensitive activity or hazard sensitive activity will be within the high coastal hazard area where it can be demonstrated that: 1. The activity, building or subdivision has an operational or functional need to locate within the high coastal hazard area and locating outside of these high coastal hazard areas is not a practicable option; <u>or is within an existing urban area;</u> 2. The activity, building, or subdivision incorporates measures that demonstrate that it <u>reduces</u> or <u>does not increase</u> the risk to people, and property from the coastal hazard;
Toka Tū Ake EQC	FS70.64	Part 2 / General District wide Matters / Coastal Environment / CE-P18	Oppose	The category of high coastal hazard area is afforded to those areas where the level of risk from coastal hazard is such that mitigation is not sufficient to bring risk to a tolerable level. As such avoidance of subdivision and development in these areas is appropriate even within an existing urban area. Coastal hazard risk is going to increase in the near future with the impact of climate change and sea level rise, and high occupancy developments in high risk areas will expose more people to increasing risk.	Disallow
Ministry of Education	400.67	General District wide Matters / Coastal Environment / CE-P18	Support	Supports CE-P18 as proposed. The submitter considers that where educational facilities are required in these areas, appropriate mitigation measures and evacuation plans should be implemented to ensure the safety of staff, students and the community.	Retain CE-P18 (Hazard sensitive activities and potentially hazard sensitive activities in the high coastal hazard area) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Oyster Management Limited	404.95	General District wide Matters / Coastal Environment / CE-P18	Oppose in part	Opposes CE-P18 in part as the submitter considers it is not practical to avoid hazard sensitive and potentially hazard sensitive activities in the High Coastal Tsunami Hazard Area.	Amend CE-P18 (Hazard sensitive activities and potentially hazard sensitive activities in the high coastal hazard area) as follows: Avoid hazard sensitive activities and potentially hazard sensitive activities in the High Coastal Hazard area Inundation Overlay or any subdivision where the building platform for a potentially hazard sensitive activity or hazard sensitive activity will be within the High Coastal Hazard area Inundation Overlay where it can be demonstrated that: 1. The activity, building or subdivision has an operational or functional need to locate within the High Coastal Hazard area Inundation Overlay and locating outside of these high Coastal Hazard areas Inundation Overlay is not a practicable option; 2. The activity, building, or subdivision incorporates measures that demonstrate that reduce or not increase the risk to people, and property from the coastal inundation hazard; 3. There is the ability to access safe evacuation routes for occupants of the building from the coastal inundation hazard; and 4. The activity does not involve the removal or modification of a natural system or feature that provides protection to other properties from the natural hazard.
Oyster Management Limited	404.96	General District wide Matters / Coastal Environment / CE-P18	Amend	Considers it is not practical to avoid hazard sensitive and potentially hazard sensitive activities in the High Coastal Tsunami Hazard Area.	Amend CE-P18 (Hazard sensitive activities and potentially hazard sensitive activities in the high coastal hazard area) as follows: Avoid hazard sensitive activities and potentially hazard sensitive activities in the High Coastal Hazard area Inundation Overlay or any subdivision where the building platform for a potentially hazard sensitive activity or hazard sensitive activity will be within the High Coastal Hazard area Inundation Overlay where it can be demonstrated that: 1. The activity, building or subdivision has an operational or functional need to locate within the high Coastal Hazard areas Inundation Overlay and locating outside of these high Coastal Hazard areas Inundation Overlay is not a practicable option; 2. The activity, building, or subdivision incorporates measures that demonstrate that reduce or not increase the risk to people, and property from the coastal inundation hazard; 3. There is the ability to access safe evacuation routes for occupants of the building from the coastal inundation hazard; and 4. The activity does not involve the removal or modification of a natural system or feature that provides protection to other properties from the natural hazard.
Toka Tū Ake EQC	FS70.76	Part 2 / General District wide Matters / Coastal Environment / CE-P18	Oppose	It is not appropriate to allow hazard-sensitive activities, which include emergency facilities, hospitals, major hazardous facilities and childcare, within the high coastal tsunami hazard area. While the trigger of a tsunami cannot be mitigated, the consequences can be reduced through good design, evacuation planning and communication of the risk (refer to GNS guidance on land use planning which incorporates tsunami modelling).	Disallow
Fabric Property Limited	425.40	General District wide Matters / Coastal Environment / CE-P18	Oppose in part	Seeks amendment of CE-P18 to change the word “avoid” to “only allow where...”. The use of the term “avoid” is unnecessarily onerous and suggests that the establishment of Hazard-Sensitive Activities and Potentially Hazard-Sensitive Activities within the High Coastal Hazard Areas should not occur at all. The requested amendment would provide appropriate policy support to the Restricted Discretionary status in rule CE-R20. The Restricted Discretionary status is enabling of Potentially hazard sensitive activities or hazard sensitive activities in high coastal hazard areas within the City Centre Zone and this needs to be recognised with appropriate wording in the supporting policy.	Opposes CE-P18 (Hazard sensitive activities) in part and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fabric Property Limited	425.41	General District wide Matters / Coastal Environment / CE-P18	Amend	<p>Seeks amendment of CE-P18 to change the word “avoid” to “only allow where...”.</p> <p>The use of the term “avoid” is unnecessarily onerous and suggests that the establishment of Hazard-Sensitive Activities and Potentially Hazard-Sensitive Activities within the High Coastal Hazard Areas should not occur at all.</p> <p>The requested amendment would provide appropriate policy support to the Restricted Discretionary status in rule CE-R20. Wellington City Council	266.116	General District wide Matters / Coastal Environment / CE-P19	Amend	Considers the policy needs minor amendments for consistency with the rest of the chapter/plan.	<p>Amend CE-P19 (Subdivision, use and development which will not be occupied by members of the public, or employees associated with the Airport, operation port Activities, passenger port facilities and rail activities in the Coastal Hazard Overlays) as follows:</p> <p>Subdivision, use and development which will not be occupied by members of the public, or employees associated with the Airport, operational port Activities, passenger port facilities and rail activities in the Coastal Hazards Overlays</p> <p>Enable subdivision, development and use associated with the Airport, operational port activities, passenger port facilities and rail activities within the Coastal Hazard Overlays, where they do not involve the construction of new buildings which will be occupied by members of the public, or more than 10 employees associated with either of these activities or the creation of vacant allotments.</p>
Yvonne Weeber	340.41	General District wide Matters / Coastal Environment / CE-P19	Support in part	CE-P19 is generally supported, however it is unclear where the low, medium and high coastal hazard areas are on the map.	Not specified.
Royal Forest and Bird Protection Society	345.321	General District wide Matters / Coastal Environment / CE-P19	Support in part	Considers the policy should address the risks posed to people, property and infrastructure in respect of use and development and coastal hazards. As noted above, these provisions should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected	Amend CE-P19 (Subdivision, use and development which will not be occupied by members of the public, or employees associated with the Airport, operation port Activities, passenger port facilities and rail activities in the Coastal Hazards Overlays) to also address risks posed to natural character, natural landscape, and biodiversity values.
Wellington International Airport Limited	FS36.107	Part 2 / General District wide Matters / Coastal Environment / CE-P19	Oppose	<p>WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably:</p> <ol style="list-style-type: none"> 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure; 	Disallow
Greater Wellington Regional Council	351.217	General District wide Matters / Coastal Environment / CE-P19	Support	Considers this approach is appropriate.	Retain CE-P19 (Subdivision, use and development which will not be occupied by members of the public, or employees associated with the Airport, operation port Activities, passenger port facilities and rail activities in the Coastal Hazards Overlays) as notified.
WCC Environmental Reference Group	377.248	General District wide Matters / Coastal Environment / CE-P19	Support	CE-P19 is supported as it is considered logical and beneficial.	Retain CE-P19 (Subdivision, use and development which will not be occupied by members of the public, or employees associated with the Airport, operation port Activities, passenger port facilities and rail activities in the Coastal Hazards Overlays) as notified.
CentrePort Limited	402.116	General District wide Matters / Coastal Environment / CE-P19	Support in part	Supports policy, but opposes the structure of the plan managing Natural Hazards as it is confusing. There are Natural Hazards provisions in the infrastructure chapter, the Natural Hazards Chapter as well as this chapter dealing with coastal hazards in the Coastal Environment. For CentrePort related matters you potentially have to look at all three. This is considered inefficient and could lead to duplication. Of the hazards listed CentrePort has fault hazard, liquefaction, coastal inundation and tsunami (high) risk.	Seeks that all Natural Hazards provisions are consolidated in the same place or stronger cross-referencing is provided.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.328	General District wide Matters / Coastal Environment / CE-P19	Oppose	Opposes this policy. The concept of tolerability also needs to be brought into the policy, as per Objective SRCC-O2, to recognise that different activities, people, property and infrastructure will have a different tolerance to the effects of coastal hazards. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Opposes CE-P19 (Subdivision, use and development which will not be occupied by members of the public, or employees associated with the Airport, operation port Activities, passenger port facilities and rail activities in the Coastal Hazards Overlays) and seeks amendment.
Wellington International Airport Ltd	406.329	General District wide Matters / Coastal Environment / CE-P19	Amend	Opposes this policy. The concept of tolerability also needs to be brought into the policy, as per Objective SRCC-O2, to recognise that different activities, people, property and infrastructure will have a different tolerance to the effects of coastal hazards. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Either delete, or amend CE-P19 (Subdivision, use and development which will not be occupied by members of the public, or employees associated with the Airport, operation port Activities, passenger port facilities and rail activities in the Coastal Hazards Overlays) as follows: Seeks that CE-P19 (Subdivision, use and development which will not be occupied by members of the public, or employees associated with the Airport, operation port Activities, passenger port facilities and rail activities in the Coastal Hazards Overlays) is amended to only apply to the coastal inundation hazard areas and recognise the concept of tolerability.
Toka Tū Ake EQC	FS70.101	Part 2 / General District wide Matters / Coastal Environment / CE-P19	Oppose	The risk of a 1:100 year tsunami risk is classed as high despite being low probability because tsunamis are a very high impact hazard, and for a locally sourced event (e.g. Hikurangi subduction zone or local fault) there will be limited time to evacuate. Land use planning options must be considered, particularly when combined with other hazards along the coast (e.g. sea level rise, storm surge, liquefaction). The tsunami hazard overlay should not be deleted from the policy. Deletion of this provision is not an appropriate alternative to including risk tolerance, as it is important to limit development in areas at risk from natural hazards.	Disallow
KiwiRail Holdings Limited	408.100	General District wide Matters / Coastal Environment / CE-P19	Support	Supports policy that enables subdivision, development and use associated within the operational port activities, passenger port facilities and rail activities within the Coastal Hazards Overlay.	Retain CE-P19 (Subdivision, use and development which will not be occupied by members of the public, or employees associated with the Airport, operation port Activities, passenger port facilities and rail activities in the Coastal Hazards Overlays) as notified.
Guardians of the Bays	452.25	General District wide Matters / Coastal Environment / CE-P19	Not specified	Submitter is 'neutral' on provision. [Refer to original submission for full reason]	Not specified.
Yvonne Weeber	340.42	General District wide Matters / Coastal Environment / CE-P20	Support in part	CE-P20 is generally supported, however it is unclear where the low, medium and high coastal hazard areas are on the map.	Not specified.
Royal Forest and Bird Protection Society	345.322	General District wide Matters / Coastal Environment / CE-P20	Support in part	Considers the policy should address the risks posed to people, property and infrastructure in respect of use and development and coastal hazards. As noted above, these provisions should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected	Amend CE-P20 (Subdivision, use and development which will be occupied by members of the public, or employees associated with the Airport, operation port activities, passenger port facilities and rail activities in the Coastal Hazards Overlays) to also address risks posed to natural character, natural landscape, and biodiversity values.
Wellington International Airport Limited	FS36.108	Part 2 / General District wide Matters / Coastal Environment / CE-P20	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. Retain CE-P20 (Subdivision, use and development which will be occupied by members of the public, or employees associated with the Airport, operation port activities, passenger port facilities and rail activities in the Coastal Hazards Overlays) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Guardians of the Bays	452.26	General District wide Matters / Coastal Environment / CE-P20	Not specified	Submitter is 'neutral' on provision. [Refer to original submission for full reason]	Not specified.
Royal Forest and Bird Protection Society	345.323	General District wide Matters / Coastal Environment / CE-P21	Support in part	Considers the policy should address the risks posed to people, property and infrastructure in respect of use and development and coastal hazards. As noted above, these provisions should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected	Amend CE-P21 (Subdivision, use and development in the City Centre Zone which will not be occupied by members of the public and within the Coastal Hazards Overlays): Enable subdivision, development and use associated within the City Centre Zone and within all of the Coastal Hazard Overlays, where they do not involve the construction of new buildings which will be occupied by members of the public, or employees or the creation of vacant allotments.
Wellington International Airport Limited	FS36.109	Part 2 / General District wide Matters / Coastal Environment / CE-P21	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Greater Wellington Regional Council	351.219	General District wide Matters / Coastal Environment / CE-P21	Support	Considers this approach is appropriate.	Retain CE-P21 (Subdivision, use and development in the City Centre Zone which will not be occupied by members of the public and within the Coastal Hazards Overlays) as notified.
WCC Environmental Reference Group	377.250	General District wide Matters / Coastal Environment / CE-P21	Support	CE-P21 is supported as it is considered logical and beneficial.	Retain CE-P21 (Subdivision, use and development in the City Centre Zone which will not be occupied by members of the public and within the Coastal Hazards Overlays) as notified.
Argosy Property No. 1 Limited	383.86	General District wide Matters / Coastal Environment / CE-P21	Amend	Supports this provision to the extent that it enables development in the coastal hazard overlays in the City Centre zone in some instances. However, it is impractical to only enable activities in buildings which will not be occupied by employees, and this would be inconsistent with the purpose and objectives and policies in the City Centre zone. The city centre is a major employment hub and contains entertainment, educational, government and commercial activities which involve employees.	Amend CE-P21 (Subdivision, use and development in the City Centre Zone which will not be occupied by members of the public and within the Coastal Hazards Overlays): Enable subdivision, development and use associated within the City Centre Zone and within all of the Coastal Hazard Overlays, where they do not involve the construction of new buildings which will be occupied by members of the public, or employees or the creation of vacant allotments
Kāinga Ora Homes and Communities	391.259	General District wide Matters / Coastal Environment / CE-P21	Oppose	CE-P21 is opposed as notified. Considers that the policy places inappropriate restrictions on the City Centre Zone. It sought that this policy is deleted, and considered that more appropriate outcomes are achieved by CE-P22.	Delete CE-P21 (Subdivision, use and development in the City Centre Zone which will not be occupied by members of the public and within the Coastal Hazards Overlays) in its entirety.
Greater Wellington Regional Council	FS84.84	Part 2 / General District wide Matters / Coastal Environment / CE-P21	Oppose	Greater Wellington oppose the deletion of CE-P21 as this would not have regard to Proposed RPS Change 1.	Disallow / Seeks that CE-P21 is retained as notified.
Oyster Management Limited	404.97	General District wide Matters / Coastal Environment / CE-P21	Support in part	Supports the policy in that it enables development in the coastal hazard overlays in the City Centre in some instances.	Retain CE-P21 (Subdivision, use and development in the City Centre Zone which will not be occupied by members of the public and within the Coastal Hazards Overlays) with amendments.
Oyster Management Limited	404.99	General District wide Matters / Coastal Environment / CE-P21	Amend	Supports the policy in that it enables development in the coastal hazard overlays in the City Centre in some instances. However, considers it is impractical to enable only activities in buildings that will not be occupied by employees, and this would be inconsistent with the purpose and objectives and policies in the City Centre zone. The city centre is a major employment hub and contains entertainment, educational, government and commercial activities which involve employees.	Amend CE-P21 (Subdivision, use and development in the City Centre Zone which will not be occupied by members of the public and within the Coastal Hazards Overlays) as follows: Enable subdivision, development and use associated within the City Centre Zone and within all of the Coastal Hazard Overlays, where they do not involve the construction of new buildings which will be occupied by members of the public, or employees or the creation of vacant allotments."

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fabric Property Limited	425.42	General District wide Matters / Coastal Environment / CE-P21	Support in part	Supports this provision to the extent that it enables development in the coastal hazard overlays in the City Centre zone in some instances. However, it is impractical to only enable activities in buildings which will not be occupied by employees, and this would be inconsistent with the purpose and objectives and policies in the City Centre zone. The city centre is intended to be the primary centre for the region and contains entertainment, educational, government and commercial activities which involve employees.	Retain Policy CE-P21 (Subdivision), with amendment.
Fabric Property Limited	425.43	General District wide Matters / Coastal Environment / CE-P21	Amend	Supports this provision to the extent that it enables development in the coastal hazard overlays in the City Centre zone in some instances. However, it is impractical to only enable activities in buildings which will not be occupied by employees, and this would be inconsistent with the purpose and objectives and policies in the City Centre zone. The city centre is intended to be the primary centre for the region and contains entertainment, educational, government and commercial activities which involve employees.	Amend Policy CE-P21 (Subdivision) as follows: ... Enable subdivision, development and use associated within the City Centre Zone and within all of the Coastal Hazard Overlays, where they do not involve the construction of new buildings which will be occupied by members of the public, <u>or employees</u> or the creation of vacant allotments.
Wellington City Council	266.117	General District wide Matters / Coastal Environment / CE-P22	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Amend CE-P22 (Subdivision, use and development in the City Centre Zone which will be occupied by members of the public and within the Coastal Hazards Overlays) as follows: Manage subdivision, development and use within the City Centre Zone and within all of the Coastal Hazard Overlays, where they involve the construction of new buildings which will be occupied by members of the public, employees or result in the creation of a vacant allotment by ensuring that; (...)
Royal Forest and Bird Protection Society	345.324	General District wide Matters / Coastal Environment / CE-P22	Support in part	Considers the policy should address the risks posed to people, property and infrastructure in respect of use and development and coastal hazards. As noted above, these provisions should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected	Amend CE-P22 (Subdivision, use and development in the City Centre Zone which will be occupied by members of the public and within the Coastal Hazards Overlays) to also address risks posed to natural character, natural landscape, and biodiversity values.
Wellington International Airport Limited	FS36.110	Part 2 / General District wide Matters / Coastal Environment / CE-P22	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Greater Wellington Regional Council	351.220	General District wide Matters / Coastal Environment / CE-P22	Amend	Considers that amendments are necessary to have regard to the RPS Objectives 19 and 20 and Policies 51 and 52. Minimise is defined as "as low as reasonably practicable (ALARP)" and is in line with standard risk-based hazard management approaches. This leaves room for reduction as far as practicable but is a clearer signal than reduce or do not increase, to actively look to bring down the risk in the design and planning of the development.	Amend CE-P22 (Subdivision, use and development in the City Centre Zone which will be occupied by members of the public and within the Coastal Hazards Overlays) as follows: Manage subdivision, development and use within the City Centre Zone and within all of the Coastal Hazard Overlays, where they involve the construction of new buildings which will be occupied by members of the public, employees or result in the creation of a vacant allotment by ensuring that 1. The activity, building or subdivision incorporates measures that <u>minimise</u> reduce or not increase the risk to people, and property; and...

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Toka Tū Ake EQC	FS70.39	Part 2 / General District wide Matters / Coastal Environment / CE-P22	Support	Toka Tū Ake EQC consider it appropriate for terminology consistent with GRWC proposed RPS Change 1, based on standard risk based hazard management approaches, to be used throughout the WCC proposed district plan. We agree that 'minimise' natural hazard risk is a clearer instruction to bring risk in development to levels as low as reasonably practical than 'reduce' and 'reduce or do not increase'.	Allow
WCC Environmental Reference Group	377.251	General District wide Matters / Coastal Environment / CE-P22	Support	CE-P22 is supported as it is considered logical and beneficial.	Retain CE-P22 (Subdivision, use and development in the City Centre Zone which will be occupied by members of the public and within the Coastal Hazards Overlays) as notified.
Argosy Property No. 1 Limited	383.87	General District wide Matters / Coastal Environment / CE-P22	Amend	Supports this provision to the extent that it recognises that development in the coastal hazard overlays in the City Centre zone is appropriate in some instances. This is important because the CBD is a social and economic hub of Wellington and it is important to recognise the existing investment in the CBD. However, as noted above, it is difficult to provide mitigation measures in relation to tsunami risk, because of the remoteness of tsunami risk, so it is appropriate to require safe evacuation routes to address tsunami risk.	Amend CE-P22 (Subdivision, use and development in the City Centre Zone which will be occupied by members of the public and within the Coastal Hazards Overlays): Manage subdivision, development and use within the City Centre Zone and within all of the Coastal Hazard Overlays, where they involve the construction of new buildings which will be occupied by members of the public, employees or result in the creation of a vacant allotment by ensuring that 1. The activity, building or subdivision incorporates measures that reduce or not increase the risk to people, and property; and or 2. There is the ability to access safe evacuation routes for occupants of the building from the coastal hazard.
Kāinga Ora Homes and Communities	391.260	General District wide Matters / Coastal Environment / CE-P22	Support	CE-P22 is supported as notified.	Retain CE-P22 (Subdivision, use and development in the City Centre Zone which will be occupied by members of the public and within the Coastal Hazards Overlays) as notified.
Ministry of Education	400.68	General District wide Matters / Coastal Environment / CE-P22	Support	Supports CE-P22 as proposed. The submitter considers that where educational facilities are required in these areas, appropriate mitigation measures and evacuation plans should be implemented to ensure the safety of staff, students and the community.	Retain CE-P22 (Subdivision, use and development in the City Centre Zone which will be occupied by members of the public and within the Coastal Hazards Overlays) as notified.
Oyster Management Limited	404.100	General District wide Matters / Coastal Environment / CE-P22	Support in part	Supports the policy to the extent it recognises development in coastal hazard overlays in the City Centre is appropriate in some instances, given it is the social and economic hub of Wellington and there is significant existing investment in the CBD.	Retain CE-P22 (Subdivision, use and development in the City Centre Zone which will be occupied by members of the public and within the Coastal Hazards Overlays) with amendments.
Oyster Management Limited	404.101	General District wide Matters / Coastal Environment / CE-P22	Amend	Supports the policy to the extent it recognises development in coastal hazard overlays in the City Centre is appropriate in some instances, given it is the social and economic hub of Wellington and there is significant existing investment in the CBD. However, considers it is difficult to provide mitigation measures in relation to tsunami risk, because of the remoteness of tsunami risk, so it is appropriate to require safe evacuation routes to address tsunami risk.	Amend CE-P22 (Subdivision, use and development in the City Centre Zone which will be occupied by members of the public and within the Coastal Hazards Overlays): Manage subdivision, development and use within the City Centre Zone and within all of the Coastal Hazard Overlays, where they involve the construction of new buildings which will be occupied by members of the public, employees or result in the creation of a vacant allotment by ensuring that 1. The activity, building or subdivision incorporates measures that reduce or not increase the risk to people, and property; and or 2. There is the ability to access safe evacuation routes for occupants of the building from the coastal hazard
Toka Tū Ake EQC	FS70.77	Part 2 / General District wide Matters / Coastal Environment / CE-P22	Oppose	While the trigger of a tsunami cannot be mitigated, the consequences can be reduced through good design, evacuation planning and communication of the risk. A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes. It is appropriate to require measures that reduce or do not increase risk from activities within medium coastal hazard areas, as well as requiring safe tsunami evacuation routes (refer to GNS guidance on land use planning which incorporates tsunami modelling).	Disallow
Reading Wellington Properties Limited	441.2	General District wide Matters / Coastal Environment / CE-P22	Support	Supports CE-P22 as it clearly allows for development and use of sites within the City Centre Zone and within all Coastal Hazard Overlays, provided the development includes appropriate mitigation.	Retain CE-P22 (Subdivision, use and development in the City Centre Zone which will be occupied by members of the public and within the Coastal Hazards Overlays) as notified.
Yvonne Weeber	340.43	General District wide Matters / Coastal Environment / CE-P23	Support	CE-P23 is supported. The protection, restoration and enhancement of coastal natural systems and features to reduce risks posed by coastal hazards to people, property and infrastructure are supported.	Retain CE-P23 (Natural systems and features) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.325	General District wide Matters / Coastal Environment / CE-P23	Support in part	Considers the policy should address the risks posed to people, property and infrastructure in respect of use and development and coastal hazards. As noted above, these provisions should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected	Amend CE-P23 (Natural systems and features): Protect, restore, and enhance natural systems and features where they will reduce the existing risk posed by coastal hazards to people, property, and infrastructure, <u>natural character, natural landscape, and biodiversity values.</u>
Wellington International Airport Limited	FS36.111	Part 2 / General District wide Matters / Coastal Environment / CE-P23	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Greater Wellington Regional Council	351.221	General District wide Matters / Coastal Environment / CE-P23	Support	Considers this approach is appropriate.	Retain CE-P23 (Natural systems and features) as notified.
WCC Environmental Reference Group	377.252	General District wide Matters / Coastal Environment / CE-P23	Support	CE-P23 is supported as it is considered logical and beneficial.	Retain CE-P23 (Natural systems and features) as notified.
Guardians of the Bays	452.27	General District wide Matters / Coastal Environment / CE-P23	Support	Supports the protection, restoration and enhancement of coastal natural systems and features to reduce risks posed by coastal hazards to people, property and infrastructure.	Retain CE-23 (Natural systems and features) as notified.
Wellington City Council	266.118	General District wide Matters / Coastal Environment / CE-P24	Amend	Considers the policy needs minor wording change.	Amend CE-P24 (Coastal hazard mitigation works involving green infrastructure) as follows: Enable green infrastructure undertaken by a Crown entity or their nominated contractors or agents within the identified Coastal Hazard Overlay where <u>this they</u> will reduce the risk from coastal hazards to people, property and infrastructure.
Yvonne Weeber	340.44	General District wide Matters / Coastal Environment / CE-P24	Support	CE-P24 is supported. The use of green infrastructure in coastal hazard mitigation is supported.	Retain CE-P24 (Coastal hazard mitigation works involving green infrastructure) as notified.
Royal Forest and Bird Protection Society	345.326	General District wide Matters / Coastal Environment / CE-P24	Support in part	Considers the policy should address the risks posed to people, property and infrastructure in respect of use and development and coastal hazards. As noted above, these provisions should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected	Amend CE-P24 (Coastal hazard mitigation works involving green infrastructure): Enable green infrastructure undertaken by a Crown entity or their nominated contractors or agents within the identified Coastal Hazard Overlay where they will reduce the risk from coastal hazards to people, property and infrastructure, <u>natural character, natural landscape, and biodiversity values.</u>
Wellington International Airport Limited	FS36.112	Part 2 / General District wide Matters / Coastal Environment / CE-P24	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Greater Wellington Regional Council	351.222	General District wide Matters / Coastal Environment / CE-P24	Amend	Considers that amendments are required to have regard to Policy 52 in Proposed RPS Change 1. Green infrastructure has been defined in the WCC PDP with a strong focus on engineering systems that mimic natural systems, however there are other natural hazard mitigation measures that the change to the RPS directs consideration of, which aren't captured by green infrastructure. We therefore seek for this policy to be broadened.	Seeks to amend policy to include non-structural, soft engineering or mātauranga Māori approaches.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.253	General District wide Matters / Coastal Environment / CE-P24	Support	CE-P24 is supported as it is considered logical and beneficial.	Retain CE-P24 (Coastal hazard mitigation works involving green infrastructure) as notified.
Guardians of the Bays	452.28	General District wide Matters / Coastal Environment / CE-P24	Support	Supports the use of green infrastructure in coastal hazard mitigation.	Retain CE-24 (Coastal hazard mitigation works involving green infrastructure) as notified.
Royal Forest and Bird Protection Society	345.327	General District wide Matters / Coastal Environment / CE-P25	Support in part	Considers the policy should address the risks posed to people, property and infrastructure in respect of use and development and coastal hazards. As noted above, these provisions should be amended to also acknowledge the natural character, natural landscape and biodiversity values that must be protected	Amend CE-P25 (Green infrastructure and planning coastal hazard mitigation works): Encourage green infrastructure measures when undertaking planned coastal hazard mitigation works within the identified Coastal Hazard Overlays where they will reduce the risk from coastal hazards risk to people, property and infrastructure, <u>natural character, natural landscape, and biodiversity values.</u>
Wellington International Airport Limited	FS36.113	Part 2 / General District wide Matters / Coastal Environment / CE-P25	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.255	General District wide Matters / Coastal Environment / CE-P26	Support	CE-P26 is supported as it is considered logical and beneficial.	Retain CE-P26 (Hard engineering measures) as notified.
Wellington International Airport Ltd	406.332	General District wide Matters / Coastal Environment / CE-P26	Oppose	<p>The directive nature of this policy, coupled with the conjunction “and” sets an unduly onerous threshold for hard engineering measures which protect regionally significant infrastructure. It also discourages proactive maintenance and repair of hard engineering structures, as the policy pathway only triggers (due to the conjunction) when there is an ‘immediate risk to life or property’.</p> <p>Leaving such structures until the risk reaches this threshold may also result in a larger scale repair/replacement programme, resulting in larger environmental effects and costs.</p> <p>Considers that the conjunction ‘or’ should be used between each limb.</p> <p>Considers that this policy should relate to new sea walls, and not the upgrading, maintenance or repair of existing sea walls (or existing sea walls that protect existing regionally significant infrastructure).</p>	Opposes CE-P26 (Hard engineering measures) and seeks amendment.
Wellington International Airport Ltd	406.333	General District wide Matters / Coastal Environment / CE-P26	Amend	<p>The directive nature of this policy, coupled with the conjunction “and” sets an unduly onerous threshold for hard engineering measures which protect regionally significant infrastructure. It also discourages proactive maintenance and repair of hard engineering structures, as the policy pathway only triggers (due to the conjunction) when there is an ‘immediate risk to life or property’.</p> <p>Leaving such structures until the risk reaches this threshold may also result in a larger scale repair/replacement programme, resulting in larger environmental effects and costs.</p> <p>Considers that the conjunction ‘or’ should be used between each limb.</p> <p>Considers that this policy should relate to new sea walls, and not the upgrading, maintenance or repair of existing sea walls (or existing sea walls that protect existing regionally significant infrastructure).</p>	<p>Either delete, or amend CE-P26 (Hard engineering measures) as follows:</p> <p>Only allow for <u>new</u> hard engineering measures for the reduction of the risk from coastal hazards where:</p> <ol style="list-style-type: none"> 1. The engineering measures are needed to protect existing nationally and regionally significant infrastructure and it can be demonstrated that there is no practicable alternative; <u>or</u> 2. There is an immediate risk to life or private property from the coastal hazard; <u>or</u> 3. The construction of the hard engineering measures will not <u>create an intolerable</u> increase the risk from Coastal Hazards on adjacent properties that are not protected by the hard engineering measures; <u>or</u> 4. It avoids the modification or alteration of natural features and systems in a way that would compromise their function as natural defences; <u>or</u> 5. Hard engineering structures are designed to minimise adverse effects on the coastal environment; <u>and/or</u> 6. <u>Significant natural features and systems and any adverse effects are avoided; remedied or mitigated; or</u> 7. 6. It can be demonstrated that green infrastructure measures would not provide an appropriate level of protection in relation to the significance of the risk.
KiwiRail Holdings Limited	408.102	General District wide Matters / Coastal Environment / CE-P26	Support	Supports policy which recognises that, in some instances, hard engineering measures within the coastal environment are necessary to reduce an immediate risk of serious harm to property or infrastructure.	Retain CE-P26 (Hard engineering measures) as notified.
Royal Forest and Bird Protection Society	345.329	General District wide Matters / Coastal Environment / CE-R1	Support	Supports the rule.	Retain CE-R1 (Customary harvesting by tangata whenua within the coastal environment) as notified.
Meridian Energy Limited	FS101.182	Part 4 / Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Oppose	Meridian considers the wording amendments proposed by its submission point 228.120, refined where necessary to give effect to the NPS-Indigenous Biodiversity (when that is gazetted), more appropriately give effect to the RMA and higher order policy instruments.	Disallow
WCC Environmental Reference Group	377.256	General District wide Matters / Coastal Environment / CE-R1	Support	CE-R1 is supported as it is considered logical and beneficial.	Retain CE-R1 (Customary harvesting by tangata whenua within the coastal environment) as notified.
Yvonne Weeber	340.46	General District wide Matters / Coastal Environment / CE-R2	Support	CE-R2 is supported. The restoration and enhancement of the coastal environment is supported.	Retain CE-R2 (Restoration and enhancement activities within the coastal environment: 1. Outside of high coastal natural character areas; and 2. Outside of coastal and riparian margins) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.330	General District wide Matters / Coastal Environment / CE-R2	Oppose	Considers it is not clear what activity this is permitting. Either delete this PA, or include much more detail as to what is intended. Only permit activities that are consistent with the requirement to protect the coastal environment's natural character, biodiversity and landscapes. Note that all areas of natural character are required to have significant adverse effects avoided. In our view the requirements of CE-R3.1 should apply in all areas of the coastal environment. Further, as noted above, the definition of restoration is not necessarily applicable to all types of restoration.	Delete CE-R2 (Restoration and enhancement activities within the coastal environment).
Meridian Energy Limited	FS101.183	Part 4 / Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Oppose	Meridian considers the wording amendments proposed by its submission point 228.120, refined where necessary to give effect to the NPS-Indigenous Biodiversity (when that is gazetted), more appropriately give effect to the RMA and higher order policy instruments.	Disallow
Royal Forest and Bird Protection Society	345.331	General District wide Matters / Coastal Environment / CE-R2	Oppose	Considers it is not clear what activity this is permitting. Either delete this PA, or include much more detail as to what is intended. Only permit activities that are consistent with the requirement to protect the coastal environment's natural character, biodiversity and landscapes. Note that all areas of natural character are required to have significant adverse effects avoided. In our view the requirements of CE-R3.1 should apply in all areas of the coastal environment. Further, as noted above, the definition of restoration is not necessarily applicable to all types of restoration.	Clarify CE-R2 (Restoration and enhancement activities within the coastal environment) to provide more detail on intent of rule.
Meridian Energy Limited	FS101.184	Part 4 / Appendices Subpart / Appendices / APP3 Biodiversity Compensation	Oppose	Meridian considers the wording amendments proposed by its submission point 228.120, refined where necessary to give effect to the NPS-Indigenous Biodiversity (when that is gazetted), more appropriately give effect to the RMA and higher order policy instruments.	Disallow
WCC Environmental Reference Group	377.257	General District wide Matters / Coastal Environment / CE-R2	Support	CE-R2 is supported as it is considered logical and beneficial.	Retain CE-R2 (Restoration and enhancement activities within the coastal environment: Outside of high coastal natural character areas; and...) as notified.
Yvonne Weeber	340.47	General District wide Matters / Coastal Environment / CE-R3	Support	CE-R3 is supported. The restoration and enhancement of the coastal environment is supported.	Retain CE-R3 (Restoration and enhancement activities within the coastal environment: 1. Within high coastal natural character areas; or 2. Within coastal or riparian margins) as notified.
Royal Forest and Bird Protection Society	345.332	General District wide Matters / Coastal Environment / CE-R3	Support in part	Considers these requirements should apply in all areas of the coastal environment, as well as in riparian margins	Amend CE-R3 (Restoration and enhancement activities within the coastal environment) to apply in all areas of the coastal environment and riparian margins.
WCC Environmental Reference Group	377.258	General District wide Matters / Coastal Environment / CE-R3	Support	CE-R3 is supported as it is considered logical and beneficial.	Retain CE-R3 (Restoration and enhancement activities within the coastal environment: Within high coastal natural character areas; or...) as notified.
Horokiwi Quarries Ltd	271.49	General District wide Matters / Coastal Environment / CE-R4	Support	Supports a permitted activity rule (with no controls) for vegetation trimming or removal noting that vegetation trimming or removal within an SNA within the CE is managed under the ECO chapter of the PDP.	Retain CE-R4 (Vegetation trimming or removal within the coastal environment, outside of high coastal natural character areas) as notified.
Fire and Emergency New Zealand	273.142	General District wide Matters / Coastal Environment / CE-R4	Support	Supports the rule as it permits the trimming or removal of vegetation within the coastal environment.	Retain CE-R4 (Vegetation trimming or removal within the coastal environment, outside of high natural character areas) as notified.
Yvonne Weeber	340.48	General District wide Matters / Coastal Environment / CE-R4	Oppose	CE-R4 is opposed, as it generally make vegetation trimming and removal permitted. Coastal environment vegetation takes a long time to grow in extreme environments and needs to have a higher level of protection than what is being proposed in the Plan.	Not specified.
Royal Forest and Bird Protection Society	345.333	General District wide Matters / Coastal Environment / CE-R4	Oppose	Opposes this rule, given the requirement in policy 13 NZCPS to avoid significant adverse effects on all areas of natural character. It is also unclear why this rule does not exclude significant natural areas, as the other rules in this part do. Vegetation outside SNAs is also important for the maintenance of biodiversity. Seeks that this PA is deleted.	Delete CE-R4 (Vegetation trimming or removal within the coastal environment, outside of high coastal natural character areas).
WCC Environmental Reference Group	377.259	General District wide Matters / Coastal Environment / CE-R4	Support	CE-R4 is supported as it is considered logical and beneficial.	Retain CE-R4 (Vegetation trimming or removal within the coastal environment, outside of high coastal natural character areas) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.334	General District wide Matters / Coastal Environment / CE-R4	Oppose	CE-R4 is inefficient and should be addressed to the extent relevant within the underlying zone provisions.	Delete CE-R4 (Vegetation trimming or removal within the coastal environment, outside of high coastal natural character areas) in it's entirety.
Fire and Emergency New Zealand	273.143	General District wide Matters / Coastal Environment / CE-R5	Support	Supports the rule as it permits the trimming or removal of vegetation within the coastal environment.	Retain CE-R5 (Exotic vegetation trimming or removal within the coastal environment, within high coastal natural character areas but outside of a significant natural area) as notified.
Yvonne Weeber	340.49	General District wide Matters / Coastal Environment / CE-R5	Oppose	CE-R5 is opposed, as it generally make vegetation trimming and removal permitted. Coastal environment vegetation takes a long time to grow in extreme environments and needs to have a higher level of protection than what is being proposed in the Plan.	Not specified.
Royal Forest and Bird Protection Society	345.334	General District wide Matters / Coastal Environment / CE-R5	Oppose	Considers exotic vegetation can form part of natural character, and can also contribute to the maintenance of biodiversity. We therefore seek that this PA is deleted.	Delete CE-R5 (Exotic vegetation trimming or removal within the coastal environment, within high coastal natural character areas but outside of an significant natural area).
WCC Environmental Reference Group	377.260	General District wide Matters / Coastal Environment / CE-R5	Support	CE-R5 is supported as it is considered logical and beneficial.	Retain CE-R5 (Exotic vegetation trimming or removal within the coastal environment, within high coastal natural character areas but outside of an significant natural area) as notified.
Fire and Emergency New Zealand	273.144	General District wide Matters / Coastal Environment / CE-R6	Support	Supports the rule as it permits the trimming or removal of vegetation within the coastal environment.	Retain CE-R6 (Indigenous vegetation trimming or removal within the coastal environment, within high coastal natural character areas but outside of significant natural area) as notified.
Yvonne Weeber	340.50	General District wide Matters / Coastal Environment / CE-R6	Oppose	CE-R6 is opposed, as it generally make vegetation trimming and removal permitted. Coastal environment vegetation takes a long time to grow in extreme environments and needs to have a higher level of protection than what is being proposed in the Plan.	Not specified.
Royal Forest and Bird Protection Society	345.335	General District wide Matters / Coastal Environment / CE-R6	Support in part	<p>Considers that if there are to be PAs for vegetation removal or trimming in the coastal environment, it is appropriate that there are standards that apply to that permitted activity. We therefore seek that this rule applies more broadly to the whole coastal environment, outside of SNAs (and that the activities managed by R4 and R5 are instead managed by this PA).It should also apply to exotic vegetation.</p> <p>In terms of the requirements of CE-S1: We support the general 50m2 limit.</p> <p>The exemption in c. would allow for a large amount of vegetation removal, and we seek that it is brought into line with the 10m distance in the ECO rules.</p> <p>In terms of the assessment criteria, we oppose this being limited to 'identified' coastal natural character values, particularly in the context of this plan only identifying areas of high natural character.</p> <p>We also seek that biodiversity values are part of the assessment criteria. This is because of the absence of provisions to maintain biodiversity outside of SNAs in the ECO chapter.</p>	<p>Amend CE-R6 (Indigenous vegetation trimming or removal within the coastal environment, within high coastal natural character areas but outside of significant natural area):</p> <p>1. Activity status: Permitted Where: a. Compliance with CE-S1 is achieved [amend exemption in CE-S1.c to 10m]</p> <p>2. Activity status: Restricted Discretionary Where: a. Compliance with the requirements of CE-R6.1.a cannot be achieved.</p> <p>Matters of discretion are: 1. The extent and effect of non-compliance with any relevant standard as specified in the associated assessment criteria for the infringed standard; and 2. The matters in CE-P8 [note proposed deletion of "identified" values in the policy] 3. Biodiversity values.</p>
Royal Forest and Bird Protection Society	345.336	General District wide Matters / Coastal Environment / CE-R6	Support in part	Considers the matters of discretion should cross reference the new ECO policy (sought above) aimed at the maintenance of biodiversity outside of SNAs. It should also refer to the new policy (sought above) to ensure that policy 11 NZCPS is given effect to, outside of SNAs. It should also reference relevant ECO policies.	<p>Amend CE-R6 (Indigenous vegetation trimming or removal within the coastal environment, within high coastal natural character areas but outside of significant natural area):</p> <p>2. Activity status: Restricted Discretionary Where: a. Compliance with the requirements of CE-R6.1.a cannot be achieved.</p> <p>Matters of discretion are: 1. The extent and effect of non-compliance with any relevant standard as specified in the associated assessment criteria for the infringed standard; and 2. The matters in CE-P8 [add cross reference to relevant ECO policies, new policy ECO-PX relating to maintenance of biodiversity outside Significant Natural Areas and new policy CE-PX relating to giving effect to policy 11 of NZ Coastal Policy statement outside of Significant Natural Areas]</p>
Waka Kotahi	370.202	General District wide Matters / Coastal Environment / CE-R6	Support	Support permitted activity standard for indigenous vegetation removal subject to compliance with CE-S1 as it provides for removal of indigenous vegetation as a permitted activity where it is necessary for the safe and efficient operation of any formed public road	Retain CE-R6 (Indigenous vegetation trimming or removal within the coastal environment, within high coastal natural character areas but outside of significant natural area) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.261	General District wide Matters / Coastal Environment / CE-R6	Support	CE-R6 is supported as it is considered logical and beneficial.	Retain CE-R6 (Indigenous vegetation trimming or removal within the coastal environment, within high coastal natural character areas but outside of significant natural area) as notified.
Director-General of Conservation	385.66	General District wide Matters / Coastal Environment / CE-R6	Oppose	The rule CE-R6 needs to be aligned with the wording of Policy 11 of the NZCPS and should be amended.	Opposes rule CE-R6 (Indigenous vegetation trimming or removal within the coastal environment, within high coastal natural character areas but outside of significant natural area) in its current form and seeks amendment.
Director-General of Conservation	385.67	General District wide Matters / Coastal Environment / CE-R6	Amend	The rule CE-R6 needs to be aligned with the wording of Policy 11 of the NZCPS and should be amended. Submitter requests the wording under this rule and standard are amended to be in line with Policy 11 of the NZCPS which seeks to: <ul style="list-style-type: none"> • avoid adverse effects of activities on indigenous ecosystems and vegetation types that are threatened in the coastal environment, or are naturally rare; and • avoid significant adverse effects and avoid, remedy or mitigate other adverse effects of activities on areas of predominantly indigenous vegetation in the coastal environment; and • avoid adverse effects of activities on indigenous taxa that are listed as threatened or at risk in the New Zealand Threat Classification System lists; and • avoid adverse effects of activities on habitats of indigenous species where the species are at the limit of their natural range, or are naturally rare. 	Seeks to amend the CE-R6 (Indigenous vegetation trimming or removal within the coastal environment, within high coastal natural character areas but outside of significant natural area) to be aligned with Policy 11 of the NZCPS. To ensure the rules/standards do not impact the following as a Permitted Activity: threatened or naturally rare vegetation types, threatened or at risk indigenous species, and the habitats of indigenous species.
Yvonne Weeber	340.51	General District wide Matters / Coastal Environment / CE-R7	Oppose	CE-R7 is opposed as it is generally very permissive for a list of activities that have not been listed in the plan.	Not specified.
Royal Forest and Bird Protection Society	345.337	General District wide Matters / Coastal Environment / CE-R7	Oppose	Considers it is generally inappropriate to have PAs in the coastal environment, particularly in the context of a plan that only identifies high natural character areas. This does not give effect to policy 13 NZCPS. Seeks that this PA is deleted.	Delete CE-R7 (Any activity not otherwise listed as permitted, restricted discretionary, discretionary or non-complying within the coastal environment but: Outside of high coastal natural character areas; and Outside of coastal or riparian margins).
Royal Forest and Bird Protection Society	345.338	General District wide Matters / Coastal Environment / CE-R7	Oppose	Considers RD may be more appropriate. Ensure that the matters of discretion refer to a broader range of policies than only CE P2 and P10. Those policies are very narrow, and do not allow the decision maker adequate scope to consider the effects. Because it is unclear what activity will be considered under this rule, the matters of discretion may need to reference all the policies of the CE chapter, and also the ECO chapter.	Amend CE-R7 (Any activity not otherwise listed as permitted, restricted discretionary, discretionary or non-complying within the coastal environment but: Outside of high coastal natural character areas; and Outside of coastal or riparian margins): 1. Activity status: Permitted <u>Restricted Discretionary</u> Where: Compliance is achieved with the rules and standards for activities in the underlying zones. Matters of discretion: <u>1. The matters in CE-P1 to CE-P26, and ECO-P1 to ECO-P7.</u>
Wellington International Airport Limited	FS36.115	Part 2 / General District wide Matters / Coastal Environment / CE-R7	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Greater Wellington Regional Council	351.225	General District wide Matters / Coastal Environment / CE-R7	Amend	Considers that provision has been made to control subdivision, use and development, however, we consider amendment would give effect fully to Policy 3 of the Operative RPS and support plan users by providing clarification and assisting interpretation.	Amend CE-R7.2 (Any activity not otherwise listed as permitted, restricted discretionary, discretionary or non-complying within the coastal environment but: Outside of high coastal natural character areas; and Outside of coastal or riparian margins) by Adding reference to the use of design guides to support implementation.
WCC Environmental Reference Group	377.262	General District wide Matters / Coastal Environment / CE-R7	Support	CE-R7 is supported as it is considered logical and beneficial.	Retain CE-R7 (Any activity not otherwise listed as permitted, restricted discretionary, discretionary or non-complying within the coastal environment but: Outside of high coastal natural character areas; and...) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.335	General District wide Matters / Coastal Environment / CE-R7	Oppose	This rule is inefficient and does not relate to effects management within the Coastal Environment. Instead, the triggers are non-compliance with rules or standards of the underlying land use zone. Considers that this rule should be deleted. If consideration of coastal environment provisions is relevant to a restricted discretionary activity within the underlying land use zone, this should instead be referenced within those matters of discretion. [See paragraphs 4.30 to 4.31 and 4.48 of original submission for full reason]	Delete CE-R7 (Any activity not otherwise listed as permitted, restricted discretionary, discretionary or non-complying within the coastal environment) in it's entirety.
Yvonne Weeber	340.52	General District wide Matters / Coastal Environment / CE-R8	Oppose	CE-R8 is opposed as it is generally very permissive for a list of activities that have not been listed in the plan.	Not specified.
Royal Forest and Bird Protection Society	345.339	General District wide Matters / Coastal Environment / CE-R8	Oppose	Opposed to PA status for activities in the coastal environment within coastal or riparian margins. In our view, it would be more appropriate to apply discretionary or noncomplying status to this activity in all zones.	Amend CE-R8 (Any activity not otherwise listed as permitted, restricted discretionary or non-complying within the coastal environment, within coastal or riparian margins): 1. Activity status: Permitted Discretionary
Wellington International Airport Limited	FS36.116	Part 2 / General District wide Matters / Coastal Environment / CE-R8	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
Royal Forest and Bird Protection Society	345.340	General District wide Matters / Coastal Environment / CE-R8	Oppose	If a RD rule is to remain for certain zones, it should reference more policies aimed at protecting natural character and maintaining and protecting biodiversity.	Amend CE-R8 (Any activity not otherwise listed as permitted, restricted discretionary or non-complying within the coastal environment, within coastal or riparian margins): 1. Activity status: Permitted Where: a. Compliance is achieved with the rules and standards for land use activities in the underlying zones. 2. Activity status: Restricted Discretionary Where: Compliance with the requirements of CE-R8.1.a cannot be achieved. Matters of discretion are: The matters in CE-P6, PA-P1, PA-P2 and PA-P3 [and all other policies protecting natural character and maintaining and protecting biodiversity].
Wellington International Airport Limited	FS36.117	Part 2 / General District wide Matters / Coastal Environment / CE-R8	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.263	General District wide Matters / Coastal Environment / CE-R8	Support	CE-R8 is supported as it is considered logical and beneficial.	Retain CE-R8 (Any activity not otherwise listed as permitted, restricted discretionary or non-complying within the coastal environment, within coastal or riparian margins) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.336	General District wide Matters / Coastal Environment / CE-R8	Oppose	This rule is inefficient and does not relate to effects management within the Coastal Environment. Instead, the triggers are non-compliance with rules or standards of the underlying land use zone. Considers that this rule should be deleted. If consideration of coastal environment provisions is relevant to a restricted discretionary activity within the underlying land use zone, this should instead be referenced within those matters of discretion. [See paragraphs 4.30 to 4.31 and 4.48 of original submission for full reason]	Delete CE-R8 (Any activity not otherwise listed as permitted, restricted discretionary or non-complying within the coastal environment, within coastal or riparian margins) in it's entirety.
Yvonne Weeber	340.53	General District wide Matters / Coastal Environment / CE-R9	Oppose	CE-R9 is opposed as it is generally very permissive for a list of activities that have not been listed in the plan.	Not specified.
Royal Forest and Bird Protection Society	345.341	General District wide Matters / Coastal Environment / CE-R9	Oppose	Seeks to amend to non-complying status.	Amend CE-R9 (Any activity not otherwise listed as permitted, restricted discretionary or discretionary within the coastal environment, within high coastal natural character areas): 1. Activity status: Discretionary <u>Non-complying</u>
Wellington International Airport Limited	FS36.118	Part 2 / General District wide Matters / Coastal Environment / CE-R9	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.264	General District wide Matters / Coastal Environment / CE-R9	Support	CE-R9 is supported as it is considered logical and beneficial.	Retain CE-R9 (Any activity not otherwise listed as permitted, restricted discretionary or discretionary within the coastal environment, within high coastal natural character areas) as notified.
Horokiwi Quarries Ltd	271.50	General District wide Matters / Coastal Environment / CE-R10	Support	Supports rule CE-R10 and in particular the restricted discretionary activity status.	Retain CE-R10 (Extension of existing mining and quarrying activities within the coastal environment) as notified.
Yvonne Weeber	340.54	General District wide Matters / Coastal Environment / CE-R10	Oppose	CE-R10 is opposed as it relates to the mining and quarrying activities within the coastal environment, which is generally opposed.	Not specified.
Horokiwi Quarries Limited	FS28.13	Part 2 / General District wide Matters / Coastal Environment / CE-R10	Oppose	The relief sought by the submitter is not clear. Rule CE-R10 provides a restricted discretionary activity and non-complying activity status and therefore provides a consenting and assessment process and framework.	Disallow
Royal Forest and Bird Protection Society	345.342	General District wide Matters / Coastal Environment / CE-R10	Oppose	Considers the activity should be non-complying, particularly in the context of this Plan's approach of only identifying high natural character areas, and the requirements of policy 13 NZCPS.	Amend CE-R10 (Extension of existing mining and quarrying activities within the coastal environment): 1. Activity status: Restricted Discretionary <u>Non-complying</u>
Horokiwi Quarries Limited	FS28.9	Part 2 / General District wide Matters / Coastal Environment / CE-R10	Oppose	The PDP restricted discretionary activity status is supported and provides an appropriate framework in which to consider the effects of existing quarry and mining activities.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Limited	FS36.119	Part 2 / General District wide Matters / Coastal Environment / CE-R10	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.265	General District wide Matters / Coastal Environment / CE-R10	Amend	CE-R10 is supported as it is considered logical and beneficial.	Amend CE-R10 (Extension of existing mining and quarrying activities within the coastal environment) to add the following matter of discretion: <u>“the long-term emissions profile of such an activity, in particular the impact of such an emissions profile on future generations.”</u>
Horokiwi Quarries Limited	FS28.10	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC01	Oppose	The matter is not an appropriate matter of discretion. It is not clear if the matter is restricted to the activity itself or the end use to the extracted material.	Disallow
Yvonne Weeber	340.55	General District wide Matters / Coastal Environment / CE-R11	Oppose	CE-R11 is opposed as it relates to the mining and quarrying activities within the coastal environment, which is generally opposed.	Not specified.
Horokiwi Quarries Limited	FS28.14	Part 2 / General District wide Matters / Coastal Environment / CE-R11	Oppose	The relief sought by the submitter is not clear. Rule CE-R11 provides a NC activity status and therefore provides a consenting and assessment process and framework.	Disallow
Royal Forest and Bird Protection Society	345.343	General District wide Matters / Coastal Environment / CE-R11	Support	Supports the rule.	Retain CE-R11 (New quarrying and mining activities and new plantation forestry within the coastal environment) as notified.
Wellington International Airport Limited	FS36.120	Part 2 / General District wide Matters / Coastal Environment / CE-R11	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.266	General District wide Matters / Coastal Environment / CE-R11	Amend	CE-R11 is supported as it is considered logical and beneficial.	Amend the activity status of CE-R11 (New quarrying and mining activities and new plantation forestry within the coastal environment) to prohibited.
Horokiwi Quarries Limited	FS28.11	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-PREC02	Oppose	The non-complying activity status within the PDP is supported and provides a comprehensive assessment framework in which to consider new quarry and mining activities. A prohibited activity status would not allow for consideration of the nature of the activity or environment in which it is proposed.	Disallow
Yvonne Weeber	340.56	General District wide Matters / Coastal Environment / CE-R12	Oppose	CE-R12 is generally supported, but it is unclear where the Low Coastal Hazard Area, Medium Coastal Hazard Area and the High Coastal Hazard Area are in the coastal environment. These terms do not appear on the Wellington City Proposed District Plan maps. Submission may be amended in the future.	Retain CE-R12 (Construction, addition or alteration of buildings and structures, within the coastal environment: 1. Outside of high coastal natural character areas; and 2. Outside of coastal and riparian margins) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.344	General District wide Matters / Coastal Environment / CE-R12	Oppose	Considers it inappropriate to have PAs for activities that may have significant adverse effects on natural character, i.e. outside the identified high natural character areas. Delete this PA. Ensure that the RD matters of discretion reference policies aimed at protecting natural character and maintaining and protecting biodiversity.	Amend CE-R12 (Construction, addition or alteration of buildings and structures, within the coastal environment outside of high coastal natural character areas; and outside of coastal and riparian margins): 1. Activity status: Permitted Where: a. Compliance is achieved with the rules and standards for buildings and structures in the underlying zones. 2. Activity status: Restricted Discretionary Where: a. Compliance with the requirements of CE R12.1.a cannot be achieved. Matters of discretion are: 1. The matters in CE-P2, PA-P1, PA-P2 and PA-P3 <u>[add references to policies protecting natural character and maintaining and protecting indigenous biodiversity]</u> .
Wellington International Airport Limited	FS36.121	Part 2 / General District wide Matters / Coastal Environment / CE-R12	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.267	General District wide Matters / Coastal Environment / CE-R12	Support	CE-R12 is supported as it is considered logical and beneficial.	Retain CE-R12 (Construction, addition or alteration of buildings and structures, within the coastal environment: Outside of high coastal natural character areas; and...) as notified.
Kāinga Ora Homes and Communities	391.261	General District wide Matters / Coastal Environment / CE-R12	Oppose in part	CE-R12 is opposed as it stands and should be redrafted.	Opposes CE-R12 (Construction, addition or alteration of buildings and structures, within the coastal environment: - Outside of high coastal natural character areas; and - Outside of coastal and riparian margins.) and seeks amendment.
Kāinga Ora Homes and Communities	391.262	General District wide Matters / Coastal Environment / CE-R12	Amend	Considers that CE-R12 should be redrafted to include permitted activity criteria which relate to the coastal environment, and the outcomes of this chapter which are trying to be achieved. The permitted activity criteria relate to the development standards of the underlying zoning as opposed to any coastal environment criteria. As such, it is not clear what this rule is trying to achieve until the matters of discretion are applied.	Seeks that CE-R12 (Construction, addition or alteration of buildings and structures, within the coastal environment: - Outside of high coastal natural character areas; and - Outside of coastal and riparian margins.) is redrafted to include permitted activity criteria which relate to the coastal environment, and the outcomes of this chapter which are trying to be achieved.
Ministry of Education	400.69	General District wide Matters / Coastal Environment / CE-R12	Support	Supports CE-R12 as the submitter supports the permitted activity standards and matters of discretion as proposed.	Retain CE-R12 (Construction, addition or alteration of buildings and structures, within the coastal environment: Outside of high coastal natural character area...) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.337	General District wide Matters / Coastal Environment / CE-R12	Oppose	<p>This rule is inefficient and does not relate to effects management within the Coastal Environment. Instead, the triggers are non-compliance with rules or standards of the underlying land use zone.</p> <p>Considers that this rule should be deleted. If consideration of coastal environment provisions is relevant to a restricted discretionary activity within the underlying land use zone, this should instead be referenced within those matters of discretion.</p> <p>Considers that the matters of discretion listed under CE-R12 include policies relating to Public Access along coastal margins. This rule does not apply to coastal margins.</p> <p>[See paragraphs 4.30 to 4.31 and 4.48 of original submission for full reason]</p>	Delete CE-R12 (Construction, addition or alteration of buildings and structures, within the coastal environment) in it's entirety.
Fabric Property Limited	425.44	General District wide Matters / Coastal Environment / CE-R12	Support	<p>Properties at 1 Grey Street, 20 Customhouse Quay, 215 Lambton Quay and 33 Customhouse Quay are also located in the coastal environment.</p> <p>Supports enabling construction, additions or alterations to buildings in the coastal environment as a permitted activity, or otherwise as a restricted discretionary activity where there is non-compliance with the zone. It is appropriate to enable development in the coastal environment that consolidates existing urban areas, consistent with CE-P2.</p>	Retain CE-R12 (Construction, addition or alteration of buildings) as notified.
Fire and Emergency New Zealand	273.145	General District wide Matters / Coastal Environment / CE-R13	Support	Supports the rule as the rule framework for the construction, addition, or alteration of buildings and structures within the coastal environment does not hinder FENZ's ability to establish fire stations within the coastal environment.	Retain CE-R13 (Construction, addition, or alteration of buildings and structures within the coastal environment, within high coastal natural character areas) as notified.
Yvonne Weeber	340.57	General District wide Matters / Coastal Environment / CE-R13	Support	CE-R13 is generally supported, but it is unclear where the Low Coastal Hazard Area, Medium Coastal Hazard Area and the High Coastal Hazard Area are in the coastal environment. These terms do not appear on the Wellington City Proposed District Plan maps. Submission may be amended in the future.	Retain CE-R13 (Construction, addition or alteration of buildings and structures within the coastal environment, within high coastal natural character areas) as notified.
Royal Forest and Bird Protection Society	345.345	General District wide Matters / Coastal Environment / CE-R13	Support in part	Seeks extension this rule to apply anywhere in the coastal environment, because of the requirements of policy 13 NZCPS in respect of all areas of natural character. Matters of discretion should reference policies that are aimed at the protection of natural character in the coastal environment, not only in high natural character areas, as well as policies aimed at protecting and maintaining biodiversity	<p>Amend CE-R13 (Construction, addition or alteration of buildings and structures within the coastal environment, within high coastal natural character areas):</p> <p>...</p> <p>Matters of discretion are:</p> <p>1. The matters in CE-P2, PA-P1, PA-P2 and PA-P3 [add references to policies protecting natural character and maintaining and protecting indigenous biodiversity]...</p>
Wellington International Airport Limited	FS36.122	Part 2 / General District wide Matters / Coastal Environment / CE-R13	Oppose	<p>WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably:</p> <ol style="list-style-type: none"> 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure; 	Disallow
WCC Environmental Reference Group	377.268	General District wide Matters / Coastal Environment / CE-R13	Support	CE-R13 is supported as it is considered logical and beneficial.	Retain CE-R13 (Construction, addition or alteration of buildings and structures within the coastal environment, within high coastal natural character areas) as notified.
Fire and Emergency New Zealand	273.146	General District wide Matters / Coastal Environment / CE-R14	Support	Supports the rule as the rule framework for the construction, addition, or alteration of buildings and structures within the coastal environment does not hinder FENZ's ability to establish fire stations within the coastal environment.	Retain CE-R14 (Additions and alterations to existing buildings and structures within the coastal environment: within coastal or riparian margins) as notified.
Yvonne Weeber	340.58	General District wide Matters / Coastal Environment / CE-R14	Support	CE-R14 is generally supported, but it is unclear where the Low Coastal Hazard Area, Medium Coastal Hazard Area and the High Coastal Hazard Area are in the coastal environment. These terms do not appear on the Wellington City Proposed District Plan maps. Submission may be amended in the future.	<p>Retain CE-R14 (Additions and alterations to existing buildings and structures within in the coastal environment:</p> <p>- Within coastal or riparian margins) as notified.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.346	General District wide Matters / Coastal Environment / CE-R14	Oppose	Considers it is inappropriate to be managed by a PA. Delete the PA. Matters of discretion should reference policies that are aimed at the protection of natural character in the coastal environment, not only in high natural character areas, as well as policies aimed at protecting and maintaining biodiversity.	Amend CE-R14 (Additions and alterations to existing buildings and structures within in the coastal environment within coastal or riparian margins): 1. Activity status: Permitted Where: a. Compliance is achieved with the rules and standards for buildings and structures in the underlying zones. 2. Activity status: Restricted Discretionary Where: Compliance with the requirements of CE R14.1.a cannot be achieved; Matters of discretion are: The matters in CE-P2, PA-P1, PA-P2 and PA-P3 [add references to policies protecting natural character and maintaining and protecting indigenous biodiversity]
Wellington International Airport Limited	FS36.123	Part 2 / General District wide Matters / Coastal Environment / CE-R14	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.269	General District wide Matters / Coastal Environment / CE-R14	Support	CE-R14 is supported as it is considered logical and beneficial.	Retain CE-R14 (Additions and alterations to existing buildings and structures within in the coastal environment: Within coastal or riparian margins) as notified.
Kāinga Ora Homes and Communities	391.263	General District wide Matters / Coastal Environment / CE-R14	Oppose in part	CE-R14 is opposed as it stands and should be redrafted.	Opposes CE-R14 (Additions and alterations to existing buildings and structures within in the coastal environment: - Within coastal or riparian margins) and seeks amendment.
Kāinga Ora Homes and Communities	391.264	General District wide Matters / Coastal Environment / CE-R14	Amend	Considers that CE-R14 should be redrafted to include permitted activity criteria which relate to the coastal environment, and the outcomes of this chapter which are trying to be achieved. The permitted activity criteria relate to the development standards of the underlying zoning as opposed to any coastal environment criteria. As such, it is not clear what this rule is trying to achieve until the matters of discretion are applied.	Seeks that CE-R14 (Additions and alterations to existing buildings and structures within in the coastal environment: - Within coastal or riparian margins) is redrafted to include permitted activity criteria which relate to the coastal environment, and the outcomes of this chapter which are trying to be achieved.
Wellington International Airport Ltd	406.338	General District wide Matters / Coastal Environment / CE-R14	Oppose	This rule is inefficient and does not relate to effects management within the Coastal Environment. Instead, the triggers are non-compliance with rules or standards of the underlying land use zone. Considers that this rule should be deleted. If consideration of coastal environment provisions is relevant to a restricted discretionary activity within the underlying land use zone, this should instead be referenced within those matters of discretion. [See paragraphs 4.30 to 4.31 and 4.48 of original submission for full reason]	Delete CE-R14 (Additions and alterations to existing buildings and structures within in the coastal environment) in it's entirety.
Fire and Emergency New Zealand	273.147	General District wide Matters / Coastal Environment / CE-R15	Support	Supports the rule as the rule framework for the construction, addition, or alteration of buildings and structures within the coastal environment does not hinder FENZ's ability to establish fire stations within the coastal environment.	Retain CE-R15 (Construction of new buildings and structures within the coastal environment and within coastal or riparian margins) as notified.
Yvonne Weeber	340.59	General District wide Matters / Coastal Environment / CE-R15	Support	CE-R15 is generally supported, but it is unclear where the Low Coastal Hazard Area, Medium Coastal Hazard Area and the High Coastal Hazard Area are in the coastal environment. These terms do not appear on the Wellington City Proposed District Plan maps. Submission may be amended in the future.	Retain CE-R15 (Construction of new buildings and structures within in the coastal environment and within coastal or riparian margins) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.347	General District wide Matters / Coastal Environment / CE-R15	Oppose	Considers it is inappropriate to be managed by a PA. Delete the PA. Matters of discretion should reference policies that are aimed at the protection of natural character in the coastal environment, not only in high natural character areas, as well as policies aimed at protecting and maintaining biodiversity.	Amend CE-R15 (Construction of new buildings and structures within in the coastal environment and within coastal or riparian margins): 1. Activity status: Permitted Where: a. Compliance is achieved with the rules and standards for buildings and structures in the underlying zones. 2. Activity status: Restricted Discretionary Where: a. Compliance with the requirements of CE-R15.1.a cannot be achieved. Matters of discretion are: The matters in CE-P7, PA-P1, PA-P2 and PA-P3 <u>[add references to policies protecting natural character and maintaining and protecting indigenous biodiversity]</u>
Wellington International Airport Limited	FS36.124	Part 2 / General District wide Matters / Coastal Environment / CE-R15	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.270	General District wide Matters / Coastal Environment / CE-R15	Support	CE-R15 is supported as it is considered logical and beneficial.	Retain CE-R15 (Construction of new buildings and structures within in the coastal environment and within coastal or riparian margins) as notified.
Kāinga Ora Homes and Communities	391.265	General District wide Matters / Coastal Environment / CE-R15	Oppose in part	CE-R15 is opposed as it stands and should be redrafted.	Opposes CE-R15 (Construction of new buildings and structures within in the coastal environment and within coastal or riparian margins) and seeks amendment.
Kāinga Ora Homes and Communities	391.266	General District wide Matters / Coastal Environment / CE-R15	Amend	Considers that CE-R15 should be redrafted to include permitted activity criteria which relate to the coastal environment, and the outcomes of this chapter which are trying to be achieved. The permitted activity criteria relate to the development standards of the underlying zoning as opposed to any coastal environment criteria. As such, it is not clear what this rule is trying to achieve until the matters of discretion are applied.	Seeks that CE-R15 (Construction of new buildings and structures within in the coastal environment and within coastal or riparian margins) is redrafted to include permitted activity criteria which relate to the coastal environment, and the outcomes of this chapter which are trying to be achieved.
Ministry of Education	400.70	General District wide Matters / Coastal Environment / CE-R15	Support	Supports CE-R15 as the submitter supports the permitted activity standards and matters of discretion as proposed.	Retain CE-R15 (Construction of new buildings and structures within in the coastal environment and within coastal or riparian margins) as notified.
Wellington International Airport Ltd	406.339	General District wide Matters / Coastal Environment / CE-R15	Oppose	This rule is inefficient and does not relate to effects management within the Coastal Environment. Instead, the triggers are non-compliance with rules or standards of the underlying land use zone. Considers that this rule should be deleted. If consideration of coastal environment provisions is relevant to a restricted discretionary activity within the underlying land use zone, this should instead be referenced within those matters of discretion. [See paragraphs 4.30 to 4.31 and 4.48 of original submission for full reason]	Delete CE-R15 (Construction of new buildings and structures within in the coastal environment and within coastal or riparian margins) in it's entirety.
Yvonne Weeber	340.60	General District wide Matters / Coastal Environment / CE-R16	Support	CE-R16 is generally supported, but it is unclear where the Low Coastal Hazard Area, Medium Coastal Hazard Area and the High Coastal Hazard Area are in the coastal environment. These terms do not appear on the Wellington City Proposed District Plan maps. Submission may be amended in the future.	Retain CE-R16 (Less hazard sensitive activities within all the Coastal Hazard Overlays) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.348	General District wide Matters / Coastal Environment / CE-R16	Support in part	Considers the provisions of this chapter should also acknowledge the natural character, natural landscape and biodiversity values that must be protected. Ensure rules either cross reference appropriate provisions from other chapters, or include provisions to address adverse effects on these matters	Amend CE-R16 (Less hazard sensitive activities within all the Coastal Hazard Overlays) to acknowledge natural character, natural landscape, and biodiversity values are protected via reference to appropriate provisions from other chapters or by including provisions in the rule.
Wellington International Airport Limited	FS36.125	Part 2 / General District wide Matters / Coastal Environment / CE-R16	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.271	General District wide Matters / Coastal Environment / CE-R16	Support	CE-R16 is supported as it is considered logical and beneficial.	Retain CE-R16 (Less hazard sensitive activities within all the Coastal Hazard Overlays) as notified.
Investore Property Limited	405.43	General District wide Matters / Coastal Environment / CE-R16	Support	Supports the policy as it provides for potentially hazard sensitive activities in the medium coastal hazard areas. Fabric notes is difficult to provide mitigation measures in relation to tsunami risk, because of the remoteness of tsunami risk, so it is appropriate to require safe evacuation routes to address tsunami risk.	Retain CE-R16 (Less hazard sensitive activities within all the Coastal Hazard Overlays) as notified.
Wellington International Airport Ltd	406.340	General District wide Matters / Coastal Environment / CE-R16	Oppose	Considers that to avoid unnecessary duplication in the Proposed Plan, this chapter should focus on those additional consent requirements necessary to manage effects within the coastal hazard overlays that cannot be adequately dealt with by the underlying zone rules. [See paragraphs 4.30 to 4.31 and 4.48 of original submission for full reason]	Delete CE-R16 (Less hazard sensitive activities within all the Coastal Hazard Overlays) in it's entirety.
Yvonne Weeber	340.61	General District wide Matters / Coastal Environment / CE-R17	Support	CE-R17 is generally supported, but it is unclear where the Low Coastal Hazard Area, Medium Coastal Hazard Area and the High Coastal Hazard Area are in the coastal environment. These terms do not appear on the Wellington City Proposed District Plan maps. Submission may be amended in the future.	Retain CE-R17 (Green infrastructure for the purposes of coastal hazard mitigation works undertaken by a Crown entity or their nominated contractor or agent within the Coastal Hazard Overlays) as notified.
Royal Forest and Bird Protection Society	345.349	General District wide Matters / Coastal Environment / CE-R17	Support in part	Considers the provisions of this chapter should also acknowledge the natural character, natural landscape and biodiversity values that must be protected. Ensure rules either cross reference appropriate provisions from other chapters, or include provisions to address adverse effects on these matters	Amend CE-R17 (Green infrastructure for the purposes of coastal hazard mitigation works undertaken by a Crown entity or their nominated contractor or agent within the Coastal Hazard Overlays) to acknowledge natural character, natural landscape, and biodiversity values are protected via reference to appropriate provisions from other chapters or by including provisions in the rule.
Wellington International Airport Limited	FS36.126	Part 2 / General District wide Matters / Coastal Environment / CE-R17	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.272	General District wide Matters / Coastal Environment / CE-R17	Support	CE-R17 is supported as it is considered logical and beneficial.	Retain CE-R17 (Green infrastructure for the purposes of coastal hazard mitigation works undertaken by a Crown entity or their nominated contractor or agent within the Coastal Hazard Overlays) as notified.
Precinct Properties New Zealand Limited	139.23	General District wide Matters / Coastal Environment / CE-R18	Support	Supports this rule as proposed including the Permitted activity status, and Restricted Discretionary activity status for additions to buildings which do not comply with CE-R18.1.	Retain CE-R18 (Additions to buildings within the Coastal Hazard Overlays) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.148	General District wide Matters / Coastal Environment / CE-R18	Support	Supports the rule as the rule framework for the construction, addition, or alteration of buildings and structures within the coastal environment does not hinder FENZ's ability to establish fire stations within the coastal environment.	Retain CE-R18 (Additions to buildings within the Coastal Hazard Overlays) as notified.
Yvonne Weeber	340.62	General District wide Matters / Coastal Environment / CE-R18	Support	CE-R18 is generally supported, but it is unclear where the Low Coastal Hazard Area, Medium Coastal Hazard Area and the High Coastal Hazard Area are in the coastal environment. These terms do not appear on the Wellington City Proposed District Plan maps. Submission may be amended in the future.	Retain CE-R18 (Additions to buildings within the Coastal Hazard Overlays) as notified.
Royal Forest and Bird Protection Society	345.350	General District wide Matters / Coastal Environment / CE-R18	Support in part	Considers the provisions of this chapter should also acknowledge the natural character, natural landscape and biodiversity values that must be protected. Ensure rules either cross reference appropriate provisions from other chapters, or include provisions to address adverse effects on these matters	Amend CE-R18 (Additions to buildings within the Coastal Hazard Overlays) to acknowledge natural character, natural landscape, and biodiversity values are protected via reference to appropriate provisions from other chapters or by including provisions in the rule.
Wellington International Airport Limited	FS36.127	Part 2 / General District wide Matters / Coastal Environment / CE-R18	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.273	General District wide Matters / Coastal Environment / CE-R18	Support	CE-R18 is supported as it is considered logical and beneficial.	Retain CE-R18 (Additions to buildings within the Coastal Hazard Overlays) as notified.
Argosy Property No. 1 Limited	383.88	General District wide Matters / Coastal Environment / CE-R18	Amend	Supports this rule to the extent that it enables additions to buildings within the coastal hazards overlays. However, it is not appropriate to place controls on buildings in the Tsunami Hazard Overlay. Due to the nature of tsunamis, it is not realistic to construct additions to buildings to avoid tsunami risk.	Amend CE-R18.1 (Additions to buildings within the Coastal Hazard Overlays): <u>e. The additions are in the Tsunami Hazard Overlay</u>
Toka Tū Ake EQC	FS70.9	Part 2 / General District wide Matters / Coastal Environment / CE-R18	Oppose	Mitigation of risks from tsunami is possible with land use planning and building design, and tsunami risk should not be deleted from the policy. A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes. Additions to buildings (e.g. for vertical evacuation purposes) should be encouraged to allow people to safely evacuate.	Disallow
Oyster Management Limited	404.102	General District wide Matters / Coastal Environment / CE-R18	Support in part	Supports rule to the extent that it enables additions to buildings within coastal hazard overlays.	Retain CE-R18 (Additions to buildings within the Coastal Hazard Overlays) with amendments.
Oyster Management Limited	404.103	General District wide Matters / Coastal Environment / CE-R18	Amend	Supports rule to the extent that it enables additions to buildings within coastal hazard overlays. However, considers it is not appropriate to place controls on buildings in the Tsunami Hazard Overlay, due to the nature of tsunamis, it is not realistic to construct additions to buildings to avoid tsunami risk.	Amend CE-R18.1 (Additions to buildings within the Coastal Hazard Overlays) as follows: ... <u>e. The additions are in the Tsunami Hazard Overlay</u>
Toka Tū Ake EQC	FS70.78	Part 2 / General District wide Matters / Coastal Environment / CE-R18	Oppose	Mitigation of risks from tsunami is possible with land use planning and building design, and tsunami risk should not be deleted from the policy. The current probability of a rupture of the Hikurangi subduction zone is calculated as 25% in the next 50 years. A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes. Additions to buildings (e.g. for vertical evacuation purposes) should be encouraged to allow people to safely evacuate.	Disallow
Oyster Management Limited	404.104	General District wide Matters / Coastal Environment / CE-R18	Amend	Supports rule to the extent that it enables additions to buildings within coastal hazard overlays. However, considers it is not appropriate to place controls on buildings in the Tsunami Hazard Overlay, due to the nature of tsunamis, it is not realistic to construct additions to buildings to avoid tsunami risk.	Amend CE-R18.2.b (Additions to buildings within the Coastal Hazard Overlays) as follows: ... b. The addition is to a potentially hazard sensitive activity or a hazard sensitive activity within a high coastal hazard area <u>other than the high tsunami hazard area.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Toka Tū Ake EQC	FS70.79	Part 2 / General District wide Matters / Coastal Environment / CE-R18	Oppose	Mitigation of risks from tsunami is possible with land use planning and building design, and tsunami risk should not be deleted from the policy. The current probability of a rupture of the Hikurangi subduction zone is calculated as 25% in the next 50 years ¹ . A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes. Additions to buildings (e.g. for vertical evacuation purposes) should be encouraged to allow people to safely evacuate.	Disallow
Investore Property Limited	405.44	General District wide Matters / Coastal Environment / CE-R18	Support in part	Supports the rule but considers that it would be appropriate to also enable additions within the Tsunami Hazard Overlay to be permitted to recognise that it is not realistic to construct additions to buildings to avoid tsunami risk.	Retain CE-R18.1 (Additions to buildings within the Coastal Hazard Overlays) and seeks amendment.
Investore Property Limited	405.45	General District wide Matters / Coastal Environment / CE-R18	Amend	Supports the rule but considers that it would be appropriate to also enable additions within the Tsunami Hazard Overlay to be permitted to recognise that it is not realistic to construct additions to buildings to avoid tsunami risk.	Amend CE-R18.1 (Additions to buildings within the Coastal Hazard Overlays) as follows: 1. Activity status: Permitted Where: ... <u>e. The additions are in the Tsunami Hazard Overlay.</u>
Toka Tū Ake EQC	FS70.43	Part 2 / General District wide Matters / Coastal Environment / CE-R18	Oppose	A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes. Additions to buildings (e.g. for vertical evacuation purposes) should be encouraged to allow people to safely evacuate.	Disallow
Wellington International Airport Ltd	406.341	General District wide Matters / Coastal Environment / CE-R18	Oppose	Considers that this rule should be deleted or reworked to apply to coastal hazard inundation areas only. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Opposes CE-R18 (Additions to buildings within the Coastal Hazard Overlays) and seeks amendment.
Wellington International Airport Ltd	406.342	General District wide Matters / Coastal Environment / CE-R18	Oppose	Considers that this rule should be deleted or reworked to apply to coastal hazard inundation areas only. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Delete CE-R18 (Additions to buildings within the Coastal Hazard Overlays) in its entirety. (Option A).
Toka Tū Ake EQC	FS70.103	Part 2 / General District wide Matters / Coastal Environment / CE-R18	Oppose	Mitigation of risks from tsunami is possible with land use planning and building design, and tsunami risk should not be deleted from the policy. The current probability of a rupture of the Hikurangi subduction zone is calculated as 25% in the next 50 years. A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes. Additions to buildings (e.g. for vertical evacuation purposes) should be encouraged to allow people to safely evacuate.	Disallow
Wellington International Airport Ltd	406.343	General District wide Matters / Coastal Environment / CE-R18	Amend	Considers that this rule should be deleted or reworked to apply to coastal hazard inundation areas only. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Amend CE-R18 (Additions to buildings within the Coastal Hazard Overlays) as follows: Seeks that CE-R18 (Additions to buildings within the Coastal Hazard Overlays) is amended to apply to coastal inundation hazard areas only. (Option B).
Toka Tū Ake EQC	FS70.104	Part 2 / General District wide Matters / Coastal Environment / CE-R18	Oppose	Mitigation of risks from tsunami is possible with land use planning and building design, and tsunami risk should not be deleted from the policy. The current probability of a rupture of the Hikurangi subduction zone is calculated as 25% in the next 50 years. A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes. Additions to buildings (e.g. for vertical evacuation purposes) should be encouraged to allow people to safely evacuate.	Disallow
Fabric Property Limited	425.45	General District wide Matters / Coastal Environment / CE-R18	Support in part	Supports this rule as proposed including the Permitted activity status, and Restricted Discretionary activity status for additions to buildings which do not comply with CE-R18.1. In the event that the risk level for the Tsunami Hazard Overlay is not reduced to medium, it would be appropriate to also enable additions within the Tsunami Hazard Overlay to be permitted, to recognise that it is not realistic to construct additions to buildings to avoid tsunami risk.	Retain Rule CE-R18 (Additions to buildings within the Coastal Hazard Overlays) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fabric Property Limited	425.46	General District wide Matters / Coastal Environment / CE-R18	Amend	Supports this rule as proposed including the Permitted activity status, and Restricted Discretionary activity status for additions to buildings which do not comply with CE-R18.1. In the event that the risk level for the Tsunami Hazard Overlay is not reduced to medium, it would be appropriate to also enable additions within the Tsunami Hazard Overlay to be permitted, to recognise that it is not realistic to construct additions to buildings to avoid tsunami risk.	Amend Rule CE-R18 (Additions to buildings within the Coastal Hazard Overlays) as follows: ... <u>e. The additions are in the Tsunami Hazard Overlay.</u>
Toka Tū Ake EQC	FS70.15	Part 2 / General District wide Matters / Coastal Environment / CE-R18	Oppose	Mitigation of risks from tsunami is possible with land use planning and building design, and tsunami risk should not be deleted from the policy. A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes. Additions to buildings (e.g. for vertical evacuation purposes) should be encouraged to allow people to safely evacuate.	Disallow
Yvonne Weeber	340.63	General District wide Matters / Coastal Environment / CE-R19	Support	CE-R19 is generally supported, but it is unclear where the Low Coastal Hazard Area, Medium Coastal Hazard Area and the High Coastal Hazard Area are in the coastal environment. These terms do not appear on the Wellington City Proposed District Plan maps. Submission may be amended in the future.	Retain CE-R19 (Airport, operation port activities, passenger port facilities and rail activities within the Coastal Hazard Overlay) as notified.
Royal Forest and Bird Protection Society	345.351	General District wide Matters / Coastal Environment / CE-R19	Support in part	Considers the provisions of this chapter should also acknowledge the natural character, natural landscape and biodiversity values that must be protected. Ensure rules either cross reference appropriate provisions from other chapters, or include provisions to address adverse effects on these matters	Amend CE-R19 (Airport, operation port activities, passenger port facilities and rail activities within the Coastal Hazard Overlay) to acknowledge natural character, natural landscape, and biodiversity values are protected via reference to appropriate provisions from other chapters or by including provisions in the rule.
Wellington International Airport Limited	FS36.128	Part 2 / General District wide Matters / Coastal Environment / CE-R19	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.274	General District wide Matters / Coastal Environment / CE-R19	Support	CE-R19 is supported as it is considered logical and beneficial.	Retain CE-R19 (Airport, operation port activities, passenger port facilities and rail activities within the Coastal Hazard Overlay) as notified.
CentrePort Limited	402.118	General District wide Matters / Coastal Environment / CE-R19	Amend	Amend typographical error in rule title.	Amend CE-R19 (Airport, operation port activities, passenger port facilities and rail activities within the Coastal Hazard Overlay) as follows: Airport, operation <u>a</u> port activities, passenger port facilities and rail activities within the Coastal Hazard Overlay
CentrePort Limited	402.119	General District wide Matters / Coastal Environment / CE-R19	Amend	Considers that large parts of the Port Operations including the Kaiwharawhara ferry terminal location are included within the Coastal Hazard Overlay. A permitted activity limitation to 10 passengers or 10 employees for port activities that by definition need to adjoin the coastal marine area is impractical. It is considered that if there is no practical alternative and this can be demonstrated, the Port activities with greater than 10 passengers or employees should be able to be a permitted activity.	Amend CE-R19 (Airport, operation port activities, passenger port facilities and rail activities within the Coastal Hazard Overlay) as follows: 1. <u>a</u> Activity status: Permitted Where: <u>a. a</u> does not involve the construction of a building that would be occupied by more than 10 employees of the activity, or any members of the public; or <u>b. b</u> does not involve the conversion of an existing building into a building that would be occupied by more than 10 employees of the activity, or any members of the public; or <u>c. c</u> can be demonstrated that there is no other practical alternative for the location of the activity.
CentrePort Limited	402.120	General District wide Matters / Coastal Environment / CE-R19	Support in part	Supports CE-P19 with amendments - typographical error in rule title and new clause c.	Retain CE-R19 (Airport, operation port activities, passenger port facilities and rail activities within the Coastal Hazard Overlay), with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.344	General District wide Matters / Coastal Environment / CE-R19	Oppose	Considers that this rule should be deleted or reworked to apply to coastal hazard inundation areas only. Wellington International Airport Ltd	406.345	General District wide Matters / Coastal Environment / CE-R19	Amend	Considers that this rule should be deleted or reworked to apply to coastal hazard inundation areas only. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Amend CE-R19 (Airport, operation port activities, passenger port facilities and rail activities within the Coastal Hazard Overlay) as follows: Seeks that CE-R19 (Airport, operation port activities, passenger port facilities and rail activities within the Coastal Hazard Overlay) is amended to apply to coastal inundation hazard areas only. (Option A).
Toka Tū Ake EQC	FS70.105	Part 2 / General District wide Matters / Coastal Environment / CE-R19	Oppose	While the trigger of a tsunami cannot be mitigated, the consequences can be reduced through good design, evacuation planning and communication of the risk, and the tsunami hazard overlay should not be deleted from the policy. The current probability of a rupture of the Hikurangi subduction zone is calculated as 25% in the next 50 years. A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes.	Disallow
Wellington International Airport Ltd	406.346	General District wide Matters / Coastal Environment / CE-R19	Oppose	Considers that this rule should be deleted or reworked to apply to coastal hazard inundation areas only. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Delete CE-R19 (Airport, operation port activities, passenger port facilities and rail activities within the Coastal Hazard Overlay) in its entirety. (Option B).
Toka Tū Ake EQC	FS70.106	Part 2 / General District wide Matters / Coastal Environment / CE-R19	Oppose	While the trigger of a tsunami cannot be mitigated, the consequences can be reduced through good design, evacuation planning and communication of the risk, and the tsunami hazard overlay should not be deleted from the policy. The current probability of a rupture of the Hikurangi subduction zone is calculated as 25% in the next 50 years. A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes.	Disallow
Precinct Properties New Zealand Limited	139.24	General District wide Matters / Coastal Environment / CE-R20	Support	Supports CE-R20 (Potentially hazard sensitive activities or hazard sensitive activities within the City Centre Zone and are also within the medium and high coastal hazard areas) as notified, as it is enabling of development in medium and high coastal hazard areas in the City Centre Zone.	Retain CE-R20 (Potentially hazard sensitive activities or hazard sensitive activities within the City Centre Zone and are also within the medium and high coastal hazard areas) as notified.
Fire and Emergency New Zealand	273.149	General District wide Matters / Coastal Environment / CE-R20	Support in part	Seeks to exclude restrictions on establishing emergency service facilities in these areas. Considers fire stations may have a functional need to be located in certain areas, including coastal hazard areas. The ability to construct and operate fire stations in locations which will enable reasonable response times to fire and other emergencies is paramount the health, safety and wellbeing of people and the community.	Supports CE-R20 (Potentially hazard sensitive activities within the City Centre Zone and are also within the medium and high coastal hazard areas), with amendment.
Fire and Emergency New Zealand	273.150	General District wide Matters / Coastal Environment / CE-R20	Amend	Seeks to exclude restrictions on establishing emergency service facilities in these areas. Considers fire stations may have a functional need to be located in certain areas, including coastal hazard areas. The ability to construct and operate fire stations in locations which will enable reasonable response times to fire and other emergencies is paramount the health, safety and wellbeing of people and the community.	Amend CE-R20 (Potentially hazard sensitive activities within the City Centre Zone and are also within the medium and high coastal hazard areas) as follows: 1. Activity status: Permitted Where: a. It does not involve the construction of a building that would be occupied by more than 10 employees of the activity, or any members of the public; or b. It does not involve the conversion of an existing building into a building that would be occupied by more than 10 employees of the activity, or any members of the public. <u>Note: The above restrictions do not apply to emergency service facilities.</u>
Yvonne Weeber	340.64	General District wide Matters / Coastal Environment / CE-R20	Support	CE-R20 is generally supported, but it is unclear where the Low Coastal Hazard Area, Medium Coastal Hazard Area and the High Coastal Hazard Area are in the coastal environment. These terms do not appear on the Wellington City Proposed District Plan maps. Submission may be amended in the future.	Retain CE-R20 (Potentially hazard sensitive activities or hazard sensitive activities within the City Centre Zone and are also within the medium and high coastal hazard areas) as notified.
Royal Forest and Bird Protection Society	345.352	General District wide Matters / Coastal Environment / CE-R20	Support in part	Considers the provisions of this chapter should also acknowledge the natural character, natural landscape and biodiversity values that must be protected. Ensure rules either cross reference appropriate provisions from other chapters, or include provisions to address adverse effects on these matters	Amend CE-R20 (Potentially hazard sensitive activities or hazard sensitive activities within the City Centre Zone and are also within the medium and high coastal hazard areas) to acknowledge natural character, natural landscape, and biodiversity values are protected via reference to appropriate provisions from other chapters or by including provisions in the rule.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Limited	FS36.129	Part 2 / General District wide Matters / Coastal Environment / CE-R20	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.275	General District wide Matters / Coastal Environment / CE-R20	Support	CE-R20 is supported as it is considered logical and beneficial.	Retain CE-R20 (Potentially hazard sensitive activities or hazard sensitive activities within the City Centre Zone and are also within the medium and high coastal hazard areas) as notified.
Argosy Property No. 1 Limited	383.89	General District wide Matters / Coastal Environment / CE-R20	Amend	Supports this rule to the extent that it enables potentially hazard sensitive activities or hazard sensitive activities within the City Centre zone where those activities are also within the medium and high coastal hazard areas. However, it is unclear why potentially hazard sensitive activities should be permitted where a building will be occupied by 10 or less employees of an activity. This number appears to be arbitrary and impractical. For example, five offices that are occupied by 10 or less employees are unlikely to have a different risk profile to one office occupied by 50 employees. This rule also does not achieve the objectives and policies of the coastal hazard overlays, specifically Objective CE-O8 and Policy CE-P21. The rule should also be clarified to reflect that it would be very difficult for buildings to entirely avoid being occupied by members of the public occasionally e.g. a courier driver dropping off a parcel or a tradesperson undertaking a repair. Argosy supports this rule to the extent that activities which cannot comply with CE-R20.1 are restricted discretionary	Amend CE-R20 (Potentially hazard sensitive activities or hazard sensitive activities within the City Centre Zone and are also within the medium and high coastal hazard areas): Activity status: Permitted Where: 1. It does not involve the construction of a building that would be occupied predominantly by more than 10 employees of the activity, or any members of the public; or 2. It does not involve the conversion of an existing building into a building that would be occupied predominantly by more than 10 employees of the activity, or any members of the public
Ministry of Education	400.71	General District wide Matters / Coastal Environment / CE-R20	Support	Supports CE-R20 as the submitter considers the matters of discretion to be appropriate where the permitted activity standards are not met.	Retain CE-R20 (Potentially hazard sensitive activities or hazard sensitive activities within the City Centre Zone and are also within the medium and high coastal hazard areas) as notified.
Oyster Management Limited	404.105	General District wide Matters / Coastal Environment / CE-R20	Support in part	Supports the rule to the extent it enables potentially hazard sensitive activities or hazard sensitive activities within the City Centre zone where those activities are also within the medium and high coastal hazard areas.	Retain CE-R20 (Potentially hazard sensitive activities or hazard sensitive activities within the City Centre Zone and are also within the medium and high coastal hazard areas) with amendments.
Oyster Management Limited	404.106	General District wide Matters / Coastal Environment / CE-R20	Amend	Supports the rule to the extent it enables potentially hazard sensitive activities or hazard sensitive activities within the City Centre zone where those activities are also within the medium and high coastal hazard areas. However, considers it is unclear why potentially hazard sensitive activities should be permitted where a building will be occupied by 10 or less employees of an activity. This number appears to be arbitrary and impractical. For example, five offices that are occupied by 10 or less employees are unlikely to have a different risk profile to one office occupied by 50 employees. This rule also does not achieve the objectives and policies of the coastal hazard overlays, specifically Objective CE-O8 and Policy CE-P21. The rule should also be clarified to reflect that it would be very difficult for buildings to entirely avoid being occupied by members of the public occasionally e.g. a courier driver dropping off a parcel or a tradesperson undertaking a repair.	Amend CE-R20 (Potentially hazard sensitive activities or hazard sensitive activities within the City Centre Zone and are also within the medium and high coastal hazard areas): Activity status: Permitted Where: 1. It does not involve the construction of a building that would be occupied predominantly by more than 10 employees of the activity, or any members of the public; or 2. It does not involve the conversion of an existing building into a building that would be occupied predominantly by more than 10 employees of the activity, or any members of the public
Toka Tū Ake EQC	FS70.80	Part 2 / General District wide Matters / Coastal Environmet / CE-R20	Oppose	Coastal hazard risk is going to increase in the near future with the impact of climate change and sea level rise, and high occupancy developments in high risk areas will expose more people to increasing risk.	Disallow
Oyster Management Limited	404.107	General District wide Matters / Coastal Environment / CE-R20	Support in part	Supports CE-R20 to the extent that activities which cannot comply with CE-R20.1 are restricted discretionary.	Retain CE-R20 (Potentially hazard sensitive activities or hazard sensitive activities within the City Centre Zone and are also within the medium and high coastal hazard areas) with amendments.

WCC Environmental Reference Group	377.276	General District wide Matters / Coastal Environment / CE-R21	Support	CE-R21 is supported as it is considered logical and beneficial.	Retain CE-R21 (Potentially hazard sensitive activities in the low coastal hazard area) as notified.
Oyster Management Limited	404.108	General District wide Matters / Coastal Environment / CE-R21	Support	Supports potentially hazard sensitive activities being an RD activity in the low coastal hazard area	Retain CE-R21 (Potentially hazard sensitive activities in the low coastal hazard area) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.347	General District wide Matters / Coastal Environment / CE-R21	Oppose	Considers that to avoid unnecessary duplication with the Proposed Plan and for other reasons, this chapter should focus on those additional consent requirements necessary to manage effects within the coastal hazard overlays that cannot be adequately dealt with by the underlying zone rules. [See paragraphs 4.30 to 4.31 and 4.48 of original submission for full reason]	Delete CE-R21 (Potentially hazard sensitive activities in the low coastal hazard area) in it's entirety.
Fire and Emergency New Zealand	273.151	General District wide Matters / Coastal Environment / CE-R22	Support in part	Seeks to exclude restrictions on establishing emergency service facilities in these areas. Considers fire stations may have a functional need to be located in certain areas, including coastal hazard areas. The ability to construct and operate fire stations in locations which will enable reasonable response times to fire and other emergencies is paramount the health, safety and wellbeing of people and the community.	Supports CE-R22 (Hazard sensitive activities in the low coastal hazard area), with amendment.
Fire and Emergency New Zealand	273.152	General District wide Matters / Coastal Environment / CE-R22	Amend	Seeks to exclude restrictions on establishing emergency service facilities in these areas. Considers fire stations may have a functional need to be located in certain areas, including coastal hazard areas. The ability to construct and operate fire stations in locations which will enable reasonable response times to fire and other emergencies is paramount the health, safety and wellbeing of people and the community.	Amend CE-R22 (Hazard sensitive activities in the low coastal hazard area) as follows: 1. Activity Status: Permitted Where: a. The development does not involve the construction of a childcare service, retirement village educational facility, hospital, emergency service facility or health care facility; or b. If the development involves the construction of residential units, the total number of residential units on a site is no more than three.
Yvonne Weeber	340.66	General District wide Matters / Coastal Environment / CE-R22	Support	CE-R22 is generally supported, but it is unclear where the Low Coastal Hazard Area, Medium Coastal Hazard Area and the High Coastal Hazard Area are in the coastal environment. These terms do not appear on the Wellington City Proposed District Plan maps. Submission may be amended in the future.	Retain CE-R22 (Hazard sensitive activities in the low coastal hazard area) as notified.
Royal Forest and Bird Protection Society	345.354	General District wide Matters / Coastal Environment / CE-R22	Support in part	Considers the provisions of this chapter should also acknowledge the natural character, natural landscape and biodiversity values that must be protected. Ensure rules either cross reference appropriate provisions from other chapters, or include provisions to address adverse effects on these matters	Amend CE-R22 (Hazard sensitive activities in the low coastal hazard area) to acknowledge natural character, natural landscape, and biodiversity values are protected via reference to appropriate provisions from other chapters or by including provisions in the rule.
Wellington International Airport Limited	FS36.131	Part 2 / General District wide Matters / Coastal Environment / CE-R22	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. It is a complex environment which requires the NZCPS and Greater Wellington Regional Policy Statement for land below MHWS.	Disallow
KiwiRail Holdings Limited	408.103	General District wide Matters / Coastal Environment / CE-R24	Support	Supports provisions for hard protection structures as a Discretionary Activity within the Coastal Environment.	Retain CE-R24 (All hard engineering measures in the high coastal hazard area) as notified.
Yvonne Weeber	340.69	General District wide Matters / Coastal Environment / CE-R25	Support	CE-R25 is generally supported, but it is unclear where the Low Coastal Hazard Area, Medium Coastal Hazard Area and the High Coastal Hazard Area are in the coastal environment. These terms do not appear on the Wellington City Proposed District Plan maps. Submission may be amended in the future.	Retain CE-R25 (Potentially hazard sensitive activities within the high coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) as notified.
Royal Forest and Bird Protection Society	345.357	General District wide Matters / Coastal Environment / CE-R25	Support in part	Considers the provisions of this chapter should also acknowledge the natural character, natural landscape and biodiversity values that must be protected. Ensure rules either cross reference appropriate provisions from other chapters, or include provisions to address adverse effects on these matters	Amend CE-R25 (Potentially hazard sensitive activities within the high coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) to acknowledge natural character, natural landscape, and biodiversity values are protected via reference to appropriate provisions from other chapters or by including provisions in the rule.
Wellington International Airport Limited	FS36.134	Part 2 / General District wide Matters / Coastal Environment / CE-R25	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.280	General District wide Matters / Coastal Environment / CE-R25	Support	CE-R25 is supported as it is considered logical and beneficial.	Retain CE-R25 (Potentially hazard sensitive activities within the high coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) as notified.
VicLabour	414.25	General District wide Matters / Coastal Environment / CE-R25	Amend	Considers that the provision may insufficient given recent evidence that sea level rise and weather impacts related to climate change may become worse, quicker than thought not long ago. Considers that Council needs to consider a complete prohibition on all development of potentially or actually hazard sensitive activities within areas at-risk of coastal inundation or tsunami as a result of sea level rise.	[Inferred decision requested] Seeks that a prohibited activity status is applied to Rule CE-R25 (Potentially hazard sensitive activities within the high coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities)
Yvonne Weeber	340.70	General District wide Matters / Coastal Environment / CE-R26	Support	CE-R26 is generally supported, but it is unclear where the Low Coastal Hazard Area, Medium Coastal Hazard Area and the High Coastal Hazard Area are in the coastal environment. These terms do not appear on the Wellington City Proposed District Plan maps. Submission may be amended in the future.	Retain CE-R26 (Hazard sensitive activities within the medium coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.358	General District wide Matters / Coastal Environment / CE-R26	Support in part	Considers the provisions of this chapter should also acknowledge the natural character, natural landscape and biodiversity values that must be protected. Ensure rules either cross reference appropriate provisions from other chapters, or include provisions to address adverse effects on these matters	Amend CE-R26 (Hazard sensitive activities within the medium coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) to acknowledge natural character, natural landscape, and biodiversity values are protected via reference to appropriate provisions from other chapters or by including provisions in the rule.
Wellington International Airport Limited	FS36.135	Part 2 / General District wide Matters / Coastal Environment / CE-R26	Oppose	WIAL opposes all of the identified submissions made on the Coastal Environment chapter to the extent that they are inconsistent with the concerns raised by WIAL with respect to this chapter. Notably: 1. The Coastal Environment has been broadly mapped, with its corresponding policy directives applying to large urban areas of the District which are highly modified; 2. The chapter, as notified, duplicates controls found within other chapters of the Proposed Plan. This chapter should only focus on those provisions that cannot otherwise be addressed by the underlying zone provisions; and, 3. The chapter does not adequately give effect to all relevant parts of the NZCPS, including those that recognise and provide for the functional and operational needs of infrastructure;	Disallow
WCC Environmental Reference Group	377.281	General District wide Matters / Coastal Environment / CE-R26	Support	CE-R26 is supported as it is considered logical and beneficial.	Retain CE-R26 (Hazard sensitive activities within the medium coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) as notified.
Ministry of Education	400.73	General District wide Matters / Coastal Environment / CE-R26	Support	Supports CE-R26 as it enables hazard sensitive activities within the medium coastal hazard areas as Discretionary Activities.	Retain CE-R26 (Hazard sensitive activities within the medium coastal hazard area, excluding the City Centre Zone or Airport...) as notified.
Wellington International Airport Ltd	406.357	General District wide Matters / Coastal Environment / CE-R26	Oppose	Considers that this rule should be deleted or reworked to apply to coastal hazard inundation areas only. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Opposes CE-R26 (Hazard sensitive activities within the medium coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) and seeks amendment.
Wellington International Airport Ltd	406.358	General District wide Matters / Coastal Environment / CE-R26	Amend	Considers that this rule should be deleted or reworked to apply to coastal hazard inundation areas only. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Amend CE-R26 (Hazard sensitive activities within the medium coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) as follows: Seeks that CE-R26 (Hazard sensitive activities within the medium coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) is amended to apply to coastal inundation hazard areas only. (Option A).
Toka Tū Ake EQC	FS70.111	Part 2 / General District wide Matters / Coastal Environment / CE-R26	Oppose	While the trigger of a tsunami cannot be mitigated, the consequences can be reduced through good design, evacuation planning and communication of the risk, and the tsunami hazard overlay should not be deleted from the policy. The current probability of a rupture of the Hikurangi subduction zone is calculated as 25% in the next 50 years. A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes.	Disallow
Wellington International Airport Ltd	406.359	General District wide Matters / Coastal Environment / CE-R26	Oppose	Considers that this rule should be deleted or reworked to apply to coastal hazard inundation areas only. [See paragraphs 4.85 to 4.92 of original submission for full reason]	Delete CE-R26 (Hazard sensitive activities within the medium coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) in its entirety. (Option B).
Toka Tū Ake EQC	FS70.112	Part 2 / General District wide Matters / Coastal Environment / CE-R26	Oppose	While the trigger of a tsunami cannot be mitigated, the consequences can be reduced through good design, evacuation planning and communication of the risk, and the tsunami hazard overlay should not be deleted from the policy. The current probability of a rupture of the Hikurangi subduction zone is calculated as 25% in the next 50 years. A Hikurangi subduction earthquake is expected to result in a 2-4 m tsunami to impact parts of Wellington within 10 minutes.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
VicLabour	414.26	General District wide Matters / Coastal Environment / CE-R26	Amend	Considers that the provision may insufficient given recent evidence that sea level rise and weather impacts related to climate change may become worse, quicker than thought not long ago. Considers that Council needs to consider a complete prohibition on all development of potentially or actually hazard sensitive activities within areas at-risk of coastal inundation or tsunamis as a result of sea level rise.	[Inferred decision requested] Seeks that a prohibited activity status is applied to Rule CE-R26 (Hazard sensitive activities within the medium coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities)
Wellington International Airport Limited	FS36.140	Part 2 / General District wide Matters / Coastal Environment / CE-R26	Oppose	WIAL opposes this submission to the extent that it is inconsistent with the primary submission made by WIAL on this matter.	Disallow
Yvonne Weeber	340.71	General District wide Matters / Coastal Environment / CE-R27	Support	CE-R27 is generally supported, but it is unclear where the Low Coastal Hazard Area, Medium Coastal Hazard Area and the High Coastal Hazard Area are in the coastal environment. These terms do not appear on the Wellington City Proposed District Plan maps. Submission may be amended in the future.	Retain CE-R27 (Hazard sensitive activities within the high coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) as notified.
Royal Forest and Bird Protection Society	345.359	General District wide Matters / Coastal Environment / CE-R27	Support in part	Considers the provisions of this chapter should also acknowledge the natural character, natural landscape and biodiversity values that must be protected. Ensure rules either cross reference appropriate provisions from other chapters, or include provisions to address adverse effects on these matters	Amend CE-R27 (Hazard sensitive activities within the high coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) to acknowledge natural character, natural landscape, and biodiversity values are protected via reference to appropriate provisions from other chapters or by including provisions in the rule.
WCC Environmental Reference Group	377.282	General District wide Matters / Coastal Environment / CE-R27	Support	CE-R27 is supported as it is considered logical and beneficial.	Retain CE-R27 (Hazard sensitive activities within the high coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) as notified.
Kāinga Ora Homes and Communities	391.267	General District wide Matters / Coastal Environment / CE-R27	Support in part	CE-R27 is partially supported and an amendment is sought.	Retain CE-R27 (Hazard sensitive activities within the high coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) with amendment.
Kāinga Ora Homes and Communities	391.268	General District wide Matters / Coastal Environment / CE-R27	Amend	Considers that CE-R27 should be amended to change the activity status of Hazard Sensitive Activities within the High Coastal Hazard Area from Non-Complying to Discretionary to enable the potential for these activities to be provided where the risks can be managed through mitigation measures.	Amend CE-R27 (Hazard sensitive activities within the high coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities) as follows: 1. Activity Status: Non-Complying <u>Discretionary</u>
Toka Tū Ake EQC	FS70.65	Part 2 / General District wide Matters / Coastal Environment / CE-R27	Oppose	Hazard sensitive activities, which include emergency facilities, hospitals, major hazardous facilities and childcare, within high coastal hazard overlay should remain non-compliant. Coastal hazard risk is going to increase in the near future with the impact of climate change and sea level rise. Amending this to discretionary provides a path for development which puts more people at risk from increasing coastal hazard risk.	Disallow
Greater Wellington Regional Council	FS84.83	Part 2 / General District wide Matters / Coastal Environment / CE-R27	Oppose	Greater Wellington oppose the suggested change in activity status as this would not have regard to Proposed RPS Change 1.	Disallow / Seeks that SUB-R21 and SUB-R25 are retained as notified.
Greater Wellington Regional Council	FS84.85	Part 2 / General District wide Matters / Coastal Environment / CE-R27	Oppose	Greater Wellington oppose the suggested change in activity status as this would not have regard to Proposed RPS Change 1.	Disallow / Seeks that CE-R27 is retained as notified.
Ministry of Education	400.74	General District wide Matters / Coastal Environment / CE-R27	Support	Supports CE-R27 as the submitter considers that the non-complying activity status for hazard sensitive activities within the high coastal hazard area is appropriate.	Retain CE-R27 (Hazard sensitive activities within the high coastal hazard area, excluding the City Centre Zone or Airport...) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
VicLabour	414.27	General District wide Matters / Coastal Environment / CE-R27	Amend	<p>Considers that the provisions relating to restrictions on new development in areas at risk of coastal inundation and tsunami due to sea level rise may be insufficient given recent evidence that sea level rise and weather impacts related to climate change may become worse, quicker than thought not long ago.</p> <p>Considers that Council needs to consider a complete prohibition on all development of potentially or actually hazard sensitive activities within areas at-risk of coastal inundation or tsunami as a result of sea level rise.</p>	Seeks that a prohibited activity status is applied to Rule CE-R27 (Hazard sensitive activities within the high coastal hazard area, excluding the City Centre Zone or Airport, operation port activities, passenger port facilities and rail activities). [Inferred decision requested]
Fire and Emergency New Zealand	273.153	General District wide Matters / Coastal Environment / CE-S1	Support in part	<p>Supports the standard as it enables preventative mitigation of fire risk to property and life through providing for the clearance of vegetation as a permitted activity in circumstances where FENZ is required to remove vegetation for the purposes of extinguishing or preventing the spread of fire or, where a notice has been served on a landholder to clear vegetation from a firebreak, in accordance with relevant sections of the FENZ Act.</p> <p>It is however important that property owners and occupiers are able to remove flammable vegetation, as required, to provide sufficient clearance to mitigate the potential for fire risk/spread between flammable vegetation and property. This is particularly important where a property is located outside of a reticulated water network and the surrounding environment includes native bush.</p>	Supports CE-S1 (Indigenous vegetation trimming or removal within the coastal environment and within high coastal natural character areas), with amendment.
Fire and Emergency New Zealand	273.154	General District wide Matters / Coastal Environment / CE-S1	Amend	<p>Supports the standard as it enables preventative mitigation of fire risk to property and life through providing for the clearance of vegetation as a permitted activity in circumstances where FENZ is required to remove vegetation for the purposes of extinguishing or preventing the spread of fire or, where a notice has been served on a landholder to clear vegetation from a firebreak, in accordance with relevant sections of the FENZ Act.</p> <p>It is however important that property owners and occupiers are able to remove flammable vegetation, as required, to provide sufficient clearance to mitigate the potential for fire risk/spread between flammable vegetation and property. This is particularly important where a property is located outside of a reticulated water network and the surrounding environment includes native bush.</p>	<p>Amend CE-S1 (Indigenous vegetation trimming or removal within the coastal environment and within high coastal natural character areas) as follows:</p> <p>The following as exempt from the maximum permitted area of removal:</p> <p>...</p> <p>Vegetation removal that is required in accordance with sections 43 or 64 of the Fire and Emergency New Zealand Act 2017; and Customary harvesting; and <u>h. It is necessary to avoid loss of life, injury or serious damage to property, including from the risk of fire.</u></p>
Yvonne Weeber	340.72	General District wide Matters / Coastal Environment / CE-S1	Amend	Considers that the assessment criteria in CE-S1 should be amended to prevent all indigenous vegetation trimming and removal within the high natural character areas of the coastal environment without a full management plan.	<p>Amend CE-S1 (Indigenous vegetation trimming or removal within in the coastal environment and within high coastal natural character areas) as follows:</p> <p>...</p> <p>Assessment criteria where the standard is infringed:</p> <ol style="list-style-type: none"> 1. The effects on identified coastal natural character values and measures proposed to avoid, remedy or mitigate the adverse effects. 2. <u>A management plan for the removal, revegetation and ongoing management of the high coastal natural character area.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.360	General District wide Matters / Coastal Environment / CE-S1	Support in part	Supports the general 50m2 limit. Considers the exemption in c. would allow for a large amount of vegetation removal, and seeks that it is brought into line with the 10m distance in the ECO rules. In terms of the assessment criteria, opposes this being limited to 'identified' coastal natural character values, particularly in the context of this plan only identifying areas of high natural character. The identified values in the schedule are also very brief. We also seek that biodiversity values (including those required to be protected by policy 11 NZCPS) are part of the assessment criteria. This is because of the absence of provisions to maintain biodiversity outside of SNAs in the ECO chapter.	Amend CE-S1 (Indigenous vegetation trimming or removal within in the coastal environment and within high coastal natural character areas): 1. Indigenous vegetation removal must not exceed 50m2 in total area per 12 month contiguous period per site. The following are exempt from the maximum permitted area of removal: a. Vegetation removal addressing an imminent threat to people or property represented by deadwood, diseased or dying vegetation; b. Vegetation removal that is necessary to ensure the safe and efficient operation of any formed public road or access; c. Vegetation removal within 25 10m from the external wall of an existing building; d. Vegetation removal within 1m width either side of an existing fence or other structure; e. Vegetation removal of 2.5m in total width for maintenance of public access track (where undertaken by WCC, GWRC or their agents); f. Vegetation removal that is required in accordance with sections 43 or 64 of the Fire and Emergency New Zealand Act 2017; and g. Customary harvesting. Assessment criteria where the standard is infringed: 1. The effects on identified coastal natural character values and measures proposed to avoid, remedy or mitigate the adverse effects. <u>2. Biodiversity values included those protected by policy 11 of NZ Coastal Policy Statement.</u>
Waka Kotahi	370.203	General District wide Matters / Coastal Environment / CE-S1	Support	Support wording as notified as it provides for removal of indigenous vegetation as a permitted activity where it is necessary for the safe and efficient operation of any formed public road.	Retain CE-S1 (Indigenous vegetation trimming or removal within in the coastal environment and within high coastal natural character areas) as notified.
Director-General of Conservation	385.68	General District wide Matters / Coastal Environment / CE-S1	Oppose	The rule CE-S1 needs to be aligned with the wording of Policy 11 of the NZCPS and should be amended.	Opposes rule CE-S1 (Indigenous vegetation trimming or removal within in the coastal environment and within high coastal natural character areas) in its current form and seeks amendment.
Director-General of Conservation	385.69	General District wide Matters / Coastal Environment / CE-S1	Amend	The rule CE-S1 needs to be aligned with the wording of Policy 11 of the NZCPS and should be amended. Submitter requests the wording under this rule and standard are amended to be in line with Policy 11 of the NZCPS which seeks to: <ul style="list-style-type: none"> • avoid adverse effects of activities on indigenous ecosystems and vegetation types that are threatened in the coastal environment, or are naturally rare; and • avoid significant adverse effects and avoid, remedy or mitigate other adverse effects of activities on areas of predominantly indigenous vegetation in the coastal environment; and • avoid adverse effects of activities on indigenous taxa that are listed as threatened or at risk in the New Zealand Threat Classification System lists; and • avoid adverse effects of activities on habitats of indigenous species where the species are at the limit of their natural range, or are naturally rare. 	Seeks to amend the CE-S1 (Indigenous vegetation trimming or removal within in the coastal environment and within high coastal natural character areas) to be aligned with Policy 11 of the NZCPS. To ensure the rules/standards do not impact the following as a Permitted Activity: threatened or naturally rare vegetation types, threatened or at risk indigenous species, and the habitats of indigenous species.
Fire and Emergency New Zealand	273.155	General District wide Matters / Coastal Environment / CE-S2	Support in part	Considers FENZ may have an operational and functional need to establish and operate fire stations in the coastal environment. Fire stations tend to have a maximum height of 8-9m and a gross floor area greater than 50m2. As such, FENZ seeks to exclude emergency service facilities from CE-S2.	Supports CE-S2 (New buildings and structures within the coastal environment and within high coastal natural character areas), with amendment.
Fire and Emergency New Zealand	273.156	General District wide Matters / Coastal Environment / CE-S2	Amend	Considers FENZ may have an operational and functional need to establish and operate fire stations in the coastal environment. Fire stations tend to have a maximum height of 8-9m and a gross floor area greater than 50m2. As such, FENZ seeks to exclude emergency service facilities from CE-S2.	Amend CE-S2 (New buildings and structures within the coastal environment and within high coastal natural character areas) as follows: ... <u>Note: Emergency service facilities are exempt.</u>

General District-wide Matters - Earthworks

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Yvonne Weeber	340.73	General District wide Matters / Coastal Environment / CE-S2	Amend	Considers that CE-S2 should be amended so that design standards are considered in relationship to where they are seen from and what they will look like. New buildings and structures within the coastal environment and within high coastal natural character areas should be built and designed in a manner that fits in to the high coastal natural character.	Amend CE-S2 (New buildings and structures within the coastal environment and within high coastal natural character areas) as follows: Assessment criteria where the standard is infringed: 1. Whether the building or structure and its scale and location is integrated into the landform to limit prominence and protect the identified values and characteristics and any measures to avoid, remedy or mitigate the adverse effects; and 2. The effect of the reflectivity and colour of external materials on the identified values and characteristics; 3. <u>Views of the buildings and their form and colour in relationship to the high coastal natural character areas</u>
Greater Wellington Regional Council	351.226	General District wide Matters / Coastal Environment / CE-S2	Amend	Considers that buildings or structures in sites of high natural character do not exceed the relevant standards. Request these amendments to ensure the proposed approach gives effect to NZCPS Policy 13(1)(b). Seeks any consequential relief as is necessary to achieve consistency with the above and to satisfy the concerns	Amend CE-S2 (New buildings and structures within the coastal environment and within high coastal natural character areas) as follows: 1. Buildings or structures in high coastal natural character <u>sites and</u> areas must not exceed: a. A maximum height of 5m above ground level; and b. A gross floor area of 50m2 2. The exterior façade and roof must be finished in a colour that is contained within Groups A, B or C of BS5252 and that does not exceed a reflectance value of 30%. (Note: Some colours in Groups A, B or C of BS5252 have a reflectance value of over 30% and are therefore not compliant.)
John Tiley	142.15	General District wide Matters / Earthworks / General EW	Not specified	Considers that the Earthworks chapter subjugates any visual amenity and open space values to the interests of development.	Seeks that an explanation of "sustainable" management of earthworks is offered.
John Tiley	142.16	General District wide Matters / Earthworks / General EW	Amend	Considers that the Earthworks introduction should be amended as there is no reference to any obligation to avoid or even mitigate harmful effects.	Seeks that the Earthworks chapter include an obligation to mitigate or avoid harmful effects. [Inferred decision requested].
John Tiley	142.17	General District wide Matters / Earthworks / General EW	Amend	Considers that the sentence 'To a large extent, these effects can be addressed through careful design and management of physical works' is not true as any earthworks will compromise a ridgeline's community and amenity values.	Seeks that no earthworks are allowed to occur on ridgelines to ensure these remain in their undisturbed natural state. [Inferred decision requested].
Churton Park Community Association	189.15	General District wide Matters / Earthworks / General EW	Not specified	Considers that the Earthworks chapter subjugates any visual amenity and open space values to the interests of development.	Seeks that an explanation of "sustainable" management of earthworks is offered.
Churton Park Community Association	189.16	General District wide Matters / Earthworks / General EW	Amend	Considers that the Earthworks introduction should be amended as there is no reference to any obligation to avoid or even mitigate harmful effects.	Seeks that the Earthworks chapter include an obligation to mitigate or avoid harmful effects. [Inferred decision requested].
Churton Park Community Association	189.17	General District wide Matters / Earthworks / General EW	Amend	Considers that the sentence 'To a large extent, these effects can be addressed through careful design and management of physical works' is not true as any earthworks will compromise a ridgeline's community and amenity values.	Seeks that no earthworks are allowed to occur on ridgelines to ensure these remain in their undisturbed natural state. [Inferred decision requested].
Horokiwi Quarries Ltd	271.51	General District wide Matters / Earthworks / General EW	Support	Supports the clarification that the earthworks rules do not apply to quarrying activities provided for in the Quarry Zone on the basis it recognises the nature and scale of earthworks associated with quarry activities. The relevance of the Earthworks chapter to quarry activities is that technically a quarry activity would involve earthworks, and therefore outside the Quarry Zone, the earthworks chapter applies.	Retain the Earthworks Chapter Introduction as notified.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.43	General District wide Matters / Earthworks / General EW	Support	Considers it is important that earthworks are managed to minimise adverse effects.	Retain objectives within Earthworks chapter as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kilmarston Developments Limited and Kilmarston Properties Limited	290.44	General District wide Matters / Earthworks / General EW	Support	Considers it is important that earthworks are managed to minimise adverse effects.	Retain policies within Earthworks chapter as notified.
Tawa Community Board	294.13	General District wide Matters / Earthworks / General EW	Amend	Considers that climate change is driving more frequent and more severe climatic events.	Seeks that Earthworks heights are amended to support more resilience.
Tawa Community Board	294.14	General District wide Matters / Earthworks / General EW	Amend	Considers that climate change is driving more frequent and more severe climatic events.	Seeks increased construction setbacks from retaining walls and embankments, including stream embankments.
Aggregate and Quarry Association	303.17	General District wide Matters / Earthworks / General EW	Support	The Earthworks chapter is supported as it specifies that Earthworks provisions do not apply to quarrying activities provided for in the Special Purpose Quarry Zone. It is important to make this clear to avoid confusion and potential duplication and inconsistency, given quarrying is a unique activity distinct from earthworks. It is right that quarrying should be specifically addressed elsewhere through the relevant zone rules separate from earthworks.	Retain the comment in the Earthworks chapter that states "the provisions in this chapter do not apply to quarrying activities provided for in the Special Purpose Quarry Zone" as notified.
Transpower New Zealand Limited	315.174	General District wide Matters / Earthworks / General EW	Amend	<p>Considers the structure of the PDP is such that rules relating to earthworks and subdivision in proximity of the National Grid are addressed under the respective Earthworks and Subdivision chapters. Considers that while not necessarily the submitter's preference, they are not opposed to this approach subject to appropriate linkages between the chapters so that plan users can clearly understand (and find) the relevant rules and corresponding policy framework.</p> <p>Considers that for Rule EW-R22 there is no supporting policy framework and no guidance within the introductory text to the Earthworks Chapter to refer plan users to the Infrastructure Chapter. The submitter seeks specific National Grid provisions as outlined in separate submission points. [Refer to original submission for full reason]</p> <p>Submitter seeks either:</p> <ul style="list-style-type: none"> • Subject to the inclusion of a specific National Grid policy within the INF chapter, cross reference to that chapter, or • Provision of a specific National Grid policy within the EW chapter. 	<p>Amend the Earthworks Chapter to provide appropriate policy recognition to managing earthworks within the National Grid Yard and provide the policy direction for EW-R22. Subject to the inclusion of a specific National Grid policy within the INF chapter, cross reference to that chapter as follows:</p> <p>Other relevant District Plan provisions</p> <p>It is important to note that in addition to the provisions in this chapter, the following Part 2: District-Wide chapters may also be of relevance, including:</p> <ul style="list-style-type: none"> • Transport - The Transport Chapter contains provisions relating to transport matters. • Subdivision - The Subdivision Chapter contains provisions which manage subdivision of land. • Trees – The Notable Tree chapter contains specific provisions relating to the management of notable trees, including works within the root protection area. • <u>Infrastructure - the earthworks chapter includes rules to implement objectives and policies in the Infrastructure Chapter where certain types of earthworks are within the National Grid Yard.</u> <p>...</p> <p>or</p> <p>2. Provision of a specific National Grid policy within the Earthworks chapter as follows: <u>Earthworks or vertical holes within the National Grid Yard.</u> <u>Avoid earthworks or vertical holes within the National Grid Yard which may compromise the safe and efficient functioning, operation, maintenance and repair, upgrading and development of the National Grid.</u></p>
Transpower New Zealand Limited	315.175	General District wide Matters / Earthworks / General EW	Support	<p>Supports the provision of standards specific to earthworks on the basis such activities can compromise the National Grid and are a form of development contemplated by the NPS-ET.</p> <p>Considers that earthworks also have the potential to restrict Transpower's ability to access the line and locate the heavy machinery required to maintain support structures around the lines and may lead to potential tower failure and significant constraints on the operation of the line. Considers the provision of a rule framework achieves Policies 2 and 10 of the NPS-ET.</p> <p>[Refer to original submission for full reason]</p>	Supports EW provisions, subject to amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Restaurant Brands Limited	349.32	General District wide Matters / Earthworks / General EW	Support	Support	Retain EW – Ngā Mahi Apu Whenua – Earthworks as notified.
Greater Wellington Regional Council	351.227	General District wide Matters / Earthworks / General EW	Amend	Considers that currently rules only have assessment matters regarding the extent and effect of non-compliance on identified, ecological values or amenity values or landscape values for earthworks in riparian areas. To have regard to the Proposed RPS Change 1 (policies FW.3 and 15) Greater Wellington considers an amendment is required to include matters of control or discretion which protect cultural values.	Seeks to include matter of control or discretion regarding the 'potential for adverse effects on water quality of any waterbody, wahi tapu, wahi taonga and habitat of any significant indigenous species.'
Waka Kotahi	370.204	General District wide Matters / Earthworks / General EW	Support	Support that the provisions do not relate to infrastructure activities– as this enables Waka Kotahi to undertake works to infrastructure as provided for by the infrastructure chapter.	Retain the following as notified: The provisions of this Chapter do not apply in relation to activities provided for in the Infrastructure Chapter, unless specifically stated in the rule or standard concerned'
Wellington International Airport Ltd	406.360	General District wide Matters / Earthworks / General EW	Amend	Opposes the earthworks provisions insofar as they relate to the Airport Zone. [See paragraphs 4.93 to 4.96 of original submission for full reason]	Seeks that Earthworks chapter introduction is amended to delete the reference to EW-R20 (Earthworks in the Airport Zone) to EW-S14 (Earthworks in the Airport Zone) so that the chapter does not apply to the Airport Zone.
Airways Corporation of New Zealand Limited	FS105.17	Part 2 / General District wide Matters / Earthworks / General EW	Support	This submission point is consistent with Airways' operations and its core functions.	Allow
Wellington International Airport Ltd	406.361	General District wide Matters / Earthworks / General EW	Amend	Supports the Operative District Plan application of Earthworks provisions to the Airport Zone.	Seeks that the Airport Zone is exempt from the Earthworks provisions to the same extent that it was in the Operative District Plan.
Airways Corporation of New Zealand Limited	FS105.18	Part 2 / General District wide Matters / Earthworks / General EW	Support	This submission point is consistent with Airways' operations and its core functions.	Allow
Wellington International Airport Ltd	406.362	General District wide Matters / Earthworks / General EW	Not specified	Considers that there is an explicit note in the introductory text that the provisions of the earthworks chapter "do not apply in relation to activities provided in the Airport Zone, except for the extent specified in EW-R20 and EW-S14". The drafting of EW-R20 is such however, that the exemption establishes a more onerous, complex and uncertain consenting pathway for earthworks within the Airport Zone than other zones and the operative planning framework.	Clarify the extent to which the Earthworks chapter applies within the Airport Zone.
Wellington International Airport Ltd	406.363	General District wide Matters / Earthworks / General EW	Not specified	The starting presumption that all discretionary earthwork activities within with the Airport Zone will be publicly notified is inappropriate and unjustified.	Not specified.
Wellington International Airport Ltd	406.364	General District wide Matters / Earthworks / General EW	Amend	[No specific reason given beyond decision requested - see original submission]	Seeks that the Earthworks chapter is amended to rework how it relates to the Airport Zone, done through the Schedule 1 Resource Management Act process.
Heritage New Zealand Pouhere Taonga	70.21	General District wide Matters / Earthworks / New EW	Amend	Considers that as an alternative to the proposed HNZPT amendment of EW-P7 to cover scheduled archaeological sites and Sites of Significance to Māori, additional policies could be added to the earthworks chapter to address archaeological sites and Sites of Significance to Māori.	Add additional policies to the earthworks chapter to address archaeological sites and Sites of Significance to Māori, as an alternative to the proposed HNZPT amendment of EW-P7 (Earthworks on the site of heritage buildings and heritage structures, and within heritage areas).
Onslow Historical Society	FS6.11	Part 2 / General District wide Matters / Earthworks / New EW	Support	OHS supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Historic Places Wellington Inc	FS111.10	Part 2 / General District wide Matters / Earthworks / New EW	Support	HPW supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Te Rūnanga o Toa Rangatira	FS138.9	Part 2 / General District wide Matters / Earthworks / New EW	Support	The submitter seeks for additional policies to be added to the earthworks chapter to address archaeological sites and Sites of Significance to Māori. Te Rūnanga o Toa Rangatira support this submission because sites of significance to Māori should be taken into account and protected in relation to earthworks.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.361	General District wide Matters / Earthworks / New EW	Amend	Considers that this chapter's provisions are silent on earthworks in wetlands and their margins. It appears that WCC still has a role in respect of works in these areas. As discussed above (in relation to the ECO chapter), we seek a suite of new earthworks provisions protecting wetlands and their margins, or amendments to the notified provisions to achieve this. In terms of rules, they should at the very least require setbacks from all natural wetlands. We note that there are rules regulating earthworks in riparian margins, but not wetland margins	Add new EW-OX, EW-PX, EW-RX, and EW-SX provisions to protect wetlands and their margins.
Royal Forest and Bird Protection Society	345.362	General District wide Matters / Earthworks / New EW	Amend	Seeks a non-complying rule for earthworks where the SNA contains matters identified in policy 11 NZCPS, replicating ECO R1.6. The section 88 requirements should be: 1. Identifying the indigenous biodiversity values and potential impacts from the proposal; and 2. Demonstrating that ECO P5 has first been met, and the effects management hierarchy at ECO-P21 has been applied to other adverse effects.	Add new rule EW-R7 (Earthworks within a significant natural area): <u>3. Activity status: Non-complying</u> <u>Where:</u> <u>a. The Significant Natural Area includes matters identified in policy 11 of the NZ Coastal Policy statement</u> <u>Section 88 requirements:</u> <u>1. Identifying the indigenous biodiversity values and potential impacts from the proposal; and</u> <u>2. Demonstrating that ECO P5 has first been met, and the effects management hierarchy at ECO-P21 has been applied to other adverse effects.</u>
Wellington International Airport Limited	FS36.141	Part 2 / General District Wide Matters / Earthworks / New EW	Oppose	Considers that it is inappropriate to include a new rule in the Proposed Plan to this effect. Earthworks within SNAs is already provided for by EW-R7 (1) and (2) and within the Coastal Environment through EW-R10 and EW-R11. Introducing further rules is inefficient and add to further repetition, duplication and complexity within the Proposed Plan.	Disallow
Greater Wellington Regional Council	351.228	General District wide Matters / Earthworks / New EW	Amend	Considers that the earthworks policies do not adequately recognise the potential impacts of sedimentation on tangata whenua values, particularly with regard to mahinga kai and access for mahinga kai purposes. A new policy should be inserted that recognises the potential adverse effects of earthworks on water bodies and mahinga kai and this should also be a relevant matter of discretion for restricted discretionary rules in this chapter, to have regard to Proposed RPS Change 1 (policy FW.3).	Add a new Policy to the Earthworks chapter to avoid adverse effects of earthworks on surface water bodies, Māori freshwater values, including mahinga kai and access.
Te Rūnanga o Toa Rangatira	488.67	General District wide Matters / Earthworks / New EW	Amend	Considers the potential impacts of earthworks and sedimentation on sites of significance need to be acknowledged as a separate policy.	Add new policy to EW chapter: <u>Avoid adverse effects of earthworks on Tangata Whenua freshwater values especially when they may impact on mahinga kai, kai moana and access.</u>
Te Rūnanga o Toa Rangatira	488.68	General District wide Matters / Earthworks / New EW	Amend	Considers that the Accidental Discovery Protocol and its implementation can be improved by embedding the process in the Earthworks chapter.	Add new policy to the Earthworks chapter that acknowledges the importance of Accidental Discovery to maintaining and protecting the sites and areas of significance to Māori and iwi.
Heritage New Zealand Pouhere Taonga	70.22	General District wide Matters / Earthworks / EW-01	Support in part	Supports EW-01 (Management of earthworks), provided an amendment is made to EW-01.2.	Retain EW-01 (Management of earthworks) with amendments.
Onslow Historical Society	FS6.12	Part 2 / General District wide Matters / Earthworks / EW-01	Support	OHS supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Historic Places Wellington Inc	FS111.11	Part 2 / General District wide Matters / Earthworks / EW-01	Support	HPW supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Heritage New Zealand Pouhere Taonga	70.23	General District wide Matters / Earthworks / EW-01	Amend	Considers that the potential adverse effects referenced in EW-01.2 are too narrow and restricted to 'adverse effects on visual amenity values'. Considers that EW-01 should be amended to allow for consideration of a broader range of adverse effects, and not limited to only visual amenity.	Amend EW-01 (Management of earthworks) as follows: ... 2. Minimises adverse effects <u>on the environment, including effects</u> on visual amenity values <u>and, including</u> changes to natural landforms. ...
Onslow Historical Society	FS6.13	Part 2 / General District wide Matters / Earthworks / EW-01	Support	OHS supports robust provisions for protecting historic heritage from inappropriate activities.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Historic Places Wellington Inc	FS111.12	Part 2 / General District wide Matters / Earthworks / EW-01	Support	HPW supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.22	General District wide Matters / Earthworks / EW-01	Not specified	<p>Considers that "Well functioning urban environment" does not apply to EW-01 because it does not comply with points d, f & g in the definition of "Well functioning urban environment" within the PDP.</p> <p>There is no link road from the development site to Churton Park, Glenside or Tawa has been planned.</p> <p>Development area is an isolated area on steep, hilly terrain.</p> <p>The access road from Westchester Drive is flood prone.</p> <p>West Glenside at 395 Middleton Road will not be Climate Change Sustainable and Natural Hazard Resilient.</p> <p>[Refer to original submission for full reason]</p>	Not specified.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.23	General District wide Matters / Earthworks / EW-01	Amend	Considers that Marshall's Ridge should be given protection through the strengthening of the policy.	Amend EW-01 (Management of earthworks) to give further protection to Marshall's Ridge and other ridgelines within the area.
Greater Wellington Regional Council	351.229	General District wide Matters / Earthworks / EW-01	Support	Considers that minimising the risks associated with slope instability is consistent with hazard provisions in the RPS. Supports slope failure being incorporated into the earthworks chapter to manage impacts on slope stability	Retain EW-01 (Management of earthworks) as notified.
WCC Environmental Reference Group	377.283	General District wide Matters / Earthworks / EW-01	Support	EW-01 is supported as it recognises the importance of earthworks being carried out in a way that reduces the potential adverse effects, particularly from sediment runoff impacting urban streams and the harbour.	Retain EW-01 (Management of earthworks) as notified.
Kāinga Ora Homes and Communities	391.269	General District wide Matters / Earthworks / EW-01	Support in part	Objective EW-01 is generally supported but an amendment is sought.	Retain Objective EW-01 (Management of Earthworks) with amendment.
Kāinga Ora Homes and Communities	391.270	General District wide Matters / Earthworks / EW-01	Amend	Considers that Objective EW-01 should be amended to be more specific with regard to the effect being managed. Kāinga Ora consider "visual amenity values" is too vague in the context of earthworks assessment.	<p>Amend Objective EW-01 (Management of Earthworks) as follows:</p> <p>Earthworks are undertaken in a manner that:</p> <ol style="list-style-type: none"> 1. Is consistent with the anticipated scale and form of development in the relevant zone; 2. Minimises adverse effects on visual amenity values, including changes to the appearance of natural landforms; 3. Minimises erosion and sediment effects beyond the site; 4. Minimises risks associated with slope instability; and 5. Protects the safety of people and property.
Wellington's Character Charitable Trust	FS82.139	Part 2 / General District wide Matters / Earthworks / EW-01	Oppose	Considers visual amenity is a well understood RMA concept and is an important consideration in assessing the appropriateness of earthworks activity.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.24	General District wide Matters / Earthworks / EW-P1	Not specified	<p>Considers that "Well functioning urban environment" does not apply to EW-P1 because it does not comply with points d, f & g in the definition of "Well functioning urban environment" within the PDP.</p> <p>There is no link road from the development site to Churton Park, Glenside or Tawa has been planned.</p> <p>Development area is an isolated area on steep, hilly terrain.</p> <p>The access road from Westchester Drive is flood prone.</p> <p>West Glenside at 395 Middleton Road will not be Climate Change Sustainable and Natural Hazard Resilient.</p> <p>[Refer to original submission for full reason]</p>	Not specified.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.25	General District wide Matters / Earthworks / EW-P2	Not specified	<p>Considers that "Well functioning urban environment" does not apply to EW-P2 because it does not comply with points d, f & g in the definition of "Well functioning urban environment" within the PDP.</p> <p>There is no link road from the development site to Churton Park, Glenside or Tawa has been planned.</p> <p>Development area is an isolated area on steep, hilly terrain.</p> <p>The access road from Westchester Drive is flood prone.</p> <p>West Glenside at 395 Middleton Road will not be Climate Change Sustainable and Natural Hazard Resilient.</p> <p>[Refer to original submission for full reason]</p>	Not specified.
Greater Wellington Regional Council	351.230	General District wide Matters / Earthworks / EW-P2	Support	Considers that minimising the risks associated with slope instability is consistent with hazard provisions in the RPS. Supports slope failure being incorporated into the earthworks chapter to manage impacts on slope stability	Retain EW-P2 (Provision for minor earthworks) as notified.
Greater Wellington Regional Council	351.231	General District wide Matters / Earthworks / EW-P2	Amend	Considers it appropriate to amend to have regard to the Objectives 19 and 20 and Policies 51 and 52 in Proposed Change 1 to RPS. Minimise is defined as "as low as reasonably practicable (ALARP)" and is in line with standard risk-based hazard management approaches. This leaves room for reduction as far as practicable but is a clearer signal than reduce or do not increase, to actively look to bring down the risk in the design and planning of the development.	Amend EW-P2 (Provision for minor earthworks) as follows: Enable the efficient use and development of land by providing for earthworks and associated structures where: 1. The risk associated with instability is minimised not increased ; ...
Toka Tū Ake EQC	FS70.40	Part 2 / General District wide Matters / Earthworks / EW-P2	Support	Toka Tū Ake EQC consider it appropriate for terminology consistent with GRWC proposed RPS Change 1, based on standard risk based hazard management approaches, to be used throughout the WCC proposed district plan. We agree that 'minimise' natural hazard risk is a clearer instruction to bring risk in development to levels as low as reasonably practical than 'reduce' and 'reduce or do not increase'.	Allow
WCC Environmental Reference Group	377.284	General District wide Matters / Earthworks / EW-P2	Support	Minor earthworks are important for many activities in the city: provision for these, within a clear expectation of 'best practice' is practical.	Retain EW-P2 (Provision for minor earthworks) as notified.
Kāinga Ora Homes and Communities	391.271	General District wide Matters / Earthworks / EW-P2	Support in part	EW-P2 is generally supported but an amendment is sought.	Retain EW-P2 (Provision for minor earthworks) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.272	General District wide Matters / Earthworks / EW-P2	Amend	Considers that EW-P2 should be amended to be more specific with regard to the effect being managed. Kāinga Ora consider "visual amenity" is too vague in the context of earthworks assessment.	Amend EW-P2 (Provision for minor earthworks) as follows: Enable the efficient use and development of land by providing for earthworks and associated structures where: 1. The risk associated with instability is not increased; 2. Erosion, dust and sedimentation effects on land and water bodies will be minimal; and 3. effects on visual amenity. The appearance of earthworks would be insignificant.
Wellington's Character Charitable Trust	FS82.140	Part 2 / General District wide Matters / Earthworks / EW-P2	Oppose	Considers visual amenity is a well understood RMA concept and is an important consideration in assessing the appropriateness of earthworks activity.	Disallow
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.26	General District wide Matters / Earthworks / EW-P3	Not specified	Considers that "Well functioning urban environment" does not apply to EW-P3 because it does not comply with points d, f & g in the definition of "Well functioning urban environment" within the PDP. There is no link road from the development site to Churton Park, Glenside or Tawa has been planned. Development area is an isolated area on steep, hilly terrain. The access road from Westchester Drive is flood prone. West Glenside at 395 Middleton Road will not be Climate Change Sustainable and Natural Hazard Resilient. [Refer to original submission for full reason]	Not specified.
Greater Wellington Regional Council	351.232	General District wide Matters / Earthworks / EW-P3	Support	Considers that minimising the risks associated with slope instability is consistent with hazard provisions in the RPS. Supports slope failure being incorporated into the earthworks chapter to manage impacts on slope stability	Retain EW-P3 (Maintaining stability) as notified.
Kāinga Ora Homes and Communities	391.273	General District wide Matters / Earthworks / EW-P3	Support in part	EW-P3 is generally supported but an amendment is sought.	Retain EW-P3 (Maintaining stability) with amendment.
Kāinga Ora Homes and Communities	391.274	General District wide Matters / Earthworks / EW-P3	Amend	Considers that EW-P3 should be amended to remove reference to examples to simplify the policy.	Amend EW-P3 (Maintaining stability) as follows: Require earthworks to be designed and carried out in a manner that maintains slope stability and minimises the risk of slope failure associated with natural hazards such as earthquakes and increased rainfall intensities arising from climate change.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.27	General District wide Matters / Earthworks / EW-P4	Not specified	Considers that "Well functioning urban environment" does not apply to EW-P4 because it does not comply with points d, f & g in the definition of "Well functioning urban environment" within the PDP. There is no link road from the development site to Churton Park, Glenside or Tawa has been planned. Development area is an isolated area on steep, hilly terrain. The access road from Westchester Drive is flood prone. West Glenside at 395 Middleton Road will not be Climate Change Sustainable and Natural Hazard Resilient. [Refer to original submission for full reason]	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.233	General District wide Matters / Earthworks / EW-P4	Support in part	Supports the requirement for earthworks to adopt effective erosion and sediment control measures and dust control measures for earthworks proposals	Retain EW-P4 (Erosion, dust and sediment control) with amendment.
Greater Wellington Regional Council	351.234	General District wide Matters / Earthworks / EW-P4	Amend	Considers that to have regard to Proposed RPS Change 1 (policies FW.3 and 15) and give effect to the NPS-FM, this policy should be strengthened to better protect waterways and the coastal environment. This policy should more directly require details about erosion sediment control methods that are currently incorporated as assessment matters and their provision through erosion and sediment control plans. This will aid in the understanding of requirements by plan users	Seeks to amend EW-P4 (Erosion, dust and sediment control) to require erosion and sediment control measures which are designed and will be managed in accordance the principles and methods in the GWRC's Erosion and Sediment Control Guide for Land Disturbing Activities in the Wellington Region 2021 and which are set out in an erosion and sediment control plan.
WCC Environmental Reference Group	377.285	General District wide Matters / Earthworks / EW-P4	Support	EW-P4 is supported as it gives a clear expectation that earthwork risks such as erosion, sediment and dust are properly managed, which is essential to improving protections for freshwater, and reducing dust nuisance, within the city.	Retain EW-P4 (Erosion, dust and sediment control) as notified.
John Tiley	142.18	General District wide Matters / Earthworks / EW-P5	Amend	Considers that once a ridgeline or hilltop is compromised to any extent, effects cannot be minimised, mitigated or remedied. This wording is misleading.	Seeks that EW-P5 (Effects on earthworks on landform and visual amenity) is rewritten.
Churton Park Community Association	189.18	General District wide Matters / Earthworks / EW-P5	Amend	Considers that once a ridgeline or hilltop is compromised to any extent, effects cannot be minimised, mitigated or remedied. This wording is misleading.	Seeks that EW-P5 (Effects on earthworks on landform and visual amenity) is rewritten.
Horokiwi Quarries Ltd	271.52	General District wide Matters / Earthworks / EW-P5	Not specified	Neutral on the policy directive to minimise adverse effects on natural landforms.	Not specified.
Horokiwi Quarries Ltd	271.53	General District wide Matters / Earthworks / EW-P5	Amend	Opposes the reference to hilltops and ridgelines, noting the Hilltops and Ridgelines are specifically addressed in NFL-P2 .	Amend EW-P5 (Effects on earthworks on landform and visual amenity) as follows: Require earthworks and associated structures, including structures used to retain or stabilise landslips, to be designed and constructed to minimise adverse effects on natural landforms and visual amenity and where located within identified ridgelines and hilltops ensure the effects are mitigated or remedied.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.28	General District wide Matters / Earthworks / EW-P5	Amend	Considers that Marshall's Ridge should be given protection through the strengthening of the policy.	Amend EW-P5 (Effects on earthworks on landform and visual amenity) to give further protection to Marshall's Ridge and other ridgelines within the area.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.29	General District wide Matters / Earthworks / EW-P5	Not specified	Considers that "Well functioning urban environment" does not apply to EW-P5 because it does not comply with points d, f & g in the definition of "Well functioning urban environment" within the PDP. There is no link road from the development site to Churton Park, Glenside or Tawa has been planned. Development area is an isolated area on steep, hilly terrain. The access road from Westchester Drive is flood prone. West Glenside at 395 Middleton Road will not be Climate Change Sustainable and Natural Hazard Resilient. [Refer to original submission for full reason]	Not specified
WCC Environmental Reference Group	377.286	General District wide Matters / Earthworks / EW-P5	Support	EW-P5 is supported as it gives a clear expectation that earthworks must be done in a way that does not compromise landscape values, which form an important part of Wellington's natural character.	Retain EW-P5 (Effects on earthworks on landform and visual amenity) as notified.
Kāinga Ora Homes and Communities	391.275	General District wide Matters / Earthworks / EW-P5	Support in part	EW-P5 is generally supported but an amendment is sought.	Retain EW-P5 (Effects on earthworks on landform and visual amenity) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.276	General District wide Matters / Earthworks / EW-P5	Amend	Considers that EW-P5 should be amended to be more specific with regard to the effect being managed. Kāinga Ora consider “visual amenity” is too vague in the context of earthworks assessment.	Amend EW-P5 (Effects on earthworks on landform and visual amenity) as follows: Require earthworks and associated structures, including structures used to retain or stabilise landslips, to be designed and constructed to minimise adverse effects on <u>the appearance of natural landforms and visual amenity</u> and where located within identified ridgelines and hilltops ensure the effects are mitigated or remedied.
Waka Kotahi	370.205	General District wide Matters / Earthworks / EW-P6	Support	Supports wording of policy as notified as it provides for management of effects on the transport network	Retain EW-P6 (Earthworks and the transport network) as notified.
Heritage New Zealand Pouhere Taonga	70.24	General District wide Matters / Earthworks / EW-P7	Support in part	[No reasons given other than decision, refer to original submission]	Retain EW-P7 (Earthworks on the site of heritage buildings and heritage structures, and within heritage areas) with amendment.
Onslow Historical Society	FS6.14	Part 2 / General District wide Matters / Earthworks / EW-P7	Support	OHS supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Historic Places Wellington Inc	FS111.13	Part 2 / General District wide Matters / Earthworks / EW-P7	Support	HPW supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Heritage New Zealand Pouhere Taonga	70.25	General District wide Matters / Earthworks / EW-P7	Amend	Considers that for improved consistency, EW-P7 should also cover scheduled archaeological sites and Sites of Significance to Māori.	Amend EW-P7 (Earthworks on the site of heritage buildings and heritage structures, and within heritage areas) as follows: EW-P7: Earthworks on the site of heritage buildings, and heritage structures, and within heritage areas, <u>within the extent of scheduled archaeological sites and within Sites and Areas of Significance to Māori.</u> Manage earthworks within sites occupied by heritage buildings and heritage structures, and within heritage areas, <u>within the extent of scheduled archaeological sites and within Sites and Areas of Significance to Māori</u> , having regard to: 1. The identified heritage values of the scheduled item or heritage building, heritage structure or heritage area; 2. The extent to which the earthworks would detract from those identified values and setting; and 3. Whether the earthworks can be achieved without altering the significance of the item or heritage area.
Onslow Historical Society	FS6.15	Part 2 / General District wide Matters / Earthworks / EW-P7	Support	OHS supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Historic Places Wellington Inc	FS111.14	Part 2 / General District wide Matters / Earthworks / EW-P7	Support	HPW supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Te Rūnanga o Toa Rangatira	FS138.10	Part 2 / General District wide Matters / Earthworks / EW-P7	Support	The submitter seeks for additional policies to be added to the earthworks chapter to address archaeological sites and Sites of Significance to Māori. Te Rūnanga o Toa Rangatira support this submission because sites of significance to Māori should be taken into account and protected in relation to earthworks.	Allow
WCC Environmental Reference Group	377.287	General District wide Matters / Earthworks / EW-P7	Support	EW-P7 is supported as it gives a clear expectation that earthworks must be done in a way that does not compromise landscape values, which form an important part of Wellington's natural character.	Retain EW-P7 (Earthworks on the site of heritage buildings and heritage structures, and within heritage areas) as notified.
WCC Environmental Reference Group	377.288	General District wide Matters / Earthworks / EW-P8	Support	EW-P8 is supported as it provides for earthworks whilst requiring they do not risk notable trees is practical	Retain EW-P8 (Earthworks within the root protection area of notable trees) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.363	General District wide Matters / Earthworks / EW-P9	Oppose in part	Notes that the Earthworks chapter introduction states that the Earthworks Chapter includes policies and rules that implement the objectives in the Ecosystems and Indigenous Biodiversity Chapter where earthworks proposals affect Significant Natural Areas. This policy takes a different approach to the ECO policy dealing with appropriate uses in SNAs (ECO P2). ECO P2 lists the purposes for which vegetation clearance may be appropriate. This policy is silent on the reasons why earthworks may be acceptable. We oppose this approach, as the policy may be used in support of activities beyond those which were intended to be provided for. Seeks that the policy list the relevant activities (as the similar ECO policy does) in an exhaustive list. 'Identified values' will not necessarily protect all the relevant values.	Amend EW-P9 (Minor earthworks within significant natural areas): <u>Consider enabling</u> Enable earthworks within Significant Natural Areas identified within SCHED8 where they are of a minor scale and nature that maintains the identified biodiversity values, <u>to provide for:</u> (list permitted activities only, in accordance with our submission below on the Permitted rules)
Royal Forest and Bird Protection Society	345.364	General District wide Matters / Earthworks / EW-P9	Oppose in part	As an alternative to the above submission point, delete this policy and rely on EW-P10.	Delete EW-P9 (Minor earthworks within significant natural areas).
Greater Wellington Regional Council	351.235	General District wide Matters / Earthworks / EW-P9	Amend	Considers the tenure of these policies is more enabling than other similar policies which 'only allow for earthworks where..'	Amend EW-P9 (Minor earthworks within significant natural areas): <u>Enable Only allow for</u> earthworks within Significant Natural Areas identified within SCHED8 where they are of a minor scale and nature that maintains the identified biodiversity values.
WCC Environmental Reference Group	377.289	General District wide Matters / Earthworks / EW-P9	Support	EW-P9 is supported as it provides for earthworks in SNA areas, whilst requiring they maintain biodiversity values, is practical.	Retain EW-P9 (Minor earthworks within significant natural areas) as notified.
Director-General of Conservation	385.70	General District wide Matters / Earthworks / EW-P9	Support	Supports proposed Policy EW-P9 (Minor earthworks within significant natural areas).	Retain policy EW-P9 (Minor earthworks within significant natural areas) as notified.
Horokiwi Quarries Ltd	271.54	General District wide Matters / Earthworks / EW-P10	Not specified	Considers that the ECO policy cross references should be clarified as to whether they are correct.	Seeks that the ECO policy cross references in EW-P10 (Earthworks within significant natural areas) should be clarified as to whether they are correct. [Inferred decision requested]
Horokiwi Quarries Ltd	271.55	General District wide Matters / Earthworks / EW-P10	Support	Supports that EW-10 defers to policies within the ECO Chapter.	Retain EW-P10 (Earthworks within significant natural areas) as notified.
Royal Forest and Bird Protection Society	345.365	General District wide Matters / Earthworks / EW-P10	Support in part	Considers this chapter takes a different approach to the Subdivision chapter – in the Subdivision chapter, policies from the ECO chapter are (roughly) replicated. In the Earthworks chapter however, the policy is framed with reference back to the relevant ECO policies. In our view, that is simpler approach which should be consistent across the plan's chapters. In our alternative relief for EW-P9, we sought that that policy was deleted and instead earthworks in SNAs were managed by EW-10 only. The policy should not start from a direction to provide for earthworks. The references to ECO policies need to be updated to ensure they are accurate. We have attempted to rectify this below	Amend EW-P10 (Earthworks within significant natural areas): <u>Consider providing Provide</u> for earthworks of a more than minor scale within Significant Natural Areas only where it can be demonstrated that any adverse effects on indigenous biodiversity values are addressed in accordance with ECO-P2 ₁ and the matters in ECO-P4 ₃ and ECO-P7 ₅ .
Greater Wellington Regional Council	351.236	General District wide Matters / Earthworks / EW-P10	Amend	Considers the tenure of these policies is more enabling than other similar policies which 'only allow for earthworks where..'	Amend EW-P10 (Earthworks within significant natural areas): <u>Provide Only allow for</u> earthworks of a more than minor scale within Significant Natural Areas only where it can be demonstrated that any adverse effects on indigenous biodiversity values are addressed in accordance with ECO-P2 and the matters in ECO-P4 and ECO-P7.
WCC Environmental Reference Group	377.290	General District wide Matters / Earthworks / EW-P10	Support	EW-P10 is supported as it provides for earthworks in SNA areas, whilst requiring they maintain biodiversity values, is practical.	Retain EW-P10 (Earthworks within significant natural areas) as notified.
Director-General of Conservation	385.71	General District wide Matters / Earthworks / EW-P10	Support in part	Supports in part Policy EW-P10 (Earthworks within significant natural areas). Policy EW-10 references ECO-P2, however it seems more likely that this point should refer to ECO-P1.	Supports policy EW-P10 (Earthworks within significant natural areas) in part, but seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Director-General of Conservation	385.72	General District wide Matters / Earthworks / EW-P10	Amend	Considers that policy EW-10 should be clarified. Policy EW-10 references ECO-P2, however it seems more likely that this point should refer to ECO-P1.	Seeks clarification confirm whether the correct policies are referenced under EW-P10 (Earthworks within significant natural areas).
Director-General of Conservation	385.73	General District wide Matters / Earthworks / EW-P10	Amend	Considers that policy EW-10 should be clarified. Policy EW-10 references ECO-P2, however it seems more likely that this point should refer to ECO-P1.	Seeks that after clarification of referred policies in policy EW-P10 Earthworks within significant natural areas, that the wording of policy EW-P10 be changed.
Royal Forest and Bird Protection Society	345.366	General District wide Matters / Earthworks / EW-P11	Support in part	Considers it is inconsistent with NZCPS policy 13 to only extent protection to high natural character areas. As such, this policy needs to apply to any area of natural character in the coastal environment, not only HNC areas in SCHED 12. As previously submitted, policies should not refer to identified values. Operational need is extremely broad and should be deleted.	Amend EW-P11 (Earthworks within High Coastal Natural Character Areas within the coastal environment): Only allow for earthworks within High Coastal Natural Character Areas where: 1. They are of a scale and for a purpose that is compatible with the identified values described in SCHED12 , including restoration and conservation activities; 2. They are undertaken in a manner that avoids significant adverse effects and avoids, remedies or mitigates any other adverse effects on the identified values of the High Coastal Natural Character Areas described in SCHED12 ; 3. There is a functional need or operational need for the earthworks to be undertaken within a High Coastal Natural Character Area; and 4. They incorporate measures to restore and rehabilitate disturbed areas.
WCC Environmental Reference Group	377.291	General District wide Matters / Earthworks / EW-P11	Support	EW-P11 is supported as it provides for earthworks in high natural character coastal areas, whilst requiring the avoidance of adverse effects sends an important signal for particular care to be taken in such sensitive environments.	Retain EW-P11 (Earthworks within High Coastal Natural Character Areas within the coastal environment) as notified.
Royal Forest and Bird Protection Society	345.367	General District wide Matters / Earthworks / EW-P12	Support in part	Considers the policy is not clear as to whether the requirements at 1-5 also apply to the Port Zone etc. Considers those requirements do need to apply in all zones. Operational need is extremely broad and should be deleted.	Amend EW-P12 (Earthworks within coastal margins and riparian margins within the coastal environment) to clarify whether requirements 1-5 apply to the Port Zone. ... 3. There is a functional need or operational need for the earthworks to be undertaken within a coastal or riparian margin;
Greater Wellington Regional Council	351.237	General District wide Matters / Earthworks / EW-P12	Amend	Considers the tenure of these policies is more enabling than other similar policies which 'only allow for earthworks where..'	Amend EW-P12 (Earthworks within coastal margins and riparian margins within the coastal environment) as follows: <u>Provide Only allow</u> for earthworks within coastal margins and riparian margins within the coastal environment where located inside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone or City Centre Zone; and ...
WCC Environmental Reference Group	377.292	General District wide Matters / Earthworks / EW-P12	Support	EW-P12 is supported as it provides for earthworks in coastal and riparian margins gives an important signal for particular care to be taken in such sensitive environments where there is a real risk to water quality and habitat. The cumulative impacts from this within a city environment means that each such activity must be undertaken with a high level of care.	Retain EW-P12 (Earthworks within coastal margins and riparian margins within the coastal environment) as notified.
Director-General of Conservation	385.74	General District wide Matters / Earthworks / EW-P12	Support	Supports proposed Policy EW-P12 which is in line with the NZCPS.	Retain Policy EW-P12 (Earthworks within coastal margins and riparian margins within the coastal environment) as notified.
Wellington International Airport Ltd	406.365	General District wide Matters / Earthworks / EW-P12	Oppose	Opposes this policy to the extent that it does not recognise or provide for the existing hard engineering structures located between Lyall Bay and Moa Point which protect regionally significant infrastructure, including WCC's wastewater network and Wellington International Airport, as well as Moa Point Road, from the effects of coastal erosion. Or relief to a similar effect if the area of Natural Open Space zoned land is rezoned to an alternative zoning. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Opposes EW-P12 (Earthworks within coastal margins and riparian margins within the coastal environment) and seeks amendment.

Guardians of the Bays Inc	FS44.135	Part 2 / General District wide Matters / Earthworks / EW-P12	Oppose	Considers Natural Open Space Zone Between Lyall Bay and Moa Point include areas below MHWS. Much of the earthworks being considered for this area will be subject s6 matter of national importance and promotes integrated management and consistency with regional plan.	Disallow
Wellington International Airport Ltd	406.366	General District wide Matters / Earthworks / EW-P12	Amend	<p>Opposes this policy to the extent that it does not recognise or provide for the existing hard engineering structures located between Lyall Bay and Moa Point which protect regionally significant infrastructure, including WCC's wastewater network and Wellington International Airport, as well as Moa Point Road, from the effects of coastal erosion.</p> <p>Or relief to a similar effect if the area of Natural Open Space zoned land is rezoned to an alternative zoning.</p> <p>[See paragraphs 4.40 to 4.45 of original submission for full reason]</p>	<p>Amend EW-P12 (Earthworks within coastal margins and riparian margins within the coastal environment) as follows:</p> <p>Provide for earthworks within coastal margins and riparian margins within the coastal environment where located inside the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone or City Centre Zone, <u>and within the Natural Open Space Zone between Lyall Bay and Moa Point</u>; and</p> <p>Only allow for earthworks within coastal and riparian margins in the coastal environment located outside of the Port Zone, Airport Zone, Stadium Zone, Waterfront Zone or the City Centre Zone <u>or the Natural Open Space Zone between Lyall Bay and Moa Point</u> where:</p> <p>...</p> <p>4. They would not significantly increase the flooding risk, when compared to the existing situation, including by compromising the effectiveness of community scale natural hazard mitigation structures; and</p> <p>5. They incorporate measures to restore and rehabilitate disturbed areas; <u>and</u></p> <p><u>6. They involve earthworks that support or protect regionally significant infrastructure.</u></p> <p>... (Option A).</p>
Guardians of the Bays Inc	FS44.136	Part 2 / General District wide Matters / Earthworks / EW-P12	Oppose	Considers Natural Open Space Zone Between Lyall Bay and Moa Point include areas below MHWS. Much of the earthworks being considered for this area will be subject s6 matter of national importance and promotes integrated management and consistency with regional plan.	Disallow
Wellington International Airport Ltd	406.367	General District wide Matters / Earthworks / EW-P12	Amend	<p>Opposes this policy to the extent that it does not recognise or provide for the existing hard engineering structures located between Lyall Bay and Moa Point which protect regionally significant infrastructure, including WCC's wastewater network and Wellington International Airport, as well as Moa Point Road, from the effects of coastal erosion.</p> <p>Or relief to a similar effect if the area of Natural Open Space zoned land is rezoned to an alternative zoning.</p> <p>[See paragraphs 4.40 to 4.45 of original submission for full reason]</p>	<p>If EW-P12 (Earthworks within coastal margins and riparian margins within the coastal environment) is not amended:</p> <p>Seeks that EW-P12 (Earthworks within coastal margins and riparian margins within the coastal environment) is amended to a similar effect if the area of Natural Open Space zoned land is rezoned to an alternative zoning. (Option B).</p>
Guardians of the Bays Inc	FS44.137	Part 2 / General District wide Matters / Earthworks / EW-P12	Oppose	Considers Natural Open Space Zone Between Lyall Bay and Moa Point include areas below MHWS. Much of the earthworks being considered for this area will be subject s6 matter of national importance and promotes integrated management and consistency with regional plan.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.368	General District wide Matters / Earthworks / EW-P12	Oppose	Opposes this policy to the extent that it does not recognise or provide for the existing hard engineering structures located between Lyall Bay and Moa Point which protect regionally significant infrastructure, including WCC's wastewater network and Wellington International Airport, as well as Moa Point Road, from the effects of coastal erosion. Or relief to a similar effect if the area of Natural Open Space zoned land is rezoned to an alternative zoning. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Delete EW-P12 (Earthworks within coastal margins and riparian margins within the coastal environment) in its entirety. (Option C).
Guardians of the Bays Inc	FS44.138	Part 2 / General District wide Matters / Earthworks / EW-P12	Oppose	Considers Natural Open Space Zone Between Lyall Bay and Moa Point include areas below MHWS. Much of the earthworks being considered for this area will be subject s6 matter of national importance and promotes integrated management and consistency with regional plan.	Disallow
Royal Forest and Bird Protection Society	345.368	General District wide Matters / Earthworks / EW-P13	Support in part	Seeks deletion of "operational need" as it is too broad.	Amend EW-P13 (Earthworks within riparian margins outside of the coastal environment): ... 2. There is a functional need or operational need for the earthworks to be undertaken within a riparian margin;
WCC Environmental Reference Group	377.293	General District wide Matters / Earthworks / EW-P13	Amend	Considers that EW-P13 needs strengthening to reflect that poor earthworks management can have negative effects on both urban streams and the harbour.	Seeks a new point added to EW-P13 (Earthworks within riparian margins outside of the coastal environment). This is requested to be added after Point number 1 and read: <u>They are undertaken in a manner that avoids significant adverse effects and avoids, remedies or mitigates any other adverse effects on the natural character of the riparian margin;</u>
Horokiwi Quarries Ltd	271.56	General District wide Matters / Earthworks / EW-P14	Oppose	Opposes EW-14 because of potential relevance to Horokiwi for any earthworks undertaken on the land forming part of the quarry on the eastern side of the Horokiwi Road, which do not fall within the existing use certificate. The land is within a special amenity landscape with a large portion within the coastal environment, and zoned General Rural. [Refer to original submission for full reason, including attachments]	Seeks that the coastal environment line as it relates to Horokiwi is amended. [Refer to original submission, including figure and attachments]
Kilmarston Developments Limited and Kilmarston Properties Limited	290.45	General District wide Matters / Earthworks / EW-P14	Support in part	Considers that the MRZ area of their land will be subject to another layer of restrictions for earthworks to facilitate the proposed residential development of the site.	Retain EW-P14 (Earthworks within special amenity landscapes) as notified.
Royal Forest and Bird Protection Society	345.369	General District wide Matters / Earthworks / EW-P14	Support in part	Seeks deletion of references to 'identified' values.	Amend EW-P14 (Earthworks within special amenity landscapes): Manage earthworks within identified special amenity landscapes as follows: 1. Provide for earthworks within special amenity landscapes outside the coastal environment only where: a. They maintain the identified values of the special amenity landscape; and b. They are undertaken in a way that avoids, remedies or mitigates any adverse effects on the identified values of the special amenity landscape. 2. Provide for earthworks within special amenity landscapes within the coastal environment only where: a. They maintain the identified values of the special amenity landscape; and b. They are undertaken in a way that avoids any significant adverse effects and avoids, remedies or mitigates any other adverse effects on the identified values of the special amenity landscape. 3. Require earthworks within special amenity landscapes to incorporate measures that: a. Restore or rehabilitate disturbed areas; b. Minimise changes to the landform; and c. Recognise and provide for Tangata Whenua cultural and spiritual values and practices.
WCC Environmental Reference Group	377.294	General District wide Matters / Earthworks / EW-P14	Support	EW-P14 is supported as it provides for earthworks in special amenity landscapes gives an important signal that ensures earthworks do not compromise landscape values, which form an important part of Wellington's natural character.	Retain EW-P14 (Earthworks within special amenity landscapes) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.370	General District wide Matters / Earthworks / EW-P15	Support in part	Seeks deletion of references to 'identified' values.	Amend EW-P15 (Earthworks within outstanding natural features and landscapes): Manage earthworks within identified outstanding natural features and landscapes as follows: 1. Only allow for earthworks within outstanding natural features and landscapes outside the coastal environment where: a. They are of a scale that protects the identified values of the outstanding natural features and landscapes; and b. They are undertaken in a way that avoids any significant adverse effects and avoids, remedies or mitigates any other adverse effects on the identified values of the outstanding natural features and landscapes. 2. Avoid earthworks within outstanding natural features and landscapes within the coastal environment unless: a. They are of a scale that protects with the identified values of the outstanding natural features and landscapes; and b. They are undertaken in a way that avoids any adverse effects on the identified values of the outstanding natural features and landscapes. 3. Require earthworks within outstanding natural landscapes to incorporate measures that: a. Restore or rehabilitate disturbed areas; b. Minimise changes to the landform; and c. Recognise and provide for Tangata Whenua cultural and spiritual values and practices.
WCC Environmental Reference Group	377.295	General District wide Matters / Earthworks / EW-P15	Support	EW-P15 is supported as it provides for earthworks in outstanding natural features and landscapes gives an important signal that ensures earthworks do not compromise these values, which form an important part of Wellington's natural character.	Retain EW-P15 (Earthworks within outstanding natural features and landscapes) as notified.
Director-General of Conservation	385.75	General District wide Matters / Earthworks / EW-P15	Support	Supports proposed Policy EW-P15 which is in line with Policies 13 & 15 of the NZCPS.	Retain Policy EW-P15 (Earthworks within outstanding natural features and landscapes) as notified.
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.30	General District wide Matters / Earthworks / EW-P16	Not specified	Considers that "Well functioning urban environment" does not apply to EW-P16 because it does not comply with points d, f & g in the definition of "Well functioning urban environment" within the PDP. There is no link road from the development site to Churton Park, Glenside or Tawa has been planned. Development area is an isolated area on steep, hilly terrain. The access road from Westchester Drive is flood prone. West Glenside at 395 Middleton Road will not be Climate Change Sustainable and Natural Hazard Resilient. [Refer to original submission for full reason]	Not specified.
Greater Wellington Regional Council	351.238	General District wide Matters / Earthworks / EW-P16	Support	Considers it is essential to limit earthworks undertaken within Flood Hazard Overlays, allowing them only where the flooding risk is not increased, and the conveyance of floodwaters is not affected.	Retain EW-P16 (Earthworks within Flood Hazard Overlays) as notified.
Royal Forest and Bird Protection Society	345.371	General District wide Matters / Earthworks / EW-P17	Support	Supports the policy.	Retain EW-P17 (Earthworks on community scale natural hazard mitigation structures) as notified.
Greater Wellington Regional Council	351.239	General District wide Matters / Earthworks / EW-P17	Support	Considers it is important to restrict the earthworks undertaken on community scale natural hazard mitigation structures, only allowing these works where the form and functioning of these structures is not affected in the long term.	Retain EW-P17 (Earthworks on community scale natural hazard mitigation structures) as notified.
Royal Forest and Bird Protection Society	345.372	General District wide Matters / Earthworks / EW-P18	Support	Supports the policy.	Retain EW-P18 (Earthworks associated with natural hazard mitigation works) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.240	General District wide Matters / Earthworks / EW-P18	Support	Considers it is appropriate to enable earthworks associated with natural hazard mitigation works where the matters listed in the policy result, including a reduction in the risk at a community scale and are part of a planned works programme.	Retain EW-P18 (Earthworks associated with natural hazard mitigation works) as notified.
CentrePort Limited	402.123	General District wide Matters / Earthworks / EW-P18	Support in part	Considers that CentrePort should be listed as appropriate to carry out natural hazard mitigation works. CentrePort holds considerable land that also adjoins the Coastal Marine Area and has extensive network and land transport infrastructure within these landholdings. Natural Hazard Mitigation works are required from time to time. The agencies listed do not include CentrePort as being appropriate to carry out such works.	Retain EW-P18 (Earthworks associated with natural hazard mitigation works), with amendment.
CentrePort Limited	402.124	General District wide Matters / Earthworks / EW-P18	Amend	Considers that CentrePort should be listed as appropriate to carry out natural hazard mitigation works. CentrePort holds considerable land that also adjoins the Coastal Marine Area and has extensive network and land transport infrastructure within these landholdings. Natural Hazard Mitigation works are required from time to time. The agencies listed do not include CentrePort as being appropriate to carry out such works.	Amend EW-P18 (Earthworks associated with natural hazard mitigation works) as follows: ... 2. They are part of a planned natural hazard mitigation works programme by a central government agency, GWRC, the Council, <u>CentrePort</u> or a nominated contractor or agent and will be maintained by one or more of these parties at the completion of the works; ...
Royal Forest and Bird Protection Society	345.373	General District wide Matters / Earthworks / EW-P19	Support	Supports the policy.	Retain EW-P19 (Earthworks associated with soft engineering natural hazard mitigation works) as notified.
Greater Wellington Regional Council	351.241	General District wide Matters / Earthworks / EW-P19	Support	Considers it is appropriate to provide for earthworks associated with soft engineering natural hazard mitigation works where there is a risk reduction benefit, and do not increase the risk to another property, and have a maintenance programme in place.	Retain EW-P19 (Earthworks associated with soft engineering natural hazard mitigation works) as notified.
CentrePort Limited	402.125	General District wide Matters / Earthworks / EW-P19	Support in part	Considers that CentrePort should be listed as appropriate to carry out natural hazard mitigation works. CentrePort holds considerable land that also adjoins the Coastal Marine Area and has extensive network and land transport infrastructure within these landholdings. Natural Hazard Mitigation works are required from time to time. The agencies listed do not include CentrePort as being appropriate to carry out such works.	Retain EW-P19 (Earthworks associated with soft engineering natural hazard mitigation works), with amendment.
CentrePort Limited	402.126	General District wide Matters / Earthworks / EW-P19	Amend	Considers that CentrePort should be listed as appropriate to carry out natural hazard mitigation works. CentrePort holds considerable land that also adjoins the Coastal Marine Area and has extensive network and land transport infrastructure within these landholdings. Natural Hazard Mitigation works are required from time to time. The agencies listed do not include CentrePort as being appropriate to carry out such works.	Amend EW-P19 (Earthworks associated with soft engineering natural hazard mitigation works) as follows: ... 2. They are undertaken by a central government agency, GWRC, the Council, <u>CentrePort</u> or a nominated contractor or agent; ...
Wellington City Council	266.119	General District wide Matters / Earthworks / EW-P20	Amend	Considers amendment will clarify how EW-P20 (Earthworks in development areas) applies to the Upper Stebbings and Glenside West Development Area and ridgetop area.	Amend EW-P20 (Earthworks in development areas) as follows: Enable earthworks associated with the development of the Lincolnshire Farm and Upper Stebbings Glenside West Development Areas where the design of those earthworks: (...) 5. Protects ridgeline and hilltop <u>ridgetop</u> areas from inappropriate earthworks.
Greater Wellington Regional Council	351.242	General District wide Matters / Earthworks / EW-P20	Amend	Considers the tenure of these policies is more enabling than other policies. These greenfield developments have the potential for significant effects on surrounding areas in terms of compatibility and effects downstream in Porirua Stream and Onepoto Arm of Porirua Harbour.	Amend EW-P20 (Earthworks in development areas) as follows: Enable Only allow for earthworks associated with the development of the Lincolnshire Farm and Upper Stebbings Glenside West Development Areas where the design of those earthworks: ...
Glenside Progressive Association Inc	374.3	General District wide Matters / Earthworks / EW-P20	Oppose in part	Opposes any earthworks in the Glenside West Area, as it is meant to be a protected area under DPC33.	EW-P20 (Earthworks in development areas) is opposed.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.2	Part 2 / General District wide Matters / Earthworks / EW-P20	Oppose	The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth.	Disallow
WCC Environmental Reference Group	377.296	General District wide Matters / Earthworks / EW-P20	Support	EW-P20 is supported as it provides for earthworks for reasons including development of water sensitive design, is useful, as this sort of design needs to be encouraged in green fields development areas.	Retain EW-P20 (Earthworks in development areas) as notified.
Te Rūnanga o Toa Rangatira	488.69	General District wide Matters / Earthworks / EW-P20	Support in part	Supports EW-P20 in part.	Amend EW-P20 (Earthworks in development areas) by adding a clause that specifies: <u>Earthworks in development areas will avoid practices that will send additional sediment to Porirua Harbour and will avoid impacts downstream of Porirua Stream.</u>
Waka Kotahi	370.206	General District wide Matters / Earthworks / EW-R1	Support	Supports earthworks as a permitted activity for the purposes of piling, trenching, and geotechnical investigations, and restricted discretionary where standards are not complied with.	Retain EW-R1 (Earthworks for the purposes of piling, trenching, maintaining sports fields, undertaking geotechnical investigations and grave digging, the replacement or removal of underground petroleum storage systems associated with service stations) as notified.
KiwiRail Holdings Limited	FS72.65	Part 2 / General District wide Matters / Earthworks / EW-R1	Support	Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Allow
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.92	General District wide Matters / Earthworks / EW-R1	Support in part	EW-R1 is generally supported as specific pathway for the replacement or removal of underground petroleum storage systems associated with service stations as a permitted activity subject to compliance with Standards EW-S5 and EW-S6. This approach is supported in part, given this is an activity specifically addressed and managed under the NESCS, but it is considered this activity should not be limited to just service stations and should apply more broadly to other sites and activities that may necessitate the removal or replacement of underground petroleum systems.	Retain EW-R1 (Earthworks for the purposes of piling, trenching, maintaining sports fields, undertaking geotechnical investigations and grave digging, the replacement or removal of underground petroleum storage systems associated with service stations) with amendment.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.93	General District wide Matters / Earthworks / EW-R1	Amend	Considers that 'service stations' should be excluded from EW-R1. It is considered Earthworks should not be limited to just service stations and should apply more broadly to other sites and activities that may necessitate the removal or replacement of underground petroleum systems.	Amend the title of EW-R1 (Earthworks for the purposes of piling, trenching, maintaining sports fields, undertaking geotechnical investigations and grave digging, the replacement or removal of underground petroleum storage systems associated with service stations) as follows: Earthworks for the purposes of piling, trenching, maintaining sports fields, undertaking geotechnical investigations and grave digging, the replacement or removal of underground petroleum storage systems associated with service stations.
WCC Environmental Reference Group	377.297	General District wide Matters / Earthworks / EW-R2	Support	EW-R2 is supported as it provides for earthworks activities whilst providing discretion on potential environmental risks.	Retain EW-R2 (Earthworks for the purposes of maintaining tracks associated with permitted activities in Rural Zones) as notified.
Zealandia Te Māra a Tāne	486.7	General District wide Matters / Earthworks / EW-R2	Amend	Considers that EW-R2 should be amended with an additional clause that enables Zealandia operations to continue as per other areas in the plan. Considers that EW-R2 may prevent maintenance and management work of bridges and associated infrastructure within Zealandia.	Amend EW-R2 (Earthworks for the purposes of maintaining tracks associated with permitted activities in Rural Zones) to list the Karori Sanctuary Trust as an approved operator.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.298	General District wide Matters / Earthworks / EW-R3	Support	EW-R3 is supported as it provides for earthworks activities whilst providing discretion on potential environmental risks.	Retain EW-R3 (Earthworks for the purposes of constructing tracks associated with permitted activities in Rural Zones) as notified.
Waka Kotahi	370.207	General District wide Matters / Earthworks / EW-R4	Support	Supports permitted activity status for earthworks for the purposes of maintaining public walking or cycling tracks in open space zones and restricted discretionary where standards are not complied with.	Retain EW-R4 (Earthworks for the purposes of maintaining public walking or cycling tracks in Open Space Zones) as notified.
WCC Environmental Reference Group	377.299	General District wide Matters / Earthworks / EW-R4	Support	EW-R4 is supported as it provides for earthworks activities whilst providing discretion on potential environmental risks.	Retain EW-R4 (Earthworks for the purposes of maintaining public walking or cycling tracks in Open Space Zones) as notified.
Waka Kotahi	370.208	General District wide Matters / Earthworks / EW-R5	Support	Supports permitted activity status for earthworks for the purposes of constructing public walking or cycling tracks in open space zones and restricted discretionary where standards are not complied with.	Retain EW-R5 (Earthworks for the purposes of constructing public walking or cycling tracks in Open Space Zones) as notified.
WCC Environmental Reference Group	377.300	General District wide Matters / Earthworks / EW-R5	Support	EW-R5 is supported as it provides for earthworks activities whilst providing discretion on potential environmental risks.	Retain EW-R5 (Earthworks for the purposes of constructing public walking or cycling tracks in Open Space Zones) as notified.
WCC Environmental Reference Group	377.301	General District wide Matters / Earthworks / EW-R6	Support	EW-R6 is supported as it provides for earthworks activities whilst providing discretion on potential environmental risks.	Retain EW-R6 (General earthworks) as notified.
Kāinga Ora Homes and Communities	391.277	General District wide Matters / Earthworks / EW-R6	Support	EW-R6 is supported.	Retain EW-R6 (General earthworks) as notified.
CentrePort Limited	402.127	General District wide Matters / Earthworks / EW-R6	Support in part	Support subject to resolving submission point on EW-S1. Standard S1 applies as a permitted activity condition under Rules EW-R6 (General Earthworks and R19 (relating to earthworks in the Coastal Environment) stating that the total area of earthworks must not exceed 250m2 per site in any 12-month period. For a very large landholding with large sites such as at CentrePort 250m2 is inadequate to be able to deal with the area of earthworks that are required from time to time.	Retain EW-R6 (General Earthworks), subject to amendment sought in relation to EW-S1 (Area) to exclude the Port Zone from the standard.
Survey & Spatial New Zealand Wellington Branch	439.35	General District wide Matters / Earthworks / EW-R6	Amend	Considers that limited and public notification preclusion should be broadened to include all standards EW-S1 to EW-S6	Amend EW-R6 (General earthworks) to: Applications under this rule which result from non-compliance with EW-R6.1.a.i and EW-R6.1.a.iii-vi are precluded from being publicly or limited notified. Applications under this rule that result from non-compliance with EW-R6.1.a.ii are precluded from being publicly notified.
Horokiwi Quarries Ltd	271.57	General District wide Matters / Earthworks / EW-R7	Support	Supports rule EW-R7 and in particular the default restricted discretionary activity status.	Retain EW-R7 (Earthworks within a significant natural area) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.374	General District wide Matters / Earthworks / EW-R7	Oppose in part	<p>Opposes 1.a.i. and seeks that it is deleted. SNAs are usually complex ecosystems, that involve interactions between the fauna and vegetation with the landform that supports them. Allowing any earthworks wherever there is vegetation is contrary to the requirement to protect these areas under s6(c) and s31. Lizards for example often make their homes in rocky areas, which under this rule would be able to be bulldozed without consent. This permitted activity is also likely to be inconsistent with policy 11 NZCPS, given the often sparsely vegetated nature of Wellington's coastal environment.</p> <p>ii. needs to be limited to a certain amount of earthworks, either by referencing that in the rules, or by reference to a standard. This would replicate the approach taken in the corresponding vegetation clearance rule in ECO R.1.a.vii. We seek that the permitted earthworks are subject to the same limits as the permitted vegetation clearance, being a maximum earthworks of 2.5m width in total, to accommodate the track.</p> <p>iii. no longer references the correct ECO rule.</p> <p>iv. this refers to a deleted rule in ECO R1. If residential SNAs are returned to the plan in line with our submission, we have submitted above that vegetation clearance for the installation of services must be controlled at least, so that the Council retains the ability to at least minimise the damage done to the SNA. We make the same submission here – this activity should be controlled. It should also be limited to existing residential units. New development in SNAs should have a higher consenting requirement, at least RDA.</p> <p>v. We have made submissions about the accompanying vegetation clearance rules above in the ECO chapter. We seek the same amendments here. PA status is only appropriate for the maintenance of existing fences in SNAs.</p> <p>We also seek that limits on the amounts of earthworks permitted for these activities, as per the above submission on ECO R1.2.a.i.,ii. and iv. This can either be done by reference to limits in the EW rule below, or reference to a new standard</p>	<p>Amend EW-R7 (Earthworks within a significant natural area):</p> <p>1. Activity status: Permitted Where: a. The earthworks: i. do not involve the removal of any indigenous vegetation; or ii. are for the maintenance of existing public walking or cycling tracks, as carried out the Council, GWRC, or their approved contractor <u>(either refer to a new standard, or include maximum earthworks of 2.5m width in total, to accommodate the track); or</u> iii. are required for the purpose of ECO-R1.1.a.iv <u>(flood protection control); or</u> iv. required for the purpose of ECO R1.a.viii (installation of services); or v. associated with the <u>maintenance of existing</u> fencing, farm drainage creating farm access tracks in accordance with ECO-R1.2.a.i or ECO-R1.2.a.ii or ECO-R1.2.a.iv. <u>(insert earthworks limits as sought for ECO R1.2 above, either here or by reference to a standard)</u></p>
Royal Forest and Bird Protection Society	345.375	General District wide Matters / Earthworks / EW-R7	Support in part	Considers this rule should default to non-complying.	<p>Amend EW-R7 (Earthworks within a significant natural area):</p> <p>2. Restricted Discretionary Non-complying</p>
Royal Forest and Bird Protection Society	345.376	General District wide Matters / Earthworks / EW-R7	Support in part	<p>If relief sought in the above submission point is not granted:</p> <ul style="list-style-type: none"> - Supports the matters of discretion referencing EW- P10. This is on the proviso that ECO-P1 is amended in the manner sought in our submission on that policy. - Seeks an exclusion where the SNA includes matters identified in policy 11 NZCPS. <p>This should become non-complying (new rule sought below)</p>	<p>Amend EW-R7 (Earthworks within a significant natural area):</p> <p>2. Activity status: Restricted Discretionary Where: a. Compliance with any of the requirements of EW-R7.1 cannot be achieved b. The Significant Natural Area does not include matters identified in policy 11 of the NZ Coastal Policy Statement. Matters of discretion are: 1. The matters in EW-P10 <u>[provided amendments to ECO-P1 are accepted]</u></p>
WCC Environmental Reference Group	377.302	General District wide Matters / Earthworks / EW-R7	Support	EW-R7 is supported as it provides for earthworks activities whilst providing discretion on potential environmental risks.	Retain EW-R7 (Earthworks within a Significant Natural Area) as notified.
Heritage New Zealand Pouhere Taonga	70.26	General District wide Matters / Earthworks / EW-R8	Support in part	Considers that for improved consistency, EW-R8 should also cover scheduled archaeological sites and Sites of Significance to Māori.	Retain EW-R8 (Earthworks on the site of scheduled heritage buildings and structures, and within heritage areas) with amendment.
Onslow Historical Society	FS6.16	Part 2 / General District wide Matters / Earthworks / EW-R8	Support	OHS supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Historic Places Wellington Inc	FS111.15	Part 2 / General District wide Matters / Earthworks / EW-R8	Support	HPW supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Te Rūnanga o Toa Rangatira	FS138.11	Part 2 / General District wide Matters / Earthworks / EW-R8	Support	The submitter seeks for additional policies to be added to the earthworks chapter to address archaeological sites and Sites of Significance to Māori. Te Rūnanga o Toa Rangatira support this submission because sites of significance to Māori should be taken into account and protected in relation to earthworks.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Heritage New Zealand Pouhere Taonga	70.27	General District wide Matters / Earthworks / EW-R8	Amend	Considers that for improved consistency, EW-R8 should be broadened to include scheduled archaeological sites.	Amend EW-R8 (Earthworks on the site of scheduled heritage buildings and structures, and within heritage areas) as follows: EW-R8: Earthworks on the site of scheduled heritage buildings and structures, and within heritage areas, <u>and within scheduled archaeological sites.</u>
Onslow Historical Society	FS6.17	Part 2 / General District wide Matters / Earthworks / EW-R8	Support	OHS supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Historic Places Wellington Inc	FS111.16	Part 2 / General District wide Matters / Earthworks / EW-R8	Support	HPW supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Wellington City Council	266.120	General District wide Matters / Earthworks / EW-R8	Amend	Considers this rule needs to be amended so that resource consent is not required for earthworks in legal road in a heritage area.	Amend EW-R8 (Earthworks on the site of scheduled heritage buildings and structures, and within heritage areas) as follows: 1. Activity status: Permitted Where: a. <u>Compliance is achieved with EW-S10; or</u> b. <u>The earthworks are located within legal road.</u>
WCC Environmental Reference Group	377.303	General District wide Matters / Earthworks / EW-R8	Support	EW-R8 is supported as it provides for earthworks activities whilst providing discretion on potential environmental risks.	Retain EW-R8 (Earthworks on the site of scheduled heritage buildings and structures, and within heritage areas) as notified.
Royal Forest and Bird Protection Society	345.377	General District wide Matters / Earthworks / EW-R9	Support	Supports the rule.	Retain EW-R9 (Earthworks within the root protection area of notable trees) as notified.
WCC Environmental Reference Group	377.304	General District wide Matters / Earthworks / EW-R9	Support	EW-R9 is supported as it provides for earthworks activities whilst providing discretion on potential environmental risks.	Retain EW-R9 (Earthworks within the root protection area of notable trees) as notified.
Royal Forest and Bird Protection Society	345.378	General District wide Matters / Earthworks / EW-R10	Support in part	Considers that in order to give effect to NZCPS policy 13 this rule should apply in all areas of natural character in the coastal environment.	Amend EW-R10 (Earthworks within High Coastal Natural Character Areas within the coastal environment)
WCC Environmental Reference Group	377.305	General District wide Matters / Earthworks / EW-R10	Support	EW-R10 is supported as it provides for earthworks activities whilst providing discretion on potential environmental risks.	Retain EW-R10 (Earthworks within High Coastal Natural Character Areas within the coastal environment) as notified.
Royal Forest and Bird Protection Society	345.379	General District wide Matters / Earthworks / EW-R11	Oppose in part	Considers it is not clear that these rules give effect to the NZCPS, which must be complied with regardless of zoning. Amend to ensure this is addressed.	Amend EW-R11 (Earthworks within coastal or riparian margins within the coastal environment) to give effect to the NZ Coastal Policy Statement.
Wellington International Airport Limited	FS36.142	Part 2 / General District Wide Matters / Earthworks / EW-R11	Oppose	WIAL opposes this submission as no detail is provided regarding the amendments proposed, therefore it is difficult to determine the appropriateness or otherwise of the amendments in terms of section 32 of the RMA. It is also difficult to ascertain which parts of the NZCPS this submission is referring to. [Inferred reference to submission 345.379]	Disallow
WCC Environmental Reference Group	377.306	General District wide Matters / Earthworks / EW-R11	Support	EW-R11 is supported as it provides for earthworks activities whilst providing discretion on potential environmental risks.	Retain EW-R11 (Earthworks within coastal or riparian margins within the coastal environment) as notified.
CentrePort Limited	402.128	General District wide Matters / Earthworks / EW-R11	Support in part	Support subject to resolving submission point on EW-S1. Standard S1 applies as a permitted activity condition under Rules EW-R6 (General Earthworks and R19 (relating to earthworks in the Coastal Environment) stating that the total area of earthworks must not exceed 250m2 per site in any 12-month period. For a very large landholding with large sites such as at CentrePort 250m2 is inadequate to be able to deal with the area of earthworks that are required from time to time.	Retain EW-R11 (Earthworks within coastal or riparian margins within the coastal environment), subject to amendment sought in relation to EW-S1 (Area) to exclude the Port Zone from the standard.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.369	General District wide Matters / Earthworks / EW-R11	Oppose	<p>Opposes this rule to the extent that it does not recognise or provide for the existing hard engineering structures located between Lyall Bay and Moa Point which protect regionally significant infrastructure, including WCC's wastewater network and Wellington International Airport, as well as Moa Point Road, from the effects of coastal erosion.</p> <p>Considers that this rule is inefficient and does not relate to effects management within the Coastal Environment. Instead, the trigger is non-compliance with a general earthworks rule (EW-P6) and associated standards. Retain EW-R14 (Earthworks within outstanding natural features and landscapes) as notified.
Zealandia Te Māra a Tāne	486.8	General District wide Matters / Earthworks / EW-R14	Amend	<p>Considers that EW-R14 should be amended with an additional clause that enables Zealandia operations to continue as per other areas in the plan.</p> <p>Considers that EW-R14 may prevent maintenance and management work of bridges and associated infrastructure within Zealandia.</p>	Amend EW-R14 (Earthworks within outstanding natural features and landscapes) to list the Karori Sanctuary Trust as an approved operator.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
John Tiley	142.19	General District wide Matters / Earthworks / EW-R15	Not specified	Considers that the EW-S13 assessment criteria for assessing applications made under EW-R15 are entirely subjective and offer no protection for ridgelines.	Seeks that EW-S13 (Earthworks within outstanding natural features and landscapes, within special amenity landscapes and within the ridgelines and hilltops in the Upper Stebbings Glenside West Development Area) is rewritten to offer greater control over earthworks in this area.
Churton Park Community Association	189.19	General District wide Matters / Earthworks / EW-R15	Not specified	Considers that the EW-S13 assessment criteria for assessing applications made under EW-R15 are entirely subjective and offer no protection for ridgelines.	Seeks that EW-S13 (Earthworks within outstanding natural features and landscapes, within special amenity landscapes and within the ridgelines and hilltops in the Upper Stebbings Glenside West Development Area) is rewritten to offer greater control over earthworks in this area.
Wellington City Council	266.121	General District wide Matters / Earthworks / EW-R15	Amend	Considers change requested will clarify how EW-R15 (Earthworks within the ridgeline and hilltops in the Upper Stebbings Glenside West Development Area) applies to the Upper Stebbings and Glenside West Development Area and ridgetop area.	Amend EW-R15 (Earthworks within the ridgeline and hilltops in the Upper Stebbings Glenside West Development Area) as follows: Earthworks within the ridgeline and hilltops <u>overlay or within the ridgetop area of the</u> Upper Stebbings <u>and</u> Glenside West Development Area 1. Activity status: Permitted Where: a. Compliance is achieved with EW-S13 ₂ ; and b. <u>For the ridgetop area of the Upper Stebbings and Glenside West Development Area the earthworks are for the purpose of constructing public footpaths or tracks.</u> 2. Activity status: Restricted Discretionary Where: a. Compliance with any of the requirements of EW-R15.1 _a cannot be achieved; and b. The total area of earthworks in any 5-year period does not exceed: i. 500m ² per site <u>within the ridgeline and hilltops in the Upper Stebbings Glenside West Development Area</u> ; and c. The maximum cut height or fill depth does not exceed 1.5m above ground level measured vertically.
Wellington City Council	266.122	General District wide Matters / Earthworks / EW-R15	Amend	Considers new EW-R15.4 Non-Complying activity for earthworks that are not related to new public footpaths or tracks in the ridgetop area of the Upper Stebbings and Glenside West Development Area is necessary.	Amend EW-R15 (Earthworks within the ridgeline and hilltops in the Upper Stebbings Glenside West Development Area) to add another activity status EW-R15.4 applying to All Zones as follows: (...) 4. <u>Activity status: Non-complying</u> <u>Where:</u> <u>a. Compliance with the requirements of EW-R15.1.b cannot be achieved.</u>
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.31	General District wide Matters / Earthworks / EW-R15	Amend	Considers that Marshall's Ridge should be given protection through the strengthening of the rule.	Amend EW-R15 (Earthworks within the ridgeline and hilltops in the Upper Stebbings Glenside West Development Area) to give further protection to Marshall's Ridge and other ridgelines within the area.
Glenside Progressive Association Inc	374.4	General District wide Matters / Earthworks / EW-R15	Amend	Considers that all earthworks in Lincolnshire Farm and Upper Stebbings-Glenside West should be reclassified from Restricted Discretionary to Discretionary and that the two Wellington councils enforce this activity status rigorously. Earth working creates noise over a wide area for long periods outside of the winter months whilst the layers of soil are being laid and compressed, and involves the unnecessary use of large quantities of diesel to power the machinery required. The CO ₂ produced creates an unnecessary adverse climate change impact. It also creates a dust hazard affecting people's health. [Refer to original submission for full reason, including attachments]	Amend EW-R15 (Earthworks within the ridgeline and hilltops in the Upper Stebbings Glenside West Development Area) as follows: ... 2. Activity status: Restricted Discretionary ... 3. Activity status: Restricted Discretionary ...

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Lincolnshire Farm Ltd, Hunters Hill Ltd, Best Farm Ltd, Stebbings Farmland	FS75.3	Part 2 / General District wide Matters / Earthworks / EW-R15	Oppose	The proposed development areas of Upper Stebbings Valley and Glenside West represent logical and planned extensions to the existing urban areas that they adjoin. Infrastructure can be extended to serve these areas including roading, water and drainage as well as power and fibre that has been reticulated to the boundary of these areas. These new areas are important to accommodate the growing needs of the City and can be well served by public transport (including the #1 Bus). As with all greenfield areas in Wellington, some earthworks are required to provide access roads and building areas and this is the reality of developing land in Wellington. It has also been necessary to review how much of the ridgelines can be protected to accommodate this growth.	Disallow
WCC Environmental Reference Group	377.310	General District wide Matters / Earthworks / EW-R15	Support	EW-R15 is supported as it provides for earthworks activities whilst providing discretion on potential environmental risks.	Retain EW-R15 (Earthworks within the ridgeline and hilltops in the Upper Stebbings Glenside West Development Area) as notified.
Greater Wellington Regional Council	351.243	General District wide Matters / Earthworks / EW-R16	Amend	Considers the notified Rule EW-R16.2.1 appears to refer to the incorrect Policy as the assessment matters. The Plan incorrectly refers to EW-P14, which is the policy relating to earthworks in outstanding natural features and landscapes.	Amend EW-R16 (Earthworks within the Flood Hazard Overlay) to correct reference to EW-P16 (the specific policy relating to earthworks in Flood Hazard Overlay).
Kāinga Ora Homes and Communities	391.278	General District wide Matters / Earthworks / EW-R17	Support in part	EW-R17 is generally supported but an amendment is sought.	Retain EW-R17 (Earthworks associated with natural hazard mitigation works within the Flood Hazard Overlays and Coastal Hazard Overlays) with amendment.
Kāinga Ora Homes and Communities	391.279	General District wide Matters / Earthworks / EW-R17	Amend	Considers that EW-R17 should be amended so that the ability to undertake earthworks associated with natural hazard mitigation as a permitted activity is extended beyond the parties currently listed in this rule.	Amend EW-R17.1 (Earthworks associated with natural hazard mitigation works within the Flood Hazard Overlays and Coastal Hazard Overlays) as follows: 1. Activity Status: Permitted Where: The natural hazard mitigation works are undertaken by a Central Government Agency, GWRC, the Council, <u>Kāinga Ora</u> , or a nominated contractor or agent for the express purpose of natural hazard mitigation works.
Greater Wellington Regional Council	FS84.86	Part 2 / General District wide Matters / Earthworks / EW-R17	Oppose	Greater Wellington note that entities currently listed are mandated to undertake natural hazard mitigation works under several pieces of legislation, including for emergency works. Kāinga Ora do not have this mandate and should work with other agencies to undertake earthworks where relevant.	Disallow
CentrePort Limited	402.129	General District wide Matters / Earthworks / EW-R17	Support in part	Considers that CentrePort should be listed as appropriate to carry out natural hazard mitigation works. CentrePort holds considerable land that also adjoins the Coastal Marine Area and has extensive network and land transport infrastructure within these landholdings. Natural Hazard Mitigation works are required from time to time including soft engineering. The agencies listed do not include CentrePort as being appropriate to carry out such works.	Retain EW-R17 (Earthworks associated with natural hazard mitigation works within the Flood Hazard Overlays and Coastal Hazard Overlays), with amendment.
CentrePort Limited	402.130	General District wide Matters / Earthworks / EW-R17	Amend	Considers that CentrePort should be listed as appropriate to carry out natural hazard mitigation works. CentrePort holds considerable land that also adjoins the Coastal Marine Area and has extensive network and land transport infrastructure within these landholdings. Natural Hazard Mitigation works are required from time to time including soft engineering. The agencies listed do not include CentrePort as being appropriate to carry out such works	Amend EW-R17 (Earthworks associated with natural hazard mitigation works within the Flood Hazard Overlays and Coastal Hazard Overlays) as follows: 1. Activity Status: Permitted Where: a. The natural hazard mitigation works are undertaken by a Central Government Agency, GWRC, the Council, <u>CentrePort</u> or a nominated contractor or agent for the express purpose of natural hazard mitigation works.

CentrePort Limited	402.131	General District wide Matters / Earthworks / EW-R18	Amend	<p>Considers that CentrePort should be listed as appropriate to carry out natural hazard mitigation and soft engineering works. CentrePort holds considerable land that also adjoins the Coastal Marine Area and has extensive network and land transport infrastructure within these landholdings. Natural Hazard Mitigation works are required from time to time including soft engineering. The agencies listed do not include CentrePort as being appropriate to carry out such works.</p> <p>It is noted that the Special Purpose Airport zone has a permitted rule EW-R20 and its own standard.</p>	<p>Amend EW-R18 (Earthworks associated with soft engineering natural hazard mitigation works within Flood Hazard Overlays and Coastal Hazard Overlays) as follows:</p> <p>1. Activity Status: Permitted</p> <p>Where:</p> <p>The soft engineering natural hazard mitigation works are undertaken by a central government agency, GWRC, the Council, <u>CentrePort</u> or a nominated contractor or agent for the express purpose of soft engineering natural hazard mitigation works.</p>
Z Energy Limited	361.13	General District wide Matters / Earthworks / EW-R20	Support	EW-R20 is supported as it enables earthworks in the Airport zone as a permitted activity where compliance with the relevant standards is achieved.	Retain EZ-R20 (Earthworks in the Airport Zone) as notified.
Wellington International Airport Ltd	406.373	General District wide Matters / Earthworks / EW-R20	Oppose	[Not specified]	Opposes EW-R20 (Earthworks in the Airport Zone) and seeks amendment.
Wellington International Airport Ltd	406.374	General District wide Matters / Earthworks / EW-R20	Amend	[Not specified]	<p>Amend EW-R20 (Earthworks in the Airport Zone) as follows:</p> <p>1. Activity status: Permitted</p> <p>Where:</p> <p>a. Compliance is achieved with EW-S14.1 to <u>EW-S14.4 and EW-S14.2</u>; and b. Compliance is achieved with EW-S14.2; and c. Earthworks are for the purposes of the upgrade or maintenance of existing formed roads and public accessways; or d. Earthworks are for the purposes of construction, upgrade, maintenance or repair of the Airport pavement (apron and taxiway surfaces); or e. Earthworks permitted by any other rule.</p> <p>2. Activity status: Restricted Discretionary</p> <p>Where:</p> <p>a. Compliance with any of the requirements of EW-20.1a cannot be achieved; or <u>b. Earthworks associated with the construction of new legal roads.</u></p> <p>Matters of discretion are:</p> <p>1. The extent and effect of non-compliance with any relevant standard as specified in the associated assessment criteria for the infringed standards; 2. Relevant matters in <u>AIRPZ-P3 and AIRPZ-P4, AIRPZ-P4 and AIRPZ-P5</u>; 3. Visual appearance and mitigation; and 4. Geomorphological impacts. <u>5. Traffic impacts caused by transporting earth and construction fill material.</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
					Activity status: Discretionary Where:- a. Compliance with EW-R20.1.b, c or d cannot be achieved. Notification Status: an application for resource consent made in respect of rule EW-R20.2 must be publicly notified. [Note reference to AIRPZ-P3 and P4 are to the Annexure B version of these provisions, not the Airport Chapter as notified] (Option A).
Wellington International Airport Ltd	406.375	General District wide Matters / Earthworks / EW-R20	Oppose	[Not specified]	Delete EW-R20 (Earthworks in the Airport Zone) in its entirety. (Option B).
Wellington International Airport Ltd	406.376	General District wide Matters / Earthworks / EW-R20	Not specified	EW-R20.1 implies that only those activities listed are permitted in the zone. This includes EW-R20.1.e which notes that any earthworks permitted by any other rule are also permitted within the Airport Zone.	Not specified.
Wellington International Airport Ltd	406.377	General District wide Matters / Earthworks / EW-R20	Not specified	There is no clear activity status for earthworks that do not comply with the permitted activity requirements specified in subparagraph EW-R20.1.e.	Clarify the Activity Status for earthworks that do not comply with permitted activity requirements specified in subparagraph EW-R20.1.e.
Wellington International Airport Ltd	406.378	General District wide Matters / Earthworks / EW-R20	Not specified	Despite the reference to earthworks within the Airport Zone being permitted where they comply with other provisions within the earthworks chapter, EW-20.3.a appears to render any earthworks that are not for the purposes of the upgrade or maintenance of existing formed roads and public accessways or for the purpose of construction, upgrade, maintenance or repair of the Airport pavement a discretionary activity.	Not specified.
Wellington International Airport Ltd	406.379	General District wide Matters / Earthworks / EW-R20	Amend	A number of the rules that are relevant to the Airport Zone, by reference within EW-R20.1.e are subject to the ISPP. For the reasons discussed in paragraphs 4.32 to 4.39, this is inappropriate for earthwork activities that do not relate to the implementation of the NPSUD.	Seeks that the Earthworks chapter is amended to remove ISPP for provisions that do not relate to the implementation of the NPS-UD.
Wellington International Airport Ltd	406.380	General District wide Matters / Earthworks / EW-R20	Amend	The matters of discretion with respect to EW-R20.4. "Geomorphological impacts" is too broad. This matter of discretion should be refined to specify which aspects of the geomorphology require consideration or deleted.	Seeks that EW-R20.4 (Earthworks in the Airport Zone) is amended to specify which aspects of the geomorphology require consideration or deleted.
WCC Environmental Reference Group	377.311	General District wide Matters / Earthworks / EW-R21	Support	EW-R21 is supported as it provides for earthworks activities whilst providing discretion on potential environmental risks.	Retain EW-R21 (Earthworks within Sites and Areas of Significance Category A and Category B) as notified.
Te Rūnanga o Toa Rangatira	488.70	General District wide Matters / Earthworks / EW-R21	Support	Supports EW-R21.	Retain EW-R21 (Earthworks for the purposes of piling, trenching, maintaining sports fields, undertaking geotechnical investigations and grave digging, the replacement or removal of underground petroleum storage systems associated with service stations) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Transpower New Zealand Limited	315.176	General District wide Matters / Earthworks / EW-R22	Amend	<p>Supports the provision of standards specific to earthworks on the basis such activities can compromise the National Grid and are a form of development contemplated by the NPS-ET. Considers that earthworks also have the potential to restrict Transpower's ability to access the line and locate the heavy machinery required to maintain support structures around the lines and may lead to potential tower failure and significant constraints on the operation of the line. Considers the provision of a rule framework achieves Policies 2 and 10 of the NPS-ET.</p> <p>Seeks amendments to Rule EW-R22 to:</p> <ul style="list-style-type: none"> - Move the depth standards from the standard EW-S15 to the rule to provide more clarity and provide a clear relationship to the exemptions; - Amend the default activity status to non-complying where permitted conditions are not complied with (and as a subsequent amendment, deletion of the discretionary matter and notification clause). <p>A non-complying activity status is considered the most effective means of giving effect to the NPS-ET's objective of managing the adverse effects of the network and managing the adverse effects of other activities on the network.</p> <p>[Refer to original submission for full reason]</p>	<p>Amend EW-R22 (Earthworks in the national grid yard) as follows:</p> <p>EW-R22 Earthworks <u>or vertical holes</u> in the national grid yard All Zones</p> <p>1. Activity status: Permitted Where:</p> <p>a. <u>Earthworks or vertical hole depth must be no greater (measured vertically) than:</u> <u>i. 300 millimetres within 6 metres of the outer visible edge of a foundation of any National Grid support structure; or</u> <u>ii. Between 6 metres and 12 metres from the outer visible edge of a foundation of any National Grid support structure.</u></p> <p>b. Compliance is achieved with EW-S15_1</p> <p>...</p> <p>All Zones</p> <p>2. Activity status: Restricted Discretionary Non complying Where:</p> <p>a. Compliance with any of the requirements of EW-R22.1 cannot be achieved.</p> <p>Matters of discretion are:-</p> <p>1. The extent and effect of non compliance with any relevant standard as specified in the associated assessment criteria for the infringed standards;</p> <p>2. Impacts on the operation, maintenance, upgrading and development of the National Grid;</p> <p>3. The risk to the structural integrity of the affected National Grid support structure(s);</p> <p>3. Any impact on the ability of Transpower to access the National Grid;</p> <p>4. The risk of electrical hazards affecting public or individual safety, and the risk of property;</p> <p>5. Technical advice provided by Transpower; and</p> <p>6. Any effects on National Grid support structures including the creation of an unstable batter.</p> <p>Notification Status:- An application for resource consent made in respect of rule EW-R22.2 is precluded from being publicly notified. Notice of any application for resource consent under this rule must be served on Transpower New Zealand Limited in accordance with Clause 10(2)(i) of the Resource Management (Forms, Fees, and Procedures) Regulations 2003.</p>
Firstgas Limited	304.41	General District wide Matters / Earthworks / EW-R23	Amend	<p>Considers that EW-R23 should be amended not to require a copy of a Pipeline Easement Permit to the Council. The Pipeline Easement Permit is issued by Firstgas and is a paper-based permit issued to the contractor at the time of the works taking place. It would therefore not be achievable for a copy to be provided to Council prior to the commencement of the work.</p>	<p>Amend EW-R23 (Earthworks within the gas transmission pipeline corridor) as follows:</p> <p>Activity status: Permitted</p> <p>Where:</p> <p>a. For any earthworks within a gas pipeline easement area, a Pipeline Easement Permit is obtained and a copy of the permit is provided to the Council prior to the commencement of the earthworks; or</p> <p>b. For any earthworks outside of a gas pipeline easement area, written advice of the work is provided to the gas transmission pipeline owner and operator at least 15 working days prior to the commencement of the earthworks; and</p> <p>c. Compliance is achieved with EW-S15.</p>

Phillippa O'Connor	289.11	General District wide Matters / Earthworks / EW-S1	Amend	<p>Considers that the earthworks triggers are too low and lack nuance.</p> <p>Considers that the Auckland unitary plan baseline in residential zones of 500m2 is considered more appropriate.</p>	<p>Amend EW-S1 (Area) as follows:</p> <p>EW-S1</p> <p>All zones</p> <p>1. The total area of earthworks must not exceed 250m2 <u>500m2</u> per site in any 12-month period.</p>
Phillippa O'Connor	289.12	General District wide Matters / Earthworks / EW-S1	Amend	<p>Considers that assessment criteria #5 of EW-S1 should only apply if the site is within a Significant Natural Area (SNA) or if the site has a known ecological feature (such as a stream or wetland) rather than requiring an additional report to be prepared for a consent application where there are no ecological features on a site.</p>	<p>Amend EW-S1 (Area) as follows:</p> <p>EW-S1</p> <p>All zones</p> <p>...</p> <p>Assessment criteria where the standard is infringed:</p> <p>...</p> <p>4. The extent to which the earthworks are designed and will be managed in accordance with the principles and methods in the GWRC's Erosion and Sediment Control Guide for Land Disturbing Activities in the Wellington Region 2021_ and</p> <p>5. For applications involving areas of earthworks exceeding 1000m2 in any 12-month period, the results of an ecological survey conducted by a suitably qualified expert.</p>
Phillippa O'Connor	289.13	General District wide Matters / Earthworks / EW-S1	Amend	<p>Considers that assessment criteria #5 of EW-S1 should only apply if the site is within a Significant Natural Area (SNA) or if the site has a known ecological feature (such as a stream or wetland) rather than requiring an additional report to be prepared for a consent application where there are no ecological features on a site.</p>	<p>Apply assessment criteria 5 of EW-S1 (5. For applications involving areas of earthworks exceeding 1000m2 in any 12-month period, the results of an ecological survey conducted by a suitably qualified expert) only if the site is within a Significant natural Area of where the site has a known ecological feature.</p>
Woolworths New Zealand	359.33	General District wide Matters / Earthworks / EW-S1	Oppose in part	<p>Opposes the inclusion of assessment criteria (5) which requires applications involving areas of earthworks exceeding 1000m2 in any 12-month period to provide the results of an ecological survey conducted by a suitably qualified expert. This assessment criteria should only apply if the site is within a Significant Natural Area (SNA) or if the site has a known ecological feature (such as a stream or wetland) rather than requiring an additional report to be prepared for a consent application where there are no ecological features on a site.</p> <p>[Refer to original submission for full reason]</p>	<p>Oppose in part EW-S1 (Area) and seeks amendment as follows:</p> <p>Delete assessment criteria point 5 from EW-S1 (Area).</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.34	General District wide Matters / Earthworks / EW-S1	Amend	Considers that earthworks area triggers are too low and lack nuance and should be amended. The Auckland Unitary Plan baseline in CMUZ of 500m ² is considered more appropriate noting that an infringement to the 250m ² standard could feasibly occur with any development in CMUZ.	Amend EW-S1 (Area) as follows: All Zones 1. The total area of earthworks must not exceed 250m² <u>500m²</u> per site in any 12-month period. Assessment criteria where the standard is infringed: 1. Whether the stability of land or buildings or structures in or on the site or adjacent sites is likely to be adversely affected; 2. The extent to which the earthworks will reflect and be sympathetic to the natural qualities of the surrounding landform; 3. The effectiveness of measures to retain dust, silt and sediment on site during the course of earthworks; 4. The extent to which the earthworks are designed and will be managed in accordance the principles and methods in the GWRC's Erosion and Sediment Control Guide for Land Disturbing Activities in the Wellington Region 2021; and 5. For applications involving areas of earthworks exceeding 1000m² in any 12 month period, the results of an ecological survey conducted by a suitably qualified expert.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.94	General District wide Matters / Earthworks / EW-S1	Support in part	EW-S1 is generally supported for its intent, as it seeks to provide an upper threshold to the permitted contiguous area of earthworks. It is unclear in the s32 analysis why this area (250m ²) has been prescribed apart from being identified as 'Low-risk earthworks' ⁵ . As it stands, any development or redevelopment of most sites in the district will infringe this standard as most sites exceed 250m ² in area and most developments typically require earthworks across the majority of the site.	Retain EW-S1 (Area) with amendment.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.95	General District wide Matters / Earthworks / EW-S1	Amend	Considers that EW-S1 should be amended so that the 250m ² limit is increased to a greater permitted threshold and to better relate to the permitted cut and fill volumes in Standard EW-S4.	Amend EW-S1 (Area) to increase the limit of the total area of earthworks to better relate to the permitted cut and fill volumes in EW-S4 (Transport of cut or fill material).
Kāinga Ora Homes and Communities	391.280	General District wide Matters / Earthworks / EW-S1	Support in part	EW-S1 is partially supported but an amendment is sought.	Retain EW-S1 (Area) with amendment.
Kāinga Ora Homes and Communities	391.281	General District wide Matters / Earthworks / EW-S1	Amend	Considers that EW-S1 should be amended to ensure the assessment criteria reflect the effects sought to be managed, and to align with the objectives and policies of the chapter. It is considered the current wording of the assessment criteria is not supported by the overarching objectives and policies. It is queried and requested that amendments are made to the thresholds for permitted activity earthworks across the different zone to recognise that different thresholds are appropriate across different zones.	Amend EW-S1 (Area) as follows: <u>Medium Density Residential Zone, High Density Residential Zone, and Neighbourhood Centre Zone</u> 1. The total area of earthworks must not exceed 250m ² per site in any 12 month period. <u>Local Centre Zone, Commercial Zone, Mixed Use Zone, Metropolitan Zone, City Centre Zone, General Industrial Zone, Open Space Zone, Natural Open Space Zone, and Sport and Recreation Zone, All Special Purpose Zones</u> 2. The total area of earthworks must not exceed 500m ² per site in any 12 month period. <u>General Rural Zone, Large Lot Residential Zone, All Development Areas</u> 3. The total area of earthworks must not exceed 1000m ² per site in any 12 month period. Assessment criteria where the standard is infringed: ... 5. For applications involving areas of earthworks exceeding 1000m² in any 12 month period, the results of an ecological survey conducted by a suitably qualified expert.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.132	General District wide Matters / Earthworks / EW-S1	Amend	Considers that for a very large landholding with large sites such as at CentrePort 250m2 is inadequate to be able to deal with the area of earthworks that are required from time to time. Standard S1 applies as a permitted activity condition under Rules EW-R6 (General Earthworks and R19 (relating to earthworks in the Coastal Environment) stating that the total area of earthworks must not exceed 250m2 per site in any 12-month period.	Seeks that the Special Purpose Port Zone is excluded from EW-S1 (Area).
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.96	General District wide Matters / Earthworks / EW-S2	Support	Supports as the standard prescribes a maximum permitted cut height and fill depth which, as per the proposed definitions, is measured upon the completion of earthworks. [See original submission for further details]	Retain EW-S2 (Cut height and fill depth) as notified.
Kāinga Ora Homes and Communities	391.282	General District wide Matters / Earthworks / EW-S2	Support in part	EW-S2 is partially supported but an amendment is sought.	Retain EW-S2 (Cut height and fill depth) with amendment.
Kāinga Ora Homes and Communities	391.283	General District wide Matters / Earthworks / EW-S2	Amend	Considers that EW-S2 should be amended to align the matters of discretion more appropriately with the issue being managed by this standard, in this case stability and visual effects resulting from cut faces/retaining structures. With respect to the management of visual effects, it is considered that reference to examples can be removed to simplify this policy.	Amend EW-S2 (Cut height and fill depth) as follows: Assessment criteria where the standard is infringed: ... 7. The effectiveness of measures to retain dust, silt and sediment on site during the course of earthworks; 8. The extent to which the earthworks are designed and will be managed in accordance the principles and methods in the GWRC's Erosion and Sediment Control Guide for Land Disturbing Activities in the Wellington Region 2021; 9. The need for, and effectiveness of, measures to reduce the visual prominence and particularly visual intrusiveness of the earthworks, and any buildings and other structures associated with or subsequently located on them, including: a. Designing and engineering to reflect natural landforms and natural features such as cliffs, escarpments, streams and wetlands; b. Avoiding unnatural scar faces; c. Favouring untreated cut faces over artificial finishes in areas where bare rock is common; d. Favouring alternatives to the use of sprayed concrete on cut faces, such as anchored netting; e. Designing and finishing retaining walls or stabilising structures to reflect existing buildings and structures, in urban settings; f. Designing and finishing retaining walls or stabilising structures to reduce their apparent size by, for example, employing features that break up the surface area and create patterns of light and shadow; g. Retaining existing vegetation above, below and at the sides of earthworks and associated structures; h. Integrating new landscaping and associated planting to conceal or soften the appearance of earthworks and associated structures; i. Concealing views of earthworks and associated structures from streets, other public places and other properties through the positioning of proposed or future buildings; and j. Placing pipes below ground or integrating them into earthworks and associated structures.
Greater Wellington Regional Council	FS84.87	Part 2 / General District wide Matters / Earthworks / EW-S2	Oppose	Greater Wellington oppose the deletion of the assessment criteria as all criteria listed are related to the standard. Deleting these criteria would not have regard to Proposed RPS Change 1 or give effect to the operative RPS	Disallow / Seeks that EW-S2 is retained as notified.
Greater Wellington Regional Council	351.244	General District wide Matters / Earthworks / EW-S3	Support	Considers that minimising the risks associated with slope instability is consistent with hazard provisions in the RPS. Supports slope failure being incorporated into the earthworks chapter to manage impacts on slope stability	Retain EW-S3 (Existing slope angle) as notified.
Greater Wellington Regional Council	351.245	General District wide Matters / Earthworks / EW-S3	Amend	Considers the Natural Resources Plan defines erosion prone land as greater than 20 degrees. A slope of 34 degrees or higher, as drafted, is very steep. Using this slope has the potential to create more effects on the environment than the standard would anticipate. Greater Wellington also notes that 34 degrees is difficult to calculate on the ground.	Seeks for WCC to consider reducing the existing slope angle to 20 degrees for consistency with the Natural Resources Plan.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Rod Halliday	25.28	General District wide Matters / Earthworks / EW-S4	Amend	<p>The volume of material permitted to be transported off site is too low and needs to be increased to facilitate increased volumes of material being transported as a permitted activity. 200m3 equates to around 27 movements utilising a 7.5m3 truck which is too low now for most Wellington Sites.</p> <p>Most development is occurring in the outer suburbs where new roads are wide, traffic volumes are low and there is a short term expectation of truck movements associated with development. The current 200m3 appears to be arbitrary and not supported by evidence.</p>	<p>Amend EW-S4 (Transport of cut or fill material) as follows:</p> <p>1. The combined volume of cut material resulting from earthworks transported off the site and clean fill material required for earthworks transported onto the site must not exceed:</p> <p>a. 2,000m3 in the City Centre, Centres, Mixed use and General industrial zones; or b. 200m3 in all other Zones. <u>400m3 in all other Zones.</u></p>
Rod Halliday	25.29	General District wide Matters / Earthworks / EW-S4	Amend	A higher level of movement should also be allowed in the Development Areas where there is expected to be development activity.	<p>Amend EW-S4 (Transport of cut or fill material) as follows:</p> <p>1. The combined volume of cut material resulting from earthworks transported off the site and clean fill material required for earthworks transported onto the site must not exceed:</p> <p>a. 2,000m3 in the City Centre, Centres, Mixed use and General industrial zones, <u>and Future Urban Zone/Development Areas;</u> or b. 200m3 in all other Zones.</p>
Greater Wellington Regional Council	351.246	General District wide Matters / Earthworks / EW-S4	Amend	Considers that for consistency with the Natural Resources Plan, it is worth noting similar rules in the regional plan which occur for different purposes for the same activity. For example, Rule R70 of the Natural Resources Plan controls clean fills and Rule R99 controls earthworks. Note also that the limits can be different between plans and rules, so all relevant provisions should be considered.	Seeks for WCC to consider including advice note referring to similar rules in the Natural Resources Plan which may be relevant.
Waka Kotahi	370.209	General District wide Matters / Earthworks / EW-S4	Support in part	Support EW-S4 but seeks amendment.	Retain EW-S4 (Transport of cut or fill material), subject to amendments.
Waka Kotahi	370.210	General District wide Matters / Earthworks / EW-S4	Amend	Consider EW-S4 should include stabilising the material in the truck bed to prevent clean fill material from falling onto the road and should also provide direction to ensure that truck wheels do not truck mud and/or debris into the road reserve. This inclusion would be consistent with EW-P6.	<p>Amend EW-S4 (Transport of cut or fill material) as follows:</p> <p>1. The combined volume of cut material resulting from earthworks transport ted off the site and clean fill material required for earthworks transported onto the site must not exceed:</p> <p>a. 2,000m3 in the City Centre, Centres, Mixed use and General industrial zones; or b. 200m3 in all other Zones.</p> <p><u>2. Transported material must be stabilised, and the truck wheels must be kept clean, to prevent the falling or trucking of material into the road reserve.</u></p>
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.97	General District wide Matters / Earthworks / EW-S4	Support in part	EW-S4 is generally supported as it prescribes a combined maximum volume of cut material transported off the site and clean fill material transported onto the sites. However, the s32 analysis indicates (but does not explicitly state) that this standard only seeks to restrict the total material transported to and from the site with no restriction on the volume of material within the site. This approach is supported in principle but better clarity on this interpretation is sought.	Retain EW-S4 (Transport of cut or fill material) with amendment.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.98	General District wide Matters / Earthworks / EW-S4	Amend	Considers that EW-S4 should be clarified. The s32 analysis indicates (but does not explicitly state) that this standard only seeks to restrict the total material transported to and from the site with no restriction on the volume of material within the site. This approach is supported in principle but better clarity on this interpretation is sought.	Amend EW-S4 (Transport of cut or fill material) to clarify the interpretation of restrictions on the volume of material within the site.
Ministry of Education	400.75	General District wide Matters / Earthworks / EW-S4	Support	Supports CE-S4. The submitter particularly supports assessment criteria 1(e) which considers the presence of sensitive land uses including schools along the proposed route as it manages effects associated with the transport of materials from sites.	Retain EW-S4 (Transport of cut or fill material) as notified.
Heritage New Zealand Pouhere Taonga	70.28	General District wide Matters / Earthworks / EW-S10	Support in part	Considers that for improved consistency, EW-S10 should be broadened to include scheduled archaeological sites.	Retain EW-S10 (Earthworks on the site of scheduled heritage buildings and structures, and within heritage areas) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Onslow Historical Society	FS6.18	Part 2 / General District wide Matters / Earthworks / EW-S10	Support	OHS supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Historic Places Wellington Inc	FS111.17	Part 2 / General District wide Matters / Earthworks / EW-S10	Support	HPW supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Heritage New Zealand Pouhere Taonga	70.29	General District wide Matters / Earthworks / EW-S10	Amend	Considers that for improved consistency, EW-S10 should be broadened to include scheduled archaeological sites.	Amend EW-S10 (Earthworks on the site of heritage building, heritage structures or on a site within a heritage area) as follows: EW-S10: Earthworks on the site of heritage building, heritage structures or on a site within a heritage area, or within a scheduled archaeological site.
Onslow Historical Society	FS6.19	Part 2 / General District wide Matters / Earthworks / EW-S10	Support	OHS supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Historic Places Wellington Inc	FS111.18	Part 2 / General District wide Matters / Earthworks / EW-S10	Support	HPW supports robust provisions for protecting historic heritage from inappropriate activities.	Allow
Donna Sherlock	384.1	General District wide Matters / Earthworks / EW-S10	Oppose	Submitter considers that this rule of only 10m2 per annum should not have blanket application on rural heritage areas such as the submitter's land. It is 9.1ha, but the heritage area footprint is <100m2.	Opposes SW-S10 (Earthworks on the site of heritage building, heritage structures or on a site within a heritage area) in its current form and seeks amendment.
Donna Sherlock	384.2	General District wide Matters / Earthworks / EW-S10	Amend	Submitter considers that this rule of only 10m2 per annum should not have blanket application on rural heritage areas such as the submitter's land. It is 9.1ha, but the heritage area footprint is <100m2.	Seeks that SW-S10 (Earthworks on the site of heritage building, heritage structures or on a site within a heritage area) should not be a blanket provision and that rural land should be treated differently [Inferred decision requested].
Wellington Heritage Professionals	412.65	General District wide Matters / Earthworks / EW-S10	Support	Supports the exclusion of scheduled archaeological sites from this standard, and considers that the policies, rules and standards for earthworks within scheduled archaeological sites in the Historic heritage chapters are more appropriate to manage these	Retain EW-S10 (Earthworks on the site of heritage building, heritage structures or on a site within a heritage area) as notified.
John Tiley	142.20	General District wide Matters / Earthworks / EW-S13	Amend	Considers that the EW-S13 assessment criteria for assessing applications made under EW-R15 are entirely subjective and offer no protection for ridgelines.	Seeks that EW-S13 (Earthworks within outstanding natural features and landscapes, within special amenity landscapes and within the ridgelines and hilltops in the Upper Stebbings Glenside West Development Area) is rewritten to offer greater control over earthworks in this area.
Churton Park Community Association	189.20	General District wide Matters / Earthworks / EW-S13	Amend	Considers that the EW-S13 assessment criteria for assessing applications made under EW-R15 are entirely subjective and offer no protection for ridgelines.	Seeks that EW-S13 (Earthworks within outstanding natural features and landscapes, within special amenity landscapes and within the ridgelines and hilltops in the Upper Stebbings Glenside West Development Area) is rewritten to offer greater control over earthworks in this area.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council	266.123	General District wide Matters / Earthworks / EW-S13	Amend	Considers amendment necessary for consistency with other amendments in relation to the ridgetop area of the Upper Stebbings and Glenside West Development Area.	<p>Amend EW-S13 (Earthworks within outstanding natural features and landscapes, within special amenity landscapes and within the ridgelines and hilltops in the Upper Stebbings Glenside West Development Areas) as follows:</p> <p>Earthworks within outstanding natural features and landscapes, within special amenity landscapes and within the ridgelines and hilltops in the Upper Stebbings Glenside West Development Area <u>Earthworks within: outstanding natural features and landscapes; special amenity landscapes; ridgelines and hilltops overlay; or the ridgetop area of the Upper Stebbings and Glenside West Development Area</u></p> <p>1. Earthworks must not exceed:</p> <p>a. A maximum cut height or fill depth greater than 1.5m above ground level measured vertically; and b. the following within any 5-year period: i. 100m² in total area per site within an identified outstanding natural feature and landscape; or ii. 200m² in total area per site within identified special amenity landscapes; or iii. 200m² in total area per site within <u>the ridgelines and hilltops overlay or the ridgetop area</u> in the Upper Stebbings <u>and</u> Glenside West Development Area.</p> <p>Assessment criteria where the standard is infringed: 1. The extent and effect of non-compliance on identified values and characteristics of outstanding natural features and landscapes, special amenity landscapes, and the ridgelines and hilltops, and the ridgetop area in the Upper Stebbings <u>and</u> Glenside West Development Area and the ability to integrate and be sympathetic with the surrounding landform; and 2. The degree to which the effect of the earthworks can be remedied or mitigated.</p>
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.32	General District wide Matters / Earthworks / EW-S13	Amend	Considers that Marshall's Ridge should be given protection through the strengthening of the standard.	Amend EW-S13 (Earthworks within outstanding natural features and landscapes, within special amenity landscapes and within the ridgelines and hilltops in the Upper Stebbings Glenside West Development Area) to give further protection to Marshall's Ridge and other ridgelines within the area.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.47	General District wide Matters / Earthworks / EW-S13	Support in part	Considers that the MRZ area of the Submitters land will be subject to another layer of restrictions for earthworks to facilitate the proposed residential development of the site.	Retain EW-S13 (Earthworks within outstanding natural features and landscapes, within special amenity landscapes and within the ridgelines and hilltops in the Upper Stebbings Glenside West Development Area) as notified.
Greater Wellington Regional Council	351.247	General District wide Matters / Earthworks / EW-S14	Amend	Considers the Natural Resources Plan defines erosion prone land as greater than 20 degrees. A slope of 34 degrees or higher, as drafted, is very steep. Using this slope has the potential to create more effects on the environment than the standard would anticipate. Greater Wellington also notes that 34 degrees is difficult to calculate on the ground.	Seeks for WCC to consider reducing the existing slope angle to 20 degrees for consistency with the Natural Resources Plan.
Z Energy Limited	361.14	General District wide Matters / Earthworks / EW-S14	Support in part	EW-S14 is supported as it includes a 'catch all' standard (EW-S14(3)) for earthworks in 'all areas' which is assumed to include the Broadway Precinct where a Z Energy service station is located.	Retain EW-S14 (Earthworks in the Airport Zone) with amendment.
Z Energy Limited	361.15	General District wide Matters / Earthworks / EW-S14	Amend	EW-S14 should be clarified on whether it relates to permanent structures and aboveground structures and therefore does not relate to temporary and/or aboveground ground structures.	Amend EW-S14 (Earthworks in the Airport Zone) to clarify that it does not relate to temporary and/or aboveground ground structures.
Wellington International Airport Ltd	406.381	General District wide Matters / Earthworks / EW-S14	Oppose	Opposes EW-S14. [See paragraphs 4.93 to 4.96 of original submission for full reason]	Opposes EW-S14 (Earthworks in the Airport Zone) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.382	General District wide Matters / Earthworks / EW-S14	Amend	<p>Opposes EW-S14.</p> <p>[See paragraphs 4.93 to 4.96 of original submission for full reason]</p>	<p>Amend EW-S14 (Earthworks in the airport zone) as follows:</p> <p>1. In the Rongotai Ridge Precinct, or in relation to the Hillock at the south end of the Terminal precinct earthworks shall not:</p> <ol style="list-style-type: none"> Alter the existing ground level by more than 2.5 metres measured vertically. Disturb more than 250m² of ground surface. Be undertaken on slopes of more than 34° <u>in relation to the Hillock and 45° in relation to the Rongotai Ridge Precinct.</u> <p>2. In the Miramar South Precinct, earthworks must be undertaken in accordance with an Erosion and Sediment Control Plan prepared in accordance with the Erosion and Sediment Control Guidelines for the Wellington Region (or equivalent).</p> <p>2.3. In all areas, a structure used to retain or stabilize a slope must be no higher than 2.5m measured vertically.</p> <p>Except:</p> <ol style="list-style-type: none"> The construction, upgrade or maintenance of: <ol style="list-style-type: none"> Apron and taxiway surfaces. Road and accessway surfaces. <p>3. No earthwork shall create a dust nuisance.</p> <p>4. As soon practicable, but not later than three months after the completion of earthworks or stages earthworks, the earthworks area must be stabilised with vegetation or sealed, paved, metalled or built over.</p> <p><u>(Option A).</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.383	General District wide Matters / Earthworks / EW-S14	Amend	Opposes EW-S14. [See paragraphs 4.93 to 4.96 of original submission for full reason]	Amend EW-S14 (Earthworks in the airport zone) as follows: Assessment criteria where the standard is <u>not met infringed</u> : 1. Rongotai Ridge Precinct: a. Extent of cut faces; b. Enhancement of pedestrian and cycle networks; b. Impact on views of, through and within the site; and d. Connections to community and recreation resources. 2. Miramar South Precinct:- a. Erosion and Sediment Control Guidelines for the Wellington Region (or equivalent). 2.3. In all areas, any relevant aspect of: ... 3. <u>With respect to EW-S14(4):</u> <u>a. The effectiveness of temporary measures to avoid the creation of dust nuisance.</u> 4. <u>With respect to EW-S14(5):</u> <u>a. The effectiveness of permanent measures to avoid erosion, the creation of dust nuisance, to filter silt and sediment and reduce the volume and speed of runoff from the site.</u> 5.4. In all areas, any relevant aspect of: ... (Option A).
Wellington International Airport Ltd	406.384	General District wide Matters / Earthworks / EW-S14	Oppose	Opposes EW-S14. [See paragraphs 4.93 to 4.96 of original submission for full reason]	Delete EW-S14 (Earthworks in the airport zone) in its entirety. (Option B).
Rod Halliday	25.30	General District wide Matters / Earthworks / EW-S15	Not specified	Considers that it is not clear in EW-S15 what is defined as a Gas Transmission Pipeline corridor. It is presumed it is national bulk lines but there is no clear definition. Without one, the standard may capture minor residential supply pipes down to individual stubs to dwellings.	Clarify the definition of 'Gas Transmission Pipeline Corridor' in EW-S15 (Earthworks in the national grid yard and gas transmission pipeline corridor).
Firstgas Ltd	FS97.13	Part 2 / General District wide Matters / Earthworks / EW-S15	Support	Firstgas supports this submission which seeks that the definition of 'Gas Transmission Pipeline Corridor' is clarified to align with Firstgas' original submission seeking for the definition of 'Gas Transmission Pipeline Corridor' to be added. The inclusion of this definition is required to help implement rules sought in the Plan which relate to the gas transmission pipeline corridor. The definition would allow buffer/setback areas to be determined and therefore appropriately managing potential reverse sensitivity effects. This definition would provide clarity to the plan user of the extent of the pipeline corridor.	Allow
Firstgas Limited	304.42	General District wide Matters / Earthworks / EW-S15	Support	EW-S15 is supported as it relates to the gas transmission pipeline corridor. The standards recognise the importance of the integrity and stability of the regionally significant infrastructure.	Retain EW-S15 (Earthworks in the national grid yard and gas transmission pipeline corridor) as notified.

General District-wide Matters - Light

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Transpower New Zealand Limited	315.177	General District wide Matters / Earthworks / EW-S15	Amend	<p>Related to EW-R22, seeks amendment to the standard EW-S15 for those provisions specific to the National Grid.</p> <p>Seeks an amendment to the depth standard to move the standard to the rule. Considers the depths should be amended to better reflect NZECP34 but with all support structures treated the same in respect of setbacks (thereby recognising the risks to the National Grid extend beyond those addressed by NZECP34). An additional clause is sought to ensure ongoing access is maintained to support structures. Seeks minor grammatical and wording refinements. Seeks the separating of the National Grid from the Gas Transmission pipeline to avoid confusion to plan users</p>	<p>Amend EW-S15 (Earthworks in the national grid yard and gas transmission pipeline corridor) as follows:</p> <p>EW-S15 Earthworks in the National Grid Yard and gas transmission pipeline corridor All Zones</p> <p>1. Earthworks or vertical holes in the National Grid Yard must comply with the following:</p> <p>a. Earthworks or vertical hole/s depth must be no greater than-</p> <p>i. 300 millimetres within 2.2 metres of any National Grid support poles or stay wires; or</p> <p>ii. 750 millimetres between 2.2 metres and 5 metres of the pole or stay wire.</p> <p>b. Earthworks or vertical hole depth must be no greater than-</p> <p>i. 300 millimetres within 6 metres of the outer visible edge of a foundation of any National Grid support tower (including any tubular steel tower that replaces a steel lattice tower); or</p> <p>ii. Between 6 metres and 12 metres from the outer visible edge of a foundation of any National Grid support tower (including any tubular steel tower that replaces a steel lattice tower).</p> <p>a. e. The earthworks must not result in a reduction in the ground to conductor clearance distances as required in Table 4 of the New Zealand Electrical Code of Practice for Safe Electrical Distances (NZECP 34:2001) ISSN 01140663.</p> <p>b. d. The earthworks must not result in vehicular access to a National Grid support structure being permanently obstructed.</p> <p><u>c. Not compromise the stability of a National Grid support structure.</u></p> <p>...</p>
Bruce Crothers	319.14	General District wide Matters / Light / General LIGHT	Not specified	<p>Supports standards on light pollution in Rural Areas.</p> <p>[Refer to original submission for full reason]</p>	<p>Retain LIGHT standards and rules on light pollution in rural areas as notified.</p> <p>[Inferred decision requested]</p>
Restaurant Brands Limited	349.33	General District wide Matters / Light / General LIGHT	Support	Support	Retain LIGHT – Te Aho – Light as notified.
Wellington International Airport Ltd	406.385	General District wide Matters / Light / General LIGHT	Support	Considers that it is appropriate for aviation related lighting to be exempt from the rules and standards of the lighting chapter. Such matters are governed by Civil Aviation Regulations.	Retain Light chapter introduction as notified.
Guardians of the Bays Inc	FS44.35	Part 2 / General District wide Matters / Light / General LIGHT	Support	Guardians of the Bays Incorporated agrees with the proposed changes of Wellington Airport in relationship to all their submission points in relationship to light. Reducing and directing artificial light down will have positive benefits for the surrounding residential areas.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.76	Part 2 / General District wide Matters / Light / General LIGHT	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.386	General District wide Matters / Light / General LIGHT	Support	Supports the exemption of Aviation Lighting from the Lighting chapter.	Retain Lighting Chapter introduction as notified.
Guardians of the Bays Inc	FS44.36	Part 2 / General District wide Matters / Light / General LIGHT	Support	Guardians of the Bays Incorporated agrees with the proposed changes of Wellington Airport in relationship to all their submission points in relationship to light. Reducing and directing artificial light down will have positive benefits for the surrounding residential areas.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.77	Part 2 / General District wide Matters / Light / General LIGHT	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.387	General District wide Matters / Light / General LIGHT	Amend	[No specific reason given beyond decision requested - see original submission]	Seeks that the LIGHT chapter is amended to add protection for aircraft from poorly managed lighting.
Guardians of the Bays Inc	FS44.37	Part 2 / General District wide Matters / Light / General LIGHT	Support	Guardians of the Bays Incorporated agrees with the proposed changes of Wellington Airport in relationship to all their submission points in relationship to light. Reducing and directing artificial light down will have positive benefits for the surrounding residential areas.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.78	Part 2 / General District wide Matters / Light / General LIGHT	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.388	General District wide Matters / Light / General LIGHT	Not specified	As currently drafted, if an applicant requires resource consent for lighting reasons, a restricted discretionary resource consent application is required. The objectives and policies within this chapter primarily relate to the management of amenity effects or lighting for the safety of people on the ground. Without any policy dissuasion for activities that could have an adverse effect on aircraft safety, it would be difficult for a resource consent to be declined even if the activity could have adverse safety effects on aircraft.	Not specified.
Guardians of the Bays Inc	FS44.38	Part 2 / General District wide Matters / Light / General LIGHT	Support	Guardians of the Bays Incorporated agrees with the proposed changes of Wellington Airport in relationship to all their submission points in relationship to light. Reducing and directing artificial light down will have positive benefits for the surrounding residential areas.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.79	Part 2 / General District wide Matters / Light / General LIGHT	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Catharine Underwood	481.19	General District wide Matters / Light / General LIGHT	Amend	Considers that specific rules around lighting are missing from the plan. It is noted that only mentions of not having dark to light contrast and dangerous dark places have been found.	Seeks that more specific rules around lighting be present in the plan.
Catharine Underwood	481.20	General District wide Matters / Light / General LIGHT	Amend	Considers that Lighting plans should adhere to the International Dark Sky lighting rules before it is too late. It is noted these rules do not mean there is not light, but rather that there is appropriate light where needed. The added benefit is that it is good for the environment with the protection of biodiversity. It would also benefit Wellingtonians to potentially reside in the 'Second Dark Sky Capital in the world'	Seeks that the Light chapter provisions adhere to the lighting recommendations from the International Dark Sky Association.
Living Streets Aotearoa	482.45	General District wide Matters / Light / General LIGHT	Support	Supports the intent of the LIGHT chapter with regard to providing good public lighting without causing dark sky issues and negatively affecting wildlife (including insects).	Retain LIGHT chapter as notified. [Inferred decision requested].
Director-General of Conservation	385.76	General District wide Matters / Light / New LIGHT	Amend	Considers appropriate that an addition of a new rule similar to LIGHT-R2 that seeks to protect indigenous fauna residing within SNAs from adverse lighting effects.	Add an additional rule similar to LIGHT-R2 as a Restricted Discretionary activity for outdoor artificial lighting adjacent to or within a SNA.
Wellington International Airport Limited	FS36.143	Part 2 / General District wide Matters / Light / New LIGHT	Oppose	WIAL remains neutral with respect to this proposed new rule, however notes that the amendments it seeks to this rule (refer to WIAL's primary submission) would need to be carried through to any new provisions relating to SNA's, given the proximity of two nearby SNAs to Wellington International Airport.	Disallow
Director-General of Conservation	385.77	General District wide Matters / Light / LIGHT-O2	Support in part	Supports proposed Objective LIGHT-O2, however would request a change to the wording to acknowledge the potential adverse effects that bright lights can have on indigenous fauna. For example, indigenous fauna within a SNA that is outside of the coastal environment.	Support in part objective LIGHT-O2 (Adverse effects of outdoor artificial lighting), but seeks amendments.
Director-General of Conservation	385.78	General District wide Matters / Light / LIGHT-O2	Amend	Considers appropriate to request a change to the wording to acknowledge the potential adverse effects that bright lights can have on indigenous fauna. For example, indigenous fauna within a SNA that is outside of the coastal environment.	Amend LIGHT-O2 (Adverse effects of outdoor artificial lighting) as follows: The adverse effects of outdoor artificial lighting on sensitive activities, traffic safety, aviation safety, coastal wildlife, indigenous fauna, and the night sky are limited.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ministry of Education	400.76	General District wide Matters / Light / LIGHT-O2	Support	Supports LIGHT-O2 as it limit the adverse effects of artificial lighting on educational facilities.	Retain LIGHT-O2 (Adverse effects of outdoor artificial lighting) as notified.
Director-General of Conservation	385.79	General District wide Matters / Light / LIGHT-P2	Support in part	Supports proposed policy LIGHT-P2, however would request a change to the wording to minimise the potential adverse effects from bright lights on indigenous fauna in any other location.	Supports in part policy LIGHT-P2 (Design and location of outdoor artificial lighting), but seeks amendments.
Director-General of Conservation	385.80	General District wide Matters / Light / LIGHT-P2	Amend	Considers appropriate that a change to the wording to minimise the potential adverse effects from bright lights on indigenous fauna in any other location.	Amend LIGHT-P2 (Design and location of outdoor artificial lighting) as follows: Require outdoor artificial lighting to be designed, located and oriented to maintain amenity values, traffic safety, aviation safety and to minimise effects on wildlife in coastal margins <u>and indigenous fauna in any other location.</u>
Wellington International Airport Ltd	406.389	General District wide Matters / Light / LIGHT-P2	Oppose	Opposes LIGHT-P2. Considers that the current provisions do not provide sufficient dissuasion of lighting activities that could give rise to potentially adverse effects of aviation safety. [See paragraphs 4.97 to 4.100 of original submission for further detail.]	Opposes LIGHT-P2 (Design and location of outdoor artificial lighting) and seeks amendment.
Guardians of the Bays Inc	FS44.39	Part 2 / General District wide Matters / Light / LIGHT-P2	Support	Guardians of the Bays Incorporated agrees with the proposed changes of Wellington Airport in relationship to all their submission points in relationship to light. Reducing and directing artificial light down will have positive benefits for the surrounding residential areas.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.80	Part 2 / General District wide Matters / Light / LIGHT-P2	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.390	General District wide Matters / Light / LIGHT-P2	Amend	Opposes LIGHT-P2. Considers that the current provisions do not provide sufficient dissuasion of lighting activities that could give rise to potentially adverse effects of aviation safety. [See paragraphs 4.97 to 4.100 of original submission for further detail.]	Amend LIGHT-P2 (Design and location of outdoor artificial lighting) as follows: Require outdoor artificial lighting to be designed, located and oriented to maintain amenity values, traffic safety, aviation safety and to minimise effects on wildlife in coastal margins. <u>a. maintain amenity values;</u> <u>b. maintain traffic safety;</u> <u>c. avoid adverse effects on aviation safety; and</u> <u>d. to minimise effects on wildlife in coastal margins.</u> (Option A).
Guardians of the Bays Inc	FS44.40	Part 2 / General District wide Matters / Light / LIGHT-P2	Support	Guardians of the Bays Incorporated agrees with the proposed changes of Wellington Airport in relationship to all their submission points in relationship to light. Guardians of the Bays Inc	FS44.49	Part 2 / General District wide Matters / Light / LIGHT- S3	Support	Guardians of the Bays Incorporated agrees with the proposed changes of Wellington Airport in relationship to all their submission points in relationship to light. Reducing and directing artificial light down will have positive benefits for the surrounding residential areas.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.90	Part 2 / General District wide Matters / Light / LIGHT- S3	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.400	General District wide Matters / Light / LIGHT- S3	Amend	Generally supports the lighting standards. Considers that the relevant assessment criteria with respect to aircraft safety should refer to “the effect” on aircraft rather than the “impact” as the former is more readily understood and applied in a RMA context. [See paragraphs 4.97 to 4.102 of original submission for full reason]	Amend LIGHT-S3 (Glare) as follows: <u>All exterior lighting shall be directed downward.</u> <u>Assessment criteria where the standard is infringed:</u> 1. Safety of the transport network; 2. Effects on indoor amenity values and sleep quality of any nearby dwellings; 3. The number, placement, design, height, colour, orientation and screening of light fittings and light support structures; 4. Any positive effects generated from the use of artificial lighting; and 5. The impact effect of lighting on aircraft safety or the safe and efficient functioning of the Airport.
Guardians of the Bays Inc	FS44.50	Part 2 / General District wide Matters / Light / LIGHT- S3	Support	Guardians of the Bays Incorporated agrees with the proposed changes of Wellington Airport in relationship to all their submission points in relationship to light. Reducing and directing artificial light down will have positive benefits for the surrounding residential areas.	Allow
Airways Corporation of New Zealand Limited	FS105.21	Part 2 / General District wide Matters / Light / LIGHT-S3	Support	This submission point is consistent with Airways' operations and its core functions.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.91	Part 2 / General District wide Matters / Light / LIGHT-S3	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.401	General District wide Matters / Light / LIGHT-S3	Support	Supports assessment criteria within LIGHT-S3 that seek to ensure that when a standard is infringed "The impact of lighting on aircraft safety or the safe and efficient functioning of the Airport" is considered.	Retain assessment criteria within LIGHT-S3 (Glare) as notified.
Guardians of the Bays Inc	FS44.51	Part 2 / General District wide Matters / Light / LIGHT- S3	Support	Guardians of the Bays Incorporated agrees with the proposed changes of Wellington Airport in relationship to all their submission points in relationship to light. Reducing and directing artificial light down will have positive benefits for the surrounding residential areas.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.92	Part 2 / General District wide Matters / Light / LIGHT-S3	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.402	General District wide Matters / Light / LIGHT-S4	Support	Supports assessment criteria within LIGHT-S4 that seek to ensure that when a standard is infringed "The impact of lighting on aircraft safety or the safe and efficient functioning of the Airport" is considered.	Amend LIGHT-S4 (Effects on Road users) as follows: ... Assessment criteria: ... 4. The impact of lighting on aircraft safety or the safe and efficient functioning of the Airport. [Inferred Decision Requested]
Guardians of the Bays Inc	FS44.52	Part 2 / General District wide Matters / Light / LIGHT- S4	Support	Guardians of the Bays Incorporated agrees with the proposed changes of Wellington Airport in relationship to all their submission points in relationship to light. Reducing and directing artificial light down will have positive benefits for the surrounding residential areas.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.93	Part 2 / General District wide Matters / Light / LIGHT- S4	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Retirement Villages Association of New Zealand Incorporated	350.75	General District wide Matters / Light / LIGHT-S6	Oppose in part	Supports permitted activity status for outdoor lighting, but considers the applicable standards are too restrictive. For example, the vertical illuminance levels in LIGHT-S2 may be difficult to comply with. In addition, considers that the standards are complex and likely to require extensive technical input.	Opposes LIGHT-S6 (Externally illuminated surfaces) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.76	General District wide Matters / Light / LIGHT-S6	Amend	Supports permitted activity status for outdoor lighting, but considers the applicable standards are too restrictive. For example, the vertical illuminance levels in LIGHT-S2 may be difficult to comply with. In addition, considers that the standards are complex and likely to require extensive technical input.	Amend LIGHT-S6 (Externally illuminated surfaces) to provide for reasonable outdoor lighting as a permitted activity without overly onerous compliance requirements.
Ministry of Education	400.79	General District wide Matters / Light / LIGHT-S6	Support in part	Supports LIGHT-S6 in part.	Retain LIGHT-S6 (Externally illuminated surfaces) with amendment.

General District-wide Matters - Noise

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ministry of Education	400.80	General District wide Matters / Light / LIGHT-S6	Amend	Seeks LIGHT-S6 be amended. The submitter does not support the use of the word 'conflict' as it does not provide enough clarity to the decision maker on what effects to consider.	Amend LIGHT-S6 (Externally illuminated surfaces) as follows: Assessment criteria where the standards are infringed: 1. The safety of the transport network; 2. The number, placement, design, height, colour, orientation and screening of light fittings and light support structures; 3. Consider the effects on nearby Conflict with existing sensitive activities; 4. Effects on indoor amenity values and sleep quality of any nearby residential units; 5. Any positive effects generated from the use of artificial lighting; and 6. Effects on established uses and their operation. 7. The impact of lighting on aircraft safety or the safe and efficient functioning of the Airport.
Wellington International Airport Ltd	406.403	General District wide Matters / Light / LIGHT-S6	Support	Supports assessment criteria within LIGHT-S6 that seek to ensure that when a standard is infringed "The impact of lighting on aircraft safety or the safe and efficient functioning of the Airport" is considered.	Retain assessment criteria within LIGHT-S6 (Externally illuminated surfaces) as notified.
Guardians of the Bays Inc	FS44.53	Part 2 / General District wide Matters / Light / LIGHT- S6	Support	Guardians of the Bays Incorporated agrees with the proposed changes of Wellington Airport in relationship to all their submission points in relationship to light. Reducing and directing artificial light down will have positive benefits for the surrounding residential areas.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.94	Part 2 / General District wide Matters / Light / LIGHT- S6	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
New Zealand Agricultural Aviation Association	40.5	General District wide Matters / Noise / General NOISE	Amend	The NOISE chapter has no provisions for the intermittent use of aircraft for agricultural aviation activities.	Seeks that the NOISE chapter includes provisions for the intermittent use of aircraft for agricultural aviation activities as permitted activity.
Shailesh Kumar Patel	49.1	General District wide Matters / Noise / General NOISE	Amend	Considers that current restrictions on subdivision and infill housing in the Air Noise boundary are against the spirit of current government housing solutions and the housing crisis. It disadvantages house owners within the boundary who cannot add value to their property/section.	Seeks that council ease restrictions on subdivision and infill housing in the Air Noise Boundary so that these sites have the development potential available under the MDRS.
Yvonne Weeber	340.74	General District wide Matters / Noise / General NOISE	Amend	Considers that the Introduction to the 'Noise' chapter should be amended to provide further information on the airport noise issues within the introduction. A major change is occurring with the development of the Outer Air Noise Overlay and it deserves being recognised in the introduction of this chapter.	Amend the Introduction to the 'Noise' chapter as follows: ... Some activities that generate noise are exempt from the noise rules set out in this chapter. This is because they are not controlled by the RMA, e.g. vehicles being driven on a road, or aircraft above 1,000 feet in flight over built up areas. In addition, the Civil Aviation Act 1990 imposes certain rules requiring noise abatement procedures for aircraft operating in the vicinity of Wellington International Airport. <u>The air noise boundary overlays (inner and outer) place development restrictions on properties affected by Wellington International Airport.</u> ...
Wellington International Airport Limited	FS36.144	Part 2 / General District wide Matters / Noise / General NOISE	Oppose	WIAL is not opposed to the introduction of this text in principle, however does not support the drafting as set out in this submission.	Disallow / Seeks that part of the submission be disallowed.
Yvonne Weeber	340.75	General District wide Matters / Noise / General NOISE	Amend	Considers that the Introduction to the 'Noise' chapter should be amended to recognise the 2018 World Health Organisation Environmental Noise Guidelines for the European Region in the introduction as these guidelines provide up to date research on adverse effects to aircraft noise on people over an extended period. The 2018 WHO Guidelines are a widely accepted contemporary and authoritative reference on the adverse effects of transportation noise on communities.	Amend the Introduction to the 'Noise' chapter to include a reference to the <u>2018 World Health Organisation Environmental Noise Guidelines for the European Region.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Limited	FS36.146	Part 2 / General District wide Matters / Noise / General NOISE	Oppose	WIAL opposes this amendment to extent that it is not clear of the nature or scale of changes proposed to be introduced by the submitters by including this reference with the Noise chapter of the Proposed Plan.	Disallow
Restaurant Brands Limited	349.34	General District wide Matters / Noise / General NOISE	Support	Support	Retain NOISE – Te Oro – Noise as notified.
Woolworths New Zealand	359.35	General District wide Matters / Noise / General NOISE	Support	Noise levels and standards are generally supported, especially the restricted discretionary activity status where noise standards cannot be complied with.	Retain the Noise chapter as notified.
Strathmore Park Residents Association Inc	371.1	General District wide Matters / Noise / General NOISE	Amend	Considers that a programme not less than the Quieter Homes requirement be also applied to existing homes which become located within the 60dB Outer Air Noise Overlay, and further that the programme be actioned in a much more timely manner than that to date homes within the ANB. The submitters experience to date with properties inside the ANB is that the "Quieter Homes" insulation and ventilation requirement for the defined existing homes within our Suburb has now been delayed for over 20 years since the recommendation became operative & now for 10 years since the detailed proposals and (the 650) house locations were publicly notified. To date the submitter understands that just over 100 existing houses have been treated & also up to 50 or so have been purchased & demolished. Accordingly the submitter requests that a time limit be imposed to provide Quieter Homes remediation from the time that they are formally identified to be within the 60dB contour.	Seeks the addition of rule(s) to require the Quieter Homes ventilation and/or insulation are for existing homes within the 60dB Outer Air Noise Overlay. And impose a time limit to provide the Quieter Homes package in a more timely manner once they are formally identified to be within the 60dB Outer Noise Overlay.
Wellington International Airport Limited	FS36.148	Part 2 / General District wide Matters / Noise / General NOISE	Oppose	As set out in WIAL's primary submission, it is inappropriate for the Noise chapter to duplicate aircraft noise management and mitigation measures imposed on WIAL through the recently settled Main Site and East Side Area Designations. Furthermore, the Main Site and East Side Area Designations are not subject to amendment as part of the Proposed Plan review.	Disallow
Kāinga Ora – Homes and Communities	FS89.160	Part 2 / General District wide Matters / Noise / General NOISE	Support	Kāinga Ora supports the request as this will enhance residential intensification outcomes and a well-functioning urban environment.	Allow
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.99	General District wide Matters / Noise / General NOISE	Support	Supports the introduction to the Noise Chapter.	Retain the introduction to the Noise Chapter.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.100	General District wide Matters / Noise / General NOISE	Support	The Noise chapter is generally supported.	Retain the Noise Chapter, with amendment.
Kāinga Ora Homes and Communities	391.284	General District wide Matters / Noise / General NOISE	Oppose in part	All rules in the Noise chapter are opposed due to the fact that the technical nature of these breaches requires technical and/or engineering assessments, and public participation by way of limited or public notification will unlikely add anything to the consideration of the effects of these breaches. Amendments sought.	Opposes all Rules in the Noise chapter and seeks amendment.
Wellington International Airport Limited	FS36.149	Part 2 / General District wide Matters / Noise / General NOISE	Oppose	WIAL opposes the submission to the extent that it would provide for a more flexible land use management framework than WIAL has sought in its primary submission for noise sensitive activities to establish within the Air Noise Boundary and 60dB Ldn Noise Boundary at Wellington International Airport.	Disallow
New Zealand Defence Force	FS104.14	Part 2 / General District wide Matters / Noise / General NOISE	Oppose	Oppose the deletion of all rules in the Noise Chapter.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
The Retirement Villages Association of New Zealand Incorporated	FS126.114	Part 2 / General District wide Matters / Noise / General NOISE	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.114	Part 2 / General District wide Matters / Noise / General NOISE	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.
Kāinga Ora Homes and Communities	391.285	General District wide Matters / Noise / General NOISE	Amend	Considers that all rules in the Noise chapter should have a notification preclusion statement (for both public and limited notification) for restricted discretionary activities. The technical nature of these breaches requires technical and/or engineering assessments, and public participation by way of limited or public notification will unlikely add anything to the consideration of the effects of these breaches. Particularly, the notification statuses for SUB-R1 generally relate to the land use activity and associated standards, and the subdivision itself is not generating additional effects that should trigger notification.	Amend all Rules in the Noise chapter to include a notification preclusion statement for activities under Restricted Discretionary as follows: <u>Notification:</u> <u>Applications under this rule are precluded from being publicly or limited notified in accordance with section 95A or section 95B of the RMA.</u>
KiwiRail Holdings Limited	FS72.66	Part 2 / General District wide Matters / Noise / General NOISE	Oppose	Considers it necessary to be notified of activities that cannot comply with noise provisions when located near the rail corridor to ensure KiwiRail has the opportunity to be included in the planning assessment process. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
New Zealand Defence Force	FS104.15	Part 2 / General District wide Matters / Noise / General NOISE	Oppose	Oppose proposed amendment to preclude both public and limited notification for activities that would require resource consent as Restricted Discretionary Activity with respect to a rule in the Noise Chapter. Notification decisions should involve consideration of the proposal with respect to the subject site, surrounding environment, proposed effects, along with measures to avoid, remedy or mitigate adverse effects, in order to reach a conclusion on the overall level of effects in terms of Section 95 of the Resource Management Act 1991.	Disallow
The Retirement Villages Association of New Zealand Incorporated	FS126.115	Part 2 / General District wide Matters / Noise / General NOISE	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.115	Part 2 / General District wide Matters / Noise / General NOISE	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.
Wellington International Airport Ltd	406.404	General District wide Matters / NOISE / General NOISE	Amend	Supports the specific recognition afforded to aircraft activities.	Retain NOISE chapter introduction as notified.
Guardians of the Bays Inc	FS44.76	Part 2 / General District wide Matters / NOISE / General NOISE	Support	Seeks recognition of aircraft noise in the General District Wide Matters for Noise. [Inferred reference to submission 406.404]	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.95	Part 2 / General District wide Matters / NOISE / General NOISE	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.405	General District wide Matters / NOISE / General NOISE	Amend	Considers that a new suite of policies is required to address the management of noise sensitive activities within the Air Noise Boundary and 60dB Ldn Noise Boundary. [See paragraphs 4.62 to 4.75 of original submission for full reason]	Add new Policy to NOISE chapter as follows: <u>NOISE-P7 Management of Activities Sensitive to Aircraft Noise:</u> <u>Within the Air Noise Boundary or 60dB Ldn Noise Boundary:</u> <u>1. Avoid the establishment of new noise sensitive activities within the Open Space, Natural Open Space and General Industrial Zones;</u> <u>2. Discourage the establishment of new or the intensification of existing noise sensitive activities within all other zones unless the reverse sensitivity effects on Wellington International Airport can be appropriately avoided.</u>
Guardians of the Bays Inc	FS44.77	Part 2 / General District wide Matters / NOISE / General NOISE	Oppose	Seeks recognition that there may need to be more policies within the plan regarding the Air Noise Boundaries. Guardians of the Bays Incorporated are concerned however that WIAL additions and amendments go too far in relationship to normal activities that occur within the zones of the Air Noise Boundary overlay. Guardians of the Bays Incorporated are also concerned that WIAL proposed changes are based on 'anticipating' (forward forecasting) more noise in the next 30 years within these areas with no actual factual information. Considers that WIAL should be working with WCC, the community and Guardians of the Bays to improve the noise policies, within the plan but not 'restrict' normal development within these areas. [Inferred reference to submission 406.405]	Disallow / Seeks that the submission point be disallowed or amended in a way to stop undue burden on normal activities in zones within the Air Noise Boundary overlay as called by the WIAL Air Noise Boundary and 60db l s.
Kāinga Ora – Homes and Communities	FS89.125	Part 2 / General District Wide Matters / Noise / General NOISE	Oppose	Kāinga Ora opposes the new policy which is a duplication of other policies in the NOISE chapter and specific zone chapters.	Disallow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.96	Part 2 / General District Wide Matters / Noise / General NOISE	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.406	General District wide Matters / NOISE / General NOISE	Amend	Considers that a new suite of policies is required to address the management of noise sensitive activities within the Air Noise Boundary and 60dB Ldn Noise Boundary. [See paragraphs 4.62 to 4.75 of original submission for full reason]	Add new Policy to NOISE chapter as follows: <u>NOISE-P8: Acoustic treatment of activities sensitive to aircraft noise</u> <u>Require, as necessary, sound insulation and/or mechanical ventilation within any new buildings or any additions or alterations to existing buildings that contain noise sensitive activities within the Air Noise Boundary or 60dB Ldn noise contour.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Guardians of the Bays Inc	FS44.78	Part 2 / General District wide Matters / NOISE / General NOISE	Oppose	<p>Seeks recognition that there may need to be more policies within the plan regarding the Air Noise Boundaries. Guardians of the Bays Incorporated are concerned however that WIAL additions and amendments go to far in relationship to normal activities that occur within the zones of the Air Noise Boundary overlay. Guardians of the Bays Incorporated are also concerned that WIAL proposed changes are based on 'anticipating' (forward forecasting) more noise in the next 30 years within these areas with no actual factual information. Considers that WIAL should be working with WCC, the community and Guardians of the Bays to improve the noise policies, within the plan but not 'restrict' normal development within these areas.</p> <p>[Inferred reference to submission 406.406]</p>	Disallow / Seeks that the submission point be disallowed or amended in a way to stop undue burden on normal activities in zones within the Air Noise Boundary overlay as called by the WIAL Air Noise Boundary and 60dbL s.
Kāinga Ora – Homes and Communities	FS89.126	Part 2 / General District Wide Matters / Noise / General NOISE	Oppose	<p>Kāinga Ora opposes the new policy which is a duplication of other policies.</p> <p>It is noted that WIAL have not sought to add a definition for the 60dB Ldn noise contour although it is assumed this may be the same as the 60dB Ldn noise boundary.</p> <p>Kāinga Ora opposes any consequential amendments sought by WIAL which remove reference to the Inner and Outer Noise Overlays in favour of reference to the Air Noise Boundary which are clearer mechanisms.</p>	Disallow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.97	Part 2 / General District Wide Matters / Noise / General NOISE	Support	<p>Support WAIL's submission for the reasons set out in WAIL's submission.</p>	Allow
Wellington International Airport Ltd	406.407	General District wide Matters / Noise / General NOISE	Amend	<p>Submitter expresses concern about the approach to Aircraft noise and land use effects in the NOISE chapter.</p> <p>Considers that the PDP is more permissive than the NZ Standard for Airport Noise Management and Land Use Planning recommendations, but less permissive than the Operative District Plan.</p> <p>Considers that the decision requested will recognise that aircraft noise is anticipated to increase over time, therefore the noise environment that is experienced now is not the noise environment that will be experienced, 10, 20 or 30 years into the future as aircraft operations increase within the authorised limits of the ANB and 60dB Ldn.</p> <p>[See original submission for full reason]</p>	Seeks that all new noise sensitive activities within the Air Noise Boundary or 60dB Ldn noise boundary should be subject to a resource consent requirement and WIAL being considered an affected party to any application under section 95E of the RMA.
Guardians of the Bays Inc	FS44.79	Part 2 / General District wide Matters / NOISE / General NOISE	Oppose	<p>Seeks recognition that there may need to be more policies within the plan regarding the Air Noise Boundaries. Guardians of the Bays Incorporated are concerned however that WIAL additions and amendments go to far in relationship to normal activities that occur within the zones of the Air Noise Boundary overlay. Guardians of the Bays Incorporated are also concerned that WIAL proposed changes are based on 'anticipating' (forward forecasting) more noise in the next 30 years within these areas with no actual factual information. Considers that WIAL should be working with WCC, the community and Guardians of the Bays to improve the noise policies, within the plan but not 'restrict' normal development within these areas.</p> <p>[Inferred reference to submission 406.407]</p>	Disallow / Seeks that the submission point be disallowed or amended in a way to stop undue burden on normal activities in zones within the Air Noise Boundary overlay as called by the WIAL Air Noise Boundary and 60dbL s.
Kāinga Ora – Homes and Communities	FS89.127	Part 2 / General District Wide Matters / Noise / General NOISE	Oppose	<p>Kāinga Ora opposes the decision sought which would result in a significant constraint to development within zones appropriately zoned for noise sensitive activities and where adverse effects can be adequately managed.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Strathmore Park Residents Association Incorporated	FS122.1	Part 2 / General District wide Matters / Noise / General NOISE	Oppose	Considers WIAL is seeking to enforce Resource Consent rules on property owners for noise sensitive activities that are almost all community related. Also they wish their status to be as interested party. Considers this is giving an elevated status to the polluter.	Disallow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.98	Part 2 / General District wide Matters / Noise / General NOISE	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.408	General District wide Matters / Noise / General NOISE	Amend	[No specific reason given beyond decision requested - see original submission]	Seeks that the Outer Air Noise Overlay is amended to establish a policy framework where resource consents can be declined within existing residential zones for noise sensitive activities on reverse sensitivity grounds;
Guardians of the Bays Inc	FS44.80	Part 2 / General District wide Matters / NOISE / General NOISE	Oppose	Seeks recognition that there may need to be more policies within the plan regarding the Air Noise Boundaries. Guardians of the Bays Incorporated are concerned however that WIAL additions and amendments go to far in relationship to normal activities that occur within the zones of the Air Noise Boundary overlay. Guardians of the Bays Incorporated are also concerned that WIAL proposed changes are based on 'anticipating' (forward forecasting) more noise in the next 30 years within these areas with no actual factual information. Considers that WIAL should be working with WCC, the community and Guardians of the Bays to improve the noise policies, within the plan but not 'restrict' normal development within these areas. [Inferred reference to submission 406.408]	Disallow / Seeks that the submission point be disallowed or amended in a way to stop undue burden on normal activities in zones within the Air Noise Boundary overlay as called by the WIAL Air Noise Boundary and 60dbl s.
Kāinga Ora – Homes and Communities	FS89.128	Part 2 / General District Wide Matters / Noise / General NOISE	Oppose	Kāinga Ora opposes the decision sought on the basis that adverse effects from noise can be appropriately managed and the concept of reverse sensitivity is not supported.	Disallow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.99	Part 2 / General District wide Matters / Noise / General NOISE	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
KiwiRail Holdings Limited	408.104	General District wide Matters / Noise / General NOISE	Support in part	Supports the inclusion of noise controls, however, has proposed the standard noise control sought by KiwiRail which provides an alternative framework for developers to achieve a compliance pathway, thus providing greater flexibility. KiwiRail is also seeking vibration controls to ensure that vibration effects are appropriately addressed.	Supports the inclusion of noise controls, with amendments.
Save Our Venues	445.5	General District wide Matters / Noise / General NOISE	Not specified	Considers that live music venues, which are an integral part of the cultural identity of Wellington, are confronted with the possibility of closure where residential urban densification has not coincided with adequate protections within the current WCC District Plan for their intrinsic need to produce sound. Considers that protecting established and new venues in the urban mixed-use areas is crucial and would significantly contribute to a sustainable future for live music in the city. Considers that there is a reality that a new neighbour has the right to complain about the sound output of a music venue and restrict their ability to operate at a reasonable volume is an existential threat to their continued viability.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Save Our Venues	445.6	General District wide Matters / Noise / General NOISE	Amend	<p>Considers that there are significant issues with current Noise Control enforcement processes.</p> <p>Considers that the current methodology of measuring sound is subjective and places the onus on the complainant.</p> <p>Considers that a model where measuring the sound at the boundary of the property from where the sound is emanating, as well as inside the complainant's property, would enable Council to ensure that both the venue and the residential property are compliant with noise standards and acoustic mitigation standards respectively. This will allow for mediation between both parties and ensure reasonable steps can be taken to mitigate noise before the venue is restricted in its ability to operate at all.</p> <p>[Refer to original submission for full reason]</p>	Seeks that a standardised objective model for Noise control should be incorporated into the new District Plan.
Guardians of the Bays	452.29	General District wide Matters / Noise / General NOISE	Amend	Considers amendments are required to the introduction to provide further information on the airport noise issues within the introduction. A major change is occurring with the development of the Outer Air Noise Overlay and it deserves being recognised in the introduction of this chapter.	Amend paragraph two of the introduction as follows: <u>The air noise boundary overlays (inner and outer) place development restrictions on properties affected by Wellington International Airport.</u>
Guardians of the Bays	452.30	General District wide Matters / Noise / General NOISE	Amend	Considers amendments are required to introduction to recognise the 2018 World Health Organisation Environmental Noise Guidelines for the European Region in the introduction as these guidelines provide up to date research on adverse effects to aircraft noise on people over an extended period. The 2018 WHO Guidelines are a widely accepted contemporary and authoritative reference on the adverse effects of transportation noise on communities.	Amend introduction to include the wording as follows: <u>2018 World Health Organisation Environmental Noise Guidelines for the European Region.</u>
Wellington International Airport Limited	FS36.145	Part 2 / General District wide Matters / Noise / General NOISE	Oppose	WIAL is not opposed to the introduction of this text in principle, however does not support the drafting as set out in this submission.	Disallow / Seeks that part of the submission be disallowed.
Wellington International Airport Limited	FS36.147	Part 2 / General District wide Matters / Noise / General NOISE	Oppose	WIAL opposes this amendment to extent that it is not clear of the nature or scale of changes proposed to be introduced by the submitters by including this reference with the Noise chapter of the Proposed Plan.	Disallow
New Zealand Agricultural Aviation Association	40.6	General District wide Matters / Noise / New NOISE	Amend	Considers that the PDP should provide for the intermittent use of rural airstrips and helicopter landing areas by agricultural aircraft for the purposes of agricultural aviation including primary production and conservation purposes as a permitted activity.	<p>Add a new rule NOISE-R14 (General Rural Zone, Open Space Zone and Natural Open Space Zone) as follows:</p> <p><u>General Rural Zone, Open Space Zone and Natural Open Space Zone</u></p> <p><u>Activity Status: Permitted:</u></p> <p><u>Agricultural aviation noise for the purposes of agricultural aviation activities for primary production and conservation purposes.</u></p>
Fire and Emergency New Zealand	273.157	General District wide Matters / Noise / New NOISE	Amend	<p>Considers that due to urban growth, population changes and commitments to response times, FENZ may need to locate anywhere within the urban and rural environment.</p> <p>Noise will be produced on site by operational activities such as cleaning and maintaining equipment, training activities and noise produced by emergency sirens. Training may take place anywhere between 7:00am and 10:00pm. Cleaning and maintenance will generally take place during the day; however, it can take place after a call out which can occur at any time. Generally, FENZ has assessed that a fire station will be capable of meeting the standards set out in NZS 6802:2008 (Table 3 - Guideline residential upper noise limits), with the exemption of noise created by emergency sirens (discussed later).</p>	<p>Add new NOISE objective:</p> <p><u>NOISE-OX</u> <u>Where the locational, functional or operational needs are such that activities of importance to the community could not otherwise meet noise and vibration standards, enable these activities by allowing a whole or partial exemption, or relaxation, from those noise standards.</u></p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
				<p>Some of the noise limits within residential zones in the district plan are more restrictive than those provided for in NZS 6802:2008 (Table 3 - Guideline residential upper noise limits). In order to ensure that fire stations and associated training activities can take place in residential areas in compliance with the District Plan, it is necessary that a new or amended rule makes an allowance for such essential activities within both urban and rural environments, within reasonable limits. It is considered that the standards within NZS 6802:2008 (Table 3) set reasonable limits for the protection of residential amenity in accordance with NOISEP1.</p> <p>Notwithstanding the above, it is not possible for emergency sirens to comply with NZS 6802:2008 (Table 3). Sirens play a crucial role in facilitating a prompt emergency response and can be the most effect means of communication in alerting volunteers who generally live and work in close proximity to fire stations. Sirens also provide assurance to the people who have made the call and the general public that help is on its way.</p> <p>Allowing noise associated with the operation of emergency services provides for the operational requirements of FENZ and enables it to meet its statutory obligations in a manner that provides for the ongoing health and safety of people and communities.</p> <p>As such, FENZ has a locational, functional, and operational need to be exempt from noise generated by emergency sirens.</p> <p>FENZ therefore also seeks the addition of an exemption for noise activity under new rule NOISE-R16 to ensure that emergency service operations are enabled to meet its obligations in a manner that provides for the ongoing health and safety of people and communities.</p>	
Fire and Emergency New Zealand	273.158	General District wide Matters / Noise / New NOISE	Amend	<p>Considers that due to urban growth, population changes and commitments to response times, FENZ may need to locate anywhere within the urban and rural environment.</p> <p>Noise will be produced on site by operational activities such as cleaning and maintaining equipment, training activities and noise produced by emergency sirens. New Zealand Defence Force	FS104.12	Part 2 / General District wide Matters / Noise / New NOISE	Support	<p>Support the intent of including a new Noise Policy on the basis that noise generating activities that are of importance to the community, such as temporary military training activities (TMTA), should be provided for in the Proposed Plan, subject to appropriate controls. However, if the submitters relief is accepted, a new definition of "activities of importance to the community" should be included in Part 1 – Introduction and General Provisions – Definitions, of the Plan. NZDF also seeks to clarify that the majority of TMTA are not typically "noisy activities". Higher noise generating TMTA is limited to noise resulting from discharge of ammunition or explosives, which is subject to specific management through the District Plan. Such activities are much less likely to take place than the essential activities outlined in Section 2 of NZDF's original submission.</p>	<p>Amend / Seeks that the submission be allowed in part to include the proposed new Noise Policy.</p> <p>If the submitter's relief is accepted, then define "Activities of Importance to the Community" in Part 1 of the Proposed Plan.</p>
Fire and Emergency New Zealand	273.160	General District wide Matters / Noise / New NOISE	Amend	<p>Notes that due to urban growth, population changes and commitments to response times, FENZ may need to locate anywhere within the urban and rural environment. Noise will be produced on site by operational activities such as cleaning and maintaining equipment, training activities and noise produced by emergency sirens. Training may take place anywhere between 7:00am and 10:00pm. Cleaning and maintenance will generally take place during the day; however, it can take place after a call out which can occur at any time. Generally, FENZ has assessed that a fire station will be capable of meeting the standards set out in NZS 6802:2008 (Table 3 - Guideline residential upper noise limits), with the exemption of noise created by emergency sirens.</p> <p>Some of the noise limits within residential zones in the district plan are more restrictive than those provided for in NZS 6802:2008 (Table 3 - Guideline residential upper noise limits). In order to ensure that fire stations and associated training activities can take place in residential areas in compliance with the District Plan, it is necessary that a new or amended rule makes an allowance for such essential activities within both urban and rural environments. For reasons set out above for new objective NOISE -O3 and policy NOISE -P5, FENZ also has a locational, functional, and operational need to be exempt from noise generated by emergency sirens. FENZ therefore also seeks the addition of an exemption for noise activity under new rule NOISE -R16 to ensure that emergency service operations are enabled to meet its statutory obligations in a manner that provides for the on-going health and safety of people and communities</p>	<p>Add new NOISE rule:</p> <p><u>NOISE -RX:</u> Noise from Emergency Services Facilities and Temporary Emergency Services Training Activity (All zones) 1. Activity status: Permitted Where: a. Compliance is achieved with the following standards: i. NOISE -S1 or ii. NOISE -S13. b. The noise source is a warning device or siren (including their routine testing and maintenance), associated with an Emergency Service Activity or Temporary Emergency Services Training Activity when measured within the site boundary of a receiving site, or within the notional boundary of rural dwellings or habitable buildings.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.161	General District wide Matters / Noise / New NOISE	Amend	As noted in the previous submission point, FENZ proposes a new standard that has a partial relaxation on some of the DP's residential noise standards to allow for the operational needs of fire stations in residential areas.	Add new NOISE standard: <u>NOISE-SX</u> <u>Noise emitted from Emergency Services Facilities and Temporary Emergency Services Training Activity within All Zones as received in other areas (All Zones) must not exceed the guideline residential upper noise limits set out at NZS 6802:2008 (Table 3 - Guideline residential upper noise limits), as identified below, unless otherwise permitted in accordance with NOISE-S1.</u> <u>Table X – Guideline residential upper noise limits</u> <u>Daytime: 55dB LAeq (15min)</u> <u>Evening: 50dB LAeq (15min)</u> <u>Night-time: 45dB LAeq (15min)</u> <u>Night-time Lmax: 75dB LAFmax</u>
Bruce Crothers	319.15	General District wide Matters / Noise / New NOISE	Amend	Considers that there should be stronger noise restrictions for aircraft and stricter limits on the number of flights unless they are electrically powered and much quieter.	Seeks stronger noise restrictions for aircrafts, including limits on the number of flights allowed.
Wellington International Airport Limited	FS36.150	Part 2 / General District wide Matters / Noise / General NOISE	Oppose	As set out in WIAL's primary submission, it is inappropriate for the Noise chapter to duplicate aircraft noise management and mitigation measures imposed on WIAL through the recently settled Main Site and East Side Area Designations. Furthermore, the Main Site and East Side Area Designations are not subject to amendment as part of the Proposed Plan review.	Disallow
Wellington International Airport Ltd	406.409	General District wide Matters / NOISE / New NOISE	Amend	[See paragraphs 4.62 to 4.75 of original submission for full reason]	Add new Objective to NOISE chapter as follows: <u>NOISE-O3: Reverse sensitivity effects on Wellington International Airport</u> <u>Wellington International Airport is protected from reverse sensitivity effects.</u>
Guardians of the Bays Inc	FS44.81	Part 2 / General District wide Matters / NOISE / New NOISE	Oppose	Seeks recognition that there may need to be more policies within the plan regarding the Air Noise Boundaries. Guardians of the Bays Incorporated are concerned however that WIAL additions and amendments go too far in relationship to normal activities that occur within the zones of the Air Noise Boundary overlay. Guardians of the Bays Incorporated are also concerned that WIAL proposed changes are based on 'anticipating' (forward forecasting) more noise in the next 30 years within these areas with no actual factual information. Considers that WIAL should be working with WCC, the community and Guardians of the Bays to improve the noise policies, within the plan but not 'restrict' normal development within these areas. [Inferred reference to submission 406.409]	Disallow / Seeks that the submission point be disallowed or amended in a way to stop undue burden on normal activities in zones within the Air Noise Boundary overlay as called by the WIAL Air Noise Boundary and 60dbL s.
Guardians of the Bays Inc	FS44.83	Part 2 / General District wide Matters / NOISE / New NOISE	Oppose	Guardians of the Bays Incorporated recognise reverse sensitivity issues but are concerned the changes are too onerous on residential property owners to 'remedy and mitigate' against all Wellington Airports noise which is 'protected'. [Inferred reference to submission 406.409]	Disallow / Seeks that the submission point be disallowed or amended in a way to stop undue burden on normal activities in zones within the Air Noise Boundary overlay as called by the WIAL Air Noise Boundary and 60dbL s.
Guardians of the Bays Inc	FS44.85	Part 2 / General District wide Matters / NOISE / New NOISE	Oppose	Guardians of the Bays Incorporated recognise that there may need to be more objectives, Standards, within the plan regarding the Air Noise Boundaries. However, these are major changes to the plan that will create major hardship in the additional burden of acoustic treatments that need to be resolved in some way between the property owner and the noise producer Wellington International Airport. WIAL should be working with WCC, the community and Guardians of the Bays to improve the noise objectives and standards in the plan but not put undue financial burden on the homeowners in these properties to undertake modifications and additions. [Inferred reference to submission 406.409]	Disallow / Seeks that the submission point be disallowed or amended in a way to stop undue burden on normal activities in zones within the Air Noise Boundary overlay as called by the WIAL Air Noise Boundary and 60dbL.
Kāinga Ora – Homes and Communities	FS89.129	Part 2 / General District Wide Matters / Noise / New NOISE	Oppose	Kāinga Ora opposes the introduction of the proposed objective which has the potential to unnecessarily constrain urban development where adverse effects from existing noise generating activities such as the airport can be appropriately managed.	Disallow

KiwiRail Holdings Limited	408.105	General District wide Matters / Noise / New NOISE	Amend	Supports an alternative rule and standard framework. Seeks a new standard NOISE-SX to provide options for developers in achieving an appropriate level of amenity for residents who live within 100m of the rail corridor. KiwiRail seeks that this standard be considered under the Part One Schedule 1 process of the RMA.	<p>Add NOISE-SX as follows: [Refer to original submission for full detail of new NOISE-SX including a table detailing building type, occupancy/activity, and maximum railway noise level LAeq(1h)].</p> <p><u>Within 100m of a Railway Corridor</u></p> <p><u>Indoor railway noise</u></p> <p><u>1. Any new building or alteration to an existing building that contains an activity sensitive to noise where the building or alteration:</u></p> <p><u>(a) Shall be designed, constructed and maintained to achieve indoor design noise levels resulting from the railway not exceeding the maximum values in the following table; or</u></p> <p><u>(b) is at least 50 metres from any railway network, and is designed so that a noise barrier completely blocks line-of-sight from all parts of doors and windows, to all points 3.8 metres above railway tracks</u></p> <p><u>Indoor railway vibration</u></p> <p><u>2. Any new buildings or alterations to existing buildings containing an activity sensitive to noise, closer than 60 metres from the boundary of a railway network:</u></p> <p><u>(a) is designed, constructed and maintained to achieve rail vibration levels not exceeding 0.3 mm/s_{vw} 95 or</u></p> <p><u>(b) is a single-storey framed residential building with:</u></p> <p><u>i. a constant level floor slab on a full-surface vibration isolation bearing with natural frequency not exceeding 10 Hz, installed in accordance with the supplier's instructions and recommendations; and</u></p> <p><u>ii. vibration isolation separating the sides of the floor slab from the ground; and</u></p> <p><u>iii. no rigid connections between the building and the ground.</u></p> <p><u>3. A report is submitted to the council demonstrating compliance with clauses (1) to (2) above (as relevant) prior to the construction or alteration of any building containing an activity sensitive to noise. In the design:</u></p> <p><u>(a) railway noise is assumed to be 70 LAeq(1h) at a distance of 12 metres from the track, and must be deemed to reduce at a rate of 3 dB per doubling of distance up to 40 metres and 6 dB per doubling of distance beyond 40 metres.</u></p> <p><u>Assessment criteria where the standard is infringed:</u></p> <p><u>1. Whether the activity sensitive to noise could be located further from the railway network.</u></p> <p><u>2. The extent to which the noise and vibration criteria are achieved and the effects of any non-compliance.</u></p> <p><u>3. The character of, and degree of, amenity provided by the existing environment and proposed activity.</u></p> <p><u>4. The reverse sensitivity effects on the rail network, and the extent to which mitigation measures can enable their ongoing operation, maintenance and upgrade.</u></p> <p><u>5. Special topographical, building features or ground conditions which will mitigate vibration impacts;</u></p> <p><u>6. The outcome of any consultation with KiwiRail.</u></p> <p><u>Notification: Application for resource consent under this rule will be decided without public notification. KiwiRail are likely to be the only affected person determined in accordance with section 95B of the Resource Management Act 1991.</u></p>
Onslow Residents Community Association	FS80.44	Part 2 / General District wide Matters / Noise / New NOISE	Support	Supports noise and vibration requirements for developments near the railway corridor.	Allow / Seeks to incorporate changes as outlined by the submitter.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora – Homes and Communities	FS89.31	Part 2 / General District Wide Matters / Noise / New Noise	Oppose	Kāinga Ora opposes the relief sought. Kāinga Ora considers that effects should only be mitigated by noise sensitive activities in the receiving environment following adopting of the Best Practicable Option (“BPO”) to minimise and mitigate at source and in the vicinity of the corridor the off-site effects as far as possible. Restrictions on neighbouring noise sensitive activities should be no more stringent than necessary. Any such controls should be informed by evidential noise modelling.	Disallow
Stride Investment Management Limited	FS107.21	Part 2 / General District wide Matters / Noise / New NOISE	Oppose	Stride is opposed to the insertion of a new noise standard within 100m of the rail corridor. It is inappropriate to apply these requirements to such a great distance from the railway corridor, especially in the case of Johnsonville where there are no through trains or freight.	Disallow
Investore Property Limited	FS108.21	Part 2 / General District wide Matters / Noise / New NOISE	Oppose	Investore is opposed to the insertion of a new noise standard within 100m of the rail corridor. It is inappropriate to apply these requirements to such a great distance from the railway corridor, especially in the case of Johnsonville where there are no through trains or freight.	Disallow
The Retirement Villages Association of New Zealand Incorporated	FS126.170	Part 2 / General District wide Matters / Noise / New NOISE	Oppose	The RVA acknowledges that acoustic insulation for noise and vibration may be appropriate in some areas located within or adjacent to high noise areas with a purpose of providing protection / amenity to residents in such areas. The RVA considers however that such requirements need to be determined on a case-by-case basis, with consideration given to the distance of noise sensitive activities from high noise areas.	Disallow
Ryman Healthcare Limited	FS128.170	Part 2 / General District wide Matters / Noise / New NOISE	Oppose	Ryman acknowledges that acoustic insulation for noise and vibration may be appropriate in some areas located within or adjacent to high noise areas with a purpose of providing protection / amenity to residents in such areas. Ryman considers however that such requirements need to be determined on a case-by-case basis, with consideration given to the distance of noise sensitive activities from high noise areas.	Disallow
Guardians of the Bays	452.31	General District wide Matters / Noise / New NOISE	Amend	Considers an amendment to Rule four as Wellington Airport International Airport Limited Designation for the East Side Area does not allow take off or landing within the designation as per condition 34	Add new category of activity in NOISE-R4 as follows: <u>Activity Status: Prohibited activity</u> <u>Where no activity for the landing and take off of helicopter will be granted within the East Side Area designation.</u>
Wellington Helicopters	FS5.2	Part 2/General District Wide Matters / Noise / New Noise	Oppose	There is already provisions in the airport noise plan to mitigate this.	Disallow
Wellington International Airport Limited	FS36.151	Part 2 / General District wide Matters / Noise / General NOISE	Oppose	As set out in WIAL’s primary submission, it is inappropriate for the Noise chapter to duplicate aircraft noise management and mitigation measures imposed on WIAL through the recently settled Main Site and East Side Area Designations. Furthermore, the Main Site and East Side Area Designations are not subject to amendment as part of the Proposed Plan review.	Disallow
Guardians of the Bays Inc	FS44.92	Part 2 / General District wide Matters / Noise / New NOISE	Support	Wellington Airport International Airport Limited Designation for the East Side Area does not allow take off or landing within the designation as per condition 34.	Allow / Seeks that the submission point and addition of wording be allowed to add a new category of activity in NOISE-R4 as follows: <u>Activity Status: Prohibited activity</u> <u>Where no activity for the landing and take off of helicopter will be granted within the East Side Area designation.</u>
Yvonne Weeber	340.76	General District wide Matters / Noise / NOISE-O1	Support	NOISE-O1 is supported. The management of noise generating activities such as the airport and consideration of the effects it has on peoples health and wellbeing are supported.	Retain Objective NOISE-O1 (Managing noise generation and effects) as notified.
Waka Kotahi	370.211	General District wide Matters / Noise / NOISE-O1	Support	Supports the inclusion of this objective to protect the health and amenity of occupants from noise. Waka Kotahi promotes the protection of noise sensitive activities from adverse noise and effects in the existing environment	Retain NOISE-O1 (Managing noise generation and effects) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	FS72.68	Part 2 / General District wide Matters / Noise / NOISE-O1	Support	Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Allow
Kāinga Ora Homes and Communities	391.286	General District wide Matters / Noise / NOISE-O1	Support in part	Objective NOISE-O1 is partially supported and an amendment is sought.	Retain Objective NOISE-O1 (Managing noise generation and effects) with amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.116	Part 2 / General District wide Matters / Noise / NOISE-O1	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.116	Part 2 / General District wide Matters / Noise / NOISE-O1	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.
Kāinga Ora Homes and Communities	391.287	General District wide Matters / Noise / NOISE-O1	Amend	Considers that Objective NOISE-O1 should be amended to articulate the balance more clearly between providing for noise generating activities, whilst appropriately managing effects on the community. Amendments sought.	Amend Objective NOISE-O1 (Managing noise generation and effects) as follows: Amenity values and peoples' health and well-being are not compromised protected from adverse noise generating activities levels , consistent with the anticipated outcomes for the receiving environment.
Waka Kotahi NZ Transport Agency	FS103.16	Part 2 / General District wide Matters / Noise / NOISE-O1	Oppose	The original wording is considered to be better for ensuring a healthy noise environment for residents.	Disallow
The Retirement Villages Association of New Zealand Incorporated	FS126.117	Part 2 / General District wide Matters / Noise / NOISE-O1	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.117	Part 2 / General District wide Matters / Noise / NOISE-O1	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.
Wellington International Airport Ltd	406.416	General District wide Matters / NOISE / NOISE-O1	Oppose	[See paragraphs 4.62 to 4.75 of original submission for full reason] Opposes NOISE-O1 (Managing noise generation effects).	Not specified.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.107	General District wide Matters / NOISE / NOISE-O1	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Guardians of the Bays	452.32	General District wide Matters / Noise / NOISE-O1	Support	Supports the management of noise generating activities such as the airport and consideration of the effects it has on peoples health and wellbeing.	Retain NOISE-O1 (Managing noise generation and effects) as notified.
Fire and Emergency New Zealand	273.162	General District wide Matters / Noise / NOISE-O2	Support	Supports the objective as it seeks to protect existing and authorised noise generating activities from reverse sensitivity effects.	Retain NOISE-O2 (Reverse sensitivity) as notified.
Yvonne Weeber	340.77	General District wide Matters / Noise / NOISE-O2	Not specified	Considers that authorised activities that generate high levels of noise should be constantly reducing their noise levels through different technology and management therefore, reducing the need to be 'protected from reverse sensitivity effects'.	Not specified

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Limited	FS36.152	Part 2 / General District wide Matters / Noise / NOISE-O2	Oppose	Considers that reverse sensitivity is a significant issue for WIAL. While WIAL continues to explore opportunities to reduce the noise generated from its activities at Wellington International Airport, this is separate management function to that of requiring adjacent land use activities establishing that give rise to reverse sensitivity effects.	Disallow
Waka Kotahi	370.212	General District wide Matters / Noise / NOISE-O2	Support	Supports the inclusion of this objective to protect existing and authorised activities that generate high levels of noise. This will enable the continued operation of existing state highway operations.	Retain NOISE-O2 (Reverse sensitivity) as notified.
Kāinga Ora Homes and Communities	391.288	General District wide Matters / Noise / NOISE-O2	Oppose	Objective NOISE-O2 is opposed, as noise generating activities should not compromise health and wellbeing. Deletion is sought.	Delete Objective NOISE-O2 (Reverse sensitivity) in its entirety.
KiwiRail Holdings Limited	FS72.69	Part 2 / General District wide Matters / Noise / NOISE-O2	Oppose	Rejects the deletion of the objective to protect rail activities from reverse sensitivity effects. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Waka Kotahi NZ Transport Agency	FS103.17	Part 2 / General District wide Matters / Noise / NOISE-O2	Oppose	It is appropriate that the plan recognise the listed noise emitters and acknowledge the contribution they make to the 4 well-beings.	Disallow
New Zealand Defence Force	FS104.11	Part 2 / General District wide Matters / Noise / NOISE-O2	Oppose	Oppose the deletion of objective NOISE-O2. It is appropriate for the policy direction of the Proposed Plan to protect existing and authorised activities that generate high levels of noise from reverse sensitivity effects.	Disallow / Reject submitter's relief and retain Objective NOISE-O2 as notified.
The Retirement Villages Association of New Zealand Incorporated	FS126.118	Part 2 / General District wide Matters / Noise / NOISE-O2	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.118	Part 2 / General District wide Matters / Noise / NOISE-O2	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.
Wellington International Airport Ltd	406.417	General District wide Matters / NOISE / NOISE-O2	Oppose	[See paragraphs 4.62 to 4.75 of original submission for full reason]. Opposes NOISE-O2 (Reverse Sensitivity).	Not specified.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.108	General District wide Matters / NOISE / NOISE-O2	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
KiwiRail Holdings Limited	408.106	General District wide Matters / Noise / NOISE-O2	Support	Supports the recognition of the value and function of existing rail activities, and the aim to protect these activities from reverse sensitivity effects. The Wellington yard, ferry terminal, Johnsonville Line, Wairapara Line and North Island Main Trunk are existing assets which extend through Wellington City.	Retain NOISE-O2 (Reverse sensitivity) as notified.
New Zealand Defence Force	423.13	General District wide Matters / Noise / NOISE-O2	Support	Considers that protecting existing and authorised activities that generate high levels of noise from reverse sensitivity effects, such as the Point Jerningham Saluting Battery Site and operations at the Rongotai Air Movement Terminal, is important and appropriate.	Retain NOISE-O2 (Reverse sensitivity) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Guardians of the Bays	452.33	General District wide Matters / Noise / NOISE-O2	Not specified	The submitter considers authorised activities that generate high levels of noise should be constantly reducing their noise levels through different technology and management therefore, reducing the need to be 'protected from reverse sensitivity effects'.	Not specified.
Wellington International Airport Limited	FS36.153	Part 2 / General District wide Matters / Noise / NOISE-O2	Oppose	Considers that reverse sensitivity is a significant issue for WIAL. While WIAL continues to explore opportunities to reduce the noise generated from its activities at Wellington International Airport, this is separate management function to that of requiring adjacent land use activities establishing that give rise to reverse sensitivity effects.	Disallow
Fire and Emergency New Zealand	273.163	General District wide Matters / Noise / NOISE-P1	Support	Supports the policy as it permits noise generation within reasonable limits. For reasons set out above for new objective NOISE-OX and policy NOISE-PX, FENZ has a locational, functional, and operational need to be exempt from noise generated by emergency sirens, whilst also having more flexible noise limits in residential areas to allow for day-to-day operational activities. FENZ therefore seeks the addition of a new rule to allow for more permissible noise activity in association with emergency service operations to ensure that FENZ is able to meet its statutory obligations in a manner that provides for the on-going health and safety of people and communities	Retain NOISE-P1 (General management of noise) as notified.
Yvonne Weeber	340.78	General District wide Matters / Noise / NOISE-P1	Support	NOISE-P1 is supported. The provision seeks to maintain amenity values of the receiving environment in a way that does not compromise the health, safety and wellbeing of people and communities.	Retain NOISE-P1 (General management of noise) as notified.
Kāinga Ora Homes and Communities	391.289	General District wide Matters / Noise / NOISE-P1	Support in part	NOISE-P1 is supported as it enables the generation of noise where appropriate, but an amendment is sought.	Retain NOISE-P1 (General management of noise) with amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.119	Part 2 / General District wide Matters / Noise / NOISE-P1	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.119	Part 2 / General District wide Matters / Noise / NOISE-P1	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.
Kāinga Ora Homes and Communities	391.290	General District wide Matters / Noise / NOISE-P1	Amend	Considers that NOISE-P1 should be amended to not require amenity values to be maintained. The District Plan should recognise that amenity values change over time.	Amend NOISE-P1 (General management of noise) as follows: Enable the generation of noise from activities that: 1. Maintain Are compatible with the anticipated amenity values of the receiving environment; and 2. Does not compromise the health, safety and wellbeing of people and communities
KiwiRail Holdings Limited	FS72.70	Part 2 / General District wide Matters / Noise / NOISE-P1	Oppose	Rejects the amendment sought as it fails to protect rail activities from reverse sensitivity effects. It is possible to maintain neighbouring amenity and enable noise generating activities with appropriate controls and KiwiRail considers that the policy, as notified, recognises this. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Waka Kotahi NZ Transport Agency	FS103.18	Part 2 / General District wide Matters / Noise / NOISE-P1	Support	Amenity values are anticipated to change over time. As more intensive development occurs in the city, that may include rising levels of background noise (but should remain consistent with accepted levels of indoor noise).	Allow / That the submission in relation to changing over time be allowed.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
The Retirement Villages Association of New Zealand Incorporated	FS126.120	Part 2 / General District wide Matters / Noise / NOISE-P1	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.120	Part 2 / General District wide Matters / Noise / NOISE-P1	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.
Wellington International Airport Ltd	406.418	General District wide Matters / NOISE / NOISE-P1	Support in part	Supports this policy insofar as it relates to the management of land based noise emanating from the Airport Zone.	Supports NOISE-P1 (General management of noise) and seeks amendment.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.109	General District wide Matters / NOISE / NOISE-P1	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.419	General District wide Matters / NOISE / NOISE-P1	Amend	Supports this policy insofar as it relates to the management of land based noise emanating from the Airport Zone.	Amend NOISE-P1 (general management of noise) as follows: NOISE-P1 General Management of noise Enable the generation of <u>land based</u> noise from activities that: ... (Option A).
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.110	General District wide Matters / NOISE / NOISE-P1	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.420	General District wide Matters / NOISE / NOISE-P1	Oppose	Supports this policy insofar as it relates to the management of land based noise emanating from the Airport Zone.	Delete NOISE-P1 (General management of noise) in its entirety. (Option B).
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.111	General District wide Matters / NOISE / NOISE-P1	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
New Zealand Defence Force	423.14	General District wide Matters / Noise / NOISE-P1	Support	Considers that providing for noise generating activities that maintain the amenity values of the receiving environment and do not compromise the health, safety and wellbeing of people and communities is appropriate.	Retain NOISE-P1 (General management of noise) as notified.
Guardians of the Bays	452.34	General District wide Matters / Noise / NOISE-P1	Support	Supports the general management of noise to maintain amenity values of the receiving environment in a way that does not compromise the health, safety and wellbeing of people and communities.	Retain NOISE-P1 (General management of noise) as notified.
Yvonne Weeber	340.79	General District wide Matters / Noise / NOISE-P2	Not specified	[No specific reason given - refer to original submission].	Not specified.
Waka Kotahi	370.213	General District wide Matters / Noise / NOISE-P2	Support	Supports the proposed policy which enables construction activity subject to appropriate management of effects. Construction is an essential activity in relation to the state highway network and it is not always practicable to achieve specific noise limits, so the approach should be to focus on managing effects.	Retain NOISE-P2 (Construction noise) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.291	General District wide Matters / Noise / NOISE-P2	Support	NOISE-P2 is generally supported.	Retain NOISE-P2 (Construction noise) as notified.
The Retirement Villages Association of New Zealand Incorporated	FS126.121	Part 2 / General District wide Matters / Noise / NOISE-P2	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.121	Part 2 / General District wide Matters / Noise / NOISE-P2	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.
Wellington International Airport Ltd	406.421	General District wide Matters / NOISE / NOISE-P2	Support	Supports NOISE-P2	Retain NOISE-P2 (Construction noise) as notified.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.112	General District wide Matters / Noise / NOISE-P2	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Guardians of the Bays	452.35	General District wide Matters / Noise / NOISE-P2	Not specified	Submitter is 'neutral' on provision. [Refer to original submission for full reason]	Not specified.
Yvonne Weeber	340.80	General District wide Matters / Noise / NOISE-P3	Not specified	[No specific reason given - refer to original submission].	Not specified.
Waka Kotahi	370.214	General District wide Matters / Noise / NOISE-P3	Support	Supports the proposed policy which provides for higher noise levels to be generated within State Highway networks. This protects the continued operation of the existing state highway operations and the associated noise effects	Retain NOISE-P3 (Higher noise areas) as notified.
Kāinga Ora Homes and Communities	391.292	General District wide Matters / Noise / NOISE-P3	Oppose in part	NOISE-P3 is partially opposed, despite the support of the provision of a higher noise level to be able to be generated in the identified zones. The policy as notified reads overly ambiguous with no clear direction or outcome.	Opposes NOISE-P3 (Higher noise areas) and seeks amendment.
Waka Kotahi NZ Transport Agency	FS103.19	Part 2 / General District wide Matters / Noise / NOISE-P3	Oppose	The policy in the proposed plan (appropriately) recognises that there are places where there is a need to provide for higher noise levels due to functional or operational needs of activities in those locations.	Disallow
The Retirement Villages Association of New Zealand Incorporated	FS126.122	Part 2 / General District wide Matters / Noise / NOISE-P3	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.122	Part 2 / General District wide Matters / Noise / NOISE-P3	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.
Kāinga Ora Homes and Communities	391.293	General District wide Matters / Noise / NOISE-P3	Amend	Considers that NOISE-P3 should be amended to clarify what direction and outcomes are sought.	Clarify NOISE-P3 (Higher noise areas) to more clearly specify the direction and outcomes sought from allowing higher noise levels in the identified zones.
The Retirement Villages Association of New Zealand Incorporated	FS126.123	Part 2 / General District wide Matters / Noise / NOISE-P3	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.123	Part 2 / General District wide Matters / Noise / NOISE-P3	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.133	General District wide Matters / Noise / NOISE-P3	Support	Support the intent of this policy.	Retain NOISE-P3 (Higher noise areas) as notified.
Wellington International Airport Ltd	406.422	General District wide Matters / NOISE / NOISE-P3	Support	Supports this policy insofar as it relates to the management of land based noise emanating from the Airport Zone.	Retain NOISE-P3 (Higher noise areas) as notified.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.113	General District wide Matters / NOISE / NOISE-P3	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
KiwiRail Holdings Limited	408.107	General District wide Matters / Noise / NOISE-P3	Support	Supports recognition that railway network activities generate higher noise levels	Retain NOISE-P3 (Higher noise areas) as notified.
New Zealand Defence Force	423.15	General District wide Matters / Noise / NOISE-P3	Support	Considers that it is important and appropriate to allow for higher level of noises to be generated within the Airport Zone and associated airspace, in order to enable military aircraft operations associated with the operation of NZDF's Rongotai Air Movement Terminal at WIA.	Retain NOISE-P3 (Higher noise areas) as notified.
Guardians of the Bays	452.36	General District wide Matters / Noise / NOISE-P3	Not specified	Submitter is 'neutral' on provision. [Refer to original submission for full reason]	Not specified.
Yvonne Weeber	340.81	General District wide Matters / Noise / NOISE-P4	Amend	Considers that NOISE-P4 should be amended to describe the Airport Noise Overlay with both the Inner and Outer Noise Overlay.	Amend NOISE-P4 (Acoustic treatment for noise sensitive activities) as follows: Require sound insulation and / or mechanical ventilation for new noise sensitive activities within: ... 6. The Air Noise Overlay (<u>Inner Air Noise Overlay and Outer Air Noise Overlay</u>); and 7. Identified corridors adjacent to the State Highways and railway networks. ...
Wellington International Airport Limited	FS36.154	Part 2 / General District wide Matters / Noise / NOISE-P4	Support	WIAL supports this submission in principle, however notes that WIAL is proposing to replace the reference to overlays with the commonly used and understood terms "Air Noise Boundary" and "60dB Ldn Noise Boundary".	Allow / Seeks that part of submission to be allowed.
Waka Kotahi	370.215	General District wide Matters / Noise / NOISE-P4	Support	Support this policy with the inclusion of the identified state highway corridor mapped.	Retain NOISE-P4 (Acoustic treatment for noise sensitive activities) as notified.
Strathmore Park Residents Association Inc	371.2	General District wide Matters / Noise / NOISE-P4	Amend	Considers that the policy is not clear whether the Air Noise Boundary refers to both the Inner Air Noise Overlay and the Outer Air Noise Overlay.	Amend NOISE-P4 (Acoustic treatment for noise sensitive activities) as follows: Require sound insulation and / or mechanical ventilation for new noise sensitive activities within: 1. The City Centre Zone; 2. The Waterfront Zone; 3. The Centres Zones; 4. The Mixed Use Zones; 5. Outer Port Noise Overlay; 6. The Air Noise Overlay (<u>Inner & Outer</u>); and 7. Identified corridors adjacent to the State Highways and railway networks. Two standards of acoustic insulation are prescribed to achieve acceptable indoor acoustic amenity in habitable rooms.
Wellington International Airport Limited	FS36.155	Part 2 / General District wide Matters / Noise / NOISE-P4	Support	WIAL supports this submission in principle, however notes that WIAL is proposing to replace the reference to overlays with the commonly used and understood terms "Air Noise Boundary" and "60dB Ldn Noise Boundary".	Allow / Seeks that part of submission to be allowed.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.101	General District wide Matters / Noise / NOISE-P4	Support in part	NOISE-P4 is supported as it encourages acoustic treatment for new Noise Sensitive Activities within specific zones and overlays. However, it is considered that this policy should also extend to new noise sensitive activities that share a common boundary with the specified zones and overlays to ensure adequate acoustic treatment is encouraged to minimise reverse sensitive effects from existing lawfully established activities.	Retain NOISE-P4 (Acoustic treatment for noise sensitive activities) with amendment.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.102	General District wide Matters / Noise / NOISE-P4	Amend	Considers that this policy should also extend to new noise sensitive activities that share a common boundary with the specified zones and overlays to ensure adequate acoustic treatment is encouraged to minimise reverse sensitive effects from existing lawfully established activities. This could be achieved by the following amendment to NOISE-P4 which would be consistent with the intent of APP4- Permitted Noise Standards which contains separate noise limits for different receiving environments.	Amend NOISE-P4 (Acoustic treatment for noise sensitive activities) as follows: Require sound insulation and / or mechanical ventilation for new noise sensitive activities <u>within_or on a site which shares a common boundary with:</u> 1. The City Centre Zone; 2. The Waterfront Zone; 3. The Centres Zones; 4. The Mixed Use Zones; 5. Outer Port Noise Overlay; 6. The Air Noise Overlay; and 7. Identified corridors adjacent to the State Highways and railway networks. Two standards of acoustic insulation are prescribed to achieve acceptable indoor acoustic amenity in habitable rooms.
KiwiRail Holdings Limited	FS72.71	Part 2 / General District wide Matters / Noise / NOISE-P4	Support	Supports the amendment to ensure noise sensitive activities adjacent to the specified zones, overlays and corridors require sound insulation and/or mechanical ventilation. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Allow
The Retirement Villages Association of New Zealand Incorporated	FS126.13	Part 2 / General District wide Matters / Noise / NOISE-P4	Oppose	The RVA opposes the relief sought in this submission as reverse sensitivity should be managed through appropriate setback provisions rather than requiring activities contemplated in the zone to manage the effects of activities outside the zone.	Disallow
Ryman Healthcare Limited	FS128.13	Part 2 / General District wide Matters / Noise / NOISE-P4	Oppose	Ryman opposes the relief sought in this submission as reverse sensitivity should be managed through appropriate setback provisions rather than requiring activities contemplated in the zone to manage the effects of activities outside the zone.	Disallow
Kāinga Ora Homes and Communities	391.294	General District wide Matters / Noise / NOISE-P4	Oppose in part	NOISE-P4 is partially opposed and an amendment is sought.	Opposes NOISE-P4 (Acoustic treatment for noise sensitive activities) and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.124	Part 2 / General District wide Matters / Noise / NOISE-P4	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.124	Part 2 / General District wide Matters / Noise / NOISE-P4	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.295	General District wide Matters / Noise / NOISE-P4	Amend	Considers that NOISE-4 should be amended.	Amend NOISE-P4 (Acoustic treatment for noise sensitive activities) as follows: Require <u>Encourage and promote</u> sound insulation and / or mechanical ventilation for new noise sensitive activities within: 1. The City Centre Zone; 2. The Waterfront Zone; 3. The Centres Zones; 4. The Mixed Use Zones; 5. Outer Port Noise Overlay; 6. The Air Noise Overlay; and 7. Identified corridors adjacent to the State Highways and railway networks. Two standards of acoustic insulation are prescribed to achieve acceptable indoor acoustic amenity in habitable rooms.
Wellington International Airport Limited	FS36.157	Part 2 / General District wide Matters / Noise / NOISE-P4	Oppose	WIAL has a submission filed that seeks to introduce new policies with respect to the management of noise sensitive activities within the Air Noise Boundary and 60dB Ldn Noise Boundary at Wellington International Airport. However, in the instance that this submission is not successful, WIAL submits that it is inappropriate for acoustic treatment to be “encouraged”, rather it should be a mandatory requirement where new activities are located within the Air Noise Boundary and 60dB Ldn Noise Boundary at Wellington International Airport.	Disallow
KiwiRail Holdings Limited	FS72.72	Part 2 / General District wide Matters / Noise / NOISE-P4	Oppose	Rejects the softening of this policy from ‘require’ to ‘encourage and promote’ for sound insulation and mechanical ventilation for new noise sensitive activities. KiwiRail also rejects the deletion of rail corridors from this policy. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Waka Kotahi NZ Transport Agency	FS103.20	Part 2 / General District wide Matters / Noise / NOISE-P4	Oppose	It is appropriate that existing sources of noise are protected from new noise-sensitive activities moving to the nuisance effect.	Disallow
The Retirement Villages Association of New Zealand Incorporated	FS126.125	Part 2 / General District wide Matters / Noise / NOISE-P4	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA’s primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA’s primary submission.
Ryman Healthcare Limited	FS128.125	Part 2 / General District wide Matters / Noise / NOISE-P4	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman’s primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman’s primary submission.
Ministry of Education	400.81	General District wide Matters / Noise / NOISE-P4	Amend	Seeks NOISE-P4 be amended to exclude educational facilities. The submitter seeks an amendment to this proposed rule to exclude educational facilities as these facilities have their own acoustic treatment requirements specific to school uses.	Amend NOISE-P4 (Acoustic treatment for noise sensitive activities) as follows: Require sound insulation and / or mechanical ventilation for new noise sensitive activities <u>excluding educational facilities</u> within: ...

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Limited	FS36.158	Part 2 / General District wide Matters / Noise / NOISE-P4	Oppose	Considers that education facilities comprise a noise sensitive activity as they include areas that comprise critical listening environments. It is therefore inappropriate to provide a flexible framework for such activities where located within the Air Noise Boundary of 60dB Ldn at Wellington International Airport.	Disallow
CentrePort Limited	402.134	General District wide Matters / Noise / NOISE-P4	Support	Support the intent of this policy.	Retain NOISE-P4 (Acoustic treatment for noise sensitive activities) as notified.
Wellington International Airport Ltd	406.423	General District wide Matters / NOISE / NOISE-P4	Oppose in part	Considers that it is the buildings that contain a noise sensitive activities rather than the noise sensitive activity itself that can be acoustically treated. Amendments are therefore required to the chapeau of the policy to make this matter clear.	Opposes NOISE-P4 (Acoustic treatment for noise sensitive activities) and seeks amendment.
Guardians of the Bays Inc	FS44.93	Part 2 / General District wide Matters / NOISE / NOISE-P4	Oppose	Guardians of the Bays Incorporated recognise that there may need to be more information in Noise P4 and within the plan regarding the Air Noise Boundaries. Considers that these are major changes to the plan that will create major hardship in the additional burden of acoustic treatments that need to be resolved in some way between the property owner and the noise producer Wellington International Airport. Considers that WIAL should be working with WCC, the community and Guardians of the Bays to improve the noise objectives and standards in the plan but not put undue financial burden on the homeowners in these properties to undertake modifications and additions.	Disallow / Seeks that the submission point be disallowed or amended in a way to stop undue burden on normal activities in zones within the Air Noise Boundary overlay as called by the WIAL Air Noise Boundary and 60dbL.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.114	Part 2 / General District wide Matters / NOISE / NOISE-P4	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.424	General District wide Matters / NOISE / NOISE-P4	Amend	Considers that it is the buildings that contain noise sensitive activities rather than the noise sensitive activity itself that can be acoustically treated. Amendments are therefore required to the chapeau of the policy to make this matter clear. [Note that submitter has recommended replacing the definition "Air Noise Overlay", as set out earlier in the submission].	Amend NOISE-P4 (Acoustic treatment for noise sensitive activities) as follows: Require sound insulation and / or mechanical ventilation <u>of new buildings or additions or alterations to existing buildings that contain for new</u> noise sensitive activities within: 1. The City Centre Zone; 2. The Waterfront Zone; 3. The Centres Zones; 4. The Mixed Use Zones; 5. Outer Port Noise Overlay; 6. The Air Noise Overlay <u>The Air Noise Boundary or 60dB Ldn Noise Boundary</u> ; and 7. Identified corridors adjacent to the State Highways and railway networks. Two standards of acoustic insulation are prescribed to achieve acceptable indoor acoustic amenity in habitable rooms. (Option A).
Guardians of the Bays Inc	FS44.94	Part 2 / General District wide Matters / NOISE / NOISE-P4	Oppose	Guardians of the Bays Incorporated recognise that there may need to be more information in Noise P4 and within the plan regarding the Air Noise Boundaries. Considers that these are major changes to the plan that will create major hardship in the additional burden of acoustic treatments that need to be resolved in some way between the property owner and the noise producer Wellington International Airport. Considers that WIAL should be working with WCC, the community and Guardians of the Bays to improve the noise objectives and standards in the plan but not put undue financial burden on the homeowners in these properties to undertake modifications and additions.	Disallow / Seeks that the submission point be disallowed or amended in a way to stop undue burden on normal activities in zones within the Air Noise Boundary overlay as called by the WIAL Air Noise Boundary and 60dbL.
Kāinga Ora – Homes and Communities	FS89.134	Part 2 / General District Wide Matters / Noise / NOISE-P4	Oppose	Kāinga Ora opposes the proposed amendments.	Disallow

Kāinga Ora – Homes and Communities	FS89.135	Part 2 / General District Wide Matters / Noise / NOISE-P4	Oppose	Kāinga Ora seeks that the policy is amended in accordance with their original submission noting that the policy relates to rules and standards.	Disallow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.116	Part 2 / General District Wide Matters / Noise / NOISE-P4	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
KiwiRail Holdings Limited	408.108	General District wide Matters / Noise / NOISE-P4	Amend	The rail network is a 24 hour a day, seven day a week operation, and the frequency, length and weight of trains can change without community consultation. Noise and vibration can have an impact on the internal amenity of a building. Appropriate mitigation, installed to ensure that the health and wellbeing of those living and working near to the rail network are not adversely affected, is pivotal to ensure that undue restrictions are not placed on the operation of the rail network. Rail activities not only generate noise, but also vibration effects. KiwiRail seek amendment to require acoustic and vibration treatment for sensitive activities within identified corridors adjacent to the railway networks to ensure an appropriate level of internal amenity is achieved in buildings adjacent to the rail corridor.	Amend NOISE-P4 (Acoustic treatment for noise sensitive activities) as follows: Acoustic <u>and vibration</u> treatment for noise sensitive activities Require sound <u>and vibration</u> insulation and / or mechanical ventilation for new noise sensitive activities within: <u>All residential zones</u> 1. The City Centre Zone; 2. The Waterfront Zone; 3. The Centres Zones; 4. The Mixed Use Zones; 5. Outer Port Noise Overlay; 6. The Air Noise Overlay; and Identified corridors adjacent to the State Highways and railway networks. Two standards of acoustic insulation are prescribed to achieve acceptable indoor acoustic amenity in habitable rooms.
Stride Investment Management Limited	FS107.22	Part 2 / General District wide Matters / Noise / NOISE-P4	Oppose	Stride is opposed to imposing additional requirements in relation to rail network vibration. This is unnecessary and inappropriate.	Disallow
Investore Property Limited	FS108.22	Part 2 / General District wide Matters / Noise / NOISE-P4	Oppose	Investore is opposed to imposing additional requirements in relation to rail network vibration. This is unnecessary and inappropriate.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Guardians of the Bays	452.37	General District wide Matters / Noise / NOISE-P4	Amend	Considers an amendment appropriate to describe the Airport Noise Overlay with both the Inner and Outer Noise Overlay.	Amend NOISE-P4 (Acoustic treatment for noise sensitive activities) as follows: ... 6. The Air Noise Overlay (<u>Inner Air Noise Overlay and Outer Air Noise Overlay</u>)...
Wellington International Airport Limited	FS36.156	Part 2 / General District wide Matters / Noise / NOISE-P4	Support	WIAL supports this submission in principle, however notes that WIAL is proposing to replace the reference to overlays with the commonly used and understood terms "Air Noise Boundary" and "60dB Ldn Noise Boundary".	Allow / Seeks that part of submission to be allowed.
Yvonne Weeber	340.82	General District wide Matters / Noise / NOISE-P6	Amend	Considers that NOISE-P6 should be amended to describe the Airport Noise Overlay with both the Inner and Outer Noise Overlay.	Amend NOISE-P6 (Development restrictions on noise sensitive activities) as follows: Restrict the development of noise sensitive activities within: 1. The Inner Air Noise Overlay (<u>Inner Air Noise Overlay and Outer Air Noise Overlay</u>); and 2. Other locations where ventilation and acoustic insulation standards are not met.
Waka Kotahi	370.216	General District wide Matters / Noise / NOISE-P6	Support	Support policy wording that restricts development of noise sensitive activities where noise and acoustic insulation standards are not met.	Retain NOISE-P6 (Development restrictions on noise sensitive activities) as notified.
Strathmore Park Residents Association Inc	371.3	General District wide Matters / Noise / NOISE-P6	Amend	Considers that the policy needs to refer to both the inner and outer ANB.	Amend NOISE-P6 (Development restrictions on noise sensitive activities) as follows: Restrict the development of noise sensitive activities within: 1. The Inner <u>and Outer</u> Air Noise Overlay; and 2. Other locations where ventilation and acoustic insulation standards are not met.
Kāinga Ora Homes and Communities	391.296	General District wide Matters / Noise / NOISE-P6	Oppose in part	NOISE-P6 is partially opposed and an amendment is sought.	Opposes NOISE-P6 (Development restrictions on noise sensitive activities) and seeks amendment.
The Retirement Villages Association of New Zealand Incorporated	FS126.126	Part 2 / General District wide Matters / Noise / NOISE-P6	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.126	Part 2 / General District wide Matters / Noise / NOISE-P6	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.
Kāinga Ora Homes and Communities	391.297	General District wide Matters / Noise / NOISE-P6	Amend	Considers that NOISE-P6 should be amended to enable noise sensitive activities within the Inner Air Noise Overlay where appropriate ventilation and acoustic insulation can be achieved.	Amend NOISE-P6 (Development restrictions on noise sensitive activities) as follows: Restrict the development of noise sensitive activities within: 1. The Inner Air Noise Overlay <u>where ventilation and acoustic insulation standards are not met</u> ; and 2. Other locations where ventilation and acoustic insulation standards are not met.
The Retirement Villages Association of New Zealand Incorporated	FS126.127	Part 2 / General District wide Matters / Noise / NOISE-P6	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD. Investore Property Limited	FS108.43	Part 2 / General District wide Matters / Noise / NOISE-R3	Support	Investore supports integrating consideration of individual site characteristics to activities, as this would enable a flexible approach to noise management.	Allow
Waka Kotahi	370.218	General District wide Matters / Noise / NOISE-R3	Support in part	NOISE-R3.1 is supported.	Retain NOISE-R3.1(Noise sensitive activity in a new building, or in alterations / additions to an existing building), subject to amendments.
Waka Kotahi	370.219	General District wide Matters / Noise / NOISE-R3	Amend	Considers amendments to have immediate legal effect and to require compliance with ventilation standards. In lieu of the provision having immediate legal effect, Waka Kotahi seeks that this rule be included as a qualifying matter for development in the Medium- and High-Density Zones	Amend NOISE-R3.1 (Noise sensitive activity in a new building, or in alterations / additions to an existing building) to require compliance with NOISE-S6 (Ventilation Requirements) and amend rule so that it has immediate legal effect.
KiwiRail Holdings Limited	FS72.75	Part 2 / General District wide Matters / Noise / NOISE-R3	Support	Agrees that compliance with ventilation standards should be a requirement and noise provisions should have immediate legal effect. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Allow
Waka Kotahi	370.220	General District wide Matters / Noise / NOISE-R3	Support in part	Support the inclusion of NOISE-R3.2, with default distance from State Highway to be extended to 100m or otherwise incorporate the Waka Kotahi noise contours along state highways so that the provisions only apply as needed.	Retain NOISE-R3.2 (Noise sensitive activity in a new building, or in alterations / additions to an existing building), subject to amendments.
KiwiRail Holdings Limited	FS72.76	Part 2 / General District wide Matters / Noise / NOISE-R3	Support	Seeks that noise provisions for noise sensitive activities also apply within 100m of the rail corridor as sought in our primary submission. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Amend / Adopt amendment sought and include 100m from rail corridor
Waka Kotahi	370.221	General District wide Matters / Noise / NOISE-R3	Amend	In relation to NOISE-R3.2 (Noise sensitive activity in a new building, or in alterations / additions to an existing building), the submitter would prefer that the noise contours are included rather than a blanket rule of 100m. As above, Waka Kotahi also support this with amendment to have immediate legal effect and condition to comply with ventilation standard. In lieu of the provision having immediate legal effect, Waka Kotahi seeks that this rule be included as a qualifying matter for development in the Medium and High-Density Zones. It is noted that the submitter would generally define distances from edge of traffic lane (as that where is the source of noise is).	Amend NOISE-R3.2 (Noise sensitive activity in a new building, or in alterations / additions to an existing building) as follows (or amend to adopt Waka Kotahi noise contours) and amend rule so that it has immediate legal effect: 2. Activity status: Permitted Where: a. Compliance with <u>NOISE-S5 (Moderate Noise Areas)</u> and <u>NOISE-S6 (Ventilation Requirements)</u> is achieved within: i. The area between 40m and 80m - 100m of a State Highway;...

KiwiRail Holdings Limited	FS72.77	Part 2 / General District wide Matters / Noise / NOISE-R3	Support	<p>Seeks that noise provisions for noise sensitive activities also apply within 100m of the rail corridor as sought in our primary submission. KiwiRail supports compliance with ventilation requirements.</p> <p>Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.</p>	Amend / Adopt amendment sought and include 100m from rail corridor
Stride Investment Management Limited	FS107.30	Part 2 / General District wide Matters / Noise / NOISE-R3	Oppose	Stride is opposed to extending the area where R3 applies to within 100m of a state highway and to including this rule as a qualifying matter. For the reasons given above, this is inappropriate and unnecessary.	Disallow
Investore Property Limited	FS108.30	Part 2 / General District wide Matters / Noise / NOISE-R3	Oppose	Investore is opposed to extending the area where R3 applies to within 100m of a state highway and to including this rule as a qualifying matter. For the reasons given above, this is inappropriate and unnecessary.	Disallow
Waka Kotahi	370.222	General District wide Matters / Noise / NOISE-R3	Support in part	Support NOISE-R3.3 restricted discretionary activity status where NOISE-S4 or NOISE-S5 cannot be achieved.	Retain NOISE-R3.3 (Noise sensitive activity in a new building, or in alterations / additions to an existing building), subject to amendments.
Waka Kotahi	370.223	General District wide Matters / Noise / NOISE-R3	Amend	<p>Considers the wording of NOISE-R3.3b is confusing and seems to contradict with R3.1, Would interpret that this is intended to apply to those activities that do not comply with the requirements of NOISE-S4 and NOISE-S5, AND are within land subject to R3.2. This should be amended to be made more clear.</p> <p>The rule should also be amended to include noncompliance with the ventilation standards.</p>	<p>Amend NOISE-R3.3 (Noise sensitive activity in a new building, or in alterations / additions to an existing building) as follows:</p> <p>3. Activity status: Restricted Discretionary Where:</p> <p>a. Compliance with the requirements of NOISE-S4, or NOISE-S5, or NOISE-S6 cannot be achieved; <u>and</u> b. Any the noise sensitive activity is proposed on a site within land subject to NOISE-R3.2; or c. Two residential units are proposed on a site within the Inner Air Noise Overlay; and d. Four or more residential units are proposed on a site within the Outer Air Noise Overlay.</p> <p>Matters of discretion are: 1. The matters of assessment in <u>NOISE-S4 and NOISE-S5</u>; and 2. The extent and effect of non-compliance with any relevant standard as specified in the associated assessment criteria for the infringed standard</p> <p>Note: This rule does not oblige Wellington International Airport Limited (WIAL) to provide or upgrade mechanical ventilation or noise insulation in a residential unit which has already received such treatment.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	FS72.78	Part 2 / General District wide Matters / Noise / NOISE-R3	Support	Supports clarification on what standards apply to this provision. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Allow
Waka Kotahi	370.224	General District wide Matters / Noise / NOISE-R3	Amend	The submitter does not understand the intent of this rule and requests that the wording is amended to clarify that any noise sensitive activity within the areas in NOISE-R3.1.a (including within 40m of the state highway) is a discretionary activity. If this is the intention, this conflicts with the permitted activity status for noise sensitive activities in these areas that comply with the stated standards.	Amend NOISE-R3.4 (Noise sensitive activity in a new building, or in alterations / additions to an existing building) as follows: 4. Activity status: Discretionary Where: a. Any noise sensitive activity is proposed on a site within land subject to NOISE-R3.1 <u>where NOISE-S4 and NOISE-S6 cannot be achieved</u> ; and...
Ministry of Education	400.83	General District wide Matters / Noise / NOISE-R3	Support	Supports NOISE-R3.1 as the submitter supports the requirement for acoustic insulation in high noise areas to reduce any reverse sensitivity effects and to enable productive classroom environments for educational facilities.	Retain NOISE-R3.1 (Noise sensitive activity in a new building, or in alterations / additions to an existing building) as notified.
Ministry of Education	400.84	General District wide Matters / Noise / NOISE-R3	Support	Supports NOISE-R3.2 as the submitter supports the requirement for acoustic insulation in high noise areas to reduce any reverse sensitivity effects and to enable productive classroom environments for educational facilities.	Retain NOISE-R3.2 (Noise sensitive activity in a new building, or in alterations / additions to an existing building) as notified.
Ministry of Education	400.85	General District wide Matters / Noise / NOISE-R3	Support in part	Supports NOISE-R3.3 in part.	Retain NOISE-R3.3 (Noise sensitive activity in a new building, or in alterations / additions to an existing building) with amendments.
Ministry of Education	400.86	General District wide Matters / Noise / NOISE-R3	Amend	Seeks that NOISE-R3.3 be amended. The submitter seeks clarity on NOISE-R3.3.b as the submitter considers that it currently reads that any noise sensitive activity on land subject to NOISE-R3.2 is automatically a restricted discretionary activity, despite compliance with the permitted activity standards.	Amend NOISE-R3.3 (Noise sensitive activity in a new building, or in alterations / additions to an existing building) as follows: 3. Activity status: Restricted Discretionary Where: a. Compliance with the requirements of NOISE-S4 or NOISE-S5 cannot be achieved; b. Any noise sensitive activity <u>that does not comply with proposed on a site within land subject to NOISE-R3.2</u> ;
Ministry of Education	400.87	General District wide Matters / Noise / NOISE-R3	Support	Supports NOISE-R3.4 as the submitter supports the management of noise sensitive activities in NOISE-R3.	Retain NOISE-R3.3 (Noise sensitive activity in a new building, or in alterations / additions to an existing building) as proposed.
Wellington International Airport Ltd	406.430	General District wide Matters / NOISE / NOISE-R3	Oppose	Opposes NOISE-R3. [See paragraphs 4.65 to 4.72 of original submission for full reason]	Opposes NOISE-R3 (Noise sensitive activity in a new building, or in alterations / additions to an existing building) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Guardians of the Bays Inc	FS44.98	Part 2 / General District wide Matters / NOISE / NOISE-R3	Oppose	Guardians of the Bays Incorporated recognise that there may need to be more information in Noise R3 and within the plan regarding the Air Noise Boundaries. However, these are major changes to the plan that will create major hardship in the additional burden of acoustic treatments that need to be resolved in some way between the property owner and the noise producer Wellington International Airport. WIAL should be working with WCC, the community and Guardians of the Bays to improve the noise objectives and standards in the plan but not put undue financial burden on the homeowners in these properties to undertake modifications and additions.	Disallow / Seeks that the submission point be disallowed or amended in a way to stop undue burden on normal activities in zones within the Air Noise Boundary overlay as called by the WIAL Air Noise Boundary and 60dbL.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.121	Part 2 / General District wide Matters / NOISE / NOISE-R3	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.431	General District wide Matters / NOISE / NOISE-R3	Amend	Opposes NOISE-R3. [See paragraphs 4.65 to 4.72 of original submission for full reason]	(Option A). Amend NOISE R3 (Noise sensitive activity in a new building, or in alterations / additions to an existing building) as follows: 1. Activity status: Permitted Where: b. Compliance with NOISE-S4 (High Noise Areas) is achieved within: i. 40m of a State Highway; ii. 40m of a Railway corridor; iii. General Industrial Zone; or iv. Inner Air Noise Overlay. Note: Distances from a state highway or railway corridor shall be measured from the closest habitable room to the closest point of a state highway or railway designation. 2. Activity status: Permitted Where: a. ... ix. Outer Air Noise Overlay. ... 3. Activity status: Restricted Discretionary Where: a. Compliance with the requirements of NOISE-S4 or NOISE-S5 cannot be achieved <u>and</u> .

KiwiRail Holdings Limited	FS72.79	Part 2 / General District wide Matters / Noise / NOISE-R3	Oppose	Opposes the deletion of this rule which is required to protect the rail corridor from noise sensitive activities. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.123	Part 2 / General District wide Matters / Noise / NOISE-R3	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
KiwiRail Holdings Limited	408.110	General District wide Matters / Noise / NOISE-R3	Amend	Supports the inclusion of noise and vibration controls requiring acoustic insulation and ventilation to be installed in new (or altered) sensitive uses within 100m of the railway corridor. However, KiwiRail provide an alternative rule and standard framework which includes compliance pathways to mitigate noise impacts, including building setbacks and noise barriers. This approach is intended to assist developers and the Council in achieving compliance without requiring expert noise input into design. The standards seek to provide options for developers to protect future noise sensitive activities from noise associated with the rail corridor. KiwiRail also seeks controls within 60m of the railway corridor, for buildings containing new (or altered) sensitive uses to be constructed to manage the impacts of vibration. These controls are important to ensure new development is undertaken in a way that achieves a healthy living environment for people locating within proximity to the railway corridor, minimising the potential for complaints about the effects of the railway network.	Amend NOISE-R3 (Noise sensitive activity in a new building, or in alterations / additions to an existing building) as follows: 1. Activity status: Permitted Where: a. Compliance with NOISE-S4 (High Noise Areas) and NOISE-SX is achieved within: i. 40m of a State Highway; ii. 100 40m of a Railway corridor; iii. General Industrial Zone; or iv. Inner Air Noise Overlay. ... 2. Activity status: Permitted Where: a. Compliance with NOISE-S5 (Moderate Noise Areas) is achieved within: i. The area between 40m and 80m of a State Highway; ii. The area between 40m and 100m of a Railway corridor; iii. City Centre Zone; iv. ...

Save Our Venues	445.8	General District wide Matters / Noise / NOISE-R3	Amend	<p>Considers that as currently proposed, NOISE-R3 does not take effect until the new plan is fully ratified (which could take years), whereas the new permitted residential development rules would take immediate legal effect</p> <p>Considers that this is likely to result in a rush on development, meaning that by the time the new noise rules would come into effect, it would be too late for any affected venues.</p>	Seeks that the WCC give immediate effect to NOISE-R3 (Noise sensitive activity in a new building, or in alterations / additions to an existing building) alongside densification provisions.
Guardians of the Bays	452.41	General District wide Matters / Noise / NOISE-R3	Support	Supports the NOISE-R3 (Noise sensitive activity in a new building, or in alterations / additions to an existing building).	Retain NOISE-R3 (Noise sensitive activity in a new building, or in alterations / additions to an existing building) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
New Zealand Agricultural Aviation Association	40.7	General District wide Matters / Noise / NOISE-R4	Amend	Considers that the PDP should provide for the intermittent use of helicopter landing areas by agricultural aircraft for the purposes of agricultural aviation including primary production purposes and conservation purposes as a permitted activity.	Amend NOISE-R4.2 (Helicopter landing noise) as follows: ... 2. a. Compliance with the recommended limits and noise management provisions as set out in NZS6807:1994 Noise Management and Land Use Planning for Helicopter Landing Areas is achieved; <u>or</u> <u>b. The activity is for the purposes of agricultural aviation activities for primary production and conservation purposes.</u>
Paul Van Houtte	92.2	General District wide Matters / Noise / NOISE-R4	Amend	Considers that helicopter landing noise from commercial activity should not be permitted at the waterfront, as this compromises amenity values and the enjoyment of pedestrians.	Seeks that NOISE-R4 (Helicopter Landing Areas) is amended so that helicopter landing noise from commercial activity is not permitted at the waterfront.
Wellington Helicopters	FS5.5	Part 2/General District Wide Matters/ Noise/ NOISE-R4	Oppose	Helicopters have operated at the Queens Wharf waterfront helipad in excess of 30 years. Any restriction on operation and or noise would have a severely negative affect on our business and lead to closure. Wellington Helicopters believe that the helicopter operation adds to the diversity of businesses in the CBD and is also an essential asset for the Wellington Regional Emergency Management Office.	Disallow
Yvonne Weeber	340.86	General District wide Matters / Noise / NOISE-R4	Amend	Considers that NOISE-R4 should be amended to have a prohibited activity status where no activity for the landing and take off of helicopter will be granted within the East Side Area designation. Wellington Airport International Airport Limited Designation for the East Side Area does not allow take off or landing within the designation as per condition 34 which states: There shall be no aircraft engine testing, take-off or landing on land within the ESA Designation.	Amend NOISE-R4 to add a 'Non-compliant' activity status for the landing and take off of helicopters within the East Side Area designation.
Wellington Helicopters	FS5.7	Part 2/General District Wide Matters/ Noise/ NOISE-R4	Oppose	Wellington Helicopters believe that helicopter activities should be permitted within the airport zone.	Disallow
Wellington International Airport Limited	FS36.161	Part 2 / General District wide Matters / Noise / NOISE-R4	Oppose	Considers that it is inappropriate for the Noise chapter to duplicate or introduce aircraft noise management and mitigation measures imposed on WIAL through the recently settled Main Site and East Side Area Designations. Furthermore, the Main Site and East Side Area Designations are not subject to amendment as part of the Proposed Plan review.	Disallow
Retirement Villages Association of New Zealand Incorporated	350.78	General District wide Matters / Noise / NOISE-R4	Oppose in part	Considers that acoustic insulation standards referred to in NOISE-R4 should be amended to allow noise matters to be considered on a case-by-case basis, with consideration given to the distance of noise sensitive activities from high noise areas.	Amend NOISE-R4 (Acoustic insulation - high noise areas) to integrate consideration of individual site characteristics/circumstances, and the distance of noise sensitive activities from high noise areas.
Wellington International Airport Limited	FS36.160	Part 2 / General District wide Matters / Noise / NOISE-R4	Oppose	WIAL has sought, via its primary submission, the inclusion of new rules within the Air Noise Boundary and 60dB Ldn Noise Boundary at Wellington International Airport. This includes acoustic insulation requirements that reflects the nature of the noise received within these aircraft noise boundaries.	Disallow
Stride Investment Management Limited	FS107.44	Part 2 / General District wide Matters / Noise / NOISE-R4	Support	Stride supports integrating consideration of individual site characteristics to activities, as this would enable a flexible approach to noise management.	Allow
Investore Property Limited	FS108.44	Part 2 / General District wide Matters / Noise / NOISE-R4	Support	Investore supports integrating consideration of individual site characteristics to activities, as this would enable a flexible approach to noise management.	Allow
Wellington International Airport Ltd	406.433	General District wide Matters / NOISE / NOISE-R4	Support	Supports the permitted activity status for helicopter operations within the Airport Zone.	Retain NOISE-R4 (Helicopter landing noise) as notified.
Wellington Helicopters	FS5.6	Part 2/General District Wide Matters/ Noise/ NOISE-R4	Support	Wellington Helicopters support that helicopter activity be allowed within the airport zone.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.124	Part 2/General District Wide Matters/ Noise/ NOISE-R4	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
New Zealand Defence Force	423.17	General District wide Matters / Noise / NOISE-R4	Support	Considers that it is appropriate to provide for noise associated with helicopter landings in the Airport Zone as a permitted activity with no permitted activity criteria.	Retain NOISE-R4.1 (Helicopter landing noise) as notified.
Wellington Helicopters	FS5.3	Part 2/General District Wide Matters/ Noise/ NOISE-R4	Support	It is appropriate that helicopters be able to operate within the airport zone.	Allow
New Zealand Defence Force	423.18	General District wide Matters / Noise / NOISE-R4	Support	It is appropriate to provide for helicopter landings in all other zones as a permitted activity subject to compliance with the recommended limits and noise management provisions as set out in NZS6807:1994 Noise Management and Land Use Planning for Helicopter Landing Areas is achieved. This is consistent with NZDF's bespoke noise standards for TMTA provided in Attachment 3. [See original submission for attachment 3]	Retain NOISE-R4.2 (Helicopter landing noise) as notified.
Wellington Helicopters	FS5.4	Part 2/General District Wide Matters/ Noise/ NOISE-R4	Support	It is appropriate that helicopters be able to operate within the airport zone.	Allow
Ministry of Education	400.88	General District wide Matters / Noise / NOISE-R5	Support	Supports NOISE-R5 as Wellington Girls College and Thorndon School are located within approximately 300m of the Wellington Stadium. The submitter supports the matter of discretion to consider noise effects on these noise sensitive activities.	Retain NOISE-R5 (Noise from Wellington Regional Stadium and the Basin Reserve) as notified.
Horokiwi Quarries Ltd	271.58	General District wide Matters / Noise / NOISE-R6	Support	Supports NOISE-R6 noting the standard NOISE-S7 defers to the noise limits set out in APP5 – Fixed Plant Standards.	Retain NOISE-R6 (Fixed plant noise) as notified.
Wellington International Airport Ltd	406.434	General District wide Matters / NOISE / NOISE-R8	Oppose	Submitter is required to undertake wildlife management activities at the Airport. Submitter seeks to ensure that its activities, while not comparable to a shooting range, are not inadvertently captured by this rule.	Opposes NOISE-R8 (Shooting range and firearm noise) and seeks amendment.
Guardians of the Bays Inc	FS44.101	Part 2 / General District wide Matters / NOISE / NOISE-R8	Not specified	While Guardians of the Bays Incorporated understands the changes being proposed by Wellington International Airport, they also suggest that all due restraint and other methods of bird removal from the airport be considered as the local community do feel as though they are in the middle of a shooting range when bird control activities take place.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.125	Part 2 / General District wide Matters / NOISE / NOISE-R8	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.435	General District wide Matters / NOISE / NOISE-R8	Amend	Submitter is required to undertake wildlife management activities at the Airport. Submitter seeks to ensure that its activities, while not comparable to a shooting range, are not inadvertently captured by this rule.	Amend NOISE-R8 (Shooting range and firearm noise) as follows: NOISE-R8 <u>Airport Zone</u> <u>1. Activity Status: Permitted</u> All Zones (except the Airport Zone) 2. Activity Status: Discretionary (Option A).
Guardians of the Bays Inc	FS44.102	Part 2 / General District wide Matters / NOISE / NOISE-R8	Not specified	While Guardians of the Bays Incorporated understands the changes being proposed by Wellington International Airport, they also suggest that all due restraint and other methods of bird removal from the airport be considered as the local community do feel as though they are in the middle of a shooting range when bird control activities take place.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.126	Part 2 / General District wide Matters / NOISE / NOISE-R8	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.436	General District wide Matters / NOISE / NOISE-R8	Oppose	Submitter is required to undertake wildlife management activities at the Airport. Submitter seeks to ensure that its activities, while not comparable to a shooting range, are not inadvertently captured by this rule.	Delete NOISE-R8 (Shooting range and firearm noise) in its entirety. (Option B).
Guardians of the Bays Inc	FS44.103	Part 2 / General District wide Matters / NOISE / NOISE-R8	Not specified	While Guardians of the Bays Incorporated understands the changes being proposed by Wellington International Airport, they also suggest that all due restraint and other methods of bird removal from the airport be considered as the local community do feel as though they are in the middle of a shooting range when bird control activities take place.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.127	Part 2 / General District wide Matters / NOISE / NOISE-R8	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Horokiwi Quarries Ltd	271.59	General District wide Matters / Noise / NOISE-R9	Support	Considers that given the importance and necessity of blasting to quarry activities, Horokiwi supports the recognition of blasting associated with quarry activities (clause 2.b), and the permitted activity status.	Retain NOISE-R9 (Blasting noise) as notified.
CentrePort Limited	402.136	General District wide Matters / Noise / NOISE-R12	Support in part	Support the intent of this rule subject to amendments in relation to Table 20 which are required to comply with the methodology in NZS 6809:1999 (Port Noise Standard).	Retain NOISE-R12 (Port noise), subject to amendments sought in relation to Table 20 in APP4 Permitted Noise Standards.
Yvonne Weeber	340.87	General District wide Matters / Noise / NOISE-R13	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain NOISE-R13 (Airport noise) as notified.
Wellington International Airport Ltd	406.437	General District wide Matters / NOISE / NOISE-R13	Oppose	Considers that it is inappropriate to replicate the aircraft noise management obligations inherent in Designation WIAL4 and WIAL5 in the Noise Chapter. [See paragraphs 4.62 to 4.75 of original submission for full reason]	Opposes NOISE-R13 (Airport noise) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.128	General District wide Matters / NOISE / NOISE-R13	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.438	General District wide Matters / NOISE / NOISE-R13	Amend	Considers that it is inappropriate to replicate the aircraft noise management obligations inherent in Designation WIAL4 and WIAL5 in the Noise Chapter. [See paragraphs 4.62 to 4.75 of original submission for full reason]	(Option A). Amend NOISE-R13 (Airport noise) as follows: NOISE-R13 Airport Noise All Zones 1. Activity status: Permitted Where: a. Compliance is achieved with the following standards: i. NOISE-S1; ii. NOISE-S8; iii. NOISE-S9; iv. NOISE-S10; v. NOISE-S11; vi. NOISE-S12; vii. NOISE-S14; and viii. NOISE-S15. 2. 3. Activity status: Non-complying Where: a. Compliance is not achieved with- i. NOISE-S9; ii. NOISE-S10; and b. Noise from any land based activity in the Airport Zone exceeds the limits in NOIS-S14 by more than 5dB. Notification Status: An application for resource consent made in respect of this rule must be publicly notified.
Guardians of the Bays Inc	FS44.104	Part 2 / General District wide Matters / NOISE / NOISE-R13	Oppose	Seeks that the noise management obligations of Wellington Airport should form part of the District Plan- Noise S3, S4, S5, S8, S10, S11, S12, S13, S14,S15 Noise-R13.	Disallow / Seeks that the submission points be disallowed or amended as to how designations be considered in the plan.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.129	Part 2 / General District wide Matters / NOISE / NOISE-R13	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.439	General District wide Matters / NOISE / NOISE-R13	Oppose	Considers that it is inappropriate to replicate the aircraft noise management obligations inherent in Designation WIAL4 and WIAL5 in the Noise Chapter. [See paragraphs 4.62 to 4.75 of original submission for full reason]	Delete NOISE-R13 (Airport Noise) in its entirety. (Option B).
Guardians of the Bays Inc	FS44.105	Part 2 / General District wide Matters / NOISE / NOISE-R13	Oppose	Seeks that the noise management obligations of Wellington Airport should form part of the District Plan- Noise S3, S4, S5, S8, S10, S11, S12, S13, S14,S15 Noise-R13.	Disallow / Seeks that the submission points be disallowed or amended as to how designations be considered in the plan.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.130	Part 2 / General District wide Matters / NOISE / NOISE-R13	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Guardians of the Bays	452.42	General District wide Matters / Noise / NOISE-R13	Support	Supports NOISE-R13 (Airport noise).	Retain NOISE-R13 (Airport noise) as notified.
Yvonne Weeber	340.88	General District wide Matters / Noise / NOISE-S1	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain NOISE-S1 (Maximum permitted activity noise levels by zone) as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.103	General District wide Matters / Noise / NOISE-S1	Support	NOISE-S1 is supported, as well as its proposed limits set out in 'APP4 – Permitted Noise standards' which includes noise limits for activities contained within a single zone and separate standards for activities generated in one zone but received in another.	Retain NOISE-S1 (Maximum permitted activity noise levels by zone) as notified.
Guardians of the Bays	452.43	General District wide Matters / Noise / NOISE-S1	Support	Supports NOISE-S1 (Maximum permitted activity noise levels by zone).	Retain NOISE-S1 (Maximum permitted activity noise levels by zone) as notified.
Yvonne Weeber	340.89	General District wide Matters / Noise / NOISE-S2	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain NOISE-S2 (Maximum permitted noise levels by activity) as notified.
Waka Kotahi	370.225	General District wide Matters / Noise / NOISE-S2	Support	Considers that the use of NZS 6803 for construction noise is appropriate	Retain NOISE-S2 (Maximum permitted noise levels by activity) as notified.
Ministry of Education	400.89	General District wide Matters / Noise / NOISE-S2	Support	Supports NOISE-S2.2 as it limits the noise effects of blasting on any nearby sensitive activity, including educational facilities.	Retain NOISE-S2.2 (Maximum permitted noise levels by activity: 2. Blasting) as notified.
Guardians of the Bays	452.44	General District wide Matters / Noise / NOISE-S2	Support	Supports NOISE-S2 (Maximum permitted noise levels by activity).	Retain NOISE-S2 (Maximum permitted noise levels by activity) as notified.
Yvonne Weeber	340.90	General District wide Matters / Noise / NOISE-S3	Support in part	NOISE-S3 is supported, but an amendment is sought.	Retain NOISE-S3 (Noise management plans) with amendment.
Yvonne Weeber	340.91	General District wide Matters / Noise / NOISE-S3	Amend	Considers that NOISE-S3 should be amended to have an additional bullet 2.g to include a timeframe to increase the speed of completion in the "Methods necessary for the Airport to complete implementation of the Quieter Homes Programme".	Amend NOISE-S3 (Noise management plans) as follows: Airport Activities 1. The Airport must at all times maintain and implement an Airport Noise Management Plan (ANMP). Any alteration or update to the ANMP is subject to certification by the Council. 2. The ANMP must include, as a minimum: ... g. Methods necessary for the Airport to complete implementation of the Quieter Homes Programme <u>within an identified timeframe once the properties within the 60dbh contour have been identified</u> ;
Wellington International Airport Limited	FS36.162	Part 2 / General District wide Matters / Noise / NOISE-S3	Oppose	Considers that it is inappropriate for the Noise chapter to duplicate or introduce aircraft noise management and mitigation measures imposed on WIAL through the recently settled Main Site and East Side Area Designations. Furthermore, the Main Site and East Side Area Designations are not subject to amendment as part of the Proposed Plan review.	Disallow
CentrePort Limited	402.137	General District wide Matters / Noise / NOISE-S3	Support in part	Support the intent of this standard subject to amendments in relation to Table 20 which are required to comply with the methodology in NZS 6809:1999 (Port Noise Standard).	Retain NOISE-S3 (Noise management plans), subject to amendments sought in relation to Table 20 in APP4 Permitted Noise Standards.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.440	General District wide Matters / NOISE / NOISE-S3	Oppose	Considers that it is inappropriate to replicate the aircraft noise management obligations inherent in Designation WIAL4 and WIAL5 in the Noise Chapter. [See paragraphs 4.62 to 4.75 of original submission for full reason]	Delete NOISE-S3 (Noise management plans) in it's entirety.
Guardians of the Bays Inc	FS44.106	Part 2 / General District wide Matters / NOISE / NOISE-S3	Oppose	Seeks that the noise management obligations of Wellington Airport should form part of the District Plan- Noise S3, S4, S5, S8, S10, S11, S12, S13, S14,S15 Noise-R13.	Disallow / Seeks that the submission points be disallowed or amended as to how designations be considered in the plan.
Kāinga Ora – Homes and Communities	FS89.138	Part 2 / General District Wide Matters / Noise / NOISE-S3	Oppose	Kāinga Ora opposes deletion of this standard which serves the purpose to requiring WIAL to manage their noise through a management plan through Plan rules as opposed to solely through the Designation conditions.	Disallow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.131	Part 2 / General District Wide Matters / Noise / NOISE-S3	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Guardians of the Bays	452.45	General District wide Matters / Noise / NOISE-S3	Support in part	Supports the NOISE S3 (Noise management plans) standards as proposed.	Retain NOISE-S3 (Airport activities) subject to amendments.
Guardians of the Bays	452.46	General District wide Matters / Noise / NOISE-S3	Amend	Considers the need to amend bullet 2.g to include a timeframe to increase the speed of completion in the "Methods necessary for the Airport to complete implementation of the Quieter Homes Programme".	Amend NOISE-S3 (Airport Activities) as follows: ... 2.g. Methods necessary for the Airport to complete implementation of the Quieter Homes Programme within an identified timeframe once the properties within the 60dbh contour have been identified...
Wellington International Airport Limited	FS36.163	Part 2 / General District wide Matters / Noise / NOISE-S3	Oppose	Considers that it is inappropriate for the Noise chapter to duplicate or introduce aircraft noise management and mitigation measures imposed on WIAL through the recently settled Main Site and East Side Area Designations. Furthermore, the Main Site and East Side Area Designations are not subject to amendment as part of the Proposed Plan review.	Disallow
Wellington City Council	266.124	General District wide Matters / Noise / NOISE-S4	Amend	Considers the 'exemption' from insulation standards in S.4(4) (Acoustic insulation - high noise areas) and S.5(4) (Acoustic insulation - moderate noise areas) doesn't adopt the correct noise units when setting out those exemption levels and needs amending. Considers it would be counter to the National Planning Standards to use 1 hour LAeq when NZ Standards NZS6809 (port) and NZS6806(traffic) specify 24 hour units for those two types of noise. Considers there are no NZ Stds dealing with rail noise. Kiwirail have developed guidance based on worst case 1hr rail noise, so that seems appropriate for rail.	Amend NOISE-S4 (Acoustic insulation – high noise areas) as follows: not exceed the following noise limits at all points 1.5m above ground level, and any part of the floor levels above ground: a. Less than 55 dB LAeq (1hr) for rail noise; or b. Less than 57 dB LAeq (24hr) for road noise; or c. Less than 57 dB LAeq (24hr) for port noise.
Yvonne Weeber	340.92	General District wide Matters / Noise / NOISE-S4	Support	NOISE-S4 is supported. Supports the standard for acoustic insulation in the high noise area of the Inner Air Noise Overlay.	Retain NOISE-S4 (Acoustic insulation – high noise areas) with amendment.
Retirement Villages Association of New Zealand Incorporated	350.79	General District wide Matters / Noise / NOISE-S4	Amend	Acknowledges that acoustic insulation may be appropriate in some areas located within or adjacent to high noise areas with a purpose of providing protection / amenity to residents in such areas. However, considers that such requirements need to be determined on a case-by-case basis, with consideration given to the distance of noise sensitive activities from high noise areas.	Amend NOISE-S5 (Acoustic insulation – moderate noise areas) to integrate consideration of individual site characteristics / circumstances, and the distance of noise sensitive activities from high noise areas.
Stride Investment Management Limited	FS107.45	Part 2 / General District wide Matters / Noise / NOISE-S5	Support	Stride supports integrating consideration of individual site characteristics to activities, as this would enable a flexible approach to noise management.	Allow
Investore Property Limited	FS108.45	Part 2 / General District wide Matters / Noise / NOISE-S5	Support	Investore supports integrating consideration of individual site characteristics to activities, as this would enable a flexible approach to noise management.	Allow
Waka Kotahi	370.226	General District wide Matters / Noise / NOISE-S4	Support in part	Supports, with amendments.	Supports , with amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.227	General District wide Matters / Noise / NOISE-S4	Amend	Considers that for noise sensitive activities within 20m of State Highway, buildings should also be constructed to mitigate for road vibration – to avoid adverse effects to human health and property as a result of vibration in the environment. Note should be added for clarity on how to calculate state highway noise levels for the design.	Amend NOISE-S4 (Acoustic insulation – high noise areas) as follows: <u>5. For noise sensitive activities within 20m of a state highway, buildings must be designed, constructed and maintained to achieve road vibration levels not exceeding 0.3 mm/s vv.95;</u> <u>Note: for activities within 40m of a State Highway, the design should be based on the measured or predicted road traffic noise levels plus 3 dB;</u>
KiwiRail Holdings Limited	FS72.80	Part 2 / General District wide Matters / Noise / NOISE-S4	Support	Supports the inclusion of a vibration standard for noise sensitive activities however, seeks that this provision applies within 60m of the rail corridor as well as within 20m of a State Highway. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Amend / Adopt amendment sought and include 60m from rail corridor
Stride Investment Management Limited	FS107.31	Part 2 / General District wide Matters / Noise / NOISE-S4	Oppose	Stride is opposed to imposing additional requirements around vibration and considers that this unfairly imposes the costs of mitigation on private landowners rather than seeking to manage these effects at the source.	Disallow
Investore Property Limited	FS108.31	Part 2 / General District wide Matters / Noise / NOISE-S4	Oppose	Investore is opposed to imposing additional requirements around vibration and considers that this unfairly imposes the costs of mitigation on private landowners rather than seeking to manage these effects at the source.	Disallow
Waka Kotahi	370.228	General District wide Matters / Noise / NOISE-S4	Oppose	[The submitter comments on the assessment criteria only in this submission point.] Considers the assessment criteria for activities that do not meet the permitted standards for NOISE-S4 to be inappropriate as it invites re-litigation of the bottom line which is that internal conditions need to be healthy to protect the amenity, wellbeing, and health of occupants. Assessment criteria should instead consider the extent of the exceedance or noncompliance, and the effects on occupants and noise generating activities as a result.	Amend the assessment criteria under NOISE-S4 (Acoustic insulation – high noise areas) as follows: Assessment criteria where the standard is infringed: <u>1. Extent of the exceedance.</u> <u>2. Human health effects on occupants and their ability to achieve an acceptable level of amenity as a result of the exceedance.</u> <u>3. Reverse sensitivity effects to existing noise generating activities.</u> <u>4. Where within 100m of a state highway or railway corridor, extent of consultation with infrastructure providers who are generating the noise.</u> 5. Background noise levels and any special character of noise from any existing activities, the nature and character of any changes to the sound received at any receiving site and the degree to which such sounds are compatible with the surrounding activities; 6. The ability to achieve acceptable outdoor acoustic amenity; 7. Any mitigation of the noise proposed, in accordance with a best practicable option approach (e.g. site layout and design, design and location of structures, buildings and equipment and the timing of operations); 8. The ability to mitigate adverse effects through the imposition of conditions such as noise attenuation; and 9. In relation to a heritage building or a contributing building within a heritage area, the extent to which it is practicable to insulate to the required standard without detracting from identified heritage values
Stride Investment Management Limited	FS107.32	Part 2 / General District wide Matters / Noise / NOISE-S4	Oppose	Stride is opposed amending the standard as requested as this would impose inappropriately onerous requirements on development and fails to provide flexibility.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Investore Property Limited	FS108.32	Part 2 / General District wide Matters / Noise / NOISE-S4	Oppose	Investore is opposed amending the standard as requested as this would impose inappropriately onerous requirements on development and fails to provide flexibility.	Disallow
Strathmore Park Residents Association Inc	371.4	General District wide Matters / Noise / NOISE-S4	Amend	Considers that Council has proposed that this overlay area will be determined by modelling based on the existing 65dB ANB. While the submitter has no issue with the accuracy or methods to achieve this, the submitter believes that the operative 60dB boundary should be established from time to time by modelling form the actual 90 day rolling average noise being experienced at the defined 65dB ANB rather than based on the 65dB limit itself. This would allow the WIAL to more actively manage noise beyond the 65dB boundary rather than just working towards filling the available "noise bucket" as has been WIAL's approach to the Inner Noise Overlay. Building requirement triggers will not be imposed on a wide area of owners until the defined noise level has been established. The implementation of the Outer Noise Overlay in the above manner will, in the submitters view, more acceptably cater for uncertainty to the future of Airline travel, climate change regulations, introduction of Wide bodied jet aircraft in Wellington and move toward quieter and/or electric engine aircraft.	Seeks that NOISE-S4 (Acoustic insulation - moderate noise areas) is amended to change the means to establish the 60dB Outer Air Noise Overlay area to use actual 90 day rolling average noise as measured at the defined 65dB ANB.
Wellington International Airport Limited	FS36.164	Part 2 / General District wide Matters / Noise / NOISE-S4	Oppose	WIAL has sought the inclusion of a new standard that applies to the acoustic treatment of buildings containing noise sensitive activities within the aircraft noise boundaries at Wellington International Airport.	Disallow
Kāinga Ora Homes and Communities	391.298	General District wide Matters / Noise / NOISE-S4	Oppose in part	NOISE-S4 is opposed and a review of the different insulation requirements is sought for the inner and outer air noise overlay and to understand why these levels vary from the level required by the Quieter Homes Programme which is part of the Airport Noise Management Plan and Designation conditions. Clarification is also sought on the extent of the Quieter Homes Programme which appears to only cover the inner air noise overlay. Amendments may be necessary once further clarification and understanding is considered.	Opposes NOISE-S4 (Acoustic insulation – high noise areas) and seeks amendments.
Guardians of the Bays Inc	FS44.124	Part 2 / General District wide Matters / Noise / NOISE-S4	Support	Seeks clarification of the Air Noise requirements and the Quieter Homes Programme.	Allow
The Retirement Villages Association of New Zealand Incorporated	FS126.128	Part 2 / General District wide Matters / Noise / NOISE-S4	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.128	Part 2 / General District wide Matters / Noise / NOISE-S4	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.
Kāinga Ora Homes and Communities	391.299	General District wide Matters / Noise / NOISE-S4	Amend	Considers that NOISE-S4 should be amended so that any mitigation measures and/or Quieter Homes Programme applies to properties under both the inner and outer air noise overlay. The submitter seeks a review of the different insulation requirements for the inner and outer air noise overlay and to understand why these levels vary from the level required by the Quieter Homes Programme which is part of the Airport Noise Management Plan and Designation conditions. Clarification is also sought on the extent of the Quieter Homes Programme which appears to only cover the inner air noise overlay. The requirements proposed by the Plan in respect of acoustic insulation and ventilation are potentially onerous for landowners.	Amend NOISE-S4 (Acoustic insulation – high noise areas) so that any mitigation measures and/or Quieter Homes Programme applies to properties under both the inner and outer air noise overlay, and clarify the Standard after having reviewed the different insulation requirements for the inner and outer air noise overlay between the Plan and the Quieter Homes Programme.
Wellington International Airport Limited	FS36.165	Part 2 / General District wide Matters / Noise / NOISE-S4	Oppose	WIAL has sought the inclusion of a new standard that applies to the acoustic treatment (including ventilation) of buildings containing noise sensitive activities within the aircraft noise boundaries at Wellington International Airport. As set out in WIAL's primary submission, it is inappropriate for the Noise chapter to duplicate or introduce aircraft noise management and mitigation measures imposed on WIAL through the recently settled Main Site and East Side Area Designations. Furthermore, the Main Site and East Side Area Designations are not subject to amendment as part of the Proposed Plan review.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Guardians of the Bays Inc	FS44.125	Part 2 / General District wide Matters / Noise / NOISE-S4	Support	Seeks clarification of the Air Noise requirements and the Quieter Homes Programme.	Allow
The Retirement Villages Association of New Zealand Incorporated	FS126.129	Part 2 / General District wide Matters / Noise / NOISE-S4	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.129	Part 2 / General District wide Matters / Noise / NOISE-S4	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.
Ministry of Education	400.90	General District wide Matters / Noise / NOISE-S4	Support	Supports NOISE-S4 as the submitter supports the requirements for acoustic insulation for sensitive activities. The submitter also supports the assessment criteria which will help manage the effects of reverse sensitivity.	Retain NOISE-S4 (Acoustic insulation – high noise areas) as notified.
Wellington International Airport Ltd	406.441	General District wide Matters / NOISE / NOISE-S4	Oppose in part	Opposes standard in part. [See paragraph 4.62 to 4.75 of original submission for full reason]	Opposes NOISE-S4 (Acoustic insulation – high noise areas) and seeks amendment.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.132	General District wide Matters / NOISE / NOISE-S4	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.442	General District wide Matters / NOISE / NOISE-S4	Amend	Opposes standard in part. [See paragraph 4.62 to 4.75 of original submission for full reason]	Amend NOISE-S4 (Acoustic insulation – high noise areas) as follows: NOISE-S4 Acoustic insulation – high noise areas Within 40m of a State Highway/ Within 40m of a Railway Corridor/ Courtenay Place Noise Area/ Inner Air Noise Overlay (Option A).
Guardians of the Bays Inc	FS44.107	Part 2 / General District wide Matters / NOISE / NOISE-S4	Oppose	Seeks that the noise management obligations of Wellington Airport should form part of the District Plan- Noise S3, S4, S5, S8, S10, S11, S12, S13, S14,S15 Noise-R13.	Disallow / Seeks that the submission points be disallowed or amended as to how designations be considered in the plan.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.133	Part 2 / General District wide Matters / NOISE / NOISE-S4	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.443	General District wide Matters / NOISE / NOISE-S4	Oppose in part	Opposes standard in part. [See paragraph 4.62 to 4.75 of original submission for full reason]	Delete NOISE-S4 (Acoustic insulation – high noise areas) in its entirety. (Option B).
Guardians of the Bays Inc	FS44.108	Part 2 / General District wide Matters / NOISE / NOISE-S4	Oppose	Seeks that the noise management obligations of Wellington Airport should form part of the District Plan- Noise S3, S4, S5, S8, S10, S11, S12, S13, S14,S15 Noise-R13.	Disallow / Seeks that the submission points be disallowed or amended as to how designations be considered in the plan.

KiwiRail Holdings Limited	FS72.81	Part 2 / General District wide Matters / Noise / NOISE-S4	Oppose	Rejects the deletion of the acoustic insulation standard for high noise areas. This standard helps to achieve the objectives of the PDP relating to reverse sensitivity. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.134	Part 2 / General District wide Matters / Noise / NOISE-S4	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
KiwiRail Holdings Limited	408.111	General District wide Matters / Noise / NOISE-S4	Amend	Supports an alternative rule and standard framework. Seeks consequential amendment to NOISE-S4 to remove 'Within 40m of a Railway Corridor'.	Amend NOISE-S4 (Acoustic insulation – high noise areas) as follows: Within 40m of a State Highway Within 40m of a Railway Corridor Courtenay Place Noise Area Inner Air Noise Overlay
Guardians of the Bays	452.47	General District wide Matters / Noise / NOISE-S4	Support	Supports NOISE-S4 (Acoustic insulation – high noise areas).	Retain NOISE-S4 (Acoustic insulation – high noise areas) as notified.
Guardians of the Bays	452.48	General District wide Matters / Noise / NOISE-S4	Support	Supports table ii of NOISE-S4	TABLE II - Minimum construction requirements necessary to achieve an advanced external sound insulation level of DnT,w + Ctr > 35 dB as notified.
Wellington City Council	266.125	General District wide Matters / Noise / NOISE-S5	Amend	Considers the 'exemption' from insulation standards in S.4(4) (Acoustic insulation - high noise areas) and S.5(4) (Acoustic insulation - moderate noise areas) doesn't adopt the correct noise units when setting out those exemption levels and needs amending. Considers it would be counter to the National Planning Standards to use 1 hour LAeq when NZ Standards NZS6809 (port) and NZS6806(traffic) specify 24 hour units for those two types of noise. Considers there are no NZ Stds dealing with rail noise. Kiwirail have developed guidance based on worst case 1hr rail noise, so that seems appropriate for rail.	Amend NOISE-S5 (Acoustic insulation – moderate noise areas) as follows: not exceed the following noise limits at all points 1.5m above ground level, and any part of the floor levels above ground: a. Less than 55 dB LAeq (1hr) for rail noise; or b. Less than 57 dB LAeq (24hr) for road noise; or c. Less than 57 dB LAeq (24hr) for port noise.
Yvonne Weeber	340.93	General District wide Matters / Noise / NOISE-S5	Support	NOISE-S5 is supported. Supports the standard for acoustic insulation in the moderate noise area for the Outer Noise Overlay.	Retain NOISE-S5 (Acoustic insulation – moderate noise areas) with amendment.
Waka Kotahi	370.229	General District wide Matters / Noise / NOISE-S5	Support in part	Support the inclusion of NOISE-S5, with default distance from State Highway to be extended to 100m or otherwise incorporate the Waka Kotahi noise contours along state highways so that the provisions only apply as needed.	Retain NOISE-S5 (Acoustic insulation – moderate noise areas) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.230	General District wide Matters / Noise / NOISE-S5	Amend	<p>The submitter states to refer to comments on NOISE-R3.2 regarding the distance from the State Highway.</p> <p>Note should be added for clarity on how to calculate State Highway noise levels for the design.</p> <p>Submitter considers that there is a need to correct the noise metric for road noise to be consistent with the requirements of the National Planning Standards</p>	<p>Amend NOISE-S5 (Acoustic insulation – moderate noise areas) as follows:</p> <p>...</p> <p>4. The requirements of (a) above do not apply where an acoustic design certificate signed by a suitably qualified acoustic engineer, confirms the level of noise incident on the most exposed part of the exterior of any habitable room can be shown, under a reasonable maximum use scenario, to not exceed the following noise limits at all points 1.5m above ground level, and any part of the floor levels above ground:</p> <p>a. Less than 55 dB LAeq (1h) for rail noise; or</p> <p>b. Less than 57 dB LAeq (24h) for road noise; or</p> <p>c. Less than 57 dB LAeq (1 hr) for port noise.</p> <p>...</p> <p><u>Note: for activities within 100m of a State Highway, the design should be based on the measured or predicted roadtraffic noise levels plus 3 dB.</u></p>
Waka Kotahi	370.231	General District wide Matters / Noise / NOISE-S5	Oppose	<p>[The submitter comments on the assessment criteria only in this submission point]</p> <p>Considers the assessment criteria for activities that do not meet the permitted standards for NOISE-S5 to be inappropriate as it invites re-litigation of the bottom line which is that internal conditions need to be healthy to protect the amenity, wellbeing, and health of occupants. Assessment criteria should instead consider the extent of the exceedance or noncompliance, and the effects on occupants and noise generating activities as a result.</p>	<p>Amend the assessment criteria under NOISE-S5 (Acoustic insulation – moderate noise areas) as follows:</p> <p>Assessment criteria where the standard is infringed:</p> <ol style="list-style-type: none"> 1. <u>Extent of the exceedance.</u> 2. <u>Human health effects on occupants and their ability to achieve an acceptable level of amenity as a result of the exceedance.</u> 3. <u>Reverse sensitivity effects to existing noisegenerating activities.</u> 4. <u>Where within 100m of a state highway or railway corridor, extent of consultation with infrastructure providers who are generating the noise.</u> 5. Background noise levels and any special character of noise from any existing activities, the nature and character of any changes to the sound received at any receiving site and the degree to which such sounds are compatible with the surrounding activities; 6. The ability to achieve acceptable outdoor acoustic amenity; 7. Any mitigation of the noise proposed, in accordance with a best practicable option approach (e.g. site layout and design, design and location of structures, buildings and equipment and the timing of operations); 8. The ability to mitigate adverse effects through the imposition of conditions such as noise attenuation; and 9. In relation to a heritage building or a contributing building within a heritage area, the extent to which it is practicable to insulate to the required standard without detracting from identified heritage values
Stride Investment Management Limited	FS107.33	Part 2 / General District wide Matters / Noise / NOISE-S5	Oppose	Stride is opposed amending the standard as requested as this would impose inappropriately onerous requirements on development, as noted above.	Disallow
Investore Property Limited	FS108.33	Part 2 / General District wide Matters / Noise / NOISE-S5	Oppose	Investore is opposed to amending the standard as requested as this would impose inappropriately onerous requirements on development, as noted above.	Disallow
Strathmore Park Residents Association Inc	371.5	General District wide Matters / Noise / NOISE-S5	Amend	<p>Considers that Council has proposed that this overlay area will be determined by modelling based on the existing 65dB ANB. While the submitter has no issue with the accuracy or methods to achieve this, the submitter believes that the operative 60dB boundary should be established from time to time by modelling from the actual 90 day rolling average noise being experienced at the defined 65dB ANB rather than based on the 65dB limit itself. This would allow the WIAL to more actively manage noise beyond the 65dB boundary rather than just working towards filling the available "noise bucket" as has been WIAL's approach to the Inner Noise Overlay. Building requirement triggers will not be imposed on a wide area of owners until the defined noise level has been established. The implementation of the Outer Noise Overlay in the above manner will, in the submitters view, more acceptably cater for uncertainty to the future of Airline travel, climate change regulations, introduction of Wide bodied jet aircraft in Wellington and move toward quieter and/or electric engined aircraft.</p>	<p>Seeks that NOISE-S5 (Acoustic insulation - moderate noise areas) is amended to change the means to establish the 60dB Outer Air Noise Overlay area to use actual 90day rolling average noise as measured at the defined 65dB ANB.</p>

KiwiRail Holdings Limited	408.113	General District wide Matters / Noise / NOISE-S6	Amend	The ventilation requirements as proposed, rely on the requirements of New Zealand Building Code. KiwiRail seeks amendment to this standard to ensure habitable rooms achieve an appropriate level of comfort and amenity for occupants.	Amend NOISE-S6 (Ventilation requirements) as follows: 1. The minimum external to internal noise reduction levels in NOISE-S4 and NOISE-S5 must be achieved at the same time as the <u>following</u> ventilation requirements. of the New Zealand Building Code. An alternative means of ventilation must be provided unless compliance with the above acoustic insulation standards can be met with ventilating windows open. <u>2. If windows must be closed to achieve minimum external to internal noise reduction levels in NOISE-S4 and NOISE-S5, the building is designed, constructed and maintained with a mechanical ventilation system that</u> <u>a. For habitable rooms for a residential activity, achieves the following requirements:</u> <u>i. provides mechanical ventilation to satisfy clause G4 of the New Zealand Building Code; and</u> <u>ii. is adjustable by the occupant to control the ventilation rate in increments up to a high air flow setting that provides at least 6 air changes per hour; and</u> <u>iii. provides relief for equivalent volumes of spill air;</u> <u>iv. provides cooling and heating that is controllable by the occupant and can maintain the inside temperature between 18°C and 25°C; and</u> <u>v. does not generate more than 35 dB LAeq(30s) when measured 1 metre away from any grille or diffuser.</u> <u>b. For other spaces, is as determined by a suitably qualified and experienced person.</u> 2. Where bedrooms rely on openable windows to meet the ventilation requirements of the New Zealand Building Code, and where these windows must remain closed to achieve compliance with NOISE S4 and NOISE S5 acoustic insulation standards, a positive supplementary source of fresh air ducted from outside is required at the time of fit out. For the purposes of this requirement, a bedroom is any room intended to be used for sleeping. The supplementary source of air is to achieve a minimum of 7.5 litres per second per person; and 3. Confirmation of compliance with this standard will be required by a qualified professional.
Wellington International Airport Limited	FS36.169	Part 2 / General District wide Matters / Noise / NOISE-S6	Support	WIAL has sought the inclusion of a new standard that applies to the acoustic treatment (including ventilation) of buildings containing noise sensitive activities within the aircraft noise boundaries at Wellington International Airport. WIAL therefore supports this relief to the extent that it no longer applies within the aircraft noise boundaries for Wellington International Airport.	Allow
The Retirement Villages Association of New Zealand Incorporated	FS126.172	Part 2 / General District wide Matters / Noise / NOISE-S6	Oppose	The RVA acknowledges that acoustic insulation for noise and vibration may be appropriate in some areas located within or adjacent to high noise areas with a purpose of providing protection / amenity to residents in such areas. The RVA considers however that such requirements need to be determined on a case-by-case basis, with consideration given to the distance of noise sensitive activities from high noise areas.	Disallow
Ryman Healthcare Limited	FS128.172	Part 2 / General District wide Matters / Noise / NOISE-S6	Oppose	Ryman acknowledges that acoustic insulation for noise and vibration may be appropriate in some areas located within or adjacent to high noise areas with a purpose of providing protection / amenity to residents in such areas. Ryman considers however that such requirements need to be determined on a case-by-case basis, with consideration given to the distance of noise sensitive activities from high noise areas.	Disallow
Guardians of the Bays	452.51	General District wide Matters / Noise / NOISE-S6	Support	Supports NOISE-S6 (Ventilation requirements).	Retain NOISE-S6 (Ventilation requirements) as notified.
Yvonne Weeber	340.95	General District wide Matters / Noise / NOISE-S7	Support	[No specific reason given beyond decision requested - refer to original submission].	Retain NOISE-S7 (Fixed plant noise) with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Guardians of the Bays	452.52	General District wide Matters / Noise / NOISE-S7	Support	Supports NOISE-S7 (Fixed Plant Noise).	Retain NOISE-S7 (Fixed Plant Noise) as notified.
Yvonne Weeber	340.96	General District wide Matters / Noise / NOISE-S8	Support	NOISE-S8 is supported. Supports the standard for hours of aircraft operation and the assessment criteria.	Retain NOISE-S8 (Hours of aircraft operation) with amendment.
Wellington International Airport Ltd	406.448	General District wide Matters / NOISE / NOISE-S8	Oppose	Considers that it is inappropriate to replicate the aircraft noise management obligations inherent in Designation WIAL4 and WIAL5 in the Noise Chapter. [See paragraphs 4.62 to 4.75 of original submission for full reason]	Delete NOISE-S8 (Hours of aircraft operation) in it's entirety.
Guardians of the Bays Inc	FS44.112	Part 2 / General District wide Matters / NOISE / NOISE-S8	Oppose	Seeks that the noise management obligations of Wellington Airport should form part of the District Plan- Noise S3, S4, S5, S8, S10, S11, S12, S13, S14,S15 Noise-R13.	Disallow / Seeks that the submission points be disallowed or amended as to how designations be considered in the plan.
Kāinga Ora – Homes and Communities	FS89.141	Part 2 / General District wide Matters / NOISE / NOISE-S8	Oppose	Kāinga Ora considers that these standards should remain to ensure sufficient control over aircraft and airport noise and to provide clarity for Plan users.	Disallow
New Zealand Defence Force	FS104.16	Part 2 / General District wide Matters / Noise / NOISE-S8	Oppose	Oppose the deletion of NOISE-S8 (Hours of aircraft operation), in particular, Clause 11, which exempts aircraft carrying heads of state and/or senior dignitaries acting in their official capacity or other military aircraft operations from this activity standard. While this Standard is included in Condition 27 of the Airport Main Purposes Designation – Main Site Area (Designation WIAL4), if wholly contained in the designation conditions, this would not provide certainty for NZDF military aircraft operations given the Minister of Defence is not the Requiring Authority for this designation. NZDF would be happy to undertake further discussion with WIAL on this matter.	Disallow / Reject submitter's relief and retain NOISE-S8 as notified.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.139	Part 2 / General District wide Matters / Noise / NOISE-S8	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
New Zealand Defence Force	423.19	General District wide Matters / Noise / NOISE-S8	Support	Activity standard NOISE-S8 sets out restrictions on the hours of aircraft operation within the Airport Zone. NZDF supports clause 11 of this standard, which exempts aircraft carrying heads of state and/or senior dignitaries acting in their official capacity or other military aircraft operations from this activity standard.	Retain NOISE-S8 (Hours of aircraft operation) as notified.
Guardians of the Bays	452.53	General District wide Matters / Noise / NOISE-S8	Support	Supports NOISE-S8 (Hours of aircraft operations).	Retain NOISE-S8 (Hours of aircraft operations) as notified.
Yvonne Weeber	340.97	General District wide Matters / Noise / NOISE-S9	Support	NOISE-S9 is supported. Supports the standard for calculations and management of aircraft noise, assessment criteria and the position of a permanent noise monitoring equipment as proposed in Figure 6.	Retain NOISE-S9 (Calculation and management of aircraft noise) with amendment.
Wellington International Airport Ltd	406.449	General District wide Matters / NOISE / NOISE-S9	Oppose	Considers that it is inappropriate to replicate the aircraft noise management obligations inherent in Designation WIAL4 and WIAL5 in the Noise Chapter. [See paragraphs 4.62 to 4.75 of original submission for full reason]	Delete NOISE-S9 (Calculation and management of aircraft noise) in it's entirety.
Kāinga Ora – Homes and Communities	FS89.142	Part 2 / General District wide Matters / NOISE / NOISE-S9	Oppose	Kāinga Ora considers that these standards should remain to ensure sufficient control over aircraft and airport noise and to provide clarity for Plan users.	Disallow
New Zealand Defence Force	FS104.17	Part 2 / General District wide Matters / Noise / NOISE-S9	Oppose	Oppose the deletion of NOISE-S9 (Calculation and management of aircraft noise) to provide certainty for NZDF military aircraft operations and amend Noise Standard NOISE-S9 as set out in NZDF's original submission (referenced by Council in the summary of submissions as 'NZDF Submission Point 423.20'). NZDF would be happy to undertake further discussion with WIAL on this matter.	Disallow / Reject submitter's relief and amend NOISE-S9 as set out in NSDFs original submission.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.140	Part 2 / General District wide Matters / Noise / NOISE-S9	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
New Zealand Defence Force	423.20	General District wide Matters / Noise / NOISE-S9	Amend	<p>Considers that Activity Standard NOISE-S9.2 relates to the calculation and management of aircraft noise with Standard NOISE-S9.2 setting out the 90 day rolling average sound exposure level that all aircraft operations shall meet. The standard is drafted such that Wellington International Airport Limited (WIAL) shall be responsible for the management of all aircraft operations within the Airport Zone to meet the 90 day rolling average sound exposure level set.</p> <p>the standard as notified does not exempt military aircraft operations from compliance with the 90 day rolling average sound exposure level, and thus NZDF related Aircraft Operations would need to comply (although this is not explicitly stated in the wording of this standard NOISE-S9 as notified).</p> <p>Seeks an amendment to the activity standard NOISE-S9.2 to apply to all aircraft operations (including NZDF) as opposed to just WIAL.</p> <p>NZDF would be happy to undertake further discussion with WIAL.</p>	<p>Amend NOISE-S9.2 (Calculation and management of aircraft noise) as follows:</p> <p>...</p> <p>2. The Airport company (WIAL) shall ensure that all Aircraft Operations shall be managed so that the rolling day 90 day average 24 hour night-weighted sound exposure level does not exceed a Day/night Level (Ldn) of 65dBA outside the Air Noise Boundary shown within the District Plan Maps.</p>
Guardians of the Bays	452.54	General District wide Matters / Noise / NOISE-S9	Support	Supports NOISE-S9 (Calculations and management of aircraft noise).	Retain NOISE-S9 (Calculations and management of aircraft noise) as notified.
Yvonne Weeber	340.98	General District wide Matters / Noise / NOISE-S10	Support	NOISE-S10 is supported. Supports the standard and assessment criteria for engine testing noise.	Retain NOISE-S10 (Engine testing noise) with amendment.
Wellington International Airport Ltd	406.450	General District wide Matters / NOISE / NOISE-S10	Oppose	<p>Considers that it is inappropriate to replicate the aircraft noise management obligations inherent in Designation WIAL4 and WIAL5 in the Noise Chapter.</p> <p>[See paragraphs 4.62 to 4.75 of original submission for full reason]</p>	Delete NOISE-S10 (Engine testing noise) in it's entirety.

Yvonne Weeber	340.101	General District wide Matters / Noise / NOISE-S13	Support	NOISE-S13 is supported. Supports the standard for Airport East Side Precinct residential noise mitigation.	Retain NOISE-S13 (Airport East Side Precinct residential noise mitigation) with amendment.
Kāinga Ora Homes and Communities	391.302	General District wide Matters / Noise / NOISE-S13	Oppose in part	NOISE-S13 is opposed as dwellings identified in Attachment 2 of designation WIAL5 are not provided with acoustic insulation in accordance with NOISE-S4, despite being eligible for mechanical ventilation prior to construction activity in the East Precinct. Amendments may be necessary once further clarification and understanding is considered.	Opposes NOISE-S13 (Airport East Side Precinct residential noise mitigation) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Guardians of the Bays Inc	FS44.129	Part 2 / General District wide Matters / Noise / NOISE-S13	Support	Guardians of the Bays Inc agree that dwellings identified in NOISE-S13 (Airport East Side Precinct residential noise mitigation) should be eligible for mechanical ventilation prior to construction activity in the East Precinct are also provided with acoustic insulation in accordance with the standards identified in NOISES4.	Allow
The Retirement Villages Association of New Zealand Incorporated	FS126.132	Part 2 / General District wide Matters / Noise / NOISE-S13	Not specified	The RVA supports in part the various amendments and deletions sought in this submission where these align with The RVA's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within The RVA's primary submission.
Ryman Healthcare Limited	FS128.132	Part 2 / General District wide Matters / Noise / NOISE-S13	Not specified	Ryman supports in part the various amendments and deletions sought in this submission where these align with Ryman's primary submission and reduce restrictions on residential activities, which aligns with the purpose of the Enabling Housing Act and the NPSUD.	Amend / Allow the submission points, subject to the relief sought within Ryman's primary submission.
Kāinga Ora Homes and Communities	391.303	General District wide Matters / Noise / NOISE-S13	Amend	Considers that NOISE-S13 should be amended so that the dwellings identified in Attachment 2 of designation WIAL5 which are eligible for mechanical ventilation prior to construction activity in the East Precinct are also provided with acoustic insulation in accordance with the standards identified in NOISE-S4. The Quieter Homes Programme has a lesser standard of acoustic insulation, requiring they are designed to achieve an indoor design sound Level of 45 dB Ldn or less, whereas NOISE-S4 and NOISE-S5 require acoustic insulation to achieve a minimum external to internal noise reduction for habitable rooms of not less than 30 or 35 dB.	Amend NOISE-S13 (Airport East Side Precinct residential noise mitigation) so that the dwellings identified in Attachment 2 of designation WIAL5 which are eligible for mechanical ventilation prior to construction activity in the East Precinct are also provided with acoustic insulation in accordance with the standards identified in NOISE-S4.
Wellington International Airport Limited	FS36.170	Part 2 / General District wide Matters / Noise / NOISE-S13	Oppose	Considers that it is inappropriate for the Noise chapter to duplicate or introduce aircraft noise management and mitigation measures imposed on WIAL through the recently settled Main Site and East Side Area Designations. Furthermore, the Main Site and East Side Area Designations are not subject to amendment as part of the Proposed Plan review.	Disallow
Guardians of the Bays Inc	FS44.130	Part 2 / General District wide Matters / Noise / NOISE-S13	Support	Guardians of the Bays Inc agree that dwellings identified in NOISE-S13 (Airport East Side Precinct residential noise mitigation) should be eligible for mechanical ventilation prior to construction activity in the East Precinct are also provided with acoustic insulation in accordance with the standards identified in NOISES4. [Inferred reference to submission 391.303]	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Guardians of the Bays	452.58	General District wide Matters / Noise / NOISE-S13	Support	Supports NOISE-S13 (Airport East Side Precinct residential noise mitigation).	Retain NOISE-S13 (Airport East Side Precinct residential noise mitigation) as notified.
Yvonne Weeber	340.102	General District wide Matters / Noise / NOISE-S14	Support	NOISE-S14 is supported. Supports the standard and assessment criteria for Land based noise in the Airport Zone.	Retain NOISE-S14 (Land based noise) with amendment.
Wellington International Airport Ltd	406.454	General District wide Matters / NOISE / NOISE-S14	Oppose	Considers that it is inappropriate to replicate the aircraft noise management obligations inherent in Designation WIAL4 and WIAL5 in the Noise Chapter. Furthermore, there are a range of methods available which can demonstrate where standards are infringed. It is therefore inappropriate for the statement at the end of the assessment criteria, to include the level of specificity stated. It is also not clear what status (if any) this statement has. [See paragraphs 4.62 to 4.75 of original submission for full reason]	Opposes NOISE-S14 (Land based noise) and seeks amendment.
Guardians of the Bays Inc	FS44.118	Part 2 / General District wide Matters / NOISE / NOISE-S14	Oppose	Seeks that the noise management obligations of Wellington Airport should form part of the District Plan- Noise S3, S4, S5, S8, S10, S11, S12, S13, S14,S15 Noise-R13.	Disallow / Seeks that the submission points be disallowed or amended as to how designations be considered in the plan.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.145	Part 2 / General District wide Matters / NOISE / NOISE-S14	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.455	General District wide Matters / NOISE / NOISE-S14	Amend	Considers that it is inappropriate to replicate the aircraft noise management obligations inherent in Designation WIAL4 and WIAL5 in the Noise Chapter. Furthermore, there are a range of methods available which can demonstrate where standards are infringed. It is therefore inappropriate for the statement at the end of the assessment criteria, to include the level of specificity stated. It is also not clear what status (if any) this statement has. [See paragraphs 4.62 to 4.75 of original submission for full reason]	(Option A). Amend NOISE-S14 (Land based noise) as follows: 1. Noise emission levels from any activity within the Airport Zone designations , other than aircraft operations, engine testing and the operation of GPUs and APUs, when measured at any adjoining residential zone, shall not exceed the following limits: a. Monday to Saturday <u>Sunday</u> 7am to 10pm 55 dB LAeq(15min) b. At all other times 45 dB LAeq(15min) c. All days 10pm to 7am 75 dB LAFmax 2. In the East Side Precinct, for the purposes of calculating compliance with this limit, account shall be taken of the cumulative effect of all land based activities undertaken within the Airport <u>Zone</u> , other than aircraft operations, the operation of APUs and any engine testing. Assessment criteria where the standard is infringed: 1. Type, intensity and duration of the noise; 2. Number of annual occurrences; 3. Mitigation or management measures; 4. Health and safety; 5. Effects on internal and external noise amenity for dwellings outside the Airport zone; <u>and</u> 6. The requirements of NZS 6803:1999 Acoustics – Construction Noise.; <u>and</u> 7. The Airport Noise Management Plan. In assessing noise effects, data may be used from a continuous noise monitoring station established to confirm compliance and may also be obtained from other locations.
Guardians of the Bays Inc	FS44.119	Part 2 / General District wide Matters / NOISE / NOISE-S14	Oppose	Seeks that the noise management obligations of Wellington Airport should form part of the District Plan- Noise S3, S4, S5, S8, S10, S11, S12, S13, S14,S15 Noise-R13.	Disallow / Seeks that the submission points be disallowed or amended as to how designations be considered in the plan.

Paul Van Houtte	92.3	General District wide Matters / Signs / General SIGN	Amend	Considers that digitally internally illuminated signs for commercial purposes should not be permitted in Wellington or at least not visible from any road. They are distracting, compromise amenity values and are highly imposing as they are difficult to ignore.	Seeks that the SIGN (Signs) chapter be amended so that digitally internally illuminated signs for commercial purposes are not permitted in Wellington or at least not visible from any road.
Paul Van Houtte	92.4	General District wide Matters / Signs / General SIGN	Amend	Considers that commercial advertising and signs should be restricted from being located on any public transport, at any public transport infrastructure, because it is imposing due to necessary duration of exposure, compromising amenity values.	Seeks that the SIGN (Signs) chapter be amended to restrict commercial advertising/signs on public transport and public transport infrastructure.
Go Media Ltd	236.3	General District wide Matters / Signs / General SIGN	Amend	Considers that billboard advertising contributes to the commercial vitality of a community through supporting business, infrastructure and community activities, Considers that billboard advertising can enhance the character or areas, buildings and structures and provides a focal point, and adds vibrancy and interest. Considers that digital signage is now a widely acceptable form of advertising throughout New Zealand. [Refer to original submission for full reasons]	Seeks that the objectives, policies and rules applying to signage are based on evidence, effects and best practice.
Go Media Ltd	236.4	General District wide Matters / Signs / General SIGN	Not specified	Considers that the PDP treats static and digital billboards differently in provisions where they should be the same. Considers that there is insufficient evidence to differentiate between digital and static billboards.	Seeks that the objectives, policies and rules applying to signage treat digital and static signs the same. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Go Media Ltd	236.5	General District wide Matters / Signs / General SIGN	Support in part	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the PDP expressly recognise the positive effects of billboards, including digital advertising, and enable signage.
Go Media Ltd	236.6	General District wide Matters / Signs / General SIGN	Not specified	Considers that the current standards are excessively strict and are not commensurate with the safety and amenity effects of billboards.	Not specified.
Go Media Ltd	236.7	General District wide Matters / Signs / General SIGN	Amend	Considers that "Not compromised" and "Not detract" throughout the SIGNs chapter are not explained.	Seeks that wording used in provisions should be based on effects.
Go Media Ltd	236.8	General District wide Matters / Signs / General SIGN	Amend	Considers that "Visual Clutter" is not explained.	Seeks that the words "Visual Clutter" should be qualified by "Unacceptable" or "Adverse".
Go Media Ltd	236.9	General District wide Matters / Signs / General SIGN	Amend	Considers that the layout of the rules is difficult to use.	Seeks that formatting is amended to reduce moving backwards and forwards throughout the chapter and reduce table sizes.
Go Media Ltd	236.10	General District wide Matters / Signs / General SIGN	Oppose	Considers the provisions relating to signs visible from the state highway network are unreasonable and should be deleted. Refers to evidence set out in the Carriageway Letter (Attached to original submission).	Seeks that provisions relating to signage visibility from State Highways in the SIGN chapter are deleted.
Waka Kotahi NZ Transport Agency	FS103.39	Part 2 / General District wide Matters / Signs / General SIGN	Oppose	Waka Kotahi seeks to maintain the safe and efficient function of the state highway network, and is supportive of including specific mention of the state highway network within this chapter. It is important, especially on the state highways, to limit driver distraction & ensure a safe road environment as much as possible.	Disallow
Go Media Ltd	236.11	General District wide Matters / Signs / General SIGN	Support	Considers that the protection of heritage must be appropriately balanced against contemporary activities and that it has been demonstrated that billboard signage can integrate with heritage buildings and environments. Supports restricted discretionary activity status for signs that do not meet the permitted activity standards in heritage areas.	Not specified.
Go Media Ltd	236.12	General District wide Matters / Signs / General SIGN	Not specified	Considers that the PDP fails to meet the requirements of s32 of the Resource Management Act by failing to adequately consider the costs of provisions relating to billboards. Providing more adequately for billboards will ensure that the PDP achieves the integrated management of the effects of use and development of land and associated natural and physical resources of Wellington City as required by section 31 of the RMA, assists the Council to carry out its statutory functions in order to achieve the purpose of the RMA, and promotes the sustainable management of natural and physical resources, and is therefore in accordance with Part 2 of the RMA.	Not specified.
Wellington City Council	266.127	General District wide Matters / Signs / General SIGN	Amend	Considers amendment to introduction is necessary to cover signage for local body election hoarding.	Amend the last sentence paragraph 1 of the introduction to the Signs chapter as follows: <u>Hoarding signs for local or central government elections</u> Electoral signs are exempt from these rules and are managed under the Electoral Act 1993, the Local Electoral Act 2001 and the Council's <u>Election Hoarding Guideline</u> .
Out of Home Media Association of Aotearoa	284.1	General District wide Matters / Signs / General SIGN	Support	Supports the recognition of the importance of signage and third party signs (billboards) for their role in providing information, messaging and advertising. The submitter supports these provisions because the submitter considers that they will: -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means.	Seeks to retain provisions that support the importance of signage and third party signs (billboards) for their role in providing information, messaging and advertising. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Out of Home Media Association of Aotearoa	284.2	General District wide Matters / Signs / General SIGN	Support	Supports the provision of a single chapter within the Proposed Plan which contains the provisions for signs (as opposed to incorporating provisions for signs within each zone chapter). The submitter supports these provisions because the submitter considers that they will: -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means.	Seeks to retain the use of a standalone Signs chapter within the Proposed District Plan. [Inferred decision requested]
Out of Home Media Association of Aotearoa	284.3	General District wide Matters / Signs / General SIGN	Support	Supports the recognition of the nature of effects of signs that need to be addressed by objectives and policies. The submitter supports these provisions because the submitter considers that they will: -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means.	Seeks to retain objectives within the Signs chapter that address and recognise the nature of effects of signs. [Inferred decision requested]
Out of Home Media Association of Aotearoa	284.4	General District wide Matters / Signs / General SIGN	Support	Supports the recognition of the nature of effects of signs that need to be addressed by objectives and policies. The submitter supports these provisions because the submitter considers that they will: -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means.	Seeks to retain policies within the Signs chapter that address and recognise the nature of effects of signs [Inferred decision requested]
Out of Home Media Association of Aotearoa	284.5	General District wide Matters / Signs / General SIGN	Support	Supports the incorporation of those 'standards' which generally reflect current industry practice. The submitter supports these provisions because the submitter considers that they will: -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means.	Not specified.
Out of Home Media Association of Aotearoa	284.6	General District wide Matters / Signs / General SIGN	Support	Supports the incorporation of appropriate matters of discretion for restricted discretionary activities which limit consideration to visual amenity, the integration of signs with buildings, traffic, pedestrian and cyclist safety, functional and operational requirements of activities and signs, and positive effects of signs. The submitter supports these provisions because the submitter considers that they will: -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means.	Retain matters of discretion within the Signs chapter restricted discretionary activity rules that limit consideration to visual amenity, the integration of signs with buildings, traffic, pedestrian and cyclist safety, functional and operational requirements of activities and signs, and positive effects of signs. [inferred decision requested]
Out of Home Media Association of Aotearoa	284.7	General District wide Matters / Signs / General SIGN	Oppose	Opposes the onerous nature of certain standards that apply to third party signs and digital signs. The submitter opposes these provisions because the submitter considers that they will not: -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Out of Home Media Association of Aotearoa	284.8	General District wide Matters / Signs / General SIGN	Amend	Opposes inclusion of the Signs Design Guide and requests that where necessary appropriate matters of discretion and assessment criteria are developed to provide a clear framework for the assessment of signs which require a resource consent.	Seeks that appropriate matters of discretion and assessment criteria are developed and included in the SIGNS chapter to provide a clear framework for the assessment of signs which require a resource consent.
Lumo Digital Outdoor Limited	285.1	General District wide Matters / Signs / General SIGN	Support	Supports the recognition of the importance of signage and third party signs (billboards) for their role in providing information, messaging and advertising. The submitter supports these provisions because the submitter considers that they will: -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means.	Seeks to retain provisions that support the importance of signage and third party signs (billboards) for their role in providing information, messaging and advertising. [inferred decision requested]
Lumo Digital Outdoor Limited	285.2	General District wide Matters / Signs / General SIGN	Support	Supports the provision of a single chapter within the Proposed Plan which contains the provisions for signs (as opposed to incorporating provisions for signs within each zone chapter). The submitter supports these provisions because the submitter considers that they will: -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means.	Seeks to retain the use of a standalone Signs chapter within the Proposed District Plan. [Inferred decision requested]
Lumo Digital Outdoor Limited	285.3	General District wide Matters / Signs / General SIGN	Support	Supports the recognition of the nature of effects of signs that need to be addressed by objectives and policies. The submitter supports these provisions because the submitter considers that they will: -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means.	Seeks to retain objectives within the Signs chapter that address and recognise the nature of effects of signs. [Inferred decision requested]
Lumo Digital Outdoor Limited	285.4	General District wide Matters / Signs / General SIGN	Support	Supports the recognition of the nature of effects of signs that need to be addressed by objectives and policies. The submitter supports these provisions because the submitter considers that they will: -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means.	Seeks to retain policies within the Signs chapter that address and recognise the nature of effects of signs. [Inferred decision requested]
Lumo Digital Outdoor Limited	285.5	General District wide Matters / Signs / General SIGN	Support	Supports the incorporation of those 'standards' which generally reflect current industry practice. The submitter supports these provisions because the submitter considers that they will: -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Lumo Digital Outdoor Limited	285.6	General District wide Matters / Signs / General SIGN	Support	<p>Supports the incorporation of appropriate matters of discretion for restricted discretionary activities which limit consideration to visual amenity, the integration of signs with buildings, traffic, pedestrian and cyclist safety, functional and operational requirements of activities and signs, and positive effects of signs.</p> <p>The submitter supports these provisions because the submitter considers that they will:</p> <ul style="list-style-type: none"> -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means. 	<p>Retain matters of discretion within the Signs chapter restricted discretionary activity rules that limit consideration to visual amenity, the integration of signs with buildings, traffic, pedestrian and cyclist safety, functional and operational requirements of activities and signs, and positive effects of signs.</p> <p>[inferred decision requested]</p>
Lumo Digital Outdoor Limited	285.7	General District wide Matters / Signs / General SIGN	Oppose	<p>Opposes the onerous nature of certain standards that apply to third party signs and digital signs. The submitter opposes these provisions because the submitter considers that they will not:</p> <ul style="list-style-type: none"> -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means. 	Not specified.
Lumo Digital Outdoor Limited	285.8	General District wide Matters / Signs / General SIGN	Amend	<p>Opposes inclusion of the Signs Design Guide and requests that where necessary appropriate matters of discretion and assessment criteria are developed to provide a clear framework for the assessment of signs which require a resource consent.</p>	<p>Seeks that appropriate matters of discretion and assessment criteria are developed and included in the SIGNS chapter to provide a clear framework for the assessment of signs which require a resource consent.</p>
oOh!Media Street Furniture New Zealand Limited	316.3	General District wide Matters / Signs / General SIGN	Amend	<p>Considers that the introduction of the Signs chapter should be amended to reference the Public Places Bylaw 2022 and to confirm that the Council's approval is required in all instances for signs in the road reserve. The Introduction refers to the Wellington Consolidated Bylaw 2008, which was replaced on 25 August 2022 by the Public Places Bylaw 2022. It is submitted that the Introduction needs to be amended to correct this discrepancy, and to confirm that the Council's approval is required for all signs in the road reserve (regardless of the provisions of the Proposed Plan).</p>	<p>Amend the Introduction to the Signs chapter as follows:</p> <p>...</p> <p>If not managed appropriately, signs have the potential to result in adverse environmental effects including visual clutter, degradation of heritage features, and erosion of the amenity of the local and wider environment.</p> <p>The definition of a sign in this plan is limited to signs that are projected onto, or fixed or attached to, any structure or natural object such as buildings. Portable signs in the form of a board on Council-owned land are managed under the Wellington Consolidated Bylaw 2008. Under this bylaw, written approval is required for signage in public places. Some signs are subject to the Public Places Bylaw 2022. Notwithstanding any rules for signs in public places or within the road reserve, all signs placed in the road reserve will require the prior approval of Wellington City Council, or the approval or Waka Kotahi in respect of signs placed in the state highway network.</p>
Woolworths New Zealand	359.36	General District wide Matters / Signs / General SIGN	Support in part	<p>The general approach to signage in the PDP is supported, including an appropriate restricted discretionary activity status where standards are infringed. Signage is an important component of commercial activity, to raise brand awareness, consistency and legibility in an urban environment. The restricted discretionary activity status where signage is proposed that infringes the limits in any zone is supported, so long as the matters of discretion that apply are relevant and truly restricted in nature.</p>	Retain the Sign chapter, with amendment.
Woolworths New Zealand	359.37	General District wide Matters / Signs / General SIGN	Amend	<p>Considers that the permitted area and thresholds for signage in certain commercial zones should be amended, specifically in respect to free-standing signage which is more restrictive than the Operative Plan in terms of height. Signage should be considered acceptable in commercial zones in principle, with some limitation on size and location where it may adversely affect sensitive areas, including heritage, character or residential areas. Specific amendments are requested in this submission.</p>	<p>Amend the Sign chapter to be less restrictive in respect to free-standing signage in certain commercial zones.</p> <p>[Refer to original submission]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.38	General District wide Matters / Signs / General SIGN	Amend	Considers that assessment of signage in commercial zones needs to consider the importance of corporate branding for consistency and coherence and ensure that consideration sits alongside the urban design aspirations of the PDP. It is critical for their success that businesses are able to be instantly recognisable for customers and not "watered down" to achieve an identified character or palettes.	Seeks that signage assessments consider the importance of corporate branding for consistency and coherence and ensure that consideration sits alongside the urban design aspirations of the PDP
Waka Kotahi	370.233	General District wide Matters / Signs / General SIGN	Support in part	The submitter is generally happy with the direction of the chapter, particularly with specific provisions on digital billboards, and the consideration of effects (including cumulative) on road safety in general. This chapter as notified will encourage signs in suitable and safe locations, while restricting those that are inappropriate or may have adverse safety effects. Waka Kotahi interprets the rule table such that a third-party advertising digital sign will require consent (or to comply with) SIGN-R4 and SIGN-R5, but would suggest that the links are made more clear.	Retain the Signs chapter, subject to amendments.
Lumo Digital Outdoor Limited	FS124.1	Part 2 / General District wide Matters / Signs / General SIGN	Oppose	In general terms, Lumo considers that the amendments sought by the submitter are inappropriate and will result in unnecessary and onerous provisions for signs, billboards and digital signs/billboards that are visible from a state highway. Lumo opposes the amendments that are sought by the submitter, except where otherwise specified in further submissions.	Disallow
Out Of Home Media Association of Aotearoa (OOHMAA)	FS125.1	Part 2 / General District wide Matters / Signs / General SIGN	Oppose	In general terms, OOHMAA considers that the amendments sought by the submitter are inappropriate and will result in unnecessary and onerous provisions for signs, billboards and digital signs/billboards that are visible from a state highway. OOHMAA opposes the amendments that are sought by the submitter, except where otherwise specified in further submissions.	Disallow
Waka Kotahi	370.234	General District wide Matters / Signs / General SIGN	Amend	It is considered that links between the Rule table and Sign Rules could be made clearer. The rule table is interpreted such that a third-party advertising digital sign will require consent (or to comply with) SIGN-R4 and SIGN-R5, but it is suggested that the links are made more clear.	Seeks to amend the Rule table in the Signs chapter to ensure the links between the table and Rules are clear.
Taranaki Whānui ki te Upoko o te Ika	389.87	General District wide Matters / Signs / General SIGN	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that within the 'Other relevant District Plan provisions' that Sites and Areas of Significance to Māori chapter is included.
Wellington International Airport Ltd	406.460	General District wide Matters / SIGNS / General SIGN	Amend	Signage is an important and commonly found feature within any airport environment. It assists with both airside and landside airport operations, and assists with the safe and efficient movement of people, aircraft and traffic through the airport's airside and landside facilities. Signage also provides an opportunity to showcase the activities or services on offer within the district and region, which has both social and economic benefits for the wider community. Considers that it is important that the Proposed Plan recognises and provides for signage within the airport environment.	Seeks that the SIGN chapter recognises and provides for signage in the Airport Environment.
Wellington International Airport Ltd	406.461	General District wide Matters / SIGNS / General SIGN	Support	Supports provisions within the SIGN chapter that require consideration of potential effects of signage on the safety of aircraft.	Retain, insofar as it relates to effects of signage on aircraft safety, SIGN chapter as notified.
Kay Larsen	447.8	General District wide Matters / Signs / General SIGN	Amend	Considers that digital billboards can be consented to change their image every 9 - 90 seconds, never turned off and there are many in central city area. These use fossil fuels to generate electricity for their power which warms the planet. There is no justification for them. Revenue from Billboards does not outweigh negative impacts. Considers that it was good that Prime Property Group were denied 2 Billboards. Supports more regulation for billboards. [See original submission for full reason]	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kay Larsen	447.9	General District wide Matters / Signs / General SIGN	Amend	<p>Considers that digital billboards can be consented to change their image every 9 - 90 seconds, never turned off and there are many in central city area. Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Out of Home Media Association of Aotearoa	284.9	General District wide Matters / Signs / New SIGN	Amend	<p>Opposes the lack of a permitted activity status for digital signs which are designed and operated to comply with relevant standards. The submitter opposes these provisions because the submitter considers that they will not:</p> <ul style="list-style-type: none"> -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means. 	<p>Seeks that a Permitted activity rule be added to SIGN-R5 (Digital signs) to enable digital signs which are design and operated to comply with relevant standards to be a permitted activity.</p> <p>[Inferred decision requested].</p>
Lumo Digital Outdoor Limited	285.9	General District wide Matters / Signs / New SIGN	Amend	<p>Opposes the lack of a permitted activity status for digital signs which are designed and operated to comply with relevant standards. The submitter opposes these provisions because the submitter considers that they will not:</p> <ul style="list-style-type: none"> -Promote the sustainable management of resources and achieve the purpose of the RMA; -Enable the social, economic and cultural well-being of the community in the Wellington District, particularly in terms of assisting the retention and generation of employment; and -Represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means. 	<p>Seeks that a Permitted activity rule be added to SIGN-R5 (Digital signs) to enable digital signs which are design and operated to comply with relevant standards to be a permitted activity.</p> <p>[Inferred decision requested].</p>
oOh!Media Street Furniture New Zealand Limited	316.4	General District wide Matters / Signs / New SIGN	Amend	<p>Considers that a new policy should be added to the Signs chapter new policy for 'signs integrated with buildings and structures in the road reserve'. Advertising signs in transport shelters and other buildings and structures in the road reserve are subject to the same provisions as signs on private properties, which is considered impractical. A number of these standards are not readily relevant or practicable for the design and operation of signs within the road reserve.</p> <p>It is considered more practical, efficient and cost-effective to have specific provisions for signs which are integrated with buildings and structures within the road reserve (including a specific set of policies, rules and standards). As with the shelter infrastructure, the design and operation of signs within the road reserve is most effectively managed by the Council (as the road controlling authority) in conjunction with its commercial partners and contractors.</p> <p>This approach would be consistent with the manner in which road based infrastructure and advertising signs are managed in Auckland, under the Unitary Plan. The plan classifies billboards on street furniture as a permitted activity, with this status being subject to compliance with a particular set of standards. [Refer to original submission for full reason]</p>	<p>Add a new Policy in the Signs chapter as follows:</p> <p><u>SIGN-PX Signs that are integrated with buildings and structures in the road reserve, except signs on building verandahs</u></p> <p><u>Enable signs where they are an integrated component of buildings and structures in the road reserve, including ancillary road network infrastructure.</u></p>
Waka Kotahi NZ Transport Agency	FS103.40	Part 2 / General District wide Matters / Signs / New SIGN	Oppose	<p>Waka Kotahi seeks to maintain the safe and efficient function of the state highway network, and considers it appropriate that digital billboards require consent due to the potential for driver distraction and effects on road safety.</p>	<p>Disallow</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
oOh!Media Street Furniture New Zealand Limited	316.5	General District wide Matters / Signs / New SIGN	Amend	<p>Considers that a new rule should be added to the Signs chapter for 'signs that are integrated with buildings and structures in the road reserve'. Advertising signs in transport shelters and other buildings and structures in the road reserve are subject to the same provisions as signs on private properties, which is considered impractical. A number of these standards are not readily relevant or practicable for the design and operation of signs within the road reserve.</p> <p>It is considered more practical, efficient and cost-effective to have specific provisions for signs which are integrated with buildings and structures within the road reserve (including a specific set of policies, rules and standards). As with the shelter infrastructure, the design and operation of signs within the road reserve is most effectively managed by the Council (as the road controlling authority) in conjunction with its commercial partners and contractors.</p> <p>This approach would be consistent with consistent with the manner in which road based infrastructure and advertising signs are managed in Auckland, under the Unitary Plan. The plan classifies billboards on street furniture as a permitted activity, with this status being subject to compliance with a particular set of standards. [Refer to original submission for full reason]</p>	<p>Add a new Rule in the Signs chapter as follows:</p> <p><u>SIGN-RX Signs that are integrated with ancillary road network infrastructure, except signs on building verandahs</u></p> <p><u>All Zones</u> <u>1. Activity status: Permitted</u> <u>Where:</u> <u>a. Compliance with the following standards is achieved:</u> <u>i. SIGN-SX</u></p> <p><u>All Zones</u> <u>2. Activity status: Restricted Discretionary</u> <u>Where:</u> <u>a. Compliance with the Requirements of SIGN-RX.1 cannot be achieved.</u></p> <p><u>Matters of discretion are:</u> <u>1. The matters in SIGN-PX; and</u> <u>2. The extent and effect of non-compliance with any relevant standard and the matters as specified in the associated assessment criteria for the infringed standards.</u></p>
Waka Kotahi NZ Transport Agency	FS103.41	Part 2 / General District wide Matters / Signs / New SIGN	Oppose	<p>Waka Kotahi seeks to maintain the safe and efficient function of the state highway network, and considers it appropriate that digital billboards require consent due to the potential for driver distraction and effects on road safety.</p>	Disallow
oOh!Media Street Furniture New Zealand Limited	316.6	General District wide Matters / Signs / New SIGN	Amend	<p>Considers that a new standard should be added to the Signs chapter to relate to signs that are integrated with buildings and structures that are within the road reserve. Advertising signs in transport shelters and other buildings and structures in the road reserve are subject to the same provisions as signs on private properties, which is considered impractical. A number of these standards are not readily relevant or practicable for the design and operation of signs within the road reserve.</p> <p>It is considered more practical, efficient and cost-effective to have specific provisions for signs which are integrated with buildings and structures within the road reserve (including a specific set of policies, rules and standards). As with the shelter infrastructure, the design and operation of signs within the road reserve is most effectively managed by the Council (as the road controlling authority) in conjunction with its commercial partners and contractors.</p> <p>This approach would be consistent with consistent with the manner in which road based infrastructure and advertising signs are managed in Auckland, under the Unitary Plan. The plan classifies billboards on street furniture as a permitted activity, with this status being subject to compliance with a particular set of standards. [Refer to original submission for full reason]</p>	<p>Add a new Standard in the Signs chapter as follows:</p> <p><u>SIGN-SX Signs that are integrated with buildings and structures in the road reserve, except building verandahs</u></p> <p><u>Road Reserve (All Zones)</u> <u>For the avoidance of doubt, the standards in SIGN-S1 to SIGN-S14 do not apply to signs that are integrated with ancillary road network infrastructure, except where specifically stated otherwise below. These standards do not apply to signs on building verandahs, which are subject to the standards in SIGN-S1 to SIGN-S14.</u></p> <p><u>1. Signs must not be located within 30m of a scheduled Historic Heritage Place.</u> <u>2. Signs must be no larger than the street furniture it is attached to.</u> <u>3. Signs which are lit internally or by external means (but excluding digital signs) must comply with Standard SIGN-S9.</u> <u>4. The illumination of digital signs must comply with Standard SIGN-S8.4.</u> <u>5. The sign must not contain any flashing or moving lights.</u> <u>6. Signs must not be shaped or use images or colours, including changeable messages, that could be mistaken for a traffic control device in colour, shape or appearance.</u> <u>7. Signs must not obstruct, obscure or impair the view of any traffic or railway sign or signal.</u> <u>8. Digital signs must not provide advertising over multiple messages which are displayed across transitioning screens.</u> <u>9. In the event of a malfunction, a digital sign shall default to a blank screen.</u> <u>10. Each image on a digital sign must:</u> <u>a. Be displayed for a minimum of 8 seconds;</u> <u>b. Transition to another image within 0.1 to 0.5 seconds;</u> <u>c. Transition to another image without flashing, blinking, fading or scrolling.</u></p>

Waka Kotahi NZ Transport Agency	FS103.42	Part 2 / General District wide Matters / Signs / New SIGN	Oppose	Waka Kotahi seeks to maintain the safe and efficient function of the state highway network, and considers it appropriate that digital billboards require consent due to the potential for driver distraction and effects on road safety.	Disallow
oOh!Media Street Furniture New Zealand Limited	316.7	General District wide Matters / Signs / New SIGN	Amend	<p>Considers that a new assessment criteria should be added to the new standard in the Signs chapter to relate to signs that are integrated with buildings and structures that are within the road reserve. Advertising signs in transport shelters and other buildings and structures in the road reserve are subject to the same provisions as signs on private properties, which is considered impractical. A number of these standards are not readily relevant or practicable for the design and operation of signs within the road reserve.</p> <p>It is considered more practical, efficient and cost-effective to have specific provisions for signs which are integrated with buildings and structures within the road reserve (including a specific set of policies, rules and standards). As with the shelter infrastructure, the design and operation of signs within the road reserve is most effectively managed by the Council (as the road controlling authority) in conjunction with its commercial partners and contractors.</p> <p>This approach would be consistent with consistent with the manner in which road based infrastructure and advertising signs are managed in Auckland, under the Unitary Plan. The plan classifies billboards on street furniture as a permitted activity, with this status being subject to compliance with a particular set of standards. [Refer to original submission for full reason]</p>	<p>Add a new Assessment Criteria for the new Standard in the Signs chapter as follows:</p> <p><u>Assessment criteria where Standard SIGN-SX.1. is infringed:</u></p> <ol style="list-style-type: none"> <u>1. The extent to which the sign adversely affects the visual amenity or detracts from the visual qualities that are fundamental to the historic heritage values of the scheduled historic heritage place; and</u> <u>2. The extent to which the location of the sign is necessary to provide for functional or operational needs, including the relationship of the sign to road network features such as bus stops or pedestrian thoroughfares or waiting areas;</u> <p><u>Assessment criteria where Standard SIGN-SX.2 to SIGN-SX.8 are infringed:</u></p> <ol style="list-style-type: none"> <u>1. Visual amenity effects;</u> <p><u>Add a new Standard in the Signs chapter as follows:</u></p> <ol style="list-style-type: none"> <u>2. The impact of the sign on traffic, pedestrian and cycling safety;</u> <u>3. The extent to which any infringement is necessary to provide for functional needs or operational needs; and</u> <u>4. Any positive effects of the sign.</u>
Waka Kotahi NZ Transport Agency	FS103.43	Part 2 / General District wide Matters / Signs / New SIGN	Oppose	Waka Kotahi seeks to maintain the safe and efficient function of the state highway network, and considers it appropriate that digital billboards require consent due to the potential for driver distraction and effects on road safety.	Disallow
Waka Kotahi	370.235	General District wide Matters / Signs / New SIGN	Amend	The direction to avoid any digital billboards that are oriented to be read from state highway is supported. The submitter considers that a new NC rule should be added for any digital billboard oriented to be read from state highway, or within 100m of a state highway intersection, is included to support this. To ensure that the public are aware of their consent requirements, it is recommended that a note is added to clarify that digital signage also needs to comply with all other relevant SIGN rules	<p>Add a new Activity status to SIGN-R5 (Digital signs) as follows:</p> <p><u>SIGN-R5.4</u></p> <p><u>Activity status: Non-complying</u></p> <p><u>Where:</u></p> <p><u>a. A digital billboard is oriented to be read from state highway, including on-ramps and off-ramps, or 100m from any intersection with state highway .</u></p> <p><u>Note: Digital signs must also comply with or apply for consent under any other relevant rule in the activity table – e.g R4 and R5 apply to digital third party signs.</u></p>
Lumo Digital Outdoor Limited	FS124.2	Part 2 / General District wide Matters / Signs / New SIGN	Oppose	As set out in Lumo’s primary submission, Lumo does not support a ‘blanket’ approach to digital or illuminated signs which are visible from a state highway. Such an approach is unnecessarily onerous, as there are no inherent differences between local roads and state highways which would otherwise result in digital or illuminated signs being unacceptable. Rather, consistent with the “management” approach of the proposed objective, it is appropriate that the policy seeks to ensure that digital and illuminated signs do not compromise the safety of the transport network.	Disallow
Out Of Home Media Association of Aotearoa (OOHMAA)	FS125.2	Part 2 / General District wide Matters / Signs / New SIGN	Oppose	As set out in OOHMAA’s primary submission, OOHMAA does not support a ‘blanket’ approach to digital or illuminated signs which are visible from a state highway. Such an approach is unnecessarily onerous, as there are no inherent differences between local roads and state highways which would otherwise result in digital or illuminated signs being unacceptable. Rather, consistent with the “management” approach of the proposed objective, it is appropriate that the policy seeks to ensure that digital and illuminated signs do not compromise the safety of the transport network.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.463	General District wide Matters / SIGNS / SIGN-P1	Oppose	As drafted, the use of the term "and" between each paragraph sets an unduly onerous and high bar for signage to be considered "appropriate". For example, if a sign must be required to meet regulatory or statutory requirements due to use, a very narrow scope of signage would only be permitted (i.e. "official" signage such as road signs, health and safety signs etc).	Opposes SIGN-P1 (Appropriate Signs) and seeks amendment.
Wellington International Airport Ltd	406.464	General District wide Matters / SIGNS / SIGN-P1	Amend	As drafted, the use of the term "and" between each paragraph sets an unduly onerous and high bar for signage to be considered "appropriate". For example, if a sign must be required to meet regulatory or statutory requirements due to use, a very narrow scope of signage would only be permitted (i.e. "official" signage such as road signs, health and safety signs etc).	Amend SIGN-P1 (Appropriate Signs) as follows: Allow signs where: 1. They are of an appropriate size, design and location; and or 2. They do not result in visual clutter; and or 3. Any potential cumulative effects are managed; and 4.3. They are required to meet regulatory or statutory requirements; and 5.4. Any potential cumulative effects are managed; and 6.5. They do not compromise the efficiency of the transport network or the safety of its users, including cyclists and pedestrians; and 7.6. In the Residential, Rural and Open Space Zones, they relate to an activity on the site on which they are located; and 8.7. They maintain the character and amenity values of the site and <u>do not significant detract from the surrounding area.</u>
Paul Van Houtte	92.6	General District wide Matters / Signs / SIGN-P2	Amend	Considers that digitally internally illuminated signs for commercial purposes should not be permitted in Wellington or at least not visible from any road. They are distracting, compromise amenity values and are highly imposing as they are difficult to ignore.	Seeks that digital signs are not provided for within SIGN-P2 (Digital and Illuminated Signs). [inferred decision requested]
Go Media Ltd	236.16	General District wide Matters / Signs / SIGN-P2	Not specified	Considers that Policy SIGN-P2(5) creates a blanket policy against signs visible from a State Highway. State Highway 1 runs through urban areas with 50mk/h speed limits, such as along Vivian Street. There is no evidence base as to why billboards should not be situated in such areas when there are no policies against billboards along other 50km/h roads.	Not specified.
Go Media Ltd	236.17	General District wide Matters / Signs / SIGN-P2	Oppose	Opposes that the term "Visible" is not defined in SIGN-P2 and is open to interpretation.	Clarify the meaning of "Not visible" in SIGN-P2.5 (Digital and Illuminated Signs).
Out of Home Media Association of Aotearoa	284.14	General District wide Matters / Signs / SIGN-P2	Support in part	Supports SIGN-P2 in part. Supports the intent of SIGN-P2 which is to provide for digital and illuminated signs where the particular effects of such signs are appropriately managed.	Retain SIGN-P2 (Digital and illuminated signs), with amendment.
Out of Home Media Association of Aotearoa	284.15	General District wide Matters / Signs / SIGN-P2	Oppose in part	Opposes the proposed 'blanket' approach to digital or illuminated signs that are visible from a state highway. Considers that as currently worded, SIGN-P2 has the outcome of not allowing digital and illuminated signs where they are visible from the State Highway. In the context of Wellington, the submitter considers that this will preclude a significant amount of business-zoned land from establishing digital and illuminated signs. The submitter considers that such an approach is unnecessarily onerous. The submitter considers that there are no inherent differences between local roads and state highways which would otherwise result in digital or illuminated signs being unacceptable. Rather, consistent with the "management" approach of the proposed objective, the submitter considers that it is appropriate that the policy seeks to ensure that digital and illuminated signs do not compromise the safety of the transport network.	Retain SIGN-P2 (Digital and illuminated signs), with amendment.

The sign is not visible from a state highway.
Restaurant Brands Limited	349.37	General District wide Matters / Signs / SIGN-P2	Support	Support	Retain SIGN-P2 (Digital and illuminated signs) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Limited	FS36.171	Part 2 / General District wide Matters / Signs / SIGN-P2	Oppose	WIAL opposes the relief sought as it is inconsistent with WIAL's primary submission.	Disallow
Josephine Brien / Tim Bollinger	365.2	General District wide Matters / Signs / SIGN-P2	Support	Supports the policy on Digital and illuminated signs that provides for the sign not to "compromise traffic, pedestrian or cycle safety", not include "any light spill or glare effects...(or) compromise amenity values" and "The sign is not visible from a state highway". As State Highway 1 through Vivian Street appears to be a prime location for such signage, with a principal audience of drivers, the policy appears to be consistent with their immediate removal.	Retain SIGN-P2 (Digital and illuminated signs) as notified.
Waka Kotahi	370.237	General District wide Matters / Signs / SIGN-P2	Amend	Considers that the wording be amended to consider effects that are particularly significant with the nature of digital billboards – being the cumulative effects of multiple digital billboards in proximity to each other and Waka Kotahi suggests they are not provided for in any high speed environments (70km/h or higher) as overseas research has found a statistically significant increase in injury crashes in high speed areas.	Amend SIGN-P2 (Digital and illuminated signs) as follows: ... 6. The sign is not visible from a state highway or any road with a speed limit of 70km/h or higher; and 7. Cumulative effects of digital billboards are managed.
Lumo Digital Outdoor Limited	FS124.4	Part 2 / General District wide Matters / Signs / SIGN-P2	Oppose	Lumo opposes the blanket approach to applying different and more onerous provisions for signs and billboards that are visible from a state highway or roads with a speed limit of 70km/h or higher. Lumo also does not agree that SIGN-P2 needs to be amended to address cumulative effects, as such effects are addressed by Policy SIGN-P1 (subject to the amendments sought by Lumo in its primary submission).	Disallow
Out Of Home Media Association of Aotearoa (OOHMAA)	FS125.4	Part 2 / General District wide Matters / Signs / SIGN-P2	Oppose	OOHMAA opposes the blanket approach to applying different and more onerous provisions for signs and billboards that are visible from a state highway or roads with a speed limit of 70km/h or higher. OOHMAA also does not agree that SIGN-P2 needs to be amended to address cumulative effects, as such effects are addressed by Policy SIGN-P1 (subject to the amendments sought by OOHMAA in its primary submission).	Disallow
Go Media Ltd	236.18	General District wide Matters / Signs / SIGN-P3	Support	Supports the recognition of the benefits of allowing additional signage to support sustainable long-term use of heritage sites.	Retain SIGN-P3.2 (Signs and Historic Heritage) as notified.
Wellington City Council	266.128	General District wide Matters / Signs / SIGN-P3	Amend	Considers the wording between SIGN-P3 (Signs and historic heritage) and SIGN-R3 (does not match). Considers SIGN-P3 should be amended to state the full name of the Heritage Design Guide. Refer to SIGN-R6 which is for signs on heritage buildings and refers to the Heritage Design Guide.	Amend SIGN-P3.1.f as follows: ... f. The sign fulfils the intent of the Heritage <u>Design Guide</u> and Signs Design Guides.
Restaurant Brands Limited	349.38	General District wide Matters / Signs / SIGN-P3	Oppose	Oppose Restaurant Brands is opposed to the cross reference to the Signs Design Guide within the Policy. The Design Guide does not appropriately recognise or provide for the requirements of activities. The Design Guide reads as a set of rules to be complied with, rather than guidelines to inform the assessment of applications for resource consent and will result in an unnecessarily onerous and unreasonable resource consent process. The Design Guide imposes certain outcomes that are required to be achieved in every circumstances and results in a "pass/fail" assessment being applied, resulting in an unnecessarily onerous and unreasonable resource consent process.	Amend SIGN-P3 (signs and historic heritage) as follows: ... 1. The extent to which: ... f. The sign fulfils the intent of the Heritage and Signs Design Guides. ...
Wellington International Airport Ltd	406.465	General District wide Matters / SIGNS / SIGN-P3	Oppose in part	Opposes policy. [See paragraphs 4.103 to 4.106 of original submission for full reason]	Opposes SIGN-P3 (Digital and illuminated signs) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.466	General District wide Matters / SIGNS / SIGN-P3	Amend	Opposes policy. [See paragraphs 4.103 to 4.106 of original submission for full reason]	Amend SIGN-P3 (Digital and illuminated signs) as follows: Digital and illuminated signs Provide for digital and illuminated signs where: ... 5. The sign is not <u>directed at users of the</u> visible from a state highway. (Option A).
Wellington International Airport Ltd	406.467	General District wide Matters / SIGNS / SIGN-P3	Oppose in part	Opposes policy. [See paragraphs 4.103 to 4.106 of original submission for full reason]	Delete SIGN-P3 (Digital and illuminated signs) in its entirety. (Option B).
KiwiRail Holdings Limited	408.114	General District wide Matters / Signs / SIGN-P3	Support	Supports policy which allows signs that do not compromise the efficiency of the transport network, or the safety of its users. Signs located on sites adjoining the transport network have a potential to impact on the safe and efficient operation of the network.	Retain SIGN-P3 (Signs and historic heritage) as notified.
Wellington Heritage Professionals	412.66	General District wide Matters / Signs / SIGN-P3	Amend	Considers that the rate of change should be a matter of discretion when assessing digital signage believing that frequent and rapid change (minimal transitions) draws the eye and has the potential to detract from heritage buildings, structures and areas.	Amend SIGN-P3 (Signs and historic heritage) as follows: Enable signs on heritage buildings, heritage structures and within their sites, and within heritage areas to support wayfinding and interpretation and only allow signs for other purposes where they do not detract from the identified heritage values, having regard to: 1. The extent to which: <u>a. The rate of change and transition between content on digital signs adversely affects heritage values</u> a- b. Damage to heritage fabric, from methods of fixing, including supporting structures, cabling or wiring is minimized or is reasonably reversible;
Wellington Heritage Professionals	412.67	General District wide Matters / Signs / SIGN-P3	Amend	Considers that considering the benefits of additional signage to support sustainable long-term use, should be removed as this may lead to the proliferation of additional signage and should be removed.	Amend SIGN-P3 (Signs and historic heritage) as follows: Enable signs on heritage buildings, heritage structures and within their sites, and within heritage areas to support wayfinding and interpretation and only allow signs for other purposes where they do not detract from the identified heritage values, having regard to: 1. The extent to which: 2. The benefits of allowing additional signage to support sustainable long term use.
Restaurant Brands Limited	349.39	General District wide Matters / Signs / SIGN-P4	Oppose	Restaurant Brands is opposed to the cross reference to the Signs Design Guide within the Policy. The Design Guide does not appropriately recognise or provide for the requirements of activities. The Design Guide reads as a set of rules to be complied with, rather than guidelines to inform the assessment of applications for resource consent and will result in an unnecessarily onerous and unreasonable resource consent process. The Design Guide imposes certain outcomes that are required to be achieved in every circumstances and results in a "pass/fail" assessment being applied, resulting in an unnecessarily onerous and unreasonable resource consent process.	Amend SIGN-P4 (Signs on scheduled archaeological sites and sites of significance to Māori) as follows: ... 1. The extent to which: ... g. The sign fulfils the intent of the Heritage and Signs Design Guides; and ...

Taranaki Whānui ki te Upoko o te Ika	389.88	General District wide Matters / Signs / SIGN-P4	Amend	Considers that SIGN-P4 does not provide any specificity to bilingual signage or signage displaying Te Reo Māori.	Seeks amendment to SIGN-P4 (Signs on scheduled archaeological sites and sites of significance to Māori) to include a requirement for Taranaki Whānui to lead the decision-making around what is appropriate regarding bilingual signage and appropriate naming opportunities.
Wellington Heritage Professionals	412.68	General District wide Matters / Signs / SIGN-P4	Amend	Considers that the rate of change should be a matter of discretion when assessing digital signage believing that frequent and rapid change (minimal transitions) draws the eye and has the potential to detract from heritage buildings, structures and areas.	<p>Amend SIGN-P4 (Signs on scheduled archaeological sites and sites of significance to Māori) as follows:</p> <p>Enable signs that relate to safety and interpretation within the extent of scheduled archaeological sites and sites of significance, and only allow other signs that do not detract from the identified archaeological values, having regard to:</p> <p>1. The extent to which:</p> <p><u>a. The rate of change and transition between content on digital signs adversely affects heritage values;</u></p> <p>a-b. Land disturbance required for the sign and impacts on archaeological features is minimised;</p>
Wellington Heritage Professionals	412.69	General District wide Matters / Signs / SIGN-P4	Amend	Considers that considering the benefits of additional signage to support sustainable long-term use, should be removed as this may lead to the proliferation of additional signage and should be removed.	<p>Amend SIGN-P4 (Signs on scheduled archaeological sites and sites of significance to Māori) as follows:</p> <p>Enable signs on heritage buildings, heritage structures and within their sites, and within heritage areas to support wayfinding and interpretation and only allow signs for other purposes where they do not detract from the identified heritage values, having regard to:</p> <p>1. The extent to which:</p> <p>.....</p> <p>2. The benefits of allowing additional signage to support sustainable long term use. —</p>
Restaurant Brands Limited	349.40	General District wide Matters / Signs / SIGN-P5	Support	Support	Retain SIGN-P5 (Wellington Regional Stadium signs) as notified.
Restaurant Brands Limited	349.41	General District wide Matters / Signs / SIGN-P6	Support	Support	Retain SIGN-P6 (Airport Zone Signage) as notified.
Wellington International Airport Ltd	406.468	General District wide Matters / SIGNS / SIGN-P6	Support	Signs are a common feature of Airports. Supports Policy SIGN-P6 as recognises that signage with the Airport Zone needs to be designed to be in keep with the character of the area and not create a traffic hazard.	Retain SIGN-P6 (Airport Zone Signage) as notified.
Massey University	253.4	General District wide Matters / Signs / SIGN-R1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain SIGN-R1.1 (Official signs) as notified.
Fire and Emergency New Zealand	273.164	General District wide Matters / Signs / SIGN-R1	Support	Supports the rule as it makes an allowance for the display of signage in all zones as a permitted or restricted discretionary activity where required or provided for under any statute or regulation or are otherwise related to aspects of public safety, in accordance with the definition of 'Official Signs'.	Retain SIGN-R1 as notified.
Waka Kotahi	370.238	General District wide Matters / Signs / SIGN-R1	Support	Support rule as notified which provides for official signs as a permitted activity	Retain SIGN-R1 (Official signs) as notified.

KiwiRail Holdings Limited	FS72.83	Part 2 / General District wide Matters / Signs / SIGN-R1	Support	Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Allow
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.104	General District wide Matters / Signs / SIGN-R1	Support	SIGN-R1 is supported, subject to compliance with Standards. This is important in relation to the range of signage required for public safety at petroleum industry sites and branding associated with service stations.	Retain SIGN-R1 (Official signs) as notified.
Wellington International Airport Ltd	406.469	General District wide Matters / SIGNS / SIGN-R1	Oppose in part	Opposes these rules to the extent that they cross reference SIGN-S14. [See paragraphs 4.103 to 4.106 of original submission for full reason]	Opposes SIGN-R1 (Official signs) and seeks amendment.
Wellington International Airport Ltd	406.470	General District wide Matters / SIGNS / SIGN-R1	Amend	Opposes these rules to the extent that they cross reference SIGN-S14. [See paragraphs 4.103 to 4.106 of original submission for full reason]	Seeks that SIGN-R1 (Official signs) is amended to exclude application in the Airport Zone. (Option A).
Wellington International Airport Ltd	406.471	General District wide Matters / SIGNS / SIGN-R1	Oppose in part	Opposes these rules to the extent that they cross reference SIGN-S14. [See paragraphs 4.103 to 4.106 of original submission for full reason]	Delete SIGN-R1 (Official signs) in its entirety (Option B).
Massey University	253.5	General District wide Matters / Signs / SIGN-R2	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain SIGN-R2.1 (Temporary signs) as notified.
Waka Kotahi	370.239	General District wide Matters / Signs / SIGN-R2	Oppose	The submitter does not support temporary signs as a permitted activity on the state highway. Any temporary signs should require the approval of Waka Kotahi, Waka Kotahi suggest that SIGN-S10 is amended to exclude signs that are oriented to be read from state highway.	Seeks to amend SIGN-R2 (Temporary signs) to ensure that the rule does not apply to the state highway
Wellington International Airport Ltd	406.472	General District wide Matters / SIGNS / SIGN-R2	Oppose in part	Opposes these rules to the extent that they cross reference SIGN-S14. [See paragraphs 4.103 to 4.106 of original submission for full reason]	Opposes SIGN-R2 (Temporary Signage) and seeks amendment.
Wellington International Airport Ltd	406.473	General District wide Matters / SIGNS / SIGN-R2	Amend	Opposes these rules to the extent that they cross reference SIGN-S14. [See paragraphs 4.103 to 4.106 of original submission for full reason]	Seeks that SIGN-R2 (Temporary Signs) is amended to exclude application in the Airport Zone. (Option A).
Wellington International Airport Ltd	406.474	General District wide Matters / SIGNS / SIGN-R2	Oppose in part	Opposes these rules to the extent that they cross reference SIGN-S14. [See paragraphs 4.103 to 4.106 of original submission for full reason]	Delete SIGN-R2 (Temporary Signs) in its entirety. (Option B).

For example, under SIGN-S1 and S2 a retirement village would be restricted to one sign of less than 1.5m2. Considers that this provision is not sufficient for wayfinding to a village.	Amend SIGN-S2 (Maximum total area of signs) to provide for two signs up to 3m2 per site for retirement villages.
Waka Kotahi	370.243	General District wide Matters / Signs / SIGN-S2	Support in part	Support 5m2 maximum area for signs oriented to be read from the state highway network and seeks amendment.	Retain SIGN-S2 (Maximum area of any signs) with amendment.
Lumo Digital Outdoor Limited	FS124.8	Part 2 / General District wide Matters / Signs / SIGN-S2	Oppose	Lumo opposes a blanket approach to applying more onerous provisions for signs and billboards that are visible from a state highway.	Disallow
Out Of Home Media Association of Aotearoa (OOHMAA)	FS125.8	Part 2 / General District wide Matters / Signs / SIGN-S2	Oppose	OOHMAA opposes a blanket approach to applying more onerous provisions for signs and billboards that are visible from a state highway.	Disallow
Waka Kotahi	370.244	General District wide Matters / Signs / SIGN-S2	Amend	The submitter prefers the wording 'oriented to be read from' rather than 'facing' the state highway as it is clearer. Therefore request that the wording is amended accordingly	Amend SIGN-S2 (Maximum number of signs) as follows: 1. The following maximum total area of signs per site must be complied with: ... e. signs <u>oriented to be read from</u> facing the State Highway Network, <u>including on-ramps and off-ramps</u>
Lumo Digital Outdoor Limited	FS124.9	Part 2 / General District wide Matters / Signs / SIGN-S2	Oppose	Lumo opposes a blanket approach to applying more onerous provisions for signs and billboards that are visible from a state highway.	Disallow
Out Of Home Media Association of Aotearoa (OOHMAA)	FS125.9	Part 2 / General District wide Matters / Signs / SIGN-S2	Oppose	OOHMAA opposes a blanket approach to applying more onerous provisions for signs and billboards that are visible from a state highway.	Disallow
CentrePort Limited	402.141	General District wide Matters / Signs / SIGN-S2	Oppose in part	No provision for Special Purpose Port Zone in standard. This should be treated the same as The City Centre and General Industrial Zones.	Opposes SIGN-S2 (Maximum total area of signs) and seeks amendment.
CentrePort Limited	402.142	General District wide Matters / Signs / SIGN-S2	Amend	No provision for Special Purpose Port Zone in standard. This should be treated the same as The City Centre and General Industrial Zones.	Amend SIGN-S2.1.b (Maximum total area of signs) as follows: b. City Centre Zone Neighbourhood Centre Zone Local Centre Zone Mixed Use Zone Commercial Zone General Industrial Zone <u>Special Purpose Port Zone</u>
Go Media Ltd	236.26	General District wide Matters / Signs / SIGN-S4	Amend	Considers that the 4m maximum height for a freestanding sign in the NCZ, LCZ and MCZ is unduly restrictive given the existing urban form of some of these areas and the permitted building heights within them. For example, Rule 6.8.4.1.1 P15(b) of the Christchurch District Plan applies a maximum height limit of 9m. Further, the rule is overly restrictive when the new residential intensification measures allow building heights of more than 90m in some Central City areas.	Seeks that the height limit standards for free-standing signs in the commercial, mixed-use and industrial zones (SIGN-S4(a) and (b)) (Maximum height of free-standing signs) are increased.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Massey University	253.11	General District wide Matters / Signs / SIGN-S4	Support in part	Supports the provision but considers that signage in the Tertiary Education Zone has been excluded.	Retain SIGN-S4 (Maximum height of freestanding signs) with amendment: ... b. Commercial Zone General Industrial Zone <u>Tertiary Education Zone</u>
Massey University	253.12	General District wide Matters / Signs / SIGN-S4	Amend	Considers that signage in the Tertiary Education Zone has been excluded, so it is recommended that it is added to Standard SIGN-S4(1)(b).	Amend SIGN-S4 (Maximum height of freestanding signs) as follows: ... b. Commercial Zone General Industrial Zone <u>Tertiary Education Zone</u>
Out of Home Media Association of Aotearoa	284.29	General District wide Matters / Signs / SIGN-S4	Amend	<p>The submitter considers that for the reasons set out in Row 3 of their submission [refer to original submission for full reasons], the standards which apply to signs in the Commercial Zone, Mixed Use Zone, City Centre Zone and Metropolitan Centre Zone should be consistent, as these zones share similar characteristics with regards to the nature and mix of activities that are anticipated, and the scale of development that is provided for.</p> <p>The submitter considers that the height of signs within the Mixed Use Zone, City Centre Zone and Metropolitan Centre zone is more appropriately limited to 8m (as is to apply to the Commercial Zone), as opposed to the proposed 4m height control (which applies to more 'sensitive' environments/zones). The submitter considers that such a height is consistent with the provision for free-standing signs in the Central Area Zone in the Operative Wellington District Plan, which has appropriately managed the scale of signage.</p>	<p>Amend SIGN-S4 (Maximum height of freestanding signs) as follows:</p> <p>1. The following maximum sign areas for any sign must be complied with:</p> <p>a. ... Metropolitan Centre Zone Mixed Use Zone Open Space Zone City Centre Zone</p> <p>b. ... <u>City Centre Zone</u> <u>Metropolitan Centre Zone</u> <u>Mixed Use Zone</u></p>
Lumo Digital Outdoor Limited	285.29	General District wide Matters / Signs / SIGN-S4	Amend	<p>The submitter considers that for the reasons set out in Row 3 of their submission [refer to original submission for full reasons], the standards which apply to signs in the Commercial Zone, Mixed Use Zone, City Centre Zone and Metropolitan Centre Zone should be consistent, as these zones share similar characteristics with regards to the nature and mix of activities that are anticipated, and the scale of development that is provided for.</p> <p>The submitter considers that the height of signs within the Mixed Use Zone, City Centre Zone and Metropolitan Centre zone is more appropriately limited to 8m (as is to apply to the Commercial Zone), as opposed to the proposed 4m height control (which applies to more 'sensitive' environments/zones). Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.40	General District wide Matters / Signs / SIGN-S4	Amend	Considers that the proposed 4m height restriction in the Centre Zones is more restrictive in terms of permitted area and thresholds than the existing District Plan provisions and should be amended to 8m. Signage should be of a scale commensurate to enabled building height to ensure an appropriate relationship between the structures. Given heights in all CMUZ are increasing under the PDP, the height of signage should not be reduced. Signage should be considered acceptable in commercial zones in principle, with some limitation on size and location where it may adversely affect sensitive areas, including heritage, character or residential areas.	Amend SIGN-S4 (Maximum height of freestanding signs) as follows: ... Limit: The maximum height of any freestanding sign must not exceed 4m <u>8m</u> .
CentrePort Limited	402.143	General District wide Matters / Signs / SIGN-S4	Oppose in part	No provision for Special Purpose Port Zone in standard. This should be treated the same as General Industrial Zones.	Opposes SIGN-S4 (Maximum height of freestanding signs) and seeks amendment.
CentrePort Limited	402.144	General District wide Matters / Signs / SIGN-S4	Amend	No provision for Special Purpose Port Zone in standard. This should be treated the same as General Industrial Zones.	Amend SIGN-S4.1.b (Maximum height of freestanding signs) as follows: b. Commercial Zone General Industrial Zone <u>Special Purpose Port Zone</u>
Go Media Ltd	236.27	General District wide Matters / Signs / SIGN-S5	Amend	Considers that "Plain Wall Surface" in SIGN-S5.1 is open to interpretation.	Clarify "Plain Wall Surface" meaning in SIGN-S5.1 (Maximum height of free-standing signs).
Go Media Ltd	236.28	General District wide Matters / Signs / SIGN-S5	Amend	Considers that the meaning of "Facing" and "Visible" in SIGN-S5.4 is open to interpretation.	Clarify the meaning of "Facing" and "Visible" in SIGN-S5.4 (Maximum height of free-standing signs)
Go Media Ltd	236.29	General District wide Matters / Signs / SIGN-S5	Not specified	Considers that the restriction on internally illuminated signs in SIGN-S5 is without evidential basis. External lighting may be significantly brighter or more distracting than internally illuminated signs. Measurable variables such as lux spill are a more appropriate quantitative method of measurement. Given the suggested matters of discretion include 'The impact of the sign on traffic, pedestrian and cycling safety' there is not any apparent advantage to elevating internally illuminated signs which faces the state highway network, or is visible from any intersection with the state highway' to being discretionary.	Not specified.
Massey University	253.13	General District wide Matters / Signs / SIGN-S5	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain SIGN-S5 (Signs located on a building or structures) as notified.
Out of Home Media Association of Aotearoa	284.30	General District wide Matters / Signs / SIGN-S5	Amend	The submitter considers that for the reasons set out in Row 3 of their submission [refer to original submission for full reasons], they do not support rules or standards which seek to manage the design or luminance of signs which face a State Highway, as compared to the manner in which signs facing other roads are to be managed.	Amend SIGN-S5 (Signs located on a building or structure) as follows: Signs located on a building or structure 1. The sign must only be displayed on plain wall surfaces or fences. 2. The sign must not obscure windows or architectural features. 3. The sign must not project above the highest part of the building or structure. 4. Where the sign is facing the state highway network, or is visible from any intersection with the state highway, the sign must not be internally illuminated.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Lumo Digital Outdoor Limited	285.30	General District wide Matters / Signs / SIGN-S5	Amend	The submitter considers that for the reasons set out in Row 3 of their submission [refer to original submission for full reasons], they do not support rules or standards which seek to manage the design or luminance of signs which face a State Highway, as compared to the manner in which signs facing other roads are to be managed.	Amend SIGN-S5 (Signs located on a building or structure) as follows: Signs located on a building or structure 1. The sign must only be displayed on plain wall surfaces or fences. 2. The sign must not obscure windows or architectural features. 3. The sign must not project above the highest part of the building or structure. 4. Where the sign is facing the state highway network, or is visible from any intersection with the state highway, the sign must not be internally illuminated.
Restaurant Brands Limited	349.51	General District wide Matters / Signs / SIGN-S5	Oppose	Oppose The restriction on illuminated signs that face the state highway network, or are visible from any intersection with the state highway, is impracticable and too onerous [within] the context of the nature of development that is enabled to occur by the District Plan, and will result in too many signs requiring resource consent.	Amend SIGN-S5 (Signs located on a building or structure) as follows: ... 4. Where the sign is facing the state highway network, or is visible from any intersection with the state highway, the sign must not be internally illuminated.
Waka Kotahi	370.245	General District wide Matters / Signs / SIGN-S5	Support in part	The submitter supports controls on illumination for any signage visible from the state highway, requests amendments to the wording.	Not specified.
Lumo Digital Outdoor Limited	FS124.10	Part 2 / General District wide Matters / Signs / SIGN-S5	Oppose	Lumo opposes a blanket approach to applying more onerous provisions for signs and billboards that are visible from a state highway.	Disallow
Out Of Home Media Association of Aotearoa (OOHMAA)	FS125.10	Part 2 / General District wide Matters / Signs / SIGN-S5	Oppose	OOHMAA opposes a blanket approach to applying more onerous provisions for signs and billboards that are visible from a state highway.	Disallow
Waka Kotahi	370.246	General District wide Matters / Signs / SIGN-S5	Amend	The submitter prefers the wording 'oriented to be read from' rather than 'facing' the state highway as it is clearer. Therefore request that the wording is amended accordingly	Amend SIGN-S5 (Signs located on a building or structure) as follows: ... 4. Where the sign <u>oriented to be read from</u> facing the State Highway Network, <u>including on-ramps and off-ramps</u> , or is visible from any intersection with the state highway, the sign must not be internally illuminated.
Lumo Digital Outdoor Limited	FS124.11	Part 2 / General District wide Matters / Signs / SIGN-S5	Oppose	Lumo opposes a blanket approach to applying more onerous provisions for signs and billboards that are visible from a state highway. In its primary submission, Lumo has requested that Rule SIGN-S5.4 be deleted.	Disallow
Out Of Home Media Association of Aotearoa (OOHMAA)	FS125.11	Part 2 / General District wide Matters / Signs / SIGN-S5	Oppose	OOHMAA opposes a blanket approach to applying more onerous provisions for signs and billboards that are visible from a state highway. In its primary submission, OOHMAA has requested that Rule SIGN-S5.4 be deleted.	Disallow
Wellington International Airport Ltd	406.485	General District wide Matters / SIGNS / SIGN-S5	Oppose	Opposes SIGN-S5 (Signs located on a building or structure) insofar as it relates to the Airport Zone. Considers that many airport buildings are utilitarian in appearance due to their operational or functional requirements. Signs can therefore enhance the facade and appearance of the building. [See paragraphs 4.103 to 4.106 of original submission for full reason]	Opposes SIGN-S5 (Signs located on a building or structure) and seeks amendment.
Wellington International Airport Ltd	406.486	General District wide Matters / SIGNS / SIGN-S5	Amend	Opposes SIGN-S5 (Signs located on a building or structure) insofar as it relates to the Airport Zone. Considers that many airport buildings are utilitarian in appearance due to their operational or functional requirements. Signs can therefore enhance the facade and appearance of the building. [See paragraphs 4.103 to 4.106 of original submission for full reason]	Seeks that SIGN-S5 (Signs located on a building or structure) is amended to exclude its application to the Airport Zone.

KiwiRail Holdings Limited	408.115	General District wide Matters / Signs / SIGN-S7	Support	Supports clause 4 and 5 which ensures signs do obstruct the line of sign of any rail crossing or impair the view of any railway sign or signal.	Retain SIGN-S7 (Traffic safety) as notified.
Go Media Ltd	236.30	General District wide Matters / Signs / SIGN-S8	Support	Supports SIGN-S8.1.a to SIGN-S8.1.d and SIGN-S8.1.h.	Retain SIGN-S8.1 (Digital Signs) points a to d, and h as notified.
Go Media Ltd	236.31	General District wide Matters / Signs / SIGN-S8	Oppose	Considers that the content on billboards should only be restricted where evidence shows that there is a real risk to safety. Content restrictions are likely to be a non-resource management issue and therefore should not be included in planning provisions. Some text on signs is legally required, but not generally intended to be read. This may include references to terms and conditions or qualifiers to the product advertised. The restrictions on content and character volume on digital signs (SIGN-S8(1)(e) and (f)) are inappropriate and lack evidential basis across all zones. These should be removed. There is no reason to exclude, for example, web addresses but to include a company slogan. Further, the proposed standards will restrict the ability of community groups to advertise their contact details and event locations to the community.	Detail SIGN-S8.1 (Digital Signs) points e to g in their entirety.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Go Media Ltd	236.32	General District wide Matters / Signs / SIGN-S8	Oppose in part	Opposes 15 second dwell time at SIGN-S8.2.b for signs on roads with a speed limit less than or equal to 80km/h as 8 seconds is a generally accepted standard.	Seeks an amendment to SIGN-S8.2.b (Digital Signs) to change the dwell time to 8 seconds for all speed areas.
Go Media Ltd	236.33	General District wide Matters / Signs / SIGN-S8	Oppose in part	Opposes 35 second dwell time at SIGN-S8.2.b for signs on roads with a speed limit greater than 80km/h as 8 seconds is a generally accepted standard.	Seeks that the 35 second dwell time specified in SIGN-S8.2.b (Digital Signs) is deleted.
Go Media Ltd	236.34	General District wide Matters / Signs / SIGN-S8	Support in part	Supports a 0.5s transition time between images in SIGN-S8.2.c. Considers that the requirement that images transition to another image within 0.1 to 0.5 seconds without flashing, blinking, fading, scrolling, or dissolving encourages almost instantaneous changes from one image to another. In practice such immediate change is more likely to be noticed by a passer-by than a cross fade between images, as one image fades at the same time as another image fades out.	Amend SIGN-S8.2.c (Digital Signs) as follows: Digital Signs ... 2. Each image on a digital sign shall: ... c. Transition to another image within 0.1 to 0.5 seconds; and ... [Inferred decision requested]
Out of Home Media Association of Aotearoa	284.33	General District wide Matters / Signs / SIGN-S8	Support in part	Supports SIGN-S8 in part. The submitter supports the principle of prescribing parameters for the operation of digital signs and billboards. Standards which are specific to digital signs will ensure that the particular effects that might be generated by unregulated digital signs will be avoided, and provide the Council with the means to undertake enforcement against digital signs which are being operated in a non-compliant manner.	Retain SIGN-S8 (Digital signs), with amendments.
Out of Home Media Association of Aotearoa	284.34	General District wide Matters / Signs / SIGN-S8	Amend	The submitter considers that several of the proposed standards within SIGN-S8 are overly onerous, and are not justifiably necessary. The submitter opposes SIGN-S8.1.e for the following reasons: - The submitter considers that a standard restricting the use of contact details is presumably premised on a belief that a driver of a vehicle may be inclined to either hold their attention on the message for a dangerous length of time, or that such a detail may incite a driver to reach for a pen or another method of recording the contact detail. Contact details have been regularly used within advertising signs and billboards for decades, and there have been no known or recorded safety effects that have resulted from this practice. -Further, the submitter notes that such a standard has not been proposed for 'third-party signs' (which are not digital signs). - The submitter considers that there is no difference between the method of display (between digital and 'static' signs) which would result in the display of a contact detail being overly distractive on a digital sign.	Amend SIGN-S8 (Digital signs) as follows: All zones Digital Signs 1. Digital signs must not: ... e. Contain phone numbers, email addresses, web addresses, physical addresses or contact details; ...

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Out of Home Media Association of Aotearoa	284.35	General District wide Matters / Signs / SIGN-S8	Amend	The submitter opposes SIGN-S8.1.f for the following reasons: - This standard seeks to restrict the number of characters of a message. The submitter considers that this is an overly prescriptive standard which is difficult to interpret or to enforce, as an advertising message may involve various components (text, images, graphics), all of which may include words or phrases which would contribute to the number of characters within the overall message, but which are not required to be read by a viewer for the overall message to be understood and assimilated. - The submitter considers that the character limit is understood to be based on research that has been undertaken on the speed at which a driver can read text, however there are concerns with the methodologies of this research, and its literal application to real-world activities such as advertising messages which do not generally rely on viewers to read each and every word within a message.	Amend SIGN-S8 (Digital signs) as follows: All zones Digital Signs 1. Digital signs must not: ... f. Contain more than 40 characters; or ...
Out of Home Media Association of Aotearoa	284.36	General District wide Matters / Signs / SIGN-S8	Amend	The submitter opposes SIGN-S8.1.g. The submitter does not support the proposed 'blanket' approach to digital or illuminated signs which are visible from a state highway [Refer to original submission for full reason].	Amend SIGN-S8 (Digital signs) as follows: All zones Digital Signs 1. Digital signs must not: ... g. Be located adjacent to a State Highway. ...
Out of Home Media Association of Aotearoa	284.37	General District wide Matters / Signs / SIGN-S8	Amend	The submitter opposes SIGN-S8.2.b. The submitter considers that Digital billboards are typically operated to display a message for a length of eight seconds, which has been an industry standard since the first digital billboards were established in New Zealand in 2013. Research has been undertaken which demonstrates that there is no measurable difference in effect on driver performance resulting from the dwell time for the display of digital messages [Refer to original submission for full reason].	Amend SIGN-S8 (Digital signs) as follows: All zones Digital Signs 2. Each image on a digital sign shall: a. Be static only; b. Be displayed for a minimum of 15 8 seconds for roads with posted speed limits of less than and equal to 80km/h and a minimum of 35 seconds for roads with a posted speed limit of greater than 80 km/h; ...
Out of Home Media Association of Aotearoa	284.38	General District wide Matters / Signs / SIGN-S8	Amend	The submitter opposes SIGN-S8.2.d for the following reasons: - The submitter considers that SIGN-S8.2.d. counteracts the intent of SIGN-S8.2.c., which requires messages to transition from one to the next within 0.1 and 0.5 seconds. However, Standard 2.d. states that the transition cannot involve flashing, blinking, fading, scrolling, or dissolving. - The submitter considers that it is standard industry practice for messages to transition by way of a 'dissolve' (which typically lasts 0.5 seconds), which involves one message fading out while the next message fades in at the same time, which provides a 'soft' transition effect which avoids undue distraction or catching someone's attention. - The submitter considers that SIGN-S8.2.d., as it is drafted, would preclude the use of the most effective transition (in terms of its effectiveness at avoiding adverse effects). The submitter considers that this standard should not preclude the use of a 'dissolve' transition.	Amend SIGN-S8 (Digital signs) as follows: All zones Digital Signs ... 2. Each image on a digital sign shall: ... d. Transition to another image without flashing, blinking, fading, <u>or</u> scrolling, or dissolving.
Out of Home Media Association of Aotearoa	284.39	General District wide Matters / Signs / SIGN-S8	Amend	Seeks amendment to SIGN-S8.4 to refer to 'digital'.	Amend SIGN-S8 (Digital signs) as follows: All zones Digital Signs 4. Illumination of any <u>digital</u> sign shall: ...

Lumo Digital Outdoor Limited	285.34	General District wide Matters / Signs / SIGN-S8	Amend	The submitter considers that several of the proposed standards within SIGN-S8 are overly onerous, and are not justifiably necessary. The submitter opposes SIGN-S8.1.e for the following reasons: - The submitter considers that a standard restricting the use of contact details is presumably premised on a belief that a driver of a vehicle may be inclined to either hold their attention on the message for a dangerous length of time, or that such a detail may incite a driver to reach for a pen or another method of recording the contact detail. Contact details have been regularly used within advertising signs and billboards for decades, and there have been no known or recorded safety effects that have resulted from this practice. -Further, the submitter notes that such a standard has not been proposed for 'third-party signs' (which are not digital signs). - The submitter considers that there is no difference between the method of display (between digital and 'static' signs) which would result in the display of a contact detail being overly distractive on a digital sign.	Amend SIGN-S8 (Digital signs) as follows: All zones Digital Signs 1. Digital signs must not: ... e. Contain phone numbers, email addresses, web addresses, physical addresses or contact details; ...
Lumo Digital Outdoor Limited	285.35	General District wide Matters / Signs / SIGN-S8	Amend	The submitter opposes SIGN-S8.1.f for the following reasons: - This standard seeks to restrict the number of characters of a message. The submitter considers that this is an overly prescriptive standard which is difficult to interpret or to enforce, as an advertising message may involve various components (text, images, graphics), all of which may include words or phrases which would contribute to the number of characters within the overall message, but which are not required to be read by a viewer for the overall message to be understood and assimilated. - The submitter considers that the character limit is understood to be based on research that has been undertaken on the speed at which a driver can read text, however there are concerns with the methodologies of this research, and its literal application to real-world activities such as advertising messages which do not generally rely on viewers to read each and every word within a message.	Amend SIGN-S8 (Digital signs) as follows: All zones Digital Signs 1. Digital signs must not: ... f. Contain more than 40 characters; or ...
Lumo Digital Outdoor Limited	285.36	General District wide Matters / Signs / SIGN-S8	Amend	The submitter opposes SIGN-S8.1.g. The submitter does not support the proposed 'blanket' approach to digital or illuminated signs which are visible from a state highway [Refer to original submission for full reason].	Amend SIGN-S8 (Digital signs) as follows: All zones Digital Signs 1. Digital signs must not: ... g. Be located adjacent to a State Highway. ...

Lumo Digital Outdoor Limited	285.37	General District wide Matters / Signs / SIGN-S8	Amend	The submitter opposes SIGN-S8.2.b. The submitter considers that Digital billboards are typically operated to display a message for a length of eight seconds, which has been an industry standard since the first digital billboards were established in New Zealand in 2013. Research has been undertaken which demonstrates that there is no measurable difference in effect on driver performance resulting from the dwell time for the display of digital messages [Refer to original submission for full reason].	Amend SIGN-S8 (Digital signs) as follows: All zones Digital Signs 2. Each image on a digital sign shall: a. Be static only; b. Be displayed for a minimum of 15 8 seconds for roads with posted speed limits of less than and equal to 80km/h and a minimum of 35 seconds for roads with a posted speed limit of greater than 80 km/h; ...
Lumo Digital Outdoor Limited	285.38	General District wide Matters / Signs / SIGN-S8	Amend	The submitter opposes SIGN-S8.2.d for the following reasons: - The submitter considers that SIGN-S8.2.d. counteracts the intent of SIGN-S8.2.c., which requires messages to transition from one to the next within 0.1 and 0.5 seconds. However, Standard 2.d. states that the transition cannot involve flashing, blinking, fading, scrolling, or dissolving. - The submitter considers that it is standard industry practice for messages to transition by way of a 'dissolve' (which typically lasts 0.5 seconds), which involves one message fading out while the next message fades in at the same time, which provides a 'soft' transition effect which avoids undue distraction or catching someone's attention. - The submitter considers that SIGN-S8.2.d., as it is drafted, would preclude the use of the most effective transition (in terms of its effectiveness at avoiding adverse effects). The submitter considers that this standard should not preclude the use of a 'dissolve' transition.	Amend SIGN-S8 (Digital signs) as follows: All zones Digital Signs 2. Each image on a digital sign shall: d. Transition to another image without flashing, blinking, fading, <u>or</u> scrolling, or dissolving .
Lumo Digital Outdoor Limited	285.39	General District wide Matters / Signs / SIGN-S8	Amend	Seeks amendment to SIGN-S8.4 to refer to 'digital'.	Amend SIGN-S8 (Digital signs) as follows: All zones Digital Signs 4. Illumination of any <u>digital</u> sign shall: ...
Restaurant Brands Limited	349.53	General District wide Matters / Signs / SIGN-S8	Support	Support	Retain SIGN-S8 (Digital signs) as notified.
Waka Kotahi	370.251	General District wide Matters / Signs / SIGN-S8	Support in part	SIGN-S8 is partially supported and amendments are sought.	Retain SIGN-S8 (Digital signs) with amendment.
Lumo Digital Outdoor Limited	FS124.16	Part 2 / General District wide Matters / Signs / SIGN-S8	Oppose	Lumo opposes the amendments sought by the submission. In its primary submission, Lumo requests amendments to Standard SIGN-S8. The relief sought by Waka Kotahi is opposed, insofar as it is inconsistent with the relief sought by Lumo in its primary submission. In addition, Lumo opposes the additional standards sought by Waka Kotahi, which are unnecessarily onerous and difficult to enforce, particularly in respect of restricting billboards within 100m of an intersection or where another digital billboard is located within the driver's field of vision. Lumo opposes the standard requested by Waka Kotahi which would require the dwell time of each message displayed by a digital billboard to be determined by the proportion of drivers who could see an image change. Such an approach is variable and impractical to implement from an operational perspective, and is not justified relative to any adverse effects. Lumo supports the relief sought to delete the restriction on the use of a 'dissolve' between messages displayed on a digital billboard, consistent with the relief sought by Lumo in its primary submission.	Disallow

Out Of Home Media Association of Aotearoa (OOHMAA)	FS125.16	Part 2 / General District wide Matters / Signs / SIGN-S8	Oppose	OOHMAA opposes the amendments sought by the submission. In its primary submission, OOHMAA requests amendments to Standard SIGN-S8. The relief sought by Waka Kotahi is opposed, insofar as it is inconsistent with the relief sought by OOHMAA in its primary submission. In addition, OOHMAA opposes the additional standards sought by Waka Kotahi, which are unnecessarily onerous and difficult to enforce, particularly in respect of restricting billboards within 100m of an intersection or where another digital billboard is located within the driver's field of vision. OOHMAA opposes the standard requested by Waka Kotahi which would require the dwell time of each message displayed by a digital billboard to be determined by the proportion of drivers who could see an image change. Such an approach is variable and impractical to implement from an operational perspective, and is not justified relative to any adverse effects. OOHMAA supports the relief sought to delete the restriction on the use of a 'dissolve' between messages displayed on a digital billboard, consistent with the relief sought by OOHMAA in its primary submission.	Disallow
Waka Kotahi	370.252	General District wide Matters / Signs / SIGN-S8	Amend	Additions and changes are requested to manage the effects of digital billboards. As per the submitters interpretation of S7.2, which the submitter supports, the standard should be amended to restrict digital billboards within 100m of an intersection. In addition, the submitter considers that drivers should not be able to see more than one digital billboard at any one time. Waka Kotahi recommends that no digital billboards are located in environments where the posted speed limit is 70km/h or higher, as evidence does find a statistically significant increase in crashes in the presence of digital billboards in higher speed environments. Waka Kotahi also considers that dwell time should be determined based on the principle that no more than 5% of drivers should view an image change. 15 seconds may be appropriate in some circumstances, but each should be assessed on a case by case basis. Dissolving of images is preferred to flashing, blinking, fading, or scrolling.	Amend SIGN-S8 (Digital signs) as follows: 1. Digital signs must not: ... e. Contain phone numbers, email addresses, web addresses, physical addresses, or contact details <u>or logos</u> ; f. Contain more than 40 characters; or g. <u>Be oriented to be read from located adjacent to a State Highway, including on ramps and off ramps.</u> h. Impair the ability of Air Traffic Control to guide aircraft, or pilots to operate aircraft. <u>i. be located within 100m of an intersection</u> <u>j. be located where there are any other digital billboards in a driver's field of vision.</u> <u>k. be oriented to be read from any road where the posted speed limit exceeds 70km/h</u> 2. Each image on a digital sign shall: a. Be static only; b. Be displayed for a minimum of 15 seconds for roads with posted speed limits of less than and equal to 80km/h, <u>and an appropriate dwell time determined so that no more than 5 per cent of drivers are exposed to image changes. and a minimum of 25 seconds for roads with a posted speed limit of greater than 80km/h.</u> c. Transition to another image within 0.1 to 0.5 seconds; and d. Transition to another image without flashing, blinking, fading, <u>or scrolling, or dissolving.</u> ...
KiwiRail Holdings Limited	FS72.84	Part 2 / General District wide Matters / Signs / SIGN-S8	Support	Supports restricting signs from being located within 100m of an intersection which includes level crossings. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA. For any free-standing sign or sign located on a structure within any part of the Airport <u>Zone</u> area, except the Terminal Precinct:</u></p> <p>a. the maximum area <u>of a single sign</u> is 8m²i. b. the maximum height <u>of a single sign</u> is 4m. c. any illuminated sign must not flash. <u>d. any sign that is visible from Residential zoned land must be located a minimum of 50 metres from that area-</u> e. no sign shall front onto State Highway 1, Moa Point Road, or Lyall Parade.-</p> <p>7. In relation to requiring authority signage in the (Airport Main Site) Terminal precinct, any free-standing sign or sign located on a structure shall not exceed a maximum height of 9 metres (above ground level)-</p> <p><u>4. For any free-standing sign or sign located on a structure within the Terminal Precinct, the maximum area of a single sign must not exceed 20m².</u></p>

General District-wide Matters - Temporary Activities

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Guardians of the Bays Inc	FS44.131	Part 2 / General District wide Matters / SIGNS / SIGN-S14	Support	Considers amendments need to occur and support the changes to the East Side Precinct wording however the removal of references to the designation is a bigger question of clarification with Wellington City on how a designation and District Plan work together on signs.	Allow / Supports amendment to SIGN-S14 (Airport Zne signs and billboards) in the East Side precinct, with the addition of the word 'small' as follows: <u>1. Any sign within the East Side Precinct shall be limited to small official signs and signs associated instructional or directional signage.</u>
Guardians of the Bays Inc	FS44.132	Part 2 / General District wide Matters / SIGNS / SIGN-S14	Oppose	Considers amendments need to occur and support the changes to the East Side Precinct wording however the removal of references to the designation is a bigger question of clarification with Wellington City on how a designation and District Plan work together on signs.	Disallow / Seeks that the remainder of the submission be disallowed.
Wellington International Airport Ltd	406.493	General District wide Matters / SIGNS / SIGN-S14	Oppose in part	Opposes SIGN-S14 (Airport Zone signs and billboards). Considers that the blanket requirement for there to be no signs within the Airport East Side Designation should be deleted as it is unduly onerous and does not recognise or provide for the operational needs of the airport within this area. Considers that the standard should remove all references to designations. The rules of the signage chapter (and all chapters) need to be stand alone Considers that the standard should not duplicate controls addressed by other standards (for example, SIGN-S6). Considers that the rule should not include additional constraints that are not required by other signage rules for example, SIGN-S14(4) and (5). [See paragraphs 4.103 to 4.106 of original submission for full reason]	Delete SIGN-S14 (Airport Zone Signs and billboards) in its entirety. (Option B).
Guardians of the Bays Inc	FS44.133	Part 2 / General District wide Matters / SIGNS / SIGN-S14	Support	Considers amendments need to occur and support the changes to the East Side Precinct wording however the removal of references to the designation is a bigger question of clarification with Wellington City on how a designation and District Plan work together on signs.	Allow / Supports amendment to SIGN-S14 (Airport Zne signs and billboards) in the East Side precinct, with the addition of the word 'small' as follows: <u>1. Any sign within the East Side Precinct shall be limited to small official signs and signs associated instructional or directional signage.</u>
Guardians of the Bays Inc	FS44.134	Part 2 / General District wide Matters / SIGNS / SIGN-S14	Oppose	Considers amendments need to occur and support the changes to the East Side Precinct wording however the removal of references to the designation is a bigger question of clarification with Wellington City on how a designation and District Plan work together on signs.	Disallow / Seeks that the remainder of the submission be disallowed.
Screen Production and Development Association	17.1	General District wide Matters / Temporary Activities / General TEMP	Support	Screen Wellington office provisions are fit-for-purpose. Screen Wellington provides a fast, low friction system of permitting through a very flexible and pragmatic approach. Screen Wellington permit system is flexible to account for differing production finance margins to account for varying levels of production. Supporting Screen Wellington will help regional development of the film industry. Screen Wellington has respect for Māori sites of significance and relationships with local iwi.	Retain TEMP (Temporary Activities) as notified - referencing support for short term film activities being managed through Screen Wellingtons Permit Process.
Screen Production and Development Association	17.2	General District wide Matters / Temporary Activities / General TEMP	Support	Supports consultation with iwi over temporary film activities on sites of significance.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Screen Production and Development Association	17.3	General District wide Matters / Temporary Activities / General TEMP	Support	Opposes resource consenting for temporary film activities on sites of significance.	Retain TEMP (Temporary Activities) as notified.
Paul Yates	26.1	General District wide Matters / Temporary Activities / General TEMP	Support	The management of short-term filming activities by Screen Wellington's Film Permit Process, with the exception of semi-permanent structures, earth works or noise, is supported.	Supports filming being classified as a "temporary activity" and being managed through Screen Wellington.
The Gibson Group Limited	122.1	General District wide Matters / Temporary Activities / General TEMP	Support	Screen Wellington office provisions are fit-for-purpose. Screen Wellington provides a fast, low friction system of permitting through a very flexible and pragmatic approach. Screen Wellington permit system is flexible to account for differing production finance margins to account for varying levels of production. Supporting Screen Wellington will help regional development of the film industry. Screen Wellington has respect for Māori sites of significance and relationships with local iwi.	Retain TEMP (Temporary Activities) as notified - referencing support for short term film activities being managed through Screen Wellingtons Permit Process.
The Gibson Group Limited	122.2	General District wide Matters / Temporary Activities / General TEMP	Support	Supports consultation with iwi over temporary film activities on sites of significance but considers this should occur separate to RMA requirements.	Not specified.
The Gibson Group Limited	122.3	General District wide Matters / Temporary Activities / General TEMP	Support	Opposes resource consenting for temporary film activities on sites of significance.	Retain the Temporary Activities chapter as notified.
Paihikara Ki Pōneke Cycle Wellington	302.30	General District wide Matters / Temporary Activities / General TEMP	Not specified	Considers that the current temporary activity provisions require consideration of the efficiency of the network and these should prioritise the safety of vulnerable users over efficiency.	Seeks that the temporary activity provisions prioritise the safety of vulnerable users over efficiency of the network.
Waka Kotahi	370.257	General District wide Matters / Temporary Activities / General TEMP	Oppose	Considers that these activities have the potential to have significant impact on the safe and efficient operation of the transport network, particularly those of a larger scale, or directly accessing the state highway network Considers that traffic generated from events is not considered to be adequately managed through this chapter or through the transport chapter. Considers that temporary events for which anticipated numbers exceed 100 vehicles on any day which are accessed from the state highway should require a traffic management plan. Notes that the transport chapter does not make it clear that the trip generation applies to temporary events. Permitted rules in this chapter should be also required to comply with the trip generation rules in the transport chapter	Seeks to amend to include trip generation triggers, above which the activity status should be restricted discretionary, with discretion restricted to traffic and safety effects.
Wellington International Airport Ltd	406.494	General District wide Matters / Temporary Activities / General TEMP	Support in part	Considers that an advice note should be included in the introduction of the temporary activity chapter drawing plan users attention to the presence of the OLS designation and the need to adhere to its requirements, in addition to those set out in the Temporary Activities chapter of the Proposed Plan. [See paragraphs 4.111 to 4.113 of original submission for full reason]	Supports TEMP chapter introduction and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.495	General District wide Matters / Temporary Activities / General TEMP	Amend	Considers that an advice note should be included in the introduction of the temporary activity chapter drawing plan users attention to the presence of the OLS designation and the need to adhere to its requirements, in addition to those set out in the Temporary Activities chapter of the Proposed Plan. [See paragraphs 4.111 to 4.113 of original submission for full reason]	Amend TEMP chapter introduction as follows: ... <u>Temporary activities involving temporary structures such as cranes in the vicinity of Wellington International Airport are also drawn to the requirements of the Wellington International Airport Obstacle Limitation Surface designation.</u>
Fire and Emergency New Zealand	273.165	General District wide Matters / Temporary Activities / New TEMP	Amend	Considers that to ensure an efficient and effective emergency response, firefighter training is an essential activity undertaken by FENZ. Firefighter training may include live fire training and equipment training both on and off site. The FENZ's Statement of Performance Expectations (SPE) 2021/22 confirms a commitment to the Government that all firefighters achieve a certain level of training. In order to ensure an efficient and effective emergency response, firefighter training is an essential activity undertaken by FENZ. Firefighter training may include live fire training and equipment training both on and off site. It is noted that 'emergency service activities' are provided for in the various zones of the district, however, does not explicitly provide for temporary emergency services training activities. FENZ therefore seeks that the DP clearly provides FENZ the ability to undertake firefighting training activities throughout the city. This will assure that any adverse effects of temporary activities are managed in accordance with community expectations.	Add new TEMP policy: TEMP-PX : <u>Temporary Emergency Services Training Activities</u> <u>Enable temporary emergency services training activities in all zones provided any adverse effects are managed in accordance with community expectations.</u>
Fire and Emergency New Zealand	273.166	General District wide Matters / Temporary Activities / New TEMP	Amend	Considers a rule should be added to allow for live fire training and equipment training both on and off site for temporary durations, subject to conditions.	Add new TEMP rule: TEMP-RX <u>Temporary emergency services training activities (All Zones)</u> <u>1. Activity status: Permitted</u> <u>Where:</u> <u>a. The activity is limited to a period of two days, excluding set-up or pack-down activities, which can occur up to one week prior to commencement and up to one week following completion of the temporary emergency services training activity.</u> <u>2. Activity status where compliance not achieved: N/A</u>
Te Rūnanga o Toa Rangatira	488.71	General District wide Matters / Temporary Activities / TEMP-P3	Support	Supports that the policy recognises the need to engage with mana whenua when temporary activities are to take place on culturally significant land to ensure that these areas are not negatively affected.	Retain TEMP-P3 (Managing Adverse Effects on Sensitive Environments) as notified.
Te Rūnanga o Toa Rangatira	488.72	General District wide Matters / Temporary Activities / TEMP-P4	Support	Supports that the policy recognises the need to engage with mana whenua when temporary activities are to take place on culturally significant land to ensure that these areas are not negatively affected.	Retain TEMP-P4 (Mana whenua) as notified.
New Zealand Defence Force	423.21	General District wide Matters / Temporary Activities / TEMP-P5	Amend	Considers that it is crucial for the District Plan policy framework to enable temporary military training activities to be undertaken where the adverse effects on amenity values of the site or surrounding area are remedied or mitigated. Supports the intent of this Policy, but requests Council adopt a clearer wording of this Policy.	Amend TEMP-P5 (Temporary military training activities) as follows: Enable temporary military training activities where they remedy or mitigate their adverse effects on the amenity values of the site and the surrounding area are <u>remedied or mitigated.</u>
Massey University	253.15	General District wide Matters / Temporary Activities / TEMP-R1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEMP-R1(1) (Temporary activities, excluding short term filming and temporary military training activities) as notified.
New Zealand Defence Force	423.22	General District wide Matters / Temporary Activities / TEMP-R1	Support	Supports the rule title which specifically excludes TMTA (Temporary Military Training Activities) from Rule TEMP-R1.	Retain TEMP-R1 (Temporary activities, excluding short term filming and temporary military training activities) as notified.
New Zealand Defence Force	423.23	General District wide Matters / Temporary Activities / TEMP-R3	Oppose	Opposes TEMP-R3.1 and seeks amendment.	Opposes TEMP-R3.1 (Temporary military training activities) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
New Zealand Defence Force	423.24	General District wide Matters / Temporary Activities / TEMP-R3	Amend	<p>Rule TEMP-R3.1 provides for TMTA (Temporary Military Training Activities) as a permitted activity in the following zones:</p> <ul style="list-style-type: none"> - Open Space Zones; - Rural Zones; - Port Zone; and - General Industrial Zone. <p>TMTA in all other zones is a restricted discretionary activity in accordance with Rule TEMP-R3.3.</p> <p>NZDF opposes Rule TEMP-R3.1 on that basis that it is appropriate to provide for TMTA as a permitted activity in all zones subject to compliance with the relevant permitted activity standards. As outlined in the introduction to this submission, NZDF must undertake training in a range of activities and locations in order to fulfil its statutory obligations under the Defence Act 1990. TMTA can involve a broad range of activities including classroom activities, search and rescue, driver training, dog training, small construction tasks, and many others that have effects similar to other day-to-day activities. Due to the nature of TMTA and the need for NZDF to train in unfamiliar realworld situations, TMTA may be undertaken in any zone within a city / district. TMTA are entirely appropriate within all zones where the noise standards are met, and the permitted activity standards are complied with.</p> <p>Including a permitted activity rule that provides for TMTA in all zones in Wellington City would also ensure a consistent approach to TMTA is adopted nationwide. Many district plans around the country are being or have been reviewed and NZDF is engaging in those review processes to ensure that where training activities might be subject to controls through a district plan, those controls are consistent and that compliance is simply achieved and assessed.</p>	Seeks amendment to TEMP-R3.1 (Temporary military training activities) to explicitly provide for temporary military training activities as a permitted activity in all zones subject to compliance with permitted activity standards.
New Zealand Defence Force	423.25	General District wide Matters / Temporary Activities / TEMP-R3	Amend	NZDF notes that the reference to "Port Zone" should be updated to refer to "Special Purpose Port Zone".	Seeks amendment to TEMP-R3.1 (Temporary military training activities) to change "Port Zone" to "Special Purpose Port Zone".
New Zealand Defence Force	423.26	General District wide Matters / Temporary Activities / TEMP-R3	Oppose	Opposes TEMP-R3.1.b and seeks amendment.	Opposes TEMP-R3.1.b (Temporary military training activities) and seeks amendment.
New Zealand Defence Force	423.27	General District wide Matters / Temporary Activities / TEMP-R3	Amend	<p>Considers that From time to time, and at the landowner's request, buildings or structures constructed as part of a TMTA may be permanent and not removed at the conclusion of the training exercise, provided it is a permitted activity, or a resource consent obtained. Buildings or structures constructed as part of TMTA should not be required to be removed when they are intended to be permanent and meet relevant permitted activity rules in the Plan (or otherwise a resource consent is obtained).</p>	<p>Amend TEMP-R3.1.b (Temporary military training activities) as follows:</p> <p>...</p> <p>b. No permanent structures are constructed <u>unless provided for elsewhere in this plan as a permitted activity (or resource consent is obtained for the structure); and</u></p>
New Zealand Defence Force	423.28	General District wide Matters / Temporary Activities / TEMP-R3	Oppose	Opposes TEMP-R3.2 and seeks amendment.	Opposes TEMP-R3.2 (Temporary military training activities) and seeks amendment.
New Zealand Defence Force	423.29	General District wide Matters / Temporary Activities / TEMP-R3	Amend	Opposes Rule TEMP-R3.2 on the basis that any TMTA that cannot comply with the requirements of TEMP-R3.1 should be a controlled activity for the reasons outlined above with respect to Rule TEMP-R3.1 (submission point 21).	Seeks that TEMP-R3.2 (Temporary military training activities) is amended to provide for temporary military training activities that does not comply with the requirements of TEMP-R3.1 to be a controlled activity (noting that temporary military training activities should be provided for as a permitted activity across all zones).
New Zealand Defence Force	423.30	General District wide Matters / Temporary Activities / TEMP-R3	Support	NZDF supports any resource consent applications made in respect of Rule TEMP-R3.2 being precluded from public notification as per the activity status note.	Retain TEMP-R3.2 (Temporary military training activities) as notified with respect to the notification clause that precludes public notification.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
New Zealand Defence Force	423.31	General District wide Matters / Temporary Activities / TEMP-R3	Oppose	<p>Opposes TEMP-R3.3 on the basis of the proposed changes to Rules TEMP-R3.1. and R3.2.</p> <p>Opposes TEMP-R3.3 on the basis that it is appropriate to provide for TMTA as a permitted activity in all District Plan zones subject to compliance with the permitted activity requirements. In addition, the submitter considers that where TMTA do not achieve compliance with the requirements of TEMP-R3.1, they should be a controlled activity. As outlined in the introduction to their submission, NZDF must undertake training in a range of activities and locations, as outlined in the introduction to this submission, in order to fulfil its statutory obligations under the Defence Act 1990. Training activities are carried out "off-base" for a variety of reasons including diversity and realism. Skills that are learned and practiced "on-base" must be tested or extended in unfamiliar contexts "off base". Due to the broad nature of TMTA and the need for NZDF to train in unfamiliar real-world situations, they may be undertaken in any zone within a district. Therefore, it is important to NZDF that TMTA are provided for in all zones in a district plan. In many respects, TMTA are identical to, and not discernible from, day-to-day and training activities carried out by other emergency services and civilian organisations, such as the Police Force, search and rescue organisations and Fire and Emergency NZ, which are provided for as a permitted activity in the majority of District Plan zones, subject to compliance with the relevant standards.</p>	Delete Rule TEMP-R3.3 (Temporary military training activities) in its entirety.
New Zealand Defence Force	423.32	General District wide Matters / Temporary Activities / TEMP-R3	Oppose	<p>Opposes the notification direction set out in Rule TEMP-R3.3, which requires that an application for resource consent made in respect of Rule TEMP-R3.3 must be publicly notified, for the reasons outlined above in submission.</p> <p>Temporary Military Training Activities (TMTA) are identical to, and not discernible from, day-to-day and training activities carried out by other emergency services and civilian organisations, such as the Police Force, search and rescue organisations and Fire and Emergency NZ, which are provided for as a permitted activity in the majority of District Plan zones, subject to compliance with the relevant standards. Applications for TMTA made with respect to Rule TEMP-R3.3 should not be subject to a blanket requirement for public notification.</p> <p>A notification determination should be made based on an assessment of individual TMTA proposals, noting TMTA can vary in nature, scale and duration. Assessment should involve consideration of the proposal with respect to the subject site, surrounding environment, proposed effects, along with measures to avoid, remedy or mitigate adverse effects, in order to reach a conclusion on the overall level of effects in terms of Section 95 of the Resource Management Act 1991. A presumption of blanket public notification for all resource consent applications for TMTA made in respect of Rule TEMP-R3.3 is not appropriate, nor does it reflect an 'effects-based' approach as anticipated by the RMA.</p>	Seeks that the requirement for public notification of a resource consent application made in respect of TEMP-R3.3 (Temporary military training activities) is deleted in its entirety.
Massey University	253.16	General District wide Matters / Temporary Activities / TEMP-R4	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEMP-R4(1) (Emission of noise from a temporary activity excluding military training activities) as notified.
New Zealand Defence Force	423.33	General District wide Matters / Temporary Activities / TEMP-R4	Support	NZDF supports the rule title which specifically excludes TMTA from Rule TEMP-R4.	Retain TEMP-R4 (Emission of noise from a temporary activity excluding temporary military training activities) as notified.
Massey University	253.17	General District wide Matters / Temporary Activities / TEMP-R6	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEMP-R6(1) (Temporary buildings or structures ancillary to a temporary activity) as notified.
New Zealand Defence Force	423.34	General District wide Matters / Temporary Activities / TEMP-R6	Support	NZDF supports the note in Rule TEMP-R6.1, which specifically excludes TMTA from this Rule.	Retain TEMP-R6.1 (Temporary buildings or structures ancillary to a temporary activity) as notified.
Massey University	253.18	General District wide Matters / Temporary Activities / TEMP-S1	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEMP-S1 (Maximum duration of a temporary activity excluding short-term filming activities and temporary military training activities) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Paihikara Ki Pōneke Cycle Wellington	302.31	General District wide Matters / Temporary Activities / TEMP-S1	Support in part	[No specific reason given beyond decision requested - refer to original submission].	Retain EMP-S1 (Maximum duration of a temporary activity excluding short-term filming activities and temporary military training activities) with amendment.
Paihikara Ki Pōneke Cycle Wellington	302.32	General District wide Matters / Temporary Activities / TEMP-S1	Amend	Considers that cycleways are generally not considered when setting conditions to manage temporary activities leading to poor safety outcomes. Only requiring the efficiency of the transport network to be considered as a part of assessment criteria does not address the increased risk to cyclist safety.	Amend the Assessment Criteria in TEMP-S1 (Maximum duration of a temporary activity excluding short-term filming activities and temporary military training activities) as follows: 1. The extent to which the nature, intensity and scale of the activity adversely effects: a. Amenity values; and b. The safety and efficiency of the transport network, including on pedestrians, and cyclists and cycle and micromobility facilities.
New Zealand Defence Force	423.35	General District wide Matters / Temporary Activities / TEMP-S1	Support	NZDF supports that the title of activity standard TEMP-S1, which clarifies that this standard does not apply to TMTA.	Retain title of TEMP-S1 (Maximum duration of a temporary activity excluding short-term filming activities and temporary military training activities) as notified.
Paul Yates	26.2	General District wide Matters / Temporary Activities / TEMP-S3	Oppose	Considers that TEMP-S3 places restrictions on the hours of operation that short-term filming activities can take place. To finish at 10pm/11pm would be too restrictive for a lot of film and TV productions that often need to film night scenes and maximise night time by starting later and shooting entire 'days' through the night.	Seeks that the noise restrictions at TEMP-S3 (House of operation) are not applied to short film activities.
Massey University	253.19	General District wide Matters / Temporary Activities / TEMP-S3	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEMP-S3 (Hours of operation) as notified.
Massey University	253.20	General District wide Matters / Temporary Activities / TEMP-S4	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEMP-S4 (Maximum noise levels - activity specific, excluding temporary military training activities) as notified.
New Zealand Defence Force	423.36	General District wide Matters / Temporary Activities / TEMP-S4	Support	NZDF supports that the title of activity standard TEMP-S4, which clarifies that this standard does not apply to TMTA.	Retain title of TEMP-S4 (Maximum noise levels – activity specific, excluding temporary military training activities) as notified.
New Zealand Defence Force	423.37	General District wide Matters / Temporary Activities / TEMP-S6	Amend	Considers that TEMP-S6 should apply to all zones within the Proposed District Plan as opposed to the four listed zones (as per NZDF's submission on rule TEMP R3.1).	Seeks that TEMP-S6 (Temporary military training activities) applies to all District Plan zones, not just the four expressly listed zones.
New Zealand Defence Force	423.38	General District wide Matters / Temporary Activities / TEMP-S6	Amend	Temporary Military Training Activities are by their very nature temporary, ranging from a period of days through to several weeks on an intermittent or continuous basis depending on the nature of the activity. NZDF does not consider it necessary or appropriate to impose a time limit on TMTA as per TEMP-S6.1. However, NZDF would support an amendment to this standard to allow TMTA to be undertaken so as not exceed a period of 31 consecutive days (excluding set up and pack down activities). This would also ensure a consistent approach to TMTA is adopted nationwide. Many district plans around the country are being or have been reviewed and NZDF is engaging in those review processes to ensure that where training activities might be subject to controls through a district plan, those controls are consistent and that compliance is simply achieved and assessed.	Amend TEMP-S6.1 (Temporary military training activities) as follows: The duration of the activity must not exceed a period of 14 <u>31</u> consecutive days (excluding set up and pack down activities);
New Zealand Defence Force	423.39	General District wide Matters / Temporary Activities / TEMP-S6	Oppose	Opposes TEMP-S6.2, which states that no TMTA is to be undertaken on Sundays. As outlined in submission, given the nature of TMTA, some activities may need to be undertaken at the weekend, including Sunday, on a continuous basis over the period of several weeks. Providing the TMTA complies with the relevant permitted activity standards and the noise standards for TMTA in Table 26 – APP6, there should be no reason that TMTA could not be undertaken on a Sunday.	Amend TEMP-S6 (Temporary military training activities) as follows: Temporary Military Activities ... 2. No activity to be undertaken on Sundays; ...

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
New Zealand Defence Force	423.40	General District wide Matters / Temporary Activities / TEMP-S6	Oppose	<p>The assessment criteria listed under TEMP-S6 are not considered suitable or appropriate given the inherent nature of TMTA. The only effect from TMTA which requires specific management is noise. In this regard, NZDF have developed appropriate controls to manage noise effects from TMTA outlined in submission point 36 below.</p> <p>Given the nature of TMTA (i.e. that they are not public events held in public spaces and outdoor events venues, such as the waterfront, as are most other activities provided for under the Temporary Activities chapter of the Draft District Plan) it is not appropriate to require TMTA resource consent applications to consider the adverse effects on pedestrian health and safety, traffic generation and effects on the transport network and public access (assessment criteria 1, 5 and 6). Depending on the nature of a TMTA, they may not involve any traffic movements nor effects on pedestrians.</p> <p>The assessment criteria as notified are very specific in nature and may be more appropriate for other temporary events, such as parades held on public streets or in public spaces, or community, recreational or sporting orientated events but are not considered to be relevant to TMTA, which is very tightly managed given the nature of NZDF's activities.</p>	Delete Assessment Criteria 1 in TEMP-S6 (Temporary military training activities).
New Zealand Defence Force	423.41	General District wide Matters / Temporary Activities / TEMP-S6	Oppose	<p>The assessment criteria listed under TEMP-S6 are not considered suitable or appropriate given the inherent nature of TMTA. The only effect from TMTA which requires specific management is noise. In this regard, NZDF have developed appropriate controls to manage noise effects from TMTA outlined in the submission.</p> <p>Given the nature of TMTA (i.e. that they are not public events held in public spaces and outdoor events venues, such as the waterfront, as are most other activities provided for under the Temporary Activities chapter of the Draft District Plan) it is not appropriate to require TMTA resource consent applications to consider the adverse effects on pedestrian health and safety, traffic generation and effects on the transport network and public access (assessment criteria 1, 5 and 6). Depending on the nature of a TMTA, they may not involve any traffic movements nor effects on pedestrians.</p> <p>The assessment criteria as notified are very specific in nature and may be more appropriate for other temporary events, such as parades held on public streets or in public spaces, or community, recreational or sporting orientated events but are not considered to be relevant to TMTA, which is very tightly managed given the nature of NZDF's activities.</p>	Delete Assessment Criteria 5 in TEMP-S6 (Temporary military training activities).
New Zealand Defence Force	423.42	General District wide Matters / Temporary Activities / TEMP-S6	Oppose	<p>The assessment criteria listed under TEMP-S6 are not considered suitable or appropriate given the inherent nature of TMTA. The only effect from TMTA which requires specific management is noise. In this regard, NZDF have developed appropriate controls to manage noise effects from TMTA outlined in submission point 36 below.</p> <p>Given the nature of TMTA (i.e. that they are not public events held in public spaces and outdoor events venues, such as the waterfront, as are most other activities provided for under the Temporary Activities chapter of the Draft District Plan) it is not appropriate to require TMTA resource consent applications to consider the adverse effects on pedestrian health and safety, traffic generation and effects on the transport network and public access (assessment criteria 1, 5 and 6). General District-wide Matters - Wind

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Massey University	253.21	General District wide Matters / Temporary Activities / TEMP-S7	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain TEMP-S7 (Temporary building or structure) as notified.
Paihikara Ki Pōneke Cycle Wellington	302.33	General District wide Matters / Temporary Activities / TEMP-S7	Support in part	[No specific reason given beyond decision requested - refer to original submission].	Retain TEMP-S7 (Temporary building or structure) with amendment.
Paihikara Ki Pōneke Cycle Wellington	302.34	General District wide Matters / Temporary Activities / TEMP-S7	Amend	Considers that cycleways are generally not considered when setting conditions to manage temporary activities leading to poor safety outcomes. Only requiring the efficiency of the transport network to be considered as a part of assessment criteria does not address the increased risk to cyclist safety.	Amend the Assessment Criteria in TEMP-S7 (Temporary building or structure) as follows: 1. Adverse effects on: Pedestrian health and safety; a. The <u>safety and efficiency</u> of the transport network, <u>including cycle and micromobility facilities</u> ; and b. Any restrictions on public access. c. The proposed location, scale, intensity of the activity.
Restaurant Brands Limited	349.56	General District wide Matters / Wind / General WIND	Support	Support	Retain WIND chapter as notified.
Kāinga Ora Homes and Communities	391.304	General District wide Matters / Wind / General WIND	Support in part	All rules in the WIND chapter are supported, but it is considered that these Rules should also apply in MRZ and HRZ.	Retain all Rules in the Wind chapter with amendment.
Thorndon Residents' Association Inc	FS69.23	Part 2 / General District wide Matters / Wind / General WIND	Support	Effective wind rules should be applied in MRZ and HRZ. Parts of inner residential Thorndon already experience nasty wind effects aggravated by 6+ story buildings. TRA seek to avoid any more wind hazards arising from constructed features being introduced to adjacent properties and/or onto our streets.	Allow / Allow in part.
Kāinga Ora Homes and Communities	391.305	General District wide Matters / Wind / General WIND	Amend	Considers that Rules in the WIND chapter should apply to the Medium Density Residential Zone and High Density Residential Zone, as there will be rules providing for buildings over 20m. These zones are currently not included.	Amend Rules in the Wind chapter so that they apply to the Medium Density Residential Zone and High Density Residential Zone, where buildings go over 20m in height.
Retirement Villages Association of New Zealand Incorporated	350.85	General District wide Matters / Wind / WIND-O1	Support in part	Supports the focus of this objective on public spaces. It also supports the focus on safety of wind conditions. Considers reference to amenity effects should be removed.	Retain WIND-O1 (Purpose) and seeks amendment .
Retirement Villages Association of New Zealand Incorporated	350.86	General District wide Matters / Wind / WIND-O1	Amend	Supports the focus of this objective on public spaces. It also supports the focus on safety of wind conditions. Considers reference to amenity effects should be removed.	Amend WIND-O1 (Purpose) as follows: The adverse impact of wind from new developments, additions and alterations on public spaces is managed to: 1. Provide comfortable conditions for pedestrians, whilst acknowledging that not all wind effects can be mitigated; 2 1. Ensure that new developments, additions and alterations do not generate unsafe wind conditions in public spaces and, where possible, ameliorate existing unsafe wind conditions; and 3 2. Prevent the gradual degradation of Wellington's pedestrian wind environment over time.
WCC Environmental Reference Group	377.312	General District wide Matters / Wind / WIND-O1	Support	Considers that the built environment can either worsen or mitigate wind, and Wellington has examples of both of these: with the benefit of modern knowledge, we can now design for the wind: this is particularly important for pedestrian and public areas. This objective will help the city progressively reduce windage in these areas, contributing to liveability.	Retain WIND-O1 (Purpose) as notified.
WCC Environmental Reference Group	377.313	General District wide Matters / Wind / WIND-P1	Support	Considers that the built environment can either worsen or mitigate wind, and Wellington has examples of both of these: with the benefit of modern knowledge, we can now design for the wind: this is particularly important for pedestrian and public areas. This objective will help the city progressively reduce windage in these areas, contributing to liveability.	Retain WIND-P1 (Early consideration of wind in design) as notified.
Retirement Villages Association of New Zealand Incorporated	350.87	General District wide Matters / Wind / WIND-P2	Oppose in part	Supports the focus of this objective on public spaces. It also supports the focus on safety of wind conditions. Considers reference to amenity effects should be removed.	Opposes WIND-P2 (Managing effects) and seeks amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.88	General District wide Matters / Wind / WIND-P2	Amend	Supports the focus of this objective on public spaces. It also supports the focus on safety of wind conditions. Considers reference to amenity effects should be removed.	Amend WIND-P2 (Managing effects) as follows: Require that larger-scale buildings, including additions and alterations, are designed to: ... 3. Limit any deterioration of the wind environment that effects: a. Safety and amenity of pedestrians; and b. Existing wind mitigation measures.
WCC Environmental Reference Group	377.314	General District wide Matters / Wind / WIND-P2	Support	Considers that the built environment can either worsen or mitigate wind, and Wellington has examples of both of these: with the benefit of modern knowledge, we can now design for the wind: this is particularly important for pedestrian and public areas. This objective will help the city progressively reduce windage in these areas, contributing to liveability.	Retain WIND-P1 (Managing effects) as notified.
Retirement Villages Association of New Zealand Incorporated	350.89	General District wide Matters / Wind / WIND-P3	Support in part	Supports the focus of this objective on public spaces. It also supports the focus on safety of wind conditions. Considers reference to amenity effects should be removed.	Retain WIND-P2 (Managing effects) and seeks amendment. [Inferred decision requested]
Retirement Villages Association of New Zealand Incorporated	350.90	General District wide Matters / Wind / WIND-P3	Amend	Supports the focus of this objective on public spaces. It also supports the focus on safety of wind conditions. Considers reference to amenity effects should be removed.	Seeks to amend WIND-P2 (Managing effects) to replace 'practical' with 'practicable' in clause (3). [Inferred decision requested]
Retirement Villages Association of New Zealand Incorporated	350.91	General District wide Matters / Wind / WIND-P3	Oppose in part	Opposes the requirement in (3) to limit any deterioration of the wind environment that affects amenity of pedestrians. Considers (2) should refer to practicability, rather than practicality.	Seeks to amend WIND-P3 (Comfort and safety in public spaces) to remove "and comfort of". [Inferred decision requested]
Retirement Villages Association of New Zealand Incorporated	350.92	General District wide Matters / Wind / WIND-P3	Oppose in part	Opposes the requirement to maintain and where possible enhance the comfort of public space as it is inconsistent with the acknowledgement in WIND-O1(1).	Opposes WIND-P3 (Comfort and safety in public spaces) and seeks amendment. [Inferred decision requested]
Retirement Villages Association of New Zealand Incorporated	350.93	General District wide Matters / Wind / WIND-P3	Amend	Opposes the requirement to maintain and where possible enhance the comfort of public space as it is inconsistent with the acknowledgement in WIND-O1(1).	Seeks to amend WIND-P3 (Comfort and safety in public spaces) to remove "and comfort of public space". [Inferred decision requested]
WCC Environmental Reference Group	377.315	General District wide Matters / Wind / WIND-P3	Support	Considers that the built environment can either worsen or mitigate wind, and Wellington has examples of both of these: with the benefit of modern knowledge, we can now design for the wind: this is particularly important for pedestrian and public areas. This objective will help the city progressively reduce windage in these areas, contributing to liveability.	Retain WIND-P3 (Comfort and safety in public spaces) as notified.
WCC Environmental Reference Group	377.316	General District wide Matters / Wind / WIND-P4	Support	Considers that the built environment can either worsen or mitigate wind, and Wellington has examples of both of these: with the benefit of modern knowledge, we can now design for the wind: this is particularly important for pedestrian and public areas. This objective will help the city progressively reduce windage in these areas, contributing to liveability.	Retain WIND-P4 (Comfort and safety in public spaces created through new development) as notified.
Retirement Villages Association of New Zealand Incorporated	350.94	General District wide Matters / Wind / WIND-R1	Support in part	Supports the permitted activity status when the construction, alteration and additions to buildings and structures meet the permitted heights of various zones (being non-residential zones). where a wind report is required, supports the focus on effects on public spaces and considers the matters of discretion should be limited to the wind effects of the building height exceedance.	Retain WIND-R1.2 (Construction, alteration and additions to buildings and structures) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.95	General District wide Matters / Wind / WIND-R1	Amend	Supports the permitted activity status when the construction, alteration and additions to buildings and structures meet the permitted heights of various zones (being non-residential zones). where a wind report is required, supports the focus on effects on public spaces and considers the matters of discretion should be limited to the wind effects of the building height exceedance.	Amend WIND-R1.2 (Construction, alteration and additions to buildings and structures) to ensure matters of discretion (1), (3) and (4) are limited by (2).
WCC Environmental Reference Group	377.317	General District wide Matters / Wind / WIND-R1	Support	Considers that the built environment can either worsen or mitigate wind, and Wellington has examples of both of these: with the benefit of modern knowledge, we can now design for the wind: this is particularly important for pedestrian and public areas. This objective will help the city progressively reduce windage in these areas, contributing to liveability.	Retain WIND-R1 (Construction, alteration and additions to buildings and structures) as notified.
Kāinga Ora Homes and Communities	391.306	General District wide Matters / Wind / WIND-R1	Support in part	WIND-R1 is partially supported, but amendments are sought.	Retain WIND-R1 (Construction, alteration and additions to buildings and structures) with amendment.

General Points on Part 3

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.307	General District wide Matters / Wind / WIND-R1	Amend	Considers that height limits in WIND-R1 should be amended to align with proposed Centre heights. Heights of buildings are restricted to between 12-20m depending on Centre type. These heights should be adjusted to better align with the height limits sought in the relevant centres to not preclude development necessary to have a quality urban environment.	Amend WIND-R1 (Construction, alteration and additions to buildings and structures) to align with the heights of buildings restricted to between 12-20m depending on Centre type. [Refer to original submission for specific height amendments]
Retirement Villages Association of New Zealand Incorporated	350.96	General District wide Matters / Wind / WIND-R2	Support	Supports the permitted activity status of the construction, alteration and additions to buildings and structures in residential zones provided by WIND-R2.	Retain WIND-R2 (Construction, alteration and additions to buildings and structures) as notified.
Te Herenga Waka Victoria University of Wellington	106.8	General District wide Matters / Wind / WIND-S1	Oppose in part	Considers that the Wind rules should not apply to the Tertiary Education zone. Wind rules did not previously apply to the Institutional Precinct under the Wellington Operative District Plan. The University is not aware of any widespread and/or significant existing adverse wind effects that would justify extending control of wind effects to include the Tertiary Education zone.	Amend standard WIND-S1 (Safety) as follows: WIND-S1 ... Tertiary Education Zone
Property Council New Zealand	338.8	General District wide Matters / Wind / WIND-S1	Amend	Considers that wind test requirements at 20 m/s is inadequate and should be amended to 22m/s to allow for a buffer to the newly proposed minimum building heights and residential maximum heights. Proposing minimum building heights that sit above the 20 metre City Centre wind test threshold could have adverse effects for development within the city. For example, a minimum building height of 21.5 metres in Te Aro would mean all future developments would have to undertake a wind test which costs around \$20,000 - \$25,000 and adds approximately six to nine months to a project. Increasing the wind test level will likely encourage more large-scale developments in Wellington and would also simplify the Council's and applicant's overall development process.	Amend WIND-S1 (Safety) as follows: 1. The proposed building, additions or alterations must not result in an annual maximum gust speed in excess of 20 22 m/s in any public space.
Wellington's Character Charitable Trust	FS82.155	Part 2 / General District wide Matters / Wind / WIND-S1	Oppose	Considers Wellington is notoriously windy, and increasing the wind safety speed threshold when climate change is resulting in more extreme and uncertain weather conditions would be unsafe for pedestrians.	Disallow
Te Herenga Waka Victoria University of Wellington	106.9	General District wide Matters / Wind / WIND-S2	Oppose in part	Considers that the Wind rules should not apply to the Tertiary Education zone. Wind rules did not previously apply to the Institutional Precinct under the Wellington Operative District Plan. The University is not aware of any widespread and/or significant existing adverse wind effects that would justify extending control of wind effects to include the Tertiary Education zone.	Amend standard WIND-S1 (Safety) as follows: WIND-S2 ... Tertiary Education Zone
Dawid Wojasz	295.8	General District wide Matters / Wind / WIND-S2	Amend	Considers that undesirable conditions are not allowed to deteriorate by a set amount of days per year for new development. This is currently measured by comparing the existing environment with a proposed building. Considers that given that there are minimum heights in the district plan this should be the base level effects are measured against not the existing environment.	Seeks to amend the WIND-S2 (Deterioration of the wind environment), by changing the wording to allow a minimum height building be used as a reference to measure wind effects of proposed developments.
James Coyle	307.4	Part 3 General / Part 3 General / Part 3 General	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks building height for all other zones apart from the CCZ and the Centres Zones be reduced by one or two storeys to be more specific to Wellington. [Inferred decision requested]
New Zealand Motor Caravan Association	314.10	Part 3 General / Part 3 General / Part 3 General	Amend	Considers that freedom camping should be a permitted activity in the zoned-based chapters on the basis that freedom camping should instead be managed through the Council's bylaw. [Option 2]	Seeks that freedom camping is a permitted activity in all zones.
New Zealand Motor Caravan Association	314.11	Part 3 General / Part 3 General / Part 3 General	Amend	Considers that campgrounds should be a permitted activity in the zoned-based chapters, as allowing for more permissive rules around the establishment of campgrounds will make it easier to establish sites for vehicle-based camping in the Wellington District. [Option 2]	Seeks that campgrounds are a permitted activity in all zones.

Residential - General Points

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Carolyn Stephens	344.8	Part 3 General / Part 3 General / Part 3 General	Amend	Considers that the plan should be amended to encompass more new developments as controlled activities in respect of urban design. This is to ensure that quality in design at a local level can be considered for the majority of developments, and that this process is tied to community-level design guides as they are developed. [Refer to original submission for full reason]	Seeks that the plan be amended to encompass more new developments as controlled activities in respect to urban design.
Royal Forest and Bird Protection Society	345.383	Part 3 General / Part 3 General / Part 3 General	Support in part	For all zones, opposes any provisions that lessen the protection given to SNAs, OFLS, SALS, or areas of natural character in the coastal environment. We submit that all provisions in Zones still have to give effect to the requirements of the Act and national direction, including the NZCPS. Any exemptions from those requirements are opposed.	Amend all zones to remove any exemptions to requirements of national direction instruments, particularly the NZ Coastal Policy Statement.
Ministry of Education	400.92	Part 3 General / Part 3 General / Part 3 General	Amend	Submitter considers that educational facilities should be enabled as part of urban growth and development and are considered in any zoning changes made. The submitter notes that various changes are proposed to the zoning of land throughout the district. Changes in zoning have the potential to result in changes in development and in the population size and demographic of residents throughout the district, which can consequently impact on the capacity of educational facilities. The submitter acknowledges the changing nature of zoning and development within a district as part of the District Plan process.	Seeks that educational facilities are enabled as part of urban growth and development and are considered in any zoning changes made.
Wellington International Airport Ltd	406.496	Part 3 General / Part 3 General / Part 3 General	Amend	[No specific reason given beyond decision requested - see original submission]	Seeks an amendment that prohibiting noise sensitive activities within zones where such activities are not generally anticipated (i.e. the general industrial and Open Space Zones) are a prohibited activity.
Kāinga Ora – Homes and Communities	FS89.151	Part 3 / Part 3 General / Part 3 General / Part 3 General	Oppose	Kāinga Ora opposes this decision requested as prohibiting activities is excessive and does not consider options for well-functioning urban environments when there may be opportunities to mitigate effects.	Disallow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.151	Part 3 / Part 3 General / Part 3 General / Part 3 General	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Guy Marriage	407.2	Part 3 General / Part 3 General / Part 3 General	Amend	Considers that the shift in density and a residential zone level and potential for 3x3 on a single site calls for the need to have a design review, certainly if a 3x3 is proposed, and any development within the inner city as this will have a significant impact on the cities character. Without clear incentives for high quality design outcomes we simply risk creating a dumbed down mediocre city. A mandatory Design Panel Review will encourage high quality design outcomes.	Seeks the addition of a mandatory Design Review Panel for all inner-city developments, 3x3 developments in the medium density residential zone, mixed use developments and centres where developments are over 3 levels.
Paul Gregory Rutherford	424.14	Part 3 General / Part 3 General / Part 3 General	Amend	Considers that Wellingtonians will relish the challenge of working together. Some suburbs such as Newtown are proactively taking a lead in rethinking their localities. Such initiatives create a sense of community, enhance democracy and deliver change in ways that build on community strengths. Seeks that participatory design projects, coupled with clear housing targets, so communities are involved in welcoming new people. Imposing arbitrary change when better options exist simply fosters local resentment.	Seeks that the Proposed District Plan needs to be amended to encompass more new developments as controlled activities in respect of urban design so as to ensure that quality in design at a local level can be considered for the majority of developments, and that this process is tied to community-level design guides as they are developed.
Gregory Webber	33.4	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Green Street has houses primarily built in the 1890's and very early 1900's and you cannot bring these houses back once they're gone. Green Street housing is of the same era and aesthetic as the upper part of Wilson Street and Coromandel Street which are classified as heritage areas.	Seeks that the housing in Green Street has the same protection as Coromandel Street and Wilson Street.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	F582.216	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest of the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Michael Harvey	38.1	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Seeks that "Sausage Flats" are actively discouraged through the MDRS in the District Plan, in a similar fashion to Auckland City Council.	Not specified
Peter Hill	41.1	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that the Ministry for the Environment and Ministry of Housing and Urban Development are concerned about the effects of tall apartment blocks immediately adjacent to zones of much smaller housing. Considers that WCC does not follow the directives of the NPS-UD with respect to sensible zoning patterns when establishing the boundaries of the character precincts within the High Density Residential Zone.	Seeks that the Proposed District Plan zoning patterns, in establishing the boundaries of Character Precincts within a High Density Residential Zone, adhere more closely to the points 1, 3 and 5 in Figure 11 "Sensible Zoning Patterns" of the Ministry for the Environment document: Understanding and Implementing Intensification Provisions for the NPS-UD. [Inferred decision requested].
Peter Hill	41.2	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that the 11 blocks split between character precincts and the HDRZ in Mt Cook result in fragmentation of the suburb.	Seeks that Figure 1 (Peter Hill Submission to Proposed District Plan 26-8-22) is an example plan for the re-drawing of Character Precinct boundaries in Mount Cook. [Refer to original submission]
Peter Hill	41.3	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that Table 2.21 of the Wellington Regional Housing and Business Development Capacity Assessment (Demand and capacity comparison by housing type and by housing catchment 2021-2051) shows that the capacity for Inner Wellington exceeds the demand, it should be practicable to redraw the Character Precinct boundaries.	Seeks that the Character Precincts boundaries for Mount Cook are redrawn to create the type of sensible zoning pattern outlined by the Ministry for the Environment.
Peter Hill	41.4	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that the PDP protects only 28.8% of the previous character areas while the equivalent Auckland plan protects about 75% which has not raised any objections from the Ministry for the Environment or the Ministry of Housing and Urban Development.	Not specified.
Peter Hill	41.5	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that based on a site-by-site examination of Mt Cook brownfield areas, this yields a total area of 4.1884ha and at an uptake rate of 30% at least 300 new dwellings could be built in the potential brownfield sites identified in Figure 2 (Plan showing Potential Brownfield Sites in the Suburb of Mt Cook (excluding Adelaide Road area)). [Refer to original submission including attachments "Housing Notes - Mt Cook" and "Mt Cook - Brownfield Sites Survey" for full calculations]. Considers that as the estimated growth figures of additional dwellings for Mount Cook is 79-174 over 30 years [refer to Table 2: Inner Suburbs Estimated Growth Figures in original submission] this growth could be met by development in the potential brownfield sites alone.	Seeks that Figure 2 - Plan showing Potential Brownfield Sites in the Suburb of Mt Cook (excluding Adelaide Road area) support the practicability of a sensible zoning pattern for Mount Cook.
James Barber	56.2	Residential Zones / General point on Residential Zones / General point on Residential Zones	Support	Supports intensification in the residential zones	Seeks that the residential intensification enabled by the PDP is approved
Conor Hill	76.23	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that limiting dwellings is anti-people. Considers that dwelling-per-section limits fail to take into account dwelling size.	Seeks that the limit of three dwellings per site are deleted in every zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	FS82.54	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	Considers the submission point is inconsistent with the NPS-UD and MDRS.	Disallow
LIVE WELLington	FS96.88	Part 3 / Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	This would be inconsistent with the NPS-UD and MDRS	Disallow
Judith Graykowski	80.2	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that dwellings built to the site boundaries are poor quality places and should require some transition from street to doorway.	Not specified.
Rowan Hannah	84.1	Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	Considers that the changes to the District Plan (specifically intensification provisions) will change the look and feel of the rural area and opposes medium density development in this area.	Seeks that intensification is not enabled in the General Rural Zone.
Interprofessional Trust	96.3	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that the operative District Plan does not follow best practice with respect to medium density housing and that the PDP must rectify this. [Refer to original submission for further detail].	Seeks that the Proposed District Plan is amended to follow international best practice with respect to medium density housing. [refer to submission for further details]
Interprofessional Trust	96.4	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that the recession plane provisions in the operative District Plan are inappropriate and that these must be accepted as mistakes and removed. [Refer to original submission for further details]	Seeks that the recession plane (Height in Relation to Boundary) standards are removed from the Proposed District Plan.
Interprofessional Trust	96.5	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that indoor-outdoor ambience should be provided to evert dwelling.	Seeks limits for indoor-outdoor ambience be imposed as set out in the submission.
Kate Zwartz	110.1	Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	Considers that preserving neighbourhood character and access to sunlight is important, and that controls are needed on how well high density is built.	Seeks reconsideration of loss of heritage protections and of the blanket 21m height limits in the central suburbs.
Claire Nolan, James Fraser, Margaret Franken, Bidy Bunzel, Michelle Wooland, Lee Muir	FS68.39	Residential Zones / General point on Residential Zones / General point on Residential Zones	Support	Supports submission that seeks to extend character precincts in Newtown.	Allow
Gael Webster	114.2	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that the WCC should only implement rules providing for the minimum intensification required by the government's new legislation.	Seeks that more qualifying matters are provided to give greater protection of heritage/character/townscape and amenity values (particularly sunshine hours on dwellings).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Braydon White	146.10	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Supports the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.	Seeks that the MRZ is amended to include the Coalition for More Homes' Alternative medium density residential standards recommendations for outdoor living space and green space.
Braydon White	146.11	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that shading as a qualifying matter should be reduced from what is proposed.
Braydon White	146.12	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that where shading is qualifying matter, there is a new policy for providing pop-up public realm for development-shaded homes.	Seeks that there is a new policy providing for pop-up public realm for houses that are shaded by new development.
Braydon White	146.13	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that developments should adequately accommodate active travel as the building users' first-best choice for accessing it.	Seeks that a new standard is added requiring that developments adequately accommodate active travel as the building users' first-best choice for accessing it.
Braydon White	146.14	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that universal accessibility should be a non-negotiable for all developments.	Seeks that universal accessibility is a non-negotiable for all developments.
Vivienne Morrell	155.4	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that the PDP will see a random scattering of six-or higher-storey tower blocks in what are largely one and two storey residential suburbs, with those blocks dominating and shading existing neighbours. The potential for poor health outcomes, poor housing and resentment of occupants is considerable.	Seeks that a transition zone next to heritage buildings and character precincts is created.
Vivienne Morrell	155.5	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that HRZ new six-storey buildings will make existing neighbours' houses shadier, damper, less healthy, and unpleasant to live in.	Not specified.
Vivienne Morrell	155.6	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that design requirements for multi-unit residential developments should be strengthened to future-proof buildings and provide for good community experience. Considers that the provisions for recession planes, privacy, outlook space and solar access (HRZ-S3, HRZ-S14, and HRZ-S15) are very limited and simply not adequate, given the buildings in the HRZ can go right to site boundaries.	Not specified.
Vivienne Morrell	155.7	Residential Zones / General point on Residential Zones / General point on Residential Zones	Amend	Considers that it is a particular issue if a new building blocks the sunlight from existing solar panels on a neighbour's property.	Not specified.
Vivienne Morrell	155.8	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that dwellings built to the site boundaries are poor quality places and should require some transition from street to doorway.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Jill Ford	163.8	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that all new multiunit developments include public outdoor green space suitable for children.
Amos Mann	172.16	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	<p>Considers that we need to re-invent how we house ourselves. We cannot know exactly what flavour of new housing approaches will come to the fore over this period of change, but we do know that what we have now isn't working for 90% of our community members throughout the majority of their lives.</p> <p>Considers that these alternative housing solutions are not only excellent viable solutions to housing affordability barriers but also, if well planned for by council, are solutions to reducing the climate change and environmental impacts of single family traditional housing because they can use much less land per occupant and less building materials per occupant.</p> <p>In addition, well-planned co-living is a viable solution for increasing social cohesion.</p> <p>[Refer to original submission for full reasons].</p>	Seeks that the District Plan empower the development of a wide range of diverse and varied housing types in all residential zones, including co-housing, tiny housing, and Papakāinga projects.
Ros Bignell	186.6	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Supports and welcomes new residential building that is well designed and complementary to the current streetscape of Newtown.	Seeks that new residential building that is well designed and complementary to the current streetscape of Newtown.
Claire Nolan, James Fraser, Margaret Franken, Bidy Bunzel, Michelle Wooland, Lee Muir	F568.24	Residential Zones / General point on Residential Zones / General point on Residential Zones	Support	Supports submission seeking that character protections should extend to Lawrence Street, Newtown.	Allow
Michael O'Rourke	194.4	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that height zoning should be applied more microscopically and be graduated based on neighbourhood, topography, and position on block in order to minimise the impact on neighbouring properties.	Seeks that height zoning should be applied more microscopically and be graduated based on neighbourhood, topography, and position on block to minimise the impact on neighbouring properties.
Mary-Anne O'Rourke	195.4	Residential Zones / General point on Residential Zones / General point on Residential Zones	Oppose	<p>Considers that it is contradictory to permit building intensification in the Kilbirnie, Lyall Bay, and Miramar suburbs, which are flood and tsunami prone, when the Government are not willing to invest in transport infrastructure (light rail) in the area due to its environmental vulnerability.</p> <p>In addition, the aging and unmaintained infrastructure will not tolerate this level of housing intensification.</p>	<p>Seeks that building intensification is reduced in the Eastern Suburbs area.</p> <p>[Inferred decision requested].</p>
Antony Kitchener and Simin Littschwager	199.7	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Supports densification when it is "done well" and fairly distributed across the entire city.	<p>Seeks that densification is distributed across the entire city and that six-storey buildings are not concentrated in Crofton Downs, Ngaio, and Khandallah.</p> <p>[Inferred decision requested].</p>
Antony Kitchener and Simin Littschwager	199.8	Residential Zones / General point on Residential Zones / General point on Residential Zones	Not specified	Considers that the likes of Ngaio and Khandallah could benefit from some degree of densification to provide more local amenities and socio-cultural facilities, but this needs to be designed and executed well with constraint or consideration for the impacts on the community.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
